This bill would also require the Attorney General, upon request of the commission, to petition the superior court for an injunction, if a person fails to comply with a permit, a cease and desist order issued by the executive director, or other specified requirements.

(7) Existing law imposes civil penalties in specified amounts for violations of provisions relating to San Francisco Bay conservation and development.

This bill would increase the amounts for those penalties and would impose civil penalties for negligent violations.

#### Ch. 619 (SB 1749) Karnette. Plastic bags: labeling.

The existing California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated waste management program. The act requires every manufacturer that manufactures plastic trash bags of a specified thickness to ensure that a trash bag intended for sale in this state contains a quantity of recycled plastic postconsumer material equal to at least 10% of the weight of the bag, or that at least 30% of the weight of the material used in all of the manufacturer's plastic products intended for sale in this state is recycled plastic postconsumer material.

This bill would prohibit a person from selling a plastic bag that is labeled as "biodegradable," "compostable," "degradable," or as otherwise specified, unless, at the time of the sale, the plastic bag meets a current ASTM standard specification for the term used on the label.

The bill would require a manufacturer or supplier, as defined, upon the request of a member of the public, to submit to that member, within 90 days of the request, information and documentation demonstrating compliance with the bill.

#### Ch. 620 (AB 466) Steinberg. Sacramento Regional Transit District.

Existing law, the Sacramento Regional Transit District Act, establishes the Sacramento Regional Transit District that is governed by a board of directors. Existing law establishes requirements for membership and appointment to the board, and requires that not less than 7 members and not more than 11 members serve on the board. The act describes the authorized boundaries of the district and cities that may be annexed to the district.

This bill would delete the 11 member maximum. The bill would authorize a jurisdiction, as defined, to appoint members to the board, and would impose certain requirements on a jurisdiction appointee's voting rights. The bill would identify West Sacramento as an additional city that may be annexed to the district.

The bill would define certain terms for purposes of the act and make other related changes.

#### Ch. 621 (AB 578) Leno. County recorders: electronic recording.

(1) Existing law generally specifies that the recorder of any county may, in lieu of a written paper, accept for recording a digitized image of a recordable instrument, subject to specified conditions.

This bill would enact the Electronic Recording Delivery Act of 2004, to authorize a county recorder, upon approval by resolution of the board of supervisors and system certification

by the Attorney General, to establish an electronic recording delivery system for the delivery for recording of specified digitized and digital electronic records, subject to specified conditions, including system certification, regulation, and oversight by the Attorney General. It would authorize a county recorder to include in its electronic recording delivery system a secure method for accepting for recording a digital or digitized electronic record that is an instrument of reconveyance, substitution of trustee, or assignment of deed of trust, subject to specified conditions. It would require participating counties to pay for the direct cost of regulation and oversight by the Attorney General, and authorize those counties to impose fees to cover those costs. It would authorize the Attorney General to charge a fee directly to a vendor seeking approval of software and other services as part of an electronic recording delivery system. Fees paid to the Attorney General under these provisions would be deposited in the Electronic Recording Authorization Account, which would be created in the Special Deposit Fund and continuously appropriated to the Attorney General for these purposes.

This bill would authorize the Attorney General or a district attorney or city prosecutor to seek specified civil remedies.

The Attorney General would be required to evaluate the electronic recording delivery systems, and report to both houses of the Legislature on or before June 30, 2009.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 622 (SB 1176) Dunn. Mobilehome parks.

(1) The Mobilehome Residency Law prescribes procedures for amendment of park rules.

This bill would prescribe additional procedures for an amendment of park rules mandated by a change in law.

(2) Existing regulations of the Department of Housing and Community Development prescribe criteria for mobilehome and cabana roof load capacity.

This bill, until January 1, 2007, would, notwithstanding those regulations, prescribe criteria for the installation of homes that do not have a specified load resistance.

(3) The Mobilehome Parks Act requires certain local enforcement agencies to enter and inspect all mobilehome parks once every 7 years, as specified. The act requires the local enforcement agency to issue a notice to correct any violation of the act. For violations other than imminent threats to health and safety, the act requires the notice to allow 90 days for correcting the alleged violation and authorizes extensions for a reasonable time period for specified reasons.

This bill would require the notice to instead allow 60 days for correcting the alleged violation and would authorize an extension of 30 days or an additional reasonable time period after the 60 days. By increasing the duties of local officials, this bill would impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 623 (AB 890) Levine. Political Reform Act of 1974: late contributions.

The Political Reform Act of 1974 defines a late contribution as a contribution including a loan that aggregates \$1,000 or more to a candidate or a committee, as specified, before the election at which the candidate or measure is to be voted on but after the closing date of the last campaign statement required to be filed before the election.

This bill would, in addition, include within that definition a contribution including a loan that aggregates \$1,000 or more to a political party committee, before the date of a state election, but after the closing date of the last campaign statement required to be filed before the election.

Existing law defines a “state general purpose committee” as a committee to support or oppose candidates or measures voted on in a state election, or in more than one county. It requires these committees to file applicable periodic campaign statements with the office of the Secretary of State, among other offices.

This bill would include a political party committee within the definition of a state general purpose committee, and would thereby require these committees to file applicable periodic campaign statements with the office of the Secretary of State.

Existing law requires a state general purpose committee formed pursuant to a specified provision of law to file specified preelection campaign statements if it makes contributions or independent expenditures in a statewide direct primary election totaling \$500 or more during the period covered by the preelection statement.

This bill would require a political party committee to file the applicable preelection campaign statements in connection with a state election if it receives contributions totaling \$1,000 or more, or makes contributions or independent expenditures totaling \$500 or more during the period covered by the preelection statement. It would make related changes.

Existing law makes a violation of the act subject to administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate the provisions of this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act’s purposes with a  $\frac{2}{3}$  vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a  $\frac{2}{3}$  vote.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 624 (AB 1068) Liu. Petroleum underground storage tanks: loans and grants.

Prior law, until January 1, 2004, required the Technology, Trade and Commerce Agency to conduct a program to make loans and grants to small businesses to undertake certain actions with respect to underground petroleum storage tanks. Under that law, funds in the Petroleum Underground Storage Tank Financing Account in the General Fund were continuously appropriated to the agency, without regard to fiscal year, for making these loans and grants.

This bill would establish the above-described program within the State Water Resources Control Board. The bill would also reestablish the Petroleum Underground Storage Tank Financing Account in the State Treasury, in which funds deposited in the account, upon appropriation by the Legislature, would be required to be used by the board for purposes of making these loans and grants. The bill would establish a subaccount within the account that upon appropriation in the annual Budget Act would be expended for administrative expenses for the program. The bill would transfer \$8,000,000 from the Underground Storage Tank Cleanup Fund to the Petroleum Underground Storage Tank Financing Account and that sum would be appropriated from that account to the board for expenditure for loans and grants as specified.

The bill would provide for the repeal of its provisions on January 1, 2011.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 625 (AB 1155) Liu. Conservators and guardians: educational requirements.

Existing law defines private professional conservators and private professional guardians and requires them to file specified information with the courts and to provide a specified declaration to a statewide registry. Existing law permits a person authorized by nonprofit, private entities to perform conservatorship functions to satisfy certain filing requirements a specified way. Existing law prohibits a court from appointing these guardians and conservators unless they are registered. A guardian or conservator who signs a declaration, as described above, that asserts the truth of any material matter which he or she knows to be false is guilty of a misdemeanor. Existing law establishes the Judicial Council and requires it to adopt rules relating to the administration of courts.

This bill would require the Judicial Council, on or before January 1, 2006, to adopt a rule of court that specifies the qualifications of private professional conservators and guardians, including certain educational requirements. The bill would require the Judicial Council to consult with specified parties in formulating the rule, and would permit the Judicial Council to include provisions waiving the requirements in cases of undue hardship. The bill would require private professional conservators and private professional guardians, other than persons who are appointed as a guardian of the person, as specified, to comply with these Judicial Council requirements, and would prohibit these guardians and conservators from registering with the Statewide Registry if they fail to fulfill these educational requirements. The bill would specify that a private professional conservator authorized by a nonprofit, private entity to perform conservatorship functions, as described above, is required to fulfill the educational requirements established by the Judicial Council for these conservators.

By changing the definition of a crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would incorporate additional changes in Section 2850 of the Probate Code proposed by SB 1248 that would become operative only if SB 1248 and this bill are both chaptered and become effective on or before January 1, 2005.

Ch. 626 (AB 1369) Pavley. Mercury-added thermostats.

(1) Existing law, the California Mercury Reduction Act of 2001, requires any mercury-containing vehicle light switch that is removed from a vehicle to be subject to the regulations adopted by the Department of Toxic Substances Control regarding the management of universal waste. Existing law prohibits any person, except as specified, from selling at retail or supplying a mercury fever thermometer to a consumer or patient in the state, except by a prescription. Existing law also prohibits any person from manufacturing, offering for sale or use, or distributing for promotional purposes in this state a mercury-added novelty. A violation of the hazardous waste control laws is a crime.

This bill would prohibit, on and after January 1, 2006, a person from selling, offering to sell, or distributing for promotional purposes, in this state, a mercury-added thermostat, as defined, unless the mercury-added thermostat meets specified criteria.

Since the requirements imposed by the bill would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 627 (AB 1394) Levine. Air pollution: Carl Moyer Memorial Air Quality Standards Attainment Program: particulate matter.

Existing law establishes the Carl Moyer Memorial Air Quality Standards Attainment Program, administered by the State Air Resources Board. Under the program, the state board is authorized to make grants for the purchase of low-emission, heavy-duty engines for vehicles, equipment, vessels, and locomotives in order to reduce emissions of oxides of nitrogen (NO<sub>x</sub>), and authorizes the administration of the program to be delegated to air pollution control districts and air quality management districts.

This bill would expand the Carl Moyer program to include heavy-duty fleet modernization projects that reduce emissions of NO<sub>x</sub> or particulate matter. The bill would make any project that replaces an old engine or vehicle with a new engine or vehicle that meets more stringent emission standards, or that provides the equivalent emission reductions of that replacement combined with the purchase of a specified new very low or zero-emission vehicle, a heavy-duty fleet modernization project eligible for funding under the program. The bill would also require the state board, at its first opportunity following January 1, 2005, to revise the existing grant criteria and guidelines to incorporate heavy-duty fleet modernization projects that reduce emissions of NO<sub>x</sub> or particulate matter, and would authorize those guidelines to define eligible costs to include monitoring and verifying compliance with the requirements of the bill.

Ch. 628 (AB 1504) Spitzer. Release of committed persons.

Existing law provides that in any case in which the victim or next of kin of the victim of an offense for which the person was committed to a state hospital or other treatment facility has filed a request for notice with the director of the state hospital or other treatment facility, he or she shall be notified by the director at the inception of any program in which the committed person would be allowed any type of day release unattended by the staff of the facility. If he or she has filed a request for notification with the court, he or she shall receive actual notice from the court before the committed person is placed on outpatient status. Existing law also requires that the director of a state hospital notify certain persons upon the release of a person who has been committed to a state hospital.

This bill would require the prosecutor to notify the victim or next of kin of the victim of the hearing date and pending release of the person.

By imposing additional duties on local prosecutors, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 629 (AB 1776) Committee on Banking and Finance. Foreign corporations and financial institutions: production of records.

(1) Existing law prohibits a foreign corporation from transacting intrastate business without first obtaining a certificate of qualification from the Secretary of State. To obtain that certificate, the foreign corporation must file a signed statement with specified information regarding the corporation, including the name of an agent who may be served with process within this state, and an irrevocable consent to service of process as specified. Existing law provides that this irrevocable consent applies to service of a search warrant issued pursuant to a specific provision for records or documents related to communications that are located outside of this state whether or not the foreign corporation is a party or a nonparty to the matter in which the search warrant is sought. The law authorizing a warrant for records and documents relating to communications has a provision defining proper service as delivery

by hand, or in a manner reasonably allowing for proof of delivery if delivered by United States mail, overnight delivery service, or facsimile to a corporate agent, as specified.

Existing law also provides for the production of records in response to other types of search warrants, and in response to subpoenas, and provides for a victim of identity theft to receive information concerning any applications or accounts in the victim's name on a specified showing.

This bill would specify that a foreign corporation's irrevocable consent to service of process includes service of search warrants in addition to those already specified for information concerning applications or accounts in the name of a victim of identity theft. This bill would also state that the irrevocable consent to service of process for all these specified means of gathering records extends to records located both inside and outside of the state.

In addition, this bill would explicitly permit the same means of serving a foreign corporation as are authorized in the provisions authorizing special communications warrants to apply to any search warrant for identity theft records.

(2) Existing law authorizes a financial institution to furnish a police or sheriff's department or district attorney a statement containing certain customer account information relative to a crime report that has been filed that involves the alleged fraudulent use of drafts, checks, or other orders drawn upon the financial institution.

This bill, with respect to a financial institution doing business in this state, would add similar provisions applicable to a situation in which the accountholder consents to the release of information.

(3) This bill would incorporate additional changes in Section 7480 of the Government Code proposed by AB 3094 that would become operative only if AB 3094 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

#### Ch. 630 (AB 1793) Yee. Video games: ratings.

Existing law defines harmful matter with reference to, among other things, its appeal to the prurient interest and its depiction of sexual conduct. Existing law requires any person who sells or rents video recordings of harmful matter to create an area within his or her business for the placement of these recordings and for any material that advertises the sale or rental of these recordings, except as specified, and imposes certain other requirements on retailers of these recordings. Existing law requires a video arcade, as defined, to post a sign that notifies consumers that a video arcade game rating system, created by the video arcade gaming industry, is available to aid in the selection of a game, and to make available a brochure explaining the ratings system.

This bill would require every video game retailer to post a sign providing information about a video game rating system or notifying consumers that a rating system is available to aid in the selection of a game, and to make available, upon request, information explaining the system.

#### Ch. 631 (AB 1896) Jerome Horton. Agricultural inspectors.

Existing law prohibits the Secretary of Food and Agriculture from entering into a cooperative agreement with a county of the first class unless, among other things, all agricultural inspector aides performing work under the cooperative agreement are afforded protections as permanent employees, as specified.

This bill would revise that requirement to require 33% of the aides to be afforded the same protections as permanent employees for the 2004–05 fiscal year and 66% for the 2005–06 and 2006–07 fiscal years.

The bill would appropriate \$380,000 from the General Fund to the Department of Food and Agriculture for the 2004–05 fiscal year for the agricultural plant and animal pest and disease prevention activities of Los Angeles County required by law.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 632 (AB 2820) Daucher. Adult day health care: administration.

(1) The existing California Adult Day Health Care Act provides for the implementation of adult day health care center oversight by the State Department of Health Services, and authorizes that department to enter into an interagency agreement with the California Department of Aging for the administration of that oversight. The act establishes a Long-Term Care Committee in the California Department of Aging and requires the committee to function as an advisory body to the California Department of Aging and to advise the Director of the California Department of Aging regarding development of, licensing of, Medi-Cal reimbursement for, and utilization control issues for, community-based long-term care programs.

This bill would abolish the Long-Term Care Committee.

(2) The act requires the department, subject to the availability of funds, to conduct a grants-in-aid program to assist in establishing new adult day health care centers and stabilizing or expanding the health care operations of specified licensed adult day health care centers. The act requires the department to give special consideration to an applicant in a rural area. The act requires that funds be awarded only after a specific review process of an applicant's grant proposal.

This bill would make changes to the review process and would change the definition of a rural service area.

(3) The act authorizes the department, subject to the appropriation of funds, to establish planning and development grants for public or private nonprofit applicants that request assistance in conducting feasibility and needs analysis for new adult day health care centers, and that meet other criteria.

This bill would eliminate the additional criteria.

(4) The act requires the director, when the director intends to seek the suspension or revocation of a license, to notify the licensee of the proposed suspension or revocation and, at the same time, serve the licensee with an accusation. Upon receipt of a notice of defense from the licensee, the act requires the director to set the matter for hearing within 5 days.

This bill would authorize the director to temporarily suspend a license prior to that hearing when he or she determines that the suspension is necessary to protect the health and safety of the participants. The bill would provide that the temporary suspension remain in effect until the hearing is completed and the director has made a final determination on the merits.

(5) Existing law requires an adult day health care provider to provide services for persons eligible to receive benefits under the Medi-Cal program only to those participants living within its service area, with exceptions.

This bill would eliminate that requirement.

(6) Existing law provides that initial Medi-Cal certification for adult day health care providers expires 12 months from the date of issuance, but authorizes an extension for a period of not more than 60 days. Prior to approving renewal of Medi-Cal certification, the act requires the department and the California Department of Aging to conduct a financial review and onsite medical and management reviews with the licensing review.

This bill would authorize certification extension for more than one period of not more than 60 days and, prior to renewing a Medi-Cal certification, would require only the California Department of Aging to conduct those reviews.

Ch. 633 (AB 1994) Berg. California Senior Legislature.

Existing law provides for the allocation of funds contributed to the California Fund for Senior Citizens and appropriated by the Legislature to the California Commission on Aging for allocation to the California Senior Legislature according to a specified formula, with the balance, if any, to the commission for senior citizens direct services programs through contracts with the California Department of Aging and Long-Term Care.

This bill would delete the formula and, instead, would provide for the direct allocation of those funds to the California Senior Legislature, and would provide that the allocated funds shall be spent pursuant to the purview of the Joint Rules Committee of the California Senior Legislature.

Existing law provides that the funds allocated for California Senior Legislature activities be spent no later than March 1, 1994. Existing law provides that the commission may accept gifts on behalf of the California Senior Legislature and requires the commission to implement law relating to the California Senior Legislature pursuant to an agreement entered into with the California Senior Legislature.

This bill would repeal those provisions.

Existing law establishes 2-year terms for members of the California Senior Legislature, and specifies the authority of the California Senior Legislature to define its program and utilize its funds in any way necessary to carry out its duties.

This bill would change the term to a 4-year term for members elected or appointed on and after January 1, 2006, and would require the California Senior Legislature to enter into interagency agreements with a state entity to carry out administrative duties related to its program, and to identify the state entity by May 1, 2005.

Existing law provides that the members of the California Senior Legislature be elected according to rules developed in cooperation with the commission.

This bill would provide that the members of the California Senior Legislature be elected or appointed according to rules developed in cooperation with the California Association of Area Agencies on Aging.

Existing law provides that funds for the supportive activities of the commission be allocated from the California Fund for Senior Citizens, private funds, and federal funds. Existing law provides that funds for the California Senior Legislature be allocated from appropriate federal funds.

This bill would delete those provisions.

This bill would provide that the California Senior Legislature may accept gifts and grants from public or private sources.

This bill would provide that its provisions become operative on July 1, 2006, or when both the Joint Rules Committee of the California Senior Legislature and the Executive Director of the commission report to the Chief Clerk of the Assembly that the separation of the California Senior Legislature and the commission has been accomplished, whichever is earlier.

Ch. 634 (AB 2030) Cogdill. Cigarette and Tobacco Products Tax Law: hearings.

Under existing law, the State Board of Equalization is required to conduct an annual hearing before the full board where industry representatives and individual taxpayers are allowed to present proposals for changes to the Cigarette and Tobacco Products Tax Law that may improve voluntary compliance and the relationship between taxpayers and the government.

This bill would require the State Board of Equalization to conduct at least 2 such hearings per year that may advance voluntary compliance and improve the relationship between taxpayers and government. This bill would also require the board to post quarterly on its Web site the cigarette and tobacco products revenues collected and disbursed for the previous quarter to specified funds.

Ch. 635 (AB 2103) Negrete McLeod. State employees: memorandum of understanding.

Existing law provides that if any provision of a memorandum of understanding reached between the state employer and a recognized employee organization representing state civil service employees requires the expenditure of funds, those provisions of the memorandum

of understanding shall not become effective unless approved by the Legislature in the annual Budget Act.

This bill would approve provisions that require the expenditure of funds of the addendum to a memorandum of understanding entered into between the state employer and Bargaining Unit 5, and would provide that the provisions of any addendum to the memorandum of understanding that require the expenditure of funds shall become effective even if the provisions of the addendum to the memorandum of understanding are approved by the Legislature in legislation other than the annual Budget Act.

This bill would provide that provisions of the addendum to the memorandum of understanding approved by this bill that require the expenditure of funds shall not take effect unless funds for these provisions are specifically appropriated by the Legislature, and would provide that if funds for these provisions are not specifically appropriated by the Legislature, the state employer, and the affected employee organization shall meet and confer to renegotiate the affected provisions.

The Public Employees' Retirement Law defines "final compensation," for purposes of calculating retirement benefits, as the highest annual average compensation earnable by the member during a designated 12-month period.

Under this bill, the calculation of "final compensation" for a member in State Bargaining Unit 5 would include the compensation the member would have earned effective July 1, 2004, if a specified 5% reduction had not occurred.

The bill would also declare that it is to take effect immediately as an urgency statute.

#### Ch. 636 (AB 2127) Levine. Alzheimer's Day Care-Resource Center Program.

Existing law establishes the Mello-Granlund Older Californians Act which is administered by the California Department of Aging.

Existing law authorizes the development of Alzheimer's day care resource centers under which funding is provided to a direct services contractor who provides a program of specialized day care for participants with dementia. Direct services contractors authorized to provide services under these provisions who are not licensed are exempt from various licensure requirements under the act.

Existing law also regulates the licensure and operation of various community care facilities, including adult day programs and adult day health care centers.

This bill would require a direct services contractor operating an Alzheimer's day care resource center to be licensed as either an adult day program, or as an adult day health care center. The bill would provide that surrender or termination of the contractor's adult day program or adult day health care center license would also serve to terminate the contractor's Alzheimer's day care resource center contract. The bill would require an Alzheimer's day care resource center that was not licensed as an adult day program or adult day health care center on January 1, 2005, to become licensed by January 1, 2008.

#### Ch. 637 (AB 2318) Hancock. Local agency auditors.

Existing law prohibits the State Auditor from destroying any papers or memoranda used to support a completed audit sooner than 3 years after the audit is released to the public and provides that all documents pertaining to his or her work are public records subject to disclosure under the California Public Records Act except for specified items that are to remain confidential, including personal papers and correspondence of any person providing assistance to the State Auditor when that person has requested confidentiality, documents relating to any audit not completed, and documents not used in support of any report resulting from the audit.

This bill would apply these provisions, except for the prohibition on destruction of records, to a city, county, or special district auditor, as defined.

#### Ch. 638 (AB 2498) Longville. Freeway service patrols.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law, the Freeway Service Patrol Act, authorizes a freeway service patrol system managed by the Department of the California Highway Patrol, the Department of Transportation, and a regional or local entity to provide emergency roadside assistance on a freeway located in an urban area. Under existing law, the system is funded through a formula-based allocation and a Competitive Freeway Service Patrol Grant Program that awards grants on a competitive basis to a regional or local agency to provide a new or expanded freeway service patrol.

This bill would designate the formula-based allocation as the baseline funding allocation. If additional funding is not provided to the baseline funding allocation, the bill would restrict the allocation of the funding to not more than a designated percentage of the total amount of the allocation for 3 years. The bill would also require a regional or local agency to demonstrate in its application for a baseline funding allocation submitted after July 1, 2003, an overall benefit-cost ratio of 3 to 1 pursuant to a methodology determined by the department.

Ch. 639 (AB 2509) Nakanishi. Electric microuilities.

Under existing law, the Public Utilities Commission generally has regulatory authority over public utilities, including authority over electrical corporations.

This bill would state the intent of the Legislature that the commission consider the legal, administrative, and operational costs that an electric microuility, as defined, faces if it is named as a respondent in a hearing generally applicable to electrical corporations. The bill would further state the intent of the Legislature that the commission consider those costs before naming an electric microuility as a respondent in a hearing generally applicable to electrical corporations.

Ch. 640 (AB 2558) Plescia. Property tax revenue allocations: state-assessed property.

The California Constitution requires, for purposes of property taxation, that the State Board of Equalization assess specified properties owned by specified entities, including companies transmitting or selling gas or electricity. Existing property tax law provides formulae that specify the manner in which the revenues derived from the taxation of a state-assessee's property are allocated. Existing law provides, until December 31, 2004, a unique formula for allocating revenues derived from the taxation of property that is owned by a utility that serves no more than two counties and that is located within a city, county, or city and county that adopts a specified resolution on or before January 1, 1995.

This bill would instead provide that this specified resolution may be adopted on or before January 1, 2006. This bill would also repeal the December 31, 2004, termination date of this allocation formula to extend this formula indefinitely.

By permitting additional cities, counties, and cities and counties to adopt the previously described resolution, this bill would impose new property tax allocation duties upon local officials and thereby would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 641 (AB 2587) Chan. Hazardous chemicals.

Existing law prohibits, on and after January 1, 2008, a person from manufacturing, processing, as defined, or distributing in commerce a product, or a flame-retarded part of a

product, containing more than  $\frac{1}{10}$  of 1% pentaBDE or octaBDE, by mass. Existing law specifies that the term process, as used in this prohibition, does not include the processing of metallic recyclables.

This bill would change the date when the prohibition goes into effect to June 1, 2006. The bill would define the term “metallic recyclable” for purposes of the definition of the term “process.” The bill would also revise the definitions of the terms “pentaBDE” and “octaBDE” to include specified technical mixtures. The bill would revise the prohibition to instead prohibit the manufacturing, processing, or distribution in commerce of a product, as defined, that contains more than the  $\frac{1}{10}$  of 1% pentaBDE or octaBDE, except as specified.

Ch. 642 (AB 2638) Cogdill. Building standards: public information.

(1) The Field Act requires the Department of General Services to supervise the design and construction of school buildings to ensure compliance with specific rules and regulations and building standards.

This bill would require written rules and regulations adopted pursuant to specified provisions of the Field Act to be made available to the public by the State Architect upon request.

(2) Existing law requires any building standard or administrative regulation that applies directly to the implementation or enforcement of the building standards adopted by state agencies to be submitted to, and approved by, the State Building Standards Commission.

This bill would require written rules and regulations by a local enforcement agency to clarify the application of the California Building Standards Code to be made available to the public upon request, thus imposing a state-mandated local program.

(3) Existing law requires the Office of Statewide Health Planning and Development to pass upon and approve or reject all plans for the construction or the alteration of any hospital building.

This bill would require written rules and regulations by the office to clarify the application of the California Building Standards Code pursuant to this chapter to be made available to the public upon request.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 643 (AB 2661) Steinberg. Foster care.

Under existing law, the California Community Care Facilities Act, the State Department of Social Services regulates the licensure and operation of community care facilities, including foster family agencies. Existing law defines a foster family agency as an organization engaged in the recruiting, certifying, and training of, and providing professional support to, foster parents, or in finding homes or other places for placement of children for temporary or permanent care who require that level of care as an alternative to a group home. Under existing law, a certified family home is a family residence that is certified by a licensed foster family agency and issued a certificate of approval by the agency as meeting departmental licensing standards, and used only by that foster family agency for placements. Existing law also authorizes the department to require a foster family agency to deny or revoke a certified family home’s certificate of approval, based on an inspection of the home and a subsequent finding by the department of noncompliance with licensing requirements.

A violation of the California Community Care Facilities Act is a misdemeanor.

Existing law prohibits, with certain exceptions, the disclosure of personal information of facilities licensed as foster family homes and certified family homes of foster family agencies that provide 24-hour care for 6 or fewer children. Existing regulations require a foster family agency to provide the department with a log of family homes certified and decertified each

month, including whether a decertification was necessitated by any one of several listed factors.

This bill would require the owner or operator of a family home applying for certification to sign an application that includes a declaration as to the truth of the information submitted, containing certain information, including the applicant's certification and decertification status and history. Because the bill would provide that making a false statement under these circumstances is a misdemeanor, this bill would impose a state-mandated local program.

This bill would require a foster family agency to contact any foster family agencies by whom an applicant has been previously certified and any state or county licensing offices that have licensed the applicant as a foster parent and conduct a reference check as to the applicant. By expanding the definition of an existing crime, the bill would impose a state-mandated local program. The bill also would prohibit a person from incurring civil liability as a result of providing information to the department as required by the bill, and would prohibit the department, a foster family agency, or county from incurring civil liability for providing a county or a foster family agency with certain information.

This bill would authorize the department, a county, or a foster family agency to request information from, or divulge information to, the department, a county, or a foster family agency regarding a prospective certified parent, foster parent, or relative caregiver, for the purpose of conducting a reference check to determine whether it is safe and appropriate to license, certify, or approve an applicant to be a certified parent, foster parent, or relative caregiver. The bill would authorize the department to issue a citation and assess a civil penalty of \$50 per day for each instance of a foster family agency's failure to provide the department with the required information.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 644 (AB 2701) Runner. Environmental protection: reports.

(1) Existing law requires the California Environmental Protection Agency, and its boards, departments, and offices to prepare and submit to the Governor and the Legislature various reports containing specified information on the implementation and effectiveness of certain programs, policies, and projects to ensure the protection of natural resources in the state.

This bill would require the California Integrated Waste Management Board, in consultation with state agencies that are affected by the changes made by the bill, to develop and implement guidelines, by January 1, 2005, to provide and produce reports and other documentation, including guidance documents, fact sheets, and other publications and written materials, in the most efficient and environmentally sustainable manner possible. The bill would require the guidelines to include the distribution of reports and other documentation by electronic means and compact discs, information on posting reports and other documentation on state agency Web sites, and techniques for the production of reports and other documentation that will reduce and encourage the use of recycled goods, materials, and supplies, specified cost reduction options, and the distribution of a reasonable number of printed reports to ensure public access.

The bill would require the board, before February 1, 2005, to distribute the guidelines to all state agencies.

The bill would require the agency and its boards, departments, and offices, on and after February 1, 2005, to provide and produce reports and other documentation pursuant to these guidelines, and would require all state agencies, after June 1, 2005, to provide and produce reports and other documentation pursuant to these guidelines.

The bill would require each state agency, by April 30, 2005, to conduct a thorough review of each report that the state agency is required to submit to the Legislature and identify

whether the report is a completed one-time report, an obsolete report, or a duplicative report that can be eliminated or modified.

The bill would revise and eliminate various existing reporting requirements for the agency and other state agencies.

(2) Existing law requires the Public Utilities Commission to adopt regulations by January 1, 1993, to reduce potential railroad hazards, including regulations concerning the transportation of hazardous or potentially hazardous commodities.

This bill would repeal the requirement that the commission adopt the regulations concerning the transportation of those hazardous commodities.

Ch. 645 (AB 2817) Salinas. Transportation: benefit assessment districts.

Existing law authorizes the Santa Clara Valley Transportation Authority to establish benefit assessment districts relative to its rail lines. Existing law requires an election to be held regarding the proposal to form a benefit district if certain voters in the boundaries of the proposed benefit district file a petition with the board of directors of the authority within 30 days after the conclusion of a required public hearing, as specified. Existing law requires the board, if it proposes to levy a special benefit assessment on real property in the benefit district, to comply with specified notice, protest, and hearing procedures. Existing law also requires the board to submit the proposition of levying an assessment to those voters of the benefit district pursuant to specified requirements. Existing law authorizes the board to levy the assessment if the proposition is approved by the voters at the election.

This bill would delete the provisions requiring an election to form a benefit district and to levy a special benefit assessment. The bill would authorize the board to levy the assessment if there is no majority protest to its imposition. The bill would make various related changes.

Ch. 646 (AB 2869) Levine. Local publicly owned electric utilities: condemnation process: distribution facilities.

Existing law relating to electrical restructuring prohibits a local publicly owned electric utility or an electrical corporation from selling electric power to the retail customers of another local publicly owned electric utility or electrical corporation unless the first utility has agreed to let the second utility make sales of electric power to the retail customers of the first utility.

This bill would specify that those provisions do not apply to an exchange of customers affected by a local publicly owned electric utility completing a mutually agreeable condemnation process to resolve a fringe area agreement in which there exists a balance of benefits between the customers of the local publicly owned electric utility and the electrical corporation.

Ch. 647 (AB 2870) Mullin. Employment: commissions.

(1) Existing law establishes the Fair Employment and Housing Commission, consisting of specified members, and provides that the members of the Fair Employment Practice Commission become members of the Fair Employment and Housing Commission.

This bill would delete the provision relating to members of the now obsolete Fair Employment Practice Commission.

(2) Existing law grants certain powers to the Fair Employment and Housing Commission, including the power to adopt regulations and conduct hearings, and to appoint hearing officers.

This bill would additionally authorize the commission to conduct mediations at the request of the Department of Fair Employment and Housing at any time after a complaint is filed. The bill would change the title of hearing officer to administrative law judge. The bill would additionally provide that if the commission has found that a respondent in a matter before it has engaged in an unlawful practice, as specified, and is liable, any amount due to that respondent by a state agency may be offset to satisfy the commission's final order or decision.

(3) Existing law requires the commission to conduct all actions and procedures in accordance with specified statutes and its own regulations.

The bill would require the commission to conduct all actions and procedures in accordance with its procedural regulations and if it does not have a regulation on an issue, to rely upon the provisions of the Administrative Procedure Act.

(4) Existing law authorizes the commission, upon a finding that a respondent has engaged in a prohibited act, to assess an administrative fine, the amount of which is to be determined by examining specified evidence.

The bill would provide that where a reviewing court denies a petition for writ of mandate seeking review of a commission order or decision, the court shall enter judgment denying the petition and enforcing the commission's final order or decision. The bill would provide that the commission is not liable for the attorney's fees of the parties to an administrative adjudication. The bill would authorize the commission to issue a civil penalty, the amount of which is to be determined by examining specified evidence, and in consideration of federal law.

