## RESOLUTION CHAPTER 1

Senate Constitutional Amendment No. 1—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 3 of Article I thereof, relating to access to government information.

[Filed with Secretary of State January 14, 2004.]

*Resolved by the Senate, the Assembly concurring,* That the Legislature of the State of California at its 2003–04 Regular Session commencing on the second day of December 2002, two-thirds of the membership of each house concurring, hereby proposes to the people of the State of California that the Constitution of the State be amended by amending Section 3 of Article I thereof, to read:

SEC. 3. (a) The people have the right to instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good.

(b) (1) The people have the right of access to information concerning the conduct of the people's business, and, therefore, the meetings of public bodies and the writings of public officials and agencies shall be open to public scrutiny.

(2) A statute, court rule, or other authority, including those in effect on the effective date of this subdivision, shall be broadly construed if it furthers the people's right of access, and narrowly construed if it limits the right of access. A statute, court rule, or other authority adopted after the effective date of this subdivision that limits the right of access shall be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

(3) Nothing in this subdivision supersedes or modifies the right of privacy guaranteed by Section 1 or affects the construction of any statute, court rule, or other authority to the extent that it protects that right to privacy, including any statutory procedures governing discovery or disclosure of information concerning the official performance or professional qualifications of a peace officer.

(4) Nothing in this subdivision supersedes or modifies any provision of this Constitution, including the guarantees that a person may not be deprived of life, liberty, or property without due process of law, or denied equal protection of the laws, as provided in Section 7.

(5) This subdivision does not repeal or nullify, expressly or by implication, any constitutional or statutory exception to the right of access to public records or meetings of public bodies that is in effect on the effective date of this subdivision, including, but not limited to, any statute protecting the confidentiality of law enforcement and prosecution records.

(6) Nothing in this subdivision repeals, nullifies, supersedes, or modifies protections for the confidentiality of proceedings and records of the Legislature, the Members of the Legislature, and its employees, committees, and caucuses provided by Section 7 of Article IV, state law, or legislative rules adopted in furtherance of those provisions; nor does it affect the scope of permitted discovery in judicial or administrative proceedings regarding deliberations of the Legislature, the Members of the Legislature, and its employees, committees, and caucuses.

---

## RESOLUTION CHAPTER 2

Assembly Concurrent Resolution No. 141—Relative to Four Chaplains Day.

[Filed with Secretary of State February 2, 2004.]

WHEREAS, Methodist minister, Reverend George Fox, born on March 15, 1900, in Lewistown, Pennsylvania, served in World War I as a medical corps assistant after convincing the army he was eighteen years of age, even though he was only seventeen years of age at the time; and

WHEREAS, Reverend Fox, after earning the Silver Star, Purple Heart, and Croix de Guerre in World War I, reenlisted as a chaplain to take part in World War II; and

WHEREAS, Catholic Father John Washington was born July 18, 1908, in Newark, New Jersey, as one of nine children in an Irish immigrant family, and after becoming the leader of the South 12th Street Gang as a teenager was later called to ministry to help and inspire young men on the streets and then chose to join the United States Army Chaplains Corps; and

WHEREAS, Dutch Reformed Church minister, Reverend Clark Poling, born August 7, 1910, in Columbus, Ohio, was pastoring in New York when World War II broke out and followed in his father's footsteps, by signing up as a chaplain in the United States Army; and

WHEREAS, Rabbi Alexander Goode, born May 10, 1911, in Brooklyn, New York, joined his father in the ministry and then chose to enter the National Guard, later enlisting in the United States Army as a chaplain; and

WHEREAS, These four men met in November 1942, while attending Chaplains School at Harvard University, befriended one another, and later became known as "The Four Chaplains"; and

WHEREAS, The aging luxury coastal liner known as the U.S.A.T. Dorchester, serving as a transport vessel during World War II, was one on three ships in the SG-19 Convoy; and

WHEREAS, The Dorchester set off from Massachusetts on January 23, 1943, packed with 902 men, including the Four Chaplains, and headed for an American army base in Greenland across the icy waters of the North Atlantic off the coast of Newfoundland; and

WHEREAS, Hans J. Danielsen as Captain of the Dorchester, knowing that German submarines were in the area, ordered his men on the night of February 2, 1943, to sleep in their clothes and life jackets; and

WHEREAS, The Four Chaplains obeyed this order, while many men did not as the ship was crowded and hot and the vests were uncomfortable for sleeping; and

WHEREAS, At 12:55 a.m. on the morning of February 3, 1943, the German submarine U-223 attacked the Dorchester, striking it with torpedoes and causing irreparable damage to the ship, which immediately lost power and began taking on water; and

WHEREAS, The Four Chaplains valiantly calmed and directed the frightened and wounded men through the panic following the attack, instinctively organizing and distributing life preservers from the locker to soldiers in need; and

WHEREAS, Having exhausted the supply of life vests, Reverend Fox, Father Washington, Rabbi Goode, and Reverend Poling selflessly removed their own vests and provided them to their fellow servicemen; and

WHEREAS, Rabbi Goode helped and prayed over Protestants and Catholics, as Father Washington came to the aid of Jews and Protestants, while Reverend Fox and Poling assisted Catholics and Jews; and

WHEREAS, A mere 27 minutes following the U-223's torpedo strike, the Dorchester sank beneath the waters of the North Atlantic taking with it the lives of 672 brave Americans; and

WHEREAS, The last thing survivors saw was the Four Chaplains, linked arm and arm, praying together upon the deck of the Dorchester as it sank into the churning sea; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature commemorates the courage demonstrated by Reverend George Fox, Father John Washington, Reverend Clark Poling, and Rabbi Alexander Goode on the morning of February 3, 1943; and be it further

*Resolved,* That the Legislature honors these individuals' selflessness as they gave their lives for their God and country; and be it further

*Resolved,* That the Legislature encourages members of all religions to demonstrate the love and solidarity exhibited by these heroes; and be it further

*Resolved*, That the Legislature celebrates the unity displayed by the Four Chaplains of varied faiths, that came together to aid all men regardless of their beliefs, by proclaiming February 3, 2004, as Four Chaplains Day; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 3

Assembly Concurrent Resolution No. 143—Relative to Spay Day USA 2004.

[Filed with Secretary of State February 2, 2004.]

WHEREAS, At least a quarter million dogs and possibly twice as many cats are euthanized in California each year; and

WHEREAS, In most instances these dogs and cats are young, attractive, healthy, friendly, and playful animals who are euthanized simply because there are not enough good homes for them; and

WHEREAS, An additional unknown number of animals die each year due to abandonment, neglect, abuse, starvation, or cruelty because they are unwanted; and

WHEREAS, The spaying or neutering of dogs and cats directly corrects these problems by reducing the number of unwanted animals; and

WHEREAS, Californians can contribute to this effort by spaying or neutering their own pets and by supporting programs in their communities that offer spay and neuter services; and

WHEREAS, Veterinarians, humane societies, animal control agencies, and national and local animal welfare organizations will join together to advocate the spaying or neutering of dogs and cats on “Spay Day USA 2004”; and

WHEREAS, In particular, the Sacramento area has become a leader in coordination of Spay Day USA events, spaying or neutering over 650 dogs and cats on Spay Day USA 2003, with over 1,000 dogs and cats scheduled for Spay Day USA 2004; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature of the State of California declares February 24, 2004, to be Spay Day USA 2004 and that Californians are requested to observe the day by having their dogs or cats spayed or neutered and by contributing to those organizations that provide spay and neuter services, and that California veterinarians are requested to

work with animal shelters and rescue groups that provide spay and neuter services; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 4

Assembly Concurrent Resolution No. 155—Relative to Dr. Martin Luther King, Jr. Day.

[Filed with Secretary of State February 2, 2004.]

WHEREAS, Monday, January 19, 2004, marks the 18th National Celebration of the National Holiday for Dr. Martin Luther King, Jr. and his fight for civil and human rights; and

WHEREAS, On Thursday, January 15, 2004, Dr. Martin Luther King, Jr. would have been 74 years of age; and

WHEREAS, On April 10, 1970, California became the first state to pass legislation making Dr. King's birthday a school holiday and, subsequently, a statewide holiday; and

WHEREAS, Representative John Conyers (D-Michigan) submitted the first legislation for a national King Holiday, which was signed into law by President Ronald Wilson Reagan, on November 2, 1983; and

WHEREAS, January 20, 1986, marked the first observance of Dr. Martin Luther King, Jr. Day; and

WHEREAS, Dr. King and the Civil Rights Movement helped change public policy from segregation to integration, resulting in the repeal of the post-Reconstruction era state laws mandating racial segregation in the South known as the "Black Codes," in the passage of laws aimed at ending economic and social segregation in the North, and in the passage of the Civil Rights Act of 1964, the Voting Rights Act of 1965, and other antidiscrimination, full citizen participation laws; and

WHEREAS, Dr. King and the Civil Rights Movement specifically changed public policy from closed access to open access in education, including higher education, employment and labor laws, transportation policy, election laws, and other aspects of public policy, particularly those relating to human rights; and

WHEREAS, These public policy changes at the national level influenced many changes in California public policy manifest in the Unruh Civil Rights Act and the Rumford Fair Housing Act, in open enrollment and access to higher education, specifically with respect to the California State University and the University of California, and in

employment and labor laws, transportation policy, election laws, and other aspects of public policy; and

WHEREAS, The unfinished business of Dr. King and the Civil Rights Movement was and is the plight of the poor, the fight against war and for worldwide peace, and the struggle for a fair, equitable, and sensible economic system; and

WHEREAS, Dr. King and the Civil Rights Movement noted that a majority of Americans lived below the poverty line, and that the huge income gaps between rich and poor, called for “changes in the structure of our society”; and

WHEREAS, Dr. King, in the last months of his life, began organizing a Poor People’s Campaign to, among other things, assemble “a multiracial army of the poor that would descend on Washington—engaging in nonviolent civil disobedience at the Capitol, if need be—until Congress enacted a poor people’s bill of rights”; and

WHEREAS, All of the aforementioned concerns and more continue to be the quest of civil and human rights organizations in the great State of California, across America, and throughout the world; and

WHEREAS, Dr. Martin Luther King, Jr. fought to change public policy from the “self-inflicted wound of segregation to the pluralistic diverse democracy” we continue to construct today; and

WHEREAS, Dr. Martin Luther King, Jr. and the Civil Rights Movement serve as a model for principled leadership and forward thinking, bipartisan public policy; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That Monday, January 19, 2004, be observed as the official memorial of Dr. Martin Luther King, Jr.’s birth and his work in the Civil Rights Movement; and be it further

*Resolved,* That this day, Dr. Martin Luther King, Jr. and the Civil Rights Movement be commemorated for their help in changing public policy from segregation to integration, for the betterment of this, the great State of California and these United States of America; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 5

Assembly Concurrent Resolution No. 157—Relative to blood donors.

[Filed with Secretary of State February 2, 2004.]

WHEREAS, One out of three people need donated blood in their lifetime; and

WHEREAS, Blood cannot be manufactured or harvested; rather, it must be voluntarily donated; and

WHEREAS, Only 2 percent of eligible donors in California give blood; and

WHEREAS, Despite the number of eligible donors in California, one-third of our supply is brought in from out of state to fill local hospital orders; and

WHEREAS, Blood imports are costly and could be avoided through more local donations; and

WHEREAS, California's diverse patient population requires many rare blood types specific to ethnic or racial groups, but current blood donors are mostly Caucasian; and

WHEREAS, Blood donation is a community responsibility; and

WHEREAS, Since 1970, January has been declared "National Volunteer Blood Donor Month"; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That January 2004, is recognized as "California Volunteer Blood Donor Month" and is the official start of a public effort to increase the number and diversity of blood donors in California; and be it further

*Resolved,* That the citizens of California pay tribute to those who donate blood for others in need, especially to those generous and thoughtful individuals who donate blood on a regular basis.

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 6

Assembly Concurrent Resolution No. 158—Relative to Mental Wellness Month.

[Filed with Secretary of State February 2, 2004.]

WHEREAS, Good mental wellness is the ability to respond resiliently to emotional states and the flow of life every day, as well as dealing with a variety of situations realistically and learning more about yourself and how things you do affect your feelings; and

WHEREAS, Mental wellness involves promoting emotional health, including prevention of depression, anxiety, and stress; and

WHEREAS, January is Mental Wellness Month and an opportunity to consider the World Health Organization's (WHO) policies on promoting mental health; and

WHEREAS, WHO's constitution states, "Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity"; and

WHEREAS, WHO's 191 member states have endorsed this sweeping statement; and

WHEREAS, "Strengthening Mental Health Promotion," a 2001 publication of WHO, states that mental health is not just the absence of mental disorder; and

WHEREAS, Mental health is a state of well-being in which the individual realizes his or her own abilities, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to his or her community; and

WHEREAS, Mental health promotion is an umbrella term that covers a variety of strategies, all aimed at having a positive effect on mental health, including the encouragement of individual resources and skills and improvements in the socioeconomic environment; and

WHEREAS, Most health care resources are spent on the specialized treatment and care of the mentally ill, and to a lesser extent on community treatment and rehabilitation services. Even less funding is available for promoting mental health; and

WHEREAS, Mental health promotion requires multisectoral action, involving a number of government sectors such as health, employment, industry, education, environment, transport, and social and community services, as well as nongovernmental or community-based organizations, such as health support groups, churches, clubs, and other bodies; and

WHEREAS, Enhancing the value and visibility of mental health means that national mental health policies should not be solely concerned with mental illness, but should recognize and address the broader issues affecting the mental health of all sectors of society, including the social integration of severely marginalized groups, such as refugees, disaster victims, the socially alienated, the mentally disabled, the very old and infirm, abused children and women, and the poor; and

WHEREAS, Mental health promotion for children and adolescents requires understanding that psychosocial and cognitive development of babies and infants depends upon their interaction with their parents. Programs that enhance the quality of these relations can improve substantially the emotional, social, cognitive, and physical development of children; and

WHEREAS, These activities are particularly meaningful for mothers living in conditions of stress and social adversity; and

WHEREAS, WHO has developed an international program to stimulate mother-infant interaction that has been widely adopted; and

WHEREAS, Schools remain a crucial social institution for the education of children in preparation for life and need to be more involved in a broader educational role, fostering healthy social and emotional development of pupils; and

WHEREAS, WHO has developed a “life skills” educational curriculum that teaches a wide range of skills to schoolage children to improve their psychosocial competency; and

WHEREAS, The skills include problemsolving, critical thinking, communication, interpersonal skills, empathy, and methods to cope with emotions. These skills enable children and adolescents to develop sound and positive mental health; and

WHEREAS, “Child-friendly schools” represent another WHO mental health initiative to promote a sound psychosocial environment in the school to complement the life skills curriculum; and

WHEREAS, A child-friendly school encourages tolerance and equality between boys and girls and different ethnic, religious, and social groups, and promotes active involvement and cooperation, avoids the use of physical punishment, and does not tolerate bullying; and

WHEREAS, A child-friendly school is also a supportive and nurturing environment; providing education that responds to the reality of the children’s lives and helps to establish connections between school and family life, encourages creativity as well as academic abilities, and promotes the self-esteem and self-confidence of children; and

WHEREAS, On working life and employment, WHO suggests that special emphasis should be given to those aspects of workplaces and the work process itself that promote mental health; and

WHEREAS, Eight areas of action have been identified: increasing an employer’s awareness of mental health issues; identifying common goals and positive aspects of the work process; creating a balance between job demands and occupational skills; training in social skills; developing the psychosocial climate of the workplace; providing counseling; enhancing working capacity; and developing early rehabilitation strategies; and

WHEREAS, Mental health promotion strategies, in the area of unemployment, in particular, youth unemployment, seek to improve employment opportunities. This can be accomplished, for example, through programs to create jobs and to provide vocational training and social and job seeking skills; and

WHEREAS, Promoting mental health among the aging population is a highly desirable and natural aim of any society; and

WHEREAS, By 2025, there will be 1.2 billion older people in the world, close to three-quarters of them in the developing world; and

WHEREAS, If aging is to be a positive experience it must be accompanied by improvements in the quality of life of those who have reached, or are reaching, old age; and

WHEREAS, WHO has developed a tool to assess quality of life as an additional measurement, along with the traditional morbidity and mortality data; and

WHEREAS, A primary goal of mental health promotion is to help member states improve the quality of life of their people and to place mental health firmly on the national agenda; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature recognizes January 2004, as Mental Wellness Month in California, and urges all Californians to take this opportunity to focus on their own mental wellness as well as the mental wellness of others; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 7

Senate Joint Resolution No. 23—Relative to military base closures.

[Filed with Secretary of State February 11, 2004.]

WHEREAS, Since the inception of the Defense Department's post-cold war downsizing in 1988, California has undergone four rounds of military base closures or realignments; and

WHEREAS, California was the state hardest hit by spending reductions, with the military downsizing resulting in an economic loss of \$9.6 billion annually and almost 100,000 defense jobs, representing 60 percent of all Base Realignment and Closure Act (BRAC) related job losses nationally despite housing only 15 percent of the nation's military personnel at the beginning of the closure process; and

WHEREAS, Any additional pending closures of active military bases puts California at risk of losing an annual payroll of \$9 billion for a workforce of 290,000 located at 36 major and 25 minor facilities including military installations, Department of Defense laboratories, and testing facilities; and

WHEREAS, Active military bases in California are of supreme value and high readiness with a renowned "intellectual capital" and "total mission support" totaling over 433,481 civilian and military personnel; and

WHEREAS, For over one-half century California industries, universities, businesses, and workers have contributed to our nation's

defense, utilizing their capital, talents, and skills to develop and bring into production important new technologies and advanced weapons, systems, aircraft, and missiles; and

WHEREAS, For all of these reasons California has a vested interest in preventing the future closure of its military bases; and

WHEREAS, The National Defense Authorization Act For Fiscal Year 2002 (Public Law 107-107) authorizes additional base closures in 2005; and

WHEREAS, Under the 2005 BRAC timeline, the BRAC evaluation criteria is required to be published in the Federal Register and transmitted to the respective congressional defense committees by December 31, 2003; and

WHEREAS, The California Legislature recognizes that the best way to protect California's remaining active military bases from the next round of closures is to ensure that the BRAC evaluation criteria highlights the strengths of California's remaining active military bases; and

WHEREAS, In order to highlight the strengths of California's remaining active military bases, the Secretary of Defense should include "intellectual capital" and "total mission support" on the list of essential 2005 BRAC evaluation criteria; and

WHEREAS, The "intellectual capital" criterion should be measured by the value associated with the presence of, or the cost to duplicate, the individual and/or collective pools of intellect, educational systems, pools of skilled labor, corporate knowledge and experience, private-public educational and enterprise partnerships, and the capabilities to research, design, test, evaluate, and manufacture technologies that support current and future DOD missions and contribute to U.S. defense priorities; and

WHEREAS, The "total mission support" criterion should be measured by the value associated with the presence of, or the cost to duplicate, the existing resources available to facilitate the operational, security and cost-effectiveness of current and future DOD missions. Resources include: intellectual capital, transportation and/or infrastructure networks/hubs, natural resources, commercial suppliers, RDT&E ranges and complexes, seasonal/weather considerations, business and professional expertise, and technology clusters; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature respectfully memorialize its request to the Secretary of Defense to include "intellectual capital" and "total mission support" on the list of essential 2005 BRAC evaluation criteria; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the Governor, President and Vice President of the United States, the Speaker of the House of Representatives, each Senator and Representative from California in the Congress of the United States, the Chairpersons of the Senate Armed Services Committee and the House of Representatives Armed Services Committee, and the Secretary of Defense.

---

## RESOLUTION CHAPTER 8

Assembly Concurrent Resolution No. 153—Relative to Cervical Cancer Awareness Month.

[Filed with Secretary of State February 13, 2004.]

WHEREAS, The American Cancer Society estimates that about 4,100 women in the United States died from cervical cancer in 2002; and

WHEREAS, In California 1,735 new cases of cervical cancer and 470 deaths due to cervical cancer were reported in 2002; and

WHEREAS, The disease is almost 100 percent curable if diagnosed and treated early; and

WHEREAS, Cervical cancer is one of the most successfully treatable cancers, with a five-year survival rate of 95 percent; and

WHEREAS, Invasive cervical cancer is almost totally preventable by routine screening; and

WHEREAS, The high incidence of death from cervical cancer is due mainly to a lack of access leading to the early detection procedures available to women; and

WHEREAS, The American Cancer Society recommends that all women who have reached 21 years of age and those who are or have been sexually active, regardless of age, should be screened regularly for cervical cancer; and

WHEREAS, Hispanic and Asian women are less likely to receive routine screening than African-American and non-Hispanic white women; and

WHEREAS, Spreading awareness about cervical cancer would increase the chances of survival for a significant portion of California's population; and

WHEREAS, Cervical cancer takes the lives of many women in California and this loss of life is absolutely avoidable; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature of the State of California hereby

encourages and promotes the efforts of people and health care practitioners in the state to increase awareness about cervical cancer, including the early detection, prevention, risk factors, and early warning symptoms and signs of the disease, by recognizing that January 2004, is “Cervical Cancer Awareness Month”; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 9

Assembly Concurrent Resolution No. 160—Relative to Abraham Lincoln.

[Filed with Secretary of State February 13, 2004.]

WHEREAS, Abraham Lincoln, the 16th President of the United States, and the one that Americans remember the most with deepest affection, rose from humble beginnings to become President of the United States and courageously led his country during its darkest time, the Civil War; and

WHEREAS, Mr. Lincoln brought a new honesty and integrity to the White House, and would always be remembered as “Honest Abe.” Most of all, he is associated with saving the Union with the abolition of slavery; and

WHEREAS, Abraham Lincoln was born on February 12, 1809, in Kentucky, and spent the first seven years of his life there; and

WHEREAS, In his entire life, President Lincoln was only able to go to school for a total of one year. This lack of formal education only made him hungry for more knowledge, and he mastered the Bible, the works of William Shakespeare, and the law; and

WHEREAS, In 1834, he was elected to the Illinois House of Representatives and began studying to become a lawyer; and

WHEREAS, In 1847, he was elected to the Congress, where his opinions against the Mexican War and his vehement opposition to the extension of slavery did not ensure him a long stay there. He was not elected to a second term, so he returned to the practice of law; and

WHEREAS, President Lincoln joined the Republicans, a new political party that was opposed to the extension of slavery. The Republicans nominated him for the United States Senate in 1858, and in his nomination acceptance speech, he stated: “A house divided against itself cannot stand ... This government cannot endure, permanently half-slave and half-free ... I do not expect the Union to be dissolved. I do not expect the house to fall but I do expect it will cease

to be divided.” He lost a close election to Stephen Douglas, the Democratic Party candidate; and

WHEREAS, Having been nominated by the Republican Party in 1860 as its candidate for the Presidency of the United States, Mr. Lincoln won by a small margin; and

WHEREAS, Shortly after he assumed office, the Civil War began. Despite his military inexperience, President Lincoln displayed a shrewd grasp of military strategy, and the necessity of taking advantage of the Union’s superior resources. It took him several years, however, to find competent and aggressive generals to implement this strategy; and

WHEREAS, As the war continued, the objectives of the war expanded to not only saving the Union but also to freeing the slaves, and he moved to free the slaves in the United States by issuing the Emancipation Proclamation on September 22, 1862; and

WHEREAS, President Lincoln enunciated the nation’s loftiest ideals during its darkest moment following the bloodiest battle of the Civil War. His Gettysburg Address, regarded as one of the finest speeches in the English language, was delivered by him at Gettysburg, Pennsylvania, on November 19, 1863, while dedicating a cemetery for those killed in the Battle of Gettysburg, which took place from July 1 to July 3, 1863, between the Army of the Potomac and the Army of northern Virginia; and

WHEREAS, Abraham Lincoln was elected to a second term in 1864. The South subsequently surrendered, and the Civil War ended on April 9, 1865, with the surrender of General Lee to the Union General, Ulysses S. Grant; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby declares that President Abraham Lincoln be honored on his birthday as the virtual symbol of the American dream whereby an ordinary person from humble beginnings can reach the pinnacle of American society as President of the country and serve with honor and courage; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 10

Assembly Concurrent Resolution No. 164—Relative to Ronald Reagan Day.

[Filed with Secretary of State February 13, 2004.]

WHEREAS, President Ronald Reagan, a man of honorable background, worked throughout his life serving freedom and advancing the public good, having been employed as an entertainer, union leader, corporate spokesman, Governor of California, and President of the United States; and

WHEREAS, President Reagan served with honor and distinction for two terms as the 40th President of the United States of America, upon the second of which he earned the confidence of three-fifths of the electorate and was victorious in 49 of 50 states in the general election, a record unsurpassed in the history of American presidential elections; and

WHEREAS, In 1981, when Mr. Reagan was inaugurated President, he inherited a nation with rampant inflation and high unemployment; and

WHEREAS, President Reagan's commitment to the nation's children helped lower crime and drug use in our neighborhoods; and

WHEREAS, President Reagan's commitment to our Armed Forces continued to build the national strength that he saw as necessary for the protection of freedom in this country and throughout the world; and

WHEREAS, President Reagan's vision of "peace through strength" helped lead to the end of the Cold War; and

WHEREAS, On February 6, 2004, President Reagan will have reached the age of 93 years; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature recognizes February 6, 2004, and subsequent yearly anniversaries thereafter, as Ronald Reagan Day; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 11

Assembly Concurrent Resolution No. 146—Relative to women's heart health.

[Filed with Secretary of State February 20, 2004.]

WHEREAS, Cardiovascular disease (CVD) is the nation's number one killer, claiming the lives of more women than men each year; and

WHEREAS, Since 1984, more than 500,000 females die every year from CVD, equal to one death a minute; and

WHEREAS, Each year the economic burden due to CVD is estimated to be over \$350 billion and the economic impact in California is \$45.35 billion; and

WHEREAS, In California, 76,555 people died of CVD in 1999; and

WHEREAS, Stroke is the nation's number three killer and the number one cause of permanent, long-term disability, and each year approximately 40,000 more women than men have a stroke; and

WHEREAS, Eleven percent of women will have a stroke within six years after a heart attack, 25 percent of women who have an initial stroke die within a year, 53 percent of the women under 65 years of age who have a stroke die within eight years; and

WHEREAS, Most women do not realize that CVD is their greatest health threat; and

WHEREAS, Symptoms of CVD in women generally are recognized later in life when other health challenges may also be present; and

WHEREAS, One in 2.4 deaths are from CVD and only 38 percent of women report that their doctors have discussed CVD with them when discussing their health; and

WHEREAS, Sixty-three percent of women who died suddenly from coronary heart disease had no previous symptoms of the disease; and

WHEREAS, The public does not recognize the fact that each year CVD claims more lives than the next seven causes of death combined; and

WHEREAS, The American Heart Association is committed to the support of ongoing medical research to advance knowledge in the areas of prevention and treatment of heart disease and stroke; and

WHEREAS, The American Heart Association is the largest voluntary, not-for-profit organization whose mission is to reduce disability and death from heart disease and stroke; and

WHEREAS, The American Heart Association strives to inform all citizens about the critical importance of tools and skills that will increase the survival rate of women from cardiac arrest; and

WHEREAS, The American Heart Association has launched a new initiative called Go Red for Women to help raise awareness of women and heart disease and will focus on that theme during American Heart Month in February and on National Wear Red for Women Day, Friday, February 6, 2004; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the month of February 2004, shall be recognized as American Heart Month in California in order to raise awareness of the effect of heart disease on women; and be it further

*Resolved,* That the Legislature recognizes February 6, 2004, as Wear Red for Women Day and urges all citizens to become aware of the vital

issues of women's heart health by wearing and displaying the color red on that day; and be it further

*Resolved*, That the Legislature urges public support for the Go Red for Women events planned in their community during American Heart Month; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 12

Assembly Concurrent Resolution No. 161—Relative to California Girls and Women in Sports Week.

[Filed with Secretary of State February 20, 2004.]

WHEREAS, On February 4, 1972, the United States Congress declared the first national Girls and Women in Sports Day, in honor of Flo Hyman, a volleyball legend whose effort to advance equality in sports was cut short by her untimely and tragic death; and

WHEREAS, Since that time women have been making considerable advances in professional, collegiate, club, intramural, masters, high school, junior high school, youth, and recreational sports; and

WHEREAS, Many female athletes have distinguished themselves as representatives of California and the nation in the Olympic games; and

WHEREAS, Participation in sports is acknowledged to be a positive force in developing and promoting the physical, mental, moral, social, and emotional well-being of individuals; and

WHEREAS, The bonds built between girls and women through athletics helps to break down the social barriers of racism and prejudice, and the communication and cooperation skills learned play a key role in the athlete's contributions at home, at work, and to society; and

WHEREAS, There is a continuing need to encourage women of all ages to compete and contribute to sports at all levels of competition and recreation and help to prepare the next generation of female sports leaders; and

WHEREAS, Girls' and womens' athletics at all levels is one of the most effective avenues available through which women in America may develop self-discipline, initiative, confidence, and leadership skills; and

WHEREAS, The combined efforts of Girls Incorporated, the National Association for Girls and Women in Sport (NAGWS), the Women's Sports Foundation, the Girl Scouts of the United States, and the Young Women's Christian Association (YWCA) of the United States have

served to bring needed information and important recognition of this week; and

WHEREAS, The continued support of the NAGWS mission statement by the California Association of Health, Physical Education, Recreation and Dance, the athletic programs for the California Community College Commission on Athletics, and the California Interscholastic Federation have furthered the dreams and inspired today's female athletes; and

WHEREAS, The theme of this year's 18th annual national celebration, "Play Fair," supports the ongoing struggle for access and equality, both on and off the field; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature commemorates the accomplishments of female athletes, coaches, officials, and sports administrators for their important contribution in promoting the value of sports participation in the achievement of full human potential and hereby proclaims February 2 through 6, 2004, as California Girls and Women in Sports Week; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 13

Assembly Concurrent Resolution No. 165—Relative to Black History Month.

[Filed with Secretary of State February 24, 2004.]

WHEREAS, The history of African-Americans here in the United States, as well as throughout the ages, is indeed unique and vibrant, and it is appropriate to celebrate this history during the month of February 2004, which has been proclaimed as Black History Month; and

WHEREAS, The history of the United States is rich with inspirational stories of great men and noble women whose actions, words, and achievements have united Americans and contributed to the success and prosperity of the United States; and

WHEREAS, Among those Americans who have enriched our society are the members of the African-American community—individuals who have been steadfast in their commitment to promoting brotherhood, equality, and justice for all; and

WHEREAS, From the earliest days of the United States, the course of its history has been greatly influenced by Black heroes and pioneers

in many diverse areas, from science, medicine, business, and education to government, industry, and social leadership; and

WHEREAS, Scholars and scientists generally accept that Africa is the continent where humankind first saw the light of day. Scientists believe that humans, therefore, began in Africa and migrated out to populate the other continents; and

WHEREAS, One of the first civilizations in the history of the world was Egypt, an empire that rose about six thousand years ago along the Nile River. The ancient Egyptians had developed a very complex religious system, called Mysteries, which was also the first system of salvation. In addition, it is understood that Egyptians, by their study of astronomy, discovered the solar year and were the first to divide it into 12 parts. The Egyptians were also the architects of the great pyramids of Egypt; and

WHEREAS, During the first millennium, the Catholic Church had three popes who were either from Africa or of African descent: Saint Victor I (189–99), Saint Miltiades (311–14), and Saint Gelasius I (492–96); and

WHEREAS, The slave trade was a tragic episode in African history and began before August 1619 when the first slaves arrived in Jamestown, Virginia. During the course of the slave trade, an estimated 50 million African men, women, and children were lost to their native continent, though only about 15 million arrived safely to a new home. The others lost their lives on African soil or along the Guinea coast, or finally in holds on the ships during the dreaded Middle Passage across the Atlantic Ocean; and

WHEREAS, In spite of the African slave trade, many Africans and African-Americans continued to move forward in society; during the Reconstruction period, two African-Americans served in the United States Senate and 14 sat in the House of Representatives; and

WHEREAS, The first American to shed blood in the revolution that freed America from British rule was Crispus Attucks (March 5, 1770, Boston Massacre), an African-American seaman and slave. African-Americans also fought in wars including the Battles of Lexington and Concord in April 1775, Ticonderoga, White Plains, Bennington, Brandywine, Saratoga, Savannah, Yorktown, Bunker Hill, the Battle of Rhode Island on August 29, 1775, and other revolutionary war battles, the War of 1812, including the Battle of New Orleans, the Civil War, the Spanish-American War, World Wars I and II, Korea, and Vietnam; and

WHEREAS, Africans and African-Americans have also been great inventors, inventing such things as the air-conditioning unit, almanac, automatic gear shift, blood plasma bag, clothes dryer, doorknob, doorstop, electric lamp bulb, elevator, fire escape ladder, fountain pen,

gas mask, golf tee, horseshoe, lantern, lawnmower, lawn sprinkler, lock, lubricating cup, refrigerating apparatus, spark plug, stethoscope, telephone transmitter, thermostat control, traffic signal, and typewriter; and

WHEREAS, A number of these brave and accomplished individuals, such as Booker T. Washington, George Washington Carver, Matthew Hansen, Daniel Hale Williams, Dr. Charles Drew, Jackie Robinson, Jesse Owens, Curt Flood, Medgar Evers, and, of course, Dr. Martin Luther King, Jr., are noted prominently in the history books of students nationwide, thus enabling them to learn about the important and lasting contributions of these individuals; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature takes great pleasure in recognizing February 2004 as Black History Month, urges all citizens to join in celebrating the accomplishments of African-Americans during Black History Month, and encourages the people of California to recognize the many talents, achievements, and contributions that African-Americans make to their communities; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 14

Senate Concurrent Resolution No. 56—Relative to the Joint Committee on Boards, Commissions, and Consumer Protection.

[Filed with Secretary of State February 25, 2004.]

WHEREAS, Section 473 of the Business and Professions Code establishes and names the Joint Legislative Sunset Review Committee as the committee that reviews licensing and consumer boards, including those under the purview of the Department of Consumer Affairs; and

WHEREAS, Senate Bill 364 of the 2003–04 Legislative Session, approved by the Governor in October of 2003, added Section 474 to the Business and Professions Code, expanding the jurisdiction of the Joint Legislative Sunset Review Committee to include an estimated 400 boards, commissions, committees, councils, associations, or authorities consisting of more than one person, whose members are appointed by the Governor, the Legislature, or both; and

WHEREAS, The name “Joint Legislative Sunset Review Committee” does not clearly describe to the public, appointees, and stakeholders of the boards, commissions, committees, councils, associations, and authorities now under the committee’s jurisdiction the

function, jurisdiction, and public purpose of the committee; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Joint Legislative Sunset Review Committee be renamed the Joint Committee on Boards, Commissions, and Consumer Protection; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 15

Senate Concurrent Resolution No. 57—Relative to “Go Red for Women Day.”

[Filed with Secretary of State March 5, 2004.]

WHEREAS, Cardiovascular disease (CVD) is the nation’s number one killer. Stroke is the nation’s number three killer and the number one cause of permanent long-term disability; and

WHEREAS, Heart disease claims the lives of more women than men each year. In 2000, 53.5 percent of deaths among women were attributable to heart disease, as compared to 46.5 percent of deaths among men; and

WHEREAS, Most women are unaware that CVD is their greatest health threat. Nor does the public realize that each year, deaths from CVD alone exceed those from the next seven causes of death combined; and

WHEREAS, Fewer than 40 percent of women report that their doctor has discussed CVD with them when discussing their health; and

WHEREAS, Symptoms of CVD in women are often recognized later in life, when other health challenges may also be present; and

WHEREAS, The American Heart Association is committed to the support of ongoing medical research to advance knowledge in the area of prevention and treatment of heart disease and stroke; and

WHEREAS, The American Heart Association is the largest voluntary nonprofit organization whose mission is to reduce disability and death caused by CVD and stroke; and

WHEREAS, The American Heart Association has launched a new initiative, called “Go Red for Women” to help raise awareness of women and heart disease, and will focus on that theme during American Heart Month in February 2004; and

WHEREAS, The American Heart Association has designated February 6, 2004, as “National Wear Red Day for Women,” to draw

attention to women's heart disease, and to symbolize women's power to take control of their health, and compassion for the women whose lives have already been affected; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby proclaims February 6, 2004, as "Go Red for Women Day" in California, and encourages all Californians to wear red on that day, in support of all women whose lives have been touched by heart disease or stroke; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 16

Senate Joint Resolution No. 17—Relative to veterans.

[Filed with Secretary of State March 5, 2004.]

WHEREAS, The United States presently has a population of over 25 million veterans from its previous wars. The majority of that veteran population is from World War II, the Korean War, and the Vietnam War; and

WHEREAS, The United States shall have a new generation of veterans as a result of Operation Iraqi Freedom; and

WHEREAS, The World War II and Korean War veteran population is presently over 70 years of age, and that group is passing away at the rate of 1,000 veterans per day; and

WHEREAS, The United States government has acknowledged its responsibility to provide medical care or compensation for medical problems, as well as other benefits, to those veterans who served their country in time of war; and

WHEREAS, The United States Department of Veterans Affairs is charged with administering the federal benefits program for veterans; and

WHEREAS, When a veteran passes away with a claim pending against the Department of Veterans Affairs, the claim essentially ends with the veteran's passing regardless of how long the claim had been pending; and

WHEREAS, Dying while waiting is unacceptable for American veterans; and

WHEREAS, There presently exists a backlog of over 450,000 claims submitted by veterans. This backlog has persisted for several years, with some claims outstanding for one year or more; and

WHEREAS, A significant portion of these claims involve World War II and Korean War veterans, and despite determined efforts by the United States Department of Veterans Affairs to eliminate this backlog, the backlog continues; and

WHEREAS, There exists a trained group of individuals known as county veterans service officers located in 37 of the 50 states, representing 700 counties and a workforce of over 2,400 full-time local government employees; and

WHEREAS, These county veterans service officers were established in 1945 after World War II for the purpose of helping returning veterans reenter civilian life, and have continued to do so for all veterans of all wars since then; and

WHEREAS, These county veterans service officers are highly trained individuals who have continued to provide assistance to all veterans for over 50 years and are already familiar with the United States Department of Veterans Affairs claims policies and procedures; and

WHEREAS, For example, in California, county veterans service officers annually assist California's veterans obtain monetary benefits in excess of \$150 million by assisting these veterans in filing over 50,000 claims annually with the United States Department of Veterans Affairs; and

WHEREAS, This claims processing backlog needs to be urgently reduced while our World War II and Korean War veterans are still with us; and

WHEREAS, The United States Department of Veterans Affairs could enter into a partnership with state and local governments to utilize these highly trained county veterans service officers to eliminate the present claims processing backlog, by expanding the county veterans service officers' role; and

WHEREAS, This would be a cost-effective way of reducing the claims processing backlog by eliminating the need for a substantial increase in federal employees; and

WHEREAS, These county veterans service officers, as represented by the California Association of County Veterans Service Officers and the National Association of County Veterans Service Officers, have offered to assist the United States Department of Veterans Affairs in exchange for block grants to the various states based upon each state's veteran population to compensate county veterans service officers for their expanded role; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California urges the Congress of the United States and the President to support and enact legislation such as HR 1264 that would establish a federal/state partnership to use the knowledge and skills of the local county veterans service officers to

assist the United States Department of Veterans Affairs in eliminating the veterans claims processing backlog in order that America's veterans can take advantage of the benefits that the United States has authorized for them for their faithful and loyal service to a grateful nation; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 17

Assembly Concurrent Resolution No. 173—Relative to California Nonprofits and Philanthropy Week.

[Filed with Secretary of State March 16, 2004.]

WHEREAS, One of the great strengths of California is the presence of vigorous nonprofit and philanthropic organizations that provide a private means to pursue public purposes outside the confines of either the market or the state; and

WHEREAS, Residents of California have joined together to form over 134,000 nonprofit organizations, including more than 95,000 active charitable nonprofit organizations under Section 501(c)(3) of the Internal Revenue Code, 5,500 private foundations, and 26,000 religious groups, that employ over 900,000 people and receive and spend over \$100 billion per year; and

WHEREAS, Nonprofit and philanthropic organizations touch the lives of every person in California by serving people from all walks of life, socioeconomic groups, political orientations, ethnicities, ages, genders, and cultural backgrounds; and

WHEREAS, Embraced within the nonprofit sector are some of our state's premier universities, hospitals, symphonies, museums, theaters, and grassroots groups as well as thousands of community organizations that channel our impulses for charity, justice, and compassion to serve the common good and support and empower those in greatest need; and

WHEREAS, One-half of all hospital care, most human services, a significant share of higher education, most low-cost housing, almost all arts and culture, and most social justice and environmental programs are provided by nonprofit organizations; and

WHEREAS, Over 15 million California residents volunteer three to five hours per week with nonprofit organizations; and

WHEREAS, The 5,500 independent foundations, including 12 of the nation's largest independent foundations, 100 corporate foundations, and 29 community foundations, including seven of the nation's largest community foundations, with assets of more than \$50 billion, annually give \$2 billion in grants to California nonprofit organizations; and

WHEREAS, Nonprofit social service and philanthropic organizations have helped millions of Americans get back on their feet, enabling them to become active, productive citizens; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California recognizes the importance and value of nonprofit and philanthropic organizations; and be it further

*Resolved,* That the Legislature hereby proclaims March 14 to March 20, 2004, inclusive, as California Nonprofits and Philanthropy Week as presented by the California Association of Nonprofits and its Policy Council; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriation distribution.

---

## RESOLUTION CHAPTER 18

Senate Concurrent Resolution No. 52—Relative to Family Empowerment Month.

[Filed with Secretary of State March 16, 2004.]

WHEREAS, A significant number of families in California have children that have one or more physical or mental disabilities; and

WHEREAS, These families not only play a key role in establishing a foundation of values and morality in their children but also play a key role, if not the ultimate role, in ensuring that their disabled children receive the appropriate services and support in the areas of health, education, and social activities, among others; and

WHEREAS, The Legislature created a grant program in 2001, pursuant to Chapter 690 of the Statutes of 2001, that established Family Empowerment Centers on Disability throughout the state to, among other things, provide assistance to families of children and young adults with disabilities by providing these families with training, support, and information so as to better understand the nature of their children's disabilities and their children's educational and developmental needs, to better understand the laws relating to disabilities and special education, to communicate effectively with personnel responsible for providing special education, early intervention, and related services, to participate

in decisionmaking processes and the development of individualized education programs, to obtain appropriate information regarding the range of options, programs, services, and resources available to assist children and young adults with disabilities and their families, to participate in school improvement and reform activities, and to advocate for their child's needs; and

WHEREAS, Families of disabled children also support and are involved in various activities and efforts, including parent-professional collaborative activities, leadership in school reform and systems change, advocacy for positive dispute resolutions, participation and teamwork in the federal and state mandated individualized education program process whereby educational services and objectives are developed for each disabled child, identifying unserved or underserved children and their families, and promoting respect for all cultures, languages, and socioeconomic levels; and

WHEREAS, Families of disabled children thus play a critical role in contributing to their children's social, emotional, health, and educational development, and empowering these families with appropriate knowledge and information to better help their disabled children assist these families in fulfilling this critical role; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby designates the month of March of every year as Family Empowerment Month; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 19

Assembly Concurrent Resolution No. 61—Relative to Financial Literacy Month.

[Filed with Secretary of State March 30, 2004.]

WHEREAS, Californians' total personal income is 60 percent higher than any other state and accounts for 13 percent of all personal income in the United States; and

WHEREAS, During the past two decades the proportion of households with outstanding debt has risen dramatically, and this increase has been the greatest for the bottom 40 percent of the income distribution; and

WHEREAS, Sixty percent of American households carry forward some portion of their credit card debt every month, with an average balance of more than \$4,000, and 20 percent of families with an annual

income below \$50,000 spend close to one-half of their net income on debt payments; and

WHEREAS, More than 75 percent of all college students have at least one credit card with an average debt of almost \$3,000, and some university administrators state that more students drop out due to credit card debt rather than to academic failure; and

WHEREAS, More young adults filed for bankruptcy than graduated from college in 2001, and personal bankruptcy filings increased in 2003 to 1.7 million, with personal nonbusiness bankruptcies accounting for 97.6 percent of all bankruptcy cases, thereby contributing to an alarming decade-long increase in personal bankruptcies of more than 70 percent; and

WHEREAS, Approximately 15 percent of workers in the United States report they are experiencing stress from financial problems that negatively impacts their productivity on the job, more than one-third of the workforce reports that financial worries sometimes hamper job performance, and 34 percent of workers rate their financial stress as high to extreme, while 54 percent worry about the amount they owe; and

WHEREAS, The net worth of the average middle-class American household, after accounting for debt, is less than \$10,000; and

WHEREAS, The average life expectancy in the United States recently reached a record high of 74.1 years for men and 79.5 years for women, 25 percent of women currently retire on an income below the poverty level, and over the next 40 years the number of women over 85 is expected to triple; and

WHEREAS, The United States reportedly has the lowest individual savings rate in the industrialized world, almost one-half of all workers have accumulated less than \$50,000 for their retirement, and one-third have saved less than \$10,000; and

WHEREAS, Nearly 40 percent of older Baby Boomers are not confident about a secure retirement that is predicted to last up to 35 years; and

WHEREAS, More older Americans will be confronted with the inadequate funding of a much longer retirement, and are going to be relying on second careers, family contributions, charity, or government programs to subsidize retirement programs and savings; and

WHEREAS, High school seniors taking part in a national survey of financial knowledge scored an average of 50.2 percent, a failing grade, continuing a declining trend in scores since 1977; and

WHEREAS, Increasing the financial literacy of all economic and ethnic groups has been proven successful in improving attitudes, leading to improved decisionmaking, and providing a more secure future for individuals who have been educated in financial literacy and their families; and

WHEREAS, Financial literacy training may easily be integrated as a valuable component for elementary and secondary schools, colleges and universities, community groups, and citizen town hall meetings; and

WHEREAS, Many groups are dedicated to increasing the financial literacy of Americans and a broad range of quality personal finance instructional materials and curricula have been created for this purpose, but the audience to which this information is vital is not being reached; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby declares the month of April 2004 as Financial Literacy Month, in order to raise public awareness about the need for increased financial literacy; and be it further

*Resolved,* That legislators, employers, schools, service groups, community organizations, libraries, financial institutions, and the media, be encouraged to provide opportunities for financial literacy education for all Californians through a variety of means, including collaboration with members of the California Society of Certified Public Accountants, California Jump\$tart Coalition, and others, in order to provide outreach and education; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 20

Assembly Concurrent Resolution No. 159—Relative to Myositis Awareness Day.

[Filed with Secretary of State March 30, 2004.]

WHEREAS, Myositis is a chronic, autoimmune disease that triggers the inflammation and degeneration of skeletal muscle tissues, and in which inflammatory cells surround, invade, and destroy normal muscle fibers as though they were defective or foreign to the body; and

WHEREAS, Myositis can be a debilitating and sometimes fatal disease; and

WHEREAS, Currently 30,000 cases of myositis are estimated to exist in the United States; and

WHEREAS, There are various forms of myositis that currently have different effects on the body, including inflammatory myositis and polymyositis, which destroy normal muscle fibers, dermatomyositis, which is a rash and results in weakness of the trunk muscles, and inclusion body myositis, which includes gradual muscle weakness and affects both proximal and distal muscles; and

WHEREAS, Limited public recognition of myositis has resulted in inadequately funded research; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates September 21, 2004, as Myositis Awareness Day in California; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 21

Assembly Concurrent Resolution No. 176—Relative to George Washington’s birthday.

[Filed with Secretary of State March 30, 2004.]

WHEREAS, On April 30, 1789, George Washington, standing on the balcony of Federal Hall on Wall Street in New York, took his oath of office as the first President of the United States. “As the first of everything, in our situation will serve to establish a Precedent,” he wrote to James Madison, “it is devoutly wished on my part, that these precedents may be fixed on true principles”; and

WHEREAS, Born on February 22, 1732, into a Virginia planter family, he learned the morals, manners, and body of knowledge requisite for an 18th century Virginia gentleman; and

WHEREAS, He pursued two intertwined interest: military arts and western expansion. At 16 years old he helped survey Shenandoah lands for Thomas, Lord Fairfax. Commissioned as lieutenant colonel in 1754, he fought the first skirmishes of what grew into the French and Indian War. The next year, as an aide to General Edward Braddock, he escaped injury although four bullets ripped his coat and two horses were shot from under him; and

WHEREAS, From 1759 to the outbreak of the American Revolution, Washington managed his lands around Mount Vernon and served in the Virginia House of Burgesses. Married to a widow, Martha Dandridge Custis, he devoted himself to a busy and happy life. But like his fellow planters, Washington felt himself exploited by British merchants and hampered by British regulations. As a quarrel with the mother country grew acute, he moderately but firmly voiced his resistance to the restrictions; and

WHEREAS, When the Second Continental Congress assembled in Philadelphia in May 1775, Washington, one of the Virginia delegates, was elected Commander in Chief of the Continental Army. On July 3,

1775, at Cambridge, Massachusetts, he took command of his ill-trained troops and embarked upon a war that was to last six grueling years; and

WHEREAS, He realized early that the best strategy was to harass the British. He reported to Congress, “we should on all Occasions avoid the general Action, or put anything to the Risque, unless compelled by a necessity, into which we ought never to be drawn.” Ensuing battles saw him fall back slowly, then strike unexpectedly as shown in the daring crossing of the Delaware River. Finally in 1781 with the aid of French allies, he forced the surrender of General Cornwallis at Yorktown; and

WHEREAS, Washington longed to retire to his fields at Mount Vernon. But he soon realized that the nation, under its Articles of Confederation, was not functioning well, so he became a prime mover in the steps leading to the Constitutional Convention at Philadelphia in 1787. When the new Constitution was ratified, the electoral college unanimously elected George Washington President; and

WHEREAS, He did not infringe upon the policy making powers that he felt the Constitution gave Congress. But the determination of foreign policy became preponderantly a Presidential concern. When the French Revolution led to a major war between France and England, President Washington refused to accept entirely the recommendations of either his Secretary of State Thomas Jefferson, who was pro-French, or his Secretary of the Treasury Alexander Hamilton, who was pro-British. Rather, he insisted upon a neutral course until the United States could grow stronger; and

WHEREAS, To his disappointment, two parties were developing by the end of his first term. Wearied of politics, feeling old, he retired at the end of his second term. In his Farewell Address, he urged his countrymen to forswear excessive party spirit and geographical distinctions. In foreign affairs, he warned against long-term alliances; and

WHEREAS, President Washington enjoyed less than three years of retirement at Mount Vernon, for he died of a throat infection December 14, 1799; and

WHEREAS, The Revolutionary War hero, Henry Lee, would say that President George Washington was “first in war—first in peace—and first in the hearts of his countrymen”; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California hereby commemorates the birthday of President George Washington, February 22, 2004; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 22

Assembly Concurrent Resolution No. 181—Relative to National Anthem Day.

[Filed with Secretary of State March 30, 2004.]

WHEREAS, On September 14, 1814, Francis Scott Key peered through clearing smoke to see an enormous flag flying proudly after a 25-hour bombardment of Baltimore’s Fort McHenry; and

WHEREAS, Key was inspired to write a poem describing the sight he saw, which was later set to music; and

WHEREAS, Even before “the Star Spangled Banner” became our national anthem, it helped transform the garrison flag into a major national symbol of patriotism and identity; and

WHEREAS, The popularity of Francis Scott Key’s anthem during and after the Civil War transformed it into a national treasure; and

WHEREAS, Only with the start of the Civil War did the Star Spangled Banner become a nationally popular song, with both Union and Confederate forces rallying to the Star Spangled Banner; and

WHEREAS, During World War I, a drive began in Congress to make it the official anthem of America’s Armed Forces; and

WHEREAS, Maryland legislators and citizens were among the most active groups and individuals who pressed to get Francis Scott Key’s words and accompanying English tune ratified into law as our country’s first national anthem; and

WHEREAS, On March 3, 1931, President Herbert Hoover signed a law declaring the Star Spangled Banner as the national anthem of the United States of America; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature proclaims March 3, 2004, as the anniversary of National Anthem Day; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 23

Assembly Concurrent Resolution No. 186—Relative to Colorectal Cancer Awareness Month.

[Filed with Secretary of State March 30, 2004.]

WHEREAS, Colorectal cancer is the second leading cause of cancer deaths in men and women, combined, in the United States; and

WHEREAS, It is estimated that in the year 2004, over 106,370 new cases of colorectal cancer will be diagnosed in the United States; and

WHEREAS, In the year 2004, the disease is expected to kill an estimated 56,730 individuals in this country; and

WHEREAS, An estimated 14,330 individuals in the State of California were diagnosed with colorectal cancer in the year 2003; and

WHEREAS, Screening for colorectal cancer is underutilized, and less than 50 percent of individuals above the age of 50 years receive annual screenings; and

WHEREAS, California law mandates insurance coverage of colorectal cancer screening; and

WHEREAS, Adopting a healthy diet at a young age can significantly reduce the risk of developing colorectal cancer; and

WHEREAS, Regular screenings can detect polyps that lead to colorectal cancer and can save lives; and

WHEREAS, Awareness with education can help inform the public of methods of prevention and early detection of symptoms; and

WHEREAS, The State of California should help inform the public about colorectal cancer prevention and screening; now, therefore, be it *Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the month of March 2004, is hereby declared Colorectal Cancer Awareness Month in California; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 24

Assembly Concurrent Resolution No. 190—Relative to emergency medical services.

[Filed with Secretary of State March 30, 2004.]

WHEREAS, Emergency medical services personnel, including, emergency medical technicians (EMT's), paramedics, and emergency dispatchers are essential in providing the highest standards of prehospital medical care and ambulance transportation to the citizens of California, often performing lifesaving acts in the performance of their duties; and

WHEREAS, Emergency medical services personnel are the key link in homeland security, providing prehospital medical care and ambulance

transportation in response to natural and manmade disasters that occur in California; and

WHEREAS, The California Ambulance Association (CAA) represents companies providing emergency and nonemergency ambulance services throughout the state and views prehospital care not only as a public service, but also as an essential part of the total health care system; and

WHEREAS, The CAA represents more than 100 ambulance operations with over 10,000 emergency medical service personnel providing over 90 percent of the annual essential emergency and nonemergency ambulance services in the State of California; and

WHEREAS, The CAA has established a “Star of Life” award in recognition of EMT’s, paramedics, and emergency medical dispatchers who have been nominated by their companies for performing extraordinary acts of heroism, commitment, skill, and dedication to their lifesaving work in the communities that they serve; and

WHEREAS, The contributions that these individuals have made to the welfare and improvement of emergency medical services in California have been invaluable; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby declares March 11, 2004, “Stars of Life Day” in California; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 25

Assembly Concurrent Resolution No. 192—Relative to Irish-American Heritage Month.

[Filed with Secretary of State March 30, 2004.]

WHEREAS, Millions of Irish people, faced with severe hardship due to famine and poverty in their nation, immigrated to the United States over the last several centuries in search of a more promising future for themselves and their families; and

WHEREAS, Irish-Americans initially suffered prejudice and discrimination upon first arriving in the United States. As the years went on, Irish-Americans became very involved in the community and have made numerous contributions in all aspects of American society and culture, especially in California; and

WHEREAS, Irish-Americans played vital roles in the development of the United States. Nine Irish-Americans were signers of the Declaration

of Independence, and 19 Presidents of the United States have been of Irish heritage, including John F. Kennedy, Ronald Reagan, and Bill Clinton; and

WHEREAS, Many people of Irish descent have contributed to great movements that have helped to shape our country and its role in the world, including, Mother Jones, labor activist, Lucy Burns, Women's Movement, and Senator George Mitchell, Irish Peace Accord; and

WHEREAS, Irish-Americans have also played a major role in California politics. Many governors, legislative leaders, city mayors, and other public officials who have shaped the development of California over the years have been of Irish descent; and

WHEREAS, Irish-Americans were very involved in the development of infrastructure throughout the United States and especially in California. This included work on railroads and bridges that connected the West to the East. The Irish were also instrumental in the building of dams, roads, canals, and buildings that expanded greatly in the late 1800s; and

WHEREAS, Many Irish-Americans have made their mark in pursuit of public safety and have risked or lost their lives on countless occasions in carrying out their duties; and

WHEREAS, Irish-Americans have served with distinction in every war that this nation has fought. Many of the outstanding soldiers who fought for American freedom in the Revolutionary War were of Irish descent. Since then, Irish-Americans have sacrificed their lives in every other war in which the United States has fought; and

WHEREAS, Many Irish-Americans have contributed greatly to the United States economy in business, including Henry Ford, Alexander Stewart, the inventor of the American department store, and Cathleen Black, President, Hearst Publishing; and

WHEREAS, Irish-Americans have contributed to the American literary tradition through great authors including Flannery O'Connor, Eugene O'Neill, F. Scott Fitzgerald, Mary McCarthy, and Frank McCourt; and

WHEREAS, Irish-Americans have been instrumental in the development of American entertainment with such stars as actor Jack Nicholson, actor and comedian Bill Murray, actresses Grace Kelly and Julianne Moore, actor and singer Bing Crosby, and actor and director Edward Burns being of Irish heritage; and

WHEREAS, Today, over 44 million Americans claim Irish heritage, and they continue to contribute to American and California politics, economy, and culture; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature, in honor of the multitude of contributions that Irish-Americans have made to make this a better

country and state for all people, designates March 2004 to be Irish-American Heritage Month in California and calls upon the people of the state to observe this month with appropriate ceremonies, programs, and activities, especially on March 17, since everyone is Irish on St. Patrick's Day; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 26

Assembly Concurrent Resolution No. 172—Relative to a Day of Remembrance.

[Filed with Secretary of State April 2, 2004.]

WHEREAS, On February 19, 1942, President Franklin D. Roosevelt signed Executive Order 9066, pursuant to which 120,000 Americans and resident aliens of Japanese ancestry were incarcerated in internment camps during World War II; and

WHEREAS, Executive Order 9066 deferred the American dream for 120,000 Americans and resident aliens of Japanese ancestry by inflicting a great human cost of abandoned homes, businesses, careers, and professional advancements, and disruption to family life; and

WHEREAS, Despite their families being incarcerated behind barbed wire in the United States, approximately 33,000 veterans of Japanese ancestry fought bravely for our country during World War II, serving in the 100th Battalion, the 442nd Regimental Combat Team, and the 522nd Field Artillery Battalion; and

WHEREAS, The 100th Battalion, the 442nd Regimental Combat Team, and the 522nd Field Artillery Battalion heroically suffered nearly 10,000 casualties and are honored as being among World War II's most decorated combat teams, receiving seven Presidential Distinguished Unit Citations, 52 Distinguished Service Crosses, 588 Silver Stars, 5,200 Bronze Stars, and 9,486 Purple Hearts; and

WHEREAS, On June 21, 2000, President William Jefferson Clinton elevated 20 Japanese Americans who served in the 100th Battalion and the 442nd Regimental Combat Team and were among 52 individuals who received the nation's second highest award—the Distinguished Service Cross—to receive the nation's highest military honor—the Medal of Honor—bringing the total number of recipients who so received the Medal of Honor to 21; and

WHEREAS, Nearly 6,000 veterans of Japanese ancestry served with the Military Intelligence Service and have been credited for shortening

the war by two years by translating enemy battle plans, defense maps, tactical orders, intercepted messages and diaries, and interrogating enemy prisoners; and

WHEREAS, Nearly 40 years after the United States Supreme Court decisions upholding the convictions of Fred Korematsu, Min Yasui, and Gordon Hirabayashi for violations of curfew and Executive Order 9066, it was discovered that the United States War Department and Department of Justice officials altered and destroyed evidence regarding the loyalty of Americans and resident aliens of Japanese ancestry and withheld information from the United States Supreme Court; and

WHEREAS, Dale Minami, Peggy Nagae, Rod Kawakami, and many attorneys and interns contributed innumerable hours to win a reversal in 1983 of the original convictions of Korematsu, Yasui, and Hirabayashi by filing a petition for writ of error coram nobis on the grounds that fundamental errors and injustice occurred; and

WHEREAS, On August 10, 1988, President Ronald Reagan signed into law the Civil Liberties Act of 1988, finding that Executive Order 9066 was not justified by military necessity and, hence, was caused by racial prejudice, war hysteria, and a failure of political leadership; and

WHEREAS, February 19, 2004, marks 62 years since the signing of Executive Order 9066 and a policy of grave injustice against American citizens and resident aliens of Japanese ancestry; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California declares February 19, 2004, as a Day of Remembrance in this state to increase public awareness of the events surrounding the internment of Americans of Japanese ancestry during World War II; and be it further

*Resolved,* That the Legislature encourages the annual observance of this day in subsequent years so that California's youth may learn from our history; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, the Superintendent of Public Instruction, the State Library, and the State Archives.

---

## RESOLUTION CHAPTER 27

Assembly Concurrent Resolution No. 174—Relative to Arts Education Month.

[Filed with Secretary of State April 2, 2004.]

WHEREAS, Arts education, that includes education in dance, music, theatre, and the visual arts, is an essential and integral part of basic education for all pupils in kindergarten and grades 1 to 12, inclusive; and

WHEREAS, Instruction in the basic skills and knowledge of the arts develops critical and creative thinking and perceptual abilities that extend to all careers and areas of life; and

WHEREAS, Study of the arts relates naturally to much of the content of the state's educational curricula; and

WHEREAS, The arts are collectively one of the most important repositories of culture; and

WHEREAS, It is recognized that in our multicultural state the arts build bridges and help pupils broaden their perspectives; and

WHEREAS, Arts education programs can help pupils to understand and be engaged by their world and the diverse cultural influences that surround them; and

WHEREAS, Arts education programs have great potential for the future. Communication, imagination, and information are keys to economic growth, education, and the enjoyment of leisure time. Further, jobs and careers that involve artistic expression and creative problem solving are becoming increasingly important; and

WHEREAS, The arts are recognized as part of a quality education, and the University of California and the California State University have instituted a policy that includes visual and performing arts as a college preparatory subject for all high school pupils wishing to enter the institutions of higher education of the state; and

WHEREAS, Senate Bill 1390 of the 1999–2000 Regular Session of the Legislature authored by Senator Kevin Murray and signed by Governor Gray Davis on September 12, 2000, requires the State Board of Education to adopt visual and performing arts content standards and states that instruction in the visual and performing arts should be made available to all pupils; and

WHEREAS, Many national and state professional arts education associations hold celebrations in the month of March, giving California schools a unique opportunity to focus on the value of the arts for all pupils, to foster cross-cultural understanding, to give recognition to the state's outstanding young artists, and to enhance public support for this important part of the curriculum; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature proclaims the month of March 2004 as Arts Education Month and encourages all educational communities to celebrate the arts with meaningful pupil activities and programs that demonstrate learning and understanding in the visual and performing arts, and urges all residents to become interested in and give full support to quality school arts programs for children and youth; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 28

Senate Concurrent Resolution No. 58—Relative to California Private School Recognition Day.

[Filed with Secretary of State April 2, 2004.]

WHEREAS, California's private schools are significant partners in the education of the greater public, educating 10 percent of the state's pupils enrolled in kindergarten and grades 1 to 12, inclusive; and

WHEREAS, More than one in four schools in the state offering instruction in kindergarten and grades 1 to 12, inclusive, is a private school; and

WHEREAS, California's private schools save taxpayers more than \$5 billion annually through the private financing of facilities and provision of instruction; and

WHEREAS, Private education in the state enjoys a tradition spanning four centuries, originating with the early Mission schools of the 18th century; and

WHEREAS, California's private schools are religious and secular; large and small; urban, suburban, and rural; progressive and traditional; independent and networked; thus helping to fulfill the ideal of educational pluralism; and

WHEREAS, The diversity found in California's private schools offers parents and pupils a broad range of educational options; and

WHEREAS, California's private schools are committed to the achievement of academic excellence while endeavoring to meet the intellectual, social, moral, spiritual, emotional, and physical needs of each child; and

WHEREAS, Whatever their particular orientation, California's private schools uphold and promote the values of public participation, civic responsibility, and service to community; and

WHEREAS, California's private schools are ultimately accountable to the parents who choose them; and

WHEREAS, The graduates of California's private schools, as informed, productive, and involved citizens, have made countless positive contributions to their respective communities, the state, and the nation; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Legislature recognizes each March 22 as

“California Private School Recognition Day,” in appreciation of the significant contributions made by California’s private schools to the benefit of the state; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the Governor of the State of California and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 29

Senate Concurrent Resolution No. 42—Relative to women’s health.

[Filed with Secretary of State April 2, 2004.]

WHEREAS, Research indicates that differences in men and women exist in the experience of pain, with women experiencing and reporting both more frequent and greater pain. Yet, rather than receiving greater, or, at least as effective treatment for their pain as men, women are more likely to be less well treated than men for their painful symptoms; and

WHEREAS, There are numerous factors that contribute to this undertreatment, but the literature supports the conclusion that there are gender-based biases regarding women’s pain experiences. These biases have led health care providers to discount women’s self reports of pain at least until there is objective evidence for the pain’s cause. Medicine’s focus on objective factors and its cultural stereotypes of women combine insidiously to leave women at greater risk for inadequate pain relief and continued suffering; and

WHEREAS, Women have a higher prevalence of chronic pain syndromes and diseases associated with chronic pain, such as fibromyalgia, reflex sympathetic dystrophy, or osteoarthritis, than men, and women are biologically more sensitive to pain than men and respond differently to certain analgesics; and

WHEREAS, Women’s pain reports are taken less seriously than men’s and women receive less aggressive treatment than men for their pain; and

WHEREAS, Although women have more coping mechanisms to deal with pain, this may contribute to a general perception that they can put up with more pain and that their pain does not need to be taken as seriously; and

WHEREAS, Although women more frequently report pain to a health care provider, they are more likely to have their pain reports discounted as “emotional” or “psychogenic” and, therefore, “not real”; and

WHEREAS, Subjective response to painful stimuli is an accurate indication of pain experienced, according to a study published in June 2003 in the Proceedings of the National Academy of Sciences; and

WHEREAS, Women are socialized to attend more to their physical appearance, and are more likely than men to have health care providers assume they are not in pain if they look more physically attractive; and

WHEREAS, Men with chronic pain are more likely to delay seeking treatment, but generally receive a more aggressive response by health care providers once they enter the health care system; and

WHEREAS, Both men and women are more likely to have the emotional or psychological component of their pain experience suppressed due to Western medicine's tendency to separate mind and body and to view objective, biological "facts" as more credible than subjective feelings; and

WHEREAS, It is necessary to begin educating health care providers and those who train them to expose biases that lead to the undertreatment of women in pain; and

WHEREAS, Medical schools should endorse, and teach students, an approach that best elicits the concerns of any patient in pain, and that does not discount the patient's subjective reports of pain, which will require attentiveness to the emotional aspects of the patient's reports of pain; and

WHEREAS, There needs to be scrutiny on the part of quality care evaluators as well as ethical awareness raising by institutional ethics committees about the current bias in the pain treatment of women; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature recognizes the important need to raise awareness concerning gender disparity in pain assessment and treatment in the United States; and be it further

*Resolved,* That the Legislature hereby proclaims the month of February as Women In Pain Awareness Month; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 30

Assembly Concurrent Resolution No. 196—Relative to César Chávez Day.

[Filed with Secretary of State April 6, 2004.]

WHEREAS, On March 31, 1927, a true hero named César Estrada Chávez was born in Yuma, Arizona to Librado and Juana Chávez and became the second oldest in a family of five children. César Chávez lived his life dedicated to improving the plight of farmworkers through

struggle, sacrifice, and self-denial. He founded and led the first successful farmworkers' union in United States history. He stood for dignity and justice for farmworkers. Today, he remains a symbol of hope to all Californians who find hope and peace in justice; and

WHEREAS, In the 1930s, during the Great Depression, César Chávez' father lost his small farming business and the family went broke. The family became migrant workers and joined some 30,000 workers who followed the crops from Arizona into southern California, then up the length of the central valley and back again picking everything from peas to cotton. They lived in tents and other makeshift housing that often lacked a bathroom, electricity, or running water. Schooling for Chávez was irregular and haphazard. He attended some 30 different schools, often encountered discrimination, and was punished for speaking Spanish; and

WHEREAS, After graduation from the eighth grade, César Chávez was forced to quit school and take to the fields in order to help support his family. In 1944, at the age of 17, César Chávez joined the Navy and served in World War II. After he completed his tour of duty, César Chávez returned to California and married Helen Fabela, a woman who shared his dedication to the cause of the farmworker. They lived in San Jose in a tough Mexican neighborhood called "Sal Si Puedes" which translates to "get out if you can," and together raised eight children; and

WHEREAS, As a farmworker, César Chávez experienced firsthand the injustice of working long hours with little pay. Instilled with a sense of justice passed down from his mother, César Chávez made a decision to speak up and fight for change. He took part in his first strike in protest of low wages and poor working conditions for farmworkers. Although initially unsuccessful, his participation in that first strike was to mark the beginning of a long career in which he fought for improved working and living conditions for farmworkers; and

WHEREAS, In 1952, César Chávez met Fred Ross who was with a group called the Community Services Organization (CSO). Struck by César Chávez' engaging personality and leadership qualities, Ross tapped César Chávez to head voter registration efforts where he successfully registered 4,000 voters. The following year, he led organizational efforts to establish CSO offices in every major barrio. César Chávez eventually spent 10 years with CSO, and became general director in 1958. During this time, services were expanded to include citizenship classes, helping members secure driver licenses, assistance in filling out applications for aid, and securing legal counsel; and

WHEREAS, In 1962, César Chávez resigned his position with the CSO to embark on a bold new undertaking to form a farmworkers' union. He was joined by the great Dolores Huerta, and together they

became the architects of the National Farm Worker's Union, the forerunner to the present United Farm Workers (UFW); and

WHEREAS, In 1965, César Chávez led a strike of California grapepickers to demand higher wages, and urged all Americans to boycott table grapes as a show of support. The strike included a 340-mile march from Delano to Sacramento in 1966 in which thousands of farmworkers and supporters marched in solidarity. The farmworkers and supporters carried banners with the black eagle with the words "HUELGA" (strike) and "VIVA LA CAUSA" (long live our cause); and

WHEREAS, César Chávez preached nonviolence to the strikers even as they were physically abused by many of those opposed to the grape boycott. In 1968, he began a Ghandi-like fast to call attention to the migrant workers' cause. Although his dramatic act did little to solve the immediate problem, it increased public awareness of the conditions under which farmworkers labored. In 1973, the UFW organized a strike for higher wages from lettuce growers, and, after many battles, an agreement was finally reached in 1977 that gave the UFW the sole right to organize farmworkers; and

WHEREAS, During the 1980s, César Chávez led the effort to call attention to the health problems of farmworkers caused by the use of certain pesticides on crops; and

WHEREAS, On April 23, 1993, César Estrada Chávez died peacefully in his sleep in San Luis, Arizona. During his funeral, Cardinal Roger M. Mahoney, who celebrated the funeral mass, called César Chávez "a special prophet for the world's farmworkers"; and

WHEREAS, Many declared that the UFW would die without him, but on César Chávez' birthday, March 31, 1994, under the leadership of his son-in-law, Arturo Rodriguez, the UFW marched 343 miles from Delano to Sacramento, echoing César Chávez' historic 1966 march, and demonstrated that the UFW still worked for farmworkers; and

WHEREAS, In 1990, Mexican President Salinas de Gortari awarded César Chávez, the "El Aguila Azteca" (the Aztec Eagle), Mexico's highest award presented to people of Mexican heritage who have made major contributions outside of Mexico. He also became the second Mexican American to receive the Presidential Medal of Freedom, the highest civilian honor in the United States, which was presented posthumously to his wife, Helen Chávez, and their children on August 8, 1994, by President William Jefferson Clinton; and

WHEREAS, In 1994, César Chávez' family and the officers of the UFW created the César E. Chávez Foundation to inspire current and future generations by promoting the ideals of César Chávez' life, work, and vision. Communities throughout California and the United States

have honored the memory of César Chávez by naming schools, parks, children's centers, streets, and other public works after the leader; and

WHEREAS, César Chávez led by example, giving of himself so that he might help others. His relentless pursuit of the belief that the American dream should be available to all Americans, regardless of race or origin of birth, stands as a monument to our free society. His life and work is not only an inspiration to Latinos, but to working Americans of all nationalities. His legacy lives on in the improved working and living conditions of hundreds of thousands of Californians and their families; and

WHEREAS, In the year 2000, the Legislature enacted Senate Bill 984 (Chapter 213 of the Statutes of 2000) to create an annual state holiday on César Chávez' birthday, March 31; this holiday provides all Californians the opportunity to learn from César Chávez' life and provides schoolchildren the opportunity to learn through community service; and

WHEREAS, The State Board of Education on Wednesday, February 6, 2002, adopted a model curriculum on the life and work of César Chávez, fulfilling a key provision of Chapter 213 of the Statutes of 2000, that also includes topics on pesticides, immigration, and agriculture's role in the economy; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature recognizes March 31 as the anniversary of the birth of César Chávez, and calls upon all Californians to participate in appropriate observances to remember César Chávez as a symbol of hope and justice to all persons; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 31

Senate Joint Resolution No. 15—Relative to the federal poverty level.

[Filed with Secretary of State April 9, 2004.]

WHEREAS, The federal poverty level was created by Congress in the 1960s to determine the number of people living in poverty; and

WHEREAS, The Census Bureau notes that the federal poverty measure is a statistical yardstick rather than a complete description of what people and families need to live; and

WHEREAS, The federal poverty level is calculated by multiplying basic food consumption by three; and

WHEREAS, The federal poverty level implies a demographic model of a two-parent family with one parent in the workforce and one parent at home; and

WHEREAS, The federal poverty level does not include the different cost of living across states, counties, and cities; and

WHEREAS, The cost of housing, health care, transportation, child care, and essential services, such as water, electricity, and gas are not included in calculating the federal poverty level; and

WHEREAS, The current 2002 federal poverty level is defined by a family unit of one with an income of \$8,860, a family unit of two with an income of \$11,940, a family unit of three with an income of \$15,020, and a family unit of four with an income of \$18,100; and

WHEREAS, The 2000 federal census reports that 14 percent of Californians live at the federal poverty level; and

WHEREAS, Dr. Diana Pearce of the University of Washington, with Wider Opportunities for Women and Californians for Family Economic Self-Sufficiency (CFESS), a project of the National Economic Development and Law Center, have developed the California Self-Sufficiency Standard, which uses major budget items and varies geographically; and

WHEREAS, Approximately 30 percent of Californians do not earn enough to pay for basic needs, according to a study utilizing the California Self-Sufficiency Standard; and

WHEREAS, It is in the best interest of the state to ensure that families have enough income to meet their basic needs; and

WHEREAS, A more accurate calculation of poverty would assist in California's effort to end poverty; and

WHEREAS, Many California families are struggling with inadequate resources to meet their families' basic needs, yet many of these families do not receive any assistance. Although often described as "falling between the cracks," this group is neither small nor marginal as that phrase suggests, but, rather, is a substantial proportion of our society, and yet little is known about them; and

WHEREAS, A more accurate calculation of the federal poverty level would redirect more federal funds to states; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature respectfully memorializes the President and Congress of the United States to do all of the following:

(1) Ensure that the United States is working to meet the basic needs of all families.

(2) Begin a process to better calculate the federal poverty level to ensure that all states receive an adequate representation of the number of families who are struggling to meet their basic needs.

(3) Use existing models to calculate poverty, including geographical costs of living that take into account expenses such as housing, child care, health care, and transportation ; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

### RESOLUTION CHAPTER 32

Senate Concurrent Resolution No. 54—Relative to World Languages and Cultures Month.

[Filed with Secretary of State April 22, 2004.]

WHEREAS, Senate Bill 5 of the 2003–04 Regular Session (Chapter 826, Statutes 2003) provides for the creation of standards that will strengthen the teaching of languages in California; and

WHEREAS, Proficiency in more than one language enhances communication and strengthens positive interaction among people at home and around the globe; and

WHEREAS, Foreign language study enhances a pupil's academic and literacy skills, leading to increased achievement on verbal and nonverbal tests; and

WHEREAS, The State of California has recently published a new framework for foreign language education delineating programmatic guidelines for strengthening curriculum content and program implementation; and

WHEREAS, The State Board of Education recently adopted instructional materials to support the delivery of effective foreign language programs in California; and

WHEREAS, The California Master Plan for Education proposes that, in addition to English, all pupils become proficient in non-English languages; and

WHEREAS, The study of languages and cultures provides the opportunity to gain insight into the history, heritage, and perspectives of all California residents, as well as other communities around the world; and

WHEREAS, Today's international economy requires that people be able to negotiate effectively with individuals from different cultures; and

WHEREAS, Language competence is critical to the security needs of the United States; and

WHEREAS, The study of languages and cultures increases understanding and encourages respect for people of different backgrounds; and

WHEREAS, During the month of May 2004, the California Language Teachers Association, the California Foreign Language Project, and other educational organizations throughout the Golden State will sponsor special activities to promote awareness of the importance of successful interaction in a multilingual and multicultural context, both at home and abroad; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby declares the month of May 2004, as World Languages and Cultures Month, encourages all educational communities to celebrate languages and cultures with meaningful pupil activities and programs that demonstrate learning and understanding of the diversity of languages and cultures in California, and urges all citizens to become interested in and give full support to quality language and culture programs consistent with California content standards and frameworks for all pupils in California schools; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 33

Senate Concurrent Resolution No. 55—Relative to Educational Options Month.

[Filed with Secretary of State April 22, 2004.]

WHEREAS, The State of California recognizes that because students learn in a variety of ways, the state's educational system must strive to meet the needs of its entire diverse student population by supporting education options and the sustainability of these programs; and

WHEREAS, In 1975, Senate Bill 445 was enacted, declaring the purpose of educational options and authorized school district and county office of education governing board to establish and maintain alternative schools and programs to, among other things, serve at-risk youth; and

WHEREAS, Educational options include continuation high schools, magnet programs, charter schools, independent study, adult education, opportunity programs, community day schools, pregnant minor programs, county community schools, juvenile court schools, youth authority, and alternative schools, representing over 750,000 students; and

WHEREAS, Educational options, as part of the state's educational system, maximizes learning opportunities for students who are deficient in credits, pregnant or parenting, homeless, recovered dropouts, or in some other way classified "at risk", to develop the positive values and life skills such as self-reliance, initiative, resourcefulness, creativity, and responsibility; and

WHEREAS, Educational options provide a choice of educational pathways in an effort to confront educational and social challenges, to meet the needs of all students that will ensure them the opportunity to make appropriate postsecondary choices, including higher education, technical and career training, and the military; and

WHEREAS, The State Department of Education recognizes the high level of professionalism and specialized training required of a successful educational options educator in order to provide academic and career instruction, character development, and experiences that lead to successful citizenship, employment, and higher education; and

WHEREAS, All educators and administrators providing instruction to students participating in educational options programs are committed to providing a supportive learning environment that is best suited to every student's academic, personal, and social needs; advocating for a quality education as a means to inspire every student to become a self-motivated, responsible learner; and

WHEREAS, Educational options programs and schools issue diplomas to students and must fulfill the same state and federal requirements as all traditional schools, including alignment to the California State Content Standards, offering a rigorous curriculum that includes all core academic subjects, as well as participate in all state-mandated testing programs such as the Standardized Testing and Reporting Program and the California High School Exit Exam; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the California State Legislature joins in proclaiming and observing the month of May as Educational Options Month; and be it further

*Resolved,* That the California Legislature encourages all Californians to work together to ensure the future success of every young student participating in educational options in our state; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 34

Assembly Concurrent Resolution No. 194—Relative to Sexual Assault Awareness Month.

[Filed with Secretary of State April 26, 2004.]

WHEREAS, In California, there were 10,176 forcible rapes reported in 2002; and

WHEREAS, The American Medical Association has stated that a “woman is raped every 46 seconds in the United States” and that sexual assault is a “silent epidemic”; and

WHEREAS, Women, children, and men are all victims of sexual assault and it is estimated that one in three women, one in four girls, one in six boys, and one in 11 men will be victims at least once in their lifetimes; and

WHEREAS, Rape and sexual assault impacts women, children, and men of all racial, cultural, and economic backgrounds; and

WHEREAS, Women, children, and men suffer multiple types of sexual violence including acquaintance rape, stranger rape, sexual assault by an intimate partner, gang rape, incest, stalking, serial rape, ritual abuse, sexual harassment, child sexual molestation, prostitution, pornography, and stalking; and

WHEREAS, In addition to the immediate physical and emotional costs, sexual assault may also have associated severe and long-lasting consequences of posttraumatic stress disorder, substance abuse, major depression, homelessness, eating disorders, and suicide; and

WHEREAS, The Centers for Disease Control and Prevention have identified sexual assault as a significant, costly, and preventable health issue; and

WHEREAS, Women, children, and men in our state have the right to be safe from sexual violence in their homes, at school, at work, and on the streets; and

WHEREAS, It is our responsibility to support rape survivors by treating them with dignity, compassion, and respect; and

WHEREAS, It is crucially important to hold perpetrators responsible for sexual attacks, and to prevent sexual violence at every opportunity; and

WHEREAS, A coalition of rape crisis centers and their allies, known as the California Coalition Against Sexual Assault, has emerged to directly confront this crisis with the cooperation of law enforcement agencies, churches, health care providers, and other helping professionals from California’s diverse communities; and

WHEREAS, It is important to recognize the compassion and dedication of the individuals involved in this effort, applaud their

commitment, and increase public understanding of this significant problem; and

WHEREAS, It is important to recognize the strength, courage, and challenges of the victims and survivors of sexual assault and their families and friends as they struggle to cope with the reality of sexual assault; and

WHEREAS, It is important to recognize that not all victims of sexual assault survive, either at the time of the assault or later, due to the horrific long-term trauma that sexual assault often inflicts upon victims; and

WHEREAS, There are rape prevention and education efforts underway throughout California to challenge the societal myths and behaviors that perpetuate rape and to engage communities in a common goal of ending sexual assault; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That, henceforth, the month of April shall be designated as Sexual Assault Awareness Month; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, to the Governor, to the Director of the United States Justice Department's Office for Victims of Crime, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 35

Assembly Concurrent Resolution No. 201—Relative to California Earth Day.

[Filed with Secretary of State April 26, 2004.]

WHEREAS, Thirty-four years ago, millions of Americans of all ages, walks of life, and political affiliations joined together on the first Earth Day in a demonstration of concern and support for the environment; and

WHEREAS, Public awareness of environmental issues, fostered by the first Earth Day, has led to the enactment of key federal laws, including the Clean Air Act, the Clean Water Act, the National Environmental Policy Act of 1969, and to the creation of the federal Environmental Protection Agency, which was established to implement, administer, and enforce laws protecting the environment; and

WHEREAS, The spirit of the first Earth Day has continued to increase public environmental awareness inspiring many Californians to make individual decisions that reduce adverse environmental impacts; and

WHEREAS, The California environment, including its rocky coasts, sandy beaches, redwood forests, deserts, and towering mountains, is among the most beautiful in the nation; and

WHEREAS, The Legislature recognizes and has helped safeguard the state's unique scenic beauty, natural resources, and the quality of its water, air, and land through the enactment of laws including the California Environmental Quality Act, the California Coastal Act of 1976, the Hazardous Waste Control Law, the California Integrated Waste Management Act of 1989, and the Greenhouse Gases Emissions Law; and

WHEREAS, The voters have ratified the intent of the Legislature to protect the environment by approving the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000, the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002, the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002; and

WHEREAS, California residents have stated that the health impacts of poor air quality is their highest environmental health priority, including the deterioration of air quality in the Central Valley and Los Angeles Basin that has caused dramatic increases in asthma and respiratory illnesses in children and the elderly; and

WHEREAS, The Legislature has recognized the need to protect California's drinking water through the passage of the California Safe Drinking Water and Toxic Enforcement Act of 1986 leading to the establishment of a public health goal for methyl tertiary-butyl ether (MTBE) in 1999 and for Perchlorate in 2004; and

WHEREAS, The work done by the Office of Planning and Research, the California Environmental Protection Agency, the Advisory Committee on Environmental Justice, and Interagency Working Group on Environmental Justice, acting on legislative mandate, through the Environmental Justice Program, has effected public health and environmental protection programs, policies, and activities in a manner that is designed to promote equality and afford fair treatment, full access and full protection to all Californians, including low income and minority populations; and

WHEREAS, The protection of California's natural resources helps stimulate our economy especially for industries relating to tourism, fishing, and new technologies, and enhances our quality of life; and

WHEREAS, Activities to celebrate, on April 22, 2004, the 34th anniversary of the first Earth Day, will focus public attention on and encourage personal and community participation in environmental protection through recycling, conserving energy and water, encouraging use of renewable resources, using efficient transportation such as

alternative fueled vehicles, adopting sustainable building practices, and other environmentally responsible personal actions; and

WHEREAS, Earth Day 2004 will provide an impetus for additional protection of the environment and our health, and continued local, state, national, and international efforts will be required at an unprecedented level during the next decade in order to remedy the environmental problems that we face; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereby concurring*, That April 22, 2004, is hereby declared to be “California Earth Day”; and be it further

*Resolved*, That the Legislature reaffirms its commitment to the fundamental principles that underlie the state’s environmental laws, including the protection of human health from environmental hazards through the prevention of environmental risks and the maintenance of health-based standards; the continuance of programs to safeguard air and water quality; the recycling and reuse of materials, whenever feasible, to reduce the economic and environmental costs of disposal, and to recapture the value of these materials for the state’s economy; the effective cleanup of pollution of the state’s land, air, and water resources; the preservation of natural ecosystems; and maintenance of the fundamental right of the public to know about environmental hazards and to fully participate in public decisions regarding the environment; and be it further

*Resolved*, That California recognizes the importance of the environment and encourages residents to include in their daily lives those activities that promote the goals of Earth Day 2004; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, to the Secretary of the Resources Agency, to the Secretary for Environmental Protection, and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 36

Assembly Concurrent Resolution No. 206—Relative to California Space Day.

[Filed with Secretary of State April 26, 2004.]

WHEREAS, The satellite industry has been the largest and fastest growing segment of the overall space industry, having tripled in size from over 15 billion dollars (\$15,000,000,000) in 1996, to over 49 billion dollars (\$49,000,000,000) in 2002, according to a recent statistics

study of the Satellite Industry Association. California's share of this global market is approximately 20 percent, and it is forecasted to be over 30 percent by 2010; and

WHEREAS, Transmissions from more than 3,500 satellites currently orbiting in operation above the earth's atmosphere are increasingly making a greater contribution to the everyday lives of consumers and transforming our world into a truly global neighborhood; and

WHEREAS, Satellite technology is an enabler and partner with many other key California industries such as information technology, telecommunications, entertainment, environment studies, and agricultural management; and

WHEREAS, Average citizens are using satellite-based global positioning systems to map themselves to destinations, while businesses are using the same system to manage trucking fleets and railroad cars; and

WHEREAS, Scientists are using remote earth sensing satellites to monitor erosion, and environmental degradation and for ocean and forest management; and

WHEREAS, Direct satellite broadcasting of television and radio programming is bringing new and improved entertainment services to living rooms across America; and

WHEREAS, Farmers use satellites to monitor animal herds and to manage crop moisture and pest infestation; and

WHEREAS, Many other applications of satellite technology are being used each and every day; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California hereby requests the Governor to proclaim April 13, 2004, as California Space Day, in special recognition of how the satellite industry has found a consumer market and is improving the lives of our citizens; and be it further

*Resolved,* That the Legislature recognizes the growth of this sector as an important economic and job creation engine that deserves to be nurtured and encouraged to remain and expand in California; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, the Lieutenant Governor, the secretaries of each state agency, the directors of each state department, and to the author for appropriate distribution.

---

RESOLUTION CHAPTER 37

Assembly Joint Resolution No. 36—Relative to veterans benefits.

[Filed with Secretary of State April 26, 2004.]

WHEREAS, In addition to the benefits provided by the United States Department of Veterans Affairs, various states have recognized and rewarded the tremendous sacrifices made by our nation's veterans; and

WHEREAS, The State of California acknowledges the failure to fully recognize and support the sacrifices made by our military veterans, most notably after the Vietnam War; and

WHEREAS, The California Department of Veterans Affairs is committed to conferring and administering veterans benefits provided by a grateful State of California to its deserving veterans and their dependents; and

WHEREAS, In the past decade, the California Department of Veterans Affairs actively lobbied federal legislators to enact changes in current federal legislation that would extend home ownership opportunities for Vietnam War veterans; and

WHEREAS, Home ownership is viewed by many as a cherished component of the American dream; and

WHEREAS, Enabling veterans to achieve home ownership at a lower cost is but a small reward for their faithful service in the United States Armed Forces; and

WHEREAS, In appreciation of this service on behalf of our state and nation, the States of California, Wisconsin, Texas, Oregon, and Alaska have offered low interest rates on home loan mortgages to eligible veterans for many decades; and

WHEREAS, These programs have assisted over a million veterans in obtaining affordable housing and in making a better life for themselves and their dependents; and

WHEREAS, These states utilize tax-exempt bonds known as Qualified Veterans Mortgage Bonds (QVMBs) to fund almost all of the home purchase and home improvement loans made to veterans; and

WHEREAS, Current federal law governing the use of tax-exempt bonds used to fund these loans, as contained in Section 143(l)(4) of the Internal Revenue Code, unfairly limits these programs to only those veterans who served prior to January 1, 1977; and

WHEREAS, This restriction unfairly prevents all veterans serving active duty post-1976 from using QVMBs, including over 500,000 men and women who served in Operation Desert Shield and Operation Desert Storm and over 380,000 members serving in Operation Enduring Freedom and Operation Iraqi Freedom; and

WHEREAS, These courageous men and women, many serving in harm's way even today, deserve the same benefits offered to their earlier comrades in arms, yet the states in which they and their families reside are being denied the opportunity to use QVMBs; and

WHEREAS, Congress has failed to remedy this discriminatory federal provision on behalf of these deserving men and women, despite the fact that it will not increase federal discretionary spending; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California memorializes the President and the Congress of the United States to support legislative action to immediately remove the discriminatory portion of Section 143(l)(4) of the Internal Revenue Code so that today's veterans and their families might enjoy the same benefits as their earlier counterparts; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States, and to the Secretary of the Department of Veterans Affairs.

---

## RESOLUTION CHAPTER 38

Assembly Joint Resolution No. 66—Relative to Equal Pay Day.

[Filed with Secretary of State April 27, 2004.]

WHEREAS, Forty-one years after the passage of the Federal Equal Pay Act and Title VII of the Federal Civil Rights Act of 1964, American women continue to suffer disparities in wages that cannot be accounted for by age, education, or work experience; and

WHEREAS, According to the United States Census Bureau, in 2002, American women working full-time year-round earned on average 76.6 cents for every dollar earned by full-time working American men; and

WHEREAS, A General Accounting Office report on women's earnings shows that there exists an inexplicable wage gap of approximately 20 percent, even after taking into account work experience, education, occupation, industry of current employment, and other demographic and job characteristics; and

WHEREAS, In the 41 years since the Equal Pay Act, the gap has narrowed by less than half, from 41 cents per dollar to 22 cents, and research by the Institute for Women's Policy Research finds that recent

change is due in large part to men's real wages falling, not women's wages rising; and

WHEREAS, California ranks fifth among all states in equal pay, yet it ranks 39th among all states in progress in closing the hourly wage gap, and at the current rate of change California working women will not have equal pay for another 40 years; and

WHEREAS, The consequences of the wage gap reach beyond working women and extend to their families and the economy, to the extent that, in 1999, even after accounting for differences in education, age, location, and the number of hours worked, America's working families lost \$200 billion of annual income to the wage gap, with an average of \$4,000 per family; and

WHEREAS, Women play a crucial role in maintaining the financial well-being of their families by providing a significant percentage of their household incomes and, in many cases, women head their own households; and

WHEREAS, Pay inequity results in a higher poverty rate for women, particularly in women-headed households, as evidenced by figures from the McAuley Institute which indicate that for families that are headed by a woman and have children under the age of five years, the poverty rate is an astonishing 46.4 percent; and

WHEREAS, Women currently account for 47 percent of the labor force, and by 2005 are expected to comprise 48 percent of the labor force; and

WHEREAS, Educated women are not exempt from pay disparity; and

WHEREAS, In 2001 the median weekly earnings of female full-time workers with a college degree was 72.5 percent of their male counterparts; and

WHEREAS, According to the United States Census Bureau March 2002 Current Population Survey, women with a master's degree on average earn less than men with a bachelor's degree; and

WHEREAS, The wage gap is even wider for women of color, as evidenced by a 2001 statistic that reported that African-American women earned 69 percent and Hispanic women earned 56 percent of average white male earnings; and

WHEREAS, The wage gap is also prevalent within minority communities, as shown by a 2002 report that African-American women earned 91 percent of what African-American men earned, and Hispanic women earned 88 percent of what Hispanic men earned; and

WHEREAS, Even in professions in which women comprise a majority of workers, such as nursing and teaching, men earn an average of 20 percent more than women working in these same occupations; and

WHEREAS, According to the data analysis of over 300 job classifications provided by the United States Department of Labor,

Bureau of Labor Statistics, women are paid less in every occupational classification for which sufficient information is available; and

WHEREAS, The wage gap continues to affect women in their senior years as lower wages result in lower pensions and incomes after retirement, and affect a woman's ability to save, thereby contributing to a higher poverty rate for elderly women; and

WHEREAS, The average 25-year-old woman who works full-time, year-round, is projected to earn \$523,000 less over the course of her career than the average 25-year-old man who works full-time, year-round; and

WHEREAS, If women were paid the same as men who work the same number of hours, have the same education and same union status, are the same age, and live in the same region of the country, then the annual family income of each of these women would rise by \$4,000, and the number of families who live below the poverty line would be reduced by half; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature hereby declares April 20, 2004, to be "Equal Pay Day" in California and urges California citizens to recognize the full value and worth of women and their contributions to the California workforce; and be it further

*Resolved,* That the Legislature respectfully urges the Congress of the United States to protect the fundamental right of all American women to receive equal pay for equal work, and to continue to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 39

Assembly Concurrent Resolution No. 115—Relative to the Inspector Raymond J. Giacomelli Memorial Overcrossing.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, Inspector Raymond J. Giacomelli of the Pittsburg Police Department was killed on April 15, 2003, while in performance of his duty to the citizens he was sworn to protect; and

WHEREAS, The people of California are shocked and grieved by the death of Inspector Giacomelli, an honored and respected member of the Pittsburg Police Department for the past 23 years; and

WHEREAS, Inspector Giacomelli is survived by his loving wife Maria, and his daughters Christina and Jessica; and

WHEREAS, It is appropriate to memorialize the sacrifice of Inspector Giacomelli by naming the overcrossing at State Highway Route 4 and Loveridge Road in the City of Pittsburg in Contra Costa County as the “Inspector Raymond J. Giacomelli Memorial Overcrossing”; and

WHEREAS, This memorial will serve as a reminder of the daily sacrifices made by peace officers to protect the public; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates the overcrossing at State Highway Route 4 and Loveridge Road in the City of Pittsburg in Contra Costa County as the “Inspector Raymond J. Giacomelli Memorial Overcrossing”; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those plaques and markers within the right-of-way of that portion of State Highway Route 4; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 40

Assembly Concurrent Resolution No. 121—Relative to the Semper Fi Highway.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, The Marine Corps Air Station Miramar in southern California, which has military roots dating back to 1917, is home to three commands that include the 3rd Marine Aircraft Wing, the Marine Corps Air Bases Western Area, and the Marine Aircraft Group 46, each serving their own specific function with their own subordinate units; and

WHEREAS, The Marine Corps Air Station Miramar and the 3rd Marine Aircraft Wing are dedicated to supporting West Coast Marine aviation missions, Marine Aircraft Group 46, and other Naval aviation

support units as designated by the Commandant of the Marine Corps in coordination with the Chief of Naval Operations; and

WHEREAS, The Marine Corps Air Station Miramar employs approximately 12,500 Marines, sailors, and civilians; and

WHEREAS, The Marine Corps Air Station Miramar has positively impacted California's economy and has provided a great service to Americans; and

WHEREAS, It would be appropriate to recognize the service the Marine Corps Air Station Miramar provides to Americans by naming a portion of State Highway Route 15 in the County of San Diego as the Semper Fi Highway; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates the portion of State Highway Route 15 between State Highway Route 163 and Miramar Road in the County of San Diego as the Semper Fi Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author of this resolution for appropriate distribution.

---

#### RESOLUTION CHAPTER 41

Assembly Concurrent Resolution No. 131—Relative to the William Alexander Leidesdorff, Jr. Memorial Highway.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, William Alexander Leidesdorff, Jr. was a prominent civic leader and pioneer in the successful quest for California to become the 31st state in the United States. He was elected Treasurer of the City of San Francisco, owned the largest home in the city, constructed the first City Hotel, built the first commercial shipping warehouse, and donated the land to build the first public school in California; and

WHEREAS, In 1810, William Alexander Leidesdorff, Jr. was born in St. Croix, Virgin Islands, to Anna Marie Sparks, an African woman, and William Leidesdorff, Sr., a citizen of Denmark, and died in 1848 of brain

fever. He is buried near the entrance of the Old San Francisco Mission Dolores Sanctuary; and

WHEREAS, In 1841, William Alexander Leidesdorff, Jr. sailed the first United States shipping vessel, the Julia Ann, into the sleepy Mexican fishing Village of Yerba Buena, modern day San Francisco, to establish a world maritime center; and

WHEREAS, In 1843, William Alexander Leidesdorff, Jr. was naturalized as a Mexican citizen in order to facilitate acquiring a vast land grant from the Mexican authorities in the Sacramento Valley, and was an early advocate of creating dual United States citizenship; and

WHEREAS, In 1844, William Alexander Leidesdorff, Jr. obtained title to Rancho Rio de Los Americanos, well over 35,000 acres of prime real estate along the south bank of the American River. His global trade and commerce projects financed, developed, and helped stabilize the Sacramento Valley; and

WHEREAS, In 1845, William Alexander Leidesdorff, Jr. accepted the position of United States Vice-Consul to the Mexican Alta California region. By serving our nation in this capacity, he was the first African-American diplomat in history, and was affectionately known as the “African Founding Father of California”; and

WHEREAS, In 1846, William Alexander Leidesdorff, Jr. was an active leader in the Bear Flag Revolt during the Mexican-American War. His official reports contain cherished accounts of the United States acquisition of California from Mexico; and

WHEREAS, In 1847, William Alexander Leidesdorff, Jr. captained the first and only steamship in California prior to the Gold Rush of 1848, the Sitka. His maiden steam voyage up the Sacramento River is immortalized on the California State Seal and recognizes his vision for increased maritime transportation of California’s agricultural products to world markets; and

WHEREAS, In 1848, prior to his untimely death, William Alexander Leidesdorff, Jr. received official notification of vast quantities of gold on his immense cattle and wheat ranch along today’s State Highway Route 50 corridor; and

WHEREAS, It is a fitting tribute to the legacy of a great American pioneer that a portion of State Highway Route 50 be named the “William Alexander Leidesdorff, Jr. Memorial Highway”; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby officially designates the portion of State Highway Route 50 from Bradshaw Road to the eastern Sacramento County Line the William Alexander Leidesdorff, Jr. Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with

the signing requirements for the state highway system, showing the special designation, and upon receiving donations from the Leidesdorff Project and other nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 42

Assembly Concurrent Resolution No. 135—Relative to the Deputy Sheriff Stephen Sorensen Memorial Highway.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, Of all the promises that America offers none is more precious or illusive than the right to be free from crime and violence; and

WHEREAS, Californians are indebted every day to our peace officers, and we pay special tribute to their bravery and dedication and share in their pain when one of their members is killed in the line of duty; and

WHEREAS, The men and women of law enforcement have the unenviable task of guaranteeing the public's safety, and it is as difficult and dangerous as it is important, as evidenced by the death, at the age of 46, of Deputy Sheriff Stephen Sorensen of the Los Angeles County Sheriff's Department, who was killed in the line of duty on August 2, 2003, in Llano, while responding to a routine trespassing investigation on his "day off;" and

WHEREAS, Deputy Sorensen who was known as the "town sheriff" was the resident deputy for the Lake Los Angeles area and patrolled several sparsely populated communities at the edge of the Mojave Desert and he was the only full-time deputy responsible for 150 square miles; and

WHEREAS, He was a longtime Los Angeles resident and served 3 years in the United States Army as a military policeman; and

WHEREAS, Deputy Sorensen was renowned for working to better the community and for helping the people living there and performed his duty not for press or glory but for the betterment of his community; and

WHEREAS, It is appropriate to recognize the hazardous work, serious responsibilities, and strong commitment that Deputy Sorensen willingly accepted during his 12 years as a law enforcement officer; and

WHEREAS, Deputy Stephen Sorensen is remembered as a dedicated father to his son, Matthew, a loving husband to his wife, Christine, and

a man who committed his life and his career to Lake Los Angeles and the safety of his neighbors; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring,* That the Legislature hereby designates the portion of State Highway Route 138 from 136th Street to 195th Street as the Deputy Sheriff Stephen Sorensen Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 43

Assembly Concurrent Resolution No. 139—Relative to the Charles R. Drew University of Medicine and Science.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, The Charles R. Drew Postgraduate Medical School was founded in 1966 as a private, nonprofit entity; and

WHEREAS, In 1972, interns and residents were first admitted to the county-based residency programs operated by an academic partnership of the Martin Luther King, Jr. General Hospital in Los Angeles County and the Charles R. Drew Postgraduate Medical School; and

WHEREAS, Subsequently, the Charles R. Drew Postgraduate Medical School began, in 1981, an affiliation with the University of California at Los Angeles (UCLA) for an undergraduate medical education program; and

WHEREAS, In 1982, by the unanimous vote of the Board of Supervisors of Los Angeles County, the Martin Luther King, Jr. General Hospital and the Charles R. Drew University were officially named the Martin Luther King, Jr./Charles R. Drew Medical Center (King/Drew Medical Center); and

WHEREAS, The institution was renamed the Charles R. Drew University of Medicine and Science in 1987, and was accredited by the Western Association of Schools and Colleges in 1995; and

WHEREAS, Approximately 24 students each year are admitted to the undergraduate medical education program; and

WHEREAS, In addition to meeting the academic requirements for admission, successful candidates have demonstrated their commitment to improving the health of disadvantaged population groups by building a record or community service; and

WHEREAS, Located in the Watts-Willowbrook section of south Los Angeles, the faculty, residents, and students of Charles R. Drew University of Medicine and Science seek to address the health and social issues that strike hardest and deepest for poor and minority populations; and

WHEREAS, The Charles R. Drew University of Medicine and Science is dedicated to educating persons for a new era in urban medicine with the skills, knowledge, and commitment needed to improve the lives and health of the medically underserved; and

WHEREAS, Ninety percent of the patients who are treated at the King/Drew Medical Center are African-American or Latino; and

WHEREAS, The King/Drew Medical Center treats 11 percent of those involved in car accidents, assaults, and other life-threatening injuries in Los Angeles County; and

WHEREAS, The Martin Luther King, Jr. General Hospital in Los Angeles County and the Charles R. Drew University of Medicine and Science are responsible for the training of over 300 residents; and

WHEREAS, The residents at the King/Drew Medical Center are integral to both the delivery of patient care and the education and training of the students enrolled in the UCLA/Drew undergraduate medical education program; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby urges that the County of Los Angeles Martin Luther King, Jr. General Hospital, the Charles R. Drew University of Medicine and Science, and the University of California develop a joint advisory team to develop recommendations to the leadership of the Martin Luther King, Jr./Charles R. Drew Medical Center for training programs for residents at the Martin Luther King, Jr./Charles R. Drew Medical Center in order to achieve or maintain, or both, accreditation by the Accreditation Council of Graduate Medical Education; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to each member of the Board of Supervisors of the County of Los Angeles, to each member of the governing board of the Martin Luther King, Jr. General Hospital, to the President of the University of California, to each of the Regents of the University of California, to the President of the Charles R. Drew University of Medicine and Science, and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 44

Assembly Concurrent Resolution No. 147—Relative to California Holocaust Memorial Week.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, The Holocaust was a tragedy of proportions the world had never before witnessed; and

WHEREAS, More than 60 years have passed since the tragic events we now call the Holocaust transpired, in which the dictatorship of Nazi Germany murdered six million Jews as part of a systematic program of genocide known as “The Final Solution of the Jewish Question”; and

WHEREAS, Jews were the primary victims, but they were not alone. Five million others were murdered in Nazi concentration camps as part of a carefully orchestrated, state-sponsored program of cultural, social, and political annihilation under Nazi tyranny; and

WHEREAS, We must teach our children and future generations that the individual and communal acts of heroism during the Holocaust serve as a powerful example of how our nation and its citizens can, and must, respond to acts of hatred and inhumanity; and,

WHEREAS, We must always remind ourselves of the horrible events of the Holocaust and remain vigilant against hatred, persecution, and tyranny lest these atrocities be repeated; and

WHEREAS, We, the people of California, should actively rededicate ourselves to the principles of human rights, individual freedom, and equal protection under the laws of a just and democratic society; and

WHEREAS, Each person in California should set aside moments of his or her time every year to give remembrance to those who lost their lives in the Holocaust; and

WHEREAS, The United States Holocaust Memorial Council has designated the time period of April 15 through April 30, 2004, as the Days of Remembrance of the Victims of the Holocaust, including the International Day of Remembrance, known as Yom HaShoah on April 18, 2004; and

WHEREAS, According to Elie Wiesel, a Holocaust survivor and nationally recognized scholar, “... a memorial unresponsive to the future would violate the memory of the past”; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the time period of April 15 through April 30, 2004, be proclaimed “California Holocaust Memorial Week,” and that Californians are urged to observe these days of remembrance for victims of the Holocaust in an appropriate manner; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit sufficient copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 45

Assembly Concurrent Resolution No. 166—Relative to the Day of the Horse.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, The horse is a living link to the heritage and history of the State of California and the United States of America; and

WHEREAS, Without horses, the economy, history, and character of the State of California and the United States of America would be profoundly different; and

WHEREAS, The presence of the horse continues to permeate our society from movie screens to open land to our own backyards; and

WHEREAS, Horses are a vital part of our collective experience and, as such, deserve our protection and compassion; and

WHEREAS, With increasing pressure from modern society, all horses, wild and domestic, rely on humans for adequate food, water, and shelter; and

WHEREAS, Today, horses play a vital role in the economy of the State of California and the United States of America; and

WHEREAS, The Congressional Horse Caucus estimates the horse industry contributes well over \$100 billion to the American economy annually; and

WHEREAS, The University of California, Davis, reports that California equine activities support between 300,000 and 1 million horses; and

WHEREAS, The second Saturday in December should be specially set aside as the Day of the Horse to encourage all citizens to be mindful of the welfare of the horse and its contribution to our economy, heritage, and history; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature of the State of California hereby proclaims the second Saturday of every December, to be the Day of the Horse in the State of California, and calls upon all citizens to be mindful of the welfare of the horse and to recognize and appreciate the role of the horse in our history, heritage, and economy.

---

RESOLUTION CHAPTER 46

Assembly Concurrent Resolution No. 169—Relative to Postpartum Mood and Anxiety Disorder Awareness Month.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, Maternal health and, more specifically, the mental health of women before, during, and after childbirth is an issue of great concern to women and their families and is, therefore, of interest to the California Legislature; and

WHEREAS, Postpartum depression or postpartum mood disorder is a serious and debilitating disorder that affects childbearing women and their families; and

WHEREAS, Postpartum mood disorders can take many forms, including depression, anxiety, panic disorder, obsessive-compulsive disorder, and psychosis. Therefore, it is appropriate to use the broader, more accurate term of “postpartum mood and anxiety disorders” to describe the many levels and severities of this affliction, which can have potentially serious repercussions for the psychological, social, and physical health of mothers, children, and families; and

WHEREAS, It is critical that all Californians become aware of how common postpartum mood and anxiety disorders are, that it affects all categories of women, regardless of their age, race, or income level, that it can have a profound impact on the family, and that it is eminently treatable with medication, therapy, or both; and

WHEREAS, Studies have shown that up to 80 percent of women around the world will experience a change in their mental health after giving birth. This is a normal postpartum adjustment known as “baby blues”; and

WHEREAS, Between 10 and 20 percent of new mothers are affected by postpartum depression and may experience symptoms of depressed mood, inability to find pleasure in usually engaging activities, sleep disturbances, diminished concentration, appetite and weight loss, anxiety and panic attacks, feelings of guilt and worthlessness, suicidal thoughts, and fears about hurting the baby; and

WHEREAS, One to two out of every 1000 new mothers can experience postpartum psychosis, which may begin with manic states, hyperactivity, an inability to sleep, avoidance of the baby, and may lead to delusions, hallucinations, incoherence, and thoughts of harming the child or themselves; and

WHEREAS, We do not fully understand or recognize all factors contributing to postpartum mood and anxiety disorders, but the medical community believes that these disorders are caused by physiological factors, including hormone levels, and can be exacerbated by external

risk factors, including marital problems, sleep deprivation, and pre-existing mental illnesses; and

WHEREAS, Childbearing mental illness is often overlooked and is heavily stigmatized because new mothers are expected to be happy. Mothers suffering from a form of this disorder feel confused, ashamed, and isolated; and

WHEREAS, According to Postpartum Support International (PSI), a strong social support network that includes hotlines, Web sites, respite care, knowledgeable clergy, and resource and referral lists can greatly reduce the intensity and duration of symptoms of postpartum depression and can promote healing and recovery. Social support must include empathy, information, and practical help that leads women and their families to effective treatment and creates an environment in which women learn that they are not alone, they are not to blame, and they will get better; and

WHEREAS, The federal Melanie Stokes Postpartum Depression Research and Care Act directs the Secretary of Health and Human Services, the National Institute of Health, and the National Institute of Mental Health to expand and intensify research and related activities with respect to postpartum depression and postpartum psychosis. The act also directs the Secretary of Health and Human Services to provide grants for projects to establish, operate, and coordinate effective and cost-efficient systems for the delivery of essential services to individuals with postpartum depression or postpartum psychosis and their families; and

WHEREAS, The recent, highly publicized tragic deaths of children at the hands of their mothers who suffered from postpartum psychosis have emphasized the need for more awareness of the illness, improved referral processes, improved access to therapy, medication, and other services, more research into postpartum mood disorders and postpartum psychosis, and a greater understanding of how the justice system interacts with mothers who suffer from postpartum psychosis and are accused of a crime; and

WHEREAS, Many women are not adequately informed about, screened for, or treated for postpartum mood and anxiety disorders because they are uninsured or underinsured and lack access to comprehensive health care. Some women also face cultural and linguistic barriers; and

WHEREAS, There is ample opportunity for the diverse health care community, including therapists, counselors, psychologists, psychiatrists, nurses, childbirth educators, nurse midwives, nurse practitioners, doulas, social workers, health educators, breastfeeding instructors, and pediatricians, to make women aware of postpartum mood and anxiety disorders and identify at-risk women; and

WHEREAS, Hospitals, health plans, and insurance companies should establish policies to ensure that the diverse health care community utilizes opportunities that may occur during prenatal visits, prepared childbirth classes, labor and delivery, breastfeeding classes, postpartum well-baby checkups, and parenting classes, to make women aware of postpartum mood and anxiety disorders and identify at-risk women; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the month of May 2004 be proclaimed as “Postpartum Mood and Anxiety Disorder Awareness Month” in California; and be it further

*Resolved,* That increased education and awareness, improved access to health care, proper use of prenatal screening tools, and health care providers conversing with their patients about postpartum mood and anxiety disorders are all critical factors in identifying mothers-to-be who are at risk, and that prompt diagnosis and treatment and proper social support can effectively facilitate a mother’s recovery; and be it further

*Resolved,* That the State Department of Health Services and the State Department of Mental Health should work together to explore ways to improve women’s access to mental health care at the state and local levels, to facilitate increased awareness and education about postpartum mood and anxiety disorders, to explore and encourage the use of prenatal screening tools, and to improve the availability of effective treatment and support services; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 47

Assembly Concurrent Resolution No. 199—Relative to Disaster Resistance Week.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, Natural, technological, and human caused disasters in California have caused the loss of 640 lives, more than 21,000 injuries, and in excess of \$61 billion in property damage over the last 31 years; and

WHEREAS, The majority of California’s 35 million residents live in areas subject to these disasters; and

WHEREAS, An increasing population will put more Californians at risk from disasters in the future; and

WHEREAS, Disasters represent a growing global problem that recognizes no political, geographic or socioeconomic boundaries; and

WHEREAS, Many of our vulnerable individuals, organizations, and communities with special needs are unable to address their own preparedness, response, and recovery efforts; and

WHEREAS, Mitigation measures have been shown to be effective in saving lives and reducing property damage caused by disasters; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the California Legislature declares the week of May 2, 2004, as Disaster Resistance Week and calls upon state and local governments, corporations, educational institutions, nonprofit organizations, and members of the public to create new and improve partnerships in order to develop cost effective solutions to reduce the potential losses from future natural and human caused disasters, and to make every effort possible to implement mitigation measures; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 48

Assembly Concurrent Resolution No. 200—Relative to California Earthquake Preparedness Month.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, The Federal Emergency Management Agency estimates that of the nation's \$4.4 billion average annual capital losses due to earthquakes, three-fourths of those losses occur in California; and

WHEREAS, Major earthquakes registering magnitudes between 6.3 and 8.3 have occurred in California every 5.4 years, on average, for the past 200 years; and

WHEREAS, These earthquakes have resulted in loss of life, significant property damage, and indirect costs; and

WHEREAS, The United States Geological Survey estimates that there is a 62 percent chance that a major earthquake will strike an urban area in California within the next 30 years; and

WHEREAS, The majority of Californians live within 20 miles of a major earthquake fault; and

WHEREAS, Mitigating measures can save lives, reduce property damage, and alleviate traffic and economic dislocation caused by earthquakes; and

WHEREAS, The Federal Emergency Management Agency estimates that for every dollar spent on earthquake mitigation, \$2 to \$6 are saved if an earthquake occurs; and

WHEREAS, Education about the danger of earthquakes in California and the value of mitigation is the key to taking action at the city, county, and state levels of government; and

WHEREAS, It is important for these levels of government to work cooperatively with citizens, each other, the federal government, and other nations to mitigate damage caused by earthquakes; and

WHEREAS, It is vital that we examine the lessons learned from recent earthquakes in San Simeon, California, and Seattle, Washington, as well as in the nations of Iran, El Salvador, India, and Italy, and that we share our knowledge with other states and nations; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California hereby declares that the month of April is California Earthquake Preparedness Month and urges all Californians and government agencies to engage in education, evaluation of seismic hazards, mitigation, safety activities, and the exchange of information related to earthquake preparedness with other states and nations during that month; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 49

Assembly Concurrent Resolution No. 202—Relative to libraries.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, Libraries throughout California are centers for education, information, and enjoyment and provide Californians with the resources they need to live, learn, and work; and

WHEREAS, Libraries are places that provide opportunity to grow in mind, knowledge, and ability; and

WHEREAS, Libraries have a long tradition of free and equal access; and

WHEREAS, Libraries are a cornerstone of intellectual freedom and enrichment; and

WHEREAS, The value, significance, and magnitude of libraries in a democracy is incalculable; and

WHEREAS, The awareness of the importance of libraries must be encouraged, communicated, and advanced; and

WHEREAS, Libraries and library supporters across the United States will celebrate April 18 to 24, inclusive, 2004, as National Library Week; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California proclaims April 18 to 24, inclusive, 2004, as Library Week in California, calls upon all Californians to observe this week by recognizing the benefits of libraries, and encourages city, county, state, school, university, public, and private libraries to join in the national effort to support libraries and venerate the opportunities of knowledge and understanding that they provide to all people; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 50

Assembly Joint Resolution No. 57—Relative to the 31st anniversary of *Roe v. Wade*.

[Filed with Secretary of State May 3, 2004.]

WHEREAS, January 22, 2004, is the 31st anniversary of the historic United States Supreme Court decision in *Roe v. Wade* (1973) 410 U.S. 113, guaranteeing women reproductive rights, an occasion deserving of celebration and special public commendations; and

WHEREAS, The 1973 decision in *Roe v. Wade* established constitutionally based limits on the power of states to restrict the right of a woman to choose to terminate a pregnancy; and

WHEREAS, *Roe v. Wade* is one of the most significant Supreme Court decisions in the 20th century promoting women's rights; and

WHEREAS, Reproductive rights are central to the ability of women to exercise their full rights under federal and state law; and

WHEREAS, It is the right of every American woman to determine when, if, and with whom to have children, and how many children to have; and

WHEREAS, Women's ability to control their reproductive lives has facilitated their equal participation in the economic and social life of the nation; and

WHEREAS, The state should not interfere with a woman's decision to either bear a child or terminate a pregnancy through a safe and legal abortion; and

WHEREAS, Women should not be forced into illegal and dangerous abortions, as they often were prior to the *Roe v. Wade* decision; and

WHEREAS, During the first half of the 20th century, illegal abortions accounted for about 50 percent of all maternal deaths; and

WHEREAS, Roe v. Wade has reduced significantly the mortality rate for women terminating their pregnancies; and

WHEREAS, Roe v. Wade continues to protect the health and freedom of women throughout the United States; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California memorializes the Congress and the President of the United States to do all of the following:

(1) To protect and uphold the intent and substance of the 1973 United States Supreme Court decision in Roe v. Wade.

(2) Encourage all Americans to participate in the national celebration, “The March for Women’s Lives,” on April 25, 2004, to take place in Washington, D.C., in recognition of the Roe v. Wade decision’s historic importance in promoting women’s rights; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States and to all Members of the Congress of the United States.

---

## RESOLUTION CHAPTER 51

Senate Concurrent Resolution No. 35—Relative to United States Navy Lieutenant Commander Otis Vincent Tolbert Memorial Highway.

[Filed with Secretary of State May 5, 2004.]

WHEREAS, The Kings County Board of Supervisors has approved adoption of a resolution proposing that a section of State Highway Route 198 in Lemoore be named in honor of the late United States Navy Lieutenant Commander Otis Vincent Tolbert, a long-time Lemoore resident who was killed during the terrorist attacks on the Pentagon on September 11, 2001; and

WHEREAS, The section of State Highway Route 198 proposed to be named in honor of Otis Tolbert would stretch from 18th Avenue in Lemoore to 25th Avenue near Lemoore, and the portion of the highway that would bear his name directly correlates to his life, starting at Lemoore High School, his alma mater, and ending at the Lemoore Naval Air Station, a reference to his naval career; and

WHEREAS, A 1980 graduate of Lemoore High School where he was a track and field star, Otis Tolbert was awarded a football scholarship to California State University, Fresno (CSUF), where he played defensive end for the Fresno State Bulldogs football team, and graduated in 1985 with a degree in criminal justice; and

WHEREAS, After leaving CSUF, Otis Tolbert joined the United States Navy and advanced to the rank of Lieutenant Commander for the Defense Intelligence Agency; and

WHEREAS, Otis Tolbert was known for his signature smile, his strength, his leadership, and for being true to his word, and he was devoted to his family and friends and to his country; and

WHEREAS, Otis Tolbert was buried at Arlington National Cemetery in a military ceremony of honor with appropriate regalia for a respected and valued Naval officer; and

WHEREAS, Otis Tolbert is survived by his wife, Shari; his three children, Amanda, Brittany, and Anthony Tolbert; his parents, Otis and Nancy Tolbert; and his brothers, Daniel and Chris Tolbert; and

WHEREAS, The naming of the proposed section of State Highway Route 198 in Lemoore would be a fitting tribute to an individual who brought immense pride and distinction to the community, and who gave his life serving his countrymen; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the late United States Navy Lieutenant Commander Otis Vincent Tolbert, whose stellar service to the United States of America will long be remembered, be memorialized, and that the portion of State Highway Route 198 from 18th Avenue in Lemoore to 25th Avenue near Lemoore, California, be named the United States Navy Lieutenant Commander Otis Vincent Tolbert Memorial Highway in his honor; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 52

Senate Concurrent Resolution No. 45—Relative to the Frank and Elly Hartmann Memorial Bridge.

[Filed with Secretary of State May 5, 2004.]

WHEREAS, Frank and Elly Hartmann were pioneers in Middletown and the Coyote Valley area; and

WHEREAS, Frank and Elly Hartmann established and operated the Hartmann Ranch; and

WHEREAS, Frank and Elly Hartmann made many significant contributions to Middletown and the Coyote Valley area; and

WHEREAS, It is appropriate to recognize the service of Frank and Elly Hartmann by designating, in their honor, a bridge located on State Highway Route 29 in the community where they lived; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby officially designates the bridge located on State Highway Route 29 six miles north of Middletown, as the Frank and Elly Hartmann Bridge; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing these special designations, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 53

Senate Concurrent Resolution No. 46—Relative to Peace Officer Richard Perkins Memorial Highway.

[Filed with Secretary of State May 5, 2004.]

WHEREAS, Officer Richard E. Perkins of the Bishop Police Department was killed in the line of duty on August 15, 2001, when a truck struck his patrol car as he was making a turn in order to assist another law enforcement agency in pursuit of a possible drunk driver; and

WHEREAS, Officer Perkins was an 11-year veteran of the Bishop Police Department, was highly respected in the community he served, and is survived by his wife Cheryl and three children, Andrew, Pauli, and Kati; and

WHEREAS, Officer Perkins was the first police officer to die in the line of duty in the City of Bishop's 100-year history; and

WHEREAS, Officer Perkins was dedicated to family, friends, church, and the community, and was known for his work with the Bishop Mural

Society and as one of the founding members of the Bishop Police Mounted Unit; and

WHEREAS, It is appropriate to memorialize Officer Perkins' service and sacrifice by naming a portion of State Highway Route 395 in his honor; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly concurring,* That the Legislature hereby designates the portion of State Highway Route 395 from the southern city limits of Bishop to its intersection with Warm Springs Road in Inyo County as the Police Officer Richard Perkins Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 54

Senate Concurrent Resolution No. 66—Relative to California Western Monarch Day.

[Filed with Secretary of State May 5, 2004.]

WHEREAS, The western monarch butterfly overwinters from October through March in habitats along the Central Coast of California, which contains the only regular major overwintering habitats in the world for the western monarch butterflies; and

WHEREAS, The annual western monarch butterfly migration draws many visitors to the Central Coast, boosting tourism in the region at what is an otherwise slow time of year for the tourism industry; and

WHEREAS, The Central Coast of California is a unique environmental tourism destination that generates a large amount of revenue for the state and is a major source of employment; and

WHEREAS, The annual western monarch butterfly migration is studied and celebrated by school children in California and across the United States; and

WHEREAS, Recognition of a day dedicated to the western monarch butterflies will have a positive impact on educational programs and tourism in the state; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby declares February 5, 2004, and subsequent anniversaries thereafter, to be California Western Monarch Day; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 55

Senate Concurrent Resolution No. 73—Relative to Mosquito and Vector Control and West Nile Virus Awareness Week.

[Filed with Secretary of State May 5, 2004.]

WHEREAS, West Nile virus is a mosquito-borne disease that can result in debilitating cases of meningitis and encephalitis and death to humans, horses, avian species, and other wildlife; and

WHEREAS, In 2003, the virus killed 223 people throughout the country and sickened nearly 10,000 individuals; and

WHEREAS, The first three human West Nile virus cases due to exposure within our state were reported in southern California in 2003 and based on surveillance we know that the virus is now present throughout southern California (Imperial, San Diego, Riverside, Orange, Los Angeles, and San Bernardino Counties); and

WHEREAS, The State of California recognizes that West Nile virus poses a grave threat to the health and safety of Californians as early as this spring and for the foreseeable future; and

WHEREAS, Adequately funded mosquito and vector control, disease surveillance, and public awareness programs are the best way to prevent outbreaks of West Nile virus and other diseases borne by mosquitoes and other vectors; and

WHEREAS, Mosquitoes and other vectors, including, but not limited to, ticks, Africanized honey bees, rats, fleas, and flies, continue to be a source of human suffering, illness, death, and a public nuisance in California and around the world; and

WHEREAS, Excess numbers of mosquitoes and other vectors spread human, livestock, and wildlife diseases, reduce enjoyment of outdoor living spaces, both public and private, reduce property values, hinder outdoor work, and reduce livestock productivity; and

WHEREAS, Mosquitoes and other vectors can disperse or be transported long distances from their sources and are, therefore, a health risk and public nuisance; and

WHEREAS, Professional mosquito and vector control based on scientific research has made great advances in reducing mosquito and vector populations and the diseases they transmit; and

WHEREAS, Mosquito- and vector-borne viruses that can cause human illness or even death have been routinely found in mosquitoes and other vectors in over one-half of the counties in California; and

WHEREAS, Mosquitoes that are commonly found within California are known vectors of the West Nile virus, which has struck with deadly force throughout the United States in recent years; and

WHEREAS, Established mosquito- and vector-borne diseases such as plague, Lyme disease, and encephalitis, and new and emerging vector-borne diseases such as hantavirus, arenavirus, babesiosis, and ehrlichiosis cause illness and sometimes death every year in California; and

WHEREAS, Mosquito and vector control districts throughout the State of California work closely with the United States Environmental Protection Agency and the State Department of Health Services to reduce pesticides risks to humans, animals, and the environment while protecting human health from mosquito- and vector-borne diseases and nuisance attacks; and

WHEREAS, The public's awareness of the health benefits associated with safe, professionally applied mosquito and vector control methods will support these efforts, as well as motivate the public to eliminate mosquito and vector breeding sites on private property; and

WHEREAS, Educational programs are being developed to include schools, civic groups, private industry, and government agencies, in order to meet the public's need for information about West Nile virus, other diseases, and mosquito and vector biology and control; and

WHEREAS, Adequate funding for mosquito and vector control and for surveillance of vector-borne disease organisms is not being provided in many areas of the state; and

WHEREAS, Public awareness can result in reduced production of mosquitoes and other vectors on private, commercial, and public lands by responsible parties, avoidance of the bites of mosquitoes and other vectors when the risk of West Nile virus and other disease transmission is high, detection of human cases of mosquito- and vector-borne diseases that may otherwise be misdiagnosed for lack of appropriate laboratory testing, and the formation of mosquito or vector control agencies where needed; and

WHEREAS, Public awareness can result in action to provide adequate funding for existing mosquito and vector control agencies or in areas where there are no existing controls; and

WHEREAS, "Mosquito and Vector Control and West Nile Virus Awareness Week" will increase the public's awareness of the threat of

West Nile virus and other diseases and the activities of the various mosquito and vector research and control agencies working to minimize the health threat within California, and will highlight the educational programs currently available; and

WHEREAS, The Mosquito and Vector Control Association of California has designated the week of May 3 through May 9, 2004, as “Mosquito and Vector Control and West Nile Virus Awareness Week”; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the week of May 3 through May 9, 2004, is hereby designated Mosquito and Vector Control and West Nile Virus Awareness Week; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Governor, the Director of Health Services, and to the author for further distribution, as appropriate.

---

#### RESOLUTION CHAPTER 56

Assembly Concurrent Resolution No. 191—Relative to firefighters.

[Filed with Secretary of State May 10, 2004.]

WHEREAS, During the fire season of 2003, the State of California experienced one of the worst fire sieges in its history, one firefighter’s life was lost, over 750,000 acres of land in San Bernardino, Riverside, San Diego, Los Angeles, and Ventura Counties burned; and

WHEREAS, The Department of Corrections and the Department of the Youth Authority provided and supervised over 2,750 Conservation Camp inmates who worked over 1.5 million hours on hundreds of fires. They carried out their duties under the most difficult and dangerous conditions, including smoke, high temperatures, wind-driven flames, and steep rugged terrain; and

WHEREAS, Department of Corrections Conservation Camp staff and their inmate crews, the Department of the Youth Authority staff and their inmate crews, along with the Department of Forestry and Fire Protection, through valiant efforts and unwavering commitment, helped minimize the devastation to life, property, and natural resources; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That it is with great pride that the Legislature of the State of California honors the dedicated firefighters of the Department of Corrections, the Department of the Youth Authority, and the staff of the Department of Forestry and Fire Protection for their efforts during the

“Fire Sieges of 2003” that were truly beyond the call of duty; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 57

Assembly Concurrent Resolution No. 212—Relative to California Peace Officers’ Memorial Day.

[Filed with Secretary of State May 10, 2004.]

WHEREAS, May 7, 2004, is California Peace Officers’ Memorial Day, a day Californians observe in commemoration of those noble officers who have tragically sacrificed their lives in the line of duty; and

WHEREAS, Although California citizens are indebted to our California peace officers each day of the week, we make particular note of their bravery and dedication and we share in their losses on California Peace Officers’ Memorial Day; and

WHEREAS, California peace officers have a job second in importance to none, and it is a job that is as difficult and dangerous as it is important; and

WHEREAS, The peace officers of California have worked dutifully and selflessly on behalf of the people of this great state, regardless of the peril or hazard to themselves; and

WHEREAS, By the enforcement of our laws, these same officers have safeguarded the lives and property of the citizens of California and have given their full measure to ensure those citizens the right to be free from crime and violence; and

WHEREAS, Special ceremonies and observances on behalf of California peace officers provide all Californians with the opportunity to appreciate the heroic men and women who have dedicated their lives to preserving public safety; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Members designate Friday, May 7, 2004, as California Peace Officers’ Memorial Day, and urge all Californians to remember those individuals who gave their lives for our safety and express appreciation to those who continue to dedicate themselves to making California a safer place in which to live and raise our families.

---

## RESOLUTION CHAPTER 58

Assembly Concurrent Resolution No. 214—Relative to Children's Fitness and Nutrition Week 2004.

[Filed with Secretary of State May 10, 2004.]

WHEREAS, Recent evidence shows that early childhood is the most important developmental stage for establishing healthy eating and exercise patterns, which can prevent a lifetime of obesity and nutrition-related diseases; and

WHEREAS, The family plays a primary role in fostering eating and exercise habits. A child in a family that practices good nutrition and exercises regularly has a dramatically increased chance of being healthy. Yet, children's physical activity and eating habits have deteriorated over the last three decades; and

WHEREAS, Poor diet and physical inactivity are the leading preventable causes of cancer and the second cause of premature death, after tobacco use. Increased awareness about nutrition and physical fitness is an effective way of developing healthy eating and physical activity patterns among children; and

WHEREAS, The National Health and Nutrition Examination Survey (NHANES) shows that the occurrence of being overweight for 6 to 11 year olds increased fourfold between 1963 and 2000 and the occurrence of being overweight among adolescents from 12 to 19 years old increased more than threefold between 1966 and 2000; and

WHEREAS, The California Center for Public Health Advocacy analyzed data from the California Department of Education's 2001 California Physical Fitness Test and released a report in December 2002. The study shows that in 73 of the 80 Assembly Districts, at least one child out of five is overweight and that in 78 of the 80 Assembly Districts, at least one child out of four is unfit; and

WHEREAS, The University of California, San Diego, Medical School in 2000–01, found that by the age of 12, 30 to 60 percent of children in the United States show at least one risk factor of cardiovascular disease. Increasingly, overweight and obese children are experiencing health risks previously thought of as adult medical issues, such as type 2 diabetes, high blood pressure, high cholesterol levels, asthma, and certain types of cancer. The University of California, Berkeley, Department of Nutritional Sciences, in 2000, also found that overweight children are more likely to suffer from negative social and psychological effects, such as discrimination, low self-esteem, and poor body image; and

WHEREAS, The Legislature encourages its members to work with parents, schools, children's programs and organizations, and community

groups to support fitness and nutrition events that encourage children to learn about and participate in nutritious eating, physical activity, and self-esteem building during YEAH!: Youth Eating and Acting Healthy!: Children's Fitness and Nutrition Week 2004; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California proclaims the week of April 26 to April 30, 2004, to be YEAH!: Youth Eating and Acting Healthy!: Children's Fitness and Nutrition Week 2004; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 59

Assembly Concurrent Resolution No. 215—Relative to Children's Memorial Day.

[Filed with Secretary of State May 10, 2004.]

WHEREAS, Throughout America, tragic acts of violence against children are occurring with increasing frequency and senselessness, destroying innocent lives and devastating families and communities; and

WHEREAS, The National Clearinghouse on Child Abuse and Neglect estimates that as many as 5,000 children die each year from acts of violence and approximately three million children are reported abused and neglected in this country each year; and

WHEREAS, According to the American Academy of Pediatrics, children are being exposed to severe and chronic violence at younger ages, many as early as first and second grade, and very young children are at risk for physical injury and death when abused or neglected because of their physical vulnerability; and

WHEREAS, Children experience or observe violence within their families, homes, neighborhoods, schools, and through the media, and exposure to these forms of violence not only adversely affects children's personal health and safety, but also their psychological adjustment, social relations, and academic achievement; and

WHEREAS, Places considered the primary safe havens for children, such as the home and the neighborhood, become less protective and comforting to children who, as victims or witnesses, experience family, community, or media violence; and

WHEREAS, The effects of child abuse are felt by whole communities and the most effective efforts to prevent violence against children are

those in which multiple systems that impact children - families, schools, community organizations, religious groups, law enforcement agencies, and other such entities - collaborate to develop programs that promote children's well-being and build confidence and cooperation in all children so they feel safe at school and at home; and

WHEREAS, Communities must be committed to children's antiviolence programs that focus on reducing aggression both at home and in school through such ongoing efforts as establishing neighborhood watch groups, organizing walk-to-school programs, collaborating with nonprofit groups to create mentoring, tutoring, and after school sports programs, working with local media outlets to produce public service announcements that promote ways for communities to raise children to resist violence, and sponsoring community-based "TV violence turn-off" nights that encourage families to pull the plug on media violence; and

WHEREAS, Schools are well-positioned as a unique environment for fostering healthy development in children and preventing violence against youth because of sustained contact with teachers, parents, and school personnel who have extensive opportunities to observe children's behaviors, social and emotional functioning, academic achievement and cognitive development; and

WHEREAS, Schools are considered important sites in which to offer children's violence awareness initiatives that help children contribute to the life of their school and to the world at large through such meaningful activities as sponsoring essay and art contests that solicit children's ideas about crime prevention and working with students and teachers to develop conflict resolution or peer mediation programs; and

WHEREAS, The Child Welfare League of America has promoted every fourth Friday of April as Children's Memorial Flag Day as a symbol of the need to protect children from violence; and

WHEREAS, The people of the State of California believe in the celebration of life, diversity, and hope for the future through our children, and deplore and condemn acts of violence committed upon the children of our communities; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That in memory of California's children whose young lives were cut short by senseless violence, the fourth Friday of April of every year, beginning with Friday, April 23, 2004, is hereby proclaimed as "Children's Memorial Day" throughout the state; and be it further

*Resolved,* That the Superintendent of Public Instruction urge schools, in partnership with communities, to develop and integrate ongoing meaningful activities that promote children's violence prevention when they engage in flag-raising ceremonies to commemorate Children's Memorial Day; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 60

Assembly Concurrent Resolution No. 104—Relative to the Day of the Teacher.

[Filed with Secretary of State May 12, 2004.]

WHEREAS, An educated citizenry serves as the very foundation of our democracy; and

WHEREAS, Today's teachers mold the minds and train the workforce of the future; and

WHEREAS, No other profession touches as many persons with such a lasting effect; and

WHEREAS, Good teaching grows in value and pays dividends far beyond the classroom; and

WHEREAS, California long ago recognized the immeasurable value of our teachers and has designated the second Wednesday in May to be Day of the Teacher, a special observance that honors teachers and the teaching profession; and

WHEREAS, Day of the Teacher has been sponsored by the California Teacher's Association, the Parent Teacher Association, the California Federation of Teachers, the Association of California School Administrators, the California School Boards Association, the California Association of School Business Officials, School Services of California, and the Association of Mexican American Educators and was first recognized in 1982; and

WHEREAS, California has patterned its celebration after the traditional "El Dia del Maestro" festivities observed in Mexico and other Latin American countries; and

WHEREAS, Day of the Teacher should be a day for school districts, parents, public officials, and the community to recognize the dedication and commitment of teachers who are educating our children; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the day of May 12, 2004, be proclaimed Day of the Teacher; and be it further

*Resolved*, That the Legislature urges all Californians to observe the Day of the Teacher by taking the time to remember and honor all teachers who give the gift of knowledge through teaching; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 61

Senate Concurrent Resolution No. 60—Relative to Child Abuse Prevention Month.

[Filed with Secretary of State May 14, 2004.]

WHEREAS, Child abuse and neglect continue to pose a serious threat to our nation's children; and

WHEREAS, In 1996, more than 3,000,000 children were reported to child protective agencies in the United States as having suffered abuse and neglect; and

WHEREAS, It is estimated that for every three dollars spent on the prevention of child abuse and neglect, at least six dollars are saved that might be spent on child welfare services, special education services, medical care, foster care, counseling, and the housing of juvenile offenders; and

WHEREAS, Child abuse and neglect is a community problem and finding solutions depends on the involvement of people throughout the community; and

WHEREAS, The first organized statewide Blue Ribbon Campaign was originated in Norfolk, Virginia, by the grandmother of Bubba Dickinson, a child who was murdered by his mother's abusive boyfriend; and

WHEREAS, In recent years, the National Committee to Prevent Child Abuse, the California chapter and other local affiliates, United States military bases, and other groups have organized Blue Ribbon Campaigns to increase public awareness of child abuse and to promote ways to prevent child abuse; and

WHEREAS, The National Committee to Prevent Child Abuse, in all its forms, has proclaimed April as National Child Abuse Prevention Month; and

WHEREAS, Blue ribbons are displayed to increase awareness of child abuse and as a strategy for Child Abuse Prevention Month; and

WHEREAS, This year's campaign is entitled "In Loving Hands Kids Blossom"; and

WHEREAS, The flexibility of this program offers numerous opportunities to be innovative and to create partnerships within business, professional, and community organizations; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature does hereby acknowledge the month of April 2004, as Child Abuse Prevention Month, and encourage the people of the State of California to work together to support youth-serving child abuse prevention activities in their communities and schools during that month and throughout the year; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 62

Senate Concurrent Resolution No. 62—Relative to California Indian Heritage Month.

[Filed with Secretary of State May 14, 2004.]

WHEREAS, President George W. Bush proclaimed November 2003 as National American Indian Heritage Month in recognition of American Indians and Alaska Natives; and

WHEREAS, California Indians, through their rich cultural traditions and proud ancestry, have made vital contributions to the strength and diversity of our society; and

WHEREAS, In recognition of the sovereignty of the California Indian nations to be self-governing, self-supporting, and self-reliant, we are working to protect and enhance tribal resources; and

WHEREAS, As of the last census, over 330,000 American Indians were living in California, more than any other state; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature proclaims that the month of November 2004 be recognized as California Indian Heritage Month, encourages the observance of this event with activities that celebrate our uniqueness as Americans, and takes this opportunity to commend California Indian nations for their outstanding contributions to this great state; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 63

Senate Concurrent Resolution No. 74—Relative to California Fitness Month.

[Filed with Secretary of State May 14, 2004.]

WHEREAS, Exercise and fitness activities can increase self-esteem, boost energy, strengthen the heart and muscles, burn calories, and improve cholesterol levels; and

WHEREAS, Exercise and fitness activities are excellent ways to relieve stress, lower the risk of heart disease, hypertension, and diabetes, prevent bone loss, and decrease the risk of some cancers; and

WHEREAS, A person's fitness level has a dramatic effect on the body's ability to produce energy and to reduce fat; and

WHEREAS, A fit person burns a higher percentage of fat not only during activity, but also at rest, fit people have a higher proportion of muscle tissue, which burns more calories than fat, and those with more muscle mass can eat more calories and still maintain a healthy weight; and

WHEREAS, To lose weight and keep it off, one should do an enjoyable, moderate-intensity aerobic activity for 30 to 60 minutes, three to five times a week; and

WHEREAS, A person should also do muscle-strengthening exercises two or three times a week, and should concentrate on maintaining a balanced diet; and

WHEREAS, Most popular diet programs cannot produce long-lasting weight reduction results without exercise; and

WHEREAS, There is no age limit for physical activity. Among the elderly, exercise provides cardiovascular, respiratory, neuromuscular, metabolic, and mental health benefits; and

WHEREAS, Fitness activities have been shown to sharpen mental ability in all people, and to retard the aging process; and

WHEREAS, Maximizing one's energy level, increasing muscle mass, and reducing body fat increases one's chances of living a longer, healthier life; and

WHEREAS, More than 60 percent of American adults do not get the recommended amount of physical activity, and 25 percent of American adults are not active; and

WHEREAS, Nearly all American youths from 12 to 21 years of age are not vigorously active on a regular basis; and

WHEREAS, The rate of Type II diabetes has tripled among American children during the last five years; and

WHEREAS, The United States Surgeon General recently spoke about the "cultural transformation" necessary to reverse the negative health

effects of childhood obesity, and the threat to national security that obesity poses for the country; and

WHEREAS, The State Department of Education reports that a majority of California's children are not physically fit; and

WHEREAS, The California Association for Health, Physical Education, Recreation, and Dance will instill healthy values and practices within California's students by promoting National Physical Education and Sport Week, May 1 to 7, inclusive; and

WHEREAS, The Governor's Fitness Council, the State Department of Education, the Superintendent of Public Instruction, the Cancer Prevention Section in the Cancer Control Branch of the State Department of Health Services, the Capitol Nurses, and other public agencies will be working to maintain physical fitness and wellness as a priority for California during May 2004; and

WHEREAS, Along with California Fitness Month, the American Heart Association has declared May 2004, as Stroke Awareness Month, and will be collaborating in engaging Californians in fitness and health related activities; and

WHEREAS, Health care providers, insurance companies, fitness clubs, and others in the private sector will be collaborating to promote fit living and health improvement activities during May of 2004; and

WHEREAS, The Legislature seeks to advance the physical fitness of all Californians by educating them about the benefits of exercise and a balanced diet; and

WHEREAS, The Legislature will increase public awareness about the benefits of exercise and physical fitness by encouraging its members to host events in their districts that stimulate physical fitness and increase participation by Californians in activities that promote physical health and benefit both mental and physical well-being; and

WHEREAS, The Legislature encourages its members, as well as organizations, businesses, and individuals, to sponsor and attend physical fitness events that are informative, fun, and result in a number of Californians becoming physically fit; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby proclaims the month of May 2004, as California Fitness Month, and encourages all Californians to enrich their lives through proper diet and exercise; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 64

Senate Concurrent Resolution No. 75—Relative to Love Your Neighborhood Week.

[Filed with Secretary of State May 14, 2004.]

WHEREAS, Californians should all be able to be proud of our neighborhoods, parks, rivers, and beaches; and

WHEREAS, There is a strong connection between a clean neighborhood with improved public health, safety, aesthetics, and our quality of lives; and

WHEREAS, Clean neighborhoods are also good for business and property values; and

WHEREAS, Many individuals do their part, and more, to aid in the cleanup of their neighborhoods, whether by picking up trash when they see it or volunteering their time to cleanup efforts; and

WHEREAS, The trash in our streets and parks is washed down storm drains and into the ocean, where it can harm or kill wildlife, pollute our beaches and ocean, and endanger public health; and

WHEREAS, A clean shoreline is important to California’s tourism; and

WHEREAS, Hundreds of millions of dollars are spent each year in California on litter and graffiti removal by the state, local governments, and community groups; and

WHEREAS, The volunteer cleanup activities of residents in a community lead to a healthier neighborhood; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature proclaim the week of May 9 to May 15, 2004, as “Love Your Neighborhood Week,” in recognition of the importance of a clean neighborhood environment; and be it further

*Resolved,* That the Legislature encourages residents to include in their daily lives those activities that promote the goal of keeping our neighborhoods clean; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 65

Assembly Concurrent Resolution No. 182—Relative to Hmong-American Veterans Memorial Day.

[Filed with Secretary of State May 19, 2004.]

WHEREAS, Beginning in 1960, the United States Central Intelligence Agency recruited thousands of Hmong to fight against the Communist Pathet Lao and North Vietnamese Army regulars in Laos. A memo from Brigadier General Landsdale stated that “about 9,000 Hmong tribesman have been equipped for guerrilla operations, which they are now conducting with considerable effectiveness in Communist-dominated territory in Laos”; and

WHEREAS, As many as 100,000 Hmong were recruited and trained as Auto Defense Commonalty and Special Guerrilla Units to engage directly against the North Vietnamese Army. The United States relied heavily on the Special Guerrilla Units to interdict the flow of the communist reinforcement and war supplies on the Ho Chi Minh Trail; and

WHEREAS, The Hmong conducted tactical guerrilla actions, flew thousands of deadly combat missions in support of the Armed Forces and Central Intelligence Agency, and fought in conventional and guerrilla combat with extreme casualties. The Hmong, although outnumbered, fought against enemy forces to disrupt the flow of troops and war supplies along the Ho Chi Minh Trail; and

WHEREAS, The Hmong protected United States personnel, guarded United States Air Force radar installations, gathered critical intelligence about enemy operations, and undertook rescue missions to save the lives of downed United States pilots. About 40,000 Hmong lost their lives defending democracy and approximately 50,000 were seriously injured and disabled. Three thousand Hmong were missing in action; and

WHEREAS, Hmong soldiers died at 10 times the rate of American soldiers in the Vietnam War. However, because America’s war effort in Laos was covert, the sacrifices and service of the Hmong and Lao veterans are still largely untold; and

WHEREAS, The Hmong became refugees because the United States government encouraged them to fight for the United States. Thousands of Hmong soldiers’ families were evacuated to a United States airbase in Thailand in order to avoid bloody vengeance by communists of Laos and Vietnam; and

WHEREAS, After the conclusion of the war, thousands of Hmong soldiers were victims of acts of retribution and atrocities by the Pathet Lao and North Vietnamese, causing hundreds of thousands of Hmong to flee to neighboring Thailand and become refugees; and

WHEREAS, Approximately 50,000 Hmong veterans reside in the United States and 150,000 Hmong and Laotian-born children graduated from United States schools. However, little is known or taught in the United States about the Hmong history and contributions to the United States; and

WHEREAS, Hmong-Americans will not know the history of the Hmong's honorable service to the United States unless the Hmong are commemorated; and

WHEREAS, State and local governments have issued proclamations declaring May 15 as Lao and Hmong Veterans of America Day; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby proclaims May 15, as Hmong-American Veterans Memorial Day, a special time to promote, publicize, and increase awareness of the importance of the Hmong in United States history, to commemorate Hmong History Month, and to afford an opportunity for people to recognize the service and sacrifice of the Hmong with appropriate ceremonies and activities; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 66

Assembly Concurrent Resolution No. 188—Relative to Arthritis Awareness Month.

[Filed with Secretary of State May 19, 2004.]

WHEREAS, The success of our nation depends upon a population that is healthy, reasonably free of pain, and functionally independent throughout their lifespan; and

WHEREAS, Arthritis includes more than 100 diseases and conditions affecting joints and connective tissues, including osteoarthritis, rheumatoid arthritis, fibromyalgia, Lyme disease, and gout; and

WHEREAS, Arthritis affects close to 40 million Americans, over one-half of whom are female; and

WHEREAS, Severe arthritis has crippled nearly 7 million of the 40 million people afflicted; and

WHEREAS, An estimated 27 percent of Californians have some form of arthritis; and

WHEREAS, A disproportionate number of older Californians, or an estimated 44 percent of adults over 65 years of age, are affected by arthritis. However, arthritis affects, not only the elderly, but also middle-aged men and women and children. In fact, arthritis is the leading cause of disability for people 15 years of age and over, and is associated with poorer physical health and poorer mental health; and

WHEREAS, Arthritis costs the American economy roughly \$63 billion each year, and costs California nearly \$32 billion each year, with

an estimated \$23.2 billion spent on direct medical care, and \$8.3 billion due to lost wages; and

WHEREAS, Arthritis is not necessarily an inevitable part of the aging process; rather, effective methods exist to prevent, delay the onset of, and manage the symptoms of, arthritis; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the California State Legislature proclaims the month of May 2004, as Arthritis Awareness Month; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 67

Assembly Concurrent Resolution No. 218—Relative to Teacher Appreciation Week.

[Filed with Secretary of State May 19, 2004.]

WHEREAS, An educated citizenry serves as the very foundation of our democracy; and

WHEREAS, Today's teachers mold the minds and train the workforce of the future; and

WHEREAS, No other profession touches as many persons with such a lasting effect; and

WHEREAS, Good teaching grows in value and pays dividends far beyond the classroom; and

WHEREAS, An Arkansas teacher, Ms. Mattye Whyte Woodridge, began corresponding with political and educational leaders as early as 1944 about the need for a national day honoring teachers, including Eleanor Roosevelt, who persuaded the 81st Congress to proclaim a National Teacher Day in 1953; and

WHEREAS, In the late 1970s, the National Education Association lobbied Congress on behalf of creation of a national day celebrating teachers. Congress declared March 7, 1980, as National Teacher Day; and

WHEREAS, According to National Education Association President Bob Chase, National Teacher Day is an opportunity to express concern about the nation's current teacher shortage and stress the need to make teaching a viable career option for the next generation; and

WHEREAS, Teacher Appreciation Week is a time to honor teachers and recognize the lasting contributions they make to our lives; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring,* That the week of May 9 through May 15, 2004, be designated as Teacher Appreciation Week; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 68

Assembly Joint Resolution No. 41—Relative to psychotropic drugs and youth.

[Filed with Secretary of State May 19, 2004.]

WHEREAS, Federal legislation, known as the Pediatric Research Equity Act of 2003 (S 650), was introduced in the Senate of the United States on March 18, 2003, passed by Congress in July, 2003, and signed by the President on December 3, 2003; and

WHEREAS, The purpose of the Pediatric Research Equity Act of 2003 is to provide the Food and Drug Administration (FDA) with clear authority to require pediatric studies of drugs to ensure their safe and effective use for children and the act applies to all medications whose intended use in pediatrics is the same as adults, thus ensuring complete information about the effects of the drug on children; and

WHEREAS, The Pediatric Research Equity Act is landmark legislation that gives the FDA the full authority to require drug manufacturers to test new medicines in children and the full power to order testing of older drugs, including psychiatric medications, that are widely prescribed to children if companies do not conduct studies voluntarily; and

WHEREAS, The Pediatric Research Equity Act will provide child and adolescent psychiatrists with safety and efficacy information about medications they prescribe for children and adolescents with mental illnesses; and

WHEREAS, There are an estimated six million children in the United States between the ages of six and 18 years of age taking psychotropic drugs, including stimulants such as Ritalin, antidepressants such as Paxil, Prozac, or Zoloft, and amphetamines such as Dexedrine; and

WHEREAS, The Pediatric Research Equity Act is timely legislation, especially in light of a recent study published in the Archives of Pediatrics and Adolescent Medicine that identified a rapid increase in the proportion of children and adolescents in the United States taking all types of psychiatric medications from the mid-1980s to the mid-1990s and that spotlighted the relative lack of knowledge about the unknown

long-term effects of these medications on the pediatric and adolescent population; and

WHEREAS, The Pediatric Research Equity Act will prompt the development of a solid body of long-term research and testing that is needed to determine the long-term safety of psychiatric medications in light of earlier ages of initiation and longer duration of treatment and that is needed to examine drug concentrations in body fluids and tissues over time in children and adolescents to determine the appropriate dosage and frequency for youth of different ages and body sizes; and

WHEREAS, Prior to the enactment of the Pediatric Research Equity Act and, as cited in the landmark 2000 Report of the U.S. Surgeon General on Mental Health, physicians, specifically child and adolescent psychiatrists, relied on data from studies in adults, any clinical or anecdotal reports of use in child and adolescent patients, studies conducted outside the United States, and the experience of colleagues when making decisions to prescribe drugs, including psychotropic medications, to the pediatric and adolescent population; and

WHEREAS, When prescribed appropriately by a psychiatrist, preferably a child and adolescent psychiatrist, taken as prescribed, and used in conjunction with a comprehensive treatment plan that includes psychotherapy, medication may reduce or eliminate symptoms and improve the daily functioning of children and adolescents diagnosed with psychiatric disorders, and

WHEREAS, The Pediatric Research Equity Act is important legislation that will raise awareness that, because children and adults react to drugs in different ways, trying to calculate dosages on the basis of what is appropriate for adults risks over- and under- medicating children; and

WHEREAS, According to the American Academy of Pediatrics, only approximately 25 percent of all drugs on the market today have been tested or labeled for safe and effective use in children; and

WHEREAS, According to the FDA, pediatric testing has been done on 91 medications, which is far less than the 400 drugs for which the agency has requested studies in children; and

WHEREAS, As a result of the Pediatric Research Equity Act, increased testing and research on drugs prescribed for children will help guide sound treatment planning, increase access to more effective treatment options for children and adolescents living with physical and mental illnesses, and destigmatize child and adolescent mental illnesses; and

WHEREAS, Children are a unique population with special medical needs and access to drugs that have been properly tested for pediatric use will ensure that they are safe and will work to ease children's pain and suffering or make them healthy; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California commends the Congress and the President of the United States for enacting the landmark Pediatric Research Equity Act of 2003 and thereby recognizing the importance of testing the safety and effectiveness of drugs for pediatric use, a victory for children's health and well-being; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Commissioner of the Food and Drug Administration, to the Secretary of Health and Human Services, and to each Senator and Representative from California in the Congress of the United States.

---

#### RESOLUTION CHAPTER 69

Assembly Concurrent Resolution No. 50—Relative to Public Service Recognition Week.

[Filed with Secretary of State May 26, 2004.]

WHEREAS, Public employees at every level of government faithfully serve their fellow Californians; and

WHEREAS, There are approximately 1.2 million employees in local government in California, over 400,000 employees in state government, and numerous civilian and military employees of the federal government based in California; and

WHEREAS, Californians are aware of the many contributions public employees have made to the quality of their lives, in occupations that run the gamut from accountants to zoologists, including teachers, scientists, police officers, court employees, nurses, custodians, engineers, food inspectors, and social workers, among countless others; and

WHEREAS, The state values a professional civil service whose highest principle is duty to the public, whose foremost commitment is to excellence, and whose experience and expertise are a resource to be used and respected for the benefit of all Californians; and

WHEREAS, The millions of workers who serve at all levels of government in California are men and women of knowledge, ability, and integrity who deserve to be recognized for their dedicated service; and

WHEREAS, The Legislature, pursuant to Resolution Chapter 22 of the Statutes of 1999, has designated the first Monday of May to the following Sunday of May, inclusive, each year as "Public Service Recognition Week"; and

WHEREAS, Pursuant to Resolution Chapter 22 of the Statutes of 1999, for the current calendar year the week of May 3 through May 9, 2004, is designated as Public Service Recognition Week in California to honor these employees and to provide a dual opportunity to pay tribute to our public employees and to inform the people of California about the scope and importance of public service, including the range of employment opportunities available to our young people; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby recognizes the week of May 3 through May 9, 2004, as Public Service Recognition Week to honor those individuals who devote their careers to professional civil service, and encourage the people of the state, counties, cities, and special districts to observe this week with appropriate programs, ceremonies, and activities.

---

#### RESOLUTION CHAPTER 70

Assembly Concurrent Resolution No. 205—Relative to Autism Awareness Month.

[Filed with Secretary of State May 26, 2004.]

WHEREAS, The Autism Society of America, Cure Autism Now, the National Alliance for Autism Research, Unlocking Autism, and numerous other organizations commemorate April as National Autism Awareness Month; and

WHEREAS, Autism is a developmental disorder that is typically diagnosed during the first three years of life and limits an individual's ability to communicate and interact with others; and

WHEREAS, Autism is four times more likely to occur in boys than in girls, but can affect anyone, regardless of race, ethnicity, or other factors; and

WHEREAS, Only 10 years ago, it was estimated that autism affected one out of 10,000 children. Two years ago, it was estimated that autism affected one out of 500 children. Current estimates are that autism affects one out of 300 children nationwide and, in some areas of the country, the rate is as high as one out of 150 children; and

WHEREAS, In California we are adding to the developmental services system, on average, eight new children with autism a day, seven days a week; and

WHEREAS, The diagnosis and treatment of autism may require assessment and intervention by a multidisciplinary team of experts; and

WHEREAS, The early intervention behavior analysis programs have shown that a program of intensive early intervention treatment that focuses on a multidisciplinary approach, relying in large part on family and community participation can produce a positive outcome; and

WHEREAS, Current research being conducted into the biological causes and treatment regimens for autism, like that being undertaken at the Medical Investigation of Neurodevelopmental Disorders (M.I.N.D.) Institute at the University of California, Davis, are showing great promise and should be encouraged and supported; and

WHEREAS, The University of California, Irvine, Department of Pediatrics, has developed the "For O.C. Kids" project to address the need for increased awareness and intervention for children with developmental disorders, particularly autism; and

WHEREAS, Family-based organizations provide invaluable resources and support for people with autism and their families; and

WHEREAS, People with autism need additional special education teachers, curriculum, behavioral specialists, occupational speech therapists, and medical professionals to ultimately enable them to function in the least restrictive environment; and

WHEREAS, Parental involvement, community integration, early intervention, increased acceptance of people with special needs, and systematic treatment are all key components that would help make a more favorable future likely for people with autism; and

WHEREAS, Heightened awareness of and education about autism helps to achieve these components; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby proclaims the month of April 2004 as Autism Awareness Month and acknowledges the contributions made in the area of early autism intervention treatment by experts in the field as well as the families involved; and be it further

*Resolved,* That the Legislature recognizes and commends the parents and relatives of children with autism for their sacrifice and dedication in providing for the special needs of children with autism and for absorbing significant financial costs for specialized education and support services; and be it further

*Resolved,* That the Legislature supports the goal of increasing federal funding for aggressive research to learn the root causes of autism, identify the best methods of early intervention and treatment, expand programs for individuals with autism across their lifespan, and promote understanding of the special needs of people with autism; and be it further

*Resolved,* That the Legislature continues to support research into the causes and treatment of autism at the University of California, Davis M.I.N.D. Institute; and be it further

*Resolved*, That the Legislature recognizes that the University of California, Davis M.I.N.D. Institute is unique in investigating autism and other neurodevelopmental disorders, and that collaborations between researchers and scientists at the University of California, Davis bring a wealth of resources to study the gamut of neurodevelopmental disorders and to design and test potential treatments; and be it further

*Resolved*, That the Legislature commends the United States Department of Health and Human Services for the swift implementation of the Children's Health Act of 2000, particularly for establishing four "Centers of Excellence" at the Centers for Disease Control and Prevention to study the epidemiology of autism and related disorders and the proposed "Centers of Excellence" at the National Institutes of Health for autism research; and be it further

*Resolved*, That the Legislature stresses the need to begin early intervention services soon after a child has been diagnosed with autism, noting that early intervention strategies are the primary therapeutic options for young people with autism, and early intervention significantly improves outcomes for people with autism and can reduce the level of funding and services needed later in life; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, the State Department of Developmental Services, Area Board III, the State Department of Education, local chapters of the Autism Society, regional centers, the Association of Regional Center Agencies, Protection and Advocacy, Inc., the University of California, Davis M.I.N.D. Institute, "For O.C. Kids," the United States Department of Health and Human Services, the National Institutes of Health, the Centers for Disease Control and Prevention, the California School Boards Association, the State Council on Developmental Disabilities, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 71

Assembly Concurrent Resolution No. 207—Relative to school health.

[Filed with Secretary of State May 26, 2004.]

WHEREAS, Every child must be ready to learn, having their basic needs first met so that they may achieve optimal physical, emotional, social, and educational development and be prepared for full participation in society; and

WHEREAS, Through public schools, communities can work together in unprecedented ways to eliminate barriers to learning and to provide access to health care for children and families; and

WHEREAS, California's credentialed school nurses are pivotal members of a coordinated school health system, delivering services to children and eliminating health disparities and barriers and supporting academic success for all children; and

WHEREAS, School nurses provide vital links between public and private resources and programs; collaboration between schools and health and human service agencies to bring school and community services to schools; and support efforts to connect families to insurance programs to meet their needs; and

WHEREAS, School nurses create and maintain safe school environments; provide mandatory health education, health screenings, and immunizations; deliver early intervention services; design wellness-driven programs; and assist pupils with chronic and acute illnesses and special needs as they transition from home to school; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the California Legislature hereby proclaims May 12, 2004, as School Nurse Day to support the learning and health needs of California's children to ensure academic success; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a suitably prepared copy of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 72

Assembly Concurrent Resolution No. 208—Relative to State Parks Month.

[Filed with Secretary of State May 26, 2004.]

WHEREAS, California state parks contain the largest and most diverse natural and cultural heritage holdings of any state agency in the country; and

WHEREAS, Over 86 million people annually visit treasures including the redwood, rhododendron, and wildlife preserves; state beaches; recreation and wilderness areas; and reservoirs and historic parks; and

WHEREAS, The California state parks system manages the state's finest coastal wetlands, estuaries, beaches, and dune systems, and

collaborates with local communities to invest in urban parks and recreational venues; and

WHEREAS, California state parks comprise over 1.4 million acres, with over 300 miles of coastline, nearly 900 miles of lake and river frontage, over 15,000 campsites, and over 3,700 miles of hiking, biking, and equestrian trails; and

WHEREAS, California state parks host nearly 500 educational, interpretive, and multicultural events annually, along with over 125,000 interpretive programs annually that are attended by over 3,000,000 people, and the parks provide nearly 4,500,000 visitor hours of public education; and

WHEREAS, The commitment and dedication of California's state park rangers, staff, and volunteers enhance both visitors' experiences and the park resources they preserve and protect, even as their work is made more difficult because of the budget challenges our great state is currently facing; and

WHEREAS, State Parks Month, which is celebrated in the month of May, promotes awareness of the natural environment and increases the use of state parks; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That May 2004 is proclaimed to be State Parks Month, and that the Legislature encourages all Californians to participate in activities held throughout the month of May to commemorate this observance.

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 73

Assembly Concurrent Resolution No. 210—Relative to California SAFE KIDS Week.

[Filed with Secretary of State May 26, 2004.]

WHEREAS, Drowning is the leading cause of unintentional injury death to children ages 1 to 4 years old and the third leading cause of death for children ages 5 to 12 years old and less than 1 year old in the State of California; and

WHEREAS, In 2001, 123 children died as the result of unintentional drowning in California, and

WHEREAS, In 2001, an additional 404 children were treated in hospital emergency rooms for all types of drowning and near-drowning incidents in California; and

WHEREAS, Childhood drownings and near-drownings can happen in a matter of seconds; and

WHEREAS, As many as 20 percent of near-drowning survivors suffer severe, permanent neurological disability, often resulting in costs to the taxpayer of millions of dollars in medical benefits; and

WHEREAS, The National SAFE KIDS Campaign, in partnership with founding sponsor Johnson and Johnson, is launching a national safety awareness initiative, “Splash Into Safety,” during National SAFE KIDS Week from May 1 through May 8, 2004; and

WHEREAS, A national advertising campaign featuring a “Water Safety Checklist for Parents and Children” will be distributed through 60,000 retail stores and newspapers nationwide; and

WHEREAS, During National SAFE KIDS Week, the campaign’s 23 California chapters and coalitions will host safety fairs and other community events throughout the state to provide parents, caregivers, and children the opportunity to learn more about drowning prevention and how to keep safe in and around water; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the week of May 1 through May 8, 2004, is declared California SAFE KIDS Week, in support of the activities of the National SAFE KIDS Campaign during National SAFE KIDS Week; and be it further

*Resolved,* That Californians are encouraged to participate in the state and local activities planned for the observance of that week; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 74

Assembly Concurrent Resolution No. 220—Relative to Black April Memorial Week.

[Filed with Secretary of State May 26, 2004.]

WHEREAS, April 30, 2004, marks the 29th anniversary of the fall of Saigon on April 30, 1975, to communism; and

WHEREAS, For many Vietnam and Vietnam-era veterans who were directly involved in the war and Vietnamese Americans who have settled in the United States, the Vietnam War was a tragedy full of great suffering and the loss of American, Vietnamese, and Southeast Asian lives; and

WHEREAS, Fifty-eight thousand one hundred sixty-nine people were killed and 304,000 wounded out of the 2.59 million people who served in the Vietnam War. One out of every 10 Americans who served in Vietnam became a casualty of war; and

WHEREAS, After the fall of Saigon, over 135,000 Vietnamese fled to the United States, including former military and government officials and Vietnamese who had worked for the United States during the war and their families; and

WHEREAS, Thousands of people took boats in order to leave Vietnam in the late 1970s to mid-1980s. The successful ones reached refugee camps in Thailand, Malaysia, Indonesia, the Philippines, and Hong Kong, while approximately one-half of the people fleeing Vietnam perished at sea; and

WHEREAS, According to the United States Census for 2000, 447,032 Vietnamese live in California, with the largest concentration of Vietnamese found outside of Vietnam located in Orange County; and

WHEREAS, We must teach our children and future generations important lessons from the Vietnam War, including how the plight of the Vietnamese refugees following the end of war serve as a powerful example of the values of freedom and democracy; and

WHEREAS, We, the people of California, should actively rededicate ourselves to the principles of human rights, individual freedom, and equal protection under the laws of a just and democratic world. Californians should set aside moments-of-time every year on April 30 to give remembrance to the soldiers, medical personnel, and civilians who died during the Vietnam War era in pursuit of freedom; and

WHEREAS, Vietnamese American communities throughout California will commemorate April 30, 2004, as Black April, a day of remembrance; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That in recognition of the great tragedy and suffering and lives lost during the Vietnam War era, April 23, 2004, through April 30, 2004, shall be proclaimed Black April Memorial Week, a special time for Californians to remember the countless lives lost during the Vietnam War era and to hope for a more humane and just life for the people of Vietnam; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 75

Assembly Concurrent Resolution No. 227—Relative to recognizing May 2004 as Asian and Pacific Islander American Heritage Month.

[Filed with Secretary of State May 26, 2004.]

