(8) Under the Public Employees' Medical and Hospital Care Act, a former Member of the Legislature who is a member of a state funded retirement system and who has at least 8 years of service credit may, prior to retirement, enroll in a health benefits plan and dental care plan, as specified, provided that the member pays the total cost of that coverage, plus an additional 2% for administrative costs. Upon retirement, if that member elects to enroll in or continue that coverage, the state assumes payment of employer contributions with respect thereto. Under existing law, Members of the Legislature who first took office after November 1, 1990, may not participate in a state funded retirement system while in office. Employer and employee contributions for health care benefits and administrative costs under the Public Employees' Medical and Hospital Care Act are deposited into one of 2 continuously appropriated special funds.

This bill would authorize a former Member of the Legislature, who has at least 6 years of service credit, to elect, within a specified period, to enroll or continue his or her enrollment in a health benefits plan and dental care plan, as specified, provided that the member pays the total premiums plus an additional 2% for administrative costs, as specified. By increasing the contributions to a continuously appropriated special fund, the bill would make an appropriation.

(9) The bill would also delete obsolete provisions and make technical changes to the Public Employees' Retirement Law and the Public Employees' Medical and Hospital Care Act.

(10) This bill would incorporate additional changes to Section 20057 of the Government Code proposed by AB 1498, to be operative if AB 1498 and this bill become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 520 (AB 1585) Committee on Public Employees, Retirement and Social Security. County employees' retirement systems.

(1) Existing law authorizes the board of retirement or, if applicable, the board of investments of a retirement system subject to the County Employees Retirement Law of 1937 to invest the funds of the retirement system for the benefit of the members of the system and in a manner consistent with their fiduciary duties.

This bill would authorize the board of retirement or, if applicable, the board of investments of one of those retirement systems to obtain a loan, secured by a portion of the assets of the retirement system, if the board finds that an emergency exists affecting the national banking system or financial markets that makes the loan necessary to pay benefits when due. The costs of the loan would be a charge against investment earnings of the retirement fund.

(2) The County Employees Retirement Law of 1937 also authorizes the board of retirement in specified counties to contract with county counsel or private attorneys or employ staff attorneys for legal services.

This bill would authorize the board of retirement in any county subject to the County Employees Retirement Law of 1937 to contract for or employ legal staff for legal services, if the board of retirement, by resolution, makes those provisions applicable to the county.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(3) The County Employees Retirement Law of 1937 requires the county treasurer to file a sworn statement of the financial condition and financial transactions of the county's retirement system with the county auditor and county board of supervisors within 4 months after the end of the calendar or fiscal year.

This bill would instead require that statement to be filed within 6 months after the end of the calendar or fiscal year.

(4) Existing law establishes a replacement benefits program for members of retirement systems subject to the County Employees Retirement Law of 1937, other than Los Angeles County, whose retirement benefits may exceed the pension payment limitations of Section 415 of the Internal Revenue Code. Existing law establishes a separate program, known as plan F, for members of the retirement system in Los Angeles County.

This bill would revise and recast those provisions relating to the replacement benefits program and would require each county and district subject to the County Employees Retirement Law of 1937, including Los Angeles County if it terminates plan F, to establish and administer a replacement benefits program, as specified. The bill would also authorize counties, pursuant to a contract with a district, to administer the district's program and authorize the retirement board to assist in the administration of the program to the extent permitted by federal law.

Ch. 521 (AB 1625) Benoit. Vehicles: seatbelts: fines.

Existing law imposes a fine of not more than $20 for a first violation and a fine of not more than $50 for each subsequent violation of operating a motor vehicle on a highway without all passengers 16 years of age or older being properly restrained by a safety belt, being a passenger of 16 years of age or older in a motor vehicle on a highway without being properly restrained by a safety belt, and being an owner of a motor vehicle without maintaining safety belts in good working order. The maximum amount of the fine includes all penalty assessments and court costs. In addition to the basic fine and penalty assessments under other provisions, an additional penalty assessment of $2 is levied for any first offense and $5 for any subsequent offense.

This bill would delete the inclusion of the penalty assessments and court costs in determining the maximum amount of the fine that may be imposed. The bill would also eliminate the additional penalty assessments levied for a first and subsequent offense.

Ch. 522 (AB 1634) Keene. Public lands: transfer.

Existing law grants the lands formerly comprising General Bidwell State Park to the County of Butte, subject to the conditions, restrictions, and limitations in the indenture by which the land was conveyed to the state, and subject to further conditions that the land be improved and used by the county as a public park, that the county not transfer the land or any part thereof, and that mineral rights in the land be excepted and reserved to the state.

Existing law authorizes the county to grant a portion of the land to the City of Chico, subject to the conditions, restrictions, and limitations specified above, except the requirement to improve the land as a public park.

This bill would authorize the city to sell or exchange portions of this land under certain specified circumstances and free of conditions, restrictions, or limitations imposed upon the city and its successors under specified statutes. The bill would require the proceeds of a sale or conveyance of land to be deposited into the city's park fund.

Ch. 523 (AB 1668) Salinas. Child Care Facilities Revolving Fund.

(1) Existing law establishes the Child Care Facilities Revolving Fund in the State Treasury to provide funding for the renovation, repair, or improvement of an existing building to make the building suitable for licensure for child care and development services and for the purchase of new relocatable child care facilities for lease to school districts and contracting agencies that provide child care and development services.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Other existing law establishes the California School Age Families Education program (Cal-SAFE) to provide state funding and assistance to school districts and county superintendents of schools for the purpose of establishing comprehensive, continuous, community linked, school-based programs that focus on youth development and dropout prevention for pregnant and parenting pupils, and child care and development services for their children.

This bill would specify that a school district or county office of education that provides child care pursuant to the California School Age Families Education (Cal-SAFE) Program is eligible to apply for and receive funding from the fund.

(2) Existing law requires a school district or county superintendent of schools participating in the Cal-SAFE program to meet specified requirements, including entering into formal partnership agreements, as necessary, with community-based organizations and other governmental agencies to assist pupils in accessing support services.

This bill would require the school district or county superintendent of schools to also enter into formal partnership agreements, as necessary, with community-based organizations and other governmental agencies to provide child care and development services.

(3) Existing law requires a support services allowance allocated pursuant to the Cal-SAFE program to be maintained in a separate account and expended only for supportive services, in-service training, and other specified costs. Existing law requires other funds allocated pursuant to the Cal-SAFE program for child care and development to also be maintained in a separate account and expended only for child care and development services and staff development, as provided.

This bill would provide that a support services allowance may not be used to supplant average daily attendance and revenue limit funding for the support of other educational programs that Cal-SAFE program pupils attend.

(4) Existing law authorizes the Superintendent of Public Instruction to enter into and execute a local contractual agreement with any public or private entity or agency for the delivery of child care and development services, as provided.

This bill would authorize the superintendent, upon a determination that an overpayment of child care funds was made to the child care provider operating as C.O.P.E. Centro Familar, to enter into a repayment plan that permits repayment, with interest, over a period not to exceed 5 years. This bill would make a legislative finding and declaration that due to the unique fiscal circumstances concerning C.O.P.E. Centro Familar, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

Ch. 524 (AB 1697) Pavley. Vehicles: child passenger restraint system.

Under existing law, it is unlawful for a parent or legal guardian, when present in a motor vehicle, as defined, to permit his or her child or ward, or a driver to permit a child, who is less than 6 years of age or weighs less than 60 pounds to be transported on the highway in the vehicle without securing the child or ward in a specified child passenger restraint system.

This bill would make technical, nonsubstantive changes to those provisions and delete an obsolete statutory reference.

This bill would require, beginning January 1, 2005, the child or ward to be secured in a rear seat in that child passenger restraint system. The bill would allow a child or ward under the age of 6 years who weighs less than 60 pounds to ride in the front seat if properly secured in a child passenger restraint system under specified circumstances.

The bill would provide that, notwithstanding that authorization, a child or ward may not ride in the front seat of a motor vehicle with an active passenger air bag, if the child or ward is under one year of age, weighs less than 20 pounds, or is riding in a rear-facing child passenger restraint system.

Because a violation of the vehicle law constitutes a crime, this bill would impose a state-mandated local program by expanding the scope of an existing crime.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 525 (AB 1717) Committee on Transportation. Transportation.

(1) Existing law creates a transportation planning and programming process for the expenditure of transportation capital funds and describes the powers and duties of the Department of Transportation and the California Transportation Commission in that regard. Existing law requires the department to submit various reports to the Legislature regarding transportation project delivery, seismic retrofit projects, and certain other matters.

This bill would eliminate certain reporting requirements.

(2) Existing law authorizes the Department of Transportation, by interagency agreement, to transfer responsibility for administering an intercity rail passenger corridor funded by the department to a joint powers board, and prescribes certain requirements applicable to the Capitol Corridor in the event an interagency agreement is concluded for that corridor, including the selection of a public rail transit agency to provide all necessary administrative support staff to the joint powers board.

This bill would delete provisions governing the length of terms of the interagency agreement and would provide for 5-year renewal terms applicable to the selection of an agency by the Capitol Corridor board to provide administrative support staff.

(3) Existing law provides that the Department of Transportation shall have full possession and control of all state highways. Existing law describes the authorized routes in the state highway system and establishes a process for adoption of a traversable highway on an authorized route by the California Transportation Commission. Existing law authorizes the commission to relinquish certain state highway segments to local agencies.

This bill would revise the route descriptions for certain state highway segments that have been relinquished to local agencies.

(4) Existing law creates the Division of Aeronautics in the Department of Transportation with certain powers and duties relative to aviation. Existing law requires the division to collaborate in the development and implementation of a computerized cockpit instrument display for general aviation aircraft, and establishes a process for selecting general aviation capital improvement projects funded with state and federal funds. Existing law requires certain airport planning functions to be funded solely with federal funds.

This bill would repeal the provisions relating to implementation of the computerized cockpit instrument display and would authorize certain airport planning functions to be funded from nonfederal sources. The bill would also make revisions to the process for selecting capital projects.

(5) Existing law describes the authorized boundaries of the Sacramento Regional Transit District and cities that may be annexed to the district.

This bill would identify Citrus Heights, Elk Grove, and Rancho Cordova as additional cities that may be annexed to the district.

(6) The bill would make other conforming changes.

Ch. 526 (SB 20) Sher. Solid waste: hazardous electronic waste.

(1) Existing law prohibits the management of hazardous waste, except in accordance with the hazardous waste control laws. Under existing law, the Department of Toxic Substances Control is authorized to exempt, until January 1, 2003, by regulation, a hazardous waste management activity from the requirements of the hazardous waste control law if the regulation governs a specified type of hazardous waste, including electronic hazardous wastes, identifies the hazardous waste as a universal waste, and amends specified existing regulations of the department. Existing law prohibits the disposal of electronic products in or on land, except as specified. A violation of the hazardous waste control law is a crime.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would authorize the Department of Toxic Substances Control to adopt management standards, by regulation, as an alternative to the hazardous waste control laws, for electronic waste that the department determines is hazardous, to the extent consistent with the federal Resource Conservation and Recovery Act of 1976 (RCRA). The bill would require the department to adopt regulations to prohibit an electronic device from being sold or offered for sale in this state if the electronic device is prohibited from being sold in the European Union on and after its date of manufacture, due to the presence of certain heavy metals. The bill would prohibit these regulations from taking effect until January 1, 2007, or on or after the date the Directive 2002/95/EC, as adopted by the European Parliament and the Council of the European Union on January 27, 2003, takes effect, whichever date is later. The bill would require the department to exclude certain electronic devices from the regulations and would prohibit the department from requiring the manufacture or sale of an electronic device that is different than, or not otherwise prohibited by, the European Union, thereby imposing a state-mandated local program by creating a new crime. The bill would also incorporate the provisions of the Electronic Waste Recycling Act of 2003, as specified below, by reference into the hazardous waste control laws.

(2) Existing law requires the California Integrated Waste Management Board to administer state programs to recycle various specified materials.

This bill would enact the Electronic Waste Recycling Act of 2003. The bill would make it unlawful to sell, on and after July 1, 2004, a covered electronic device in this state to a consumer, as defined, unless the board or department determines that the manufacturer of that device is in compliance with the act. The bill would prohibit the sale of a covered electronic device, after January 1, 2005, that is not labeled, as specified.

The bill would require a retailer selling a covered electronic device in this state to collect an electronic waste recycling fee from the consumer on and after July 1, 2004, and to transmit the fee to the board in accordance with a schedule and procedures that the board would be required to establish. The bill would set the electronic waste recycling fee in an amount according to a specified fee schedule and would require the board, in collaboration with the department, on and after July 1, 2005, and at least once every 2 years thereafter, to review and adjust the electronic waste recycling fee, based on specified factors.

The bill would require each manufacturer of an electronic device who sells the device in this state, by July 1, 2005, and at least once annually thereafter, to submit a report to the board on the number of electronic devices sold by the manufacturer in this state during the previous calendar year and other information regarding certain specified materials in those devices. A manufacturer would also be required to make information available to consumers that describes where and how to return, recycle, and dispose of the electronic device and opportunities and locations for the collection or return of the device, through specified means.

The bill would impose civil liability for violations of specified provisions.

The bill would require the board, in collaboration with the department, to convene an electronic waste working group to define environmental purchasing criteria, by July 1, 2005, that may be used by state agencies. The bill would also require the board to annually establish and update, as necessary, statewide electronic waste recycling goals.

The bill would require the board and the department to deposit the fees and fines collected under the act in the Electronic Waste Recovery and Recycling Account, which the bill would create in the Integrated Waste Management Fund in the State Treasury.

This bill would authorize the board and the department to expend the moneys deposited in the account, upon appropriation by the Legislature, to make electronic waste recovery payments to authorized collectors, to make electronic waste recycling payments to covered electronic waste recyclers, and to administer the act, and provisions regulating covered electronic devices. The bill would also allow the expenditure of not more than 1% of the funds in the account to establish public information programs on recycling of hazardous electronic devices.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would require the board, in collaboration with the department, to establish on July 1, 2004, and on July 1 every 2 years thereafter, an electronic waste recovery payment schedule to cover the net cost of an authorized collector in operating a free and convenient system for collecting, consolidating and transporting covered electronic wastes generated in this state and would require the board to make those payments to authorized collectors or to a covered electronic waste recycler for payment to an authorized collector. The bill would also require the board to establish an electronic waste recycling payment schedule to cover an e-waste recycler's net cost of receiving, processing, and recycling covered electronic waste from an authorized collector and would require the board to make those payments to covered electronic waste recyclers. The bill would allow a recycler to receive these payments only if the recycler meets specified eligibility requirements regarding the recycler's facilities. The bill would authorize the board and the department to adopt regulations to implement the bill and would authorize these regulations to be adopted as emergency regulations, as specified.

The bill would require any person who intends to export electronic waste to a foreign destination to comply with specified notification requirements and to demonstrate, among other things, that the handling of the exported electronic waste within the country of destination would meet certain standards adopted by the Organization for Economic Co-operation and Development.

Since the bill would incorporate the provisions of this act into the hazardous waste control laws, a violation of which is a crime, the bill would impose a state-mandated local program by creating new crimes.

(3) Existing law, the California Integrated Waste Management Act of 1989, requires the county or regional agency integrated waste management plan that a county or regional agency is required to submit to the board to contain a household hazardous waste element.

This bill would require, on and after January 1, 2004, that when a county or regional agency revises the county or regional integrated waste management plan and its elements, the city household hazardous waste element and county household hazardous waste element would be required to identify those actions the city, county, or regional agency is taking to promote the collection, consolidation, recovery, and recycling of covered electronic waste, thereby creating a state-mandated local program by imposing new duties upon local agencies.

(4) This bill would provide that its provisions are severable.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 527 (SB 36) Chesbro. Medi-Cal.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and certain other low-income persons.

Existing law establishes requirements as a condition of obtaining a contract with the department to provide Medi-Cal services, and provides that a federally qualified health center or rural health clinic may voluntarily agree to enter into a capitated or other at-risk contract with a managed care program health plan if the clinic agrees to specified conditions.

This bill would provide that federally qualified health center services and rural health clinic services, as defined, are covered benefits under the Medi-Cal program, to be reimbursed to providers on a per-visit basis, and would provide for various requirements pertaining to the reimbursement of these services.

This bill would specify that it shall be implemented only to the extent that federal financial participation is obtained.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 528 (SB 99) Burton. Information technology classifications.

The California Constitution establishes the State Personnel Board and sets forth the duties of the board, including prescribing classifications. Existing law authorizes the board to conduct, supervise, and evaluate demonstration projects to determine whether a specified change in personnel management policies and procedures would improve state personnel management. In 1998, the board and the Legislative Counsel Bureau agreed to conduct a demonstration project as to information technology classifications for employees of the bureau assigned to the Legislative Data Center, a division of the bureau.

This bill, notwithstanding other provisions of law, but consistent with the merit principles of Article VII of the California Constitution, would authorize the Legislative Counsel Bureau appointing authority to make certain classification changes, conduct examinations, and make appointments affecting employees assigned to the Legislative Data Center.

Specifically, the bill would authorize the bureau appointing authority to consolidate its data processing classes into the band classifications and ranges that are administratively authorized under the demonstration project or into other classifications or ranges as modified or established by the State Personnel Board. The bill also would authorize the bureau appointing authority to conduct comprehensive examinations and make appointments for information technology positions on a position-specific basis, as described in specified provisions of the California Code of Regulations in effect on January 1, 2003, or in any other manner approved by the board.

Ch. 529 (SB 140) Denham. Education: school attendance requirements.

(1) Existing law required any 2 school districts entering into an agreement for interdistrict attendance to give consideration to the child care needs of the pupil and required any district that entered into an agreement for interdistrict attendance to allow the pupil to remain continuously enrolled in the school district of choice, subject to certain requirements. Existing law made these provisions operative until July 1, 2003.

This bill would reenact those provisions, would additionally prohibit a school district from requiring a pupil in kindergarten or any of grades 1 to 6, inclusive, attending the school pursuant to an interdistrict attendance agreement originally executed on or after the effective date of the act to reapply for interdistrict attendance in that school district, unless the pupil ceased to receive child care in the district, and would encourage a school district to allow any pupil to remain continuously enrolled in the school district of choice if the parent or guardian so chooses. This bill would extend the operative date of those provisions until July 1, 2007.

(2) Existing law provides that a pupil is deemed to have complied with the residency requirements for school attendance in a school district, provided the pupil meets one of the specified requirements.

This bill would additionally authorize the school district in which the pupil's parent or guardian is employed to allow the pupil to attend the school through the 12th grade if the parent or guardian so chooses, as specified.

This bill would make those provisions authorizing the school district in which the pupil's parent or guardian is employed to allow the pupil to attend the school through the 12th grade inoperative on and after July 1, 2007, and would repeal the provisions on January 1, 2008.

(3) This bill would make other technical and conforming changes.

(4) This bill would become operative only if AB 97 is enacted and takes effect.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 530 (SB 610) Escutia. Elections: poll workers.

Existing law requires that each member of a precinct board be a voter of the county, except that an elections official may appoint not more than 2 students per precinct to serve under the direct supervision of designated board members, as specified.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would revise that provision to authorize the appointment of not more than 5 students per precinct, and would, instead, provide that a precinct board member must be a voter of the state.

Existing law requires local elections officials, following the appointment of members of precinct boards, to instruct inspectors in connection with the conduct of the election, as specified.

This bill would make these provisions inoperative as of June 30, 2005, and instead require the Secretary of State to appoint a task force of at least 12 members to recommend uniform guidelines for the training of precinct board members, by January 1, 2005. The bill would require the Secretary of State to adopt uniform standards, based on these recommendations, by June 30, 2005.

Ch. 531 (SB 720) Bowen. Telecommunications services.

(1) Existing law declares the Legislature's policies for telecommunications in California. Existing law states the intent of the Legislature that the Public Utilities Commission should provide a nonprofit community technology program, as defined, with discounts comparable to those that are provided to schools and libraries to address inequality of access to advanced telecommunications services.

This bill would state the intent of the Legislature that the commission provide a nonprofit community technology program, as defined, with discounts comparable to those that are provided to schools and libraries to address inequality of access to advanced telecommunications services, as defined.

(2) Existing law establishes the California Teleconnect Fund Administrative Committee to advise the commission regarding the implementation, development, and administration of a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations, and to carry out the program pursuant to the commission's direction, control, and approval. Existing law establishes the California Teleconnect Fund Administrative Committee Fund in the State Treasury, and requires that moneys from the fund may only be expended upon appropriation in the annual Budget Act and requires that the moneys appropriated be utilized exclusively by the commission for the authorized programs. Pursuant to this authority, the commission has established the California Teleconnect Fund Program, which provides discounted services to qualifying schools, libraries, hospitals, and other community-based organizations.

This bill would, if consistent with the purposes for which the funds are appropriated, authorize the commission to expend up to $3,000,000 for up to an additional 40% of the one-time installation costs of advanced telecommunications services for entities that do not have access to those services, from the unencumbered difference between what is appropriated and what is expended by the commission from the California Teleconnect Fund Administrative Committee Fund for the 2003–04 and 2004–05 fiscal years.

Ch. 532 (AB 763) Liu. Privacy: social security numbers.

Existing law prohibits a person or entity, except as specified, from publicly posting or displaying an individual's social security number, printing that social security number on a card required for the individual to access products or services or on materials mailed to the individual, or otherwise requiring an individual to transmit or use that social security number.

This bill would additionally prohibit a social security number that is otherwise permitted to be mailed from being printed, in whole or in part, on a postcard or other mailer or visible on the envelope or without the envelope having been opened. The bill would also incorporate additional changes to Section 1798.85 of the Civil Code proposed by SB 25, contingent upon its prior enactment.

Ch. 533 (SB 602) Figueroa. Personal information.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) The Consumer Credit Reporting Agencies Act permits a consumer to place a security alert in his or her credit report by making a request in writing or by telephone to a consumer credit reporting agency.

This bill would provide for a penalty in an amount up to $2,500 and reasonable attorneys' fees for a failure of a consumer credit reporting agency to place this security alert, as specified. The bill would also require a consumer credit reporting agency to provide additional notice to the consumer regarding the expiration date of that security alert, as specified.

(2) Existing law permits a consumer credit reporting agency to charge a reasonable fee to any consumer who elects to, among other things, freeze his or her credit report, with a specified exception.

This bill would limit this charge to no more than $10 for each freeze, removal of a freeze, or temporary lift of a freeze for a period of time, or a fee of no more than $12 for a temporary lift of a freeze for a specific party.

(3) Existing law permits a business to use information data encoded on a driver's license for verification purposes.

This bill would prohibit the use and retention of this information, except to verify age or the authenticity of a driver's license or identification card, to comply with a legal requirement to record, retain, or transmit that information, to transmit information to a check service company, as specified, or for the collection or disclosure of that information is required for specified purposes. The bill would make a violation of these provisions a crime, thereby imposing a state-mandated local program.

(4) Existing law prohibits business entities, as defined, from making specified disclosures in relation to individual records.

This bill would require any credit card issuer that receives a change of address request from a cardholder who orders a replacement credit card, as specified, and any business entity that provides telephone accounts, as defined, and receives a change of address request from an accountholder who orders new service, to send specified change of address notices.

(5) Existing law provides a procedure to initiate an investigation of potential identity theft.

This bill would make a clarification within this provision.

(6) Existing law permits a person who discovers that he or she may be a victim of identity theft to request specified reports.

This bill would permit a cause of action for a failure of a person or entity to provide these reports, and would provide for penalties and reasonable attorneys' fees, among other things.

(7) Existing law prohibits telephone companies from making available specified information, without consent.

This bill would exempt therefrom certain information needed to pursue an identity theft investigation.

(8) This bill would incorporate additional changes in Section 1785.11.1 of the Civil Code proposed by SB 25, that would become operative only if SB 25 and this bill are both chaptered and become effective January 1, 2004, and this bill is chaptered last.

The bill would also incorporate additional changes in Section 530.8 of the Penal Code proposed by SB 684, that would become operative only if SB 684 and this bill are both chaptered and become effective January 1, 2004, and this bill is chaptered last.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 534 (SB 684) Alpert. Identify theft: application.

Existing law provides that any person, upon discovering that in the person's name an unauthorized individual has made an application for certain services or has opened certain accounts, is entitled to receive the identifying information that was used by the unauthorized

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

individual to apply for any service or open any account, upon the presentation of a copy of a police report and identifying information.

This bill would add applications and accounts regarding mail receiving or forwarding services and office or desk space rental services to the applications and accounts covered by these provisions. This bill would define "application" for the purposes of this provision to mean a new application for credit or service, the addition of authorized users to an existing account, the renewal of an existing account, or any other changes made to an existing account.

This bill would incorporate additional changes in Section 530.8 of the Penal Code proposed by SB 602, that would become operative only if SB 602 and this bill are both chaptered and become effective January 1, 2004, and this bill is chaptered last.

Ch. 535 (AB 506) Maze. Sexual assault victims: toxicology testing.

Existing law sets forth minimum standards for the examination and treatment of victims of sexual assault, including the collection of physical evidence.

This bill would provide, in addition and subject to the victim's refusal, that where indicated by the history of the contact, the victim's urine and blood sample would be collected for toxicology purposes, to determine if drugs or alcohol were used in connection with the assault. The bill would provide that the toxicology results obtained would be inadmissible in any criminal or civil action or proceeding against any victim and would be confidential except for purposes of prosecuting or defending the crime or crimes necessitating the examination. This bill would also require that victims be informed of specified information regarding the testing.

By imposing additional duties on local agencies, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 536 (AB 608) Daucher. Crimes: school employees.

Existing law requires every sheriff or chief of police, upon the arrest of a school employee for specified controlled substance offenses or sex offenses, to immediately notify specified school officials, including the Commission on Teacher Credentialing if the school employee is a teacher in a public school.

This bill would provide that those notices would be given if the law enforcement officer knows that the arrestee is a school employee and would additionally require the Commissioner of the California Highway Patrol to give those notices upon the arrest of a school employee for those offenses.

Existing law requires every sheriff or chief of police, upon the arrest of any private school teacher for a sexual offense that would require registration, to give immediate written and telephonic notice of that arrest to school authorities employing that teacher.

This bill would provide that those notices shall be given in the case of an arrest of a private school teacher for those sexual offenses and for specified controlled substances offenses if the law enforcement officer knows that the arrestee is a school employee and would additionally require the Commissioner of the California Highway Patrol to give these notices.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law requires the county superintendent of schools, upon receiving notice of the arrest of a public school teacher for those offenses, to immediately notify the governing board of the school district employing that person.

This bill would additionally require the Commission on Teacher Credentialing, upon receiving notice of the arrest, to immediately notify the governing board of the school district employing that person.

Ch. 537 (AB 898) Chu. DNA evidence: Sexual Assault Victims' DNA Bill of Rights.

Existing law specifies various rights for crime victims.

This bill would establish the ''Sexual Assault Victims' DNA Bill of Rights.'' This bill would authorize a law enforcement agency investigating certain felony sex offenses to, upon the request of the victim, and subject to the commitment of resources, inform the victim whether or not a DNA profile was obtained from the testing of the rape kit evidence or other crime scene evidence from their case, whether that information had been entered into the Department of Justice Data Bank of case evidence, and whether or not there is a match between the DNA profile developed from the rape kit evidence or other crime scene evidence and a DNA profile contained in the Department of Justice Convicted Offender DNA Data Base, as specified. The bill would also provide that the victim would be given written notification by the law enforcement agency if the law enforcement agency elects not to perform DNA testing of the rape kit evidence or other crime scene evidence, or intends to destroy or dispose of the rape kit evidence or other crime scene evidence prior to the expiration of the statute of limitations as specified. The bill would further provide that the victim's sole remedy for the failure of a law enforcement agency to comply with these provisions would be to file a writ of mandamus.

By imposing additional duties on local law enforcement entities, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 538 (SB 356) Alpert. Sex offenders.

Existing law requires persons convicted of any specified sexual offense to register with local law enforcement officials, as specified. Existing law authorizes designated law enforcement entities to advise the public of the presence of high-risk sex offenders in their communities, including municipal police and sheriff's departments, district attorney's offices, county probation departments, the Department of Justice, the Department of Corrections, the Department of the Youth Authority, the Department of the California Highway Patrol, and the police department of any campus of the University of California, California State University, or community college.

This bill would include in the list of designated law enforcement entities any school district police department. It would specify that the authorization given to school district police to make disclosures about registrants does not apply to disclosures intended to reach persons beyond the school community, as specified.

Existing law requires the Department of Justice to continually compile specified information regarding any person required to register as a sex offender for a conviction of any specified sex offense. Existing law also requires the Department of Justice to update and distribute a CD-ROM or other electronic medium, on a monthly basis, containing this

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

information to designated law enforcement agencies that make the CD-ROM or other electronic medium available for public viewing.

This bill would remove the requirement that the Department of Justice update and distribute the CD-ROM on a monthly basis and would also provide that school district police departments would receive information provided via the CD-ROM or other electronic medium from the Department of Justice only upon request.

Ch. 539 (SB 361) Figueroa. Pharmacy: administration and enforcement.

Existing law, the Pharmacy Law, creates the California State Board of Pharmacy within the Department of Consumer Affairs. Under existing law, the board is authorized to appoint an executive director to exercise the powers and perform the duties delegated by the board. The law makes these provisions inoperative on July 1, 2004, and repeals them on January 1, 2005. Under existing law, the board consists of 11 members, 2 of whom are public members appointed by the Governor.

This bill would delete these inoperative and repeal dates and would extend the operation of these provisions to make them inoperative on July 1, 2008, and repeal them on January 1, 2009. The bill would also increase the board membership to 13 by adding 2 more public members appointed by the Governor. The bill would also specify that one of the pharmacist appointees be a member of a labor union representing pharmacists, that one practice in an independent community pharmacy setting, and that another practice in a chain community pharmacy setting.

Existing law authorizes the board to employ inspectors of pharmacy. These inspectors are required to be pharmacists if their principal duties are either inspecting or investigating pharmacies or pharmacists or supervising other inspectors of pharmacy.

This bill would delete the requirement that certain inspectors of pharmacy must be pharmacists. The bill would authorize inspectors to issue a written order of correction and the executive officer, or his or her designee, to issue a letter of admonishment, directing a licensee to comply with the Pharmacy Law or related regulations. The bill would require an order of correction or a letter of admonishment to contain certain information, including the process for a licensee to contest the order or letter. The bill would require a licensee to have readily available on the pharmacy premises a copy of any order of correction or letter of admonishment issued against it in the prior 3 years, and a related corrective plan of action. The bill would provide that an order of correction would not be a public record, except as specified.

This bill would authorize the board to issue a citation for a violation of the Pharmacy Law or related regulations, with a fine of up to $2,500 and an order of abatement, which may require a person to demonstrate how future compliance will be accomplished.

Existing law sets forth certain educational, training, and examination requirements that an applicant for a pharmacist license must meet.

This bill would revise the examination requirements, as specified, and would require the board to develop a Multi-State Pharmacy Jurisprudence Examination for California that meets certain guidelines and to review the examination process. The bill would prohibit an applicant who failed the national examination from retaking it for a designated time period.

Existing law requires an applicant for a pharmacy technician certification to meet certain education requirements.

This bill would revise those education requirements.

The Pharmacy Law makes a violation of its provisions a crime.

Because this bill would create new requirements for licensees under that law, the violation of which is a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 540 (SB 879) Margett. Sex offenders.

Existing law requires certain persons convicted of any specified sexual offense to register with local law enforcement officials, as specified.

This bill would add to the list of persons who are required to register as sex offenders persons who have been convicted of knowingly sending or causing to be sent into the state for sale or distribution, or possessing, preparing, or producing child pornography, as defined. Because this bill would expand the definition of a crime and would require local law enforcement agencies to perform a higher level of service, this bill would impose a state-mandated local program.

This bill would incorporate additional changes in Section 290 of the Penal Code proposed by SB 356 and AB 1313, to become operative only if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2004, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 541 (AB 1044) Negrete McLeod. Licenses to carry firearms.

Existing law requires the Attorney General to maintain a registry of information reported to the Department of Justice regarding firearms, and including, among other things, copies of applications for licenses to carry firearms.

This bill would recast those provisions to instead, require the registry include copies of the licenses to carry firearms. This bill would make other technical changes.

Existing law specifies requirements and provides a procedure for obtaining a license to carry a firearm. Existing law also provides for a committee convened by the Attorney General to develop a standard application form for these licenses. Existing law authorizes the Attorney General to adopt and enforce regulations relative to these licenses.

This bill would recast those provisions relating to the committee to authorize it to review and revise the license application form. The bill would also delete the provisions authorizing the Attorney General to adopt and enforce regulations relative to the licenses, and would provide instead that the license application forms are deemed a local agency form exempt from the Administrative Procedures Act.

Ch. 542 (AB 1059) Lieber. Landlord and tenant: menacing and retaliatory acts.

(1) Existing law defines the crime of theft to include the felonious taking of another's personal property, the fraudulent appropriation of another's property held in trust, or defrauding another of money, labor, or property. Existing law defines the crime of extortion as obtaining another's property, with consent, or obtaining an official act of a public officer, induced by a wrongful use of force or fear, or under color of official right.

This bill would provide that a tenant is entitled to a civil penalty of not more than $2,000 for each act of a landlord, made for the purpose of influencing the tenant to vacate a dwelling, that constitutes theft or extortion as defined above, or the use, or threatened use, of force, threats, or menacing conduct constituting a course of conduct that interferes with the tenant's right to quiet enjoyment of the premises that would create an apprehension of harm in a reasonable person. The bill would provide that certain warning notices and explanations do not violate these provisions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) Existing law provides that a lessor or the agent of a lessor is liable to a lessee for, among other things, punitive damages of not less than $100 nor more than $1,000 for specified retaliatory acts where the lessor or agent has been guilty of fraud, oppression, or malice with respect to that act.

This bill would increase the maximum punitive damages allowed from $1,000 to $2,000. The bill would also make other technical, nonsubstantive changes.

Ch. 543 (AB 1131) Jackson. Crime.

Existing law provides that it is a crime, punishable, based upon the value of the property taken, by imprisonment in a county jail, a fine not exceeding $1,000, or both that imprisonment and fine, or by imprisonment in a county jail for a period not exceeding one year or imprisonment in the state prison for 2, 3, or 4 years, for a person who is the caretaker of an elder or dependent adult or for a person who is not a caretaker who knew or should have known that their victim was an elder or dependent adult, to commit theft or embezzlement with respect to the property of an elder or dependent adult.

This bill would expand these provisions to include forgery, fraud, or identity theft committed against an elder or dependent adult. By revising the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 544 (SB 292) Speier. Pharmacy: prescription labels.

Existing law, the Pharmacy Law, provides for the licensing and regulation of the practice of pharmacy under the jurisdiction of the California State Board of Pharmacy. Under the Pharmacy Law, a pharmacist is required to dispense a prescription in a container that is correctly labeled. Existing law generally makes it a misdemeanor to knowingly violate the Pharmacy Law.

Commencing January 1, 2006, this bill would require the label to have a physical description of the drug, including its color, shape, and any identification code appearing on the tablets or capsules. The bill would make certain exceptions to the bill's requirements, including an exemption for a new drug in its first 120 days on the market and for 90 days during which the national reference file has no description. The bill would provide that this requirement not go into effect if the board adopts regulations containing the requirement prior to January 1, 2006. Because a knowing violation of the bill would be a misdemeanor, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 545 (SB 413) Speier. Health insurance counseling: fees.

Existing law requires the California Department of Aging to assess annually a fee of not less than $0.70, but not more than $1, on a health care service plan for each person enrolled with a health care service plan as of December 31 of the previous year under a prepaid Medicare program that serves Medicare eligible beneficiaries within the state to offset the cost of counseling seniors on health maintenance organizations, and would transfer the money to the State HICAP Fund for implementation of the statewide Health Insurance Counseling and Advocacy Program, upon appropriation by the Legislature.

This bill would permit the department to increase the amount of the fee to not more than $1.20, and would require the department to also assess the fee annually on a health care

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

service plan for each enrollee under a Medicare supplement contract, including a Medicare Select contract, as of December 31 of the previous year.

Ch. 546 (SB 618) Scott. Insurance: unfair acts: licenses.

(1) Existing law provides that any person violating specified prohibitions against misrepresenting information relating to insurance is punishable by a fine not exceeding $200 or by imprisonment not exceeding 6 months.

This bill would raise the fine for a violation of these provisions to $1,500.

(2) Existing law requires that every policy of life insurance and every annuity contract delivered on and after January 1, 1995, to an individual age 60 or older contain a notice stating that the policy may be returned for cancellation, and provides that the period for return of the policy shall not be less than 30 days.

Existing law requires all disability insurance policies offered for sale to individuals age 65 or older in California to provide an examination period of 30 days after the receipt of the policy for purposes of review of the contract. Existing law allows the individual to void the policy and receive a refund by returning the contract.

This bill would extend to individuals age 65 or older who purchase life insurance the protections described above that apply to those individuals who purchase disability policies. The bill would declare that it would apply to the purchase of life insurance only to the extent that it does not conflict with the provisions of law regarding cancellation of life insurance policies and annuities.

(3) Existing law sets forth specified monetary penalties for violating certain provisions relating to the sale and marketing of insurance to seniors.

This bill would increase the amounts of these monetary penalties, as specified. The bill would provide that, if the commissioner brings an action against a licensee under these provisions and determines that the licensee may reasonably be expected to cause significant harm to seniors, the commissioner may suspend the license pending the outcome of the action. It would allow the commissioner to require the rescission of any contract marketed, offered, or issued in violation of these provisions.

(4) Existing law prohibits a person from soliciting, negotiating, or effecting contracts of insurance, or acting in the capacity of various types of insurance agents, unless the person holds a valid license from the Insurance Commissioner authorizing the person to act in that capacity. Existing law authorizes the commissioner to deny an application for a license for various reasons.

This bill would, in addition, authorize the commissioner to suspend or revoke any permanent license issued if the licensee induces the client to make a loan or gift to or investment with the licensee, or to otherwise act in other specified ways that benefit the licensee or other people acquainted with or related to the licensee.

(5) Existing law allows the commissioner to take certain disciplinary actions, including suspension, revocation, or denial of a license to transact insurance, for specified reasons, and requires that hearings be conducted for these disciplinary actions, with certain exceptions.

This bill would require that, if a disciplinary hearing of this type involves allegations of misconduct directed against a person age 65 or over, the hearing be held within 90 days after the Department of Insurance receives the notice of defense, unless a continuance is granted. The bill would set forth the grounds for granting a continuance.

(6) Existing law sets forth specified monetary penalties for violating certain provisions relating to the replacement of life insurance policies and annuities.

This bill would increase the amounts of these monetary penalties, as specified, and would allow the commissioner to suspend or revoke the license of any person who violates these provisions.

Ch. 547 (SB 620) Scott. Annuities: life insurance: required disclosures and prohibited sales practices.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law imposes a special duty of honesty, good faith, and fair dealing on an insurer, broker, agent, and all others engaged in the transaction of insurance with a prospective insured who is 65 years of age or older, except for specified types of insurance transactions. Under existing law, the Insurance Commissioner is authorized to assess an administrative penalty for the violation of this duty and other provisions relating to senior insurance. Existing law establishes a 30-day period following the purchase of an individual life insurance policy or an individual annuity contract by a senior citizen, during which time the policy or contract may be canceled and all premiums and fees refunded, and requires certain disclosures in that regard.

Existing law regulates viatical settlements, as defined, and imposes certain requirements on a person entering into or soliciting viatical settlements.

This bill would enact additional restrictions on advertising practices that target senior citizens and would expand the scope of existing restrictions, currently applicable to disability insurance, to life insurance and annuities. The bill would prohibit the sale of annuities to seniors in certain circumstances. The bill would prohibit insurance agents, brokers, and solicitors who are not attorneys from sharing commissions or other compensation with attorneys. The bill would require, effective January 1, 2005, specific training for life agents in order for these producers to sell annuities, unless the agents are nonresident agents who represent a direct response provider, as defined. The bill would limit the investment of premiums during the 30-day cancellation period, except as specified, and would revise the disclosure requirements applicable to the sale of life insurance and annuity products to seniors. The bill would impose restrictions on the sale of life insurance policies and annuities in the home of a senior citizen. The bill would prohibit an agent or insurer from recommending the unnecessary replacement, as defined, of an annuity by a senior citizen. The bill would impose certain duties on the Insurance Commissioner in this regard, and enact other related provisions.

Ch. 548 (AB 106) Corbett. Teachers' Retirement System: surviving spouse.

Existing law defines a spouse, for purposes of qualification for specified survivors' benefits under the Defined Benefit Program of the State Teachers' Retirement Plan, as a person who was married to the member of the program for a continuous period beginning at least 12 months prior to the death of the member, unless specified conditions exist.

This bill would additionally define a spouse, for these purposes, as a person who was married to the member for less than 12 months, if the member's death was accidental, as defined, or for the period beginning prior to the occurrence of the injury or diagnosis of the illness that resulted in death, except as specified.

Ch. 549 (AB 123) Cohn. Professional corporations: dentists.

Existing law authorizes dentists to practice dentistry as part of a professional corporation. Existing law, with respect to various other healing arts professions, authorizes certain licensed persons other than those licensed to practice in a particular profession to be shareholders, officers, directors, or professional employees of a professional corporation, subject to certain limitations.

This bill would provide that physicians and surgeons, dental assistants, registered dental assistants, registered dental assistants in extended functions, registered dental hygienists, registered dental hygienists in extended functions, or registered dental hygienists in alternative practice may be shareholders, officers, directors, or professional employees of dental corporations.

This bill would incorporate additional changes in Section 13401.5 of the Corporations Code proposed by SB 907 that would become operative only if SB 907 and this bill are both enacted and become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 550 (AB 195) Chan. Health education.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) Existing law requires the Department of Education to prepare and distribute to school districts guidelines for the preparation of comprehensive health education plans and programs. Existing law defines a comprehensive health education program as an educational program offered in kindergarten and grades 1 to 12, inclusive, that ensures that pupils receive instruction on making decisions in matters of personal, family, and community health, including, among other subjects, nutrition.

This bill would specify that pupils may receive instruction on, among other topics, preventative health care. The bill would further specify that the instruction on nutrition may include instruction on related topics such as obesity and diabetes. The bill would prohibit participating entities from marketing their services when undertaking activities related to the program and would define marketing as the making of a communication about a product or service with the purpose to encourage the purchase or use of the product or service. The bill would exempt specified entities that provide certain services from these marketing prohibitions.

(2) Existing law requires that the State Board of Education establish standards and criteria to be used in the evaluation of comprehensive health education plans submitted by school districts. Existing law requires that the plans provide for, among other things, the utilization and participation of health care professionals.

This bill would specify that the health care professionals should represent the varied fields of health care, including voluntary collaborations with managed health care and health care providers.

Ch. 551 (AB 197) Strickland. Offset payments.

Existing law requires the Controller, to the extent feasible, to offset any amount overdue and unpaid for, among other things, vehicle parking penalties from a person or entity against tax refunds and lottery winnings. Existing law requires the Controller to prescribe standards and procedures for the submission of requests for offsets.

This bill would, for refund offsets submitted to the Controller on or after January 1, 2004, require any request for an offset for a vehicle parking penalty to be submitted within 3 years of the date the penalty was incurred. The bill would also provide that once an offset request for a vehicle parking penalty is made, a local agency may not accrue additional charges on or after the date the offset request is made.

Ch. 552 (AB 300) Committee on Education. Education.

(1) Existing law authorizes the Department of Education, upon request, to waive its regulations for staffing and group size ratios for programs in which subsidized children comprise a majority of the enrollment.

This bill would instead authorize the Superintendent of Public Instruction, upon request, to waive the requirements for staffing and group size ratios without regard to program enrollment.

(2) Existing law requires families to meet certain requirements to be eligible for subsidized child development services. One of the alternative eligibility requirements is that the parents are incapacitated, including having a medical or psychiatric special need that cannot be met without the provision of child day care.

This bill would delete that requirement.

(3) Existing law establishes the Healthy Start Support Services for Children Grant Program, requires participating local educational agencies and consortia to submit annually an evaluation report to the Superintendent of Public Instruction, requires the Superintendent of Public Instruction to cause an evaluation to be conducted by an independent organization of the effectiveness of the grant program, requires that independent evaluation to be submitted by June 1, 1994, to the Governor, the Secretary for Education, the Secretary of the Health and Welfare Agency, and the Legislature, and authorizes independent evaluations to

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

be conducted subject to additional funding being made available for that purpose in subsequent fiscal years.

This bill would delete the provisions regarding the required independent evaluation and subsequent contingently authorized independent evaluations.

(4) Existing law requires certain persons who have entered school grounds during school hours and who have been requested to leave the school grounds to depart and not to return to the school grounds for at least 48 hours. Existing law makes it a misdemeanor to return to the school grounds within 48 hours of a request to leave.

This bill would instead require certain persons who have entered school grounds during school hours and who have been requested to leave the school grounds to depart and not to return to the school grounds for at least 7 days and would make it a misdemeanor to return to the school grounds within 7 days of a request to leave.

(5) Existing law requires the Superintendent of Public Instruction and Director of Finance to jointly establish a plan for repayment of school funds that a local educational agency received on the basis of average daily attendance that did not comply with statutory or regulatory requirements that were conditions of apportionments.

This bill would, commencing with the 1999–2000 fiscal year, prohibit the manner of reducing the amount disallowed for repayment purposes from resulting in a local educational agency repaying more than the value of the average daily attendance disallowed, plus interest and other penalties or reductions in apportionments as provided by existing law.

(6) Under existing law, the Coachella Valley Unified School District is eligible to receive apportionments for specified schools pursuant to the schedule for necessary small high schools. Existing law requires the Department of Transportation to notify the Legislature and the Secretary of State upon completion of a specified project. After that notification has occurred, the provision authorizing the apportionment for those schools is repealed on the July 1 after the then current fiscal year has elapsed.

This bill would make the apportionments available until that date or until June 30, 2005, whichever is later.

(7) Existing law requires a county office of education to be assessed a penalty if it draws an order for a warrant in favor of a person for a period of service during which the person did not have a valid certification document.

This bill would instead require the assessment of that penalty if the county office of education releases a warrant in the circumstances described above.

(8) Existing law requires the Superintendent of Public Instruction to reduce a district's apportionment, as specified, if the governing board of a school district offers less instructional time than the amount of instructional time fixed for the 1982–83 fiscal year.

This bill would, instead, make the reduction apply only to school districts that do not participate in the program that offers incentives for a longer instructional day and year.

(9) Existing law requires the governing board of a school district to set a date when a pupil who is expelled for certain acts is required to be reviewed for readmission. Existing law requires the date set to be not later than the last day of the semester following the semester in which the expulsion occurred.

This bill would, for an expulsion ordered during summer session or the intersession period of a year-round program, require the review date to be set not later than the last day of the semester following the summer session or intersession period during which the expulsion was ordered.

(10) Existing law establishes the Teresa P. Hughes Family-School Partnership Award and Grant Program to provide grants and awards to school districts, as specified.

This bill would delete the provision providing grants under this program.

(11) Existing law provides that if, during any of grades 7 to 12, inclusive, or in any combination of those grades, a pupil completes coursework that meets or exceeds the content standards for algebra, then those courses apply toward the high school graduation requirements for mathematics.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that if, during grade 7 or 8, a pupil completes coursework for algebra, that pupil is not exempt from the high school graduation requirements for mathematics.

(12) Existing law requires a school district, special education local plan area, or county office of education to hold a meeting of an individualized education program team within 30 days, not counting days in July and August, when a parent requests a meeting to review an individualized education program.

This bill would instead not count the days between the pupil's regular school sessions, terms, or days of school vacation in excess of 5 schooldays, thereby imposing a state-mandated local program.

(13) Existing law defines "special education" as specially designed instruction, at no cost to the parent, to meet the unique needs of individuals with exceptional needs, whose educational needs cannot be met with modification of the regular instruction program, and related services, at no cost to the parent, that may be needed to assist these individuals to benefit from specially designed instruction. Existing law declares that special education is an integral part of the public education system. Existing law establishes special education local plan areas to expedite the administration of special education programs.

This bill would require the State Department of Education to adjust payment rates when special education local plan areas reorganize, so that overall funding neither increases or decreases as a result of the reorganization.

(14) Existing law requires the Department of General Services to supervise the design and construction of certain school buildings to ensure that plans and specifications comply with specified structural safety standards and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Existing law also requires the department to pass upon and approve or reject all plans for the construction, and in some cases, the alteration of any school building subject to those provisions, and to inspect the school buildings and work of construction or alteration that in its judgment is necessary or proper for the enforcement of these requirements and the protection of the safety of the students, the instructors, and the public. These requirements are part of the body of law known as the Field Act.

This bill would authorize a school building that has been placed on the National Register of Historic Places, and used for community college purposes, to be renovated either according to those provisions or according to prescribed regulations adopted by the State Architect. The bill would require a community college district governing board that proposes to renovate a school building under this provision that does not comply with the Field Act to provide appropriate public notice, including the holding of a public hearing.

(15) Existing law appropriates $313,908,000 from the General Fund for purposes of the School Improvement Program, with $54,181,000 for purposes of making allowances for grades 7 to 12, inclusive. From the $54,181,000, the State Department of Education is required to allocate $34.72 per unit of average daily attendance (ADA) generated by pupils enrolled in grades 7 and 8 to school districts that received School Improvement Grants in the 1989–90 fiscal year at a rate of $30 per unit of ADA generated by pupils enrolled in grades 7 and 8.

This bill would change the $34.72 rate per unit of ADA to $34.67 and would allocate $123.18 per unit of ADA generated by pupils enrolled in grades 7 and 8 to school districts that received School Improvement Grants in the 1989–90 fiscal year at a rate of $106.93 per unit of ADA generated by pupils enrolled in grades 7 and 8.

(16) Existing law requires funds in the Educational Revenue Augmentation Fund to be allocated to school districts, county offices of education, and community colleges, as specified.

This bill would, instead, require that amount to be multiplied by 1.85185 with the product of that calculation resulting in the amount of funds allocated to school districts, county

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

offices of education, and community colleges from the Educational Revenue Augmentation Fund.

(17) This bill would make other technical and nonsubstantive changes to the Education Code, repeal obsolete and duplicative provisions, and make changes in provisions governing child care to conform to federal regulations.

(18) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that no reimbursement is required by specified provisions of this act for a specified reason.

However, the bill would also provide that, if the Commission on State Mandates determines that the bill contains other costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 553 (AB 304) Mullin. Housing: downpayment assistance and guaranty insurance.

(1) Under existing law, the California Housing Finance Agency administers a downpayment assistance program under which the amount of downpayment assistance may not exceed 3% of the home sales price. The Housing and Emergency Shelter Trust Fund Act of 2002, also allocates certain housing bond revenues for downpayment assistance to teachers and school personnel under programs operated by the agency, with assistance limited to $7,500 or 3% of the purchase price, and to low-income first-time homebuyers who, as documented to the agency by a nonprofit organization certified and funded to provide homeownership counseling, are purchasing a residence in a community revitalization area targeted by the nonprofit organization and have received homeownership counseling from the nonprofit organization.

This bill would, among other things, authorize the agency, as specified, to establish higher assistance limits for that downpayment assistance to teachers and school personnel. The bill would limit, to specified neighborhoods identified by nonprofit organizations, the downpayment assistance under that act for low-income first-time homebuyers and require 50% of the funds available for that purpose under the act to be available for downpayment assistance not to exceed 6% of the home sales price for a specified period. The bill would also make conforming changes.

(2) Existing law establishes the California Housing Loan Insurance Fund, which is continuously appropriated to the agency for the purpose of insuring loans for single family and multifamily residential housing and insuring bonds issued by governmental agencies for purposes of financing housing affordable to persons and families of low or moderate income. Premiums received from the insurance are deposited in the fund.

This bill would expand the categories of persons who may be qualified for loan insurance, as specified, until January 1, 2011, provide that the insured loans may be secured by deeds of trust, and authorize insurance for bonds issued by other types of issuers approved by the board of directors of the agency, thereby making an appropriation by expanding the class of persons, types of loans, and bond issuers eligible for insurance and payments under the fund. The bill would also make technical, clarifying changes.

(3) This bill would incorporate additional changes in Section 53533 of the Health and Safety Code proposed by this bill and AB 1475 that would become operative only if both bills are chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 554 (AB 313) Dutra. Mortgage lending.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) Existing law provides that a borrower under a note secured by a mortgage or deed of trust on one to four residential units is not required to pay interest on a principal obligation for more than one day prior to recording of the mortgage or deed of trust.

This bill would instead provide that a borrower under these circumstances would not be required to pay interest for more than one day prior to the date that the loan proceeds are disbursed out of escrow or disbursed to the borrower or to another party on behalf of the borrower. The bill would make other conforming changes.

(2) The California Residential Mortgage Lending Act provides for licensing and regulation of residential mortgage lenders by the Commissioner of Corporations. These provisions will be repealed on June 30, 2005.

This bill would delete the repeal provision, thereby extending the act indefinitely.

Ch. 555 (AB 327) Runner. Vehicles: parking: persons with disabilities: violations.

(1) Existing law imposes certain fines and other penalties for violating certain provisions relating to parking privileges for persons with disabilities.

This bill would authorize a city or county to impose by ordinance or resolution an additional penalty of $100 for violating those provisions. The bill would require the revenue generated from imposition of the additional penalty to be used to improve the enforcement of specified state laws relating to the use of disabled parking spaces and placards within the city or county, including offsetting the cost of establishing a new disabled parking enforcement program. The bill would make corresponding changes in the imposition of additional assessments for violating these provisions. Because the bill thereby would impose additional duties upon the county treasurer, the bill would establish a state-mandated local program.

This bill would require the Department of Motor Vehicles to print on a distinguishing placard or temporary distinguishing placard issued to a disabled person or veteran on or after January 1, 2005, the amount of the fines, including certain penalties and surcharges, as specified, authorized to be imposed for a violation of specified state laws relating to the use of disabled parking spaces and placards.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would incorporate additional changes in Section 42001 of the Vehicle Code, proposed by AB 377, to become operative only if AB 377 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 556 (AB 401) Jerome Horton. Horse racing: satellite wagering facilities.

Existing law permits the California Horse Racing Board to authorize a fair to operate a satellite wagering facility at the fairgrounds, under certain circumstances. Existing law permits any fair in Shasta, San Joaquin, Humboldt, or Fresno County, with the approval of the Department of Food and Agriculture and the authorization of the board, to operate one satellite wagering facility on leased premises within the boundaries of that fair, subject to specified conditions.

This bill would permit the California Exposition and State Fair, in lieu of a facility that could otherwise be authorized by the board to the Sacramento County Fair, with the approval of the department and the authorization of the board, to operate one satellite wagering facility within the boundaries of the California Exposition and State Fair in addition to any facility

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

otherwise authorized at its fairgrounds, as specified. The bill would also allow the operation of this facility by agreement between the California Exposition and State Fair and an advance deposit wagering entity, as specified.

Existing law provides for the distribution of the proceeds of wagering on horse races. In particular, existing law requires the distribution of certain funds to stallion owners and breeders of California-bred thoroughbred horses, as specified. Under these provisions, eligible earnings of horses in qualifying races determine the amounts of breeder and stallion awards distributed. Under existing law, for purposes of breeder and stallion awards, qualifying races are defined to include certain types of races, including graded stakes races conducted within the United States.

This bill would add to those qualifying races other stakes races as designated by the official registering agency, the California Thoroughbred Breeders Association.

Existing law provides that eligible earnings for purposes of thoroughbred stallion awards are those earned by California-bred and California-conceived foals of an eligible thoroughbred stallion in winning qualifying races plus the amount earned by those foals for finishing 2nd or 3rd in a stakes race in this state and for finishing first, 2nd, or 3rd in a graded stakes race within the United States.

This bill would add to those eligible earnings the amount earned by these foals for finishing first, 2nd, or 3rd in other stakes races as designated by that same official registering agency.

Ch. 557 (AB 512) Bates. Common interest developments.

The Davis-Stirling Common Interest Development Act defines and regulates common interest developments. The act requires that a common interest development have a recorded declaration, as specified, and permits the declaration to be amended according to the act's provisions or those of the governing documents, as defined. The act requires that a common interest development be managed by an association, and that a member of the association may attend meetings of the board of directors of the association, except when they meet in executive session to consider specified matters. The act excepts certain common interest developments expressly zoned as industrial or commercial developments, as specified, from certain of its requirements. The act requires common interest development associations to submit specified information to the Secretary of State to assist with the identification of common interest developments.

This bill would revise the Davis-Stirling Common Interest Development Act to add chapter and article headings to its provisions. The bill would specify that these headings do not change the scope, meaning, or intent of the bill.

This bill would also add provisions concerning procedural fairness in decisionmaking and rulemaking by associations. The bill would add requirements regarding operating rules relating to the use of the common area, the use of a separate interest, member discipline, standards for delinquent assessment payment plans, and the resolution of assessment disputes, as specified. Among other things, the bill would establish criteria for valid operating rules, require that members have notice of a proposed rule change, except as specified, and establish a procedure for reversing a rule. The bill would revise the provisions regarding common interest developments that are zoned as industrial or commercial developments, as described above, and would except certain of its provisions from application to these developments. The bill would further provide general document delivery rules, to be applicable when specified.

This bill would also require the association to include the name of the president of the association with the information that it is required to submit to the Secretary of State.

This bill would incorporate additional changes in Section 1368 of the Civil Code proposed by AB 1086, to become operative if both bills are enacted and take effect on or before January 1, 2004, and this bill is enacted last.

Ch. 558 (AB 579) Chu. Dependent children: notice to siblings.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law authorizes the juvenile court to adjudge a minor who has been abused or neglected, or who meets other specified criteria, to be a dependent child of the court. Existing law requires the court to conduct various hearings regarding children who are, or who may become, dependent children. Existing law requires the probation officer, the social worker, or the clerk of the court to provide notice of those hearings to certain persons, including parents, guardians, the child, if he or she is 10 years of age or older, adult relatives under certain conditions, and attorneys for the parents or guardians, as specified.

This bill would require the probation officer, social worker, or the clerk of the court to provide notice, as specified, of the hearings to any known sibling 10 years of age or older of the child who is the subject of the hearing, and to the attorney for that sibling. By imposing new duties on probation officers and social workers, the bill would create a state-mandated local program.

This bill would incorporate additional changes to Section 294 of the Welfare and Institutions Code proposed by AB 44, to become operative only if both bills are chaptered and become effective on or before January 1, 2004, and this bill is chaptered last. The bill would also incorporate additional changes to Section 366.21 of the Welfare and Institutions Code proposed by AB 408, to become operative only if both bills are chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 559 (AB 626) Liu. Vehicles: 15-passenger vans.

Existing law authorizes a governing board of a school district to purchase or lease vehicles to provide transportation of pupils to and from school. Existing law also authorizes the Department of General Services or a state agency, as authorized by the Department of General Services, to contract with suppliers to acquire goods and services for state agencies.

This bill makes legislative findings that 15-passenger vans are unsafe and declares the intent of the Legislature that all school districts, private schools, community colleges, and the California State University should require that 15-passenger vans owned by those entities only be driven by a person holding a commercial driver's license.

This bill would require school districts, private schools, community colleges, and the California State University, to limit the operation of those vehicles to persons issued an endorsement for the operation of those vehicles and holding a class B driver's license.

The California Constitution authorizes the Regents of the University of California to enter into public contracts.

This bill would provide that the Legislature recommends that the Regents of the University of California adopt rules and regulations that would impose upon the university the requirements contained in the bill.

Ch. 560 (AB 676) Nakanishi. Public employees' retirement: service credit.

Under existing law, service retirement benefits for members of the Public Employees' Retirement System are calculated, in part, based on the member's years of credited service. Members of the system may, under existing law, receive service credit for public service, as defined, upon payment of specified additional contributions. Those contributions are deposited in the Public Employees' Retirement Fund, a continuously appropriated fund.

This bill would authorize active or retired school members of the system to receive credit for service rendered during a specified period for an independent data processing center,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

subject to certain conditions and upon payment of specified additional contributions. By increasing contributions to the Public Employees' Retirement Fund, the bill would make an appropriation.

Ch. 561 (AB 682) Corbett. Mobilehomes: termination.

The Mobilehome Residency Law prohibits management from terminating or refusing to renew a mobilehome tenancy, except for specified reasons and upon the giving of a prescribed written notice. Existing law requires a homeowner whose tenancy is terminated or not renewed to remove the mobilehome within 60 days of receipt of notice of eviction.

This bill would additionally permit the homeowner to sell the mobilehome within these 60 days, as specified. The bill would also make conforming changes to a related provision and would make statements of legislative intent regarding terminated tenancies and existing rights and remedies of park management.

Ch. 562 (AB 715) Chan. Personal information.

(1) Existing law prohibits a provider of health care, a health care service plan, contractor, or corporation and its subsidiaries and affiliates from intentionally sharing, selling, or otherwise using any medical information, as defined, for any purpose not necessary to provide health care services to a patient, except as expressly authorized by the patient, enrollee, or subscriber, as specified, or as otherwise required or authorized by law. Violations of these provisions are subject to a civil action for compensatory and punitive damages, and, if a violation results in economic loss or personal injury to a patient, it is punishable as a misdemeanor.

This bill would provide that this prohibition also applies to the marketing of medical information, as defined, excluding from the definition of marketing, for these purposes, communications for which the communicator does not receive remuneration from a 3rd party or for specified descriptive purposes, or that are tailored to the circumstances of a particular individual, as specified.

(2) Existing law requires that specified printed authorizations for the disclosure of medical information be in 8-point type.

This bill would require that those authorizations be printed in 14-point type.

(3) By expanding the definition of the above crimes, this bill would impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 563 (AB 827) Committee on Business and Professions. Board membership qualifications: public members.

Existing law establishes various boards within the Department of Consumer Affairs to regulate and license various professions and vocations. Under existing law, a person is required to meet specific qualifications for appointment as a public member, including having expertise in the activity regulated by the board. Existing law also prohibits a public member from engaging in, or having engaged in within 5 years prior to his or her appointment, pursuits regulated by the board.

This bill would delete this expertise qualification for appointment as a public member. The bill would also prohibit a public member from providing, either presently or in the 5 years prior to his or her appointment, representation to the industry or profession regulated by the board.

Ch. 564 (AB 839) Salinas. Local government records: recordings: public transit systems.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law contains various record retention provisions applicable to counties, applicable to cities, and applicable to districts and other entities of local government. Existing law generally allows cities and counties to authorize the destruction of recordings of routine video monitoring after one year and of recordings of telephone and radio communications after 100 days.

This bill would revise and recast these provisions. The bill would place the county provisions in the part of the Government Code relating to counties and the city provisions in the part of the Government Code relating to cities. The bill would delete erroneous references in the various provisions that refer to entities of local government not covered by the respective parts of the Government Code. The bill would enact separate provisions applicable to special districts.

This bill would require each entity of local government when installing new security systems to purchase and install equipment capable of storing recorded images for at least one year unless the technology to store the recorded data for one year is not available in an economically or technologically feasible manner, in which case the best available technology with respect to storage capacity is required to be purchased and installed.

This bill would also provide that, for each entity of local government, the videotapes or recordings made by a security camera system operated as part of a public transit system shall be retained for one year, unless the videotapes or recordings are evidence in any claim filed or any pending litigation or record an event that was or is the subject of an incident report, in which case they shall be retained until the matter is resolved. It would further require that any security camera system purchased or installed on or prior to January 1, 2004, by a specified entity of local government that operates a public transit system shall be preserved for as long as the installed technology allows.

Ch. 565 (AB 909) Reyes. Telecommunications: local and long-distance service.

Existing law empowers the Public Utilities Commission to regulate telecommunications services. The Telecommunications Customer Service Act of 1993 requires the commission to require telephone corporations to provide certain customer services to telecommunications customers, and authorizes the commission to require telephone corporations to provide additional services.

This bill, until January 1, 2007, would require that every incumbent local exchange carrier and competitive local exchange carrier provide, upon request and without charge, to customers electing to purchase a service package for both local and long-distance service, or for customers that buy a set number of minutes for a fixed price, a breakdown showing the total minutes of use in the billing period listed under one telephone number for toll and long-distance service. Because violation of an order, decision, rule, direction, demand, or requirement of the commission is a crime under existing law, the bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 566 (AB 954) Goldberg. Teachers.

Existing law requires the governing board of a school district to evaluate and assess certificated employee performance as it reasonably relates to the progress of pupils, instructional techniques and strategies, the employee's adherence to curricular objectives, and the establishment and maintenance of a suitable learning environment. Existing law requires the evaluation and assessment of the performance of a certificated employee to be made at least every other year for personnel with permanent status.

This bill would authorize the evaluation and assessment at least every 5 years of personnel with permanent status who have been employed at least 10 years with the school district, are

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

highly qualified, as defined, and whose previous evaluation rated the employee as meeting or exceeding standards, if the evaluator and certificated employee being evaluated agree to this term, with certain exceptions. The bill would make a conforming change.

Ch. 567 (AB 956) Nation. Educators.

Existing law authorizes the Commission on Teacher Credentialing to issue 2 types of credentials: teaching credentials and services credentials.

This bill would define the term "educator" to mean a certificated person holding a valid California teaching credential or a valid California services credential who is employed by a local education agency or a special education local planning area and who is not employed as an independent contractor or consultant. Under the bill, the definition of educator would not apply to a person participating in a program enacted by statute prior to January 1, 2004, and would apply to a person participating in a program enacted by statute on or after that date only if the statute implementing the program expressly references the definition.

Ch. 568 (AB 962) La Suer. Minors: temporary custody.

Existing law authorizes a peace officer to take into temporary custody a minor who is in a hospital if the release of the minor to a prospective adoptive parent poses an immediate danger to the minor's health or safety. However, existing law prohibits a peace officer from taking into custody, without a warrant, a newborn child who is in a hospital, who tested positive for illegal drugs or whose birth mother tested positive for illegal drugs, who is the subject of an adoption petition and an adoption placement agreement, and whose release to the prospective adoptive parents does not pose an immediate danger to him or her. Existing law requires the prospective adoptive parents or their representative to provide a copy of the filed petition for adoption and the signed adoption placement agreement to the local child protective services agency or to the peace officer who is at the hospital to take the minor into temporary custody.

This bill would, as a condition prohibiting a peace officer from taking a minor into temporary custody, without a warrant, when the minor is a newborn who tested positive for illegal drugs or whose birth mother tested positive for illegal drugs, additionally require that the prospective adoptive parents or their representative provide a copy of a signed Health Facility Minor Release Report, a copy of an agency relinquishment signed by the placing birth parent or birth parents, and specified documentation. In the latter circumstances, the bill would impose certain conditions on the prospective adoptive parents or their representative.

The bill would also prohibit a peace officer from taking into temporary custody, without a warrant, a minor who is in a hospital, who is a newborn who tested positive for illegal drugs or whose birth mother tested positive for illegal drugs, and who is the subject of a petition for adoption, if the prospective adoptive parent or parents of the minor have been licensed to act as a foster parent or parents of the minor and other conditions are met.

Ch. 569 (AB 986) Jerome Horton. Tax collections: consolidation.

Existing law imposes various taxes that are administered by the Franchise Tax Board, the State Board of Equalization, and the Employment Development Department.

This bill would require the Legislative Analyst to submit a report to the Legislature by November 1, 2004, regarding the possible consolidation of the remittance processing and cashiering functions and the mail processing operations, of the Franchise Tax Board, the State Board of Equalization, and the Employment Development Department, based upon specified criteria.

This bill would require the Franchise Tax Board, the State Board of Equalization, and the Employment Development Department to assist the Legislative Analyst, as specified, in the preparation of the report required by this bill.

Ch. 570 (AB 1008) Dutton. Public school facilities funding: hazardous materials evaluation and removal.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition, including prescribed amounts for hazardous materials evaluation and response action for new construction projects.

This bill would authorize the board, within those limits, to adjust the grant amount for new construction projects if, due to increased requirements, the actual cost and associated fees paid by a school district for allowable hazardous materials evaluation and removal exceeds the grant apportionment.

Ch. 571 (AB 1191) Wiggins. Property insurance: rates: disclosure.

Existing law generally regulates the insurance industry. Existing law requires an insurer under certain property insurance policies to deliver to an insured, within a specified period prior to policy expiration, an offer of renewal or a notice of nonrenewal, as specified.

This bill would require an insurer under these property insurance policies, in addition, to inform an insured in writing of (1) any increase or decrease in an annual premium as compared to the previous year, (2) the reasons for the change, and (3) specified telephone numbers and information regarding consumer complaints.

This bill would provide that its provisions would not become operative until March 1, 2004.

Ch. 572 (AB 1244) Chu. School facilities funding: modernization.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition.

Existing law makes eligible for state funding a permanent school building that is more than 25 years old, or a portable classroom that is at least 20 years old, and that prior to November 4, 1998, had not been previously modernized with state funding.

This bill would delete the eligibility requirement that a school building not have been previously modernized with state funding and would allow an additional apportionment to be made for the modernization of permanent school buildings every 25 years following the date of the previous apportionment and, in the case of portable classrooms, every 20 years after the date of the previous apportionment. The bill would require the board to require a school district to use the modernization funds it receives for a portable classroom that is eligible for a second modernization to replace the portable classroom and to certify that the existing eligible portable classroom will be removed from any classroom use unless the district is able to document that modernizing the portable classroom is a better use of public resources. The bill would prohibit the capacity and eligibility of the school district from being adjusted for replacing the portable classroom.

Ch. 573 (AB 1266) Committee on Budget. Schools.

(1) Existing law requires the board of trustees of the California State Summer School for the Arts to set a tuition fee within a range that corresponds to actual costs, up to but not exceeding $1,000 per session in 1989, and authorizes the board of trustees to increase the fee up to 5% each year thereafter.

This bill would require the costs, for purposes of determining the fee, to be limited to tuition, pupil recruitment expenses, faculty and instructional supplies and related equipment, pupil room and board, and security. The bill would authorize the board of trustees, to the extent that fees are not increased in any year, to increase fees in any subsequent year up to the maximum amount that would have existed if the fees had been increased by 5% in each year. The bill would require the board of trustees to report annually, by October 1, to the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Governor, the Legislature, and the Department of Finance the percentages and numbers of pupils that receive scholarships, a waiver of fees, or a reduction in fees, as provided.

(2) Existing law requires the State Librarian to contract for an independent evaluation of a specified portion of the English Language and Intensive Literacy Program and to submit interim reports to the Legislature, as specified.

This bill would repeal those provisions.

(3) Existing law establishes the California Library Literacy Service as a public library services program designed to reduce adult illiteracy by providing English language literacy instruction and related services to adults and youth who are not enrolled in school. Existing law also establishes the Families for Literacy Program, a library services program with the purpose of preventing illiteracy through coordinated literacy and preliteracy services to families that include illiterate adults and young children.

This bill would repeal those programs and instead would establish the California Library Literacy and English Acquisition Services Program to reduce illiteracy among children and adults by providing English language literacy instruction and related services to native and nonnative English speaking youth and adults residing in California.

(4) Existing law establishes the Library of California Act under which program elements of the California Library Services Act would be phased out and repealed.

This bill would provide that funding for the Library of California Act is contingent upon an appropriation in the annual Budget Act for that purpose.

(5) Existing law requires the West Contra Costa Unified School District to repay certain emergency apportionments according to a repayment schedule that currently sets the interest charges at a rate equal to the daily investment rate of the Pooled Money Investment Account on January 1993.

This bill would authorize the West Contra Costa Unified School District to submit a request to the Director of Finance to have the interest rate on the remaining balance of its emergency apportionments changed to reflect the investment rate of the Pooled Money Investment Account as reported by the State Controller's Office for the immediately preceding fiscal year and would authorize the Director of Finance to so change the interest rate. This bill would make a legislative finding and declaration that due to the unique fiscal circumstances surrounding the West Contra Costa Unified School District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

(6) Existing law establishes the California School Paraprofessional Teacher Training Program for the purpose of recruiting paraprofessionals to participate in a program designed to encourage them to enroll in teacher training programs and to provide instructional service as teachers in the public schools. Existing law requires a participating school district or county office of education to certify that it has received a commitment from each participating paraprofessional that he or she will, among other things, complete one school year of classroom instruction in the district or county office of education for each year that he or she receives assistance for books, fees, and tuition while attending an institution of higher education under the program. Existing law requires the participating paraprofessional to repay the assistance to the extent that the participant does not fulfill his or her obligations.

This bill would prohibit a laid off participant from being required to repay the assistance until the participant is offered reemployment and has an opportunity to fulfill his or her obligations, and would make technical, nonsubstantive changes.

(7) Existing law authorizes invited schools that score below the 50th percentile on specified achievement tests to receive planning grants under the Immediate Intervention/Underperforming Schools Program (IIUSP). Under the existing IIUSP, a school that has not met its growth targets and has failed to show significant growth 24 months after receiving grant funding under that program is deemed a state-monitored school, and may be, among other things, placed under the management of designated entities, or may be required to enter into a contract with a school assistance and intervention team for purposes

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

of implementing the recommendations contained in the report prepared by that team for purposes of school improvement.

This bill would specify timelines for entering into a contract with a school assistance and intervention team and for adopting the team's recommendations. The bill would provide that from funds appropriated each year in the annual Budget Act to the State Department of Education for purposes of the federal No Child Left Behind Act or from state funds appropriated for this purpose, an allocation is to be made by the department to school districts and county offices of education (1) to provide $150 per pupil for each pupil in a school that is required to enter into a contract with a school assistance and intervention team, (2) to provide $150 per pupil for each pupil in a school that is managed by an entity designated to manage a state-monitored school under the IIUSP, (3) to provide funding for the support of each entity that is assigned to manage a state-monitored school, and (4) to provide $75,000 for the support of each school assistance and intervention team assigned to an elementary or middle school and $100,000 for each team assigned to a high school. The bill would authorize a school to receive up to $125,000 if the State Department of Education determines that additional funding is justified.

(8) Existing law establishes the High Priority School Grant Program for Low Performing Schools under which funds are made available to eligible schools for implementation of a school action plan that includes specified components. Existing law sets forth deadlines for the application process to receive a grant pursuant to the program.

This bill would provide that, notwithstanding those deadlines, if funding is made available for this purpose, the State Board of Education may approve additional applications received for the program in the 2002–03 and 2003–04 fiscal years, if other specified requirements are met. This bill would also provide that a school participating in the program that received a planning grant in the 1999–2000 fiscal year is eligible to receive program funding in the 2002–03 fiscal year only and that a school participating in the program that received a planning grant in the 2001–02 fiscal year is eligible to receive program funding in the 2002–03 and 2003–04 fiscal years only.

(9) Existing law requires the Office of the Secretary for Education, the State Department of Education, the Chancellor's Office of California Community Colleges, and the Health and Human Services Agency to enter into an interagency agreement to establish the Interagency Partnership for School-to-Career Programs. Existing law appropriated $2,000,000 from the General Fund to the Secretary for Education for purposes of the program.

This bill would require the State Department of Education, rather than the Interagency Partnership, to administer the School-to-Career Program. The bill would eliminate the appropriation and, instead, would provide that funding for the program is contingent upon an appropriation for this purpose in the annual Budget Act or in other legislation.

(10) Existing law establishes supplemental grants for allocation to school districts that receive less than average funding from specified categorical education programs. Existing law authorizes school districts to change their designation of supplemental grant funds from specified categorical education programs to another of those programs and makes an action to change or maintain the 1994–95 designation in the 1995–96 fiscal year applicable to the 1995–96 fiscal year and each fiscal year thereafter.

This bill would, notwithstanding any other law and until December 1, 2003, authorize a school district to change its designation of supplemental grant funds from specified categorical education programs to any other or others of those programs.

(11) Existing law establishes the Instructional Materials Funding Realignment Program and requires a local governing board to use funding received pursuant to the program to ensure that each pupil is provided with a standards-aligned textbook or basic instructional materials, as provided. Existing law requires pupils to be provided with the textbooks or instructional materials by the beginning of the first school term that commences no later than 24 months after those materials were adopted by the State Board of Education.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill, instead, would provide that, until June 30, 2005, a local governing board shall use funds received pursuant to the program to ensure pupils are provided with standards-aligned textbooks or instructional materials by the beginning of the first school term that commences no later than 36 months after those materials are adopted by the State Board of Education.

(12) Existing law provides that for the 2002–03 and 2003–04 fiscal years only, a requirement that the governing board of a school district provide a pupil with standards-aligned instructional materials, may be satisfied if the governing board provides a pupil with standards-aligned instructional materials that were adopted by the State Board of Education pursuant to specified legislation enacted in 1998.

This bill would additionally allow that exception to apply in the 2004–05 fiscal year.

(13) Existing law establishes the Golden State Examination Program to measure advanced pupil achievement on the academically rigorous content standards adopted by the State Board of Education.

This bill would repeal that program.

(14) Existing law establishes the Cal Grant Program, and requires that Cal Grant T awards be used only for tuition and student fees for a maximum of one academic year of full-time attendance in a program of professional preparation that is approved by the Commission on Teacher Credentialing. Existing law requires that a minimum of 3,000 new Cal Grant T awards be made each year.

This bill would delete the requirements regarding the number of Cal Grant T awards that are required to be made in a fiscal year.

(15) Existing law established the Governor's Scholars Program under which a pupil was authorized to receive a scholarship award for attaining a high score, as specified, on the reading and mathematics portions of the statewide achievement test. Existing law also established the Governor's Distinguished Mathematics and Science Scholars Program under which a pupil was authorized to receive a scholarship award for demonstrating specified high academic achievement in mathematics and science. Both of these programs became inoperative on July 1, 2003, and are repealed as of January 1, 2004.

This bill would provide that no award is to be made, nor is there any entitlement to an award, based on a test taken in 2003. The bill would provide that notwithstanding the operation and repeal of those programs, the Scholarshare Investment Board may continue to administer the scholarship accounts established pursuant to those programs for scholarships that were authorized and awarded prior to July 1, 2003.

(16) Existing law requires the Board of Governors of the California Community Colleges to develop, within certain statewide minimum requirements, criteria and standards for the purposes of making the annual budget request for the California Community Colleges.

This bill would revise the statewide minimum requirements on which the criteria and standards are to be based relative to decreases in noncredit FTES, in FTES for credit instruction and for instructional services and libraries, and decreases in headcount for student services.

(17) Existing law, until June 30, 2003, establishes the Student Academic Partnership program to provide preservice training to prospective teachers and secure tutoring assistance for pupils in kindergarten and grades 1 to 6, inclusive.

This bill would repeal the program.

(18) The Budget Act of 2003 authorizes a school district, county office of education, or other educational agency to expend not more than 10% of the amount appropriated for certain educational programs for the purposes of other educational programs, except that the total amount of funding expended for any program may not exceed 115% of the amount of state funding allocated for the program.

This bill would make an appropriation by authorizing a school district, county office of education, or other educational agency that transferred more than that amount between those

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

programs in the 2002–03 fiscal year to transfer up to the amount transferred in the 2002–03 fiscal year for each program.

(19) Existing law sets the growth and cost-of-living adjustments for special education programs at 0% of the 2003–04 fiscal year.

This bill would set only the cost-of-living adjustment for special education programs at 0% for the 2003–04 fiscal year.

(20) Existing law establishes the Teacher Recruitment Incentive Program for the purpose of establishing 6 regional teacher recruitment centers and requires the Sacramento County Office of Education to administer the program.

This bill would authorize a local educational agency that received funds pursuant to the program to expend or encumber those funds through June 30, 2004.

(21) Existing law establishes the School Improvement Program under which funds are allocated to schools with approved planning applications and schools with approved school improvement plans. Existing law rendered the program inoperative on June 30, 1987, but continues the funding for the general purposes of that program.

This bill would, notwithstanding any other law and for the 2003–04 fiscal year only, strongly encourage a school district implementing a school improvement program to first reduce nonpersonnel expenditures supported by those program funds to the extent that funding appropriated for the program is reduced.

(22) This bill would incorporate changes in Sections 52055.52, 52055.610, 52055.650, and 69440 of the Education Code that were made by AB 96.

(23) This bill would require the funding reduction to regional occupational centers and programs and adult education programs made by the Budget Act of 2003 as compared to funding for those centers and programs in the Budget Act of 2002 to be administered by the Superintendent of Public Instruction as a reduction to the number of funded units of average daily attendance, as provided.

Ch. 574 (AB 1309) Goldberg. School facilities: displaced residential development.

Existing law authorizes the governing board of a school district to acquire any property necessary to carry out any of the powers and functions of the board.

This bill would authorize the local governing agency, as defined, to acquire property to replace existing dwelling units displaced by school construction if certain conditions are met and would require that displaced persons be given a right of first refusal to purchase or rent the replacement dwelling units.

Ch. 575 (AB 1370) Yee. Mental health: community treatment facilities: seclusion and restraints.

Under existing law, community treatment facilities are residential facilities that are licensed by the State Department of Social Services and the State Department of Mental Health to provide residential care and mental health treatment services to children in a group setting, and that have the capacity to provide secure containment.

Existing law requires the State Department of Mental Health to adopt regulations establishing program standards for any facility licensed as a community treatment facility. These regulations are required to include standards for treatment and staffing, and for the use of psychotropic medication, discipline, and restraints.

This bill would, until January 1, 2007, prohibit the department from requiring 24-hour onsite nursing staff at community treatment facilities, but would require these facilities to retain at least one full-time, or full-time equivalent, registered nurse onsite, in specified circumstances, to maintain other nursing staff to be available on call, and to have all direct care staff trained in providing first aid and other emergency services, as specified. This bill would also authorize the department to adopt emergency regulations to implement these provisions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 576 (AB 1384) Maddox. Tenancy: inspections.

Existing law regulates the amount of security a landlord may demand or receive pursuant to a rental agreement for residential property to be used as a dwelling. Existing law requires a landlord to notify the tenant in writing of the tenant's right to an initial inspection of the premises for the purpose of identifying deficiencies against which the security may be applied and providing the tenant an opportunity to cure.

This bill would provide that a landlord is not required to provide notification of a tenant's right to an initial inspection when the tenancy is terminated pursuant to specified provisions.

This bill would incorporate additional changes to Section 1950.5 of the Civil Code proposed by SB 90, to be operative if SB 90 and this bill become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 577 (AB 1449) Firebaugh. Outdoor advertising.

Existing provisions of the Outdoor Advertising Act regulate the placement of off-premise advertising displays along highways, which generally are displays advertising business conducted or services rendered or goods produced or sold at a location other than the property upon which the display is located. The act generally prohibits advertising displays along landscaped freeways, but provides specific exemptions from that prohibition for displays in certain communities. The act does not prohibit a governmental entity from entering into a relocation agreement or the Department of Transportation from allowing any legally permitted advertising display to be increased in height at its permitted location if a noise attenuation barrier has been erected in front of the display and the relocation of the display or increase in height of the display would not cause a reduction in federal aid highway funds.

This bill would instead allow a relocation agreement or increase in height for an advertising display if a noise attenuation barrier is erected in front of the display or if a building, construction, or structure, including a bridge, overpass, or underpass, has been or is being erected by a governmental entity that obstructs the display's visibility within 500 feet. The bill would require an advertising display relocated under these provisions to comply with the existing written permit process.

Ch. 578 (AB 1475) Steinberg. Housing: homeless.

The existing California Statewide Supportive Housing Initiative Act, which would be repealed on January 1, 2004, requires the State Department of Mental Health to award grants to local government or private nonprofit agencies for services to a target population.

This bill would extend the repeal date of the act to January 1, 2009.

The existing Housing and Emergency Shelter Trust Fund Act of 2002 requires $195,000,000 to be transferred to the Housing Rehabilitation Loan Fund to be expended for the Multifamily Housing Program administered by the Department of Housing and Community Development to be used for supportive housing projects for individuals and households moving from emergency shelters or transitional housing or those at risk of homelessness. The act provides that the criteria for selecting projects should give priority to supportive housing for people with disabilities who would otherwise be at high risk of homelessness where the applications represent collaboration with programs that meet the needs of the person's disabilities. Existing law also contains provisions administered by the State Department of Mental Health known as the Adult and Older Adult Mental Health System of Care Act that establish criteria for available funding for counties with a high incidence of persons who are severely mentally ill and homeless or at risk of homelessness.

Existing law requires that the Department of Housing and Community Development's selection criteria for those funds from the Multifamily Housing Program for supportive housing projects give priority to supportive housing projects that house persons with disabilities who would otherwise be at high risk of homelessness where the application for funding demonstrates collaboration with programs that meet the needs of the residents'

NOTE: Superior numbers appear as a separate section at the end of the digests.

disabilities, and also to supporting housing projects that include a focus on measurable outcomes and a plan for evaluation that will be submitted annually to the department. Existing law also establishes provisions with respect to loan limits, borrowers' development and ownership experience, reporting requirements of borrowers, and reporting requirements of the department to the Legislature.

This bill would made technical changes to those provisions.

This bill would require counties that receive grants pursuant to the Adult and Older Adult Mental Health System of Care Act after January 1, 2004, to enter into contracts with sponsors of supportive housing projects to the greatest extent possible.

That act requires the department to annually report to the Legislature, as prescribed.

This bill would include additional requirements with respect to those annual reports.

This bill would incorporate additional changes in Section 53533 of the Health and Safety Code proposed by this bill and AB 304 that would become operative only if both bills are chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 579 (AB 1496) Montanez. Health care.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. Existing law requires a health care service plan to establish an independent review process to examine coverage decisions, and requires the Director of the Department of Managed Health Care to require a plan to reimburse an enrollee for reasonable costs of urgent care or emergency services obtained outside of the plan provider network if the enrollee's decision related thereto was made prior to completing the plan grievance process or seeking an independent medical review but was reasonable, a subsequent independent medical review determines the services that were medically necessary, and the services were a covered benefit under the plan contract.

This bill would revise the reimbursement requirement so that the director must require reimbursement if the urgent care or emergency services are determined to be medically necessary, the services were a covered benefit, and either the enrollee's decision to secure the services was reasonable or the plan does not require or provide prior authorization for the services.

Ch. 580 (AB 1512) Cohn. Arts education.

Existing law, to be repealed on January 1, 2008, establishes the Local Arts Education Partnership Program to provide grants to local arts agencies, including school districts, to develop a locally based approach to the improvement of arts education in the public schools. Existing law provides that the program shall be funded from the sale of certain vehicle license plates.

This bill would establish the Arts Work Visual and Performing Arts Education Program, to be administered by the State Department of Education, for the purposes of awarding grants to local educational agencies to develop their capacity to implement high-quality, instructional programs based on the state adopted visual and performing arts content standards for pupils in kindergarten and grades 1 to 12, inclusive. The bill would require the Superintendent of Public Instruction to select a panel of experts that would evaluate the project proposals and select grant recipients based on specified criteria.

Ch. 581 (AB 1576) Liu. Water heaters: earthquakes.

(1) Existing law requires all new, replacement, and existing residential water heaters to be braced, anchored, or strapped to resist falling or horizontal displacement due to earthquake motion, as specified.

This bill would prohibit eviction based solely on this requirement. Because a violation of these provisions relating to earthquake protection is punishable as a misdemeanor under

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

other provisions, this bill would impose a state-mandated local program by changing the definition of a crime.

The bill would also provide that the owner or the owner's agent has the right to correct specified violations of those provisions that are deemed to be a nuisance and would also make technical changes to these provisions.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 582 (AB 1627) Frommer. Health care.

(1) Existing law creates the California Health Manpower Policy Commission, which designates the geographical rural areas within California where unmet priority need for medical services exist.

This bill would change the name of this commission to the California Healthcare Workforce Policy Commission.

(2) Under existing law, the State Department of Health Services regulates the licensure and operation of health facilities, including hospitals. Under existing law, violation of these provisions, or any rule or regulation adopted thereunder, constitutes a misdemeanor.

This bill would establish the Payers' Bill of Rights. The bill would, beginning July 1, 2004, require a hospital, except a small and rural hospital, that uses a charge description master, as defined, to make available a written or electronic copy in accordance with specified provisions. This bill would also require a hospital to post a notice, as specified, that informs patients that the hospital's charge description master is available pursuant to the specified provisions.

This bill would require each hospital to compile a list of the charges for 25 services or procedures commonly charged to patients and, beginning July 1, 2004, make this list available to any person upon request.

This bill would authorize any person to file a claim with the department alleging violation of these provisions, and would require the department to investigate and inform the complaining person of its determination whether a violation has occurred and what action it will take.

This bill would also require, beginning July 1, 2004, that each hospital file a copy of its charge description master and other information with the Office of Statewide Health Planning and Development, and would impose related reporting requirements.

The bill would prohibit a hospital from conditioning acceptance of a contract with a health care service plan or health insurer on waiving any of the foregoing provisions.

By imposing new requirements on hospitals, this bill would create new crimes, thereby imposing a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 583 (AB 1628) Frommer. Health care.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, regulates and licenses health care service plans by the Department of Managed Health Care and makes the willful violation of the act a crime. The act authorizes a health care service plan to require prior authorization as a prerequisite for payment for necessary medical care following stabilization of an emergency medical condition.

This bill would require a noncontracting hospital to contact an enrollee's health care service plan to obtain the enrollee's medical record information prior to admitting the enrollee as an inpatient for poststabilization care, transferring an enrollee to a noncontracting

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

hospital for poststabilization care, or prior to providing poststabilization care to an enrollee admitted for medically necessary care, under specified conditions. The bill would impose specified duties on a health care service plan after being contacted by a hospital under these circumstances and would require the plan in designated situations to reimburse the hospital for poststabilization care rendered to an enrollee. The bill would require a noncontracting hospital that admits an enrollee who is not stabilized to contact the enrollee's health care service plan as soon as reasonably possible after the condition is stabilized. The bill would prohibit a hospital that is required to contact the patient's health care service plan, and fails to do so, from billing the patient for poststabilization care.

Because a violation of certain provisions of the bill would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 584 (AB 1649) Simitian. Special education: skilled nursing facilities.

Existing law requires the Superintendent of Public Instruction to apportion moneys to a school district and county superintendent to fund costs associated with placing a pupil in a nonpublic, nonsectarian school or agency for the purpose of providing special education instruction, designated instruction and services, or both. Existing law also authorizes the superintendent to reimburse a school district and county superintendent for costs associated with the assessment and identification of those pupils.

This bill would extend that requirement and authorization for the purpose of funding costs associated with providing services to a pupil in a skilled nursing facility, as defined, when the pupil is directly served by a school district with an average daily attendance less than 3,000.

This bill would make other technical and conforming changes.

Ch. 585 (AB 1705) Committee on Judiciary. Trustees: distributions: liability.

Existing law regulates trust administration and requires a trustee to administer the trust according to the trust instrument, as specified. Existing law prohibits a trustee from using or dealing with trust property for the trustee's own profit or for any other purpose unconnected with the trust.

This bill would prohibit a trustee from requiring a beneficiary to relieve the trustee of liability as a condition for making a distribution or payment to, or for the benefit of, the beneficiary, if the distribution or payment is required by the trust instrument. The bill would provide that its provisions may not be construed as affecting the trustee's right to take specified actions.

Ch. 586 (AB 1777) Committee on Business and Professions. Health care practitioners.

(1) Existing law creates the Board of Podiatric Medicine under the Medical Board of California. Under existing law, the board is required to approve podiatric residency programs, and specifies requirements in this regard. Existing law requires applicants to provide an official transcript or other evidence to the board as evidence that he or she has completed certain educational requirements, and requires an applicant to complete 4 academic years in an approved school or college.

This bill would revise the requirements for the education and training of podiatrists. The bill would require an applicant to practice podiatry to show the completion of specified curriculum requirements by a transcript submitted directly to the board by the academic institution. The bill would specify that the applicant may complete 32 months of actual instruction in an approved school or college instead of 4 years.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) Existing law, the Respiratory Care Practice Act, creates the Respiratory Care Board of California and regulates the practice of respiratory care. The act provides for notice requirements for the board's meetings and generally prohibits the practice of respiratory care without a license issued by the board.

This bill would delete the notice requirements for the board's meetings. The bill would prohibit a person whose license is invalid from practicing respiratory care and an unlicensed person from representing himself or herself as a respiratory care practitioner.

(3) Existing law provides for license and examination requirements after payment of specified fees for respiratory care practitioners.

This bill would revise the education, training, and license requirements for respiratory care practitioners. The bill would authorize a licensee to be placed in a retired status if certain requirements are met. The bill would authorize the board to contract with a collection service for the purpose of collecting outstanding fees, fines, or cost recovery amounts from applicants or licensees.

(4) The bill would delete obsolete provisions relating to healing arts licensees.

(5) Because a violation of the bill's provisions in the Respiratory Care Practice Act would be a misdemeanor, the bill imposes a state-mandated local program.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(7) This bill would incorporate additional changes in Section 4521 of the Business and Professions Code, contingent upon the prior enactment of SB 358.

Ch. 587 (SB 15) Alpert. School facilities.

(1) Existing law provides that a school district is eligible to receive an apportionment for modernization of permanent school buildings over 25 years old or portable classrooms that are at least 20 years old and sets forth the manner in which the amount of funding a school district is eligible for is calculated.

This bill would allow an additional apportionment to be made for the modernization of permanent school facilities every 25 years following the date of the previous apportionment and, in the case of portable classrooms, every 20 years after the previous apportionment is made.

This bill would require the board, for a portable classroom that is eligible for a second modernization, to require a school district to use the modernization funds to replace the portable classroom and to certify that the existing eligible portable classroom will be removed from any classroom use, unless the school district is able to document that modernizing the portable classroom is a better use of public resources.

(2) Existing law authorizes the board to provide a grant to fund joint-use projects to construct a facility on a schoolsite if the school district demonstrates that the project meets specified criteria, including that the joint-use project is part of an application for new construction funding.

This bill would, instead, provide that joint-use funding may be provided to a joint-use project to either reconfigure existing school buildings or construct new school buildings, or both, to improve pupil achievement, only if the plans for the facility were accepted for review and approval by the department prior to January 1, 2004.

(3) Existing law conditions eligibility for a joint-use grant on, among other things, demonstration by a school district that it has a joint-use partner that has agreed to provide matching funds for 50% of the eligible costs, as specified.

This bill would require the joint-use agreement to specify the contribution to be made by the school district and the joint-use partner toward the local share and would require the contribution of the joint-use partner to be no less than 25% of the eligible project costs.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(4) Existing law establishes a pilot program to determine the optimum method for providing school facilities funding for charter schools.

This bill would delete the reference to those provisions as being a pilot program.

(5) Existing law further requires the California School Finance Authority, in consultation with the State Allocation Board, to establish a process to be used for the release of funds for that program.

This bill would instead require the State Allocation Board to establish that process.

(6) Existing law provides for submission to the voters of the Kindergarten-University Public Education Facilities Bond Acts of 2002 and 2004 which would, in part, authorize the issuance of bonds for the purpose of funding K-12 school facilities, including, but not limited to, charter school facilities pursuant to the Leroy F. Greene School Facilities Act of 1998 (Greene Act). Existing law also sets forth the manner of funding charter school facilities under the Kindergarten-University Public Education Facilities Bond Act of 2002 including, among other provisions, that the State Allocation Board and the California School Finance Authority provide funding for charter school facilities pursuant to that act.

This bill would set forth the manner of funding charter school facilities under the Kindergarten-University Public Education Facilities Bond Act of 2004, including, among other provisions, the authority for the State Allocation Board and the California School Finance Authority to provide funding for charter school facilities projects.

(7) Existing law requires the board, in consultation with the authority, to approve projects and make preliminary apportionments only to financially sound applicants, as specified.

This bill would require the board to maximize the number of projects that may be approved by adopting total per project funding caps and would require the board to adopt other funding limits including, but not limited to, limits on the amount of acreage and construction funding for each project. The bill would require the construction funding limits to include, but not be limited to, consideration of savings due to retrofitting existing buildings, joint-use projects, or other factors.

(8) Existing law requires the board, in consultation with the authority, to adopt regulations to implement the funding requirements for charter school facilities.

This bill would permit the board to adopt, amend, or repeal rules and regulations pursuant to this chapter as emergency regulations and would state that until July 1, 2004, the adoption, amendment, or repeal of these regulations is conclusively presumed to be necessary for the immediate preservation of the public peace, health, safety, or general welfare, as specified. The bill would further require the State Allocation Board and the California School Finance Authority to jointly report to the Legislature by July 1, 2005, regarding the implementation of the charter schools facilities funding program, including, but not limited to, a description of the projects funded pursuant to the law governing charter schools from the Kindergarten-University Public Education Facilities Bond Act of 2004, a description of the process whereby the board provides funding for charter school facilities under provisions of the Greene Act, other than those governing charter schools, and recommendations, if any, regarding statutory changes needed to facilitate and streamline this process.

(9) This bill would make technical and conforming changes.

Ch. 588 (SB 88) Chesbro. Alcoholic beverages: permits: winegrowers.

Existing law permits the Department of Alcoholic Beverage Control to issue special temporary licenses and permits to various entities for limited purposes.

This bill would authorize the department to issue a wine sales event permit to allow a licensee under a winegrower's license to sell bottled wine that is produced by the winegrower at an approved event held by a tax-exempt organization, as specified, for not more than 5 consecutive days.

The bill would prohibit a wine sales event permit from being used more than 2 times a month at a particular location, and limit the amount of wine a licensee may sell under a permit.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would authorize the organization to charge a fee for the licensee's use of display booth space, and require the organization to allow the participation of more than one winegrower under a permit if public attendance at an event is expected to reach or exceed 1,000 people.

This bill would also require the department to report to the Legislature within 24 months whether the $50 wine sales event permit fee is sufficient to compensate the department for extra costs it may incur in administering and enforcing these provisions.

Ch. 589 (SB 146) Escutia. Contracts: Spanish translation.

Existing law requires a person in a trade or business who negotiates specified contracts or agreements primarily in the Spanish language to deliver to the other party prior to execution thereof, a Spanish-language translation of the contract or agreement, except as specified. Failure to comply entitles the aggrieved party to rescind the contract or agreement.

This bill would provide that this translation is required to include a translation of every term and condition in that contract or agreement, with specified exceptions. The bill would also make nonsubstantive, technical changes to these provisions.

This bill would incorporate additional changes to Section 1632 of the Civil Code proposed by AB 309, to become operative only if AB 309 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 590 (SB 244) Speier. Continuity of care.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a violation of the act's provisions a crime. Existing law also provides for the regulation of health insurers by the Department of Insurance.

Under existing law, a health care service plan providing coverage on a group basis is required to file with the department a written continuity of care policy for a new enrollee who is receiving services for an acute condition from a nonparticipating provider. Existing law requires a plan to provide 30 days' notice of the termination of specified provider contracts to an enrollee receiving a course of treatment from the terminated provider. Under existing law, a plan and a health insurer, as specified, are required to arrange for the continuation of covered services by a terminated provider to an enrollee or insured undergoing a course of treatment for an acute condition, serious chronic condition, or pregnancy, as defined.

This bill would require a health care service plan, other than a specialized health care service plan offering mental health services on an employer-sponsored group basis, to file with the department by March 31, 2004, a written continuity of care policy describing its procedures for the block transfer of enrollees from a terminated provider group or hospital, as defined, to a new provider group or hospital, including the notice it proposes to send affected enrollees, and its process to facilitate the completion of covered services for enrollees.

The bill would require that a health care service plan submit a block transfer filing to the department at least 75 days prior to the termination of its contract with a provider group or a general acute care hospital and provide 60 days' notice of the contract's termination to enrollees assigned to the terminated provider. The bill would specify the requirements for an insurer to provide completion of covered services by a terminated provider and for a plan to provide those services either by a terminated provider or by a nonparticipating provider to a newly covered enrollee. The bill would require a plan and a health insurer to provide completion of covered services for a surgery or procedure recommended and documented by the provider under specified circumstances.

The bill would require a health care service plan and a provider to include in any written, printed, or electronic communication to an enrollee a specific statement concerning continuity of care rights.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Because the bill would specify additional requirements under the act, the violation of which would be a crime, it would impose a state-mandated local program.

This bill would provide that it would become operative only if AB 1286 of the 2003–04 Regular Session is enacted and becomes effective on or before January 1, 2004.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 591 (AB 1286) Frommer. Continuity of care.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a violation of the act's provisions a crime. Existing law also provides for the regulation of health insurers by the Department of Insurance.

Under existing law, a health care service plan providing coverage on a group basis is required to file with the department a written continuity of care policy for a new enrollee who is receiving services for an acute condition from a nonparticipating provider. Existing law requires a plan to provide 30 days' notice of the termination of specified provider contracts to an enrollee receiving a course of treatment from the terminated provider. Under existing law, a plan and a health insurer, as specified, are required to arrange for the continuation of covered services by a terminated provider to an enrollee or insured undergoing a course of treatment for an acute condition, serious chronic condition, or pregnancy, as defined.

This bill would require a health care service plan, other than a specialized health care service plan offering mental health services on an employer-sponsored group basis, to file with the department by March 31, 2004, a written continuity of care policy describing its procedures for the block transfer of enrollees from a terminated provider group or hospital, as defined, to a new provider group or hospital, including the notice it proposes to send affected enrollees and its process to facilitate the completion of covered services for enrollees.

This bill would require that a health care service plan submit a block transfer filing to the department at least 75 days prior to the termination of its contract with a provider group or a general acute care hospital and provide 60 days' notice of the contract's termination to enrollees assigned to the terminated provider. The bill would specify the requirements for an insurer to provide completion of covered services by a terminated provider and for a plan to provide those services either by a terminated provider or by a nonparticipating provider to a newly covered enrollee. The bill would also require a plan and a health insurer to provide completion of covered services for a surgery or procedure recommended and documented by a provider under specified circumstances.

The bill would require a health care service plan and a provider to include in any written, printed, or electronic communication to an enrollee a specific statement concerning continuity of care rights.

Because the bill would specify additional requirements under the Knox-Keene Health Care Service Plan Act of 1975, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would make the operation of its provisions contingent upon the enactment of SB 244.

Ch. 592 (SB 256) Escutia. Court facilities.

(1) The State Building and Construction Act of 1955 governs various aspects of the acquisition, construction, purchase, leasing, and finance of public buildings.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would exempt court facilities from certain aspects of that act, as specified.

(2) The Trial Court Facilities Act of 2002 provides for the finance, operation, and maintenance of court facilities, including the requirement that each county remit a county facilities payment, to be calculated as specified, to the Controller for deposit in the Court Facilities Trust Fund.

This bill would impose a state-mandated local program by revising the method for the calculation of the county facilities payment, and would make conforming changes. The bill would also require new duties of the Administrative Office of the Courts in this regard through June 2007. The bill would also exempt the acquisition and construction of court facilities from provisions of the Public Contract Code, as specified.

(3) Existing law sets the compensation and benefits of court reporters and court reporters pro tempore in Fresno County, as specified.

This bill would repeal that provision.

(4) Existing law imposes a surcharge on appearance fees in civil actions, as specified, to be deposited in the Court Facilities Trust Fund in order to provide additional funds for maintaining and expanding the uniform accessibility of the courts and judicial process throughout the state.

This bill would clarify the application of, and revise the collection procedure for, that surcharge. The bill would also clarify provisions governing the responsibilities and authority of the Administrative Office of the Courts regarding court facilities.

(5) Existing law authorizes each county to establish a courthouse construction fund to assist in the acquisition, rehabilitation, construction, and financing of courtrooms and facilities necessary or incidental to the operation of the justice system, as specified. Existing law also provides for a transition from county funding to state funding for superior court facilities, as specified.

This bill would provide that no county may make any expenditure or encumber future funds from the county courthouse construction fund without the approval of the Administrative Director of the Courts, except as specified. The bill would prohibit a county from extending the term of bonded indebtedness for which county courthouse construction funds are encumbered without the approval of the Administrative Director of the Courts; and would provide that if the Administrative Director of the Courts denies an expenditure or encumbrance for the correction of a deficiency in a court facility, as specified, that deficiency may not be used as grounds for rejection of the transfer of responsibility for that court facility to the Judicial Council if certain conditions apply. These provisions would become inoperative on July 1, 2007, or on a specified day, whichever comes later.

The bill would also specify that expenditures from a county courthouse construction fund are subject to other provisions governing the transition to state funding for superior court facilities.

(6) Existing law prescribes procedures for calculation of the county facilities payment that each county is required to remit for deposit into the Court Facilities Trust Fund and establishes the Court Facilities Dispute Resolution Committee to resolve disputes between a county and the Judicial Council regarding, among other things, the amount of that county facilities payment. Existing law also establishes the State Court Facilities Construction Fund and specifies that money in that fund may be used only for designated purposes.

This bill would correct erroneous references in those provisions.

(7) Existing law establishes an additional penalty to be assessed by each county on fines, penalties, and forfeitures imposed for criminal offenses for the local courthouse construction fund, as specified for each county.

This bill would increase that additional penalty for Fresno County from $5 to $7.

(8) Existing law provides for trial courts to employ their own personnel or, in certain instances, to contract with the county for specified services.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would establish specific provisions regarding cleaning and maintenance personnel for the trial courts, and revise provisions governing the employment of temporary employees.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 593 (SB 305) Ducheny. Department of Housing and Community Development.

(1) The Enterprise Zone Act requires the Technology, Trade, and Commerce Agency to administer the act and to designate enterprise zones proposed by a city, county, or city and county from applications selected on the basis of the most effective, innovative, and comprehensive regulatory, tax program, and other incentives in attracting private sector investment in the zone proposed. The act also requires the agency to approve the expansion of an enterprise zone pursuant to specified criteria.

This bill would transfer this authority to the Department of Housing and Community Development.

(2) Existing law authorizes the Department of Housing and Community Development to issue a citation assessing a civil penalty on mobilehome, manufactured home, and commercial coach dealers who commit prescribed unlawful acts.

This bill would delete violations relating to allowing the dealer an option to purchase, and include violations relating to advertising of costs, within those provisions authorizing the department to issue citations.

(3) Existing law establishing the Predevelopment Loan Program defines "eligible sponsors" for purposes of the program to include limited liability corporations.

This bill, instead, would refer to those eligible sponsors as limited liability companies.

Ch. 594 (SB 315) Committee on Transportation. Transportation.

(1) Existing law requires the North San Diego County Transit Development Board to award contracts for construction in excess of $50,000 to the lowest responsible bidder after competitive bidding, except in an emergency.

This bill would make that requirement applicable to contracts in excess of $10,000.

(2) Existing law creates the San Diego Metropolitan Transit Development Board and the North San Diego County Transit Development Board with various responsibilities to operate and construct transit systems in their service areas. Existing law authorizes the San Diego Metropolitan Transit Development Board to engage in various financial transactions, including the issuance of revenue bonds and the purchase of transit equipment with equipment trust certificates and other financing mechanisms.

This bill would enact similar provisions applicable to the North San Diego County Transit Development Board.

(3) Existing law provides for an appointed 15 member governing body for the San Diego Metropolitan Transit Development Board in San Diego County, one of whom shall be appointed by the San Diego County Board of Supervisors to represent one of the 2 supervisorial districts that has the greatest percentage of its area within the jurisdiction of the transit development board. Existing law provides that the board is reduced to 14 members if the person elected chairperson is also a board member.

This bill would instead provide that if the chairperson is elected from the membership of the board, the County of San Diego shall have an additional member appointed by the San Diego County Board of Supervisors and the board membership shall remain at 15 members.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would require that one of the 2 supervisorial district representatives come from a district that has the greatest percentage of its area within the incorporated area of San Diego County and the other come from a district that has the greatest percentage of its area within the unincorporated area of San Diego County under the jurisdiction of the transit development board.

(4) Existing law describes the area of the board by using city names and specified census tracts contained in the 1980 decennial census maps that are on file with the United States Department of Commerce.

This bill would delete the references to the census tracts and would instead include all of the unincorporated area of San Diego County except for that area included within the North San Diego County Transit Development Board.

(5) The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state in the amount of 2% of the market value of that vehicle, as specified. The VLF Law requires the Department of Motor Vehicles to determine the market value of a vehicle, as specified, upon the first sale of a new vehicle to a consumer and upon each sale of a used vehicle to a consumer for the purpose of computing the vehicle license fee. The VLF Law also provides that if a commercial vehicle, as defined, is modified or additions are made, as specified, at a cost of $2,000 or more, the owner of that vehicle is required to report that modification or addition to the department for the purposes of making the specified computation.

This bill would delete obsolete cross-references contained in these provisions.

(6) Existing law requires the California Transportation Commission to program interregional and regional transportation capital improvement projects through the State Transportation Improvement Program process, consistent with estimated available funding. Existing law requires regional improvement projects nominated by regional agencies to be programmed by the commission pursuant to certain formulas, known as the north-south split and county shares. Existing law authorizes the commission, with the consent of the Department of Transportation, to program projects in a region with a population of not more than 1,000,000 at a level higher or lower than a county share, in order to either build up a reserve for a larger project or advance a future share to the present, with the amount of the reserve or advance credited to or deducted from future programming, as the case may be.

This bill would extend the county share reservation or advance process to any county with a population of not more than 1,000,000.

(7) Existing law authorizes the California Transportation Commission to relinquish to the City of Los Angeles a specified portion of State Highway Route 2, upon terms and conditions the commission finds to be in the best interests of the state.

This bill would authorize the commission to relinquish to the City of Beverly Hills a specified portion of State Highway Route 2, upon those terms and conditions, and would require the City of Beverly Hills to maintain within its jurisdiction certain directional signs. The relinquishment would become effective immediately following the county recorder's recordation of the relinquishment resolution containing the commission's approval of the terms and conditions of the relinquishment. The portion of State Highway Route 2 relinquished as specified would cease to be a state highway on the effective date of the relinquishment.

(8) Existing law imposes weight fees on commercial vehicles, subject to certain exceptions, with those fees to be deposited in the State Highway Account and the Motor Vehicle Account.

This bill would make nonsubstantive changes in an existing exemption from weight fees for certain special transportation vehicles.

(9) Existing law requires an applicant for renewal of a traffic violator school operator's license to pass an examination on traffic laws, safe driving practices, operation of motor vehicles, teaching methods and techniques, traffic violator school statutes and regulations, and office procedures and recordkeeping.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would authorize the Department of Motor Vehicles to accept evidence of continuing professional education, as defined, in lieu of the examination.

(10) Existing law prescribes certain restrictions on the issuance by the Department of Motor Vehicles of a copy, duplicate, or substitution of a certificate of title or license plate and requires the registered owner to apply in person and present certain documents.

This bill would modify those restrictions by, among other things, revising the documentation requirements and exempting certain vehicles from those restrictions.

The bill would allow the department to issue one or more license plates to the registered owner or lessee and issue a certificate of title only to the legal owner, or if none, the registered owner.

(11) Existing law authorizes a person who is a firefighter or a retired firefighter to apply for special license plates for the person's vehicle. The special license plates, which contain the words "California Firefighter" and run in a regular numerical series, are issued upon application to the Department of Motor Vehicles, presentation of proof of certain facts, and payment of certain fees. Except for fees charged for issuing the plates as environmental license plates, all the revenues derived from the fees charged for the plates, less costs incurred by the department in issuing the plates, are required to be deposited in the California Firefighters' Memorial Fund, prior to January 1, 2006, and in the California Fire and Arson Training Fund, on and after January 1, 2006.

This bill, instead, would require the specified fees to be deposited exclusively in the California Firefighters' Memorial Fund.

(12) Existing law requires the rear license plate on a vehicle to be mounted not less than 12 inches nor more than 60 inches from the ground, and the front license plate to be mounted not more than 60 inches from the ground, except as specified.

This bill would authorize the rear license plate on a two-axle livestock trailer to be mounted 12 inches or more, but not nor more than 90 inches, from the ground.

(13) Under existing law, when an application is made to the Department of Motor Vehicles to register a vehicle reported as a total loss salvage vehicle or for dismantling, the department is required to inspect the vehicle, as specified, or to request that the Department of the California Highway Patrol inspect the vehicle, as specified. Existing law also requires a person submitting those vehicles for registration to have specified documents available.

This bill would prohibit a vehicle that has been reported as a total loss salvage vehicle or dismantled vehicle from being subsequently registered until the prescribed bill of sale, an appropriate application, official lamp and brake adjustment certificates, as specified, other required documents and fees, and specified pollution control information is submitted to the Department of Motor Vehicles. The bill would prohibit the Department of Motor Vehicles from registering a vehicle that has been reported as a total loss salvage vehicle or dismantled vehicle if the vehicle has been referred to the Department of the California Highway Patrol, or selected for inspection by that department, as specified, until the applicant for registration submits to the Department of Motor Vehicles a certification of that inspection.

Because a violation of this provision would be a crime under other provisions of existing law, the bill would impose a state-mandated local program by expanding the scope of that crime.

(14) Existing law specifies certain grounds for the Department of Motor Vehicles to deny or revoke a certificate required to operate a schoolbus, a school pupil activity bus, or various other specialty vehicles. Existing law allows a person to reapply for a certificate no sooner than one year after a denial or revocation.

This bill would allow a person to reapply for a certificate no sooner than 45 days after denial or revocation in the case of failure to meet prescribed testing requirements.

(15) Existing law requires all drivers to have evidence of financial responsibility with them at all times, and defines "evidence of financial responsibility" for these purposes.

This bill would make nonsubstantive changes to provisions defining financial responsibility.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(16) Existing law authorizes a vehicle to be equipped with white or amber reflectors upon the front of the vehicle that are mounted not lower than 15 inches nor higher than 60 inches.

This bill would authorize a schoolbus to be equipped with a set of 2 devices, with each device in the set consisting of an amber reflector integrated into the lens of an amber light that is otherwise permitted under the Vehicle Code, if the set is mounted with one device on the left side and one on the right side of the vehicle, and with each device at the same level.

(17) Existing law prohibits a person operating a motor vehicle or bicycle from wearing a headset or earplugs in both ears except under specified circumstances, including the wearing of personal hearing protectors in the form of custom earplugs or molds designed to attenuate injurious noise levels.

This bill would revise these provisions.

(18) This bill would make various other nonsubstantive changes in existing law relating to vehicles.

(19) This bill would extend, to June 30, 2006, the completion dates for the Bass Lake Trail Environmental Enhancement and Mitigation Project in the County of Madera and the Junior Seau Complex Mitigation Project in the County of San Diego. The bill would reappropriate moneys to the Department of Transportation for these projects.

(20) This bill would incorporate additional changes to Section 5201 of the Vehicle Code proposed by AB 1303, to become operative only if AB 1303 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

(21) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 595 (SB 359) Figueroa. Professions and vocations.

Existing law provides that it is grounds for disciplinary action, including suspension or revocation of a license or certificate, for health care professionals to engage in various fraudulent activities such as presenting a false insurance claim.

This bill would require various medical services boards to convene disciplinary hearings to suspend, revoke, or take other action regarding a license or certificate if the licensee or certificate holder has been convicted of any felony involving fraud committed in conjunction with providing benefits covered by worker's compensation insurance.

This bill would incorporate additional changes in Section 810 of the Business and Professions Code proposed by AB 746 and AB 747 that would become operative only if AB 746, AB 747, and this bill are enacted and become effective on or before January 1, 2004, or either AB 746 or AB 747 and this bill are enacted and become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 596 (SB 377) Chesbro. Health services.

Under existing law, the State Department of Health Services administers a program for American Indian health services and is required to use funds appropriated to the department for the purposes of the program to provide specified assistance to urban and rural American Indian health programs and to assist these programs in planning, implementing, and upgrading programs to attain a comprehensive health services delivery system for American Indians in urban and rural areas. Existing law provides for the award of contracts and grants for purposes of the program.

This bill would require the department to provide semiannual prospective payments to a grantee during a 12-month fiscal period, in accordance with specified criteria, to the extent funds are available.

Ch. 597 (SB 760) Scott. Sales and use taxes: exemptions: public passenger vehicles.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. That law provides various exemptions from that tax. One of these exemptions, effective until January 1, 2004, is an exemption for specified sales and leasebacks of qualified equipment, as defined, used in the provision of public transportation services, as well as for purchases of leased or subleased qualified equipment purchased by a qualified person, as defined, at the end of the term of the lease or sublease.

This bill would extend the operation of this provision until January 1, 2009.

Existing law requires that the Legislative Analyst conduct a study on the impact of this exemption, and report its findings to the Legislature by January 1, 2003.

This bill would instead require the Legislative Analyst to report the results of its study to the Legislature by January 1, 2008, and would add an additional element to the study.

The bill would also require the qualified person to submit certain documents to specified state entities no later than 5 days after the closing of any lease-leaseback transaction, and would require the Franchise Tax Board to assess the information provided in those documents and report on the revenue loss to the state.

Upon the repeal of this exemption, this bill would exempt option purchases of leased or subleased qualified equipment by a qualified person, if the purchaser and equipment were otherwise eligible for the exemption at the time the lease or sublease was entered into.

Counties and cities are authorized to impose local sales and use taxes in conformity with state sales and use taxes. Exemptions from state sales and use taxes enacted by the Legislature are incorporated into the local taxes.

Section 2230 of the Revenue and Taxation Code provides that the state will reimburse counties and cities for revenue losses caused by the enactment of sales and use tax exemptions.

This bill would provide that, notwithstanding Section 2230 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for sales and use tax revenues lost by them pursuant to this bill.

This bill would take effect immediately as a tax levy, but it would become operative on January 1, 2004.

Ch. 598 (SB 802) Torlakson. Transportation: interregional road system.

Existing law requires certain transportation funds made available for transportation capital improvement projects to be programmed and expended in specified amounts for interregional improvements and regional improvements. Existing law specifies the state highway routes that are included in the interregional road system and the state highway routes that are eligible interregional and intercounty routes.

This bill would include a portion of State Highway Route 84 and all of State Highway Route 239 as eligible interregional and intercounty routes.

Ch. 599 (SB 821) Alarcon. Business ethics: Golden State Business and Social Responsibility Award.

Existing law, known as the Donahoe Higher Education Act, sets forth the missions and functions of California's public and independent segments of higher education, and their respective institutions of higher education. Provisions of the act apply to the University of California only to the extent that the Regents of the University of California, by appropriate resolution, act to make a provision applicable. Among other things, the act identifies common educational missions shared by educational institutions in California and differentiates more specific missions and functions among the various educational segments.