(5) This bill would also make technical and conforming changes, and clarifying changes, to existing law.

#### Ch. 648 (AB 2918) Laird. Desalination facilities.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations and water corporations. Existing law authorizes the commission to fix just and reasonable rates and charges for all public utilities.

The existing Cobey-Porter Saline Water Conversion Law authorizes the Department of Water Resources, either independently or in cooperation with public or private entities, to conduct a program of investigation, study, and evaluation in the field of saline water conversion, to provide assistance to persons or entities seeking to construct desalination facilities, and after submission of a written report and upon appropriation from the Legislature, to finance, construct, and operate saline water conversion facilities.

This bill would require the commission to evaluate the interrelationship between the commission's electricity policies and water policies as they relate to saline water conversion through ocean desalination, and to report to the Governor and the Legislature, on or before January 1, 2006, on the balance between electricity ratepayers and water ratepayers. The commission would be required to invite the Department of Water Resources, the State Water Resources Control Board, the Department of Fish and Game, the State Energy Resources Conservation and Development Commission, and the California Coastal Commission, to participate in the evaluation.

#### Ch. 649 (AB 2955) McCarthy. Underground storage tanks: leakage detection: grants.

(1) Existing law generally regulates the storage of hazardous substances in underground storage tanks and requires underground storage tanks that are used to store hazardous substances to meet certain requirements. Existing law establishes various requirements for an underground storage tank installed on or after July 1, 2004, including requirements that the primary and secondary containment be product tight. Existing law defines the term "product tight," for purposes of those requirements, to mean impervious to the liquid and vapor of the substance that is contained.

This bill would revise the performance standards for those underground storage tanks with regard to the construction, operation, and maintenance of those tanks.

The bill would require a local agency on the effective date of this bill and for 179 days thereafter, except as specified, to only issue a notice to comply to an owner or operator of an underground storage tank that does not maintain a specified vacuum or pressure, thereby imposing a state-mandated local program by imposing new duties upon local agencies. The bill would require this notice to comply to be issued in the course of conducting an inspection

by an authorized representative of the local agency, and to include a time limit in which to comply. The bill would require a certification that the violation has been corrected to be returned to the local agency in a specified manner, and would provide that a false certification that the violation has been corrected is punishable as a misdemeanor, thereby imposing a state-mandated local program by creating a new crime. The bill would allow a local agency to take any enforcement action authorized under the underground storage tank law with regard to such a violation, if the violation is intentional or occurs as the result of gross negligence.

The bill would require the State Water Resources Control Board and the State Air Resources Board, under the direction of the California Environmental Protection Agency, to certify, to the best of their knowledge, that the equipment that meets certain requirements for enhanced vapor recovery systems at gasoline dispensing facilities also meets the underground storage tank laws.

(2) Under the existing Barry Keene Underground Storage Tank Cleanup Trust Fund Act of 1989, owners and operators of petroleum underground storage tanks are required to pay a storage fee for each gallon of petroleum placed in the tank. The fees are required to be deposited in the Underground Storage Tank Cleanup Fund, which also contains certain penalties collected by the board. The money in the fund may be expended by the State Water Resources Control Board (the board), upon appropriation by the Legislature, for various purposes, including the payment of claims to aid owners and operators of petroleum underground storage tanks who take corrective action to clean up unauthorized releases of petroleum from those tanks.

Existing law, until January 1, 2004, required the Technology, Trade, and Commerce Agency to conduct a program to make loans and grants to small businesses for compliance with the underground storage tank requirements.

This bill would require the board to conduct a grant program to assist small businesses in meeting the requirements regarding the maintenance of the tanks' interstitial space, and the pretesting prior to, and testing of the tank after, installation, to demonstrate the tank is product tight.

The bill would require the board to make grant funds available to eligible grant applicants from the Petroleum Underground Storage Tank Financing Account, which this bill would reestablish in the State Treasury. The bill would make the creation of the account inoperative if and when AB 1068 of the 2003–04 Regular Session of the Legislature takes effect and creates that account.

The bill would specify conditions for the grant application and would authorize grant funds to be used to finance or reimburse up to 100% of the costs necessary to comply with specified testing and leak detection equipment costs. However, the bill would prohibit the board from granting more than \$15,000 for each facility, as defined, to assist a grant applicant in meeting the interstitial space requirements, and more than \$15,000 for each facility, to assist a grant applicant in pretesting and testing that a tank is product tight.

The bill would authorize the board to expend the funds in the account, upon appropriation by the Legislature, for making these grants and administering the grant program.

The bill would require the board to transfer \$3,500,000, for the 2004–05 fiscal year, from the Underground Storage Tank Cleanup Fund to the account, and would appropriate those amounts therefrom to the board, for purposes of making those grants and administering the grant program, thereby making an appropriation.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

(4) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 650 (AB 3047) Committee on Transportation. Transportation.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

(1) Existing law provides that the Department of Transportation shall have full possession and control of all state highways. Existing law describes the authorized routes in the state highway system and establishes a process for adoption of a traversable highway on an authorized route by the California Transportation Commission. Existing law authorizes the commission to relinquish certain state highway segments to local agencies.

This bill would authorize the commission to relinquish portions of State Highway Routes 2, 170, and 227 to specified local agencies under certain conditions.

(2) Existing law defines the Bay Area Toll Authority (BATA) as a separate agency governed by the same governing board as the Metropolitan Transportation Commission, which is the transportation planning agency for the 9-county Bay Area. Existing law requires BATA to administer the toll revenues derived from the voter-approved \$1 toll surcharge on Bay Area toll bridges that becomes operative on July 1, 2004, and specifies the projects to be funded from those revenues.

This bill would revise certain of the project descriptions and make other related changes.

(3) Existing law provides for the issuance of special identification license plates and distinguishing placards to persons with disabilities.

This bill would correct an erroneous cross-reference in this regard.

(4) Existing law provides that the Department of Motor Vehicles shall require upon initial registration, and upon transfer of ownership and registration, of any motor vehicle, and upon registration of a motor vehicle previously registered outside this state which is subject to those provisions, a valid certificate of compliance or a certificate of noncompliance, as appropriate, in regard to smog certification.

Existing law also provides an exception to these provisions where the initial application for transfer is submitted within the 90-day validity period of a smog certificate, as specified.

This bill would revise the statement that is to appear on a form prescribed by the department regarding smog certification that is to be signed by the transferor and transferee upon transfer of any vehicle. The bill would also eliminate the provision that allows a transferee to rescind the sale of a vehicle upon learning that a transferor has committed perjury in stating that he or she has not modified the emissions system of the vehicle and does not have any personal knowledge of anyone else modifying the system that would cause the system to fail to qualify for the issuance of a smog certificate.

(5) Existing law authorizes a county to establish a service authority for the abatement of abandoned vehicles and impose a vehicle registration fee. Existing law requires each authority to report to the Controller certain information within specified timeframes.

This bill would eliminate certain reporting deadlines for an authority to submit information to the Controller. The bill would also require the Controller to make various allocations based on a fiscal year basis, instead of calendar year.

Existing law allows a service authority, established for the abatement of abandoned vehicles, to impose a service fee on all vehicles registered to an owner with an address in the county that established the service authority.

This bill would make technical, nonsubstantive changes to those provisions.

(6) Existing law establishes a traffic violation point system for various purposes.

This bill would make technical, nonsubstantive changes in the provision determining the violation point count for specified violations.

(7) Existing law provides procedures for the removal and disposal by a public agency of a vehicle valued at \$300 or less.

This bill would increase the specified value to \$500 or less.

To the extent that this increase would impose additional duties upon local public agencies, the bill would establish a state-mandated local program.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay

the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 651 (AB 3050) Committee on Transportation. San Joaquin Regional Transit District.

Under the Local Agency Public Construction Act, the San Joaquin Regional Transit District is required to let contracts for the purchase of all supplies, equipment, and materials by competitive bid when the required expenditure exceeds \$15,000 and to let contracts for the construction of facilities and works when the expenditure required exceeds \$3,000 by competitive bid.

This bill would require the district to let contracts for supplies, equipment, and materials by competitive bid when the required expenditure exceeds \$50,000. With respect to specified construction contracts, this bill would authorize the district to enter into these contracts in accordance with a specified statute.

This bill would make findings regarding the need for special legislation.

Ch. 652 (AB 780) Cogdill. School districts: reorganization.

The California Constitution empowers the Legislature to provide for the incorporation and organization of school districts, high school districts, and community college districts, of every kind and class. Existing law authorizes the State Board of Education to approve proposals for the reorganization of school districts and authorizes a county committee on school district organization to recommend the approval of petitions for reorganization and approve certain petitions to transfer territory from one school district to another. Existing law requires the county superintendent of schools to be notified of an approval, and requires the county superintendent to call an election as prescribed by law.

This bill would establish a program in the Counties of Fresno, Humboldt, and Ventura to place the duties of approval and disapproval of petitions for the unification of school districts on the county committee and would make conforming changes, thus imposing a state-mandated local program. The bill would merge an elementary school district and a high school district if their boundaries become coterminous. The bill would repeal this program on January 1, 2009.

This bill would make legislative findings and declarations regarding the need for special legislation.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 653 (AB 1240) Mullin. Care facilities: criminal record clearances.

Existing law requires, as a condition of the State Department of Social Services or other licensing agency issuing a license, permit, or certificate of approval, as appropriate, for a person to operate or to provide direct care services in a community care facility, residential care facility for persons with a chronic life-threatening illness, residential care facility for the elderly, or child day care facility, the fingerprinting of, and criminal record clearance for, applicants and persons to be employed by, reside at, or be present in any of these facilities, except as specified.

Under existing law, an individual is required to obtain either a criminal record clearance from the Department of Justice or a criminal record exemption from the State Department of Social Services before his or her initial presence in a community care facility. Existing law authorizes the department to permit an individual to transfer a current criminal record clearance, from one facility to another if certain conditions are met.

This bill would authorize, with respect to community care facilities and child day care facilities, any county office with department delegated licensing authority and the State Department of Social Services to accept a criminal record clearance or exemption from each other, and would authorize any county office with department delegated licensing authority to accept a criminal record clearance or exemption from another such county office.

Existing law authorizes the Department of Justice to provide subsequent arrest notification to any agency authorized to receive state summary criminal history information upon the arrest of any person whose fingerprints are maintained on file at the Department of Justice.

This bill would, with respect to community care facilities and child day care facilities, specify conditions under which the Department of Justice would be required to substitute the department or another county with department delegated licensing authority as a recipient of notification under this provision.

Existing law specifies that a licensee's failure to submit fingerprints to the Department of Justice or to transfer a current criminal record clearance, when required, results in the citation of a deficiency and the immediate assessment of civil penalties in the amount of \$100 per violation. The State Department of Social Services is authorized to assess additional civil penalties for continued violations.

Existing law specifies that a licensee's failure to comply with the department's prohibition of employment, contact with clients, or presence in the facility shall be grounds for denying an application for, or suspending or revoking, a license.

This bill would enhance the penalties for violating any of the above provisions by providing that a violation results in a citation of deficiency and the immediate assessment of civil penalties in the amount of \$100 per violation, per day, for a maximum of 5 days, or for a maximum of 30 days in the case of a 2nd or subsequent violation, and by providing that a violation is grounds for denying an application for, or suspending or revoking, a license or administrator certificate.

The bill, in addition, would impose these penalties for failure of a foster family agency to submit fingerprints that a foster family agency is required under existing law to obtain from certified home applicants or to transfer a current criminal record clearance, when required.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 654 (AB 1875) Maldonado. Public employees.

(1) The existing Bill of Rights for State Excluded Employees prescribes various rights and terms and conditions of employment for excluded employees, defined as certain supervisory, managerial, and confidential employees. That law contains provisions relating to participation by supervisory employees in employee organizations for purposes of representation when meeting and conferring with respect to employment conditions.

This bill would require the state employer to provide reasonable advance notice and an opportunity to meet and confer to discuss alternative means of achieving objectives prior to arriving at a determination of policy or course of action directly impacting supervisory employees. The bill would revise the definition of "meet and confer," as specified. The bill would also revise a statement of the purpose of the Bill of Rights for State Excluded Employees.

(2) Under existing law, contracting agencies of the Public Employees' Retirement System may elect to provide retirement benefits to their employees who are local miscellaneous members of the system based on a 3% at age 60 formula or a 2.7% at age 55 formula.

This bill would provide that, when either of those benefits formulas are adopted by the contracting agency, that formula shall supersede other benefit formulas that would otherwise

apply with respect to any local miscellaneous member employed by the contracting agency on or after that date.

Ch. 655 (AB 1881) Berg. Integrated health and human services programs.

Existing law authorizes the Counties of Humboldt, Mendocino, and Alameda, until January 1, 2005, to implement a program for the funding and delivery of services and benefits through an integrated and comprehensive county health and human services system, subject to certain limitations. Existing law requires a participating county to evaluate its program and to submit its final report to the Governor or the Governor's designee and the Legislature by no later than January 1, 2004.

This bill would extend the authority to implement an integrated health and human services program in accordance with the above provisions to any additional county or counties, as determined by the Secretary of California Health and Human Services. The bill would extend the duration of the program to January 1, 2009. The bill would also extend the date for submission of the final report to July 1, 2008.

Ch. 656 (AB 2005) Aghazarian. Community care facilities: group home programs.

(1) Existing law, pursuant to the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, requires the State Department of Social Services to classify group home programs and to establish rates for foster care providers licensed as group homes according to those classifications. Existing law prohibits the department from establishing a rate for a new program of a new or existing provider unless the provider submits a recommendation from the host county, the primary placing county, or a regional consortium of counties that the program is needed in that county, that the provider is capable of effectively and efficiently operating the program, and that the provider is willing and able to accept AFDC-FC children for placement who are determined by the placing agency to need the level of care and services that will be provided by the program.

This bill would also include within the scope of these provisions the establishment of a rate by the department for an existing program at a new location of an existing provider. It would, instead, provide that the establishment of a rate under these provisions would require the provider to submit a letter of recommendation from the host county, the primary placing county, or a regional consortium of counties specifying, among other things, that the conditions described above with respect to the need for the program and the capacity and ability of the provider exist.

(2) This bill would incorporate additional changes in Section 11462 of the Welfare and Institutions Code proposed by SB 1104, to be operative if SB 1104 and this bill are both enacted and become effective on or before January 1, 2005, and this bill is enacted last.

Ch. 657 (AB 2122) Committee on Budget. Student financial aid: Student Aid Commission: auxiliary organization.

(1) Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education. Existing law authorizes the commission to carry out prescribed tasks, and authorizes the commission to establish an auxiliary organization for the purpose of providing operational and administrative services for the commission's participation in the Federal Family Education Loan Program.

Existing law authorizes the auxiliary organization to participate in activities approved by the commission and determined by the commission to be related to student financial aid, consistent with the general mission of the commission, and consistent with the purposes of prescribed provisions of federal law that are related to student financial aid.

Existing law requires, commencing on April 1, 2005, and on April 1 of each year, ending on April 1, 2010, that the commission describe the actions taken, and report the costs incurred

and the revenues realized, by the auxiliary organization in loan origination, disbursement services, loan servicing and repayment, secondary market, and private lender activities that the auxiliary organization undertakes.

This bill would prohibit the commission from authorizing the auxiliary to participate in the issuance of bonds or in loan origination or loan capitalization activities. This bill would specify that its provisions would not preclude the commission or the auxiliary organization from undertaking other permitted activities that are related to student financial aid in partnership with institutions that conduct loan origination or loan capitalization activities.

This bill would also make a conforming change to delete loan origination from the activities to be described in the annual report that would be due on April 1 of each year between 2005 and 2010.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 658 (AB 2286) Mountjoy. Teacher credentialing: internship programs.

Existing law authorizes the Commission on Teacher Credentialing, until January 1, 2008, to issue district intern credentials authorizing persons employed by any school district to provide classroom instruction to pupils with mild and moderate disabilities in special education classes and requires accredited internship programs to provide interns who meet entrance requirements and are accepted to a multiple or single subject teaching credential program the opportunity to choose an early program completion option that culminates in a 5-year preliminary teaching credential.

This bill would permit an intern accepted to a level 1 education specialist credential program to choose an early program completion option and receive a 5-year preliminary level 1 education specialist credential that authorizes instruction to individuals with mild to moderate disabilities, if he or she meets certain requirements under existing law.

Ch. 659 (AB 2533) Salinas. Seismic safety.

Existing law requires all local building departments to identify all potentially hazardous buildings within their respective jurisdictions by January 1, 1990. Existing law authorizes, if a building is identified by a city, city and county, or county as being potentially hazardous to life in the event of an earthquake, the execution of an order by the enforcement agency or its agents or contractors requiring the building to be retrofitted to local seismic building standards or repaired so as not to violate any law, regulation, or ordinance applicable to the maintenance and use of the building if specified conditions are met.

Existing law establishes a program within all cities and all counties and portions thereof located within seismic zone 4, as defined, to identify all potentially hazardous buildings and to establish a mitigation program for these buildings. The mitigation program may include, among other things, the adoption by ordinance of a hazardous buildings program, measures to strengthen buildings, and the application of structural standards necessary to provide for life safety above current code requirements. On or before April 1, 1993, any owner of a building located in seismic zone 4 who has received notice that the building is constructed of unreinforced masonry is required to post in a conspicuous place a specified sign at the entrance of the building, unless the walls are nonload bearing with steel or concrete frame. The Seismic Safety Commission is required to coordinate the earthquake related responsibilities of government agencies imposed by the above-described provisions to ensure compliance with these provisions.

This bill would revise the above-described sign requirement and would require every lease entered into after January 1, 2005, for an unreinforced masonry building to contain a specified statement, except as specified, and would subject an owner who is subject to, but does not comply with the new sign requirements to administrative penalties and injunctive relief, as specified.

This bill would also state the intent of the Legislature to improve the public's awareness of potentially hazardous buildings so that occupants and passers-by are better equipped to protect themselves in the event of an earthquake.

Ch. 660 (AB 2629) Salinas. Community care facilities: mentally ill residents.

Existing law, the California Community Care Facilities Act, provides for the licensure and regulation by the State Department of Social Services of community care facilities, as defined.

This bill would require the Community Care Licensing Division of the department, by January 1, 2006, to enter into memoranda of understanding with up to 10 local mental health departments that volunteer to participate, each of which would outline a formal protocol to address shared responsibilities, monitoring responsibilities, facility closures, training, and a process for mediation of disputes between the local mental health authority and the department's local licensing office relating to adult residential facilities and social rehabilitation facilities. The bill would require the department to transmit a copy of each signed memorandum of understanding to the Legislature, on or before January 31, 2006.

Ch. 661 (AB 2821) Daucher. Care facilities: referrals: Medi-Cal payment for noncovered services.

(1) Existing law prohibits any person, association, or corporation from establishing, conducting, or maintaining a referral agency or to refer any person for remuneration to any extended care, skilled nursing home, or intermediate care facility or a distinct part of a facility providing extended care, skilled nursing home care, or intermediate care, without first having obtained a written license from the Director of Health Services or from an inspection service approved by the director.

This bill would prohibit any person, association, or corporation from establishing, conducting, or maintaining a referral agency or to refer any person for remuneration to any person or agency outside a long-term health care facility for professional services for which the facility does not employ a qualified professional person to furnish a specific service, unless the facility complies with current federal and state law regarding the provision of these services and other requirements are met.

(2) Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and certain other low-income persons. Existing law prohibits a provider of health services from seeking reimbursement or payment from a Medi-Cal beneficiary for covered services.

This bill would provide that, if permitted by federal law, a relative of a skilled nursing facility resident who is a Medi-Cal beneficiary may pay an additional amount to the facility to enable the resident to obtain requested noncovered services, as described in the bill. The bill would prohibit the charge for these services from exceeding the charges to private pay residents for the same services.

Ch. 662 (AB 3008) Chan. County employees' retirement: benefits.

The County Employees Retirement Law of 1937 prohibits any resolution, ordinance, contract, or contract amendment adopted after January 1, 2004, from providing any retirement benefits for some, but not all, general members of a county or district, except as specified. In San Mateo County, however, the board of supervisors may provide any retirement benefits for some, but not all, general or safety members of the county retirement system, as specified.

This bill would authorize the board of supervisors in the Counties of Alameda and Merced, until January 1, 2010, to provide different retirement benefits for some safety member bargaining units of the county retirement system, as specified. Pursuant to these provisions,

the bill would permit agreements and memoranda of understanding to be made applicable to certain unrepresented groups, as specified.

Ch. 663 (AB 3033) Yee. Seismic safety.

Existing law establishes a program within all cities and all counties and portions thereof located within seismic zone 4, as defined, to identify all potentially hazardous buildings, as defined, establish a mitigation program for these buildings, and file a report on the programs with the Seismic Safety Commission. The mitigation program may include, among other things, the adoption by ordinance of a hazardous buildings program, measures to strengthen buildings, and the application of structural standards necessary to provide for life safety above current code requirements. The Seismic Safety Commission is required to report annually to the Legislature on the filing of mitigation programs and assess the effectiveness of building reconstruction standards adopted pursuant to these provisions.

This bill would prohibit, until January 1, 2009, and notwithstanding any other provision of law, a city or county from imposing any additional building or site conditions on or before the issuance of a building permit to conduct seismic-related improvements to the building to meet the requirements of the mitigation program at the time of the application if the building or site conditions are unrelated to the improvements and the improvements comply with applicable building codes and meet or exceed the requirements of state and federal law and regulations that would otherwise apply. The bill would require the annual report by the Seismic Safety Commission to include an evaluation of the impact and effectiveness of the provisions enacted in this bill. The bill would also make a technical, nonsubstantive change.

Ch. 664 (SB 855) Machado. Community care facilities: crisis nurseries.

Existing law provides for the licensure and regulation by the State Department of Social Services of community care facilities, including facilities that provide care for children. Violation of the provisions relating to community care facilities is a misdemeanor.

This bill would include a crisis nursery, as defined, within the provisions regulating a community care facility. Since a violation of the provisions applicable to community care facilities is a crime, this bill would impose a state-mandated local program.

This bill would provide that exceptions to group home licensing regulations, in effect on August 1, 2004, for county-operated or county-contracted emergency shelter care facilities shall be contained in regulations for crisis nurseries. It would allow modified staffing levels in crisis nurseries, and would require the department to permit the use of volunteers as caregivers in a crisis nursery if certain conditions are met. Among these conditions is a requirement that the volunteers be fingerprinted for the purpose of conducting a criminal record review. Because a criminal record review includes a requirement that the person also sign a declaration under penalty of perjury regarding any prior criminal convictions, this bill would expand the definition of the crime of perjury, thereby imposing a state-mandated local program.

Existing law provides for the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which, pursuant to a combination of federal, state, and county funds, aid on behalf of eligible children is paid to foster care providers.

This bill would include a crisis nursery among the facilities eligible to receive reimbursement under the above program when a child is placed in such a facility, and would require the department, to the extent federal financial participation is available, to set this reimbursement rate.

Existing law continuously appropriates moneys from the General Fund to pay for a share of the cost of AFDC-FC payments.

This bill would, instead, provide that the continuous appropriation would not be made for purposes of implementing the bill.

This bill would repeal all of its provisions on January 1, 2008.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 665 (SB 1269) Morrow. Traffic violators: Judicial Council report.

Existing law authorizes a court to order a person to attend a traffic violator school licensed under certain provisions of the Vehicle Code, in lieu of adjudicating a traffic offense, or after conviction of a traffic offense. Existing law also permits a court to order a continuance against a person who receives a notice to appear in court for a violation of a statute relating to the safe operation of a vehicle, in consideration for attendance at a licensed school for traffic violators, a licensed driving school, or any other court-approved program of driving instruction, and after that attendance, to dismiss the complaint, as specified. Existing law requires the clerk of the court to collect a fee from a person who is ordered or permitted to attend a traffic violator school, as specified, or who attends any other court-supervised program of traffic safety instruction.

This bill would require the Judicial Council, by June 1, 2005, to collect and compile specified data and information in a report that provides a clear understanding of the current system involving the collection and expenditure of traffic violator fees and to recommend one or more approaches to setting a fiscal policy for the fees charged to those traffic violators.

The bill would require this data and information be made available by the Judicial Council to a person upon request and payment of a fee.

Ch. 666 (SB 1484) Ackerman. Disorderly conduct.

Existing law makes it a misdemeanor for anyone to look through a hole or opening or to view, by means of any instrumentality, into the interior of any of specified rooms or any other interior place where the occupant has a reasonable expectation of privacy, with the intent to invade that privacy.

This bill would add bedrooms to the enumerated rooms to which this prohibition is applicable.

Existing law also makes it a misdemeanor for a person to secretly videotape, film, photograph, or record by electronic means, another, identifiable person under or through his or her clothing, for the purpose of viewing the body of, or the undergarments worn by, that other person, without the consent or knowledge of that other person, with the intent to arouse, appeal to, or gratify the lust, passions, or sexual desires of that person and invade the privacy of that other person, under circumstances in which that other person has a reasonable expectation of privacy. Existing law provides that this and the above-described offense can be punished by imprisonment in a county jail not exceeding 6 months, by a fine not exceeding \$1,000, or by both that fine and imprisonment, but authorizes a longer jail term of one year if the offense is committed after one or more prior convictions for these offenses or for the offense of peeking into an inhabited structure while loitering, wandering, or prowling upon private property.

This bill would make it a misdemeanor to use a concealed camcorder, motion picture camera, or photographic camera of any type, to secretly videotape, film, photograph, or record by electronic means, another, identifiable person who may be in a state of full or partial undress, for the purpose of viewing the body of, or the undergarments worn by, that other person, without the consent or knowledge of that other person, in the interior of a bedroom, bathroom, changing room, fitting room, dressing room, or tanning booth, or the interior of any other area in which that other person has a reasonable expectation of privacy, with the intent to invade the privacy of that other person. This new offense would be punished exactly as are the above-described offenses, except that the maximum fine would be \$5,000 if the offense is committed after one or more prior convictions for the same offense, or for an offense referenced above.

By creating a new crime, this bill would impose a state-mandated local program.

This bill would incorporate changes in Section 647.7 of the Penal Code, proposed by AB 2403, to be operative only if AB 2403 and this bill are both chaptered and become effective January 1, 2005, and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 667 (SB 1546) Figueroa. Dentistry.

Existing law, the Dental Practice Act, provides for the licensure and regulation of the practice of dentistry by the Dental Board of California, and authorizes the board to appoint a person exempt from civil service as an executive officer. Existing law also establishes the Committee on Dental Auxiliaries within the jurisdiction of the board. The provisions establishing the board, authorizing the board to appoint an executive officer, and establishing the committee are repealed as of January 1, 2006.

This bill would instead make those provisions inoperative on July 1, 2006, and repeal them on January 1, 2007.

Existing law requires the board to license persons meeting specified requirements as various types of dental auxiliaries, and requires the board to enact certain regulations with respect to those licensees. Existing law also describes the functions that those licensees are permitted to perform and imposes specified requirements on them. Existing law prohibits a dentist from utilizing more than 2 dental auxiliaries in extended functions. Under existing law, fees collected in connection with the practice of a dental auxiliary are deposited into the State Dental Auxiliary Fund, which is continuously appropriated.

This bill would, on January 1, 2007, revise the requirements imposed on, and the functions that may be performed by, a dental assistant or a dental assistant in extended functions. The bill would also, on and after January 1, 2007, require the board to license a person who meets specified requirements as a registered dental assistant, registered orthodontic assistant, registered surgery assistant, registered restorative assistant, registered dental assistant in extended functions, or registered restorative assistant in extended functions.

This bill would require the board, upon recommendation of the committee, to adopt implementing regulations regarding education and training requirements that those licensees and registered dental hygienists are required to meet and procedures they may perform. The bill would also require the board to report periodically to the Joint Committee on Boards, Commissions, and Consumer Protection regarding the regulations imposed on licensees. The bill, on and after January 1, 2007, would authorize a dentist to utilize up to 3 dental auxiliaries in extended functions. The bill would also make other related changes.

Because this bill would increase the number of licensees paying licensing fees deposited into the State Dental Auxiliary Fund, a continuously appropriated fund, it would make an appropriation.

Existing law creates the Licensed Physicians and Dentists from Mexico Pilot Program. Under existing law, the program is required to be developed in consultation with representatives of community clinics, approved dental schools, and the National Autonomous University of Mexico School of Faculty Dentistry. Existing law requires an evaluation of the program to be undertaken 12 months after the program has commenced and to be conducted jointly by specified entities.

This bill would change the consultation criteria for the development of the program. The bill would also revise the entities required to be involved in conducting the program evaluation.

#### Ch. 668 (SB 1639) Alarcon. CalWORKs recipients: education and training.

Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program under which each county provides cash assistance and other benefits to qualified low-income families and individuals. Existing law requires CalWORKs recipients, unless exempt, to participate in welfare-to-work activities as a condition of eligibility for benefits.

Existing law requires that, to the extent that funding is provided in the annual Budget Act, a community college shall receive funding for educational services provided to CalWORKs recipients based on the number of CalWORKs recipients that are enrolled at the community college and the scope and number of programs that the college plans to offer to assist CalWORKs recipients to obtain employment. Existing law also requires that, prior to receiving funding, a community college shall submit to the chancellor a Request for Application which contains a plan for curriculum development or redesign, including participation by the county welfare department to establish that the programs being developed or redesigned will provide CalWORKs recipients with the training and experience necessary to secure employment.

This bill would revise that element of the required plan to provide that the vocational curricula for CalWORKs recipients includes English language proficiency.

Existing law provides that, to the extent that funding is provided in the annual Budget Act, funds received by a community college for curriculum development or redesign for CalWORKs recipients may be expended for purposes, including the development or redesign of vocational curricula for CalWORKs recipients so that courses may be offered as part of a short-term intensive program, including Open Entry and Open Exit programs.

This bill would include intensive English language immersion within the scope of that authorization.

Existing law establishes the California Community Colleges, the California State University, and the University of California as the 3 segments of public postsecondary education in the state.

This bill would express the intent of the Legislature to encourage the California Community Colleges, the California State University, and the University of California to disseminate information to foster care agencies regarding admissions requirements and financial aid. The bill would also request the Regents of the University of California and the Trustees of the California State University to explore methods of using the admissions-by-exemption category to assist the transition of students in foster care into 4-year public institutions of higher education.

Existing law declares that it is the policy of the state that all children in foster care have prescribed rights.

This bill would add to these prescribed rights of children in foster care the right, at 16 years of age or older, to have access to existing information regarding the educational options available, including, but not limited to, the coursework necessary for vocational and postsecondary educational programs, and information regarding financial aid for postsecondary education.

The bill would encourage the State Department of Social Services and each county welfare department to work with the Student Aid Commission, the University of California, the California State University, and the California Community Colleges to receive information pertinent to a participant's educational options.

Ch. 669 (SB 1654) McPherson. Public safety: communication equipment.

Existing law provides that the Public Safety Radio Strategic Planning Committee, comprised of 12 specified state entities, shall have primary responsibility in state government for developing and implementing a statewide integrated public safety communication system for state government agencies that facilitates interoperability and other shared uses of public safety spectrum with local and federal agencies. Existing law requires the committee to make recommendations for agency purchase of new or upgraded

communication equipment that will enable interoperability consistent with public safety digital communications standards of the American National Standards Institute (ANSI) and the Telecommunications Industry Association (TIA).

Existing law further provides that specified moneys received from the federal government for homeland security may be allocated for disbursement to state and local public safety agencies to procure and operate interoperable radio equipment that meets the public safety digital communications standards in Suite 102 of the ANSI and the TIA.

This bill would add the Office of Homeland Security to the Public Safety Radio Strategic Planning Committee and would make related and conforming changes.

Existing law requires the committee to consult with designated organizations.

This bill would add to these organizations the Military Department.

This bill would require a state department that purchases public safety radio communication equipment to ensure that equipment purchased complies with prescribed standards.

Existing law provides that, of the amounts received from the federal government for homeland security and appropriated in the Budget Act of 2002, not more than \$15,000,000 may be allocated to the security advisor to the Governor for disbursement to state and local government public safety agencies to procure and operate specified radio equipment and requires recipients to annually report to the Legislature.

This bill would repeal those provisions.

Ch. 670 (SB 1865) Aanestad. Dentists: licensing examinations.

The Dental Practice Act provides for the licensing and regulation of dentists and associated professions by the Dental Board of California. Existing law requires an applicant for a license to practice dentistry to pass a written examination on subjects prescribed by the board, and to also pass a clinical examination.

This bill would require an applicant for a license to practice dentistry to complete various examinations, including the National Board Dental Examination, an examination in California law and ethics developed by the board, and a clinical and written examination administered either by the board or the Western Regional Examining Board. The bill would require the Department of Consumer Affairs to review the examination offered by the Western Regional Examining Board, and would appropriate \$150,000 from the State Dentistry Fund to the department for this purpose pursuant to a specified schedule. The bill would require a report by the Dental Board of California on examination passage rates.

Existing law requires an applicant for an examination to furnish documentary evidence to the board that he or she has graduated from a reputable dental college.

This bill would authorize the board to approve an application for examination or accept the results of an examination from an applicant who has not yet graduated from a reputable dental college, if certain conditions are met.

The bill would make other related changes.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 671 (AB 868) Parra. Migrant farm labor centers.

Existing law authorizes the Department of Housing and Community Development to contract with local public and private nonprofit agencies to provide housing services, including shelter, education, sanitation, and day care services for migratory agricultural workers, through the development, construction, reconstruction, rehabilitation, or operation of a migrant farm labor center.