WHEREAS, The earliest Asian Americans immigrated to the United States in the 1800s; and

WHEREAS, Asian and Pacific Islander Americans have played a critical role in the social, economic, and political development of California throughout its history; and

WHEREAS, The 4.22 million Asian and Pacific Islander Americans in California are one of the fastest growing ethnic populations in the state; and

WHEREAS, Asian and Pacific Islander Americans represent over 12 percent of California's population and represent ancestries that include Burmese, Cambodian, Chinese, East Indian, Filipino, Guamanian, Hawaiian, Hmong, Indonesian, Iu-Mien, Japanese, Korean, Laotian, Singaporean, Thai, Tongan, and Vietnamese; and

WHEREAS, Asian and Pacific Islander American entrepreneurs have led many of California's businesses to the pinnacle of their respective industries; and

WHEREAS, Asian and Pacific Islander American communities throughout California actively promote their cultural heritage and promote cross-cultural understanding; and

WHEREAS, Asian and Pacific Islander Americans will continue to be an important part of California's diverse tapestry of cultures and ideas; and

WHEREAS, Asian and Pacific Islander American immigrants have contributed greatly to California's economic success, rural growth, and urban development; and

WHEREAS, Asian and Pacific Islander American refugees have revitalized many of California's communities, while bringing in new ideas and economic opportunities; and

WHEREAS, Asian and Pacific Islander American immigrants and refugees had to overcome tremendous odds and cultural barriers to establish a better life for their families; and

WHEREAS, Asian and Pacific Islander Americans have a proud legacy of service and dedication to the state and to the United States; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature commends Asian and Pacific Islander Americans for their notable accomplishments and outstanding service to

the state, and recognizes the month of May 2004 as Asian and Pacific Islander American Heritage Month; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 76

Assembly Concurrent Resolution No. 140—Relative to Brown v. Board of Education and Equality in Education Day.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, In 1896 the United States Supreme Court ruled in *Plessy v. Ferguson* (1896) 163 U.S. 537 that the segregation of the races is legal as long as facilities are “separate but equal”; and

WHEREAS, This decision legitimized segregated schools; and

WHEREAS, Education is the passport of opportunity which must be equally available for all; and

WHEREAS, The National Association for the Advancement of Colored People (NAACP), the oldest civil rights organization in the country, undertook the awesome challenge of dismantling a system that had been practiced since the first slaves were brought to the country and legally sanctioned for almost 60 years; and

WHEREAS, In 1952 and 1953 the United States Supreme Court heard oral arguments on consolidated cases on appeal from U.S. District Courts of Kansas, Delaware, Virginia, and South Carolina under the name *Brown v. Board of Education of Topeka* (1954) 347 U.S. 483 alleging that “separate but equal” schools were, in fact, never equal and therefore in violation of the right to equal protection, guaranteed by the 14th amendment to the United States Constitution; and

WHEREAS, The arguments were presented on behalf of the NAACP by its Chief Counsel, Thurgood Marshall, who eventually became the first African-American U.S. Supreme Court Justice; and

WHEREAS, Mr. Marshall argued that segregated schools, many of which were substandard, were psychologically damaging to black children, causing low self-esteem and low self-worth, inherently depriving them of equal protection under the law provided by the 14th amendment to the United States Constitution, and under that amendment states had no valid reason to segregate and “use race as a factor in affording educational opportunities to its citizens”; and

WHEREAS, In 1953, U.S. Supreme Court Chief Justice Fred Vinson, who had earlier declined to overturn the *Plessy v. Ferguson* decision, died and he was replaced by California Governor Earl Warren; and

WHEREAS, Chief Justice Earl Warren wrote that “education is perhaps the most important function of state and local governments,” and he persuaded each of the eight other justices that even if schools were theoretically equal, the effects of segregation on black students “generates a feeling of inferiority as to their status in the community that may affect their hearts and minds in a way unlikely to be ever undone”; and

WHEREAS, On May 17, 1954, the United States Supreme Court in *Brown v. Board of Education* unanimously overturned the “separate but equal” doctrine of law; and

WHEREAS, This highly controversial decision became the legal impetus to school desegregation throughout the United States and one of the most profound social revolutions in the United States; and

WHEREAS, The reaction to the *Brown v. Board of Education* decision fueled emotions from both sides of the segregation argument, leading to the Little Rock Nine and prosegregationists blocking the entrances of public learning institutions to black students; and

WHEREAS, The activism generated to implement the *Brown v. Board of Education* decision was a catalyst to the Civil Rights Movement for equality that gained momentum in the 1960s which led to further desegregation of public facilities and which continues today; and

WHEREAS, The fight for equality in education continues; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature commemorates the historic *Brown v. Board of Education* decision which is considered one of the landmark U.S. Supreme Court decisions of the 20th century; and be it further

*Resolved*, That May 17, 2004, be observed as “*Brown v. Board of Education and Equality in Education Day*” and that the day be appropriately observed; and be it further

*Resolved*, That the State Department of Education is urged to provide model instructional materials to schools that encourages schools to observe the *Brown v. Board of Education* decision with appropriate educational activities that help pupils understand the importance of tolerance, humanity, and equality of opportunity; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 77

Assembly Concurrent Resolution No. 203—Relative to the California National Guard “Adopt an Armory” program.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, The California National Guard’s armories are in desperate need of repair. The Facility Directorate at the Joint Forces Headquarters, Office of the Adjutant General, estimates that more than \$30 million in repairs and upgrades are needed collectively for the 119 armories; and

WHEREAS, When soldiers return to their home armories, many will return to duty conditions that are in many ways not much better than those under which they served during their deployment in Iraq and Afghanistan; and

WHEREAS, The National Guard created the California National Guard Strategic Planning Council to address long range plans and policy for the army and national guard. After completing a comprehensive review of armories, the Strategic Planning Council created the “Adopt an Armory” program; and

WHEREAS, The concept of the “Adopt an Armory” program involves getting communities to be partners with local armories so both communities and armories benefit. The armory is renewed, and in return, the community is able to utilize the facility for projects, events, and activities; and

WHEREAS, There are three ways to adopt an armory under the program: (1) an individual or community group may volunteer labor and materials to upgrade an existing armory; (2) local contractors, suppliers, or professionals may donate resources, expertise, or services; and (3) the armory’s soldiers may improve their armory with communitywide donations and resources; and

WHEREAS, The “Adopt an Armory” program is still in its infant stages, with volunteers coming forward at the Indio, Torrance, and Banning armories. The Riverside CBS television station took the lead in adopting armories in Indio and Banning, and prominent corporations and Riverside businesses are also stepping forward to upgrade the armories; and

WHEREAS, The Mayors of Indio, Banning, and Corona have pledged to support the restoration of armories, with the assistance of Senator Battin and Assembly Members Bogh, Benoit, and Garcia; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California commend the California National Guard Strategic Planning Council for its initiative*

in creating the “Adopt an Armory” program and its dedication to the men and women serving in the California National Guard armories; and be it further

*Resolved*, That the Legislature urges the members of the public to support the “Adopt an Armory” program for the restoration of national guard armories; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 78

Assembly Concurrent Resolution No. 211—Relative to the Lewis and Clark Corps of Discovery Expedition.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, Meriwether Lewis and William Clark led the first overland exploration of the American West beginning on May 14, 1804, and ending on September 23, 1806; and

WHEREAS, President Thomas Jefferson, in the American spirit of exploration, ordered the expedition to explore the new territory of the Louisiana Purchase, determine the existence of a Northwest Passage, make peaceful contact with Native Americans, and bring back new scientific knowledge; and

WHEREAS, The Corps of Discovery Expedition was comprised of 48 men when it left St. Louis on May 21, 1804, including hunters, soldiers, French boatmen, an African-American named York, who the Native Americans nick-named “Big Medicine,” and many other adventurers; and

WHEREAS, York played an important role and was vital to the success of the mission, and as an accomplished hunter, he was key to developing relationships with the Native American tribes encountered by the corps; and

WHEREAS, During their first year of travel, the Corps of Discovery Expedition followed President Jefferson’s direction to travel up the Missouri River to its headwaters in the Rocky Mountains. The expedition spent its first winter in present-day North Dakota; and

WHEREAS, The second year of travel was more challenging as the corps moved into lands unknown to nonnatives. They brought with them a guide, a Native American woman named Sacagawea, along with her French-Canadian husband and their infant son. Her contribution to the expedition was invaluable as Lewis and Clark established friendly relations with the native people they encountered along the way; and

WHEREAS, The corps struggled to find a pass over the Continental Divide and received help from the Nez Perce Tribe in finding the Snake River, which eventually led them to the Columbia River; and

WHEREAS, The expedition reached the Pacific Ocean near present-day Astoria, Oregon in November 1805; and

WHEREAS, The return journey to St. Louis began in March 1806 and was filled with its own unique discoveries as Lewis and Clark split up to cover more territory. The two groups reunited in August and reached St. Louis on September 23, 1806; and

WHEREAS, President Jefferson and the American people warmly welcomed Lewis and Clark home and thanked them for their achievements. They had brought home journals, maps, and plants and animals that provided invaluable information as America moved West. They had established peaceful contact with many Native American tribes, and they set a precedent that showed the importance of government-sponsored exploration; and

WHEREAS, The Lewis and Clark Corps of Discovery Expedition opened up the American West, and, although they did not come to California, they opened the way for adventurous Americans who would eventually follow when the Gold Rush began less than 50 years later; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature calls on all Californians to commemorate the 200th Anniversary of the Lewis and Clark Corps of Discovery Expedition, which began on May 14, 1804, and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 79

Assembly Concurrent Resolution No. 217—Relative to National Day of Prayer.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, The National Day of Prayer is an annual event established by an act of Congress that encourages Americans to pray for our nation, its people, and its leaders; and

WHEREAS, Public prayer and national days of prayer have a longstanding tradition in American culture dating back to the very formation of our nation; and

WHEREAS, The first National Day of Prayer was called for in 1775, when the Continental Congress designated a time to seek God’s wisdom and guidance in the founding of the United States; and

WHEREAS, This tradition continued when President Abraham Lincoln, in 1863, called for a day of “humiliation, fasting, and prayer”; and

WHEREAS, The official National Day of Prayer was established as an annual event by an act of Congress in 1952 and was signed into law by President Harry Truman. The law was amended in 1988 and signed by President Ronald Reagan, establishing the first Thursday of May each year as the National Day of Prayer; and

WHEREAS, The National Day of Prayer has great significance for us as a nation, enabling us to recall and to teach the way in which our founding fathers sought the wisdom of God when faced with critical decisions; and

WHEREAS, The National Day of Prayer stands as a call to us to humbly come before God, seeking His guidance for our leaders and His grace upon us as a people; and

WHEREAS, In 2003, thousands of events were held nationwide on the National Day of Prayer, ranging from prayer breakfasts and student flagpole gatherings to Bible reading marathons and concerts of prayer; and

WHEREAS, The theme of the National Day of Prayer 2004 is “Let Freedom Ring”; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby recognizes May 6, 2004, as a National Day of Prayer; and be it further

*Resolved,* That all the people of California are encouraged to gather together in homes and places of worship to pray, each according to his or her own faith, for their God’s blessings upon our state and our nation; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor of the State of California and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 80

Assembly Concurrent Resolution No. 219—Relative to National Scholarship Month.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, A college-educated workforce is needed to maintain a strong and vibrant economy in California; and

WHEREAS, A major obstacle standing in the way of students who desire a college education is the steadily rising cost of college attendance, including tuition, books, fees, and living expenses; and

WHEREAS, Private scholarships provide an invaluable source of financial support for students, including those who might not otherwise be able to afford a college education; and

WHEREAS, It is appropriate to make efforts to inspire, motivate, and challenge people to make a difference for our youth by contributing to private scholarship funds; and

WHEREAS, National Scholarship Month, originated in 1998 by Citizens' Scholarship Foundation of America (CSFA), annually celebrates the current level of scholarship support received from the private sector; and

WHEREAS, National Scholarship Month calls for broader participation in supporting private scholarship funds and a renewed commitment in helping to make college more affordable; and

WHEREAS, The theme of the National Scholarship Month celebration is, "Scholarships--Lighting the Future"; and

WHEREAS, National Scholarship Month provides hope for students of all ages and from all backgrounds to obtain the benefits of postsecondary education; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature recognizes May 2004, and each May thereafter, as National Scholarship Month; and be it further

*Resolved,* That the Legislature extends its gratitude to the private sector in California for its participation in scholarship funding, and encourages even greater participation in the future.

---

## RESOLUTION CHAPTER 81

Assembly Concurrent Resolution No. 223—Relative to Women's Health Month.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, Heart disease is the leading cause of death for California women, and women tend to die at an earlier age from heart disease because they tend to receive care later in the course of the disease; and

WHEREAS, Women are more likely than men to die from tobacco-related cancers, which have surpassed breast cancer as the leading cause of cancer deaths among women; and

WHEREAS, Women and girls are at a greater risk for complications, including pelvic inflammatory disease and infertility, resulting from sexually transmitted diseases; and

WHEREAS, Domestic violence is the leading cause of injury to adult women; and

WHEREAS, The leading cause of workplace deaths for women is homicide; and

WHEREAS, Women face unique health risks by virtue of their reproductive status; and

WHEREAS, Twenty percent of all California women are uninsured and are less likely to access health care services because of their uninsured status; and

WHEREAS, Low-income, and older women, and women who are members of certain racial and ethnic groups are less likely to obtain necessary health care, as a result of the lack of health insurance; and

WHEREAS, Women have a longer life expectancy and experience more chronic diseases than men; and

WHEREAS, Women are most likely to serve as the primary caregiver for their children, spouse, parents, and others; and

WHEREAS, Women who are members of certain racial and ethnic groups are disproportionately affected by health conditions, including tobacco-related cancers, heart disease, depression, and reproductive health risks; and

WHEREAS, The incidence of AIDS cases among women is on the rise; and

WHEREAS, Osteoporosis affects five million Californians, 80 percent of whom are women; and

WHEREAS, Recognition of health issues unique to women and differences in health and health care experiences across cultures and age groups among women is critical to the development of strategies for improving the health care and quality of life for women and girls; and

WHEREAS, Continued efforts to meet the health care needs of the state's women and girls are necessary; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California hereby proclaims the month of May to be Women's Health Month, and encourages and promotes efforts to increase awareness about all women's health issues; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 82

Senate Concurrent Resolution No. 63—Relative to POW Recognition Day.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, To our shame, 31 years later, the sacrifice and faith of our Vietnam POWs is mostly forgotten; and

WHEREAS, While there are no exact statistics on how many Americans fell into enemy hands in Vietnam, 8,000 is a very defensible estimate, and Operation Homecoming, 31 years ago, brought home only 661 United States military members; and

WHEREAS, Foot soldiers rarely survived after their capture, and while aviators formed the largest contingent of Americans taken prisoner, many of them also perished before ever arriving in a camp. The lucky ones would be shuttled to the Hoa Lo Prison in central Hanoi, known as the Hanoi Hilton, which would be a burial ground for some of the best; and

WHEREAS, It was the code and sacred bond of our Vietnam POWs that “one go, we all go.” Our Vietnam POWs were and are bound by loyalty, devotion, and pride in our country. When Lieutenant Commander John McCain was offered an early release with no strings attached, he demurred. He stuck together with the other POWs, through the beatings, the torture, and the years and years of solitary confinement. It was better to die than betray America or an American; and

WHEREAS, These fellow citizens of ours, these POWs, believing themselves deserted by their own countrymen, at times surely feeling forsaken by God, soldiered on. The sacrifices of our POWs maintained an unbroken chain from the earliest days of the United States, forged and maintained under the most dire conditions by those upholding America’s freedom; and

WHEREAS, The images recede now. The desperate yearning for our POWs to return, the heartfelt pride we felt as our heroes returned from torture, has faded from our minds. Thirty-one years later, our aging veterans do not receive the honor and respect they deserve, but they will not be forgotten. Our POWs’ stories will be kept alive quietly, almost underground, until the nation is ready again to be reminded that we can produce ordinary citizens who will be heroes when called upon; and

WHEREAS, Freedom is not free. Our POWs paid for freedom with physical and mental torture, defending our nation with their fortitude; and

WHEREAS, Each year, citizens throughout America join in observance to honor and recognize former American POWs, and to remember the fallen heroes still unaccounted for, so that we may remind

ourselves of the sacrifices our veterans made fighting for our freedom; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby designates April 9, 2004, as POW Recognition Day in California, a time to honor, respect, and commend the heroes of our nation; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 83

Senate Concurrent Resolution No. 71—Relative to the 60th anniversary of D-Day.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, June 6, 2004, marks the 60th anniversary of the Allied landing on the beaches of Normandy, France, a date formally known as D-Day; and

WHEREAS, On June 5, 1944, one day before the invasion of Normandy, General Dwight D. Eisenhower spoke these encouraging words to our brave Allied forces: “I have full confidence in your courage, devotion to duty, and skill in battle. We will accept nothing less than full Victory!” The words inspired courage and patriotism in the Allied forces, as they prepared to embark upon a dangerous mission; and

WHEREAS, On June 4, 1944, submarines marked the landing area for the attack, allowing warships to bombard the coastal German defenses and clear the landing channel from mines. On D-Day, 150,000 Allied soldiers, including approximately 60,000 Americans, landed on five beaches in Normandy, in a bold attack on 60 divisions of tenacious, battle hardened German forces. After midnight on June 6, 1944, Allied airborne divisions landed on the edge of the invasion area on the Normandy coast, followed by gliders and paratroopers positioned along the beachhead for protection from German attacks. American forces arrived at 6:30 a.m. on the beaches code named Utah and Omaha, while other Allied forces landed at 7:30 a.m. on the beaches code named Sword, Juno, and Gold; and

WHEREAS, Juno, Gold, and Sword received little resistance as the Allies came ashore, but on Omaha and Utah, the Americans faced strong German opposition and took heavy casualties. Giant bunker fortresses with large artillery bore down murderously on the Allied forces. Thick smoke from mortar fire clouded the beaches and heavy seas and tides carried soldiers off course, as they struggled to shore between deadly

submerged mines and interlacing machine gun fire, sending out 100,000 rounds a minute over a two-hour period. At Omaha beach, American troops were hit by artillery fire from 1,000 yards out in the water and across 200 yards of open beach; and

WHEREAS, There is no more memorable day in modern military history than the D-Day invasion of German-occupied Europe. On that day and in the ensuing weeks, the soldiers, sailors, Marines, airmen, and merchant mariners of the assault forces, and the men and women who supported the landing, displayed great skill, unwavering tenacity, and courage. The purpose of the Allied invasion of Normandy was to bring about the destruction of the Nazi war machine and the elimination of Nazi tyranny over the oppressed peoples of Europe; and

WHEREAS, By sheer numbers, the Normandy invasion was the greatest amphibious assault of all time. The Allied forces sent 5,000 ships, 11,000 aircraft, and 175,000 troops. For sheer human determination and uncommon valor, D-Day remains the touchstone of modern military history; and

WHEREAS, Many units lost one-half of their men even before reaching the seawalls and cliffs. The Allied soldiers who lived to scale the bluffs and stop the German 88-millimeter guns often had no leaders or orders. They had nothing beyond the simple fact that they were still alive; and

WHEREAS, Before the day ended, there would be 3,000 Allied casualties, and many more left uncounted, lost forever beneath the waves tinted red with the blood of our troops. There are 9,386 American servicemen buried on the Normandy bluff and 14,000 others exhumed and reburied in the United States; and

WHEREAS, D-Day was once merely a code word, but for the past six decades, that day, and all the determination that it stood for in pushing back the German armies, have served as a touchstone for Allied unity and purpose; and

WHEREAS, In the memory of all Allied soldiers who fought and sacrificed their lives against the perils of Hitler's "Fortress Europe" 60 years ago, it is altogether fitting that the people of California should commemorate the 60th Anniversary of the Allied Military Operations in Normandy on D-Day; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That in recognition of the historic 60th Anniversary of the Allied invasion of Nazi-occupied Europe, the Legislature of the State of California recognizes and honors the thousands of veterans of the United States Armed Forces who served their country so valiantly and distinguished themselves above the call of duty, and recognizes the integral part they played in helping the Allies to victory during the

operations leading up to, and following, the D-Day invasion of Europe, and be it further

*Resolved*, That the Legislature extends the appreciation and gratitude of the people of the State of California in honoring these brave Allied patriots, and commemorates the valor of those who served in the D-Day assault forces to be observed with appropriate ceremonies fitting this historic 60th Anniversary of the Allied Normandy D-Day invasion of Europe; and be it further

*Resolved*, That the best way we can honor those who gave so much 60 years ago, is by rededicating ourselves today to the cause for which they fought: freedom for ourselves, our children, and generations yet to come; and be it further

*Resolved*, That all Californians and all Americans share the goal of a peaceful and just world, free of war, and that Sunday, June 6, 2004, be officially proclaimed as the “60th Anniversary of D-Day Invasion”; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 84

Senate Concurrent Resolution No. 79—Relative to American Stroke Month.

[Filed with Secretary of State May 28, 2004.]

WHEREAS, The American Stroke Association, a division of the American Heart Association, is celebrating May 2004 as American Stroke Month in California; and

WHEREAS, The theme for American Stroke Month 2004 is “Time Lost=Brain Lost” to offer advocates for stroke awareness an opportunity to educate the public and policymakers about the devastating effects of stroke; and

WHEREAS, Strokes are the third leading cause of death in the United States striking about 700,000 Americans each year; and

WHEREAS, Stroke is a leading cause of serious long-term disability in the United States with about 4.8 million stroke survivors today; and

WHEREAS, In 2004 the estimated direct and indirect cost of stroke is about \$53.6 billion; and

WHEREAS, The majority of Americans are not aware of their risk factors for a stroke, nor are they aware of the signs and symptoms of an impending stroke; and

WHEREAS, Warning signs of stroke include: sudden numbness or weakness of the face, arm, or leg, especially on one side of the body; sudden confusion, trouble speaking, or understanding; sudden trouble seeing in one or both eyes; sudden trouble walking, dizziness, loss of balance, or coordination; and sudden severe headache with no known cause; and

WHEREAS, Stroke leads to the death of more than 18,000 Californians each year; and

WHEREAS, New and effective treatments have been developed to treat and minimize the severity and damaging effects of strokes, but much more research is needed; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the month of May 2004 shall be recognized as American Stroke Month in California in order to raise awareness of the effects of stroke; and be it further

*Resolved,* That the Legislature urges all the citizens of our state to familiarize themselves with the warning signs, symptoms, and risk factors associated with stroke so that we might begin to reduce the devastating effects that a stroke makes on our population; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 85

Assembly Concurrent Resolution No. 222—Relative to Small Business Month.

[Filed with Secretary of State June 1, 2004.]

WHEREAS, Every year, our nation sets aside a time to honor the 25 million Americans whose entrepreneurial drive personifies the American dream; and

WHEREAS, America's 25 million small businesses reflect the things that make our nation great; and

WHEREAS, Small businesses are a vital part of our nation's economy and are leading the way during the current economic recovery. They represent 99 percent of employers, more than half of all private sector employees work at small businesses, and three out of every four new jobs created in this country are created by small businesses; and

WHEREAS, As our nation continues on the path of economic recovery, it is important to appreciate the role that our small business entrepreneurs are playing; and

WHEREAS, It is appropriate during Small Business Month to acknowledge the contributions, efficiencies, and innovations that create new markets and opportunities for California, the nation, and the world; and

WHEREAS, Small Business Month is a time to celebrate our successes and to thank America's small business owners for their contributions to our communities, our economy, and our nation. Commemorating the pioneering and inventive spirit of small business invites reflection upon future challenges to small business and plans to overcome them; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the month of May 2004 is hereby proclaimed as Small Business Month; and be it further

*Resolved,* That Californians are encouraged to observe Small Business Month appropriately, to dedicate themselves to learning more about America's entrepreneurs and how we can help them continue on their tremendous path of success; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 86

Assembly Concurrent Resolution No. 226—Relative to Older Americans Month.

[Filed with Secretary of State June 1, 2004.]

WHEREAS, Older Americans are among our greatest treasures, providing invaluable links to the past, and wise counsel for the future; and

WHEREAS, The gift of longevity will ensure that today's and tomorrow's seniors will continue to make significant contributions to our families by giving of themselves freely and by sharing their wisdom and experience; and

WHEREAS, It is important to acknowledge the contributions that older individuals have made to our economic well-being, in our communities, and in the workplace, through civic leadership and mentoring; and

WHEREAS, The seniors of tomorrow will be increasingly multicultural and multigenerational as well as more diverse socially, ethnically, and economically than past generations; and

WHEREAS, An expanding elder population will profoundly impact every facet of our lives including redefining our ideas of work,

retirement, and leisure, altering our housing and living arrangements, challenging our health care systems, reshaping our economy, and altering social and public policy; and

WHEREAS, The opportunities and challenges that await as this new chapter in human history begins requires continued commitment to the goal of ensuring that our senior citizens enjoy active, productive, and healthy lives, and do so independently, safely, and with dignity for as long as they choose; and

WHEREAS, It is appropriate that the State of California join the nation and designate the month of May as a time to celebrate the contributions of older Americans and to rededicate our efforts to better serve American elders; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California recognizes May 2004 as Older Americans Month; and be it further

*Resolved,* That the Legislature encourages all Californians to honor elder adults during this month and this year, and to promote and participate in activities and services that contribute to the health, welfare, and independence of our older citizens; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 87

Assembly Concurrent Resolution No. 229—Relative to California Museum Month.

[Filed with Secretary of State June 1, 2004.]

WHEREAS, Museums significantly enhance the quality of life for California residents; and

WHEREAS, California museums provide their communities with many services and activities that add to and enhance those provided by the public sector; and

WHEREAS, California is home to over 1,300 museums serving a total of over 26 million visitors annually; and

WHEREAS, Museums serve every community and region throughout the state including at least one museum in every county of the state; and

WHEREAS, Museums do important work that helps the state meet its obligations to citizens in the field of education; and

WHEREAS, Museums contribute to formal and informal learning at every stage of life, from the education of children in preschool through secondary school to the continuing education of adults; and

WHEREAS, Museums are a significant resource for in-service training of California teachers; and

WHEREAS, Museums act as a repository for California natural and cultural history and are an important means of making the best of our society's art, science, history, and culture available to California residents; and

WHEREAS, Museums contribute significantly to California's economic activity by providing a huge economic boost to their communities by attracting tourists and local visitors, all of whom create a demand for services; and

WHEREAS, California's museums are a major industry for the state; and

WHEREAS, Museums serve as a source of community pride in a state of rich diversity; and

WHEREAS, Museums are the part of a community that provides a common experience and a safe place that people from all backgrounds can share; and

WHEREAS, California's museums are one of the best bargains around with one-half of the state's museums providing free admission to adults; and

WHEREAS, The California Association of Museums has served to bring important recognition of this month during which museums will celebrate the diversity of community services they provide by hosting an eclectic array of public programming during the month of May 2004; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature recognizes the important role that museums have in the state and proclaims May 2004 as California Museum Month; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 88

Assembly Concurrent Resolution No. 230—Relative to Memorial Day.

[Filed with Secretary of State June 1, 2004.]

WHEREAS, The preservation of basic freedoms and world peace has always been a valued objective of this great country; and

WHEREAS, Thousands of American men and women have selflessly given their lives in service as peacemakers and peacekeepers; and

WHEREAS, Greater strides should be made to demonstrate the appreciation and gratitude that these loyal Americans deserve and to commemorate the ultimate sacrifice that they have made; and

WHEREAS, Memorial Day should be a day where we actively remember our ancestors, our family members, our loved ones, our neighbors, and our friends who have given the ultimate sacrifice: by visiting cemeteries and placing flags or flowers on the graves of our fallen heroes, by visiting memorials, by flying the United States flag at half-staff until noon, and by renewing a pledge to aid the widows, widowers, and orphans of our fallen dead; and

WHEREAS, Memorial Day is the day of the year for all Californians to appropriately remember American heroes by inviting the citizens of this state to respectfully honor them; and

WHEREAS, Memorial Day needs to be made relevant to both present and future generations of Americans; and

WHEREAS, A National Moment of Remembrance would provide citizens in California an opportunity to participate in a symbolic act of American unity; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That May 31, 2004, shall be recognized as Memorial Day, and that the people of California are urged to honor the men and women of the United States who died in the pursuit of freedom and peace; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author's office for appropriate distribution.

---

## RESOLUTION CHAPTER 89

Assembly Concurrent Resolution No. 232—Relative to Armed Forces Day.

[Filed with Secretary of State June 1, 2004.]

WHEREAS, More than 50 years ago, President Harry S. Truman helped establish a day for Americans to join together and thank our military members for their service to our country. In 1949, Secretary of Defense Louis Johnson announced the establishment of Armed Forces Day to replace separate Army, Navy, Marine Corps, and Air Force Days. A year later, President Truman issued a Presidential Proclamation, observing that the day “marks the first combined demonstration by America’s defense team of its progress, under the National Security Act, towards the goal of readiness for any eventuality. It is the first parade of preparedness by the unified forces of our land, sea, and air defense”; and

WHEREAS, The single day celebration stemmed from the unification of the Armed Forces under one department—the Department of Defense. The first Armed Forces Day in 1950 was a day for the military to show state of the art equipment to the civilian population, and was a day to acknowledge the contributions of the people of the Armed Forces; and

WHEREAS, The words of President Dwight D. Eisenhower written in 1953 remain true today: “It is fitting and proper that we devote one day each year to paying special tribute to those whose constancy and courage constitute one of the bulwarks guarding the freedom of this Nation and the peace of the free world.” On Armed Forces Day, our grateful Nation salutes the brave men and women who protect our country, defend freedom, and help make our world a better place; and

WHEREAS, Our achievements in peace and war stand upon the service and sacrifice of those in uniform. The members of our military exemplify the true spirit of patriotism—a love of country expressed through a commitment to serve our Nation and defend our freedom. Their selfless dedication and determination are an inspiration to every American; and

WHEREAS, In difficult times, America has called on members of our Armed Forces to protect the democratic ideals on which our country was founded, and they have never let our country down. As we confront the challenges of this new era, we will continue to rely on our military’s extraordinary skill, sense of honor, devotion to duty, and courageous commitment to service; and

WHEREAS, In recognition of Armed Forces Day, John F. Kennedy once stated: “Our servicemen and women are serving throughout the world as guardians of peace—many of them away from their homes, their friends, and their families. They are visible evidence of our determination to meet any threat to the peace with measured strength and high resolve. They are also evidence of a harsh but inescapable truth—that the survival of freedom requires great cost and commitment, and personal sacrifice”; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby proclaims the third Saturday of May as Armed Forces Day, a special day to educate the public about the role of military in civilian life, and to celebrate the brave men and women of the military forces who protect our country; and be it further

*Resolved,* That Californians be urged to celebrate Armed Forces Day by flying the United States flag in observance of this day and by celebrating this day with appropriate activities that honor and give thanks to the members of our military forces; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 90

Assembly Concurrent Resolution No. 233—Relative to Yellow Ribbon Day.

[Filed with Secretary of State June 1, 2004.]

WHEREAS, May 22, 2004, is being recognized as Yellow Ribbon Day in northern California, including Sacramento and its surrounding communities, in support of military families and our troops who are defending our country; and

WHEREAS, It is very difficult for military families who have loved ones in the very dangerous conflict in Iraq and Afghanistan who are fighting for freedom for all; and

WHEREAS, Because of the importance of demonstrating support for military families and troops during this very difficult time, May 22, 2004, has been designated to publicly show support for these individuals; and

WHEREAS, Ceremonial activities have been planned to bring people together to commemorate Yellow Ribbon Day in support of our military families and our troops; and

WHEREAS, Californians are proud of our troops and their families, and appreciate the great sacrifice they are making to assure freedom for all; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature of the State of California, in support of military families and their loved ones who are defending our country and fighting for the preservation of freedom for all, does hereby proclaim May 22, 2004, Yellow Ribbon Day, a special day for Californians to extend their sincerest appreciation for the sacrifices military families and our troops are making and to commemorate our troops and their families with ceremonial activities; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 91

Senate Concurrent Resolution No. 82—Relative to Foster Care Month.

[Filed with Secretary of State June 7, 2004.]

WHEREAS, The family, serving as the primary source of love, nurturing, identity, self-esteem, and support, is the very foundation of our communities and our state; and

WHEREAS, In California, there are 100,000 children and youth in foster care being provided with a safe, secure, and stable home due to the compassion and nurturing of a foster or kinship family; and

WHEREAS, In California, the federal, state, and county governments spend approximately \$2 billion annually for foster children and their families; and

WHEREAS, Foster and kinship families, who open their homes and hearts to children whose families are in crisis, play a vital role in helping children and families heal and reconnect, and by providing quality, permanent homes for children who cannot return to their families of origin; and

WHEREAS, The California State Legislature recently passed legislation to ensure that children's foster and kinship caregivers have access to the information they need to provide quality care for children in foster care; and

WHEREAS, Foster and kinship caregivers are one of the most important sources of information for decisionmakers about the children in their homes; and

WHEREAS, There are numerous individuals and public and private organizations who work to increase public awareness of the needs of children in and leaving foster care as well as the enduring and valuable contribution of foster and kinship parents, and the foster care system will only reach as high as those who choose to be part of it; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the month of May 2004, is hereby proclaimed as Foster Care Month in California; and be it further

*Resolved,* That the Legislature of the State of California urges all citizens to volunteer their talents and energies on behalf of children in foster care, their foster and kinship parents, and the child welfare and legal professionals working in California this month and throughout the year; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 92

Assembly Joint Resolution No. 79—Relative to corporate elections.

[Filed with Secretary of State June 10, 2004.]

WHEREAS, The California Legislature has noted with growing concern the accounting scandals of major corporations including Enron, WorldCom, and HealthSouth, and their sustained negative effect on institutional and individual investors and on California's economy; and

WHEREAS, The cumulative effect of these instances of fraud and wrongdoing has been to inflict avoidable investor losses totaling in the billions of dollars and to significantly damage investor confidence in California and elsewhere; and

WHEREAS, These events have pointed to an urgent need for greater corporate accountability, and specifically for corporate boards to engage in greater oversight over corporate operations, thereby fulfilling their traditional role as independent fiduciaries rather than passive arms of management; and

WHEREAS, One clear vehicle to achieving greater accountability on the part of corporate boards is to increase shareholder access to proxy, defined as the ability of shareholders to nominate a candidate or slate of candidates for election to the board at annual company meetings held for that purpose; and

WHEREAS, Federal law controls many aspects of corporate election procedures, and under current federal law and United States Securities and Exchange Commission rules, shareholder access to proxy is not required; and

WHEREAS, The United States Securities and Exchange Commission has been working for several months on proposed reforms to address this dual crisis of corporate accountability and investor confidence, addressing it in part by devising a means of providing within the framework of the rules of the United States Securities and Exchange Commission a mechanism for greater shareholder access to proxy and has proposed a rule to improve the ability of shareholders to participate in the nomination and election of directors of corporate boards; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature hereby urges the United States Securities and Exchange Commission to implement the proposed shareholder

participation rules at the earliest possible date in order to answer the call for badly needed reform, to improve corporate accountability, to restore investor confidence, and to provide shareholders with increased access to proxy to promote greater board oversight of corporate operations and responsiveness to shareholder concerns; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

### RESOLUTION CHAPTER 93

Assembly Joint Resolution No. 64—Relative to bias-motivated crimes.

[Filed with Secretary of State June 16, 2004.]

WHEREAS, All Americans are united in supporting American men and women who protect our nation abroad and at home; and

WHEREAS, Thousands of Arab-Americans, Muslim-Americans, South Asian-Americans, and Sikh-Americans serve in the military and in law enforcement, working to protect all Americans; and

WHEREAS, The Arab-American, Muslim-American, South Asian-American, and Sikh-American communities are vibrant, peaceful, and law-abiding, and have greatly contributed to American society; and

WHEREAS, All Americans, including Arab-Americans, Muslim-Americans, South Asian-Americans, and Sikh-Americans, condemn acts of violence and prejudice; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature is concerned by the number of bias-motivated crimes against Arab-Americans, Muslim-Americans, South Asian-Americans, Sikh-Americans, and other Americans in recent months; and be it further

*Resolved*, That the civil rights and civil liberties of all Americans, including Arab-Americans, Muslim-Americans, South Asian-Americans, and Sikh-Americans should be protected; and be it further

*Resolved*, That the Legislature condemns bigotry and acts of violence against any American, including Arab-Americans, Muslim-Americans, South Asian-Americans, and Sikh-Americans; and be it further

*Resolved*, That the Legislature calls upon local, state, and federal law enforcement authorities to work to prevent bias-motivated crimes against all Americans, including Arab-Americans, Muslim-Americans, South Asian-Americans, and Sikh-Americans; and be it further

*Resolved*, That the Legislature calls upon local, state, and federal law enforcement authorities to investigate and prosecute vigorously all bias-motivated crimes committed against Arab-Americans, Muslim-Americans, South Asian-Americans, and Sikh-Americans; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, the United States Attorney General, to each Senator and Representative from California in the Congress of the United States, the Attorney General of California, all California District Attorney's Offices, and to all statewide elected officials.

---

#### RESOLUTION CHAPTER 94

Senate Joint Resolution No. 16—Relative to military airfares.

[Filed with Secretary of State June 16, 2004.]

WHEREAS, Many thousands of Californians are serving in the United States military in stations spread throughout the world; and

WHEREAS, Many of these men and women are in grave danger due to their engagement in, or exposure to, combat situations; and

WHEREAS, Military service often requires individuals to be separated from their families on short notice for long periods of time under stressful conditions; and

WHEREAS, It is the patriotic duty of all Americans to support the men and women of the United States Armed Forces who are defending American interests around the world at great personal sacrifice; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly*, That the Legislature of the State of California urges all airline companies in the United States to permanently establish, for active duty military personnel, a reduced price airfare equal to, or lower than, the lowest airfare offered for each ticketed flight, and that the airfare be free from time restrictions and fees or penalties for changes; and be it further

*Resolved*, That the Legislature of the State of California expresses gratitude to the commercial airline companies currently supporting our active duty military personnel through company policies that provide

reduced airfares, flexible policies, and the use of frequent flyer award programs; and be it further

*Resolved*, That the Legislature of the State of California commends those commercial airline companies that support their employees who participate in National Guard and Military Reserve duty and are on leave from those companies for military duty; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President of the United States, to all Members of the Congress of the United States, to the Chair of the Federal Aviation Administration, and to the chief executive officer of every airline company in the United States.

---

## RESOLUTION CHAPTER 95

Senate Joint Resolution No. 28—Relative to gasoline.

[Filed with Secretary of State June 16, 2004.]

WHEREAS, The federal Clean Air Act Amendments of 1990 (P.L. 101-549) mandate the use of reformulated gasoline containing 2 percent, by weight, oxygen in areas designated as nonattainment areas due to high ambient ozone levels in summer months and high ambient carbon monoxide levels in winter months; and

WHEREAS, The federal oxygenate mandate requires the use of oxygenate in gasoline in approximately 70 percent of the California retail gasoline market; and

WHEREAS, California has historically led the nation in enacting air quality improvement measures that provide substantial health, economic, and social benefits for the state's citizens; and

WHEREAS, The State Air Resources Board's Cleaner Burning Gasoline Program has resulted in reducing emissions equivalent to removing 3.5 million cars from California's roads; and

WHEREAS, The California Cleaner Burning Gasoline Program provides greater flexibility than the federal program to produce gasoline that meets stringent emission reduction mandates; and

WHEREAS, Methyl tertiary-butyl ether (MTBE) has been used in California as the primary oxygenate additive to gasoline because its relatively low vapor pressure (RVP) simplifies the production of low-RVP summer gasolines, and because of its compatibility with the blending and distribution system for gasoline, its ability to be transported by pipeline, and its high octane rating; and

WHEREAS, The Environmental Protection Agency's Blue Ribbon Panel on Oxygenates in Gasoline recommended that the 2-percent

oxygenate requirement be removed and that MTBE be reduced substantially; and

WHEREAS, Pursuant to Chapter 816 of the Statutes of 1997, the University of California prepared a report that assessed the health and environmental effects of MTBE and submitted that report to the Legislature and the Governor in November 1998; and

WHEREAS, The University of California report found that there are significant risks and costs associated with water contamination due to the use of MTBE because it is highly soluble in water and will transfer readily to groundwater from leaking underground storage tank systems and other components of the gasoline distribution system; and

WHEREAS, The County of Santa Clara, the City of Santa Monica, the Lake Tahoe region, and the Sacramento area, as well as other municipalities in other areas of the state, have all been forced to shut down public drinking water wells due to MTBE contamination; and

WHEREAS, The University of California report found that over 60 percent of the reservoirs tested in California have detectable levels of MTBE; and

WHEREAS, The University of California report found that there is no significant additional air quality benefit to the use of oxygenates such as MTBE in reformulated gasoline, relative to the alternative nonoxygenated formulations identified by the California Cleaner Burning Gasoline Program; and

WHEREAS, United States Senators Diane Feinstein and James Inhofe previously introduced legislation, S. 947, to grant the governor of a state the power to waive the 2-percent oxygenate content requirement for reformulated or clean burning gasoline as long as the fuel meets all other requirements for reformulated gasoline other than those regarding oxygen content; and

WHEREAS, California has previously sought a waiver from the United States Environmental Protection Agency of the oxygen content requirement; and

WHEREAS, The United States Environmental Protection Agency denied California's request for a waiver on the grounds that there was not sufficient evidence that the waiver would help California to reduce harmful levels of air pollutants; and

WHEREAS, California has sought and received waivers from other provisions of the federal Clean Air Act, including Section 209(b)(1) of that act, and has demonstrated no loss of air quality benefits after those waivers have been issued; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the United States Environmental Protection Agency to reconsider granting an administrative waiver of the federal Clean Air

Act's oxygenated gasoline requirement to the State of California, to the extent permitted by the federal Clean Air Act, given the state's independent requirements for clean gasoline that meet both state and national ambient air quality standards; and be it further

*Resolved*, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact legislation, if an administrative waiver of the federal Clean Air Act is not granted by the United States Environmental Protection Agency, similar to, or including, the Feinstein-Inhofe legislation, that would authorize California to waive the oxygen content requirement for reformulated gasoline only if the fuel meets other requirements in the federal Clean Air Act for reformulated gasoline; and be it further

*Resolved*, That the Legislature of the State of California respectfully memorializes the President of the United States to sign that legislation if it is enacted by the Congress of the United States; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the Secretary of the United States Environmental Protection Agency, the Speaker of the House of Representatives, the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 96

Assembly Joint Resolution No. 33—Relative to Taiwan and the World Health Organization.

[Filed with Secretary of State June 21, 2004.]

WHEREAS, Good health is important to every citizen of the world and access to the highest standards of health information and services is necessary to improve the public health; and

WHEREAS, Direct and unobstructed participation in international health cooperation forums and programs is beneficial for all parts of the world, especially with today's greater potential for the cross-border spread of various infectious diseases such as the human immunodeficiency virus (HIV), tuberculosis, and malaria; and

WHEREAS, Taiwan's population of 23,500,000 people is larger than that of three-quarters of the member states already in the World Health Organization (WHO); and

WHEREAS, Taiwan's achievements in the field of health are substantial; including one of the highest life expectancy levels in Asia, maternal and infant mortality rates comparable to those of western

countries, the eradication of such infectious diseases as cholera, smallpox, and the plague, and being the first country in Asia to eradicate polio and provide children with hepatitis B vaccinations; and

WHEREAS, The United States Centers for Disease Control and Prevention and its Taiwan counterpart agencies have enjoyed close collaboration on a wide range of public health issues; and

WHEREAS, In recent years Taiwan has expressed a willingness to assist financially and technically in international aid and health activities supported by the WHO; and

WHEREAS, On January 14, 2001, an earthquake struck El Salvador that registered between 7.6 and 7.9 on the Richter scale and, in response, the Taiwanese government sent two rescue teams that consisted of 90 individuals who specialized in firefighting, medicine, and civil engineering, and donated \$200,000 in relief aid; and

WHEREAS, The World Health Assembly has allowed observers to participate in the activities of the organization, including the Palestine Liberation Organization in 1974, the Order of Malta, and the Holy See in the early 1950s; and

WHEREAS, The United States, in the 1994 Taiwan Policy Review, declared its intention to support Taiwan's participation in appropriate international organizations; and

WHEREAS, In light of all the benefits that Taiwan's participation in the WHO can bring to the state of health not only in Taiwan, but also regionally and globally, Taiwan and its 23,500,000 people should have appropriate and meaningful participation in the WHO; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California commends Taiwan on its contributions to promote world health; and be it further

*Resolved,* That the Legislature respectfully memorializes the President and Congress of the United States to take action necessary to endorse and obtain observer status for Taiwan at the annual weeklong summit of the World Health Assembly in Geneva, Switzerland; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to each Senator and Representative from California in the Congress of the United States, to the United States Secretary of Health and Human Services, to the United States Secretary of State, and to the Director General of the World Health Organization.

---

RESOLUTION CHAPTER 97

Assembly Joint Resolution No. 54—Relative to the federal medical assistance percentage.

[Filed with Secretary of State June 21, 2004.]

WHEREAS, The federal medical assistance percentage (FMAP) is computed annually and used to calculate the amount of the federal share of Medicaid expenditures allocated to each state; and

WHEREAS, We thank the President of the United States and the United States Congress for the steps they took in assisting states with a larger appropriation of funds to increase the FMAP; and

WHEREAS, The increase in the FMAP will help those states that are still recovering from harsh economic times to provide health access and coverage to their citizens; and

WHEREAS, We thank the federal government for this assistance, however, we continue to urge the United States Department of Health and Human Services to change the formula used to compute the FMAP to include increases in the number of people living under the federal poverty threshold along with consideration of the increases and decreases in state capita income; and

WHEREAS, As the state's per capita income rises, the state rate for Medicaid matching funds from the federal government declines; and

WHEREAS, Despite the growth in per capita income in California, Californians with lower incomes often fail to experience the relative wage growth of those with higher income; and

WHEREAS, Despite a per capita income level in California above the national average, California has both high income levels and poverty; and

WHEREAS, With 4.9 million people under the federal poverty thresholds, California leads the Nation in the number of residents in poverty, having 1.6 million more impoverished residents than Texas and 2.2 million more than New York; and

WHEREAS, FMAP computations grew from the Kerr-Mills Act, part of the Social Security Amendments of 1960, predating the official definition of the poverty thresholds adopted in the late 1960s; and

WHEREAS, The Kerr-Mills Act incorrectly presumed that states with high per capita incomes would have low poverty and vice versa; and

WHEREAS, California is already facing daunting budget cuts due to the state's deficit, making it even more difficult for the state to absorb and offset reductions in federal Medicaid assistance under the current FMAP formula; and

WHEREAS, The Medi-Cal program faces severe underfunding as a result of the failure in computing the FMAP to take into account

increases in the number of people living under the federal poverty threshold; and

WHEREAS, There is a critical need to protect the health of millions of low-income families and individuals that depend on state and federal health programs like Medicaid and the State Children's Health Insurance Program; and

WHEREAS, In the event that Congress cannot permanently change the FMAP calculation this year, it is vitally important that the temporary increase that was given to all states last year be continued for one more year; and

WHEREAS, Without this continuation of funds, California will be forced to make devastating cuts to Medi-Cal, harming the most vulnerable citizens and essentially increasing hospitalizations and emergency room utilization, which are much more expensive for the state and federal government; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California conveys its gratitude and memorializes the President and Congress of the United States to revise the formula used to calculate the FMAP to consider, in addition to a state's per capita income, the total number of persons living in poverty in that state; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the United States Secretary of Health and Human Services.

---

## RESOLUTION CHAPTER 98

Assembly Joint Resolution No. 70—Relative to HIV and AIDS prevention and treatment for women.

[Filed with Secretary of State June 21, 2004.]

WHEREAS, The Desert Sun newspaper in Palm Springs, California reports that “[a]ccording to the World Health Organization figures, an estimated 19.2 million HIV-positive women worldwide account for almost half of 42 million HIV-positive adults in 2001”; and

WHEREAS, According to a publication of the State Department of Health Services, women comprise about 8 percent of all reported cases of acquired immunodeficiency syndrome (AIDS) in California, and yet they are the fastest growing population with AIDS in California, with

Latino and African-American women infected in greater numbers than their share of the population; and

WHEREAS, The federal Centers for Disease Control and Prevention (CDC) reports that in the United States in 1992, women accounted for 14 percent of the adults and adolescents living with AIDS and by 1999, the proportion had grown to 20 percent, reflecting the growing proportion of women living with AIDS during the seven-year period between 1992 and 1999; and

WHEREAS, According to the CDC, from 1985 to 1999, the proportion of all AIDS cases reported among adult and adolescent women tripled from 7 percent to 25 percent; and

WHEREAS, The CDC reports that while the human immunodeficiency virus (HIV) and AIDS-related deaths among women continued to decrease in 1999, largely as a result of recent advances in HIV treatment, HIV and AIDS was the fifth leading cause of death for women in the United States ages 25 to 44 years and among African-American women in this same age group HIV and AIDS was the third leading cause of death in 1999; and

WHEREAS, The CDC also reports that scientists believe that cases of HIV infection reported among 13 to 24 year olds are indicative of overall trends in HIV incidence and in a study based on confidential HIV reporting for adults and adolescents in 2000, females made up nearly one-half of HIV cases among 13 to 24 year olds, with African-American and Hispanic women accounting for an estimated three-fourths of HIV infections reported among females between the ages of 13 and 24 in that study; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California requests that the President and Congress of the United States recognize and respond to the growing risk of women contracting, and the increased numbers of women who have contracted, HIV or AIDS by providing more funding for and financial participation in prevention, outreach, and treatment programs that specifically help women and their families who are living with or at risk of contracting HIV or AIDS; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and the Congress of the United States, and to each Senator and Representative from California in the Congress of the United States.

---

RESOLUTION CHAPTER 99

Assembly Joint Resolution No. 50—Relative to fuel cell vehicles.

[Filed with Secretary of State June 24, 2004.]

WHEREAS, Fuel cells have been a reliable power source for many years, and have captured worldwide attention as a clean power source for vehicles; and

WHEREAS, Fuel cell and other hydrogen-powered vehicles are being developed by most automobile manufacturers, and have generated interest and enthusiasm in the industry, as well as with environmentalists, government agencies, and consumers worldwide; and

WHEREAS, Fuel cell and other hydrogen-powered vehicles can offer zero or near-zero smog-forming emissions; reduce the health problems caused by motor vehicle-related air pollution; reduce water pollution from oil and gasoline leaks; lower greenhouse gas pollution; improve fuel economy; provide quieter and smoother operation; and offer the security and economic benefits associated with transportation fuel diversity; and

WHEREAS, California is the home to the California Fuel Cell Partnership, a unique collaborative of automobile manufacturers, energy companies, fuel cell technology companies, and government agencies. This collaborative is advancing new vehicle technologies that could move the world toward practical and affordable environmental and transportation solutions. For the first time ever, automobile companies and fuel suppliers have joined together through the partnership to demonstrate fuel cell vehicles under actual daily driving conditions; and

WHEREAS, The California Fuel Cell Partnership expects to place up to 60 fuel cell vehicles on the road by the end of 2003. In addition to testing the fuel cell vehicles, the partnership is examining fuel infrastructure issues and beginning to prepare the California market for this new technology; and

WHEREAS, The California Fuel Cell Partnership has established clear goals to ensure the commercialization of hydrogen and fuel cell vehicle technology. These goals include all of the following:

(1) Demonstrate the new technology by operating and testing the vehicles under real-world conditions in California.

(2) Demonstrate the viability of alternative fuel infrastructure technology, including hydrogen and methanol stations.

(3) Explore the path to commercialization, from identifying potential problems to developing solutions.

(4) Increase public awareness of, and educate public opinion about, fuel cell electric vehicles, preparing the market for commercialization; and

WHEREAS, Dwindling supplies of fossil fuel and the growing concern with global warming require the development of renewable sources of hydrogen fuel; and

WHEREAS, Local governments and regional government agencies also are taking a leadership role to advance hydrogen and fuel cell vehicle technologies, including the City of Los Angeles, which operates the first municipal test fleet of fuel cell vehicles, and the South Coast Air Quality Management District, which is installing more than a dozen hydrogen fueling stations; and

WHEREAS, The Institutes of Transportation Studies at the Davis and Irvine campuses of the University of California are recognized nationally as leading research institutions in advancing hydrogen and fuel cell vehicle and infrastructure technology and commercialization strategies; and

WHEREAS, Automobile manufacturers have publicly announced their intention to commercially market “tens of thousands” of hydrogen and fuel cell vehicles within this decade, provided that the fueling infrastructure is available; and

WHEREAS, California is the largest car market in the United States, and this state has set a precedent of driving advancement in the arenas of vehicle emissions reduction and clean vehicle technologies; and

WHEREAS, President Bush and the United States Department of Energy have announced their intention to advance the commercialization of fuel cell technology and hydrogen infrastructure through a national grant competition; and

WHEREAS, To date, California’s commitment far surpasses that of any other state, and California offers the best opportunity to accelerate the commercialization of hydrogen and fuel cell vehicle technologies; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the State of California is committed to achieving a clean transportation future based on the rapid commercialization of hydrogen and fuel cell technologies, among other promising and complementary clean air and energy efficient technologies; and be it further

*Resolved,* That the State of California is committed to supporting hydrogen and fuel cell vehicle commercialization by 2010 by supporting the following actions and developments:

- (1) Ensuring that commercially available hydrogen and fuel cell vehicles are offered on the retail market.
- (2) Providing convenient access to hydrogen fueling stations for at least 60 percent of Californians.
- (3) Phasing in the maximum feasible number of hydrogen and fuel cell vehicles in appropriate application in California’s state vehicle fleet.

(4) Providing a commitment to the development of renewable sources of energy for hydrogen production; and be it further

*Resolved*, That state agencies in California will continue their existing work with local and regional government organizations in the state to address issues associated with accelerating the production of hydrogen, the installation of hydrogen fueling stations, and other issues that need to be addressed to ensure commercialization; and be it further

*Resolved*, That the State of California requests that the United States Department of Energy recognize California's progress and commitment to accelerating the commercialization of hydrogen and fuel cell vehicles, and ensure that appropriate federal funding be provided to support those activities in California; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, the United States Secretary of Energy, the United States Secretary of Transportation, the Administrator of the United States Environmental Protection Agency, each Senator and Representative from California in the Congress of the United States, the Chair of the State Air Resources Board, the Chair of the California Energy Resources Conservation and Development Commission, and the Director of General Services.

---

## RESOLUTION CHAPTER 100

Assembly Joint Resolution No. 65—Relative to the Soboba Band of Luiseño Indians.

[Filed with Secretary of State June 24, 2004.]

WHEREAS, The Legislature of California believes that it is important to protect and promote the tribal sovereign governmental rights, the cultural identity, and the interests of federally recognized tribes; and

WHEREAS, The Soboba Band of Luiseño Indians (Soboba tribe) has lived in the area alongside the San Jacinto River in California where their reservation now exists since long before the Spaniards first arrived in the vicinity in the 16th century; and

WHEREAS, The Soboba tribe built the first irrigation ditch in the San Jacinto Valley, and when American settlers entered the valley in the 1860s, the Soboba tribe possessed a self-sustaining agricultural economy, built upon the tribe's rich water resources; and

WHEREAS, The Soboba tribe's water supplies began disappearing when the newcomers diverted water from the San Jacinto River and built dams in upstream tributaries for irrigation of agriculture in the Hemet-San Jacinto Valley; and

WHEREAS, By the dawn of the 20th century, there was starvation in what had been lush areas of grape vineyards, rows of melons, beans, and corn, and extensive orchards of peaches, pears, apricots, and oranges; and

WHEREAS, In the 1930s, the Metropolitan Water District of Southern California (Metropolitan Water District) dug a 13-mile tunnel through the San Jacinto Mountains, about 3.5 miles northwest of the Soboba tribe's reservation, which pierced underground faults and fractures in the mountains that stored large amounts of groundwater, causing groundwater to flood into the tunnel and causing the springs, creeks, and wells on the reservation to dry up, thus eliminating the sources of surface irrigation water on the reservation; and

WHEREAS, In 1950, the tribe sued the federal government in the Indian Claims Commission for failing to protect it from the effect of the San Jacinto tunnel, as well as from the groundwater pumping and upstream diversions of surface water that depleted the reservation's water resources; and

WHEREAS, The federal government settled the aforementioned lawsuit in 1991 and joined with the tribe in attempting to negotiate an overall resolution of the reservation's water-related claims; and

WHEREAS, The Eastern Municipal Water District and the Lake Hemet Municipal Water District, the local agencies that provide domestic and agricultural water service using local surface and groundwater supplies and imported water supplied by the Metropolitan Water District, along with the Metropolitan Water District as the supplier of a supplemental source of water to the Hemet-San Jacinto Valley area, are willing to address the tribe's water-related claims in the context of a water management program that will result in a water supply for the tribe as well as other water users in the area; and

WHEREAS, Negotiations between those water districts, the United States Department of the Interior, and the Soboba tribe have progressed to the point where a tentative settlement has been reached; and

WHEREAS, The parties expect to finalize the terms of the settlement of the land and water claims by the end of 2004 and expect to introduce settlement legislation in the 108th Congress; and

WHEREAS, The terms of the settlement for the Soboba tribe include: an adequate and secure future water supply; funds from local water districts for economic development in recognition of the tribe's newly agreed-upon water right and in return for the right to use the tribe's unused water supply; funds from the United States for water development; and 128 acres of replacement land for commercial development; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of California does hereby support the

resolution of the ongoing negotiations between the Soboba tribe, the Eastern Municipal Water District and the Lake Hemet Municipal Water District, the Metropolitan Water District, and the United States Department of the Interior to reach a water and land settlement that is consistent with federal law; and be it further

*Resolved*, That the Legislature of California memorializes the United States Department of the Interior to give its full support to the settlement legislation and memorializes the United States Congress to pass that legislation; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, to the Speaker of the United States House of Representatives, to the Senate Majority Leader, and to each Senator and Representative from California in the Congress of the United States.

---

#### RESOLUTION CHAPTER 101

Assembly Joint Resolution No. 68—Relative to the federal child nutrition programs.

[Filed with Secretary of State June 24, 2004.]

WHEREAS, The federal School Lunch Program was declared to be the policy of the United States Congress in 1946, as a measure of national security; and

WHEREAS, Over 503 million lunches are served in over 10,000 California public schools each year; and

WHEREAS, The federal School Breakfast Program has contributed to the welfare of California children for over 30 years by making nutritious meals available in California public schools; and

WHEREAS, Over 167 million breakfasts are served in over 7,500 California public schools each year; and

WHEREAS, Child nutrition programs, including the federal School Lunch Program and federal School Breakfast Program, are important to the health and well-being of the children of California; and

WHEREAS, Child nutrition programs encourage the domestic consumption of nutritious agricultural commodities; and

WHEREAS, There is evidence of continued need for child nutrition programs to nourish the minds and bodies of California children; and

WHEREAS, School meal programs offer nutritionally balanced and low-cost or free breakfasts and lunches to California children each schoolday; and

WHEREAS, Reduced price school meals are offered, in participating schools, to children in families that are between 130 percent of the applicable family size income levels and 185 percent of the applicable family size income levels; and

WHEREAS, Many families in the reduced price income level find it difficult to pay the reduced fee and, for some families, the fee is an insurmountable barrier to participation; and

WHEREAS, The Special Supplemental Food Program for Women, Infants, and Children provides free benefits to all participants in families with income below 185 percent of the applicable family size income levels; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California supports the reauthorization of federal child nutrition programs and urges the President and the Congress of the United States to eliminate the reduced price school meals program category, and expand the free school meals program category to provide free meals for all children in families with income below 185 percent of the applicable family size income levels; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 102

Senate Concurrent Resolution No. 83—Relative to California Aphasia Awareness Month.

[Filed with Secretary of State June 24, 2004.]

WHEREAS, Aphasia is a communication impairment caused by brain damage, typically resulting from a stroke; and

WHEREAS, While aphasia is most often the result of stroke or brain injury, it can also occur in other neurological disorders, such as in the case of a brain tumor; and

WHEREAS, Many people with aphasia also have weakness or paralysis in their right leg and right arm, usually due to damage to the left hemisphere of the brain, which controls language and movement on the right side of the body; and

WHEREAS, The effects of aphasia may include a loss or reduction in ability to speak, comprehend, read, and write, while intelligence remains intact; and

WHEREAS, Stroke is the third largest cause of death, ranking behind “diseases of the heart” and all forms of cancer; and

WHEREAS, Stroke is a leading cause of serious, long-term disability in the United States; and

WHEREAS, There are about 4.8 million stroke survivors alive today; and

WHEREAS, It is estimated that there are about 700,000 strokes per year in the United States, with approximately one third of these resulting in aphasia; and

WHEREAS, Aphasia affects at least 1,000,000 people in the United States; and

WHEREAS, More than 200,000 Americans acquire the disorder each year; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature recognizes June of each year as California Aphasia Awareness Month; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 103

Senate Constitutional Amendment No. 18—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 5 of Article II thereof, and by adding Section 9 to Article III thereof, relating to state government.

[Filed with Secretary of State June 24, 2004.]

*Resolved by the Senate, the Assembly concurring,* That the Legislature of the State of California at its 2003–04 Regular Session commencing on the second day of December 2002, two-thirds of the membership of each house concurring, hereby proposes to the people of the State of California that the Constitution of the State be amended as follows:

First—That Section 5 of Article II thereof is amended to read:

SEC. 5. (a) The Legislature shall provide for primary elections for partisan offices, including an open presidential primary whereby the candidates on the ballot are those found by the Secretary of State to be recognized candidates throughout the nation or throughout California for the office of President of the United States, and those whose names are placed on the ballot by petition, but excluding any candidate who has withdrawn by filing an affidavit of noncandidacy.

(b) A political party that participated in a primary election for a partisan office has the right to participate in the general election for that

office and shall not be denied the ability to place on the general election ballot the candidate who received, at the primary election, the highest vote among that party's candidates.

Second—That Section 9 is added to Article III thereof, to read:

SEC. 9. The proceeds from the sale of surplus state property occurring on or after the effective date of this section, and any proceeds from the previous sale of surplus state property that have not been expended or encumbered as of that date, shall be used to pay the principal and interest on bonds issued pursuant to the Economic Recovery Bond Act authorized at the March 2, 2004, statewide primary election. Once the principal and interest on those bonds are fully paid, the proceeds from the sale of surplus state property shall be deposited into the Special Fund for Economic Uncertainties, or any successor fund. For purposes of this section, surplus state property does not include property purchased with revenues described in Article XIX or any other special fund moneys.

---

#### RESOLUTION CHAPTER 104

Assembly Joint Resolution No. 69—Relative to specialty crops.

[Filed with Secretary of State June 25, 2004.]

WHEREAS, Rapid conversion of California's farm and ranch lands for nonfarm use has contributed to the state's increased dependence upon imported food; and

WHEREAS, According to the National Agricultural Statistical Service of the United States Department of Agriculture, 3.7 million acres of farm land (more than 10 percent of total farm land) was lost between 1990 and 2003; and

WHEREAS, Increased dependence upon imported foods has created increased vulnerability to exotic pests and diseases, evidenced by 63,527 shipments of prohibited commodities intercepted and destroyed or shipped back out-of-state in 2002; and

WHEREAS, According to the California Department of Food and Agriculture's (hereafter CDFA) January 2004 report Protecting California from Biological Pollution, interception of quarantined pests at point-of-entry is the state's primary defense against the introduction and spread of biological pollution; and

WHEREAS, Every dollar spent on early intervention against exotic and invasive species, on average prevents seventeen dollars (\$17) in later expenses, as seen by the following:

(a) CDFA Plant Health Pest Prevention Services spent two hundred fifty-eight million dollars (\$258,000,000) to eradicate Mediterranean

fruit fly infestations between 1980 and 1996. Just four million four hundred thousand dollars (\$4,400,000) has been spent since the Medfly Exclusion Program was launched in 1996.

(b) CDFA Animal Health & Food Safety Services in 2002 reported that Exotic Newcastle Disease, the most fatal viral disease known to birds, required more than 3.4 million birds to be destroyed at a cost of more than three million six hundred thousand dollars (\$3,600,000) to California and one hundred sixty-six million four hundred thousand dollars (\$166,400,000) to the federal government.

WHEREAS, Pest and disease prevention and exclusion is critical to all states of this nation and to our populations, in order to protect the health and welfare of the public and the jobs within agriculture and its related industries; and

WHEREAS, The California Legislature recognizes the importance of the partnership between federal and state governments to protect California's food and fiber from exotic pests and diseases, and the importance of promoting the role local agriculture has in supporting the daily living needs of all Californians and United States citizens; and

WHEREAS, The Legislature recognizes the farm worker's importance to agriculture production and the dependence of rural economies on agriculture; and

WHEREAS, The California Legislature recognizes the role the United States Congress played in delivering the 64 million dollar grant from the United States Department of Agriculture in 2001, which was the basis for the Buy California Initiative promoting California Grown products; and

WHEREAS, The California Legislature recognizes the value of federal funds available to support important programming including the Western Institute for Food Safety managed by the University of California at Davis; the 5 A Day For Better Health Nutrition Education Campaign managed by the state Department of Health Services; and the Linking Education, Activity and Food (LEAF) Program managed by the state Department of Education; and

WHEREAS, The California Legislature believes that there is a need, but no state funding, to expand programs that integrate food nutrition and schools, including, but not limited to, local fresh fruits and vegetables in school lunch programs, and educating school officials about on the seasons of state grown specialty crops; and

WHEREAS, The United States Congress currently is considering HR 3242, the Specialty Crop Competitiveness Act of 2003; and

WHEREAS, HR 3242 would continue the essential federal funding that started in 2001 that helped to support California's increasingly challenged food and fiber production infrastructure with the tools

necessary to support food and fiber security, nutrition, and education; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully requests that the Congress of the United States of America support the passage of HR 3242, the Specialty Crop Competitiveness Act of 2003; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

#### RESOLUTION CHAPTER 105

Assembly Concurrent Resolution No. 237—Relative to National Fishing and Boating Week.

[Filed with Secretary of State June 28, 2004.]

WHEREAS, National Fishing and Boating Week, June 5 through June 13, 2004, is a fantastic opportunity for families to spend time together on the water; it is a special week, filled with events nationwide that provide families an opportunity to reconnect, create new memories, and have fun together on the water; and

WHEREAS, Fishing and boating are cherished American traditions, activities that promote family values and unity, as well as wholesome recreation and outdoor lifestyles; and

WHEREAS, During National Fishing and Boating Week, hundreds of communities across the country will host fishing and boating events designed to give families the opportunity to participate in these great pastimes; and

WHEREAS, Every year, more than 50,000,000 Americans participate in fishing and boating, which is more people than play golf and tennis combined; and

WHEREAS, Participation not only connects people with nature, it also helps to fund the management and conservation of local aquatic environments; and

WHEREAS, Sport fishing is vital to California's tourism economy, with sales of over \$45,000,000 in sport fishing licenses every year, \$2,300,000,000 in retail sales in the sport fishing industry, which also produces \$1,200,000,000 in wages and salaries, 43,000 jobs, and \$224,000,000 in state taxes; and

WHEREAS, Fishing gives families a break from their hectic schedules and time to reconnect with one another, and nothing can match the memories that a family will make, and bonds they will build, while spending time on the water; and

WHEREAS, The California Legislature recognizes the importance of maintaining California's Hatcheries Program so that future generations will be able to enjoy this exciting, family oriented activity; and

WHEREAS, Over a dozen studies have shown that being with family and friends, relaxing, and being outdoors and close to nature are the primary reasons people spend time on the water; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the California Legislature joins in proclaiming the week of June 5 through June 13, 2004, as National Fishing and Boating Week; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 106

Senate Concurrent Resolution No. 81—Relative to the California Task Force on Youth and Workplace Wellness.

[Filed with Secretary of State June 28, 2004.]

WHEREAS, The State of California is currently facing a growing obesity crisis in which 60 percent of all adults are overweight, 75 percent of children are unfit, and 25 percent of children are overweight; and

WHEREAS, Healthy workplace and school environments can greatly enhance the quality of life for California workers, children and their families, prevent burnout and illness, and enhance productivity of California businesses and students; and

WHEREAS, The traditional workplace environment in the United States does not prioritize employee wellness or recognize the link between employee health and productivity; and

WHEREAS, California's schools often present a model of eating and activity that is incongruous with the health habits encouraged in health, nutrition, and physical education; and

WHEREAS, Californians' obesity and overweight rates are leading to an epidemic of Type II diabetes (formerly known as adult onset diabetes) among children and adults, with projections that one in three children born in 2004 will contract the disease; and

WHEREAS, The current rates of inactivity, overweight, obesity, and diabetes are costing California 24.6 billion dollars each year in health costs and lost productivity; and

WHEREAS, A legislative task force is necessary to provide a framework and support to help California companies evolve to a more holistic, long-term approach to employees and working conditions; and

WHEREAS, A legislative task force is necessary to provide a framework and support to California's schools in order to create healthier education environments; and

WHEREAS, The California Task Force on Youth and Workplace Wellness was established in 2001 by SCR 40 (Res. Ch. 111, Stats. 2001), and its membership expanded by SCR 99 (Res. Ch. 134, Stats. 2001), to promote fitness and health in the Legislature, schools, and workplaces; and

WHEREAS, The California Task Force on Youth and Workplace Wellness has successfully elevated the profile of fitness in the Legislature, in schools and workplaces statewide, and has created programs such as the Superintendent's Challenge and the California Fit Business Award to continue encouraging healthy eating and activity environments for all Californians; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the California Task Force on Youth and Workplace Wellness is hereby continued, to promote fitness and health in the Legislature, schools, and workplaces; and be it further

*Resolved,* That the task force shall be comprised of Members of the Legislature and experts as follows:

(a) The task force shall have 18 voting members, with additional advisory members and alternates as requested or needed.

(b) The Speaker of the Assembly shall appoint two Members from the Assembly, and the Senate Committee on Rules shall appoint two Members from the Senate. Additionally, both the Speaker of the Assembly and the Senate Committee on Rules shall each appoint alternate Members from the Assembly and from the Senate.

(c) Additionally, both the Speaker of the Assembly and the Senate Committee on Rules shall each appoint members, from each of the following categories:

- (1) Two members from the field of education.
- (2) One member from the field of industry or business.
- (3) Two members from the field of health.
- (4) One member from the field of fitness.

(5) One member to serve as a "youth representative" between the ages of 15 and 19 years; and be it further

*Resolved*, That the Members of the Legislature who serve on the task force shall serve only to the extent that their service is consistent with their duties as Members of the Legislature; and be it further

*Resolved*, That the Senate Committee on Rules shall name the chair of the task force; and be it further

*Resolved*, That members of the task force shall be at-will appointees serving at the pleasure of the Senate Committee on Rules and the Speaker of the Assembly and shall be appointed before July 1, 2004; and be it further

*Resolved*, That the members of the task force shall conduct the business of the task force on a volunteer basis and shall not receive a salary for services, nor be reimbursed for travel and other expenses incurred in the performance of their duties as task force members; and be it further

*Resolved*, That the task force shall have all of the following duties:

(a) To meet twice a year to discuss strategies. The task force shall strive to generate media and public interest in the activities of the task force and its annual meetings in a manner that elevates the importance of healthy and fit schools and workplaces in the minds of all Californians.

(b) To support the existing task force Internet Web site, and to publicize the task force mission statement and inform visitors of resources available to California citizens, schools, and companies. Features shall include a library of wellness tips, a downloadable wellness handbook, case studies of successful school and corporate wellness programs, including individual success stories, and biographies of task force members.

(c) To generate media and legislative attention for the task force and increase awareness of wellness issues.

(d) To submit a report on the work of the task force to the Legislature on or before June 30, 2006; and be it further

*Resolved*, That the task force shall establish two subcommittees, one on youth wellness, and another on corporate wellness, to specialize work and expertise. Other subcommittees may be established as the members of the task force deem appropriate. Each subcommittee shall report on its work and findings to the entire task force; and be it further

*Resolved*, That the task force is encouraged to partner, whenever possible, with the Governor's Council on Fitness and Sports in order to link the efforts of the Legislature and the Administration; and be it further

*Resolved*, That the task force is authorized to accept private funds and in-kind donations to pay expenses incurred in conducting its business. These expenses include, but are not limited to, staff, administrative, meeting, and publication expenses; and be it further

*Resolved*, That the task force shall cease to exist on July 1, 2006, unless a later enacted resolution that is enacted before that date deletes or extends that date; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 107

Senate Joint Resolution No. 20—Relative to regulation of financial institutions.

[Filed with Secretary of State June 28, 2004.]

WHEREAS, The Senate and Assembly Banking Committees of the California Legislature have held an informational hearing on the doctrine of federal preemption of state laws and the impact on California and its financial regulators; and

WHEREAS, The California Constitution provides that an administrative agency of the state has no authority to declare a state law unenforceable unless an appellate court determines that the statute is prohibited by federal laws or regulations; and

WHEREAS, There are two areas where tension exists between federal and state law in the fields of regulation of financial institutions, which are the areas relating to the jurisdiction over the operating subsidiaries of national banks and consumer protection; and

WHEREAS, Operating subsidiaries of national banks engage in various financial services such as mortgages, insurance, and securities-brokerage services that are beyond the scope of the business of banking as originally conceived in the National Bank Act of 1864; and

WHEREAS, Operating subsidiaries of national banks are creatures of state law, not federal law, and are incorporated under state law and in the past have applied for licenses from state regulatory authorities to operate within California; and

WHEREAS, In August of 2001, and in January of 2004, the Office of the Comptroller of the Currency (OCC) promulgated a regulation that effectively stated that the OCC was the exclusive regulator of national banks and their operating subsidiaries and this regulation placed the OCC on a collision course with California regulators of financial institutions; and

WHEREAS, The OCC has appeared as *amicus curiae* in several recent federal court cases opposing consumer protection legislation that has been passed by the California Legislature, on the basis that the

legislation interfered with the power of national banks and their operating subsidiaries to engage in the business of banking; and

WHEREAS, There has been a clear, consistent, and premeditated effort by the federal government, specifically on the part of the OCC, to exercise jurisdiction in financial regulation matters that were previously the jurisdictional domain of the states, and the exercise of the jurisdiction has been assisted by a complacent United States Congress and deferential court system; and

WHEREAS, Certain interpretations of law by the OCC and the Office of Thrift Supervision have prevented the application of state consumer protections to federally-chartered financial institutions, and frustrate the efforts of state regulators and legislators to extend these protections to all citizens; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California, recognizing that the authority to resolve these issues rests with the federal courts and the United States Congress, respectfully requests that the United States Congress disapprove the rule submitted by the Office of Comptroller of the Currency relating to bank activities and regulations published at 69 Federal Register 1895 (January 13, 2004), so the rule will have no force or effect, and if necessary, consider legislation that will prevent the unilateral expansion of jurisdiction over financial institutions by federal regulators without the specific endorsement of the elected representatives of the United States Congress; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to each Senator and Representative from California in the Congress of the United States, to the Office of the Comptroller of the Currency, and to the Office of Thrift Supervision.

---

## RESOLUTION CHAPTER 108

Assembly Concurrent Resolution No. 168—Relative to Korean War Armistice Day.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, On June 25, 1950, Communist armed forces from North Korea violently disrupted the peace in the Land of the Morning Calm as they crossed the 38th parallel and invaded South Korea; and

WHEREAS, The Communist forces advanced rapidly and ruthlessly and, at the outset, appeared close to an easy victory. President Truman, recognizing the threat to South Koreans and their democracy, responded

swiftly and decisively. On June 27, 1950, President Truman committed the first United States forces to combat in South Korea; and

WHEREAS, On some of the world's harshest terrain, through the scorching heat of summer and numbing cold of winter, soldiers from California fought to push the Communist North Koreans back toward the 38th parallel; and

WHEREAS, Through months of attack and counterattack, falling back and regaining ground, United States troops and our allies refused to succumb to the attacks of enemy Communist forces. Finally, negotiators signed an armistice agreement at Panmunjom on July 27, 1953. Communist North Korean forces withdrew across the 38th parallel, and the Republic of South Korea regained its status as a free, democratic nation; and

WHEREAS, The veterans who fought in the Korean War will never forget their experiences fighting for freedom against communism and neither will their families. These veterans paid the ultimate price and paved the way for the foundation of peace and freedom that so many enjoy today; and

WHEREAS, In later years, while the Korean War would sometimes be called "The Forgotten War," although more than 34,000 American lives were lost in combat, 92,000 were wounded, and more than 8,000 were listed as missing in action or taken prisoner, the members of the California Legislature have not forgotten. We pay homage to the courage of our veterans who fought in Korea and to those who died there or whose fate is still unknown. We recall the grief of their families and the gratitude of the people of South Korea. We remember that, in the Korean War, our soldiers' brave stand against the evil advances of communism laid the foundations of peace and freedom so many nations enjoy today; and

WHEREAS, It is fitting that all Californians should take time and gather to observe the anniversary of the Korean War Armistice Day and honor our veterans who so courageously protect freedom; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That Californians be urged to observe the anniversary of the Korean War Armistice Day and do hereby proclaim July 27, 2004, as Korean War Armistice Day, calling upon all Californians to observe this with appropriate ceremonies and activities that honor and give thanks to our distinguished Korean War veterans; and be it further

*Resolved,* That Governor Arnold Schwarzenegger proclaim July 27, 2004, as Korean War Armistice Day and instruct all state departments, agencies, interest groups, organizations, and individuals to fly the flag of the United States at half-mast on July 27, 2004, in memory of the

Californians who died as a result of their service in Korea; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the California Department of Veterans Affairs and to the author for appropriate distribution.

---

RESOLUTION CHAPTER 109

Assembly Concurrent Resolution No. 178—Relative to the Compressed Air Foam System (CAFS).

[Filed with Secretary of State July 8, 2004.]

WHEREAS, The Compressed Air Foam System (CAFS) and new gel technologies were successfully used to fight the 2003 Southern California wildfires; and

WHEREAS, CAFS and gels do things that water alone cannot do, and those substances can more efficiently cool a fire's fuel by penetrating the fuel faster and deeper, thereby better cutting off the fuel from its oxygen supply; and

WHEREAS, CAFS and gel technologies waste far less water than conventional firefighting methods, which conserves water, reduces water damage, and saves taxpayer money; and

WHEREAS, Foams and gels used in fighting fires prevent environmental degradation by reducing smoke emissions and damage, decrease runoff that carries pollutants into water sources, and are biodegradable and nontoxic; and

WHEREAS, Foams and gels are also effective in protecting structures and landscaping from radiated heat from nearby fires, and in trapping falling embers and sparks; and

WHEREAS, There are always new technologies that lead to progress in the science of firefighting; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature of the State of California calls upon all city and county fire departments to make themselves aware of CAFS, gels, and other new firefighting technologies that may be used to fight fires and provide benefits in the cities and counties served by those fire departments, and to keep abreast of any new technologies that may be developed in the future; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of Forestry and Fire Protection, the State Fire Marshal, and the author for appropriate distribution.

---

RESOLUTION CHAPTER 110

Assembly Concurrent Resolution No. 221—Relative to student volunteer programs.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, Everyday, millions of Americans volunteer, using their time, talents, and compassion to make a difference in the lives of others; and

WHEREAS, By mentoring a child, caring for an elderly neighbor, teaching someone to read, or bringing food and clothes to those who need them, Americans are helping to foster a culture of service, citizenship, and responsibility for generations to come; and

WHEREAS, Both the President and Members of Congress have implemented special programs to promote and honor volunteers; and

WHEREAS, Recognizing and honoring volunteers sets a standard for service to others, by inspiring others to make volunteering a central part of their lives and encouraging a sustained commitment to civic participation; and

WHEREAS, Encouraging high school students to engage in volunteer and community service activities and acknowledging their participation in these activities will foster a culture of service, citizenship, and responsibility, and motivate them to participate in those activities as adults; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That Members of the California State Legislature designate May 1 as Student Volunteer Day, a day for Members to promote volunteer service and civic participation to high school students in their districts and recognize those students in their district who volunteer their time to the community annually from June 1 to April 1, by awarding students who complete 250 hours of service a certificate of acknowledgment ; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 111

Assembly Joint Resolution No. 61—Relative to prescription drugs.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, Section 1121 of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (P.L. 108-173) permits the importation of prescription drugs from Canada into the United States by pharmacists and wholesalers if the Secretary of the United States Department of Health and Human Services certifies to the Congress of the United States that importation will pose no additional risk to the public's health and safety and will result in a significant reduction in the cost of prescription drugs to the American consumer; and

WHEREAS, Skyrocketing prescription drug costs are placing a growing burden on personal budgets and governmental programs; and

WHEREAS, Prescription drug spending in the United States in 2002 increased 15.3 percent, to a total of \$162.4 billion; and

WHEREAS, In 2002, consumers spent \$48.6 billion out-of-pocket on prescription drugs, a \$6.1 billion increase from the year before; and

WHEREAS, Annual price increases in the cost of prescription drugs have hit especially hard on the elderly and people with chronic diseases; and

WHEREAS, A survey taken among Medicare beneficiaries found that 34 percent of seniors cite cost as the greatest barrier to taking their prescription drugs, 37 percent of seniors spend more than \$100 per month on prescription drugs, 20 percent of the time patients do not take medication exactly prescribed due to cost, 18 percent have skipped medication to make their prescriptions last longer, and 25 percent are prevented from filling a prescription or refill on time at least once a month due to cost; and

WHEREAS, The federal government has done little to address skyrocketing prescription drug prices; and

WHEREAS, The Medicare Prescription Drug, Improvement and Modernization Act of 2003, Public Law 108-391, specifically forbids the federal government from negotiating lower prices with drug companies without congressional approval; and

WHEREAS, Prohibiting the federal government from negotiating for the lowest prescription drug price for Medicare beneficiaries will prevent the federal government from saving the taxpayers billions of dollars by means of bulk purchasing discounts; and

WHEREAS, An increasing number of Americans are turning to Canada to purchase prescription drugs for 40 to 75 percent less than in this country; and

WHEREAS, Now an estimated one million Americans are buying drugs in Canada because the high price of prescription drugs in the United States makes their medication increasingly unaffordable; and

WHEREAS, Cities and states are investigating whether the importation of prescription drugs from Canada could reduce health care costs for constituents, governmental employees, and government health care programs; and

WHEREAS, Cities and states that save money through importation could use these funds to save threatened police, fire, and education services; and

WHEREAS, Efforts by a number of cities, including Springfield, Massachusetts, and the States of Illinois, Minnesota, and New Hampshire, to import prescription drugs from Canada have received considerable attention; and

WHEREAS, Springfield, Massachusetts, estimates it could save \$4 to \$9 million a year by an importation program for city employees and retirees; and

WHEREAS, Boston, Massachusetts, estimates that a limited importation program could save the city about \$1 million a year; and

WHEREAS, Illinois estimates it could save \$34 million annually from an importation program for its employees; and

WHEREAS, An Illinois study found that pharmacy practices in the Canadian Provinces of Manitoba and Ontario are equal to or superior to pharmacy practices in the United States; and

WHEREAS, It should be a priority to offer consumers as well as state and local governments the ability to purchase safe and affordable prescription drugs; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the Secretary of the United States Department of Health and Human Services to certify to the Congress of the United States that implementation of Section 1121 of the Medicare Prescription Drug, Improvement and Modernization Act of 2003, permitting the importation of prescription drugs from Canada into the United States by pharmacists and wholesalers, will pose no additional risk to the public's health and safety and will result in a significant reduction in the cost of prescription drugs to the American consumer; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 112

Assembly Joint Resolution No. 62—Relative to prescription drug costs.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, Rapidly increasing health care costs are placing a growing burden on employers, workers, and publicly funded health programs; and

WHEREAS, Recent federal statistics show that health care spending increased 9.3 percent in 2002, which is a rate five times greater than the overall rate of inflation and the largest increase in 11 years; and

WHEREAS, Employer health premium costs in the United States rose 14.7 percent in 2003 and are projected to increase by another 12.6 percent in 2004; and

WHEREAS, One of health care's major cost drivers has been prescription drugs; and

WHEREAS, Prescription drug spending increased 15.3 percent in 2002 after increasing an average 17.3 percent in 2000 and 2001; and

WHEREAS, Prescription drug costs for the taxpayer financed Medi-Cal fee-for-service program reached \$2.9 billion in the 2002–03 fiscal year and are projected to rise to \$3.8 billion in the 2004–05 fiscal year; and

WHEREAS, Private health plans and the California Public Employees' Retirement System, which is the state employees' health program, report annual double-digit increases in prescription drug spending, despite benefit changes such as increased copayments and multitiered copayments that increase the burden on subscribers; and

WHEREAS, Seniors who require more medications on average have been especially hard hit by rising prescription drug costs and copayments; and

WHEREAS, Even seniors with drug coverage find the cost of prescription drugs often far exceeds their coverage limits and must choose between food, rent, and needed medications; and

WHEREAS, Americans are paying more for prescription drugs than people in other countries; and

WHEREAS, One drug can cost five to 10 times more in the United States than in Canada or Europe; and

WHEREAS, One in five adults cannot afford to buy some or all of his or her prescribed medicines; and

WHEREAS, Unaffordable prescription drugs and budget deficits have forced American cities, states, and individuals to turn to Canada for affordable drugs; and

WHEREAS, Negotiating price reductions has been shown to lower drug prices in various state adopted programs, including the Medi-Cal program; and

WHEREAS, The Veterans Administration aggressively negotiates lower drug prices through its nationwide pharmacy benefits program, which provides drugs for veterans at deep discounts; and

WHEREAS, Last year, the Veterans Administration filled 108 billion prescriptions at a cost of \$2.8 billion, with savings to the federal government from negotiated drug prices that are estimated to be in the hundreds of millions of dollars; and

WHEREAS, The Veterans Administration purchasing system could be adopted to save billions of dollars for the Medicare program and its beneficiaries, as well as state and local government programs; and

WHEREAS, The federal Medicare Prescription Drug, Improvement, and Modernization Act of 2003 does nothing to control the high cost of drugs and in fact, explicitly prohibits the federal government from using its volume purchasing power to lower drug prices that will be paid by the government as part of the new Medicare drug benefit; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California calls upon the California delegation of the United States Senate and House of Representatives to sponsor and support legislation to repeal any Medicare provisions that would prohibit the federal government from negotiating fair drug prices, specifically as found in Section 1860D of the federal Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173); and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

### RESOLUTION CHAPTER 113

Assembly Joint Resolution No. 74—Relative to hybrid electric vehicles.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, The price for gasoline has reached record levels in California, climbing to an all-time high in Los Angeles and the bay area, and potentially rising even higher during the summer; and

WHEREAS, Increasing gasoline prices can have a negative impact on California's economy because rising oil prices drive up the average cost of production of goods and services throughout the economy and reduce the real income of consumers through higher fuel prices; and

WHEREAS, California is susceptible to chronic price spikes in gasoline due to tight supplies of refined gasoline and a lack of competition among the companies that produce and sell gasoline; and

WHEREAS, California's demand for petroleum transportation fuels will continue to grow, and is expected to increase by 50 percent in the next 20 years, as the number of registered vehicles in California increases to 31.5 million by the year 2020; and

WHEREAS, California's refining capacity has not been able to keep up with the growing demand for transportation fuels and is increasingly dependent on the importation of foreign crude oil, much of which comes from politically unstable regions of the world; and

WHEREAS, This growing dependence on oil from unstable regions makes the state's economy more vulnerable to external disruptions and volatile fuel prices; and

WHEREAS, Increasing use of petroleum fuels results in additional climate change emissions including carbon dioxide, and global climate change is projected to cause environmental and economic damage to California; and

WHEREAS, Increasing use of gasoline causes a decline in air quality, thereby adversely affecting public health; and

WHEREAS, The world supply of petroleum is expected to fall short of demand after the year 2020, causing the price of petroleum products to increase significantly; and

WHEREAS, On-road fuel economy of cars and light-duty trucks has remained relatively constant since 1985, and has actually decreased in years as consumers purchase greater percentages of sport utility vehicles; and

WHEREAS, Most technological improvements to engines and vehicles have been used to increase performance and overcome gains in weight, rather than to improve fuel economy; and

WHEREAS, Californians would consume 30 percent less gasoline by 2020 if fuel efficiency in new model light-duty vehicles were doubled to at least 40 miles per gallon, and that reduction in gasoline consumption would result in increased air quality throughout the state as well as a reduction in the state's dependency on foreign sources of petroleum; and

WHEREAS, Hybrid electric drive train technology can significantly increase vehicle fuel efficiency and, simultaneously, greatly reduce a vehicle's smog-forming emissions; and

WHEREAS, Several vehicle models, using hybrid electric drive train technology that achieves at least 45 miles per gallon and as much as 70 miles per gallon fuel efficiency ratings, are readily available to consumers in California; and

WHEREAS, Californians would greatly reduce their gasoline dependence, improve their own economic condition, and significantly better the environment and public health if they were to embrace the use of hybrid electric vehicles that achieve at least 45 miles per gallon ratings; and

WHEREAS, The primary purpose of High Occupancy Vehicle (HOV) lanes is to relieve traffic congestion by offering persons who carpool an easier commute; and

WHEREAS, In many instances, California's HOV lanes have excess capacity that could allow them to accommodate single-occupant hybrid electric vehicles temporarily, without degrading the HOV lanes' traffic flow or diminishing their attractiveness to carpools; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the President and the Congress of the United States of America are urged to take legislative action to allow single-occupant hybrid electric vehicles that achieve a fuel economy highway rating of at least 45 miles per gallon, and conform to any additional emissions category of the federal Environmental Protection Agency or the California Air Resources Board, or meet any other requirements identified by the responsible agency, to travel in California's High Occupancy Vehicle (HOV) lanes; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

#### RESOLUTION CHAPTER 114

Senate Concurrent Resolution No. 53—Relative to the Firefighter Steven Rucker Memorial Highway.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, In late October 2003, southern California experienced several devastating wildfires that exceeded the devastation of any fires in the past century; and

WHEREAS, In San Diego County alone, 400,000 acres burned, 2,600 homes were destroyed, and 17 lives were lost; and

WHEREAS, The citizens of San Diego County are grateful for the sacrifices and risks taken by the brave men and women who fought the fires to protect their lives and property; and

WHEREAS, Dedicated firefighters from across California and nationwide responded to the urgent call for assistance and put their lives and personal safety at risk to save the lives and property of the residents of San Diego County; and

WHEREAS, Members of the Armed Forces courageously met their country's call to duty, providing valuable firefighting assets and assistance to California's emergency response efforts in keeping with the finest traditions of United States military service; and

WHEREAS, All of those who fought the fires worked in unusually dangerous situations because of the fast-moving, wind-driven fires; and

WHEREAS, Firefighters displayed courage and uncommon bravery in working the firelines for long hours and with little rest, often while their own homes and families were in jeopardy elsewhere, and many of these firefighters lost their own homes to the fires while defending the lives and property of others; and

WHEREAS, Through the tireless and heroic efforts of California's firefighters, volunteers, and members of the community, the historic town of Julian was ultimately saved from destruction by the wildfires; and

WHEREAS, Firefighter Steven Rucker of Novato, California gave the ultimate sacrifice and lost his life in San Diego County on October 29, 2003, fighting the advancing fireline as it threatened the town of Julian and neighboring mountain communities; and

WHEREAS, Steven Rucker fulfilled his lifelong ambition of service to God and Country as an Eagle Scout and then as a firefighter serving the people of California and protecting their lives and property; and

WHEREAS, Steven Rucker leaves his wife Cathy, his daughter Kerstin, and son Wesley; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the California State Legislature commends the firefighters of California, members of the United States Armed Forces, homeowners, volunteers, and countless other public servants who bravely and tirelessly fought to save the lives and property of California's fire victims during the wildfires of 2003; and be it further

*Resolved,* That the Legislature hereby designates that portion of State Highway Route 79 from the intersection with Route 78 in Santa Ysabel to the intersection with Engineers Road in Cuyamaca in San Diego County as the "Firefighter Steven Rucker Memorial Highway"; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and, upon donations being provided from nonstate sources covering that cost, to place, or cause to be placed, those plaques and markers; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 115

Senate Concurrent Resolution No. 61—Relative to California Hispanic Heritage Month.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, President Lyndon B. Johnson first proclaimed National Hispanic Heritage Week on September 17, 1968, in recognition of the contributions of Hispanic Americans to American culture and history; and

WHEREAS, The original weeklong commemoration was changed by Public Law No. 100-402 to National Hispanic Heritage Month on January 1, 1989; and

WHEREAS, The objectives of National Hispanic Heritage Month are to create a greater awareness of the contributions of Hispanic Americans to American culture, to illustrate the diversity of the Hispanic American community, and to encourage a greater curiosity within young people about the rich history and cultural heritage of Hispanic Americans; and

WHEREAS, Hispanic influence is evident in American culture in, among other things, music, arts, sciences, food, humanities, and business and trade; and

WHEREAS, Hispanic Americans from the time of the Revolutionary War to the War on Terrorism subsequent to September 11, 2001, have proudly served this country in the Armed Forces, and, during their course of service, 38 Hispanic Americans, including nine from California have been awarded the Congressional Medal of Honor, the highest honor conferred for military bravery and heroism above and beyond the call of duty; and

WHEREAS, There are nearly 11 million Hispanic Americans in California; and

WHEREAS, Hispanic Americans have contributed to the development and success of California by playing major roles in building this state through agriculture, medicine, science,

entertainment, business, education, civil rights, politics, and sports; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby proclaims September 15 to October 15, 2004, inclusive, as California Hispanic Heritage Month, and encourages all Californians to observe this event in communities throughout the state; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 116

Senate Concurrent Resolution No. 64—Relative to the Fire Chief F.S. “Pete” Pedroza Memorial Highway.

[Filed with Secretary of State July 8, 2004.]

WHEREAS, Froilan S. Pedroza was involved in a tragic vehicular accident on October 22, 2003, that took his life; and

WHEREAS, It is appropriate to recognize the service of Froilan S. Pedroza, a former Fire Chief of the City of Calexico Fire Department, by designating in his honor an appropriate portion of State Highway Route 111 in the community in which he served; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby officially designates the portion of State Highway Route 111 from State Highway Route 8 to E. Jasper Road near the City of Calexico in the County of Imperial as the Fire Chief F.S. “Pete” Pedroza Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers or to permit an appropriate private source to erect a monument; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and the author for appropriate distribution.

---

## RESOLUTION CHAPTER 117

Senate Concurrent Resolution No. 50—Relative to CHP Officer David W. Manning Memorial Freeway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, California Highway Patrol Officer David W. Manning, passed away on February 15, 1996, from injuries he received on January 26, 1996, as a result of a traffic accident; and

WHEREAS, Officer David W. Manning had been one of the first officers assigned to the new Bakersfield area motor squad when it was reactivated after a 25-year absence; and

WHEREAS, While on duty, Officer David W. Manning liked to carry candy canes with him to hand out to children he encountered. At the scene of his fatal collision, Officer David W. Manning's motorcycle was on its side surrounded by candy canes; and

WHEREAS, Officer David W. Manning was a member of the California Highway Patrol for eight years and served in East Los Angeles and Bakersfield; and

WHEREAS, Officer David W. Manning is survived by his father, Wayne Manning, his mother, Jeri Manning-Robinson, his wife, Melissa Manning, his daughter, Hannah Manning, and many beloved family members and friends; and

WHEREAS, It would be a fitting tribute to the memory of Officer David W. Manning to name the portion of State Highway Route 178 in the City of Bakersfield in Kern County, between M Street and Fairfax Road, as the "CHP Officer David W. Manning Memorial Freeway"; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby officially designates that portion of State Highway Route 178, between M Street and Fairfax Road in the City of Bakersfield in Kern County the "CHP Officer David W. Manning Memorial Freeway"; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon donations being provided from nonstate sources covering that cost, to place, or caused to be placed, those plaques and markers; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author of this resolution for appropriate distribution.

---

## RESOLUTION CHAPTER 118

Senate Concurrent Resolution No. 67—Relative to CHP Officer John Pedro Memorial Highway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, John Pedro was born in Watsonville, California on June 17, 1965, graduated from Watsonville High School in 1983, and attended Cabrillo Junior College, San Jose State University, Maloney Junior College, and Heart Reynolds, obtaining associate of arts degrees in both liberal arts and music; and

WHEREAS, Music played a very big part in John Pedro's school life and his recreation, and allowed him to travel all around the world playing with different bands and orchestras and, finally, to his greatest audience, his daughter Sara; and

WHEREAS, John Pedro's favorite instrument was the trombone; and

WHEREAS, John Pedro served in the United States in the Army Reserves from 1987 to 1991, and served in the Air Force Reserves from 1991 to the time of his death; and

WHEREAS, John Pedro played in the band for the Air Force, where he met the love of his life Colleen; and

WHEREAS, John Pedro and Colleen were married on March 27, 1993, and were blessed on March 19, 2000, by the birth of their daughter and light of their lives, Sara; and

WHEREAS, John Pedro joined the California Highway Patrol on July 31, 1989, as a cadet and graduated from the California Highway Patrol Academy on December 21, 1989; and

WHEREAS, After he graduated from the Academy, John Pedro was assigned to the San Jose area, he was transferred in 1992 to the Redwood City area, in 1993 back to the San Jose area, and in 1994 to the Santa Cruz area; and

WHEREAS, On June 3, 2002, John Pedro was killed, while on duty, in a traffic collision; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the portion of State Highway Route 1 between Harkins Slough Road and the Pajaro River Bridge in Santa Cruz County be officially designated the "CHP Officer John Pedro Memorial Highway"; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing that special designation, and, upon donations being provided from nonstate sources covering that cost, to place, or cause to be placed, those plaques and markers; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the Director of Transportation and to the author for appropriate distribution.

---

RESOLUTION CHAPTER 119

Senate Concurrent Resolution No. 68—Relative to John Castro Memorial Interchange.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, John Castro was a life-long resident of the City of Martinez; and

WHEREAS, John Castro lived in the same house he grew up in at 508 Palms Drive in the City of Martinez; and

WHEREAS, Throughout his years John Castro contributed to the City of Martinez in many ways, including raising cattle and goats, farming corn and hay, and helping less fortunate people; and

WHEREAS, John Castro served two tours of duty in Vietnam, and upon returning home served the public by constructing bridges; and

WHEREAS, John Castro helped many commuters improve their commute time by working on State Highway Route 4 improvements between the City of Martinez and the City of Hercules; and

WHEREAS, John Castro worked on the State Highway Route 29/Trancas Road Project in Napa County, which grade separated the highway from the railroad tracks used by the Napa Valley Wine Train, in order to avoid traffic delays; and

WHEREAS, It was while completing the overcrossing on July 3, 2003, that a fatal accident took the life of John Castro at the age of 54; and

WHEREAS, John Castro was a dedicated, loving father, grandfather, and brother, respectively, to his four daughters, Elisha, Jessica, Lisa, and Michelle; to his grandsons Aiden and Paul; and to his siblings Cecilia, Rita, Linda, Cynthia, Brenda, Daniel, Leonard, Joseph, Timothy, and Phillip; and

WHEREAS, John Castro was a valuable member of the community and was loved and is missed by many; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Department of Transportation is requested to grant, without charge, the necessary encroachment permits authorizing an appropriate memorial for John Castro consisting of plaques and markers, consistent with the signing requirements for the state highway system, and upon receiving donations from nonstate sources covering the cost

of plaques and markers, to place or permit the placement of those plaques and markers within the right-of-way of the interchange at State Highway Route 29 and Trancas Road in Napa County; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 120

Senate Concurrent Resolution No. 69—Relative to the Everett and Louella Thomas Memorial Highway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Everett Thomas, a native son of Humboldt County, was born in Shively, California in 1911; and

WHEREAS, Mr. Thomas began his career with the Department of Public Works, the predecessor of the Department of Transportation (Caltrans) in 1930 as a survey crew member in the Kings River Canyon near Fresno; and

WHEREAS, Mr. Thomas rose through the ranks at the Fresno office of the department in District 06, working in construction, materials, and right-of-way; and

WHEREAS, In 1952, Mr. Thomas was promoted and transferred to the Stockton office of the department in District 10, where he served as District Materials Engineer and District Maintenance Engineer; and

WHEREAS, In 1963, Mr. Thomas returned to the county of his birth, accepting a promotion and transfer to the Eureka office of the department in District 01, where he served as a supervising highway engineer in the position of Assistant District Engineer; and

WHEREAS, Shortly after Mr. Thomas' return to Humboldt County, the state faced the massive floods of December 1964, during which Mr. Thomas became the emergency spokesman for the district and was featured in countless media reports concerning highway conditions, detours, and road restoration; and

WHEREAS, Louella Thomas, his wife for 52 years, was born in Fresno, California in 1911 and served as an elementary school teacher both in Fresno and in Humboldt County until her retirement in 1973; and

WHEREAS, Everett and Louella Thomas contributed to many civic activities, including the campaign to build a new Humboldt County Library, the purchase of land for the Azalea State Reserve now operated by the Department of Parks and Recreation, and various activities related to the arts; and

WHEREAS, It is appropriate to recognize their service and accomplishments by designating the segment of State Highway Route 101 from Patrick's Point Undercrossing to four miles north of that undercrossing in the vicinity of Big Lagoon in Humboldt County as the Everett and Louella Thomas Memorial Highway; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature of the State of California hereby designates the portion of State Highway Route 101 from Patrick's Point Undercrossing to four miles north of that undercrossing in Humboldt County as the Everett and Louella Thomas Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author of this resolution for appropriate distribution.

---

## RESOLUTION CHAPTER 121

Senate Concurrent Resolution No. 70—Relative to the Victor V. Veysey Expressway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Victor Vincent Veysey was born in Los Angeles, California in 1915, earned his degrees at the California Institute of Technology and Harvard University, and later worked on the Manhattan Project, which was a program under the United States Army Corps of Engineers; and

WHEREAS, After 11 years of teaching at the California Institute of Technology and Stanford University, he moved to the County of Imperial to begin a career in farming; and

WHEREAS, In 1955 he was elected to the Brawley School District Board of Directors, and later in 1960 was elected to the Imperial Valley College Board where he served until 1962; and

WHEREAS, From 1963 to 1971 he served in the California Assembly, as the last resident of the County of Imperial to serve in the Legislature; and

WHEREAS, Mr. Veysey was a Congressman in the United States House of Representatives from 1971 to 1975, representing the 38th and 43rd Districts of California; and

WHEREAS, Mr. Veysey then went on to serve in President Ford's administration as the Assistant Secretary of the Army for Civil Works until 1977, where he played a major role in the negotiations that eventually led to the agreement on the Panama Canal; and

WHEREAS, Governor Deukmejian appointed Mr. Veysey to serve as the California Secretary for Industrial Relations in 1983; and

WHEREAS, Mr. Veysey went on to serve as Director of the Industrial Relations Center and Lecturer in Business Economics, at the California Institute of Technology; and

WHEREAS, Victor V. Veysey passed away on February 13, 2001, in Hemet, California and is interred at the Riverview Cemetery in Brawley, California; now, therefore, be it further

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature, in recognition of the great service that Victor V. Veysey provided to the County of Imperial, the State of California, and the United States of America, hereby officially designates the portion of the planned improvement to State Highway Route 78, known as the Brawley Bypass, from State Highway Route 86 near Brawley to the junction of Route 78 and Route 111 upon its construction, located east of Brawley, in the County of Imperial as the Victor V. Veysey Expressway; and be it further

*Resolved,* That the western terminus of the Ben Hulse Highway, as designated pursuant to Chapter 1387 of the Statutes of 1961, shall be the junction of Route 78 and Route 111 upon its construction, located east of Brawley; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources covering the cost, to place or permit the placement of those signs; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 122

Assembly Concurrent Resolution No. 142—Relative to the Los Angeles County Deputy Sheriff David W. March Memorial Interchange.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Of all the promises that America offers, none is more precious or elusive than the right to be free from crime and violence; and

WHEREAS, Californians are indebted every day to our peace officers, and we pay special tribute to their bravery and dedication and share in their pain when one of their members is killed in the line of duty; and

WHEREAS, The men and women of law enforcement have the unenviable task of guaranteeing the public's safety and it is as difficult and dangerous as it is important, as evidenced by the death, at the age of 33, of Deputy David W. March of the Los Angeles County Sheriff's Department who was killed in the line of duty on April 29, 2002, in Irwindale while conducting a "routine" traffic stop; and

WHEREAS, Deputy March faithfully served the residents within the Temple Station patrol area; and

WHEREAS, He was a longtime resident of Santa Clarita Valley and a 1988 graduate of Canyon High School where he played football and baseball; and

WHEREAS, It is appropriate to recognize the hazardous work, serious responsibility, and strong commitment that Deputy March willingly accepted during his seven years as a law enforcement officer; and

WHEREAS, Deputy March is remembered as a passionate husband to his wife, Teri; a loving son to his parents, John and Barbara March; a caring father to his stepdaughter, Kayla; a thoughtful sibling to his sister, Erin Hildreth, and brother, John Russell March; and a man who committed his life, religious beliefs, and his career to Los Angeles County and the safety of its residents; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the interchange of State Highway Route 605 and State Highway Route 210 be officially designated as the Los Angeles County Deputy Sheriff David W. March Memorial Interchange; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 123

Assembly Concurrent Resolution No. 162—Relative to CHP Officer Dean E. Beattie Memorial Highway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Dean E. Beattie, badge number 9490, was a traffic officer with the California Highway Patrol (CHP), most recently assigned to the San Diego area; and

WHEREAS, Officer Beattie, a native of Alexandria, Virginia, served four years in the United States Marine Corps until his discharge in 1979; and

WHEREAS, Officer Beattie attended the CHP Academy in 1979, and was subsequently assigned to various parts of the state, including San Diego, El Cajon, Santa Cruz, and Santa Rosa, and while serving in El Cajon, became one of the original members of that area's CHP motor squad and was a recipient of the Governor's Safety Award in 2001 for his safe riding skills; and

WHEREAS, Officer Beattie was highly respected by his fellow officers as a committed lawman with a great sense of humor, known not only for his tremendous work ethic and sense of duty but also for his practical jokes; and

WHEREAS, Officer Beattie was killed in the line of duty on November 19, 2003, when his motorcycle collided with the rear of a truck on State Highway Route 163 north of Mission Valley, thereby becoming the 199th CHP officer killed in the line of duty and the first CHP officer killed in San Diego County since 2001; and

WHEREAS, On the date of his death, Officer Beattie was 46 years of age and had just completed his 24th anniversary with the CHP; and

WHEREAS, Officer Beattie is survived by his wife Rosa and an extended family of children, including Tawny, Amanda, Annelise, Cindy, Brett, and Farrah; and

WHEREAS, It would be a fitting tribute to Officer Beattie to name the portion of State Highway Route 163 between State Highway Routes 8 and 805 (Interstates 8 and 805) in the City of San Diego as the CHP Officer Dean E. Beattie Memorial Highway; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates that portion of State Highway Route 163 between State Highway Routes 8 and 805 in the City of San Diego as the CHP Officer Dean E. Beattie Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements, for the state highway system, showing this

special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those plaques and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

RESOLUTION CHAPTER 124

Assembly Concurrent Resolution No. 171—Relative to Vietnam War veterans.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, On March 8, 1965, the United States Marines sent 3,500 Marines that were the first known combat troops to land in South Vietnam; by the year 1968 there were over 500,000 troops stationed in South Vietnam; and

WHEREAS, We owe our many thanks and gratitude to those who served during this difficult time because the average infantryman in Vietnam saw almost 240 days of combat during a one-year period; and

WHEREAS, Of the 2.6 million military personnel who served during this time in the South Pacific, between 1 and 1.6 million fought in combat, provided close support, or were fairly regularly exposed to enemy attack; and

WHEREAS, One out of every 10 Americans who served in Vietnam was a casualty, including a total of 58,169 killed and 304,000 wounded, which includes 75,000 Vietnam veterans who were severely disabled; and

WHEREAS, The troops who served during this time answered the call of duty during a time of need for our country and our expressed words of thanks will never be enough for what these troops sacrificed; and

WHEREAS, The lives that were lost and the families and friends who witnessed these tragedies have paid the highest price for freedom and democracy; and

WHEREAS, The troops, whether they chose to fight in Vietnam through enlisting or if the government drafted them, deserve our respect and our honor; and

WHEREAS, This resolution demonstrates to those who fought in the Vietnam War that, although the war is debatable, the troops and the sacrifices the troops made will forever be in our hearts and in our minds; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* Requests that Governor Schwarzenegger proclaim March 8, 2005, a day in honor of Vietnam War veterans and proclaim that the State of California fly its flags at half-mast on that day in honor of these veterans; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 125

Assembly Concurrent Resolution No. 175—Relative to Hmong History Month.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Following the Communist takeover in Southeast Asia in 1975, many people were ousted from their native homeland; and

WHEREAS, The United States has welcomed over 152,000 Lao and Hmong refugees of whom more than 62,000 have made the Golden State their new home; and

WHEREAS, Many Hmong units fought for and with the United States Armed Forces during the Vietnam War, and more than 35,000 of them were killed, along with countless numbers who were wounded while fighting with their American allies; and

WHEREAS, The Hmong were told by representatives of our government that the United States would not abandon them if the United States left Southeast Asia; and

WHEREAS, Many fled their own countries after the war to avoid persecution, imprisonment, or death for their loyalty to America and the Armed Forces of our nation; and

WHEREAS, Many of the Hmong soldiers and their families have been accepted into our country as legal immigrants; and

WHEREAS, Approximately 50,000 Hmong veterans reside in the United States and 150,000 Hmong and Laotian-born children graduated from United States schools. However, little is known or taught in the United States about the Hmong history and contributions to the United States; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby proclaims May as Hmong History Month, a special time to promote, publicize, and increase awareness of the importance of the Hmong in United States history and to afford an opportunity for people to reflect on both the history and teachings of Hmong Americans; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 126

Assembly Concurrent Resolution No. 179—Relative to Officer Mark A. White Memorial Highway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Roseville Police Officer Mark A. White, a dedicated officer, was killed in the line of duty on Friday, February 10, 1995, when he was fatally shot during a hostage situation; and

WHEREAS, When Officer White was killed, his funeral procession was estimated to be over nine miles long. Officers and other mourners came from all over the State of California, and some attended from as far away as Nebraska and Ohio. Officer White was remembered as a happy, warm, compassionate officer who had a zest for life, a dedicated father, and a loving husband; and

WHEREAS, Officer White was a highly respected, dedicated officer for over nine years, first serving in Sutter County as a Deputy Sheriff for five years, then in Roseville as a Police Officer for four years. While serving in Sutter County, Officer White was a member of the S.E.D. team and a diver with the search and rescue team. While serving in Roseville, Officer White was the neighborhood officer, he worked hand in hand with community members cleaning up the streets and making it a safer place for everyone; and

WHEREAS, Officer White was only 30 years of age when he was killed. He was married to his high school sweetheart, Liz, and they had a 4-year-old son, Matthew. Two weeks prior to his death they had just found out that Liz was pregnant with their second child, a daughter, Whitney. Unfortunately, Whitney and her father never met; and

WHEREAS, It is appropriate that the sacrifice of this devoted officer, killed in the line of duty, be remembered on a highway memorializing his dedication to public service. It would be a fitting tribute to Officer White to name a portion of State Highway Route 65, before it turns into Interstate 80, as the Officer Mark A. White Memorial Highway; and

WHEREAS, This memorial highway will continue to remind us of the ultimate sacrifice Officer White made on that cold, wet February afternoon, as well as remind us of the sacrifices peace officers make on a daily basis; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature hereby officially designates the portion

of State Highway Route 65 between the intersection with Sunset Boulevard and the intersection with State Highway Route 193, in Placer County, as the Officer Mark A. White Memorial Highway; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing these special designations, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 127

Assembly Concurrent Resolution No. 180—Relative to a Blue Star Memorial Highway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, The Blue Star Memorial Highway project was adopted by the National Council of State Garden Clubs; and

WHEREAS, The purpose of the Blue Star Memorial Highway project is to erect highway markers at roadside rest stops, vista points, historical sites, and other appropriate areas to pay tribute to all who have served, those who are presently serving, and those who will serve in the nation's armed forces; and

WHEREAS, Several clubs within California Garden Clubs wish to erect markers along State Highway Route 62 from its junction with State Highway Route 10 to Adobe Road in Twenty-nine Palms that designate it as a Blue Star Memorial Highway; now, therefore, be it

*Resolved, by the Assembly of the State of California, the Senate thereof concurring*, That State Highway Route 62 from its junction with State Highway Route 10 to Adobe Road in Twenty-nine Palms is hereby officially designated a Blue Star Memorial Highway; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements, for the state highway system, showing this special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those plaques and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

RESOLUTION CHAPTER 128

Assembly Concurrent Resolution No. 185—Relative to the Petroleum Highway.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, The petroleum industry has a long history and has made an important economic contribution to Kern County and other parts of the state; and

WHEREAS, The heart of oil country in Kern County is in the western part of the county adjacent to State Highway Route 33, where oil has been produced for more than 100 years; and

WHEREAS, This region of Kern County produces 50 percent of California's oil production; and

WHEREAS, The largest gas field in the west, Elk Hills, is within sight of State Highway Route 33; and

WHEREAS, A traveler on State Highway Route 33 can visit the only oil boomtowns in California and the West Kern Oil Museum in Taft; and

WHEREAS, It is appropriate to designate the 48-mile segment of State Highway Route 33 between State Highway Routes 46 and 166 in Kern County as the Petroleum Highway and to provide an opportunity for the heritage tourist and the general public to learn more about the past and present of the oil industry by enabling the posting of signs along the highway and installation of information kiosks at appropriate highway pullouts; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature of the State of California hereby designates the portion of State Highway Route 33 between State Highway Routes 46 and 166 in Kern County as the Petroleum Highway; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved*, That the Department of Transportation is requested to grant one or more encroachment permits authorizing plaques and markers that

are consistent with the signing requirements for the state highway system to be placed at appropriate pullout locations along the designated highway; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 129

Assembly Concurrent Resolution No. 244—Relative to hepatitis C awareness.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, The hepatitis C virus (HCV) presents a serious public health problem, affecting an estimated 638,500 Californians, with an annual cost in health care and lost wages exceeding \$50 million per year; and

WHEREAS, Hepatitis C is four times more common than HIV in the United States, is responsible for an estimated 8,000 to 10,000 deaths nationwide every year, and is the largest single cause of liver transplantation; and

WHEREAS, No vaccine exists for HCV, and the number of deaths caused by HCV will likely triple within the next 20 years unless effective interventions are developed; and

WHEREAS, Many people carrying HCV are unaware of their infection, with 60 to 70 percent of early HCV infections showing no symptoms; and

WHEREAS, Chronic liver disease progresses slowly without symptoms in the majority of patients for 20 or more years after infection, making detection and diagnosis very difficult; and

WHEREAS, HCV is transmitted by exposure to infected blood and is common among people who have injected drugs; and

WHEREAS, Other at-risk populations include people who received blood transfusions prior to July 1992, children born to HCV-positive women, sex partners of persons with HCV, peace officers, health care workers, and other emergency responders; and

WHEREAS, Hepatitis C is a significant health problem among veterans, with 20 percent of those tested nationally between 1998 and 2000 testing positive for the virus; and

WHEREAS, According to the federal Centers for Disease Control and Prevention (CDC), of every 100 persons infected with HCV, 75 to 85 percent may develop long-term infection, 70 percent may develop

chronic liver disease, 10 to 20 percent may develop cirrhosis over a period of 20 to 30 years, and 1 to 5 percent may die from the consequences of long-term infection, including liver cancer or cirrhosis; and

WHEREAS, Hepatitis C disproportionately affects people of color, with African-Americans three times more likely than Caucasians to have HCV, and with Latinos being twice as likely as Caucasians to be infected with this serious disease; and

WHEREAS, Approximately 900,000 people in the United States are living with HIV, 25 percent of whom are coinfecting with HCV, and HIV accelerates the progression of chronic liver disease and often compromises a patient's ability to tolerate many lifesaving HIV drugs; and

WHEREAS, In 2001, the Legislature passed and the Governor signed Senate Bill No. 1256, authored by Senator Richard Polanco, mandating that the State Department of Health Services make available to health professionals the latest HCV treatment information, and also requiring the implementation of an outreach program to high-risk populations; and

WHEREAS, The department, in collaboration with local health officials and other stakeholders, convened a hepatitis C working group, which reviewed published studies and in 2001 created "The Hepatitis C Strategic Plan," a coordinated local and statewide effort supported by public and private partnerships; and

WHEREAS, Most of the strategic plan remains unrealized, with serious deficiencies in screening, testing, referral, treatment, prevention, and data collection; and

WHEREAS, Although HCV and HCV/HIV coinfection have created a crisis in California, awareness of HCV is very low, and many people do not know they are at risk and should seek testing and treatment; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California urges the State Department of Health Services to improve the data collection process for chronic and acute HCV and HCV/HIV coinfection; and be it further

*Resolved,* That the Legislature of the State of California strongly encourages the State Department of Health Services to implement components of the 2001 Hepatitis C Strategic Plan through existing programs and educational materials whenever possible; and be it further

*Resolved,* That the Legislature of the State of California encourages state and local agencies to incorporate HCV education and services into existing programs as much as possible, especially in the highly related areas of HIV/AIDS and substance abuse; and be it further

*Resolved,* That local health jurisdictions are urged to apply for federal funds available from the CDC for hepatitis C-related programs,

including the Epidemiology and Laboratory Capacity (ELC) Cooperative Agreement Program that enables some large cities and counties to apply for funding to hire local HCV coordinators; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the governing officer of each county board of supervisors in California, the Director of Health Services, and the chief medical official of each local health jurisdiction in California.

---

## RESOLUTION CHAPTER 130

Assembly Joint Resolution No. 53—Relative to the Breast Cancer Research Stamp Program.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Breast cancer is considered to be the most commonly diagnosed cancer among women in every major ethnic group in the United States; and

WHEREAS, Breast cancer is still the number one cancer killer of women between the ages of 15 and 54 years; and

WHEREAS, More than two million women are living with breast cancer in the United States today, but one million of them have not been diagnosed; and

WHEREAS, Breast cancer claims another woman's life every 15 minutes; and

WHEREAS, This year, according to the American Cancer Society, more than 200,000 women and men will be diagnosed with breast cancer and, of that number, 40,000 will die from this devastating disease; and

WHEREAS, The Breast Cancer Research Stamp was created through the dedicated research efforts of Kaiser Permanente surgeon Dr. Ernie Bodai; and

WHEREAS, House Resolution No. 1585 (Public Law 105-41), also known as the "Stamp Out Breast Cancer Act," was passed by Congress in August 1997; and

WHEREAS, The Breast Cancer Research Stamp, which was put into circulation in 1998, is among the most successful commemorative stamps of all time; and

WHEREAS, The Breast Cancer Research Stamp is sold with a surcharge above the price of an ordinary first-class stamp, which now costs 37 cents; and

WHEREAS, The Breast Cancer Research Stamp sells for 45 cents, 37 cents of which is used to pay for the stamp and, after recovering costs

for program administration, the surplus is allocated to the National Institutes of Health and the United States Department of Defense for breast cancer research; and

WHEREAS, Since this stamp was put into circulation in 1998, the program has generated more than \$37 million for breast cancer research; and

WHEREAS, People wanting to make a difference and personally contribute to the fight against breast cancer have purchased over 517 million of the semi-postal stamps; and

WHEREAS, Grant funds from the “Insight Awards to Stamp Out Breast Cancer,” which are derived from the Breast Cancer Research Stamp Program, help to fund vital research programs at Stanford University, the University of California, Irvine, and the University of California, San Francisco; and

WHEREAS, The Breast Cancer Research Stamp has funded 86 breast cancer research projects to date; and

WHEREAS, Permanent extension of the life of the Breast Cancer Research Stamp Program will continue funding for the National Breast and Cervical Cancer Early Detection Program; and

WHEREAS, In addition to providing much-needed funding for breast cancer research, the Breast Cancer Research Stamp is an effective means of raising awareness about the disease; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to enact legislation making the Breast Cancer Research Stamp Program permanent; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 131

Assembly Joint Resolution No. 72—Relative to the federal gasoline oxygenate mandate.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, The federal Clean Air Act Amendments of 1990 (P.L. 101-549) mandate the use of reformulated gasoline containing 2 percent oxygen by weight in areas designated as nonattainment areas due to high

ambient ozone levels in summer months and high ambient carbon monoxide levels in winter months; and

WHEREAS, In April 1999, California determined it was necessary to ban the use of methyl tertiary-butyl ether (MTBE) as a result of significant risks and costs associated with groundwater contamination due to the use of that gasoline oxygenate additive. California concurrently requested that the United States Environmental Protection Agency (U.S. EPA) utilize its authority under the federal Clean Air Act to grant California an administrative waiver from the federal oxygenate mandate, and allow the state to use nonoxygenated gasoline; and

WHEREAS, While MTBE has been eliminated in California's gasoline supply, and despite numerous requests to the federal EPA, California is still mandated by the federal Clean Air Act to utilize oxygenates in its gasoline supply; and

WHEREAS, California's refineries already produce cleaner-burning fuel than the federal reformulated gasoline program; and

WHEREAS, Ethanol is the only other available alternative oxygenate to MTBE, but because gasoline must be refined to a level even cleaner than California standards in order to be blended with ethanol, using ethanol as the primary oxygenate puts an even greater strain on the state's gasoline supply; and

WHEREAS, A Blue Ribbon Panel convened by the U.S. EPA has determined that the minimum oxygen content is not needed in California, and in 1999, the National Research Council reported that oxygen additives used in reformulated gasoline do reduce emissions of carbon monoxide, but do little to reduce the emissions of ozone precursors and greenhouse gases, which contribute to smog; and

WHEREAS, Consumer prices for gasoline have reached near record levels in California; and

WHEREAS, California's refineries are currently running at 93 percent of their capacity, producing 46 million gallons of gasoline per day, while California residents use up to 42 million gallons of gasoline per day.

WHEREAS, The federal oxygenate mandate greatly increases the price of gasoline used in California; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the United States Environmental Protection Agency take immediate action to review and reconsider California's request for an administrative waiver of the federal Clean Air Act's oxygenated gasoline requirement in order to relieve gasoline consumers in California from record-breaking gasoline prices; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, and to Members of the California delegation of the United States Congress.

---

RESOLUTION CHAPTER 132

Assembly Joint Resolution No. 83—Relative to special education funding.

[Filed with Secretary of State July 16, 2004.]

WHEREAS, Congress enacted the Education for All Handicapped Children Act of 1975 (P.L. 94-142), now known as the Individuals with Disabilities Education Act (IDEA), to ensure that all children with disabilities in the United States have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs, to ensure that the rights of children with disabilities and their parents or guardians are protected, to assist states and localities to provide for the education of all children with disabilities, and to assess and ensure the effectiveness of efforts to educate children with disabilities; and

WHEREAS, California is committed to providing a free appropriate public education and related services to children and youth with disabilities, in order to meet their unique needs; and

WHEREAS, Since 1975, federal law has authorized appropriation levels for grants to states under the IDEA at 40 percent of the average per pupil expenditure in public elementary and secondary schools in the United States; and

WHEREAS, Congress continued the 40 percent funding authority in Public Law 105-17, the Individuals with Disabilities Education Act Amendments of 1997; and

WHEREAS, Although Congress has made progress toward this goal, the federal contribution still only amounts to approximately 20 percent of the average per pupil expenditure; and

WHEREAS, The 40 percent federal funding level would result in California receiving in excess of an additional \$1 billion annually; and

WHEREAS, The cost of special education in California requires school agencies to spend over \$1 billion annually in local general funds to make up the shortfall between the costs of special education and the level of funding provided by the state and federal governments; and

WHEREAS, Since 1997, the state has used federal special education funding increases to provide equity adjustments to school agencies consistent with the new special education funding model provided in

Assembly Bill 602 of the 1997-98 Regular Session (Chapter 854 of the Statutes of 1997) and other special education augmentations; and

WHEREAS, The California Legislature is committed to the continued use of increases in federal funding for special education to recognize special education funding commitments made to local educational agencies; and

WHEREAS, The California Legislature is extremely concerned that, since 1978, Congress has not provided states with the full amount of financial assistance necessary to achieve its goal of ensuring children and youth with disabilities equal protection of the law; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature respectfully memorializes the President and Congress of the United States to provide the full 40 percent federal share of funding for special education programs so that California and other states participating in these critical programs will not be required to take funding from other vital state and local programs in order to fund this underfunded federal mandate; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, to the Chair of the Senate Committee on Budget, to the Chair of the House Committee on the Budget, to the Senate Committee on Appropriations, to the Chair of the House Committee on Appropriations, to each Senator and Representative from California in the Congress of the United States, and to the United States Secretary of Education.

---

## RESOLUTION CHAPTER 133

Senate Constitutional Amendment No. 4—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 15 of Article XI thereof, by adding Section 25.5 to Article XIII thereof, and by amending Section 6 of Article XIII B thereof, relating to local government finance.

[Filed with Secretary of State July 30, 2004.]

*Resolved by the Senate, the Assembly concurring,* That the Legislature of the State of California at its 2003–04 Regular Session commencing on the second day of December 2002, two-thirds of the membership of each house concurring, hereby proposes to the people of the State of California that the Constitution of the State be amended as follows:

First—That Section 15 of Article XI thereof is amended to read:

SEC. 15. (a) From the revenues derived from taxes imposed pursuant to the Vehicle License Fee Law (Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code), or its successor, other than fees on trailer coaches and mobilehomes, over and above the costs of collection and any refunds authorized by law, those revenues derived from that portion of the vehicle license fee rate that does not exceed 0.65 percent of the market value of the vehicle shall be allocated as follows:

(1) An amount shall be specified in the Vehicle License Fee Law, or the successor to that law, for deposit in the State Treasury to the credit of the Local Revenue Fund established in Chapter 6 (commencing with Section 17600) of Part 5 of Division 9 of the Welfare and Institutions Code, or its successor, if any, for allocation to cities, counties, and cities and counties as otherwise provided by law.

(2) The balance shall be allocated to cities, counties, and cities and counties as otherwise provided by law.

(b) If a statute enacted by the Legislature reduces the annual vehicle license fee below 0.65 percent of the market value of a vehicle, the Legislature shall, for each fiscal year for which that reduced fee applies, provide by statute for the allocation of an additional amount of money that is equal to the decrease, resulting from the fee reduction, in the total amount of revenues that are otherwise required to be deposited and allocated under subdivision (a) for that same fiscal year. That amount shall be allocated to cities, counties, and cities and counties in the same pro rata amounts and for the same purposes as are revenues subject to subdivision (a).

Second—That Section 25.5 is added to Article XIII thereof, to read:

SEC. 25.5. (a) On or after November 3, 2004, the Legislature shall not enact a statute to do any of the following:

(1) (A) Except as otherwise provided in subparagraph (B), modify the manner in which ad valorem property tax revenues are allocated in accordance with subdivision (a) of Section 1 of Article XIII A so as to reduce for any fiscal year the percentage of the total amount of ad valorem property tax revenues in a county that is allocated among all of the local agencies in that county below the percentage of the total amount of those revenues that would be allocated among those agencies for the same fiscal year under the statutes in effect on November 3, 2004. For purposes of this subparagraph, “percentage” does not include any property tax revenues referenced in paragraph (2).

(B) Beginning with the 2008–09 fiscal year and except as otherwise provided in subparagraph (C), subparagraph (A) may be suspended for a fiscal year if all of the following conditions are met:

(i) The Governor issues a proclamation that declares that, due to a severe state fiscal hardship, the suspension of subparagraph (A) is necessary.

(ii) The Legislature enacts an urgency statute, pursuant to a bill passed in each house of the Legislature by rollcall vote entered in the journal, two-thirds of the membership concurring, that contains a suspension of subparagraph (A) for that fiscal year and does not contain any other provision.

(iii) No later than the effective date of the statute described in clause (ii), a statute is enacted that provides for the full repayment to local agencies of the total amount of revenue losses, including interest as provided by law, resulting from the modification of ad valorem property tax revenue allocations to local agencies. This full repayment shall be made not later than the end of the third fiscal year immediately following the fiscal year to which the modification applies.

(C) (i) Subparagraph (A) shall not be suspended for more than two fiscal years during any period of 10 consecutive fiscal years, which period begins with the first fiscal year for which subparagraph (A) is suspended.

(ii) Subparagraph (A) shall not be suspended during any fiscal year if the full repayment required by a statute enacted in accordance with clause (iii) of subparagraph (B) has not yet been completed.

(iii) Subparagraph (A) shall not be suspended during any fiscal year if the amount that was required to be paid to cities, counties, and cities and counties under Section 10754.11 of the Revenue and Taxation Code, as that section read on November 3, 2004, has not been paid in full prior to the effective date of the statute providing for that suspension as described in clause (ii) of subparagraph (B).

(iv) A suspension of subparagraph (A) shall not result in a total ad valorem property tax revenue loss to all local agencies within a county that exceeds 8 percent of the total amount of ad valorem property tax revenues that were allocated among all local agencies within that county for the fiscal year immediately preceding the fiscal year for which subparagraph (A) is suspended.

(2) (A) Except as otherwise provided in subparagraphs (B) and (C), restrict the authority of a city, county, or city and county to impose a tax rate under, or change the method of distributing revenues derived under, the Bradley-Burns Uniform Local Sales and Use Tax Law set forth in Part 1.5 (commencing with Section 7200) of Division 2 of the Revenue and Taxation Code, as that law read on November 3, 2004. The restriction imposed by this subparagraph also applies to the entitlement of a city, county, or city and county to the change in tax rate resulting from the end of the revenue exchange period, as defined in Section

7203.1 of the Revenue and Taxation Code as that section read on November 3, 2004.

(B) The Legislature may change by statute the method of distributing the revenues derived under a use tax imposed pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law to allow the State to participate in an interstate compact or to comply with federal law.

(C) The Legislature may authorize by statute two or more specifically identified local agencies within a county, with the approval of the governing body of each of those agencies, to enter into a contract to exchange allocations of ad valorem property tax revenues for revenues derived from a tax rate imposed under the Bradley-Burns Uniform Local Sales and Use Tax Law. The exchange under this subparagraph of revenues derived from a tax rate imposed under that law shall not require voter approval for the continued imposition of any portion of an existing tax rate from which those revenues are derived.

(3) Except as otherwise provided in subparagraph (C) of paragraph (2), change for any fiscal year the pro rata shares in which ad valorem property tax revenues are allocated among local agencies in a county other than pursuant to a bill passed in each house of the Legislature by rollcall vote entered in the journal, two-thirds of the membership concurring.

(4) Extend beyond the revenue exchange period, as defined in Section 7203.1 of the Revenue and Taxation Code as that section read on November 3, 2004, the suspension of the authority, set forth in that section on that date, of a city, county, or city and county to impose a sales and use tax rate under the Bradley-Burns Uniform Local Sales and Use Tax Law.

(5) Reduce, during any period in which the rate authority suspension described in paragraph (4) is operative, the payments to a city, county, or city and county that are required by Section 97.68 of the Revenue and Taxation Code, as that section read on November 3, 2004.

(6) Restrict the authority of a local entity to impose a transactions and use tax rate in accordance with the Transactions and Use Tax Law (Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code), or change the method for distributing revenues derived under a transaction and use tax rate imposed under that law, as it read on November 3, 2004.

(b) For purposes of this section, the following definitions apply:

(1) "Ad valorem property tax revenues" means all revenues derived from the tax collected by a county under subdivision (a) of Section 1 of Article XIII A, regardless of any of this revenue being otherwise classified by statute.

(2) "Local agency" has the same meaning as specified in Section 95 of the Revenue and Taxation Code as that section read on November 3, 2004.

Third—That Section 6 of Article XIII B thereof, is amended to read:

SEC. 6. (a) Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse that local government for the costs of the program or increased level of service, except that the Legislature may, but need not, provide a subvention of funds for the following mandates:

(1) Legislative mandates requested by the local agency affected.

(2) Legislation defining a new crime or changing an existing definition of a crime.

(3) Legislative mandates enacted prior to January 1, 1975, or executive orders or regulations initially implementing legislation enacted prior to January 1, 1975.

(b) (1) Except as provided in paragraph (2), for the 2005–06 fiscal year and every subsequent fiscal year, for a mandate for which the costs of a local government claimant have been determined in a preceding fiscal year to be payable by the State pursuant to law, the Legislature shall either appropriate, in the annual Budget Act, the full payable amount that has not been previously paid, or suspend the operation of the mandate for the fiscal year for which the annual Budget Act is applicable in a manner prescribed by law.

(2) Payable claims for costs incurred prior to the 2004–05 fiscal year that have not been paid prior to the 2005–06 fiscal year may be paid over a term of years, as prescribed by law.

(3) Ad valorem property tax revenues shall not be used to reimburse a local government for the costs of a new program or higher level of service.

(4) This subdivision applies to a mandate only as it affects a city, county, city and county, or special district.

(5) This subdivision shall not apply to a requirement to provide or recognize any procedural or substantive protection, right, benefit, or employment status of any local government employee or retiree, or of any local government employee organization, that arises from, affects, or directly relates to future, current, or past local government employment and that constitutes a mandate subject to this section.

(c) A mandated new program or higher level of service includes a transfer by the Legislature from the State to cities, counties, cities and counties, or special districts of complete or partial financial responsibility for a required program for which the State previously had complete or partial financial responsibility.

Fourth—That the people find and declare that this measure and the Taxpayers and Public Safety Protection Act, which appears as Proposition 65 on the November 2, 2004, general election ballot (hereafter Proposition 65) both relate to local government, including matters concerning tax revenues and reimbursement for the cost of state mandates, in a comprehensive and substantively conflicting manner. Because this measure is intended to be a comprehensive and competing alternative to Proposition 65, it is the intent of the people that this measure supersede in its entirety Proposition 65, if this measure and Proposition 65 both are approved and this measure receives a higher number of affirmative votes than Proposition 65. Therefore, in the event that this measure and Proposition 65 both are approved and this measure receives a higher number of affirmative votes, none of the provisions of Proposition 65 shall take effect.

#### RESOLUTION CHAPTER 134

Assembly Concurrent Resolution No. 195—Relative to braille instruction.

[Filed with Secretary of State August 9, 2004.]

WHEREAS, Literacy is vital to a successful education, career, and quality of life; and

WHEREAS, Literacy allows a person the opportunity to become a more active participant in society; and

WHEREAS, Instruction in literacy skills is critical, and nationwide efforts to address the shortage of trained teachers is an obstacle that must be overcome; and

WHEREAS, Reading First is the reading component of the No Child Left Behind Act of 2001; and

WHEREAS, The No Child Left Behind Act of 2001 requires high standards for achievement in reading and mathematics and that every pupil in grades 3 to 8, inclusive, should be tested to ensure adequate progress; and

WHEREAS, Over one-half of the states have passed legislation mandating that children who are functionally blind be given the opportunity to learn braille; and

WHEREAS, Assembly Bill 306 of the 1999–2000 Regular Session and Assembly Bill 2326 of the 2000–01 Regular Session, which were each sponsored by the National Federation of the Blind of California, demonstrate that this is a statewide, nonpartisan concern; and

WHEREAS, The federal budgetary cost of unemployment for each legally blind individual of working age is approximately \$16,790 a year; and

WHEREAS, The total expenditure to educate a pupil with a visual impairment in public school is \$18,811, which includes regular and special education; and

WHEREAS, Ninety percent of functionally blind pupils are illiterate; and

WHEREAS, There are not enough teachers who are qualified to teach braille; and

WHEREAS, Only California State University at San Francisco and California State University at Los Angeles offer the visually impaired certification to graduate students; and

WHEREAS, Due to budget constraints, the two schools that offer the credential are understaffed; and

WHEREAS, Nationally, 73 to 75 percent of blind or visually impaired adults are unemployed and of those who are employed, 93 percent are braille literate; and

WHEREAS, On October 3, 2002, the American Foundation for the Blind launched the National Campaign for Literacy, Textbooks, Transcribers and Technology to improve the lives of blind and low-vision pupils; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California encourages all school districts within the state, the State Department of Education, the California State University, and the United States Department of Education, to generate greater efforts in the funding of literacy instruction for blind or visually impaired children, including, but not limited to, braille instructional materials, and qualified instructors; and be it further

*Resolved,* That the Legislature of the State of California encourages the citizens of California to demand equal educational opportunities for all children, regardless of race, religion, sex, or disability; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 135

Assembly Concurrent Resolution No. 228—Relative to video and computer games.

[Filed with Secretary of State August 9, 2004.]

WHEREAS, Ninety-two percent of children between 2 and 17 years of age play video or computer games; and

WHEREAS, An increasing number of video and computer games in the retail marketplace allow the player to use an interactive device to virtually commit realistic and serious criminal acts, including killing police officers, maiming elderly persons, running over pedestrians, and committing despicable acts of murder and torture upon women and racial minorities; and

WHEREAS, According to the public health community, including the American Academy of Pediatrics, the American Psychological Association, the American Academy of Child and Adolescent Psychiatry, the American Medical Association, the American Academy of Family Physicians, and the American Psychiatric Association, numerous studies “point overwhelmingly to a causal connection between media violence and aggressive behavior in some children” and it has concluded “based on over 30 years of research that viewing entertainment violence can lead to increases in aggressive attitudes, values, and behavior, particularly in children”; and

WHEREAS, The Entertainment Software Rating Board (ESRB), established in 1994, is a self-regulatory organization that independently rates all entertainment software, including video and computer games; and

WHEREAS, The ESRB rating system provides age-based ratings and content information where warranted for virtually every video and computer game produced and distributed in the United States, and through an advertising code requires the display of these ratings on all game packaging and marketing materials; and

WHEREAS, Games rated “M” for Mature by the ESRB may contain mature sexual themes, intense violence, or strong language and may not be suitable for persons under 17 years of age; and

WHEREAS, Games rated “AO” for Adults Only by the ESRB may contain graphic depictions of sex or violence that is not suitable for persons under 18 years of age; and

WHEREAS, Major retailers accounting for over 90 percent of all video game sales in the United States have embraced the ESRB rating system and have committed themselves to not sell Mature rated video games to persons under 17 years of age, and to not sell Adults Only rated video games to persons under 18 years of age; and

WHEREAS, Efforts to educate consumers about the ESRB rating system and efforts to increase enforcement of the ESRB Mature and Adults Only ratings at point-of-sale should be increased in California to ensure that consumers can make educated choices about the video and

computer games that they rent and purchase, and to ensure that store enforcement policies are effective; and

WHEREAS, Efforts to educate consumers about the ESRB rating system and efforts to increase enforcement of ESRB Mature and Adults Only ratings at point-of-sale should be fully utilized by retailers of video and computer games in California to assist parents in choosing the video and computer games to which their children have access; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the ESRB carefully consider, for rating purposes, the content of the video and computer games that it reviews and that accurate ratings be assigned to games, reflective of content that allows participants to virtually commit realistic and sometimes graphic acts of violence against characters in video and computer games; and be it further

*Resolved,* That the Legislature urges the video and computer game industry and its retail partners to make every effort to educate consumers about the availability of the ESRB rating system to aid in the selection of video and computer games; and be it further

*Resolved,* That retailers of video and computer games should fully embrace and utilize the ESRB rating system and refuse to sell, rent, exhibit, or distribute “Mature” rated games to minors without prior parental consent; and be it further

*Resolved,* That retailers of video and computer games should refuse to sell, rent, exhibit, or distribute “Adults Only” rated games to minors; and be it further

*Resolved,* That the Legislature urges community groups, statewide advocacy groups, and the media to work collaboratively with the ESRB to promote the rating system and educate consumers about the use of the rating system, including distributing ESRB educational material and airing and publishing public service announcements in local and national media; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the California Retailers Association, the Entertainment Software Association, the Interactive Entertainment Merchants Association, the International Game Developers Association, the Video Software Dealers Association, the Entertainment Software Ratings Board, and to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 136

Assembly Joint Resolution No. 55—Relative to the federal Violence Against Children Act of 2003.

[Filed with Secretary of State August 9, 2004.]

WHEREAS, People under 18 years of age make up approximately 12 percent of all crime victims known to police, including 71 percent of all sex crime victims and 38 percent of all kidnapping victims; and

WHEREAS, People from 12 to 17 years of age are over two times more likely to be victims of violent crimes than adults; and

WHEREAS, It is estimated that only 28 percent of crimes against children are actually reported; and

WHEREAS, Some 1200 children die as a result of abuse each year, and approximately 879,000 children are victims of abuse; and

WHEREAS, Child abuse has long-lasting negative effects upon children and families, including delayed development, depression, substance abuse, and increased likelihood of experiencing or perpetrating domestic violence as an adult; and

WHEREAS, Most local agencies lack adequate resources to protect and serve the needs of children and families that are brought to their attention; and

WHEREAS, Failure to pay child support is in itself a form of neglect, as children who do not receive financial support are more likely to live in poverty, and are therefore more likely to suffer from inadequate education, a lack of quality health care, and a lack of affordable housing; and

WHEREAS, The Amber Alert System is credited with recovering over 100 children nationwide; and

WHEREAS, Senator Barbara Boxer and Senator Joe Biden have introduced The Violence Against Children Act of 2003 (S. 1123), which addresses the issue of the abuse of children on several fronts; and

WHEREAS, The Violence Against Children Act of 2003 would toughen federal criminal penalties for crimes against children by (a) creating a new federal crime for willfully injuring or attempting to injure a child, punishable by up to 10 years in prison; (b) providing that if the crime is kidnapping, aggravated sexual abuse, or murder, the maximum penalty will be life in prison; and (c) requiring the United States Sentencing Commission to increase the penalties for existing federal crimes when the victim is under 18 years of age; and

WHEREAS, The Violence Against Children Act of 2003 would provide assistance to local police and prosecutors by (a) authorizing \$25 million each year in grants for states and localities to combat crimes against children; to help train law enforcement officers, prosecutors, and

judges in identifying and responding to crimes against children; and to create more law enforcement units and courts that specifically deal with crimes against children; and (b) whenever a local government asks for investigative, forensic, or prosecutorial assistance in any violent crime against a child, requiring the federal government to make its resources and expertise available; and

WHEREAS, The Violence Against Children Act of 2003 would provide help for children by authorizing (a) \$25 million each year in grants for local governments and nonprofit organizations to provide emergency medical treatment for child victims and counseling to child victims and their families; to increase the number of mental health professionals who specialize in children who are victims of crime; to establish hotlines; and to run prevention programs; and (b) \$10 million each year for Child Advocacy Centers where law enforcement, child protective services, and the medical communities work together to provide comprehensive services to victims of child abuse and their families; and

WHEREAS, The Violence Against Children Act of 2003 would establish a National Amber Alert System by providing states with the necessary funds to establish a communications network to alert people about child abductions; and

WHEREAS, The Violence Against Children Act of 2003 would establish a Safe Haven program under which parents may leave newborn babies in hospital emergency rooms anonymously and with no fear of penalty; and

WHEREAS, The Violence Against Children Act of 2003 would require the states to gather better statistics on the victims of crime and to report to the federal government on how they keep track of children under the child protective services system; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly, that the Legislature commends Senator Barbara Boxer and Senator Joe Biden for their legislation to prevent further violence against children in California and throughout the United States; and be it further*

*Resolved, That the Legislature of the State of California memorializes the Congress to pass, and the President to sign, the Violence Against Children Act of 2003 as soon as possible; and be it further*

*Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.*

---

## RESOLUTION CHAPTER 137

Assembly Concurrent Resolution No. 133—Relative to the Oceanside Police Officer Tony Zeppetella Memorial Highway.

[Filed with Secretary of State August 11, 2004.]

WHEREAS, The calling to be a peace officer is one of the highest vocations of public service, and any individual who accepts this calling is worthy of the highest respect and honor the community, state, and nation can provide; and

WHEREAS, Oceanside Police Officer Tony Zeppetella was shot and killed in the line of duty on June 13, 2003, during the course of a traffic stop; and

WHEREAS, Tony Zeppetella is survived by his wife, Jamie, and his infant son, Jakob; and

WHEREAS, Tony Zeppetella was born on October 2, 1975, in Whittier, California. He was raised in Paso Robles, California where he attended and graduated from Paso Robles High School; and

WHEREAS, Prior to beginning his career with the Oceanside Police Department, Tony Zeppetella served in the United States Navy for six years and attended Central Texas College and the University of Phoenix; and

WHEREAS, Tony Zeppetella joined the Oceanside Police Department on May 13, 2002. After successfully completing his academy training in October 2002, he reported to the Oceanside Police Department; and

WHEREAS, Tony Zeppetella made significant contributions to traffic safety and to the motoring public while assigned to the Oceanside Police Department; and

WHEREAS, Tony Zeppetella served 13 months as a sworn peace officer for the Oceanside Police Department and was known by his fellow officers for his dedication to the department and to the protection of the citizens of this state; and

WHEREAS, It would be a fitting tribute to the memory of Police Officer Tony Zeppetella to designate the portion of State Highway Route 76 between the North Coast Highway and Douglas Drive in the City of Oceanside, as the Oceanside Police Officer Tony Zeppetella Memorial Highway; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby officially designates that portion of State Highway Route 76, between the North Coast Highway and Douglas Drive in the City of Oceanside, as the Oceanside Police Officer Tony Zeppetella Memorial Highway; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author of this resolution for appropriate distribution.

---

### RESOLUTION CHAPTER 138

Senate Concurrent Resolution No. 65—Relative to the Officer Eugene A. Doran and Marine Lance Corporal Patrick M. Doran Memorial Bridge.

[Filed with Secretary of State August 12, 2004.]

WHEREAS, Eugene A. Doran was a patrolman for the town of Hillsborough in the County of San Mateo from April 1, 1956, until he was killed on August 5, 1959, by a criminal suspect who he had apprehended; and

WHEREAS, The tragic death of police Officer Eugene A. Doran occurred on State Highway Route 280 near the bridge at San Mateo Creek north of State Highway Route 92 in the County of San Mateo; and

WHEREAS, Pursuant to Resolution Chapter 173 of the Statutes of 1969, the bridge on State Highway Route 280 at San Mateo Creek, north of State Highway Route 92, in the County of San Mateo was designated the Eugene A. Doran Memorial Bridge; and

WHEREAS, Eugene A. Doran fathered a son, Patrick M. Doran, who was born March 23, 1946, and who served his country in the United States Marine Corps; and

WHEREAS, Marine Lance Corporal Patrick M. Doran died in the line of duty on February 18, 1967, in Quang Nam Province, Vietnam; and

WHEREAS, It is appropriate to recognize the service and sacrifice of both Eugene A. Doran and Patrick M. Doran to their country; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Eugene A. Doran Memorial Bridge on State Highway Route 280 at San Mateo Creek, north of State Highway Route 92, in the County of San Mateo be redesignated as the Officer Eugene A. Doran and Marine Lance Corporal Patrick M. Doran Memorial Bridge; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing the special designation, and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 139

Senate Joint Resolution No. 24—Relative to pharmaceutical advertising.

[Filed with Secretary of State August 12, 2004.]

WHEREAS, The United States is one of just a few countries that allow pharmaceutical companies to advertise their prescription drugs; and

WHEREAS, In 1997, the federal Food and Drug Administration relaxed restrictions on the content of direct-to-consumer prescription drug advertising, withdrawing the prior requirement for a summary of side-effect and adverse reaction information and replacing it with a requirement for a statement about “major risks” but not “all risks”; and

WHEREAS, The shorter “major risk” statement made television and radio advertisements about prescription drugs more practicable; and

WHEREAS, Pharmaceutical companies spent \$1.6 billion on direct-to-consumer television advertising in 2000, up from \$761 million in 1996; and

WHEREAS, While health care spending generally is expected to increase by an average of 7.9 percent per year between 1998 and 2010, exceeding the 5.2 percent annual growth of 1993 to 1998, total prescription drug expenditures will increase by 15 percent per year as early as 2004; and

WHEREAS, Numerous studies have linked the increased direct-to-consumer advertising to the exponential growth in prescription drug expenditures; and

WHEREAS, Surveys suggest that 50 percent of the public believes that direct-to-consumer advertisements of prescription drugs must be submitted to the government for prior approval, 43 percent believe that only “completely safe” drugs may be advertised directly to consumers, 22 percent believe that advertising of drugs with serious side effect has been banned, and 21 percent believe that only “extremely effective”

drugs may be advertised directly to consumers, and yet, all of these beliefs are untrue; and

WHEREAS, Consumers are placing pressure on their prescribers to prescribe these drugs, some cases, inappropriately; and

WHEREAS, In 1997, a study of family physicians revealed that 80 percent of them believed that direct-to-consumer advertising “was not a good idea”; and

WHEREAS, The federal Food and Drug Administration has begun a review of the policy that unleashed an explosive growth of prescription drug advertising; now, therefore, be it

*Resolved*, That the President and Congress of the United States and the United States Department of Health and Human Services are memorialized to recognize the problems caused by direct-to-consumer advertising of prescription drugs by pharmaceutical companies; and be it further

*Resolved*, That the United States Food and Drug Administration is requested to aggressively monitor and regulate direct-to-consumer advertising of prescription drugs by pharmaceutical companies, pending action by the President and the Congress of the United States to limit, ban, or place increased restrictions on that advertising; and be it further

*Resolved*, That the President and the Congress of the United States are memorialized to limit or ban direct-to-consumer advertising of prescription drugs by pharmaceutical companies, or, alternatively, to require that those advertisements do the following:

- (1) Remind consumers that prescribers and pharmacists are the best sources of information about appropriate medical treatment and drug therapy.
- (2) Explicitly state the success and failure rates of drugs and compare them with other common products or no treatment.
- (3) Mention alternate treatments by name and class.
- (4) Recommend that consumers ask their prescribers and pharmacists if a generic equivalent is available for their condition.
- (5) Refer consumers to independent sources of drug information; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President of the United States, the Speaker of the House of Representatives, the President pro Tempore of the Senate, to each Senator and Representative from California in the Congress of the United States, to the Secretary of the United States Department of Health and Human Services, and the Director of the United States Food and Drug Administration.

---

## RESOLUTION CHAPTER 140

Senate Joint Resolution No. 29—Relative to food marketing and advertising directed to children.

[Filed with Secretary of State August 12, 2004.]

WHEREAS, California is in the midst of a growing epidemic of overweight children and childhood obesity due to poor diet and physical inactivity, putting growing numbers of California children at increased risk for type II diabetes, hypertension, heart disease, and cancer, along with psychosocial problems including low self-esteem, poor body image, and symptoms of depression; and

WHEREAS, A recent study showed that 26.5 percent of California youth in grades 5, 7, and 9 are overweight, with rates being even higher for African-American children (28.6 percent) and Latino children (33.7 percent); and

WHEREAS, In California, annual obesity-attributable medical expenditures were estimated at \$7.7 billion in 2003, with approximately one-half of these expenditures financed by Medicare and Medi-Cal; and

WHEREAS, Healthy eating and physical activity, including eating five or more servings of fruits and vegetables every day, are vital to preventing people from being overweight or suffering from heart disease, cancer, or diabetes, and ensuring children's health and well-being; and

WHEREAS, Poor diet and physical inactivity are responsible for 400,000 deaths in the United States annually and may soon overtake tobacco as the leading cause of preventable death; and

WHEREAS, The growing epidemic of childhood obesity has brought renewed attention to the role that food and beverage advertising and marketing play in negatively influencing eating habits of youth; and

WHEREAS, The food, beverage, and restaurant industries recognize children as a major market force because of their spending power, purchasing influence, and anticipated brand loyalty as adult consumers, with children under 14 years of age purchasing \$24 billion in products and influencing \$190 billion in family purchases each year; and

WHEREAS, Children are being exposed to increasing amounts of marketing and advertising, with \$15 billion spent marketing to children in the United States in 2002, double the amount spent in 1992; and

WHEREAS, The food, beverage, and restaurant industries utilize multiple strategies to market their products to children, including television advertising, in-school marketing, the Internet, product placements, toys, books, and clothes with food-brand logos, contests, celebrity and cartoon spokespeople, and child targeted in-store and restaurant promotions; and

WHEREAS, Children view an estimated 40,000 commercials each year, 50 percent of which advertise food products—most often products that are high in calories, fats, sugars, and salt, with almost no references to fruits or vegetables. Children watch an average of one food commercial every five minutes of television viewing time, and as many as three hours of food commercials each week. Latino and African-American children are exposed to more television food advertising than other children; and

WHEREAS, In-school marketing of food and beverages has become increasingly prevalent in recent years and includes: (1) product sales, including sales through vending machines, a la carte, snack bars, soft drink “pouring-rights” agreements through exclusive contracts, branded fast food, and fundraisers; (2) direct advertising, such as food and beverage ads in schools; and (3) indirect advertising, such as corporate-sponsored educational programs, sports team sponsorships, and incentive programs using contests and coupons; and

WHEREAS, The majority of the foods and beverages sold in school vending machines and school stores are calorically dense and low in nutrients, which promotes purchasing and consumption of these foods while children are away from their parents in a captive environment that is supposed to be dedicated to education; and

WHEREAS, Studies show that food advertising and marketing result in more favorable attitudes, preferences, and behaviors among children towards the advertised products and that children’s food preferences and food purchase requests for high sugar and high fat foods are influenced by television exposure to food advertising; and

WHEREAS, Parents face increasing strain between their desire to feed their children well and the intense marketing of high calorie, low-nutrition food and beverages to their children; and

WHEREAS, In 2003, the World Health Organization concluded that the extensive marketing to children of fast food and high calorie, micronutrient-poor foods and beverages is a probable causal factor for the accelerating global trend in weight gain and obesity; and

WHEREAS, Children are particularly vulnerable to marketing of unhealthy foods and beverages because children under the age of 4 or 5 years cannot distinguish between television programming and advertisements, and children age 8 and under are unable to comprehend the persuasive intent and biased nature of advertising, making advertising to young children fundamentally unfair; now, therefore, be it

*Resolved by the Senate and the Assembly of the State of California, jointly,* That the Legislature of the State of California memorializes the Congress and the President of the United States to require the Federal Trade Commission to (1) develop and implement nutrition standards for

foods and beverages that are acceptable to advertise or market to children, including foods and beverages that make a positive contribution to children's diets and health by being moderate in portion size, calories, saturated fat, trans fat, refined sugars, and sodium, and provide key nutrients and (2) prohibit advertising and marketing of foods and beverages that do not meet those standards through broadcast, print, Internet, or other marketing venues for which a significant portion of the audience is children; and be it further

*Resolved*, That the Legislature memorializes the Congress and the President of the United States to require the Federal Communications Commission to ensure that equal time is given during television programs that have a significant youth audience to encourage fruit and vegetable consumption and physical activity, and discourage consumption of low nutrient foods and beverages. These messages must be produced and delivered by individuals and organizations that have no financial interest in the message; and be it further

*Resolved*, That the Legislature memorializes the Congress and the President of the United States to fund new and existing media campaigns to promote healthy eating and physical activity, such as the Centers for Disease Control and Prevention's VERB campaign and the National 5 A Day program; and be it further

*Resolved*, That the Legislature memorializes the Centers for Disease Control and Prevention and the National Institutes of Health to fund research studies to further assess the effects of food and beverage advertising and marketing on the diets and health of children and adolescents; and be it further

*Resolved*, That the Legislature calls on food and beverage companies, restaurants, retail stores, advertising agencies, sports and entertainment industries, and print, broadcast, and Web-based media operating in California to adhere to a voluntary code of practice, developed by experts, that would contain guidelines and standards for responsible food and beverage advertising and marketing aimed at children; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, the Majority Leader of the Senate, and each Senator and Representative from California in Congress.

---

## RESOLUTION CHAPTER 141

Assembly Concurrent Resolution No. 116—Relative to history and social science curriculum.

[Filed with Secretary of State August 17, 2004.]

WHEREAS, The State Department of Education is charged with ensuring that comprehensive, unbiased, and accurate information is available and taught to all California pupils; and

WHEREAS, The failure to provide an accurate portrayal of human rights violations and historical atrocities does a great disservice to pupils who deserve a complete and accurate rendering of historical fact; and

WHEREAS, The Content Standards for History and Social Science contained in the History and Social Science Framework require that pupils in grade 10 discuss human rights violations, including the Ottoman government's actions against Armenian citizens; and

WHEREAS, Most textbooks used in grade 10 history and social science classes do not include comprehensive material on human rights violations and historical atrocities; and

WHEREAS, The State Board of Education is encouraged to ensure textbook compliance with Content Standards for History and Social Science so that pupils in grade 10 are provided with textbooks that adequately discuss human rights violations and historical atrocities in the 20th century, including, but not limited to, the Armenian Genocide of 1915 to 1923, the 1994 genocide in Rwanda, and the mass atrocities that resulted from the Bosnian-Serbian War in the early 1990s; and

WHEREAS, State textbooks for pupils in grade 10 should provide a thorough discussion of the reactions of other governments to human rights violations and genocide in the 20th century and examine the effects of these tragedies on the displaced people who were deprived of their historic homelands; and

WHEREAS, Any omission, inaccuracy, or overgeneralization in grade 10 history and social science textbooks in portraying these atrocities represents a direct affront to the descendants of these displaced groups who reside in California today; and

WHEREAS, Comprehensive coverage in grade 10 history and social science textbooks of these instances of inhumanity is crucial to preventing the repetition of human rights violations and historical atrocities and provides pupils with a greater understanding of history and of the heritage of California and the nation; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the State Board of Education is urged to take action at the next instructional materials primary adoption cycle to ensure that history and social science textbooks used in California schools in grade

10 fairly and accurately portray human rights violations and other historical atrocities in a comprehensive manner, so that the historical record available in the state's schools continues to provide pupils with an understanding of these events, and the subsequent civic, social, political, and economic decisions and actions that resulted from such events; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the State Board of Education and to the author for appropriate distribution.

## RESOLUTION CHAPTER 142

Assembly Concurrent Resolution No. 189—Relative to the Bernie Richter Memorial Highway.

[Filed with Secretary of State August 17, 2004.]

WHEREAS, Bernie Richter, born September 7, 1931, in the City of Los Angeles, California, received a degree in political science from the University of California at Los Angeles in 1955, married Mary La Rae Richter in 1953, served in various public service posts, including as a commissioned officer in the United States Army Corps of Engineers and as a member of the Butte County Board of Supervisors, and was elected to the Assembly of the State of California in 1992 and served until 1998; and

WHEREAS, In January 1998 Bernie Richter witnessed a vehicle lose control, crash into a bridge abutment just south of the intersection of State Highway Route 99 and State Highway Route 70 in the County of Sutter, and burst into flames; and

WHEREAS, Bernie Richter, upon spotting flames leaping out of the hood of the vehicle, raced to the vehicle with his own fire extinguisher, and with the assistance of another good Samaritan, rescued the driver by pulling him out of the vehicle; and

WHEREAS, Bernie Richter died at the age of 68 on October 25, 1999; and

WHEREAS, It is fitting and proper that the five-mile segment of State Highway Route 99 south of its intersection with State Highway Route 70 in the County of Sutter be designated the Bernie Richter Memorial Highway; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature hereby designates the five-mile segment of State Highway Route 99 south of its intersection with State

Highway Route 70 in the County of Sutter as the Bernie Richter Memorial Highway; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signage requirements for the state highway system, showing these special designations, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 143

Assembly Concurrent Resolution No. 216—Relative to senior housing and care quality.

[Filed with Secretary of State August 17, 2004.]

WHEREAS, The American Association of Homes and Services for the Aging (AAHSA) has developed a Quality First 10-Point Plan (hereafter Quality First) intended to improve aging services; and

WHEREAS, The California state affiliate of AAHSA, the California Association of Homes and Services for the Aging (CAHSA), has promoted Quality First among providers throughout the state and supported them in adopting the covenant; and

WHEREAS, The first element is commitment. Quality First is a public commitment by aging services providers across the continuum to maintain and promote the highest standards of quality and ethics in the provision of aging services. The Quality First Covenant is in keeping with AAHSA's vision of achieving healthy, affordable, and ethical aging services. This commitment demonstrates a willingness to openly address issues and concerns in this field, to focus public attention on quality and quality improvement, and to work together to advance Quality First; and

WHEREAS, The second element is governance accountability. The governance accountability element of Quality First is designed to enable aging services providers to achieve and maintain excellence in management and governance. It calls for the establishment of structural mechanisms by which providers can enhance their leadership skills and refine quality improvement, corporate compliance, risk management, and integrated strategic planning efforts; and

WHEREAS, The third element is leading-edge care and services. Bridging research, policy, and practice by further developing and

sharing “what we know” will positively affect the quality of aging services, via the identification and dissemination of proven quality practices. To this end, it is essential that aging services providers play an active role in developing and refining innovative models or practices to improve quality, evaluating and measuring the extent to which those models or practices actually impact quality, identifying the reasons they work and how they may differ from other practices, and sharing that valuable information with peer provider organizations and other stakeholders in the aging services field; and

WHEREAS, The fourth element is community involvement. Quality First is a commitment to positive community citizenship and service. It stresses social accountability, volunteer involvement, and relationship-building with a community’s associates, consumers, professionals, and businesses. Social accountability describes the commitment made by AAHSA members to providing community benefits above and beyond their services to residents or clients. Nonprofit organizations are unique in their commitment to social accountability programs and generally enjoy stronger relationships with their communities as a result. Organizations that are proactive in their social accountability efforts are better positioned to secure their tax-exempt status, build endowments, attract volunteers, and gain support for advocacy efforts. All of these elements enhance an organization’s ability to provide quality care to older people and positive working conditions for employees. They reinforce the commitment to serving and being an integral part of communities; and

WHEREAS, The fifth element is continuous quality improvement. Continuous quality improvement (CQI) is an approach that actively involves staff at all levels of an organization in understanding problems and the processes of work that underlie them. This includes collecting and analyzing data on those processes, generating and testing hypotheses about the causes of problems, and designing, testing, implementing, and evaluating solutions. This approach goes beyond ensuring that minimum standards are met to focus on how an organization can continually do better at meeting and exceeding the needs and expectations of its customers. CQI focuses on systems-level change, rather than finding fault or placing blame on individuals. Systematic improvements in service quality result from identifying and implementing the processes that support the delivery of the highest quality of service by all individuals throughout an organization; and

WHEREAS, The sixth element is human resources development. Human resources development (HRD) describes the approach many organizations use to ensure the effective and efficient use of human talent to accomplish organizational goals. The ability to attract, retain, and develop both frontline and management staff, along with the ability to

foster and maintain a healthy workplace culture, are core elements of an effective HRD program. Quality First includes a commitment to investing in staff by offering training, competitive wages and benefits, and a supportive workplace environment. It is also a commitment to maximizing support for volunteers; and

WHEREAS, The seventh element is consumer-friendly information. Information about aging services should be accessible and consumer-friendly. The information you provide residents or clients and prospective residents or clients should be written in language the consumer can understand and contain complete details about the organization's services, policies, amenities, and rates, so that the consumer can make informed choices; and

WHEREAS, The eighth element is consumer participation. Quality First seeks to create an informed and engaged consumer network of residents and clients, family members, older people, and consumers-at-large. Including consumers and consumer advocacy groups in the way services are provided is a critical component affecting how the public perceives "quality"; and

WHEREAS, The ninth element is research and education. Quality First calls on each aging services organization to make an ongoing commitment to educating all its key stakeholders, including, but not limited to, the board, management, staff, consumers, the larger community, and policymakers, on current research findings and proven care and service methods. Quality First also stresses the importance of "giving back" to the field via reciprocal peer sharing--creating mutual opportunities for aging services professionals and organizations to learn and grow from each other. Quality in aging services can be fostered through internal and external shared learning and utilization of research findings that provide key information, strategies, and methods for organizations to employ to achieve excellence in areas including each of the 10 elements of the Quality First plan; and

WHEREAS, The 10th element is public trust and consumer confidence. Quality First is a commitment to a policy of outreach and openness by aging services organizations. This policy is designed to gain public understanding of aging services and to earn the trust of the media, the public, policymakers, the people served by aging services organizations, and their families; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That all senior housing and care providers in California are urged to adopt the Quality First 10-Point Plan; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 144

Assembly Concurrent Resolution No. 240—Relative to Joint Legislative Committee on Emergency Services and Homeland Security.

[Filed with Secretary of State August 17, 2004.]

WHEREAS, California is the site of some of the most extraordinary natural disasters in North America, including fires, earthquakes, floods, landslides, mudslides, insect infestations, and drought; and

WHEREAS, California is the nation's most populous state, home to many of the nation's most desirable tourist destinations, and home to many of the nation's most critical military installations, and as such California is especially sensitive to the threat of terrorism; and

WHEREAS, In October 2003, southern California experienced the most devastating wild land/urban interface fire in the history of California; nearly 740,000 acres burned, 246 people were injured, and 24 Californians lost their lives, including one firefighter, and more than 3,600 homes, 36 commercial properties, and 1,169 outbuildings were destroyed; and

WHEREAS, On November 2, 2003, then-Governor Gray Davis and then-Governor-elect Arnold Schwarzenegger established a Blue Ribbon Fire Commission representing federal, state, and local agencies, the firefighting community, and affected communities; and

WHEREAS, The Blue Ribbon Fire Commission was charged with hearing testimony on what worked and what did not work in the efforts to fight the October 2003 fires, and with reviewing and providing recommendations on necessary improvements to prevent and better respond to such fires in the future; and

WHEREAS, The commission, in its report to the Governor, made a number of recommendations and prioritized their importance, including the establishment of a permanent Joint Legislative Committee on Emergency Services and Homeland Security; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Joint Legislative Committee on Emergency Services and Homeland Security is hereby established; and be it further

*Resolved,* That the joint committee shall consist of 14 members, who shall include seven Assembly Members appointed by the Speaker of the Assembly, four from the party having the largest number of Members in the Assembly and three from the party having the second largest number of Members, and seven Senators appointed by the Senate Committee on Rules, four from the party having the largest number of Members in the Senate and three from the party having the second largest number of Members; and be it further

*Resolved*, That the joint committee shall be under the direction of a chairperson and vice chairperson that shall alternate between the Assembly and the Senate from session to session and that initially the joint committee shall be under the direction of an Assembly Chairperson and a Senate Vice Chairperson, appointed by the Speaker of the Assembly and the Senate Committee on Rules, respectively; and be it further

*Resolved*, That the joint committee may hear and discuss the recommendations of the Blue Ribbon Fire Commission; and be it further

*Resolved*, That the joint committee may provide a public forum for discussion of California's emergency services and homeland security; and be it further

*Resolved*, That the joint committee, in order to assist it in carrying out its duties, may form technical advisory committees, including representatives from the public safety and emergency services disciplines, to help evaluate strategies, provide technical assistance on an ongoing basis, and take active roles in supporting the passage of any necessary legislation; and be it further

*Resolved*, That the joint committee may work in cooperation with the Governor and the standing committees and subcommittees of the Legislature to address the level of support necessary for public safety and related agencies to implement essential emergency services and homeland security policies; and be it further

*Resolved*, That the joint committee may periodically report its progress and make recommendations to the Governor and the Legislature; and be it further

*Resolved*, That the joint committee and its members shall have and exercise all of the rights, duties, and powers conferred upon investigating committees and their members by the Joint Rules of the Assembly and Senate as they are adopted and amended from time to time, which provisions are incorporated herein and made applicable to this committee and its members; and be it further

*Resolved*, That the Senate Committee on Rules may make moneys available from the Senate Operating Fund, as it deems necessary, to pay expenses of the joint committee and its members, and that any expenditure of moneys shall be made in compliance with policies set forth by the Senate Committee on Rules and shall be subject to the approval of the Senate Committee on Rules; and be it further

*Resolved*, That the joint committee is authorized to act until November 30, 2004, when its existence shall terminate; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 145

Assembly Joint Resolution No. 44—Relative to Holocaust era insurance policies.

[Filed with Secretary of State August 17, 2004.]

WHEREAS, Many families in Europe during World War II purchased life insurance policies as financial protection for loved ones who would survive the war; and

WHEREAS, After the Nazis came to power in the early 1930s, they systematically confiscated the assets and insurance policy documents of Jews and other victims, and did not issue death certificates for the countless Jews and untold others murdered in concentration camps; and

WHEREAS, After the war, several insurers, many of which have California affiliates, refused to pay on valid policies because survivors did not have adequate documentation, thus making the victims of the Holocaust and their heirs unable to collect the proceeds from life insurance policies that they are rightfully owed; and

WHEREAS, Because in some instances, recollections of the very existence of insurance policies may have perished along with Holocaust victims, insurance company records may be the only proof of insurance held by Holocaust survivors or their heirs; and

WHEREAS, In 1998, the International Commission on Holocaust Era Insurance Claims (ICHEIC) was created to facilitate the expeditious processing of unpaid insurance policies issued to Holocaust victims; and

WHEREAS, The ICHEIC launched its claims process in February 2000, and has received over 85,000 claims from all over the world, of which 2,357 were from California; and

WHEREAS, California enacted the Holocaust Victims Insurance Relief Act in 1999 to require insurers to release detailed information about policies they sold in Europe between 1920 and 1945; and

WHEREAS, Approximately five California insurers have provided documents in full compliance with the state statutes and approximately 100 have refused to comply; and

WHEREAS, In July 2002, the Ninth Circuit Court of Appeals ruled that the 1999 Holocaust Victims Insurance Relief Act was constitutional; and

WHEREAS, On Monday, June 23, 2003, the United States Supreme Court in *American Insurance Association, et al. v. John Garamendi*, Insurance Commissioner, State of California (2003) 539 U.S. 396 overturned the lower court ruling, holding that California's Holocaust Victims Insurance Relief Act was unconstitutional; and

WHEREAS, The Insurance Commissioner has stated that for more than 60 years insurance companies have held money that does not belong

to them and are disregarding the legitimate heirs of Holocaust victims, refusing to provide basic insurance policy information that could help them collect on policies bought by their ancestors; now, therefore, be it

*Resolved by the Assembly and the Senate of the State of California, jointly,* That the Legislature of the State of California urges the California Attorney General, along with the California Insurance Commissioner, to investigate any feasible alternatives to enacting state law that would serve to increase the likelihood that payments may be made to the heirs of Holocaust victims; and be it further

*Resolved,* That the Legislature of the State of California urges, in the strongest possible terms, the United States Congress to immediately enact legislation to require insurance companies to disclose their Holocaust era policy information, for further delay is an abrogation of responsibility and a miscarriage of justice; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Speaker of the House of Representatives of the United States, the President of the Senate of the United States, the California Insurance Commissioner, and each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 146

Assembly Joint Resolution No. 71—Relative to veterans health care.