This bill would require the Trustees of the California State University and the Board of Governors of the California Community Colleges, and request the Regents of the University of California and the Association of Independent California Colleges and Universities, to participate in a task force to develop a plan for integrating instruction in business ethics into

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

their business and business administration programs. The bill would require this task force to report to the Legislature.

The bill would establish the Golden State Business and Social Responsibility Award, which would honor students who complete graduate business programs at California's public and private institutions of higher education, and who show a commitment to socially responsible leadership. The bill would prescribe the qualifications for receipt of the award.

Ch. 600 (SB 826) Ashburn. Hot Springs Elementary School District.

Existing law requires the county superintendent of schools to make certain computations for each necessary small school of school districts with fewer than 2,501 units of average daily attendance, as specified.

This bill would, until July 1, 2008, deem Hot Springs Elementary School, which is within the Hot Springs Elementary School District, a necessary small school. The bill would, instead of the necessary small school apportionment, apportion $50,000 to the Hot Springs Elementary School District in addition to the amount per unit of average daily attendance received by the district and calculated as specified if the school does not exceed 28 units of average daily attendance in any fiscal year.

The bill would declare that, due to the unique situation of the Hot Springs Elementary School District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

Ch. 601 (SB 857) Speier. Medi-Cal: providers.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and certain other low-income persons.

This bill would revise responsibilities of providers and applicants for participation as providers in the Medi-Cal program.

This bill would also revise the standards that providers are required to meet in maintaining records of benefits provided by them under the Medi-Cal program.

The bill would impose restrictions upon Medi-Cal providers upon the dispensing or furnishing of certain drugs and devices, and for clinical laboratory tests or examinations.

Existing law authorizes the Director of Health Services to prescribe policies, limit health care service payment rates, and adopt rules and regulations in connection with the Medi-Cal program.

This bill would authorize the director, without taking regulatory action, to establish Medi-Cal program reimbursement rates and adopt and annually update designated coding systems.

Existing law, until July 1, 2003, prohibits the department from reimbursing certain Medi-Cal claims of a physician and surgeon or osteopath whose license has been placed on probation as a result of a disciplinary action.

This bill would extend application of these provisions until July 1, 2005.

Existing law authorizes the department to limit, in accordance with specified conditions, one or more of specified universal codes for which a provider may bill, or for which reimbursement may be made, under the Medi-Cal program or any other health program administered by the department.

This bill would revise the above provisions.

Ch. 602 (SB 937) Ducheny. Clinics: licensure and operation.

(1) Under existing law, the State Department of Health Services regulates the licensure and operation of clinics, including community clinics and primary care clinics, as defined.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law requires any person, firm, association, partnership, or corporation desiring a license for a clinic or a special permit for special services to file a verified application with the department containing specified information.

This bill would provide that an application is not required where a primary care clinic adds a service other than a special service, or modifies an existing primary care clinic site, but would require the clinic to notify the department of the changes in service or physical plant within a specified time period.

(2) Existing law authorizes the department to issue a primary care clinic license to an applicant only if it meets all requirements for licensure, except that it proposes to operate its clinic out of an existing facility that does not satisfy certain applicable building requirements for the physical plant, provided that (A) the applicant establishes that, where possible and feasible, applicable building requirements have been met, and (B) the applicant submits a specified plan of modernization. Existing law authorizes the Director of Health Services to waive building requirements for primary care clinics when certain conditions are satisfied.

This bill would make these provisions mandatory, rather than discretionary, upon the department.

This bill would authorize a primary care clinic that has held a valid, unrevoked, and unsuspended license for at least the last 5 years and that meets certain other requirements to apply for, and be issued, a license to establish an affiliate clinic, without the necessity of the department first conducting an initial onsite survey, in accordance with criteria set forth by the bill.

This bill would authorize 2 or more primary care clinics that are operated by a single nonprofit corporation to consolidate their administrative functions without first obtaining the approval of the department. This bill would also specify requirements applicable to a primary care clinic for the public health protection of clinic workers. The bill would void any more stringent standard imposed on a primary care clinic, that is adopted before January 1, 2004.

(3) Existing law requires every clinic to be inspected, no less than once every 2 years, in accordance with specified criteria. Existing law exempts certain facilities from this inspection requirement.

This bill would, instead, require these inspections no less than once every 3 years. The bill would add a primary care clinic with specified accreditation to the list of clinics that are exempt from this inspection requirement.

(4) Existing law requires the department to notify a clinic of all deficiencies in its compliance with the provisions relating to clinic licensure and operations.

The California Administrative Procedure Act generally sets forth the requirements for the adoption and revision of regulations, guidelines, and criteria by state agencies.

This bill would prohibit the imposition of a notification of deficiency, fine, sanction, or denial, suspension, or revocation of licensure against a clinic for violation of a regulation, unless the regulation has been adopted pursuant to that act.

(5) Existing law requires the Office of Statewide Health Planning and Development, in consultation with the Community Clinics Advisory Committee, to prescribe minimum construction standards for adequacy and safety for the physical plant of clinics.

This bill would require that the committee consist of at least 15 members to be appointed by designated primary care clinic associations in the state, and would specify requirements for membership and meetings. It would also specify the manner in which a clinic may establish compliance with the specified standards for construction adequacy and safety.

(6) Existing law requires a clinic to comply with licensing requirements, but allows a clinic to deviate from these requirements under certain circumstances, upon written request and substantiating evidence submitted by the clinic, and with the prior written approval of the department.

This bill would provide that substantiating evidence of a shortage of a specific health care professional submitted in support of a primary clinic's request for utilization of alternatives

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

to personnel requirements contained in regulations adopted by the department may include specified documentation. In addition, where a licensee submits a single program flexibility request on behalf of more than one similarly situated primary care clinic, the bill would authorize the department to approve program flexibility requests as to each of the primary care clinics identified in the request.

(7) Under existing law, violation of the provisions relating to clinics is a misdemeanor.

By imposing new requirements on the licensure and operation of clinics, this bill would create new crimes, thereby imposing a state-mandated local program.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 603 (SB 1016) Bowen. Tobacco products: sale.

Existing federal law, known as the Jenkins Act, requires any person that sells or transfers in interstate commerce cigarettes into a state that taxes the sale or use of cigarettes to file certain information with the tobacco tax administrator of that state.

The Cigarette and Tobacco Products Tax Law requires distributors and wholesalers of cigarette and tobacco products to be licensed by the State Board of Equalization. That law requires every distributor of cigarettes to pay taxes, as prescribed, on the distribution of cigarettes.

Existing law requires, except under specified circumstances, each retail sale of cigarettes in the state to be a vendor-assisted, face-to-face sale, as defined. Existing law exempts a person from this restriction on face-to-face sales when all applicable state taxes have been paid or when the outside of a shipping container of cigarettes has been labeled, as specified. Existing law authorizes the Attorney General, or a city attorney, county counsel, or district attorney to bring a civil action, as specified, to enforce these provisions.

This bill would, in addition to the other requirements for an exception from the restriction on face-to-face sales of cigarettes in this state, also require a person to fully comply with the requirements of the federal Jenkins Act. This bill would require the State Board of Equalization to provide information relative to a seller's failure or attempt to comply with the Jenkins Act to the Attorney General. This bill would require the Attorney General to provide an annual report to the Legislature on all actions taken to comply with, and enforce, the Jenkins Act.

Ch. 604 (SB 1059) Committee on Revenue and Taxation. Property taxation.

(1) Existing law requires a buyer that is a party to a bulk sale, as defined, to provide a notice of the sale to the county tax collector in the county or counties in which the property that is involved in the sale is located. Existing law requires a buyer to include a property statement, as specified, with this notice if it is delivered between March 1 and the last Friday in May.

This bill would change the dates for which a property statement is required to be sent with a bulk sale notice to notices delivered between January 1 and May 7.

(2) Existing law requires a city or a county to provide to county assessors, among other documents, copies of any building permits or certificates of occupancy issued by those entities.

This bill would authorize the board of supervisors of a county to enact, by a majority vote of its entire membership, an ordinance that requires the local agency that approves a tentative map, as provided, to submit a copy of the map, and any conditions of approval for the map, to the county assessor as soon as possible after the map is filed.

(3) Existing law exempts from property taxation aircraft of historical significance, as defined, only if the assessee is an individual owner of the aircraft who does not hold the aircraft for the purposes of selling it, the assessee does not use the aircraft for commercial

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

purposes or general transportation, and the aircraft is available for display to the public, as provided. Existing law requires an assessee that claims this exemption to file an affidavit regarding the aircraft, which affidavit is provided by the assessor.

This bill would require an assessee that applies for this exemption to attach to that application a certificate of attendance from the event coordinator of the event at which the aircraft was displayed to the public. This bill would also specify that if a person claiming this exemption fails to file the required affidavit before February 15 of the fiscal year in which the exemption is sought, but files that affidavit on or before August 1, the exemption amount shall be reduced by 20%.

(4) Existing law, pursuant to a constitutional mandate, exempts from property taxation property held or used exclusively for nonprofit cemetery purposes, as specified.

This bill would require county assessors to annually notify, in the manner prescribed by the State Board of Equalization, those assessees that claimed this exemption in the prior fiscal year, as specified. This bill would also require that this notice contain a separate form that queries assessees regarding the current status of the property, as provided. This bill would also provide that if an assessee does not return the query form, that assessee may be subject to an onsite inspection of the property by the assessor. By requiring county assessors to provide this additional notice, this bill would impose a state-mandated local program.

This bill would provide, subject to certain conditions, that an affidavit claiming the cemetery exemption is not required to be filed in order to receive the exemption for any cemetery that exists, or is discovered to exist, in the unincorporated area of a county for which the assessor is unable to identify the legal cemetery authority, as defined, for that cemetery. The bill would also require that any tax, penalty, or interest on these cemeteries be canceled.

(5) Existing property tax law provides for assessments to be made on property outside the regular assessment period if that property escaped assessment during the regular assessment period, as provided. Existing law requires county assessors to notify those subject to these assessments and requires that this notice provide the name and address of a person at the assessor's office that has knowledge of the escape assessment so that those subject to the assessment can contact that person with questions regarding the assessment. Existing law also requires county auditors to enter escape assessments on the county tax roll, as provided.

This bill would require that notices of escape assessments include only the telephone number of the assessor's office. This bill would also authorize county assessors to make entries of escape assessments on either a hard copy or an electronic version of the county tax roll.

(6) Existing law requires the county board of equalization to equalize the assessment of property by specified methods, including the canceling of assessments of property not subject to taxation.

This bill would instead require the canceling of improper assessments.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 605 (SB 1060) Committee on Revenue and Taxation. Tax administration.

(1) Existing law provides that the sales and use taxes are due and payable to the State Board of Equalization quarterly on or before the last day of the month next succeeding each quarterly period.

This bill would modify these provisions to require the purchaser to pay the use tax imposed on the gross receipts from the storage, use, or other consumption in this state of tangible

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

personal property on or before the 15th day of the fourth month following the taxable year, as defined, in which the storage, use, or other consumption of the property first becomes taxable. The bill would exempt from this requirement certain persons, as provided. This bill would not apply to use tax due from the sale of, or the storage, use, or other consumption in this state of, certain specified tangible personal property.

(2) Existing law requires the State Board of Equalization to administer various taxes and fees. The State Board of Equalization, as part of its administrative functions, is authorized to enter into settlement agreements if it is determined that the settlement amount is consistent with a reasonable evaluation of the costs and risks associated with litigation. Under existing law, the State Board of Equalization is required to maintain records of settlement agreements in an amount that is in excess of $500. There is no provision in current law that authorizes the State Board of Equalization to destroy those records after a reasonable period of time has elapsed.

This bill would provide that the State Board of Equalization is required to maintain those settlement agreement documents for at least one year.

(3) Existing law requires sales and use tax returns to be filed and payments to be remitted on or before the last day of the month following the close of the reporting period. Existing law extends the time for filing tax returns and remitting payments in the case of a taxpayer that, as a result of the delay in the adoption of the state's budget, is an unpaid creditor of the state to the last day of the month in which the budget is adopted.

This bill would increase the extension of the time for filing the tax return and remitting the payment to the last day of the month following the month in which the budget is adopted.

(4) Existing law authorizes the Board of Supervisors of the County of Stanislaus to impose a transactions and use tax by adoption of an ordinance, as specified, if certain conditions are satisfied.

This bill would repeal these provisions.

(5) The existing Motor Vehicle Fuel Tax Law and Diesel Fuel Tax Law authorize a taxpayer to file a claim for refund within 3 years from the date the fuel was purchased.

This bill would authorize a taxpayer to file a claim for refund within 3 years from the date the fuel was purchased, or within 6 months from the date the taxpayer received the invoice for the tax, whichever period occurs later.

(6) The Motor Vehicle Fuel Tax Law imposes a tax on motor vehicle fuel at the point of the first distribution of that fuel, but does not exclude racing fuel from the definition of motor vehicle fuel.

This bill would exclude racing fuel from the definition of motor vehicle fuel.

(7) The provision of the existing Diesel Fuel Tax Law, which is scheduled to become inoperative on January 1, 2007, that defines the term diesel fuel, excludes from that definition gasoline, liquefied petroleum gas, natural gas in a liquid or gaseous form, and alcohol.

This bill would, for the period beginning on and after January 1, 2007, exclude gasoline, liquefied petroleum gas, natural gas in a liquid or gaseous form, and alcohol from the definition of diesel fuel.

(8) The existing Diesel Fuel Tax Law requires specified persons that are involved in the sale, removal, transportation, or storage of diesel fuel to keep and maintain specified records.

This bill would expand this recordkeeping requirement to qualified highway vehicle operators, highway vehicle operator/refuelers, pipeline operators, and vessel operators.

Ch. 606 (SB 1064) Burton. Income and corporation tax appeals: sales and use tax credit.

The Personal Income Tax Law and the Corporation Tax Law authorize various credits against the taxes imposed by those laws, including a credit until January 1, 2004, in an amount equal to 6% of the amount paid or incurred on or after January 1, 1994, for qualified property that is placed in service in this state. Under those provisions, qualified property includes tangible personal property purchased to be used primarily (1) in any stage of

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

manufacturing, processing, refining, fabricating, or recycling of property, as specified, (2) in research and development, or (3) to maintain, repair, measure, or test that property. The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. The Sales and Use Tax Law permits a person who has paid sales tax reimbursement to a retailer or use tax on a purchase or purchases of property, in lieu of claiming the credit for qualified manufacturing property under the Personal Income Tax Law or the Corporation Tax Law, to file a claim with the State Board of Equalization for a refund equal to the amount of the credit, as specified.

This bill would make a clarifying change to those sales and use tax refund provisions that would apply to any claim for refund filed with the State Board of Equalization on or after August 7, 2003.

Ch. 607 (SB 1077) Committee on Business and Professions. Professions and vocations.

(1) Existing law exempts physicians and surgeons licensed and located outside this state from the Medical Practice Act under certain conditions.

This bill would extend this exemption to doctors of podiatric medicine that are licensed and located outside this state.

(2) Existing law requires the Medical Board of California to make various reports to the Legislature.

This bill would repeal an obsolete reporting requirement.

(3) Existing law requires the Bureau of Medical Statistics within the Medical Board of California to conduct research deemed necessary by the board.

This bill would correct an erroneous cross-reference in these provisions.

(4) Existing law provides that it is unprofessional conduct for a licensed physician and surgeon alone, or in conjunction with specified business organizations, to use a fictitious, false, or assumed name without a fictitious-name permit. Existing law exempts certain licensed physicians and surgeons and medical schools from these provisions. Existing law requires the Medical Board of California or the Division of Licensing to issue a fictitious-name permit if the applicant for the permit satisfies certain conditions, including having a name that includes specified designations.

This bill would exempt specified licensees and outpatient surgery clinics from the requirement of obtaining a fictitious name permit. The bill would delete the provisions requiring an applicant for a fictitious name permit to include specified designations.

(5) Existing law requires licensees of the Medical Board of California to pay certain licensing fees, which may be waived at the discretion of the board if a licensee demonstrates that he or she is unable to practice medicine due to a disability. A licensee who has been granted a waiver may not practice medicine unless he or she pays the current renewal fee and signs a statement under penalty of perjury that the disability either no longer exists or does not affect his or her ability to practice medicine safely.

This bill would alternatively authorize a licensee whose renewal fee has been waived to sign an agreement under penalty of perjury with the board in which the licensee agrees to limit his or her practice consistent with limitations imposed by his or her reviewing physician. Because the bill would change the definition of a crime, it would impose a state-mandated local program.

(6) Under existing law, the Medical Board of California establishes fees for the renewal of a physician and surgeon's license. Existing law provides for the waiver of the fee for a physician and surgeon who certifies that the license renewal is for the sole purpose of providing voluntary, unpaid service to specified agencies, institutions, and corporations.

This bill would delete the limitation on what agencies, institutions, or corporations a physician and surgeon may provide that unpaid service.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(7) Existing law authorizes licensed marriage and family therapists and licensed clinical social workers to apply to have their licenses placed on inactive status. Existing law exempts marriage and family therapists and clinical social workers with inactive licenses from certain continuing education requirements. Existing law specifies the training and experience required by an applicant, trainee, intern, or associate for a marriage and family therapy license or a clinical social worker's license. Existing law requires licensees to obtain a specified number of supervised hours and authorizes these hours to be obtained by training with a governmental entity, a school, college, university, or a private practice.

This bill would require these therapists and social workers to complete certain continuing education in order to reactivate their licenses. The bill would require licensed therapists and social workers to complete a continuing education course on spousal or partner abuse for license renewal and on and after January 1, 2005, the course would be required to consist of not less than 7 hours of training. The bill would require that the training hours required by therapists and social workers be obtained in settings that, among other things, provide clinical social work, mental health counseling, and psychotherapy. The bill would additionally require that at least half of the training required for a licensed clinical social worker be supervised by a licensee. The bill would delete an obsolete reporting requirement.

(8) Existing law authorizes an unlicensed marriage and family therapist applicant to obtain intern registration status and practice as a marriage and family therapist, subject to specified conditions and requirements.

Existing law requires an applicant with intern registration status to fulfill all hours of experience required in his or her intern registration period, and prohibits using hours of experience obtained under a prior intern registration period to fulfill his or her hours of experience.

The bill would delete the requirement that the applicant fulfill all hours of experience in his or her intern registration period. The bill would also delete the prohibition against using hours of experience obtained under a prior intern registration period to fulfil his or her hours of experience.

(9) Existing law provides for licensing and regulation of professional engineers and land surveyors by the Board for Professional Engineers and Land Surveyors.

This bill would revise existing provisions relating to filing of corner records by a land surveyor or civil engineer with the county surveyor.

(10) Existing law provides for licensing and regulation of contractors by the Contractors' State License Board.

This bill would revise existing provisions relating to the following: contractors bidding on projects as a joint venture, the period of time that the board discloses to the public citations or accusations against a contractor, and the issuance of renewal licenses to contractors whose licenses have been expired for not more than 5 years. The bill would also add new provisions allowing use of prior recorded testimony of witnesses in proceedings of the board, and providing that it is a cause for discipline for a contractor to claim to be insured or bonded under certain conditions or to engage in conduct that subverts an investigation of the board or in other related conduct.

(11) Existing law requires a contractor to make certain declarations upon the issuance of a building permit, and requires the Contractors' State License Board to provide, semiannually at the request of local building departments, a list of all contractors who did not secure payment of prescribed workers' compensation.

This bill would delete the requirement that the Contractors' State License Board provide that list of contractors. The bill would also delete a provision exempting permits under $100 from a requirement to affirm under penalty of perjury that the permittee will maintain workers' compensation insurance, thereby creating a state-mandated local program by subjecting those persons to the crime of perjury.

(12) Existing law requires all unencumbered funds remaining in the Transcript Reimbursement Fund as of June 29, 2001, to be transferred to the Court Reporters' Fund.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would change the date for that transfer to June 29, 2005, consistent with the revised sunset data applicable to these and other related provisions.

(13) This bill would make other related changes.

(14) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 608 (AB 826) Jackson. The Perchlorate Contamination Prevention Act: perchlorate materials: statewide database.

(1) Existing law, administered by the Department of Toxic Substances Control, prohibits the management of hazardous waste, except in accordance with the hazardous waste laws or in the regulations adopted by the department. A violation of the hazardous waste control law is a crime.

This bill would enact the Perchlorate Contamination Prevention Act and would require the department to adopt regulations, by December 31, 2005, specifying best management practices for managing perchlorate materials. The bill would prohibit a person from managing perchlorate materials after the effective date of those regulations, except in compliance with the best management practices specified in those regulations.

The bill would require the owner or operator of a perchlorate facility, as defined, located within a 5-mile radius of a public drinking water well that has been found by a state or local agency to be contaminated with perchlorate to submit to the Environmental Protection Agency, on or before July 1, 2004, a summary of any subsurface and any groundwater monitoring, investigation, or remediation work that has been performed at the facility.

Because a violation of the bill's requirements would be a crime, the bill would impose a state-mandated local program.

(2) Existing law requires the Secretary for Environmental Protection to adopt regulations and implement a unified hazardous waste and hazardous materials management regulatory program. Existing law authorizes a city or local agency that meets specified requirements to apply to the secretary to implement the unified program, and requires every county to apply to the secretary to be certified to implement the unified program. The secretary is required to establish standards specifying the data to be collected and submitted by unified program agencies in administering the unified program.

This bill would additionally include, in the unified program, a person managing perchlorate materials, thereby creating a state-mandated local program by imposing new duties upon local agencies.

The bill would require the secretary to establish a statewide database and to work with the certified unified program agencies to develop a phased-in schedule for the electronic collection and submittal of information to be included in the statewide data base.

(3) Existing law generally requires a business that handles specified amounts of a hazardous material to establish and implement a business plan for emergency response to a release or threatened release of the hazardous material, as specified. Existing law specifies the contents of the business plan, including an inventory, and requires it to be submitted to the administering agency, as defined. Under existing law, violations related to business plans are a crime.

This bill would require a business that handles any amount of perchlorate materials to prepare and submit a business plan and an inventory. By changing the definition of a crime, this bill would impose a state-mandated local program.

(4) The bill would incorporate changes to Section 25404 of the Health and Safety Code proposed by both this bill and AB 1640, which would become operative only if both bills are enacted and become effective on or before January 1, 2004, and this bill is enacted after AB 1640.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 609 (AB 1541) Montanez. Waste discharge requirements: penalties.

Existing law, the Porter-Cologne Water Quality Control Act, with certain exceptions, requires the imposition of a mandatory minimum penalty in the amount of $3,000 for certain violations of waste discharge requirements, including for each serious violation, as defined, and, under certain circumstances, for a violation of a waste discharge requirement effluent limitation, a failure to file a waste discharge report, or a violation of a toxicity discharge limitation. The act requires funds collected pursuant to the imposition of these penalties to be deposited in the State Water Pollution Cleanup and Abatement Account.

This bill would classify a failure to file a required discharge monitoring report for each complete period of 30 days following the deadline for submitting the report, if the report is designed to ensure compliance with effluent limitations contained in waste discharge requirements, as a ''serious violation'' for the purposes of these provisions and, subject to certain exceptions, would make that serious violation subject to a penalty of $3,000 for each 30-day period a report is not submitted as required. The bill would require the penalties imposed for a failure to file one or more of these reports to be deposited in the Waste Discharge Permit Fund for expenditure by the state board, upon appropriation by the Legislature, to assist regional boards, and other public agencies with authority to clean up waste or abate the effects of the waste, in responding to significant water pollution problems. The bill would define ''effluent limitations'' for certain purposes.

Ch. 610 (AB 1770) Committee on Water, Parks and Wildlife. Fish and Game Commission: marine resources.

(1) Existing law requires the Fish and Game Commission to hold meetings in odd-numbered years for the purpose of considering and adopting revisions to regulations relating to fish, amphibia, and reptiles, even-numbered years for regulations relating to mammals, and even-numbered years for regulations relating to resident game birds.

This bill would instead require the commission to hold those meetings at least once every 3 years.

(2) Existing law prohibits the offering of any prize or other inducement as a reward for the taking of any game birds, mammals, fish, reptiles, or amphibia in an individual contest, tournament, or derby. Existing law authorizes the department to issue a permit, for a fee, to any person authorizing the offering of a prize or other inducement, however, if it finds that there would be no detriment to the resource. Existing law authorizes the department to waive the fee for persons under the age of 16 or the physically or mentally challenged, if the total value of all the prizes or other inducements does not exceed $500. Existing law also authorizes the department to issue an annual permit that covers all contests, tournaments, or derbies in a calendar year if on each occasion the number of participants is less than 50 and the total value of the prizes or other inducements does not exceed $1,000, and to issue an event permit that covers each contest, tournament or derby where either the number of participants exceeds 50 or the total value of the prizes or other inducements exceeds $1,000.

This bill would repeal those permit provisions, and would instead authorize a permit to be issued if the department finds that there would be no detriment to the resource.

(3) Existing law prohibits the importation of, transportation into, or possession of any live muskrat in the region west of the Cascade-Sierra Nevada mountain system, and west and south of the Tehachapi, Liebre, San Gabriel, San Bernardino, San Jacinto, Cuyamaca, and connected mountains south to the international boundary, or in any watershed tributary to or draining into the Pacific Ocean, except the drainage basin of the Klamath River, and

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

prohibits the importation or transportation of live muskrats into any part of California outside that region, except under permit issued by the department.

This bill would instead prohibit the importation of, transportation into, or possession of any live muskrat in the state, except under permit by the department or otherwise authorized by law. The bill would authorize a county agricultural commissioner, fish and game deputy, or state quarantine officer to enter upon the lands or waters in those areas in which existing law prohibits the importation, transportation into, or possession of live muskrats to remove or destroy muskrats.

(4) Existing law requires the department to work cooperatively with the State Lands Commission and the State Water Resources Control Board to implement the Ballast Water Management Program, which, with certain exceptions, requires the master, operator, or person in charge of a vessel to employ prescribed ballast water management practices for ballast water carried into the waters of the state from areas outside the exclusive economic zone, as defined. Existing law provides for the repeal of these provisions on January 1, 2004.

This bill would renumber the location of those provisions in existing law, and would delete the repeal date, thereby extending those provisions indefinitely.

(5) Existing law establishes the Marine Managed Areas Improvement Act, which, among other things, prescribes 6 classifications for designating managed areas in the marine and estuarine environments to ensure the long-term ecological viability and biological productivity of marine ecosystems and to preserve cultural resources in the coastal sea. Existing law specifies that throughout the act, and in references to the act, the term "marine (estuarine)" means that either the word "marine" or "estuarine" is to be used, as appropriate for the geographic area being designated.

This bill would revise that terminology throughout the act and in references to the act, to delete the term "(estuarine)" and would specify that the word "marine" refers to both marine and estuarine areas.

(6) Existing law requires the Resources Agency and the Technology, Trade, and Commerce Agency, in consultation with the Imperial Irrigation District, Imperial County, and any other entities, organizations, and individuals deemed appropriate by the secretaries of those 2 agencies, to review and report to the Governor and the Legislature, on or before June 30, 2003, on matters pertaining to the implementation of the Salton Sea Quantification Settlement Agreement.

This bill would extend the deadline for that review and report to June 30, 2005.

(7) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department and to the commission to pay all necessary expenses incurred in carrying out the Fish and Game Code and to pay the compensation and expenses of the commissioners and employees of the commission.

By imposing additional duties on the department, and by increasing revenues in a continuously appropriated fund, this bill would make an appropriation.

Ch. 611 (SB 277) Ducheny. Water: Salton Sea.

(1) Under existing law, various agencies carry out responsibilities relating to the Salton Sea.

This bill would enact the Salton Sea Restoration Act. The bill would establish the Salton Sea Restoration Fund and would require the fund to be administered by the Director of Fish and Game. The bill would require the money deposited in the fund to be expended, upon appropriation by the Legislature, for various purposes relating to the restoration of the Salton Sea. The bill would authorize the Department of Water Resources to contract with water suppliers to purchase and sell water made available by specified means to achieve the goals of the act.

(2) Existing law requires the Resources Agency and the Technology, Trade, and Commerce Agency, in consultation with others, to review and report to the Governor and the Legislature, on or before June 30, 2003, on the nature and extent of any economic impacts

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

related to the use of land fallowing in the Imperial Valley in connection with the Quantification Settlement Agreement, measures taken by the Imperial Irrigation District in formulating a fallowing program to minimize those economic impacts, whether the provision of certain funds would minimize those economic impacts, and the amount of additional funds required to mitigate those economic impacts. Existing law requires the report to include recommendations to the Governor and the Legislature, if the report indicates that additional funds are required, relating to the formulation of a program to administer those funds and requires that program to be developed in consultation with certain agencies.

This bill, instead, would require the Department of Food and Agriculture, if funds are appropriated for this purpose, and in consultation with others, to prepare that report. The bill would revise the list of agencies to be consulted for purposes of formulating that program.

(3) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department and the Fish and Game Commission to pay all necessary expenses incurred in carrying out the Fish and Game Code and other state laws.

By imposing new duties on the department, the bill would make an appropriation.

(4) The bill would become operative only if SB 654 and SB 317 are both chaptered and become effective on or before January 1, 2004.

Ch. 612 (SB 317) Kuehl. Resources.

(1) Existing law authorizes the Department of Fish and Game, contingent upon, among other things, a determination by the Department of Fish and Game and the execution of a specified Quantification Settlement Agreement on or before December 31, 2003, to authorize the take of species resulting from certain environmental impacts attributable to the implementation of the agreement.

This bill, for the purposes of that provision, would require that agreement be executed on or before October 12, 2003, and would revise that contingency relating to a determination by that department.

(2) Existing law requires the Secretary of the Resources Agency to use all available authority to enter into a memorandum of understanding, with certain components, for the purposes of developing, selecting, and implementing alternatives for projects that realize specified objectives of the Salton Sea Reclamation Act. Existing law requires the secretary, with respect to this memorandum, to establish an advisory committee and specifies the composition of that committee.

This bill would require the secretary to undertake a study relating to the restoration of the Salton Sea ecosystem and the protection of wildlife dependent on that ecosystem. The bill would require the secretary to use all available authority to enter into a memorandum of understanding with the Secretary of the Interior to obtain federal participation in the restoration of the Salton Sea. The bill would revise the composition of that advisory committee.

(3) Existing law requires that, for the purposes of evaluating the use of water by the Imperial Irrigation District during the term of the Quantification Settlement Agreement and for 6 years thereafter, it shall be conclusively presumed that any water conserved or used for mitigation purposes through land following conservation measures has been conserved in the same amount as if conserved by efficiency improvements.

Existing law prohibits the forfeiture or impairment of a right to use water that is conserved in a described manner to carry out a transfer pursuant to the Quantification Settlement Agreement or to mitigate environmental impacts of that transfer. Existing law provides that during the period that the Quantification Settlement Agreement is in effect and the Imperial Irrigation District is meeting its water delivery obligations under that agreement, if the Imperial Irrigation District uses land fallowing conservation measures that ensure compliance with certain criteria, no person may seek to obtain additional conserved

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Colorado River water from the district until the district has adopted a resolution offering to make conserved Colorado River water available.

Existing law makes the operation of these provisions subject to the execution of the Quantification Settlement Agreement on or before December 31, 2002.

This bill would make the operation of these provisions, as modified, subject to the execution of that agreement on or before October 12, 2003. The bill would provide that during the period in which the Quantification Settlement Agreement is in effect and the Imperial Irrigation District is meeting its water delivery obligations under that agreement and certain other water delivery obligations, no person may seek to obtain additional conserved Colorado River water from the district until the district has adopted a resolution offering to make conserved Colorado River water available. The bill, with certain exceptions and subject to the execution of that agreement on or before October 12, 2003, would subject any water transferred by the district to an ecosystem restoration fee during the initial term in which that agreement is in effect.

(4) Existing law establishes the Fish and Game Preservation Fund, a fund that is continuously appropriated to the department to carry out the Fish and Game Code.

By imposing new duties on the department, this bill would make an appropriation.

(5) This bill would become operative only if SB 277 and SB 654 are both chaptered and become effective on or before January 1, 2004.

Ch. 613 (SB 654) Machado. Water: Salton Sea: Colorado River.

(1) Existing law appropriates General Fund moneys to, among other things, line portions of the All American Canal and the Coachella Branch of the All American Canal. Existing law requires the lining projects to be completed not later than December 31, 2006, or such later date as may be required by extraordinary circumstances.

This bill would make legislative findings as to the extraordinary circumstances that prevent the lining projects from being completed by December 31, 2006, and would extend the date to December 31, 2008.

(2) Existing law makes legislative findings concerning the Salton Sea and a Quantification Settlement Agreement, including a finding that species previously designated as fully protected may be taken during activities intended to meet the state's commitment to reduce its use of Colorado River water, as long as those activities are found to comply with existing law.

This bill would, instead, make findings permitting the taking incidental to those activities.

(3) Existing law provides for a California's Colorado River Water Use Plan, and for a Quantification Settlement Agreement.

This bill would make a legislative finding and declaration that in order to resolve conflicts that have prevented the implementation of California's Colorado River Water Use Plan it is necessary to provide a mechanism to implement and allocate environmental mitigation responsibility between water agencies and the state for the implementation of the Quantification Settlement Agreement. The bill would permit the Department of Fish and Game to enter into a joint powers agreement for the purpose of providing for the payment of costs for environmental mitigation requirements, and would specify the costs to be paid by the agencies that are parties to the agreement. By authorizing the department to enter into the agreement, this bill would make an appropriation by authorizing expenditures from the continuously appropriated Fish and Game Preservation Fund.

(4) This bill would become operative only if SB 277 and SB 317 are both chaptered and become effective on or before January 1, 2004.

Ch. 614 (SB 1004) Soto. Resources.

(1) Existing law, the Porter-Cologne Water Quality Control Act, with certain exceptions, requires a person who causes or permits any hazardous substance or sewage to be discharged in any waters of the state, or where it may be so discharged or deposited, to immediately

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

notify the Office of Emergency Services. The act makes any person who fails to provide the notice guilty of a misdemeanor that is punishable by a fine of not more than $20,000 or imprisonment for not more than one year, or both.

This bill, for the purposes of this provision, would require the reportable quantity for perchlorate to be 10 pounds or more by discharge to the receiving waters, unless a more restrictive reporting standard is adopted for a particular body of water. By changing the definition of a crime, this bill would impose a state-mandated local program.

(2) Existing law, the Porter-Cologne Water Quality Control Act, requires a person who discharges waste into the waters of the state in violation of waste discharge requirements or other order or prohibition issued by a California regional water quality control board or the State Water Resources Control Board, upon the order of that regional board or the state board, to clean up the waste or to abate the effects of the waste. The act subjects a person who violates a cleanup or abatement order to civil penalties.

This bill would provide that a cleanup and abatement order issued by the state board or a regional board may require the provision of, or payment for, uninterrupted replacement water service to each affected public water supplier or private well owner. The bill would require a regional board or the state board to request a water replacement plan from the discharger prior to the provision of the replacement water in certain cases. The bill would provide for mediation of replacement water claims.

(3) Existing law, with certain exceptions, requires a person who causes or permits any oil or petroleum product to be discharged in any waters of the state, or where it may be so discharged, to immediately notify the Office of Emergency Services. The act makes any person who fails to provide the notice guilty of a misdemeanor that is punishable by a fine of at least $500, and not more than $5,000, for each day of failure to notify.

The act requires each California regional water quality control board, every 3 months, to publish and distribute to all public water system operators within the region a list of discharges of MTBE that occurred during the prior 3-month period and a list of locations where MTBE was detected in the groundwater within the region.

This bill, on or before January 1, 2005, and annually thereafter, subject to certain exceptions, would require an owner or operator of a storage facility that has stored in any calendar year since January 1, 1950, over 500 pounds of perchlorate to submit to the state board, to the extent feasible, certain information relating to that storage. The bill would authorize the State Water Resources Control Board to charge an annual fee to each owner of a storage facility that provides certain information to the board. The fees would be required to be deposited in the State Water Quality Control Fund, to be available to the state board upon appropriation by the Legislature. The bill would require the state board to submit the perchlorate storage information to the Secretary for Environmental Protection upon notification from that secretary that he or she has established a database that is able to receive perchlorate inventory information.

The bill would make persons who fail to provide notifications relating to the discharge or storage of perchlorate civilly liable and would require the funds generated by the imposition of civil liability to be available to the state board, upon appropriation by the Legislature. The bill would require the state board to publish, compile, maintain, and make available for public review the information relating to the storage of perchlorate.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 615 (AB 375) Bermudez. State employees: memoranda of understanding.

(1) Existing law provides that if any provision of a memorandum of understanding reached between the state employer and a recognized employee organization representing state civil service employees requires the expenditure of funds, those provisions of the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

memorandum of understanding shall not become effective unless approved by the Legislature in the annual Budget Act.

This bill would approve provisions that require the expenditure of funds of memoranda of understanding entered into between the state employer and State Bargaining Units 1, 4, 10, 11, 14, 15, 16, 17, 19, 20, and 21, and would provide that the provisions of any memorandum of understanding that require the expenditure of funds shall become effective even if the provisions of the memorandum of understanding are approved by the Legislature in legislation other than the annual Budget Act.

This bill would provide that provisions of the memoranda of understanding approved by this bill that require the expenditure of funds shall not take effect unless funds for these provisions are specifically appropriated by the Legislature, and would provide that if funds for these provisions are not specifically appropriated by the Legislature, the state employer, and the affected employee organization shall meet and confer to renegotiate the affected provisions.

(2) The Public Employees' Retirement Law defines "final compensation," for purposes of calculating retirement benefits, as the highest annual average compensation earnable by the member during a designated 12-month period.

Under this bill, the calculation of "final compensation" for a member in State Bargaining Unit 1, 4, 10, 11, 14, 15, 16, 17, 19, 20, or 21 would include the compensation the member would have earned effective July 1, 2003, if a specified 5% reduction had not occurred.

(3) The Public Employees' Hospital and Medical Care Act provides that the employer's contributions for health benefits for represented state employees shall be determined through the collective bargaining process subject to funding in the annual Budget Act.

Under this bill, effective January 1, 2004, the employer's contribution for health benefits for employees in State Bargaining Units 1, 4, 10, 11, 14, 15, 17, 20, and 21 would be 80% of the weighted average for health benefits plan premiums for active state civil service employees enrolled for self alone plus 80% of the weighted average for additional premiums for family members. For employees in State Bargaining Units 16 and 19, the employer's contribution for health benefits would be 80% of those weighted averages from January 1, 2004, to December 1, 2005. Thereafter, the employer's contribution would be 85% of that weighted average for self alone plus 80% of that weighted average for family members.

(4) The bill would also declare that its provisions are severable.

Ch. 616 (AB 977) Diaz. State employees: memoranda of understanding: State Bargaining Unit 9.

(1) Existing law provides that if any provision of a memorandum of understanding reached between the state employer and a recognized employee organization representing state civil service employees requires the expenditure of funds, those provisions of the memorandum of understanding shall not become effective unless approved by the Legislature in the annual Budget Act.

This bill would approve provisions of a memorandum of understanding entered into between the state employer and State Bargaining Unit 9 (professional engineers) that require the expenditure of funds except for specified provisions related to an increase of salary or compensation, and would provide that the provisions of any memorandum of understanding that require the expenditure of funds shall become effective even if the provisions of the memorandum of understanding are approved by the Legislature in legislation other than the annual Budget Act. The bill would declare the intent of the Legislature that the approval of the provisions of the memorandum of understanding that require the expenditure of funds for State Bargaining Unit 9 that are not approved by this bill be submitted to the Legislature for consideration at a future date, as described.

This bill would provide that provisions of the memorandum of understanding approved by this bill that require the expenditure of funds shall not take effect unless funds for these provisions are specifically appropriated by the Legislature, and would provide that if funds

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

for these provisions are not specifically appropriated by the Legislature, the state employer, and the affected employee organization shall meet and confer to renegotiate the affected provisions.

(2) The Public Employees' Retirement Law defines "final compensation," for purposes of calculating retirement benefits, as the highest annual average compensation earnable by the member during a designated 12-month period.

Under this bill, the calculation of "final compensation" for a member in State Bargaining Unit 9 would include the compensation the member would have earned effective July 1, 2003, if a specified 5% reduction had not occurred.

(3) The Public Employees' Hospital and Medical Care Act provides that the employer's contribution for health benef its for represented state employees shall be determined through the collective bargaining process subject to funding in the annual Budget Act.

Under this bill, effective January 1, 2004, the employer's contribution for health benefits for employees in State Bargaining Unit 9 would be 80% of the weighted average for health benefits plan premiums for active state civil service employees enrolled for self-alone plus 80% of the weighted average for additional premiums for family members.

Ch. 617 (SB 439) Committee on Public Employment and Retirement. State employees: memoranda of understanding.

(1) Existing law provides that if any provision of a memorandum of understanding reached between the state employer and a recognized employee organization representing state civil service employees requires the expenditure of funds, those provisions of the memorandum of understanding shall not become effective unless approved by the Legislature in the annual Budget Act.

This bill would approve provisions that require the expenditure of funds of addenda to memoranda of understanding entered into between the state employer and State Bargaining Units 5 and 8, and would provide that the provisions of any addendum to a memorandum of understanding that require the expenditure of funds shall become effective even if the provisions of the addendum are approved by the Legislature in legislation other than the annual Budget Act.

This bill would provide that provisions of the addenda to memoranda of understanding approved by this bill that require the expenditure of funds shall not take effect unless funds for these provisions are specifically appropriated by the Legislature, and would provide that if funds for these provisions are not specifically appropriated by the Legislature, the state employer, and the affected employee organization shall meet and confer to renegotiate the affected provisions.

(2) The Public Employees' Retirement Law defines "final compensation," for purposes of calculating retirement benefits, as the highest annual average compensation earnable by the member during a designated 12-month period. Existing law provides that for patrol members in State Bargaining Unit 5 and other specified patrol members who are excluded from collective bargaining, final compensation for specified patrol service shall be increased by 4% if the member retires before July 1, 2004, and shall be increased by 8% if the member retires between July 1, 2004, and July 1, 2006.

Under this bill, the calculation of "final compensation" for a member in State Bargaining Unit 5 or 8 would include the compensation the member would have earned effective July 1, 2003, if a specified 5% reduction had not occurred. The bill would also make the 8% increase to final compensation for specified patrol service applicable to patrol members in State Bargaining Unit 5, and other specified patrol members who are excluded from collective bargaining, who retire after July 1, 2006.

(3) Existing law prescribes various retirement formulae for state peace officer/firefighter members of the Public Employees' Retirement System.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would prescribe a 3% at age 50 retirement formula for state peace officer/firefighter members who are members of State Bargaining Unit 8 and who retire or die on or after January 1, 2006.

(4) The Public Employees' Hospital and Medical Care Act provides that the employer's contribution for health benefits for represented state employees shall be determined through the collective bargaining process subject to funding in the annual Budget Act.

Under this bill, from January 1, 2004, to December 31, 2005, inclusive, the employer's contribution for health benefits for employees in State Bargaining Units 5 and 8 would be 80% of the weighted average for health benefits plan premiums for active state civil service employees enrolled for self alone plus 80% of the weighted average for additional premiums for family members. Thereafter, the employer's contribution for those employees would be 85% of that weighted average for self alone plus 80% of that weighted average for family members.

Ch. 618 (AB 49) Simitian. Crimes.

Existing law establishes the High Technology Theft Apprehension and Prosecution Program Trust Fund, and specifies the purposes for which the moneys in the fund may be used. Funding is contingent upon appropriation by the Legislature, as provided. Existing law establishes the High Technology Crime Advisory Committee, composed of members representing various governmental agencies and professional organizations, appointed by the Executive Director of the Office of Criminal Justice Planning to create a written strategy for addressing high technology crime and advising on the appropriate disbursement of funds from the High Technology Theft Apprehension and Prosecution Program Trust Fund to regional task forces.

This bill would create the California High Technology Crimes Task Force which would be comprised of each regional task force funded by the High Technology Theft Apprehension and Prosecution Program. In addition, this bill would provide that the committee would annually review the effectiveness of the California High Technology Crimes Task Force. This bill would make conforming changes regarding the elimination of the Office of Criminal Justice Planning.

Ch. 619 (AB 158) Runner. Controlled substances: manufacture.

(1) Existing law generally makes it a felony for a person to possess specified substances at the same time with the intent to manufacture methamphetamine, N–ethylamphetamine, or phencyclidine. Existing law also provides that the possession of immediate precursors sufficient for the manufacture of the specified substances, or possession of any compound or mixture containing any of the specified substances, shall be deemed to be possession of those specified substances.

This bill would revise the latter provision to provide instead that the possession of precursors, compounds, or mixtures relating to the specified substances, with an intent to manufacture methamphetamine, is a felony punishable by 2, 4, or 6 years in the state prison. By creating new crimes, the bill would impose a state-mandated local program.

(2) Existing law provides that any person who, with intent to manufacture methamphetamine, possesses hydriodic acid is guilty of a felony and shall be punished by imprisonment in the state prison for 2, 4, or 6 years. Existing law provides that the possession of essential chemicals sufficient to manufacture hydriodic acid, with intent to manufacture methamphetamine, shall be deemed to be possession of hydriodic acid.

This bill would apply this penalty, in addition, to any person who, with intent to manufacture methamphetamine, possesses a reducing agent, as defined, essential chemicals sufficient to manufacture a reducing agent, or any compound or mixture containing a reducing agent.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(3) Existing law provides that any person who possess isomers of any of certain compounds, with the intent to manufacture any of those compounds, is punishable by imprisonment in the state prison for 2, 4, or 6 years.

This bill would revise the ''intent to manufacture'' provisions by specifying specific substances for purposes of that provision.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 620 (AB 233) Cogdill. Controlled substances: manufacture.

Existing law makes it a felony to unlawfully manufacture, compound, convert, produce, derive, process, or prepare, as specified, controlled substances, including methamphetamine. Existing law separately provides that any person convicted of unlawfully manufacturing, or possessing specified precursors with the intent to manufacture, methamphetamine or phencyclidine, when the commission or attempted commission of the crime occurs in a structure where any child under 16 years of age is present, shall be punished by an additional 2 years in the state prison.

This bill would require a sentencing court, except when this enhancing allegation is made applicable, to consider as a factor in aggravation of the sentence for the above felony in a case involving methamphetamine the fact that a person under 16 years of age resided in a structure in which that felony occurred.

Ch. 621 (AB 568) Goldberg. Community Law Enforcement and Recovery Demonstration Project.

Existing law establishes the Community Law Enforcement and Recovery Demonstration Project, a multiagency gang intervention program composed of local agencies in Los Angeles County. Existing law provides that these provisions will be repealed on January 1, 2004.

This bill would instead provide that the provisions establishing the project would become inoperative on July 1, 2004, and would be repealed on January 1, 2005.

Ch. 622 (AB 616) Vargas. Vehicles: impoundment: storage notices.

Under existing law, whenever an officer or employee of a public agency directs the storage of a vehicle and does not know or is not able to ascertain the name of the owner of the vehicle, the agency or person directing the storage is required to notify, or cause to be notified, the Department of Justice Stolen Vehicle System of the vehicle's removal.

The bill would authorize the officer, employee, or public agency directing a storage to notify the National Law Enforcement Telecommunication System by transmitting by any means available, including, but not limited to, electronic means, the vehicle identification number and certain specified information.

Ch. 623 (AB 669) Cohn. Public contracts: disabled veteran business enterprises.

Existing law provides that in state contracts for construction, the procurement of goods, information technology, or the delivery of services, small businesses, as defined, shall receive a 5% bid preference. Existing law also requires state agencies and all other state entities contracting for materials, supplies, equipment, alteration, repair, or improvement to have at least 3% participation goals for disabled veteran business enterprises.

This bill would require small businesses and disabled veteran business enterprises, as defined, to perform commercially useful functions, as defined, in relation to any contract those businesses are awarded under those provisions. This bill would also revise the definition of disabled veteran to require that the veteran have at least a 10% service-connected disability and be domiciled in California.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law subjects to certain penalties a business that obtained classification as a small business or microbusiness by reason of having furnished incorrect supporting information or withholding relevant information. Existing law also imposes civil penalties upon a person who, among other activities, fraudulently attempts to become certified as a disabled veteran business enterprise or as a small business or microbusiness.

This bill would impose civil penalties against any person that knowingly and fraudulently represents that a commercially useful function is being performed by a disabled veteran business enterprise, a small business, or a microbusiness in order to obtain or retain a state contract. This bill would also impose civil penalties on any person that knowingly and fraudulently represents the participation of disabled veteran business enterprises, certified small businesses, or microbusinesses, in order to obtain or retain a state contract. In addition, this bill would create new penalties that would apply to the existing offenses and to these new offenses.

Existing law establishes within the Department of General Services the Office of Small Business Certification and Resources, which is responsible for assisting small businesses and microbusinesses in obtaining state contracts, as provided.

This bill would rename that office as the Office of Small Business and Disabled Veteran Business Enterprise Services, which would be responsible for assisting small businesses, microbusinesses, and certified disabled veteran business enterprises in obtaining state contracts. This bill would also make related conforming changes.

Ch. 624 (AB 991) Negrete McLeod. Peace officer training.

Existing provisions of law require the Commission on Peace Officer Standards and Training to provide various courses of training for peace officers.

This bill would require the Commission on Peace Officer Standards and Training to establish standardized training recommendations and guidelines for Special Weapons and Tactics (SWAT) teams, as specified, that would be available for use by law enforcement agencies that conduct SWAT operations.

Ch. 625 (AB 1301) Simitian. Alcoholic beverages and controlled substances: minors.

The Alcoholic Beverage Control Act prohibits the sale of alcoholic beverages to, or the purchase of alcoholic beverages by, persons under the age of 21 years. A violation of these requirements is a misdemeanor.

This bill would provide that a parent or legal guardian who knowingly permits his or her child, or a person in the company of the child, or both, who are under the age of 18 years, to consume an alcoholic beverage or use a controlled substance at the home of the parent or legal guardian is guilty of a misdemeanor, if the parent knowingly permits that child or other underage person, after leaving the home of the parent or legal guardian, to drive a vehicle while he or she has a blood-alcohol concentration of 0.05% or greater, as measured by a chemical test, or is under the influence of a controlled substance, and that child or underage person is found to have caused a traffic collision.

Because a violation of this provision would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 626 (AB 1303) Simitian. Vehicles: license plates: display: persons with disabilities.

Existing law requires vehicle license plates to be securely fastened at all times to the vehicle for which they are issued so as to prevent the plates from swinging, to be mounted in a

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

position so as to be clearly visible, and to be maintained in a condition so as to be clearly legible, except as specified.

This bill would provide that it is not a violation of this requirement if the reading or recognition of a rear license plate is obstructed or impaired by a wheelchair lift or wheelchair carrier, the license plate is a special identification license plate, as specified, or the vehicle displays a distinguishing placard, as specified, and the operator displays on the vehicle's rear window a specified decal, designed and issued by the Department of Motor Vehicles.

The bill would require the Department of Motor Vehicles, in consultation with the Department of the California Highway Patrol, to determine where on the rear window the decal shall be displayed. The bill would also require the Department of Motor Vehicles to adopt regulations governing procedures for accepting and approving applications for the decals and for issuing the decals.

This bill incorporates additional changes to Section 5201 of the Vehicle Code proposed by SB 315, to become operative only if SB 315 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 627 (AB 1532) Nakano. Economic development: technology programs.

(1) Existing law establishes the Technology Planning Program and the Challenge Grant Program in the Technology, Trade, and Commerce Agency. Existing law also authorizes that agency to designate regional technology alliances to perform various duties relating to supporting technology and new business development.

This bill would transfer these programs and functions to the Business, Transportation and Housing Agency.

(2) Existing law requires, subject to the appropriation of funds for this purpose, the Technology, Trade, and Commerce Agency to implement a space industry development program. The agency is required to contract with a nonprofit corporation to assist in its administration of these activities, according to specified criteria, as well as serve as the California Spaceport Authority. The corporation is required to issue solicitations for the existing California Space Industry Competitive Grant Program and evaluate grant proposals with the assistance of an impartial review panel to be established by the corporation, according to specified criteria. The Secretary of Technology, Trade, and Commerce is required to award grants based upon these criteria.

This bill would refer to the above-described programs as the space enterprise development program and the California Space Enterprise Competitive Grant Program, transfer these programs to the Business, Transportation and Housing Agency, and make conforming and other technical changes.

(3) Existing law requires the Secretary of Technology, Trade, and Commerce to convene the California Economic Strategy Panel, which includes specified appointed members, to provide recommendations regarding an economic development strategic plan.

This bill would instead require the Secretary of Labor Workforce Development to lead the preparation of the above-described plan and convene the above-described panel. It would require the panel to address the development of a system of accountability for use in the annual state budget process and in the legislative process to measure the performance of all state policies, programs, and tax expenditures intended to stimulate the economy. The bill also would require the panel to develop a standard definition of economic development and to conduct specified studies related to the economic development sections of the State Budget. It would require the panel to submit a report of its findings and recommendations to the Legislature no later than one year after its first meeting after January 1, 2005.

Ch. 628 (AB 1551) Kehoe. Employment: biotechnology employment and development.

Existing law provides for the establishment of various job training programs, administered by the Employment Development Department.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would set forth legislative findings and declarations that the San Diego biotechnology industry increasingly needs more biotechnology professionals of all levels that are familiar with industrylike conditions for basic, applied, and translational research, training, and production, as provided. This bill would also state legislative findings and declarations that the San Diego Multiuse Biotechnology Training Center is being created to serve as an anchor and catalyst for the growth of biotechnology enterprise in the region, and to address the workforce needs of the biotechnology industry.

This bill would additionally authorize various state and local entities, as specified, to enter into memoranda of understanding with the center to provide services, funding, and personnel, as provided.

This bill would make legislative findings and declarations as to the necessity of a special statute.

Ch. 629 (SB 294) Soto. Statewide Registry: conservators, guardians, and trustees.

(1) Under existing law, the Department of Justice is required to maintain a Statewide Registry of conservators, guardians, and trustees. Conservators and guardians are required to register, except as specified. Trustees may register if they so desire, but are not required to register. Violation of certain registration provisions is a misdemeanor, punishable as specified, and violation of other registration provisions may result in civil penalties payable to the General Fund.

This bill would, with certain exceptions, require trustees to register with the Statewide Registry on or before January 1, 2005, or be removed as trustee by the court; and would make conforming changes. The bill would impose a state-mandated local program by expanding the definition of a crime.

The bill would also prohibit the consideration of anonymous complaints against a conservator, guardian, or trustee, and revise provisions governing exemptions from the registration provisions for specified persons acting as a conservator, guardian, or trustee, and specify that information in the Statewide Registry is confidential.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 630 (SB 478) Dunn. Victims of crime: work absences for judicial proceedings.

Existing law prohibits an employer from discharging or discriminating against an employee for taking time off to serve on a jury.

This bill would require that an employer allow an employee who is a victim of a crime, as defined, or certain persons who are related to a crime victim, to be absent from work in order to attend judicial proceedings related to the crime.

This bill would prohibit an employer from discharging or in any manner discriminating against an employee, in compensation or other terms, conditions, or privileges of employment, including, but not limited to the loss of seniority or precedence, because the employee is absent from work pursuant to this bill, and would authorize the employee to file a complaint with the Division of Labor Standards Enforcement.

This bill would encourage district attorneys and victim/witness offices to make information regarding this bill available for distribution at their offices.

Ch. 631 (SB 911) Alpert. Local emergency telephone systems: 911 Administrative Board.

The Warren-911-Emergency Assistance Act directs the Telecommunications Division of the Department of General Services to consult regularly with specified agencies, officials,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

and entities, including local representatives from cities and counties to accomplish its responsibilities with respect to the establishment by local agencies of 911 telephone service.

This bill would create the State 911 Advisory Board comprised of specified members appointed by the Governor to advise the Telecommunications Division on specified subject areas. Members of the board would serve for not more than two 2-year consecutive terms, except as specified.

The bill would also require the board to meet quarterly in public session and the division to provide administrative support to the board. The bill would provide that members may receive reimbursement for travel and per diem.

Ch. 632 (SB 1008) Machado. Veterans: contracts: disabled veteran business enterprises.

Under existing law, any state governmental entity that awards contracts for professional bond services and for construction and certain related purposes has annual statewide participation goals of not less than 3% for disabled veteran business enterprises, as defined. For purposes of these provisions, existing law defines a ''disabled veteran'' as a veteran, as specified, with a service-connected disability who is a resident of the state.

This bill would specify that a limited liability company may be certified as a disabled veteran business enterprise for these purposes if that company is wholly owned by one or more disabled veterans.

This bill would deem any disabled veteran business enterprise that rents equipment to an awarding department to be an equipment broker, as defined, unless one or more certified disabled veterans have 51% ownership of the equipment and evidence is submitted in support of that fact. The bill would also prohibit state funds expended for equipment rented from equipment brokers, as specified, from being credited toward the 3% goal.

This bill would require a disabled veteran business enterprise that is a broker, as defined, and that obtains a contract under these provisions to make certain disclosures to the awarding department.

The bill would also require a disabled veteran business enterprise and its owners to submit copies of the enterprise's federal income tax returns, as specified, or be subject to certain penalties for noncompliance.

Existing law requires the administering agency and the awarding department to establish methods of monitoring adherence to the participation goals.

This bill would also prohibit state funds expended on a contract with a disabled veteran business enterprise that does not meet and maintain the certification requirements from being credited toward the 3% goal.

Existing law imposes a civil penalty with respect to, among other things, fraudulently obtaining certification as a disabled veteran business enterprise.

This bill would provide, among other things, that it is unlawful to knowingly and with intent to defraud, fraudulently represent participation of a disabled veteran business enterprise in order to obtain or retain a bid preference or a state contract. It would make it unlawful to establish, or knowingly aid in the establishment of, or exercise control over, a firm found to have violated the foregoing prohibitions. It would also make it unlawful to willfully and knowingly make or prepare any statement or document that is fraudulent or false as to any material matter. The bill would, in addition to civil penalties, make it a misdemeanor to violate all of the foregoing prohibitions, thereby imposing a state-mandated local program.

The bill would also require a defendant to pay all of the plaintiff's costs and attorneys' fees in a civil action brought for violations of these provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 633 (SB 1061) Committee on Revenue and Taxation. Suspended corporations: corporation taxes: water's-edge.

(1) The Corporations Law allows the Secretary of State to suspend the powers, rights, and privileges of a corporation, if the corporation fails to pay taxes or fails to file tax returns, annual returns, or certain other information returns. The Corporations Law precludes a suspended corporation from filing an application for tax-exempt status or amending its articles of incorporation to perfect its tax-exempt application.

This bill would permit a corporation to file an application for tax-exempt status even if the status of the corporation is suspended. This bill would also allow a suspended corporation to amend its articles of incorporation to perfect its application for tax-exempt status.

(2) The Corporation Tax Law specifies the types of title-holding companies that are exempt from the taxes imposed by that law.

This bill would provide that for purposes of those exemptions, the term "corporation" includes limited liability companies, as specified.

(3) The Corporation Tax Law allows corporations to elect whether their income is determined on a "water's-edge" basis or on a worldwide unitary basis. The election to report income on a water's-edge basis is made by contract between the taxpayer and the Franchise Tax Board. The contract requirements allow no relief for errors, and do not allow the perfecting of invalid water's-edge elections. Electors who fail to comply with the contractual requirements for making a water's-edge election forfeit their water's-edge election, thereby causing their income to be determined on a worldwide unitary basis.

This bill would revise water's-edge election procedures by, among other things, providing that elections made under current law may be perfected, and by providing, for taxable years beginning on or after January 1, 2003, that elections be made by statutory election, as provided, rather than by contract.

This bill would take effect immediately as a tax levy.

Ch. 634 (AB 1313) Parra. Sex offenders.

Existing state law provides that campus law enforcement may advise the public of the presence of high-risk sex offenders in its community, as specified. Existing federal law has been interpreted to require campus law enforcement to advise the public of the presence of all sex offenders on campus.

This bill would revise state law to provide that campus law enforcement, or, if the campus has no police department, local law enforcement, may release to members of the campus community information regarding the presence of sex offenders on campus, as specified. This bill would require a member of the campus community to sign a specified statement before an agency would release offender information to him or her upon his or her request and would require the agency to maintain the statement in a file in the agency's office for at least 5 years. This bill would require an agency disseminating printed information pursuant to its provisions to maintain records of the means and dates of dissemination for a minimum of 5 years. This bill would define campus police department and campus community. This bill would provide that the Department of Justice may develop a training program for the disclosure of the information.

Existing law requires adult offenders who have been convicted of any of a specified group of sexual offenses to register with local law enforcement agencies and makes it a felony to willfully fail to register. Existing law also requires juvenile offenders as to whom a petition has been sustained for the commission of any of a different set of sexual offenses to register with local law enforcement agencies and makes it a felony to willfully fail to register.

Existing law generally limits the release of statements, photographs, and fingerprints required by the sex offender registration law except as specified. However, existing law authorizes a law enforcement agency, when a peace officer reasonably suspects that a child or other person may be at risk from a sex offender convicted of any of a group of specified offenses that require registration, to provide certain information about the offender that the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

agency deems relevant and necessary to protect the public, to specified persons, agencies, or organizations the offender is likely to encounter. This information includes such things as descriptions of the offender, vehicle information, the offender's address, and the offender's enrollment, employment, and vocational status with an institution of higher learning.

Other provisions in existing law provide for the dissemination by law enforcement entities of still more detailed information to the public concerning a narrower group of high-risk sex offenders, as specified.

This bill would recast those provisions described above that authorize law enforcement entities to disclose information on specified sex offenders in a separate code section from the general registration obligations. The bill would make additional and conforming changes in regard to these provisions.

Until January 1, 2004, existing law requires the Department of Justice to continually compile specified information categorized by community of residence and ZIP Code regarding any person required to register as a sex offender for a conviction for the commission or attempted commission of any specified sex offense. Existing law requires the Department of Justice to operate a "900" telephone number for people to inquire whether a named individual is among those specified registrants. Existing law also requires the department to provide a CD-ROM or other electronic medium containing a specified portion of the compiled sex offender information to certain law enforcement agencies. These law enforcement agencies are required to make the CD-ROM or other electronic medium available for public viewing, as specified. Existing law makes unauthorized use of the CD-ROM or "900" telephone number information a misdemeanor, and requires reports be made by the department concerning the CD-ROM and "900" telephone number programs.

This bill would extend the expiration of these provisions to January 1, 2007.

By delaying the repeal of these provisions, and extending the duties of local law enforcement agencies and the operation of existing crimes this bill would impose a state-mandated local program.

This bill would incorporate additional changes in Sections 290, 290.4, and 290.45 of the Penal Code proposed by SB 356 and SB 879, to become operative only if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2004, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 635 (AB 227) Vargas. Workers' compensation.

(1) Existing law establishes a workers' compensation system to compensate an employee for injuries incurred arising out of or in the course of employment.

Existing law establishes the California Insurance Guarantee Association (CIGA) for specified purposes related to the payment of the obligations of insurers. Existing law establishes the California Infrastructure and Economic Development Bank for specified purposes related to the financing of projects in the public interest. Existing law requires that entities applying for financing from the bank meet various requirements, and places certain limitations on the bank's approval of projects.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that a project for the financing of the costs of claims of insolvent workers' compensation insurers at the request of CIGA shall be deemed to be in the public interest and eligible for financing by the bank. It would provide that the requirements and limitations applicable to the financing of certain projects do not apply to the financing of the costs of these claims. The bill would allow the bank to issue bonds to finance these costs and would specify how the bond proceeds may be used.

(2) Existing law provides that the total amount of revenue bonds issued by the bank that may be outstanding at any one time shall not exceed $5,000,000,000, exclusive of rate reduction bonds, as defined, and certain bonds issued by the bank to finance economic development facilities, as defined.

This bill would provide, instead, that the total amount of bonds issued by the bank to finance public development facilities, as defined, that may be outstanding at any one time shall not exceed $5,000,000,000.

(3) Existing law requires the Insurance Commissioner to take possession of the property, business, books, records, and accounts of an insurer if it appears to the commissioner that the insurer is insolvent, and to retain them subject to a court order. Existing law requires a court, upon a filing by the commissioner showing the insolvency of an insurer, to issue an order vesting title to all of the insurer's assets in the commissioner. Existing law defines "insolvency" for these purposes to mean any impairment of minimum paid-in capital, as defined, required in the aggregate of an insurer by specified provisions of law for the classes of insurance that it transacts.

This bill would expand the definition of "insolvency" to include, in addition, an inability of the insurer to meet its financial obligations when they are due.

(4) Existing law requires CIGA to adopt a plan of operations, and any amendments thereto, as specified, and allows CIGA to borrow funds when necessary to carry out its mandate.

This bill would, in addition, allow CIGA to provide in its plan of operations for the issuance of specified financing instruments and for securing those instruments.

(5) Existing law authorizes CIGA to pay certain claims of insolvent insurers that arise as the result of a natural disaster, and allows the Department of Insurance to issue bonds for that purpose.

This bill would, in addition, in specified circumstances involving the insolvency of one or more workers' compensation insurers, authorize the board of directors of CIGA to request the California Infrastructure and Economic Development Bank to issue bonds to provide funds for the payment of covered claims and related expenses. It would require CIGA to provide the commissioner with a copy of the request, and would allow the commissioner to modify, cancel, or require a delay in the requested issuance.

The bill would require proceeds from the sale of these bonds to be deposited in a separate account in the Workers' Comp Bond Fund, which is created by these provisions, and would allow disbursements from this account only by CIGA or the trustee for the bonds, as specified.

The bill would allow CIGA to levy upon member insurers special bond assessments in the amount necessary to pay the principal and interest on the bonds, and to meet other requirements, as specified. It would require that these assessments be placed in a separate account in the Workers' Comp Bond Fund, and would provide that only the trustee for the bonds may authorize disbursements from the account.

The bill would require that any bonds issued to provide funds for covered workers' compensation claim obligations be issued before January 1, 2007, in an aggregate principal amount not to exceed $1,500,000,000, and would provide that the bonds shall not have a final maturity date exceeding 20 years from the date of issuance.

The bill would add related provisions and make related changes.

(6) Existing law makes it a crime for any person to make false or fraudulent statements, or take certain other actions, with respect to any claim under the workers' compensation

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

system. Existing law specifies the penalties for violating these provisions, including a fine up to $50,000 or twice the amount of the fraud, whichever is greater.

This bill would increase this maximum fine to $150,000 or twice the amount of the fraud, whichever is greater.

(7) Existing law authorizes an insurer to issue a workers' compensation policy insuring an organization or association of employers subject to specified conditions, including requirements that the organization or association file certain documents with the commissioner or a licensed workers' compensation rating organization relating to (a) the percentage of its membership engaged in a common trade or business, and (b) the naming in certain statements of members eligible for insurance. Existing law defines the term "common trade or business" for purposes of these provisions.

This bill would expand the definition of "common trade or business" to include specified types of manufacturing facilities.

(8) Existing law regulates rates of workers' compensation insurers. Existing law requires rates to be adequate to cover an insurer's losses and expenses, and provides that they shall not tend to create a monopoly. Existing law prohibits rates that are unfairly discriminatory. Existing law requires workers' compensation insurers to adhere to a uniform experience rating plan filed with the Insurance Commissioner by a rating organization designated by the commissioner. Existing law requires insurers to file all rates with the commissioner.

This bill would require the Insurance Commissioner, in determining the advisory pure premium rates for policies incepting on or after January 1, 2004, to take into account projected savings due to changes enacted in the 2003 Regular Session. The bill would require insurers to file rates to apply to policies incepting on or after January 1, 2004, that include the provision for projected savings determined by the insurance commissioner, as specified. The bill would provide that these provisions shall remain in effect until January 1, 2005.

This bill would require the Insurance Commissioner, on or before July 1, 2004, to establish and maintain, on the Internet Web site maintained by the Department of Insurance, an online rate comparison guide showing workers' compensation insurance rates for the 50 insurance companies writing the highest volume of business in this line during the 2 preceding years, and other specified information.

The bill would require the rating organization designated by the commissioner as his or her statistical agent to determine the cost savings achieved in the 2003 workers' compensation reform legislation, and would require each insurer to certify that its rates reflect those cost savings. It would require that the certifications be made available on the department's Internet Web site.

(9) Existing law provides that the State Compensation Insurance Fund is to be administered for the purpose of transacting specified forms of insurance, including workers' compensation insurance. Existing law requires the board of directors of the fund to establish the rates to be charged by the fund, as specified, and provides that those rates are subject to certain regulatory provisions.

Existing law exempts the State Compensation Insurance Fund from specified provisions of law applicable to other state agencies generally.

This bill would provide that the positions funded by the State Compensation Insurance Fund are exempt from any hiring freezes and staff cutbacks otherwise required by law.

(10) Existing law establishes the Workers' Compensation Administration Revolving Fund as a special account in the State Treasury and moneys in the fund may be expended by the Department of Industrial Relations, upon appropriation by the Legislature, for the administration of the workers' compensation program. Existing law requires that 80% of the costs of the program be borne by the General Fund and 20% of the costs of the program be borne by the employers through assessments levied by the Director of Industrial Relations.

This bill would instead require that employer assessments account for the total costs of the program. It would also specify that it is the intent of the Legislature that a sufficient portion of the fund be allocated to certain priority initiatives.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would state the findings and declarations of the Legislature that to ensure that injured workers are fairly treated, receive prompt and adequate disability benefits, and have access to quality health care, a stable and predictable workers' compensation system is required. Accordingly, the bill would require the Commission on Health Safety and Workers' Compensation to study and report to the Legislature the feasibility of reinstating a minimum rate regulatory structure for the workers' compensation insurance market, to be phased in over a 5-year period.

(11) Existing law provides for the payment of temporary disability indemnity payments to any injured employee under specified circumstances.

This bill would provide, with specified exceptions, that if an injury causes permanent partial disability and the injured employee does not return to work for the employer within 60 days of the termination of temporary disability indemnity payments, the injured employee shall receive a supplemental job displacement benefit, as specified. The bill would specify that these provisions shall apply to injuries occurring on and after January 1, 2004.

(12) Existing law establishes a vocational rehabilitation services program for qualified injured workers for purposes of developing vocational rehabilitation plans that would retrain the injured worker for future employment. Existing law also requires the administrative director to establish a vocational rehabilitation unit to perform various functions and duties with respect to the vocational rehabilitation services program.

This bill would repeal these provisions.

(13) The bill would declare that it would not become operative unless SB 228 is enacted on or before January 1, 2004.

(14) The bill would provide that its provisions are severable.

Ch. 636 (AB 1099) Negrete McLeod. Insurance: fraud: information.

Under existing law, certain governmental agencies are authorized to request that an insurer or other specified person release to the agency any relevant information deemed important relating to a workers' compensation fraud investigation, and allows insurers to notify any of these agencies of suspected fraud. Existing law precludes these agencies from releasing this information to any person not authorized to receive the information.

This bill would include the Employment Development Department among the agencies authorized to request and receive information regarding workers' compensation fraud. This bill would provide that licensed rating organizations are authorized to release information regarding workers' compensation fraud, as specified.

Ch. 637 (AB 1262) Matthews. Workers' compensation insurance: claims adjusters.

Existing law generally regulates insurers offering workers' compensation insurance and other specified entities involved in administering this type of insurance.

This bill would require the Insurance Commissioner to adopt regulations setting forth the minimum standards of training, experience, and skill that workers' compensation claims adjusters must possess. The bill would require every workers' compensation insurer, as defined, to certify to the commissioner that the personnel employed by the insurer to adjust workers' compensation claims, or employed for that purpose by a medical billing entity, as defined, meet those minimum standards.

Ch. 638 (AB 1557) Vargas. Workers' compensation.

Existing law provides that when payment of workers' compensation has been unreasonably delayed or refused, either prior to or subsequent to the issuance of an award, the full amount of the order, decision, or award shall be increased by 10%.

This bill would provide that an employee shall not be entitled to an increase in compensation for unreasonable delay in the provision of medical treatment for periods of time necessary to complete a utilization review process, as prescribed.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would provide that its provisions would become operative only if SB 228 of the 2003–04 Regular Session is enacted and becomes operative.

Ch. 639 (SB 228) Alarcon. Workers' compensation.

(1) Existing law establishes a workers' compensation system to compensate an employee for injuries sustained in the course of his or her employment. Existing law establishes, in the Department of Industrial Relations, the Commission on Health and Safety and Workers' Compensation, to conduct a continuing examination of the workers' compensation system and of the state's activities to prevent industrial injuries and occupational diseases.

This bill would require the commission, on or before July 1, 2004, to conduct a survey and evaluation of nationally recognized standards of care, including existing medical treatment utilization standards, including independent medical review, as used in other states, at the national level, and in other medical benefit systems, and to issue a report of its findings and recommendations to the Administrative Director of the Division of Workers' Compensation, on or before October 1, 2004, for purposes of the adoption of a medical treatment utilization schedule.

(2) Existing law provides that the court administrator shall hold office at the pleasure of the administrative director.

This bill, instead, would provide that the court administrator hold office for a term of 5 years.

(3) Existing law establishes the Industrial Medical Council, consisting of various types of medical practitioners, and requires the council to perform various functions and duties in connection with the provision of medical services under the workers' compensation program.

This bill would eliminate the council and would transfer many of its functions and duties to the administrative director. It would also transfer all assets and liabilities of the council, as well as funds appropriated for the support of the council in the annual Budget Act, to the Workers' Compensation Administration Revolving Fund, and would make conforming changes.

(4) Existing law provides that it is unlawful for a physician to refer a person for specified medical goods or services whether for treatment or medical-legal purposes if the physician or his or her immediate family has a financial interest with the person or in the entity that receives the referral, except in prescribed circumstances. A violation of this provision is a misdemeanor.

This bill would add outpatient surgery, as defined, to the list of medical goods or services for which it is unlawful for a physician to refer a person under this provision. By creating a new crime, this bill would impose a state-mandated local program.

(5) Existing law makes it a crime for any person to make false or fraudulent statements, or take certain other actions, with respect to any claim under the workers' compensation system.

This bill would require the administrative director, in coordination with specified entities, to adopt specified protocols, if applicable, concerning medical billing and provider fraud. It would require certain parties to report claims believed to be fraudulent to the administrative director in accordance with these procedures.

(6) Existing law authorizes collective bargaining agreements between a private employer or groups of employers engaged in the aerospace and timber industries and a recognized or certified exclusive bargaining representative that establishes a dispute resolution process for workers' compensation instead of the hearing before the Workers' Compensation Appeals Board and its workers' compensation administrative law judges, or that provides for specified other alternative workers' compensation programs.

This bill would delete this authorization for employers engaged in the aerospace and timber industries, and instead would authorize labor-management agreements meeting prescribed criteria for any employer or groups of employers that meet certain requirements.

NOTE: Superior numbers appear as a separate section at the end of the digests.

By requiring certain information in connection with these provisions to be submitted by an employer or collective bargaining representative under penalty of perjury, this bill would expand the definition of the crime of perjury, thereby imposing a state-mandated local program.

(7) Existing law requires a pharmacy that provides medicines and medical supplies that are required to cure or relieve effects of an injury covered by workers' compensation to provide the generic drug equivalent, if available, unless the prescribing physician provides otherwise in writing.

This bill would instead provide that this requirement applies to any person or entity that dispenses medicines and medical supplies to a worker to cure or relieve the effects of an injury covered by workers' compensation, but would provide that compliance with this provision is not required under specified circumstances.

(8) Existing law requires an employer to provide payment to a physician who has provided medical treatment to an injured employee as part of his or her workers' compensation benefits within 60 days after the employer receives a billing statement and other documentation, except as prescribed.

This bill would reduce this period to 45 days, except for employers that are governmental entities.

Existing law provides that any properly documented amount not paid by the employer within this 60-day period shall be increased by 10% plus interest, unless the employer takes prescribed actions.

This bill would increase the amount of this penalty from 10% to 15%, and would establish filing fees for liens filed by providers in connection with the collection of unpaid amounts.

(9) Existing law requires the administrative director to adopt rules and regulations to, among other things, require acceptance by employers of electronic claims for payment of medical services.

This bill would require that these rules and regulations relating to electronic claims for payment of medical services be adopted on or before January 1, 2005, and would also require that these rules and regulations require all employers to accept these electronic claims for payment on or before July 1, 2006.

The bill would also require that payment for medical treatment provided or authorized by the treating physician selected by the employee or designated by the employer shall be made by the employer within 15 working days after electronic receipt of an itemized electronic billing for services at or below the maximum fees provided in the official medical fee schedule.

(10) Existing law establishes procedures with respect to disputes between employers and employees regarding the compensability of the injury and the extent and scope of medical treatment for that injury. Existing law creates a presumption in certain circumstances that the treating physician of an employee, who has been predesignated by the employee, is correct.

This bill, until January 1, 2007, would establish procedures to be followed when an employer objects to a treating physician's recommendation for spinal surgery, and would revise the above presumption for treating physicians, as specified. It would also require the Commission on Health and Safety and Workers' Compensation to conduct a study of the spinal surgery second opinion procedure by June 30, 2006, and to issue a report on its findings.

(11) Existing law requires the administrative director to adopt an official medical fee schedule, which shall establish reasonable maximum fees paid for medical services provided under the workers' compensation laws. Existing law requires the administrative director to adopt by July 1, 2003, and revise no less frequently than biennially, an official pharmaceutical fee schedule. Existing law additionally provides that the administrative director has the sole authority to develop an outpatient surgery facility fee schedule for services not performed under contract.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would, instead, require the administrative director to adopt and revise periodically a medical fee schedule for various services, drugs, fees, and goods, as specified, other than physician services. This bill would require that, within the limits established by the bill, the rates or fees established by the medical fee schedule be adequate to ensure a reasonable standard of services and care for injured employees, and would make conforming changes.

This bill would require the Commission on Health and Safety Workers' Compensation to contract with an independent consulting firm, to the extent permitted by state law, to perform an annual study of access to medical treatment for injured workers, and would authorize the commission to recommend to the administrative director appropriate adjustments to the official medical fee schedule.

This bill would also require the administrative director, on or before December 1, 2004, to adopt, after public hearings, a medical treatment utilization schedule, as specified.

The bill would provide that this schedule would create a rebuttable presumption that the schedule is correct on the issue of extent and scope of medical treatment of a worker's injuries. It would also provide that certain guidelines shall be presumptively correct on the issue of extent and scope of medical treatment of a worker's injuries for a specified period of time. The bill, notwithstanding the medical treatment utilization schedule and specified guidelines, would limit the number of chiropractic and physical therapy visits by an employee per industrial injury, as specified.

This bill would also require every employer to establish a utilization review process, either directly or through its insurer or entity with which an employer or insurer contracts for these services, in accordance with specified criteria, and would authorize the administrative director to assess administrative penalties for failure to meet certain requirements.

(12) Existing law authorizes the appeals board to receive specified types of information in addition to sworn testimony presented in open hearings.

This bill would include relevant portions of medical treatment protocols published by medical specialty societies among the information authorized to be received by the appeals board.

(13) Existing law requires every employer to establish, implement, and maintain an effective injury prevention program. Existing law also authorizes an employer to adopt the Model Injury and Illness Prevention Program for Non-High-Hazard Employment and the Model Injury and Illness Prevention Program for Employers in Industries with Intermittent Employment, developed by the Division of Occupational Safety and Health.

This bill would require every workers' compensation insurer to conduct a review of these injury and illness prevention programs of each of its insureds within 4 months of the commencement of the initial insurance policy term.

(14) This bill would declare that its provisions are severable.

(15) This bill would declare that its provisions would become operative only if AB 227 of the 2003–04 Regular Session is enacted and becomes operative.

(16) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 640 (SB 358) Figueroa. Nursing: vocational nursing: psychiatric technicians.

(1) The Nursing Practice Act provides for the licensing and regulation of registered nurses by the Board of Registered Nursing. Under existing law, the authority for both this board and the executive officer terminates on July 1, 2004. Existing law provides that the board is composed of 3 public members and 3 registered nurses and one licensed physician. Under existing law, a $5 biennial licensure renewal assessment is collected from licensees and deposited into the Registered Nurse Education Fund.

This bill would extend the sunset date of the board to January 1, 2009. The bill would change the composition of the board to 4 public members and 3 registered nurses, one of

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

whom is an advanced practice nurse, as defined. The bill would provide that, with certain exceptions, no other state agency, other than the board, may define or interpret the practice of nursing. The bill would increase the biennial licensure renewal assessment to $10. The bill would delete obsolete references and make conforming changes.

(2) The Vocational Nursing Practice Act and the Psychiatric Technicians Law provide for the licensure and regulation of licensed vocational nurses and psychiatric technicians by the Board of Vocational Nursing and Psychiatric Technicians of the State of California. Under existing law, the authority for this board and its executive officer terminates on July 1, 2004. Existing law defines unprofessional conduct for vocational nurses and psychiatric technicians and authorizes the board to suspend or revoke an individual's license for unprofessional conduct.

This bill would extend the termination date applicable to the board and its executive officer to January 1, 2009. The bill would require both categories of licensees to report known violations of the act to the board. The bill would specify that a licensee who fails to report this information to the board may have his or her license suspended or revoked for unprofessional conduct. This bill would also require the employers of these licensees to report to the board any suspension or termination for cause of a licensee. The bill would subject employers who fail to make a report to an administrative fine.

(3) Existing law creates the Registered Nurse Education Program within the Health Professions Education Foundation. Under existing law and as a condition of being accepted into the program, the program requires registered nursing students to agree to serve in specified facilities or underserved areas. Existing law requires the Health Professions Education Foundation to solicit advice from the Board of Registered Nurses, the California Nurses Association, the Chancellor of the California Community Colleges, and the California Association of Hospitals and Health Systems when developing the program.

This bill would create the Vocational Nurse Education Program in the Health Professions Education Foundation on July 1, 2004. The bill would, as a condition of being accepted into the program, require vocational nursing students to agree to serve in specified facilities or underserved areas. The bill would, on July 1, 2004, create the Vocational Nurse Education Fund which would be funded by a $5 license renewal assessment for vocational nurses and would be collected by the board. The bill would require the Health Professions Education Foundation to solicit advice from the Board of Vocational Nursing and Psychiatric Technicians, the California Licensed Vocational Nurses' Association, the Licensed Vocational Nurses League of California, Inc., the Chancellor of the California Community Colleges, and the California Association of Hospitals and Health Systems when developing the program.

(4) This bill would incorporate additional changes in Section 4521 of the Business and Professions Code, proposed by AB 1777, to be operative only if AB 1777 and this bill are both chaptered and become effective January 1, 2004, and this bill is chaptered last. The bill would make related changes.

Ch. 641 (SB 1007) Speier. Workers' compensation: insurance policies.

Existing law authorizes an insurer to issue a workers' compensation policy insuring an organization or association of employers subject to specified conditions, including requirements that the organization or association file certain documents with the commissioner or a licensed workers' compensation rating organization relating to (1) the percentage of its membership engaged in a common trade or business, and (2) the naming in certain statements of members eligible for insurance. Existing law defines the term "common trade or business" for purposes of these provisions.

This bill would expand the definition of "common trade or business" to include specified types of manufacturing facilities.

Ch. 642 (SB 1025) Escutia. Fair housing: multilevel townhouses.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The existing California Fair Employment and Housing Act (FEHA) makes it unlawful to discriminate against any person in any housing accommodation on the basis of race, color, religion, sex, marital status, national origin, ancestry, familial status, or disability. It permits the Department of Fair Employment and Housing to engage in affirmative actions to prevent and provide for effective remedies against housing discrimination.

Under existing law, discrimination includes, but is not limited to, a failure to design and construct a covered multifamily dwelling in a specified manner. Existing law provides that regulations adopting building standards necessary to implement, interpret, or make specific these provisions are required to be developed by the Office of the State Architect for public housing and by the Department of Housing and Community Development for all other residential occupancies, as specified.

This bill would revise the definition of discrimination to include prescribed requirements relating to multistory dwelling units in buildings without an elevator that consist of at least four condominium dwelling units or at least three rental apartment dwelling units.

Ch. 643 (AB 561) Lieber. Family planning: teen pregnancy.

Existing law establishes within the State Department of Health Services, the Office of Family Planning, and prescribes the functions, powers, and duties of the office relating to the provision of family planning services in the state. The office has implemented various programs, including the Male Involvement Program, the Community Challenge Grants Program, the TeenSMART Program, and the Information and Education Program.

This bill would establish these programs on a continuing basis within the office, and prescribe specific goals for each program. The bill would provide that these provisions shall be implemented to the extent funding is made available through the federal government, or in the annual Budget Act or another statute, or any combination of any funding sources.

Ch. 644 (AB 663) Lieber. Pelvic examinations.

Existing law, the Medical Practice Act, establishes training and education requirements for issuance of a physician's and surgeon's certificate. The act also prohibits certain practices and makes the violation of those provisions by any person a misdemeanor.

This bill would prohibit a physician and surgeon and a medical student from performing a pelvic examination on an anesthetized or unconscious patient unless the patient has given informed consent to the pelvic examination, the pelvic examination is within the specified scope of care, or, if the patient is unconscious, the pelvic examination is required for diagnostic purposes. Because the bill would specify a prohibited practice, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 645 (AB 844) Nation. Replacement Tire Efficiency Program.

Existing law, with respect to energy conservation and development, states the policy of the state, among other things, to fully evaluate the economic and environmental costs of petroleum use and to establish a state transportation energy policy that results in the least environmental and economic cost to the state.

This bill would require the State Energy Resources Conservation and Development Commission, in consultation with the California Integrated Waste Management Board, to adopt, on or before July 1, 2007, and implement, no later than July 1, 2008, a replacement tire efficiency program of statewide applicability for replacement tires for passenger cars and light-duty trucks, that is designed to ensure that replacement tires sold in the state are at least as energy efficient, on average, as the tires sold in the state as original equipment on these vehicles. The bill would define "replacement tire." The bill would require the commission,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

in consultation with the board, to review and revise the program as necessary, but not less than once every 3 years.

Ch. 646 (AB 845) Vargas. Household goods carriers.

(1) Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including transportation companies. Household goods carriers are subject to the jurisdiction and control of the commission under the Household Goods Carriers Act. The act prohibits a household goods carrier from engaging, or attempting to engage, in the business of the transportation of used household goods and personal effects, by motor vehicle over any public highway in the state, without a permit issued by the commission. The act declares that it is not to be construed as a regulation of interstate or foreign commerce, except as permitted under the United States Constitution and the acts of Congress.

This bill would prohibit a household goods carrier from engaging, or attempting to engage, in the business of the transportation of used household goods and personal effects, by motor vehicle over any public highway in the state, including advertising, soliciting, offering, or entering into an agreement, without a permit issued by the commission authorizing transportation entirely within the state, or a valid operating authority issued by the Federal Motor Carrier Safety Administration, for interstate transportation. A household goods carrier without a permit issued by the commission or a valid operating authority issued by the Federal Motor Carrier Safety Administration, would be prohibited from enforcing any security interest or bringing an action to recover any money, property, or other relief from any consignor, consignee, or owner of household goods or personal effects for services rendered, and any person utilizing the services of an unpermitted and unauthorized household goods carrier would be authorized to bring an action to recover all compensation paid to the household goods carrier. The operation of a motor vehicle without a permit or authorization would constitute a public nuisance under the bill. The bill would instead declare that the act is not to be construed as a regulation of interstate or foreign commerce, except as not prohibited under the United States Constitution and the acts of Congress.

This bill would, with certain exceptions, permit a household goods carrier a lien on used household goods and personal effects to secure payment for transportation and additional services ordered by the consignor, as defined. The existence and amount of the lien would be conditioned upon providing the consignor with a specified notice that clearly and conspicuously specifies the dollar amount for transportation and additional services, which amount is required to be estimated in good faith based upon the specific circumstance and to be just and reasonable, and would prohibit the dollar amount from being preprinted on the notice. Upon tender to the household goods carrier of the amount specified in the notice, the lien would be extinguished and the household goods carrier would be required to release all household goods and personal effects to the consignee, as defined. The bill would authorize any person injured by a violation of these requirements to bring an action for recovery of the greater of $1,000 or actual damages, injunctive or other equitable relief, reasonable attorney's fees and costs, and exemplary damages of not less than three times the amount of actual damages for a willful violation.

This bill would prohibit a household goods carrier from transporting household goods under a subhauling agreement unless the agreement is with another licensed household goods carrier and the household goods carrier and subhauler are jointly and severally liable for any loss or damage caused by the subhauler. The bill would require the commission to make any rules and regulations necessary to enforce these requirements. The bill also would make a technical, nonsubstantive change.

(2) Under the Household Goods Carriers Act, a household goods carrier and every officer, director, agent, or employee who violates or fails to comply with the act or an order, decision, rule, regulation, direction, demand, or requirement of the commission, is guilty of a misdemeanor, punishable by fine of not more than $1,000 or by imprisonment in the county

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

jail for not more than 3 months, or both. The act provides that the penalties accruing under the act are cumulative.

Because a violation of the Household Goods Carriers Act or an order of the commission is a crime under existing law, the bill would impose a state-mandated local program by expanding a crime. The bill would make a willful violation punishable by fine of not more than $10,000 or imprisonment in the county jail for not more than one year, or both. The bill would make a violation of the above described provision requiring a household goods carrier to have a permit or authorization, a misdemeanor, punishable by fine of not more than $10,000 or imprisonment in the county jail for not more than one year, or both. The bill would provide that the remedies and penalties accruing under the act are cumulative.

(3) The Public Utilities Act requires the commission to see that statutes affecting public utilities are enforced and obeyed, and that violations are promptly prosecuted and penalties to the state are recovered and collected. The act requires that upon request by the commission, the Attorney General or a district attorney aid the commission in any investigation, hearing, or trial under the act and authorizes the Attorney General or a district attorney to institute and prosecute actions for the enforcement of constitutional and statutory provisions pertaining to public utilities.

This bill would require the commission to ensure that the Household Goods Carriers Act is enforced and obeyed, and that violations are promptly prosecuted and penalties to the state are recovered and collected. Upon request by the commission, the bill would authorize the Attorney General or a district attorney to aid the commission in any investigation, hearing, or trial under the Household Goods Carriers Act and authorizes the Attorney General, a district attorney, or city attorney to institute and prosecute actions for the violation of any law involving the transportation of household goods and personal effects.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 647 (AB 996) Wiggins. Insurance.

Existing law provides that a commercial property insurance policy, if the insured is a religious, educational, or other nonprofit organization that is organized and operated for religious, charitable, or educational purposes, as specified, may not be canceled, nor may the insurer refuse to renew the policy, because a claim was made against the policy in the preceding 60 months for a loss that was the result of a hate crime, as defined, committed against the person or property of the insured. Existing law requires an insurer to report a cancellation or nonrenewal to the Insurance Commissioner if the insured has submitted a claim that is the result of a hate crime.

In addition, this bill would provide that a premium shall not be excessive or unfairly discriminatory on that basis. This bill would provide that these provisions would also apply to a reproductive health services facility or its administrative offices, and would add a claim due to an anti-reproductive-rights crime, as defined, to the claims that may not serve as the basis for a cancellation or nonrenewal. It would require an insurer to report a cancellation or nonrenewal to the commissioner if the insured has submitted a claim that is the result of an anti-reproductive-rights crime.

Ch. 648 (AB 1400) Wolk. Housing: accessibility.

(1) The existing State Housing Law requires the Department of Housing and Community Development, in consultation with specified state agencies, to develop guidelines and at least one model ordinance for new construction and home modifications that are consistent with particular principles of universal design or other similar design guidelines to enhance housing for, among others, persons with disabilities. Commencing January 1, 2005, a city, county, or city and county may, by ordinance, modify code requirements if it determines that

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

it is reasonably necessary and substantially the same as the guidelines or model ordinance. Existing law also encourages developers of housing for senior citizens, persons with disabilities, and others, in a city or county where a universal design ordinance has not been adopted, to seek information regarding the principles of universal design, and authorizes the California Department of Aging, in partnership with specified entities, to develop and provide consumer advice regarding home modification for seniors and persons with disabilities.

This bill would, within the State Housing Law, require a developer of any new residential housing development, beginning 90 days after the Department of Housing and Community Development adopts a standard form, but no sooner than July 1, 2004, to provide a buyer a list of specified universal accessibility features that would make the home entrance, interior routes of travel, kitchen, and bathrooms, fully accessible to persons with disabilities. It would provide that a willful violation of these provisions shall be punishable by a civil penalty of $500. Because a violation of the State Housing Law is a misdemeanor under other provisions, the bill would create a state-mandated local program by creating a new crime. The bill would authorize the Department of Housing and Community Development to adopt implementing regulations and to develop a standard form providing the information required by the bill.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 649 (AB 1675) Longville. Vehicles: Department of Motor Vehicles: records.

Under existing law, the residence address in any record of the Department of Motor Vehicles is confidential, with specified exceptions. One exception applies to an attorney when the attorney states that the motor vehicle or vessel registered owner or driver residential address information is needed in a civil or criminal action, as specified.

This bill would provide that the attorney exemption does not apply to an action or case on behalf of a private parking owner or private parking entity in order to pursue fees or delinquent charges arising from parking notices issued on private property.

Because the unauthorized disclosure of this information would be a crime, this bill would impose a state-mandated local program by expanding the scope of an existing crime.

These provisions would be in effect only until January 1, 2007, and as of that date would be repealed.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 650 (SB 71) Kuehl. Education: sexual health and HIV/AIDS prevention instruction.

(1) Existing law contains various provisions relating to the instruction in the public schools on AIDS prevention, venereal disease and other sexually transmitted diseases, sex, and abstinence from sexual activity, the surrender of physical custody of a minor child 72 hours or younger, and the manner in which parents or guardians may excuse their child from this instruction.

This bill would consolidate those provisions by establishing the California Comprehensive Sexual Health and HIV/AIDS Prevention Education Act. The act would, among other things, authorize school districts to provide comprehensive sexual health education, as defined, in any kindergarten to grade 12, inclusive, and to ensure that all pupils in grades 7 to 12, inclusive, receive HIV/AIDS prevention education, as defined. The bill

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

would also make conforming changes to related provisions of law and make technical, nonsubstantive changes to some of those provisions.

(2) This bill would incorporate additional changes to Section 48980 of the Education Code, proposed by AB 300, to be operative only if this bill and AB 300 are both enacted and become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 651 (SB 490) Alpert. Pharmacy: prescriptions.

Existing law, the Pharmacy Law, creates the California State Board of Pharmacy and makes it responsible for regulating the practice of pharmacy. A knowing violation of the Pharmacy Law is a crime. Under that law, a pharmacist may not, in general, furnish a dangerous drug except upon the prescription of a physician, dentist, podiatrist, optometrist, or veterinarian. However, existing law authorizes a pharmacist to initiate emergency contraception drug therapy in accordance with standardized protocols developed by the pharmacist and an authorized prescriber acting within his or her scope of practice.

This bill would also authorize a pharmacist to furnish emergency contraception drug therapy in accordance with a standardized procedure or protocol developed and approved by both the board and the Medical Board of California, in consultation with specified entities. The bill would require a pharmacist to complete a specified training program before performing emergency contraception drug therapy. Because a violation of this bill would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would also incorporate additional changes to Section 4052 of the Business and Professions Code proposed by SB 545 that would become operative only if SB 545 and this bill are both enacted and become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 652 (SB 545) Speier. Emergency contraception drug therapy.

Existing law, the Pharmacy Law, provides for the licensing and regulation of the practice of pharmacy under the jurisdiction of the California State Board of Pharmacy. Existing law requires a pharmacist to provide consultation when furnishing drugs, with certain exceptions, and the board has set forth specific requirements applicable to the provision of consultation and the maintenance of patient medication records. Existing law authorizes a pharmacist, in addition to other functions, to initiate emergency contraception drug therapy if the pharmacist has completed a training program on emergency contraception and certain other conditions are met.

This bill would instead authorize the pharmacist to furnish emergency contraception drug therapy subject to those conditions and would revise the training requirement. The bill would prohibit a pharmacist from requiring a patient to provide individually identifiable medical information, except as specified. The bill would also prohibit a pharmacist, or his or her employer or agent, from directly charging a patient a separate consultation fee for the initiation of emergency contraception drug therapy, but would authorize an administrative fee not to exceed $10 above the retail cost of the drug, except where the patient is covered or insured for the cost of emergency contraception, in which case the patient would instead be required to pay the applicable copay. The bill would require a pharmacist, upon request, to disclose the total retail drug price for emergency contraception drug therapy. The bill would make the provisions regarding fees, copayments, and prices inoperative for dedicated emergency contraception drugs when the drugs are classified as over-the-counter products by the federal Food and Drug Administration.

Existing law sets forth certain requirements and prohibitions for health care providers.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would prohibit an individual issuing a prescription or order for emergency contraception drug therapy through contact with a patient over the phone or through electronic means from charging an administrative fee of more than $10.

Existing law makes it a misdemeanor to knowingly violate the Pharmacy Law. All other violations of that law are infractions unless otherwise indicated.

Because this bill would create new prohibitions on pharmacists, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would also incorporate additional changes to Section 4052 of the Business and Professions Code proposed by SB 490 that would become operative only if SB 490 and this bill are both enacted and become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 653 (AB 591) Strickland. High school graduation requirements: career technical education.

Existing law requires school districts to adopt a course of study for grades 7 to 12, inclusive, that includes career technical education.

Existing law requires the Superintendent of Public Instruction, upon adoption of the model curriculum standards by the State Board of Education, to develop a model curriculum framework for implementation of career and technical education no later than June 1, 2006, as specified. Existing law requires the superintendent to develop the curriculum framework in consultation and coordination with an advisory group.

This bill would encourage the advisory group to identify career technical education courses that meet state-adopted academic content standards and that satisfy high school graduation requirements and admissions requirements of the University of California and the California State University, and to determine the extent to which local educational agencies accept credit earned for the completion of those courses, in lieu of other courses of study.

Ch. 654 (AB 1601) Frommer. Administration of taxes: tax shelters: penalties.

Existing law imposes various taxes and fees, and certain penalties on late payments of those taxes and fees. Existing law provides specified conformity to federal income tax laws with respect to penalties imposed in connection with tax avoidance and abusive tax shelters.

This bill would, in modified conformity with federal income tax laws, increase the penalties imposed with respect to tax avoidance and abusive tax shelters, as provided.

This bill would require the Franchise Tax Board to develop and administer a voluntary compliance initiative, as specified, to be conducted during the period from January 1, 2004, to April 15, 2004, inclusive, and to apply to tax liabilities attributable to the use of abusive tax avoidance transactions, as specified, for taxable years beginning before January 1, 2003. This would generally authorize a taxpayer utilizing the voluntary compliance initiative to comply, with or without right to appeal, with the reporting and payment of taxes with respect to a previously filed tax return that used an abusive tax avoidance transaction to underreport tax liability. For a taxpayer who elects to comply without right to appeal, this bill would waive all penalties. For a taxpayer who elects to comply with right to appeal, this bill would waive only the new or increased penalties.

This bill would, except as provided, apply with respect to any penalty assessed on or after January 1, 2004, on any return for which the statute of limitations on assessment has not expired, and would otherwise apply on and after January 1, 2004.

This bill would require the Franchise Tax Board and the Legislative Analyst to report to the Legislature regarding the bill, as provided.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would become operative only if SB 614 of the 2003–04 Regular Session is chaptered.

Ch. 655 (SB 103) Alpert. Sales and use taxes.

The Corporation Tax Law imposes taxes measured by income and, in the case of a business with income derived from or attributable to sources both within and without this state, the business income is apportioned between this state and other jurisdictions for tax purposes in accordance with a specified formula based on the property, payroll, and sales of the business within and without this state. The existing Corporation Tax Law generally conforms with the federal income tax treatment of regulated investment companies (RIC) that allow a RIC to pass ordinary income on to the shareholders without incurring any tax liability to the RIC.

This bill would clarify that dividends received by a California corporate shareholder from a RIC are generally not excludable from the income of that corporate shareholder. This bill would declare that this clarification is operative for taxable years beginning on or after January 1, 2003.

Ch. 656 (SB 614) Cedillo. Tax shelters.

Existing law imposes various taxes and fees, and certain penalties on late payments of those taxes and fees. Existing law provides specified conformity to federal income tax laws with respect to penalties imposed in connection with tax avoidance and abusive tax shelters.

This bill would, in modified conformity with federal income tax laws, increase the penalties imposed with respect to tax avoidance and abusive tax shelters, as provided.

This bill would require the Franchise Tax Board to develop and administer a voluntary compliance initiative, as specified, to be conducted during the period from January 1, 2004, to April 15, 2004, inclusive, and to apply to tax liabilities attributable to the use of abusive tax avoidance transactions, as specified, for taxable years beginning before January 1, 2003. This would generally authorize a taxpayer utilizing the voluntary compliance initiative to comply, with or without right to appeal, with the reporting and payment of taxes with respect to a previously filed tax return that used an abusive tax avoidance transaction to underreport tax liability. For a taxpayer who elects to comply without right to appeal, this bill would waive all penalties. For a taxpayer who elects to comply with right to appeal, this bill would waive only the new or increased penalties.

This bill would, except as provided, apply with respect to any penalty assessed on or after January 1, 2004, on any return for which the statute of limitations on assessment has not expired, and would otherwise apply on and after January 1, 2004.

This bill would require the Franchise Tax Board and the Legislative Analyst to report to the Legislature regarding the bill, as provided.

This bill would become operative only if AB 1601 of the 2003–04 Regular Session is chaptered.

Ch. 657 (SB 640) Burton. Public contracts: expatriate corporations.

The State Contract Act governs contracting between state agencies and private contractors, and sets forth requirements for the procurement of materials, supplies, equipment, and services by state agencies. Existing law sets out the various responsibilities of the Department of General Services, and other state agencies in overseeing and implementing state contracting procedures and policies.

This bill would prohibit a state agency from entering into any contract with an expatriate corporation, as defined, or its subsidiary, unless certain conditions are met. This bill would also establish a state-mandated local program by establishing a new misdemeanor.

The Corporation Tax Law allows corporations to elect whether their income is determined on a "water's-edge" basis or on a worldwide unitary basis. The election to report income on a water's-edge basis is made by contract between the taxpayer and the Franchise Tax Board. The contract requirements allow no relief for errors, and do not allow the perfecting of invalid

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

water's-edge elections. Electors who fail to comply with the contractual requirements for making a water's-edge election forfeit their water's-edge election, thereby causing their income to be determined on a worldwide unitary basis.

This bill would revise water's-edge election procedures by, among other things, providing that elections made under current law may be terminated if requested by all members of a water's edge group of which an expatriate corporation, as defined, is a member. These provisions would only become operative under specified conditions related to the operation of another bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 658 (AB 299) Lowenthal. Vehicles: taxicabs and passenger vehicles for hire: violations: impoundment: charter-party carriers of passengers: advertisement as taxicabs.

(1) Existing law requires a magistrate presented with the affidavit of a peace officer establishing reasonable cause to believe that a vehicle was an instrumentality used in the peace officer's presence in violation of certain provisions relating to reckless driving and fleeing a peace officer, to issue a warrant or order authorizing any peace officer to immediately seize and cause the removal of the vehicle. The warrant or court order may be entered into a computerized database, and a vehicle so impounded may be impounded for a period not to exceed 30 days. Existing law provides procedures for release of the vehicle prior to the end of the 30-day period.

This bill would require a magistrate presented with the affidavit of a peace officer establishing reasonable cause to believe that a vehicle is being operated as a taxicab or other passenger vehicle for hire in violation of licensing requirements adopted by a local authority under a specified provision of the Vehicle Code to issue a warrant or order authorizing any peace officer to immediately seize and cause the removal of the vehicle. The bill would authorize a vehicle so impounded to be impounded for a period not to exceed 30 days. The bill would provide procedures for release of the vehicle prior to the end of the 30-day period.

(2) Under existing law, the Public Utilities Commission is vested with regulatory authority over public utilities including charter-party carriers. The existing Passenger Charter-Party Carriers Act requires a charter-party carrier of passengers, as defined, to obtain a certificate of public convenience and necessity or a permit issued by the commission, and to operate within the state on a prearranged basis, as defined. The act requires every charter-party carrier of passengers to display on the vehicle a distinctive identifying symbol in the form prescribed by the commission and requires every written or oral advertisement of services to state the number of its permit or identifying symbol, as specified by the commission.

This bill would prohibit a charter-party carrier of passengers from advertising or otherwise representing their services to the public, as a taxicab or taxi service. Because a violation of the act or an order of the commission under the act is a crime under existing law, the bill would impose a state-mandated local program by creating a new crime.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 659 (AB 747) Matthews. Human services: Medi-Cal.

(1) Existing law establishes the Department of Consumer Affairs that is comprised of various boards that license and regulate the profession under the board's jurisdiction. Existing law, by initiative statute, creates the Osteopathic Board of California and the State

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Board of Chiropractic Examiners with similar licensing and regulatory duties with respect to those professions.

Existing law authorizes a board to suspend or revoke a license if the licensee has been convicted of a crime that is substantially related to the qualifications, functions, or duties of the business or profession for which the license was issued.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which health care benefits are provided to public assistance recipients and certain other low-income persons, including dental benefits under the Denti-Cal element of the Medi-Cal program. Under existing law, the Director of Health Services is required to suspend the participation in the Medi-Cal program by a provider of services for conviction of any felony or any misdemeanor involving fraud.

This bill would require specified boards within the department, the Osteopathic Medical Board of California, and the State Board of Chiropractic Examiners to convene disciplinary hearings to revoke a license if the licensee has more than one conviction, as defined, for any felony involving Medi-Cal fraud committed by the licensee in conjunction with the Medi-Cal program or the Denti-Cal element of the Medi-Cal program, and would require revocation unless there are mitigating circumstances. Conviction of the 2nd felony arising out of separate prosecutions would result in automatic suspension of the license. The bill would apply to a licensee with one or more convictions prior to January 1, 2004, in a specified manner. The bill would additionally require these boards to convene disciplinary hearings to suspend or revoke a license if the licensee has one conviction, as defined, for any of the above activities.

(2) Under existing law, durable medical equipment is a covered benefit under the Medi-Cal program, subject to utilization controls.

This bill would revise the schedule of maximum allowable rates for durable medical equipment.

Under existing law, the department may enter into exclusive or nonexclusive contracts on a bid or negotiated basis with manufacturers, distributors, dispensers, or suppliers of appliances, durable medical equipment, medical supplies, and other product-type health care services for the purpose of obtaining the most favorable prices to the state and to assure adequate quality of the product or service, with certain exceptions. Existing law requires the department to establish a list of covered services and maximum allowable reimbursement rates for durable medical equipment.

This bill would authorize the department to require providers of durable medical equipment to appeal Medicare denials for dually eligible beneficiaries as a condition of Medi-Cal payment.

(3) Existing law requires the Department of Rehabilitation to suspend for the 2003–04 fiscal year the biennial rate adjustment for certain work-activity programs.

This bill would require the department to suspend the biennial rate adjustment until July 1, 2006.

(4) Existing law requires the Department of Rehabilitation to provide assistance and funding to independent living centers, which are nonprofit entities that provide services to individuals with disabilities. Existing law provides a formula for the allocation of funds appropriated by the Legislature to independent living centers.

Existing law authorizes the department to provide a funding advance in specified amounts to independent living centers that comply with certain accounting criteria established by the department.

This bill would authorize the department to provide a similar funding advance to any contractor or grantee receiving funds pursuant to the provisions governing independent living centers. The bill would require any grantee of a funding advance also to meet reporting criteria established by the department.

(5) This bill would incorporate additional changes in Section 810 of the Business and Professions Code proposed by SB 359 that would become operative only if SB 359 and this

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

bill are both enacted and become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 660 (AB 833) Steinberg. Sex equity in education: athletics.

Existing law provides that no person shall be subjected to discrimination on the basis of, among other things, sex, in any program or activity conducted by any postsecondary educational institution that receives or benefits from state financial assistance or enrolls students who receive state financial aid. Existing law states that it is the intent of the Legislature that opportunities for participation in intercollegiate athletic programs in the community colleges, in the campuses of the California State University, and in the campuses of the University of California be provided on as equal a basis as is practicable to male and female students.

This bill would express various findings and declarations of the Legislature with respect to gender equity in athletics. The bill would set forth standards for determining whether an educational institution has effectively accommodated the interests and abilities of both sexes in athletics. The bill would prohibit the use of public funds in connection with an athletic program of a public postsecondary educational institution that does not provide equivalent opportunity to both sexes for participation and use of facilities. The bill would require an educational institution that is obliged to cut its athletic budget to do so consistently with its legal obligation to comply with both state and federal gender equity laws.

Ch. 661 (AB 1214) Firebaugh. Net energy metering: fuel cell customer-generators.

(1) Existing law, until January 1, 2006, requires electrical corporations, as defined, to provide eligible biogas digester customer-generators, as defined, with net energy metering, as defined, under a pilot program.

This bill, until January 1, 2006, would require every electrical corporation, as defined, to provide net energy metering, as defined, for eligible fuel cell customer-generators, as defined, until the total cumulative rated generating capacity used by the eligible fuel cell customer-generators equals 45 megawatts within the service territory of the electrical corporation for an electrical corporation with a peak demand above 10,000 megawatts, or equals 22.5 megawatts within the service territory of the electrical corporation for an electrical corporation with a peak demand of 10,000 megawatts or below. The bill would prohibit the combined statewide cumulative rated generating capacity used by the eligible fuel cell customer-generators in the service territories of all electrical corporations from exceeding 112.5 megawatts. Because a violation of these provisions would be a crime under existing law, this bill, by establishing a new crime, would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 662 (AB 1277) Cohn. Commissions and committees.

(1) Existing law, known as the Motion Picture, Television, and Commercial Industries Act of 1984 creates within the Technology, Trade, and Commerce Agency, the California Film Commission consisting of 26 members to encourage motion picture and television filming in California and the Film Office as the permitting authority for the use of state-owned property and state employee services for the purpose of making commercial motion pictures.

Existing law also requires the commission to develop and oversee the implementation of a Cooperative Motion Picture Marketing Plan and establishes the Film California First

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Program which includes the Film California First Fund in the State Treasury for the purpose of reimbursing film costs incurred by a public agency.

Existing law, that will become effective January 1, 2004, abolishes the Technology, Trade, and Commerce Agency and repeals these provisions as of that date.

This bill would transfer the administrative authority of the act and the Film California First Program to the Business, Transportation and Housing Agency.

(2) Existing law creates the High Technology Crime Advisory Committee, which was established for the purpose of formulating a comprehensive written strategy for addressing high technology crime and to advise the agency or agencies designated by the Director of Finance on the appropriate disbursement of funds to regional task forces. Existing law requires the appointment of specified members to the committee.

The bill would require the executive director to appoint a designee of the Recording Association of America and a designee of the Consumers Union to the committee.

(3) Existing law provides that, in formulating the comprehensive written strategy for addressing high technology crime throughout the state, the committee shall identify various priorities for law enforcement attention, including the apprehension and prosecution of criminal organizations, networks, and groups of individuals engaged in specified crimes, including robbery, counterfeiting of a registered mark, sale of goods with false identification of their manufacturer, receiving stolen property, removal of a manufacturer's identification, and unauthorized connections to video, cable, television, or like services.

This bill would provide that the committee shall also identify as a priority for law enforcement attention the goal of apprehending and prosecuting criminal organizations, networks, and groups of individuals engaged in the crimes of misappropriation of recorded music for commercial advantage or private financial gain; the transportation of articles containing unauthorized recordings of live performances; the creation and distribution of pirated sound recordings or audiovisual works; and the failure to disclose the origin of a recording or audiovisual work.

Ch. 663 (AB 1330) Simitian. Outdoor Environmental Education Program.

Existing law contains legislative findings and declarations regarding the need for an educational program that is designed to build attitudes of stewardship toward the maintenance of the quality of our environment and to enable all citizens to use resources wisely.

This bill would establish the Outdoor Environmental Education Program, the purpose of which is to foster stewardship of the environment and an appreciation of the importance of the wise use of natural resources. The bill would require the State Department of Education to administer the program and, according to a priority system to be developed by the department, select applicants for participation in the program, pursuant to prescribed criteria. The bill would require the department to contract with an independent evaluator to conduct an evaluation of the program and submit a report to the Legislature no later than February 1, 2005. The bill would provide that the program and its evaluation be implemented only if the Department of Finance determines that private funds are made available for purposes of the costs of the program and its evaluation.

This bill would make these provisions inoperative on July 1, 2005, and repeal them on January 1, 2006.

Ch. 664 (AB 1360) Steinberg. Environmental quality: environmental indicators.

Existing law requires the Secretary for Environmental Protection, on or before January 1, 2002, to convene a Working Group on Environmental Justice to assist the California Environmental Protection Agency (Cal/EPA) in developing, on or before July 1, 2002, an agencywide strategy for identifying and addressing gaps in existing programs, policies, or activities that may impede the achievement of environmental justice.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require the Office of Environmental Health Hazard Assessment (OEHHA), on behalf of the office of the Secretary for Environmental Protection, beginning on July 1, 2004, and, to the extent that funds are appropriated by the Legislature, to develop and maintain a system of environmental indicators that meets specified objectives. The bill would define the term "environmental indicator." The bill would require the Secretary of the Cal/EPA to periodically assess the ability of the environmental indicators system to meet each of those objectives and the ability of the system to support the development and implementation of the agencywide environmental justice strategy. The bill would require the Secretary of the Cal/EPA to submit a report on those environmental indicators to the Governor and the Legislature on or before January 1, 2006, and by January 1 every two years thereafter.

The bill would require the OEHHA to be the lead agency for developing new environmental indicators, for modifying, deleting, and updating existing environmental indicators, and for developing and maintaining an environmental indicator database. The bill would require the OEHHA to consult with other state agencies, as specified and would authorize OEHHA to hold public meetings to receive comments. The bill would also require the OEHHA to lead an intra-agency workgroup consisting of representatives from each board, department, and office within the Cal/EPA. The OEHHA would be required to consult with that intra-agency workgroup regarding various activities.

The bill would state the Legislature's intent that the Secretary for Environmental Protection, the Secretary of the Resources Agency, and the Director of the Department of Health Services in conjunction with other specified entities, use environmental indicators, where applicable, in the development of the budget proposals for 2005–06 and future budget years, and require budget change proposals to indicate how the proposals would affect specified environmental indicators.

The bill would require that a budget change proposal submitted to the Legislature by a board, department, or office within the California Environmental Protection Agency or the Resources Agency describe how the proposal would affect specified environmental indicators. The bill would require any board, department, or office within Cal/EPA to explain how their bond programs relate to or affect environmental indicators.

Ch. 665 (AB 1548) Pavley. Office of Education on the Environment.

Existing law establishes the Office of Integrated Environmental Education within the Integrated Waste Management Board, and requires the office to develop and implement a unified education strategy on the environment for elementary and secondary schools.

This bill would repeal those provisions and, instead, establish the Office of Education and the Environment with similar duties. The bill would require the Office of Education and the Environment to report to both the Secretary for Environmental Protection and to the board.

This bill would require the office to develop education principles for the environment for elementary and secondary school pupils by July 1, 2004, as prescribed. The bill would require the office to develop a model curriculum incorporating these principles and to submit the model curriculum for consideration and approval, as prescribed.

The bill would require the State Department of Education to incorporate the materials developed by the office into prescribed publications, and would require the State Department of Education to make the curriculum available electronically. The bill would require the office to coordinate with all state agencies, as prescribed.

Existing law requires school district governing boards, when adopting instructional materials for use in schools, to include only materials that accurately portray prescribed conditions.

This bill would, in addition, require the governing boards, when adopting instructional materials to include only materials that accurately portray the educational principles for the environment, thereby imposing a state-mandated local program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would establish the Environmental Education Account and would authorize deposit of funds from prescribed sources for expenditure for the purposes of this bill, upon appropriation by the Legislature.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 666 (SB 183) Sher. Energy: renewable technologies.

Under the Public Utilities Act, the Public Utilities Commission requires electrical corporations to identify a separate rate component to fund in-state operation and development of existing and new and emerging renewable resources technologies. This rate component is a nonbypassable element of local distribution and collected on the basis of usage. Existing law requires specified electrical corporations to collect specific amounts to support in-state operation and development of existing and new and emerging renewable resources technologies. Existing law also requires the State Energy Resources Conservation and Development Commission (Energy Commission) to transfer funds collected for in-state operation and development of existing and new and emerging renewable resources technologies into the Renewable Resource Trust Fund. Existing law requires that 17.5% of the funds collected to accomplish the funding of in-state operation and development of existing and new and emerging renewable resources technologies, after deducting certain administrative costs, be used for a multiyear, consumer-based program to foster the development of emerging renewable technologies in distributed generation applications by providing monetary rebates, buydowns, or equivalent incentives. The Emerging Renewable Resources Account is established within the Renewable Resource Trust Fund, to accomplish these purposes.

This bill would recast those provisions in the Public Resources Code. The bill would require the Energy Commission, at least once annually, to publish and make available to the public the balance of funds available for emerging renewable energy resources for rebates, buydowns, and other incentives for the purchase of these resources. The bill would make other conforming changes.

Ch. 667 (SB 210) Burton. Minors: artistic employment contracts.

(1) Existing law regulates certain contracts for artistic employment between an unemancipated minor and third parties, including employment as an actor, dancer, musician, comedian, singer, stuntperson, voice-over artist, or other performer or entertainer, or sports participant. Existing law provides for the establishment of a trust for the purpose of preserving for the benefit of the minor 15% of the minor's gross earnings or a greater percentage, if requested by the minor's parent or guardian.

This bill would define a minor's gross earnings for these purposes. The bill would specify who is a minor's employer for these purposes. The bill would limit the trust amounts to 15% of the minor's gross earnings and would specify the time period within which a minor's employer must receive a true and accurate photocopy of the trustee's statement. The bill would require the employer of a minor to forward to The Actors' Fund of America the funds set aside for the minor, if the parent, guardian, or trustee fails to provide the photocopy, as specified. The bill would also specify the rights and duties of The Actors' Fund of America in this regard, including the right to collect management, administrative, and investment expenses, and would exempt funds received by The Actors' Fund of America under the bill from the application of the Unclaimed Property Law, and provide for the dispersal of those

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

funds to a beneficiary who has attained 18 years of age or who has been emancipated, or to the estate of a deceased beneficiary. The bill would provide that the trust account established for the minor pursuant to these provisions would be known as a Coogan Trust Account. The bill would make corresponding changes, and condition the issuance of certain work permits for a minor in the entertainment industry upon the establishment of a Coogan Trust Account, as specified.