Existing law also authorizes, after approval, as specified, by the department, the operation of a migrant farm labor center for an extended period beyond 180 days if specified conditions are met, including a requirement that residents are provided advance notice of the scheduled closing date of the center.

This bill would require the above-described notice to include the scheduled date of the beginning of the extended occupancy period. The bill would also revise the procedure for approval by the department in cases of an extended opening date. It would also deem an entity operating a migrant farm labor center to be eligible for the California Alternative Rates for Energy Program.

Ch. 672 (AB 1462) Salinas. Housing: farmworker housing.

(1) Existing law requires the Department of Housing and Community Development to make matching grants and loans from the Joe Serna, Jr. Farmworker Housing Grant Fund, for specified purposes, and authorizes matching grants and loans to be made from the fund for other purposes. With respect to the supervision of the grantees, the department is required to provide bilingual services and publications or require the grantees to do so, in order to implement the program.

This bill would require the department to instead provide linguistically appropriate services and publications or require the grantees to do so in order to implement the program. The bill would also authorize the department to waive a part of the matching fund requirement for grant or loan requests of not more than \$500,000 under specified conditions.

(2) The existing CalHome Program authorizes funds appropriated for purposes of the program to be used to enable low- and very low income households to become or remain homeowners.

Funds are provided by the Department of Housing and Community Development to local public agencies or nonprofit corporations for grants for programs that assist individual households or as loans that assist development projects involving multiple homeownership units, including single-family subdivisions. Grant funds may be used for first-time homebuyer downpayment assistance, home rehabilitation, homebuyer counseling, home acquisition and rehabilitation, or self-help mortgage assistance programs, or for technical assistance for self-help and shared housing homeownership. Loan funds may be used for purchase of real property, site development, predevelopment, and construction period expenses incurred on homeownership development projects, and permanent financing for mutual housing or cooperative developments.

This bill would authorize CalHome Program financial assistance to be provided as a secured forgivable loan to an individual household to rehabilitate, repair, or replace manufactured housing in a mobilehome park that is not permanently affixed to a foundation. The bill would limit the funds used for that assistance to 10% of the funds available to the CalHome Program in a fiscal year.

Ch. 673 (AB 164) Wolk. Principal Training Program.

Existing law establishes the Principal Training Program administered by the Superintendent of Public Instruction, with the approval of the State Board of Education. Existing law requires the superintendent to award incentive funding to local educational agencies to provide schoolsite administrators with instruction and training in specified areas. Existing law requires an applicant local educational agency to submit a program proposal to the State Board of Education that includes specified information, including training program goals.

This bill would authorize the training plans for high schools to include professional development activities that include coaching, mentorship, assistance, and intensive support customized to meet the individual needs of high school administrators.

Ch. 674 (AB 672) Montanez. Housing: downpayment assistance and mortgages.

(1) Existing law establishes the California Homebuyer's Downpayment Assistance Program administered by the California Housing Finance Agency to assist first-time low- and moderate-income homebuyers. It requires downpayment assistance to include, but not

be limited to, a deferred-payment, low-interest, junior mortgage loan and limits the amount of downpayment assistance to 3% of the home's sales price.

This bill would authorize the amount of downpayment assistance to not exceed 5% of the purchase price or the appraised value, whichever is less, of a home within an infill opportunity zone, a transit village development district, or a transit-oriented development specific plan area, as defined. The bill would make an appropriation by authorizing the expenditure for a new purpose of moneys in the Self-Help Housing Fund that are continuously appropriated by the Housing and Emergency Shelter Trust Fund Act of 2002 for purposes of the California Homebuyer's Downpayment Assistance Program.

(2) This bill also would incorporate additional changes in Section 51504 of the Health and Safety Code proposed by AB 2838, to be operative if AB 2838 and this bill are both enacted and become effective on or before January 1, 2005, and this bill is chaptered last.

#### Ch. 675 (AB 1684) Leno. Distributed generation resources.

Existing law requires the Public Utilities Commission on or before March 7, 2001, and in consultation with the Independent System Operator, to take certain actions, including, in consultation with the State Energy Resources Conservation and Development Commission (Energy Commission), adopting energy conservation demand-side management and other initiatives in order to reduce demand for electricity and reduce load during peak demand periods, including, but not limited to, differential incentives for renewable or superclean distributed generation resources. Pursuant to this requirement, the commission has developed a self-generation incentive program to encourage customers of electrical corporations to install distributed generation that operates on renewable fuel or contributes to system reliability.

Existing law requires the commission, in consultation with the Energy Commission, to administer, until January 1, 2008, a self-generation incentive program for distributed generation resources in the same form that exists on January 1, 2004. This program requires that combustion-operated distributed generation using nonrenewable fuel, in order to be eligible for incentive rebates, commencing January 1, 2005, meet a certain NO<sub>x</sub> emissions standard and, commencing January 1, 2007, meet a more stringent NO<sub>x</sub> emissions standard and a minimum efficiency standard. This existing program establishes, as of January 1, 2007, a credit for combined heat and power units that meet a certain efficiency standard.

This bill would expand the self-generation incentive program to make eligible for incentive rebates a project that operates solely on waste gas, as defined, subject to certain requirements.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 676 (AB 2007) Committee on Business and Professions. Business.

(1) Existing law authorizes any sealer to levy a civil penalty against a person who violates specified laws or regulations governing weights and measures with specified exceptions. Existing law also provides that any person convicted of violating specified laws governing weights and measures, or any person who is determined to be civilly liable for violating any of those provisions, is liable for reasonable costs incurred in investigating the action. Existing law provides that no administrative costs shall be imposed for violations for which civil penalties may be imposed under these provisions.

This bill would clarify that no administrative costs shall be imposed for violations for which civil penalties are imposed under the above provisions.

(2) The Real Estate Law provides for the examination and licensure of real estate salespersons and real estate brokers, and for the payment of specified fees for real estate salesperson and real estate broker licenses.

This bill would authorize a person applying for the real estate broker or salesperson license examination to also apply for licensure, but would prohibit a license from being issued until the applicant passes the respective license examination. The bill would require a person

applying for a real estate salesperson license to meet specified existing educational requirements. The bill would provide that if an applicant fails to pass the license examination within 2 years from the date of filing the license application, the application would lapse and no further proceedings on it would be taken.

Because this bill would increase the number of persons eligible to apply for real estate salesperson licenses and for real estate broker licenses, and would increase the amount of fee revenue deposited in the Real Estate Fund, a continuously appropriated fund, it would make an appropriation.

Existing law requires the Real Estate Commissioner, if, as of June 30 of any fiscal year, the balance of funds in the Real Estate Fund exceeds 50% of the department's authorized budget for the following year, to, within 30 days, reduce real estate salesperson license fees and other specified fees. Existing law also requires that, if funds are transferred from the Real Estate Fund to the General Fund by the Budget Act, certain fees are required to be reduced.

This bill would change the amount that the balance of funds in the Real Estate Fund may not exceed to 150% of the department's authorized budget. The bill would also require that if funds are loaned from the fund to the General Fund by the Budget Act, certain fees would be reduced.

**Ch. 677 (AB 2155) Vargas. San Diego County Regional Airport Authority.**

(1) Existing law authorizes the board of the San Diego County Regional Airport Authority to act by ordinance or resolution for the regulation of the authority and undertaking acts necessary and convenient for the exercise of the authority's powers.

This bill would authorize the authority to adopt and enforce rules and regulations for the administration, maintenance, operation, and use of its facilities and services. The bill would provide that a person who violates a rule, regulation, or ordinance adopted by the board is guilty of a misdemeanor or an infraction, as specified, thereby imposing a state-mandated local program by creating a new crime. The bill would authorize the authority to employ necessary personnel to enforce these provisions. The bill would declare that its provisions do not change existing law.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 678 (AB 2342) Jackson. Drinking water: public health goals.**

Existing law requires the Office of Environmental Health Hazard Assessment to establish and revise recommended public health goals for contaminants in drinking water and to prepare and publish an assessment of public health risks posed by each contaminant for which the State Department of Health Services proposes a primary drinking water standard. Under existing law, the office is periodically required to review these goals and revise them as necessary based upon new scientific data.

This bill would authorize the office in conducting the revision of the public health goals to give special consideration to contaminants that cause or contribute to adverse health risks in members of subgroups that constitute a meaningful portion of the population.

The bill would require the office, in preparing and publishing the risk assessments, to assess exposure patterns and special susceptibility on infants and children.

**Ch. 679 (AB 2528) Lowenthal. Public water systems.**

Existing law, the California Safe Drinking Water Act, requires the State Department of Health Services to administer provisions relating to the regulation of drinking water and public water systems and, among other things, to adopt primary drinking water standards for contaminants in drinking water and to monitor regulated and unregulated contaminants. Existing law requires every public water system serving more than 10,000 service

connections that detects one or more contaminants in drinking water that exceed the public health goal to prepare a brief written report.

Existing law requires the person operating a public water system to, within 30 days of the closure of a well or of discovery of a contaminant exceeding the maximum containment level or action level, as defined, in a well that is used for drinking water, notify the governing body of the local agency in which users of drinking water reside.

This bill would delete this requirement and would, instead, require the operator of wholesale or retail public water systems, as defined, to provide notice relating to contamination of any drinking water that exceeds the maximum containment level, a response level, or a notification level, as defined, including, but not limited to, notification to the Public Utilities Commission if the public water system is a regulated public utility.

Existing law requires the notification to include the location of the affected water well, its name, its type, and its operational status immediately before its closure.

This bill, instead, would require the notification to identify the drinking water source, among other things, and to provide a brief and plainly worded statement of health concerns.

#### Ch. 680 (AB 2581) Lieber. Mobilehome parks: conversion.

Existing law requires the person or entity that proposes a change in use for a mobilehome park to file a report, prior to the conversion of a mobilehome park to another use, the closure of the mobilehome park, or the cessation of use of the land as a mobilehome park, on the impact of the conversion, closure, or cessation of use upon the displaced residents. When the report is filed, the person or entity filing the report or park resident is entitled to a hearing before the legislative body on the sufficiency of the report. The legislative body, or its delegated advisory agency, may require steps to be taken to mitigate any adverse impact on the ability of displaced residents to find adequate housing in a mobilehome park. These provisions do not apply if the closure or cessation of use results from an adjudication of bankruptcy, but do apply when the change in use, closure, or cessation is the result of a specified decision by a local governmental entity or planning agency, in which case the local governmental agency is required to prepare the impact report and take steps to mitigate.

This bill would apply the above described requirements when the closure, cessation, or change of use results from the decision by an enforcement agency to suspend the license to operate the mobilehome park. The bill would, in this case, require the mobilehome park owner to be responsible for the above described report and mitigation requirements. By increasing the duties of local officials with respect to their responsibilities to consider and act upon impact reports, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 681 (AB 2706) Berg. Education technology.

(1) Existing law terminated the Commission on Technology in Learning on January 1, 2003. The Commission on Technology in Learning was established to make policy recommendations to the State Board of Education in areas including statewide planning for technology, dissemination of technology resources, and the development of guidelines to aid in the ongoing comprehensive statewide evaluation of technology, telecommunications, and distance learning programs.

This bill would repeal the obsolete provisions that established the commission and specified its duties.

(2) Existing law requires the State Department of Education to administer a regionalized network of technical assistance to school and school districts on the implementation of education technology. Existing law requires the State Department of Education to administer provisions governing education technology and authorizes school districts, county offices

of education, and state special schools to apply to the State Board of Education to participate in grant programs related to education technology. Existing law requires a school district to have a technology plan as a precondition to receiving a technology grant administered by the State Department of Education.

This bill would require the Superintendent of Public Instruction to ensure school districts have access to technical assistance, as specified.

(3) Existing law establishes the Education Technology Grant Program of 2002 to provide grants to eligible school districts, county offices of education, and charter schools for purposes of implementing and supporting a comprehensive system that effectively uses technology to improve pupil academic achievement. Existing law bases eligibility for grant funds in part on the number or percentage of children in a school district who are from families with an income below the federally established poverty line. Existing law prioritizes the award of grants and gives first priority to middle and junior high schools, second priority to elementary schools, and third priority to other schools that serve pupils in grades 4 to 8, inclusive.

This bill would require the Superintendent of Public Instruction to seek a federal waiver to allow eligibility for small and rural school districts to be based on income information used for free and reduced cost meals and not on federal census data and would delete the priorities in the award of grants. The bill would require the State Department of Education to provide priority scoring to small school districts in reviewing grant applications.

Existing law requires that grant applicants within each of 11 regions compete against other applicants from that region and requires the amount of funding available to each region to be determined based on the proportionate enrollment of pupils in grades 4 to 8, inclusive, in eligible schools from that region.

This bill would set the minimum amount of a grant for a region at \$1,000,000 or 2% of available grant funds, whichever amount is greater. If a region is allocated more funding than is needed for its eligible applicants, the Superintendent of Public Instruction may develop a policy to ensure that all funding is distributed to other regions for their eligible but unfunded applicants.

Ch. 682 (AB 2717) Laird. California Urban Water Conservation Council: stakeholders.

Existing law, known as the Water Conservation in Landscaping Act, requires the Department of Water Resources to adopt a model local water efficient landscape ordinance that each local agency may adopt and requires a local agency to adopt a water efficient landscape ordinance by January 1, 1993, unless the local agency adopts specified findings that an ordinance is unnecessary.

This bill would declare the Legislature's intent that the California Urban Water Conservation Council convene a stakeholder workgroup composed of public and private agencies, and associations to evaluate and recommend proposals for improving the efficiency of water use in new and existing urban irrigated landscapes in the state.

The bill would also declare the Legislature's intent that the stakeholder workgroup report its recommendations to the Governor and the Legislature by December 31, 2005, and would provide that financial contributions by the nonstate agency stakeholders to pay the expenses of the stakeholder workgroup be on a voluntary basis without any contribution from the state agency stakeholders.

Ch. 683 (AB 2838) Salinas. Downpayment assistance: sales of real property.

(1) The existing California Homebuyer's Downpayment Assistance Program administered by the California Housing Finance Agency authorizes funds appropriated for purposes of the program to be used to provide downpayment assistance to first-time low- and moderate-income home buyers that does not exceed 3% of the home sales price. Moneys

transferred to the Self-Help Housing Fund by the Housing and Emergency Shelter Trust Fund Act of 2002 are continuously appropriated to the agency for purposes of the program.

This bill would authorize, subject to specified limitations, that downpayment assistance to not exceed 6% of the home sales price if provided to first-time low-income home buyers in specified revitalization areas. By authorizing a new purpose for continuously appropriated funds, the bill would make an appropriation.

(2) The Leroy F. Greene State School Building Lease-Purchase Law of 1976 prescribes priorities and procedures for the sale or lease with an option to purchase real property by a school district. The law requires a school district to offer to sell or lease with an option to purchase the real property in writing to specified state and local public entities and by public notice to other specified public entities and nonprofit organizations.

This bill would require the offer to sell or lease with an option to purchase to be provided in writing to these other public entities or nonprofit organizations only upon the submission of a written request to the school district that the entity or organization be directly notified of the offer. By increasing the duties of local officials, this bill would impose a state-mandated local program.

(3) This bill also would incorporate additional changes in Section 51504 of the Health and Safety Code proposed by AB 672, to be operative if AB 672 and this bill are both enacted and become effective on or before January 1, 2005, and this bill is chaptered last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 684 (AB 2922) Laird. California Environmental Quality Act: exemptions.

The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve if it finds that it may have a significant effect on the environment, as defined, or to adopt a negative declaration if it finds that the project will not have that effect.

CEQA authorizes the utilization of a master environmental impact report to evaluate the cumulative impacts, growth inducing impacts, and irreversible significant effects on the environment of subsequent projects. However, CEQA prohibits the use of a master environmental impact report if (1) the certification of the report occurred more than 5 years prior to the filing of an application for the subsequent project, or (2) if the approval of a project that was not described in the report may affect the adequacy of the environmental review in the report for any subsequent project, except as specified.

This bill would revise the above to prohibit the use of a master environmental impact report if the filing of an application for the subsequent project occurs following the certification of the master environmental impact report and the approval of a project that was not described in the master environmental impact report may affect the adequacy of the environmental review in the master environmental impact report for any subsequent project. The bill would permit the use of a master environmental impact report that was certified more than 5 years prior to the filing of an application for the subsequent project to review a subsequent project that was described in the master environmental impact report if the lead agency reviews the adequacy of the master environmental impact report and takes specified actions, as provided.

CEQA provides for various exemptions from the requirements of the act, including an exemption for low- and moderate-income households.

This bill would correct a statutory reference and make other technical, nonsubstantive changes to that exemption provision.

Ch. 685 (AB 3020) Koretz. Employment.

Existing law establishes the Joint Enforcement Strike Force on the Underground Economy to combat tax violations and cash-pay employment and to report to the Legislature on the underground economy by June 30 of each year. Existing law further designates the Director of Employment Development as the chairperson of the strike force and authorizes employees of any of the agencies that participate in the strike force to issue Labor Code citations and penalty assessment orders to employers found in violation of the law. These provisions are repealed by their own terms as of January 1, 2006.

This bill would eliminate the repeal of these provisions.

Existing law authorizes the imposition of civil wage and penalty assessments against contractors and subcontractors that fail to pay their workers the prevailing rate of per diem wages on a public work, as specified. Existing law authorizes a contractor or subcontractor against whom a civil wage or penalty assessment has been imposed to request a hearing to review that assessment, as provided, and requires, until January 1, 2005, the Director of Industrial Relations to appoint a hearing officer for such a hearing. On and after January 1, 2005, existing law requires the Director of Industrial Relations to appoint an administrative law judge for these hearings, as provided.

This bill would extend these dates by 2 years to instead require, until January 1, 2007, the Director of Industrial Relations to appoint a hearing officer for these hearings, and, on and after January 1, 2007, to appoint an administrative law judge for these hearings. This bill also would make conforming changes related to these provisions.

Ch. 686 (AB 3041) Committee on Environmental Safety and Toxic Materials. Hazardous waste transportation: hazardous materials handling.

(1) Existing law authorizes the Department of Toxic Substances Control to allow a household hazardous waste collection facility to accept hazardous waste from a conditionally exempt small quantity generator (CESQG). Existing law exempts a person transporting household hazardous waste and a CESQG transporting hazardous waste to an authorized household hazardous waste collection facility from the requirements of registration as a hazardous waste transporter and possession of a manifest, if specified requirements are met, including that the total amount of hazardous waste does not exceed a total liquid volume of 5 gallons or a total dry weight of 50 pounds. A violation of the requirements concerning household hazardous waste is a crime.

This bill would instead require, as a condition of exemption from hazardous waste transporter registration requirements, that a CESQG who is transporting hazardous waste to a household hazardous waste collection facility meet certain requirements, including that up to 27 gallons or 220 pounds, but not more than 100 kilograms, are transported per month, the hazardous waste is generated by that CESQG, the CESQG contacts with the household hazardous waste collection facility prior to delivery, and the hazardous waste is transported in a vehicle owned and operated by the CESQG.

Because a violation of the bill's requirements would be a crime pursuant to other provisions of the hazardous waste control law, the bill would impose a state-mandated local program.

(2) Existing law requires the Certified Uniform Program Agency or the designated authorized agency to establish business and area plans relating to the release or threatened release of hazardous materials.

This bill would delete obsolete language from the existing law.

(3) Existing law requires the penalties for a violation of the laws regulating underground storage tanks containing hazardous substances to be paid to the local agency or the state, whichever is represented by the office bringing the action.

This bill would require any penalties or fines paid to a unified program agency, or participating agency to be deposited in a special account and be expended only for purposes of enforcing those laws.

(4) Existing law requires a business that handles any amount of perchlorate material, as defined, to prepare and submit to the administering agency a business plan and an inventory form, both of which are required to address all perchlorate materials handled by that business.

This bill would instead require the business to prepare and submit any business or inventory form in accordance with the existing specified quantity requirements governing business plans for emergency response to a release or threatened release of a hazardous material.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 687 (SB 142) Alpert. Genetic testing.

Existing law requires the State Department of Health Services to establish a program for the development and evaluation of genetic disease testing to provide genetic screening and followup services for persons who elect to have the screening. Existing law requires the department to report to the Legislature regarding the progress of the program on or before January 1, 2002.

Existing law requires the department to expand statewide screening of newborns to include tandem mass spectrometry screening for fatty acid oxidation, amino acid, organic acid disorders, and congenital adrenal hyperplasia, and to provide information with respect to these disorders and testing resources to all women receiving prenatal care and admitted to a hospital for delivery. If the department is unable to provide statewide screening for these disorders by July 1, 2005, existing law requires the department to temporarily obtain statewide screening for these disorders from one or more laboratories, through a competitive bid process.

This bill would extend the date by which the department would be required to obtain screening from laboratories by competitive bid to August 1, 2005.

#### Ch. 688 (SB 318) Alpert. Urban water suppliers: desalinated water.

The Urban Water Management Planning Act requires urban water suppliers to prepare and adopt urban water management plans for submission to the Department of Water Resources.

This bill would require a plan to describe the opportunities for development of desalinated water, including, but not limited to, ocean water, brackish water, and groundwater, as a long-term supply.

#### Ch. 689 (SB 945) Sher. Environmental quality: guidelines.

(1) The existing California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project, as defined, that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect.

CEQA requires the Office of Planning and Research (OPR) to prepare and develop proposed guidelines for the implementation of CEQA by public agencies. CEQA requires that the guidelines contain various objectives, criteria, and procedures, as specified. CEQA requires OPR, at least once every 2 years, to review the guidelines and recommend changes or amendments to the Secretary of the Resources Agency. CEQA requires the Secretary of the Resources Agency to certify and adopt guidelines at least once every 2 years.

CEQA requires OPR to recommend proposed changes and the secretary to certify and adopt revisions to the guidelines to reflect changes enacted during the 1993–94 Regular Session of the Legislature within 6 months of the enactment of AB 314 of the 1993–94 Regular Session of the Legislature.

This bill would delete the requirements summarized in the preceding paragraph and would make conforming changes.

CEQA provides that no environmental impact report or negative declaration shall be approved for any project involving the construction or alteration of a facility within  $\frac{1}{4}$  of a mile of a school that might reasonably be anticipated to emit hazardous or acutely hazardous air emissions, or that would handle acutely hazardous material or a mixture containing acutely hazardous material in a quantity equal to or greater than a specified quantity prescribed by statute that may pose a health or safety hazard to persons who would attend or would be employed at the school, unless specified conditions occur, including that the school district has been given written notification of the project not less than 30 days prior to the proposed approval of the environmental impact report or negative declaration.

This bill would, instead, specify that an environmental impact report shall not be certified and a negative declaration shall not be approved for any project involving the construction or alteration of a facility within  $\frac{1}{4}$  of a mile of a school that might reasonably be anticipated to emit hazardous air emissions, or that would handle extremely hazardous substances in a quantity equal to or greater than a specified state threshold quantity prescribed by statute that may pose a health or safety hazard to persons who would attend or would be employed at the school, unless specified conditions occur, including that the school district has been given written notification of the project not less than 30 days prior to the proposed certification of the environmental impact report or approval of the negative declaration.

(2) This bill would provide that if AB 3090 is enacted on or before January 1, 2005, and amends Section 21087 of the Public Resources Code, then Section 4 of this bill, which would repeal Section 21087 of the Public Resources Code, would not become operative; and, this bill would not chapter out the amendments to Section 21087 of the Public Resources Code made by AB 3090.

Ch. 690 (SB 1488) Bowen. Public Utilities Commission: public information.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities. Existing provisions of the Public Utilities Act require every public utility to furnish reports as the commission may require. Existing law, with certain exceptions, requires each electrical corporation subject to regulation by the commission to submit prescribed procurement plans for review and approval by the commission. Existing law requires the commission to adopt procedures to ensure confidentiality of market sensitive information in proposed procurement plans or resulting from, or related to, procurement plans approved by the commission, including procedures for access by the Office of Ratepayer Advocates and consumer groups that are nonmarket participants. No information furnished to the commission by a public utility, except those matters specifically required to be open to public inspection, are open to public inspection or made public except by order of the commission or a commissioner in the course of a hearing or proceeding.

This bill would require the commission to initiate proceedings to examine its practices with respect to these confidentiality requirements and the California Public Records Act to ensure that these practices provide for meaningful public participation and open decisionmaking.

Ch. 691 (SB 1549) Figueroa. Professions and vocations.

(1) Existing law provides for the regulation of physicians and surgeons practicing osteopathic medicine by the Osteopathic Medical Board of California. Existing law requires an applicant for an original or reciprocity certificate issued by the board to pay an application fee in a sum not to exceed \$200. Existing law requires a person holding a certificate issued by the board to pay an annual registration fee.

This bill would authorize the board to increase the amount of the fee to not more than \$400 for an original or reciprocity certificate. The bill would instead require persons holding a certificate issued by the board to pay a biennial license fee. Because the bill would increase the amount of revenue deposited into the Contingent Fund of the Osteopathic Medical Board of California, which is a continuously appropriated fund, it would make an appropriation.

(2) Existing law establishes the California Architects Board in the Department of Consumer Affairs. Existing law authorizes the board to appoint an executive officer who is exempt from civil service to exercise the powers and perform the duties delegated by the board. Existing law creates a Landscape Architects Technical Committee within the board and authorizes the board to delegate specified authority to the committee. Existing law authorizes the committee to assist the board in the examination of candidates for a landscape architect's license and to make specified recommendations to the board regarding the regulation of landscape architects in California. Existing law provides for these provisions to become inoperative on July 1, 2005, and repealed on January 1, 2006.

This bill would delete the dates on which these provisions are to become inoperative and repealed and would instead provide that they are to become inoperative on July 1, 2009, and repealed on January 1, 2010. The bill would exempt specified activities of various persons from the laws regulating landscape architects, including, among others, architects, professional engineers, land surveyors, landscape contractors, and irrigation consultants. The bill would also authorize the board to implement, by regulation, an intern development program until July 1, 2009.

(3) Existing law defines certified interior designers and interior design organizations, and permits a certified interior designer to obtain and use a stamp identifying the designer. All documents submitted to a government regulatory organization by a certified interior designer must be affixed by the stamp. The provisions governing certified interior designers will be repealed January 1, 2006.

This bill would extend the repeal date of these provisions to January 1, 2007.

(4) Existing law establishes a Court Reporters Board of California which is responsible for regulating those engaged in the practice of shorthand reporting. Existing law also establishes the Transcript Reimbursement Fund to provide shorthand reporting services to low-income litigants by reimbursing applicants for the cost, as specified, of preparing transcripts. The moneys in the fund are derived from excess moneys in the Court Reporters' Fund and are continuously appropriated. Under existing law, the provisions creating and governing the use of the fund will become inoperative on July 1, 2005, and will be repealed on January 1, 2006.

This bill would extend the operation of these provisions until July 1, 2006, and would repeal them on January 1, 2007.

By extending the operation of the Transcript Reimbursement Fund, a continuously appropriated fund, this bill would make an appropriation.

(5) Existing law, the Boxing Act, establishes the State Athletic Commission in the Department of Consumer Affairs and specifies the membership of the commission. Existing law requires the commission to appoint an executive officer and fix his or her compensation. Existing law also authorizes the commission to employ other personnel as necessary. Existing law provides for these provisions to become inoperative on July 1, 2005, and to be repealed on January 1, 2006.

This bill would instead provide that these provisions become inoperative on July 1, 2006, and be repealed on January 1, 2007.

Existing law, the Boxing Act, provides for the regulation by the commission of boxing, kickboxing, and martial arts contests, matches, and exhibitions conducted, held, or given within California. Existing law defines the term "martial arts" for the purposes of the act.

This bill would revise the definition of the term "martial arts" to also mean any combination of full contact martial arts, including mixed martial arts.

(6) Existing law, the Professional Engineers Act, creates the Board for Professional Engineers and Land Surveyors in the Department of Consumer Affairs, and makes it responsible for the registration and the regulation of those engaged in the practice of engineering and land surveying. Existing law makes these provisions of the act creating the board inoperative on July 1, 2005, and repeals them on January 1, 2006.

This bill would extend the provisions relating to the board to July 1, 2006, and would change the repeal date to January 1, 2007.

This bill would require a licensee to report to the board a felony conviction and a civil judgment, settlement, arbitration award, or administrative action award of \$50,000 or more, occurring on or after July 1, 2006, if funds are appropriated for that purpose in the annual Budget Act and sufficient hiring authority is granted to the board for that purpose. The bill would also require a court rendering the judgment or conviction and a local agency, if self-insured, to report to the board. The bill would authorize a petition for review of disciplinary action taken by the board.

Because the bill would increase the duties of a local agency by requiring them to report certain information to the board, it would impose a state-mandated local program. Because the bill would specify additional reporting requirements for engineers and land surveyors, the violation of which would be a crime, it would impose a state-mandated local program.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, the bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(8) This bill would incorporate additional changes in Section 2472 of the Business and Professions Code proposed by AB 932, to be operative only if AB 932 and this bill are both enacted and become effective on or before January 1, 2005, and this bill is enacted last.

Ch. 692 (SB 1565) Bowen. State Energy Resources Conservation and Development Commission: strategic plan.

Existing law requires the State Energy Resources Conservation and Development Commission to conduct biennial assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices. The commission is required to use these assessments and forecasts to develop energy policies that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety. The commission is required to adopt a biennial integrated energy policy by November 1 that contains an overview of major energy trends and issues facing the state.

This bill would require the commission to adopt a strategic plan for the state's electric transmission grid using existing resources. The bill would require that the plan identify and recommend actions required to implement investments needed to ensure reliability, relieve congestion, and to meet future growth in load and generation, including, but not limited to, renewable resources, energy efficiency, and other demand reduction measures. This bill would require the strategic plan to be included in the integrated energy policy report adopted on November 1, 2005.

Ch. 693 (SB 1856) Bowen. Prescribed burning activities.

Existing law provides varying definitions of "prescribed burning" for purposes of air pollution control laws and forest protection laws.

This bill would revise those definitions to reconcile the differences and would make related changes.

Ch. 694 (SB 1891) Committee on Energy, Utilities and Communications. Public utilities: metering of multiunit residences: electrical transmission facilities: renewable energy resources.

(1) Existing law requires the commission to require every residential unit in an apartment house or similar multiunit residential structure, condominium, or mobilehome park issued a building permit on or after July 1, 1982, with certain exceptions, to be individually metered for electric and gas service, except that separate metering for gas service is not required for residential units that are not equipped with gas appliances requiring venting or that receive the majority of energy used for water or space heating from a solar energy system or through cogeneration technology.

This bill would except from the requirement for separate metering for gas service, multiunit residential units which are not equipped with gas appliances requiring venting or are equipped with only vented decorative appliances or which receive the majority of energy used for water or space heating from a solar energy system or through cogeneration technology.

(2) This bill would amend and renumber a provision of the Public Utilities Code to eliminate a duplicative statutory numbering.

(3) Under the Public Utilities Act, the Public Utilities Commission requires electrical corporations to identify a separate rate component to fund in-state operation and development of existing and new and emerging renewable resources technologies. This rate component is a nonbypassable element of local distribution and collected on the basis of usage. Existing law requires specified electrical corporations to collect specific amounts to support in-state operation and development of existing and new and emerging renewable resources technologies.

Existing provisions in the Public Resources Code and Public Utilities Code both require the State Energy Resources Conservation and Development Commission (Energy Commission) to transfer funds collected for in-state operation and development of existing and new and emerging renewable resources technologies into the Renewable Resource Trust Fund and establishes certain accounts in the fund to carry out certain renewable energy purposes.

This bill would repeal provisions in the Public Utilities Code pertaining to the creation and administration of the Renewable Resource Trust Fund by the Energy Commission. The bill would make other technical and conforming changes.

Ch. 695 (SB 1913) Committee on Business and Professions. Professions.

(1) Existing law provides for the licensing and regulation of psychologists, clinical social workers, and marriage and family therapists. Existing law requires a person applying for licensure as a psychologist, clinical social worker, or marriage and family therapist on and after January 1, 1987, to have completed specified coursework or training in child abuse assessment and reporting from certain types of institutions.

This bill would revise the types of educational institutions from which the training may be obtained.

(2) Existing law provides for the regulation of clinical laboratories. Existing law requires a clinical laboratory to send to persons submitting cytological samples for evaluation information letters on all cases of dysplasia, and requires that, when a clinical lab determines that an abnormality of dysplasia has been identified for a patient for whom the lab earlier reported a normal finding, all previous cytologic slides on that patient be reexamined by the lab.

This bill would instead state that documentation is required for high-grade squamous intraepithelial lesions, adenocarcinoma, or other malignant neoplasm.

(3) Existing law, the Medical Practice Act, provides for the licensing and regulation of physicians and surgeons by the Division of Licensing and the Division of Medical Quality, respectively, in the Medical Board of California. Existing law provides for the regulation and licensure of podiatrists by the California Board of Podiatric Medicine, in the Medical Board of California.

Existing law makes it unprofessional conduct for a licensed physician and surgeon or podiatrist to use any certificate, letters, words, or terms either as a prefix, affix, or suffix indicating that he or she is entitled to engage in a medical practice for which he or she is not licensed.

This bill would exempt from this prohibition a physician and surgeon who has been issued a retired license.

Existing law requires the Medical Board of California to provide representation and be liable for a judgment, with certain exceptions, in a lawsuit against a person hired or retained to provide testimony to the Division of Medical Quality or the California Board of Podiatric Medicine in the evaluation of a licensee's conduct.

This bill would expand the requirement to apply to any testimony to the Medical Board of California and to include an evaluation of the conduct of an applicant for licensure.