[Filed with Secretary of State August 17, 2004.]

WHEREAS, The level of funding for the federal Department of Veterans Affairs (VA) health care under the annual federal budget is within the discretion of Congress; and

WHEREAS, Section 1710(a) of Title 38 of the United States Code provides that the Secretary of Veterans Affairs “shall” furnish hospital care and medical services, but only to the extent Congress has provided money to cover the costs of care; and

WHEREAS, Federal law charges the VA with a duty to seek out eligible veterans and their family members, and to provide them with information and assistance to ensure that they apply for all available VA benefits and services; and

WHEREAS, Veterans have earned the right to VA medical care through their extraordinary sacrifices and service to this Nation; and

WHEREAS, Veterans enrolling in the medical benefits package are classified in enrollment priority groups, with Priority Group 1 having the highest priority and Priority Group 8 having the lowest priority; and

WHEREAS, The cumulative effects of continuing shortfalls in health care funding and the lack of outreach to advise veterans of the health care resources to which they may be entitled has now resulted in the rationing of health care, including the suspension of new enrollment of veterans assigned to Priority Group 8 and curtailed enrollment to many other veterans; and

WHEREAS, Veterans in Priority Group 8 include many seniors who are residents of California and are unable to afford medical care, mentally ill, or homeless, and unaware of their rights as veterans; and

WHEREAS, When veterans cannot get needed health care services from the VA when they go elsewhere, shifting the cost of care to state welfare and Medicaid programs or other safety net hospitals where society pays more and the patient suffers; and

WHEREAS, The Veterans Health Administration is the most efficient and cost-effective health care system, providing care for 25 percent to 30 percent less than comparable Medicare services; and

WHEREAS, Even though the VA serves a population of veterans who are older, sicker, and have a higher prevalence of mental and behavior health problems, it does so at well below Medicare rates; and

WHEREAS, Many veterans need and depend on the VA health care system and its specialized services concerning prosthetics, posttraumatic stress disorder, spinal cord injury, and blind rehabilitation to treat their service-connected disabilities and meet their unique health care needs; and

WHEREAS, The proposed 2004–05 federal budget does not provide the necessary funding to adequately provide health care to all of our veterans; and

WHEREAS, Making veterans' health care mandatory would ensure the government meets its obligation to provide timely, quality health care to all veterans eligible for care in the VA health care system; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature respectfully urges the President and Congress of the United States to amend Title 38 of the United States Code to provide a guaranteed level of funding for veterans health care and to require that medical benefits package eligibility be restored for veterans in Priority Group 8; and be it further

*Resolved,* That the Legislature urges the federal Department of Veterans Affairs to carry out its duties to seek out eligible veterans and their family members, and to provide them with information and assistance to ensure that they apply for all available VA benefits and services; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, the Senate Majority and

Minority Leaders of the United States Congress, the Speaker of the House of Representatives, the Chairman of the United States Committee on Veterans Affairs, each member of the California Delegation to Congress, and to the author for appropriate distribution.

---

RESOLUTION CHAPTER 147

Assembly Joint Resolution No. 87—Relative to the Employee Free Choice Act.

[Filed with Secretary of State August 17, 2004.]

WHEREAS, Since 1935, workers have had the right under federal law to form unions, but federal laws have eroded over the years and are poorly enforced; and

WHEREAS, Each year, 20,000 American workers suffer loss of pay due to illegal retaliation against them for exercising their right to freedom of association, and thousands more American workers are illegally threatened, coerced and interrogated, spied on, and harassed because of their efforts to form a union; and

WHEREAS, 42 million workers in the United States say that they would join a union now if they had the opportunity; and

WHEREAS, In California only 17.5 percent of our workers are unionized; and

WHEREAS, Union membership provides workers better wages and benefits, and protection from discrimination and unsafe working places, while benefiting whole communities by strengthening tax bases, promoting equal treatment, and enhancing civil participation; and

WHEREAS, Even though federal laws guarantee American workers the right to choose for themselves whether to form a union, employers across the nation routinely violate that right; workers are harassed, intimidated, coerced, and even fired, just for exercising, or attempting to exercise, this fundamental freedom; and

WHEREAS, The freedom to join a union is recognized as a fundamental human right; and

WHEREAS, When employers violate the right of workers to form a union, everyone suffers--wages fall, race and gender pay gaps widen, workplace discrimination increases, and job safety standards disappear; and

WHEREAS, Most employer violations occur behind closed doors and each year employers spend millions of dollars to defeat unionization; and

WHEREAS, A worker's fundamental right to choose a union is a public issue that requires public policy solutions, including legislative change; and

WHEREAS, S. 1925 and H.R. 3619 have been introduced this session in Congress, which introductions mark the first time in two decades that Congress is considering legislation that aims to restore the freedom of workers to join a union; and

WHEREAS, The Employee Free Choice Act (S. 1925 and H.R. 3619) would, when a majority of employees in a unit appropriate for bargaining voluntarily sign authorizations (commonly known as "card check" recognition) designating an individual or labor organization as their bargaining representative, authorize the National Labor Relations Board to certify that individual or labor organization as the exclusive bargaining representative of those employees; and

WHEREAS, The Employee Free Choice Act would also provide for first contract mediation and arbitration, establish meaningful penalties to be imposed on employers that violate the right of workers to join a union, and include, for workers, the same process for immediate relief from illegal conduct that the law presently gives only to employers; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California hereby supports and urges the Congress of the United States to pass the Employee Free Choice Act; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 148

Assembly Concurrent Resolution No. 145—Relative to the Martin L. Ganz Memorial Highway.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, Martin L. Ganz was a police officer with the Manhattan Beach Police Department; and

WHEREAS, Officer Ganz was a well-liked and respected Drug Abuse Resistance Education (D.A.R.E.) officer who took great care to teach the children of Manhattan Beach to stay away from drugs and alcohol; and

WHEREAS, Officer Ganz was a member of the South Bay Regional Driving Under the Influence Task Force and prided himself on taking drunk drivers off the streets; and

WHEREAS, On December 27, 1993, Officer Ganz was shot and killed in the line of duty while protecting the people and property of the City of Manhattan Beach; and

WHEREAS, It would be a fitting tribute to Officer Ganz to name the portion of State Highway Route 405 (Interstate 405) between Rosecrans Avenue in the City of Manhattan Beach and Hawthorne Boulevard in the City of Lawndale in Los Angeles County as the Martin L. Ganz Memorial Highway; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates that portion of State Highway Route 405 between Rosecrans Avenue in the City of Manhattan Beach and Hawthorne Boulevard in the City of Lawndale in Los Angeles County as the Martin L. Ganz Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements, for the state highway system, showing this special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those plaques and markers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 149

Assembly Concurrent Resolution No. 151—Relative to George M. Clark Memorial Bicycle Bridge.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, George M. Clark was born on December 18, 1938, in Rio Linda, California, and died while on a hike looking for new species of flowers in Lake County, California on June 9, 1996; and

WHEREAS, He attended local schools and graduated from Grant High School in 1956; and

WHEREAS, He attended American River College and Sacramento State College, earning a Bachelors Degree in Chemistry; and

WHEREAS, He earned a Doctorate in Chemistry from the University of California at Davis and participated in postdoctoral studies at Yale University; and

WHEREAS, He worked at Aerojet General Corporation as a chemist for 38 years; and

WHEREAS, He was an avid outdoorsman and was President of the California Native Plant Society; and

WHEREAS, As a resident of Orangevale, he commuted by bicycle to his job at Aerojet every day; and

WHEREAS, He, along with many others at Aerojet, was instrumental in convincing the County of Sacramento to construct a bicycle bridge over State Highway Route 50 at Hazel Avenue between Fair Oaks and Rancho Cordova to provide a safe bicycle route through this heavily traveled corridor; and

WHEREAS, It would be a fitting tribute to George M. Clark to name this bicycle bridge the George M. Clark Memorial Bicycle Bridge; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California hereby designates the bicycle bridge over State Highway Route 50 at Hazel Avenue between Fair Oaks and Rancho Cordova as the George M. Clark Memorial Bicycle Bridge in honor and recognition of George M. Clark; and be it further

*Resolved,* That, upon receipt of funds covering the cost, the Department of Transportation is requested to grant an encroachment permit authorizing a sign that is consistent with the signing requirements for the state highway system, showing the special designation, to be placed on the south side of the bridge; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Transportation.

---

## RESOLUTION CHAPTER 150

Assembly Concurrent Resolution No. 156—Relative to the Burbank Police Officer Matthew Pavelka Memorial Freeway.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, Burbank Police Officer Matthew Pavelka was born on September 1, 1977, in West Hills, California; and

WHEREAS, Officer Pavelka served in the United States Air Force from 1997 to 2001, where he was awarded two medals for meritorious service; and

WHEREAS, Officer Pavelka was hired as a Police Recruit in August of 2002, attended the Ventura County Sheriff's Academy, and was promoted to Police Officer in January of 2003; and

WHEREAS, Officer Pavelka was just 26 years of age when he was called to assist veteran Officer Gregory Campbell with a routine traffic stop at the Ramada Inn on North San Fernando Road on the night of November 15, 2003; and

WHEREAS, Tragically, the two men Officer Campbell had pulled over opened fire, critically injuring Officer Campbell and killing Officer Pavelka; and

WHEREAS, The Pavelka family lost a beloved son, the Burbank Police Department lost a beloved officer, and the Burbank community lost a true hero; and

WHEREAS, Officer Pavelka was the first police officer to be killed in the line of duty in the Burbank Police Department's 82 year history; and

WHEREAS, Officer Pavelka followed in his father's footsteps as a man deeply dedicated to law enforcement and committed to protecting California communities. Officer Pavelka's father is a 29-year veteran detective of the Los Angeles Police Department; and

WHEREAS, Officer Pavelka is survived by his parents, Michael and Sue Pavelka, his brother Nick, his sister-in-law Shannon, and his girlfriend Jessica; and

WHEREAS, It is appropriate to recognize the service of this police officer who gave his life for his community by designating, in his honor, an appropriate portion of State Highway Route 5 as the Burbank Police Officer Matthew Pavelka Memorial Freeway; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby officially designates the portion of State Highway Route 5 between West Burbank Boulevard in the City of Burbank and Hollywood Way in the City of Los Angeles in the County of Los Angeles as the Burbank Police Officer Matthew Pavelka Memorial Freeway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 151

Assembly Concurrent Resolution No. 163—Relative to the CHP Officer Shannon Distel Memorial Interchange.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, The men and women of law enforcement have the unenviable task of guaranteeing the public's safety, and it is as difficult and dangerous as it is important, as evidenced by the death of Officer Shannon Distel of the California Highway Patrol, who was killed in the line of duty on August 27, 2003; and

WHEREAS, Officer Distel, 31 years of age, of Murrieta was patrolling surface streets at 4:15 p.m. on August 27, 2003, when his motorcycle collided with a pickup truck pulling a trailer; and

WHEREAS, It is appropriate at this time to recognize the hazardous work, serious responsibilities, and strong commitment that Officer Distel willingly accepted during his six years as a law enforcement officer; and

WHEREAS, Shannon Distel graduated from the California Highway Patrol Academy in West Sacramento in September 1997 and he was first assigned to the South Los Angeles Area Office, where he remained until May 1, 2002, when he was transferred to the Riverside Area Office as a motorcycle officer; and

WHEREAS, Throughout his years with the department, Officer Distel carried on a tradition of honorable and faithful service, distinguishing himself as a versatile and knowledgeable law enforcement officer contributing to the enhancement and reputation of the agency he served; and

WHEREAS, Officer Distel is survived by his wife, Deanna, his two children, Brionna, age 9, and Brody, age 5 months, and two stepchildren, Savannah Wetherbee, age 10, and Tucker Wetherbee, age 7; and

WHEREAS, This gallant and dedicated officer exemplifies the true character of the brave men and women who devote their time and energy to the perilous duties of law enforcement; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby officially designates the interchange at State Highway Route 15 and State Highway Route 91 within the City of Corona in the County of Riverside as the CHP Officer Shannon Distel Memorial Interchange; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements for the state highway system, showing the special designation, and, upon receiving donations from nonstate

sources covering that cost, to erect those plaques and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and the author for appropriate distribution.

---

RESOLUTION CHAPTER 152

Assembly Concurrent Resolution No. 177—Relative to the University of California.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, The Cooperative Extension of the University of California provides a direct link between the university and California counties; and

WHEREAS, In particular, the rural counties of the Central Valley, which are internationally famous for their agricultural production, cannot afford to lose this vital program; and

WHEREAS, The UC Cooperative Extension suffered a 25-percent reduction in state funding in the 2003–04 fiscal year; and

WHEREAS, Although much of the \$12,500,000 reduction was taken out of program administration and support, the UC Cooperative Extension cannot absorb any more cuts if it is to remain a viable program providing essential services to California communities; and

WHEREAS, The UC Cooperative Extension was established 90 years ago in response to the needs of the many communities it serves, and its county offices, research and extension centers, and campus-based units provide expertise and science-based information areas, including, but not limited to, agronomy, consumer research, dairy science, pomology, viticulture, ornamental horticulture, weed control, postharvest technology, youth and 4-H, nutrition, and livestock and natural resources; and

WHEREAS, The county-state-federal funding partnership that allows the work of the UC Cooperative Extension to survive and thrive needs to be sustained in order to allow California's agricultural products to continue to meet the needs of the world; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature of the State of California requests that the United States Department of Agriculture, the Regents of the University of California, and the board of supervisors in each county in the state continue their support and funding of the UC Cooperative Extension as a priority; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Secretary of the United States Department of Agriculture, the Governor, each member of the Regents of the University of California, and to the board of supervisors of each county in the state.

---

RESOLUTION CHAPTER 153

Assembly Joint Resolution No. 63—Relative to State Highway Route 99.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, The State Highway Route 99 corridor has the largest urban area not in the interstate highway system and Fresno is the largest city in the United States not served by an interstate highway; and

WHEREAS, Studies have long shown that economic development is enhanced in areas that are close to interstate highways; and

WHEREAS, The Central Valley of California has the highest concentration of unemployment in the United States, and unemployment has been a persistent problem that needs to have extraordinary efforts applied to it; and

WHEREAS, The interstate highway system was designed to help all regions of the nation and promote interstate commerce and international trade; and

WHEREAS, The omission of highways in the urban areas of the Central Valley from the interstate highway system cannot be justified and should be remedied; and

WHEREAS, Interstate Highway 5 has been designated the NAFTA corridor, even though most of the trucks engaged in international trade and commerce travel on State Highway Route 99; and

WHEREAS, Truck cargo volumes on State Highway Route 99 exceed those on Interstate Highway 5 and are among the highest in the entire nation, and this is the only segment of the federal highway system with this level of traffic not in the interstate highway system; and

WHEREAS, Any effort to reduce truck congestion and other traffic congestion contributes to the reduction of air pollution, which is critically needed in the Central Valley; and

WHEREAS, Tourists to national parts adjacent to the Central Valley generally travel State Highway Route 99 although families prefer to travel to their destinations along interstate highways that are known to be twice as safe as other highways, and tourism would be enhanced if State Highway Route 99 is upgraded to an interstate highway; and

WHEREAS, The Central Valley is the most rapidly growing part of California, and one of the most rapidly growing areas of the nation, and future demand will make all of the arguments for upgrading State Highway Route 99 even more urgent; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California hereby respectfully memorializes the President and the Congress of the United States to enact legislation to include State Highway Route 99 in the interstate highway system only when the following actions take place:

(a) The President or Congress requests and is granted an exemption for State Highway Route 99 from all federal interstate requirements or that the state be exempted from financing any costs to upgrade the highway pursuant to those requirements.

(b) The current \$16.1 million from the Traffic Congestion Relief Program designated for State Highway Route 99, which is currently contingent upon proceeds that would result from the Governor reaching pacts with tribal gaming interests, are expended on State Highway Route 99.

(c) State Highway Route 99 is granted a historic designation of “Historic Route 99”; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, the Minority Leader of the House of Representatives, the Majority Leader of the Senate, the Minority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 154

Assembly Joint Resolution No. 86—Relative to space exploration.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, The United States is a nation of explorers; and

WHEREAS, Exploration and discovery have been especially important to the American experience, providing vision, hope, and economic stimulus, from new world explorers and American pioneers to the Apollo program; and

WHEREAS, Just as Lewis and Clark could not have predicted the settlement of the American west within a hundred years of the start of their famous 19th century expedition, the total benefits of a single exploratory undertaking or discovery cannot be predicted in advance; and

WHEREAS, The desire to explore is part of our character, and history has shown that space exploration benefits all humankind through new technologies for everyday application, new jobs across the entire economic enterprise, economic contributions through new markets and commercial products, education and inspiration, United States leadership, increased security, and a legacy for future generations; and

WHEREAS, New technologies and commercial spin-offs from the advancements made through National Aeronautics and Space Administration (NASA) programs have provided economic expansion and improved life quality to residents not only within the United States, but worldwide, and some of these technologies include the following:

(a) Image processing used in CT scanners and MRI technology came from technology developed to computer-enhance pictures of the moon for the Apollo program.

(b) Kidney dialysis machines were developed as a result of a NASA-developed chemical process, and insulin pumps were based on technology used on the Mars Viking spacecraft.

(c) Programmable heart pacemakers were first developed in the 1970's using NASA satellite electrical systems.

(d) Fetal heart monitors were developed from technology originally used to measure airflow over aircraft wings.

(e) Surgical probes used to treat brain tumors resulted from special lighting technology developed for plant growth experiments on space shuttle missions.

(f) Infrared hand-held cameras used to observe atmospheric gas plumes in space from the space shuttles have helped firefighters point out hot spots in wild fires; and

WHEREAS, This state has been a leader in the research, design, exploration, and development of space enterprise since the dawn of the space age; and

WHEREAS, Space is a \$24.2 billion enterprise in this state and generates 133,000 direct and indirect jobs scattered throughout the entire state; and

WHEREAS, Our nation's new vision for space exploration charts a new, building block strategy to explore destinations across our solar system with robots and humans, allowing our nation to remain competitive in the new industry of space commerce; and

WHEREAS, The research and development necessary to rely on the initial robotics goal is uniquely suited for the three NASA centers located in our state; and

WHEREAS, The three NASA centers in this state—Ames Research Center in Santa Clara County, Dryden Flight Research Center in Antelope Valley, and the Jet Propulsion Laboratory in La Cañada

Flintridge jointly employ over 7,250 people and maintain a payroll in excess of \$300 million; and

WHEREAS, NASA's economic benefit to this state already tops \$3 billion annually, including over \$175 million worth of science and engineering grants to California's public and independent universities, and the proposed vision for space exploration is expected to strengthen this economic impact; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Congress and the President of the United States is requested to enact and fully fund the proposed budget for space exploration, as submitted to the Congress in the federal 2005 fiscal year budget, to enable the United States and California, in particular, to remain a leader in the exploration and development of space; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

#### RESOLUTION CHAPTER 155

Senate Concurrent Resolution No. 87—Relative to soccer in California.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, With a diverse fan base, unique mix of American and international stars on the professional field, and countless youth and recreational teams throughout the state, soccer is the 21st century sport that represents inclusiveness and many different cultures that now thrive in today's everchanging society regardless of socioeconomic status; and

WHEREAS, Major league soccer teams include players from all six international confederations and more than 31 countries from around the globe and feature a diverse mix of domestic and international players with young Central American players, such as the Los Angeles Galaxy's Carlos Ruiz, the MetroStars' Amado Guevara, and New England's Jose Cancela contributing their exceptional talent and star quality to their teams; and

WHEREAS, Soccer is played by more than 240 million individuals worldwide, with 18 million players in the United States and 2 million players in California; and

WHEREAS, Over 700,000 children play youth soccer in California and 49 percent of them are girls; and

WHEREAS, Soccer players of all ages play at schools, parks, and urban fields throughout California, and win countless local, regional, state, and national championships; and

WHEREAS, The Cal-North and Cal-South State Associations collectively register more players with US Youth Soccer than organizations in any other state in the United States; and

WHEREAS, The Diablo Valley Soccer Club provides a comprehensive professional training program for youth soccer players and has won numerous State Cup Championships; and

WHEREAS, The Jesuit High School Marauders boys' soccer team, located in Sacramento, and the Montgomery High School Lady Vikings team, located in Santa Rosa, finished the fall 2003 season ranked number one in the country; and

WHEREAS, Paul Rose, the head coach of the Jesuit High School Marauders boys' soccer team, was named the "Coach of the Year" by the National Soccer Coaches Association of America; and

WHEREAS, Three of the 10 college soccer players named as the "2003 Collegiate National Players of the Year" by the National Soccer Coaches Association of America are from California, including Karin Sullivan of Westmont College, Fabricio Codeceira of Fresno Pacific University, and Ashley DeAlejandro of Long Beach City College; and

WHEREAS, The California Storm of the Women's Premier Soccer League (WPSL), the only national amateur stand-alone soccer league for women, has been based in Sacramento for over 15 years, are the 1999 and 2002 Women's Premier Soccer League Champions, have over 13 former professional players from the now defunct Women's United Soccer Association (WUSA), and are sending seven of their players to the 2004 Olympic Games; and

WHEREAS, California is the home of the 2004 Men's College Cup at the Home Depot Center; and

WHEREAS, The United States Soccer Federation National Team's training headquarters is located in the City of Carson; and

WHEREAS, The last three Major League Soccer Championships have been won by California teams—the Los Angeles Galaxy and the San Jose Earthquakes; and

WHEREAS, The San Jose Earthquakes of Major League Soccer are the 2003 Major League Soccer Cup champions; and

WHEREAS, Landon Donovan of the San Jose Earthquakes was the 2003 Major League Soccer Cup "Most Valuable Player"; and

WHEREAS, California is home to the largest Latino soccer-playing population in the United States with 49 percent of the total number of Latino players; and

WHEREAS, All Californians are proud of the tremendous achievements of these teams and the personal character of these talented individuals, as well as the numerous contributions that countless soccer players have made in their own communities; and

WHEREAS, Soccer at all levels helps develop teamwork, self-discipline, initiative, confidence, and leadership skills, while promoting cultural understanding and awareness; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature wishes to honor the accomplishments of the players, teams, and coaches from California and to recognize the overall contribution that soccer makes to the health and well-being of Californians of all ages and families of all backgrounds; and be it further

*Resolved,* That the Legislature encourages its members, as well as organizations, businesses, and individuals, to sponsor, attend, and support soccer events throughout the state that are informative, fun, and result in a number of Californians becoming more actively involved in their communities; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 156

Senate Concurrent Resolution No. 88—Relative to Valley Fever Awareness Month.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, Valley fever (coccidioidomycosis), a progressive, multisymptom, respiratory disorder, is a debilitating disease; and

WHEREAS, It is caused by the inhalation of tiny airborne fungi that live in soil, but are released into the air by soil disturbance or wind; and

WHEREAS, Valley fever attacks the respiratory system, causing infection that can lead to symptoms that resemble a cold, influenza, or pneumonia-like symptoms; and

WHEREAS, Left untreated or mistreated, infection can spread from the lungs into the bloodstream, causing inflammation to the skin, permanent damage to lung and bone tissue, and swelling of the membrane surrounding the brain, leading to meningitis, which can be devastating and even fatal; and

WHEREAS, Once serious symptoms of valley fever appear, including pneumonia and labored breathing, treatment must be prompt with antifungal drugs that are disagreeable and often toxic, especially for patients who have it injected beneath the base of their skulls for

meningitis, causing side effects such as nausea, fever, and kidney damage; and

WHEREAS, Within California alone, valley fever is found in portions of the Sacramento Valley, all of the San Joaquin Valley, desert regions, and portions of southern California; and

WHEREAS, Valley fever most seriously affects the young, the elderly, those with lowered immune systems, and those of African-American and Filipino descent; and

WHEREAS, Valley fever has been a disease studied for the past 100 years, but still remains impossible to control and difficult to treat; and

WHEREAS, There is no known cure to date for valley fever; however, researchers are closer than they ever have been in finding a much needed vaccine to cure this devastating disease; and

WHEREAS, The research effort to find a vaccine and the funding partnership, including funding from the State of California, was approved by the Legislature and signed by Governor Wilson in 1997; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Legislature does hereby proclaim August 2004, as Valley Fever Awareness Month; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 157

Senate Joint Resolution No. 2—Relative to health care.

[Filed with Secretary of State August 19, 2004.]

WHEREAS, In 1974 Congress passed the Employee Retirement Income Security Act, now commonly known as ERISA, in order to protect workers and guarantee the benefits provided to them by employers; and

WHEREAS, California, under the provisions of Senate Bill 21 (Chapter 536 of the Statutes of 1999), provides patients in a health maintenance organization (HMO) the ability to obtain compensation from their HMOs when HMOs wrongfully deny them care and when that wrongful denial causes harm such as death, disability, chronic pain or illness, disfigurement, or lost wages and employment; and

WHEREAS, California and Texas led the nation in providing patients with this remedy; and

WHEREAS, On June 21, 2004, the United States Supreme Court ruled in *Aetna Health Inc. v. Davila* that ERISA completely preempts

any state laws that give HMO patients the ability to sue their HMO for harms caused by the HMO's denial of care; and

WHEREAS, The ruling in *Aetna Health, Inc. v. Davila* places at risk the provisions of Senate Bill 21 and the laws of 10 other states, including Texas; and

WHEREAS, Under this ruling, HMOs will be the only type of business exempted from responsibility for their wrongdoing, even if the wrongdoing leads to the death or permanent disability of the elderly or children, and no other business or entity of any kind except the HMO industry is permitted by federal law to avoid paying for the harms it causes; and

WHEREAS, The effect of this ruling will be to exempt HMOs from liability when they make exactly the same kinds of decisions that would cause a licensed health care provider to be held liable; and

WHEREAS, Under the Supreme Court's ruling, those who work for government (including state legislators, Members of Congress, Governor Schwarzenegger, and the President) could all hold their HMOs accountable for the harms caused by their wrongful denials of care, but over one hundred million Americans who are employed in the private sector could not; and

WHEREAS, This extraordinary exemption from liability is against public policy, which generally seeks to hold parties responsible for their actions and seeks to place on wrongdoers, rather than taxpayers, the cost of their wrongdoing; and

WHEREAS, A policy that prohibits parties from being held responsible for their actions promotes carelessness, uncompensated harm, and, potentially, the loss of life; and

WHEREAS, Clear policies emphasizing accountability and responsibility for harms caused are particularly critical in the health care field in order to better ensure the public health and safety; and

WHEREAS, It is now clear that states such as California and Texas have little or no ability to ensure that HMOs, rather than the taxpayers, pay for the costs of their wrongdoing, and must rely on the United States Congress to provide this protection; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly*, That the Legislature respectfully requests the Congress to enact and the President to sign into law a meaningful and enforceable HMO Patient's Bill of Rights that includes the ability for HMO patients to hold their HMO legally responsible for harms caused by their wrongdoing and that treats HMOs in the same manner as all other businesses and individuals in that regard, or, in the alternative, to enact and sign legislation to amend ERISA to clearly authorize states to provide greater remedies than are available under federal law if states wish to provide

their citizens with greater protections than federal law makes available; and be it further

*Resolved*, That the Legislature calls upon Governor Schwarzenegger no later than 30 days after the passage date of this resolution to announce his administration's support for the right of a California patient to obtain damages from his or her HMO when the HMO wrongfully denies care and causes harm and to pledge that he will lobby the Congress and the President for the prompt enactment of such federal legislation; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

---

#### RESOLUTION CHAPTER 158

Assembly Concurrent Resolution No. 167—Relative to condemning hateful acts and beliefs.

[Filed with Secretary of State August 26, 2004.]

WHEREAS, The California Legislature stands firmly against hatred, racism, prejudice, bigotry, and violence towards all people without regard to race, ethnicity, color, nationality, religion, sexual orientation, disability, or gender; and

WHEREAS, There has been a dramatic and troublesome increase in acts of violence against Jewish persons and institutions, especially in Europe and the Middle East in recent years; and

WHEREAS, There has been intensifying hateful rhetoric against Jewish persons that cannot be excused or rationalized, including remarks by the former Prime Minister of Malaysia, Dr. Mahatir Mohamad, who opened the 57-nation, October 2003 summit of the Organization of the Islamic Conference in Malaysia by characterizing Israel and Jewish persons around the world as “the enemy” who “rule the world by proxy”; and

WHEREAS, Among the 57 national representatives in attendance, none raised their voice in protest and many applauded Dr. Mahatir's statements; and

WHEREAS, Dr. Mahatir's anti-Semitic remarks are despicable and could serve to incite further violence; and

WHEREAS, Further violence has occurred since Dr. Mahatir's call to action at the Organization of the Islamic Conference; and

WHEREAS, Bombing attacks at two synagogues in Istanbul, Turkey, in November 2003, killed 30 people and wounded at least 450 Jewish worshippers who were at prayer on the Sabbath; and

WHEREAS, Vandals desecrated about 50 graves in a Jewish cemetery in St. Petersburg, Russia during February 2004 by painting swastikas and anti-Semitic graffiti on the headstones; and

WHEREAS, In March 2004, an arsonist set fire to a Jewish synagogue in Toulon, France, by breaking a window and throwing a Molotov cocktail into the building; and

WHEREAS, In an interview with the Tehran Times on March 16, 2004, Dr. Mahatir continued to propagate the anti-Semitic myth of the powerful Jew who controls Western governments; now, therefore, be it *Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature does all of the following:

(1) Repudiates the anti-Semitic sentiments expressed by Dr. Mahatir, which embodies age-old stereotypes of Jewish global domination and grotesque anti-Semitism on an international scale.

(2) Deplores the conduct of those national representatives in attendance at the October 2003 summit of the Organization of the Islamic Conference who expressed support or approval of Dr. Mahatir's anti-Semitic remarks and urges all summit attendees to condemn the anti-Semitic remarks of Dr. Mahatir and others.

(3) Calls upon other governments and international bodies, notably the European Union, to condemn these remarks and any other hateful and discriminatory remarks against other groups of people as dangerous incitement.

(4) Denounces the violent attacks against Jewish persons and institutions across the globe, all of which make peace in the Middle East and around the world more elusive.

(5) Commends the Organization for Security and Cooperation in Europe for convening its second conference on anti-Semitism in Berlin, Germany in April 2004.

(6) Reaffirms its commitment to fighting all forms of hatred, intolerance, bigotry, racism, and violence, and to speaking out against these heinous beliefs and acts; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 159

Assembly Concurrent Resolution No. 213—Relative to Filipino farmworkers.

[Filed with Secretary of State August 26, 2004.]

WHEREAS, Filipino farmworkers have contributed invaluable to the farmworker movement and to the creation and accomplishments of the United Farm Workers in California and throughout the United States; and

WHEREAS, Through the recruitment efforts of employers, at the turn of the twentieth century Filipino men first began to leave their homeland for Hawaii to work in the sugar and pineapple fields; and

WHEREAS, During the first 30 years of the twentieth century, over 100,000 men left the Philippines by steamboat for Hawaii and for the mainland United States to ports in Seattle and San Francisco; and

WHEREAS, Despite the passage of the United States Immigration Act of 1924 that barred Asian immigration, many employers, primarily farmers and canneries, began aggressively recruiting Filipino men as a source of cheap labor because Filipinos were classified as United States nationals, not aliens, and were therefore exempt from the provisions of the act; and

WHEREAS, The aggressive recruitment efforts by California employers increased the Filipino population from five people in 1900 to over 30,000 people by 1930; and

WHEREAS, By 1930, Filipino farmworkers made up approximately 15 percent of all California farmworkers, nearly all asparagus farmworkers in the Sacramento and San Joaquin valleys, and approximately 80 percent of the Salinas Valley lettuce crop workers; and

WHEREAS, Decades before the creation of the United Farm Workers, Filipino farmworkers pioneered and built a farmworker movement beginning in 1919 when Pablo Manlapit led a successful strike in the Hawaiian sugar plantations demanding higher wages and an eight-hour work day; and

WHEREAS, In the 1930s, Filipino laborers in California began aggressively organizing unions and associations such as the Filipino Labor Association of Stockton, the Filipino United Labor Economic Endeavor, the Filipino Labor Union, and the Agricultural Workers League, to improve the working conditions of all farm and cannery workers; and

WHEREAS, In 1933, Rufo Canete and other Filipino labor leaders such as D.L. Marcuelo, Johnny Estigoy, Nick Losado, and others established the Filipino Labor Union and launched one of the first large-scale agricultural strikes in California history by organizing 7,000 farmworkers of all nationalities in the lettuce fields in the Salinas Valley; and

WHEREAS, In 1938, Filipino labor leaders Francisco Varona, Macario Bautista, Lamberto Malinab, and others changed the name of

the Filipino Agricultural Laborers Association to the Federated Agricultural Laborers Association to represent a more inclusive union, and in 1939 led a successful strike of the California asparagus industry, which led to similar victories in California that year in the celery, brussels sprouts, and garlic fields; and

WHEREAS, By 1940, the Federated Agricultural Laborers Association was comprised of over 30,000 members; and

WHEREAS, In 1948, Chris Mensalvas, president of the Cannery Workers Union, ILWU Local 37, along with Ernesto Mangaoang, organized the first major agricultural strike after World War II that encompassed the asparagus fields in Stockton, Elton, Byron, and Tracy; and

WHEREAS, Filipino labor leaders such as Larry Dulay Itliong, Andy Imutan, Philip Vera Cruz, and Pete Velasco helped form the Agricultural Workers Organizing Committee; and

WHEREAS, Under the leadership of the Agricultural Workers Organizing Committee, Filipino farmworkers initiated the famous five-year strike in the Delano grape fields on September 8, 1965, which would become the most important date in the history of the farmworker movement in California and the United States; and

WHEREAS, In August 1966, the Agricultural Workers Organizing Committee, under the leadership of Larry Dulay Itliong, and the National Farm Workers Association, under the leadership of Cesar Chavez, merged and formed the United Farm Workers Organizing Committee, AFL-CIO; and

WHEREAS, Filipino labor leaders Larry Dulay Itliong, Andy Imutan, Philip Vera Cruz, Pete Velasco, and countless others have all greatly contributed to the historic formation of the United Farm Workers and the accomplishments of the union such as the passage of the California Labor Relations Act in 1975, collective bargaining agreements between farmworkers and growers, higher wages, lunch breaks, rest breaks during the workday, unemployment insurance, health insurance, retirement benefits, clean drinking water, access to portable toilets, and protection against pesticides; and

WHEREAS, Filipino labor leaders such as Rufo Canete, D.L. Marcuelo, Johnny Estigoy, Nick Losado, Francisco Varona, Macario Bautista, Lamberto Malinab, Chris Mensalvas, Ernesto Mangaoang, Larry Dulay Itliong, Andy Imutan, Philip Vera Cruz, and Pete Velasco have been often overlooked but nevertheless contributed invaluable and enormously to the farm labor movement in California and the United States; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California recognizes the considerable contribution made by Filipino labor leaders and

farmworkers to the farmworker movement over the past 80 years in California and the United States; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 160

Assembly Joint Resolution No. 14—Relative to the Arab economic boycott of Israel.

[Filed with Secretary of State August 26, 2004.]

WHEREAS, In 1946, the Arab League instituted an economic boycott against the Jewish community in Mandatory Palestine, and after the State of Israel was born in 1948, the Arab League established a Central Boycott Office in 1951 to coordinate the Arab effort to strangle Israel economically; and

WHEREAS, The Arab boycott operates on several levels: the primary boycott prohibits Arabs from doing business with Israel, the secondary boycott blacklists companies doing business with Israel, and the tertiary boycott blacklists companies doing business with companies targeted by the secondary boycott; and

WHEREAS, In the 1980s and 1990s, Arab enforcement of the boycott diminished, but in October of 2002, 18 members of the Arab League meeting in Damascus, Syria (Egypt, Jordan, and Mauritania not attending) agreed to reactivate the Arab economic boycott of Israel; and

WHEREAS, The Arab economic boycott of Israel damages Israel's economy, harms the peoples of the Arab countries by limiting their economic freedom, and potentially affects California's economy; and

WHEREAS, While the recent moves toward reform in the Palestinian Authority and renewed United States and international engagement have produced hopeful signs of progress on the path towards peace, participation in the economic boycott of Israel by Arab states continues to call into question the Arab commitment to ending the Arab-Israeli conflict and the support for a comprehensive peace in the region; and

WHEREAS, Participation in or compliance with the Arab economic boycott of Israel is illegal under the United States Export Administration Act of 1979 (50 U.S.C. App. Sec. 2402 and following), and California state trust moneys may not be invested in business firms that comply with the Arab economic boycott of Israel, nor may state moneys be deposited with financial institutions that comply with the Arab economic boycott of Israel (Sec. 16649.80 and following, Gov. C.); now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California strongly condemns the Arab League's economic boycott of Israel, and particularly the October of 2002 decision to reactivate the boycott; and be it further

*Resolved,* That the Legislature of the State of California calls on the Arab League and its members to demonstrate a commitment to peace with Israel by disavowing and ending the economic boycott of Israel; and be it further

*Resolved,* That the Legislature of the State of California urges the President of the United States and the Governor of California to strictly enforce United States and California antiboycott legislation; and be it further

*Resolved,* That a copy of this resolution be transmitted to the President of the United States, to each Senator and Representative from California in the Congress of the United States, to the Governor of California, and to the Arab League.

---

## RESOLUTION CHAPTER 161

Assembly Joint Resolution No. 47—Relative to Cesar E. Chavez.

[Filed with Secretary of State August 26, 2004.]

WHEREAS, On March 31, 1927, a true hero and leader named Cesar Estrada Chavez was born in Yuma, Arizona to Librado and Juana Chavez and became the second oldest in a family of five children. Cesar Estrada Chavez dedicated his life to improving the lives of others: the farmworkers of this nation. As a founder of one of the first successful farmworkers' unions in the United States, he earned respect and admiration while leading through struggle, sacrifice, and abnegation. He stood for dignity and justice for farmworkers. Today, he remains a symbol of hope to all Californians who find hope and peace in justice; and

WHEREAS, During his lifetime, Cesar Chavez established an unparalleled legacy of accomplishment as a national labor and civil rights leader; and

WHEREAS, In the 1930s, during the Great Depression, Mr. Chavez's father lost his small farming business and the family struggled financially. The family became migrant workers and joined some 300,000 workers who followed the crops from Arizona into southern California, then up the length of the Central Valley and back again, working as farmworkers. The Chavez family was housed in tents and other makeshift shelters that often lacked basic services such as

bathrooms, electricity, and running water. Education for Mr. Chavez was irregular and haphazard. He attended 30 different schools, often encountered discrimination, and was punished for speaking Spanish; and

WHEREAS, After graduating from eighth grade, Cesar Chavez was forced to quit school and take to the fields in order to help support his family. In 1944, at the age of 17, he joined the Navy and served in World War II. After he completed his tour of duty, Cesar Chavez returned to California and married Helen Fabela, a woman who shared his dedication to the cause of the farmworker. They lived in San Jose in a neighborhood called "Sal Si Puedes," which translates to "Get out if you can," and together raised eight children; and

WHEREAS, As a farmworker, Cesar Chavez experienced firsthand the injustices faced everyday by farmworkers. He made the decision to speak up and fight for change, by taking part in his first strike in protest of low wages and poor working conditions for farmworkers. Although initially unsuccessful, participation in his first strike marked the beginning of a long career in social justice; and

WHEREAS, In 1952, Cesar Chavez met Fred Ross, who was with a group called the Community Service Organization (CSO). Cesar Chavez led the voter registration efforts, and eventually spent 10 years with the CSO, becoming general director in 1958; and

WHEREAS, In 1962, Cesar Chavez resigned his position with the CSO to embark on a bold new undertaking to form a farmworkers' union. He was joined by Delores Huerta, and together they became the architects of the National Farm Workers' Union, the predecessor to the present United Farm Workers (UFW); and

WHEREAS, In 1965, Cesar Chavez led a strike of California grapepickers to demand higher wages, and urged all Americans to boycott table grapes as a show of support. That strike, in 1966, included a 340-mile march from Delano to Sacramento, in which thousands of farmworkers and supporters marched in solidarity; and

WHEREAS, Cesar Chavez led the union through nonviolence even as strikers were physically abused by many opposed to the grape boycott. In 1968, Mr. Chavez began a fast to call attention to the migrant workers' cause. This act increased public awareness of the conditions under which farmworkers labored. In 1977, an agreement was finally reached that gave the UFW the sole right to organize farmworkers; and

WHEREAS, During the 1980s, Cesar Chavez led the effort to call attention to the health problems of farmworkers caused by the use of certain pesticides on crops; and

WHEREAS, On April 23, 1993, Cesar Chavez died peacefully in his sleep in San Luis, Arizona; and

WHEREAS, In 1990, Mexican President Salinas de Gortari awarded Cesar Chavez the “El Aquila Azteca.” President Clinton later awarded the Presidential Medal of Freedom to Cesar Chavez posthumously; and

WHEREAS, Senator John McCain (R-Arizona) has introduced S. 164 and United States Representative Hilda Solis (D-California) has introduced H.R. 1034 to call for the Secretary of the Interior to prepare an inventory of key sites in Cesar Chavez’s life in order for the National Parks Service to commemorate the life of the extraordinary man; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California call upon the California delegation of the United States Senate and House of Representatives, to support the passage of S. 164, introduced by Senator McCain, and H.R. 1034 introduced by Representative Solis, ; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 162

Assembly Joint Resolution No. 73—Relative to the Armenian Genocide.

[Filed with Secretary of State August 26, 2004.]

WHEREAS, One and one-half million men, women, and children of Armenian descent were victims of the brutal genocide perpetrated by the Ottoman Empire from 1915 to 1923; and

WHEREAS, The Armenian Genocide and massacre of the Armenian people have been recognized as an attempt to eliminate all traces of a thriving and noble civilization over 3,000 years old; and

WHEREAS, To this day revisionists still inexplicably deny the existence of these horrific events; and

WHEREAS, By consistently remembering and openly condemning the atrocities committed against the Armenians, California residents demonstrate their sensitivity to the need for constant vigilance to prevent similar atrocities in the future; and

WHEREAS, Recognition of the 89th anniversary of this genocide is crucial to preventing the repetition of future genocides and educating people about the atrocities connected to these tragic events; and

WHEREAS, Armenia is now a free and independent republic, having embraced democracy following the dissolution of the Soviet Union; and

WHEREAS, California is home to the largest population of Armenians in the United States, and those citizens have enriched our state through their leadership in the fields of business, agriculture, academia, medicine, government, and the arts and are proud and patriotic practitioners of American citizenship; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature hereby designates April 24, 2004, as “California Day of Remembrance for the Armenian Genocide of 1915–1923”; and be it further

*Resolved,* That California respectfully memorializes the Congress of the United States to likewise act to commemorate the Armenian Genocide; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, Members of the United States Congress, the Governor, and Armenian churches and commemorative organizations in California.

---

## RESOLUTION CHAPTER 163

Assembly Joint Resolution No. 91—Relative to the trade assistance for services workers.

[Filed with Secretary of State August 26, 2004.]

WHEREAS, The trade adjustment assistance program (19 U.S.C. Sec. 2271 et seq.), first enacted 30 years ago in the Trade Act of 1974 (19 U.S.C. Sec. 2101 et seq.), was created to help American workers who lost jobs as a result of increased imports, by providing assistance during extended periods of unemployment, including up to an additional year of income support, a full range of employment services (such as classroom and on-the-job training), and tax credits to help cover monthly health insurance premiums; and

WHEREAS, The benefits of the trade adjustment assistance program were originally limited to displaced manufacturing workers in response to global competition in manufactured goods, and were extended in 2002 to farmers and fishermen and fisherwomen, but have not been extended to services workers; and

WHEREAS, Services workers account for 81 percent of nonfarm jobs in the United States; and

WHEREAS, The nature of the global economy has changed dramatically, and the United States’ trade agreements and digital

technologies have opened up the services and high tech sectors of the United States economy to rapidly increasing international competition, as work is transferred to virtual workforces across the globe; and

WHEREAS, California's high tech workers are heavily impacted by global trade in which information technology skills, knowledge, and services can be outsourced offshore, as evidenced in part by a 19-percent decline in jobs in the Silicon Valley in the last three years; and

WHEREAS, The benefits of the trade adjustment assistance program can only be provided after the Department of Labor has certified a "dislocation" as a result of increased imports of goods, and only an average of 2,800 California workers have qualified for trade adjustment assistance benefits in each of the last three years; and

WHEREAS, Members of Congress have sought to address this inequity by introducing legislation to extend trade adjustment assistance to services workers; and

WHEREAS, Businesses engaged in global markets, such as electronics, support the expansion of worker retraining programs, such as the trade adjustment assistance program, to displaced services workers; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California believes that the federal workforce support system should reflect the economy of the 21st century and assist all trade-impacted dislocated workers, including services workers, and that assisting these workers to attain new jobs will require public investments in retraining and support; and be it further

*Resolved,* That the Legislature respectfully requests the President and the Congress to extend the benefits of the trade adjustment assistance program to American services workers displaced by global trade; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 164

Senate Concurrent Resolution No. 77—Relative to the State Advisory Committee on Institutional Religion.

[Filed with Secretary of State August 30, 2004.]

WHEREAS, The First Amendment to the United States Constitution assures the free exercise of religion; and

WHEREAS, The California Constitution also guarantees the exercise of religious freedom without discrimination or preference; and

WHEREAS, United States Supreme Court decisions affirm that institutionalized persons should be enabled to practice the religion of their choice; and

WHEREAS, Substantial public benefits result from active religious programs within state juvenile facilities, prisons, development centers, and hospitals; these benefits can include reduced stress levels within the institutions, and improved institutional performance; and

WHEREAS, People who are confined in juvenile facilities or state prisons or who reside in development centers or state hospitals present unique challenges to the public officers, chaplains, churches, and religious groups that are concerned with satisfying spiritual needs within the institutions; and

WHEREAS, The isolated environment of juvenile facilities, state prisons, and state hospitals, and the special relationships that these institutions have with the larger community call for special training of their chaplains; and

WHEREAS, The active assistance of staff members in each institution is an essential element in the success of every religious program; and

WHEREAS, Chaplains are often involved in contacts with family members in the community that play an important role in the spiritual health of wards, prisoners, clients, and patients; and

WHEREAS, The State Advisory Committee on Institutional Religion was established in 1948 under the leadership of Richard A. McGee, then Director of Corrections; Earl Warren, then Governor; and Dr. Norman Fenton, the first Chairman of the committee; and

WHEREAS, The State Advisory Committee on Institutional Religion is the forum in which partnerships are maintained between the faith community and the executive branch of government in addressing the many issues that affect the success of religious programs in state institutions, especially through the ongoing refinement of policies and manuals that support religious programs in each agency; and

WHEREAS, the State Advisory Committee on Institutional Religion has continuously worked to improve the professional qualifications of prison chaplains; and

WHEREAS, Recent budgetary constraints and reductions in institutional staffing have placed unusual stresses on the abilities of agencies, chaplains, and volunteers to address the spiritual needs of staff, wards, prisoners, clients, and patients; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature commends the 56 years of work by the

State Advisory Committee on Institutional Religion in assisting the implementation of chaplaincy programs within the California Youth Authority, the Department of Corrections, the Department of Developmental Services, the Department of Mental Health, and the Department of Veterans Affairs; and be it further

*Resolved*, That during this time of fiscal crisis the Legislature urges the State Advisory Committee on Institutional Religion to assist the state agencies that employ institutional chaplains to make the most effective possible use of staff, volunteer assistance, and other resources that contribute to the spiritual health of individuals; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 165

Senate Concurrent Resolution No. 78—Relative to the Bill Keene Interchange.

[Filed with Secretary of State August 30, 2004.]

WHEREAS, Bill Keene was a traffic and weather reporter for KNX Radio in Los Angeles from 1957 until his retirement in 1993; and

WHEREAS, Mr. Keene served in a similar capacity on KNXT/Channel 2 and was part of the highly successful “The Big News” with Jerry Dunphy and sports announcer Gil Stratton; and

WHEREAS, Mr. Keene was born on July 1, 1927, and started his professional career in Scottsbluff, Nebraska, winning an audition at his high school, and served in the United States Air Force in World War II as a pilot; and

WHEREAS, Mr. Keene became interested in weather reporting as a career after an unruly winter interrupted his private flying lessons; and

WHEREAS, Mr. Keene worked at KBOL-Boulder and later hosted the “Bill Keene Show” in Los Angeles, which was a local variety show, where he met his future wife Louise Vienna; and

WHEREAS, In his traffic and weather-reporting days, Mr. Keene made traffic reports more interesting by referring to accidents with words like “cattywampus,” “chrome cruncher,” and “paint peeler;” and

WHEREAS, It is appropriate to commemorate Mr. Keene’s many years of service to the southland motorist by designating the interchange of State Highway Routes 101 and 110 in the City of Los Angeles as the Bill Keene Interchange; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature of the State of California hereby designates the interchange of State Highway Routes 101 and 110 in the City of Los Angeles as the Bill Keene Interchange; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate signs and markers, consistent with the signing requirements for the state highway system, showing this special designation, and to erect those signs and markers upon receiving donations from nonstate sources sufficient to cover that cost, plus a sign maintenance fee, as determined by the department, that does not exceed 10 percent of the total cost of erecting the signs and markers; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 166

Senate Concurrent Resolution No. 84—Relative to the Larry Combs Memorial Rest Stop.

[Filed with Secretary of State August 30, 2004.]

WHEREAS, Larry Combs was a leadworker for the Department of Transportation assigned to the operation and service of all roadside rest stops for District 10 of the Department of Transportation, which included the Westly rest stop off Interstate Highway Route 5 in the County of Stanislaus; and

WHEREAS, Larry Combs was well recognized as an outstanding employee of the Department of Transportation who gave the people of California selfless, dedicated service that resulted in improved and superior maintenance of roadside rest stops; and

WHEREAS, Many times Larry Combs, through his own initiative, overcame seemingly insurmountable problems to keep California roadside rest stops open and available to the traveling public; and

WHEREAS, Larry Combs had a wonderful personality that inspired many who worked either with him or for him to do their best in the worst situations and to do it with a smile; and

WHEREAS, Larry Combs was a great friend to many and a great representative of the Department of Transportation; and

WHEREAS, The Department of Transportation lost a valuable member of its family when Larry Combs passed away; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature hereby designates the Westly rest stop on Interstate Highway Route 5 in the County of Stanislaus as the Larry Combs Memorial Rest Stop; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements, for the state highway system, showing this special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost plus a sign maintenance fee, as determined by the department, that does not exceed 10 percent of the total cost of erecting the plaques and markers, to erect those plaques and markers; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author of this resolution for appropriate distribution.

---

#### RESOLUTION CHAPTER 167

Senate Concurrent Resolution No. 86—Relative to Pain Awareness Month.

[Filed with Secretary of State August 30, 2004.]

WHEREAS, Pain is one of our nation's serious health problems. More than 75 million Americans live with chronic pain caused by various diseases or disorders, and each year nearly 25 million Americans suffer with acute pain; and

WHEREAS, Though medical knowledge and technology exist to relieve or greatly ease pain, most pain is untreated, undertreated, or improperly treated, and many health care professionals are still unaware of how to effectively treat pain. Most people with pain, including those at the end of life, get little or no relief; and

WHEREAS, People who suffer from chronic pain are often stigmatized and marginalized and are often not informed about the right to effective pain assessment and management; and

WHEREAS, The California-based Partners for Understanding Pain is a growing coalition of pain sufferers, physicians, nurses, social workers, pharmacists, therapists, civic leaders, nonprofit organizations, and health care businesses whose mission is to improve the quality of life for people in California experiencing pain; and

WHEREAS, It is the collective mission of this movement to provide practical information for people with pain, inform health care

professionals about pain management, and serve as an advocate for people experiencing pain; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the month of September 2004 is hereby proclaimed as Pain Awareness Month, and that all Californians are hereby respectfully requested to improve the quality of life for people in California suffering from pain; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

### RESOLUTION CHAPTER 168

Senate Joint Resolution No. 25—Relative to the Medicare Prescription Drug, Improvement, and Modernization Act of 2003.

[Filed with Secretary of State August 30, 2004.]

WHEREAS, On December 8, 2003, the President signed into law the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (P.L. 108-173, hereafter the “Act”); and

WHEREAS, Under the Act, a drug benefit will be made available to Medicare beneficiaries starting in 2006, which will be delivered through private risk-bearing entities under contract with the United States Department of Health and Human Services; and

WHEREAS, The Act provides for premium, deductible, and other cost-sharing subsidies for beneficiaries who are dually eligible for Medicare and Medi-Cal, or have incomes below 150 percent of the federal poverty level; and

WHEREAS, Under the Act, low-income beneficiaries must meet an asset limit in order to qualify for the drug coverage subsidies under the Act; and

WHEREAS, The Act also provides for a prescription drug discount card program to be made available starting in June 2004 and continuing through the end of 2005; and

WHEREAS, Beneficiaries with incomes below 135 percent of the federal poverty level who do not have Medicaid coverage do not have to pay any enrollment fee to participate in this prescription drug discount card program and will receive up to a \$600 credit in 2004 and another \$600 credit in 2005 towards the cost of drug purchases; and

WHEREAS, In order to receive the \$600 subsidy under this prescription drug discount card program, beneficiaries cannot be receiving or be eligible for any other drug coverage; and

WHEREAS, Under the Act, beneficiaries may not change prescription drug discount cards once they have enrolled in the prescription drug discount card program, except for a one-time change at the start of 2005; and

WHEREAS, Under the Act, sponsors of discount cards will be able to charge enrollees up to a \$30 annual enrollment fee and will be free to make changes in the discounts available to enrollees and in the drugs covered by the cards simply by posting the changes on the Internet; and

WHEREAS, To enroll in the drug plans established through the Act beginning in 2006, beneficiaries will be required to pay an annual premium equal to an estimated \$420 and an annual deductible equal to \$250, after which the plans will cover 75 percent of the costs of covered drugs up to an initial \$2,250 coverage limit, none of the cost of drugs between the \$2,250 coverage limit and a \$5,100 upper limit, and most of the cost of drug expenditures above the \$5,100 cap; and

WHEREAS, No expenditures by third-party coverage sources may be used to satisfy the coverage gap under the Act, referred to as the “donut hole,” requiring beneficiaries to use their own out-of-pocket funds to meet the catastrophic coverage cap under the bill; and

WHEREAS, Only expenditures for drugs that are covered by a drug plan’s formulary may be used to satisfy the coverage gap under the Act; and

WHEREAS, According to the Congressional Budget Office, by indexing premiums, deductible, and other cost sharing limits for beneficiaries to increases in the cost of drugs under the drug program created by the Act, the indexing provisions in the Act will result in premiums increasing to \$696, deductibles increasing to \$445, the initial coverage limit increasing to \$4,000, and the out-of-pocket spending cap increasing to \$6,400 in 2013; and

WHEREAS, The Act precludes the United States Department of Health and Human Services from negotiating with drug manufacturers and wholesalers the costs of drugs to be made available under the new drug benefit and instead relies on individual sponsors of the drug discount cards, the prescription drug plans, and Medicare Advantage managed care plans providing prescription drug coverage to negotiate the rates for drugs; and

WHEREAS, Individual sponsors of drug discount cards and prescription drug plans and Medicare Advantage managed care plans are unlikely to receive the same low prices the federal government would get by negotiating collectively for beneficiaries, as evidenced by highly successful federal purchasing programs such as the Veterans Administration; and

WHEREAS, The Act makes importation of drugs by wholesalers and individuals legal only if the Secretary of the United States Department

of Health and Human Services certifies that the importation poses no additional risk to the public's health and safety, and the current Secretary of Health and Human Services has stated that he cannot make the certification; and

WHEREAS, As of January 1, 2006, states will no longer be able to receive federal Medicaid matching funds to cover prescription drugs for dual eligible beneficiaries, including funds to help meet cost-sharing requirements or to cover drugs not covered under the new drug benefit due to a plan's formulary, with the result that drug coverage for dual eligible beneficiaries will likely be reduced as a result of the Act; and

WHEREAS, Under the Act, states must make financial maintenance of effort payments to the federal government for the cost of coverage under the Act for dual eligible beneficiaries which are the product of three elements: (1) a "take back" factor, which is set at 90 percent for 2006 and phased down to 75 percent in 2015; (2) the number of dual eligibles; and (3) the per capita level of spending by state Medicaid programs in 2003, trended forward through 2006 by a growth factor; and

WHEREAS, As a result of the financial maintenance of effort requirements in the Act, states including California will experience little fiscal relief from the assumption of prescription drug coverage for the dual eligible population by the Medicare program; and

WHEREAS, In 2004 the Act has resulted in potential problems of patient access to cancer treatment in doctor's offices, because the payment amounts for 2004 for some drugs are lower than the price at which physicians can purchase them; and

WHEREAS, For 2005 and later years, the Act reduces the payments for cancer treatment drugs and administration services further relative to their 2004 levels, with no mechanism for adjustments to ensure that the payment levels are not lower than the prices at which physicians can purchase them; and

WHEREAS, Under the Act, \$900 million is appropriated to the federal Centers for Medicare and Medicaid Services for administration of the Act, including funds to educate beneficiaries about their options under the Act; however, no funds are specifically allocated for the Health Insurance Counseling and Advocacy Program, the primary entity responsible for direct one-on-one unbiased counseling regarding Medicare benefits; and

WHEREAS, As a result of the provisions of the Act, beneficiaries face limited protections from the rising costs of prescription drugs; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California memorializes the Congress and President of the United States to enact and sign into law revisions to the Medicare Prescription Drug, Improvement, and

Modernization Act of 2003 to: Index increases in beneficiaries' premiums, deductibles, and cost sharing limits to increases in Social Security benefits or changes in income for beneficiaries; give authority to the Secretary of the United States Department of Health and Human Services to negotiate the prices of drugs to be made available to beneficiaries under the Act; to direct the Secretary to work with states on establishing workable systems to enable beneficiaries and others to safely import drugs from Canada; to allow states to receive matching funds if they choose to maintain the existing level of drug coverage for beneficiaries who are dually eligible for Medicare and Medicaid; to require exceptions, or a similar process, under which the Centers for Medicare and Medicaid Services must ensure that the payment amounts for cancer treatment drugs in 2005 and in later years are sufficient to cover physicians' costs of acquiring these drugs; to revise the Act's transitional adjustment payment for drug administration services to an amount that will maintain net revenue available to physicians from drugs and drug administration services in 2005 and 2006 at the same level as in 2004; to eliminate or significantly reduce state maintenance of effort payments to the federal government for the costs of drug coverage for dual eligible beneficiaries; and to require that a portion of the funds appropriated to the Centers for Medicare and Medicaid Services be allocated to the state Health Insurance and Counseling and Advocacy Program to ensure that California's Medicare beneficiaries receive the necessary counseling and assistance to understand all of their health coverage options; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President of the United States, Members of the United States Congress, and the Governor.

---

#### RESOLUTION CHAPTER 169

Senate Joint Resolution No. 30—Relative to federal environmental permit and review process streamlining.

[Filed with Secretary of State August 30, 2004.]

WHEREAS, The State Office of Historic Preservation has the responsibility for processing approvals for federally funded transportation projects pursuant to Section 106 of the National Historic Preservation Act (16 U.S.C. Sec. 470 et seq.) and Section 4(f) of the federal Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102-240); and

WHEREAS, The State Office of Historic Preservation has the smallest support staff of any office with a similar function in any other state in the nation, but California has the largest transportation program; and

WHEREAS, The federal Transportation Equity Act for the 21st Century (Public Law 105-178), also known as TEA-21, provided funding for additional staff for the State Office of Historic Preservation; and

WHEREAS, Review delays at the State Office of Historic Preservation continue to be identified as a bottleneck in moving transportation projects through the environmental review phase; and

WHEREAS, Lack of involvement of federal resource agencies in the transportation planning process has been identified as a cause for project delivery delays; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That California urges the President and Congress of the United States, the federal Secretary of Transportation, and the federal Department of Transportation to streamline the federal environmental review and permitting process by doing all of the following:

(a) Ensuring adequate funding for the State Office of Historic Preservation in California.

(b) Accelerating project delivery by developing a multiagency infrastructure team to be involved in the development of transportation projects from the early planning phase and continuing through the environmental permitting and construction phases. The multiagency team should include one or more representatives from each federal resource agency with decisionmaking and permit authority. Team members should commit to involvement in the early planning, environmental document preparation, permit review and issuance, and construction phases of a project. Resource agency representatives should be retained with transportation funds, and team members should be jointly selected by transportation and resource agencies. Transportation projects developed using the multiagency team approach would be expected to be completed within the review deadlines outlined in the federal Endangered Species Act of 1973 and other relevant state and federal regulatory authorities; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the federal Secretary of Transportation.

---

## RESOLUTION CHAPTER 170

Assembly Concurrent Resolution No. 193—Relative to higher education.

[Filed with Secretary of State August 31, 2004.]

WHEREAS, Higher education has long served as the key engine for California's economic prosperity and quality of life; and

WHEREAS, Californians have long embraced the concept that higher education is both a public good and a private good, and the state has established the best public higher education system in the world; and

WHEREAS, California's public community colleges and universities provide economic and social benefits that far outweigh the costs to the taxpayers; and

WHEREAS, California's colleges and universities are an essential resource for providing all Californians with the educational services they need to become economically self-sufficient and productive members of our society, which results in a higher quality of life for all; and

WHEREAS, Between 2005 and 2015, the number of college-age young people will increase much faster in California than in any other state, and therefore California's existing colleges and universities will need to accommodate 20 to 30 percent more students in fall 2015 than were enrolled in fall 2003; and

WHEREAS, California now has the opportunity to provide a college education over the next decade to 1,800,000 Californians who will otherwise not have a chance to benefit from higher education; and

WHEREAS, California's state budget has both a short-term and a long-term deficit in revenues compared with current and projected expenditures, and our public colleges and universities are therefore expected to serve an increasing number of students without a comparable increase in state funding; and

WHEREAS, Economic prosperity and the availability of good jobs require continued scientific innovation and a growth in economic productivity made possible by advanced knowledge and skills; and

WHEREAS, The completion of vocational programs, associate degrees, baccalaureates, and more advanced higher education degrees is essential for individuals and families to achieve economic security; and

WHEREAS, The demographic composition of California is changing rapidly, and the overall rate of college participation will fall unless California achieves an increased rate of college participation for groups previously underrepresented in our colleges and universities; and

WHEREAS, The opportunity to enroll in college is the prime factor motivating students to perform well in high school and to complete a rigorous academic curriculum; and

WHEREAS, A cornerstone of the 1960 Master Plan for Higher Education in California, adopted under the leadership of the late Clark Kerr, was the promise that the “state would assure all qualified students access to a quality higher education”; and

WHEREAS, The State of California has been unable to expand opportunities for higher education in recent years to the extent required by a growing number of high school graduates, thus retreating from the promise of the 1960 Master Plan; and

WHEREAS, The proportion of the state budget that is devoted to higher education has been cut dramatically in the past 20 years; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the California State Legislature declares that a top priority in future state policy and budgets is the provision of opportunities for high-quality higher education consistent with the Master Plan for Education in California, including all feasible steps to accomplish all of the following:

- (a) Preparation of students to undertake collegiate level study.
- (b) Encouragement of students to attend college.
- (c) Provision of financial assistance to ensure affordability for all college students.
- (d) Provision of the instructional and physical capacity to provide higher education for all eligible and motivated students leaving high school; and be it further

*Resolved,* That the California State Legislature is committed to each of the five general policy goals expressed below:

- (a) Educational opportunity: so that all Californians may have reasonable and equitable opportunities for access to success in higher education.
- (b) Participation: so that higher education in California may serve a large and diverse population through policies that enhance educational equity and affordability.
- (c) Student success: so that higher education in California may prepare students well for life and work.
- (d) Public benefits: so that higher education in California may benefit the state and its people.
- (e) Cost-effectiveness: so that institutional operations may emphasize the efficient use of state and student time and resources; and be it further

*Resolved,* That the provision of adequate opportunities for students to attend public higher education in California shall be achieved in the following three ways:

(a) Governing boards of the three segments of public higher education shall take all reasonable steps to ensure the most efficient use of limited state resources to accomplish all of the following:

- (1) Enrollment of eligible students.
- (2) Acceleration of student progress to a degree.
- (3) Responsiveness to the highest state priorities.

(b) Institutions shall consider various strategies to promote institutional effectiveness, including all of the following:

(1) Dual admissions programs to create a straighter, more efficient path for transfer students.

(2) Group purchasing programs to obtain the most favorable price and quality for the acquisition of goods and services.

(3) Expanded use of technology to improve the quality of student learning and to reduce the costs of instruction.

(c) The Legislature and the Governor, in collaboration with the governing boards of each of California's public postsecondary education segments, shall develop and implement a long-term student fee policy to provide gradual, moderate, and predictable fee increases that alleviate the "boom and bust" cycles of the past, with the availability of adequate need-based financial aid to ensure that higher education is affordable for all students.

(d) The State of California, and its taxpayers, shall provide adequate and appropriate public investment in higher education to ensure that all California high school graduates can attend a public college or university to secure the benefits of a college education; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit a copy of this resolution to each member of the Regents of the University of California, the Trustees of the California State University, and the Board of Governors of the California Community Colleges.

---

## RESOLUTION CHAPTER 171

Assembly Concurrent Resolution No. 242—Relative to ballot tally software.

[Filed with Secretary of State August 31, 2004.]

WHEREAS, The State of California has a compelling interest to ensure public confidence that election results are complete, honest, and accurate; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature hereby requests the Secretary of State to investigate and evaluate the use of open-source software in all voting

machines in California and report his or her findings and recommendations to the Legislature by January 1, 2006; and be it further

*Resolved*, That the Legislature is committed to exploring and reviewing all available programs and features, including open-source software, that may enhance the security of election results and increase voter confidence in the integrity of the voting process; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 172

Assembly Joint Resolution No. 85—Relative to same-sex couples.

[Filed with Secretary of State August 31, 2004.]

WHEREAS, All individuals and families are entitled to dignity, liberty, and equal protection under the law; and

WHEREAS, Like different-sex couples, same-sex couples in California form committed relationships, share their lives together, participate in their communities together, and raise children and care for other dependent family members together; and

WHEREAS, The most recent data from the United States Census Bureau shows that same-sex couples and their families reside in all 58 counties in California and include more than 92,000 couples statewide; and

WHEREAS, Alleviating discrimination against these families furthers the state's interest in supporting stable family relationships, promoting personal and fiscal responsibility, and encouraging parents, rather than the state, to provide financial support for children; and

WHEREAS, Historically, the states, rather than the federal government, have assumed primary responsibility for establishing family policy; and

WHEREAS, A measure to amend the federal Constitution that would in effect discriminate against same-sex couples and their families, and would prevent any state or any branch of government from extending equal rights and obligations to such couples and their families, has been introduced in the United States Congress; and

WHEREAS, Throughout American history, the United States Constitution has been amended, starting with the Bill of Rights, to protect the rights, freedoms, and liberties of the American people; and

WHEREAS, This proposed measure would represent the first use of the constitutional amendment process in our nation's history to single out a group of Americans for discrimination; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully opposes any federal enactment designed to prohibit or restrict the provision of rights and obligations under the law for same-sex couples and their families; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, to each Senator and Representative in the Congress of the United States, and to the presiding officer of each house of each state legislature in the United States.

---

## RESOLUTION CHAPTER 173

Assembly Concurrent Resolution No. 148—Relative to Domestic Violence Awareness Month.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Home should be a place of warmth, unconditional love, tranquility, and security; however, for many Americans, home is tainted with violence and fear; and

WHEREAS, Domestic violence is much more than the occasional family dispute; and

WHEREAS, According to the Surgeon General, United States Public Health Service, domestic violence is a societal problem of epidemic proportions; and

WHEREAS, According to experts, between 2 and 4 million American women are battered every year, and between 3.3 and 10 million children witness violence in their homes; and

WHEREAS, According to the United States Department of Labor, 1,000,000 people are assaulted and injured every year as a result of workplace violence, 1,000 people are killed every year due to workplace violence, and 30 percent of battered women lose their jobs due to harassment at work by abusive husbands or boyfriends; and

WHEREAS, Battering affects families across America in all socioeconomic, racial, and ethnic groups; and

WHEREAS, More than one-half of the number of women in need of shelter from an abusive environment may be turned away from a shelter due to lack of space; and

WHEREAS, Women are not the only targets of domestic violence: young children, elderly persons, and men are also victims in their own homes; and

WHEREAS, Emotional, physical, and psychosocial scars are often permanent; and

WHEREAS, A coalition of organizations has emerged to confront this crisis directly. Law enforcement agencies, domestic violence hotlines, battered women and children's shelters, health care providers, faith-based organizations, the courts, and the volunteers that serve those entities are helping the effort to end domestic violence; and

WHEREAS, It is important to recognize the compassion and dedication of the individuals involved in that effort, applaud their commitment, and increase public understanding of this significant problem; and

WHEREAS, The first Day of Unity was celebrated in October 1981 and was sponsored by the National Coalition Against Domestic Violence for the purpose of uniting battered women's advocates across the nation in an effort to end domestic violence; and

WHEREAS, That one day has grown into a month of activities at all levels of government, aimed at creating awareness about the problem and presenting solutions; and

WHEREAS, The first Domestic Violence Awareness Month was proclaimed in October 1987; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby proclaims the month of October 2004 as Domestic Violence Awareness Month; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a copy of this resolution to the President of the United States, the Governor of the State of California, the Director of the United States Department of Health and Human Services, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 174

Assembly Concurrent Resolution No. 149—Relative to Health Cares About Domestic Violence Day.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Domestic violence is a serious public health problem in California and nationally. Its victims are overwhelmingly women. Nearly one-third of American women report being physically or sexually abused by a husband, boyfriend, or partner at some point in their lives. At least three women are killed by intimate partners every day; and

WHEREAS, California has initiated a vigorous response to domestic violence. Laws have been dramatically strengthened in the past decade. When the California Legislature adopted major welfare reform legislation in 1997, the Legislature decided that counties could

temporarily suspend certain welfare requirements for battered women and their children who risk further abuse if forced to comply with those requirements. Clinics and hospitals now are required to have protocols in place for addressing domestic violence. The California Medical Training Center, created by the Legislature in 1995, provides free training on identification of, and intervention in, domestic violence to health care providers; and

WHEREAS, Most victims of abuse visit a health care provider for routine or emergency care. In addition to immediate trauma and injury, domestic violence often contributes to chronic health problems including migraines, ulcers, back and pelvic pain, and sexually transmitted diseases. Domestic violence also interferes with the management of other illnesses. Too often the underlying source of these illnesses goes undetected, because currently less than 10 percent of primary care physicians routinely screen for partner abuse during regular office visits; and

WHEREAS, Properly trained physicians and other health care providers are uniquely positioned to assist domestic violence victims. Domestic violence, like other chronic health problems such as tobacco use and high blood pressure, often requires multiple interventions over time before it is resolved. By routinely screening patients for warning signs of domestic violence, and offering safety information, referrals, and followup, health care providers can provide valuable assistance, often before a crisis occurs; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the California Legislature does hereby proclaim October 6, 2004, as Health Cares About Domestic Violence Day. This special day is an opportunity to raise awareness about the importance of health care settings for assessing domestic violence risk, promoting safety planning, and providing information and referrals as part of the routine health care that is provided; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 175

Assembly Concurrent Resolution No. 152—Relative to the Michael Evanhoe Interchange, the Reverend Cecil “Chip” Murray Overcrossing, and the Congressman George E. Brown, Jr. Memorial Highway.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Michael P. Evanhoe has served since 1995 as the chief development officer responsible for the planning, programming, project development, marketing, and congestion management functions for the Santa Clara Valley Transportation Authority (VTA) in the County of Santa Clara; and

WHEREAS, In that position, Mr. Evanhoe managed the \$700 million VTA highway program, and was responsible for long-range transportation planning and programming for VTA, working to address and set the VTA's priorities for discretionary state and federal transportation funds; and

WHEREAS, Mr. Evanhoe has worked in the field of transportation since 1965, initially with the Department of Transportation in its Sacramento, Marysville, and San Francisco offices from 1965 to 1974, and later serving as Assistant Secretary for Transportation in the Business, Transportation and Housing Agency from 1975 to 1978 and Executive Director of the California Transportation Commission from 1978 to 1984; and

WHEREAS, Mr. Evanhoe joined the Sunset Development Company in San Ramon in 1984 and served as Vice President of Operations until 1988, was later appointed as Executive Director of the Golden Triangle Task Force in Santa Clara County from 1988 to 1990, and was subsequently appointed as the Executive Director of the Congestion Management Agency of Santa Clara County in 1990, serving in the latter position until the agency merged with the Santa Clara County Transit District in 1994 to form the VTA; and

WHEREAS, Over the years, Mr. Evanhoe has gained the respect and admiration of elected officials, staff, and business leaders by getting the job done, maintaining a positive work environment, taking on new challenges, and working collaboratively with others; and

WHEREAS, Upon his retirement from VTA and from the transportation consulting business, it is appropriate to designate the interchange of State Highway Routes 85 and 101 in the City of San Jose as the Michael Evanhoe Interchange because of Mr. Evanhoe's substantial responsibilities for construction of that interchange and the widening of State Highway Route 101; and

WHEREAS, The Reverend Cecil "Chip" Murray has generously and successfully served the community and congregation of the First African Methodist Episcopal Church in Los Angeles since 1977, when the congregation counted 300 active members and those members received his vision to ignite a fire in their hearts to be a church that extends beyond its walls; and

WHEREAS, The fire in their hearts and spirit of love spread and the congregation grew to more than 17,300 members; and

WHEREAS, The First African Methodist Episcopal Church works through more than 40 task forces, including task forces related to health, substance abuse, homelessness, emergency food and clothing, general and specialized housing, tutoring, entrepreneurial training, and employment services; and

WHEREAS, The church's task forces and programs provide notable assistance and services that include assistance and services for the physically handicapped, dwelling assistance for low-income individuals and those with HIV/AIDS, transportation for the elderly and handicapped, education, health care and AIDS/tobacco ministries, tutoring, legal aid, computer training, job training and placement, economic development and loan programs, a business incubator for multimedia production, a prison ministry, environmental programs, food programs, youth programs, choir and music programs, and other activities; and

WHEREAS, Reverend Murray served 10 years on active duty in the United States Air Force as a jet radar intercept officer in the Air Defense Command and as a navigator in the Air Transport Command, was decorated in 1958 with the Soldier's Medal of Valor following an explosion in his two-seated fighter, and retired as a reserve major in the United States Air Force; and

WHEREAS, Reverend Murray is a native of Florida and has received an undergraduate degree from Florida A&M University, has received a doctorate in religion from the School of Theology at Claremont, and has lectured and been an adjunct professor at Iliff University, Seattle University, the School of Theology at Claremont, Fuller Seminary, and Northwest Theological Seminary; and

WHEREAS, Reverend Murray has been featured in Time Magazine, Ebony Magazine, CNN, Network News, the Los Angeles Times, Los Angeles 900, religious periodicals, and other print and television media; and

WHEREAS, Reverend Murray shares the membership and support of many traditional civil rights groups and human rights organizations, and his fraternity, Alpha Phi Alpha, named him Man of the Year in 1951; and

WHEREAS, Reverend Murray is blessed with a family that includes his devoted wife, Bernadine, and their son, Drew David Murray, who is enrolled at Fuller Theological Seminary; and

WHEREAS, Reverend Murray will be retiring as Senior Pastor of the First African Methodist Episcopal Church on September 25, 2004; and

WHEREAS, George E. Brown, Jr. was born in Holtville, California on March 6, 1920, and passed away on July 15, 1999, at the age of 79; and

WHEREAS, George E. Brown, Jr. served in the United States Congress for 34 years, 6 months, and 20 days, with his distinguished

length of service ranking him as the longest serving member representing California in the House or Senate in the history of the State of California; and

WHEREAS, George E. Brown, Jr. was raised in Holtville and Redlands during the Depression and graduated from the University of California at Los Angeles, where he helped create the first cooperative student housing and worked to break the racial color barrier by organizing the first integrated campus housing in the late 1930's; and

WHEREAS, George E. Brown, Jr. initially registered as a conscientious objector during World War II and worked in a Civilian Conservation Corps camp while mobilizing public opposition to the incarceration of Japanese-Americans, and towards the end of the war, George E. Brown, Jr. decided to join the military, serving as a Second Lieutenant in the Army; and

WHEREAS, After the war, having a degree in Industrial Physics, George E. Brown, Jr. began his career in the civil service department of the City of Los Angeles; and

WHEREAS, George E. Brown, Jr. became a full-time union business manager for the Engineers and Architects Association of the City of Los Angeles; and

WHEREAS, In 1954, George E. Brown, Jr. won his first election to the office of city council in the Los Angeles suburb of Monterey Park and became mayor of Monterey Park in 1955; and

WHEREAS, In 1958, George E. Brown, Jr. was elected to the California State Assembly and served there until 1962, during which time he authored legislation providing public employees with the right to bargain collectively and, foreshadowing his many environmental efforts, introduced the first bill in the nation to ban lead in gasoline; and

WHEREAS, George E. Brown, Jr. was elected to the United States House of Representatives in 1962, representing a district that included much of Latino east Los Angeles and its nearby suburbs, and served eight years in this office; and

WHEREAS, George E. Brown, Jr. returned to the United States House of Representatives in 1972, after the post-1970 census redistricting created a new seat in San Bernardino and Riverside Counties, close to his childhood home in Redlands and the Imperial Valley, and was elected to 14 terms in the seat; and

WHEREAS, In Congress, George E. Brown, Jr. fought for passage of the landmark 1964 Civil Rights Act, attending the signing of that act by President Johnson, alongside Dr. Martin Luther King, Jr., Robert Kennedy, and Rosa Parks; and

WHEREAS, George E. Brown, Jr. was one of the first critics of the Vietnam War, expressing his opposition publicly and arguing the issue privately with Presidents Kennedy, Johnson, and Nixon; and

WHEREAS, As an energetic proponent of environmental preservation and of science and technology in the service of society, George E. Brown, Jr. championed the establishment of the Environmental Protection Agency and the Office of Technology Assessment in the early 1970's; and

WHEREAS, Ahead of the mainstream agenda, George E. Brown, Jr. recognized the environmental hazards of burning fossil fuels, the destructive effect of freons on the ozone layer, and the necessity of monitoring global climate change and urged Congress to adopt provisions in the Clean Air Act to protect the ozone layer from freons; and

WHEREAS, George E. Brown, Jr. was active in promoting international scientific cooperation, authoring legislation establishing joint research programs between researchers in the United States and their counterparts in Mexico and Russia; and

WHEREAS, George E. Brown, Jr. is survived by his wife Marta Macias Brown of San Bernardino, California, both, having been previously married, have between them a total of six children, nine grandchildren, and six great-grandchildren, and George E. Brown, Jr. is also survived by his sister, Dr. Winifred Hall of Tucson, Arizona; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates the interchange of State Highway Routes 85 and 101 in the City of San Jose as the Michael Evanhoe Interchange, effective upon the retirement of Mr. Evanhoe from the VTA and the transportation consulting business; and be it further

*Resolved,* That the Legislature hereby designates the Western Avenue Overcrossing at State Highway Route 10, in the City of Los Angeles, as the Reverend Cecil "Chip" Murray Overcrossing; and be it further

RESOLVED, That the Legislature hereby designates the future alignment of State Highway Route 210 between its interchange with State Highway Route 15 and its eastern terminus in the County of San Bernardino, as the Congressman George E. Brown, Jr. Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate signs and markers, consistent with the signing requirements for the state highway system, showing the special designations, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs and markers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 176

Assembly Concurrent Resolution No. 224—Relative to Family Health and Fitness Month.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Exercise and fitness activities can increase self-esteem, boost energy, strengthen the heart and muscles, burn calories, and improve cholesterol levels; and

WHEREAS, Exercise and fitness activities are excellent ways to relieve stress, lower the risk of heart disease, hypertension and diabetes, prevent bone loss, and decrease the risk of some cancers; and

WHEREAS, A person's fitness level has a dramatic effect on the body's ability to produce energy and to reduce fat; and

WHEREAS, A fit person burns a higher percentage of fat not only during activity, but also at rest, fit people have a higher proportion of muscle tissue, which burns more calories than fat does, and those with more muscle mass can eat more calories and still maintain a healthy weight; and

WHEREAS, To lose weight and keep it off, one should do an enjoyable moderate-intensity aerobic activity for 30 to 60 minutes, three to five times a week; and

WHEREAS, A person should also do muscle-strengthening exercises two or three times a week, and should concentrate on maintaining a balanced diet; and

WHEREAS, Most popular diet programs cannot produce long-lasting weight reduction results without exercise; and

WHEREAS, There is no age limit for physical activity. Among the elderly, exercise provides cardiovascular, respiratory, neuromuscular, metabolic, and mental health benefits; and

WHEREAS, Fitness activities have been shown to sharpen mental ability in all people, and to retard the aging process; and

WHEREAS, Maximizing one's energy level, increasing muscle mass, and reducing body fat, increases one's chances of living a longer, healthier life; and

WHEREAS, More than 60 percent of American adults do not get the recommended amount of physical activity, 25 percent of American adults are not active; and

WHEREAS, Nearly all American youths from 12 to 21 years of age are not vigorously active on a regular basis; and

WHEREAS, The State Department of Education reports that a majority of California's children are not physically fit; and

WHEREAS, The Legislature seeks to advance the physical fitness of all Californians by educating them about the benefits of exercise and a balanced diet; and

WHEREAS, The Legislature will increase public awareness about the benefits of exercise and physical fitness by encouraging members to host events in their districts that stimulate physical fitness and increase participation by Californians in activities that promote physical health and benefit both mental and physical well-being; and

WHEREAS, The Legislature encourages its members, as well as organizations, businesses, and individuals to sponsor and attend physical fitness events that are informative, fun, and result in a number of Californians becoming physically fit; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby proclaims the month of September 2004, as Family Health and Fitness Month, and encourages all Californians to enrich their lives through proper diet and exercise; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 177

Assembly Concurrent Resolution No. 225—Relative to Breast Cancer Awareness Month.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Breast cancer is an epidemic that will strike one out of eight women in their lifetime; and

WHEREAS, Breast cancer is the most common form of cancer among women and is second only to lung cancer as the leading cause of cancer deaths among women, both nationally, and in California; and

WHEREAS, In the United States, approximately 40,000 women will die of breast cancer and some 200,000 new cases will be diagnosed in 2004; and

WHEREAS, In the State of California, approximately 4,000 women will die of breast cancer and nearly 21,000 new cases will be diagnosed in 2004; and

WHEREAS, Women of all ages and races are affected by breast cancer; and

WHEREAS, Breast cancer is increasingly being diagnosed among women in their 30s and 40s; and

WHEREAS, More than 70 percent of women with breast cancer exhibit none of the known risk factors; and

WHEREAS, Although evidence is emerging about a link between environmental factors and breast cancer, not enough research is being funded to pursue this link; and

WHEREAS, Despite over 25 years of the “war on cancer,” there is still no known cause, cure, or method of preventing breast cancer; and

WHEREAS, Historically, breast cancer research has been grossly underfunded at the federal level, topping a decade of erosion in federal appropriations in the 1980s for all cancer research; and

WHEREAS, According to the National Cancer Institute, the incidence of breast cancer in the United States increased 32 percent between 1982 and 1989; and

WHEREAS, By the following decade, the 105th Congress appropriated almost \$530 million for federal breast cancer research. However, much more is needed to fund research directed at finding a cure and means of preventing breast cancer adequately; and

WHEREAS, Californians now have a unique opportunity to support breast cancer research in this state through the California Breast Cancer Research Fund Act, which allows individuals to make a voluntary contribution to support research when filing state income tax returns; and

WHEREAS, Heightened public awareness and education about breast cancer are essential to the national effort to eradicate this epidemic; and

WHEREAS, Prominent organizations like the National Breast Cancer Coalition focus on three important goals to achieve such a worthy purpose; (1) increasing appropriations for high quality, peer-reviewed research, and working within the scientific community to focus research on prevention and finding a cure, (2) increasing access for all women to high quality treatment and care and to breast cancer clinical trials, and (3) increasing the influence of women living with breast cancer and other breast cancer activists in the decisionmaking that impacts all issues surrounding breast cancer; and

WHEREAS, It is in the best interest of all women, men, and families to join together to promote greater awareness about a disease that affects all Californians, the need for true early detection and adequate treatment options, and the urgency of finding a cure; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California, in order to heighten public awareness about breast cancer, including the need to redouble efforts to prevent and cure this disease, declares the month of October 2004, as Breast Cancer Awareness Month; and be it further

*Resolved,* That the Legislature of the State of California, in order to recognize that, to date, breast examination and mammography are still

the primary methods of breast cancer detection available to women, and that, therefore, all women should perform monthly breast self-examinations, women over 40 years of age should have regularly scheduled mammograms every year, and women 20 to 39 years of age, inclusive, should have a clinical breast examination performed by their health care provider, declares October 15, 2004, as Breast Examination and Mammography Awareness Day; and be it further

*Resolved*, That the Legislature of the State of California emphasizes that the public education efforts conducted during the month of October 2004, should be part of an ongoing, year-round effort to raise public awareness across the state; and be it further

*Resolved*, That the Legislature of the State of California recognizes that while early detection through routine mammograms, clinical examinations, and breast self-examinations are important, the only effective means of protecting women against breast cancer is to make breast cancer research a priority and fund critically needed research into the cause, cure, and prevention of breast cancer; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 178

Assembly Concurrent Resolution No. 251—Relative to Assisted Living Week.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Older Californians continue to energize our state through their devotion, courage, and sacrifice; and

WHEREAS, The number of Californians in need of care and services in order to remain as independent as possible continues to grow; and

WHEREAS, Assisted living is a community-based, long-term care service that offers and promotes choice, dignity, independence, and autonomy in our elderly; and

WHEREAS, The concept of assisted living has evolved to offer a brighter future with greater independence and more choices for Californians who are living longer, healthier lives; and

WHEREAS, The members of the California Assisted Living Association are proud to sponsor Assisted Living Week, 2004, the theme of which is “Caring for Our Heritage,” in honor of the caregivers and residents in assisted living communities throughout the state; and

WHEREAS, The theme of “Caring for Our Heritage” encourages residents, families, and staff to share their heritage as a means to

understanding the diverse backgrounds that form a community; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature does hereby proclaim the week of September 12 through September 18, 2004, as Assisted Living Week in California and encourages all citizens to visit friends and loved ones who reside in assisted living communities and to learn more about this valuable service; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a copy of this resolution to the Governor, and to the author for appropriate distribution throughout the community.

---

### RESOLUTION CHAPTER 179

Assembly Concurrent Resolution No. 253—Relative to Court Adoption and Permanency Month.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Each year in California, there are more than 540,000 reports of child abuse and neglect, more than 32,000 children enter foster care, and more than 125,000 children have active child welfare cases; and

WHEREAS, Almost 100,000 children in California are living apart from their families in out-of-home care; and

WHEREAS, Twelve percent of the children who enter foster care in California remain away from their families in out-of-home care after four years; and

WHEREAS, Of the 35,900 children exiting foster care between July 2002 and June 2003, 52 percent were reunited with their families and 20 percent were adopted; and

WHEREAS, The Judicial Council is committed to working with the Governor, the Legislature, and local courts and communities to bring about permanency for children in the abuse and neglect system; and

WHEREAS, Local courts and communities throughout California have created programs promoting adoption and permanency that have resulted in a decrease in the number of children waiting for permanent and safe homes; and

WHEREAS, The Assembly and Senate are committed to working together to improve outcomes for children in the child welfare system; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That November, 2004, is hereby proclaimed to be Court

Adoption and Permanency Month, in which the courts and their local communities are encouraged to join together in activities to expedite permanency; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 180

Assembly Concurrent Resolution No. 257—Relative to California Economic Literacy Week.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Young people should understand our economic system to perform effectively as workers, consumers, savers, and citizens; and

WHEREAS, In turn, this state's economy depends on economically informed and educated citizens to maintain its competitive edge; and

WHEREAS, Unfortunately, adults and high school pupils do not have a grasp of rudimentary economic concepts, according to a recent Louis Harris poll surveying 1,000 adults and 1,000 high school pupils nationwide; and

WHEREAS, While those polled were nearly unanimous in their belief that basic economics should be taught in high school, both pupils and adults lack a fundamental understanding of scarcity, money, and inflation, with less than half of the participants demonstrating knowledge of these concepts; and

WHEREAS, Legislation in the 1984–85 Regular Session established a one-semester course in economics as a requirement for graduation from high school; and

WHEREAS, New standards, adopted by the State Board of Education in November 1988, include an economics strand integrated into the social science curriculum, kindergarten through grade 11, inclusive; and

WHEREAS, The California Council on Economic Education works with the California State University system, other colleges and universities and Centers for Economic Education to help teachers implement new standards; and

WHEREAS, With the leadership of the California Council on Economic Education, the State Board of Education adopted new history social science standards that promote economic reasoning and an understanding of the United States economy in a global setting; and

WHEREAS, An understanding of economics helps pupils view history not as a series of random events, but as the result of decisions made by individuals; and

WHEREAS, These concepts help pupils evaluate major decisions that will affect them for the rest of their lives, including decisions relating to schooling, careers, and marriage; and

WHEREAS, California has made great progress in economic education and is one of only 17 states that include an economics course in the high school graduation requirements; and

WHEREAS, The adoption of the 1998 history social science standards has resulted in economics playing a greater role in classrooms from kindergarten to grade 12; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the week of October 25, 2004, through October 29, 2004, be recognized as Economic Literacy Week in this state, and urges Californians to observe these days by working for a better understanding of our economic system; and be it further

*Resolved,* That the Chief Clerk of the Assembly prepare and transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 181

Assembly Concurrent Resolution No. 258—Relative to Red Ribbon Week.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, Californians for Drug-Free Youth, Inc. (CADFY), a statewide parent-community organization, the office of the Governor, the office of the Attorney General, the State Department of Alcohol and Drug Programs, the State Department of Education, the California Parent Teacher Association, and over 100 other statewide agencies, departments, and organizations are cosponsoring October 25 through 31, 2004, as Red Ribbon Week; and

WHEREAS, The National Family Partnership, Inc. initiated the Red Ribbon Campaign after Drug Enforcement Administration Agent Enrique “Kiki” Camarena was killed in Mexico by drug traffickers in 1985; and

WHEREAS, Parents, youth, schools, businesses, law enforcement, religious institutions, service organizations, senior citizens, medical and military personnel, sports teams, and individuals throughout the State of California will demonstrate their commitment to drug-free, healthy lifestyles by wearing and displaying red ribbons during this weeklong celebration; and

WHEREAS, The theme of this year’s effort is “Freedom is Drug-Free, Plant the Promise”; and

WHEREAS, Drug abuse stands as one of the major challenges our state faces in securing a safe and healthy future for our children; and

WHEREAS, The objective of Red Ribbon Week 2004 will be to promote this view through drug prevention, education, parental involvement, and communitywide support; and

WHEREAS, The Assembly of the State of California has further committed its resources to ensure the success of the Red Ribbon Week celebration; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby proclaims its support for the Red Ribbon Week celebration by proclaiming October 25 through 31, 2004, as Red Ribbon Week; and be it further

*Resolved,* That the Legislature encourages all Californians to help build drug-free communities and to participate in drug prevention activities by making a visible statement that we are firmly committed to healthy, productive, and drug-free lifestyles; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor of the State of California, and to the author for appropriate distribution throughout the community.

---

## RESOLUTION CHAPTER 182

Assembly Joint Resolution No. 88—Relative to the federal No Child Left Behind Act of 2001.

[Filed with Secretary of State September 1, 2004.]

WHEREAS, The general intent and spirit of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), known as NCLB, are commendable; and

WHEREAS, California has already established, implemented, and sustained an accountability system that holds pupils and schools to some of the highest standards in the entire country; and

WHEREAS, To satisfy the existing state system's reasonable, yet rigorous standards and requirements, schools must demonstrate year-to-year growth toward target goals; and

WHEREAS, California schools and pupils have responded to those high expectations and have consistently shown progress toward those goals; and

WHEREAS, Many of NCLB's requirements on schools have been implemented in a manner resulting in improving schools that are facing federal sanctions; and

WHEREAS, The cost of implementing NCLB's requirements will grow each year as NCLB requires the state to intervene in additional schools regardless of improvement, and yet there is simply not sufficient ongoing funding to cover the costs associated with implementing NCLB; and

WHEREAS, Appropriate flexibility for schools, particularly in a state as diverse as California, will allow NCLB to be implemented to best meet the broad needs of the state's pupils; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California urges the President and the Congress of the United States to fully fund the requirements of the No Child Left Behind Act of 2001 for the life of the act; and be it further

*Resolved,* That the Legislature of the State of California urges the Congress of the United States to amend the No Child Left Behind Act of 2001 to permit adequate yearly progress to accommodate a range of accountability models, including a growth model of district, school, and subgroup improvement, and to respect parental choice by giving states the flexibility to exclude from the participation rate calculation, a pupil whose parent chooses not to have the pupil tested; and be it further

*Resolved,* That the Legislature of the State of California urges the Congress of the United States to amend the No Child Left Behind Act of 2001 to provide that a teacher who is certified under California's rigorous certification requirements be deemed "highly qualified" for purposes of the act; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, to the United States Secretary for Education, and to each Senator and Representative from California in the Congress of the United States.

---

### RESOLUTION CHAPTER 183

Assembly Concurrent Resolution No. 234—Relative to state investment in arts and culture.

[Filed with Secretary of State September 2, 2004.]

WHEREAS, According to the California Arts Council's April 2004 report titled "The Arts: A Competitive Advantage for California," California's nonprofit arts organizations attract an audience of 71.2 million annually and generate a \$5.4 billion impact on California's economy, including the creation of 66,300 full-time and 95,100 part-time jobs; and

WHEREAS, The findings in this April 2004 report demonstrate that the state's nonprofit arts and cultural sector has experienced triple digit growth since a prior study was completed in 1994; and

WHEREAS, The state's nonprofit arts organizations currently generate nearly \$300 million in state and local taxes; and

WHEREAS, Nonprofit arts organizations contribute to California's ranking as the most visited state in the nation and are a primary reason for visiting California for six million of the state's 44 million annual out-of-state tourists; and

WHEREAS, Cultural tourism is an important component of tourism and has a significant impact on both state and national economies; and

WHEREAS, Tourism and transportation offices across the country increasingly are promoting their cultural and heritage attractions as travel destinations; and

WHEREAS, According to a May 2003 report of the National Governor's Association, Center for Best Practices titled "How States Are Using Arts and Culture to Strengthen Their Global Trade Development," several states seeking a greater edge in an increasingly competitive marketplace are incorporating art and cultural exchanges in their international trade and business development approaches, initiating cultural exchanges with foreign nations, and making grants to communities and educational institutions that are actively initiating contacts abroad; and

WHEREAS, States such as Virginia and Alaska have elevated the stature of arts and culture as a component of efforts to strengthen economic and trade relationships with foreign nations; and

WHEREAS, According to "Creativity, Culture, Education, and the Workforce," issued in December 2001 by the Center for Arts and Culture, an independent nonprofit organization, providing all students with a complete education in the arts and humanities is proven to help students think creatively, communicate effectively, and work collaboratively in today's fast-paced, technologically advanced global economy; and

WHEREAS, The value of the arts as a vital component of California's education system is emphasized in "Champions of Change: The Impact of the Arts on Learning," released in October 1999 at the Arts Education Partnership meeting, which found that students with high levels of arts participation outperform "art-poor" students by virtually every measure; and

WHEREAS, Strengthening workforce preparation strategies through infusion of the arts in education and training curriculum is an important competitiveness goal for California; and

WHEREAS, A June 2004 "Creative Industries Study" compiled by the Americans for the Arts found that creative industry businesses

provide the essential fuel that drives the information economy, and California, as home to 89,719 arts-related businesses, institutions, and organizations, ranks first in the nation with more firms within this economic sector than any other state; and

WHEREAS, A 2002 book entitled *The Rise of the Creative Class*, by Richard Florida concludes that today's economy is shifting from an information economy to an economy powered by human creativity; and

WHEREAS, California, the world's fifth largest economy, has been among the lowest of the 50 states in per capita state investment in the arts and culture; and

WHEREAS, The organizations responsible for stewardship of California's cultural resources are a patchwork of state agencies, branches of state agencies, nonprofit organizations, and membership organizations and lack a centralized coordination and advocacy mechanism within state government; and

WHEREAS, Important research on the arts and culture in California currently is underway at the California Cultural and Historical Endowment, including a comprehensive survey designed to evaluate current governmental structures and make recommendations, not later than November 1, 2005, to the Governor and the Legislature to improve the state's capacity to effectively preserve and administer California's significant historical, artistic, and cultural resources; and

WHEREAS, This research will be of value to the Legislature in developing a state-level structure reflecting California's important role in the arts and culture in the United States and across the world; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Legislature intends to seriously consider the recommendations contained in this research as a guide to effectively address how the state can better organize itself to contribute to California's world-class arts and cultural environment; and be it further

*Resolved*, That the Legislature recognizes the economic, educational, and civic value of preservation, public presentation, and promotion of the arts, culture, and cultural heritage that provides access for all Californians; and be it further

*Resolved*, That the Legislature welcomes recommendations on additional actions, as appropriate, to preserve California's cultural and historic resources and to strengthen administrative structures in state government responsible for administration of those resources; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

## RESOLUTION CHAPTER 184

Senate Concurrent Resolution No. 91—Relative to renaming the San Lorenzo River Redwoods.

[Filed with Secretary of State September 3, 2004.]

WHEREAS, The Sempervirens Fund, with support from foundations, public agencies, businesses, service organizations, schools, churches, and individuals, raised nearly \$13.4 million to preserve forever the forested headwaters of the San Lorenzo River in Santa Cruz County; and

WHEREAS, This 1,340 acre forest, known as the San Lorenzo River Redwoods and located eight miles north of Boulder Creek, was transferred as an addition to Castle Rock State Park increasing the park's size by 37 percent; and

WHEREAS, Nearly 50 percent of the money received was from state park funds due to the passage of the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000 (Proposition 12) and the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002 (Proposition 40). Senator Byron Sher was instrumental in securing the state's portion; and

WHEREAS, Logged just once a century ago, the property has changed hands only six times since. Since the initial logging, this land has remained untouched, revegetating according to nature's design to where it now contains over 55 million board feet of redwood. This volume of accessible redwood made the area highly sought after by timber interests who offered many millions more to buy the land from the San Lorenzo Valley Water District; and

WHEREAS, Because the property is relatively untouched, it has become a focal point of interest for scientists; and

WHEREAS, As a tribute to Senator Byron Sher's long legislative history, his strong environmental advocacy, and as recognition for his efforts to transform privately owned redwoods into public land, the Legislature requests that the Department of Parks and Recreation rename the San Lorenzo River Redwoods the Byron Sher Redwoods; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature of the State of California hereby honors Senator Byron Sher by requesting that the Department of Parks and Recreation rename the San Lorenzo River Redwoods the Byron Sher Redwoods; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the Director of Parks and Recreation and to the author for appropriate distribution.

---

RESOLUTION CHAPTER 185

Senate Concurrent Resolution No. 93—Relative to Bone and Joint Decade National Awareness Week.

[Filed with Secretary of State September 3, 2004.]

WHEREAS, California has declared its support for the Bone and Joint Decade; and

WHEREAS, Musculoskeletal (bone and joint) disorders such as arthritis, back pain, childhood musculoskeletal conditions, osteoporosis, and major limb trauma, poses a significant and increasing burden on American citizens; and

WHEREAS, Patients suffering from musculoskeletal conditions, as well as the health care professionals who treat them, and medical and patient health associations are joining together to advance the understanding and treatment of musculoskeletal disorders through prevention, education, and research; and

WHEREAS, Musculoskeletal conditions adversely affect the occupations and social lives of millions of people throughout California, and one in every seven Americans, costing billions of dollars in treatments and lost productivity; and

WHEREAS, The more the public and patients learn about prevention activities, the better able they are to prevent a musculoskeletal disorder; and

WHEREAS, The more patients with musculoskeletal conditions learn about treatment options, the better able they are to work with health care professionals in determining the best course of action; and

WHEREAS, The week of October 12 to 20, 2004, inclusive, has been declared as Bone and Joint Decade National Awareness Week by the United States Bone and Joint Decade, which is a part of the worldwide bone and joint decade initiative; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Legislature recognizes the importance of citizen awareness of musculoskeletal disorders and conditions and declares the week of October 12 to 20, 2004, inclusive, as Bone and Joint Decade National Awareness Week in California, and encourages the communities and citizens of California to organize activities during that

week to promote awareness about musculoskeletal conditions, and to help educate our citizens about prevention strategies; and be it further *Resolved*, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

RESOLUTION CHAPTER 186

Senate Concurrent Resolution No. 94—Relative to Ovarian Cancer Awareness Month.

[Filed with Secretary of State September 3, 2004.]

WHEREAS, Ovarian cancer is the deadliest of all gynecological cancers, and the reported incidence of ovarian cancer is increasing over time; and

WHEREAS, Ovarian cancer is the fifth leading cause of cancer deaths among United States women; and

WHEREAS, All women are at risk for ovarian cancer, and 90 percent of women diagnosed with ovarian cancer do not have a family history that puts them at higher risk; and

WHEREAS, The Pap smear is sensitive and specific to the early detection of cervical cancer, but not to ovarian cancer; and

WHEREAS, There is currently no reliable and easy-to-administer screening test used for the early detection of ovarian cancer; and

WHEREAS, Many people are unaware that the symptoms of ovarian cancer can often include persistent abdominal pressure, bloating, abnormal bleeding, and unexplained weight loss or gain, among several other symptoms that are easily confused with other diseases; and

WHEREAS, Due to lack of a reliable early screening test, 75 percent of ovarian cancer cases are detected at an advanced stage, when the five-year survival rate is only 25 percent, a much lower rate than for many other cancers; and

WHEREAS, If diagnosed and treated at an early stage before the cancer spreads outside of the ovary, the treatment is potentially less costly, and the five-year survival rate is as high as 90 percent; and

WHEREAS, There are factors that are known to reduce the risk for ovarian cancer and play an important role in the prevention of the disease; and

WHEREAS, Awareness and early recognition of ovarian cancer symptoms are currently the best way to save women's lives; and

WHEREAS, The State of California has responded to the need for increased education and information about these cancers and in 1997 created the Gynecologic Cancer Information Program within the State

Department of Health Services' Office of Women's Health to produce and distribute patient education materials; and

WHEREAS, The State of California currently operates the Cancer Research Program within the State Department of Health Services, which was established in 1998 and provides critical funds for innovative and needed cancer research in California with an emphasis on gender-specific cancers, such as ovarian, cervical, and prostate cancers; and

WHEREAS, The Legislature has, pursuant to Resolution Chapter 132 of the Statutes of 1999 (SCR 46), designated the month of September of every year as Ovarian Cancer Awareness Month throughout the State of California; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Legislature of the State of California hereby recognizes September 2004 as Ovarian Cancer Awareness Month throughout California, and encourages and promotes the efforts of the people and the health care practitioners of the state to increase their awareness of this disease and to educate themselves about its early detection and prevention, the risk factors involved in its development, and the early warning symptoms and signs thereof; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 187

Senate Joint Resolution No. 31—Relative to vocational and technical education.

[Filed with Secretary of State September 3, 2004.]

WHEREAS, The Carl D. Perkins Vocational and Technical Education Act of 1998 (Section 2301 of Title 20 of the United States Code) has been a significant source of funding for career and technical education programs in California's high schools, regional occupational centers and programs, adult education, and community colleges; and

WHEREAS, California's career and technical education programs educate approximately three million high school and adult students annually in state-of-the-art technology and advanced careers, preparing them to become productive, contributing citizens in a rapidly changing economy; and

WHEREAS, Career and technical education is composed of rigorous, demanding coursework that enhances student academic achievement by applying core academic skills; and

WHEREAS, Eighty-five percent of students who complete career and technical education programs go on to receive high school diplomas; and

WHEREAS, Participation in these programs reduces dropout rates by approximately 35 percent; and

WHEREAS, The Carl D. Perkins Vocational and Technical Education Act of 1998 has supported professional development for career and technical educators; including, the integration of State Board of Education adopted academic standards into career and technical education courses, training in new and emerging technologies, and effective, research-based instructional strategies; and

WHEREAS, The Carl D. Perkins Vocational and Technical Education Act of 1998 has provided career development, support services, and job training to hundreds of thousands of students who have faced significant barriers to successfully transitioning from high school to careers or higher education; and

WHEREAS, The Carl D. Perkins Vocational and Technical Education Act of 1998 has greatly contributed to the development of California's workforce in high skill, high demand, and emerging career fields; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the California State Legislature urges the United States Congress to continue and fully fund the Carl D. Perkins Vocational and Technical Education Act of 1998, and, without partisanship, endorses the Carl D. Perkins Vocational and Technical Education Act of 1998; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 188

Assembly Joint Resolution No. 56—Relative to the extension of the 1994 ban on assault weapons.

[Filed with Secretary of State September 10, 2004.]

WHEREAS, The federal assault weapons ban, officially titled The Public Safety and Recreational Firearms Use Protection Act, passed as part of the Violent Crime Control and Law Enforcement Act of 1994, and is designed to ban dangerous semiautomatic guns with multiple assault weapon features; and

WHEREAS, The ban was a response following many deadly incidents involving assault weapons; and

WHEREAS, On July 18, 1984, James Oliver Huberty entered a McDonald's restaurant in San Ysidro and brutally opened fire, killing 20 people, including many children, and wounding 16 others. Huberty was armed with multiple firearms including assault weapons; and

WHEREAS, On January 17, 1989, Patrick Purdy killed five small children and wounded 29 others and one teacher at the Cleveland Elementary School in Stockton, California. Purdy shot 106 rounds in less than two minutes. The horrific shooting became known as the Stockton Schoolyard Massacre; and

WHEREAS, On July 1, 1993, Gian Luigi Ferri opened fire in the San Francisco law office of Pettit & Martin, located at 101 California Street. The shooter legally purchased two assault pistols in Nevada and brought them across state lines into California. The devastating shooting took the lives of eight innocent people and wounded six others; and

WHEREAS, These shootings were only a few of many violent incidents that prompted the passage of an assault weapons ban in 1994; and

WHEREAS, The assault weapons ban works. In 1989, when President George H.W. Bush stopped the import of certain assault rifles, the number of imported assault rifles traced to crime dropped by 45 percent in one year. After the 1994 ban, there were 18 percent fewer assault weapons traced to crime in the first eight months of 1995 than were traced in the same period in 1994; and

WHEREAS, Some firearms manufacturers have attempted to evade the assault weapons ban by making cosmetic changes to assault weapons that were specifically banned under the federal law. A clone of the explicitly banned AR-15 assault weapon was used by the Washington D.C. area sniper to kill 10 and injure three in October 2002; and

WHEREAS, The Bureau of Alcohol, Tobacco, and Firearms reported that in 1993, 8.2 percent of guns used in crimes were assault weapons. By November 1996, this figure fell to 3.2 percent; and

WHEREAS, If not renewed by Congress and the President of the United States, this ban will expire on September 13, 2004, and allow unsafe military style weapons to once again infiltrate American communities; and

WHEREAS, Expiration of this crucial ban will increase the use of assault weapons in crime; and

WHEREAS, In addition to the human toll, gun violence costs California billions of dollars every year in medical expenses, lost worker productivity, additional workplace and school safety expenditures, increased business costs, and lost tourism. Neither California nor the

nation can afford the expiration of this important public safety measure; and

WHEREAS, President George W. Bush, every major law enforcement organization in America, and a substantial majority of Americans support the ban. Many more Americans strongly support new measures to strengthen the ban; and

WHEREAS, Police across America report that semiautomatic assault weapons are the “weapon of choice” among drug traffickers, gangs, and paramilitary extremist groups; and

WHEREAS, United States military forces in Afghanistan recovered an al Qaeda training manual, which specifically urged violent followers to “obtain an assault rifle legally, preferably an AK-47 or variations.” AK-47s are included in the list of assault weapons currently banned; and

WHEREAS, Should the ban expire, these types of dangerous weapons will be easily accessible to terrorists; and

WHEREAS, If these weapons flood America’s streets, law enforcement officers and the public will be at extreme risk from these weapons because of their highly dangerous rapid, spray-fire characteristics and ability to penetrate body armor; and

WHEREAS, Despite fierce opposition, this law has been upheld by the federal courts, and the United States Supreme Court refused to review a federal appellate court decision that rejected constitutional challenges to the ban; and

WHEREAS, The United States Supreme Court has ruled that the Second Amendment is not a barrier to firearms laws; and

WHEREAS, Both President Bush and Attorney General Ashcroft have expressed support for the assault weapons ban, and Attorney General Ashcroft has declared the ban Constitutional. White House spokesman Scott McClellan reported that “The president supports the current law, and he supports reauthorization of the current law”; and

WHEREAS, A coalition of child advocacy, civil rights, consumer, domestic violence, gun violence prevention, public health, and faith-based organizations from around the country support the protection of public safety and urge Congress to renew and strengthen the assault weapons ban; and

WHEREAS, We cannot afford to turn back the clock on the advances in public safety achieved by Congress; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature urges the President of the United States and Congress to reauthorize and strengthen the federal assault weapons ban; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the

Senate, and to each Senator and Representative from California in the Congress of the United States.

---

RESOLUTION CHAPTER 189

Assembly Concurrent Resolution No. 67—Relative to Little India in the City of Artesia.

[Filed with Secretary of State September 14, 2004.]

WHEREAS, Artesia's Pioneer Boulevard merchant district was a historic settling area for Indian American immigrants, in which they created a unique extra-national community in the early 1970's; and

WHEREAS, In 1970, the affordable rents helped facilitate an increase in Indian shops; and

WHEREAS, These immigrants joined with local populations of Koreans, Chinese, Dutch, and Portuguese in small business enterprises, where they became vital to the establishment and growth of the City of Artesia specialty shops; and

WHEREAS, The Indian shops became a source of revenue for the City of Artesia; and

WHEREAS, As Indians grew in the social and economic ranks of the city, many moved around neighboring cities close to Little India; and

WHEREAS, Little India today is a thriving shopping area that has become an example of the multicultural diversity in Los Angeles County; and

WHEREAS, The "Taste of India," a cultural event featuring Indian performances, food, clothing, and jewelry, was established in 2000 and was cosponsored by the City of Artesia, the Artesia Chamber of Commerce, and the Indian merchants as a day-long celebration to coincide with India's Independence Day; and

WHEREAS, The "Taste of India" was intended to showcase the City of Artesia that has unofficially become known as "Little India" due to the multitude of Indian businesses located along Pioneer Boulevard; and

WHEREAS, In 2003, the Artesia Chamber of Commerce is considering expanding the "Taste of India" into a two-day celebration in October to coincide with Diwali, the Festival of Lights celebration; and

WHEREAS, The recognition of Little India as a destination through the placement of freeway markers and plaques will encourage the continued growth and redevelopment of this important component of the history of Artesia; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates the Pioneer Boulevard exit on State Highway Route 91 north and the Pioneer Boulevard exit on State Highway Route 91 south near downtown Artesia, as the defined routes for the destination of Little India; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques and markers, consistent with the signing requirements of the state highway system, showing this designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect these plaques and markers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 190

Assembly Concurrent Resolution No. 252—Relative to the California Council on Science and Technology.

[Filed with Secretary of State September 14, 2004.]

WHEREAS, California is home to many of the world's top research universities, national laboratories, and leading-edge high technology companies that generate significant intellectual property; and

WHEREAS, It is in the interest of the state to ensure that the results of state-funded research are promptly protected and developed; and it is in the interest of the state to facilitate, promote, and enhance technology transfer programs that will facilitate the transfer of technology into the marketplace for the public benefit; and

WHEREAS, The State of California supports the establishment of government-university-industry partnerships to develop leading-edge research results that would encourage economic development through growth of small business, development of emerging industries, and creation of jobs within the state; and

WHEREAS, The Bureau of State Audits Report, "State-Owned" Intellectual Property, November 2000, stated that policies and guidelines should be established to assist state agencies in determining how best to administer state-owned intellectual property so that it can be utilized in the best interests of the public; and

WHEREAS, The Legislature supports the use of efficient models to develop and streamline infrastructures, policies, and processes for the

management of intellectual property developed under state funding in order to stimulate economic development in the state similar to the approach used by the federal government; and

WHEREAS, A comprehensive intellectual property policy can foster major technological developments; and

WHEREAS, In this time of fiscal crisis, it is necessary for the state to create public-private partnerships; and

WHEREAS, The California Council on Science and Technology has a proven record of accomplishment in providing timely, impartial analyses of complex issues for the legislative and executive branches of government, including energy research in the Public Interest Energy Research Program, Critical Path Analysis of California's Science and Technology Education System and Nanoscience and Nanotechnology: Opportunities and Challenges in California; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature requests the California Council on Science and Technology to create a special study group to develop recommendations to the Governor and the Legislature on how the state should treat intellectual property created under state contracts, grants, and agreements, including, but not limited to, the following:

(1) Promoting the utilization of intellectual property arising from state-supported contracts, grants, and agreements.

(2) Encouraging maximum participation of small business firms in those state-supported awards.

(3) Promoting collaboration between commercial concerns and nonprofit organizations, including universities.

(4) Ensuring that the intellectual property created by nonprofit organizations and small business firms is used in a manner to promote free competition and enterprise without unduly encumbering future research and discovery.

(5) Promoting the commercialization and public availability of that intellectual property made in the state by California and United States industry and labor.

(6) Ensuring that there are mechanisms in place that allow the state to obtain certain minimal rights in state-supported intellectual property to meet the needs of the state and protect the public against nonuse or unreasonable use of that intellectual property.

(7) Minimizing the costs of administering policies in this area; and be it further

*Resolved,* That the Legislature requests the California Council on Science and Technology, upon creation of the study group, to work with its sustaining institutions, state agencies, including the office of the Attorney General, and other organizations, to complete this study.

Members of the study group are to include, but are not limited to, the following:

- (1) The Department of General Services.
  - (2) Experts in contract and licensing with the state and federal governments.
  - (3) Research and development practitioners.
  - (4) Experts in technology transfer.
  - (5) Individuals representing the public interest; and be it further
- Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Attorney General and the Department of General Services.

---

### RESOLUTION CHAPTER 191

Assembly Joint Resolution No. 45—Relative to extradition treaty with Mexico.

[Filed with Secretary of State September 14, 2004.]

WHEREAS, The Mexican Supreme Court ruled in October 2001 that Mexico will not extradite criminals who face life sentences in the United States; and

WHEREAS, The person or persons responsible for the April 29, 2002, murder of Los Angeles County Sheriff Deputy David March is believed to have fled to Mexico to avoid prosecution; and

WHEREAS, Under the extradition treaty between the United States of America and the United Mexican States, Mexico has refused to extradite to the United States other suspects of capital crimes; and

WHEREAS, The attorneys general from all 50 states have asked United States Attorney General John Ashcroft and Secretary of State Colin Powell to address this extradition issue with their counterparts in Mexico; and

WHEREAS, These statements are set forth in federal House Concurrent Resolution No. 93 (Honorable Howard P. “Buck” McKeon (R-25th District-California)) and Senate Concurrent Resolution No. 79 (Honorable Dianne Feinstein (D-California)), currently before the United States Congress, which expresses the sense of the Congress that the President should renegotiate the extradition treaty with Mexico so that the possibility of capital punishment or life imprisonment will not interfere with the timely extradition of criminal suspects from Mexico to the United States; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature of the State of California hereby urges the

Congress of the United States to adopt House Concurrent Resolution No. 93 (Honorable Howard P. “Buck” McKeon (R-25th District-California)) and Senate Concurrent Resolution No. 79 (Honorable Dianne Feinstein (D-California)); and be it further

*Resolved*, That the Legislature urge the President to renegotiate the extradition treaty with Mexico; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 192

Assembly Joint Resolution No. 60—Relative to immigration.

[Filed with Secretary of State September 14, 2004.]

WHEREAS, Approximately 65 percent of the one million green cards and immigrant visas issued each year go to family members of United States citizens and legal permanent residents; and

WHEREAS, According to the Bureau of Citizenship and Immigration Services (BCIS), formally known as the Immigration and Naturalization Service (INS), the current definition of family excludes same-sex partners; and

WHEREAS, The principle of family unification is an unassailable characteristic of our immigration system under which legal permanent residents and United States citizens should be able to sponsor their loved ones for immigration status; and

WHEREAS, The Permanent Partners Immigration Act of 2003 was introduced in the 108th Congress of the United States by Congressman Jerrold Nadler with currently 123 cosponsors, and was also recently introduced by Senator Patrick Leahy with currently 11 cosponsors, to add the phrase “or permanent partner” to sections of immigration law that provide immigration rights to legally married couples; and

WHEREAS, The intent of the Permanent Partners Immigration Act of 2003 is to recognize the reality that same-sex couples are deserving of the same basic immigration benefits as heterosexuals and to allow gay or lesbian citizens to sponsor their partners to become United States residents; and

WHEREAS, Same-sex binational couples in monogamous, committed relationships have demonstrated the same love to, and devotion for, one another that heterosexual married couples have; and

WHEREAS, The Permanent Partners Immigration Act of 2003 defines “permanent partner” as an individual 18 years of age or older who is in a committed, intimate relationship with another individual 18 years of age or older in which both parties intend a lifelong commitment; is financially interdependent with that other individual; is not married to or in a permanent partnership with anyone other than that other individual; is unable to contract with that other individual a marriage cognizable under the Immigration and Nationality Act; and is not a first, second, or third degree blood relation of that other individual; and

WHEREAS, Although there are a relatively low number of binational same-sex couples, they are severely harmed by discrimination and a lack of protection under current immigration law; and

WHEREAS, Data compiled over two decades documents that there has not been a single case of fraud perpetrated by a person or partnership in any domestic partners benefit plan in the United States since those benefit plans began in 1982; and

WHEREAS, The United States is behind other democracies in extending fair treatment in immigration policies to same-sex partners, and the Permanent Partners Immigration Act of 2003 would bring United States immigration law in line with 16 other countries that currently recognize same-sex partnerships for immigration purposes: Australia, Belgium, Brazil, Canada, Denmark, Finland, France, Germany, Iceland, Israel, the Netherlands, New Zealand, Norway, South Africa, Sweden, and the United Kingdom; and

WHEREAS, The Permanent Partners Immigration Act of 2003 is an appropriate next step towards establishing equality in immigration standards for same-sex partners; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California urges the President and the Congress of the United States to adopt the Permanent Partners Immigration Act of 2003, which would add the phrase “or permanent partner” to sections of immigration law that provide immigration rights to legally married couples, and would allow gay and lesbian citizens to sponsor their partners as United States residents; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

---

## RESOLUTION CHAPTER 193

Assembly Joint Resolution No. 96—Relative to Women’s Equality Day.

[Filed with Secretary of State September 14, 2004.]

WHEREAS, August 26, 2004, marks the 84th anniversary of passage of the Nineteenth Amendment to the United States Constitution and is Women’s Equality Day, a day deserving of celebration and special public commendation; and

WHEREAS, Elizabeth Cady Stanton and Lucretia Mott organized the first Women’s Rights Convention in 1848 where 100 women and men from all walks of life declared that “all men and women are created equal” and called for universal women’s suffrage; and

WHEREAS, On August 26, 1920, after a 72-year struggle, the Nineteenth Amendment was added to the United States Constitution, securing a woman’s right to vote; and

WHEREAS, In 1971, the United States Congress designated August 26 as Women’s Equality Day to commemorate the passage of the Nineteenth Amendment to the United States Constitution and as a reminder of women’s continuing efforts to achieve full equality; and

WHEREAS, Since 1920, women have made tremendous gains in society, including the right to vote, the right to be free from discrimination in employment, and the right to have guaranteed equal access to education including sports; and

WHEREAS, Despite these gains, women still need to make great strides in order to be full participants in 21st century society; and

WHEREAS, Women still earn only 77 cents to every dollar earned by a man, women disproportionately live in poverty, women are more likely to be victims of domestic violence than men, and for every dollar spent on women’s athletics programs, three dollars are spent on men’s athletics programs; and

WHEREAS, On August 26, 2004, Women’s Equality Day and the anniversary of the passage of the Nineteenth Amendment, the women and men who have worked tirelessly to secure equality for women are to be commended for what they have achieved thus far and supported in their continued efforts to champion the rights of women; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California memorializes the United States Congress and the President of the United States to do all of the following:

(1) Stand firm in their resolve to uphold current protections of equality for women.

(2) Continue to pioneer new protections of equality for women until women achieve parity with men.

(3) Encourage all Americans to participate in the national celebration of Women's Equality Day in recognition of the 84th anniversary of the Nineteenth Amendment to the United States Constitution and its historic importance in promoting women's rights; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States and to all Members of the United States Congress.

---

### RESOLUTION CHAPTER 194

Assembly Concurrent Resolution No. 209—Relative to the Kern County Korean War Veterans Memorial Highway.

[Filed with Secretary of State September 16, 2004.]

WHEREAS, From June 25, 1950, until July 27, 1953, the United States was involved in a bloody conflict with North Korea and China following the North Korean invasion of South Korea; and

WHEREAS, Of the 1,789,000 Americans that served in Korea for the purpose of preventing the Communist takeover of South Korea, 36,516 Americans died, 103,284 were wounded, 7,245 were prisoners of war, and 8,176 are still unaccounted for; and

WHEREAS, There were 42 Kern County military personnel killed in action in Korea, three died while missing, two died while captured, and six died from wounds, and approximately 8,120 Korean War veterans presently live in Kern County; and

WHEREAS, Thirty-six Korean veterans recently organized as the Korean War Veterans Association (KWVA), Charles N. Bikakis Chapter, P.O. Box 10133, Bakersfield, CA 93389-0133; and

WHEREAS, Active participants of KWVA include Highway Committee Chairmen Michael Sabol and John Cave, representing Jeryl Matthews, President, Bob Friday, 1st Vice President, Bob Castle, 2nd Vice President, Tom Jones, Secretary, Ralph Smith, Treasurer, Gene Dixon, Historian, Isaac Ornelas, MIA/POW Officer, Ed LeLouis, Judge Advocate, James Ledbetter, Chaplain, John Bausano, Advisor, Harvey Ginn, Advisor, Tom Lewis, Publicity Chairman, and members James J. Abel, Samuel L. Barton, Daniel J. Boehm, Raymond Carlson, Billy Ellis, William M. Jackson, Ray M. Johnson Jr., Glenn E. Knox, Humberto Marques, Fred J. Moore, William L. Painter, James R. Parris, Frances Ramirez, Kenneth R. Raymond, James H. Robertson, Jose

Rojas, Richard S. Smith, Leroy G. Stone, Walter E. Swanson, Neal T. Vance, Dale R. Wilson, and Joseph D. Yezpe; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the portion of State Highway Route 58 that is between State Highway Route 184 and the Kern County/San Bernardino County Line is hereby officially designated as the Kern County Korean War Veterans Memorial Highway; and be it further

*Resolved,* That the Department of Transportation is requested to determine the cost of appropriate plaques, consistent with the signing requirements for the state highway system, showing the special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Transportation.

---

## RESOLUTION CHAPTER 195

Assembly Concurrent Resolution No. 248—Relative to Donald S. Wieman Vista Point.

[Filed with Secretary of State September 16, 2004.]

WHEREAS, Donald S. Wieman was a native Californian, having been born in Orosi, California in 1900; and

WHEREAS, Donald S. Wieman was a skilled stone mason and building contractor in the Glendale, California area; and

WHEREAS, Donald S. Wieman moved to San Bernardino in 1932 to work for the California Division of Highways, a predecessor of the Department of Transportation (Caltrans); and

WHEREAS, Donald S. Wieman was responsible for constructing miles of red rock walls and other structures along State Highway Route 18, also known as the Rim of the World Highway; and

WHEREAS, This highway holds much historical significance for the San Bernardino region; and

WHEREAS, This masonry work was part of a major state public works program aimed at recovery from the Great Depression; and

WHEREAS, Donald S. Wieman rose through the ranks of the Division of Highways to the position of Maintenance Superintendent, Special Crews, from which he retired in 1965; and

WHEREAS, Throughout his career, he was universally respected for his skill, integrity, and dedication; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature hereby designates the vista point on

State Highway Route 18 at post mile 21.4, two miles south of Rimforest, as the Donald S. Wieman Vista Point; and be it further

*Resolved*, That the Department of Transportation is requested to determine the cost of appropriate signs and markers, consistent with signing requirements for the state highway system, showing this special designation, and to erect those signs and markers upon receiving donations from nonstate sources covering that cost, plus a sign maintenance fee, as determined by the department, that does not exceed 10 percent of the total cost of erecting the signs and markers; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Transportation.

---

#### RESOLUTION CHAPTER 196

Assembly Concurrent Resolution No. 235—Relative to clean schoolbuses.

[Filed with Secretary of State September 20, 2004.]

WHEREAS, The California Association of School Transportation Officials is a professional organization that promotes safe pupil transportation and is committed to working with the California Legislature to ensure the safety and health of all children transported to or from school during school travel hours; and

WHEREAS, The federal government has determined that school transportation is a service related to the educational process; and

WHEREAS, All 50 states mandate home-to-school transportation for pupils with disabilities and 26 states mandate home-to-school transportation for all children; and

WHEREAS, California is last among all 50 states in the percentage of children who ride in schoolbuses. Only 16.58 percent of all California pupils rode schoolbuses to California's public schools during the 2001–02 school year although the national average is 54 percent; and

WHEREAS, Each year 31 schoolaged children are killed in passenger vehicles and 16 are killed as pedestrians while only one child is killed in a schoolbus every 3.3 years during normal school travel hours in California; and

WHEREAS, The school transportation apportionment funds allocated by the state to school districts is at less than 45 percent of approved expenses. Many school districts are forced to choose between books and buses; and

WHEREAS, California has one of the oldest schoolbus fleets in the nation. The average age of the fleet is 14.7 years. Over half of the fleet does not meet minimum emission standards and 1,329 or 8.8 percent do not meet landmark federal safety standards enacted in April 1, 1977; and

WHEREAS, A report published by the Surface Transportation Policy Project, the Transportation and Land Use Coalition and the Latino Issues Forum entitled “Can’t Get There From Here” recommends making schoolbus service a higher priority; and

WHEREAS, A Report by the State Air Resources Board entitled “Characterizing the Range of Children’s Pollutant Exposure during School Bus Commutes” finds that there is higher pollutant exposure levels in older schoolbuses. But, this report also states that it is safer for children to be on a schoolbus than in passenger vehicles or as pedestrians; and

WHEREAS, The no school busing zone for some school districts has grown to as much as five miles. This forces parents to drive their children to school causing congestion and contributing to air pollution; and

WHEREAS, California’s most precious resource is its children. Their health and welfare are of the highest priority; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That, within the provisions of existing law, the state apportionment of funds for home-to-school transportation be used in the most efficient and cost-effective manner possible with any savings or additional funds to be used to extend schoolbus service to more pupils thereby reducing fatalities of schoolaged children during school travel hours, and to decrease no busing zones and purchase clean burning schoolbuses; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 197

Assembly Concurrent Resolution No. 236—Relative to Child Awareness Month.

[Filed with Secretary of State September 20, 2004.]

WHEREAS, The experiences, both positive and negative, during an individual’s childhood have a tremendous impact upon his or her adult life; and

WHEREAS, Data collected by the Annie E. Casey Foundation since 1990 demonstrate that negative events in childhood significantly diminish a child’s chances of adult achievement and success; and

WHEREAS, One of California's greatest resources is its people, and children represent the future of this resource; and

WHEREAS, To guarantee the continued strength of California's economic, social, and civic life, we must invest in and protect California's children in order to enhance their health and well-being, thereby increasing their opportunity to succeed in their adult lives; and

WHEREAS, Many organizations and individuals throughout the state dedicate a tremendous amount of time and resources toward improving the lives of California's children, and deserve to be recognized for their actions; and

WHEREAS, Heightening the public's awareness of the importance of our children's health and well-being and of the ongoing efforts of many organizations and individuals will help to protect and nurture the children of California; and

WHEREAS, The month of September has traditionally been a time when parents, families, teachers, and other individuals increase their focus on preparing children for the future as children go "back-to-school" and is an excellent time for the public of California to focus on the importance of protecting our children; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California hereby declares the month of September 2004, as Child Awareness Month in order to raise California residents' awareness of the importance of the health and well-being of our children; and be it further

*Resolved,* That the Legislature encourages organizations, agencies, and individuals engaged in the enhancement of children's well-being and health to hold or participate in events, such as the "Festival of Children" organized by the Children's Hospital of Orange County and South Coast Plaza, which increase public awareness of children's issues and provide opportunities for the public to donate time and resources to this noble cause; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 198

Assembly Concurrent Resolution No. 243—Relative to Sikh-Americans.

[Filed with Secretary of State September 20, 2004.]

WHEREAS, Sikhs are people who share a common religious tradition, a scripture, a culture, a script (Gurmukhi), a language (Punjabi), and several social, political, and economic institutions; and

WHEREAS, Twenty-six million people worldwide identify themselves as followers of the Sikh faith, making it the fifth largest world religion; and

WHEREAS, “Sikh” means student or seeker of truth. In common usage, it refers to the followers of one of the youngest Asian religions, established by Guru Nanak over 500 years ago. The word “guru” means an enlightener and a prophet; and

WHEREAS, The founder of the Sikh religion, Guru Nanak, was born in 1469 in Punjab (“Punj” = five + “AAB” = water = meaning the land of the five rivers) in southern Asia. He preached a message of love, compassion, understanding, and worship of the one God that is common to all people. Guru Nanak passed on the enlightened leadership of this new religion to nine successive gurus; and

WHEREAS, Sikh immigration to North America started around the late 1800s. Sikhs, who served in the British Armed Forces abroad, informed their friends and families about job opportunities, immigration rules, and traveling routes to farflung lands; and

WHEREAS, Back in Punjab, villages and townspeople pooled their economic resources to finance the emigration of someone in the family or the village; and

WHEREAS, The first Sikh immigrants arrived in the United States in the late 1800s and worked in lumber mills, logging, and railroad construction companies in the Pacific Northwest; and

WHEREAS, By the 1920s, the Sikh immigrants in the United States owned 2,099 acres and leased 86,340 acres of farmland. This land was almost exclusively in the Imperial and Sacramento Valleys. They grew large volume cash crops like cotton and rice, as well as crops that required intensive farming, like peaches, grapes, pears, apricots, almonds, beans, peas, corn, potatoes, celery, asparagus, and lettuce; and

WHEREAS, The prohibition on immigration and the miscegenation laws influenced the way young Sikh men found wives. Because the initial intent for most travelers was to return to Punjab after becoming financially strong, most of the early immigrants were young men who were not married; and

WHEREAS, Sikhs, especially those from southern California, were allowed to marry Mexican women because both were categorized as “brown” in terms of their race. These biethnic families carved out a niche for themselves because they were neither accepted by mainstream Mexican-Americans nor by the Sikh immigrants who did marry; and

WHEREAS, In the late 1940s there were fewer than 1,500 Sikhs in the United States, mostly in the Imperial Valley; and

WHEREAS, Since the 1960s, most Sikh immigrants have been professionals or business men; and

WHEREAS, The effect of the tumultuous period of the 1980s in Punjab, and the rest of India, on the Sikh diaspora in North America was very pronounced. The wave of immigration during the 1980s and 1990s was comprised of many Sikhs who were escaping harassment in their homeland, and who were more orthodox in their faith than those who had, over the decades of assimilation, accepted “economic” virtues and of not conforming to the external symbols of the Sikh faith; and

WHEREAS, There are 26 million Sikhs worldwide and more than one-half a million live in the United States. California is home to about 200,000 Sikhs; and

WHEREAS, Today, Sikhs are active in, and Sikh-Americans have contributed richly to, United States life in a variety of ways. The first Asian-American to become a congressman was a Sikh. The largest federal court security contractor for the United States Marshals Service is a Sikh-American owned company. The inventor of fiber optics is a Sikh-American; and

WHEREAS, A rallying point for many Sikhs and other Indians was the case of Bhagat Singh Thind. A native of Punjab, Bhagat Singh had immigrated to America in 1913. He worked in an Oregon lumber mill to pay for his education at the University of California, Berkeley. He enlisted in the United States Army in 1917 to fight in World War I and was honorably discharged in 1918. After the war, he applied for citizenship in 1920, which was approved by the United States District Court. However, the Bureau of Naturalization appealed and the case went all the way to the United States Supreme Court; and

WHEREAS, An interesting person from the 1920s was Dalip Singh Saund. Dalip came to study at the University of California, Berkeley in 1920. He completed his M.A. in 1922 and received a Ph.D. degree in 1924. Despite his education, his skin color imposed a huge barrier to finding suitable employment. He became a farmer in the Imperial Valley of California. Life was a struggle, but he worked hard and finally married Marian Kosa. His political activism continued in 1950. He first won the local judgeship in Westmorland, and later was elected to Congress for the 29th District of California. He retained his seat for three terms; and

WHEREAS, Although Saund was the first Asian-American to serve in Congress, he is unknown to most people due to the marginalization of Asian-American achievements. Saund was a groundbreaker and broke the color barrier for Asian-American participation in United States politics; and

WHEREAS, In the early morning hours of September 11, 2001, Americans and all citizens of the world were full of shock, sorrow, pain,

emptiness, and disbelief as the news of that day's tragic events unfolded; and

WHEREAS, One of the first physicians at the scene to aid citizens and rescue workers was a Sikh-American doctor; and

WHEREAS, Like the thousands of people trying to help however they could, Sikh taxi drivers gave free rides to the heroic workers at ground zero; and

WHEREAS, Gurdwara (Sikh places of prayer/learning) took an active role in helping to organize blood drives for the survivors. Sikhs, like other Americans gave support to the Red Cross and other charities; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature honor the contributions of the Sikh community to California; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

#### RESOLUTION CHAPTER 199

Assembly Concurrent Resolution No. 254—Relative to asset acquisition disparity.

[Filed with Secretary of State September 20, 2004.]

WHEREAS, The California Research Bureau has published a series of reports on the increasing income, wealth, and other disparities between Latino and non-Latino, and educated and less educated workers in California that suggest the need for a coherent statewide approach to the problems that arise from these disparities; and

WHEREAS, The California Research Bureau, in its report titled "Latinos and Economic Development in California (1999)," identifies public infrastructure and the development of a well-trained labor force as two key elements to promote broad-based economic growth in California. The report emphasizes the educational disparity between Latinos and other workers as a serious impediment to California's economic prosperity. This report also finds that if Latinos in the California workforce were to reach educational parity with non-Latino workers, the state would annually observe a \$28 billion increase in earnings and receive an additional \$1.7 billion in state income tax revenue; and

WHEREAS, The California Research Bureau, in its report titled "A Coordinated Approach to Raising the Socio-Economic Status of Latinos in California (2000)," identifies 11 policy areas of help to address the

disparities between the Latino and non-Latino workforce. The key areas identified are the following: Pre-Kindergarten Access, K–12 Performance, College and University Performance, the Digital Divide, Business Development, Employment and Training, Community Redevelopment, Pensions and Retirement, Media and Culture, Health Care, and Safe Neighborhoods; and

WHEREAS, The California Research Bureau, in its report titled “Less Educated Workers in California: A Statistical Abstract (2000)” finds that one in five adult workers (2.5 million workers) in California are “less educated workers,” defined as workers who are 19 years of age or older without a high school diploma; and

WHEREAS, The California Research Bureau, in its report titled “The Distribution of Wealth in California, 2003,” outlines the household wealth disparity between whites and other ethnic groups in California. It analyzes the level of wealth for all Californians, including the state’s children, workers, and elderly, and finds that 60 percent of Latinos and 71 percent of African-Americans have less than \$50,000 in asset wealth compared to 35 percent of Caucasians. To increase the opportunity for low- and moderate-income families to acquire assets, the report recommends the development of policies and programs that support asset building strategies, such as college education and business ownership; and

WHEREAS, The Asset Policy Initiative of California, a project of Earned Assets Resource Network (EARN), in its report “Asset Building Framework (2003)” cites the fact that California has one of the highest rates of asset poverty in the country, ranking 47th among all states, and that nearly one-third of all California households have insufficient net worth to subsist at the federal poverty level beyond three months if their income were disrupted; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California has concluded that the findings of the aforementioned body of research indicate that the asset gap in California is largely based on differences in access to education, which provides the numerous and exceedingly complex tools for wealth creation in California; and be it further

*Resolved,* That targeted research is needed to more accurately measure the economic impact of asset poverty on California’s economy in order to estimate the financial benefits to the state of sustaining and creating asset building policies targeting low- and moderate-income families, and to make recommendations on policy priorities designed to lead California toward wealth creation for all Californians; and be it further

*Resolved,* That the Milken Institute and other research institutions, in partnership with the Earned Assets Resource Network, the Latino

Legislative Caucus, and the Hispanic Republican Caucus, have agreed to jointly engage in this research; and be it further

*Resolved*, That the Milken Institute, in collaboration with its research partners, is encouraged to report the results of the joint research and resulting recommendations to the Governor and the Legislature by January 15, 2005; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 200

Assembly Concurrent Resolution No. 255—Relative to Health Care Decisions Week.

[Filed with Secretary of State September 20, 2004.]

WHEREAS, It is important for people to make health care decisions before they are needed; and

WHEREAS, Health care planning is a process, rather than a single decision, that helps people think about the kind of care they would want if they become seriously ill or incapacitated, encourages them to talk with their loved ones and doctors, and assists them in writing down their wishes; and

WHEREAS, Advance directives give people the ability to document their wishes and identify the person to speak for them should they become unable to speak for themselves; and

WHEREAS, Introducing these issues in community settings can help people begin conversations about their health care wishes with a family member, close friend, physician, or faith leader; and

WHEREAS, California has a number of local coalitions throughout the state that are working to involve individuals and families in health care planning through educational forums, discussion groups, speaker's bureaus, and training; and

WHEREAS, The California Coalition for Compassionate Care and over 50 of the coalition's member organizations representing health care providers, consumers, regulators, and local coalitions have joined together to sponsor a weeklong focus on health care decisions; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the week of November 7 through 13, 2004, be recognized as Health Care Decisions Week in California; and be it further

*Resolved*, That the Legislature encourages all citizens to think and talk with loved ones about their wishes for medical care; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

---

## RESOLUTION CHAPTER 201

Assembly Concurrent Resolution No. 238—Relative to state employee merit awards.

[Filed with Secretary of State September 21, 2004.]

WHEREAS, Section 19823 of the Government Code authorizes the Department of Personnel Administration to make awards to current or retired state employees who propose procedures or ideas that are subsequently adopted and placed in effect and result in eliminating or reducing state expenditures or improving state operations; and

WHEREAS, Any award granted under Section 19823 of the Government Code in excess of \$5,000 must be approved by concurrent resolution of the Legislature; and

WHEREAS, Marvin Woods recommended automating the manual monthly cost accounting process for the Department of Toxic Substances Control in order to track project and administrative tasks and substantiate cost recovery by the department; and

WHEREAS, This system eliminated costly errors and saves substantial staff time equating to \$399,080 annually; and

WHEREAS, Jason M. Smith suggested an automated system that eliminated the need to create, file, store, track, and retrieve hundreds of physical files per week at the Bureau of Criminal Identification and Information within the Department of Justice; and

WHEREAS, The department realized a first-year savings of \$58,571 based on staff time savings and supply and storage cost savings; and

WHEREAS, Steve A. Ford suggested a modification to the 1998, 1999, and 2000 Ford Crown Victoria California Highway Patrol car rear bumpers which were too low and often damaged by blunt force contact during pursuits, thus requiring replacement at a cost of \$670 each; and

WHEREAS, The modification increased ground clearance by 3 to 4 inches, eliminating repairs and replacement of the rear bumpers, and produced a net annual savings of \$74,566; and

WHEREAS, Bruce Michener developed a Windows-based multiuser inventory program that maintains a single database of all fixed assets and computer programs for 16 district offices, 15 branch offices statewide, three offices outside the state, and 10 sections in the Sacramento

headquarters of the Sales and Use Tax Department of the Board of Equalization; and

WHEREAS, The automated tracking system eliminated the staff time required to travel to these locations to take physical inventory of all equipment and computer programs, producing a first-year savings of \$92,310; and

WHEREAS, The savings generated by implementation of these suggestions will continue to be realized on an annual basis; and

WHEREAS, As a result of actual savings generated from the implementation of these suggestions, it is unnecessary to appropriate additional funds for payment of awards to these employees; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California hereby declares that merit award payments, authorized by the five-member Merit Award Board and the Department of Personnel Administration, are hereby made in amounts up to and including 10 percent of the first-year savings generated by each suggestion, as follows:

- (a) To Marvin Woods in the amount of \$39,908.
- (b) To Jason Smith in the amount of \$857.
- (c) To Steve A. Ford in the amount of \$2,457.
- (d) To Bruce Michener in the amount of \$4,231; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Controller and the Department of Personnel Administration.

## **EXTRAORDINARY SESSION SPECIAL RULES OF EFFECTIVENESS**

Except for a statute calling an election, a statute providing for a tax levy or an appropriation calling for the usual current expenses of the state, and an urgency statute, all of which take effect immediately following enactment, a statute adopted during an extraordinary session takes effect on the 91st day following the adjournment of the special session (see subdivision (c) of Section 8 of Article IV of the California Constitution). The effective date of a joint resolution is the date it is filed with the Secretary of State.

The 2003–04 Third Extraordinary Session reconvened on January 6, 2004, and adjourned *sine die* on January 15, 2004. Please refer to the preceding year’s Statutes and Amendments to the Codes for statutes enacted prior to the reconvening date.

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

**WHEREAS**, an extraordinary occasion has arisen and now exists requiring that the Legislature of the State of California be convened in extraordinary session; now therefore,

**I, ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 18<sup>th</sup> day of November, 2003, at a time to be determined, for the following purpose and to legislate upon the following subject:

To repeal Senate Bill 60 (Cedillo), an act to amend Sections 1653.5, 12800, 12801, 12814.5, and 13000 of, and to add Sections 12801.2 and 12801.9 to, the Vehicle Code, relating to vehicles, that was signed into law by the Governor on September 5, 2003, and filed with the Secretary of State on September 8, 2003.

**IN WITNESS WHEREOF** I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 17<sup>th</sup> day of November, 2003.

CHAPTER 1

An act to amend Section 1877.1 of the Insurance Code, relating to workers' compensation.

[Approved by Governor July 5, 2004. Filed with  
Secretary of State July 6, 2004.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1877.1 of the Insurance Code is amended to read:

1877.1. The following definitions govern the construction of this article, unless the context requires otherwise:

(a) "Authorized governmental agency" means the district attorney of any county, any city attorney whose duties include criminal prosecutions, any law enforcement agency investigating workers' compensation fraud, the office of the Attorney General, the Department of Insurance, the Department of Industrial Relations, the Employment Development Department, and any licensing agency governed by the Business and Professions Code.

(b) "Relevant" means having a tendency to make the existence of any fact that is of consequence to the investigation or determination of an issue more probable or less probable than it would be without the information.

(c) "Insurer" means an insurer admitted to transact workers' compensation insurance in this state, the State Compensation Insurance Fund, an employer that has secured a certificate of consent to self-insure pursuant to subdivision (b) or (c) of Section 3700 of the Labor Code, or a third-party administrator that has secured a certificate pursuant to Section 3702.1 of the Labor Code.

(d) "Licensed rating organization" means a rating organization licensed by the Insurance Commissioner pursuant to Section 11750.1.

(e) Information shall be deemed important if, within the sole discretion of the authorized governmental agency, that information is requested by that authorized governmental agency.

---

CHAPTER 2

An act to amend Sections 1871.4 and 1871.8 of the Insurance Code, to amend Sections 3700.5 and 3711 of the Labor Code, and to amend Sections 549, 550, 803, and 1524 of the Penal Code, relating to workers' compensation.

[Approved by Governor September 13, 2004. Filed with  
Secretary of State September 13, 2004.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1871.4 of the Insurance Code is amended to read:

1871.4. (a) It is unlawful to do any of the following:

(1) Make or cause to be made a knowingly false or fraudulent material statement or material representation for the purpose of obtaining or denying any compensation, as defined in Section 3207 of the Labor Code.

(2) Present or cause to be presented a knowingly false or fraudulent written or oral material statement in support of, or in opposition to, a claim for compensation for the purpose of obtaining or denying any compensation, as defined in Section 3207 of the Labor Code.

(3) Knowingly assist, abet, conspire with, or solicit a person in an unlawful act under this section.

(4) Make or cause to be made a knowingly false or fraudulent statement with regard to entitlement to benefits with the intent to discourage an injured worker from claiming benefits or pursuing a claim.

For the purposes of this subdivision, "statement" includes, but is not limited to, a notice, proof of injury, bill for services, payment for services, hospital or doctor records, X-ray, test results, medical-legal expense as defined in Section 4620 of the Labor Code, other evidence of loss, injury, or expense, or payment.

(5) Make or cause to be made a knowingly false or fraudulent material statement or material representation for the purpose of obtaining or denying any of the benefits or reimbursement provided in the Return-to-Work Program established under Section 139.48 of the Labor Code.

(6) Make or cause to be made a knowingly false or fraudulent material statement or material representation for the purpose of discouraging an employer from claiming any of the benefits or reimbursement provided in the Return-to-Work Program established under Section 139.48 of the Labor Code.

(b) Every person who violates subdivision (a) shall be punished by imprisonment in the county jail for one year, or in the state prison, for two, three, or five years, or by a fine not exceeding one hundred fifty thousand dollars (\$150,000) or double the value of the fraud, whichever is greater, or by both that imprisonment and fine. Restitution shall be ordered, including restitution for any medical evaluation or treatment services obtained or provided. The court shall determine the amount of

restitution and the person or persons to whom the restitution shall be paid. A person convicted under this section may be charged the costs of investigation at the discretion of the court.

(c) A person who violates subdivision (a) and who has a prior felony conviction of that subdivision, of former Section 556, of former Section 1871.1, or of Section 548 or 550 of the Penal Code, shall receive a two-year enhancement for each prior conviction in addition to the sentence provided in subdivision (b).

The existence of any fact that would subject a person to a penalty enhancement shall be alleged in the information or indictment and either admitted by the defendant in open court, or found to be true by the jury trying the issue of guilt or by the court where guilt is established by plea of guilty or nolo contendere or by trial by the court sitting without a jury.

(d) This section may not be construed to preclude the applicability of any other provision of criminal law that applies or may apply to a transaction.

SEC. 2. Section 1871.8 of the Insurance Code is amended to read:

1871.8. An insurer or self-insured employer shall provide the following notice, in both English and Spanish, to an injured worker on or with a check for temporary disability benefits:

**WARNING:** You are required to report to your employer or the insurance company any money that you earned for work during the time covered by this check, and before cashing this check. If you do not follow these rules, you may be in violation of the law and the penalty may be jail or prison, a fine, and loss of benefits.

**ADVERTENCIA:** Es necesario que usted le avise a su patrón o a su compañía de seguro todo dinero que usted ha ganado por trabajar, durante el tiempo cubierto por éste cheque, y antes de cambiar éste cheque. Si usted no sigue estos reglamentos, Usted puede estar en violación de la ley y el castigo podría ser cárcel o prisión, una multa, y pérdida de beneficios.

SEC. 3. Section 3700.5 of the Labor Code is amended to read:

3700.5. (a) The failure to secure the payment of compensation as required by this article by one who knew, or because of his or her knowledge or experience should be reasonably expected to have known, of the obligation to secure the payment of compensation, is a misdemeanor punishable by imprisonment in the county jail for up to one year, or by a fine of up to double the amount of premium, as determined by the court, that would otherwise have been due to secure the payment of compensation during the time compensation was not

secured, but not less than ten thousand dollars (\$10,000), or by both that imprisonment and fine.

(b) A second or subsequent conviction shall be punished by imprisonment in the county jail for a period not to exceed one year, by a fine of triple the amount of premium, or by both that imprisonment and fine, as determined by the court, that would otherwise have been due to secure the payment of compensation during the time payment was not secured, but not less than fifty thousand dollars (\$50,000).

(c) Upon a first conviction of a person under this section, the person may be charged the costs of investigation at the discretion of the court. Upon a subsequent conviction, the person shall be charged the costs of investigation in addition to any other penalties pursuant to subdivision (b). The costs of investigation shall be paid only after the payment of any benefits that may be owed to injured workers, any reimbursement that may be owed to the director for benefits provided to the injured worker pursuant to Section 3717, and any other penalty assessments that may be owed.

SEC. 4. Section 3711 of the Labor Code is amended to read:

3711. The director, an investigator for the Department of Insurance Fraud Bureau or its successor, or a district attorney investigator assigned to investigate workers' compensation fraud may, at any time, require an employer to furnish a written statement showing the name of his or her insurer or the manner in which the employer has complied with Section 3700. Failure of the employer for a period of 10 days to furnish the written statement is prima facie evidence that he or she has failed or neglected in respect to the matters so required. The 10-day period may not be construed to allow an uninsured employer, so found by the director, any extension of time from the application of the provisions of Section 3710.1. An insured employer who fails to respond to an inquiry respecting his or her status as to his or her workers' compensation security shall be assessed and required to pay a penalty of five hundred dollars (\$500) to the director for deposit in the State Treasury to the credit of the Uninsured Employers Fund. In any prosecution under this article, the burden of proof is upon the defendant to show that he or she has secured the payment of compensation in one of the two ways set forth in Section 3700.

SEC. 5. Section 549 of the Penal Code is amended to read:

549. Any firm, corporation, partnership, or association, or any person acting in his or her individual capacity, or in his or her capacity as a public or private employee, who solicits, accepts, or refers any business to or from any individual or entity with the knowledge that, or with reckless disregard for whether, the individual or entity for or from whom the solicitation or referral is made, or the individual or entity who is solicited or referred, intends to violate Section 550 of this code or

Section 1871.4 of the Insurance Code is guilty of a crime, punishable upon a first conviction by imprisonment in the county jail for not more than one year or by imprisonment in the state prison for 16 months, two years, or three years, or by a fine not exceeding fifty thousand dollars (\$50,000) or double the amount of the fraud, whichever is greater, or by both that imprisonment and fine. A second or subsequent conviction is punishable by imprisonment in the state prison or by imprisonment in the state prison and a fine of fifty thousand dollars (\$50,000). Restitution shall be ordered, including restitution for any medical evaluation or treatment services obtained or provided. The court shall determine the amount of restitution and the person or persons to whom the restitution shall be paid.

SEC. 6. Section 550 of the Penal Code is amended to read:

550. (a) It is unlawful to do any of the following, or to aid, abet, solicit, or conspire with any person to do any of the following:

(1) Knowingly present or cause to be presented any false or fraudulent claim for the payment of a loss or injury, including payment of a loss or injury under a contract of insurance.

(2) Knowingly present multiple claims for the same loss or injury, including presentation of multiple claims to more than one insurer, with an intent to defraud.

(3) Knowingly cause or participate in a vehicular collision, or any other vehicular accident, for the purpose of presenting any false or fraudulent claim.

(4) Knowingly present a false or fraudulent claim for the payments of a loss for theft, destruction, damage, or conversion of a motor vehicle, a motor vehicle part, or contents of a motor vehicle.

(5) Knowingly prepare, make, or subscribe any writing, with the intent to present or use it, or to allow it to be presented, in support of any false or fraudulent claim.

(6) Knowingly make or cause to be made any false or fraudulent claim for payment of a health care benefit.

(7) Knowingly submit a claim for a health care benefit that was not used by, or on behalf of, the claimant.

(8) Knowingly present multiple claims for payment of the same health care benefit with an intent to defraud.

(9) Knowingly present for payment any undercharges for health care benefits on behalf of a specific claimant unless any known overcharges for health care benefits for that claimant are presented for reconciliation at that same time.

(10) For purposes of paragraphs (6) to (9), inclusive, a claim or a claim for payment of a health care benefit also means a claim or claim for payment submitted by or on the behalf of a provider of any workers' compensation health benefits under the Labor Code.

(b) It is unlawful to do, or to knowingly assist or conspire with any person to do, any of the following:

(1) Present or cause to be presented any written or oral statement as part of, or in support of or opposition to, a claim for payment or other benefit pursuant to an insurance policy, knowing that the statement contains any false or misleading information concerning any material fact.

(2) Prepare or make any written or oral statement that is intended to be presented to any insurer or any insurance claimant in connection with, or in support of or opposition to, any claim or payment or other benefit pursuant to an insurance policy, knowing that the statement contains any false or misleading information concerning any material fact.

(3) Conceal, or knowingly fail to disclose the occurrence of, an event that affects any person's initial or continued right or entitlement to any insurance benefit or payment, or the amount of any benefit or payment to which the person is entitled.

(4) Prepare or make any written or oral statement, intended to be presented to any insurer or producer for the purpose of obtaining a motor vehicle insurance policy, that the person to be the insured resides or is domiciled in this state when, in fact, that person resides or is domiciled in a state other than this state.

(c) (1) Every person who violates paragraph (1), (2), (3), (4), or (5) of subdivision (a) is guilty of a felony punishable by imprisonment in the state prison for two, three, or five years, and by a fine not exceeding fifty thousand dollars (\$50,000), or double the amount of the fraud, whichever is greater.

(2) Every person who violates paragraph (6), (7), (8), or (9) of subdivision (a) is guilty of a public offense.

(A) When the claim or amount at issue exceeds four hundred dollars (\$400), the offense is punishable by imprisonment in the state prison for two, three, or five years, or by a fine not exceeding fifty thousand dollars (\$50,000) or double the amount of the fraud, whichever is greater, or by both that imprisonment and fine, or by imprisonment in a county jail not to exceed one year, by a fine of not more than ten thousand dollars (\$10,000), or by both that imprisonment and fine.

(B) When the claim or amount at issue is four hundred dollars (\$400) or less, the offense is punishable by imprisonment in a county jail not to exceed six months, or by a fine of not more than one thousand dollars (\$1,000), or by both that imprisonment and fine, unless the aggregate amount of the claims or amount at issue exceeds four hundred dollars (\$400) in any 12-consecutive-month period, in which case the claims or amounts may be charged as in subparagraph (A).

(3) Every person who violates paragraph (1), (2), (3), or (4) of subdivision (b) shall be punished by imprisonment in the state prison for

two, three, or five years, or by a fine not exceeding fifty thousand dollars (\$50,000) or double the amount of the fraud, whichever is greater, or by both that imprisonment and fine, or by imprisonment in a county jail not to exceed one year, or by a fine of not more than ten thousand dollars (\$10,000), or by both that imprisonment and fine.

(4) Restitution shall be ordered for a person convicted of violating this section, including restitution for any medical evaluation or treatment services obtained or provided. The court shall determine the amount of restitution and the person or persons to whom the restitution shall be paid.

(d) Notwithstanding any other provision of law, probation shall not be granted to, nor shall the execution or imposition of a sentence be suspended for, any adult person convicted of felony violations of this section who previously has been convicted of felony violations of this section or Section 548, or of Section 1871.4 of the Insurance Code, or former Section 556 of the Insurance Code, or former Section 1871.1 of the Insurance Code as an adult under charges separately brought and tried two or more times. The existence of any fact that would make a person ineligible for probation under this subdivision shall be alleged in the information or indictment, and either admitted by the defendant in an open court, or found to be true by the jury trying the issue of guilt or by the court where guilt is established by plea of guilty or nolo contendere or by trial by the court sitting without a jury.

Except when the existence of the fact was not admitted or found to be true or the court finds that a prior felony conviction was invalid, the court shall not strike or dismiss any prior felony convictions alleged in the information or indictment.

This subdivision does not prohibit the adjournment of criminal proceedings pursuant to Division 3 (commencing with Section 3000) or Division 6 (commencing with Section 6000) of the Welfare and Institutions Code.

(e) Except as otherwise provided in subdivision (f), any person who violates subdivision (a) or (b) and who has a prior felony conviction of an offense set forth in either subdivision (a) or (b), in Section 548, in Section 1871.4 of the Insurance Code, in former Section 556 of the Insurance Code, or in former Section 1871.1 of the Insurance Code shall receive a two-year enhancement for each prior felony conviction in addition to the sentence provided in subdivision (c). The existence of any fact that would subject a person to a penalty enhancement shall be alleged in the information or indictment and either admitted by the defendant in open court, or found to be true by the jury trying the issue of guilt or by the court where guilt is established by plea of guilty or nolo contendere or by trial by the court sitting without a jury. Any person who

violates this section shall be subject to appropriate orders of restitution pursuant to Section 13967 of the Government Code.

(f) Any person who violates paragraph (3) of subdivision (a) and who has two prior felony convictions for a violation of paragraph (3) of subdivision (a) shall receive a five-year enhancement in addition to the sentence provided in subdivision (c). The existence of any fact that would subject a person to a penalty enhancement shall be alleged in the information or indictment and either admitted by the defendant in open court, or found to be true by the jury trying the issue of guilt or by the court where guilt is established by plea of guilty or nolo contendere or by trial by the court sitting without a jury.

(g) Except as otherwise provided in Section 12022.7, any person who violates paragraph (3) of subdivision (a) shall receive a two-year enhancement for each person other than an accomplice who suffers serious bodily injury resulting from the vehicular collision or accident in a violation of paragraph (3) of subdivision (a).

(h) This section shall not be construed to preclude the applicability of any other provision of criminal law or equitable remedy that applies or may apply to any act committed or alleged to have been committed by a person.

(i) Any fine imposed pursuant to this section shall be doubled if the offense was committed in connection with any claim pursuant to any automobile insurance policy in an auto insurance fraud crisis area designated by the Insurance Commissioner pursuant to Article 4.6 (commencing with Section 1874.90) of Chapter 12 of Part 2 of Division 1 of the Insurance Code.

SEC. 7. Section 803 of the Penal Code is amended to read:

803. (a) Except as provided in this section, a limitation of time prescribed in this chapter is not tolled or extended for any reason.

(b) No time during which prosecution of the same person for the same conduct is pending in a court of this state is a part of a limitation of time prescribed in this chapter.

(c) A limitation of time prescribed in this chapter does not commence to run until the discovery of an offense described in this subdivision. This subdivision applies to an offense punishable by imprisonment in the state prison, a material element of which is fraud or breach of a fiduciary obligation, the commission of the crimes of theft or embezzlement upon an elder or dependent adult, or the basis of which is misconduct in office by a public officer, employee, or appointee, including, but not limited to, the following offenses:

(1) Grand theft of any type, forgery, falsification of public records, or acceptance of a bribe by a public official or a public employee.

(2) A violation of Section 72, 118, 118a, 132, 134, or 186.10.

(3) A violation of Section 25540, of any type, or Section 25541 of the Corporations Code.

(4) A violation of Section 1090 or 27443 of the Government Code.

(5) Felony welfare fraud or Medi-Cal fraud in violation of Section 11483 or 14107 of the Welfare and Institutions Code.

(6) Felony insurance fraud in violation of Section 548 or 550 of this code or former Section 1871.1, or Section 1871.4, of the Insurance Code.

(7) A violation of Section 580, 581, 582, 583, or 584 of the Business and Professions Code.

(8) A violation of Section 22430 of the Business and Professions Code.

(9) A violation of Section 10690 of the Health and Safety Code.

(10) A violation of Section 529a.

(11) A violation of subdivision (d) or (e) of Section 368.

(d) If the defendant is out of the state when or after the offense is committed, the prosecution may be commenced as provided in Section 804 within the limitations of time prescribed by this chapter, and no time up to a maximum of three years during which the defendant is not within the state shall be a part of those limitations.

(e) A limitation of time prescribed in this chapter does not commence to run until the offense has been discovered, or could have reasonably been discovered, with regard to offenses under Division 7 (commencing with Section 13000) of the Water Code, under Chapter 6.5 (commencing with Section 25100) of, Chapter 6.7 (commencing with Section 25280) of, or Chapter 6.8 (commencing with Section 25300) of, Division 20 of, or Part 4 (commencing with Section 41500) of Division 26 of, the Health and Safety Code, or under Section 386, or offenses under Chapter 5 (commencing with Section 2000) of Division 2 of, Chapter 9 (commencing with Section 4000) of Division 2 of, Section 6126 of, Chapter 10 (commencing with Section 7301) of Division 3 of, or Chapter 19.5 (commencing with Section 22440) of Division 8 of, the Business and Professions Code.

(f) (1) Notwithstanding any other limitation of time described in this chapter, a criminal complaint may be filed within one year of the date of a report to a responsible adult or agency by a child under 18 years of age that the child is a victim of a crime described in Section 261, 286, 288, 288a, 288.5, 289, or 289.5.

(2) For purposes of this subdivision, a “responsible adult” or “agency” means a person or agency required to report pursuant to Section 11166. This subdivision applies only if both of the following occur:

(A) The limitation period specified in Section 800 or 801 has expired.

(B) The defendant has committed at least one violation of Section 261, 286, 288, 288a, 288.5, 289, or 289.5 against the same victim within the limitation period specified for that crime in either Section 800 or 801.

(3) (A) This subdivision applies to a cause of action arising before, on, or after January 1, 1990, the effective date of this subdivision, and it shall revive any cause of action barred by Section 800 or 801 if any of the following occurred or occurs:

(i) The complaint or indictment was filed on or before January 1, 1997, and it was filed within the time period specified in this subdivision.

(ii) The complaint or indictment is or was filed subsequent to January 1, 1997, and it is or was filed within the time period specified within this subdivision.

(iii) The victim made the report required by this subdivision to a responsible adult or agency after January 1, 1990, and a complaint or indictment was not filed within the time period specified in this subdivision, but a complaint or indictment is filed no later than 180 days after the date on which either a published opinion of the California Supreme Court, deciding whether retroactive application of this section is constitutional, becomes final or the United States Supreme Court files an opinion deciding the question of whether retroactive application of this subdivision is constitutional, whichever occurs first.

(iv) The victim made the report required by this subdivision to a responsible adult or agency after January 1, 1990, and a complaint or indictment was filed within the time period specified in this subdivision, but the indictment, complaint, or subsequently filed information was dismissed, but a new complaint or indictment is or was filed no later than 180 days after the date on which either a published opinion of the California Supreme Court, deciding whether retroactive application of this section is constitutional, becomes final or the United States Supreme Court files an opinion deciding the question of whether retroactive application of this subdivision is constitutional, whichever occurs first.

(B) (i) If the victim made the report required by this subdivision to a responsible adult or agency after January 1, 1990, and a complaint or indictment was filed within the time period specified in this subdivision, but the indictment, complaint, or subsequently filed information was dismissed, a new complaint or indictment may be filed notwithstanding any other provision of law, including, but not limited to, subdivision (c) of Section 871.5 and subdivision (b) of Section 1238.

(ii) An order dismissing an action filed under this subdivision, which is entered or becomes effective at any time prior to 180 days after the date on which either a published opinion of the California Supreme Court, deciding the question of whether retroactive application of this section is constitutional, becomes final or the United States Supreme Court files

an opinion deciding the question of whether retroactive application of this subdivision is constitutional, whichever occurs first, may not be considered an order terminating an action within the meaning of Section 1387.

(iii) Any ruling regarding the retroactivity of this subdivision or its constitutionality made in the course of the previous proceeding, including any review proceeding, may not be binding upon refileing.

(g) (1) Notwithstanding any other limitation of time described in this chapter, a criminal complaint may be filed within one year of the date of a report to a California law enforcement agency by a person of any age alleging that he or she, while under the age of 18 years, was the victim of a crime described in Section 261, 286, 288, 288a, 288.5, 289, or 289.5.

(2) This subdivision applies only if both of the following occur:

(A) The limitation period specified in Section 800 or 801 has expired.

(B) The crime involved substantial sexual conduct, as described in subdivision (b) of Section 1203.066, excluding masturbation that is not mutual, and there is independent evidence that clearly and convincingly corroborates the victim's allegation. No evidence may be used to corroborate the victim's allegation that otherwise would be inadmissible during trial. Independent evidence does not include the opinions of mental health professionals.

(3) (A) This subdivision applies to a cause of action arising before, on, or after January 1, 1994, the effective date of this subdivision, and it shall revive any cause of action barred by Section 800 or 801 if any of the following occurred or occurs:

(i) The complaint or indictment was filed on or before January 1, 1997, and it was filed within the time period specified in this subdivision.

(ii) The complaint or indictment is or was filed subsequent to January 1, 1997, and it is or was filed within the time period specified within this subdivision.

(iii) The victim made the report required by this subdivision to a law enforcement agency after January 1, 1994, and a complaint or indictment was not filed within the time period specified in this subdivision, but a complaint or indictment is filed no later than 180 days after the date on which either a published opinion of the California Supreme Court, deciding the question of whether retroactive application of this subdivision is constitutional, becomes final or the United States Supreme Court files an opinion deciding the question of whether retroactive application of this subdivision is constitutional, whichever occurs first.

(iv) The victim made the report required by this subdivision to a law enforcement agency after January 1, 1994, and a complaint or indictment was filed within the time period specified in this subdivision, but the

indictment, complaint, or subsequently filed information was dismissed, but a new complaint or indictment is filed no later than 180 days after the date on which either a published opinion of the California Supreme Court, deciding the question of whether retroactive application of this subdivision is constitutional, becomes final or the United States Supreme Court files an opinion deciding the question of whether retroactive application of this subdivision is constitutional, whichever occurs first.

(B) (i) If the victim made the report required by this subdivision to a law enforcement agency after January 1, 1994, and a complaint or indictment was filed within the time period specified in this subdivision, but the indictment, complaint, or subsequently filed information was dismissed, a new complaint or indictment may be filed notwithstanding any other provision of law, including, but not limited to, subdivision (c) of Section 871.5 and subdivision (b) of Section 1238.

(ii) An order dismissing an action filed under this subdivision, which is entered or becomes effective at any time prior to 180 days after the date on which either a published opinion of the California Supreme Court, deciding the question of whether retroactive application of this section is constitutional, becomes final or the United States Supreme Court files an opinion deciding the question of whether retroactive application of this subdivision is constitutional, whichever occurs first, may not be considered an order terminating an action within the meaning of Section 1387.

(iii) Any ruling regarding the retroactivity of this subdivision or its constitutionality made in the course of the previous proceeding, by any trial court or any intermediate appellate court, may not be binding upon refileing.

(h) (1) Notwithstanding any other limitation of time described in this chapter, a criminal complaint may be filed within one year of the date of a report to a California law enforcement agency by a person under 21 years of age, alleging that he or she, while under 18 years of age, was the victim of a crime described in Section 261, 286, 288, 288a, 288.5, 289, or 289.5.

(2) This subdivision applies only if both of the following occur:

(A) The limitation period specified in Section 800 or 801 has expired.

(B) The crime involved substantial sexual conduct, as described in subdivision (b) of Section 1203.066, excluding masturbation that is not mutual, and there is independent evidence that corroborates the victim's allegation. No evidence may be used to corroborate the victim's allegation that otherwise would be inadmissible during trial. Independent evidence does not include the opinions of mental health professionals.

(3) This subdivision applies to a cause of action arising before, on, or after January 1, 2002, the effective date of this subdivision, and it shall revive any cause of action barred by Section 800 or 801 if the complaint or indictment was filed within the time period specified by this subdivision.

(i) (1) Notwithstanding the limitation of time described in Section 800, the limitations period for commencing prosecution for a felony offense described in subparagraph (A) of paragraph (2) of subdivision (a) of Section 290, where the limitations period set forth in Section 800 has not expired as of January 1, 2001, or the offense is committed on or after January 1, 2001, shall be 10 years from the commission of the offense, or one year from the date on which the identity of the suspect is conclusively established by DNA testing, whichever is later, provided, however, that the one-year period from the establishment of the identity of the suspect shall only apply when either of the following conditions is met:

(A) For an offense committed prior to January 1, 2001, biological evidence collected in connection with the offense is analyzed for DNA type no later than January 1, 2004.

(B) For an offense committed on or after January 1, 2001, biological evidence collected in connection with the offense is analyzed for DNA type no later than two years from the date of the offense.