(2) Existing law requires the written consent of the Labor Commissioner for the employment of minors under 16 years of age in artistic employment, as specified.

This bill would limit the period during which that consent is valid to 6 months or 10 business days, as specified, for the employment of certain minors in the entertainment industry.

Ch. 668 (SB 352) Escutia. Schoolsites: sources of pollution.

Existing law sets forth various requirements regarding the siting, structural integrity, safety, and fitness-for-occupancy of school buildings, including, but not limited to, a prohibition of the approval by the governing board of a school district of the acquisition of a schoolsite by a school district, unless prescribed conditions relating to possible exposure to hazardous substances are satisfied, and a prohibition on the approval of a related environmental impact report or negative declaration.

This bill would, in addition, prohibit the approval by the governing board of a school district of a schoolsite that is within 500 feet from the edge of the closest traffic lane of a freeway or other busy traffic corridor, unless prescribed conditions are met and would make conforming and other technical, nonsubstantive changes.

Existing law requires the lead agency to consult with prescribed agencies to identify facilities that might reasonably be anticipated to emit hazardous materials, within $^1/_4$ of a mile of the schoolsite.

This bill would define "facility" for this purpose and would require the lead agency to consult to identify freeways and other busy traffic corridors, as defined, large agricultural operations, and railyards, within $^1/_4$ of a mile of the schoolsite, and would make conforming and other technical, nonsubstantive changes.

Ch. 669 (SB 507) Escutia. School districts: grant programs. Existing law establishes a 5-year pilot grant program, administered by the State Department of Education, for the purpose of awarding grants to cover the costs of advanced placement examination fees. Existing law authorizes school districts to apply to the department for grant funding under the program based on the number of economically disadvantaged pupils in the district who will take the next offered advanced placement examinations. Existing law repeals those provisions on January 1, 2005.

This bill would delete the January 1, 2005 repeal date, and instead provide that those provisions shall remain in effect only until January 1, 2008.

Ch. 670 (SB 1032) Murray. Motion picture theaters: unauthorized recordings.

(1) Existing law provides that a person admitted to a theater in which a motion picture is to be or is being exhibited who refuses to cease the operation of a video recording device upon the request of the theater owner is guilty of intentionally interfering with and obstructing the operation of a lawful business, a misdemeanor.

This bill would provide, in addition, that every person who operates a recording device in a motion picture theater while a motion picture is being exhibited, for the purpose of recording a theatrical motion picture and without the express written authority of the owner of the motion picture theater, is guilty of a public offense and shall be punished by imprisonment in a county jail not exceeding one year, by a fine not exceeding $2,500, or by both that fine and imprisonment. By creating a new crime, this bill would impose a state-mandated local program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 671 (AB 76) Corbett. Employment discrimination.

Existing law makes it an unlawful employment practice for a person, other than a religious association or corporation not organized for private profit, regularly employing one or more persons or regularly receiving the services of one or more persons providing services pursuant to a contract, or any person acting as an agent of such an employer, directly or indirectly, who knows or should have known of harassment of an employee, an applicant, or a person providing services pursuant to a contract, by an employee, to fail to take immediate and appropriate corrective action and to take all reasonable steps to prevent harassment based upon specified categories from occurring.

Existing law further provides that, without express restriction as to the source of the discrimination or harassment, it is an unlawful employment practice for an employer of 5 or more persons to fail to take all reasonable steps necessary to prevent discrimination and harassment from occurring.

This bill would revise the provision summarized in the first paragraph above to include sexual harassment by nonemployees if the employer knows or should have known of the incident and fails to take corrective action.

The bill would state the Legislature's intent to construe and clarify existing law and reject the interpretation given to existing law by the appellate court in Salazar v. Diversified Paratransit, Inc., a case currently being reviewed by the California Supreme Court.

Ch. 672 (AB 1528) Cohn. California Health Care Quality Improvement and Cost Containment Commission.

Existing law provides health care coverage programs to segments of the population meeting specified criteria who are otherwise unable to obtain health care coverage.

This bill would state the intent of the Legislature to make available valid performance information to encourage hospitals and physicians to provide care that is safe, medically effective, patient-centered, timely, efficient, and equitable. The bill would require the Governor to convene the California Health Care Quality Improvement and Cost Containment Commission and would specify the composition of the commission. The bill would require the commission to examine and address specified health care issues. The bill would require the commission to issue a report to the Legislature and the Governor, on or before January 1, 2005, making recommendations for health care cost containment.

Ch. 673 (SB 2) Burton. Health care coverage.

Existing law does not provide a system of health care coverage for all California residents and does not require employers to provide health care coverage for employees and dependents, other than coverage provided as part of the workers' compensation system for work-related employee injuries. Existing law provides for the creation of various programs to provide health care services to persons who have limited incomes and meet various eligibility requirements. These programs include the Healthy Families Program administered by the Managed Risk Medical Insurance Board, and the Medi-Cal program administered by the State Department of Health Services. Existing law provides for the regulation of health care service plans by the Department of Managed Health Care and health insurers by the Department of Insurance.

This bill would create the State Health Purchasing Program, which would be administered by the Managed Risk Medical Insurance Board. The bill would require specified health benefits to be provided directly by employers or through the program. The bill would require the board to arrange health plan coverage for certain employers, who would be required to

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

pay a fee for employee health coverage, except that employers who provide health care coverage directly would receive a credit against the fee. The bill would require employees and dependents of large employers to be covered beginning January 1, 2006, while it would require employees of medium employers to be covered beginning January 1, 2007, subject to certain conditions. Small employers would be exempt from the requirement to provide coverage and from the fee. The bill would require the board to determine the fee to be paid by employers, and would provide that the associated employee contributions, which employers would be required to collect from employees, may not exceed 20% of the employer fee. The fees, including the employee contributions, would be collected by the Employment Development Department and would be deposited in the newly created State Health Purchasing Fund. The moneys in the fund would be continuously appropriated to the board for the purposes of the program. The bill would authorize the board to coordinate coverage under the program with coverage available under the Medi-Cal program, the Healthy Families Program, and other public programs, and would impose various requirements on the board and the State Department of Health Services in that regard. The bill would authorize a loan from the General Fund to the board for startup costs related to the State Health Purchasing Program, subject to appropriation by the Legislature. The bill would enact other related provisions.

Existing law requires health care service plans and health insurers to comply with various requirements relating to health care coverage for small employers. A willful violation of provisions governing health care service plans is a crime.

This bill would extend the application of these requirements to health care coverage provided directly by employers under the bill, and would impose various other requirements. Because a willful violation of these provisions by health care service plans would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would provide that it shall not become operative unless AB 1528 is also enacted and becomes operative.

Ch. 674 (SB 156) Burton. Custody: residence of the child.

Existing law provides that a parent entitled to the custody of a child has a right to change the residence of the child, subject to the power of the court to restrain a removal that would prejudice the rights or welfare of the child. Existing law, as established in In re Marriage of Burgess (1996) 13 Cal.4th 25, provides that when a judicial custody order is in place, a custodial parent seeking to relocate bears no burden of establishing that it is necessary to do so.

This bill would state the intent of the Legislature to affirm the decision in the case described above and to declare that ruling to be the public policy and law of this state.

Ch. 675 (AB 66) Leslie. Riparian habitat: Adopt-A-Riverway Program.

Under existing law, the Department of Transportation controls state highways and associated properties, counties are responsible for county highways, and cities are responsible for city streets. Existing law authorizes the Department of Transportation to enter into an agreement to accept funds, materials, equipment, or services from any person for maintenance or roadside enhancement of a section of a state highway. The Director of Transportation is authorized to recognize the sponsoring person with the erection of a courtesy sign on the highway. Existing law further authorizes the department to issue encroachment permits. Pursuant to this authority, the department operates a government-volunteer partnership Adopt-A-Highway Program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law designates the Department of Food and Agriculture as the lead department in noxious weed management. Existing law creates the Noxious Weed Management Account in the Department of Food and Agriculture Fund, for use by the Secretary of Food and Agriculture for the purpose of managing and eradicating noxious weeds through local weed management areas implementing integrated weed management plans, as defined.

This bill would authorize the Department of Food and Agriculture to accept funds or services from any person, as defined, for maintenance or enhancement of a section of a state riverway, as defined, for purposes of operating a government-volunteer partnership Adopt-A-Riverway Program. Participation in the program would include management of noxious and invasive weeds, as defined. Authorized program activities include planting and establishing native seedling trees, shrubs, native grasses, and wildflowers, and removing litter and weeds, consistent with an integrated weed management plan. The bill would establish an Adopt-A-Riverway Fund for proceeds donated, appropriated, transferred, or otherwise received for the purpose pertaining to the Adopt-A-Riverway Program. Upon receipt of donations to the fund totaling a minimum of $100,000, up to 5% of any individual donation of $5,000 or more may be used for courtesy signs recognizing the donor. This bill would provide that all startup costs incurred by the state in establishing the program would be reimbursed by the fund before any money in the fund may be expended for program purposes.

This bill would authorize local authorities, with respect to highways under their jurisdictions, to place and maintain courtesy signs recognizing sponsors of the Adopt-A-Riverway Program. The bill would authorize the Department of Food and Agriculture to award courtesy signs to persons donating a minimum of $5,000 annually to the Adopt-A-Riverway Fund and to enter into an agreement with a local authority for production, placement, and maintenance of courtesy signs.

Ch. 676 (AB 390) Montanez. Health facilities: backup generators.

(1) Existing law designates air pollution control districts and air quality management districts as having the primary responsibility for the control of air pollution from all sources other than vehicular sources and, subject to the powers and duties of the State Air Resources Board, requires that districts adopt and enforce rules and regulations to achieve and maintain the state and federal ambient air quality standards in all areas affected by emission sources under their jurisdiction. Existing law authorizes each district to establish a permit system that requires, except as specified, that before any person builds, erects, alters, replaces, operates, or uses any article, machine, equipment, or other contrivance that may cause the issuance of air contaminants, the person obtain a permit from the air pollution control officer of the district.

Under existing law, the State Department of Health Services regulates health facilities.

This bill would require a health facility, as defined, to test its diesel-powered backup generator as prescribed, and would require a diesel backup generator to be started once per week when it is not being tested. This bill would require a health facility to submit this data to the department upon the department's request.

This bill would repeal those provisions as of January 1, 2009.

Because violation of the requirements of this bill would be a crime under provisions of existing law, this bill would impose a state-mandated local program by changing the definition of a crime.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 677 (AB 413) Goldberg. Property transactions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law authorizes the Department of Parks and Recreation to lease, for use, all or any portion of any parcel of real property acquired for the state park system, if the director makes specified findings, and the rent is based on the fair market value of the property when used for the purpose for which it is leased. Existing law prohibits the term of a lease from exceeding a period of 10 years, unless the Legislature has reviewed and approved the proposed lease as part of the annual budget process, or the Public Works Board has determined that the proposed lease could not have been presented to the Legislature for review and approval, as provided.

This bill would, notwithstanding those provisions, authorize the Department of Parks and Recreation to lease 20 acres at a site commonly known as Taylor Yard to the City of Los Angeles for a period not to exceed 25 years without monetary consideration for use of the property for the development and operation of a local park with regional benefits, as specified. The bill would require the Public Works Board to review and approve the lease. The bill would require that the lease and any extension of the lease require the city to comply with applicable stormwater waste discharge requirements issued by the Los Angeles Regional Water Quality Control Board and the State Water Resources Control Board. The bill would prohibit the City of Los Angeles from using the lease as a match when applying for grant funds, as specified.

Ch. 678 (AB 453) Yee. Public works contracts: compensation of contractors.

Existing law sets forth the procedures governing the bidding, awarding, and payment of public works contracts by public entities, and the relief due bidders and contractors under those contracts.

This bill would provide that when a project for the construction, alteration, repair, or improvement of any structure, building, or road, or other improvement of any kind is competitively bid and any intended or actual award of the contract is challenged, the contract may be entered into pending final decision on the challenge. If the contract is later determined to be invalid due to a defect or defects in the competitive bidding process caused solely by the public entity, this bill would entitle the contractor who entered into the contract with the public entity to be paid the reasonable cost, specifically excluding profit, of the labor, equipment, materials, and services furnished by the contractor prior to the date of the determination, subject to specified conditions.

Ch. 679 (AB 455) Chu. Packaging materials: regulated metals.

(1) Existing hazardous waste control laws regulate the disposal of discarded appliances, lead acid batteries, small household batteries, recyclable latex paint, and household hazardous waste. Existing law prohibits any person from managing any hazardous waste, except as provided in the hazardous waste control laws and regulations. A violation of the hazardous waste control laws is a crime.

This bill would enact the ''Toxics in Packaging Prevention Act,'' and would define terms. The act would prohibit, on and after January 1, 2006, a manufacturer, importer, agent, or supplier, as defined, from offering for sale or for promotional purposes in this state a package or packaging component that includes a regulated metal, defined as lead, cadmium, mercury, or hexavalent chromium, if that regulated metal has been intentionally introduced into the package or packaging component during manufacturing or distribution, as defined. The act would also prohibit, on and after January 1, 2006, a person, as defined, from offering for sale or for promotional purposes in this state a product in a package that includes those intentionally introduced regulated metals. The bill would prohibit, on and after January 1, 2006, the sum of the incidental total concentration levels of all regulated metals present in a single-component package or individual packaging component from exceeding 100 parts per million by weight.

The bill would exempt from those requirements a package or a packaging component that meets specified conditions, including, among other things, if the package or packaging

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

component is marked with a code indicating a date of manufacture before January 1, 2006, contains a regulated metal that has been added to comply with health or safety requirements of a state or federal law, or contains a regulated metal for which there is no feasible alternative that may be used in the package or packaging component, as specified. The bill would also provide an exemption process from those requirements for a package or packaging component that has a controlled distribution and reuse, if the manufacturer or distributor submits information to the department that complies with specified requirements, including demonstrating that there is an environmental benefit of the controlled distribution and reuse. The bill would provide that some exemptions expire on January 1, 2010. The bill would require a manufacturer or distributor that requests specified exemptions to enter into a written agreement with the department, pursuant to which the manufacturer or distributor would reimburse the department for costs incurred by the department in processing or responding to the request. The bill would require all reimbursement received by the department to be deposited in the Hazardous Waste Control Account.

The bill would require, on and after January 1, 2006, each manufacturer, importer, agent, or supplier to furnish a certificate of compliance to the purchaser of a package or packaging component stating that the package or packaging component is in compliance with the act. The bill would require a purchaser to retain the certificate of compliance for as long as the package or packaging component is in use by the purchaser. The bill would require the department to provide the public with access to the information relating to a package or packaging component that has been submitted to the department by a manufacturer or supplier.

The bill would authorize the department to submit recommendations to the Governor and the Legislature for additional substances that should be included as regulated metals.

The bill would provide that its provisions are severable and that it shall be liberally construed.

Because a violation of the bill's requirements would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 680 (AB 514) Kehoe. Water meters.

Existing law requires the installation of a water meter as a condition of water service provided pursuant to a connection installed on and after January 1, 1992. Existing law declares that the state goal for measurement of water use is the achievement, on or before January 1, 1992, of the installation of water meters on all new water service connections after that date to systems owned or operated by a water purveyor.

This bill would require certain urban water suppliers that receive water from the federal Central Valley Project under a water service contract or subcontract, on or before January 1, 2013, to install water meters on all service connections to residential and nonagricultural commercial buildings constructed prior to January 1, 1992, that are located in their service area.

The bill would require these urban water suppliers, on and after March 1, 2013, or according to the terms of the Central Valley Project water contract in operation, to charge customers for water based on the actual volume of deliveries, as measured by a water meter. The bill would authorize these urban water suppliers to recover the cost of providing services related to the purchase, installation, and operation and maintenance of water meters from rates, fees, or charges.

Ch. 681 (AB 635) Wiggins. Salmon and steelhead salmon: effect of reduced waterflow.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) Existing law requires the Department of Fish and Game to contract with the University of California to conduct a study on the effects of reduced waterflows in certain rivers on salmon and steelhead populations and restoration or reintroduction programs. Existing law prohibits the State Water Resources Control Board from approving an application to appropriate water from any river subject to the study until the department completes the study if the application involves the delivery of water by means other than a pipeline or aqueduct to a place outside a certain protected area.

This bill, for the purposes of the study, would require the department to select rivers that, among other things, are subject to an application to appropriate water involving the delivery of water by means other than a pipeline, natural watercourse, well, or aqueduct to a place of use that is outside that described protected area. The bill would prohibit the board from approving an application to appropriate water, as described, until the study has been completed.

(2) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department to pay all necessary expenses incurred in carrying out the Fish and Game Code.

By imposing duties on the department, this bill would make an appropriation.

Ch. 682 (AB 820) Nakanishi. National Health Service Corps State Loan Repayment Program.

Existing federal and state law contain programs that authorize loan forgiveness to physicians and surgeons, dentists, and individuals enrolled in a postsecondary institution studying medicine or dentistry who agree to practice in medically or dentally underserved areas. Pursuant to existing federal law, one of these programs is the National Health Service Corps State Loan Repayment Program, which is administered at the state level by the Office of Statewide Health Planning and Development.

This bill would require the office, in administering the program, to strive, whenever feasible, to equitably distribute loan repayment awards between urban and rural program sites, after taking into account the availability of health care services in the communities to be served and the number of individuals to be served in each program site. This bill would also require the office to set a reasonable deadline for when all applications are required to be received, and to consider all eligible applications before awarding any grant.

Ch. 683 (AB 897) Jackson. Water quality.

(1) Existing law prohibits any person from initiating a discharge or making a material change in a discharge of waste after filing a waste discharge report and prior to the issuance of waste discharge requirements or, under certain circumstances, the expiration of 120 days after compliance with certain requirements relating to the filing of that report, whichever is earlier. Under the act, any person discharging hazardous waste in violation of these provisions is guilty of a misdemeanor and may be liable civilly in an amount that does not exceed $5,000 for each day in which the violation occurs.

This bill would change that time period to 140 days and would make the requirement relating to the expiration of that time period applicable only to the discharge of waste that does not create, or threaten to create, a condition of pollution or nuisance. Because, under certain circumstances, a violation of this requirement would be a crime, the bill would impose a state-mandated local program by creating a new crime. The bill would require any moneys collected from the imposition of penalties for a violation of this requirement to be deposited in the Waste Discharge Permit Fund, for expenditure by the state board, upon appropriation by the Legislature, to assist the regional boards, and certain other public agencies, in carrying out certain duties relating to water quality.

(2) Existing law declares that a person failing or refusing to furnish certain technical or monitoring reports or a statement of compliance, or falsifying information set forth in those

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

reports or that statement, is guilty of a misdemeanor and may be civilly liable in accordance with certain provisions of law.

This bill, in addition, would require a person who knowingly commits these violations to be punished by a fine that does not exceed $25,000, and after a prior conviction, to be punished by a fine that does not exceed $25,000 for each day of the violation. The bill would require the funds collected from the imposition of these fines to be deposited in the Waste Discharge Permit Fund for expenditure by the state board, upon appropriation by the Legislature, to assist the regional boards, and certain other public agencies, in carrying out certain duties relating to water quality.

(3) Existing law authorizes the state board, upon notice and a hearing, to stay the effect of the decision and order of a regional board or the state board.

This bill would delete the requirement that a hearing be held for the purposes of granting a stay, but would authorize a hearing to be requested.

(4) Existing law, the Porter-Cologne Water Quality Control Act, with certain exceptions, subjects a person to civil liability if that person intentionally or negligently violates a cease and desist order or cleanup and abatement order, or who, in violation of certain waste discharge requirements, a water quality certification, or an administrative order, intentionally or negligently discharges waste, or causes or permits waste to be deposited where it is discharged, into the waters of the state, and creates a condition of pollution or nuisance.

This bill, subject to those exceptions, would extend that civil liability to a person who violates a cease and desist order or cleanup and abatement order, or who, in violation of certain waste discharge requirements, discharges waste, or causes or permits waste to be deposited where it is discharged, into the waters of the state.

(5) The act, with certain exceptions, subjects a person to civil liability if that person causes or permits any hazardous substance to be discharged in any of the waters of the state where it creates a condition of pollution or nuisance.

This bill, subject to those exceptions, would extend that civil liability to a person who causes or permits any hazardous substance to be discharged in any of the waters of the state.

(6) The bill would require funds generated by the imposition of the liabilities described in (4) and (5) to be deposited in the Waste Discharge Permit Fund for expenditure by the state board, upon appropriation by the Legislature, to assist the regional boards, and certain other public agencies, in carrying out certain duties relating to water quality.

(7) Existing law requires the state board to submit an annual report to the Legislature regarding the imposition of civil liability that has been administratively imposed by the regional boards during the preceding year.

This bill would delete that provision.

(8) Existing law subjects a person who violates waste discharge requirements or a dredged or fill material permit to civil and criminal penalties.

This bill, in addition, would make those civil and criminal penalties applicable to a person who violates a water quality certification issued pursuant to the federal Clean Water Act. The bill would require the funds collected from the imposition of these penalties to be deposited in the Waste Discharge Permit Fund, for expenditure by the state board, upon appropriation by the Legislature, to assist the regional boards, and certain other public agencies, in carrying out certain duties relating to water quality. Because the bill would create a new crime, the bill would impose a state-mandated local program.

(9) Existing law declares that certain provisions that govern the implementation of the federal Clean Water Act by the state and that relate to the discharge of dredged or fill material apply only to discharges for which the state has an approved permit program.

This bill, instead, would declare that those provisions relating to the filing of a report for the discharge of dredged or fill material and the issuance of dredged or fill material permits by the state board or a regional board apply only to discharges for which the state has an approved permit program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 684 (AB 942) Leno. Emergency medical services: diabetes.

Existing law provides that each pupil who is required to take, during the regular schoolday, medication prescribed for him or her by a physician, may be assisted by the school nurse or other designated school personnel if the school district receives a written statement from the physician detailing the method, amount, and time schedules by which the medication is to be taken and a written statement from the parent or guardian of the pupil indicating the desire that the school district assist the pupil in the matters set forth in the physician's statement.

This bill would, in the absence of a credentialed school nurse or other licensed nurse, authorize each school district to provide voluntary emergency medical training to school personnel, as defined, to administer emergency medical assistance to pupils with diabetes suffering from severe hypoglycemia if certain performance standards for training and supervision are developed by the American Diabetes Association in cooperation with several other entities for approval and distribution by the State Department of Health Services' Diabetes Control Program. The bill would permit certain pupils with specified authorization to test their blood glucose level and provide diabetes self-care in any area of the school or school grounds, during any school-related activity, and, upon the request of the pupil's parent or guardian, in a private location.

The bill would declare the Legislature's intent that immunity from civil liability, as specified in existing law, shall apply to activities authorized by the bill's provisions.

Ch. 685 (AB 1085) Committee on Agriculture. Agriculture: pest control: curly top virus.

Existing law provides for a beet leaf hopper control program administered by the Secretary of Food and Agriculture. Existing law requires every producer or producer-handler of certain agricultural crops susceptible to curly top virus to pay to the secretary an assessment on all those crops sold or delivered to a handler, or in the case of a producer-handler, on those crops marketed by the producer-handler.

This bill would require that the secretary determine those crops susceptible to curly top virus for the purposes of this assessment.

Ch. 686 (AB 1090) Longville. South Coast Air Quality Management District: membership.

Existing law sets forth the requirements for membership on the South Coast Air Quality Management District governing board. One of those requirements is that all members shall be residents of the district.

This bill would except from that requirement, until January 1, 2006, the member appointed by the San Bernardino County Board of Supervisors.

Ch. 687 (AB 1130) Diaz. Health care coverage: Children's Health Initiative Matching Fund.

Existing law creates the Children's Health Initiative Matching Fund in the State Treasury, which is administered by the Managed Risk Medical Insurance Board, in collaboration with the State Department of Health Services, for the purpose of providing matching state funds and local funds received by the fund through intergovernmental transfers to a county agency, a local initiative, or a county organized health system to provide health insurance coverage to certain children in low-income households who do not qualify for health care benefits through the Healthy Families Program or Medi-Cal.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would appropriate from the Federal Trust Fund, for the 2002–03 fiscal year, a specified sum to the board that would be available for encumbrance for the purposes of these provisions. The bill would make related changes.

Ch. 688 (AB 1216) Vargas. Fire safety: regulations.

(1) Existing law requires the State Fire Marshal, no later than July 1, 1996, in consultation with the Director of Forestry and Fire Protection, to prepare and adopt a model ordinance that provides for comprehensive space and structure defensibility, including in very high fire hazard severity zones.

This bill instead would require the State Fire Marshal, no later than January 1, 2005, in consultation with the Director of Forestry and Fire Protection and the Director of Housing and Community Development, to recommend building standards that provide for comprehensive space and structure defensibility from fires spreading from adjacent structures or vegetation.

(2) Existing law also requires the State Fire Marshal to propose, and the California Building Standards Commission to adopt, amend, and repeal regulations for openings into the attic areas of buildings in fire hazard severity zones, including very high fire hazard severity zones, as specified.

This bill, instead, would require the State Fire Marshal, in consultation with the Director of Forestry and Fire Protection and the Director of Housing and Community Development, to propose fire protection for roofs, exterior walls, structure projections, and structure openings.

The bill would also define "urban wildland interface community" and would provide that the building standards adopted pursuant to the bill also apply to those areas unless otherwise determined by a local agency following a specified finding supported by substantial evidence.

Ch. 689 (AB 1218) Dutra. Underground storage tanks: claims: performance-based contracts: fire safety agency claims.

(1) Under the existing Barry Keene Underground Storage Tank Cleanup Trust Fund Act of 1989, owners and operators of petroleum underground storage tanks requires every owner of an underground storage tank to pay a storage fee for each gallon of petroleum placed in the tank. The fees are required to be deposited in the Underground Storage Tank Cleanup Fund. The money in the fund may be expended by the State Water Resources Control Board, upon appropriation by the Legislature, for various purposes, including the payment of claims to aid owners and operators of petroleum underground storage tanks who take corrective action to clean up unauthorized releases from those tanks.

This bill would authorize the board to pay a claim to reimburse the cost of a performance-based contract that is approved by the board as being consistent with the requirements of the bill. The bill would require a performance-based contract to include specified terms and would require the board to make payments under a performance-based contract based upon the reduction of designated constituents of concern to specified concentrations.

The bill would require the board to advertise the bidding for a performance-based contract and would require the board to be the receiving address for bids.

(2) The act establishes the Fire Safety Subaccount in the fund and appropriates the moneys in that subaccount for expenditure by the board to pay specified claims filed by a fire safety agency, as defined. The subaccount is repealed on January 1, 2006, and any funds remaining therein are required to be transferred to the fund.

Existing law requires an appropriation to be available for encumbrance for 3 years after the date on which it first becomes available for encumbrance.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would require funds appropriated for expenditure from the subaccount to be eligible for encumbrance until June 30, 2004, thereby making an appropriation, and would require those encumbered funds to be liquidated no later than December 31, 2005.

Ch. 690 (AB 1248) Aghazarian. Waste discharge requirements.

Existing law, the Porter-Cologne Water Quality Control Act, requires the State Water Resources Control Board and the California regional water quality control boards to carry out various duties relating to water quality, including the issuance of waste discharge requirements, water reclamation requirements, and related orders.

This bill would require the state board or the regional board, as appropriate, to provide notice and a period of at least 30 days for public comment prior to adopting waste discharge requirements, water reclamation requirements, or those related orders.

Ch. 691 (AB 1326) Simitian. Child care subsidies: County of San Mateo: pilot project.

Existing law requires the Superintendent of Public Instruction to adopt rules and regulations on eligibility, enrollment, and priority of services for federal and state subsidized child care programs.

This bill would authorize the County of San Mateo, as a pilot project, to develop and implement an individualized county child care subsidy plan. The bill would require the plan to ensure that child care subsidies received by the county are used to address local needs, conditions, and priorities of working families in the community. The bill would require the County of San Mateo, prior to implementing the plan, to develop a plan with specified elements, including development of local policies that may, except as specified, supersede existing law with regard to eligibility requirements, fees, reimbursement rates, and methods of maximizing use of funds. The bill would require the plan to be approved by the local child care planning council and the Child Development Division of the State Department of Education, as provided. The bill would require the Legislative Analyst and the Senate Office of Research to review the data contained in the child care subsidy plan before the plan is submitted to the local child care planning council for approval. The bill would require the County of San Mateo to submit annual reports to the Legislature, the State Department of Social Services, and the State Department of Education that summarize the success of the plan and to submit a final report to those entities on or before December 31, 2008.

This bill would authorize the County of San Mateo to implement the plan until January 1, 2009, as specified. The bill would provide for the repeal of its provisions on January 1, 2011. The bill would provide that a child who enrolls in subsidized child care in the County of San Mateo after January 1, 2009, may not be enrolled in the pilot program and is subject to existing state laws and regulations regarding child care subsidies.

Ch. 692 (AB 1340) Kehoe. Petroleum: information reports.

Existing law establishes the State Energy Resources Conservation and Development Commission in the Resources Agency, and specifies the powers and duties of the commission with respect to energy resources in the state. The existing Petroleum Industry Information Reporting Act of 1980 requires major oil producers, refiners, major marketers, major oil transporters, and major oil storers to supply to the commission monthly or annually, as specified, certain designated information regarding petroleum, as specified. Existing law permits any person required to submit this information to request that specific information be held in confidence. Existing law also permits the commission to request additional information as necessary to perform its responsibilities under the act.

This bill would require an oil refiner, oil producer, petroleum product transporter, petroleum product marketer, petroleum product pipeline operator, and terminal operator, as designated by the commission, to submit a report each week providing information, as required by the energy commission. The bill would provide that the report may include

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

information relating to receipts, inventory levels, imports, exports, transportation, sources, and prices. The bill would also permit any person required to submit this information to request that specific information be held in confidence. The bill would provide that it is intended to clarify the commission's existing authority under the act to collect additional information, and does not preclude or augment that existing authority.

This bill would provide that information requested to be held in confidence shall be presumed to be confidential.

Ch. 693 (AB 1405) Wolk. California Watershed Protection and Restoration Act.

Existing law provides for a watershed protection program, and provides funds to assist in implementing watershed plans to reduce flooding, control erosion, improve water quality, and improve aquatic and terrestrial species habitats, to restore natural systems of groundwater recharge, native vegetation, waterflows, and riparian zones, to restore the beneficial uses of waters of the state in watersheds, and to provide matching funds for federal grant programs.

This bill would enact the California Watershed Protection and Restoration Act. The act would declare that the Legislature encourages the California Environmental Protection Agency and the Resources Agency to provide assistance and grants under the act to those who choose to participate in watershed restoration and enhancement. The act would make certain declarations regarding voluntary, local, and collaborative watershed partnerships. The bill would require state agencies that adopt guidelines for use by local watershed partnerships to provide specified mechanisms and would authorize state agencies with jurisdiction over watershed planning and protection to provide technical assistance to watershed management partnerships, to the extent that funds are available.

Ch. 694 (AB 1492) Laird. Agricultural land conservation.

The Williamson Act, until January 1, 2004, in order to facilitate a lot line adjustment, authorizes parties to mutually agree to rescind a land conservation contract or contracts and simultaneously enter into a new contract or contracts covering the adjustment if the board of supervisors or city council makes specified findings.

This bill would extend that authorization to January 1, 2009.

Existing law authorizes the cancellation of an agricultural land conservation contract upon request of the landowner if the board of supervisors or city council makes specified findings and upon the payment of a cancellation fee. Existing law also provides principles of compatibility by which a board or council may approve compatible uses on contracted lands.

This bill would provide, with certain exceptions, that any commercial, industrial, or residential building constructed on a parcel subject to an agricultural land conservation contract that is not permitted by the contract or by local uniform rules or ordinances and is not related to an agricultural use or compatible use is a material breach of contract. This bill would require the Department of Conservation to notify the city or county administering the contract of a possible breach. The bill would require the city or county upon notification by the department, or upon its discovery of a possible breach, to determine the validity of the contract and whether the breach is material. The bill would require the city or county to notify the landowner and the department of its determination. The bill would permit the landowner to eliminate the conditions that resulted in the material breach. If the condition is not eliminated the city or county shall schedule the hearing and give notice of the hearing to the landowner and the department. The bill would require the city or county, upon its determination, after a public hearing, that a material breach exists, to order the landowner to eliminate the condition that resulted in the material breach or to assess a monetary penalty and to cause to be recorded a certificate of contract termination by breach. The bill would also require the recording of a lien against the property, based on the value of the construction or improvements, that would be payable to the county treasurer. By imposing these duties on local government officers this bill would create a state-mandated local program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 695 (AB 1545) Simitian. Environmental quality: public comments.

The existing California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect.

CEQA requires a draft EIR, EIR, or negative declaration to be prepared directly by, or under contract to, a public agency, and requires the lead agency that is preparing an EIR to provide public notice of that fact, specifying the period during which comments will be received on the draft EIR and the date, time, and place of any public meetings or hearings on the proposed project. CEQA authorizes information or other comments to be submitted in any format and requires the public agency to consider them if they are received within the public review period.

This bill would require the lead agency, with respect to the consideration of comments received on a draft EIR, proposed negative declaration, proposed mitigated negative declaration, or specified notice, to accept comments via e-mail and treat e-mail comments as equivalent to written comments. The bill would require any law or regulation relating to those written comments to also apply to e-mail comments received for those purposes. The bill would, if the agency offers to provide the notices by e-mail, authorize a person, upon filing a written request for notices, to request that the notices be provided to him or her by e-mail.

Ch. 696 (AB 1640) Laird. Hazardous materials: enforcement.

(1) Existing law requires the Secretary for Environmental Protection to adopt regulations and implement a unified hazardous waste and hazardous materials management regulatory program. Existing law authorizes a city or local agency that meets specified requirements to apply to the secretary to implement the unified program, and requires every county to apply to the secretary to be certified to implement the unified program. Existing law requires a unified program agency to develop and implement a procedure for issuing, to a unified program facility, a unified program facility permit, which encompasses specified permitting requirements. Existing law authorizes a unified program agency, if it determines that a person has committed, or is committing, a violation of any requirement that the UPA is authorized to enforce or implement pursuant to the unified program, to issue an administrative enforcement order requiring that the violation be corrected and imposing an administrative penalty. Existing law provides that an order issued by the unified program agency setting a penalty pursuant to the hearing by the unified program agency is final upon issuance.

This bill would authorize a unified program agency to suspend or revoke any unified program facility permit or element of a unified program facility permit for not paying the permit fee or a fine or penalty associated with the permit pursuant to a specified procedure.

The bill would authorize a unified program agency to apply to the clerk of the appropriate court for a judgment to collect an administrative penalty for an administrative order or decision that has become final and would require the court clerk to enter the judgment immediately in conformity with the application.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Since the bill would impose new duties upon unified program agencies with regard to the enforcement of the unified program, the bill would create a state-mandated local program.

(2) Existing law prohibits the secretary from certifying an applicant agency as a unified program agency that proposes to allow a participating agency to implement an element of the unified program unless the secretary makes specified findings, including, if any agency proposed to implement certain elements of the unified program is not directly responsible to the same governing body as the applicant agency, the applicant agency maintains an agreement that ensures that the unified program requirements will be fully implemented.

This bill would instead require the secretary to find, in certifying such an applicant agency, that all other agencies proposing to implement those elements maintain an agreement with the applicant agency.

(3) Existing law requires businesses that handle hazardous materials to prepare a business plan and submit an annual inventory form to the administering agency. The term "business" is defined as including the federal government, as specified, or any agency, department, office, board, commission, or bureau of state government, including, but not limited to, the campuses of the California Community Colleges, the California State University, and the University of California.

This bill would include, as a business for purposes of these requirements, any agency, department, office, board, commission, or bureau of a city, county or district.

(4) Existing law provides for the imposition of civil penalties upon stationary sources with regard to the program to prevent accidental releases of regulated substances and imposes a criminal penalty upon a stationary source that knowingly violates those requirements.

This bill would define the term "person" for purposes of the provisions regulating accidental releases and would authorize the imposition of civil and criminal liability upon a person who violates those provisions. Since the bill would create a new crime, the bill would impose a state-mandated local program.

(5) The bill would incorporate changes to Section 25404 of the Health and Safety Code proposed by both this bill and AB 826, which would become operative only if both bills are enacted and become effective on or before January 1, 2004, and this bill is enacted after AB 826.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 697 (AB 1741) Committee on Revenue and Taxation. Taxation: deficiencies, refunds, and interest.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. The State Board of Equalization administers the application of, and the collection of, the taxes imposed by that law. Existing law provides for an 8-year statute of limitations for the collection of use taxes that are not reported under that law. Existing law provides for a 3-year statute of limitations in the case of an unregistered out-of-state retailer that voluntarily registers with the State Board of Equalization, if a determination is made that the failure to report and pay the tax was due to reasonable cause.

This bill would, until January 1, 2006, in the case of a qualified purchaser, limit the statute of limitations to 3 years for the collection of unreported use taxes on specified purchases, if a determination is made that the failure to report and pay the tax was due to reasonable cause. This bill would also require the State Board of Equalization to submit a report to the Legislature before January 1, 2005, regarding the use, impact, and viability of these provisions.

The Motor Vehicle Fuel License Tax Law provides for certain refunds upon submission of original purchase invoices to the Controller.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would allow the submission of other evidence of each purchase that is satisfactory to the Controller, and require the claimant to maintain that evidence for 4 years after the issuance of a refund. This bill would also make conforming changes by deleting references to the acceptance of electronic invoicing in situations where no original invoice was created.

Existing law prohibits the imposition of any tax on, or by reason of, any transfer occurring by reason of death, but imposes a California estate tax equal to a certain portion of the maximum allowable amount of credit for state death taxes allowable under the applicable federal estate tax law. Existing law also specifies the applicable interest payable on delinquent amounts or overpayments of tax.

This bill would provide that interest is allowed from the date on which payment would have become delinquent, if not paid, or the date of actual payment, whichever is later in time, to the date preceding the date of the refund warrant by not more than 30 days, as determined by the Controller.

Ch. 698 (AB 1771) Committee on Water, Parks and Wildlife. State government.

Under existing law, appropriations for the support of various state programs are made through the annual Budget Act, subject to certain restrictions.

This bill would provide that the provisions of a specified section of the Budget Act of 2002 that apply to the items of the Budget Act that are augmented by appropriations made pursuant to specified provisions of law relating to public resources, are also applicable to those augmentations.

Ch. 699 (SB 41) Bowen. Public contracts: services.

(1) Existing law requires that every contractor who enters into a contract with the state or the University of California for $10,000 or more be assigned an identification number by the Department of General Services or the university, and requires that if the contractor is a corporation or firm, the president's assigned number be used exclusively on each contract.

This bill would require each university campus to assign the identification numbers to contractors with whom the campus contracts, instead of all campuses using numbers assigned by the Regents of the University of California, provided that the regents are able to track all identification numbers centrally.

(2) Existing law requires that state or local government selection for the professional services of private architectural, landscape architectural, engineering, environmental, land surveying, or construction project management firms be on the basis of demonstrated competence and professional qualifications, rather than competitive bidding, and imposes requirements for the implementation of this method of selection.

This bill would subject the University of California's selection for the professional services of any of those firms, including real property development services firms, as defined, to the same requirements.

(3) Existing law prohibits persons, firms, or their subsidiaries who are awarded state contracts for consulting services from submitting a bid or being awarded a contract on or after January 1, 2003, for any action related to the end product of the consulting services contract.

This bill would change that date to July 1, 2003. This bill would also specify that those provisions do not apply to consulting services contracts that comply with the requirements for the selection of professional services firms, as provided.

(4) Existing law includes various prohibitions with respect to conflicts of interest of persons who are awarded state contracts or contracts with the University of California, or officers or employees of the state or the university who are contracting with the state or university either directly or through other entities.

This bill would additionally require the California State University to comply with those prohibitions.

Ch. 700 (SB 3) Burton. Death penalty: mental retardation.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law, added by an initiative statute, provides that the penalty for a defendant who is found guilty of murder in the first degree, where special circumstances exist, is death or imprisonment in the state prison for life. In determining the penalty to be imposed, the trier of fact is required to take into account whether, as a result of mental defect, the defendant had the capability to appreciate the criminality of his or her conduct or to conform that conduct to the requirements of the law, if this is relevant. A recent decision of the United States Supreme Court has held that the imposition of the death penalty on a mentally retarded person is prohibited by the United States Constitution.

This bill would define the term "mentally retarded" and would provide that a defendant in any case in which the prosecution seeks the death penalty may apply for an order directing that a mental retardation hearing be held. This bill would require a court to order a hearing to determine whether a defendant is mentally retarded upon submission of a declaration by a qualified expert opining that the defendant is mentally retarded. It would further require the court, at the request of the defendant, to conduct the hearing without a jury prior to the commencement of the trial, or if the defendant does not request a court hearing, to order a jury hearing to take place at the conclusion of the trial. The bill would specify that the defendant shall present his or her evidence of mental retardation, followed by the prosecution's evidence and any rebuttal evidence, with each party permitted to reopen only as provided. This bill would provide for other specified procedures, and would provide that the defense shall have the burden of proving by a preponderance of the evidence that the defendant is mentally retarded. It would provide that the penalty for a mentally retarded defendant found guilty of murder in the first degree where special circumstances which would otherwise make him or her eligible for imposition of the death penalty have been found, shall be confinement in the state prison for life without possibility of parole. This bill would also provide that if, after a mental retardation hearing, the court or jury finds that the defendant is not mentally retarded, the criminal trial shall proceed as in any other case in which a sentence of death is sought by the prosecution, and the criminal jury shall not be informed of the prior proceedings or the findings concerning the defendant's claim of mental retardation. Because this bill would place additional duties on prosecutors, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 701 (SB 155) Scott. Public officers: conflict of interest.

Existing law prohibits certain public officials and employees from being financially interested in any contract made by them in their official capacity or by any body or board of which they are members. An officer is not deemed to be interested in a contract entered into by a body or board of which the officer is a member if the member has only a remote interest in the contract and other requirements are met. A remote interest is required to be publicly disclosed and thereafter the public body may authorize, approve, or ratify the contract in question, but the officer is disqualified from voting.

Existing law defines a remote interest for these purposes as including, among others, an interest of an employee or agent of the contracting party, subject to specified conditions.

This bill would specify that a remote interest under these provisions includes that of a person owning less than 3% of the shares of a contracting party that is a for-profit corporation, provided that the ownership of the shares derived from the person's employment with that corporation.

Ch. 702 (SB 157) Bowen. Sales and use taxes: uniformity.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. Under

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

the Bradley-Burns Uniform Local Sales and Use Tax Law, counties and cities are authorized to impose local sales and use taxes in conformity with state sales and use taxes.

This bill would enact the Streamlined Sales Tax Project. The bill would direct the board, as defined in this bill, or the board's designee, to represent this state in all meetings with certain other states regarding the development of a multistate, voluntary, streamlined system for sales and use tax collection and administration, as discussed in the Streamlined Sales and Use Tax Agreement adopted on January 27, 2001. This bill would also authorize the board to vote on behalf of this state and to represent the position of this state in all matters relating to the adoption of the agreement or amendments to the agreement. This bill would require the board to report quarterly to the Assembly and Senate Revenue and Taxation Committees on the progress in negotiating the agreement. This bill would prohibit the board or the board's designee from entering into the Streamlined Sales and Use Tax Agreement, unless the agreement requires that each state abide by the particular requirements, as specified in this bill.

Ch. 703 (SB 248) Murray. Vehicles: New Motor Vehicle Board: recreational vehicles.

(1) Existing law defines a ''new motor vehicle dealer'' as a dealer who, among other matters, acquires for resale new and unregistered motor vehicles from manufacturers or distributors of those vehicles. Existing law establishes a New Motor Vehicle Board that regulates the activities or practices of a new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative, as specified.

This bill would include a recreational vehicle, as defined, as a motor vehicle for the purposes of this definition and for the purposes of the operation of the board and related statutes, except for truck campers and park trailers. The bill would establish separate provisions regulating the terms and enforcement of recreational vehicle franchise agreements and would require the department to impose a one-time additional license or renewal fee on those dealers who are subject to those provisions to cover the costs of implementation or $350,000, whichever amount is less.

The bill would require the board to recommend to a member of the public that he or she consult with the Department of Consumer Affairs regarding certain complaints, and would specify that a person's right to maintain an action regarding a transaction involving a recreational vehicle under any other provision of law is not affected by the provisions of this bill.

(2) Existing law requires 4 of the appointive members of the board to be new motor vehicle dealers, as defined.

This bill would exclude dealers who deal exclusively in recreational vehicles, as defined, from those membership provisions of the board.

(3) This bill incorporates additional changes to Section 3066 of the Vehicle Code proposed by AB 1718 and SB 298 to become operative only if AB 1718 or SB 298, or both AB 1718 and SB 298, and this bill are chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 704 (SB 295) Vasconcellos. California Marijuana Research Program.

Existing law authorizes the creation by the University of California of a 3-year program, the California Marijuana Research Program, the purpose of which is to develop and conduct studies intended to ascertain the general medical safety and efficacy of marijuana, and if found valuable, to develop medical guidelines for the appropriate administration and use of marijuana. Existing law provides for the implementation of these provisions only to the extent that funding for its purpose is appropriated by the Legislature in the annual Budget Act.

This bill would eliminate the program's 3-year duration limit.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 705 (SB 416) Alpert. Vehicles: driving under the influence: license restriction.

Existing law requires the court to impose as one of the conditions of probation for a second conviction of a violation of a specified provision prohibiting driving under the influence (DUI) that the person have the privilege to operate a vehicle suspended until the person meets certain conditions. However, the person may be granted a restriction instead of the suspension under certain conditions.

This bill would require the Department of Motor Vehicles to grant a driver's license restriction instead of suspension to a person who (1) has been convicted of a second violation of the specified DUI provision that occurred on or before July 1, 1999; (2) was granted probation under a specified provision for that conviction; (3) is no longer subject to that probation; (4) has not completed the licensed driving-under-the-influence program requirements in existing law for reinstatement of the driving privilege; and (5) has no violations in his or her driving record that would preclude issuance of a restricted driver's license.

Ch. 706 (SB 443) Figueroa. Contracting without a license: repeat offenders.

Existing law, the Contractors' State License Law, creates the Contractors' State License Board within the Department of Consumer Affairs and provides for the licensure and regulation of contractors. Existing law makes it a misdemeanor for any person to engage in the business or act in the capacity of a contractor without having a license. Existing law requires the court, in the instance of a repeat offender, to impose a specified fine or to imprison the repeat offender in the county jail for not less than 10 days nor more than 6 months, or both.

This bill would instead require, except in unusual cases, that a repeat offender be confined in the county jail for not less than 90 days. The bill would require the court to state on the record its reasons if the court imposed a jail sentence of less than 90 days or only a fine.

Because the bill would change the existing misdemeanor penalty concerning repeat offender violations, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 707 (SB 476) Florez. Emergency medical services.

Existing law authorizes each county to establish an emergency medical services fund, and makes money in the fund available for the reimbursement of physicians and surgeons and hospitals for losses incurred in the provision of emergency medical services when payment is not otherwise made for those services.

This bill would authorize each administering agency to maintain a reserve in specified portions of its emergency medical services fund, and would revise the formula for distribution of the moneys in the fund.

Existing law requires each county establishing an emergency medical services fund to report to the Legislature on each January 1.

This bill would instead require each county to report to the Legislature on each April 15.

Existing law provides that no physician and surgeon shall be reimbursed in an amount greater than 50% of those losses.

This bill would additionally authorize the reimbursement of funds remaining at the end of the fiscal year in excess of the specified reserve in the portion of the fund reimbursable to physicians and surgeons, under specified circumstances.

Existing law requires each agency administering an emergency medical services fund to select an administering officer, and specifies the duties of that officer.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require the administering officer to solicit input from physicians and surgeons and hospitals to review payment distribution methodologies to ensure fair and timely payments.

Ch. 708 (SB 549) Vasconcellos. Inmates: skilled nursing facilities: geriatric facilities.

Existing law generally regulates the incarceration of inmates. Existing law authorizes the Director of Corrections to contract for the establishment and operation of community correctional facilities that offer programs for the treatment of addiction to alcohol or controlled substances.

This bill would authorize the Department of Corrections to contract with public or private entities for the establishment and operation of skilled nursing facilities for the incarceration and care of geriatric inmates and inmates with disabilities who are in need of skilled nursing services. This bill would provide that the Department of Corrections ombudsman program would provide services to prisoner residents of these facilities. The bill would also state findings and declarations of the Legislature related to geriatric inmates.

Ch. 709 (SB 566) Scott. Transactions and use tax: maximum allowable rate.

Existing law authorizes various local governmental entities, subject to certain limitations and approval requirements, to levy transactions and use taxes in accordance with the procedures and requirements set forth in the Transactions and Use Tax Law.

Existing law provides that the combined rate of all transactions and use taxes imposed in accordance with that law, in any county, may not exceed 1.5%, except in the County of San Mateo and the City and County of San Francisco.

This bill would authorize any city to levy, increase, or extend a transactions and use tax in accordance with the Transactions and Use Tax Law. This bill would provide that the combined rate of transactions and use taxes in any county may not exceed 2%. This bill would make conforming changes to related provisions.

Ch. 710 (SB 570) Chesbro. Local government.

(1) Existing law authorizes the boards of supervisors of specified counties to provide, by ordinance, that the public administrator be appointed by the board, and authorizes the boards of supervisors of certain counties to appoint the same person to the offices of public administrator, veteran service officer, and public guardian. The boards of supervisors of certain counties are authorized to separate the consolidated offices of district attorney and public administrator.

This bill would include Napa County within those counties whose boards of supervisors are authorized to provide for the appointment of the public administrator by the board. It would also authorize the Board of Supervisors of Napa County to appoint the same person to the offices of public administrator, veteran service officer, and public guardian and to separate the consolidated offices of district attorney and public administrator.

(2) Existing law, with respect to counties under 200,000 in population, permits the board of supervisors to authorize the county purchasing agent to engage independent contractors to perform services when the aggregate cost does not exceed $10,000.

This bill instead would permit the boards of supervisors in counties having a population of less than 200,000 to authorize the purchasing agent to engage independent contractors to perform services when the aggregate cost does not exceed $50,000, which would be subject to annual adjustment.

(3) Existing law defines specified powers, rights, duties, and training requirements for peace officers and provides that any harbor or port police regularly employed and paid in that capacity by a county, city, or district is a peace officer, if the primary duty of the peace officer is the enforcement of the law in or about the properties owned, operated, or administered by the harbor or port or when performing necessary duties with respect to patrons, employees,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

and properties of the harbor or port. Under existing law, these peace officers may carry firearms only if authorized and under terms and conditions specified by their employing agency.

This bill would change the category for the port police officers of the Harbor Department of the City of Los Angeles to a category that specifies that these persons are peace officers whose authority extends to any place in the state, as specified, and that doesn't limit the carrying of firearms. This bill would also remove special officers of the Harbor Department of the City of Los Angeles from this category.

(4) Existing law provides that any deputy sheriff of certain counties who is assigned to perform duties relating to specified custodial assignments is a peace officer whose authority extends to any place in the state only while engaged in the performance of the duties of his or her employment and for the purpose of carrying out the primary functions of employment relating to his or her custodial assignments, or when directed to perform other law enforcement duties during a local state of emergency.

This bill would add deputy sheriffs of Shasta and Solano Counties employed to perform those duties relating to custodial assignments to that category of peace officers.

(5) Existing law authorizes counties voluntarily participating in the County Medical Services Program to establish the County Medical Services Program Governing Board to govern the program. Existing law specifies the composition of the board, the board members' terms, the powers and duties of the board, and other matters including the conduct of meetings.

This bill would provide that the requirements for public meetings are satisfied if at least 3 voting members of the governing board hold public meetings and report the testimony from those meetings to the full board at its next regular meeting, as specified.

Ch. 711 (SB 578) Alarcon. Public contracts: sweatshop labor.

Existing law requires state agencies to provide in every contract for procurement of equipment, materials, or supplies, other than procurement related to a public works contract, that the contractor certify that no foreign-made equipment, materials, or supplies provided under contract are produced by forced labor, convict labor, indentured labor under penal sanction, abusive forms of child labor or exploitation of children in sweatshop labor, or with the benefit thereof. Existing law requires that each contract make a certain specification regarding the contractor's cooperation as reasonably required by specified public officials, including the Department of Justice, and requires that specified matters for investigation be referred to public officials, including the Attorney General.

This bill would delete the foreign-made restriction, include apparel, garments and corresponding accessories and the laundering thereof, as defined, as a subject of procurements, impose new requirements upon contractors, including the Sweatfree Code of Conduct, and would make Legislative findings and declarations in connection therewith.

This bill would eliminate the Department of Justice and the Attorney General from the provisions relating to a contractor's cooperation and to investigation referrals. This bill would also define "sweatshop labor," and specify, for that purpose, that forced labor and convict labor do not include certain work or services.

This bill would also impose a state-mandated local program by requiring contractors to ensure that their subcontractors comply in writing with a specified code of conduct, under penalty of perjury, and by providing that certain false certifications are a misdemeanor.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 712 (SB 808) Karnette. Sales and use taxes: exemptions: bunker fuel.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. That law provides various exemptions from that tax, including an exemption for the sale of tangible personal property to a common carrier, as provided.

This bill would additionally exempt, until 2014, the gross receipts from the sale of fuel and petroleum products to a water common carrier for immediate shipment outside this state for consumption in the conduct of its business as a common carrier after the first out-of-state destination, if specified conditions are met. This bill would require the Legislative Analyst's Office to submit a report to the Governor and the Legislature that evaluates the economic impact of the exemption.

Counties and cities are authorized to impose local sales and use taxes in conformity with state sales and use taxes. Exemptions from state sales and use taxes enacted by the Legislature are incorporated into the local taxes.

Section 2230 of the Revenue and Taxation Code provides that the state will reimburse counties and cities for revenue losses caused by the enactment of sales and use tax exemptions.

This bill would provide that, notwithstanding Section 2230 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for sales and use tax revenues lost by them pursuant to this bill.

This bill would take effect immediately as a tax levy, but its operative date would depend on its effective date.

Ch. 713 (SB 853) Escutia. Health care language assistance.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. A willful violation of the act is a crime. Existing law provides for the regulation of health insurers by the Department of Insurance.

This bill would require the Department of Managed Health Care to adopt, not later than January 1, 2006, regulations establishing standards and requirements to provide health care service plan enrollees with access to language assistance in obtaining health care services. Pursuant to the bill, the regulations would require health care service plans and specialized health care service plans to implement programs to assess enrollee needs, and to provide translation and interpretation for medical services and translation of vital documents to enrollees, and to report to the department regarding internal policies and procedures related to cultural appropriateness. The bill would require the regulations to provide that a health care service plan is in compliance with the requirements if it is required to meet and meets the same or similar standards, as imposed by the Medi-Cal program. The bill would require the department to consider specified factors and to seek public input. The department would be required to regularly review information regarding compliance and make recommendations for changes and to report certain information biennially to the Legislature and specified advisory committees.

This bill would impose similar requirements on the Insurance Commissioner and health insurers that contract with health care providers for alternative rates of payment to ensure that insureds have access to translated materials and language assistance in obtaining health care services.

This bill would require a contract between a health care service plan and a health care service provider to ensure compliance with the standards adopted by the board.

By placing additional requirements on health care service plans, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 714 (SB 915) Perata. San Francisco Bay Area Water Transit Authority.

Existing law creates the San Francisco Bay Area Water Transit Authority with specified powers and duties relative to the development of a plan for implementation and operation of a water transit system on San Francisco Bay. Existing law provides that the authority may not operate a water transit system until the plan has been statutorily approved by the Legislature. Existing law also provides that the authority shall be funded from appropriations in the annual Budget Act and imposes restrictions on the regional transportation funds that the authority may apply for to fund operation of the water transit system.

This bill would delete the requirement that the authority's plan be statutorily approved prior to commencement of operation of the water transit system. The bill would delete the requirement to fund the authority through the annual Budget Act and would require that the authority be funded from increases in bridge tolls, as proposed by SB 916. The bill would require the authority to dedicate at least one vessel to employ biodiesel fuel. The bill would require new vessels mandated in the authority's plan to exceed certain federal air quality standards for marine engines by at least 85%. The bill would revise the process for negotiations between the authority and transit operators relative to implementation of water transit services and related ground transportation terminal access services. The bill would make other related changes. The bill would make any duties and responsibilities imposed by the bill contingent upon funding for those purposes being provided from increases in tolls on state-owned toll bridges in the bay area pursuant to the expenditure plan in SB 916.

Ch. 715 (SB 916) Perata. Toll bridge revenues: Treasure Island Development Authority.

Existing law generally makes the California Transportation Commission responsible for establishing the rates charged vehicles for crossing the state-owned toll bridges. Under existing law, the Metropolitan Transportation Commission (MTC) is authorized to adopt a toll schedule in lieu of the one adopted by the California Transportation Commission for the state-owned toll bridges in the San Francisco Bay Area. Existing law makes the MTC and the Bay Area Toll Authority (BATA), which is defined as the same body as the MTC, responsible for the programming, administration, and allocation of the revenue from the base toll charge collected from these bridges. Under existing law, a portion of this revenue is continuously appropriated to the Controller who is required to disburse these funds to the MTC to expend for purposes that reduce vehicular congestion on the bridges.

This bill would define the BATA as a separate entity governed by the same governing board as the MTC. The bill would make the BATA responsible for the programming, administration, and allocation of toll revenues from the state-owned toll bridges in the San Francisco Bay Area and would authorize it to perform these functions with respect to the seismic retrofit surcharge once those projects are completed and provision is made for payment of the bonds issued for those purposes.

The bill would require the City and County of San Francisco and specified counties in the San Francisco Bay Area to conduct a special election on a proposed increase of $1 in the amount of the base toll rate charged on the state-owned toll bridges in that area, and would identify the purposes for which revenues from the toll increase would be used. The bill would specify that, except to meet its bond obligations, the toll schedule adopted pursuant to the results of this election may not be changed without the statutory authorization of the Legislature. The bill would require the BATA to reimburse from toll revenues, as specified, the counties and the City and County of San Francisco for the cost of submitting the measure to the voters. By requiring this election, the bill would impose a state-mandated local program. Because the bill would specify that the revenue resulting from the increased toll charge would be continuously appropriated to the MTC for expenditure on specified projects, it would make an appropriation.

The bill would require the allocation of toll revenues for the operation and maintenance of the transbay transit terminal under specified conditions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill additionally would make related changes and would repeal obsolete provisions relating to the operation of toll facilities.

The Treasure Island Conversion Act of 1997 authorizes the City and County of San Francisco to designate the Treasure Island Development Authority as a redevelopment agency under state law for purposes related to the Naval Station Treasure Island. Under these provisions, the employees of this authority are subject to the same civil service provisions as employees of the City and County of San Francisco.

This bill would provide that the director and deputy of this authority are not subject to these civil service provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 716 (SB 460) Alpert. Local government: Transportation Investment Fund: Treasure Island Development Authority.

(1) Article XIX B of the California Constitution requires, commencing with the 2003–04 fiscal year, sales taxes on motor vehicle fuel that are deposited in the General Fund to be transferred to the Transportation Investment Fund for allocation to various transportation purposes, including allocations to cities and counties for street and highway purposes. Article XIX B authorizes the transfer of these revenues to the Transportation Investment Fund to be suspended in whole or in part for a fiscal year during a fiscal emergency pursuant to a proclamation issued by the Governor and the enactment of a statute by a $^{2}/_{3}$ vote of both houses of the Legislature if the statute does not contain any unrelated provision. Chapter 223 of the Statutes of 2003 partially suspends the transfer for the 2003–04 fiscal year. Existing law requires cities and counties to comply with certain maintenance of effort requirements in order to receive an allocation of funds from the Transportation Investment Fund.

This bill would suspend the maintenance of effort requirements for any fiscal year in which the transfer of revenues from the General Fund to the Transportation Investment Fund is suspended pursuant to Article XIX B and funds from this source consequently are not made available for allocation to cities or counties.

(2) Existing law authorizes the City and County of San Francisco to designate the Treasure Island Development Authority as the redevelopment agency with all of the rights, powers, privileges, immunities, authorities, and duties granted to a redevelopment agency pursuant to the Community Redevelopment Law for the purpose of acquiring, using, operating, maintaining, converting, and redeveloping Naval Station Treasure Island. Under existing law, the authority is considered a redevelopment agency for all purposes under state law and the employees of the authority are subject to the civil service provisions as employees of the City and County of San Francisco.

This bill would delete the latter provision that makes the employees of the authority subject to the civil service provisions as employees of the City and County of San Francisco.

Ch. 717 (SB 973) Machado. State property.

Under existing law, the Department of General Services has various duties relating to state property.

This bill would authorize the department to enter into an agreement with federal authorities to sell, lease, or exchange land at the Northern California Women's Facility, which is a correctional institution under the jurisdiction of the Department of Corrections, under conditions that are in the best interest of the state, as specified.

Ch. 718 (SB 1009) Alpert. Use tax collection: public contracts: income tax forms.

(1) The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would, except under specified circumstances, prohibit the state from contracting with a vendor, contractor, or an affiliate of a vendor or contractor that does not possess a seller's permit or a certificate of registration.

(2) Existing law requires retailers, as specified, to register with, and to obtain a seller's permit from, the State Board of Equalization. The State Board of Equalization issues forms for the computation and payment of sales and use taxes collected or owed by those retailers. There is no requirement for persons, other than retailers, that owe use taxes to register with the State Board of Equalization. Consequently, those persons do not receive forms for the computation and payment of use taxes.

This bill would, for taxable years beginning on January 1, 2003, and ending on December 31, 2009, authorize a person to make an irrevocable election to report qualified use tax, as defined, on that person's income tax form.

This bill would require the Franchise Tax Board to revise the income tax returns to allow a person to report and remit qualified use taxes to the Franchise Tax Board. This bill would require the Franchise Tax Board to remit the qualified use taxes collected to the State Board of Equalization.

Ch. 719 (SB 1055) Committee on Budget and Fiscal Review. Vehicles: fees: funding.

(1) Existing law imposes fees upon the issuance of driver's licenses, issuance of vehicle registrations, transfers of vehicle title, and other, related services provided by the Department of Motor Vehicles.

This bill would increase or specify some of those fees in specified amounts.

The bill would require, between January 1, 2004, and December 31, 2004, inclusive, that the specified increased amounts be the base fee amounts charged by the department. On January 1, 2005, and every January 1 thereafter, the department would be required to adjust the fees by increasing each fee in an amount equal to the increase in the California Consumer Price Index for the current year, as calculated by the Department of Finance, with amounts equal to or greater than $0.50 rounded to the next highest whole dollar.

The bill would make other, conforming changes in existing law.

(2) Existing law provides for the issuance by the Department of Motor Vehicles of California memorial license plates. Existing law requires the additional revenue derived from the issuance, renewal, transfer, and substitution of California memorial license plates be deposited, as specified, in the Antiterrorism Fund and the California Memorial Scholarship Fund. Existing law requires the department to deduct its costs to administer, but not to develop, the California memorial license plate program.

This bill would allow the department to utilize an amount of money, not to exceed $50,000 annually, derived from the issuance, renewal, transfer, and substitution of California memorial license plates for the continued promotion of the California memorial license plate program.

(3) Existing law imposes gross vehicle weight fees, in accordance with a schedule based on gross vehicle weight range, upon the registration of commercial motor vehicles operated either singly or in combination with a declared gross vehicle weight of 10,001 pounds or more and to certain tow trucks.

This bill would continue the current fee schedule until December 30, 2003, and for the registration of those commercial motor vehicles and tow trucks occurring on or after December 31, 2003, the bill would impose a revised, increased fee schedule and would change the amount of the portion of the money collected as that fee that would be deposited in the Motor Vehicle Account in the State Transportation Fund. The bill would provide for an adjustment of the revised schedule of weight fees if, based on the required review by the Director of Finance of the final 2003–04 Statement of Transactions for the State Highway Account, the actual truck weight fee revenues deposited in the State Highway Account do not total at least $789,000,000. The bill would prohibit additional moneys collected as a

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

result of the increased fee schedule from being used for the purposes described in subdivision (b) of Section 1 of Article XIX of the California Constitution.

This bill would also require the department, in consultation with the Department of the California Highway Patrol, to design and make available a set of distinctive weight decals that reflect the declared gross combined weight or gross operating weight of a vehicle as reported to the department at the time of initial registration, registration renewal, or when a weight change is reported to the department. The bill would require the decal for a tow truck that is subject to these provisions to reflect the gross vehicle weight rating or weight code. The bill would authorize the department to charge a fee, not to exceed $10, for the department's actual cost of producing and issuing each set of decals with the proceeds deposited in the Motor Vehicle Account in the State Transportation Fund. The bill would require the decal to be in sharp contrast to the background and to be of a size, shape, and color that is readily legible during daylight hours from a distance of 50 feet. The bill would require each vehicle subject to these provisions to display the weight decal on both the right and left sides of the vehicle. Because existing law makes it a crime for a person to violate, or fail to comply with the Vehicle Code, a violation of the requirements imposed by this bill would be a crime, thereby imposing a state-mandated local program. These provisions would apply to an initial registration, registration renewal, or reported weight change occurring on or after July 1, 2004.

(4) Existing law requires the owner of an off-highway motor vehicle to file a certification that the vehicle will not be operated, used, or transported on public property or private property in a manner so as to subject the vehicle to identification during the subsequent identification period, if the vehicle's identification is not to be renewed prior to its expiration. The certification of nonoperation is valid until midnight on the 30th day of June in the second calendar year following the year of certification, but may be renewed biennially prior to its expiration. No penalty for delinquent payment of fees may be imposed by the department if the department receives an application for renewal of identification for the vehicle within 10 days after the date the vehicle is first operated, used, or transported on public property or private property in a manner so as to subject the vehicle to the identification and certification of nonoperation requirements in existing law.

This bill, instead, would provide that the certificate of nonoperation is valid until the vehicle identification is renewed. The department would be prohibited from imposing a penalty for delinquent payment of fees if the department receives the application for renewal of identification for the vehicle on or before the date the vehicle is first operated, used, or transported on public property or private property in a manner so as to subject the vehicle to the identification and certification of nonoperation requirements in existing law.

(5) Existing law authorizes the Department of Motor Vehicles, in conformance with certain provisions in existing law relating to personal services contracts with private parties, to establish contracts for electronic programs that allow qualified private industry partners to join the department in providing title and vehicle registration transactions. Existing law authorizes the department to enter into contractual agreements with 3 specified types of private industry partners.

Existing law authorizes the department to establish a transaction fee that it may charge to a qualified private industry partner for the information and services provided and requires all fees collected to be deposited in the Business Partner Automation Account in the Special Deposit Fund, as established, to be available, upon appropriation, to the department for the purposes of maintaining, monitoring, and enhancing the process and payment programs for vehicle registration and titling transactions.

This bill would require the department to charge a $3 transaction fee with all the proceeds to be deposited in the Motor Vehicle Account, rather than the Business Partner Automation Account, which the bill would repeal.

The bill would require the department to adjust the amount of the fee each January 1 in accordance with the California Consumer Price Index, as specified.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(6) The Budget Act of 2003 appropriated $1,006,297,000 from the Motor Vehicle Account in the State Transportation Fund for support of the Department of the California Highway Patrol and provided for an unallocated reduction of $100,041,000.

This bill would increase the amount appropriated to $1,106,297,000 and would repeal the unallocated reduction.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 720 (AB 184) Lowenthal. Department of Motor Vehicles: records.

Under existing law, any registration or driver's license record of a person may be suppressed from any other person, except as specified, if the person requesting the suppression submits verification acceptable to the Department of Motor Vehicles that he or she has reasonable cause to believe that he or she is the subject of stalking, or that there exists a threat of death or great bodily injury to his or her person involving domestic violence.

This bill would include program participants (victims of domestic violence and stalking) under the Secretary of State's confidentiality program within the category of persons entitled to have their registration or driver's license record suppressed from other persons, except as specified, if those persons request the suppression and submit to the department a program participant certificate or identification card issued by the Secretary of State. The bill would allow for 4-year suppression periods, as specified. Because an unlawful disclosure of these records would be a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 721 (AB 189) Cogdill. Sales and use taxes: exemption: veteran's organizations: meals.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. That law provides various exemptions from that tax.

This bill would additionally exempt from that tax meals and food products that are furnished or served by any nonprofit veteran's organization for purposes of fundraising, as specified.

Counties and cities are authorized to impose local sales and use taxes in conformity with state sales and use taxes. Exemptions from state sales and use taxes enacted by the Legislature are incorporated into the local taxes.

Section 2230 of the Revenue and Taxation Code provides that the state will reimburse counties and cities for revenue losses caused by the enactment of sales and use tax exemptions.

This bill would provide that, notwithstanding Section 2230 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for sales and use tax revenues lost by them pursuant to this bill.

This bill would take effect immediately as a tax levy, but its operative date would depend on its effective date.

Ch. 722 (AB 248) Nunez. Advisory boards: nursery stock.

Existing law, effective until January 1, 2004, provides for the appointment of an advisory board relating to pome and stone fruit trees, nut trees, and grapevines. Existing law requires the Secretary of Agriculture to appoint the board to review and make recommendations to the secretary regarding specified programs relating to those plant varieties, and requires that

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

members of the board serve for 2 years. Existing law provides for annual assessments on licensed nursery dealers to support various programs and activities related to those plant varieties.

This bill would allow members of the board to serve fixed terms of up to 2 years.

The bill would repeal the provision that would terminate existing law on January 1, 2004, and would thereby permanently extend the operation of existing law, as amended by this bill.

Ch. 723 (AB 256) Kehoe. Public works: state projects and property.

(1) The State Building Construction Act of 1955 authorizes the State Public Works Board to acquire or construct public buildings and to issue revenue bonds, negotiable notes, and negotiable bond anticipation notes to finance that construction. That act also permits the leasing of these public buildings by the board to the Department of General Services or any other state agency approved by the department.

Existing law authorizes the Director of General Services to purchase, exchange, or otherwise acquire real property and construct facilities within the jurisdiction of the Capitol Area Plan for a project consisting of approximately 1,400,000 gross square feet of office space on specified state-owned land with the authorized costs of the facilities not to exceed $391,000,000.

This bill would revise various provisions related to this project, including authorizing the Department of General Services to contract for deconstruction services related to the project and requiring the department, in the event the bonds authorized for the project are not sold, to commit a sufficient amount of its support budget to repay any outstanding loans. The bill would specify that the authorized costs of the facilities include the costs of planning and concept drawings. The bill would authorize and direct the department to execute and deliver any and all leases, contracts, agreements, or other documents to consummate the sale of the bonds or otherwise effectuate the financing of the project.

(2) Existing law authorizes the Director of General Services to enter into one or more agreements to acquire, construct, purchase, lease, lease-purchase, lease-purchase finance, or lease with an option to purchase, with an initial option purchase price that exceeds $2,000,000, for the purpose of providing approximately 226,100 net usable square feet of office and related space and 136,000 net usable square feet of parking in a suburban location in the San Diego region. Existing law also authorizes the Director of General Services to enter into a joint powers agreement with the City of San Diego in connection with the development of approximately 241,000 net usable square feet of new state-owned office space and related facilities at a designated location in San Diego and provides that the authorized costs of the facilities may not exceed $81,000,000. Existing law authorizes the director to sell, lease, or exchange, based on current market value, the existing state office and parking facilities located in the City of San Diego and requires the net proceeds from these transactions be applied toward any obligation undertaken by the director in securing consolidated facilities for the development of new state-owned office space and related facilities in San Diego described above.

This bill would delete the authority of the director to sell, lease, or exchange the existing state office and parking facilities located in the City of San Diego.

The bill would also delete the authority of the director to enter into a joint powers agreement with the City of San Diego for the development of approximately 241,000 net usable square feet of new state-owned office space and related facilities described above and, instead, would authorize the director to purchase, exchange, or otherwise acquire real property and construct these facilities, including the deconstruction of these facilities. The bill would authorize the State Public Works Board to issue revenue bonds, negotiable notes, or negotiable bond anticipation notes to finance the acquisition of the facilities authorized by the bill. The bill would authorize the State Public Works Board to borrow funds for project costs from the Pooled Money Investment Account or any other lawfully available source. The bill would provide that the authorized costs of the facilities include planning, land

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

acquisition, preliminary plans or concept drawings, working drawings, deconstruction, and construction.

The bill would authorize the director to form a voluntary design advisory committee composed of representatives designated by the City of San Diego and any other individuals designated by the director and would require the director to define the functions of the design advisory committee.

This bill would authorize the director to lease real property appurtenant to or part of the Ione Youth Facility, as described, to the Amador Regional Sanitation Authority for up to 30 years at the rate of $1 per year for its continued use as a wastewater delivery and disposal system, subject to specified conditions.

(3) Existing law continues in existence the Division of Architecture Revolving Fund and renames that fund the Architecture Revolving Fund. Existing law also provides that money transferred or deposited into the fund is available for expenditure by the Department of General Services for the purposes for which it is appropriated, contributed, or made available, without regard to fiscal years, with respect to the construction, alteration, repair, and improvement of state buildings.

This bill would expressly provide that special fund moneys in the fund are continuously appropriated without regard to fiscal years.

Ch. 724 (AB 523) Calderon. Collateral recovery.

Existing law, the Collateral Recovery Act, requires a licensed repossession agency to make an inventory of personal property recovered that is not covered by a debtor's security agreement. Existing law requires a licensee to provide the inventory to the debtor within a certain timeframe.

This bill would require a licensee to keep the inventory document confidential and restrict its disclosure.

Because this bill would place additional requirements on a person licensed under the Collateral Recovery Act, the violation of which is a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 725 (AB 762) Nunez. Transportation.

The Outdoor Advertising Act regulates placement of advertising signs adjacent to and within specified distances of highways that are part of the national system of interstate and defense highways and federal-aid highways. The act prohibits advertising displays from being placed or maintained on property adjacent to a section of a freeway that has been landscaped, with certain exceptions. A violation of the act is a misdemeanor.

This bill would authorize an advertising display in the City of Los Angeles by a not-for-profit educational academy subject to specified conditions.

Because a violation of the bill's provisions would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 726 (AB 776) Matthews. Agriculture.

Existing law provides that the public has a valuable interest in public horse shows, horse competitions, and horse sales, and declares that it is the intent of specified provisions regulating these activities to ensure their integrity through the control of performance and

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

disposition enhancing medications, while limiting permitted therapeutic usage. Existing law defines terms with respect to these provisions. Existing law provides that a horse exhibited at an event that receives a NSAID, as specified, shall not be eligible for show, competition, or sale.

This bill would make a technical, nonsubstantive change. This bill would provide that a horse that receives a NSAID, as specified, within a specified period prior to an established withdrawal time shall not be eligible for show, competition, or sale.

Existing law, the Milk and Milk Products Act of 1947, generally regulates the production and handling of market milk. This law is administered by the Department of Food and Agriculture.

This bill would create within the Department of Food and Agriculture the Milk and Dairy Food Safety Branch. This bill would also provide that the division within the Department of Food and Agriculture formerly known as the Milk and Dairy Foods Control Branch shall be renamed the Milk and Dairy Food Safety Branch.

Existing law establishes the Milk Producers Security Trust Fund to protect milk producers against loss of payment for bulk milk transferred to handlers. Existing law provides that future milk shipments will not be eligible for coverage under the trust fund under certain conditions.

This bill would authorize the Secretary of Food and Agriculture to determine that future milk shipments are not eligible for coverage if the handler fails to submit, when requested by the secretary, executed contracts that establish the relationship between the affected parties.

Existing law defines terms used with respect to regulation of organic products. Existing law, the California Organic Products Act of 2003, provides that producers, handlers, and processors of organic products shall pay a registration fee to the Secretary of the Department of Food and Agriculture which shall be based on gross sales of product sold as organic in the calendar year that precedes the date of registration, as specified.

This bill would make a technical, nonsubstantive change. This bill would also make a clarifying change in the provisions regarding the registration fees applicable to individual classifications of feepayers.

Ch. 727 (AB 935) Diaz. Santa Clara Valley Transportation Authority: benefit assessments.

Existing law creates the Santa Clara Valley Transportation Authority with various powers and duties related to the operation of rail and bus transit services in Santa Clara County. Existing law specifies the process for establishment of benefit assessment districts by the Los Angeles Metropolitan Transportation Authority (LAMTA) under which benefit assessments are levied on certain property in the vicinity of rail transit lines, with proceeds from the assessments to be used for rail facilities and services. Under these provisions, LAMTA is also authorized to issue revenue bonds to be repaid from the assessments.

This bill would enact similar provisions authorizing the Santa Clara Valley Transportation Authority to establish benefit assessment districts relative to its rail lines and to issue revenue bonds in that regard.

Ch. 728 (AB 953) Houston. Subdivision Map Act: subdividers.

The Subdivision Map Act requires, prior to the approval of a final map, the city, county, or city and county to negotiate within 120 days of the filing of the final map, for the acquisition of an interest in land in which neither the subdivider nor the local agency has sufficient title or interest to construct or install offsite improvements that were part of a tentative map condition. The act also requires that, if the local agency fails to meet the 120-day time limitation, the condition for construction of offsite improvements is conclusively deemed to be waived.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would, in addition, provide that the condition is waived within the 120-day period unless the city, county, or city and county requires the subdivider to enter into a specified agreement to complete the offsite improvements prior to approval of the final map.

The bill would require that the waiver occurs whether or not the city, county, or city and county has postponed or refused approval of the final map.

Ch. 729 (AB 1238) Firebaugh. Vehicles: regulation.

(1) Existing law provides that where 2 or more personal policies affording valid and collectible liability insurance apply to the same motor vehicle in an occurrence out of which a loss arises, and one policy is primary and one or more policies are excess, then each insurer shall pay for the cost of defense in proportion to the percentage of total damages paid by that insurer, as specified.

This bill, for purposes of those provisions, would revise the definition of commercial vehicle.

(2) Existing law requires the Department of the California Highway Patrol to inspect, at least every 25 months, every terminal of a motor carrier, as defined, that directs the operation of or maintains a commercial vehicle in this state, as specified. Existing law requires each motor carrier to submit an application to the department and either a $400 or a $100 fee per terminal, as specified, in connection with this inspection program.

This bill would increase the amount of the fee for an initial enrollment into the program to $650 and $400, respectively, and would specify that the renewal fees are $400 and $100, respectively, per terminal.

(3) Existing law prohibits a motor carrier of property to operate a commercial motor vehicle on any public highway unless it complies with motor carrier identification number requirements.

This bill would, additionally, require a motor carrier to hold a valid motor carrier permit issued by the department. By creating a new crime with respect to vehicle requirements, this bill would impose a state-mandated local program.

(4) Existing law requires an application for an original or a renewal motor carrier permit to include specified information.

This bill, additionally, would require an application to include evidence of enrollment in the biennial inspection of terminals (BIT) program described under (2) above, unless exempted, and evidence of enrollment in a controlled substance and alcohol use and testing (CSAT) program as required under existing law, unless exempted.

(5) Existing law, until January 1, 2004, requires the Department of Transportation, in consultation with the Department of the California Highway Patrol, to develop specified pilot projects to designate and identify certain highway portions as "Safety Enhancement-Double Fine Zones" that result in increased fines for traffic violations occurring within the zones. Under existing law, the portion of State Highway Route 101 between the Eureka Slough Bridge and the Gannon Slough Bridge in Arcata is designated as a zone.

This bill would extend until January 1, 2006, this particular portion of State Highway Route 101 as a "Safety Enhancement-Double Fine Zone."

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 730 (SB 56) Hollingsworth. Water development projects: Murrieta Creek Flood Control Project.

(1) Existing law provides for state cooperation and participation with the federal government in the construction of various flood control projects.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would adopt and authorize the upstream and downstream portions of the Murrieta Creek Flood Control Project in Riverside County, in accordance with federal law, and with the state's participation. The bill would require the Riverside County Flood Control and Water Conservation District to carry out the project and to give assurances of local cooperation to the Secretary of the Army, thereby imposing a state-mandated local program. The bill would state that it is the intent of the Legislature that no funds be appropriated for state cooperation in the project before July 1, 2013.

(2) This bill would declare that, due to the special circumstances applicable only to the Murrieta Creek Flood Control Project, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 731 (SB 67) Bowen. Energy: California Renewables Portfolio Standard Program.

Existing law establishes the California Renewables Portfolio Standard Program. The program requires that a retail seller of electricity, including electrical corporations, community choice aggregators, and electric service providers, purchase a specified minimum percentage of electricity generated by eligible renewable energy resources, as defined, in any given year as a specified percentage of total kilowatthours sold to retail end-use customers each calendar year (renewables portfolio standard). Under existing law, the Public Utilities Commission is prohibited from requiring an electrical corporation to conduct procurement to fulfill the renewables portfolio standard until it is deemed creditworthy by the commission. Existing law requires the commission to direct electrical corporations to prepare, within 90 days of being deemed creditworthy, and to review and update, as necessary, renewable energy procurement plans that are sufficient to satisfy its obligations under the renewables portfolio standard. Existing law requires the commission to allow an electrical corporation to recover, in rates, electricity procurement and administrative costs associated with long-term contracts reasonably incurred consistent with a renewable energy procurement plan approved by the commission.

This bill would prohibit the commission from requiring an electrical corporation to conduct procurement to fulfill the renewables portfolio standard until (1) the commission determines either that the electrical corporation has attained an investment grade credit rating or (2) that the electrical corporation is able to procure eligible renewable energy resources on reasonable terms, those resources can be financed if necessary, and the procurement will not impair the restoration of an electrical corporation's creditworthiness. The second provision would not apply before April 1, 2004, to an electrical corporation that is in federal court under Chapter 11 of the federal bankruptcy law. The bill would clarify that the provision allowing an electrical corporation to recover, in rates, electricity procurement and administrative costs associated with long-term contracts applies to contracts entered into pursuant to the California Renewables Portfolio Standard Program. The bill would make other clarifying changes.

The bill would authorize the commission to consider an electric generating facility that is located outside the state to be an eligible renewable energy resource if it meets certain criteria.

Ch. 732 (SB 93) Alpert. Counties: real property purchases.

(1) Existing law authorizes the board of supervisors of a county to provide by ordinance for a county officer to perform all acts necessary to approve and accept for the county the acquisition of any interest in real property having a purchase price not exceeding $25,000.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law prohibits the purchase by a county of real property of which the purchase price exceeds $25,000 unless notice of the intention of the board of supervisors to make the purchase is published in the county, as specified.

This bill would authorize the county board of supervisors to provide by ordinance for a county officer to perform all acts necessary to approve and accept for the county the acquisition of any interest in real property. It would require that an ordinance adopted under these provisions establish a dollar limit on any purchase price and would limit a county officer's authority granted by this ordinance to no more than 5 years.

This bill would also require the intention to purchase an interest in real property to be published when the purchase price exceeds the dollar limit established by ordinance, or, if no ordinance is adopted, exceeds $50,000.

(2) Existing law authorizes the county board of supervisors to exempt from a specified bidding procedure leases or licenses of real property of a duration not exceeding 10 years and having an estimated monthly rental of not exceeding $5,000. Existing law provides that the board may, by resolution, authorize a county officer to execute leases or licenses under these provisions.

This bill would, instead, exempt from the bidding procedure leases or licenses with a monthly rental not exceeding a dollar limit that may be established by ordinance of the board, or, if no ordinance is adopted, not exceeding $10,000. It would provide that the board may, by ordinance, authorize a county officer to execute these leases or licenses and would limit a county officer's authority granted by this ordinance to no more than 5 years.

Ch. 733 (SB 168) Committee on Energy, Utilities and Communications. Renewable Resource Trust Fund: Payphone Service Providers Committee.

(1) The Warren-Alquist State Energy Resources Conservation and Development Act requires the State Energy Resources Conservation and Development Commission (Energy Commission) to certify a sufficient number of sites and related facilities to provide a supply of electric power sufficient to accommodate projected demand for power statewide. The act requires the Energy Commission to not certify any facility contained in an application when it finds that the facility does not conform with any applicable state, local, or regional standards, ordinances, or laws, unless the Energy Commission determines that the facility is required for public convenience and necessity and that there are not more prudent and feasible means of achieving the public convenience and necessity.

This bill would instead authorize the Energy Commission to not certify a facility contained in an application when it finds that the facility does not conform with any applicable state, local, or regional standards, ordinances, or laws, unless the Energy Commission determines that the facility is required for public convenience and necessity and that there are not more prudent and feasible means of achieving the public convenience and necessity.

(2) Existing law authorizes the Energy Commission to solicit applications for awards, using a sealed competitive bid, competitive negotiation process, multiparty agreement, single source, or sole source method. Existing law permits the cost to the state to be reasonable.

This bill would require the cost to the state to be reasonable.

(3) Existing law requires the Energy Commission to regularly convene an advisory board that is required to make recommendations to guide the Energy Commission's selection of specified programs and projects to be funded. Existing law specifies the members of the advisory board.

This bill would instead require the board membership to include, as appropriate, but not be limited to, those specified representatives.

(4) Under existing law, the Payphone Service Providers Committee, which is an advisory board to the Public Utilities Commission (PUC), advises the PUC on the development, implementation, and administration of programs to educate pay phone service providers, ensure compliance with the PUC's requirements for pay phone operations, and educate

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

consumers on matters related to pay phones, and provides for the placement of telecommunications devices capable of servicing the needs of the deaf or the hearing impaired in existing buildings and public accommodations.

This bill would delete the requirement that the committee advise the PUC on programs to provide for the placement of telecommunications devices capable of servicing the needs of the deaf or the hearing impaired in existing buildings and public accommodations.

(5) Under the Public Utilities Act, the PUC requires electrical corporations to identify a separate rate component to fund in-state operation and development of existing and new and emerging renewable resources technologies. This rate component is a nonbypassable element of local distribution and collected on the basis of usage. Existing law requires specified electrical corporations to collect specific amounts to support in-state operation and development of existing and new and emerging renewable resources technologies. Existing law also requires the Energy Commission to transfer funds collected for in-state operation and development of existing and new and emerging renewable resources technologies into the Renewable Resource Trust Fund. Existing law establishes certain accounts in the Renewable Resource Trust Fund. Existing law requires, upon notification by the Energy Commission, the Controller to pay all awards of the money in the accounts for certain renewable energy purposes. Existing law requires the Energy Commission to report to the Legislature on the implementation of these provisions on a quarterly basis and to report on the mechanisms funded by May 31, 2000, and every two years thereafter.

This bill instead would require the Energy Commission to report to the Legislature on the implementation of the Renewable Resource Trust Fund, and the mechanisms funded, on an annual basis.

(6) Existing law requires the Energy Commission, commencing on or before March 1, 1985, to participate in a meeting on an annual basis that includes specified representatives, the purpose of which is to work towards achieving specified goals related to energy research, development, and demonstration projects.

This bill would repeal those provisions.

(7) Existing law requires the Energy Commission, in consultation with the PUC, to report to the Legislature and the Governor, by March 31, 2003, regarding the feasibility of implementing real-time, critical peak, and other dynamic pricing tariffs for electricity in California, as strategies which can either reduce peak demand or shift peak demand load to off-peak periods.

This bill, instead, would require the report, as revised, to be given to the Legislature and the Governor by September 30, 2003.

(8) This bill would make other related and conforming changes.

Ch. 734 (SB 297) Chesbro. Coastal Watershed Salmon Habitat Program.

Existing law establishes the process governing the expenditure of funds authorized for the Coastal Watershed Salmon Habitat Program. Existing law specifies that disbursements in liquidation of encumbrances may be made before or during the 2 years following the last day an appropriation is available for encumbrance, except in the case of a fund made up of federal funds.

This bill would provide that, notwithstanding that provision, a disbursement in liquidation of an encumbrance for a project funded pursuant to the Coastal Watershed Salmon Habitat Program may be made before or during the 4 years following the last day an appropriation is available for encumbrance.

Ch. 735 (SB 412) Sher. Fish and game: fully protected species.

(1) Existing law prohibits the taking or possession of any fully protected bird, mammal, reptile, amphibian, or fish, except that the Fish and Game Commission is authorized to permit the collection of those species for necessary scientific research.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would instead authorize the Department of Fish and Game to permit the taking of those species for necessary scientific research, including efforts to recover those species. The bill would require the department, prior to authorizing the take of any of those species, to make an effort to notify affected and interested parties to solicit relevant information and comments on the proposed authorization.

(2) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department to pay all necessary expenses incurred in carrying out the Fish and Game Code.

By imposing new duties on the department, the bill would make an appropriation.

Ch. 736 (SB 418) Sher. Fish and wildlife: streambed alteration agreements.

(1) Existing law requires a governmental agency or public utility that proposes a project that would divert, obstruct, or change the natural flow of, or result in the disposal of debris in, a river, stream, or lake designated by the Department of Fish and Game, to submit prescribed plans and other information to the department, and to follow prescribed procedures. Under existing law, a violation of the Fish and Game Code is a crime.

This bill would revise that proposal process by doing all of the following:

(a) Define various terms.

(b) Clarify the notification and determination procedure, including prescribing deadlines throughout the process and making it uniform as to all applicants.

(c) Modify the existing arbitration process, including requiring that one arbitration panel member have relevant scientific expertise.

(d) Authorize the director of the department to establish a graduated schedule of fees that may be charged for administering and enforcing the process, and would limit the amount of the fee charged for any agreement to $5,000.

(e) Require that a holder of an agreement to alter a streambed remain responsible for implementing any mitigation or other measures necessary to protect fish and wildlife resources after the agreement has expired.

(f) Authorize the department to extend the agreement for up to 5 years, and would establish the procedures for that extension.

(g) Authorize the department to issue an agreement for a term longer than 5 years, under certain conditions.

(h) Authorize the department to suspend or revoke an agreement if the agreement holder is not in compliance with the terms of the agreement.

(i) Prescribe the manner in which civil actions are initiated and penalties are determined and disbursed.

To the extent this bill would provide for additional criminal prosecutions for violations of the bill, it would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department to pay all necessary expenses incurred in carrying out the Fish and Game Code. Unless otherwise provided, all money collected under the code is deposited in the fund.

By imposing new duties on the department, and potentially increasing revenues deposited in the fund, the bill would make an appropriation.

Ch. 737 (SB 552) Burton. State motor vehicle fleets.

Existing law makes it the policy of the state to minimize the economic and environmental costs due to the use of petroleum-based fuels and other transportation fuels by state agencies. Existing law requires the State Energy Resources Conservation and Development

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Commission (Energy Commission), the Department of General Services, in consultation with the Energy Commission and State Air Resources Board, to develop and adopt fuel-efficiency specifications governing the purchase by the state of motor vehicles and replacement tires. Existing law requires the Energy Commission and the department, in developing the specification, to jointly conduct a study to examine state vehicle purchasing patterns and to analyze the costs and benefits of reducing the energy consumption of the state fleet by no less than 10% on or before January 1, 2005. Existing law also requires the Energy Commission, the department, and the state board, on or before January 31, 2003, and annually thereafter, to develop and adopt air pollution emission specifications governing the purchase by the state of passenger cars and light-duty trucks that meet or exceed the state's Ultra-Low Emission Vehicle (ULEV) standards for exhaust emissions. Existing law requires the Energy Commission, on or before January 31, 2003, to develop and adopt recommendations for consideration by the Governor and Legislature for a California State Fuel-Efficient Tire Program.

This bill would require the Department of General Services, on or before January 1, 2005, in consultation with the Energy Commission and the State Air Resources Board, to develop and adopt specifications and standards for all passenger cars and light-duty trucks that are purchased or leased on behalf of, or by, state offices, agencies, and departments. The bill would require the specifications and standards to include certain elements. This requirement would not apply to authorized emergency vehicles, as defined.

The bill would require each state office, agency, and department, on or before December 31, 2005, to review its vehicle fleet and, upon finding it is fiscally prudent, cost-effective, or otherwise in the public interest to do so, to dispose of nonessential sport utility vehicles and four-wheel drive trucks from its fleet and replace those vehicles with more fuel efficient front-wheel drive passenger cars and trucks.

The bill would also require these offices, agencies, and departments, to the maximum extent practicable, to use the appropriate fuel in bifuel natural gas and bifuel propane vehicles that are in their fleets.

Commencing no later than January 1, 2005, the bill would also require the Director of General Services to compile and maintain prescribed information on the nature of vehicles owned or leased by the state.

The bill would require each state office, agency, and department to cooperate with the Department of General Services data requests and would require the Department of General Services to make the compiled and maintained information, and a listing of those offices, agencies, and departments that did not cooperate with the department, available to the public on that department's Web site.

Ch. 738 (SB 656) Sher. Air quality: particulate matter.

(1) Existing law designates the State Air Resources Board as the state agency charged with coordinating efforts to attain and maintain ambient air quality standards. Existing law designates the state board as the state agency with the primary responsibility for the control of vehicular air pollution, and air pollution control districts and air quality management districts with the primary responsibility for the control of air pollution from all sources other than vehicular sources. Existing law requires district plans for attaining state ambient air quality standards to assess the cost-effectiveness of available and proposed emission control measures.

This bill would require the state board, not later than January 1, 2005, in consultation with the districts, and after at least one public workshop, to identify, develop, and adopt at a public meeting a list of the most readily available, feasible, and cost-effective, as defined, proposed control measures, based on rules, regulations, and programs existing as of January 1, 2004, that could be employed by the state board and the districts to reduce emissions of PM 2.5 and PM 10, as defined, from new and existing stationary, mobile, and area sources. The bill would also require the state board and each district to adopt an implementation schedule, as

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

defined, for the most cost-effective measures on that list after prioritizing the measures based on specified factors. The bill would require the state board and each district, in carrying out those requirements, to adopt and implement control measures to reduce PM 2.5 and PM 10 from stationary, area, and mobile sources, and to make progress toward attainment of state and federal particulate matter standards. The bill would require the state board, by January 1, 2009, to prepare, and make available to the public, a report on the actions taken by the state and districts to comply with the requirements of the bill. The bill would repeal these provisions on January 1, 2011. The additional duties for districts required by the bill would impose a state-mandated local program.

(2) Existing law makes a violation of any rule, regulation, permit or order of the state board or a district a misdemeanor.

By expanding the scope of a crime, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 739 (SB 666) Bowen. Environment.

The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect.

This bill would provide that a project located in Los Angeles County that is approved by a public agency before the effective date of the bill is not in violation of any requirement of CEQA or the Subdivision Map Act if certain transportation improvements are not constructed due to the project owner's or developer's relinquishment of easement rights within the coastal zone. The bill would require the relinquishment of easement rights to be in connection with the state acquiring a wetlands project that is a minimum of 400 acres in size and located within the coastal zone.

The bill would also provide that an ordinance or regulation adopted by a charter city or a general law city would not apply to that easement right if the ordinance or regulation requires construction of certain transportation improvements or would otherwise require reprocessing or resubmittal of a permit or approval.

The bill would require the Controller of the State of California to direct the trustee of a specified trust to convey title of the trust estate to the state under certain conditions. The bill would provide that this conveyance supersedes any duty or obligation imposed upon the Controller with respect to the disposition or application of the net proceeds of the trust estate.

The bill would declare that it does not violate the requirements of Section 16 of Article 1V of the California Constitution, in that, due to the unique requirements of the property acquired by the state pursuant to the bill, a law of a general nature cannot be made applicable.

The bill would provide that it would not become operative unless Assembly Bill 859 is enacted and takes effect on or before January 1, 2004.

Ch. 740 (SB 833) Machado. Eastern Water Alliance Joint Powers Agency.

(1) Existing law authorizes public agencies to enter into joint powers agreements.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would authorize the Eastern Water Alliance Joint Powers Agency to grant funds to a member public agency for the purposes of assisting that member public agency in acquiring water if the board of directors determines that water supply will benefit the Eastern San Joaquin County Groundwater Basin as a whole and that member public agency would otherwise be unable to acquire that water. The bill would authorize the Board of Supervisors of San Joaquin County to grant to the joint powers agency funds from the county general fund or Zone 2 of the San Joaquin County Flood Control and Water Conservation District that are available to carry out any purposes of the joint powers agency for which the county or the district is authorized to expend funds.

The bill would authorize the joint powers agency to impose annually a plan implementation charge on landowners within its boundaries for the property related service received from improved groundwater management and planning, and for improved groundwater levels and availability, provided by the joint powers agency. The bill would provide for the collection of the charge, at the option of the joint powers agency, by the county or the joint powers agency. Because the bill would authorize the joint powers agency to establish collection duties on the county to collect the charge, the bill would impose a state-mandated local program.

(2) Existing law declares that when a holder of an appropriative right fails to use water as the result of conjunctive use of surface water and groundwater involving the substitution of an alternative supply for the unused portion of the surface water, any cessation of use of that appropriated water is deemed to be a reasonable and beneficial use of water to the extent of that cessation and to the extent that the appropriated water is put to reasonable and beneficial use. Existing law, until January 1, 2007, authorizes the substitution of the alternate supply, for the purposes of that provision, to be made from the Eastern San Joaquin County Groundwater Basin if certain requirements are met.

This bill would revise those requirements and would make that provision relating to the Eastern San Joaquin County Groundwater Basin, as revised, operative indefinitely.

(3) Existing law prohibits the pumping for export of groundwater from within the Sacramento and Delta-Central Sierra Basins unless the pumping is in compliance with a groundwater management plan that meets certain requirements.

This bill would provide that that provision does not apply to groundwater pumping by the Eastern Water Alliance Joint Powers Agency for export from the Eastern San Joaquin County Basin if the groundwater pumping is approved, by ordinance, by San Joaquin County.

(4) The bill would declare that, due to the unique circumstances pertaining to the Eastern Water Alliance Joint Powers Agency that the bill is intended to remedy, a general statute within the meaning of specified provisions of the California Constitution cannot be made applicable and a special statute is necessary.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 741 (SB 1049) Committee on Budget and Fiscal Review. Resources.

(1) The California Emergency Services Act requires the Director of the Office of Emergency Services to coordinate the emergency services of all state agencies in connection with a state or local emergency and requires the transferor or a person who is acting as an agent for a transferor of real property that is located within an area of potential flooding shown on an inundation map to disclose that fact to any prospective transferor of the property.

This bill would require local governmental organizations, utilities, or other public or private owner of a dam to submit an inundation map that delineates potential flood zones that could result in the event of dam failure when the reservoir is at specified capacities and would

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

require the Office of Emergency Services to review the maps to determine whether the maps meet the requirements of these provisions, as specified. The bill would also authorize counties to post a notice identifying the locations of inundation maps.

This bill would also require the office to designate areas within which death or personal injury would, in its determination, result from the partial or total failure of a dam. The bill would authorize the appropriate public safety agencies to adopt emergency procedures, as specified, for the evacuation and control of these areas and would require the office to review and make recommendations concerning the procedures.

(2) Under existing law, the changes in the Implicit Price Deflator for State and Local Government Purchases of Goods and Services is used as the index to determine an annual rate of increase or decrease in the fees for hunting and fishing licenses, stamps, permits, and tags.

Existing law establishes fees for lifetime sportsman's licenses, guide registration and licenses, hunting licenses, lifetime hunting or sport fishing licenses, wild pig tags, sport fishing ocean enhancement stamps, commercial fishing ocean enhancement validations, sport fishing licenses, abalone report cards, steelhead trout catch report-restoration cards, commercial fishing licenses, commercial boat registrations, and commercial passenger fishing boat licenses.

This bill would establish a new base fee for all of those activities for 2004, and would require those fees to be adjusted annually thereafter according to the index described above.

Existing law establishes a resident sport ocean fishing license upgrade stamp and validation. Existing law establishes a fee for an owner or operator of a vessel with a commercial fishing salmon stamp.

This bill would repeal those provisions.

(3) Existing law sets forth provisions relating to the taking of striped bass in a sport fishery. Those provisions are repealed as of January 1, 2004.

This bill would instead establish provisions relating to sport fishing in the San Francisco bay-delta, including prohibiting a person from sport fishing in the San Francisco bay-delta unless he or she first obtains a bay-delta sport fishing enhancement stamp and affixes that stamp to a valid sport fishing license, except as specified. The bill would set a base fee for that stamp, which fee would be adjusted annually. The bill would provide that fees received for that stamp are to be deposited in a separate account in the Fish and Game Preservation Fund, and would require the Department of Fish and Game to use the funds in that account only for the purposes of the Bay-Delta Sport Fishing Enhancement Program, if that program is established by the Legislature. Those provisions would be repealed as of January 1, 2009.

Under existing law, violation of the Fish and Game Code is a misdemeanor. By changing the scope of a crime, the bill would impose a state-mandated local program.

(4) Existing law establishes fees for commercial fish business licenses, fish receiver's licenses, marine aquaria receiver's licenses, fisherman's retail licenses, fish processor's licenses, fish wholesaler's licenses, and fish importer's licenses.

This bill would increase the fees for those licenses.

(5) Under existing law, of the money collected from fees for lifetime sportsman's licenses, lifetime hunting licenses, and lifetime sport fishing licenses, $20 is required to be deposited in the Fish and Game Preservation Fund, and the remaining money into the Lifetime License Trust Account in that fund.

This bill would instead require that $20 from the initial issuance of those licenses be deposited into the fund, and the remaining money into that account.

Under existing law, the department is required annually to transfer from that account to the fund a certain amount.

This bill would change the amount transferred from the account into the fund.

(6) Existing law imposes a registration and renewal fee on the owner of each aquaculture facility. Existing law imposes a surcharge on that fee if the gross annual sales of aquaculture products exceed a certain amount.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would increase those fees and that surcharge.

(7) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the Department of Fish and Game and the Fish and Game Commission to pay all necessary expenses incurred in carrying out the Fish and Game Code, and to pay the compensation and expenses of the commissioners and employees of the commission. Unless otherwise provided, all money collected under the code is deposited in the fund.

By imposing new duties on the department, and increasing revenues deposited in the fund, the bill would make an appropriation.

(8) Existing law authorizes the Director of Pesticide Regulation to adopt regulations and establish minimum requirements in connection with licenses and certificates pertaining to pesticides. Existing law also specifies various fees for and in connection with various licenses, and certificates, including examinations for the same, renewals, late fees, and other charges in connection thereto.

This bill would instead provide the director with authority to set these fees by regulation, as prescribed. The bill would provide that the fees collected would be deposited in the Department of Pesticide Regulation Fund, and would be available for expenditure by the department, upon appropriation, for the purposes of carrying out various specified pesticide licensing and certification programs. This bill would also make conforming changes to provisions of law in connection with the fees and charges to be set by regulation.

Until July 1, 2004, existing law requires every registrant of a pesticide product to pay the Director of Pesticide Regulation an assessment of 17.5 mills per dollar of sales for all sales by that person of registered pesticides for use in this state. Existing law provides that effective July 1, 2004, and thereafter, the mill assessment rate would be reduced to 9 mills per dollar of sales, for all sales of pesticide for use in this state. Existing law also provides that the director may lower the mill assessment rate, when in addition to other criteria, the director determines that revenues collected would result in a reserve amount greater than $2.5 million.

This bill would instead provide that from January 1, 2003, through December 31, 2003, the rate would be 17.5 mills. The bill would further provide that for all transactions on or after January 1, 2004, the rate would be set by regulations adopted by the director, but not to exceed 21 mills per dollar of sales. The bill would further provide that if the regulations are not adopted before a payment of the assessment is due, payment would be made at the rate of 17.5 mills and, upon adoption of the regulations, payment of any additional amount would be due and payable. This bill would delete the authority of the director to lower the mill assessment rate, when in addition to other criteria, the director determines that revenues collected would result in a reserve amount greater than $2.5 million. This bill would provide that the regulations pertaining to the mill assessment rate are deemed emergency regulations, as specified.

Existing law also provides that until July 1, 2004, an additional 3/4 mill assessment may be collected, if necessary, to fund certain duties of the Department of Food and Agriculture, as specified. Existing law also provides for the deposit of these funds and their use, upon appropriation by the Legislature for specified purposes. Existing law provides for the repeal of these provisions on July 1, 2004.

This bill would extend the operation of these provisions indefinitely, by deleting the repeal provisions.

Existing law establishes the Department of Pesticide Regulation and charges it with various duties.

This bill would require the department to create a program to conduct outreach and education for worker safety, environment safety, school safety, and proper pesticide handling and use. The bill would state the intent of the Legislature as to funding from the General Fund in the annual Budget Act or from the Department of Pesticide Regulation for that program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(9) Under existing law, the Seismic Safety Commission is charged with reporting annually to the Governor and to the Legislature on its findings, progress, and recommendations relating to earthquake hazard reduction.

This bill would create the Seismic Safety Account and would, until July 1, 2007, allow the Legislature to appropriate money in this account for specified purposes. It would, with specified exceptions, require the department to impose an annual assessment on insurers for these purposes, and would allow insurers to recover the amount of this assessment in an equitable fashion from insureds. The bill would require the department to report annually to the Legislature, the commission, and the Department of Finance on the assessment calculation methodology employed.

The bill would provide that, under certain circumstances, the Insurance Fund may loan funds to the Seismic Safety Account, as specified, and would require that any loan be repaid from the assessment described above.

(10) Under existing law, the State Board of Forestry and Fire Protection is required to classify all lands within the state for the purpose of determining areas in which the financial responsibility of preventing and suppressing fires is primarily the responsibility of the state. The prevention and suppression of fires in areas that are not so classified is primarily the responsibility of local or federal agencies.

This bill would impose an annual state responsibility area fire protection benefit fee on each parcel of land located, in whole or in part, within state responsibility areas, except on specified parcels. The bill would provide a fee amount for each parcel. The bill would specify the fees to be imposed for the 2003–04 and 2004–05 fiscal years.

The bill would require counties to collect the fees, as prescribed, thereby imposing a state-mandated local program, and would authorize the counties to increase the benefit fees collected, in an amount to cover their reasonable costs in collecting the fees.

The bill would create the State Responsibility Area Fire Protection Fund and would require the benefit fees collected to be deposited in the fund, to be available, upon appropriation by the Legislature, for fire prevention and suppression services by the Department of Forestry and Fire Protection.

The bill would require the Director of Forestry and Fire Protection, in consultation with specified entities, to convene a stakeholder group to evaluate the method by which fire protection and suppression services in state responsibility areas are provided, and to make a specified report to the Legislature on or before January 1, 2006.

(11) Existing law requires an electric utility to obtain certification from the State Energy Resources Conservation and Development Commission before commencing construction of a thermal powerplant or electric transmission line, with specified exceptions. In order to obtain certification, existing law requires an application for certification of the site and related facility to be filed with the commission, to be in a form and contain information prescribed by the commission, and to be for a site and related facility that has been found to be acceptable by the commission, as specified. Existing law requires that the commission prepare a written decision after a public hearing on an application for certification, which contains specified information.

This bill would require a person who submits to the commission an application for certification for a proposed generating facility to accompany the application with a fee of $100,000 plus $250 per megawatt of gross generating capacity of the proposed facility, the total fee not to exceed $350,000. The bill would require each person who receives certification of a proposed generating facility to pay an annual fee of $15,000, the first annual payment to be due on the date the bill takes effect, or, for a facility certified on or after the date the bill takes effect, on the date the commission adopts the final decision. The bill would specify that all subsequent payments are due by July 1 of each subsequent year in which the facility retains its certification. The bill would require both fees to be adjusted annually as specified. The bill would not require a fee to accompany an application for certification or an annual fee thereafter for a generating facility that uses a renewable resource, as defined,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

as its primary fuel or power source. The bill would create the Energy Facility License and Compliance Fund in the State Treasury and would require the above fees received by the commission to be remitted to the Treasurer for deposit in the fund. The bill would require the money in the fund to be expended, upon appropriation by the Legislature, for processing applications for certification and for compliance monitoring.

Existing law authorizes the commission, after one or more hearings, to amend the conditions of, or revoke the certification for, a facility for specified reasons, including that the owner of a project does not start construction of the project within 12 months after the date all permits necessary for the project become final and all administrative and judicial appeals have been resolved. Existing law requires the commission to extend the start of the construction deadline by an additional 24 months if the owner reimburses the commission's actual cost of licensing the project.

This bill would require the commission to extend the start of the construction deadline for a facility by an additional 24 months if the owner reimburses the commission's actual cost of licensing the project, less the amount paid to the commission with the application for facility certification.

(12) Existing law requires a person applying for a permit to appropriate water to pay a filing fee of $100 to the State Water Resources Control Board and requires a person applying for a permit to appropriate water for purposes related to the development of certain hydroelectric energy facilities to pay an application fee, in an amount determined by the board, to cover the reasonable costs of the board and the Department of Fish and Game in evaluating and processing the application. Existing law also imposes fees upon a person registering or renewing registration of a small domestic or livestock stockpond use of water.

This bill would repeal those fees and would instead require a person or entity who holds a permit or license to appropriate water and a lessor of leased water to pay an annual fee according to a fee schedule established by the board. The bill would require each person or entity who files specified applications, registrations, petitions, or requests to pay a fee pursuant to a fee schedule established by the board. The bill also would require a person who files a proof of claim who files a notice to extract specified amounts of groundwater to pay a fee. The bill would require the board to establish a fee schedule setting those fees so that the total amount of fees equals that amount necessary to recover costs incurred in connection with those activities, including certain recoverable costs.

The bill would require the board to adopt the fee schedule as an emergency regulation and would provide for the collection and enforcement of those fees, with certain exceptions, in accordance with the Fee Collection Procedures Law. The bill would impose a state-mandated local program by requiring a sheriff or marshal to provide services in performing writs of execution pursuant to the Fee Collection Procedures Law in connection with the collection of certain fees imposed pursuant to the bill's provisions. Because a person who fails to comply with certain provisions of the Fee Collection Procedures Law is subject to a misdemeanor or felony, as applicable, the bill would impose a state-mandated local program by creating a new crime.

The bill would require the fees, expenses, and penalties collected under these fee provisions and other provisions regarding the determination of water rights to be deposited in the Water Rights Fund, which this bill would establish in the State Treasury. The bill would authorize the board to expend the money in the Water Rights Fund, upon appropriation by the Legislature, for the purposes of administration of the provisions of the bill, payment of certain refunds, and to carry out various provisions of the Water Code.

The bill would provide that these fees and expenses apply to the United States and to Indian tribes, to the extent authorized under federal or tribal law.

The bill would provide that a water lease does not take effect until the first annual fee is paid, and would prohibit the lease from continuing in effect in any subsequent year unless the annual fee for that year is paid.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would provide for the deposit of specified civil and criminal penalties into the Water Rights Fund and would make conforming changes with regard to existing fees.

(13) Existing law establishes fees for dam ownership and operation based on the height of the dam.

This bill would establish those fees based on a fixed rate and height, and would increase those fees. The bill would require the Department of Water Resources to adopt regulations that establish a schedule of fees to cover the department's costs in administering dam safety programs. The bill would impose a penalty on fees received late. The bill would establish the Dam Safety Fund, into which all fees and other specified revenues would be deposited, to be expended, upon appropriation by the Legislature, for the administration of the dam safety program.

(14) Existing law, the Porter-Cologne Water Quality Control Act, authorizes the board to establish a reasonable fee schedule to cover the cost of giving a certificate that is required or authorized by any federal law with respect to the effect of any existing or proposed facility, project, or construction work upon the quality of waters of the state.

This bill would authorize the board to establish a reasonable fee schedule to cover the state board's and the California regional water quality control board's costs incurred in connection with the certificate. The bill would authorize the board to provide for the recovery of specified costs in the fee schedule. The bill would authorize the fee schedule to impose a fee upon a person filing an application for a certificate, or a notice of intent to file an application for a certificate, a person holding a federal permit or license for which a certificate has been issued, and a person required to send a notice of intent to the state board or a regional board to proceed with activity permitted by a general permit.

The bill would require the board, if it adopts a fee schedule, to adopt the fee schedule as emergency regulations. The bill would require any fees collected in connection with certificates for activities involving hydroelectric power projects subject to licensing by the Federal Energy Regulatory Commission to be deposited in the Water Rights Fund.

(15) Under existing law, the term "matching funds" is defined, for purposes of the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002, as funds made available by nonstate sources.

This bill would state that, notwithstanding that definition, matching funds for a state agency may include state funds and services.

(16) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 742 (SB 1074) Committee on Environmental Quality. Environmental quality.

(1) Existing law, with certain exceptions, prohibits bodily contact with water in a reservoir in which water is stored for domestic use. Existing law authorizes, until January 1, 2004, recreational uses in the Modesto Reservoir if certain conditions are satisfied.

This bill would revise these conditions and delete the January 1, 2004, repeal date, thereby extending this authorization indefinitely. This bill would also authorize the department to require the Modesto Irrigation District to file a report, as specified, and demonstrate that water quality will not be affected, under certain circumstances.

The California Environmental Quality Act (CEQA) authorizes the plan or other written documentation of certain regulatory programs of state agencies to be submitted in support

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

of certain activities in lieu of an otherwise required environmental impact report if the Secretary of the Resources Agency has certified the regulatory program in the specified manner. Existing law requires the secretary to develop, by July 1, 2003, a protocol for reviewing the prospective application of certified regulatory programs to evaluate the consistency of those programs with CEQA requirements.

This bill would instead require the secretary to develop that protocol by July 1, 2004.

Existing law, for purposes of CEQA, defines an infill site to mean a site in an urbanized area that meets certain criteria.

This bill would revise these criteria.

Existing law requires any lead agency that is preparing an environmental impact report or a negative declaration, or making a determination pursuant to a specified provision of law, to provide public notice within a reasonable period of time prior to certification of the environmental impact report or adoption of the negative declaration.

This bill would change a cross-reference in this provision and make related changes.

Under existing law, a housing project qualifies for an exemption from CEQA if certain criteria are met.

This bill would revise that criteria.

Existing law prohibits the California Integrated Waste Management Board from spending more than $^1/_2$% of the total revenues deposited, or anticipated to be deposited, in the Integrated Waste Management Account during a fiscal year for the administration of certain provisions relating to the board's finances, during that fiscal year.

This bill would delete an obsolete provision in existing law.

(2) This bill would also amend Section 72410 of the Public Resources Code as proposed to be added by AB 121 to make clarifying changes, to be operative only if AB 121 is enacted and becomes effective on or before January 1, 2004.

Ch. 743 (AB 231) Steinberg. Food stamps: CalWORKs: benefits.

Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program and other social services programs, under which each county provides cash assistance and other benefits to qualified low-income families and individuals.

Existing law permits an applicant or recipient of benefits under the CalWORKs program to retain countable resources in an amount equal to the amount permitted under federal law for qualification for food stamps, and requires each county to determine the value of personal property and automobiles in conformance with methods established under the Food Stamp Program.

This bill would specify the method of determining the value of an automobile for purposes of determining those resources that may be retained by the applicant or recipient.

By increasing amounts of income and resources that will not be considered in determining CalWORKs recipient eligibility, the bill would increase the class of persons eligible for the CalWORKs program, and so would impose a state-mandated local program.

Existing law provides for the federal Food Stamp Program, under which each county distributes food stamps provided by the federal government to eligible households.

This bill would specify that rules governing the resource value of motor vehicles under the Food Stamp Program shall be aligned with an alternative program allowed under the federal Food Stamp Program. It would require the State Department of Social Services to seek any federal approvals necessary to implement this provision.

Existing law requires each county welfare department, to the maximum extent allowable under federal law, to provide transitional food stamp benefits to households terminating their participation in the CalWORKs program for a period of 5 months, as specified.

This bill instead would provide that, to the maximum extent allowable under federal law, each county welfare department shall provide transitional food stamp benefits to households terminating their participation in the CalWORKs program. The imposition of this new requirement on counties would create a state-mandated local program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing federal law establishes procedures for establishing eligibility under the federal Food Stamp Program, including the use of face-to-face interviews.

This bill would require each county welfare department, to the extent permitted by federal law, and except for good cause, to exempt a household from complying with face-to-face interview requirements at initial application and recertification but would permit a person eligible for an exemption from the face-to-face interview requirement to request a face-to-face interview to establish initial eligibility or comply with recertification requirements.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 744 (AB 529) Mullin. Family day care homes.

The California Child Day Care Facilities Act, provides for the licensing and regulation of child day care facilities, including family day care homes, by the State Department of Social Services. Existing law authorizes a small family day care home to provide day care for more than 6 and up to 8 children if certain conditions are met. Existing law also authorizes a large family day care home to provide day care for more than 12 children and up to and including 14 children if certain conditions are met. One of these conditions applicable to both small and large family day care homes is that at least 2 of the children be at least 6 years of age.

This bill would instead allow the above referred condition to be met if at least one child is enrolled in and attending kindergarten or elementary school and a 2nd child is at least 6 years of age.

Ch. 745 (AB 766) Longville. Type 2 diabetes mellitus: pupil screening.

Existing law requires the governing boards of school districts to provide a scoliosis screening of every female pupil in grade 7 and every male pupil in grade 8, in accordance with specified guidelines.

This bill would establish a 3-year pilot program whereby any school district may participate in the program and would require those participating school districts, in conjunction with the scoliosis screening, to screen pupils for the risk of developing type 2 diabetes mellitus. The bill would specify individuals who may perform and supervise the screenings, and would prescribe procedures for the screening process, including, but not limited to, compliance with standards and procedures developed by the State Department of Education. The bill would provide for parent or guardian notification of any pupil suspected of being at elevated risk of developing type 2 diabetes mellitus, as described in the bill.

The bill would require the school districts to report to the State Department of Education by June 30, 2006, would repeal the pilot program on January 1, 2008, and would prescribe other, related matters.

Ch. 746 (AB 879) Koretz. Human immunodeficiency virus: post-exposure prophylaxis: task force.