Existing law requires an applicant for a physician's and surgeon's license to include fingerprints in his or her application. Existing law requires an applicant to meet certain educational requirements, and authorizes the Division of Licensing to allow applicants to substitute certain postgraduate training for certain undergraduate requirements.

This bill would authorize the submission of a completed Livescan form in lieu of fingerprints. The bill would revise the authorization of the Division of Licensing to allow applicants to substitute postgraduate training for undergraduate requirements.

Existing law makes the supervision, use, or employment of a physician's assistant without the approval of the Division of Licensing unprofessional conduct.

This bill would delete this provision.

The California Board of Podiatric Medicine consists of specified members, 5 of whom are appointed by the Governor, and requires the Governor to give consideration to recommendations of the board, except with regard to the public members.

This bill would remove the requirement that the Governor give consideration to the recommendations of the board in appointing members to the board.

The bill would delete obsolete references in the Medical Practice Act.

(4) Existing law, the Licensed Midwifery Practice Act of 1993, licenses and regulates licensed midwives by the Medical Board of California.

This bill would specify that a midwife student meeting specified conditions is not precluded from engaging in the practice of midwifery as part of his or her course of study.

(5) Existing law provides for the licensure and regulation of occupational therapists by the California Board of Occupational Therapy. Existing law requires an initial applicant for an occupational therapy license to provide evidence of certain qualifications, including evidence of having successfully completed a board-approved education program specifically designed for applicants preparing for reentry into the field of occupational therapy.

This bill would delete the requirement that an applicant provide evidence of having successfully completed a board-approved educational program specifically designed for applicants preparing for reentry into the field of occupational therapy.

The bill would also revise an occupational therapist's scope of practice to include the application of topical medications prescribed by the patient's physician and surgeon or other specified practitioners, if specific requirements are met.

(6) Existing law provides for the licensure and regulation of psychologists by the Board of Psychology. Existing law requires completion of specified continuing education courses for licensure renewal and requires licensed psychologists to post a notice to consumers containing specified language regarding the Board of Psychology.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would revise the language in the notice and would allow a licensed psychologist to apply to the board for an exemption from this continuing education requirement if his or her practice does not include the direct provision of mental health services.

(7) Existing law provides for the licensure and regulation of respiratory care practitioners by the Respiratory Care Board of California. Existing law defines the practice of respiratory therapy to include the diagnostic and therapeutic use of the administration of medical gases and mechanical or physiological ventilatory support.

This bill would provide that mechanical or physiological ventilatory support includes devices used in whole or in part to provide ventilatory or oxygenating support. The bill would also authorize the board to require successful completion of professional courses as part of continuing education prior to initial licensure, and prior to consideration of a reinstatement petition. The bill would permit the board and an affected licensee to stipulate to the issuance of a public reprimand in lieu of the filing or prosecution of a formal accusation.

(8) Existing law, the Pharmacy Law, provides for the licensure and regulation of pharmacies and pharmacists by the California State Board of Pharmacy, in the Department of Consumers Affairs. A knowing violation of the Pharmacy Law is a crime. This bill would prohibit the board from issuing more than one site license to a single premise, except as specified.

Existing law, until January 1, 2005, precludes a pharmacist licensure applicant from taking the licensing examination after 4 unsuccessful attempts unless he or she completes additional pharmacy coursework. Existing law also authorizes the board to adopt rules and regulations necessary for the protection of the public, and specifies rules and regulations that may be adopted.

This bill would, until January 1, 2008, allow a pharmacy licensure applicant to take the licensing examination 4 times and 4 additional times upon completion of additional pharmacy coursework. The bill would add rules and regulations relating to the pharmacy practice experience necessary for licensure as a pharmacist and would define a license in good standing as a license issued by the board that is unrestricted by disciplinary action.

Existing law generally requires dangerous drugs or dangerous devices to be delivered to a licensed pharmacy premises and signed for and received by the pharmacist-in-charge or, in his or her absence, another pharmacist he or she delegates.

This bill would instead require signature by and delivery to a pharmacist. The bill would authorize a pharmacy to take delivery of dangerous drugs or dangerous devices when the pharmacy is closed and no pharmacist is on duty if specified requirements are met.

Existing law defines an intern pharmacist as a person registered with the board who has completed education requirements determined by the board. Existing law authorizes an intern pharmacist to perform activities pertaining to the practice of pharmacy as determined by the board, and requires that an act restricted to a pharmacist may be performed by an intern pharmacist only under the supervision of a pharmacist. Existing law prohibits a pharmacist from supervising more than one intern pharmacist at a time.

This bill would require the licensure of intern pharmacists and would set forth specified requirements that an intern pharmacist must meet, and conditions under which an intern pharmacist license may be issued. The bill would also authorize an intern pharmacist to perform all functions of a pharmacist at the discretion of and under the supervision of a pharmacist whose license is in good standing with the board, and would prohibit a pharmacist from supervising more than two intern pharmacists at one time.

Existing law requires an applicant for licensure as a pharmacist who has graduated from a foreign pharmacy school to, among other things, receive a grade satisfactory to the board on an examination designed to measure equivalency.

This bill would instead require a foreign-educated applicant to be certified by the Foreign Pharmacy Graduate Examination Committee.

Existing law authorizes a pharmacist or pharmacy renewing a license to make a \$25 contribution to the board to fund the California Pharmacist Scholarship and Loan Repayment Program.

This bill would require that the contribution be at least \$25.

The bill would also authorize a prescriber to dispense a controlled substance to an emergency room patient, if certain requirements are met.

The bill would, on and after July 1, 2005, require a pharmacy to compound sterile injectable products only in specified environments.

The bill would authorize veterinarians in a veterinary teaching hospital to dispense and administer dangerous drugs and devices from a common stock. The bill would make other related changes.

Because this bill would create new requirements and prohibitions applicable to pharmacists, the knowing violation of which would be a crime, it would impose a state-mandated local program.

(9) Existing law provides for the licensing and regulation of social workers by the Board of Behavioral Sciences in the Department of Consumer Affairs. Existing law sets forth an initial registration fee as an associate clinical social worker of \$90. Existing law requires an applicant for registration or licensure trained in an educational institution outside of the United States to meet specified requirements.

This bill would change the initial registration fee to \$75. The bill would also revise the licensure requirements for foreign graduates.

(10) Existing law, the Chiropractic Act, a statute enacted by initiative, creates the State Board of Chiropractic Examiners, which licenses and regulates the practice of chiropractic.

This bill would make certain provisions of the Business and Professions Code that are applicable to licensees who are licensed by various boards in the Department of Consumer Affairs, applicable to chiropractors.

(11) Existing law regulates chiropractic corporations, and requires the name of a chiropractic corporation to contain and be restricted to certain words.

This bill would require, but not restrict the name to, the use of those words.

(12) Existing law licenses and regulates the practice of speech-language pathology and audiology by the Speech-Language Pathology and Audiology Board. Existing law requires a licensee to complete specified continuing professional development coursework.

This bill would require courses to be approved by the board for those course hours to be credited, if the board has sufficient funding and staff resources.

(13) Existing law regulates professional corporations, defined as a corporation that is engaged in rendering professional services pursuant to a certificate of registration. Existing law exempts corporations that render services by persons licensed by specified boards from the requirement of obtaining a certificate of registration.

This bill would also exempt a speech-language pathology and audiology corporation from this requirement.

(14) Existing law regulates interior designers and interior design organizations, and repeals these provisions on January 1, 2006.

This bill would extend the repeal date of these provisions to January 1, 2007.

(15) This bill would incorporate additional changes in Sections 4059.5 and 4081 of the Business and Professions Code proposed by SB 1307, to be operative only if SB 1307 and this bill are both enacted and take effect, and this bill is enacted last.

(16) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 696 (AB 2158) Lowenthal. Housing elements: regional housing need.

(1) Existing law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. One part of the housing element is an assessment of housing needs and an inventory of resources and constraints relevant to meeting those needs. The assessment includes the locality's share of the regional housing need. That share is determined by the appropriate council of governments, subject to revision by the Department of Housing and Community Development. A city, county, or city and county is required to submit a draft housing element or draft amendment to its housing element to the department for a determination of whether the draft complies with state law governing housing elements.

This bill would revise the procedures for determining shares of the existing and projected regional housing need for cities, counties, and subregions at all income levels, as specified. By imposing additional duties upon local officials, this bill would create a state-mandated local program.

(2) This bill would provide that it shall only become operative if AB 2348 is enacted and becomes operative on or before January 1, 2005.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 697 (AB 2252) Montanez. The Vacation Ownership and Time-share Act of 2004.

(1) Existing law defines time-share estates and uses for the purposes of various provisions of law relating to subdivided lands. Existing law also requires certain time-share projects to be registered with the Real Estate Commissioner in the Business, Transportation and Housing Agency and requires that an application for a time-share project permit comply with specified fee and registration requirements, including the issuance of a public report by the commissioner.

Existing law also makes it a misdemeanor or a felony to violate the provisions relating to time-share projects and the requirements for public reports filed in support of a time-share project application if certain conditions are met.

This bill would delete the provisions relating to certain time-share projects and instead enact, effective July 1, 2005, the Vacation Ownership and Time-share Act of 2004 to provide disclosure to purchasers and prospective purchasers of time-share plans and exchange programs, as defined, by time-share developers and exchange companies and would require specified time-share plans offered for sale in this state or created and existing in this state to comply with specified fee, registration, notice, and disclosure requirements with respect to oral and written communications, including the issuance of a public report by the commissioner. The bill would provide that time-share plans, exchange programs, incidental benefits, and short-term product subject to this act are not "subdivisions" or "subdivided lands" within the meaning of the Subdivided Lands Act, and are exempt from other specified provisions of existing law.

This bill would authorize the commissioner to prescribe filing fees for an application for a public report and would provide that a violation of the bill's provisions is subject to an order to desist and refrain from specific acts if certain requirements are met. The bill would also make it a public offense, among other things, for any person to fail to comply with the requirements for the issuance of a final public report, to make any material misrepresentation that is false or misleading in connection with any advertisement or promotion of a time-share

plan, or to violate or fail to comply with provisions of the bill, as specified. By creating a new crime, the bill would impose a state-mandated local program.

The bill would declare that the regulation of time-share plans and exchange programs is an exclusive power and function of the state. The bill would also make other conforming and technical changes to other provisions affecting time-share projects, time-share plans, exchange programs, incidental benefits, short-term product, and other time-share interests, estates, and uses.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would incorporate additional changes in Section 7280 of the Revenue and Taxation Code proposed by AB 1916 that would become operative only if AB 1916 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

(4) This bill would incorporate additional changes in Sections 1365.1 and 1367.1 of the Civil Code proposed by SB 1682 and AB 2598, that would become operative only if this bill and either or both of these bills are enacted and become effective on or before January 1, 2005, as specified.

(5) This bill would incorporate additional changes in Sections 1365.1 and 1367.1 of the Civil Code proposed by SB 1682 and AB 2598, and changes consistent with AB 1836, that would become operative only if this bill and either SB 1682 or AB 2598 or both of these bills are enacted and become effective on or before January 1, 2005, and AB 1836 is enacted, as specified.

Ch. 698 (SB 1161) Alpert. California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2006.

Existing law establishes the California Library Construction and Renovation Bond Act of 1988 and the California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000. Existing law authorizes the issuance of bonds, pursuant to the State General Bond Law, in the amount of \$75,000,000 in the 1988 act and in the amount of \$350,000,000 in the 2000 act, for the purpose of financing library construction and renovation.

This bill would enact the California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2006, for submission to the voters at the 2006 statewide primary election. The bill, if approved by the voters, would authorize the issuance, pursuant to the State General Bond Law, of bonds in the amount not to exceed a total of \$600,000,000 for the purpose of financing library construction and renovation pursuant to a program administered by the State Librarian.

Ch. 699 (SB 1325) Kuehl. Hospitals: physicians and surgeons: self-governance.

The Medical Practice Act provides for licensing and regulation of physicians and surgeons by the Medical Board of California. Existing law provides that the practice of medicine in a licensed general or specialized hospital having 5 or more physicians and surgeons on the medical staff without provision for organization and self-governance of the medical staff under certain rules constitutes unprofessional conduct subject to discipline by the board under the act. A violation of the Medical Practice Act is a crime.

This bill would specify certain rights that would be included in a hospital medical staff self-governance. The bill would require the medical staff and the hospital governing board to meet and confer to resolve disputes related to these provisions, and would authorize court relief in certain circumstances. The bill would make findings and declarations of the Legislature in this regard.

Because the bill would change the definition of a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 700 (SB 1234) Kuehl. Crimes: civil rights.

Existing law provides that no person, whether or not acting under color of law, shall by force or threat of force, willfully injure, intimidate, interfere with, oppress, or threaten any other person in the free exercise or enjoyment of any right or privilege secured to him or her by the Constitution or laws of this state or by the Constitution or laws of the United States because of the other person's race, color, religion, ancestry, national origin, disability, gender, or sexual orientation, or because he or she perceives that the other person has one or more of those characteristics. Existing law also provides that no person, whether or not acting under color of law, shall knowingly deface, damage, or destroy the real or personal property of any other person for the purpose of intimidating or interfering with the free exercise or enjoyment of any right or privilege secured to the other person by the Constitution or laws of this state or by the Constitution or laws of the United States, because of the other person's race, color, religion, ancestry, national origin, disability, gender, or sexual orientation, or because he or she perceives that the other person has one or more of those characteristics. Existing law requires that any person who violates these provisions be punished by imprisonment in a county jail not to exceed one year, or by a fine not to exceed \$5,000, or by both that fine and imprisonment.

This bill would provide that conduct punishable under these provisions that also violates any other provision of law may be charged under all applicable provisions, but may only be punished once, as specified.

Existing law provides, except in the case of a person punished under the above provisions, that any crime that is not made punishable by imprisonment in the state prison shall be punishable by imprisonment in the state prison or in a county jail not to exceed one year, by a fine not to exceed \$10,000, or by both that imprisonment and fine, if the crime is committed against the person or property of another for the purpose of intimidating or interfering with that other person's free exercise or enjoyment of any right secured to him or her by the Constitution or laws of this state or by the Constitution or laws of the United States and because of the other person's race, color, religion, ancestry, national origin, disability, gender, or sexual orientation, or because the defendant perceives that the other person has one or more of those characteristics, under specified circumstances, including that the crime against property causes damage in excess of \$500.

This bill would revise and recast the provisions relating to hate crimes by, among other things, providing a definition for the term "hate crime." This bill would reduce the above property damage amount to \$400. Because this bill would change the definition of existing crimes and expand the scope of an existing crime, it would impose a state-mandated local program.

Under existing law, the Commission on Peace Officer Standards and Training is required to establish and keep updated a continuing education classroom training course relating to law enforcement interaction with developmentally disabled and mentally ill persons. The course is required to contain core instruction in specified areas.

This bill would change the term "developmentally disabled and mentally ill persons" to "mentally disabled persons." This bill would include in the course instruction by July 1, 2006, instruction on the fact that the crime was committed in whole or in part because of an actual or perceived disability of the victim is a hate crime. The bill would require the commission, using available funding, to develop by July 1, 2005, a 2-hour telecourse to be made available to all law enforcement agencies in California on crimes against homeless

persons and on how to deal effectively and humanely with homeless persons, including homeless persons with disabilities. The telecourse would be required to include information on multimission criminal extremism, as defined.

Existing law requires the commission to develop guidelines and a course of instruction and training for law enforcement officers who are employed as peace officers, or who are not yet employed as a peace officer but are enrolled in a training academy for law enforcement officers, addressing hate crimes. Existing law requires the course to include instruction in specified areas.

This bill would, in addition, by July 1, 2007, require the course to have instruction in multimission criminal extremism, the special problems inherent in some categories of hate crimes, preparation for, and response to, possible future anti-Arab/Middle Eastern and anti-Islamic hate crimewaves, and any other future hate crimewaves that the Attorney General determines are likely. This bill would require that the commission include in the guidelines a framework and possible content of general order or other formal policy on hate crimes that all state law enforcement agencies shall adopt and local law enforcement agencies would be encouraged to adopt, as specified.

The bill would make other conforming changes.

This bill would incorporate additional changes to Section 422.95 of the Penal Code proposed by AB 2428, contingent upon the prior enactment of that bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 701 (SB 1615) Denham. Air pollution: smog check: out-of-state vehicles.

Existing law establishes a motor vehicle inspection and maintenance program (smog check), administered by the Department of Consumer Affairs and the State Air Resources Board, that provides for the inspection of all motor vehicles, except those specifically exempted from the program, upon registration, biennially upon renewal of registration, upon transfer of ownership, and in certain other circumstances. Existing law also establishes an enhanced motor vehicle inspection and maintenance program (smog check II) in each urbanized area of the state, any part of which is classified by the United States Environmental Protection Agency as a serious, severe, or extreme nonattainment area for specified air contaminants. Existing law also requires the smog tests to include, at minimum, loaded mode dynamometer testing in enhanced areas, and 2-speed testing in all other program areas, and a visual or functional check of emission control devices specified by the department. Existing law exempted from those requirements, until January 1, 2003, any motor vehicle manufactured prior to the 1974 model-year, and after that date, exempts any motor vehicle that is 30 or more model-years old. Existing law requires the Department of Motor Vehicles to require that, upon registration of a motor vehicle subject to the smog check program that was previously registered outside this state, a person obtain a valid certificate of compliance or noncompliance.

This bill would repeal that provision requiring a person to obtain a certificate of smog check compliance upon the registration of a motor vehicle that was previously registered outside this state and would instead make those motor vehicles subject to the same requirements as in-state motor vehicles. The bill would make related conforming changes and delete obsolete references from existing law, and would provide that the deletions of obsolete references from existing law would only become operative if AB 2683 does not become operative, as specified.

Under existing law, 1965 or older model vehicles previously registered outside this state, with certain exceptions, are exempt from existing requirements for obtaining a certificate of smog check compliance or certificate of noncompliance, as appropriate, as a condition of registration of the vehicle in this state.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would revise the exemption to apply instead to the registration of vehicles previously registered outside this state that are 30 or more model years old, unless Assembly Bill 2683 is also enacted, and both bills become effective on or before January 1, 2005, in which case this bill would revise existing law, operative April 1, 2005, to make the exemption applicable to the registration of 1976 and earlier model year vehicles that have been previously registered outside this state.

Ch. 702 (AB 2104) Committee on Budget. State operations.

(1) Under existing law, whenever the Attorney General prevails in a civil action to enforce specified types of claims, the court is required to award the Attorney General all costs of investigating and prosecuting the action, including expert fees, reasonable attorney's fees, and costs.

This bill would correct erroneous cross-references contained in that provision.

(2) Existing law establishes the California Small Business Expansion Fund in the State Treasury to, among other things, pay for defaulted loan guarantees, administrative costs of corporations, and those costs necessary to protect a real property interest in a defaulted loan or guarantee. Existing law requires that the amount of guarantee liability outstanding at any one time not exceed 4 times the amount of funds on deposit in the expansion fund and requires that a corporate guarantee be backed by funds on deposit in the corporation's corporate fund.

This bill would require that the amount on deposit in the expansion fund for guarantee liability include any receivables due from funds loaned from the expansion fund to another fund in state government as directed by the Department of Finance pursuant to a statute enacted by the Legislature. The bill would also provide that a corporate guarantee may also be backed by receivables due from funds from the corporation's trust fund account to another fund in state government as directed by the Department of Finance pursuant to a statute enacted by the Legislature.

(3) Existing law sets forth the powers and duties of the Governor, including the appointment of various executive officers.

This bill would require the Governor to appoint an executive officer to be the Director of Homeland Security to serve at the pleasure of the Governor, and to appoint a deputy director of homeland security to serve at the pleasure of the director.

(4) Existing law establishes the method of calculating the distribution of appropriations from the Indian Gaming Special Distribution Fund for grants to local government agencies impacted by tribal gaming. Under existing law, the Controller, acting in consultation with the California Gambling Control Commission, is responsible for dividing county tribal casino accounts into individual tribal casino accounts, from which funds may be allocated for grants to local jurisdictions impacted by tribal gaming. Existing law specifies that funds not allocated from an individual tribal casino account by the end of each fiscal year revert back to the Indian Gaming Special Distribution Fund.

This bill would instead specify that funds not allocated from a county tribal casino account, if not allocated by the end of each fiscal year, revert back to the Indian Gaming Special Distribution Fund.

(5) The California Public Records Act establishes the right of every person to inspect and obtain copies of public records not exempt from disclosure from specified state and local agencies.

This bill would exempt from disclosure under that act the records of an Indian tribe received by the state, or by an agency, trust fund, or entity specified by the state, in connection with the sale of any portions of the designated tribal-state compact assets or the issuance of bonds, or other related documents, as specified. The bill would make related changes, and would include a statement of legislative intent.

(6) Existing law establishes a motor vehicle inspection and maintenance program (smog check), administered by the Department of Consumer Affairs and the State Air Resources

Board, that provides for the inspection of all motor vehicles, except those specifically exempted from the program, upon registration, biennially upon renewal of registration, upon transfer of ownership, and in certain other circumstances. Existing law requires the Department of Motor Vehicles to require any motor vehicle subject to those requirements to demonstrate compliance with those requirements. Existing law also establishes an enhanced motor vehicle inspection and maintenance program (smog check II) in each urbanized area of the state, any part of which is classified by the United States Environmental Protection Agency as a serious, severe, or extreme nonattainment area for specified air contaminants. Existing law also requires the smog tests to include, at a minimum, loaded mode dynamometer testing in enhanced areas, and 2-speed testing in all other program areas, and a visual or functional check of emission control devices specified by the department. Existing law exempts from those requirements, any motor vehicle 4 or less model-years old and also exempts any motor vehicle up to 6 model-years old, unless the state board determines that the exemption would prohibit the state from meeting the requirements of the federal Clean Air Act.

This bill would, commencing January 1, 2005, expand that exemption to include any motor vehicle 6 or fewer model-years old, unless the state board makes those same determinations regarding the requirements of the federal act.

(7) Existing law subjects any motor vehicle exempted from the smog check requirements that is 4 or less model-years old to a smog abatement fee of \$12 and authorizes the department to impose that fee on motor vehicles that are 5 or 6 model-years old, if the department expands the exemption from the smog check requirements to include those motor vehicles.

Existing law allocates the revenue generated by \$6 of that fee to be deposited in the Air Pollution Control Fund. Existing law requires the revenue generated by \$2 of that fee to be deposited in the High Polluter Repair or Removal Account in the Vehicle Inspection and Repair Fund, and requires the remainder of the revenues generated by the fee to be deposited in the Vehicle Inspection and Repair Fund.

Existing law establishes the Carl Moyer Memorial Air Quality Standards Attainment Program, which provides grants to offset the incremental cost of projects that reduce oxides of nitrogen from heavy-duty sources in the state, including off road and agricultural sources.

This bill would instead repeal those smog abatement fee provisions on January 1, 2005. The bill, until January 1, 2005, would reduce the smog abatement fee to \$6, and would require the revenues from \$2 of the fee to be deposited in the High Polluter Repair or Removal Account, with the remainder to be deposited in the Vehicle Inspection and Repair Fund. The bill would, commencing January 1, 2005, instead impose a smog abatement fee of \$12. The bill would require the revenues from \$6 of the fee to be deposited in the Air Pollution Control Fund, and would make those moneys available, upon appropriation, to fund the Carl Moyer Air Quality Standards Attainment Program, to the extent the state board or a participating district determines the moneys are expended to mitigate or remediate the harm caused by the type of motor vehicle on which the fee is imposed. The bill would require, of the revenue generated by the remaining \$6 of the fee, the revenue from \$2 to be deposited in the High Polluter Repair or Removal Account, and the revenue from \$4 to be deposited in the Vehicle Inspection and Repair Fund.

(8) Existing law makes any violation of the smog check program a misdemeanor.

This bill would impose a state-mandated local program by changing the definition of a crime.

(9) Existing law establishes the Mono Lake Tufa State Reserve as a unit of the state park system. Existing law provides that the reserve consists of the state-owned portions of the Mono Lake bed lying at or below the elevation of 6,417 feet above sea level. Existing law requires the Department of Parks and Recreation to manage the reserve, as specified.

This bill would specify that the reserve, and the department's management of the reserve, includes all resources within the reserve's boundaries, including the waters of Mono Lake, except that the department's management authority would not extend to certain matters.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

(10) Existing law establishes the Employment Development Department Contingent Fund, which is continuously appropriated without regard to fiscal year for refunds of amounts collected and erroneously deposited, for interest payable under the state unemployment and disability compensation program, and for administration of the Employment Development Department in the Health and Welfare Agency. Existing law prohibits any expenditure for administration from the fund, except under an authorization made by the Director of Finance, as specified.

This bill would repeal that prohibition.

(11) Existing law exempts a transfer of ownership of a motor vehicle from the smog check requirements in certain circumstances, including transfers within the initial 90-day validity period of a smog certificate, between certain family members, or in certain business circumstances, and if the motor vehicle is 30 or more model-years old.

This bill would, commencing January 1, 2005, also exempt any transfer of ownership of a motor vehicle that is 4 or less model-years old. The bill would require the department to impose a fee of \$8 on the transferee of the vehicle and would require the revenues generated by that fee be deposited in the Vehicle Inspection and Repair Fund. The bill would also delete obsolete provisions in existing law.

(12) Existing law authorizes, on a project-by-project basis, and in accordance with designated plans, state participation in federal flood control projects and specifies the degree of cooperation to be assumed by the state and local agencies in connection with those projects. Existing law establishes procedures for the assumption of flood control maintenance and operation duties by the Department of Water Resources in connection with the formation of a maintenance area on behalf of a federal flood control project unit. Existing law prescribes requirements relating to the imposition of assessments on behalf of a maintenance area. Existing law requires the funds generated by the imposition of the assessments to be deposited in the Water Resources Revolving Fund and continuously appropriates those funds to pay the operation and maintenance costs of maintenance areas.

The bill would change requirements relating to the imposition of assessments by, among other things, revising the definition of the term "operation and maintenance costs" to include additional costs. By including additional costs paid in maintenance areas from the continuous appropriation of funds from the Water Resources Revolving Fund, the bill would make an appropriation.

(13) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(14) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 703 (AB 2128) Jackson. Air pollution: smog check: voluntary vehicle retirement incentives.

Existing law establishes a motor vehicle inspection and maintenance program (smog check), administered by the Department of Consumer Affairs and the State Air Resources Board, that provides for the inspection of all motor vehicles, except those specifically exempted from the program, upon registration, biennially upon renewal of registration, upon transfer of ownership, and in certain other circumstances. Existing law establishes the High Polluter Repair or Removal Account in the Vehicle Inspection and Repair Fund for use by the department and the state board to establish and implement a program for the repair or replacement of high polluting vehicles. Existing law designates the state board as the state agency charged with coordinating efforts to attain and maintain ambient air quality standards.

Existing law exempts, commencing January 1, 2005, any motor vehicle up to 6 model-years old from the smog check program, but subjects those motor vehicles to an annual smog abatement fee of \$12. Existing law allocates the revenue generated by \$6 of that

fee to be deposited in the Air Pollution Control Fund. Existing law allocates, of the revenue generated by the remaining \$6 of the fee, the revenues generated by \$2 of the fee to the High Polluter Repair or Removal Account in the Vehicle Inspection and Repair Fund, and the revenues generated by \$4 of the fee to the general Vehicle Inspection and Repair Fund.

This bill would instead, commencing January 1, 2005, of the revenues generated by the remaining \$6 of the fee, allocate the revenues generated by \$4 of the fee to the High Polluter Repair or Removal Account in the Vehicle Inspection and Repair Fund, and the revenues generated by \$2 of the fee to the general Vehicle Inspection and Repair Fund.

Ch. 704 (AB 2683) Lieber. Air pollution: smog check.

(1) Existing law establishes a motor vehicle inspection and maintenance program (smog check), administered by the Department of Consumer Affairs and the State Air Resources Board, that provides for the inspection of all motor vehicles, except those specifically exempted from the program, upon registration, biennially upon renewal of registration, upon transfer of ownership, and in certain other circumstances. Existing law requires the Department of Motor Vehicles to require any motor vehicle subject to those requirements to demonstrate compliance with those requirements. Existing law also establishes an enhanced motor vehicle inspection and maintenance program (smog check II) in each urbanized area of the state, any part of which is classified by the United States Environmental Protection Agency as a serious, severe, or extreme nonattainment area for specified air contaminants. Existing law also requires the smog tests to include, at minimum, loaded mode dynamometer testing in enhanced areas, and 2-speed testing in all other program areas, and a visual or functional check of emission control devices specified by the department. Existing law exempted from those requirements, until January 1, 2003, any motor vehicle manufactured prior to the 1974 model-year, and after that date, any motor vehicle that is 30 or more model-years old.

This bill would instead, commencing April 1, 2005, exempt from the smog check requirements, and the smog check compliance requirements, any motor vehicle manufactured prior to the 1976 model-year.

Existing law exempts from existing smog check requirements, any motor vehicle 4 or less model-years old and also exempts any motor vehicle up to 6 model-years old, unless the state board determines that the exemption would prohibit the state from meeting specified requirements of the federal Clean Air Act. Existing law, commencing January 1, 2005, exempts from those requirements any motor vehicle up to 6 model-years old. Existing law also exempts, commencing January 1, 2005, the transfer of ownership of any motor vehicle 4 or less model-years old, but subjects the transferee of that vehicle to a smog abatement fee of \$8, the revenues from which are required to be deposited into the Vehicle Inspection and Repair Fund.

This bill would, commencing April 1, 2005, make the exemption for any motor vehicle 4 or less model-years old inapplicable if the state board makes those same determinations regarding the requirements of the federal act.

The bill would also provide that, commencing April 1, 2005, defined collector motor vehicles for which proof of insurance is submitted on that basis in accordance with regulations of the Bureau of Automotive Repair, and that are at least 35 model-years old, shall be subject to otherwise applicable exhaust emissions standards, but shall not be required to pass a visual and functional inspection of emission equipment, other than a functional inspection of the fuel cap and a visual inspection for liquid fuel leaks.

(2) Under existing law, the Department of Motor Vehicles, with certain exceptions, is required to obtain submission of a valid smog check certificate of compliance or noncompliance, as appropriate, in order to register a motor vehicle previously registered outside the state. Among other exemptions, from this requirement, existing law exempts 1965 or earlier model-year motor vehicles.

This bill, commencing April 1, 2005, would instead apply the model-year exemption that is applicable to vehicles registered in this state. The bill would also make technical clarifying changes.

(3) Existing law makes any violation of the smog check requirements a misdemeanor.

To the extent that the bill would impose the smog check requirements on additional vehicles on and after April 1, 2005, this bill would impose a state-mandated local program by expanding the scope of a crime.

(4) This bill would render inoperative on and after April 1, 2005, the amendments to Sections 43843 and 44004 of the Health and Safety Code proposed by SB 1615, if this bill is enacted after SB 1615.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 705 (AB 389) Montanez. Hazardous materials: brownfields.

Existing law, the Carpenter-Presley-Tanner Hazardous Substance Account Act, imposes liability for hazardous substances removal or remedial actions.

Existing law, including the Porter-Cologne Water Quality Control Act and the provisions regulating hazardous waste and releases from underground storage tanks, imposes various requirements with regard to corrective action and cleanup and abatement, upon persons subject to those acts.

This bill would enact the California Land Reuse and Revitalization Act of 2004, which would provide that an innocent landowner, a bona fide purchaser, or a contiguous property owner, as defined, qualifies for immunity from liability for response cost or damage claims under specified state statutory and common laws that impose liability upon an owner or occupant of property, for pollution conditions caused by a release or threatened release of a hazardous material on, under, or adjacent to that property, if the innocent purchaser, bona fide purchaser, or contiguous property owner meets specified conditions. The bill would prohibit an agency, as defined, from requiring an innocent landowner, bona fide purchaser, or contiguous property owner to take a response action under those state laws, other than a response action required in an approved response plan. The bill would, if there are unrecovered response costs incurred by an agency, at a site for which an owner of the site is not liable as a bona fide purchaser, require the agency to have a lien on the site, or authorize the agency to obtain from the owner a lien on other property or other assurance of payment for the unrecovered response costs, as specified.

This bill would authorize a court, in an action for contribution or recovery of response costs incurred at a site, to award reasonable attorneys' fees and experts' fees to an innocent landowner, bona fide purchaser, or contiguous landowner, as specified.

This bill would require the California Environmental Protection Agency, by March 31, 2005, to develop a form containing specified information that a bona fide purchaser, innocent landowner, or contiguous property owner who is subject to immunity would be required to complete and submit to the agency. The bill would require the agency, by July 1, 2005, and annually thereafter, to submit a report to the Legislature compiling this data and comparing brownfield response actions completed by agencies under the act with other similar response actions.

The bill would require a bona fide purchaser, innocent landowner, or contiguous property owner who seeks to qualify for the immunity provided by the act to enter into an agreement with an agency that includes the performance of a site assessment, and if the agency determines that a response plan is necessary, the preparation and implementation of a response plan. The bill would require a person who enters into an agreement to reimburse the agency that enters into the agreement for all agency costs.

The bill would require a person who enters into an agreement with an agency for oversight of a site assessment to submit a site assessment plan to the agency. The bill would require the agency to evaluate the adequacy of the site assessment plan to ensure that it contains all necessary information and, after evaluating the site assessment plan, if the agency finds that the plan is adequate, the agency would be required to approve the plan and provide notification to appropriate persons.