(2) In the event the conditions set forth in subparagraph (A) or (B) of paragraph (1) are not met, the limitations period for commencing prosecution for a felony offense described in subparagraph (A) of paragraph (2) of subdivision (a) of Section 290, where the limitations period set forth in Section 800 has not expired as of January 1, 2001, or the offense is committed on or after January 1, 2001, shall be 10 years from the commission of the offense.

(3) For purposes of this section, “DNA” means deoxyribonucleic acid.

(j) For any crime, the proof of which depends substantially upon evidence that was seized under a warrant, but which is unavailable to the prosecuting authority under the procedures described in *People v. Superior Court (Laff)* (2001) 25 Cal.4th 703, *People v. Superior Court (Bauman & Rose)* (1995) 37 Cal.App.4th 1757, or subdivision (c) of Section 1524, relating to claims of evidentiary privilege or attorney work product, the limitation of time prescribed in this chapter shall be tolled from the time of the seizure until final disclosure of the evidence to the prosecuting authority. Nothing in this section otherwise affects the definition or applicability of any evidentiary privilege or attorney work product.

(k) (1) In a criminal investigation involving child sexual abuse as described in subdivision (g) or (h), when the limitations period set forth

therein has not expired, that period shall be tolled from the time a party initiates litigation challenging a grand jury subpoena until the end of that litigation, including any associated writ or appellate proceeding, or until the final disclosure of evidence to the investigating or prosecuting agency, if that disclosure is ordered pursuant to the subpoena after the litigation.

(2) Nothing in this subdivision affects the definition or applicability of any evidentiary privilege.

(3) This subdivision may not apply where a court finds that the grand jury subpoena was issued or caused to be issued in bad faith.

(l) As used in subdivisions (f), (g), and (h), Section 289.5 refers to the statute enacted by Chapter 293 of the Statutes of 1991 relating to penetration by an unknown object.

SEC. 8. Section 1524 of the Penal Code is amended to read:

1524. (a) A search warrant may be issued upon any of the following grounds:

(1) When the property was stolen or embezzled.

(2) When the property or things were used as the means of committing a felony.

(3) When the property or things are in the possession of any person with the intent to use them as a means of committing a public offense, or in the possession of another to whom he or she may have delivered them for the purpose of concealing them or preventing their being discovered.

(4) When the property or things to be seized consist of any item or constitute any evidence that tends to show a felony has been committed, or tends to show that a particular person has committed a felony.

(5) When the property or things to be seized consist of evidence that tends to show that sexual exploitation of a child, in violation of Section 311.3, or possession of matter depicting sexual conduct of a person under the age of 18 years, in violation of Section 311.11, has occurred or is occurring.

(6) When there is a warrant to arrest a person.

(7) When a provider of electronic communication service or remote computing service has records or evidence, as specified in Section 1524.3, showing that property was stolen or embezzled constituting a misdemeanor, or that property or things are in the possession of any person with the intent to use them as a means of committing a misdemeanor public offense, or in the possession of another to whom he or she may have delivered them for the purpose of concealing them or preventing their discovery.

(8) When the property or things to be seized include an item or any evidence that tends to show a violation of Section 3700.5 of the Labor

Code, or tends to show that a particular person has violated Section 3700.5 of the Labor Code.

(b) The property or things or person or persons described in subdivision (a) may be taken on the warrant from any place, or from any person in whose possession the property or things may be.

(c) Notwithstanding subdivision (a) or (b), no search warrant shall issue for any documentary evidence in the possession or under the control of any person, who is a lawyer as defined in Section 950 of the Evidence Code, a physician as defined in Section 990 of the Evidence Code, a psychotherapist as defined in Section 1010 of the Evidence Code, or a clergyman as defined in Section 1030 of the Evidence Code, and who is not reasonably suspected of engaging or having engaged in criminal activity related to the documentary evidence for which a warrant is requested unless the following procedure has been complied with:

(1) At the time of the issuance of the warrant the court shall appoint a special master in accordance with subdivision (d) to accompany the person who will serve the warrant. Upon service of the warrant, the special master shall inform the party served of the specific items being sought and that the party shall have the opportunity to provide the items requested. If the party, in the judgment of the special master, fails to provide the items requested, the special master shall conduct a search for the items in the areas indicated in the search warrant.

(2) If the party who has been served states that an item or items should not be disclosed, they shall be sealed by the special master and taken to court for a hearing.

At the hearing, the party searched shall be entitled to raise any issues that may be raised pursuant to Section 1538.5 as well as a claim that the item or items are privileged, as provided by law. The hearing shall be held in the superior court. The court shall provide sufficient time for the parties to obtain counsel and make any motions or present any evidence. The hearing shall be held within three days of the service of the warrant unless the court makes a finding that the expedited hearing is impracticable. In that case the matter shall be heard at the earliest possible time.

If an item or items are taken to court for a hearing, any limitations of time prescribed in Chapter 2 (commencing with Section 797) of Title 3 of Part 2 shall be tolled from the time of the seizure until the final conclusion of the hearing, including any associated writ or appellate proceedings.

(3) The warrant shall, whenever practicable, be served during normal business hours. In addition, the warrant shall be served upon a party who appears to have possession or control of the items sought. If, after reasonable efforts, the party serving the warrant is unable to locate the

person, the special master shall seal and return to the court, for determination by the court, any item that appears to be privileged as provided by law.

(d) As used in this section, a “special master” is an attorney who is a member in good standing of the California State Bar and who has been selected from a list of qualified attorneys that is maintained by the State Bar particularly for the purposes of conducting the searches described in this section. These attorneys shall serve without compensation. A special master shall be considered a public employee, and the governmental entity that caused the search warrant to be issued shall be considered the employer of the special master and the applicable public entity, for purposes of Division 3.6 (commencing with Section 810) of Title 1 of the Government Code, relating to claims and actions against public entities and public employees. In selecting the special master, the court shall make every reasonable effort to ensure that the person selected has no relationship with any of the parties involved in the pending matter. Any information obtained by the special master shall be confidential and may not be divulged except in direct response to inquiry by the court.

In any case in which the magistrate determines that, after reasonable efforts have been made to obtain a special master, a special master is not available and would not be available within a reasonable period of time, the magistrate may direct the party seeking the order to conduct the search in the manner described in this section in lieu of the special master.

(e) Any search conducted pursuant to this section by a special master may be conducted in a manner that permits the party serving the warrant or his or her designee to accompany the special master as he or she conducts his or her search. However, that party or his or her designee may not participate in the search nor shall he or she examine any of the items being searched by the special master except upon agreement of the party upon whom the warrant has been served.

(f) As used in this section, “documentary evidence” includes, but is not limited to, writings, documents, blueprints, drawings, photographs, computer printouts, microfilms, X-rays, files, diagrams, ledgers, books, tapes, audio and video recordings, films or papers of any type or description.

(g) No warrant shall issue for any item or items described in Section 1070 of the Evidence Code.

(h) Notwithstanding any other law, no claim of attorney work product as described in Section 2018 of the Code of Civil Procedure shall be sustained where there is probable cause to believe that the lawyer is engaging or has engaged in criminal activity related to the documentary evidence for which a warrant is requested unless it is established at the

hearing with respect to the documentary evidence seized under the warrant that the services of the lawyer were not sought or obtained to enable or aid anyone to commit or plan to commit a crime or a fraud.

(i) Nothing in this section is intended to limit an attorney's ability to request an in camera hearing pursuant to the holding of the Supreme Court of California in *People v. Superior Court (Laff)* (2001) 25 Cal.4th 703.

(j) In addition to any other circumstance permitting a magistrate to issue a warrant for a person or property in another county, when the property or things to be seized consist of any item or constitute any evidence that tends to show a violation of Section 530.5, the magistrate may issue a warrant to search a person or property located in another county if the person whose identifying information was taken or used resides in the same county as the issuing court.

SEC. 9. The changes to Section 1871.8 of the Insurance Code made by Section 2 of this act shall become operative on January 1, 2005.

SEC. 10. The provisions of this act are severable. If any provision of this section or its application is held invalid, that invalidity may not affect other provisions or applications that can be given effect without the invalid provision or application.

SEC. 11. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

## **EXTRAORDINARY SESSION SPECIAL RULES OF EFFECTIVENESS**

Except for a statute calling an election, a statute providing for a tax levy or an appropriation calling for the usual current expenses of the state, and an urgency statute, all of which take effect immediately following enactment, a statute adopted during an extraordinary session takes effect on the 91st day following the adjournment of the special session (see subdivision (c) of Section 8 of Article IV of the California Constitution). The effective date of a joint resolution is the date it is filed with the Secretary of State.

The 2003–04 Fifth Extraordinary Session reconvened on January 6, 2004, and adjourned *sine die* on November 30, 2004. Please refer to the preceding year's Statutes and Amendments to the Codes for statutes enacted prior to the reconvening date.

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

**A PROCLAMATION  
BY THE GOVERNOR OF THE STATE OF CALIFORNIA**

**WHEREAS**, an extraordinary occasion has arisen and now exists requiring that the Legislature of the State of California be convened in extraordinary session; now therefore,

**I, ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 18<sup>th</sup> day of November, 2003, at a time to be determined, for the following purpose and to legislate upon the following subjects:

1. To consider and act upon legislation relative to placing before the voters in the election to be held March 2, 2004, a general obligation bond to repay, restructure and finance California's budget deficit recovery;
2. To consider and act upon a Constitutional amendment to be placed before the voters in the election to be held March 2, 2004, a limit on government spending to prevent a future budget deficit, establish a reserve fund, and vest extraordinary powers in the Governor and Director of Finance in times of fiscal emergency; and
3. To consider and act upon legislation relative to funding the offset of the motor vehicle license fee from the General Fund.

**IN WITNESS WHEREOF** I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 17<sup>th</sup> day of November, 2003.

  
ARNOLD SCHWARZENEGGER  
Governor of California

# PREFACE

## Digests

The Summary Digest consists of a short summary of each law enacted, and of each constitutional amendment, concurrent or joint resolution adopted by the Legislature in 2004.

The text of the Summary Digest is arranged numerically by chapter number.

Superior numbers following the title refer to a Governor's Message affecting that law. These are printed after the digests in the "Digest Chapters Superior Numbers" section.

## Cross Reference Tables

Cross reference tables are arranged numerically by bill or resolution number and indicate the chapter number of each.

## New General Laws

Lists new general laws passed in the years 1999–2004 which do not specifically amend, add to, or repeal any existing code or general law.

## Index

A subject matter index to all measures, including constitutional amendments and resolutions, is included.

## Statutory Record

This edition of the Summary Digest includes a statutory record for 1999–2004. Superior numbers following the *Effect* refer to a special condition affecting that section.

Cumulative statutory records for 10-year periods, 1989–1998, 1979–1988, 1969–1978, 1959–1968 and 1949–1958, and for the 16-year period, 1933–1948, are published in separate volumes, which supplement the original statutory record, 1850–1932, published in 1933.

## EFFECTIVE DATES

### Regular Session

The 2003–04 Regular Session reconvened on January 5, 2004, and adjourned *sine die* on November 30, 2004. Statutes enacted in 2004, other than those taking immediate effect, will become effective January 1, 2005. In absence of other considerations, the provisions of a statute become operative on the date it takes effect. Digests indicate statutes taking immediate effect.

An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes *effective* on the date it is filed with the Secretary of State.

However, any statute may, by its own terms, delay the *operation* of its provisions until the happening of some contingency, until a specified time, or until a vote of the electors at a statewide election. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

A constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

### Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed *operative date*. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 2003–04 Third Extraordinary Session reconvened on January 6, 2004, and adjourned *sine die* on January 15, 2004. Please refer to the preceding year's Statutes and Amendments to the Codes for statutes enacted prior to the reconvening date.

The 2003–04 Fourth Extraordinary Session reconvened on January 6, 2004, and adjourned *sine die* on November 30, 2004. Statutes enacted at an extraordinary session, other than those taking immediate effect, will become effective on the 91st day after adjournment. The 91st day after adjournment is March 1, 2005.

## **EFFECTIVE DATES—Continued**

The 2003–04 Fifth Extraordinary Session reconvened on January 6, 2004, and adjourned *sine die* on November 30, 2004. Please refer to the preceding year’s Statutes and Amendments to the Codes for statutes enacted prior to the reconvening date.

**DIGESTS OF STATUTES  
ENACTED IN 2004**

2003–04 REGULAR SESSION

---

---

**BILL CHAPTERS****Ch. 1 (AB 2) Bogh. Victims: appearances at parole hearings.**

Existing law authorizes the court to permit the victim of any crime, or his or her parent or guardian if the victim is a minor, or the next of kin of the victim if the victim has died, to file with the court a written, audiotaped, or videotaped statement expressing his or her views concerning the crime, the person responsible, and the need for restitution, in lieu of or in addition to the person personally appearing at the time of judgment and sentence.

This bill would in addition, authorize submission of the statement on a CD Rom, DVD, or any other recording medium acceptable to the court.

Existing law establishes procedures for granting parole. Existing law also provides, on an emergency basis, and only until December 31, 2003, that life parole consideration hearings and life rescission hearings may be conducted by a 2-person panel, and would impose other requirements on the panel in order to eliminate a backlog of inmates awaiting parole consideration, as specified. Existing law also requires the Board of Prison Terms to report monthly on the number of hearings conducted in the previous month, the number scheduled in the current and subsequent months, the backlog of cases awaiting a hearing, and progress toward eliminating the backlog.

This bill would provide that these provisions would be operative until December 31, 2005. The bill would also provide that the described reports would be due on a quarterly basis.

Existing law authorizes the Board of Prison Terms to permit, in lieu of personal appearance at any hearing to review the parole suitability or the setting of a parole date, the victim, his or her next of kin, or immediate family members to file with the board a written, audiotaped, or videotaped statement expressing his or her views concerning the crime and the person responsible.

This bill would in addition, authorize submission of the statement on a CD Rom, DVD, or any other recording medium accepted by the board or by a court pursuant to the provision discussed above. The bill would authorize the hearing officer to ensure that only accurate and relevant statements are considered in determining parole suitability, as specified.

Existing law, added by initiative statute, provides that a victim or certain others may appear at a parole hearing for the prisoner responsible for the crime who is confined in the state prison in order to present his or her views concerning the crime and the person responsible.

Existing law, added by initiative statute, similarly provides that a victim or certain others may appear at the parole hearing for the prisoner responsible for the crime who is under the control of the Youth Authority.

The initiative statute provides that any amendment to its provisions by the Legislature shall require a  $\frac{2}{3}$  vote of the membership of each house.

This bill would authorize the victim or others appearing with or for the victim to request that the victim or others speak last at a parole hearing for the person confined in the state prison or under the control of the Youth Authority.

The bill would require the Board of Prison Terms to report to the Legislature, no later than June 30, 2004, regarding the use of video conferencing to conduct life parole consideration hearings.

Because this bill would amend provisions of the initiative statutes, this bill would require a  $\frac{2}{3}$  vote.

This bill would declare that it is to take effect immediately as an urgency statute.

**Ch. 2 (AB 685) Leno. HIV counselors: education and training.**

Existing law authorizes the State Department of Health Services, through its Office of AIDS, to participate in a rapid human immunodeficiency virus test research program conducted with the federal Centers for Disease Control and Prevention, involving innovative HIV testing and counseling programs.

Existing law authorizes an HIV counselor who is trained by the Office of AIDS and working in an HIV counseling and testing site funded by the department through a local health jurisdiction to perform specified HIV tests, in accordance with prescribed conditions, and to order and report these test results to patients without authorization from a licensed health care professional or his or her authorized representative.

This bill would provide that an HIV counselor acting in accordance with the above provisions who successfully completes the HIV counselor training shall be deemed to have demonstrated sufficient literacy and comprehension to advance to the limited phlebotomy technician (LPT) training and to substitute completion of the HIV counselor training for the requirement for a high school diploma or General Education Development (GED) equivalent for a limited phlebotomy technician, and would revise the conditions under which an HIV counselor may perform these HIV tests.

The bill would also declare that it is the intent of the Legislature that the office, in consultation with the Laboratory Science Division of the department, develop a comprehensive curriculum that integrates appropriate training for an HIV counselor and an LPT that meets the LPT training standards set forth in designated statutes and regulations.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 3 (AB 283) Campbell. Claims against the state: appropriation.

Existing law requires the California Victim Compensation and Government Claims Board to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$2,017,905.90 from various specified funds to the Executive Officer of the California Victim Compensation and Government Claims Board to pay claims accepted by the board in accordance with a schedule that identifies the funds and accounts from which the payments are to be made.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 4 (AB 652) Leno. Insurers: loans.

Existing law provides that any persons may exchange reciprocal or interinsurance contracts with one another providing insurance among themselves against any loss that may be lawfully insured against, except as specified. Existing law generally regulates reciprocal and interinsurance exchanges.

Existing law allows a mutual insurer to borrow money to defray the expenses of its organization, provide it with surplus funds, or for any purpose of its business, upon a written agreement that the money is required to be repaid only out of the insurer's surplus in excess of that stipulated in the agreement. Existing law allows this type of agreement to provide for interest not exceeding a certain amount, and provides that no commission or promotion expense shall be paid in connection with any of these loans. Existing law provides that money so borrowed, and interest thereon, shall not form part of the insurer's legal liabilities, except as specified, and requires that any loan of this type made to a mutual insurer be repaid when and to the extent it is no longer reasonably necessary, except as specified.

This bill would allow the type of agreement described above to be executed, in addition, by a reciprocal exchange or an interinsurance exchange. It would allow these types of agreements to provide for fixed or variable interest not exceeding an amount allowed by the Insurance Commissioner. The bill would require that any agreement provide that all payments require prior approval by the commissioner. It would permit the commissioner to allow a commission or promotion expense to be paid in connection with this type of loan, and would require conformity to specified accounting practices in the insurer's financial statements. The bill would eliminate the provisions of law relating to excluding these loans from the insurer's legal liabilities and repaying them when made to a mutual insurer.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 5 (AB 1145) Shirley Horton. State buildings: defibrillators.

Existing law authorizes the Emergency Medical Services Authority to establish minimum standards for the training and use of automatic external defibrillators.

Existing law requires all moneys received by the state from the federal government, the expenditure of which is administered through or under the direction of a state agency, to be deposited in the Federal Trust Fund, which is continuously appropriated for expenditure for the purposes for which the moneys are deposited in that fund.

This bill would require the Department of General Services to apply for specified federal funds for the purchase of automated external defibrillators to be located within state-owned and leased buildings. It would require, subject to receipt of federal funds for this purpose, the Department of General Services, in consultation with the Emergency Medical Services Authority, the American Red Cross, and the American Heart Association to develop and adopt policies and procedures, consistent with specified state regulations, relative to the placement and use of automated external defibrillators in state-owned and leased buildings and ensure that training is consistent with specified requirements.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 6 (AB 1179) Parra. Public records.

Existing law prohibits any public entity from charging any fee for recording, indexing, or issuing certified copies of specified documents related to service in the Armed Forces of the United States, including any public record required to apply for and receive benefits from the Veterans Administration or any other federal or state benefits. Existing law further requires that recording, indexing, or issuing certified copies of these documents be rendered on request of a United States official, a claimant or applicant, or the guardian, conservator, or attorney of the claimant or applicant, or any other person acting on behalf of the claimant or applicant.

This bill would provide that a certified copy of a veteran's records shall be made available only to the person who is the subject of the record upon presentation of proper photo identification, to a family member or legal representative of the person who is the subject of the record upon presentation of proper photo identification and certification of their relationship to the subject of the record, or to a county office that provides veteran's benefits services or a United States official upon written request.

Under existing law, if the State Registrar of Vital Statistics, local registrar, or county recorder receives a written request for a certified copy of a birth or death record that is accompanied by a notarized statement sworn under penalty of perjury that the requester is an authorized person, as defined, that official may furnish a certified copy to the applicant. Under existing law, an authorized person for these purposes includes a funeral director.

This bill would also apply that authorization to requests for certified military service records received by the State Registrar of Vital Statistics, local registrar, or county recorder, and would authorize the State Registrar of Vital Statistics, local registrar, or county recorder to issue the certified copy to an applicant pursuant to the receipt of an electronic facsimile copy of a notarized statement sworn under penalty of perjury, in accordance with specified requirements. This bill would also specify that if a written request for a copy of a military service record is submitted to the county recorder by electronic facsimile, the county recorder may furnish a certified copy of the military record to the applicant. This bill would change references to a funeral director, as contained in the foregoing provisions, to instead refer to an agent or employee of a funeral establishment acting within the scope of employment.

Existing law requires a county recorder to accept for recordation any instrument, paper, or notice that is authorized or required by statute or court order to be recorded, if specified requirements are met and the instrument, paper, or notice is photographically reproducible.

This bill would specify that a notary acknowledgment shall be deemed complete for recording purposes without a photographically reproducible official seal of the notary public if the official seal is present and legible, and specified information is typed or printed in a

manner that is photographically reproducible below, or immediately adjacent to, the notary's signature in the acknowledgment. The bill would also require, when a request for a certified copy of a birth or death record is received by mail, that a notarized statement accompany the request stating that the requester is an authorized person.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 7 (AB 1182) Ridley-Thomas. Government financing.

(1) Existing commercial law governs secured transactions, but exempts certain transactions from its provisions, including transactions governed by certain statutes of this state or certain other jurisdictions that relate to security interests created by this state or one of its governmental units.

This bill would delete those exemptions and instead provide that a transfer by a government or governmental unit is not subject to the provisions governing secured transactions.

(2) Existing law requires the California Debt and Investment Advisory Commission, among other things, to collect, maintain, and provide comprehensive information on all state and local debt authorization, sold and outstanding.

This bill instead would require the commission to collect, maintain, and provide that information on all state and local debt authorization and issuance.

(3) Existing law requires the California Debt and Investment Advisory Commission to prepare an annual report compiling and detailing the total amount of outstanding state and local public debt and examining recent trends in the composition of that outstanding debt, subject to specified criteria.

This bill would repeal this provision.

(4) Existing law requires an issuer of public securities to publish notice of intention to sell the securities at a public sale at least 15 days prior to the sale if the securities exceed \$1,000,000.

This bill would instead require publication of that intention at least 15 days prior to the sale of public securities that exceed \$1,000,000 but do not exceed \$10,000,000, and at least 5 days prior to the sale if the securities exceed \$10,000,000.

(5) Existing law requires, with respect to the sale of bonds for a school district or a community college district, that the board of supervisors or community college district, as appropriate, advertise for bids according to specified criteria.

This bill instead would require that the board of supervisors or community college district, as appropriate, give notice as required by the provisions of law governing an issuer of public securities amended by this bill.

(6) Existing law establishes a corporate instrumentality of the State of California, known as an industrial development authority, in each public agency for the purpose of undertaking projects through the issuance of bonds for the financing in acquiring, constructing, or rehabilitating facilities or property for one or more specified activities or uses, and for the purpose of carrying out and completing the projects. Authorities are not authorized to undertake projects through the issuance of bonds on or after January 1, 2004, with a specified exception.

This bill would extend this date to January 1, 2006.

(7) Existing law provides that no project or portion of a project is eligible for financing under the California Pollution Control Financing Authority Act if at the time an application is submitted financing has otherwise been obtained.

This bill would delete that prohibition.

(8) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 8 (AB 1209) Nakano. Public agency security: confidential information.

The existing California Public Records Act provides that, except for exempt records, every state or local agency, upon request, shall make records available to any person upon payment

of fees to cover costs. Among those records that are exempt from disclosure under the act is a document prepared by a local agency that assesses its vulnerability to terrorist attack or other criminal acts intended to disrupt the public agency's operations and that is for distribution or consideration in a closed session.

This bill would instead apply this exemption to a document prepared by or for a state or local agency for these reasons. It would also exempt customer lists provided to a state or local police agency by an alarm or security company at the request of the agency, and make various technical, nonsubstantive changes.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 9 (AB 1501) Levine. Political Reform Act of 1974.

Under the Political Reform Act of 1974, a candidate for elective state office may voluntarily accept specified expenditure limits for his or her campaign for office. Under existing law, the candidate is required to file a statement of acceptance or rejection of the voluntary expenditure at the time he or she files the statement of intention.

This bill would authorize a candidate, until the deadline for filing nomination papers, to change his or her statement of acceptance or rejection of voluntary expenditure limits, provided he or she has not exceeded the voluntary expenditure limits. The bill would prohibit a candidate from changing his or her statement more than twice after the initial filing of the nomination papers.

Existing law makes a violation of the act subject to administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate the provisions of this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a  $\frac{2}{3}$  vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a  $\frac{2}{3}$  vote.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 10 (AB 1192) Dutra. Land use.

Existing law prohibits a city, county, or city and county from reducing, requiring, or permitting the reduction of the residential density for any parcel below the density that was utilized by the Department of Housing and Community Development in determining compliance with housing element law unless the city, county, or city and county makes written findings supported by substantial evidence that the reduction is consistent with the adopted general plan, including the housing element and the remaining sites identified in the housing element are adequate to accommodate the jurisdiction's share of the regional housing need. The city or county may reduce the residential density for a parcel if it identifies sufficient additional sites, as prescribed.

This bill would require a city, county, or city and county to be solely responsible for compliance with the requirement for additional sites unless a project applicant requests in his or her initial application, as specified, a density that would make remaining sites in the housing element inadequate to accommodate the jurisdiction's share of the regional housing need. In that case, the city, county, or city and county would be authorized to require the project applicant to comply with this requirement. The bill would make these provisions inapplicable to parcels that, prior to January 1, 2003, were either (1) subject to a development agreement, or (2) parcels for which an application for a subdivision map had been submitted.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 11 (AB 419) Committee on Public Employees, Retirement and Social Security. Teachers' Retirement Board: elections.

(1) The State Teachers' Retirement Law provides for the election, as of January 1, 2004, of 3 members to the Teachers' Retirement Board at elections conducted by the board. One of those members is to be elected by specified active members of the Defined Benefit Program of the State Teachers' Retirement Plan.

This bill would provide that that member of the board shall also be elected by specified active participants of the Cash Balance Benefit Program of the State Teachers' Retirement Plan and would clarify that a member of the system employed to perform creditable service for more than one employer may only be elected to the position on the board that corresponds to the position in which he or she accrued the most service credit during the prior school year. The bill would also make technical changes.

The bill would also declare the Legislature's intent that elected members and candidates for those offices file specified campaign statements with the Secretary of State.

(2) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 12 (SB 98) Alpert. Claims against the state: appropriation.

Existing law requires the Attorney General to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state.

This bill would appropriate \$8,609,276 from the General Fund, \$9,256,500 from the Motor Vehicle Account in the State Transportation Fund, \$263,000 from the State Highway Account in the State Transportation Fund, and \$1,730,500 from the Motor Vehicle License Fee Account in the Transportation Tax Fund to the Attorney General to pay judgments, settlements, and interest claims in accordance with specified schedules. It would appropriate \$7,926,000 from the Motor Vehicle Account in the State Transportation Fund to the Department of Motor Vehicles to pay a specified settlement claim. It would also reappropriate \$600,000 from an item in the Budget Act of 1999 to the Department of Housing and Community Development to pay a specified settlement claim.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 13 (AB 1740) Committee on Revenue and Taxation. Income taxes: nonresidents.

The Personal Income Tax Law provides for specified treatment and calculations with respect to the taxation of the income of nonresidents and part-year residents.

This bill would provide that in calculating the taxable income of a nonresident or part-year resident, the calculation of prior year items is to be made as if the nonresident or part-year resident, for the period of nonresidency, was a nonresident for all prior years, would correct a cross-reference, and would waive estimated penalties in connection thereto. This bill would also change a cross-reference relating to adjusted gross income in connection with the child and dependent care tax credit.

The Personal Income Tax Law imposes a penalty on a taxpayer who fails to file a return on or before a prescribed due date, unless the failure is due to reasonable cause and not due to willful neglect.

This bill would provide that the late filing penalty is presumed not to apply if the taxpayer filed a federal return after its due date, the Franchise Tax Board proposes a deficiency based upon a final federal determination, and the Internal Revenue Service abates the federal late filing penalty based upon reasonable cause.

This bill would result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require for passage the approval of  $\frac{2}{3}$  of the membership of each house of the Legislature.

This bill would take effect immediately as a tax levy.

Ch. 14 (AB 371) La Suer. Blood tests.

Under existing law, only specified medical and laboratory personnel may withdraw blood for purposes of testing its alcoholic content at the request of a peace officer. These personnel include unlicensed laboratory personnel regulated under specified existing laws that provide for and determine the required qualifications for a category of “certified phlebotomy technicians.” In the context of clinical laboratory work, certified phlebotomy technicians generally may not withdraw blood unless supervised by a physically available physician and surgeon, nurse, or clinical laboratory licensee.

This bill would permit a person who has been issued a “certified phlebotomy technician” certificate to withdraw blood in certain locations, following policies and procedures approved by a physician and surgeon and with general supervision, as defined, at the direction and in the presence of a peace officer, for forensic purposes, regardless of whether the person is employed by a clinical laboratory.

This bill would also incorporate additional changes in Section 1246 of the Business and Professions Code proposed by AB 1087, that would become operative only if AB 1087 and this bill are both enacted and become effective on or before January 1, 2005, and this bill is enacted last.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 15 (SB 976) Ducheny. Budget Act of 2002.

The Budget Act of 2002 (Chapter 379 of the Statutes of 2002) makes appropriations for the support of state government during the 2002–03 fiscal year.

This bill would amend the Budget Act of 2002 by reverting a specified amount from the Harbors and Watercraft Revolving Fund to the Public Beach Restoration Fund and authorizing the transfer of the moneys for expenditure pursuant to the California Public Beach Restoration Act.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 16 (SB 1086) Sher. Conflicts of interest.

(1) Existing law prohibits certain public officials and employees from being financially interested in any contract made by them in their official capacity, or by any body or board of which they are members. An officer is not deemed to be interested in a contract entered into by a body or board of which the officer is a member if the member has only a remote interest in the contract and other requirements are met. A remote interest is defined to include that of an officer or an employee of a nonprofit corporation.

This bill would, in addition, include within the definition of a remote interest, that of an officer or an employee of a nonprofit entity exempt from taxation pursuant to Section 501(c)(3) of the Internal Revenue Code.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 17 (AB 971) Correa. Deferred deposit transactions.

Existing law makes the California Deferred Deposit Transaction Law, except for specified provisions, operative on March 1, 2004, and regulates persons engaged in the business of making or negotiating deferred deposit transactions. Existing law also makes certain provisions of law regulating check cashers inoperative on March 1, 2004.

This bill would extend the dates on which these provisions become operative and inoperative to December 31, 2004. However, the bill would authorize the Governor to issue an executive order to make these provisions operative and inoperative at a date earlier than December 31, 2004, if the earlier date is not less than 30 days after the issuance of the executive order. The bill would make related changes.

This bill would declare that it is to take effect immediately as an urgency statute.

**Ch. 18 (AB 1087) Frommer. Venipuncture.**

Existing law provides that an unlicensed person employed by a licensed clinical laboratory may perform venipuncture or skin puncture for specified purposes upon specific authorization from a licensed physician and surgeon if he or she meets specified requirements, including any required certification.

This bill would provide, in addition, that a person who has obtained certification as a "certified phlebotomy technician" may perform venipuncture or skin puncture to obtain a specimen for nondiagnostic tests, for insurance purposes, with general supervision, as defined. The bill would require that records documenting the procedure be available to the State Department of Health Services upon request.

This bill would also incorporate additional changes in Section 1246 of the Business and Professions Code proposed by AB 371 that would become operative only if AB 371 and this bill are both enacted and become effective on or before January 1, 2005, and this bill is enacted last.

The bill would declare that it is to take effect immediately as an urgency statute.

**Ch. 19 (AB 1108) Bermudez. Child custody: drug testing.**

Existing law requires a court to consider the habitual or continual illegal use of controlled substances, as defined, or continual use of alcohol by either parent in making a determination of the best interest of a child in child custody proceedings.

This bill would, until January 1, 2008, authorize a court to require any parent who is seeking custody of, or visitation with, a child who is the subject of the proceeding, to undergo testing for the illegal use of controlled substances and the use of alcohol under specified circumstances. The bill would require the court to order the least intrusive method of testing. The bill would require that testing be in conformity with certain federal procedures, would provide that the results of this testing shall be confidential and maintained as a sealed record, and would permit a parent or guardian who is tested to contest the test results at a hearing. The bill would provide for civil sanctions not to exceed \$2,500 for any breach of the confidentiality of the test results. The bill would prohibit the release of the test results to any person except as specified, or for any purpose, except to assist the court in determining the best interest of the child and the content of the order or judgment determining custody or visitation. The bill would authorize the court to order either or both parties to pay the costs of the testing.

The bill would require the Judicial Council to study and evaluate the implementation of the act and to report to the Legislature on or before specified dates.

The bill would declare that it is to take effect immediately as an urgency statute.

**Ch. 20 (AB 44) Pacheco. Dependent children: juvenile court hearings.**

Existing law provides for the notification of various parties regarding juvenile court proceedings to determine, review, revise, or terminate the status of a child as a dependent child of the court. Chapter 416 of the Statutes of 2002, operative January 1, 2003, revised and recast those notice provisions. Chapter 918 of the Statutes of 2002, operative January 1, 2003, did not incorporate those revisions.

This bill would incorporate and reference the revisions in the notice provisions that are contained in Chapter 416 of the Statutes of 2002. The bill would further recast related service of notice provisions to require service of notice at least 30 days, rather than 45 days, before the date of a hearing in cases where publication is ordered. The bill would also permit notice of continuation of specified hearings by any means that the court determines are reasonably calculated to provide notice, or as specified. The bill would make other nonsubstantive, technical changes to these provisions.

Because this bill would increase the duties of local social workers and probation officers, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 21 (AB 97) Nation. Public schools.

(1) Existing law requires each person between the ages of 6 and 18 years, not otherwise exempt, to attend the public full-time day school in the district in which their parent or guardian is a resident.

This bill would authorize the governing board of any school district to admit pupils residing in another school district to attend any school in that district, as specified. The bill would authorize each school district that elects to accept transfers to adopt a resolution to determine the number of transfers it will accept and to ensure that the pupils admitted under the policy are selected through a random, unbiased selection process.

The bill would authorize the district of residence or the district of choice to prohibit a transfer upon a determination that the transfer would negatively impact that district's court-ordered or voluntary desegregation plan or that district's racial and ethnic balance and would place additional conditions upon the administration of the transfers. The bill would authorize districts of residence to limit the number of pupils newly transferring out each year, as specified.

The bill would require that an application for transfer be submitted by January 1 of the school year preceding the school year for which the pupil is to be transferred, unless the deadline is waived.

The bill would authorize a school district that has elected to accept transfer pupils to approve or reject each application for transfer between districts within 90 days after receiving the application. This bill would require that transfers be granted for the entire school year and be automatically renewed for each succeeding year, unless the school district of choice, through the adoption of a resolution, withdraws from participation in the program and no longer accepts any transfer pupils from other districts. The bill would also specify that high school transfers would be automatically renewed even if a school district of choice withdraws from participation in the program. The bill would permit school districts of choice to revoke the transfer of any pupil who is recommended for expulsion.

The bill would credit the district of choice, as to pupils admitted to a school district under this authority, with a corresponding increase in average daily attendance for state apportionment purposes and for purposes of certain computations under the Leroy F. Greene State School Building Lease-Purchase Law of 1976, including computations affecting allowable building area for school construction projects. The bill would require that state aid for categorical education programs for the pupil be apportioned to the school district of choice. The bill would authorize the admitting district, at the request of the pupil's parent or guardian, to provide pupil transportation within the district, to the extent the district otherwise provides transportation assistance to pupils.

The bill would authorize each school district to annually report to the Superintendent of Public Instruction regarding pupil applications and transfers between districts pursuant to the above authority and would require the superintendent to summarize and report that information to the Legislature.

The bill would repeal those provisions on July 1, 2008.

(2) Existing law, in order to recognize the distribution of pupils with severe and costly disabilities among special education local plan areas, requires the State Department of

Education, in conjunction with the Office of the Legislative Analyst, to calculate an incidence multiplier for each special education local plan area and requires the Department of Finance to approve the final incidence multiplier for each special education local plan area. Existing law requires the Superintendent of Public Instruction to calculate in the 1998–99 fiscal year and each fiscal year thereafter to and including the 2002–03 fiscal year, an adjusted entitlement for the incidence of disabilities for each special education local plan area using the incidence multiplier for each special education local plan area, as specified.

This bill would extend the requirement that the superintendent perform that calculation, as specified, through the 2003–04 fiscal year.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 22 (AB 1153) Bermudez. Crime.

Existing law provides that any person, other than an officer or member of a fire department, who willfully wears, exhibits, or uses, among other things, the authorized badge, of an officer or member of a fire department or a deputy state fire marshal, with the intent of fraudulently personating an officer or member of a fire department or the Office of the State Fire Marshal, or of fraudulently inducing the belief that he or she is an officer or member of a fire department or the Office of the State Fire Marshal, is guilty of a misdemeanor.

This bill would revise the provisions to delete the reference to the badge, and instead, make the provisions applicable to a uniform. The bill would also provide that use of the badge, or use of a badge that falsely purports to be authorized for that use, as specified, in the manner described, would be a misdemeanor punishable by imprisonment in a county jail not to exceed one year, or by a fine not exceeding \$2,000, or by both imprisonment and the fine.

Existing law provides that a person who willfully makes or sells any badge which falsely purports to be authorized for the use of a peace officer, or which so resembles the authorized badge of a peace officer, as specified, is guilty of a misdemeanor punishable by imprisonment in a county jail for a period not exceeding one year, a fine not exceeding \$15,000, or both that imprisonment and fine.

This bill would provide that any person who willfully makes or sells any badge which falsely purports to be authorized for use as an authorized badge of, or which so resembles the authorized badge of, an officer or member of a fire department or deputy state fire marshal, as specified, is guilty of a misdemeanor punishable by a fine not exceeding \$15,000. This bill would provide exceptions to these provisions for the use of a badge, as specified.

Existing law provides that any person, other than one who is a peace officer or an officer or member of a fire department, who willfully wears, exhibits, or uses a badge, insignia, emblem, certificate, card, or writing of a peace officer or of an officer or member of a fire department, with specified intent, or any person who does the same with respect to any badge, insignia, emblem, certificate, card, or writing which falsely purports to be authorized for the use of one who by law is given the authority of a peace officer or of an officer or member of a fire department, or which so resembles such an item, is guilty of a misdemeanor.

This bill would provide that any person, other than one who is a state, county, city, special district, or city and county officer or employee, who willfully wears or uses a badge, photographic identification card, or insignia of a state, county, city, special district, or city and county officer or employee, with specified intent, is guilty of a misdemeanor.

The bill would provide that any person who willfully wears, exhibits, or uses any badge, photograph identification card, or insignia of those entities which falsely purports to be for the use of those entities, or so resembles the authorized item of those entities, is guilty of a misdemeanor, provided however, that any person who makes or sells any badge under the described circumstances is guilty of a misdemeanor and subject to a fine not to exceed \$15,000.

Because this bill would change the definition of a crime, and would create a new crime, it would impose a state-mandated local program. This bill would declare that it is to take effect immediately as an urgency statute.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 23 (SB 1041) Committee on Budget and Fiscal Review. Budget Act of 2003.

The Budget Act of 2003 (Chapter 157 of the Statutes of 2003), made appropriations for the support of state government during the 2003–04 fiscal year.

This bill would amend the Budget Act of 2003 by revising various items of appropriations, as specified, and authorizing the Director of Finance to revert additional amounts from specified funds to the General Fund.

This bill would provide that it is to take effect immediately as an urgency statute.

Ch. 24 (SB 1057) Committee on Budget and Fiscal Review. Vehicle license fees.

The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state in the amount of 2% of the market value of that vehicle, as specified. The VLF Law offsets this amount by 67.5% for vehicle license fees with a final due date on or after July 1, 2001. Existing law requires the Controller, upon receipt of monthly notification from the Department of Motor Vehicles, to transfer, into the Motor Vehicle License Fee Account in the Transportation Tax Fund and into the Local Revenue Fund, an amount equal to those amounts necessary to reimburse local governments for losses resulting from the VLF offset. Existing law limits the amount of moneys available for reimbursement to local governments during the 2003–04 fiscal year to \$1,000.

Existing law also requires the VLF offset to be proportionately reduced within 90 days of a finding that there are insufficient moneys available to be transferred from the General Fund to fully fund the vehicle license fee offset. The vehicle license fee offset was scheduled to be reduced to zero for the period beginning on and after October 1, 2003, based on a finding made during the 2002–03 fiscal year that insufficient moneys were available to fund the vehicle license fee offset. On November 17, 2003, that finding of insufficient moneys available to fully fund the vehicle license fee offset was rescinded by executive order.

Existing law requires the Controller, no later than August 15, 2006, to transfer, into the Motor Vehicle License Fee Account in the Transportation Tax Fund, an amount equal to moneys that were not transferred into that account to reimburse local governments for the losses during the 2003–04 fiscal year after the finding that insufficient moneys were available to be transferred from the General Fund to fully fund the vehicle license fee offset. Existing law requires moneys that are later transferred to be allocated from that account in the manner otherwise specified by law. Existing law also authorizes the Controller, with the approval of the Department of Finance, to advance to any county or city that entity's share of the vehicle license fee revenues that would otherwise be transferred no later than August 15, 2006, if that entity is able to demonstrate that it will experience a hardship, as defined, if the advance is not made.

This bill would instead require the Controller to make the transfer into the Motor Vehicle License Fee Account in the Transportation Tax Fund on August 15, 2006, and would specify that the transfer equal an amount that would have been transferred into the Local Revenue Fund, but for the operation of a specified limitation in the 2003–04 Budget Act. This bill would authorize the Controller to make that transfer prior to August 15, 2006, only if authorized by the Legislature. This bill would appropriate the amount of \$20,365,000 from the General Fund to the Motor Vehicle License Fee Account in the Transportation Tax Fund for the purpose of funding advances to any county or city that is able to demonstrate that it will experience a hardship if that advance is not made.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 25 (AB 1498) Wiggins. State Assistance Fund for Enterprise, Business, and Industrial Development Corporation.

(1) Existing law creates the nonprofit State Assistance Fund for Enterprise, Business, and Industrial Development Corporation. Existing law establishes a 7-member board of directors of the corporation. Official and public directors of the board serve without compensation but may receive per diem payment of up to \$50 per calendar day. Existing law authorizes the board to consider and adopt rules for the acceptance of grants if, among other things, the primary purpose of a grant administered by the corporation is to assist the development of the alternative energy industry in this state.

This bill would revise the membership of the board. The bill would change the per diem amount available to directors to the rate established by the state. The bill would delete the requirement that grants considered for acceptance by the board be for the primary purpose of assisting the development of the alternative energy industry in this state. The bill would repeal various provisions relating to alternative energy research and make related changes.

(2) The Public Employees' Retirement Law authorizes various public agencies, as defined, to enter into contracts for participation in the Public Employees' Retirement System, upon obtaining a specified advisory opinion from the United States Department of Labor.

This bill would authorize the State Assistance Fund for Enterprise, Business, and Industrial Development Corporation to enter into a contract for participation in the system upon obtaining that advisory opinion. Contributions are deposited in the Public Employees' Retirement Fund, a continuously appropriated fund. By increasing member contributions to that fund, the bill would make an appropriation.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 26 (AB 806) Wiggins. State contracts: personal services.

Existing law permits state agencies to enter into personal services contracts when certain conditions are met. These conditions include requiring a state agency that enters into a personal services contract for janitorial and housekeeping services, custodians, food service workers, laundry workers, window cleaners, and security guards to include provisions for employee benefits that are valued at least 85% of the state's cost of providing comparable benefits to state employees performing similar duties. For these purposes, existing law defines "benefits" to include health, dental, and vision benefits.

Effective July 1, 2003, existing law (1) requires that state contracts for these types of services also include provisions for employee wages to be valued at least 85% of the wages provided to state employees performing similar duties, (2) defines "benefits" as also including retirement benefits, holiday pay, sick pay, and vacation pay, as provided, and (3) applies these provisions to wages and benefits of employees of subcontractors providing these services in state-leased facilities where the facility is at least 50,000 square feet in area and the state leases all of the occupied floorspace, as defined, of the facility.

This bill, with the exception of the requirements with respect to holiday pay provisions, would exclude from these requirements contracts that are performed by employees of nonprofit organizations that are employed pursuant to a specified license, certificate, community rehabilitation plan, or a habilitation services program.

This bill would take effect immediately as an urgency statute.

Ch. 27 (AB 1195) Cohn. Midpeninsula Regional Open Space District: annexation project: eminent domain.

(1) Existing law establishes procedures for the formation of park and open-space districts, and prescribes the powers, functions and duties of those districts. Existing law authorizes a district to take by grant, appropriation, purchase, gift, devise, condemnation, or lease, and to hold, use, enjoy, and lease or dispose of real personal property of every kind, and rights in real and personal property within or without the district, to the full extent of its powers.

This bill would, notwithstanding those provisions, prohibit the Midpeninsula Regional Open Space District from exercising the power of eminent domain to acquire any real property or interest in real property in the San Mateo County Coastal Annexation Area, as defined in a specified resolution adopted by the board of directors of the district. The bill would make legislative findings and declarations with respect to the need for special legislation in the district.

(2) The bill would declare that it is to take effect immediately, as an urgency statute.

Ch. 28 (SB 31) Perata. Deferred deposit transactions.

Existing law, enacted by Chapter 17 of the Statutes of 2004, regulates the fees that may be imposed by check cashers for cashing payroll checks and government checks and for setting up initial accounts and issuing optional identification cards for providing check cashing services. Existing law, enacted by Chapter 17 of the Statutes of 2004, makes these provisions operative and inoperative on December 31, 2004, except that it authorizes the Governor to issue an executive order to make the provisions operative at an earlier date if certain conditions are met.

This bill would revise these provisions to prohibit, until December 31, 2004, a check casher from, commencing March 15, 2004, charging a \$10 fee to set up an initial account and issue an optional identification card for providing check cashing services. The bill would also authorize the Governor to issue an executive order to make these provisions operative and inoperative at a date earlier than December 31, 2004, if the date is not less than 30 days after the issuance of the executive order.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 29 (SB 1091) Committee on Local Government. Validations.

This bill would enact the First Validating Act of 2004, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 30 (AB 1306) Leno. Probation: transfer of cases.

Existing law sets forth procedures under which a person released upon probation may be transferred to the care and custody of the probation officer of another county.

This bill would provide special probation transfer procedures for people on probation under the initiative provisions relating to controlled substance possession and similar charges. Once transferred, the probationer would be under the jurisdiction of the court in the new county for all purposes, including probation supervision and treatment.

By requiring a county to accept a transfer of probation in certain circumstances, thereby obligating that county to provide supervision and treatment, and to address violations of probation with prosecution and other resources, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 31 (AB 1786) Cogdill. Public officers.

Existing law prohibits an officer of a county or judicial district from being absent from the state for more than 2 months without the consent of the board of supervisors, with the written

approval of the Governor, and prohibits the absence from continuing for a period exceeding 6 months in any one year. Existing law also authorizes the governing body of any local agency to grant an employee a leave of absence without pay, to accept a temporary position with the United States Government for service in a foreign country in a technical cooperation program.

This bill would authorize the Calaveras County Board of Supervisors to grant the county sheriff a leave of absence without salary, not to exceed one year, to participate in the United States Department of State International Police Mission in Iraq.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 32 (SB 279) Chesbro. Public postsecondary education: excuse of tuition and fees.

Existing law requires the Regents of the University of California, the Board of Directors of the Hastings College of the Law, and the Trustees of the California State University to excuse the mandatory systemwide tuition and fees of any surviving spouse or surviving child, natural or adopted, of a deceased person who was a resident of the state, who was employed by a public agency, as defined, whose principal duties consisted of active law enforcement service or active fire suppression and prevention, and who was killed in the performance of active law enforcement or active fire suppression and prevention duties. Until January 1, 2004, this provision also applied to the surviving spouse or surviving child of a person who died while performing these duties, and who was employed as a contractor, or as an employee of a contractor, performing services for a public agency, as defined. This provision is applicable to the Regents of the University of California only if the regents, by resolution, make it applicable.

This bill would once more extend the application of this provision to the surviving spouse or surviving child of a contractor, or an employee of a contractor, as defined, performing services for a public agency. The bill would require that a surviving child of a contractor, or of an employee of a contractor, be enrolled as an undergraduate student at a campus of the University of California or the California State University and document that his or her annual income, including the value of any support received from a parent, does not exceed the maximum household income and asset level, as defined, for an applicant for a Cal Grant B award.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 33 (AB 1467) Negrete McLeod. Dentist licensure requirements: Joint Committee on Boards, Commissions, and Consumer Protection.

(1) Existing law provides for the licensing and regulation of dental professionals by the Dental Board of California, in the Department of Consumer Affairs. Under existing law, a person who has been issued a degree of doctor of dental medicine or doctor of dental surgery by a foreign dental school not approved by the board is eligible for the dental licensure examination if he or she has met specified requirements, including completing at least 2 academic years of education at an approved dental school.

This bill would instead apply these requirements to graduates whose degree is issued by a foreign dental school that is neither approved by the board nor accredited by a body that has a reciprocal accreditation agreement with a commission or accreditation organization whose findings are accepted by the board. The bill would except from the requirements applicants who have passed Parts I and II of the National Board of Dental Examiners' examination by December 31, 2003, have provided those results to the board within a specified time period, and have passed a restorative technique examination by January 1, 2009. The bill would require applications for the restorative technique examination to be submitted by mail, and would provide that an applicant who fails to pass the restorative techniques examination after 4 attempts is not eligible to retake the restorative technique examination.

The bill would require an applicant seeking to take the restorative technique examination again to meet certain requirements and would provide that failure to appear for the examination without good cause constitutes a failure to pass.

(2) Existing law establishes the Joint Legislative Sunset Review Committee and, until January 1, 2012, requires the committee to hold public hearings and evaluate whether a board or regulatory program has demonstrated a need for its continued existence.

This bill would change the name of the committee to the Joint Committee on Boards, Commissions, and Consumer Protection.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 34 (SB 899) Poochigian. Workers' compensation.

Existing workers' compensation law generally requires employers to secure the payment of workers' compensation, including medical treatment, for injuries incurred by their employees that arise out of, or in the course of, employment.

Existing law establishes the Workers' Compensation Administration Revolving Fund as a special account in the State Treasury and moneys in the fund may be expended by the Department of Industrial Relations, upon appropriation by the Legislature, for the administration of the workers' compensation program.

This bill would expand the purposes for which money in the fund may be used to include the Return-to-Work Program.

Existing law requires that 80% of the costs of the program be borne by the General Fund and 20% of the costs of the program be borne by the employers through assessments levied by the Director of Industrial Relations.

This bill would instead refer to the assessments as surcharges and require that these employer surcharges account for the total costs of the program.

Existing law requires the Administrative Director of the Division of Workers' Compensation to conduct a study of medical treatment provided to workers who have sustained industrial injuries and illnesses.

This bill would require the administrative director, after consultation with the Insurance Commissioner, to contract with a qualified organization to study the 2003 and 2004 legislative reforms on insurance rates. It would require insurers to submit to the contracting organization information, as established by the contracting organization, at least quarterly and annually. It would require the study to be submitted to the Governor, the Insurance Commissioner, and the Legislature on or before January 1, 2006. The bill would require the Governor and the Insurance Commissioner to review the study, make recommendations, and permit them to submit proposals to the Legislature if they make certain determinations. It would require insurers to bear up to \$1,000,000 of the cost of the study.

Existing law requires the administrative director to appoint qualified medical evaluators in each of the respective specialties as required for the evaluation of medical-legal issues. Existing law further requires the administrative director to adopt regulations concerning procedures to be followed by all qualified medical evaluators in evaluating the existence and extent of permanent impairment and limitations resulting from the injury, and specifies the factors upon which these evaluations are to be based.

This bill would delete these factors and would require that the evaluations be conducted in a manner consistent with other specified standards.

Existing law permits aggrieved employees to bring civil actions to recover penalties for violations of the Labor Code, but does not alter the exclusive remedy provided by the workers' compensation provisions of the code.

This bill would provide that the right to recover these penalties does not apply to the recovery of penalties in connection with the workers' compensation provisions of the code.

Existing law requires the administrative director to adopt regulations regarding procedures governing the determination of any disputed medical issues.

This bill would require that these procedures be consistent with standards used in connection with the medical treatment utilization schedule adopted by the administrative director.

Existing law, until January 1, 2009, requires the administrative director to establish the Return-to-Work Program in order to promote the early and sustained return to work of the employee following a work-related injury, and to pay a wage reimbursement, workplace modification expense reimbursement, and premium reimbursement to an employer that employs 100 or fewer employees, if certain conditions are met.

This bill would eliminate the payment of wage reimbursement and premium reimbursement from the program. The bill would instead make reimbursements under the program available, to the extent funds are available, for an eligible employer, as defined.

Existing law establishes the Workers' Compensation Return-to-Work Fund as a special fund in the State Treasury, moneys from which may be expended by the administrative director, upon appropriation by the Legislature, only for purposes of making the above reimbursements.

This bill would provide that the fund shall consist of certain penalties imposed in connection with delayed or refused compensation payments and transfers made by the administrative director from the Workers' Compensation Administration Revolving Fund.

Existing law, until January 1, 2004, required the administrative director to establish a vocational rehabilitation unit to perform duties in connection with vocational rehabilitation services, and provided that when an employee was determined to be medically eligible and chose to participate in a vocational rehabilitation program, he or she would continue to receive temporary disability benefits, a maintenance allowance, and additional living expenses. Chapter 639 of the Statutes of 2003, which became effective on January 1, 2004, eliminated vocational rehabilitation as part of the workers' compensation system.

This bill, until January 1, 2009, would reenact the above provisions relating to vocational rehabilitation for employees injured prior to January 1, 2004.

Existing law requires any insurer, self-insured employer, 3rd-party administrator, workers' compensation administrative law judge, audit unit, attorney, or other person that believes that a fraudulent claim has been made by any person or entity providing medical care to report the apparent fraudulent claim.

This bill would prohibit any person making such a report in good faith from being subject to any civil liability.

Existing law authorizes collective bargaining agreements between a private employer or groups of employers engaged in construction-related activities and a recognized or certified exclusive bargaining representative that establishes a dispute resolution process for workers' compensation instead of the hearing before the Workers' Compensation Appeals Board and its workers' compensation administrative law judges, or that provides for other alternative workers' compensation programs. Existing law also authorizes similar dispute resolution provisions contained in labor-management agreements.

This bill would authorize parties to these agreements to negotiate any aspect of the delivery of medical benefits and the delivery of disability compensation to the employees who are eligible for health care coverage for nonoccupational injuries and illnesses through their employer. It would also require the Commission on Health and Safety and Workers' Compensation, on or before June 30, 2006, and annually thereafter, to prepare and publish a report in connection with these provisions.

Existing law requires that workers' compensation provisions be liberally construed by the courts with the purpose of extending their benefits for the protection of persons injured in the course of their employment.

Existing law prohibits this provision from being construed as relieving a party or a lien claimant from meeting the evidentiary burden of proof by a preponderance of the evidence.

This bill would repeal this provision and instead would require that all parties and lien claimants shall meet the evidentiary burden of proof on all issues by a preponderance of the evidence in order that all parties are considered equal before the law.

Existing law establishes procedures for the resolution of disputes regarding the compensability of an injury. Existing law also establishes procedures, including procedures regarding the selection of agreed and qualified medical evaluators, that apply if the parties do not agree to a permanent disability rating based on the treating physician's evaluation and the employee is represented by an attorney, as well as when the employee is not represented by an attorney.

This bill would revise and recast these provisions.

Existing law provides that regardless of the date of injury, if the employee has been treated by his or her personal physician, no presumption of correctness shall apply to the opinion of that physician on the issue of extent and scope of medical treatment, either prior or subsequent to the issuance of an award, unless the physician or chiropractor was predesignated prior to the date of injury, in which case the opinion of that physician or chiropractor is presumed to be correct.

This bill would repeal this presumption. It would also revise provisions in connection with the predesignation of a physician prior to injury.

Existing law generally provides for the reimbursement of medical providers for services rendered in connection with the treatment of a worker's injury.

This bill would limit the amounts paid for these services to the reasonable maximum amounts in the official medical fee schedule in effect on the date of service.

Existing law requires an employer to provide all medical services reasonably required to cure or relieve the injured worker from the effects of the injury.

This bill would define medical treatment that is reasonably required to cure or relieve the injured worker from the effects of the injury.

Existing law permits an employee, after 30 days from the date the injury is reported, to be treated by a physician of his or her own choice or at a facility of his or her own choice within a reasonable geographic distance.

This bill, instead, would authorize the employee to be treated by a physician or at a facility of his or her own choice under these provisions if the employer has not established a medical provider network.

This bill would authorize an insurer or employer, as defined, on or after January 1, 2005, to establish a medical provider network for the provision of medical treatment to injured employees, and would require the administrative director to approve the plans for these medical provider networks. The bill would require an injured employee to select a physician from the provider network to provide treatment for the injury. The bill would permit an employee to obtain 2nd and 3rd opinions regarding treatment from physicians within the network and would establish an independent medical review process to resolve disputes regarding whether the treatment is medically necessary.

Existing law provides that upon adoption by the administrative director of a medical treatment utilization schedule, the recommended guidelines set forth in the schedule create a rebuttable presumption of correctness on the issue and extent and scope of medical treatment of a worker's injuries.

This bill would provide that the presumption may be controverted by a preponderance of the scientific medical evidence and would provide that the presumption is one affecting the burden of proof.

Existing law further requires that the recommended guidelines set forth in the medical treatment utilization schedule reflect practices as generally accepted by the health care community.

This bill instead would require that the guidelines be evidence and scientifically based, nationally recognized, and peer-reviewed.

Existing law provides that until the medical treatment utilization schedule is adopted by the administrative director, the guidelines set forth in the American College of Occupational and Environmental Medicine's Occupational Medicine Practice Guidelines shall be presumptively correct on the issue of extent and scope of medical treatment.

This bill would provide that this presumption is applicable regardless of the date of injury.

Existing law provides that for injuries occurring on and after January 1, 2004, an employee shall be entitled to no more than 24 chiropractic and 24 physical therapy visits per industrial injury.

This bill would similarly provide that an employee shall be entitled to no more than 24 occupational therapy visits per industrial injury.

Existing law prohibits aggregate disability payments for a single injury occurring on or after January 1, 1979, causing temporary partial disability, from extending for more than 240 compensable weeks within a period of 5 years from the date of injury.

This bill would instead prohibit aggregate disability payments for a single injury occurring on or after the effective date of this bill, causing temporary disability, from extending for more than 104 compensable weeks within a period of 2 years from the date of commencement of temporary disability payment, except if an employee suffers from certain injuries or conditions.

Existing workers' compensation law authorizes the administrative director to prepare, adopt, and from time to time amend a schedule for the determination of the percentage of permanent disabilities in accordance with specified provisions.

This bill would require, rather than authorize, the administrative director to amend the schedule at least once every 5 years. The bill would provide that the schedule as revised pursuant to changes made in legislation enacted during the 2003-04 Regular and Extraordinary Sessions would apply to comparable compensable claims arising before January 1, 2005, under certain circumstances. It also would require the schedule to promote consistency, uniformity, and objectivity.

Existing law provides that when determining the percentages of permanent disability, account shall be taken of various factors, including the nature of the physical injury or disfigurement and with consideration being given to the diminished ability of the injured employee to compete in an open labor market.

This bill would eliminate the requirement to consider the ability of the injured employee to compete in the open labor market and, instead, would require that consideration be given to an employee's diminished future earning capacity, which would be a numeric formula based on criteria established by the bill. The bill would require the nature of the physical injury or disfigurement to incorporate descriptions and measurements contained in a specific publication of the American Medical Association. It would also require the administrative director to formulate the adjusted rating schedule based on empirical data and findings contained in a specified report, and to adopt regulations, on or before January 1, 2005, to implement the changes made to these provisions by this bill.

Existing law provides that when the extent of permanent disability cannot be determined at the date of last payment of temporary disability indemnity, the employer nevertheless shall commence and continue to make the timely payment of permanent disability until the employer's reasonable estimate of permanent disability indemnity due has been paid.

This bill would instead require the employer to commence and continue the timely payment of permanent disability indemnity based on a reasonable estimate of the amount due at the end of the period for the payment of temporary disability indemnity specified above, regardless of whether the extent of permanent disability can be determined at that date.

Existing law provides a schedule containing the method for the computation of permanent disability benefits.

This bill would establish the schedule for the computation of these benefits, for injuries occurring on or after the effective date of the revised permanent disability schedule adopted by the administrative director pursuant to this bill, with the amounts under the schedule to

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

be increased by 15% if, within 60 days of the disability becoming permanent and stationary, the employee is offered regular work, modified work, or alternative work, as defined, that lasts at least 12 months. The bill would provide that this schedule for permanent disability payments also would apply to compensable claims arising before April 30, 2004, under certain circumstances. The bill would exempt employers that employ fewer than 50 employees from the above provisions of the schedule.

Existing law contains provisions with respect to the apportionment of permanent disability in connection with an employee's injury or condition.

This bill would repeal and recast these provisions. This bill would additionally require any physician who prepares a report addressing the issue of permanent disability due to a claimed industrial injury to address the issue of causation of the disability. It would also require an employee who claims an industrial injury to disclose, upon request, all previous permanent disabilities or physical impairments, and would impose limits on the percentage of permanent disability an employee may receive.

Existing law provides for the filing of a claim form by the injured employee with the employer and also provides that if liability is not rejected within 90 days after that form is filed, the injury is presumed compensable.

This bill would provide that within one working day after an employee files a claim form, the employer shall authorize the provision of treatment, for the alleged injury and shall continue to provide the treatment until the date that liability for the claim is accepted or rejected. It would, however, limit liability for medical treatment to \$10,000 until the date the claim is accepted or rejected.

Existing law provides that when payment has been unreasonably delayed or refused, the full amount of the order, decision, or award shall be increased by 10%.

This bill would make these provisions inoperative on June 1, 2004, and repeal them as of January 1, 2005. The bill would, instead, commencing June 1, 2004, prescribe procedures under which, when the payment of compensation has been unreasonably delayed or refused, the amount of the payment unreasonably delayed or refused shall be increased up to 25% or \$10,000, whichever is less. The bill would provide that these provisions shall apply to all injuries, without regard to the date of the injury. It would permit an employer to pay a self-imposed penalty in lieu of the penalty that may be awarded by the appeals board.

The bill would provide that any employer or insurer that knowingly delays or refuses to pay compensation with a frequency that indicates a general business practice is liable for administrative penalties of not to exceed \$400,000, which would be deposited in the Return-to-Work Fund.

Existing law authorizes the Workers' Compensation Appeals Board to receive as evidence and use as proof of any fact in dispute various reports, statements, publications, and medical treatment protocols. Existing law requires the administrative director to adopt guidelines for use in the medical treatment utilization schedule.

This bill would authorize the appeals board to receive as evidence the medical treatment utilization guidelines or the medical treatment utilization guidelines adopted by the administrative director.

Existing law requires every employer to establish, implement, and maintain an effective injury prevention program. Existing law also authorizes an employer to adopt the Model Injury and Illness Prevention Program for Non-High-Hazard Employment and the Model Injury and Illness Prevention Program for Employers in Industries with Intermittent Employment, developed by the Division of Occupational Safety and Health. Existing law requires every workers' compensation insurer to conduct a review of these injury and illness prevention programs of each of its insureds within 4 months of the commencement of the initial insurance policy term.

This bill would instead require any workers' compensation insurer to conduct a review of these programs of each of its insureds with an experience modification of 2.0 or greater to

determine whether the insured has implemented all of the required components within 6 months of the commencement of the initial insurance policy term.

The bill would also make various conforming changes.

This bill would declare that it would take effect immediately as an urgency statute.

Ch. 35 (SB 678) Ortiz. Bioterrorism preparedness: federal funding.

Existing law establishes procedures and requirements to govern the allocation to, and expenditure by, local health jurisdictions of federal funding received for the prevention of, and response to, bioterrorist attacks and other public health emergencies. Existing law provides that these procedures apply only when local health jurisdictions are designated by a federal or state agency to manage the funds for public health preparedness and response to bioterrorist attacks and other public health emergencies, pursuant to a specified federally approved plan.

Existing law also provides that federal funding received by the State Department of Health Services for bioterrorism preparedness and emergency response is subject to appropriation in the annual Budget Act commencing with the 2003–04 fiscal year.

Existing law also contains separate provisions that are substantially similar to those described above.

This bill would revise the provisions relating to the allocation and expenditure of federal bioterrorism preparedness funds, and would delete the similar provisions of existing law. The bill would appropriate \$18,145,889 from the Federal Trust Fund to the department, \$6,462,287 of which would be used for hospital bioterrorism preparedness in accordance with federal guidelines, and \$11,683,602 of which would be used for implementing the above provisions of existing law, including making appropriated funds available for smallpox preparedness costs, in accordance with the federally approved state-local plan for allocation and expenditure of these funds.

The bill would deem moneys made available in the 2003–04 Budget Act for bioterrorism preparedness available for expenditure and encumbrance until August 30, 2005.

This bill would authorize the department to use federal funds received from the Centers for Disease Control and Prevention and appropriated to the department to enter into contracts for the purpose of meeting the federally approved bioterrorism plan. The bill would exempt these contracts, as well as agreements for purposes of hospital bioterrorism preparedness, from provisions of existing law relating to contracting by state agencies.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 36 (AB 691) Daucher. Nursing facilities: vaccines.

Under existing law, the State Department of Health Services is responsible for the licensure and regulation of health facilities, including skilled nursing facilities and intermediate care facilities, as defined.

Under existing law, the department also has responsibilities relating to the prevention and control of communicable diseases by various means, including requiring immunization by vaccine for various populations.

This bill would require a skilled nursing facility, an intermediate care facility, or a nursing facility, as defined, to offer immunizations for influenza and pneumococcal disease to its residents, aged 65 years or older, between October 1 and April 1 of each year, and to offer pneumococcal vaccine to all new admittees. The bill would require that the facility be reimbursed the standard Medi-Cal rate for vaccines provided to Medi-Cal recipients, except under specified circumstances. The bill would require the facility to obtain informed consent for the immunization services from the resident or, if the person lacks the capacity to make medical decisions, for the person legally authorized to make medical decisions on the resident's behalf.

This bill would specify circumstances under which the immunizations may not be administered to a resident, and circumstances under which the facility shall not be required

to provide the immunization services required by the bill. The bill would provide that if a health care facility fails to offer an immunization pursuant to the bill due to lack of availability of vaccine, or due to the physician's or resident's refusal or lack of cooperation, the failure shall not be the basis for issuing a deficiency or citation against the facility's license. The bill would authorize the department to issue a deficiency or citation for failure to comply with provisions of the bill relating to resident evaluation and consent procedures.

Ch. 37 (AB 1457) Committee on Budget. Local government financing.

(1) The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state in the amount of 2% of the market value of that vehicle, as specified. Existing law requires the Controller to transfer revenues derived from the vehicle license fees into the Motor Vehicle License Fee Account in the Transportation Tax Fund and into the Local Revenue Fund, as specified.

The VLF Law offsets this amount by 67.5% for vehicle license fees with a final due date on or after July 1, 2001. Existing law requires the Controller, upon receipt of monthly notification from the Department of Motor Vehicles, to transfer, into the Motor Vehicle License Fee Account in the Transportation Tax Fund and into the Local Revenue Fund, an amount equal to those amounts necessary to reimburse local governments for losses resulting from the VLF offset. Existing law limits the amount of moneys available for reimbursement to local governments for those losses resulting from the VLF offset during the 2003–04 fiscal year to \$1,000. Existing law requires the Controller, on August 15, 2006, to transfer an amount equal to those moneys that, as a result of the \$1,000 limitation, were not otherwise transferred into that Transportation Tax Fund and into the Local Revenue Fund to reimburse local governments for the losses resulting from the VLF offset during the 2003–04 fiscal year.

This bill, notwithstanding any other provision of law, would require the Controller, during the 2003–04 fiscal year, to transfer from the General Fund to the credit of the Local Revenue Fund, as specified, an amount equal to the total amount of moneys that would have been transferred from the General Fund to the credit of the Local Revenue Fund had there not been a limitation placed on the amount of moneys available to make those reimbursements during the 2003–04 fiscal year.

This bill would also require the Controller to transfer from the General Fund to the credit of the Local Revenue Fund an additional amount, as necessary, to ensure that the total amounts transferred from the General Fund into that fund during the 2002–03 fiscal year are equal to the amounts that are otherwise required to be transferred into that fund during that same period.

(2) The Controller is required to deposit 24.33% of the revenues collected under the VLF Law in the State Treasury to the credit of the Local Revenue Fund for allocation to cities and counties, as specified. For the 2003–04 fiscal year, that amount was increased to 28.07% of the revenues collected under the VLF Law. Effective March 1, 2004, the provision of law that required the Controller to make the specified deposits of revenues generated under the VLF Law in the State Treasury to the credit of the Local Revenue Fund became inoperative by operation of law on March 1, 2003.

This bill would, notwithstanding any other provision of law, for the period beginning on and after March 1, 2004, and ending on and including July 15, 2004, reinstate the operation of the statutory provision that requires the Controller to make the specified deposits of revenues collected under the VLF Law in the State Treasury to the credit of the Local Revenue Fund. This bill would provide that the total amount of the deposits made to the credit of the Local Revenue Fund during the 2003–04 fiscal year is to be an amount not less than 24.33% of the revenues collected under the VLF Law during that same period.

(3) This bill, by increasing the amount of moneys deposited into the Local Revenue Fund, a continuously appropriated fund, would make an appropriation.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 38 (SB 1051) Committee on Local Government. Vectorborne Disease Account.

Under existing law, the State Department of Health Services is required to certify that imported tires are mosquito free, to charge fees for the certification and examination of vector control technicians, and to deposit these fees in the Mosquitoborne Disease Surveillance Account. Statutory authorization for the Mosquitoborne Disease Surveillance Account was terminated on January 1, 2003.

This bill would change existing law references to the Mosquitoborne Disease Surveillance Account to the Vectorborne Disease Account, established by the bill for deposit of those funds, and would make conforming changes.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 39 (SB 753) Alpert. State claims.

Existing law requires the California Victim Compensation and Government Claims Board to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$1,203,446.06 from various funds to the Executive Officer of the California Victim Compensation and Government Claims Board to pay claims accepted by the board.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 40 (AB 701) Jerome Horton. Horse racing: workers' compensation.

Existing law sets the amount deducted from the parimutuel pools of thoroughbred races in California. For conventional wagering that amount is 15%, and for exotic wagering it is 16.75%. Existing law provides for mandatory workers' compensation insurance, and horse owners and horse race operators cannot be granted or keep their licenses unless they have adequate security for workers' compensation, as specified.

This bill would make findings and declarations concerning thoroughbred horse racing in California, and the impact of rising costs, including workers' compensation insurance costs, on the health of the California thoroughbred horse racing industry. This bill would, until January 1, 2009, mandate a separate deduction of 0.5% from the exotic parimutuel pools of California thoroughbred races of thoroughbred racing associations and fairs at the racing inclosure, at satellite facilities, at betting systems that accept wagers from California residents, and at betting systems that accept wagers on California races from residents of other states, as specified. The additional 0.5% from the pools would be expended by an organization formed pursuant to the bill's provisions to mitigate workers' compensation costs, as specified, with any unexpended funds at the end of a calendar year to be carried forward to the next year or distributed to organizations that fund offsite stabling and related purposes, as specified. The organization formed to distribute these funds would have to account for its finances to the California Horse Racing Board, as specified. The bill would require the organization to obtain an independent audit, to commission an evaluation, and to report on the evaluation to the California Horse Racing Board, as specified. This bill would also provide for the distribution of funds received under these provisions, as specified, upon their becoming inoperative in 2009.

This bill would also authorize, until January 1, 2009, upon approval of the organization representing quarter horse men and horse women, a similar 0.5% deduction from quarter horse racing association exotic wagering pools for workers' compensation costs of trainers and owners, as specified, with any excess funds permitted to benefit purse pools, as specified. If the organization authorized to distribute these funds could not agree, the California Horse Racing Board would decide on the distribution, as specified.

This bill would also authorize, until January 1, 2009, a separate 1% deduction from the conventional pools of harness racing associations for the similar purposes and with similar conditions as the quarter horse association authorization discussed above.

This bill would also authorize a fair, until January 1, 2009, to deduct an additional 0.5% of the total amount handled in exotic parimutuel pools of races for any breed, other than races solely for thoroughbreds, with the approval of the organization representing the horsemen and horsewomen of that breed at the fair. This deduction would also be for similar purposes and subject to similar conditions as the quarter horse association authorization discussed above.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 41 (AB 1454) Canciamilla. Vector control.

Existing law provides that the State Department of Health Services shall maintain a program of vector biology and control including provision of consultation, assistance, and training to local vector control agencies. Existing law provides that the department may provide necessary and proper assistance to counties, cities, cities and counties, and mosquito abatement, vector control and pest abatement districts.

This bill would require state and local agencies, and would encourage federal agencies, responding to an outbreak of West Nile virus or other mosquito-borne diseases with an abatement and surveillance program to contract with a local mosquito and vector control agency that is a party to the cooperative agreement with the department, or to consult directly with the department.

By requiring local response agencies to comply with these requirements, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 42 (AB 1320) Dutra. Transit village plan: design.

The Transit Village Development Planning Act of 1994 authorizes a city or county to prepare a transit village plan for a transit village development district that includes all land within not less than  $\frac{1}{4}$  mile of the exterior boundary of the parcel on which is located a rail transit station and addresses specified characteristics, including all of the demonstrable public benefits that are specified.

This bill would instead require the transit village plan to include all land within not less than  $\frac{1}{4}$  mile of the exterior boundary of the parcel on which is located a transit station that would be defined by the bill to mean a rail station, ferry terminal, bus hub, or bus transfer station. It would also require the plan to include any 5 of the specified demonstrable public benefits. The bill would also define several terms for purposes of the act.

#### Ch. 43 (SB 1842) Chesbro. Budget Act of 2003: contingencies or emergencies.

The Budget Act of 2003 appropriated specified amounts from the General Fund, unallocated special funds, and unallocated nongovernmental cost funds for expenditure for contingencies or emergencies upon written authorization from the Director of Finance. The Budget Act of 2003 also appropriated specified amounts for loans to state agencies for contingencies or emergencies.

This bill would appropriate \$103,266,000, as scheduled, in augmentation of these Budget Act appropriations. This bill would also reappropriate specified funds for any Medical Assistance Program local assistance expenditures resulting in a deficiency in the 2003–04 fiscal year, as specified. This bill would authorize the Director of Finance to withhold authorization for the expenditure of funds appropriated in the bill until preliminary estimates of potential deficiencies are verified.

This bill would declare that it is to take effect immediately as a statute providing an appropriation for the usual current expenses of the state.

Ch. 44 (SB 23) Sher. Budget Act of 2003.

The Budget Act of 2003 (Ch. 157, Stats. 2003), made appropriations for the support of state government during the 2003–04 fiscal year.

This bill would amend the Budget Act of 2003 by reappropriating to the Office of Emergency Services the balance of certain appropriations, previously made to the former Office of Criminal Justice Planning, necessary for the Office of Emergency Services to take over certain functions of the former Office of Criminal Justice Planning. That latter office was abolished by Chapter 229 of the Statutes of 2003, with its powers, authority, duties, and obligations transferred to and assumed by an agency or agencies designated by the Director of Finance. This bill also would reappropriate a portion of the funds previously appropriated to the former Office of Criminal Justice Planning to the Office of Emergency Services to enable that office to perform specified accounting workload associated with grant activities therefor making an appropriation.

This bill would provide that it is to take effect immediately as an urgency statute.

Ch. 45 (AB 782) Kehoe. Court records: family law.

Existing law generally recognizes court records as public records, unless a specific exception applies. Under existing law, one exception with respect to dissolution matters allows social security numbers of persons involved to be kept in the confidential portion of court files.

This bill would establish procedures for keeping the location or identifying information about the assets and liabilities of the parties in a dissolution matter sealed. The bill would require a related Judicial Council form to be revised no later than July 1, 2005, in accordance with those procedures and would make other related changes. The bill would also repeal the provision described above which allows social security numbers to be kept in a confidential portion of the court files. The bill would instead authorize a petitioner or respondent to redact social security numbers from pleadings, attachments, documents, or other material filed with the court, except as specified.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 46 (SB 772) Bowen. Public utilities: financing utility recovery.

(1) Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations, and authorizes the commission to fix just and reasonable rates and charges. The existing restructuring of the electrical services industry provides for the issuance of rate reduction bonds by the California Infrastructure and Economic Development Bank for the recovery of transition costs, as defined, by electrical corporations.

This bill would authorize the commission to issue financing orders, to support the issuance of recovery bonds, as defined, by the recovery corporation, as defined, secured by a dedicated rate component, to finance the unamortized balance of the regulatory asset awarded Pacific Gas and Electric Company in commission Decision 03-12-035. The bill would establish procedures for judicial review of any order or decision made pursuant to these provisions. The bill would make other technical and conforming changes.

(2) The bill would declare that, due to the special circumstances applicable only to the Pacific Gas and Electric Company bankruptcy, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

(3) Existing law makes any public utility, as defined, and any corporation other than a public utility, that violates the Public Utilities Act guilty of a crime.

Because a violation of the provisions of this bill would be a violation of the act, this bill would impose a state-mandated local program by creating a new crime.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 47 (AB 700) Diaz. Insurance.

Existing law provides that an insurer that anywhere transacts or is licensed to transact any class of insurance other than financial guaranty insurance and surety insurance shall not be eligible for a certificate of authority to transact financial guaranty insurance unless the insurer transacts financial guaranty insurance in another state under the line of credit insurance.

This bill would provide, instead, that an insurer that anywhere transacts or is licensed to transact any class of insurance other than financial guaranty insurance, surety insurance, and credit insurance shall not be eligible for a certificate of authority to transact financial guaranty insurance, but in other states, may assume those classes of insurance if it is authorized to transact those lines in other states.

Existing law requires a financial guaranty insurance corporation to maintain capital, surplus, and contingency reserve, as specified. Existing law provides that this sum may include additional surplus determined by the Insurance Commissioner to be adequate to support the writing of surety insurance if the financial guaranty insurance corporation has been admitted to transact that class of insurance.

This bill would provide that the sum may include additional surplus determined by the commissioner to be adequate to support the writing of surety insurance and credit insurance if the financial guaranty insurance corporation has been admitted to transact surety insurance and credit insurance. This bill would also provide that whenever the commissioner determines that the reserves for outstanding credit insurance losses or loss expenses of an insurer licensed to transact financial guaranty insurance, he or she shall require the insurer to maintain additional reserves.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 48 (AB 2481) Nunez. California Infrastructure and Economic Development Bank: board of directors.

Prior to January 1, 2004, the California Infrastructure and Economic Development Bank was established in the Technology, Trade, and Commerce Agency. As of January 1, 2004, the bank is established in the Business, Transportation and Housing Agency.

Existing law provides that the board of directors of the bank includes the Secretary of Trade and Commerce, subsequently renamed the Secretary of Technology, Trade, and Commerce, or his or her designee, to serve as chair of the board.

This bill would delete the reference to the Secretary of Trade and Commerce in the provisions governing the board of directors of the bank, and instead would provide that the board includes the Secretary of Business, Transportation and Housing, to act as chair of the board.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 49 (SB 1225) Morrow. Court officers.

(1) The California Constitution authorizes a court to order a cause to be tried by a temporary judge who is a member of the State Bar, on stipulation of the parties litigant. Existing statutory law sets forth the duties of court commissioners.

This bill would revise a related provision of statutory law to conform to the constitutional provision described above. The bill would also revise the duties of a court commissioner.

(2) Existing law defines the term “subordinate judicial officer” for purposes of court administration and specifies that the term includes certain commissioners, referees, and judges pro tempore.

This bill would revise those specified examples of subordinate judicial officers, and make related nonsubstantive changes.

#### Ch. 50 (SB 1408) Poochigian. Fraudulent transfers.

Existing law sets forth the conditions under which a transfer made or obligation incurred by a debtor is fraudulent as to a creditor.

This bill would set forth various factors that may be considered in determining that such a transfer or obligation is fraudulent as to a creditor. The bill would also specify that the proposed change is declaratory of existing law and not intended to affect any judicial decisions interpreting existing law.

#### Ch. 51 (SB 1707) Aanestad. Emergency response costs.

Existing law provides that any person who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, whose negligent operation of a motor vehicle, a boat or vessel, or a civil aircraft, caused by that influence proximately causes any incident resulting in an appropriate emergency response, and any person whose intentionally wrongful conduct proximately causes any incident resulting in an appropriate response, is liable for the expense of an emergency response by a public agency to the incident up to \$1,000.

This bill would provide that any person who intentionally, knowingly, and willfully enters into any area that is closed or has been closed to the public by competent authority for any reason or that a reasonable person under the circumstances should have known was closed to the public, is liable to specified entities for the expenses of an emergency response, as defined, to search for or rescue the person or any passengers, and the removal of any inoperable vehicle. The bill would also make a person who drives a vehicle on a flooded public street or highway, as specified, liable for the expenses of any emergency response. The bill would increase the limit of liability for the expense of an emergency response to \$12,000 per incident.

#### Ch. 52 (AB 2756) Daucher. School district administration: budgeting and finance.

(1) Existing law provides standards and criteria to be used by local educational agencies in the development and management of annual budgets.

This bill would require the Superintendent of Public Instruction, the Controller, and the Director of the Department of Finance to update these standards and criteria on or before September 1, 2005. The bill would specify additional standards and criteria to be developed in this update.

(2) Existing law requires the Controller to notify a certified public accountant or public accountant and the California Board of Accountancy whenever he or she determines that school district audits performed by the certified public accountant or public accountant were not performed in substantial conformity with the audit guide for local educational agencies. Existing law provides that if the Controller’s determination becomes final, the certified public accountant or public accountant is ineligible to conduct audits, as specified.

This bill would require a county superintendent of schools to provide similar notifications after determining that audits were not performed in substantial conformity with the audit guide.

(3) Existing law provides emergency apportionments for school districts that have become insolvent, and requires various actions to be taken by the school district and the Superintendent of Public Instruction to receive these apportionments, including the appointment of a trustee, the appointment of an administrator, and the approval of recovery plans.

This bill would revise these procedures.

(4) Existing law requires the governing board of a school district to annually prepare a budget for the district with certain requirements and to submit that budget to the county superintendent of schools for approval. If the county superintendent of schools disapproves of the budget, existing law requires him or her to call for the formation of a budget review committee unless the governing board of the school district and the county superintendent of schools agree to waive a budget review committee.

This bill would permit a county superintendent of schools to conditionally approve a school district budget, or if no budget is submitted, to prepare a budget for the school district, as specified. The bill would require a county superintendent of schools to follow certain procedures in approving the budget of a school district. The bill would permit the Superintendent of Public Instruction to suspend the authority of the county superintendent of schools over the financial affairs of school districts, with certain requirements, and exercise that authority, if certain conditions exist.

(5) Existing law requires the governing board of a school district to prepare an annual statement of all receipts and expenditures of the school district for the preceding fiscal year.

This bill would require a school district to also include a statement of all compensation received by the superintendent and all personnel with management, policymaking, and advisory responsibilities, who report directly to the superintendent of the school district.

(6) Existing law creates the County Office Fiscal Crisis and Management Assistance Team, which the Superintendent of Public Instruction may request to perform various duties, including, but not limited to, reviewing the fiscal and administrative condition of any county office of education.

This bill, in addition, would permit the County Office Fiscal Crisis and Management Assistance Team to review the fiscal and administrative condition of a school district or charter school. The bill would require the County Office Fiscal Crisis and Management Assistance Team to request and review applications to establish regional teams of education finance experts throughout the state, with certain requirements.

(7) Under existing law, a school district that has a qualified or negative certification as to its ability to meet its obligations during the fiscal year is required to allow the county office of education at least 6 working days to review and comment on any proposed collective bargaining agreement and to provide that office with information on the financial impact of that agreement. Existing law also requires the Superintendent of Public Instruction to develop a format for use in generating this information.

This bill would increase the time allotted to a county office of education to review the agreement or contract to 10 working days. The bill would also require the district superintendent, chief business official, president of the school board, and any other member of the school board voting in support of the agreement to certify that the school district can meet the costs incurred during the term of the agreement. By placing additional requirements on a school district and county superintendent of schools, this bill would create a state-mandated local program.

(8) Existing law requires contracts of employment between an employee and a local educational agency to include a provision that specifies that upon termination, the maximum cash settlement that an employee may receive is an amount equal to a month's salary under the agreement multiplied by the number of months left on the unexpired term of the contract.

Existing law provides, however, that if the unexpired term of the contract is greater than 18 months, the maximum cash settlement is required to be equal to the monthly salary of the employee multiplied by 18.

This bill would prohibit a local agency employer from providing a cash or noncash settlement to its district superintendent of schools, with certain requirements, upon his or her termination in an amount greater than the superintendent's monthly salary multiplied by 6, if certain conditions exist.

(9) This bill also makes technical, nonsubstantive changes to existing law.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(11) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 53 (SB 1190) Chesbro. Vallejo City Unified School District.

(1) Existing law provides for emergency apportionments to school districts subject to specified conditions including, in certain circumstances, the repayment of an emergency loan over a period of no more than 10 years and the appointment by the Superintendent of Public Instruction of an administrator who would exercise the powers and responsibilities of the governing board of the school district.

This bill would require the Superintendent of Public Instruction to assume all the rights, duties, and powers of the governing board of the Vallejo City Unified School District and to appoint, in consultation with the Solano County Superintendent of Schools, an administrator to act on behalf of the Superintendent of Public Instruction in exercising the superintendent's authority over the school district. The bill would require the administrator to be deemed an employee of the school district for certain purposes.

The bill would require the governing board of the school district to serve as an advisory body reporting to the administrator and prohibit its members from receiving any compensation during the period of the superintendent's authority over the district. The bill would authorize the administrator to terminate the employment of certain district personnel, as provided. The bill would authorize the administrator, with the approval of the superintendent, to enter into agreements on behalf of the district and to change any existing district rules, regulations, policies, or practices, as provided.

The bill would continue the authority of the superintendent and the administrator over the school district until certain enumerated conditions are met, including the completion of assessment and improvement plans for the school district.

The bill would require the administrator to consider, on a monthly basis or more frequently if desired, information from one or more specified groups. The bill would require the County Office Fiscal Crisis and Management Assistance Team (FCMAT) to prepare, by November 1, 2004, an improvement plan for the school district. The bill would require the FCMAT, commencing 30 days following the effective date of this bill and in May 2005 and at least every 6 months thereafter, to file a status report with specified persons on progress made by the district in implementing the plan.

The bill, except as specified, would require the school district to bear 100% of all costs associated with implementing its provisions, thereby imposing a state-mandated local program.

The bill would appropriate \$60,000,000 from the General Fund to the Superintendent of Public Instruction for apportionment as an emergency loan to the Vallejo City Unified School District. The bill would authorize the school district to sell property owned by the

district and use the proceeds from the sale to reduce or retire the emergency loan and would prohibit the district from being eligible for financial hardship assistance under the Leroy F. Greene School Facilities Act of 1998.

(2) This bill would make a legislative finding and declaration that the unique circumstances of the Vallejo City Unified School District warrant the enactment of a special statute.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 54 (SB 1021) Poochigian. Trusts.

Existing law provides for the creation, modification, and termination of trusts, and regulates the acts of trustees in administering a trust. Existing law establishes provisions by which a trustee may give a notice of proposed action regarding certain matters.

This bill would revise and recast the provisions by which a trustee may give a notice of proposed action. The bill would enlarge the circumstances under which a notice of proposed action could be used, the circumstances under which it is not to be used, to whom it is to be given, and the methods by which a beneficiary may object to a proposed action.

#### Ch. 55 (SB 1658) Karnette. School credentials: emergency permits.

Existing law requires the Commission on Teacher Credentialing to establish procedures for the initial issuance and renewal of teacher credentials and permits, including, among others, emergency permits. Existing law provides that on or after January 1, 1998, an emergency permit issued prior to January 1, 1998, may be reissued for additional one-year periods, as the commission may determine, not to exceed a total of 5 one-year reissue periods. Existing law provides that an emergency permit issued on or after January 1, 1998, may be reissued, as the commission may determine, for additional one-year periods, not to exceed a total of 4 one-year reissue periods.

This bill, instead, would permit the issuance or reissuance of emergency permits for validity periods not to exceed one year as determined by the Commission on Teacher Credentialing.

#### Ch. 56 (AB 162) Cohn. Mobilehome and Special Occupancy Parks.

(1) Existing law establishes, in the State Treasury, the Mobilehome Parks Revolving Fund into which funds collected by the Department of Housing and Community Development pursuant to the Mobilehome Parks Act are to be deposited. Existing law, operative January 1, 2004, instead establishes in the State Treasury the Mobilehome Parks and Special Occupancy Parks Revolving Fund into which funds collected by the Department of Housing and Community Development pursuant to the Mobilehome Parks Act and the Special Occupancy Parks Act are to be deposited.

This bill would repeal the obsolete reference to the Mobilehome Parks Revolving Fund.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 57 (AB 2301) Maze. Health care for indigents: reports.

Existing law, the County Health Care for Indigents program, allocates funds appropriated for allocation to counties for health care services, and requires a county receiving an allocation pursuant to that program to, at a minimum, report to the State Department of Health Services all indigent health care program demographic, expenditure, and utilization data, in a manner that will provide an unduplicated count of users.

Existing law also requires the counties to report demographic, cost, and utilization data to the department in a quarterly report, an estimated annual report, and an annual report.

This bill would eliminate the requirement for the quarterly reports and the estimated annual reports.

Ch. 58 (AB 2630) Hancock. Alameda County Hospital Authority.

Existing law authorizes the Board of Supervisors of the County of Alameda to establish, by ordinance, a hospital authority to manage, administer, and control the Alameda County Medical Center. Existing law provides that employees of the authority may participate in the County Employees Retirement System and that the authority is subject to the collective bargaining requirements for local public agencies.

This bill would specify that the hospital authority is required to comply with statutory law that requires all contracts of employment between an employee and a local agency employer to include a provision that establishes limitations on the maximum cash settlement an employee may receive if the employment contract is terminated.

Ch. 59 (AB 2182) Koretz. Minors: consent to counseling.

Existing law authorizes a minor who is 12 years of age or older to consent to medical care and counseling relating to the diagnosis and treatment of a drug- or alcohol-related problem. The treatment plan of the minor must include the involvement of a professional person. A professional person is defined to include a physician and surgeon, registered nurse, psychologist, clinical social worker, or marriage and family therapist.

This bill would revise the definition of a professional person to additionally include a marriage and family therapist registered intern, a psychological assistant, and an associate clinical social worker, as specified.

Ch. 60 (AB 2243) Vargas. County water authorities: board of directors.

The County Water Authority Act generally authorizes any member of the governing body of a member agency of a county water authority that is a water district, as defined, to be appointed by that member agency to the board of the authority to serve as the agency's representative, but, in the case of agencies with several representatives, prohibits the appointment of a majority of the members of the governing body of the agency to serve as representatives on the board of the authority.

This bill would delete that reference to a water district, and would thereby authorize any member of the governing body of any member agency to be appointed by that member agency to the board of an authority to serve as the agency's representative. The bill would prohibit a majority of the members of the governing body of an agency from being appointed by the agency to serve as representatives on the board of the authority, and would allow, in the case of a member agency that is not a water district, only one of the representatives of that agency to be a member of the governing body of the agency.

Ch. 61 (AB 2829) Bogh. Rape: evidence: sexual conduct.

Existing law sets forth the procedure required in any prosecution for rape or other specified offenses, with certain exceptions, if evidence of sexual conduct of the complaining witness is offered to attack the credibility of the complaining witness. This procedure involves, among other things, the filing of a written motion by the defendant, accompanied by an affidavit stating an offer of proof, and, if the court determines that the offer is sufficient, a hearing out of the presence of the jury regarding the offer of proof. Existing law allows the court, at the conclusion of the hearing, to make an order stating what evidence may be introduced by the defendant.

This bill would require that the affidavit filed with the court in connection with the offer of proof be kept under seal and only unsealed by the court to determine whether the offer of proof is sufficient. The bill would require the affidavit to be resealed after that determination, and would provide specified persons access to that affidavit only if the defendant raises an issue on appeal or collateral review regarding the offer of proof.

Ch. 62 (SB 1172) Ackerman. Personal income tax: gross income: nonresident or part-year resident.

The Personal Income Tax Law imposes a tax on the entire taxable income of an individual taxpayer subject to that law, but provides for a specified treatment of the income of nonresidents and part-year residents. For purposes of calculating the taxable income of a nonresident or part-year resident, the gross income of a nonresident or part-year resident includes only the gross income derived by the taxpayers from California sources. Existing federal laws limit or preempt California's ability to tax the California source income of certain nonresidents and part-year residents.

This bill, in specified conformity with those federal laws, would clarify existing law by expressly providing that California may not tax the California source income of certain nonresidents and part-year residents.

Ch. 63 (SB 1350) Morrow. California Environmental Quality Act: guidelines: steam sterilization.

The existing California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared by contract, and certify the completion of, an environmental impact report on a project, as defined, that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect. CEQA requires the Office of Planning and Research, when the office revises its CEQA guidelines after January 1, 1996, to recommend changes to those guidelines that would determine if specified regulations apply to the treatment of medical waste by steam sterilization and clarifying revisions to the guidelines to expressly state that the treatment is subject to a categorical exemption under specified provisions of the CEQA guidelines. CEQA requires the office, if it determines that those provisions of the guidelines do not categorically exempt that treatment, and if such an exemption is consistent with existing law, to recommend a categorical exemption for the treatment in its recommended revision of the guidelines.

This bill would repeal those provisions.

Ch. 64 (AB 254) Montanez. Health care coverage.

Existing law requires any health care service plan contract or disability insurance policy issued, amended, delivered, or renewed in California on or after January 1, 1999, that provides certain benefits under an employer-sponsored group plan for an employer subject to COBRA continuation coverage or under an employer group for which the plan or insurer is required to offer Cal-COBRA continuation coverage, to offer specified health coverage to former employees who were 60 years old or older on the date of employment termination and to meet certain other requirements. The coverage applies to the spouses and former spouses of employees or former employees, as specified.

This bill would make these requirements applicable only to an individual who meets the eligibility requirements for continuation coverage prior to January 1, 2005.

Ch. 65 (AB 883) Runner. Records: admissible hearsay.

Existing law permits the Department of Justice and criminal justice agencies to use any system of microphotography, optical disk, or reproduction by other techniques that do not permit additions, deletions, or changes to the original document to record some or all instruments, papers, photographs, and notices that are required or permitted by law to be recorded or filed.

This bill would permit fingerprints to be stored or created in an electronic format that does not permit additions, deletions, or changes to the original fingerprints so long as the storage medium complies with the minimum standards of quality approved by the National Institute of Standards and Technology.

Existing law sets forth the rules governing the proof of the content of a writing in a civil or criminal action or proceeding. Under existing law, if made in the regular course of business, as specified, a nonerasable optical image reproduction of a writing may be introduced in court as proof of a writing, provided that additions, deletions, or changes to the original document are not permitted by that technology. Recent changes in this law expand that category of admissible evidence to include any other reproduction of a public record by a trusted system, as specified, contingent on the adoption of specified standards regarding the storage of documents in electronic media by the Secretary of State.

This bill would provide that reproductions of files, records, writings, photographs, fingerprints, or other instruments in the official custody of a criminal justice agency that were microphotographed or otherwise reproduced in a manner that conforms with the provisions referred to above that authorize record maintenance procedures for the Department of Justice and criminal justice agencies shall be admissible to the same extent and under the same circumstances as the original file, record, writing or other instrument would be admissible.

This bill would state that its provisions are declarative of existing law.

Ch. 66 (AB 920) Nakano. Real estate disclosures: nuisance: local government.

(1) Existing law requires the disclosure of specified attributes of residential real property prior to the transfer of title, including disclosures required by a city or county, as specified.

This bill would require a seller of residential real property, who has actual knowledge thereof, to disclose that the property is adjacent to an industrial use or affected by a nuisance created by such a use.

The bill would also provide that, on or after January 1, 2005, if a city or county adopts a different or additional disclosure form regarding the proximity or effects of an airport, the form would be required to contain specified information regarding annoyances or inconveniences associated with airport operations. The bill would further provide, on and after January 1, 2006, that if a city or county does not adopt a different or additional disclosure form, the provision of an airport influence area disclosure, as specified, or if there is not a current airport influence map, a written disclosure of an airport within 2 statute miles, shall be deemed to satisfy any city or county disclosure requirements in this regard.

(2) Existing law requires that certain natural hazards be disclosed pursuant to certain property transfers and that these disclosures be made on a specified statement. Existing law exempts transferors and their agents from liability for error, inaccuracies, or omissions in these disclosures when they are not within their personal knowledge, they are based on information contained in a report provided by specified parties, and ordinary care is exercised in obtaining and transmitting the information.

This bill would amend the Natural Hazard Disclosure Statement to provide an optional acknowledgment that representations made in the statement are based on an independent 3rd-party report provided as a substituted disclosure, as specified, and that the transferor and the transferor's agent have not verified the information in the report and are not personally aware of any errors or inaccuracies in the statement. In connection with this acknowledgment, the bill would provide that transferors and their agents assert that they have exercised good faith in the selection of a 3rd-party report provider. The bill would provide that the legal effect of a consultant's report delivered to satisfy the exemption described above is not changed when it is accompanied by a Natural Hazard Disclosure Statement, and that these reports shall always be accompanied by a signed and completed Natural Hazard Disclosure Statement. The bill would permit an agent and a 3rd-party report provider to preprint their names on the disclosure statement, in lieu of signing, without change in legal effect.

Ch. 67 (AB 1851) Harman. Incapacity: protective proceedings.

(1) Existing law provides for the disposition of certain funds held for the benefit of a minor or incompetent person.

This bill would revise and recast those provisions, and would replace the term “incompetent person” with the term “person with a disability,” as defined. The bill would provide that those provisions do not apply to an adult with capacity who has no conservator, except as specified, and would make various technical, nonsubstantive changes to those provisions.

(2) Existing law provides that specified funds held for the benefit of a minor or incompetent person may be ordered by the court to be paid to a special needs trust.

This bill would permit a parent, guardian, conservator, or other interested person to instead petition the probate court to establish that special needs trust, if a specified condition is met.

(3) As a result of certain protective proceedings, existing law requires the court to have continuing jurisdiction over the money and property paid, delivered, deposited, or invested for a minor until that minor reaches 18 years of age.

This bill would additionally require the court to maintain continuing jurisdiction of the money and property of an individual who meets the definition of a person with a disability, as defined, after he or she reaches 18 years of age, until terminated by the court.

#### Ch. 68 (SB 1364) Chesbro. Developmental disabilities.

Existing law, the Lanterman Developmental Disabilities Services Act, establishes the State Council on Developmental Disabilities with 29 voting members, who, among other qualifications, are persons with developmental disabilities or parents, siblings, guardians, or conservators of these persons.

This bill would revise the qualification of members appointed to the council, including, but not limited to, substituting “immediate relatives” for “sibling,” would revise the qualifications of the chair and vice chair, and would make conforming changes.

Existing law establishes the Area Boards on Developmental Disabilities and sets forth their membership and duties, including to protect and advocate the rights of all persons in the area with developmental disabilities.

This bill would make a technical change regarding appointment of an area board chairperson.

#### Ch. 69 (SB 626) Committee on Public Employment and Retirement. Benefits: Public Employees’ Medical and Hospital Care Act.

The Public Employees’ Medical and Hospital Care Act authorizes the Board of Administration of the Public Employees’ Retirement System to contract with carriers for health benefit plans and major medical plans for employees and annuitants, as defined, and approve other specified plans.

This bill would revise and recast those provisions and related definitions, including, but not limited to, the terms “annuitant,” “carrier,” “employee,” “employer,” and “family member.” The bill would conform various statutory provisions of law to these revisions.

This bill would also make other statutory and conforming changes with respect to duties of the Board of Administration and the State Employees’ Dental Care Act.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 70 (SB 1911) Committee on Agriculture and Water Resources. Milk: handlers: surety bonds.

Existing law requires that every manufacturing milk handler and every handler that operates only one plant within the state, before purchasing any manufacturing or market milk from a producer execute and deliver to the Secretary of Food and Agriculture a surety bond, executed by the applicant as principal and by a surety company qualified and authorized to do business in this state as surety. Existing law requires that the amount of the bond be based upon the average daily quantity of manufacturing milk purchased by the handler during any calendar month during a calendar year.

This bill would instead make the amount of the bond be based upon manufacturing milk purchased by the handler during a license year.

Ch. 71 (SB 1169) Murray. Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century.

Existing law, Chapter 697 of the Statutes of 2002, provides for submission of the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century to the voters for approval at the November 2, 2004, general election. Subject to voter approval, the act would provide for the issuance of \$9.95 billion of general obligation bonds, \$9 billion of which would be available in conjunction with any available federal funds for planning and construction of a high-speed train system pursuant to the business plan of the High-Speed Rail Authority, and \$950 million of which would be available for capital projects on other passenger rail lines to provide connectivity to the high-speed train system and for capacity enhancements and safety improvements to those lines. Existing law provides that bonds for the high-speed train system would not be issued earlier than January 1, 2006.

This bill would instead provide for submission of the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century to the voters for approval at the November 7, 2006, general election. The bill would provide that bonds for the high-speed train system would not be issued earlier than January 1, 2008. The bill would make other related changes.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 72 (AB 1887) Nakanishi. Motor fuel: signage.

Existing law regulates the advertising of motor fuel and motor oil, and specifies the content of advertising that may be used in connection with the sale of motor fuel and motor oil. Existing law provides that it is unlawful to place any additional advertising matter on price signs for motor fuel or motor oil, except as specified.

This bill would make this law regulating the placement of additional advertising matters on motor fuel signs inapplicable to electronic changeable message centers when the advertising content includes both the product offered for sale and its price in a single advertising message, or when the product and price components of the advertising message clearly relate to one another and the price neither starts nor ends the message.

Ch. 73 (AB 2126) Dutton. Crime prevention.

Existing law provides that the Department of Justice shall maintain a uniform statewide network of equipment and procedures allowing local law enforcement agencies direct access to the California Identification System, the automated system maintained by the Department of Justice for retaining fingerprint files and identifying latent fingerprints, and develop a master plan recommending the type, number, and location of equipment necessary to implement the Remote Access Network (RAN). Existing law provides that within each county or group of counties eligible to receive funding under the department's master plan for equipment, that elects to participate in the Remote Access Network, a local RAN board shall be established that shall determine the placement of RAN equipment within the county or counties, and coordinate acceptance, delivery, and installation of RAN equipment. Existing law provides that each RAN board shall be composed of 7 members, including the chief of police of the department having the largest number of sworn personnel within the county. Existing law provides that within any county with a population of 5,000,000 or more, each local RAN board shall be composed of 7 members, including the chief of police of the department having the largest number of sworn personnel within the county and the mayor of the city with the greatest population within the county.

This bill would specify instead that the chief of police of the Cal-ID member department having the largest number of sworn personnel within the county shall be a member of the local RAN board. This bill would also provide, with respect to counties with a population of 5,000,000 or more, that the RAN board membership include the chief of police of the

Cal-ID member department having the largest number of sworn personnel and the mayor of the city with the greatest population within the county that has a Cal-ID member police department.

Ch. 74 (AB 1901) Ridley-Thomas. Probation: education.

Existing law establishes a pilot program to authorize the court to require any adult who has been convicted of a nonviolent or nonserious offense to participate in a program designed to assist the person in obtaining the equivalent of a 12th grade education as a condition of probation. Existing law also authorizes the court to require a probationer to participate in a literary or General Education Development Program. Existing law states that the pilot program is deemed successful if at least 10% of the persons participating in the pilot projects obtain the equivalent of a 12th grade education within 3 years.

This bill, the Ex-Offender Literacy Act, would state that the pilot program would be deemed successful if at least 10% of the persons participating in the pilot projects obtain the equivalent of a 12th grade education within 3 years or improve their academic performance by 3 grade levels within 3 years.

Ch. 75 (AB 1883) Harman. Trustees: bonds.

Existing law regulates trusts and provides that a trustee is not required to give a performance bond unless a bond is required by the trust, a bond is found to be necessary by the court to protect the interests of the beneficiaries, or a person who is not named as a trustee in the trust instrument is appointed as a trustee by the court. Existing law permits a court, notwithstanding the requirement of a bond in the trust, to excuse the requirement of a bond, to change its amount, release a surety, or permit the substitution of another bond with the same or different sureties.

This bill would permit a court to require a bond when it is necessary to protect the interests of persons having an interest in the trust estate. The bill would also permit a court to excuse the requirement of a bond notwithstanding specified provisions that would otherwise require a bond. The bill would prohibit the court from excusing certain individuals from that bond requirement, except under compelling circumstances, as specified.

Ch. 76 (SB 115) Torlakson. Landlord and tenant: payments.

Existing law regulates the relationship between landlord and tenant and the terms and conditions of tenancies. Existing law requires a tenant to pay rent as it successively becomes due.

This bill would prohibit a landlord or a landlord's agent from requiring cash as the exclusive payment of rent or deposit of security, except in circumstances following a tenant's failure to pay rent with a valid financial instrument, as specified. The bill would specify that, for the purposes of these provisions, the issuance of a money order or a cashier's check is direct evidence only that the instrument was issued. The bill would provide that a waiver of these provisions is contrary to public policy, void, and unenforceable.

Ch. 77 (AB 1264) Benoit. Regional notification centers: excavation equipment: exclusions.

Existing law requires, except in an emergency, every person to contact a regional notification center, as defined, at least 2 days before conducting any excavation, as defined, in an area that is known, or reasonably should be known, to contain subsurface installations, as defined. The center is required to provide an inquiry identification number that will remain valid for not more than 14 calendar days from the date of issuance. After that date, the inquiry identification number must be revalidated by the regional notification center.

This bill would extend the time period during which an inquiry identification number remains valid to 28 days.

Existing law imposes civil penalties upon those who fail to comply with these requirements, as provided. Existing law exempts from these requirements an owner of real

property who contracts with a licensed contractor or subcontractor for an excavation project that does not require a permit from a state or local agency, or a residential real property owner that is not a licensed contractor or subcontractor who, as part of improving his or her principal residence, is performing or is having performed excavation that does not require a permit from a state or local agency.

This bill would additionally exclude from these requirements any person or private entity that leases or rents excavation or boring equipment to a licensed contractor or subcontractor, if the rental agreement contains a provision that the lessee or renter accepts all liabilities and responsibilities of the regional notification center law.

Ch. 78 (AB 2049) Nakanishi. Fetal ultrasound.

Under existing law, the State Department of Health Services is required to maintain a program of maternal and child health, which is administered by the department's Maternal and Child Health Branch. Under existing law, the maternal and child health program includes, among other subjects, pregnancy testing, perinatal health care, and nutrition.

This bill would require a person or facility that offers fetal ultrasound, or a similar procedure, for keepsake or entertainment purposes, to make a written disclosure to a client prior to performing the procedure, that the federal Food and Drug Administration does not approve the use of ultrasound equipment for these purposes.

Ch. 79 (SB 1143) Morrow. Veterans' homes: construction and funding.

Existing law authorizes the construction of the Veterans' Home of California at Barstow and appropriates funding for initial work associated with the Governor's Commission on a Southern California Veterans Home and Veteran Home Project Team. In addition, existing law allows construction of veterans' homes in southern California using revenue bonds.

This bill would delete sections of the Military and Veterans' Code relating to construction and appropriation of funds for the Veterans Home of California at Barstow and would also provide for the repeal of applicable sections relating to construction and funding upon completion and closure of the Chula Vista construction project.

Ch. 80 (AB 2164) Plescia. Horse racing: marketing.

Existing law permits racing associations, fairs, and the organization responsible for contracting with racing associations and fairs with respect to the conduct of racing meetings, to form a private, statewide marketing organization to market and promote thoroughbred and fair horse racing. Existing law requires the marketing organization to annually submit to the California Horse Racing Board a statewide marketing and promotion plan for thoroughbred and fair horse racing. Existing law also specifies funds to be distributed to the marketing organization for the promotion of thoroughbred and fair horse racing, and for workers' compensation, as specified. Existing law makes these provisions inoperative on July 1, 2004, and repeals them on January 1, 2005.

This bill would extend the operation of these provisions until January 1, 2006, when they would be repealed.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 81 (AB 2362) Daucher. Special education: due process hearing.

Existing law provides procedural safeguards, including due process hearings, for the resolution of complaints regarding alleged violations of the law relative to special education. Existing law enumerates the requirements for a state hearing and sets forth the authority of the hearing officer.

This bill would provide that the hearing officer may not base a decision solely on nonsubstantive procedural errors, unless the hearing officer makes certain findings.

Ch. 82 (AB 2491) Jerome Horton. Cigarettes and tobacco products: Cigarette and Tobacco Products Licensing Act.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

(1) The Cigarette and Tobacco Products Tax Law requires distributors and wholesalers of cigarette and tobacco products to be licensed by the State Board of Equalization. The California Cigarette and Tobacco Products Licensing Act of 2003 provides for the licensure by the State Board of Equalization of manufacturers, distributors, wholesalers, importers, and retailers of cigarette or tobacco products that are engaged in business in California. The act prohibits retailers, manufacturers, distributors, and wholesalers from distributing or selling cigarette and tobacco products unless they are licensed. Manufacturers and importers of cigarettes are required to comply with specified reporting requirements under that act, including a report of ingredients added to cigarettes. That act also requires the board to suspend or revoke the license of any manufacturer, distributor, wholesaler, importer, or retailer of tobacco products that is in violation of certain provisions.

This bill would exclude cigars, weighing 3 pounds or less per 1,000, from the definition of cigarettes subject to the provision of the act that requires the reporting of ingredients added to cigarettes. This bill would authorize the State Board of Equalization to issue a temporary license to a retailer of tobacco products.

This bill would require the State Board of Equalization to post on its Web site the name of any wholesaler or distributor whose cigarette and tobacco products license has been suspended or revoked. This bill would specify that a license issued to a manufacturer or importer is not transferable, and would also require any manufacturer or importer that is issued a license that does not commence business in the manner specified or designated in the license, ceases to do business in the manner specified or designated in the license, or is notified that the license is suspended or revoked, to immediately surrender that license to the board.

This bill would also make technical, nonsubstantive changes to specified provisions of the California Cigarette and Tobacco Products Licensing Act of 2003.

(2) The Cigarette and Tobacco Products Tax Law requires a tax imposed by that law with respect to distributions of cigarettes to be paid by distributors through the use of stamps or meter register settings, and requires that these stamps or meter register settings be affixed to each package of cigarettes sold. The board is authorized to seize, for forfeiture to the state, cigarettes and tobacco products (a) offered for sale that do not have the proper stamps or meter register settings affixed to the package, (b) for which the taxes have not been paid, or (c) offered for sale in violation of specified provisions of law. The board is required to give notice of seizure and forfeiture by registered mail and, except as prescribed, by publication in a newspaper of general circulation.

This bill would, instead, require the board to give notice by certified mail and, except as prescribed, by posting the information on the board's Web site. This bill would make a technical, nonsubstantive amendment to the Cigarette and Tobacco Products Tax Law.

(3) This bill would declare that it is to take effect as an urgency statute.

Ch. 83 (AB 2649) Salinas. Workers' compensation: exclusions: owner-builders.

Existing workers' compensation law generally requires employers to secure the payment of workers' compensation, including medical treatment, for injuries incurred by their employees that arise out of, or in the course of, employment. Existing law excludes various persons from the definition of employee for purposes of these provisions.

This bill would exclude from the definition of employee any person who is an owner-builder, as defined, who is participating in a mutual self-help housing program, as defined, sponsored by a nonprofit corporation.

Ch. 84 (AB 901) Jackson. Solid waste: hazardous electronic waste.

(1) The Electronic Waste Recycling Act of 2003 requires a retailer selling a covered electronic device in this state to collect an electronic waste recycling fee from the consumer, on and after July 1, 2004, and to transmit the fee to the California Integrated Waste Management Board in accordance with a specified schedule and procedure.

This bill would instead require a retailer to collect that fee beginning on November 1, 2004.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 85 (AB 2904) Benoit. Auto insurance: express warranties.

Existing law provides that an express warranty warranting a motor vehicle lubricant, treatment, fluid, or additive that covers incidental or consequential damage resulting from a failure of the lubricant, treatment, fluid, or additive, shall constitute automobile insurance, unless specified requirements are met, including a requirement that the obligor under the warranty be the primary manufacturer of the product. Existing law defines "manufacturer" to include a person who has formulated or produced, and continuously offered in this state for more than 10 years, one of these substances.

This bill would, with respect to this definition, change to 9 years the period in which a person must have continuously offered the substance in this state.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 86 (SB 1688) Ashburn. Veterans Appreciation Week.

Existing law authorizes the construction of memorials, buildings, and cemeteries for veterans, as specified.

This bill would annually designate the 2nd full week in November as Veterans Appreciation Week, in recognition of veterans of the United States Armed Forces.

Ch. 87 (SB 1156) Alarcon. Microenterprise.

Existing law authorizes the State Department of Social Services, with the consent of participating counties, to implement demonstration projects to provide self-employment training and technical assistance, including microenterprise demonstration projects, to CalWORKs recipients and persons at risk of receiving those benefits.

This bill would encourage cities and counties to access microenterprise development in order to create new jobs and income opportunities for individuals of low and moderate income. The bill would encourage California communities and the public agencies that serve them to promote local partnerships that invest in microenterprise development.

Ch. 88 (AB 932) Koretz. Podiatric medicine.

Existing law provides for the certification and regulation of the practice of podiatry by the Division of Licensing of the Medical Board of California and the California Board of Podiatric Medicine in the Department of Consumer Affairs. Existing law requires an applicant for a certificate to practice podiatric medicine to show that he or she has successfully completed a specified medical curriculum, and requires an applicant to pass an examination in certain subjects.

This bill would instead require an applicant to pass an examination in the subjects required in the podiatric medicine medical curriculum. The bill would also require an applicant to obtain a specified passing score on the National Board of Podiatric Medical Examiners Part III examination. The bill would require the board, in consultation with the Office of Examination Resources of the Department of Consumer Affairs, to ensure that the Part II examination adequately evaluates the full scope of practice for podiatric medicine.

Existing law authorizes the holder of a certificate to practice podiatric medicine to treat the human foot, including the ankle and tendons at the ankle level. Existing law prohibits a doctor of podiatric medicine from performing an amputation. Existing law authorizes a doctor of podiatric medicine that was certified on and after January 1, 1984, to perform surgery of the ankle and tendons in specified locations.

This bill would delete the prohibition against performing amputations but would prohibit a doctor of podiatric medicine from performing an amputation of the foot in its entirety. The bill would authorize an ankle certified doctor of podiatric medicine to perform surgical treatment that is otherwise beyond his or her scope of practice in specified locations, if the doctor of podiatric medicine is under the direct supervision of a physician and surgeon. The

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

bill would also add outpatient settings meeting certain criteria to the list of locations where surgery may be performed. The bill would make other conforming changes.

Ch. 89 (AB 430) Dutra. Santa Clara Valley Water District: underground tanks.

(1) Existing law generally regulates the storage of hazardous substances in underground storage tanks and requires the State Water Resources Control Board to develop and implement a local oversight program for the abatement of, and oversight of the abatement of, unauthorized releases of hazardous substances from underground storage tanks by local agencies. Existing law authorizes the board to enter into an agreement with a local agency and the Santa Clara Valley Water District to implement the local oversight program in Santa Clara County until June 30, 2004. Existing law authorizes the board, if that agreement is entered into, to provide funding to the district for oversight costs incurred by the district on and after July 1, 2002, until June 30, 2004. Existing law ratifies certain actions relating to underground storage tanks taken by the district on and after January 1, 1988, until January 1, 2004, or until the effective date of an agreement between the board, a local agency, and the district, as specified.

This bill would extend the date that the board is authorized to enter into an agreement to June 30, 2005. The bill would authorize the board to provide funding oversight costs incurred by the district until June 30, 2005, and would ratify those actions taken by the district until January 1, 2005, or until the effective date of that agreement.

(2) The bill would declare that, due to the unique circumstances pertaining to the Santa Clara Valley Water District that the bill is intended to remedy, a general statute within the meaning of specified provisions of the California Constitution cannot be made applicable and a special statute is necessary.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 90 (AB 1924) Bogh. Fire prevention: penalties.

(1) Existing law authorizes the Governor, through the Director of Forestry and Fire Protection, by proclamation, upon a showing that unrestricted use of any grass-covered land, grain-covered land, brush-covered land, or forest-covered land is a menace to life or property due to conditions tending to cause or allow the rapid spread of fires, to require that the area be closed to hunting and fishing and to entry by any person, except as specified. Existing law provides that a person who violates the closure proclamation shall be punished by a fine of not less than \$50 nor more than \$1,000, or by imprisonment in the county jail, as provided, or by both the fine and the imprisonment.

This bill would increase the fine to not less than \$100 nor more than \$2,000.

(2) Existing law provides that any person who maintains any solid waste facility in violation of specified laws relating to flammable solid waste shall be punished for a first conviction by a fine not to exceed \$250 and for a second or subsequent conviction within 5 years of a prior conviction, by a fine not less than \$250 or more than \$1,000, or by imprisonment in the county jail, as provided, or by both the fine and imprisonment.

This bill would increase the fines to not more than \$500 for a first conviction, and not less than \$500 or more than \$2,000 for a second or subsequent conviction within 5 years of a prior conviction.

Ch. 91 (AB 687) Nunez. Tribal-state gaming compacts: ratification and payment securitization.

(1) Existing federal law, the Indian Gaming Regulatory Act of 1988, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain gaming activities on Indian lands within a state. Existing California law expressly ratifies specified tribal-state gaming compacts.

This bill would ratify amendments of tribal-state gaming compacts entered into by the State of California and the Pala Band of Mission Indians, the Pauma Band of Luiseno

Mission Indians of the Pauma and Yuima Reservation, the Rumsey Band of Wintun Indians, the United Auburn Indian Community, and the Viejas Band of Kumeyaay Indians.

The bill would also provide that specified acts and agreements related to the amended compacts are not projects for the purposes of California Environmental Quality Act.

(2) Existing law sets forth the duties of the Infrastructure and Economic Development Bank and its board of directors generally in performing various financing transactions, including the issuance of bonds or the authorizing of the issuance of bonds by a trust, partnership, limited partnership, association, corporation, nonprofit corporation, or other entity, known as a special purpose trust.

This bill would, upon a filing by the Director of Finance with the bank of the list of specified amended tribal compacts, called designated tribal compacts, authorize the bank to sell for, and on behalf of, the state all or any portion of the state's compact assets to a special purpose trust, which would be established as a not-for-profit corporation by the bill, except that the sale or sales would be limited to an amount necessary to provide the state with net proceeds of the sale not to exceed \$1.5 billion, exclusive of capitalized interest on the bonds and any costs incurred by the bank or the special purpose trust in implementing the bill. "Compact assets" would be defined for these purposes as moneys required to be paid to the state under specified provisions of the designated tribal compacts, and the state's rights to receive those payments.

This bill would provide that the members of the board of directors of the bank, the Director of the Department of Transportation, and the Director of General Services shall serve ex officio as the directors of the special purpose trust, and would authorize the special purpose trust to issue bonds on the terms it determines. It would also authorize the special purpose trust to enter into agreements with any public or private entity and to pledge the compact assets that it purchases as collateral and security for the bonds. It would specify that the bonds issued pursuant to these provisions shall not be deemed to constitute a debt of the state or a pledge of the faith or credit of the state, and set forth the rights of the affected Indian tribes and holders of bonds under these provisions.

(3) Existing law establishes the Traffic Congestion Relief Fund and the Transportation Deferred Investment Fund in the State Treasury, and continuously appropriates the moneys in those funds for specified transportation purposes.

This bill would require the net proceeds of the sale of the compact assets to be deposited in these funds in specified amounts for specified purposes and priorities, thereby making an appropriation. The bill would require that amounts deposited in the Traffic Congestion Relief Fund and the Transportation Deferred Investment Fund be applied as a credit to transfers from the General Fund that the Controller would otherwise be required to make to that fund. The bill would also require that when these amounts have been paid to these funds pursuant to the provisions of the bill, or by other appropriations or transfers, the revenues received thereafter are to be remitted to the California Gambling Control Commission for deposit in the General Fund.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 92 (AB 1840) Frommer. Workers' compensation: death benefits: police officers.

Existing workers' compensation law generally requires employers to secure the payment of workers' compensation, including medical treatment, for injuries incurred by their employees that arise out of, or in the course of, employment. Existing law also provides for the payment of death benefits in the amount of \$250,000 to the estate of a deceased employee who has no total dependents and no partial dependents for injuries occurring on or after January 1, 2004.

This bill would provide for the payment of death benefits in the amount of \$250,000 to the estate of a deceased police officer who has no total dependents and no partial dependents

for injuries occurring on or after January 1, 2003, but prior to January 1, 2004. It would also declare that it is the intent of the Legislature that this provision have retroactive effect.

Ch. 93 (AB 1985) Wolk. Insurance claims: forms.

Existing law requires an insurer, in the case of any claim arising from the theft of an insured vehicle, prior to the settlement of the claim, to secure from the insured a claim form containing specified information. Existing law requires the insurer to retain all settlement checks in settlement of the theft of an automobile, the original claim form, and a legible copy of the police report of the vehicle theft for at least 3 years.

This bill, in addition, would allow an insurer to meet the requirement regarding retention of the settlement checks, the claim form, and the police report by retaining an electronic copy of those items.

Ch. 94 (AB 2337) Corbett. Fire suppression assessments.

Existing law authorizes a local agency, as defined, to determine and levy an assessment for fire suppression services.

This bill would define fire suppression services for purposes of this authorization, as specified.

Ch. 95 (AB 2490) Maddox. Insurance: surplus line brokers: notice.

Existing law requires every insurer not admitted to transact insurance in this state, and every surplus line broker, as defined, to ensure that, at the time of accepting an application for any insurance policy, other than a renewal of that policy, issued by a nonadmitted insurer, the signature of the applicant on a specified disclosure form is obtained. Existing law provides that, in the case of commercial insurance coverages, if an applicant requires that insurance coverage be bound immediately for specified reasons, and the applicant cannot meet in person with the agent or broker to sign the disclosure form, the agent or broker may obtain the signature of the applicant within 5 days of binding coverage, provided that the applicant may cancel the insurance so placed within 5 days of receiving the disclosure form from the agent or broker.

This bill, until January 1, 2008, would allow this procedure for immediately binding coverage to be used, in addition, for homeowners' insurance coverage. The bill would make specified changes to the above disclosure form.

Ch. 96 (SB 1266) Torlakson. Annexation.

Existing law requires the local agency formation commission in each county to approve island annexations of unincorporated areas to cities that meet certain requirements. One of those requirements is that if it does not exceed 75 acres in area, that area constitutes the entire island, and that island does not constitute a part of an unincorporated area that is more than 100 acres in area.

This bill would change the 75-acre requirement to 150 acres and delete the restriction that the island does not constitute a part of an unincorporated territory that is more than 100 acres in area.

Ch. 97 (SB 1514) Poochigian. Enforcement of delinquent assessments.

Existing law establishes a procedure by which a local agency may acquire any accrued lien, or property required to be sold for nonpayment of an assessment or delinquency incurred by the nonpayment of an assessment.

This bill would require that, before any water district, as defined, takes action that will terminate another party's interest in real property as the means of enforcing delinquent assessments, fees, charges, or other levies, the district shall make a reasonable effort, as prescribed, to ascertain the names and addresses of each holder of an interest in the delinquent property that would be terminated by virtue of the action by the district, and shall notify each

interest holder, as prescribed, of the intent to take action that would terminate the party's interest in the delinquent property.

Ch. 98 (AB 2091) Longville. Nomination documents.

Existing law specifies time periods by which documents for nomination and candidacy for a direct primary election must be made available and filed with the county elections official.

This bill would authorize the delivery of these documents to the county elections official by a person other than the candidate.

Ch. 99 (AB 2276) Dymally. Horse racing: backstretch workers.

Existing law establishes a welfare fund for the benefit of backstretch personnel and horsemen, and requires that every employer of backstretch workers, upon request, submit or provide access to the administrator of the welfare program any employment records necessary for prompt payment of benefits and proper administration of the program.

This bill would require those employers, upon request, to submit in writing or electronically to the administrator of the welfare program any employment records necessary for prompt payment of benefits and proper administration of the program. It would separately require those employers to provide the administrator of the program access to those records.

Ch. 100 (AB 2919) Ridley-Thomas. Workers' compensation: physician assistant: nurse practitioner.

Existing workers' compensation law generally requires employers to secure the payment of workers' compensation, including medical treatment, for injuries incurred by their employees that arise out of, or in the course of, employment. Existing law, until January 1, 2006, authorizes medical treatment of a work-related injury to be provided by a state licensed physician assistant or nurse practitioner, acting under the review or supervision of a physician and surgeon pursuant to standardized procedures or protocols within their lawfully authorized scope of practice.

This bill would eliminate the January 1, 2006, repeal date thereby extending the operation of this provision indefinitely.

Ch. 101 (SB 1465) Kuehl. Production of evidence: employment records.

Existing law requires a subpoena duces tecum for the production of various kinds of records, including employment records. Existing law defines "employment records" as specified material maintained by the current or former employer of the employee.

This bill would revise and expand the definition of "employment records" to include records maintained by any labor organization, as defined, representing the employee and make related changes.

Ch. 102 (SB 1284) Morrow. Court files: confidentiality.

Existing law governs the management and preservation of trial court records and recognizes that court records are generally public records, unless a specific exception applies. Existing law also provides for child custody evaluations, investigations, and assessments in contested proceedings involving child custody or visitation rights.

This bill would establish procedures for keeping the reports containing psychological evaluations of a child or recommendations regarding custody of, or visitation with, a child, that are submitted to the court in any proceeding involving child custody or visitation, in the confidential portion of court files. The bill would make this information available only to specified persons.

Ch. 103 (SB 1413) Brulte. Abandoned newborns: safe surrender: liability.

Existing law provides until January 1, 2006, that a parent or other individual having lawful custody of a minor child 72 hours old or younger who surrenders physical custody of the

child to personnel at a safe-surrender site, as defined, may not be prosecuted for crimes related to child abandonment and neglect.

This bill would provide that no person who, without compensation and in good faith, provides assistance for the purpose of effecting the safe surrender of a minor 72 hours old or younger shall be civilly liable for injury to, or the death of, the minor child as a result of any of his or her acts or omissions. The bill would define "assistance" as transporting the minor child to the safe surrender site as a person with lawful custody, or transporting or accompanying the parent or person with lawful custody at the request of the parent to affect the safe surrender, or performing any other act in good faith for the purpose of effecting the safe surrender of the minor. This bill would provide that this immunity does not apply to willful acts or omissions constituting gross negligence, recklessness, or willful misconduct.

Existing law provides that no parent or other individual having lawful custody of a minor child 72 hours old or younger may be prosecuted for a failure to furnish necessary clothing, food, shelter, or medical assistance to a child, or deserting a child with intent to abandon the child, or abandoning or refusing to maintain his or her child and representing the child as an orphan in certain circumstance, if he or she voluntarily surrenders physical custody of the child to personnel on duty at a safe-surrender site.

This bill would define lawful custody for those purposes.

#### Ch. 104 (SB 761) McPherson. Bail services.

Existing law requires that certain information be provided in a written undertaking of bail.

This bill would require, in addition, that an undertaking of bail include the bail agent license number and other specified information.

#### Ch. 105 (AB 987) Keene. School finance: necessary small schools.

(1) Existing law provides that a unified school district that meets certain criteria is eligible to receive apportionments pursuant to the schedules for a necessary small school and a necessary small high school, as specified. Existing law requires a school district that receives those apportionments to report to the State Department of Education and the Department of Finance by July 1, 2001, concerning the plan of the district to address its need for additional funding after the January 1, 2005, date of repeal of this authority.

This bill would delete that reporting requirement.

(2) Under existing law, these provisions become inoperative on July 1, 2004, and are repealed as of January 1, 2005.

This bill would delete the repeal date, thereby extending the operation of these provisions indefinitely.

(3) This bill would declare that it would take effect immediately as an urgency statute.

#### Ch. 106 (AB 2171) Benoit. Teacher credentialing: special education.

Existing law authorizes the Commission on Teacher Credentialing to issue a two-year services credential with a specialization in pupil personnel services, solely for the purpose of counseling deaf and hearing-impaired pupils as a school counselor or psychologist, to any prelingually deaf candidate upon medical or other appropriate professional verification, provided the candidate meets specified minimum requirements. This credential authorizes the holder to serve at all grade levels as a school counselor or psychologist of deaf and hearing-impaired pupils who are enrolled in state special schools or in special classes for pupils with hearing impairments.

This bill would additionally authorize the issuance of this credential for the purpose of providing services to these pupils as a school social worker and authorize the holder to similarly serve as a school social worker.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 107 (SB 1784) Karnette. Vehicles: collector motor vehicles.

Existing law sets forth definitions for purposes of governing the statutory construction of the Vehicle Code.

This bill would define the term “collector motor vehicle” for these purposes.

Ch. 108 (SB 1136) Chesbro. Lake County Flood Control and Water Conservation District.

Under existing law, the State Water Resources Control Board and the California regional water quality control boards prescribe waste discharge requirements for the discharge of storm water by municipalities and industries in accordance with the federal national pollutant discharge elimination system (NPDES) permit program established by the Clean Water Act, and the Porter-Cologne Water Quality Control Act. Existing law, the Lake County Flood Control and Water Conservation District Act, prescribes the powers and purposes of the Lake County Flood Control and Water Conservation District.

This bill would change the name of the district to the Lake County Watershed Protection District and would make related conforming changes. The bill would authorize the district to participate alone, or jointly with Lake County, or cities or districts within Lake County, in the NPDES permit program in accordance with the Clean Water Act. The bill would authorize the district to impose and collect fees to carry out the purposes of the district.

Ch. 109 (AB 2518) Keene. State parks: concession contracts.

Existing law authorizes the Department of Parks and Recreation to enter into contracts for the construction, maintenance, and operation of concessions within units of the state park system for the safety and convenience of the general public in the use and enjoyment of, and the enhancement of recreational and educational experiences at, units of the state park system. Existing law provides that the maximum term of those concession contracts is 10 years, or up to 20 years, if the Director of Parks and Recreation makes specified determinations. Existing law prohibits the term of a concession contract from exceeding 20 years without specific authorization by statute.

This bill would authorize the department to enter into concession contracts for the development, operation, and maintenance of marinas, for a term of up to 30 years, if the director determines that this longer term is necessary to allow for amortization of the loan, or to serve the best interests of the state.

Ch. 110 (SB 1328) Torlakson. Housing: tenants: notices.

(1) Existing law, until January 1, 2011, requires, prior to the anticipated date of the termination of a subsidy contract, expiration of rental restrictions, or prepayment on an assisted housing development, as defined, that the owner proposing the termination, as defined, or prepayment of governmental assistance or the owner of an assisted housing development, as defined, in which there will be the expiration of rental restrictions provide a notice of the proposed change to each affected tenant household residing in the assisted housing development and to the affected public entities. Those defined terms are limited to certain federal subsidy programs.

This bill would include additional federal, state, local, and private subsidy programs within the definitions of “assisted housing development,” “prepayment,” and “termination” and would define “low or moderate income” and “very low income” for those purposes. The bill would also require the notice to contain additional specified information.

(2) Existing law provides that an owner of an assisted housing development shall not sell, or otherwise dispose of, the development in a manner that would result in either (a) a discontinuance of its use as an assisted housing development, or (b) the termination or expiration of any low-income use restrictions that apply to the development, unless the owner or its agent shall first have provided specified entities an opportunity to submit an offer to purchase the development.

This bill would delete the conditions specified in (a) and (b), above, thereby extending the prohibition to all assisted housing developments. The bill would limit the prohibition to the sale or disposal of the housing development within a specified 5-year period.

(3) Existing law exempts an owner from the requirement to notify assisted housing tenants prior to prepayment if specified conditions are met.

This bill would include notices relating to the termination of a subsidy contract within that exemption, and would revise those conditions, as specified.

(4) The bill would become operative on July 1, 2005.

Ch. 111 (AB 2470) Kehoe. Water conservation programs.

Existing law authorizes a public entity to undertake water conservation and public education programs in conjunction with school districts, public libraries, or any other public entity.

This bill would authorize a public entity to undertake water conservation and public education programs using an informational booklet or materials for use in connection with the use or transfer of real estate containing up to four residential units. The bill would provide that if those materials are delivered to a transferee in connection with the transfer of real property, the seller or broker is not required to provide information concerning water conservation and water conservation programs that is additional to that contained in those materials.

Ch. 112 (SB 1766) McPherson. Delta Charter High School: geographical boundaries.

The Charter Schools Act of 1992 authorizes any one or more persons to submit a petition to the governing board of a school district to establish a charter school that operates independently from the existing school district structure as a method of accomplishing specified goals. The existing act provides that a charter school is generally exempt from the laws governing school districts, except as specified in the act. The existing act deems a charter school to be under the exclusive control of the officers of the public schools with regard to the appropriation of public moneys allocated to a charter school. The existing act requires a charter school to provide pupils with certain basic instructional services and to perform specified administrative functions.

The existing act requires that each petition for the establishment of a charter school that is submitted to a chartering agency, or for which a renewal is sought, shall identify a single charter school and specifies various geographic and site requirements for the establishment of that school and for the renewal of its charter.

This bill would exempt from those requirements the Delta Charter High School that is located within Santa Cruz County. The bill would also make a declaration of special circumstances in that regard.

Ch. 113 (SB 1208) Vincent. Teachers: state basic skills proficiency test.

Existing law prohibits the governing board of a school district from initially hiring, on a permanent, temporary, or substitute basis, a certificated person unless that person has demonstrated basic skills proficiency or is exempted from the requirement. Existing law exempts, among others, from that prohibition, a certificated person, who has been employed in a position requiring certification in any school district within 39 months prior to employment with the district.

This bill would also exempt from that prohibition a retired certificated employee who has taught 15 years or more in a California public school and who meets other specified requirements.

Ch. 114 (SB 1770) Committee on Local Government. Special districts: securitized limited obligation notes.

Existing law authorizes special districts to borrow money and incur indebtedness to meet short-term needs by action of the legislative body of the special district.

This bill would authorize certain special districts, until December 31, 2009, to issue securitized limited obligation notes that are exempt from state and local taxation after the adoption of a resolution by a  $\frac{4}{5}$  vote of all members of the legislative body of the special district. The bill would subject the issuance of the notes to certain requirements, including a requirement that the notes may not mature later than 10 years after the date of the issuance of the notes and a requirement that the amount of the notes outstanding at any one time may not exceed the sum of \$2,000,000.

Ch. 115 (AB 1920) La Malfa. Civil rights: interference.

Existing law makes it a misdemeanor to, by force or threat of force, willfully injure, intimidate, interfere with, oppress, or threaten any other person in the free exercise or enjoyment of any right or privilege secured by constitution or other law because of the other person's actual or perceived race, color, religion, ancestry, national origin, disability, gender, or sexual orientation. Existing law also makes it a misdemeanor to knowingly deface, damage, or destroy the real or personal property of any other person, for the purpose of intimidating or interfering with the free exercise or enjoyment of any of those rights for any of those reasons. These misdemeanors are punishable by not more than one year in a county jail, a fine not exceeding \$5,000, or by both that fine and imprisonment. The court also must order community service be performed by each violator, as specified.

This bill would state that conduct amounting to one of these offenses that also violates any other provision of law may be charged under all applicable provisions, but may only be punished once, as specified.

Ch. 116 (AB 141) Cohn. Domestic violence: evidence.

Under existing law, evidence of a person's character, such as opinion or specific instances of conduct, is generally not admissible to prove a defendant's conduct on a particular occasion, with specified exceptions. Existing law provides, however, that when a defendant is accused of domestic violence in a criminal action, evidence of the defendant's prior acts of domestic violence may be admitted to prove the defendant's conduct, except as to the findings and declarations of a regulatory agency or when the acts occurred more than 10 years ago or the court exercises its discretion to exclude the evidence of prior acts, as specified.

This bill would expand the definition of "domestic violence" for these purposes, as specified.

Ch. 117 (SB 1485) Burton. Physical therapy.

Existing law, the Physical Therapy Practice Act, regulates the practice of physical therapy by the Physical Therapy Board of California in the Department of Consumer Affairs, and provides that a violation of the act is a crime. Existing law defines "physical therapy" and "physical therapist" for purposes of the act.

This bill would revise the definition of "physical therapy" to include the promotion and maintenance of physical fitness to enhance the bodily movement related health and wellness of individuals through the use of physical therapy interventions. The bill would also revise the definition of a physical therapist and define a physical therapist technician for purposes of the act.

Ch. 118 (SB 1165) Committee on Local Government. Local Government Omnibus Act of 2004.

(1) Existing law makes it a misdemeanor punishable by a fine not to exceed \$1,000 to file a false fictitious business name statement with the county clerk. Existing law requires the county clerk to furnish without a charge a form with respect to filing that statement.

This bill would revise the requirements of that form to correctly state that the fine may not exceed \$1,000.

(2) Existing law imposes various duties on the county clerk, the clerk of the court, and other county officials.

This bill would amend various provisions of law to clarify that certain of those duties are not assigned to the county clerk.

(3) Existing law that authorizes local government officials to levy benefit assessments to raise revenue to fund control of winegrape pests generally refers to the board of supervisors in those provisions.

This bill would replace “legislative body” with “board of supervisors” in several related provisions.

(4) Existing law permits the board of supervisors in counties having a population of less than 200,000 to authorize the purchasing agent to make contacts for services with independent contractors when the cost does not exceed \$50,000 which may be adjusted by any annual increase in the California Price Index.

This bill would change that reference to the California Consumer Price Index.

(5) Existing law requires county officials to post public notices of county supervisors’ proceedings at the courthouse door.

This bill instead would require the notices to be posted at the meeting place of the board of supervisors in a location that is freely accessible to the public.

Existing law also requires county officials to post public notices of these proceedings at 2 other public places in the county.

This bill would authorize, as an alternative, the posting of the notices on a county Web site.

(6) Existing law requires the county clerk to collect a fee of \$2 per signature for any document that he or she is required to authenticate pursuant to court order.

This bill would repeal that provision.

(7) Existing law provides that money in the treasury of a local agency or in the custody of a local agency officer that is unclaimed for 3 years is the property of the local agency after newspaper publication of notice if no verified complaint is filed and served. The legislative body of the local agency may transfer that unclaimed money from a special fund to the general fund.

This bill would provide that, with respect to unclaimed items in the amount of \$1,000 or less, the legislative body of any county may authorize by resolution the county treasurer to perform on its behalf the claiming and transfer of unclaimed money, as described.

(8) Existing law authorizes a county board of supervisors or city council to permit mineral extraction that is not a compatible use from land that is under a Williamson Act land conservation contract subject to specified conditions.

This bill would correct a statutory cross-reference in that provision and make technical nonsubstantive changes.

(9) Existing law restricts the types of investments that local government officials may utilize for temporarily idle funds and defines related terms.

This bill would define “corporation” for the purpose of these provisions as including a limited liability corporation.

(10) Existing law authorizes a county or a city and county to invest funds using specified criteria.

This bill would revise those criteria, as specified.

(11) Existing law generally requires any state or local agency, prior to disposing of surplus land, to send a written offer to sell or lease the property to certain other public entities, depending upon the purposes for which the land is suitable.

This bill would delete as obsolete the requirement to send a written offer to sell or lease any surplus property in a designated program area to the program area agent.

(12) Existing law authorizes the legislative body of any local agency to contract with any other local agency for the furnishing of fire or police protection to the other local agency.

This bill would revise the definition of local agency for purposes of that authorization to include a joint powers authority that provides fire protection services.

(13) Existing law provides that an approved or conditionally approved tentative map expires after 24 months unless extended pursuant to a local ordinance not to exceed an additional 12 months. However, if the subdivider is required to spend \$125,000 or more for offsite public improvements, the expiration date is extended by 36 months. The amount that is required to be expended on those improvements to cause the 36-month extension is annually increased by the State Allocation Board by a prescribed procedure.

This bill would change the base \$125,000 amount to \$178,000.

(14) Existing law requires the legislative body of a city or county to include as a condition in any tentative map that includes a subdivision a requirement that a sufficient water supply shall be available.

This bill would correct a cross-reference to this requirement.

(15) Existing law provides that existing and new memorial districts shall not be subject to the District Investigation Act of 1933, which has been repealed.

This bill would repeal this obsolete provision.

(16) Existing law relating to municipal utility districts, prohibits the board of directors from passing an ordinance within 3 days of its introduction and requires ordinances to be published after passage once a week for 2 weeks in a newspaper of general circulation published within the district.

This bill instead would prohibit the passage of an ordinance within 5 days of its introduction. The bill would permit the publication of an ordinance to be satisfied by the publication of a summary of an ordinance meeting prescribed requirements.

(17) Existing law prohibits an airport district from providing spaceports and landing places for space reentry traffic unless it has been designated as a spaceport.

This bill would correct an obsolete cross-reference in that prohibition.

(18) Existing law states that directors of districts formed under the California Water District Law that have been elected or appointed pursuant to the Uniform District Election Law shall take office at noon on the last Friday in November following the general district election.

This bill would change that date to the first Friday in December next following the general district election.

(19) Existing law requires that contracts and other documents executed by a water replenishment district shall be signed by the president and the secretary.

This bill instead would require that all contracts and other documents executed by the district that require or authorize the district to expend \$10,000 or more shall be authorized by the board of directors and signed by the president and the secretary except that the board may, by resolution for a specific expenditure, authorize a district representative to sign contracts or other documents not to exceed \$25,000. The bill would also authorize the district manager or other authorized representative to approve and sign contracts and documents to expend less than \$10,000, as specified.

(20) Existing law requires that the Ralph M. Brown Act apply to meetings of the County Medical Services Program Governing Board.

This bill would make several technical, nonsubstantive changes to that requirement.

Ch. 119 (SB 1407) Kuehl. Community property: separate property contributions.

Existing law regulates the division of property upon the dissolution of marriage or the legal separation of the parties. Existing law provides for reimbursement, as specified, of a party's contributions to the acquisition of community property to the extent the party traces the contributions to a separate property source, unless the party has waived this right. Existing law, relating to the characterization of marital property, addresses the application of separate property for specified debts under certain circumstances, and establishes specific conditions governing the right of reimbursement in this regard.

This bill would require, in connection with the division of property upon the dissolution of marriage, that a party be reimbursed for the party's separate property contributions to the acquisition of property of the other spouse's separate property estate during the marriage, unless there has been a transmutation in writing, as specified, or a written waiver of this right. The bill would require that the reimbursed amount be without interest or adjustment for change in monetary value and would prohibit it from exceeding the net value of the property at the time of the division.

Ch. 120 (SB 382) Oller. Community care facilities: notice.

Existing law, the California Community Care Facilities Act, provides for the licensure and regulation of community care and residential facilities, including group homes, by the State Department of Social Services. Under existing law, a violation of any of these provisions is punishable as a misdemeanor.

Existing law requires the director or county licensing agency, before approving an application for a new residential care facility, to notify the city or county of the proposed location of the facility, and authorizes a city or county to request denial of the license on the basis of overconcentration of residential care facilities.

This bill would make technical, nonsubstantive changes to existing law.

Ch. 121 (AB 2352) Jackson. Residential care facilities for persons with chronic, life-threatening illness.

Existing law provides for the licensure and regulation of residential care facilities for persons with chronic life-threatening illness by the State Department of Health Services. For purposes of these provisions, a chronic, life-threatening illness means HIV disease or AIDS.

This bill would authorize a residential care facility for persons with chronic, life-threatening illness to permit a person who has been diagnosed by his or her physician and surgeon as terminally ill, as defined, to become a resident of the facility if the person receives hospice services from a hospice that is certified in accordance with federal Medicare conditions of participation and that is licensed as a hospice or home health agency pursuant to state law.

Ch. 122 (SB 1288) Karnette. Horse racing: distributions.

Existing law requires that the total percentage deducted from wagers at satellite wagering facilities in the northern, central, and southern zones be the same as deductions for wagers at the racetrack where the racing meeting is being conducted. From this amount, existing law provides for specified distributions, including a distribution of 0.4% of the amount handled at satellite wagering facilities on standardbred races for the California Standardbred Sires Stakes Program. After specified distributions, existing law provides that the balance of the deduction from wagers on harness races at satellite wagering facilities be divided equally between commissions for the association that conducts the harness racing meeting and purses for the horsemen participating in that racing meeting.

This bill would require an additional amount equal to 0.1% of the amount handled at satellite facilities on harness race wagers to be distributed to the California Standardbred Sires Stakes Program out of the share of the deduction dedicated to purses for harness horsemen as specified above.

Ch. 123 (SB 1872) Denham. Insurance: state departments.

Existing law, with certain exceptions, places specified restrictions on the ability of a state department or agency to negotiate life or disability insurance or an annuity, or to require the placing of that insurance or annuity through particular agents, brokers, or companies.

This bill would exempt the University of California from those restrictions.

Ch. 124 (AB 891) Runner. School employees: sex offenses.

Existing law sets forth the duties of various private and public entities, including, but not limited to, county boards of education and school districts, with regard to the employment and certification of persons who have been convicted of specified sex offenses.

This bill would, for those purposes, include the offense of continuous sexual abuse of a child, as defined, within the definition of sex offense.

By imposing additional duties on a county board of education and school district to, among other things, suspend or terminate the employment of a person who is convicted of this type of sex offense, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 125 (AB 1618) Firebaugh. Railroad corporations: runaway trains.

(1) Existing law sets forth the powers and duties of railroad corporations. Existing law authorizes the Public Utilities Commission, after a hearing, to require every public utility to construct, maintain, and operate its line, plant, system, equipment, apparatus, tracks, and premises in a manner so as to promote and safeguard the health and safety of its employees, passengers, customers, and the public.

This bill would require the commission to require every railroad corporation operating in this state to develop, within 90 days of the effective date of the bill, in consultation with, and with approval by, the Office of Emergency Services, a protocol for rapid communications with that office, the Department of the California Highway Patrol, and designated county public safety agencies in an endangered area if there is a runaway train or any other uncontrolled train movement that threatens public health and safety. The bill would require a railroad corporation to promptly notify the office, the department, and those agencies, through a communication to the Warning Center of the office, if there is such a runaway train or other uncontrolled train movement, in accordance with the communications protocol developed pursuant to the bill.

(2) A violation of an order or decision of the commission is a crime.

This bill, by requiring the commission to impose a new requirement on railroad corporations, the violation of which would be a crime, would create a new crime, thereby imposing a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 126 (AB 1929) Samuelian. Firefighters: employment by cities and counties.

(1) Existing law authorizes a fire protection district or the fire department of a county or city, including a charter city, to appoint as a member or officer any person who was serving as a civilian federal firefighter of any United States military installation within the state, who was terminated as a consequence of the closure of the military installation.

This bill would extend this provision to the appointment by any local government of any permanent career firefighter terminated by the state or a local government as a result of job elimination.

(2) Existing law authorizes the California Firefighter Joint Apprenticeship Program to prepare and circulate a list of permanent career civilian federal firefighters eligible for appointment.

This bill would authorize that list to include eligible state and local government firefighters.

Ch. 127 (AB 1937) Corbett. Sex offenders.

Existing law requires a person convicted of any of certain specified sexual offenses to register with local law enforcement for the rest of his or her life while residing, located, attending school, or working in California, as specified.

This bill would require any state or local governmental agency, upon written request, to provide to the Department of Justice the address of any person represented by the department to be a person who is in violation of his or her duty to register under these provisions.

Because this bill would require local agencies to perform new duties, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 128 (AB 2492) La Suer. Adoption: preplacement evaluations.

Existing law provides that a licensed private adoption agency may certify prospective adoptive parents by a preplacement evaluation that contains findings of suitability.

This bill would revise and recast that provision to specify that preplacement evaluations may be made by a licensed private or public adoption agency of the state of the petitioners' residency.

Ch. 129 (AB 2550) Steinberg. Continuing care contracts.

(1) Existing law provides for the regulation by the State Department of Social Services of activities relating to continuing care contracts that govern care provided to an elderly resident in a continuing care retirement community for the duration of the resident's life or a term in excess of one year.

Existing law requires each provider to compute its liquid reserve requirement as of the end of the provider's most recent fiscal yearend based on its audited financial statements for that period and, at the time it files its annual report, to file a form certifying certain financial information.

Existing law also requires each provider to complete the same form and file it with the department within 45 days following the conclusion of each quarter during the provider's fiscal year, and requires that for each quarterly report, the amount the provider is required to designate for its debt reserve and operating expense reserve shall be based on the provider's audited financial statements for its most recently completed fiscal year.

This bill would repeal the requirement for a quarterly report, and would make conforming changes to asset valuation requirements.

(2) Existing law requires each provider to include in its liquid reserve a reserve for its operating expenses in an amount that equals or exceeds 45 days' net operating expenses.

This bill would extend that period to 75 days.

(3) Existing law, until January 1, 2005, establishes requirements for the department to implement a trial program and report to the Legislature on assessing long-term care provider

solvency, and requires each provider to obtain an actuarial study and file it with the department, except under specified circumstances.

This bill would, commencing January 1, 2005, require each provider to file annually with the department a financial report disclosing key financial ratios and other key indicators in a form determined by the department. The bill would also require any provider that has entered into a continuing care contract that has certain features to submit to the department, at least once every 5 years, an actuary's opinion as to the provider's actuarial financial condition.

Ch. 130 (AB 2566) Nakano. Boating: noise levels.

Existing law prohibits a person from operating a motorized recreational vessel in or upon the inland waters, or in or upon ocean waters that are within one mile of the coastline of the state, in a manner that exceeds specified noise levels. A violation of this provision is a crime under existing law.

This bill, instead, would prohibit the owner of a motorized recreational vessel that is numbered by the Department of Motor Vehicles, as specified, or that is documented by an agency of the federal government, from operating, or authorizing the operation of, the vessel in or upon the inland waters, or in or upon ocean waters that are within one mile of the coastline of the state, in a manner that exceeds the specified noise levels.

Ch. 131 (AB 2671) Pacheco. Commercial law: banking transactions.

Existing commercial law requires a depository institution to provide periodic account statements to its customers and requires that the depository institution either return or make available items paid from the account or provide information in the statement sufficient to allow the customer reasonably to identify the items paid. Until January 1, 2005, the listing of the item number, the amount, and the date the item was paid is sufficient to identify the items paid. This provision on describing items will cease to be operative on January 1, 2005.

This bill would extend the operation of that provision until January 1, 2010.

Ch. 132 (AB 3099) Committee on Elections, Redistricting and Constitutional Amendments. Recall elections: vote count.

Existing statutory law prohibits a voter in a recall election from voting for a candidate to replace an officer unless he or she first votes for or against the recall of that officer. This law was found unconstitutional by the United States District Court for the Southern District of California in *Partnoy v. Shelley* (S.D. Cal. 2003) 277 F.Supp. 1064.

This bill would repeal the statutory law.

Ch. 133 (AB 1939) Cox. California State Military Museum and Resource Center.

Existing law requires the Adjutant General to establish a California State Military Museum and Resource Center as a repository for military artifacts, memorabilia, equipment, documents, and other items related to the history of the California National Guard and memorabilia related to the Civil War.

This bill would designate the California State Military Museum and Resource Center as the official state military museum.

Ch. 134 (AB 2026) Hancock. Youth pilot program: extension.

Existing law authorizes designated participating counties to establish a child and family interagency coordinating council to implement various aspects of a youth pilot program. Under the pilot program, various children's services funds may be transferred to a designated county fund for services for children and families. Existing law requires the program to be implemented on January 1, 1995, July 1, 1995, or January 1, 1996, and terminates the program on July 1, 2004.

This bill would, with certain exceptions, extend the operative duration of the youth pilot program to January 1, 2009.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 135 (AB 1907) Pacheco. Arson.

Existing law defines the crime of aggravated arson, and makes a person guilty of that crime if the fire caused property damage and other losses in excess of \$5,000,000. Existing law specifies costs to be included in calculating property damage for purposes of these provisions. Existing law repeals the provisions relating to property damage on January 1, 2005.

This bill would increase the amount of property damage and other losses to \$5,650,000 and would extend the repeal date for the provisions relating to property damage until January 1, 2010. By extending the operative effect of an existing crime and changing the definition of an existing crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 136 (AB 1848) Harman. Certification of trusts: change of trustee.

Existing law governs the establishment and recordation of trusts. Existing law authorizes a trustee to present a certification of trust to any person in lieu of providing a copy of the trust instrument to establish the existence or terms of the trust, as specified.

Existing law also makes it a felony to knowingly offer a false document to be recorded in any public office.

This bill would authorize any person to record a certification of trust that relates to an interest in real property. The bill would also authorize a successor trustee to execute and record an affidavit of change of trustee if title to an interest in real property is affected by a change of trustee. The bill would require the county recorder to index this document, as specified. The bill would require the county recorder to impose any fee prescribed by law for recording and indexing these documents. The bill would make related changes. By imposing new duties on county recorders, the bill would create a state-mandated local program. In addition, because knowingly offering a false document to be recorded in any public office is a felony, by expanding the class of documents that may be recorded, the bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for specified reasons.

Ch. 137 (AB 1802) Bogh. Illegal dumping: penalties.

Existing law makes illegal specified acts relating to dumping waste matter, rocks, or dirt in certain locations without obtaining consent. Existing law requires that a person convicted of dumping waste matter in commercial quantities in violation of these provisions be punished by the imposition of a fine in an amount that varies based upon the person's previous convictions for this offense, as specified.

This bill would add asphalt and concrete to the material that may not be dumped in certain locations. It would increase the amounts of the fines imposed for dumping waste matter in commercial quantities, as specified.

Ch. 138 (AB 2269) Committee on Veterans Affairs. County veteran service officers: funding.

Existing law authorizes each county board of supervisors to appoint a county veteran service officer, and permits the county to provide the officer with any assistance and facilities that it determines to be necessary. Existing law requires the Department of Veterans Affairs

to disburse funds, appropriated to the department for the purpose of supporting county veteran service officers pursuant to the annual Budget Act, on a pro rata basis to counties that comply with certain conditions. Commencing January 1, 2006, existing law includes the condition that county funds be allocated to county veteran service officers in an amount not less than that allocated in the 1988–89 fiscal year.

This bill would instead, commencing January 1, 2011, include the condition that county funds be allocated to county veteran service officers in an amount not less than that allocated in the 1988–89 fiscal year.

Ch. 139 (AB 61) Dymally. Compton Community College District: special trustee.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law requires the board of governors to appoint a chief executive officer, known as the Chancellor of the California Community Colleges. Existing law authorizes the establishment of community college districts, such as the Compton Community College District, under the administration of community college governing boards, such as the Board of Trustees of the Compton Community College District. Existing law authorizes the board of governors to provide, by regulation, for the appointment of a special trustee to manage a district that fails to achieve fiscal stability.

This bill would, until January 1, 2008, permit the board of governors to authorize the chancellor to suspend, for a period of up to one year, the authority of the Board of Trustees of the Compton Community College District, or of any of the members of that board, to exercise any powers or responsibilities or to take any official actions with respect to management of the district or any of the district's assets, contracts, expenditures, facilities, funds, personnel, or property. The bill would authorize the chancellor, with the prior approval of the board of governors, to renew a suspension as often as he or she finds it necessary. If and when the chancellor suspends the authority of the board of trustees or any of its members pursuant to the bill, the bill would authorize the chancellor to appoint a special trustee, in accordance with specified regulations of the board of governors, at district expense, to manage the district. The bill would authorize the chancellor to assume, and delegate to the special trustee, those powers and duties of the board of trustees that the chancellor determines, with the approval of the board of governors, are necessary for the management of the district. The bill would prohibit the board of trustees from exercising any of the duties or powers assumed by the chancellor under the bill.

The bill would make a finding and declaration of the Legislature regarding the inapplicability of a general statute within the meaning of Section 16 of Article IV of the California Constitution.

The bill would require the board of governors, in the event that it determines that it may be necessary to maintain the authority granted by the bill beyond January 1, 2008, to make that recommendation, and its reasons therefor, in writing, to the Legislature and the Governor no later than July 1, 2007.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 140 (AB 2069) Chavez. Real estate.

Existing statutes enacted in 2003 revised certain provisions of the Real Estate Law pertaining to a multilender transaction and defined the term "current market value" for the purposes of construction and rehabilitation loans, but two different statutes added the same articles with the same section numbers to the Real Estate Law. However, only the provisions of one of the statutes included all of the provisions of the other statute.

This bill would repeal the provisions of the statute that does not include all of the provisions of the other statute.

Ch. 141 (AB 2313) Chan. Health Insurance Portability and Accountability Act.

Existing law, the Health Insurance Portability and Accountability Implementation Act of 2001, makes an office established by the Governor within the Health and Human Services Agency responsible for implementing the provisions of the federal Health Insurance Portability and Accountability Act (HIPAA). Under the act, that office is required until January 1, 2005, to determine the provisions of state law that are preempted by HIPAA, at which time those provisions will be repealed.

This bill would extend to January 1, 2008, the requirement that the office determine what state law is preempted.

Ch. 142 (SB 218) Sher. Surface mining and reclamation.

Existing law requires the Department of Conservation, for purposes of complying with certain provisions regarding public contracts, to publish or otherwise make available, upon request, to the Department of General Services or a state agency, a list identifying certain surface mining operations. Existing law prohibits an operator of surface mines in this state, whose operations are not identified in that list, from selling California mined material to a local agency.

This bill would specify that the list is also compiled for purposes of ensuring compliance with that prohibition, and would require the department to make the list available, upon request, to a local agency.

Ch. 143 (SB 1558) McPherson. Small business financial development corporations.

Existing law, the California Small Business Financial Development Corporation Law, establishes small business financial development corporations and provides for their regulation by the Executive Director of the California Office of Small Business Development in the Trade and Commerce Agency. Chapter 229 of the Statutes of 2003 abolished the Trade and Commerce Agency and provided for the Business, Transportation and Housing Agency to assume various duties of the Trade and Commerce Agency, including duties of the California Office of Small Business Development with regard to the Small Business Loan Guarantee Program.

This bill would make various changes to the California Small Business Financial Development Corporation Law to reflect the duties assumed by the Business, Transportation and Housing Agency. The bill would make other related changes.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 144 (SB 1815) Johnson. Building permits.

The State Housing Law authorizes cities and counties to prescribe fees for permits required or authorized pursuant to the State Housing Law.

This bill would provide that a permittee is entitled to reimbursement of permit fees if the local enforcement agency fails to conduct an inspection of the permitted work within 60 days of receiving notice that the work is completed. The bill would require the agency to notify the permittee of this requirement on the permit or an accompanying document. This requirement would create a state-mandated local program by imposing new duties on local agencies.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 145 (SB 1823) Hollingsworth. Economic development.

(1) The Enterprise Zone Act requires the Department of Housing and Community Development to administer the act and to designate no more than 42 enterprise zones at any one time that may be proposed by a city, county, or city and county from applications selected on the basis of the most effective, innovative, and comprehensive regulatory, tax program,

and other incentives in attracting private sector investment in the zone proposed. The act also requires the department to approve the expansion of an enterprise zone and to designate up to 2 Manufacturing Enhancement Areas requested by the governing boards of cities pursuant to specified criteria.

For these purposes, the act defines “agency” as the Department of Housing and Community Development.

This bill would instead delete the definition of “agency” and insert the definition of “department” to refer to the Department of Housing and Community Development and would make conforming changes throughout the act.

(2) Existing law abolished the Technology, Trade, and Commerce Agency and did not provide for the transfer of the duties of that agency regarding the Targeted Tax Areas program and the Local Agency Military Base Recovery Act.

This bill would transfer these responsibilities to the Department of Housing and Community Development and make other conforming changes.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 146 (SB 1910) Committee on Agriculture and Water Resources. Agriculture: fruit, nut, and vegetable standards.

Existing law generally creates standards for fruits, nuts, and vegetables. Existing law requires the Secretary of Food and Agriculture to create an industry-funded standardization program for the purpose of implementing these standards. Existing law requires the secretary to adopt regulations that he or she determines are reasonably necessary to carry out this program, including, but not limited to, establishing assessment rates and procedures for payment of assessments. Existing law repeals the standardization program provisions on January 1, 2005.

This bill would extend the repeal date until January 1, 2010.

Ch. 147 (AB 434) Hancock. Finances: City of Richmond.

Existing law authorizes a local agency, as defined, to borrow money, pursuant to a specified procedure, with the indebtedness represented by a note or notes issued to the lender. The procedure authorizes the local agency to pledge revenues to the payment of the note or notes and the interest, as specified, and makes any note issued a general obligation of the local agency to the extent it is not paid by the pledged revenues.

This bill would authorize the City of Richmond until January 1, 2006, to issue these notes and to pledge property tax revenues apportioned to the city for the payment of the notes according to a specified procedure.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 148 (SB 29) Figueroa. Medi-Cal: accelerated enrollment.

Existing law provides for the federal Medicaid program, administered by each state, California’s version of which is the Medi-Cal program. The Medi-Cal program, which is administered by the State Department of Health Services, provides qualified low-income persons with health care services.

Existing law requires the department, if sufficient funding is obtained and sufficient new staff is available, to adopt 2 electronic enrollment processes for the Medi-Cal program, one known as the Prenatal Gateway, which is for pregnant women to use when applying for Medi-Cal from a provider’s office, and the other known as the Newborn Hospital Gateway, which is for families to enroll a deemed eligible newborn in the Medi-Cal program from hospitals that have elected to participate in the process.

This bill would require the department to implement each electronic enrollment process within 12 months after the date upon which the conditions with respect to funding and sufficient staff have occurred.

Ch. 149 (SB 526) Torlakson. Redevelopment: referendum.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

(1) The Community Redevelopment Law requires redevelopment plans to include a time limit, not to exceed 12 years, for the commencement of eminent domain proceedings to acquire property within the project area and authorizes an extension of this time limit only pursuant to an amendment of the plan by ordinance. The ordinance is subject to referendum as prescribed by the law for ordinances of the legislative body, except that ordinances that provide for tax-increment financing or expand a project area subject to tax-increment financing are subject to prescribed requirements within the Community Redevelopment Law including a requirement that the county clerk approve the ballot measure language.

This bill would delete the requirement that the county clerk approve the ballot measure language, but would provide that any ordinance that is subject to referendum would also be subject to some of the above-described referendum requirements within the Community Redevelopment Law. By increasing the duties of local officials, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 150 (SB 1034) Murray. Recording contracts: royalties.

Existing law prescribes the rights of parties to contracts for various types of services.

This bill would authorize a royalty recipient under a contract for the production of sound recordings, notwithstanding any provision of the contract, to audit the books and records of a royalty reporting party, as defined, to determine if the royalty recipient has earned all of the royalties due pursuant to the contract. The bill would require the royalty recipient to retain a qualified royalty auditor to conduct the audit and would prescribe other requirements and limitations.

The bill would make related findings and declarations.

Ch. 151 (SB 1134) Chesbro. Employment of minors: agricultural packing plants.

Existing law prescribes limits on the hours of employment of minors, but authorizes the Labor Commissioner to grant an exemption to employers operating agricultural packing plants for employment of minors 16 and 17 years of age for up to 10 hours per nonschool day during peak harvest season. Under existing law, which will be repealed January 1, 2005, that exemption may additionally authorize employment of a minor who is enrolled in a school in Lake County to be employed for more than 48, but not more than 60, hours a week upon prior written approval by the Lake County Board of Education.

Existing law also requires the Labor Commissioner, prior to issuing the Lake County exemption or renewing an exemption, to inspect an affected agricultural packing plant, and to file a written report with the Legislature on or before March 1 of each year describing the general working conditions of minors employed in the agricultural packing industry during the past year, as specified. Existing law further requires an affected employer, on or before March 1 of each year, as a condition of receiving that exemption or a renewal of that exemption, to file a written report to the Labor Commissioner, as specified.

This bill would extend the operation of those provisions until January 1, 2008.

Ch. 152 (SB 1260) Murray. County employees' retirement: survivor allowance.

The County Employees Retirement Law of 1937 generally provides that, upon the death of a retired member of a county retirement system, the member's surviving spouse or children receive a survivor allowance equal to 60 or 65% of the retired member's retirement

allowance unless, at the time of retirement, the member elected to have the actuarial equivalent of his or her retirement allowance applied to a lesser retirement allowance in accordance with one of 4 specified optional settlements. Upon the death of a retired member of Retirement Plan E in Los Angeles County, the member's surviving spouse or children receive a survivor allowance equal to 55% of the retired member's retirement allowance unless, at the time of retirement, the member elected to have the actuarial equivalent of his or her retirement allowance applied to a reduced retirement allowance and an increased survivor allowance payable to his or her designated beneficiary.

This bill would, if approved by the county board of supervisors, authorize a member of the retirement system in Los Angeles County, or a member of Retirement Plan E in Los Angeles County, to elect at the time of retirement to have the actuarial equivalent of his or her retirement allowance and the survivor allowance applied to a reduced retirement allowance and an increased survivor allowance payable to the retired member's surviving spouse and children, as specified. The bill would also provide that if a retired member of Retirement Plan E in Los Angeles County has no surviving spouse or minor children at the time of his or her death, and if his or her accumulated normal contributions, if any, exceed his or her total retirement allowance income, the retired member's beneficiary shall be paid that excess income.

Ch. 153 (SB 1278) Committee on Natural Resources and Wildlife. Natural resources: forestry and fire protection.

(1) Existing law requires the Director of Forestry and Fire Protection, on or before December 1, 1995, to report to the appropriate committees of the Legislature on the impacts of designating very high fire hazard severity zones, as specified.

This bill would repeal that provision.

(2) Existing law requires the State Board of Forestry and Fire Protection, on or before November 1, 1988, to adopt regulations requiring maintenance of installed drainage facilities and soil stabilization treatments on skid trails, roads, and landings for at least one year, but not more than 3 years, after a work completion report is filed and approved.

The bill would delete the date restriction of November 1, 1988.

(3) Existing law requires the Department of Forestry and Fire Protection, on or before July 1, 1989, to report to the Governor and the Legislature on the adequacy of existing resource conservation standards in meeting specified resource conservation objectives and achieving the goal of maximum sustained production of high-quality timber products, as specified.

The bill would repeal that provision.

(4) Existing law requires the Department of Forestry and Fire Protection, in consultation with a specified advisory committee, to adopt, by January 1, 1989, a general plan for the Soquel Demonstration State Forest, as specified.

The bill would delete the date restriction of January 1, 1989.

Ch. 154 (SB 1285) Margett. Juvenile court: criminal history reporting.

Existing law requires the juvenile court to report the complete criminal history of any minor found to be a person adjudged to be a ward of the court because of the commission of a felony offense. Existing law requires the Department of Justice to retain this information and make it available, as specified.

Existing law also requires the department to collect data pertaining to the juvenile justice system for statistical purposes.

This bill would revise the latter provision to require the department to collect data pertaining to the juvenile justice system for criminal history and statistical purposes and make related changes.

Ch. 155 (SB 1310) Johnson. Metropolitan Water District of Southern California: complaints.

(1) Existing law, the Metropolitan Water District Act, until January 1, 2005, requires the Metropolitan Water District of Southern California to submit to the Legislature an annual report that includes a description of the complaints and certain other communications submitted to the district from member public agencies alleging unethical, unauthorized, or illegal activities by the district in the previous calendar year. The act requires the district to include in the report a description of the actions taken by the district in response to the complaints and litigation.

This bill would change that date to January 1, 2010. By extending the period during which the district is required to prepare and submit that annual report to the Legislature, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 156 (SB 1326) Perata. Recall elections.

Existing law requires that a recall petition that is circulated in more than one county bear the name of the county in which it is circulated.

This bill would require that the petition instead bear the name of the county for which it is circulated.

Ch. 157 (SB 1362) Figueroa. Solid waste: household hypodermic needles, syringes, and lancets: disposal.