Existing law makes provision for various programs relating to treatment of persons with the human immunodeficiency virus (HIV) and the acquired immune deficiency syndrome (AIDS). Under existing law, the Office of AIDS in the State Department of Health Services, which is the lead agency within the state, is responsible for coordinating state programs, services, and activities relating to HIV and AIDS, and AIDS-related conditions (ARC).

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require the department, through the Office of AIDS, to appoint and convene a task force, under specified conditions, to develop recommendations for the use of post-exposure prophylaxis (PEP) in the general population, for the prevention of HIV infection. The bill would also establish requirements for task force membership.

Ch. 747 (AB 999) Jerome Horton. Medi-Cal: dental restorative materials.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and certain other low-income persons.

Existing law includes emergency and essential diagnostic and restorative dental services, and dental prophylaxis cleanings and dental examinations within the scope of benefits that may be provided to eligible recipients under the Medi-Cal program.

This bill would authorize Medi-Cal providers to recommend, after consultation with the beneficiary, and to receive reimbursement for, certain dental restorative materials other than the covered benefit of amalgam.

Ch. 748 (AB 1196) Montanez. Drugs.

Existing law, the Nursing Practice Act, licenses and regulates nurse practitioners and authorizes a nurse practitioner to furnish drugs or devices that are classified as Schedule III to Schedule V controlled substances under the California Uniform Controlled Substances Act, subject to certain conditions. Existing law makes a violation of the act a misdemeanor.

This bill would expand these provisions to include drugs or devices that are classified as Schedule II controlled substances under the California Uniform Controlled Substances Act. The bill would establish additional requirements for a nurse practitioner who is authorized to furnish drugs or devices. The bill would require nurse practitioners to complete a continuing education course including Schedule II controlled substances based on standards developed by the board.

Existing law provides for the electronic monitoring of prescribing and dispensing of Schedule II controlled substances pursuant to the Controlled Substance Utilization Review and Evaluation System (CURES) program. The program is contingent upon the availability of adequate funds from the Contingent Fund of the Medical Board of California, the Pharmacy Board Contingent Fund, the State Dentistry Fund, and the Osteopathic Medical Board of California Contingent Fund.

This bill would add the Board of Registered Nursing Fund to the fund list.

By increasing the scope of the Nursing Practice Act, the violation of which is a misdemeanor, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would incorporate additional changes to Section 11165 of the Health and Safety Code proposed by SB 151, to be operative only if this bill and SB 151 are both enacted and become effective on or before January 1, 2004, and this bill is enacted last.

Ch. 749 (AB 1676) Dutra. Human immunodeficiency virus: maternal and newborn health.

Existing law requires a physician and surgeon to obtain a blood specimen from a pregnant woman before or at the time of delivery. Existing law requires the blood specimen to be tested for rhesus (Rh) blood type and the presence of the hepatitis B surface antigen.

This bill would require that the blood specimen also be tested for the presence of the human immunodeficiency virus (HIV). Under the bill, HIV testing would not be required if the pregnant woman has been previously determined to be chronically infected with HIV, as specified. The bill would require certain medical care providers to report a positive test result

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

to the local health officer, and to ensure that the woman is informed of, among other things, the purpose of testing and that the woman has a right to refuse testing.

This bill would also require the department, in consultation with the Office of AIDS and other specified organizations, to develop, by December 31, 2004, culturally sensitive informational material concerning HIV testing to assist the medical care provider in fulfilling his or her obligations under these provisions. The bill would require that the materials provide information on available referral and consultation resources of experts in prenatal HIV treatment.

This bill would require that once the results of any tests conducted are received, the physician and surgeon or applicable care provider shall ensure that the woman receives information and counseling, as appropriate, to explain the results and the implications to the mother's and infant's health, including any followup care that is indicated.

Ch. 750 (SB 130) Chesbro. Health and care facilities: use of seclusion and behavioral restraints.

Existing law provides for the licensure and regulation of health facilities, including various types of hospitals that provide mental health treatment services, by the State Department of Health Services.

Existing law, the California Community Care Facilities Act, provides for the licensure and regulation of community care and residential facilities by the State Department of Social Services. Existing law authorizes these facilities to provide mental health treatment services.

Under existing law, the State Department of Mental Health is charged with the state administration of state hospitals for the mentally disordered and the State Department of Developmental Services is charged with the administration of state institutions for the developmentally disabled.

Under existing law, these facilities are authorized to provide secure containment or use seclusion and restraints, as specified, on patients.

This bill would require the California Health and Human Services Agency, to provide leadership and coordination necessary to reduce the use of seclusion and behavioral restraints in facilities that are licensed, certified, or monitored by the above departments that fall within the agency's jurisdiction. This bill would provide that the agency shall not be required to implement these provisions if implementation cannot be achieved within existing resources unless additional funding becomes available for this purpose.

This bill would require the State Department of Mental Health and the State Department of Developmental Services to develop technical assistance and training programs to support the efforts of facilities operated by these departments to reduce or eliminate the use of seclusion and behavioral restraints in those facilities, and to take steps to establish a system of data collection. This bill would require that facilities operated by these departments report each death or serious injury of a person occurring during, or related to, the use of seclusion or behavioral restraints.

This bill would require the Secretary of the California Health and Human Services Agency, or his or her designee, to develop technical assistance and training programs to support the efforts of facilities, including psychiatric units of general acute care hospitals, acute psychiatric hospitals, psychiatric health facilities, crisis stabilization units, community treatment facilities, group homes, skilled nursing facilities, intermediate care facilities, community care facilities, and mental health rehabilitation centers, to reduce or eliminate the use of seclusion and behavioral restraints in these facilities, and to take steps to establish a system of data collection. The bill would require that these facilities report each death or serious injury of a person occurring during, or related to, the use of seclusion or behavioral restraints. This bill would provide that neither the agency nor any department shall be required to implement these provisions if implementation cannot be achieved within existing resources unless additional funding becomes available.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would authorize specified facilities to use seclusion and behavioral restraints for behavioral emergencies only when a person's behavior presents an imminent danger of serious harm to the person or others, would require an initial assessment of each person upon admission for these purposes, and would prohibit specified facilities from using specified types of seclusion and behavioral restraints. This bill would also require these facilities to conduct reviews, as specified, for each episode of the use of seclusion or behavioral restraint, to conduct debriefings, as specified, and to document the incident.

This bill would require the State Department of Health Services, the State Department of Mental Health, the State Department of Social Services, and the State Department of Developmental Services to make annual reports to the Legislature on these provisions.

Ch. 751 (SB 436) Soto. Public employees' retirement system: health plan contracts.

(1) The Public Employees' Medical and Hospital Care Act permits the Board of Administration of the Public Employees' Retirement System to enter into contracts with specified entities offering health benefits plans or related administrative services, not to exceed 3 years.

This bill would eliminate the 3-year limitation on these contracts.

(2) Existing law permits any contracting agency, as defined, to elect by resolution to participate in the Public Employees' Retirement System, as specified, for health benefits plans.

This bill would permit the Board of Administration by regulation to require that these contracting agencies comply with certain board-determined criteria prior to participation in the system. The bill would further permit the Board of Administration to contract for, or approve, health benefits plans for employees and annuitants of contracting agencies that charge rates based on regional variations in the costs of health care services, and to adjust the contract rates of health benefits plans for those employees and annuitants according to the same regional variations in cost, except as specified. The bill would also make related conforming changes and nonsubstantive, technical changes to these provisions.

(3) Specified funds received from health benefits plans are deposited in the Public Employees' Contingency Reserve Fund and are continuously appropriated for specified purposes.

This bill would allow additional payments to be maintained in the Public Employees' Contingency Reserve Fund, as specified, thereby making an appropriation.

Ch. 752 (AB 17) Kehoe. State contracts: acquisition of goods or services.

Existing law authorizes the Department of General Services to contract with suppliers to acquire goods and services for state agencies.

This bill would prohibit a state agency from entering into a contract for the acquisition of goods or services in the amount of $100,000 or more with a contractor who, in the provision of benefits, discriminates between employees with spouses and employees with domestic partners, or discriminates between the domestic partners and spouses of those employees, except under specified circumstances. This bill would exempt certain contracts from the bill and would specify that a contractor is not deemed to discriminate between employees with spouses and employees with domestic partners in the provision of benefits if the contractor, in providing the benefits, pays for the actual costs incurred in obtaining the benefit.

This bill would also require that every state contract to acquire goods and services contain a statement by the contractor certifying that the contractor is in compliance with these provisions. The bill would require that the contract be subject to certain penalties if the contractor falsely certifies its compliance, unless the contractor provides proof that it has complied, or is in the process of complying, with these provisions.

Ch. 753 (AB 28) Jackson. Public resources.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) The existing California Beverage Container Recycling and Litter Reduction Act requires a distributor of specified beverage containers to pay a redemption payment to the Department of Conservation, for each beverage container, as defined, sold or offered for sale, for deposit in the California Beverage Container Recycling Fund. Existing law sets the amount of the redemption payment as 2.5¢ for every beverage container, and 5¢ for beverage containers with a capacity of 24 or more fluid ounces. The department is required to pay a processor the refund value for every empty beverage container received by the processor from a recycler and existing law sets the refund value as 5¢ for every 2 beverage containers redeemed or for a single beverage container with a capacity of 24 or more ounces and 3¢ for a single beverage container. The money in the fund is continuously appropriated to the department to pay refund values, processing payments, and for other purposes.

A violation of the act is a crime.

This bill would increase the amount of the redemption payment to 4¢ for every beverage container sold or offered for sale and would increase the redemption payment for beverage containers with a capacity of 24 or more ounces to 8¢. The bill would increase the refund value to 8¢ for every 2 beverage containers redeemed or for a single beverage container with a capacity of 24 or more ounces, and 4¢ for a single beverage container. The bill would also provide for an increase in the amount of the redemption payment and refund value, on and after July 1, 2007, to 5¢ and, if the beverage container has a capacity of 24 ounces or more, to 10¢, if the aggregate recycling rate for all beverage containers subject to the act is less than 75% for the 12-month reporting period from January 1, 2006, to December 31, 2006, or for any calendar year thereafter. Since these funds would be deposited in a continuously appropriated fund, the bill would make an appropriation. The bill would also make conforming changes regarding the labeling requirements for beverage containers subject to the act.

(2) The existing act authorizes the department to pay a quality glass incentive payment of up to $25 per ton, not to exceed a total amount of $3,000,000 per calendar year. The department is authorized to make these payments to an operator of any curbside recycling program or any certified entity that color-sorts glass beverage containers for recycling.

This bill would increase the amount of the payment to $30 per ton.

(3) The act requires the department to annually pay curbside programs and neighborhood dropoff programs a per-container rate calculated on the volume of containers collected during the fiscal year.

This bill would revise the method of determining the volume of beverage containers collected, for purposes of these payments, to the volume collected during the calendar year.

(4) Under the act, whenever a glass container manufacturer rejects a load of redeemed glass, the glass container manufacturer is required to fill out a standardized rejection form. A certified processor seeking to dispose of those containers is prohibited from disposing of those rejected postfilled containers unless the certified processor first submits to the department, in writing, a request to dispose of the rejected material. Existing law requires glass container manufacturers and processors to take all possible steps to avert the disposal of the loads of postfilled containers, as determined by the department.

This bill would revise these provisions to instead require every container manufacturer to fill out a standardized rejection form and would include all beverage container materials within those disposal prohibitions. Because a violation of the act is a crime, the bill would impose a state-mandated local program by changing the definition of a crime.

(5) Existing law requires the department to annually review and, if necessary in order to ensure payment of the most accurate commingled rate feasible, recalculate commingled rates paid for beverage containers and postfilled containers paid to curbside recycling programs, collection programs, and recycling centers.

This bill would require the department to conduct this review by the 90th day after the effective date of the bill, and annually thereafter.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would authorize the department to calculate a specified curbside recycling program commingled rate for bimetal containers and specified types of plastic containers. The bill would authorize the department to enter into a contract to calculate the commingled rate and would authorize the department to not calculate the commingled rate, if the department determines specified revenues are insufficient to pay for that contract.

(6) The existing act requires the department to calculate a processing fee and a processing payment for each beverage container with a specified scrap value. The scrap value is required to be based upon the actual costs for recycling a container type and the department is required to make this determination every 3rd year. The processing fee is required to be paid by beverage manufacturers for each beverage container sold or transferred to a distributor or dealer. The department is required to set the processing fee to equal 65% of the processing payment that the department pays to processors, but the department is required to reduce the amount of the processing fee, based upon the availability of funds in each materials processing fee account for that beverage material type, so that the amount of the processing fee equals 25% of the processing payment.

Existing law requires the department to deposit the processing fees and an amount of funds equal to 75% of the processing payments in separate processing fee accounts in the fund, and the money in each processing fee account is continuously appropriated to the department to pay processing payments and reduce processing fees. A processing fee is not imposed on a PET plastic beverage container if a willing purchaser offers to purchase empty PET plastic beverage containers at a voluntary artificial scrap value, as defined, that, when combined with specified payments, is equal to, or more than the recycling cost.

This bill would require the department to calculate the processing payments for 2003, based on the January 1, 2002, recycling costs, and to determine the actual costs for certified recycling centers, on and after January 1, 2004, every 2nd year, as annually adjusted for inflation.

The bill would delete the requirement that the department reduce the amount of the processing fee to equal 25% of the processing payment, and would instead require that the processing fee be reduced to a specified percentage of the processing payment, based on the recycling rate of that container type. The bill would also revise the amount of funds that the department is required to deposit in the separate processing fee accounts in accordance with the changes made by the bill, thereby making an appropriation. The bill would prescribe the recycling costs for non-PET plastic containers for the January 1, 2002, calculation of the processing fee.

The bill would authorize the department to adjust the amount of the processing payment not more than once every 3 months, if the department makes certain determinations.

This bill would revise the definition of voluntary artificial scrap value and would instead prohibit the imposition of a processing fee on PET plastic containers, if a willing purchaser offers to purchase empty PET containers at a voluntary artificial scrap value that is equal to the reduced processing fee when applied to all containers sold.

The bill would require the department to establish a supplemental processing payment that would be paid by the department to a processor, who would be required to pay that amount to a recycler. The bill would authorize a recycler to receive a supplemental processing payment if the recycler receives processing payments and would require those supplemental processing payments to be based on the volume of redeemed containers subject to that supplemental processing fee that the recycler reports for each whole month, commencing on July 1, 2004, and continuing for a period of 12 consecutive months. The bill would specify the amount of the supplemental processing payments for glass, PET plastic containers, and HDPE plastic containers. The bill would require a recycler to report to a processor the volume of redeemed containers subject to the supplemental processing payments. The bill would require the department to pay the supplemental processing payments on eligible redeemed containers to processors in the same manner as it pays refund values, except as specified.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would require the department to establish a processing fee rebate for manufacturers for all beverage containers for which a processing fee was paid on containers sold between January 1, 2002, and December 31, 2003. The bill would continuously appropriate the money in the fund to the department to make those rebates, thereby making an appropriation.

(7) Existing law requires the department to pay a total of $23,500,000 annually in handling fees to supermarket sites and certain recyclers to provide an incentive to redeem beverage containers, and requires, as a condition of eligibility for these payments, that the site or recycler redeem not less than 60,000 beverage containers and, except for nonprofit organizations, not more than 500,000 beverage containers, during the calendar month in which the handling fee is claimed.

This bill would increase, as of July 1, 2002, to $26,500,000 the amount the department is annually required to expend to pay these handling fees, thereby making an appropriation. The bill would provide for an alternative handling fee eligibility requirement of having redeemed an average of not less than 60,000 beverage containers per month during the previous 12 months and would delete the limit of 500,000 beverage containers.

(8) Existing law requires the department to annually expend $300,000 until January 1, 2003, pursuant to a cooperative agreement with Keep California Beautiful, to conduct a statewide public education campaign to prevent and cleanup beverage container litter. Under the existing program, $500,000 may be expended annually in the form of grants for beverage container recycling and litter reduction programs. Existing law requires the department to expend, from January 1, 2000, to January 1, 2002, up to $10,000,000 for a statewide public education campaign to promote increased recycling.

This bill would extend the date for the statewide public education campaign to prevent and cleanup beverage container litter to January 1, 2005, thereby making an appropriation. The bill would authorize the department to annually expend up to $5,000,000 for a statewide public education campaign to increase recycling, thereby making an appropriation. The bill would increase to $1,500,000, the sum authorized to be spent annually in the form of grants for beverage container recycling and litter reduction programs, thereby making an appropriation. The bill would authorize the department to spend up to $10,000,000 annually, until January 1, 2007, to issue grants for recycling market development and expansion-related activities aimed at increasing the recycling of beverage containers, thereby making an appropriation.

The bill would authorize the department to transfer up to $10,000,000 to the Recycling Infrastructure Loan Guarantee Account on a one-time basis, which the bill would create as a revolving account in the California Beverage Container Recycling Fund. The bill would continuously appropriate the money in the account to the department to issue loan guarantees for capital expenditures for new recycling infrastructure located in the state and would allow the department to issue a loan guarantee from the account only if the department makes specified determinations.

(9) The California Beverage Container Recycling and Litter Reduction Act defines "convenience zone" for the purposes of the act and requires that every convenience zone be served by at least one certified recycling center, with specified operating hours. The act requires, if the recycling center consists of reverse vending machines or other unmanned automated equipment, that the equipment be properly functioning, accept all types of empty beverage containers at the recycling location, and pay posted refund values.

This bill would require the department, from January 1, 2004, to December 31, 2006, inclusive, to establish a pilot program using supermarket sites that use both reverse vending machines and staffed recycling centers to determine whether or not these recycling centers increase recycling rates and provide greater convenience and ease of use for consumers. The bill would provide that a recycling center that is a supermarket site and consists of reverse vending machines is open for business for purposes of the act if the department authorizes the supermarket site to participate in the pilot program, pursuant to specified eligibility

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

requirements, and the supermarket site complies with specified operating requirements. The bill would require a supermarket site participating in the pilot program to be operational at least 95% of operable time, as defined, to provide a receptacle adjacent to the reverse vending machine for certain types of beverage containers larger than 3 liters, and to be open for business at least 20 hours per week.

The bill would require a supermarket site participating in the pilot project to be open for business for at least 30 hours each week if the department determines that the volume of beverage containers redeemed at the supermarket site has decreased by a specified amount. The bill would require the department to monitor the volume of beverage containers redeemed at each supermarket site participating in the pilot program at least once every 3-month period, and to conduct an annual review of each supermarket site participating in the pilot program.

The bill would repeal the authorization for the pilot program January 1, 2007, unless a later enacted statute that is enacted before January 1, 2007, deletes or extends that date. The bill would require the department to report to the Governor and Legislature by July 1, 2006, on the effectiveness of the pilot program and make recommendations.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 754 (AB 161) Steinberg. Firearms.

Existing law authorizes the Department of Justice to require a firearms dealer to charge a fee to reimburse certain expenses incurred by the department in connection with checking the backgrounds of prospective firearms purchasers. Existing law also provides that these fees may not be used directly or as a loan to fund other programs.

This bill would recast those provisions to provide that the fees may be used to fund firearms-relatedregulatory and enforcement programs, as specified.

Existing law, subject to a contingency, requires persons licensed as a firearms dealer, importer, manufacturer, or collector, as specified, to provide a copy of that license to the Department of Justice, as specified. Existing law regulates the licensing of firearms dealers and various dealer activities including, among other things, the transfer of firearms by dealers, and, subject to a contingency, requires verification of certain firearms dealers' licenses under specified circumstances. Existing law makes operation of those provisions effective January 1, 2004, contingent upon a specified amount of money being in reserve in the Dealers' Record of Sale Special Account.

This bill would provide that those provisions, the operation of which is currently subject to a contingency, would become operative on January 1, 2004.

This bill would make an appropriation of $548,000 from the Dealer's Record of Sale Special Account to the Department of Justice for the purpose of implementing the provisions requiring verification of certain firearms dealers' licenses in specified circumstances.

Ch. 755 (AB 163) Nation. Public education.

(1) Existing law requires the Governor, with the recommendation of the Superintendent of Public Instruction, to appoint 3 deputy and 3 assistant superintendents of public instruction who are exempt from civil service.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would increase those appointments to 5 deputy and 5 associate superintendents of public instruction.

(2) Existing law requires a school district's application to implement a program to reduce class size in two courses in grade 9 to comprise certain elements including, among others, that the grade 9 course or the 2 grade 9 courses included in the program count toward completion of specified graduation requirements and that reduced size classes on the average have no more than 20 pupils per certificated teacher and no more than 22 pupils in any participating class. Existing law, except as otherwise provided, authorizes any school district that maintains grade 9 to apply to the Superintendent of Public Instruction for an apportionment to implement that program.

This bill would authorize the Tamalpais Union High School District, on a pilot project basis, to reduce class size in grade 9 to a maximum of 25 pupils per certificated teacher in each of the 4 core subject areas of English, mathematics, science, and social sciences, subject to an agreement with the certificated staff exclusive representative for collective bargaining. This bill would declare the pilot project to be inoperative on and after July 1, 2006, and repealed as of January 1, 2007.

The bill would declare that, due to the unique situation of the Tamalpais Union High School District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

(3) Existing law authorizes the State Board of Education to waive the fiscal penalties for a school district or county office of education that fails to maintain the minimum length of time for the instructional school year, minimum number of instructional days for the school year, or both.

This bill would provide that for purposes of calculating instructional days and minutes in the 2001–02 fiscal year for schools operating on a single track year-round calendar, the Fairfield-Suisun Unified School District's 2001–02 school year is deemed to have commenced on September 4, 2001, and to have concluded on July 24, 2002.

This bill would make a legislative finding and declaration that due to the unique circumstances surrounding the Fairfield-Suisun Unified School District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

Ch. 756 (AB 278) Bermudez. Gambling Control Act.

(1) Existing law makes it a misdemeanor to operate a controlled game, as defined, without the licenses required by law. These provisions also regulate the collection of player's fees in licensed gambling establishments.

This bill would revise the definition of controlled game to apply to poker, Pai Gow, and any other game played with cards or tiles, or both, that is approved by the Division of Gambling Control. The bill would impose a state-mandated local program by expanding the definition of a crime. The bill would also revise the regulation of provisions relating to player's fees with respect to the waiver of the collection of a fee or portion of the fee by a gambling establishment.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 757 (AB 296) Oropeza. State and local government.

(1) Existing law authorizes the Department of General Services and the Director of General Services to perform specified activities for the purpose of achieving improved levels of performance. These provisions become inoperative on the effective date of the Budget Act of 2003, or June 30, 2003, whichever occurs later, and are repealed as of January 1, 2004.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would delete the inoperative date and the repeal date of these provisions.

(2) Existing law specifies that no agency is required to use the Office of State Publishing for its printing needs, but that the Office of State Publishing may offer printing services to both state and other public agencies and agencies of the United States government. When soliciting bids for printing services from the private sector, state agencies are required to also solicit a bid from the Office of State Publishing when the project is anticipated to cost more than $5,000. The Office of State Publishing is authorized to accept paid advertisements under specified conditions. These provisions become inoperative on the effective date of the Budget Act of 2003, or June 30, 2003, whichever occurs later, and are repealed as of January 1, 2004.

This bill would eliminate these provisions, but would, except for the authorization for the Office of State Publishing to accept paid advertisements, reenact these provisions. These provisions would become inoperative on the effective date of the Budget Act of 2004, or July 1, 2004, whichever is later, and would be repealed on January 1, 2005.

(3) Until January 1, 2005, or earlier, as specified, the Rural Health Care Equity Program, as administered by the Department of Personnel Administration, provides subsidies and reimbursements for certain health care premiums and health care costs incurred by state employees and annuitants in rural areas in which there is no board-approved health maintenance organization plan available for enrollment. Chapter 228 of the Statutes of 2003, on and after January 1, 2004, limits these subsidies and reimbursements to annuitants who reside in California, and makes ineligible those annuitants who become residents of another state on or after July 1, 2003.

This bill would instead provide that the California residency requirements under the program become operative on and after January 1, 2004.

(4) The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. The Bradley-Burns Uniform Local Sales and Use Tax Law (Bradley-Burns Law) authorizes a county to impose a local sales and use tax at a rate of $1^1/_4$%, and similarly authorizes a city, located within a county imposing such a tax rate, to impose a local sales tax rate of 1% that is credited against the county rate. Existing law provides that on and after July 1, 2004, until a specified date after the Director of Finance makes a specified notification to the State Board of Equalization, that the tax rate authorized to be imposed under the Bradley-Burns Law be reduced to a specified percentage. During this period, existing law requires each county auditor to annually allocate a portion of property revenues into a Sales and Use Tax Compensation Fund, for allocation to the county and cities for reimbursement of local sales tax revenue losses resulting from the reduction of the amount of taxes imposed under the Bradley-Burns Law.

Existing law authorizes the Board of Supervisors of the County of Orange to elect, by resolution, to guarantee payment under a financing agreement, or to guarantee payment under an agreement to finance the lease or lease-purchase of property through the issuance of certificates of participation or lease revenue bonds pursuant to specified procedures, including notice to the Controller and a schedule for transfer of moneys to a trustee for payments under the agreement.

Existing law requires that specified portions of taxes collected by the State Board of Equalization from taxes imposed by the County of Orange pursuant to the Bradley-Burns Law, as specified, be pledged to all certificates of participation or lease revenue bonds issued during the years 1996 and 1997, not to exceed the amount to be paid in those fiscal years on those certificates of participation or lease revenue bonds.

This bill would make conforming amendments to existing law to specifically provide, among other things, that moneys allocated to the County of Orange from the County of Orange's Sales and Use Tax Compensation Fund, for reimbursement of the losses resulting from the reduction of the amount of taxes imposed under the Bradley-Burns Law, are

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

similarly pledged to all certificates of participation or lease revenue bonds issued during the years 1996 and 1997.

(5) Existing law establishes, until July 1, 2006, a $500 fee to be paid by each party for filing specified papers requesting or opposing the designation of a case as a complex case, and requires payment of the same fee by each party whenever a case is otherwise designated as a complex case upon order of the court. Existing law requires these fees to be deposited in a special account in the county treasury and transmitted therefrom monthly to the Controller for deposit in the Trial Court Trust Fund. Existing law also specifies that these fees are in addition to total filing fees and specified surcharges, and provides for the enforcement of these requirements.

This bill would specify that these fees be charged in all complex cases filed on or after August 18, 2003. The bill would impose a limitation of $10,000 on the total amount of fees collected from all plaintiffs, and the same from all defendants, intervenors, respondents, or adverse parties appearing in a complex case. The bill would also provide for reimbursement of fees upon a specified circumstance.

Existing law specifies the fees for various filings in probate court.

This bill would revise the documents to which these fees apply and provide that these fees are for trusts as well as estates of specified value. The bill would also revise provisions governing the petitioner's valuation of a decedent's estate, and provide for the reimbursement of an original petitioner for specified fees he or she has paid.

Existing law provides for court reporter fees, as specified, plus a one-time $25 fee to each party upon filing a first paper, except as specified.

This bill would delete the requirement that the one-time $25 fee be paid by each party.

Existing law establishes the Appellate Court Trust Fund, to be apportioned by the Judicial Council upon appropriation by the Legislature, as specified.

This bill would revise the provisions governing the apportionment of funds in the Appellate Court Trust Fund by the Judicial Council, as specified.

Existing law imposes a $20 filing fee surcharge in certain cases to fund court security.

This bill would impose an additional $20 or $10 surcharge in certain cases, for a specified period.

(6) Existing law establishes the Uninsured Employers Benefits Trust Fund and the Subsequent Injuries Benefits Trust Fund, which replaced the Uninsured Employers Fund and the Subsequent Injuries Fund, respectively. Existing law provides, commencing January 1, 2004, that all references to the old funds shall mean the new funds.

This bill would delete the January 1, 2004 date, thereby changing these references upon the effective date of this bill.

(7) Existing law authorizes the Department of General Services to establish a negotiation process that may be used during various stages of the procurement process when the department procures goods, services, construction services, or information technology for itself or on behalf of another state agency.

This bill would, until July 1, 2006, instead authorize that negotiation process relative to contracts for goods, services, information technology, and telecommunications, and authorize the department to negotiate amendments to existing contracts, as provided. This bill would make those provisions inoperative on July 1, 2006.

(8) Existing law, the California Integrated Waste Management Act of 1989, establishes an integrated solid waste management program that is administered by the California Integrated Waste Management Board. Existing law requires the Governor to appoint one adviser for each member of the board upon the recommendation of the board member and provides that the adviser serving the chairperson of the board is to be known as the principal adviser. Existing law prohibits an appointed adviser from selecting an additional deputy or employee and prohibits the board from expending any funds to pay for the salary of a deputy or employee of an adviser. Existing law also prohibits a board member or adviser from

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

collecting per diem or travel expenses for attending a meeting at the board headquarters or for traveling to or from the board headquarters.

This bill would delete the requirement that the adviser serving the chairperson of the board is to be known as the principal adviser and would delete the prohibitions on an appointed adviser selecting an additional deputy or employee. The bill would also delete the provision prohibiting the board from expending any funds to pay for the salary of a deputy or employee of an adviser, and the provision prohibiting a board member or adviser from collecting per diem or travel expenses for attending a meeting at the board headquarters or for traveling to or from the board headquarters.

(9) Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund in that county for allocation to school districts, community college districts, and the county office of education.

This bill would modify these ad valorem property tax revenue allocation provisions by requiring a specified factor increase in the amount that would, from specified moneys in an Educational Revenue Augmentation Fund, otherwise be allocated to county offices of education and community college districts, and requiring that the balance of these specified moneys be allocated to school districts.

By imposing additional ad valorem property allocation duties upon local tax officials, this bill would impose a state-mandated local program.

Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund in that county for allocation to school districts, community college districts, and the county office of education.

Existing law requires the county auditor to decrease, for the fiscal adjustment period, as defined, the amount of ad valorem property tax revenue allocated to a county's Educational Revenue Augmentation Fund by the countywide adjustment amount, as defined, and requires the auditor to instead allocate this amount to the Sales and Use Tax Compensation Fund in the county. Existing law requires, during this same period, the county auditor to allocate moneys from the Sales and Use Tax Compensation Fund to cities and counties to reimburse these entities for local tax revenue losses resulting from a specified statute, as provided. Existing law requires these allocations to be made in a manner that ensures that the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

amount of ad valorem property tax revenue allocated to cities, counties, and special districts pursuant to specified statutes is not reduced.

This bill would additionally require these allocations to be made in a manner that ensures that the amount of ad valorem property tax revenue allocated to cities, counties, and special districts pursuant to other statutes, with respect to tax equity allocations, is not reduced.

(10) The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state in the amount of 2% of the market value of that vehicle, as specified. The VLF Law offsets this amount by 67.5% for vehicle license fees with a final due date on or after July 1, 2001.

Existing law requires the Controller, upon receipt of monthly notification from the Department of Motor Vehicles, to transfer into specified funds in the General Fund, an amount equal to the moneys received as payment of the vehicle license fees plus those amounts necessary to reimburse local governments for losses resulting from the vehicle license fee offset. Existing law requires the VLF offsets to be proportionately reduced within 90 days of a finding that there are insufficient moneys available to be transferred from the General Fund to fully fund the vehicle license fee offsets.

The Controller is required, no later than August 15, 2006, to transfer into a specified account, an amount equal to those amounts of moneys that would have been transferred into that account to reimburse local governments for losses during the 2003–04 fiscal year, but for a finding that insufficient moneys available to be transferred from the General Fund to fully fund the vehicle license fee offsets. Existing law requires the transferred moneys to be allocated from that account in the manner otherwise specified by law.

The Controller is authorized, with the approval of the Department of Finance, to advance to any county or city that entity's share of the vehicle license fee revenues that the entity would have received, but for the finding that insufficient moneys are available to be transferred from the General Fund, if that entity is able to demonstrate that it will experience a hardship, as defined, if the advance is not made.

This bill would provide that certain vehicle license fee revenues are deemed to have been deposited in the Vehicle License Fee Account in the Local Revenue Fund during a specified period and allocated to cities and counties during the 2002–03 fiscal year.

(11) Existing law generally sets forth the duties of the Director of Finance in implementing the Department of Finance's supervision over all matters concerning the financial and business policies of the state.

Existing law generally sets forth the duties of the Treasurer in the receipt and keeping of moneys in the State Treasury, and in the approval of the issuance of bonds, notes, or other evidence of indebtedness by or on behalf of the state.

Existing law generally sets forth the duties of the State Allocation Board in apportioning or allocating specified funds to local agencies for public works projects.

This bill would require the Director of Finance to work with the Treasurer, the State Allocation Board, and any other executive agencies as necessary, to achieve a combined savings of no less than $50,000,000 in General Fund debt service costs in the 2003–04 and 2004–05 fiscal years.

(12) This bill would require the use of $685,000 of the amount appropriated in the Budget Act of 2003 to the California Integrated Waste Management Board to fund designated support positions.

(13) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 758 (AB 396) Harman. Shared Habitat Alliance for Recreational Enhancement Program.

Existing law authorizes the Department of Fish and Game to contract with the owners or lessees of land for the establishment of cooperative hunting areas.

This bill would repeal that provision and instead would require the department, in partnership with nonprofit conservation groups and other interested nongovernmental organizations, to establish the Shared Habitat Alliance for Recreational Enhancement Program, to encourage private landowners to voluntarily make their land available to the public for wildlife-dependent recreational activities, as defined. The bill would authorize the department to enter into voluntary agreements with private landowners to make their land available for public use. The bill would prohibit General Fund money from being used for the program, but would authorize the department to impose user fees or apply for grants, federal funds, or other nonstate sources of funds. The bill would establish the SHARE Account in the Fish and Game Preservation Fund, to be used for the purposes of the bill. The bill would prohibit money from being spent on the program unless the Legislature appropriates money therefor. The bill would require department to require a person who wants to use land that is subject to an agreement to sign a waiver that releases the department and any nonprofit group, governmental entity, or organization from liability for damage or injury that arises from that person's use of the land. The bill would require the department to maintain certain data on the program.

This bill would authorize the department to revoke the public access privilege of any person who violates a law or regulation while on private property that is subject to an agreement and would require the department to enforce all applicable regulations on that property. The bill would require every agreement to prohibit the take of nongame species by public participants in the program. The bill would require the Fish and Game Commission to establish regulations and fees for the purposes of the bill.

Ch. 759 (AB 544) Montanez. Contractor: temporary labor.

Existing law, the Contractors' State License Law, creates the Contractors' State License Board within the Department of Consumer Affairs and provides for the licensure and regulation of contractors. Existing law defines contractor and includes certain persons who maintain or service air-conditioning or heating units, submit a bid to construct a building, or perform tree removal within that definition. Existing law requires contractors to pay specified fees that are deposited into the continuously appropriated Contractors' License Fund. Under existing law, it is a crime for any person to act as a contractor without a license.

This bill would also define contractor to include certain work activity provided by a temporary labor service agency. Because the bill would increase fees deposited into the Contractors' License Fund, the bill would make an appropriation. Because this bill would expand the definition of a contractor and create new crimes, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 760 (AB 668) Cox. General plans: housing elements.

Existing law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. One part of the housing element is an assessment of housing needs and an inventory of resources and constraints relevant to meeting those needs. The assessment includes the locality's share of regional housing needs. That share is determined by the appropriate council of governments or by the Department of Housing and Community Development, subject to revision by the department.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that, in the event of an incorporation of a new city after the revised allocation of regional housing needs, the city and county may reach a mutually acceptable agreement on that determination and report it to the council of governments and the department, or to the department for areas with no council of governments, or request the council of governments or the department to revise the determination of those housing needs, as specified.

Ch. 761 (AB 859) Nakano. Ballona Wetlands.

The Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection (Villaraigosa-Keeley Act) Bond Fund allocates $220,400,000 to the State Coastal Conservancy, including $25,000,000 to acquire, protect, and restore specified wetlands projects.

This bill would reappropriate $25,000,000, appropriated in the Budget Act of 2000 from that fund to the State Coastal Conservancy for the Ballona Wetlands, to the State Coastal Conservancy to acquire, protect, and restore the Ballona Wetlands, as specified.

The bill would provide that it would not become operative unless an SB 666 is enacted and takes effect on or before January 1, 2004.

Ch. 762 (AB 903) Steinberg. Construction defect cases.

Existing law specifies the rights and requirements of a homeowner to bring an action for construction defects.

This bill would revise and recast various provisions governing home construction defect actions. The bill would, among other things, revise the definition of builder and would specify the application of certain provisions to general contractors. The bill would make technical changes relating to a builder's election to inspect and the application of certain affirmative defenses, and would recast provisions relating to the applicable statute of limitations, and the exclusivity of these provisions. The bill would specify that the provisions governing home construction defect actions apply to new residential units where the purchase agreement was signed by the seller on and after January 1, 2003. The bill would also make a statement of legislative intent regarding a specified study.

Ch. 763 (AB 944) Steinberg. Property and business improvement areas: benefit assessments.

The Property and Business Improvement District Law of 1994 authorizes cities to form property and business improvement districts that may levy assessments within a district for the purpose of making improvements and promoting activities of benefit to the properties within the district.

This bill would also authorize the assessments to be levied for the purpose of making improvements and promoting activities of benefit to the businesses within the district. The bill would revise various provisions to refer to the rights and obligations under this law of property or business owners within the district. The bill would authorize a city council, by resolution, to determine that bonds should be issued to finance improvements within a district. The bill would make other related changes.

Ch. 764 (AB 1082) Laird. Public employee health care benefits: domestic partners.

Existing law authorizes public agencies that contract with the Public Employees' Retirement System (PERS) for employee and annuitant health care benefits to provide those benefits to domestic partners. For these purposes, a domestic partnership is defined according to existing state law. Employer, employee, and annuitant contributions for health care benefits are deposited in one of 2 continuously appropriated funds.

This bill would authorize a contracting agency, that adopted a local definition of domestic partnership prior to January 1, 2000, to provide health care benefits to those domestic partners. By expanding the eligibility for benefits, the bill would increase the contributions

NOTE: Superior numbers appear as a separate section at the end of the digests.

that are deposited into a continuously appropriated fund and, thereby, make an appropriation.

Ch. 765 (AB 1101) Steinberg. Attorney-client confidences.

Existing law, the State Bar Act, provides for the licensing and regulation of attorneys by the State Bar of California. Existing law imposes various duties on an attorney, including the duty to maintain the confidences and preserve the secrets of his or her client at every peril to himself or herself.

This bill would authorize an attorney to reveal confidential information to the extent that the attorney reasonably believes disclosure is necessary to prevent a criminal act likely to result in death or substantial bodily harm to an individual.

Existing law, with certain exceptions, makes privileged any confidential communication between a lawyer and a client. Existing law provides an exception to the privilege if the lawyer reasonably believes that disclosure of a confidential communication is necessary to prevent the client from committing a criminal act that the lawyer believes is likely to result in death or substantial bodily harm.

This bill would instead make the exception applicable if the lawyer reasonably believes disclosure is necessary to prevent any criminal act that the lawyer reasonably believes is likely to result in death or substantial bodily harm to an individual.

The provisions of the bill would become operative on July 1, 2004.

Ch. 766 (AB 1217) Leno. Rental property: residential hotels.

Under the Ellis Act, public entities generally are prohibited from adopting any statute, ordinance, or regulation, or taking any administrative action, to compel the owner of residential real property to offer or to continue to offer accommodations in the property for rent or lease. The act defines accommodations subject to the act to mean either residential rental units in any detached physical structure containing 4 or more residential rental units or, with respect to a detached physical structure containing 3 or fewer residential rental units, the residential rental units in that structure and in any other structure located on the same parcel of land.

This bill would exempt guestrooms or efficiency units within a residential hotel, as defined, from the above described prohibition if the hotel is located in a city and county, or in a city with a population of over 1,000,000, has a permit of occupancy issued prior to January 1, 1990, and the hotel did not send a notice of intent to withdraw the accommodations from rent or lease that was delivered prior to January 1, 2004.

The act provides that it does not diminish or enhance any power in any public entity to mitigate any adverse impact on persons displaced by reason of the withdrawal from rent or lease of any accommodations in any defined residential hotel.

This bill would, instead, provide that the act does not diminish or enhance any power in any public entity to mitigate any adverse impact on persons displaced by reason of the withdrawal from rent or lease of any accommodations.

Ch. 767 (AB 1287) Lieber. Mobilehome parks: information for prospective tenants.

Existing law, the Mobilehome Residency Law, governs tenancies and residency in mobilehome parks. Among other things, the law authorizes the management to require the right of prior approval of a purchaser of a mobilehome that will remain in the park.

This bill would, beginning October 1, 2004, require the park management to provide prospective homeowners with a separate document containing specified information about tenancy in a mobilehome park, within 2 business days of receiving a request for an application for residency, as specified. The bill would further require management to provide a prospective homeowner, upon request, with a copy of the rules and regulations of the park and with a copy of the Mobilehome Residency Law. This bill would also specify that

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

management may require that a homeowner advise management in writing that his or her mobilehome is for sale. The bill would provide that failure to comply with that requirement would not invalidate a transfer.

Ch. 768 (AB 1343) Spitzer. Vehicles: instruction permits: driving instructor licenses: provisional licensing program.

(1) Existing law authorizes the Department of Motor Vehicles to issue an instruction permit to a physically and mentally qualified person who applies for the permit, is age 15 years or over, and is enrolled in an approved driver education course and, at the same time or during the same semester, enrolled in an approved driver training course.

This bill would delete the authority to issue the instruction permit under the above described circumstances, but would add that authority where the person applying is age 15 years and 6 months and enrolled and participating in an integrated driver education and training program.

(2) Existing law requires driving instructors, as defined, to meet certain requirements.

This bill would authorize the department, at its discretion, to issue a driving school instructor's license, restricted to classroom driver education instruction only, to an applicant who is not physically able to safely operate a motor vehicle and train others in the operation of motor vehicles and who does not hold a valid California driver's license in a class appropriate for the type of vehicle in which instruction will be given.

(3) Existing law, the Brady-Jared Teen Driver Safety Act of 1997, allows for the issuance of a driver's license to a person at least 16 years of age but under 18 years of age under the provisional licensing program if that person, among other requirements, satisfactorily completes certain education and training requirements.

This bill would include, as a driver education and training option under the provisional licensing program, satisfactory completion of an ''integrated driver education and training program,'' which the bill would define.

(4) Existing law prohibits a student from taking driver training instruction under the provisional licensing program unless he or she is taking driver education at the same time or has successfully completed driver education.

This bill would, instead, allow a student to take driver training instruction only if he or she has successfully completed driver education, except as authorized under the integrated driver education and training program option.

Ch. 769 (AB 1350) Simitian. Ravenswood City Elementary School District: court-ordered costs funding.

Existing law establishes the Targeted Instructional Improvement Grant to fund the costs of any court-ordered desegregation program.

This bill would find and declare that the Ravenswood City Elementary School District's fiscal emergency is due to costs incurred in complying with a court-ordered corrective action plan, and would reappropriate $1,333,740, from federal funds received by the state for the support of special education to the Superintendent of Public Instruction for the purpose of providing the Ravenswood City Elementary School District with funding for those costs.

This bill would declare that due to the unique circumstances relating to the Ravenswood City Elementary School District's fiscal emergency, a general statute cannot be made applicable.

Ch. 770 (AB 1368) Kehoe. Bonds.

The existing State General Obligation Bond Law contains procedures for use in authorizing the issuance and sale and providing for the repayment of state general obligation bonds. Existing law also requires prescribed accountability measures to be included in local bond measures.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require any state general obligation bond measure to be subject to the making, at least annually, of a specified report, by the head of the lead state agency administering the bond proceeds, to the Legislature and the Department of Finance.

Ch. 771 (AB 1398) Vargas. Alcoholic beverages.

The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, the suspension of, and the conditions imposed upon, alcoholic beverage licenses by the Department of Alcoholic Beverage Control. That act also prohibits, subject to a criminal penalty, the use, in any advertisement of alcoholic beverages, of any subject matter, language, or slogan addressed to and intended to encourage minors to drink the alcoholic beverages.

This bill would additionally prohibit any signage or flyers that advertise establishments that serve alcoholic beverages to individuals under the age of 21 years, if one of the establishment's principal business activities is the selling of alcoholic beverages and the advertisement expressly states that the jurisdiction in which the establishment is located has a legal drinking age of under 21 years, or that individuals under the age of 21 years may patronize the establishment.

This bill would impose a state-mandated local program by changing the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 772 (AB 1410) Wolk. Surplus land: transit stations.

Existing law requires each state agency, on or before December 31 of each year, to make a review of all proprietary state lands, with specified exceptions, over which it has jurisdiction, to determine what, if any, land is in excess of its foreseeable needs, and to report thereon in writing to the Department of General Services. Existing law transfers to the department jurisdiction of all land reported as excess. The department and any local agency disposing of surplus land are required, prior to disposing of that property, to send a specified written offer to sell or lease the property to certain local public entities.

This bill would also require that a written offer to sell or lease for the purpose of developing property located within an infill opportunity zone or an area covered by a transit village plan be sent to specified local agencies.

Ch. 773 (AB 1485) Firebaugh. English learners: academic assessment.

(1) Existing law establishes the Reading First Plan to provide federally funded reading instruction to pupils in kindergarten and grades 1 to 3, inclusive, and to special education pupils in any grade of elementary or secondary school. Existing law requires the Reading First Plan submitted to the federal Secretary of Education, among other things, to authorize a local educational agency that meets specified federal requirements to be eligible for federal funding if certain pupils are provided by a prescribed deadline with standards-aligned textbooks or basic instructional materials aligned with the state-adopted reading/language arts content standards.

This bill would prohibit the State Department of Education and the State Board of Education from developing or implementing requirements or criteria that make a local educational agency ineligible for funding because the local educational agency provides primary language instruction and comprehensive English language development instruction to English learners in classrooms where English learners are not educated through sheltered or structured English immersion. The bill would authorize the use of primary language materials in specified cases for purposes of participation in a program funded with Reading First funds. The bill would require the State Department of Education to amend California's

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Reading First Plan to authorize local educational agencies operating programs in which English learners are not educated through sheltered or structural English immersion to apply for funding under the federal No Child Left Behind Act. The bill would additionally require the revised plan to specify that priority to specified federal funds be given to programs meeting certain criteria.

The bill would prohibit the allocation of a specified appropriation made in the Budget Act of 2003 until the State Board of Education amends the Reading First Plan according to this act and submits it to federal authorities and the federal Secretary of Education approves the plan.

(2) Existing law establishes, until January 1, 2005, the Leroy F. Greene California Assessment of Academic Achievement Act to provide a system of individual assessment of pupils. The existing act establishes, among other things, the Standardized Testing and Reporting (STAR) Program and requires each school district, charter school, and county office of education to administer to each of its pupils in grades 2 to 11, inclusive, an achievement test and a standards-based achievement test.

This bill would require, commencing on July 1, 2004, the achievement test to be administered to pupils in grades 3 and 8, and the standards-aligned achievement test to be administered to pupils in grades 2 to 11, inclusive.

Ch. 774 (AB 1525) Longville. Common interest developments: signs.

Existing law, the Davis-Stirling Common Interest Development Act, defines and regulates common interest developments. Existing law requires that a common interest development have a recorded declaration, which contains, among other items, the restrictions on the use or enjoyment of the development that are intended to be enforced as equitable servitudes. A common interest development may also be regulated by other instruments, such as bylaws and operating rules, which are collectively known as the governing documents, and existing law prohibits restrictive covenants in governing documents that violate specified housing discrimination laws.

This bill would provide that the governing documents of a common interest development may not prohibit posting or displaying of noncommercial signs, posters, flags, or banners, as defined, on or in an owner's separate interest, except for the protection of public health or safety or if the posting or display would violate a local, state, or federal law. The bill would permit a common interest development association to prohibit signs, posters, flags, or banners that exceed specified sizes. This bill would also make a statement of legislative intent in this regard.

Ch. 775 (AB 1553) Wesson. Service contracts.

Existing law, until January 1, 2008, regulates service contracts, as defined, relating to the maintenance or repair of specified sets and appliances. Under existing law, a service contract may include provisions for incidental payment of indemnity, under limited circumstances.

This bill would change the definition of service contract by expanding the items that a contract may cover to also include furniture, jewelry, specified equipment, appliances, and products. The bill would limit the value of incidental payment of indemnity to a retail value of $250 per year.

Existing law, effective until January 1, 2008, prohibits a service contract seller from issuing a service contract without complying with specified requirements.

This bill would allow a service contract seller to satisfy one of these requirements by filing with the Director of Consumer Affairs the most recent audited financial statement reflecting a net worth of not less than $100,000,000.

Ch. 776 (AB 1594) Committee on Veterans Affairs. Discrimination: veterans.

Existing law prohibits discrimination on the basis of age, sex, or physical or mental disability under any program or activity that is conducted, operated, or administered by the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

state or by any state agency, is funded directly by the state, or receives any financial assistance from the state.

Existing law establishes the Emergency Housing and Assistance Program and requires the Department of Housing and Community Development to adopt regulations for the administration of the program. These regulations are required to provide, among other things, that designated local boards meet reasonable standards of nondiscrimination.

This bill would provide that the above described requirements for regulations do not preclude the providers of emergency shelter or transitional housing from restricting occupancy on the basis of military veteran status if the veterans served possess significant barriers to social reintegration and employment, as specified.

Ch. 777 (AB 1669) Chu. Peace officers: psychological evaluations.

(1) Existing law requires that public officers or employees declared by law to be peace officers meet certain minimum standards, including being found free from any emotional or mental condition that might adversely affect the exercise of the powers of a peace officer. Existing law requires that the person's emotional and mental condition be evaluated by a licensed physician and surgeon or by a licensed psychologist who has a doctoral degree in psychology and at least 5 years of postgraduate experience in the diagnosis and treatment of emotional and mental disorders. Existing law regulates the professions of physicians and surgeons and psychologists, and makes a violation of the provisions regulating psychologists a misdemeanor.

This bill would, on and after January 1, 2005, instead require that the evaluation be done by a physician and surgeon who has completed specified residency and experience requirements or by a licensed psychologist who has at least 5 full-time years of postgraduate experience in the diagnosis and treatment of emotional and mental disorders, with at least 3 of these years accrued postdoctorate, and would require the physician and surgeon or psychologist to meet certain other educational and training standards.

This bill, on and after January 1, 2005, would require a state or local department or agency employing peace officers to utilize a physician and surgeon or a psychologist meeting these requirements in conducting a peace officer recruit's emotional and mental screening evaluation or in conducting the evaluation of a peace officer to determine fitness for duty. The bill would also, on or after January 1, 2005, prohibit a physician and surgeon or a psychologist from performing such evaluations unless he or she meets the licensing, education, and training requirements.

Because this bill would create prohibitions applicable to psychologists, the violation of which would be a crime, it would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 778 (AB 1678) Negrete McLeod. Political Reform Act of 1974: conflicts of interest.

Under the existing Political Reform Act of 1974, a public official is defined to include every member, officer, employee, or consultant of a state or local government agency, as specified. Under existing law, a state administrative official, elected state officer, or designated employee of the Legislature may not make, participate in making, or use his or

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

her official position to influence, any governmental decision directly relating to any person with whom he or she is negotiating, or has any arrangement concerning, prospective employment.

This bill would apply this prohibition to all public officials.

Existing law makes a violation of the act subject to administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate the provisions of this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a $^2/_3$ vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a $^2/_3$ vote.

Ch. 779 (SB 33) Figueroa. Telephone solicitations.

Existing law prohibits certain unfair business practices, including certain advertising practices. Existing law requires the Attorney General, not later than January 1, 2003, to maintain a "do not call" list, containing the telephone numbers and ZIP Codes of residential or wireless telephone subscribers who do not wish to receive unsolicited and unwanted telephone calls from telephone solicitors. Existing law requires telephone solicitors to pay a fee to the Attorney General to obtain copies of the "do not call" list. Existing law provides that it is unlawful for a person to obtain a "do not call" list for specified purposes. Existing law defines a telephone solicitor, places restrictions on these types of telephone calls, authorizes the imposition of a civil penalty of $1,000 for violations of these provisions, and requires California to adopt any national "do not call" list established by any federal agency. Existing law makes it a crime to violate any of the provisions governing advertising.

This bill would require telephone solicitors to comply with all state and federal laws regarding telephone solicitations. The bill would make it a crime to deny or interfere with a subscriber's right to place a California telephone number on the "do not call" list. The bill would delete the civil penalty fine amounts and would instead require these amounts to be the same as those imposed by the Federal Trade Commission.

Because a violation of this bill's provisions with respect to the list would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 780 (SB 85) Torlakson. County employees' retirement: death benefits.

Under the County Employees Retirement Law of 1937, any death benefits, optional retirement allowances, or survivor's allowances accorded to a spouse, as specified, may be accorded to a domestic partner in San Mateo County, Los Angeles County, Santa Barbara County, and Marin County, subject to approval by the county board of supervisors and other limitations, including, but not limited to, the accordance of those benefits and allowances to a surviving dependent child, if any, until 19 years of age or until married, or 22 years of age if attending an educational institution.

This bill would instead accord those benefits and allowances to a domestic partner when the surviving dependent child, if any, turns 18 years of age, or 22 years of age if enrolled as a full-time student in an accredited educational institution. The bill would also make those

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

provisions listed above applicable to all counties in California, and would authorize the San Mateo County Board of Supervisors to implement those benefits in a specified manner.

Ch. 781 (SB 114) Torlakson. Financial assistance: relocation of vehicle dealers and big box retailers.

Existing law, until January 1, 2005, prohibits a redevelopment agency or a local agency, as defined, from providing any form of financial assistance to an automobile dealership or big box retailer, or a business entity that sells or leases land to an automobile dealership or big box retailer, that is relocating from the territorial jurisdiction of one community or local agency, to the territorial jurisdiction of another community or local agency, but within the same market area, unless the receiving community or local agency offers the other community or local agency a contract that apportions sales tax generated by the dealership or retailer between the 2 communities or local agency, as specified, and the agency holds a public hearing and adopts a resolution making specified findings relating to whether or not a contract has been approved.

Existing law also requires the California Research Bureau to report to the Governor and the Legislature on or before January 1, 2004, regarding the implementation of these provisions.

This bill would delete the termination date of these provisions, change the term ''automobile dealership'' to ''vehicle dealer'', and eliminate the authority of a redevelopment agency or local agency to provide any form of financial assistance to a vehicle dealer or big box retailer that is relocating from the territorial jurisdiction of one community to the territorial jurisdiction of another community but within the same market area.

This bill would also delete the requirement that the California Research Bureau report to the Governor and the Legislature on or before January 1, 2004, regarding the implementation of these provisions.

Ch. 782 (SB 257) Alpert. Pupil data.

Existing law requires the State Department of Education to contract for the development of proposals to provide for the retention and analysis of longitudinal pupil achievement data on the tests administered pursuant to the Standardized Testing and Reporting Program (STAR), the English language development tests, and the high school exit exam.

This bill would state the intent of the Legislature to promote good data management practices with respect to pupil data systems and issues, including ensuring confidentiality, producing analyzable files, and linking data with data from other agencies.

Existing law requires the Superintendent of Public Instruction to establish an advisory committee on all matters relative to the creation of the Academic Performance Index and implementation of the Immediate Intervention/Underperforming Schools Program and the High Achieving/Improving Schools Program.

This bill would require the advisory committee to make recommendations to the Superintendent of Public Instruction, by July 1, 2005, on the appropriateness and feasibility of a methodology for generating a measurement of academic performance by utilizing unique pupil identifiers and annual academic achievement growth to provide a more accurate measure of a school's growth over time. The bill would require the Superintendent of Public Instruction, with approval of the State Board of Education, to thereafter implement that measurement of academic performance if appropriate and feasible.

Ch. 783 (SB 259) Romero. School and community college employees: call to active military duty.

(1) Existing law authorizes the governing board of a school district to approve, as compensation from the school district, the difference between the amount of a certificated employee's California National Guard or United States Military Reserve pay and the amount the employee would have received as a certificated employee of the school district, including

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

any merit raise that would otherwise have been granted and any benefits the employee would have received during the time the employee was on active military duty as a result of the Iraq-Kuwait crisis. Existing law limits the application of those benefits to active military duty served on or after August 2, 1990.

This bill would authorize the governing board of a school district or a community college district to approve this compensation for all employees who are called to active military duty, without reference to any particular conflict or crisis, and would delete the reference to August 2, 1990.

(2) Existing law requires school districts and community college districts to meet and negotiate on terms and conditions of employment, including leave.

This bill, by authorizing school districts and community college districts to give these leave benefits to those employees, would expand the terms and conditions of employment over which a school district and community college district must bargain and would thereby create a state-mandated local program.

(3) Existing law prescribes the terms for which teacher credentials and permits are valid and requires the Commission on Teacher Credentialing to establish procedures for the renewal of teacher credentials and permits.

This bill would provide that the credential of a certificated elementary or secondary school employee would not become invalid for failure to renew while the employee is on active military duty, and would grant a period of 120 days after termination of the active duty for the employee to renew the credential.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 784 (SB 302) Kuehl. Discrimination: state programs and activities.

Existing law prohibits discrimination, as defined, against any person in any program or activity conducted, operated, or administered by the state or by any state agency, or that is funded directly by the state, or that receives any financial assistance from the state. Existing law also requires, with respect to disability, that these programs and activities meet the protections and prohibitions contained in Section 202 of the Americans with Disabilities Act of 1990 and the federal rules and regulations implementing the act or state law if the state protections and prohibitions are stronger.

This bill would declare that the Legislature intended to apply the provisions requiring compliance with the accessibility requirements of the federal Rehabilitation Act of 1973 and its implementing regulations for the purposes of improving the accessibility of persons with disabilities to electronic or information technology to the California State University. The bill would state that it clarifies that the California State University is subject to that provision and require the California State University, in determining the cost of developing or procuring electronic or information technology, to consider whether technology that meets the accessibility requirements of a specified provision of the federal Rehabilitation Act of 1973 would reduce the long-term cost incurred by the California State University in providing access or accommodations to future users of this technology who are persons with disabilities, as required by existing law.

Ch. 785 (SB 314) Murray. Transportation funding: County of Los Angeles.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law provides for the establishment of various local transportation authorities, and empowers those authorities, under certain conditions, to impose local transactions and use taxes for the funding of local transportation purposes.

This bill would authorize the Los Angeles County Metropolitan Transportation Authority (MTA) to impose, in addition to any other tax that it is authorized to impose, a transactions and use tax at the rate of 0.5% for $6^1/_2$ years or less, for the funding of specified transportation-related purposes designated as capital projects or capital programs. The bill would condition the imposition of a tax under this authority upon voter approval as otherwise required by law and would prohibit the MTA from incurring bonded indebtedness payable from the tax proceeds to fund those projects or programs or from substituting revenue from the tax proceeds for current funding commitments to the projects or programs. The bill would require the MTA to prepare an expenditure plan prior to submitting the ordinance to voters, describing the projects and programs, their cost, and funding sources. The bill would create the Capital Project Development Fund, into which the tax revenue would be deposited, and would make those moneys available for expenditure by the MTA to fund projects and programs. The bill would enact other related provisions.

Ch. 786 (SB 338) Scott. Concurrent enrollment of pupils in high school and community college.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state.

Existing law authorizes the governing board of a school district to authorize pupils, with parental permission, who would benefit from advanced scholastic or vocational work to attend community college as special part-time students to undertake one or more courses of instruction at the community college level. Existing law authorizes the parent or guardian of a pupil to petition the governing board of a school district to authorize the attendance of the pupil at a community college as a full-time student on the ground that the pupil would benefit from advanced scholastic or vocational work. Existing law further authorizes the governing board of a community college to admit those students to any community college under its jurisdiction.

Existing law authorizes a community college district, for the purposes of receiving state apportionments, to include special part-time and full-time students in the district's report of full-time equivalent students if those pupils are enrolled in community college classes that are open to the general public.

This bill would require those courses to meet several additional criteria in order for the community college district to include the students in the district's report of full-time equivalent students.

The bill would authorize the governing board of a community college district to restrict admissions and enrollment of special part-time and full-time students during any session based on specified criteria.

The bill would require the Chancellor of the California Community Colleges to report to the Department of Finance and the Legislature, on or before March 1, 2004, and March 1 of each year thereafter, on the amount of full-time equivalent students claimed by each community college district for special part-time and full-time students.

The bill would, in addition, revise and recast provisions relating to concurrent enrollment.

Ch. 787 (SB 345) Kuehl. Tenancy.

(1) Existing law regulates the times and circumstances under which a landlord may enter a tenant's dwelling.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would specify additional information to be included in the notice that a landlord is required to give prior to entry. The bill would provide that oral notice is sufficient under certain circumstances, and specify information that the oral notice is required to include, and that the entry that is being noticed be within one week.

(2) In a summary proceeding for the possession of real property, as specified, existing law prohibits a court clerk from providing access to certain court records for 60 days following the date the complaint is filed, except as specified. These provisions require that the court clerk mail a specified notice to a defendant named in an eviction action. Existing law permits a court to exempt itself from these provisions upon a specified finding and requires the Judicial Council to examine the extent to which ex parte requests for court documents are granted or denied.

This bill would prohibit access to those court records if a defendant is the prevailing party within 60 days after the complaint is filed, eliminate the ability of a court to exempt itself from these provisions and eliminate the duty placed on the Judicial Council with respect to requests for court records.

(3) Existing law requires a plaintiff in a summary proceeding for the possession of real property, as specified, to include certain information in a verified complaint.

This bill would as of January 1, 2005, revise the information that a plaintiff must include in a verified complaint to include the name of the person verifying the complaint, as specified, and to state the method used to serve the defendant with a notice of termination, as specified, among other items. The bill would also require the plaintiff in an action regarding residential property to attach specified documents to the complaint, with specified exceptions.

(4) Existing law requires every local housing authority within a county or city to file on the first day of October of each year with the Department of Housing and Community Development a complete report of its activities during the previous fiscal year, with specified recommendations.

This bill would require the report to include specified information on terminations of tenancies of victims of domestic violence in housing authority units.

By increasing the duties of local officials, this bill would create a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 788 (SB 362) Figueroa. Boards, bureaus, and commissions.

(1) Existing law provides for the licensing and regulation of dental professionals and dental auxiliaries by the Dental Board of California and the Committee on Dental Auxiliaries. The provisions creating the board, authorizing the board to appoint an executive officer, and creating the committee will become inoperative on July 1, 2004, and will be repealed on January 1, 2005.

This bill would delete these dates and extend operation of these provisions until July 1, 2005.

(2) Existing law requires the Dental Board of California to adopt regulations prescribing the functions that may be performed by dental assistants, registered dental assistants, and registered dental assistants in extended functions. Existing law also authorizes registered dental hygienists in alternative practice to perform certain functions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would authorize specific functions that may be performed by dental assistants, registered dental assistants, or registered dental assistants in extended functions and would also revise the functions to be performed by a registered dental hygienist in alternative practice.

(3) Existing law requires the Director of Consumer Affairs to designate as peace officers persons to be assigned to the investigations unit of the board.

This bill would delete that requirement.

(4) Existing law requires the board to contract with a specified entity to conduct a followup study relating to the board's enforcement program. Existing law appropriates $75,000 from the State Dentistry Fund to the board for the followup study.

This bill would delete these provisions.

(5) Existing law authorizes specified boards, bureaus, and commissions within the Department of Consumer Affairs, the Osteopathic Medical Board of California, and the State Board of Chiropractic Examiners to establish regulations whereby the board, bureau, or commission, in specified circumstances, may impose administrative fines not exceeding $2,500 upon its licensees. Existing law requires these administrative fines to be deposited into the special fund of the appropriate board, bureau, or commission.

This bill would increase the amount of this administrative fine to $5,000. These administrative fines would be deposited into a special fund of the particular board, bureau, or commission.

(6) Existing law, the Barbering and Cosmetology Act, establishes the State Board of Barbering and Cosmetology in the Department of Consumer Affairs consisting of 9 members. Existing law requires the board, subject to the approval of the Director of Consumer Affairs, to appoint an executive officer to perform the duties delegated by the board.

Existing law requires that a person who fails to qualify for admission to an examination because the person's practice does not fulfill specified requirements be given credit for study and training obtained that is substantially the same as the study and training required by the state.

This bill would repeal this provision and would instead authorize the board to grant a license to an applicant who submits a completed application with the necessary fee, proof of a valid license issued by another state, and proof that the applicant has not been disciplined by another state.

(7) Existing law requires that a cosmetology or barbering instructor training course shall consist of not less than 600 hours of practical training and technical experience. Existing law authorizes an individual to take the barbering or cosmetology instructor's examination if that person has, among other things, submitted an application and paid the appropriate fee to the board, completed the 12th grade, and has a valid license to practice. Existing law requires a licensed instructor to complete 30 clock hours of continuing education. Existing law excludes an instructor from complying with continuing education requirements if his or her license is inactive.

This bill would repeal these provisions on January 1, 2005.

(8) Existing law specifies licensing fees for cosmetologists, estheticians, manicurists, and other individuals licensed by the act.

This bill would require that the application fee and examination fee for individuals licensed by the act be the actual cost to the board for developing, purchasing, grading, and administering the appropriate examination. The bill would authorize the director to immediately close any establishment which, upon inspection, poses an immediate threat to public health and safety. The bill would require, not later than September 1, 2005, the board to conduct various studies, some in conjunction with the Office of Examination Resources and some in coordination with Department of Industrial Relations, and to report the results to the Legislature and the Joint Legislative Sunset Review Committee. The bill would delete obsolete provisions and make conforming changes.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 789 (SB 364) Figueroa. Licensing boards.

(1) Existing law requires specified boards, commissions, and bureaus in the Department of Consumer Affairs to obtain fingerprint cards from applicants applying for licensure so that they may obtain and receive, at their discretion, criminal history information on the applicant from the Department of Justice and the United States Federal Bureau of Investigation. Effective January 1, 2004, existing law also requires that an applicant for registration as a home improvement salesperson furnish a full set of fingerprints to the Contractors' State License Board.

This bill would add the Contractors' State License Board, the Structural Pest Control Board, and the Bureau of Naturopathic Medicine to this list. The bill would also delay until July 1, 2004, the requirement that an applicant for registration as a home improvement salesperson furnish a full set of fingerprints to the Contractors' State License Board.

(2) Existing law establishes the Joint Sunset Review Committee and requires the committee to hold public hearings and evaluate whether a board or regulatory program has demonstrated a need for its continued existence.

This bill would, commencing in 2003 and every 4 years thereafter, require the committee to hold a hearing and receive testimony from the Director of the Department of Consumer Affairs and the Bureau of Automotive Repair concerning the continued public need of continuing the regulatory program of the bureau.

(3) Existing law provides for the operational review by the Joint Legislative Budget Committee of certain state boards whose members are appointed by the Governor or the Legislature.

This bill would repeal those provisions and would, instead, provide for a review of these boards by the Joint Legislative Sunset Review Committee in a similar manner as that committee currently reviews boards and commissions in the Department of Consumer Affairs. The bill would require the affected boards and entities to prepare and submit an analysis and report to the Joint Legislative Sunset Review Committee not later than 22 months before the board is scheduled to be reviewed.

(4) Existing law provides that the Committee on Rules of either house may direct the Joint Legislative Budget Committee to evaluate the creation of a new state board.

This bill would transfer these duties and responsibilities to the Joint Legislative Sunset Review Committee.

(5) Existing law, the Medical Practice Act, creates the Medical Board of California within the Department of Consumer Affairs. Existing law authorizes the board to employ an executive director. Existing law requires the executive director to appoint a Medical Board of California Enforcement Program Monitor who is required to submit specified reports to the board, the department, and to the Legislature. Under existing law, the act's provision creating the board and authorizing it to employ individuals becomes inoperative on July 1, 2005, and are repealed on January 1, 2006.

This bill would extend the dates on which the provisions creating the board and authorizing board employees become inoperative and are repealed to July 1, 2006, and January 1, 2007, respectively. The bill would change the reporting dates for the program monitor to submit reports.

(6) Existing law, the Osteopathic Act, establishes the Osteopathic Medical Board of California. Under existing law, the board is authorized to issue an originating or reciprocal osteopathic physician and surgeon's certificate to an applicant who satisfies specified criteria, including successfully completing an oral, clinical, and practical examination administered by the board.

This bill would delete the requirement to complete an oral, clinical, and practical examination as a prerequisite for these types of licensure.

(7) Existing law, the Speech-Language Pathologists and Audiologists Licensure Act, provides for the licensure of speech-language pathologists by the Speech-Language

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Pathology and Audiology Board. Under existing law, the board becomes inoperative on July 1, 2005.

This bill would extend this board to July 1, 2006.

(8) Existing law, the Professional Engineers Act, provides for licensing and regulation of professional engineers and land surveyors by the Board for Professional Engineers and Land Surveyors. The act prohibits any person other than a licensed professional engineer from using the title "professional engineer" and certain other similar titles, including the branch titles "corrosion engineer," "manufacturing engineer," "quality engineer," and "safety engineer."

This bill would delete the title "manufacturing engineer" from the list of prohibited titles. The bill would authorize persons registered in this branch or completing the examination process for this branch prior to January 1, 2004, to continue to use this branch title. The bill would prohibit the board from administering any examination for this branch title on or after January 1, 2004.

(9) Existing law authorizes the Director of the Employment Development Department to permit the use of information in his or her possession for specified purposes.

This bill would additionally authorize the director to release information to the Division of Investigations in the Department of Consumer Affairs to verify the employment history of an individual for investigative purposes concerning a crime or unlawful act.

(10) Existing law establishes the Bureau for Private Postsecondary and Vocational Education in the Department of Consumer Affairs to administer and enforce specified provisions concerning private postsecondary and vocational educational institutions.

This bill would require the bureau to work together with the staff of the Joint Legislative Sunset Review Committee and other specified entities to streamline its provisions regarding private postsecondary and vocational educational institutions and to determine what changes are advisable to improve the effectiveness of the state's regulation of private postsecondary and vocational education. The bill would require the bureau to expand its outreach program for current and prospective students, including high school students, on how best to select schools, how to enter into contracts and student enrollment agreements, as specified, and how to best protect themselves in the postsecondary and vocational education marketplace. The bill would require the bureau to report to the Director of Consumer Affairs and the Joint Legislative Sunset Review Committee by October 1, 2004, on, among other things, the costs of meeting its statutory obligations, the staffing necessary to meet these obligations, and whether the current fee structure allows for collection of revenue sufficient to support necessary staffing. The bill would require the bureau to report to the Legislature, by October 1, 2003, on its progress regarding corrective actions taken to resolve audit deficiencies found in specified audits. The bill would make other related changes.

(11) Existing law provides for the licensing and regulation of the practice of optometry by the State Board of Optometry and authorizes the board to employ an executive officer. The board and the executive officer will be terminated on July 1, 2005.

This bill would extend the termination date of the board and the executive officer to January 1, 2007.

Ch. 790 (SB 411) Ducheny. Indian gaming: tribal state compacts.

Existing federal law, the Indian Gaming Regulatory Act of 1988, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain gaming activities on Indian lands within a state. Existing California law expressly ratifies specified tribal-state gaming compacts.

This bill would ratify specified tribal-state gaming compacts entered into between the State of California and the La Posta Band of Diegueño Mission Indians, and the Santa Ysabel Band of Diegueño Mission Indians.

Ch. 791 (SB 551) Speier. Insurance: automotive repair dealers.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law generally regulates insurers by, among other things, defining certain unlawful practices.

This bill would codify existing regulatory law and would prohibit an insurer from requiring that an automobile be repaired at a specific automotive repair dealer, as defined. It would also prohibit an insurer from suggesting or recommending that an automobile be repaired at a specific automotive repair dealer unless the claimant requested the referral or the claimant is informed, in writing, of his or her rights, as specified. This bill would also require the insurer, if the suggestion or recommendation that an automobile be repaired at a specific automotive repair dealer is contained in the insurance contract, to disclose that provision, in writing at specified times, and would prohibit the insurer, if the insured chooses the automotive repair dealer, from limiting or discounting the reasonable repair costs, as specified.

The bill would grant the Insurance Commissioner specified enforcement powers with respect to these provisions.

Ch. 792 (SB 599) Perata. Drug diversion: sealed records.

Existing law authorizes the sealing of certain records in connection with the dismissal of charges, as specified.

This bill would provide that whenever a person is diverted pursuant to a drug diversion program administered by a superior court or is admitted to a deferred entry of judgment program for specified drug offenders, the person successfully completes the program, and it appears to the judge presiding at the hearing where the diverted charges are dismissed that the interests of justice would be served by sealing the records of the arresting agency and related court files and records with respect to the diverted person, the judge may order those records and files to be sealed, as specified. The bill would provide that the Department of Justice shall continue to be able to maintain and disseminate any records or documents received or maintained by it, as authorized by law.

Ch. 793 (SB 619) Ducheny. Housing.

(1) The Planning and Zoning Law prohibits a local agency from prohibiting or discriminating against a residential development or emergency shelter because of specified reasons.

This bill would additionally prohibit those actions from being taken because the development consists of a multifamily residential project or, in whole or in part, because of the method of financing or other specified assistance, or other specified reasons.

(2) Existing law restricts a local agency from disapproving an affordable housing development project, as prescribed.

This bill would define ''housing development project'' for the purposes of that requirement. The bill would provide that a multifamily residential housing project is a permitted use not subject to conditional approval if it meets specified criteria.

(3) Existing law prescribes criteria for the awarding of costs of suit and attorney's fees to a prevailing public entity in an action to enjoin, or obtain a writ of mandate relative to, the carrying out or approval of a housing development, if the court makes certain findings.

This bill would specify that those awards may also be given to a prevailing nonprofit housing corporation that is the real party in interest and the housing permit applicant, as specified.

(4) The existing CalHome Program administered by the Department of Housing and Community Development authorizes loans and grants to be provided to assist homeownership, as prescribed, including mutual housing developments.

This bill would prescribe other criteria for awarding and administering those funds, including assistance for mutual housing development and limited equity cooperative housing developments and would authorize the department to implement these changes for 24 months using guidelines not subject to the Administrative Procedure Act.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(5) The existing California Coastal Act provides that no local coastal program is required to include housing policies and programs.

This bill would require the California Coastal Commission to encourage housing opportunities for persons of low and moderate income, and prohibit the commission or permit issuing agency from reducing the density of a residential development unless it makes a prescribed finding.

Ch. 794 (SB 649) Kuehl. Mining.

(1) Existing law prohibits a state agency from purchasing or utilizing sand, gravel, aggregates, or other minerals produced from a surface mining operation subject to the Surface Mining and Reclamation Act of 1975, unless the operation is identified in a specified list.

This bill would prohibit operators of surface mines in California, whose operations are not identified in that specified list, from selling that California mined material to a local agency.

(2) Existing law, the Surface Mining and Reclamation Act of 1975, governs surface mining operations and reclamation of mined lands. The State Mining and Geology Board imposes an annual reporting fee on each active or idle mining operation. Existing law provides that the maximum fee for any single mining operation may not be less than $50 and may not exceed $2,000, and the total revenue generated by the reporting fees may not exceed $1,000,000, as adjusted for the cost of living.

This bill would instead limit the annual reporting fee to not less than $100 and not more than $4,000 for any single mining operation, as adjusted for the cost of living beginning in the 2005–06 fiscal year. The bill would limit the total revenue generated by reporting fees to $3,500,000, as adjusted for the cost of living beginning in the 2005–06 fiscal year.

(3) Existing law requires the Director of Conservation to remediate or complete reclamation of abandoned mine lands by January 1, 2007; and, not later than January 1 of each year, to report to the Legislature on any abandoned mine remediation projects that are proposed for the following year.

This bill would create the Abandoned Mine Reclamation and Minerals Subaccount in the Mine Reclamation Account. The bill would authorize the Department of Conservation to expend the moneys in the subaccount, upon appropriation by the Legislature, for specified purposes regarding abandoned mine lands. The bill would require the State Mining and Geology Board to collect a fee of $5 per ounce of gold and 10¢ per ounce of silver mined within the state for deposit into the subaccount.

(4) The bill would make related changes.

Ch. 795 (SB 680) McPherson. Student financial aid: Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Program: high school grade point average: nontraditional, returning, and older adult students.

Existing law, known as the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Act, establishes the Cal Grant A and B entitlement awards, the California Community College Transfer Entitlement awards, the Competitive Cal Grant A and B awards, the Cal Grant C awards, and the Cal Grant T awards under the administration of the Student Aid Commission, and establishes eligibility requirements for awards under these programs for participating students attending qualifying institutions.

An existing provision of the act defines "high school grade point average" as a grade point average calculated on a 4.0 scale, using all academic coursework, except that during the sophomore year, the summer following the sophomore year, the junior year, and the summer following the junior year, the grades for physical education, reserve officer training corps, and remedial courses are excluded from that calculation.

Existing provisions of the act require applicants for competitive Cal Grant A awards or competitive Cal Grant B awards to comply with various requirements, among which is the attainment of a minimum high school grade point average.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require the Student Aid Commission to convene an existing advisory committee to review the existing formula for calculating high school grade point averages under the act. The bill would require the commission to report the findings and recommendations of this committee to the Legislature as part of a report that is currently required to be submitted to the Legislature, prior to December 31, 2004. The bill would also require the commission to review the issue of whether the act provides adequate resources for nontraditional, returning, and older adult students, and to report its findings and recommendations to the Legislature as part of the same report required above, prior to December 31, 2004.

Ch. 796 (SB 692) Kuehl. Department of Fish and Game: sport fishing.

(1) Existing law requires the Department of Fish and Game to prepare a report relating to deputized employees by March 31, 1993. Copies of the report are required to be made available.

This bill would delete that obsolete provision.

(2) Existing law prohibits taking of striped bass in a sport fishery without a license. Those provisions are repealed as of January 1, 2004.

This bill would instead establish provisions relating to sport fishing in the San Francisco Bay and delta, including prohibiting a person from sport fishing in the San Francisco Bay and delta unless he or she first obtains a Bay-Delta Sport Fishing Enhancement Stamp or validation and affixes that stamp or validation to a valid sport fishing license. The bill would set a base fee of $5 for that stamp or validation, which fee would be adjusted annually. The bill would require that fees received for that stamp or validation shall be deposited in a separate account in the Fish and Game Preservation Fund, and would require the department to expend the funds in that account for the long-term, sustainable benefit of the primary bay-delta sport fisheries. The bill would require the director of the department to appoint a San Francisco Bay-Delta Sport Fishing Enhancement Stamp Fund Advisory Committee. The provisions described in (2) would be repealed as of January 1, 2009.

Under existing law, violation of the Fish and Game Code is a misdemeanor. By changing the scope of a crime, the bill would impose a state-mandated local program.

(3) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the Department of Fish and Game and the Fish and Game Commission to pay all necessary expenses incurred in carrying out the Fish and Game Code, and to pay the compensation and expenses of the commissioners and employees of the commission. Unless otherwise provided, all money collected under the code is deposited in the fund.

By imposing new duties on the department, and increasing revenues deposited in the fund, the bill would make an appropriation.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 797 (SB 727) Kuehl. Unemployment and disability compensation: family temporary disability insurance.

Under existing law, the family temporary disability insurance program provides up to 6 weeks of wage replacement benefits to workers who take time off work to care for a seriously ill child, spouse, parent, domestic partner, or to bond with a new child. These benefits are payable for family temporary disability leaves that begin on and after July 1, 2004.

This bill would make conforming and clarifying changes in provisions relating to family temporary disability compensation.

Existing law also requires that an individual claiming disability benefits establish medical eligibility by filing a claim supported by a certificate of a treating physician or practitioner that establishes, among other things, the condition of the family member.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require that the Employment Development Department develop a certificate that the individual taking leave to care for a family member shall file, and require that the certificate be within the knowledge of the physician or practitioner and be based on a physical examination and documented medical history of the family member.

Existing law requires the Director of the Employment Development Department to assess a penalty against an individual who, with the intent to defraud, falsely certifies the medical condition of any person to obtain family temporary disability insurance benefits.

This bill would also apply certain existing unemployment insurance provisions to family disability insurance benefit provisions.

This bill would also define the disability benefit period for purposes of the family temporary disability insurance program, clarify the amount of benefits an individual is eligible to receive each full day under the program, and authorize the director to require the care recipient to submit to reasonable examinations, as provided.

Existing law requires workers to pay contributions to the Disability Fund at the rate determined by the director, and authorizes the director to increase or decrease that rate, as specified, if the director determines an adjustment is necessary to reimburse the Disability Fund for disability benefits paid or to be paid, or to prevent the accumulation of funds in excess of those needed to maintain an adequate fund balance.

This bill would prohibit the director from decreasing the rate of worker contributions for the 2004, 2005, and 2006 calendar years, regardless of whether the director determines a decrease is necessary to prevent the accumulation of funds in excess of those needed to maintain the adequacy of the Disability Fund during program implementation.

Existing workers' compensation law authorizes the Workers' Compensation Appeals Board to determine and allow specified expenses as liens against any sum to be paid as compensation.

This bill would additionally allow as a lien, against any sum to be paid as compensation, the amount of family temporary disability insurance benefits that have been paid to an injured employee, as provided.

Ch. 798 (SB 763) Brulte. Schoolsite acquisition: approval process.

Existing law authorizes the governing board of a school district to acquire a site for a school building if the county committee on school district reorganization has received a petition for acquisition of the site and reports its recommendations, within 60 days, to the affected governing boards and county superintendents of schools.

This bill would instead authorize the governing board of a school district to acquire a site for a school building if the petition requesting the acquisition is approved by a majority of the members of the governing board of the acquiring school district and filed with the county superintendent of schools in charge of that district, as provided, and the county committee on school district organization has approved the petition, as specified. By requiring the county committee on school district reorganization to consider the petition for acquisition, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 799 (SB 814) Vincent. Gambling.

(1) Existing law regulates legal gaming in California and provides that until January 1, 2007, a governing body and the electors of a county, city, or city and county, which have not

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

authorized legal gaming prior to January 1, 1996, may not authorize or expand legal gaming. Existing law also prohibits, until January 1, 2007, the California Gambling Control Commission from issuing a gambling license for a gambling establishment that was not licensed to operate in December 31, 1999, except as specified.

This bill would extend the operative dates of those provisions until January 1, 2010, as specified. The bill would also make nonsubstantive changes to a related provision.

(2) Existing law provides that the California Gambling Control Commission may grant or deny licenses to corporations, and requires that a license be renewed annually, as specified. Existing law requires the payment of a specified fee for the renewal of a license.

This bill would permit the commission to renew a license for a longer period, not to exceed 2 years. The bill would also provide that a license that is renewed for a period longer than one year shall be reviewed by the commission, and may be amended to be for one year, upon the commission's order. The bill would also require that a licensee pay a specified fee in any year in which the licensee is not required to pay a fee for the renewal of the license.

Ch. 800 (SB 842) Karnette. Instructional materials: accessibility.

Existing law provides for the adoption and selection of quality instructional materials for use in elementary and secondary schools, and imposes requirements upon publishers and manufacturers of instructional materials.

This bill would require publishers to make basic instructional materials more accessible to pupils with disabilities, as specified. The bill would require publishers to facilitate access to Internet resources and digital multimedia programs intended for use by the general population of pupils by pupils with disabilities who are progressing in the general curriculum, as specified.

Ch. 801 (SB 923) Sher. Water quality: waivers.

Existing law, the Porter-Cologne Water Quality Control Act, provides that a regional board may waive certain waste discharge requirements for specific discharges or specific types of discharges if the waiver is not against the public interest. The act provides that the waivers are subject to conditions.

This bill, instead, would authorize the state board or a regional board to waive those waste discharge requirements if certain requirements are met. The bill would require the conditions of the waivers to include, with certain exceptions, the performance of individual, group, or watershed-based monitoring duties. The bill would authorize the state board or a regional board to include as a condition of the waiver the payment of an annual fee. The bill would require the funds generated by the payment of the fee to be deposited in the Water Discharge Permit Fund for expenditure, upon appropriation, by the state board or the appropriate regional board to establish and implement the waiver program. The bill would require the state board or regional board to provide notice regarding the adoption of a waiver.

Ch. 802 (SB 930) Ducheny. Indian gaming: tribal-state compacts.

Existing federal law, the Indian Gaming Regulatory Act of 1988, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain gaming activities on Indian lands within a state. Existing California law expressly ratifies specified tribal-state gaming compacts.

This bill would ratify a tribal-state gaming compact entered into between the State of California and the Torres-Martinez Desert Cahuilla Indians on August 12, 2003.

Ch. 803 (SB 964) Burton. High school exit examination.

Existing law requires, commencing with the 2003–04 school year, each pupil completing grade 12 to successfully pass the high school exit examination as a condition of receiving a diploma of graduation or a condition of graduation from high school.

This bill would require the Superintendent of Public Instruction to develop, and the State Board of Education to approve, by January 31, 2004, a request for a proposal for an

NOTE: Superior numbers appear as a separate section at the end of the digests.

independent consultant to assess options and provide recommendations for alternatives to the high school exit examination for pupils with disabilities to be eligible for a high school diploma. The bill would require the independent consultant to be selected by a selection panel established by this bill by April 30, 2004. The bill would require the superintendent to establish, by April 30, 2004, an advisory panel, composed of members with prescribed qualifications for the purpose of advising the independent consultant. The bill would require the independent consultant to provide the advisory panel with a preliminary report and to prepare and disseminate a final report by May 1, 2005. The bill would authorize the superintendent, upon approval of an expenditure plan by the Department of Finance and the Joint Legislative Budget Committee, to provide funds for the purposes of implementing the recommendations of the independent consultant.

This bill would provide that the members of the advisory panel shall serve without compensation for a term of one year and would require the State Department of Education to provide staff and resources to the advisory panel.

This bill would provide that the $1,000,000 appropriated in Schedule 12 of Item 6110-113-0890 of Section 2.00 of the Budget Act of 2003 shall be available for the purposes of the independent consultant and his or her report and to support the approved options pursuant to this bill.

Ch. 804 (SB 966) Alarcon. Public works and prevailing wages: contractor's costs.

Existing law generally requires the payment of the prevailing rate of per diem wages and the prevailing rate for holiday and overtime work to employees employed on public works projects that cost more than $1,000. Existing law requires the Director of Industrial Relations to determine these wage rates and to provide these wage rates to an awarding body, as defined, that requests them. Existing state regulations authorize an interested party, as defined, to request that the director make a determination regarding the applicability of these provisions to a particular project.

This bill would authorize a contractor to bring an action in a court of competent jurisdiction to recover from an awarding body specified labor costs, penalties, and legal fees if certain conditions are met.

This bill would also authorize a contractor to bring an action to recover from the body awarding a contract for a public work or otherwise undertaking any public work any increased costs, as defined, incurred by the contractor if certain conditions are met. For purposes of this provision, this bill would define ''awarding body'' to exclude the Department of General Services, the Department of Transportation, and the Department of Water Resources, and define ''increased costs'' to include, but not be limited to, labor cost increases required to be paid to the contractor's workers and penalties for which the contractor is liable, as specified.

Ch. 805 (SB 993) Poochigian. Trespass.

Existing law makes it a misdemeanor to willfully commit a trespass by engaging in specified acts, including, entering upon any lands owned by any other person whereon oysters or other shellfish are planted or growing; or injuring, gathering, or carrying away any oysters or other shellfish planted, growing, or on any of those lands, whether covered by water or not, without the license of the owner or legal occupant; or destroying or removing, or causing to be removed or destroyed, any stakes, marks, fences, or signs intended to designate the boundaries and limits of any of those lands.

This bill would make it a trespass to enter upon lands or buildings owned by any other person without the license of the owner or legal occupant, where signs forbidding trespass are displayed, and whereon cattle, goats, pigs, sheep, fowl, or any other animal is being raised, bred, fed, or held for the purpose of food for human consumption; or to injure, gather, or carry away any animal being housed on any of those lands, without the license of the owner or legal occupant; or to damage, destroy, or remove, or cause to be removed, damaged

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

or destroyed, any stakes, marks, fences, or signs intended to designate the boundaries and limits of any of those lands. By increasing the scope of an existing crime, this bill would impose a state-mandated local program.

This bill would incorporate additional changes in Section 602 of the Penal Code proposed by AB 936, AB 1263, or both, contingent upon the prior enactment of one or both of those bills.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 806 (SB 1058) Torlakson. Instructional materials: children's mental health programs.

(1) Existing law requires the State Board of Education to adopt basic instructional materials for use in kindergarten and grades 1 to 8, inclusive. Existing law further requires the state board to ensure that curriculum frameworks are reviewed and adopted in each subject area consistent with specified submission cycles.

This bill would, until January 1, 2007, require the State Department of Education, prior to conducting a followup adoption, to notify all publishers and manufacturers known to produce basic instructional materials in that subject, that a fee will be assessed based on the number of programs the publisher or manufacturer indicates will be submitted. The bill would prohibit a review of a submission until the fee is paid in full. The bill would continuously appropriate to the department the revenue derived from this fee and would make the revenue available to the department from year to year until expended.

(2) The Budget Act of 2003 requires that $69,000,000 of certain funds appropriated to the Department of Education for special education programs for exceptional children be used exclusively to support mental health services provided during the 2003–04 fiscal year by county mental health agencies pursuant to specified provisions.

This bill would provide that these funds shall not be used by the Controller for recoupment of prior year audit findings.

Ch. 807 (SB 1080) Committee on Business and Professions. Professions and vocations.

(1) Existing law establishes the Medically Underserved Account in the Contingent Fund of the Medical Board of California, and the Dentally Underserved Account in the State Dentistry Fund. Specified moneys in those accounts have been appropriated to repay loans per agreements with dentists or physicians who practice in underserved areas of the state.

This bill would specify that moneys in these accounts are continuously appropriated for those purposes.

(2) Existing law provides for the regulation, licensure, and discipline of public accountants by the California Board of Accountancy. Under existing law, each board member, other than the public members, is required to be actively engaged in the practice of public accountancy. Existing law prohibits a public accountant from receiving a commission from a client while performing certain services.

This bill would prohibit a public accountant from receiving a commission from a 3rd party for providing the 3rd party's products or services to a client. The bill would make an exception to allow one licensee member appointed by the Governor to be an active educator or administrator in a college, university, or four-year program that emphasizes accounting.

(3) Existing law requires a public accountant who is found guilty of certain types of unprofessional conduct to pay to the board all reasonable costs of investigation and prosecution of a case. Under existing law, a person may petition the board for reinstatement of his or her license one year after his or her license has been revoked or suspended.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would revise the provisions governing the basis for the board's recovery of costs. The bill would also provide that a person whose license has been revoked or surrendered may petition the board for reinstatement of his or her license after one year or after a longer period designated by the board, up to 3 years.

(4) Existing law, the Contractors' State License Law, establishes the Construction Management Education Account in the Contractors' License Fund and authorizes a contractor to make a $25 contribution to this account when the contractor pays his or her license fee.

This bill would instead authorize a contractor to make a contribution to this account when renewing his or her license.

(5) Existing law, the Private Security Services Act, licenses private patrol operators and requires a private security guard to register with the Bureau of Security and Investigative Services in the Department of Consumer Affairs. Under existing law, a person who applies for registration must submit classifiable fingerprint cards with his or her application.

This bill would exempt certain classes of peace officers from this requirement.

(6) Existing law, the Private Security Services Act, requires every licensee, except as specified, to complete not less than 32 hours of training in security officer skills beginning July 1, 2004.

This bill would exempt armored vehicle guards from this training requirement.

(7) Existing law, the Real Estate Law, authorizes the regulation of real estate transactions by the Real Estate Commissioner. Existing law specifies an application fee for the real estate salesperson's licensing examination and requires these fees to be deposited into the Real Estate Fund, which is continuously appropriated. Under existing law, the commissioner may require specified proof regarding the honesty and truthfulness of an applicant for a real estate broker's license and shall require every original applicant to be fingerprinted. Existing law requires an applicant to submit evidence of completion of a course in real estate principles in order to take the real estate salesperson license examination.

Commencing July 1, 2004, this bill would authorize the commissioner to obtain proof regarding the honesty and truthfulness from an applicant for the real estate license examination, would authorize an individual currently enrolled in a real estate principles course to take the real estate salesperson's license examination, and would require an applicant for an original real estate salesperson's license to submit evidence that he or she has completed the course, which may include a statement under penalty of perjury. The bill would require the commissioner to collect any applicant's fingerprints prior to issuing a license and would authorize the commissioner to require that they be submitted either with the application for the examination or for the license. Because the bill would authorize more individuals to take the real estate salesperson's license examination and lead to an increase of fees being deposited into a continuously appropriated fund, the bill would make an appropriation.

Because the bill would authorize the statement under penalty of perjury, it would impose a state-mandated local program by expanding the crime of perjury.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 808 (AB 190) Levine. Provisional ballots.

Existing law provides that a voter claiming to be properly registered but whose qualification or entitlement to vote cannot be immediately established shall be entitled to vote a provisional ballot. It prohibits the rejection of a provisional ballot because the voter did not cast his or her ballot in the precinct to which he or she was assigned by the elections official, if the ballot cast by the voter contained only the candidates and measures on which the voter would have been entitled to vote in his or her assigned precinct.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would delete this condition and would instead provide that if a voter casts a provisional ballot that contains candidates or measures on which the voter would not have been entitled to vote in his or her assigned precinct, the elections official shall count the votes for the candidates and measures on which the voter was entitled to vote in his or her assigned precinct. By adding to the duties of local elections officials, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 809 (SB 613) Perata. Elections: voting information.

Existing law requires that voter registration card information be kept confidential.

This bill would require that the California driver's license number, the California identification number, the social security number, and any unique identifier used for voter identification, or added to voter registration records to comply with the Help America Vote Act of 2002, be kept confidential and not be disclosed to any person.

This bill would require that the Secretary of State establish uniform standards for proof of residency applicable in all instances where voters and new registrants are required by law to prove residency.

Existing federal law, the Help America Vote Act of 2002, provides funding to the state and local governments to conduct voter outreach and education programs for individuals with disabilities, and conditions these funds on receipt of a state plan, with certain requirements, and certain requirements relating to voting systems used by the state.

This bill would permit the Secretary of State to provide grants to local elections officials, nonprofit corporations, and unincorporated associations to conduct voter outreach and voter education programs, or to increase accessibility for eligible voters with disabilities, using funding provided by the Help America Vote Act of 2002.

Existing law requires precinct boards to post instruction cards in and around polling places, including each voting booth, on the day of an election.

This bill would require a member of each precinct board to post an expanded set of specified materials in each polling place on the day of an election and, by so doing, would impose a state-mandated local program.

This bill would further require that the Secretary of State establish and maintain administrative complaint procedures, pursuant to the requirements of the Help America Vote Act of 2002, to remedy grievances in the administration of elections.

This bill would provide that specified provisions would only be implemented to the extent that federal funds are available pursuant to the Help America Vote Act of 2002.

Existing law provides that if a precinct board is unable to find a voter's name upon the index of registration and it is unable to call the elections official's office on behalf of the voter, the board must furnish the voter with the elections official's telephone number and direct the voter to the nearest telephone.

This bill would eliminate the duty of the precinct board to call the elections official's office and require that board, where a voter's name is not found on the index of registration, to inform the voter of the option of filing a provisional ballot, and provide the voter with the materials and instruction to file a provisional ballot if the voter elects to do so.

Existing law provides for the use of a provisional ballot where a voter's qualification or entitlement to vote cannot be immediately established by examining the index of registration or records on file with the county elections official.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would create procedures to be followed where a provisional ballot is cast. Specifically, this bill would require that an elections official advise the voter of the voter's right to cast a provisional ballot, and that the voter be provided written instruction and an affirmation regarding the voter's registration and eligibility to vote. This bill would require that the voter execute the affirmation in the presence of an elections official. This bill would further require that, where the closing of polls is extended pursuant to a court order, the votes cast after the time the polls would have otherwise closed be cast by provisional ballot and be kept separate from all other provisional ballots cast in the election.

By imposing various new duties upon local elections officials as summarized above, this bill would impose a state-mandated local program.

This bill would further require that the Secretary of State establish standards for a free access system to enable a provisional voter to determine whether his or her ballot was counted and, if not, the reason why the ballot was not counted.

Existing law permits a voter who has changed residence within the same county and not reregistered at the new address to cast a provisional ballot upon showing proof of current residence.

This bill would require that the Secretary of State's requirements for a showing of proof of current residence to cast a provisional ballot be consistent with the showing required for other voters and for new registrants.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would incorporate additional changes in Section 14310 of the Elections Code proposed by AB 190, that would become operative only if AB 190 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

This bill would amend Section 14311 of the Elections Code in the manner proposed by AB 1689, to become operative only if AB 1689 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 810 (AB 1679) Committee on Elections, Redistricting and Constitutional Amendments. Elections: procedures and the Democratic Presidential Primary.

(1) Existing law defines a "ballot card" and specifies the procedures that apply, and do not apply, to separate write-in ballots used in an election in which a punchcard voting system is used.

This bill would make a technical change by updating an applicable statutory cross-reference in this provision.

(2) Existing law requires, generally, that a general election of special district governing board members be held on a specified date in November of each odd-numbered year, unless the principal act of the district provides that the election shall be held on another date set forth in specified code sections.

This bill would make a technical change by updating an applicable statutory cross-reference in this provision.

(3) Existing law defines the term "elector" to include any person who is a United States citizen 18 years of age or older and a resident of an election precinct at least 29 days prior to an election.

This bill would make a technical change by instead requiring residency 15 days prior to an election.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(4) Existing law requires counties to send certain voter registration data to the Secretary of State in accordance with a specified schedule. It requires the data to be sent not less than 10 days prior to the primary election or general election with respect to voters registered before the 28th day prior to the primary election or general election, respectively, among other things. Existing law, however, allows voters to register up to the 14th day prior to an election.

This bill would make a technical change by instead requiring the data to be sent not less than 7 days prior to the primary or general election with respect to voters registered before the 14th day prior to the primary or general election.

(5) Existing law requires that specified voter registration card information, including the voter's home address, be confidential and not be made routinely available to the public. Disclosure of the voter's home address may be made for limited purposes, including whenever a person's vote is challenged pursuant to specified provisions of law.

This bill would make a technical change by updating certain applicable statutory cross-references in this provision.

(6) Existing law permits a voter to write the name of a candidate for any public office on the ballot of an election, with certain requirements.

This bill would make technical changes by updating applicable statutory cross-references in these provisions.

(7) Existing law requires the elections official, for a mail ballot election, to mail the combined sample ballot and mail ballot during a specified time period before the election, notwithstanding specified statutory provisions.

This bill would make a technical change by updating certain applicable statutory cross-references in this provision.

(8) Existing law provides certain procedures relating to conducting the Democratic Presidential Primary, including procedures relating to the selection of delegates to represent the state at the national convention of the Democratic Party.

This bill would revise these procedures and delete certain requirements related to the selection of delegates.

(9) Existing law authorizes the Registrar-Recorder of the County of Los Angeles and the Registrar of Voters of Orange County, by county agreement, each to perform on behalf of the other duties relating to the conduct of an election of governing board members for any school district whose territory lies within both counties, where the election is consolidated with a primary, municipal, or general election under a specified provision of law.

This bill would make a technical change by updating an applicable statutory cross-reference in this provision.

(10) Existing law requires, under specified circumstances, that where an election called by the legislative body of a city is consolidated with an election held in the county in which the city is located, the canvass of the election be made in accordance with specified provisions of law.

This bill would make a technical change by updating a cross-reference to an applicable article of law in this provision.

(11) Existing law requires the elections official, on election day, to furnish to precinct officers specified precinct supplies, including instruction cards for voters containing specified provisions of law. It also requires the elections official to supply a sufficient number of ink pens or pencils for the purpose of permitting voters to write in on the ballot the name of a candidate who has qualified to have his or her name counted under specified provisions of law.

(12) This bill would make technical changes by updating applicable statutory cross-references in these provisions.

(13) Existing law requires that, where the district attorney petitions the court for a public recount of ballots tabulated by a voting system, a specified provision of law requiring the computer vote count program be returned to the county elections official within specified

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

time periods shall apply unless the court orders the program held pending the conclusion of litigation challenging the outcome of the election.

This bill would make a technical change by updating an applicable statutory cross-reference in this provision.

(14) Existing law requires the elections official, for a specified time period, to preserve certain records for certain federal elections, and for certain state or local elections, including an order appointing members of precinct boards and designating polling places as required by a specified provision of law.

This bill would make a technical change by updating an applicable statutory cross-reference in these provisions.

(15) Existing law provides that in the case of electrical failure or other emergency affecting a voting system, the elections official may direct that the ballots be marked by pencil or ink, and may duplicate the voted ballot cards as provided in a specified provision of law and count the voted ballots pursuant to a specified article of law.

This bill would make technical changes by updating applicable cross-references to a statutory provision and an article of law in this provision.

(16) This bill would incorporate additional changes in Section 2194 of the Elections Code proposed by SB 613, that would become operative only if SB 613 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

(17) This bill would incorporate additional changes in Section 14105 of the Elections Code proposed by AB 177, that would become operative only if AB 177 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 811 (SB 1024) Committee on Elections and Reapportionment. Elections: omnibus provisions.

(1) Existing law requires an election for the purpose of filling a vacancy in the governing board of a school district to be held not less than 130 days after the occurrence of the vacancy or after a resignation is filed with the county superintendent of schools.

This bill would impose a state-mandated local program as it would, instead, require the election to be held not less than 130 days after the order of the election.

(2) Existing law provides that a new citizen is eligible to register and vote at the office of the county elections official at anytime beginning on the 28th day before an election and ending on the 7th day prior to the election.

This bill would modify that time period to begin on the 14th day before an election, thereby imposing a state-mandated local program.

(3) Existing law requires the proponents of a recall of an elected officer to submit a notice of intention, which is required to contain the printed name, signature, and business or residence address of each of the proponents, among other requirements.

This bill would modify that provision in that it would require the proponents to submit their residence addresses or, for each proponent who cannot receive mail at his or her mailing address, an alternative mailing address.

(4) Existing law provides that a person offering to vote may be orally challenged by a member of the precinct board if the voter is not a resident of the precinct, unless the voter is registered in another precinct and he or she is moving from that precinct within 28 days prior to an election.

This bill would modify those provisions in that it would exempt a voter registered in another precinct who is moving from that precinct within 14 days prior to an election.

(5) Existing law requires the Secretary of State to compute the number of members of central committees of the Peace and Freedom Party to be elected and certify the number to elections officials and the Chairperson of the Peace and Freedom Party State Central Committee.

This bill would eliminate these duties of the Secretary of State and would, instead, require that the state party chairperson, within a prescribed period, advise the Secretary of State

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

whether the party will hold a central committee election. If an election is not held, a county central committee would be convened pursuant to the party's rules.

(6) Existing law requires each candidate for judicial, legislative, or statewide office to file a declaration of intention to become a candidate.

This bill would delete that requirement and make conforming changes.

(7) Existing law requires a candidate for an elective city office to be nominated by means of a nomination paper signed by a specified number of voters, and permits any person registered to vote at the election to circulate the nomination paper.

This bill would, in addition, require the circulator of the nomination paper to be qualified to vote for the elective office of the city for which the nomination is made, and would require that only one person circulate each nomination paper, thereby creating a state-mandated local program.

(8) Existing law requires a nomination for the office of director of a resource conservation district to be filed with the clerk of the board of supervisors of the principal county.

This bill, instead, would require the nomination to be filed with the county elections official.

(9) Existing law requires that county elections officials register electors who apply as voters.

This bill, instead, would require that county clerks register voters.

(10) This bill also makes technical, nonsubstantive changes to existing law, and corrects several erroneous cross-references to existing law.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(12) This bill would incorporate additional changes in Section 3103 of the Elections Code proposed by AB 188 and AB 1679, that would become operative only if either AB 188 or AB 1679, or both bills, and this bill are chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

(13) This bill would incorporate additional changes in Section 3304 of the Elections Code proposed by AB 188, that would become operative only if AB 188 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

(14) This bill would incorporate additional changes in Section 4101 of the Elections Code proposed by AB 1679, that would become operative only if AB 1679 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

(15) This bill would incorporate additional changes in Section 10411 of the Elections Code proposed by AB 1679, that would become operative only if AB 1679 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

(16) This bill would incorporate additional changes in Section 13113 of the Elections Code proposed by AB 718, that would become operative only if AB 718 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 812 (SB 591) Scott. Dependent children: caregiver information.

Existing law prescribes various proceedings with respect to children who are removed from their parents' custody and placed in foster care or kinship care with a caregiver.

Existing law requires the court, before determining the appropriate disposition, to receive in evidence specified information, including, but not limited to, a social study or evaluation made by a social worker or child advocate appointed by the court.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require that the study or evaluation, and the information received in evidence by the court, include the willingness of the caregiver to provide legal permanency for the child if reunification is unsuccessful.

Existing law requires, in any case in which a child is removed from the physical custody of his or her parents, that preferential consideration be given to a request by a relative of the child for placement of the child with the relative, and requires the court and social worker to consider specified factors.

This bill would require that a placing agency provide a caregiver placement agreement, as defined, to a child's caregiver at the time of placement with that caregiver, and would establish provisions for placement agreements.

This bill would, in addition, require the court and social worker to consider the relative's desire to provide legal permanency for the child if reunification is unsuccessful.

Existing law establishes services for the care of children, including foster care placement, and requires that the responsible local agency make a diligent effort in all out-of-home placements of dependent children, including those with relatives, to develop and maintain sibling relationships, and also requires the preparation of a case plan with respect to child welfare services for the child.

This bill would require that information regarding sibling interaction, contact, or visitation authorized or ordered by the court be provided to the foster parent, relative caretaker, or legal guardian of the child, as specified, and that specified information regarding visits with the natural parents or legal guardians, visits with siblings, and visits by the social worker, be included in the case plan.

The bill would also require that the case plan include information as to the willingness of the caregiver to provide legal permanency for the child if reunification is unsuccessful, and that the caretaker receive a copy of a plan outlining the child's needs and services.

Under existing law, when a child is placed in foster care, the case plan for the child is required to include a specified health and education summary. Under existing law, a child protective agency is required to provide the child's caregiver with the health and education summary, not later than 30 days after the initial placement, or within 48 hours after a subsequent placement.

This bill would further provide that when a child is placed in foster care or kinship care, the child protective agency shall provide additional personal information, as specified, relating to the child and the child's case to the child's caregiver.

This bill would also provide that as soon as possible after a placing agency makes a decision with respect to a placement or a change in placement of a dependent child, the placing agency shall notify the child's attorney and provide to the child's attorney information regarding the child's address, telephone number, and caregiver.

This bill would state that this provision is declaratory of existing law and intended to codify a holding in a specified judicial decision.

By increasing the duties of child protective agencies, this bill would create a state-mandated local program.

Existing law specifies the various duties of the Judicial Council, including the adoption of rules of court.

This bill would require the Judicial Council to adopt a rule of court directing an attorney of a dependent child of the juvenile court to provide specified contact information to the child's caregiver or, in some cases, to the child.

This bill would incorporate additional changes to Section 16501.1 of the Welfare and Institutions Code proposed by AB 408, to be operative only if this bill and AB 408 are both enacted and become effective on or before January 1, 2004, AB 1151 is not enacted, and this bill is enacted last. The bill would incorporate additional changes to that section proposed by AB 1151, to be operative only if this bill and AB 1151 are both enacted and become effective on or before January 1, 2004, AB 408 is not enacted, and this bill is enacted last. The bill would also incorporate additional changes to that section proposed by this bill, AB

NOTE: Superior numbers appear as a separate section at the end of the digests.

408, and AB 1151, to be operative only if all 3 bills are enacted and become effective on or before January 1, 2004, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 813 (AB 408) Steinberg. Dependent children.

(1) Existing law provides that children may become dependent children of the juvenile court on the basis of abuse or neglect. Existing law requires social workers and other specified persons or agencies to prepare social studies, reports, evaluations, assessments, and supplemental reports for the juvenile court containing specified information regarding children who are, or who may become, dependent children of the juvenile court. Existing law also requires county welfare departments to provide or arrange for permanent placement services for children who cannot safely live with their parents and are not likely to return to their own homes.

Existing law requires the court to review the status of every child in foster care at least every 6 months, to determine specified facts concerning the child, and to consider permanency planning options regarding a child who is in long-term foster care, as specified. Existing law also authorizes the court to terminate parental rights in certain cases. Existing law also requires social workers and the clerk of the court to send notice of hearings in the juvenile court concerning a child who is, or who may become, a dependent child of the court to that child if he or she is 10 years of age or older. Existing law further requires the county welfare department to submit a report at any hearing to terminate jurisdiction over a dependent child who has reached the age of majority, verifying that specified information and services have been provided to the dependent child.

This bill would require the court to determine whether the placing agency has made reasonable efforts to maintain a child's relationships with individuals who are important to a child who is 10 years of age or older and who is placed in a group home, and make any order to ensure that actions are taken to maintain those relationships. In specified circumstances, the bill would require social workers and certain agencies, as specified, to make efforts to identify those persons and to make efforts to maintain those relationships. If a court orders a hearing to terminate parental rights, the bill would require the court to make any appropriate order to enable the child to maintain those relationships. The bill would require social workers and those agencies to ask every child who is 10 years of age or older to identify those persons, consistent with the child's best interest. The bill would also authorize them to ask any child who is younger than 10 years of age to identify those persons. The bill would require that certain assessments include a description of efforts made to identify a prospective adoptive parent. By imposing new duties on local employees, the bill would create a state-mandated local program.

This bill would also revise the permanency planning options a court must consider regarding a child who is in foster care.

This bill would require that the notice of a hearing in the juvenile court that is sent to a child who is 10 years of age or older state that the child has the right to attend the hearing. The bill would also require the court to determine whether a minor who is 10 years of age or older and who is not present at the hearing was properly notified of his or her right to attend the hearing and to inquire as to the reason why the child is not present.

This bill would further require the county welfare department to provide information to a dependent child who has reached the age of majority on maintaining relationships with

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

individuals who are important to the child, and to verify in the report submitted to the court that this information has been provided. By imposing additional duties on county welfare departments, the bill would create a state-mandated local program.

(2) Existing law encourages the development of approaches to child protection to achieve certain goals, including the goal of ensuring that children leaving the foster care system have support within their communities.

This bill would additionally require the state to encourage the development of approaches to child protection that ensure that no child leaves foster care without a lifelong connection to a committed adult. The bill would provide that every dependent child shall be entitled to participate in age-appropriate extracurricular, enrichment, and social activities, and that state and local regulations and policies may not prevent or create barriers to participation in those activities. The bill would also require state and local entities to ensure that private agencies that provide foster care services to dependent children promote and protect the ability of dependent children to participate in those activities.

(3) Existing federal law establishes the Independent Living Program for foster youth to be administered by counties with federal and state funds.

Existing law requires each county department of social services to include in its annual Independent Living Program report an accounting of federal and state funds allocated for implementation of the program. Existing law provides that expenditures must be related to the specific purposes of the program and provides a descriptive list of the purposes the program may include. Those purposes include providing each participant in the program with a written transitional independent living plan that will be incorporated in his or her case plan.

This bill would revise the list of permissible program purposes to include convening persons who have been identified by the participant as important to him or her for the purpose of providing information to be included in his or her written transitional independent living plan.

(4) Existing law establishes the Child Welfare Training Program to provide training to meet the needs of county child protective services social workers.

This bill would require this training to include the importance of maintaining specified child relationships with important individuals and methods to identify those individuals.

(5) Existing law provides that the foundation and central unifying tool in child welfare services is the case plan, and specifies the contents thereof.

This bill would require a case plan for a child 16 years of age or older, when appropriate, to include a written description of programs and services to assist the child in independent living, and require the case plan to be developed with the child and other persons who are important to the child. The bill would also require specified case plans to contain information about individuals who are important to a child. The bill would require social workers to make an effort to identify those individuals. By imposing additional duties on county welfare departments, the bill would create a state-mandated local program.

(6) The bill would incorporate the substance of further changes to Section 366.21 of the Welfare and Institutions Code proposed by AB 579, and to Section 16501.1 of the Welfare and Institutions Code proposed by AB 1151, AB 490, and SB 591, contingent upon their prior enactment, respectively.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 814 (SB 306) Ducheny. Mobilehomes and manufactured homes.

(1) The State Housing Law authorizes cities and counties to prescribe fees for specified activities. Those provisions declare that they do not prohibit the use of, among other things, a manufactured home, and other specified materials, appliances, installations, devices, arrangements, and methods of construction.

This bill would specify that those provisions do not prohibit the use of a multiunit manufactured home. The bill would also authorize the city or county to approve certain alternate materials, appliances, installations, devices, arrangements, and methods of construction on a case-by-case basis.

(2) The Mobilehome Parks Act generally regulates various classifications of mobilehome and related vehicle parks and imposes related duties on the Department of Housing and Community Development and local enforcement agencies. The act also excludes from the definition of a "mobilehome park" an area or tract of land zoned for agricultural purposes, as specified, that accommodates manufactured homes, mobilehomes, or recreational vehicles for housing 12 or fewer agricultural employees.

This bill would instead provide that an area or tract of land zoned for agricultural purposes, as specified, to accommodate 12 or fewer manufactured homes, mobilehomes, or recreational vehicles for housing agricultural employees is not deemed to be a mobilehome park.

The bill would also revise the definitions of "recreational vehicle park" and "temporary recreational vehicle park" to, among other things, expand an exemption for the housing of agricultural employees.

The act authorizes the department to enforce plan review activities through department-approved plan checking agencies.

This bill would delete that authority.

(3) The Mobilehomes-Manufactured Housing Act of 1980 requires a dealer to keep its established place of business open for inspection of records.

This bill would require any other location where records are kept to be open for inspection during normal business hours.

(4) Existing law requires the department to release individual spaces in a mobilehome park from a regulatory agreement made in connection with those loans from the Mobilehome Park Purchase Fund only if they are purchased by low-income residents who occupy them.

This bill would delete the requirement that the occupants be low-income residents.

(5) Existing law requires the Department of Housing and Community Development to establish the Joe Serna, Jr. Farmworker Housing Grant Program under which, subject to the availability of funds therefor, grants or loans, or both, are made to local public entities, nonprofit corporations, and limited partnerships for the construction or rehabilitation of housing for agricultural employees and their families. Grants or loans may also be made for the cost of acquiring the land and any building thereon in connection with the housing assisted pursuant to the program and for the construction and rehabilitation of related support facilities necessary to the housing.

This bill would specify that those grants or loans may be made for the acquisition of manufactured housing, as specified.

Ch. 815 (SB 54) Dunn. Mobilehomes.

(1) The existing Mobilehome Parks Act generally provides for enforcement of the act by a local enforcement agency.

This bill would make a legislative finding and declaration that it is necessary that the enforcement agency should notify a complainant regarding a violation of the act as to when the complaint will be investigated, and to advise the complainant of the findings of the inspector.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) The Mobilehome Parks Act and the Special Occupancy Parks Act prohibit creating, moving, shifting, or altering of park lot lines without written authorization of the local planning agency.

This bill, instead, would require the written authorization of the registered owner of a mobilehome or manufactured home, or the occupant, resident, or tenant of a lot subject to the Special Occupancy Parks Act and a permit issued to the park owner or operator by the enforcement agency pursuant to prescribed procedures prior to creating, moving, shifting, or altering of park lot lines, as specified. Because a willful violation of the Mobilehome Parks Act or the Special Occupancy Parks Act is a misdemeanor, a willful violation of this requirement would constitute a crime. The bill would authorize the Department of Housing and Community Development to adopt a fee for the permit. These provisions would become operative July 1, 2005.

(3) This bill also would incorporate additional changes in Sections 18300 and 18865 of the Health and Safety Code proposed by SB 306, to be operative if SB 306 and this bill are both enacted and become effective on or before January 1, 2004, and this bill is enacted last.

(4) The bill would create a state-mandated local program by imposing new duties on local agencies and by creating new crimes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 816 (AB 47) Simitian. Timber harvesting plans: regulations: information.

Existing law, the Z'berg-Nejedly Forest Practice Act of 1973, prohibits a person from conducting timber operations, as defined, until the person files a timber harvesting plan with the Department of Forestry and Fire Protection, in accordance with specified requirements.

The act requires that a timber harvesting plan be a public record and include specified information relating to the conduct of timber operations.

The act also requires the State Board of Forestry and Fire Protection to adopt various rules and regulations related to forest practices.

This bill would require the board, on or before January 1, 2005, to adopt regulations requiring a timber harvesting plan to include specified map or maps. The bill would provide that this requirement may not be construed to require disclosure of proprietary information to the public. The bill would require the board to consider the impact of the regulations on smaller landowners, and avoid imposing excessive burdens and costs on those landowners.

Ch. 817 (AB 54) Oropeza. Teacher training: cultural competency.

Existing law establishes various training and development programs for teachers and administrators.

This bill would require the Commission on Teacher Credentialing, in consultation with the State Department of Education, to contract with an independent evaluator to conduct a study of the availability and effectiveness of cultural competency training for teachers and administrators. The bill would require the study to focus on 10 culturally diverse schools that reflect the diverse demography and geography of California and would prescribe criteria for selecting those schools. The bill would set forth guidelines for conducting the study.

This bill would require the independent evaluator, upon the conclusion of the study, and on or before May 1, 2005, to submit to the appropriate policy committees of the Legislature a report that includes specified recommendations based on the results of the study.

Ch. 818 (AB 245) Cohn. Crimes: professional sporting events.

Existing law makes it a crime to commit a battery against a sports official, as specified.

This bill would make it unlawful for any person attending a professional sporting event to throw any object on or across the court or field of play with the intent to interfere with play

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

or distract a player ; or enter upon the court or field of play without permission from an authorized person during the sporting event. The bill would provide that its provisions shall apply to attendees, but not to players or sports officials. The bill would require the owner of the facility in which a professional sporting event is to be held to provide a specified notice regarding the bill's provisions. The bill would provide that a violation of the provisions prohibiting throwing objects on or entering field of play is an infraction punishable by a fine not exceeding $250 and that failure of the owner to post the specified notice is not a defense to a violation. Because the bill would create new crimes, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 819 (AB 593) Ridley-Thomas. Voter registration.

The Secretary of State has certain administrative duties under existing law concerning the provision of voter registration materials.