The bill would require a person, after implementing the site assessment plan, to submit a report of its findings to the agency. The bill would require the agency, based upon a review of this information, to determine whether a response action is necessary to address any unreasonable risk from hazardous materials at the site. If the agency determines that a response action is necessary to prevent or eliminate an unreasonable risk, the bill would require the bona fide purchaser, innocent landowner, or contiguous property owner to submit a response plan to the agency to conduct a response action at the site. The bill would require the agency to evaluate the adequacy of the response plan and to approve the plan if the agency makes specified findings.

The bill would authorize a response plan to require the use of a land use control that imposes appropriate conditions, restrictions, and obligations on land use or activities if, after completion of the removal and remedial actions specified in the response plan, hazardous substance materials remain at the site at a level that is not suitable for the unrestricted use of the site, pursuant to a specified procedure. The bill would authorize the Department of Toxic Substances Control to exclude any portion of a response action conducted entirely onsite from certain hazardous waste facilities permit requirements.

The bill would repeal the act on January 1, 2010, but would provide that a person who is subject to immunity pursuant to the act before January 1, 2010, would continue after that date to have that immunity, if the person continues to be in compliance with the requirements of the act.

The bill would require the Department of Toxic Substances Control to revise and upgrade the department's database systems to enable compatibility with the existing databases of the State Water Resources Control Board, as specified, by January 1, 2006, and would require the California Environmental Protection Agency, the department, the California regional water quality control boards, and the State Water Resources Control Board, to expand their respective Web sites, by January 1, 2006.

The bill would authorize the Department of Toxic Substances Control to expend any grant received pursuant to certain provisions of the federal Small Business Liability Relief and Brownfield Revitalization Act for state response programs, to implement the database provisions, to the extent the activities are in accordance with the terms and conditions of the grant.

The bill would require the Secretary for Environmental Protection to designate a brownfields ombudsperson, with specified duties.

The bill would authorize a bonafide purchaser to enter into a consultative services agreement, with the Department of Toxic Substances Control, as specified.

#### Ch. 706 (AB 471) Simitian. Air emissions: cruise ships.

Existing law regulates the release of sewage sludge, oily bilgewater, hazardous waste, or other waste by large passenger vessels into the marine waters of the state.

This bill would prohibit a cruise ship, as defined, from conducting onboard incineration while operating within 3 miles of the California coast.

#### Ch. 707 (AB 923) Firebaugh. Air pollution.

(1) Existing law authorizes the district board of the Sacramento Metropolitan Air Quality Management District to adopt a surcharge on motor vehicle registration fees applicable to all motor vehicles registered in the counties within that district. Existing law limits the amount of that surcharge to \$4 for a motor vehicle whose registration expires on or after December

31, 1990. Existing law requires the Department of Motor Vehicles to collect that surcharge, and requires the Sacramento district to implement the air quality improvement strategy adopted by the Sacramento district.

Existing law establishes the Carl Moyer Memorial Air Quality Standards Attainment Program (Carl Moyer program), which provides grants to offset the incremental cost of eligible projects that reduce oxides of nitrogen from heavy-duty mobile sources in the state. Existing regulations adopted by the State Air Resources Board establish the Lower-Emission School Bus Program, which provides grants for the purchase and retrofit of new, lower emitting schoolbuses, and the Voluntary Accelerated Light-Duty Vehicle Retirement Program, which provides incentives for the early retirement of passenger motor vehicles.

This bill would increase that surcharge limit to \$6. The bill would require the Sacramento district to utilize the revenues from \$4 of the surcharge to implement reductions in emissions from vehicular pollution sources, and the revenues from \$2 of the surcharge to implement the Carl Moyer program, the new purchase, retrofit, repower, or add-on of previously unregulated equipment for agricultural sources of air pollution, as specified, the new purchase of schoolbuses pursuant to the Lower-Emission School Bus Program, and an accelerated vehicle retirement or repair program, in order to achieve reductions in emissions from vehicular sources and offroad engines. The bill would limit the amount of the surcharge used by the district for its administrative expenses to 5% of the funds collected. The bill would preclude use of a project funded under the program for credit under any state or federal emissions averaging, banking, or trading program, would require retirement of those credits as a condition of funding for projects involving new engines, and would also preclude emission reductions under the program from being used as marketable emission reduction credits or to offset emission reduction obligations. Subject to prescribed conditions, the bill would authorize funding under the program for the purchase of low-emission vehicles or equipment that generate surplus emissions reductions.

(2) Existing law authorizes each district that has been designated a state nonattainment area by the state board for any motor vehicle air pollutant, except the Sacramento district, to levy an additional surcharge of not more than \$4 on the registration fees for every motor vehicle registered in that district, as specified by the governing body of the district. Existing law requires the department to collect that surcharge if requested by a district, and requires the department, after deducting its administrative costs, to distribute the revenues to the districts. Existing law requires the districts to use those revenues to reduce air pollution from motor vehicles and to carry out related planning, monitoring, enforcement, and technical studies.

This bill would increase the specified surcharge amount to \$6. The bill would require each district to utilize the revenues resulting from \$2 of the surcharge to implement programs to remediate the air pollution harms caused by motor vehicles under the Carl Moyer program, the new purchase, retrofit, repower, or add-on of equipment for previously unregulated agricultural sources, the new purchase of schoolbuses pursuant to the Lower-Emission School Bus Program, and an accelerated vehicle retirement or repair program. The bill would limit the amount of the surcharge used by the district for its administrative expenses to 5% of the funds collected. The bill would preclude use of a project funded under the program for credit under any state or federal emissions averaging, banking, or trading program, would require retirement of those credits as a condition of funding for projects involving new engines, and would also preclude emission reductions under the program from being used as marketable emission reduction credits or to offset emission reduction obligations. Subject to prescribed conditions, the bill would authorize funding under the program for the purchase of low-emission vehicles or equipment that generate surplus emissions reductions.

(3) Existing provisions of the Carl Moyer program provide grants to offset the incremental costs of eligible projects that reduce emissions of oxides of nitrogen from covered vehicles and covered engines, as defined, in the state.

This bill would expand the types of emissions covered by the Carl Moyer program to include additionally emissions of particulate matter and reactive organic gases from defined covered sources in the state. The bill would require the state board to establish or update criteria and guidelines for covered vehicle projects under the program, as revised by the bill, not later than January 1, 2006, and would authorize separate guidelines and criteria for the different types of eligible projects.

(4) Existing provisions of the Carl Moyer program specify criteria and exclusive categories of projects eligible for funding and, with certain exceptions, preclude funding under the program of any new purchase, retrofit, repower, or add-on equipment that is required by law or a legally binding document of local, state, or federal public entity. Existing law also specifies a scheme for allocation of program funding.

This bill would revise those criteria and the listing of eligible projects, would make the listing illustrative, rather than limiting, and would preclude funding any type of project under the program after the compliance date required by law or a legally binding document of any local, state, or federal public entity. The bill would authorize the state board to establish criteria for funded projects, including requirements respecting minimum project life. The bill would substantially revise existing provisions allocating program funding, including specifying a minimum \$200,000 allocation to each district except the South Coast Air Quality Management District. The bill would specify criteria and administrative terms and conditions for allocation of program funding among districts.

(5) Existing provisions of the Carl Moyer program require that the cost-effectiveness of project grants exceed \$12,000 per ton of nitrogen oxides reduction.

This bill would reduce that standard to \$13,600 per ton, and would require the state board to determine appropriate adjustment factors to calculate weighted cost-effectiveness for projects obtaining reductions in emissions of particulate matter and reactive organic gasses.

(6) Existing law imposes a California tire fee amount on every person who purchases a new tire for use for prescribed purposes related to disposal and use of used tires. Existing law limits use of these moneys for administrative overhead to 5% of total revenue or as specified in the annual Budget Act. Under existing law, the tire fee is \$1 per tire prior to January 1, 2007, and 75¢ thereafter.

This bill would increase the tire fee applicable on and after January 1, 2005, to \$1.75 per tire, and would, commencing January 1, 2007, reduce that fee to \$1.50 per tire. The bill would require that, commencing January 1, 2005, and until December 31, 2006, of the revenues generated by the imposition of the fee, an amount equal to 75¢ per tire on which the fee is imposed be deposited in the Air Pollution Control Fund for use by the state board and the districts to fund programs and projects that mitigate or remediate air pollution caused by tires in the state, to the extent that the state board or applicable district determines that the program or project mitigates or remediates air pollution harms created by tires upon which the California tire fee is imposed. The bill would decrease the amount to be deposited in the Air Pollution Control Fund, commencing January 1, 2007, to an amount equal to 50¢ per tire on which the fee is imposed, as specified. The bill would require the remaining revenues resulting from the imposition of the tire fee to be deposited in the California Tire Recycling Management Fund for use to fund the existing waste tire program. The bill would increase the amount of moneys appropriated for the waste tire program that may be used for administrative overhead from 5% to 6%.

(7) All changes made by the bill would be repealed on January 1, 2015.

Ch. 708 (AB 1701) Laird. State lands: acquisition.

Existing law authorizes various agencies to acquire land for purposes related to conservation.

This bill would require an acquisition agency, as defined, prior to approving the acquisition of conservation land, as defined, where an agency proposes to spend more than \$25,000,000 of state funds, to contract for at least one independent appraisal of the fair

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

market value of the land. The bill would require the independent appraisal to be conducted by a qualified member of the Appraisal Institute and reviewed by a qualified independent appraiser retained by the acquisition agency for this purpose.

The bill would require the acquisition agency to make available for public review, among other things, the independent appraisal review, a summary of the basis for the recommendation of approval for the acquisition of the land, and any relevant environmental studies, documents, or other information.

The bill would provide that its procedures and requirements are in addition to, and do not amend, modify, or supplant, any procedures or requirements in specified bond acts for the acquisition of conservation lands.

The bill would prohibit, with a specified exception, conservation lands from being sold to another owner or having possession and control transferred to another agency, unless specified actions occur. The bill would require proceeds from the sale or transfer of conservation lands to be used solely for acquisition of conservation lands to achieve the same or equivalent objectives as the original acquisition of the property that was sold or transferred, or to further the purposes of the State Coastal Conservancy, the Wildlife Conservation Law of 1947, or another specific conservation program, as specified.

#### Ch. 709 (AB 1876) Chan. Public beach sanitation.

Existing law sets forth sanitation requirements relating to the testing and posting of public beaches. Existing law declares that these provisions are not mandatory upon local public health officers in fiscal years when the Legislature does not appropriate sufficient funds.

Existing law, the McAteer-Petris Act establishes the San Francisco Bay Conservation and Development Commission in order to protect the shoreline and body of the San Francisco Bay.

This bill would provide that “public beach” for these purposes includes a public beach located within a coastal zone and a public beach located within the jurisdiction of the San Francisco Bay Conservation and Development Commission.

To the extent that this bill would increase the duties of local health officers, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 710 (AB 2093) Nakano. Large passenger vessels: graywater.

Existing law prohibits large passenger vessels, as defined, from releasing specified substances into the marine waters of the state, and requires the owner or operator of a large passenger vessel to notify the State Water Resources Control Board of a release that violates one of those prohibitions, as specified. Existing law provides that a person who violates one of those prohibitions is subject to a civil penalty, as specified.

This bill would prohibit the owner or operator of a large passenger vessel from releasing, or permitting anyone to release, any graywater, as defined, from the vessel into the marine waters of the state.

The bill would require the owner or operator of a large passenger vessel to immediately notify the board of a release of graywater from the vessel into the marine waters of the state, as specified. The bill would provide that a person who violates the prohibition of releasing graywater from a large passenger vessel into the marine waters of the state is subject to a civil penalty, as specified.

#### Ch. 711 (AB 2185) Frommer. Asthma treatment care.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health

Care and makes a violation of the act's requirements a crime. Under the act, a plan is required to provide coverage for specified types of medications.

This bill would require a health care service plan that covers outpatient prescription drug benefits to provide coverage for inhaler spacers, nebulizers, and peak flow meters when medically necessary for the management and treatment of pediatric asthma.

Because the bill would specify additional requirements for a health care service plan, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 712 (AB 2420) La Malfa. Forest resources.

(1) The Z'berg-Nejedly Forest Practice Act of 1973 generally prohibits a person from conducting timber operations unless the person has submitted a timber harvesting plan to the Department of Forestry and Fire Protection and received approval of the plan from the Director of Forestry and Fire Protection.

Existing law authorizes the State Board of Forestry and Fire Protection to exempt from the act a person engaged in specified forest management activities, if the exemption is consistent with the purposes of the act.

Existing law provides that a willful violation of the act or a regulation of the board is a crime.

This bill would authorize, until January 1, 2008, the board to exempt from the act, if the exemption is consistent with the purposes of the act, the harvesting of trees, limited to those trees that eliminate the vertical continuity of vegetative fuels and the horizontal continuity of tree crowns, for the purpose of reducing the rate of fire spread, fire duration and intensity, fuel ignitability, or ignition of tree crowns, if specified requirements are met. The bill would require the department, after timber operations are complete, to conduct an on-site inspection, as specified. Because a willful violation of the exemption requirements would be a crime, the bill would impose a state-mandated local program.

The bill would make legislative findings and declarations regarding wildfires.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

The bill would provide that no reimbursement is required by this act for a specified reason.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 713 (AB 2519) Berg. Duck Stamp Account: salmon: roe herring.

(1) Under existing law, funds derived from state duck hunting validations, state duck stamps, and certain related items are required to be deposited in the Duck Stamp Account in the Fish and Game Preservation Fund. Existing law provides that moneys in the account are to be used, among other things, for projects approved by the Fish and Game Commission for the purpose of protecting, preserving, restoring, enhancing, and developing migratory waterfowl breeding and wintering habitat, evaluating habitat projects, and conducting waterfowl resource assessments and other waterfowl related research.

This bill would additionally authorize moneys in the account to be used to fund endowments approved by the commission for use for these purposes.

(2) Existing law creates the Commercial Salmon Stamp Account in the Fish and Game Preservation Fund, and requires that moneys in the account be continuously appropriated to the Department of Fish and Game for new or expanded salmon restoration and enhancement programs in the state that will serve to increase ocean salmon landings.

This bill would authorize the department, in consultation with, the Commercial Salmon Trollers Advisory Committee, to allocate funds from the account for specified purposes related to salmon restoration and recovery.

(3) Existing law prohibits the taking of herring for commercial purposes without a permit, subject to regulations adopted by the Fish and Game Commission, and the payment of specified fees to the commission.

This bill would authorize the commission, in consultation with representatives of the commercial roe herring fishery, and after holding at least one public hearing, to adjust fees charged for permits, including fees charged for the issuance or transfer of permits, as provided. The bill would also authorize the commission, in consultation with representatives of the commercial roe herring fishery, after holding at least one public hearing, to adopt regulations intended to facilitate the transfer of herring permits, as specified.

Ch. 714 (AB 2529) Kehoe. Water quality: marine managed areas.

Existing law, the Marine Managed Areas Improvement Act, establishes a program pursuant to which various geographic areas are classified as marine managed areas for the purposes of regulating activities within, and otherwise protecting, those areas.

This bill would establish a program for marine managed areas pursuant to which the State Water Resources Control Board would award grants, upon the appropriation of funds for that purpose, to local public agencies and nonprofit organizations to restore and protect the water quality and environment of marine managed areas. The bill would require the state board to appoint a marine managed areas water quality task force for the purpose of recommending projects to fund in connection with that program.

Ch. 715 (AB 2722) Laird. Natural Heritage Preservation Tax Credit Act of 2000: bond funds.

Under the existing Natural Heritage Preservation Tax Credit Act of 2000, property may be contributed to departments, as defined, any local government, or any nonprofit organization designated by a local government or department, based on specified criteria, in order to provide for the protection of wildlife habitat, open space, and agricultural lands. The act defines "department" to mean any entity created by statute within the Resources Agency and authorized to hold title to land. The act authorizes a credit against the personal income or bank and corporation tax in an amount equal to 55% of the fair market value of any qualified contribution.

This bill would expand the definition of "department" to include the Resources Agency. The bill would also amend the definitions of "designated nonprofit organization" and "local government," with respect to acquisition of property pursuant to the act using specified bond funds.

The bill would allow any department or local government authorized to acquire interests in property under specified provisions of particular state bonds approved by the voters, to expend those bond funds to acquire property. The bill would authorize a department or a local government to apply for a designated nonprofit organization to acquire the property, upon expenditure of those particular bond funds, as specified. The bill would provide for the department to which those bond funds have been appropriated or awarded, or which has allocated those bond funds to the local government, to transfer from those bond funds to the Natural Heritage Preservation Tax Credit Reimbursement Account, which the bill would create, funds in the amount of the tax credit necessary for the department, local government, or designated nonprofit organization, as applicable, to acquire the property by donation pursuant to the Natural Heritage Preservation Tax Credit Act of 2000. The bill would require the expenditure to comply with the purpose, as defined, of the applicable bond act and with the Natural Heritage Preservation Tax Credit Act of 2000.

The bill would establish the procedures by which the bond funds could be approved and used for these purposes. The bill would require moneys in the Natural Heritage Preservation

Tax Credit Reimbursement Account, upon appropriation, to be used to reimburse the General Fund for the amount of tax credits awarded using the bond funds, as specified.

Ch. 716 (SB 117) Machado. Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002.

The Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002, an initiative measure approved by the voters at the November 5, 2002, statewide general election, authorizes the issuance of bonds in the amount of \$3,440,000,000 for the purposes of financing a safe drinking water, water quality, and water reliability program. Existing law, notwithstanding other provisions of the act that require the development of project solicitation and evaluation guidelines, the provision of technical assistance, and the preparation and delivery of reports to the Legislature on the expenditure of bond funds, requires responsible agencies to use electronic communication, to determine the timing of the development of guidelines, and to use any and all other efficiencies necessary to provide a public process reasonably calculated to provide access and relevant grant application and award information to interested persons within the budgetary and personnel constraints imposed by the state budget.

This bill would modify that provision notwithstanding provisions of the act to exclude reference to provisions relating to the use of a matching fund requirement, the use of existing guidelines, and the provision of technical assistance. The bill would require responsible agencies, to the maximum extent feasible, to provide outreach to disadvantaged communities to promote access to relevant grant application and award information.

Ch. 717 (SB 805) Escutia. Hazardous substances: brownfields.

Existing law, the California Land Environmental Restoration and Reuse Act (CLERRA), specifies a procedure for the selection of an oversight agency for a property subject to a phase I environmental assessment by representatives of the Department of Toxic Substances Control and the State Water Resources Control Board. The act authorizes a local agency to issue a notice requiring the owner or operator to conduct a phase I environmental assessment of certain property, in response to the release or the threat of a release and to protect human health and the environment, as specified. The act also authorizes the local agency to require the owner or operator to prepare a preliminary endangerment assessment under specified conditions and require or initiate an investigation and remedial action. The act defines the term property as meaning real property, but excludes, from that definition, among other things, a site that is larger than 5 acres of contiguous property under the same ownership.

For purposes of the California Environmental Quality Act (CEQA), the term “infill site” is defined as a site in an urbanized area that meets specified conditions, including that a specified percentage of the immediately adjacent parcels to the site or adjoining parcels to the site are developed with qualified urban uses.

This bill would instead include a site that is larger than 5 acres of contiguous property under the same ownership if the site is an infill site, as defined in CEQA, except the bill would include for such purpose an industrial use, as a “qualified urban use” and a parcel that is adjoining or immediately adjacent to the site if the parcel is separated only by an improved public right-of-way.

Ch. 718 (SB 1245) Kuehl. California State University: Entry-Level Master’s Nursing Programs Act.

Existing law establishes the California State University and its various campuses under the administration of the Trustees of the California State University.

This bill would establish, until January 1, 2014, the Entry-Level Master’s Nursing Programs Act. The bill would require the Chancellor of the California State University, in consultation with the Board of Registered Nursing, to determine, in accordance with the bill, which campuses are eligible for supplemental funds for establishing entry-level master’s

programs in nursing at campuses of the California State University, and to annually establish the total amount of funding necessary to support 4 entry-level master's degree programs in nursing at the California State University.

The bill would authorize the California State University to enroll students in both oncampus credit courses and self-supporting extended education courses in order to recoup the remaining annual actual program costs in excess of any supplemental funding allocated pursuant to the bill. The bill would require the chancellor to grant first priority, in allocating supplemental funding under this bill, to campuses that primarily serve, or train nurses to serve, counties in the state with low nursing ratios, and offer programs that are established in collaboration with private industry partners that provide specified forms of financial assistance.

The bill would encourage the California State University, if no funding is provided in the annual Budget Act to fulfill the obligations of the bill, to make entry-level master's program courses available to students through self-supporting extended education programs. The bill would require the chancellor, on or before January 1 of each year, to prepare and submit to the Legislature a report regarding the status of the California State University entry-level master's programs.

Ch. 719 (SB 1319) Burton. Natural resources: ocean protection.

Existing law generally regulates activities relating to coastal and ocean resources.

This bill would create the California Ocean Protection Act, which would include various legislative findings and declarations related to coastal and ocean resources. The bill would define terms.

The bill would establish the Ocean Protection Council in state government, consisting of the Secretary of the Resources Agency, the Secretary for Environmental Protection, and the Chair of the State Lands Commission. The bill would require one Member of the Senate, appointed by the Senate Committee on Rules, and one Member of the Assembly, appointed by the Speaker of the Assembly, to meet with the council as nonvoting, ex officio members.

The bill would require the council to coordinate activities of state agencies that are related to the protection and conservation of coastal waters and ocean ecosystems, to improve the effectiveness of state efforts to protect ocean resources within existing fiscal limitations, consistent with specified legislative findings and declarations, to establish policies to coordinate the collection and sharing of scientific data related to coast and ocean resources between agencies, and to identify and recommend to the Legislature and the Governor changes in law and policy needed to meet the above goals. The bill would require the executive officer of the State Coastal Conservancy to act as secretary to the council, as specified.

The bill would establish the California Ocean Protection Trust Fund and authorize moneys deposited in the fund, upon appropriation by the Legislature, to be expended for activities related to coastal and ocean resources, as specified.

Ch. 720 (SB 1369) Kuehl. Fire protection.

(1) Existing law requires any person who owns, leases, controls, operates, or maintains any occupied dwelling or occupied structure in, upon, or adjoining any mountainous area, forest-covered land, brush-covered land, grass-covered land, or any land that is covered with flammable material, which area or land is within a very high fire hazard severity zone designated by the local agency, as provided, to, among other things, maintain around and adjacent to the occupied dwelling or occupied structure additional fire protection or firebreaks made by removing all brush, flammable vegetation, or combustible growth that is located from 30 to 100 feet from the occupied dwelling or occupied structure or to the property line, whichever is nearer, as may be required by the local agency if the agency finds that, because of extra hazardous conditions, a firebreak of only 30 feet around the occupied dwelling or occupied structure is not sufficient to provide reasonable fire safety.

(2) Existing law requires a person that owns, leases, controls, operates, or maintains a building or structure, in, upon, or adjoining any mountainous area, forest-covered lands, brush-covered lands, grass-covered lands, or any land that is covered with flammable material, to, among other things, maintain around and adjacent to the building or structure additional fire protection or a firebreak, by removing all brush, flammable vegetation, or combustible growth that is located from 30 to 100 feet from the building or structure or to the property line, whichever is nearer, as may be required by the Director of Forestry and Fire Protection, if he or she finds that, because of extra hazardous conditions, a firebreak of only 30 feet around the building or structure is not sufficient to provide reasonable fire safety. For purposes of these requirements, "person" is defined as any agency of the state, county, city, district, or other local public agency, and any individual, firm, association, partnership, business trust, corporation, limited liability company, or company.

(3) This bill would define "person" for purposes of (2) above to instead mean a private individual, organization, partnership, limited liability company, or corporation.

This bill would revise (1) and (2), above, to require persons subject to (1) or (2) to remove all brush, flammable vegetation, or combustible growth that is located within 100 feet from the occupied dwelling or occupied structure, or building or structure, as applicable, or to the property line, or at a greater distance if required by state law, or local ordinance, rule, or regulation.

The bill would require an owner, prior to constructing a new dwelling or structure that will be occupied, or reconstructing an occupied dwelling or occupied structure damaged by fire in a very high fire hazard severity zone (see (1) above), the construction or rebuilding of which requires a building permit, to obtain from the local building official, a specified certification regarding compliance with state and local building standards, and to provide a copy of the certification, upon request, to the insurer providing course of construction insurance coverage. The bill would require the owner, upon completion of construction or rebuilding, to obtain from the local building official, a copy of the final inspection report, as specified, and to provide a copy of the report, upon request, to the property insurance carrier that insures the dwelling or structure. The bill would impose similar requirements upon an owner, prior to constructing a new building or structure or rebuilding a building or structure damaged by fire in one of the areas specified in (2) above. Because the bill would expand the definition of a crime, the bill would impose a state-mandated local program.

(4) Existing law provides that a local agency having jurisdiction of property violating the conditions described in (2) above is required to notify the owner of the property to correct the conditions. If the owner fails to correct the conditions, the local agency is authorized to cause the corrections to be made, and the expenses incurred become a lien on the property when recorded, as specified, in the county recorder's office in the county in which the real property is located.

The bill would authorize the Director of Forestry and Fire Protection to authorize the removal of vegetation not consistent with these and related requirements. The bill would authorize a lien upon the building, structure, or grounds for the expense of the removal of that vegetation, as specified.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 721 (SB 1459) Alpert. Fishing: trawl nets.

(1) Existing law generally permits the use of trawl nets, as defined, for the taking of fish and other marine life, except as otherwise prohibited for specific species or in various areas of the state. Existing law specifically authorizes the taking of shrimps and sea cucumbers by use of a trawl net under a permit issued by the Department of Fish and Game.

This bill would grant the Fish and Game Commission authority over all state-managed bottom trawl fisheries not managed under a federal or state fishery management plan, and over other types of gear targeting the same species as those fisheries. The bill would subject every commercial bottom trawl vessel issued a state permit to the requirements and policies of the federal groundfish observer program. The bill would prohibit the commission from authorizing additional fishing areas for bottom trawls, unless the commission determines that adequate evidence establishes that additional fishing areas are sustainable, do not harm bottom habitat, and do not reasonably conflict with other users. The bill would prohibit the use of roller gear more than 8 inches in diameter, and commencing April 1, 2006, would make it unlawful to fish commercially for prawns or pink shrimp, unless an approved bycatch reduction device is used with each net. The bill would also make it unlawful to engage in bottom trawling in ocean waters of the state, except as otherwise specified. The bill would exempt from the provisions of the bill the use of trawl nets pursuant to a scientific research permit. The bill would require the commission to facilitate the conversion of bottom trawlers to gear that is more sustainable if the commission determines that conversion will not contribute to overcapacity or overfishing, and would prohibit the department from issuing new permits to bottom trawlers to replace those that are retired through a conversion program. The bill would require the commission and the department, as soon as practicable, but not later than May 1, 2005, to submit to the Pacific Fishery Management Council and the National Marine Fisheries Service a request for federal management measures for the pink shrimp fishery that the commission and the department determine are needed to reduce bycatch or protect habitat, to account for uncertainty, or to otherwise ensure consistency with federal groundfish management. The bill would also make it unlawful for any vessel to utilize bottom trawling gear without a state or federal permit.

The bill would require, commencing April 1, 2006, any vessel using bottom trawl gear in state-managed halibut fisheries to possess a halibut bottom trawl permit issued by the department that authorizes the use of trawl gear by that vessel for the take of California halibut. The bill would require, commencing with the 2006 permit year, a halibut bottom trawl vessel permit to be issued annually, and commencing with the 2007–08 season, would require an applicant to have previously held a valid California halibut bottom trawl vessel permit. The bill would prohibit the department from issuing a bottom trawl vessel permit for use in the halibut fishery unless that vessel has landed a minimum of 200 pounds of California halibut and reported that landing on fish tickets as being caught with bottom trawl gear within a specified timeframe. The bill would authorize those permits to be transferred in certain circumstances. The bill would require the commission to establish halibut bottom trawl vessel permit fees based on the recommendations of the department, and utilizing specified guidelines to cover the costs of administering the permit program, but would limit those fees to \$1,000 per permit until a restricted access program is adopted. The bill would authorize individuals holding a federal groundfish trawl permit to retain and land up to 150 pounds of halibut per trip without a halibut trawl permit in accordance with federal and state regulations, including, but not limited to, regulations developed under a halibut fishery management plan. The bill would make all these provisions inoperative upon the adoption by the commission of a halibut fishery management plan, as specified.

(2) Existing law designates the ocean waters lying between one and 3 nautical miles from the mainland shore lying south and east of a line running due west (270° true) from Point Arguello and north and west of a line running due south (180° true) from Point Mugu as the California halibut trawl grounds.

This bill would, notwithstanding the designation of those areas as California halibut trawl grounds, prohibit the use of trawl gear for the take of fish in certain areas of the California halibut trawl grounds. The bill would, commencing April 1, 2008, close specified areas in the California halibut trawl grounds to trawling, unless the commission finds that a bottom trawl fishery for halibut minimizes bycatch, is likely not damaging seafloor habitat, is not adversely affecting ecosystem health, and is not impeding reasonable restoration of kelp,

coral, or other biogenic habitats. The bill would require the commission to pay special attention in making that finding to areas where kelp and other biogenic habitats existed and where restoring those habitats is reasonably feasible, and to hard bottom areas and other substrate that may be particularly sensitive to bottom trawl impacts. The bill would also require the commission, every 3 years commencing January 1, 2008, to review information from the federal groundfish observer program and other available research and monitoring information it determines relevant, and to close any areas in the California halibut trawl grounds where it finds that the use of trawl gear does not minimize bycatch, is likely damaging seafloor habitat, is adversely affecting ecosystem health, or impedes reasonable restoration of kelp, coral, or other biogenic habitats. The bill would prohibit any trawl net that exceeds a certain entrance size, wing panel length, mesh size, or that uses trawl doors that exceed a certain weight from being used in the California halibut trawl grounds.

(3) Existing law also designates specified fish and game districts, including District 18, in which trawl nets may be used in waters not less than 3 nautical miles from the nearest point of land on the mainland shore, including those portions of Monterey Bay, Estero Bay, and San Luis Obispo Bay which lie within those districts. Existing law, notwithstanding that limited authority, authorizes the use of trawl nets, except midwater trawl nets in that portion of District 18 between a line running due west from Yankee Point and a line running due west from Point Sur in water not less than one nautical mile from the nearest point of land on the mainland shore.

This bill would repeal the additional authority relating to the use of trawl nets in those portions of District 18.

(4) Existing law authorizes the use of trawl nets of a design prescribed by the commission to be used or possessed to take shrimps or prawns under a permit issued by the department. Existing law makes it unlawful when fishing for pink shrimp under that permit to possess in excess of 1,500 pounds of incidentally taken fish per calendar day of a fishing trip, except as specified, and prohibits the possession or landing of specified amounts of other fish when fishing under that permit.

This bill would authorize trawling for shrimp or prawns only in those specified waters of Districts 6, 7, 10, 17, 18, and 19, but would authorize, until January 1, 2008, trawling not less than 2 miles from the nearest point of land on the mainland shore in certain other areas of those waters. The bill would authorize, commencing January 1, 2008, the taking of pink shrimp not less than 2 nautical miles from shore in those waters if the commission finds that, upon review of information from the federal groundfish observer program and other available research and monitoring information it determines relevant, the use of trawl gear minimizes bycatch, will not damage seafloor habitat, will not adversely affect ecosystem health, and will not impede reasonable restoration of kelp, coral, or other biogenic habitats.

(5) Existing law makes a violation of the Fish and Game Code a misdemeanor punishable by fine, imprisonment, or both.

By creating new crimes, this bill would impose a state-mandated local program.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 722 (SB 1482) Sher. Wild and scenic rivers: special treatment areas.

(1) The California Wild and Scenic Rivers Act includes specified rivers and segments thereof within the California Wild and Scenic River system, which are subject to various protections under the act.

The act defines "special treatment areas" for purposes of the act, provides for the responsibilities of timber operators and registered professional foresters regarding timber operations within those areas, and makes it a misdemeanor to willfully violate the Z' Berg-Nejedly Forest Practice Act of 1973 regarding those operations, as well as imposes

civil penalties. The act authorizes the Director of Forestry and Fire Protection to require a bond or other evidence of financial responsibility from any timber operator whose ability to pay those civil damages is reasonably determined to be uncertain.

This bill would delete those provisions regarding willful violations of the Z' Berg-Nejedly Forest Practice Act of 1973 and the authority to require a bond for civil damages. The bill would make conforming changes.

(2) This bill incorporates additional changes to Section 5093.68 of the Public Resources Code proposed by SB 904, to become operative only if SB 904 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 723 (SB 1526) Hollingsworth. Department of Forestry and Fire Protection: pilots: certification.

Existing law establishes the Department of Forestry and Fire Protection within the Resources Agency and makes the department responsible for the fire protection, fire prevention, maintenance, and enhancement of the state's forest, range, and brushland resources, contract fire protection, associated emergency services, and assistance in civil disasters and other nonfire emergencies.

This bill would require the department, in cooperation with the Office of Emergency Services, to develop a program to certify active duty military pilots to engage in firefighting in the state.

Ch. 724 (AB 2348) Mullin. Housing element: regional housing need.

(1) Existing law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. One part of the housing element is an assessment of housing needs and an inventory of land suitable for residential development in meeting a city's or county's share of the regional housing need, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning facilities and services to these sites. A city, county, or city and county is required to submit a draft housing element or draft amendment to its housing element to the Department of Housing and Community Development for a determination of whether the draft complies with state law governing housing elements.