The California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated waste management program. The act requires each county and city and county to prepare and submit to the board a countywide integrated waste management plan that includes, among other things, all city source reduction and recycling elements submitted to the county and the county's source reduction and recycling element. The act also requires cities and counties to prepare a household hazardous waste element for adoption in the countywide plan.

This bill would authorize the hazardous waste element to include a program for the safe collection, treatment, and disposal of sharps waste, as defined, generated by households.

The bill would authorize a permitted household hazardous waste collection facility, as specified, to operate as a home-generated sharps consolidation point under certain conditions.

Ch. 158 (SB 1382) Murray. Redevelopment.

(1) The Community Redevelopment Law requires, with specified exceptions, a redevelopment agency that includes in its redevelopment plan a provision for the division of taxes, as specified, to prepare a preliminary report and to submit this report to each affected taxing entity. Existing law specifies the contents of this report.

This bill would require the report to be prepared and sent no later than 90 days before the date set for a public hearing on the approval of a redevelopment plan by the legislative body, but would authorize the report to be sent no later than 21 days before that date if any one of several specified conditions is met. By increasing the duties of specified county officials, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 159 (SB 1441) Kuehl. Domestic violence: victims.

Existing law sets forth certain rights of victims of, and witnesses to, crime. Existing law provides that the victim of sexual assault or spousal rape has the right to have advocates present at any evidentiary, medical, or physical examination or interview by law enforcement authorities or defense attorneys, as specified.

This bill would provide that a victim of domestic violence or abuse has the right to have a domestic violence counselor and a support person of his or her choosing present at any interview by law enforcement authorities, district attorneys, or defense attorneys, as specified, and shall be notified orally or in writing by the attending law enforcement authority or district attorney of that right prior to the commencement of an initial interview.

Because this bill would require local officials to perform additional duties, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 160 (SB 1495) Machado. Insurance: fees: fraud.

Existing law generally regulates insurance institutions, agents, and brokers. Existing law prohibits insurers from engaging in certain practices.

This bill would require an insurer, after notice, to reimburse any fees and extra premium charged to an insured due to a late premium payment or a lapse in coverage under the policy if the late payment or lapse in coverage was the result of fraud committed by a licensed agent or broker and if specified events related to criminal or administrative charges against the agent or broker have occurred.

Ch. 161 (AB 152) Levine. Special education.

(1) Existing law establishes a right of individuals with exceptional needs to receive free appropriate public education and ensures the right to special instruction and related services needed to meet their unique needs, in conformity with federal law.

This bill would make various revisions generally conforming state law to federal requirements relating to: pupil identification, assessment, and eligibility; individualized education program development, including notice, representation, and hearing procedures and requirements; multidistrict special education local plan area monitoring, review, and correction procedures; and pupil data confidentiality, and would make other technical, nonsubstantive changes. To the extent that these revisions would impose new duties on local educational agencies, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 162 (AB 1249) Pacheco. Criminal procedure: subpoenas.

Existing law provides that when a subpoena duces tecum is served upon the custodian of records or other qualified witness of a business in a criminal action in which the business is

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

neither a party nor the place where any cause of action is alleged to have arisen, and the subpoena requires the production of all or any part of the records of the business, it is sufficient compliance therewith if the custodian or other qualified witness, within five days after the receipt of the subpoena or within a time otherwise agreed upon, delivers a copy of all the records described in the subpoena to the clerk of the court, the judge, or to another person, as specified. Existing law further provides that, as an alternative to these procedures, the subpoenaing party may direct the witness to make the records available for inspection or copying at the witness' business address under reasonable conditions during normal business hours, as defined.

This bill would preclude use of this alternative procedure in criminal actions. It would provide that, when a defendant has issued a subpoena to a person or entity that is not a party for the production of books, papers, documents, or records, or copies thereof, the court may order an in camera hearing to determine whether or not the defense is entitled to receive the documents. The bill would provide that the court may not order the documents disclosed to the prosecution, except as specified.

Ch. 163 (AB 1260) Matthews. Personal income and business and corporation taxes: administration: violations: refunds.

Existing law provides for the administration of income and corporation tax laws, and imposes various fines and penalties for violations of those laws. Under existing law an individual who procures or counsels another individual to procure a state-issued income tax refund warrant through the filing of a return knowing that the recipient is not entitled to the refund is, depending upon the circumstances, guilty of either a misdemeanor or a felony.

This bill would extend these provisions to an individual who procures or counsels an individual to procure a state-issued income tax refund without regard to the form in which the refund is issued.

By adding a new crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 164 (AB 1596) Frommer. Health benefits.

(1) Existing law provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and for the licensure and regulation of health insurers by the Department of Insurance. Under existing law, these departments are required to prepare comparative benefit matrices comparing specified benefit packages. Existing law requires a health care service plan and a health insurer to make a downloadable copy of these matrices available through their Internet Web sites. Under existing law, a violation of the provisions governing health care service plans is a crime.

This bill would, instead, require a health care service plan and a health insurer to make these matrices available through a link on their Internet Web sites to the Web sites of the Department of Managed Health Care and the Department of Insurance. Because the bill would impose a different requirement on a health care service plan, the violation of which would be a crime, it would impose a state-mandated local program.

(2) Under existing law, a health care service plan and a health insurer are required to arrange for the completion of covered services by a terminated or nonparticipating provider to an enrollee and to an insured by a terminated provider, if the enrollee or insured is undergoing a course of treatment for specified conditions, including a terminal illness, as defined. Existing law requires that completion of covered services be provided for the duration of a terminal illness.

This bill would provide that the duration of covered services for a terminal illness may exceed 12 months from the contract termination date or the effective date of coverage for a new enrollee.

The bill would also exclude a newly covered enrollee of a health care service plan who is offered an out-of-network option, or who had the option to continue with a health plan or provider and voluntarily chose to change health plans, from these provisions.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 165 (AB 1694) Wiggins. Bail services: solicitation.

Existing law generally regulates persons offering bail services as bail licensees. Violation of the provisions regulating solicitation of bail is a crime.

This bill would provide that no bail licensee may employ, engage, solicit, pay or promise any payment, compensation, consideration or thing of value to any person incarcerated in any prison, jail, or other place of detention for the purpose of that person soliciting bail on behalf of the licensee. Violation of these prohibitions would be a misdemeanor.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 166 (AB 2238) Spitzer. Bail Fugitive Recovery Persons Act.

Existing law, the Bail Fugitive Recovery Persons Act, authorizes persons fitting the definition of a bail fugitive recovery person to apprehend, detain, or arrest a bail fugitive provided they meet specified requirements. A violation of any of the requirements imposed upon bail fugitive recovery persons is a misdemeanor. The act is scheduled to remain in effect only until January 1, 2005, at which time it would be repealed.

This bill would instead provide for the act to remain in effect until January 1, 2010. By continuing in existence crimes that were scheduled to be repealed, this bill would impose a state-mandated local program upon local governments.

The bill would also direct the California Research Bureau in the California State Library to conduct a study of the Bail Fugitive Recovery Act, as specified, and to submit a report thereon to the Legislature no later than January 1, 2009.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 167 (AB 2257) Salinas. The California Pepper Commission.

Existing law provides that there is in the state government the California Pepper Commission. Existing law provides that the commission shall be composed of 5 pepper producers, 5 pepper handlers, and shall include one public member. Existing law provides that the term of office of all members and alternate members of the commission, shall be 3 years from the beginning of the marketing season in the year of their election and until qualified successors are elected, as specified. Existing law defines a marketing year as the period beginning May 1 of any year and extending through the last day of April of the next year. Existing law also provides that terms of office of each member and alternate member of the commission shall be limited to 3 consecutive terms.

This bill would provide that a marketing year means the period beginning March 1 of any year and extending through the last day of February of the next year. This bill would also

provide that the commission shall be composed of 5 districts reflecting similar total production among the districts, the boundaries of which shall be established by the commission and secretary, as specified. This bill would provide that the commission may also include 2 at-large members elected by the elected producers and handlers on the commission from among individuals who have a financial interest in the California pepper industry but who are not necessarily producers or handlers. This bill would provide that an at-large member or their alternate shall have all the powers, rights, and privileges of any other member of the commission or their alternate.

This bill would provide that the term of office of all members shall be 3 years beginning on the first day of February following his or her election. This bill would also eliminate provisions providing that the terms of office of each member and alternate member of the commission be limited to 3 consecutive terms.

This bill would expand provisions requiring persons who handle peppers in California to keep records, as specified, to include persons who do not meet the tonnage threshold for handlers, as specified. This bill would make other conforming changes.

Because this bill would expand the definition of a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 168 (AB 2496) Shirley Horton. Child Welfare Services Program Improvement Fund.

Under existing law, the state, through the State Department of Social Services and county welfare departments, maintains a public system of statewide child welfare services, to use the strengths of families and communities to serve the needs of children who are alleged to be abused or neglected, to reduce the necessity for removing these children from their homes, to encourage speedy reunification of families when it can be safely accomplished, to locate permanent homes and families for children who cannot return to their biological families, to reduce the number of placements experienced by these children, to ensure that children leaving the foster care system have support within their communities, to improve the quality and homelike nature of out-of-home care, and to foster the educational progress of children in out-of-home care.

This bill would establish the Child Welfare Services Program Improvement Fund in the State Treasury, consisting of private grants, gifts, or bequests made to the state. Upon appropriation by the Legislature, moneys in the fund would be expended for the purpose of enhancing the state's ability to provide a comprehensive system of supports that promote positive outcomes for children and families. The bill would require the department to use moneys in the fund as a match to obtain federal participation in the cost of eligible activities, and to augment federal, state, and county funds made available for the child welfare services program. The bill would include legislative intent regarding possible uses for the funds.

#### Ch. 169 (AB 2913) Salinas. Teachers: limited-English-proficient pupils.

Existing law permits a teacher with a basic teaching credential to be assigned to provide specially designed content instruction delivered in English, as defined, to limited-English-proficient pupils only if certain conditions are met, including that the teacher be, as of January 1, 1999, a permanent employee of a school district, a county office of education, or a school administered under the authority of the Superintendent of Public Instruction and that the teacher complete, before January 1, 2005, 45 clock hours of staff development in methods of specially designed content instruction delivered in English. Existing law requires the Commission on Teacher Credentialing to file a related report with the Legislature by December 31, 2000.

This bill would extend the January 1, 2005, deadline for the completion of the required staff development to January 1, 2008, and would extend the deadline for filing this report to December 4, 2007.

Ch. 170 (AB 2920) Laird. Nursery stock.

Existing law requires nursery stock sellers to be licensed by the Department of Food and Agriculture. Existing law, until July 1, 2005, requires the Secretary of Food and Agriculture to establish the minimum license fee in an amount not to exceed \$180, and authorizes the secretary to fix the minimum license fee at an amount that is less than \$180. On July 1, 2005, existing law requires that the secretary establish the minimum license fee in an amount not to exceed \$100 and authorizes the secretary to fix the minimum license fee at an amount that is less than \$100.

This bill would eliminate the repeal date on the provisions that establish the \$180 minimum on the license fee, thereby extending this fee indefinitely, and would also repeal the provisions that require the secretary to establish the minimum license fee in an amount not to exceed \$100 and authorize the secretary to fix the minimum license fee at an amount that is less than \$100. By increasing fees that will be deposited into the continuously appropriated Food and Agricultural Fund, the bill would make an appropriation.

Ch. 171 (AB 3078) Committee on Judiciary. Procedure: civil actions.

(1) Existing law sets forth the procedures applicable to civil actions, and provides that any person who is at least 18 years of age, as specified, may be a party to a small claims action.

This bill would additionally permit an emancipated minor to be a party to a small claims action.

(2) Existing law provides for the suspension of proceedings and notification of the parties when a check for the payment of a filing fee is returned without payment.

This bill would revise those provisions for notice by the clerks of the court and suspension of proceedings to apply to underpayment as well. The bill would also require that notice be sent to the person who tendered the payment, and to the party or the party's attorney, as specified.

(3) Existing law provides for the deadlines, by reference to calendar days, for service of specified moving, supporting, and opposing papers regarding motions and other hearings, the deadline for the completion of discovery proceedings prior to trial, and the deadline for a demand for the exchange of information concerning expert witnesses prior to trial.

This bill would revise those deadlines by referring to court days rather than calendar days, and would make other related, clarifying changes.

(4) This bill would also incorporate further changes to the Civil Discovery Act proposed by AB 3081, contingent upon its prior enactment.

Ch. 172 (SB 1265) Committee on Natural Resources and Wildlife. Fish and game: reporting requirements.

Existing law required the State Interagency Marine Managed Areas Workgroup established by the Resources Agency to submit its final report to the Legislature and the Fish and Game Commission by January 15, 2000. Existing law required the Department of Fish and Game to undertake a study and report to the Legislature on or before January 1, 1994, on the importation, spawning, incubation, rearing, and sale of anadromous fish. Existing law required the Aquaculture Development Committee, on or before January 1, 1997, to prepare and provide to the Director of Fish and Game a report with its recommendations to improve the effectiveness and eliminate overlapping responsibilities in state and local regulatory requirements on the commercial aquaculture industry in the state.

This bill would delete those obsolete reporting requirements.

Ch. 173 (AB 1984) Wolk. Surface mining.

The Surface Mining and Reclamation Act of 1975, governs surface mining operations and reclamation of mined lands, and provides, among other things, for the submission of reclamation plans to, and issuance of permits by, lead agencies to persons engaging in surface mining operations. Existing law, until December 31, 2003, provided that a site specific plan in conjunction and consistent with the Cache Creek Resource Management Plan shall be considered to be a functional equivalent of a reclamation plan for purposes of the act, as specified.

This bill would reinstate those provisions until December 31, 2008.

The bill would require the board of supervisors of the county in which the Cache Creek Resource Management Plan is to be implemented to prepare and forward to the Director of Conservation annually a report containing specified information relating to a mining operation. By requiring a local government agency to take specified actions with respect to the preparation of that report, the bill would impose a state-mandated local program.

The bill would provide that these provisions would not become operative until the date the State Mining and Geology Board notifies the Secretary of State in writing that the board has approved an ordinance adopted by the Board of Supervisors for the County of Yolo that governs in-channel noncommercial extraction activities carried out pursuant to the Cache Creek Resources Management Plan.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 174 (AB 2845) La Suer. Behavioral interventions.

Existing law requires the Superintendent of Public Instruction to develop, and the State Board of Education to adopt, regulations governing the use of appropriate behavioral interventions with individuals with exceptional needs receiving special education and related services.

This bill would provide that a person recognized by the national Behavior Analyst Certification Board as a Board Certified Behavior Analyst qualifies as a behavioral intervention case manager of a school district, special education local plan area, or county office of education and may conduct behavior assessments and provide behavioral intervention services for individuals with exceptional needs.

#### Ch. 175 (AB 2877) Aghazarian. Hazardous waste: regulation.

(1) Existing law establishes various standards for management and control of hazardous waste. Existing law authorizes the Department of Toxic Substances Control to exempt, by regulations that may be adopted until January 1, 2003, a hazardous waste management activity from certain statutory requirements related to hazardous waste management if specific conditions for exemption are met. Lead-painted wood debris is one of the types of hazardous waste that may be exempted by the regulations from those statutory requirements.

This bill would recast that exemption to, instead apply to lead-based painted debris.

This bill would extend until January 1, 2008, the authorization for the department to adopt regulations for exemptions.

Because a violation of the regulations authorized by this bill would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 176 (SB 1637) Committee on Banking, Commerce, and International Trade. Financial institutions.

(1) Existing law provides for the licensing and regulation of financial institutions by the Commissioner of Financial Institutions. Existing law authorizes the commissioner to charge a fee of \$25 for certifying a copy of any paper filed with him or her and affixing his or her official seal. Existing law also authorizes the commissioner to deliver the fingerprints of specified persons related to financial institutions, including existing or proposed controlling persons of financial institutions, to local, state, or federal law enforcement agencies.

This bill would revise the provisions authorizing the commissioner to charge the \$25 certification fee. The bill would expand the persons whose fingerprints the commissioner may deliver to include persons licensed or proposed to be licensed, and to include persons who are directors, officers, or employees of a proposed controlling person, an existing affiliate, or a proposed affiliate, of financial institutions. The bill would also define controlling persons to include persons owning financial institutions by sole proprietorship, partnership, or other similar means.

(2) Existing law authorizes a bank to make an amortized loan upon the security of real property in an amount in excess of 80% of the appraised value of the real property if the loan includes amounts to rehabilitate structures for residential use for one family, and meets other conditions.

This bill would delete this provision.

(3) Existing federal regulations set forth standards that apply to the fiduciary activities of national banks.

This bill would adopt these provisions into state law.

(4) Existing law prohibits a foreign savings association from conducting the business of an association in California or from acquiring control of a California savings association without the written approval of the commissioner. Existing law makes it a crime to engage in certain transactions with respect to a foreign savings and loan association that has not complied with the applicable requirements. Existing law defines a foreign savings association as an insured institution other than a California savings association or federal association.

This bill would revise the definition of an insured institution for these purposes.

Because changing the definitions of a foreign savings and loan association creates additional crimes, the bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 177 (SB 1277) Ackerman. Mortgages: foreclosure.

(1) Existing law requires a person recording a notice of default of a mortgage or deed of trust to perform specified actions.

This bill would specify that those actions apply to the recording of a notice of default or sale, and define who is authorized to make those recordings, as specified. The bill would also make nonsubstantive, technical changes to those provisions.

(2) Existing law regulates the procedures for the foreclosure of a mortgage or deed of trust, and requires specified notice to persons with recorded interests in real property that are sold at a trustee's sale.

This bill would provide that certain persons are not liable for providing specified information to owner's related to foreclosure sales and consultants.

(3) Existing law defines the term "trustee" for the purpose of a trustee under a deed of trust who is named in an action or proceeding in which that deed of trust is the subject.

This bill would provide that that term include substituted trustees and agents of a beneficiary or trustee.

(4) Existing law sets forth the procedures for the substitution of trustees under a deed of trust upon real property or an estate for years, given to secure an obligation to pay money,

by the beneficiary or beneficiaries under the trust deed who hold more than 50% of the record beneficial interest of a series of notes secured by the same real property or of undivided interests in a note secured by real property equivalent to a series transaction. Existing law requires a copy of a substitution effected after a notice of default has been recorded but prior to the recording of the notice of sale, to be mailed prior to that recording.

This bill would permit that copy of substitution to be mailed prior to, or concurrently with, the recording thereof. The bill would also provide that once recorded that substitution constitutes conclusive evidence of the authority of the substituted trustee to act pursuant with the law, as specified. The bill would further set forth similar notice procedures for a substitution that is executed prior to or concurrently with the recording of a notice of default.

(5) Existing law regulates the business of foreclosure consultant service agreements. Existing law defines the term “foreclosure consultant” to be a person who for compensation offers or purports to offer, among other things, to stop or postpone a foreclosure sale, with specified exceptions for persons of certain occupations or professions. A violation of specified provisions by foreclosure consultants constitutes a crime.

This bill would expand the definition of “foreclosure consultant” to mean a person who assists or arranges for an owner to obtain the remaining proceeds from a disclosure sale of the owner’s residence, unless the owner’s attorney. The bill would further require foreclosure consultants to provide additional notice to an owner about foreclosure sales, as specified, and also make certain findings and declarations in that regard. By adding to those provisions, the bill would expand the definition of a crime, thereby imposing a state-mandated local program.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 178 (SB 1746) Ackerman. Unincorporated associations.

Existing law sets forth the liability of members of unincorporated associations, including nonprofit associations.

This bill would repeal these provisions and would enact new provisions relative to the liability of members of unincorporated associations. The bill would also make various conforming changes to existing law relating to these new provisions.

#### Ch. 179 (AB 1268) Wiggins. Land use.

Existing law requires the legislative body of each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city, and of any land outside its boundaries that bears relation to its planning. The law requires the plan to include a specified land use element that designates the proposed general distribution and general location and extent of the uses of the land for housing, business, industry, open space, and other categories of public and private uses of land.

This bill would authorize the text and diagrams in the land use element that address the location and extent of land uses and the zoning ordinances that implement these provisions to express community intentions regarding urban form and design, as specified.

#### Ch. 180 (AB 1870) Maldonado. Escrow agents.

The Escrow Law provides for licensing and regulation by the Commissioner of Corporations of persons engaged in business as escrow agents, unless specifically exempted. Existing law requires persons licensed as escrow agents to be members of the Escrow Agents’ Fidelity Corporation, which is established as a nonprofit corporation to indemnify its members against loss. Existing law specifies the amount of coverage that a member shall obtain from the corporation.

This bill would revise various provisions relative to the making of claims by a member, the payment of obligations by the corporation, and the application process for a certificate from the corporation.

Ch. 181 (AB 2207) Levine. Statistical districts: San Fernando Valley.

Existing law requires the Department of Finance, the State Department of Health Services, and the Department of Transportation, in the preparation and maintenance of any statistical analyses by city, to make a separate breakdown of the San Fernando Valley, as described, provided that the City of Los Angeles continues to provide all necessary data. Existing law specifies that no department of state government is required by these provisions to prepare or maintain any but specified statistical information.

This bill instead would require any state agency or department that develops and maintains data and statistics on the municipal level, to make a separate breakdown of the San Fernando Valley, in the preparation and maintenance of any statistical analyses by city, and would authorize state agencies to require the City of Los Angeles to provide all necessary data. It would provide that an alternate method may be used to determine the separate breakdown of the San Fernando Valley if a tax area code is used in the statistical analysis, and would also revise the description of the San Fernando Valley.

Ch. 182 (AB 3081) Committee on Judiciary. Civil discovery.

Existing law sets forth numerous provisions governing discovery in civil actions and proceedings, as specified.

This bill would, operative July 1, 2005, revise and recast those provisions enacting the Civil Discovery Act providing for the scope of discovery, the use of technology in conducting discovery in a complex case, the attorney work product, the methods and sequence of discovery, nonparty discovery, sanctions, the time for completion of discovery, the oral deposition inside California, the oral deposition outside California, depositions by written questions, depositions in actions pending outside California, written interrogatories, inspection and production of documents, tangible things, land and other property, physical or mental examination, requests for admission, form interrogatories and requests for admission, simultaneous exchange of expert witness information, the perpetuation of testimony or preservation of evidence before filing an action, and the perpetuation of testimony or preservation of information pending appeal.

This bill would make various conforming changes. The bill would also declare that nothing therein is intended to substantively change the law of civil discovery.

This bill would also incorporate further changes to the Civil Discovery Act proposed by AB 3078, contingent upon its prior enactment.

Ch. 183 (AB 3082) Committee on Judiciary. Maintenance of the codes.

Existing law directs the Legislative Counsel to advise the Legislature from time to time as to legislation necessary to maintain the codes.

This bill would make technical, nonsubstantive changes in various provisions of law to effectuate the recommendations made by the Legislative Counsel to the Legislature.

Ch. 184 (SB 1314) Ortiz. Criminal history information.

Existing law requires the Department of Justice to furnish various agencies and entities with specified parts of a person's state summary criminal history information when that information is used for employment, licensing, or certification purposes, and permits the department to furnish that information, upon a showing of a compelling need, to listed entities, as specified. In particular, it requires the department to provide that information to state government officials if required to implement state provisions that expressly refer to specific criminal conduct applicable to a person, and that contain requirements, exclusions, or both, expressly based upon that specified criminal conduct. It similarly requires the department to provide the information to local government officials, if authorized by the

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

local government, and if necessary to implement local provisions that refer to specific criminal conduct applicable to a person and that contain requirements, exclusions, or both, expressly based upon that specified criminal conduct.

This bill would authorize state and local government officials in these circumstances to transmit fingerprint images and related information to the department to be transmitted to the Federal Bureau of Investigation.

Existing law requires that specified provisions of the Code of Federal Regulations be followed in processing federal criminal history information when requested concerning persons seeking licenses or positions with supervisory or disciplinary power over minors or over others under their care.

This bill would impose the requirement that those regulatory provisions be followed in processing federal criminal history information on the general statutory scheme for maintenance and distribution of criminal history information by the department.

This bill would also make numerous changes in that law, some clarifying, some technical, and others expanding or limiting the information that would be provided to specified requesters concerning applicants for employment, licensing, or certification. It would make and declare a legislative finding that nothing in its provisions is intended to overrule the decisions, orders, or judgments in 2 specified court cases, and would state that nothing in it shall be construed as an implied amendment to a law forbidding employer efforts to obtain information on arrests or detentions that did not result in convictions, as specified.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 185 (SB 1358) Escutia. Medi-Cal: provider inspections.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons. Existing law establishes within the office of the Attorney General the Bureau of Medi-Cal Fraud for the investigation and prosecution of violations of applicable laws pertaining to the Medi-Cal program, and to review complaints alleging abuse or neglect of patients in health care facilities receiving payments under the Medi-Cal program.

This bill would authorize any agent, investigator, or auditor of the bureau investigating fraud under the Medi-Cal program to inspect, at any time, the business location of any Medi-Cal provider for the purpose of carrying out the duties of the bureau. This bill would require the Department of Justice to provide each investigator and auditor leading a facility inspection team with prescribed training.

#### Ch. 186 (SB 1626) Poochigian. Health facility construction: annual permit.

(1) The existing Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983 requires the Office of Statewide Health Planning and Development (OSHDP) to determine an application filing fee to cover the cost of administering the act, in an amount not to exceed 2% of a project's estimated construction cost and not less than \$250. The act requires the fee for a skilled nursing or intermediate care facility project costing over \$25,000 to be assessed at a rate established by OSHDP in regulation, not to exceed 1.5% of the estimated construction cost for the projects.

This bill would instead prohibit an application filing fee for a hospital facility, as defined, from exceeding 2% of a project's estimated construction cost and would prohibit a fee for a skilled nursing or intermediate care facility, as defined, from exceeding 1.5% of a project's estimated construction cost. The bill would maintain the minimum application filing fee at \$250.

(2) The act requires OSHDP to issue an annual permit, at a cost of \$250 in lieu of a filing fee, to a skilled nursing or intermediate care facility upon submission of an application for a project if the project's estimated construction cost is \$25,000 or less per fiscal year. The act requires the annual permit to cover all projects undertaken for a particular skilled nursing or

intermediate care facility by the applicant up to an estimated construction cost of \$25,000 during the state fiscal year in which the permit is issued.

This bill would additionally require OSHPD to issue an annual permit, at a cost of \$500 and in lieu of an application filing fee, to a hospital facility upon submission of an application for one or more projects if the total estimated construction cost is \$50,000 or less per fiscal year. The bill would require the annual permit to cover all projects undertaken for a particular hospital facility up to a total estimated construction cost of \$50,000 during the state fiscal year in which the annual permit is issued. The bill would authorize a hospital or a skilled nursing or intermediate care facility that chooses not to apply for an annual permit to cover a project or projects costing \$50,000 or less or \$25,000 or less, respectively, to instead submit the project for review and approval as otherwise specified in the bill.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 187 (SB 1826) Poochigian. Dead animals.

Existing law generally regulates the business of transporting the carcasses of dead animals. Existing law prohibits any dead hauler or any other person from transporting any dead animal to any place, except for burial on his or her own property, other than to a licensed rendering plant, a licensed collection center, an animal disease diagnostic laboratory, or the nearest crematory. Existing law makes a violation of these provisions a crime.

This bill would authorize the State Veterinarian to grant a waiver of the above provisions in conjunction with a quarantine of ill or infected animals. The bill would require that the animal disease diagnostic laboratory to which the dead animal is transported be acceptable to the Department of Food and Agriculture. This bill would declare that nothing in these provisions is intended to conflict with any state or federal environmental or zoning law or to prohibit an owner of a live animal from burying the animal on the owner's property after the animal dies, if the burial is within 3 miles of where the animal died. The bill would revise these provisions to refer instead to dead animal haulers and would make conforming changes to related provisions. Because this bill would change the definition of an existing crime, it would impose a state-mandated local program.

This bill would also make several technical, nonsubstantive changes to these provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 188 (AB 1787) Bogh. Vehicles: registration: late penalties: exemptions: deployed military.

Existing law imposes renewal fee penalties for late payment of registration on a vehicle except in limited specified cases.

This bill would require the department to waive all penalties that may be due for late payment of registration renewal fees on a vehicle for any period during which the registered owner is a member of the armed forces, or is a member of the armed forces reserve or the National Guard who has been called to active duty or active service, and has been deployed, as defined, to a location outside of the state.

The bill would specify that the waiver provision does not apply to a registered owner who applies for registration renewal more than 60 days after termination of his or her deployment.

#### Ch. 189 (AB 1855) Maze. California Infrastructure and Economic Development Bank: financing.

The Bergeson-Peace Infrastructure and Economic Development Bank Act requires the California Infrastructure and Economic Development Bank to establish criteria, priorities, and guidelines for the selection of projects to receive assistance from the bank, to be based on a minimum of specified factors.

This bill would require the bank to notify the Governor, the fiscal and policy committees of the Legislature that exercise legislative oversight of the bank, and appropriate state and local agencies, when the bank establishes or makes changes to the criteria, priorities, and guidelines for project selection.

Ch. 190 (AB 2355) Oropeza. Public Employees' Retirement System: administrative costs.

Existing law authorizes the Board of Administration of the Public Employees' Retirement System to include in the contribution paid by a contracting agency an amount to cover administrative costs.

This bill would require the board, upon request, to provide information to a contracting agency regarding those costs, as specified.

Ch. 191 (AB 2660) Leno. Prescriptions: issuance by a pharmacist.

Existing law, the Uniform Controlled Substances Act, authorizes a pharmacist in specified circumstances to write or issue a prescription. The Pharmacy Law, which provides for the licensure and regulation by the California State Board of Pharmacy of pharmacy practices, defines a prescription, in part, as being issued by designated healing arts practitioners, not including a pharmacist. The Pharmacy Law prohibits the board from issuing a pharmacy license to, or renewing a pharmacy license of, specified persons, including those who are authorized to write a prescription. A knowing violation of the Pharmacy Law is a misdemeanor offense.

This bill would revise the definition of "prescription" to include a drug order issued by a pharmacist pursuant to specified conditions. The bill would also specify that the board is not precluded from issuing or renewing a license for a pharmacy owned or owned and operated by a pharmacist who is authorized to issue a specified drug order.

Because the bill would specify additional requirements under the Pharmacy Law, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 192 (AB 2720) Laird. Health facilities: seismic safety.

The Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983, administered by the Office of Statewide Health Planning and Development, provides for the establishment and enforcement of hospital building standards for earthquake resistance. The act requires that all plans and specifications for the alteration or construction of hospital buildings be prepared under the responsible charge of an architect or structural engineer, or both. The act requires that the administration of the work of construction be under the responsible charge of the architect and structural engineer. However, when plans and specifications for alterations or repairs do not affect architectural or structural conditions, existing law authorizes the plans and specifications to be prepared by, and the work of construction administered by, a duly qualified professional engineer.

When plans and specifications for alterations or repairs do not affect architectural or structural conditions, this bill would, rather than authorizing a qualified professional engineer to prepare the plans and specifications, authorize a qualified professional engineer to responsibly charge the preparation of the plans and specifications.

Ch. 193 (SB 111) Knight. State reporting requirements.

(1) Existing law requires various state agencies to prepare and submit reports to the Legislature and Governor on various topics throughout the year.

This bill would delete various reporting requirements.

(2) Existing law establishes, for specified time periods, pilot and demonstration projects regarding specified issues.

This bill would repeal these provisions.

Ch. 194 (SB 1832) Cedillo. Property taxation: maps: tax-defaulted property sales.

Existing property tax law attaches as a lien against property for taxes that are owed on that property. Existing law generally declares in default the taxes, assessments, and penalties on real property if those charges are not paid by a specified time. Existing law requires the tax collector to attempt to sell property that has become tax defaulted 5 years or more after that property has become tax defaulted, and in the case of tax-defaulted property that is also subject to a nuisance abatement lien, 3 years or more after that property becomes tax defaulted, as specified. During these 3 and 5 year periods, existing law allows a taxpayer a right of redemption whereby the taxpayer may pay specified charges to remove the lien against the property. Existing law specifies that this right of redemption terminates on the last business day prior to the date that the sale of the property begins. Existing law authorizes the tax collector to accept electronic funds transfers, as defined, for payments on a redemption and for payments of taxes, assessments, and penalties on real property.

This bill would specify the manner in which the sales of tax-defaulted property may be conducted by public auction, including a public auction by electronic means such as the Internet. This bill would define public auction, close of auction, and date of the sale for purposes of these provisions. This bill would also provide that property sold under these provisions is sold as is, and disclaim any liability of the state, the county, and its officers and employees for any patent or latent condition on the property or for the failure of specified devices that may be used to submit bids on this property. This bill would also authorize the tax collector to accept electronic funds transfers as payment for tax-defaulted property that is sold under these provisions.

Existing law authorizes the tax collector to treat a sale of tax-defaulted property as a credit transaction if the high bid on that property exceeds \$5,000.

This bill would authorize the tax collector to treat any sale of tax-defaulted property as a credit transaction. This bill would also authorize a tax collector to require a deposit in the context of these property sales for specified purposes, and impose certain requirements for these deposits.

Existing law grants a county a claim, for the cost of the sale, against a person making a payment on tax-defaulted property with negotiable paper, as defined, that was not honored when presented.

This bill would grant a county a claim, for the actual cost of the sale, against any bidder whose bid on tax-defaulted property was accepted, but who did not make a payment on that property when the payment was due, as provided.

This bill would make conforming changes to related provisions and consolidate related duplicative provisions.

Existing property tax law authorizes the board of supervisors of any county to adopt an ordinance that requires the local agency that approves a tentative map or maps, in connection with building permits for new construction, to submit a copy of the map or maps to the county assessor. That law provides that the ordinance may require that the map or maps be provided in an electronic format. That law also authorizes a board of supervisors to enact an ordinance that requires any party that records a digital subdivision map, in connection with a legal description of lands for assessment purposes, to also file a duplicate digital copy, as provided.

This bill would authorize the board of supervisors to additionally enact those requirements by resolution or board order.

Ch. 195 (SB 409) Hollingsworth. School facility maintenance costs.

Existing law, the Leroy F. Greene School Facilities Act of 1998 (the Greene Act of 1998), requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition.

Existing law requires the board to require school districts that receive funding under the Greene Act of 1998 to establish a restricted account within the school district's general fund and to deposit an amount equal to 3% of the school district's general fund, including other financing uses, into the account for maintenance of school facilities. Existing law provides that annual deposits into the account in excess of 2<sup>1</sup>/<sub>2</sub>% of the district's general fund budget may count towards the amount that a school district is required to contribute in order to receive an apportionment from the State School Deferred Maintenance Fund.

This bill, for the 2004–05 fiscal year only, would reduce the amount required to be deposited into the restricted account to 2% of a district's general fund expenditures, including other financing uses. The bill would provide that for that fiscal year, the annual deposit into the restricted account in excess of 1<sup>1</sup>/<sub>2</sub>% of the district's general fund budget may count towards the amount that a school district is required to contribute in order to receive an apportionment from the State School Deferred Maintenance Fund.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 196 (SB 1130) Scott. Public contracts: transit design-build contracts.

Existing law authorizes transit operators to enter into a design-build contract, as defined, according to specified procedures. A transit operator that uses the design-build process is required to report to the Legislative Analyst before December 1, 2005, on each public works project procured through the design-build process and completed on or before November 1, 2005. Existing law repeals these provisions on January 1, 2005.

This bill would specify that these provisions apply only to transit projects, and that transit projects do not include state highway construction or local street and road projects. This bill would revise the reporting requirements by requiring a transit operator that uses the design-build process to report to the Legislative Analyst within 120 days of the design-build project being put into operation or by December 1, 2005, whichever occurs first.

This bill would extend the duration of these provisions until January 1, 2007.

#### Ch. 197 (SB 1150) Burton. Lender names.

Existing law, the Trademark Law, provides for the registration of a trademark with the Secretary of State. Under existing law, the owner of a registered mark may bring a civil action for the unauthorized use of the mark.

This bill would prohibit the inclusion of the trade name, logo, or tagline of a lender, as defined, in a written solicitation for financial services directed to a consumer, subject to specified exceptions. The bill would prohibit the use of the name of a lender, or the use of a similar name, in a solicitation for financial services directed to a consumer. The bill would also prohibit the inclusion of certain loan information of a consumer in a solicitation for services or products, subject to specified exceptions. The bill would authorize the recovery of actual damages and would authorize injunctive relief for a violation of these provisions. The bill would authorize the prevailing party in an action to recover costs and reasonable attorney's fees as determined by the court.

#### Ch. 198 (SB 1236) Murray. Lighting equipment.

(1) Existing law defines lighting equipment for purposes of the Vehicle Code.

This bill would include within the definition of lighting equipment, an illuminating device that emits radiation predominantly in the infrared or ultraviolet regions of the spectrum, whether or not these emissions are visible to the unaided eye.

This bill would allow a vehicle to be equipped with a system to supplement the driver's visibility of the roadway to the front or rear of the vehicle during darkness, as specified.

The bill would prohibit any part of the illuminating device from being physically or optically combined with any other required or authorized lighting device. The bill would authorize the illuminating device to be installed within a housing containing other required or permitted lighting devices, if the function of the other devices is not impaired thereby.

(2) Existing law specifies the color of lamps and reflectors on vehicles. Existing law requires that the emitted light from lamps and the reflected light from reflectors, visible from in front of a vehicle, be white or yellow, with certain exceptions.

This bill would make an additional exception by requiring that an illuminating device described in paragraph (1) emit radiation predominantly in the infrared region of the electromagnetic spectrum, as specified.

(3) Existing law allows an authorized emergency vehicle to display a flashing white light from a gaseous discharge lamp designed and used for the purpose of controlling official traffic control signals.

This bill would prohibit, except for those emergency vehicles, a vehicle from being equipped with a device that emits any illumination or radiation that is designed or used for the purpose of controlling official traffic control signals.

(4) Under existing law, it is a crime to violate the Vehicle Code. By creating new requirements with respect to lighting equipment for vehicles, this bill would create a new crime and thereby would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 199 (SB 1663) Machado. Sanitation districts: Sacramento County and West Sacramento.

Existing law establishes the membership of a governing body of a sanitation district in the County of Sacramento as the Sacramento County Board of Supervisors, unless the district includes territory that is within a city, in which case existing law requires the membership to include the presiding officer of the governing body of each city so included.

This bill would, instead, require inclusion of a member of the governing body of the city, appointed by that governing body, and one member of the governing body to serve as an alternate.

This bill would, notwithstanding those provisions, require the governing body of the Sacramento Regional Sanitation District to include from one to 8 members, depending upon population, of the governing bodies of included cities.

Existing law, in effect only until January 1, 2005, or until construction of a pipeline facility in the unincorporated portion of Yolo County is completed, whichever is later, requires that if the district includes territory in the City of West Sacramento, the governing body shall also include the member of the Yolo County Board of Supervisors whose supervisorial district includes all, or a greater portion of, the population of the City of West Sacramento.

This bill would delete these provisions and would enact similar provisions applicable only to the Sacramento Regional Sanitation District. The bill would delete the repeal provisions related to January 1, 2005, and the construction of the pipeline facility.

Existing law provides that if the members of the governing body of the sanitation district constitute an even number under these circumstances, the Chairperson of the Sacramento County Board of Supervisors shall have an additional vote.

This bill instead would provide that each member or alternate member of the board of directors has one vote, except that the chairperson of the board of directors of the sanitation district shall have the additional vote if the members of the board constitute an even number and if the vote is tied.

This bill would make certain findings and declarations regarding the inapplicability of a general statute within the meaning of Section 16 of Article IV of the California Constitution.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

To the extent that this bill would require local governing bodies to comply, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 200 (SB 1880) Committee on Revenue and Taxation. Property taxation: county assessors: exemptions: assessments: technical code maintenance.

(1) Existing law provides for the manner in which property is to be valued and assessed. Existing law requires a county assessor to possess a valid appraiser's certificate issued by the State Board of Equalization. Notwithstanding this requirement, existing law authorizes a duly elected or appointed person to exercise the duties of county assessor for one year, if the person obtains a temporary appraiser's certificate from the board within 30 days of this election or appointment.

This bill would instead specify that a duly elected or appointed person may exercise the duties of county assessor for one year, if the person obtains a temporary appraiser's certificate from the board no later than 30 days after taking office.

(2) Existing law also authorizes the exemption of specified property, in accordance with the California Constitution, from the imposition of the property tax, including specified works of art displayed in publicly owned galleries and museums, personal property displayed in specified aerospace museums, and aircraft of historical significance, as defined. Existing law requires a taxpayer that claims these exemptions to file an affidavit with the county assessor, a designee of the assessor, or a notary, as specified.

This bill would eliminate the requirement that the taxpayer sign this affidavit before a notary public, the assessor, or the assessor's designee and instead would require a taxpayer that claims these exemptions to sign the affidavit under penalty of perjury.

(3) Existing property tax law requires certain assessments to be entered on the roll for the current assessment year, as defined, and in the case of escape assessments, to be entered with a notation, as specified.

This bill would remove that requirement and a requirement relating to the 1981–82 fiscal year for the business inventory exemption.

(4) Existing property tax law requires an owner of an aircraft to file a statement with a county assessor, setting forth the make, model, and year of manufacture of the aircraft.

This bill would require disclosure of additional information about the aircraft necessary to ascertain the full value of the aircraft, as specified.

(5) This bill would make technical, nonsubstantive changes to the property tax law by eliminating obsolete provisions.

(6) This bill, by requiring a taxpayer to sign affidavits under penalty of perjury, would create a new crime and thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 201 (AB 279) Cohn. Special license plates: Purple Heart.

Existing law prohibits the transfer of Purple Heart special license plates to any person, including the coowner of the vehicle, and those plates are required to be surrendered to the Department of Motor Vehicles upon the death of the Purple Heart recipient.

This bill would delete the above prohibitions, and instead, the bill would provide that upon the death of the person issued those special license plates, his or her surviving spouse may retain those special license plates. The bill would require, upon the death of the surviving spouse, that the retained special license plates be returned to the department either (1) within

60 days following that death or (2) upon the expiration of the vehicle registration, whichever occurs first.

Ch. 202 (AB 1930) Negrete McLeod. Joint exercise of powers.

Existing law authorizes a joint powers agency, or entity provided for by a joint exercise of powers agreement, conducting agricultural, livestock, industrial, cultural, or other types of fairs and exhibitions or educational programs and activities to establish and administer risk pooling arrangements for the payment of liability losses incurred by members of the joint powers agency or entity and by nonprofit corporations conducting these activities, as specified.

This bill would additionally authorize the risk pooling arrangements to make payments for workers' compensation losses and other types of losses.

Ch. 203 (AB 1951) Benoit. Traffic signs or signals.

Existing law makes it a crime for a driver of a vehicle to fail to obey signs or signals erected or maintained to carry out the Vehicle Code or local traffic ordinances or regulations or fail to obey certain traffic devices erected and maintained pursuant to a specific statute.

This bill would expand the scope of this provision to include the failure to obey a sign or signal of a regulatory nature, as described, that is erected or maintained to enhance traffic safety operations and would include the failure to obey a device erected or maintained by lawful authority of a public body or official, rather than pursuant to a specific statute. Because this bill would expand the scope of an existing crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 204 (AB 2552) Leno. Marriage and family therapy.

Under existing law, the Board of Behavioral Sciences is responsible for licensing and regulating the practice of marriage and family therapy. Under existing law, the practice of marriage and family therapy includes the application of certain therapy principles and methods.

This bill would include the use, application, and integration of specified coursework and training among those principles and methods.

Existing law requires an intern who is employed or volunteering in a private practice to be under the direct supervision of a licensee who is employed and practices at the same site as the intern's employer.

This bill would in addition authorize an intern to be supervised by a licensee who is an owner or shareholder of the private practice. The bill would also authorize a supervisor to arrange for alternative supervision during the supervisor's vacation or sick leave, if certain requirements are met.

Existing law requires an unlicensed marriage and family therapist intern who performs professional services to inform each client or patient that he or she is unlicensed and under the supervision of specified licensees, including a licensed physician and surgeon who has completed a residency in psychiatry and meets additional requirements.

This bill would delete this licensee from the list of authorized supervising licenses.

Existing law requires the name of a marriage and family therapy corporation to contain one or more of certain words, including "counseling," "counselor," or "therapist."

This bill would in addition authorize the use of the word "therapy" in a marriage and family therapy corporation's name.

Ch. 205 (AB 2560) Montanez. Nurse practitioners: furnishing drugs or devices.

Existing law, the Nursing Practice Act, the violation of which is a crime, licenses and regulates nurse practitioners. The act authorizes a nurse practitioner to furnish drugs or devices, in specified health facilities and under specified circumstances, when furnished or ordered in accordance with standardized procedures or protocols developed by the nurse practitioner and his or her supervising physician and surgeon.

This bill would instead authorize a nurse practitioner to furnish drugs or devices under the standardized procedures or protocols when the drugs and devices furnished or ordered are consistent with the practitioner's educational preparation or for which clinical competency has been established and maintained. The bill would also expand the types of health facilities to which these provisions are applicable.

Because the bill would change the definition of a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 206 (AB 2854) Laird. Elections: state mandates.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

Existing law requires a county board of supervisors, prior to adopting a resolution to approve or deny requests to consolidate specified local elections, to obtain from the county elections official a report on the cost-effectiveness of the proposed consolidation.

This bill would make these state-mandated local programs optional, but would state that the Legislature, in recognition of the state and local interests served by these programs, encourages the local agencies and officials to continue taking actions formerly mandated by these provisions.

This bill would also make nonsubstantive changes to those provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 207 (AB 3101) Committee on Elections, Redistricting and Constitutional Amendments. Political Reform Act of 1974: voluntary expenditure limits.

Under the Political Reform Act of 1974 a candidate for elective state office may voluntarily accept specified expenditure limits for his or her campaign for office. Under existing law, a candidate may not change his or her statement of acceptance or rejection of voluntary expenditure limits more than twice after the initial filing of nomination papers for that election and office.

This bill would instead provide that a candidate may not change his or her acceptance or rejection of voluntary expenditure limits more than twice after the candidate's initial filing of a statement of intention to be a candidate.

Existing law makes a violation of the act subject to administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate the provisions of this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a  $2/3$  vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a  $2/3$  vote.

Ch. 208 (SB 1113) Committee on Budget and Fiscal Review. 2004-05 Budget. <sup>1</sup>

This bill would make appropriations for support of state government for the 2004-05 fiscal year.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 209 (SB 1119) Committee on Budget and Fiscal Review. Ballot measures.

This bill would waive certain statutory deadlines for placement of SCA 4, adopted by the Legislature at the 2003-04 Regular Session, on the ballot and would set forth the language to be used for the title and summary and ballot label relating to SCA 4 in all state ballot pamphlets.

The bill would provide that if a measure placed on the November 2, 2004, statewide general election ballot does not have an opposing argument timely submitted, then the original text, title and summary, and all fiscal summaries on public display, would be placed in a supplemental ballot pamphlet instead of the principal ballot pamphlet. Further, the bill would provide that the proponents of that ballot measure may withdraw their supporting argument and be permitted to submit an opposing argument if it informs the voters that SCA 4 has been adopted by the Legislature at a later date than that ballot measure and should instead be supported. No rebuttal arguments would thereafter be allowed. Additionally, that opposition argument would be permitted to refer not only to the measure and why it should be opposed but also to SCA 4 and why it should be supported. Alternatively, if those proponents choose not to withdraw their supporting argument, then the Secretary of State would be required to solicit opposing arguments and select one in the manner specified in existing law.

The bill also would include findings and declarations of the Legislature.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 210 (SB 1099) Committee on Budget and Fiscal Review. Sales taxes on motor vehicle fuels: suspension of transfer.

Article XIX B of the California Constitution requires sales taxes on motor vehicle fuel that are deposited in the General Fund to be transferred to the Transportation Investment Fund for allocation to various transportation purposes, including allocations to particular transportation projects included in the Transportation Congestion Relief Program. Article XIX B authorizes the transfer of these revenues to the Transportation Investment Fund to be suspended in whole or in part for a fiscal year during a fiscal emergency pursuant to a proclamation issued by the Governor and the enactment of a statute by a  $2/3$  vote of both houses of the Legislature if the statute does not contain any unrelated provision.

This bill, pursuant to Article XIX B, would suspend the transfer of motor vehicle fuel sales tax revenues from the General Fund to the Transportation Investment Fund for the 2004-05 fiscal year.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 211 (SB 1096) Committee on Budget and Fiscal Review. Local government finance.

(1) The Marks-Roos Local Bond Pooling Act of 1985 generally authorizes a joint exercise of powers authority to issue bonds to assist local agencies in financing public capital improvements, working capital, liability or other insurance needs, or projects, subject to specified conditions.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law sets forth the procedures pursuant to which a public agency may bring or respond to an action in the superior court to determine the validity of matters generally authorized to be determined by the court.

This bill additionally would authorize a local agency to sell to a joint exercise of powers authority, and authorize the authority to purchase, with the proceeds of its bonds or its revenue, VLF receivables, defined as any right to payment for moneys due or to become due to a local agency out of funds payable in connection with vehicle license fees. It would authorize the authority to pledge, assign, resell or otherwise transfer or hypothecate any VLF receivables for the purpose of securing bonds issued to finance the purchase price of the VLF receivables.

The bill would specify that an action may be brought in the superior court to determine the validity of any bonds issued under the act to finance the purchase of bonds for local agencies, the financing of public capital improvements, or the purchase of VLF receivables and any contracts of sale of VLF receivables entered into by any local agency, and any related documents.

(2) Existing law authorizes the board of supervisors of the County of Orange to elect, by resolution, to guarantee payment under a financing agreement, or to guarantee payment under an agreement to finance the lease or lease-purchase of property through the issuance of certificates of participation or lease revenue bonds by providing notice and a transfer schedule, subject to specified conditions. If the Controller is notified that the funds otherwise available to the county will not be sufficient to make any payment under the financing agreement at the time that payment is required, or the county fails to make any payment under the financing agreement at the time that payment is required, the Controller is required to make an apportionment to the trustee appointed by the county in the amount of that required payment for the purpose of making that payment. The Controller is required to make the payment only from moneys credited to the Motor Vehicle License Fee Account in the Transportation Tax Fund to which the county is entitled at that time under specified provisions of law, and to reduce, by the amount of the payment, the subsequent allocation or allocations to which the county would otherwise be entitled under those provisions.

This bill instead would require the county, if funds otherwise available to the county will not be sufficient to make any payment under the financing agreement at the time that payment is required, or the county fails to make any payment under the financing agreement at the time that payment is required, to immediately notify the county auditor and deliver to the county auditor a duly certified copy of the resolution of the board of supervisors adopted pursuant to existing law. It would require the county auditor to reduce the vehicle license fee adjustment amount and transmit those funds to the Controller to the extent necessary to make the payments required.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would require that the total amount due to each city, county, city and county, and special district, for which the state has determined, as of June 30, 2005, that reimbursement is required under those provisions of the California Constitution, be appropriated for payment to these entities over a period of not more than five years, commencing with the Budget Act for the 2006–07 fiscal year and concluding with the Budget Act for the 2011–12 fiscal year.

(4) The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state in the amount of 2% of the market value of that vehicle, as specified, but offsets this amount by 67.5% for vehicle license fees with a final due date on or after July 1, 2001. Existing law provides that any increases in the computation of the vehicle license fee made during the 1991–92 legislative session will cease to be operative if either of 2 specified contingencies occur. Legislation was enacted during that legislative session that adjusted an existing

statutory depreciation schedule in a manner that increased the vehicle license fee. On January 28, 2004, one of the specified contingencies occurred and, in accordance with these contingency provisions, the statutory depreciation schedule became inoperative on March 1, 2004.

This bill would, beginning on January 1, 2005, repeal the offset to the vehicle license fee and instead reduce the rate under the VLF Law to 0.65% of the market value of a vehicle. This bill would also repeal these contingency provisions and, notwithstanding any other provision of law, would reinstate the statutory depreciation schedule.

(5) Existing law allocates revenues derived under the VLF Law among counties and cities and also requires that General Fund moneys be transferred, as specified, to cities and counties to compensate for reduced revenues resulting from VLF offsets. Existing law requires counties to utilize certain VLF Law revenues for local health and welfare programs.

This bill would repeal, amend, revise, and recast various provisions relating to VLF revenue allocations, VLF offsets, and General Fund transfers to cities, counties, and cities and counties to compensate these entities for reduced revenues resulting from these offsets. This bill would require, for the 2004–05 fiscal year and each fiscal year thereafter, that each city, county, and city and county annually receive a vehicle license fee adjustment amount, as defined, from a Vehicle License Fee Property Tax Compensation Fund, which this bill would create in each county.

(6) Existing property tax law requires the county auditor, for each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund (ERAF) in that county for allocation to school districts, community college districts, and the county office of education.

Existing law also requires a redevelopment agency, during the 2003–04 fiscal year, to remit to the county auditor an amount of revenue, determined in accordance with specified calculations made by the Director of Finance and based on a specified report of the Controller, for deposit in the Educational Revenue Augmentation Fund in each county for allocation to school entities.

This bill would, for the 2004–05 and 2005–06 fiscal years, reduce, by a specified amount, the vehicle license fee adjustment amount required to be allocated to a city, county, and city and county and instead require these revenues to be deposited in a county ERAF. This bill would also, for those same fiscal years, require a transfer of ad valorem property tax revenues from enterprise special districts and nonenterprise special districts, as defined, to county ERAFs. This bill would also require, for the 2006–07 fiscal year, that the amount of ad valorem property tax revenue deemed allocated to each enterprise special district and nonenterprise special district be increased by an amount equal to their reductions for the 2004–05 and 2005–06 fiscal years. This bill would also require a redevelopment agency to make a remittance to county ERAFs for those same fiscal years. This bill would authorize a redevelopment agency to defer the payment of a portion of this remittance if that agency finds that it is unable, for either of certain reasons, to pay the full allocation, and if the agency adopts a specified resolution. The bill would also authorize a legislative body, in lieu of making that payment during the 2004–05 and 2005–06 fiscal years, to remit, prior to May 10, 2005, and 2006 respectively, a designated amount to the county auditor for deposit in the

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

county's Educational Revenue Augmentation Fund. This bill also would make conforming changes to related provisions. By imposing new duties upon local tax officials in the annual allocation of these revenues, this bill would impose a state-mandated local program.

(7) Existing law authorizes a county to retain a portion of the ad valorem property tax revenue that would otherwise be allocated to specified entities in a county to reimburse the county for costs in collecting and administering the ad valorem property tax.

This bill would, for the 2004–05 and 2005–06 fiscal years only, prohibit a county from imposing a fee, charge, or other levy on a city, or from retaining any portion of the ad valorem property tax revenue allocation of a city to reimburse the county for costs the county may incur under the bill and a specified statute.

(8) Existing law requires the Director of Finance to make certain adjustments in one of the formulas used in computing the state's obligation under the California Constitution to provide funding for school districts and community college districts so as to ensure that the modifications in property tax revenue allocation requirements that were made by a prior enactment do not have a net fiscal impact on school districts or community college districts, or upon the state's funding obligation to those districts.

This bill would instead apply the adjustment requirement to modifications in property tax revenue allocation requirements that are made by "qualifying provisions," and would define "qualifying provisions" to include both the prior enactment currently specified by the adjustment requirement and specified statutes proposed to be added by this bill.

(9) Existing law requires the Controller to regularly audit the apportionment and allocation by counties of property tax revenue according to a specified schedule.

This bill would provide that, notwithstanding any other provision of law, where an audit conducted under that requirement between July 1, 1993, and June 30, 2001, determined that an allocation method is required to be adjusted and that a reallocation is required for previous fiscal years, the apportionments made by the county auditor during that period shall be deemed correct.

(10) Existing property tax law also allows, in the 1993-94 fiscal year, an eligible county, as defined, to decrease its reduction in property tax revenues for deposit in county ERAFs in accordance with a specified formula.

This bill would clarify that the decrease in the reduction in property tax revenues allowed to eligible counties in the 1993-94 fiscal year is incorporated into the formulae by which these revenues are allocated in subsequent fiscal years.

(11) The Bradley-Burns Uniform Local Sales and Use Tax Law (Bradley-Burns Law) authorizes a county that adopts a specified ordinance to impose a local sales and use tax at a rate of 1.25%, and similarly authorizes a city, located within a county imposing such a tax rate, to impose a local sales tax rate of 1% that is credited against the county rate. Beginning July 1, 2004, and continuing through the revenue exchange period, as defined, existing law temporarily suspends the authority of a county or a city to impose a tax under the Bradley-Burns Law by requiring a county imposing a sales and use tax under that law to impose that tax at a rate of 1% and requiring an imposing city to impose that rate at 0.75%.

This bill would specify that rate that may be imposed by a county or a city under the Bradley-Burns Law during the revenue exchange period is the rate that was specified in the local ordinance as of January 1, 2004, reduced by 0.25%.

(12) Existing law requires the county auditor, for the fiscal adjustment period, which is defined to have the same meaning as the revenue exchange period, to decrease the amount of ad valorem property tax revenue allocated to a county's Educational Revenue Augmentation Fund by the countywide adjustment amount, as defined, and requires the auditor to instead allocate this amount to a county Sales and Use Tax Compensation Fund. Existing law requires the auditor, during this same period, to allocate moneys from a Sales and Use Tax Compensation Fund to cities and counties to reimburse these entities for revenue losses resulting from the suspension of their Bradley-Burns Law tax rate authority, as provided. For purposes of these provisions, existing law defines "countywide adjustment

amount” as an amount estimated by the Director of Finance, based upon taxable sales in a county in a prior fiscal year, to reimburse cities and counties for revenue losses resulting from the suspension of their Bradley-Burns Law tax rate authority.

This bill would require the Director of Finance to estimate the countywide adjustment amount based upon the actual amount of local sales and use tax revenues transmitted to a county or a city in the prior fiscal year and any projected growth on this amount for the current fiscal year, as provided. This bill would also specify that any revenue allocated to a county or a city under these provisions be deemed “in lieu local sales and use tax revenue.”

(13) This bill would also state legislative findings and declarations that the bill is an interim statute, and that its operation be suspended if Proposition 65 is approved by the voters at the November 2, 2004, statewide general election and becomes operative.

(14) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(15) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 212 (SB 1098) Committee on Budget and Fiscal Review. Transportation: financing.

(1) Article XIX B of the California Constitution requires, commencing with the 2003–04 fiscal year, sales taxes on motor vehicle fuel that are deposited in the General Fund to be transferred to the Transportation Investment Fund for allocation to various transportation purposes, including allocations to particular transportation projects included in the Transportation Congestion Relief Program. Article XIX B authorizes the transfer of these revenues to the Transportation Investment Fund to be suspended in whole or in part for a fiscal year during a fiscal emergency pursuant to a proclamation issued by the Governor and the enactment of a statute by a  $\frac{2}{3}$  vote of both houses of the Legislature if the statute does not contain any unrelated provision.

This bill would require the Controller, on or before June 30, 2008, to transfer an amount from the General Fund into the continuously appropriated Transportation Deferred Investment Fund that is equal to the amount of motor vehicle fuel sales tax revenues that were not transferred to the Transportation Investment Fund for the 2004–05 fiscal year because of the transfer suspension, plus specified interest. The bill would reduce the amount of the transfer by any payment made to the Transportation Deferred Investment Fund from any source. The bill would require the revenues deposited in the Transportation Deferred Investment Fund pursuant to this bill to be transferred and apportioned in the same manner and amounts that would have been made in the 2003–04 fiscal year from the Transportation Investment Fund if the transfer had not been suspended. The bill would thereby make an appropriation.

The bill would require the Controller to deduct from the amount transferred from the Transportation Deferred Investment Fund for local transportation related projects an amount equal to the revenue received by the Traffic Congestion Relief Fund for those purposes from specified Indian gaming revenue and would require the Controller to deposit this sum instead into the Traffic Congestion Relief Fund.

(2) Existing law, pursuant to Proposition 116 of 1990, creates the Public Transportation Account as a trust fund, and provides that funds in the account, derived from certain sales taxes on fuels, are available only for transportation planning and mass transportation purposes. These provisions may be amended by the Legislature only by a  $\frac{2}{3}$  vote of both houses if the amending statute is consistent with, and furthers the purposes of, the provisions.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would amend the initiative provisions to provide for the transfer of certain revenues to the General Fund that would otherwise be deposited in the Public Transportation Account. The bill would transfer a portion of those funds to the Transportation Congestion Relief Fund as partial repayment of amounts loaned from the fund to the General Fund pursuant to the Budget Act of 2002.

(3) Existing law continuously appropriates the amounts specified in the annual Budget Act as having been deposited in the State Highway Account in the State Transportation Fund from federal transportation funds, and pledged by the California Transportation Commission, to the Treasurer for the purposes of issuing federal highway grant anticipation notes, as specified, to fund transportation projects selected by the commission.

The bill would require the commission to annually report on the amount of notes it intends to issue for the subsequent fiscal year.

(4) Existing law requires the Department of Transportation and the California Transportation Commission to prepare fund estimates based on certain annual expenditures, including, among others, expenditures for administration of the department, and for maintenance, operation, and rehabilitation of the state highway system. Existing law requires the department to prepare a 10-year state rehabilitation plan for the rehabilitation and reconstruction by the State Highway Operation and Protection Program of all state highways and bridges owned by the state. Existing law requires the plan to be updated every 2 years. Existing law also requires the plan to be transmitted to the Governor, Legislature, and commission.

This bill would also require the department to prepare a 5-year maintenance plan that addresses the maintenance needs of the state highway system. The bill would require the maintenance plan to be updated every 2 years and to be transmitted to the Governor, Legislature, and commission. The bill would require the rehabilitation plan and the maintenance plan to attempt to balance resources between State Highway Operation and Protection Program activities and maintenance activities.

(5) Existing law authorizes the Department of Motor Vehicles to issue an identification card for a fee of \$20, except that an identification card issued to a senior citizen is free of charge.

This bill would provide that the fee for an identification card issued to a person with an income level qualifying for specified assistance programs shall be \$6. The bill would provide for determination of eligibility to be made by a governmental or nonprofit entity, subject to regulations adopted by the department.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 213 (SB 1101) Committee on Budget and Fiscal Review. Education finance.

The California Constitution requires the state to apply a minimum amount of funding for each fiscal year for the support of school districts and community college districts. Existing law authorizes the Legislature to suspend that minimum funding obligation for one year by the enactment of an urgency statute, as provided.

This bill would suspend the minimum funding obligation for the 2004–05 fiscal year and would require the amount of money to be applied by the state for the support of school districts and community college districts during the 2004–05 fiscal year to be calculated by subtracting the amount of \$2,003,996,000 from the amount that would otherwise be required to be applied for the support of school districts and community college districts during the 2004–05 fiscal year if the suspension had not occurred.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 214 (SB 1105) Committee on Budget and Fiscal Review. Public employees' retirement: state employees.

Existing law authorizes the Department of Personnel Administration to establish and administer tax-deferred savings plans for state employees in accordance with federal tax law.

Existing law, the Public Employees' Retirement Law, provides that state employees, subject to certain exceptions, become members of the Public Employees' Retirement System upon entry into employment. Upon becoming members of the system, those employees make contributions to the system and the state employer makes contributions to the system on their behalf. Benefits payable at retirement by the system are based in part upon the employee's years of credited state service, as specified.

This bill would provide that state employees who become members of the Public Employees' Retirement System after the effective date of the bill shall not make contributions to the system, nor receive service credit for their service, and the state employer shall not make contributions on their behalf, during their first 24 months of employment. Instead, the bill would require those employees to contribute 5% of their monthly compensation to an alternate retirement program, to be developed by the Department of Personnel Administration pursuant to the provisions of the bill. The bill would further provide that the member may elect to receive service credit for that 24-month period of service and transfer his or her accumulated contributions in the alternate retirement program from that program to the retirement system. The bill would provide that the member's service to the state, for which he or she does not receive service credit, will nevertheless be treated as state service for specified purposes. The provisions of this bill would not apply to employees of the California State University or the legislative or judicial branches of government, or other specified state employees. The bill would make related conforming changes.

Until January 1, 2005, or earlier, as specified, the Rural Health Care Equity Program, as administered by the Department of Personnel Administration, provides subsidies and reimbursements for certain health care premiums and health care costs incurred by state employees and annuitants in rural areas in which there is no board-approved health maintenance organization plan available for enrollment.

This bill would extend the operation of the Rural Health Care Equity Program to January 1, 2008.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 215 (SB 1106) Committee on Budget and Fiscal Review. Public pension obligations: bond financing.

Under existing law, the state is required to make specified employer contributions to the Public Employees' Retirement Fund on behalf of state employee members of the Public Employees' Retirement System. Existing law establishes the Pension Obligation Bond Committee, which is authorized to issue bonds and take other specific actions under the California Pension Obligation Financing Act.

This bill would enact the California Pension Restructuring Bond Act of 2004, that would authorize the issuance, during any 2 fiscal years after June 30, 2004, of up to \$2 billion of bonds and the creation of ancillary obligations, as defined, for the purpose of funding or refunding the state's obligations to the Public Employees' Retirement Fund. The bill would authorize the issuance of the bonds only after the Department of Finance determines that those obligations are anticipated to be reduced as a result of changes to the Public Employees' Retirement Law, as specified. The bill would continuously appropriate from the General Fund, without regard to fiscal year, the amount necessary to pay the principal and interest on the bonds and other obligations incurred in connection with the bonds, subject to certain limits.

The bill would authorize the Pension Obligation Bond Committee to bring an action to determine the validity of the bonds issued pursuant to the act. The bill would also authorize the Department of Finance to pay, on behalf of the committee, from funds previously appropriated to the department, specified attorneys' fees and costs in connection with the prior validation action under the California Pension Obligation Financing Act, thereby making an appropriation.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 216 (SB 1108) Committee on Budget and Fiscal Review. Education finance. <sup>2</sup>

(1) Existing law requires a revenue limit to be calculated for each school district and each county superintendent of schools and requires the amount of the revenue limit to be adjusted for various factors. Existing law requires the Superintendent of Public Instruction to take into account the revenue limit of a school district and county superintendent of schools when apportioning funding to school districts and county superintendents of schools. Existing law reduces the revenue limit for the 2003–04 and 2004–05 fiscal years by a deficit factor of 1.195% for county superintendents of schools and 1.198% for school districts, and further reduces it for those years by a deficit factor of 1.826% for both county superintendents of schools and school districts. Existing law requires the revenue limit computation for the 2005–06 fiscal year to be made as if the revenue limits for the 2003–04 and 2004–05 fiscal years had been determined without being reduced.

This bill would limit the 1.195% and 1.198% revenue limit reductions to the 2003–04 fiscal year, would reduce revenue limits for the 2004–05 and 2005–06 by 0.323%, reduce the revenue limit for the 2005–06 fiscal year by an additional 1.826%, and would postpone to the 2006–07 fiscal year the requirement that revenue limits be computed as if the reductions had not been made.

(2) Existing law requires the Superintendent of Public Instruction to make on or before July 2 of each calendar year the second principal apportionment for the prior fiscal year and requires that this apportionment be counted toward meeting the state's minimum funding obligation for school districts and community college districts for the year in which the apportionment is made.

This bill would, for the 2003–04 school year, specify that the amount of apportionments for revenue limits that is to be counted toward meeting the state's minimum funding obligation for school districts and community college districts for the 2004–05 fiscal year is \$726,270,000. The bill would, for the 2004–05 school year, and each school year thereafter, specify that the amount of the apportionments for revenue limits that is to be counted toward meeting the state's minimum funding obligation for school districts and community college districts for the following fiscal year is \$715,118,000.

(3) Section 8 of Article XVI of the California Constitution imposes on the state annual minimum funding requirements for school districts and community college districts.

Existing law requires, for purposes of those minimum funding requirements, that all determinations of pertinent percentages, amounts, revenues, appropriations, allocations, proceeds of taxes, increases in cost of living, or enrollments be based upon the best available estimate until actual data becomes available, and then upon actual data when it is available.

Existing law requires the Superintendent of Public Instruction and the Director of Finance, within 9 months following the end of any fiscal year, to recalculate, as necessary, and jointly certify all actual data pertaining to school districts, as defined, for the prior fiscal year. Existing law similarly requires the Chancellor of the California Community Colleges and the Director of Finance, within 9 months following the end of any fiscal year, to recalculate, as necessary, and jointly certify all actual data pertaining to community college districts, as defined, for the prior fiscal year.

Existing law requires the Controller to set aside any amount of funding required of the state by Section 8 of Article XVI of the California Constitution to be appropriated to school districts and community college districts for that year, less any amounts already appropriated for that year, and, if not appropriated to school districts and community college districts by the Legislature within 90 days, to allocate the amount set aside to school districts and community college districts.

This bill would require the Superintendent of Public Instruction and the Director of Finance to jointly determine the outstanding balance, for the 1995–96 to 2003–04 fiscal years, inclusive, of the minimum funding obligation to school districts and community

college districts pursuant to Section 8 of Article XVI of the California Constitution, as defined to include any maintenance factor that should have been allocated. If this determination is not made for any fiscal year by January 1, 2006, the bill would require the Controller to make the determination for each such fiscal year.

The bill would, commencing with the 2006–07 fiscal year, annually appropriate \$150,000,000 from the General Fund to the Controller for allocation to school districts and community college districts for the purpose of discharging in full this outstanding balance until the Director of Finance reports to the Legislature that the sum of appropriations made and allocated equals the total outstanding balance.

The bill would require the amount annually appropriated to be allocated to school districts and community college districts in a manner that reflects the proportion of regular average daily attendance in school districts to funded full-time equivalent students in community college districts, as specified.

The bill would require the amount annually appropriated to be applied to the outstanding balance of the minimum funding obligation to school districts and community college districts for the 1995–96 to 2003–04 fiscal years, inclusive, in chronological order beginning with the 1995–96 fiscal year.

The bill would require funding received by school districts and community college districts pursuant to this bill to first be deemed to be paid in satisfaction of any outstanding claims for reimbursement of state-mandated local costs for any fiscal year and would authorize funds received in excess of amounts offsetting mandate claims to be used for any other one-time purpose, as determined by the governing board of the school district or community college district.

The bill would authorize the Legislature, pursuant to the annual Budget Act or pursuant to a subsequently enacted statute, to specify other one-time uses for the funds appropriated pursuant to this bill so long as those appropriations are made for allocation to school districts or community college districts.

(4) Existing law authorizes the State Librarian to operate a telephonic reading system, as defined.

This bill would require that system to be funded from the Deaf and Disabled Telecommunications Program Administrative Committee Fund.

(5) Existing law requires, for the 1990–91 fiscal year and each fiscal year thereafter, that moneys to be applied by the state for the support of school districts and community college districts be distributed in accordance with certain calculations. Existing law makes this provision inapplicable to the fiscal years between the 1992–93 and 2003–04 fiscal years, inclusive.

This bill would, instead, make this provision inapplicable to the 1992–93 to 2004–05 fiscal years, inclusive.

(6) Existing law provides 2 revenue limit equalization adjustments for each school district for the 2003–04 fiscal year.

This bill would make one of the equalization adjustments apply for the 2004–05 fiscal year.

(7) Existing law prohibits the exclusion, from the calculations of the Public Employees' Retirement System rate reduction to revenue limits, of persons providing services to a local educational agency through use of a joint powers authority involving the local educational agency who would, in absence of the joint powers authority, otherwise be considered school employees and subject that rate reduction to revenue limits.

This bill would exempt from that prohibition persons providing services to a regional occupational center or program operating as a joint powers agency.

(8) Existing law provides that certain funding provisions relating to apportioning money to and reimbursing a school district and county superintendent of schools for special education instruction and services provided by nonpublic, nonsectarian schools and agencies to pupils in licensed children's institutions, foster family homes, residential medical

facilities, and other similar facilities, do not apply if the school district in which the licensed children's institution or foster family home is located is also the district of residence of the parent of the individual with exceptional needs and the parent retains legal responsibility for the child's education.

This bill would make those provisions inoperative June 30, 2004, and provide for their repeal on July 1, 2006.

(9) Existing law requires the Superintendent of Public Instruction to apportion moneys to a school district and county superintendent of schools to fund costs associated with providing special education instruction, designated instruction and services, or both, by nonpublic, nonsectarian schools and agencies to pupils in licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities. Existing law also authorizes the superintendent to reimburse a school district and county superintendent of schools for costs associated with the assessment and identification of those pupils.

This bill would make those provisions inoperative June 30, 2004, and provide for their repeal on July 1, 2006.

This bill would require the superintendent, commencing with the 2004-05 fiscal year and each fiscal year thereafter, to make certain calculations for, and the State Department of Education to apportion certain amounts to, special education local plan areas, as provided, with respect to children residing in foster family homes, foster family agencies, group homes, skilled nursing homes, and other similar facilities.

(10) Existing law states the intent of the Legislature that the segments of higher education shall pursue the development of transfer agreement programs that specify the curricular requirements that must be met, and the level of achievement that must be attained, by community college students in order for those students to transfer to the campus, undergraduate college, or major of choice.

This bill would require the Trustees of the California State University, and would request the Regents of the University of California, to establish a dual admissions program, commencing with the 2004-05 academic year, in which eligible freshman applicants would be offered the opportunity to enter into a dual admissions agreement with one of those institutions. The bill would require the agreement to include a guarantee that the student will be admitted to the institution if the student successfully completes lower division coursework at a community college. The bill would require the California State University, and request the University of California, as appropriate, to offer counseling services to each student participant to ensure that the student is informed of the program requirements. The bill would require the agreement to guarantee that the community college campus attended by a participating student would waive the fees of that student, as prescribed.

By imposing additional duties on community college districts, this bill would impose a state-mandated local program.

(11) Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education. Existing law authorizes the commission to carry out prescribed tasks, and authorizes the commission to establish an auxiliary organization for the purpose of providing operational and administrative services for the commission's participation in the Federal Family Education Loan Program.

This bill would authorize the auxiliary organization to participate in activities approved by the commission and determined by the commission to be related to student financial aid, consistent with the general mission of the commission, and consistent with the purposes of prescribed provisions of federal law that are related to student financial aid. The bill would authorize the board of directors of the auxiliary organization established by the commission to meet in closed session to consider matters of a proprietary nature under certain circumstances.

The bill would require the commission to provide 45 days of advance written notice to the Director of Finance and the Joint Legislative Budget Committee prior to approving an

amendment to an existing operating agreement or any new operating agreement with an auxiliary organization or subsidiary auxiliary organization.

(12) Existing law requires the Student Aid Commission to annually report specified information to the Legislature with respect to the operation of the auxiliary organization.

This bill would require the commission to annually include information in this report relating to the level of compensation of managers and executives of the auxiliary organization. The bill would also require, commencing on April 1, 2005, and on April 1 of each year, ending on April 1, 2010, that the commission describe the actions taken, and report the costs incurred and the revenues realized, by the auxiliary organization in loan origination, disbursement services, loan servicing and repayment, secondary market, and private lender activities that the auxiliary organization undertakes as authorized by the bill.

(13) Existing law establishes the Student Loan Operating Fund and continuously appropriates the funds deposited in that fund to the commission for the purposes of its responsibilities relating to its participation in the Federal Family Education Loan Program.

This bill would authorize the commission to make advance payments from the Student Loan Operating Fund for the purpose of providing funding to the auxiliary organization for permitted student financial aid activities approved by the commission pursuant to a business plan adopted by the auxiliary organization and approved by the commission, thereby making an appropriation.

The bill would require the commission to provide 45 days of advance written notice to the Director of Finance and the Joint Legislative Budget Committee regarding the amount proposed to be transferred and a description of the approved student financial aid activities and related expenditures.

(14) Existing law sets the fee charged by the governing board of a community college district to a student at \$18 per unit per semester.

This bill would increase this fee to \$26 effective with the fall term of the 2004–05 academic year.

(15) Existing law requires the Board of Governors of the California Community Colleges to adopt regulations for the payment of apportionments to community college districts. Existing law requires the board of governors to certify estimated apportionments to the Controller on or before July 15, and for the first principal apportionment to be certified on or before February 20 and the 2nd principal apportionment to be certified on or before June 25, of each year. Existing law, commencing with the 2003–04 fiscal year, requires warrants for the 2nd principal apportionment in the amount of \$150,000,000 for general apportionments and \$50,000,000 for the Partnership for Excellence to be drawn in July pursuant to the certification made, under existing law, in June of that same calendar year, thereby causing the apportionment to be paid in the fiscal year immediately following the certification of the 2nd principal apportionment.

This bill would instead require the warrant for the 2nd principal apportionment to be in the amount of \$200,000,000 for general apportionments and would delete the requirement that \$50,000,000 be for the Partnership for Excellence.

(16) Existing law establishes a system for the apportionment of state funding to community college districts. This system is generally based on calculations related to the number of full-time equivalent students (FTES) in attendance at each district.

This bill would prohibit the equalization funds appropriated in the annual Budget Act from being allocated to any district whose total local property taxes and student fee revenues exceed the revenue limit for that district, as specified. The bill would require the chancellor to define districts as large, medium, or small, as specified for purposes of distributing funds. The bill would describe the computations to be made, and the information to be collected and analyzed, by the chancellor in devising the equalization plan. The bill would require the chancellor to allocate funds for equalization within 30 days of enactment of the annual Budget Act.

(17) Existing law prohibits a school district from being required to implement or give effect to certain statutes, if the Legislature, the Commission on State Mandates, or a court determines the statute imposes a mandate requiring reimbursement pursuant to Section 6 of Article XIII B of the California Constitution and the Legislature identifies the statute in the Budget Act as being one for which reimbursement is not provided for that fiscal year. Existing law makes this prohibition applicable to the School Bus Safety II mandate statutes and the School Crimes Reporting II mandate statutes.

This bill would apply the prohibition to the Investment Reports mandate statutes, the Law Enforcement Sexual Harassment Training mandate statutes, and the County Treasury Oversight Committee mandate statutes.

(18) Existing law establishes a fee for filing a notice of appeal in a civil case appealed to a court of appeal, a fee for filing a petition for a writ within the original civil jurisdiction of the Supreme Court or a court of appeal and until January 1, 2005, requires \$65 of each fee collected in a civil case by the clerk of each court of appeal pursuant to this provision to be paid into the California State Law Library Special Account.

This bill would extend the requirement relating to the collection of these fees for deposit into the California State Law Library Special Account to January 1, 2010.

(19) Existing law appropriates \$2,383,000 to the Board of Governors of the California Community Colleges for the student services Foster Parent Training Program from the Foster Children and Parent Training Fund.

This bill would delete that appropriation.

(20) This bill would require the Superintendent of Public Instruction to reduce, by \$2,666,000, funding for basic aid districts from categorical education funds that are appropriated in the Budget Act of 2004. The bill would require the superintendent by June 1, 2005, to report to the Controller and the Director of Finance the amount to be reduced from each categorical education program and identify the corresponding item of appropriation in the Budget Act of 2004. The bill would provide that on June 15, 2005, the amounts appropriated by those items are reduced by the amounts reported by the superintendent. The bill would require that the reductions be reductions in the amounts appropriated for purposes of Section 8 of Article XVI of the California Constitution for the 2004–05 fiscal year.

(21) Existing law authorizes the governing board of a school district to establish community day schools for pupils who are expelled, probation referred, and referred by a school attendance review board or other district level referral process. Existing law requires the Superintendent of Public Instruction to apportion additional funds per unit of average daily attendance at community day schools and conditions this additional apportionment on the extent to which funds are appropriated for this purpose in the annual Budget Act or other legislation, except for certain expelled pupils for whom funds are continuously appropriated from the General Fund to Section A of the State School Fund.

This bill would authorize the Superintendent of Public Instruction, for purposes of computing the amount of funds continuously appropriated for attendance at community day schools by certain expelled pupils, to adjust, as specified, the hours of attendance in community day school programs that are reported by local educational agencies for the 2002–03 and 2003–04 fiscal years.

(22) Existing law establishes the Standardized Testing and Reporting (STAR) Program, which requires each school district, charter school, and county office of education to administer to each of its pupils in grades 2 to 11, inclusive, an achievement test and a standards-based achievement test, as specified.

This bill would require the Commission on State Mandates, on or before December 31, 2005, to reconsider certain decisions it issued relating to state reimbursement for the STAR Program, and to reconsider its parameters and guidelines for calculating the state reimbursement, in light of federal statutes enacted and state court decisions rendered since those mandates were enacted.

(23) The bill would appropriate \$926,527,000 from the General Fund of which \$368,151,000 would be appropriated for the 2005–06 fiscal year to the State Department of Education in specified amounts for apprentice programs, supplemental instruction, regional occupational centers and programs, home-to-school transportation, the Gifted and Talented Pupil Program, the Targeted Instructional Improvement Block Grant, adult education, community day schools, categorical programs for charter schools, and the School Safety Program and \$200,000,000 would be appropriated for the 2005–06 fiscal year to the Board of Governors of the California Community Colleges for general apportionments, as specified in the Budget Act of 2004. The bill would appropriate \$109,914,000 from the General Fund for the 2004–05 fiscal year for equalization purposes to the Superintendent of Public Instruction. The bill would appropriate \$248,376,000 from the General Fund for the 2003–04 fiscal year of which \$220,000,000 would be appropriated in specified amounts for arts education programs, deferred maintenance programs, instructional materials, the Academic Improvement and Achievement Act, and education mandate claims, and of which \$28,876,000 would be appropriated to the Board of Governors of the Community Colleges to provide one-time funding for scheduled maintenance, special repairs, instructional materials, and library materials replacement. The bill would provide that for the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, these amounts are General Fund revenues appropriated for school districts and community college districts.

(24) This bill would make specified funds appropriated pursuant to the Budget Act of 2001 available for expenditure through July 31, 2004, the Budget Act of 2002 available for expenditure through July 31, 2005, and the Budget Act of 2003 available for expenditure through July 31, 2006. The bill would revert the funds unexpended after those dates to the Proposition 98 Reversion Account.

(25) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(26) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 217 (SB 1110) Cedillo. State employees: State Bargaining Unit 6.

(1) Existing law provides that if any provision of a memorandum of understanding (MOU) reached between the state employer and a recognized employee organization representing state civil service employees requires the expenditure of funds, those provisions of the memorandum of understanding shall not become effective unless approved by the Legislature in the annual Budget Act.

This bill would approve an addendum to an MOU entered into between the state employer and State Bargaining Unit 6 (California Correctional Peace Officers Association).

This bill would also provide that provisions of any addendum to the memorandum of understanding approved by this bill that require the expenditure of funds on or after July 1, 2004, may not take effect unless funds for these provisions are specifically appropriated by the Legislature, and would provide that if funds for these provisions are not specifically appropriated by the Legislature, the state employer and the affected employee organization shall meet and confer to renegotiate the affected provisions.

This bill would appropriate, from any appropriate fund sources, the sum necessary to satisfy the economic requirements for employee compensation for employees in State Bargaining Unit 6 for the term of the Unit 6 MOU, which expires on July 2, 2006, as modified by the ratified addendum, and state the intent of the Legislature in that regard.

(2) Existing law contains various provisions relating to civil service and employer-employee relations between the state and its employees that apply to state employees generally and to State Bargaining Unit 6, with respect to, among other things, promotions, transfers, compensation, salary ranges, and entering into an MOU that provides for salary increases and other employee benefits.

This bill would authorize the Secretary of the Youth and Adult Correctional Agency, when he or she certifies in writing that it is necessary to prevent or minimize employment actions, including, among other things, layoffs, demotions, reductions in time base, or involuntary transfers, to designate departments, boards, or commissions that are eligible to have their peace officer employees transfer to another department, board, or commission. The bill would also specify the criteria for making the transfer and any requirements or exceptions that may apply to a peace officer employee who desires to transfer to another department, board, or commission.

This bill would provide that provisions of the Unit 6 MOU, which expires July 2, 2006, as modified by the ratified addendum, relating to the release of copies of videotaped incidents, shall be subject to the California Public Records Act.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 218 (SB 1111) Committee on Budget and Fiscal Review. Veterans affairs.

Existing law establishes the office of the Inspector General for Veterans Affairs and delegates responsibilities to the inspector general including, but not limited to, reviewing the operations and financial condition of each California veteran home and veteran farm and home purchase program, conducting reviews pursuant to a request by any Member of the Legislature, and submitting reports and recommendations for improving the operations of the veterans programs.

This bill would eliminate the office of the Inspector General for Veterans Affairs and duties associated with the position.

Ch. 219 (SB 1112) Committee on Budget and Fiscal Review. State responsibility area fire protection benefit fee.

Existing law imposes an annual state responsibility area fire protection benefit fee, as specified, on each parcel of land located, in whole or in part, within state responsibility areas, except on certain parcels. Existing law requires counties to collect the fees, as prescribed, and creates the State Responsibility Area Fire Protection Benefit Fund, into which the fees are deposited, to be available, upon appropriation, for fire prevention and suppression services by the Department of Forestry and Fire Protection. Existing law requires the Director of Forestry and Fire Protection to convene a stakeholder group to evaluate the method by which fire protection and suppression services in state responsibility areas are provided, and to make a specified report to the Legislature on or before January 1, 2006.

This bill would repeal the above provisions.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 220 (SB 1120) Committee on Budget and Fiscal Review. Budget Act of 2003: contingencies or emergencies.

The Budget Act of 2003 appropriated specified amounts from the General Fund, unallocated special funds, and unallocated nongovernmental cost funds for expenditure for contingencies or emergencies upon written authorization from the Director of Finance. The Budget Act of 2003 also appropriated specified amounts for loans to state agencies for contingencies or emergencies.

This bill would appropriate \$477,446,000, as scheduled, in augmentation of these Budget Act appropriations. The bill would authorize the Director of Finance to withhold authorization for the expenditure of funds appropriated in the bill until preliminary estimates of potential deficiencies are verified.

This bill would declare that it is to take effect immediately as a statute providing an appropriation for the usual current expenses of the state.

Ch. 221 (SB 1809) Dunn. Labor Code Private Attorneys General Act of 2004.

(1) Existing law allows aggrieved employees to bring civil actions to recover penalties for violations of the Labor Code if the Labor and Workforce Development Agency or its departments, divisions, commissions, boards, agencies, or employees do not do so. The penalties collected in these actions are distributed 50% to the General Fund, 25% to the agency for education, to be available for expenditure upon appropriation by the Legislature, and 25% to the aggrieved employee, except that if the person does not employ one or more persons, the penalties are distributed 50% to the General Fund and 50% to the agency. In addition, existing law provides that the aggrieved employee is authorized to recover attorney's fees and costs and, in some cases, penalties.

This bill would redistribute these penalties, so that 75% is distributed to the agency to be continuously appropriated for purposes of enforcement and education and 25% to the aggrieved employee, except that if the person does not employ one or more persons, 100% of the penalties are distributed to the agency by continuous appropriation.

This bill would provide that an aggrieved employee may recover these penalties only after complying with specified procedural and administrative requirements and providing specified written notice to the agency and to the employer.

This bill would authorize a court, in any action by an aggrieved employee seeking recovery of a civil penalty pursuant to the act, to award a lesser amount than the maximum civil penalty amount specified by the underlying applicable statute and would require a court to review and authorize any settlement. The bill would provide that a civil penalty for any violation of a posting or notice requirement of the Labor Code, other than a requirement relating to mandatory payroll or workplace injuries, may be recovered only by the agency or its subdivisions. The bill would provide that these provisions are retroactive to January 1, 2004.

The bill would require the Joint Committee on Boards, Commissions, and Consumer Protection, in consultation with the standing committees of the Legislature with jurisdiction over employment matters, to review certain functions created by this bill.

The bill would appropriate \$150,000 from the General Fund to the agency for the purpose of implementing these provisions.

(2) Existing provisions prohibit an employer from discriminating against an employee because the employee has specified existing rights. This bill would include among those protected rights the bringing of an action to collect penalties for the violation of labor laws pursuant to the provisions described in (1) above.

(3) Existing law requires an employer to file in the office of the Director of Labor Standards Enforcement a copy of any application for employment that the employer requires an applicant to sign.

This bill would repeal that requirement.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 222 (AB 493) Salinas. Sexually violent predators.

Existing law provides for the commitment of convicted sexually violent predators to the custody of the State Department of Mental Health for treatment, under specified conditions. If the Director of Mental Health determines that the person's diagnosed mental disorder has so changed that the person is not likely to commit acts of predatory sexual violence while under supervision and treatment in the community, the director is required to forward a report and recommendation for conditional release to the superior court of the county in which the person was convicted of the offense for which he or she was committed to the jurisdiction of the Department of Corrections and the court is required to set a hearing, as specified. A person who has been committed as a sexually violent predator may petition the court for

conditional release with or without the recommendation or concurrence of the Director of Mental Health. Upon receipt of a petition from the Director of Mental Health or a committed person, if that petition is not based upon frivolous grounds, the court is required to hold a hearing to determine whether the person committed would be a danger to the health and safety of others in that it is likely that he or she will engage in sexually violent criminal behavior due to his or her diagnosed mental disorder if under supervision and treatment in the community; if not, the court is required to order the committed person placed with an appropriate forensic conditional release program operated by the state for one year.

This bill would require a nonparolee who is conditionally released under these provisions to be placed in the county of the domicile, as defined, unless the court finds that extraordinary circumstances, as defined, require placement outside the county of domicile. The bill would require the department to consider concerns of the victim or the victim's next of kin. The bill would require the county of domicile to designate, and notify the department of, the county agency or program that will provide assistance and consultation in the process of locating and securing housing within the county for persons who are about to be conditionally released. By establishing new duties for counties, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 223 (SB 631) McPherson. Restitution.

(1) Under existing law, in every case where a person is convicted of a crime, the court is required to impose a restitution fine, unless it finds compelling and extraordinary reasons for not doing so, and states those reasons on the record. Existing law also provides for restitution for economic losses to victims of crime directly from any defendant convicted of the crime, as specified.

Under existing law, a victim restitution order or restitution fine is enforceable as a civil judgment, and continues to be collectible after probation and parole has terminated. Existing law requires a defendant to prepare a disclosure of assets, income and liabilities as of the date of arrest for the crime for which restitution may be ordered, and requires the disclosure be made available to the victim, as specified.

This bill would require a defendant who has an unpaid balance on a restitution order or fine 120 days prior to the time of his or her release from probation or the conclusion of his or her conditional sentence to prepare and file a specified signed financial disclosure statement on a specified form with a court clerk not later than 90 days prior to release from probation or the conclusion of a conditional sentence. Willfully making false material statements on this disclosure would be a misdemeanor, unless punishable as perjury, or otherwise subject to greater penalty. This bill would require that both this disclosure statement and the initial disclosure statement be made available to the victim and to the California Victim Compensation and Government Claims Board.

By making willfully false material statements on this newly required disclosure a crime, this bill would impose a state-mandated local program.

(2) Existing law provides that restitution is to be made to the Restitution Fund to the extent that the victim of the crime has received assistance from the California Victim Compensation and Government Claims Board. Existing law requires that a victim in a criminal case be notified of sentencing proceedings, of the right to civil recovery, and of the opportunity for

compensation from the Restitution Fund. However, existing law does not explicitly address the circumstance in which an order is made for restitution to the California Victim Compensation and Government Claims Board.

This bill would require a court clerk to notify the California Victim Compensation and Government Claims Board within 90 days of an order requiring a defendant to pay restitution to the board due to the victim receiving compensation from the fund by mailing a copy of the order to the board, and would allow this to be done periodically by bulk mail or electronic mail.

(3) Existing law makes the Director of General Services the Chairman of the California Victim Compensation and Government Claims Board.

This bill would instead make the Secretary of the State and Consumer Services Agency the chair of that board.

(4) Under existing law, a restitution fine is deposited into the Restitution Fund for expenditure by the California Victim Compensation and Government Claims Board as awards to victims of crime, as specified. Existing law separately defines “victims” for purposes of the provisions authorizing adult restitution fines and orders, and includes in that definition “derivative victims,” as specified.

This bill would delete the language that adds “derivative victims” to the definition of “victims” for purposes of adult restitution fines and orders, and instead add specified persons who have sustained economic loss as the result of a crime, and persons eligible for awards to victims of crime to those deemed “victims” for these purposes.

(5) For cases in which a sentence is imposed that includes a period of parole, existing law provides that an additional restitution fine shall be ordered, in the same amount as the primary restitution fine, to be suspended unless the person’s parole is revoked. Existing law does not provide for a similar suspended fine for probationers.

This bill would specify that parole revocation restitution fines are to be deposited in the Restitution Fund in the State Treasury. It would also provide for a probation revocation restitution fine, also in the same amount as the primary restitution fine, to be assessed by the court and to become effective when a person’s probation is revoked. This probation revocation restitution fine could not be waived or reduced by the court absent compelling and extraordinary reasons stated on the record, and would be deposited in the Restitution Fund.

(6) Existing law provides that a fine or restitution fine may be enforced in the manner of civil judgments generally, specifies that the California Victim Compensation and Government Claims Board may collect restitution fine balances after the termination of a term of probation or parole, authorizes disclosure of specified information to the board to assist the board in collecting restitution fines, and exempts restitution fines from the statutes limiting the time permitted for enforcing judgments.

Existing law establishes diversion programs in categories of cases involving drug and other charges that, upon successful completion, lead to the dismissal of criminal charges. For most of these categories, the court is required to impose a diversion restitution fee on the defendant, as specified.

This bill would specify that a diversion restitution fee or a restitution fine imposed upon parole revocation or probation revocation may also be enforced in the manner of civil judgments generally. It would provide that parole revocation restitution fines, probation revocation restitution fines, and diversion restitution fees are also subject to collection by the board after the termination of parole or probation or the completion of diversion, and that the same disclosures authorized to assist the board in collecting restitution fines may be given to the board to assist in collecting these parole and probation revocation restitution fines and diversion restitution fees. This bill would also exempt diversion restitution fees from the time limitations on enforcing judgments.

(7) Under existing law, the former State Board of Control has been renamed the California Victim Compensation and Government Claims Board.

This bill would correct obsolete references to the State Board of Control and correct a related cross reference.

(8) Existing law requires the Director of Corrections, in any case in which a prisoner owes a restitution order or a restitution fine assessed in criminal court, to deduct specified amounts from the wages and trust account deposits of the prisoner unless prohibited by federal law, and to transfer those amounts to the State Board of Control for direct payment to the victim or deposit in the Restitution Fund. Existing law also authorizes the Director of Corrections to collect from a parolee any moneys owing on a restitution order or a restitution fine assessed in adult court unless prohibited by federal law, and requires the director to transfer those amounts to the State Board of Control for direct payment to the victim or deposit in the Restitution Fund.

This bill would make these same provisions applicable to restitution orders and restitution fines assessed in juvenile court for persons under the jurisdiction of the Director of Corrections.

(9) Some of the existing provisions of law relating to the collection of restitution addressed in this bill became operative by their own terms on January 1, 2000, unless an extension was granted on a county-by-county basis by the Judicial Council, as specified. By those same terms, these extensions could last no longer than January 1, 2002.

This bill would repeal this obsolete language authorizing a delay in the operation of these provisions.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(11) Existing provisions of the Government Code continuously appropriate money in the Restitution Fund to the California Victim Compensation and Government Claims Board for expenditure on indemnifying victims of crime, as specified. Because this bill would increase the amount of money deposited into this fund, it would make an appropriation.

(12) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 224 (SB 694) Committee on Natural Resources and Wildlife. Public resources.

(1) Existing law requires the Governor to appoint 9 members to the State Park Commission or the Recreation Commission with terms expiring at various dates, all prior to January 15, 1971.

This bill would delete that provision.

(2) Existing law requires the Department of Conservation, in consultation with the Seismic Safety Commission, to prepare and submit to the Legislature by July 1, 1988, a feasibility study, with specified contents, evaluating the effectiveness of an early warning system to detect seismic activity along the San Andreas Fault north of the Los Angeles metropolitan area.

This bill would delete that provision.

(3) Existing law provides that the Southern California Earthquake Preparedness Project and the Bay Area Regional Earthquake Preparedness Project continue until June 30, 1995, for a specified purpose.

This bill would delete that provision.

(4) The existing Sudden Oak Death Management Act of 2002 requires the Department of Forestry and Fire Protection to implement a program to detect, remove, and treat, if possible, trees infected with *Phytophthora ramorum* and requires that the program encourage tree management and replanting, as specified. Subject to the appropriation of funds in the Budget Act of 2002, the act requires the department to expend those appropriated funds on various specified sudden oak death management activities, including not less than \$700,000 on specified sudden oak death management activities pursuant to contracts with counties.

This bill additionally would, subject to the appropriation of funds in subsequent Budget Acts, require the department to expend those appropriated funds on various specified sudden oak death management activities, including not less than 35% on specified sudden oak death management activities pursuant to contracts with counties. The bill would require the department to endeavor to contract directly with the affected county, but would authorize the department, if the county declines to enter into a contract, to contract instead with one or more other appropriate entities at the local level.

(5) Existing law gives the State Coastal Conservancy responsibility for implementing a program of agricultural protection, area restoration, and resource enhancement in the coastal zone, as defined. Existing law generally requires the conservancy to deposit funds received for these purposes in the State Coastal Conservancy Fund.

Existing law requires the conservancy to administer the San Francisco Bay Area Conservancy Program, and to deposit funds for that program in the San Francisco Bay Area Conservancy Program Account in the State Coastal Conservancy Fund, as specified.

This bill would establish the Coastal Trust Fund to receive and disburse funds paid to the conservancy in trust, subject to the right of recovery to fulfill the purposes of the trust. The bill would establish in that fund the San Francisco Bay Area Conservancy Program Account for deposit of all funds received by the conservancy for the San Francisco Bay Area Conservancy Program, except for funds from the state or federal government.

The bill would also establish in the Coastal Trust Fund the Coastal Program Account, for deposit of all funds paid to the conservancy in trust for agricultural protection, area restoration, and resource enhancement in the coastal zone, except those funds for the San Francisco Bay Area Conservancy Program. The bill would require the Department of Finance to approve the deposits.

The bill would require funds in the Coastal Trust Fund to be separately accounted for, according to their trust purposes. The bill would continuously appropriate funds in the Coastal Trust Fund to the conservancy to fulfill the purposes for which the payment of funds were made, thereby making an appropriation, and would require the conservancy to provide an annual accounting to the Department of Finance of the conservancy's expenditures from, and other activities related to, the Coastal Trust Fund.

The bill would require that the San Francisco Bay Area Conservancy Program Account in the State Coastal Conservancy Fund receive and disburse funds appropriated by the Legislature for the administration and implementation of the San Francisco Bay Area Conservancy Program, as specified. The bill would require the conservancy to account for all deposits and reimbursements of funds in this account.

The bill would transfer existing, specified funds to the accounts that the bill would create.

Ch. 225 (SB 1097) Committee on Budget and Fiscal Review. General government.

(1) Existing law establishes the California Small Business Expansion Fund in the State Treasury to, among other things, pay for defaulted loan guarantees, administrative costs of corporations, and those costs necessary to protect a real property interest in a defaulted loan or guarantee. Existing law requires that the amount of guarantee liability outstanding at any one time not exceed 4 times the amount of funds on deposit in the expansion fund and requires that a corporate guarantee be backed by funds on deposit in the corporation's corporate fund.

This bill would require that the amount on deposit in the expansion fund for guarantee liability include any receivables due from funds loaned from the expansion fund to another fund in state government as directed by the Legislature and the Department of Finance and would also provide that a corporate guarantee may also be backed by receivables due from funds from the corporation's trust fund account to another fund in state government as directed by the Legislature and the Department of Finance.

(2) The Enterprise Zone Act prescribes duties of the Department of Housing and Community Development in connection with the act.

This bill would authorize the department and local governments to charge and collect certain fees in connection with the act.

(3) Existing law, until January 1, 2004, established the Technology, Trade, and Commerce Agency under the direction of the Secretary of Technology, Trade, and Commerce, and generally set forth the duties and authority of the agency and the secretary in state government. As of that date, certain duties of the agency and the secretary are performed by, and certain authority of the agency is granted to, the Business, Transportation and Housing Agency, including various entities within the agency, and the Secretary of Business, Transportation and Housing.

This bill would delete references to the Technology, Trade, and Commerce Agency, the Secretary of Technology, Trade, and Commerce, and various activities under the jurisdiction of that agency or secretary, and would make various conforming changes, including changes with respect to those duties performed by, or authority granted to, the Business, Transportation and Housing Agency and its secretary.

(4) Existing law sets forth certain duties of the California Film Commission, the Director of the Film Commission, and the Director of the Film Office, and sets forth the components of a program prepared and implemented by the Director of the Film Office to promote the production of motion pictures and still photography for the benefit of the state's economy.

This bill would delete references to the Director of the Film Office, and instead refer to the Director of the Film Commission in this regard. It would specify that certain of these provisions would be subject to the provision of funding appropriated for these purposes.

(5) Existing law requires certain moneys to revert to the Underground Storage Tank Cleanup Fund in the General Fund upon a specified contingency.

This bill would require those moneys to revert to the General Fund.

(6) Existing law places certain activities relating to military base retention and conversion in the Department of Housing and Community Development.

This bill would transfer those activities to the Business, Transportation and Housing Agency.

(7) The Personal Income Tax Law and the Corporation Tax Law provide various credits against the taxes imposed by those laws, including credits for hiring employees in enterprise zones. Among other things, a taxpayer claiming the hiring credit is required to obtain, from specified governmental entities, a certification that the employees meet specified eligibility requirements.

This bill would provide that this certification may also be obtained from the local government administering the enterprise. This bill would require the Department of Housing and Community Development to develop regulations that govern the issuance of this certification by a local government.

(8) Existing law requires specified state entities, including the Secretary of Technology, Trade, and Commerce, in consultation with stakeholders and customers, to collaborate in the development of a state workforce development system and encourage and support local partners to develop regional workforce collaboratives.

This bill would delete the reference to the Secretary of Technology, Trade, and Commerce, and would additionally include the Secretary of Labor and Workforce Development within these provisions.

(9) This bill would make various technical, nonsubstantive changes.

(10) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 226 (SB 1100) Committee on Budget and Fiscal Review. Taxation.

(1) Existing law imposes specified taxes, including sales and use taxes that are administered by the State Board of Equalization, and personal income and corporate taxes collected and administered by the Franchise Tax Board.

This bill would require the State Board of Equalization and the Franchise Tax Board to administer tax amnesty programs during the period beginning February 1, 2005, and ending

on March 31, 2005, inclusive, or during any other 2-month period ending before June 30, 2005, as provided.

(2) The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. Under existing law, there is a presumption that tangible personal property shipped or brought into this state by the purchaser was purchased from a retailer for storage, use, or other consumption in this state.

This bill would, until July 1, 2006, expand this presumption to a vehicle, vessel, or aircraft, if that vehicle, vessel, or aircraft is (1) purchased by a California resident, (2) subject to California's registration or property tax laws during the first 12 months of ownership, or (3) used or stored in this state more than  $\frac{1}{2}$  of the time during the first 12 months of ownership. This bill would provide that the expanded presumption may be controverted by documentary evidence, as specified.

This bill would specify that its provisions do not apply to a vehicle, vessel, or aircraft that is purchased, or that is subject to a binding purchase contract, on or before October 1, 2004.

This bill would provide that the expanded presumption does not apply to aircraft or vessels brought into this state, on or after the operative date of the bill, for the purpose of repair, retrofit, or modification, except as specified.

This bill would require the Legislative Analyst's office to conduct a study of the economic impacts of the amendments to these provisions, and report its findings to the Legislature on or before June 30, 2006.

(3) Existing law authorizes the Franchise Tax Board to administer, among other things, the Personal Income Tax Law and the Corporation Tax Law and to collect amounts due thereunder. Existing law also authorizes the Franchise Tax Board to charge fees for the provision of specified services provided to governmental entities and for the provision of specified forms and publications provided, upon request, to eligible taxpayers.

This bill contains legislative findings of the need to recover the costs incurred for the provision of specialized tax services provided to individuals and entities, and would authorize the Franchise Tax Board to charge fees for the provision of specified specialized tax services to individuals and entities. This bill would provide that the fees received would be treated as reimbursement for the Franchise Tax Board's costs.

(4) The Personal Income Tax Law authorizes various credits against the taxes imposed by those laws, including a credit against taxes imposed by those laws for credentialed teachers in an amount equal to specified amounts, depending upon years of service as a teacher.

This bill would suspend that credit for taxable years beginning on or after January 1, 2004, and before January 1, 2006.

(5) The Natural Heritage Preservation Tax Credit Act of 2000 requires the Wildlife Conservation Board to implement a program under which property, as defined, may be contributed to the state, any local government, as defined, or to any nonprofit organization designated by a local government, based on specified criteria, in order to provide for the protection of wildlife habitat, open space, and agricultural lands.

The Personal Income Tax Law and the Corporation Tax Law authorize a credit against the taxes imposed by those laws in an amount equal to 55% of the fair market value of any qualified contribution, as defined, contributed during the taxable year pursuant to the Natural Preservation Tax Credit Act of 2000, as provided. The total amount of tax credits that may be awarded in the fiscal years 2000-01, 2001-02, 2002-03, 2003-04, and 2004-05 is limited to \$100,000,000, as provided.

(6) Existing law suspended the award of tax credits under the act in the 2002-03 fiscal year and authorized any amounts that would have been awarded during that time, but for that suspension, to be awarded in the 2003-04 fiscal year and the remainder, if any, in the 2004-05 fiscal year.

This bill would extend the years during which the tax credits may be awarded under the act to include the 2005-06, 2006-07, and 2007-08 fiscal years. This bill would also provide

that credits may not be awarded between July 1, 2002, and June 30, 2005, unless revenues lost from those credits from the General Fund are reimbursed, as provided.

(7) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 227 (SB 1102) Committee on Budget and Fiscal Review. General government.

(1) Existing law prescribes certain duties of the Department of Consumer Affairs relating to privacy protection.

This bill would authorize funding sources other than the General Fund to be used for that activity.

(1.5) Existing law, the Boxing Act, provides for the regulation of boxing, martial arts, and kickboxing contests by the State Athletic Commission. Existing law requires every person who conducts a boxing contest or wrestling exhibition to furnish to the commission a report showing the number of tickets sold and gross receipts, and the amount of broadcasting revenues earned for the contest or exhibition, for the purpose of determining the fees to be paid to the commission by that person. Existing law establishes a fee of 5% of gate admission revenues plus 5% of broadcasting revenues to be paid to the commission, except that until January 1, 2006, the maximum gate fee for any one boxing contest may not exceed \$100,000. The fees are deposited into the General Fund.

This bill would require the fee revenues to be deposited in the Athletic Commission Fund, which would be created by the bill, rather than in the General Fund.

(2) The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, and the suspension of alcoholic beverage licenses by the Department of Alcoholic Beverage Control. Existing law authorizes an alcoholic beverage licensee whose license has been suspended for 15 days or less for selling or furnishing alcoholic beverages to a minor to petition the Department of Alcoholic Beverage Control for permission to make an offer in compromise, before the operative date of the suspension of the alcoholic beverage license and to pay an amount in lieu of serving the suspension.

This bill would generally prohibit a licensee from petitioning the department for an offer in compromise in any case in which the proposed suspension is for a period in excess of 15 days. The bill would authorize an alcoholic beverage licensee to petition the department for an offer in compromise for a 2nd violation of provisions relating to selling or furnish alcoholic beverage to minors that occurs within 36 months of the initial violation without regard to the period of the suspension, and would establish the amount of the offer in compromise for various violations, as specified.

(3) Under existing law, a licensee may not petition the Department of Alcoholic Beverage Control for an offer in compromise for a 2nd or subsequent violation of provisions relating to selling alcoholic beverages to a minor within 36-months of the initial violation.

This bill would instead prohibit a licensee from petitioning the department for an offer in compromise for a 3rd or subsequent violation of these provisions within 36 months of the initial violation.

(3.5) Existing law provides that in an action for the breach of an obligation not arising from contract, where it is proven by clear and convincing evidence that the defendant has been guilty of oppression, fraud, or malice, the plaintiff, in addition to the actual damages, may recover damages for the sake of example and by way of punishing the defendant.

This bill would provide, with respect to an action filed after the effective date of the bill that results of a final judgment or settlement that is rendered on or before June 30, 2006, and includes punitive damages, that the punitive damages shall be apportioned according to a specified formula. Pursuant to this formula, 25% would be paid to the plaintiff or plaintiffs and 75% of the award would be paid to the Director of the Department of Finance for deposit into the Public Benefit Trust Fund, which would be created by the bill. The fund would be administered by the Department of Finance. Of the amounts deposited into the fund, 25% would be continuously appropriated to pay the plaintiff's attorney, as specified, and the

remainder would be available for annual appropriation in the Budget Act, to be used for purposes consistent with the nature of the award, as specified.

The bill would specify the state and local income tax treatment of punitive damages awards. The bill would further specify that the state shall not be a party in interest to, or intervene in, the underlying action, and that the sole right of the state shall be to the proceeds payable to the Public Benefit Trust Fund. The bill would also prohibit informing a jury that a portion of a punitive damages award will be paid to a government fund or that a punitive damages award would result in a windfall to the plaintiff.

(4) Existing law provides that when the Attorney General prevails in a civil action to enforce specified public rights, the court shall award the Attorney General all costs of investigating and prosecuting the actions, including expert witness fees, reasonable attorney's fees, and costs. Existing law provides that these moneys be paid to the Public Rights Law Enforcement Special Fund, administered by the Department of Justice.

This bill would add actions to enforce a variety of other civil laws for which costs may be awarded pursuant to the provisions described above. In these provisions, the bill would include actions to enforce laws related to public nuisances, corporate securities, air resources, forest practices, tobacco sales, and waste management, among others and would be operative, as specified.

(5) The Unclaimed Property Law establishes uniform procedures for, among other things, deposits or accounts that escheat to the state, provides that property received by the state under its provisions does not permanently escheat to the state, and exempts from its provisions, among other things, any instrument issued in a foreign country and any funds held only in a foreign country.

This bill would delete these 2 exemptions.

(6) Provisions of law that became inoperative on July 1, 2003, and that were repealed on January 1, 2004, established the Governor's Scholarship Programs under the administration of the Scholarshare Investment Board. Existing law authorizes the board to continue to administer the scholarship accounts established under the repealed law.

This bill would express the intent of the Legislature to provide explicit authority to the board to continue to administer accounts for, and to make awards to, persons who qualified for awards under the provisions of the Governor's Scholarship Programs as those provisions existed on January 1, 2003, and to provide for the management and disbursement of funds previously set aside for the Governor's Scholarship Programs.

The bill would authorize the board to manage and disburse the funds previously set aside for the Governor's Scholarshare Programs. The bill would provide that a person who earned an award under these programs, but who has not claimed the award on or before June 30, 2004, may claim the award prior to a specified deadline. The bill would authorize the board to adopt rules and regulations for the implementation of the bill.

The bill would require the board to transfer from the Golden State Scholarshare Trust to the General Fund, not later than 30 days following the enactment of the Budget Act of 2004, the lesser of (a) \$50,000,000 or (b) the balance in excess of \$5,000,000 resulting from unclaimed existing awards under these programs as of the close of business on the business day preceding the date of transfer. The bill would provide that the amount remaining in the Golden State Scholarshare Trust following this transfer would be available as a reserve for funding claims for these awards. The bill would specify that, if the amount of the claims received by the board exceeds \$4,000,000, the board would be required to notify the Controller of any shortfall in the reserve for the payment of claims and the Controller would be required to transfer moneys from the General Fund to the Golden State Scholarshare Trust in an amount equal to the shortfall, thereby making an appropriation.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay

the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

Existing law requires a county board of supervisors, prior to adopting a resolution to approve or deny requests to consolidate specified local elections, to obtain from the county elections official a report on the cost-effectiveness of the proposed consolidation.

Existing law requires that specified documents related to a real property claim be recorded with a county recorder.

Existing law requires a county recorder to notify debtors of the recordation of involuntary liens affecting the title of real property.

Existing law requires a county assessor to report quarterly to the State Board of Equalization on specified property purchases or transfers between family members that involve a claim for exclusion from "change of ownership" assessment requirements.

Existing law requires that firefighters be provided with specified personal alarm devices.

Existing law requires various local officials to file and record specified documents as a part of a program that allows senior citizens to defer payment of property taxes.

Existing law requires that any traffic signal controller that is newly installed or upgraded by a local authority shall be of a standard traffic signal communication protocol capable of 2-way communications.

This bill would make these requirements optional, thereby eliminating state-mandated local programs, but would state that the Legislature, in recognition of the state and local interests served by these programs, encourages local agencies and officials to continue taking the actions formerly mandated by these provisions, and states that nothing in this statement of encouragement may be construed to impose any liability on a local agency that does not continue to take a formerly mandated action.

(8) Existing statutory provisions require the Commission on State Mandates to issue parameters and guidelines and the Controller to issue claiming instructions that govern how local agencies and school districts may seek reimbursement for state-mandated local programs.

This bill would require the commission to amend the appropriate parameters and guidelines, and the Controller to revise the appropriate reimbursement claiming instructions to be consistent with the provisions of this bill.

(9) Existing law requires a corporation to file an annual statement containing certain information with the Secretary of State and to pay various filing fees, including a \$5 disclosure fee,  $\frac{1}{2}$  of which is deposited into the Victims of Corporate Fraud Compensation Fund. The fund is administered by the Secretary of State and the revenue in the fund is required to be used solely for providing restitution to the victims of a corporate fraud.

This bill would continuously appropriate the money in the Victims of Corporate Fraud Compensation Fund to the Secretary of State for that purpose.

(10) Existing law establishes the Food and Agriculture Fund, a continuously appropriated fund used for specified purposes relating to enforcement of various provisions of law relating to various agriculture programs. The fund is exempt from various other provisions of law requiring the submissions of budgets and the contents thereof by state agencies.

This bill would provide that notwithstanding those provisions, the Department of Food and Agriculture would be required to establish all permanent positions with the Controller's office pursuant to standard state administrative practices, and to report to the chairs of the fiscal committees of the Legislature, no later than January 10, 2005, on the positions established and funded, as specified. The bill would make related changes.

(11) The Disaster Assistance Act authorizes the Director of Emergency Services to allocate funds appropriated for the purposes of the act from various accounts for the costs incurred by local and state agencies. Among the costs that may be funded are local agency personnel costs, excluding normal hourly wage costs of regularly assigned emergency services and public safety personnel; costs to repair, restore, reconstruct, or replace facilities

belonging to local agencies damaged as a result of a disaster; and indirect administrative costs.

This bill would, until January 1, 2006, establish the Disaster Response-Emergency Operations Account within the Special Fund for Economic Uncertainties, and would continuously appropriate the moneys in the account, subject to specified limitations, for allocation by the Director of Finance to state agencies for disaster response operation costs incurred by state agencies as a result of a proclamation of a state of emergency by the Governor.

(12) Existing statutory law requires each state agency to annually review of all proprietary state lands over which it has jurisdiction, with specified exceptions, to determine what, if any, land is in excess of its foreseeable needs and report thereon in writing to the Department of General Services. The department is required to report to the Legislature annually, the land declared excess and request authorization to dispose of the land by sale or otherwise, subject to specified conditions. When the department determines any of the land is needed by any other state agency it may transfer the jurisdiction of this land to the other state agency upon the terms and conditions as it may deem to be for the best interests of the state. When authority is granted for the sale or other disposition of lands declared excess, and the department has determined that the use of the land is not needed by any other state agency, the Department of General Services is required to sell or otherwise dispose of the land, subject to specified conditions. The department is authorized to sell the land to a public agency that has given written notice to the department of its intent to purchase the land within 60 days after receipt of notice from the department. If the agreement is not executed within an additional 90 days, the department is authorized to offer the land for sale in the normal manner, except that this time limit may be extended under certain conditions. In specified cases the department is authorized to transfer the land to local public agencies for less than fair market value. Proceeds of sales and rentals, and other revenues of real property are required to be deposited in the General Fund.

Executive Order S-10-04, among other things, requires all state agencies, departments, boards, and commissions to review the current and anticipated programmatic need for the state-owned and leased property that they occupy or have under their stewardship, and identify and report any property surplus to their current or future needs.

This bill would provide that these statutory provisions shall be inoperative until July 1, 2005. The bill would instead, until July 1, 2005, require all state agencies, departments, boards, and commissions, that have not already done so pursuant to Executive Order S-10-04, to review the current and anticipated future programmatic need for the state-owned and leased property that they occupy or have under their stewardship, and identify and report any property surplus to their current or future needs to the Department of General Services. It would require the department to review the properties identified pursuant to these reports to determine whether those properties are surplus to the needs of the state, report the surplus properties to the Legislature, and request authorization from the Legislature to dispose of the properties by sale or otherwise, subject to specified conditions. It would authorize the department to sell or otherwise dispose of property as authorized by the Legislature pursuant to these provisions or by previous legislative action, which has been determined by the department not to be needed by any state agency. It would require the property to be offered to local governmental agencies who notify the department of their interest in the surplus state property within 60 days of receiving notice of the availability of the property, and would require the sale of the property to a local agency to be completed, and title transferred, within 90 days of the date the local governmental agency was notified of the availability of the property. It would specify that if the sale of a surplus state property to a local governmental agency is not completed within the 90 day timeframe, the department would be required to offer the property for sale to private entities or individuals. It would require the transfers or sale of surplus property to local governmental agencies or private entities or individuals pursuant to this subdivision to be at fair market value, and provide that except as otherwise

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

required by the California Constitution or federal law, the net proceeds of any property disposition, or rental moneys or other revenues, would be deposited in the General Fund as specified.

This bill would appropriate \$2,800,000 from the Property Acquisition Law Money Account to the department for the 2004–05 fiscal year, for activities associated with the disposal of surplus state property pursuant to the bill.

(13) Existing law authorizes the Stephen P. Teale Data Center to establish rates and collect payments from state agencies for providing services to those agencies. The methodology for computing costs and billing rates is subject to the approval of the Director of Finance.

This bill would require the data center or its successor entity to, commencing no later than August 1, 2005, and no later than August 1 annually thereafter, submit to the Department of Finance a proposal that reconciles the current fiscal year rates and details any adjustments proposed for budget fiscal year rates to be included in the Governor's Budget.

(14) Existing law ratifies specified tribal-state gaming compacts and establishes in the State Treasury the Indian Gaming Special Distribution Fund for the receipt and deposit of gaming device license fee moneys received from Indian tribes pursuant to the terms of the tribal-state compacts. Existing law additionally creates in the State Treasury the Indian Gaming Revenue Sharing Trust Fund for the receipt and deposit of moneys derived from gaming device license fees paid by compact tribes and authorizes moneys in the Indian Gaming Special Distribution Fund to be used to make payment of shortfalls that occur in the Indian Gaming Revenue Sharing Trust Fund. Under existing law, the California Gambling Control Commission, upon authorizing the final payment for each fiscal year from the Indian Gaming Revenue Sharing Trust Fund, is required to report the amount of the deficiency in payments to that fund to a specified legislative committee.

This bill would instead require the California Gambling Control Commission to provide to the committee an estimate of the amount needed to backfill the Indian Gaming Revenue Sharing Trust Fund on or before the date of the May budget revision for each fiscal year. The bill would additionally prohibit an eligible recipient Indian tribe from receiving an amount from the backfill in excess of \$275,000 per eligible quarter and would specify that surplus funds in the Indian Gaming Revenue Sharing Trust Fund would revert back to the Indian Gaming Special Distribution Fund after the authorization of the final payment of the fiscal year.

(15) Existing law, operative until January 1, 2009, establishes the method of calculating the distribution of appropriations from the Indian Gaming Special Distribution Fund for grants to local government agencies impacted by tribal gaming. Under existing law, the Controller, acting in consultation with the California Gambling Control Commission, is responsible for dividing County Tribal Casino Accounts into Individual Tribal Casino Accounts, from which funds may be allocated for grants to local jurisdictions impacted by tribal gaming. Existing law creates an Indian Gaming Local Community Benefit Committee in each county in which gaming is conducted, and that committee is responsible for selecting grants projects, pursuant to certain grant application policies and procedures, and administered by the county.

Existing law sets forth the percentages of each Individual Tribal Casino Account that are to be allocated to various types of grants, with 20% of each Individual Tribal Casino Account available for discretionary grants to local jurisdictions impacted by tribes that are not paying into the Indian Gaming Special Distribution Fund. Existing law specifies that funds not allocated from an Individual Tribal Casino account by the end of each fiscal year revert back to the Indian Gaming Special Distribution Fund.

This bill would provide that if an eligible county does not have a tribal casino operated by a tribe that does not pay into the Indian Gaming Special Distribution Fund, the moneys available for those discretionary grants would instead be available for distribution to local jurisdictions impacted by tribes paying into that fund, as specified. The bill would also provide that moneys in County Tribal Casino Accounts and Individual Tribal Casino

Accounts allocated for the 2003–04 fiscal year are eligible for expenditure through December 31, 2004. The bill would make related changes. By placing additional duties on the counties, this bill would impose a state-mandated local program.

(16) Existing law authorizes the Department of General Services to charge fees for services to state agencies, subject to specified conditions.

Existing law generally requires state agencies to submit to the Department of Finance for approval, a budget setting forth all proposed expenditures and estimated revenues for the ensuing fiscal year.

This bill would require the Department of General Services, commencing no later than August 1, 2005, and no later than August 1 annually thereafter, to submit to the Department of Finance a proposal that reconciles the current fiscal year rates for service fees charged by the Department of General Services to state agencies, and details any adjustments proposed for budget fiscal year rates to be included in the Governor's Budget.

(17) Existing law provides that 2 employees of the Secretary of State's office shall be appointed by the Governor and are exempt from state civil service.

This bill instead would require the Governor to appoint 4 employees of the Secretary of State's office, who may be nominated by the Secretary of State, and who are exempt from state civil service.

(18) Existing law prescribes duties of the Controller in connection with human resource and payroll systems.

This bill would authorize the Controller to assess certain funds, as specified, in amounts sufficient to pay the costs of a human resource project known as the 21st Century Project.

(19) Existing law establishes the California Victim Compensation and Government Claims Board that provides, pursuant to specified procedures, for compensation to claimants who are victims or derivative victims, as defined, who sustain injury or death as a direct result of a crime.

This bill would require a filing fee by claimants who do not proceed in forma pauperis and authorize the board to assess a surcharge not to exceed 15% of the total approved claim, as specified, to support the expense of administering the government claims program for all claims filed after June 30, 2004, or the effective date of this bill. The bill would also require the costs of the California employee's annual charitable campaign fund drive to be created from the agency that receives the contributions and would make other technical changes to these provisions.

(20) Existing law prohibits state agencies, including the University of California, the California State University, and the community colleges, from expending funds appropriated for capital outlay until the Department of Finance and the State Public Works Board have approved preliminary plans for the project to be financed from the appropriation for capital outlay. Existing law specifies that the requirement that preliminary plans be approved by the department and the State Public Works Board, with the exception of approvals for the community colleges, does not apply to the acquisition of land or other real property and amounts needed for equipment. Existing law requires the State Public Works Board to defer all augmentations in excess of 20% of the amount appropriated for each capital outlay or design-build project until the Legislature makes additional funds available.

This bill would clarify that approvals by the State Public Works Board and the Department of Finance for the University of California, as well as for community colleges, apply only to the allocation of state capital outlay funds appropriated by the Legislature, including land acquisition and equipment funds. The bill would expressly state that the State Public Works Board may augment a major project in an amount of up to 20% of the total of the capital outlay appropriations for the project and increase the financing authorized under existing law to include a reasonable construction reserve within the construction fund for any capital outlay project without augmenting the project. The bill would authorize the State Public Works Board to use this amount to augment the project, when and if necessary, after the lease

revenue bonds are sold, and upon completion of the project any amount remaining in the construction reserve funds would be used to offset rental payments.

(21) Existing law prohibits spending more than \$2,000 of appropriated funds for any single unit of equipment until the Department of Finance has given prior approval for the purchase.

This bill, among other things, would require the Department of Finance to approve the use of funds from a capital outlay appropriation for the purchase of any significant unit of equipment.

(22) Existing law requires the Department of General Services to perform various functions and duties with respect to state property.

Existing law authorizes the Department of General Services, when authorized by the Legislature to use the design-build procurement process for a specific project, to contract and procure state office facilities, other buildings, structures, and related facilities.

This bill would conform the statutory authority of the State Public Works Board with regard to augmenting a design-build project in an amount of up to 20% of the total of the capital outlay appropriations for the project, including a reasonable construction reserve within the construction fund for a design-build project, and authorizing the use of this reserve, to the statutory authority of the State Public Works Board with respect to capital outlay projects.

The bill would require that any augmentation in excess of 10% of the amounts appropriated for each design-build project, in addition to other capital outlay projects, be reported to the Chairperson of the Joint Legislative Budget Committee or his or her designee within a prescribed time period. This bill would revise the definitions of terms used in these design-build project provisions.

(23) Existing law would repeal provisions authorizing state contracting out of printing services on January 1, 2005.

This bill would extend those provisions indefinitely.

(24) Existing law authorizes the Department of Finance to authorize the creation of deficiencies in any appropriation in the case of actual necessity and if the department complies with certain notification procedures to the Legislature. Existing law also specifies a procedure for the approval of emergency expenditures, as defined.

This bill would repeal those provisions and make conforming changes.

(25) Existing law requires, on August 1 of each year, the Director of Finance to report in writing to the Chairperson of the Joint Legislative Budget Committee the balances of outstanding loans from one state fund or account to any other state fund or account to address specified budgetary shortfalls. Existing law requires, on February 1 of each year, the director to provide an updated report to the chairperson of the loan balances.

This bill would require the Director of Finance to provide a report on General Fund obligations to the Chairperson of the Joint Legislative Budget Committee and to the chairpersons of the fiscal committees of the Assembly and the Senate, as specified.

(26) Existing law establishes the Litigation Deposit Fund in the State Treasury, consisting of all money received as litigation deposits where the state is a party to the litigation, subject to specified conditions. The fund is under the control of the Department of Justice, which is required to maintain accounting records pertaining to the fund. Any residue remaining in a deposit account after satisfaction of all court-directed claims for that account is required to be transferred to the General Fund.

This bill would additionally require the department to prepare and submit to the chairpersons of specified legislative committees quarterly reports concerning the activity of the fund, to contain specified information. It would require the department to notify the Department of Finance no later than 15 days after a transfer from the fund. It would also require that the residue remaining in a deposit account after satisfaction of all court-directed claims, or payment of departmental expenditures, be transferred to the General Fund no later than July 1 of each fiscal year.

(27) Existing law authorizes a county to impose, among other fees with respect to criminal justice services, a booking fee upon other local agencies and colleges and universities for county costs incurred in processing or booking persons arrested by employees of those entities and brought to county facilities for booking and detention. Existing law continuously appropriates up to \$50,000,000 annually from the General Fund to the Controller commencing with the 1999–2000 fiscal year for allocation to cities and qualified special districts for actual booking and processing costs paid to the counties.

This bill would limit the booking fees that may be imposed in the 2004–05 and 2005–06 fiscal years, as specified, and repeal that continuous appropriation for the 2005–06 and subsequent fiscal years.

(28) Under existing law, the California Infrastructure and Economic Development Bank is established in the Business, Transportation and Housing Agency. The board of directors of the bank consists of the Director of Finance, the Treasurer, and the Secretary of Business, Transportation and Housing, or their designees.

This bill would include the Secretary of State and Consumer Services and an appointee of the Governor on the board of directors of the bank, and would require 3 members to constitute a quorum and to take action.

(28.5) Existing law suspends an appropriation from the General Fund, and allocation to county sheriff's departments, of funds for enhanced law enforcement for the 2004–05 fiscal year.

This bill would delete that suspension, thereby making an appropriation.

(29) Existing law prescribes requirements for matters to be included in a city or county general plan housing element, including an analysis of the locality's share of the required housing need, an analysis of opportunities for residential energy conservation, and an analysis of any special housing needs, such as those of the elderly, persons with disabilities, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter.

This bill would provide for that energy conservation analysis to be at the option of local government. The bill would require the Department of Housing and Community Development to adopt regulations relative to the special housing needs analysis and would provide that any actions taken by local government beyond those regulations are optional. The bill would specify that a local government may, but is not required to, conduct a review or appeal regarding the allocation of data pertaining to its share of the regional housing need.

The bill would authorize a local government or council of governments to charge a fee to cover costs related to the distribution of regional housing needs.

The bill would require the Commission on State Mandates to review specified decisions of the former State Board of Control to determine whether the enactment of requirements relative to determining the regional housing needs is a reimbursable state mandate.

(30) Existing law provides a procedure for the formation and creation of new counties from portions of one or more existing counties. As part of that procedure the Governor creates a county formation review commission to review the proposed county creation. The commission may borrow money to meet its expenses or may request the Controller to make a loan of not to exceed \$100,000 from the County Formation Revolving Fund to be repaid within one year of the date on which the issue of county formation was voted on by the people. Existing law transfers money from the General Fund to that revolving fund, as specified.

This bill would authorize a commission to request a loan of up to \$400,000 from the Controller upon appropriation from the General Fund. The bill would eliminate the County Formation Revolving Fund and would require loan repayments to be deposited in the General Fund. The bill would provide that if loans are not repaid the Controller may reduce moneys allocated to the county pursuant to specified subventions provided for in existing law in an amount equal to the amount of the loan that is owed to the state.

(31) Existing law authorizes a county to impose, among other fees with respect to criminal justice services, a booking fee upon local agencies and colleges and universities for county costs incurred in processing or booking persons arrested by employees of those entities and brought to county facilities for booking or detention with specified exceptions. Existing law continuously appropriates up to \$50,000,000 annually from the General Fund to the Controller for allocation to cities and qualifying special districts for reimbursement for actual booking and processing costs paid to counties.

This bill would repeal the provision providing for this continuous appropriation.

(32) Existing law establishes a fee of \$15 a day for each day's attendance as a juror after the first day. The Department of Personnel Administration, by regulation, provides regular compensation to a state employee who serves as a juror, if that employee remits his or her fee for jury duty to the state.

This bill would prohibit payment of that \$15 fee to a juror who is employed by a federal, state, or local government entity, as specified, and who continues to receive regular compensation and benefits while performing jury service.

(33) Existing law defines county costs for purposes of provisions authorizing certain counties to apply to the Controller for the reimbursement of excessive county costs incurred as a result of a homicide trial, as specified.

This bill would specify that county costs, for those purposes, do not include costs paid for by the superior court or for which the superior court is responsible.

(34) Existing law requires the Judicial Council to adopt policies and procedures governing budgeting in, and management of, the trial courts, and specifies the duties of the Administrative Office of the Courts in that regard.

On and after December 1, 2004, this bill would require the Judicial Council and the Administrative Office of the Courts to annually report to specified legislative budget committees with regard to the implementation of the California Case Management System and Court Accounting and Reporting System, as specified. Upon implementation of those systems, the bill would require the Administrative Office of the Courts to provide postimplementation reports to those committees.

(35) Existing law establishes a \$10 or \$20 filing fee surcharge to be added to the total filing fee in civil cases, as specified, that are filed between January 1, 2004, and June 30, 2004, inclusive.

This bill would extend those filing fee surcharges until June 30, 2005, inclusive. However, the bill would make the filing fee surcharge provisions inoperative on July 1, 2005, or upon the enactment of a uniform filing fee, whichever is earlier.

(36) Existing law authorizes the use of electronic recording devices in specified court proceedings under certain circumstances.

This bill would prohibit a court from expending funds for electronic recording technology or equipment to make an unofficial record of an action or proceeding or to use that technology or equipment to make the official record of an action or proceeding in circumstances that are not authorized, as specified. The bill would also require each superior court to report to the Judicial Council on or before October 1, 2004, and semiannually thereafter, and the Judicial Council to report to the Legislature on or before December 1, 2004, and semiannually thereafter, regarding all purchases and leases of electronic recording equipment that will be used to record superior court proceedings.

(37) The Trial Court Employment Protection and Governance Act and the Trial Court Interpreter Employment and Labor Relations Act prescribe rights and procedures with respect to relations between trial courts and their employees. Specifically, existing law authorizes a trial court and the regional court interpreter employment relations committee to adopt reasonable rules and regulations for the administration of employer-employee relations under the respective acts. Existing law also authorizes trial courts, trial court employees, and employee organizations, as defined, to petition the superior court, pursuant to procedures and rules adopted by each trial court and the Judicial Council or by the

committee, if there has been a violation of the respective acts or to enforce written agreements between the parties.

This bill would provide that any violation of the acts or of any of the rules or regulations shall be processed as an unfair practice charge by the Public Employment Relations Board, as specified. The bill would authorize a party aggrieved by a decision of the board to petition the district court of appeal for relief and prescribe other procedures applicable to the enforcement of the board's decisions or orders.

The bill would also provide that any agreement between the parties that contains an arbitration provision shall be enforced under provisions of existing law relating to enforcement of arbitration agreements and would require the Judicial Council to adopt rules of court to, among other things, provide for the establishment of a panel of court of appeal justices to hear those matters. The bill would make related technical changes and legislative findings and declarations.

(38) Existing law requires the Legislature to make an annual appropriation to the Judicial Council for the general operations of the trial courts based on the request of the Judicial Council.

This bill would provide that the Judicial Council's annual budget request shall be submitted to the Governor and the Legislature, and that it shall meet specified criteria, include a base funding adjustment for operating costs, as specified, and separately identify and justify other costs and adjustments, as specified.

(39) Existing law authorizes cities and counties to be reimbursed for specified costs incurred by them in connection with court proceedings involving a prisoner of a state prison or a person confined to a Department of the Youth Authority correctional institution.

This bill would authorize superior courts to be reimbursed by the Administrative Office of the Courts for specified costs incurred by the courts in connection with those proceedings.

(40) Existing law names various state buildings in honor of former public officials, as specified.

This bill would name a state building in the City of Fresno for the California Court of Appeal, Fifth Appellate District, as the "George N. Zenovich Court of Appeal Building."

(41) Existing law prescribes duties of the State Fire Marshal relating to fire protection.

This bill would authorize the State Fire Marshal to charge state agencies for the cost of fire and life safety building inspections, and require the Controller to transfer those moneys to the appropriation for support of the office of the State Fire Marshal.

(42) Existing law allocates \$4,100,000 of bond proceeds under the Housing and Emergency Shelter Trust Fund Act of 2002 to the Department of Housing and Community Development for migrant worker projects.

This bill would increase that allocation to \$5,500,000.

(43) Existing law authorizes the Department of Housing and Community Development to increase rents for a migrant farm labor center assisted by the Office of Migrant Services above those charged at other such centers under specified circumstances.

This bill would prohibit a rent increase above 30% of the average annualized household incomes of residents of any such facility without legislative authorization.

(44) Existing law, until January 1, 2007, regulates the industry of car washing and polishing by providing specific recordkeeping requirements that employers of car washers must implement with regard to car washer wages, hours, and working conditions. Existing law also requires employers of car washers to register with the Labor Commissioner and pay a registration fee. Employers that fail to register are subject to a civil fine. These fines and registration fees are deposited in the Car Wash Worker Restitution Fund and the Car Wash Worker Fund for disbursement by the commissioner, upon appropriation by the Legislature.

This bill would clarify where these fines and registration fees are to be deposited.

(45) Under existing law, the Department of Corrections and the Department of the Youth Authority are generally required to provide health care to inmates and wards under their care.

This bill would allow these departments to contract with providers of emergency health care services. It would require hospitals that do not contract with the departments to provide these services on the same basis as they are required to provide them pursuant to specified provisions of federal law. The bill would require a provider of ambulance or any other emergency or nonemergency response service that does not contract with the departments to be reimbursed at the rate established by Medicare. The bill would prohibit the departments from reimbursing a hospital or provider of emergency or nonemergency response services that the departments have not contracted with at a rate that exceeds the hospital's reasonable and allowable costs, as defined.

(47) The State Contract Act governs contracting between state agencies and private contractors, and sets forth requirements for the procurement of materials, supplies, equipment, and services by state agencies. Existing law sets out the various responsibilities of state agencies in overseeing and implementing state contracting procedures and policies. Existing law also requires the Department of Corrections to require, among the general conditions under which bids will be received, that any person making a bid or offer to perform a contract include specified information in his or her bid or offer.

This bill would require the Department of Corrections, where feasible, to enter into 2 or more procurement contracts for the purchase and development of the Business Information System (BIS) Project. The bill would require that the BIS project be developed to allow integration with other relevant statewide financial and personnel systems.

(48) The existing California Alternative Energy and Advanced Transportation Financing Authority Act authorizes the California Alternative Energy and Advanced Transportation Financing Authority, among other things, to lend financial assistance to a participating party, as defined, for a project, as defined. The act authorizes the authority to incur indebtedness in an amount that does not exceed \$350,000,000 of total debt.

This bill would increase the maximum amount of authorized indebtedness to \$1,000,000,000 of total debt outstanding, and define "total debt outstanding."

(49) The Rosenthal-Naylor Act of 1984, establishes the Energy Technologies Research, Development, and Demonstration Account (account) that is administered by the State Energy Resources Conservation and Development Commission (commission) to provide loans to specified entities for purposes generally relating to energy research, conservation, and development. Existing law repeals this act on January 1, 2005. Existing law also provides for the repeal of the Energy Research, Development, Demonstration, and Commercialization Act of 1993, on January 1, 2005, which provides specified procedures for the commission to enter into certain royalty agreements.

Existing law requires the commission to establish a small business energy assistance low-interest revolving loan program to fund the purchase of equipment for alternative technology energy projects for California's small businesses. Existing law requires the loan repayments, specified interest, and royalties to be deposited in the account.

Existing law requires all funds from loan repayments and interest that become due for loans made by the commission pursuant to an agriculture energy assistance program be deposited in the account.

This bill would continue in existence, in the General Fund, for specified purposes, the Energy Technologies Research, Development, and Demonstration Account.

The bill would also require the interest rate for small business energy assistance loans to be based on surveys of existing financial markets and at rates not lower than the Pooled Money Investment Account, and would delete references to the use of royalty agreements for these loans.

(50) Existing law establishes the California Teleconnect Fund Administrative Committee to advise the Public Utilities Commission regarding the development, implementation, and administration of a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations, consistent with an uncodified statute requiring the commission to open and conclude a

proceeding relative to the implementation of universal service in telecommunications. Existing law establishes the California Teleconnect Fund Administrative Committee Fund in the State Treasury and provides that moneys in the fund, collected by telephone corporations in utility rates authorized by the commission and deposited into the fund, may only be expended for the purposes authorized, upon appropriation in the annual Budget Act. Existing law requires the commission to develop, implement, and administer a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations.

Existing law declares the policies for telecommunications for California, including the policy to assist in bridging the “digital divide” by encouraging expanded access to state-of-the-art technologies for rural, inner-city, low-income, and disabled Californians.

This bill would require, for all customers eligible to receive discounts for telecommunications services under the federal Universal Service E-rate program (E-rate discounts) that also apply for discounts on telecommunications service provided through the California Teleconnect Fund program (teleconnect discounts), that the teleconnect discount be applied after applying the E-rate discount. The bill would require the commission to require, as a condition of participation in the California Teleconnect Fund program, that customers eligible for the E-rate discount provide the commission with information necessary for the commission to determine the percentage of the E-rate discount to which the customer would be entitled. The bill would require that the commission, in establishing discounts under the California Teleconnect Fund program, give priority to bridging the digital divide by encouraging expanded access to state-of-the-art technologies for rural, inner-city, low-income, and disabled Californians.

(51) Existing law requires the Department of Insurance to establish a program for residential grants and loans to help pay for the retrofitting of high-risk residential dwellings owned or occupied by low- and moderate-income households, in order to minimize the risk of earthquake damage to those dwellings and thereby reduce the costs of residential earthquake insurance. Existing law appropriates a specified amount from the California Residential Earthquake Recovery Fund to the department for the purposes of this program. Existing law limits the department to using no more than \$290,000 per fiscal year to administer the program. Under existing law, the funds are available until July 1, 2007, at which time the program ceases to be operative.

This bill would eliminate the provisions of law establishing this program. It would provide that money appropriated for this program shall be available for expenditure until June 30, 2004, and that on and after that date, the program shall no longer be operative.

These provisions would become operative on July 1, 2004, or the date of enactment of the bill, whichever is later.

(52) The Economic Recovery Bond Act approved by the voters at the March 2, 2004, statewide primary election, authorizes the issuance of bonds the proceeds of which would be deposited into the Economic Recovery Fund and transferred, subject to certain criteria, to the General Fund to fund the accumulated state budget deficit, as defined.

Existing law authorizes the loan of funds from other funds, including the Special Fund for Economic Uncertainties in the General Fund, to the General Fund for the payment of General Fund deficits, according to specified criteria.

This bill would establish the Deficit Recovery Fund in the State Treasury. The bill would appropriate certain proceeds of the bonds issued pursuant to the Economic Recovery Bond Act that are deposited in the General Fund, from the General Fund for transfer by the Controller for the 2003–04 fiscal year to the Deficit Recovery Fund, upon approval by the Director of Finance. It would require the Director of Finance to use the moneys transferred to the Deficit Recovery Fund to reimburse General Fund expenditures for the 2003–04 and 2004–05 fiscal years, and would specify that moneys in the fund may be borrowed for General Fund cashflow purposes as authorized by existing law.

(53) This bill would make various technical, nonsubstantive changes.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

(54) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(55) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 228 (SB 1103) Committee on Budget and Fiscal Review. Budget Act of 2004: health.

(1) Existing law provides that subject to any limitations contained in the articles of organization and to compliance with any other applicable laws, a limited liability company may engage in any lawful business activity, except the banking business, the business of issuing policies of insurance and assuming insurance risks, or the trust company business.

This bill would authorize, notwithstanding this provision, a limited liability company to operate as a health care service plan if the limited liability company is a subsidiary of a health care service plan and is established to serve an existing line of business of the parent health care service plan.

(2) The California Public Records Act provides that its provisions shall not be construed to require disclosure, during a prescribed time period, of the records of specified Medi-Cal program contracts that reveal the special negotiator's deliberative processes, discussions, or communications. Existing law requires, however, the entire contract or amendment to be open to inspection by the Joint Legislative Audit Committee and requires the committee to maintain the confidentiality of the contracts.

This bill would require the entire contract or amendment to also be open to inspection by the Legislative Analyst's office and would require the office to maintain the confidentiality of the contracts and amendments.

(3) Existing law requires the Governor to convene the California Health Care Quality Improvement and Cost Containment Commission and prescribes the composition of the commission. Existing law requires the commission to examine and address 9 health care issues. Existing law requires the commission to issue a report to the Legislature and the Governor, on or before January 1, 2005, making recommendations for health care cost containment.

This bill would require the commission to issue its report, instead, on or before January 1, 2006.

(4) Existing law establishes the Managed Care Fund in the State Treasury in order to support the Department of Managed Care in the administration of laws related to the licensure and regulation of health care service plans. The fund consists of licensing and regulatory services fees charged to health care service plans and administrative penalties.

This bill would authorize the use of up to \$364,000 from the Managed Care Fund for the 2004-05 and 2005-06 fiscal years to support staff and related functions associated with the California Health Care Quality Improvement and Cost Containment Commission.

(5) Existing law requires the Director of Health Services, to the extent that state and federal funds are appropriated in the Budget Act for this purpose, to establish a program, known as the AIDS Drug Assistance Program (ADAP), to provide drug treatments to persons infected with human immunodeficiency virus (HIV).

This bill would create the AIDS Drug Assistance Program (ADAP) Rebate Fund as a special fund in the State Treasury, into which would be deposited all rebates collected from drug manufacturers on drugs purchased through ADAP, and interest earned on these moneys, and which would be continuously appropriated to the department to cover costs related to ADAP.

(6) Under existing law, the Director of Health Services administers the Genetically Handicapped Person's Program for the medical care of persons with genetically handicapping conditions.

Existing law also requires the State Department of Health Services to administer the California Children's Services Program, to provide services to physically handicapped children under 21 years of age.

This bill would create the continuously appropriated Children's Medical Services Rebate Fund as a special fund in the State Treasury into which would be deposited all rebates for the delivery of health related services and products for clients enrolled in the Genetically Handicapped Person's Program and the California Children's Services Program to cover costs related to those programs.

(7) Existing law states that in early 1992, the State Department of Health Services began a 4-year clinical trial of a potential new medicine, human Botulism Immune Globulin (BIG), specifically designed for the treatment of infant botulism and states that the funding for this clinical trial is being provided by the United States Food and Drug Administration (FDA). If the results of the clinical trial do not qualify BIG for product licensure by the FDA, existing law requires the Infant Botulism Treatment and Prevention Program to become inoperative on the date that the Commissioner of the FDA or his or her delegate so notifies the State Department of Health Services, and requires it to be repealed on January 1 following the receipt of the notice, unless a later enacted statute operative on or before that date deletes or extends that date. Existing law requires the director to transmit a written notice to the Secretary of the Senate and the Chief Clerk of the Assembly commemorating receipt of the notice from the commissioner.

This bill would repeal the above requirements. The bill would authorize the State Department of Health Services to manufacture, test, distribute, and maintain licensure of the product BIG if all necessary federal licenses are obtained. The bill would require contracts and commodity purchases for any manufacture, testing, distribution, packaging, development, and licensure of BIG by the department to be exempt from competitive bidding and from provisions relating to contracting by state agencies.

(7.1) Existing law establishes procedures and requirements to govern the allocation to, and expenditure by, local health jurisdictions, designated pursuant to a federally approved plan, of federal funding received for the prevention of, and response to, bioterrorist attacks and other public health emergencies. Existing law requires a local health jurisdiction receiving funds under these provisions to deposit the money in a special Local Public Health Preparedness Trust Fund. These provisions provide that federal funding received by the State Department of Health Services for bioterrorism preparedness and emergency response is subject to appropriation in the annual Budget Act commencing with the 2003-04 fiscal year.

This bill would extend these provisions to apply to public health preparedness and response by hospitals, clinics, emergency medical systems, and poison control centers. This bill would make these provisions inoperative on September 1, 2007, and would repeal them as of January 1, 2008.

(7.2) The Hereditary Disorders Act, among other provisions, declares the intent of the Legislature that the state's hereditary disorders program activities are to be fully supported by fees collected for services provided by the program, unless otherwise provided. Existing law requires the department to charge a fee to all payers for any tests or activities performed pursuant to provisions relating to genetic disorder prevention services, including the Hereditary Disorders Act. Existing law requires that any fee charged for screening and followup services provided to Medi-Cal eligible persons, health care service plan enrollees, or persons covered by disability insurance policies are to be paid directly to the Genetic Disease Testing Fund, a continuously appropriated fund, to be used for purposes of the Hereditary Disorders Act, subject to the terms and conditions of the applicable health care

service plan or insurance coverage. Under existing law, all moneys collected by the department pursuant to the act must be deposited into the fund.

This bill instead would require that any fee charged for prenatal screening and followup services under these provisions be paid directly to the fund.

Existing law requires the State Department of Health Services to charge a fee for newborn screening and followup services, and requires the amount of the fee to be established pursuant to regulation and periodically adjusted by the director.

This bill would delete the requirement that the director establish and adjust the newborn screening fee.

This bill would require the department to convene a working group to evaluate newborn and prenatal screening billing procedures and to report its recommendations to the department by March 1, 2005. The bill would make legislative findings and declarations with respect to the need for expanded genetic testing of newborns in California.

(7.3) Existing law requires the Director of Health Services to establish necessary regulations and standards for hereditary disorders programs, in order to promote and protect the public health and safety. Existing law requires these standards to implement designated principles, including provisions for compensatory and civil damages for an individual whose confidentiality has been breached as a result of a violation of the Hereditary Disorders Act, as well as an award of attorney's fees and litigation costs.

This bill would revise the above provisions and would additionally provide for imprisonment, fines as prescribed, or both, for the knowing breach of confidentiality, including if the breach was made under false pretenses or committed with the intent to sell, transfer, or use individually identifiable health information for commercial advantage, personal gain, or malicious harm, of an individual tested under the act. By creating a new crime, the bill would impose a state-mandated local program.

(7.4) Existing law requires the State Department of Health Services to establish a genetic disease unit to coordinate all departmental programs in the area of genetic disease. Existing law requires the genetic disease unit to evaluate and prepare recommendations on the implementation of tests for the detection of certain hereditary and congenital diseases.

This bill would add biotinidase deficiency to the diseases for which the genetic disease unit is required to evaluate and prepare recommendations.

This bill would require the department to expand statewide screening of newborns to include tandem mass spectrometry screening for fatty acid oxidation, amino acid, and organic acid disorders and congenital adrenal hyperplasia, and to provide information with respect to these disorders and testing resources to all women receiving prenatal care and admitted to a hospital for delivery. If the department is unable to provide statewide screening for these disorders by July 1, 2005, the bill would require the department to temporarily obtain statewide screening for these disorders from one or more laboratories, through a competitive bid process. The bill would also enact related reporting requirements.

(7.5) Existing law establishes the Healthy Families Program, administered by the Managed Risk Medical Insurance Board, to arrange for the provision of health, dental, and vision services to eligible children pursuant to a federal program, entitled the State Children's Health Insurance Program. Eligibility requirements include being a child in a family with a household income equal to or less than 200% of the federal poverty level. Existing law requires applicants applying to the purchasing pool to agree to pay family contributions, unless the applicant has a family contribution sponsor.

This bill, commencing July 1, 2005, would revise the contribution amounts required to be paid under the program. To the extent this bill would increase amounts deposited in a continuously appropriated fund it would make an appropriation.

(7.6) Existing law establishes the Access for Infants and Mothers Program (AIM), which is administered by the Managed Risk Medical Insurance Board and under which the board contracts with a variety of health plans and types of health care service delivery systems in order to offer subscribers a choice of plans, providers, and types of service delivery and to

negotiate or arrange for stop-loss insurance coverage. Existing law establishes in the State Treasury the Perinatal Insurance Fund, which is administered by the board. The board is required to establish a reserve sufficient to prudently operate AIM.

This bill would delete the requirement that the board establish a reserve for the operation of the program.

(8) Existing law contains provisions relating to the setting of reimbursement rates for community treatment facilities, as defined. Existing law authorizes up to 400 community treatment facility beds statewide pursuant to these provisions, and anticipates a phased-in implementation of community treatment facilities, with the average monthly community treatment facility caseload increasing by 175 beds by the 2003–04 fiscal year.

This bill would eliminate this schedule for the increase in community treatment facility beds statewide.

(9) Existing law requires, for the 2003–04 fiscal year, that community treatment facility programs be paid a supplemental rate of up to \$2,500 per child per month on behalf of children eligible for foster care and seriously emotionally disturbed children placed out of home pursuant to an individualized education program. Existing law requires, subject to the availability of funds, that this supplemental rate be shared by the state and the counties, as prescribed.

This bill would extend the requirement to pay the supplemental rate to the 2004–05 fiscal year.

(10) Under existing law, the State Department of Developmental Services allocates funds to private nonprofit entities known as regional centers for the provision of community services and support for persons with developmental disabilities and their families. Existing law requires the department, after consultation with stakeholder groups, to develop a system of enrollment fees, copayments, or both to be assessed against the parents of certain children receiving services through a regional center.

This bill would create the Family Cost Participation Program in the department to assess a cost participation to the parents of certain children receiving respite, day care, and camping services through a regional center. The bill would require the department to develop a schedule to be used by regional centers to assess a parents' cost participation and would specify requirements for assessments under the schedule. The bill would provide that, commencing January 1, 2005, each regional center is responsible for administering the program and would specify various requirements for regional centers. The bill would require that the department, among other things, report to the Legislature on the status of the program, commencing April 1, 2005, and annually thereafter. The bill would make these provisions inoperative on July 1, 2009, and would repeal these provisions as of January 1, 2010.

(10.2) Existing law requires the State Department of Developmental Services to determine, within 30 days of the enactment of the annual Budget Act, the amount of unallocated reduction that each regional center shall make in its purchase-of-service budget, and provide to each regional center guidelines, technical assistance, and options for reducing costs. Existing law requires each regional center to develop, and submit, a plan to the department describing in detail how it intends to absorb the unallocated reduction and achieve necessary savings. Existing law requires the regional center to hold a public hearing prior to adopting the plan and to include in the plan a summary of a response to public testimony. Existing law requires the regional center to implement components of the plan upon a review and approval of the plan by the department. These provisions become inoperative July 1, 2005, and are repealed on January 1, 2006.

This bill would extend the inoperative and repeal dates of these provisions to July 1, 2006, and January 1, 2007, respectively.

This bill would require the department to develop a methodology for apportioning the 2004–05 unallocated reduction from the General Fund of \$7,000,000 to the regional center purchase-of-service budget and to provide this information to the fiscal and applicable policy

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

committees of both houses of the Legislature on or before December 1, 2004. The bill would also require the department to provide a summary of the approved components of the regional center plans to meet the unallocated amount.

(10.3) Existing law provides that any person believed to have a developmental disability, and any person believed to have a high risk of parenting a developmentally disabled infant shall be eligible for initial intake and assessment services in the regional centers. Existing law requires that if assessment is needed, prior to July 1, 2004, the assessment shall be performed within 120 days following initial intake, and on and after July 1, 2004, the assessment shall be performed within 60 days following intake.

This bill would permit initial intake to be performed within 120 days following intake prior to July 1, 2005, and would require initial intake to be performed within 60 days following intake on and after July 1, 2005.

(10.4) Existing law prohibits, during the 2003–04 fiscal year, a regional center from paying any provider of 11 services and supports a rate, or approving any service level for a residential service provider that would result in an increase in the rate to be paid, that is greater than the rate that is in effect on or after June 30, 2003, with exceptions.

This bill, instead, would prohibit, during the 2004–05 fiscal year, a regional center from paying any provider of these services a rate, or approving any service level for a residential service provider that would result in an increase in the rate to be paid, that is greater than the rate that is in effect on or after June 30, 2004, with exceptions.

(10.5) Existing law prohibits, during the 2003–04 fiscal year, the department from establishing any permanent payment rate for a community-based day program or in-home respite service agency provider that has a temporary payment rate in effect on June 30, 2003, if that permanent payment rate would be greater than the rate in effect on or after June 30, 2003, except as prescribed. Existing law also prohibits, during the 2003–04 fiscal year, the department from approving an anticipated rate adjusted for a community-based program or in-home respite service agency provider that would result in a similar increase, except as prescribed. Existing law prohibits, during the 2003–04 fiscal year, the department and a regional center from approving any program design modification or revendorization for a community-based day program or in-home respite service agency provider that would result in a similar increase, except as prescribed.

This bill, instead, would apply these prohibitions and exceptions to the 2004–05 fiscal year and to rates in effect on June 30, 2004, if the rates would be greater than the rate in effect on or after June 30, 2004.

(10.6) Under existing law, among those services for which regional centers contract are habilitation services.

This bill would prohibit any rate adjustment for a habilitation services program that would result in an increase in the rate to be paid to the vendor from that rate that is in effect on or after June 30, 2004, for the 2004–05 fiscal year, unless the regional center demonstrates that the rate adjustment is necessary to protect the consumer's health and safety and the department has granted prior written authorization.

(10.7) Existing law establishes the Habilitation Services Program under the administration of the Department of Rehabilitation, and on July 1, 2004, transfers the administration of this program to the State Department of Developmental Services. Existing law establishes the hourly rate for supported employment services provided to clients receiving individualized services and group services under the program. Existing law defines "group services" as job coach-supported employment services in a group supported employment placement at a job coach-to-client ratio of not less than 1:4 nor more than 1:8 where a minimum of 4 clients are department funded. However, existing law authorizes group services on or after July 1, 2002, and not to be funded beyond June 30, 2004, in a group at a job coach-to-client ratio of 1:3 if certain conditions are met.

This bill would require a regional center to pay the rate in effect on June 30, 2004, for a supported employment placement group composed of a coach-to-client ratio of 1:3 when the

provider submits, by June 30, 2004, documentation to the department and the regional center that 3 conditions exist.

(10.8) Existing law prohibits, during the 2002–03 and 2003–04 fiscal years only, a regional center from expending any purchase of service funds for the startup of any new program, with exceptions.

This bill would apply this prohibition, instead, to the 2004–05 and 2005–06 fiscal years.

(10.9) Existing law requires the State Department of Mental Health to implement managed mental health care Medi-Cal benefits through fee-for-service or capitated rate contracts with mental health plans. Existing law provides that emergency regulations adopted by the department to implement the 2nd phase of mental health managed care shall remain in effect until July 1, 2004, or until the regulations are made permanent, whichever occurs first.

This bill would provide, instead, that the emergency regulations shall remain in effect until January 1, 2006. The bill would also require the department to convene at least 2 public hearings to clarify new federal regulations that affect the state's 2nd phase of mental health managed care and to report to the Legislature on the results of the hearings through the 2005–06 budget deliberations.

(10.10) The California Adult Day Health Care Act provides for the licensure and regulation of adult day health centers, with administrative responsibility for this program shared between the State Department of Health Services and the California Department of Aging. The Adult Day Health Medi-Cal Law establishes adult day health care services as a Medi-Cal benefit for Medi-Cal beneficiaries who meet certain criteria.

This bill would authorize the department to implement a one-year moratorium on the certification and enrollment into the Medi-Cal program of adult day health care centers on a statewide basis or within a geographic area. The bill would exempt, or in some cases authorize the department to exempt from the moratorium applicants that meet certain conditions. The bill would provide that the department is not prohibited from approving a change of ownership, relocation, or increase in capacity of an adult day health care center if the center meets certain conditions.

(10.11) Existing law requires that concurrently with the submission of an application for initial licensure as an adult day health center, the applicant also apply to the department for eligibility certification as a provider of adult day health care services reimbursable under the Medi-Cal program.

This bill would provide that this provision shall not apply to new centers licensed during a moratorium imposed in accordance with (10.10) above, nor upon the implementation of an adult day health care waiver under the Welfare and Institutions Code.

(10.12) Existing law requires the department to terminate Medi-Cal certification of an adult day health care provider who is not in compliance with the Medi-Cal program. Existing law provides that proceedings to deny an application for certification or licensure, terminate or suspend certification, or revoke or suspend licensure shall be consolidated whenever possible, and requires the California Department of Aging and the State Department of Health Services to coordinate an action or actions under these provisions to the extent appropriate to ensure consistency and uniformity.

This bill would provide that these provisions would not apply to denials of initial Medi-Cal certification made pursuant to the one-year adult day health care center medi-cal moratorium permitted by the bill. This bill would delete the requirement that the 2 departments coordinate proceedings to deny an application for licensure.

(11) Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services and pursuant to which health care services are provided to qualified low-income persons.

Existing law, until April 1, 2005, and subject to the receipt of federal financial participation, requires the department to adopt a federal option under which any employed individual whose countable income, determined by criteria specified in the bill, does not

exceed 250% of the federal poverty level and who is disabled under certain federal laws, shall be eligible for benefits under the Medi-Cal program, subject to the payment of premiums. These provisions are repealed on January 1, 2006.

This bill would extend the operation of these provisions to September 1, 2008, and their repeal date to January 1, 2009.

Because counties are required to make Medi-Cal eligibility determinations and this bill would extend the expansion of Medi-Cal eligibility, the bill would impose a state-mandated local program.

(11.5) Existing law authorizes the department to limit, for 18 months or less, certain codes for which any provider may bill, or for which reimbursement to any person or entity may be made by, the Medi-Cal program or other health care programs administered by the department if the department determines that excessive services or billings, or abuse, has occurred.

This bill would provide that this circumstance may include the department's discovery or determination that a claim was submitted for reimbursement under the Medi-Cal program for a nerve conduction test, electromyography, or procedures, tests, examinations, or other medical services that the department has specified requires a certain residency or board certification, but the records did not contain, or the person or entity submitting the claim for reimbursement did not have, the certificate or diploma required by law.

(12) Existing law creates the Medi-Cal Medical Education Supplemental Payment Fund in the State Treasury as a continuously appropriated fund, which consists of various moneys for use by public agencies for health care programs or purposes. Under existing law, these provisions become inoperative on July 1, 2004, and as of January 1, 2005, are repealed.

Existing law creates the Large Teaching Emphasis Hospital and Children's Hospital Medi-Cal Medical Education Supplemental Payment Fund in the State Treasury and provides that the fund is continuously appropriated to, and under the administrative control of, the department for specified purposes. Existing law makes these provisions inoperative on July 1, 2004, and provides for the repeal on January 1, 2005.

This bill would eliminate the inoperative and repeal dates, thereby extending the operation of these provisions indefinitely. By extending indefinitely the operation of a continuously appropriated fund, this bill would result in an appropriation.

(13) Existing law provides that in counties selected by the Director of Health Services with the concurrence of the county, a special county health authority may be established, and in any county, by ordinance, a special commission may be established, in order to meet the problems of delivery of publicly assisted medical care in each county, and to demonstrate ways of promoting quality care and cost efficiency. Existing law also specifically authorizes the County of Alameda and the City and County of San Francisco to establish, by ordinance, a health authority and Kern County, Tulare County, San Joaquin County, San Mateo County, and Los Angeles County to establish, by ordinance, a special county health commission. Existing law establishes the Santa Barbara Regional Health Authority.

Existing law sets forth procedures governing claims and actions against public entities and public employees. Commissions or health authorities, in some cases, are considered a public entity for purposes of, or, with exceptions, are protected by the immunities applicable to public entities and public employees governed by, these provisions relating to claims and actions against public entities and public employees.

Existing law, the Joint Exercise of Powers Act, sets forth procedures under which public agencies or entities may enter into joint powers agreements.

This bill would provide that these health authorities or commissions shall be considered a public entity for purposes of those provisions governing claims and actions against public entities and public employees. The bill would specify persons for which health care services may be provided by certain of these entities, and would authorize these entities to enter into joint powers agreements under the Joint Exercise of Powers Act.

(14) Existing law prohibits California Children's Services (CCS) covered services from being incorporated into certain Medi-Cal managed care contracts entered into after August 1, 1994, until August 1, 2005, except for contracts entered into for county organized health systems in the Counties of San Mateo, Santa Barbara, Solano, Yolo, Marin, and Napa.

This bill would instead prohibit CCS covered services from being incorporated into certain Medi-Cal managed care contracts entered into after August 1, 1994, until September 1, 2008, except for contracts entered into for county organized health systems or Regional Health Authority in the above counties.

(14.5) Existing law requires the Director of Health Services to reduce Medi-Cal provider payments by 5%. Existing law provides for 9 exemptions from this payment reduction.

Existing law establishes the Child Health and Disability Prevention Program, administered by the State Department of Health Services, to provide early and periodic assessments of the health status of children, including health screening and referral services.

Existing law establishes the Multipurpose Senior Services Program to serve frail elderly individuals 65 years of age and older who are certifiable for placement in a nursing facility. The program is administered by the California Department of Aging under the authority of an approved interagency agreement with the State Department of Health Services.

This bill would exempt services provided on or after July 1, 2004, through the California Children's Services Program, the Genetically Handicapped Persons Program, the Child Health and Disability Prevention Program, the Multipurpose Senior Services Program, and the Breast and Cervical Cancer Early Detection Program from the Medi-Cal payment reduction. The bill would also exempt, effective September 1, 2004, legend and nonlegend drugs dispensed by pharmacy providers reimbursed under the Medi-Cal program.

(15) Existing law requires the State Department of Health Services to reduce reimbursements to pharmacists by \$0.50 per prescription, effective January 1, 1995, for all drug prescription claims reimbursed through the Medi-Cal program.

Existing law, until July 1, 2004, requires the department to increase reimbursement to pharmacists per prescription for all drug prescription claims reimbursed through the Medi-Cal program on January 1, 2000, and on July 1, 2002. Existing law requires the department to reduce reimbursement by those amounts to pharmacists on a specified date, with the exception of claims submitted by pharmacists for beneficiaries residing in a nursing facility.

This bill would make those provisions inoperative on September 1, 2004.

(16) Existing law requires the department to establish a list of maximum allowable ingredient costs (MAIC) for drugs.

This bill would revise the method of determining the maximum allowable ingredient costs.

(16.5) Existing law requires the State Department of Health Services, upon federal approval of a Medicaid state plan amendment, to provide a supplemental rate adjustment to the Medi-Cal reimbursement rate for specific nursing facilities, intermediate care facilities/developmentally disabled, intermediate care facilities/developmentally disabled-habilitative, intermediate care facilities/developmentally disabled-nursing, and pediatric subacute units that have a collectively bargained contract or a comparable legally binding, written commitment to increase salaries, wages, or benefits for nonmanagerial, nonadministrative, and noncontract staff. Existing law requires, solely for the period commencing February 1, 2002, to July 31, 2004, inclusive, the department to pay this rate adjustment to the extent that a facility submits a rate adjustment request to the department within a specified period of time, and the department approves the supplemental rate adjustment for the particular facility.

This bill would repeal these provisions.

(17) Existing law establishes requirements as a condition of obtaining a contract with the department to provide Medi-Cal services, and provides that a federally qualified health center or rural health clinic may voluntarily agree to enter into a capitated or other at-risk contract with a managed care program health plan if the clinic agrees to specified conditions.

Existing law provides that federally qualified health center services and rural health clinic services, as defined, are covered benefits under the Medi-Cal program, to be reimbursed to providers on a per-visit basis, pursuant to various requirements.

This bill would authorize the department to adopt emergency regulations to implement these reimbursement provisions. The bill also would authorize, notwithstanding this provision, the director to issue instructions and forms to implement certain of these provisions. This bill would repeal this provision as of July 1, 2006.

(18) Existing law authorizes an FQHC or RHC to apply for an adjustment to its per-visit rate based on a change in the scope of services provided by the FQHC or RHC.

This bill would revise the circumstances under which a change in costs, in and of itself, is considered a scope-of-service change. This bill also would establish timeframes for the processing and payment of claims for reimbursement under these provisions by the department and would specify circumstances under which a request for rate adjustment for scope-of-service rate changes may be deemed filed in a timely manner.

This bill would also state the intent of the Legislature that retroactive payments owed to FQHCs and RHCs for the period that began January 1, 2001, and proceeds through June 30, 2004, be made in the 2004–05 fiscal year.

(19) Under existing law, one of the utilization controls to which services are subject under the Medi-Cal program is the treatment authorization request process, which is approval by a department consultant of a specified service in advance of the rendering of that service based upon a determination of medical necessity.

This bill would authorize the director or his or designee to apply prior authorization by designing a sampling methodology, as prescribed, that will result in a generally acceptable audit standard for approval of a treatment authorization request (TAR) or a class of TARs. The bill would require the department to pursue additional means to improve and streamline the TAR process.

(20) Existing law establishes the Medi-Cal Eligibility Data System (MEDS) regarding the status of applications for Medi-Cal coverage.

This bill would require counties to work MEDS error alerts as prescribed, to submit quarterly reconciliation files to the department, and, in some cases, to submit corrective action plans. The bill would authorize the department to impose a 2% reduction in the allocation of funds to a county that fails to meet interim benchmarks for improvement standards required to be in a corrective action plan.

(21) Existing law requires, with certain exceptions, the records of a Medi-Cal provider submitting a claim for the dispensing or furnishing of a controlled drug, dangerous drug, or a dangerous device requiring a prescription for coverage under the Medi-Cal program to contain an order or prescription authorized under the Pharmacy Law.

This bill would prohibit a person or entity from submitting a claim under the Medi-Cal program for a nerve conduction test or for electromyography unless the records of the person or entity contain a copy, for each person performing each test or electromyography, of a certificate or diploma of satisfactory completion of a specific accreditation program.

(22) Existing law authorizes the Director of Health Services to enter into contracts with managed care plans to provide services under the Medi-Cal program. Existing law authorizes the department, if approval for federal financial participation is obtained, to impose, annually, a quality improvement fee on the capitation payments paid to a Medi-Cal managed care plan, as defined, with the fees to be used to provide capitation rate increases for Medi-Cal managed care plan's quality improvement. Existing law requires the department to determine the percentage of each plans capitation payments to be paid monthly, not to exceed 6% and excludes from these provisions certain state supported services contracts and payments derived from intergovernmental transfers and associated federal financial participation. Existing law prohibits the department from assessing or collecting the fees if conditions related to compliance with federal requirements are not met. Existing law also prohibits the department from collecting fees under these provisions before January 1, 2004.