This bill would additionally require the Secretary of State to provide voter registration forms and information to students in all high schools, community colleges, and campuses of the California State University or University of California. The bill would also state the Legislature's intent that high schools and colleges provide students with voter registration forms.

Under existing law, a voter's name is deleted from the permanent absent voter list if he or she fails to return an absentee ballot for any statewide primary or general election.

This bill would provide instead that a voter's name would be deleted only if he or she fails to return an absentee ballot for any statewide general election.

Under existing law, the Department of Motor Vehicles requires licensed persons to provide a signature.

This bill would provide that the signature must be a digitized signature, as defined, and would require the department to forward the digitized signature to the Secretary of State if the person wishes to register to vote and to forward change-of-address information to the Secretary of State if the person wishes to change his or her address for voting purposes.

This bill would incorporate additional changes in Section 3206 of the Elections Code, proposed by AB 188, to be operative only if AB 188 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 820 (AB 855) Firebaugh. Telecommunications: access to state property for wireless facilities: California Teleconnect Fund Administrative Committee Fund: Digital Divide Account.

(1) Existing law requires the Director of General Services, with the approval of the state agency concerned, to negotiate, in the name of the state, access to state-owned property not used for highway purposes, for those purposes and subject to those conditions, limitations, restrictions, and reservations determined by the director to be in the interest of the state. Existing law provides that this requirement to negotiate access applies to telecommunications and information technologies. Existing law requires, to the extent permitted under existing law, the Director of General Services to determine the amount of consideration for, and means of access, which means shall include, but not be limited to, lease, permit, or other form of providing a monetary or service consideration for the access.

Existing law imposes similar requirements on the Director of Transportation with respect to state-owned highway rights-of-way.

This bill would require the Director of General Services, within 120 days of the operative date of the bill, to compile and maintain an inventory of state-owned real property, excluding certain property, that may be available for lease to providers of wireless telecommunications

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

services for location of wireless telecommunications facilities, and to provide a requesting party, upon payment of any applicable fee, with a copy of the inventory. It would authorize the director to negotiate and enter into an agreement for the lease of certain department-managed and state-owned real property to any provider of wireless telecommunications services for location of its facilities, subject to specified conditions.

This bill would require, notwithstanding any other provision of law, that any revenue collected from a lease entered into pursuant to this bill to use property that was acquired with money in a fund other than the General Fund be deposited into the fund from which it was obtained. The bill would further require that moneys received and deposited in those funds be available upon appropriation by the Legislature notwithstanding any other provision of law.

(2) Existing law establishes the California Teleconnect Fund Administrative Committee to advise the Public Utilities Commission regarding the development, implementation, and administration of a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations, consistent with an uncodified statute requiring the commission to open and conclude a proceeding relative to the implementation of universal service in telecommunications. Existing law establishes the California Teleconnect Fund Administrative Committee Fund in the State Treasury and provides that moneys in the fund, collected by telephone corporations in utility rates authorized by the commission and deposited into the fund, may only be expended for the purposes authorized, upon appropriation in the annual Budget Act.

This bill would require the commission to develop, implement, and administer a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations.

(3) Existing law requires the Public Utilities Commission to develop a plan to encourage the widespread availability and use of advanced communications infrastructure consistent with the state policy of bridging the digital divide.

The bill would require that 15% of the revenues from fees collected from the lease of state-owned real property to the providers of wireless telecommunication services pursuant to its provisions, with certain exceptions, be deposited in the Digital Divide Account established by the bill in the California Teleconnect Fund Administrative Committee Fund. It would require the revenues deposited in the account to be available, upon appropriation by the Legislature, to be administered by the commission to finance digital divide projects through the Digital Divide Grant Program established by the bill. The bill would limit payment of administrative expenses to 5% of the revenues deposited into the account. The bill would require the commission to report to the Legislature and Governor annually on the effectiveness of the program.

Ch. 821 (AB 998) Lowenthal. Air quality: Nontoxic Dry Cleaning Incentive Program.

Existing law designates the State Air Resources Board as the state agency charged with coordinating efforts to attain and maintain ambient air quality standards.

This bill would require the state board to impose a $3 per gallon fee on every manufacturer of perchloroethylene in the state, and on every person that imports perchloroethylene into the state for use in dry cleaning, and to deposit the revenues generated by that fee in the Nontoxic Dry Cleaning Incentive Trust Fund, which would be established in the State Treasury by the bill. The bill would increase that fee by $1 each year until 2013, inclusive. The bill would provide that moneys deposited in the fund are available for expenditure by the state board, upon appropriation by the Legislature, to fund a grant program and demonstration program, and would require those programs to be developed by the state board. This bill would require the state board to expend, upon appropriation by the Legislature, moneys sufficient to repay any General Fund moneys expended to implement the programs. The grant program would provide $10,000 grants to any eligible dry cleaner

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

in the state that utilizes perchloroethylene in its operations to aid its transition to dry cleaning systems determined by the state board, in consultation with certain other entities, to be nontoxic and nonsmog-forming. The bill would require the state board to ensure that 50% of the grant moneys are awarded in a manner that directly reduces air contaminants or reduces the public health risk associated with air contaminants in communities with the most significant exposure to air contaminants or localized contaminants, or both, including communities of minority populations or low-income populations, or both. The bill would require the state board, commencing January 1, 2007, and every 3 years thereafter, to provide a report to the Legislature evaluating the effectiveness of the grant program. The bill would require the demonstration program to be funded 50% by matching funds.

Ch. 822 (AB 1208) Cogdill. Conflicts of interest.

Existing law prohibits certain public officials and employees from being financially interested in any contract made by them in their official capacity, or by any board of which they are members. An officer is not deemed to be interested in a contract entered into by a body or board of which the officer is a member if the officer has only a remote interest in the contract and other requirements are met. A remote interest is required to be publicly disclosed, and thereafter the public body may authorize, approve, or ratify the contract in question, but the officer or employee with the remote interest is disqualified from voting.

This bill additionally would define as a remote interest that interest of a person who has a financial interest in a contract, if (1) the person is a board member of a special district serving a population of less than 5,000 that is a landowner voter district, as defined, that does not distribute water for any domestic use, (2) the contract is for either the maintenance or repair of the district's property or facilities, as specified, or the acquisition of property for the district, and meets specified criteria, (3) the person did not participate in the formulation of the contract on behalf of the district, and (4) at a public meeting, the governing body of the district, after review of written documentation, determines that the property acquisition or maintenance and repair services cannot otherwise be obtained at a reasonable price and that the contract is in the best interests of the district, and adopts a resolution stating why the contract is necessary and in the best interests of the district.

This bill also would provide that, if a party to any proceeding challenges any fact or matter required to qualify as a remote interest under these provisions relating to a special district, the district shall bear the burden of proving this fact or matter.

Ch. 823 (AB 1497) Montanez. Solid waste facilities: permits.

(1) The existing California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated solid waste management program. Existing law prohibits the operation of a solid waste facility without a solid waste facilities permit and requires the operator of a solid waste landfill to submit to the board and the enforcement agency a plan for the closure and postclosure maintenance of the solid waste landfill and evidence of financial ability to provide for those costs. Existing law prohibits the operator of a solid waste facility from making any significant change in the design or operation of the solid waste facility not authorized by the existing permit, unless the change is approved by the enforcement agency, pursuant to a specified procedure. Existing law requires an operator to appeal a decision of the enforcement agency with regard to the approval of that change.

This bill would require a person who is required to file a closure plan to also file with the enforcement agency a Labor Transition Plan that includes provisions for the preferential reemployment and transfer rights of displaced employees, as specified, and provisions to ensure compliance with existing statutory requirements for relocations, terminations, and mass layoffs that are applicable to certain employers. The bill would require a person submitting a final closure plan to additionally submit a certification to the board and the enforcement agency that the provisions in the labor transition plan will be implemented.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would require an enforcement agency to submit its proposed determination regarding whether a change to the solid waste facility will be approved to the board for comment, and to hold at least one public hearing on the proposed determination, in accordance with specified notice requirements. The bill would also require the enforcement agency to provide notice of an operator's appeal of the enforcement agency's approval of change in the same manner as notice is provided for the public hearing. The bill would require the enforcement agency to provide notice, as specified, of the hearing.

The bill would require the board to adopt regulations relating to the public hearing and that define the term "significant change in the design or operation of the solid waste facility that is not authorized by the existing permit.'' The bill would increase various time periods regarding the filing of an application for revision of the solid waste facilities permit.

The bill would impose a state-mandated local program by imposing new duties upon enforcement agencies with regard to solid waste facilities permits, thereby imposing a state-mandated local program.

(2) Existing law authorizes an enforcement agency to issue an order establishing a time schedule for a solid waste facility to comply with requirements relating to waste management when the enforcement agency determines that the facility is not meeting those requirements. Existing law authorizes the order to provide for an administrative civil penalty in an amount not to exceed $5,000 per day of violation, and not to exceed a total of $15,000 in any one calender year, if compliance is not achieved in accordance with the time schedule. Existing law prohibits imposition of that penalty for the first 3 minor violations of the same requirement, as specified. Existing law requires the enforcement agency, before issuing an order imposing a civil or administrative penalty, to notify the enforcement agency's governing body and make specified determinations regarding the circumstances of the violation and alternatives to the penalty.

This bill would delete the cap on the total amount of the penalty in one calendar year, delete the prohibition on imposing the penalty for minor violations, and delete the requirement that the enforcement agency take those actions before issuing the order imposing a civil or administrative penalty. The bill would broaden the circumstances under which the order imposing the penalty may be made.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 824 (AB 1521) Parra. Elections: municipal elections.

(1) Existing law requires, with certain exceptions, a general municipal election to be held on the 2nd Tuesday in April of even-numbered years or the first Tuesday after the first Monday in March of odd-numbered years.

This bill, instead, would require a general municipal election to be held on any established election date or on the 2nd Tuesday of April in each odd-numbered year.

(2) Existing law provides that several types of elections may be held wholly by mail, with certain conditions, including, but not limited to, the condition that the election does not occur on the same date as a statewide direct primary election or statewide general election.

This bill would, instead, provide that an election held wholly by mail must be held on an established mailed ballot election date as established by this bill.

(3) Existing law provides that the order of candidates' names on the ballot of a special district, school district, charter city, or other local government body election, occurring on other than one of the 4 major election dates is determined by a special randomized alphabet drawing conducted by the Secretary of State, with certain requirements.

This bill would authorize the randomized alphabet drawn for purposes of the first election held by a charter city that holds 2 elections in the same 12-month period which occur on other than one of the 4 major election dates, to be used for both of those elections if the 2nd election

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

within that 12-month period does not have a close of filing deadline. The bill would also provide that if 2 randomized alphabets are drawn for the same election, that the results of the second randomized alphabet drawing may be clearly set apart from the first labeled "FOR USE IN A RUNOFF ELECTION ONLY."

(4) This bill would incorporate additional changes in Section 13113 of the Elections Code proposed by SB 1024 that would become operative only if SB 1024 and this bill are both chaptered and become effective on or before January 1, 2004, and this bill is chaptered last.

Ch. 825 (AB 1688) Goldberg. Car washes.

Existing law regulates various aspects of workplace and employee safety and health.

This bill would, until January 1, 2007, regulate the industry of car washing and polishing by providing specific recordkeeping requirements that employers of car washers must implement with regard to car washer wages, hours, and working conditions. The bill would require employers of car washers to register with the Labor Commissioner and pay a specified registration fee. Failure to register pursuant to these provisions would be subject to a civil fine of $100 for each calendar day of violation not to exceed $10,000. These fines and registration fees would be deposited in the Car Wash Worker Restitution Fund and the Car Wash Worker Fund, which this bill would create, for disbursement by the commissioner, upon appropriation by the Legislature.

The bill would state the intent of the Legislature to require the Labor Commissioner to report on labor law violations and enforcement in the car washing and polishing industry.

Ch. 826 (SB 5) Karnette. Curriculum: foreign languages.

Existing law requires the Superintendent of Public Instruction to design and implement a program that includes statewide academically rigorous content and performance standards, as specified. Existing law establishes deadlines by which the State Board of Education must adopt statewide academically rigorous content standards in the areas of reading, writing, mathematics, history/social science, science, physical education, and visual and performing arts.

This bill would require the State Department of Education, on or before June 1, 2009, to adopt content standards for teaching foreign languages in kindergarten and grades 1 to 12, inclusive, pursuant to recommendations developed by the Superintendent of Public Instruction. The bill would provide that these standards are intended to guide schools that offer programs of instruction in languages other than English. The bill would require these standards to support the goal of providing programs of instruction in languages other than English as early as feasible, and to include a description of the skills to be attained at each grade level and alignment of the course content with the entrance requirements of the California State University and the University of California.

Existing law requires the Commission on Teacher Credentialing to align the teacher subject matter standards and examinations with the state content and performance standards for pupils.

This bill would authorize the commission to align the teacher subject matter standards and examinations with the state content and performance standards for pupils within its scheduled subject matter standards and examination validation timeframe.

Ch. 827 (SB 504) Kuehl. Exposition Metro Line Construction Authority.

Existing law establishes the Los Angeles County Metropolitan Transportation Authority (LACMTA) as the single successor agency to the Southern California Rapid Transit District and the Los Angeles County Transportation Commission. The LACMTA is responsible for most transit guideway projects in Los Angeles County and has specified duties and responsibilities with regard to transportation.

This bill would establish the Exposition Metro Line Construction Authority for the purpose of awarding and overseeing final design and construction contracts for completion

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

of the Los Angeles-Exposition Metro Line light rail project from the Metro Rail Station at 7th and Flower Streets in the City of Los Angeles to the downtown area of the City of Santa Monica.

The bill would, upon allocation of federal and local funds by the LACMTA for these purposes, require the construction authority to (a) conduct the financial studies and the planning and engineering necessary for completion of the project, (b) adopt an administrative code, including a specified code of conduct for administration of the construction authority in accordance with laws relating to open meetings of public entities, contracting and procurement, contracting goals for minority and women business participation, and political reform, and (c) as necessary for final design and construction, complete a detailed management, implementation, safety, and financial plan for the project and submit the plan to the Governor, the Legislature, and the California Transportation Commission.

The bill would require that the construction authority be governed by a board consisting of 7 voting members appointed to terms of 4 years. Two members would be appointed by the City Councils of the Cities of Santa Monica and Culver City, with each city council appointing one member by a majority vote of the membership of that city council. Two members shall be appointed by the City Council of the City of Los Angeles by a majority vote of its membership. Two members would be appointed by the Los Angeles County Board of Supervisors. One member would be appointed by the LACMTA and the Chief Executive Officer of the LACMTA would serve as an ex officio, nonvoting member. Each appointing authority would be required to appoint an alternate member.

The bill would authorize the governing board to appoint an executive director to serve at the pleasure of the construction authority. The executive director would be authorized to appoint staff or retain consultants as necessary to carry out the duties of the construction authority. The bill would require that all contracts approved and awarded by the executive director be awarded in accordance with state and federal laws relating to procurement. The bill would require that the awards be based on price or competitive negotiation, or on both.

The bill would require the LACMTA to identify and expeditiously enter into an agreement with the construction authority to hold in trust with the construction authority all real and personal property, and any other assets, accumulated in the planning, design, and construction of the project, including, but not limited to, rights-of-way, documents, 3rd-party agreements, contracts, and design documents, as necessary for completion of the project, to outline the design review, construction, and testing process, and to describe the funding sources of the authority, the financial elements, and the approved budget for the project.

The bill would require the construction authority to enter into a memorandum of understanding with the LACMTA that specifically addresses the ability of the LACMTA to review any significant changes in the scope of the design or construction, or both design and construction, of the project.

The bill would prohibit the construction authority from encumbering any future farebox revenue anticipated from the operation of the project.

The bill would prohibit the construction authority from encumbering the project with any obligation that is transferable to the LACMTA upon completion of the design and construction of the project, except as specified.

The bill would require the authority to be dissolved upon completion of the project. The LACMTA would assume responsibility for operating the project upon dissolution of the authority.

The bill would impose a state-mandated local program by placing additional duties upon local governmental entities.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 828 (SB 719) Kuehl. School safety.

Existing law establishes the Interagency School Demonstration Act of 1985 (1985 School Safety Act) with the purpose of supporting state public schools as they develop their comprehensive safety plans. The 1985 School Safety Act establishes the School/Law Enforcement Partnership and requires the partnership to sponsor biennial regional conferences to identify programs and techniques that have been effectively utilized to reduce school crime. Existing law establishes an Interagency School Safety Cadre to facilitate interagency coordination and collaboration among specified agencies and provide training to the cadre representatives in enabling them to initiate and maintain safety programs. Existing law requires the partnership to evaluate and report to the Legislature on the effectiveness of the programs implemented pursuant to the 1985 School Safety Act.

Existing law requires each school district and county office of education to develop a comprehensive safety plan for its schools operating any combination of kindergarten to grade 12, inclusive, and establishes the procedures to be used in developing these plans.

This bill would recast and renumber the provisions of the 1985 School Safety Act and provisions regarding the development of comprehensive school safety programs. The bill would repeal the authorization in the 1985 School Safety Act for the interagency safe schools model programs. The bill would delete the requirement that the partnership evaluate and report to the Legislature on the effectiveness of the 1985 School Safety Act and would instead require the partnership to assess the effectiveness of these programs.

The bill would make technical and conforming changes.

This bill would incorporate additional changes in Section 35294.7 of the Education Code proposed by both this bill and AB 115, which would become operative only if AB 115 and this bill are both chaptered and become effective January 1, 2004, and this bill is chaptered last.

Ch. 829 (AB 68) Simitian. Online Privacy Protection Act of 2003.

Existing law does not regulate the security and confidentiality of consumer personal and identifying information obtained by persons and entities engaged in online business transactions.

This bill would require an operator, defined as a person or entity that collects personally identifiable information from California residents through an Internet Web site or online service for commercial purposes, to conspicuously post its privacy policy on its Web site or online service and to comply with that policy. The bill, among other things, would require that the privacy policy identify the categories of personally identifiable information that the operator collects about individual consumers who use or visit its Web site or online service and 3rd parties with whom the operator may share the information. The bill would preempt and supersede laws of specified local government entities regarding the posting of a privacy policy on an Internet Web site. The bill would become operative on July 1, 2004.

Ch. 830 (AB 85) Wiggins. County employees' retirement: continuous service.

The County Employees Retirement Law of 1937 prescribes the method for calculating service credit for service that was temporary, seasonal, intermittent, or part time. Eligibility for various retirement benefits under that law is based, in part, on a member's years of continuous service.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that service credit based on temporary, seasonal, intermittent, or part-time service by a member would be credited as continuous service by the member. The bill would state that its provisions are declaratory of existing law.

Ch. 831 (AB 149) Cohn. Workers' compensation: asbestosis.

Existing law provides that an injury of an employee arising out of and in the course of employment is generally compensable through the workers' compensation system.

Existing law provides that in the case of death of an asbestos worker from asbestosis, the period for commencing proceedings for the collection of specified workers' compensation benefits is one year from the date of death.

This bill would also apply this period to the death of a firefighter from asbestosis.

Ch. 832 (AB 185) Jerome Horton. Food and agriculture: cooperative agreements: inspector aides.

Existing law allows the Secretary of Food and Agriculture to enter into cooperative agreements with boards of supervisors and other specified entities for specified purposes.

This bill would make findings and declarations about unique pest and disease infestation risk factors in the County of Los Angeles. Beginning in the 2004–05 fiscal year, this bill would prohibit the secretary from entering into a cooperative agreement with a county of the first class for agricultural inspector services unless all of the agricultural inspector aides performing work under the cooperative agreement are afforded protections as permanent employees under the county's personnel system, and the contract does not result in increased costs to the department above those from the cooperative agreement in the 2003–04 fiscal year.

Ch. 833 (AB 199) Oropeza. Public transit employer-employee relations.

Existing law contains provisions relating to employer-employee relations between the state and its employees, public schools and their employees, local public agencies and their employees, and postsecondary educational institutions and their employees. Existing laws provide these public employees with the right to form, join, and participate in the activities of employee organizations for the purpose of representation on all matters of employer-employee relations. The selected employee organization has the right to represent its members on all matters of employer-employee relations, including disputes.

Existing law also prescribes the powers and duties of public transit districts, including administering employer-employee relations. The courts have held that the Meyers-Milias Brown Act, pertaining to employer-employee relations between local public agencies and their employees, does not apply to public transit districts that have a statutorily prescribed method of administering employer-employee relations that was in existence at the time the Meyers-Milias Brown Act was enacted.

This bill would establish the Los Angeles County Metropolitan Transportation Authority Transit Employer-Employee Relations Act to give supervisory employees of this public transit district the right to form, join, and participate in the activities of employee organizations of their own choosing for the purposes of representation on all employer-employee relations matters. The bill would permit these employees to meet, confer, and enter into memoranda of understanding on employer-employee relations matters. The bill would prescribe the procedure to recognize, certify, and decertify employee organizations, make unit determinations, review unit determinations by the judiciary, pay fair share fees, and arbitrate disputes.

The bill would require the Public Employment Relations Board to administer these provisions and would enumerate its duties. The bill would make it a misdemeanor for any person to resist, prevent, impede, or interfere willfully with any member of the board, or its agents, in the performance of its duties under these provisions. By creating a new crime, the bill would impose a state-mandated local program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 834 (AB 324) Diaz. Public works: labor compliance programs.

Existing law generally requires the payment of the general prevailing rate of per diem wages to workers employed on public works projects costing over $1,000, unless the awarding body, as defined, elects to initiate and enforce a labor compliance program, as defined, for every public works project under the authority of that awarding body. Existing state regulations provide a process by which the Director of Industrial Relations approves a labor compliance program.

This bill would specify that, for purposes of the statutory provisions, a labor compliance program means a labor compliance program that is approved by the director as specified in state regulations.

Existing law requires an awarding body that chooses to use funds from the Kindergarten-University Public Education Facilities Bond Act of 2002 for a public works project to initiate and enforce, or contract with a 3rd party to initiate and enforce, a labor compliance program for that public works project. Existing law requires the State Allocation Board to increase, as soon as feasible but no later than July 1, 2003, the per-pupil grant amounts described in 2 specified statutes to accommodate the state's share of any increased costs in projects due to these labor compliance program provisions.

This bill would instead require the board to increase the grant amounts described generally in the Leroy F. Greene School Facilities Act of 1998 and remove the requirement that any increased grant amounts be made on a per-pupil basis. This bill would also repeal the requirement that these increased grant amounts occur no later than July 1, 2003.

Ch. 835 (AB 552) Chavez. Public employees' retirement: service credit election.

Under the Public Employees' Retirement Law, service retirement allowances are calculated, in part, based on years of credited service. Members may elect to receive additional credit for public service and other types of service, as specified, subject to the payment of additional contributions. The payment of those contributions may be made in a lump sum or by installment payments.

This bill would authorize specified public safety members who have elected to receive additional service credit and who retire or have retired due to industrial disability while making installment payments for that service credit to cancel those installment payments prospectively in certain cases in which the election to purchase service credit will not increase the member's allowance, as specified. The bill would also provide that it may not be construed to limit any right or benefit granted pursuant to other specified provisions of law.

Ch. 836 (AB 577) Jerome Horton. State employees: dismissed employees.

A regulation of the State Personnel Board implementing existing law restricting a person dismissed from state civil service from applying for a civil service examination provides that a dismissed employee may not take a civil service examination without the consent of the executive officer of the board. The regulation authorizes the executive officer to grant a continuing waiver of this requirement to an employee who subsequently attains permanent status in civil service.

This bill would require the board to provide, by rule, for grant of a blanket waiver of this requirement that would allow a dismissed employee who meets standards to be determined by the board to apply for any civil service examination so that he or she would not need a separate waiver for each examination. It also would require the board to prepare a written notice that explains the effect of dismissal from state employment on eligibility to take civil

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

service examinations and the process by which a dismissed employee can compete in a civil service examination.

Ch. 837 (AB 677) Firebaugh. Environmental quality: local agency filing.

(1) The existing California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project, as defined, that it proposes to carry out or approve that may have a significant effect on the environment, as defined, or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also generally requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA provides some exemptions from its requirements for specified projects.

This bill would require a local agency or specified person, when the agency determines that a project is exempt from CEQA's requirements for certain reasons and when the agency approves or determines to carry out that project, to file notice of the determination with the Office of Planning and Research. The bill would require those notices to be available for public inspection as specified.

By imposing new duties on local agencies, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 838 (AB 719) Negrete McLeod. Public employees' retirement: retirement benefit enhancement.

Under the Public Employees' Retirement Law, service retirement allowances are calculated, in part, based on years of credited service. Members of that retirement system may receive service credit for public service not otherwise subject to credit, upon payment of specified additional contributions.

This bill would authorize specified members of that system, including employees or officers of the state, the university, a school employer, or a contracting agency and certain legislative employees, to elect to make additional contributions and receive up to 5 years of additional retirement service credit, as defined, subject to specified limitations. Contributions are deposited in the Public Employees' Retirement Fund, a continuously appropriated fund. By increasing member contributions to that fund, this bill would make an appropriation.

Ch. 839 (AB 807) Leno. Public works: prevailing wage.

Existing law provides that per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, travel, and subsistence pay, apprenticeship or other training programs, and similar purposes, and specifies the employer contributions, costs, and payments that employer payments may include. That law prohibits credit from being granted for benefits required to be provided by other state or federal law, and provides that credits for employer payments may not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing.

This bill would provide that an employer may take a credit for employer payments even if contributions are not made or costs are not paid, as specified, if certain conditions are met.

Ch. 840 (AB 933) Reyes. Law enforcement officers: special death benefits.

Existing law prescribes special death benefits that are payable to the surviving spouse and children of a patrol, state peace officer/firefighter, state safety, state industrial, or local safety member of the Public Employees' Retirement System whose death was industrial. Existing

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

law also prescribes the optional death allowance for the survivors of a member of a county retirement system, as specified, who dies as a result of a non-service-connected disability.

This bill would define a child, for purposes of eligibility for and calculation of those benefits, to mean a natural or adopted child of the deceased member, or a stepchild living or domiciled with the deceased member at the time of his or her death, as specified.

The provisions of the bill would apply retroactively to the survivors of a deceased member who dies or is killed in the line of duty on or after January 1, 2001.

Ch. 841 (AB 978) Negrete McLeod. California State University: disability benefits.

Existing law establishes the California State University and its various campuses under the administration of the Trustees of the California State University. Existing law authorizes the trustees to elect to become employers whose employees are eligible for payment of disability benefits from the continuously appropriated Unemployment Compensation Disability Fund, provided that the election is the result of a negotiated agreement between the trustees and a recognized employee organization.

This bill would require, rather than authorize, the trustees to elect to become employers whose employees are eligible for payment of disability benefits from the Unemployment Compensation Disability Fund. The bill would also provide that this eligibility for disability benefits could occur as a result of an election held by a recognized employee organization in accordance with a designated procedure as well as through a negotiated agreement.

By increasing the pool of potential recipients from, and potential contributors into, a continuously appropriated fund, this bill would make an appropriation.

Ch. 842 (AB 1028) Bermudez. California Apprenticeship Council.

Existing law provides that the California Apprenticeship Council has the duties to develop the welfare of apprentices, to improve the working condition of apprentices, and to advance their opportunities for profitable employment. Existing law, repealed on January 1, 2003, authorized the California Apprenticeship Council to adopt industry-specific training criteria for use by apprenticeship programs, with certain requirements.

This bill would reenact this authority of the council and extend it until January 1, 2007, at which time it would be repealed.

This bill would also provide that it is the intent of the Legislature that the Department of Industrial Relations will encourage greater participation for women and ethnic minorities in apprenticeship programs.

Ch. 843 (AB 1038) Negrete McLeod. Classified school employees.

(1) Existing law requires the governing board of a school district to submit to the Superintendent of Public Instruction a local plan for the education of individuals with exceptional needs residing in the district on its own or in conjunction with one or more districts, or to join with the county office of education to submit a plan to the Superintendent of Public Instruction that assures access to special education and services for all individuals with exceptional needs residing in the geographic area served by the plan. Existing law requires the plan for special education to be developed and updated cooperatively by a committee of representatives of special education and regular teachers and administrators and with participation by parents, to ensure adequate and effective participation and communication.

This bill would set forth the employment rights of classified employees who are terminated, reassigned, or transferred, or become the employee of another employer as a result of the development or revision of a local plan for the education of individuals with exceptional needs.

(2) Existing law authorizes a probationary or permanent classified school or community college employee to use up to 7 earned days of absence for illness or injury per school year

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

in cases of personal necessity and requires the governing board of the school district or community college district to adopt rules and regulations requiring and prescribing the manner of proof of personal necessity.

This bill would prohibit the rules and regulations from requiring an employee to secure advance permission for personal necessity leave taken for the death of a member of his or her immediate family or accident involving the person or property of the employee or a member of his or her immediate family. The bill would authorize the use of more than 7 days of earned leave for illness or injury if so specified in an agreement between the exclusive representative of the employees and the school district or, if there is no exclusive representative, the governing board adopts a policy allowing the use of more than 7 days of earned leave for personal necessity.

Ch. 844 (AB 1061) Firebaugh. Unemployment insurance: Employment Training Panel: small businesses.

Existing law provides for the establishment of an employment training program and the Employment Training Panel in the Employment Development Department. Existing law requires the panel, among other duties, to establish a 3-year plan that is updated annually, as provided, to maintain a system to continuously monitor economic and other data required under the plan, and to report annually to the Legislature on projects operating during the previous state fiscal year.

This bill would additionally require the panel to publish a list of training projects the panel funded in high unemployment areas and a description of the policies and procedures the panel used to designate geographic regions and municipalities as high unemployment areas and to report to the Legislature regarding strategies identified through pilot demonstration projects to increase the access of small businesses to panel programs, as provided.

Existing law requires that each 3-year plan include, among other things, the panel's goals and operational objectives for meeting the needs of small business employers.

This bill would require that those goals and objectives include strategies, which may include pilot demonstration projects, to enable the panel to increase small businesses' access to the Employment Training Panel program and services. This bill would also make certain findings and declarations related to the operation of the Employment Training Panel and allocation of its funds.

This bill would also make certain findings and declarations regarding the new federal requirements imposed on aerospace and defense prime contractors. This bill would also make a finding and declaration that it is the intent of the Legislature to request the Employment Training Panel to continue current efforts to assist aerospace and defense suppliers, as provided.

Ch. 845 (AB 1064) Laird. Public transit district pension plans.

Existing law authorizes public transit districts and transit development boards to provide a retirement or pension plan for their employees.

This bill would require any pension or retirement plan provided by those districts or boards or by the Golden Gate Bridge, Highway and Transportation District for represented employees that meets specified criteria to be maintained pursuant to a collective bargaining agreement and managed and administered by a retirement board with equal representation of labor and management in accordance with existing state and federal law, except as specified.

The bill would make related legislative findings.

Ch. 846 (AB 1144) Pavley. California State University: employees.

Existing law establishes the California State University and its various campuses under the administration of the Trustees of the California State University. Existing law authorizes the trustees to hire employees to carry on the functions of the university. A provision of the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

California Constitution exempts officers and employees of the California State University from the state civil service.

Existing law, known as the State Civil Service Act, provides civil service employees who are appealing notices of adverse action with certain procedural rights, including, among other rights, the ability to obtain discovery of documents in the possession of the employer. The act also provides civil service employees with disabilities to challenge their employer's denial of a request for reasonable accommodation.

This bill would provide employees of the California State University who are appealing notices of adverse actions with procedural rights that are similar to those granted to civil service employees under the State Civil Service Act.

Ch. 847 (AB 1151) Dymally. Foster care.

Existing law requires a claim for personal injury against a public entity, which includes the state, the Regents of the University of California, a county, city, district, public authority, public agency, and any other political subdivision or public corporation in the state, or against an employee of a public entity, to be presented not later than 6 months after accrual of the cause of action. Existing law provides that when a claim is not filed within the 6-month period, an application for leave to present the claim within a reasonable time not to exceed one year after the accrual of the cause of action may be filed in accordance with specified provisions. Existing law provides that the time during which a person is detained or adjudged a dependent child of the juvenile court pursuant to certain provisions of law shall, under certain circumstances, not be counted in that one-year period.

This bill would provide that the time during which a minor is adjudged to be a dependent child of the juvenile court, pursuant to certain provisions of law, shall not be counted in that one-year period if the minor is without a guardian ad litem or conservator for purposes of filing civil actions.

Existing law establishes the Foster Family Home and Small Family Home Insurance Fund within the State Department of Social Services to pay, on behalf of foster family homes and small family homes, claims of foster children, their parents, guardians, and guardians ad litem resulting from occurrences peculiar to the foster-care relationship and the provision of foster-care services. Existing law requires that any claim against the fund filed by a foster parent or a 3rd party be submitted to the fund within the applicable period of limitation for the appropriate civil action underlying the claim. Existing law provides that if a person entitled to bring an action under specified laws is, at the time the cause of action accrued, either a minor or insane, the time of this disability is not part of the time limited for the commencement of the action.

This bill would provide that a claim against the fund filed by a foster parent or 3rd party is subject to the latter provision described above that extends the limitation of time for the commencement of an action for a minor.

Under existing law, juvenile court records are generally confidential, with certain limited exceptions. Existing law requires the release to the public of juvenile case files that pertain to a deceased dependent child of the juvenile court, pursuant to an order by the juvenile court after a petition has been filed and interested parties have been afforded an opportunity to file an objection. Existing law authorizes the presiding judge of the juvenile court to issue an order prohibiting or limiting access to the juvenile case file under certain circumstances.

This bill would provide that after the death of a minor foster child, designated information regarding that child shall be subject to disclosure pursuant to the California Public Records Act.

Existing law requires that if a child is removed from the physical custody of his or her parents, preferential consideration be given to a request by a relative of the child for placement of the child with the relative.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law sets forth the policy of the state that all children placed in foster care have certain rights, and requires social workers and facilities providing social services to children in foster care to provide those children with information regarding those rights.

This bill would declare legislative intent that nothing in the decision of the California Court of Appeal in County of Los Angeles v. Superior Court of Los Angeles: Real Party in Interest Terrell R. (2002) 102 Cal.App.4th 627 shall be held to change the standards of liability or immunity for injuries to children in protective custody as they existed prior to that decision, and to confirm the state's duty to comply with all requirements under certain federal law that are relevant to the protection and welfare of children in foster care.

Existing law relating to the establishment of a case plan for a child in foster care expresses a policy that these children be in a safe home or out-of-home setting.

This bill would specify that "safe" for these purposes means a home or setting that is free from abuse or neglect, as described in specified existing law. The bill would make a legislative finding that the definition of safe contained in the bill is declaratory of existing law.

Ch. 848 (AB 1321) Oropeza. The Public Employees' Retirement System: reports to contracting agencies.

Existing law requires the Board of Administration of the Public Employees' Retirement System to submit a quarterly review of the system's assets, as specified, to the Legislature. Funds paid to the retirement system are deposited in the Public Employees' Retirement Fund, a continuously appropriated fund.

This bill would also require the board to make that review available to each contracting agency. The bill additionally would require the board to submit to each contracting agency, if requested by the agency, a quarterly report of the assets, contributions, earnings, and administrative costs with respect to the system of the contracting agency or of the risk pool in which the contracting agency participates. The bill would authorize the board to assess a fee on the requesting agency, not to exceed $1,500 quarterly, as specified, and would require the agency to provide a copy of any report, upon request, to the representative employee organization. Because the fee imposed by the bill would be paid into the Public Employees' Retirement Fund, the bill would make an appropriation.

Ch. 849 (AB 1418) Laird. Labor: violations.

Existing law requires various boards in the Department of Consumer Affairs to provide information concerning the status of licensees on the Internet.

This bill would additionally require the Contractors' State License Board to disclose information regarding a licensee's willful or deliberate violation of the Labor Code.

Existing law requires the Labor Commissioner to issue a civil wage and penalty assessment to the contractor or subcontractor, or both, if the Labor Commissioner determines after investigation that there has been a violation of the laws regulating public works contracts.

This bill would impose interest on all due and unpaid wages at the specified rate until those wages are paid.

Existing law generally requires that not less than the general prevailing rate of per diem wages, as specified, be paid to workers employed on a public work, as defined, that costs over $1,000. Existing law requires a contractor or subcontractor to submit, to the state or political subdivision on whose behalf a public work is being performed, a penalty of not more than $50 per day, as provided and determined by the Labor Commissioner, for violations of these prevailing wage provisions.

This bill would require that, in addition to the $50 maximum penalty per day, the penalty not be less than $10 per day, unless the failure to pay the prevailing rate of per diem wages was a good faith mistake and was promptly and voluntarily corrected when brought to the contractor's or subcontractors's attention.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would also require the penalty not be less than $20 per day for contractors and subcontractors with prior violations, and not be less than $30 per day for willful violations. This bill would provide that, when the amount due is collected from a contractor or subcontractor, any wage claim against that contractor or subcontractor must be satisfied first.

This bill would require the Labor Commissioner to maintain a public list of the names of the contractors and subcontractors who have been found to have committed willful violations of certain prevailing wage laws or to whom final orders, which are no longer subject to judicial review, have been issued. This bill would also specify the procedures for placing the contractors' and subcontractors' names on the list and the type of information that must be included by the Labor Commissioner.

Ch. 850 (AB 1428) Levine. The Public Employees' Retirement System.

Under the Public Employees' Retirement Law, each employing agency that employs an elected member of the Board of Administration of the Public Employees' Retirement System, and that employs a person to replace the member during board meetings or other specified duties, is reimbursed from the Public Employees' Retirement Fund for the costs incurred by employing the replacement, not to exceed 25% of the member's total annual compensation.

This bill would delete the requirement that the reimbursement for costs not exceed 25% of the member's total annual compensation but would limit reimbursement to direct and reasonable costs. The bill would also make the reimbursement for costs incurred in employing a replacement operative retroactively, as of February 1, 2003.

Ch. 851 (AB 1506) Negrete McLeod. Public works: projects funded by bonds: prevailing wages.

Existing law, with certain exceptions, requires payment to all workers employed on a public works project of not less than the prevailing wage for work of a similar character in the locality in which a public works project is performed. Existing law provides that the body awarding any contract for public works projects falling below certain cost thresholds may alternatively elect to initiate and enforce a prescribed labor compliance program relative to payment of prevailing wages and related matters.

The Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century, if approved by the voters at the November 2, 2004, statewide general election, would authorize, for the purposes of financing the planning and construction of a high-speed train system and associated rail improvements, the issuance of bonds in the amount of $9,950,000,000.

This bill would require the body awarding any contract for a public works project financed with funds made available by the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century, if that bond measure is approved by the voters, to adopt and enforce that above-mentioned labor compliance program for application to the public works project.

This bill would also provide that the Department of Industrial Relations' and the Labor and Workforce Development Agency's public works services, as specified, provided to labor compliance programs, interested parties, and awarding bodies associated with bond funding projects, that are governed by the public works requirements, are to be supported as costs of a state agency with responsibility for administration of the bond program, or costs of construction, as provided.

Ch. 852 (AB 1587) Committee on Public Employees, Retirement and Social Security. Local public employees' retirement: benefits.

(1) The County Employees Retirement Law of 1937 authorizes counties and districts to adopt specified retirement benefits for general members of the county's or district's retirement system and to adopt specified corresponding contribution rates or to adopt a single rate of contribution, as specified.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would prohibit the adoption of any retirement benefits for some, but not all, general members or for any subgroup, as specified. The bill would also authorize a county or district to adopt a single contribution rate for all persons subject to the same benefit formula after that formula is adopted.

(2) The County Employees Retirement Law of 1937 sets forth the membership composition requirements for the board of retirement of counties subject to certain provisions regarding safety members, and requires that the board consist of 9 members and one alternate member.

This bill would revise the provisions regarding the selection of an alternate member and the 8th member of the retirement board.

Ch. 853 (SB 162) Alarcon. Federal tax credits: housing: teachers.

Existing law declares that a substantial public benefit is served by providing federal tax credits or reduced interest rate mortgages to assist teachers, principals, vice principals, and assistant principals who are willing to serve in low-performing schools to purchase a home. Existing law authorizes the California Debt Limit Allocation Committee to establish the Extra Credit Teacher Home Purchase Program to provide federal mortgage credit certificates and reduced interest rate loans funded by mortgage revenue bonds to eligible teachers, principals, vice principals, and assistant principals who agree to teach or provide administration in a low-performing school.

This bill would authorize the Extra Credit Teacher Home Purchase Program to additionally provide federal mortgage credit certificates and reduced interest rate loans funded by mortgage revenue bonds to classified employees in a high priority school. It would require priority for assistance to be given to eligible teachers, principals, vice principals, and assistant principals.

Ch. 854 (SB 216) Sher. Endangered species: recovery strategy pilot program.

(1) Existing law requires the Department of Fish and Game to develop and implement a recovery strategy pilot program for the greater sandhill crane. Existing law authorizes the Fish and Game Commission, based on recommendations from the department, to identify 4 additional candidate, threatened, or endangered species for which the department is required to develop and implement a recovery strategy. Existing law requires the commission to hold a public hearing to consider approval of each recovery strategy, and to approve a recovery strategy if the commission finds it meets specified criteria. Existing law repeals the authority for the greater sandhill crane pilot program and the authority for the commission to identify additional species for a recovery program on January 1, 2004, but requires any recovery strategy that has been approved or implemented prior to that date to remain in effect.

This bill would repeal the authority of the commission to identify additional species for a recovery program. The bill would authorize the department to develop and implement a recovery strategy pilot program for coho salmon. The bill would continue the remaining existing law relative to recovery strategy programs beyond January 1, 2004, by extending the repeal date to January 1, 2009. The bill would make conforming changes.

This bill would also require the commission to find that each recovery strategy would recover a formerly commercially valuable species to a level of abundance that would permit commercial use of the species before approving the recovery strategy.

The bill would require the department to seek private and federal funding for implementation of the coho salmon recovery strategy pilot program, and would prohibit any additional state funds from being used for the program until the Legislature appropriates funds for that purpose.

(2) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department and the commission to pay all necessary expenses incurred in

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

carrying out the Fish and Game Code, and to pay the compensation and expenses of the commissioners and employees of the commission.

By extending the recovery program and adding an additional species in the program, the bill would impose additional duties on the department, and thereby make an appropriation.

Ch. 855 (SB 268) Soto. Public employees' retirement: service credit payments and benefits.

(1) Under the Public Employees' Retirement Law, retirement benefits are calculated in part based on years of creditable service. Under that law, members may elect to purchase service credit for various types of public service, upon payment of additional contributions. If a member dies under circumstances in which a special death benefit is payable, or if a member becomes subject to retirement for industrial disability, and the member has not paid the entire amount for a service credit purchase, the balance remaining unpaid is generally payable immediately. However, the survivor of a member who died with a special death benefit payable and had authorized payroll deductions may continue those deductions from the survivor allowance in lieu of the lump-sum payment otherwise required.

This bill would, subject to certain limitations, authorize members who have elected to purchase service credit on an installment basis to prospectively discontinue the payments if the member becomes disabled and the service credit purchase will not result in a higher retirement allowance than the member's disability retirement allowance. The bill would also permit the survivor of a member who was making service credit purchase payments on an installment basis, and who died with a special death benefit payable, to prospectively discontinue making payments for the member's service credit purchase, if the service credit purchase would not increase the survivor's allowance and if various conditions are satisfied. The bill would require the amount of any service credit purchase installment payments commencing after January 1, 2004, to include an actuarial adjustment, as necessary and subject to a specified limit, to take into account the bill's provisions. The bill would also make related changes to those provisions.

(2) Existing law requires that, upon legal separation or dissolution of marriage of a member of the Public Employees' Retirement System, the court divide the accumulated contributions and service credit attributable to periods of service during the marriage into separate accounts between the member and the spouse and, among other things, address the rights of the spouse to redeposit previously withdrawn contributions and to purchase service credit for specified periods. Following that division of accounts, existing law authorizes the former spouse to withdraw his or her share of accumulated contributions and thereby waive his or her rights under the system and, in turn, authorizes the member to redeposit, for the member's account, accumulated contributions withdrawn by his or her former spouse. If the former spouse does not withdraw his or her share of accumulated contributions, existing law prescribes the method for calculating the retirement allowance of the former spouse.

This bill would additionally authorize a member, whose former spouse has waived his or her rights under the system, to redeposit the amount of previously withdrawn contributions that could have been redeposited by the former spouse and to purchase the same amount and type of service credit that the former spouse had the right to purchase, as specified. The bill would also prescribe a method for calculating the retirement allowance of a member who retires on or after January 1, 2004, and whose former spouse is eligible to retire or has retired, as specified.

Ch. 856 (SB 269) Soto. Public employees' retirement: manager compensation.

Existing law authorizes the Board of Administration of the Public Employees' Retirement System to appoint and fix the compensation of an executive officer, assistant executive officer, and other necessary employees. Existing law also authorizes the Teachers' Retirement Board to appoint a chief executive officer and other employees as are necessary to administer the State Teachers' Retirement System. Existing law prohibits designated

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

employees of state agencies from taking any specified actions on behalf of any person to influence certain actions by the agency within 12 months after leaving that position.

This bill would authorize those retirement boards to appoint and fix the compensation of, according to specified principles, an executive officer, an actuary, investment officers, and portfolio managers. The bill would specify that those positions, when filled through a civil service appointment, shall be filled from an eligible list, as specified, and would be subject to the provisions of existing law establishing the tenure of managerial employees under state civil service. The bill would also prohibit any person who served in one of those positions for less than 5 years from taking any specified actions on behalf of any person, other than the state, to influence certain actions by the retirement boards or systems within 2 years after leaving that position. The bill would make related findings and declarations, including a declaration that the bill's provisions are severable.

Ch. 857 (SB 611) Ducheny. Instructional strategies: subject matter projects.

Existing law provides for the establishment and maintenance of 6 subject matter projects by the Regents of the University of California with the approval of the Concurrence Committee. Existing law provides that these subject matter projects are to create opportunities for researchers, higher education faculty, and elementary and secondary school faculty to work together to identify exemplary teaching practices, examine and develop research on learning, knowledge, and educational materials and to provide support to teachers to develop and enhance content knowledge and pedagogical skills. Under existing law, these subject matter projects are evaluated, at least in part, on the basis of pupils' performance as measured in the light of statewide academic standards and statewide tests.

This bill would amend this provision to include the provision of instructional strategies for working with English learners as a purpose of the projects. The bill would provide that these projects are designed to develop and enhance teachers' subject and content knowledge. The bill would make revisions to the composition of the Concurrence Committee, and would make related findings and declarations. The bill would make other technical nonsubstantive changes.

Ch. 858 (SB 621) Battin. Indian gaming.

(1) Existing law creates in the State Treasury the Indian Gaming Revenue Sharing Trust Fund and the Indian Gaming Special Distribution Fund for the receipt and deposit of moneys received by the state from Indian tribes pursuant to the terms of those gaming compacts and authorizes moneys in those funds to be used for certain purposes.

This bill, until January 1, 2009, would establish the method of calculating the distribution of appropriations from the Indian Gaming Special Distribution Fund for grants to local government agencies impacted by tribal gaming. The bill would require a County Tribal Casino Account, as defined, to be created in the State Treasury for each county that contains a tribal casino, which would be funded according to a specified method. The bill would require the State Controller to divide the county tribal casino account, as specified, into individual tribal casino accounts, as specified. The bill would create in each county where Indian gaming is conducted an Indian Gaming Local Community Benefit Committee, as specified, to select grants projects, pursuant to certain grant application policies and procedures, and would require that the grants be administered by the county. By placing additional duties on the counties, this bill would impose a state-mandated local program. The bill would establish a set of priorities for the receipt of grant money. The bill would require that grants be affirmatively sponsored by a tribe paying into the Indian Gaming Special Distribution Fund, as specified. The bill would require an Indian Gaming Local Community Benefit Committee to submit to the Controller a list of approved projects, upon which the Controller would release the funds directly to the chosen local government entities. The bill would require counties to report to the Legislature regarding the use of grant moneys. By placing additional duties on the counties, this bill would impose a state-mandated local

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

program. The bill would require the State Auditor to conduct an audit of the allocation and use of moneys from the Indian Gaming Special Distribution Fund. The bill would appropriate $25,000,000 from the Indian Gaming Special Distribution Fund to the Controller for distribution, pursuant to its provisions, to local government agencies impacted by tribal gaming.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 859 (SB 627) Committee on Public Employment and Retirement. State teachers' retirement.

(1) The Teachers' Retirement Law prescribes the rights and benefits of members of the State Teachers' Retirement Plan.

This bill would make technical, nonsubstantive changes to various provisions of that law.

(2) Existing law requires each collective bargaining agreement that applies to part-time instructors to specify the number of hours of creditable service that equal "full-time" for the purpose of calculating benefits under the Defined Benefit Program of the State Teachers' Retirement Plan.

This bill would also make that requirement applicable to collective bargaining agreements that apply to instructors in adult education programs.

(3) Existing law authorizes substitute teachers who perform creditable service, as defined, to elect membership in the Defined Benefit Program of the State Teachers' Retirement Plan.

This bill would extend this membership election to any substitute employee.

(4) Existing law permits a nonmember spouse to purchase additional service credit by paying the contributions and interest in one lump-sum payment or through monthly installment payments, not to exceed 60 installments.

This bill would instead permit payment in 120 monthly installments.

(5) The Teachers' Retirement Law authorizes the governing board of a school or community college district to establish regulations that allow a member of the Defined Benefit Program to reduce his or her workload without reducing his or her accrual of retirement benefits, provided that, among other things, the member did not have a break in service during the 5 years preceding the reduction in workload.

This bill would specify that an unpaid absence from the performance of creditable service for personal reasons does not constitute a break in service for that purpose and would make other technical changes.

(6) Existing law permits a member of the State Teachers' Retirement Plan, other than a retired member, to purchase out-of-state service credit that is equivalent to the number of years of service credited to the member, not to exceed 10 years.

This bill would, on July 1, 2004, eliminate the limitation on the number of years of out-of-state service credit a member may purchase, and would specify the timeframe for payment.

(7) Under the Defined Benefit Supplement Program, member and employer contributions are credited to the account of a member on July 1 of each year following a specified determination by the system.

This bill would instead require that specified contributions be credited to the account of a member upon receipt by the system.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(8) Existing law authorizes a member of the Defined Benefit Program of the State Teachers' Retirement Plan to redeposit previously refunded contributions in certain circumstances.

This bill would specify a procedure for the payment of contributions in regard to the redeposit of refunded accumulated retirement contributions, as specified.

(9) The Teachers' Retirement Law authorizes a member who retires during a specified period and who has reached 60 years of age to elect to receive a lump-sum payment and actuarially reduce monthly allowance in lieu of the monthly allowance that would otherwise be payable.

This bill would make that election available, at the time the member applies for service retirement, to a member who retires during a specified period and who has reached the age of 60 years and 3 months or who has 30 years of service and has reached 60 years of age.

(10) Existing law authorizes members of the Defined Benefit Program and the Defined Benefit Supplement Program of the State Teachers' Retirement Plan, prior to retirement, to elect various alternative joint and survivor options providing actuarially modified retirement allowances.

This bill would allow a member who is a party to an action for legal separation or dissolution of marriage and who is required by court order to designate a spouse or former spouse as an option beneficiary to designate that person as a sole option beneficiary, as specified.

(11) Existing law provides that an overpayment made to a member under the Defined Benefit Program or the Defined Benefit Supplement Program of the State Teachers' Retirement Plan shall be deducted from any subsequent benefits payable under either of those programs.

This bill would also make that provision applicable to overpayments under the Cash Balance Benefit Program of the State Teachers' Retirement Plan.

(12) Existing law requires the Teachers' Retirement Board to establish a vendor registration process with respect to tax-deferred retirement investment products and defines "vendor" for this purpose.

This bill would include nonbank custodians, as defined, within that definition of vendor.

(13) The Medicare Premium Payment Program provides for the payment of premiums associated with Medicare Part A for specified retired members of the State Teachers' Retirement Plan.

This bill would extend the payment of premiums to any person receiving a disability allowance, as specified.

(14) This bill would also make other related and conforming changes.

Ch. 860 (SB 644) Burton. Community colleges: Board of Governors of the California Community Colleges.

(1) Existing law establishes the Board of Governors of the California Community Colleges, which consists of 13 members appointed by the Governor with the advice and consent of 2/3 of the membership of the Senate, one voting and one nonvoting community college student appointed by the Governor, and 2 tenured community college faculty members appointed by the Governor.

This bill would revise the membership of the board of governors so that it would include 12 members appointed by the Governor with the advice and consent of 2/3 of the membership of the Senate. The bill would add to the board of governors one classified employee member, who would be appointed by the Governor for a 2-year term. The bill would require the Governor to appoint the classified employee member from a list of at least 3 persons furnished by the exclusive representatives of classified employees of the California Community Colleges.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) Existing law requires that any vacancy in an appointed position on the board of governors be filled by an appointment by the Governor, and, except for the student members and faculty members, be confirmed by 2/3 of the membership of the Senate.

This bill would require that a vacancy in the office of the classified employee member be filled by appointment of the Governor without confirmation by the Senate.

(3) This bill would require that the current membership of the board of governors of the California Community Colleges is not to be affected by the addition to the board of a classified employee. The bill would require the Governor to appoint the classified employee member after the first expiration of a term of a general member that occurs after the effective date of the bill.

Ch. 861 (AB 369) Bermudez. Public employees' retirement: employment after retirement.

Existing law generally requires a person who has retired under the Public Employees' Retirement System to reinstate from retirement if he or she is subsequently employed by an employer under the system. However, existing law also exempts certain types of employment from that requirement.

This bill would authorize a safety member who is retired for service, with at least 20 years of specified service, to serve, without reinstatement from service retirement, as the superintendent, deputy superintendent, or captain of a jail or other local correctional facility that houses state inmates pursuant to a long-term agreement, as specified, in a city that does not maintain a municipal police department.

Ch. 862 (AB 490) Steinberg. Education: foster children.

(1) Existing law requires a school district to accept for credit any coursework satisfactorily completed by a pupil while in juvenile court school or in any county or state-operated institution.

This bill would instead require a school district and county office of education to accept for credit full or partial coursework satisfactorily completed by a pupil while attending a public school, juvenile court school, or nonpublic, nonsectarian school or agency, thus imposing a state-mandated local program.

(2) Existing law requires every county office of education to make available to agencies that place children in licensed children's institutions information on educational options for children residing in licensed children's institutions within its jurisdiction. Existing law requires every agency that places a child in a licensed children's institution to notify the local educational agency at the time a pupil is placed and requires a local educational agency to invite at least one noneducational agency representative that has placement responsibility for a pupil residing in a licensed children's institution to collaborate with the local educational agency in the monitoring of a placement in a nonpublic, nonsectarian school or agency.

This bill would declare the Legislature's intent to ensure that pupils in foster care and those who are homeless, as defined by specified federal law, have a meaningful opportunity to meet the academic achievement standards to which all pupils are held, are placed in the least restrictive educational programs, and have access to the academic resources, services, and extracurricular and enrichment activities as all other pupils.

This bill would require pupils placed in licensed children's institutions or foster family homes to attend programs operated by the local educational agency, under specified circumstances, thus imposing a state-mandated local program. The bill would require the parent, guardian, or person holding the right to make educational decisions for the pupil to first consider placement of the pupil in the regular public school before any decision to place the pupil in a juvenile court school.

This bill would require each local educational agency to designate a staff person as the educational liaison for foster children who are a ward or dependent child of the court, to ensure and facilitate the proper educational placement, enrollment in school, and transfer

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

between schools of foster children and to assist foster children when transferring schools or school districts, and would impose various related responsibilities on the person holding the right regarding educational placement of the child. The bill would require all educational and school placement decisions to meet specified criteria. The bill would require the local educational agency serving a foster child, at the initial detention or placement, or any subsequent change in placement of the foster child, to allow the foster child to continue his or her education in the school the foster child is currently attending for the duration of the school year, except as provided. By imposing these additional duties involving foster children upon local educational agencies, this bill would impose a state-mandated local program.

(3) Existing law requires a local educational agency with which a pupil in foster care has been most recently enrolled that has been informed of the next educational placement of the pupil to cooperate with the county social service or probation department to, upon request, ensure that the educational and other background record of the pupil, is transferred to the receiving local educational agency and the foster children services program in a timely manner.

This bill would delete those provisions and, instead, would provide that the timely transfer between schools of pupils in foster care is the responsibility of both the local educational agency and the county placing agency, as defined. The bill would require the county placing agency, as soon as it becomes aware of the need to transfer the pupil between schools, to contact the appropriate person at the pupil's local educational agency regarding the transfer. The bill would require the local educational agency, upon receiving the transfer request, to, within 2 business days, transfer the pupil and deliver the pupil's educational information and records to the next educational placement. By imposing a higher level of service on these local agencies, the bill would impose a state-mandated local program.

(4) Existing law prohibits a school district from permitting access to pupil records to any person without parental consent or without a judicial order, except under certain circumstances, including, among others, access by a probation officer or district attorney for the purposes of conducting a criminal investigation, or an investigation regarding the declaration of a person to be a ward of the court, or involving a violation of a condition of probation.

This bill would also authorize a school district to permit access to any county placing agency for the purpose of fulfilling the requirements of a certain health and education summary or fulfilling educational case management responsibilities required by the juvenile court or by law and to assist with the school transfer or placement of a pupil.

(5) Existing law permits a foster parent to represent the foster child for the duration of the foster parent-foster child relationship in matters relating to public education of the foster child.

This bill would limit the representation to situations in which the foster child is placed in a planned permanent living arrangement and in which the juvenile court has limited the right of the parent or guardian to make educational decisions. The bill would require specified criteria to be met in selecting the most appropriate home.

(6) Existing law requires area boards on developmental disabilities to, with the consent of the consumer and, when appropriate, a family member, conduct life quality assessments, as provided, with consumers living in out-of-home placements, supported living arrangements, or independent living arrangements. Existing law requires the area board to develop a report of its findings following each life quality assessment and to provide a copy of the report to the consumer, when appropriate, family members, and the regional center providing case management services to the consumer.

This bill would authorize a life quality assessment to be conducted with the consent of the juvenile court or social services agency if the consumer is a dependent of the juvenile court and would require the area board to provide a copy of the life quality assessment of that

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

consumer, upon request, to the court or social services agency, thus imposing a state-mandated local program.

(7) This bill would further declare the intent of the Legislature to ensure that a pupil in foster care or who is homeless, as defined by specified federal law, has the opportunity to meet the academic achievement standards to which all pupils are held, is placed in the least restrictive educational programs, and has access to the academic resources, services, and extracurricular and enrichment activities as all other pupils.

(8) The bill would also update cross-references and make conforming and other technical changes.

(9) The bill would incorporate further changes to Section 16501.1 of the Government Code proposed by AB 408, AB 1151, and SB 591, contingent upon their prior enactment.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 863 (AB 650) Plescia. Local government.

(1) Existing law requires that, notwithstanding the requirement that the board of directors of a recreation and park district consists of 5 members, the Board of Directors of the North Bakersfield Recreation and Park District shall be composed of 7 members.

This bill would delete that requirement concerning the North Bakersfield Recreation and Park District.

(2) Existing law provides for the formation of county water authorities and grants specified powers to those entities, including the authority to adopt regulations regarding its facilities, property, and rights-of-way. Existing law authorizes the board of directors, by ordinance, to make a violation of those regulations subject to an administrative fine.

This bill would authorize the board of directors of the authority, by ordinance and subject to certain requirements, to establish procedures for the abatement of encroachments that violate those regulations and to recover the costs of abatement by means of a lien with the status and priority of a judgment lien on the property that is subject to the easement or right-of-way from which the encroachment is abated. By increasing the duties of local public entities in connection with the imposition of liens, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 864 (AB 841) Vargas. Pupil retention.

(1) Existing law, the School-Based Pupil Motivation and Maintenance Program and Dropout Recovery Act, authorizes school districts to establish and maintain school-based pupil motivation and maintenance programs to improve the ability of schools to keep pupils in school and to reduce pupil absenteeism, truancy, tardiness, and school dropout rates. The existing act requires, for school-based motivation and maintenance programs, the schoolsite council to develop a school plan for increasing the retention rate of the school for all pupils with special emphasis on the needs of high-risk pupils. Existing law requires that plan to include a description of the manner in which the school district will utilize outreach consultations and prescribes the qualifications of outreach consultants. Under the existing act, a school may not operate a school motivation and maintenance program unless an application to operate a school motivation and maintenance program has been submitted to, and approved by, the Superintendent of Public Instruction, and unless a newly developed plan or a revision of the previously approved plan has been approved by the local governing board and is retained at the schoolsite. Under existing law, the Superintendent of Public

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Instruction is required to perform various duties related to school-based pupil motivation and maintenance programs.

This bill would, with certain exceptions, require each outreach consultant utilized for purposes of a school-based motivation and maintenance program to possess a Dropout Prevention Specialist Certificate from a California State University, as prescribed, and would make clarifying changes in related provisions. The bill would require a school-based motivation and maintenance program plan to include provisions for participation in specified activities organized and provided by the network of schools implementing pupil motivation and maintenance programs. The bill would authorize the Superintendent of Public Instruction to utilize the services of field personnel with expertise and knowledge of successful pupil motivation and maintenance programs to assist the State Department of Education in carrying out its duties related to school-based pupil motivation and maintenance programs.

(2) Existing law authorized the certification of educational clinics that, among other things, recruited or received referral of high school dropouts, provided instruction in basic academic skills, provided employment orientation or reentry orientation, operated on a clinical client-centered basis, and conducted courses of instruction. Existing law made those provisions inoperative on July 1, 2003, and repeals them as of January 1, 2004.

This bill would make those provisions inoperative on July 1, 2007, and repeal them as of January 1, 2008.

Ch. 865 (AB 1017) Goldberg. Teachers: hiring preferences: instructing deaf pupils.

Existing law establishes the California School for the Deaf as part of the public school system and provides that the object of the school is the education of the deaf who, for specified reasons, cannot be provided an appropriate educational program and related services in the regular public schools.

This bill, commencing with the 2004–05 school year, would set forth hiring criteria for purposes of hiring an individual as a certificated employee to instruct deaf pupils at the California School for the Deaf. The bill would establish a hiring preference for certificated individuals who achieve a minimum score of 4 on the American Sign Language Proficiency Interview (ASLPI) or an equivalent score on an alternate test, as specified. The bill would, except as specified, prohibit an individual from being hired as a certificated employee to instruct deaf pupils, unless the individual achieves a specified minimum score on one of those assessments. The bill would also establish hiring preferences, based on scores received on those assessments, for substitute teachers who are hired by the California School for the Deaf.

The bill would require a certificated employee who instructs deaf pupils and who has not achieved a minimum score of 4 on the ASLPI or an equivalent score on the alternate test to retake the assessments every 3 years as specified. The bill would require the California School for the Deaf to reimburse a certificated employee for the assessment fee if the employee receives a minimum score of 4 on the ASLPI or an equivalent score on the alternate test. The bill would prohibit the California School for the Deaf from using the ASLPI or an alternate test for the purposes specified by the bill, unless it is first determined that the test is a valid and reliable test for employment purposes.

Ch. 866 (AB 1524) Richman. County Health Initiative Matching Fund.

Existing law authorizes the County Health Initiative Matching Fund, which is administered by the Managed Risk Medical Insurance Board in collaboration with the State Department of Health Services, to provide matching state funds and local funds received by the fund through intergovernmental transfers to a county agency, a local initiative, or a county organized health system for health insurance coverage to certain children in low-income households who do not qualify for health care benefits through the Healthy

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Families Program or Medi-Cal. Existing law authorizes the implementation of this fund if, among other things, federal funds are appropriated for this purpose and federal participation is approved.

This bill would expand the scope of the fund's health insurance coverage to include adults who are parents of or responsible for children eligible for the Healthy Families or Medi-Cal programs and who meet specified criteria. The bill would only authorize funding for adults in a fiscal year if the funds are not needed for the children's expansion program. The bill would make conforming changes.

Ch. 867 (AB 1666) Cogdill. Cigarettes and tobacco products.

The Cigarette and Tobacco Products Tax Law requires distributors and wholesalers of cigarette and tobacco products to be licensed by the State Board of Equalization. The Cigarette and Tobacco Products Tax Law also requires a tax imposed by that law with respect to distributions of cigarettes to be paid by distributors through the use of stamps or meter register settings, and requires that these stamps or meter register settings be affixed to each package of cigarettes sold.

Existing law requires all distributors of cigarette and tobacco products that are required to be licensed by the State Board of Equalization to furnish a $1,000 security deposit. Existing law requires a distributor that defers payments for stamps or meter register settings to furnish a security deposit of at least 70% of, but not more than twice the amount of, stamps and meter register settings for which payment is deferred.

This bill would, until January 1, 2007, reduce the amount of the security deposit required to be provided by a distributor that defers payments for stamps or meter register settings and elects to make those payments on a twice-monthly basis, as authorized by this bill, to an amount that is at least 50% of, but not more than twice the amount of, stamps and meter register settings for which payment is deferred.

Existing law requires distributors that defer payments for stamps and meter register settings to remit the payments on or before the 25th day of the month following the month in which the payments were deferred.

This bill would, until January 1, 2007, require distributors that defer payments for stamps and meter register settings to elect to remit those payments either on a monthly or on a twice-monthly basis.

Existing law requires distributors of cigarettes and tobacco products to file returns for, and remit the taxes collected on, the distributions of cigarettes and tobacco products on or before the 25th day of the month following the month during which the cigarettes or tobacco products were distributed.

This bill would, until January 1, 2007, require distributors of cigarettes and tobacco products to elect to file those returns and remit those taxes, as specified, either on a monthly basis or on a twice-monthly basis.

This bill would require the Legislative Analyst, on or before January 1, 2006, to prepare a report of the economic impact of this act.

Ch. 868 (AB 1680) Strickland. Elections: presidential nominations.

Under existing law, the Secretary of State is required to deliver certificates of nomination to local elections officials 68 days prior to a general election.

This bill would require the Chairperson of the Republican State Central Committee to notify the Secretary of State of the apparent nomination, with certain requirements, of the Republican candidates for President and Vice President of the United States not less than 78 days prior to the election if the Republican National Convention will conclude after the deadline for the Secretary of State to deliver certificates of nomination to local elections officials. The bill would require the Secretary of State to prepare the certificates of nomination based on this information.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would make these provisions inoperative on December 31, 2004, and would repeal these provisions as of January 1, 2005.

Ch. 869 (AB 1700) Laird. Military base remediation: funding: federal grants.

Existing law, the Carpenter-Presley-Tanner Hazardous Substance Account Act, imposes liability for hazardous substance removal or remedial actions and requires the Department of Toxic Substances Control to adopt, by regulation, criteria for the selection and for the priority ranking of hazardous substance release sites for removal or remedial action under the act. The act authorizes the department to expend the funds in the Toxic Substances Control Account in the General Fund, upon appropriation by the Legislature, to pay for, among other things, removal and remedial actions related to the release of hazardous substances. Existing law generally requires the Controller to abolish any state position that is vacant for 6 consecutive months on the following July 1.

This bill would prohibit the Controller and the Director of Finance from eliminating any direct or indirect position funded through an agreement with a responsible party, that provides oversight associated with remediation and hazardous substance management at military bases, including closed military bases; or eliminating any direct or indirect position that is funded by a federal grant that does not require a state match funded from the General Fund. The bill would also prohibit the Controller and the Department of Finance from imposing any hiring freeze or personal services limitations, including any position reductions, upon any direct or indirect position of the department funded in those manners, and would require the Controller and the Department of Finance to exclude, from the department's base for purposes of calculating any budget or position reductions required by any state agency or state law, the specific amounts and direct or indirect positions that are funded in those manners. The bill would also prohibit the Controller and the Department of Finance from requiring the department to reduce authorized positions or other appropriations for other department programs, including personal services, to implement those prohibitions and requirements. The bill would require the Controller, upon request of the department, and upon review and approval by the Department of Finance, to augment any Budget Act appropriations, except for appropriations from the General Fund, necessary to implement these provisions. The bill would provide that these provisions do not apply to any department appropriation or expenditure of General Fund moneys.

The bill would also impose similar restrictions and requirements upon the Controller and the Department of Finance with regard to any direct or indirect position of the State Water Resources Control Board funded through an agreement with a state agency for which no General Fund moneys are spent to fund the position or a responsible party, related to oversight associated with remediation at military bases, including closed military bases; or any direct or indirect position funded by a federal grant that does not require a state match funded from the General Fund.

Ch. 870 (SB 75) Burton. Agricultural labor relations.

Existing law provides mediation procedures applicable to specified agricultural employers and labor organizations that are certified as the exclusive bargaining agent of a bargaining unit of agricultural employees. The procedures permit either party to seek assistance from the Agricultural Labor Relations Board in the event that the parties are unable to reach a collective bargaining agreement and to petition the courts for review of an order of the board imposing a collective bargaining agreement upon limited grounds. These mediation procedures will be repealed as of January 1, 2008.

This bill would eliminate the repeal of the mediation procedures. This bill further sets forth a nonexclusive list of factors that mediators appointed pursuant to those procedures would be permitted to consider in resolving the issues in dispute.

Existing law provides grounds upon which the board may accept for review a petition challenging provisions of a mediator's report.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would include among those grounds a provision of the collective bargaining agreement set forth in the mediator's report that is arbitrary or capricious in light of the mediator's findings of fact.

Ch. 871 (SB 245) Sher. Fish.

Existing law provides that provisions in the Fish and Game Code relating to aquaculture do not permit ocean ranching, as defined. A violation of the code is a crime under existing law.

This bill would delete that provision and, instead, make it unlawful to spawn, incubate, or cultivate any species of finfish belonging to the family Salmonidae, transgenic fish species, or any exotic species of finfish in the waters of the Pacific Ocean that are regulated by this state. The bill would define "transgenic" and "exotic species" for these purposes. The bill would exempt certain salmon and steelhead trout from this prohibition. By changing the definition of an existing crime this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 872 (SB 262) Kuehl. Buildings: access: enforcement.

(1) The federal Americans with Disabilities Act of 1990 and the California Building Standards Code require that specified buildings, structures, and facilities be accessible to, and usable by, persons with disabilities. Existing law establishes in the Department of General Services the State Architect with responsibilities relating to architectural services and state buildings.

This bill would require the State Architect to establish and publicize a program for voluntary certification by the state of any person who meets specified criteria as a certified access specialist. It would require the State Architect, no later than January 1, 2005, to determine minimum criteria a person must meet for certification, which may include knowledge sufficient to review, inspect, or advocate universal design requirements, completion of specified training, and testing on standards governing access to buildings for persons with disabilities. It would require the State Architect to annually publish and make available to the public a list of certified access specialists and provide that this certification is effective for 3 years and renewable.

This bill would authorize the State Architect to require applicants for certification and renewal of certification under this program to pay specified fees, which would be deposited in the Certified Access Specialist Fund created by the bill. The bill would continuously appropriate this fund for use by the State Architect to implement the certified access specialist program.

(2) Existing law authorizes the district attorney, the city attorney, the Attorney General or, in certain instances, the Department of Rehabilitation acting through the Attorney General, to bring an action to enjoin a violation of prescribed requirements relating to access to buildings by handicapped persons.

This bill would authorize the county counsel to also bring those actions if the district attorney does not bring an action. The bill would additionally authorize any of those officials, including the county counsel if the district attorney does not bring an action, to bring a civil action to impose civil penalties on persons who violate prescribed statutes or regulations relating to access to buildings by handicapped persons. The bill would prescribe the amounts, according to circumstances set forth in the bill, and the disposition of those civil penalties.

Ch. 873 (SB 331) Romero. Toxic injuries: limitation of actions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law sets forth the statute of limitations applicable to various causes of action, including a civil action for injury or illness based upon exposure to asbestos, as specified.

This bill would establish a separate statute of limitations for a civil action for injury or illness based upon exposure to a hazardous material or toxic substance other than asbestos, as specified. The bill would also state the intent of the Legislature to codify and disapprove the rulings in specific court cases.

Ch. 874 (SB 363) Figueroa. Department of Consumer Affairs regulation.

(1) Existing law requires specified regulatory boards within the Department of Consumer Affairs to obtain fingerprints from a licensing applicant to conduct a criminal history check.

This bill would extend this requirement to the Bureau of Naturopathic Medicine and, effective July 1, 2004, to the Contractor's State License Board and the Structural Pest Control Board.

(2) Existing law establishes the Joint Legislative Sunset Review Committee and authorizes the committee to act until January 1, 2004.

This bill would extend the committee's authority to January 1, 2012.

(3) Existing law, the Medical Practice Act, creates the Medical Board of California and makes it responsible, through its Division of Medical Quality, for disciplining a physician and surgeon for acts of unprofessional conduct. Under the act, a physician and surgeon whose certificate is revoked, suspended, or placed on probation for unprofessional conduct may petition for reinstatement or modification after a specified time period. The act also creates within the board's jurisdiction, the California Board of Podiatric Medicine. Under existing law, upon the recommendation of that board, the Division of Licensing of the Medical Board of California is required to issue a certificate to practice podiatric medicine to an applicant who meets specified criteria.

This bill would require the Medical Board of California to maintain for 10 years a complaint regarding poor care rendered by a physician and surgeon. The bill would authorize a person who surrendered his or her physician's and surgeon's certificate while under investigation or while charges were pending to petition for its reinstatement. The bill would also require the Division of Licensing of the Medical Board of California to issue upon the recommendation of the Board of Podiatric Medicine, a certificate to practice podiatric medicine to a person licensed by another state who meets specified criteria.

(4) Existing law, the Respiratory Care Practice Act, creates the Respiratory Care Board of California and makes it responsible for enforcing and administering the act's requirements. The act specifies licensing requirements for its licensees.

This bill would revise certain of those specified licensing requirements.

(5) Existing law creates the Board of Behavioral Services and makes it responsible for licensing and regulating the practices of marriage and family therapy and social work.

This bill would revise the licensing examination requirements for these practices.

(6) Existing law defines certified interior designers and interior design organizations, and permits a certified interior designer to obtain and use a stamp identifying the designer. All documents submitted to a government regulatory agency by a certified interior designer must be affixed by the stamp. The provisions governing certified interior designers will be repealed on January 1, 2004.

This bill would extend the repeal date of these provisions to January 1, 2006. The bill would additionally revise the obligations of an interior design organization issuing the stamps.

(7) Existing law, the Contractors' State License Law, creates the Contractors' State License Board that is responsible for issuing a contractor's license to qualified applicants. Under the law, an applicant is required beginning on January 1, 2004, to submit a set of fingerprints to the board for purposes of conducting a criminal history record check.

This bill would delay the effective date of this requirement to July 1, 2004.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(8) Existing law, the Funeral Directors and Embalmers Law, makes the Cemetery and Funeral Bureau responsible for licensing and regulating the practice of a funeral director. The law makes a violation of its provisions a crime.

This bill would extend the bureau's inspection authority to include premises where human remains are stored and would also revise specified licensing provisions. The bill would expand certain regulatory provisions under the act. Because the violation of these requirements would be a crime, the bill would impose a state-mandated local program.

(9) Existing law, the Geologist and Geophysicist Act, creates the Board for Geologists and Geophysicists and makes it responsible for licensing and regulating the practices of geology and geophysics. Under the act, the board is required to fix licensure fees at designated amounts. The act requires that these fees be deposited into the Geology and Geophysics Fund, which is continuously appropriated.

This bill would increase the amount fixed by the board for the renewal of specified licenses under the act. Because the bill would increase the amount of fee revenue deposited in a continuously appropriated fund, it would make an appropriation.

(10) Existing law imposes specified requirements on a tax preparer and defines terms for those purposes. Under existing law the term ''council'' is defined as the California Tax Education Council, and the definition describes certain characteristics of the entities that compose the council.

This bill would revise the description of certain characteristics of the entities that compose the council.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 875 (SB 420) Vasconcellos. Medical marijuana.

Existing law, the Compassionate Use Act of 1996, prohibits any physician from being punished, or denied any right or privilege, for having recommended marijuana to a patient for medical purposes. The act prohibits the provisions of law making unlawful the possession or cultivation of marijuana from applying to a patient, or to a patient's primary caregiver, who possesses or cultivates marijuana for the personal medical purposes of the patient upon the written or oral recommendation or approval of a physician.

This bill would require the State Department of Health Services to establish and maintain a voluntary program for the issuance of identification cards to qualified patients and would establish procedures under which a qualified patient with an identification card may use marijuana for medical purposes. The bill would specify the department's duties in this regard, including developing related protocols and forms, and establishing application and renewal fees for the program.

The bill would impose various duties upon county health departments relating to the issuance of identification cards, thus creating a state-mandated local program.

The bill would create various crimes related to the identification card program, thus imposing a state-mandated local program.

This bill would authorize a qualified patient or primary caregiver to possess specified amounts of dried marijuana and marijuana plants, and would further authorize qualified patients and primary caregivers to possess more than those amounts to meet the qualified patient's medical needs, with a doctor's recommendation. The bill would also authorize counties and cities to retain or enact medical marijuana guidelines to allow qualified patients and primary caregivers to exceed the limits specified in the bill.

This bill would authorize the Attorney General to set forth and clarify details concerning possession and cultivation limits, and other regulations, as specified. The bill would also authorize the Attorney General to recommend modifications to the possession or cultivation limits set forth in the bill. The bill would require the Attorney General to develop and adopt

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

guidelines to ensure the security and nondiversion of marijuana grown for medical use, as specified.

This bill would provide that it does not require or authorize the use of medical marijuana under various circumstances.

This bill would prevent a professional licensing board from taking disciplinary action against a licensee for acts performed as a designated primary caregiver to a qualified patient or a person who possesses an identification card.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 876 (SB 434) Escutia. State departments: investigations and hearings.

(1) Existing law, the Corporate Securities Law of 1968 and the California Commodity Law of 1990, authorize the Commissioner of Corporations to bring an action or conduct a public or private investigation when it appears any person has violated or is about to violate these laws. Existing law authorizes the commissioner to refer any evidence showing a violation of these laws to the appropriate district attorney for possible prosecution. Existing law requires the commissioner to bring a civil action in superior court to recover a civil fine imposed against a person for violation of these laws.

This bill would additionally authorize the Attorney General to bring an action or conduct an investigation when it appears any person has violated or is about to violate these laws. The bill would also authorize the Attorney General to bring a civil action in superior court to recover a civil fine imposed against a person for violation of these laws. Because the bill would make specified activities associated with investigations under these laws a crime, it would impose a state-mandated local program.

(2) Existing law provides that, at the request of a prosecuting attorney or the Attorney General, any state agency, bureau, or department may assist in conducting an investigation of an unlawful activity that involves matters within or reasonably related to the jurisdiction of the agency, bureau, or department.

This bill would provide that, at the request of a prosecuting attorney or the Attorney General, any agency, bureau, or department of this state, any other state, or the United States may assist in conducting an investigation of an unlawful activity that involves matters within or reasonably related to the jurisdiction of the agency, bureau, or department. It would authorize the prosecuting attorney or the Attorney General to disclose documents or information acquired pursuant to the investigation to another agency, bureau, or department if that entity agrees to maintain the confidentiality of the information. This bill would provide that a department head may divulge specified information or evidence discovered in the investigation to the Attorney General or to any prosecuting attorney of this state, any other state, or the United States who has responsibility for investigating the unlawful activity, and may present evidence related to the investigation to a court or at an administrative hearing. The bill would state that the Legislature declares that these provisions are declaratory of existing law.

(3) Existing law authorizes the head of a state department in connection with investigations of an unlawful activity to inspect books and records and to issue subpoenas for the attendance of witnesses and the production of papers, books, accounts, documents, and testimony and to promulgate interrogatories pertinent to the investigation.

This bill would provide that the department head may copy these books and records as well as other specified materials and issue a subpoena for the production of any other "writing," as defined. It would specify procedures for the appearance of witnesses when the witness

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

named in a subpoena is not a natural person and authorize specified procedures for securing compliance with a subpoena.

(4) Under existing law, except in a report to the head of a department or when testifying or reporting to a prosecutor, any state officer who divulges information acquired from the private records of a person under the provisions in paragraph (1) or (2) above, is guilty of a misdemeanor and disqualified from office.

This bill would expand the materials protected from being unlawfully divulged, thus imposing a state-mandated local program by increasing the scope of an existing crime.

(5) This bill would require that the investigation and enforcement of its provisions by the Attorney General and the commissioner be accomplished without duplication of effort. The bill would provide that the Attorney General shall use existing resources in exercising this authority.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 877 (SB 440) Burton. Employer-employee relations: law enforcement officers and firefighters.

Existing law provides that if an impasse has been declared after the representatives of an employing county, city, city and county, special district, or other political subdivision of the state and representatives of firefighters or law enforcement officers have exhausted their mutual efforts to reach agreement over economic issues as defined within the scope of arbitration and the parties are unable to agree to the appointment of a mediator or the mediator is unable to effect a settlement, the employee organization may request, by written notification to the employer, that their differences be submitted to an arbitration panel, as specified. Existing law provides that after specified procedures are followed the arbitration panel's decision is binding upon the parties. Existing law also provides that these provisions do not apply to an employer that is a city, county, or city and county governed by a charter that was amended prior to January 1, 2001, to incorporate a procedure requiring the submission of all unresolved disputes relating to wages, hours, and other terms and conditions of employment within the scope of arbitration to an impartial and neutral 3rd party for final and binding determination. The California Supreme Court has held that law unconstitutional in County of Riverside v. Superior Court.

This bill would instead provide that the governing body of the employer agency may, by unanimous vote, reject the decision of the arbitration panel, except as specifically provided to the contrary in a city, county, or city and county charter with respect to the rejection of an arbitration award. This bill would also provide that these provisions do not apply to a city, county, or city and county employer governed by a charter for that respective entity that was amended prior to January 1, 2004, to incorporate such a procedure.

Ch. 878 (SB 577) Kuehl. Protection and advocacy agencies.

Existing law prescribes, in accordance with federal law, the powers of the protection and advocacy agency, which is a private, nonprofit corporation, charged with protecting and advocating for the rights of persons with developmental disabilities and mental disorders.

This bill would expand the authority of the agency to protect and advocate for the rights of persons with disabilities, as defined.

Under existing law, a protection and advocacy agency's powers include the authority to pursue legal, administrative, and other appropriate remedies to ensure the protection of the rights of persons with developmental disabilities and persons with mental illness, to provide information and referral to programs and services addressing the needs of persons with developmental disabilities and persons with mental illness, and to investigate any incident of abuse or neglect of persons with developmental disabilities or persons with mental illness

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

if the complaints are reported to the protection and advocacy agency or if probable cause exists to believe that abuse or neglect has occurred.

This bill would make changes in definitions used in these provisions and would define additional terms.

This bill would also expand and define the protection and advocacy agency's right to access to public or private facilities and programs and to recipients.

This bill would also expand and define the protections and advocacy agency's right of access to records of persons with disabilities.

Ch. 879 (SB 875) Escutia. Child and parental nutrition.

Existing law requires the State Department of Health Services to maintain a program of maternal and child health. Existing law requires the department to investigate and disseminate educational information relating to conditions affecting the health of the children of the state.

This bill would require the department to develop or obtain a brochure to educate pregnant women and new parents about issues related to maintaining a healthy lifestyle and preventing chronic diseases in pregnant women, new mothers, and young children. The bill would require the department to include the brochure on the department's Web site. The bill would also require that the brochure be distributed by the department to each individual who contacts the BabyCal program and receives certain information and by a provider to each participant in the Access for Infants and Mothers (AIM) program, as prescribed. The bill would provide that it shall only be implemented if, and to the extent that, federal or private funds, or both, are available for that purpose.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 880 (AB 290) Firebaugh. Classified employees: notice of layoff.

(1) Under existing law, classified employees of school districts and community college districts subject to layoff as a result of the expiration of a specially funded program at the end of any school year are required to be given written notice on or before May 29 informing them of certain rights. Existing law requires that notice be given not less than 30 days prior to the effective layoff date if the termination date of any specially funded program is other than June 30, or if classified employees are subject to layoff as a result of a bona fide reduction or elimination of a service performed by any department. Existing law exempts a school district from those notice requirements if it lays off classified employees for lack of funds in the event of an actual and existing financial inability to pay salaries, or lays off employees due to an unforeseeable lack of work.

This bill would, instead, require that the employees to be laid off as the result of that notice be given written notice on or before April 29, or not less than 45 days prior to the effective layoff date, if the termination date of any specially funded program is other than June 30, or if classified employees are subject to layoff as a result of a bona fide reduction or elimination of a service performed by any department. The bill would prohibit a classified employee from being laid off if a short-term employee is retained to render a service that the classified employee is qualified to render.

The additional notice requirements for school districts and community college districts required by this bill would impose a state-mandated local program. The bill would declare that this provision may not be construed to preclude a school or community college district governing board from implementing layoffs in the event of an actual and existing financial inability to pay the salaries of classified employees, or if there is a lack of work resulting from causes not foreseeable or preventable by the governing board, without providing the notice required by the bill.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 881 (AB 424) Richman. Classified school employees.

Existing law requires all vacancies in the classified service of a school district that has adopted the merit system to be filled from applicants on eligibility lists that are made up from promotional examinations or by appointments made by means of transfer, demotion, reinstatement, or reemployment, as specified. Existing law requires that if a vacancy is filled from applicants on an eligibility list that the appointment be made from the eligible candidates having the first 3 ranks on the list who are ready and willing to accept the position.

Existing law authorizes in a school district that has adopted the merit system an appointment to be made from other than the first 3 ranks when the ability to speak, read, or write a language in addition to English, or possession of a driver's license is a requirement of the position to be filled, but in that case existing law requires the appointment to be made from among the highest 3 ranks of applicants on the list who meet the special requirements and are ready and willing to accept the position.

This bill would, in a school district with a pupil population over 400,000, authorize an appointment for a school-based position to be made from any rank on eligibility list, but would require consideration of certain factors. If specialized licenses, certifications, knowledge, or ability that cannot reasonably be acquired during the probationary period or a specific gender is required for successful job performance of a position, the bill would allow an appointment to be made, in a school district with a pupil population over 400,000, from among the highest 3 ranks of applicants on the list who meet the special requirements and are ready and willing to accept the position.

This bill would repeal these provisions on January 1, 2006.

Ch. 882 (AB 654) Goldberg. Community colleges: faculty.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law provides for the employment of faculty as temporary, contract, or regular employees. Existing law requires that a person employed to teach adult or community college classes for not more than 60% of the hours per week of a full-time employee having comparable duties, excluding substitute service, be classified as a temporary employee and not become a contract employee.

This bill would express the intent of the Legislature and various policy preferences of the Legislature with respect to part-time community college faculty.

Ch. 883 (AB 862) Firebaugh. Personal services contracts: legal services.

The California Constitution establishes a state civil service system that, with limited exceptions, includes every officer and employee of the state. Existing law establishes standards for the use of personal services contracts outside the civil service system, if contracting would achieve cost savings, as defined, or if certain conditions can be met.

Existing law also provides, with certain exceptions, that the written consent of the Attorney General is required prior to the employment of counsel for representation of any state agency or employee in any judicial proceeding.

This bill would require that state agencies, as defined, and the Attorney General, provide specified notices to the designated representative of State Employees Bargaining Unit 2 regarding contracts with outside counsel and the consents of the Attorney General with regard to those contracts.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would except from the notice requirement certain confidential matters and would deem disclosures made in a required notice to be privileged communications.

Ch. 884 (AB 1719) Committee on Labor and Employment. Employment.

Existing law exempts specified doctors from overtime pay.

This bill would make a technical change as to which doctors are exempted.

Existing law requires individuals who perform work as electricians to become certified by January 1, 2005, and prohibits uncertified individuals from performing electrical work for which certification is required after that date. After the January 1, 2005, certification deadline, an uncertified person may perform electrical work for which certification is required to obtain on-the-job experience as a registered apprentice, if the uncertified person meets certain requirements.

This bill would permit the California Apprenticeship Council to extend for up to two years the January 1, 2005, certification deadline and requires the council to extend the deadline if the council concludes that the January 1, 2005, deadline does not provide individuals sufficient time to become certified, enroll in apprenticeship programs, or register as an uncertified person performing electrical work.

Existing law requires the Division of Apprenticeship Standards to provide for the administration of electrician certification tests in non-English languages spoken by a substantial number of applicants, except insofar as the ability to understand specified information in English is necessary for safety reasons. Existing law further requires the division to complete a report to the Legislature on the status of electrician certification by January 1, 2004.

This bill would amend existing law to require the division to administer certification tests in Spanish and, to the extent practicable, other non-English languages spoken by a substantial number of applicants. This bill would further extend the deadline by which the division must report to the Legislature on the status of electrician certification to an unspecified date prior to the deadline for electricians to become certified.

Under existing law, certain industries may enter into collective bargaining agreements that establish an alternative dispute resolution system to supplement or replace all or part of the dispute resolution processes set forth in Division 4 of the Labor Code, relating to workers' compensation.

This bill would, contingent upon the enactment and operation of SB 228, designate the organization certified by the California Horse Racing Board to represent the majority of licensed jockeys to negotiate a similar agreement for licensed jockeys.

Under existing law, the Division of Occupational Safety and Health investigates complaints that a workplace is not safe, and it may issue orders necessary to ensure employee safety. It notifies a complainant of any action taken.

This bill would require the division to notify the complainant within 14 calendar days of taking action. It would also require the division to annually compile and release on its Web site information as to complaints received and actions taken.

Under existing law, the Bureau of Investigation within the division is responsible for directing accident violations where there is a serious injury to 5 or more employees, death, or a request for prosecution by the division. It also refers appropriate cases to prosecuting authorities.

This bill would require the division to provide helpful information to the bureau. It would also require the bureau to notify the prosecuting authorities within 14 calendar days of a determination that there is legally insufficient evidence of a violation of law if the prosecuting authorities request notice.

Ch. 885 (SB 969) Bowen. Telephone medical advice services.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Care and makes a violation of the act's provisions a crime. Under the act, a health care service plan that provides, operates, or contracts for telephone medical advice services for its enrollees and subscribers is required to ensure those services comply with certain standards, including that staff providing telephone medical advice are licensed, certified, or registered professionals. Existing law also provides for the regulation and certification of telephone medical advice services, and requires the staff of those advice services to be appropriately licensed, certified, or registered in various healing arts professions.

This bill would include licensed clinical social workers as health care service professionals, for purposes of these provisions. The bill would require a health care service plan to ensure that staff handling enrollee or subscriber calls, but who are not licensed, certified, or registered in various healing arts professions, do not provide telephone medical advice. The bill would also require a health care service plan and a telephone medical advice service to ensure that no staff member uses a title or designation that would cause a reasonable person to believe the staff member is licensed, certified, or registered as a specified type of health care professional unless the staff member meets those requirements. The bill would enact other related provisions.

Because the bill would add requirements concerning the operation of a health care service plan, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 886 (SB 1075) Committee on Health and Human Services. Health and social services.

Existing law establishes the Office of Women's Health within the State Department of Health Services. The functions of the office include, among others, to communicate and disseminate information and perform a liaison function within the department and to providers of health, social, educational, and support services to women. Existing law requires the department to place priority on providing information to consumers, patients, and health care providers regarding women's gynecological cancers, as specified.

This bill would require the department to include in any literature regarding breast cancer that it produces prescribed information regarding breast cancer.

Existing law, commencing July 1, 2004, transfers the administration of the Habilitation Services Program from the Department of Rehabilitation to the State Department of Developmental Services.

Existing law, commencing July 1, 2004, provides that if a regional center approves a reduction in the work activity program day, the department may change the work activity program.

This bill would, operative July 1, 2004, recast that authorization to authorize the department to change the work activity program rate in those circumstances.

Ch. 887 (AB 202) Corbett. Birds: sale.

Existing law contains several requirements applicable to pet dealers of dogs and cats and provides that those provisions are not applicable to publicly operated pounds and humane societies.

This bill would prohibit a pet shop, as defined, from possessing unweaned birds, unless certain conditions are met. It would also prohibit a pet shop or a vendor, as defined, from selling a bird that is not weaned, and would require a pet shop or a vendor to document the weight of any hand-fed bird under one year of age, and note the weight on the sales receipt at the time of sale. This bill would provide that these provisions do not apply to publicly operated pounds and humane societies. This bill would provide that any person violating any

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

of these provisions is subject to a civil penalty, as specified. This bill would specify that it will become operative on September 1, 2004.

Ch. 888 (AB 394) Montanez. Law enforcement fees.

(1) Existing law establishes provisions by which a levying officer may serve a writ to attach property in a safe-deposit box.

This bill would impose a fee of $125 for levying on a safe-deposit box. The bill would also require the levying officer to mail a written notice to the judgment creditor demanding an additional fee, plus costs, as specified; and require the levying officer to release the levy on the safe-deposit box if the additional fee, plus costs, are not paid within a specified period.

The bill would also revise and increase existing fees for serving, executing, and processing a summons and complaint and related documents, court notices, writs, orders, and other services provided by sheriffs and marshals.

(2) Existing law requires certain processing fees to be assessed for each disbursement of money collected pursuant to specified writs, and further requires that the proceeds of these fees be deposited in a special fund in the county treasury for allocation according to specified percentages.

This bill would delete those percentages and instead require the fund to be expended to supplement the county's cost for vehicle fleet replacement and equipment, maintenance, and civil process operations.

(3) Existing law requires a financial institution to send to a court identified in letters of guardianship or conservatorship a statement containing specified information, including a list of contents and a description of assets, with regard to assets held in a safe-deposit box.

This bill would limit this duty to circumstances in which the financial institution has been given access to the safe-deposit box, delete the requirement regarding a description of assets, and make corresponding changes.

(4) The bill, by requiring new duties of local levying officers and the assessment of new fees, would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 889 (AB 14) Jerome Horton. Public contracts: job order contracting.

Existing law provides various procedures, including competitive bidding, for different types of contracts involving state and local public entities, including school districts.

This bill would authorize, until December 1, 2007, job order contracting, as defined, by the Los Angeles Unified School District, and would require the district, if it adopts this option, to submit an interim report to the Legislature and the Office of Public School Construction in the Department of General Services regarding all job order contract projects completed by December 31, 2004, and a report regarding the implementation of the job order contracting process for each job order procured, and the work completed on or before November 1, 2007.

The bill would also state the intent of the Legislature to place a moratorium on the enactment of additional legislation authorizing school districts to use job order contracting until the Legislature has received that report.

This bill would make legislative findings and declarations regarding the bill's purposes and the necessity for a special statute.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 890 (AB 71) Jerome Horton. Tobacco products: state and local government.

(1) The Cigarette and Tobacco Products Tax Law requires distributors and wholesalers of cigarette and tobacco products to be licensed by the State Board of Equalization. The Cigarette and Tobacco Products Tax Law also requires a tax imposed by that law with respect to distributions of cigarettes to be paid by distributors through the use of stamps or meter register settings, and requires that these stamps or meter register settings be affixed to each package of cigarettes sold. Existing law further provides that the possession, selling, or buying of false or fraudulent stamps or meter register settings with a tax value greater than $750 is a crime.

This bill would create the California Cigarette and Tobacco Products Licensing Act of 2003 to provide for the licensure by the State Board of Equalization of manufacturers, distributors, wholesalers, importers, and retailers of cigarette or tobacco products that are engaged in business in California. The bill would prohibit retailers, manufacturers, distributors, and wholesalers from distributing or selling those cigarette and tobacco products unless they are licensed. The bill would authorize the board to suspend or revoke the license of any manufacturer, distributor, wholesaler, importer, or retailer of tobacco products that is in violation of the bill's provisions. The bill would prohibit a manufacturer, distributor, wholesaler, importer, retailer, or any other person from selling counterfeit cigarette and tobacco products and would provide that a violation of that prohibition is a crime. The bill would impose specified fines or imprisonment for possessing, selling, or buying false or fraudulent cigarette tax stamps.

The bill also would require manufacturers and importers of cigarette products that provide those products to distributors or wholesalers to pay the board a fee for cigarettes sold in this state.

The bill would require all moneys collected pursuant to its provisions to be deposited in the Cigarette and Tobacco Products Compliance Fund, which would be created in the State Treasury, and all funds therein would be available for appropriation by the Legislature solely for the purpose of implementing, enforcing, and administering the California Cigarette and Tobacco Products Licensing Act of 2003. This bill would appropriate from that fund the amount of $11,000,000, subject to specified conditions, for the 2003–04 fiscal year for the purpose of implementing, enforcing, and administering the California Cigarette and Tobacco Products Licensing Act of 2003.

This bill would repeal the California Cigarette and Tobacco Products Licensing Act of 2003, effective January 1, 2010.

(2) Existing law provides that all records, with specified exceptions, of the Department of Motor Vehicles are confidential and are not open to public inspection.

This bill would authorize the State Board of Equalization to obtain copies of photographs of California licensees from the Department of Motor Vehicles for the purpose of enforcing California's tax laws.

(3) Existing law requires the State Board of Equalization to administer various taxes and fees, including taxes with respect to cigarettes and tobacco products, alcoholic beverages, motor vehicle fuel, and diesel fuel, among others.

This bill would authorize persons designated by the Executive Director of the State Board of Equalization to exercise the arrest powers of a peace officer in the enforcement of the taxes and fees administered by the State Board of Equalization. This bill would repeal this authorization, effective January 1, 2010.

(4) Under existing law, states' attorneys general and various tobacco product manufacturers have entered into a Master Settlement Agreement (MSA), in settlement of various lawsuits, that provides for the allocation of money to the states and certain territories. The state has entered into a memorandum of understanding providing for the allocation of the state's share of moneys to be received under the MSA between the state and counties and certain cities in the state. Existing law requires any tobacco product manufacturer selling

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

cigarettes to consumers in California to place specified amounts into a qualified escrow fund by April 15 of each year.

This bill would make technical amendments to the provision of the MSA that governs the release of money placed in qualified escrow funds.

This bill would require the Attorney General to develop and post on the Attorney General's Internet Web site a list of tobacco product manufacturers that have provided current and accurate certifications in accordance with the requirements of the bill. This bill would require the Attorney General's Web site to also include all brand families, as defined, that have been listed in the certifications. The bill would prohibit any tax stamp or meter impression to be affixed unless the tobacco product manufacturer and brand family in question is included on the Attorney General's list. The bill would give the Attorney General and the board specified authority and duties in this regard. This bill would impose specified penalties, applicable to a tobacco product manufacturer or distributor, for failure to comply with the various provisions of the bill, including civil penalties. The bill would also make it a misdemeanor for a tobacco product manufacturer to make specified false representations, or for any person to (a) sell or otherwise distribute cigarettes in violation of the bill, or (b) acquire, hold, own, possess, transport, import, or cause cigarettes to be imported in violation of the bill, thus creating a state-mandated local program. The bill would deem it to be unfair competition for any person to affix any tax stamp or meter impression, or to pay any tax in violation of the requirements of the bill. The bill would provide for disgorgement of any profits, gains, gross receipts, or other benefits from a violation of the bill, as specified. The bill would require those moneys to be paid as restitution, with any residue to be paid into the Tobacco Control Special Fund created by the bill.

(5) Existing law requires that certain cigarette and tobacco products be forfeited to the state under specified circumstances, upon seizure by the board.

This bill would add to the forfeiture list cigarette and tobacco products to which cigarette tax stamps or meter impressions are affixed in violation of the specified prohibitions under the MSA.

(6) This bill would also establish procedures under the Cigarette and Tobacco Products Tax Law for imposing taxes on sellers of black-market cigarettes and tobacco products, and procedures for the seizure and sale of property secured by liens for delinquencies under the Cigarette and Tobacco Products Tax Law. This bill would repeal the provisions authorizing those procedures, effective January 1, 2010.

(7) This bill would provide that this act does not preempt or supersede any local tobacco control laws or ordinances other than those laws or ordinances that are related to the collection of the taxes imposed under the Cigarette and Tobacco Products Tax Law.

(8) This bill would provide that all revenues and expenses generated by this act with respect to the taxes imposed under the Cigarette and Tobacco Products Tax Law shall be allocated in the same manner as those revenues and expenses are allocated under the existing Cigarette and Tobacco Products Tax Law.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 891 (AB 264) Mullin. Surplus school property: use of proceeds.

(1) Existing law requires that the funds from the sale of surplus school real property be used for capital outlay or for costs of maintenance of prescribed school district property. Existing law permits a school district to deposit proceeds from a lease of school district property with an option to purchase in its general fund for use for any general fund purpose if approved by the State Allocation Board if certain conditions are met.

This bill would, notwithstanding contrary provisions of law, authorize a school district to deposit up to 25% of the proceeds of the sale of surplus school real property into the school

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

district general fund for use for any one-time expenditure of the school district, except for salaries and benefits, if prescribed conditions are met, and would preclude that transfer from disqualifying the school district for prescribed state facilities funding. The bill would define "sale," for this purpose, to include a lease of surplus property with an option to purchase and would require the State Allocation Board to review, and authorize the State Allocation Board to disapprove, the determination of the governing board of a school district that property is surplus property when any of the proceeds from the sale of that property are used for purposes other than capital outlay or maintenance costs.

This bill would repeal those provisions on January 1, 2005.

(2) Existing law authorizes a school district to apply for hardship state funding for the construction of school facilities under specified circumstances.

This bill would require the board to reduce an apportionment of hardship assistance awarded to a school district by an amount equal to the amount of any proceeds from the sale of surplus property used for a one-time expenditure by the district for 5 years following that expenditure.

Ch. 892 (AB 1137) Reyes. Charter schools.

(1) The Charter Schools Act of 1992 permits teachers, parents, pupils, and community members to petition the governing board of a school district to approve a charter school to operate independently from the existing school district structure as a method of accomplishing, among other things, improved pupil learning.

This bill would specify several oversight duties of each chartering authority with respect to charter schools under their authority. The bill would require each chartering authority to identify a contact person for each charter school, annually visit each charter school, ensure that each charter school complies with specified reporting requirements, adjust the amount that may be charged for related administrative costs, and establish policies and procedures to monitor the fiscal condition of each charter school. To the extent that the bill would impose new oversight duties on an authority that had granted a charter prior to the effective date of the bill, the bill would impose a state-mandated local program. The bill would additionally require each charter school to submit various budget reports to its chartering authority and the county superintendent of schools, unless the county board of education is the chartering authority.

The bill would require a charter school to meet at least one of several academic performance criteria as a prerequisite to receiving a charter renewal.

(2) Existing law specifies that a charter school is to be treated as a school district for purposes of the State School Fund, a continuously appropriated fund. These provisions become inoperative on July 1, 2004, and are repealed on January 1, 2005.

This bill would delete the July 1, 2004, inoperative date and the January 1, 2005, repeal date of those provisions, thereby extending the operation of those provisions indefinitely. The bill would, in addition, make conforming changes to other provisions.

By extending the operation of those provisions indefinitely, the bill would thereby make an appropriation.

(3) Existing law requires the Superintendent of Public Instruction to annually compute a categorical block grant amount for each charter school and includes specified categorical programs in the computation.

This bill would include in that list of categorical programs other specified programs, including, but not limited to, the Instructional Time and Staff Development Reform Program and the Instructional Materials Funding Realignment Program. The bill would, in addition, authorize the transfer of certain unobligated funds to that categorical block grant during years in which a deficiency exists in the categorical block grant.

(4) Existing law establishes the Instructional Time and Staff Development Reform Program for the purpose of providing grants to school districts, county offices of education, and charter schools, to enhance staff development opportunities for classroom personnel.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would repeal these provisions to the extent they apply to charter schools, and would make conforming changes to related provisions of law. The bill would authorize the allowance to be used for training designed to improve intolerance and hatred prevention.

(5) Existing law establishes the State Instructional Materials Fund in the State Treasury as a means of annually funding the acquisition of instructional materials. Existing law authorizes a charter school to apply for those funds on its own behalf or through its chartering entity.

This bill would delete that latter provision.

(6) Existing law establishes the Instructional Materials Funding Realignment Program to provide funding for instructional materials to a school district, which is defined to include charter schools, on the basis of an equal amount per pupil enrolled in public elementary and high schools, as specified.

This bill would repeal these provisions to the extent they apply to charter schools.

(7) Existing law provides that a charter school may elect to operate as, or be operated by, a nonprofit public benefit corporation, as defined, and declares the intent of the Legislature that the chartering authority that grants that charter is not liable for the debts or obligations of the charter school.

This bill would, instead, require that chartering authority to comply with specified oversight responsibilities to be shielded from that liability.

(8) This bill would incorporate additional changes in Section 60242 of the Education Code proposed by SB 469 that would become operative only if SB 469 and this bill are both chaptered and become effective January 1, 2004, and this bill is chaptered last.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 893 (AB 1337) Daucher. Special education.

Existing law provides procedural safeguards, including due process hearings, for the resolution of complaints regarding alleged violations of the law relative to special education. Existing law provides that a hearing officer may not render a decision that results in the placement of an individual with exceptional needs in a nonpublic, nonsectarian school, or in a service for an individual with exceptional needs provided by a nonpublic agency, if the school or agency has not been certified. Existing law requires a hearing officer to consider certain provisions of law relating to nonpublic, nonsectarian schools and agencies, including those relating to certification, during a due process hearing concerning an issue of placement of an individual with exceptional needs in a nonpublic, nonsectarian school or services for an individual with exceptional needs provided by a nonpublic, nonsectarian agency.

This bill would prohibit a hearing officer from rendering a decision that results in the placement or reimbursement for the placement of an individual with exceptional needs in a nonpublic, nonsectarian school, or in a service or reimbursement for a service for an individual with exceptional needs provided by a nonpublic, nonsectarian agency, unless the hearing officer issues a written finding with respect to the school district's program or program offer compliance with the law, as specified.

Ch. 894 (AB 1685) Leno. Energy: self-generation incentive program: peak reduction.

Existing law requires the Public Utilities Commission on or before March 7, 2001, and in consultation with the Independent System Operator, to take certain actions, including, in

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

consultation with the State Energy Resources Conservation and Development Commission (Energy Commission), adopting energy conservation demand-side management and other initiatives in order to reduce demand for electricity and reduce load during peak demand periods, including, but not limited to, differential incentives for renewable or superclean distributed generation resources. Pursuant to this requirement, the commission has developed a Self Generation Incentive Program to encourage customers of electrical corporations to install distributed generation that operates on renewable fuel or contributes to system reliability. Existing law defines "ultra-clean and low-emission distributed generation" as an electric generation technology that produces zero emissions during operation or that produces emissions that are equal to or less than limits established by the State Air Resources Board, if the electric generation technology commences operation between January 1, 2003, and December 31, 2005.

This bill would require the commission, in consultation with the Energy Commission, to administer, until January 1, 2008, a self-generation incentive program for distributed generation resources in the same form that exists on January 1, 2004, but would require that combustion-operated distributed generation projects using fossil fuels commencing January 1, 2005, meet a NO_x emission standard, and commencing January 1, 2007, meet a more stringent NOx emission standard and a minimum efficiency standard, to be eligible for incentive rebates under the program. The bill would establish a credit for combined heat and power units that meet a certain efficiency standard.

The bill would revise the definition of an ultra-clean and low-emission distributed generation to include electric generation technologies that commence operation between January 1, 2003, and December 31, 2008.

Ch. 895 (SB 24) Figueroa. Health care: accelerated enrollment.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which medical benefits are provided to public assistance recipients and certain other low-income persons.

Existing law requires the department to adopt a federal medicaid option to extend eligibility for Medi-Cal benefits to certain pregnant women.

Existing law establishes the Access for Infants and Mothers (AIM) program, administered by the Managed Risk Medical Insurance Board, to provide health insurance coverage for certain eligible persons who pay a subscriber contribution.

This bill would require that the form used to implement the above-described medicaid option also qualify as a simplified application for the Medi-Cal program for those pregnant women or, if necessary to ensure federal financial participation, that the form be modified to add only those elements required for federal financial participation. The bill would require, for purposes of this provision, the department to determine whether to grant eligibility for temporary benefits under the medicaid option, the county to make the final eligibility determination for the Medi-Cal program, the department to develop and adopt a process for transferring the application to the county, and, based on the department's instructions, the county to determine if followup is necessary to determine the woman's final eligibility for the Medi-Cal program or to refer the woman to the AIM program.

The bill would require the department to adopt an electronic enrollment process, that would be known as the Prenatal Gateway, for pregnant women to use when applying for Medi-Cal from a provider's office, if sufficient funding is obtained and sufficient new staff is available, as specified.

By modifying the Medi-Cal eligibility determination process, this bill would increase the responsibilities of counties in the administration of the Medi-Cal program, thereby imposing a state-mandated local program.

The bill would require the department to adopt an electronic process, to be known as the Newborn Hospital Gateway, for families to enroll a deemed eligible newborn in the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

Medi-Cal program from hospitals that have elected to participate in the process, if sufficient funding is obtained and sufficient new staff is available, as specified.

This bill would establish the Gateway Fund in the State Treasury, to be composed of 3 accounts, as prescribed, the moneys in which may be expended, upon appropriation by the Legislature, for purposes of the bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 896 (SB 81) Alpert. Teacher training: integrated programs.

Existing law prescribes requirements for persons applying for teaching credentials, and establishes, under the administration of the Commission on Teacher Credentialing, a system for the accreditation of educator preparation programs. Existing law requires the commission to encourage postsecondary institutions to offer integrated programs of professional preparation that, among other things, enable candidates for teaching credentials to engage in professional preparation, concurrently with subject matter preparation, while completing baccalaureate degrees.

This bill would require that an integrated program be designed to concurrently lead to a preliminary multiple subject or single subject teaching credential and a baccalaureate degree.

This bill would require the Chancellor of the California State University to develop a framework defining appropriate balance for an integrated program of general education, subject matter preparation, and professional education courses. The bill would require the Chancellor of the California State University and the Chancellor of the California Community Colleges to develop guidelines to ensure that the lower division coursework completed by community college students in an integrated program is articulated with, and accepted as equivalent to, coursework offered to California State University students who are enrolled in that integrated program. Commencing with the 2005–06 school year, the bill would require each campus of the California State University to invite the community colleges in its region that send significant numbers of transfer students to that campus to enter into articulation agreements with respect to these integrated programs.

The bill would require the Chancellor of the California State University to review the implementation of this bill, and report his or her findings and recommendations to the Legislature no later than November 30, 2006.

Ch. 897 (SB 274) Soto. County employees retirement: deferred retirement option program.

The County Employees Retirement Law of 1937 prescribes retirement benefits for members of specified county and district retirement systems.

This bill would establish the Deferred Retirement Option Program as an optional benefit program for specified safety members of those systems that, by ordinance or resolution by the county board of supervisors or the governing body, elect to adopt it. The program would provide eligible members access, upon service retirement, to a lump sum or, in some cases, monthly payments in addition to a monthly retirement allowance, as specified. The bill would require implementation of the program by any system to be subject to an actuarial analysis that the program would be cost neutral and to be agreed to pursuant to a collective bargaining agreement, as specified. The bill would also require an actuarial review of the cost neutrality and possible termination or modification of the program after a specified period.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 898 (SB 469) Scott. Instructional materials.

Existing law establishes the Instructional Materials Funding Realignment Program to provide funding for instructional materials to school districts on the basis of an equal amount per pupil enrolled in public elementary and high schools. Existing law provides that if any funds received pursuant to the program remain after providing each pupil with a standards-aligned textbook or basic instructional materials in core curriculum areas, and if the local governing board has met certain eligibility requirements, the remaining funds may only be used for certain purposes related to instructional materials.

This bill would authorize a school district to use its allowance from the fund to purchase adopted instructional materials for the visual and performing arts, foreign language, health, or any other curricular area if it certifies that it has provided each pupil with a standards-aligned textbook or basic instructional materials in reading/language arts, mathematics, history/social science, and science.

This bill would incorporate additional changes in Section 60242 of the Education Code proposed by AB 1137, that would become operative only if AB 1137 and this bill are both chaptered and become effective January 1, 2004, and this bill is chaptered last.

Ch. 899 (SB 686) Ortiz. Long-term care facilities: insurance: Medi-Cal reimbursement.

Existing law provides for the licensure and regulation of health facilities, including long-term health care facilities, by the State Department of Health Services.

Existing law provides for the licensing and regulation of residential care facilities for the elderly by the State Department of Social Services.

Existing law requires an insurer to notify the Department of Insurance at least 60 days prior to the date it intends to withdraw wholly or substantially from a line of commercial liability insurance.

This bill would require an insurer issuing policies of liability insurance to long-term health care facilities, residential care facilities for the elderly, or physicians who provide or oversee the provision of medical services to residents in long-term health care facilities or residential care facilities for the elderly, to notify the Department of Insurance at least 90 days prior to the date it intends to cease, withdraw, or substantially withdraw from offering liability policies to those facilities.

The bill would require each insurer writing liability insurance for long-term health care facilities, residential care facilities for the elderly, or physicians who provide or oversee the provision of medical services to residents in long-term health care facilities or residential care facilities for the elderly, by a date set by the Insurance Commissioner, but in any event no later than July 1 of each calendar year, to report to the Insurance Commissioner specified information regarding policies for those facilities. This bill would establish priorities for the department and the Insurance Commissioner concerning the collection of information reported by the insurers.

This bill would also make the above information collected by the department subject to specified disclosure protections.

Existing law generally regulates the insurance industry.

This bill would allow the Insurance Commissioner to authorize the formation of a market assistance program or a risk pooling arrangement, as specified, to assist in securing liability insurance for long-term health care facilities, residential care facilities for the elderly, or physicians who provide or oversee the provision of medical services to residents in long-term health care facilities or residential care facilities for the elderly if the Insurance Commissioner finds, after a public hearing, that the liability insurance is not readily available in the voluntary insurance market and that the public interest requires its availability.

The bill would also allow the Insurance Commissioner to order the creation of an unincorporated, not-for-profit, temporary joint underwriting association for liability

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

insurance, for the purpose of providing, for a specified period, a market for liability insurance on a self-supporting basis, without subsidy from association members.

This bill would authorize the commissioner to develop appropriate standards and regulations to implement the market assistance program, risk pooling arrangement, or joint underwriting association.

This bill would provide that the above provisions shall only be implemented if funds for their purposes are available in the Insurance Fund.

Existing law also provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

Existing law requires the department to implement, for purposes of reimbursement under the Medi-Cal program, a facility-specific ratesetting system by August 1, 2005, subject to federal approval, that reflects the costs and staffing levels associated with quality of care for residents in nursing facilities.

This bill would instead require the department to implement the system by August 1, 2004, and would, in addition, make implementation subject to the availability of federal or other funds.

Ch. 900 (SB 810) Burton. Natural resources: timber harvesting.

(1) Existing law exempts timber operations from specified waste discharge requirements if the federal Environmental Protection Agency certifies that provisions of the Z'berg-Nejedly Forest Practice Act of 1973 constitute the best management practices for silviculture pursuant to the Federal Water Pollution Control Act.

This bill would require both the federal Environmental Protection Agency and the State Water Resources Control Board to make that certification after January 1, 2003.

(2) The Forest Practice Act prohibits a person from conducting timber operations unless a timber harvesting plan prepared by a registered professional forester has been submitted to the Department of Forestry and Fire Protection. The Forest Practice Act provides that the Director of Forestry and Fire Protection has the final authority to determine whether a timber harvesting plan conforms with rules and regulations pertaining to timber harvesting.

This bill would provide that the director's authority is for purposes of approval by the department.

(3) This bill would prohibit a timber harvesting plan from being approved if the appropriate regional water quality control board finds, based on substantial evidence, that the proposed timber operations will result in a discharge into a watercourse that has been classified as impaired due to sediment, that causes or contributes to a violation of the regional water quality control plan. This bill would provide that a regional water quality control board may delegate that authority to the board's executive officer as long as the executive officer's determination is subject to review by the board upon request of the person that has submitted the timber harvesting plan or upon motion of the board.

(4) Existing law provides that rules adopted by the State Board of Forestry and Fire Protection shall be the only criteria employed by the director when he or she reviews timber harvesting plans, as specified.

This bill would require that the provisions of the Forest Practice Act also apply to that review.

(5) This bill would provide that the Legislature intends that the relevant policy committees of Legislature, with the assistance of appropriate state agencies, should assess the impact of the bill, as specified, after it has been implemented for a specified period of time.

Ch. 901 (AB 679) Chavez. Real estate.

Existing law, the Real Estate Law, requires the licensure of a person by the Real Estate Commissioner to engage in the business of, act in the capacity of, or advertise or assume to act as, a real estate broker or a real estate salesman within this state. Existing law requires a

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

real estate broker to file certain information with the commissioner relative to the conducting of a transaction that involves the sale of or offer to sell a series of notes secured directly by an interest in real property, or the sale of undivided interests in a note secured directly by real property equivalent to a series transaction, otherwise known as a multilender transaction, as specified. Existing law prohibits the aggregate principal amount of the notes or interests sold, together with the unpaid principal amount of any encumbrances upon real property senior to them, from exceeding certain percentages of the current market value of the real property. Existing law authorizes the percentages to be exceeded if a broker makes a specified determination and a written statement or appraisal establishing the determination is made. A violation of the Real Estate Law is a crime.

This bill would revise these provisions to make them applicable to transactions involving the sale or offer to sell a series of notes secured directly by interests in one or more parcels of real property or the sale of undivided interests in a note secured directly by one or more parcels of real property. The bill would prohibit the amount of those notes or interests and encumbrances from exceeding certain percentages of the current market value for each parcel of real property if the notes or interests are secured by more than one parcel of real property. The bill would require the written statement or appraisal delivered to each purchaser to include each parcel of real property securing the notes or interests. The bill would also define the term "current market value" for purposes of construction or rehabilitation loans as the value of the completed project if certain conditions are met.

Because a violation of the bill's provisions would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 902 (AB 620) Leno. Real estate.

Existing law, the Real Estate Law, requires the licensure of a person by the Real Estate Commissioner to engage in the business of, act in the capacity of, or advertise or assume to act as, a real estate broker or a real estate salesman within this state. Existing law requires a real estate broker to file certain information with the commissioner relative to the conducting of a transaction that involves the sale of or offer to sell a series of notes secured directly by an interest in real property, or the sale of undivided interests in a note secured directly by real property equivalent to a series transaction, otherwise known as a multilender transaction, as specified. Existing law prohibits the aggregate principal amount of the notes or interests sold, together with the unpaid principal amount of any encumbrances upon real property senior to them, from exceeding certain percentages of the current market value of the real property.