This bill would revise the criteria for the inventory of sites to require sites to be identified that can be developed for housing within the planning period to accommodate that portion of a city's or county's share of the regional housing need for all income levels, as specified. The bill would expand the relocation assistance available to persons displaced by sites identified for substantial rehabilitation. By imposing additional duties upon local officials, this bill would create a state-mandated local program.

The bill would also provide that the department is to evaluate a proposed or adopted housing element for substantial compliance with governing state law, and would revise the requirements that may be imposed on a development project that contributes to meeting the regional housing need.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) This bill would become operative only if AB 2158 of the 2003–04 Regular Session is enacted and becomes operative.

Ch. 725 (AB 2628) Pavley. Vehicles: preferential lanes.

(1) Existing law permits the use of exclusive or preferential use of highway lanes or highway access ramps by super ultra-low emission vehicles (SULEV), that meet the federal ILEV emission standard, and that have displayed a distinctive decal, label, or other identifier issued by the Department of Motor Vehicles.

Existing law requires, if the Metropolitan Transportation Commission, serving as the Bay Area Toll Authority, grants toll-free and reduced-rate passage on toll bridges under that commission's jurisdiction to any vehicle pursuant to law, that commission grant the same toll-free and reduced-rate passage to vehicles displaying a valid ULEV or SULEV identifier issued pursuant to the above.

This bill would include a vehicle that was produced during the 2004 model-year or earlier that meets California's ultra-low emission vehicle (ULEV) and the federal ILEV emission standards, a hybrid vehicle or an alternative fuel vehicle that meets California's advanced technology partial zero-emission vehicle (AT PZEV) standard for criteria pollutant emissions and has a 45 miles per gallon or greater fuel economy highway rating, and a hybrid vehicle that was produced during the 2004 model-year or earlier that has a 45 miles per gallon or greater fuel economy highway rating and meets California's ultra-low emission vehicle (ULEV), super ultra-low emission vehicle (SULEV), or partial zero-emission vehicle (PZEV) standards for exhaust emissions, within the scope of vehicles permitted to be issued a decal, label, or other identifier to use the exclusive or preferential highway lanes or highway access ramps. The bill would permit certain of those vehicles described above that are registered to an address in the 9-county San Francisco Bay region, as described, to use the toll-free and reduced-rate passage privilege on the specified bridges only if the owner of the vehicle has obtained an automatic vehicle identification account, as specified. To the extent that this would increase the level of service of the commission, the bill would impose a state-mandated local program.

The bill would not allow a hybrid vehicle that meets the AT PZEV standards, except as specified, or a described hybrid vehicle, to be issued a decal, label, or other identifier unless and until the federal government acts to approve the use of high-occupancy vehicle lanes by those vehicles regardless of the number of occupants.

The bill would require the State Air Resources Board to publish and maintain a listing of all vehicles eligible for participation in the above-described programs.

The bill would prohibit the Department of Motor Vehicles from issuing more than 75,000 decals, labels, or other identifiers for the specified hybrid vehicles. The bill would require the Department of Motor Vehicles to stop issuing those decals, labels, or other identifiers, if the Department of Transportation makes a specified determination after 50,000 of those decals, labels, and identifiers are issued for the specified hybrid vehicles.

The bill would, if the automatic vehicle identification system readers on all high-occupancy vehicle lanes on all of the specific toll bridges are not fully operational and fully funded with bridge tolls controlled by the Bay Area Toll Authority within 90 days of the federal government approval described above, the Metropolitan Transportation Commission, acting as the Bay Area Toll Authority, would be required to grant toll-free and reduced-rate passage to all vehicles displaying an identifier issued by the department and the department would not be able to require documentation that the owner of a vehicle registered to an address in the identified region has obtained an automatic vehicle identification system account as a condition to the issuance of an identifier.

(2) Existing law authorizes the Governor to remove individual high-occupancy vehicle lanes, or a portion of those lanes, during periods of peak congestion from the ILEV and AT PZEV access after certain findings are made by the Department of Transportation.

This bill would require the Department of Transportation to undertake that duty rather than authorizing the Governor to undertake that duty.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 726 (AB 2600) Leslie. Sierra Nevada Conservancy.

Existing law authorizes various conservancies to acquire, manage, direct the management of, and conserve public lands in the state.

This bill would establish the Sierra Nevada Conservancy, to undertake various activities related to the Sierra Nevada Region, as defined, and would prescribe the management, powers, and duties of the conservancy. The bill would create the Sierra Nevada Conservancy Fund in the State Treasury. Moneys in the fund would be available, upon appropriation, for the purposes of the conservancy.

Ch. 727 (SB 96) Alpert. Public water systems: fluoridation.

Existing law, the California Safe Drinking Water Act, requires the State Department of Health Services to administer provisions relating to the regulation of drinking water and public water systems and, among other things, to adopt primary drinking water standards for contaminants in drinking water and to monitor regulated and unregulated contaminants.

Existing law, with certain exceptions, requires the department to establish minimum and maximum fluoridation levels applicable to public water systems with at least 10,000 service connections and requires the department to establish a schedule for the fluoridation of those public water systems based upon the availability of funding related capital and operational costs.

This bill would declare that the purposes of the schedule is not to mandate the order of funding, would exclude from the exemption systems offered 12-month's funding for operation and maintenance, and would exempt systems with multiple water sources and systems with depleted funding that do not have installed operational fluoridation facilities.

The bill would declare that these provisions are of statewide concern and preempt local regulation and would make conforming changes.

Ch. 728 (SB 1163) Dunn. Utilities.

(1) The existing Mobilehome Residency Law requires the management of a mobilehome park, when the management provides master-meter and submeter service of utilities to a homeowner, to separately state the cost of the charges for the period along with the opening and closing readings of the meter.

This bill would require the management to make specified disclosures if a 3rd-party billing agent prepares utility billing for the park.

(2) Existing law requires that, when gas or electric service is provided by a master-meter customer to users who are tenants of a mobilehome park, apartment building, or similar residential complex, the master-meter customer charge each user at the same rate which would be applicable if the user were receiving gas or electricity directly from the gas or electric company. Existing law creates further requirements for master-meter customers and for the corporations which provide service to them.

This bill would require the Public Utilities Commission to accept and respond to complaints concerning the requirements described above through the consumer affairs branch, in addition to any other staff that the commission deems necessary to assist the complainant and, where appropriate, to coordinate with the office of the county sealer to resolve the complaint.

Ch. 729 (SB 1196) Cedillo. Health care applications.

Existing law creates various programs to provide health care services to persons who have limited incomes and meet various eligibility requirements. These programs include the Healthy Families Program administered by the Managed Risk Medical Insurance Board, and the Medi-Cal program administered by the State Department of Health Services.

Existing law provides for a school lunch program under which eligible pupils receive free or reduced price meals. Existing law authorizes the sharing of the school lunch program application with the county agency administering the Medi-Cal program for use in making an accelerated Medi-Cal eligibility determination for pupils eligible for free meals. Existing law provides for the sending of a Healthy Families Program application to pupils determined to be ineligible for Medi-Cal coverage.

This bill would authorize the sharing of the school lunch program application for purposes of the Healthy Families Program and any other applicable county- or local-sponsored health insurance program if a pupil is determined to be ineligible for Medi-Cal coverage and if the parent or guardian has consented to the sharing of information. This bill would require the county agency responsible for administering the Medi-Cal program to forward the school lunch application to the Healthy Families Program and to county- and local-sponsored health insurance programs if a pupil is determined to be ineligible for Medi-Cal coverage through the accelerated eligibility determination process and if the parent has previously provided consent. The bill would delete the requirement for the county to send a Healthy Families Program application in that case. The bill would authorize schools to designate non-food service staff to assist in the administration of school lunch program applications. This bill would authorize the Managed Risk Medical Insurance Board to adopt emergency regulations with regard to eligibility determinations, and would authorize the board to coordinate with state and local government entities to implement the program. The bill would enact other related provisions.

Because the bill would impose additional duties on county agencies responsible for Medi-Cal eligibility determinations, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 730 (SB 1273) Scott. Insurance: misrepresentations.

Existing law prohibits an insurer or his or her agent from issuing, circulating, or using any misrepresentation of the terms of a policy issued by the insurer or sought to be negotiated by the person making or permitting the misrepresentation, or from making any misrepresentation to another person for the purpose of inducing that other person to take out a policy of insurance or to induce that other person to lapse, forfeit, or surrender insurance in a policy he or she holds.

Existing law provides that a violation of these provisions is a crime, punishable by a fine not exceeding \$1,500, or imprisonment in a county jail for a period not exceeding 6 months.

This bill would, instead, prohibit the above actions with respect to any statement that is known, or should have been known, to be a misrepresentation. Because this bill would change the definition of a crime, it would impose a state-mandated local program.

This bill would provide that a violation of these provisions is punishable by a fine of up to \$25,000, or if the loss of the victim exceeds \$10,000, by a fine of up to 3 times that loss, by imprisonment in a county jail for a period of up to one year, or by both that fine and imprisonment.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 731 (SB 1289) Machado. Sex offenders.

Existing law requires persons convicted of certain sex offenses to register with specified law enforcement agencies in the location in which the person resides or, if the person has no residence, where he or she is located, within 5 days of changing residence or location.

Existing law provides that if the person who is registering has more than one residence address or location at which he or she regularly resides or is located, he or she shall register in each of the jurisdictions in which he or she regularly resides or is located.

This bill would provide that the registration requirement for multiple places applies regardless of the number of days or nights spent in each residence or location. By increasing the registration requirements of local officials, and by changing the definition of a crime, the bill would impose a state-mandated local program.

Existing law provides that if any person who is required to register changes his or her residence address or location, the person shall inform, in writing within 5 working days, the law enforcement agency or agencies with which he or she last registered of the new address or location.

This bill would provide that if the person does not know the new residence address or location, the registrant shall inform the last registering agency or agencies that he or she is moving within 5 working days of the move, and shall later notify the agency or agencies of the new address or location within 5 working days of moving into the new residence address or location, whether temporary or permanent.

Existing law provides that any person who is required to register who willfully violates any requirement of this section is guilty of a continuing offense.

This bill would provide that any person who is required to register under this section who willfully violates any requirement of this section is guilty of a continuing offense as to each requirement he or she violated.

Because a violation of the registration requirements is a crime, the bill would impose a state-mandated local program by changing the definition of a crime.

Existing law requires the Department of Justice to compile and continually update information concerning certain individuals who are required to register as sex offenders and to make that information available to the public via a "900" telephone number and distribution of a CD-ROM to law enforcement agencies, as specified.

This bill would make several technical, nonsubstantive changes to these provisions. This bill would incorporate changes in Section 290 of the Penal Code, to be operative only if AB 488, AB 2395, or AB 2527 and this bill are enacted and become effective on or before January 1, 2005.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 732 (SB 1334) Kuehl. Oak woodlands conservation: environmental quality.

(1) The Oak Woodlands Conservation Act provides funding for the conservation and protection of California's oak woodlands.

The California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a discretionary project that it proposes to carry out or approve that may have a significant effect on the environment, as defined, or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA provides some exemptions from its requirements for specified projects.

This bill would require a county, in determining whether CEQA requires an environmental impact report, negative declaration, or mitigated negative declaration, to determine whether a project in its jurisdiction may result in a conversion of oak woodlands that will have a significant effect on the environment, and would require the county, if it determines there may be a significant effect to oak woodlands, to require one or more of specified mitigation alternatives to mitigate the significant effect of the conversion of oak woodlands. The bill would exempt specified activities from its requirements. By imposing new duties on local governments with respect to oak woodlands mitigation, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 733 (SB 1342) Speier. Inspector General.

Existing law establishes the office of the Inspector General relative to corrections, and generally provides for various duties and authority of the office.

This bill would provide that the Inspector General would be appointed to a 6-year term, subject to Senate confirmation, and that the Inspector General could not be removed from office except for good cause. The bill would require the Inspector General to develop a methodology for producing a workload budget, as specified.

The bill would revise certain provisions relating to what materials are deemed confidential in connection with investigations by the Inspector General. The bill would delete provisions regarding investigations of employees of the Youthful Offender Parole Board, and revise provisions regarding the communication to the Inspector General of information that may describe a variance from various departmental investigatory policies and procedures to apply, instead, to improper governmental activity, as defined. The bill would also revise procedures relating to the investigation of complaints of retaliation by certain employees, and would provide a procedure for coordinating investigations by the Inspector General and the appropriate employing entity, and complaints filed with the Inspector General and the State Personnel Board by an employee, as specified. The bill would delete provisions authorizing punitive damages for malicious acts by offending parties against state employees.

Ch. 734 (SB 1352) Romero. Inspector General: Youth and Adult Correctional Agency.

Existing law specifies the duties and responsibilities of the Inspector General in connection with departments under the authority of the Youth and Adult Correctional Agency.

This bill would revise and recast provisions relating to classifying what materials in connection with investigations and audits by the Inspector General are public records.

Existing law authorizes access by the Inspector General to specified records for the purpose of conducting an audit or investigation. Failure or refusal to permit access, examination, or reproduction of those records is a misdemeanor.

This bill would expand access by the Inspector General to certain records, as specified. The bill would also authorize the Inspector General to redact certain identifying personal information, as specified.

By expanding the access of the Inspector General to certain records, where the denial of access is a crime, this bill would expand the scope of an existing crime, and thereby impose a state-mandated local program.

Existing law provides that it is a misdemeanor for the Inspector General or any employee of the Inspector General to release any information received pursuant to these provisions, except as provided by these provisions, or to release information that is otherwise prohibited by law from being disclosed.

This bill would repeal those provisions.

The bill would require disclosure of completed audit or investigation reports by the Inspector General, and specify the conditions of those disclosures.

The bill would require annual and other regular reports by the Inspector General, to the Governor and the Legislature, and others, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 735 (SB 1355) Aanestad. Clinical laboratories: cytotechnologists.

Existing law authorizes the State Department of Health Services to license and regulate cytotechnologists. Existing law generally prohibits a cytotechnologist from examining more than 80 gynecologic slides in a 24-hour period.

This bill, until January 1, 2008, would establish a maximum workload consistent with regulations adopted by the federal Food and Drug Administration relative to the review of gynecologic slides using automated or semiautomated screening devices. The bill would require any slide that is reviewed using automated or semiautomated screening devices and that requires full manual review to be counted against the applicable workload limits. The bill would require the State Department of Health Services to conduct a review of published evidence-based peer review journal articles on the performance of automated and semiautomated screening devices relative to their rate of error, and would authorize the department to adopt new regulations modifying workload limitations if the rate of error increases due to use of automated or semiautomated screening devices.

The bill would require that, where a labor union represents cytotechnologists, these maximum workload limitations be contained in a collective bargaining agreement or memorandum of understanding. However, notwithstanding the higher workload limitations, the bill would require the technical supervisor of an individual who performs primary screening to establish the maximum workload limit for the individual, in accordance with specified criteria.

#### Ch. 736 (SB 1400) Romero. Corrections: Internal Affairs.

Existing law provides for the administration of a system of state prisons under the Department of Corrections within the Youth and Adult Correctional Agency. Existing law establishes the office of the Inspector General, who is responsible for reviewing departmental policy and procedures for conducting audits of investigatory practices and other audits, as well as conducting investigations of the Department of Corrections and related state offices, as specified. Existing statutory and case law provides for some of the procedures by which public employees may be disciplined. Existing law limits the release of certain types of information relating to public employment, including special provisions that protect against

the release of information concerning complaints against peace officers, including correctional officers in state prisons.

This bill would establish the Bureau of Independent Review within the office of the Inspector General to provide public oversight of investigations conducted by the Department of Corrections and the Department of the Youth Authority, and to issue reports, as specified, to the Governor and the Legislature.

Ch. 737 (SB 1415) Brulte. Postsecondary education: Donahoe Higher Education Act: common course numbering system.

Existing law, known as the Donahoe Higher Education Act, sets forth, among other things, the missions and functions of California's public and independent segments of higher education, and their respective institutions of higher education. Provisions of the act apply to the University of California only to the extent that the Regents of the University of California, by appropriate resolution, act to make a provision applicable.

Existing law requires the Board of Governors of the California Community Colleges to develop, maintain, and disseminate a general common course numbering system for use by community college districts.

This bill would provide that, not later than June 1, 2006, the California Community Colleges and the California State University shall adopt, and the University of California and private postsecondary institutions may adopt, a common course numbering system for the 20 highest-demand majors in the respective segments. The bill would further require each campus of a public postsecondary educational institution to incorporate the common course numbering system in its catalogue. The bill would specify that the incorporation of these numbers into a campus catalogue would occur at the next adoption of a campus catalogue after June 1, 2006.

Ch. 738 (SB 1431) Speier. Department of Corrections: code of conduct.

Existing law establishes the Department of Corrections for the confinement of persons who have committed crimes. Existing law also establishes the Department of the Youth Authority for the rehabilitation of certain persons who have committed offenses when they were under 18 years of age, as specified. Existing law creates the offices of the Director of Corrections and the Director of the Youth Authority to administer institutions within the jurisdiction of these departments.

This bill would require the directors of those departments to develop and implement disciplinary sanctions for misconduct by employees, as specified. The bill would also require the directors to ensure that employees who have reported improper governmental activities and who request services from the department are informed of the services available to them. The bill would require the departments to adopt a code of conduct, as specified. The bill would also require the departments to post the code of conduct in specified locations and to annually e-mail related information to departmental employees with e-mail access. The bill would include a statement of legislative findings and declarations regarding conduct in correctional facilities.

Ch. 739 (SB 1464) Karnette. Public contracts.

Existing law requires that a school district that seeks to let a contract involving a specified minimum expenditure for the purchase of equipment, materials, or supplies to be furnished, sold, or leased to the school district, or involving a specified minimum expenditure on a public project, to publish a notice calling for bids on the contract in a newspaper of general circulation, stating the work to be done or materials or supplies to be furnished and the time and place where the bids would be opened.

This bill would authorize school districts to also publish this notice for bids on the district's Web site or through an electronic portal, and authorize these districts to accept bids that were submitted either electronically or on paper.

Ch. 740 (SB 1544) Figueroa. Private postsecondary education: Private Postsecondary and Vocational Education Reform Act of 1989.

(1) Existing law, known as the Private Postsecondary and Vocational Education Reform Act of 1989, generally sets minimum standards of instructional quality, ethical and business practices, health and safety, and fiscal responsibility for private postsecondary and vocational educational institutions, as defined. The act establishes the Bureau for Private Postsecondary and Vocational Education, which, among other things, is required to review and investigate all institutions, programs, and courses of instruction approved under the act. A provision of the act provides for its repeal on January 1, 2005.

The existing act establishes the Private Postsecondary and Vocational Education Administration Fund and the continuously appropriated Student Tuition Recovery Fund. The existing act specifies that certain violations of its provisions are subject to civil penalties and that certain willful violations of the act are punishable as crimes.

This bill would make a technical revision to delete obsolete provisions of a predecessor act.

The bill would revise the definition of "private postsecondary educational institution," as used in the act, to exclude institutions exclusively offering programs that cost \$500 or less. The bill would delete the definition in the act of "short-term seminar training."

The bill would require the Director of Consumer Affairs to appoint a Bureau of Private Postsecondary and Vocational Education Operations and Administrative Monitor by January 3, 2005. The bill would require the monitor to, among other things, assess the bureau's administrative operations and to submit a report to the director, the bureau, and the Legislature by October 1, 2005. Those monitor provisions would become inoperative on April 1, 2006, and would be repealed as of January 1, 2007.

The bill would define "short-term educational programs," and would require registration under the act to offer those programs.

The bill would appropriate \$150,000 from the Private Postsecondary and Vocational Education Administration Fund to the Director of Consumer Affairs for expenditure for the 2004–05, 2005–06, and 2006–07 fiscal years for the purpose of contracting for the employment of the monitor.

This bill would also require the act to become inoperative on July 1, 2007, and thereafter be repealed on January 1, 2008, thus extending operation of the act by 2½ years, and thereby making an appropriation by extending the existence of the continuously appropriated Student Tuition Recovery Fund.

By extending the operation of the provisions of the act that establish crimes, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 741 (SB 1678) Dunn. Statutes of limitation: damages: sexual abuse of a minor.

Existing law sets forth the statutes of limitation for various civil actions, as specified.

This bill would revive a cause of action, provided an action is brought before January 1, 2006, for the sexual abuse of a minor if any complaint, information, or indictment was filed in a criminal case based upon that abuse but the criminal case was dismissed or overturned pursuant to a specified decision of the United States Supreme Court holding that the revival of the criminal action after the criminal statute of limitations has expired constitutes an unconstitutional ex post facto law, as specified.

Ch. 742 (SB 1691) Vasconcellos. Physicians and surgeons: alternative or complementary medicine.

Existing law, the Medical Practice Act, creates the Medical Board of California and makes it responsible through its Division of Licensing and Medical Quality for, respectively, licensing and regulating physicians and surgeons. Under the act, disciplinary action may be taken against a physician and surgeon for engaging in unprofessional conduct, which includes gross negligence, repeated negligent acts, and incompetence.

This bill would provide that a physician and surgeon is not subject to discipline for these particular aspects of unprofessional conduct solely on the basis that the treatment or advice he or she rendered to a patient is alternative or complementary medicine, as defined, if specified conditions are satisfied.

Ch. 743 (SB 1785) Scott. Public postsecondary education: transfer requirements.

Existing law establishes the 3 segments of public postsecondary education in this state. These segments include the California State University, the campuses of which are administered by the Trustees of the California State University, the University of California, which is administered by the Regents of the University of California, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges. Existing law establishes community college districts, which operate campuses that provide instruction to students throughout the state.

This bill would establish a program with the purpose of ensuring that community college students who wish to earn baccalaureate degrees at a campus of the California State University are able to do so. The bill would require the Chancellor of the California State University to carry out specified tasks in connection with the establishment of this program.

The bill would require the Chancellor of the California State University to establish admissions requirements for community college transfer students in accordance with specified criteria. The bill would require the Chancellor of the California State University, in consultation with the Academic Senate of the California State University and with the faculty responsible for each high-demand baccalaureate degree major program, to specify for each high-demand baccalaureate program major a systemwide lower division transfer curriculum.

The bill would require each campus of the California State University, as allowed by enrollment demand and available space, to develop a transfer admission agreement with each student who intends to meet the requirements of the bill. The bill would require this transfer admission agreement to guarantee admission to the campus and major identified in that agreement and the transfer of 60 semester units, or the quarter-unit equivalent, creditable to the baccalaureate degree, subject to the student's meeting of specified criteria.

The bill would require campuses of the California State University to guarantee that transfer students admitted under the bill will be able to complete the baccalaureate degree in the minimum number of course units required for that degree.

Ch. 744 (SB 1889) Committee on Environmental Quality. Environmental protection: actions against a public agency.

(1) The existing California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect. Existing law defines terms for purposes of CEQA.

This bill would define "trustee agency," for purposes of CEQA, as a state agency that has jurisdiction by law over natural resources affected by a project, that are held in trust for the people of the State of California.

The bill would require specified agencies, including local lead agencies, to consult with trustee agencies before making specified determinations under CEQA or completing an environmental impact report. By imposing an increased level of service on local lead agencies, the bill would impose a state-mandated local program.

(2) CEQA authorizes, until January 1, 2005, for a project in the City of Oakland that consists of specified development, a focused environmental impact report to be prepared, even though the project was not identified in a master environmental impact report, if specified conditions are met.

This bill would extend that authorization until January 1, 2008.

(3) The bill would make other technical, nonsubstantive changes to CEQA.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 745 (AB 488) Parra. Sex offenders.

Until January 1, 2007, existing law requires the Department of Justice to continually compile specified information categorized by community of residence and ZIP Code regarding any person required to register as a sex offender for a conviction for the commission or attempted commission of any specified sex offense. Existing law requires the Department of Justice to operate a "900" telephone number for the public to inquire whether a named individual is among those specified registrants. Existing law also requires the department to provide a CD-ROM or other electronic medium containing a specified portion of the compiled sex offender information to certain law enforcement agencies. These law enforcement agencies are required to make the CD-ROM or other electronic medium available for public viewing, as specified. Existing law makes unauthorized use of the CD-ROM or "900" telephone number information a misdemeanor, and requires that reports be made by the department concerning the "900" telephone number program.

This bill would require the Department of Justice, on or before July 1, 2005, to make specified information about certain sex offenders available to the public via the Internet Web site and to update that information on an ongoing basis. This information would include all of the information currently available to the public via the CD-ROM, and would also include the home address of specified offenders. With regard to certain offenders whose residence addresses are to go on the Internet Web site only under specified circumstances relating to their criminal histories, the department would be required to put that address information on the Internet Web site on or before July 1, 2006. This bill would also provide that certain offenders with less serious sexual offense histories, as specified, may apply to the Department of Justice for exclusion from the Internet Web site. This bill would provide that such an individual would bear the burden of proving the facts that make him or her eligible for exclusion. This bill would require the department to make a reasonable effort to provide notice to affected sex offenders that the department is required to make information about him or her available to the public via an Internet Web site and that he or she may be eligible for exclusion from the Internet Web site, as specified.

The bill would also (1) provide that any person who uses information disclosed pursuant to the Internet Web site to commit a misdemeanor is punishable by a fine of not less than \$10,000, nor more than \$50,000, and that the use of that information to commit a felony is punishable by an additional 5-year term of imprisonment; (2) make it a misdemeanor for a sex offender who is required to register to enter the Internet Web site; (3) provide for civil liability for the misuse of sex offender information from the Internet Web site; and (4) require the Department of Justice to submit to the Legislature an annual report on the Internet Web site.

This bill would also state the intent of the Legislature to maintain an accurate sex registration database and to assist local agencies to develop strategies to achieve that goal.

This bill would appropriate \$650,000 from the General Fund to the Department of Justice to implement this act.

Because this bill would create new crimes, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would provide that it would take effect immediately as an urgency statute.

Ch. 746 (AB 800) Kehoe. California Coastal Commission.

(1) The California Coastal Act of 1976 establishes the California Coastal Commission in the Resources Agency. The act provides that the commission consists of 16 members: the Secretary of the Resources Agency, the Secretary of Business, Transportation and Housing, the Secretary of Trade and Commerce, the Chairperson of the State Lands Commission, and 12 appointed members. Existing law does not establish the position of the Secretary of Trade and Commerce.

This bill would conform with existing law by providing that the commission consists of 15 members and deleting the reference to the Secretary of Trade and Commerce, while retaining the remaining members.

The bill would make conforming changes to existing law.

(2) The bill would also delete an obsolete provision with regard to submission of a land use plan of a proposed local coastal program to the commission, and make conforming changes to existing law.

Ch. 747 (AB 854) Koretz. Crime.

Existing law sets forth legislative findings, declarations, and expressions of intent regarding the purpose of imprisonment for crime, that being punishment, not to preclude, however, programs, including educational programs, designed to rehabilitate nonviolent, first-time felony offenders.

This bill would encourage the Department of Corrections to give priority enrollment in programs to promote successful return to the community to an inmate with a short remaining term of commitment, as specified.

This bill would incorporate additional changes in Section 1170 of the Penal Code, proposed by AB 1941 and AB 1946, to become effective only if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2005, and this bill is enacted last.

Ch. 748 (AB 939) Yee. Psychiatric inpatient hospital services: reimbursement.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services, including mental health services.

Existing law requires the State Department of Mental Health to implement managed mental health care for Medi-Cal beneficiaries through fee-for-service or capitated rate contracts with mental health plans, including individual counties, counties acting jointly, any qualified individual or organization, or a nongovernmental entity. Existing law authorizes counties to contract with mental health providers to provide mental health services to Medi-Cal beneficiaries.

Existing regulations establish reimbursement procedures for the reimbursement of acute psychiatric inpatient hospital services for each fee-for-service Medi-Cal hospital with a contract with a mental health provider, and for the reimbursement of those services for each of these hospitals without one of these contracts.

This bill would authorize a mental health plan to enter into a contract for the provision of mental health services for Medi-Cal beneficiaries with a hospital that is reimbursed through the fee-for-service payment system, using the Medi-Cal fiscal intermediary, and that provides for a per diem reimbursement rate that includes room and board, routine hospital

services, and all hospital-based ancillary services and that provides separately for the attending mental health professional's daily visit fee.

Ch. 749 (AB 1020) Steinberg. Flood control: local cooperation.

Existing law authorizes, on a project-by-project basis, and in accordance with designated plans, state participation in federal flood control projects and specifies the degree of cooperation to be assumed by the state and local agencies in connection with those projects, including a specified project for flood control, environmental restoration, and recreation along south Sacramento County streams. Existing law, except as otherwise provided, requires the Reclamation Board to give assurances satisfactory to the Secretary of the Army that local cooperation as required by federal law will be furnished by the state in connection with described flood control projects.

This bill would authorize the Sacramento Area Flood Control Agency, at the discretion of the Reclamation Board, to provide assurances of local cooperation for the south Sacramento County streams project in lieu of those same assurances by the Reclamation Board.

Ch. 750 (AB 1298) Hancock. Genetically Handicapped Person's Program: California Children's Services Program: contracts: confidentiality.

Existing law authorizes the State Department of Health Services to enter into contracts with one or more manufacturers on a negotiated or bid basis as the purchaser, but not the dispenser or distributor, of factor replacement therapies under the Genetically Handicapped Person's Program and the California Children's Services Program for the purpose of enabling the department to obtain the full range of available therapies and services required for clients with hematological disorders at the most favorable price and to enable the department to obtain discounts, rebates, or refunds from the manufacturers based upon the large quantities purchased under the program.

Existing law, the California Public Records Act, provides that, except for exempt records, every state or local agency, upon request, shall make records available to any person upon payment of fees to cover costs.

This bill would require that contracts entered into with manufacturers of factor replacement therapies pursuant to the above programs be confidential and exempt from disclosure under the California Public Records Act.

Under existing law, the State Department of Health Services administers the Medi-Cal program, and is authorized, among other things, to enter into contracts with certain drug manufacturers. Under existing law, the department is entitled to drug rebates in accordance with certain conditions, and drug manufacturers are required to calculate and pay interest on late or unpaid rebates.

This bill would impose similar requirements for the calculation and payment of interest on late or unpaid rebates from factor replacement therapy manufacturers under the Genetically Handicapped Person's Program and the California Children's Services Program.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 751 (AB 1499) Liu. Child pornography.

Existing law provides that any computer, computer system, computer network, or any software or data owned by a defendant that is used during the commission of specified offenses shall be subject to forfeiture and details procedures applicable to these forfeitures.

This bill would add to the list of offenses for which a computer, computer system, computer network, or any software or data used in the commission of the offense would be subject to forfeiture offenses relating to possession and trafficking of obscene matter depicting sexual conduct by a minor, harmful matter sent with the intent to seduce a minor, and lewd and lascivious acts committed upon a child.

Ch. 752 (AB 1721) Koretz. Prices: overcharges.

Existing law prohibits a person from computing, at the time of sale of a commodity, a value that is not a true extension of a price per unit that is then advertised, posted, or quoted, or charging, at the time of sale, more than the price that is then advertised, posted, or quoted. A violation of this provision is a crime.

This bill would, instead, prohibit any person, at the time of sale of a commodity, from charging an amount greater than the price, or computing an amount greater than a true extension of the price per unit, that is then advertised, posted, marked, displayed, or quoted for that commodity or to charge an amount greater than the lowest posted price, notwithstanding any time limitation for that price. The bill would provide that, except as specified, when more than one price for the same commodity is advertised, posted, marked, displayed, or quoted, the person offering the commodity for sale shall charge the lowest of those prices. A violation of these provisions would be a crime. By expanding the scope of an existing crime, the bill would impose a state-mandated local program.

The bill would provide that any limitation on the duration of a price that is advertised, posted, marked, displayed, or quoted at any place where a commodity is sold, and at the time of its sale, shall be void.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 753 (AB 1733) Reyes. Telecommunications: selling or licensing lists of subscribers.

Under existing law, the Federal Communications Commission licenses and partially regulates providers of commercial mobile radio service, including providers of cellular radiotelephone service, broadband Personal Communications Services (PCS), and digital Specialized Mobile Radio (SMR) services (collectively, mobile telephony service providers). Under existing law, no state or local government may regulate the entry of, or the rates charged by, any commercial mobile radio service, but is generally not prohibited from regulating the other terms and conditions of commercial mobile radio service.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. Existing law authorizes the commission to regulate telecommunications services and rates of telephone corporations, except to the extent regulation of commercial mobile radio service is preempted by federal regulation. Existing law prohibits a telephone corporation selling or licensing lists of residential subscribers, from including the telephone number of any subscriber assigned an unpublished or unlisted access number, as defined, without his or her written waiver of this protection.

This bill would permit a subscriber to waive the above-described prohibition against including the telephone number of a subscriber assigned an unpublished or unlisted access number. The bill would prohibit a provider of mobile telephony services, as defined, or any affiliate or agent of the provider, providing the name and dialing number of a subscriber for inclusion in a directory or directory database, from including the dialing number of any subscriber without first obtaining the express consent of that subscriber. The bill would establish certain requirements for the provider's form for obtaining the subscriber's express consent. A subscriber would be permitted to revoke his or her consent to inclusion in a directory and would require that the mobile telephony services provider comply with the subscriber's request to opt out within a reasonable period of time, not to exceed 60 days. The bill would create an exception from the above provisions for a telephone corporation transferring a customer's assigned telephone number to a new provider.

Ch. 754 (AB 1836) Harman. Common interest developments: dispute resolution.