This bill would revise these provisions to instead require the department to impose, annually, a quality improvement fee no earlier than January 1, 2005, to be paid monthly at 6% of the total operating revenue of each Medi-Cal managed care plan, as redefined by the bill. The bill would authorize the department to alter the methodology for calculating and imposing the fee to the extent necessary to meet federal requirements. The bill would require that the capitation rates that a managed care plan would otherwise receive for providing services to Medi-Cal beneficiaries be increased, as determined by the department subject to 3 requirements. This bill would delete the exclusions from these fee provisions and the prohibition against the department collecting fees before January 1, 2004. This bill would make this provision inoperative January 1, 2009, and would repeal this provision July 1, 2009.

(23) Existing law provides that the board of supervisors of a county that contracted with the State Department of Health Services pursuant to a specified provision of law during the 1990–91 fiscal year and any county with a population under 300,000, as determined in accordance with the 1990 decennial census, by adopting a resolution to that effect, may elect to participate in the County Medical Services Program for state administration of health care services to eligible persons in the county.

This bill would revise, for the 2004–05 fiscal year, state and counties financial responsibilities for certain increases in costs in the County Medical Services Program.

(24) Existing law establishes the California Partnership for Long-Term Care Program. The purpose of the program is to link private long-term care insurance and health care service plan contracts that cover long-term care with the In-Home Supportive Services program and Medi-Cal and to provide Medi-Cal benefits to certain individuals who have income and resources above the eligibility levels for receipt of medical assistance, but who have purchased certified private long-term care insurance policies and subsequently exhausted the benefits of these private policies. Existing law requires that the resource protection provided by the program be effective only for long-term care policies and health care service plans delivered, issued for delivery, or renewed during an enrollment period of July 1, 1993, to January 1, 2005, inclusive.

This bill would extend the program to long-term care policies and health care service plans delivered, issued for delivery, or renewed on July 1, 1993, and thereafter.

This bill would require each organization issuing policies certified by the State Department of Health Services under the program to annually contribute not less than \$20,000 to a fund to be used for common educational and marketing expenses for reaching the target population.

(25) Under the California Partnership for Long-Term Care Program, individuals who participate in the program remain eligible for those in-home supportive services benefits and those Medi-Cal benefits for which they are eligible under the program for the life of the purchaser of the policy or contract, as long as the purchaser maintains his or her insurance policy or health care service plan contract in force, or otherwise qualifies for continued benefits in accordance with regulations promulgated by the departments. Existing law requires the State Department of Health Services and the State Department of Social Services to jointly adopt regulations that provide for the continuation of benefits beyond the termination of the program.

This bill, instead, would require that the jointly adopted regulations provide for continuation of benefits pursuant to the program.

(25.5) Existing law requires that the Medi-Cal reimbursement rate in effect for the 2003–04 fiscal year for hospitals, not under contract with the California Medical Assistance Commission, providing inpatient services to Medi-Cal recipients to remain the same for the entire 2004–05 fiscal year.

This bill would repeal this provision.

(26) Existing law provides that, notwithstanding any other provision of law or regulation, the Medi-Cal reimbursement rates in effect for the 2003–04 fiscal year for hospitals, not

under contract with the California Medical Assistance Commission, providing inpatient services to Medi-Cal recipients shall remain the same for the entire 2004–05 fiscal year, and states the intent of the Legislature that the California Medical Assistance Commission freeze all Medi-Cal reimbursement rates paid to hospitals for inpatient services at their 2003–04 contract rate, or at a lower level, whichever is applicable based on contract negotiations.

The bill would establish maximum limits for the amounts paid to acute care hospitals not under contract with the State Department of Health Services for inpatient services provided to Medi-Cal recipients during the 2004–05 fiscal year.

(27) Under existing law, the State Department of Mental Health has jurisdiction over 5 state hospitals, including the Metropolitan State Hospital, and each hospital is governed by uniform rules and regulations of the department and state law governing the administration of state institutions for the mentally disordered.

This bill would require that, in response to a report of the United States Department of Justice, Civil Rights Division, regarding the operation of the Metropolitan State Hospital, the State Department of Mental Health submit quarterly reports to the Legislature regarding, at least, 6 key measures that pertain to the operation of the Metropolitan State Hospital, provide to the Legislature all future correspondence between the United States Department of Justice and the State Department of Mental Health regarding Metropolitan State Hospital, provide to the Legislature quarterly updates of the Metropolitan State Hospital “Summary Grid” for compliance, and convene at least 2 community forums within the 2004–05 fiscal year at the Metropolitan State Hospital.

(28) The bill would require the State Department of Mental Health, in collaboration with the Department of Managed Health Care, the Department of Insurance, and applicable representatives from the California public and private mental health systems, to identify the core reasons that mental health parity in California is not being achieved, the barriers to achieving that parity, and what approaches over the short term and long term can be done to effectuate a more comprehensive mental health system in California, both public and private. The bill would require the State Department of Mental Health to submit a report of this information to the Legislature on or before March 1, 2005.

(29) The bill would require the State Department of Health Services, in collaboration with the County Welfare Directors Association, to develop options and recommendations for modifying the budgeting and allocation methodologies for county Medi-Cal administration. The bill would require the department to report the options and recommendations developed pursuant to this provision to all fiscal committees of both houses of the Legislature on or before January 10, 2005.

(30) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(31) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 229 (SB 1104) Committee on Budget and Fiscal Review. Budget Act of 2004: human services.

(1) Existing law provides for a system of priority for state and federally subsidized child development services and provides that first priority is given to neglected or abused children, or children who are at risk of being neglected or abused.

This bill would provide that a family receiving child care services on the basis of a child being at risk of abuse is eligible to receive services for up to 3 months, unless the county child welfare agency certifies that child care services continue to be necessary, or the child is receiving child protection services, requires child care, and remains otherwise eligible for services, in which case the family may receive child care services for up to 12 months.

(2) Under existing law, the Child Care and Development Services Act, children up to 14 years of age are eligible, with certain requirements, for child care and development services.

This bill would provide that the preferred placement for children who are 11 and 12 years of age is an after school program, as specified, with certain requirements.

(3) Under existing law, one of the purposes of the Child Care and Development Services Act is to provide a comprehensive, coordinated, and cost-effective system of child care and development services for children to 14 years of age and their parents, including a full range of supervision, health, and support services through full- and part-time programs. These programs include state-subsidized child care programs such as alternative payment programs and child care for recipients of benefits under the California Work Opportunity and Responsibility to Kids (CalWORKs) program.

This bill would require the State Department of Education to perform an error rate study to estimate the percentage of errors in the alternative payment and CalWORKs programs, and to report in writing to the Legislature designated information regarding the study. The bill would also require the department to develop recommendations for the prevention of child care fraud and programmatic errors and the identification and collection of child care overpayments, and report the recommendations to the Legislature by April 1, 2005. The bill would require the department to post existing best practices for the prevention of fraud and overpayment considered in making these recommendations on the department's Web site, and would require child care contracts entered into on or after July 1, 2005, to implement these best practices.

(4) Existing law requires the state, through the State Department of Social Services and county welfare departments, to establish and support a public system of statewide child welfare services to be available in each county of the state. Existing law requires all counties to establish and maintain specialized organizational entities within the county welfare department that have sole responsibility for operating the child welfare services program.

This bill would require the Department of General Services and all other affected state agencies to cooperate with the State Department of Social Services and the California Health and Human Services Agency Data Center to expedite and achieve timely completion and review of the technical architecture alternatives analysis plan and all procurements related to child welfare services. The bill would authorize the department to obtain outside legal counsel to assist in related contract negotiations, and would require the department to consult with stakeholders during the development of procurement and automation strategies related to child welfare services.

(5) Under existing law, the California Health and Human Services Agency Data Center is created in the California Health and Human Services Agency.

This bill would require the data center, beginning with the 2005–06 fiscal year and each fiscal year thereafter, to submit a proposal to the Department of Finance that reconciles the current year's rates and details any proposed rate adjustments to be included in the Governor's Budget.

(6) Under existing law, the State Department of Social Services regulates the licensure and operation of various types of facilities, including community care facilities, residential care facilities for persons with chronic, life-threatening diseases, residential care facilities for the elderly, and child day care facilities. Existing law establishes a schedule of licensing fees to be charged by the department for each type of facility, and provides for these fees to be deposited into the Technical Assistance Fund, except for residential care facilities for persons with chronic, life-threatening diseases licensing fees, which are deposited into the Residential Facilities for Persons with Chronic, Life-Threatening Diseases Fund.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would delete the existing fee schedules for these types of facilities and would establish new fee schedules, including a fee for initial licensure application and an annual licensing fee. The bill would establish various other fees, including a fee for moving the facility to a new physical address, an orientation fee, a probation monitoring fee, a late fee, and a plan of correction fee. The bill would provide only one type of license for each of the facilities in question, and would delete any references to special permits for their operation. This bill would eliminate the Residential Care Facilities for Persons with Chronic, Life-Threatening Illnesses Fund, and would require fees otherwise payable to the fund to be deposited in the Technical Assistance Fund.

This bill would also revise provisions relating to the operation of child day care facilities, including making an existing requirement that the department operate a child care ombudsman program discretionary with the department, and designating the program as a child care advocate program.

(7) Existing law creates the Technical Assistance Fund in the State Treasury, from which moneys appropriated by the Legislature are expended by the State Department of Social Services to fund the creation and maintenance of new licensing staff positions, and to provide technical assistance to licensees paying fees to the department.

This bill would require moneys in the Technical Assistance Fund to be used to ensure the health and safety of all individuals provided care and supervision by licensees, and to fund administrative and other activities in support of various licensing programs.

(8) Under existing law, the State Department of Social Services is prohibited from charging a fee for the fingerprinting of an applicant for licensure to provide child care to 6 or fewer children, or any family day care applicant for a license, or for obtaining a criminal record check of a licensure applicant, except during the 2003–04 fiscal year. Existing law provides for a similar exception from charging for fingerprinting during the 2003–04 fiscal year for an applicant for a license or special permit to operate a community care facility providing care for six or fewer children or for obtaining a criminal record of the applicant.

This bill would also make an exception to the prohibition against charging a fee for these services during the 2004–05 fiscal year.

(9) Existing law requires a county alcohol and drug program administrator and the county's presiding judge to develop and submit a comprehensive multiagency drug court plan for implementing cost-effective local drug court systems. The State Department of Alcohol and Drug Programs is required to distribute funds for these purposes to eligible counties according to a specified methodology, subject to appropriation in the Budget Act.

This bill, subject to a Budget Act appropriation for this purpose in the 2004–05 fiscal year, would require the department to provide a supplemental allocation of funding for the planning or expansion of new or existing dependency drug court programs in selected counties. The bill would set forth the manner in which the counties would be selected by the department, in collaboration with the Judicial Council and with input from the State Department of Social Services.

(10) Existing law, the Song-Brown Family Physician Training Program, is a state medical contract program with medical schools, programs that train primary care physician's assistants, programs that train primary care nurse practitioners, hospitals, and other health care delivery systems, that is intended to increase the number of students and residents receiving quality education and training in the specialty of family practice and to maximize the delivery of primary care family physician services to areas of California where there is a recognized unmet priority need for those services.

This bill would require the Office of Statewide Health Planning and Development to provide long-term stability and non-General Fund support for these programs, and to report on these strategies to the legislative budget committees by February 1, 2005.

(11) Under existing law, a person who willfully inflicts cruel or inhuman corporal punishment or an injury resulting in a traumatic condition upon a child is guilty of a felony, punishable by a fine, imprisonment, or both. A person who has been convicted of this crime

may be granted probation under certain conditions, including successful completion of at least one year of a child abusers treatment counseling program approved by the probation department.

This bill would delete the requirement that the child abusers treatment counseling program completed by the convicted person be approved by the probation department.

(12) Existing law authorizes the Legislature to appropriate \$56,432,000 in the Budget Act of 2003 from the Employment Training Fund to fund the local assistance portion of welfare-to-work activities under the CalWORKs program.

This bill would authorize the Legislature to appropriate the same amount in the Budget Act of 2004 from the Employment Training Fund to fund the local assistance portion of welfare-to-work activities under the CalWORKs program.

(13) Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states. Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program for the allocation of federal funds received through the TANF program, under which each county provides cash assistance and other benefits to qualified low-income families. Existing law requires the State Department of Social Services, among other things, to annually allocate appropriated funds to federally recognized American Indian tribes with reservation lands or rancherias in the state to administer a program under the federal Personal Responsibility and Work Opportunity Recovery Act of 1996.

This bill would require the annual allocation to the tribes to be reduced by \$30,532,000 in the 2004–05 fiscal year. The bill would require that for the 2004–05 fiscal year, \$15,500,000 in unspent funds originally allocated to the Torres-Martinez Tribal TANF program in 2003–04 is to be used to partially offset the reduction. To the extent this would permit these funds to be expended for new purposes, this bill would make an appropriation. The bill would require each tribal TANF program budgeted to receive a tribal TANF grant in the 2004–05 fiscal year to receive a proportionate share of the net reduction.

This bill would require state funding for tribal TANF programs to be based on actual program caseloads beginning on July 1, 2005, and would require the tribal TANF programs to provide the department with specified information in this regard, on an ongoing basis. The bill would apply this provision only to programs that have received state funding for at least 3 years prior to the beginning of the fiscal year.

This bill would require the department to amend the state TANF plan to adopt by reference the federally approved financial eligibility criteria established by each tribal TANF program as the state's eligibility criteria when determining eligibility for state-funded services provided by the tribal TANF programs.

Beginning July 1, 2005, this bill would prohibit the department from reducing county single allocations to offset funding provided for tribal TANF programs, but would authorize the department to adjust county single allocations to reflect actual case load declines.

(14) (a) Existing law provides for the county-administered In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons are provided with services in order to permit them to remain in their own homes and avoid institutionalization. Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium.

Under existing law, the mission of the California Department of Aging is to provide leadership to the area agencies on aging in developing systems of home-and community-based services to maintain individuals in their own homes or in the least restrictive homelike environments. Under existing law, the department distributes funds to the area agencies on aging, as the local unit on aging in California, in accordance with specified criteria.

This bill would provide that an individual's receipt of services under the In-Home Supportive Services program shall not be the sole cause for denial of any services provided by area agencies on aging.

(b) Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and certain other low-income persons. Personal care services provided to an individual who is eligible for Medi-Cal benefits as a categorically needy person are a Medi-Cal covered benefit. Personal care services are also a covered benefit under the In-Home Supportive Services program.

This bill would require the State Department of Social Services to procure and implement a new Case Management Information and Payrolling System (CMIPS) for the IHSS program and Personal Care Services Program. The bill would establish the components of the new system, and would require the state to begin a fair and open competitive procurement for the new system by August 31, 2004.

(c) Existing law requires the county welfare department to assess each recipient's continuing need of services as necessary, but at least once every 12 months.

This bill would authorize a county welfare department to extend these reassessments up to 6 months beyond the 12-month period, if the county meets certain conditions. The bill would require a county to assess a recipient's need for supportive services when a recipient notifies the county of a need to adjust the service hours authorized, or when a change of circumstances is expected that will affect the recipient's need for supportive services. The bill would require the department to adopt emergency regulations to implement these provisions no later than September 30, 2005.

(d) Existing law authorizes the use of a time for task guideline only when appropriate in meeting the individual's particular circumstances.

This bill would instead require the department, in consultation and coordination with county welfare departments, to establish and implement statewide hourly task guidelines and instructions, and would require counties to use these guidelines when conducting an individual assessment of an individual's need for supportive services. The bill would require the department to adopt implementing regulations by June 30, 2006, with the input of designated public and private entities.

(e) This bill would require the department to develop, and counties to use, a standardized form for statewide use to obtain medical certification for a person's need for protective supervision.

(f) This bill would require the department to conduct an error rate study beginning with the 2004-05 fiscal year. The bill would require the department, in consultation with the State Department of Health Services and county welfare departments to design and conduct the error rate study to estimate the extent of payment and service authorization errors and fraud in the provision of supportive services. The bill would require the department and the State Department of Health Services to conduct automated data matches to compare supportive services paid services hours data with Medi-Cal and third-party liability data, to identify potential supportive services delivery discrepancies. The bill would require the department to develop methods for verifying the receipt of supportive services by program recipients. The bill would require the department to develop a standardized curriculum, and operate an ongoing training program for county and state personnel. It would require the department, in conjunction with the counties, to develop protocols and procedures for monitoring county IHSS quality assurance programs, as established by the bill.

(g) This bill would require the department to convene periodic meetings to provide information and the opportunity for input from designated stakeholders regarding IHSS quality assurance, program integrity, and program consistency.

(h) This bill would define fraud and overpayment for purposes of IHSS. The bill would deny eligibility to provide or receive payment for providing supportive services for a period of 10 years of a conviction for, or incarceration following conviction for, fraud against a

government health care or supportive services program, or other designated crimes. It would require the department and the State Department of Health Services to develop a provider enrollment form, to be signed under penalty of perjury, containing certain information relating to any convictions or incarcerations of this nature. By expanding the crime of perjury, this bill would impose a state-mandated local program. The bill would require the nonprofit consortium or public authority to exclude the provider from its registry, and to report an ineligible provider to the State Department of Social Services.

(i) This bill would authorize the State Department of Health Services to investigate fraud in the provision or receipt of supportive services, and would require counties to refer instances of suspected fraud to that department for investigation. This bill would require the State Department of Health Services to notify the State Department of Social Services, the county, and the county's nonprofit consortium or public authority, if any, of a determination that the provider has engaged in fraud.

(j) This bill would authorize the director or the county to recover an overpayment to a participating provider by means of an offset against any amount currently due to the provider under the Medi-Cal program or a prepaid health plan, or by means of an executed repayment agreement between the provider and the director or the county. The bill would require the department to develop policies, procedures, and due process requirements for identifying and recovering provider overpayments. The bill would set forth additional requirements applicable to the county and the department in connection with recovering overpayments.

(k) Existing law limits the number of hours each month of combined services the recipients of IHSS and personal care services may receive to no more than 283 hours.

This bill would increase this monthly limitation to 283 hours apply the 283 hour per month limitation to personal care services, IHSS services and the IHSS Plus waiver services described in paragraph ((L1)) below, combined.

((L1)) This bill would declare the intent of the Legislature that the State Department of Health Services seek approval of a Medicaid waiver from the federal government, to be known as the IHSS Plus waiver. The bill would revise eligibility requirements, as prescribed, for those receiving benefits under the existing IHSS program, the existing Medicaid waiver, and the IHSS Plus waiver.

This bill would authorize the State Department of Social Services to enter into interagency agreements with the State Department of Health Services to administer approved federal waivers authorized under the bill. The bill would provide that the waiver terms control over conflicting provisions of law relating to the IHSS program or the Medi-Cal program, except as prescribed. The bill would authorize the State Department of Health Services to implement the waiver through all-county letters or similar instructions. This bill would provide that aged, blind, and disabled persons who would have been eligible for personal care services would be immediately eligible for services under the waiver, or shall be eligible for services under the IHSS program, in accordance with the bill, if existing law that establishes their eligibility for these services becomes inoperative.

(m) By imposing new duties on counties administering the IHSS program, including with respect to service assessments, statewide hourly task guidelines, medical certification for protective supervision services, recovery of overpayments, and the IHSS Plus waiver program, the bill would impose a state-mandated local program.

(15) Existing law provides for the CalWORKs program, under which each county provides cash assistance and other benefits to qualified low-income families and individuals.

Existing law requires each county to develop a plan pertaining to the delivery of activities and services necessary to move CalWORKs recipients from welfare to work, and requires that the plan describe, among other things, the extent to which, and the manner in which, mental health services will be available to recipients after the expiration of the maximum period of participation in the program.

This bill would delete the requirement that the plan describe the availability of mental health services under this provision.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law declares the intent of the Legislature to create a funding stream and program to assist certain recipients of aid under the CalWORKs program in obtaining necessary mental health services to enable them to make the transition from welfare to work. Existing law, which would become inoperative on June 1, 2005, authorizes any county to participate in a pilot program to set aside funds appropriated by the Legislature to cover the cost of these mental health employment assistance services as part of a Medi-Cal mental health managed care program.

This bill would delete the provisions authorizing and establishing this pilot program.

(16) Existing law, with certain exemptions, requires a prescribed sequence of employment-related welfare-to-work activities by participants in the CalWORKs program, including job search, assessment, work, and community service activities.

This bill would revise the requirements and standards applicable to the work and community service activities under the program.

Existing law provides that individuals required to engage in welfare-to-work activities enter into a written welfare-to-work plan with the county welfare department after assessment.

This bill would specify that the participant shall enter into this plan within a prescribed time period.

Existing law authorizes a county to provide for community service activities for certain participants in the CalWORKs program, requires that child care as a supportive service be provided to participants in certain community service activities and authorizes the county to provide other supportive services, and requires a county that does not provide mental health services to address in its county plan the availability of mental health services for participants in a community service job.

This bill would delete these provisions.

Existing law limits a parent's or caretaker's participation in the program to a maximum of 18 months, or in certain cases 24 months, unless the county certifies that employment is not available, and requires a county to adopt criteria to grant a 6-month extension.

This bill would delete these provisions.

Existing law establishes sanctions for fraudulent or misleading statements relating to eligibility under the program.

The bill would require the department to examine the CalWORKs sanction policy and to report to the Legislature by April 1, 2005.

(16.5) Existing law, with certain exceptions, requires an annual cost-of-living adjustment to be made in maximum aid payments provided to needy families under the CalWORKs program.

This bill would provide that, for the 2004–05 fiscal year, the adjustment to the maximum aid payment set forth in existing law shall be suspended for three months commencing on the first day of the first month following the effective date of the bill.

(17) Existing law establishes the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which counties provide payments to foster care providers on behalf of qualified children in foster care. The program is funded by a combination of federal, state, and county funds, with moneys from the General Fund being continuously appropriated to pay for the state's share of AFDC-FC costs.

This bill would require the county to redetermine AFDC-FC eligibility annually and no less than required under federal law. The bill would require the parent or legal guardian from whom a foster child was removed or, if he or she is unavailable, the county on the child's behalf to complete a statement of facts supporting continued eligibility. By requiring counties to redetermine eligibility of these benefits on an annual basis, the bill would impose a state-mandated local program.

Existing law provides that any month in which certain conditions exist shall not be counted as a month of receipt of aid for purposes of calculating the expiration of the maximum period of participation in the program.

This bill would revise these conditions.

(18) Existing law provides for the Supportive Transitional Emancipation Program (STEP) under which emancipated foster youth up to 21 years of age are eligible to receive support while participating in an educational or training program, or any activity consistent with the youth's transitional independent living plan.

This bill would provide that this program shall be implemented only to the extent that funds are appropriated for that purpose in the annual Budget Act.

Existing law authorizes payment for transitional housing services to an eligible youth from available moneys in the Transitional Housing for Foster Youth Fund.

This bill would also authorize payment for these services from available moneys in the annual Budget Act.

(19) Existing law, pursuant to the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, requires that foster care providers licensed as group homes have rates established by classifying each group home program and applying the standardized schedule of rates. Existing law establishes a standardized schedule of rates for the 2002–03 and 2003–04 fiscal years.

This bill would extend the standardized schedule of rates to the 2004–05 fiscal year.

Under existing law, commencing July 1, 2003, any group home provider with an affiliated lease is not eligible for AFDC-FC rates.

This bill would instead provide that a group home with a self-dealing lease transaction for shelter costs, as defined by a specified provision of existing law, shall not be eligible for AFDC-FC rates.

This bill would also eliminate provisions that make funding available to certain group homes for the purpose of conducting financial audits required by law.

(20) Existing law declares the intent of the Legislature to appropriate funds in a single allocation to counties for the support of county administration activities to provide benefit payments under the CalWORKs program.

This bill would require the State Department of Social Services, no later than 30 days after the enactment of the Budget Act of 2004, to estimate the amount of unspent funds in the CalWORKs single allocation. The bill would require the unspent amount, not to exceed \$40,000,000, to be reappropriated to, and in augmentation of, a specified item in the annual Budget Act, and provided to the counties in a planning allocation no later than 30 days after the enactment of the Budget Act of 2004. The bill would require the department, in consultation with the County Welfare Directors Association, to develop an allocation methodology for purposes of these provisions.

(21) Existing law establishes a program to provide maternity care services to needy minors, administered by the State Department of Social Services.

This bill would eliminate this program.

(22) Existing law, the Burton-Moscone-Bagley Citizens' Income Security Act for Aged Blind and Disabled, establishes a state program to implement provisions of the federal Social Security Act for services to the aged, blind, and disabled. Existing law provides for annual cost-of-living adjustments to be effective January 1 of each year.

This bill would, for the 2005 calendar year, delay those adjustments until April 1. Existing law requires the State Department of Social Services to establish and supervise a county- or county consortia-administered program to provide cash assistance to aged, blind, and disabled legal immigrants who are not citizens and who successfully complete an application process. Existing law requires any person found by the department to be eligible for federal Supplemental Security Income (SSI) benefits to be required to apply for those benefits.

This bill would, until July 1, 2009, require the department to require counties with a base caseload of 70 or more, and to encourage other counties, to establish an advocacy program to assist applicants and recipients of aid under these provisions in applying for SSI benefits. The bill would require the department to provide assistance to the counties in this regard. The bill would also require the department to reimburse counties for legal fees incurred during

the appeals phase of the SSI application process when the legal representative successfully secures approval of SSI benefits. The bill would require the department to report to the Legislature by July 1, 2007, regarding the savings realized through the cases transferred to SSI as a result of the county SSI advocacy programs. By requiring counties to establish advocacy programs, the bill would impose a state-mandated local program.

(23) Existing law provides for the establishment of independent living centers for individuals with disabilities. Under existing law, to the extent that funds are appropriated by the Legislature, for the purposes of providing assistive technology services in independent living centers, \$300,000 shall be allocated to a nonprofit coordinator selected by the Department of Rehabilitation, and the remainder shall be allocated equally among the independent living centers.

This bill would reduce the amount allocated to the independent contractor to \$210,000.

(24) (a) This bill would require the California Health and Human Services Agency, to the extent feasible, to examine the criminal background check requirements for all programs within its purview and the processes to administer and enforce these requirements, and to report its findings to the Legislature at budget hearings. The bill would also require the agency to report on strategies to streamline and standardize criminal background check requirements and their processing, to create administrative efficiency.

(b) This bill would require the agency, to the extent feasible, and in consultation with the Department of Aging, the State Department of Social Services, and appropriate stakeholders, to consider strategies to coordinate state and federally funded services and programs, in order to maximize cost-effectiveness and programmatic efficiency in the delivery of services to program consumers. The bill would require the agency to report during budget hearings for the 2005–06 fiscal year, regarding these strategies and the resulting programmatic effect.

(25) This bill would declare legislative intent to address the issue of child care in and out of market rate differentiation in the statutory process, and would declare that certain related regulations filed with the Office of Administrative Law by the State Department of Education, shall not become effective until July 1, 2005.

(26) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(27) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 230 (SB 1107) Committee on Budget and Fiscal Review. Resources.<sup>3</sup>

(1) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the Department of Fish and Game for payment of refunds of sums it determines have been erroneously deposited in the fund and for the payment of all necessary expenses incurred in carrying out the Fish and Game Code and any other laws for the protection and preservation of birds, mammals, reptiles, and fish, and to the Fish and Game Commission to pay the compensation and expenses of the commissioners and employees of the commission.

This bill would instead make the money in the Fish and Game Preservation Fund available for expenditure by the department and the commission only upon appropriation by the Legislature for those purposes.

(2) Existing law requires the Director of Pesticide Regulation to expend a specified percentage of license fees collected pursuant to the pest control dealer's licensing program

to reimburse the counties and appropriates the amount of these payments from the Department of Pesticide Regulation Fund.

This bill would repeal these provisions.

(3) Existing law requires every person who sells for use in this state a pesticide product that has been registered by the Director of Pesticide Regulation to pay to the director applicable assessments, except as specified. Existing law requires the revenue collected from the mill assessment to be deposited in the Department of Pesticide Regulation Fund with an amount equal to the revenue derived from 6 mills per dollar of sales for all pesticide sales for use in this state to be distributed to the counties as reimbursements for costs incurred in the administration and enforcement of pesticide regulations.

This bill would, beginning July 1, 2004, increase the amount to be distributed to the counties to an amount equal to the revenue derived from 7.6 mills per dollar of sales for all pesticide sales for use in this state.

(4) Under existing law, the State Air Resources Board, the State Energy Resources Conservation and Development Commission, and the California Climate Action Registry all have responsibilities with respect to the control of greenhouse gas emissions.

This bill would require the Secretary for Environmental Protection to coordinate greenhouse gas emission reductions and climate change activity in state government.

(5) Under existing law, the Williamson Act provides that a landowner and a city or county may enter into a mutually beneficial contract to restrict the use of agricultural land by creating an agricultural preserve, as defined, in order to preserve the limited supply of agricultural land necessary to the conservation of the state's economic resources. Prior to cancellation of a contract, the county assessor is required to determine the cancellation valuation of the land for purposes of determining the cancellation fee which the landowner is required to pay to the county treasurer. Existing law requires that the county treasurer transmit cancellation fees to the Controller for deposit in the General Fund, except for that amount specified in the annual Budget Act which is deposited in the Soil Conservation Fund and which is available, when appropriated by the Legislature, for the support of 2 designated programs.

This bill would increase the amount to be deposited in the Soil Conservation Fund in the 2004–05 fiscal year to \$2,036,000. The bill would provide that the funds, when appropriated by the Legislature, are also available for the program support costs of the Department of Conservation in administering the Williamson Act and the open-space subvention program.

(6) Existing law requires the Secretary of the Resources Agency to establish a nonprofit public benefit corporation to be known as the California Climate Action Registry, with specified functions related to greenhouse gas emissions, to be governed by a board of directors of 7 members.

This bill would expand the board of directors to 9 members to include one additional member appointed by the Senate Committee on Rules and one additional member appointed by the Speaker of the Assembly.

(7) Existing law establishes a motor vehicle inspection and maintenance program (smog check), administered by the Department of Consumer Affairs and the State Air Resources Board, that provides for the inspection of all motor vehicles, except those specifically exempted from the program, upon registration, biennially upon renewal of registration, upon transfer of ownership, and in certain other circumstances. Existing law also establishes an enhanced motor vehicle inspection and maintenance program (smog check II) in each urbanized area of the state, any part of which is classified by the United States Environmental Protection Agency as a serious, severe, or extreme nonattainment area for specified air contaminants. Existing law exempts from those requirements any motor vehicle 4 or less model-years old, and commencing January 1, 2004, any motor vehicle up to 6 model-years old unless the state board finds that providing the exemption for those additional model-years will prohibit the state from meeting the state's commitments under the federal Clean Air Act, and also authorizes the department and the state board to exempt any motor vehicle that it determines does not significantly compromise the emission reduction

objectives of the state's State Implementation Plan under the federal act. Existing law subjects motor vehicles exempted from the smog check requirements pursuant to those provisions to an annual smog abatement fee of \$4, and requires the revenues collected from that fee to be deposited on a daily basis into the Vehicle Inspection and Repair Fund in the State Treasury.

This bill would repeal those exemption provisions, and would instead exempt from the smog check provisions, commencing January 1, 2005, any motor vehicle up to 6 model-years old. The bill would increase the annual smog abatement fee imposed on motor vehicles exempt from the smog check requirements pursuant to that provision to \$12.

Existing law makes any violation of the smog check program a misdemeanor.

This bill would impose a state-mandated local program by changing the definition of a crime.

(8) Existing law establishes the High Polluter Repair or Removal Account within the Vehicle Inspection and Repair Fund, and makes the moneys in the fund available, upon appropriation by the Legislature, to the department and the state board establish and implement a program for the repair or replacement of high-polluting vehicles. Existing law requires the department to impose a fee for each issuance of a smog check certificate of compliance, noncompliance, repair cost waiver, or extension, and requires the resulting revenues to be deposited in the Vehicle Inspection and Repair Fund. Existing law declares the intent of the Legislature to maintain a prudent surplus in that fund and requires to department to prescribe lower smog check fees if the surplus amount exceeds the costs of administering the smog check and vehicle repair programs.

This bill would repeal the requirement that the department prescribe lower fees if the surplus exceeds those administrative costs. The bill would instead declare the intent of the Legislature that a prudent amount be determined to retain as a reserve in the Vehicle Inspection and Repair Fund, and would further declare the intent of the Legislature that any moneys above that amount be transferred to the High Polluter Repair or Removal Account within that fund.

(9) Existing law requires, on or after July 1, 1998, if certain events occur, that the revenues resulting from \$2 of the smog abatement fee imposed on motor vehicles exempt from the smog check fee be allocated to the High Polluter Repair or Removal Account and the revenues from \$4 of the fee be deposited in the Vehicle Inspection and Repair Fund, except those revenues generated by the fee imposed at the first registration of the exempted motor vehicle, which are required to be deposited in the High Polluter Repair or Removal Account. Existing law repeals those provisions on January 1, 2010.

Existing law establishes the Carl Moyer Memorial Air Quality Standards Attainment Program, which provides grants to offset the incremental cost of projects that reduce emissions of oxides of nitrogen from specified heavy-duty diesel vehicles, off-road nonrecreational equipment and vehicles, locomotives, diesel marine vessels, stationary agricultural engines, and other high-emitting diesel engine categories.

This bill would additionally require that, of the revenues generated by the imposition of the increase smog abatement fee amount of \$12, the revenues generated by the additional \$6 of each fee be deposited in the Air Pollution Control Fund in the State Treasury, and be available, upon appropriation by the Legislature, for expenditure to fund the Carl Moyer program, as specified. The bill would delete the repeal date on the smog abatement fee provisions, thereby extending those provisions indefinitely. The bill would also delete obsolete references in existing law.

(10) Existing law establishes the Mono Lake Tufa State Reserve as a unit of the state park system. Existing law provides that the reserve consists of the state-owned portions of the Mono Lake bed lying at or below the elevation of 6,417 feet above sea level. Existing law requires the Department of Parks and Recreation to manage the reserve, as specified.

This bill would specify that the reserve includes all resources within the reserve's boundaries, including the waters of Mono Lake. The bill would provide that the department's

management of the reserve includes all resources within the reserve's boundaries, such as the waters of Mono Lake.

(11) Existing law requires the State Office of Historic Preservation to encourage and support historical resource preservation.

This bill would establish the California Main Street Program within the State Office of Historic Preservation of the Department of Parks and Recreation to provide technical assistance and training for small cities' government, business organizations, merchants, and property owners to accomplish community and economic revitalization and development of older central business districts and neighborhoods.

The bill would establish the California Main Street Program Fund in the State Treasury and would require all private contributions, federal funds, and fees for services, if levied, to be deposited into the fund. The bill would require moneys in the fund to be available, upon appropriation, for the purposes of the program. The bill would require the office to incur costs for the program only to the extent that funding adequate to cover those costs has been deposited in, and appropriated from, the fund.

(12) (A) Existing law authorizes the expenditure of state funds for local assistance grants to cities, counties, and districts for the acquisition and development of various park and recreational areas and facilities.

This bill would enact the California River Parkways Act of 2004 for the purpose of improving the quality of life in California by providing recreational, open space, wildlife, flood management, water quality, and urban waterfront revitalization benefits to communities in the state. The bill would require the Secretary of the Resources Agency to make grants available to public agencies and nonprofit organizations for river parkway projects, as specified. The bill would provide that to be eligible for a grant, a project would have to provide public access or be a component of a larger parkway plan that provides public access, and meets other specified conditions.

(B) The California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002 was approved by the voters at the March 2, 2002, statewide primary election as Proposition 40. Proposition 40, among other things, provides bond funds for the acquisition and development of river parkways.

The Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 was an initiative measure approved by the voters at the November 5, 2002, statewide general election as Proposition 50. Proposition 50, among other things, provides bond funds for the acquisition from willing sellers, restoration, protection, and development of river parkways.

This bill would appropriate \$7,850,000 from Proposition 40 bond funds and \$30,500,000 from Proposition 50 bond funds to the Secretary of the Resources Agency for the purposes of awarding grants for the acquisition and development of river parkways in accordance with those bond provisions and the California River Parkways Act of 2004.

(13) The Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 (Proposition 50), which was approved by the voters at the November 5, 2002, statewide election, authorizes the Legislature to appropriate \$30,000,000 to the secretary for the purposes of grants to local public agencies, local water districts, and nonprofit organizations, for acquisition from willing sellers of land and water resources, to protect water quality in lakes, reservoirs, rivers, streams, and wetlands in the Sierra Nevada-Cascade Mountain Region, as defined.

This bill would establish the Sierra Nevada-Cascade Conservation Grant Program, which the secretary would administer, to accomplish various purposes in the Sierra Nevada-Cascade Mountain Region. The bill would authorize the secretary to undertake various projects and activities, including providing grants and loans to public agencies and nonprofit organizations, to meet the goals of the program.

The bill, as a part of that program, would authorize the secretary to provide grants to local public agencies, local water districts, and nonprofit organizations, consistent with the requirements of Proposition 50, for the acquisition of specified land and water rights, related

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

to protecting water quality in the region. The bill would appropriate \$9,150,000 that is available pursuant to Proposition 50 for protecting water quality in the region, to the secretary, to make those grants.

The bill would require any acquisition made pursuant to the program to be from a willing seller.

(14) The Watershed, Clean Beaches, and Water Quality Act provides for a program of grants to public agencies and nonprofit organizations for projects designed to improve water quality at public beaches, improve water quality monitoring and sewer capability, protect water quality by reducing runoff pollution, and control nonpoint source water pollution.

Under the agricultural water quality grant program of the act, the State Water Resources Control Board (board) may award grants to public agencies or nonprofit organizations for the purposes of improving agricultural water quality. The board, in consultation with the Department of Food and Agriculture, is required to develop criteria for evaluating projects considered for grants under that program.

This bill would require the board, on or before June 30, 2005, in consultation with the Department of Food and Agriculture, to adopt guidelines for a dairy water quality improvement grant program that provides competitive grants for projects, including water quality planning and regional and on-farm projects, and projects undertaken by dairy operators, to reduce threats to, or impairment of, water quality from dairy operations.

The bill would also require the board to specify a matching fund requirement, as a condition of providing an agricultural water quality grant or dairy water quality grant.

(15) Existing law establishes the California Environmental Protection Agency, and establishes various entities within the agency.

This bill would require the Secretary for Environmental Protection, in the 2004–05 fiscal year, to the extent that it will achieve actual budget savings and to the extent authorized by existing law, to consolidate the number of funds and accounts in the Treasury that are for the support of programs administered by the boards, departments, and offices within the agency. The bill would require the secretary, in the 2004-05 fiscal year, to the extent that it will achieve actual budget savings, to consolidate specified non-policy functions that are common among those boards, departments, and offices. The bill would require the secretary to report any budget savings achieved pursuant to those requirements to the Legislature's budget committees, for specified appropriations. The bill would require the Department of Finance, upon request of the secretary, to assist the secretary in complying with these requirements.

The bill would authorize the secretary to use a reimbursement from a board, department, or office within the agency for a consolidated service that the agency provides to those entities.

(16) Existing law exempts a transfer of ownership of a motor vehicle from the smog check requirements in certain circumstances, including transfers within the initial 90-day validity period of a smog certificate, between certain family members, or in certain business circumstances, and if the motor vehicle is 30 or more model-years old.

This bill would, commencing January 1, 2005, also exempt any transfer of ownership of a motor vehicle that is 4 or less model-years old. The bill would require the department to impose a fee of \$8 on the transferee of the vehicle and would require the revenues generated by that fee be deposited in the Vehicle Inspection and Repair Fund.

(17) Existing law requires the Department of Motor Vehicles, in consultation with the California Coastal Commission, to design and make available for issuance special environmental design license plates that bear a graphic design depicting a California coastal motif. The department is required to impose certain fees for issuance, renewal, substitution, and transfer of the plates, in addition to the regular fees for an original registration or renewal of registration. The department, after deducting its administrative costs, is required to deposit the additional revenue derived from the issuance, renewal, transfer, and substitution of the special environmental design license plates, in the amount of  $1/2$  in the California Beach and

Coastal Enhancement Account in the California Environmental License Plate Fund and  $\frac{1}{2}$  in the California Environmental License Plate Fund.

Existing law requires funds in the account to be expended for certain public beach and coastal maintenance programs. Any funds remaining in the account at the end of a fiscal year are required to be allocated by the Controller, after appropriation by the Legislature, to the State Coastal Conservancy for coastal natural resource restoration and enhancement projects and for other coastal projects.

This bill, instead, would require the Controller to allocate the funds in the account, upon appropriation by the Legislature, first to the California Coastal Commission for expenditure for the specified public beach and coastal maintenance programs and second, from funds remaining after the first allocation, to the State Coastal Conservancy for coastal natural resource restoration and enhancement projects and for other coastal projects.

(18) Existing law requires a motor vehicle dealer, the purchaser, or his or her authorized representative, to transmit a valid certificate of compliance or noncompliance with the smog check program, as appropriate, to the Department of Motor Vehicles with each application for initial registration of a new motor vehicle or transfer of registration of a motor vehicle that is subject to the smog check program.

This bill would exempt from that requirement any motor vehicle whose transfer of ownership is exempt from the smog check requirements as a result of the circumstances of that transfer.

(19) Existing law requires the Department of Water Resources to divide the state into watermaster service areas for the purpose of distributing water in accordance with certain water right determinations. Existing law authorizes the department to incur costs and make expenditures as necessary to provide for the administration of a service area and the distribution of water therein. Existing law requires the water right holders within the service area to pay  $\frac{1}{2}$  of those costs and the state to pay the other half.

This bill would require those water right holders to pay all of those costs and would make related, conforming changes.

(20) Existing law authorizes, on a project-by-project basis, and in accordance with designated plans, state participation in federal flood control projects and specifies the degree of cooperation to be assumed by the state and local agencies in connection with those projects. Existing law establishes procedures for the assumption of flood control maintenance and operation duties by the Department of Water Resources in connection with the formation of a maintenance area on behalf of a federal flood control project unit. Existing law prescribes requirements relating to the imposition of assessments on behalf of a maintenance area. Existing law requires the funds generated by the imposition of the assessments to be deposited in the Water Resources Revolving Fund and continuously appropriates those funds to pay the operation and maintenance costs of maintenance areas.

This bill would authorize the department to investigate a project that is authorized by the state and approved by Congress to determine whether the project is no longer justified and whether appropriate action should be taken to deauthorize the project. The bill would provide that the Reclamation Board or the department, as applicable, is not required to prepare an estimate of cost to maintain a project unit abandoned by a local agency or proceed with the formation of a maintenance area if neither agency has given certain assurances regarding the maintenance and operation of the project.

The bill would change requirements relating to the imposition of assessments by, among other things, revising the definition of the term "operation and maintenance costs" to include additional costs. The bill also would revise a prohibition on the expenditure of funds on behalf of a project unit if that expenditure exceeds 20% of the estimated costs of the maintenance work by authorizing certain expenditures that exceed that amount. By revising requirements relating to the continuous appropriation of funds from the Water Resources Revolving Fund, the bill would make an appropriation.

(21) The Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 (Proposition 50) which was approved by the voters at the November 5, 2002, statewide election, authorizes the issuance of bonds in the amount of \$3,440,000,000. The act, with certain exceptions and for the purposes of funding eligibility, requires a project that will assist in the fulfillment of one or more of the goals of the CALFED Bay-Delta Program to be consistent with the CALFED Programmatic Record of Decision.

This bill, for the purpose of ensuring compliance with that requirement, would require the California Bay-Delta Authority to review regulations, guidelines, or criteria that are proposed by an implementing agency to carry out a grant program for certain projects and activities. The bill would authorize the authority to review, and comment to the appropriate implementing agency with regard to, a proposal to award a grant pursuant to the act on behalf of a project that meets certain criteria for the purposes of determining whether or not the project is consistent with the CALFED Programmatic Record of Decision.

(22) The California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002 (Proposition 40), which was approved by the voters at the March 5, 2002, statewide election, establishes the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Fund. The act authorizes moneys from the fund to be appropriated by the Legislature for various purposes related to resources and parks and recreation.

The Budget Act of 2004, if enacted, would appropriate \$7,481,000 from the fund to the Department of Forestry and Fire Protection.

This bill would require a Program Timberland Environmental Impact Report (PTEIR) that is funded pursuant to that appropriation to be used only for hazardous fuel reduction, as specified.

(23) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(24) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 231 (SB 1603) Committee on Public Employment and Retirement. Public Employees' Retirement System: retirement and medical benefits.

(1) Existing law requires every county superintendent of schools to enter into a contract with the Board of Administration of the Public Employees' Retirement System for inclusion of the school district's classified employees in the system.

This bill would provide that, if a charter school chooses to participate in the system, its qualified employees shall be covered under the system in the same manner as the employees of the school district that granted the charter.

(2) Existing law prescribes disability retirement benefits for state members of the Public Employees' Retirement System who are subject to second tier benefits.

This bill would provide that those benefits are applicable to a member who retires for nonindustrial disability. The bill would also provide that if the member is eligible to retire for service at the time of becoming disabled, he or she shall be paid the greater of the service retirement allowance or the disability retirement allowance.

(3) Existing law excludes state park rangers and local safety members employed as park rangers from federal social security.

This bill would additionally exclude county peace officers employed by a county parks and recreation department from federal social security.

(4) Existing law authorizes judges who are members of the Judges' Retirement System and judges who are members of the Judges' Retirement System II to make contributions and receive service credit for specified types of service performed prior to their judicial service. Contributions under the Judges' Retirement System II are deposited in the Judges' Retirement System II Fund, a continuously appropriated fund.

This bill would authorize a judge in either of those systems to make contributions and receive service up to 4 years of credit for time, prior to January 1, 1950, during which the judge served in the United States Armed Forces or the Merchant Marine. By increasing contributions to a continuously appropriated fund, the bill would make an appropriation.

(5) The Judges' Retirement Law provides that payment of benefits to the surviving spouse of a deceased judge shall cease if the surviving spouse remarries.

This bill would delete that provision.

(6) Existing law authorizes the Judges' Retirement System and the Judges' Retirement System II to refund to a judge any contributions overpaid by the judge.

This bill would authorize those systems to dispense with a refund to a judge if the amount of the overpayment, or the remaining balance in his or her account, is \$50 or less. The bill would also authorize the system to dispense with collecting any underpayment of contributions from or recalculating or adjusting any benefits payable to a judge if the amount of the underpayment or adjustment does not exceed specified amounts.

(7) The bill would make technical changes to and delete obsolete provisions of the Public Employees' Retirement Law and the Judges' Retirement Law.

#### Ch. 232 (SB 1183) Margett. Horse racing.

Existing law provides that the California Horse Racing Board may authorize a harness racing association in this state to accept wagers on races conducted by the racing association that conducts the Breeder's Crown Stakes, if the races are conducted on the same day as the Breeder's Crown Stakes and if the association in this state that accepts those wagers is then conducting a live racing meeting.

This bill would expand this authority to permit a California harness racing association conducting a live racing meeting to accept wagers on the full card of races conducted by another racing association on the day that other association conducts the Breeder's Crown Stakes, the Meadowlands Pace, the Hambletonian, or the North American Cup.

Under existing law, all revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes.

This bill would authorize additional wagering, and would increase correspondingly the amount of continuously appropriated license fees, thereby making an appropriation. This bill would also result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, thereby requiring a  $\frac{2}{3}$  vote for passage.

#### Ch. 233 (SB 1448) Alpert. Pupil assessment.

(1) Existing law, the Leroy Greene California Assessment of Academic Achievement Act, requires each school district, charter school, and county office of education to administer to each of its pupils in grades 2 to 11, inclusive, certain achievement tests. Existing law repeals the act on January 1, 2005.

This bill would extend the repeal date of the act to January 1, 2011, thereby imposing a state-mandated local program. The bill would, commencing July 1, 2007, exclude pupils in grade 2 from the standards-based achievement test requirement and make conforming changes.

(2) Existing law requires a pupil to have an individual record of accomplishment that includes the results of achievement tests, end-of-course exams, and whatever vocational education certification exams the pupil chose to take, and prohibits the record of accomplishment from being released to any person other than the parent or guardian of the pupil, or a teacher, counselor, or administrator, directly involved with the pupil, without the express written consent of the parent or guardian of the pupil if the pupil is a minor, or the pupil, if the pupil has reached the age of majority or is emancipated. Existing law also

prohibits individual results of achievement tests from being released without the permission of the parent or guardian of the pupil.

This bill would, upon the request of a pupil, or his or her parent or guardian, permit the release of the record of accomplishment and the results of achievement tests to a postsecondary educational institution for specified purposes. The bill would permit the release of individual results of the California Standards Tests to a postsecondary educational institution for the purposes of credit, placement, or admission. The bill would require the State Department of Education to ensure that a specified assessment that is administered for the purpose of determining credit, placement, or admission of a pupil in a postsecondary educational institution informs a pupil in grade 11 that he or she may request that the results of that assessment be released to a postsecondary educational institution.

(3) Existing law prohibits a city, county, city and county, or district superintendent of schools or principal or teacher of any elementary or secondary school from carrying on any program of specific preparation of the pupils for the statewide pupil assessment program or a particular test used in the statewide pupil assessment program.

This bill would, in addition, place that prohibition on a charter school, but would exempt from that prohibition instructional materials provided by the State Department of Education if those instructional materials are embedded in an instructional program that is intended to improve pupil learning.

(4) Existing law, the Standardized Testing and Reporting (STAR) Program requires each school district, charter school, and county office of education to administer to each of its pupils in grades 2 to 11, inclusive, a standards-based achievement test. Existing law authorizes a pupil of limited English proficiency who is enrolled in any of grades 2 to 11, inclusive, to take a second achievement test in his or her primary language at the option of the school district.

This bill would require the department to develop and adopt primary language assessments that are aligned to the state academic content standards to supplant the primary language test, as specified.

(5) Existing law requires that individual results of achievement tests be reported to the parent or guardian of a pupil, including a clear explanation of the purpose of the test, the pupil's score, and the intended use of the test. Existing law specifies that those provisions do not require teachers to prepare individualized explanations of each pupil's test score.

This bill would, in addition, specify that those provisions do not require other district personnel to prepare individualized explanations of each pupil's test score.

(6) Existing law requires the State Board of Education to designate an achievement test, to be administered to pupils in grades 3 and 8.

This bill would, instead, provide that that test is administered in grades 3 and 7.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 234 (AB 343) Chan. Healthy Families Program.

Existing law establishes the Healthy Families Program, administered by the Managed Risk Medical Insurance Board, to arrange for the provision of health services to an eligible person. Under the program, eligibility is based upon an application submitted to the board. The board, in administering the program, may pay designated individuals or organizations an application assistance fee in specified circumstances if the individual or organization assists an applicant to complete the program application.

This bill would specify, except as provided, that no individual or organization may solicit or receive any compensation from an applicant or subscriber for offering or providing program application assistance. The bill would make a violation of this provision subject to a civil penalty that would be deposited into the Healthy Families Fund. Because the bill would increase the amount of revenue in a continuously appropriated fund, it would make an appropriation.

Ch. 235 (AB 509) Jerome Horton. Horse racing: out-of-country thoroughbred races.

Existing law provides that a thoroughbred racing association or fair may distribute the audiovisual signal and accept wagers on the results of out-of-state and out-of-country thoroughbred races during the calendar period the association or fair is conducting a race meeting, provided that the total number of thoroughbred races on which wagers are accepted statewide in any given year does not exceed the total number of thoroughbred races on which wagers were accepted in 1998. Existing law permits this without the consent of the organization that represents horsemen participating in the race meeting, but subject to other limitations, including a limitation of 23 races per day, except as provided. State license fees on this wagering are provided for in existing law.

This bill would amend those provisions with the 23 race per day limitation to apply only to out-of-state races in the United States. It would add separate provisions to permit a thoroughbred racing association or fair to distribute the audiovisual signal and accept wagers on the results of out-of-country thoroughbred races on similar conditions, without a daily limit on races.

Existing law specifically provides that one of these thoroughbred racing associations may execute an agreement with any other association that conducts thoroughbred races in the southern zone to allow the other association to distribute the signal and accept wagers on out-of-country thoroughbred races.

This bill would fix the license fee paid to the state under these arrangements at twice the amount paid by a quarter horse association in the northern zone on satellite wagering.

Existing law provides that a thoroughbred association or fair may not accept wagers on out-of-state or out-of-country races commencing after 7 p.m. without the consent of the harness or quarter horse association that is then conducting a live racing meeting in Orange or Sacramento County.

This bill would, with regard to out-of-country races only, forbid a thoroughbred racing association or fair to accept, without consent, wagers on races commencing after 5:30 p.m., and would require that consent from any harness or quarter horse association that is then conducting a live racing meeting without limitation to specific counties.

Under existing law, revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes. This bill would authorize additional wagering, and would increase the amount of continuously appropriated license fees, thereby making an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 236 (AB 1572) Lieber. Manufactured housing: Manufactured Home Recovery Fund.

Existing law establishes the Manufactured Home Recovery Fund, which is continuously appropriated to make payments and distributions for actual and direct losses, as defined, arising out of specified transactions regarding the purchase or sale of a manufactured home if certain conditions are met. Existing law requires a claim against the fund to be filed with the Department of Housing and Community Development within one year from the occurrence of specified events.

This bill would, among other things, add to the types of actions upon which a claim against the fund may be based fraud or willful misrepresentation related to any financial provision and willful violation of any escrow or other specified laws. The bill would require claims against the fund to be filed with the department within 2 years from the occurrence of specified events. By expanding the time in which to make a claim against a continuously appropriated fund, this bill would make an appropriation.

Ch. 237 (AB 1736) Committee on Veterans Affairs. Veterans.

Existing law authorizes the Department of General Services, on behalf of the Department of Veterans Affairs, to construct and establish veterans' homes in Fresno and Shasta Counties, to renovate veterans' homes in Yountville, Barstow, and Chula Vista, and to expand veterans' homes that are proposed to be built in Lancaster, Saticoy, and West Los Angeles.

This bill would additionally authorize the Department of General Services, on behalf of the Department of Veterans Affairs, to design and equip the veterans' homes in Fresno and Shasta Counties, and to design, equip, and construct veterans' homes in Yountville, Barstow, Chula Vista, Lancaster, Saticoy, and West Los Angeles.

The State Building Construction Act of 1955 authorizes the State Public Works Board to acquire or construct public buildings and to issue revenue bonds, negotiable notes, and negotiable bond anticipation notes to finance that construction. Existing law authorizes the State Public Works Board to issue lease-revenue bonds, notes, or bond anticipation notes pursuant to that law to finance the acquisition, design, construction, renovation, or expansion of veterans' homes at Yountville, Barstow, Chula Vista, Lancaster, Saticoy, and West Los Angeles, and in Fresno County and Shasta County, as provided. Existing law continuously appropriates funds derived from the sale of these instruments to the board, on behalf of the Department of Veterans' Affairs, for this purpose.

This bill would remove the authorization for these funds to be used for the acquisition of a veterans' home, but would make an appropriation by additionally authorizing these funds to be used to equip these homes.

The Veterans' Homes Bond Act of 2000 requires the proceeds from the sale of the bonds issued under that act to be deposited in the Veterans' Home Fund. Existing law continuously appropriates, subject to the approval of the Department of Finance, moneys in the Veterans' Home Fund, in an amount not to exceed \$31,000,000, to the Department of Veterans Affairs to meet state funding requirements for the construction of veterans' homes in Lancaster, Saticoy, and West Los Angeles.

This bill would make an appropriation by additionally authorizing the Department of Veterans Affairs to expend these moneys to design and equip these veterans' homes.

Existing law continuously appropriates, subject to approval by the Department of Finance, moneys in the Veterans' Home Fund, in an amount not to exceed \$15,000,000, to the Department of Veterans Affairs for the design and renovation of the veterans' home in Yountville.

This bill would make an appropriation by additionally authorizing the use of these moneys for constructing and equipping the veterans' home in Yountville.

Existing law continuously appropriates, subject to approval by the Department of Finance, certain remaining funds from the Veterans' Home Fund to design, construct, and renovate the veterans' homes in Lancaster, Saticoy, and West Los Angeles.

This bill would make an appropriation by additionally authorizing the use of these remaining funds for equipping and expanding the veterans' homes in Lancaster, Saticoy, West Los Angeles, and Yountville.

Existing law continuously appropriates, subject to the approval of the Department of Finance, certain federal matching funds for the design, construction, and renovation of specified veterans' homes.

This bill would make an appropriation by additionally authorizing these federal funds to be used for equipping these veterans' homes.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 238 (AB 2823) Benoit. Highway signs.

Under existing law, the Department of Transportation places and maintains directional signs on state highways, including freeways.

This bill would authorize the department to place and maintain signs on state highways directing motorists to culturally unique and historically significant communities if certain conditions are satisfied.

Ch. 239 (AB 3000) Mountjoy. Veterans' Homes.

Existing law establishes Veterans' Homes of California for all veterans who are residents of California. Under existing law, priority admission status to a veterans' home is given to Medal of Honor recipients. Existing law also requires residents of the California Veterans' Homes who receive an aid and attendance stipend from the federal government to provide this subsidy to the homes in receipt for assistance.

This bill would extend priority admission status to prisoners of war, and would exempt residents of domiciliary units of the California Veterans' Homes from providing aid and attendance stipends to the homes in receipt for assistance.

Ch. 240 (AB 2254) Aghazarian. Used oil filters: management.

(1) Existing law defines "used oil" for purposes of the provisions regulating the handling of used oil and requires used oil to be managed as a hazardous waste, unless the used oil meets specified requirements. A violation of the laws regulating used oil is a crime.

This bill would, to the extent consistent with the federal Resource Conservation and Recovery Act of 1976 (RCRA), authorize filters that contain a residue of gasoline or diesel fuel, to be managed in accordance with the requirements of the Department of Toxic Substances Control's regulations governing the management of used oil filters, unless the department adopts regulations with regard to those filters that contain residues. The bill would require the management of filters that contain a residue of gasoline, and commingled filters that include filters that contain residue of gasoline, to meet additional specified requirements.

Since a violation of these requirements would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 241 (AB 2635) Canciamilla. Oak Woodlands Conservation Fund: report.

Existing law, commencing on June 30, 2003, requires the Wildlife Conservation Board to annually report to the Legislature and the Governor concerning the activities and expenditures of the Oak Woodlands Conservation Fund.

This bill would instead require the board to report to the Legislature and the Governor once every two years.

Ch. 242 (AB 2734) Strickland. Fox Canyon Groundwater Management Agency.

Existing law, the Fox Canyon Groundwater Management Agency Act, creates the Fox Canyon Groundwater Management Agency and authorizes the agency to perform groundwater management activities within its boundaries. The act authorizes the agency to impose a groundwater extraction charge, not to exceed \$3 per acre-foot pumped per year, on the extraction of groundwater from water extraction facilities to finance those groundwater management activities undertaken by the agency.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would change that \$3 per acre-foot cap to \$6 per acre-foot.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 243 (SB 1226) Machado. State Grass.

Existing law declares the official State Animal, Rock, Mineral, and Bird, among other official things.

This bill would make purple needlegrass, or *Nassella pulchra*, the official State Grass.

Ch. 244 (SB 1677) Knight. Los Angeles County Flood Control District: storm drains.

Existing law, the Los Angeles County Flood Control Act, establishes the Los Angeles County Flood Control District and authorizes the district to control and conserve the flood, storm, and other wastewater of the district. The act authorizes the board of the district to accept a transfer of a storm drain improvement or drainage system lying within or outside the district if certain requirements are met. The act authorizes a city or county with a storm drain improvement or drainage system within the district to transfer the improvement or system to the district upon a  $\frac{4}{5}$  vote of the legislative body of that city or county.

This bill would authorize the district to accept these described transfers. The bill would delete the provision relating to the authority of a city or county to transfer the improvement or system to the district upon a  $\frac{4}{5}$  vote of the city's or county's legislative body. The bill would authorize the Los Angeles County Board of Supervisors, which serves as the board of the district, and the governing body of a public agency, as defined, to assign designees to carry out functions relating to the transfer and conveyance of the improvement or system to the district.

Ch. 245 (SB 1776) Bowen. Electrical energy: thermal powerplants.

Existing law provides for the restructuring of California's electric power industry so that the price for the generation of electricity is determined by a competitive market. Existing law, until January 1, 2004, required the State Energy Resources Conservation and Development Commission (Energy Commission) to establish a process for the expedited review of applications to construct and operate thermal powerplants and related facilities and for the expedited review of repowering projects.

This bill would, until January 1, 2007, reinstate those provisions for establishing a process for the expedited review of applications to construct and operate thermal powerplants and related facilities and for the expedited review of repowering projects.

Ch. 246 (SB 1840) Denham. Diseased animals: bovine tuberculosis.

Existing law generally provides for the testing of bovine animals for bovine tuberculosis and regulates bovines that react positively to tuberculin. Existing law grants specified powers to the Secretary of Food and Agriculture to carry out the provisions relating to bovine tuberculosis.

This bill would revise and recast various provisions relating to bovine tuberculosis. This bill would remove references to tuberculin from these provisions and would make conforming changes in this regard. This bill would transfer various powers to carry out the provisions relating to bovine tuberculosis from the secretary to the State Veterinarian.

Existing law makes it a misdemeanor for a person who is not an approved veterinarian to buy, possess, or use tuberculin.

The bill would instead make it a misdemeanor for any person who is not an approved veterinarian to buy, possess, or use tuberculosis tests, and for any person who is not a duly authorized representative of the Department of Food and Agriculture or the United States Department of Agriculture to possess or use tuberculosis tests. Because this bill would change the definition of an existing crime, it would impose a state-mandated local program.

Existing law authorizes the department to establish and maintain tuberculosis control areas within the state. Existing law generally requires the department to take various actions with respect to testing the cattle in a tuberculosis control area.

This bill would revise and recast the provisions relating to tuberculosis control areas. The bill would remove the above requirements from the department and would instead authorize the State Veterinarian to authorize the tuberculosis testing of any cattle in a tuberculosis control area to determine which animals are affected with tuberculosis.

Existing law requires the slaughter of bovine animals that react positively to a tuberculin test under the supervision of the secretary. Existing law specifies how the owner of the bovine shall be indemnified if an animal is slaughtered pursuant to these provisions.

This bill would require that the animals be slaughtered under the supervision of the State Veterinarian. The bill would revise how the owner is indemnified upon the slaughter of the animal.

Existing law authorizes the slaughter of exposed nonreacting animals in a herd if specified requirements are met.

This bill would repeal those provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 247 (AB 1232) Lowenthal. Firearms: conforming cross references to the Code of Federal Regulations.

Existing law generally regulates firearms. Existing law contains cross-references to federal regulations for definitional and other purposes.

This bill would conform existing cross-references to the Federal Code of Regulations in those provisions to reflect the recent renumbering of certain sections of those federal regulations.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 248 (AB 2905) Spitzer. Public safety officials.

Existing law provides that the governmental entity employing a peace officer shall reimburse moving and relocation expenses if it is necessary for him or her to move because he or she has received a credible threat that a life threatening action may be taken against him or her or his or her immediate family as a result of his or her employment.

This bill would instead provide that these provisions are applicable to peace officers, judges, court commissioners, and attorneys employed by the Department of Justice, the State Public Defender, or a county office of a district attorney or public defender. By imposing a new duty on local agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 249 (SB 749) Escutia. Court facilities: utilities: Judicial Council.

(1) Existing law requires the cost of utilities, as specified, to be included in the county facilities payment to be determined by the Controller for payment by the county to the Court Facilities Trust Fund.

This bill would revise the calculation of the cost of utilities for those purposes, as specified. The bill would impose a state-mandated local program by increasing the complexity of these calculations.

(2) Existing law establishes the State Court Facilities Construction Fund for the construction and improvement of court facilities, as specified.

This bill would establish the Court Facilities Architecture Revolving Fund, a continuously appropriated fund, to be funded by the transfer of moneys from both state funds and nonstate sources available for the construction, alteration, repair, and improvement of trial and appellate court buildings, as authorized by the Administrative Office of the Courts, and approved by the Department of Finance, as specified. Moneys transferred or deposited in the fund would be available for expenditure by the Administrative Office of the Courts, for the purposes for which they were appropriated or made available, without regard to fiscal years.

(3) Existing law requires the Judicial Council to adopt a rule of court on or before July 1, 2004, implementing provisions regarding writ review of a court order for the placement of a dependent child after parental rights have been terminated.

This bill would extend the deadline for the adoption of that rule of court until January 1, 2005.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 250 (SB 1391) Romero. Domestic violence.

Existing law provides that a judicial officer may issue an ex parte emergency protective order if a law enforcement officer asserts reasonable grounds to believe that a person, child, or elder or dependent adult is in immediate and present danger of domestic violence or abuse. Existing law excludes from the definition of law enforcement officer, for the purpose of these provisions, a peace officer of the Department of General Services of the City of Los Angeles.

This bill would include a peace officer of the Department of General Services of the City of Los Angeles in the definition of law enforcement officer for the purpose of these provisions.

Existing law requires every law enforcement agency in this state to develop, adopt, and implement written policies and standards for officers' responses to domestic violence calls requiring the arrest of an offender, absent exigent circumstances, if there is probable cause that a protective order, as specified, has been violated. Existing law excludes from the definition of law enforcement officer, for the purpose of these provisions, a peace officer of the Department of General Services of the City of Los Angeles.

This bill would include a peace officer of the Department of General Services of the City of Los Angeles in the definition of law enforcement officer for the purpose of these provisions.

Because this bill would require local agencies to provide a higher level of service, this bill would impose a state-mandated local program.

Existing law provides that a person subject to a protective order, shall not own, possess, purchase, or receive a firearm while that protective order is in effect. Existing law provides that the Judicial Council shall provide a notice on all forms requesting a protective order that the respondent shall be required to relinquish possession or control of any firearms at the hearing for a protective order. Existing law provides that if the respondent is present in court at a duly noticed hearing, the court shall order the respondent to relinquish any firearm in that

person's immediate possession or control, as specified, and if the respondent is not present at the hearing, the respondent shall relinquish the firearm within 48 hours after being served with the order.

This bill would instead require the respondent to relinquish any firearm in his or her possession or control within 24 hours of being served with the order, and further clarify these provisions by providing that the Judicial Council shall include a notice on all forms providing notice that a protective order has been requested or granted that the respondent shall be required to relinquish possession or control of any firearms upon service of the protective order.

Because this bill would change the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 251 (SB 1437) Speier. State Auditor: high-risk agencies.

Existing law establishes the Bureau of State Audits headed by the State Auditor to examine and report on financial statements of the executive branch of state government, and to perform other related duties.

This bill would authorize the State Auditor to establish a high-risk government agency audit program for the purpose of identifying, auditing, and issuing reports on any state agency that the auditor identifies as high risk for the potential of waste, fraud, abuse, and mismanagement, or that have major challenges associated with their economy, efficiency, or effectiveness. The bill would authorize the State Auditor to issue audit reports with recommendations for improvement in state agencies identified as at high risk not less than once every 2 years, and to require state agencies identified as high risk to periodically report to the auditor regarding the status of recommendations for improvement made by the auditor or other state oversight agencies.

Ch. 252 (SB 1775) Ortiz. Public buildings: disability access.

(1) Existing law, with respect to public buildings and structures, requires the State Architect to develop and submit to the California Building Standards Commission for approval and adoption, regulations and building standards relating to access for persons with disabilities that are consistent with the standards for buildings and structures contained in pertinent provisions of the latest edition of the Uniform Building Code, as adopted by the International Conference of Building Officials.

This bill instead would require the regulations and building standards developed and submitted by the State Architect to be consistent with the standards for buildings and structures contained in pertinent provisions of the latest edition of the selected model code, as adopted by the California Building Standards Commission.

(2) Existing law establishes the Disability Access Account, funded by specified fees, and continuously appropriates funds in the account to the Department of General Services for expenditures in carrying out certain responsibilities with respect to standards for access to public buildings by persons with disabilities. The authority to expend funds from the account for this purpose terminates on December 31, 2004.

This bill would delete the provisions terminating the authority to expend funds from the account for these purposes. By reauthorizing the expenditure of funds from the account, this bill would make an appropriation.

Ch. 253 (SB 1301) Vincent. Dogs and cats: spaying and neutering.

Existing law, scheduled to be repealed on January 1, 2006, generally prohibits public pounds and private shelters from selling or giving away any dog or cat that has not been

spayed or neutered; provides, under certain circumstances, for the sale or giving away of a dog or cat that has not been spayed or neutered upon the payment of a refundable deposit, as specified; provides for the imposition of fines or civil penalties against the owner of a nonspayed or unneutered dog or cat that is impounded by a public pound or private shelter; and immunizes cities and counties, societies for the prevention of cruelty to animals, and humane societies from an action by the owner of a dog or cat for spaying or neutering the dog or cat in accordance with the law.

This bill would repeal the scheduled repeal date on these provisions. By extending the period of time in which local public pounds have duties under these provisions, this bill would impose a state-mandated local program upon local governments.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 254 (SB 1306) Ackerman. Corporations: partnerships: limited liability companies: electronic transmissions.

Existing law sets forth requirements for the governance of various business entities, including corporations, partnerships, and limited liability companies.

This bill would authorize certain transactions and communications to and from these business entities to be conducted by electronic transmission under certain conditions. The bill would enact other related provisions.

Ch. 255 (SB 1517) Ashburn. Retroactive high school diplomas for veterans.

Existing law sets forth the requirements for the issuance of high school diplomas or equivalency certificates. Existing law authorizes a school district that maintains a high school to grant a high school diploma to a veteran that is a resident of California if the governing board of that district is satisfied that that veteran has completed the equivalent of the requirements for graduation from high school.

Existing law, notwithstanding any other provision of law to the contrary, authorizes a high school district, unified school district, or county office of education, to retroactively grant a high school diploma to a former pupil who was interned in the United States by order of the federal government during World War II, as provided.

This bill would extend that authorization to retroactively granting a high school diploma to a former pupil who is a veteran of World War II, the Korean War, or the Vietnam War, or their next of kin, as provided. The bill would also make various technical, nonsubstantive, and conforming changes.

Ch. 256 (SB 1643) Murray. Black History Month.

Existing law requires the Governor to proclaim various days as holidays and days of remembrance.

This bill would require the Governor to proclaim the month of February as Black History Month each year.

Ch. 257 (SB 1771) Scott. School district governing boards: meetings.

Existing law requires meetings of the governing board of a school district to be held within the district except under certain circumstances, including, but not limited to, a meeting for the purpose of interviewing members of the public residing in another district with reference to the trustees' potential employment of the superintendent of that district.

This bill would also permit a meeting to be held in another district to interview members of the public residing in another district with reference to the potential employment of an applicant for the position of superintendent of the district.

Ch. 258 (SB 1651) Morrow. Veterans memorial: S.S. Baton Rouge Victory Memorial Plaque.

Existing law, enacted in 1990, provides for the construction of a memorial plaque on the grounds of the State Capitol for the 6 crew members of the S.S. Baton Rouge Victory who were lost at sea in 1996. Existing law requires the construction of this plaque to be funded by private contributions received by the Department of General Services and deposited into a fund for that purpose. Existing law also requires the Department of General Services to approve the design and location of the plaque, as specified.

This bill would repeal these provisions relating to the plaque.

Ch. 259 (SB 1764) Speier. Immunization information systems.

Existing law governing communicable disease prevention and immunization authorizes local health officers to operate immunization information systems. Existing law authorizes health care providers, as defined, other agencies, and the State Department of Health Services to disclose or share immunization-related information concerning individual patients, unless the patient refuses to consent to the sharing of this information.

This bill would expand the entities authorized to disclose this immunization information to include foster care agencies, as defined, and government-funded programs that have as their purpose paying the costs of health care. The bill would revise the procedures for allowing a patient, or parent or guardian of a patient, to refuse permission to share the information. The bill would authorize any party authorized to make medical decisions for a patient or client to permit recordsharing with an immunization information system. This bill would require the department to assist its Immunization Branch with respect to issues relating to publicly funded immunizations.

Ch. 260 (SB 1816) Vincent. School employees: termination.

Existing law permits a school district or county superintendent of schools to reduce its number of employees, subject to certain requirements, whenever enrollment drops below certain levels, and requires a school district or county superintendent of schools to give notice to the employee before the 15th of May that his or her services will be terminated at the close of the current school year.

This bill would authorize a county superintendent of schools in a county that meets certain population requirements, for the purpose of making reductions initiated during the 2004–05 school year in the number of county employees because of a reduction in services or elimination of a juvenile camp program, to retain the county employees until the effective date of the closure or reduction in services of that juvenile camp program.

Ch. 261 (AB 1073) Dutton. Personal income tax: exemption: military death gratuity.

The Personal Income Tax Law imposes a tax on individual taxpayers measured by the amount of the taxpayer's taxable income for the taxable year, but excludes certain items of income from the computation of tax.

The Personal Income Tax Law generally conforms with the provisions of the federal income tax law, except as otherwise specified. Existing federal law excludes from the computation of taxable income the entire amount of death gratuity income received by the living survivor of military personnel for the taxable year in which the death gratuity is received.

This bill would, in conformance with the Military Family Tax Relief Act of 2003, exclude the entire amount of the death gratuity income received by living survivors of military personnel who lost their lives on or after September 11, 2001. This bill would provide that the retroactive application of the provisions of this bill serves a public service, and is necessary to provide equitable treatment to California survivors of military personnel who lost their lives in defense of their country.

This bill would take effect immediately as a tax levy.

Ch. 262 (AB 1091) Negrete McLeod. Reportable diseases.

Existing law requires the State Department of Health Services to establish a list of reportable diseases, which may include both communicable and noncommunicable diseases. Existing law authorizes the department to change the list at any time.

This bill would require the list to include reportable conditions and the urgency of reporting each disease and condition. The bill would require the department to consult with the California Conference of Local Health Officers before making a change to the list. The bill would exempt modifications to the list from certain existing law provisions relating to the adoption of administrative rules and regulations.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 263 (AB 1554) Keene. School finance: emergency apportionments and lease financing.

(1) Existing law provides for emergency apportionments made by the state to school districts that are experiencing financial problems or that become insolvent and requires that the emergency apportionment be repaid to the state over a 5-year period together with interest.

This bill would make the emergency apportionments through either lease financing made available by the California Infrastructure and Economic Development Bank, which would be authorized to issue bonds for purposes of the emergency apportionments and related costs, or an apportionment from the General Fund designed to provide an advance of apportionments owed to the district from the State School Fund. In the case of lease financing, the lease would not exceed 20 years. In the case of an apportionment from the General Fund, the repayment period would not exceed 20 years.

The bill would require the Controller, in the case of a lease financing, to make rent payments to the California Infrastructure and Economic Development Bank for the school district only from moneys in the State School Fund designated for apportionment to the school district pursuant to revenue limit funding provisions, and those amounts would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(2) The bill would authorize the West Contra Costa Unified School District and the Oakland Unified School District to use lease financing to repay their existing emergency apportionments. The bill would also provide that the emergency loan made to the Vallejo City Unified School District through legislation enacted during the 2003–04 Regular Session is deemed an interim loan and would require the interim loan to be repaid with proceeds of a lease financing. The bill would require the executive director of the bank to annually notify the Controller of the actual amount of the difference between the cost of the lease financing for these 3 districts compared to the cost of the original emergency loan for each district and to issue a warrant to each school district in that amount. The bill would require the Controller to annually transfer that amount from Section A of the State School Fund to pay the warrants. The funds appropriated by this provision would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

The bill would appropriate \$100,000 from the California Infrastructure and Economic Development Bank Fund to the California Infrastructure and Economic Development Bank to establish one personnel year in order to fulfill the requirements of the emergency apportionment financing authorized by the bill.

(4) Existing law requires a school district to bear 60%, and the county office of education to bear 40% of all costs associated with implementing the conditions associated with receiving an emergency apportionment.

This bill, instead, would require the qualifying district to bear 100% of those costs.

(5) This bill would make a legislative finding and declaration that the unique circumstances of the West Contra Costa Unified School District and the Vallejo City Unified School District warrant the enactment of a special statute.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 264 (AB 1969) Negrete McLeod. California State University: University of California: courses in employee ethics.

Existing law establishes the California State University and its various campuses under the administration of the Trustees of the California State University. Existing law establishes the University of California and its various campuses under the administration of the Regents of the University of California. Existing law authorizes the trustees and the regents to hire employees to carry on the functions of their respective university systems.

This bill would require the trustees, and urge the regents, to offer, on at least a semiannual basis, to each member, officer, or designated employee who, because of his or her affiliation with their respective universities, is required to file a Statement of Economic Interests under the Political Reform Act of 1974, an orientation course on the relevant ethics statutes and regulations that govern the official conduct of university officials.

Ch. 265 (AB 2186) Leslie. Natural resources: California Tahoe Conservancy.

Existing law establishes the California Tahoe Conservancy as a state agency within the Resources Agency and authorizes the conservancy to select and acquire real property or interests therein in the name of and on behalf of the state for the purposes of protecting the natural environment, providing public access or public recreational facilities, preserving wildlife habitat areas, or providing access to or management of acquired lands. The conservancy is authorized to award grants to local public agencies, state agencies, federal agencies, federally recognized Indian tribes, the Tahoe Transportation District, and nonprofit organizations for these purposes.

This bill would provide that the relocation by a local public agency of a water or sewer-related infrastructure owned by a publicly owned utility shall be considered an eligible expense by the conservancy for the purpose of awarding soil erosion grant funds, as specified.

Ch. 266 (AB 2364) Correa. State pension systems: credit enhancement.

Existing law declares that the retirement boards of public pension and retirement systems have fiduciary responsibility over the assets of the public pension or retirement system.

This bill would authorize state pension systems to establish credit enhancement programs to assist issuers of municipal and public finance debt, as specified.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 267 (AB 2480) Campbell. Personal income tax and corporation tax: administration: e-filing.

Existing law imposes an income tax on individuals, businesses, and corporations. The Franchise Tax Board is the agency responsible for the collection and administration of these income taxes. Effective for income tax returns filed on or after January 1, 2004, all individual income tax returns prepared by specified income tax preparers that, during the prior calendar year, prepared more than 100 personal income tax forms, are required to be electronically filed in the subsequent calendar year, and each calendar year thereafter. Existing law imposes a penalty on a subject income tax preparer in the amount of \$50 for each personal income tax return that does not comply with this requirement.

This bill would repeal the penalty provision effective January 1, 2004, and would, instead, impose a similar penalty on specified income tax preparers for failure to file specified tax returns electronically on or after January 1, 2005.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 268 (AB 2711) Leno. Public Employees' Retirement System: transfer agreements.

Existing law authorizes the Board of Administration of the Public Employees' Retirement System to enter into an agreement with the board of retirement of specified county retirement systems subject to the County Employees Retirement Law of 1937 for the transfer of assets and liabilities from the Public Employees' Retirement System to the county retirement system with respect to safety members who have ceased to be employed by a public agency or the state and who have been employed by a county, fire authority, or district as a result of a transfer of firefighting or law enforcement functions.

This bill would authorize the Board of Administration of the Public Employees' Retirement System to enter into such an agreement with the retirement board of the San Francisco City and County Employees' Retirement System with respect to safety members who are now employed by the city and county or the local fire authority or district as a result of a transfer of firefighting or law enforcement functions.

Ch. 269 (AB 2755) Strickland. Ventura County Watershed Protection District: nuisance abatement.

(1) Existing law, the Ventura County Watershed Protection Act, creates the Ventura County Watershed Protection District and grants to that district authority that includes the control of floodwater and stormwater. The act authorizes the district to establish a procedure for the abatement of a violation of certain ordinances enacted by the district as a public nuisance.

This bill would grant to the board of the district the authority to establish a procedure for nuisance abatement in accordance with specified provisions applicable to a county, including the authority to recover attorney's fees, to cause a notice of abatement lien to be recorded against the parcel upon which the nuisance exists, and to enforce the lien by collection in the same manner as county taxes. The bill would specify that an abatement lien created pursuant to that procedure would be subject to the existing provisions applicable to a county, and would have no greater priority than a lien created pursuant to those existing provisions.

By increasing the duties of local public entities in connection with the imposition and enforcement of a lien, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 270 (AB 2791) Simitian. Skilled nursing and intermediate care facilities: training.

Existing law requires a skilled nursing and intermediate care facility to adopt an approved training program that meets standards established by the State Department of Health Services.

Existing law requires that 6 hours of precertification classroom training focus on preventing, recognizing, and reporting resident abuse. Existing law requires that 4 hours of continuing education and in-service training for certified nursing assistants address preventing, recognizing, and reporting resident abuse. Violation of these requirements is a crime under existing law.

This bill would, in addition, require one hour of precertification classroom training addressing the prevention, recognition, and reporting of residents' rights violations. This bill would provide that the continuing education and in-service training for certified nursing assistants include instruction on preventing, recognizing, and reporting residents' rights violations. By changing the definition of a crime, this bill would impose a state-mandated local program.

Existing law authorizes a resident or patient of a skilled nursing facility or intermediate care facility to bring a civil action against the licensee of a facility that violates any rights of the resident or patient as set forth in the Patients Bill of Rights.

This bill would, in addition, authorize a current or former resident or patient of a skilled nursing facility or intermediate care facility to bring a civil action against the licensee of a facility that violates any right of the resident or patient provided for by federal or state law or regulation.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 271 (AB 2839) Daucher. Nursing schools.

Existing law, the Nursing Practice Act, establishes the Board of Registered Nursing.

This bill would require the board to establish a workgroup or use an existing committee to encourage and facilitate transfer agreements or other enrollment models between associate degree and baccalaureate degree nursing programs.

Ch. 272 (AB 2885) Jerome Horton. School safety plans.

Existing law makes each school district and county office of education responsible for the overall development of comprehensive school safety plans for their schools operating kindergarten and any of grades 1 to 12, inclusive.

Existing law authorizes the filing of a complaint of noncompliance with the school safety plans under the Uniform Complaint Procedures.

This bill would, instead, authorize the filing , under those procedures, of a complaint of noncompliance with the school safety planning requirements of the federal No Child Left Behind Act of 2001.

Ch. 273 (SB 1181) Margett. Public officials: bond: insurance.

Under existing law, unless otherwise provided, every official bond is required to be filed in the proper office within the time prescribed for filing the oath.

This bill would authorize a specified insurance policy to be provided as an alternative to the official bond by any county or city, as specified.

Ch. 274 (SB 1189) Chesbro. Department of Transportation: contracts.

Existing law provides that the Department of Transportation has full possession and control of all state highways and all property and rights in property acquired for state highway purposes. Existing law authorizes the department to enter into contracts required for the performance of its duties.

This bill would include certain contracts with federally recognized Indian tribes within the department's authority, and would require off-reservation traffic mitigation contracts with those tribes to meet certain conditions.

Ch. 275 (SB 1647) Perata. Alcoholic beverages: licensees: advertising restrictions.

(1) Existing law generally prohibits a manufacturer of alcoholic beverages and a winegrower from paying, crediting, or compensating a retailer for advertising or paying or giving anything of value for the privilege of placing a sign or advertisement with a retail licensee. It authorizes, as an exception, the holder of a beer manufacturer's or winegrower's license, or a distilled spirits manufacturer or a distilled spirits manufacturer's agent, to purchase advertising space and time from, or on behalf of, an on-sale retail licensee, under certain conditions, if the on-sale retail licensee is the owner, manager, agent, assignee, or major tenant of a specified facility.

This bill would extend that exception to an on-sale licensee who is a distilled spirit rectifier, as provided, or the owner, manager, agent of the owner, assignee of the owner's advertising rights, or the major tenant of the owner of an outdoor stadium or a fully enclosed arena with a fixed seating capacity in excess of 10,000 seats located in Alameda County.

This bill would make findings regarding the need for special legislation.

(2) Existing law makes it a misdemeanor for licensees and other persons to violate existing provisions relating to the purchase of that advertising space or time.

This bill would impose a state-mandated local program by expanding the licensees subject to these criminal provisions.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 276 (AB 1780) Committee on Governmental Organization. Gambling establishments.

The Gambling Control Act provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission. The act defines certain terms, including the phrase "finding of suitability," which provides, among other things, that the person applying for the license not be disqualified on specified grounds. A recent legislative enactment, Chapter 738 of the Statutes of 2002, reorganized various sections and article headings within the act.

This bill would make a technical change in the definition of the phrase "finding of suitability." The bill would also renumber a provision within the Gambling Control Act to correct its placement among those reorganized sections and make conforming changes to it in accordance with that legislative enactment.

Ch. 277 (AB 2397) Shirley Horton. Public contracts: debarment and suspension.

Under existing law, a supplier or contractor with a state agency may be suspended or debarred from future bidding and contracting for periods between 3 months and 2 years, depending on the basis of the suspension or debarment. A contractor that performs unsatisfactorily under a contract for acquisition of information technology may be excluded from bidding for up to 360 days, and a contractor that has demonstrated lack of reliability in completing contracts may be removed from the list of qualified bidders for up to 360 days.

This bill would permit a contractor to be ineligible to transact any business for not less than 6 months or more than 36 months for specified grounds, including unsatisfactory contract performance, unwillingness to honor a binding bid or contract, and multiple strikes.

This bill would authorize the Department of General Services to temporarily remove a bidder or a supplier, that has demonstrated lack of reliability in completing contracts, from bidding for up to 36 months, as specified.

This bill would also make conforming, technical, and clarifying changes.

Ch. 278 (AB 2538) Strickland. Horse racing: harness horse races.

Existing law provides for a California Standardbred Sire Stakes Program that, among other things, enhances the purses in certain races for the California standardbred horses.

This bill would change the definition of a California standardbred horse for these purposes to a standardbred foal conceived in California by a stallion registered with the California Standardbred Sire Stakes Program, deleting the requirements in existing law that the mare drop the horse in California after the conception.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 279 (AB 2557) Koretz. Insurance: licensing.

Existing law makes it a misdemeanor to act, offer to act, or assume to act in a capacity for which a license as an insurance agent, broker, solicitor, or life agent is required without being properly licensed to do so. This misdemeanor is punishable by imprisonment of not more than 6 months in a county jail, a fine of not more than \$1,000, or both that imprisonment and fine.

This bill would make the transaction of insurance without a valid license punishable as a misdemeanor by imprisonment in a county jail for not more than one year, a fine of not more than \$50,000, or both that fine and imprisonment.

By increasing the time that could be served for the offense as a misdemeanor, this bill would impose new local incarceration costs, thereby imposing a state-mandated local program.

Existing law generally regulates the issuance of insurance licenses and the conduct of licensees. Existing law allows the Insurance Commissioner to deny an application for an insurance license, or to suspend or revoke an existing license, for specified reasons. Existing law requires licensees to notify the commissioner of certain changes in the information provided on an application.

This bill would require an applicant or licensee to notify the commissioner in writing, within a specified period, when certain background information changes after the application has been filed or the license has been issued, and would require certain licensees to provide this notice to other specified persons. It would also require a business entity licensee, upon learning of a change in background information pertaining to any unlicensed person listed on its business entity license or application therefor, to notify the commissioner of that change.

The bill would allow the commissioner to adopt regulations with respect to these requirements.

Existing law requires that the Department of Insurance require all new applicants for a license as a fire and casualty broker-agent, personal lines broker-agent, or life agent to meet specified prelicensing education standards. Existing law requires the Insurance Commissioner to appoint a curriculum board consisting of representatives of insurance agents, brokers, and life agents trade associations and representatives of insurance companies and consumer groups to develop the prelicensing and continuing education curriculum, including a list of preapproved courses of study, and to develop standards for providers and instructors of prelicensing and continuing education courses, programs, and seminars. The curriculum developed, the courses of study, and the standards for providers and instructors approved by the board are required to be submitted to the commissioner for final approval. In addition, existing law provides that whenever the commissioner has reasonable cause to believe, and determines after public hearing, that any approved course, program of instruction, or seminar is being conducted so as to fail to meet the commissioner's prelicensing or continuing education curriculum, or any provider or instructor for any course, program, or seminar has failed to comply with the commissioner's standards, the commissioner may make and serve upon the provider or instructor of that course, program, or seminar an order or orders rescinding approval for that course, program, or seminar.

This bill would, in addition, authorize the commissioner to make and serve an order rescinding approval for a provider who fails to comply with the commissioner's standards. The bill would also authorize the commissioner to impose fines and penalties, as specified, for failure to comply with the commissioner's standards.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 280 (AB 2844) La Suer. Motorcycle: handlebars.

Existing law prohibits a person from driving a 2-wheel motorcycle that is equipped with handlebars so positioned that the hands of the driver, when upon the grips, are at or above his or her shoulder height when sitting astride the seat.

This bill would, instead, prohibit a person from driving a 2-wheel motorcycle that is equipped with handlebars so positioned that the hands of the driver, when upon the grips, are more than 6 inches above his or her shoulder height.

Ch. 281 (AB 2866) Frommer. Workers' compensation: fraud.

Existing law prohibits certain fraudulent acts in connection with insurance claims. A violation of these provisions is a crime.

This bill would require the department, with respect to each person, as defined, convicted of a violation of any of these insurance fraud provisions involving workers' compensation insurance, services, or benefits, to post on its Internet Web site information relating to the case and the defendant.

Ch. 282 (AB 3016) Pavley. Privacy: social security numbers.

Existing law prohibits a person or entity, with specified exceptions, from publicly posting or displaying an individual's social security number or doing certain other acts that might compromise the security of an individual's social security number. In this regard, existing law permits a person or entity that has used a person's social security number prior to July 1, 2002, in a manner that is otherwise prohibited, to continue to use the person's social security number in that manner if certain conditions are met, including the condition that the use be continuous.

This bill would, operative July 1, 2006, remove the exception for continuous use from the provisions described above.

Ch. 283 (SB 1847) Perata. Omnibus Tuberculosis Control and Prevention Act.

Existing law establishes the Omnibus Tuberculosis Control and Prevention Act of 2002 which, among other things, until January 1, 2006, permits any local health department to provide for certification, by the local health officer, of tuberculin skin test technicians.

This bill would extend the repeal date of these provisions, until January 1, 2011.

This bill would require each city or county that elects, on or after January 1, 2005, to certify tuberculin skin test technicians to submit a survey and an evaluation of its findings, including a review of the aggregate report, to the California Tuberculosis Controllers Association annually, to and including January 1, 2011.

This bill would, until January 1, 2011, require a participating local health officer who determines that an adverse event resulted from improper tuberculin test technician training or performance to report that information to the Tuberculosis Control Branch within the State Department of Health Services.

Ch. 284 (SB 1092) Committee on Local Government. Validations.

This bill would enact the Second Validating Act of 2004, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 285 (SB 1093) Committee on Local Government. Validations.

This bill would enact the Third Validating Act of 2004, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

Ch. 286 (SB 1264) Committee on Natural Resources and Wildlife. Natural resources.

(1) Existing law requires the Department of Boating and Waterways to make a grant of funds to Lake County to conduct a pilot project until December 31, 1999, of aquatic weed control on Clear Lake in Lake County, under specified conditions.

This bill would repeal that provision.

(2) Existing law requires the Department of Boating and Waterways and the State Coastal Conservancy, not later than January 1, 2002, to prepare and submit to the Legislature a specified report relating to the California Public Beach Program.

This bill would repeal that provision.

(3) Existing law, until January 1, 2005, authorizes the Department of Finance to delegate to the Department of Parks and Recreation the right to exercise the same authority granted to the State Architect and the Real Estate Services Division in the Department of General Services, to plan, design, construct, and administer contracts and professional services for legislatively approved capital outlay projects, but permits the Department of Finance, until that date, to revoke, at any time, in whole or in part, any of that authority granted to the department.

This bill would extend the repeal date until January 1, 2009, thereby extending the delegation authority of the Department of Finance until that date.

(4) Existing law establishes the Parks Project Revolving Fund in the State Treasury, and requires, upon approval of the Department of Finance, except as provided, the transfer to, or deposit in, the fund of all moneys appropriated, contributed, or made available from any source, including sources other than state appropriations, for expenditure on work within the powers and duties of the department with respect to the construction, alteration, repair, and improvement of state park facilities, as specified.

Under existing law, these provisions become inoperative on a date that is 3 years after the date that Section 5018.1 of the Public Resources Code is repealed, and are repealed on the following January 1.

This bill would extend the inoperative date until January 1, 2012, and the repeal date until January 1, 2013. With respect to the Department of Parks and Recreation filing claims against the fund for expenditures, the bill would delete a provision requiring the Controller to draw his or her warrant against the fund.

(5) Existing law requires the Department of Parks and Recreation to implement and administer various programs designed to preserve, protect, and promote historical resources in the state. The California Indian Cultural Center and Museum Task Force exists within the department to assist the department in developing a California Indian Cultural Center and Museum.

This bill would rename that task force the California Indian Heritage Center Task Force, to assist in the development of the California Indian Heritage Center.

This bill also would make technical, nonsubstantive changes to correct the numbering of provisions with respect to the task force and the Native American Historic Resource Protection Act.

(6) Existing law requires the State Lands Commission to conduct specified research related to seeps of oil, dry gas, and other hydrocarbon products offshore, and requires the commission to report to the Legislature by January 1, 1978, the results of the research.

The bill would repeal that provision.

(7) Existing law requires the State Lands Commission on or before December 31, 1981, to submit to the Legislature a report relating to ungranted tidelands requiring a commission survey.

The bill would delete the date by which the commission is required to submit the report.

(8) Existing law requires the Ventura-Los Angeles Mountain and Coastal Study Commission to submit a final report of its activities to the Governor and the Legislature on or before March 8, 1972.

The bill would repeal that provision.

(9) Existing law requires the State Energy Resources Conservation and Development Commission to prepare a report examining the benefits to the people of the state from specified projects, and to submit the report to the Legislature on or before January 1, 1990.

The bill would repeal that provision.

(10) Existing law requires the Delta Protection Commission to prepare and submit to the Governor and the Legislature, on or before December 31, 1993, a report relating to funding for its activities and operations.

The bill would delete that provision.

(11) Existing law authorizes Orange County or any landowner to petition the Department of Fish and Game, on or before October 1, 1983, to prepare a habitat conservation plan pertaining to the Bolsa Chica Wetlands, and requires the department and the State Coastal Conservancy, upon receipt of the petition, to prepare a habitat conservation plan, as specified, for submission to the California Coastal Commission.

The bill would repeal that provision.

Ch. 287 (SB 1621) Machado. Teacher credentialing: district interns.

Existing law authorizes the Commission on Teacher Credentialing, until January 1, 2008, to issue district intern credentials authorizing persons employed by any school district to provide classroom instruction to pupils with mild and moderate disabilities in special education classes.

This bill would require the commission to participate in a pilot program, which may include the San Joaquin County Office of Education and up to 5 school districts or consortia, to provide teacher preparation programs for teachers of pupils with disabilities in special education classes and would authorize the commission to issue district intern credentials authorizing participants in the programs to provide classroom instruction to pupils with disabilities in special education classes.

Ch. 288 (SB 1687) Murray. Advance-fee talent services.

Existing law regulates agreements for advance-fee talent services, as defined, and includes the right to a refund of any advance fee paid and the right to cancel any contract for advance-fee talent services. Persons engaging in the business of advance-fee talent services are required to provide a written disclosure to the artist, file a bond with the Labor Commissioner, and maintain specified records. Advance-fee talent services are prohibited from, among other things, charging an artist for photographs or lessons. Under existing law, any person who willfully violates any of these provisions is guilty of a misdemeanor.

This bill would revise the definition of advance-fee talent service to include a person who charges, attempts to charge, or receives an advance fee from an artist for specified services, or for the purchase of any other product or service, including, but not limited to, creating or providing photographs or providing lessons, coaching, or similar training, in order to obtain from or through the advance-fee talent service one or more of the specified services. The bill would expand the list of services specified for purposes of this definition to include procuring, offering, promising, or attempting to procure auditions for the artist. By expanding the scope of an existing crime by making the crime applicable to a new category of persons, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 289 (SB 1516) Machado. Parole: hearings.

Existing law, added by initiative statute requiring a  $\frac{2}{3}$  vote of each house for amendment, provides that the Board of Prison Terms must give notice of a parole suitability hearing for a prisoner, upon request, to a victim or next of kin if the victim has died. Under existing law,

those people, or two members of the victim's immediate family, have the right to appear and express their views for consideration by the board in its decision on parole for the prisoner.

This bill would alternatively provide two representatives designated for a particular hearing by the victim, or if the victim is deceased or incapacitated, by the next of kin, in writing prior to the hearing with the right to appear and express their views for consideration by the board in its decision on parole for the prisoner, except that any statement provided by a representative designated by the victim or next of kin would be limited to comments concerning the effect of the crime on the victim. These designees would be limited to specified categories of persons, and would be permitted to provide testimony only in the absence of the victim, next of kin, or immediate family members, as specified.

Existing law provides that the board may permit the victim, next of kin, or immediate family members, in lieu of appearance, to file with the board a written, audiotaped, videotaped, or similarly documented sentencing or other statement expressing their views of the crime and the person responsible.

This bill would require the board to permit those statements from a victim, next of kin, or immediate family members in lieu of appearance, and would alternatively require the board to permit two representatives designated for a particular hearing by the victim or next of kin in writing prior to the hearing to file written, audiotaped, or videotaped statements. However, the statements of designated representatives would be limited to comments concerning the effect of the crime on the victim and the designees would be limited to specified categories of persons.

Existing law permits a victim, next of kin, or family member authorized to appear at parole suitability hearings in person or through recorded statements, as provided above, to also appear by videoconferencing, where available.

This bill would extend this teleconferencing authorization to representatives designated for a particular hearing by the victim or next of kin in writing prior to the hearing.

Because it would amend the initiative measure, this bill requires a  $2/3$  vote.

Ch. 290 (AB 1956) Wolk. Diversion: developmentally disabled defendants.

Existing law provides procedures whereby a mentally retarded defendant, who is being prosecuted for an offense charged as, or reduced to, a misdemeanor, and who has not had a case similarly handled within 2 years prior to the current criminal proceedings, can be diverted for treatment and habilitation specifically related to his or her individual developmental needs and the charged offense or offenses. This law provides for conditions, progress monitoring, and specific time periods for the diversion program, and requires either the resumption of the criminal process or the dismissal of the charge or charges at the completion of the program, as specified.

This bill would expand this program's availability by applying it to those persons with cognitive developmental disabilities rather than only mental retardation, a term that would also permit persons with autism, or with disabling conditions found to be closely related to mental retardation or autism, or persons requiring treatment similar to that required for individuals with mental retardation or autism, as specified, to enter this diversion program and to receive services under the program if they are regional center clients at the time of a charged offense. The bill would also make conforming and technical changes in these provisions.

By expanding the availability of a program that provides for services by local probation offices and regional centers for people with developmental disabilities, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 291 (AB 2037) La Suer. Alcoholic beverages and controlled substances: minors.

The Alcoholic Beverage Control Act makes it a misdemeanor for any person under the age of 21 years to purchase any alcoholic beverage or consume any alcoholic beverage in any on-sale premises. The act also makes it a misdemeanor for any person who sells, furnishes, gives, or causes to be sold, furnished, or given away, any alcoholic beverages to any person under the age of 21. Existing law provides that any person who violates that provision by purchasing an alcoholic beverage for a person under the age of 21, and the person under the age of 21 thereafter consumes the alcohol and proximately causes great bodily injury or death, as specified, is guilty of a misdemeanor, and shall be punished by imprisonment, a fine not exceeding one thousand dollars (\$1,000), or both.

This bill would expand that provision to include any person who furnishes, gives, or gives away any alcoholic beverage to a person under the age of 21 years, as specified. This bill would also provide that the penalties imposed under this provision do not preclude prosecution under any other provision of law.

By changing the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 292 (AB 2749) Dutton. Child abuse and neglect investigations: child welfare training program.

The Child Abuse and Neglect Reporting Act (CANRA) requires designated professionals, known as mandated reporters, who have contact with children to report to law enforcement agencies known or suspected child abuse or neglect.

This bill would require a person performing an investigation that results from a report made pursuant to CANRA to, at the time of initial contact with the person subject to the investigation, advise the person of the complaints or allegations made against him or her in a manner that is consistent with law protecting the identity of a reporter under the act.

Existing law requires the State Department of Social Services to select and award a grant to a private nonprofit or public entity for the purpose of establishing a statewide multipurpose child welfare training program.

Existing law provides that the purpose of the program is to develop and implement statewide coordinated training programs designed specifically to meet the needs of county child protective services social workers assigned emergency response, family maintenance, family reunification, permanent placement, and adoption responsibilities. Existing law also states the intent of the Legislature that the program include training for other agencies under contract with county welfare departments to provide child welfare services, and, in addition, to provide training programs for persons defined as a mandated reporters pursuant to CANRA. Existing law sets forth the subjects to be included in the training provided.

This bill would add to these subjects the legal duties of a child protective services social worker, in order to protect the legal rights and safety of children and families from the initial time of contact during investigation through treatment.

Ch. 293 (AB 99) Cox. Criminal procedure.

Existing law authorizes the Department of Corrections to arrange for initial court appearances and arraignments to be conducted by two-way electronic audiovideo

communication between the defendant and the courtroom in lieu of the physical presence of the defendant in the courtroom, in all cases in which the defendant is charged with a misdemeanor or a felony and is currently incarcerated in the state prison. Existing law also authorizes the court to issue an order requiring the defendant to be physically present in the courtroom in those cases where the court finds circumstances that require the physical presence of the defendant in the courtroom.

This bill would authorize the department, in all cases in which the defendant is charged with a misdemeanor or a felony and is currently incarcerated in the state prison, to arrange for all court appearances, except for preliminary hearings, trials and certain other matters, to be conducted by two-way electronic audiovideo communication between the defendant and the courtroom in lieu of the physical presence of the defendant in the courtroom. The authority of the court to issue an order requiring the defendant to be physically present in the courtroom in those cases where the court finds circumstances that require the physical presence of the defendant in the courtroom would be retained. The bill would also require the department, for those appearances that the department determines to conduct by two-way electronic audiovideo communication between the superior court and a state prison facility located in the county, to provide properly maintained equipment and adequately trained staff for that purpose.

#### Ch. 294 (AB 539) Laird. Dentistry: dental hygienists.

Existing law provides for the regulation of dental auxiliaries by the Committee on Dental Auxiliaries, under the jurisdiction of the Dental Board of California. Existing law defines the practice of dental hygiene and authorizes a dental hygienist to perform specified procedures under direct, general, and no supervision. Existing law, with specified exceptions, prohibits a person other than a licensed dental hygienist or a licensed dentist from engaging in the practice of dental hygiene or the performance of dental hygiene patient procedures.

This bill would require the board, until January 1, 2009, to license a 3rd- or 4th-year dental student who meets specified requirements and is in good standing in an accredited California dental school as a registered dental hygienist. The bill would specify that these students may practice as registered dental hygienists only in dental practices that serve patients insured by Denti-Cal, the Healthy Families Program, or other government programs, or that charge fees based on income. The bill would provide that the licenses of these students would be granted for 2 years, without the ability for renewal, and would automatically be revoked when a license to practice dentistry is received.

Existing law provides that the fee for examination for licensure as a registered dental hygienist shall not exceed \$220, and provides that the fee shall be deposited in the State Dental Auxiliary Fund, which is continuously appropriated.

This bill would specify that for 3rd- or 4th-year dental students, the fee for examination for licensure as a registered dental hygienist shall not exceed the actual cost of the examination. The bill would also appropriate specified sums from the State Dental Auxiliary Fund to the Committee on Dental Auxiliaries for operating expenses necessary to manage the dental hygiene licensing examination.

Because the bill would appropriate moneys from the State Dental Auxiliary Fund for a new purpose, and because the bill would add a new source of revenue for deposit into a continuously appropriated fund, it would make an appropriation.

#### Ch. 295 (AB 911) Longville. Local emergency telephone number system: 911.

Existing law requires each local public agency to establish and have in operation within its jurisdiction a telephone service that automatically connects a person dialing the digits "911" to an established public safety answering point through normal telephone service facilities.

This bill would make the use of or knowingly allowing the use of the 911 telephone system for purposes other than for an emergency, as defined, an infraction, punishable by specified

finances, with specified exceptions. The bill would also state findings and declarations by the Legislature.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 296 (AB 1356) Cohn. Tourism: Office of Tourism.

The California Tourism Marketing Act established the Office of Tourism within the Technology, Trade, and Commerce Agency and required the office to designate a statewide network of California Welcome Centers. The act was repealed and reenacted effective January 1, 2004, to establish the office in the Business, Transportation and Housing Agency.

This bill would require the Office of Tourism, as established in the Business, Transportation and Housing Agency, to designate that statewide network. This bill would authorize the office to collect fees from any entity operating a California Welcome Center to cover the costs of the state in implementing these provisions, to be deposited in the Welcome Center Fund, which would be established by the bill, to be available, upon appropriation by the Legislature, to the office for these purposes.

The bill would appropriate \$55,000 from the Welcome Center Fund to the office for the purposes of the bill for the 2004–05 fiscal year, with any unencumbered balance as of June 30, 2005, to revert to the fund.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 297 (AB 1530) Negrete McLeod. Prisoners: community treatment program.

Existing law requires the Department of Corrections to establish and implement a community treatment program under which women inmates sentenced to state prison who have one or more children under the age of 6 years shall be eligible for release with their children to a public or private facility in the community suitable to their needs. Existing law provides that the Department of Corrections shall admit to the program any applicant whose child was born prior to receipt of the inmate by the department, and may, in its discretion, and if there is space available, admit a pregnant inmate meeting admission criteria. Existing law also requires the department to provide pediatric care to children residing in a community treatment program.

This bill would provide that the Department of Corrections shall admit to the program any applicant who meets admission criteria, as specified, whose child was born prior to or after her incarceration, or who is pregnant. This bill would require the Department of Corrections to ensure that mothers and children residing in community treatment programs have access to and assistance in participating in available local Head Start, Healthy Start, and programs for childhood development under the California Children and Families Program, but the bill would provide, in addition, that nothing in its provisions shall be construed as granting or requiring preferential access or enrollment for children of incarcerated mothers to any of the specified programs.

Ch. 298 (AB 1986) Wolk. Placement of children: background checks.

Existing law generally provides that if a fingerprint clearance check indicates that a person has been convicted of a crime, as specified, a child who has been removed from the home of his or her parents may not be placed in the home of that person. However, existing law also provides an exception to that prohibition, only until January 1, 2005, if the county has granted a criminal records exemption based on substantial and convincing evidence to support a reasonable belief that the person with the criminal record is of such good character as to justify the placement and not present a risk of harm to the child, as specified. For purposes of that provision, a county may issue a criminal records exemption only if the

county has been granted permission by the Director of Social Services to issue criminal records exemptions. Existing law authorizes a county to file a request with the Director of Social Services seeking permission to establish a procedure to evaluate and grant appropriate individual criminal records exemptions.

This bill would extend the operative date of these provisions until January 1, 2010.

Ch. 299 (AB 2018) Chu. Domestic violence: civil damages.

Existing law generally provides that all property acquired by a married person during the marriage while domiciled in this state is community property. Upon dissolution of marriage or legal separation of the parties to a marriage, the court is directed to divide the community property estate pursuant to specified provisions.

This bill would provide, in any proceeding for dissolution of marriage, if there is a judgment for civil damages for an act of domestic violence perpetrated by one spouse against the other spouse, the court may enforce that judgment against the abusive spouse's share of community property, as specified.

Ch. 300 (AB 2237) Parra. Excessive speed: enhancements: provisions.

Under existing law, upon a 2nd conviction of the offense of driving upon a highway at a speed greater than 100 miles per hour within 3 years of the prior offense, a person is punished by a fine not to exceed \$500 and upon a second or more convictions that occurred within 5 years of the prior offenses by a fine not to exceed \$500.

This bill would increase the amount of the fine for the 2nd conviction occurring within 3 years of the prior offense to \$750, and increase the amount of the fine for 2 or more prior convictions, occurring within 5 years of the prior offenses, to \$1,000.

Ch. 301 (AB 2292) Wolk. Visitation: former legal guardians.

Existing law authorizes the court to grant reasonable visitation rights to a stepparent or a grandparent of a minor child if the court determines that visitation is in the best interest of the child.

Existing law also authorizes the court to terminate a guardianship if the court determines that it is in the best interest of the minor to terminate the guardianship.

This bill would authorize the court to grant reasonable visitation rights to a person who has previously served as the legal guardian of a child if visitation by the former legal guardian is determined to be in the best interest of the child, and would make other, related changes. The bill would authorize a former legal guardian to maintain an independent action for visitation with his or her former minor ward.

This bill would authorize the court, upon making a determination that a guardianship should be terminated, to consider whether continued visitation between a ward and his or her guardian is in the best interest of the ward. The bill would also authorize the court to issue an order, as part of the order of termination, for visitation between the former guardian and his or her former minor ward after the termination of the guardianship.

Ch. 302 (AB 2351) Corbett. Mobilehome parks: rights of mobilehome owners and residents.

(1) Existing law, the Mobilehome Residency Law, requires the rental agreement between the management of a mobilehome park and the homeowner to be in writing and to contain specified terms and provisions.

This bill would require the management of a mobilehome park to return an executed copy of the rental agreement to the homeowner within 15 business days after the management has received the rental agreement signed by the homeowner.

(2) Existing law prohibits the ownership or management of a mobilehome park, subdivision, cooperative, or condominium for mobilehomes from entering a mobilehome without the prior written consent of the resident, except in specified circumstances.

This bill would make that prohibition applicable to the ownership or management of a resident-owned mobilehome park. The bill would also make technical changes.

(3) Existing law authorizes the management of a mobilehome park to cause the removal of a vehicle parked in the park when certain conditions are satisfied.

This bill would prohibit management from removing a vehicle from the homeowner's or resident's driveway or designated parking space unless a specified notice regarding violations of park rules is posted on the windshield of the vehicle. The bill would permit management, upon the expiration of 7 days, to remove a vehicle from a driveway or designated parking space, when the vehicle remains in violation of a park rule, as specified. The bill would provide an exception from these provisions for vehicles that pose a significant danger, as specified.

(4) Existing law prohibits management of a mobilehome park from requiring a homeowner to purchase goods or services from any third party for landscaping.

This bill would additionally prohibit management from requiring a homeowner to purchase goods or services from any third party for remodeling or maintenance.

(5) Existing law imposes limits on a resident of a subdivision, cooperative, or condominium for mobilehomes, or resident-owned mobilehome park with respect to the display of a sign advertising the sale or rental of his or her mobilehome.

This bill would modify and extend those limits by, among other things, making them applicable to any person who gains ownership of the mobilehome upon the resident's death, or any agent of the resident or owner, and by prescribing the maximum size, configuration, and location of the sign.

Ch. 303 (AB 2469) Committee on Higher Education. Public postsecondary education.

(1) Existing law establishes the various segments of the public higher education system in the state. These segments include the California Community Colleges, which are administered by the Board of Governors of the California Community Colleges, the California State University, which is administered by the Trustees of the California State University, and the University of California, which is administered by the Regents of the University of California.

An existing provision requires, commencing in January 1990, and every 2 years thereafter, the board of governors and the trustees, and requests the regents, to submit a report to the Governor, the education policy committees of the Legislature, and the California Postsecondary Education Commission on formulas and procedures for allocating specified state funds. Existing law requires the commission to review these reports and to submit its comments and recommendations to the Governor and the education policy committees of the Legislature.

This bill would delete the requirement that the commission review these reports and submit comments and recommendations to the Governor and the education policy committees of the Legislature.

(2) Existing law authorizes the Trustees of the California State University to sell and lease interests in real property, not needed for campus purposes, which are included within the land that comprises Camarillo State Hospital. This provision requires the trustees to report to the Governor and Legislature by September 1 of each year on the revenues obtained from sales and leases made pursuant to this authority and the expenditures made based upon those revenues during the prior fiscal year.

This bill would provide that no report is to be made in 2005 and would instead require the trustees to make this report every other year, commencing in 2006.

(3) Existing law requires the Trustees of the California State University and the Department of General Services, in conjunction with the Integrated Waste Management Board, to present conclusions and recommendations with respect to revisions in specified

procurement policies for recycled paper products as part of an annual report that the department is required to submit.

This bill would delete this provision.

Ch. 304 (AB 2523) Frommer. Controlled substances: unlawful detainer.

Existing law, scheduled to be repealed by its own terms on January 1, 2005, provides that the city prosecutor or city attorney of specified judicial districts in the County of Los Angeles may file, in the name of the people, an action for unlawful detainer against any tenant who is unlawfully engaged in specified controlled substance offenses, as specified. Existing law requires the city attorney and city prosecutor to report annually to the Judicial Council information on these unlawful detainer actions, as specified.

This bill would provide for the law to continue until January 1, 2010, revise notice and reporting elements of the program, and expand the program to include actions by city prosecutors or city attorneys in courts in Los Angeles County, Alameda County and San Diego County that have jurisdiction over unlawful detainer actions involving real property situated in specified cities in those counties.

This bill would contain legislative findings as to the necessity of a special statute.

Ch. 305 (AB 2669) Garcia. Enforcement of support orders.

(1) Existing law provides that the satisfaction of a money judgment for support shall be credited first against the current month's support, then against the accrued interest that remains unsatisfied, then against the principal amount of the judgment that remains unsatisfied.

On and after January 1, 2009, this bill would revise that provision to require that after the money is first credited against the current month's support, the money shall next be credited against the principal amount of the judgment remaining unsatisfied, then against the accrued interest that remains unsatisfied. The bill would make a related change to a provision governing payments made for the support of a child by specified federal agencies.

(2) Existing law provides that a noncustodial parent is obligated to the county in any case of separation or desertion by that parent that results in a grant of public assistance to the family for the amount specified in a court order for the support and maintenance of the family. However, for cases filed on or after January 1, 2000, the obligation of that parent to the county is the amount that would have been specified in an order for the support and maintenance of the family during a period of separation or desertion up to one year prior to the filing date. Existing law also provides that the amount may be reduced by any amount actually paid by the parent to the custodian of the child.

This bill would delete the latter provisions providing that a parent is obligated for amounts that would have been specified in a court order and reducing the obligation for amounts actually paid. The bill would further revise and recast provisions related to the amount of obligation owed by each parent, and would require a specified computation therefor.

Ch. 306 (AB 2674) Leno. Adoption: relinquishment.

Existing law prescribes the procedures for the relinquishment of a child to the State Department of Social Services or a licensed adoption agency for adoption, and requires the relinquishment to be signed and acknowledged before specified persons. Existing law provides that a relinquishment is not final and binding until a certified copy is filed with the State Department of Social Services.

This bill would require a licensed adoption agency to send that copy by certified mail, return receipt requested, or by overnight courier or messenger, with proof of delivery, within a specified timeframe. The bill would make the relinquishment final within 10 business days after the filing is received by the State Department of Social Services, unless a longer period of time is necessary, as specified.

This bill would make a related statement of legislative intent.

**Ch. 307 (AB 2811) Runner. Human remains: disposition.**

Existing law lists the person or persons who, in an order of succession, have the right to control, and duty of disposition of, the remains of a deceased person if other directions have not been given by the decedent. A person upon whom the duty of interment is imposed by law who omits to perform that duty within a reasonable period of time is guilty of a misdemeanor.

This bill would add the surviving competent adult siblings of the deceased person to the list of persons who may control the disposition of the decedent's remains. By changing the definition of a crime, this bill would impose a state-mandated local program.

Existing law provides that if the person vested with the duty of interment fails, refuses, or neglects, within a reasonable time after death of the decedent, to make the interment, a cemetery authority having possession of the remains, or any relative of the decedent, may file a petition in the superior court in the county in which the decedent resided at the time of his or her death, or in which the remains are located, naming as defendant the person vested with the duty of interment and seeking an order of the court directing the defendant to make interment of the remains.

This bill would instead provide that if the person or persons who control the disposition of the decedent's remains fail to act or cannot be found within 7 days of the death, or in the case of a competent surviving spouse within 10 days of the death, the right to control the disposition shall pass to the next person or persons in accordance with the order of succession provided by statute, and would authorize certain parties to petition the court to determine who has the right to control interment if persons with equal right fail to agree on disposition of the remains.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 308 (AB 3032) Yee. Seismic safety.**

Existing law establishes a program within all cities and all counties and portions thereof located within seismic zone 4, as defined, to identify all potentially hazardous buildings and to establish a mitigation program for these buildings. The mitigation program may include, among other things, the adoption by ordinance of a hazardous buildings program, measures to strengthen buildings, and the application of structural standards necessary to provide for life safety above current code requirements. On or before April 1, 1993, any owner of a building located in seismic zone 4 who has received notice that the building is constructed of unreinforced masonry is required to post in a conspicuous place a specified sign at the entrance of the building, unless the walls are nonload bearing with steel or concrete frame. The Seismic Safety Commission is required to coordinate the earthquake related responsibilities of government agencies imposed by the above-described provisions to ensure compliance with these provisions.

This bill would, with an exception for an owner of a building subject to the above-described sign requirement who is in compliance with the requirement on and after December 31, 2004, revise the sign requirement, as specified, and would exempt a building that has been brought into compliance with an adopted hazardous buildings ordinance or mitigation program from the sign requirement. It would also authorize a local jurisdiction to authorize the posting of a sign regarding the improvements made to the building.

**Ch. 309 (AB 3063) Committee on Higher Education. Community college interstate attendance agreements.**

Existing law authorizes the Board of Governors of the California Community Colleges to enter into an interstate attendance agreement with a statewide public agency of another state, as specified.

This bill would authorize the board of governors to authorize the governing board of a community college district to enter into an interstate attendance agreement directly with the governing body of a public institution of postsecondary education in another state that provides the first 2 years of college instruction if the state in which the public institution is situated borders California, is a party to the Western Interstate Compact for Higher Education and is not represented by a statewide public agency that is responsible for public institutions of postsecondary education that provide the first 2 years of college instruction. The bill would authorize these agreements to be effective on or after July 1, 2003.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 310 (SB 260) Romero. Health care.

Existing law authorizes the formation of local health care districts and the establishment of municipal hospitals for the purpose of providing needed public health care services. Existing law, the Joint Exercise of Powers Act, permits 2 or more public agencies to enter into an agreement to jointly exercise any power common to the contracting parties.

This bill would create the California Prison Inmate Health Service Reform Act and would authorize the Department of Corrections to enter into joint powers agreements with one or more health care districts in order to establish regional inmate health service joint powers agencies. The bill would establish the purposes for which inmate health service joint powers authorities may be utilized.

Ch. 311 (AB 2199) Kehoe. Fire insurance: indemnity.

Under existing law, under an open policy, the measure of indemnity in fire insurance is the expense to the insured of replacing the thing lost or injured in its condition at the time of the injury, the expense being computed as of the time of the commencement of the fire.

This bill would provide that under an open policy that requires payment of the replacement cost for a loss, the measure of indemnity is the amount that it would cost the insured to repair, rebuild, or replace the thing lost or injured, without a deduction for physical depreciation, or the policy limit, whichever is less. This bill would require that no time limit less than specified periods from the date that the first payment toward the actual cash value is made be placed upon the insured in order to collect the full replacement cost of the loss, subject to the policy limit.

This bill would prohibit any policy issued or delivered in this state from containing a provision that limits or denies payment of the replacement cost of the insured structure in the event the insured decides to rebuild or replace the property at a location other than the insured premises, as specified.

The bill would provide that insurers shall not be required to modify policy forms to be consistent with these provisions until July 1, 2005.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 312 (AB 2156) Reyes. Deferred deposit transactions: advertisements.

Existing law requires the Commissioner of Corporations to report to the Governor and the Legislature, on December 1, 2007, on the implementation of the California Deferral Deposit Transaction Law, which regulates the activities of people who conduct deferred deposit transactions, as defined, prohibits advertisements regarding deferred deposit transactions which are false, misleading, or deceptive, and permits the commissioner to establish requirements regarding statements of rates and charges in connection with deferred deposit transactions.

This bill would require the commissioner's report to the Governor and Legislature to include specified information on the advertising practices of the deferred deposit transactions industry and recommendations regarding additional regulation of these practices.

Ch. 313 (AB 2224) Cohn. State mandates: reimbursement.

Existing law requires the Commission on State Mandates to adopt parameters and guidelines for reimbursement of claims by local agencies and school districts for state mandates pursuant to statute. Existing law authorizes a local agency, school district, or the state to file a claim asking the commission to amend, modify, or supplement the parameters and guidelines.

This bill would require that a claim to change the parameters and guidelines be in writing and filed within a specified time. It would authorize the commission to amend, modify, or supplement the parameters and guidelines after public notice and hearing on the claim seeking the change.

Existing law provides that a reimbursement claim for actual state-mandated costs filed by a local agency or school district is subject to the initiation of an audit by the Controller no later than 3 years after the date that the actual reimbursement claim is filed or last amended, whichever is later. If no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit commences to run from the date of initial payment of the claim.

This bill would authorize the Controller to conduct a field review of any claim after the claim has been submitted, prior to the reimbursement of the claim. It also would provide that any audit shall be completed no later than 2 years after the date that the audit is commenced.

Existing law imposes prescribed requirements on public agencies relative to the impounding, holding, and adoption of stray animals, which the commission has determined constitute a state-mandated local program.

This bill would require the commission to amend the parameters and guidelines for this Animal Adoption mandate, as specified.

This bill would make other technical, conforming changes to these provisions.

#### Ch. 314 (AB 3027) Committee on Agriculture. Canneries: inspection.

Existing law establishes in the state government a Cannery Inspection Board with one member appointed by the State Director of Health Services and 4 members appointed by the State Department of Health Services.

This bill would provide for the director to make all of the appointments to the board.

Existing law requires all money received by the department related to canneries to be paid at least once each month to the Treasurer, and on order of the Controller, to be deposited in the General Fund in the State Treasury. Notwithstanding that provision, existing law authorizes the department and the Department of Finance to authorize cash deposits received by the department from each licensee for the payment of his or her pro rata share of the estimated cost of inspection and laboratory control to be deposited in the Special Deposit Fund. In that event, upon the determination by the department that all or a part of any deposit is due the state for payment on account of the depositor's pro rata share of costs incurred by the state, existing law requires the amount determined to be transferred from the Special Deposit Fund to the General Fund.

This bill would establish the Cannery Inspection Fund as a special fund in the State Treasury. The bill would require all money received by the department related to canneries to be deposited in the fund and expended by the department, upon appropriation by the Legislature, for the purpose of carrying out and implementing cannery licensing, inspection, enforcement, and other provisions relating to canneries. In the event that the department and the Department of Finance authorize those cash deposits received by the department from each licensee to be deposited in the Special Deposit Fund, and upon the determination by the department that all or a part of any deposit is due the state for payment on account of the depositor's pro rata share of costs incurred by the state, the bill would require the amount determined to be transferred from the Special Deposit Fund to the Cannery Inspection Fund, instead of to the General Fund.

Ch. 315 (AB 2747) Garcia. Local Revenue Fund: Sales Tax Growth Account: Caseload Subaccount.

Existing law provides for the allocation of state sales tax revenues and vehicle license fees into the continuously appropriated Local Revenue Fund, for the allocation of moneys to counties for various stated purposes, from the accounts contained in the fund. Existing law also specifies the allocation of tax revenues into the various accounts and subaccounts of the Local Revenue Fund, including the Sales Tax Growth Account.

Existing law requires counties that receive allocations of moneys from the fund to establish and maintain a local health and welfare trust fund comprised of several accounts, including the social services account.

Existing law requires, except as specified, that the Controller shall deposit into the Caseload Subaccount of the Sales Tax Growth Account of the Local Revenue Fund, from revenues deposited into the Sales Tax Growth Account, an amount that is sufficient to fund the net cost for the realigned portion of the county or city and county share of growth in social services caseloads and any share of growth from the previous year or years for which sufficient revenues were not available in the Caseload Subaccount.

This bill would declare the intent of the Legislature with respect to the enactment of these provisions. The bill would require the Department of Finance to recommend to the Legislature, by January 10, 2005, a procedure to expedite the preparation and provision of the allocations schedule described in the bill and the allocation of funds by the Controller.

Ch. 316 (AB 2851) Laird. Budget Act: state mandates.

(1) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

Existing statutory law provides that a school district may not be required to implement or give effect to a statute imposing a state mandate for a specified period if it is identified by the Legislature in the Budget Act as being suspended. Existing law provides that this suspension provision is applicable only to specified mandates.

This bill would additionally make this suspension provision applicable to state mandates relating to certain investment reports and county treasury oversight committees.

(2) Existing law provides that the Commission on State Mandates shall not find costs to be mandated by the state if, among other things, the local agency or school district has authority to levy charges, fees, or assessments sufficient to pay for the mandated program or increased level of service.

Existing law, the Surface Mining and Reclamation Act of 1975, requires local agencies, within 12 months of receiving mineral information and of being designated an area of statewide or regional significance, and in accordance with state policy, to establish mineral resource management policies in their general plans. Existing law also authorizes these local agencies to impose a fee upon mining operations to cover the reasonable costs incurred in implementing the act.

This bill would state that the Legislature finds and declares that the act no longer imposes a reimbursable mandate under these provisions because local agencies subject to the act have authority to levy fees to pay for the cost of the program mandated by the act.

(3) The Budget Act of 2003 provides that state-mandated local programs relating to, among others, Democratic Party presidential delegates, election materials, and specified county social services are suspended during the 2003–04 fiscal year.

This bill would state that the Legislature finds and declares that specified statutes relating to Democratic Party presidential delegates and certain county social services no longer constitute reimbursable mandates under Section 6 of Article XIII B of the California Constitution because they have been repealed.

(4) This bill also would direct the Commission on State Mandates, by January 1, 2006, to reconsider whether specified statutes continue to constitute reimbursable mandates in light of federal statutes enacted and federal and state court decisions rendered since enactment of these mandates.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 317 (AB 2840) Corbett. Vehicle rental agreements: electronic surveillance technology.

Existing law regulates the renter of a vehicle's liability for loss due to theft, a rental company's loss of use, or damage or loss of a rental vehicle, a renter's credit card liability, damage waivers, and other matters relating to a vehicle rental agreement.

This bill would prohibit a rental company that uses electronic surveillance technology in its rental vehicles from using, accessing, or obtaining information relating to the renter's use of the rental vehicle that was obtained using that technology, as specified. The bill would additionally require a rental company to obtain a renter's express authorization before using or disclosing to others information about the renter's use of the vehicle, and would make other conforming changes to those provisions.

Ch. 318 (AB 224) Kehoe. Roof covering materials.

Existing law requires, in very high fire hazard severity zones designated by either the Director of Forestry and Fire Protection or by local agencies, every new structure, and every existing structure when 50% or more of the roof area is reroofed within a one-year period, to have a fire retardant roof covering that is at least class B, as defined. Existing law permits certain historic buildings to utilize alternative fire retardant roof construction and does not affect the validity of certain ordinances establishing equivalent or stricter standards adopted prior to July 1, 1995.

This bill would provide that a common interest development may not require a homeowner to install or repair a roof in a manner that violates the above described requirements. It would also require the governing documents of a common interest development located within a very high fire severity zone to allow for at least one type of fire retardant roof covering material that meets the above described requirements.

Ch. 319 (AB 656) Corbett. Gift certificates.

Existing law prohibits the sale of any gift certificate, as defined, that contains an expiration date or service fee, but creates an exception for a gift certificate with a provision that entitles the purchaser thereof to a full refund if the certificate is given to another person who fails to redeem the certificate within a specified time.

This bill would revise and recast that exception to instead provide that a gift certificate may be issued if each contributor is provided with a full refund if certain conditions are met, including a clear disclosure in writing of the time in which the recipient may redeem the certificate.

Ch. 320 (AB 1373) Daucher. Nursing home administrator: licensing examination.

The existing Nursing Home Administrators' Act governs the licensing and regulation of nursing home administrators. The act requires every applicant for an initial license as a nursing home administrator to pass a nursing home administrator licensing examination. To qualify for the licensing examination, the act requires the applicant to be at least 18 years of age, be a citizen of the United States, be of reputable and responsible character, demonstrate an ability to comply with the act, and comply with at least one of several other requirements.

This bill would revise the qualification requiring the applicant to be a citizen of the United States to instead require the applicant to be a citizen of the United States or a legal resident.

By expanding the class of persons who may become licensed nursing home administrators and thereby increasing licensing fees that are deposited into a continuously appropriated fund, this bill would make an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 321 (AB 1636) Kehoe. Pupil records.

Existing law establishes the confidentiality of an application or record concerning any individual that relates to free or reduced-price meal eligibility which is made or kept by any public officer or agency, with certain exceptions. Existing law authorizes a public officer or agency to allow the use of those records, as specified, for the purpose of disaggregation of academic achievement data, if certain conditions are met.

This bill would, in addition, authorize a public officer or agency to allow the use of those records by a school district employee, as specified, to identify pupils eligible for public school choice and supplemental educational services as required by the federal No Child Left Behind Act of 2001, if certain conditions are met.

Ch. 322 (AB 1801) Pavley. Guide dogs.

Under existing law any person who, with no legal justification, intentionally interferes with the use of a guide dog by harassing or obstructing the guide dog user or his or her guide dog, is guilty of a misdemeanor, punishable by imprisonment in a county jail not exceeding 6 months, or by a fine of not less than \$1,500 nor more than \$2,500. Existing law defines the term "guide dog."

This bill would change the definition of the term "guide dog" to define guide, signal, or service dog and would also define the term "mobility aid." The bill would, in addition, apply these provisions to any person who intentionally interferes with the use of a mobility aid. Because this bill would expand the scope of an existing crime, it would impose a state-mandated local program.

Under existing law, it is unlawful and constitutes an infraction for any person to permit any dog which is owned, harbored, or controlled by him or her to cause injury to or the death of any guide, signal, or service dog, as defined, while the guide, signal, or service dog is in discharge of its duties. Under existing law, in any case in which a defendant is convicted of a violation of these provisions, the defendant is required to be ordered to make restitution to the disabled person who has custody or ownership of the dog for any veterinary bills and replacement costs of the dog if it is disabled or killed.

This bill would make this violation an infraction punishable by a fine of not more than \$250 if the injury or death to any guide, signal, or service dog is caused by the person's failure to exercise ordinary care in the control of his or her dog. This bill would make this crime a misdemeanor if the injury or death to the guide, signal, or service dog is caused by the person's reckless disregard in the exercise of control over his or her dog, as specified, and would make a misdemeanor violation of these provisions punishable by imprisonment in a county jail not exceeding one year, or by a fine of not less than \$2,500 nor more than \$5,000, or both. This bill would include in the restitution payment to the person with a disability who has custody or ownership of the dog other reasonable costs deemed appropriate by the court. Because this bill would increase the penalty of a crime from an infraction to a misdemeanor, it would impose a state-mandated local program.

Existing law makes any person who intentionally causes injury to or the death of any guide, signal, or service dog, as defined, while the dog is in discharge of its duties, guilty of a misdemeanor, punishable by imprisonment in a county jail not exceeding one year, or by a fine not exceeding \$5,000, or by both a fine and imprisonment. Under existing law, in any case in which a defendant is convicted of a violation of these provisions, the defendant is required to be ordered to make restitution to the disabled person who has custody or ownership of the dog for any veterinary bills and replacement costs of the dog if it is disabled or killed.

This bill would increase the fine to \$10,000 and would include in the restitution payment to the person with a disability other reasonable costs deemed appropriate by the court.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 323 (AB 1925) Haynes. Comprehensive sexual health and HIV/AIDS prevention instruction.

The existing California Comprehensive Sexual Health and HIV/AIDS Prevention Education Act, authorizes school districts to provide comprehensive sexual health education, as defined, in any kindergarten to grade 12, inclusive, and ensures that all pupils in grades 7 to 12, inclusive, receive HIV/AIDS prevention education, as defined. Existing law requires a school district to notify the parent or guardian of a pupil about instruction in comprehensive sexual health education and HIV/AIDS prevention and empowers a parent or guardian to excuse his or her pupil from all or part of that instruction.

This bill would require, if the instruction in comprehensive sexual health education and HIV/AIDS prevention will be taught by outside consultants, or if that instruction is to be given in an assembly by guest speakers, a school district to notify the parent or guardian of a pupil about that instruction, as specified, no fewer than 14 days in advance of the instruction.

Ch. 324 (AB 2014) Committee on Banking and Finance. Credit unions: home mortgage assistance.

Existing law provides for the supervision and examination of credit unions by the Commissioner of Financial Institutions. Existing law requires a credit union to, within 105 days after the end of each fiscal year, file with the commissioner an audit report meeting specified requirements for the fiscal year.

This bill would allow a credit union with total assets of less than \$10,000,000 to instead file an alternative procedures audit acceptable to the commissioner, as specified. The bill would authorize the commissioner to reject an alternative procedures audit that he or she determines is not satisfactory and order the credit union to obtain an audit that is satisfactory.

Existing law requires a credit union to maintain an allowance-for-loan-losses account in accordance with generally accepted accounting principles, and requires that an adjustment be made at the close of an accounting period in an amount equal to the balance in the allowance-for-loan-losses expense account.

This bill would delete the requirement that an adjustment be made.

Existing law establishes the California Home Loan Mortgage Act for the purpose of creating secondary market facilities for home mortgages and to authorize those facilities to provide specified assistance.

This bill would repeal the California Home Loan Mortgage Act.

Ch. 325 (AB 2027) Chan. State Highway Route 260: relinquishment.

Existing law requires the California Transportation Commission to relinquish to a city or county any portion of a state highway within the city or county that has been deleted from the state highway system by legislative enactment.

This bill would authorize the commission to relinquish to the City of Alameda a specified portion of State Highway Route 260 upon terms and conditions the commission finds to be in the best interests of the state if the Department of Transportation and the city enter into a relinquishment agreement.

Ch. 326 (AB 2031) Cogdill. Search and rescue.

Existing law provides that the board of supervisors of a county may authorize the sheriff to search for and rescue persons who are lost or are in danger of their lives.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would require that the authorization for search and rescue activities be consistent with guidelines and operating plans developed and adopted by the Office of Emergency Services except as provided. The bill would require that office to make the plan available to counties and fire protection and law enforcement agencies for use and adoption by the board of supervisors and the governing boards of all search and rescue providers. The bill would state that counties are encouraged to adopt and review their plans on a regular basis.

Ch. 327 (AB 2137) Steinberg. Law enforcement fees.

Existing law sets the fees that sheriffs shall charge and collect for services performed by them. These fees include fees for keeping and caring for property under a writ of attachment, execution, possession, or sale for serving a writ of possession of real property on an occupant or the occupants or for posting and serving a copy on the judgment debtor.

This bill would increase these fees, as specified.

Existing law requires that \$5 of designated fees collected by the sheriff's civil division or marshal shall be deposited in a special fund in the county treasury to be used for specified purposes.

This bill would increase that amount to \$10.

Ch. 328 (AB 2347) Maddox. Attorney's fees.

Under existing law, in any action on a contract based on a book account that does not provide for attorney's fees and costs, the prevailing party on the contract is entitled to reasonable attorney's fees and costs, and the court is required to fix the attorney's fees in an amount that does not exceed the lesser of \$660 or 25% of the principal obligation owing under the contract.

This bill would revise these provisions by requiring the court to fix the attorney's fees for the prevailing party bringing the action in an amount that does not exceed the lesser of \$800 for book accounts that are maintained for consumer purposes and \$1,000 for book accounts that are maintained for all other purposes, or 25% of the principal obligation owing on the contract. The bill would fix the attorney's fees for the prevailing party against whom the action is brought at an amount not to exceed \$800 for book accounts for consumer purposes and \$1,000 for all others. The bill would, among other changes, limit those attorney's fees to the lesser of either the maximum amount under that provision, the amount provided by any default attorney's fee schedule adopted by the court, or an amount otherwise provided by the court, as specified.

Ch. 329 (AB 2502) Keene. Dependent children: psychotropic medications.

Existing law authorizes a juvenile court judicial officer to make orders regarding the administration of psychotropic medications for a dependent child who has been removed from the physical custody of his or her parent.

This bill would require that officer to approve or deny, in writing, a request for authorization to administer psychotropic medication, or set the matter for hearing, as specified, within 7 court days.

Ch. 330 (AB 2690) Hancock. Public works: funds.

Existing law defines "public works," for purposes of regulating public works contracts, as, among other things, construction, alteration, demolition, installation, or repair work done under contract and paid for in whole or in part out of public funds. Otherwise covered work that meets certain criteria, including work that is performed entirely by volunteer labor, is excluded from this definition of "public works." Pursuant to existing law, all workers employed on public works shall be paid not less than the general prevailing rate of per diem wages for work, except for public works projects of \$1,000 or less.

This bill would exempt from these provisions any work that is performed by a volunteer, a volunteer coordinator, or by members of the California Conservation Corps or of certified Community Conservation Corps.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

The bill would apply this exemption retroactively to otherwise covered work concluded on or after January 1, 2002, to the extent permitted by law. This bill would remain in effect until January 1, 2009, and as of that date is repealed, unless a later enacted statute modifies that date.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 331 (AB 2723) Laird. Consumer warranties: service and repair.

The Song-Beverly Consumer Warranty Act requires every manufacturer of consumer goods sold in California for which the manufacturer has made an express warranty to maintain sufficient service and repair facilities, as specified, to carry out the terms of the warranties. Existing law requires a manufacturer or its representative who fails to service or repair goods pursuant to an express warranty, after a reasonable number of attempts, to replace those goods or to reimburse the buyer, as specified.

This bill would additionally require that replacement or reimbursement if the goods cannot be serviced or repaired due to the method of installation or the goods becoming affixed to real property, except as specified.

Ch. 332 (AB 2795) Wolk. Child welfare services: wards of the juvenile court: case plans: family maintenance services.

(1) Under existing law, when a minor is ordered by the juvenile court to be detained, the assigned probation officer is required to take various actions, including completing a detention report, completing a case plan within 30 days of the minor's initial removal, and providing documentation relating to the minor's removal and the services to be provided to the minor. Under existing law, this documentation may be provided as a part of the probation officer's detention report or case plan, but in no case later than 30 days from the date of detention.

This bill would extend the time by which the probation officer is required to submit a case plan to 60 days from the date of the initial removal, and the time limit for the required documentation to 60 days from the date of detention.

(2) Existing law declares that the foundation and central unifying tool in child welfare services is the case plan. A written case plan is required to be completed within 30 days of the initial removal of a child or an in-person emergency response by a county welfare department.

This bill would extend the time period for completion of a written case plan to a maximum of 60 days, effective 90 days after the date that the State Department of Social Services gives counties written notice that necessary changes have been made to the Child Welfare Services Case Management System to account for the new timeframe for completion of the case plan and would make conforming changes.

(3) Existing law requires family maintenance services to be provided or arranged for by county welfare department staff, in order to maintain a child in his or her own home. Existing law identifies the categories of families to which these services are available, and provides that the services are limited to 6 months. Existing law authorizes the extension of these services for one 6-month period, if it can be shown that the objectives of the service plan can be achieved within that time.

This bill would authorize multiple 6-month extensions of family maintenance services, if it can be shown that the objectives of the service plan can be achieved within that time, and provided within the county's allocation.

Ch. 333 (AB 2835) Plescia. Health care professionals: insurance fraud.

Existing law provides for the licensing and regulation of health care practitioners by various boards and commissions within the Department of Consumer Affairs, and provides that certain acts constitute unprofessional conduct and grounds for disciplinary action. Existing law defines certain acts relative to insurance fraud as crimes. Existing law provides

that commission of those acts on the part of a health care professional also constitutes grounds for revocation or suspension of the license of the health care professional.

The bill would provide that it shall constitute cause for revocation or suspension of a health care professional's license or certificate for the health care professional to engage in certain referrals, solicitations, or acceptances with the knowledge that or with reckless disregard for whether the individual who is being referred, solicited, or accepted, or the individual or entity who is making the referral, solicitation, or acceptance, intends to commit insurance fraud.

Ch. 334 (AB 2872) Maddox. Trusts: notices.

Existing law regulates judicial proceedings relating to trusts. Existing law permits a beneficiary of a trust to file a request with a court to receive notice of specified proceedings, and requires a beneficiary to deliver a copy of such a request to the trustee, as specified. If the request is mailed, it is effective when it is received. Existing law provides that, after a request is served, the beneficiary is entitled to notice, and it provides that such a request is ineffective under certain circumstances.

This bill would extend the provisions described above to creditors of the trust and creditors of a trustor if the trust has become irrevocable upon the trustor's death. The bill would permit these creditors to request notice of proceedings only for specified purposes. The bill would specify particular methods of service in regard to the notice of proceedings to a trustee, as specified.

Ch. 335 (AB 3043) Yee. Alcoholic beverages.

The Alcohol Beverage Control Act authorizes the Department of Alcoholic Beverage Control to issue a temporary permit to certain transferees of licenses to sell alcoholic beverages for a period not to exceed 120 days.

This bill would extend the maximum duration for a temporary permit issued under these provisions to 4 calendar months.

Ch. 336 (SB 871) Torlakson. Vehicles: accident reports.

(1) Existing law authorizes the Department of Motor Vehicles to establish commercial requester accounts for individuals or organizations for the purpose of obtaining information from the department's files, except as specified.

Existing law requires certain motor vehicle traffic accident reports to be submitted to the department and the Department of the California Highway Patrol by law enforcement agencies, and prohibits the release of the information in those reports except to certain state and local governmental agencies and certain, listed interested persons.

This bill would authorize the Department of Motor Vehicles, using the information in those law enforcement agency accident reports, to make the license plate number and the accident report number available to a person who has established a commercial requester account and enters into a specified agreement with the department. The bill would require the agreement to stipulate that the information provided may not be used for the purpose of identifying or contacting any person and may only be used to identify a vehicle that has been reported to be in a traffic accident. The bill would authorize the law enforcement agency accident report number and license plate number to be used only for the internal verification purposes of the business that receives the information and would prohibit that information from being disclosed to any party other than the department or the Department of the California Highway Patrol. The bill would make the use of the information in violation of the elements of the stipulation a violation of related criminal and civil remedy provisions of existing law. The bill thereby would establish a state-mandated local program by expanding the scope of a crime.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 337 (SB 1623) Johnson. Laboratories: licensing and accreditation.

Existing law requires the State Department of Health Services to adopt and publish regulations to be used in approving and governing the operation of laboratories engaging in the performance of tests by or for law enforcement of blood, urine, tissue, or breath samples for the purposes of determining the concentration of ethyl alcohol in the blood of persons involved in traffic accidents or in traffic violations, including the qualifications of the employees who perform the tests, that the department determines are reasonably necessary to ensure the competence of the laboratories and employees to prepare, analyze, and report the results of the tests.

Existing law requires each laboratory in the state that performs those tests to be licensed by the Director of Health Services. Existing law requires the department to periodically inspect every approved and licensed laboratory. If the director orders the suspension or revocation of a laboratory's license, the licensee is required to surrender the license to the director upon the effective date of that order. Existing law authorizes the director, after suspension of the license, to reinstate the license under prescribed conditions.

This bill would repeal all of the above provisions. The bill would instead require laboratories engaging in the performance of forensic alcohol analysis tests by or for law enforcement agencies on blood, urine, tissue, or breath for the purposes of determining the concentration of ethyl alcohol in persons involved in traffic accidents or in traffic violations to comply with various existing department regulations regarding inspection of laboratories, collection and handling of samples, methods of analysis, and laboratory records. The bill would prohibit the department from requiring laboratories to be licensed. The bill would require each laboratory to ensure that breath alcohol instruments and calibrating devices used in testing are listed in the conforming products list in the Federal Register by the National Highway Traffic Safety Administration of the United States Department of Transportation and would require all laboratories to follow the American Society of Crime Laboratory Directors/Laboratory Accreditation Board guidelines for proficiency testing, and to meet other proficiency test requirements.

The bill would require the department, on or before July 1, 2005, to establish a review committee that would be required to meet at least once in each 5-year period thereafter, or within 60 days of receipt of a request by the department or a member of the review committee, to evaluate and determine revisions to relevant department regulations. The bill would require the review committee to submit a summary of those revisions to the California Health and Human Services Agency. The bill would authorize the agency to disapprove one or more of the revisions within 90 days of receiving them. The bill would require the department to adopt regulations to incorporate the revisions determined by the review committee, except for those revisions that the agency disapproves.

The bill would make additional conforming changes to existing law.

Ch. 338 (AB 340) Frommer. Vehicles: official traffic control signals: interruptive devices.

(1) Existing law prohibits a person from using, and prohibits any vehicle, other than an authorized emergency vehicle, from being equipped with, any device capable of sending a signal that interrupts or changes the sequence patterns of an official traffic control signal, unless that device or use is authorized by the Department of Transportation or local authorities, as specified. A willful violation of this prohibition that results in injury to, or the death of, a person is punishable by imprisonment in the state prison, or by imprisonment in a county jail for a period of not more than 6 months, and by a fine of not less than \$5,000 nor more than \$10,000. A willful violation of this prohibition that does not result in injury to, or the death of, a person is punishable by a fine of not more than \$3,000.

This bill would specify that this prohibition applies to a mobile infrared transmitter (MIRT).

The bill would increase to \$5,000 the maximum fine for a willful violation of the specified prohibition that does not result in injury to, or the death of, a person.

The bill would exempt a public transit passenger vehicle from the prohibition.

The bill would make it a crime for a person to buy, possess, manufacture, install, sell, offer for sale, or otherwise distribute the above described devices, including a MIRT, unless the purchase, possession, manufacture, installation, sale, offer for sale, or distribution is for the use of the device by a peace officer or other person authorized to operate an authorized emergency vehicle or a public transit passenger vehicle in the scope of his or her duties. The bill, thereby, would establish a state-mandated local program by creating a new crime.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would become operative only if SB 1085 is chaptered.

Ch. 339 (AB 1704) Committee on Judiciary. Family law: local child support agencies.

(1) Existing law specifies the information to be contained in an acknowledgment of satisfaction of judgment.

This bill would authorize a local child support agency director or his or her designee to execute and acknowledge an acknowledgment of satisfaction of judgment if the agency has been providing child support services, as specified, to be recorded pursuant to paragraph (1).

(2) Existing law sets forth the required informational contents of judgments for paternity and orders for child support.

This bill would make those requirements inapplicable in cases in which a local child support agency is providing child support services, and would make related changes.

(3) Existing law authorizes a local child support agency to serve a respondent with a form of a proposed judgment specifying his or her presumed income if the actual income is not known to the agency.

This bill would revise the determination of that presumed income.

(4) Existing law authorizes hearings regarding support orders that involve an out-of-state party to be conducted by telephone conference or other remote means.

This bill would extend this authorization to instances in which both parents reside in California, and would require the Judicial Council to adopt rules of court regarding such hearings on or before July 1, 2005.

(5) Existing law provides that once a parent has requested or is receiving support enforcement services, a local child support agency or the Attorney General is required to serve on a parent all child support pleadings served on the agency, as specified.

This bill would impose a state-mandated local program by extending this requirement to paternity pleadings served on a local child support agency. The bill would also apply to paternity pleadings served on the Attorney General.

(6) Existing law authorizes a court, on terms that may be just, to relieve a defendant from that part of a judgment or order concerning the amount of child support to be paid in an action filed by a local child support agency.

This bill would specify that a court may set aside that part of the judgment or order, and require the Judicial Council to revise related forms effective July 1, 2005.

(7) Existing law authorizes certain documents to be recorded without acknowledgment, certificate of acknowledgment, or further proof.

This bill would authorize to be recorded under these provisions a notice of support judgment and other specified documents completed and recorded by a local child support

agency or a state agency acting pursuant to specified provisions of the federal Social Security Act.

(8) Existing law authorizes each trial court to establish and appoint any subordinate judicial officers that are deemed necessary for the performance of subordinate judicial duties, and provides that, as of a specified date, all persons who were authorized to serve as subordinate judicial officers are authorized to serve as subordinate judicial officers at their existing salary rate, which may be a percentage of the salary of a judicial officer.

This bill would provide that certain child support commissioners shall receive a salary equal to 85% of a superior court judge's salary.

(9) Existing law authorizes a support obligor to apply for a claim of exemption from a levy by the Franchise Tax Board, as specified.

This bill would limit that authorization to specified instances in which the support obligor is in compliance with scheduled payments on child support arrearages.

(10) Existing law specifies the persons who may inspect a case file with respect to juvenile court proceedings.

This bill would add to the list of persons so authorized, a local child support agency for purposes of establishing paternity and establishing and enforcing child support orders.

(11) This bill would also incorporate further amendments to Section 827 of the Welfare and Institutions Code proposed by AB 2228, contingent upon its prior enactment.

(12) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 340 (AB 1945) Nakano. Residential care facilities for the elderly: administrator certification program: training.

The existing California Residential Care Facilities for the Elderly Act requires an administrator of a residential care facility for the elderly to successfully complete a certification program approved by the State Department of Social Services prior to employment, unless the individual meets one of the specified exemptions. The act requires the department to establish by regulation the program content, the testing instrument, the process for approving certification programs, and criteria to be used in authorizing individuals, organizations, or educational institutions to conduct certification programs and continuing education courses.

The act requires a vendor of online programs for continuing education to ensure that each online course (1) contains an interactive portion where the participant receives feedback through online communication based on input from the participant, and (2) requires the use of a personal identification number or personal identification information to confirm the identity of the participant.

This bill would additionally require a vendor of online programs for continuing education to ensure that each online course contains a final screen displaying a printable statement, to be signed by the participant, certifying that the identified participant completed the course. The bill would make any person who certifies as true any material matter regarding the course that he or she knows to be false, guilty of a misdemeanor. By creating a new crime, this bill would impose a state-mandated local program. The bill would require the vendor to obtain a copy of the final screen statement with the original signature of the participant prior to issuing a certificate of completion to the participant, to keep the signed statement of completion for a period of 3 years, and to make the signed statement available to the department upon demand.

The act requires a vendor that offers online continuing education programs to annually conduct a random 10% sampling of participants in order to ensure quality control.

This bill would delete that requirement.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 341 (AB 2074) Runner. Fairs: report.

Existing law requires every county or district agricultural association that conducts a fair for which any apportionment is sought to file a detailed statement of its operations in the previous calendar year with the Department of Food and Agriculture on or before the 20th day of January in each year. Existing law separately requires every citrus fruit fair eligible to receive an apportionment to file a similar statement on the same schedule.

This bill would require instead that every fair within the network of California fairs file a detailed statement on its operations in the preceding fiscal year, to be filed within 90 days of the end of that fiscal year.

Ch. 342 (AB 2184) Plescia. Health facilities: pharmacy services: automated drug delivery systems.

Existing law provides for the licensing and regulation by the State Department of Health Services of health facilities, including skilled nursing facilities and intermediate care facilities.

The Pharmacy Law, which provides for the licensing and regulation of the practice of pharmacy, is under the jurisdiction of the California State Board of Pharmacy. The Pharmacy Law prescribes requirements for the dispensing of drugs. Under existing law, anyone who knowingly violates the Pharmacy Law is guilty of a misdemeanor.

Existing law authorizes a pharmacy to furnish dangerous drugs or dangerous devices to a licensed health care facility for storage in a secured emergency pharmaceutical supplies container that is maintained within the facility in accordance with regulations of the department. Existing law establishes circumstances under which drugs may be removed from an automated drug delivery system at a skilled nursing facility or intermediate care facility. Existing law defines an automated drug delivery system as a mechanical system that performs operations and activities, other than compounding or administration, relative to the storage, dispensing, or distribution of drugs.

This bill would provide that a pharmacy may provide services to a skilled nursing facility or intermediate care facility through the use of an automated drug delivery system that meets certain requirements and the automated drug delivery system need not be located at the same location as the pharmacy. The bill would require that this automated drug delivery system be under the supervision of a licensed pharmacist, would not require that the pharmacist be physically present at the site, and would permit the pharmacist to supervise the system electronically. When a pharmacist releases drugs for removal from the automated drug delivery system for administration to a patient, the bill would prohibit the automated drug delivery system from providing facility staff with access to drugs different from those released. Because the bill would specify additional requirements under the Pharmacy Law and health facility laws, a violation of which is a crime, the bill would impose a state-mandated local program.

The bill would also correct an erroneous cross-reference.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 343 (AB 2210) Liu. Marian Bergeson Beginning Teacher Support and Assessment System.

Existing law establishes the Marian Bergeson Beginning Teacher Support and Assessment System for, among other purposes, providing an effective transition into the teaching career for 1st-year and 2nd-year teachers, improving the educational performance of pupils through improved training, information, and assistance for new teachers, ensuring the professional success and retention of new teachers, and ensuring that an individual induction plan is in place for each participating beginning teacher and is based on an ongoing assessment of the beginning teacher.

Existing law requires possession of a valid preliminary teaching credential, possession of a valid equivalent credential or certificate, or completion of equivalent requirements for the professional clear multiple or single subject teaching credential. Existing law further requires completion of designated studies, completion of a 5th-year program after completion of a baccalaureate degree at an accredited institution, and subject to the availability of funding in the annual Budget Act, completion of a program of beginning teacher induction for those credentials.

This bill would require the Commission on Teacher Credentialing to determine that a candidate has fulfilled the induction program requirement if the candidate earned a preliminary teaching credential by completing an accredited internship program of professional preparation and that internship program fulfills induction standards and is approved by the commission. The bill would require the commission to accept as fulfilling the induction program requirement completion of a 5th-year program after completion of a baccalaureate degree at an accredited institution if an approved induction program is verified as unavailable to a beginning teacher, or if a beginning teacher is required by federal law to complete subject matter coursework.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 344 (AB 2226) Spitzer. Nurse practitioners: qualification requirements.

Existing law, the Nursing Practice Act, provides for the licensing and regulation of nurse practitioners by the Board of Registered Nursing. Existing law authorizes the board to issue a certificate to use the title "nurse practitioner" to a registered nurse who the board finds qualified.

This bill would, on and after January 1, 2008, require an applicant for initial qualification or certification as a nurse practitioner who has never been qualified or certified as a nurse practitioner in California or in any other state to meet specified requirements, including possessing a master's degree in nursing, a master's degree in a clinical field related to nursing, or a graduate degree in nursing, and to have satisfactorily completed a nurse practitioner program approved by the board.

Ch. 345 (AB 2296) Leno. Alcoholic beverages: issuance of liquor licenses: protests.

(1) Existing law provides that protests against the issuance of a liquor license may be filed with the Department of Alcoholic Beverage Control. Existing law permits the department to reject protests, except protests made by a public agency, public official, or governing body of a city or county, it determines to be false, vexatious, or without reasonable or probable cause. Existing law also permits a protestant whose protest has been rejected to file an accusation with the department, in which case the department is required to hold a hearing, as specified.

This bill would also permit the department to reject protests it determines to be frivolous.

(2) Existing law requires, in the case of a protest of the issuance of a liquor license, that a hearing be held not more than 60 days after the receipt of the protest by the State Office of Administrative Hearings.

This bill would repeal this hearing requirement and instead would establish procedures to be followed in cases in which the department recommends that a license be issued, notwithstanding that one or more protests have been accepted by the department. Under these procedures, the department would be required to notify the applicant and any party whose protest has been accepted in writing of its determination. The bill would provide for a hearing upon the request of any of these protesting parties who have filed a verified protest in a timely fashion pursuant to existing law, authorize the department to accept a late request for a hearing, limit the issues that may be determined at the hearing, provide that the protests of any person who did not request a hearing under these provisions shall be deemed withdrawn, authorize the department to issue the license without any further proceedings if no request for hearing is filed with the department, and provide that the protest is deemed withdrawn if the person requesting the hearing fails to appear at that hearing.

Ch. 346 (AB 2376) Bates. Common interest developments: architectural review.

The Davis-Stirling Common Interest Development Act defines and regulates common interest developments. The act requires that a common interest development have a recorded declaration, and the act defines governing documents as the declaration, and any other documents, such as the bylaws, operating rules, and articles of incorporation, which govern the operation of the development. The governing documents may regulate the physical features of the development. Existing law requires that common interest development operating rule changes satisfy certain criteria and applies these requirements only to operating rules relating to specified subjects. Existing law exempts common interest developments that are limited to industrial or commercial uses, as specified, from the application of certain provisions of the act.

This bill would require the procedures of common interest development associations for reviewing and approving proposed physical changes to a member's separate interest to satisfy the requirements regarding operating rules described above.

This bill would revise the definition of a common interest development that is limited to industrial or commercial use for purposes of exempting that development from certain provisions of the act. The bill would include in these exemptions provisions regarding physical changes in a separate interest or the common area, as specified.

The bill would provide that, if a common interest development association's governing documents require association approval before an owner may make a physical change to the owner's separate interest or to the common area, the association must satisfy specified requirements in reviewing a proposed change, including providing a fair, reasonable, and expeditious procedure for making its decision, as specified, and making a decision on a proposed change in writing. The bill would provide that an applicant whose proposal is denied is entitled to reconsideration at an open meeting of the board of directors of the association, except as specified. The bill would provide that its provisions do not authorize a change to the common area that is inconsistent with the association's governing documents or governing law. The provisions of the bill would not apply to common interest developments that are limited to industrial or commercial uses, as specified. The bill would require an association to provide notice annually of any requirements for association approval of physical changes to property, as specified.

The bill would also incorporate additional changes to Section 1357.120 proposed by AB 1836 and this bill to take effect only if both bills are enacted and become effective on or before January 1, 2005, and this bill is enacted last.

This bill, in addition, would make one of its provisions operative only if AB 1836 is enacted and becomes effective on or before January 1, 2005, and adds a specified section to the Civil Code.

Ch. 347 (AB 2390) Reyes. Dentistry.

(1) Existing law, the Dental Practice Act, provides for the licensure and regulation by the Dental Board of California of those engaged in the practice of dentistry. Existing law provides that a person practices dentistry if the person, among other things, manages or conducts as manager, proprietor, conductor, lessor, or otherwise, in any place where dental operations are performed.

This bill would exclude from the unlicensed practice of dentistry certain clinics and other entities that own or manage places where dental operations are performed if they comply with various requirements.

(2) Existing law authorizes a dentist to operate one mobile dental clinic or unit that is registered and operated in accordance with regulations adopted by the board. Existing law also imposes specified registration requirements on a dentist who maintains additional places of practice. Other provisions of existing law, the Mobile Health Care Services Act, require, subject to specified exemptions, licensure by the State Department of Health Services to operate a mobile service unit.

This bill would exempt certain mobile service units from the provisions of the Dental Practice Act that regulate mobile dental clinics or units and additional places of practice.

(3) Existing law requires a dentist who desires to have more than one place of practice to pay a fee to, and receive permission in writing from, the board prior to opening an additional place of practice. This requirement does not apply to a dentist who also practices in certain primary and specialty care clinics.

This bill would further exempt from this requirement a dentist who also practices in clinics operated by the federal government, a federally recognized Indian tribe, or a community clinic open for limited services no more than 20 hours per week. The bill would make corresponding changes.

#### Ch. 348 (AB 2429) Chavez. Health Care Providers' Bill of Rights.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975 (the Knox-Keene Act), provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. Under the Knox-Keene Act, the Health Care Providers' Bill of Rights prohibits a contract between a health care service plan and a health care provider from including a term authorizing the plan to change a material term of the contract unless the parties have agreed to it or it is required to comply with state or federal law or with accreditation requirements of a private sector accreditation organization.

This bill would exempt a contract from this prohibition if it is between a noninstitutional provider and a health care service plan that provides benefits to enrollees or subscribers covered under the Medi-Cal or Healthy Families programs and compensates the provider on a fee-for-service basis and extends to the provider specified rights to negotiate the change and to terminate the contract.

Because the bill would specify additional requirements under the Knox-Keene Act, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 349 (AB 2615) Committee on Higher Education. Public postsecondary education.

(1) Existing law authorizes a student who is enrolled at a campus of the California Community Colleges, the California State University, or the University of California and who meets certain requirements, to enroll, without formal admission, in a maximum of one course per academic term at a campus of either of the other public segments of higher education, on a space-available basis, at the discretion of the appropriate campus authorities on both campuses. Existing law requires the California Community Colleges, the California

State University, and the University of California, to evaluate cross-enrollment and report its findings to the California Postsecondary Education Commission on or before June 30, 2002. Existing law requires the California Postsecondary Education Commission to prepare its own report based on the first report and submit that report, with recommendations, to the Governor and the Legislature on or before December 1, 2002.

This bill would repeal those obsolete reporting provisions.

(2) Existing law, known as the Archie-Hudson and Cunneen School Technology Revenue Bond Act, authorizes the California School Finance Authority to issue bonds to finance, among other things, the establishment of computer-based networks and telecommunications systems for instructional purposes by the University of California, the California State University, and the California Community Colleges.

This bill would repeal the act, but would provide that the repeal would not impair the obligation of bonds issued and sold under the act prior to January 1, 2005, and would require public officers and agencies to continue to perform those obligations as if the act had not been repealed.

(3) Existing law establishes the Board of Governors of the California Community Colleges, and specifies the duties of the board of governors with respect to the management, administration, and control of community colleges. Among other things, existing law requires the board of governors to develop and submit to the Governor, every 3 years, a diversity paper concerning its own membership, providing the board's assessment of its role in statewide representation of minorities, women, and the disabled.

This bill would require that the diversity paper also be submitted to the respective chairs of the Assembly Committee on Higher Education and the Senate Committee on Education.

(4) Existing law authorizes the board of governors to impose restrictions on interdistrict attendance at a community college district if the board finds that any of several specified conditions exist with respect to that district. Existing law also authorizes the board of governors to retain in any fiscal year up to 5% of the apportionment of a community college district that is found to violate the provisions relating to interdistrict attendance. Existing law further requires the board of governors to annually report to the Legislature and the Governor regarding any restrictions the board imposes under this provision, statistical information relating to interdistrict attendance, and any retention of funds it undertakes pursuant to these provisions.

This bill would delete the requirement of the annual report.

Ch. 350 (AB 2873) Garcia. Child abuse prevention: citizen review panels.

Existing law establishes the Office of Child Abuse Prevention in the State Department of Social Services, for the purpose of planning, improving, developing, and carrying out programs and activities relating to the prevention, identification, and treatment of child abuse and neglect. Existing federal law generally requires every state that receives a federal grant for child abuse and neglect prevention treatment programs to establish not less than 3 child abuse citizen review panels. Existing federal law requires a citizen review panel to examine the policies, procedures, and practices of state and local agencies, and where appropriate, specific cases, to evaluate the extent to which state and local agencies are effectively discharging their child protection responsibilities. Existing federal law prevents members of a citizen review panel from disclosing information about any specific child protection case, subject to civil sanctions to be imposed by the state.

This bill would conform state law to federal law regarding the establishment and duties of a citizen review panel. The bill would provide that a violation of the bill's confidentiality requirements may be punishable by a \$500 civil fine.

Ch. 351 (AB 3023) Matthews. Disciplinary actions: reporting.

Existing law establishes various boards that license and regulate healing arts practitioners. Under existing law, these boards are authorized to take disciplinary action against their

licensees for unprofessional conduct that may result in the revocation or suspension of the practitioner's license.

This bill would require these boards to report, within 10 working days, specified information to the State Department of Health Services, including the revocation or suspension of a practitioner's license.

Ch. 352 (AB 3045) Committee on Agriculture. Milk: inspection fees.

Existing law requires every person that is engaged in the production of market milk outside the jurisdiction of an approved milk inspection service and every person engaged in the processing, manufacture, or distribution of milk, milk products, or products resembling milk products, or in the processing, manufacture, or freezing of ice cream, ice milk, sherbet, or any similar frozen product to pay a cost-related inspection fee to the Secretary of Food and Agriculture. Existing law requires the secretary to fix the fee for dairy farm inspection, as specified.

This bill would require the secretary to charge a dairy farm all actual direct costs for initial and any followup dairy farm inspections for a facility out of compliance in the initial inspection, as specified.

Ch. 353 (AB 3071) Committee on Revenue and Taxation. Income tax: corporation tax: "S" corporation.

Existing income tax laws provide that an individual who made a joint return may elect, within 2 years of the date collection activities are initiated, to be relieved from liability for additional taxes and penalties if, among other things, that individual did not know of, and had no reason to know of, an understatement of tax attributable to erroneous items of the other individual filing the joint return. Existing law, citing the provisions that authorize the 2-year election period, erroneously refers to the authorized 2-year election period as a "four-year" period. Existing law also requires any officer or employee of the State Board of Equalization to perform functions, related to unemployment insurance, in accepting applications for seller's permits.

This bill would repeal that requirement, would make technical changes to remove the erroneous reference to a "four-year" period of time, and would clarify that the election period is 2 years from the date collection activities are initiated. This bill would also make additional technical, nonsubstantive changes.

The Corporation Tax Law, in modified conformity with federal income tax laws, provides that corporations with a valid "S" corporation election for federal income tax purposes are treated as "S" corporations for state purposes. For federal income tax purposes, a corporation that used the last-in, first-out (LIFO) method of accounting for its inventory for the taxable year before an "S" election becomes effective must include the LIFO recapture amount in its taxable income, and report and pay the recaptured income in 4 equal annual installments. The LIFO recapture amount is not included in the amount of federal quarterly estimated tax payments required to be made by the corporation for any of the taxable years in which a LIFO tax installment is due. The Corporate Tax Law includes the LIFO recapture amount in the measure of estimated tax, which conflicts with the federal annual installment provisions.

This bill would conform to federal income tax laws by excluding a LIFO recapture amount from the computation of estimated tax payments required to be paid for any taxable year when an annual installment of LIFO recapture tax is due.

Ch. 354 (AB 3073) Committee on Revenue and Taxation. Property tax: qualified contaminated property: limited liability companies: income tax: claim of right.

(1) The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value" or, thereafter, the appraised value of that real property when purchased,

newly constructed, or a change in ownership has occurred. Provisions of the California Constitution enacted by initiative in 1998 permit taxpayers whose property was affected by contamination to transfer the base year value, as provided, of qualified contaminated property, as defined, to a newly constructed property or a replacement property of equal or lesser value, as specified, or to have repair or replacement construction excluded from reappraisal as “new construction” if certain conditions are met. Existing law implements the initiative and establishes a method for determining base year value for transfers under those provisions.

This bill would further clarify those provisions by requiring that a replacement property be comparable to the qualified contaminated property, expressly defining the phrase “equal or lesser value” of replacement property, specifying the type of information required to be provided by the taxpayer to the assessor’s office, and imposing a 3-year time limit for requesting the tax property relief.

(2) The California Constitution authorizes the Legislature to exempt from taxation property used exclusively for religious, hospital, or charitable purposes and owned or held in trust by corporations or other entities. Existing property tax law, in accordance with those provisions of the California Constitution, provides an exemption, known as the “welfare exemption,” for property used exclusively for religious, hospital, or charitable purposes and owned or held in trust by corporations, community chests, funds, or foundations if certain conditions are met.

This bill would clarify that the exemption is also available for property used exclusively for religious, hospital, or charitable purposes and owned or held in trust by limited liability companies, if all the existing requirements are satisfied.

(3) Under existing law, a limited liability company is authorized to engage in any lawful business activity, with specified exceptions.

This bill would specify that this may include both for-profit and not-for-profit activities.

(4) Existing federal income tax law provides that if a taxpayer includes an item of income in gross income because it appears that the taxpayer has an unrestricted right to that income, and the taxpayer is subsequently required to repay that item, the taxpayer may deduct the repayment in the year the repayment is made and the taxes are to be calculated in a specified manner.

This bill would, under the Personal Income Tax Law, provide specified conformity with those federal provisions.

(5) Existing income and corporation tax laws authorize the Franchise Tax Board to enter into voluntary disclosure agreements with specified entities.

This bill would authorize the board to also enter into those agreements with limited liability companies and their members if specified requirements are met.

(6) This bill would take effect immediately as a tax levy. However, specified sections of this bill shall apply to lien dates occurring on and after January 1, 2005.

Ch. 355 (AB 3077) Committee on Local Government. Local government reorganization.

(1) Existing law requires the board of supervisors of a county to include in the Local Appointments List all appointments of public members and alternate public members made to the local agency formation commission pursuant to specified provisions of the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 that concern commission creation and the selection of commissioners generally.

This bill would additionally require the board of supervisors to include in the Local Appointments List the appointment of public members and alternate public members made pursuant to the provisions of that act that specify the membership of commissions in specific counties, thereby imposing a state-mandated local program.

(2) Existing law defines the term “subject agency,” for the purposes of the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, as each district or

city for which a change of organization is proposed or provided in a reorganization or plan of reorganization.