This bill would revise the provisions pertaining to a multilender transaction. The bill would also define the term "current market value" for purposes of construction or rehabilitation loans as the value of the completed project if certain conditions are met.

Ch. 903 (SB 582) Speier. Ephedrine group alkaloids.

The Sherman Food, Drug, and Cosmetic Law contains various provisions regarding the packaging, labeling, and advertising of food, drugs, and cosmetics. Violation of any of these provisions is a crime. The act prohibits the sale of dietary supplements containing ephedrine group alkaloids or steroid hormone precursors unless the product label of these products includes specified information. Existing law makes it a misdemeanor for any manufacturer, wholesaler, retailer, or other person to sell, transfer, or otherwise furnish a dietary supplement containing ephedrine group alkaloids or steroid hormone precursors to a person under 18 years of age.

This bill would prohibit the sale or distribution of any dietary supplement product containing ephedrine group alkaloids, notwithstanding the provisions of existing law

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

described above relating to the sale and distribution of these supplements. Because the bill would create a new crime, it would impose a state-mandated local program.

This bill would provide that its provisions do not apply in specified circumstances.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 904 (AB 1631) Salinas. School facilities funding: replacement buildings.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to provide a supplemental grant for 50% of the replacement cost of a single-story building if a school district proposes to demolish the building and replace it with a multistory building on the same site, if certain conditions are met, including, but not limited to, a condition that the school is operating on a multitrack year-round education schedule.

This bill would delete the condition relating to a school operating on a multitrack year-round education schedule from the requirements to qualify for the supplemental grant and would provide a method for estimating site acquisition costs savings.

Ch. 905 (SB 868) Dunn. Prevailing wages.

Existing law governing the obligations of contractors and subcontractors involved in public works projects requires that employees be paid the general prevailing rate of per diem wages. Existing law also provides that per diem wages include employer payments for health and welfare, pension, vacation, travel, and subsistence pay, apprenticeship or other training programs, and similar purposes, and specifies the employer contributions, costs, and payments that employer payments may include. That law prohibits credit from being granted for benefits required to be provided by other state or federal law, and provides that credits for employer payments may not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing.

This bill would provide that per diem wages shall additionally be deemed to include worker protection and assistance programs or committees, and industry advancement and collective bargaining agreements administrative fees, as provided.

Ch. 906 (SB 796) Dunn. Employment.

Under existing law, the Labor and Workforce Development Agency and its departments, divisions, commissions, boards, agencies, or employees may assess and collect penalties for violations of the Labor Code.

This bill would allow aggrieved employees to bring civil actions to recover these penalties, if the agency or its departments, divisions, commissions, boards, agencies, or employees do not do so. The penalties collected in these actions would be distributed 50% to the General Fund, 25% to the agency for education, to be available for expenditure upon appropriation by the Legislature, and 25% to the aggrieved employee, except that if the person does not employ one or more persons, the penalties would be distributed 50% to the General Fund and 50% to the agency. In addition, the aggrieved employee would be authorized to recover attorney's fees and costs and, in some cases, penalties. For any violation of the code for which no civil penalty is otherwise established, the bill would establish a civil penalty, but no penalty is established for any failure to act by the Labor and Workplace Development Agency, or any of its departments, divisions, commissions, boards, agencies, or employees.

Existing law provides an exclusive remedy under workers' compensation for an employer's liability for compensation for an employee's injury or death arising in the course of employment.

This bill would not affect that exclusive remedy.

Ch. 907 (SB 25) Bowen. Personal information: security.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) Existing law authorizes a consumer to place a security alert in his or her credit report, as specified, and sets forth the duties of a consumer credit reporting agency with regard to a security alert. Existing law requires a consumer credit reporting agency to provide specified disclosures of a consumer's rights in connection with consumer credit reporting.

This bill would, operative July 1, 2004, further provide that any person who uses a consumer credit report in connection with the approval of credit, as specified, may not lend money, extend credit, or complete the purchase, lease, or rental of goods or non-credit-related services without taking reasonable steps to verify the consumer's identity, in order to ensure that the application for an extension of credit or for the purchase, lease, or rental of goods or non-credit-related services is not the result of identity theft.

The bill would also specify that if a consumer has placed a statement with the security alert in his or her file requesting that identity be verified by calling a specified telephone number, any person who receives that statement with the security alert in a consumer's file must take reasonable steps to verify his or her identity by contacting the consumer using the specified telephone number prior to lending money, extending credit, or completing the purchase, lease, or rental of goods or non-credit-related services, with certain exceptions.

The bill would also revise the disclosures that a consumer credit reporting agency is required to give a consumer.

(2) Existing law exempts specified demand deposit account information services companies from the requirement for placing a security alert or security freeze in a credit report.

This bill would revise that provision to apply to deposit account information services companies, and would make conforming changes.

(3) Existing law authorizes a financial institution to print the social security number of an individual or account documents, as specified, but only prior to July 1, 2003.

This bill would extend that deadline until July 1, 2004.

(4) Existing law prohibits a person or entity, but not a state or local agency, from publicly posting or displaying an individual's social security number or doing certain other acts that might compromise the security of an individual's social security number on or after July 1, 2002, except as specified.

This bill would extend these requirements to state and local agencies, subject to specified exceptions. This bill would also provide that a person or entity may not encode or embed a social security number in or on a card or document, including using a bar code, chip, magnetic strip, or other technology, in place of removing the social security number.

(5) This bill would incorporate further changes to Sections 1785.11.1 and 1798.85 of the Civil Code proposed by SB 602 and AB 763, respectively, contingent upon their prior enactment.

Ch. 908 (SB 179) Alarcon. Contracts for labor or services.

Existing law imposes various requirements on individuals contracting for labor or services with construction, farm labor, garment, janitorial, or security guard contractors.

This bill would provide that any person or entity who enters into a labor contract for construction, farm labor, garment, janitorial, or security guard services when the person or entity knows or should know that the contract does not provide funds sufficient to allow the labor contractor to comply with all applicable laws or regulations governing the labor or services to be provided under the contract, is subject to liability and specified civil penalties.

The bill would establish a rebuttable presumption that a person or entity entering into such a contract for labor or services does not violate the bill's provisions if the labor contract or material change to the labor contract meets specified requirements. The bill would not apply to persons or entities who have executed certain collective bargaining agreements, or to labor or services to be performed on a person's home residence or residences, under specified conditions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 909 (SB 892) Murray. School restrooms.

Existing law exempts public and private schools from provisions relating to the sufficiency of public facility restrooms, and provides for the maintenance and repair of public school facilities by school districts.

This bill would, with certain exceptions, require every public and private school to have restroom facilities that are open as prescribed during school hours, and at all times to keep every restroom maintained and cleaned regularly, fully operational, and stocked with soap and paper supplies.

This bill would make a school district ineligible for prescribed state school facilities deferred maintenance matching funding if, after a 30-day notice period and a reasonable opportunity to cure the violation, a public school it operates remains in violation of this bill.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF STATUTES ENACTED IN 2003

2003–04 FIRST EXTRAORDINARY SESSION

BILL CHAPTERS

Ch. 1 (AB 10) Oropeza. Resources.

(1) Existing law designates air pollution control districts and air quality management districts as having the primary responsibility for the control of air pollution from all sources other than vehicular sources. Existing law authorizes each district to establish a permit system that requires, except as specified, that before any person builds, erects, alters, replaces, operates, or uses any article, machine, equipment, or other contrivance that may cause the issuance of air contaminants, the person obtain a permit from the air pollution control officer of the district. Existing law also authorizes each district board to adopt, by regulation, a schedule of annual fees for the evaluation, issuance, and renewal of those permits. Existing law authorizes the State Air Resources Board to require districts to impose additional permit fees on nonvehicular sources within their jurisdiction for the purposes of recovering costs of additional state programs related to those sources. Existing law requires that priority for expenditure of those permit fees be given to specified activities relating to air pollution from nonvehicular sources, and requires that those permit fees be collected from nonvehicular sources that are authorized by district permits to emit 500 tons or more per year of any nonattainment pollutant or its precursors. Existing law also limits the total amount of funds collected by those permit fees, exclusive of district administrative costs, to $3,000,000 in any fiscal year.

This bill would authorize the state board to impose additional permit fees directly on nonvehicular sources within a district's jurisdiction. The bill would also authorize the state board to require a district to collect those fees, to establish a system for direct collection of those fees by the state board, and to contract with any other state agency for the collection of those fees. The bill would lower the threshold emission level for the imposition of the permit fees on nonvehicular sources by requiring those fees to be collected from nonvehicular sources that are authorized by the district to emit 250 tons or more per year of any nonattainment pollutant or its precursors. The bill would increase the limit on the total amount of funds that may be collected by the districts in permit fees to $13,000,000 and would authorize the state board to increase that limitation by an amount not to exceed the annual percentage change in the California Consumer Price Index as compiled and reported by the Department of Industrial Relations. The additional duties for districts under this bill would impose a state-mandated local program.

(2) Existing law requires the state board to adopt regulations to achieve the maximum feasible reduction in volatile organic compounds emitted by consumer products, as defined, if the state board determines that the regulations are necessary to attain state and federal air quality standards, and that the regulations are commercially and technologically feasible and necessary. Existing law also requires the state board, on or before January 1 of each year, to report to the Governor and the Legislature on the expenditure of permit fees collected from nonvehicular sources.

This bill would require the state board to impose a fee for any consumer product and any architectural coating sold in the state, if a manufacturer's total sales of consumer products or architectural coatings will result in the emission in the state of 250 tons per year or greater of volatile organic compounds. The bill would require revenues collected from the imposition of the fee to be used to mitigate or reduce air pollution in the state created by consumer products and architectural coatings, as determined by the state board, and that the revenues be expended solely for those programs. The bill would require that the fees be transmitted to the Controller for deposit in the Air Pollution Control Fund, after deducting the administrative cost of collecting the fees. The bill would require the state board to include a report on the expenditure of permit fees collected from consumer products and architectural coatings in its report to the Governor and the Legislature on the expenditure of the permit fees collected from nonvehicular sources.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(3) Existing law makes a violation of any rule, regulation, permit, or order of the state board or of a district a misdemeanor. By expanding the scope of a crime, this bill would impose a state-mandated local program.

(4) The Porter-Cologne Water Quality Control Act, with certain exceptions, imposes on a person for whom waste discharge requirements have been prescribed, an annual fee established by the State Water Resources Control Board, not to exceed $20,000, but subject to an annual adjustment, on the basis of total flow, volume, number of animals, threat to water quality, and area involved. Under the act, the fees are deposited in the Waste Discharge Permit Fund, which is expended, upon appropriation, for the purposes of carrying out the act. The act requires all or part of the fees to be refunded if waste discharge requirements are waived. The act makes a person failing to pay a waste discharge fee, if requested to do so by a California regional water quality control board, guilty of a misdemeanor.

This bill, instead, would require each person who is required to file a waste discharge report to submit an annual fee according to a fee schedule established by the state board. The bill would require the total amount of annual fees to equal that amount necessary to recover costs incurred in connection with the issuance, administration, reviewing, monitoring, and enforcement of waste discharge requirements and waivers of waste discharge requirements. The bill would require each person that discharges waste in a manner regulated by the provisions of law that require filing of a waste discharge report to pay an annual fee to the state board, and would require the state board to establish a timetable by regulation, for the payment of the annual fee. The bill would require all or part of the annual fees to be refunded if the state board or a regional board determines that the discharge will not affect, or have the potential to affect, the quality of the waters of the state. The bill would delete a provision that exempts certain facilities for confined animal feeding and holding operations from the annual fee requirement. Because failure to pay the annual fee under certain circumstances is a crime, this bill would impose a state-mandated local program by expanding the scope of that crime. The bill would require the state board, in establishing the amount of the fee that may be imposed on confined animal feeding and holding operations, to consider factors relating to the size of the operation, the type and amount of discharge, the pricing mechanism of the commodities produced, the existing regulation of the operation, and whether the operation participates in a quality assurance program.

The bill would require the state board to establish a fee in an amount sufficient to recover its costs in reviewing, processing, and enforcing ''no exposure'' certifications issued to facilities that apply for those certifications in accordance with a general industrial stormwater permit. The bill would require revenue generated pursuant to this provision to be deposited in the Waste Discharge Permit Fund.

The bill would require the state board, on or before January 1 of each year, to report to the Governor and the Legislature on the expenditure of the annual fees on waste discharges.

(5) The bill would provide that the Legislature shall appropriate, on or before June 30, 2006, $58,104,000 from the General Fund to the Department of Water Resources for allocation to certain local entities to pay the state's share of certain nonfederal costs of flood control projects that have been adopted and authorized.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 2 (AB 11) Oropeza. Reductions in the Budget Act of 2002 relating to state government.

(1) Existing law provides that moneys in the State Treasury may be loaned from one state fund or account to any other state fund or account to address the 2002–03 fiscal year budget shortfall.

This bill would provide that, in addition, moneys in the State Treasury may be loaned from one state fund or account to any other state fund or account to address the 2001–02 and 2003–04 fiscal year budget shortfalls.

(2) Existing law provides that these loans must be authorized by the 2002 Budget Act.

This bill would provide, in addition, that these loans may be authorized by legislation enacted in a 2003–04 Extraordinary Session, or in the 2003 Budget Act.

(3) The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state in the amount of 2% of the market value of that vehicle, as specified. Notwithstanding those provisions, the Vehicle License Fee Law provides for a vehicle license fee offset of 67.5%, and for vehicle license fees with a due date prior to July 1, 2001, requires a portion of that offset to be paid in the form of a rebate. Existing law provides, for the 2000–01 and 2001–02 fiscal years, that the rebate portion of this offset be paid from moneys in the Special Reserve Fund for Vehicle License Fee Tax Relief.

This bill would abolish the Special Reserve Fund for Vehicle License Fee Tax Relief. This bill would also transfer any remaining moneys in the fund to the General Fund, from which would be paid the rebate portion of the offsets applied against vehicle license fees due before July 1, 2001. This bill would also make an appropriation by providing that, if these transferred moneys are not sufficient for this purpose, then any remaining offsets would be paid from the General Fund.

(4) Existing law requires certain periodic payments for long-term rentals (12 months or more), lease purchase financing, long-term leases, lease-to-own payments, vendor financing, and other financing and lease obligations.

This bill would appropriate the amounts necessary to make these periodic payments and payments on remaining unavoidable state obligations related to the elimination of programs for state departments whose appropriation authority has been reduced or eliminated due to budgetary reductions.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 3 (SB 19) Chesbro. Reductions in the Budget Act of 2002 relating to state and local government.

The Budget Act of 2002 (Chapter 379 of the Statutes of 2002), makes appropriations for the support of state government during the 2002–03 fiscal year.

This bill would amend the Budget Act of 2002 by revising various items of appropriations, as specified, and authorizing the Director of Finance to revert additional amounts from specified funds to the General Fund.

The bill would state that it is to take effect immediately as an urgency statute.

Ch. 4 (SB 18) Chesbro. Education finance.

(1) Existing law requires the State Board of Education to adopt standards and criteria to be used by local educational agencies in the development of annual budgets and the management of subsequent expenditures from that budget. Existing law requires those standards and criteria to include comparisons and reviews of reserves and fund balances.

This bill would, notwithstanding any law, authorize a local educational agency to count any amount of state funding deferred from the current fiscal year and appropriated from a subsequent fiscal year for payment of current year costs as a receivable in the current year. The bill would, notwithstanding any law and for the 2002–03 fiscal year only, authorize a local educational agency to use for purposes determined by its governing body up to 50%

NOTE: Superior numbers appear as a separate section at the end of the digests.

of its reserves for economic uncertainties and up to 50% of the balances, as of July 1, 2002, of restricted accounts in its General Fund, excluding restricted reserves committed for capital outlay, bond funds, sinking funds, and federal funds. The bill would state the intent of the Legislature that local educational agencies use this flexibility for certain purposes and make every effort to maintain a prudent expenditure plan that ensures solvency for the 2002–03 fiscal year and in subsequent fiscal years.

(2) Existing law requires the Superintendent of Public Instruction to make the second principal apportionment on or before June 25th of each year.

This bill would instead require this apportionment to be made on or before July 2. The bill would make conforming and technical changes in this regard.

(3) Existing law requires a local governing board of a school district that receives funding pursuant to the Instructional Materials Funding Realignment Program to provide a pupil with standards-aligned instructional materials, as adopted by the State Board of Education, pursuant to a specified provision, subsequent to the adoption of content standards for kindergarten and grades 1 to 8, inclusive.

This bill would provide that for the 2002–03 and 2003–04 fiscal years only, that requirement may be satisfied if the governing board of a school district provides a pupil with standards-aligned instructional materials that were adopted by the State Board of Education pursuant to a repealed provision of the Education Code.

(4) Existing law establishes the Governor's Scholars Program under which a pupil may receive a scholarship for attaining a high score, as specified, on the reading and mathematics portions of the statewide achievement test. Existing law also establishes the Governor's Distinguished Mathematics and Science Scholars Program under which a pupil may receive a scholarship for demonstrating specified high academic achievement in mathematics and science. The Scholarshare Investment Board administers both programs and is required to deposit the awards earned by pupils into a specified account within the Golden State Scholarshare Trust.

This bill would change the manner in which those awards would be required to be deposited into the account.

(5) The Budget Act of 2001 appropriated $2,124,000 to the State Department of Education for capital outlay for the California School for the Deaf.

This bill would revert those funds to the General Fund and, instead, would appropriate $2,144,000 in the Budget Act of 2002 from the Public Buildings Construction Fund to the State Department of Education for capital outlay for that school.

(6) Existing law states the intent of the Legislature that education programs with voluntary participation be funded at statutorily authorized levels and requires the Controller, upon approval of the Director of Finance to transfer unobligated funds between specified voluntary participation programs to the extent needed to fully fund eligible participation and gives first priority for the allocation of savings to the CalSAFE program.

This bill would, notwithstanding the above, require the Controller, upon request of the Superintendent of Public Instruction and approval of the Director of Finance, to transfer unencumbered funds between any of specified remedial supplemental instruction programs for the purpose of ensuring that supplemental instruction and remedial programs are funded at statutorily authorized levels. By authorizing this transfer, the bill would make an appropriation.

(7) Existing law requires the State Allocation Board to apportion funds from the State School Deferred Maintenance Fund to school districts based on a local one-to-one match up to a maximum amount based in part on the district's total expenditures and certain ending fund balances, excluding amounts expended for capital outlay or debt service.

This bill would waive the local match requirement for the 2002–03 fiscal year.

(8) Existing law appropriates $145,775,000 from the General Fund for transfer to the Instructional Materials Fund for one-time instructional materials grants to school districts.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require schools receiving these grants to give first priority to the purchase of standards-aligned English language arts reading materials for English learners and standards-aligned reading intervention materials for pupils in grades 4 to 8, inclusive.

(9) Existing law, the Budget Act of 2002, makes various appropriations for purposes of the public education.

This bill reverts specified appropriations made in that Budget Act to the General Fund, thereby reducing those appropriations.

(10) Existing law, including the Budget Acts of 2000 and 2001, makes various appropriations for purposes of public education.

This bill would revert specified appropriations to the Proposition 98 Reversion Account in the General Fund.

(11) This bill would reappropriate $491,926,000 from the Proposition 98 Reversion Account in the General Fund, $356,810,000 of which would be for purposes of regional occupational centers and programs and $135,116,000 of which would be for adult education. These funds would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

This bill would fund CalWORKs Stage 3 child care by reappropriating specified federal funds, appropriating other specified federal funds, and requiring the use of specified federal funds appropriated for another purpose.

(12) Existing law establishes the various segments of the public higher education system in the state. These segments include the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges.

The Budget Act of 2002 makes numerous appropriations for the support of the various components of the public higher education system in the state.

This bill would reduce a variety of higher education appropriations that were made in the Budget Act of 2002, and would revert the amounts of these reductions to the General Fund. The bill would also make various related mechanical and conforming changes, including the appropriation of funds for community college apportionments in the 2003–04 fiscal year to replace funds previously appropriated for the 2002–03 fiscal year that are reverted by this bill.

This bill would require that the appropriation be included in the amounts appropriated by the state in the 2003–04 fiscal year for purposes of meeting the state's minimum funding obligation to school districts and community college districts under Section 8 of Article XVI of the California Constitution for that fiscal year.

(13) This bill would appropriate $370,263,000 from the General Fund to the State Department of Education for the 2003–04 fiscal year in accordance with a specified schedule. This appropriation would be applied toward the 2003–04 fiscal year minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(14) Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges, and establishes community college districts that provide instruction at campuses throughout the state. Under existing law, community college districts receive part of their operating revenues from property tax receipts. The existing Partnership for Excellence Program is established under the administration of the Board of Governors of the California Community Colleges for the purpose of achieving annual performance goals and improving student learning and success. The Budget Act of 2002 appropriated $300,000,000 from the General Fund for allocation by the board of governors for the Partnership for Excellence Program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require the Director of Finance, in consultation with the Chancellor of the California Community Colleges, to determine, not later than May 15, 2003, the amount of the property tax shortfall, as defined, for the California Community Colleges for the 2002–03 fiscal year. If the amount of the property tax shortfall, as determined pursuant to the bill, is less than $38,000,000, the bill would authorize the Director of Finance to reduce the amount appropriated for the Partnership for Excellence Program in the Budget Act of 2002 by an amount not to exceed the difference between $38,000,000 and the amount of the property tax shortfall determined pursuant to the bill.

(15) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 5 (SB 13) Committee on Budget and Fiscal Review. Department of Corrections: correctional peace officer training.

Existing law requires the Department of Corrections and the Department of the Youth Authority to provide 16 weeks of training to each correctional peace officer cadet. This training is required to be completed by the cadet prior to his or her assignment to a post or position as a correctional peace officer.

This bill would instead provide that if an agreement is reached between the Department of Corrections and the bargaining unit for the correctional peace officers with the approval of the Commission on Correctional Peace Officer Standards and Training on how to implement the on-the-job training requirements of the bill, the training by the Department of Corrections would be 12 weeks of the training at the department's training academy and 4 weeks at the institution where the cadet is assigned to a post or position. This bill would also provide that cadets would be sworn in as correctional peace officers upon the completion of the initial 12 weeks of training.

Ch. 6 (SB 20) Committee on Budget and Fiscal Review. Teachers' Retirement System: Supplemental Benefit Maintenance Account.

Under the Teachers' Retirement Law, a continuous appropriation equal to 2.5% of total creditable compensation, as specified, is made from the General Fund for transfer to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund to fund purchase power protection payments to retired members of the Defined Benefit Program of the State Teachers' Retirement System.

This bill would decrease that appropriation by $500,000,000 for the 2003–04 fiscal year. The bill would require the Teachers' Retirement Board, beginning in 2006 and every 4 years thereafter, to report to the Legislature and the Director of Finance regarding the ability of the retirement system to pay purchase power protection payments in each fiscal year until 2036 and would appropriate funds, as determined by the actuary and certified by the Director of Finance, as necessary to enable the system to make those payments, as specified, until June 30, 2036. The aggregate amount of funds to be appropriated for these purposes would be limited to $500,000,000, adjusted as specified. The bill would make related legislative findings.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 7 (SB 24) Committee on Budget and Fiscal Review. Health and human services.

(1) Existing law requires the Department of Child Support Services to pay to each county a child support incentive payment to encourage child support enforcement efforts. Existing law requires the department to pay an additional incentive, from specified county collections, to the counties with the 10 best performance standards in certain child support-related activities. Existing law suspends the operation of the provision requiring payment of this additional incentive for the 2002–03 fiscal year.

This bill would further suspend the operation of the provision requiring payment of the additional incentive for the 2003–04, 2004–05, and 2005–06 fiscal years.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) The California Adult Day Health Care Act permits the establishment of an adult day health care planning council by the board of supervisors of any county. Existing law requires an adult day health care planning council to adopt an adult day health care plan and provides for the submission of applications for licensure as an adult day health care center to planning councils for review and recommendations.

This bill would repeal these provisions. The bill would make conforming changes.

(3) Existing law specifies various duties of the Director of the California Department of Aging and the Director of Health Services with respect to adult day health care planning councils and the review and update of state guidelines and county adult day health plans.

This bill would delete these provisions.

(4) Existing law requires that the governing board of an adult day health care center be comprised, with certain exceptions, of 4 or more persons, at least one-half of whom are recipients of the services of the center, relatives of the recipients, or representatives of community organizations with particular interest in programs for the elderly.

This bill would delete these provisions.

(5) Existing law establishes the Senior Housing Information and Support Center in the California Department of Aging, and requires the center to perform various functions such as disseminating information to seniors regarding resources and services and promoting education and training for professionals who work directly with seniors.

This bill would provide that these provisions would be implemented only to the extent that funds for these purposes are appropriated by the Legislature in the annual Budget Act or other statute.

(6) Existing law establishes the Habilitation Services Program under the administration of the Department of Rehabilitation.

This bill would transfer the administration of this program to the State Department of Developmental Services on July 1, 2004.

(7) Existing law, for purposes of administration of the AFDC-FC program, including the setting of group home rates, requires the State Department of Social Services to deem the reasonable costs of leases for shelter care for foster children to be allowable costs, and establishes a formula to determine the fair market value of owned, leased, or rented buildings.

Existing law provides that the allowable costs of affiliated leases shall be subject to review by the Charitable Trust Section of the Department of Justice, and shall be permitted to the extent allowed by federal law for federal financial participation. Existing law also requires, effective July 1, 1998, an approval letter from the Charitable Trust Section of the Department of Justice for approval of shelter costs that result from self-dealing transactions, as defined.

This bill would delete the provisions regarding allowable costs of affiliated leases and the requirement of an approval letter from the Department of Justice for approval of shelter costs that result from self-dealing transactions. It would also prohibit, commencing July 1, 2003, any group home provider with an affiliated lease from being eligible for an AFDC-FC rate, except under specified circumstances.

(8) Existing law requires the Department of Child Support Services to provide payments to local child support agencies of $50 per case for obtaining 3rd-party health coverage or insurance of Medi-Cal beneficiaries, to the extent that funds are appropriated in the annual Budget Act.

This bill would suspend this requirement for the 2003–04, 2004–05, and 2005–06 fiscal years.

(9) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 8 (SB 25) Committee on Budget and Fiscal Review. Public safety.

(1) The California Emergency Services Act requires, with specified exceptions, local governmental organizations, utilities, or other owners of dams, to prepare and submit to the Office of Emergency Services inundation maps showing the areas of potential flooding in the event of sudden or total failure of any dam, the partial or total failure of which the office

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

determines, after consultation with the Department of Water Resources, would result in death or personal injury. Based on a review of the maps or, under certain circumstances, on information gained by an onsite inspection and consultation with the affected local jurisdiction, the office is required to designate areas within which death or personal injury would, in its determination, result from the partial or total failure of a dam. The appropriate public safety agencies of the local jurisdictions are required to adopt emergency procedures for the evacuation and control of populated areas below those dams, subject to review by the office.

This bill would repeal these provisions, and make various conforming changes.

(2) Existing law establishes the Commission on Correctional Peace Officer Standards and Training, and charges it with various duties in connection with the training of correctional peace officers in both the Department of Corrections and the Department of the Youth Authority. Existing law requires correctional peace officers of the Department of Corrections and the Department of the Youth Authority to complete training for supervisorial positions, and provides for stress management training.

This bill would provide that those training provisions only apply to correctional peace officers in the Department of Corrections.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 9 (SB 26) Committee on Budget and Fiscal Review. Health.

(1) Existing law provides that an appropriation is available for encumbrance during the period specified therein, or, if not otherwise limited by law, for 3 years after the date upon which it first became available for encumbrance. Subdivision (a) of Section 2.00 of the Budget Act of 2002 provides that appropriations in the act, unless otherwise provided, are appropriated for the use and support of the state for the 2002–03 fiscal year.

Existing law establishes the prostate cancer treatment program, administered by the department, under which one or more contracts may be entered into in order to provide prostate cancer treatment services to low-income uninsured and underinsured men.

This bill, commencing with the 2003–04 fiscal year, would require that the amount appropriated to the department for the prostate cancer treatment program be made available for that program, for encumbrance for one fiscal year beyond the year of appropriation, and for expenditure for 2 fiscal years beyond the year of encumbrance, thereby making an appropriation.

(2) Under existing law, the Director of Mental Health, in consultation with the Secretary of Child Development and Education and the Superintendent of Public Instruction, is authorized to award matching grants to local educational agencies to pay the state share of the costs of providing programs that provide school-based early mental health intervention and prevention services to eligible pupils at schoolsites of eligible pupils, in accordance with specified criteria.

This bill would specify that the authority of the director to award these grants is subject to the availability of funding each year.

(3) Under existing law, specified categories of Medi-Cal recipients are required to file reaffirmations of eligibility annually and at other times as required by the department. Existing law requires the department to eliminate, commencing January 1, 2001, the requirement that recipients under the Medi-Cal program file quarterly status reports.

This bill would delete this latter requirement of the department, and, instead, would require, on and after August 1, 2003, that the department require, with certain exceptions, beneficiaries under the Medi-Cal program to file semiannual status reports. The bill would require the implementation of this provision only if and to the extent federal financial participation is available.

(4) Existing law requires the department to develop and conduct a community outreach and education campaign and, contingent upon appropriation, to award contracts to

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

community-based organizations to help families learn about, and apply for, the Medi-Cal program and the Healthy Families Program.

This bill would, instead, authorize the department to perform these activities and would require implementation of the community outreach and education campaign upon an appropriation for that purpose in the annual Budget Act or other statute.

(5) Existing law requires the department, upon federal approval, to provide a supplemental rate adjustment to the Medi-Cal reimbursement rate for specific nursing facilities.

This bill would provide that this provision shall become inoperative on the effective date of this bill and would be repealed on January 1, 2007. The bill would provide that due to the large State Budget deficit projected for the 2003–04 fiscal year, and in order to implement changes in the level of funding for health care services, it is the intent of the Legislature in repealing this provision that no further supplemental rate adjustments be paid to long-term care facilities pursuant to this provision, except that solely for the period February 1, 2002, to December 31, 2002, inclusive, the department shall continue to pay the supplemental rate adjustment to the extent that the department had, on or before December 31, 2002, approved that supplemental rate adjustment for that period.

(6) Under existing law, specified dental services are included as covered benefits under the Medi-Cal program, subject to utilization controls. Existing law prohibits these utilization controls from requiring X-rays as a condition of reimbursement for fillings for children under 18 years of age.

This bill would delete this prohibition, and would revise the covered dental benefits under the program.

(7) Existing law requires the department, in implementing the Medi-Cal program and public health programs, to provide for outreach activities in order to enhance participation and access to perinatal services.

This bill would, instead, authorize the department to perform these outreach activities, and would require these activities upon an appropriation in the annual Budget Act or other statute for this purpose.

(8) Existing law requires the department to establish and maintain a plan to effectively control costs for the county administration of the determination of eligibility for benefits under the Medi-Cal program so that the costs are within the amounts annually appropriated for that administration. The plan is required to establish standards and performance criteria.

This bill would require each county, in administering the Medi-Cal eligibility process, to meet specified performance standards each fiscal year, and report the county's performance, as prescribed, thereby imposing a state-mandated local program. The bill would require a county to submit a corrective action plan to the department regarding any performance standard with which the county is out of compliance. The bill would authorize the department, at its sole discretion, to reduce the allocation of funds as prescribed if a county does not meet the performance standards established by these provisions for eligibility determinations and redeterminations.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(10) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 10 (SB 28) Committee on Budget and Fiscal Review. Education finance.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law establishes the Teacher Recruitment Initiative Program, administered by the Sacramento County Office of Education, to award grants on a competitive basis to consortia to operate regional recruitment centers that focus on recruiting teachers to low-performing schools, especially those with a teaching staff that has more than 20% emergency permitholders.

This bill would repeal these provisions.

Existing law establishes the Governor's Scholarship Programs, under which qualified pupils may receive a Governor's Scholars or Governor's Distinguished Mathematics and Science Scholars Award for attaining specified scores on portions of the statewide achievement tests administered under the Standardized Testing and Reporting Program.

This bill would make these provisions inoperative as of July 1, 2003.

The California Constitution requires that the amount appropriated by the Legislature for the support of school districts, as defined, and community college districts in any fiscal year be not less than a specified amount and authorizes the suspension of this minimum funding obligation for one year. Existing law further requires the state's minimum funding obligation for the support of school districts, as first defined, and community college districts to be increased, as specified, for the 2003–04 fiscal year and to include the full restoration of the maintenance factor.

This bill would instead require those increases for the fiscal year in which the maintenance factor is fully restored.

Existing law, including the Budget Acts of 2000, 2001, and 2002, makes various appropriations for purposes of public education.

This bill would revert specified appropriations from those Budget Acts, totalling $113,243,685, to the Proposition 98 Reversion Account in the General Fund. The bill would also reappropriate $113,243,685 from the Proposition 98 Reversion Account to the General Fund, as scheduled.

Existing law, the Budget Act of 2002, appropriated a specified amount to the State Department of Education for instructional time and staff development.

This bill would reduce that appropriation by $48,656,314 and appropriate an equal amount for that purpose in the 2003–04 fiscal year.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 11 (SB 29) Committee on Budget and Fiscal Review. Public pension obligations: bond financing.

Under existing law, the state is required to make specified contributions to the Public Employees' Retirement Fund, the Teachers' Retirement Fund, and other public retirement funds.

This bill would enact the California Pension Obligation Financing Act, that would authorize the issuance of bonds and the creation of ancillary obligations, as defined, for the purpose of funding or refunding the state's pension obligations, as specified. The bill would continuously appropriate from the General Fund without regard to fiscal years the amount necessary to pay the principal and interest on the bonds and other obligations incurred in connection with the bonds, subject to certain limits. The bill would also authorize the Pension Obligation Bond Committee, as established by the bill, to bring an action to determine the validity of the bonds issued pursuant to the act. The act would become inoperative on June 30, 2009, and would be repealed on January 1, 2010.

This bill would provide that it would become operative only if SB 25, SB 26, SB 20, and SB 28 of the 2003–04 First Extraordinary Session are all chaptered and become effective on or before January 1, 2004.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 12 (SB 22) Committee on Budget and Fiscal Review. Public financing.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) Under existing law, there is continuously appropriated without regard to fiscal years, from the General Fund for purposes relating to public finance, an amount that will equal the sum annually as will be necessary to pay all obligations, including principal, interest, fees, costs, indemnities, and all other amounts incurred by the state under or in connection with any credit enhancement or liquidity agreement entered into by the state.

This bill would make that provision applicable to specified costs related to bonds payable pursuant to an appropriation from the General Fund, and would prescribe the extent to which fees, costs, and other expenses may be incurred for that purpose.

(2) Existing law prescribes procedures for the issuance of registered and other specified warrants.

This bill would make the Controller the agent for sale for those specified warrants.

This bill would appropriate $1,600,000 from the General Fund to the Controller for costs related to the issuance of revenue anticipation warrants in the 2002–03 fiscal year.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 13 (AB 7) Oropeza. California Fiscal Recovery Financing Act.

(1) Existing law generally provides for the issuance of various types of public financing instruments.

This bill would enact the California Fiscal Recovery Financing Act. It would create the California Fiscal Recovery Financing Authority, to consist of a specified membership, and authorize the authority to, among other things, issue bonds for the general purpose of funding the accumulated budget deficit, subject to specified conditions, and would require that the proceeds of the bonds, exclusive of specified amounts, be deposited in the General Fund for that purpose. The bill would specify that the bonds are to be repaid to the extent appropriations are made for that purpose by the Legislature from the Fiscal Recovery Fund, as described below, and would declare that the bonds are not a debt or liability of the state for purposes of the California Constitution. It would also authorize the authority to bring an action to determine the validity of the bonds, and specify procedures for judicial review of the determination and enforcement of the bill's provisions. The bill would also authorize the authority to issue bond anticipation notes from the proceeds of the sale of the bonds or from available revenues, or both, subject to specified conditions.

This bill would create the Fiscal Recovery Fund, designated as a special fund in the State Treasury, and require all revenues received pursuant to the state sales and use tax rate imposed by the bill to be deposited in the State Treasury to the credit of the fund. It would provide that, except for funds continuously appropriated to the authority in an amount not to exceed $1,000,000 per fiscal year for administrative costs, amounts in the fund shall be available upon appropriation by the Legislature solely for the purposes of the bill.

(2) The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property.

This bill would, from July 1, 2004, and in addition to any other sales and use tax rates imposed by law, impose a state sales and use tax at the rate of 0.5% for a specified period.

This bill would result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require for passage the approval of $^2/_3$ of the membership of each house of the Legislature.

(3) The Bradley-Burns Uniform Local Sales and Use Tax Law (Bradley-Burns Law) authorizes a county to impose a local sales and use tax at a rate of $1^1/_4$%, and similarly authorizes a city, located within a county imposing such a tax rate, to impose a local sales tax rate of 1% that is credited against the county rate. Existing law requires a city, county, or city and county imposing a local sales and use tax pursuant to the Bradley-Burns Law to contract with the State Board of Equalization to administer the local sales and use tax. Existing law exempts from the taxes imposed under the Bradley-Burns Law 80% of specified purchases and uses of tangible personal property by aircraft common carriers.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would, from July 1, 2004, until a specified date after the Director of Finance makes a specified notification to the State Board of Equalization, prohibit a city or a county from imposing a rate under the Bradley-Burns Law that exceeds a specified percentage. This bill would, during this same period, also reduce the exemption under the Bradley-Burns Law for specified tangible personal property purchases and uses by aircraft common carriers to 67% of these purchases and uses, but establish an additional exemption for these purchases and uses, during this same period, from a specified rate imposed under the Sales and Use Tax Law.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF STATUTE ENACTED IN 2003

2003–04 SECOND EXTRAORDINARY SESSION

BILL CHAPTER

Ch. 1 (AB 1) Jackson. California Coastal Commission: membership.

Under existing law, members of the California Coastal Commission generally serve for 2 years at the pleasure of the selecting or appointing authority.

This bill would instead provide that members appointed by the Senate Committee on Rules or the Speaker of the Assembly would serve a 4-year term. Members appointed by the Governor would serve a 2-year term at the pleasure of the Governor.

This bill would require the Senate Committee on Rules and the Speaker of the Assembly, on the effective date of this act, to each appoint 2 members to serve 2-year terms and 2 members to serve 4-year terms. The bill would provide that the subsequent terms of appointments by the Senate Committee on Rules and the Speaker of the Assembly shall be for 4 years.

The bill would make related changes.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF STATUTE ENACTED IN 2003

2003–04 THIRD EXTRAORDINARY SESSION

BILL CHAPTER

Ch. 1 (SB 1) Oller. Vehicles: social security account number: driver's license and identification cards.

(1) Existing law requires an applicant for the issuance or renewal by the Department of Motor Vehicles of a driver's license or identification card to provide his or her social security account number. Existing law requires an applicant for an original driver's license or identification card to submit satisfactory proof that the applicant's presence in the United States is authorized under federal law, and prohibits the department from issuing a license or card to a person who does not do so. Existing law also requires the department to adopt regulations including procedures for verifying the legal presence of applicants for driver's licenses and identification cards.

Effective January 1, 2004, Chapter 326 of the Statutes of 2003 (SB 60) would, among other things, allow an applicant for a driver's license or identification card, except an applicant for a commercial driver's license, who submits an affidavit, signed under penalty of perjury, attesting that he or she is presently not eligible for a social security account number, but who submits a federal individual taxpayer identification number or other number or identifier that is deemed appropriate by the department, to submit those documents to the department in lieu of a social security account number, and those documents would be deemed acceptable until the applicant obtains a social security account number. Chapter 326 of the Statutes of 2003 would delete the requirement that an applicant for an original driver's license or identification card submit satisfactory proof that the applicant's presence in the United States is authorized under federal law.

This bill would repeal the substantive changes that would be made by Chapter 326 of the Statutes of 2003 and would reinstate the existing law.

(2) Chapter 326 of the Statutes of 2003 would have amended Section 12814.5 of the Vehicle Code relating to the renewal of a driver's license by mail, but that amendment will be superseded by a later unrelated enactment with a higher chapter number. Effective January 1, 2004, Chapter 326 would also make a technical, nonsubstantive change in Section 13000 of the Vehicle Code.

This bill would not affect either of those provisions.

(3) The bill would declare that it is to take effect immediately as an urgency statute, and would become operative on January 1, 2004.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF STATUTES ENACTED IN 2003

2003–04 FOURTH EXTRAORDINARY SESSION

BILL CHAPTERS

None.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF STATUTES ENACTED IN 2003

2003–04 FIFTH EXTRAORDINARY SESSION

BILL CHAPTERS

Ch. 1 (AB 8) Oropeza. Ballot measures.

This bill would waive certain statutory deadlines for placement of any constitutional amendment adopted by the Legislature at the 2003–04 5th Extraordinary Session on the ballot.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 2 (AB 9) Oropeza. Economic recovery bonds.

(1) Existing provisions of the California Constitution prohibit the creation by the Legislature of debts in excess of $300,000 except for a single object or work specified in a law creating the debt, which is approved by a $^2/_3$ vote of the members of each house of the Legislature and approved by the people by a majority of the votes cast at a general or direct primary election.

This bill would enact the Economic Recovery Bond Act, which, if adopted, would authorize the issuance, pursuant to the State General Obligation Bond Law, of bonds in an amount not to exceed $15,000,000,000 for purposes of financing the accumulated state budget deficit, as defined. The bill would also provide that the bonds shall be secured by a pledge of revenues in the Fiscal Recovery Fund from designated sales and use tax revenues.

(2) The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property.

This bill would, from July 1, 2004, and in addition to any other sales and use tax rates imposed by law, impose a state sales and use tax at the rate of 0.25% for a specified period.

(3) The Bradley-Burns Uniform Local Sales and Use Tax Law (Bradley-Burns Law) authorizes a county to impose a local sales and use tax at a rate of 1.25%, and similarly authorizes a city, located within a county imposing such a tax rate, to impose a local sales tax rate of 1% that is credited against the county rate. Existing law requires a city, county, or city and county imposing a local sales and use tax pursuant to the Bradley-Burns Law to contract with the State Board of Equalization to administer the local sales and use tax. Existing law exempts from the taxes imposed under the Bradley-Burns Law 80% of specified purchases and uses of tangible personal property by aircraft common carriers.

This bill would, from July 1, 2004, until a specified date after the Director of Finance makes a specified notification to the State Board of Equalization, prohibit a city or a county from imposing a rate under the Bradley-Burns Law that exceeds a specified percentage. This bill would, during this same period, also reduce the exemption under the Bradley-Burns Law for specified tangible personal property purchases and uses by aircraft common carriers to 75% of these purchases and uses, but establish an additional exemption for these purchases and uses, during this same period, from a specified rate imposed under the Sales and Use Tax Law.

(4) Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund in that county for allocation to school districts, community college districts, and the county office of education.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would, for the fiscal adjustment period, as defined, decrease the amount of ad valorem property tax revenue allocated to a county's Educational Revenue Augmentation Fund by the countywide adjustment amount, as defined, and require this amount to be allocated instead to the Sales and Use Tax Compensation Fund, which this bill would create in each county. This bill would, during this same period, also require the county auditor to allocate moneys from the Sales and Use Tax Compensation Fund to cities and counties to reimburse these entities for local tax revenue losses resulting from a specified statute, as provided.

(5) The bill would provide for submission of the bond act to the voters at the March 2, 2004, statewide primary election. The provisions of the bill described above would become operative only if a specified constitutional amendment is submitted to and approved by the voters at the March 2, 2004, statewide primary election.

(6) The bill would declare that it is to take effect immediately as an urgency statute.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF RESOLUTIONS ADOPTED IN 2003

2003–04 REGULAR SESSION

RESOLUTION CHAPTERS

Res. Ch. 1 (SCR 2) Burton. Legislative Counsel of California.
This measure designates Diane F. Boyer-Vine as the Legislative Counsel of California.

Res. Ch. 2 (ACR 12) Jerome Horton. Dr. Martin Luther King, Jr. Day.
This measure would honor the late Rev. Dr. Martin Luther King, Jr., and commemorate his birthday, January 20, 2003, as Dr. Martin Luther King, Jr. Day.

Res. Ch. 3 (SCR 9) Knight. Space Shuttle Columbia.
This measure would express the Legislature's most profound, heartfelt condolences to the families of Columbia's crew and its gratitude to the crew and their families and all past, current, and future astronauts for their bravery and selfless sacrifice for the benefit of humankind. It would also affirm the Legislature's support for our nation's continued aggressive world leadership in space exploration with full confidence that the National Aeronautics and Space Administration (NASA) will discover and remedy the causes of Columbia's loss and the need to incorporate these modern technologies into our new generation of space vehicles.

Res. Ch. 4 (ACR 13) Jackson. Girls and Women in Sports Week.
This measure would recognize female athletes, coaches, officials, and sports administrators for their important contribution in promoting the value of sports in the achievement of full human potential and would proclaim February 3 to 9, 2003, as California Girls and Women in Sports Week.

Res. Ch. 5 (ACR 14) Nakano. Day of Remembrance.
This measure would declare February 19, 2003, as a Day of Remembrance in order to increase public awareness of the events surrounding the internment of Americans of Japanese ancestry during World War II, and would encourage the annual observance of this day in subsequent years so that children in California may learn from our history.

Res. Ch. 6 (ACR 18) Leno. Spay Day USA 2003.
This measure would declare February 25, 2003, to be Spay Day USA 2003, and would request that Californians observe that day by having their dogs or cats spayed or neutered or by contributing to organizations that provide spay or neuter services.

Res. Ch. 7 (ACR 23) Jerome Horton. Black History Month.
This measure would recognize February 2003 as Black History Month, urge all citizens to join in celebrating the accomplishments of African-Americans during Black History Month, and encourage the people of California to recognize the many talents, achievements, and contributions that African-Americans make to their communities.

Res. Ch. 8 (ACR 25) Nation. National Engineers Week.
This measure would recognize the week of February 16 to 22, 2003, as National Engineers Week.

Res. Ch. 9 (ACR 15) Frommer. Colorectal Cancer Awareness Month.
This measure would proclaim the month of March 2003 to be ''Colorectal Cancer Awareness Month.''

Res. Ch. 10 (ACR 24) Mountjoy. Blue Star Families Week.
This measure would recognize the 2nd week of March each year as Blue Star Families Week during any period of war or hostilities.

Res. Ch. 11 (ACR 56) Nakano. California Space Day.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would request that the Governor proclaim March 18, 2003, as California Space Day, in special recognition of the contributions that space enterprise has made and will continue to make to the state, and would memorialize the Legislature's recognition of the economic value of space enterprise to the state's economy and its pledge to work with academic and local government and industry leaders to attract, retain, and nurture space enterprise.

Res. Ch. 12 (ACR 57) Corbett. Irish-American Heritage Month.

This measure would designate March 2003 as Irish-American Heritage Month in honor of the multitude of contributions that Irish-Americans have made to the country and state.

Res. Ch. 13 (ACR 32) Richman. California Nonprofits and Philanthropy Week.

This measure would proclaim March 30 to April 5, 2003, inclusive, as California Nonprofits and Philanthropy Week.

Res. Ch. 14 (ACR 48) Runner. Endometriosis Awareness Month.

This measure would proclaim the month of March 2003 as Endometriosis Awareness Month.

Res. Ch. 15 (ACR 52) Maddox. Mosquito and Vector Control and West Nile Virus Awareness Week.

This measure would designate the week of April 28 through May 4, 2003, as Mosquito and Vector Control and West Nile Virus Awareness Week.

Res. Ch. 16 (SCR 15) Ortiz. Save Your Vision Month.

This measure would proclaim the month of March 2003 as Save Your Vision Month and would encourage all Californians to save their vision through proper eye care.

Res. Ch. 17 (ACR 64) Jackson. Sexual Assault Awareness Month.

This measure would resolve that the month of April be designated henceforth as Sexual Assault Awareness Month.

Res. Ch. 18 (SJR 1) Poochigian. Armenian Genocide: Day of Remembrance.

This measure would designate April 24, 2003, as the "California Day of Remembrance for the Armenian Genocide of 1915–1923." It would memorialize the Congress of the United States to act likewise to commemorate the Armenian Genocide.

Res. Ch. 19 (SJR 13) Florez. Immigrant military personnel: citizenship.

This measure would provide that the California Legislature urges the President and the Congress of the United States to amend federal selective service and immigration laws to grant United States citizenship to any immigrant who honorably serves in the military.

Res. Ch. 20 (AJR 5) Parra. Vietnam Veterans Memorial Education Center.

This measure would memorialize the President and the Congress to take appropriate measures to facilitate the design and construction of the Vietnam Veterans Memorial Education Center.

Res. Ch. 21 (SCR 8) Battin. Child Abuse Prevention Month.

This measure would acknowledge the month of April 2003, as Child Abuse Prevention Month, and encourage the people of the State of California to support child abuse prevention activities in their communities and schools.

Res. Ch. 22 (SCR 13) Figueroa. Women's History Month.

This measure would declare that the Legislature joins the California Commission on the Status of Women and the National Women's History Project in honoring the contributions

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

of women, and proclaims the month of March 2003 as Women's History Month. The measure would also urge Californians to join in the celebration of International Women's Day on March 8, 2003.

Res. Ch. 23 (ACR 41) Firebaugh. The California Tow Truck Association.
This measure would congratulate the California Tow Truck Association on its 33rd anniversary and recognize its contributions to the state's efforts to manage traffic congestion.

Res. Ch. 24 (ACR 49) Runner. California Golden Poppy.
This measure would commemorate March 2, 2003, as the 100th anniversary of the California Golden Poppy as the official State Flower of California.

Res. Ch. 25 (ACR 77) Simitian. National Library Week.
This measure would observe the celebration of National Library Week commencing April 6, and would applaud the positive and vital impact of public libraries, librarians, and library workers, and thank them for enriching the lives of residents and helping to make our state an exceptional place to live, learn, and work.

Res. Ch. 26 (ACR 1) Koretz. California Holocaust Memorial Week.
This measure would proclaim the week of April 27 through May 4, 2003, as California Holocaust Memorial Week and would urge Californians to observe these days of remembrance for the victims of the Holocaust in an appropriate manner.

Res. Ch. 27 (ACR 33) Nation. Day of the Horse.
This measure would designate December 13, 2003, as the Day of the Horse.

Res. Ch. 28 (ACR 43) Montanez. Girl Scouts.
This measure would commend the Girl Scouts for 91 years of service and for inspiring millions of girls with the highest ideals of character, conduct, and patriotism.

Res. Ch. 29 (ACR 47) Campbell. Cure Children's Cancer Month.
This measure would proclaim the month of April 2003 to be Cure Children's Cancer Month and would urge Californians to participate, on April 27, 2003, in the Pediatric Cancer Research Foundation's ''Reaching for the Cure'' walk-a-thon in order to raise community awareness and encourage participation in the fight against children's cancer.

Res. Ch. 30 (ACR 60) Bates. Charter School Week.
This measure would proclaim April 28 to May 2, 2003, as Charter School Week.

Res. Ch. 31 (ACR 91) Corbett. California Earthquake Preparedness Month.
This measure would declare the month of April to be California Earthquake Preparedness Month and urge all Californians and government agencies to engage in education, evaluation of seismic hazards, mitigation, safety activities, and the exchange of information related to earthquake preparedness with other states and nations during that month.

Res. Ch. 32 (ACR 63) Firebaugh. César Chávez Day.
This measure would recognize March 31 as the anniversary of the birth of César Chávez, and would call upon all Californians to participate in appropriate observances to remember César Chávez as a symbol of hope and justice to all persons.

Res. Ch. 33 (ACR 65) Firebaugh. Cinco de Mayo Week.
This measure would declare May 4 through May 10 as Cinco de Mayo Week.

Res. Ch. 34 (ACR 22) Correa. Peace Officers' Memorial Day.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would make observations about the work and sacrifices of California peace officers, and would designate May 9, 2003, as California Peace Officers' Memorial Day and urge all Californians to remember and appreciate the service provided by peace officers.

Res. Ch. 35 (ACR 26) Garcia. National Volunteer Week.
This measure would proclaim the week of April 27 through May 3, 2003, as National Volunteer Week 2003 and would acknowledge the valuable gifts of service of the thousands of community volunteers throughout the state.

Res. Ch. 36 (ACR 62) Chan. School health.
This measure would proclaim May 7, 2003, as School Nurse Day.

Res. Ch. 37 (ACR 70) Chan. Children's Fitness and Nutrition Week 2003.
This measure would proclaim the week of April 28 to May 2, 2003, to be YEAH!: Youth Eating and Acting Healthy!: Children's Fitness Week 2003.

Res. Ch. 38 (ACR 78) Richman. National Public Works Week.
This measure would recognize the week of May 18, 2003, to May 24, 2003, as National Public Works Week, acknowledge the role of infrastructure in the development of California's economy, and recognize the work of the California Rebuild America Coalition.

Res. Ch. 39 (ACR 82) Lieber. Osteoporosis Awareness Month.
This measure would recognize May 2003 as Osteoporosis Awareness Month, and would encourage all people to honor their mothers by raising awareness of osteoporosis and enabling women to obtain the advantage of fast fracture protection by managing osteoporosis and maintaining bone health.

Res. Ch. 40 (ACR 88) Hancock. Library Media Month.
This measure would proclaim April 2003 as Library Media Month.

Res. Ch. 41 (SCR 25) Johnson. Hire a Veteran Month.
This measure would proclaim the month of May "Hire a Veteran Month," and would call upon all employers to assist in developing more job opportunities for our veterans.

Res. Ch. 42 (SCR 26) Chesbro. California Nurses Day and California Nurses Week.
This measure would proclaim May 6, 2003, as California Nurses Day, and would also proclaim the 2nd week of May, commencing in the year 2003, and every year thereafter, as California Nurses Week.

Res. Ch. 43 (ACR 3) Cohn. The National Academy of Recording Arts and Sciences.
This measure would recognize the National Academy of Recording Arts and Sciences for its accomplishments in recognizing and preserving America's great cultural legacy in music, and would extend congratulations to the Academy on the 45th anniversary of the GRAMMY Awards. The measure would also respectfully request the Academy to hold subsequent GRAMMY Awards telecasts and ceremonies in Los Angeles.

Res. Ch. 44 (ACR 28) Garcia. Elder Abuse Prevention Month.
This measure would proclaim May 2003 as Elder Abuse Prevention Month and would urge all Californians to be aware of elder abuse and to educate themselves on ways to prevent the mistreatment of vulnerable older adults in our communities.

Res. Ch. 45 (ACR 83) Frommer. Skin cancer and melanoma awareness.
This measure would declare that the month of May shall be recognized as Skin Cancer Awareness Month in California, and would encourage all Californians to make themselves and their families aware of the risk of skin cancer and the preventive measures that can be

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

taken. The measure would also proclaim May 5, 2003, as Melanoma Awareness Monday in California, to increase public awareness of the importance of routine complete skin examination to detect early melanomas.

Res. Ch. 46 (ACR 93) Berg. American Stroke Month.

This measure would proclaim May 2003 to be American Stroke Month, and would urge all citizens of the state to familiarize themselves with the warning signs, symptoms, and risk factors associated with strokes, so that we might begin to reduce the devastating effects that strokes have on our population.

Res. Ch. 47 (ACR 94) Berg. Older Americans Month.

This measure would recognize the month of May 2003 as Older Americans Month and would encourage all Californians to promote and participate in activities and services that contribute to the health, welfare, and independence of older citizens.

Res. Ch. 48 (ACR 100) Lowenthal. California Senior Mobility Awareness Week.

This measure would proclaim the week of May 4 through May 10, 2003, to be California Senior Mobility Awareness Week.

Res. Ch. 49 (SCR 18) Torlakson. California Fitness Month.

This measure would proclaim the month of May 2003 as California Fitness Month, and would encourage all Californians to enrich their lives through proper diet and exercise.

Res. Ch. 50 (ACR 51) Koretz. Postpartum Mood and Anxiety Disorder Awareness Month.

This measure would proclaim the month of May 2003 as Postpartum Mood and Anxiety Disorder Awareness Month in California, and would request the State Department of Health Services and the State Department of Mental Health to work together to explore ways to improve women's access to mental health care at the state and local levels, to facilitate increased awareness and education about postpartum mood and anxiety disorders, to explore and encourage the use of prenatal screening tools, and to improve the availability of effective treatment and support services.

Res. Ch. 51 (ACR 79) Lieber. Equal Pay Day.

This measure would proclaim April 15, 2003, as Equal Pay Day.

Res. Ch. 52 (SCR 16) Morrow. POW Recognition Day.

This measure would designate April 9, 2003, as POW Recognition Day in California.

Res. Ch. 53 (SCR 22) Florez. Asthma Awareness Month.

This measure would designate the month of May 2003 as Asthma Awareness Month in order to increase awareness and understanding about asthma and to educate those with the disease on the treatments available and the methods to prevent attacks.

Res. Ch. 54 (SCR 29) Battin. Bob Hope day.

This measure would honor and congratulate Bob Hope on his 100th birthday and would designate May 29, 2003, as Bob Hope day.

Res. Ch. 55 (ACR 27) La Suer. Memorial Day.

This measure would recognize May 26, 2003, as Memorial Day, and would urge the people of California to honor the men and women of the United States who died in the pursuit of freedom and peace.

Res. Ch. 56 (ACR 76) Frommer. California Firefighters' Memorial.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would designate May 22, 2003, as California Firefighters' Memorial Day and urge Californians to remember firefighters who gave their lives and to express appreciation to those who continue to protect our families, homes, and dreams.

Res. Ch. 57 (ACR 90) Chan. Asian and Pacific Islander Mental Health Awareness Month.

This measure would proclaim May 2003 as Asian and Pacific Islander Mental Health Awareness Month, and would urge Californians to join forces with mental health advocates, mental health care workers, and leaders in the Asian American community to raise awareness of mental health concerns in the Asian American community and in the State of California.

Res. Ch. 58 (ACR 98) Shirley Horton. Arthritis Awareness Month.

This measure would proclaim May 2003 as Arthritis Awareness Month.

Res. Ch. 59 (ACR 99) Liu. Groundwater Awareness Month.

This measure would declare May as Groundwater Awareness Month, and state the commitment of the Legislature to supporting efforts to protect and improve the management of this precious and limited resource, while preserving existing water rights.

Res. Ch. 60 (ACR 101) Chu. Asian and Pacific Islander American Heritage Month.

This measure would commend Asian and Pacific Islander Americans for their notable accomplishments and outstanding service to the state and recognize May 2003 as Asian and Pacific Islander American Heritage Month.

Res. Ch. 61 (AJR 30) Liu. Japanese American World War II Internment.

This measure would, among other things, condemn the statements made by Congressman Howard Coble regarding the internment of Japanese Americans during World War II, urge him to apologize, and encourage him to resign from the chairmanship of the Subcommittee on Crime, Terrorism, and Homeland Security of the Judiciary Committee of the United States House of Representatives.

Res. Ch. 62 (ACR 16) Nation. Nutrition: vegetarian school lunches.

This measure would urge the State Departments of Education and Health Services to develop nutritionally sound school lunch menu plans that would provide daily optional plant-centered vegetarian school lunches and would state that nutrition educational materials and instruction should include information about multicultural eating patterns and vegetarian/vegan eating patterns.

The measure would also request the State Departments of Education and Health Services to make a report to the Legislature by January 1, 2008.

Res. Ch. 63 (AJR 2) Jackson. Reproductive rights: Roe v. Wade.

This measure would memorialize the Congress and the President of the United States to stand firm in their resolve to uphold the intent and substance of the United States Supreme Court decision in Roe v. Wade, relating to reproductive rights, and to encourage all Americans to participate in the national celebration, "Celebrating 30 Years of Roe v. Wade," in recognition of that decision's historic importance in promoting women's rights.

Res. Ch. 64 (AJR 13) Leno. Medical cannabis.

This measure would urge the President and Congress of the United States to take specified actions relating to the use of cannabis for medicinal purposes.

Res. Ch. 65 (AJR 29) Pavley. Social Security benefits: teachers.

This measure would request the President and the Congress of the United States to enact legislation to remove the Government Pension Offset and the Windfall Elimination Provision from the Social Security Act.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 66 (SCR 14) McPherson. Arthritis awareness.

This measure would recognize the need to create and foster a statewide arthritis awareness program, as prescribed, and to work to adequately fund the program in 2004.

Res. Ch. 67 (SCR 27) Speier. Physical education.

This measure would encourage state and local governments and local educational agencies to provide high-quality daily physical education programs for all children in kindergarten and grades 1 to 12, inclusive.

Res. Ch. 68 (SJR 11) Alpert. Special education: federal funding.

This measure would memorialize the President and Congress of the United States to provide the full federal share of funding for special education programs to the states so that this state and other states will not be required to take funding from other vital state and local programs to fund this underfunded federal mandate.

Res. Ch. 69 (ACR 34) Matthews. Developmental disabilities: direct care workforce.

This measure would recognize that building a stable, well-trained direct care workforce to provide supports and services to individuals with developmental disabilities is important in advancing California's commitment to community integration for those individuals and to personal security for them and their families.

Res. Ch. 70 (ACR 75) Chan. Indoor Air Quality Tools for Schools Program.

This measure would express the Legislature's recognition that poor indoor air quality in schools exacerbates asthma symptoms of California children. The measure, in addition, would urge school districts in California to implement the Indoor Air Quality Tools for Schools Program to benefit the health of the entire school population.

Res. Ch. 71 (AJR 6) Diaz. Korean immigrants.

This measure would urge United States Attorney General John Ashcroft to suspend deportation proceedings against 275 South Korean immigrants who may have been victims of a corrupt former Immigration and Naturalization Service official and rogue immigration consultants until a fair process of review is conducted in each case and it is proven that there was actual fraud committed on the part of the immigrants. The measure would further urge the United States Attorney General and Secretary of the Department of Homeland Security Tom Ridge to implement measures to better police agents within the Immigration and Naturalization Service.

Res. Ch. 72 (AJR 12) Chan. Head Start program.

This measure would request the Congress of the United States to acknowledge the success and maintain the funding support of the Head Start program, as specified.

Res. Ch. 73 (AJR 31) Aghazarian. Assyrians in Iraq.

This measure would declare that it is a matter of urgent and enduring importance that Assyrians be given a seat of recognition at the table during negotiations regarding the postconflict restructuring in Iraq and would memorialize California's Senators and Members of the House of Representatives to take all prudent and necessary steps to ensure that this matter is addressed at the highest levels of the federal government.

Res. Ch. 74 (SCR 28) Battin. California Indian Heritage Month.

This measure would proclaim November 2003 as California Indian Heritage Month, encourage its observance with activities that celebrate our uniqueness as Americans, and commend California Indian nations for their outstanding contributions to this state.

Res. Ch. 75 (SJR 8) Battin. Saltcedar eradication.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would memorialize the President and the Congress of the United States to take necessary action to immediately implement a project to eradicate saltcedar along the Colorado River within this state and other states through which the Colorado River and its tributaries pass, in order to protect that water source from depletion and contamination by saltcedar.

Res. Ch. 76 (ACR 2) Mountjoy. William H. Lancaster Memorial Highway.

This measure would designate a specified portion of State Highway Route 210 as the "William H. Lancaster Memorial Highway." The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 77 (ACR 53) Lowenthal. Fair Housing Act of 1963.

This measure would commemorate the 40th anniversary of the passage of the Fair Housing Act of 1963 authored by Assembly Member W. Byron Rumford and the progress that has been made to afford equal housing opportunities to all Californians regardless of race.

Res. Ch. 78 (ACR 95) Dymally. Year of the Blues.

This measure would designate the year beginning February 1, 2003, as the Year of the Blues and request the Governor to issue a proclamation calling on the people of the state to observe the Year of the Blues.

Res. Ch. 79 (AJR 10) Garcia. Imperial County Airport.

This measure would memorialize the Congress of the United States to designate the Imperial County Airport as an additional International Port of Entry for Imperial County and would request the Board of Supervisors of Imperial County to take several related actions.

Res. Ch. 80 (ACR 7) Daucher. California Highway Patrol Officer Don J. Burt Memorial Highway.

This measure would designate a specified portion of State Highway Route 57 between Orangethorpe Avenue and Yorba Linda Boulevard in Orange County as the "CHP Officer Don J. Burt Memorial Highway." The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers within the right-of-way of the state highway.

Res. Ch. 81 (ACR 19) Aghazarian. Joash E. Paul Memorial Highway.

This measure would designate the section of State Highway Route 99 between Mitchell Road and the Stanislaus/Merced county line in the County of Stanislaus as the Joash E. Paul Memorial Highway.

The measure would also request the Department of Transportation to determine the costs of appropriate plaques and markers showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 82 (ACR 30) Samuelian. William "Bill" Lehn Memorial Highway.

This measure would designate a portion of State Highway Route 99 as the William "Bill" Lehn Memorial Highway. The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 83 (ACR 35) Samuelian. Steven Lindblom Memorial Freeway.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would designate a specified portion of State Highway Route 99 as the "Steven Lindblom Memorial Freeway." The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 84 (ACR 38) Houston. Thomas E. Burnett, Jr. Memorial Bridge.

This measure would designate the Fostoria Overcrossing on State Highway Route 680 in the City of San Ramon as the Thomas E. Burnett, Jr. Memorial Bridge.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 85 (ACR 54) Strickland. Screaming Eagles Highway: 101st Airborne Division.

This measure would designate the section of State Highway Route 101 in the County of Ventura as the Screaming Eagles Highway.

The measure would also request the Department of Transportation to determine the costs of appropriate plaques and markers showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 86 (ACR 73) La Suer. Danielle van Dam Memorial Overpass.

This measure would designate the overpass on State Highway Route 8 at 2nd Street in El Cajon the "Danielle van Dam Memorial Overpass." The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing the special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 87 (SCR 10) Battin. Tribal gaming.

This measure would urge the Governor to execute a tribal-state gaming compact with the Torres Martinez Desert Cahuilla Indians.

Res. Ch. 88 (SCR 37) Vincent. Juneteenth: June 19.

This measure would recognize June 19, 2003, as Juneteenth and would urge the people of California to join in celebrating Juneteenth as a day to honor and reflect on the significant role that African-Americans have played in the history of the United States and how they have enriched society through their steadfast commitment to promoting brotherhood and equality.

Res. Ch. 89 (ACR 17) Cogdill. Tuolumne County Vietnam Veterans Memorial Highway.

This measure would designate that portion of State Highway Route 108 located in Tuolumne County as the "Tuolumne County Vietnam Veterans Memorial Highway." The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers and signs.

Res. Ch. 90 (ACR 29) Benoit. Daniel J. Muehlhausen Memorial Highway.

This measure would designate a specified portion of State Highway Route 62 as the "CHP Officer Daniel J. Muehlhausen Memorial Highway." The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 91 (ACR 110) Maddox. Probation, Parole, and Community Supervision Officers' Week.

This measure would proclaim July 13 to 19, 2003, as Probation, Parole, and Community Supervision Officers' Week and would encourage all Californians to honor these officers and recognize their achievements.

Res. Ch. 92 (SCR 4) Morrow. California Law Revision Commission: studies.

Under existing law, the California Law Revision Commission is required to study, and is limited to studying, those topics approved for its study by concurrent resolution of the Legislature.

This measure would grant approval to the commission to continue its study of designated topics that the Legislature previously authorized or directed the commission to study. The measure would also authorize one new topic for study by the commission.

Res. Ch. 93 (ACR 31) Montanez. Education: physical fitness.

This measure would express the Legislature's recognition that California schools have an obligation to provide physical education to their pupils, and would urge California schools to comply with those obligations. The measure, in addition, would make several related legislative declarations.

Res. Ch. 94 (ACR 39) Chan. Alexander Zuckermann Bicycle-Pedestrian Path.

This measure would designate the bicycle-pedestrian path on the San Francisco-Oakland Bay Bridge as the Alexander Zuckermann Bicycle-Pedestrian Path. The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 95 (AJR 9) Firebaugh. Undocumented students.

This measure would memorialize the President and Congress of the United States to enact legislation to reform the federal Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to allow states to set appropriate residency requirements and tuition policies for undocumented students.

Res. Ch. 96 (SJR 10) Soto. Medicare prescription drug coverage.

This measure would request the United States Congress to enact outpatient prescription drug coverage as part of the federal Medicare program.

Res. Ch. 97 (ACR 74) Steinberg. The International Commission on Holocaust Era Insurance Claims.

This resolution would state the position of the Legislature that Holocaust related funds obtained by the International Commission on Holocaust Era Insurance Claims be disbursed to, or on behalf of, Holocaust survivors living in poverty, in order to meet their basic needs, including food, shelter, and medical care thereby allowing them to live out the remainder of their lives in comfort and dignity. This resolution would also request that the California Insurance Commissioner utilize his seat on the commission to implement the intent of the Legislature.

Res. Ch. 98 (SCR 3) Florez. Rosa Parks Interchange.

This measure would designate the intersection of State Highway Route 41 and State Highway Route 99 in downtown Fresno, in Fresno County, as the Rosa Parks Interchange.

Res. Ch. 99 (AJR 21) Longville. Retired military personnel medical benefits.

This measure would memorialize the Congress and the President of the United States to enact legislation to fulfill the commitment of the federal government to provide free lifetime

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

medical care to those men and women who served 20 years in the military, and to refrain from enacting any legislation that would threaten the ability to fund all commitments that the federal government has made to the men and women who have served this country in the United States military.

Res. Ch. 100 (ACR 92) Cohn. Physical Therapy Month.

This measure would proclaim the month of October 2003 as Physical Therapy Month.

Res. Ch. 101 (AJR 28) Reyes. First responder funding.

This measure would urge the Department of Homeland Security to distribute the funds allocated to California for first responders and would call on California's United States Senators and its congressional delegation to continue in their active pursuit of all federal funds entitled to California relating to the cost of homeland security.

Res. Ch. 102 (SCR 31) Speier. California Missions Day.

This measure would declare California Missions Day as July 16, 2003, to increase public awareness of the California missions in state history and would encourage annual observance of this day.

Res. Ch. 103 (SJR 7) Karnette. Highways: trucking size.

This measure would respectfully memorialize the President and the Congress of the United States to maintain the current federal truck size and weight limitations and to oppose proposals to experiment with longer and heavier trucks on public highways in the reauthorization of the federal Transportation Equity Act for the 21st Century (Public Law 105-178).

Res. Ch. 104 (ACR 40) Dymally. Compton Planning and Transportation Project Task Force.

This measure would request the establishment of the Compton Planning and Transportation Project Task Force to develop a planning proposal concerning the development of a railroad grade separation in the vicinity of the corner of Willowbrook Avenue and Compton Boulevard south to Greenleaf Boulevard in the City of Compton. The measure would specify that the task force consist of at least one representative from the Compton City Council, the Department of Transportation, the Metropolitan Transportation Authority, and the Public Utilities Commission. The measure would specify that the task force not use public funds but that it use private funds and in-kind donations to pay expenses incurred in conducting its business. The measure would provide that any project or proposal developed by the task force would be subject to the project selection and funding process and competition for the state transportation improvement program and regional transportation improvement program. The measure would request the task force to submit a report on its work to the Governor and the Legislature by January 1, 2005, and to submit a copy of its report to the Director of the Department of Transportation and the governing board of the task force member agencies. The measure would provide for termination of the task force 30 days after submission of its report.

Res. Ch. 105 (ACR 10) Dymally. Heavy backpacks.

This measure would acknowledge the health risks that heavy backpacks pose to pupils and encourage the Superintendent of Public Instruction to inform every school district about the passage of this resolution. The measure would also encourage the Superintendent of Public Instruction, school districts, and parents and guardians to take actions necessary to avoid potential injury to pupils caused by heavy backpacks.

Res. Ch. 106 (SCR 17) Poochigian. Deputy Sheriff Dennis E. Phelps Memorial Highway.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would designate a portion of State Highway Route 168 in and near the City of Clovis in Fresno County as the Deputy Sheriff Dennis E. Phelps Memorial Highway. The measure would request the Department of Transportation to determine the cost for appropriate signs showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 107 (ACR 122) Dutton. 50th anniversary of the Korean War Veterans Armistice Day.

This measure would designate July 27, 2003, as the Korean War Veterans Armistice Day, and would urge the people of the State of California to observe the 50th anniversary of the Korean War Armistice Day. It would resolve that Governor Gray Davis instruct all state departments, agencies, interested groups, organizations, and individuals to fly the flag of the United States at half-mast on July 27, 2003, in memory of the Californians who died as a result of their service in Korea.

Res. Ch. 108 (ACR 58) Nakano. Blue Star Memorial Highway.

This measure would designate State Highway Route 1 from its junction with State Highway Route 5 at Dana Point in Orange County to its junction with State Highway Route 101 at Leggett in Mendocino County as a Blue Star Memorial Highway. The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 109 (ACR 85) Kehoe. Respect for All Project.

This measure would commend the Respect for All Project for recognizing the critical need for educational tools that reflect the experiences of children and families of diverse backgrounds; for creating the "Respect for All" film series to celebrate family diversity, and address prejudice, name-calling, bullying, and the formation of stereotypes among youth; for producing the first film for schoolage children that explores a wide range of family types; for offering free diversity training to all school districts within the state; and for encouraging all school districts to incorporate the "Respect for All" series into the curriculum as a way to foster schools that are safe, free of discrimination, and guarantee an equal educational opportunity for all pupils.

Res. Ch. 110 (AJR 34) Koretz. Hate crimes.

This measure would memorialize the Congress to pass, and the President to sign, the Local Law Enforcement Enhancement Act of 2003, to provide Federal assistance to States and local jurisdictions to prosecute hate crimes.

Res. Ch. 111 (SCR 11) Soto. HIV and AIDS drug treatment: public pensions.

This measure would encourage the governing bodies of the public pension and retirement systems of this state, in their capacities as shareholders of pharmaceutical companies that develop HIV and AIDS drug treatments, to take affirmative action, whenever consistent with their fiduciary responsibilities, to impel pharmaceutical companies to develop and implement a policy, in consultation with the appropriate United Nations agencies and independent nongovernmental organizations, to provide HIV and AIDS drug treatments in a manner that would make those treatments affordable to those infected in lesser developed countries.

Res. Ch. 112 (SCR 38) Ashburn. Valley Fever Awareness Month.

This measure would proclaim August 2003 as Valley Fever Awareness Month.

Res. Ch. 113 (SCR 44) Oller. Truck Driver Appreciation Week.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would proclaim the week of August 24 to 30, 2003, as Truck Driver Appreciation Week in California.

Res. Ch. 114 (SJR 5) Sher. Giant Sequoia National Monument.

This measure would memorialize the President and Congress to take necessary action to protect the Giant Sequoia National Monument by prohibiting the removal of large trees in all parts of the monument and encouraging environmentally appropriate management activities, including removal of small trees and brush, that reduce the risk of catastrophic fire, protect rural communities, and restore the giant sequoia ecosystem in all parts of the monument, as set forth in the Presidential Proclamation establishing the monument.

Res. Ch. 115 (ACR 71) Chu. El Monte Police Officer Donald Ralph Johnston Memorial Highway.

This measure would designate a specified portion of State Highway Route 10 as the El Monte Police Officer Donald Ralph Johnston Memorial Highway. The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 116 (AJR 32) Pacheco. Medicaid funding.

This measure would memorialize the President and Congress to enact legislation that would consider the 4.9 million Californians who are living below the poverty thresholds by taking into account the total number of persons living in poverty rather than the per capita income of persons when establishing the formula that will be used in the calculation of the federal share of the Federal Medicaid Assistance Percentage.

Res. Ch. 117 (SCR 12) Alarcon. Joint Committee to Develop a Master Plan to End Poverty in California.

This measure would establish the Joint Committee to Develop a Master Plan to End Poverty in California. The Joint Committee would have among its duties the development of a "Master Plan to End Poverty in California," and to report to the Legislature on the state of poverty in California. The measure would provide for the Joint Committee's continued existence until December 31, 2005.

Res. Ch. 118 (ACR 89) Goldberg. Boy Scouts of America.

This measure would recognize the efforts of Boy Scouts who earn the rank of Eagle Scout and encourage the Boy Scouts of America to accept for membership and leadership positions all qualified boys and men, without discriminating on the basis of sexual orientation or religious belief.

Res. Ch. 119 (AJR 35) Leno. Court reporters and realtime writers.

This measure would urge the Congress of the United States to pass legislation relating to training of court reporters and realtime writers.

Res. Ch. 120 (ACR 6) Cohn. Domestic Violence Awareness Month.

This measure would proclaim the month of October 2003 as Domestic Violence Awareness Month.

Res. Ch. 121 (ACR 11) Cohn. Health Cares About Domestic Violence Day.

This measure would proclaim October 8, 2003, as Health Cares About Domestic Violence Day.

Res. Ch. 122 (ACR 107) Firebaugh. Senator Ralph C. Dills Day and Senator Ralph C. Dills Week.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would (1) recognize the legacy of Senator Ralph C. Dills public service, (2) his commitment to principle and work ethic, (3) join in the Memorial and Celebration Day for Senator Ralph C. Dills, and (4) proclaim May 16, 2003, as Senator Ralph C. Dills Day and October 20 to 24, 2003, inclusive, as Senator Ralph C. Dills Week.

Res. Ch. 123 (ACR 120) Montanez. California Chronic Kidney Disease Education Day.

This measure would designate August 15, 2003, as California Chronic Kidney Disease Education Day, and would urge all Californians to familiarize themselves with the causes of chronic kidney disease and the importance of intervention to promote sustained health and a better quality of life.

Res. Ch. 124 (SCR 5) Scott. Visual and performing arts.

This measure would declare the Legislature's acknowledgment and support of standards-based instruction in the visual and performing arts in all California public schools, prekindergarten through grade 12, inclusive.

Res. Ch. 125 (SCR 20) Burton. The Immigrant Workers Freedom Ride.

This measure would endorse the Immigrant Workers Freedom Ride and its goals; support and assist the Immigrant Workers Freedom Ride in the state; and call on county, city, and city and county executive and legislative bodies throughout the state to adopt similar measures.

Res. Ch. 126 (SCR 36) Knight. Centennial anniversary of flight.

This measure would recognize the centennial anniversary of flight and encourage cities, counties, and individual citizens to organize activities in celebration of a century of flight.

This measure would also encourage teachers to utilize the Dryden Educator Resource Center to stimulate young minds and encourage young people to pursue careers in aviation and aerospace.

Res. Ch. 127 (SCR 24) Morrow. California Highway Patrol Officers Stephen M. Linen, Jr. and Sean Nava Memorial Freeways.

This measure would designate 2 portions of Interstate 5 in the County of San Diego as memorial freeways. The measure would request the Department of Transportation to determine the cost for appropriate signs showing these designations and, upon receiving donations from nonstate sources covering those costs, to erect those signs.

Res. Ch. 128 (SCR 41) McPherson. Baldrige National Quality Program.

This measure would encourage school districts to consider using the Baldrige Criteria for Performance Excellence as a means of meeting the requirements of the federal No Child Left Behind Act and would request the Superintendent of Public Instruction to review the Baldrige National Quality Program for the purpose of recommending how schools and school districts can implement the Baldrige Criteria for Permanence Excellence to increase pupil achievement.

Res. Ch. 129 (SCR 43) Machado. Women Veterans' Highway.

This measure would designate a specified portion of State Highway Route 99 as the Women Veterans' Highway. The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers so designating that portion of State Highway Route 99 and, upon receiving donations from nonstate sources covering that cost, to erect plaques and markers.

Res. Ch. 130 (SCR 47) Alpert. Eugenics.

This measure would express the profound regret of this Legislature over the state's past role in the eugenics movement, and would urge every citizen of the state to become familiar

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

with the history of the eugenics movement, in the hope that a more educated and tolerant populace will reject any similar abhorrent pseudoscientific movement should one arise in the future.

Res. Ch. 131 (SCR 6) Battin. California Hispanic Heritage Month.

This measure would proclaim September 15 to October 15, 2003, inclusive, as California Hispanic Heritage Month, and would encourage all Californians to observe this event in communities throughout the state.

Res. Ch. 132 (SCR 7) Battin. Ronald Reagan Day.

This measure would recognize February 6, 2003, and subsequent yearly anniversaries thereafter, as Ronald Reagan Day.

Res. Ch. 133 (SCR 40) Chesbro. Youth involvement.

This measure would encourage the Legislature to support programs that address problem behaviors in high-risk youth. The measure would, in addition, encourage the Legislature to establish March 28 as an annual day of recognition for those entities that have successfully developed youth participation and involvement programs, and for the youth who participate in those programs.

Res. Ch. 134 (SCR 48) Hollingsworth. Myositis Awareness Day.

This measure would designate September 21, 2003, as Myositis Awareness Day.

Res. Ch. 135 (SCR 49) Burton. Prevailing wage rates: chartered cities.

Existing law generally requires the payment of not less than the prevailing rate of per diem wages and not less than the prevailing rate for holiday and overtime work to persons employed on public works projects that cost more than $1,000. Existing law requires the Director of Industrial Relations to determine these wage rates and to provide these wage rates to an awarding body, as defined, that requests them.

This measure would reaffirm the intent of the Legislature for the prevailing wage law to apply to all projects subsidized with public funds, including the projects of chartered cities.

Res. Ch. 136 (SJR 3) Alarcon. Temporary Assistance for Needy Families (TANF) program.

This measure would, among other things, urge the Congress of the United States to increase TANF block grant funding to certain states, allow states to use TANF funds to provide an additional 24 months of TANF eligibility for families who have used 60 months of TANF eligibility, consider "stopping the clock" on TANF assistance for recipients who are meeting work participation requirements or live in counties with high unemployment rates, increase funding for the Child Care and Development Block Grant, and give states flexibility to design the most effective strategies to help people secure jobs.

Res. Ch. 137 (SJR 6) Soto. Terrorism: funding for first responder training.

This measure would call upon the Congress and the President of the United States to provide additional funding to the states for first responder training.

Res. Ch. 138 (ACR 66) Pavley. High school exit examination.

This measure would urge the State Board of Education to continue to delay the requirement for graduation of passage of the high school exit examination until issues are resolved regarding appropriate testing methods for pupils with disabilities. The measure would also encourage the State Department of Education to develop, and the State Board of Education to adopt, guidelines regarding the method and content of alternate assessments to the high school exit examination for pupils with disabilities who cannot participate in the examination and for whom accommodations or modifications are not appropriate.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 139 (ACR 69) Nakanishi. Relative to the San Jose State University Processed Food Institute.

This measure would memorialize the Department of Food and Agriculture and the State Department of Health Services to, whenever possible, support and collaborate with the San Jose State University Processed Food Institute.

Res. Ch. 140 (ACR 106) Chan. Children's vision.

This measure would recognize the importance of good visual health for California's children, and would encourage the Senate Office of Research to commission a study of the eye and vision needs of children in the State of California, including the need for regular comprehensive eye examinations by trained professionals, the need for an increase in the type and quantity of eye appliances available to children, and the need for access to affordable, quality eye and vision care.

Res. Ch. 141 (ACR 112) Bogh. California Department of Forestry and Fire Protection firefighters.

This measure would recognize and commend the bravery and selflessness of the firefighters of the Department of Forestry and Fire Protection and express appreciation for their continued service and dedication to the residents of this state.

Res. Ch. 142 (ACR 114) Leslie. Invasive Weeds Awareness Week.

This measure would declare the week beginning with the 3rd Monday in July as the annual Invasive Weeds Awareness Week in California and urge all Californians, during that week, to participate in activities that raise awareness of both the scourge of harmful nonnative weeds and methods to prevent their pernicious spread.

Res. Ch. 143 (ACR 117) Pacheco. Celebrating the 45th anniversary of NASA.

This measure would recognize the achievements of the National Aeronautics and Space Administration (NASA) and would congratulate NASA on its 45th anniversary.

Res. Ch. 144 (ACR 124) Firebaugh. Educational Opportunity Programs Month.

This measure would express the congratulations and appreciation of the Legislature for the accomplishments of the Educational Opportunity Program (EOP) of the University of California and the California State University and Extended Opportunity Programs and Services (EOPS) of the California Community Colleges. The measure would also declare September 2003 as Educational Opportunity Programs Month.

Res. Ch. 145 (ACR 125) Nation. Breast cancer.

This measure would designate the month of October as Breast Cancer Awareness Month, would designate October 17, 2003, as Breast Exam and Mammography Awareness Day, and would recognize the need for various actions to be taken in this regard.

Res. Ch. 146 (ACR 127) Steinberg. Court Adoption and Permanency Month.

This measure would proclaim November 2003 as Court Adoption and Permanency Month.

Res. Ch. 147 (ACR 128) Corbett. Juvenile courts.

This measure would recognize the one hundredth anniversary of California's juvenile courts.

Res. Ch. 148 (ACR 130) Longville. Railroad Safety Week.

This measure would designate the week of September 8th to September 14th as "Railroad Safety Week."

Res. Ch. 149 (ACR 132) Correa. Red Ribbon Week.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would proclaim October 25 through October 31, 2003, as Red Ribbon Week, and would encourage all Californians to help build drug-free communities.

Res. Ch. 150 (ACR 134) Cogdill. California Small and Rural Telecommunications Week.

This measure would declare the week of September 15 through 21, 2003, to be California Small and Rural Telecommunications Week.

Res. Ch. 151 (ACR 136) Berg. Assisted Living Week.

This measure would declare September 7 to 13, 2003, as Assisted Living Week and encourages all citizens to visit friends and loved ones who reside in assisted living communities and to learn more about this valuable service.

Res. Ch. 152 (ACR 137) Liu. Literacy.

This measure would recognize California Literacy, Inc. for its contributions in the area of adult literacy, would recognize September 8, 2003, as International Literacy Day, and would commend California Literacy, Inc. for launching its Cities That Read public awareness campaign on International Literacy Day.

Res. Ch. 153 (ACR 138) Nakano. Prostate Cancer Awareness Month.

This measure would designate September 2003 as Prostate Cancer Awareness Month.

Res. Ch. 154 (AJR 7) Longville. Candidates for elective office.

This measure would memorialize the federal government to adopt policies that provide for increased coverage of political issues leading up to elections.

Res. Ch. 155 (AJR 38) Firebaugh. Federal formula grants and other federal expenditures to states.

This measure (1) would request the California congressional delegation to use the opportunities provided by this year's reauthorization of several federal formula grant programs to relieve the disparity between the amount of taxes California pays to the federal government and the amount the state receives in return in the form of federal formula grants and other federal expenditures to bring needed federal revenue to all residents of the state to support various state needs, and (2) would request the President of the United States to resume publishing the ''Budget Information for States.''

Res. Ch. 156 (AJR 40) Plescia. Chaldeans in Iraq.

This measure would declare that it is a matter of urgent and enduring importance that Chaldeans be given a seat of recognition at the table during negotiations regarding the postconflict restructuring in Iraq and would memorialize California's Senators and Members of the House of Representatives to take all prudent and necessary steps to ensure that this matter is addressed at the highest levels of the federal government.

Res. Ch. 157 (AJR 46) Shirley Horton. Congressional displays: child art.

This bill would memorialize the Congress of the United States to establish a public space for the display of children's thoughts, ideas, and artwork to Congress.

Res. Ch. 158 (AJR 48) Liu. Women's Equality Day.

This measure would memorialize the Congress and the President of the United States to uphold protections of women's equality and to encourage all Americans to participate in the celebration of Women's Equality Day on August 26, 2003, the 83rd anniversary of the passage of the Nineteenth Amendment to the United States Constitution, which gave women the right to vote.

Res. Ch. 159 (AJR 49) Dymally. Immigration: Hermenegildo Ortega.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would respectfully request United States Attorney General, John Ashcroft, to permit Hermenegildo Ortega to be readmitted to the United States in order to care for certain children, including his HIV-infected ward.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF RESOLUTION ADOPTED IN 2003

2003–04 FIRST EXTRAORDINARY SESSION

RESOLUTION CHAPTER

Res. Ch. 1 (SCR 2) Burton. Final adjournment: 2003–04 First Extraordinary Session.

This measure would provide that the 2003–04 First Extraordinary Session of the Legislature shall stand adjourned sine die at midnight on the date that this measure has been adopted by both houses of the Legislature.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF RESOLUTION ADOPTED IN 2003

2003–04 SECOND EXTRAORDINARY SESSION

RESOLUTION CHAPTER

Res. Ch. 1 (SCR 2) Burton. Final adjournment: 2003–04 Second Extraordinary Session.

This measure would provide that the 2003–04 Second Extraordinary Session of the Legislature shall stand adjourned sine die at midnight on the date that this measure has been adopted by both houses of the Legislature.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF RESOLUTIONS ADOPTED IN 2003

2003–04 THIRD EXTRAORDINARY SESSION

RESOLUTION CHAPTERS

None.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF RESOLUTIONS ADOPTED IN 2003

2003–04 FOURTH EXTRAORDINARY SESSION

RESOLUTION CHAPTERS

None.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF PROPOSED CONSTITUTIONAL AMENDMENT ADOPTED IN 2003

2003–04 FIFTH EXTRAORDINARY SESSION

RESOLUTION CHAPTER

Res. Ch. 1 (ACA 5) Oropeza. State finance.

(1) Existing provisions of the California Constitution require the Governor to submit annually to the Legislature, and prescribe procedures for the Legislature to enact and send to the Governor, a Budget Bill for each fiscal year.

This measure would provide, commencing in the 2004–05 fiscal year, that if, following the enactment of the annual Budget Bill, the Governor determines that General Fund revenues will decline substantially below the estimate of General Fund revenues upon which the Budget Bill for that fiscal year, as enacted, was based, as described below, or that General Fund expenditures will increase substantially above that estimate of General Fund revenues, or both, the Governor may issue a proclamation declaring a fiscal emergency and the Governor shall thereupon cause the Legislature to assemble in special session for this purpose. The proclamation would identify the nature of the fiscal emergency and be accompanied by proposed legislation to address the fiscal emergency. It would provide that if the Legislature fails to pass and send to the Governor a bill or bills to address the fiscal emergency by the 45th day following the issuance of the proclamation, the Legislature may not act on any other bills, nor may the Legislature adjourn for a joint recess, until that bill or those bills have been passed and sent to the Governor.

(2) Existing provisions of the California Constitution require the Governor to submit to the Legislature a budget, as specified.

This measure would prohibit the Legislature from sending to the Governor for consideration, and the Governor from signing into law, a Budget Bill for the 2004–05 fiscal year or any subsequent fiscal year that would appropriate from the General Fund, for that fiscal year, a total amount that, when combined with all appropriations from the General Fund for that fiscal year made as of the date of the Budget Bill's passage and the amount of any General Fund moneys transferred for the fiscal year to the Budget Stabilization Account described in (3) below, exceeds General Fund revenues for that fiscal year estimated as of the date of the Budget Bill's passage as set forth in the Budget Bill.

(3) Existing provisions of the California Constitution require the Legislature to establish a prudent state reserve fund in an amount the Legislature deems reasonable and necessary.

This measure would, in addition, establish the Budget Stabilization Account in the General Fund and would require the Controller, commencing no later than September 30, 2006, and for each fiscal year thereafter to transfer from the General Fund to the account a specified percentage of estimated General Fund revenues. In each fiscal year the first 50% of these funds, up to $5,000,000,000 in the aggregate, would be deposited in a specified subaccount and continuously appropriated to the Treasurer to supplement the retirement of bonded indebtedness incurred under the measure described in (4) below. This measure would authorize the transfer to the General Fund, as specified, of other funds in the account, and funds remaining in the subaccount after the indebtedness is retired. The Governor would be authorized to reduce or suspend that transfer for any fiscal year by executive order.

(4) Existing provisions of the California Constitution prohibit the creation by the Legislature of debts in excess of $300,000 except for a single object or work specified in a law creating the debt, which is approved by a $^{2}/_{3}$ vote of the members of each house of the Legislature and approved by the people by a majority of the votes cast at a general or direct primary election.

This measure would, for the purposes of those provisions, define a "single object or work," for which the Legislature may create a debt or liability in excess of $300,000 subject to those requirements, to include the funding of an accumulated state budget deficit, as defined, pursuant to a specified bond measure submitted to the voters at the March 2, 2004, statewide primary election. This measure would prohibit the state from obtaining moneys, as specified, to fund a year-end state budget deficit subsequent to the issuance of any state bonds pursuant to that bond measure.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(5) This measure would provide that its provisions would become operative only if the specified bond measure is submitted to and approved by the voters at the March 2, 2004, statewide primary election.

NOTE: Superior numbers appear as a separate section at the end of the digests.

2003 DIGEST CHAPTERS SUPERIOR NUMBERS

1 [Ch. 157] I object to the following appropriations contained in Assembly Bill 1765.

Item 0250-490—Reappropriation, Judicial Council. I delete Provision 3.

I am deleting Provision 3 of this item as it is unnecessary and infringes on a process that is already well underway. The search process should be left up to the Judicial Council, in conjunction with the Department of General Services as the real estate experts, to determine the best site that meets the programmatic needs of the court who will ultimately reside on the property.

Item 3600-001-0001—For support of Department of Fish and Game. I revise this item by deleting Provision 2.

Provision 2 requires the Department of Fish and Game to develop a long-term sport fishing hatchery program and prohibits the Department from closing any fish hatcheries until January 1, 2004. This language inappropriately restricts administrative flexibility in addressing funding priorities with limited resources.

Item 3760-301-0005—For capital outlay, State Coastal Conservancy. I delete this item and Provisions 1, 2, and 3.

This language would exclude priority projects within San Luis Obispo and Santa Barbara counties from competing for these excess funds. I believe that any unencumbered balance from this Proposition 12 appropriation should revert to the Coastal Conservancy to be allocated to priority projects using established guidelines and criteria.

I am deleting Provisions 1, 2, and 3 to conform with this action.

Item 3860-496—Reversion, Department of Water Resources. I delete Provision 1 of this item.

I am deleting this language that would prohibit the transfer of funds from the General Fund to the Colorado River Management Account. A negotiated settlement of the Colorado River Quantification Settlement Agreement (QSA) is critical to ensure that the State's water needs are met. This language would weaken the Executive Branch's flexibility in negotiating with local water agencies that rely on water from the Colorado River, and reaching an ultimate agreement on the QSA.

Item 4120-001-0001—For support of Emergency Medical Services Authority. I delete Provision 1.

I am deleting Provision 1 because this language is not necessary. Provision 1 specifies that a reduction of $138,000 be made to State operations only, and not to local assistance. The Emergency Medical Services Authority has already identified State operations reductions of $68,000 General Fund in personal services and $70,000 in operating expenses and equipment from the Disaster Medical Services Division.

Item 4130-001-0632—For support of California Health and Human Services Agency Data Center. I delete Provision 6.

I am deleting Provision 6, which would require the California Health and Human Services Agency Data Center to reduce its rates by at least 8 percent to achieve total savings of approximately $20,000,000 in client departments' budgets. While I support the need for the Data Center to set rates that provide cost effective information technology services, this language would hamper the Data Center's ability to do so. Rates set by the Data Center are predicated on both costs and projected utilization. To the extent that client departments' funding for information technology is reduced, those departments would not have appropriate resources to pay for increased utilization. Any decrease in utilization from that projected in setting the rates would preclude the ability to actually lower the rates. This action conforms to my action on SEC. 9.70.

Item 4140-111-0236—For local assistance, Office of Statewide Health Planning and Development. I revise this item by deleting Provision 1.

In order to correct a technical error in the Budget Bill, I am deleting Provision 1, which would eliminate funding for the Rural Health Small Grants Program if legislation is enacted to amend the provisions of the Tobacco Tax and Health Protection Act (Proposition 99) to authorize Proposition 99 funds to be used to draw down federal funds for the Rural Health Demonstration Program within the Managed Risk Medical Insurance Board. Although legislation has been enacted to authorize the use of Proposition 99 funds for this purpose, there are sufficient Proposition 99 funds to provide funding for both programs in 2003–04. Therefore, I am sustaining the funding for the Rural Health Small Grants Program, which provides health care services to approximately 18,500 uninsured persons in rural areas of the State.

Item 4170-001-0001—For support of Department of Aging. I delete Provision 1.

I am deleting Provision 1 because it specifies that a reduction made to State operations cannot be allocated in a manner that affects State positions that provide direct services for the Department of Aging to the public or that administer the federal Older Americans Act programs. This language would restrict the Administration's ability to prioritize resources and deal with the legislative reduction based on programmatic needs of the Department of Aging.

Item 4220-001-0001—For support of Child Development Policy Advisory Committee. I delete this item.

I am deleting the legislative augmentation of $668,000 ($367,000 General Fund and $301,000 Reimbursements), 5.4 positions for administrative support, and funding for the Child Development Policy Advisory Committee. The Committee is no longer functioning as all positions are currently vacant. Further, other State entities can be consulted for policy information and recommendations regarding child development and child care issues, at no additional cost to the State.

Item 4260-101-0890—For local assistance, Department of Health Services. I reduce this item from $16,566,448,000 to $16,409,608,000.

I am reducing this item by $156,840,000 to correct a technical error in the Budget Bill. This technical veto is consistent with the Legislature's intent and legislative actions taken in this item.

Item 4440-101-0001—For local assistance, Department of Mental Health. I revise this item by reducing:

(1) 10.25-Community Services—Other Treatment $1,139,412,000 to $1,127,228,000

I am reducing Program 10.25 by $12,184,000 as a technical adjustment in order to conform to the legislative action to implement a 5-percent reduction to Mental Health Managed Care.

Item 5240-001-0001—For support of Department of Corrections. I reduce this item from $4,739,474,000 to $4,739,327,000 by reducing:

(3) 31-Community Correctional Program from $512,902,000 to $512,755,000.

I am sustaining the $2,600,000 legislative augmentation to implement a program to place inmates in residential aftercare treatment 120 days prior to release from prison, rather than upon parole. However, due to my strong concerns regarding public safety, I am directing the Department to develop regulations that clearly specify that inmates will not be eligible for this program who have been previously convicted of a serious or violent offense, or who are presently serving a sentence for a serious or violent offense.

I am sustaining the $45,000,000 legislative augmentation to implement a Substance Abuse Treatment Control Unit program for non-violent parole violators who are not

eligible for Proposition 36 and to implement a community detention program utilizing structured sanctions for other low-level parole violators. However, to ensure the safety of the citizens of California, I am directing the Department to develop regulations specifying that no individuals with an underlying serious or violent offense, or who have previously been convicted of a serious or violent offense will be eligible for these programs. In addition, these regulations are to specify that the community detention programs are only available if the parole violation is of a minor, technical nature.

I am deleting the $147,000 legislative augmentation for the Sexually Violent Predators (SVPs) Conditional Release program, which the Legislature requested be transferred from the Department of Mental Health to the Department of Corrections (CDC). SVPs are repeat sex offenders who are diagnosed with mental illnesses and ordered into inpatient treatment upon completion of their criminal sentences. The Conditional Release program is necessary to monitor offenders and protect the public when courts order SVPs released into the community. The supervision, monitoring, and clinical treatment provided to SVPs under conditional release are essential to ensuring public safety. It is unclear at this time whether the CDC is appropriately equipped to provide all of the supervision and treatment services for this population. However, I will instruct the departments to explore the most effective and least costly way to provide supervision for these SVPs.

Item 6110-001-0890—For support of Department of Education. I reduce this item from $129,929,000 to $129,304,000 and revise Provisions 9 and 24.

I am reducing the legislative augmentation for support of special education dispute resolution services amount by $123,000. This technical reduction eliminates funding for salary increases negotiated by the contractor. As the Budget provides for no augmentations for state employees, I believe it would be inequitable to fund salary increases for contracted employees. With this reduction, $10,140,000 remains available for dispute resolution services. I am revising Provision 9 to conform to this action.

''9. Of the funds appropriated in this item, ~~$10,263,000~~ *$10,140,000* is for dispute resolution services, including mediation and fair hearing services, provided through contract for the Special Education Program.''

I am reducing the $1,700,000 legislative augmentation for support of the Ravenswood City School Improvement Program by $502,000. This technical reduction reflects the payment recently made for this purpose through the legal claim process. With this reduction, $1,198,000 remains available to fully comply with the court-ordered payment for the State's share of monitoring this district's special education program. I am revising Provision 24 to conform to this action.

''24. Of the funds appropriated in this item ~~$1,700,000~~ *$1,198,000* shall be allocated to the Ravenswood City School District to support the costs of the court-ordered Ravenswood School Improvement Program.''

Item 6870-101-0001—For local assistance, Board of Governors of the California Community Colleges (Proposition 98). I revise this Item by revising Provision 2.

I am revising Provision 2 to delete language that would limit any apportionment reduction for a given community college district related to concurrent enrollment to no more than ten percent of the statewide amount in order to ensure an equitable allocation of the reductions. The ten percent limitation would result in potentially disproportionate reductions to other districts. The provision would still provide sufficient authority for the Chancellor to mitigate reductions in the event such reductions would threaten fiscal solvency, which I believe to be sufficient.

''2. Of the funds appropriated in Schedule (1), Apportionments:

(a) Up to $100,000 is for a maintenance allowance, pursuant to regulations adopted by the board of governors.

(b) Up to $500,000 is to reimburse colleges for the costs of federal aid repayments related to assessed fees for fee waiver recipients. This reimbursement only applies to students who completely withdraw from college before the census date.

(c) The amount appropriated in this item reflects a reduction of $25 million and approximately 6,500 full-time-equivalent students (FTES) based on a policy that revises allowable parameters for the claiming of state funding for concurrent enrollment. The chancellor shall allocate this reduction on a basis proportionate to the level of FTES reported by districts for concurrent enrollment in physical education, recreation, study skills, and personal development courses. However, nothing in this provision shall prohibit those districts from receiving growth allocations, as warranted, to the extent that designated funds are available~~. No district shall receive a funding reduction that exceeds 10 percent of the statewide total reduction made pursuant to this subdivision.~~ Further, the chancellor may limit the amount of reduction for a district if, in the judgment of the chancellor, the district's financial integrity otherwise would be jeopardized. The chancellor shall report to the Legislature and the Governor by January 1, 2004, on how the reduction was allocated.

(d) Notwithstanding any other provision of law or regulation, the chancellor shall not reduce district workload obligations for a lack of a funded cost-of-living adjustment.''

Item 7350-001-0001—For support of Department of Industrial Relations. I delete Provision 1.

I am deleting Provision 1 because it conflicts with Labor Code provisions, which direct the Industrial Welfare Commission to conduct public hearings in at least three California cities, as specified. This language would prevent the Commission to choosing the most cost effective venue for meetings.

I am sustaining the $27,095,000 augmentation which would provide partial year funding for the 80 percent General Fund share of workers' compensation program costs. This budget assumes that the 100 Percent User Funding proposal that I proposed in December will be enacted as a part of a larger workers' compensation reform package. I have already stated my support and intent to enact reforms in the workers' compensation system. I view this budget augmentation as a signal that the Legislature intends to include 100 Percent User Funding in the workers' compensation reform package. If user funding is not included in those reforms and enacted in a timely fashion, the Department will incur a significant General Fund deficiency.

Item 8100-101-0001—For local assistance, Office of Criminal Justice Planning. I delete Provision 3.

I am deleting Provision 3, as a technical correction, which would require the Office of Criminal Justice Planning to maintain all matching federal discretionary funds for the Homeless Youth Project and the Youth Telephone Emergency Referral Program for at least this fiscal year. This language is unnecessary since Schedules (4) and (5) of this item provide appropriations specifically intended to support the Homeless Youth Project and Youth Telephone Emergency Referral Program, including the use of these funds to match any available federal funds.

Item 8180-101-0001—For local assistance, payment to counties for costs of homicide trials. I delete Provision 3.

I am deleting Provision 3, which allows Stanislaus County to be reimbursed for 100 percent of its costs associated with the homicide trial of the People v. Scott Peterson. There is an existing procedure by which counties can procure reimbursements for

costly homicide trials. Stanislaus County can apply for funds for this trial through that procedure; therefore this language is unnecessary.

Item 9210-103-0001—For local assistance, Local Government Financing. I delete this item and Provisions 1, 2, 3, and 4.

I am deleting this legislative augmentation, which restored $500,000 of my proposed elimination of the special supplemental subventions for redevelopment agencies. These resources were provided to ensure that debt obligations supported by the special supplemental subventions would not be harmed. If redevelopment agencies have debt secured by that funding, there is an established process to ensure that they are not harmed.

I am deleting Provisions 1, 2, 3, and 4 to conform to this action.

SEC. 9.70—Information Technology Savings from Reduced Rates at the Health and Human Services Agency Data Center. I delete this Control Section.

I am deleting this control section because it would require that (1) the Health and Human Services Agency Data Center reduce its rates by 8 percent, (2) the approximate $20 million in resultant savings be reduced from client department budgets for information technology, (3) the Department of Finance (Finance) capture the resultant savings and revert the funding to the appropriate fund, and (4) Finance report to the Legislature on adjustments be made by November 1, 2004. While I support the need for the Data Center to set rates that provide cost effective information technology services, I believe this control section would hamper the Data Center's ability to do so. Rates set by the Data Center are predicated on both costs and projected utilization. To the extent that client department's funding for information technology is reduced, those departments would not have appropriate resources to pay for increased utilization. Any decrease in utilization from the projected levels would preclude the ability to actually lower the rates. Additionally, the requirement for the Data Center to reduce its rates is unnecessary, because the Data Center plans to reduce rates by an average of 8 percent for 2003–04.

With the above deletions, revisions, and reductions, I hereby approve Assembly Bill 1765.

GRAY DAVIS, Governor

NOTE: Superior numbers appear as a separate section at the end of the Statutory Record.

1999–2003 Superior Numbers

* Effective immediately.
1 Operative January 1, 2000.
2 Repeal operative January 1, 2000.
3 Contingent effect.
4 Inoperative July 1, 2001.
5 Repeal operative January 1, 2002.
6 Operative for taxable years beginning on or after January 1, 1998.
7 Repeal operative August 7, 1999.
8 Operative January 1, 2002.
9 Paragraphs (1) to (3), inclusive, of subdivision (b) shall not become operative unless and until the Regents of the University of California adopt a resolution within the meaning of Sections 92851, 92856, and 99221 of the Education Code.
10 Operative when Los Angeles County Board of Supervisors, by resolution adopted by majority vote, makes provisions of this section applicable in the county.
11 Inoperative July 31, 1999.
12 Inoperative July 1, 1999.
13 Repeal deleted by amendment.
14 Inoperative January 1, 2001.
15 Repeal operative July 1, 1999.
16 Operative July 1, 1999.
17 Operative pursuant to the provisions of Sec. 25390.9 of the Health and Safety Code, as added by Ch. 23, Stats. 1999.
18 Repeal operative January 1, 2005.
19 Repeal operative January 1, 2004.
20 Repeal operative January 1, 2003.
21 Inoperative July 1, 2002.
22 Operative January 1, 2004.
23 In effect until the effective date of the Budget Act of 2000 or June 30, 2000, whichever occurs later.
24 Repeal operative January 1, 2001.
25 Operative January 1, 2001.
27 Repeal operative on June 30, 2000, or on the day following the execution of the transfers required under Sections 4, 5, and 6 of Chapter 85 of the Statutes of 1999, whichever date is first.
28 Operative on June 30, 2000, or on the day following the execution of the transfers required under Sections 4, 5, and 6 of Chapter 85 of the Statutes of 1999, whichever date is first.
29 Not operative unless an amendment to the California Constitution is placed on the ballot by the Legislature and is approved by the statewide electorate during the 2000 calendar year, that would do as specified in Sec. 11 of act.
30 Any section of any act enacted by the Legislature during the 1999 calendar year that takes effect on or before January 1, 2000, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 1999 calendar year and takes effect on or before January 1, 2000, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
31 Inoperative June 30, 2000.

32 Operative only if an appropriation is made for its purposes in the Budget Act of 1999, or in another statute enacted during the first calendar year of the 1999–2000 Regular Session, and shall be funded exclusively with funds appropriated thereby.
33 Effective only until the effective date of the Budget Act of 2000 or July 1, 2000, whichever occurs later.
34 Operative January 1, 2003.
35 Operative July 1, 2002.
36 Inoperative date deleted by amendment.
37 See Governor's Item Veto Message.
38 Repeal operative January 1, 2010.
39 Repeal operative July 1, 2000.
40 This section prevails over the same-numbered section as added to the Water Code by Ch. 92, Stats. 1999.
41 Repealed as of the date the relinquishment authorized under subd. (b) becomes effective.
42 Subdivision (m), paragraph (1) shall become inoperative when the State Department of Health Services has obtained all necessary federal approvals pursuant to Welfare and Institutions Code Section 14132.95, subdivision (j), paragraph (3).
43 Repeal operative January 1, 2006.
44 Operative March 1, 2000.
45 Inoperative July 1, 2000.
46 Subdivision (b), paragraph (1) shall become inoperative January 1, 2005.
47 The changes to subdivision (c) made by the act adding this subdivision shall apply to each taxable year beginning on or after January 1, 1999.
48 Inoperative on the effective date of the relinquishment by the California Transportation Commission to the City of Downey of the portion of Route 19 located between Gardendale Street and Telegraph Boulevard within the city.
49 Operative January 1 following the effective date of the relinquishment by the California Transportation Commission to the City of Downey of the portion of route 19 located between Gardendale Street and Telegraph Boulevard within the city.
50 Operative as of the effective date of the relinquishment by the California Transportation Commission to the City of Downey of the portion of Route 19 located between Gardendale Street and Telegraph Boulevard within the city, pursuant to subdivision (c) of Section 319, as that section read on the day before it was repealed pursuant to the act that added this section during the 1999–2000 Regular Session.
51 Operative November 1, 2000.
52 Repeal operative on effective date of a final judgment based on a claim under California or United States Constitution holding that evidence that is relevant, reliable, and material may not be considered for purposes of a judicial determination of factual innocence under this section.
53 In the event that the Department of Finance determines that the program operated under the authority of the waiver described in subd. (aa), para. (2) is no longer cost-effective, subd. (aa) shall become inoperative on the first day of the first month following the issuance of a 30-day notification of that determination in writing by the Department of Finance to the chairperson in each house that considers appropriations, the chairpersons of the committees, and the appropriate subcommittees in each house that considers the State Budget, and the Chairperson of the Joint Legislative Budget Committee.
54 Inoperative date repealed.
55 Not operative in any county until the time the board of retirement, by a majority vote, makes this section applicable in the county.
56 Operative July 1, 2000.

57 Termination date repealed.
58 Repeal operative January 1, 2006. However, if, in any calendar year the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 9.5 (Sec. 18805 et seq.)) made on returns filed in that calendar year will be less than $250,000, or the adjusted amount specified in RTC 18808(c), as may be applicable, then this section is repealed with respect to taxable years beginning on and after January 1 of the calendar year.
59 Inoperative date for para. (9) of subd. (b) deleted by amendment.
60 Repeal operative January 1, 2005. However, if the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 3 (Sec. 18721 et seq.)) made on returns filed in that calendar year will be less than $250,000 for taxable years beginning in 2001, or the adjusted amount specified in RTC 18724(c) for any subsequent taxable year, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
61 The changes made to RTC 23305.5 by this act shall apply to taxable years beginning on or after January 1, 1997.
62 Inoperative June 30, 2003.
63 Operative January 1, 2005.
64 The provisions of this act shall become operative on the first day of the first calendar quarter commencing more than 90 days after the effective date of this act.
65 Repeal operative January 1, 2005. If, in any calendar year, the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 6 (Sec. 18761 et seq.)) made on returns filed in that calendar year will be less than $250,000 for taxable years beginning in 2000, or the adjusted amount specified in RTC 18766(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on and after January 1 of that calendar year.
66 Inoperative not later than 60 days from the date the Director of Transportation receives notice from the United States Secretary of Transportation that future operation of this section will result in a reduction of the state's share of federal highway funds pursuant to Section 131 of Title 23 of the United States Code.
67 Operative on January 1 immediately following the date the Secretary of State receives the notice required under paragraph (2) of this section.
68 Repeal operative January 1, 2008.
69 Operative January 1, 2008.
70 Inoperative July 1, 2004.
71 Amendments to section not implemented until July 1, 2001, unless otherwise authorized by the Department of Information Technology pursuant to Executive Order D-3-99.
72 Repeal operative January 1 of the fifth taxable year following the first appearance of the Birth Defects Research Fund on the tax return or January 1, 2007, whichever occurs first. If, in any calendar year after the first taxable year the Birth Defects Research Fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions described in this article made on returns filed in that calendar year will be less than $250,000, or the adjusted amount specified in subd. (c), RTC Sec. 18865 for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
73 Inoperative July 1, 2003.
74 Repeal operative June 30, 2005.
75 Repeal operative January 1, 2007.

76 Operative January 1, 2001, with respect to any cash register or other machine or device that electronically prints receipts for credit card transactions that is first put into use on or after January 1, 2001; operative January 1, 2004, with respect to any cash register or other machine or device that electronically prints receipts for credit card transactions that is in use before January 1, 2001.
77 Inoperative January 1, 2000.
78 Repeal operative January 1 of an unspecified year.
79 Inoperative July 1, 2005.
80 Operative January 1, 2006.
81 Operative July 1, 2005.
82 Not operative.
84 The changes made to subdivision (b) during the 1999 portion of the 1999–2000 Regular Session of the Legislature shall be operative in any fiscal year only if funds are appropriated for purposes of those changes in the annual Budget Act or in another measure.
85 The changes made to subdivision (a) during the 1999 portion of the 1999–2000 Regular Session of the Legislature shall be operative in any fiscal year only if funds are appropriated for purposes of those changes in the annual Budget Act or in another measure.
86 The change made to subdivision (c) during the 1999 portion of the 1999–2000 Regular Session of the Legislature shall be operative in any fiscal year only if funds are appropriated for purposes of that change in the annual Budget Act or in another measure.
87 Operative only if there is an appropriation in the Budget Act to fund the provisions of this act.
88 Operative by voter approval of the Veterans' Homes Bond Act of 2000, as set forth in Section 2 of this act (M&VC Ch. 2 (Sec. 1100 et seq.)), at the March 7, 2000, statewide primary election, Prop. 16.
89 Approved by voters at March 7, 2000, election, Prop. 16.
90 Approved by voters at March 7, 2000, election, Prop. 12.
92 Operative in the County of San Diego when the board of supervisors adopts a resolution declaring this section operative.
93 Operative only if the federal waiver identified under Section 14495.10 of the Welfare and Institutions Code is approved by the federal Health Care Financing Administration.
94 Paragraphs (2) and (3) of subdivision (b) inoperative January 1, 2001.
95 Repeal operative July 1, 2003.
96 Operative July 1, 2001.
98 Inoperative July 1, 2006.
99 Subdivision (g) operative January 1, 2001.
100 Operative January 1, 2007.
101 Clause (iv), of subparagraph (B), of paragraph (4), of subdivision (d), of this section shall be operative for the 1999–2000 fiscal year only to the extent that moneys are appropriated for purposes of that clause in the Budget Act of 1999 by an appropriation that specifically references that clause.
103 In effect as long as Section 42 of the Internal Revenue Code, relating to low-income housing credits, remains in effect.
104 Operative June 1, 2001.
105 Subdivision (*l*) operative January 1, 2001.
106 Applicable to taxable years beginning on or after January 1, 1999.
107 Operative only when funds are specifically appropriated for the purposes of the California YouthBuild Act.
110 Prevails over and supersedes Chapter 461, Statutes of 1999, Reg. Sess., with regard to this section.

111 Repeal operative January 1, 2011.
112 This act shall become effective on January 1, 2000, and shall become operative on the date that the Governor, by executive order, establishes the Department of Managed Care or July 1, 2000, whichever occurs first.
113 Inoperative date for subdivision (p) deleted by amendment.
114 Any section of any act enacted by the Legislature during the 1999 calendar year that takes effect on or before January 1, 2000, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.
115 Operative as of the date of approval by the governing board of the Los Angeles Unified School District of the contract to provide air-conditioning to 150 schools within the district.
116 Subdivision (a), paragraph (2) is repealed on January 1, 2005.
117 Operative only for as long as Fam C Sec. 17704 requires participating counties to report data to the department.
118 Operative July 1, 1998.
119 Paragraph (1) subd. (a) inoperative January 1, 2000. Paragraph (2) subd. (a) operative January 1, 2000.
120 Paragraph (1) subd. (c) inoperative January 1, 2000. Paragraph (2) subd. (c) operative January 1, 2000.
121 Applicable on and after the property tax lien date on January 1, 2000.
122 Subdivision (e) of this section shall become operative on July 1, 2000, and shall be implemented only to the extent that funds are appropriated for its purposes in the Budget Act.
123 Approved by voters at March 7, 2000, election, Prop. 13.
124 This section shall remain in effect only until the operative date of the independent review process established by Chapter 533 of the Statutes of 1999, and as of that date is repealed.
127 Not operative unless the Board of Administration of the Public Employees' Retirement System adopts a resolution that does both of the following: (A) employs, for the June 30, 1998, valuation, 95 percent of the market value of assets of the state employer as the actuarial value of the assets; and (b) amortizes the June 30, 1998, excess assets over a period of 20 years, beginning July 1, 1999.
129 Subdivision (a) shall only become operative upon a determination by the Director of Finance that funds are available to make an adjustment pursuant to subdivision (h) of EDC Sec. 60640.
130 Repeal operative August 1, 2000.
131 Inoperative on the date that the director executes a declaration stating that Section 11265.2 of the Welfare and Institutions Code, as added by the act adding this subdivision, is fully implemented statewide, and shall be repealed on January 1 of the year following the year in which it becomes inoperative.
132 Paragraph (2) of subdivision (a) inoperative January 1, 2004.
133 Inoperative July 1, 2000, and repealed January 1, 2001, if all of the events described in Section 901 of the Pajaro River Watershed Flood Prevention Authority Act (Stats. 1999, Ch. 963) occur.
134 Applicable to taxable years beginning on or after January 1, 1998.
135 Applicable to income years beginning on or after January 1, 1998.
136 Applicable to taxable or income years beginning on or after January 1, 1998.
137 The amendments made to subdivision (a) shall apply to all income years for which the Franchise Tax Board may propose an assessment or allow a claim for refund.