Existing law provides that a common interest development association has standing to institute, defend, settle, or intervene in litigation, arbitration, mediation, or administrative

proceedings, in various circumstances, including enforcement of the governing documents. The Davis-Stirling Common Interest Development Act requires, before a common interest development association or an owner of a separate interest therein brings certain actions related to the enforcement of the development's governing documents, that the parties endeavor to submit their dispute to alternative dispute resolution, as specified. Existing law defines and regulates operating rules in connection with common interest development associations and applies them to association procedures for resolution of assessment disputes.

This bill would revise and recast the provisions described above relating to dispute resolution. The bill would specify that a common interest development association and an owner of a separate interest may enforce governing documents other than the declaration. The bill would create a new dispute resolution procedure for conflicts between an association and a member, to be applied when the dispute concerns specified subjects. The bill would require an association to provide a fair, reasonable, and expeditious procedure for resolving these disputes, as defined by certain minimum standards, and would provide a procedure for associations that do not have a procedure of their own that meets the minimum standards, among them that the member not be charged a fee to participate in the process. The bill would also require that the association provide notice of its dispute resolution process, as specified.

This bill would revise the existing dispute resolution provisions, described above, to clarify their application to other nonjudicial processes and to broaden their applicability to include actions enforcing the Davis-Stirling Common Interest Development Act and the Nonprofit Mutual Benefit Corporation Law. Among other things, the bill would also provide for the tolling of a statute of limitations in certain circumstances, expand the permissible methods of service of a request to submit a dispute to the resolution process, and change the confidentiality protections applied to these procedures. The bill would require that a common interest development association's procedures for the resolution of all disputes, not only those related to assessments, satisfy requirements regarding association operating rules. The bill would make additional technical and conforming changes.

The bill would incorporate additional changes in Section 1357.120 of the Civil Code proposed by AB 2376 that would become operative only if AB 2376 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

#### Ch. 755 (AB 1878) Chan. Motor scooters.

(1) Existing law requires a manufacturer of motorized scooters, as defined, to provide each buyer of those scooters with a specified disclosure regarding insurance policies and related coverage.

This bill would revise the definition of motorized scooters, and would additionally require those manufacturers to provide a specified disclosure to those buyers that advises the buyers that they may not modify or alter the exhaust system to cause it to be amplified or create an excessive noise in violation of noise restrictions and muffler requirements imposed by the bill, or to cause it to fail to meet applicable emission requirements.

(2) Existing law prohibits operating a motorized scooter without certain equipment or in certain manners.

This bill would prohibit a person from operating a motorized scooter that is powered by a source other than electrical power, both on a highway and off-highway, unless that motorized scooter has a muffler, in constant operation and properly maintained, that meets the requirements of this bill.

(3) Under existing law, a person may not operate a motorized scooter when the operator is under the age of 16 years.

This bill instead would prohibit a person from operating a motorized scooter unless that person holds a valid class C driver's license or instruction permit.

This bill would also prohibit a person from modifying or altering the exhaust system of a motorized scooter in violation of noise restrictions and muffler requirements imposed by the bill.

(4) Existing law specifies that the statutes governing motorized scooters do not prevent a city or county, by ordinance, from regulating, among other things, the parking and operation of motorized scooters on pedestrian or bicycle facilities if that regulation is not in conflict with the Vehicle Code.

This bill would additionally specify that those statutes do not prevent a city or county from adopting an ordinance that regulates the operation of these scooters on local streets and highways if that regulation is not in conflict with the Vehicle Code.

(5) This bill would incorporate additional changes in Section 12804.9 of the Vehicle Code proposed by AB 3049, to be operative only if this bill and AB 3049 are enacted and become effective on or before January 1, 2005, each bill amends Section 12804.9 of the Vehicle Code, and this bill is enacted last.

(6) Because, under existing law, a violation of the Vehicle Code is a crime, this bill would impose a state-mandated local program by creating new crimes.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 756 (AB 1975) Bermudez. Physicians and surgeons.

The Medical Practice Act provides for the licensing of physicians and surgeons by the Medical Board of California. Existing law requires the board to promptly revoke the license of any person who is subject to or becomes subject to a requirement to register with the police as a sex offender, other than a person who is required to register as a sex offender solely because of a certain misdemeanor conviction. Existing law establishes a process for a person whose license is revoked under these provisions to petition the superior court for reinstatement of the license on the grounds that the person no longer poses a possible risk to patients.

This bill would revise these provisions to require the board to promptly revoke the license of any person subject to the requirement to register with the police as a sex offender on or after January 1, 1947, except in the case of certain misdemeanor convictions or unless the duty to register as a sex offender has been terminated. The bill would revise the provisions authorizing a petition of the superior court for reinstatement of a revoked license. The bill would state the intent of the Legislature that the bill be applied retrospectively as well as prospectively.

#### Ch. 757 (AB 1987) Steinberg. High Priority Schools Grant Program.

Existing law establishes the High Priority Schools Grant Program within the Public Schools Accountability Act of 1999 under which funds are made to eligible schools for implementation of a school action plan that includes specified components.

This bill would provide that a school participating in the program that received a planning grant in the 2001–02 fiscal year is eligible to receive program funding in only the 2002–03, 2003–04, and 2004–05 fiscal years.

#### Ch. 758 (AB 2193) Nation. Tanning facilities.

Existing law, the Filante Tanning Facility Act, provides for regulation of tanning facilities by the Department of Consumer Affairs, and requires a tanning facility to provide a written warning to customers and to post certain warning signs in the facility. Existing law makes a first violation of the act an infraction, and subsequent violations a misdemeanor.

This bill would make a tanning facility that violates a provision of the act liable for a civil penalty not to exceed \$2,500 per day.

Existing law requires a person less than 14 years of age to be accompanied by his or her parent or guardian when using a tanning device.

This bill would instead prohibit a person less than 14 years of age from using a tanning device.

By expanding the scope of a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 759 (AB 2303) Leno. Public utilities: executive bonuses.

(1) Under existing law, the Public Utilities Commission has regulatory authority over public utilities. Existing law authorizes the commission to fix just and reasonable rates and charges.

This bill would require that any expense resulting from a bonus paid to an executive officer, as defined, of a public utility that has ceased to pay its debts in the ordinary course of business, be borne by the shareholders of the public utility and would prohibit any expense from being recovered in rates. The bill would exempt from these requirements a bonus that is specifically defined in a standard employee compensation contract.

(2) Under existing law, a violation of the Public Utilities Act or an order of the commission is a crime.

Because certain provisions of this bill would be a part of the act and a violation of those provisions would be a crime, this bill would impose a state-mandated local program by creating a new crime.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 760 (AB 2312) Dutra. Point-of-sale devices.

Existing law defines a point-of-sale device, and prohibits the operator of a point-of-sale device from charging a customer a fee for the use of the device unless that fee is disclosed in advance of the customer being obligated to pay for any goods or services. Existing law requires that a ticket vending machine at a public transit station, when improved or replaced, be equipped with audio instructions to assist the visually impaired.

This bill would require that, whenever a point-of-sale system is changed or modified to include a video touch screen or nontactile keypad, the point-of-sale device also be equipped with a tactually discernible numerical keypad meeting specified requirements that enables a visually impaired person to enter personal information necessary to process a transaction. The bill would require certain existing point-of-sale systems that include a video touch screen or nontactile keypad to be equipped with a tactually discernible keypad satisfying those requirements. The bill would also require a manufacturer or distributor, on and after January 1, 2006, to offer for availability touch screen devices to be used and sold in this state that satisfy those requirements.

#### Ch. 761 (AB 2395) Correa. Sex offenders.

Existing law requires persons convicted of certain sex offenses in California to register as a sex offender, as specified. Existing law also requires persons convicted of certain sex offenses in other jurisdictions to register as a sex offender, as specified. Violations of certain of the registration requirements are crimes, as specified.

This bill would, subject to exceptions, require persons to register as a sex offender if the person has suffered a conviction in another state for a sex offense that would require the person to register as a sex offender in that state.

By expanding the provisions of law, the violation of which constitutes a crime, this bill would impose a state-mandated local program.

By imposing additional burdens on local government by requiring more persons to register as sex offenders, this bill would impose a state-mandated local program.

This bill would incorporate additional changes to Section 290 of the Penal Code proposed by AB 2527 and SB 1289, contingent upon the prior enactment of those bills.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 762 (AB 2531) Bates. Child abuse reporting.

Existing law establishes the Child Abuse and Neglect Reporting Act (CANRA), which requires specified persons to report to a specified agency whenever the mandated reporter, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. Failure to report an incident is a crime punishable by imprisonment in a county jail for a period of 6 months, a fine of up to \$1,000, or by both that imprisonment and fine.

This bill would add any person providing in-home supportive services to a child, as specified, to the list of individuals who are mandated reporters. However, this bill would also provide that such a person would not be required to make a report of child abuse or neglect unless he or she has received training or instructional materials, as specified, with respect to the duties imposed by these provisions.

This bill would incorporate additional changes to Sections 11165.7 and 11166.5 of the Penal Code proposed by SB 1313, contingent upon the prior enactment of that bill.

Because this bill would impose duties on local officers, and because it would change the definition of a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 763 (AB 2565) Parra. Economic development.

Existing law establishes the California Defense Retention and Conversion Council in the Department of Housing and Community Development with specified members and duties related to defense retention and conversion and military base reuse activities in the state. The council is authorized to apply for grants and seek contributions from private industry to fund its operations and is required to actively solicit private funds for specified purposes.

AB 926 would, until January 1, 2007, establish the Office of Military and Aerospace Support in the Business, Transportation and Housing Agency and require the office to recommend a specified plan for defense retention and conversion efforts.

This bill would require additional specified information to be included within that plan and require the plan to be submitted to the Governor and the Legislature by November 30, 2004.

This bill would become operative only if SB 926 of the 2003–04 Regular Session is chaptered and becomes operative.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 764 (AB 2672) Simitian. Large passenger vessels: sewage.

Existing law prohibits large passenger vessels, as defined, from releasing specified substances into the marine waters of the state. Existing law requires the State Water Resources Control Board to apply to the federal government to prohibit the release of specified substances in waters that are not in state waters, but are in certain marine sanctuaries.

Federal law prohibits a state from prohibiting vessels from discharging sewage, unless the state applies to and receives approval from the United States Environmental Protection Agency.

Existing law requires an owner or operator of a large passenger vessel that releases specified substances into the marine waters of the state or a marine sanctuary, as defined, to immediately report the release to the board, as specified.

This bill would require, until January 1, 2010, the board to determine whether it is necessary for the state to apply to the federal government to authorize the state to prohibit the release of sewage, as defined, from large passenger vessels into the marine waters of the state. If the board determines that it is necessary, the bill would require the board to make that application. The bill would provide that it is not the Legislature's intent to establish for the marine waters of the state a no-discharge zone for sewage from all vessels, but only for a class of vessels. The bill would provide that the Legislature intends to request the Congress of the United States to provide the state with authority to regulate the release of sewage from large passenger vessels into the marine waters of the state, as specified.

If the application is approved or the board determines that the application is not required, the bill would prohibit, until January 1, 2010, the owner or operator of a large passenger vessel from releasing, or permitting anyone to release, any sewage from the vessel into the marine waters of the state, and would subject a person who violates that prohibition to a civil penalty, as specified.

The bill would require, until January 1, 2010, the owner or operator of a large passenger vessel that releases sewage into the marine waters of the state or a marine sanctuary, as defined, to immediately report the release to the board, as specified.

Ch. 765 (AB 2677) Ridley-Thomas. Auto insurance: cost estimates.

Under existing law, the Insurance Commissioner generally regulates automobile insurers.

This bill would require an insurer licensed to sell personal automobile insurance to provide consumers of that insurance with a cost estimate for its lowest priced personal automobile insurance policy at the limits the consumer has requested and for which the consumer is eligible. It would require an insurer to meet this requirement by maintaining a toll-free telephone number or an Internet Web site, as specified. The bill would require an insurer to provide the toll-free telephone number or the Internet Web site address to the commissioner, and would require the commissioner to make this information available on the department's Internet Web site and through the department's consumer toll-free telephone line.

Ch. 766 (AB 2718) Laird. Common interest developments.

Existing law, the Davis-Stirling Common Interest Development Act, governs common interest developments. These provisions require, among other things, that the association of a common interest development prepare and distribute specified financial statements and

other documents to the members of the development. Upon written request, the association must also provide the owner of a separate interest in the development with a copy of specified documents concerning the development. The association is authorized to charge a fee for this service not to exceed the association's reasonable cost to prepare and reproduce the requested items.

These provisions also require the board of directors of a common interest development to cause to be conducted, under certain circumstances, a visual inspection of accessible areas of specified major components of the development at least once every 3 years as part of a study of the reserve account.

This bill would, among other things, revise provisions governing the preparation and distribution of financial and other documents to members of the development, require certain community service organizations, as defined, to prepare and distribute a specified financial statement, and set forth a specified form regarding assessment and reserve funding disclosures. The bill would also provide that an association may charge a reasonable fee for providing copies of specified documents to the owner of a separate interest, and that these items may be made available in electronic form, as specified. The bill would provide that its provisions apply to reports and disclosures made after July 1, 2005.

Ch. 767 (AB 2758) Berg. Telecommunications: grants to areas not served by local exchange carriers.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. The commission is required until January 1, 2006, to establish a grant program to aid in the establishment of telecommunications service in areas not currently served by existing local exchange carriers.

This bill would extend the grant program until January 1, 2009. The bill would make technical and conforming changes. The bill would provide that these provisions will not be operative unless SB 1276 of the 2003–04 Regular Session is enacted, amends specified provisions, and becomes effective on or before January 1, 2005.

Ch. 768 (AB 2857) Laird. Property taxation: assessment reduction applications.

Existing property tax law authorizes a taxpayer to apply to a county assessment appeals board for an assessment reduction under a variety of circumstances, including for a reduction of the base year value, as defined, of real property. Existing property tax law requires that the taxpayer's opinion of value, as reflected on a timely filed application for reduction in an assessment of property, be the basis for the calculation of property taxes, where the county assessment appeals board has failed to hear evidence and make a final determination on that application within either 2 years of the filing of that application or an extension of that 2-year period. Existing law requires that the taxpayer's opinion of value be the basis for taxing the property described in the application for all succeeding tax years until the board acts upon the application, as provided.

This bill would provide that, under these circumstances, the taxpayer's opinion of value shall be the basis for taxing the property for all succeeding tax years until the board acts, but only for applications for a reduction of real property's base year value. For all other applications for a reduction in an assessment under these circumstances, the bill would provide that the taxpayer's opinion of value shall be the basis for taxing the property described in the application only for the tax year or years for which the application was filed, as specified.

Ch. 769 (AB 3042) Yee. Sentencing.

Existing law prescribes the offenses of unlawful sexual intercourse, sodomy, lewd and lascivious acts, and oral copulation.

This bill would provide that a person suffering a felony conviction for any of those offenses, as specified, where the offense was committed with a minor for money or other

consideration, is punishable with an additional enhancement of one year imprisonment in state prison.

By imposing additional burdens on local prosecuting entities, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 770 (AB 3044) Yee. Prenatal ultrasounds.

The Hereditary Disorders Act requires the State Department of Health Services to establish regulations and standards for a hereditary disorders program, including with respect to clinical testing procedures for use in programs, facilities, and projects.

Existing law requires the department to administer a statewide program for the prenatal testing for genetic disorders and birth defects, including, but not limited to, ultrasounds.

This bill, commencing July 1, 2006, would require any licensed health facility that provides prenatal screening ultrasound to detect congenital heart defects to require that the ultrasound be performed by a sonographer who is nationally certified in obstetrical ultrasound by the American Registry for Diagnostic Medical Sonography, nationally certified in cardiac sonography by Cardiovascular Credentialing International, credentialed in sonography by the American Registry of Radiologic Technologists, or has a minimum of 2 years full-time of work experience in this state as a sonographer in prenatal ultrasound and has obtained, or is obtaining, 30 continuing medical education credits over a 3-year period in ultrasound. The bill would also require a sonographer to perform ultrasound under the supervision of a licensed physician and surgeon.

Ch. 771 (AB 421) Steinberg. Property insurance: subsidized housing.

Existing law generally regulates property insurance. Existing law prohibits an insurer under certain property insurance policies from engaging in specified discriminatory practices.

This bill would require the Insurance Commissioner, by July 1, 2005, to conduct a study of the market for property and liability insurance for corporations that provide subsidized low- and moderate-income rental housing, as specified.

Ch. 772 (AB 1510) Kehoe. Disaster relief.

(1) Existing law authorizes a county board of supervisors to provide by ordinance for the reassessment of property that is damaged or destroyed, without fault on the part of the assessee, by a major misfortune or calamity, upon the application of the assessee or upon the action of the county assessor with the board's approval. With respect to certain counties that have adopted reassessment ordinances and have been declared by the Governor to be in a state of disaster as a result of certain events, existing law provides for state allocations of the estimated amounts of the reductions in property tax revenues resulting in certain fiscal years from reassessments under those ordinances. Existing law also continuously appropriates, without regard to fiscal years, moneys in the Special Fund for Economic Uncertainties for purposes of funding these state allocations.

This bill would provide for similar state allocations with respect to property tax revenue reductions, resulting from a reassessment ordinance, incurred by the Counties of Los Angeles, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, and Ventura, which were declared by the Governor to be in a state of disaster as a result of specified disasters occurring in California in 2003. By requiring moneys continuously appropriated from the Special Fund for Economic Uncertainties to be allocated for the new purpose of reimbursing these counties for these property tax revenue reductions, this bill would make an appropriation.

(2) The Natural Disaster Assistance Act provides for, among other things, specified allocations to local agencies with respect to natural disasters.

This bill would include within those provisions specified disasters that occurred in southern California during October and December 2003, as provided.

(3) The Personal Income Tax Law and the Corporation Tax Law provide for the carryover to specified taxable years of specified losses sustained as a result of certain disasters occurring in California in an area determined by the President of the United States to warrant specified federal assistance, or proclaimed by the Governor to be in a state of disaster.

This bill would extend these provisions to losses sustained as a result of the fires that occurred in the Counties of Los Angeles, Riverside, San Bernardino, San Diego, and Ventura in October and November 2003, as a result of floods, mudflows, and debris flows, directly related to fires, as a result of the San Simeon earthquake of December 22, 2003, and as a result of any loss sustained as a result of the Middle River levee break in San Joaquin County in June 2004. This bill would also authorize a taxpayer to make an election to claim a deduction for those losses on the tax return for the preceding year.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 773 (AB 1867) Vargas. Budget: insurance fraud.

Existing law requires an insurer to pay annual fees, as specified, for each vehicle insured under a policy issued in this state for purposes relating to the investigation and prosecution of fraudulent auto insurance claims and auto theft. Existing law requires that these funds be distributed in specified percentages to certain entities, including to district attorneys, upon application. Under the Budget Act of 2004, a specified sum was appropriated to the Department of Insurance for programs relating to fraud control.

This bill would amend the Budget Act by adding \$5,202,000 to that appropriation. The bill would specify that these additional funds shall be derived from the above annual fees for distribution to district attorneys for the investigation and prosecution of automobile theft and insurance fraud. The bill would require that the funds be distributed to district attorneys during the 2004–05 fiscal year.

Ch. 774 (AB 1906) Lowenthal. Hazardous materials: petroleum: underground storage tanks: cleanup: fees.

Existing law requires the owner or operator of an underground petroleum storage tank, or other responsible party, to take corrective action, as defined, in response to an unauthorized release of petroleum from the tank. A person required to perform corrective action may apply to the State Water Resources Control Board for payment of specified portions of the costs of corrective action. Existing law establishes the Underground Storage Tank Cleanup Fund in the State Treasury and authorizes the money in the fund to be used, upon appropriation by the Legislature, to pay those claims, and, among other things, for corrective actions undertaken by the board, a California regional water quality control board, or a local agency, and for the cleanup and oversight of unauthorized releases at abandoned tank sites. Existing law imposes certain petroleum storage fees upon the owner of an underground storage tank for which a permit is required and requires those fees to be deposited in the fund.

This bill would increase a specified petroleum storage fee by \$0.001 \$0.002 per gallon of petroleum stored, on and after January 1, 2005, and by an additional \$0.001 per gallon of petroleum stored, on and after January 1, 2006. By operation of existing law, the revenue resulting from the increase would be required to be deposited in the fund and be available, upon appropriation, for expenditure for the purposes authorized under existing law for money in the fund.

The bill would establish the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Subaccount in the fund and would require \$10,000,000 to be annually transferred for calendar years 2005, 2006, and 2007, into that subaccount, for expenditure, upon appropriation by the Legislature, for the costs of response action to remediate the harm

caused by petroleum contamination at specified sites, if petroleum contamination is the site's principal source of contamination, the source of the contamination is, or was, an underground storage tank, and a financially responsible party has not been identified. The bill would repeal the subaccount on January 1, 2008, and transfer the remaining funds in the subaccount, on that date, to the fund.

Ch. 775 (AB 1910) Harman. Decedents' estates: posthumously conceived children.

Existing law provides for the distribution of a decedent's estate among heirs and beneficiaries. Existing law sets forth the conditions required to establish a parent and child relationship for purposes of intestate succession. Existing law regulates the payment of proceeds pursuant to a life insurance policy.

Existing law, the Uniform Parentage Act, authorizes certain persons to bring an action to determine the existence or nonexistence of a father and child relationship, and sets forth the circumstances under which a man may be presumed to be the natural father of a child. Existing law also provides that, to the extent practicable, provisions governing the determination of a father and child relationship apply to the determination of a mother and child relationship.

This bill would provide that, for purposes of determining rights to property to be distributed upon the death of a decedent, a child of the decedent conceived after the death of the decedent, other than a child conceived as a result of human cloning, shall be deemed to have been born in the lifetime of the decedent if the child or his or her representative proves by clear and convincing evidence that specified conditions are satisfied.

This bill would prohibit a person who has the power to control the distribution of either the decedent's property or death benefits payable by reason of the decedent's death, and who has received notice or has actual knowledge that the decedent's genetic material was available for posthumous conception and was used in the manner intended by the decedent, as specified, from making a distribution of the property or paying death benefits payable by reason of the decedent's death before 2 years following the date of issuance of a certificate of the decedent's death or entry of judgment determining the fact of the decedent's death, whichever event occurs first, except as specified. The bill would also provide that a natural parent and child relationship may be established for purposes of intestate succession pursuant to the provisions described above.

This bill would make related changes to provisions governing the payment of insurance policy proceeds. The bill would also enact provisions requiring entities that receive certain genetic material to provide related forms to the donors of that genetic material.

The bill would also make related changes to the Uniform Parentage Act by providing that (1) if the child is conceived after the father's death and if the conditions applicable with respect to determining rights to property to be distributed upon the death of the decedent are satisfied, the father may be presumed to be the natural father of the child, and (2) any interested party may bring an action at any time to determine the existence or nonexistence of that presumed parent and child relationship.

The bill would incorporate additional changes to Section 10172.5 of the Insurance Code proposed by AB 2384, contingent upon the prior enactment of that bill.

Ch. 776 (AB 2028) Koretz. Unemployment insurance: WARN Act.

Existing unemployment insurance law provides unemployment compensation benefits to eligible unemployed individuals. Existing law specifies that a person is "unemployed" in any week during which he or she performs no services and with respect to which no wages are payable to him or her. Existing law requires that payments received from an employer pursuant to the federal Worker Adjustment Retraining Notification (WARN) Act not be construed as wages or compensation for personal services for purposes of determination of eligibility for unemployment compensation benefits.

Existing labor law precludes employers from ordering a mass layoff, relocation, or termination of an industrial or commercial facility employing a prescribed number of people, without first giving 60 days' notice to affected employees and specified government agencies. Payments to an employee by an employer who is liable to that person, under either those labor law provisions or the WARN Act, are not considered wages or compensation for personal services for purposes of unemployment insurance, and unemployment insurance benefits may not be denied or reduced by those payments.

This bill, by adding a similar provision to the unemployment insurance law, would clarify that payments received from an employer pursuant to the specified labor law provisions may not be construed as wages or compensation for personal services for purposes of determination of eligibility for unemployment compensation benefits.

**Ch. 777 (AB 2147) Kehoe. Liability insurance: wrap-up policies.**

Existing law generally regulates liability and workers' compensation insurance. Existing law requires that a workers' compensation insurer report specified data to a rating organization, and that rates be set for each insured in accordance with an experience rating plan.

This bill would require an insurer under a wrap-up insurance policy, as defined, to report workers' compensation losses and payroll information for each contractor and subcontractor to its rating organization on a timely basis and in accordance with the uniform statistical plan. It would require the insurer, within 10 days, upon request, to provide to each contractor and subcontractor copies of the report covering workers' compensation losses and payroll information for that contractor or subcontractor.

**Ch. 778 (AB 2165) Houston. Disaster relief.**

The Natural Disaster Assistance Act generally provides that the state share for disaster project allocations to local agencies is 75% of total state eligible costs, except for specified events for which the state share is 100% of state eligible costs.

This bill would add the Middle River levee break that occurred in San Joaquin County in June 2004, to the events for which the state share of state eligible cost is 100%.

This bill would declare that it is to take effect immediately as an urgency statute.

**Ch. 779 (AB 2251) Lowenthal. Hazardous waste facilities permits: financial assurances.**

(1) Existing law requires hazardous waste facilities to operate under hazardous waste facilities permits issued by the Department of Toxic Substances Control (department). Existing law defines the term "storage facility" for purposes of the hazardous waste control laws as including a transfer facility where the hazardous waste is held for more than 6 days, or, if the transfer facility is located in an area zoned industrial, for a period greater than 10 days. Existing law excludes a transfer facility from this definition of storage facility if the hazardous waste is held in containers or tanks for a period of 6 days or less, or for a period of 10 days or less if the transfer facility is located in an area zoned industrial by the local planning authority. The department is authorized to extend these time periods for hazardous waste generated as a result of an emergency release, as specified.

This bill would revise the definition of the term "storage facility", by, among other things, revising the time periods and conditions under which a transfer facility that holds hazardous waste qualifies as a storage facility. The bill would exempt, from the definition of storage facility, a transfer facility that is not located in a residential area and that holds hazardous waste generated as a result of an emergency, if the holding of that hazardous waste is approved by the department. The bill would authorize the department to adopt regulations setting forth additional restrictions and standards on transfer facilities.

(2) Existing law defines the term "used oil transfer facility" for purposes of the provisions regulating the handling of used oil, as a transfer facility, as defined, that either stores used oil

for specified periods or transfers used oil from one container to another. A used oil transfer facility that holds the oil for more than 24 hours, but less than those specified periods of time, and does not handle the used oil, except as specified, is required to comply with specified federal regulations. A violation of the laws regulating used oil is a crime.

This bill would revise the definition of “used oil transfer facility” to instead include a transfer facility that meets the qualifications to be a storage facility, as specified in this bill. The bill would also make conforming changes with regard to compliance with those federal regulations by a transfer facility that holds the oil for more than 24 hours but is not a storage facility.

(3) Existing law requires the department to issue a hazardous waste facilities permit for a fixed term, which is prohibited from exceeding 10 years for any land disposal facility, storage facility, incinerator, or other treatment facility.

This bill would require the owner or operator of the facility intending to extend the term of the permit to submit a complete Part A application for permit renewal before the fixed term of the permit expires. The bill would provide that if the application and other specified information is submitted to the department, the permit is deemed extended until the renewal application is approved or denied and the owner or operator has exhausted all applicable rights of appeal. The bill would require the department to consider input received from the public when prioritizing pending renewal applications and determining the need for new conditions on an extended permit.

(4) Existing law allows the owner or operator of a permitted hazardous waste facility to change facility structures or equipment without modifying the facility’s hazardous waste facilities permit, if the change to the structure or equipment is not within a permitted unit, or if the structure or equipment is not actively related to the treatment, storage, or disposal of hazardous waste, or the secondary containment of those hazardous wastes, as specified.

This bill would authorize the owner or operator of a permitted facility, to the extent consistent with the federal RCRA and the regulations adopted pursuant to RCRA, to change the facility structures or equipment utilizing the Class 1\* permit modification specified in the regulations adopted by the Department of Toxic Substances Control, if the department determines that the change to the structure or equipment is necessary to comply with requirements or the request of a state or federal agency or an air quality management or air pollution control district and if the change will decrease one or more risks, and will not result in any increased risks to human health and safety or the environment related to the management of the hazardous wastes in the structure or equipment, and the owner or operator submits specified information to the department.

(5) Existing law requires the department to adopt regulations that specify the financial assurances to be provided by the owner or operator of a hazardous waste facility that are necessary to respond adequately to damage claims and to provide for the cost of closure and subsequent maintenance. Existing law requires the financial assurance to be a trust fund, surety bond, letter of credit, insurance, or, if the facility manages hazardous waste that is not regulated under RCRA, any other equivalent financial arrangement acceptable to the department. A violation of the hazardous waste control law, including a regulation adopted by the department, is a crime.

This bill would instead require, if the facility is required to obtain a permit under RCRA, that the financial assurance be a trust fund, surety bond, letter of credit, insurance or other mechanism authorized under RCRA, and would provide, if the facility is not required to obtain a permit under RCRA, the financial assurance could include any other equivalent financial arrangement acceptable to the department.

(6) Since a violation of the requirements imposed by the bill and the regulations adopted by the department is a crime, the bill would impose a state-mandated local program.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 780 (AB 2288) Pacheco. Hate crimes.

Under existing law certain hate crimes are punishable by imprisonment in the state prison or in a county jail not to exceed one year, by a fine not to exceed \$10,000, or by both, if the crime is committed (1) against the person or property of another to intimidate or interfere with that other person's free exercise or enjoyment of any legal or constitutional right, and (2) because of the other person's race, color, religion, ancestry, national origin, disability, gender, or sexual orientation, or because the defendant perceives that the other person has one or more of those characteristics, and (3) under specified circumstances, including, among other things, that the crime against property causes damage in excess of \$500.

This bill would lower the property damage amount to \$400. Because this bill would expand the scope of an existing crime, it would impose a state-mandated local program.

This bill would incorporate additional changes to Section 422.7 of the Penal Code proposed by SB 1234, contingent upon the prior enactment of that bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 781 (AB 2304) Richman. Energy resources.

(1) Existing law requires the State Energy Resources Conservation and Development Commission to submit quarterly reports to the Legislature summarizing the amount of methyl tertiary-butyl ether (MTBE) used in gasoline by each refinery during the preceding quarter and comparing that amount to the amount of MTBE used in gasoline by each refinery during the previous quarter.

This bill would delete this reporting requirement.

(2) Existing law requires the commission, in conjunction with the State Air Resources Board, to carry out a technology development and financial assistance program relating to the use of methanol fuel. Existing law establishes the Clean Fuels Account in the General Fund for the purposes of the program.

This bill would repeal that program.

(3) Existing law establishes the renewable energy resources program to increase the amount of renewable electricity generated per year, so that it equals at least 17% of the total electricity generated for consumption in California per year by 2006. Existing law requires the commission to report to the Legislature on or before May 31, 2000, and on or before May 31 of every second year thereafter, regarding the results of the mechanisms funded under the program, and prescribes the matters to be included in the reports.

This bill would instead require the commission to report to the Legislature on or before November 1, 2005, and annually thereafter. The bill would also revise the matters to be included in the reports to include additional information, as specified.

This bill would state that the above report is in lieu of the annual report required by Item 3360-001-0381 of the Supplemental Budget Report of the Budget Act of 1999.

(4) Existing law establishes the Renewable Resource Trust Fund for purposes of the renewable energy resources program and establishes certain accounts within the trust fund. Existing law authorizes the commission to transfer funds between accounts for cashflow purposes, as provided, and requires the commission to examine the cashflow in the respective accounts on an annual basis and to annually prepare and submit to the Legislature a report that describes the status of account transfers and repayments.

This bill would delete the annual examination and reporting requirements.

(5) Existing law requires the commission to report to the Legislature on a quarterly basis on the implementation of the renewable energy resources program and specifies the information to be included in the reports.

This bill would delete that reporting requirement.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 782 (AB 2328) Wyland. Corporation tax: federal conformity.

The Corporation Tax Law provides that, for taxable years beginning on or after January 1, 2002, corporations that have elected to be taxed as "S" corporations for federal tax purposes are deemed to be "S" corporations for California income tax purposes, unless the entity is prohibited from being a California "S" corporation. The Corporation Tax Law, in modified conformity to federal income tax laws, provides for the specified tax treatment of "S" corporations and their shareholders. Among other things, that law imposes a tax on built-in gains, attributable to California sources, derived by an "S" corporation from the disposition of its assets that appreciated in value during the years when the "S" corporation was a "C" corporation, as provided.

This bill, for taxable years beginning on or after January 1, 2002, would specify that the built-in gain provisions in the case of a "C" corporation, that became an "S" corporation for state tax purposes as a result of the enactment of Chapter 35 of the Statutes of 2002, as amended by Chapter 807 of the Statutes of 2002, would apply based on the effective date of the election by that corporation to be treated as an "S" corporation for federal tax purposes, regardless of the effective date for state tax purposes. This bill would declare that the retroactive application of the provisions of the bill serves a public purpose by ensuring the fair and consistent application of California tax law, and by avoiding possible legal challenges to that law or its application.

Existing law, in modified conformity to federal income tax laws, limits the use of a cash method of accounting in the case of a "C" corporation, a partnership that has a "C" corporation as a partner, and a tax shelter, but provides an exemption, among others, for the amounts received by a person using an accrual method of accounting for the performance of services.