This bill instead would define “subject agency” as each district or city for which a change of organization or reorganization is proposed or provided in a plan of reorganization.

(3) Existing law prescribes certain procedures, applicable until January 1, 2005, to the detachment of territory from the Broadmoor Police Protection District.

This bill would extend the operation of those provisions until January 1, 2006.

(4) Existing law specifies that a city or county officer may serve as a member of the commission while holding office as a city or county officer, but that upon ceasing to be a city or county officer, his or her membership on the commission shall be considered vacant.

This bill would specify that a district officer may serve as a member of the commission under the same circumstances.

(5) Existing law requires that determinations made by a commission regarding specified matters shall be consistent with the spheres of influence of the affected local agencies.

This bill would also require that determinations made by the commission regarding annexations of unincorporated islands of territory shall be consistent with the spheres of influence of the affected local agencies.

(6) Existing law concerning the exchange of property tax revenue between local agencies when a city is incorporated or a district is formed defines “prior fiscal year” for the purposes of calculating the amount of the exchange.

This bill would revise that definition.

(7) Existing law requires the executive officer of the commission to give mailed notice of a protest meeting to be held on a proposal to landowners owning land within any territory proposed to be formed into, annexed to, or detached from, an improvement district.

This bill would also require, if the subject territory is inhabited, that the executive officer give mailed notice to all registered voters residing within the affected territory.

(8) Existing law requires the commission, in any resolution ordering a formation or an incorporation subject to an election, to provide for the establishment of an appropriations limit, as specified.

This bill would also require the commission to provide for the establishment of an appropriations limit in any resolution ordering a reorganization subject to an election.

(9) Existing law specifies the procedures for the conduct of special elections relating to changes of organization or reorganization.

This bill would authorize those special elections to be conducted wholly by mailed ballot, as specified.

(10) This bill would also make technical, nonsubstantive changes.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 356 (AB 3080) Committee on Judiciary. California State Bar.

Existing law, the State Bar Act, provides for the licensing and regulation of attorneys by the State Bar of California.

This bill would require the State Bar to publicize to its members in the annual dues statement and other appropriate communications that its members have the right to limit the sale or disclosure of member information not reasonably related to regulatory purposes. The bill would require the State Bar, in those communications, to note the location of its privacy policy and a simple procedure by which a member may exercise his or her right to prohibit

or restrict the sale or disclosure of member information. The bill would require the State Bar to report, on or before May 1, 2005, to the Assembly and Senate Committees on Judiciary regarding the procedures it has in place to ensure that members can appropriately limit the use of their member information.

Ch. 357 (SB 64) Speier. Homeowners' insurance.

Existing law requires the Department of Insurance, until January 1, 2006, to establish a program for the mediation of disputes between insured complainants and insurers involving certain earthquake and auto insurance claims, except as specified. Existing law sets forth specified procedural requirements relating to the mediation of these disputes.

This bill would extend the operation of these provisions to January 1, 2008. In addition, it would require the department, until that date, to establish a program for the mediation of disputes arising from claims under policies between insured complainants and insurers regarding residential property insurance losses, other than earthquake losses, occurring after September 30, 2003, and for which the Governor has declared a state of emergency, except as specified. It would allow the department to refer to mediation any of these disputes in which the parties to the contract wish to discuss possible payments beyond policy limits. The bill would set forth specified procedural requirements relating to the mediation of these disputes, and would impose certain limits on the fees that may be set by the Insurance Commissioner for mediations pursuant to these provisions.

The bill would prohibit the department from referring to mediation any earthquake or auto insurance claim made on or after January 1, 2006. It would require the commissioner, by October 1, 2004, to report to the Governor and the Legislature on the mediation program, as specified.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 358 (AB 72) Bates. Child care providers.

Existing law establishes child care resource and referral programs, administered by public or private resource and referral agencies, which provide referrals to child care services and assistance to child day care providers. Existing law requires every child care resource and referral program to advise every person who requests a child care referral of his or her right to the licensing information of a licensed child day care facility required to be maintained at the facility, and to access any public files pertaining to the facility that are maintained by the State Department of Social Services Community Care Licensing Division.

Existing law requires the State Department of Social Services to notify a resource and referral agency when the department takes specified actions with respect to the license of a child day care facility within the resource and referral agency's jurisdiction.

This bill would replace references under these provisions to a resource and referral agency with references to a resource and referral program. The bill would, in addition, require every child care resource and referral program, within 2 days of notification by the department, to remove a licensed child day care facility, with a revocation or a temporary suspension order, or that is on probation, as defined, from the program's referral list.

This bill would require a program, within 2 business days of receiving notice, to notify entities operating under the child care resource and referral programs and the child care for recipients of the CalWORKs program of a licensed child day care facility with a revocation or a temporary suspension order, or that is on probation.

This bill would require a program upon notification of a revocation or a temporary suspension order to terminate payment to the licensed child day care facility within 2 business days. This bill would also require an agency to notify the parents and the licensed child day care facility in writing within 2 business days that payment has been terminated and the reason for the termination.

This bill would require the department to notify the resource and referral program for a child day care facility's jurisdiction within one business day of finding that physical or sexual

abuse has occurred at a child day care facility or within 2 business days of the revocation or temporary suspension of the license of, or placement on probation of, the facility.

This bill would require a licensed child day care facility to post its license in a prominent, publicly accessible location in the facility, and would require a family day care home to satisfy this posting requirement during the hours when clients are present. Since violation of this requirement would be a crime under existing law, this bill would impose a state-mandated local program by changing the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 359 (AB 323) Parra. Nonprofit veteran service agencies.

Existing law authorizes any state agency, city, county, political subdivision, or district to, without advertising or calling for bids, purchase materials and supplies manufactured by, and services provided by, certain nonprofit California corporations, and to equitably apportion the business among those corporations, provided certain requirements are met.

This bill would allow a nonprofit veteran service agency, as defined, to be eligible for certification as a small business, as described, and be granted a small business bid preference, provided certain requirements are met.

This bill would state the intent of the Legislature in enacting these provisions.

#### Ch. 360 (AB 403) Correa. Check sellers and proraters: exemptions.

Existing law, the Check Sellers, Bill Payers and Proraters Law, prohibits a person from engaging in certain forms of business for compensation without a license from the Commissioner of Corporations, including selling checks, drafts, money orders, or other commercial paper serving the same purpose. Existing law exempts a nonprofit community service organization from the Check Sellers, Bill Payers and Proraters Law if the nonprofit community service organization meets certain criteria, including that it adopts and implements on a continuous basis policies or procedures of best practices that are designed to prevent theft and misappropriation of funds.

This bill would provide that improper debt management or debt settlement practices include the failure to implement policies that specifically prohibit credit counselors from receiving financial incentives or additional compensation based on the outcome of the counseling process and the failure to disclose or prohibit various other practices. The bill would also require the trust account in which the nonprofit community service organization deposits money received from a consumer to be an account maintained specifically for purposes of administering a debt management plan or debt settlement plan.

The bill would make these provisions inoperative upon the enactment of a statute requiring the licensure and regulation of nonprofit community service organizations providing consumer credit counseling.

#### Ch. 361 (AB 425) Campbell. City of Newport Beach: public trust lands.

Existing law grants in trust to the City of Newport Beach all tide and submerged lands, whether filled or unfilled, bordering upon and under the Pacific Ocean or Newport Bay, as described, subject to specified conditions. Existing law specifies that, for purposes of provisions related to the City of Newport Beach establishment of a Tideland Capital Fund, acquisition or improvement of real property by the city for purposes of enhancing the public trust lands administered by the Department of Fish and Game shall be deemed to be authorized by, and be in furtherance of, the trust created pursuant to existing law.

This bill would instead provide that, for purposes of those provisions acquisition or improvement of real property by the City of Newport Beach for purposes of enhancing the

Upper Newport Bay Ecological Reserve shall be deemed to be authorized by, and in furtherance of, the trust created by those specified provisions.

The bill would authorize, upon formal concurrence of the State Lands Commission, that specified tide and submerged lands acquired by the City of Newport Beach and dedicated in trust to the city, be transferred and conveyed by the city to the County of Orange to be held in trust by the county pursuant to the terms of a specified statute. The bill would further permit the County of Orange, upon formal concurrence of the State Lands Commission, to transfer and convey to the City of Newport Beach specified tide and submerged lands to be held in trust by the city pursuant to the terms of a specified statute.

Ch. 362 (AB 474) Salinas. Districts: record retention.

(1) Existing law provides that the legislative body of a district may authorize the destruction or disposition of any record, paper, or document that is more than 2 years old and was prepared or received in any manner other than pursuant to state statute, and that these items need not be copied or reproduced prior to this destruction or disposition.

Existing law also requires the Secretary of State to establish the Local Government Records Program to be administered by the State Archives to establish guidelines for local government records retention, as specified.

This bill would authorize the legislative body of a district to destroy or dispose of any record, as defined, by either (a) authorizing the destruction or disposition of any category of records if it adopts a resolution finding that destruction or disposition of this category of records will not adversely affect any interest of the district or of the public and the district maintains a list of the categories of records destroyed or disposed of, or (b) adopts a record retention schedule that complies with guidelines provided by the Secretary of State, that classifies all of the district's records by category, and that establishes a standard protocol for destruction or disposition of records.

This bill also would provide that, notwithstanding any other provision of law, a district is not authorized to destroy or dispose of specified records, including, among others, records that relate to formation, change of organization, or reorganization of the district, a district ordinance unless it has been repealed, invalid, or unenforceable for 5 years, minutes of a meeting of the legislative body of the district, and records that specify the amount of compensation paid to district employees, offices, or independent contractors until 7 years after the date of payment.

(2) Existing law provides that the legislative body of a district may authorize the destruction of any record, paper, or document that is not expressly required by law to be filed and preserved if copies are made as specified.

This bill would provide that this provision remains, notwithstanding the other provisions of law relating to district records described above.

Ch. 363 (AB 1138) Frommer. Vehicles: license plates and placards: parking privileges: persons with disabilities.

(1) Existing law authorizes the Department of Motor Vehicles to issue special identification license plates or distinguishing placards to disabled persons or disabled veterans for the purpose of allowing parking for unlimited periods in specified zones. A person using a distinguishing placard for these parking privileges is required to present identification and evidence of the issuance of the placard upon the request of any peace officer or person authorized to enforce parking laws. Failure to present the requested documents is a rebuttable presumption that the placard is being misused and that the associated vehicle has been illegally parked. The peace officer or parking enforcement person is authorized to confiscate any placard being used for parking purposes that benefit a person other than the person to whom the placard was issued, except as specified.

This bill would extend these provisions to include special license plates, rather than special identification plates, issued to disabled persons or disabled veterans for the specified parking

privileges and would extend to a peace officer only the authority to confiscate a misused special license plate.

This bill, on and after July 1, 2005, would require a disabled person or disabled veteran issued a special license plate, upon request, to present to a peace officer, or person authorized to enforce parking laws, ordinances, or regulations, a certification form, as prescribed by the department, that substantiates the eligibility of the disabled person or veteran to possess the plate.

Because a violation of these provisions would be a crime, this bill would impose a state-mandated local program.

(2) Existing law authorizes local authorities to prohibit or restrict the parking or standing of a vehicle on streets or highways or from a disabled person's parking stall or space of a privately or publicly owned or operated offstreet parking facility within their jurisdiction when the vehicle displays a distinguishing placard and the department's record for the identification number assigned to the placard indicates that the card has been reported as lost or stolen, or was issued to a person who has been reported as being deceased for a period exceeding 60 days.

This bill would extend the specified authority to include situations where the department's records indicate that the distinguishing placard is reported surrendered, canceled, revoked, or expired.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 364 (AB 1175) Koretz. The Holocaust and genocide.

Existing law, known as the Holocaust, Genocide, Human Rights, and Tolerance Education Act of 2003, establishes the California Taskforce on Holocaust, Genocide, Human Rights, and Tolerance Education, as an advisory body, and establishes the Center for Excellence on the Study of the Holocaust, Genocide, Human Rights, and Tolerance as a pilot program at the California State University, Chico, to promote education regarding the Holocaust, genocide, human rights, and tolerance. Existing law requires the center to report to the Secretary for Education, the Governor, and the Legislature by January 31, 2004. Existing law repeals the Holocaust, Genocide, Human Rights, and Tolerance Education Act of 2003 on January 1, 2005.

This bill would extend the operation of the act to January 1, 2008. The bill would extend the reporting date to January 31, 2007. The bill would enact restrictions concerning the receipt of state funding for the center.

#### Ch. 365 (AB 1272) Dutra. Vehicles: license plates.

Under existing law, the Department of Motor Vehicles licenses and regulates dealers of motor vehicles. Existing law requires that when 2 license plates are issued by the department for use upon a vehicle, they shall be attached to the vehicle for which they were issued, one in the front and the other in the rear.

This bill would provide that upon the retail sale or lease of a motor vehicle for which the department issues 2 license plates, a dealer may not deliver the motor vehicle unless certain conditions are met regarding the securing of the front license plate.

This bill would prohibit a vehicle manufacturer or distributor from selling or distributing in this state a new motor vehicle for which the department issues 2 license plates, unless that motor vehicle is equipped or provided with a bracket or other means of securing the license plates.

Because under existing law, it is a crime to violate or fail to comply with the Vehicle Code, this bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 366 (AB 1393) Kehoe. Child care: before and after school programs.

Existing law establishes the Six-to-Six Before and After School Program for the purpose of creating locally administered and locally funded before and after school enrichment programs that partner schools and communities to provide academic and literacy support and safe, constructive alternatives for youth in kindergarten and grades 1 to 9, inclusive. Existing law repeals the program on January 1, 2005.

This bill would extend the program for 4 years and repeal it on January 1, 2009.

Ch. 367 (AB 1403) Nunez. Medical care.

Existing law establishes the California Physician Corps Loan Repayment Program of 2002 in the Division of Licensing of the Medical Board of California. Under existing law, the program provides financial incentives, as specified, to a physician and surgeon for practicing in a medically underserved community.

This bill would rename the program the Steven M. Thompson Physician Corps Loan Repayment Program.

Ch. 368 (AB 1667) Kehoe. Criminal procedure.

Existing law establishes various statutes of limitations for various offenses. Certain provisions of existing law extend the statutes of limitations for certain sex offenses, and revive, for purposes of prosecution, certain offenses for which the statute of limitations had expired. The provisions reviving expired statutes of limitations have been held by the United States Supreme Court to be unconstitutional.

This bill would repeal those provisions of law that have been held to be unconstitutional. It would also reorganize certain other provisions relating to time limitations on filing criminal charges.

Ch. 369 (AB 1706) Committee on Judiciary. Assignment orders: support: employment.

Existing law provides a mechanism for the enforcement of support obligations. Existing law requires the court to include in its order an assignment order that requires an employer of an obligor to pay to the obligee a portion of the obligor's earnings. Existing law prohibits that employer from using an assignment order as grounds for refusing to hire a person or for discharging or taking disciplinary action against an employee.

This bill would further prohibit an employer from using an assignment order as grounds for denying a promotion to an employee or for taking any other action adversely affecting the terms and conditions of employment of an employee.

Ch. 370 (AB 1799) Mullin. Personal income taxes: contributions: Alzheimer's disease.

The Personal Income Tax Law allows taxpayers, until January 1, 2005, to contribute amounts in excess of their tax liability for the support of the California Alzheimer's Disease and Related Disorders Research Fund. Existing law also provides that these contribution provisions are repealed if in any calendar year, beginning in 2000, the Franchise Tax Board estimates that the total amount so contributed will be less than the prescribed amount, as may be annually adjusted.

This bill would extend the operation of those contribution provisions to January 1, 2010.

Ch. 371 (AB 1847) Koretz. Vehicles: removal.

Existing law authorizes a peace officer, as defined, or a regularly employed and salaried public employee, who is engaged in directing traffic or enforcing parking laws and regulations, to remove a vehicle located within the territorial limits in which the officer or employee is allowed to act under specified and enumerated circumstances.

This bill would additionally allow a trained volunteer, as defined, of a state or local law enforcement agency who is engaged in directing traffic or enforcing parking laws and regulations to remove a vehicle under a limited number of the same circumstances.

#### Ch. 372 (AB 1894) Longville. Seizure of business records.

Existing law authorizes the seizure of business records by a governmental agency pursuant to a search warrant supported by probable cause to believe that the records constitute evidence of the commission of a crime. The court is authorized to order the seized property, including business records, returned upon a motion made on specified grounds, including the grounds that the property taken is not the same as that described in the warrant, the warrant was not supported by probable cause, the warrant or its execution violated state or federal constitutional standards, or the property has not been offered or will not be offered as evidence against the defendant.

This bill would provide a procedure for an entity whose business records have been seized by a government agency to demand that agency provide to it, within a 10 court day period, copies of the business records or access to the original records so that the entity can make copies of the records. The demand for the records would have to be supported by a declaration, under penalty of perjury, that denial of access to the records or copies of the records would either unduly interfere with the entity's ability to conduct its regular course of business or obstruct the entity from fulfilling an affirmative obligation that it has under the law. The government agency would be authorized to refuse to produce copies of the records or deny access to the records if a court determined, as provided, that this declaration was rebutted, or that possession of the records by the entity would pose a significant risk of ongoing criminal activity, or would impede or interrupt the investigation, or that other specified circumstances relating to the records applied. This bill would specify procedures relating to requests for access to or copies of seized records, and relating to government agency refusals to copy or provide access to those records, including in camera hearings in specified circumstances.

By expanding the crime of perjury, requiring the expenditure of local enforcement resources, and by increasing the duties of local officials, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 373 (AB 1913) Cohn. Foster care providers: evaluation and criminal records checks.

(1) Existing law sets forth circumstances under which a minor may be adjudged a dependent child of the juvenile court, and establishes procedures to determine the temporary placement of a dependent child.

Existing law authorizes temporary placement of a minor child in the home of an able and willing relative, or an able and willing nonrelative extended family member, upon

completion of an assessment of the suitability of the relative or nonrelative extended family member by the county welfare department. Under existing law, the standards used to evaluate and grant or deny approval of the home of a relative or nonrelative extended family member for the placement of a child are required to be the same standards as set forth in regulations for licensing foster family homes. Under existing law, these provisions become inoperative and are to be replaced with similar provisions on January 1, 2006.

Existing law separately provides for Aid to Families with Dependent Children (AFDC) for children who have been removed from their homes in certain instances.

This bill would delete the date upon which the above provisions become inoperative and would repeal the alternative provisions. The bill would require, immediately following the placement of a child in the home of a relative or a nonrelative extended family member, that the county welfare department evaluate and approve or deny the home for purposes of AFDC-FC eligibility. By expanding the duties of county welfare departments in this regard, the bill would impose a state-mandated local program.

(2) Existing law requires the county social worker to visit the home of a relative or prospective guardian who is not a licensed or certified foster parent, prior to placing the child in that home, to ascertain the appropriateness of the placement. Existing law also requires the court or county social worker to initiate a state and federal criminal records check through the California Law Enforcement Telecommunications System, and within 5 days after that to initiate a fingerprint clearance check of the person through the Department of Justice. Existing law requires the court and county social worker to consider the home of the person for placement of the child, if the fingerprint clearance check indicates that the person has no criminal record. Existing law provides until January 1, 2005, that the child shall not be placed in the home of the person if the fingerprint clearance check indicates that the person has been convicted of a crime that would preclude licensure as a community care facility, unless a criminal records exemption approved by the Director of Social Services has been granted by the county.

This bill would revise these provisions, including extending their application to January 1, 2010, authorizing the placement of a child, based on the results of the criminal records check, instead of the fingerprint clearance check, and making other, technical changes.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 374 (AB 1934) Leslie. Bear Lake Reservoir: recreational use.

Existing law, with certain exceptions, prohibits recreational use, in which there is bodily contact with water, in a reservoir in which water is stored for domestic use and establishes water standards for those exempted reservoirs.

This bill would, in addition, until January 1, 2007, exempt from this prohibition recreational activity in which there is bodily contact with water by any participant in Bear Lake Reservoir, would establish standards to be met, including water treatment, monitoring, and reporting requirements, and would make a conforming change.

This bill would make findings and declarations regarding the necessity of a special statute.

Ch. 375 (AB 1948) Aghazarian. Placement of minors: group homes.

Existing law authorizes the juvenile court to place a minor who has been adjudged a ward of the court under the care, custody, and control of the probation officer for placement in a licensed community care facility, such as a group home, as specified.

This bill would provide that if a minor who has been found to have committed a felony is placed in a licensed group home outside the ward's county of residence, the probation department of the receiving county may disclose to the municipal police department or the sheriff's department of the county in which the group home is located, specified information relating to the minor, the offense committed, and the address of the group home.

Ch. 376 (AB 1955) Vargas. Life insurers: nonprofit mutual benefit corporations.

Existing law provides that incorporated insurers are subject to specified provisions of law relating to for-profit corporations. Existing law authorizes the existence of domestic mutual life insurers, and provides that these insurers are subject to the provisions of law relating to for-profit corporations.

This bill would allow domestic incorporated life insurers to be organized, instead, under provisions of law relating to nonprofit mutual benefit corporations, and would allow existing domestic incorporated life insurers, with the submission of a filing fee and the consent of the Insurance Commissioner, to be converted to insurers organized under these provisions of law. It would provide that an insurer so organized shall have the same powers held by, and shall be subject to all provisions of law regarding insurance applicable to, a domestic incorporated stock life insurer, except as specified. The bill would set forth minimum surplus requirements for an insurer organized as a nonprofit mutual benefit corporation, and would require that an insurer so organized have at least one member.

Ch. 377 (AB 2063) Negrete McLeod. Resource conservation: Chino Agricultural Preserve.

The California Wildlife, Coastal, and Park Land Conservation Act (Proposition 70) provides funding from the sale of bonds for the acquisition, development, rehabilitation, protection, or restoration of park, wildlife, coastal, and natural lands in California.

This bill would authorize the County of San Bernardino to sell property it owns within the Chino Agricultural Preserve that was purchased with those bond funds, provided the county meets the conditions required under that act for the sale, and other specified conditions, including using all the proceeds from the sale only for the acquisition of replacement land within the Chino Agricultural Preserve.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 378 (AB 2680) Negrete McLeod. State Teachers' Retirement System: headquarters building.

Existing law authorizes the Teachers' Retirement Board to remodel, equip, or construct an office building in Sacramento County for a permanent headquarters facility for the State Teachers' Retirement System. Existing law also gives the Board of Administration of the Public Employees' Retirement System the authority to acquire property for the use of the State Teachers' Retirement System, other state retirement systems, and other specified entities.

This bill would authorize the Teachers' Retirement Board to remodel, equip, or construct that building, in the greater metropolitan Sacramento area, as specified. The bill would also remove the State Teachers' Retirement System from the systems for which the Public Employees' Retirement Board has the authority to acquire property.

Ch. 379 (AB 2982) Pacheco. County employees' retirement: disability retirement.

(1) Under the County Employees Retirement Law of 1937, after the board of retirement determines that a member of the retirement system has been incapacitated for the performance of his or her duties but is capable of performing other duties, the appropriate county agency is requested to initiate and implement a rehabilitation plan pursuant to specified provisions of the Labor Code, which have been repealed.

This bill would require the appropriate county agency, after the board of retirement makes that determination with respect to a member who is incapacitated on or after January 1, 2004, to notify the member of suitable county positions and to consult with the member to develop a reemployment plan for approval by the member, as specified.

(2) Existing law provides that, if a member of a county retirement system, without reasonable cause, refuses an offer of alternative work within one year after being determined to be eligible for a disability retirement allowance, the agency employing the member may have the member's disability allowance discontinued.

This bill would make that provision applicable only to members who were incapacitated before January 1, 2004.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 380 (SB 246) Escutia. Courts: fines and penalties: collection.

(1) Existing law, upon approval by the Judicial Council, authorizes a court, city, county, city and county, or other public agency to collect specified payments by credit card, as specified.

This bill would further authorize those entities to collect those payments by debit card or electronic funds transfer.

(2) Existing law authorizes any county or court that implements a comprehensive program to identify and collect delinquent fines and forfeitures with or without a warrant, as specified, if the program includes a specified number of described components.

This bill would expand those described components to include, among others, participation in the Franchise Tax Board's Court-Ordered Debt Collections Program, use of skip tracing or locator resources or services, or use of private debt collectors.

(3) Under existing law, a court is authorized to order fines, fees, penalties, surcharges, or assessments, under varying circumstances. Existing law provides a procedure for the collection of those fines, fees, penalties, surcharges, and assessments by the courts and counties. Until January 1, 2006, existing law provides that delinquent fines, penalties, or restitution imposed by a superior or municipal court or an individual for specified criminal offenses be referred by the county or the state to the Franchise Tax Board for collection in certain instances.

This bill would additionally authorize a superior court to refer those delinquent fines, penalties, and restitution to the Franchise Tax Board for collection, as specified. The bill would require the Franchise Tax Board, in consultation with the Judicial Council, to seek whatever additional resources are needed to accept referrals from all 58 counties or superior courts. The bill would also delete the repeal date of those provisions thereby extending the provisions indefinitely.

Ch. 381 (SB 1088) Scott. Grants and annuities societies: investments.

Existing law allows grants and annuities societies to receive transfers of property, conditioned upon their agreement to pay an annuity to the transferor or the transferor's nominee, after obtaining a certificate of authority from the Insurance Commissioner. Existing law provides that the reserve required for each annuity contract issued by a grants and annuities society must be invested in certain investments, except that a society may invest in securities listed and traded on specified exchanges to the extent of the lesser of the society's net worth or 10% of its general investments.

This bill would allow a grants and annuities society to invest in these securities to the extent of the lesser of its net worth or 50% of its general investments.

Ch. 382 (SB 1670) Romero. Elections: poll standards.

Existing law requires the Secretary of State to adopt uniform standards for the training of precinct board members based upon the recommendations of a task force of members

appointed by the secretary. Existing law requires that the uniform standards address poll hours, among other things.

This bill would require that in addition to poll hours, the standards also address procedures concerning the opening and closing of polling locations on election day, and would require that procedures be developed to ensure that all eligible voters who arrive at the polling location prior to closing time are allowed to vote.

Ch. 383 (SB 1426) Ducheny. Department of Corrections: drug utilization.

Existing law authorizes the Department of Corrections to adopt regulations requiring manufacturers of drugs to pay the department a rebate for the purchase of drugs for offenders in state custody and to implement other cost-effective strategies for the procurement of drugs and medical supplies for offenders in state custody, as specified.

This bill would require the department to adopt policies, procedures, and criteria to identify selected medication categories for the development of utilization protocols based on best practices, and the use of generic and therapeutic substitutes, as appropriate, and to develop utilization and treatment protocols based on, among other criteria, the cost of medications, in coordination with the Department of General Services' prescription drug bulk purchasing program. The bill would require the department to report as part of the fiscal committee budget hearings on or before April 1, 2006, on the impact of the adoption of these policies and procedures. The bill would state that it is the intent of the Legislature that the department complete the implementation of these provisions utilizing the existing resources of the department.

Ch. 384 (SB 1490) Committee on Judiciary. State Bar of California: annual membership fee.

Existing law authorizes the State Bar of California, until January 1, 2005, to charge an annual membership fee of up to \$310 for active members of the State Bar.

This bill would extend the State Bar's authority to charge this membership fee to January 1, 2006.

Ch. 385 (SB 1855) Alpert. Homeowners' insurance: liability limits: disclosure.

Existing law requires that a certain disclosure form describing categories of homeowners' insurance coverage be provided to an applicant or insured prior to, or concurrent with, an application for or initial renewal of a homeowners' insurance policy, and every other year thereafter at the time of renewal.

This bill would revise that disclosure form, and would require the Insurance Commissioner, by December 1, 2005, to report to the Governor and the Legislature on the status of issues regarding residential property insurance and the effectiveness of the disclosure form.

Existing law prohibits a homeowners' policy from being issued or renewed unless it indicates on the declarations page, or on a separate disclosure form, specified information, including the limits of liability for the structure.

This bill would require that an insurer provide this information on the declarations page of the policy, and that the information include a specified statement regarding the valuation of the structure.

The bill would require that the above disclosure statement be accompanied by a California Residential Property Insurance Bill of Rights, as specified.

Ch. 386 (SB 87) Hollingsworth. State Highway Route 79.

Existing law requires the California Transportation Commission to relinquish to any city or county any portion of any state highway within the city or county that has been deleted from the state highway system by legislative enactment. These relinquishments become effective upon the first day of the next calendar or fiscal year, whichever first occurs after the effective date of the legislative enactment.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would authorize the commission to relinquish to the City of Temecula a specified portion of State Highway Route 79 located within Temecula's city limits, upon terms and conditions the commission finds to be in the best interests of the state, if the commission and the city enter into an agreement providing for that relinquishment.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 387 (SB 492) Ducheny. Housing: funds.

The existing Housing and Emergency Shelter Trust Fund Act of 2002 prescribes the allocation of bond money deposited in the Housing and Emergency Shelter Trust Fund by, among other agencies, the Department of Housing and Community Development. Existing law authorizes any city or county within the jurisdiction of the San Diego Association of Governments, until June 30, 2009, to self-certify its general plan housing element, as prescribed, and makes those cities and counties that are self-certified fully eligible, until January 1, 2010, to participate in any program created by, or receiving funds through, the Housing and Emergency Shelter Trust Fund Act of 2002 in an identical manner and to the same degree as those local jurisdictions deemed in substantial compliance with the requirements relating to housing elements that are reviewed by the department rather than being self-certified.

This bill would extend the authority for that self-certification until June 30, 2010.

Ch. 388 (SB 615) Cedillo. Income taxes: servicemembers.

The Personal Income Tax Law provides that gross income does not include compensation for military or naval service within the meaning of the federal Soldiers' and Sailors' Civil Relief Act of 1940 performed by a nonresident not domiciled in this state and attributable to a resident spouse solely because of the application of community property laws.

This bill would, for purposes of the Personal Income Tax Law or the Corporation Tax Law, or both, provide additional relief to servicemembers in conjunction with the recently enacted federal Servicemembers Civil Relief Act with respect to, among other things, the duration and term of stays of specified legal proceedings, applicable interest rates, residency for tax purposes, and tax treatment of compensation for military service.

This bill would take effect immediately as a tax levy.

Ch. 389 (SB 785) Ortiz. Medi-Cal: managed health care plan option.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons.

Existing law requires, at the time Medi-Cal eligibility is determined or redetermined for an applicant or beneficiary who resides in an area served by a managed health care plan in which Medi-Cal beneficiaries may enroll, that a county ensure that the applicant or beneficiary personally attend a presentation at which the applicant or beneficiary is informed of the managed care and fee-for-service options available regarding methods of receiving Medi-Cal benefits. Existing law requires, no later than 30 days following the date that a Medi-Cal beneficiary or applicant is determined eligible, that the beneficiary or applicant indicate his or her choice in writing between 2 health care options, as a condition of coverage for Medi-Cal benefits.

Existing law permits an applicant for Medi-Cal benefits to apply by mailing in a simplified application package. Existing law also provides for a single point of entry program in which a centralized processing entity accepts and screens applications for Medi-Cal benefits for the purpose of forwarding them to the appropriate counties.

This bill would require the department, upon the availability of federal funding, to modify the Medi-Cal mail-in application form, and other appropriate materials, and the single point-of-entry application form to allow applicants in counties served by managed health care plans to contact the enrollment contractor by using the Health Care Options toll-free

telephone number to request and receive enrollment materials before a Medi-Cal eligibility determination has been made.

Ch. 390 (SB 792) Sher. State parks: Martini Creek Bypass.

Existing law gives the Department of Transportation full possession and control of state highways and associated property. Existing law gives the Department of Parks and Recreation control of the state park system.

This bill would require the Department of Transportation to sell and transfer certain property under its control in the County of San Mateo as surplus state property to the Department of Parks and Recreation for state park purposes.

Ch. 391 (SB 1085) Murray. Vehicles: official traffic control signals: interruptive devices.

(1) Existing law prohibits a person from using, and prohibits any vehicle, other than an authorized emergency vehicle, from being equipped with, any device capable of sending a signal that interrupts or changes the sequence patterns of an official traffic control signal, unless that device or use is authorized by the Department of Transportation or local authorities, as specified. A willful violation of this prohibition that results in injury to, or the death of, a person is punishable by imprisonment in the state prison, or by imprisonment in a county jail for a period of not more than 6 months, and by a fine of not less than \$5,000 nor more than \$10,000. A willful violation of this prohibition that does not result in injury to, or the death of, a person is punishable by a fine of not more than \$3,000.

This bill would specify that this prohibition applies to a mobile infrared transmitter (MIRT).

The bill would increase to \$5,000 the maximum fine for a willful violation of the specified prohibition that does not result in injury to, or the death of, a person.

The bill would exempt a public transit passenger vehicle from the prohibition.

The bill would make it a felony or a misdemeanor, or an infraction, punishable as specified above, for a person to buy, possess, manufacture, install, sell, offer for sale, or otherwise distribute the above described devices, including a MIRT, unless the purchase, possession, manufacture, installation, sale, offer for sale, or distribution is for the use of the device by a peace officer or other person authorized to operate an authorized emergency vehicle or a public transit passenger vehicle in the scope of his or her duties. The bill, thereby, would establish a state-mandated local program by creating a new crime.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would become operative only if AB 340 is chaptered.

Ch. 392 (SB 1087) Soto. Highways: Safe Routes to School construction program.

(1) Existing federal law contains appropriations for a number of programs related to projects for the improvement of highway safety and the reduction of traffic congestion. Existing state law authorizes certain state and local entities to secure and expend the federal funds for these purposes, but provides for the repeal of these provisions on January 1, 2005.

This bill would extend this repeal date until January 1, 2008.

(2) Existing law requires, until January 1, 2005, the Department of Transportation, in consultation with the Department of the California Highway Patrol, to establish and administer a "Safe Routes to School" construction program pursuant to authority granted under specified federal law and to use federal transportation funds for construction of bicycle and pedestrian safety and traffic calming projects. Under existing law, the Department of Transportation is required to report to the Legislature regarding this program.

This bill would extend the repeal date for this program until January 1, 2008. The bill would also require the department to continue to study the effectiveness of the program and to report to the Legislature by March 1, 2007.

Ch. 393 (SB 1213) Scott. Vehicles: special interest license plates: California Arts Council.

Existing law requires the Department of Motor Vehicles to issue, for fees in specified amounts, a special interest license plate bearing a full-plate graphic design that depicts a significant feature or quality of the State of California and is approved by the department in consultation with the California Arts Council.

This bill would increase the amount of the fees imposed for issuance and renewal of the specified plates.

The bill would require the council to use the revenue derived from the fee increases exclusively for arts education and local arts programming, and would prohibit the council from using the revenue for its administrative costs.

Ch. 394 (SB 1359) Brulte. Medi-Cal: notices.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons.

This bill would require the department, in conjunction with the Department of Justice, to identify those areas of the fee-for-service Medi-Cal program that are at greatest risk of fraud or abuse. The bill would require the department to provide a notice to confirm to, and request confirmation of service from, identified recipients of benefits and referring and rendering providers of benefits under the fee-for-service Medi-Cal program.

Ch. 395 (SB 1360) Brulte. Rewards for information: health services: Medi-Cal.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and other low-income persons.

This bill would authorize the Department of Justice to pay a reward for information leading to the recovery of not less than \$100 in funds paid for services or goods rendered under the Medi-Cal program due to an act or omission by an individual or entity from which recovery is sought and that is the basis of a conviction of a Medi-Cal provider of services or goods in violation of certain criminal statutes within the jurisdiction of the Bureau of Medi-Cal Fraud and Elder Abuse.

Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program and other social services programs under which each county provides cash assistance and other benefits to qualified low-income families and individuals. Existing law provides for the federal Food Stamp Program, under which each county distributes food stamps provided by the federal government to eligible households. Under existing law, certain counties may elect to participate in the County Medical Services Program for the state administration of health care services to eligible persons in the county.

This bill, subject to necessary federal approval, would provide for an income disregard for reward payments made pursuant to the bill for purposes of determining eligibility for any Medi-Cal program, the CalWORKs program, the Food Stamp Program, the County Medical Services Program, and any other means-tested public benefit program for which California has authority to establish the rules for determining eligibility.

Ch. 396 (SB 1375) Scott. State Highway Route 164.

Existing law requires the California Transportation Commission to relinquish to any city or county any portion of any state highway within the city or county that has been deleted from the state highway system by legislative enactment. These relinquishments become

effective upon the first day of the next calendar or fiscal year, whichever first occurs after the effective date of the legislative enactment.

This bill would authorize the commission to relinquish to the County of Los Angeles a specified portion of State Highway Route 164 if the Department of Transportation and the county enter into a cooperative agreement providing for that relinquishment and the commission makes a determination that it is in the best interests of the state. The bill would require the county to maintain specified signs if a portion of the state highway is relinquished to the county.

Ch. 397 (SB 1384) Scott. Pupil assessment data: electronic resources.

Existing law requires each school district, charter school, and county office of education to administer to each of its pupils in grades 2 to 11, inclusive, certain achievement tests.

This bill would require the Superintendent of Public Instruction to require the California Learning Resource Network to establish review criteria and a process for the identification and review of electronic learning assessment resources by December 31, 2004. The bill would require the review to include a descriptive model for use by administrators and teachers that differentiates and compares the capabilities of the different types of electronic learning assessment resources.

The bill would require the review also to include an exploration of the feasibility of creating, implementing, and maintaining an online customer feedback system.

The bill would require the Superintendent of Public Instruction to direct the California Learning Resource Network to implement the provisions of the bill by prioritizing the use of existing budgeted resources available to the network.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 398 (SB 1439) Speier. Public employees' retirement: state retired annuities.

Existing law generally requires a retired member of the Public Employees' Retirement System to reinstate from retirement if he or she is reemployed by a state agency or other employer under the system. However, existing law also authorizes a retired member to work for a state agency or other employer under the system for up to 960 hours in any calendar year, without reinstatement from retirement or loss or interruption of retirement benefits, if certain conditions exist.

This bill would make that authorization inapplicable to a retired member who is employed by an employer under the system and who, within 12 months prior to that employment, received unemployment insurance compensation following the termination of an appointment with the same employer. The retired member would not be reinstated from retirement but, instead, would be required to terminate that employment and would be ineligible for that employment for a period of at least 12 months. The bill would make related findings and declarations.

Ch. 399 (SB 1578) Romero. State Highway Route 39: relinquishment.

Existing law provides that the Department of Transportation shall have full possession and control of all state highways. Existing law describes the authorized routes in the state highway system and establishes a process for adoption of a traversable highway on an authorized route by the California Transportation Commission. Existing law authorizes the commission to relinquish certain state highway segments to local agencies.

This bill would authorize the commission to relinquish any portion of State Highway Route 39 in the City of West Covina in Los Angeles County under certain conditions.

Ch. 400 (SB 1604) Ashburn. Pest control: Pierce's disease.

Existing law, the Table Grape Pest and Disease Control District Law, establishes a procedure for the organization, operation, and dissolution of districts to, among other things, respond to, manage, and control the effects of the spread of the glassy-winged sharpshooter and Pierce's disease, and other pests that attack grapevines.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law requires that proceedings for the formation of a district within a county shall be commenced by a petition that is signed by specified percentages of table grape growers. Existing law authorizes the district to cause assessments to be levied on table grapes being grown in the district to pay obligations of the district incurred to accomplish the purposes of the district.

This bill would revise these provisions so that they apply to table grape growers as well as the owners of table grape acreage. This bill would clarify that these abatement districts apply to infestations of other designated pests and diseases in addition to the glassy-winged sharpshooter and Pierce's disease. This bill would instead authorize the district to recommend an assessment to the board of supervisors to be levied on the owners of acreage of table grapes being grown in the district. This bill would make other conforming changes.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 401 (SB 1662) Soto. Residential care facilities for the elderly: rates.

Existing law regulates the licensure and operation of residential care facilities for the elderly, including setting forth the basic services a facility is required to provide. Existing law requires a licensee of a residential care facility for the elderly that increases the rates of fees for residents or makes increases in any of its rate structures for services to provide no less than 60 days' prior written notice to the resident or the resident's representative, setting forth the amount of the increase, the reason for the increase, and a general description of the additional costs, except for an increase in the rate due to a change in the level of care of the resident. A violation of the provisions relating to the licensure or operation of a residential care facility for the elderly is a crime.

This bill would require the licensee to provide the resident or the representative a written notice of a rate increase that is due to a change in the level of care within 2 business days after the change in the level of care.

This bill would make its provisions inapplicable to a provider who has entered into one or more continuing care contracts at a licensed residential care facility for the elderly pursuant to a certificate of authority, as defined, and to any resident who is a recipient of benefits under the State Supplementary Program for Aged, Blind and Disabled.

Because a violation of this bill's provisions would be a crime under existing law, this bill would impose a state-mandated local program by changing the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 402 (SB 1689) Poochigian. Settlements: Armenian genocide.

(1) Existing law establishes programs for education grants, priorities, and program enrollments, and state disability insurance benefits.

This bill would exclude settlement payments, as defined, received by an eligible individual, defined as a person persecuted by the regime that was in control of the Ottoman Turkish Empire from 1915 until 1923, or the individual's heirs or estate, and any excludable interest, as defined, from the determination of the individual's eligibility for state education grants, priorities, and program enrollments, and for state disability insurance benefits, to the extent permitted by federal law.

(2) The Personal Income Tax Law imposes a tax on individual taxpayers measured by the amount of the taxpayer's taxable income for the taxable year, but excludes certain items of income from the computation of tax.

This bill would, for taxable years beginning on or after January 1, 2005, exclude from the determination of state personal income taxes excludable settlement payments, as defined, of eligible individuals, as defined.

(3) Under existing law, moneys in the Disability Fund, a special fund, are continuously appropriated to the Employment Development Department for purposes of paying disability benefits.

Because this bill would expand eligibility for disability benefits, it would constitute an appropriation.

Ch. 403 (SB 1696) Torlakson. Vehicles: driving under the influence: license restriction.

(1) Existing law requires the Department of Motor Vehicles to immediately suspend, revoke, or record the court-administered suspension or revocation of, the privilege of any person to operate a motor vehicle upon receipt of an abstract of the record of any court showing that the person has been convicted of specified provisions prohibiting driving under the influence (DUI). Existing law prohibits the reinstatement of that privilege until the person gives proof of financial responsibility and proof satisfactory to the department of successful completion of a driving-under-the-influence program, as specified.

This bill would prohibit the reinstatement of the person's driving privilege until the proof satisfactory to the department of successful completion of the driving-under-the-influence program has been received in the department's headquarters.

(2) This bill would incorporate additional changes in Section 13352.5 of the Vehicle Code proposed by SB 1697, to be operative only if this bill and SB 1697 are enacted and become effective on or before January 1, 2005, each bill amends Section 13352.5 of the Vehicle Code, and this bill is enacted last.

(3) This bill would incorporate additional changes in Section 13352.6 of the Vehicle Code proposed by SB 1694, to be operative only if this bill and SB 1694 are enacted and become effective on or before January 1, 2005, each bill amends Section 13352.6 of the Vehicle Code, and this bill is enacted last.

(4) This bill would incorporate additional changes in Section 23538 of the Vehicle Code proposed by SB 1697, to be operative only if this bill and SB 1697 are enacted and become effective on or before January 1, 2005, each bill amends Section 23538 of the Vehicle Code, and this bill is enacted last.

(5) This bill would incorporate additional changes in Section 23542 of the Vehicle Code proposed by SB 1697, to be operative only if this bill and SB 1697 are enacted and become effective on or before January 1, 2005, each bill amends Section 23542 of the Vehicle Code, and this bill is enacted last.

Ch. 404 (SB 1725) Knight. Vehicles: disabled person: disabled veterans: parking privileges.

(1) Existing law authorizes certain parking privileges for disabled persons and disabled veterans, as defined, and authorizes the Department of Motor Vehicles to issue special license plates and distinguishing placards for those purposes.

This bill would require the department, upon a request to the department by a local or state public law enforcement agency or local agency responsible for the administration or enforcement of parking regulations, to make available to the requesting agency any information contained in a physician's certificate submitted to the department as part of an application for a special license plate for a disabled person's parking privileges. The bill would authorize local authorities to establish a review board or panel for purposes of reviewing information contained in the applications for special parking privileges and the certification of qualifying disabilities for persons residing within the jurisdiction of the local authority. Any findings or determinations by the review board or panel indicating that an application or certification is fraudulent or lacks proper certification would be transmitted to the department or other appropriate authorities for further review and investigation.

(2) Existing law authorizes the Department of Motor Vehicles to issue special identification license plates or distinguishing placards to disabled persons or disabled veterans for the purpose of allowing parking for unlimited periods in specified zones.

This bill would extend these provisions to include special license plates, rather than special identification plates, issued to disabled persons or disabled veterans for the specified parking privileges.

This bill, on and after July 1, 2005, would require a disabled person or disabled veteran issued a special license plate, upon request, to present to a peace officer, or person authorized to enforce parking laws, ordinances, or regulations, a certification form, as prescribed by the department, that substantiates the eligibility of the disabled person or veteran to possess the plate.

Because a violation of these provisions would be a crime, this bill would impose a state-mandated local program.

The bill would specify that a local authority may prohibit or restrict the parking or standing of a vehicle on streets under its jurisdiction when the vehicle displays a distinguishing placard for disabled parking privileges and the record of the department for the placard indicates that the placard has been reported as surrendered, cancelled, revoked, or expired.

The bill would prohibit the department from charging a fee for issuing a temporary distinguishing placard to a permanently disabled person or disabled veteran for purposes of travel by state residents or in-state travel by out-of-state residents.

The bill would make technical, nonsubstantive changes in existing law relating to parking privileges for disabled persons and disabled veterans.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 405 (SB 1796) Committee on Public Safety. Public safety: omnibus bill.

Existing law generally regulates public safety.

This bill would make various technical, nonsubstantive changes to these provisions.

Existing law establishes various evidentiary privileges, and provides for waiver of those privileges, as specified.

This bill would make a technical, nonsubstantive change to those provisions.

Existing law defines the felonies of pimping and pandering. Existing law provides that where minors are engaged in acts of prostitution for purposes of those felonies, a convicted defendant is subject to registration as a sex offender, as specified.

This bill would make technical changes to those provisions to provide clarification for charging purposes and for purposes of sex offender registration.

Existing law requires a report be made to the Attorney General in connection with wiretap intercepts, as specified. Existing law also requires that the report be made not less than 10 days after the order for the wiretap was issued.

This bill would require the report be made not more than 10 days after the order for the wiretap was issued.

By imposing additional duties on local government entities, this bill would impose a state-mandated local program.

Existing law requires the Department of Justice to prepare and distribute certain criminal justice information to specified persons and entities on cards or forms.

This bill would authorize distribution by electronic means.

Existing law requires each sheriff and chief of police to annually furnish the Department of Justice, on a form prescribed by the Attorney General, a report of all justifiable homicides committed in his or her jurisdiction.

This bill would require each sheriff and chief of police to annually furnish the Department of Justice, at those times and in the manner prescribed by the Attorney General, a report of all justifiable homicides committed in his or her jurisdiction.

By imposing additional reporting duties on local law enforcement entities, this bill would impose a state-mandated local program.

Existing law requires all probation officers to make periodic reports to the Bureau of Criminal Statistics as the bureau may require and upon forms furnished by the bureau.

This bill would require all probation officers to make periodic reports to the Attorney General at those times and in the manner prescribed by the Attorney General.

By imposing new reporting duties on local governments, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 406 (SB 1819) Ashburn. Mental health and developmental services: confidential information.

Existing law makes all information and records obtained in the course of providing intake assessment and services under statutes relating to services for persons with developmental disabilities and persons with mental illness confidential, and permits disclosure only under prescribed conditions, including, but not limited to, the courts as necessary to the administration of justice.

This bill would authorize the disclosure of the above information and records to a state civil service employee against whom an adverse action has been filed as necessary to defend against the action if certain conditions are met.

The bill would also make technical corrections.

Ch. 407 (SB 1831) Cedillo. Property tax administration.

(1) Existing law requires the county treasurer to keep an accounting of all moneys, including property tax payments, that he or she pays or receives. Existing property tax law also requires a county treasurer or tax collector, as applicable, to pay interest on replicated property tax payments if that replicated payment is not returned to the tendering party within 60 days following the receipt of the replicated payment.

This bill would provide that the requirement to pay interest on a replicated payment only applies if the accrued interest is equal to or greater than \$10 at the time the replicated payment is returned to the tendering party.

(2) Existing law requires the tax collector to publish annually a notice of impending default for failure to pay taxes on real property, and to publish annually the affidavit that real property, on which taxes, assessments, penalties, and costs had not been fully paid by the close of business on the last business day of the fiscal year, is in default.

This bill would instead specify as the default date June 30, or the next business day if June 30 falls on a weekend or holiday.

(3) Existing law requires the tax collector to attempt to sell tax-defaulted property within 4 years of the time that property becomes subject to sale for nonpayment of taxes. Existing law authorizes a tax collector, in the case of tax-defaulted property that is rendered unusable by its size, location, or other condition, to allow owners of contiguous parcels to place a bid on that tax-defaulted property.

This bill would authorize a tax collector to also allow a holder of record of either a predominant easement or a right-of-way easement on that tax-defaulted property to place a bid on that tax-defaulted property.

(4) Existing property tax law requires that notice of any postponed public auction sale of tax-defaulted property, that is held not less than 8 days nor more than 60 days from the date of the originally scheduled sale, be given in the same manner as the notice for that originally scheduled sale.

This bill would increase the maximum postponement period specified in this requirement from 60 days to 90 days.

(5) Existing law sets forth procedures that are required to be followed with respect to sales of tax-defaulted property.

This bill would make clarifying amendments to repeal references to procedures that are no longer required by law.

(6) Existing property tax law requires a county auditor, without regard to the existing 4-year statute of limitations, and upon receipt of satisfactory proof, to cancel specified classes of taxes, penalties, or costs levied or charged on property.

This bill would authorize the county auditor to cancel erroneous assessments collected after the expiration of the 4-year statute of limitations, if the request for cancellation is initiated within 120 days of the payment of those erroneous assessments.

(7) Existing property tax law provides that certain individuals who have an ownership interest, as defined, in a residential dwelling may request postponement of property taxes.

This bill would include in the definition of an ownership interest an interest in residential property that is held in a specified type of trust, if the Controller determines that the state's interest is adequately protected.

(8) Under existing law, a person appointed or selected to be a member of an assessment appeals board must have certain qualifications relating to experience and knowledge.

This bill would make a conforming change relating to requiring members appointed to the assessment appeals board to meet different eligibility requirements based on the population of the county in which the assessment appeals board sits. This bill would also allow a property appraiser certified by the State Board of Equalization to be eligible for nomination to the assessment appeals board, and would require documentation of qualifying experience of appeals board members to be filed with the clerk of the board.

(9) This bill would also make various clarifying or technical, nonsubstantive changes.

#### Ch. 408 (AB 42) Daucher. Special education.

Existing law establishes a right of individuals with exceptional needs to receive free appropriate public education and ensures the right to special instruction and related services needed to meet their unique needs, in conformity with federal law.

Existing law enumerates the requirements for state hearings regarding the school placement of individuals with exceptional needs, including the requirement that upon completion of the hearing, a written, reasoned decision be mailed to all parties to the hearing within 45 days from the receipt by the Superintendent of Public Instruction of the request for the hearing. Existing law sets forth the authority of the hearing officer with regard to that state hearing.

This bill would require the written decision to include the reasons for any nonpublic, nonsectarian school placement, the provision of nonpublic, nonsectarian agency services, or the reimbursement for such placement or services, taking into account specified requirements.

Existing law prohibits a hearing officer from rendering a decision that results in the placement or reimbursement for the placement of an individual with exceptional needs in a nonpublic, nonsectarian school, or in a service or reimbursement for a service for an individual with exceptional needs provided by a nonpublic, nonsectarian agency, unless the

hearing officer issues a written finding with respect to the school district's program or program offer being in compliance with specified law.

This bill would delete that provision.

The bill would provide that the hearing officer may not base a decision solely on nonsubstantive procedural errors, unless the hearing officer makes certain findings.

The bill would make various revisions generally conforming state law to federal requirements relating to hearing procedures and requirements. To the extent that these revisions would impose new duties on local educational agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 409 (AB 79) Dutra. Written reports: preparation.

(1) Existing law requires various written reports to be prepared and submitted by state and local agencies to the Legislature or the Governor.

This bill would, until January 1, 2008, provide that a public agency, as defined, may, but is not required to prepare or submit any written report to the Legislature, the Governor, or any state legislative or executive body unless any one of specified conditions is met or the report is required to be prepared and submitted pursuant to this bill. This bill would provide that its provision requiring that specified reports by the California Environmental Protection Agency be prepared and submitted become operative only if AB 2701 is enacted and becomes operative.

This bill would provide that its provisions may not be construed to require resubmission of a one-time report that is required by statute if that report already has been submitted as required.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 410 (AB 214) Shirley Horton. Taxpayer contributions: National World War II Veterans Memorial Trust Fund.

Provisions relating to the administration of personal income taxes allow individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds, including contributions to the National World War II Veterans Memorial Trust Fund, a special fund. Existing law requires that all moneys contributed, net of the Franchise Tax Board's administrative costs, be deposited by the Controller to the credit of the National World War II Veterans Memorial Trust Fund for allocation, upon appropriation by the Legislature, to the American Battle Monuments Commission for the construction of the National World War II Veterans Memorial.

This bill would appropriate moneys deposited in the National World War II Veterans Memorial Trust Fund for allocation to the American Battle Monuments Commission for the construction of the National World War II Veterans Memorial.

Ch. 411 (AB 321) Cogdill. Health care service plans: contract termination dates.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the regulation of health care service plans by the Department of Managed Health Care. A violation of the act's provisions is a crime. Existing law requires health care service plans to provide affected enrollees with written notice of certain information prior to the termination date of its contract with a provider group or general acute care hospital.

This bill would require a full health care service plan, as defined, to make available to group subscribers the termination date of all major health care provider contracts, as defined, for services in the geographic area for which the group subscriber has secured coverage, when the contract specifies a termination date.

Because the bill would create an additional requirement for health care service plans, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason. The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 412 (AB 1416) Bermudez. Confidentiality: taxpayer communications.

Under existing law, the Employment Development Department, the State Board of Equalization, and the Franchise Tax Board administer various taxes and fees. Existing law, in modified conformity with federal income tax laws, provides that, with respect to tax advice, certain protections that apply to a communication between a client and an attorney also apply to communications between a taxpayer and any federally authorized tax practitioner that appears before those state agencies to the extent that the communication would be considered a privileged communication if it were made between a client and an attorney. Existing law provides for the repeal of these provisions on January 1, 2005.

This bill would provide that these provisions would be repealed on January 1, 2009.

Ch. 413 (AB 1493) Runner. Human remains: sexual contact.

Existing law provides that, with certain exceptions, every person who willfully mutilates, disinters, or removes from the place of interment any human remains, without authority of law, is guilty of a felony.

This bill would expand the scope of this felony to include any person who commits an act of sexual penetration on, or has sexual contact with, any remains known to be human.

By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 414 (AB 1794) Dutra. Spinal cord and traumatic brain injury programs: termination dates.

(1) Existing law establishes, until July 1, 2007, the Traumatic Brain Injury Fund. Under existing law, moneys in the fund are used, upon appropriation by the Legislature, to develop, at designated sites, a system of postacute continuum-of-care models for adults 18 years of age or older with an acquired traumatic brain injury.

This bill would extend the January 1, 2007, termination date to July 1, 2012.

(2) Existing law establishes, until January 1, 2006, the Spinal Cord Injury Research Fund for the award of grants to conduct basic neurological research into the cure for spinal cord injuries and their effects. Existing law continuously appropriates the fund, which is composed of private and public moneys, to the University of California to administer the grants.

This bill would extend the January 1, 2006, termination date to January 1, 2011. By extending the term of a continuously appropriated fund, this bill would make an appropriation.

Ch. 415 (AB 1854) Simitian. Motor vehicles: headlamps: inclement weather.

(1) Existing law requires, with limited exceptions, that, during darkness, a motor vehicle, other than a motorcycle, be equipped with at least 2 lighted headlamps.

This bill, additionally, would require, on July 1, 2005, a motor vehicle, other than a motorcycle, to be equipped with headlamps during inclement weather, as defined.

Because this would expand the scope of an existing crime, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 416 (AB 1859) Nakano. Limited liability companies: certificate of cancellation.

The Beverly-Killea Limited Liability Company Act authorizes the creation of limited liability companies as a form of business organization. Existing law imposes a minimum franchise tax on certain corporations and exempts from the minimum franchise tax for their first taxable year, corporations that meet specified requirements, except that this exemption does not apply to certain types of corporations, including limited liability companies. Existing law prohibits the term of existence of a limited liability company being reduced or terminated by a decree of dissolution, withdrawal, or cancellation unless the company obtains from the Franchise Tax Board a tax clearance certificate.

This bill would, if a domestic limited liability company has not conducted any business, provide that a majority of the members, or if there are no members, the majority of the managers or, if none, the person or majority of the persons signing the articles of organization, could execute and acknowledge a certificate of cancellation of the articles of organization meeting specified criteria. The bill would require that the certificate of cancellation be filed with the Secretary of State within 12 months of the filing of the articles of organization. The bill would provide that, upon the filing of that certificate of cancellation, a limited liability company is cancelled and its powers, rights, and privileges cease. The bill would make the exemption from the minimum franchise tax applicable to a limited liability company that files a certificate of cancellation, but would not entitle the company to a reimbursement of any annual taxes or fees already paid. The bill would also exempt the limited liability company from the requirement to obtain a tax clearance certificate and would require the Secretary of State to notify the Franchise Tax Board of that cancellation.

Ch. 417 (AB 1999) Committee on Higher Education. California State University.

(1) Existing law establishes the various campuses of the California State University under the administration of the Trustees of the California State University. Existing law provides for the membership of the Trustees of the California State University to include 5 specified ex officio members, 16 appointive members appointed by the Governor and subject to confirmation by the Senate, one representative of the alumni associations, 2 student members appointed by the Governor, and a faculty member appointed by the Governor.

This bill would make various technical, nonsubstantive changes in a provision relating to the membership of the trustees. The bill would also include provisions incorporating changes in this provision proposed by AB 2849 and this bill. This provision would become operative only if both bills are enacted and become effective on or before January 1, 2005, each of the bills amends this provision, and this bill is enacted after AB 2849.

(2) Existing law establishes the California State University and its various campuses under the administration of the Trustees of the California State University. Existing law authorizes the trustees to dispose of 6 historic houses in Chico and the land on which these houses are located in accordance with specified conditions.

This bill would repeal this provision.

(3) Existing law provides that any printing and binding required by the trustees are performed by the Department of General Services in the form and manner, and at the prices, of other state printing, except that the binding of library volumes required by the trustees may be performed by binders selected on the basis of competitive bidding when the trustees determine that greater efficiency, quality, or economy will result.

This bill would repeal this provision.

(4) An existing provision of the California State University Contract Law requires the trustees to obtain specified financial information from prospective bidders for contracts estimated to exceed \$400,000.

This bill would instead provide that the trustees would be required to obtain this specified financial information with respect to prospective bidders for contracts estimated to exceed the value of a minor capital outlay project for which, pursuant to a prescribed provision of the State Contract Act, the services of the Department of General Services are not required and a state agency or department is authorized to carry out its own project. Under the prescribed provision, that amount is currently set at \$400,000.

Ch. 418 (AB 2032) Dutra. HOT lanes: demonstration projects.

Existing law authorizes the Department of Transportation or local agencies with respect to highways under their respective jurisdictions to designate certain lanes for exclusive use by high-occupancy vehicles (HOVs). Existing law also authorizes the San Diego Association of Governments (SANDAG) to conduct, administer, and operate a value pricing and transit development program on a portion of Interstate 15 in San Diego County, under which single-occupant vehicles may use designated HOV lanes at certain times of day upon obtaining a permit and paying a fee, otherwise known as a “high-occupancy toll (HOT) lane.”

This bill would authorize SANDAG, the Sunol Smart Carpool Lane Joint Powers Authority, the Santa Clara Valley Transportation Authority, and the Alameda County Congestion Management Agency to undertake similar value pricing programs involving various other HOT lanes under the jurisdiction of these sponsoring agencies. The bill would require net toll revenue generated by each program after payment of direct expenses to be allocated to the construction of high-occupancy vehicle facilities and the improvement of transit services pursuant to an expenditure plan adopted by the sponsoring agency. The bill would authorize the operation of the program by each agency for a period not to exceed 4 years after the agency first collects revenues for any of the authorized corridors, and would require a report to the Legislature by each sponsoring agency within 3 years. The bill would enact other related provisions.

Ch. 419 (AB 2075) Benoit. Department of Motor Vehicles: employee qualifications.

Existing law requires a classifiable set of fingerprints of every state, county, city, and city and county peace officer be furnished to the Department of Justice and to the Federal Bureau of Investigation by the agency employing the peace officer.

This bill would authorize the Department of Motor Vehicles to require fingerprint images and associated information from any employee or prospective employee whose duties include or would include access to certain confidential information, access to cash or checks, responsibility with respect to a critical automated system, or making decisions regarding licenses and other matters.

This bill would authorize those fingerprint images and associated information to be furnished to the Department of Justice for the purpose of obtaining information as to the existence and nature of a record of state or federal level convictions and arrests, as specified. The bill would authorize the Department of Justice to assess a fee sufficient to cover the processing costs for providing that information.

Ch. 420 (AB 2139) Maze. Vehicles: child restraint systems.

Existing law prohibits a parent or legal guardian, while present in a motor vehicle, from permitting his or her child or ward to be transported upon a highway in the vehicle without providing and properly securing the child or ward in a rear seat in a child passenger restraint system meeting applicable federal safety standards, unless the child or ward is 6 years of age

or older or weighs 60 pounds or more. Existing law imposes a similar prohibition on the driver of a vehicle, unless the parent or legal guardian of the child is also present in the vehicle and is not the driver.

This bill would revise and clarify these provisions.

Ch. 421 (AB 2140) Runner. Desert species: fines.

(1) Existing law establishes the California Desert Native Plants Act, which endeavors to protect California desert native plants from unlawful harvesting on both public and privately owned lands. Existing law makes any person who violates the act guilty of a misdemeanor punishable by a fine of not less than \$300, nor more than \$1,000, for each violation or by imprisonment in the county jail not to exceed one year, or both, and makes each violation a separate offense. Existing law requires the department to enforce the provisions of the act.

This bill would increase the amount of that fine to not less than \$1,500, and not more than \$2,500, for each violation.

Ch. 422 (AB 2353) Leslie. Neighborhood Electric Vehicles.

Existing law defines “low-speed vehicle” for purposes of the Vehicle Code as a motor vehicle, other than a motor truck, with 4 wheels on the ground that is capable of a minimum speed of 20 miles per hour and a maximum speed of 25 miles per hour on a paved level surface and that has an unladen weight of 1800 pounds or less. Existing law imposes certain restrictions on the use of low-speed vehicles on public streets and highways, and generally requires an operator of a low-speed vehicle to have a driver’s license. A violation of the Vehicle Code is an infraction, unless otherwise specified.

Existing law authorizes a city or county to establish a golf cart transportation plan subject to the review of the appropriate transportation planning agency and traffic law enforcement agency. Existing law provides that operating a golf cart other than on an authorized roadway is an infraction punishable by a fine not exceeding \$100.

This bill would authorize, until January 1, 2009, the City of Lincoln and the City of Rocklin in the County of Placer to establish a neighborhood electric vehicle (NEV) transportation plan subject to the same review process established for a golf cart transportation plan. The bill would define “neighborhood electric vehicle” for these purposes to have the same meaning as the above definition of “low-speed vehicle.” The bill, among other things, would provide for the plan to authorize the use of state highways by NEVs under certain conditions. The bill would require a report to the Legislature by January 1, 2008. The bill would enact other related provisions. Because the bill would revise the definition of a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 423 (AB 2398) Maze. Targeted tax areas: expansion.

Existing law requires the Technology, Trade and Commerce Agency, in accordance with certain criteria, to designate an applicant jurisdiction or combination of jurisdictions as a targeted tax area in which certain tax incentives apply. The agency is required to audit the program’s operations on a periodic basis and may revoke the designation if certain deficiencies are not corrected. Existing law abolished the Technology, Trade, and Commerce Agency as of January 1, 2004, but did not provide for the transfer of the duties of that agency regarding targeted tax areas.

This bill would transfer those duties to the Department of Housing and Community Development, and would authorize the department to approve a proposal to expand a targeted tax area, by no more than 15%, if the department finds that the additional territory proposed to be included in the targeted tax area meets certain criteria and certain other

conditions are met. This bill would request the Tulare County Economic Development Corporation to report to the Legislature by January 1, 2008, regarding jobs and taxpayers within the targeted tax area, as provided.

Ch. 424 (AB 2401) Harman. State Fire Marshal: inspections and licensing.

(1) Existing law provides for the licensing by the State Fire Marshal of persons to engage in various activities relating to the sale or use of fireworks, and the servicing of portable fire extinguishers and automatic extinguisher systems.

This bill would, until January 1, 2008, authorize the State Fire Marshal or his or her designee to stay the suspension of a license or certificate of registration in specified instances on condition that its holder pay a specified monetary penalty and incur no other cause for disciplinary action, as specified. Those penalties would be deposited in the State Fire Marshal Licensing and Certification Fund. The bill would require the State Fire Marshal to make specified data relating to this bill available to the public no later than March 1, 2007.

(2) Existing law requires the State Fire Marshal or an authorized representative to, at least annually, inspect every jail or place of detention for persons charged with or convicted of a crime, unless the chief of any city or county fire department or fire protection district, or that chief's authorized representative, indicates in writing to the State Fire Marshal that these inspections will be conducted by the chief or his or her representative and that the chief or his or her representative submits specified reports required under existing law.

This bill would instead require the inspections at least once every 2 years.

Ch. 425 (AB 2450) Canciamilla. Sexually violent predators: notice.

Existing law requires the State Department of Mental Health to notify local law enforcement officials when it makes a recommendation to the court for community outpatient treatment for any person committed as a sexually violent predator, or when it is aware that such a person has petitioned a court for release to the community.

This bill would, in addition, require notice to be given when the department or its designee makes a recommendation regarding a state-operated forensic conditional release program or proposes a placement location without making a recommendation, in the case of a subsequent placement or change of community placement, or when any other person proposes a placement location to the court and the department or its designee is made aware of the proposal. The bill would require the notice to include, among other things, the date, place, and time of the court hearing, would require notice be given also to the Department of Justice, would authorize the local agencies to provide written comment to the department and the court, would require the department to issue a written statement, and would require the court to consider those comments and statements. The bill would permit a single agency in the community of the proposed placement to suggest alternate locations within that community. This bill would delete the prohibition against notice being given after the release date.

Ch. 426 (AB 2464) Pacheco. Optometry.

Existing law makes the State Board of Optometry responsible for regulating and licensing those engaged in the practice of optometry. Existing law prohibits a board member from having a financial interest in a prospective board purchase or contract. Existing law requires the board to meet at least once a year and authorizes it to adopt specified rules and regulations. Under existing law, the board is required and authorized to maintain specified records and to publish and distribute certain information. Existing law provides for a secretary to the board and authorizes traveling and other necessary expenses for that office. Under existing law, an optometrist is required to notify the board of the address of his or her practice, and the board is authorized to send any requisite notices to that address by United States mail. Existing law authorizes the board to visit and examine educational institutions that provide optometric regulation.

This bill would revise and recast provisions relating to the regulation of optometrists under the Optometry Practice Act. The bill would revise the authority of the board to adopt regulations, and would define and alter certain terms. The bill would require the board to meet every calendar quarter. The bill would delete the prohibition on a board member having a financial interest in a prospective board purchase or contract. The bill would also revise the recordkeeping requirements of the board. The bill would delete the provisions authorizing the payment of expenses for the board's secretary and requiring the board to publish and distribute certain information. The bill would also require the board to publish its notices on its Internet Web site. The bill would delete the board's authority to visit and examine optometric educational institutions.

Existing law requires an applicant for examination or registration as an optometrist to meet specified requirements.

This bill would revise the application requirements and the standards for examination and licensure as an optometrist.

Existing law requires an optometrist to post a certificate of registration in his or her office or place of practice. Existing law also requires optometrists performing certain functions to meet certain continuing education requirements. Existing law requires an optometrist who temporarily practices away from his or her registered regular place of practice to give a patient fitted or supplied with glasses a receipt containing specified information.

This bill would require an optometrist to post specified information at each place of practice. The bill would revise the continuing education requirements for optometrists performing certain functions. The bill would revise the information that must be provided on a receipt and would require any licensed optometrist who fits or supplies a patient with lenses to provide the patient with a receipt.

Because the bill would expand the scope of an existing crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 427 (AB 2517) Berg. Special Deposit Fund: fish and game mitigation and protection accounts.

Existing law establishes the Department of Fish and Game within the Resources Agency, and generally charges the department with the administration and enforcement of the Fish and Game Code. Existing law authorizes the department to enter into various agreements to provide for the mitigation of adverse biological impacts on, and the protection of, fish, wildlife, and plants, and their respective habitats.

Existing law establishes the Special Deposit Fund, which consists of moneys that are paid into it in trust pursuant to law, and is appropriated to fulfill the purposes for which payments into it are made.

This bill would establish the Fish and Game Mitigation and Protection Endowment Principal Account and the Fish and Game Mitigation and Protection Expendable Funds Account in the Special Deposit Fund.

The bill would require the department to deposit the endowment funds received pursuant to various mitigation and protection agreements, and interest that accrues on that principal, in the Fish and Game Mitigation and Protection Endowment Principal Account, if the moneys are designated for specified purposes. The bill would require the department to utilize the interest generated on the endowment funds, upon appropriation of those moneys by the Legislature, to fund long-term management, enhancement, monitoring, and enforcement activities on habitat lands in a manner consistent with the terms of the underlying agreement supplying the moneys.

The bill would require the department to deposit in the Fish and Game Mitigation and Protection Expendable Funds Account moneys received pursuant to those agreements that are not endowment funds and that are designated for expenditure for the purposes of mitigating the adverse biological impacts of a specific project, activity, spill, or release, or protecting, conserving, restoring, enhancing, managing, and maintaining fish, wildlife, native plants, or their habitats in a manner consistent with the terms of the underlying agreement supplying the moneys. The bill would make the moneys in the expendable funds account continuously appropriated to the department for expenditure without regard to fiscal year for those purposes.

Ch. 428 (AB 2520) Vargas. Self-service storage agents.

Existing law provides that, in general, a person shall not negotiate or sell contracts of insurance unless he or she has been licensed by the Insurance Commissioner to act in that capacity.

This bill would require self-service storage facilities and their franchisees that sell insurance in connection with, and incidental to, self-service storage rental agreements to obtain a license to do so from the Insurance Commissioner, which must be renewed every 2 years. This bill would require self-service storage facilities to file certain documents with the commissioner, including certification that the insurer to be named in the facility's license will appoint the facility to act as its agent for the limited purpose of offering or selling specified types of insurance in connection with, and incidental to, self-service storage rental agreements if it is licensed by the commissioner.

This bill would require licensees to provide specified training to their employees and to submit their training materials to the Department of Insurance. This bill would require licensees to provide written information regarding the coverage offered and to make specified disclosures to prospective renters.

This bill would provide that if a licensee violates these provisions, the commissioner may revoke or suspend its license or impose other penalties and fines, as specified. This bill would provide that if any person sells insurance incidental to a self-service storage rental agreement without obtaining a license, the commissioner may issue a cease and desist order.

The bill would make other conforming changes.

Ch. 429 (AB 2527) Frommer. Sex offender registration.

Existing law requires every person who has been convicted of any of a specified group of sexual offenses to register with local law enforcement agencies for the rest of his or her life while residing, or if he or she has no residence while located, attending school, or working, in California within 5 working days of coming into, or changing his or her residence or location within, California. Existing law requires a person who has no residence to update his or her registration no less than once every 60 days, as specified. Existing law also requires that, beginning on his or her first birthday following registration or change of address, the person is required to update his or her registration annually within 5 working days of his or her birthday. Willful violation of the requirement to register under these provisions is punishable by imprisonment in a county jail for a period not to exceed one year or by imprisonment in the state prison for 16 months, or 2 or 3 years, as specified.

A California Court of Appeal decision, *People v. North* (2003) 112 Cal.App.4th 621, held that the terms "located" or "location" as used in these provisions are unconstitutionally vague.

This bill would state legislative intent that this bill address that holding.

This bill would recast these provisions with respect to persons who have no residence or who are living as transients in California. This bill would also require a transient to register, and reregister, no less than once every 30 days, except as specified, regardless of the length of time he or she has been physically present in a particular jurisdiction, with the chief of police of a city, the sheriff of a county, or the chief of police of a campus, if he or she is

physically present within their jurisdiction within a 30-day period, unless he or she was required to register at an earlier date because he or she reregistered on his or her birthday.

This bill would require a transient who moves out of state to inform the chief of police of the city or the sheriff of the county, as specified, within 5 working days of his or her move out of state. Violation of this requirement would be a crime. The bill also requires the law enforcement agency to, within 3 days after receipt of the information, forward a copy of the change of location information to the Department of Justice. The department would be required to forward appropriate registration data to the law enforcement agency having local jurisdiction of the new place of residence or location.

This bill would also provide that it is a crime, punishable by imprisonment in a county jail for a period of at least 30 days, but not to exceed one year, for a sex offender who is required to register pursuant to these provisions to fail to provide the information required, or to provide false information, on the registration and reregistration forms of the Department of Justice.

Because this bill would require local agencies to perform a higher level of service, would change the definition of crimes, and would create a new crime, this bill would impose a state-mandated local program.

The bill would incorporate additional changes to Section 290 of the Penal Code made by AB 2395 or SB 1289, or both, contingent upon the prior enactment of one or both of those bills.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 430 (AB 2606) Pleiscia. Vehicles: registration and title: expedited issuance.

(1) Existing law prohibits the Department of Motor Vehicles from issuing a copy, duplication, or substitution of a certificate of ownership or license plate for a vehicle if, after a search of the records of the department, the registered owner's address, as submitted with the application for that document, is different from that which appears in the records of the department, unless the registered owner applies for that document in person and presents certain verifying documents. This prohibition does not apply if, among other things, the registered owner's name, address, and driver's license or identification card number submitted on the application match the name, address, and driver's license or identification card number contained in the department's records, or if an application for a duplicate or substitute certificate of title or license plate is submitted by or through a legal owner, as specified, a dealer, a dismantler, an insurer, an agent of the insurer, or a salvage pool.

This bill, until January 1, 2008, would provide that the specified prohibition does not apply if the application is submitted by or through a dealer's agent. The bill would also provide that, until January 1, 2008, that prohibition would not apply, at the discretion of the department, in specified circumstances, including among others, an application for a duplicate or substitute certificate of title or license plate that is submitted by a licensed registration service representing certain individuals, entities, or bankruptcy referees; the vehicle is registered under the International Registration Plan; or the vehicle is an implement of husbandry, as defined.

(2) Existing law authorizes the department to charge a service fee of not more than \$15, in addition to other fees payable under the Vehicle Code, for the completion of an initial registration or transfer of registration of a vehicle within 72 hours after receipt of a complete and proper registration application. This expedited service is available only at the department's headquarters office in Sacramento.

This bill, additionally, would authorize the department to provide the expedited service for issuance of a duplicate certificate of ownership.

(3) Existing law requires an applicant for a license to be a registration service to submit an application to the department including specified information, and demonstrating the payment of a \$5,000 bond by an admitted surety insurer, approved as to form by the Attorney General, to cover any loss to the public of the State of California arising out of the operation of a registration service.

This bill would increase to \$25,000 the amount of the bond required pursuant to those provisions for the issuance of a registration service license for the renewal of such a license.

(4) Existing law requires a registration service to keep specified business records.

This bill would require these records to be accurate.

Ch. 431 (AB 2760) Berg. Fish and game: licensing and entitlements.

(1) Under existing law, licenses, license tags, license stamps, permits, certificates, and other entitlements are issued by the Department of Fish and Game for specified fees that authorize various activities relating to taking and possession of marine resources for purposes other than commercial purposes.

This bill would change the requirements for issuing, possessing, replacing, and renewing certain entitlements and for transacting business as a license agent for the purpose of issuing those entitlements. This bill would impose new or additional fees or penalties in connection with those entitlements.

(2) Existing law makes it unlawful for any person to offer any prize or other inducement as a reward for the taking of any game birds, mammals, fish, reptiles, or amphibians in an individual contest, tournament, or derby, except under a permit issued by the department, but exempts from that prohibition any contest that is a frog-jumping contest or a fish contest conducted in the Pacific Ocean.

This bill would also exempt from that prohibition any person conducting an individual contest, tournament, or derby for the taking of game birds and mammals, if the total value of all prizes or other inducements is less than \$500 for each contest, tournament, or derby.

(3) Existing law requires the department to issue a sport fishing license, free of charge and valid for the calendar year of issue, to any blind person, resident Native American who is financially unable to pay the fee, ward of the state who is a patient and resident in a state hospital, developmentally disabled person receiving services from a regional center for the developmentally disabled, or physically disabled person utilizing a mobility-related device.

This bill would repeal the requirement that the department issue that license free of charge to a ward of the state from a state hospital. The bill would repeal the requirement that a developmentally disabled person be receiving services from a regional center for the developmentally disabled to be eligible for a free sport fishing license. The bill would make sport fishing licenses issued pursuant to those provisions to resident Native Americans valid for one year, and would make those issued pursuant to those provisions to blind persons, and developmentally and physically disabled persons valid for 5 calendar years.

(4) Existing law requires the department to issue a commercial fishing license to any resident and nonresident who is 16 years of age or older, upon payment of a specified base fee for each resident and nonresident vessel crewmember or vessel operator.

This bill would delete obsolete cross-references in existing law, and would require the owner of any vessel upon which a person who is at least 16, but less than 18, years of age, and who has been issued a commercial fishing license pursuant to those provisions, to obtain a policy of insurance that provides indemnification to that licensee in case of accident or injury, and to maintain that policy at all times that the licensee is working on or about the vessel.

(5) Existing law prohibits the department from issuing a sea cucumber permit until the applicant's eligibility has been verified through either landing receipts or other documentation. Existing law requires applicants for a sea cucumber permit to specify the

method by which the applicant intends to take sea cucumbers, to pay a fee of \$250, and to complete and submit an accurate record of all sea cucumber fishing activities to the department. Existing law requires, in order to renew a sea cucumber permit commencing on or after April 1, 1998, that an applicant have been issued a sea cucumber permit in the immediately preceding permit year. Existing law makes these provisions, and all related provisions regarding sea cucumber permits, inoperative on April 1, 2005, and repeals those provisions on January 1, 2006.

This bill would instead make the sea cucumber permitting provisions inoperative on April 1, 2010, and would instead repeal those provisions on January 1, 2011. The bill would repeal the requirement that the applicant's eligibility be verified through either landing receipts or other documentation prior to the department issuing a sea cucumber permit. The bill would delete and update obsolete dates and references in existing law.

(6) Existing law prohibits the use of traps to take finfish, including hagfish and sablefish, in ocean waters, except as authorized. Existing law prohibits the taking of finfish, other than sablefish and hagfish, with traps for commercial purposes in certain areas off the coast of the state, except under a valid finfish trap permit issued by the department, and imposes various limitations on the taking of finfish with finfish traps. Existing law makes those provisions inoperative on April 1, 2005, and repeals those provisions on January 1, 2006.

This bill would repeal those provisions, and would instead provide that hagfish may be taken under a general trap permit if certain conditions are met. The bill would limit the use and number of Korean traps, as defined, and bucket traps, as defined, to take hagfish.

The bill would authorize the taking of finfish, other than sablefish and hagfish, under a general trap permit, if every person aboard the vessel possesses a valid general trap permit, and if nearshore or deeper nearshore species are present, if at least one person aboard the vessel has a valid nearshore or deeper nearshore fishery permit and fishery trap endorsement, as applicable. The bill would impose specified requirements on the use, number, and location of traps, and would prohibit the use of specified fish as bait in finfish traps.

The bill would authorize the taking of sablefish under a general trap permit in specified areas of ocean waters, if the trap meets specified size restrictions and is used subject to certain ocean depth restrictions. The bill would prohibit the possession of sablefish traps and any other commercial fishing gear, except for spot prawn traps that are possessed during spot prawn traps open fishing periods established by the commission and for which the permittee has a valid permit.

The bill would require every trap used to take finfish or crustaceans to be marked with a buoy to identify the operator based on the type of fish to be taken by the trap.

(7) Existing law prohibits the taking, possessing, or selling of California halibut that measures less than 22 inches in total length, unless it meets certain weight requirements, and prohibits the possession of more than 4 of those fish aboard a boat for noncommercial use at any time, if taken incidentally with a gill net, trammel net, or trawl net while commercial fishing.

This bill would eliminate that weight requirement for the taking, possessing or selling of California halibut, and would delete those provisions prohibiting the possession of more than 4 fish.

(8) Existing law regulates the type of hook-and-line fishing gear that may be used to take fish for commercial purposes.

This bill would impose new requirements for the use of certain hooks and lines on vessels used to take fish for commercial purposes.

(9) Fees collected for the above entitlements are deposited in the Fish and Game Preservation Fund, a fund continuously appropriated to the department and the Fish and Game Commission to carry out the Fish and Game Code and to pay the expenses of those entities.

Because the bill would impose new duties on the department and the commission, the bill would make an appropriation, and, to the extent that the bill would result in additional money

from fees and penalties being deposited in the fund, the bill would also make an appropriation.

(10) Existing law makes a violation of a provision of the Fish and Game Code a crime.

To the extent that the new procedures in the bill would redefine crimes related to issuing, possessing, replacing, or renewing the entitlements or the requirements for transacting business as a license agent, or conducting certain fishing operations, the bill would impose a state-mandated local program.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 432 (AB 2784) Pavley. Ventura County Transportation Commission: membership.

Existing law, the County Transportation Commissions Act, establishes the Ventura County Transportation Commission consisting of 8 members. Under existing law, 2 members are members of the Ventura County Board of Supervisors, 3 members are appointed by the Ventura County City Selection Committee, 2 are citizen members, and one is a nonvoting member appointed by the Governor. Existing law provides for alternate commission members and specifies a 4-year term for members. Under existing law, each commission member may receive per diem compensation and necessary expenses incurred in performing commission duties.

This bill would change the composition of the commission to increase the number of members from the Ventura County Board of Supervisors to 5, and would replace the 3 members appointed by the Ventura County City Selection Committee with one member from each incorporated city within Ventura County who is either the mayor or a city council member. The bill would delete the provisions regarding alternate commission members, and the length of membership terms for the voting members.

Because the bill would increase the number of commission members who would be eligible for compensation for their duties, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 433 (AB 2830) McCarthy. Natural resources: oil and gas.

(1) Existing law generally regulates the drilling, operation, maintenance, and abandonment of oil and gas wells. Existing law authorizes the State Oil and Gas Supervisor or district deputy to order the plugging and abandonment of a well that has been deserted, and specifies the circumstances in which a rebuttable presumption of desertion arises.

This bill would provide that the supervisor or district deputy may determine that a well that has been idle for 25 or more years and fails to meet specified requirements is conclusive evidence of desertion of the well, and that the supervisor or district deputy may order the well abandoned, subject to warning and appeal procedures.

(2) Existing law prohibits the Division of Oil, Gas, and Geothermal Resources in the Department of Conservation from expending, through the 2004–05 fiscal year, more than \$1,000,000 in any one fiscal year for purposes of hazardous or idle-deserted wells. Existing law prohibits the division from expending, commencing with the 2005–06 fiscal year, more than \$500,000 in any one fiscal year for purposes of hazardous or idle-deserted wells.

The bill would extend through the 2009–10 fiscal year the division's authorization to expend up to \$1,000,000 per fiscal year for those purposes, and reduce that amount to \$500,000 commencing with the 2010–11 fiscal year.

(3) Under existing law, on October 1, 2004, the department is required to report to the Legislature on the department's progress toward meeting various goals of orphan well abandonment.

This bill would require that report to be made on October 1, 2009, instead of October 1, 2004.

Ch. 434 (AB 2876) Frommer. Health facilities: information: disclosure.

Under existing law, the State Department of Health Services regulates the licensure and operation of health facilities, including hospitals.

Existing law requires health facilities to file reports with the Office of Statewide Health Planning and Development. These reports include a Hospital Discharge Abstract Data Record, an Emergency Care Data Record, and an Ambulatory Surgery Data Record, which contain information regarding each patient. Existing law requires the office to maintain a file containing these reports and, subject to any rules the office may prescribe, requires that these reports be produced and made available for inspection upon the demand of any person, with the exception of hospital discharge abstract data that is required to be made available unless the office determines that an individual patient's rights of confidentiality would be violated.

This bill would require the office, notwithstanding any other provision of law, upon request, to disclose information contained in the above records to a California hospital and a local health department or local health officer. The bill would require the office to disclose that information to the National Center for Health Statistics or any other unit of the Centers for Disease Control and Prevention, or the Agency for Healthcare Research and Quality of the United States Department of Health and Human Services, for conducting a statutorily authorized activity. The bill would require that all disclosures be consistent with federal regulations regarding the privacy of health information. However, the bill would prohibit any disclosure if the director of the office has determined that the disclosure would create an unreasonable risk to patient privacy, and would require the director to provide a written explanation of the determination to the requester within 60 days. The bill would prohibit a hospital that receives the above information from disclosing that information to any person or entity, except in response to a court order, search warrant, or subpoena, or as otherwise required or permitted by federal medical privacy regulations. The bill would prohibit a hospital, contractor, or subcontractor from reidentifying or attempting to reidentify any health information received.

Ch. 435 (AB 2894) Wiggins. County employees' retirement: purchasing power protection.

The County Employees Retirement Law of 1937 authorizes specified cost-of-living increases to be applied to allowances paid to or on account of members of county and district retirement systems.

This bill would additionally authorize the board of retirement of the retirement system in Sonoma County, if approved by the county board of supervisors, to provide cost-of-living adjustments, on a prefunded basis, to certain of the monthly allowances paid by the system to or on account of members of the system, as specified.

Ch. 436 (AB 3046) Committee on Agriculture. Milk inspection.

Existing law requires the Secretary of Food and Agriculture to test milk and milk products for the presence of drug residues and to adopt, by regulation, official drug residue testing methods for the detection of drug residue in bulk milk tanks, and tankers, and milk and milk products. Existing law permits the secretary to suspend or revoke the license or permit of a licensee or permittee who fails or refuses to complete a drug residue prevention program, or who has been found to have produced milk in violation of specified drug residue provisions on 3 or more occasions within a 12-month period. Existing law provides for a civil penalty,

as specified, for any dairy producer found to have produced milk in violation of the drug residue provisions.

This bill would provide that in addition to the civil penalties already specified, a dairy producer found to have produced milk in violation of the drug residue provisions shall be liable to the Department of Food and Agriculture for reasonable investigation and enforcement costs, including attorney's fees.

Ch. 437 (AB 3085) Committee on Governmental Organization. Alcoholic beverages.

(1) The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, the suspension of, and the conditions imposed upon, alcoholic beverage licenses by the Department of Alcoholic Beverage Control. Existing law provides for various annual fees for the issuance of alcoholic beverage licenses depending upon the type of license issued. For purposes of that act, existing law defines "licensee" as any person holding a license issued by the department.

This bill would delete an obsolete provision of the Alcoholic Beverage Control Act with respect to the power of the department to refund license fees. This bill would also redefine "licensee" to also include any person holding a permit, certification, or any other authorization issued by the department, and make nonsubstantive, technical changes to a related provision.

(2) Existing law generally prohibits a manufacturer of alcoholic beverages and a winegrower from paying, crediting, or compensating a retailer for advertising or paying or giving anything of value for the privilege of placing a sign or advertisement with a retail licensee. It authorizes, as an exception, the holder of a winegrower's license, a beer manufacturer, a distilled spirits manufacturer, or a distilled spirits manufacturer's agent, to purchase advertising space and time from, or on behalf of, an on-sale retail licensee, under certain conditions, if the on-sale retail licensee is the owner, manager, agent of the owner, assignee of the owner's advertising rights, or major tenant of a specified facility.

This bill would extend that exception to specified facilities located in Los Angeles County. This bill would also prohibit the display of advertisements in any hotel located in an exposition park, as provided.

(3) Existing law makes it a misdemeanor for licensees and other persons to violate existing provisions relating to the purchase of that advertising space or time.

This bill would impose a state-mandated local program by expanding the licensees subject to these criminal provisions.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) This bill would make findings regarding the need for special legislation.

(6) This bill would incorporate changes in Section 25503.6 of the Business and Professions Code proposed by this bill and SB 1647, which would become operative only if SB 1647 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

(7) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 438 (AB 3096) Committee on Governmental Organization. California State Lottery.

(1) Existing law requires the California State Lottery Commission to make quarterly reports of the operations of the lottery to the Governor, the Attorney General, the Controller, the Treasurer, and the Legislature. Existing law requires those reports to include, among other financial materials, balance sheets and statements of operation.

This bill would delete those requirements and instead require the reports to include a statement of assets, statement of revenues, expenses, and changes in net assets.

(2) Existing law requires a lottery game utilizing a drawing of winning numbers, a drawing among entries, or a drawing among finalists to be witnessed by a representative of a firm of independent certified public accountants and requires the equipment used in drawings to be inspected by that representative.

This bill would instead require the above duties to be performed by an independent lottery contractor having qualifications established by the California State Lottery Commission. The bill would also revise other provisions relating to the operation and security of the California State Lottery.

(3) The Lottery Act provides that none of its provisions may be changed, except to further its purpose by a bill passed by a  $\frac{2}{3}$  vote of each house of the Legislature and signed by the Governor.

This bill would declare that its provisions further the purposes of the act.

Ch. 439 (AB 502) Canciamilla. Permit Streamlining Act: natural gas projects.

(1) Under the Permit Streamlining Act, with the exception of activities of the State Energy Resources Conservation and Development Commission, a state or local agency, or a public agency that is the lead agency for a development project, is required to act upon an application for a development project within specified time periods prescribed by the act.

This bill would provide that if an applicant for a development project for natural gas exploration or production and a public agency agree in writing to expedite the permit process, the public agency may temporarily employ private entities or other persons pursuant to a contract or agreement with the public agency to perform those services or functions necessary to meet the time limits or comply with the requirements or local ordinances specified in the act. The bill would permit the public agency to charge the applicant a fee that does not exceed the estimated reasonable cost of implementing these provisions.

Ch. 440 (AB 753) Leslie. Surviving spouses: deceased firefighters and peace officers: health benefits.

The Public Employees' Medical and Hospital Care Act provides continuing health benefits coverage to the surviving spouse of a firefighter or peace officer who dies as a result of an injury or disease sustained in the line of duty if the surviving spouse was married to the firefighter or peace officer at least one year prior to the date of death.

This bill would also make those benefits available to a surviving spouse if he or she was married to the firefighter or peace officer prior to the date that firefighter or peace officer sustained the injury or disease resulting in death.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 441 (AB 979) Negrete McLeod. County employees' retirement.

(1) Under the County Employees Retirement Law of 1937, the retirement board in specified counties is comprised of 9 members. In those counties, the board is authorized to appoint an alternate retired member to the office of the 8th member of the board.

Under this bill, the alternate retired member in those counties would be entitled to the same compensation, rights, and privileges, and would have the same responsibilities and access to closed sessions, as the 8th member of the board, except as specified.

(2) Existing law authorizes members of retirement systems subject to the County Employees Retirement Law of 1937 to elect, at retirement, one of 3 optional settlements that provide a reduced retirement allowance to the member for life and a specified allowance to his or her designated beneficiary. Existing law also provides a survivor allowance to the surviving spouse of a member who dies after retirement if specified conditions are met.

This bill would authorize a retired member to elect to receive a reduced allowance to provide a benefit to his or her spouse who is not otherwise eligible for the survivor allowance.

The bill would also, upon adoption by the county board of supervisors, authorize a member who elects one of the optional settlements to also elect to receive the allowance the member would have received had he or she not made that election if the member's spouse or beneficiary predeceases him or her. The bill would make related technical changes.

(3) The County Employees Retirement Law of 1937 authorizes the county board of supervisors to provide a postretirement death benefit for members of the county retirement system in an amount determined by the board, up to \$5,000, if the board of retirement determines that some or all of the benefits may be financed from surplus earnings of the retirement fund.

This bill would authorize the board of retirement to elect to provide those benefits through a group life insurance policy if the cost of that policy to the system, county, or district is equal to or less than the cost of other methods of providing the benefit.

Ch. 442 (AB 1586) Committee on Public Employees, Retirement and Social Security. State teachers' retirement benefits.

Existing law defines "creditable compensation" and "full time" for purposes of calculating retirement benefits for members of the Defined Benefit Program of the State Teachers' Retirement Plan. Those definitions were amended as of July 1, 1996, by Chapter 390 of the Statutes of 1995.

Under this bill, creditable compensation of a member employed by a community college prior to that amendment would be determined pursuant to the former definition of "full time," if application of that former definition would benefit the member.

The bill would also appropriate \$140,000 from the Teachers' Retirement Fund to the Teachers' Retirement Board to fund the one-time administrative costs of the bill, thereby making an appropriation.

Ch. 443 (AB 1725) Matthews. Structural pest control: violations.

Existing law provides for licensing and regulation of structural pest control operators and related licensees by the Structural Pest Control Board. Existing law also sets forth certain responsibilities of the Director of Pesticide Regulation and county agricultural commissioners relative to inspections and pesticide use by licensees of the board. Existing law provides for suspensions of business for up to 3 days and for administrative fines of up to \$1,000 for violations of laws governing structural pest control licensees, with fines deposited into the Education and Enforcement Account in the Structural Pest Control Education and Enforcement Fund. Existing law requires the licensee to be given notice of the proposed action, and authorizes the licensee to file an appeal that would stay the commissioner's order until 20 days after the Disciplinary Review Committee has ruled on the appeal.

This bill would instead provide for administrative fines of up to \$5,000 for any violation determined by the board or a county agricultural commissioner to be a serious violation, as defined by regulation. The bill would provide that, upon appeal, an order would be stayed until 30 days after the Disciplinary Review Committee has ruled on the appeal.

Existing law authorizes a party that is suspended or fined by a county agricultural commissioner to appeal by filing a written appeal with the Disciplinary Review Committee within 10 days of receipt of the fine or suspension order, if specified conditions are met.

This bill would instead authorize the party to file the appeal within 30 days of receipt of the fine or suspension order.

Existing law requires the committee to render its decision within 45 days of the date of appeal or within 15 days from oral argument, and provides that the fine or suspension order is null and void if these time requirements are not met.

This bill would also permit the committee to render its decision as soon as practical and would delete the provision making the order null and void if the time requirements are not met.

Existing law regulates individuals who perform home inspections, as defined, and makes various practices relating to home inspections unfair business practices.

This bill would exempt specified acts by structural pest control operators from these provisions.

Ch. 444 (AB 1726) Committee on Agriculture. Agriculture: certified farmers' markets.

Existing law requires every operator of a certified farmers' market to remit to the Department of Food and Agriculture, within 30 days after the end of each quarter, a fee equal to the number of certified producer certificates and other agricultural producers participating on each market day for the entire previous quarter. Under existing law, any operator of a farmers' market who fails to pay the required fee, as specified, is required to pay to the department a monthly interest charge on the unpaid balance, to be determined by the department. Existing law repeals these provisions on January 1, 2005.

This bill would also impose a late penalty charge on those operators of farmers' markets who fail to pay the required fee, as specified. The bill would change the repeal date to January 1, 2007.

Existing law, until January 1, 2005, authorizes the Secretary of Food and Agriculture and county agricultural commissioners to impose civil penalties, in accordance with specified procedures, on persons who violate prescribed provisions of law relating to certified farmers' markets.

This bill would extend the repeal date to January 1, 2007.

Ch. 445 (AB 2021) Chu. Hazardous waste: toxics.

(1) Existing law, the "Toxics in Packaging Prevention Act," prohibits, on and after January 1, 2006, a manufacturer, importer, agent, or supplier, as defined, from offering for sale or for promotional purposes in this state a package or packaging component that includes specified regulated metals and prohibits, on and after January 1, 2006, a person from offering for sale or for promotional purposes in this state a product in a package that includes those intentionally introduced regulated metals. The act exempts from those requirements a package or a packaging component that meets specified conditions, and provides an exemption process from those requirements for a package or packaging component that has a controlled distribution and reuse, if the manufacturer or distributor submits information to the Department of Toxic Substances Control that complies with specified requirements, including demonstrating that there is an environmental benefit of the controlled distribution and reuse. The act requires a manufacturer or distributor that requests specified exemptions to enter into a written agreement with the department, pursuant to which the manufacturer or distributor is required to reimburse the department for costs incurred by the department in processing or responding to the request. The act requires the department to provide the public with access to all information submitted by a manufacturer or supplier pursuant to the act. The act requires all reimbursements received by the department to be deposited in the Hazardous Waste Control Account. A violation of the hazardous waste control laws, including the act, is a crime.

This bill would repeal the definition of the term "importer or agent" and would revise the definition of the term "supplier" for purposes of the act, to include a person acting as an intermediary for the resale of a package or packaging component from a manufacturer located in another country or who is listed as the importer of record. The bill would revise the exemption process under the act to instead provide that a package or packaging component qualifies for an exemption only if the manufacturer or supplier prepares, retains, and biennially updates documentation containing specified information for that package or packaging component. The bill would require the manufacturer or supplier to prepare, retain, and update certain documentation based upon the exemption for which the package or packaging component qualifies.

The bill would require a manufacturer or supplier to submit this documentation for an exemption to the department, upon request, in accordance with specified procedures and would require a manufacturer or supplier who does not comply with those requirements to immediately cease to offer the package or packaging component for sale in this state, replace the package or packaging component, or submit complete and correct documentation, in accordance with a schedule approved in writing by the department. The bill would also revise various conditions under which a package or packaging component qualifies for an exemption.

The bill would require the department to keep confidential information submitted to the department by a manufacturer or supplier pursuant to the act that the manufacturer or supplier identifies as proprietary in nature, including trade secrets.

This bill would also make technical nonsubstantive and conforming changes to those provisions.

Because a violation of the bill's requirements would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 446 (AB 2054) Wolk. Biologically integrated farming systems: pilot projects.

Existing law establishes within the University of California a program of pilot demonstration projects designed to provide extension services, training, and financial incentives for participating farmers to implement biologically integrated farming systems. Existing law prohibits new pilot projects from being commenced on or after December 31, 2005, and allows the University of California to use available funds for projects commenced before that date until all funds available for projects are encumbered.

This bill would delete the references to December 31, 2005. It would prohibit new pilot projects from being commenced on or after December 31, 2010, and would allow the University of California to use available funds for projects commenced before that date.

Ch. 447 (AB 2056) Aghazarian. Dentistry.

Existing law, the Dental Practice Act, regulates the practice of dentistry by the Dental Board of California in the Department of Consumer Affairs. Under the act, a licensee may be disciplined by the board, including having his or her license revoked or suspended, or being reprimanded or placed on probation by the board for specified reasons.

This bill would require the board to initiate a proceeding against a licensee for various violations of the act within specified time periods.

Existing law defines unprofessional conduct for purposes of the act to include committing acts of gross immorality substantially related to the practice of dentistry.

This bill would instead include committing acts of sexual abuse, relations with a patient, or misconduct substantially related to the practice of dentistry, and would include the unlawful prescribing, dispensing, or furnishing of dangerous drugs or devices, as defined.

Existing law makes a person who willfully, under circumstances or conditions that cause or create risk of bodily harm, serious physical or mental illness, or death, practices or attempts to practice, or advertises or holds himself or herself out as practicing dentistry without being certified or authorized to do so, guilty of a crime punishable by imprisonment in county jail for up to one year.

This bill would instead make that crime also punishable by a fine not to exceed \$10,000, or by both the fine and imprisonment. The bill would also make a person who conspires with or aids and abets another to commit those acts guilty of a crime and subject to the above penalties.

This bill would appropriate \$35,000 from the State Dentistry Fund to the Department of Consumer Affairs to fund a Dental Board of California investigator position in the 2004–05 fiscal year.

Ch. 448 (AB 2159) Reyes. Solid waste facilities: orders.

(1) The existing California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated solid waste management program.

Existing law prohibits a person from operating a solid waste facility without a solid waste facilities permit if that facility is required to have a permit pursuant to the act, and requires the enforcement agency to immediately issue a cease and desist order ordering the facility to immediately cease operations and directing the owner or operator of the facility to obtain a permit. Existing law authorizes an enforcement agency to issue a cease and desist order to a person who is taking certain unlawful actions under the act. Existing law requires all orders and determinations issued under that act to take effect immediately after any time period for appeal has expired. However, under existing law, a request for a hearing stays the effect of the order pending completion of all appeals, but a request for a hearing does not stay a provision of the order, or the order as a whole, when there is an imminent and substantial threat to public health and safety or the environment, as specified. Existing law specifies a procedure for the appeal of an order issued by an enforcement agency, including review by a hearing panel. Existing law allows an aggrieved person to file an appeal with the board to review the written decision of a hearing panel and the board is authorized to determine, within 30 days from the date after the appeal is filed, whether to hear the appeal.

This bill would specify that this prohibition on operating without a permit includes the operation of a solid waste facility without a required solid waste facilities permit or the operation of a solid waste facility outside the permitted boundaries specified in a solid waste facilities permit.

The bill would require the order issued by an enforcement agency to require the cessation of all activities for which a permit is required until the permit or other authorization is obtained.

The bill would provide that an order issued under the act takes effect immediately upon service, but would provide that a request for a hearing would stay the order until the date of the completion of all administrative appeals. The bill would provide that a cease and desist order takes effect upon service and that a request for a hearing would not stay the order, under specified conditions.

The bill would revise the provisions for the conduct of hearings to require a written filing and a statement of the issues and would require the enforcement agency to comply with a specified time schedule regarding the conduct of the hearing.

This bill would additionally allow a hearing by an enforcement agency to be conducted by a hearing officer appointed by the governing body of an enforcement agency, pursuant to procedures adopted by that governing body.

The bill would revise the procedures for appealing the decision of the hearing panel or hearing officer to the board and would delete the prohibition on the board from reducing the amount of a civil penalty.

The bill would require the board to hear an appeal within 60 days after the board receives a request for the appeal.

The bill would also make changes with regard to the appeal of a decision on other matters by a hearing panel or hearing officer.

(2) Existing law requires an enforcement agency that receives a complaint concerning a solid waste facility that the agency does not refer to another state agency to take appropriate enforcement action concerning the facility, refer the complaint to the Attorney General, the district attorney, or city attorney, whichever is applicable, or, provide the person who filed the complaint with a specified written statement.

This bill would require an enforcement agency to maintain a record of, and take any action that the enforcement agency is authorized to take regarding, a complaint, referral, or inspection relating to the operation of a solid waste facility or other activity within the jurisdiction of the enforcement agency that is an excluded operation, as specified.

(3) The bill would impose a state-mandated local program by requiring enforcement agencies to take specified solid waste enforcement actions.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 449 (AB 2307) Richman. Health care: provider enrollment and certification.

Under existing law, the State Department of Health Services licenses and regulates primary care clinics.

Existing law provides for the Child Health and Disability Prevention Program, under the supervision of the department of, pursuant to which certain health and disability prevention treatment services are provided to eligible children.

Existing law provides for the Medi-Cal program, administered by the department, under which qualified low-income persons are provided with health care services, including prescription benefits.

Existing law creates the Perinatal Services Program, under the Medi-Cal program, to provide assistance to pregnant women and infants up to one year of age in families of qualifying incomes.

Existing law requires the delivery of timely and continuing prenatal care during a period of presumptive eligibility pending a determination of eligibility under the application and eligibility determination and redetermination processes in the implementation of the Medi-Cal program.

Existing law provides for the delivery of comprehensive clinical family planning services to any person who has a family income at or below 200% of the federal poverty level, and who is eligible to receive these services pursuant to a federal waiver under the Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program as a covered benefit under the Medi-Cal program.

This bill would require the department to implement, on or before July 1, 2005, a process that allows an applicant for licensure as a primary care clinic to submit an application for review of the clinic's qualifications for participation in any of the above-described programs simultaneously with any review for enrollment and certification as a provider in the Medi-Cal program, and if approved for participation in a program, to be enrolled or certified, or both, as a provider in the program, subsequent to certification and enrollment as a provider in the Medi-Cal program.

Ch. 450 (AB 2436) Bates. Clinical laboratory testing.

Existing law provides for the regulation and licensure of clinical laboratories and clinical laboratory personnel by the State Department of Health Services and makes a violation of these provisions a misdemeanor. Under existing law, only designated health care personnel are authorized to perform, under specified conditions, clinical laboratory tests or examinations that are classified as waived, moderate complexity, or high complexity under federal law. Existing law also specifies conditions for the operation of a nondiagnostic general health assessment program.

This bill would authorize a person performing a nondiagnostic general health assessment to also perform, under specified conditions, a clinical laboratory test or examination that is classified as "waived." The bill would also specify additional conditions for the operation of a nondiagnostic general health assessment program. Because a violation of these

additional requirements would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 451 (AB 2613) Haynes. Discount buying organizations.

Existing law requires every discount buying organization to maintain a bond issued by a surety company in the amount of \$20,000 in order to do business in California.

This bill would exempt an affiliate discount buying organization, as defined, that maintains a bond in the amount of \$250,000, if its parent, as defined, maintains a \$2,500,000 bond for all of its affiliates and a letter of credit, from the \$20,000 bond requirement. The bill would also exempt an affiliate discount buying organization from some of the requirements relating to maintaining funds in a trust account at a federally insured bank or savings and loan association, except as specified.

Ch. 452 (AB 2626) Plescia. Physician assistants.

Existing law provides for regulation of physician assistants by the Medical Board of California, and establishes the Physician Assistant Committee within the board with certain powers and duties. Existing law authorizes a physician assistant to issue a drug order, subject to specified requirements. Existing law requires a supervising physician and surgeon to review, countersign, and date the medical record of a patient cared for by a physician assistant for whom the supervising physician and surgeon's drug order has been issued.

This bill would limit this requirement to Schedule II drug orders. The bill would require the committee to consult with the board and report during its next sunset review on the impact of exempting Schedule III and Schedule IV drug orders.

Ch. 453 (AB 2632) Bogh. Health facilities: construction plans: expedited approval.

The existing Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983 requires design and construction standards for hospital buildings that house patients who have less than the capacity of normally healthy persons to protect themselves, and that must be reasonably capable of providing services to the public after a disaster. The act requires the Office of Statewide Health Planning and Development (OSHPD) to approve or reject all plans for the construction or alteration of a hospital building, but authorizes OSHPD to exempt from that review or expedite the review for projects that the office determines do not materially alter the mechanical, architectural, or structural integrity of the facility, based on criteria that OSHPD is required to implement. The act requires the construction or alteration of certain skilled nursing and intermediate care facilities to conform to the latest edition of the California Building Standards Code.

This bill would require projects for the construction or alteration of hospital buildings and skilled nursing and intermediate care facilities that are single-story, wood-frame or light steel frame construction to be exempt from plan review and inspection by OSHPD prior to construction if the facility demonstrates to OSHPD by written description of the project that specified conditions are met.

Ch. 454 (AB 2716) Lowenthal. Medi-Cal.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

Existing law authorizes the Board of Supervisors of the County of Los Angeles to establish a commission for the provision, or arrangement for the provision, of health care services under the Medi-Cal program in all or a portion of the geographic area of the county.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Under existing law, the authorization for the commission to operate a health care program is limited to the local initiative described in a strategic plan, which is defined as a specified report issued on March 31, 1993, by the department.

This bill would revise the definition of the strategic plan to specifically include within the scope of that definition, the plan, as subsequently revised or amended.

Under existing law, governance of the commission is vested in a governing body consisting of 13 members. Among other requirements, one member is required to be a representative of free and community clinics and one member is required to be a representative of federally qualified health centers, with both of these members to be nominated by an entity or group recognized by the board of supervisors as representing the clinics and centers, respectively.

This bill, instead, would require that these members be nominated by the Community Clinics Association of Los Angeles County.

Existing law requires the governing body for each geographic region served by the local initiative to establish a community advisory committee and requires that the chairpersons of the community advisory committees comprise an executive advisory committee.

This bill would rename the community advisory committee the regional community advisory committee and rename the executive advisory committee the executive community advisory committee.

Existing law prohibits certain public officials and employees from being financially interested in any contract made by them in their official capacity or by any body or board of which they are members, including members of the governing body of the commission. Existing law provides that a member of the governing body of the commission or any advisory panel to the governing body is deemed not interested in a contract or amendment to a contract entered into by the commission if 6 conditions are satisfied.

This bill would revise these conditions. The bill also would establish conditions under which unrelated income, as defined under the bill, from a contractor under the local initiative to a member or a member's organization would not cause the member of the governing body of the commission or the advisory panel to the governing body to be deemed to be interested in the contract or amendment to the contract.

#### Ch. 455 (AB 2816) Daucher. Long-term care.

Existing law provides for licensing and certification of health care facilities, provides for the adoption of standards for accreditation of facilities, and provides for surveys of facilities in the regulation of those facilities.

This bill would require the California Health and Human Services Agency to determine the appropriate single agency to provide oversight of the waiver standards for adult day health care centers, by March 1, 2005.

Existing law establishes the Multipurpose Senior Services Program (MSSP) to provide specified services to frail elderly individuals 65 years of age and older who are certifiable for placement in a nursing facility, and requires the California Department of Aging to approve and designate local program sites.

This bill would require the State Department of Health Services to determine a percentage of the number of oversight reviews it conducts of MSSP utilization surveys that are conducted by the California Department of Aging.

#### Ch. 456 (AB 2909) Salinas. Early intervention services.

Existing law, the California Early Intervention Services Act, which is in effect only until the state terminates its participation in Part H of the federal Individuals with Disabilities Education Act, provides for the coordination of services from various state and local agencies for the provision of services to infants and toddlers up to 2 years of age who have, or are at risk of having, disabilities. The act requires each eligible infant or toddler to have an individualized family service plan.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would require the State Department of Education to conduct a study of the current methods of providing special instruction and other services to infants and toddlers who are deaf or hard of hearing, and to report to the Legislature by January 1, 2006.

Ch. 457 (AB 2916) Negrete McLeod. Milk products: licensing fees.

(1) Existing law requires that every butter license expires on the 31st day of December of the year during which it was issued. Existing law authorizes the license to be renewed for 2-year periods upon payment of a specified fee if the licensee has complied with all the applicable requirements of law and regulation.

This bill would make these licenses expire 2 years from the date of issue. This bill would require that license renewal fees be received within 90 days of the license expiration date for renewals to be issued. The bill would require every person with a sampler and weigher's license, within 6 months prior to the expiration of the license, to successfully complete a refresher course and proficiency evaluation acceptable to the Secretary of Food and Agriculture.

(2) Existing law requires every person that is engaged in the business of dealing in, receiving, manufacturing, freezing, or processing ice cream, ice milk, sherbet, or any similar frozen product, of manufacturing, freezing, or processing imitation ice cream, imitation ice milk, or any similar frozen product, or of processing any other dairy product for which a license is required, to pay specified fees.

This bill would impose a license fee for any other dairy product for which a license is required in the amount of \$100 for the calendar year for which the license is issued and a specified renewal fee.

(3) Existing law prescribes initial fees for licensing milk testers, milk samplers, milk technicians, and milk pasteurizers and prescribes a fee to renew these licenses.

This bill would increase these fees by prescribed amounts and would make the fee amounts also apply to renewal of these licenses.

Ch. 458 (AB 2921) Cox. Franchises.

(1) Existing law, the Franchise Investment Law, provides that it is unlawful for any person to offer or sell any franchise in this state unless the offer has been registered or exempted. Existing law makes it unlawful to solicit the agreement of a franchisee to a proposed material modification of an existing franchise without first delivering the franchisee a written disclosure. Existing law exempts from registration modifications of a franchise agreement with an existing franchisee of a franchisor if certain conditions are satisfied. Existing law makes a person who offers or sells a franchise in violation of specified provisions of the Franchise Investment Law liable to the franchisee or subfranchisor, who is authorized to sue for damages. A willful violation of the Franchise Investment Law is a crime punishable by a specified fine or imprisonment.

This bill, effective January 1, 2005, would revise the conditions that are required to be satisfied for the exemption from registration for a franchise agreement with an existing franchisee of a franchisor. The bill would exempt from registration certain offers and sales of a franchise that meet specified requirements. The bill would increase the fines authorized for certain violations of the Franchise Investment Law. The bill would make related changes.

Because a violation of the bill's requirements would be a crime, it would impose a state-mandated local program.

(2) Existing law, the California Finance Lenders Law, provides for regulation by the Department of Corporations of finance lenders engaged in the business of making consumer or commercial loans. Existing law exempts certain persons from the provisions regulating finance lenders.

The bill would exempt certain franchise loans from the California Finance Lenders Law.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 459 (AB 3024) Committee on Agriculture. Seed law.

Existing law, the California Seed Law, generally regulates the sale and production of seeds in this state. Existing law requires that the Secretary of Food and Agriculture and the commissioner of each county enforce the provisions and requirements of the California Seed Law.

This bill would instead require the secretary, and, under the supervision and direction of the secretary, the commissioner of each county and the qualified representative of the commissioner, to enforce the provisions of the California Seed Law. The bill would give the secretary the discretion to determine which enforcement activities shall be conducted by the commissioner in each county and which enforcement activities shall be conducted by department personnel.

Ch. 460 (AB 3025) Committee on Agriculture. Agriculture.

(1) Existing law provides that a horse exhibited at an event that receives a prohibited substance or specified nonsteroidal anti-inflammatory drugs (NSAID), within 48 hours prior to any withdrawal time established by law, shall not be eligible for show, competition, or sale, unless specified conditions are met, including that a horse shall be withdrawn from a public sale for a period of not less than 72 hours after a prohibited substance or NSAID is administered and that the withdrawal period for anabolic steroids is 90 days after administration. Any person who violates these provisions is guilty of a misdemeanor and, in addition, is subject to a civil penalty, punishable as specified.

This bill would provide, in addition, that the withdrawal period for fluphenazine or reserpine is 45 days after administration. By revising the scope and application of existing crimes, this bill would impose a state-mandated local program upon local governments.

(2) Existing law generally regulates milk and milk products. Existing law defines "dairy farm" for the purposes of these provisions with reference to premises where specified numbers of cows or goats are in lactation, and defines "milk" with reference to the lacteal secretion of a cow or goat.

This bill would change the definition of "dairy farm" to include premises where specified numbers of water buffalo, sheep, or other hooved mammals are in lactation, and would change the definition of "milk" to include the lacteal secretion of a water buffalo, sheep, or other hooved mammal.

(3) Existing law prohibits specified native plants from being harvested. Existing law authorizes the Secretary of Food and Agriculture, after consultation with the Secretary of the Resources Agency and after a public hearing, to add to, or remove from, the lists of native plants that may not be harvested. A public hearing on native plants is required to be held at least once every 24 months, as specified.

This bill would instead authorize a public hearing to be held on native plants at least once every 24 months, as specified.

(4) The bill would also provide that the California Agricultural Commissioners and Sealers Association shall be recognized as the official representative body on behalf of county agricultural commissioners and sealers and would make conforming changes to related provisions.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 461 (AB 3070) Committee on Banking and Finance. Securities: finance lenders.

Existing law, the Corporate Securities Law of 1968, provides for the regulation of the issuance of corporate securities by the Department of Corporations. Existing law requires an offer or sale of a security that is exempt from registration under the federal Securities Act of 1933 to meet specified requirements, including filing a notice with the Commissioner of Corporations.

This bill would authorize the commissioner to allow the notice to be filed by electronic transmission.

Existing law requires an investment adviser or a person who contemplates becoming an investment adviser subject to the Corporate Securities Law of 1968 to apply to the commissioner for a certificate.

This bill would require all investment adviser and investment adviser representative applications and related materials and fees to be filed electronically with the Investment Adviser Registration Depository operated by the National Association of Securities Dealers.

Existing law authorizes the commissioner, if he or she finds that certain prohibited actions are being taken with regard to the offer or sale of securities, to order the violator to desist and refrain from the violative actions. Existing law provides that the person may request a hearing to challenge the order, but that if the person fails to file a written request within one year from the date of service of the order, the order shall be deemed final and not subject to review.

This bill would instead provide that if the person fails to file a written request within 30 days from the date of service, the order would be deemed final and not subject to review.

Existing law requires the commissioner to forward economic benefit surveys and questionnaires to licensed capital access companies, for the purpose of evaluating the economic benefits to the State of California.

This bill would repeal this provision.

The California Finance Lenders Law requires licensed finance lenders to meet certain requirements when a loan is made, including obtaining statements relating to whether a broker or other person has participated in the transaction and to the sums paid or payable to the broker or other person. Existing law requires the finance lender to keep these statements for a period of 2 years from the date the loan is paid in full, matured, or charged off.

This bill would instead require the finance lender to keep these statements for a period of 3 years.

Ch. 462 (SB 431) Ortiz. Bioterrorism preparedness.

Existing law establishes procedures and requirements to govern the allocation to, and expenditure by, local health jurisdictions of federal funding received for the prevention of, and response to, bioterrorist attacks and other public health emergencies.

This bill would appropriate \$2,300,000 from the Federal Trust Fund to the State Department of Health Services to implement bioterrorism preparedness measures by state and local jurisdictions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 463 (SB 598) Machado. Confidentiality of medical information: psychotherapy.

Existing law prohibits providers of health care, health care service plans, and contractors from releasing medical information to persons authorized by law to receive that information if the information specifically relates to a patient's participation in outpatient treatment with a psychotherapist, unless the requester of the information submits a specified written request for the information to the patient and to the provider of health care, health care service plan, or contractor.

This bill would except from those provisions specified disclosures that are made for the purpose of diagnosis or treatment of a patient.

Ch. 464 (SB 928) Aanestad. Dentistry licensure.

(1) Existing law, the Dental Practice Act, provides for the licensure and regulation by the Dental Board of California of those engaged in the practice of dentistry. Existing law provides that a person practices dentistry if the person, among other things, manages or conducts as manager, proprietor, conductor, lessor, or otherwise, in any place where dental operations are performed.

This bill would exclude from the unlicensed practice of dentistry certain nonprofit entities that own or manage places where dental operations are performed if they comply with various requirements.

(2) Existing law requires a dentist who desires to have more than one place of practice to pay a fee to, and receive permission in writing from, the board prior to opening an additional place of practice. This requirement does not apply to a dentist who also practices in certain primary and specialty care clinics.

This bill would further exempt from this requirement a dentist who also practices in clinics operated by the federal government, a federally recognized Indian tribe, or a community clinic open for limited services no more than 20 hours per week. The bill would make corresponding changes.

(3) Existing law, the Dental Practice Act, authorizes the Dental Board of California to issue a license to a person who is currently licensed to practice dentistry in another state if the person satisfies other requirements, including proof that the applicant has been in clinical practice or a full-time faculty member for a minimum of 1000 hours per year for at least 5 years preceding his or her application.

This bill would instead require an out-of-state applicant to provide proof that he or she has either been in active clinical practice or a full-time faculty member in an accredited dental education program and in active clinical practice, for a total of at least 5000 hours in 5 of the 7 years preceding his or her application.

(4) Existing law requires an applicant to provide proof that he or she has not been subject to discipline in any state in which he or she has practiced and to sign a release allowing disclosure of specified information. Existing law requires the board to determine whether the disciplinary action and information warrants refusal to issue a license.

This bill would instead require the board to determine whether the disciplinary action or information presents sufficient evidence of a violation of unprofessional conduct, as defined in the act, to warrant submission of additional information or the denial of the application for licensure. The bill would require an applicant to make certain acknowledgments under penalty of perjury with respect to his or her application, thereby creating a new crime and imposing a state-mandated local program. The bill would authorize the board to contract with a 3rd party to review applications, and would require a person licensed under the provisions of the bill to fulfill continuing education requirements established by the board.

(5) Existing law requires a licensed dentist to register his or her place of practice with the board. Existing law also authorizes a licensed dentist to operate one mobile dental clinic or unit registered as a dental office or facility.

This bill would authorize a dentist to operate a mobile dental unit provided by property and casualty insurance as a temporary substitute site for his or her registered place of practice if the registered place of practice is unusable due to loss or calamity and the insurer registers the mobile dental unit with the board.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 465 (SB 1138) Hollingsworth. School districts: four-day school week.

Existing law authorizes the Pacific Unified School District, the Leggett Valley Unified School District, and the Reeds Creek Elementary School District, to operate one or more

schools in their districts on a 4-day school week, so long as the school district complies with specified requirements, including instructional time requirements. Existing law requires the Superintendent of Public Instruction to reduce the base revenue limit per unit of average daily attendance of a school district that operates one or more schools in its district on a 4-day school week and provides less than 180 days of instruction, as specified.

This bill would extend that authorization and those requirements to the Borrego Springs Unified School District, the Julian Union Elementary School District, the Julian Union High School District, and the Warner Unified School District. The bill would also extend that authorization and the requirements, until July 1, 2006, to the Jamul-Dulzura Union Elementary School District and the Marysville Joint Unified School District. The bill would revoke the authority of a school added by the bill to operate a 4-day school week if a school fails to meet its growth target on the Academic Performance Index.

This bill would declare that, due to the special circumstances applicable to the Borrego Springs Unified School District, the Julian Union Elementary School District, the Julian Union High School District, the Warner Unified School District, the Jamul-Dulzura Union Elementary School District, and the Marysville Joint Unified School District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

Ch. 466 (SB 1206) Soto. County employees' retirement: correction of errors.

The County Employees Retirement Law of 1937 prescribes benefits for members of county and district retirement systems subject to the act. Those benefits are based, in part, on a calculation of the member's final compensation, as defined. Management of each of those retirement systems is vested in a board of retirement, except in specified circumstances.

This bill would authorize the board of retirement to recalculate a member's retirement benefits, and to recover any overpayment of benefits, if the member made, or caused to be made, fraudulent compensation reports or directly or indirectly caused the member's final compensation to be overstated for purposes of the calculation of benefits. The period of limitation of actions under the bill's provisions would be 10 years, as specified.

Ch. 467 (SB 1548) Figueroa. Veterinary medicine.

(1) Existing law requires, with specified exceptions, every insurer providing professional liability insurance to a person who holds a license, certificate, or similar authority from certain agencies to send a complete report to those agencies as to any settlement or arbitration award, as specified.

This bill would require every insurer providing liability insurance to a licensed veterinarian to send a complete report to the Veterinary Medical Board of any settlement or arbitration award over \$10,000.

(2) Existing law, the Veterinary Medical Practice Act, provides for licensing and regulation of veterinarians and other related persons by the Veterinary Medical Board of California. Existing law provides that all fees collected on behalf of the board are to be credited to the Veterinary Medical Board Contingent Fund, which is a continually appropriated fund. Existing law, until July 1, 2005, provides for the board to consist of 7 members, and authorizes the board to appoint an executive officer exempt from civil service. Existing law requires the board to establish the Registered Veterinary Technician Committee, which is an advisory committee in issues pertaining to the practice of veterinary technicians. Existing law authorizes the committee to assist the board in the examination of applicants for veterinary technician registration. A violation of the Veterinary Medical Practice Act is a crime.

This bill would extend the operation of the provisions establishing the board and authorizing the appointment of an executive officer to July 1, 2009. The bill would require any person licensed under the Veterinary Medicine Practice Act, when the person has reasonable cause to believe an animal under his or her care has been a victim of animal abuse

or cruelty, to promptly report the animal abuse or cruelty to the appropriate law enforcement authority. The bill would require the committee to advise the board in the examination of applicants for veterinary technician registration. The bill would require the committee to advise the board in the inspection and approval of schools or institutions offering a curriculum for training registered veterinary technicians. The bill would authorize the committee to advise and assist the board in developing regulations on various matters. The bill would authorize the board to extend a temporary license for up to one year for reasons of health, military service, or undue hardship. The bill would authorize the board to increase specified fees for filing an application for examination under the Veterinary Medicine Practice Act. The bill would authorize the board to establish a fee, not to exceed \$300, for the registered veterinary technician examination. Because fees from these examinations would be deposited in the Veterinary Medical Board Contingent Fund, which is continuously appropriated, the bill would make an appropriation. Because a violation of these provisions of the bill would be a crime, it would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 468 (AB 129) Cohn. Juvenile court: dual status children.

Existing law provides that whenever a minor appears to come within the descriptions of both a dependent child and a ward of the juvenile court, the county probation department and the child protective services department shall, pursuant to a jointly developed written protocol, initially determine which status will serve the best interests of the minor and the protection of society.

This bill would authorize the probation department and the child welfare services department in any county to create a protocol which would permit a minor who meets specified criteria to be designated as both a dependent child and a ward of the juvenile court, as specified. A minor who is designated as both a dependent child and a ward of the juvenile court would be known as a dual status child.

This bill would also require the Judicial Council to collect and compile data, to evaluate the results of implementing the protocol, and to report its findings and any resulting recommendations to the Legislature within 2 years of the date participating counties first deem a child to be a dual status child.

Ch. 469 (AB 710) Correa. Orange County Transportation Authority.

Existing law establishes the Orange County Transportation Authority which is composed of 12 members, including 4 members of the board of supervisors and 6 city members appointed by the Orange County City Selection Committee. Existing law provides for the appointment of alternate members of the authority.

This bill would increase the size of the authority to 18 members. The bill would provide that all 5 county supervisors serve on the authority, would provide that 10 city members be elected by certain members of the Orange County City Selection Committee, and would provide for 2 public members. The bill would delete the provisions relating to appointment of alternate members. The bill would make other related changes.

By expanding the membership of the Orange County Transportation Authority, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 470 (AB 969) Correa. Local agency financing: validation proceedings.

(1) Existing law authorizes the state or any state board, department, agency, or authority to bring an action to determine the validity of its bonds, warrants, contracts, obligations, or evidences of indebtedness pursuant to specified procedures.

This bill would authorize any state board, department, agency, or authority that issues bonds, notes, or other obligations the proceeds of which are to be used to purchase, or to make loans evidenced or secured by, the bonds, warrants, contracts, obligations, or evidences of indebtedness of one or more local agencies, to bring an action to determine the validity of the bonds, warrants, contracts, obligations, or evidences of indebtedness of those local agencies to be purchased by, or used to evidence or secure loans by, the state board, department, agency, or authority, pursuant to these procedures.

(2) Existing law authorizes a local agency to bring an action to determine the validity of its bonds, warrants, contracts, obligations, or evidences of indebtedness pursuant to specified procedures.

This bill would authorize a local agency that issues bonds, notes, or other obligations the proceeds of which are to be used to purchase, or to make loans evidenced or secured by, the bonds, warrants, contracts, obligations, or evidences of indebtedness of other local agencies, to bring a single action in the superior court of the county in which that local agency is located, to determine the validity of the bonds, warrants, contracts, obligations, or evidences of indebtedness of the other local agencies, pursuant to these procedures.

(3) The Joint Exercise of Powers Act generally authorizes 2 or more public agencies to enter into an agreement to jointly exercise any power common to the contracting parties, subject to specified conditions.

This bill would authorize 2 or more public agencies that have the authority to invest funds in their treasuries, to jointly exercise that common power by agreement, subject to specified conditions.

(4) Existing law authorizes the legislative body of a local agency having money in a sinking fund of, or surplus money in, its treasury not required for the immediate needs of the local agency to invest any portion of the money that it deems wise or expedient in specified securities and financial instruments.

This bill would include within these provisions shares of beneficial interest issued by a joint powers authority, formed as authorized by the bill, that invests in the securities and obligations authorized under these provisions, subject to specified conditions.

Ch. 471 (AB 2067) Harman. Local government reorganization: special district consolidation.

Existing law, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, establishes procedures for the organization and reorganization of cities and special districts. With respect to the consolidation of special districts, existing law requires all of the districts to have been formed pursuant to the same principal act.

This bill would delete that requirement. The bill would require the petition for a change of organization or reorganization that includes consolidation of 2 or more special districts not formed pursuant to the same principal act either to designate the successor district and the applicable principal act or to state that the proposal requires the formation of a new district and includes a plan for services. The bill would authorize the local agency formation commission to approve a proposal for reorganization that includes the consolidation of 2 or more special districts not formed pursuant to the same principal act if specified conditions are met. The bill would require the commission in considering a proposal for such a consolidation to determine whether any service could be discontinued due to a lack of authority in the principal act and whether a new single-purpose local agency is deemed necessary. The bill would make all of these changes inoperative on July 1, 2008, and reinstate the prior law.

Ch. 472 (AB 2148) Diaz. Family law proceedings.

(1) Existing law authorizes the court, in dissolution of marriage, nullity of marriage, or legal separation proceedings, to order any party, except a governmental entity, to pay the amount reasonably necessary for attorney's fees and for the cost of maintaining or defending the proceeding, subject to augmentation or modification from time to time and before entry of judgment.

This bill would enact similar provisions that would apply in actions for the exclusive custody of a child and specified child custody and visitation proceedings. The bill would also permit, for purposes of the proposed provisions and the provision of existing law described above, a party who lacks the financial ability to hire an attorney to request the court to order the other party to pay a reasonable amount to allow the unrepresented party to retain an attorney in a timely manner. The bill would make related changes.

(2) Under existing law, during dissolution of marriage, nullity of marriage, or legal separation proceedings, an application for a temporary order making, augmenting, or modifying an award of attorney's fees or costs shall be made by a motion on notice or an order to show cause.

This bill would enact similar provisions that would apply in actions for the exclusive custody of a child and specified child custody and visitation proceedings. The bill would require, for purposes of the proposed provisions and the provision of existing law described above, the court to rule on an application for a temporary order for attorney's fees within 15 days of the hearing on the motion or order to show cause.

(3) Under existing law relating to the prevention of domestic violence, the court may issue various types of ex parte orders enjoining a party from contacting, molesting, attacking, striking, stalking, threatening, sexually assaulting, and engaging in other specified behavior.

This bill would require the court to consider whether the failure to make any of those orders in specified cases would jeopardize the safety of the petitioner, as specified. The bill would also require the Judicial Council to provide notice of this provision on related Judicial Council forms.

(4) Existing law authorizes the court, in domestic violence proceedings, to issue an order for support of a minor child if the respondent is the child's presumed father after notice and a hearing.

This bill would specify that the court may, if requested by the petitioner, make such an order, as specified. The bill would also require the court, after notice and a hearing, to order the respondent to pay an authorized amount of spousal support if the parties are married to each other and no spousal support order exists. The bill would also specify that such an order would be without prejudice.

(5) Existing law relating to domestic violence proceedings authorizes the court to issue an order for the payment of attorney's fees and costs of the prevailing party.

This bill would require the court, in any action in which the petitioner is the prevailing party and cannot afford to pay attorney's fees and costs, if appropriate based on the parties' respective abilities to pay, to order that the respondent pay petitioner's attorney's fees and costs.

Ch. 473 (AB 3022) Committee on Housing and Community Development. Housing.

(1) Existing law authorizes the Department of Housing and Community Development to make loans from the Mobilehome Park Purchase Fund to mobilehome park residents or resident organizations to finance conversion of the parks to resident ownership. Existing law also authorizes those loans to be made to qualified nonprofit housing sponsors and local public entities for the conversion of parks to ownership by those nonprofit sponsors or local public entities. The Mobilehome Park Purchase Fund is continuously appropriated to the department for the purpose of providing these loans and for related administrative costs.

Existing law limits the loan amounts to 95% of the acquisition costs of the individual interests in the mobilehome parks when approved by the department.

This bill would authorize those loans to also be made to a limited partnership where all the general partners are qualified nonprofit mutual or public benefit corporations. It would also increase the loan amounts that may be approved by the department, as specified.

This bill would make an appropriation by authorizing the expenditure of moneys in the Mobilehome Park Purchase Fund for a new purpose.

(2) Existing law provides for relocation assistance to a tenant displaced from a residential rental unit as a result of an order to vacate by a local enforcement agency under specified conditions.

This bill would renumber and recodify these provisions.

(3) Existing law governing housing and home finance generally defines the term "affordable housing cost" to mean, with respect to very low, lower, and moderate-income households receiving assistance on or after January 1, 1991, rent and housing costs not exceeding the product of a specified percentage times a specified percent of the area median income. Under existing law, this definition is used for determining, among other things, the affordability of housing made available pursuant to a requirement that a redevelopment agency allocate 20% of tax-increment revenues for housing available at affordable housing cost. Existing law, until January 1, 2005, separately defines affordable housing cost for any redevelopment agency within Santa Cruz County, with that specified percentage increased, for purposes of the provisions requiring a redevelopment agency to allocate 20% of tax-increment revenues for housing available at affordable housing cost.

This bill would extend the operability of the separate definitions of affordable housing cost for any redevelopment agency within Santa Cruz County until January 1, 2006.

Ch. 474 (AB 3076) Mullin. State Teachers' Retirement Law: part-time community college faculty.

Existing law requires any person who performs creditable service, as defined, on a part-time basis to become a member of the Defined Benefit Program of the State Teachers' Retirement Plan if the person is not already a member and is employed to perform 50% or more of the full-time equivalent for the position. Existing law provides that persons who teach adult or community college classes for not more than 60% of the full-time assignment are classified as temporary employees.

This bill would, as of July 1, 2005, exclude community college faculty members from mandatory membership in the Defined Benefit Program so long as they are classified as temporary employees. The bill would make related technical and conforming changes with respect to the Cash Balance Benefit Program.

Ch. 475 (AB 3118) Chu. State claims.

Existing law requires the California Victim Compensation and Government Claims Board to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$1,124,963.40 from various funds to the Executive Officer of the California Victim Compensation and Government Claims Board to pay claims accepted by the board. It would appropriate \$168,744.19, comprised of a 15% surcharge on the amount of each claim, to pay for the board's administrative costs of processing these claims.

This bill also would reappropriate \$282,253 for payment of a claim to the City of Hermosa Beach, as specified.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 476 (SB 7) Brulte. Marriage: solemnization: Armed Forces.

Existing law provides that marriage is a personal relation arising out of a civil contract between a man and a woman. Existing law provides for the issuance of marriage licenses,

as specified, and requires the solemnization thereof. Existing law requires the parties to declare in the presence of the person solemnizing the marriage and witnesses that the parties take each other as husband and wife.

This bill would authorize a member of the Armed Forces who is stationed overseas serving in a conflict or war and is unable to appear for his or her marriage ceremony to enter into that marriage by the appearance of an attorney-in-fact, as specified. The bill would further make conforming changes and requirements with regard to marriage applications and the issuance of marriage licenses.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 477 (SB 419) Scott. Medical waste: containment.

Existing law, the Medical Waste Management Act, administered by the State Department of Health Services, regulates the management and handling of medical waste. Existing law establishes the requirements for containing or storing medical waste.

This bill would allow the consolidation of medical waste into a common container provided that the waste is treated by an approved extreme high heat technology and the container is labeled as required by the bill.

Ch. 478 (SB 604) Perata. Political Reform Act of 1974.

(1) Under the existing Political Reform Act of 1974, on the Saturday preceding an election held on the first Tuesday after the first Monday in June or November in even-numbered years, campaign statements are required to be open for public inspection and reproduction at the offices of specified state and local agencies.

This bill would instead require that the campaign records be open for inspection and reproduction on the Saturday preceding a statewide primary or statewide general election.

(2) Under existing law, the Political Reform Act of 1974 authorizes various methods for filing a statement of organization, amendments to a statement of organization, a statement of organization for a slate mailer organization, and late contribution reports.

This bill would add additional methods for filing, including facsimile transmission and guaranteed overnight delivery, and would delete filing by telegram.

(3) Under the Political Reform Act of 1974, a committee that makes a late independent expenditure, as defined, is required to report the expenditure, as specified, within 24 hours of the time it is made. The act also requires each candidate or committee that makes or receives a late contribution, as defined, to report the late contribution, as specified, within 24 hours of the time the late contribution is made or received.

This bill would provide that late independent expenditure reports are not required for any committee filing independent expenditure reports pursuant to a specified provision. The bill also would provide that late contribution reports are not required for contributions disclosed pursuant to specified provisions.

(4) Existing law prohibits a slate mailer organization or committee primarily formed to support or oppose one or more ballot measures from sending a slate mailer unless it contains certain information specified by existing law.

This bill would delete those provisions, but would enact similar provisions that would change the information required to be included with slate mailers and make various other technical changes to existing law. It would provide that its intent is to clarify the status of certain disclosure requirements affecting slate mail, which has been brought into question as a result of the passage of Proposition 208 by the voters at the November 5, 1996, general election and the passage of Proposition 34 by the voters at the November 7, 2000, general election, and by litigation challenging the constitutionality of these 2 propositions.

(5) Existing law requires a slate mailer organization or committee primarily formed to support or oppose one or more ballot measures to include certain information specified in existing law with a slate mailer if any recommendation in the slate mailer to support or oppose

a ballot measure or to support a candidate is different from the official recommendation by the political party that the mailer appears by representation or indicia to represent.

This bill would delete this provision.

(6) The Political Reform Act of 1974 requires a disclosure statement in any advertisement for or against a ballot measure, identifying any person whose cumulative contributions to a committee are \$50,000 or more. It defines "cumulative contributions" as the cumulative contributions to a committee beginning the first day the statement of organization is filed and ending within 7 days of the time the advertisement is sent to the printer or broadcast station.

This bill would instead define "cumulative contributions" as the cumulative amount of contributions received by a committee beginning 12 months prior to the date the committee made its first expenditure to qualify, support, or oppose the measure and ending within 7 days of the time the advertisement is sent to the printer or broadcast station.

(7) Existing law requires a committee making an independent expenditure for a broadcast or mass mailing advertisement that expressly advocates the election or defeat of any candidate or any ballot measure to include on the advertisement the names of the two persons making the largest contributions to the committee and other specified information.

This bill would delete this provision and instead require a broadcast or mass mailing advertisement supporting or opposing a candidate or ballot measure, if paid for by an independent expenditure, to include a disclosure statement that identifies the name of the committee making the independent expenditure and the names of the persons from whom the committee making the independent expenditure has received its two highest cumulative contributions of \$50,000 or more during the 12-month period prior to the expenditure, as specified.

(8) Existing law makes a violation of the act subject to administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate the provisions of this bill.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(10) The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a  $2/3$  vote of each house and compliance with specified procedural requirements.

(11) Proposition 208, an initiative measure approved by the voters at the November 5, 1996, statewide general election, makes the amendment provisions of the Political Reform Act of 1974 applicable to the amendment of the initiative measure.

This bill, which would declare that it furthers the purposes of the Political Reform Act of 1974 and Proposition 208, would therefore require a  $2/3$  vote.

(12) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 479 (SB 1037) Sher. Subdivisions.

(1) Under the Subdivision Map Act, with respect to the review of tentative maps, a local agency may make recommendations concerning proposed subdivisions in any adjoining city, or in any adjoining unincorporated territory provided that the proposed subdivisions are within 3 miles of the exterior boundary of the requesting local agency.

This bill would permit those recommendations to be made for any proposed subdivision within the planning area of the requesting local agency.

(2) Under the Subdivision Map Act, the legislative body of a city, or county may, by ordinance, require the design of a subdivision for which a tentative map is required to provide for the availability of individual household telephone service to each residential parcel in the subdivision.

This bill would authorize the legislative body to require the design of such a subdivision to provide for appropriate cable television systems and communication systems, including, but not limited to, telephone and Internet services to each parcel in the subdivision.

Ch. 480 (SB 1153) Chesbro. Fish and Game Commission: Department of Fish and Game: wild turkeys: appropriations.

(1) Under existing law, any owner or tenant of land or property that is being damaged or destroyed or is in danger of being damaged or destroyed by elk, bear, beaver, wild pig, or gray squirrels, may apply to the Department of Fish and Game for a permit to kill that animal. The department, upon satisfactory evidence of the damage or destruction, is required to issue a revocable permit for the taking and disposition of the animal. Existing law prohibits the use of poison to take a gray squirrel under that provision.

This bill would also allow any owner or tenant of land or property that is being damaged or destroyed by wild turkeys to apply to the department for a permit to kill those animals. The bill would also prohibit the use of poison to take a wild turkey.

(2) Existing law authorizes the commission, if a landowner or tenant applies for a permit to kill wild pigs or deer, in lieu of that permit, and with the consent of, or upon the request of, the landowner or tenant, under appropriate regulations, to authorize the issuance of permits to persons holding valid hunting licenses to take wild pigs or deer in sufficient numbers to stop the damage or threatened damage.

This bill would amend that provision to include wild turkeys, and would additionally require the department, if a landowner or tenant applies for a permit for wild pigs, wild turkeys, or deer, to notify the landowner or tenant about specified available options for allowing access by licensed hunters.

(3) Existing law currently makes the money in the Fish and Game Preservation Fund available, upon appropriation by the Legislature, to the department for payment of refunds of sums it determines have been erroneously deposited in the fund and for the payment of all necessary expenses incurred in carrying out the Fish and Game Code and any other laws for the protection and preservation of birds, mammals, reptiles, and fish, and to the Fish and Game Commission to pay the compensation and expenses of the commissioners and employees of the commission.

This bill would instead continuously appropriate the money in that fund for expenditure by the department and the commission for those purposes until the 2005–06 fiscal year, at which time the money in the fund would be available for expenditure by the department and the commission only upon appropriation by the Legislature for those purposes.

Ch. 481 (AB 1820) Maze. Four-day school week: Death Valley Unified School District.

Existing law authorizes the Pacific Unified School District, the Leggett Valley Unified School District, and the Reeds Creek Elementary School District to operate one or more schools in their districts on a 4-day school week, so long as the district complies with specified requirements, including instructional time requirements.

This bill would authorize the Death Valley Unified School District to operate one or more schools in the district on a 4-day school week.

The bill would provide that if a school of that district that is operating on a 4-day school week fails to meet its Academic Performance Index growth target, the authority of that school to operate on a 4-day school week would be revoked commencing with the beginning of the following school year.

This bill would declare that, due to the unique circumstances regarding the Death Valley Unified School District, a general statute within the meaning of specified provisions of the California Constitution cannot be made applicable and a special statute is necessary.

This bill would repeal these provisions on January 1, 2009.

Ch. 482 (SB 1254) Soto. California Technology Assistance Project.

Existing law requires the State Department of Education to administer the California Technology Assistance Project, composed of regional consortia that administer, with 3-year grant funding awarded by the State Board of Education, a regionalized network of technical assistance to schools and school districts on the implementation of education technology and work collaboratively with school districts and county offices of education to meet locally defined technology-based needs. Existing law requires the department to provide statewide coordination and evaluation of technology programs and resources and to advance the use of technology in the curriculum and in the administration of elementary and secondary schools.

Existing law requires the State Board of Education to award grants, based on certain criteria, to fund a school district or county office of education in each region of the California Technology Assistance Project to act as the lead agency to administer the service of that region. Existing law authorizes school districts, county offices of education, and state special schools to apply to the State Board of Education to participate in grant programs related to education technology. Existing law repeals these provisions on January 1, 2005.

This bill would make certain findings and declarations relating to the California Technology Assistance Project, add certain educational needs that can be addressed with the use of technology, require a school district or county office of education to provide a plan containing certain criteria to be considered as a lead agency, and provide specific educational technology services to be supported by the California Technology Assistance Project.

This bill would extend the operation of the California Technology Assistance Project until January 1, 2009.

This bill would also make various technical, nonsubstantive changes to existing law.

Ch. 483 (SB 1340) Perata. Political Reform Act of 1974.

(1) Under existing law, the Political Reform Act of 1974, it is the duty of each candidate, treasurer, and elected officer to maintain detailed accounts, records, bills, and receipts necessary to prepare campaign statements and to comply with other specified campaign disclosure provisions. The filer is required to maintain these records for a specified period.

This bill would provide that it is also the duty of each candidate, treasurer, and elected officer to establish that campaign statements were properly filed. The bill would revise the period for which the filer is required to maintain the above-described records.

(2) Under the Political Reform Act of 1974, a candidate or committee that has made independent expenditures totaling \$1,000 or more in a calendar year is required to file independent expenditure reports, as specified.

This bill would require filing officers to maintain paper independent expenditure reports under the name of the candidate or measure supported or opposed by the independent expenditure.

(3) The act requires the Franchise Tax Board to make audits and field investigations, as specified, with respect to reports and statements filed with the Secretary of State regarding campaign disclosure and lobbyists, and grants the board discretionary authority to do the same.

This bill additionally would require the board to make audits and field investigations with respect to reports and statements filed with the Secretary of State regarding limitations on contributions.

(4) The act authorizes the Fair Political Practices Commission or the filing officer to bring a civil action and obtain a judgment in superior court for the purpose of collecting any unpaid monetary penalties, fees, or civil penalties imposed pursuant to the act.

This bill would provide that the civil action shall be commenced within 4 years after the date on which the monetary penalty, fee, or civil penalty was imposed.

(5) Existing law makes a violation of the act subject to administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate the provisions of this bill.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(7) The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a  $\frac{2}{3}$  vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a  $\frac{2}{3}$  vote.

Ch. 484 (SB 1353) Perata. Political Reform Act of 1974.

(1) Existing provisions of the Political Reform Act of 1974 (the act) require elected officials and designated employees to disclose their income, excluding, among other things, salary and reimbursement for expenses or per diem received from a state, local, or federal government.

The bill would revise the definition of "public official" and "designated employee" to exclude federal officers or employees serving on a state or local agency.

This bill would also revise the definition of "income" to exclude social security, disability, or other benefit payments received from a state, local, or federal government.

(2) Existing provisions of the act require a candidate or committee making contributions totaling \$10,000 or more in connection with an election to file a supplemental preelection statement no later than 12 days before the election.

This bill would specify that this supplemental preelection statement may be filed by guaranteed overnight delivery service or personal service.

(3) The bill would also make technical, nonsubstantive changes to the act.

(4) Existing law makes violations of the act punishable by administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate provisions of the bill.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(6) The act, an initiative measure, provides that the Legislature may amend the act to further its purposes with a  $\frac{2}{3}$  vote of each house and compliance with certain specified procedural requirements.

The bill would declare that it furthers the purpose of the act and would therefore require a  $\frac{2}{3}$  vote.

Ch. 485 (SB 1650) Chesbro. Pest control: Pierce's disease.

(1) Existing law establishes the Pierce's Disease Control Program in the Department of Food and Agriculture, and the Pierce's Disease Management Account in the Food and Agriculture Fund. Existing law allows money in this account to be expended as specified to combat Pierce's disease and its vectors. Existing law declares that these provisions shall become inoperative on January 1, 2006.

This bill would change the date on which these provisions become inoperative to March 1, 2011.

(2) Existing law creates in the Department of Food and Agriculture the Pierce's Disease and Glassy-winged Sharpshooter Board, which consists of specified numbers of representatives of producers and processors, as defined, in the grape industry that are appointed by the Secretary of Food and Agriculture. Existing law sets forth the powers of

the board and provides for an annual assessment to be paid by the processors into the Department of Food and Agriculture Fund for the purposes of, among other things, research and other activities related to the transmittal of the plant killing Pierce's disease bacterium, and its vectors, particularly the glassy-winged sharpshooter. Existing law repeals these provisions on March 6, 2006.

This bill would extend the repeal date of these provisions to March 1, 2011, except that this bill would make these provisions inoperative as of March 1, 2006, unless the secretary finds, in a referendum conducted by him or her, or a person designated by him or her, that a favorable vote has been given. The bill would require, no later than April 15, 2005, the secretary to establish a list of those individuals eligible to vote on the continued implementation of these provisions, as specified, and would establish requirements and procedures for a referendum.

The bill would authorize expenditure of funds collected pursuant to these provisions for costs to conduct a referendum and for research and other activities related to Pierce's disease and its vectors. Because assessments collected pursuant to these provisions are deposited in the Department of Food and Agriculture Fund, which is continuously appropriated, by authorizing expenditure of these funds for a new purpose, this bill would make an appropriation.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 486 (SB 1794) Perata. Criminal procedure: competency.

Existing law provides that antipsychotic medications can be administered to patients in various circumstances, including against a person's will or when a person is incapable of making rational decisions regarding that medication under certain circumstances, if proper procedures are followed. Separately, existing law authorizes distinct procedures for misdemeanor cases and those that include a felony charge for determining a defendant's mental competence to stand trial if a doubt arises about the mental competence of the defendant, as specified. Under both of these procedures, at least 2 psychologists, psychiatrists, or a combination of both are required to examine the person whose competence is questioned.

This bill would require these appointed mental health professionals to evaluate various specified issues relating to the person's competence, and to inform the court of their opinion regarding the potential side effects of any antipsychotic medication for the defendant.

Under existing law, if a defendant is found mentally incompetent because of a mental disorder, the criminal trial or judgment is suspended until the person becomes mentally competent. Existing law requires the court, in the meantime, to order that the defendant be delivered to a state hospital for the care and treatment of the mentally disordered, or to any other available public or private treatment facility approved by the community program director, or be placed on outpatient status, as specified. The procedures specified in existing law for the referral of a person for treatment to recover competence do not require a court to hear and determine whether antipsychotic medication should be administered to the defendant, as specified.

This bill would require that, prior to making an order committing the defendant for this treatment in either a misdemeanor or felony case, a court would have to hear and determine whether antipsychotic medication should be administered to the defendant, and would specify procedures relating to determining the appropriateness of administering antipsychotic medications during treatment.

By adding to the duties of county treatment facilities regarding their administration of antipsychotic medications to persons during commitments under these provisions, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay

the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 487 (SB 1812) Vincent. Gambling control.

The Gambling Control Act provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission and the enforcement of those activities by the Division of Gambling Control. Existing law confers on the division the responsibility of investigating violations of gambling laws and regulations and, if appropriate, recommending suspension or revocation of a license, permit, finding of suitability, or approval, to the commission.

This bill would authorize an administrative law judge, in cases in which that judge recommends that the commission revoke, suspend, or deny a gaming license, to order the licensee or applicant for a license to pay the division the reasonable costs of the investigation and prosecution of the case, as specified. The bill would also make related changes to those provisions.

Ch. 488 (AB 2208) Kehoe. Health care and insurance benefits.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans and makes a violation of the act's provisions a crime. Existing law also provides for the regulation of health insurers and all other forms of insurance by the Department of Insurance. Under existing law, health care service plans and health insurers are required to offer coverage for the domestic partner of an employee, subscriber, insured, or policyholder to the same extent and subject to the same terms and conditions as provided to a dependent of those persons.

This bill would require a health care service plan and a health insurer to provide coverage to the registered domestic partner of an employee, subscriber, insured, or policyholder that is equal to the coverage it provides to the spouse of those persons. The bill would extend this requirement to all other forms of insurance regulated by the Department of Insurance and would deem that all of those policies as well as health care service plans and health insurance policies issued, amended, delivered, or renewed in this state on or after January 1, 2005, or January 2, 2005, as specified, provide registered domestic partner coverage equal to that provided to spouses.

Because the bill would specify additional requirements for a health care service plan, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 489 (AB 2759) Levine. Health care coverage.

Existing law provides for regulation of health care service plans by the Department of Managed Health Care. Existing law provides for regulation of health insurers by the Insurance Commissioner. A willful violation of the provisions governing health care service plans is a crime.

This bill, on and after January 1, 2005, would require a health care service plan or health insurer issuing individual plan contracts or individual policies of health insurance and that ceases to offer individual coverage in this state, to continue to provide coverage to the subscribers or policyholders who had been covered by those contracts and policies at the time of withdrawal under certain terms and conditions. The bill would also require a health care service plan that ceases to offer individual coverage in a service area other than coverage

provided by a preferred provider organization, to continue to offer that coverage to subscribers who had been covered by those contracts at the time of withdrawal if it continues to offer group coverage in the service area.

The bill would also provide that these provisions would not apply when a plan participating in a contract to provide health coverage with a government entity no longer contracts with the government entity to provide that coverage in the state or a specified area of the state or when a plan ceases to offer and issue any and all forms of coverage in any part of the state after the effective date of this section.

Because a violation of these requirements by a health care service plan would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 490 (SB 1344) Margett. Insurance: fraud: records.

Existing law authorizes certain governmental agencies to request that an insurer or other specified person release to the agency any relevant information deemed important relating to a workers' compensation fraud investigation, and allows insurers to notify any of these agencies of suspected fraud. Existing law prohibits these agencies from releasing this information to any person not authorized to receive the information.

This bill would include the Department of Corrections among the agencies authorized to request and receive information regarding workers' compensation fraud.

Existing law provides that records of the identity, diagnosis, prognosis, or treatment of any patient maintained by a health care facility that are not privileged records required to be secured by a certain special master procedure, or records required by law to be confidential, shall only be disclosed to law enforcement agencies under specified circumstances. Existing law provides that these provisions shall not apply to various types of investigations, including investigations of insurance fraud performed by the Department of Insurance or the California Highway Patrol.

This bill would add investigations of insurance fraud performed by the Department of Corrections and conducted by peace officers in that department's Office of Internal Affairs to the investigations exempted from the provisions regarding the disclosure of records.

#### Ch. 491 (SB 1347) Ducheny. Mexican health plans.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the regulation of health care service plans by the Director of the Department of Managed Health Care. Existing law requires a health care service plan licensed under the laws of Mexico that elects to operate a health care service plan in this state to apply for licensure and comply with certain requirements, including offering and selling in this state only employer-sponsored group plan contracts exclusively for the benefit of citizens of Mexico legally employed in this state and their dependents. Existing law also requires any health care service plan that meets specified conditions to employ or designate a medical director who holds a license to practice medicine in this state.

This bill would, until January 1, 2008, delete the requirement that a Mexican health plan provide benefits only for citizens of Mexico and their dependents and would instead require that it provide benefits only for Mexican nationals legally employed in the County of San Diego or the County of Imperial, and their dependents. The bill would, until January 1, 2008, require a Mexican health plan to employ or designate a medical director who holds a license to practice medicine in this state or, for health care services that are to be provided or delivered wholly in Mexico, a medical director operating under the laws of Mexico.

#### Ch. 492 (SB 1363) Ducheny. Hotel and motel rates: natural disasters.

Existing law regulates advertising, including motel and motor court rate signs. Existing law, upon the proclamation of a state of emergency or a declaration of a local emergency, and for a certain period following the proclamation or declaration, makes it a misdemeanor for a person, contractor, business, or other entity to sell or offer to sell certain goods and services for a price that exceeds by 10% the price charged by that person immediately prior to the proclamation of emergency, except as specified. Existing law allows for the extension of these prohibitions for additional 30-day periods under specified circumstances, and makes a violation an unfair business practice and an act of unfair competition.

This bill would also prohibit the owner or operator of a hotel or motel from increasing its regular advertised rates by more than 10% for 30 days following a proclamation or declaration of emergency, except as specified. The bill would make a violation of this prohibition a misdemeanor, and would make a violation an unfair business practice and an act of unfair competition.

Because the bill would make a violation a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 493 (SB 1895) Burton. Special education: mental health services.

(1) Existing law requires school districts, county offices of education, and special education local plan areas to comply with state laws that conform to the federal Individuals with Disabilities Education Act, in order that the state may qualify for federal funds available for the education of individuals with exceptional needs. Existing law requires school districts, county offices of education, and special education local plan areas to identify, locate, and assess individuals with exceptional needs and to provide those pupils with a free appropriate public education in the least restrictive environment, with special education and related services as reflected in an individualized education program.

This bill would authorize a local educational agency to refer a pupil suspected of needing mental health services to a community mental health service in accordance with specified provisions. The bill would prescribe certain requirements relating to making those referrals and providing related services.

(2) Existing law requires the Superintendent of Public Instruction to administer the special education provisions of the Education Code and to be responsible for assuring provision of, and supervising, education and related services to individuals with exceptional needs as required pursuant to the federal Individuals with Disabilities Education Act.

This bill would provide that the superintendent is responsible for monitoring local educational agencies to ensure compliance with the requirement to provide mental health services to individuals with exceptional needs and to ensure that funds provided for this purpose are appropriately utilized. The bill would require the superintendent to submit a report to the Legislature by April 1, 2005, that includes specified information and recommendations relating to the provision and monitoring of mental health services, as provided. The bill would require the superintendent to collaborate with the Director of the State Department of Mental Health in preparing the report and to convene at least one meeting of appropriate stakeholders and organizations to obtain input.

(3) Existing law makes the State Department of Mental Health or any community mental health service designated by the department responsible for the provision of mental health services when required in a child's individualized education program. Existing law authorizes an individualized education program team or local educational agency to make a referral for mental health services for a pupil to a community mental health service when certain criteria are met and to provide certain documentation when making that referral.

This bill would revise certain provisions of the criteria and of the documentation requirements. The bill would provide that a county mental health agency does not have fiscal or legal responsibility for any costs it incurs prior to the approval of an individualized education program, except for costs associated with conducting a mental health assessment.

This bill would provide that the Director of the State Department of Mental Health is responsible for monitoring county mental health agencies to ensure compliance with the requirement to provide mental health services to disabled pupils and to ensure that funds provided for this purpose are appropriately utilized. The bill would require the director to submit a report to the Legislature by April 1, 2005, that includes specified information and recommendations relating to the provision and monitoring of mental health services, as provided. The bill would require the director to collaborate with the Superintendent of Public Instruction in preparing the report and to convene at least one meeting of appropriate stakeholders and organizations to obtain input.

This bill would declare the intent of the Legislature that the director collaborate with an entity with expertise in children's mental health to collect, analyze, and disseminate best practices, as provided, for delivering mental health services to disabled pupils.

(4) Existing law provides that counties are to continue to receive reimbursement from specifically appropriated funds for costs necessarily incurred in providing psychotherapy and other mental health services for handicapped and disabled pupils and that counties are not required to provide any share of those costs or to fund the cost of any part of these services with money received from the Local Revenue Fund for reimbursement claims for services delivered in the 2001–02 fiscal year and thereafter to handicapped and disabled pupils.

This bill would authorize counties to utilize money received from the Local Revenue Fund to fund the costs of any part of those mental health services and would provide that counties who use money from that fund for those services are eligible for reimbursement from the state, as provided. The bill would provide that these provisions are declaratory of existing law.

(5) Existing law requires, if the Commission on State Mandates determines that an act contains costs mandated by the state, that reimbursement to local agencies and school districts for those costs be made, as specified.

This bill would require the Commission on State Mandates to, on or before December 31, 2005, reconsider its decision relating to included services and administrative and travel costs associated with certain mental health services provided to disabled pupils, and its parameters and guidelines for calculating the state reimbursements for these costs.

(6) The Budget Act of 2004 requires that \$31,000,000 of certain funds appropriated to the State Department of Education for special education programs for exceptional children to be used to provide mental health services required by an individual education plan pursuant to the federal Individuals with Disabilities Education Act and pursuant to legislation enacted in the 2003–04 Regular Session that clarifies the manner in which the services are to be provided.

This bill would provide that those funds shall be allocated to special education local plan areas on a per average daily attendance basis to implement the provisions authorizing local educational agencies to refer pupils suspected of needing mental health services to community mental health service agencies.

(7) The Budget Act of 2004 requires that, pursuant to legislation enacted in the 2003–04 Regular Session, \$69,000,000 of certain funds appropriated to the State Department of Education for special education programs for exceptional children to be used exclusively to support mental health services provided during the 2004–05 fiscal year by county mental health agencies, as provided.

This bill would require those funds to be used exclusively to support mental health services that were both included within an individualized education program and that were provided during the fiscal year by county mental health agencies pursuant to specified provisions. The bill would provide that this funding not be provided for services that are not required

pursuant to the federal Individuals with Disabilities Education Act and will offset any mandate reimbursement claims for the fiscal year that may be filed by a county pursuant to specified provisions. The bill would require the \$69,000,000 to be distributed consistent with an allocation plan formulated by the State Department of Mental Health. The bill would require the State Department of Mental Health to submit an allocation plan to the Department of Finance for approval, as provided, and to the Joint Legislative Budget Committee. The bill would specify the manner of allocation to county offices of education for allocation to county mental health agencies.

(8) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 494 (AB 50) Koretz. .50 caliber BMG rifles.

Existing law makes it an offense for any person to commit an assault upon the person of another with a machinegun or an assault weapon. Existing law also makes it an offense for any person to commit an assault upon the person of a peace officer or firefighter, as specified, with a machinegun or assault weapon.

This bill would expand each of these offenses to include an assault with a .50 BMG rifle, as defined.

By expanding the scope of existing crimes, this bill would impose a state-mandated local program.

Existing law establishes the Prohibited Armed Persons File database that tracks possession or ownership of firearms and assault weapons, as specified.

This bill would include tracking the possession and ownership of .50 BMG rifles in the database, as specified.

Existing law defines "assault weapon" for purposes of regulation.

This bill would define ".50 BMG rifle" and ".50 BMG cartridge" for purposes of regulation.

Existing law makes it an offense, subject to certain exceptions, for any person to manufacture or cause to be manufactured, import into this state, transport, distribute, keep for sale, offer or expose for sale, give, lend, or possess an assault weapon, as specified, and provides a sentence enhancement for anyone who transfers, lends, sells, or gives an assault weapon to a minor, as specified.

This bill would extend those provisions to include a .50 BMG rifle.

By expanding the scope of existing crimes and sentence enhancements, this bill would impose a state-mandated local program.

Existing law provides a scheme for registration and issuance of permits in connection with assault weapons.

This bill would establish similar provisions for the registration and issuance of permits in connection with .50 BMG rifles. This bill would authorize the Department of Justice to charge a registration fee not exceeding \$25 for the registration of a .50 BMG rifle, as specified.

Existing law forbids the broadcast over police radio of information that an individual has registered, or has a permit to possess, an assault weapon, with specified exceptions.

This bill would expand those provisions to cover individuals who register or have permits to possess .50 BMG rifles.

Existing law provides that persons may arrange to relinquish an assault weapon to a police or sheriff's department.

This bill would similarly permit persons to arrange to relinquish a .50 BMG rifle to a police or sheriff's department.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 495 (SB 898) Burton. Schoolsite replacement housing.

Existing law authorizes a local governing agency, as defined, to acquire real property to replace existing dwelling units demolished in connection with a new schoolsite, as defined, if certain conditions are met and requires that displaced persons be given a right of first refusal to purchase or rent the replacement dwelling units.

This bill would also authorize a community college district or an eligible nonprofit corporation, as defined by the bill, to acquire real property for those purposes under the same conditions and requirements as a local governing agency and would require that the acquisition be from a willing seller.

Ch. 496 (SB 1781) Knight. Pyrotechnic operators.

Existing law provides for the licensing and oversight of pyrotechnic operators in the state, according to specified criteria. The State Fire Marshal is required to adopt regulations with respect to the licensing of pyrotechnic operators.

Existing law provides for the regulation of the sale, purchase, rental, lending, possession, transportation, storage, or use of, or manufacture, importation or exportation of, destructive devices, which are defined to include flamethrowing devices, by the Department of Justice.

This bill would delete flamethrowing devices from the definition of destructive devices.

This bill would require the State Fire Marshal to adopt regulations governing the possession and use of flamethrowing devices in this regard.

The bill would prohibit the use or possession of a flamethrowing device without a valid permit issued by the State Fire Marshal pursuant to the bill and would make a violation of this prohibition a crime, and would also authorize the State Fire Marshal to impose fees in amounts sufficient to cover the costs incurred in the administration and enforcement of these provisions.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 497 (AB 105) Wiggins. Agriculture and Water Omnibus Act of 2003.

(1) Existing law establishes the California Environmental Quality Improvement Revolving Loan Program within the Department of Conservation to provide loans to farmers to carry out practices approved for cost-share payments under the federal Environmental Quality Incentive Program.

This bill would repeal the provisions establishing that program.

(2) Existing law establishes the Coastal Farmland Preservation Program, which requires the State Coastal Conservancy and the Department of Conservation to enter into a memorandum of understanding to ensure that the program is a coordinated effort and meets the goals of coastal farmland preservation and the California Farmland Conservancy Program Act.

This bill would repeal the provisions establishing the Coastal Farmland Preservation Program.

(3) Existing law requires the Reclamation Board to have its office in the City of Sacramento.

This bill would require the board to have its office in the County of Sacramento.

(4) Existing law requires an urban water supplier to prepare and update an urban water management plan, and to submit copies of the plan to the Department of Water Resources and any city or county within which the urban water supplier provides water supplies.

This bill, in addition, would require the urban water supplier to submit a copy of the plan to the California State Library.

(5) Existing law authorizes a local agency whose service area includes a groundwater basin that is not subject to groundwater management to adopt and implement a groundwater management plan pursuant to certain provisions of law. Existing law requires a groundwater management plan to include certain components to qualify as a plan for the purposes of those provisions, including a provision that establishes funding requirements for the construction of certain groundwater projects.

This bill, instead, would apply those requirements only to that provision relating to those funding requirements.

(6) The California Safe Drinking Water Bond Law of 1988 authorizes board proceeds in the California Safe Drinking Water Fund to be used for a grant program with grants provided to prescribed entities, subject to specific approval of the Legislature.

This bill would make an appropriation by authorizing the department to make grants from the fund to specified entities for the purposes of financing domestic water system improvement projects to meet state and federal drinking water standards.

(7) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 498 (AB 107) Steinberg. Flood control standards.

Existing law authorizes the Reclamation Board to establish and enforce standards for the maintenance and operation of levees and other flood control works.

This bill would authorize the governing board of a public entity that is authorized to construct, manage, maintain, or repair flood control works that are under the jurisdiction of the Reclamation Board to adopt standards, for prospective application, for the operation and maintenance of those flood control works that are more protective of public safety than those standards adopted by the Reclamation Board. The standards adopted by the governing body of the public entity would become effective upon approval by the Reclamation Board. The bill would authorize the Reclamation Board to unilaterally revise these standards upon 90 days' written notice to the public entity.

Ch. 499 (AB 1222) Montanez. Parks and recreation: Roberti-Z'berg-Harris Urban Open-Space and Recreation Program Act: Los Angeles County: parkland exchange.

The Roberti-Z'berg-Harris Urban Open-Space and Recreation Program Act, administered by the Department of Parks and Recreation, authorizes grants to be made by the department to cities, counties, and districts for recreational or open-space purposes. The act requires property acquired or developed under the act to be used by the grant recipient only for the purpose for which the grant moneys were requested and prohibits any other use of the area, except as authorized by the Legislature.

This bill would authorize the County of Los Angeles to convert to a use not authorized under the act not more than 9.67 acres of parkland in El Cariso Park, if the county complies with the Public Park Preservation Act of 1971, and submits to the department a copy of all documents evidencing the county's interest in the substitute parkland required under the act.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 500 (AB 1873) Hancock. Solid waste: recycling market development.

The existing California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated waste management program. The act creates the Recycling Market Development Revolving Loan Subaccount in the Integrated Waste Management Account and continuously appropriates the funds deposited in the subaccount to the board for the purpose of providing loans for purposes of the Recycling Market Development Revolving Loan Program. Existing law makes the provisions regarding the loan program, the creation of the subaccount, and expenditures therefrom, inoperative on July 1, 2006, and repeals those provisions as of January 1, 2007.

This bill would extend the operation and repeal of the Recycling Market Development Revolving Loan Program, including the extension of the operation and repeal of the continuously appropriated subaccount, until July 1, 2011 and January 1, 2012, respectively, thereby continuing the effect of the program until those dates and thereby making an appropriation.

Ch. 501 (AB 2072) Wyland. Vessels: prohibited activities.

Existing law requires the Department of Boating and Waterways, upon request of the Director of Fish and Game, or his or her designee, to restrict or prohibit, based on the request, recreational vessel activity in Agua Hedionda Lagoon in San Diego County if that vessel activity would hinder or jeopardize the efforts of the Department of Fish and Game to control or eradicate *Caulerpa taxifolia*. Notice of the restriction or prohibition is required to be posted conspicuously, and, at a minimum, in areas where boats are launched into the waterway where the restriction or prohibition is in effect. The operator of a vessel who violates any restrictions or prohibition pursuant to this prohibition is subject to a fine of not more than \$250.