138 Subdivision (h) shall remain operative until January 1, 2005, and as of that date shall be repealed.
139 Subdivision (m) shall remain operative only until January 1, 2005.
140 Operative on January 1 of the year following the year in which it becomes inoperative.
142 Inoperative January 1, 2005, or on such earlier date as the Board of Administration of the Public Employees' Retirement System makes a formal determination that HMOs are no longer the most cost-effective health care plans offered by the board.
143 Repealed as of January 1 following the Secretary of State's submittal to the Legislature of the report regarding the special handling fee charged for preclearance documents and expedited filings provided for in Gov. C. Sec. 12208.
144 Any section of any act enacted by the Legislature during the 1999 calendar year that takes effect on or before January 1, 2000, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more of Sections 3 to 18, inclusive, of this act shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 1999 calendar year and takes effect on or before January 1, 2000, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
145 Repeal operative December 31, 2002.
146 Inoperative April 1, 2005.
147 Subdivision (e) of this section shall be operative only until January 1, 2003.
148 Inoperative February 1, 2000.
149 Inoperative June 30, 2001.
152 Repealed on January 1 of the fifth taxable year following the notification required under subd. (a) of Sec. 18821, RTC, unless a later enacted statute, which is enacted before that date, deletes that date. However, if, in any calendar year, beginning in the year 2001, the Franchise Tax Board estimates by September 1 that contributions described in Art. 11, Ch. 3, Pt. 10.2, Div. 1 (Sec. 18821 et seq.) RTC, made on returns filed in that calendar year will be less than $250,000 then this section is repealed with respect to taxable years beginning on and after January 1 of that calendar year.
153 Subdivision (c) of this section inoperative December 31, 2001.
154 Subd. (b), paragraph (10) shall be operative only to the extent that funds for purposes of paragraph (10) are appropriated in the annual Budget Act.
155 Repeal operative April 1, 2000.
156 Operative December 31, 2003.
157 Not operative until the State Mining and Geology Board approves the County of Yolo implementing ordinance governing in-channel noncommercial extraction activities carried out pursuant to the Cache Resource Management Plan and notifies the Secretary of State in writing of that approval.
160 Rejected by voters at March 7, 2000, election, Prop. 15.
161 Repealed as of January 1 following the Secretary of State's submittal to the Legislature of the report regarding the special handling fee charged for preclearance documents and expedited filings provided for in Gov. C. Sec. 12182.
162 Second paragraph of subdivision (*l*) operative January 1, 2001.
163 Subparagraph (A) shall become inoperative on October 1, 2002.
164 Applicable to the entire 1999–2000 fiscal year, regardless of the effective date of act.
165 Approved by voters at March 7, 2000, election, Prop. 14.

166 This section shall prevail over Section 1874.8 of the Insurance Code as added by Chapter 884 of the Statutes of 1999 to the extent that it provides for the allocation and distribution of funds under the program established to target organized fraud activity.
167 Section 1874.8 of the Insurance Code as added by Chapter 885 of the Statutes of 1999 shall prevail to the extent that it provides for the allocation and distribution of funds under the program established to target organized fraud activity.
168 Section is inoperative if federal approval is not obtained for its implementation. Section shall also become immediately inoperative in the event there is a final judicial determination by any court of appellate jurisdiction or a final determination by the administrator of the federal Health Care Financing Administration that the supplemental reimbursement provided in this section must be made to any facility not described therein.
169 Amendments not operative unless the Board of Administration of the Public Employees' Retirement System adopts a resolution that does both of the following: (A) employs, for the June 30, 1998, valuation, 95 percent of the market value of assets of the state employer as the actuarial value of the assets; and (B) amortizes the June 30, 1998, excess assets over a period of 20 years, beginning July 1, 1999.
170 Rejected by voters at March 7, 2000, election, Prop. 30.
171 Rejected by voters at March 7, 2000, election, Prop. 31.
173 Amendments made to this section by the act adding subdivision (e) shall apply to income years beginning on or after January 1, 1999.
174 Inoperative January 1, 2006.
175 Operative July 1, 2003.
181 Proposed by Chapter 629, Statutes of 1998.
182 Proposed by Chapter 760, Statutes of 1998.
183 Proposed by Chapter 800, Statutes of 1998.
184 Proposed by Chapter 409, Statutes of 1998.
185 Operative upon passage of the ''Smaller Classes, Safer Schools and Financial Accountability Act'', approved by voters at November 7, 2000, general election, Prop. 39.
186 Approved by voters at November 7, 2000, election, Prop. 32.
187 Repeal operative July 1, 2005.
188 Effective January 1, 2003.
189 Inoperative June 30, 2010.
190 Subdivision (b) to (f), inclusive, shall be inoperative from the operative date of Subdivision (g) to June 30, 2001, inclusive.
191 Inoperative January 1, 2002.
192 Operative January 1, 2011.
193 Inoperative July 31, 2004.
194 Repeal operative July 1, 2001.
195 Operative June 30, 2001.
196 Inoperative June 30, 2006.
197 Inoperative September 1, 2003.
198 Inoperative June 30, 2004.
199 Repeal operative December 1, 2005.
200 Effective only until the effective date of the Budget Act of 2001 or June 30, 2001, whichever occurs first.
201 Paragraph (2) of subdivision (a) inoperative January 1, 2005.
202 Paragraph (1) of subdivision (d) operative for the 2000–01 fiscal year and each year thereafter unless otherwise provided in paragraphs (2), (3), (4), and (5).

203 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2000 calendar year and takes effect on or before January 1, 2001, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

204 Paragraph (4) of subdivision (b), subdivision (c), and paragraph (3) of subdivision (d) shall become inoperative, and are repealed as of December 31, 2001.

205 Repeal operative December 31, 2003.

206 Inoperative April 10, 2005.

207 Repeal operative July 1, 2006.

208 Repeal operative December 31, 2005.

210 Approved by voters at November 7, 2000, election, Prop. 34.

211 This section shall become effective with regard to the March 31 holiday only when the Department of Personnel Administration notifies the Legislature that the language contained in this section has been agreed to by all exclusive representatives, and the Department of Personnel Administration authorizes this holiday to be applied to employees designated as excluded from the Ralph C. Dills Act (Ch. 10.3 (Sec. 3512 et seq.), Div. 4, Title 1 of the Government Code), and the necessary statutes are amended to reflect this change.

214 Subdivision (e) of this section inoperative January 1, 2004.

215 Not operative in any county until such time as the board of supervisors shall, by resolution adopted by majority vote, make the provisions of this section applicable in that county.

216 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more of the sections affected by this act shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2000 calendar year and takes effect on or before January 1, 2001, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

217 Repeal operative January 1, 2003, except that the binding commitments in paragraph (5) of subdivision (e) shall remain in effect after that date.

218 Operative March 31, 2002.

219 Subdivision (d) operative only if the director executes a declaration, that shall be retained by the director, stating that the surety bonds described in this paragraph are commercially offered throughout the state and by more than one vendor.

220 Subdivision (a) operative only if the director executes a declaration, that shall be retained by the director, stating that the surety bonds described in this paragraph are commercially offered throughout the state and by more than one vendor.

222 Inoperative June 1, 2002.

224 Subdivision (c) of this section inoperative January 1, 2003.

225 Subdivision (g) shall become inoperative on January 1, 2007.

227 Inoperative on the date that all encumbrances incurred for the projects funded under paragraph (3) of subdivision (c) have been liquidated or on June 30, 2006, whichever date is later, and as of the January 1 immediately following that date is repealed.

228 Inoperative April 1, 2006.
229 Section not operative until (1) the City of Watsonville and the County of Santa Cruz both have housing elements in their respective general plans certified by the Department of Housing and Community Development and unless (2) either the City of Watsonville or the County of Santa Cruz takes any official action to amend or repeal the supermajority voting requirements as contained in the Memorandum of Understanding.
230 Effective retroactively to January 1, 2000.
231 Repeal operative January 1 of the fifth taxable year following the first appearance of the California Lung Disease and Asthma Research Fund on the tax return. If, in any calendar year after the first taxable year the fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions made on returns filed in that calendar year will be less than $250,000, or the adjusted amount specified in RTC Sec. 18835(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
232 Operative January 1, 2010.
233 Inoperative on (1) January 1, 2004, or (2) the date of adoption of an accreditation or designation by an agency of the state or federal government or by a voluntary national health organization of an HIV or AIDS specialist, whichever date is earlier.
234 Operative on January 1, 2004, or the January 1 following the date of adoption of an accreditation or designation by an agency of the state or federal government or by a voluntary national health organization of an HIV or AIDS specialist, whichever date is earlier.
235 Operative on (1) January 1, 2004, or (2) the date of adoption of an accreditation or designation by an agency of the state or federal government or by a voluntary national health organization of an HIV or AIDS specialist, whichever date is earlier.
236 The amendments to this section made by Stats. 2000, Ch. 442, prevail over the amendments made by this act.
238 The provisions of this act shall become operative on the first day of the first month commencing more than 90 days after the effective date of this act.
240 Repeal operative on one of the following dates, whichever comes first: (1) January 1, 2002; (2) The date that all motor carriers of passengers that operate regular service on the route described in subdivision (a) of this section operate only vehicles on that route that are fully accessible to disabled passengers who rely substantially on the use of wheelchairs; (3) The date that the memorandum of understanding described in Section 14035.57 is executed by all parties listed in that section.
241 Subdivision (d) inoperative on July 1, 2003.
242 Section is effective until such time as Gov. C. Sec. 3502.5 is amended to provide that a 30-percent or greater showing of interest by means of a petition requires an election regarding an agency shop, and a vote at that election of 50 percent plus one of those voting secures an agency shop arrangement, and as of that date is repealed.
243 Operative only if Gov. C. Sec. 3502.5 is amended to provide that a 30-percent or greater showing of interest by means of a petition requires an election regarding an agency shop, and a vote at that election of 50 percent plus one of those voting secures an agency shop arrangement.
244 Repeal operative January 2, 2006.
245 Subdivisions (b) and (d) operative July 1, 2001.
246 Operative September 1, 2001.

248 Repealed on the effective date of legislation implementing the San Diego Regional Government Efficiency Commission's plan for consolidation of regional agencies.

249 Section in effect only until January 1, 2006, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 2006, deletes or extends that date, or unless tax-increment moneys have, prior to that date, been received by the joint powers agency, in which case the date of repeal of this section shall be extended until the time that the joint powers agency shall expend these funds in accordance with this section.

250 Paragraph (4) of subdivision (d) inoperative July 1, 2004.

251 Approved by voters at March 5, 2002, election, Prop. 44.

252 Repeal operative January 1 of the third taxable year following the first appearance of the National World War II Veterans Memorial Trust Fund on the tax return. If, in any calendar year after the first taxable year the fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions made on returns filed in that calendar year will be less than $250,000, or the adjusted amount specified in RTC Sec. 18704(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.

253 Operative April 1, 2001.

255 Inoperative September 30, 2004.

256 Inoperative if federal approval is not obtained for implementation of this section.

257 Inoperative April 1, 2003.

258 Repeal operative January 31, 2003.

259 Operative three months after Contractors' State License Board adopts regulations referenced in paragraph (1) of subdivision (a) of this section.

260 This section supersedes Section 50898.2 of the Health and Safety Code, as added by Chapter 83 of the Statutes of 2000, which section shall not become operative.

262 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.

263 Subdivision (c) of this section inoperative January 1, 2004.

265 Operative when moneys are appropriated for deposit in the Rice Straw Demonstration Project Grant Fund, created pursuant to H & S C Sec. 39751, by the Legislature, or when moneys are transferred to that fund by any other entity.

267 Subparagraph (B) of paragraph (1) of subdivision (d) operative January 1, 2002.

268 The amendments made to Section 17052.2 of the Revenue and Taxation Code by this act shall apply to taxable years beginning on or after January 1, 2000.

269 Operative July 1, 2002, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001–02 fiscal year is equal to or greater than 3.5 percent. Otherwise this section shall become operative July 1, 2003.

270 Inoperative July 1, 2002, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001–02 fiscal year is equal to or greater than 3.5 percent. Otherwise section shall become inoperative July 1, 2003.

273 Section shall be operative as long as the district does not provide water, drainage services, electricity, flood control services, or sewage disposal services for domestic purposes for residents of the district, and shall become inoperative if the district commences to provide any of those services.

274 Inoperative July 1, 2003, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001–02 fiscal year is equal to or greater than 3.5 percent. Otherwise section shall become inoperative July 1, 2004.
275 Operative July 1, 2003, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001–02 fiscal year is equal to or greater than 3.5 percent. Otherwise section shall become operative July 1, 2004.
279 This section shall become operative upon the appropriation of sufficient funds in the Budget Act to implement this section.
280 Operative until January 1, 2004, and repealed as of that date.
281 Operative only during those fiscal years for which funds are appropriated in the annual Budget Act to implement this part, or are made available from contributions or donations from the sources identified in PRC Section 71101.
282 Subdivisions (b), (c), and (d) inoperative January 1, 2007.
283 Subdivision (d) not operative.
284 Inoperative June 1, 2010.
285 Inoperative April 1, 2002.
286 Operative April 1, 2002.
287 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2000 calendar year and takes effect on or before January 1, 2001, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
288 Inoperative November 30, 2004.
289 Operative for those years in which there is an appropriation from the General Fund in the Budget Act.
290 Operative pursuant to the provisions of Sec. 25390.9 of the Health and Safety Code, as amended by Ch. 912, Stats. 2000.
291 Operative only until the operative date of Chapter 861 of the Statutes of 2000.
292 Operative upon the operative date of Chapter 861 of the Statutes of 2000.
293 Operative for vehicle registrations that expire on or after December 31, 2001.
294 Effective July 1, 2001.
295 Conditional operation provision repealed.
296 Inoperative February 2, 2001.
297 Operative July 1, 2001, except that the additional vehicle license fee offset established by this section shall continue to be operative on or after July 1, 2001, with respect to those vehicle license fees with a final due date before July 1, 2001.
298 Operative retroactively to January 1, 2000.
299 Repeal operative March 1, 2006.
300 Inoperative July 1, 2008.
301 Operative January 1, 2009.
302 Inoperative on the date that all encumbrances incurred for the projects funded under paragraph (3) of subdivision (c) have been liquidated or on June 30, 2008, whichever date is later, and as of the January 1 immediately following that date is repealed.
303 Operative only until the effective date of the Budget Act of 2002 or June 30, 2002, whichever occurs later.
304 Except as provided in subdivision (b) of HSC Section 51455, this section shall not be operative on and after January 1, 2002.

305 Any section of any act enacted by the Legislature during the 2001 calendar year that takes effect on or before January 1, 2002, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2001 calendar year and takes effect on or before January 1, 2002, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

306 Inoperative date for paragraphs (2) and (3) of subdivision (b) deleted by amendment.

307 This section shall not be operative in any county until it is adopted by a majority vote of the board of supervisors.

308 Repeal operative January 1, 2004, or on the date that all motor carriers of passengers that operate regular service on the route described in subd. (a) of this section operate only vehicles on that route that are fully accessible to disabled passengers who rely substantially on the use of wheelchairs, whichever occurs first.

309 Effective retroactively to December 21, 2000.

310 Not operative unless and until the county board of supervisors, by resolution adopted by a majority vote, make this section operative in the county.

311 Inoperative if an unappealable court decision or judgment determines that specified conditions apply.

312 Repeal operative July 1, 2007.

313 Operative only to the extent that funds are appropriated for its purpose in the annual Budget Act.

314 Subdivision (p) (9) (B) shall only remain operative until the Sierra Valley District Hospital is annexed by the Eastern Plumas Health Care District or January 1, 2008, whichever occurs first.

315 Paragraph (1) of subdivision (b) shall not be effective with respect to the director appointed by the Santa Clarita Water Company until a court of competent jurisdiction issues a final decision holding that the Castaic Lake Water Agency acquired the property.

316 Subdivision (c) inoperative on and after January 1, 2007.

317 Repeal operative January 1, 2009.

318 Repeal operative January 1 of the fifth taxable year following the first appearance of the Lupus Foundation of America, California Chapters Fund on the tax return. If, in any calendar year after the second taxable year the Lupus Foundation of America, California Chapters Fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions described in this article made on returns filed in that calendar year will be less than two hundred fifty thousand ($250,000), or the adjusted amount specified in subd. (c), RTC Sec. 18840 for subsequent taxable years, as may be applicable, then this article is repealed with respect to taxable years beginning on or after January 1 of that calendar year.

319 Inoperative July 1, 2009.

320 Implemented January 1, 2003.

322 This section shall become inoperative after the lien date in 2012, and as of January 1, 2013, is repealed.

323 Repeal operative December 31, 2007.

324 Operative on the date the Director of Finance makes the determination described in subdivision (d) of Section 7152.7 of the Health and Safety Code.

325 Inoperative on the operative date of the regulations adopted by the California Integrated Waste Management Board pursuant to Section 48007.5.

326 Operative January 1 following the operative date of the regulations adopted by the California Integrated Waste Management Board pursuant to Section 48007.5.
327 Operative on the operative date of the regulations adopted by the California Integrated Waste Management Board pursuant to Section 48007.5.
328 Inoperative on the date the Director of Finance makes the determination described in subdivision (d) of Section 7152.7 of the Health and Safety Code.
330 Amendments to this section made by the act adding subdivision (s) shall apply only to taxable years beginning on or after January 1, 1994, except that paragraph (1) of subdivision (q), as amended, shall apply to taxable years beginning on or after January 1, 1993.
331 Subdivisions (a), (b), and (c) shall become operative on July 1, 2002. Subdivisions (d) and (e) shall become operative on July 1, 2002, or as soon thereafter as administratively feasible, as determined by the registrar, but not later than January 2, 2003.
332 Clause (xvi) of subparagraph (A) of paragraph (2) of subdivision (c) of Section 25160.2 of the Health and Safety Code shall not become operative unless Section 25163.2 of the Health and Safety Code, as that section is proposed to be added by Assembly Bill No. 1708 of the 2001–02 Regular Session, also becomes operative.
333 Inoperative upon the adoption by the Fish and Game Commission of a market squid fishery management plan and the adoption of implementing regulations pursuant to Section 8425, and repealed six months thereafter.
334 Inoperative on January 1, 2003.
335 Operative January 1, 2004, only if funding is approved in the Budget Act of 2003 for the purposes of increased reimbursements pursuant to this article.
336 Not implemented unless and until funds are appropriated by the Legislature in the annual Budget Act or another statute.
337 Repeal operative December 1, 2006.
338 Except for the provisions of subparagraph (C) of paragraph (3) of subdivision (a) of Section 1748.13 which shall become operative on January 1, 2002, this act shall become operative on July 1, 2002.
340 Operative on July 1, 2002, and only if funds are appropriated to the Department of Justice in the 2002–03 Budget Act for the purposes described in this article.
341 This part shall remain in effect only until January 1, 2004, and as of that date is repealed, provided that the interim report required by Section 38066 of the Revenue and Taxation Code is submitted to the Governor and the Legislature on or before December 1, 2002. If the interim report is not submitted to the Governor and the Legislature on or before December 1, 2002, this part shall remain in effect only until January 1, 2003, and as of that date is repealed.
342 Operative only if the Budget Act of 2001 for the 2001–02 fiscal year contains an appropriation for the Rural Transit System Grant Program.
344 Subdivisions (e) to (i), inclusive, shall become inoperative on January 1, 2006.
345 Inoperative March 31, 2004.
347 This section shall become inoperative on July 1, 2003, and as of January 1, 2004, is repealed, at which time the member's retirement contribution rate shall be restored to the levels in effect on August 30, 2001, as defined in Section 20687.
348 Inoperative July 1, 2011.
349 Repeal operative January 1, 2012.
350 Any section of any act enacted by the Legislature during the 2001 calendar year that takes effect on or before January 1, 2002, and that amends, amends and renumbers, add, repeals and adds, or repeals a section that is amended, added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.
351 Not operative in the county until the board of supervisors, by resolution adopted by a majority vote, makes the provisions of this section applicable in the county.
352 Repeal operative December 31, 2008.

353 Approved by voters at March 5, 2002, election, Prop. 40.
354 This section shall only be applicable to Los Angeles County and shall not become operative until the board of supervisors of that county elects, by resolution adopted by a majority vote, to make this section operative in the county.
355 Inoperative July 1, 2020.
356 Operative January 1, 2021.
357 Operative on the date that Assembly Constitutional Amendment No. 4 (Res. Ch. 87, Stats. 2001) is approved by the voters.
359 Effective on the earlier of July 1, 2003, or the effective date of regulations adopted by the California State Board of Pharmacy pursuant to B&PC Section 4127.
360 Operative upon the allocation of positions to the California State Board of Pharmacy for the implementation of the provisions of B&PC Article 7.5 (Sec. 4127 et seq.) in the annual Budget Act.
361 Operative January 1, 2005, or on the date the board of directors of the sanitation district notifies the Legislature that construction of a pipeline facility in the unincorporated portion of Yolo County is completed, whichever is later.
362 This chapter shall become effective at such time as it is adopted in substantially similar form by this state and one or more states, subject to specified conditions.
363 The changes made to subdivision (a) by the act adding paragraph (6) of subdivision (a) shall apply to taxable years beginning on or after January 1, 2001.
364 Inoperative April 1, 2003, unless the California Integrated Waste Management Board adopts and submits regulations governing the operation of organic composting sites to the Office of Administrative Law pursuant to subdivision (c) of Section 43209.1 of the Public Resources Code on or prior to that date.
365 Operative April 1, 2003, unless the California Integrated Waste Management Board adopts and submits regulations governing the operation of organic composting sites to the Office of Administrative Law pursuant to subdivision (c) of Section 43209.1 of the Public Resources Code on or prior to that date.
366 This section shall become operative only upon enactment into law of amendments to the Federal Internal Revenue Code to impose an excise tax on a transfer of structured settlement payment rights if the transfer is not approved by a court.
368 Subdivision (a) of this section shall become operative only if both of the following occur: (1) the Director of Motor Vehicles makes a written finding that the implementation of subdivision (a) is necessary to ensure that there is a sufficient and stable supply of rental cars available in California; and (2) the Executive Officer of the State Air Resources Board makes a written finding that the implementation of subdivision (a) will not result in a significant adverse impact upon air quality.
369 Any section of any act enacted by the Legislature during the 2001 calendar year that takes effect on or before January 1, 2002, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more of the sections affected by this act shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2001 calendar year and takes effect on or before January 1, 2002, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
370 Any section of any act enacted by the Legislature during the 2001 calendar year, other than Chapter 159 of the Statutes of 2001 (relating to maintenance of the codes), that takes effect on or before January 1, 2002, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.
371 Repeal operative December 1, 2007.

372 Subdivision (a) operative upon the effective date of the annexation of all or part of the Annexed Area by the City of Newport Beach.
373 Any section of any act enacted by the Legislature during the 2001 calendar year that takes effect on or before January 1, 2002, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.
374 This section shall remain in effect only until the date that the California Transportation Commission notifies the Secretary of State that sufficient funds have been generated to meet the obligations identified in paragraph (4) of subdivision (b) of Section 188.5 of the Streets and Highways Code, and repayment of any outstanding debt secured by tolls, and as of that date is repealed.
375 Repeal operative July 1, 2004.
376 Subdivision (e) effective until January 1, 2006.
377 This section shall become inoperative on the effective date of the relinquishment described in subdivision (c) or (d), whichever date is later, and as of January 1 following that date is repealed.
378 Operative on the later date, as between the effective date of the relinquishment by the California Transportation Commission to the City of Downey of the portion of Route 19 located between Century Boulevard and Telegraph Road within the City of Downey, pursuant to subdivision (c) of Section 319, and the effective date of the relinquishment by the commission to the City of Bellflower of the portion of Route 19 located between the southerly city limit of the City of Bellflower near Rose Avenue and Foster Road within the City of Bellflower, pursuant to subdivision (d) of Section 319, as that section read on the day before it was repealed pursuant to the act that amended this section during the 2001–02 Regular Session.
379 Subdivisions (c) and (d) and paragraph (3) of subdivision (e) shall become inoperative, and are repealed as of December 31, 2001.
381 Approved by voters at March 5, 2002, election, Prop. 41.
382 Inoperative January 1, 2004.
383 Applicable to taxable years beginning on or after January 1, 2002.
384 Inoperative July 1, 2010.
385 Operative December 2, 2002.
386 Operative only if ACA 9 of the 2001–02 Regular Session is adopted by the voters and amends the California Constitution by adding Section 2.5 to Article II thereof.
387 Repeal operative upon receipt of notice by Secretary of State of the Attorney General's determination that the Electricity Oversight Board has been abolished, merged with, or replaced by, another agency, or that the functions of the board have been duplicated by statute, executive order, or otherwise; or as of January 1, 2003, whichever is earlier.
388 Operative August 31, 2001.
389 Approved by voters at November 5, 2002, election, Prop. 46.
390 Operative March 6, 2002.
391 Operative July 1, 2004.
392 Subdivision (b) shall be operative only until January 1, 2005.
393 Inoperative when building standards become effective after approval by the California Building Standards Commission pursuant to H&SC Ch. 4 (Sec. 18935 et seq.) that permit the construction of structures that use baled straw as a loadbearing or nonloadbearing material and that are safe to the public.
394 Approved by voters at November 5, 2002, election, Prop. 47.
395 Effective only upon approval by the voters, at the 2004 direct primary election, of the Kindergarten-University Public Education Facilities Bond Act of 2004, as set forth in Section 31 of this act (Pt. 68.2 (Sec. 100800 et seq.), EDC).

396 Operative upon approval of the voters, at the November 2, 2004, statewide general election, of the Kindergarten-University Public Education Facilities Bond Act of 2004, as set forth in Section 31.5 of this act (Pt. 68.2 (Sec. 100800 et seq.), EDC), if the voters do not approve the Kindergarten-University Public Education Facilities Bond Act of 2004, as set forth in Section 31 of this act (Pt. 68.2 (Sec. 100800 et seq.), EDC), at the 2004 direct primary election.

397 Paragraph (1) of subdivision (a) shall become inoperative commencing on the effective date of the measure that amended this section to add this paragraph, and shall remain inoperative through the date of the 2004 direct primary election after which date paragraph (1) shall again become operative.

398 For taxable years beginning on or after January 1, 2002, Sections 529(c) and 529(e) of the Internal Revenue Code, as amended by Section 402 of the Economic Growth and Tax Relief Reconciliation Act of 2001 (P. L. 107-16) and Section 417 of the Job Creation and Worker Assistance Act of 2002 (P. L. 107-147), shall apply in lieu of subdivisions (b) and (c).

399 Subdivision (a) applies to taxable years ending after December 31, 1995.

400 Amendments apply for the same taxable years as the amendments made by Section 6007(f)(2) of the Internal Revenue Service Restructuring and Reform Act of 1998 (P. L. 105-206), unless those amendments specifically apply for federal purposes to a date prior to the specified date of incorporation, in which case they shall apply as of the specified date of incorporation.

401 Amendments apply for the same taxable years as the amendments made by Section 6013(a) of the Internal Revenue Service Restructuring and Reform Act of 1998 (P. L. 105-206), unless those amendments specifically apply for federal purposes to a date prior to the specified date of incorporation, in which case they shall apply as of the specified date of incorporation.

402 Amendments apply for the same taxable years as the amendments made by Section 6005(f) of the Internal Revenue Service Restructuring and Reform Act of 1998 (P. L. 105-206), unless those amendments specifically apply for federal purposes to a date prior to the specified date of incorporation, in which case they shall apply as of the specified date of incorporation.

403 Amendments apply to taxable years beginning on or after January 1, 1999.

404 Operative with respect to the same period as the federal law provision to which it conforms.

405 Inoperative October 31, 2002.

406 Operative April 1, 2003.

407 Implemented only to the extent funds are provided in the annual Budget Act.

408 Operative on the date the Secretary of State adopts uniform standards for storing and recording permanent and nonpermanent documents in electronic media, as required by Section 12168.7 of the Government Code.

409 Operative 30 days after the effective date of this act.

410 Subdivision (c) operative January 1, 2004.

411 Subdivision (b) operative January 1, 2004.

412 Not operative unless the Costa-Hawkins Rental Housing Act (Chapter 2.7 (commencing with Section 1954.50) of Title 5 of Part 4 of Division 3 of the Civil Code) is repealed.

413 Effective until December 1, 2006, or until all the moneys remaining in the Unlawful Sales Reduction Fund on January 1, 2006, have been appropriated by the Legislature for allocation to the Office of Criminal Justice Planning for funding the competitive grant program established under this section, whichever occurs later.

414 Inoperative June 30, 2005.

415 Operative January 1, 2004, only if moneys are appropriated on or before January 1, 2004, for the purposes of increased reimbursements pursuant to this article.

416 Operative January 1, 2004, only if moneys are appropriated on or before January 1, 2004, for each of the following purposes: (a) providing nutrition policy development grants pursuant to subdivision (c) of Section 49433; (b) support and technical assistance to school districts pursuant to Section 49433.5; (c) increasing meal reimbursements pursuant to Section 49430.5.

417 Operative upon voter approval of the Housing and Emergency Shelter Trust Fund Act of 2002, approved by voters at November 5, 2002, election, Prop. 46.

418 Subdivision (p) inoperative January 1, 2008.

419 Amendments to subdivisions (d), (e), (f), and (g) relating to advanced practices, that are made by the act adding subdivision (k), shall become operative no later than January 1, 2004, or on the date the California Board of Occupational Therapy adopts regulations pursuant to subdivision (h), whichever first occurs.

420 Operation contingent upon an appropriation from the Dealers' Record of Sale Special Account.

421 Inoperative on the date that a federal law or regulation is enacted that regulates notice requirements in the event of termination of electronic mail service.

422 Any section of any act, other than Senate Bill 1316, that is enacted by the Legislature during the 2002 calendar year that takes effect on or before January 1, 2003, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more sections affected by this act shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2002 calendar year and takes effect on or before January 1, 2003, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

423 Repeal operative January 1, 2015.

424 Inoperative July 1, 2007.

425 Subdivision (b) shall become inoperative on January 1, 2007, unless otherwise provided by a memorandum of understanding or agreement with a recognized employee organization.

426 Any section of any act enacted by the Legislature during the 2002 calendar year that does both of the following shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act: (a) takes effect on or before January 1, 2003; (b) amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, added, or repealed by this act.

427 Subdivision (e) inoperative January 1, 2007.

428 Any section of any act enacted by the Legislature during the 2002 calendar year that takes effect on or before the effective date of this act, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.

429 Repeal operative April 1, 2003.

430 Operative January 2, 2003.

431 Any section of any act enacted by the Legislature during the 2002 calendar year that takes effect on or before January 1, 2003, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2002 calendar year and takes effect on or before January 1, 2003, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

432 Operative only if all of the following conditions are met: (a) the petitioners in Sacramento Metropolitan Air Quality Management District, and Yolo Solano Air Quality Management District v. the United States Environmental Protection Agency, in the United States Court of Appeals for the Ninth Circuit (Petition Number 02-70848), move to withdraw from the lawsuit, with prejudice, on or before October 4, 2002; (b) the court issues an order granting that motion; and (c) the petitioners file a certified copy of that order with the Secretary of State.

433 Operative upon at least one of the following two events taking place, whichever occurs first, but in no event prior to July 1, 2004: (a) the amendment by Congress of subd. (f) of 42 U.S.C. Sec. 666 to statutorily require or authorize, in connection with the approval of state plans for purposes of federal funding, the adoption of the Uniform Interstate Family Support Act as promulgated by the National Conference of Commissioners on Uniform State Laws in 2001; (b) the approval, either generally or with specific application to California, by the federal office of Child Support Enforcement or by the Secretary of Health and Human Services, of a waiver, exemption, finding, or other indicia of regulatory approval of the Uniform Interstate Family Support Act, as promulgated by the National Conference of Commissioners on Uniform State Laws in 2001, in connection with the approval of state plans for purposes of federal funding.

434 Operative December 31, 2004.

435 Operative only if ACA 5 of the 2003–04 Fifth Extraordinary Session (Res. Ch. 1, Stats. 2003–04 (5th Ex. Sess.)) is submitted to and approved by the voters at the March 2, 2004, statewide primary election and the voters adopt the Economic Recovery Bond Act, as set forth in Section 3 of this act.

436 The amendments to this section made by the act adding this subdivision shall apply only to taxable years beginning on or after January 1, 2002.

437 Inoperative on January 1, 2003, and shall remain inoperative until January 1, 2006, at which time it shall become operative.

438 Operative only upon a determination by the Insurance Commissioner that the personnel positions needed to carry out the provisions of this article are in existence or have been authorized in the Budget Act of 2002 or a subsequent budget act. On and after January 1, 2003, the commissioner may accept applications from communications equipment vendors seeking licensure pursuant to this article. However, the commissioner shall not act upon the applications. If, prior to April 30, 2003, the commissioner receives 50 applications or less, the commissioner shall be deemed to have sufficient personnel to carry out the provisions of this article and this article shall immediately become operative.

439 A city or county shall not be required to comply with the amendments made by this act, relating to military readiness activities, military personnel, military airports, and military installations, until (1) an agreement is entered into between the United States Department of Defense or other federal agency and the State of California, through the Governor's Office of Planning and Research, for the federal government to fully reimburse all claims approved by the Commission on State Mandates and paid by the Controller that cities and counties would be eligible to file as a result of the enactment of this act; and (2) the city or county undertakes its next general plan revision. The amendments made by this act shall become inoperative on the January 1 following the date that the Director of Planning and Research executes a declaration stating that the agreement described above has been terminated by either party.

440 Any section of any act enacted by the Legislature during the 2003 calendar year that takes effect on or before January 1, 2004, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.

441 Amendments to this section shall be retroactive to July 1, 2001.
442 Paragraph (2) of subdivision (a) shall become inoperative January 1, 2006.
443 Operative only if the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 is approved by the voters at the November 5, 2002, statewide general election.
444 Implemented only to the extent that funds are appropriated for these purposes in the annual Budget Act or another measure.
445 Any section of Senate Bill 570, Assembly Bill 354, or Assembly Bill 1254 enacted by the Legislature during the 2003 calendar year that takes effect on or before January 1, 2004, and that amends, amends and renumbers, adds, repeals and adds, or repeals Section 830.1 of the Penal Code shall prevail over the amendments to Section 830.1 proposed by this act, whether enacted prior to, or subsequent to, the enactment of this act, and the amendments to Section 830.1 proposed by this act shall not become operative.
446 Operative January 1, 2013.
447 Operative July 1, 2004, and shall cease to be operative on the first day of the first calendar quarter commencing more than 90 days following a notification to the State Board of Equalization by the Director of Finance pursuant to subdivision (b) of Section 99006 of the Government Code.
448 Operative upon an appropriation of funds by the Legislature, or the allocation of existing discretionary funds by the Governor pursuant to Section 128(a) of the Workforce Investment Act of 1998 (29 U.S.C. Sec. 2853 (a)), for the specific stated purpose of establishing the California Savings and Asset Project.
449 Not operative unless appropriate funding, as determined by the Office of Statewide Health Planning and Development, is made available.
450 Paragraph (3) of subdivision (b) inoperative January 1, 2006.
451 Inoperative July 1, 2012.
452 The changes made by this act to subdivision (f) of this section shall become operative 90 days after the effective date of this act.
453 Subdivision (b) shall become inoperative on January 1, 2007.
454 Inoperative in the event, and on the date, of a final judicial determination by any court of appellate jurisdiction or a final determination by the administrator of the federal Centers for Medicare and Medicaid Services that the supplemental reimbursement provided in this section must be made to any facility not described in this section.
455 Operative only upon adoption by the Los Angeles County Board of Supervisors of a resolution by majority vote making the provisions of Article 10 of Chapter 1 of Part 4.7 of the Government Code applicable in that county.
456 Operative June 30, 2003.
457 Inoperative June 30, 2007.
458 Inoperative March 1, 2004.
459 Repeal operative June 1, 2006.
460 This section shall become inoperative on a date that is three years after the date that Section 5018.1 of the Public Resources Code is repealed, and, as of January 1 immediately following that inoperative date, is repealed.
461 Inoperative October 31, 2004.
462 Operative with respect to unpaid tax liabilities of high-risk collection accounts that are the subject of notifications made to eligible taxpayers on or after October 1, 2002, and before July 1, 2003.
463 Amendments made to this section by the act adding subdivision (c) shall apply only to taxable years beginning on or after January 1, 2002.
464 Inoperative on December 31, 2010, or the date on which the State Director of Health Services notifies, in writing, the Chairperson of the Joint Legislative Audit Committee and certifies that the city has awarded contracts for construction of each of the projects described in subdivision (b) of Section 73502 of the Water Code, whichever date is earlier.

465 Operative on January 1 immediately following the earlier of either December 31, 2010, or the date on which the State Director of Health Services notifies, in writing, the Chairperson of the Joint Legislative Audit Committee and certifies that the city has awarded contracts for construction of each of the projects described in subdivision (b) of Section 73502 of the Water Code.

466 Repeal operative January 1, 2008. If, in any calendar year, the Franchise Tax Board estimates by September 1 that contributions described in RTC Div. 2, Part 10.2, Ch. 3, Art. 8 (commencing with Sec. 18791) made on returns filed in that calendar year will be less than $250,000 for taxable years beginning in 1997, or the adjusted amount specified in subdivision (c) of RTC 18796 for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on and after January 1 of that calendar year.

467 Inoperative September 1, 2003, and repealed January 1, 2004, if the final report required by subdivision (e) is submitted to the Department of Finance and the Legislature on or before February 1, 2003.

468 Not operative until the Legislature appropriates funds necessary to implement this division (Div. 22.9, PRC), or until a bond act approved by the voters of this state includes an allocation of funds for the purposes of this division.

469 Repeal operative January 1, 2008. If, in any calendar year, the Franchise Tax Board estimates by September 1 that contributions described in RTC Div. 2, Part 10.2, Ch. 3, Art. 2 (commencing with Sec. 18711) made on returns filed in that calendar year will be less than $250,000 for taxable years beginning in 2002, or the adjusted amount specified in subdivision (c) of RTC 18716, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.

470 Operative only until the operative date of regulations that revise the regulations set forth in Chapter 3 (commencing with Section 100101) of Division 9 of Title 22 of the California Code of Regulations and that authorize an EMT-I to receive EMT-II training in administering naloxone hydrochloride without having to complete the entire EMT-II certification course.

471 Not operative in a city unless and until the city council or board of supervisors, by ordinance adopted by majority vote, makes this section operative in the city.

472 Not operative in a city, including a charter city, county, including a charter county, or city and county unless and until the city council or board of supervisors, by ordinance or resolution adopted by majority vote, makes this section operative in the city, county, or city and county.

473 Inoperative October 1, 2003.

474 Operative on the effective date of this act.

475 Inoperative August 1, 2004.

476 This act shall become operative on January 1, 2004, except that benefits shall be payable for periods of family temporary disability leave commencing on or after July 1, 2004.

478 Inoperative in any fiscal year in which Section 2550.1 of the Education Code is operative.

479 Operative only if the total appropriation for the support of trial court funding in Item 0450-101-0932 of the Budget Act of 2003, as enacted, is two billion one hundred eighty-six million eight hundred sixty-four thousand dollars ($2,186,864,000) or more and the total appropriation for support of trial court funding in Item 0450-111-0001 of the Budget Act of 2003, as enacted, is one billion one million one thousand dollars ($1,001,001,000) or more; and in that event, shall become operative on the 15th day after the effective date of this act or on July 1, 2003, whichever is later.

480 Operative only if the total appropriation for support of the judiciary in Item 0250-001-0001 of the Budget Act of 2003, as enacted, is two hundred eighty million four hundred ninety thousand dollars ($280,490,000) or more; and in that event shall become operative on the 15th day after the effective date of this act or July 1, 2003, whichever is later.
481 Subdivision (f) operative January 1, 2006.
482 Operative September 1, 2003.
483 Inoperative September 1, 2007.
484 Subdivision (f) shall become inoperative on September 1, 2007.
485 Operative July 1, 2006.
486 Repeal operative January 1, 2008. If, in any calendar year, the Franchise Tax Board estimates by September 1 that contributions described in RTC Div. 2, Part 10.2, Ch. 3, Art. 5 (commencing with Sec. 18741) made on returns filed in that calendar year will be less than $250,000 for taxable years beginning in 2002, or the adjusted amount specified in subdivision (c) of RTC 18744 for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on and after January 1 of that calendar year.
487 Operative upon approval of the Kindergarten-University Public Education Facilities Bond Act of 2002, approved by voters at November 5, 2002, election, Prop. 47.
488 Subdivision (g) operative until January 1, 2003.
489 Repeal operative January 1, 2018.
490 Any section of any act enacted by the Legislature during the 2002 calendar year, other than a section of Assembly Bill 3034, that takes effect on or before January 1, 2003, and that amends, amends and renumbers, amends and repeals, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, amended and repealed, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is chaptered before or after this act.
491 Repeal operative January 1 of the fifth taxable year following the first appearance of the Asthma and Lung Disease Research Fund on the tax return. If, in the second calendar year after the first taxable year the fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions made on returns filed in that calendar year will be less than $250,000, or the adjusted amount specified in RTC Sec. 18835(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
492 Subdivision (h) operative July 1, 2002, or the date that the program for accelerated enrollment coverage for children takes effect, whichever is later.
493 Repeal operative January 1, 2006, unless the Secretary of the Resources Agency determines that federal legislation has been enacted authorizing the participation of appropriate federal agencies in the California Bay-Delta Authority.
494 Paragraphs (1) and (2) of subdivision (b) inoperative for services provided after June 30, 2002.
495 Inoperative date of paragraph (3) of subdivision (a) deleted by amendment.
496 Effective only until July 1, 2003.
497 Operative after the Judicial Council adopts a rule of court, on or before July 1, 2004, to implement this section.
498 Paragraph (2) of subdivision (b) applies to taxable years beginning on or after January 1, 2004.
499 Operative January 1, 2004, or 120 days after Assembly Bill No. 1207 of the 2003–04 Regular Session is chaptered, whichever is later.
500 Paragraph (1) of subdivision (a) shall be implemented only to the extent that funds for these purposes are appropriated by the Legislature in the annual Budget Act or other statute.

501 Effective upon the adoption by the voters of the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century, as set forth in Section 2 of this act (Ch. 20 (commencing with Sec. 2704), Div. 3, SHC).

502 This section shall become inoperative on the operative date of any regulation adopted by the California Integrated Waste Management Board relating to ''inert waste removed from the solid waste stream and not disposed of in a solid waste landfill,'' as defined in subdivision (a)(2), if that regulation includes procedures to facilitate the counting of the inert waste for purposes of the disposal reporting system established under PRC Section 41821.5 when that inert waste is placed in a mine reclamation facility as fill material, and, as of January 1 immediately following that operative date, is repealed.

503 Repeal operative January 1, 2010. However, if the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 3 (Sec. 18721 et seq.)) made on returns filed in that calendar year will be less than $250,000 for taxable years beginning in 2001, or the adjusted amount specified in RTC 18724(c) for any subsequent taxable year, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.

504 Inoperative January 1, 2008.

505 Not operative unless and until a memorandum of understanding has been agreed to by the state employer and the recognized employee organization making this section applicable to those members described in subdivision (a).

506 Operative March 1, 2003.

507 This section prevails over Section 10540 of the Water Code, as added by Chapter 767 of the Statutes of 2002.

509 Subdivision (b) operative January 1, 2005.

510 Operative only if the Housing and Emergency Shelter Trust Fund Act of 2002, approved by voters at November 5, 2002, election, Prop. 46, contains authority to use bond proceeds for the purposes of this act.

511 Inoperative March 1, 2004.

512 Operative March 1, 2004.

513 Operative July 1, 2004.

514 Except as provided in Article 6 (commencing with Section 23100) of Chapter 3 of Division 10 of the Financial Code, the provisions of Division 10 (commencing with Section 23000) of the Financial Code shall become effective on January 1, 2003, and shall become operative on March 1, 2004. However, the Commissioner of Corporations shall have the power and authority to implement the provisions of Division 10 prior to March 1, 2004.

515 This section shall become operative only as provided in a declaration of the State Director of Social Services that federal Food Stamp Program waivers have been granted and specifying a date upon which counties shall implement this act.

516 Subdivision (e) of this section shall become inoperative June 1, 2005.

517 Subdivision (c) operative July 1, 2003.

518 Effective July 1, 2003.

519 Any section of any act enacted by the Legislature during the 2003 calendar year that takes effect on or before January 1, 2004, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2003 calendar year and takes effect on or before January 1, 2004, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

520 Implementation subject to the provision of funds for the purposes of this section in the Budget Act of 2002 or in another statute enacted during the 2001–02 Regular Session.
521 Implemented only during fiscal years for which an appropriation is provided for the purposes of this section in the annual Budget Act or in another statute.
523 Inoperative January 1, 2004, if the actual reserve balance in the Dealers' Record of Sale Special Account is $1,000,000 or more on January 1, 2004, as determined by the Department of Justice. If the reserve balance is not equal to $1,000,000 or more on January 1, 2004, as determined by the Department of Justice, these provisions shall become inoperative when the Department of Justice determines that the actual reserve balance in the Dealers' Record of Sale Special Account equals $1,000,000 or more.
524 Operative January 1, 2004, if the actual reserve balance in the Dealers' Record of Sale Special Account is $1,000,000 or more on January 1, 2004, as determined by the Department of Justice. If the reserve balance is not equal to $1,000,000 or more on January 1, 2004, as determined by the Department of Justice, these provisions shall become operative when the Department of Justice determines that the actual reserve balance in the Dealers' Record of Sale Special Account equals $1,000,000 or more.
525 The amendments to paragraph (1) of subdivision (e) made by this act shall be retroactive to June 30, 2002.
526 This section shall be implemented only to the extent sufficient funds for this purpose are appropriated by the Legislature in the annual Budget Act or other statute, or sufficient funds, as determined by the State Department of Mental Health, for the purposes of this section have been received pursuant to subdivision (d).
527 In effect until July 1, 2004.
528 This section shall prevail over same-numbered section as added by Chapter 812 of the Statutes of 2002.
529 Operation of subdivision (a) shall be suspended for the 2002–03 fiscal year.
530 Subdivision (e) shall not be operative if the total level of federal Community Services Block Grant funds is reduced more than 3.5 percent below the amount appropriated in the annual Budget Act.
531 Inoperative from July 1, 2002, to July 1, 2003, inclusive.
532 Inoperative March 31, 2005.
533 The amendments made to this section by the act adding this subdivision shall become operative six months after the date that act takes effect.
534 Operative only until the effective date of the Budget Act of 2003 or June 30, 2003, whichever occurs later, and, as of January 1, 2004, is repealed.
535 Not effective.
536 Amended by Governor's Reorganization Plan No. 1 of 2002. Effective July 2, 2002.
537 Added by Governor's Reorganization Plan No. 1 of 2002. Effective July 2, 2002.
538 Operative June 1, 2003.
539 Inoperative June 1, 2003.
540 Operative upon the effective date of Chapter 3 of the Statutes of 2003.
541 Inoperative June 30, 2009.
542 Inoperative July 1, 2036.
543 Operative January 1, 2037.
544 Inoperative on the effective date of this act.
545 Operation of subdivision (a) shall be suspended for the 2003–04, 2004–05, and 2005–06 fiscal years.
546 Inoperative July 1, 2013.
547 Repeal operative January 1, 2014.

548 Subdivisions (b), (c), and (d) inoperative for the 2003–04 fiscal year, pursuant to Section 43 of Chapter 227 of the Statutes of 2003.

549 Repeal operative July 1, 2010.

550 Subdivision (d) shall become inoperative upon full repayment or discharge of all moneys loaned from the California Teleconnect Fund Administrative Committee Fund in the Budget Act of 2003.

551 Subdivision (a) inoperative from July 1, 2003, to June 30, 2006, inclusive.

552 Paragraph (1) of subdivision (a) operative until June 30, 2004.

553 Repeal operative January 1, 2009. If, in any calendar year, the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 14 (Sec. 18851 et seq.)) made on returns filed in that calendar year will be less than $250,000 for taxable years beginning in 1999, or the adjusted amount specified in RTC 18855(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.

554 Paragraph (1) of subdivision (j) operative until June 30, 2004.

555 Operative only if moneys are appropriated for each of the following purposes: (a) providing nutrition policy development grants pursuant to subdivision (c) of Section 49433; (b) support and technical assistance to school districts pursuant to Section 49433.5; (c) increasing meal reimbursements pursuant to Section 49430.5.

556 Operative September 1, 2004.

557 Operative October 1, 2004.

558 Repeal operative June 30, 2004.

559 Operative on January 1, 2004, except that benefits shall be payable for family temporary disability insurance claims commencing on or after July 1, 2004.

561 Any section of any act enacted by the Legislature during the 2003 calendar year that takes effect on or before January 1, 2004, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more of the sections affected by this act, with the exception of Chapter 62 of the Statutes of 2003, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2003 calendar year and takes effect on or before January 1, 2004, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

562 Operative July 1, 2007.

563 Paragraph (1) of subdivision (c) and subdivision (d) inoperative on the date on which all bonds and ancillary obligations issued pursuant to this title are not outstanding, as certified by the Director of Finance pursuant to paragraph (1) of subdivision (b) of Section 99006.

564 If the amendments to paragraph (2) of subdivision (b) of Section 104557 of the Health and Safety Code made by Section 3 of this act are held by a court of competent jurisdiction to be unconstitutional, Section 3 of this act shall be deemed repealed, and paragraph (2) of subdivision (b) of Section 104557 of the Health and Safety Code shall be deemed to be in the form as it existed prior to the amendments made to that section by Section 3 of this act. Neither a holding of unconstitutionality of the provisions of Section 3 of this act, nor an implied repeal of the amendments to paragraph (2) of subdivision (b) of Section 104557 of the Health and Safety Code made by Section 3 of this act shall affect, impair, or invalidate any other portion of Section 104557 of the Health and Safety Code, or the application of that section to any other person or circumstance, and those remaining portions of Section 104557 of the Health and Safety Code shall at all times continue in full force and effect.

565 Paragraph (11) of subdivision (a) not operative if the California State Board of Pharmacy, prior to January 1, 2006, adopts regulations that mandate the same labeling requirements set forth in this paragraph.
566 Inoperative March 1, 2006.
568 Inoperative December 31, 2004.
570 Repeal operative June 30, 2007.
572 Operative only until the administrative director adopts a regulation specifying separate reimbursement, if any, for implantable medical hardware or instrumentation for complex spinal surgeries.
573 Any section of any act enacted by the Legislature during the 2003 calendar year that takes effect on or before the effective date of this act, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.
574 After notification to Legislature and Secretary of State that completion of California Department of Transportation Project Number 11-RIV-86, P.M. R22.0, 179800 has occurred, this section shall remain in effect only until July 1 after the then current fiscal year has elapsed or June 30, 2005, whichever is later, and as of the later of those dates this section is repealed.
575 Applicable to purchases of tangible personal property made on or after January 1, 2003, in taxable years beginning on or after January 1, 2003, and on or before December 31, 2009, and as of that date becomes inoperative, unless a later enacted statute extends the operation of this section.
576 Applicable to reporting of purchases of tangible personal property made on or after January 1, 2003, in taxable years beginning on or after January 1, 2003, and on or before December 31, 2009, and as of that latter date becomes inoperative, unless a later enacted statute extends the operation of this section.
577 Operative for returns filed for taxable years on and after January 1, 2003, and ending on or before December 31, 2009, and as of that date becomes inoperative, unless a later enacted statute extends the operation of this section.
578 Applicable to taxable years beginning on or after January 1, 2003.
579 Operative January 1, 2014.
580 Operative only if the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century (Ch. 20 (commencing with Sec. 2704), Div. 3, S.H.C.) is approved by the voters at the November 2, 2004, statewide general election.
581 This section shall be implemented to the extent funding is made available through the federal government, or in the annual Budget Act or another state statute, or any combination of any sources of funding.
582 Paragraphs (24) and (25) of subdivision (b) operative July 1, 2004.
583 Subdivisions (c), (d), (e), and (f) shall not become operative unless the parties have executed the Quantification Settlement Agreement on or before October 12, 2003.
584 Operative with respect to the University of California, the Franchise Tax Board, the California community college districts, the California State University system, and the California Student Aid Commission and its auxiliary organization as specified in subdivision (h).
585 Inoperative July 31, 2008.
586 Repeal operative January 1 of the fifth taxable year following the first appearance of the California Missions Foundation Fund on the tax return. If, in the second calendar year after the first taxable year the California Missions Foundation Fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions described in this article made on returns filed in that calendar year will be less than $250,000, or the adjusted amount specified in subdivision (c) for subsequent taxable years, as may be applicable, then this article is repealed with respect to taxable years beginning on or after January 1 of that calendar year.

587 Operative only if the bond measure described in Section 1.3 of Article XVI of the Constitution, as added by this measure, is submitted to and approved by the voters at the March 2, 2004, statewide primary election.
588 Operative June 30, 2005.
589 Inoperative on July 1, 2007, or on the date that the authority to transfer responsiblity for a court facility from a county to the Judicial Council pursuant to Section 70321 has lapsed, whichever is later, and as of the following January 1 is repealed.
590 Operative only until the effective date of the Budget Act of 2004 or July 1, 2004, whichever is later, and as of January 1, 2005, is repealed.
591 Subdivision (e) shall become inoperative upon full repayment or discharge of all moneys loaned from the California Teleconnect Fund Administrative Committee Fund in the Budget Act of 2003.
592 Operative if Section 6368.8 of the Revenue and Taxation Code is repealed and, in that event, shall become operative on the date that section is repealed.
593 Applicable to taxable years ending after October 10, 1999.
594 Applicable to taxable years beginning on or after January 1, 2003, except as provided in subdivision (c) of Section 15 of this act.
595 Inoperative in the event that Part 8.7 (commencing with Section 2120) of Division 2 of the Labor Code is held invalid.
596 Effective in any county or district only when the county board of supervisors or governing board of the district adopts an ordinance or resolution providing for that implementation, and shall become operative with respect to all safety members of the system on the date specified in the implementing ordinance.
597 Effective only until July 1, 2006.
598 Subdivision (c) operative July 1, 2004.
599 This act shall become operative only if Assembly Bill 97 of the 2003–04 Regular Session is enacted and takes effect.
600 Operative only if Assembly Bill 1179 of the 2003–04 Regular Session is enacted and takes effect, and that bill amends Section 6107 of the Government Code.

APPENDIX

COUNTY, CITY, AND CITY AND COUNTY CHARTERS AND CHARTER AMENDMENTS

as transmitted by the Secretary of State for inclusion in the official statutes in accordance with Section 3, Article XI, of the California Constitution as amended by vote of electors on November 5, 1974.

CHARTER AMENDMENTS—2003

Charter Chapter Number	City—County	Date of Election	Date of Filing
1	City of Folsom	Nov. 5, 2002	Jan. 6, 2003
2	City of Riverside	Nov. 5, 2002	Jan. 7, 2003

Charter Chapter 1—City of Folsom

Amendments to the Charter of the City of Folsom

[Filed with the Secretary of State January 6, 2003.]

SECTION 7.07 Meter Retrofits and Metered Rates:

A. Mandatory water meter retrofits either partially or wholly paid for by citizens are prohibited in the City of Folsom on single family residences existing prior to 1992. This provision does not in any way conflict with the provisions of Chapter 407 of Stats 1991, as codified within the California Water Code at Chapter 11, Section 110, and Chapter 8 commencing with Section 500.

B. The City shall establish a water rate which differentiates between pre-1914 water right costs and water supplied by contract with the Southern California Water Company (SoCal) and the federal water contract (Public Law 101–514, Section 206 or the "Fazio water"). Unmetered single family residences existing prior to 1992 shall be entitled to a flat rate of the City of Folsom's pre-1914 water right or a tiered rate with a high base line for pre-1992 residences, whichever is less. The rate for metered residences supplied by other contractors (SoCal and Fazio water) shall include the actual cost of the water, including treatment. All single family residences in Folsom except those served by the San Juan Water District may be charged for a prorated share of capital improvements and Water Forum obligations such as the acquisition of an alternative water supply during a period of drought.

Certified to be a true copy by Stephen E. Miklos, Mayor, and Christa Schmidt, Deputy City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 2—City of Riverside

Amendments to the Charter of the City of Riverside

[Filed with the Secretary of State January 7, 2003.]

Section 400 of Article IV is amended to read as follows:

Sec. 400. Enumerated; number, term and manner of election; wards.

(a) The elective officers of the city shall consist of a city council of seven members, elected from wards, and a mayor elected from the city at large, at the times and in the manner provided in this Charter, who shall serve for a term of four years and until their respective successors qualify. The terms of all officials, so elected, shall be deemed to have commenced on the fifth Tuesday following the general municipal election.

(b) The members of the city council shall be elected by wards by the registered voters of the respective wards only. One member of the city council shall be elected by each ward, and only the registered voters of each ward shall vote for the

member of the city council to be elected by that ward. In those wards where there are more than two candidates, only a candidate receiving a majority of the total votes cast for the office shall be declared elected.

(c) If in an election for member of the city council for any ward, or for the office of mayor, no candidate receives a majority of the total votes cast for the office, the city council shall immediately upon the determination of that fact, call a special election to be held on the tenth Tuesday following the general municipal election. The two candidates receiving the highest number of votes for the office in the general municipal election shall be declared the candidates for the special election.

(d) Officials elected at the general municipal election shall take office on the second Tuesday following completion of the canvass, but in no event later than the fifth Tuesday following the general municipal election. Officials elected at any other election shall take office on the second Tuesday following completion of the canvass, but in no event later than the fifth Tuesday following the election.

(e) The qualifications of candidates and electors and the procedure governing general municipal elections shall apply to any special election called pursuant to this section and the notice of election shall be published at least thirty days prior to the date of such special election.

Certified to be a true copy by Ronald O. Loveridge, Mayor, and Colleen J. Nicol, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 3—City of Riverside

Amendments to the Charter of the City of Riverside

[Filed with the Secretary of State January 7, 2003.]

Section 1109 of Article XI is amended to read as follows:

Sec. 1109. Public works contracts.

Every project for the construction and/or improvement of public buildings, works, streets, drains, sewers, utilities, parks or playgrounds, and every purchase of supplies or materials for any such project, when the total expenditures required for the same exceed $50,000 shall be let by the city council by contract to the lowest responsible bidder after notice by publication in a newspaper of general circulation within the city by one or more insertions, the first of which shall be at least ten days before the time for opening bids. Projects for the maintenance or repair of streets, drains or sewers are excepted from the requirements of this section if the city council determines that such work can be performed more economically by a city department than by contracting for the doing of such work.

All bids shall be accompanied by either a certified or cashier's check, or a bidder's bond executed by a corporate surety authorized to engage in such business

in California, made payable to the city. Such security shall be in an amount not less than that specified in the notice inviting bids or in an amount not less than ten percent of the aggregate amount of the bid. If the successful bidder neglects or refuses to enter into the contract within the time specified in the notice inviting bids or in the specifications referred to therein, the amount of the bidder's security shall be declared forfeited to the city and shall be collected and paid into its general fund, and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

The city council may reject any and all bids presented and may readvertise in its discretion.

The city council, without advertising for bids, or after rejecting bids, or if no bids are received, may declare and determine that, in its opinion, based on estimates approved by the city manager, the work in question may be performed better or more economically by the city with its own employees or the supplies or materials may be purchased more economically on the open market, and after the adoption of a resolution to that effect by at least five affirmative votes of the city council may proceed to have said work done or said supplies or materials purchased in the manner stated, without further observance of the provisions of this section. Such contracts likewise may be let without advertising for bids if such work or supplies or materials shall be deemed by the city council to be of urgent necessity for the preservation of life, health or property, and shall be authorized by resolution passed by at least five affirmative votes of the city council and containing a declaration of the facts constituting such urgency.

Projects for the construction and/or improvement of any public utility operated by the city or for the purchase of supplies or equipment for any such utility may be excepted from the requirements of this section, provided the city council so determines by at least five affirmative votes.

Certified to be a true copy by Ronald O. Loveridge, Mayor, and Colleen J. Nicol, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 4—City of Riverside

Amendments to the Charter of the City of Riverside

[Filed with the Secretary of State January 7, 2003.]

Section 1202 of Article XII is amended to read as follows:

Sec. 1202. Same-Power and duties.

The board of public utilities shall have the power and duty to:

(a) Consider the annual budget for the department of public utilities during the process of its preparation and make recommendations with respect thereto to the city council and the city manager.

(b) Authorize, within the limits of the budget of the department of public utilities, any purchase of equipment, materials or supplies or any acquisition, construction, improvement, extension, enlargement, diminution, or curtailment of all or any part of any public utility system when the amount exceeds $50,000. This amount may be increased in $1,000 increments by ordinance to account for inflation whenever the cumulative increase in the consumer price index exceeds $2,000 from the last increase. No such purchase or acquisition, construction, improvement, extension, enlargement, diminution or curtailment shall be made without such prior authorization.

Notwithstanding the above, such a purchase or acquisition, construction extension, enlargement, diminution or curtailment may be made without prior approval if there is an urgent necessity to preserve life, health or property as determined by the director of public utilities or, if the amount exceeds $100,000, by the director of public utilities and the city manager. As soon as practicable thereafter, the director of public utilities shall take the matter to the board of public utilities for ratification.

(c) Within the limits of the budget of the department of public utilities, make appropriations from the contingency reserve fund for capital expenditures directly related to the appropriate utility function.

(d) Require of the city manager monthly reports of receipts and expenditures of the department of public utilities, segregated as to each separate utility, and monthly statements of the general condition of the department and its facilities.

(e) Establish rates for all utility operations as provided under Section 1200 including but not limited to water and electrical revenue producing utilities owned, controlled or operated by the city, but subject to the approval of the city council.

(f) Approve or disapprove the appointment of the director of public utilities, who shall be the department head.

(g) Designate its own secretary.

(h) Make such reports and recommendations in writing to the city council regarding the department of public utilities as the city council shall deem advisable.

(i) Exercise such other powers and perform such other duties as may be prescribed by ordinance not inconsistent with any of the provisions of this Charter.

Certified to be a true copy by Ronald O. Loveridge, Mayor, and Colleen J. Nicol, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 5—City of San Bernardino

Amendments to the Charter of the City of San Bernardino

[Filed with the Secretary of State January 14, 2003.]

Section 24 is amended to read as follows:

Section 24. Salary of Mayor. The Office of Mayor shall be a full time position and the incumbent shall not engage in any business, professional or occupational activities which interfere with the discharge of the duties of such office. Effective January 1, 2003, the annual salary of the Mayor shall be set at fifty percent (50%) of the salary for a Superior Court Judge, County of San Bernardino, State of California, as of July 1, 2002, and shall thereafter be adjusted and implemented January 1 of each subsequent year at the same fifty percent (50%) figure of the salary for said Superior Court Judge then in effect on said January 1 date.

Certified to be a true copy by Judith Valles, Mayor, and Rachel G. Clark, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 6—City of Santa Rosa

Amendments to the Charter of the City of Santa Rosa

[Filed with the Secretary of State January 21, 2003.]

Section 1. Section 4 of the Charter of the City of Santa Rosa is revised to read as follows:

Section 4. The Council. The legislative body of the City shall consist of seven persons elected at large to be known as the Council. The members of the Council shall hold office for four years and until their successors are elected and qualified. The terms of the Council member shall alternate so that three members or four members, as the case may be, shall be elected every two years. In case of a tie vote of the electorate, the person elected shall be decided by lot. There shall be no limitation on the number of consecutive terms a Council member or Vice-Mayor may serve. A Council member may not serve consecutive terms as Mayor.

No person shall be eligible to hold office as a member of the Council, unless he or she is a registered voter of the City at the time the person's nomination papers are issued and is, at the time of assuming office, an elector of the City.

The Council may act, by ordinance, to provide compensation to each of its members in an amount authorized by State law for the compensation of council members in general law cities of comparable size; provided, however, that the Mayor, while holding that office, shall receive compensation in an amount equal to one hundred and fifty percent of the compensation received by another council member.

Section 2. Section 8 of the Charter of the City of Santa Rosa is revised to read as follows:

Section 8. Ordinances. All proposed ordinances introduced in the Council shall be in printed or typewritten form. The enacting clause of all ordinances shall be as follows: "The people of the City of Santa Rosa do enact as follows." No ordinance shall be passed by the Council on the day of its introduction, nor within five days thereafter, nor at any time other than a regular meeting. A proposed ordinance may be amended or modified between the time of its introduction and the time of its final passage, providing its general scope and original purpose are retained. All ordinances shall be signed by the Mayor, attested by the City Clerk, and be published at least once in a newspaper of general circulation before becoming effective. The publication requirement of this section may be satisfied by either the publication of a summary of the ordinance and a posting of the ordinance or the publication of display advertisements and posting of the ordinance as provided in the provisions of the Government Code relating to the satisfaction of ordinance publication requirements for general law cities.

Notwithstanding the above, any ordinance declared by the Council to be necessary as an urgency measure for preserving the public peace, health, or safety and containing the reasons for its urgency, may be introduced and passed at one and the same meeting and, if passed by a five-sevenths vote, shall become effective immediately.

Section 3. Sections 10 and 11 of the Charter of the City of Santa Rosa are revised to read as follows:

Section 10. Task Force: Citizen and Neighborhood Participation. (a) The Council shall appoint a task force to recommend to the Council approaches to greatly increase citizen and neighborhood participation and responsibility.

(b) The Council shall establish a District Commission encompassing the entire City. The Commission shall be composed of the representatives of seven to fourteen districts, whose boundaries shall be established by the Council. The representatives of each district shall advise the Council regarding city matters, including 1) public safety issues; 2) participation in neighborhood planning meetings within the district; and 3) CIP budget priorities for their district. Each district representative, at the time of appointment and during his or her service as such, shall be, and remain a resident of the district he or she is appointed to represent.

1. The Council shall establish each year an allocation for public improvements within each district which the district representatives, after a noticed public hearing, shall determine how to expend, subject to Council approval.

2. The Council shall adopt a resolution within one year of the adoption by the electorate of this provision that sets forth the boundaries of districts and the responsibilities, length of term, manner of appointment, and number of the district representatives.

Section 11. Participation and Diversity in Boards and Commissions. (a) The City shall undertake all reasonable efforts to encourage participation by all citizens. Further, the Council shall undertake all reasonable methods to ensure that its appointments to boards, commissions and committees reflect Santa Rosa's diversity, including geographic and ethnic diversity.

The City Council shall issue a written report annually that will be discussed in public session regarding its appointments to boards, commissions and committees. The report shall contain, but is not limited to, the total number of appointments in a given year, the total number of applications in a given year, and relevant diversity information including geographic and ethnic diversity. Further, the report will evaluate the progress and success of increasing the diversity of appointments.

(b) Individual council members shall appoint one member of boards and commissions, except as provided below. Terms shall coincide with the term of the appointing council member. A new council member may replace appointments in the event one is selected to serve out the unexpired term of a council member. Any board or commission with less than seven members shall be increased to seven. This process shall be phased in by the council within two years of adoption by the electorate of this provision. Boards and commissions dealing with issues of interest to the general public shall commence public hearings, whenever practicable, no earlier than 5:00 p.m. The provisions of this subsection shall not apply to the District Commission, Redevelopment Agency, and Personnel, Building Regulation Appeals, and Housing Authority boards.

Section 4. Section 16 of the Charter of the City of Santa Rosa is revised to read as follows:

Section 16. Officers. The elective officers of the City shall be the members of the Council. The appointive officers shall be a Mayor and Vice-Mayor, a City Manager, a City Clerk, City Engineers, a chief financial officer, a City Attorney, a Chief of Police, a Chief of the Fire Department, and such others as the Council may designate.

Section 5. Sections 20, 21, and 22 of the Charter of the City of Santa Rosa are revised to read as follows:

Section 20. City Clerk. There shall be a City Clerk appointed by the City Manager. The City Manager may not serve as the City Clerk. The City Clerk shall keep an accurate record of the proceedings of the Council and shall maintain in properly indexed books, the originals of all ordinances and resolutions adopted by the Council. The City Clerk shall have power to administer oaths and affirmations, take affidavits and certify to the same, and shall have charge of the City's Seal. The City Clerk shall act as the City's election official and shall have such other powers and duties as may be prescribed by the Council.

Section 21. Chief of Police. There shall be a Chief of Police appointed by the City Manager. The Chief of Police shall be head of the Police Department of the City and shall have all powers that are now or may hereafter be conferred upon sheriffs and other peace officers by the laws of the state. It shall be the duty of the

Chief of Police to preserve the public peace and to suppress riots, tumults and disturbances. The Chief of Police shall have such other powers and duties as may be prescribed by the Council. The Chief of Police shall appoint and remove all subordinates in the department, in accordance with the applicable rules of the City, and shall make rules and regulations for the management of the department.

Section 22. Chief of the Fire Department. There shall be a Fire Chief appointed by the City Manager. The Fire Chief shall be head of the Fire Department of the City, and shall have charge and supervision over all matters relating to the prevention and extinction of fires, and of all measures necessary to guard and protect all property impaired thereby. The Fire Chief shall have such other powers and duties as may be prescribed by the Council. During the time of a fire, the Fire Chief shall have supreme authority over the territory involved therein, and all persons in the immediate vicinity of the fire during such time shall be subject to the Fire Chief's orders. The Fire Chief shall appoint and remove all subordinates in the department, in accordance with the applicable rules of the City, and shall make rules and regulations for the management of the department.

Section 6. Section 23 of the existing Charter of the City of Santa Rosa which provides for the appointment of a health officer is hereby repealed and deleted and shall be without further effect.

Section 7. Section 24 of the existing Charter of the City of Santa Rosa is renumbered as Section 23 and is revised to read as follows:

Section 23. City Engineers. There shall be one or more City Engineers, as authorized by the Council, who shall be appointed by the City Manager. Each City Engineer shall be a practicing civil engineer, registered as a civil engineer in California for a period of at least three years immediately prior to appointment, and shall maintain such registration during his or her employment as City Engineer.

Section 8. Section 25 of the existing Charter of the City of Santa Rosa is renumbered as Section 24.

Section 9. Sections 26 and 27 of the existing Charter of the City of Santa Rosa are renumbered as Sections 25 and 26, respectively, and are revised to read as follows:

Section 25. Board of Public Utilities. (a) There shall be a Board of Public Utilities composed of seven (7) members appointed by the Council, at least one of which, if practical, shall be a civil engineer having some knowledge of municipal utilities. The members shall be appointed to staggered terms of four (4) years in accordance with Section 11. Members will serve without compensation. Additionally, the City Manager or a member of the City Manager staff shall sit on the Board as an ex officio non-voting member.

(b) The Board of Public Utilities shall have general policy authority and direction over the management and operation of the City's water and sewer utilities, and, as the Council may by resolution or ordinance direct, such other utility operations managed by the City and utilities owned or operated by the City.

(c) Within the limits of the specific appropriations contained in the Council adopted annual budget for each City utility over which the Board of Public Utilities has authority, the Board may: (1) approve utility projects and award contracts therefor in accordance with procedures adopted by the Council; (2) negotiate property acquisitions for each utility consistent with the policies and practices of the city council and within the parameters of state law; (3) rent and lease utility property and property needed for City utility purposes consistent with the policies and practices of the city council and within the parameters of state law; and (4) award contracts for maintenance, services, supplies and professional services needed by each City utility in accordance with Council adopted procedures.

(d) The books of each utility shall be kept in accordance with generally accepted accounting principles for municipal enterprises.

(e) The Board of Public Utilities shall perform such other duties and exercise said other authority as the Council, by resolution or ordinance, may from time to time direct.

Section 26. Water and Sewer Rates; Connection/Demand Fees; and Miscellaneous Fees and Charges. (a) The Council, by ordinance or resolution, shall establish, from time to time, the rates to be charged for water furnished and sewer services provided by the City and the fees, currently called demand fees, to be charged for connections to each City utility system under its authority.

(b) The Board of Public Utilities, by resolution, shall establish, from time to time, other fees and charges needed in connection with the operation and maintenance of each City utility system.

(c) Notwithstanding any other provision of this Charter, no funds derived from the sale of water or the providing of sewer services, from fees imposed for connections to either City system, or fees or charges imposed and collected in connection with the operation of either system shall be transferred to the general fund of the City; but all such funds shall be used exclusively for the uses and purposes of the City water system and the City sewer system, respectively, and for the payment of interest on, and the redemption of, bonds issued by the City for the purpose of providing City water and sewer services.

Section 10. Section 28 of the existing Charter of the City of Santa Rosa is renumbered as Section 27.

Section 11. Section 29 of the existing Charter of the City of Santa Rosa is renumbered as Section 28 and is revised to read as follows:

Section 28. Budget. (a) Not later than January 1st of each year, the Council shall publish a notice of the times and places where copies of the current year's adopted budget and a summary thereof are available for public review and the first notice that a public hearing will be held for the purpose of soliciting oral and written comment upon budget priorities for the next fiscal year. A public hearing seeking comment from the public on budget priorities shall be held by the Council in January of each year prior to any annual goal setting meeting held by the Council. The notice of the public hearing shall be published twice, the first not

earlier than 31 days prior to the hearing and the second not later than 5 days prior to the hearing. The notices shall be published at least seven days apart.

(b) The City Manager shall submit a proposed budget to the Council for the maintenance, operations and capital improvement, for all City departments and funds each fiscal year.

The budget shall provide a complete financial plan of all City funds and activities for the ensuing fiscal year and, except as required by law or this charter, shall be in such a form as the City Manager deems desirable or the Council may require. The budget shall begin with a clear general summary of its contents; shall show in detail all estimated income and all proposed expenditures, including debt service, for the ensuing fiscal year, and shall be so arranged as to show comparative figures for actual and estimated income and expenditures for the current fiscal year and actual income and expenditures of the preceding two fiscal years.

(c) Prior to adopting the budget, the Council shall publish a general summary of the proposed budget and a notice stating:

(1) The times and places where copies of the proposed budget are available for review by the public; and

(2) The time and place, not less than two weeks after such publication, of a public hearing to be held by the Council on the proposed budget.

(d) The Council shall adopt the budget on or before the last day of June of each year. If it fails to adopt the budget by this date, the budget proposed by the City Manager shall go into effect. The Council may revise or amend the budget from time to time during the fiscal year it is in effect.

Section 12. Sections 30 through 36 of the existing Charter of the City of Santa Rosa are renumbered as Sections 29 through 35, respectively.

Section 13. Sections 37 and 38 of the existing Charter of the City of Santa Rosa are renumbered as Sections 36 and 37, respectively, and are revised to read as follows:

Section 36. Compensation. The Council shall, by ordinance, fix the compensation of all officers, deputies and assistants appointed by the Council, except those appointed by the City Manager, who shall fix the compensation of the deputies, assistants and employees of all officers appointed by him or her; subject, however, to approval of the Council.

Section 37. Deputies. Officers appointed by the Council, shall have the power to appoint their own deputies when the same are necessary, subject, however to confirmation by the Council.

Section 14. Sections 39 through 44 of the existing Charter of the City of Santa Rosa are renumbered as Sections 38 through 43, respectively.

Section 15. Section 45 of the existing Charter of the City of Santa Rosa is renumbered as Section 44 and is revised to read as follows:

Section 44. Contract Work. In the erection, improvement and repair of all public buildings and works, in all street and sewer work, or in or about embankments or other works for the protection against overflow, and in furnishing any

supplies or materials for the same, when the expenditure required for the same shall equal or exceed the sum provided by the state Contract Act for the letting of bids by the state Department of Transportation or shall exceed such lower amount as the Council may provide, the same shall be done by contract and shall be let to the lowest responsible bidder, after notice by publication in the official newspaper;

Provided that the Council may reject any and all bids presented and may readvertise in their discretion; and provided further, that after rejecting bids the Council may declare and determine by a five-sevenths vote of all its members that in its opinion the work in question may be more economically or satisfactorily performed by day labor, or the materials or supplies purchased at a lower price in the open market, and after the adoption of a resolution to this effect, they may proceed to have the same done in the manner stated without further observance of the foregoing provisions of this section; and

Provided further, that in case of a great public calamity, such as an extraordinary fire, flood, storm, epidemic or other disaster, the Council may, by resolution passed by a vote of five-sevenths of all its members, declare and determine that public interest and necessity demand the immediate expenditure of public money to safeguard life, health or property, and thereupon may proceed to expend or enter into a contract involving the expenditure of any sum required for such emergency.

In the employment of labor by contract or day work, preference shall be given so far as practicable to local people as against non-residents, insofar as the same is not in conflict with the Constitution or general laws.

Section 16. Sections 46 through 56 of the existing Charter of the City of Santa Rosa are renumbered as Sections 45 through 55, respectively.

Section 17. Section 57 of the existing Charter of the City of Santa Rosa which provides for the 1996 expansion of the Council to seven members is hereby deleted.

Section 18. Section 58 of the existing Charter of the City of Santa Rosa is renumbered as Section 56.

Section 19. Should both this measure and measure 2 be adopted, Council compensation shall be as set forth in measure 2 and the third paragraph of Charter Section 4 as set forth in Section 1 of this measure shall be deleted and without effect.

Certified to be a true copy by Sharon Wright, Mayor, and Sue Stoneman, Assistant City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 7—City of Santa Rosa

Amendments to the Charter of the City of Santa Rosa

[Filed with the Secretary of State January 21, 2003.]

Section 1. The following paragraph is added, as the third paragraph, to Section 4 of the Charter of the City of Santa Rosa to read as follows:

Council members shall receive compensation of $1,500 per month and the Mayor shall receive compensation of $2,250 per month while serving in that position. This compensation shall be subject to an annual cost of living adjustment (COLA) which shall match the annual increase given to the City's executive staff, but which may not exceed the annual consumer price index (CPIU) increase for the San Francisco Greater Bay Area. Council members shall be allowed fringe benefits through participation in, and City contribution to, the City's retirement plan, health plans, eye and dental care programs, long-term disability (LTD) and employee assistance program (EAP).

Section 2. Should both this Measure 2 and Measure 1 be adopted, Council compensation shall be controlled by this measure and its provisions only shall become effective and be inserted in the Charter as the third paragraph of Section 4. Should this Measure 2 be adopted and Measure 1 be rejected, then the provisions of the existing Section 4 of the Charter relating to Council compensation (second sentence of first paragraph of Section 4) shall be deleted from the Charter and be without further effect and the provisions of Section 1 of this measure shall be added to existing Section 4.

Certified to be a true copy by Sharon Wright, Mayor, and Sue Stoneman, Assistant City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 8—City of Santa Rosa

Amendments to the Charter of the City of Santa Rosa

[Filed with the Secretary of State January 21, 2003.]

Section 1. Section 57 is added to the Charter of the City of Santa Rosa to read as follows:

Section 57. Campaign Finance Reform. The Council shall consider and by ordinance enact new election campaign finance reform measures, the purpose of which, in part, shall be to reduce the cost of Council election campaigns and increase the accessibility of Council candidates to the electorate. The ordinance shall include at least the following provisions:

1. New limits on campaign contributions that are lower than the current $1,000 limitation.

2. If permitted by law, a provision that limits independent expenditures to the cap set on campaign contributions.

3. A new schedule for reporting campaign contributions for all Council candidates, in all independent expenditures, that shall allow the greatest public knowledge of all campaign contributions.

4. Provisions that provide for public financing of Council election campaigns.

Section 2. Should this Measure 3 be adopted, but Measure 1 on the City of Santa Rosa Ballot be rejected, then Section 57 of the Charter adopted by this measure shall be renumbered as Section 59.

Certified to be a true copy by Sharon Wright, Mayor, and Sue Stoneman, Assistant City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 9—City of Placentia

Amendments to the Charter of the City of Placentia

[Filed with the Secretary of State February 5, 2003.]

Section 600. Number and Term.

There shall be a City Council consisting of five members elected from the City at large, at the times and in the manner in this Charter provided. The term of office for members of the City Council shall be four years, or in the case of an appointment or election to an unexpired term of office, the term of office shall be equal to the unexpired term of office, and until their respective successors qualify. No person shall serve more than three (3) consecutive terms of office as a member of the City Council, including any portion of an unexpired term of office to which such person has been appointed or elected. The term limit provisions of this section shall apply prospectively only and shall apply only to terms of office commencing on or after the date this amendment to the City Charter was approved by the City's electorate.

The regular election of the City Council members shall be held on the first Tuesday following the first Monday, in November of each even-numbered year. The candidates receiving the highest number of votes shall be elected. The term of all members shall commence at the first regular Council meeting following the certification of the election results and each member shall serve until a successor is elected and qualified. Any ties in voting shall be settled by the casting of lots.

Certified to be a true copy by Scott P. Brady, Mayor, and Patrick J. Melia, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 10—City of Placentia

Amendments to the Charter of the City of Placentia

[Filed with the Secretary of State February 5, 2003.]

Section 604. Presiding Officer.

(a) MAYOR. At the meeting at which the City Council approves the certification of election results following any general or special municipal election at which members of the City Council are elected, and at any time when there is a vacancy in the office of Mayor, the City Council shall meet and shall elect one of its members as its presiding officer, who shall have the title of Mayor. The Mayor shall have a voice and vote in all City Council proceedings. The Mayor shall be the official head of the City for all purposes including ceremonial. The Mayor shall perform such other duties as may be prescribed by this Charter or as may be imposed by the City Council consistent with the office. The Mayor shall serve in such capacity at the pleasure of the City Council.

(b) MAYOR PRO TEMPORE. The City Council shall also designate one of its members as Mayor Pro Tempore who shall serve in such capacity at the pleasure of the City Council. The Mayor Pro Tempore shall perform the duties of the Mayor during any absence or disability of the Mayor.

Certified to be a true copy by Scott P. Brady, Mayor, and Patrick J. Melia, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 11—City of Placentia

Amendments to the Charter of the City of Placentia

[Filed with the Secretary of State February 5, 2003.]

Section 608. Contracts on Public Works.

Every contract involving an expenditure of more than Twenty-Five Thousand Dollars ($25,000.00) for the construction or improvement (excluding maintenance and repair) of public buildings, works, streets, drains, sewers, utilities, parks and playgrounds, and each separate purchase of materials or supplies for the same, where the expenditure required for such purchase shall exceed the sum of Twenty-Five Thousand Dollars ($25,000.00) shall be let either to the lowest responsible bidder after notice by publication in the official newspaper by two or more insertions, the first of which shall be at least ten days before the time of opening bids, or by best value processes, including but not limited to use of design-build and construction manager at risk approaches adopted by the City Council by ordinance in cases where the City Council finds such processes will reduce project cost, expedite project completion, or provide unique design features.

The City Council may reject any and all bids presented and may re-advertise in its discretion. After rejecting bids, or if no bids are received, the City Council may declare and determine that, in its opinion, the work in question may be performed better or more economically by the City with its own employees, or that the materials or supplies may be purchased at a lower price in the open market, and after the adoption of a resolution to this effect by a majority vote of the entire membership of the City Council, it may proceed to have said work done or such material or supplies purchased in the manner stated, without further observance of the provision of this section.

When the City Council deems, by four affirmative votes, there is urgent necessity for the preservation of life, health or property, purchase of such materials or supplies and contracts for the construction or improvement of public buildings, works, streets, drains, sewers, utilities, parks and playgrounds may be let without advertising for bids. The City shall not be bound by the California Public Contracts Code except as expressly provided in this Charter or as expressly required by the City Council by ordinance.

Certified to be a true copy by Scott P. Brady, Mayor, and Patrick J. Melia, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 12—City of Placentia

Amendments to the Charter of the City of Placentia

[Filed with the Secretary of State February 5, 2003.]

Section 620. Ordinance. Violation. Penalty. Except as otherwise designated by an ordinance adopted by the City Council, a violation of any ordinance of the City shall constitute a misdemeanor which may be prosecuted in the name of the People of the State of California or may be redressed by civil action. The maximum fine for any violation of a City ordinance shall be the sum of One Thousand Dollars ($1,000.00), or a term of imprisonment for a period not exceeding one year, or both such fine and imprisonment. Any person either convicted of a violation of any ordinance of the City, or, in a civil action determined to have violated any ordinance of the City, shall also be liable, and shall reimburse the City, for all costs incurred by the City in the investigation of the violation and enforcement of the City's ordinances.

Section 1401. Violations. The violation of any provision of this Charter shall be deemed a misdemeanor and be punishable upon conviction by a fine not exceeding One Thousand Dollars ($1,000.00), or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment. Any person convicted of a violation of any provision of this Charter, or, in a civil action determined to have violated any provision of this Charter, shall also be liable, and shall reim-

burse the City, for all costs incurred by the City in the investigation of the violation and enforcement of the City Charter.

Certified to be a true copy by Scott P. Brady, Mayor, and Patrick J. Melia, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 13—City of Placentia

Amendments to the Charter of the City of Placentia

[Filed with the Secretary of State February 5, 2003.]

Section 902. Appointment. Term. The members of such Boards or Commissions shall be appointed by the City Council. They shall be subject to removal by motion of the City Council adopted by at least three affirmative votes. The members thereof shall serve for a term of four years, unless a lesser term is provided by a resolution adopted by the City Council, and until their respective successors are appointed and qualified. The members first appointed to such Boards and Commissions shall so classify themselves by lot that the term of one of each of their number shall expire each succeeding July 1st. Where the total number of the members of a Board or Commission to be appointed exceeds four, and is less than eight, no more than two terms of office shall expire in any one year, and the classification by lot shall provide for the pairing of terms to such an extent as is necessary in order that the terms of at least one and not more than two shall expire in each succeeding year. Where the total number of members of a Board or Commission to be appointed exceeds eight, no more than three terms of office shall expire in any one year, and the classification by lot shall provide for the matching of terms to such an extent as is necessary in order that the terms of at least two and not more than three shall expire in each succeeding year. Any appointment to fill an unexpired term shall be for such unexpired period. The members of such Boards or Commissions shall be residents of the City.

Certified to be a true copy by Scott P. Brady, Mayor, and Patrick J. Melia, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 14—City of Placentia

Amendments to the Charter of the City of Placentia

[Filed with the Secretary of State February 5, 2003.]

Section 1300. Granting of Franchises.

The City Council is empowered to grant by ordinance a franchise to any person, firm or corporation, whether operating under an existing franchise or not, to use the public streets, ways, alleys and places as the same now or may hereafter exist, for the construction and operation of plants, works, or equipment, necessary or convenient in connection with its transportation, communication, water, light, heat, power, refuse collection, storage, cable television, or any other public utility or service. The City Council may prescribe the terms and conditions of any such grant. It may also provide, by procedural ordinance, the method of procedure and additional terms and conditions for making such grants, subject to the provisions of this Charter.

Certified to be a true copy by Scott P. Brady, Mayor, and Patrick J. Melia, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 15—City of Sacramento

Amendments to the Charter of the City of Sacramento

[Filed with the Secretary of State March 5, 2003.]

Section 1. Section 29 of the Sacramento City Charter is amended to read as follows:

Compensation

There shall be established a Compensation Commission whose function shall be to establish the compensation for the Mayor, members of the City Council, and public members of City Boards and Commissions. The Commission shall be comprised of five (5) members selected pursuant to Section 230 of Article XV of this Charter for staggered (4) four-year terms. The Chair of the Commission shall be a retired judicial officer and all members shall be residents of the City of Sacramento. The Commission shall meet at least once a year and shall serve without compensation. The City shall fund the expenses of the Commission. Within one hundred eighty days (180) of passage of this measure, the Commission shall set the compensation for the Mayor and members of the City Council. Compensation shall be reasonable and consistent with other cities similar in size and structure.

Section 2. Section 44 of the Sacramento City Charter is amended to read as follows:

Mayor—Compensation and Expenses for Full-Time Service

The Mayor shall serve full-time and shall receive compensation as established by the Compensation Commission pursuant to Section 29 of Article III of this Charter. The Mayor shall devote his or her full time and attention to the duties of the office.

Certified to be a true copy by Valerie A. Burrowes, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 16—City of Palm Springs

Amendments to the Charter of the City of Palm Springs

[Filed with the Secretary of State March 7, 2003.]

602. Appointments; Terms.

The members of each city board or commission shall be appointed by motion of the city council, adopted by at least three affirmative votes. Nominations for appointment to a city board or commission shall be made by the mayor or any other member of the city council at a public meeting. Each member shall be an elector of the City, unless otherwise provided by ordinance. Notice of the availability of a position for appointment shall be posted in three public places at least 10 days before the appointment and the city council may, by resolution, adopt additional procedures to receive and consider applicants for city boards and commissions. No member of a city board or commission shall hold any paid office or employment in the City government. They shall serve at the pleasure of the city council, and shall be subject to removal by motion of the city council, adopted by at least three affirmative votes. The members thereof shall serve for a term of four years, unless the city council by ordinance or resolution establishes a different term, and until their respective successors are appointed and qualified.

Certified to be a true copy by William G. Kleindienst, Mayor, and Patricia A. Sanders, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 17—City of Palm Springs

Amendments to the Charter of the City of Palm Springs

[Filed with the Secretary of State March 7, 2003.]

305.5 Vacancy—Immediately Before or After Election.

Notwithstanding Section 305 of the City Charter, if a vacancy on the city council occurs for any reason after the adoption of a Resolution by the City Council calling for a general municipal election to elect members to the City

Council, but not more than ninety (90) days after the date of that general municipal election, the person who received the highest number of votes in said election, but was not elected, shall be appointed by the City Council to fill that vacancy. The person appointed pursuant to this section shall serve the remaining unexpired term of the office. This section shall not apply to a vacancy in the office of mayor, nor shall a candidate for mayor be appointed to the city council pursuant to this section.

Certified to be a true copy by William G. Kleindienst, Mayor, and Patricia A. Sanders, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 18—City of Redondo Beach

Amendments to the Charter of the City of Redondo Beach

[Filed with the Secretary of State March 27, 2003.]

Section 19.5 of Article XIX is amended to read as follows:

Sec. 19.5 Legal Notices, contract for publication.

The City Council annually prior to the beginning of the fiscal years, shall publish a notice inviting bids and shall reward to the lowest responsible bidder a contract for publication of all legal notices or other matter required to be published in a newspaper of general circulation circulated in said City during the ensuing fiscal year. The newspaper with which any such contract is made shall be designated as the official newspaper for the publication of such notices or other matter for the period of such contract in no event shall the contract price for such publications exceed the newspaper's customary rates for private publications.

Certified to be a true copy by Greg Hill, Mayor, and Sandy Forrest, City Clerk.

Date of General Municipal Election: March 4, 2003.

Charter Chapter 19—City of Stockton

Amendments to the Charter of the City of Stockton

[Filed with the Secretary of State April 2, 2003.]

Section 902 is amended to read:

SECTION 902:

If the initiative petition is signed by voters of the City equal in number to at least ten percent (10%) of the total number of voters of the City according to the last official report of registration by the County Clerk of the County of San Joaquin to the Secretary of State of California, the City Council shall either:

(a) Introduce the ordinance without alteration at the regular meeting at which it is presented and adopt the ordinance within fourteen (14) days after it is presented; or

(b) Immediately order a special election, to be held within the time set forth in the Elections Code of the State of California, at which the ordinance, without alteration, shall be submitted to the voters of the City.

Certified to be a true copy by Gary Podesto, Mayor, and Katherine Gong Meissner, City Clerk.

Date of Municipal Election: March 4, 2003.

Charter Chapter 20—City of Stockton

Amendments to the Charter of the City of Stockton

[Filed with the Secretary of State April 10, 2003.]

Section 1. The City Council of the City of Stockton hereby submits to the qualified voters of the City of Stockton at the General Municipal Election of November 5, 2002, a ballot measure proposing an amendment to the Charter of the City of Stockton which would increase the probationary period for original/entry level appointments to the position of Firefighter from twelve (12) months to eighteen (18) months.

Certified to be a true copy by Gary A. Podesto, Mayor, and Katherine Gong Meissner, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 21—County of Butte

Amendments to the Charter of the County of Butte

[Filed with the Secretary of State April 23, 2003.]

Section 1. Article IV, Sections 1, 2 and 3 of the Butte County Code are amended to read as follows:

ARTICLE IV

Section 1. County officers designated.

County officers, other than members of the board of supervisors shall be sheriff, a county clerk, a treasurer, a recorder, a tax collector, a license collector, a public administrator, a coroner, a surveyor, a district attorney, an auditor, an assessor, a superintendent of schools, an agricultural commissioner, a welfare officer, a probation officer, a health officer, a county physician, a road commissioner, a county librarian, and other such officers as are now or may hereafter be provided for by the constitution, by general law or by this Charter.

Section 2. Consolidation of offices.

The following offices are hereby consolidated:

(a) The public guardian shall be ex officio public administrator;

(b) The sheriff shall be the ex officio coroner;

(c) The treasurer shall be ex officio tax collector and ex officio license collector;

(d) The health officer shall be ex officio physician;

(e) The clerk shall be ex officio recorder.

Section 3. Election of officers; exceptions.

All county officers except the welfare officer, probation officer, the agricultural commissioner, the health officer, the county physician, the county librarian, the road commissioner, the surveyor, and such other officers as are now or hereafter may be appointive by the constitution, general law or this charter shall be elected in the manner provided by law.

Section 2. Article X, Sections 3, 5, 6, 7, and 8 of the Butte County Code are amended to read as follows:

ARTICLE X

Section 3. Powers and duties of road commissioner.

The county road commissioner shall:

(a) Make all surveys, maps, plans, specifications and estimates necessary or required for the construction, improvement, maintenance and repair of the county highways and bridges.

(b) Examine and inspect the work performed on such roads, highways and bridges and report to the board of supervisors as to whether or not the work has been done in accordance with the plans and specifications on contracts therefor.

(c) Approve and certify to the progress, estimates and allowances for work performed under all contracts for the construction, improvement and maintenance or repair of county roads, highways and bridges.

(d) Inspect or cause to be inspected, all county roads, highways and bridges within the county, and under the general direction of the board of supervisors and ex officio road commissioners, keep such roads, highways and bridges clear of obstructions and in good repair; employ all men, teams, watering carts and all help necessary therefor, when the same is not let by contract, and report to the board of supervisors with respect to such inspection and such work from time to time as required by said board; certify to the correctness of all payrolls for work done by day labor or force account on county roads, highways, and bridges.

(e) Have control and management under the general supervision of the board of supervisors of all county rock quarries, oil pits, depots, gravel pits and other materials, property, implements, tools, machinery and instruments and other appurtenances necessary for the construction, improvement, maintenance and repair of county roads, highways, and bridges, and for the plans therefor.

(f) Devote his entire time to the performance of his duties to the exclusion of all other business occupations. He shall not be either directly or indirectly, interested in any contract or works, not shall he be so interested in the purchase of supplies, tools or materials of any kind used in the carrying out of any of his duties under the provisions of this Charter.

(g) Prepare annually a proper budget showing in detail the needs of the county for construction, improvement, maintenance or repair to county roads, highways and bridges for the ensuing year and submit the same to the county auditor and board of supervisors at least sixty days prior to the date of the meeting at which the board of supervisors is required to fix the county tax rate.

(h) Make a written report to the board of supervisors at their regular meeting each month, in which he shall state the amount and character of work done during the preceding month, the progress of any contracts under way, approximate cost of the work, and matters of interest pertaining to same. In this report he shall call the attention of the board of supervisors to any repairs or construction work he deems important to have made or done, and make recommendations therefor, and inform and advise the board of supervisors of all matters pertaining to the public roads, highways streets, bridges or other public work, which in his judgment should be brought to their attention. This report shall contain the recommendation and acceptance or rejection of any public work completed, and all official announcements, or statements which the commissioner is required to make to the board.

(i) The county road commissioner shall classify and compute the total mileage of county roads according to state law.

Section 5. Tools, machinery and equipment.

The road commissioner shall make requisition upon the board of supervisors for the purchase of all tools, implements, machinery, materials and supplies required to carry out the provisions of this Charter, and said requisition shall state plainly the estimated costs of the article or articles to be purchased. He shall approve all claims for the same before such claims are audited and passes before the board of supervisors. He shall be the custodian and be responsible for all equipment under his control. All such property shall be stored and protected from weather when no in use. An inventory of all property in his custody shall made annually and kept on file in the office of the road commissioner.

Section 6. Approval, etc., of claims for county road work.

No claims against the county for work done on its roads, highways, streets, bridges, aqueducts or in connection therewith, shall be passed by the board of supervisors or paid for by the treasurer or the county unless they shall have endorsed thereon the written approval of the road commissioner and the auditor.

Section 7. Office; location of equipment.

The board of supervisors shall provide for and assign to the road commissioner and his assistants a suitable office or offices in the courthouse or some place conveniently located with reference thereto, together with all the office tools,

implements and other equipment necessary for the performance of the duties herein prescribed.

Section 8. Term "road commissioner" defined.

That whenever the term road commissioner appears in the Charter, it would be deemed to also include the office of the director of public works, and provided further that the director of public works shall have other duties as are required by law or as directed by the board of supervisors.

Section 3. Severability.

lf any provision of this Ordinance or the application thereof to any person or circumstances is for any reason held to be invalid by a court of competent jurisdiction, such provision shall be deemed severable, and the invalidity thereof shall not affect the remaining provisions or other applications of the Ordinance which can be given effect without the invalid provision or application thereof.

Section 4. Effective Date and Publication. This Ordinance shall take effect thirty (30) days after the date of its passage. The Clerk of the Board of Supervisors is authorized and directed to publish this Ordinance before the expiration of fifteen (15) days after its passage. This Ordinance shall be published once, with the names of the members of the Board of Supervisors voting for and against it, in the _____, a newspaper of general circulation published in the County of Butte, State of California.

Certified to be a true copy by Paul McIntosh, Clerk of the Board.

Date of Municipal Election: November 5, 2002.

Charter Chapter 22—City of Napa

Amendments to the Charter of the City of Napa

[Filed with the Secretary of State April 8, 2003.]

Section 185 is hereby added:

Section 1. Section 185 is hereby added to the Charter of the City of Napa to read as follows:

SECTION 185

Alston Park

Section 185. The property designated as Alston Park, situated generally on the west side of Dry Creek Road between Trower Avenue and Vinehill Drive and as described in the City's General Plan (Envision Napa 2020) in effect in March 2003, shall be used solely for passive recreation and open space purposes, and shall not be used, improved or developed for any other purpose. Nothing in this section, however, shall prohibit or limit the use, maintenance, improvement or development of Alston Park in a manner that is consistent with the park's passive recreation and open space purposes and uses as of March 2003 and does not substantially diminish the park's natural condition, or as is necessary to use, repair or

maintain city utility facilities, or to comply with state or federal law or the existing conservation easement applicable to the park. This section shall lapse and terminate, and shall be of no force or effect, on and after January 1, 2018.

Section 2. Severability. If any section, sub-section, subdivision, paragraph, clause or phrase in this measure, or any part thereof, is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections or portions of this measure or any part thereof. The City Council hereby declares that it would have passed each section, sub-section, subdivision, paragraph, sentence, clause or phrase of this ordinance, irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses or phrases may be declared invalid or unconstitutional.

Section 76.1F(1) is hereby amended:

Section 1. Section 76.1F(1)—Personnel system—of the City Charter is hereby amended to read as follows:

SECTION 76.1F(1)

(1) If appointment is to be made from employment or promotional lists, the name of the persons willing to accept such appointments shall be certified by the Personnel Director in the order in which they appear on the lists, provided that eligibles on promotional lists for any particular class shall be certified before eligibles on open lists. Appointment shall be made from the eligibles standing highest on the employment list or lists for the class whenever a position in the classified service is to be filled. If at least one current regular employee is on the list, the number of eligibles certified shall not exceed by more than two (2) the number of vacancies to be filled. If no current regular employee is on the list, the number of eligibles certified shall not exceed by more than five (5) the number of vacancies to be filled.

Notwithstanding any other provision of this section, the number of eligibles certified for appointment to Police Officer Trainee and Police Officer Entry shall be determined by the City Manager in consultation with the Police Chief and Personnel Director prior to the announcement of the examination. Any regular city employee on the eligible list shall be included, regardless of ranking, in the number of names certified to the Department. As provided herein, the Commission shall make, amend and repeal rules and regulations consistent with the provisions of this section, and to ensure that merit principles are not circumvented.

Section 2. Severability. If any section, sub-section, subdivision, paragraph, clause or phrase in this measure, or any part thereof, if for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections or portions of this measure or any part thereof. The City Council hereby declares that it would have passed each section, sub-section, subdivision, paragraph, sentence, clause or phrase of this ordinance, irrespective of the fact that any one or more sections, sub-sections, subdivision, paragraphs, sentences, clauses or phrases may be declared invalid or unconstitutional.

Certified to be a true copy by Ed Henderson, Mayor, and Pamyla Nigliazzo, City Clerk.

Date of Municipal Election: March 4, 2003.

Charter Chapter 23—City of Redondo Beach

Amendments to the Charter of the City of Redondo Beach

[Filed with the Secretary of State April 28, 2003.]

Section 19.5 of Article XIX is amended to read as follows:

Sec. 19.5. Legal Notices, contract for publication.

The City Council annually, prior to the beginning of the fiscal year, shall publish a notice inviting bids and shall award to the lowest responsible bidder a contract for publication of all legal notices or other matter required to be published in a newspaper of general circulation circulated in said City during the ensuing fiscal year. The newspaper with which any such contract is made shall be designated as the official newspaper for the publication of such notices or other matter for the period of such contract. In no event shall the contract price for such publications exceed the newspaper's customary rates for private legal publications.

Certified to be a true copy by Greg Hill, Mayor, and Sandy Forrest, City Clerk.

Date of General Municipal Election: March 4, 2003.

Charter Chapter 24—City of Pasadena

Amendments to the Charter of the City of Pasadena

[Filed with the Secretary of State May 16, 2003.]

Section 1509.6 of the Charter of the City of Pasadena is amended as follows:

Section 1509.6. RETIREMENT ALLOWANCE; DEPENDENT CONTINUATION OF AT DEATH OF MEMBER.

(a) Upon the death of any member receiving a retirement allowance pursuant to the provisions of Sections 1509.1, 1509.12, 1509.15, 1509.33 or 1509.4 hereof, 60% of the member's retirement allowance shall, if not modified in accordance with one of the optional settlements now or hereafter specified by ordinance, be continued throughout the life of the surviving spouse.

(b) Upon the death of any member receiving a service connected disability retirement allowance pursuant to the provisions of Sections 1509.3 and 1509.31 hereof, 100% of the member's retirement allowance shall be continued throughout the life of the surviving spouse.

(c) If there be no surviving spouse, then the allowance which would otherwise be paid to the surviving spouse had he or she qualified and lived and not remarried, shall be paid to such child or children under said age of 21 years, collectively, to continue until every such child dies or attains age 21 or marries provided that no child shall receive any allowance after marrying or attaining the age of 21 years. No allowance shall be paid under this Section to a surviving spouse unless the surviving spouse was married to the member at least one year prior to said member's date of retirement.

Certified to be a true copy by Bill Bogaard, Mayor, and Jane L. Rodriguez, City Clerk.

Date of Municipal Election: March 4, 2003.

Charter Chapter 25—City of Porterville

Amendments to the Charter of the City of Porterville

[Filed with the Secretary of State May 2, 2003.]

Section 4, Paragraph 1, is amended to read as follows:

Section 4. The City of Porterville, by and through its Council and other officials, shall have and may exercise all powers necessary or appropriate to a municipal corporation and the general welfare of its inhabitants, which are not prohibited by the constitution, and which it would be competent for this Charter to set forth particularly or specifically; and the specifications herein of any particular powers shall not be held to be exclusive or any limitation upon this general grant of power. General Powers of the city include, but are not limited to, the powers necessary or appropriate to promote the health, welfare and education of its inhabitants. The city shall have and use a common seal and the official seal hereinbefore adopted and now in use by said city shall continue to be the official seal of said city.

Section 4.1 is added to read as follows:

Section 4.1. Intergovernmental Powers.

The City may exercise and perform any of its functions and may participate in the financing thereof, jointly or in cooperation, by agreement or otherwise, with any one or more states or any agency of California, or any governmental jurisdiction or nonprofit corporation thereof, or the United States or any of its agencies or instrumentalities.

Section 4.2 is added to read as follows:

Section 4.2. Liberal interpretation.

The powers of the City under this Charter shall be construed liberally in favor of the City, and the specific mention of particular powers in the Charter shall not be construed as limiting in anyway any of the powers granted by this Charter.

Section 5, Paragraph 1, is amended to read as follows:

Section 5. General municipal elections shall be held in said city at the same time as the Primary election for State Offices for the State of California under and pursuant to the general laws of the State of California governing elections in charter cities, so far as the same maybe applicable, and except as herein otherwise provided. All other municipal elections that may be held by authority of this Charter or of general law shall be known as special municipal elections, and shall be held, substantially as in this Charter provided for general municipal elections; providing, however, that special elections to authorize any municipal or local public improvement, or the levy of assessment therefor, or to create a municipal bonded indebtedness, shall be held in conformity with any general law of the state relative thereto under which any such proceeding is instituted by the council, in case such general law provides for the procedure and manner of holding elections thereunder.

Section 6, Title and Paragraph 1, is amended to read as follows:

Section 6. Initiative, referendum and recall.

Ordinances may be initiated, or the referendum exercised on ordinances passed by the council, under and in accordance with the Constitution and general laws of the state. Any elective officer may be recalled from office under and pursuant to the provisions of the Constitution and general laws, provided that a special election shall be held at the same time as the recall election, in accordance with the Constitution and general laws of the state, for the purpose of electing officers to fill the place or places of the officers sought to be recalled.

Section 7, Paragraph 1, is amended to read as follows:

Section 7. In order to be eligible to hold any elective office in the City of Porterville, a person must be a resident and elector therein, and shall have resided in said city for at least thirty days next preceding the filing of their nominating papers, or equivalent declaration or candidacy, and be an elector at the time of said filing.

Section 9, Paragraph 2, is amended to read as follows:

Section 9. The members of the council shall be elected by the qualified voters of the city at a general municipal election to be held in the said City at the same time as the Primary election for State Offices for the State of California. They shall hold office for the period of four (4) years from and after the Monday next succeeding the day of their election and until their successors are elected, and qualified; provided the respective terms of any Council Member presently serving or elected at the time of the adoption of this amendment shall be extended one additional year to the even-numbered year following the expiration of their respective terms.

Section 9, Paragraph 5, is amended to read as follows:

Section 9. The council shall reorganize at its next meeting following each municipal election and shall choose one of their number to serve as president of the council to be known as mayor. At this time the council shall also choose one

of their number to serve as vice-president, and he/she shall act as mayor pro tempore in case of the absence, sickness or other disability of the mayor. The mayor and mayor pro tempore shall serve a two year term, but either may be removed at any time by a majority vote of the council. If the council removes the mayor prior to the expiration of his/her term pursuant to this provision, the council shall choose one of their number to serve as mayor until the next organizational meeting.

Section 9.1, is added to read as follows:

Section 9.1. Public Participation.

The council shall continue to encourage the organization of and communication with representative neighborhood groups throughout the city to encourage citizen participation, to seek advice and input and to provide information to the public relative to city matters and affairs.

Section 10, Paragraph 1 and 2, is amended to read as follows:

Section 10. The council shall provide by ordinance for the time and place of holding its meetings. Special meetings shall be called in accordance with the provisions of general law. There shall be at least one (1) regular meeting in each month. Any regular meeting maybe adjourned to a date and hour certain, and such adjourned meeting shall be a regular meeting for all purposes.

Except for special meetings with the legislative bodies of other political subdivisions, or informational meetings held within the community where no action is to be taken, all meetings of the council shall be held in the city hall, unless by reason of fire, flood, or other disaster, or lack of seating capacity, the city hall cannot be used for that purpose, and all meetings shall be open to the public. The council shall adopt rules for conducting its proceedings and may punish its members or other persons present at any meeting for disorderly conduct.

Section 12, Paragraph 2, is amended to read as follows:

Section 12. The ayes and noes shall be taken upon the passage of all ordinances and resolutions and entered upon the record of the proceedings of the council. Upon the request of any member of the council, the ayes and noes shall be taken and recorded upon any vote. All members present at any meeting must vote; provided that no such member of the council shall cast a vote when to do so would be contrary to the applicable provisions of state law, including the laws pertaining to conflict of interest.

Section 12, Paragraph 8, is amended to read as follows:

Section 8. Except an ordinance calling or otherwise relating to an election, no ordinance passed by the council of the City of Porterville, except when otherwise specially required by the laws of the state, and except an ordinance for the immediate preservation of the public peace, health or safety, which contains a declaration of, and the facts constituting its urgency and is passed by a four-fifths (4/5) vote of the council, and no ordinance granting a franchise, shall go into effect before thirty (30) days from its final passage.

Section 13, Paragraph 3 and 4, is amended to read as follows:

Section 13. All members of commissions and legislative committees shall be appointed by the council. The council may appoint members to other boards or committees. Administrative officers may appoint members to temporary administrative committees.

The council may, at any time, when in its judgment, the interest of the city so demands, by a four-fifths (4/5) vote thereof, consolidate by ordinance two or more city administrative offices and place the same in charge of one such officer.

Section 14, Paragraph 1, is amended to read as follows:

Section 14. When in this Charter not otherwise prescribed, the council shall determine which officers shall give bonds for the faithful performance of their official duties, and shall fix the amount of said bonds. Such officers before entering upon their official duties, shall execute a bond to the city in the penal sum required, which bond shall include any other office of which they may be ex-officio incumbent. Said bonds shall be approved by the council, filed with the city clerk, and paid for by the city; provided, however, that the bond of the city clerk when approved as aforesaid shall be filed with the city treasurer. Nothing in this section shall prevent the authorization or furnishing of a blanket bond to assure the honesty or faithful performance of any of its officers or employees.

Section 15, Paragraph 1, is amended to read as follows:

Section 15. Every officer and employee of the city, before entering upon the duties of his/her office shall take and subscribe the oath of offices as provided for in the Constitution of the state, and shall file the same forthwith with the city clerk.

Section 16, Paragraphs 1 and 2, is amended to read as follows:

Section 16. A vacancy in any legislative office, from whatever cause arising excluding any vacancy created due to a successful recall election, shall be filled by appointment by the council, such appointee to hold office until the next general municipal election, when a successor shall be chosen by the electors for the unexpired term; provided, that if the council fails to agree or for any other reason does not fill such vacancy within thirty days after the same occurs, then such vacancy shall be filled by the mayor; provided, however, that if for any reason the seats of a majority of the council shall become vacant, then the city clerk shall call a special election at once to fill the vacancies for the unexpired terms, and the same shall be conducted substantially in the manner provided for general municipal elections.

If any legislative officer of the city shall remove from the city or absent himself/herself therefrom for more than thirty (30) days consecutively without permission of the council, or for said period shall wilfully fail or refuse to perform the duties of his/her office, though able so to do, or shall fail to qualify, or shall resign, or be convicted of a felony or a crime of moral turpitude, or be adjudged mentally incompetent, his/her office shall thereupon become vacant.

Section 17, Paragraph l, is amended to read as follows:

Section 17. Except as may be otherwise in this Charter provided, the affirmative vote of three (3) members of the council shall be required for the appointment of or the removal of any administrative officer for cause. "For cause" includes, but is not limited to, refusal to perform the duties of his/her office, being adjudged mentally incompetent, or being convicted of a felony or crime of moral turpitude. The administrative officer is entitled to a hearing before the council on the validity of the grounds providing the basis for removal for cause.

Section 18, Paragraph 1, 3 and 4, is amended to read as follows:

Section 18, Paragraph 1. The council shall fix the compensation of all appointees and employees except officials and members of boards, commissions and committees serving gratuitously. Said compensation shall be fixed, increased or changed by resolution, adopted by a three-fifths (3/5) vote of the council.

Section 18, Paragraph 3. The salary of any appointive official or employee of the city shall cease forthwith with his/her removal or resignation from office or employment, and he/she shall only be entitled to compensation for that expired proportion of the month or term of service during which he/she shall have performed his/her duties.

Section 18, Paragraph 4. No officer or employee shall be allowed any fee, perquisite, emolument, or stipend, in addition to, or save as embraced in the salary or compensation fixed for such office by the council, if a council appointee, or the manager if a manager appointee, and all fees received by such officers or employees in connection with his/her official duties shall be paid by him/her into the city treasury, and a written report made of same, provided, however, that rewards which have been publicly offered for the apprehension of criminals may be received by the officer or officers making the apprehension, after deducting therefrom any expense that the city may have sustained in the matter.

Section 19, Paragraphs 1 through 4, is amended to read as follows:

Section 19. The mayor shall be the executive head of the city. In case of riot, insurrection, extraordinary emergency, or other disaster, he/she shall be responsible for making a public declaration of a state of emergency and shall assume all other responsibilities required of him/her pursuant to the city's disaster plan.

In the name and on behalf of the city, he/she shall sign all contracts, deeds, bonds and other legal instruments in which the city is a party.

He/she shall represent the city at all ceremonial functions of a social or patriotic character when it is desirable or appropriate to have the city represented officially thereat.

In the absence of the mayor, for whatever reason, the vice president of the council shall assume the duties as mayor pro tempore.

Section 20, Paragraphs 1 through 4, is amended to read as follows:

Section 20. The city attorney shall be an attorney-at-law, admitted to practice as such before the supreme court of the state, and who has been in actual practice therein for at least three years next preceding his/her appointment. All other things

being equal, an attorney who has had special training or experience in municipal corporation law shall be appointed to this office if practicable. The city attorney shall be legal advisor of the council, and all other city officials. He/she shall prosecute all violations of city ordinances and shall draft all contracts and other legal documents and instruments, required by the council or the city manager. He/she shall perform such other legal services as the council may direct and shall attend all meetings of the council unless excused therefrom by three members thereof or by the mayor.

When from any cause the city attorney is unable to perform the duties of his/her office, he/she may, with the consent of the council, appoint some other qualified attorney to temporarily act in his/her place and whenever in the judgment of the council, the interests of the city require it, it may employ assistant counsel.

The city attorney shall deliver all books, records, papers, documents and personal property of every description, owned by the city, to his/her successor in office, and the city shall provide a means of safe-guarding the same.

He/she shall possess such other powers, and perform such additional duties, not in conflict with this Charter as may be prescribed by ordinance.

Section 21, Paragraph 1, is amended to read as follows:

Section 21. The city manager shall be the administrative head of the city government. The City Manager shall establish residency in the City of Porterville within a reasonable period of time within the discretion of the Council. His/her powers and duties shall be as follows:

Section 21, Subsection (e) and (i), is amended to read as follows:

(e) To act, as purchasing agent for the city, should he/she be so appointed by the council.

(i) To devote his/her entire time to the interests of the city.

Section 21, Subsection (*l*): Repealed March 4, 2003.

Section 22, Paragraphs 1 and 2, is amended to read as follows:

Section 22. In case of an illness, scheduled vacation or scheduled absence from the city of the city manager, for a period of up to thirty (30) days, the individual designated as the deputy city manager shall serve as city manager pro tem. In the event that a deputy city manager has not been designated or the deputy city manager is otherwise unable to serve, the city manager shall appoint one of the existing directors of the city departments to serve as city manager pro tem.

In the case of any other absence, excluding a vacancy of the city manager position, from the city of the city manager, or his/her temporary disability to act as such, the council shall appoint a city manager pro tem, who shall possess the powers and discharge the duties of the city manager during such absence or disability only; provided, however, that a city manager pro tem shall have no authority to appoint or remove any city department director except with the unanimous formal approval of all of the members of the council. In the event that the city manager position is vacant, the council shall appoint a city manager or acting/interim city manager in accordance with Sections 13 and 17 of this Charter.

Section 23, Title and Paragraphs 1 through 3, is amended to read as follows:

Section 23. City clerk; to be clerk of the council when so appointed; duties; to keep corporate seal.

The city clerk shall be clerk of the council when so appointed by the council.

It shall be the duty of the city clerk to attend all sessions of the council and keep a full and correct record of the proceedings of each of said bodies. The proceedings of the council shall be kept in a book marked "Minutes of the Council." He/she shall keep a book marked "Ordinances" into which he/she shall copy all city ordinances certifying that each such copy is a full and correct copy of the original ordinance, and stating that the same has been published as required by law. Said record copy, so certified, shall be prima facie evidence of the contents of the ordinance, and of its passage and publication and shall be admissible as such evidence in any court or proceedings. Such record shall not be filed but shall be returned to the custody of the city clerk. He/she shall also keep a book marked "Resolutions," into which he/she shall copy all resolutions passed by the council. Both the books containing ordinances and resolutions, shall be adequately and comprehensively indexed. He/she shall conduct promptly, and keep a systematic record of all correspondence between the council and third parties relating to city business.

He/she shall be the keeper of the corporate seal of the city, and shall affix the same to instruments or writings requiring authentication. He/she shall safely keep all records, documents, ordinances, resolutions, books and such other papers and matters, as may be regularly delivered into his/her custody or required by law or ordinance to be filed with him/her.

Section 24, Paragraphs 1 through 4, is amended to read as follows:

Section 24. The city manager shall appoint the director of finance of the city, who shall serve as the general accountant of the city. He/she shall receive and preserve in his/her office all accounts, books, vouchers, documents and papers relating to the accounts of the city, its debts, revenues and other financial affairs. He/she shall keep an account of all moneys paid into and out of the treasury; and keep informed as to the exact condition of the treasury at all times.

Every demand upon the treasury, before its approval by the council, must be presented to the director of finance, who shall satisfy himself/herself whether the money is legally due, and its payment authorized by law. If satisfactory, he/she shall draw a warrant upon the treasury for the payment thereof.

Every demand approved by the director of finance shall specify on its face the several items composing it, with the amounts and dates thereof. The approval of the council shall not be necessary to draw warrants for the payment of regular salaries of officials and employees of the city, or for payment of any obligation previously authorized by law, or by resolution or order of the council.

He/she shall render each month a statement to the council showing the financial condition of the city, and annually a like statement covering all of the financial transactions of the city during the year previous.

After the annual tax roll has been completed, and before it is deposited with the collector, the director of finance shall make a check of the roll correcting any errors that maybe found and endorse same with his/her approval.