This bill would require the director, or his or her designee, to inform the Department of Boating and Waterways regarding the date on which *Caulerpa taxifolia* has been eradicated from Agua Hedionda Lagoon. The bill would require the director, or his or her designee, to calculate the repeal date of the provision in existing law described above by adding one year to the date provided to the Department of Boating and Waterways, as specified, and to notify the Secretary of State, in writing, of that repeal date, stating that the notification is being provided pursuant to this requirement. The prohibition in existing law would remain in effect only until the specified repeal date, and as of that date would be repealed.

Ch. 502 (AB 2173) Parra. Driving-under-the-influence: statement.

Under existing law, it is unlawful for a person who is under the influence of an alcoholic beverage or drug, or under the combined influence of an alcoholic beverage and drug, who has 0.08% or more, by weight, of alcohol in his or her blood, or who is addicted to the use of a drug, to drive a vehicle (DUI). Existing law imposes various sanctions on persons convicted of a DUI offense.

This bill would require a court to provide a person convicted of a reckless driving offense, as specified, or a DUI offense with a specified advisory statement. The bill would allow the advisory statement to be included in a plea form, if used, or would allow the fact that the advice was given to be specified on the record. This bill would require the court to include on the abstract of the conviction or violation submitted to the Department of Motor Vehicles that the person has been so advised.

Ch. 503 (AB 2350) Chavez. Safety in employment: conveyances.

Existing laws governing elevators, escalators, and other conveyances use the terms "elevator company," "elevator mechanic," "elevator inspector," "elevator company," and "elevator."

This bill would amend these existing laws, where relevant, to use the general term "conveyance" which is defined to include an elevator, instead of the specific term "elevator."

Ch. 504 (AB 2681) Negrete McLeod. Ralph C. Dills Act: travel expenses.

The Ralph C. Dills Act provides for negotiations concerning wages, hours, and other terms and conditions of employment between a state employer and representatives of recognized employee organizations, and authorizes the execution of memoranda of understanding based on these negotiations. The act provides that, with respect to state employees in specified state bargaining units, in any case where specified provisions of law are in conflict with the provisions of a memorandum of understanding, the memorandum of understanding shall be controlling without further legislative action, except as specified.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law requires, with specified exceptions, prior approval of the Governor and the Director of Finance for travel outside the state by state officers and employees in conducting their work.

This bill would authorize physicians in any state bargaining unit to negotiate under the Ralph C. Dills Act for preauthorized travel outside the state for continuing medical education. It would specify that the execution of a memorandum of understanding for that purpose would constitute the approvals required under the provisions of law requiring prior approval for travel outside the state, except as specified.

Ch. 505 (AB 2785) Nakano. Vehicles: wireless telephones.

Under existing law, motor vehicle operation is closely regulated, and drivers must follow many legal requirements or face criminal sanction. Aside from a provision making it unlawful to rent out a vehicle with cellular radio telephone equipment unless the renter provides instructions on the safe use of the equipment, there is no specific limitation in existing law on the placement or use of wireless telephones in motor vehicles.

This bill would make it an infraction to drive a schoolbus or a transit vehicle, as those terms are defined, while using a wireless telephone. The bill would provide that this prohibition does not apply to a driver who is using the wireless telephone for work-related purposes, or for emergency purposes, including, but not limited to, an emergency call to a law enforcement agency, health care provider, fire department, or other emergency service agency or entity. The bill would specify that a violation of this new offense does not constitute a serious traffic violation for purposes of the commercial motor vehicle safety program.

By creating a new infraction, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 506 (AB 3094) Committee on Public Employees, Retirement and Social Security. Retirement systems.

The Public Employees' Retirement Law and the County Employees Retirement Law of 1937 provide that persons entitled to receive benefits from any state, county, or district retirement system may authorize the payment of the benefits to be directly deposited by electronic fund transfer into the person's account at a financial institution of his or her choice. The California Right to Financial Privacy Act prohibits an officer, employee, or agent of a state or local agency or department from requesting or receiving from a financial institution the financial information of a customer except under specified conditions.

This bill would require retirement benefit payments from any of those public retirement systems that are directly deposited by electronic fund transfer or from the Public Employees' Retirement System that are paid by warrant, following the date of death of a person entitled to receive the benefits, as specified, to be refunded to the retirement system. The bill would add an exemption to the provisions of the California Right to Financial Privacy Act to require a financial institution to provide a public retirement system, as specified, with specified information about accounts of a customer who received direct deposit transfers from the retirement system after the date of his or her death.

This bill would incorporate additional changes in Section 7480 of the Government Code proposed by AB 1776 that would become operative only if AB 1776 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 507 (SB 58) Johnson. Police reports: confidentiality.

Existing law provides Californians with a right of privacy. Existing law regulates the dissemination of personal information held by government agencies. Existing law exempts

courts from the provisions of the California Public Records Act and permits a court to seal records and redact information from them.

This bill would require the district attorney and the courts in each county to establish a mutually agreeable procedure, as specified, to protect confidential personal information, as defined, regarding any witness or victim contained in a police report, arrest report, or investigative report that is submitted to a court by a prosecutor in support of a criminal complaint, indictment, or information, or by a prosecutor or law enforcement officer in support of a search warrant or an arrest warrant.

By requiring local prosecutors to establish a procedure with the courts for protecting the confidentiality of personal information in reports submitted to court, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 508 (SB 922) Soto. Perchlorate: information.

Existing law, with certain exceptions and commencing January 1, 2005, requires the owner or operator of a perchlorate storage facility, that has stored in any calendar year since January 1, 1950, over 500 pounds of perchlorate, to submit to the State Water Resources Control Board certain information. Existing law defines “perchlorate” and “perchlorate storage facility” for the purposes of these provisions.

This bill, for the purposes of these provisions, would revise the definition of “perchlorate” and make a technical, nonsubstantive correction to the provision that defines “perchlorate storage facility.”

#### Ch. 509 (SB 1745) Perata. Mental health rehabilitation centers.

(1) Existing law authorizes Placer County and up to 15 additional counties to establish a pilot project to develop a shared mental health rehabilitation center for providing community care and treatment for persons with mental disorders who are placed in a state hospital because there is no available community placement and authorizes the State Department of Mental Health to establish appropriate licensure requirements for new programs for the treatment of mental illness.

This bill would require each new and renewal application for a license to operate a mental health rehabilitation center to be accompanied by an application or renewal fee, and to expire 12 months from the date of issuance. The bill would require the collected fees to be deposited into the General Fund.

(2) Existing law authorizes a health facility to place up to 50% of its licensed bed capacity in voluntary suspension for up to 3 years, unless extended, and authorizes the health facility to remove all or any portion of its voluntarily suspended bed capacity from voluntary suspension unless the facility fails to meet currently applicable operational requirements or fails to meet construction requirements for the health facility in effect at the time the request for suspension of the beds was received by the department.

This bill would similarly authorize a health facility to voluntarily suspend all or part of its bed capacity or to voluntarily suspend its license for the purpose of operating a licensed mental health rehabilitation center and would permit the facility to reinstate the suspended facility bed capacity or license unless the facility fails to meet currently applicable operational requirements for a health facility.

Ch. 510 (SB 1768) Romero. Peace officers.

Existing law defines various categories of peace officers, including their powers and authority.

This bill would authorize railroad police officers, as specified, and their employing agencies, to access the California Law Enforcement Telecommunications System, as specified.

Ch. 511 (AB 1432) Firebaugh. Former jeopardy.

The California and United States Constitutions provide that a person may not be put twice in jeopardy for the same offense. Existing statutory law provides that no prosecution or indictment of an accused person may be brought when a charged act is within the jurisdiction of another state, government, or country as well as this state, and the person has been acquitted or convicted of the same act in that other jurisdiction. A separate statute makes it a defense to any prosecution brought in this state that the accused was acquitted or convicted in a prosecution founded on the same act or omission in another state or country with concurrent jurisdiction.

This bill would limit this immunity and defense to apply only upon a conviction or acquittal in a prosecution under the laws of the United States, or of another state or territory of the United States. It would thus eliminate conviction or acquittal in another country as a bar to prosecution or indictment in California and as a defense in a trial in California based upon the same act or omission. With regard to a person acquitted or convicted in another country who, under this bill, would be subject to prosecution in California for the same act or omission, it would provide that he or she shall be entitled to credit for any actual time served in custody in a penal institution in that country in relation to the act or omission, and to any additional time credits that would have been awarded had the person been incarcerated in California. This bill would also forbid the violation of international treaties or laws to secure the return of a person convicted in another country of a crime committed in California in order to prosecute the person in California.

By eliminating statutory immunity for persons acquitted or convicted in other countries who would otherwise be subject to prosecution by local authorities in California, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 512 (AB 1433) Spitzer. Criminal law: public officials: threats.

Under existing law, every person who knowingly and willingly threatens the life of, or threatens serious bodily harm to, any elected public official, county public defender, county clerk, exempt appointee of the Governor, judge, or Deputy Commissioner of the Board of Prison Terms, or the staff or immediate family, as defined, of any of these persons, with the specific intent that the statement is to be taken as a threat, and the apparent ability to carry out that threat by any means, is guilty of a public offense.

This bill would include the immediate family of the staff of the specified persons within the protections afforded by these provisions. By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 513 (AB 1655) Negrete McLeod. Emergency medical services: paramedics.

Existing law creates the Emergency Medical Services Authority in the California Health and Human Services Agency, and requires the authority, among other things, to provide technical assistance to agencies, counties, and cities for developing components of emergency medical services systems. Under existing law, the authority may deny, suspend, or revoke an EMT-P license, or place an EMT-P licenseholder on probation, upon a finding by the Director of the Emergency Medical Services Authority that certain actions have occurred, including conviction of specified crimes.

This bill would, with certain exceptions, authorize the authority to impose an administrative fine on any licensed paramedic who has committed specified conduct. This bill would require that all funds recovered by the authority pursuant to these provisions be deposited into the General Fund.

This bill would, with certain exceptions, require EMT-P employers to report in writing to the local EMS agency medical director and the authority actions taken concerning an EMT-P, including the removal of an EMT-P from paramedic duties for disciplinary cause or reason following the completion of an internal investigation.

Under existing law, a violation of any of the provisions relating to emergency medical services is punishable as a misdemeanor.

By expanding the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 514 (AB 1663) Dutra. Vehicle: additional registration fees.

Existing law, in addition to the other fees imposed for the registration of a vehicle, imposes, as a county option with certain exceptions, an additional fee of \$1, and an additional service fee of \$2, on all commercial motor vehicles, and continuously appropriates the money to fund local programs relating to vehicle theft crimes. These provisions are to be repealed as of January 1, 2005.

Existing law requires each participating county to submit a specified quarterly report to the Department of the California Highway Patrol, which is required to prepare an annual report for the Legislature and participating counties.

The bill would extend the repeal date of January 1, 2005, to January 1, 2010, and would thus extend the fee and the continuous appropriation until January 1, 2010, thereby making an appropriation.

The bill would require each participating county to issue a fiscal yearend report to the Controller, summarizing certain matters. If a county fails to submit the fiscal yearend report, the authority to collect the fee would be suspended by the Controller for one year, as specified. The bill would require the Controller to provide the Department of the California Highway Patrol copies of these reports, and, in consultation with the Department of the California Highway Patrol, to review the fiscal yearend reports submitted by each county to determine if fee revenues are being utilized in a manner consistent with the bill; and, if the Controller, after consulting with participating counties' designated regional coordinators, as defined, determines that the use of the fee revenues is not consistent with the bill, the authority to collect the fee by that county would be suspended for one year.

The bill would require the Controller to annually prepare and submit to the Legislature a revenue and expenditure summary for each participating county.

The bill would require the Department of the California Highway Patrol, in consultation with all participating designated regional coordinators, to review the effectiveness of reducing vehicle theft crimes that were funded by the fees imposed by the bill and to provide to the Legislature a report based on that review, on or before January 1, 2009.

**Ch. 515 (AB 1814) Oropeza. Grand theft.**

Existing law provides that every person who steals, takes, or carries away specified moneys, labor, or real or personal property is guilty of grand theft.

This bill would, in addition, generally provide, until January 1, 2010, that every person who steals, takes, or carries away cargo of another, as defined, when the cargo taken is of a value exceeding \$400, is guilty of grand theft. The bill would make specified conforming changes to its provisions if AB 2705 is chaptered. Because this bill would create a new crime, it would impose a state-mandated local program upon local government.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 516 (AB 1931) La Malfa. Peace officers.**

Existing law provides that any deputy sheriff of certain counties who is assigned to perform duties relating to specified custodial assignments is a peace officer whose authority extends to any place in the state only while engaged in the performance of the duties of his or her employment and for the purpose of carrying out the primary functions of employment relating to his or her custodial assignments, or when directed to perform other law enforcement duties during a local state of emergency.

This bill would add deputy sheriffs of Butte County and Tuolumne County employed to perform those duties relating to custodial assignments to that category of peace officers.

**Ch. 517 (AB 2160) Reyes. Foreign prosecution.**

Existing law provides that the Attorney General may, upon the request of any local, state or federal law enforcement official, make available to that official the department's technical experts for the purpose of assisting in the investigation of criminal matters, the detection of crimes, and the apprehension or prosecution of criminals.

This bill would create the Foreign Prosecution and Law Enforcement Unit within the Department of Justice, responsible for assisting local law enforcement agencies with foreign prosecutions, child abduction recoveries and returns under the Hague Convention on the Civil Aspects of International Child Abduction, and law enforcement investigative matters, as specified. This bill would also provide that the unit would collect information on a statewide basis regarding foreign prosecution cases for the primary purpose of analyzing the information it collects and disseminating its conclusions to local law enforcement agencies. The bill would provide that local law enforcement agencies shall retain the authority to prepare and present foreign prosecution cases without the unit's assistance.

**Ch. 518 (AB 2201) Firebaugh. Vehicles.**

(1) Existing law requires a licensed contractor to pay all transportation charges submitted by a duly authorized motor carrier of property in dump truck equipment by the 20th day following the last day of the calendar month in which the transportation was performed, if the charges, including all necessary documentation, are submitted by the 5th day following the last day of the calendar month in which the transportation was performed.

This bill would impose similar requirements on a broker of construction trucking services, as defined, but would require the payment of the transportation charges to be made by the 25th day following the last day of the calendar month in which the transportation was performed. The bill would authorize the broker, if there is a good faith dispute over a portion of the charges claimed, to withhold payment of an amount not to exceed 150% of the estimated cost of the disputed amount. The bill would require a broker who violates these provisions to pay to the motor carrier of property in dump truck equipment a penalty of 2% per month on the improperly withheld amount.

(2) The Sales and Use Tax Law requires that all funds collected by the Department of Motor Vehicles pursuant to specified law, relating to motor carriers permit program fees, be deposited in the State Treasury to the credit of the Motor Vehicle Account in the State Transportation Fund, and then requires a transfer of those fees to the General Fund.

This bill would provide that uniform business license tax fee payments collected by the department pursuant to those provisions be deposited in the State Treasury directly to the credit of the General Fund.

(3) Existing law authorizes a local authority, by ordinance or resolution, to, among other things, prohibit or restrict the parking or standing, on any street or highway, or portion thereof, in a residential district, of commercial vehicles having a manufacturer's gross vehicle weight rating of 10,000 pounds or more. This prohibition or restriction, however, is not effective with respect to a commercial vehicle, making pickups or deliveries of goods, wares, and merchandise from or to, or deliveries for certain other purposes to, any building or structure located on the prohibited or restricted streets or highways.

This bill would include the trailer component of a commercial vehicle within the provision exempting vehicles from the parking or standing prohibition or restriction.

(4) Existing law requires a person who provides property on which aggregate material or any other material is loaded into vehicles, unless there are 100 yards or less between the scale houses where trucks are weighed and the point of egress to the public road, to provide a location at which vehicle operators can comply with covering provisions before entering a highway. Under existing law, a driver leaving locations exempted from this provision is authorized to operate on public roads until that driver is able to safely cover the load but no further than 200 yards from the point of egress to the public road.

This bill would specify that a driver of a vehicle transporting a load of aggregate materials who is currently exempted from covering a load under specified circumstances may operate that vehicle uncovered beyond the 200 yards limitation.

The bill would make technical, nonsubstantive changes to this provision.

(5) Existing law requires the Department of the California Highway Patrol to inspect, at least every 25 months, every terminal of a motor carrier, as defined, that directs the operation of or maintains a commercial vehicle in this state, as specified. For purposes of complying with this inspection requirement, existing law allows a motor carrier to combine 2 or more terminals subject to certain conditions.

This bill would continue to allow the inspection of combination of terminals so long as those terminals are not subject to an unsatisfactory compliance rating within the last 36 months.

Ch. 519 (AB 2439) Haynes. Canyon Lake Reservoir: recreational use.

Existing law, with certain exceptions, prohibits recreational use, in which there is bodily contact with the water, of a reservoir in which water is stored for domestic use, and establishes water standards for those exempted reservoirs.

This bill would, in addition, until January 1, 2008, exempt the Canyon Lake Reservoir within the Elsinore Valley Municipal Water District from this prohibition, would establish water treatment standards to be met by the water district, and would make a conforming change. The bill would require the district to file a related report with the Legislature.

This bill would make findings and declarations regarding the necessity of a special statute.

Ch. 520 (AB 2530) Levine. Controller: duties and authority.

(1) Existing law authorizes employers to deduct the sum of \$1 for each payment made pursuant to an earnings withholding order issued to enforce the payment of support obligations.

This bill would instead authorize employers to deduct the sum of \$1.50 for each payment made pursuant to an earnings withholding order issued to enforce the payment of support obligations.

(2) The Unclaimed Property Law governs the disposition of unclaimed property, including the escheat of certain property to the state. The Controller administers property that has escheated to the state. Under existing law, in situations in which specified security interests escheat to the state, the holder of an interest is required to deliver a duplicate certificate regarding that interest to the Controller.

This bill would modify those provisions of law to permit the holder of an interest, rather than delivering a certificate to the Controller, to instead register the securities in uncertificated form in the name of the Controller.

(3) Existing law requires the Controller to submit an annual report to the Governor containing a statement of the funds of the state, its revenues, and the public expenditures during the preceding fiscal year. It is required that this annual report include specified information and that this report and any summary of this report be printed.

This bill would require, instead, that the annual report and summary report be published in an electronic format or printed, as determined by the Controller. It would require the Controller to make printed copies of the reports available upon request.

(4) Existing law requires counties, cities, and other local agencies to make various periodic reports of financial transactions to the Controller, and requires the Controller to compile and publish these reports annually. Existing law requires that if county, city, or district reports are not made in the time, form, and manner required or there is reason to believe that a report is false, incomplete, or incorrect the Controller shall appoint a qualified accountant to make an investigation and to obtain the required information. Existing law also imposes forfeitures in specified amounts upon an officer of a local agency or a community redevelopment agency who fails or refuses to make and file a required financial report within 20 days after receipt of a written notice of the failure from the Controller.

This bill would provide that any costs incurred by the Controller pursuant to these provisions in compiling the required reports shall be borne by the county, city, or redevelopment agency, and shall be a charge against any unencumbered funds of the county, city, or redevelopment agency. It would provide, however, that any forfeiture may be offset to the extent of the total costs incurred by the Controller.

(5) Existing law requires the Controller to direct and superintend the collection of all money due the state, and to install and operate a uniform state payroll system for all state agencies, with certain exceptions.

The Accounts Receivable Management Act sets forth procedures by which state agencies, departments, and offices establish accounts receivable collections systems.

This bill would authorize the Controller, within the uniform state payroll system, and for each state agency, department, and office, to disregard errors of \$25 or less in individual accounts receivable, if he or she has determined that time and expense will be saved in doing so.

#### Ch. 521 (AB 2676) Nakano. Airports: heliport construction plans.

The existing State Aeronautics Act prohibits any person or political subdivision from submitting an application for the construction of a new airport, including a helicopter landing and taking off area (heliport), to any local, regional, state, or federal agency unless the plan for construction is first approved by the board of supervisors of the county, or the city council of the city, in which the airport is to be located and unless the plan is submitted to and acted upon by the appropriate airport land use commission or any other appropriately designated body for land use planning. Existing law requires the submission of an application for a permit to construct or establish an airport to the Division of Aeronautics of the Department of Transportation. Existing regulations adopted by the department require that for the department to consider an application complete, the applicant must submit documentation of approval of the plan for construction by either the board of supervisors of the county or the city council of the city, as appropriate, in which the airport is to be located.

This bill would authorize a county board of supervisors or a city council to delegate its above-described responsibility for prior approval of a plan for new heliport construction, to the city or county planning agency. The bill would require the department to adopt regulations, or amend existing regulations, consistent with the changes to existing law made by the bill.

Ch. 522 (AB 2814) Simitian. Natural resources: California Environmental Quality Act.

The California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared, and to certify the completion of, an environmental impact report on a project, as defined, that it proposes to carry out or approve that may have a significant effect on the environment, as defined, or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also generally requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA provides some exemptions from its requirements for specified projects.

Existing law requires a petitioner or plaintiff who brings specified actions or proceedings under CEQA to name, as a real party in interest, any recipient of an approval under CEQA that is the subject of the action or proceeding. Existing law provides that failure to name potential parties, other than those real parties in interest, or certain responsible agencies and other certain public agencies having jurisdiction over a natural resource affected by the project, is not grounds for dismissal of the action or proceeding, as specified.

This bill would, instead, provide that failure to name potential parties, other than those real parties in interest, is not grounds for dismissal, as specified.

Ch. 523 (AB 2927) Wiggins. Alcoholic beverages.

The Alcoholic Beverage Control Act authorizes the issuance of a special temporary on-sale and off-sale beer and wine license to a nonprofit corporation, as specified, in accordance with, among other things, a requirement that this license shall be issued only once in any 12-month period. Existing law also restricts alcoholic beverages from being sold at less than the minimum retail price by a nonprofit corporation.

This bill would provide that a special temporary license shall be issued only once in a calendar year, and would allow alcohol to be sold at less than the minimum retail price by specified nonprofit organizations.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 524 (SB 635) Dunn. Emergency medical services.

(1) Existing law authorizes each county to establish an emergency medical services fund, funded by specified revenue penalties, and makes money in the fund available for the reimbursement of physicians and surgeons and hospitals for losses incurred in the provision of emergency medical services when payment is not otherwise made for those services.

This bill would, until January 1, 2007, authorize Santa Barbara County to collect additional penalties, fines, or forfeitures, and to modify the percentage distribution of the fund to the various medical care providers, provided that the Santa Barbara County Board of Supervisors adopts a resolution stating that implementation of these provisions is necessary to the county for purposes of providing payment for emergency medical services.

(2) Existing law provides that payments for emergency medical services from the county emergency medical services fund shall be made only for emergency medical services provided on the calendar day on which emergency medical services are first provided and on the immediately following 2 calendar days, and specifies that payments may not be made for services provided beyond a 48-hour period of continuous service to the patient.

Existing law also provides that if it is necessary to transfer the patient to a 2nd facility providing a higher level of care for the treatment of the emergency condition, reimbursement shall be available for services provided at the facility to which the patient was transferred on the calendar day of transfer and on the immediately following 2 calendar days, and specifies that payments may not be made for services provided beyond a 48-hour period of continuous service to the patient.

This bill would, until January 1, 2007, eliminate the limitation against making those payments for services provided beyond a 48-hour period of continuous services to the patient.

(3) Existing law requires the clerk of the court to collect a fee from every person who is ordered or permitted to attend a traffic violator school or who attends any other court-supervised program of traffic safety instruction, and provides for the allocation of the fee. Existing law provides that any county that has established a Maddy Emergency Medical Services Fund shall deposit \$2 for every \$7 of additional penalties imposed by the courts for criminal offenses.

This bill would, until January 1, 2007, provide that the allocation of fees authorized by this bill for Santa Barbara County shall be deposited in that fund.

This bill would require the Board of Supervisors of Santa Barbara County to report to the Legislature whether, and to the extent that, actions are taken by the county to implement alternative local sources of funding, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 525 (SB 647) Sher. Environmental quality.

(1) The existing California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared by contract, and certify the completion of, an environmental impact report on any project that it proposes to carry out or approve that may have a significant effect on the environment. CEQA requires that, when preparing and certifying an environmental impact report for a military base or reservation, as defined, the determination of whether the reuse plan may have a significant effect on the environment may be made in the context of the physical conditions that were present at the time that the federal decision became final for the closure or realignment of the base or reservation.

These provisions of existing law contain cross-references to provisions of law that have been repealed.

This bill would delete those obsolete cross-references and would make other conforming changes.

CEQA authorizes state and local lead agencies or project proponents to file a notice of determination with the Office of Planning and Research or the county clerk, as prescribed, whenever the lead agency determines that a project is not subject to the act and the lead agency approves or determines to carry out the project. With regard to local lead agencies, the county clerk is required to post the notice and return it to the agency, which is required to retain the notice for not less than 9 months.

This bill would instead require the local lead agency to retain the filed notice of determination for not less than 12 months, thereby imposing a state-mandated local program by imposing new duties on the local agency. The bill would also, with regard to state lead agencies, require the Office of Planning and Research to retain a filed notice of determination for not less than 12 months.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 526 (SB 1404) Soto. Multifamily improvement districts.

Existing law establishes the Property and Business Improvement District Law of 1994 to levy assessments on properties within a business improvement area within a city or county for the purpose of financing certain improvements.

This bill would enact the Multifamily Improvement District Law to provide until January 1, 2012, for the establishment of multifamily improvement districts within a city or county to levy assessments on residential rental properties within the district for the purpose of financing certain improvements and promoting certain activities beneficial to those properties.

Ch. 527 (SB 1881) Committee on Revenue and Taxation. Sales and use tax: prepayments: extensions: due dates: exemption certificate.

The Sales and Use Tax Law requires suppliers and wholesalers of motor vehicle fuel, aircraft jet fuel, and diesel fuel to collect a prepayment of sales tax based upon 80% of the combined state and local sales tax rate established by specified provisions of law.

This bill would include the sales tax rate established by recently enacted provisions of law within the provisions upon which the prepayments are based.

The Sales and Use Tax Law allows the State Board of Equalization for good cause to extend the time for making any return or paying any amount required to be paid under that law by certain taxpayers who are unpaid creditors of the state. That law provides that any extension shall expire no later than the last day of the month in which the State Budget is adopted or one month from the due date of the return, whichever is later.

This bill would provide that the extension shall expire no later than the last day of the month following the month in which the State Budget is adopted or one month from the due date of the return, whichever is later.

The Sales and Use Tax Law requires that the use taxes imposed by that law with respect to the storage, use, or other consumption in this state of tangible personal property are due and payable by the purchaser on or before the 15th day of the 4th month following the taxable year, as defined, in which the storage, use, or consumption of the property first becomes taxable.

This bill would delete redundant provisions relating thereto.

The Sales and Use Tax Law authorizes a qualified person, as defined, to issue an exemption certificate to a seller of diesel fuel with respect to certain diesel fuel that is exempt from sales and use tax.

This bill would make a technical, nonsubstantive change to those provisions.

The existing Hazardous Substances Tax Law, Integrated Waste Management Fee Law, Oil Spill Response, Prevention, and Administration Fees Law, Underground Storage Tank Maintenance Fee Law, and Fee Collection Procedures Law, govern the administration and collection of various fees and taxes. Existing law requires that the State Board of Equalization make a determination if the collection of an amount of fee or tax pursuant to those laws will be jeopardized by delay, as specified. Existing law also sets forth the administration and collection of these taxes and fees.

This bill would delete obsolete cross-references and make conforming and clarifying changes to those laws with respect to collection methods, penalty relief, and notices of determination.

Ch. 528 (AB 1338) Chavez. Personal income and bank and corporation taxes: real estate withholding requirements.

Existing law requires the transferee of a California real property interest, in specified circumstances, to withhold  $3\frac{1}{3}\%$  of the purchase price of the property when the property is acquired from either an individual or a corporation that has no permanent place of business in this state after the transfer.

This bill would revise withholding requirements for corporations with no permanent place of business in California to conform to the withholding requirements for individual transferors.

This bill would also clarify that transfers of real property to controlled corporations and partnerships as contributions to capital, and sales of a decedent's principal residence by estates, are not subject to these withholding requirements.

This bill would also authorize the Franchise Tax Board to administer the withholding procedures, as provided.

Ch. 529 (AB 1711) Committee on Judiciary. Regulation of legal proceedings.

(1) Existing law, the State Bar Act, provides for the licensing and regulation of attorneys by the State Bar of California and for the determination of disciplinary and reinstatement proceedings by the State Bar Court. Existing law requires a member who is suspended, disbarred, or resigns with disciplinary charges pending to pay discipline costs as a condition of reinstatement of, or return to, active membership.

This bill would delete obsolete provisions.

(2) Existing law prohibits acts of unfair competition and acts of false and misleading advertising, and specifies the methods for service for an appellate proceeding regarding a violation, including requiring the person who commenced the proceeding to serve notice with the Attorney General and district attorney.

This bill would instead require each person filing any brief or petition with the court in those proceedings to serve a copy of that brief or petition, and upon request, any other related document, on the Attorney General and district attorney.

(3) Existing law, the Outdoor Advertising Act, provides for the regulation of advertising displays, as defined, and makes the violation of the act's provisions unlawful and a public nuisance.

This bill would prohibit a private party from bringing a cause of action against an advertising display in place as of August 12, 2004, that has been in continuous existence at its current location for 5 years. The exemption would not apply to an illegal modification of the display if the cause of action is filed within 5 years of the modification.

Ch. 530 (AB 1964) Leslie. Evictions: special occupancy parks.

Existing law authorizes an innkeeper of a hotel to evict a guest if the guest refuses or otherwise fails to fully depart from the guestroom by the innkeeper's posted checkout time.

This bill would permit the park management of a special occupancy park, as defined, to evict a guest if the guest refuses or fails to depart from the campsite, camping cabin, lot, or other rental unit by checkout time under certain circumstances. The bill would authorize the park management, after satisfying specified conditions, to take possession of the guest's property and have a guest's recreational vehicle or motor vehicle towed from the special occupancy park and to make the guest's campsite, camping cabin, lot, or rental unit available to a new guest.

The bill would also authorize the park management of a special occupancy park to require a guest to move from one space in the park to a different space if an imminent danger, as defined, is present. The bill would also make related, conforming changes to other provisions of law.

Ch. 531 (AB 2004) Committee on Business and Professions. Funeral directors and embalmers.

The Funeral Directors and Embalmers Law provides for the regulation of funeral directors, embalmers, and apprentice embalmers by the Cemetery and Funeral Bureau in the Department of Consumer Affairs. Existing law requires a funeral director to cause all human remains embalmed in or at the direction of his or her establishment to be embalmed by a licensed embalmer or by an apprentice embalmer.

This bill would also authorize a student in a program accredited by the American Board of Funeral Service Education to embalm human remains under the supervision of a licensed embalmer.

Ch. 532 (AB 2170) Calderon. Collateral recovery.

Existing law, the Collateral Recovery Act, provides for the licensing and regulation of repossession agencies. The act requires a licensed repossession agency to make an inventory of personal effects at the time the collateral is recovered, and requires the inventory to be signed by the repossession agency registrant or employee who performs the inventory and to include the name, address, business hours, and telephone number of the person at the repossession agency to contact for recovering personal effects.

This bill would delete the signature requirement for the inventory of personal effects and would require the permanent records of the licensee to indicate the name of the employee or registrant who performed the inventory. The bill would require the inventory to include the name, address, business hours, and telephone numbers of the repossession agency, rather than of the person at the repossession agency to be contacted for recovery of personal effects.

Existing law requires a licensee to serve a debtor with notice of a seizure of collateral that includes the name, address, and telephone number of the representative of the legal owner and of the representative of the repossession agency to be contacted regarding the repossession.

This bill would instead require that the notice include the name, address, and telephone number of the legal owner and of the repossession agency to be contacted regarding the repossession.

Existing law authorizes the assessment of specified administrative fines against a licensee that uses collateral or personal effects for the personal benefit of the licensee or officer, partner, manager, registrant, or employee of the licensee.

This bill would specify that this provision does not prohibit the using or taking of personal effects connected, adjoined, or affixed to the collateral through an unbroken sequence if the use or taking is reasonably necessary to effectuate the recovery in a safe manner or to protect the collateral or personal effects. The bill would prohibit a storage fee from being charged on these personal effects for the first week.

The bill would make other related changes.

Because this bill would place additional requirements on a person licensed under the Collateral Recovery Act, the violation of which is a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 533 (AB 2234) Committee on Public Employees, Retirement and Social Security. County employees' retirement.

(1) The County Employees Retirement Law of 1937 establishes noncontributory retirement plans for employees in specified counties. Retirement benefits under those plans are calculated, in part, based upon a member's years of service credit.

This bill would, upon approval by the county board of supervisors, authorize members of those plans in the Counties of Merced and Stanislaus to receive service credit for prior service with the county upon the payment by the member of specified contributions to the retirement

fund and would, upon approval by the county board of supervisors, authorize members of those plans in the Counties of Santa Barbara and Los Angeles to receive service credit for time that would not otherwise be recognized, upon payment by the member of specified contributions to the retirement fund. The bill would make related technical changes.

(2) Existing law provides that, upon the death of a retired member of the noncontributory retirement plan in Santa Barbara County, a continuing benefit is paid to his or her surviving spouse or minor children.

This bill would provide that if the retired member under that plan has no surviving spouse or minor children at the time of his or her death, and if his or her accumulated normal contributions, if any, exceed the total retirement allowance income received by the member, the retired member's beneficiary shall be paid that excess amount.

(3) Existing law authorizes members of the noncontributory retirement plan in Los Angeles County to transfer their membership to the county's contributory retirement plan if the member makes specified contributions to the retirement fund. If the member dies prior to making all of those contributions, the member's spouse may receive benefits under the contributory plan if he or she deposits the balance of the contributions due within 90 days after the member's death.

This bill would extend the period for making that deposit to 120 days after the member's death.

(4) Under the County Employees Retirement Law of 1937, management of a county or district retirement system is vested in a board of retirement.

This bill would authorize the board of retirement to contract with a 3rd party to temporarily administer the system when the board is unable to do so following a catastrophic event.

(5) Existing law, the Ralph M. Brown Act, requires the actions and deliberations of legislative bodies of local agencies, as defined, to be conducted at open meetings, except in certain circumstances in which closed sessions are authorized. The governing boards of local retirement systems are legislative bodies subject to that act.

This bill would authorize the governing boards of those retirement systems to make decisions regarding pension fund investments in a closed session and would require those decisions to be disclosed at the first open meeting of the board following the close of the transaction or transfer of assets, as specified.

Ch. 534 (AB 2665) Leslie. Harbors and ports: funding.

(1) Existing law authorizes the Department of Boating and Waterways, subject to the approval of the Legislature, to make loans to cities, counties, or districts having power to acquire, construct, and operate small craft harbors, for the planning, acquisition, construction, improvement, maintenance, or operation of small craft harbors and facilities in connection therewith, and connecting waterways, if the department finds that the project is feasible. The city, county, or district is required to establish the rates to be charged for the use of the boating facilities, subject to the approval of the department, in every loan contract. The department is required to monitor these rates to ensure that the berthing charges are reasonable and not exorbitant.

This bill, instead, would require the department to monitor the rates to ensure that the berthing charges are sufficient to ensure timely and complete repayment of the loan.

(2) Existing law authorizes the department to make loans to private marina owners for construction costs, not including planning, design, and other similar expenses, to develop a recreational marina. Existing law prohibits the department from making a loan to a private marina owner that exceeds 50% of the funds annually budgeted for purposes of these provisions. Existing law requires the annual rate of interest for the loans to be the prime or base rate of interest.

This bill would increase the maximum authorized amount of the loan to 75% of the funds annually budgeted for purposes of these provisions.

The bill would authorize the department to also make a loan to a recreational marina for the purpose of refinancing an existing loan, subject to specified conditions.

(3) Existing law provides that the length of a loan shall not exceed 20 years, or be longer than the length of borrower's leasehold estate, including renewal options, if the loan is based upon a leasehold estate of the borrower.

This bill would, instead, specify that the repayment period of a loan shall not exceed 20 years, or be longer than the length of borrower's leasehold estate, including renewal options, if the loan is based upon a leasehold estate of the borrower.

Ch. 535 (AB 2733) Strickland. Water resources.

(1) Existing law, with certain exceptions, requires a person who, after 1955, extracts groundwater in excess of 25 acre-feet in any year in the Counties of Riverside, San Bernardino, Los Angeles, and Ventura to file with the State Water Resources Control Board an annual notice of extraction. Existing law, with certain exceptions, provides that, after 1959, the failure to file a notice for any calendar year within 6 months after the close of that calendar year is equal to nonuse of the groundwater in those counties for that calendar year by each person failing to so file.

This bill, on and after January 1, 2005, would require each person who extracts groundwater in a board-designated local area, as defined, and who is otherwise subject to these described provisions, to file the required notice with a local public agency or court-appointed watermaster that has been designated by the board to receive the notice (local agency), instead of the board. The bill would require the local agency to undertake certain actions in connection with carrying out these duties, thereby imposing a state-mandated local program. The bill would authorize the local agency to impose a fee to pay for related administrative expenses. The bill would provide that a person who would be required to file the notice with the local agency would continue to be subject to the existing enforcement provisions governing the recordation of water extraction and diversions in the same manner and to the same extent as a person who files the notice with the board.

(2) The Municipal Water District Law of 1911, until January 1, 2005, prohibits a standby assessment or availability charge levied in any improvement district situated within the San Luis Rey Municipal Water District from exceeding a specified amount, and requires the proceeds of such an assessment or charge to be used as prescribed.

This bill would extend the effective date of that provision until January 1, 2015.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 536 (AB 2761) Leno. Vehicle rental agreements.

Existing law provides that a rental company may only advertise, quote, and charge a rental rate that includes the entire amount, except taxes, that a renter must pay to hire or lease the vehicle for a period of time to which the rental rate applies, as specified. Existing law prohibits a rental company from charging, in addition to the rental rate specified, other taxes, fees, and charges.

This bill would create an exception to this provision authorizing a rental car company to separately quote, and separately impose, additional charges for the rental in connection with the qualified business rental of a passenger vehicle to a business renter of a business program sponsor, as defined, under the sponsor's business program. The bill would also authorize a

renter to bring an action against a rental company for the recovery of damages and appropriate equitable relief for a violation of these provisions.

Ch. 537 (AB 2942) Reyes. Supplemental Instruction: Fresno Unified School District.

Existing law, authorizes the State Board of Education to grant a waiver request from the Fresno Unified School District to allow that school district to use supplemental instructional program funds to offer to pupils enrolled at the Cooper Middle School an instructional day that is 60 minutes longer than at other middle schools in the district in order to provide more instruction in language arts and mathematics. Existing law requires the Superintendent of Public Instruction to conduct an evaluation of this alternative use of supplemental instruction funds and submit an evaluative report to the Legislature by December 31, 2004. Existing law makes these provisions inoperative on July 1, 2004, and repealed as of January 1, 2005.

This bill would instead make those provisions inoperative on July 1, 2006, and repealed on January 1, 2007.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 538 (AB 1990) Campbell. Trusts: trustee liability.

Existing law provides that a provision in a trust can relieve a trustee of liability for breach of trust, with specified exceptions for breach of trust committed intentionally, with gross negligence, in bad faith, or with reckless indifference to the interest of the beneficiary, or for any profit that the trustee derives from a breach of trust.

This bill would provide that, subject to those exceptions, a provision in a trust relieving a trustee of liability if a beneficiary fails to object to an item in an interim or final account or other written report within a specified time period would be effective only if certain conditions were met, including the provision of a specified notice and a period within which a beneficiary may object of not less than 180 days. Among other things, the bill would prohibit a beneficiary who fails to object in writing to an account or report that complies with these requirements from asserting any claim against the trustee regarding an item that is adequately disclosed in the account or report, with specified exceptions.

The bill would provide that when a beneficiary makes a valid objection to an item, any affected beneficiary may join in the objection, as specified. The bill would provide that, if proper notice has been given, and if a beneficiary has not made a timely objection, the trustee is not liable for any other claims adequately disclosed by any item in the account or report. The bill would provide, among other things, that it is not intended to establish a class of beneficiaries for actions on an account and report or provide that the action of one beneficiary is for the benefit of all beneficiaries.

Ch. 539 (AB 2062) Nakano. Notaries public.

(1) Existing law generally sets forth the procedures for proof and acknowledgment of instruments executed by notaries public.

This bill would additionally set forth the procedures for execution, and the form, of a jurat by a notary public.

(2) Existing law requires notaries public that are appointed on or after January 1, 2005, to have satisfactorily completed a 6-hour course of study approved by the Secretary of State concerning the functions and duties of a notary public.

This bill instead would apply this requirement to appointments made on or after July 1, 2005.

(3) Existing law requires a notary public to keep an active journal of all official acts performed as a notary public, and to include in this journal, among other things, information as to every instrument acknowledged or proved before the notary.

This bill would additionally specify that this requirement applies to information as to every instrument sworn to or affirmed before the notary.

Ch. 540 (AB 2514) Committee on Natural Resources. Natural resources: California Environmental License Plate Fund: California Environmental Protection Program.

(1) Existing law authorizes the issuance of environmental license plates, as defined, for vehicles, upon application and upon payment of certain fees. All revenue derived from the fees for issuance, renewal, retention, or transfer of the plates is required to be deposited in the California Environmental License Plate Fund in the State Treasury. Upon appropriation, after deduction for certain expenditures of the Department of Motor Vehicles, among other things, the money in the fund is available for appropriation for the purposes and uses of the California Environmental Protection Program.

This bill would increase the fees for renewal and transfer of the environmental license plates. The bill would authorize the revenue in the fund to be expended, upon appropriation by the Legislature, pursuant to the California Ocean Protection Act, if that act is enacted during the 2003–04 Regular Session.

The bill would require the department to revise its Internet Web site to provide a direct link on the homepage to information on ordering environmental license plates.

The bill would authorize the department to provide links on its Internet Web site to other Internet Web sites that have information regarding the protection and management of ocean and coastal resources and other programs that are supported with funds from the Environmental License Plate Fund.

The bill would require the department, when existing supplies of forms, publications, and signs have been depleted, or if those forms, publications, and signs are required to be revised in the normal course of operations, to include in the replenishing supplies or the revised forms, publications, and signs, information regarding environmental license plates and the procedures for applying for those plates. This provision would apply only to forms, publications, and signs, that advertise, facilitate the application for, or are an application for environmental license plates.

(2) Existing law provides that the California Environmental Protection Program is administered by the Secretary of the Resources Agency. Existing law requires the secretary to periodically review projects subsequent to their funding under the program and report thereon to the Governor and the Legislature.

This bill would instead require that the section of the Governor's Budget for the California Environmental Protection Program include a display of expenditures that includes a statement of the purpose and benefits to be realized for each project or program proposed for funding.

This bill would also require the secretary, concurrently with the submittal of the Governor's Budget for the 2006–07 fiscal year and every 3rd fiscal year thereafter, to report to the Governor and the Legislature on how the particular mix of funding sources, from the California Environmental License Plate Fund and other funds, is appropriate for each project or program in relationship to the benefits realized from the project or program.

Ch. 541 (SB 815) Alpert. Claims against the state: appropriation.

Existing law requires the Attorney General to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state.

This bill would appropriate \$13,126,407.21 from the General Fund for the payment of specified settlement and judgment claims.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 542 (SB 1622) Perata. Oak Street to 9th Avenue District Exchange Act.

Through a series of grants, the City of Oakland acquired certain tidelands and submerged lands as public trust lands. Existing law authorizes the City of Oakland to use that property in conformance with those grants and the public trust.

This bill would enact the Oak Street to 9th Avenue District Exchange Act to authorize and establish conditions for an exchange of certain tidelands and submerged lands granted to the City of Oakland for other lands not now subject to the public trust.

The bill would declare that, due to the unique circumstances pertaining to the trust lands described in the bill, a general statute within the meaning of specified provisions of the California Constitution cannot be made applicable and a special statute is necessary.

Ch. 543 (SB 1873) Burton. Treasure Island Public Trust Exchange Act.

The Treasure Island Conversion Act of 1997, subject to the public trust and the terms and conditions of the act, grants to, and vests in, the Treasure Island Development Authority, all of the state's right, title, and interest in the Treasure Island Development Authority trust lands, and, upon conveyance by the federal government to the agency, in appurtenances located on Treasure Island tidelands and submerged lands. Existing law authorizes the agency to use, conduct, operate, maintain, manage, administer, regulate, improve, lease, and control the Treasure Island trust lands in conformance with the act and the public trust.

This bill would approve an exchange of public trust lands within the Treasure Island Development Authority property, whereby certain trust lands on Treasure Island that meet specified criteria and are not now useful for public trust purposes will be freed from the public trust and may be conveyed into private ownership, and certain other lands on Yerba Buena Island that are not now public trust lands and that are useful for public trust purposes will be made subject to the public trust.

The bill would declare that, due to the unique circumstances pertaining to the trust lands described in the bill and relating to the transfer of the Treasure Island Development Authority property out of federal ownership, a general statute within the meaning of specified provisions of the California Constitution cannot be made applicable and a special statute is necessary.

Ch. 544 (SB 764) Morrow. Property tax: veterans' exemptions.

(1) The California Constitution authorizes an exemption from property taxation of the principal residence of a disabled veteran, or a veteran's spouse, in the case in which the veteran has become disabled as a result of a service-connected disease or injury or has died while on active duty in military service.

Existing property tax law specifies an exemption amount of \$100,000, but increases that amount to \$150,000, if the exemption claimant's income does not exceed \$40,000 as adjusted by a specified inflation factor.

This bill would, for assessment years beginning on and after January 1, 2006, increase these exemption amounts by a specified inflation factor. This bill would also impose a state-mandated local program by requiring local tax officials to annually adjust these increased exemption amounts in accordance with a specified inflation factor.

(2) Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(4) This bill would take effect immediately as a tax levy.

Ch. 545 (SB 904) Chesbro. Wild and scenic rivers.

(1) Under existing law, the California Wild and Scenic Rivers Act, specified rivers and segments thereof are included within the California Wild and Scenic Rivers System and are subject to certain protections. The act requires the Secretary of the Resources Agency to study and submit to the Governor and the Legislature reports on the suitability or nonsuitability of designated potential additions to the system.

This bill would delete obsolete provisions.

(2) The California Wild and Scenic Rivers Act defines "special treatment areas" as specific locations that are within 200 feet of the watercourse transition line of federal or state designated wild and scenic rivers, that may be at risk during timber operations. The act imposes certain requirements related to timber operations within the boundaries of special treatment areas. Certain violations of those requirements are a crime.

This bill would change the definition of "special treatment areas" to also include specific locations that are within 200 feet of the watercourse transition line of state-designated recreational rivers, that may be at risk during timber operations. The bill would specify that the requirements related to timber operations within special treatment areas apply to areas adjacent to wild, scenic, or recreational river segments. Because the bill would expand the definition of "special treatment areas," and a violation of certain requirements related to those areas is a crime, the bill would impose a state-mandated local program, by creating a new crime.

(3) The California Wild and Scenic Rivers Act requires all departments and agencies of the state to exercise their powers granted under any other provision of law in a manner consistent with the policy and provisions of the act.

This bill, instead, would require all departments and agencies of the state to exercise their powers granted under any other provision of law in a manner that protects the free-flowing state of each component of the California Wild and Scenic Rivers System and the extraordinary values for which each component was included in the system.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) This bill incorporates additional changes to Section 5093.68 of the Public Resources Code proposed by SB 1482, to become operative only if SB 1482 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 546 (SB 1162) Machado. Income taxes: designations: California Military Family Relief Fund.

Under the existing Personal Income Tax Law, taxpayers are allowed to contribute amounts in excess of their tax liability for the support of specified funds.

This bill would, upon another voluntary contribution designation being removed, additionally allow taxpayers to designate on their tax returns that a specified amount in excess of their tax liability be transferred to the California Military Family Relief Fund, which would be created by this bill to accept contributions from taxpayers and from other sources. It would require money in that fund, upon appropriation by the Legislature, to be allocated to the Military Department to provide financial aid grants to eligible members of the California National Guard who are California residents, who have been called to active duty.

The bill would require the Franchise Tax Board to revise the form of tax returns to provide for the designation and would allow, upon appropriation by the Legislature, the Franchise Tax Board and the Controller to receive a portion of the funds designated to cover costs incurred in collecting and administering the funds.

The bill would provide that these provisions shall remain in effect only until January 1 of the 5th taxable year following the first appearance of the California Military Family Relief Fund on the tax return, unless a later enacted statute deletes or extends that date. If, however, in the 2nd or any other applicable calendar year, the Franchise Tax Board estimates by September 1 that the contributions made on returns filed in that calendar year will be less than \$250,000 or an adjusted amount, then this article would be repealed with respect to taxable years beginning on or after January 1 of that calendar year.

Ch. 547 (SB 1193) Soto. Military service: California National Guard Surviving Spouses and Children Relief Act of 2004.

Existing law provides certain protection for members of the National Guard and reservists called to active, duty, as specified, during the period of military service, with respect to, among other things, court proceedings, contract obligations, rental agreements, taxes or assessments, and health or medical insurance.

This bill would require the state to pay a \$10,000 death benefit to the surviving spouse or designated beneficiary of any member of the California National Guard, State Military Reserve, or Naval Militia who dies or is killed after March 1, 2003, in the performance of duty, as determined by the Military Department.

The Personal Income Tax Law imposes a tax on an individual taxpayer measured by the amount of the taxpayer's taxable income for the taxable year, but excludes certain items of income from the computation of tax.

This bill would exclude certain death benefits payable to eligible individuals from gross income of those individuals for taxable years beginning on or after January 1, 2005.

This bill would become operative upon an appropriation by the Legislature for purposes of funding the payments of military benefits, as specified.

Ch. 548 (SB 1248) Bowen. Statewide Registry: trustees.

Existing law requires the Department of Justice to maintain the Statewide Registry of conservators, guardians, and trustees. Existing law requires any person who wishes to serve as a trustee to register with the Statewide Registry, and requires a court to remove a trustee who is not registered, as specified. Existing law excepts from the requirements of the Statewide Registry conservators, guardians, or trustees who are related to the conservatee, ward, trustor, or vested beneficiary by blood, marriage, or adoption. Existing law also excepts trustees who administer less than 6 trusts at the same time. Existing law requires the department to make information in the registry available to a court for any purpose, while otherwise keeping the information confidential. Existing law permits the department to disclose whether a person is registered with the Statewide Registry upon a request.

This bill would require the department to disclose, upon request, whether an individual is registered with the Statewide Registry, his or her educational background, and whether specified information received from a court has been filed. The bill would also require the department, upon written request by a member of the public, to provide access to certain information received from a court regarding the failure of a conservator, guardian, or trustee to properly perform his or her duties. The bill would remove the requirement that a court clerk forward specified complaints to the Statewide Registry and would instead require a court clerk to forward specified court findings and orders to the Statewide Registry regarding the failure of a conservator, guardian, or trustee to properly perform his or her duties. The bill would require the Statewide Registry to include this information in the file of that conservator, guardian, or trustee. The bill would also permit a court to not remove a trustee who has failed to register if the court finds reasonable grounds not to do so, and would require a court to order a trustee to register or be removed within 90 days, as specified.

The bill would except from the requirements of the Statewide Registry a conservator, guardian, or trustee when the person is related to the conservatee, ward, or trustor of the trust through domestic partnership or a relationship that satisfies specified criteria. The bill would

additionally except from the requirements of the Statewide Registry a trustee who is serving for the benefit of not more than 3 people or not more than 3 families, or a combination thereof, as defined. The bill would remove specified relationships with a vested beneficiary as a means by which a conservator, guardian, or trustee is excepted from the requirements of the Statewide Registry, as described above, and would also eliminate the exception for trustees who administer less than 6 trusts at the same time.

This bill would incorporate additional changes in Section 2850 of the Probate Code proposed by AB 1155 that would become operative only if AB 1155 and this bill are both chaptered and become effective on or before January 1, 2005.

Ch. 549 (AB 1997) Committee on Higher Education. Postsecondary education: student financial aid: National Guard.

Existing law, until January 1, 2007, grants to qualifying members of the National Guard, the State Military Reserve, and the Naval Militia an entitlement to academic leave when active duty, as defined, interrupts undergraduate college attendance at a public postsecondary institution in this state for the purpose of pursuing an undergraduate degree. Existing law also authorizes a qualifying member who takes that academic leave to have his or her transcript cleared for that academic term.

Existing law establishes, commencing with the 2004–05 fiscal year, and ending with the 2006–07 fiscal year, the National Guard Assumption Program of Loans for Education, for qualifying members of the National Guard, the State Military Reserve, and the Naval Militia as defined, who seek, or who have completed, baccalaureate degrees at institutions of higher education within this state, who receive a loan under a designated loan program, and who complete a certain period of service as a qualifying member. Under the National Guard Assumption Program of Loans for Education, a qualifying member is eligible to receive up to \$11,000 in loan assumption payments if he or she completes up to 4 years of qualifying service.

This bill would specify that a qualifying member of the National Guard, the State Military Reserve, or the Naval Militia is entitled to academic leave throughout the period that his or her loan payments are assumed under the National Guard Assumption Program of Loans for Education. The bill would extend the entitlement to academic leave to a qualifying member who attends a private institution of higher education in this state.

The bill would repeal the authority of a qualifying member to have his or her transcript cleared for the term in which academic leave is taken.

The bill would also authorize a qualifying member who has received a baccalaureate degree to participate in this program.

This bill would provide that the program is established to provide an incentive for persons to enlist in the National Guard, the State Military Reserve, or the Naval Militia. The bill would require a person to agree to enlist, or reenlist, in the National Guard, the State Military Reserve, or the Naval Militia in order to qualify to apply to enter into an agreement for loan assumption under the program.

The bill would require the Student Aid Commission to adopt initial regulations for the program within 6 months of the effective date of the initial appropriation funding the program.

The bill would require, in any fiscal year in which the commission determines that funding is insufficient to fully support the program, that the commission, to the extent feasible, grant priority to individuals who are financially needy, as defined, and individuals who have been called to full-time active military duty.

The bill would prohibit the Student Aid Commission from issuing, in any fiscal year, more than the number of warrants for the assumption of loans under the program that are authorized in the annual Budget Act for that purpose for that year.

The bill would incorporate additional changes to Sections 66025.6, 69750, and 69750.3 of the Education Code proposed by SB 1322, to become operative only if SB 1322 and this

bill are both chaptered and become effective on or before January 1, 2005, both bills affect these sections, and this bill is chaptered last.

Ch. 550 (SB 1694) Torlakson. Driving under the influence: sanction.

(1) Under existing law, it is unlawful to drive a motor vehicle while under the influence of alcohol, a drug, or both, or 0.08% or more, by weight, of alcohol in one's blood, or while addicted to the use of a drug. There is another crime of driving under the influence of alcohol, a drug, or both, or with 0.08% or more, by weight, alcohol in one's blood, and causing injury to another person. Under existing law, for violations of each of these offenses, commonly known as driving under the influence and driving under the influence causing injury, respectively, (DUI) a court may impose sanctions, as specified. Existing law imposes increased sanctions on persons who have previously been convicted of DUI offenses within 7 years of the commission of the current offense.

This bill would substitute a 10-year condition for the 7-year condition as a condition to imposing the increased sanctions on repeat offenders and would make conforming changes. Because this would thereby increase the level of service on local law enforcement agencies, this bill would impose a state-mandated local program.

(2) Existing law authorizes a court to order a person convicted of a DUI offense to attend an alcohol and drug problem assessment program.

This bill would require a court to order a person who has previously been convicted of either a DUI offense that occurred over 10 years ago or disorderly conduct based on being found in a public place under the influence of alcohol or drugs, and who is currently convicted of a DUI offense to attend and complete that program. The bill would require the court to rely on certain information and records regarding the existence of a previous conviction occurring more than 10 years ago. The bill would authorize a court, if the program assessment recommends additional treatment, to order the person to enroll, participate, and complete an enhanced treatment program.

(3) Existing law requires a court to order a person to participate in an alcohol and drug problem assessment program if the person is convicted of a DUI offense that occurred within 7 years of a separate conviction of a DUI offense in which the person was required to attend a licensed program pursuant to a court order and the person failed to comply with the rules and policies of the licensed program, other than a rule relating to the payment of fees.

This bill would impose the above required court order based solely on the person being convicted of a DUI offense that occurred within 10 years of a separate violation of a DUI offense that resulted in a conviction, and would remove the requirement that the person had previously been court ordered to attend a licensed program and had failed to comply with the program's rules and policies.

(4) This bill would incorporate amendments to Section 13352 of the Vehicle Code contained in SB 1541 and SB 1697, with the amendments from each bill to become operative only if that section is amended by each bill or both bills, and if this bill is enacted after the other bill or bills.

(5) This bill would incorporate additional changes in Section 13352.6 of the Vehicle Code proposed by SB 1696, to be operative only if this bill and SB 1696 are enacted and become effective on or before January 1, 2005, each bill amends Section 13352.6 of the Vehicle Code, and this bill is enacted last.

(6) This bill would incorporate amendments to Section 13353 of the Vehicle Code contained in AB 3049 and SB 1697, with the amendments from each bill to become operative only if that section is amended by each bill, and this bill is enacted after the other bills.

(7) This bill would incorporate additional changes in Section 13353.3 of the Vehicle Code proposed by SB 1697, to be operative only if this bill and SB 1697 are enacted and become effective on or before January 1, 2005, each bill amends Section 13353.3 of the Vehicle Code, and this bill is enacted last.

(8) This bill would incorporate amendments to Section 13353.7 of the Vehicle Code contained in AB 3049 and SB 1697, with the amendments from each bill to become operative only if that section is amended by each bill, and this bill is enacted after the other bills.

(9) This bill would incorporate additional changes in Section 23540 of the Vehicle Code proposed by SB 1697, to be operative only if this bill and SB 1697 are enacted and become effective on or before January 1, 2005, each bill amends Section 23540 of the Vehicle Code, and this bill is enacted last.

(10) This bill would incorporate additional changes in Section 23612 of the Vehicle Code proposed by SB 1429, to be operative only if this bill and SB 1429 are enacted and become effective on or before January 1, 2005, each bill amends Section 23612 of the Vehicle Code, and this bill is enacted last.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 551 (SB 1697) Torlakson. Vehicles: driving under the influence: driver's license sanctions.

(1) Existing law requires the Department of Motor Vehicles to suspend the driver's license of any person arrested for driving under the influence (DUI). The department, under certain circumstances, is also required to suspend, restrict, or revoke the driver's license of any person convicted of DUI. A court is authorized to order, as a condition of probation for a conviction of DUI, that the defendant's driver's license be restricted, as specified.

This bill would consolidate the driver's license suspension, restriction, and revocation functions for DUI arrests and convictions under the department, as revised.

The bill would authorize the court to disallow the issuance of a restricted license if the court determines that a person would present a traffic safety or public safety risk if allowed to operate a motor vehicle during a suspension period.

The bill would require the court to advise a person convicted of a DUI offense at the time of sentencing that the driving privilege may not be restored until the person provides proof satisfactory to the department of successful completion of a driving-under-the-influence program of the appropriate length required by law, which is based on the blood-alcohol concentration and number of prior DUI convictions.

(2) Existing law requires a person ordered to attend a DUI program as a condition of probation under certain provisions to apply to the court or to a board of review, as designated by the court, at the conclusion of the program to obtain the court's order of satisfaction. The program is prohibited from issuing its certificate of successful completion and reporting the completion to the department until the court has granted the order of satisfaction. A failure to obtain an order of satisfaction at the conclusion of the DUI program is a violation of probation.

This bill would delete the requirement that the person obtain the court's order of satisfaction at the conclusion of the DUI program.

(3) This bill would make additional conforming and technical changes in existing law.

(4) This bill would incorporate amendments to Section 13352 of the Vehicle Code contained in SB 1694 and SB 1541, with the amendments from each bill to become operative only if that section is amended by each bill, and if this bill is enacted after the other bill.

(5) This bill would incorporate additional changes in Section 13352.5 of the Vehicle Code proposed by SB 1696, to be operative only if this bill and SB 1696 are enacted and become effective on or before January 1, 2005, each bill amends Section 13352.5 of the Vehicle Code, and this bill is enacted last.

(6) This bill would incorporate amendments to Section 13353 of the Vehicle Code contained in AB 3049 and SB 1694, with the amendments from each bill to become

operative only if that section is amended by each bill, and this bill is enacted after the other bills.

(7) This bill would incorporate additional changes in Section 13353.3 of the Vehicle Code proposed by SB 1694, to be operative only if this bill and SB 1694 are enacted and become effective on or before January 1, 2005, each bill amends Section 13353.3 of the Vehicle Code, and this bill is enacted last.

(8) This bill would incorporate amendments to Section 13353.7 of the Vehicle Code contained in AB 3049 and SB 1694, with the amendments from each bill to become operative only if that section is amended by each bill, and this bill is enacted after the other bills.

(9) This bill would incorporate additional changes in Section 14601.2 of the Vehicle Code proposed by AB 2666, to be operative only if this bill and AB 2666 are enacted and become effective on or before January 1, 2005, each bill amends Section 14601.2 of the Vehicle Code, and this bill is enacted last.

(10) This bill would incorporate additional changes in Section 23538 of the Vehicle Code proposed by SB 1696, to be operative only if this bill and SB 1696 are enacted and become effective on or before January 1, 2005, each bill amends Section 23538 of the Vehicle Code, and this bill is enacted last.

(11) This bill would incorporate additional changes in Section 23540 of the Vehicle Code proposed by SB 1694, to be operative only if this bill and SB 1694 are enacted and become effective on or before January 1, 2005, each bill amends Section 23540 of the Vehicle Code, and this bill is enacted last.

(12) This bill would incorporate additional changes in Section 23542 of the Vehicle Code proposed by SB 1696, to be operative only if this bill and SB 1696 are enacted and become effective on or before January 1, 2005, each bill amends Section 23542 of the Vehicle Code, and this bill is enacted last.

(13) This bill would become operative on September 20, 2005, except as provided.

Ch. 552 (SB 1713) Machado. Income and corporation taxes: military families.

The Personal Income Tax Law imposes taxes based on taxable income and provides various deductions and exclusions in computing the tax.

This bill would, in specified conformity to federal income tax laws, including the Military Family Tax Relief Act of 2003, allow a deduction in computing adjusted gross income for certain trade and business deductions of members of the Armed Forces of the United States, allow an exclusion from gross income for certain death benefits payable by reason of death of astronauts, allow an exclusion for certain military fringe benefits, allow a specified 5-year period to be suspended in excluding gain from the sale of a principal residence if the individual's spouse is serving in the uniformed services or the Foreign Service of the United States, exclude certain military death gratuity payments from gross income, exclude from taxation certain income in respect of the death of astronauts, and provide additional conformity to federal law relating to time for performing certain acts postponed by reason of service in combat zones or contingency operations.

The Corporation Tax Law provides an exemption from taxation for a veteran's organization, as defined, and for a Coverdell education savings account.

This bill would, in specified conformity to federal laws, modify the membership requirement for exemption from taxation for a veteran's organization, suspend the tax-exempt status of terrorist organizations, and expand the use of Coverdell education savings accounts with respect to distributions made on account of attendance at specified military academies.

This bill would also declare the public purpose it serves.

This bill would take effect immediately as a tax levy, but specified provisions would become operative as provided.

Ch. 553 (AB 1982) Wolk. Wildlife management areas: mosquito abatement.

(1) Existing law provides for the formation of mosquito abatement districts, and prescribes the powers, functions, and duties of those districts, as specified. The existing Fish and Game Code authorizes the Department of Fish and Game to take specified actions to protect, restore, rehabilitate, and improve fish and wildlife habitat.

This bill would require a mosquito abatement district whose boundaries include one or more wildlife management areas to periodically, or at least semiannually, notify the department of those areas that exceed locally established mosquito population thresholds and associated mosquito control costs. The bill would require the department to take specified actions with regard to the control and abatement of mosquitos in those wildlife management areas. The bill would require those mosquito abatement districts, in consultation with the department, to develop standardized monitoring procedures for mosquito surveillance, as prescribed, for each managed wetland habitat at each wildlife management area, and to provide an annual report to the department of pesticide use in those habitats and areas, as specified. The bill would repeal these provisions on January 1, 2010. By imposing new duties on local agencies with regard to mosquito control and abatement practices in wildlife habitat areas, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 554 (SB 1322) Denham. Veterans: student financial aid.

(1) Existing law, until January 1, 2007, grants to qualifying members of the National Guard, the State Military Reserve, and the Naval Militia an entitlement to academic leave when active duty, as defined, interrupts undergraduate college attendance for the purpose of pursuing an undergraduate degree.

This bill would extend the duration of this entitlement until January 1, 2012. The bill would also extend this entitlement to members of the National Guard, the State Military Reserve, and the Naval Militia who are graduate students or who are enrolled in or who have completed a program of instruction in a vocational diploma program, as defined, where enrollment qualifies a student for participation in the Federal Family Education Loan Program or any loan program approved by the Student Aid Commission.

(2) Existing law, known as the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Act, establishes the Cal Grant A and B entitlement awards, the California Community College Transfer Entitlement awards, the Competitive Cal Grant A and B awards, the Cal Grant C awards, and the Cal Grant T awards under the administration of the Student Aid Commission, and establishes eligibility requirements for awards under these programs for participating students attending qualifying institutions. Among other things, the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Act requires, until January 1, 2007, that a recipient of a Cal Grant award who is a member of the National Guard, the State Military Reserve, or the Naval Militia on active duty, as defined, who is obliged to withdraw from his or her studies because of that active duty, and who later resumes those studies no later than one year after completing that active duty, does not forfeit either any of the monetary value of the Cal Grant award or any of his or her period of eligibility for that award.

This bill would extend the duration of this requirement until January 1, 2012.

(3) Existing law establishes, commencing with the 2004–05 fiscal year, and ending with the 2006–07 fiscal year, the National Guard Assumption Program of Loans for Education, for qualifying members of the National Guard, the State Military Reserve, and the Naval Militia as defined, who seek, or who have completed, baccalaureate degrees at institutions of higher education within this state, who receive a loan under a designated loan program, and who complete a certain period of service as qualifying members. Under the National Guard Assumption Program of Loans for Education, a qualifying member is eligible to

receive up to \$11,000 in loan assumption payments if he or she completes up to 4 years of qualifying service.

This bill would instead provide that the program is established to provide an incentive for persons to enlist or reenlist in the National Guard, the State Military Reserve, or the Naval Militia. The bill would authorize persons who otherwise qualify for participation in the program, and who are enrolled in, or have completed, a program of study in a qualifying vocational diploma program, to participate in the program.

The bill would require the Student Aid Commission to report annually to the Legislature regarding the total number of participants in the program, as well as the number of participants who receive a loan assumption benefit, classified by payment year, and categorized by age, ethnicity, and gender.

(4) Existing law, in effect until January 1, 2007, requests the Office of the Adjutant General to make copies of the enrollment fee waiver application of the Board of Governors of the California Community Colleges and the Free Application for Federal Student Aid (FAFSA) available to each member of the California National Guard, the State Military Reserve, and the Naval Militia who does not have a baccalaureate degree. Existing law also requests the Office of the Adjutant General to assist these persons in completing these forms, as needed.

This bill would extend the operation of the provisions containing these requests until January 1, 2012.

(5) The bill would incorporate additional changes to Sections 66025.6 and 69751 of the Education Code proposed by AB 1997, to become operative only if AB 1997 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

#### Ch. 555 (AB 2205) Oropeza. California Helping Heroes Child Care Program.

Existing law authorizes funds appropriated for the purposes of the Child Care and Development Services Act to be used for alternative payment programs to allow for maximum parental choice. Existing law prescribes the administration, eligibility criteria, and payment arrangements for alternative payment programs.

This bill would establish the California Helping Heroes Child Care Program to provide child care to families who have one or more parents deployed to Iraq by the armed services and who meet eligibility criteria. This bill would require that the program be administered by the State Department of Education in conformance with the laws regulating alternative payment programs, except those provisions regarding funding priorities. This bill would make the implementation of the program contingent upon the availability of specified funding.

By imposing additional duties on local agencies, this bill would impose a state-mandated local program.

This bill would also authorize the State Department of Education to adopt regulations to implement these provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 556 (AB 2477) Liu. Postsecondary education: production and pricing of college textbooks.

Existing law establishes the various segments of the public higher education system in the state. These segments include the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges.

This bill would express various findings and declarations of the Legislature with respect to the cost of college textbooks. The bill would urge textbook publishers to take specified actions aimed at reducing the amounts that students currently pay for textbooks.

The bill would require the Trustees of the California State University and the Board of Governors of the California Community Colleges, and would request the Regents of the University of California, to work with the academic senates of each respective segment to encourage faculty to give consideration to the least costly practices in assigning textbooks, to encourage faculty to disclose to students how new editions of textbooks are different from previous editions and the cost to students for textbooks selected, to review procedures for faculty to inform college and university bookstores of textbook selections, and to encourage faculty to work closely with publishers and college and university bookstores in creating bundles and packages that are economically sound and deliver cost savings to students; to require college and university bookstores to work with the academic senates of each respective campus to review issues relative to timelines and processes involved in ordering and stocking selected textbooks and to work closely with faculty or publishers, or both, to create bundles and packages that are economically sound and deliver cost savings to students, to encourage college and university bookstores to disclose retail textbook costs and make this information otherwise publicly available, and to encourage campuses to provide as many forums as possible for students to have access to used textbooks.

This bill would express the intent of the Legislature to encourage private colleges and universities to work with their respective academic senates and to encourage faculty to consider practices in selecting textbooks that will result in the lowest costs to students.

#### Ch. 557 (AB 2691) Correa. Immigration consultants.

Existing law regulates the practice of immigration consultants, defined as persons who provide nonlegal assistance or advice in an immigration matter. A violation of the provisions regulating immigration consultants is a crime. Existing law requires a person to file a \$50,000 bond with the Secretary of State prior to engaging in the business or acting in the capacity of an immigration consultant.

This bill would require a person who is required to file a bond to file a disclosure form that contains certain information with the Secretary of State, and would also require an immigration consultant to submit a copy of valid and current photo identification.

The bill would require the Secretary of State to post specified information relating to immigration consultant bond compliance on its Web site.

Existing law prohibits an immigration consultant from making certain statements to a client, either orally or in a written contract, including a statement that the immigration consultant can or will obtain special favors or has special influence with the United States Immigration and Naturalization Service.

This bill would change this provision to reflect the change in name of that agency to the United States Citizenship and Immigration Services. The bill would expand this prohibition to make it unlawful for an immigration consultant to make a statement that he or she can or will obtain special favors from, or that he or she has special influence with, any governmental agency, employee, or official that may have a bearing on a client's immigration matter. The bill would make related changes.

Because a violation of the bill would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 558 (AB 3015) Runner. Military service: school district governing board vacancies.

Existing law prohibits a member of the governing board of a school district from being absent from the state for more than 60 days, unless certain conditions apply, including, but not limited to, his or her absence for a federal military deployment not to exceed 6 months.

If that absence exceeds a 6-month period, this bill would permit the governing board of a school district to approve an additional 6 month-absence, with certain requirements, and to appoint an interim member. If 2 or more members are absent, resulting in the inability to establish a quorum, the bill would permit the appointment of one or more interim members.

Ch. 559 (SB 1089) Johnson. State Water Pollution Control Revolving Fund.

Existing law continuously appropriates state and federal funds in the State Water Pollution Control Revolving Fund for the construction of publicly owned treatment works by a municipality, the implementation of a management program, the development and implementation of a conservation and management plan, and other related purposes in accordance with the federal Clean Water Act and the Porter-Cologne Water Quality Control Act.

This bill would require the State Water Resources Control Board, for the purposes of administering that fund, to give favorable consideration to certain types of eligible projects, including projects undertaken in response to an administrative enforcement order.

Ch. 560 (SB 1303) Torlakson. Harbors: Board of Pilot Commissioners.

Existing law establishes in state government the Board of Pilot Commissioners, with jurisdiction over Monterey Bay and the Bays of San Francisco, San Pablo, and Suisun. Existing law requires that 2 members of the commission represent the industry and be substantial users of Monterey Bay and any of the waters of the Bays of San Francisco, San Pablo, or Suisun.

This bill would instead require those 2 members to be substantial users of any of the waters of the Bays of San Francisco, San Pablo, Suisun, or Monterey.

Ch. 561 (SB 1729) Chesbro. Plastic containers: recycling.

(1) Existing law, the California Integrated Waste Management Act of 1989, administered by the California Integrated Waste Management Board, requires every rigid plastic packaging container, as defined, sold or offered for sale in this state, to generally meet one of specified criteria, including having a specified recycling rate including, among other things, that the container have a recycling rate of 25% or have a recycling rate of 55%, if its primary material is polyethylene terephthalate (PETE), based on annual reports published by the board, or have a recycling rate of 45% if it is a product-associated rigid plastic packaging container. Existing law defines the term "recycling rate" as including one of 4 specified rates, including the proportion that all rigid plastic packaging containers sold, or offered for sale in the state are being recycled in a given calendar year, as specified, and the proportion that a polyethylene terephthalate (PETE) rigid plastic packaging container sold or offered for sale in the state is being recycled in a given calendar year, as specified. Existing law exempts rigid plastic containers that contain cosmetics and food from meeting those criteria, but requires those containers to be included in calculating recycling rates.

This bill would revise the definition of recycling rate to delete those 2 rates from that definition.

This bill would modify the criteria for these containers to delete the recycling rates based on the annual reports published by the board and would modify the requirement for

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

product-associated containers to require the rate to be demonstrated to the board by the product maker, manufacturer, or other entity. The bill would authorize the board to take appropriate action to verify the demonstration, but the bill would specify that the board is not required to expend state funds to conduct a survey or calculate the rate. The bill would make conforming changes with regard to this modification of the criteria.

This bill would delete the requirement that rigid plastic containers that contain cosmetics and food and are recycled be included in calculating recycling rates. The bill would also delete an obsolete provision.

(2) Existing law requires the board, by July 1, 1994, to adopt regulations to implement specified plastic packaging recycling requirements.

This bill would delete the date requirement.

(3) The bill would make technical, nonsubstantive changes.

#### Ch. 562 (AB 658) Nakano. Taxpayer contributions: California Prostate Cancer Research Fund.

Provisions relating to the administration of personal income taxes allow individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds.

This bill would allow taxpayers to designate on their tax returns that a specified amount in excess of their tax liability be transferred to the California Prostate Cancer Research Fund, which would be created by this bill. However, the bill would provide that a voluntary contribution designation for this fund may not be added on the tax return until another voluntary contribution designation is removed from that return.

This bill would require that all moneys contributed to the fund pursuant to these provisions, upon appropriation by the Legislature, be allocated to the Franchise Tax Board, the Controller, and the State Department of Health Services for allocation to the California Coalition to Cure Prostate Cancer, as provided. This bill would make legislative findings and declarations regarding prostate cancer.

This bill would provide that these voluntary contribution provisions are repealed on January 1 of the 5th taxable year following the taxable year the fund first appears on the tax return. The bill would further provide that these provisions are repealed for taxable years beginning on or after January 1 of the calendar year in which the Franchise Tax Board estimates by September 1 that the contributions made on returns filed in that calendar year will be less than \$250,000, or an adjusted amount for subsequent taxable years.

#### Ch. 563 (AB 1408) Wolk. Oil discharges: hazardous liquid pipelines: conditions.

(1) Existing law requires a party responsible for the discharge or threatened discharge of oil in marine waters to report the discharge to the Office of Emergency Services, as specified. Failure to comply with this reporting requirement is punishable as a misdemeanor for a 1st offense, and as a misdemeanor or a felony for a 2nd or subsequent offense.

This bill would require the party to report the discharge immediately. The bill thereby would establish a state-mandated local program by changing the definition of an existing crime.

(2) Existing law requires the State Fire Marshal to exercise exclusive safety regulatory and enforcement authority over intrastate hazardous liquid pipelines and, among other things, requires the State Fire Marshal to issue a report, every 5th year, identifying pipeline leak incident rate trends, reviewing current regulatory effectiveness with regard to pipeline safety, and recommending any necessary changes to the Legislature.

This bill would additionally require the report to include an assessment of the condition of each pipeline.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 564 (SB 1545) Karnette. Mosquito abatement.

Existing law regulates mosquito abatement.

This bill would appropriate \$750,000 from the General Fund to the Department of Fish and Game to carry out specified provisions relating to mosquito abatement which would be added to the Fish and Game Code by AB 1982.

Ch. 565 (AB 2222) Koretz. Boating safety.

The Department of Boating and Waterways regulates the operation of vessels on inland and coastal waters of California. Existing law makes all money in the Harbors and Watercraft Revolving Fund available, to pay appropriations for, among other things, boating safety.

This bill would enact the Anthony Farr and Stacy Beckett Boating Safety Act of 2004. The act would make it unlawful to operate a motorized vessel, or have the engine of a motorized vessel run idle, while someone is teak surfing, platform dragging, or bodysurfing behind the motorized vessel, or while someone is occupying or holding onto the swim platform, swim deck, swim step, or swim ladder of the motorized vessel, as specified. By making a violation of these provisions an infraction, this bill would create a state-mandated local program.

The act would specify certain requirements for state-sponsored boating safety courses, require any new or used motorized vessel, when sold, to bear warning stickers as to the danger of carbon monoxide poisoning and boats, and require that certain informational materials distributed by the Department of Motor Vehicles with respect to renewals for boat registrations contain similar information about the dangers of carbon monoxide poisoning and boats. The bill would make these latter 2 requirements regarding warning stickers and informational materials operative on May 1, 2005.

The bill would permit the Department of Boating and Waterways to use funds in the Harbors and Watercraft Revolving Fund appropriated to the department to administer this act and to reimburse the Department of Motor Vehicles for its costs to administer this act.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 566 (SB 30) Figueroa. Home improvement contracts.

Existing law defines a "home improvement contract" and requires home improvement contracts between contractors and homeowners or tenants to comply with specified requirements, and makes a violation of these provisions regarding home improvement contracts a crime. Existing law authorizes an individual to rescind a home improvement contract if certain conditions are met.

This bill would repeal these provisions and instead require that a home improvement contract and any changes made to that contract be in writing, be legible, be easy to understand, and inform a consumer of his or her right to cancel or rescind the contract. The bill would require that a home improvement contract contain various information, notices, and disclosures for the protection of the consumer. The bill would provide that a violation of these provisions subjects the home improvement contractor to discipline. The bill would define a "service and repair contract" and would enact various disclosure requirements applicable to this type of contract. The bill would provide that a violation of these provisions subjects the contractor to discipline. The bill would make conforming changes and revise and recast certain existing provisions regarding home improvement contracts and related matters.

The bill would become operative on July 1, 2005.

Because a violation of the bill would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 567 (SB 1090) Dunn. Manufactured homes and mobilehomes.

(1) Under the existing Mobilehome Residency Law, the management may not prohibit the listing nor the sale of a manufactured home or mobilehome within the park by the homeowner, an heir, joint tenant, or personal representative of the estate who gains ownership of a mobilehome in the mobilehome park through the death of the owner of the mobilehome who was a homeowner at the time of his or her death, or the agent of any such person other than the management, nor require the selling homeowner, or an heir, joint tenant, or personal representative of the estate who gains ownership of a mobilehome in the mobilehome park through the death of the owner of the mobilehome who was a homeowner at the time of his or her death, to authorize the management to act as the agent in the sale of a manufactured home or mobilehome as a condition of management's approval of the buyer or prospective homeowner for residency in the park.

This bill would additionally provide that the management may not require the selling homeowner or an heir, joint tenant, or personal representative of the estate who gains ownership of a mobilehome in the mobilehome park through the death of the owner of the mobilehome who was a homeowner at the time of his or her death, to authorize any other specified broker, dealer, or person to act as the agent in the sale of a manufactured home or mobilehome as a condition of management's approval of the buyer or prospective homeowner for residency in the park. The bill would also make technical changes in those provisions.

(2) The existing Mobilehomes-Manufactured Housing Act of 1980 prescribes conduct that is an unlawful business practice with respect to the sale of manufactured homes and mobilehomes, makes it unlawful for a dealer or salesperson to engage in specified conduct, and makes it a misdemeanor to engage in those practices or that conduct.

This bill would revise a provision that makes it an unlawful business practice to participate in the sale of a manufactured home, mobilehome, or commercial coach without making the return and payment of sales tax due.

The bill would additionally make it an unlawful business practice to fail or within 3 days after accepting the buyer's offer, but no less than 48 hours prior to the close of escrow or transfer of title, to execute a document or provision within an existing document signed by both the dealer and seller that discloses the exact amount of the buyer's offer and the specific amounts of any commission. The bill would require the dealer to submit a copy of that disclosure into escrow and maintain, at the dealer's place of business, a copy of that disclosure for 3 years from the date of sale. The bill would also require the escrow agent to ensure that the disclosure deposited into escrow is executed and complete. The bill would also require a net listing agreement, as defined, to contain specified disclosures.

The bill would make it unlawful for a dealer, or a salesperson who is also an owner or manager or an agent of the owner or manager of a mobilehome park, to knowingly violate specified provisions of the Mobilehome Residency Law relating to the sale or transfer of mobilehomes.

The bill would revise terminology in the provisions relating to conduct by a dealer in the sale or advertising of a manufactured home, mobilehome, or commercial coach generally from "commercial coach" to "commercial modular."

(3) Existing law prohibits advertising or representing a manufactured home, mobilehome, or commercial coach as new if it was a model unless that fact is advertised.

This bill would, alternatively, authorize that information to be provided by posting it and including a notice in a purchase agreement.

(4) Existing law requires the Department of Housing and Community Development to adopt specified regulations relative to issuance of citations.

This bill would, instead, authorize the department to adopt those regulations. The bill would specify the extent to which regulations of the department to implement and interpret provisions of the bill are subject to the Administrative Procedure Act.

Because violations of various provisions of the bill would create new crimes, the bill would create a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 568 (SB 1145) Burton. Tenancy.

(1) Until January 1, 2006, existing law requires that if a landlord increases the rent of a month-to-month tenancy in excess of 10% of the amount of the rent charged to a tenant annually, as specified, the landlord shall provide an additional 30 days' notice, for a total of 60 days, prior to the effective date of the increase, except as specified.

This bill would delete the sunset date on the above provision, thereby extending that provision indefinitely.

(2) Existing law requires that a landlord provide specified statements to a tenant if an initial inspection prior to the termination of a tenancy is requested by the tenant.

This bill would modify that list of statements to delete a required statement regarding a claim of security.

(3) Existing law authorizes an owner of residential real property to establish the initial and subsequent rental rates for a dwelling or unit, upon specified circumstances.

This bill would make nonsubstantive, technical changes to those provisions.

(4) In a summary proceeding for the possession of real property, existing law prohibits a court clerk from providing access to the court file, index, register of actions, and other court records if the defendant prevails in the action within 60 days after the complaint is filed.

This bill would permit a court clerk to provide access to those records to specified persons, including, but not limited to, a party to the action, or pursuant to a court order upon a showing of good cause.

(5) Any public entity that has in effect any system of rent control is authorized to subject to specified provisions, accommodations that had been withdrawn from rent or lease and are again offered for rent or lease, as specified.

This bill would make a nonsubstantive, technical change to a related provision.

(6) The Fair Employment and Housing Act prohibits housing discrimination on the basis of race, color, religion, sex, marital status, national origin, ancestry, familial status, or disability. Until January 1, 2005, the act also prohibits discrimination on the basis of a person's source of income, the failure to account for the aggregate income of coresidents, or the failure to exclude a government rent subsidy from that portion of the rent to be paid by the tenant in assessing his or her eligibility for rental housing.

This bill would delete the sunset date on the above provision, thereby extending that provision indefinitely.

Ch. 569 (SB 1228) Perata. Disaster relief: owner-occupied dwellings.

Existing law establishes within the State Treasury the Housing Rehabilitation Loan Fund, a fund continuously appropriated to the Department of Housing and Community Development for, among other purposes, making deferred payment rehabilitation loans and deferred payment loans. Existing law authorizes financial assistance for the purposes of repairing, including reconstructing, owner-occupied dwellings and rental dwellings of 1 to 4 units that were damaged or destroyed as a result of a natural disaster resulting in a state of emergency.

Existing law provides that the outstanding balance of loans for owner-occupied dwellings becomes due and payable after 30 years or when the borrower transfers ownership of the rehabilitated property or fails to occupy the rehabilitated property, whichever comes first. For rental dwellings the term of the loan is 20 years.

This bill would authorize loan assumption for the above-described loans for owner-occupied dwellings in specified circumstances. The bill would require the department to, among other things, with respect to these loans for owner-occupied dwellings generally, annually mail statements with specified information to the borrowers of the loans and adopt a written application process and evaluation guidelines for borrowers pursuing loan subordination or assumption.

The bill would also authorize the department to delay the foreclosure of loans for owner-occupied dwellings if the department determines that its security interest is not jeopardized.

The bill would authorize the department to adopt guidelines to implement these provisions and provide that these guidelines shall not be subject to the Administrative Procedure Act.

#### Ch. 570 (SB 1388) Ortiz. Criminal history information.

Existing law requires the Department of Justice to furnish various agencies and entities with a person's state summary criminal history information when that information is used for employment, licensing, or certification purposes, and permits the department to furnish that information, upon a showing of a compelling need, to listed entities, as specified. Among those entities to which the department may provide this information are public utilities, if needed in order to assist in employing current or prospective employees who in the course of their employment may be seeking entrance to private residences.

This bill would permit the department also to provide federal level criminal history information upon the same showing of compelling need when specifically authorized, and would authorize public utilities to receive that information commencing July 1, 2005, pursuant to specified procedures. It would also expand the authorization for public utilities to receive state and federal criminal history information to permit cable corporations, as defined, to receive that information commencing July 1, 2005, and would permit that information to be provided concerning current or prospective contract and subcontract employees as well. This authorization would also be expanded to apply to those employees who may be seeking access to adjacent grounds rather than just residences.

Existing law provides that state criminal history information obtained by a public utility is confidential, makes it a misdemeanor for a public utility to disclose that information, except as specified, and provides for destruction of copies of that information in the possession of a public utility within specified periods.

This bill would make these same confidentiality requirements applicable to cable corporations receiving state criminal history information.

By expanding the scope of the misdemeanor penalizing improper disclosure of state criminal history information to cover cable corporations, this bill would impose a state-mandated local program.

Existing law states a general rule applicable to those whose criminal history information is authorized to be released for employment, licensing, or certification purposes, a rule that limits the release to convictions and to arrests for which the applicant is pending trial. It states different rules limiting the information subject to release to a greater or lesser extent for applicants for specified positions, licenses, or certifications. These special rules detail what information should be disseminated concerning these applicants, according to the nature of the position, license, or certification sought. Existing law provides that a utility company receives conviction and arrest information concerning its applicants under the general rule.

This bill would provide that a cable corporation would receive a more limited set of conviction and arrest information than a utility company, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 571 (SB 1457) Murray. Commercial e-mail advertisements.

Existing state law prohibits a person or entity from advertising in a commercial e-mail advertisement that is sent either from California or to a California e-mail address if the e-mail contains or is accompanied by a 3rd-party's domain name without permission, contains or is accompanied by falsified, misrepresented, obscured, or forged header information, or has a misleading subject line. Existing state law authorizes the recipient of an unsolicited commercial e-mail advertisement transmitted in violation of these prohibitions, an e-mail service provider, or the Attorney General to bring an action to recover actual damages for a violation of this prohibition, and authorizes a court to award reasonable attorney's fees and costs if they are a prevailing plaintiff.

This bill would delete the prohibition against obscured header information. The bill would authorize the Attorney General, an e-mail service provider, or the recipient of an unsolicited commercial e-mail advertisement transmitted in violation of these provisions to bring an action to recover liquidated damages of \$1,000 per unsolicited commercial e-mail advertisement transmitted in violation of the provisions, up to \$1,000,000 per incident, subject to reduction by the court. The bill would prohibit the bringing of multiple actions under different damages provisions relating to e-mail advertisements for the same violation.

Ch. 572 (SB 1542) Figueroa. Bureau of Automotive Repair.

The Automotive Repair Act creates the Bureau of Automotive Repair in the Department of Consumer Affairs, with certain powers and duties relative to the licensing and regulation of automotive repair dealers and various other licensees. The act creates the Vehicle and Inspection Repair Fund and directs that all fees and revenues collected pursuant to the act and pursuant to the motor vehicle inspection program be deposited into the fund. Existing law requires the Joint Committee on Boards, Commissions, and Consumer Protection to hold a public hearing every 4 years to receive testimony from the Director of Consumer Affairs and the bureau, and to evaluate the bureau's effectiveness and efficiency. Existing law requires the bureau to design and approve a required sign at all automotive repair dealer locations advising the public of the bureau's telephone number and other related matters. A violation of the Automotive Repair Act is a crime.

This bill would require the sign to include the bureau's Internet address. By changing the definition of a crime, the bill would impose a state-mandated local program. The bill would make nonsubstantive changes to the provisions governing the committee's review of the bureau.

This bill would require the Director of Consumer Affairs to appoint a Bureau of Automotive Repair Administration and Enforcement Monitor by January 3, 2005, and would appropriate \$184,000 from the Vehicle and Inspection Repair Fund for the 2004–05, 2005–06, and 2006–07 fiscal years to the department to contract for this position. The bill would require the monitor to evaluate the bureau and research and analyze specified issues. The bill would require the monitor to submit a report to the director, the Secretary of State and Consumer Services Agency, the bureau, and the Legislature by June 1, 2005, and every 6 months thereafter, and to issue a final report by December 31, 2006.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 573 (AB 30) Richman. Controlled substances: Schedule II.

(1) Existing law provides that no person shall prescribe a controlled substance, nor shall any person fill, compound, or dispense such a prescription unless it complies with specified requirements, one of which is to issue prescriptions for Schedule II controlled substances on either triplicate prescription blanks issued by the Department of Justice or prescription forms for controlled substance prescriptions obtained from security printers approved by the Board of Pharmacy. Existing law provides that the provision requiring the Department of Justice to issue triplicate prescription blanks to practitioners shall remain operative until July 1, 2004, and shall be repealed on January 1, 2005.

This bill would provide that the provision requiring the Department of Justice to issue triplicate prescription blanks to practitioners shall instead remain operative until November 1, 2004.

(2) Existing law provides that a prescriber designated by a licensed health care facility who orders controlled substance prescription forms for use by prescribers when treating patients in that facility shall maintain in that facility for 3 years a record containing specified information of the prescribers to whom controlled substance prescription forms are issued.

This bill would provide that forms printed by a computerized prescription generation system shall not be subject to these recordkeeping provisions and may, but are not required to, contain specified information.

(3) Existing law provides that for each prescription for a Schedule II controlled substance that is dispensed by a practitioner in his or her office or place of practice, the prescriber shall record and maintain specified information, including the pharmacy prescription number, license number, and federal controlled substance registration number.

This bill would no longer require the practitioner who dispenses a Schedule II controlled substance in his or her office or place of practice to record and maintain the pharmacy prescription number, license number, and federal controlled substance registration number.

(4) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 574 (AB 2228) Garcia. Minors: release of information.

Existing law generally provides for the confidentiality of information regarding a minor in proceedings in the juvenile court and related court proceedings, as specified.

This bill would require a family law court to provide to the superior court in a guardianship proceeding, and require a family law court or a court in a guardianship proceeding to provide to the juvenile court, upon request, all available information the court deems necessary to make a determination regarding the best interest of a child, while protecting the confidentiality of that information, as specified. The bill would except confidential family law mediations and confidential dependency mediations from this requirement. The bill would provide that records shared pursuant to the bill may not be disclosed to any party in a case unless the party requests that the originating agency or court release the records and the request is granted.

The bill would also require that the information be released by specified courts to a court-appointed investigator acting in the guardianship proceeding, or to a child protective services worker, or juvenile probation officer acting in the juvenile court proceeding. By imposing additional duties on local governmental entities, the bill would impose a state-mandated local program.

The bill would incorporate additional changes to Section 827 of the Welfare and Institutions Code proposed by AB 1704, to be operative if AB 1704 and this bill become effective on or before January 1, 2005, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 575 (AB 2167) Correa. Securities: corporate liability.

The Corporation Securities Law of 1968 prohibits a broker-dealer from effecting a transaction in, or inducing or attempting to induce the purchase or sale of, any security in this state without a certificate from the Commissioner of Corporations authorizing the person to act in that capacity. Under existing law, an unlicensed person who caused injury as a result of engaging in specified activities for which a license is required is liable for treble the amount of assessed damages.

This bill would authorize a person who purchases a security from or sells a security to a broker-dealer without a certificate to bring an action for rescission of the sale or purchase, or for specified damages, and would authorize the court to award reasonable attorney's fees and costs to a plaintiff. The bill would extend the application of treble damages to these actions.

The Corporate Securities Act of 1968 makes it unlawful for a person to engage in certain fraudulent practices and prohibited acts. Existing state law authorizes a civil action against a person who willfully violates these provisions, which must be brought within 4 years of the violation or within one year after the plaintiff's discovery of the violation, whichever comes first.

This bill would, for proceedings that commence on or after January 1, 2005, extend the time that a plaintiff has to file a civil action to within 5 years after the violation or within 2 years of the plaintiff's discovery of the violation, whichever comes first.

Ch. 576 (AB 1827) Cohn. Closed sessions: state audits.

(1) Under the Bagley-Keene Open Meeting Act and the Ralph M. Brown Act the meetings of state bodies and the legislative bodies of local agencies, including public commissions, boards, councils, and other public agencies in the state, are required to be open and public, including their actions and deliberations, unless the act authorizes a closed session. Under the Bagley-Keene Open Meeting Act, a special meeting may be called for any one of specified purposes where compliance with the 10-day notice provisions would impose a substantial hardship on the state body or where immediate action is required to protect the public interest.

Existing law also prohibits the release of any papers, correspondence, memoranda, or any substantive information pertaining to any audit not completed, and prohibits the State Auditor and any employee or former employee of the Bureau of State Audits from divulging or making known to any person not employed by the bureau any particulars of any record, document, or information not expressly permitted by law.

This bill would permit a state body or the legislative body of a local agency, including any other public agency subject to these open meeting laws, to hold a closed session to consider its response to a confidential final draft audit report from the Bureau of State Audits, unless the report has been publicly released or is exempted from that requirement by some other provision of law.

The bill would also authorize a state body to hold the closed session as a special meeting.

(2) This bill would incorporate additional changes in Section 54954.5 of the Government Code, proposed by AB 2782, to become operative only if this bill and AB 2782 are enacted and become effective on or before January 1, 2005, and this bill is enacted last.

Ch. 577 (AB 3100) Committee on Elections, Redistricting and Constitutional Amendments. State elections: measures to be submitted to the voters.

Existing law requires that if a measure to be submitted to the voters by the Legislature was not adopted unanimously, one member of each house who voted against the measure be

appointed by the presiding officers of the respective houses, at the same time as appointments to draft an argument in favor of the measure, to write an argument against the measure, as specified.

This bill would clarify existing law by requiring that one Member of the Senate who voted against the measure be appointed by the President pro Tempore and one Member of the Assembly who voted against the measure be appointed by the Speaker of the Assembly to write an argument against the measure.

Ch. 578 (AB 2485) Chan. Schools: environmental and endangerment assessments.

The existing Leroy F. Greene School Facilities Act of 1998 (Greene Act of 1998) makes funding available to eligible school districts for various purposes related to school facilities. Existing law establishes, as a condition of the receipt of state funding under the Greene Act of 1998, that the governing board of a school district comply with prescribed provisions relating to an environmental or endangerment assessment of a proposed schoolsite prior to acquisition of the site. The evaluation of a proposed schoolsite is required to include the location of the site with respect to population, transportation, water supply, waste disposal facilities, utilities, traffic hazards, surface drainage conditions, and other factors affecting the operating costs, as well as the initial costs, of the total project. The governing board of a school district may not approve a project involving the acquisition of a schoolsite unless it determines the property does not contain a pipeline, situated underground or aboveground, that carries hazardous substances, acutely hazardous materials, or hazardous wastes, unless the pipeline is a natural gas line that is used only to supply natural gas to that school or neighborhood. The governing board of a school district is required to undertake steps to identify any permitted or nonpermitted facility, including railyards, that are within  $\frac{1}{4}$  of a mile of the proposed schoolsite, that might reasonably be anticipated to emit hazardous air emissions, or to handle hazardous or acutely hazardous materials, substances, or waste.

This bill would authorize the governing board of a school district to make a written request to any person, corporation, public utility, local publicly owned utility, or governmental agency for information necessary or useful to make an assessment of a proposed schoolsite or an addition to an existing schoolsite, pursuant to these provisions. The bill would require any person, corporation, public utility, local publicly owned utility, or governmental agency receiving a written request for information to provide a written response within 30 calendar days of receipt of the request or within any additional grant of time given by the governing board of the school district. The bill would authorize a school district to bring a complaint before the appropriate regulatory agency or legislative body for a violation of these reporting requirements.

Ch. 579 (AB 2066) Steinberg. Underperforming schools program.

(1) Existing law authorizes invited schools that score below the 50th percentile on specified achievement tests to receive funding under the Immediate Intervention/Underperforming Schools Program. Existing law provides that 36 months after the Superintendent of Public Instruction undertakes certain specified actions at a state-monitored school, and if the school makes significant growth on the Academic Performance Index in 2 consecutive years, the school is not eligible to receive funding under the Immediate Intervention/Underperforming Schools Program.

This bill would provide for a voluntary self-assessment process for local educational agencies that, under the federal No Child Left Behind Act of 2001, are in danger of being identified as program improvement local educational agencies or have failed to achieve adequate yearly progress for the first time, with certain requirements.

The bill would provide additional funding to local educational agencies for schools identified as program improvement schools under the federal No Child Left Behind Act of 2001, with certain requirements.

- (2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 580 (AB 1971) Lowenthal. Air pollution: marine terminals.

(1) Existing law requires the State Air Resources Board to endeavor to achieve the maximum degree of emission reduction possible from vehicular and mobile sources of air pollution in order to accomplish the attainment of the state ambient air quality standards at the earliest practicable date. Existing law requires air pollution control districts and air quality management districts in the state, subject to the powers and duties of the state board, to adopt and enforce rules and regulations to achieve and maintain ambient air quality standards in all areas affected by emission sources under their jurisdiction, and to enforce all applicable provisions of state and federal law. Existing law generally designates the state board as having the primary responsibility for the control of emissions from motor vehicles in the state, and designates the districts as having the primary control from all sources other than vehicular sources.

Existing law requires each marine terminal in the state to operate in a manner that does not cause trucks to idle or queue for more than 30 minutes while waiting to load or unload at the terminal, and charges the district with geographical jurisdiction over that marine terminal with enforcing the requirement.

This bill would make several clarifying changes to those provisions regarding the application of the above requirements with respect to both idling and queuing.

(2) Existing law requires each district to determine the necessary level of monitoring and enforcement commensurate with the level of the truck idling problem that exists within the district.

This bill would additionally require each district to make that determination with regard to queuing trucks. By imposing additional duties on the districts, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 581 (AB 1417) Pacheco. Community colleges: funding.

(1) Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state. An item of the Budget Act of 2004 appropriated, among other amounts, \$193,591,000 from the General Fund to the board of governors for allocation to community college districts for general apportionment funding.

This bill would require the board of governors to provide recommendations, based on information to be developed in a study to be conducted by the Chancellor of the California Community Colleges, to the Legislature and the Governor regarding the design of a workable structure for the annual evaluation of district-level performance in meeting statewide educational outcome priorities, including the priorities consistent with the appropriation referenced above.

(2) An item of the Budget Act of 2004 appropriated, among other amounts, \$27,345,000 from the General Fund to the board of governors for allocation to community college districts for physical plant and instructional support.

This bill would set forth criteria in accordance with which a community college district could utilize a portion of these funds for the purpose of maintaining prior investments made for program enhancements for student success, provided that the district reports its planned expenditures to the chancellor on or before November 30, 2004, as prescribed.

(3) An item of the Budget Act of 2004 appropriated, among other amounts, \$50,828,000 from the General Fund to the board of governors for allocation to community college districts for part-time faculty compensation.

This bill would require that the amount appropriated in the Budget Act of 2004 for allocation to community college districts for part-time faculty compensation be allocated, as prescribed, solely to increase the compensation of part-time faculty from the amounts previously authorized. The bill would prohibit the use of these funds by a district to exceed the achievement of parity of compensation for part-time and full-time faculty in that district. The bill would authorize a district that has achieved parity to use these funds for any educational purpose.

(4) Because this bill would authorize the expenditure of funds previously appropriated to the board of governors for new purposes, it would make an appropriation.

(5) The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 582 (AB 2161) Reyes. Structured settlement transfers.

Existing law provides that no transfer of structured settlement payment rights, as defined, shall be effective by a payee domiciled in this state, or by a payee entitled to receive payments under a structured settlement funded by an insurance contract issued by an insurer domiciled in this state or owned by an insurer or corporation domiciled in this state, unless specified conditions are satisfied.

Existing law requires a transferee of structured settlement payment rights to provide the payee with a written disclosure statement containing certain information.

This bill would make specified changes to the requirements regarding this disclosure statement.

Existing law requires that the transferee of structured settlement payment rights provide written notice of a proposed transfer to all interested parties at certain times, except as specified.

This bill would eliminate this requirement.

Existing law requires a transferee of structured settlement payment rights to file specified documents with the Attorney General, and requires the Attorney General to review a transfer agreement to ensure that the agreement complies with the provisions of law applicable to these agreements.

This bill would provide that these requirements do not apply to a payee who is not a resident of California at the time the payee executes the transfer agreement.

Existing law, effective until January 1, 2005, provides that a transfer of structured settlement payment rights is not effective unless the transfer has been approved in advance in a final court order based on certain findings. Existing law requires a transferee, at or before the time of filing a petition for court approval, to advise the payee of the payee's right to seek counsel in connection with the petition, and that the transferee shall pay the fees of the payee's counsel, up to a specified amount.

This bill would delete the expiration date for these provisions. The bill would add findings related to the payee's understanding of the transfer agreement and the right to cancel the agreement to the findings required pursuant to court approval of a transfer of structured settlement payment rights. It would require the transferee, in addition to advising the payee with respect to counsel as provided above, to advise the payee of his or her right to seek financial advice in connection with the petition for court approval, and that the transferee will pay the fees of the payee's accountant or actuary, up to a specified aggregate amount. The bill would require the court to retain continuing jurisdiction over the transfer agreement.

Existing law allows a payee under a structured settlement transfer agreement to cancel the agreement at any time prior to the date on which the agreement becomes binding on the payee.

This bill would instead allow the payee to cancel the agreement at any time before the date on which a court enters a final order approving the transfer agreement.

Existing law requires a transferee of structured settlement payment rights to file with the Attorney General a copy of any final court order approving or denying the transfer. Existing law requires the Attorney General, not later than March 31, 2004, to file a report with the Legislature to assist in the evaluation of the provisions of law regarding transfers of structured settlement payment rights, as specified.

This bill would eliminate these requirements.

The bill would provide that it shall apply only to transfer agreements executed on or after January 1, 2005.

Ch. 583 (AB 2150) Levine. Accountancy: disciplinary proceedings.

Existing law provides for the regulation, licensure, and discipline of public accountants by the California Board of Accountancy, in the Department of Consumer Affairs, and sets forth certain requirements and prohibitions applicable to public accountants. Existing law authorizes the executive officer of the board to request that the administrative law judge, as part of a proposed decision in a disciplinary proceeding, order that a public accountant be directed to pay the board all reasonable costs of investigation and prosecution of the case where the accountant is found guilty of certain types of unprofessional conduct.

This bill would instead authorize the executive officer to make that request in a disciplinary proceeding where a public accountant is found to have violated any of the provisions regulating accountants. The bill would provide that a licensee is not subject to these provisions if he or she complies with the citation.

Ch. 584 (AB 3029) Matthews. Medi-Cal provider reimbursement.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services and under which qualified low-income persons receive health care benefits.

This bill would prohibit, subject to an exception for certain providers and services, a provider under the Medi-Cal program from submitting a reimbursement request to the Medi-Cal program containing a beneficiary's social security number in order to receive payment if the department has issued that beneficiary a Medi-Cal beneficiary identification card containing a beneficiary number that includes the issuance date.

Ch. 585 (AB 2834) Canciamilla. Santa Margarita Water District and Irvine Ranch Water District: water treatment, reuse, and conveyance.

Existing law, the California Water District Law, authorizes the formation of California water districts and provides for the purposes and powers of those districts.

This bill would authorize the Santa Margarita Water District and the Irvine Ranch Water District, California water districts, to convey water in a drainage course within the boundaries of each respective district for the purposes of treating and reusing that water, if that conveyance, treatment, and reuse meet the requirements of state and federal law.

Ch. 586 (AB 2216) Nakanishi. Contractors.

(1) Existing law, the Contractors' State License Law, provides for the licensure and regulation of contractors by the Contractors' State License Board. Under existing law, the registrar of the Contractors' State License Board may deny an application for a license for specified reasons.

This bill would require the board to inform an applicant who has been denied an application for licensure on the grounds that the applicant has committed a crime

substantially related to the qualifications, functions, and duties of a contractor, of the earliest date on which the applicant may reapply for a license.

(2) Under existing law, a license that has been revoked shall not be reinstated within a minimum period of one year and a maximum period of 5 years after the final decision of revocation.

This bill would, for an applicant who has been denied licensure because the applicant has committed a crime substantially related to the qualifications, functions, and duties of a contractor, require the registrar to set the date on which those applicants may reapply at no more than 5 years after the effective date of the decision or service of notice.

(3) Under existing law, unless otherwise specified, prosecution for a misdemeanor must be brought within a year after commission of the offense. The Contractors' State License Law specifies that for certain misdemeanor violations, prosecution shall be commenced within 4 years of the commission of the offense.

This bill would require prosecution of misdemeanor violations of the Contractors' State License Law to be commenced within one, 2, 3, or 4 years of the commission of the offense, depending on the offense. The bill would, effective July 1, 2005, require specified violations relating to home improvement and service and repair contracts to be commenced within 2, 3, or 4 years of the commission of the offense, depending on whether the perpetrator is licensed, if SB 30 of the 2003-04 Regular Session is enacted and becomes effective on or before January 1, 2005.

Ch. 587 (SB 524) Vasconcellos. Instruction: automobile driver education.

(1) Existing law requires a driver's license issued to a person under 18 years of age to be issued under the provisional licensing program. Among the components of that program, an applicant for a provisional license is required to provide satisfactory completion of approved courses in automobile driver education and driver training maintained under the Education Code in a secondary school of this state or equivalent instruction in a secondary school of another state. Alternatively, existing law allows the applicant to satisfactorily complete an integrated driver education and training program, or the automobile driver education component may be satisfied through satisfactory completion of equivalent professional instruction acceptable to the Department of Motor Vehicles.

This bill would provide that the satisfactory completion of a course in automobile driver education offered by a private secondary school satisfies the instructional component requirements of these provisions if specified conditions are met.

(2) Existing law generally regulates driving schools and driving instructors. However, existing law provides, until a July 1, 2004, inoperative date, that those provisions are not to be construed to direct or restrict driver education courses offered by private secondary schools, as defined, or to require credentialed or certified instructors for courses offered by those private schools. Existing law repeals these provisions on January 1, 2005.

This bill would delete the July 1, 2004, inoperative date and the January 1, 2005, repeal date, thereby continuing these provisions indefinitely.

Ch. 588 (SB 1481) Chesbro. Tidelands: City of Vallejo.

Existing law grants to the City of Vallejo all the right, title, and interest of the State of California in and to all tidelands and submerged lands situated in the Napa Creek, the Mare Island Strait, and the Straits of Carquinez within the boundaries of the city, as specified, in trust for certain purposes, including promotion of commerce, navigation, and fisheries, and for establishing a harbor and related facilities.

This bill would repeal specified statutes, as prescribed, which provided for those grants of tidelands and submerged lands to the City of Vallejo, and would provide for the grant and conveyance to the City of Vallejo, as described, and to its successors, of all the right, title and interest of the State of California held by the state in and to, all the tide and submerged lands and lands lying under inland navigable waters within the present boundaries of the City of

Vallejo for public trust purposes, as defined, except for specified lands currently leased to the Wildlife Conservation Board, the Department of Fish and Game, and the United States Fish and Wildlife Service; lands transferred to the Department of Education for the California Maritime Academy; and lands subject to the Mare Island Property Settlement and Exchange Agreement until those lands are confirmed as public trust lands through implementation of a specified agreement. The bill would specify the purposes for which those lands may be used, and would prescribe related matters. The bill would prescribe procedures for the exchange and termination of the public trust or interest in those lands by the city.

The bill would provide that its provisions are severable and if any provision of the bill or its application is held invalid, that invalidity shall not affect other provisions or application that can be given effect without the invalid provision or application.

Ch. 589 (SB 1874) Alpert. San Diego County Regional Airport Authority.

Existing law establishes the San Diego County Regional Airport Authority in the County of San Diego and provides for a 9 member permanent board. Existing law establishes an initial term of 2 years for one of the members, if that person is a mayor of an east area city.

This bill would change that member's initial term to 4 years.

Ch. 590 (SB 1773) Soto. Los Angeles County Metropolitan Transportation Authority.

Existing law permits the board of the Los Angeles County Metropolitan Transportation Authority, upon meeting specified requirements, to form special benefit assessment districts and to levy special benefit assessments on real property within those districts. Existing law authorizes an owner of real property within a benefit assessment district to petition for the exclusion of all or part of the property from the assessment, or for reduction of the assessment.

This bill would require a petition for exclusion or reduction to be commenced within two years after the making of the payment sought to be refunded.

Ch. 591 (SB 1458) Johnson. Political Reform Act of 1974.

Under the Political Reform Act of 1974, the Franchise Tax Board is required to audit a specified percentage of certain lobbying firms, lobbyist employers, candidates, and committees regarding the campaign statements and reports filed by those persons and entities with the Secretary of State. The Fair Political Practices Commission selects by lot the persons and entities to be audited on a random basis.

This bill would require that the board complete its report of any audit conducted on a random basis within one year after the person or entity subject to the audit is selected by the commission to be audited.

Under the act, a civil action alleging a violation by a candidate for the Legislature or a superior court judge in a direct primary or general election of the reporting requirements for campaign statements and reports filed with the Secretary of State shall not be filed more than 4 years after the board could begin an audit of the candidate.

This bill would prohibit the filing of a civil action of this kind more than 4 years after the board could begin an audit of the candidate, or more than one year after the board forwards its report to the commission of a completed audit of any person or entity alleged to have violated the requirements for campaign statements and reports, whichever period is less.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a  $\frac{2}{3}$  vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a  $\frac{2}{3}$  vote.

Ch. 592 (SB 1577) Committee on Elections and Reapportionment. Elections: voting.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

(1) Existing law requires the Secretary of State to establish and maintain administrative complaint procedures, pursuant to the requirements of the federal Help America Vote Act of 2002.

This bill would prohibit the Secretary of State from establishing a requirement that the administrative remedies provided in the complaint procedures be exhausted in order to pursue any other remedies provided by state or federal law.

(2) Existing law defines a new citizen as any person who meets all the requirements of an elector of, and has established residency in, California, except that he or she will become a United States citizen after the 29th day prior to an election, but on or before the 7th day prior to that election.

This bill would, instead, define a new citizen as any person who meets all the requirements of an elector of, and has established residency in, California, except that he or she will become a United States citizen after the 15th day prior to an election, but on or before the 7th day prior to that election.

(3) Existing law defines a new resident as any person who meets all the requirements of an elector of the State of California, except that his or her residency was established after the 29th day prior to an election.

This bill would, instead, define a new resident as any person who meets all the requirements of an elector of the State of California, except that his or her residency was established after the 15th day prior to an election.

(4) Existing law requires that registration for new residents begin the 28th day prior to an election and end on the 7th day prior to the election day.

This bill would, instead, require that registration for new residents begin the 14th day prior to an election.

(5) Existing law requires the county counsel or district attorney of a county in which an election on a measure is to be held to prepare an impartial analysis of the measure. In the event that the entire text of the measure is not printed on the ballot or in the sample ballot, existing law requires, immediately following the impartial analysis, a written statement informing voters that a copy of the entire ordinance or measure is available by calling the elections official's office.

This bill would allow an elections official, at his or her discretion, to include an additional written statement following the impartial analysis indicating that the full text of the measure may be obtained on the county Web site.

Ch. 593 (SB 1797) Committee on Public Safety. Public safety: omnibus bill.

Existing law requires the Department of Justice to notify a state or local agency as to whether an individual applying for a position as a peace officer, as defined, is prohibited from possessing, receiving, owning, or purchasing a firearm, as specified. Existing law requires the applicant to provide the Department of Justice with fingerprints and other identifying information deemed necessary by the department prior to the department making the notification.

This bill would extend the duties to notify and to provide fingerprints to cases where persons are applying for a position as a custodial officer or transportation officer, as specified.

This bill would also require the Department of Justice to notify a state or local agency employing an individual as a custodial officer or transportation officer who is authorized by the employing agency to carry a firearm, as to whether, the individual is prohibited from possessing, receiving, owning, or purchasing a firearm, as specified. The bill would require the individual to provide the department with fingerprints and other identifying information as specified.

Existing law authorizes local law enforcement agencies to report certain information in connection with recovered firearms illegally possessed, used in a crime, or suspected of being used in a crime, to the Attorney General, as specified.

This bill would make a nonsubstantive, technical change to those provisions.

Existing law establishes the Prohibited Armed Persons File, and requires the Department of Justice to search a specified firearms database in connection with the administration and purposes of the Prohibited Armed Persons File.

This bill would make technical changes to references to the firearms database system the department is required to access.

Existing law provides that every person who purchases or receives, or attempts to purchase or receive, a firearm knowing that he or she is prohibited from doing so by certain restraining or other specified orders, is punishable by imprisonment in a county jail not exceeding one year, or in the state prison, by a fine not exceeding \$1,000, or by both that imprisonment and fine.

This bill would include for those purposes, certain protective orders, as specified.

By expanding the definition of a crime, this bill would impose a state-mandated local program.

Existing law contains 2 identical sections in the Penal Code, each denominated 12076.5.

This bill would repeal one of those sections.

Existing law, subject to exceptions, requires persons who are not licensed firearms dealers to complete sales of firearms through licensed firearms dealers, as specified. Existing law also establishes fees that firearms dealers may charge in connection firearms transfers.

This bill would clarify those provisions and preclude the firearms dealer from charging any additional fee for the transaction.

The bill would provide that other bills that are enacted that affect any section in this bill would prevail over this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 594 (SB 1848) Ashburn. Vehicles: driver's license violations: referral program.

Existing law imposes specified sentencing and fine sanctions upon persons found guilty of violating provisions prohibiting the driving of vehicles without a license, as specified.

This bill would authorize, until January 1, 2008, the district attorneys of certain counties, and the city attorneys of certain cities, with the approval of the board of supervisors or city council, to establish a pilot program for persons who plead guilty or no contest or are convicted of violations of specified provisions prohibiting driving without a valid driver's license. Under the program, and subject to the approval of the court, the district attorney or city attorney would be authorized to enter into a written agreement with a person in a case involving a violation of the specified provisions in which the person agrees to the following, in lieu of the imposition of a county jail sentence: (1) a home detention program utilizing an electronic monitoring program for not less than the minimum jail sentence, and not more than the maximum jail sentence, provided for a violation of the specified provisions, and (2) a class or classes relating to driving without a valid driver's license, as specified. Persons participating in the pilot program would be required to complete a home detention program utilizing an electronic monitoring program and equipment that meets certain standards. The electronic monitoring program would be provided under the auspices of the district attorney or city attorney, or his or her designee. The bill would permit the recovery of fees for the program from participants, as specified.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 595 (SB 1541) Margett. Vehicles: motor vehicle speed contest: punishment.

(1) Existing law prohibits a person from engaging in a motor vehicle speed contest, aiding or abetting in that contest, engaging in motor vehicle exhibition of speed on a highway or aiding or abetting in that conduct, and obstructing or placing a barricade or obstruction or

assisting in the same, upon a highway incident to a motor vehicle speed contest or speed exhibition upon a highway.

Existing law imposes various sanctions on persons convicted of the above, including requiring a person convicted of engaging in a motor vehicle contest to be imprisoned in county jail for not less than 24 hours nor more than 90 days.

This bill would also require that person to perform 40 hours of community service, thereby imposing a state-mandated local program by increasing the level of service imposed on local law enforcement agencies.

(2) Existing law allows for the suspension or the imposition of a restricted driver's license of persons convicted of the above, and requires the imposition of the sanction upon repeat offenders.

This bill would additionally require a person convicted of a motor vehicle contest offense to provide proof of financial responsibility as a condition to the restoration of the privilege to operate a motor vehicle.

(3) This bill would incorporate amendments to Section 13352 of the Vehicle Code contained in SB 1694 and 1697, with the amendments from each bill to become operative only if that section is amended by each bill and if this bill is enacted last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 596 (AB 1227) McCarthy. Insurance fraud: investigative units.**

Existing law requires every insurer admitted in this state to maintain a unit or division to investigate possible fraudulent claims by insureds or by persons making claims against policies held by insureds.

This bill would require the Insurance Commissioner, upon good cause, to notify an insurer of its noncompliance with these provisions. The bill would specify the contents of the notice and would require an insurer to take certain actions after receiving such a notice. It would establish monetary penalties in specified amounts for violations of these provisions based upon whether a violation was willful, and would require the imposition of further monetary penalties if an insurer fails to comply with an order issued pursuant to these provisions.

The bill would require the commissioner to adopt regulations to implement these provisions.

**Ch. 597 (AB 1353) Matthews. Treated wood waste: disposal.**

(1) Existing law regulates the control of hazardous waste, but exempts from the hazardous waste control laws, wood waste that is exempt from regulation under the federal Resource Conservation and Recovery Act of 1976, as amended (RCRA), if the wood waste is disposed of in a municipal landfill that meets certain requirements imposed pursuant to the Porter-Cologne Water Quality Control Act for the classification of disposal sites, and the landfill meets other specified requirements. A violation of the state's hazardous waste control laws, including a regulation adopted pursuant to those laws, is a crime.

This bill would define the term "treated wood" and would require treated wood waste, as defined, to be disposed of in either a class I hazardous waste landfill or in a composite-lined portion of a solid waste landfill unit that meets specified requirements. The bill would require any solid waste landfill accepting treated wood waste to meet certain requirements specified in the bill and to manage the treated wood waste in a specified manner. The bill would provide that if treated wood waste is accepted by a solid waste landfill that manages and disposes of the treated wood waste in a specified manner, the treated wood waste shall be deemed to be a solid waste, and not a hazardous waste.

The bill would, until January 1, 2007, exempt treated wood waste from the hazardous waste control laws, if specified requirements are met.

The bill would require each wholesaler and retailer in this state to conspicuously post information describing the health hazards associated with treated wood waste and how to safely manage, handle, and dispose of treated wood waste. The bill would require the wood preserving industry, by July 1, 2005, to make specified information available to generators of treated wood waste. The bill would require the Department of Toxic Substances Control to adopt, by January 1, 2007, regulations establishing management standards for treated wood waste as an alternative to the requirements specified in the hazardous waste control laws.

The bill would require a person subject to the hazardous waste control laws to comply with the alternative standard specified in the regulations adopted by the department or with the requirements of the hazardous waste control laws.

The bill would provide that on January 1, 2005, all variances granted by the department before January 1, 2005, governing the management of treated wood waste are inoperative and have no further effect.

The bill would require the department, by June 1, 2011, to prepare and post on its Web site, a report that makes a determination regarding the successful compliance with, and implementation of, the requirements imposed by the bill. The bill would make the requirements imposed by the bill inoperative on June 1, 2012, and, would repeal them on January 1, 2013, unless a later enacted statute that is enacted before January 1, 2013, deletes or extends the dates on which it becomes inoperative and is repealed, except for the exemption of treated wood waste from the hazardous waste control laws, if it is disposed of at a solid waste landfill.

Since a violation of the regulations adopted by the department would be a crime, the bill would impose a state-mandated local program.

(2) The bill would require the Senate Office of Research to review and make findings regarding treated wood products by June 1, 2006.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 598 (AB 1489) Negrete McLeod. Gambling Control Act.

Existing law, the Gambling Control Act, provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission and the enforcement of those activities by the Division of Gambling Control. Existing law confers on the division the responsibility of approving the play of any controlled game.

This bill would require the division to make available to the public the rules of play and the collection rates of each gaming activity approved for play at each gambling establishment on the Attorney General's Web site. The bill would also require that costs incurred by the division to review and approve game rules be reimbursed by the licensee making the request.

#### Ch. 599 (AB 1728) Committee on Insurance. Insurance company regulation: disability insurance fraud.

Existing law requires that on or before the first day of March of each year every insurer doing business in this state shall make and file with the Insurance Commissioner, in triplicate, statements exhibiting its condition and affairs as of the previous December 31.

This bill would provide that the statements be filed in a form, number, and by methods prescribed by the commissioner, and that if the first day of March is not a business day, the statements are due on the first business day preceding that day. The bill would also require quarterly filings of statements exhibiting the condition and affairs of the insurer, as specified.

Existing law requires every domestic, foreign, and alien insurer doing business in the state to file an annual statement, as specified, with the National Association of Insurance Commissioners.

This bill would in addition, require quarterly statements be filed, as specified.

Existing law authorizes the Insurance Commissioner to suspend, revoke, or refuse to renew the certificate of authority of any insurer failing to file its annual statement with the National Association of Insurance Commissioners when due or within any extension of time which the commissioner, for good cause, may grant.

This bill would extend that authority to cases of failure to file quarterly statements.

Existing law authorizes domestic insurers to make investments in common stock and other securities in specified circumstances. Existing law authorizes certain domestic insurers to organize or acquire subsidiaries, and to invest any amount in securities of subsidiaries, subject to specified restrictions. Existing law also authorizes an insurer to invest any amount in securities of any subsidiary exclusively engaged in holding title to or holding title to and managing or developing real or personal property, as specified.

This bill would eliminate these special provisions that authorize the investment of any amount in the securities of subsidiaries.

Existing law provides that purchases, exchanges, or other specified acquisitions of control of a domestic insurer may not be made until the Insurance Commissioner approves the transaction, or fails to disapprove the transaction, as specified.

This bill would require the commissioner to approve or disapprove the transaction in 60 days.

Existing provisions of statutory law exempt surety insurance from a specified rate rollback, and from certain requirements for receiving approval from the insurance commissioner before setting and modifying rates, and provide in their stead that surety insurance rates shall not be excessive, inadequate, or unfairly discriminatory, as specified. The rollback and other requirements from which surety insurers were exempted by these provisions were added by an initiative that requires any amendment to the initiative be in furtherance of its purpose. The California Supreme Court held that these provisions exempting surety insurers from the rollback and other requirements constituted an amendment of the initiative not in furtherance of that purpose, and were therefore invalid.

This bill would repeal this language purporting to exempt surety insurers from specified aspects of the initiative's rate regulation scheme.

The bill would make other conforming technical changes.

Existing law requires a disability insurer, or an entity otherwise liable for any loss due to health insurance fraud, to pay an annual fee in order to fund increased investigation and prosecution of fraudulent health insurance claims. Existing law requires moneys from these fees to be deposited in the Insurance Fund, for use upon appropriation by the Legislature, of which 50% is required to be distributed to local district attorneys for investigation and prosecution of health insurance fraud cases. Existing law requires the Insurance Commissioner to prepare an annual report with respect to the Bureau of Fraudulent Claims.

This bill would require the moneys from these fees to be deposited in the Disability Insurance Fraud Account, which would be created in the Insurance Fund, and to be available upon appropriation by the Legislature for enhanced investigation and prosecution of disability insurance fraud. The bill would require the commissioner to distribute funds to district attorneys based on whether they are able to show that it will enhance their prosecution of disability insurance fraud. The bill would require a district attorney applying for these funds to submit an application that contains specified information to the commissioner. The bill would also require a district attorney receiving these funds to submit accountings and final reports for each case or project funded. The bill would authorize the commissioner to conduct a fiscal audit of the program and would authorize the commissioner to discontinue and redistribute funds if he or she determines that a district attorney is unable or unwilling to investigate or prosecute a relevant disability insurance fraud case. The bill would make the

applications, distributions, and the annual report regarding the Bureau of Fraudulent Claims public documents. The bill would exempt certain policies from the fee.

Ch. 600 (AB 1953) Vargas. Public insurance adjusters: contracts.

Existing law provides for the licensing and regulation of public insurance adjusters by the Insurance Commissioner. Existing law prohibits a person from acting as a public insurance adjuster unless he or she is licensed, and provides for a civil penalty not exceeding \$5,000 for a violation of these provisions, or not exceeding \$10,000 if the violation was willful.

This bill would raise these fines to \$10,000 if the violation was not willful, and \$25,000 if the violation was willful.

Existing law prohibits a public adjuster from acting in this capacity without having first entered into a contract, in writing, on a form approved by the commissioner and executed in duplicate by the public adjuster and the insured or a duly authorized representative. Existing law requires that this contract contain a provision allowing the client to rescind the contract within 72 hours of signature. A violation of the provisions regulating public insurance adjusters is a crime.

This bill would require that the contract include specified provisions, including a provision disclosing the percentage of the insured's claim, or other fee, that the public adjuster will charge for his or her services, and would further require that the adjuster obtain the initials of the insured next to this provision. The bill would specify the form of the notice of cancellation to be included in the contract, and would allow the client to cancel the contract by midnight of the 3rd business day after signature. It would require a public adjuster to return any payment made by the client within 10 days of cancellation. The bill would provide that the provisions regarding contract requirements and the notice of cancellation may not be waived. A violation of these provisions would be a crime. By creating a new crime, the bill would impose a state-mandated local program.

Existing law prohibits a public insurance adjuster from soliciting a client for employment between 6 p.m. and 8 a.m.

This bill would apply this prohibition, in addition, to any other person or entity offering, for a fee, service related to a loss-producing occurrence. By expanding the scope of an existing crime, the bill would impose a state-mandated local program.

The bill would also prohibit a public insurance adjuster from soliciting a contract of engagement until 7 calendar days have elapsed since the occurrence of a disaster, as defined. This prohibition would not apply if the adjuster is contacted by the insured or the insured's representative. By creating a new crime, the bill would impose a state-mandated local program.

Existing law requires the commissioner to enforce the execution of laws regulating the business of insurance.

This bill would require the commissioner to enforce the provisions of law regarding, and prosecute all violations of these provisions by, persons or entities, whether licensed or not, that hold themselves out or act as public insurance adjusters.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 601 (AB 2384) Nakano. Life insurance.

Existing law requires that, with respect to any plan of life insurance that provides for future premium determination by the insurer based on estimates of future experience or that is of such a nature that minimum values cannot be determined by specified methods, any policy, contract, or certificate under the plan that is issued on or after a specified date must be filed with the Insurance Commissioner before it can be marketed, issued, delivered, or used. Existing law also provides that, with respect to any annuity contract that is of such a nature

that minimum reserves cannot be determined by specified methods, the reserves held under the plan must be appropriate and computed in a manner consistent with regulations promulgated by the commissioner, but that individual life insurance policy forms need not be approved by the commissioner prior to marketing, issuance, delivery, or use.

This bill would instead require that the form of any policy, contract, or certificate providing life insurance that is issued on or after the specified date be filed by the obligor with the commissioner before being marketed, issued, delivered, or used.

It would also require that the form of any annuity contract subject to certain provisions of law regarding the nonforfeiture of benefits be filed by the obligor with the commissioner before being marketed, issued, delivered, or used.

Existing law provides that an insurer licensed to transact life insurance that fails to pay the proceeds of, or payments under, any policy of life insurance issued by it within 30 days after the death of the insured shall pay interest on the death proceeds left on deposit, as specified.

This bill would make this provision applicable to insurers admitted to transact credit life insurance and accidental death insurance.

Existing law provides that when the proceeds of, or payments under, a policy of life insurance become payable and the insurer makes payment in accordance with the terms of the policy or of a written assignment, the payment shall fully discharge the insurer from all claims under the policy, unless it receives written notice before payment is made, as specified. Existing law also provides that when a policy of life insurance has been assigned in writing, the insurer may deal with the assignee in a manner not inconsistent with the terms of the assignment until the insurer receives written notice from another person who claims to be entitled to some interest in the policy. Existing law provides that policies of disability insurance that provide for death benefits, shall, as to those death benefits, be subject to these provisions.

This bill would provide that, in addition, policies of disability insurance that provide for death benefits, shall, as to those death benefits, also be subject to provisions that provide that an insurer that fails or refuses to pay the proceeds of, or payments under, any policy issued by it within 30 days after the date of death shall pay interest on death proceeds left on deposit with the insurer, as specified.

This bill would make other technical, nonsubstantive changes.

The bill would incorporate additional changes to Section 10172.5 of the Insurance Code proposed by AB 1910, contingent upon the prior enactment of that bill.

#### Ch. 602 (AB 2431) Steinberg. Firearms.

Existing law generally regulates the possession and transfer of firearms.

This bill would add requirements to the procedure for persons to obtain or dispose of their firearms that are in the custody of a law enforcement agency or court. The bill would require the person to make application to the Department of Justice for a determination that the person is eligible to possess a firearm. The bill would provide that knowingly omitting required information or furnishing fictitious information in connection with the application would be a misdemeanor. The bill would require law enforcement agencies to determine if a firearm to be returned is stolen. The bill would prohibit release of a firearm to an applicant by a law enforcement agency or court entity unless certain criteria are met. The bill would require certain information regarding the applicant and certain firearms be maintained by the Department of Justice in the Automated Firearms System, as specified. The bill would authorize the Department of Justice to charge a fee of \$20 for firearms eligibility processing, and a fee of \$3 for each additional handgun that is processed, as specified. It would authorize a local government or state agency to adopt a regulation, ordinance, or resolution setting fees to cover the costs of the seizure, storage, and return of a firearm to a licensed dealer or owner, as specified. The bill would make other conforming changes.

Because this bill would create a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 603 (AB 2591) Leno. Charter-party carriers: limousines.

(1) The California Constitution establishes the Public Utilities Commission, with jurisdiction over all public utilities, and authorizes the Legislature, unlimited by the other provisions of the Constitution, to confer additional authority and jurisdiction upon the commission, that is cognate and germane to the regulation of public utilities. Charter-party carriers of passengers are subject to the jurisdiction and control of the commission under the Passenger Charter-Party Carriers' Act. The act requires a charter-party carrier of passengers to obtain from the commission a certificate that public convenience and necessity require the carrier's operation or, in the case of some carriers, to obtain a permit to conduct operations issued by the commission. The act prohibits the commission from issuing or renewing a permit unless the applicant has met specified requirements, including the submission of specified filing fees. The act does not apply to transportation service, other than transportation service furnished in a limousine for hire, rendered wholly within the corporate limits of a single city or city and county and licensed or regulated by ordinance. The act prohibits the governing body of any city, county, or city and county from imposing business license fees on charter-party carriers operating limousines, but authorizes the governing body of any city, county, or city and county to impose a business license fee on any charter-party carrier domiciled or maintaining a business office within that city, county, or city and county. The act prohibits the governing body of an airport from imposing vehicle safety, licensing, or insurance requirements on charter-party carriers operating limousines that are more burdensome than those imposed by the commission, with certain exceptions pertaining to airport operations. The act requires a charter-party carrier of passengers to operate on a prearranged basis within the state, defined to mean that the transportation of the prospective passenger was arranged with the carrier by the passenger, or a representative of the passenger, either by written contract or telephone.

This bill would authorize a city, county, or city and county to impose reasonable rules for the inspection of waybills of charter-party carriers of passengers operating within the jurisdiction of the city, county, or city and county, for purposes of verifying valid prearranged travel.

This bill would require that the commission ensure that charter-party carriers of passengers operate on a prearranged basis within the state. The bill would require the commission to require every charter-party carrier of passengers include on a waybill or trip report, the name of at least one passenger in the traveling party, or identifying information of the traveling party's affiliation, along with the point of origin and destination of the passenger or traveling party, and information as to whether the transportation was arranged by telephone or written contract.

(2) Existing law authorizes a peace officer that arrests a person for operating a charter-party carrier of passengers without a valid certificate or permit at a public airport or within two miles of the international border with Mexico, to impound and retain possession of the vehicle, subject to certain exceptions and provisions for notice and return of the vehicle. Existing law authorizes the impounding authority to deal with a vehicle as lost or abandoned property after the expiration of 6 weeks from the final disposition of the criminal case.

This bill would additionally authorize a peace officer, as defined, that arrests a person for operating a charter-party carrier of passengers as a taxicab in violation of an ordinance or resolution of a city, county, or city and county, to impound and retain possession of the vehicle, subject to certain exceptions and provisions for notice and return of the vehicle.

Under the bill, an impounding authority would not be authorized to deal with a vehicle as lost or abandoned property if the owner is in the process of making payments to the court.

(3) Existing law requires that when a person is convicted of operating a charter-party carrier of passengers or a taxicab, as defined, without a valid certificate or permit, if the court determines the operator has the ability to pay, the court impose a fine not exceeding \$1,000 for the first conviction, a fine not exceeding \$2,000 for the second conviction, a fine not exceeding \$3,000 for the third conviction, a fine not exceeding \$4,000 for the fourth conviction, and a fine not exceeding \$5,000 for the fifth conviction.

This bill would instead require that, when a person is convicted of operating a charter-party carrier of passengers or a taxicab, as defined, without a valid certificate or permit, if the court determines the operator has the ability to pay, the court impose a fine not exceeding \$2,500 for a first conviction or \$5,000 for a subsequent conviction.

(4) Existing law provides that whenever the commission, after a hearing, finds that any person or corporation is operating as a charter-party carrier of passengers without a valid certificate or permit, or fails to include certain identifying information in a public advertisement, the commission is authorized to impose a fine of not more than \$5,000 for each violation, and to assess an amount sufficient to cover certain expenses of the commission. Existing law prohibits a charter-party carrier of passengers from advertising its services, or in any manner representing its services, as being a taxicab or taxi service.

This bill would provide that whenever the commission, after a hearing, finds that any person or corporation is operating a charter-party carrier of passengers as a taxicab without a valid certificate or permit in violation of an ordinance or resolution of a city, county, or city and county, the commission is authorized to impose a fine of not more than \$5,000 for each violation, and to assess an amount sufficient to cover certain expenses of the commission.

(5) Under existing law, a violation of the Passenger Charter-Party Carriers' Act or a violation of an order or direction of the commission issued pursuant to the act is a crime.

Because the provisions of this bill would be a part of the act and because a violation of those provisions or of an order or decision of the commission implementing those provisions would be a crime, the bill would impose a state-mandated local program by creating new crimes.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 604 (AB 2878) Aghazarian. Alcoholic beverages: beer tapping equipment.

Existing law permits a manufacturer to furnish to a licensed wholesaler, and a licensed wholesaler or manufacturer to furnish to an on-sale licensee, only specified items of alcoholic beverage tapping equipment.

This bill would include filters among those items. Because a violation of this provision would be a misdemeanor, this bill would impose a state-mandated local program by changing the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 605 (AB 2962) Pavley. Fire insurance: valuation of loss.

Existing law generally regulates homeowners' insurance rates. Existing law prohibits an insurer from canceling a homeowners' insurance policy after it has been in effect for a specified period unless the cancellation is based on the occurrence of certain events.

This bill would provide that, in the case of a total loss to the insured structure under a homeowners' policy, if reconstruction of the primary insured structure has not been

completed by the time of policy renewal, the insurer, prior to or at the time of renewal, and after consultation with the insured, shall adjust the limits and coverages, write an additional policy, or attach an endorsement to the policy that reflects the change, if any, in the insured's exposure to loss. It would require the insurer to adjust the premium charged to reflect any change in coverage. The bill would prohibit an insurer in these circumstances from canceling coverage while the destroyed structure is being rebuilt, except for specified reasons, and would require the insurer to offer to renew the policy at least once in certain circumstances.

The bill would allow insurers and the California Earthquake Authority, with respect to residential earthquake policies, to defer implementation of these provisions until October 1, 2005, and would set forth the means of their compliance with these provisions.

Under existing law, under an open policy, the measure of indemnity in fire insurance is the expense to the insured of replacing the thing lost or injured in its condition at the time of the injury, the expense being computed as of the time of the commencement of the fire.

This bill would provide, in addition, that under an open policy that requires payment of actual cash value, the measure of the actual cash value recovery shall be determined as follows: (1) in case of total loss to the structure, the policy limit or the fair market value of the structure, whichever is less, or (2) in case of a partial loss to the structure, or loss to its contents, the amount it would cost the insured to repair, rebuild, or replace the thing lost or injured less a fair and reasonable deduction for physical depreciation, as specified, based upon its condition at the time of the injury or the policy limit, whichever is less.

#### Ch. 606 (SB 231) Scott. Firearms: entertainment firearms permit.

Existing law generally regulates the possession and transfer of firearms.

This bill would establish an entertainment firearms permit, to be issued by the Department of Justice, authorizing the holder to possess firearms for use as props in motion picture, television, video, theatrical, or other entertainment productions. The bill would establish fees for application and renewal of the permit. This bill would make certain false statements on this permit application a misdemeanor.

By creating a new crime, this bill would impose a state-mandated local program.

The bill would also make other conforming technical changes exempting loans of unloaded firearms for use as props from specified requirements applicable to the transfer of firearms.

This bill would make other technical, nonsubstantive changes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 607 (SB 1858) Dunn. Imitation firearms.

Existing law defines "imitation firearm" which definition excludes BB guns.

This bill would include a BB device within the definition of "imitation firearm" for certain purposes.

Existing law generally regulates commerce in imitation firearms, as specified. This bill would repeal, recast and add those provisions, and expand certain exceptions to the scope of those provisions regulating commerce of imitation firearms.

Existing law, subject to exceptions, makes it an offense to draw or exhibit an imitation firearm in a threatening manner, as specified.

This bill would expand the definition of imitation firearm for purposes of that crime.

By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

This bill would provide that, subject to exceptions, any person who alters a device that is not an imitation firearm with the result that the device appears more like a firearm, as specified, is punishable as a misdemeanor.

By creating a new crime, this bill would impose a state-mandated local program.

This bill would provide that any manufacturer, importer, or distributor of imitation firearms that fails to comply with any applicable federal law or regulation governing the marking of a toy, look-alike or imitation firearm as defined by federal law or regulation is punishable as a misdemeanor.

By creating a new crime, this bill would impose a state-mandated local program.

This bill would require an advisory label for imitation firearms, as specified. The bill would provide that failure to provide the advisory would make a manufacturer, importer, or distributor liable for a civil fine, as specified.

This bill would, subject to exceptions, make it an offense to openly display or expose any imitation firearm in a public place.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 608 (SB 1159) Vasconcellos. Hypodermic needles and syringes.

(1) Existing law regulates the sale, possession, and disposal of hypodermic needles and syringes. Under existing law, a prescription is required to purchase a hypodermic needle or syringe for human use, except to administer adrenaline or insulin.

This bill, subject to authorization by a county or city, would authorize a licensed pharmacist, until December 31, 2010, to sell or furnish 10 or fewer hypodermic needles or syringes to a person for human use without a prescription if the pharmacy is registered with a local health department in the Disease Prevention Demonstration Project, which would be created by the bill to evaluate the long-term desirability of allowing licensed pharmacies to sell or furnish nonprescription hypodermic needles or syringes to prevent the spread of blood-borne pathogens, including HIV and hepatitis C.

The bill would require a pharmacy that participates in the Disease and Demonstration Project pursuant to county or city authorization to comply with specified requirements, including registering with the local health department. The bill would require the State Department of Health Services, in conjunction with an advisory panel, to evaluate the effects of allowing the sale of hypodermic needles or syringes without prescription, and would require a report to be submitted to the Governor and the Legislature by January 15, 2010. The bill would encourage the State Department of Health Services to seek funding from private and federal sources to pay for the evaluation. The bill would impose various other duties on local health departments, thereby imposing a state-mandated local program. The demonstration program would terminate on December 31, 2010.

Alternatively, the bill would also authorize the sale or furnishing of hypodermic needles or syringes to a person for human use without a prescription if the person is known to the furnisher and has previously provided the furnisher with a prescription or other proof of a legitimate medical need.

The bill would make it unlawful to discard or dispose of a hypodermic needle or syringe upon the grounds of a playground, beach, park, or any public or private elementary, vocational, junior high, or high school. The bill would make a knowing violation of this prohibition a crime, thereby imposing a state-mandated local program.

(2) Existing law requires a pharmacist to keep detailed records of nonprescription sales of hypodermic needles and syringes.

This bill would delete that requirement.

(3) Existing law prohibits the possession and sale of drug paraphernalia.

This bill, until December 31, 2010, subject to authorization by a county or city, would allow a person to possess 10 or fewer hypodermic needles or syringes if acquired through an authorized source.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(5) This bill would make the operation of its provisions contingent upon the enactment of SB 1362.

#### Ch. 609 (SB 1385) Burton. Battering and its effects.

Existing law permits the admission in criminal actions of expert testimony regarding battered women's syndrome, including testimony on the nature and effect of physical, emotional, or mental abuse on the beliefs, perceptions, or behavior of victims of domestic violence, as specified. Existing law defines terms for purposes of this law and provides that these provisions shall be known and may be cited as the Expert Witness Testimony on Battered Women's Experiences Section of the Evidence Code.

This bill would instead make these provisions known and citable as the Expert Witness Testimony on Intimate Partner Battering and Its Effects Section of the Evidence Code, and would change all references to "Battered Women's Syndrome" in that section to read "intimate partner battering and its effects." It would also clarify the definition of "domestic violence" as used in this provision. This bill would also indicate that its amendments of these provisions are not intended to impact existing decisional law, as specified.

Existing law, operative until January 1, 2010, includes among the circumstances under which a writ of habeas corpus may be prosecuted to inquire into the cause of a person's imprisonment the fact that evidence relating to battered women's syndrome, based on abuse committed on the perpetrator of a homicide by the victim of the homicide, was not introduced at trial, as specified. Specifically, existing law authorizes this writ when the plea or the commencement of the homicide trial predated January 1, 1992, and, had the evidence of battered women's syndrome been introduced, there is a reasonable probability that the result of the proceedings would have been different.

The bill would provide that, instead of "evidence relating to battered women's syndrome," "expert testimony relating to intimate partner battering and its effects" would be the basis for this writ. Furthermore, this bill would permit the writ to be prosecuted concerning convictions for any violent felony offenses that were committed before August 29, 1996, as to which expert testimony admissible pursuant to Section 1107 of the Evidence Code may be probative on the issue of culpability. It would also provide this writ authority for the absence of expert testimony relating to intimate partner battering at any trial court proceedings relating to the prisoner's incarceration rather than only at the trial itself.

Existing law makes it grounds for denial of a new petition that a court determined on the merits of a prior petition for a writ of habeas corpus that the omission of evidence relating to battered women's syndrome at trial was not prejudicial and did not entitle the petitioner to the writ of habeas corpus.

This bill would instead permit this denial if the court found that the omission of expert testimony relating to battered women's syndrome or intimate partner battering and its effects at trial was not prejudicial and did not entitle the petitioner to the writ of habeas corpus. This

bill would also state that its changes to the writ provisions are not intended to expand the uses or applicability of expert testimony on battering and its effects in criminal cases.

Ch. 610 (AB 2115) Committee on Budget. Local government finance.

(1) The Marks-Roos Local Bond Pooling Act of 1985 generally authorizes a joint exercise of powers authority to issue bonds to assist local agencies in financing public capital improvements, working capital, liability or other insurance needs, or projects, subject to specified conditions. Existing law requires that such an authority consist of at least 100 local agencies if the authority issues bonds for which VLF receivables, as defined, are pledged to the payment of the bonds.

This bill would specify that this requirement does not apply to an authority that so pledges VLF receivables for a county of the first class.

(2) The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state. Beginning with the 2004–05 fiscal year and for each fiscal year thereafter, existing law requires that each city, county, and city and county receive a vehicle license fee adjustment amount (VLFAA), as defined, from a Vehicle License Fee Property Tax Compensation Fund that exists in each county treasury. Existing law requires that the VLFAA of the County of Orange be reduced by specified amounts allocated to that county under the VLF Law for the service of indebtedness, as provided. Existing law reduces, for the 2004–05 and 2005–06 fiscal years, the VLFAA of a city or a city and county by an amount determined pursuant to a formula that is based upon the amount of vehicle license fee money, local sales and use tax revenues, and ad valorem property tax revenues allocated to the city or city and county for the 2002–03 fiscal year. Existing law also pledges, to the service of specified debt instruments, moneys to which the County of Orange may be entitled under the VLF Law.

This bill would delete the requirement that the VLFAA of the County of Orange be reduced, and would instead allocate a specified amount of the revenues derived under the VLF Law to that county for the service of indebtedness and other uses. This bill would also pledge to those specified debt instruments moneys to which the County of Orange may be entitled from a Vehicle License Fee Property Tax Compensation Fund. This bill would require that the VLFAA of a city and county be reduced by an amount determined pursuant to a formula that is based solely upon the amount of vehicle license fee money allocated to the city and county for the 2002–03 fiscal year, as specified.

(3) Existing law requires a redevelopment agency to make specified payments in specified fiscal years to taxing entities, and requires that these payments be allocated among these entities in proportion to the percentage share of property tax revenues received by these entities in these fiscal years.

This bill would require that these percentage shares be determined without regard to certain property tax revenue allocations and property tax revenue allocation reductions required by specified statutes.

(4) Existing law requires a redevelopment agency, for the 2004–05 and 2005–06 fiscal years, to make certain payments to county Educational Revenue Augmentation Funds (ERAFs). Existing law provides that the amount of these payments be based upon certain calculations made by the Director of Finance based upon a specified Controller's report for the 2002–03 fiscal year.

This bill would instead provide that the director's calculations be based upon the most recent version of this Controller's report. This bill would also authorize a county redevelopment agency to enter into a loan agreement with the county to have the agency remit amounts in excess of its required payment to the county ERAF, if certain conditions are met. This bill would also authorize any redevelopment agency, if certain conditions are met, to enter into an agreement with an authorized issuer, as defined, to loan the agency moneys to make the required payment to the county ERAF.

(5) Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing law requires the auditor to reduce, for the 2004–05 and 2005–06 fiscal year, the total amount of property tax revenue that is otherwise required to be allocated to an enterprise or a nonenterprise special district, as defined, by an amount calculated by the Controller pursuant to a specified formula based, in certain instances, upon the 2000–01 edition of a specified report issued by the Controller. For a nonenterprise special district, existing law requires that this reduction equal 10% of a specified portion of these revenues for each of those fiscal years.

This bill would revise and recast these provisions to ensure that the total reduction for all special districts equals \$350,000,000 for each of those fiscal years and would make conforming changes to related provisions. This bill would reduce, for the 2004–05 and 2005–06 fiscal years, the total amount of ad valorem property tax revenue allocated to the Laguna Niguel Community Service District by a specified amount and, if a certain condition is met, by an additional amount for each of the 2006–07 and 2007–08 fiscal years, as provided. This bill would also specify that “nonenterprise special district” does not include certain mosquito abatement districts formed pursuant to a specified statute. By changing the manner in which county auditors allocate property tax revenues, this bill would impose a state-mandated local program.

(6) The Bradley-Burns Uniform Local Sales and Use Tax Law (Bradley-Burns Law) authorizes a county that adopts a specified ordinance to impose a local sales and use tax at a rate of 1.25%, and similarly authorizes a city, located within a county imposing such a tax rate, to impose a local sales and use tax rate of up to 1% that is credited against the county rate. Beginning July 1, 2004, and continuing through the revenue exchange period, as defined, existing law temporarily suspends the authority of a county or a city to impose a tax under the Bradley-Burns Law by requiring a county or a city imposing a sales and use tax under that law to impose that tax at the rate that was specified in the local ordinance as of January 1, 2004, reduced by 0.25%.

This bill would instead require that, during the revenue exchange period, a county imposing a sales and use tax under that law impose that tax at a rate of 1% and require an imposing city to impose that tax at a rate of 0.75% or less.

(7) Existing law requires the Controller, on August 15, 2006, to transfer moneys from the state General Fund to the Gap Repayment Fund (GRF) in an amount equal to an amount that was not allocated to cities, counties, and cities and counties as a result of a specified provision of the Budget Act of 2003. Existing law requires that moneys in the GRF be allocated among cities, counties, and cities and counties based upon the relative population of these entities.

This bill would instead require that moneys in the GRF be allocated among cities, counties, and cities and counties based upon the amount that was not allocated to each of these entities as a result of the specified provision of the Budget Act of 2003.

(8) This bill would also state legislative findings and declarations that the bill is an interim statute, and that its operation be suspended if Proposition 65 is approved by the voters at the November 2, 2004, statewide general election and becomes operative. This bill would also state the Legislature's intent in enacting this and another previous bill.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(10) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 611 (SB 509) Figueroa. State Highway Route 238.

Existing law authorizes a city or county in which a planned state transportation facility was to be located on State Highway Route 238 in Alameda County to develop and file with the California Transportation Commission a local alternative transportation improvement program to resolve local transportation problems resulting from the infeasibility of the planned state transportation facility, and provides for the use of revenues from the sales of excess properties acquired for the planned state facility to fund the local alternative. Existing law prohibits the commission from approving a local alternative transportation improvement program submitted to the commission after January 1, 1988.

This bill would instead authorize the commission to approve a local alternative transportation improvement program for the State Highway Route 238 corridor submitted on or before July 1, 2010. The bill would delete provisions directing the commission to authorize the sale of excess properties at prevailing fair market prices, and would make other related changes.

Ch. 612 (SB 1155) Machado. Water quality standards: Sacramento-San Joaquin Delta.

Under existing law, the Department of Water Resources operates the State Water Project, which includes state water facilities, as defined. Under existing law, the State Water Resources Control Board administers a water rights program pursuant to which the state board grants permits and licenses to appropriate water.

The bill would require the Director of Water Resources, in collaboration with the Secretary of Interior or his or her designee, and on or before January 1, 2006, to prepare a plan to meet the existing permit and license conditions for which the department has an obligation, as described in a specified decision adopted by the state board. The bill would require the director to prepare the plan, and submit copies of the plan to the state board and California Bay-Delta Authority, prior to increasing the existing permitted diversion rate at a specified pumping plant.

Ch. 613 (SB 1201) Torlakson. Electrical restructuring: BART.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations. The Public Utilities Act requires the commission to authorize direct transactions between electricity suppliers and retail end-use customers. However, other existing law suspends the right of retail end-use customers to acquire service from certain electricity suppliers after a period of time to be determined by the commission until the Department of Water Resources no longer supplies electricity under that law. Existing law authorizes the San Francisco Bay Area Rapid Transit District's (BART) system to elect to obtain electricity from multiple sources, including (1) preference power purchased from a federal power marketing agency or its successor, (2) electricity supplied by one or more direct transactions, and (3) electricity supplied by any electric utility regulated by the commission that owns and operates transmission and distribution facilities that deliver electricity at one or more locations to the BART District's system. Existing law requires any electrical corporation that owns and operates transmission and distribution facilities that deliver electricity to BART, upon request by BART, to deliver preference power purchased from a federal power marketing agency or its successor, without discrimination or delay.

This bill would additionally require any electrical corporation that owns and operates transmission and distribution facilities that deliver electricity to BART, upon request by

BART, to deliver electricity purchased from a local publicly owned electric utility, as defined, without discrimination or delay.

Under existing law, a violation of the Public Utilities Act is a crime.

Certain provisions of the bill would be a part of the act. Because a violation of those provisions would be a crime, the bill would impose a state-mandated local program by creating a new crime.

The bill would declare that, due to the special circumstances applicable only to the BART District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 614 (SB 1214) Kuehl. Salton Sea Restoration: restoration study.

(1) Existing law enacts the Salton Sea Restoration Act. Existing law requires the Secretary of the Resources Agency, in consultation with the Department of Fish and Game, the Department of Water Resources, the Salton Sea Authority, appropriate air quality districts, and the Salton Sea Advisory Committee, to undertake a restoration study to determine a preferred alternative for the restoration of the Salton Sea ecosystem. Existing law requires that the study establish an evaluation of, and suggested criteria for, a selection of alternatives that will allow for consideration of a range of alternatives, including, but not limited to, an alternative designed to sustain avian biodiversity at the Salton Sea, but not maintain elevation for the whole sea, an alternative to maintain salinity at or below current conditions and elevation near 230 feet below mean sea level under a variety of inflow conditions, and a most cost-effective technical alternative. The bill would require the Secretary of the Resources Agency to extend an invitation to the United States Geological Survey Salton Sea Science Office to participate in the restoration study.

This bill would recast the required evaluation to require that the study establish an evaluation of alternatives for the restoration of the Salton Sea that includes consideration of strategies for salinity control, habitation creation and restoration, and different shoreline elevations and surface area configurations. The bill would require the evaluation to include suggested criteria for selecting and evaluating alternatives consistent with the Salton Sea Restoration Act and would require the evaluation to include, but not be limited to, at least one most cost-effective, technically feasible, alternative.

(2) Existing law requires the Secretary of the Resources Agency to establish an advisory committee for the purposes of the restoration study, and requires that committee to be selected to provide balanced representation of the interests of specified governmental and user groups.

This bill would require that the restoration study advisory committee to be selected additionally provide representation of the interests of geothermal energy development.

This bill would impose various requirements related to the organization, conduct of meetings, and responsibilities of the advisory committee.

The bill would require the Resources Agency to periodically provide an update to the advisory committee of the current work plan and schedule for the development of the restoration plan.

The bill would also require the Resources Agency to undertake the necessary activities to assess the protection of recreational opportunities, and the creation of opportunities for improved local economic conditions, surrounding the Salton Sea, except as specified.

(3) Existing law declares the intent of the Legislature that the State of California undertake the restoration of the Salton Sea ecosystem and the permanent protection of the wildlife

dependent on that ecosystem based on the preferred alternative developed as a result of, among other things, the restoration study, and that the preferred alternative from that restoration study provide the maximum feasible attainment of various specified objectives.

This bill would additionally declare the intent of the Legislature that the restoration plan include, to the extent consistent with fish and wildlife restoration objectives, the protection of recreational opportunities and the creation of opportunities for improved local economic conditions.

The bill would, for the purposes of the restoration plan, define the Salton Sea ecosystem to include, but not be limited to, the Salton Sea, the agricultural lands surrounding that sea, and the tributaries and drains within the Imperial and Coachella Valleys that deliver water to the Salton Sea.

(4) Existing law establishes the Salton Sea Restoration Fund, and makes the moneys in the fund available, upon appropriation by the Legislature, for environmental and engineering studies related to the restoration of the Salton Sea, implementation of conservation measures necessary for the fish and wildlife dependent upon it, implementation of the preferred Salton Sea restoration alternative, and administrative, technical, and public outreach costs related to the restoration alternative.

This bill would prohibit the moneys in the fund from being expended for mitigation except mitigation undertaken by the State of California.

#### Ch. 615 (SB 1233) Committee on Transportation. Transportation.

(1) Existing law requires every lease contract for a motor vehicle to contain specified disclosures, including a disclosure that enumerates the capitalized cost of specified items.

This bill would make technical changes to these provisions.

(2) Existing law provides for land use planning relating to airports.

This bill would make technical, nonsubstantive changes in existing law relating to airport land use planning.

(3) Existing law provides for the funding of public transit.

This bill would include the San Joaquin Regional Rail Commission and any successor entity to the Altamont Commuter Express Authority within the scheme in existing law for the funding of public transit. The bill would also make other technical nonsubstantive changes in existing law relating to public transit administration.

(4) Existing law prohibits the Department of Transportation from acquiring, except by gift, and except in hardship or protective cases as determined by the department or the California Transportation Commission, any real property for a freeway through a city until an agreement is first executed with the city council, or for a freeway through unincorporated territory in a county until an agreement is first executed with the board of supervisors, except that a city council may authorize the purchase of rights-of-way prior to approval of an agreement if the purchase is limited to the mainline corridor of the proposed freeway and the alignment of the freeway is not at issue.

This bill would extend the exception specified above to a county board of supervisors.

(5) Existing law authorizes a city or county to adopt a golf cart transportation plan. The transportation plan is prohibited from including the use of any state highway, or any portion thereof.

This bill would authorize the plan to include the use of a state highway or portion thereof if that use is authorized by the Department of Transportation and the law enforcement agency having primary traffic enforcement responsibility of that highway or portion thereof, as specified.

(6) Existing law authorizes a local authority to prohibit or restrict, by ordinance or resolution, the use of a freeway under its jurisdiction, or any portion thereof, by pedestrians, bicycles, or other nonmotorized traffic, or by any person operating a motor-driven cycle, motorized bicycle, or motorized scooter.

This bill would extend to expressways, as defined, the authority to prohibit or restrict access, as specified.

The bill would authorize a county, if any portion of a county freeway or expressway is contained within the limits of a city within the county, to erect signs on that portion, as specified.

The bill would prohibit, on and after January 1, 2005, an ordinance adopted by a county to prohibit or restrict pedestrian use of a portion of county freeway or expressway contained within the limits of a city from becoming operative until approved by the city.

To the extent that these provisions would impose new requirements upon local authorities, the bill would establish a state-mandated local program.

(7) Existing law specifies the personnel within the Department of Motor Vehicles who have peace officer powers for the purpose of enforcing those provisions of law committed to the administration of the department or enforcing the law on premises occupied by the department, including the Deputy Director, Investigations Division.

This bill would correct a reference from Deputy Director, Investigations and Audits Division to Deputy Director, Investigations Division.

(8) Existing law requires the department to provide a report to the Legislature by January 10, on an annual basis, that includes certain information relating to the department's private industry partner program, gathered during the calendar year immediately preceding the report date.

This bill would change the date of the report to October 1 of each year and would require the report to relate to information gathered during the fiscal year immediately preceding the report date.

(9) Existing law authorizes the Department of Motor Vehicles to establish contracts for electronic programs that allow qualified private industry partners to join the department in providing services that include processing and payment programs for vehicle registration and titling transactions.

This bill would authorize, until January 1, 2010, a motor carrier association that represents both intrastate and interstate motor carriers to submit an application to the department to become a private industry partner, as specified, for the purpose of providing registration services to the members of the association. The bill would authorize the department to enter into a private industry partnership with a motor carrier association, if the association meets certain requirements. The bill would require the department to submit a report to the Legislature not later than July 1, 2008, relating to this specific partnership program.

(10) Existing law requires the Department of Motor Vehicles, in consultation with the Department of the California Highway Patrol, to design and make available a set of distinctive weight decals that reflect the declared gross combined weight or gross operating weight reported to the Department of Motor Vehicles at the time of initial registration, registration renewal, or when a weight change is reported to the department, as specified. Existing law requires that a new decal be issued on each renewal or when the weight of the vehicle is changed, as specified.

This bill would require the Department of Motor Vehicles, in consultation with the Department of the California Highway Patrol, to distinguish the weight decals issued to permanent fleet registration vehicles, as specified, from those issued to other vehicles. The bill would require the Department of Motor Vehicles to issue the distinguishable weight decals only (a) to a permanent fleet registration vehicle that is registered with the department on January 1, 2005; (b) on and after January 1, 2005, to a vehicle for which the department has an application for initial registration as a permanent fleet registration vehicle; and (c) on and after January 1, 2005, to a permanent fleet registration vehicle that has a weight change, as specified. The bill would require the distinguishable weight decal to comply with specified applicable provisions of existing law relating to weight decals.

(11) Existing law prohibits the removal of the name of a traffic violator school from specified student referral lists if the school's license has not been suspended or revoked, unless the school owner is provided a notice.

This bill would prohibit the above name from being removed from any part of a list unless the school owner is first provided a notice.

(12) Existing law requires the Department of Motor Vehicles to deny or revoke a schoolbus, school pupil activity bus, general public paratransit vehicle, or youth bus driver certificate, or a certificate for a vehicle used for the transportation of developmentally disabled persons, if the applicant or certificate holder has been convicted of certain crimes, among other things.

This bill, additionally, would authorize the certificate to be denied or revoked if the applicant or certificate holder has been convicted of any of certain listed violent felonies or certain listed serious felonies. The bill would prohibit this provision from being applied to revoke a license that was valid on January 1, 2005, unless the certificate holder is convicted for an offense that is committed on or after that date.

(13) Existing law authorizes a vehicle to be equipped with not more than two red fog taillamps mounted on the rear of the vehicle. If only one red fog lamp is installed, it is required to be mounted as close as practical to the left side of the vehicle.

This bill, additionally, would authorize the red fog lamp to be installed in the center of the rear of the vehicle.

(14) Existing law prohibits a person from driving a motor vehicle if a television receiver, a video monitor, or a television or video screen, or any other, similar means of visually displaying a television broadcast or video signal that produces entertainment or business applications, is operating and is located in the motor vehicle at any point forward of the back of the driver's seat, or is operating and visible to the driver while driving the motor vehicle, with certain exceptions.

This bill would add to the exceptions to the prohibition in existing law a mobile digital terminal installed in a vehicle owned or operated by an electrical corporation, as defined, a local publicly owned electric utility, as defined, a gas corporation, as defined, or a telephone corporation, as defined, if the terminal is fitted with an opaque covering that does not allow the driver to view the display while driving, or when the vehicle is deployed in an emergency to respond to an interruption or impending interruption of electrical, natural gas, or telephone service.

(15) Existing law prohibits a combination of vehicles coupled together, including any attachments, from exceeding a total length of 65 feet while operated on the highways, except as specified.

Existing law exempts from that length limitation a tow truck in combination with a disabled vehicle, an abandoned vehicle, or a disabled or abandoned combination of vehicles authorized to travel on the highways, when operating under a valid annual transportation permit and within a 100-mile radius of the location specified in the permit. A tow truck in combination with the specified vehicles is authorized to exceed the 100-mile radius restriction if a single trip permit is obtained from the Department of Transportation.

This bill would instead exempt a tow truck from that length limitation when the tow truck is operating under a valid annual transportation permit and is operated in combination with a single disabled or abandoned vehicle.

(16) This bill would delete or modify various obsolete provisions and references in existing law relating to vehicles. The bill would make various technical changes in existing law relating to vehicles.

(17) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 616 (SB 1280) Ortiz. Flood damage reduction: American River watershed.

Existing law provides for state cooperation with the federal government in the construction of specified flood control projects.

This bill would authorize the project for flood damage reduction and environmental restoration in the American River watershed in Sacramento County in accordance with Congressional approval and a specified final report, as authorized by a prescribed federal act, at an estimated cost to the state of the sum that may be appropriated for state cooperation by statute, upon the recommendation and advice of the Department of Water Resources or the Reclamation Board. The bill would require the Sacramento Area Flood Control Agency to enter into an agreement with the department pursuant to which the agency agrees to indemnify and hold and save harmless the state, its officers, agents, and employees for any and all liability for damages that may arise out of the planning, design, construction, operation, maintenance, repair, and rehabilitation of the project.

Ch. 617 (SB 1506) Murray. Internet piracy.

Existing federal law, through copyright, provides authors of original works of authorship, as defined, with certain rights and protections. Existing federal law generally gives the owner of the copyright the right to reproduce the work in copies or phonorecords and the right to distribute copies or phonorecords of the work to the public. Existing federal law limits the liability of an Internet service provider for copyright infringement for transmitting material under specified conditions. Existing law also provides for the forfeiture and destruction of articles upon which sounds or images can be stored, and electronic and other devices used in reproducing those articles, in connection with a violation of provisions prohibiting misappropriation of recorded music, sounds of a live performance, or an audiovisual works, as specified.

This bill would provide that it is a crime, punishable by a fine not exceeding \$2,500, imprisonment in a county jail for a period not exceeding one year, or by both that fine and imprisonment for a person who is located in California, who knows that a particular recording or audiovisual work is commercial, to knowingly electronically disseminate all or substantially all of that commercial recording or audiovisual work to more than 10 other people without disclosing his or her e-mail address, and the title of the recording or audiovisual work. This bill would provide that a minor who violates these provisions is punishable by a fine not exceeding \$250 for a first or 2nd offense and by a fine not exceeding \$1,000, imprisonment in a county jail, or by both that fine and imprisonment for a 3rd or subsequent violation. This bill would define electronic dissemination as initiating a transmission of, making available, or otherwise offering a commercial recording or audiovisual work for distribution on the Internet or other digital network, as specified. This bill would provide that these provisions would not apply to a person who electronically disseminates a commercial recording to his or her immediate family or within his or her personal network, as defined, to a situation in which the copyright owner has explicitly given permission for or licensed the recording or audiovisual work to be freely disseminated, electronically disseminated, or disseminated by means of a cable television service. This bill would also provide that an Internet service provider does not violate or aid and abet a violation of these provisions, as specified. This bill would also provide that a court shall order the deletion or destruction of any electronic file containing a commercial recording or audiovisual work, the dissemination of which was the basis of the violation.

Because this bill would create a new crime, it would impose a state-mandated local program.

This bill would provide that its provisions would become inoperative on January 1, 2010, unless a later enacted statute deletes or extends that date.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 618 (SB 1568) Sher. San Francisco Bay Conservation and Development Commission.

(1) Existing law requires any person who intends to offer subdivided lands within California for sale or lease to file with the Department of Real Estate an application for a public report consisting of a notice of intention and a completed questionnaire that includes, among other things, a statement that there is an airport in the vicinity, and that this may affect the use of the property. Existing law requires that a copy of the public report of the Real Estate Commissioner, when issued, be given to the prospective purchaser by the owner, subdivider, or agent prior to the execution of a binding contract or agreement for the sale or lease of any lot or parcel in a subdivision or upon request by any member of the public.

This bill would require, on or after July 1, 2005, the notice of intention filed with the application for a public report, to include a statement regarding whether the property is within the jurisdiction of the San Francisco Bay Conservation and Development Commission, and to provide a specified notice.

(2) Existing law limits the liability of a transferor for failing to disclose natural hazards in specified property transactions if the transferor obtains a report or opinion prepared by a licensed engineer, land surveyor, geologist, or expert in natural hazard discovery dealing with matters within the scope of the professional's license or expertise. Existing law conditions this limitation in specified ways, including the requirement that when an expert in natural hazard disclosure responds to a request regarding natural hazards, that the expert also determine whether the property is within an airport influence zone and, if so, provide a specified notice with his or her report.

This bill would condition the limitation on liability described above by requiring an expert in natural hazard disclosure, when responding to a request regarding natural hazards, to also determine whether the property is within the jurisdiction of the San Francisco Bay Conservation and Development Commission and to provide a specified notice.

(3) The Davis-Stirling Common Interest Development Act regulates common interest developments and defines the declarations and other governing documents that govern the operation of common interest developments and the associations that manage common interest developments. A declaration is required to contain specified information. Existing law provides that an owner of a separate interest in a common interest development must provide certain items to a prospective purchaser prior to transfer of title, including, among other things, a copy of the governing documents of the common interest development.

This bill would require that any declaration recorded on or after January 1, 2006, contain a statement regarding whether the property is within the jurisdiction of the San Francisco Bay Conservation and Development Commission, and provide a specified notice.

(4) Existing law establishes the area of jurisdiction of the San Francisco Bay Conservation and Development Commission.

This bill would provide that fees collected by the commission pursuant to conditions imposed on permit applicants to mitigate the adverse impacts of permitted development, and any funds paid into the Bay Fill Clean-up and Abatement Fund, may be transferred to a specific subaccount of the San Francisco Bay Area Conservancy Program Account or to a similar account, with the concurrence of the conservancy, to be expended by the conservancy to mitigate the adverse impacts of development for which the commission issued the permit.

(5) Existing law requires a person or governmental agency to secure a permit from the commission if the person or agency wishes to place fill in, to extract materials from, or to

make any substantial change in use of, any water, land, or structure within the area of the commission's jurisdiction.

Existing law authorizes the commission, and its executive director, to issue cease and desist orders in connection with activities that may require a permit or may be inconsistent with a permit, as specified. Existing law requires copies of the cease and desist order to be mailed to specified persons and agencies.

This bill would also require a copy of the cease and desist order to be sent by certified mail to the owner of the property on which the violation occurred.

(6) Existing law requires the Attorney General, upon request of the commission, to petition the superior court for an injunction, as specified, if a person fails to comply with a cease and desist order issued by the commission.