Section 39, Paragraph 1, is amended to read as follows:

Section 39. The fiscal year of the city shall commence on the first day of July of each year, or at such other time as maybe fixed by ordinance.

Section 41: Repealed March 4, 2003.

Section 42, Paragraph 1, is amended to read as follows:

Section 42. The council, not later than its second regular meeting in August, shall fix a rate of taxation sufficient to raise the amounts established by council action pursuant to Section 44. The council shall notify the County Assessor who shall thereupon compute and carry out the amount of tax so levied on each parcel of property contained in the assessment roll for the City.

Section 43: Repealed March 4, 2003.

Section 48, Paragraphs 1 through 5, is amended to read as follows:

Section 48. No money shall be expended and no indebtedness shall be incurred on behalf of the city, for any purpose, unless and until the same shall have been authorized by ordinance by four-fifths (4/5) majority vote of the Council; provided that effective January 1, 2004, and following every Council election thereafter, the City Council may, by a four-fifths majority vote, adjust the amount of money that may be expended, or the indebtedness that may be incurred, on behalf of the City, without prior specific Council authorization.

The City Council, by ordinance approved by 4/5th majority vote of the Council, shall establish the maximum amount of money to be expended and/or indebtedness incurred on behalf of the City without first requiring specific Council authorization, except as otherwise provided for in this Charter; provided further that said maximum amount once established by ordinance shall not be adjusted until after each general Council election, commencing with the first such election occurring after January 1, 2004, and then only by a 4/5th majority vote.

All demands against the city shall, before being paid, be presented to and approved by the proper board, commission or officer, as herein provided. Demands for which no appropriation has been made shall be presented to the city manager, provided, that any person dissatisfied with the refusal of the city manager to approve any demand, in whole or in part, may present the same to the council, and the approval of such demand by the council shall have the same effect as its approval by the city manager; and provided further, that if the council shall provide for other boards or commissions, it may make provision for the presentation to and approval by any such board or commission of demands for liabilities incurred by them.

The council may provide for a revolving cash fund as authorized by ordinance by four-fifths majority vote of the Council; provided that effective January 1, 2004, and following every Council election thereafter, the City Council may, by a four-fifths (4/5) majority vote, adjust the revolving cash fund. The amount shall be

paid to the city manager, and used by him/her for the payment in cash, of expenditures provided for in the budgets that cannot conveniently be paid otherwise. He or she shall account to the council for all payments by him or her out of said fund when making demand for the replenishment of the same, and at such other times as the council may require, and they shall thereupon be charged against the proper appropriations.

All demands approved by the proper board, commission or officer shall be presented to the director of finance, who shall examine the same, and if the amount thereof is legally due and there remains on his/her books an unexhausted balance or an appropriation against which the same may be charged, he/she shall approve such demand and draw and sign his/her warrant on the treasurer therefor, payable out of the proper fund. Objections of the director of finance to any demand may be overruled by the council, and the director of finance shall thereupon draw his/her warrant as directed by the council. Such warrants, when presented to the treasurer, shall be paid by him/her out of the fluid therein designated, if there be sufficient money in such fund for that purpose. A warrant not paid for lack of funds shall be registered, and all registered warrants shall be paid in the order of registration when funds are available therefor; all such registered warrants shall bear interest at the rate of six percent (6%) per annum. The director of finance shall draw his/her warrants for payment of municipal or other bonds payable out of the funds in the treasury upon presentation and surrender of the proper bonds or coupons without approval of anybody or officer. The council may make further regulations by ordinance regarding the presentation, approval and payment of demands against the city.

Section 50, Paragraph l, is amended to read as follows:

Section 50. Every officer who shall wilfully approve, allow or pay, any demand on the treasury not authorized by law, shall be liable to the city individually and on his/her official bond for the amount of the demand so approved, allowed, or paid, and shall forfeit his/her office and be forever disbarred from holding any position in the service of the city.

Section 51, Paragraph l, is amended to read as follows:

Section 51. Not later than thirty days before the end of the city's fiscal year, the city manager shall submit to the council an estimate of the expenditures and revenues of the city departments for the ensuing year. This estimate shall be compiled from detailed information obtained from the several departments on uniform blanks to be furnished by the manager.

Section 51, Paragraph 3, is amended to read as follows:

Section 51. After duly considering the estimate and making such corrections or modifications thereto as shall seem advisable to it, the council shall by resolution adopt a general budget and such resolution shall operate as an appropriation of funds to the amounts and for the purposes set forth in the budget so adopted. At any meeting after the adoption of the budget, the council, by a vote of three (3) members, may amend or supplement so as to authorize the transfer of unused bal-

ances for one purpose to another purpose or to appropriate available revenues not included in the budget.

Section 53 is added to read as follows:

Section 53. Written Investment Policy.

The city manager shall recommend and the city council by resolution shall adopt a policy to govern the investment of all city monies, which policy shall be consistent with applicable state law and shall, at a minimum, provide for the investment of all monies in such a manner as to assure the preservation and safety of principal and the integrity of record keeping; identify the types of allowable investments; and provide for the safekeeping of securities.

Section 60 is amended to read as follows:

Section 60. Financial interests prohibited.

City officers and employees are prohibited from having a financial interest in any contract, sales or purchases in accordance with applicable State law.

Section 61, Paragraphs 3 through 5, is amended to read as follows:

Section 61. The council may reject any or all bids presented and may, at its discretion, readvertise for other bids, or, the council may, after rejecting bids, determine and declare by a four-fifths (4/5) vote of all of its members that the work in question may be more economically or satisfactorily performed by day labor, or the labor or materials purchased at a lower price in the open market and after the adoption of a resolution to this effect it may proceed to have the same done in the manner stated without further observance of the foregoing provisions of this section.

The notice inviting sealed bids shall set a date for the opening of bids; the first publication shall be at least ten (10) days before the date of the opening of the bids; shall be published at least twice not less than five (5) days apart in the official newspaper selected by the council.

In case of a great public calamity, such as an extraordinary fire, flood, storm, epidemic or other disaster, the council may, by resolution passed by a vote of four-fifths (4/5) of its members, determine and declare that the public interest or necessity demands the immediate expenditure of public money to safeguard life, health, or property, and thereupon they may proceed without advertising for bids or receiving the same, to expend, or enter into a contract involving the expenditure of any money required in such emergency, on hand in the city treasury and available for such purpose.

Section 64, Paragraph 1, is amended to read as follows:

Section 64. No person, firm, or corporation shall exercise any franchise or privilege, except to the extent he, she or it may be entitled to do so by the constitution of the state, or of the United States, in, upon, under, over, or along any street, public way, or public place in the city without having first obtained a grant therefor as provided in this Charter and by general law.

Section 65, Paragraph 1, is amended to read as follows:

Section 65. The council shall advertise annually for the submission of sealed proposals or bids from newspapers of general circulation in the city, for the publication of all ordinances and other legal notices required to be published. The newspaper to whom such contract is awarded shall be known and designated as the official newspaper. The rates for publishing public notices shall not exceed the customary rates charged for publishing legal notices of a private character.

Section 66, Title and Paragraph 1, is amended to read as follows:

Section 66. Public Records. Delivery and safekeeping of documents.

The public shall have access to public records kept and maintained by the city in accordance with the law.

Section 67, Paragraphs 1 through 3, is amended to read as follows:

Section 67. No member of the council shall in any manner attempt to influence or coerce the city manager in the making of any appointment or the purchase of supplies in accordance with applicable state and federal law.

The council shall deal with the administrative functions of the city through the city manager. The council shall only have direct contact with the directors of the city's departments for the purpose of asking questions.

Political activities of and campaign contributions by the city's legislative officers, administrative officers, and employees shall be governed in accordance with applicable state and federal law. All legislative and administrative officers and all city employees are prohibited from engaging in political activities during working hours. City officers and employees are prohibited from engaging in political activities at their work place. Furthermore, city officers and employees are prohibited from engaging in political activities on city property, provided this prohibition does not pertain to property that is otherwise open to the public for the purpose of engaging in political activities.

Section 73 is added to read as follows:

Section 73. Natural or other disasters.

The city shall have in place a disaster plan, consistent with County, State and Federal policies, to be implemented in the event of an emergency or disaster.

Certified to be a true copy by Gordon T. Woods, Mayor, and Georgia Hawley, Deputy City Clerk.

Date of Municipal Election: March 4, 2003.

Charter Chapter 26—City of Burbank

Amendments to the Charter of the City of Burbank

[Filed with the Secretary of State July 15, 2003.]

Section 26 of the Charter of the City of Burbank is amended to read as follows:

SECTION 26. VACANCIES

(a) A vacancy in the office of Council Member, City Clerk or City Treasurer shall be filled as follows:

(1) If less than sixteen (16) months remain in the unexpired term of the vacant office, such vacancy shall be filled by appointment by the majority of the remaining members of the Council within forty-five (45) days following the vacancy. If the Council fails to fill the vacancy within such forty-five (45) day period, the Mayor shall make such appointment within fifteen (15) days following the Council's failure to fill the vacancy. Any person appointed to fill a vacancy shall hold office for the remainder of the unexpired term.

(2) If sixteen (16) months or more remain in the unexpired term of the vacant office, the Council shall forthwith order a special election to be held to fill the vacancy. An election to fill a vacancy shall be held not later than one hundred and twenty (120) days from the call of such election; provided, however, that a separate special election need not be called if a primary nominating election is scheduled within one hundred and eighty (180) days from the date of the vacancy. If the vacancy occurs before the first day to file nomination papers for the next primary nominating election and the vacancy has not been filled at a special election before such primary nominating election, the election to fill any unexpired portion of the vacancy shall be consolidated with the primary nominating and general municipal elections. If the election to fill a vacancy in the office of Council Member is consolidated with the primary nominating and general municipal elections, no distinction shall be made in nomination or voting between the full terms and the unexpired term, but the persons elected by the highest number of votes shall be elected for the full terms and the person receiving the next highest vote shall be elected for the unexpired term. The Council shall provide in the ordinance calling the election the procedure for nominating candidates, the amount of the filing fee, and all other matters pertaining to the election. A person elected to fill the vacancy shall hold office for the remainder of any unexpired term.

(b) If the seats of a majority of the Council shall become vacant, then the City Clerk shall call a special election at once to fill the vacancies for the unexpired terms and the same shall be conducted substantially in the manner provided for general municipal elections.

(c) If any officer of the City shall remove from the City or be absent therefrom for more than thirty (30) days consecutively without the permission of the Council, or shall fail to qualify, or shall move their place of residence outside the City, or

shall cease to be an elector of the City, or shall resign, or be convicted of a felony, or be adjudged insane, the office held by such officer shall thereupon be declared vacant by a majority vote of the Council and shall thereupon become vacant.

Section 30 of the Charter of the City of Burbank is amended to read as follows:

SECTION 30. INITIATIVE, REFERENDUM AND RECALL

The provisions of the Elections Code of the State of California governing the exercise of the powers of initiative and referendum in cities and governing the exercise of the power of recall of municipal officers shall apply to the exercise of those powers in the City insofar as such provisions may be applicable and except as herein otherwise provided.

Certified to be a true copy by Margarita Campos, City Clerk.

Date of Municipal Election: April 8, 2003.

Charter Chapter 27—City of Marina

Amendments to the Charter of the City of Marina

[Filed with the Secretary of State August 28, 2003.]

Term of Office of Council Member Filing as a Candidate for Mayor.

The term of office for any Council Member who files as a candidate for the office of Mayor shall automatically expire on the date the next municipal election is held after that filing. The filing period for candidates to fill such Council Member's term shall be extended an additional five days.

A vacancy in the elective office of Council Member shall be filled by appointment by the Council, such appointee to hold office until the next General Municipal Election and until a successor is elected and installed. Should the Council fail to fill any such vacancy within forty days after the same occurs, then it shall be filled by appointment by the Mayor. At the next General Municipal Election following any vacancy, a new Council Member shall be elected to serve for the remaining period of any unexpired term.

If the offices of a majority or more of the Council Members becomes vacant, the City Clerk shall call a Special Municipal Election to fill said vacancies, which election shall be held within sixty days of the existence of said vacancies. Each candidate elected at such election shall hold office until the next General Municipal Election. At that election the candidate or candidates receiving the highest number of votes shall be deemed to fill the longest unexpired term or terms. In the interim, said vacancies, whether occurring by recall, resignation, legal disability or physical disability, shall be filled by the persons holding the following offices and in the following order: Chairperson of the Planning Commission, Chairperson of the Community Services and Recreation Commission, Chairperson of the City Services and Improvement Commission and Chairperson of the Economic Devel-

opment Commission. Such persons shall serve as interim elective officers until said vacancies are filled by election and the newly elected officers are installed. Said persons shall be sworn in by the City Clerk in the same manner and form as elected officers as soon as possible after the vacancy or vacancies occur and shall have all the rights, duties and obligations of an elected officer during said interim appointment.

Certified to be a true copy by Ila Mettee-McCutchon, Mayor, and Joy P. Junsay, City Clerk.

Date of Municipal Election: November 7, 2000.

Charter Chapter 28—City of Desert Hot Springs

Charter of the City of Desert Hot Springs

[Filed with the Secretary of State September 26, 2003.]

PREAMBLE

We, the people of the City of Desert Hot Springs, declare our intent to maintain in our community the historic principles of self-governance inherent in the doctrine of home-rule. Therefore, we, the citizens of the City of Desert Hot Springs, do enact and establish this Charter in order to form a better City government; to better serve and provide for the health, safety, morals and welfare of the people of our City; to improve the means of cooperation and assistance with neighboring governmental jurisdictions; and to preserve and enhance the quality of life of the people of Desert Hot Springs.

Through the adoption and enactment of this City Charter, the citizens of Desert Hot Springs hereby do declare their express intent and purpose to be and remain forever a separate and independent City, as provided for by the Constitution of the State of California.

CHARTER

ARTICLE I.
MUNICIPAL AFFAIRS.

Section 100. Municipal Affairs: Generally. Each of the responsibilities of governance set forth and described in this Charter, and as established by the Constitutional, statutory and judicially defined law of the State of California, is hereby declared a municipal affair or concern, the performance of which is unique to the benefit of the City of Desert Hot Springs.

Section 101. Powers of City. The City shall have full power and authority to adopt, make, exercise and enforce all legislation, laws and regulations with respect to municipal affairs, subject only to such limitations and restrictions as may be provided in this Charter and in the Constitution of the State of California.

ARTICLE 2.
FORM OF GOVERNMENT.

Section 200. Form of Government. The municipal government established by this Charter shall be known as the "Council-Manager form of government." The City Council establishes the policy of the City; the City Manager shall carry out that policy.

ARTICLE 3.
REVENUE, SAVINGS, AND GENERATION.

Section 300. Public Works Contracts. The City shall have the power to establish standards, procedures, rules or regulations to regulate all aspects of the bidding, award and performance of any public works contract, including, but not limited to, the compensation rates to be paid for the performance of such work.

Section 301. Public Financing. The City shall have the power to establish standards, procedures, roles or regulations related to any public financing.

Section 302. Utility Franchises. The City shall have the power to adopt any ordinance providing for the acquisition, development or operation by the City of any public utility and/or any ordinance providing for the granting of a franchise, license or permit to any public utility not owned by the City, which proposes to use, or is using, City streets, highways or other rights-of-way.

Section 303. Enterprises. The City shall have the power to engage in any enterprise deemed necessary to produce revenues for the general fund or any other fund established by the City Council to promote a public purpose.

Section 304. Economic Development and Community Development. The City shall have the power to utilize revenues from the general fund to encourage, support and promote economic development and community development in the City.

ARTICLE 4.
REVENUE RETENTION.

Section 400. Reductions Prohibited. Any revenues raised and collected by the City shall not be subject to subtraction, retention, attachment, withdrawal or any other form of involuntary reduction by any other level of government.

Section 401. Mandates Limited. No person, whether elected or appointed, acting on behalf of the City, shall be required to perform any function which is mandated by any other level of government, unless and until funds sufficient for the performance of such function are provided by said mandating authority.

ARTICLE 5.
GENERAL LAWS.

Section 500. General Law Powers. In addition to the power and authority granted by the terms of this Charter and the Constitution of the State of California, the City shall have the power and authority to adopt, make, exercise and enforce all legislation, laws, and regulations and to take all actions and to exercise any and all rights, powers, and privileges heretofore or hereafter established, granted or

prescribed by any law of the State of California or by any other lawful authority. In the event of any conflict between the provisions of this Charter and the provisions of the general laws of the State of California, the provisions of this Charter shall control.

ARTICLE 6.
INTERPRETATION.

Section 600. Constitution and Interpretation. The language contained in this Charter is intended to be permissive, rather than exclusive or limiting, and shall be liberally and broadly construed in favor of the exercise by the City of its powers to govern with respect to any matter that is a municipal affair.

Section 601. Severability. If any provision of this Charter should be held by a court of competent jurisdiction to be invalid, void or otherwise unenforceable, the remaining provisions shall remain enforceable to the fullest extent permitted by law.

ARTICLE 7.
AMENDMENT.

Section 700. Amendment to Charter, revised or repealed. This Charter, and any of its provisions, may be amended by a majority vote of its electors voting on the question. Amendment or repeal may be proposed by initiative or by the governing body.

Certified to be a true copy by Matt Weyuker, Mayor, and Rossie Stobbs, City Clerk.

Date of Municipal Election: November 5, 2002.

Charter Chapter 29—City and County of San Francisco

Amendments to the Charter of the City and County of San Francisco

[Filed with the Secretary of State December 5, 2003.]

A8.506-2 MISCELLANEOUS SAFETY EMPLOYEES

Notwithstanding any other provisions of this charter, the board of supervisors or the community college board shall have the power to contract with the Board of Administration of the Public Employees' Retirement System of the State of California to provide that the probation officers, airport police officers, district attorney and public defender investigators, medical examiner investigators, juvenile court counselors, institutional police, fire safety inspectors and fire protection engineers who are not members of the Section 8.588 plans, shall be members of the public employees' retirement system, and the board of supervisors, the community college board and the retirement board shall have the power to perform all acts necessary to carry out the terms and purposes of such contract.

Contracts and contract amendments shall be cost-neutral and employee bargaining units shall be permitted to trade salary or other employer-paid benefits to achieve cost-neutrality. The Board of Supervisors or the Community College District is empowered to determine compliance under this Section. As provided in Section A8.409-5 of the City Charter, disputes under this paragraph shall not be subject to the dispute resolution procedures contained in Charter Section A8.409-4.

Any person who shall become a member of the public employees' retirement system pursuant to such contract shall have the right to be a member of the health service system and the health service board shall make provision for the participation in the benefits of the health service system by such persons.

Section 1. The San Francisco Charter is hereby amended, by amending Section 3.105, to read as follows:

SEC. 3.105. CONTROLLER; CITY SERVICES AUDITOR.

The Mayor shall appoint or reappoint a Controller for a ten-year term, subject to confirmation by the Board of Supervisors. The Controller may only be removed by the Mayor for cause, with the concurrence of the Board of Supervisors by a two-thirds vote.

The Controller shall be responsible for the timely accounting, disbursement or other disposition of monies of the City and County in accordance with sound financial practices applicable to municipalities and counties. The Controller shall have the power and duties of a county auditor, except as otherwise provided in this Charter. The Controller shall have authority to audit the accounts and operations of all boards, commissions, officers and departments to evaluate their effectiveness and efficiency. The Controller shall have access to, and authority to, examine all documents, records, books and other property of any board, commission, officer or department.

The Controller shall also serve as City Services Auditor for the City and County. As City, Services Auditor, the Controller shall be responsible for monitoring the level and effectiveness of services rendered by the City to its residents, as set forth in Appendix F to this Charter.

Should the Controller determine at any time during the fiscal year that the revenues of the General Fund, or any special, sequestered or other fund are insufficient or appear to be insufficient to support the remaining anticipated expenditure from that fund for the fiscal year for any department, function or program, the Controller shall reduce or reserve all or a portion of the expenditure appropriation until such time as the Controller determines that the anticipated revenues for the remainder of that fiscal year are sufficient to support the level of expenditure anticipated for the remainder of the fiscal year. Whenever the Controller makes a reduction or reservation, the Controller shall so inform the Mayor and Board of Supervisors within 24 hours.

The Controller shall exercise general supervision over the accounts of all officers, commissions, boards and employees of the City and County charged in

any manner with the receipt, collection or disbursement of City and County funds or other funds, in their capacity as City and County officials or employees. The Controller shall establish accounting records, procedures and internal controls with respect to all financial transactions of the City and County. Such records, procedures and controls shall permit the financial statements of the City and County to be prepared in conformity with generally accepted accounting principles applicable to municipalities and counties.

The Controller shall within 150 days of the end of each fiscal year prepare an annual report of the financial condition of the City and County. Such annual report shall be prepared in accordance with generally accepted accounting principles. The annual report shall contain such information and disclosures as shall be necessary to present to the public a full and understandable report of all City and County financial activity.

The Controller shall prepare an impartial financial analysis of each City and County ballot measure which shall include the amount of any increase or decrease in the cost of government of the City and County and its effect upon the cost of government. Such analysis shall be issued in sufficient time to permit inclusion in the voters' pamphlet.

The Controller shall issue from time to time such periodic or special financial reports as may be requested by the Mayor or Board of Supervisors.

All disbursements of funds in the custody of the Treasurer must be authorized by the Controller. No officer or employee shall bind the City and County to expend money unless there is a written contract or other instrument and unless the Controller shall certify that sufficient unencumbered balances are available in the proper fund to meet the payments under such contract or other obligation as these become due.

Section 2. The San Francisco Charter is hereby amended, by adding Appendix F (Sections F1.100 to F1.114), to read as follows:

Charter Appendix F: Authority and Duties of City Services Auditor

F1.100. FINDINGS.

(a) City residents rely upon the government of the city and county to deliver many important services affecting the health, vitality and economy of San Francisco. These include services related to the maintenance and cleanliness of streets and parks, health care, emergency services, transportation and public works. Recognizing the difficult economic times the City faces, preservation and enhancement of such services can be achieved only by ensuring that city services are delivered in an efficient, cost-effective manner, and that government waste and unnecessary bureaucracy are curtailed to the greatest extent possible.

(b) It is often difficult for individual San Franciscans to judge the effectiveness and efficiency of local government in providing direct services to residents because of the size and complexity of city government. Consistent with the goals of open government, City government should establish tools to enable residents to assess the effectiveness and efficiency of city services; to compare the city's progress in

delivering such services to that of other cities, counties and government agencies; and, where appropriate, to adopt "best practices" used in other jurisdictions when consistent with the goals of San Francisco residents.

(c) The San Francisco Controller is uniquely situated to provide objective, rigorous measurement of City service levels and effectiveness because the Controller is already charged with assessment of departmental performance and fiscal soundness. In addition, the Controller is appointed to a ten-year term, and therefore is sufficiently independent to render impartial assessments of the city's provision of public services.

(d) Therefore, this Charter Amendment:

(1) Establishes the Controller as the City Services Auditor, with the authority to conduct independent management and performance audits of departments providing services to San Francisco residents;

(2) Instructs the Controller/City Services Auditor to publish comparisons of the performance of San Francisco departments, the services they deliver, and the outcomes they achieve with other public agencies;

(3) Requires that the Controller/City Services Auditor perform comprehensive financial and performance audits of selected city departments each year;

(4) Mandates that the Controller/City Services Auditor review standards for street and park maintenance in consultation with responsible City departments and perform an annual Clean Streets/Clean Parks audit to track whether these standards are met;

(5) Provides the Controller/City Services Auditor the authority to review citywide standards for government contracting processes and the development of "Requests For Proposals" to ensure that the selection process is fair and unbiased;

(6) Prohibits conflicts of interest in the auditing process by preventing companies that have participated in departmental operations from acting as outside auditors, requiring that all employees participating in audits be designated confidential employees for labor-relations purposes, and permitting the Controller to obtain outside independent assistance when in-house employees are subject to potential conflicts of interest;

(7) Requires the Controller/City Services Auditor to administer and publicize a whistleblower hotline and website for citizens and employees to report wrongdoing, waste, inefficient practices and poor performance in city government and service delivery;

(8) Authorizes the Citizens' General Obligation Bond Oversight Committee to also function as an independent Citizens Audit Review Board to advise the Controller/City Services Auditor, to recommend departments in need of comprehensive audit, and to review citizen complaints received through the whistleblower program; and

(9) Provides a dedicated source of revenue equivalent to two-tenths of one percent of the budget of the City and County of San Francisco.

F1.101. CITY SERVICES AUDITOR; SERVICES AUDIT UNIT.

(a) In addition to the other duties prescribed by this Charter, the Controller shall perform the duties of a City Services Auditor, responsible for monitoring the level and effectiveness of services provided by the government of the City and County of San Francisco to the people of San Francisco. The City Services Auditor shall establish and maintain a Services Audit Unit in the Controller's Office to ensure the financial integrity and improve the overall performance and efficiency of City government. The Services Audit Unit shall review performance and cost benchmarks developed by City departments in consultation with the Controller and based on their departmental efficiency plans under Chapter 88 of the Administrative Code, and conduct comparisons of the cost and performance of San Francisco City government with other cities, counties and public agencies performing similar functions. In particular, the Services Audit Unit shall assess:

(1) Measures of workload addressing the level of service being provided or providing an assessment of need for a service;

(2) Measures of efficiency including cost per unit of service provided, cost per unit of output, or the units of service provided per full time equivalent position; and

(3) Measures of effectiveness including the quality of service provided, citizen perceptions of quality, and the extent a service meets the needs for which it was created.

(b) The service areas for which data is collected and comparisons conducted shall include, but not be limited to:

(1) The cleanliness and condition of streets, sidewalks, and the urban environment and landscape;

(2) The performance of other public works and government-controlled public utilities, including water and clean water programs:

(3) Parks, cultural and recreational facilities;

(4) Transportation, as measured by the standards set out in Charter Section 8A.103, provided, however, that primary responsibility for such assessment shall continue to be exercised by the Municipal Transportation Agency pursuant to Charter Section 8A.100 et seq.;

(5) The criminal justice system, including the Police Department, Juvenile and Adult Probation Departments, Sheriff, District Attorney and Public Defender;

(6) Fire and paramedic services;

(7) Public health and human services;

(8) City management; and,

(9) Human resources functions, including personnel and labor relations.

(c) The information obtained using the service measurement standards set forth above shall be compiled on at least an annual basis, and the results of such benchmark studies, as well as comparative data, shall be available on the City's website.

F1.102. STREET, SIDEWALK, AND PARK CLEANING AND MAINTENANCE.

(a) The Services Audit Unit shall conduct annually a performance audit of the City's street, sidewalk, and public park maintenance and cleaning operations. The annual audit shall:

(1) Include quantifiable, measurable, objective standards for street, sidewalk, and park maintenance, to be developed in cooperation and consultation with the Department of Public Works and the Recreation and Park Department;

(2) Based upon such measures, report on the condition of each geographic portion of the City;

(3) To the extent that standards are not met, assess the causes of such failure and make recommendations of actions that will enhance the achievement of those standards in the future;

(4) Ensure that all bond funds related to streets, parks and open space are spent in strict accordance with the stated purposes and permissible uses of such bonds, as approved by the voters.

Outside of the audit process, the City departments charged with cleaning and maintaining streets, sidewalks, and parks shall remain responsible for addressing individual complaints regarding specific sites, although the Controller may receive and investigate such complaints under Section F1.107.

(b) In addition, all city agencies engaged in street, sidewalk, or park maintenance shall establish regular maintenance schedules for streets, sidewalks, parks and park facilities, which shall be available to the public and on the department's website. Each such department shall monitor compliance with these schedules, and shall publish regularly data showing the extent to which the department has met its published schedules. The City Services Audit Unit shall audit each department's compliance with these requirements annually, and shall furnish recommendations for meaningful ways in which information regarding the timing, amount and kind of services provided may be gathered and furnished to the public.

F1.103. MANAGEMENT PRACTICES.

The City Services Audit Unit shall:

(1) Conduct and publish an annual review of management and employment practices, including City policies and MOU provisions, that either promote or impede the effective and efficient operation of city government;

(2) Identify the top five City departments by workers compensation claims, list the cost of these claims, and recommend ways to reduce both workplace injuries and improper claims;

(3) Identify the top five departments by overtime expenditures and report on the cause and potential mitigations for any excessive overtime spending; and,

(4) Conduct best practices reviews and other studies and assist departments in implementing their findings.

F1.104. PERFORMANCE AUDITS.

The City Services Audit Unit shall conduct periodic, comprehensive financial and performance audits of city departments, services, and activities. Except as provided in Section F1.102, the Controller shall have discretion to select, on a rotating basis, departments, services, and activities for audit, giving priority to matters affecting direct services to the residents of the City and County of San Francisco. In selecting audit subjects, the Controller shall give preference to requests for performance audits made by the Audit Review Board, the Mayor, the Board of Supervisors, department heads, and commissions; provided, however, that absent extraordinary circumstances, no department, activity, or service shall be subject to repeated audits in two successive years.

F1.105. AUDIT RESULTS.

(a) Before making public any portion of any draft, notes, preliminary or final report relating to the operations or activities of a City officer or agency, the Controller shall deliver a copy of the draft report to any such officer, and to the head of any agency discussed in such report and provide the officer and agency, in writing, with a reasonable deadline for their review and response. The Controller shall include in any report, or portion thereof that is made public, a copy or summary of all such officer and agency responses. In addition, the audit shall include an analysis of the anticipated costs and/or savings of any recommendations contained in the report.

(b) The Controller shall publish the results of all final performance audits and a summary of agency responses, shall deliver copies of such audits to relevant department heads, Audit Review Board, Mayor, City Attorney, Board of Supervisors, San Francisco Civil Grand Jury, and San Francisco Public Library, and shall make the audits available on the City's website. Each department subject to recommendations by the Controller shall include with its next two annual budget requests following such audit a report on the status of the Controller's recommendations. In particular, the report shall include:

(1) the Controller's final audit recommendations;

(2) a plan to address the Controller's findings and to implement the Controller's recommendations;

(3) any costs or savings reflected in the proposed budget attributable to implementation of Controller recommendations; and

(4) a statement of the recommendations that the department does not intend to implement and the basis of the department head's determination not to adopt the Controller's recommendation.

(c) To avoid conflicts of interest, all employees engaged in preparation of audits shall be designated as confidential employees. If the Controller determines that any member of the regular audit staff is unable to participate in an audit due to a potential conflict of interest, or as a result of the employee's collective bargaining representation, the Controller shall have the option of assigning other

employees regardless of civil service job description, hiring outside experts, or contracting for such services with an outside individual or agency.

F1.106. OVERSIGHT OF CONTRACTING PROCEDURES.

The Controller shall have the duty to perform regular oversight of the City's contracting procedures, including developing model criteria and terms for City Requests for Proposals (RFPs), auditing compliance with City contracting rules and procedures, and, where appropriate, investigating cases of alleged abuse or conflict of interest. Nothing in this Section shall be construed to alter the existing jurisdiction of City departments and agencies with respect to contracting. Should the Controller find that there has been an abuse or conflict of interest, he or she shall refer that finding to the Ethics Commission, the District Attorney, and the City Attorney for possible enforcement action.

F1.107. CITIZENS' COMPLAINTS; WHISTLEBLOWERS.

(a) The Controller shall have the authority to receive individual complaints concerning the quality and delivery of government services, wasteful and inefficient City government practices, misuse of City government funds, and improper activities by City government officers and employees. When appropriate, the Controller shall investigate and otherwise attempt to resolve such individual complaints except for those which:

(1) another City agency is required by federal, state, or local law to adjudicate,

(2) may be resolved through a grievance mechanism established by collective bargaining agreement or contract,

(3) involve allegations of conduct which may constitute a violation of criminal law, or

(4) are subject to an existing, ongoing investigation by the District Attorney, the City Attorney, or the Ethics Commission, where either official or the Commission states in writing that investigation by the Controller would substantially impede or delay his, her, or its own investigation of the matter.

If the Controller receives a complaint described in items (1), (2), (3), or (4) of this paragraph, the Controller shall advise the complainant of the appropriate procedure for the resolution of such complaint.

(b) If the Controller receives a complaint alleging conduct that may constitute a violation of criminal law or a governmental ethics law, he or she shall promptly refer the complaint regarding criminal conduct to the District Attorney or other appropriate law enforcement agency and shall refer complaints regarding violations of governmental ethics laws to the Ethics Commission and the City Attorney. Nothing in this Section shall preclude the Controller from investigating whether any alleged criminal conduct also violates any civil or administrative law, statute, ordinance, or regulation.

(c) Notwithstanding any provision of this Charter, including but not limited to Section C3.699-11, or any ordinance or regulation of the City and County of San Francisco, the Controller shall administer a whistleblower and citizen complaint

hotline telephone number and website and publicize the hotline and website through press releases, public advertising, and communications to City employees. The Controller shall receive and track calls and emails related to complaints about the quality and delivery of government services, wasteful and inefficient City government practices, misuse of government funds and improper activities by City government officials, employees and contractors and shall route these complaints to the appropriate agency subject to subsection (a) of this Section. The Board of Supervisors shall enact and maintain an ordinance protecting the confidentiality of whistleblowers, and protecting City officers and employees from retaliation for filing a complaint with, or providing information to, the Controller, Ethics Commission, District Attorney, City Attorney or a City department or commission about improper government activity by City officers and employees. The City may incorporate all whistleblower functions set forth in this Charter or by ordinances into a unified City call center, switchboard, or information number at a later time, provided the supervision of the whistleblower function remains with the Controller and its responsibilities and function continue unabridged.

F1.108. CUSTOMER SERVICE PLANS.

The Controller shall assess the progress of City departments' compliance with Charter Section 16.120 and any implementing ordinances requiring City departments to prepare effective customer service plans. The Controller shall make recommendations to departments to improve the effectiveness of such plans. The Controller shall report to the Board of Supervisors and Mayor the failure of any department to comply substantially with the Controller's recommendations regarding customer service plans.

F1.109. LEGISLATION.

The Controller may propose legislation to the Board of Supervisors and the Mayor to improve City programs and services and to make the delivery of such programs and services more efficient.

F1.110. ACCESS TO RECORDS; PRELIMINARY REPORTS.

(a) The Controller shall have timely access to all records and documents the Controller deems necessary to complete the inquiries and reviews required by this Appendix. If a City officer, employee, agency, department, commission, or agency does not comply with the Controller's request for such records and documents, the Controller may issue a subpoena. The provisions of this subdivision shall not apply to those records and documents of City agencies for which a claim of privilege has been properly and appropriately raised, or which are prepared or maintained by the City Attorney, the District Attorney, or the Ethics Commission for use in any investigation authorized by federal, state law or local law.

(b) Notwithstanding any other provision of this Charter, or any ordinance or regulation of the City and County of San Francisco, and except to the extent required by state or federal law, all drafts, notes, preliminary reports of Controller's benchmark studies, audits, investigations and other reports shall be confidential.

F1.111. CITIZENS AUDIT REVIEW BOARD.

In addition to its duties under Article V of Chapter 5 of the Administrative Code, the Citizens' General Obligation Bond Oversight Committee shall serve as a Citizens Audit Review Board. In its role as the Review Board, the Oversight Committee shall provide advisory input to the Controller on matters pertaining to the functions set forth in this Appendix, and, in particular, shall:

(1) Review the Controller's service standards and benchmarks to ensure their accuracy and usefulness;

(2) Review all audits to ensure that they meet the requirements set forth above;

(3) Subject to appropriate rules ensuring the confidentiality of complainants, as well as the confidentiality of complaints referred to and handled by the District Attorney, the City Attorney, and the Ethics Commission, review citizen and employee complaints received through the whistleblower/complaint hotline and website and the Controller's disposition of those complaints; and

(4) Where it deems appropriate, hold public hearings regarding the results of benchmark studies and audits to encourage the adoption of "best practices" consistent with the conclusions of the studies and audits. An audio or video recording of such hearings shall be made available for public inspection free of charge.

F1.112. OUTSIDE EXPERTS.

(a) Notwithstanding any other provision of this Charter or any ordinance or regulation of the City and County of San Francisco, the Controller shall be authorized to contract with outside, independent experts to assist in performing the requirements of this Appendix. In doing so, the Controller shall make good faith efforts as defined in Chapter 12D of the Administrative Code to comply with the provisions of Chapters 12 et seq. of the Administrative Code, but shall not be subject to the approval processes of other City agencies. The Controller shall submit an annual report to the Board of Supervisors summarizing any contracts issued pursuant to this Section and discussing the Controller's compliance with Chapters 12 et seq. Contracts issued by the Controller pursuant to this Section shall be subject, where applicable, to the requirements of Section 9.118.

(b) No outside expert or firm shall be eligible to participate or assist in an audit or investigation of any issue, matter, or question as to which that expert or firm has previously rendered compensated advice or services to any individual, corporation or City department other than the Controller. The Controller shall adopt appropriate written regulations implementing this provision, and shall incorporate this requirement in all written contracts with outside experts and firms utilized pursuant to this Section.

F1.113. CONTROLLER'S AUDIT FUND.

Notwithstanding any other provision of this Charter, the Mayor and Board of Supervisors shall be required to budget an amount equal to at least two-tenths of one percent (0.2%) of the City's overall budget, apportioned by fund and excluding bond related debt, to implement this provision. This amount shall be referred to as

the Controller's Audit Fund, and shall be used exclusively to implement the duties and requirements of this Appendix and shall not be used to displace funding for the non-audit related functions of the Controller's Office existing prior to the date this provision is enacted. If the funds are not expended or encumbered by the end of the fiscal year, the balance in the fund shall revert to the General Fund or the enterprise funds where it originated.

F1.114. OPERATIVE DATE; SEVERABILITY.

(a) This charter amendment shall be operative on July 1, 2004. This amendment shall not affect the term or tenure of the incumbent Controller.

(b) If any section, subsection, provision or part of this charter amendment or its application to any person or circumstances is held to be unconstitutional or invalid, the remainder of the amendment, and the application of such provision to other persons or circumstances, shall not be affected.

SEC. 4.134. SMALL BUSINESS COMMISSION.

(a) There shall be a Small Business Commission to oversee the San Francisco Office of Small Business. The Commission shall consist of seven members, who shall serve at the pleasure of the appointing authority. The Mayor shall appoint four members of the Commission; the Board of Supervisors shall appoint the remaining three members. The Mayor shall designate two of his or her initial appointments to serve for two-year terms; the Board of Supervisors shall designate one of its initial appointments to serve a two-year term. Thereafter, all commissioners shall serve for four-year terms.

(b) At least five of the individuals appointed to the Commission shall be owners, operators, or officers of San Francisco small businesses. One of the individuals appointed to the Commission may be either a current or former owner, operator, or officer of a San Francisco small business. One member of the Commission may be an officer or representative of a neighborhood economic development organization or an expert in small business finance.

Pursuant to Government Code Section 87103, individuals appointed to the Commission under this Section are intended to represent and further the interest of the particular industries, trades, or professions specified herein. Accordingly, it is found that for purposes of persons who hold such office, the specified industries, trades, or professions are tantamount to and constitute the public generally within the meaning of Government Code Section 87103.

(c) The Mayor and the Board of Supervisors shall select Commission members who reflect the diversity of neighborhood and small business interests in the City.

SEC. 4.108. FIRE COMMISSION.

The Fire Commission shall consist of five members appointed by the Mayor, pursuant to Section 3.100, for four-year terms. Members may be removed by the Mayor. In addition to any other powers set forth in this Charter, the Fire Commission is empowered to prescribe and enforce any reasonable rules and regulations that it deems necessary to provide for the efficiency of the Department, provided

that the civil service and ethics provisions of this Charter shall control in the event of any conflict with rules adopted under this section.

SEC. 4.109. POLICE COMMISSION.

The Police Commission shall consist of five members appointed by the Mayor, pursuant to Section 3.100, for four-year terms. Members may be removed by the Mayor.

Notwithstanding any other provision of the Charter, the Chief of Police may be removed by the Commission or the Mayor, acting jointly or separately of each other. In addition to any other powers set forth in this Charter, the Police Commission is empowered to prescribe and enforce any reasonable rules and regulations that it deems necessary to provide for the efficiency of the Department, provided that the civil service and ethics provisions of this Charter shall control in the event of any conflict with rules adopted under this section.

SEC. 15.100. ETHICS COMMISSION.

The Ethics Commission shall consist of five members who shall serve six-year terms; provided that the first five commissioners to be appointed to take office on the first day of February, 2002 shall by lot classify their terms so that the term of one commissioner shall expire at 12:00 o'clock noon on each of the second, third, fourth, fifth and sixth anniversaries of such date, respectively; and, on the expiration of these and successive terms of office, the appointments shall be made for six-year terms. The Mayor, the Board of Supervisors, the City Attorney, the District Attorney and the Assessor each shall appoint one member of the Commission. The member appointed by the Mayor shall have a background in public information and public meetings. The member appointed by the City Attorney shall have a background in law as it relates to government ethics. The member appointed by the Assessor shall have a background in campaign finance. The members appointed by the District Attorney and Board of Supervisors shall be broadly representative of the general public.

In the event a vacancy occurs, the officer who appointed the member vacating the office shall appoint a qualified person to complete the remainder of the term. Members of the Commission shall serve without compensation. Members of the Commission shall be officers of the City and County, and may be removed by the appointing authority only pursuant to Section 15.105.

No person may serve more than one six-year term as a member of the Commission, provided that persons appointed to fill a vacancy for an unexpired term with less than three years remaining or appointed to an initial term of three or fewer years shall be eligible to be appointed to one additional six-year term. Any term served before the effective date of this Section shall not count toward a member's term limit. Any person who completes a term as a Commissioner shall be eligible for reappointment six years after the expiration of his or her term. Notwithstanding any provisions of this Section or any other section of the Charter to the contrary, the respective terms of office of the members of the Commission who shall hold office on the first day of February, 2002, shall expire at 12 o'clock

noon on said date, and the five persons appointed as members of the Commission as provided in this Section shall succeed to said offices on said first day of February, 2002, at 12 o'clock noon; provided that if any appointing authority has not made a new appointment by such date, the sitting member shall continue to serve until replaced by the new appointee.

During his or her tenure, members and employees of the Ethics Commission are subject to the following restrictions:

(a) Restrictions on Holding Office. No member or employee of the Ethics Commission may hold any other City or County office or be an officer of a political party.

(b) Restrictions on Employment. No member or employee of the Ethics Commission may be a registered lobbyist or campaign consultant, or be employed by or receive gifts or other compensation from a registered lobbyist or campaign consultant. No member of the Ethics Commission may hold employment with the City and County and no employee of the Commission may hold any other employment with the City and County.

(c) Restrictions on Political Activities. No member or employee of the Ethics Commission may participate in any campaign supporting or opposing a candidate for City elective office, a City ballot measure, or a City officer running for any elective office. For the purposes of this section, participation in a campaign includes but is not limited to making contributions or soliciting contributions to any committee within the Ethics Commission's jurisdiction, publicly endorsing or urging endorsement of a candidate or ballot measure, or participating in decisions by organizations to participate in a campaign.

The Commission may subpoena witnesses, compel their attendance and testimony, administer oaths and affirmations, take evidence and require by subpoena the production of any books, papers, records or other items material to the performance of the Commission's duties or exercise of its powers.

SEC. 15.103. CONFLICT OF INTEREST.

Public office is a public trust and all officers and employees of the City and County shall exercise their public duties in a manner consistent with this trust. The City may adopt conflict of interest and governmental ethics laws to implement this provision and to prescribe penalties in addition to discipline and removal authorized in this Charter. All officers and employees of the City and County shall be subject to such conflict of interest and governmental ethics laws and the penalties prescribed by such laws.

SEC. 15.105. SUSPENSION AND REMOVAL.

(a) ELECTIVE AND CERTAIN APPOINTED OFFICERS. Any elective officer, and any member of the Airport Commission, Asian Art Commission, Civil Service Commission, Commission on the Status of Women, Golden Gate Concourse Authority Board of Directors, Health Commission, Human Services Commission, Juvenile Probation Commission, Municipal Transportation Agency Board of Directors, Port Commission, Public Utilities Commission, Recreation

and Park Commission, Fine Arts Museums Board of Trustees, Taxi Commission, War Memorial and Performing Art Center Board of Trustees, Board of Education or Community College Board is subject to suspension and removal for official misconduct as provided in this section. Such officer may be suspended by the Mayor and the Mayor shall appoint a qualified person to discharge the duties of the office during the period of suspension. Upon such suspension, the Mayor shall immediately notify the Ethics Commission and Board of Supervisors thereof in writing and the cause thereof, and shall present written charges against such suspended officer to the Ethics Commission and Board of Supervisors at or prior to their next regular meetings following such suspension, and shall immediately furnish a copy of the same to such officer, who shall have the right to appear with counsel before the Ethics Commission in his or her defense. The Ethics Commission shall hold a hearing not less than five days after the filing of written charges. After the hearing, the Ethics Commission shall transmit the full record of the hearing to the Board of Supervisors with a recommendation as to whether the charges should be sustained. If, after reviewing the complete record, the charges are sustained by not less than a three-fourths vote of all members of the Board of Supervisors, the suspended officer shall be removed from office; if not so sustained, or if not acted on by the Board of Supervisors within 30 days after the receipt of the record from the Ethics Commission, the suspended officer shall thereby be reinstated.

(b) BUILDING INSPECTION COMMISSION, PLANNING COMMISSION, BOARD OF APPEALS, ELECTIONS COMMISSION, ETHICS COMMISSION, AND ENTERTAINMENT COMMISSION. Members of the Building Inspection Commission, the Planning Commission, the Board of Appeals, the Elections Commission, the Ethics Commission, and the Entertainment Commission may be suspended and removed pursuant to the provisions of subsection (a) of this section except that the Mayor may initiate removal only of the Mayor's' appointees and the appointing authority shall act in place of the Mayor for all other appointees.

(c) REMOVAL FOR CONVICTION OF A FELONY CRIME INVOLVING MORAL TURPITUDE.

(1) Officers Enumerated in Subsections (a) and (b).

(A) An appointing authority must immediately remove from office any official enumerated in subsections (a) or (b) upon:

(i) a court's final conviction of that official of a felony crime involving moral turpitude; and

(ii) a determination made by the Ethics Commission, after a hearing, that the crime for which the official was convicted warrants removal.

(B) For the purposes of this subsection, the Mayor shall act as the appointing authority for any elective official.

(C) Removal under this subsection is not subject to the procedures in subsections (a) and (b) of this section.

(2) Other Officers and Employees.

(A) At will appointees. Officers and employees who hold their positions at the pleasure of their appointing authority must be removed upon:

(i) a final conviction of a felony crime involving moral turpitude; and

(ii) a determination made by the Ethics Commission, after a hearing, that the crime for which the appointee was convicted warrants removal.

(B) For cause appointees. Officers and employees who by law may be removed only for cause must be removed upon:

(i) a final conviction of a felony crime involving moral turpitude; and

(ii) a determination made by the Ethics Commission, after a hearing, that the crime for which the appointee was convicted warrants removal.

(3) Penalty for Failure to Remove. Failure to remove an appointee as required under this subsection shall be official misconduct.

(d) DISQUALIFICATION.

(l)(A) Any person who has been removed from any federal, state, county or city office or employment upon a final conviction of a felony crime involving moral turpitude shall be ineligible for election or appointment to City office or employment for a period of ten years after removal.

(B) Any person removed from any federal, state, county or city office or employment for official misconduct shall be ineligible for election or appointment to City office or employment for a period of five years after removal.

(2)(A) Any City department head, board, commission or other appointing authority that removes a City officer or employee from office or employment on the grounds of official misconduct must invoke the disqualification provision in subsection (d)(1)(B) and provide notice of such disqualification in writing to the City officer or employee.

(B) Upon the request of any former City officer or employee, the Ethics Commission may, after a public hearing, overturn the application of the disqualification provision of subsection (d)(1)(B) if: (i) the decision that the former officer or employee engaged in official misconduct was not made after a hearing by a court, the Board of Supervisors, the Ethics Commission, an administrative body, an administrative hearing officer, or a labor arbitrator; and (ii) if the officer or employee does not have the right to appeal his or her restriction on holding future office or employment to the San Francisco Civil Service Commission.

(e) OFFICIAL MISCONDUCT. Official misconduct means any wrongful behavior by a public officer in relation to the duties of his or her office, willful in its character, including any failure, refusal or neglect of an officer to perform any duty enjoined on him or her by law, or conduct that falls below the standard of decency, good faith and right action impliedly required of all public officers and including any violation of a specific conflict of interest or governmental ethics law. When any City law provides that a violation of the law constitutes or is deemed official misconduct, the conduct is covered by this definition and may subject the person to discipline and/or removal from office.

SEC. 16.118. APPENDIX C—ETHICS PROVISIONS.

The following sections of the Charter of 1932, as amended, shall be included in Appendix C with full force and effect, and each shall be designated with a prefix "C":

3.699-10—3.699-16 Ethics Commission Procedures

The provisions of Appendix C may be amended only pursuant to the provisions of state law governing charter amendments.

ARTICLE XVII: DEFINITIONS

For all purposes of this Charter, the following terms shall have the meanings specified below:

"Business day" shall mean any day other than a Saturday, Sunday or holiday on which governmental agencies are authorized by law to close.

"Confirm" or "confirmation" shall mean the approval by a majority of the members of the Board of Supervisors.

"Discrimination" shall mean violations of civil rights on account of race, color, religion, creed, sex, national origin, ethnicity, age, disability or medical condition, political affiliation, sexual orientation, ancestry, marital or domestic partners status, gender identity, parental status, other non-merit factors, or any category provided for by ordinance.

"Domestic partners" shall mean persons who register their partnerships pursuant to the voter-approved Domestic Partnership Ordinance.

"Elector" shall mean a person registered to vote in the City and County.

"For cause" shall mean the issuance of a written public statement by the Mayor describing those actions taken by an individual as a member of a board or commission which are the reasons for removal, provided such reasons constitute official misconduct in office.

"General municipal election" shall mean the election to be held in the City and County on the Tuesday immediately following the first Monday in November in odd-numbered years.

"Initiative" shall mean (1) a proposal by the voters with respect to any ordinance, act or other measure which is within the powers conferred upon the Board of Supervisors to enact, any legislative act which is within the power conferred upon any other official, board, commission or other unit of government to adopt, or any declaration of policy; or (2) any measure submitted to the voters by the Mayor or by the Board of Supervisors, or four or more members of the Board.

"Notice" shall mean publication in an official newspaper (as defined by ordinance), and a contemporaneous filing with the Clerk of the Board of Supervisors or other appropriate office.

"One-third," "a majority" or "two-thirds" of the Board of Supervisors or any other board or commission of the City and County shall mean one-third, a majority or two-thirds of all members of such board or commission.

"Published" shall mean published in an official newspaper of the City and County.

"Referendum" shall mean the power of the voters to nullify ordinances involving legislative matters except that the referendum power shall not extend to any portion of the annual budget or appropriations, annual salary ordinances, ordinances authorizing the City Attorney to compromise litigation, ordinances levying taxes, ordinances relative to purely administrative matters, ordinances necessary to enable the Mayor to carry out the Mayor's emergency powers, or ordinances adopted pursuant to Section 9.106 of this Charter.

"Special municipal election" shall mean, in addition to special elections otherwise required by law, the election called by (1) the Director of Elections with respect to an initiative, referendum or recall, and (2) the Board of Supervisors with respect to bond issues, election of an official not required to be elected at the general municipal election, or an initiative or referendum.

"Statewide election" shall mean an election held throughout the state.

"Voter" shall mean an elector who is registered in accordance with the provisions of state law.

SEC. 18.115. DELETION OF ORDINANCES REGULATING CONFLICTS OF INTEREST AND TRANSFER OF CHARTER SECTIONS REGULATING CONFLICTS OF INTEREST INTO THE CAMPAIGN AND GOVERNMENTAL CONDUCT CODE.

(a) On the effective date of this Charter Amendment, Section 1.50 of the Administrative Code and Section 1.200; Article III, Chapter 2 and Section 3.200; Article III, Chapter 3 and Section 3.300; Article III, Chapter 4 and Sections 3.400 and 3.405; Article III, Chapter 5 and Sections 3.500, 3.505, 3.510, 3.515, 3.520, 3.525, 3.530, 3.535, 3.540, 3.545; Article III, Chapter 6 and Section 3.600; and Article III, Chapter 7 and Sections 3.700, 3.705, 3.710, 3.715, 3.720, 3.725, 3.730, 3.735, and 3.740 of the Campaign and Governmental Conduct Code shall be deemed repealed, and the City Attorney is authorized and directed to take appropriate steps to remove them from future editions of published codes.

(b) On the effective date of this Charter Amendment, Charter Sections C9.101–C9.127 shall be deemed enacted into ordinance, and the City Attorney is directed and authorized to codify Section C9.101 as Administrative Code Section 1.50; Section C9.102 as Campaign and Governmental Conduct Code Section 1.200; Section C9.103 as Campaign and Governmental Conduct Code Section 3.1-102.5; Section C9.127 in a new Chapter 3 of the Campaign and Governmental Conduct Code titled "Ethics Commission" as Section 3.300; and the remaining sections in a new Chapter 2 of the Campaign and Governmental Conduct Code titled "Conflict of Interest and Other Prohibited Activities" as follows: Section C9.104 as Section 3.200; Section C9.105 as Section 3.202; Section C9.106 as Section 3.204; Section C9.107 as Section 3.206; Section C9.108 as Section 3.208; Section C9.109 as Section 3.210; Section C9.110 as Section 3.212; Section C9.111 as Section 3.214; Section C9.112 as Section 3.216; Section C9.113 as Section 3.218; Section C9.114 as Section 3.220; Section C9.115 as Section 3.222; Section C9.116 as Section 3.224; Section C9.117 as Section 3.226; Section C9.118 as Section 3.228;

Section C9.119 as Section 3.230; Section C9.120 as Section 3.232; Section C9.121 as Section 3.234; Section C9.122 as Section 3.236; Section C9.123 as Section 3.238; Section C9.124 as Section 3.240; Section C9.125 as Section 3.242; and Section C9.126 as Section 3.244.

These sections may be amended by the Board of Supervisors if (a) the amendment serves the purposes of the Ordinance; (b) the Ethics Commission approves the proposed amendment by at least a four-fifths vote of all its members; (c) the proposed amendment is available for public review at least 30 days before the amendment is considered by the Board of Supervisors; and (d) the Board of Supervisors approves the proposed amendment by at least a two-thirds vote of all its members.

C9.101. OFFICERS OF THE CITY AND COUNTY.

The officers of the City and County shall be the officers elected by vote of the people, members of the Board of Education, members of boards and commissions appointed by the Mayor and the Board of Supervisors, members of the Building Inspection Commission, members of the Ethics Commission, members of the Elections Commission, members of the Retirement Board, members of the Health Service Board, members of the Sunshine Ordinance Task Force, members of the Youth Commission, members of the Small Business Commission, members of the Board of Law Library Trustees, the Superintendent of Schools, the executive appointed as the chief executive officer under each board or commission, the Controller, the City Administrator, the head of each department under the Mayor, and such other officers as may hereafter be provided by law or so designated by ordinance.

C9.102. PROHIBITION ON MULTIPLE CAMPAIGN ACCOUNTS.

An officer of the City and County of San Francisco, or any person or committee on behalf of an officer of the City and County of San Francisco, is hereby prohibited from establishing any account, other than a campaign fund, for the solicitation and expenditure of funds. Nothing in this section shall prohibit an officer from spending personal funds on official or related business activities.

(a) An account established by an officer or on behalf of an officer of the City and County of San Francisco is defined as any account used to pay expenses incurred directly in connection with carrying out the usual and necessary duties of holding office, including but not limited to, travel between an officer's residence and public office, meetings with constituents which are not campaign related meetings, salary payments to staff for other than campaign activities, office promotional materials, advertising, mailings, postage, and paid radio or television airtime.

(b) Any and all monies or services accepted or received by an officer or on behalf of an officer, except monies or services accepted or received from or as a result of the officer's personal or business activities, unrelated to his or her office, shall be deposited, credited or otherwise reported to a campaign fund established by the officer and shall be subject to the provisions contained in Section 1.114 of the Campaign and Governmental Conduct Code.

(c) This Section shall not be applied retroactively. Funds held in officeholder accounts, or accounts on behalf of any officer, existing on November 2, 1993, may be expended on official or business related activities notwithstanding this Section. No further deposits, transfer, credits or other additions to the balance of the account shall be made. Upon depletion of all available funds in the officer's account, the account shall be closed.

C9.103. FAILURE TO FILE.

(a) Subject to the removal and Civil Service provisions of the Charter as well as any applicable Civil Service Rules, any officer or employee of the City and County of San Francisco who fails to file any statement required by Sections 3.1-101 and 3.1-102 of the Campaign and Governmental Conduct Code within 30 days after receiving notice from the Ethics Commission of a failure to file may be subject to disciplinary action by his or her appointing authority, including removal from office or termination of employment.

(b) The Ethics Commission may issue a letter to an appointing authority recommending removal of any City officer or termination of any City employee who has failed to file a statement required by Sections 3.1-101 and 3.1-102 of the Campaign and Governmental Conduct Code if the City officer or employee has not filed the required statement within 30 days of receiving notice from the Ethics Commission of his or her failure to file.

(c) Every appointing authority whose appointees file statements required by Sections 3.1-101 and 3.1-102 of the Campaign and Governmental Conduct Code with the Ethics Commission shall provide written notice to the Ethics Commission of the name of any appointee who has assumed or left office or employment. Such notice shall be provided within 15 days of the City officer or employee assuming or leaving office or employment. Failure to provide such notice may constitute official misconduct.

C9.104. FINDINGS AND PURPOSE.

(a) The people of the City and County of San Francisco declare that public office is a public trust and all officers and employees of the City and County shall exercise their public duties in a manner consistent with this trust. To assure that the governmental processes of the City and County promote fairness and equity for all residents and to maintain public trust in governmental institutions, the people of the City and County declare that they have a compelling interest in creating laws regulating conflicts of interest and outside activities of City officers and employees.

(b) The proper operation of the government of the City and County of San Francisco requires that public officers and employees be independent, impartial, and responsible to the people and that public office and employment not be used for personal gain. The public interest, therefore, requires that officers and employees of the City and County be prohibited from making, participating in making or otherwise seeking to influence governmental decisions in which they have a financial interest or accepting gifts and other things of value from regulated sources.

(c) In order to maintain the public's confidence in the integrity of governmental decisions related to the appointment and discipline of public officers and employees, public officers and employees must not give or receive anything of value in consideration of their appointment or accept anything of value from their subordinates, and must not participate in decisions related to their own character or conduct or that of their family members.

(d) City and County contracts should be, and should appear to be, awarded on a fair and impartial basis. The practice of members of Boards and Commissions of the City and County contracting with the City and County creates the potential for, and the appearance of, favoritism or preferential treatment by the City and County. Prohibiting members of Boards and Commissions of the City and County from contracting with the City and County will eliminate both actual and perceived favoritism or preferential treatment without creating unnecessary barriers to public service.

(e) Government decisions of officers and employees of the City and County should be, and should appear to be, made on a fair and impartial basis. The practice of former officers and employees communicating with their former colleagues on behalf of private interests and the practice of current officers of the City and County communicating with other officers and employees on behalf of any other person for compensation creates the potential for, and the appearance of, undue influence, favoritism or preferential treatment. Prohibiting former officers and employees from communicating orally, in writing, or in any other manner with their former colleagues for specified periods of time and prohibiting current officers from communicating orally, in writing, or in any other manner with other officers and employees of the City and County on behalf of any other person for compensation will eliminate both actual and perceived undue influence, favoritism or preferential treatment without creating unnecessary barriers to public service.

C9.105. CONSTRUCTION.

This Chapter shall be liberally construed in order to effectuate its purposes, provided that nothing in this Chapter shall be interpreted or applied to prohibit officers, members and representatives of employee organizations from engaging in organizational activities that are protected by the California Meyers-Milias-Brown Act, the First Amendment to the United States Constitution or any other federal, state or local law. No error, irregularity, informality, neglect or omission of any officer in any procedure taken under this Chapter which does not directly affect the jurisdiction of the Board of Supervisors or the City and County to control the ethical conduct of its officers and employees shall avoid the effect of this Chapter.

C9.106. AMENDMENT OR REPEAL OF THIS CHAPTER.

The voters may amend or repeal this Chapter. The Board of Supervisors may amend this Chapter if all of the following conditions are met:

(a) The amendment furthers the purposes of this Chapter;

(b) The Ethics Commission approves the proposed amendment by at least a four-fifths vote of all its members;

(c) The proposed amendment is available or public review at least 30 days before the amendment is considered by the Board of Supervisors or any committee of the Board of Supervisors; and

(d) The Board of Supervisors approves the proposed amendment by at least a two-thirds vote of all its members.

C9.107. FINANCIAL CONFLICTS OF INTEREST.

(a) Incorporation of the California Political Reform Act. No officer or employee of the City and County shall make, participate in making, or seek to influence a decision of the City and County in which the officer or employee has a financial interest within the meaning of California Government Code Section 87100 et seq. and any subsequent amendments to these sections.

(b) Incorporation of California Government Code Section 1090, et seq. No officer or employee of the City and County shall make a contract in which he or she has a financial interest within the meaning of California Government Code Section 1090 et seq. and any subsequent amendments to these sections.

(c) Future Employment. No officer or employee of the City shall make, participate in making, or otherwise seek to influence a governmental decision, affecting a person or entity with whom the officer or employee is discussing or negotiating an agreement concerning future employment.

SEC. C9.108. APPOINTMENTS AND NOMINATIONS.

No person shall give or promise, and no officer or employee of the City and County may solicit or accept, any money or other valuable thing in consideration for (i) the person's nomination or appointment to any City and County office or employment, or promotion or other favorable City and County employment action, or (ii) any other person's nomination or appointment to any City and County office or employment or promotion or other favorable City and County employment action.

C9.109. VOTING ON OWN CHARACTER OR CONDUCT.

(a) Prohibition. No officer or employee of the City and County shall knowingly vote on or attempt to influence a governmental decision involving his or her own character or conduct, or his or her appointment to any office, position, or employment.

(b) Exceptions. Nothing in this section shall prohibit an officer or employee from (i) responding to allegations, applying for an office, position, or employment, or responding to inquiries; or (ii) participating in the decision of his or her board, commission, or committee to choose him or her as chair, vice chair, or other officer of the board, commission, or committee.

C9.110. DECISIONS INVOLVING FAMILY MEMBERS.

(a) Prohibition. No officer or employee of the City and County may make, participate in making, or otherwise seek to influence a decision of the City and County regarding an employment action involving a relative. Nothing in this

section shall prohibit an officer or employee from acting as a personal reference or providing a letter of reference for a relative who is seeking appointment to a position in any City department, board, commission or agency other than the officer or employee's department, board, commission or agency or under the control of any such department, board, commission or agency.

(b) Delegation. A Department Head who is prohibited under subsection (a) from participating in an employment action involving a relative shall delegate in writing to an employee within the department any decisions regarding such employment action.

(c) Definitions. For purposes of this section, the term "employment action" shall be limited to hiring, promotion, or discipline, and the term "relative" shall mean a spouse, domestic partner, parent, grandparent, child, sibling, parent-in-law, aunt, uncle, niece, nephew, first cousin, and includes any similar step relationship or relationship created by adoption.

C9.111. DISCLOSURE OF PERSONAL, PROFESSIONAL AND BUSINESS RELATIONSHIPS.

(a) Disclosure. A City officer or employee shall disclose on the public record any personal, professional or business relationship with any individual who is the subject of or has an ownership or financial interest in the subject of a governmental decision being made by the officer or employee where as a result of the relationship, the ability of the officer or employee to act for the benefit of the public could reasonably be questioned. For the purposes of this section, the minutes of a public meeting at which the governmental decision is being made, or if the governmental decision is not being made in a public meeting, a memorandum kept on file at the offices of the City officer or employee's department, board, commission or agency shall constitute the public record.

(b) Penalties. A court may void any governmental decision made by a City officer or employee who fails to disclose a relationship as required by subsection (a) if the court determines that: (1) the failure to disclose was willful; and (2) the City officer or employee failed to render his or her decision with disinterested skill, zeal, and diligence and primarily for the benefit of the City. No other penalties shall apply to a violation of this section, provided that nothing in this section shall prohibit an appointing authority from imposing discipline for a violation of this section.

(c) Regulations. The Ethics Commission may adopt regulations setting forth the types of personal, professional and business relationships that must be disclosed pursuant to this section.

C9.112. GIFTS.

(a) Prohibition on bribery. No person shall offer or make, and no officer or employee shall accept, any gift with the intent that the City officer or employee will be influenced thereby in the performance of any official act.

(b) General gift restrictions. In addition to the gift limits imposed by California Government Code Section 89503, Section 3.1-101 of the Campaign and

Governmental Conduct Code and any subsequent amendments to those sections, no officer or employee of the City and County shall solicit or accept any gift in excess of $100 in a calendar year from a person who the officer or employee knows or has reason to know is a restricted source. For purposes of this subsection, the term gift has the same meaning as under California Government Code Section 89503 and any subsequent amendments to that section.

(1) Restricted Source. For purposes of this section, a restricted source means: (A) a person doing business with or seeking to do business with the department of the officer or employee; (B) any person who during the prior 12 months knowingly attempted to influence the officer or employee in any legislative or administrative action.

(2) Adjustment of gift limits. The Ethics Commission is authorized to adjust annually the gift limits imposed by this section to reflect changes in the California Consumer Price Index.

(c) Gifts from subordinates. No officer or employee shall solicit or accept any gratuity in money or other valuable thing, either directly or indirectly, from any subordinate or employee or from any candidate or applicant for a position as employee or subordinate under him or her. The Ethics Commission shall issue regulations implementing this section, including regulations exempting voluntary gifts that are given or received for special occasions or under other circumstances in which gifts are traditionally given or exchanged.

(d) Additional Restrictions. Nothing in this section shall prohibit a City department, agency, board or commission, from imposing additional gift restrictions on its officers or employees.

C9.113. INCOMPATIBLE ACTIVITIES.

(a) Prohibition. No officer or employee of the City and County may engage in any employment, activity, or enterprise that the department, board, commission, or agency of which he or she is a member or employee has identified as incompatible in a statement of incompatible activities adopted under this section. No officer or employee may be subject to discipline or penalties under this section unless he or she has been provided an opportunity to demonstrate that his or her activity is not in fact inconsistent, incompatible or in conflict with the duties of the officer or employee.

(b) Statement Of Incompatible Activities. Every department, board, commission, and agency of the City and County shall, by August 1 of the year after which this section becomes effective, submit to the Ethics Commission a statement of incompatible activities. No statement of incompatible activities shall become effective until approved by the Ethics Commission after a finding that the activities are incompatible under the criteria set forth in subsection (c). After initial approval by the Ethics Commission, a department, board, commission or agency of the City and County may, subject to the approval of the Ethics Commission, amend its statement of incompatible activities. The Ethics Commission may, at any time, amend the statement of incompatible activities of any department, board, commission or agency of the City and County.

(c) Required Language. Each statement of incompatible activities shall list those outside activities that are inconsistent, incompatible, or in conflict with the duties of the officers and employees of the department, board, commission, or agency of the City and County. This list shall include, but need not be limited to, activities that involve: (1) the use of the time, facilities, equipment and supplies of the City and County; or the badge, uniform, prestige, or influence of the City and County officer or employee's position for private gain or advantage; (2) the receipt or acceptance by an officer or employee of the City and County of any money or other thing of value from anyone other than the City and County for the performance of an act that the officer or employee would be required or expected to render in the regular course of his or her service or employment with the City and County; (3) the performance of an act in a capacity other than as an officer or employee of the City and County that may later be subject directly or indirectly to the control, inspection, review, audit or enforcement of the City and County officer or employee's department, board, commission or agency; and (4) time demands that would render performance of the City and County officer or employee's duties less efficient. The Ethics Commission may permit City boards and commissions to exclude any required language from their statement of incompatible activities if their members, by law, must be appointed in whole or in part to represent any profession, trade, business, union or association.

(d) Meet and Confer. No statement of incompatible activities or any amendment thereto shall become operative until the City and County has satisfied the meet and confer requirements of State law.

(e) Notice. Every department, board, commission and agency of the City and County shall annually provide to its officers and employees a copy of its statement of incompatible activities.

(f) Existing Civil Service Rules. Rules and Regulations relating to outside activities previously adopted or approved by the Civil Service Commission shall remain in effect until statements of incompatible activities are adopted pursuant to this section.

C9.114. PROHIBITION ON DUAL OFFICE HOLDING.

Any person holding an office under the City and County with an annual salary in excess of $2,500, whether by election or by appointment, who shall, during his or her term office, hold or retain any other office with such a salary under the government of the United States, the State of California, or the City and County shall be deemed to have thereby vacated the office held by him or her under the City and County. For the purposes of this section, the term salary does not include: (1) a stipend, per diem, or other payment provided for attendance at meetings; or (2) health, dental or vision insurance, or other non-cash benefits.

C9.115. PROHIBITING MEMBERS OF BOARDS AND COMMISSIONS FROM CONTRACTING WITH THE CITY AND COUNTY.

(a) Definitions. For purposes of this section, the following definitions shall apply:

(1) Board or Commission. The term "board or commission" means an appointed board or commission created by Charter or ordinance of the City and County, but does not include advisory boards or commissions.

(2) Business. The term "business" means any corporation, partnership, sole proprietorship, firm, enterprise, franchise, association, organization, or other legal entity or undertaking organized for economic gain.

(3) City and County. The term "City and County" includes any commission, board, department, agency, committee, or other organizational unit of the City and County of San Francisco.

(4) Contract. The term "contract" means any agreement to which the City and County is a party, other than a grant funded in whole or in part by the City and County or an agreement for employment with the City and County in exchange for salary and benefits.

(5) Subcontract. The term "subcontract" means a contract to perform any work that a primary contractor has an agreement with the City and County to perform.

(b) Prohibition. No member of a board or commission of the City and County shall, during his or her terms of office, contract or subcontract with the City and County, the San Francisco Redevelopment Agency, the San Francisco Housing Authority, the San Francisco Unified School District, or the San Francisco Community College District, where the amount of the contract or the subcontract exceeds $10,000.

(c) Exceptions. This section shall not apply to the following contracts or subcontracts:

(1) A contract or subcontract with a non-profit organization;

(2) A contract or subcontract with a business with which a member of a board or commission is affiliated unless the member exercises management and control over the business. A member exercises management and control if he or she is:

(A) An officer or director of a corporation;

(B) A majority shareholder of a closely held corporation;

(C) A shareholder with more than five percent beneficial interest in a publicly traded corporation;

(D) A general partner or limited partner with more than 20 percent beneficial interest in the partnership; or

(E) A general partner regardless of percentage of beneficial interest and who occupies a position of, or exercises management or control of the business;

(3) A contract or subcontract with the City and County entered into before a member of a board or commission commenced his or her service; or

(4) An agreement to provide property, goods or services to the City and County at substantially below fair market value.

(d) Limitation. Failure of a member of a board or commission to comply with this section shall not be grounds for invalidating any contract with the City and County.

C9.116. PROHIBITION ON REPRESENTING PRIVATE PARTIES BEFORE OTHER CITY OFFICERS AND EMPLOYEES—COMPENSATED ADVOCACY.

(a) Prohibition. No officer of the City and County shall directly or indirectly receive any form of compensation to communicate orally, in writing, or in any other manner on behalf of any other person with any other officer or employee of the City and County with the intent to influence a government decision.

(b) Exceptions. This section shall not apply to any communication by: (1) an officer of the City and County on behalf of the City and County; (2) an officer of the City and County on behalf of a business, union, or organization of which the officer is a member or full-time employee; (3) an associate, partner or employee of an officer of the City and County, unless it is clear from the totality of the circumstances that the associate, partner or employee is merely acting as an agent of the City and County officer; or (4) a City officer acting in his or her capacity as a licensed attorney representing clients in communications with the City Attorney's Office, outside legal counsel hired by the City, or representatives of the City who are named in a pending litigation matter.

(c) Waiver. The Ethics Commission may waive the prohibitions in this section for any member of a City board or commission who, by law, must be appointed to represent any profession, trade, business, union or association.

C9.117. REFERRALS.

No officer or employee of the City and County shall: (a) receive any money, gift or other thing of economic value from a person or entity other than the City and County for referring a member of the public to a person or entity for any advice, service or product related to the processes of the City and County; or (b) condition any governmental action on a member of the public hiring, employing, or contracting with any specific person or entity. The Ethics Commission may waive the restriction in subsection (b) if the Commission determines that granting a waiver is necessary for the proper administration of a governmental program or action.

C9.118. DISCLOSURE OR USE OF CONFIDENTIAL CITY INFORMATION.

No current or former officer or employee of the City and County shall: (a) willfully or knowingly disclose any confidential or privileged information, unless authorized or required by law to do so; or (b) use any confidential or privileged information to advance the financial or other private interest of himself or herself or others. Confidential or privileged information is information that at the time of use or disclosure was not subject to disclosure under the Sunshine Ordinance or California Public Records Act.

C9.119. PROHIBITION ON POLITICAL ACTIVITY.

(a) Solicitation of Contributions. No City officer or employee shall knowingly, directly or indirectly, solicit political contributions from other City officers or employees or from persons on employment lists of the City. Nothing in this section shall prohibit a City officer or employee from communicating through the

mail or by other means requests for political contributions to a significant segment of the public which may include City officers or employees.

(b) Political Activities in Uniform. No City officer or employee shall participate in political activities of any kind while in uniform.

(c) Political Activities on City Time or Premises. No City officer or employee may engage in political activity during working hours or on City premises. For the purposes of this subsection, the term "City premises" shall not include City owned property that is made available to the public and can be used for political purposes.

C9.120. PROHIBITION ON USE OF PUBLIC FUNDS FOR PRINTED GREETING CARDS.

(a) Definitions. The term "greeting card" means any printed card that celebrates or recognizes a holiday.

(b) Prohibition. No public funds may be used to design, produce, create, mail, send, or deliver any printed greeting card. The Controller of the City and County of San Francisco shall, in the Controller's sole discretion, determine whether a payment is prohibited under this section.

The Controller's decision regarding whether a payment is prohibited under this section is final.

C9.121. POST-EMPLOYMENT RESTRICTIONS.

(a) All Officers and Employees.

(1) General Post-Employment Restrictions.

(A) Permanent restriction on representation in particular matters. No former officer or employee of the City and County, after the termination of his or her service or employment with the City, shall, with the intent to influence, act as agent or attorney, or otherwise represent, any other person (except the City and County) before any court, or before any state, federal, or local agency, or any officer or employee thereof, by making any formal or informal appearance or by making any oral, written, or other communication in connection with a particular matter:

(i) in which the City and County is a party or has a direct and substantial interest;

(ii) in which the former officer or employee participated personally and substantially as a City officer or employee;

(iii) which involved a specific party or parties at the time of such participation; and

(iv) which is the same matter in which the officer or employee participated as a City officer or employee.

(B) Permanent restriction on assisting others in particular matters. No former officer or employee of the City and County, after the termination of his or her service or employment with the City, shall aid, advise, counsel, consult or assist another person (except the City and County) in any proceeding in which the officer or employee would be precluded under subsection (A) from personally appearing.

(C) Exception for testimony. The prohibitions in subsections (A) and (B) do not prohibit a former officer or employee of the City and County from testifying as a witness, based on the former officer's or employee's personal knowledge, provided that no compensation is received other than the fees regularly provided for by law or regulation of witnesses.

(D) One year restriction on communicating with former department. No former officer or employee of the City and County, for one year after termination of his or her service or employment with the City, shall, with the intent to influence a government decision, communicate orally, in writing, or in any other manner on behalf of any other person (except the City and County) with any officer or employee of the department, board, commission, office or other unit of government, for which the officer or employee served.

(E) Waiver. (i) At the request of a former City officer or employee, the Ethics Commission may waive any of the restrictions in subsections (a)(1)(A), (a)(1)(B) and (a)(1)(D) if the Commission determines that granting a waiver would not create the potential for undue influence or unfair advantage. The Ethics Commission shall adopt regulations implementing this provision. (ii) The Ethics Commission may waive any of the restrictions in subsections (a)(1)(A), (a)(1)(B) and (a)(1)(D) for members of City boards and commissions who, by law, must be appointed to represent any profession, trade, business, union or association.

(2) Future Employment.

(A) Future Employment With Parties That Contract With The City. No officer or employee of the City shall, for a period of one year after termination of City service or employment, be employed by or otherwise receive compensation from a person or entity that entered into a contract with the City within the 12 months prior to the officer or employee leaving City service where the officer or employee personally and substantially participated in the award of the contract.

(B) Waiver. At the request of a former City officer or employee, the Ethics Commission may waive the prohibition in subsection (a)(2)(A) if the Commission determines that imposing the restriction would cause extreme hardship for the former City officer or employee. The Ethics Commission shall adopt regulations implementing this provision.

(b) Mayor and Members of the Board of Supervisors.

(1) One year restriction on communicating with City departments. For purposes of the one-year restriction under subsection (a)(1)(D), the "department" for which a former Mayor or member of the Board of Supervisors served shall be the City and County and the prohibition in subsection (a)(1)(D) shall extend to communications with:

(A) a board, department, commission or agency of the City and County;

(B) an officer or employee of the City and County;

(C) an appointee of a board, department, commission, agency, officer, or employee of the City and County; or

(D) a representative of the City and County.

(2) City service. No former Mayor or member of the Board of Supervisors shall be eligible for a period of one year after the last day of service as Mayor or member of the Board of Supervisors, for appointment to any full time, compensated employment with the City and County. This restriction shall not apply to a former Mayor or Supervisor elected to an office of the City and County, appointed to fill a vacancy in an elective office of the City and County, or appointed to a board or commission in the executive branch.

C9.122. AIDING AND ABETTING.

No person shall knowingly and intentionally provide assistance to or otherwise aid or abet any other person in violating any of the provisions of this Chapter.

C9.123. FILING OF FALSE CHARGES.

No person shall knowingly and intentionally file with the Ethics Commission, the District Attorney or the City Attorney any false charge alleging a violation of this Chapter.

C9.124. PROVISION OF FALSE OR MISLEADING INFORMATION; WITHHOLDING OF INFORMATION; AND DUTY TO COOPERATE AND ASSIST.

(a) Prohibition. No person shall knowingly and intentionally furnish false or fraudulent evidence, documents, or information to the Ethics Commission, District Attorney or City Attorney, or knowingly and intentionally misrepresent any material fact, or conceal any evidence, documents, or information relevant to an investigation by the Ethics Commission, District Attorney or City Attorney of an alleged violation of this Chapter.

(b) Duty to Cooperate and Assist. The Ethics Commission, District Attorney or City Attorney may request and shall receive from every City officer and employee cooperation and assistance with an investigation into an alleged violation of this Chapter.

C9.125. PENALTIES AND ENFORCEMENT.

(a) Criminal Penalties. Any person who knowingly or willfully violates any of the City's conflict of interest and governmental ethics laws shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than $10,000 for each violation or by imprisonment in the County jail for a period of not more than one year in jail or by both such fine and imprisonment.

(b) Civil Penalties. Any person who intentionally or negligently violates any City conflict of interest or governmental ethics law shall be liable in a civil action brought by the City Attorney for an amount up to $5,000 for each violation.

(c) Injunctive Relief. The City Attorney or any resident may bring a civil action on behalf of the people of San Francisco to enjoin violations of or compel compliance with a conflict of interest or governmental ethics law. No resident may commence a civil action under this section without first notifying the City Attorney in writing of the intent to file a civil action under this section. If the City Attorney fails to notify the resident within 120 days of receipt of the notice that the City Attorney has filed or will file a civil action, the complainant may file the action.

No resident may file an action under this section if the City Attorney responds within 120 days that the City Attorney intends to file an action or has already filed a civil action. No resident may bring an action under this section if the Ethics Commission has issued a finding of probable cause arising out of the same facts, the District Attorney has commenced a criminal action arising out of the same facts, or another resident has filed a civil action under this section arising out of the same facts. A court may award reasonable attorney's fees and costs to any resident who obtains injunctive relief under this section.

(d) Administrative Penalties. Any person who violates any of the City's conflict of interest or governmental ethics laws shall be liable in an administrative proceeding before the Ethics Commission held pursuant to the Charter. In addition to the administrative penalties set forth in the Charter, the Ethics Commission may issue warning letters to City officers and employees.

(e) Statute Of Limitations. No person may bring a criminal, civil or administrative action under this section against any other person more than four years after the date of the alleged violation.

C9.126. SEVERABILITY.

If any provision of this Chapter, or the application thereof to any person or circumstance, is held invalid, the validity of the remainder of the Chapter and the applicability of such provisions to other persons and circumstances shall not be affected thereby.

C9.127. ETHICS COMMISSION.

The powers and duties of the Ethics Commission are governed by Charter Sections 15.100, et seq., and Appendix C, Sections C3.699-10—C3.699-16.

Section 1. The San Francisco Charter is hereby amended by adding Section A8.401 to read as follows:

A8.401 EARLY RETIREMENT BENEFITS TARGETED TO MITIGATE LAYOFFS.

A8.401-1 PURPOSE.

The current fiscal crisis requires the City and County to lay off employees to balance its budget. The need for such layoffs is expected to continue through fiscal years 2003–2004 and 2004–2005. The purpose of this early retirement measure is to: (1) encourage employees in classifications identified for layoff, due to cuts in City and County services or functions, to take early retirement, (2) minimize the effects of layoffs on employees already laid off from these classifications by increasing the possibility of return from holdover lists, (3) achieve good labor relations by extending the benefits to eligible employees who were laid off after March 1, 2003, but before the date this measure was enacted, (4) limit early retirement benefits to employees in classifications identified for layoffs, (5) provide for certification by the Controller that the number of employees selected for early retirement benefits in each classification shall not exceed the number of employees separated due to layoff, and (6) provide for participation by the School District and the Community College District.

A8.401-2 EARLY RETIREMENT BENEFITS.

The following criteria govern those employees eligible to receive the early retirement benefit set forth in Section A8.522 of the Charter.

A8.401-3 AUTHORITY.

During fiscal years 2003–2004 and 2004–2005, the Mayor shall identify, subject to confirmation by the Controller and the Director of the Department of Human Resources ("Director"):

(A) City and County services or functions that have been terminated or reduced during the fiscal year because of budget constraints, and

(B) The classifications of positions that have been eliminated in the budget for the fiscal year because of the termination or reduction of City and County services or functions ("Identified Classifications").

A8.401-4 SCHEDULE.

The determinations made by the Mayor, Controller and the Director under Section A8.401-3, above, shall be made after the Board of Supervisors has enacted the budget for the fiscal year or adopted a supplemental change to the budget.

A8.401-5 ELIGIBILITY.

The Director shall develop procedures according to the following criteria and limitations to identify those employees eligible to receive early retirement benefits due to layoffs in Identified Classifications.

(A) The Director shall identify employees eligible for early retirement benefits in the following order:

1. Permanent civil service employees

a. In order of seniority, employees currently employed in an Identified Classification and employees laid off between March 1, 2003 and June 30, 2005 from an Identified Classification.

b. In order of seniority, employees currently employed in classifications that have been near-listed to an Identified Classification.

The Director shall determine seniority at the time of notification using the Civil Service Commission rules on layoff. A current employee who has not received notice that he or she will be separated from employment due to layoff shall be eligible for early retirement benefits only if his or her retirement would result in the retention or return to employment of an employee who has received notice of separation or been separated from employment due to layoff.

2. Exempt and provisional employees. Exempt and provisional employees, employed under Charter Sections 10.104 or 10.105, shall be eligible for early retirement benefits only if they have been involuntarily separated from employment due to layoff between March 1, 2003 and June 30, 2005 from an Identified Classification.

(B) The number of employees who receive early retirement benefits in each Identified Classification shall not exceed the number of employees noticed for separation or separated from employment due to layoffs in the Identified Classification. The Controller shall certify the names of the employees identified, and that

the number of employees identified for early retirement benefits in each Identified Classification does not exceed the number of employees separated from employment due to layoffs in the Identified Classification.

A8.401-6 NOTIFICATION PROCEDURE.

The Director shall notify in writing those employees eligible for early retirement benefits, with a copy to the retirement system, and shall set a deadline for the employees to retire, not to exceed 30 days after notification.

A8.401-7 EXTENSION.

This program may be extended by a three-fourths vote of the Board of Supervisors. The Board may authorize an extension limited to fiscal years 2005–2006 and 2006–2007.

A8.401-8 COSTS.

The City and County, not the Retirement System, shall bear the costs of identifying and giving notice, as described in this section, to employees eligible for the early retirement benefit.

A8.401-9 SCHOOL AND COMMUNITY COLLEGE DISTRICTS.

For the purpose of offering early retirement benefits to their eligible employees, the San Francisco Unified School District and the San Francisco Community College District, through their authorized officials, shall exercise the authority granted in Section A8.401-3 to identify classifications of positions, held by employees enrolled in the San Francisco Retirement System, that meet the criteria in Section A8.401-3. Any offer of early retirement benefits to School District or Community College District employees shall be governed by the criteria, limitations and procedures set forth in Sections A8.401-3 through A8.401-8 above. The determinations made in Section A8.401-3 by the School District or the Community College District shall be made after the governing bodies of the School District or Community College District, as appropriate, have adopted the budget for the fiscal year or adopted a supplemental change to the budget.

A8.401-10 NON-VESTED BENEFIT.

This Section and Section A8.522 do not create vested rights in any employee who has not yet retired under this Section. The voters expressly reserve the right to alter or repeal for any reason the early retirement benefits provided in this Section and Section A8.522.

A8.401-11 DISCRETIONARY AUTHORITY.

The determinations made under this Section are within the sole discretion of the City and County, School District and Community College District. In adopting this charter amendment the voters intend to grant broad discretion to City and County officials, including the Director and the Controller, as well as appropriate School District and Community College District officials. The voters intend that courts grant deference to these officials' interpretations and applications of the provisions of this charter amendment. The voters intend that courts defer to the decisions of these officials unless they are devoid of any conceivable basis in reason. The voters do not intend to impose any duties on the City and County, or

its officials, including the Director and Controller, or on the School District, Community College District, or their officials, for breach of which any aggrieved party may recover damages, attorneys fees or costs.

Section 2. The San Francisco Charter is hereby amended by adding Section A8.522 to read as follows:

A8.522 EARLY RETIREMENT BENEFITS.

A8.522-1 EARLY RETIREMENT BENEFITS.

Under this section, certain employees may become eligible to receive early retirement benefits. These early retirement benefits shall only apply to members who are certified under Section A8.401 and who retire with an effective date of retirement within the time limit established by the notice in Section A8.401-6. As used in this section, the term "early retirement benefits" means increasing an eligible employee's age and credited service for both qualification and benefit computation purposes by three (3) years but shall not apply to the disability or vesting benefit provisions or computations under Charter Sections A8.509(c), A8.509(f), A8.587-3 and A8.587-6. Early retirement benefits are available to members under Charter Sections A8.509 and A8.587, subject to any limitations in those sections, and also subject to the limits in Section A8.401 and herein but, are not available to members covered by Charter Sections A8.559, A8.585, A8.586, A8.588, A8.595, A8.596, A8.597 or A8.598 or other Charter sections.

A8.522-2 RECALCULATION/EFFECTIVE DATE OF RETIREMENT.

Any employee who separated from employment due to layoff between March 1, 2003 and June 30, 2005, and is later determined to be eligible for early retirement benefits, may have his or her retirement allowance recalculated as of his or her date of retirement. Any employee who separated from employment due to layoff between March 1, 2003 and June 30, 2005, but did not retire, and who is later determined to be eligible for early retirement benefits, may retire after notice in Section A8.401-6 but no earlier than the first day of the month in which he or she applies for retirement. Any such employee who withdrew his or her accumulated contributions shall redeposit in the retirement fund the amount, plus interest, refunded to him or her.

A8.522-3 RETURN TO SERVICE.

Any employee who retires under any early retirement program and later reenters City and County service as a member of the retirement system shall forfeit any service or age credit received under the early retirement program.

A8.522-5 COMPLIANCE WITH TAX LAWS.

The early retirement benefits under this section will be limited by Section 415 of the Internal Revenue Code of 1986, as amended from time to time, and no early retirement benefits under this section will be effective if they have an adverse effect on the tax qualified status of the retirement system under Section 401 of the Internal Revenue Code of 1986, as amended from time to time.

Section 1. The San Francisco Charter is hereby amended by adding Section 9.113.5, to read as follows:

SEC. 9.113.5. RAINY DAY RESERVE.

(a) There shall be a Rainy Day Reserve (the Reserve), which may also be known as an economic stabilization reserve.

Allocations to the Reserve

(b) If the Controller projects that total General Fund revenues for the upcoming budget year will exceed total General Fund revenues for the current year by more than five percent, the budget shall allocate the anticipated General Fund revenues in excess of that five percent growth (the excess revenues) as follows:

(i) 50 percent of the excess revenues to the Reserve;

(ii) 25 percent of the excess revenues to capital and other one-time expenditures; and

(iii) 25 percent of the excess revenues to any lawful governmental purpose.

(c) Total monies in the Reserve may not exceed 10 percent of actual total General Fund revenues, as stated in the City's most recent independent annual audit. The budget shall allocate excess revenues that would otherwise be allocated to the Reserve above the 10 percent cap instead to capital and other one-time expenditures.

(d) The Mayor and the Board of Supervisors may, at any time, appropriate monies from the capital and other one-time expenditures allocation for capital projects or for expenditures such as, but not limited to, acquisition of equipment or information systems.

(e) The Mayor and the Board of Supervisors may, at any time, appropriate monies from the general purpose allocation for any lawful governmental purpose.

Withdrawals from the Reserve

(f) If the Controller projects that total General Fund revenues for the upcoming budget year will be less than the current year's total General Fund revenues, or the highest of any other previous year's total General Fund revenues, the budget may appropriate up to 50 percent of the current balance in the Reserve, but no more than the shortfall in total General Fund revenues, for any lawful governmental purpose in the upcoming budget year.

(i) If the trigger for withdrawals from the Reserve was not met in the current year, the Controller shall calculate the shortfall for the upcoming budget year by subtracting the total projected General Fund revenues for the upcoming budget year from the total projected General Fund revenues for the current year.

(ii) If the trigger for withdrawals from the Reserve was met in the current year, the shortfall shall be calculated by subtracting the total projected General Fund revenues for the upcoming budget year from the highest of any previous year's total General Fund revenues, plus two percent for each intervening year.

Adjustments

(g) If the City made appropriations from the Reserve in the current year and in the immediately preceding budget year pursuant to subsection (f), the City is not required to allocate any anticipated excess revenues to the Reserve or to capital and other one-time expenditures for the upcoming budget year.

(h) If the Controller projects that the Consumer Price Index for the upcoming budget year shall exceed the index for the current year by more than five percent, the trigger for allocations to the Reserve as set forth in Subparagraph (b) above shall instead be the percentage of growth in the index plus two percent. If the Controller projects that the Consumer Price Index for the upcoming budget year shall be less than the index for the current year, the trigger for withdrawals from the Reserve as set forth in Subparagraph (f) above shall instead be the percentage of negative growth in the index. The Controller shall use for these purposes the San Francisco All Items Consumer Price Index for All Urban Consumers (CPI-U), or its successor, as reported by the U.S. Department of Labor's Bureau of Labor Statistics.

(i) If the Board of Supervisors or the voters take an action that changes the amount of total General Fund revenues in any material manner, such as reducing a tax or imposing a new fee, the revenue changes caused by that action will not be counted as part of the triggers for allocations to or withdrawals from the Reserve during the year or years in which the action is first implemented.

(j) In conjunction with the year-end close of the budget, the Controller shall reconcile the revenue projections triggering any budgeted allocations to or withdrawals from the Reserve with actual revenue results, as stated in the City's independent annual audit for the years in question, and rebalance the Reserve, the capital and other one-time expenditures allocation, and the general purpose allocation accordingly.

Withdrawals for the Benefit of the Unified School District

(k) If the Controller projects that inflation-adjusted per-pupil revenues for the San Francisco Unified School District will be reduced in the upcoming budget year and the School District has noticed a significant number of layoffs, the Board of Supervisors and the Mayor may, in their discretion, appropriate funds from the Reserve to the School District to offset the costs of maintaining education during the upcoming budget year. Such appropriations may not exceed the dollar value of the total decline in inflation-adjusted per-pupil revenues for the year, or 25 percent of the Reserve balance, whichever is lower. If the triggers for withdrawals from the Reserve for the benefit of the School District were met in the current year, the decline in per-pupil revenues shall be calculated by subtracting the inflation-adjusted per-pupil revenues for the upcoming budget year from the highest of any previous year's inflation-adjusted per-pupil revenues, plus two percent for each intervening year.

Transition

(*l*) On the effective date of this Section, the Controller shall transfer all monies in the City's Cash Reserve to the Rainy Day Reserve.

(m) For purposes of initial implementation of this Section, the Mayor and the Board of Supervisors may make appropriations from the Reserve for the 2004–2005 budget year and subsequent years if the Controller certifies that the trigger for withdrawal in subsection (f) would have been met during the 2003–2004 budget year, if this Section had been in effect at that time; provided, however, that the City shall not be required to make allocations of any anticipated excess revenues to the Reserve or to capital and other one-time expenditures for the 2004–2005 budget year.

Section 2. The San Francisco Charter is hereby amended by amending Section 9.113, to read as follows:

SEC. 9.113. GENERAL FISCAL PROVISIONS.

(a) Unused and unencumbered appropriations or unencumbered balances existing at the close of any fiscal year in revenue or expense appropriations of the City and County for any such fiscal year, but exclusive of revenue or money required by law to be held in school, bond, bond interest, bond redemption, pension, trust, utility or other specific funds, or to be devoted exclusively to specified purposes other than annual appropriations, and together with revenues collected or accruing from any source during such fiscal year, in excess of the estimated revenue from such source as shown by the annual budget and the appropriation ordinance for such fiscal year, shall be transferred by the Controller, at the closing of such fiscal year, to the General Fund.

(b) In the event that funds are not available to meet authorized expenditures, the Treasurer, upon the recommendation of the Controller, is authorized to transfer monies among funds held by the Treasurer in the pooled funds of the City and County which are legally available for such a purpose, except a pension fund. The Treasurer and the Controller shall set the terms and conditions of the transfer, taking into account the requirements and nature of the fund from which the transfer was made. All monies transferred pursuant to this Section shall accrue interest at not less than the then current rate of interest earned by the Treasurer on the pooled funds of the City and County. In no event shall the Controller or the Treasurer cause any transfer of monies pursuant to this Section if said transfer would be inconsistent with the terms and conditions of any outstanding bonded indebtedness of the City and County, including any of its boards or commissions.

(c) In the event the Mayor or a member of the Board of Supervisors recommends a supplemental appropriation ordinance after the adoption of the budget for any fiscal year and prior to the close of the fiscal year containing any item which had been rejected by the Mayor in his/her review of departmental budget estimates for the fiscal year or which had been rejected by the Board of Supervisors in its consideration of the Mayor's proposed budget for the fiscal year, it shall require a vote of two-thirds of all members of the Board of Supervisors to approve such supplemental appropriation ordinance.

(d) No ordinance or resolution for the expenditure of money, except the annual appropriation ordinance, shall be passed by the Board of Supervisors unless the Controller first certifies to the Board that there is a sufficient unencumbered balance in a fund that may legally be used for such proposed expenditure, and that, in the judgment of the Controller, revenues as anticipated in the appropriation ordinance for such fiscal year and properly applicable to meet such proposed expenditures will be available in the treasury in sufficient amount to meet the same as it becomes due.

(e) The Board of Supervisors shall have the power to borrow money by the issuance of tax anticipation notes, temporary notes, commercial paper, or any other short-term debt instruments in the manner provided by state law or City ordinance.

(f) Annual appropriations shall expire at the end of the fiscal year and the City shall have no authority to expend funds from such appropriations unless and until the Board of Supervisors adopts a new budget, interim budget, or supplemental appropriation for such expenditures.

(g) No City monies shall be drawn from the treasury of the City and County, nor shall any obligation for the expenditure of any money be incurred, except in pursuance of appropriations or transfers made as provided in the Charter and the Administrative Code.

SEC. 4.109. POLICE COMMISSION.

The Police Commission shall consist of seven members appointed pursuant to this section. The Mayor shall nominate four members to the commission, at least one of whom shall be a retired judge or an attorney with trial experience. The Rules Committee of the Board of Supervisors, or any successor committee thereto, shall nominate three other members to the commission. Each nomination shall be subject to confirmation by the Board of Supervisors, and the Mayor's nominations shall be the subject of a public hearing and vote within 60 days. If the Board of Supervisors rejects the Mayor's nomination to fill the seat designated for a retired judge or attorney with trial experience, the Mayor shall nominate a different person with such qualifications. If the Board of Supervisors fails to act on a mayoral nomination within 60 days of the date the nomination is transmitted to the Clerk of the Board of Supervisors, the nominee shall be deemed confirmed. Appointments to fill a vacancy on the commission shall become operative on the date the Board of Supervisors adopts a motion confirming the nomination, or on the 61st day following the date a mayoral nomination is transmitted to the Clerk of the Board of Supervisors if the Board of Supervisors fails to vote on the nomination prior to such date. Confirmations of nominations to fill a vacancy that will be created upon the expiration of a sitting member's term shall become operative upon the expiration of the sitting member's term, or, if the Board of Supervisors fails to act on a mayoral nomination to fill such anticipated vacancy, on the 61st day following the date the nomination was transmitted to the Clerk of the Board of Supervisors or on the expiration of the sitting member's term, whichever occurs later. The terms and tenures of all members sitting on the commission as of the

effective date of the amendments to this section approved at the November 2003 election shall terminate at 12 noon on April 30, 2004. To stagger the terms of the seven members thereafter, of the first four members nominated by the Mayor, two members shall serve terms of two years and two members shall serve terms of four years, and of the three members nominated by the Rules Committee, one member shall serve a term of one year, one member shall serve a term of two years, and one member shall serve a term of three years. The Clerk of the Board of Supervisors shall designate such initial terms by lot. All subsequent appointments to the commission shall be for four-year terms.

The tenure of each member shall terminate upon the expiration of the member's term. The Mayor shall transmit a nomination or renomination to the Clerk of the Board of Supervisors no later than 60 days prior to the expiration of the term of a member nominated by the Mayor. For vacancies occurring for reasons other than the expiration of a member's term, within 60 days following the creation of such vacancy, the Mayor shall nominate a member to fill such vacancy if the vacancy is for a seat filled by nomination of the Mayor.

The District Attorney, Sheriff and Public Defender may recommend persons to the Mayor and Board of Supervisors for nomination or appointment to the Police Commission.

The Mayor, with the consent of the Board of Supervisors, may remove a member the Mayor has nominated. The Board of Supervisors may remove a member the Rules Committee has nominated.

Notwithstanding any other provision of the Charter, the Chief of Police may be removed by the Commission or the Mayor, acting jointly or separately of each other.

SEC. 4.127. POLICE DEPARTMENT.

The Police Department shall preserve the public peace, prevent and detect crime, and protect the rights of persons and property by enforcing the laws of the United States, the State of California and the City and County.

The Chief of Police may appoint and remove at pleasure special police officers.

The Chief of Police shall have all powers which are now or that may be conferred upon a sheriff by state law with respect to the suppression of any riot, public tumult, disturbance of the public peace or organized resistance against the laws or public authority.

DISTRICT POLICE STATIONS. The Police Department shall maintain and operate district police stations. The Police Commission, subject to the approval by the Board of Supervisors, may establish additional district stations, abandon or relocate any district station, or consolidate any two or more district stations.

OFFICE OF CITIZEN COMPLAINTS. The Mayor shall appoint a nominee of the Police Commission as the director of the Office of Citizen Complaints, subject to confirmation by the Board of Supervisors. The director shall serve at the pleasure of the Police Commission. If the Board fails to act on the appointment

within 30 days, the appointment shall be deemed approved. In the event the office is vacant, until the Mayor makes an appointment and that appointment is confirmed by the Board, the Police Commission shall appoint an interim director who shall serve at the pleasure of the Police Commission. The appointment shall be exempt from the civil service requirements of this Charter. The director shall never have been a uniformed member or employee of the department. The director of the Office of Citizen Complaints shall be the appointing officer under the civil service provisions of this Charter for the appointment, removal or discipline of employees of the Office of Citizen Complaints.

The Police Commission shall have the power and duty to organize, reorganize and manage the Office of Citizen Complaints. Subject to the civil service provisions of this Charter, the Office of Citizen Complaints shall include investigators and hearing officers. As of July 1, 1996, the staff of the Office of Citizen Complaints shall consist of no fewer than one line investigator for every 150 sworn members. Whenever the ratio of investigators to police officers specified by this section is not met for more than 30 consecutive days, the director shall have the power to hire, and the city Controller must pay, temporary investigators to meet such staffing requirements. No full-time or part-time employee of the Office of Citizen Complaints shall have previously served as a uniformed member of the department. Subject to rule of the Police Commission, the director of the Office of Citizen Complaints may appoint part-time hearing officers who shall be exempt from the civil service requirements of this Charter. Compensation of the hearing officers shall be at rates recommended by the Commission and established by the Board of Supervisors or by contract approved by the Board of Supervisors.

Complaints of police misconduct or allegations that a member of the Police Department has not properly performed a duty shall be promptly, fairly and impartially investigated by staff of the Office of Citizen Complaints. The Office of Citizen Complaints shall investigate all complaints of police misconduct, or that a member of the Police Department has not properly performed a duty, except those complaints which on their face clearly indicate that the acts complained of were proper and those complaints lodged by other members of the Police Department. The Office of Citizen Complaints shall use its best efforts to conclude investigations of such complaints and, if sustained, transmit the sustained complaint to the Police Department within nine (9) months of receipt thereof by the Office of Citizen Complaints. If the Office of Citizen Complaints is unable to conclude its investigation within such nine-month period, the director of the Office of Citizen Complaints, within such nine-month period shall inform the Chief of Police of the reasons therefor and transmit information and evidence from the investigation as shall facilitate the Chief's timely consideration of the matter. The Office of Citizen Complaints shall recommend disciplinary action to the Chief of Police on those complaints that are sustained. The director of the Office of Citizen Complaints, after meeting and conferring with the Chief of Police or his or her designee, may verify and file charges with the Police Commission against members of the Police

Department arising out of sustained complaints; provided, that the director may not verify and file such charges for a period of 60 days following the transmittal of the sustained complaint to the Police Department unless the director issues a written determination that the limitations period within which the member or members maybe disciplined under Government Code Section 3304, as amended from time to time or any successor provisions thereto, may expire within such 60-day period and either (i) the Chief of Police fails or refuses to file charges with the Police Commission arising out of the sustained complaint, (ii) the Chief of Police or his or her designee fails or refuses to meet and confer with the director on the matter, or (iii) other exigent circumstances necessitate that the director verify and file charges to preserve the ability of the Police Commission to impose punishment pursuant to Section A8.343.

The director of the Office of Citizen Complaints shall schedule hearings before hearing officers when such is requested by the complainant or a member of the department and, in accordance with rules of the Commission, such a hearing will facilitate the fact-finding process. The Board of Supervisors may provide by ordinance that the Office of Citizen Complaints shall in the same manner investigate and make recommendations to the Chief of Police regarding complaints of misconduct by patrol special police officers and their uniformed employees.

Nothing herein shall prohibit the Chief of Police or a commanding officer from investigating the conduct of a member of the department under his or her command, or taking disciplinary or corrective action, otherwise permitted by this Charter, when such is warranted; and nothing herein shall limit or otherwise restrict the disciplinary powers vested in the Chief of Police and the Police Commission by other provisions of this Charter.

The Office of Citizen Complaints shall prepare in accordance with rules of the Commission monthly summaries of the complaints received and shall prepare recommendations quarterly concerning policies or practices of the department which could be changed or amended to avoid unnecessary tension with the public or a definable segment of the public while insuring effective police services. The Office of Citizen Complaints shall prepare a report for the President of the Board of Supervisors each quarter. This report shall include, but not be limited to, the number and type of complaints filed, the outcome of the complaints, and a review of the disciplinary action taken. The President of the Board of Supervisors shall refer this report to the appropriate committee of the Board of Supervisors charged with public safety responsibilities. Said committee may issue recommendations as needed.

In carrying out its objectives the Office of Citizen Complaints shall receive prompt and full cooperation and assistance from all departments, officers and employees of the City and County, which shall promptly produce all records requested by the Office of Citizen Complaints except for records the disclosure of which to the Office of Citizen Complaints is prohibited by law. The director may also request and the Chief of Police shall require the testimony or attendance of

any member of the Police Department to carry out the responsibilities of the Office of Citizen Complaints.

BUDGET. Monetary awards and settlements disbursed by the City and County as a result of police action or inaction shall be taken exclusively from a specific appropriation listed as a separate line item in the Police Department budget for that purpose.

POLICE STAFFING. The police force of the City and County shall at all times consist of not fewer than 1,971 full duty sworn officers. The staffing level of the Police Department shall be maintained with a minimum of 1,971 full duty sworn officers thereafter.

All officers and employees of the City and County are directed to take all acts necessary to implement the provisions of this section. The Board of Supervisors is empowered to adopt ordinances necessary to effectuate the purpose of this section including but not limited to ordinances regulating the scheduling of police training cases.

Further, the Commission shall initiate an annual review to civilianize as many positions as possible to maximize police presence in the communities and submit that report to the Board of Supervisors annually for review and approval.

The number of full duty sworn officers in the Police Department dedicated to neighborhood policing and patrol for fiscal year 1993–1994 shall not be reduced in future years, and all new full duty sworn officers authorized for the Police Department shall also be dedicated to neighborhood community policing, patrol and investigations.

PATROL SPECIAL POLICE OFFICERS. The Commission may appoint patrol special police officers and for cause may suspend or dismiss patrol special police officers after a hearing on charges duly filed with the Commission and after a fair and impartial trial. Patrol special police officers shall be regulated by the Police Commission, which may establish requirements for and procedures to govern the position, including the power of the Chief of Police to suspend a patrol special police officer pending a hearing on charges. Each patrol special police officer shall be at the time of appointment not less than 21 years of age and must possess such physical qualifications as may be required by the Commission.

Patrol special police officers may be designated by the Commission as the owners of a certain beat or territory which may be established or rescinded by the Commission. Patrol special police officers designated as the owners of a certain beat or territory or the legal heirs or representatives of the owners may dispose of their interest in the beat or territory to a person of good moral character, approved by the Police Commission and eligible for appointment as a patrol special police officer.

Commission designation of beats or territories shall not affect the ability of private security companies to provide on-site security services on the inside or at the entrance of any property located in the City and County.

A8.343 FINE, SUSPENSION AND DISMISSAL IN POLICE AND FIRE DEPARTMENTS.

Members of the uniformed ranks of the fire or the police department guilty of any offense or violation of the rules and regulations of their respective departments, shall be liable to be punished by reprimand, or by fine not exceeding one month's salary for any offense, or by suspension for not to exceed three months, or by dismissal, after trial and hearing by the commissioners of their respective departments; provided, however, that the chief of each respective department for disciplinary purposes may suspend such member for a period not to exceed 10 days for violation of the rules and regulations of his department. Any such member so suspended shall have the right to appeal such suspension to the fire commission or to the police commission, as the case may be, and have a trial and hearing on such suspension. Written notice of appeal must be filed within 10 days after such suspension and the hearing of said appeal must be held within 30 days after the filing of said notice of appeal. If the commission shall reverse or alter the finding of the chief, it shall order that the member affected be paid salary for the time of the suspension reversed or altered. In the event the chief should exercise such power of suspension, the member involved shall not be subject to any further disciplinary action for the same offense; provided, that where the Office of Citizen Complaints has sustained a complaint and recommended discipline in excess of a 10-day suspension, the Chief of Police may not exercise his or her power of suspension under this section without first meeting and conferring with the director of the Office of Citizen Complaints and affording the director an opportunity to verify and file charges with the Police Commission pursuant to Section 4.127. If the director of the Office of Citizen Complaints verifies and files charges, the Police Commission shall conduct a trial and hearing thereon, and the Chief of Police may not suspend the member pending the outcome of the Police Commission proceedings on the charges except as provided in Section A8.344.

Subject to the foregoing, members of the uniformed ranks of either department shall not be subject to dismissal, nor to punishment for any breach of duty or misconduct, except for cause, nor until after a fair and impartial trial before the commissioners of their respective departments, upon a verified complaint filed with such commission setting forth specifically the acts complained of, and after such reasonable notice to them as to time and place of hearings as such commission may, by rule, prescribe. The accused shall be entitled, upon hearing, to appear personally and by counsel; to have a public trial; and to secure and enforce, free of expense, the attendance of all witnesses necessary for his defense.

A8.344 TEMPORARY SUSPENSION PENDING COMMISSION HEARING; EXONERATION OF CHARGES.

In the circumstances listed in Section A8.341 the chief of the police department and the chief of the fire department may temporarily suspend a member of the respective department pending a hearing before the police or fire commission on disciplinary charges against the member, and the member shall be entitled to a

prompt administrative hearing to determine if he or she should remain suspended pending the outcome of the commission proceedings. If a member of the uniformed ranks of the police and fire departments is suspended by the chief of the respective department pending hearing before the police or fire commission for charges filed against him and subsequently takes a voluntary leave of absence without pay pending his trial before the commission, and, if after such trial he is exonerated of the charges filed against him, the commission shall order payment of salary to such member for the time under suspension and may, in its discretion, order payment of salary to such member for the time on voluntary leave of absence without pay, and the report of such suspension and leave of absence without pay shall thereupon be expunged from the record of service of such member.

Charter Chapter 30—City of Norco

Charter of the City of Norco

[Filed with the Secretary of State December 10, 2003.]

1. GENERAL LAW GOVERNS:

Except as expressly stated in this charter, all current laws, ordinances and resolutions of the City of Norco will remain unchanged and may be adopted, amended or repealed in the manner provided in the general law. The general laws set forth in the constitution of the State of California and the laws of the State of California shall continue to govern the City of Norco.

2. FORM OF GOVERNMENT:

The municipal government established by this charter shall continue to be the "Council-Manager" form of government. The city council establishes the policy of the city; the city manager shall carry out that policy.

3. PROTECTING ANIMAL KEEPING RIGHTS, ZONING RIGHTS, AND HORSE TRAILS:

The following listed City of Norco Municipal Codes as in effect as of the effective date of this Charter will not be changed, amended, or repealed without a minimum of a Super Majority (4/5ths) Vote of the City of Norco City Council:

Title 3 REVENUE AND FINANCE (Only including the below listed Chapters, Sections, and Subsections)

Chapter 3.20 RIDING TRAILS FUND

Section 3.40.034 Trail Development Fee.

Title 8 ANIMALS (Only including the below listed Chapters, Sections, and Subsections)

Chapter 8.02 VOLUNTARY RANCH LICENSE

Title 10 VEHICLES AND TRAFFIC (Only including the below listed Chapters, Sections, and Subsections)

Section 10.08.030 Parking Violations Include:

Title 17 SUBDIVISIONS (Only including the below listed Chapters, Sections, and Subsections)

Section 17.08.320 Improvements.

Section 17.08.670 Trail.

Section 17.12.020 Streets and highways.

Section 17.12.030 Lots.

Section 17.16.140 Protection of future easements.

Title 18 ZONING (including all Chapters, Sections and Subsections)

4. INAPPLICABILITY OF PREVAILING WAGE LAW:

The California Prevailing Wage Law, Labor Code Section 1720, et. seq., shall be inapplicable to the City of Norco public works projects.

5. SUCCESSION TO RIGHTS AND LIABILITIES:

The City of Norco shall continue to own, possess and control all rights and property of every kind and nature that is owned, possessed and controlled at the time this charter takes effect, and shall be subject to all its debts, obligations and contracts.

6. AMENDMENTS, REVISIONS, OR REPEALS TO CHARTER:

This charter may only be amended, revised or repealed by a 50% + 1 of the voters at a general election.

7. INITIATIVE AND REFERENDA:

This charter does not abridge or modify the rights of citizens to propose initiatives and referenda (including amendments to this charter) as provided for in the general laws in the State of California.

Certified to be a true copy by Debra L. McNay, City Clerk.

Date of Municipal Election: November 4, 2003.

Charter Chapter 31—City of Redwood City

Amendments to the Charter of the City of Redwood City

[Filed with the Secretary of State December 23, 2003.]

Section 17. PLANNING COMMISSION

There shall be a city planning commission, which shall consist of seven members, who shall be appointed by the Council, to serve for three (3) years each, without compensation, none of whom shall hold any other public office or position in the city. All members of the commission shall, at the time of their appointments and continuously during their incumbencies, be residents and electors of the City. The commission shall elect its chairperson from among its members. Neither the City Attorney, the Planning Director nor any deputy or assistant of either of them,

shall have the right to vote or enter into deliberations but shall be present in an advisory capacity only.

Section 27. NO INTERFERENCE BETWEEN COUNCIL, BOARD OR COMMISSION AND CITY MANAGER, OFFICER OR DEPARTMENT DIRECTOR

Notwithstanding any charter provision, ordinance or resolution to the contrary:

A. No member of the council, or any board or commission of the City shall in any manner, directly or indirectly, by suggestion or otherwise, attempt to influence or coerce the city manager, or any administrative officer or department director:

i. In the making of any appointment or

ii. In the purchase of supplies.

B. No member of the council, or any board or commission of the City shall attempt to exact any promise relative to any appointment from any candidate for city manager, administrative officer, or department director.

C. Relative to the jurisdiction of the council, or any board or commission of the City, no member thereof shall, in any manner, directly or indirectly, discuss with any candidate for city manager, city administrative officer or department director, the employment of any subordinate employee.

D. Relative to the jurisdiction of the council, board or commission, no member thereof shall attempt to unduly influence or intervene in the city manager's, administrative officer's, or department director's exercise of supervision or control of any subordinate employee.

2. The foregoing shall not preclude any member of the council, or any board or commission from consulting with any city administrative officer or employee for informational purposes.

3. Any violation of the foregoing provisions of this section shall constitute a misdemeanor and shall work a forfeiture of the office of the offending member of the council, board or commission, who may be removed therefrom by the council or by any court of competent jurisdiction.

No persons related by blood or marriage to the city manager, city officer or department director having appointment authority, shall be eligible for employment.

Section 65. BORROWING MONEY BY THE CITY

The city may borrow money for any municipal purposes by the issue and sale of bonds authorized by ordinance pledging the credit of the city or the property or revenue of any public utility owned by the city. Every ordinance authorizing a bond issue, except ordinances authorizing such bond issues as are specified in Section 66 of this Charter, shall be passed only by a two-thirds majority vote of the electors voting thereon at a regular or special election. No bond shall be issued on the credit of the city which will increase the bonded indebtedness thereof beyond fifteen percent (15%) of the assessed valuation of property in the city subject to direct taxation as shown by the last preceding valuation for city taxes;

but bonds issued for the construction, acquisition, extension, or improvement of any income-producing utility owned by the city shall be deemed to increase the bonded indebtedness of the city only to the extent that such utility is not self-supporting. Every issue of bonds shall be payable within a term of years not to exceed the estimated period of usefulness of the property or improvement for which issued, and in no case to exceed thirty-five (35) years.

The council of said city is also authorized to proceed under any general law of the State of California now in effect or hereafter to be enacted with reference to bonding said city and creating a bonded indebtedness thereon.

Section 67. CONTRACTS

Any public work or improvement costing more than ten thousand dollars ($10,000) shall be executed by contract, except where a specific work or improvement is authorized by the City Council based on detailed estimates submitted by the department authorized to execute such work or improvement directly. Every contract for any public work or improvement which is estimated to cost less than One Hundred Thousand Dollars ($100,000) shall be awarded to the lowest responsible bidder after solicitation of bids without public advertisement. Every contract for any public work or improvement which is estimated to cost One Hundred Thousand Dollars ($100,000) or more shall be awarded to the lowest responsible bidder after public advertisement and competition as may be prescribed by ordinance. The city council shall have the power to reject any and all bids, and solicit and advertise again. All solicitations and advertisements as to contracts shall contain a reservation of the foregoing right. All contracts entered into by the city shall be signed by the city manager and any other officer or officers of the city as the council may by ordinance provide.

Section 88. CLAIMS AGAINST CITY

(a) No legal action shall be brought on any claim for money or damages against the city or any board or commission of the city until a demand for the same has been presented as herein provided and rejected in whole or in part. If rejected in part, suit may be brought to recover the whole. Except in those cases where a shorter period of time is otherwise provided by law, all claims for damages against the city must be presented within six (6) months after the occurrence, event or transaction from which the damages arose, and all other claims or demands of any nature shall be presented within six (6) months after the last item of the account or claim accrued.

(b) Every claim for money or damages against the city or any board or commission thereof shall be filed with the city clerk and shall be verified by at least one of the claimants or by someone for and on behalf of such claimant or claimants, and shall be in writing. The city clerk shall thereupon present the same to the council, officer, board or commission authorized by this Charter to incur or pay the expenditure or alleged indebtedness or liability represented thereby. In all cases such claims or demands shall be approved or rejected within sixty (60) days from the date of their filing, provided, however, that failure to act upon any claim or demand within said sixty-day period shall be deemed to be a rejection thereof.

(c) The provisions of this section shall not apply in the case of interest upon, or principal, or installments of principal on bonds or other evidence of indebtedness issued by the city or any board or commission thereof pursuant to authorization by this Charter or by ordinance or by general law of the State of California.

Section 90. OFFICIAL ADVERTISING

The council shall advertise annually for the submission of sealed proposals or bids from all newspapers of general circulation in the city for the publication of all ordinances and other legal notices and matters required to be published. The newspaper to which such contract is awarded shall be known and designated as the "official newspaper." The rates for publishing public notices shall not exceed the customary rates charged for publishing legal notices of a private character.

Contracts for advertising shall be awarded to the lowest responsible bidder. If there are two or more lowest bids for advertising, the council shall award the contract to the newspaper having the largest paid circulation.

Certified to be a true copy by Jeff Ira, Mayor, and Patricia S. Howe, City Clerk.

Date of Municipal Election: November 4, 2003.