This bill would provide additional state income and corporation tax law conformity with federal income tax laws by adopting specified provisions of the Jobs and Growth Tax Relief Reconciliation Act of 2003 with respect to the accounting of amounts to be received by a person for the performance of services by that person.

This bill would take effect immediately as a tax levy.

Ch. 783 (AB 2719) Laird. State Archives: public access.

Existing law provides for the State Archives, with the Secretary of State as custodian, and requires the secretary to receive into the archives any item, including any paper, document, book, map, or other type of record, that is required by law to be delivered to or filed with the secretary.

The existing California Public Records Act provides that, except for exempt records, every state or local agency, upon request, shall make records available to any person upon payment of fees to cover costs.

This bill would provide that, notwithstanding any provision of the act, any provision of law that exempts from public disclosure any item in the custody of the State Archives shall not apply to that item 75 years after the item was created, irrespective of the origin of the item, the manner in which it was deposited with the State Archives, or any other condition or circumstance at the time the item was deposited. It would require the State Archives to notify any party who deposits any item in the State Archives in the future of these provisions and would require the Secretary of State's Internet Web site to include a public notice about these provisions.

Ch. 784 (AB 2782) Benoit. Public agencies: joint powers agencies: meetings.

Existing law authorizes two or more public agencies, if authorized by their legislative bodies, to enter an agreement to jointly exercise any power common to the two agencies. The

Ralph M. Brown Act requires that meetings of the legislative body of a local agency be open and public, with specified exceptions authorizing closed sessions for specified purposes.

This bill would provide that a joint powers agency may include in its joint powers agreement provisions that authorize (1) any member of the legislative body of the joint powers agency who is also a member of the legislative body of a local agency that is a member of the joint powers agency to disclose information to the agency's legal counsel, as specified, or to other members in a closed session of the legislative body of the local member agency when the information was obtained in a closed session of the joint powers agency and has direct financial or liability implications for that local agency, or (2) any designated alternate member of the local agency member in a closed session of the joint powers agency to attend closed sessions of the agency, as specified. The bill would further authorize the legislative body of a local agency, upon the advice of its legal counsel, to hold a closed session to receive, discuss, and take action concerning information obtained in a closed session of the joint powers agency, as specified.

The bill would incorporate changes to Section 54954.5 of the Government Code proposed by both this bill and AB 1827, which would become operative only if both bills are enacted and become effective on or before January 1, 2005, and this bill is enacted after AB 1827.

#### Ch. 785 (AB 2790) Pacheco. Elections.

(1) Existing law authorizes a city council to enact an ordinance requiring its general municipal election to be held on the same day as the statewide direct primary election, the day of the statewide general election, or on the day of school district elections, as specified.

This bill would additionally authorize a city council to enact an ordinance requiring its general municipal election to be held on the 1st Tuesday after the 1st Monday of March in each odd-numbered year or the 2nd Tuesday of April in each year.

(2) Existing law requires that an elections official immediately send a copy of any argument filed against a city measure to any person who has filed an argument in favor of that measure so that person may prepare and submit a rebuttal argument to the elections official.

This bill would additionally allow the author of an argument relating to a city measure to authorize, in writing, any other person or persons to prepare, submit, or sign the rebuttal argument.

(3) Existing law establishes certain requirements for candidate nomination papers that must be met for the nomination paper to be sufficient.

This bill would, upon the determination that a nomination paper is insufficient or does not contain the requisite number of valid signatures, require the elections official to retain the original nomination paper, provide a copy of the nomination paper to the candidate with an indication of the valid signatures, and issue a supplemental petition to the candidate on which the candidate may collect additional signatures, thereby imposing a state-mandated local program.

(4) Existing law authorizes the imposition of a filing fee proportionate to the costs of processing a candidate's nomination papers as determined by the city council and set by ordinance, but not exceeding \$25, to be paid upon the filing of the nomination papers.

This bill would additionally authorize the imposition of that fee for the processing of a candidate's supplemental nomination papers.

(5) Existing law requires the canvass of election returns to be completed by the elections official no later than the 3rd Friday after the election and requires the governing body to meet no later than the 3rd Friday after the election to declare the results and install the newly elected officers.

This bill would instead require the canvass of election returns to be completed by the elections official and the governing body to meet to declare the results and install the newly elected officers no later than at the next regularly scheduled city council meeting after the election or at a special meeting called for that purpose.

(6) Existing law requires that, if a general municipal election is held on the same day as a statewide election, those city officers whose terms of office would have expired on the 3rd Tuesday in April of an even-numbered year to continue in their offices until no later than the 4th Tuesday after the general municipal election, and until their successors are elected and qualified.

This bill would instead require that, if a general municipal election is held on the same day as a statewide election, those city officers whose terms of office would have expired no later than the next regularly scheduled city council meeting after an election to continue in their offices until not later than that meeting.

(7) Existing law authorizes, in the case of 2 randomized alphabets drawn for the same election, the results of the 2nd randomized alphabet drawing to be clearly set apart and labeled "FOR USE IN A RUNOFF ELECTION ONLY."

This bill would require this existing law to apply in the case of a charter city that holds an election and a runoff election.

(8) Existing law requires that all nomination documents and signatures in lieu of filing fee petitions be held by the elections officer with whom they are filed during the term of the office for which they are filed and 4 years after the expiration of that term. Existing law authorizes voters to inspect the content of election packages, as described, following the commencement of the official canvass of the votes.

This bill would limit public access to documents filed with an elections officer to viewing the documents only and would prohibit the public from copying or distributing any documents that contain the signatures of voters. This bill would prevent, following the commencement of the official canvass of votes, voters from copying or distributing any documents that contain signatures of voters.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 786 (AB 2846) Salinas. Property taxation: assessment: tax credits.

Existing property tax law prohibits the assessor, when appraising property under the income method of appraisal for persons of low and moderate income that was financed under a specified federal law, from considering as income certain subsidy payments made by the federal government to a lender that financed that property.

This bill would expressly prohibit the assessor, when appraising any property under the income method of appraisal, from considering as income the benefit of specified federal and state low-income housing income tax credits allocated by the California Tax Credit Allocation Committee.

Ch. 787 (AB 3088) Jerome Horton. Auto insurance: good driver discounts.

Existing law requires agents or representatives representing insurers under common ownership, management, or control to offer, and one of these insurers to sell, a good driver discount policy to a good driver. Under Proposition 103, an insurer is required to offer good driver discount policies to individuals who meet specified requirements.

This bill would provide that, notwithstanding the above provisions, insurers operating under common management or control are not required to sell good driver discount policies issued by other insurers within the common ownership group if specified conditions are met. Because this bill would change the requirements contained in Proposition 103 with respect

to offering good driver discount policies, it would amend that proposition and would therefore require a  $\frac{2}{3}$  vote for enactment.

Ch. 788 (AB 2900) Laird. Employment: discrimination.

Various provisions of existing law prohibit discrimination in employment on different bases, including the race, color, sex, religion, and marital status of a person.

This bill would amend those provisions to instead prohibit discrimination on the same bases as in the Fair Employment and Housing Act. Those bases are race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation.

Because existing law makes a violation of certain of those nondiscrimination provisions a misdemeanor, this bill, by expanding the bases on which discrimination is prohibited, would impose a state-mandated local program.

This bill would also make technical, nonsubstantive changes to those provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 789 (AB 2473) Wolk. Energy systems: local regulations.

(1) Existing law provides that any covenant, restriction, or condition contained in any deed, contract, security instrument, or other instrument affecting property, as specified, that prohibits or restricts the installation or use of a solar energy system is void and unenforceable. Existing law permits reasonable restrictions on a solar energy system that do not “significantly,” as defined, increase the cost of the system or decrease its efficiency or specified performance.

This bill would redefine the term “significantly” with regard to the restrictions imposed on solar domestic water heating systems or swimming pool heating systems and photovoltaic systems, as specified.

(2) Existing law prohibits the legislative body of any city or county from enacting an ordinance that prohibits or unreasonably restricts the use of solar energy systems other than for the preservation or protection of the public health and safety.

This bill would revise and recast those provisions to require every city, county, or city and county to approve the installation of a solar energy system, as defined, through the issuance of specified permits. The bill would declare that the implementation of consistent statewide standards to achieve the timely and cost-effective installation of solar energy systems is a matter of statewide concern.

The bill would require solar energy systems to meet specified standards. The bill would also require the issuance of a use permit by a city or county to install a solar energy system unless it makes specified written findings based upon substantial evidence in the record that the proposed installation would have a specific, adverse impact upon the public health or safety. The bill would provide for appeal of that decision to the planning commission, as specified. The bill would further make specified findings and declarations in that regard.

Because the bill would impose additional duties on local employees, the bill would create a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 790 (AB 594) Leno. Private energy producers: Hetch Hetchy Water and Power solar generation.

Under existing law, the Public Utilities Commission is vested with regulatory authority over public utilities. Existing law permits a private energy producer to generate electricity not generated from conventional sources, as defined, solely for its own use or the use of its tenants, or generating electricity to or for any electrical corporation, state agency, city, county, district, or an association thereof, but not the public, without becoming a public utility subject to the general jurisdiction of the commission. Existing law requires the commission to review the charges paid by electrical corporations to private energy producers for electricity generated by other than conventional power sources and to review standby and transmission charges imposed by electrical corporations upon the private energy producers. The commission is further required, after the review, to adjust those charges to encourage the generation of electricity from other than conventional power sources. Existing law authorizes the City of Davis to receive a bill credit, as defined, to a benefiting account, as defined, for electricity supplied to the electric grid by a photovoltaic facility located within and partially owned by the city and requires the commission to adopt a rate tariff for the benefiting account.

This bill would authorize the City and County of San Francisco to elect to designate specific photovoltaic generation facilities meeting specified conditions as Hetch Hetchy Water and Power (HHWP) solar generation facilities, and upon election and the filing and acceptance of an advice letter with the commission establishing rates, Pacific Gas and Electric Company would be required on a monthly basis, to credit the City and County of San Francisco for certain electricity generated and delivered to the electric grid in accordance with specified rate criteria. The bill would provide for the termination of this arrangement upon notice from the city and county or upon the city and county engaging in retail sales to customers within the service territory of Pacific Gas and Electric Company, as a result of becoming a community choice aggregator, as a result of municipalization, or otherwise.

Under existing law, a violation of the Public Utilities Act, a filed tariff, or an order of the commission is a crime.

Because the provisions of the bill would require an order or other action of the commission to implement those provisions, a violation of that order or action would be a crime, and thereby the bill would impose a state-mandated local program by creating a new crime.

The bill would declare that, due to the special circumstances applicable only to HHWP solar generation facilities, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 791 (SB 849) Torlakson. Metropolitan Transportation Commission and Association of Bay Area Governments.

Existing law, the Metropolitan Transportation Act, creates the Metropolitan Transportation Commission as a regional agency to provide comprehensive regional transportation planning for the San Francisco Bay Area counties.

This bill would express the Legislature's findings that the commission has collaborated with the Association of Bay Area Governments (ABAG) on regional coordination and agreed to create a joint policy committee. The bill would express the Legislature's findings that the Bay Area Air Quality Management District should be included on the joint policy committee by June 30, 2005, as a represented agency. The bill would require that committee to report to the Legislature by January 1, 2006, on the feasibility of consolidating functions separately performed by ABAG and the commission. The bill would require the committee to coordinate the development and drafting of major planning documents prepared by ABAG, the commission, and the Bay Area Air Quality Management District.

Because the bill would require local agencies to perform additional duties, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 792 (SB 1147) Hollingsworth. Disaster relief.

Existing property tax law provides, pursuant to a specified provision of the California Constitution, for a homeowners' property tax exemption in the amount of \$7,000 of the full value of a "dwelling," as defined.

This bill would provide that any dwelling that qualified for the exemption prior to October 15, 2003, that was damaged or destroyed by fire or earthquake in a disaster, as specified, and any dwelling that qualified for the exemption prior to June 3, 2004, that was damaged or destroyed by flood in a disaster, as specified, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner.

By requiring local tax officials to implement new exemption criteria, this bill would impose a state-mandated local program.

The California Constitution requires the Legislature, in each fiscal year, to reimburse local governments for the revenue losses incurred by those governments in that fiscal year as a result of the homeowners' property tax exemption.

This bill would state the intent of the Legislature to make this required reimbursement in the annual Budget Act.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would take effect immediately as a tax levy.

Ch. 793 (SB 1507) Burton. Transportation: financing.

Existing law requires that all money in the State Highway Account in the State Transportation Fund derived from federal sources or from appropriations to other state agencies, or deposited in the account by local agencies or by others, be continuously appropriated to, and be available for expenditure by, the Department of Transportation for the purposes for which the money was made available. Unless otherwise expressly provided for by law, none of the balance of the money in the account may be expended until it has been specifically appropriated by the Legislature.

Existing law continuously appropriates the amounts specified in the annual Budget Act as having been deposited in the State Highway Account in the State Transportation Fund from federal transportation funds, and pledged by the California Transportation Commission, to the Treasurer for the purposes of issuing federal highway grant anticipation notes, as specified, to fund transportation projects selected by the commission.

Existing law defines “eligible project” for these purposes as a highway or other transportation project that has been designated for accelerated construction by the commission, as specified.

Existing law prohibits the Treasurer from authorizing the issuance of the notes if the annual repayment obligations of all outstanding notes in any fiscal year would exceed 30% of the total amount of federal transportation funds deposited in the account for any consecutive 12-month period within the preceding 24 months.

This bill would define “eligible project” for these purposes as a highway or other transportation project that has been designated for accelerated construction by the commission, and increases the capacity, reduces the travel time, or provides long-life rehabilitation of the key bridges and roadways of a corridor or gateway for interregional travel and movement of goods.

The bill would prohibit the Treasurer from authorizing the issuance of the notes if the annual repayment obligations of all outstanding notes in any fiscal year would exceed 15% of the total amount of federal transportation funds deposited in the account for any consecutive 12-month period within the preceding 24 months.

The bill would delete the requirement that the amount for these purposes be specified in the annual Budget Act as having been deposited in the account.

#### Ch. 794 (SB 1820) Machado. Land conservation contracts.

Existing law makes the current fair market valuations required to determine the cancellation fee for removing land from a Williamson Act conservation contract subject to appeal to the county board of equalization. Existing law requires the county assessor to send a notice to the assessee that indicates the current fair market value of the land as though it were free of the contractual restriction and that advises the assessee of his or her right to appeal the determination, as specified.

This bill would delete the assessee’s right to an appeal and instead require the assessor to notify the landowner and the Department of Conservation of the opportunity to request formal review from the assessor. The bill would permit the Department of Conservation or the landowner, if either believes that the current fair market valuations are inaccurate, to request formal review from the county assessor in the county considering the cancellation petition. It would also set forth the procedures for formal review and any recomputation of the cancellation fee, as specified.

#### Ch. 795 (SB 1210) Torlakson. Design-sequencing contracts.

Existing law authorizes the Department of Transportation until January 1, 2005, to conduct a pilot project to let design-sequencing contracts, as defined, for the design and construction of not more than 12 transportation projects, to be selected by the Director of Transportation.

This bill would establish a phase 2 of this pilot project that would be in effect until January 1, 2010. The bill would require the director to consider selecting projects that improve interregional and intercounty routes. The bill would require the department to prepare an annual status report each year a contract is in effect under the project and would require a peer review committee to report to the Legislature on using design-sequencing as a contracting method.

#### Ch. 796 (SB 1742) McPherson. Oil spills.

(1) Existing law requires the Governor to establish the state oil spill contingency plan.

This bill would rename the plan the California oil spill contingency plan. The bill would revise those provisions with respect to, among other things, (1) the definitions of “marine waters” and “spills and discharge;” (2) use of volunteer works for wildlife rehabilitation, and other aspects relating to wildlife rehabilitation; and (3) interstate agreements with other states; and (4) the establishment of harbor safety committees.

The bill also would require the administrator to conduct periodic reviews of the policies for the use of in situ burning with respect to oil spills.

(2) Existing law requires the administrator to establish specified harbor safety committees and requires that each member of a committee be reimbursed for actual and necessary expenses incurred in the performance of committee duties.

This bill would instead authorize reimbursement for those expenses.

(3) Existing law creates the Environmental Enhancement Committee, prescribes the membership of the committee, and requires the committee to approve certain environmental enhancement projects funded by moneys from penalties collected for violations of the Lempert-Keene-Seastrand Oil Spill Prevention and Response Act.

This bill would require the Environmental Enhancement Committee to establish a process for the solicitation, submittal, review, and selection of environmental enhancement projects. The bill would also establish the Environmental Enhancement Grant Program, which would award grants on a competitive basis to cover the cost of those projects that are selected by the committee and that meet specified requirements, as provided.

(4) The bill would make related changes and delete obsolete provisions.

(5) This bill would incorporate additional changes in Section 8670.25.5 of the Government Code proposed by AB 1408 that would become operative only if AB 1408 and this bill are both chaptered and become operative on or before January 1, 2005.

#### Ch. 797 (SB 1845) Perata. Adult day health care.

The California Adult Day Health Care Act provides for the licensure and regulation of adult day health care centers, with administrative responsibility for this program shared between the State Department of Health Services and the California Department of Aging.

The Adult Day Health Medi-Cal Law establishes adult day health care services as a Medi-Cal benefit for Medi-Cal beneficiaries who meet certain criteria.

The bill would revise the Adult Day Health Medi-Cal Law, including revising designated Medi-Cal certification standards, including, but not limited to standards relating to the facility program plan, deleting the requirement that an adult day health care provider provide services only to those participants living within its service area, and deleting the requirement that the State Department of Health Services conduct reviews prior to approving renewal of Medi-Cal certification.

#### Ch. 798 (AB 384) Leslie. Tobacco products: correctional facilities.

Existing law allows the Director of the Department of Corrections to prescribe and amend rules and regulations for the administration of state prisons. Existing law includes tobacco products among the products that may be authorized for sale to inmates at state prison facilities.

Existing law allows the Director of the Department of the Youth Authority to make and enforce all rules appropriate to the proper accomplishment of the functions of the department, including the correction and rehabilitation of young persons who have committed public offenses. Existing law includes tobacco products among the products that may be authorized for sale to inmates at Youth Authority facilities.

This bill would prohibit the possession or use of tobacco products by inmates and wards under the jurisdiction of the Department of Corrections and the Department of the Youth Authority. It would require the directors of these departments to adopt regulations to implement this prohibition, and would require that these regulations include an exemption for departmentally approved religious ceremonies.

The bill would, in addition, prohibit the use of tobacco products by any person not included among those described above on the grounds of any institution or facility under the jurisdiction of the Department of Corrections or the Department of the Youth Authority, with the exception of residential staff housing where inmates or wards are not present. It would

eliminate tobacco products from the list of items that may be sold at those institutions and facilities.

The bill would provide that these provisions shall become operative on July 1, 2005.

Ch. 799 (AB 1119) Nation. Municipal water districts: park rangers.

The Municipal Water District Law of 1911 authorizes the formation of municipal water districts and grants to those districts specified powers and purposes.

This bill would authorize a municipal water district to employ park rangers who would be peace officers, as specified. The bill would require a municipal water district to adhere to certain standards for recruitment and training of peace officers for the purposes of exercising that authority.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 800 (AB 1845) Lowenthal. Unemployment insurance: employment retraining benefits.

Existing law provides, until January 1, 2005, for retraining benefits for employment for individuals, receiving unemployment compensation benefits, who meet certain eligibility criteria.

This bill also would extend the provision of those retraining benefits until January 1, 2010.

Ch. 801 (AB 2040) La Suer. Vehicles: hazardous materials endorsement.

(1) Existing law prohibits a person from operating a commercial motor vehicle, as defined, unless that person has in his or her possession a valid commercial driver's license for the appropriate class and an endorsement issued by the Department of Motor Vehicles to permit the operation of the vehicle. Operation of a vehicle transporting hazardous materials, as defined, requires a hazardous materials endorsement.

This bill would specify that compliance with certain federal regulations relating to credentialing and background checks for maritime and land transportation security is required for issuance of a hazardous materials endorsement and would make conforming changes.

This bill would require the department, before an application for an original or renewal of a commercial driver's license with a hazardous materials endorsement is submitted to the United States Transportation Security Administration for the processing of a security threat assessment, to complete a check of an applicant's driving record to ensure that the person is not subject to any disqualification under federal regulations.

The bill would provide for the reissuance or restoration of a hazardous materials endorsement to an applicant whose endorsement, upon appeal, has been ordered reinstated by the United States Transportation Security Administration.

(2) This bill incorporates additional changes to Section 13369 of the Vehicle Code proposed by AB 3049, to become operative only if AB 3049 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last. That section shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2005, but this bill becomes operative first, (2) each bill amends Section 13369 of the Vehicle Code, and (3) this bill is enacted after AB 3049, in which case Section 13369 of the Vehicle Code, as amended by Section 1 of this bill, shall remain operative until September 20, 2005, at which time Section 1.5 by this bill shall become operative.

Ch. 802 (AB 2120) Committee on Budget. Information technology grants.

Existing law generally sets forth the requirements governing state contracts for information technology goods and services.

This bill would additionally provide that, for contracts related to information technology integration or development projects that generate revenues or achieve savings over a quantifiable baseline of existing costs, state agencies would be required to consider, and

would be authorized to incorporate, performance-based or share-in-savings contract terms to manage risks and create incentives for successful contract performance.

Ch. 803 (AB 2129) Chavez. Insurance: seniors: life insurance and annuities.

Existing law requires every policy of individual life insurance and every individual annuity contract that is initially delivered or issued for delivery to a senior citizen on and after July 1, 2004, to have printed thereon or attached thereto a notice regarding the owner's right to cancel the policy, as specified. Existing law imposes certain requirements on insurers and policy owners with respect to this right of cancellation.

This bill would make a technical, nonsubstantive change to these provisions by changing a reference from "insured" to "owner."

Ch. 804 (AB 2268) Samuelian. Veterans: claims.

Existing law authorizes the Department of Veterans Affairs to assist every veteran of the United States and the dependent or survivor of every veteran in presenting and pursuing various claims against the United States arising out of war service, and in establishing any rights under the laws of the United States or this state. Existing law authorizes the department to cooperate and, with the approval of the Department of Finance, to contract with any organization of veterans chartered by the Congress of the United States and authorized by the Veterans Administration to pursue claims before federal agencies.

This bill would authorize the department to cooperate, and with the approval of the Department of Finance, to contract with any veterans service organization, as defined. The bill would require veterans service organizations that contract with the department to document the claims processed each year. This bill would also make findings and declarations relating to the funding of veterans service organizations.

The bill would require the department to determine annually the amount of monetary benefits paid to eligible veterans and their dependents and survivors as a result of the work of the veterans service officers of the contracting organizations and, beginning on January 1, 2006, and each January 1 thereafter, to prepare and transmit this determination to the Department of Finance and the Legislature. The bill would require the Department of Finance to review the Department of Veterans Affairs' determination and use the information in the annual budget of that department for the next fiscal year. The bill would require the department to identify nonstate funding to support these efforts of veterans services organizations.

The bill would provide that the processing of claims for veterans and their dependents and survivors includes the filing of the initial claim, the representation of the claimant before boards and offices of the United States Department of Veterans Affairs, and the filing of appeals related to the claims.

Ch. 805 (AB 2306) Richman. Local agency formation.

Existing law authorizes the local agency formation commission to make any change of organization or reorganization of cities or special districts subject to one or more of various terms and conditions but prohibits the imposition of certain conditions.

This bill would prohibit the commission in Ventura County, on or before December 31, 2007, from imposing a condition that requires the City of Simi Valley to initiate proceedings on a proposal for a change of organization or reorganization unless the territory that would be affected is contiguous and physically related to the affected territory.

Ch. 806 (AB 2358) Steinberg. Enforcement of support orders.

Existing law provides that the Franchise Tax Board shall collect child support delinquencies, as specified.

This bill would specify the procedure in cases in which child support payments cannot be delivered for a period of 45 days due to the failure of a child support obligee to notify specified entities of a change of address. The bill would require employers, as specified, to

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

make child support payments to the State Disbursement Unit by electronic fund transfer. The bill would further implement an agreement pursuant to which the Department of Child Support Services shall assume responsibility for the collection of child support delinquencies from the Franchise Tax Board, as specified.

Ch. 807 (AB 2409) Yee. Clinical laboratory scientists.

Existing law provides for licensing and regulation of clinical laboratories and various associated professions by the State Department of Health Services. Existing law authorizes the department to issue a clinical laboratory scientist's or a limited laboratory scientist's license to persons meeting certain qualifications. Existing law authorizes the department to issue limited clinical laboratory scientist's licenses in chemistry, microbiology, toxicology, histocompatibility, immunohematology, genetic molecular biology, cytogenetics, or other areas of laboratory specialty or subspecialty when determined to be necessary by the department. Existing law generally requires a baccalaureate or an equivalent or higher degree in order to meet the qualification requirements for these licenses, with certain exceptions.

This bill would authorize the department to issue a limited clinical laboratory scientist's license in cytogenetics to any person with a minimum of 7 years of work experience in this state as a cytogenetic technologist who provides evidence of satisfactory performance on a written examination administered by the National Credentialing Agency for Laboratory Personnel on or before December 31, 1991, in the specialty of cytogenetics, and who meets the federal regulatory requirements for personnel performing high-complexity testing.

Ch. 808 (AB 2412) Yee. Unemployment insurance: false information: penalty.

Existing unemployment insurance law provides that if the Director of the Employment Development Department finds that any employer or any employee, officer, or agent of any employer, in submitting facts concerning the termination of a claimant's employment pursuant to specified provisions of that law, willfully makes a false statement of representation or willfully fails to report a material fact concerning that termination, the director shall assess a penalty against the employer in an amount not less than 2 nor more than 10 times the weekly benefit amount of that claimant.

This bill would also impose that penalty against the employer if the director finds that any employer or any employee, officer, or agent of any employer, in submitting a written statement concerning the reasonable assurance, as defined, of a claimant's reemployment, as required by specified provisions of that law, willfully makes a false statement or representation or willfully fails to report a material fact concerning the reasonable assurance of that reemployment.

Ch. 809 (AB 2428) Chu. Hate crimes: release conditions.

Under existing law, a court may grant probation upon conviction of an offense, except in specified circumstances, and may impose conditions of continued probation as it may determine are fitting and proper. If a probationer is found to be in violation of a condition of probation, sentence may be imposed, or other conditions of probation, including additional time in jail, may be added. In the case of a person granted probation for specified offenses or sentence enhancing allegations that relate to interference with civil rights, terrorism involving civil rights or symbols of hate, or attacks on religious structures, existing law specifically authorizes certain conditions of probation, including racial or ethnic sensitivity training, as provided.

This bill would additionally authorize these conditions of probation for any offense against the person or property of another individual, private institution, or public agency committed because of the victim's actual or perceived race, color, ethnicity, religion, nationality, country of origin, ancestry, disability, gender, or sexual orientation. This bill would also require a court that grants probation under any of these circumstances, absent compelling circumstances stated on the record, to make a protective order protecting the

victim, or known immediate family or domestic partner of the victim, from further acts of violence, threats, stalking, or harassment by the probationer, including any stay-away conditions, and to make obedience of that order a condition of probation.

Existing law provides for a period of parole following commitment to state prison for a felony offense.

This bill would authorize the parole authority to require, as to persons released to parole for felony violations of the same offenses or sentence enhancing allegations specified and described above, that they complete a class or program on ethnic or racial sensitivity. It would further require that the parole authority order a parolee as condition of parole in these cases, absent compelling circumstances, to refrain from further acts of violence, threats, stalking, or harassment of the victim or the known immediate family or domestic partner of the victim, including stay-away conditions when appropriate.

Existing law provides that a person may be committed to a state hospital after being found not guilty of an offense by reason of insanity, and provides a procedure for finding that a person so committed has been restored to sanity. That procedure generally involves a release to outpatient status on the recommendation of the director of the treatment facility to which the patient was committed with the concurrence of the community program director, or release to a forensic conditional release program for one year after a court finds at a hearing regarding restoration of sanity that the person will not be a danger to others, as specified.

This bill would authorize a court or community program director to require a person on outpatient status or conditional release from an insanity commitment for any violation of the offenses specified and described above to complete a class or program on ethnic or racial sensitivity. It would require the court, absent compelling circumstances stated on the record, to make an order protecting the victim or specified related parties from harassing acts and contacts by the person as a condition of outpatient release, as specified.

This bill would incorporate additional changes to the Penal Code, including a change to Section 422.95 of the Penal Code proposed by SB 1234, contingent upon the prior enactment of that bill.

#### Ch. 810 (AB 2807) Steinberg. Minors.

(1) Existing law provides that children may become dependent children of the juvenile court on the basis of abuse or neglect. Existing law requires social workers and other specified persons to prepare reports and evaluations for the juvenile court containing information about children who are, or may become, dependent children of the juvenile court.

This bill would revise provisions requiring the court to review the status of a dependent child in foster care. Among other changes, the bill would specify that the court is to make appropriate orders to enable a child who is 10 years of age or older and has been in out-of-home placement in a group home for 6 months or longer from the date the child entered foster care to maintain relationships with other individuals, other than the child's siblings, who are important to the child, consistent with the child's best interests.

(2) Existing law declares the Legislature's intent to conform state statutes to specified federal legislation regarding adoption and to reinvest any incentive payments received through that legislation into the child welfare system to provide adoption services.

This bill would require the state to reinvest any incentive payments received through the implementation of the federal Adoption Promotion Act of 2003 for placement of older children, as defined in that act, into the child welfare system, as specified.

(3) This bill would incorporate additional changes in Section 366.21 of the Welfare and Institutions Code proposed by AB 3079 that would become operative only if AB 3079 and this bill are both chaptered and become effective on or before January 1, 2005, and the bill is chaptered last.

This bill would incorporate additional changes in Section 366.26 of the Welfare and Institutions Code proposed by AB 1895 that would become operative only if AB 1895 and

this bill are both chaptered and become effective on or before January 1, 2005, and the bill is chaptered last.

This bill would incorporate additional changes in Section 16501.1 of the Welfare and Institutions Code proposed by AB 2795 that would become operative only if AB 2795 and this bill are both chaptered and become effective on or before January 1, 2005, and the bill is chaptered last.

Ch. 811 (AB 3079) Committee on Judiciary. Courts: subordinate judicial officers: juvenile courts: trial court funding.

(1) Existing law establishes requirements with respect to court proceedings dealing with child custody and support, the emancipation of minors, and domestic violence.

This bill would make technical corrections to those provisions.

(2) Existing law provides that the Trial Court Budget Commission shall have certain responsibilities with respect to the allocation and reallocation of funds from the Trial Court Trust Fund to the courts. However, the statutory authorization for the Trial Court Budget Commission was eliminated on January 1, 2002.

This bill would delete references to the Trial Court Budget Commission and provide that those responsibilities shall be performed by the Judicial Council.

(3) Existing law authorizes the Chair of the Judicial Council to extend certain court deadlines and to take other specified actions when emergency conditions exist.

This bill would additionally authorize the Chair of the Judicial Council to extend the duration of a temporary restraining order that would otherwise expire during the period of an emergency.

(4) Existing law imposes fees for filing a notice of appeal in a civil case and a petition for a writ within the original civil jurisdiction of a court of appeal or the Supreme Court. However, those fees may not be charged in appeals or petitions for writs involving juvenile cases or emancipation proceedings. Existing law also imposes a fee for filing a petition for hearing in a civil case in the Supreme Court.

Under this bill, none of those filing fees would apply to those appeals or petitions involving juvenile cases, emancipation proceedings, or proceedings under the Lanterman-Petris-Short Act.

(5) Existing law authorizes each trial court to establish and appoint subordinate judicial officers. Existing law specifically provides that a retired commissioner and, in certain counties, a retired traffic referee may be assigned to serve as a commissioner or traffic referee and shall be paid the difference between his or her retirement allowance and the full compensation of a commissioner or traffic referee, without reinstatement as a member of the retirement system.

This bill would authorize any retired subordinate judicial officer to be assigned to perform subordinate judicial duties for not more than 85% of the compensation of a retired judge and subject to any limits imposed by his or her retirement system on postretirement service.

(6) Existing law requires the social worker to file a report with the court prior to a hearing to review the status of a dependent child. The social worker must also provide a summary of his or her recommendation for disposition to, among others, any court-appointed child advocate, if the child has been removed from parental custody.

This bill would require the social worker to provide a copy of the report, including the recommendation for disposition, to any court-appointed child advocate prior to the hearing in all cases. By expanding the duties of social workers, the bill would create a state-mandated local program. The bill would also make a clarifying change with respect to a rule of court relating to the attorney of a child in a dependency proceeding.

(7) This bill would incorporate additional changes to Section 3110.5 of the Family Code proposed by AB 3081 contingent upon its prior enactment.

(8) This bill would incorporate additional changes to Section 366.21 of the Welfare and Institutions Code proposed by AB 2807 contingent upon its prior enactment.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 812 (SB 1173) Ortiz. Tobacco products: self-service display.

The existing Stop Tobacco Access to Kids Enforcement (STAKE) Act is designed to reduce the availability of tobacco products to minors through sales restrictions and enforcement activities. The act prohibits the furnishing of tobacco products to, and the purchase of tobacco products by, any person under the age of 18 years and authorizes the assessment of civil penalties for a violation of the act. Specifically, the STAKE Act prohibits a person engaged in the retail sale of tobacco products to sell, offer for sale, or display for sale, cigarettes by self-service display, as defined.

This bill would broaden that prohibition by prohibiting a person engaged in the retail sale of tobacco products from selling, offering for sale, or displaying for sale, any tobacco product or tobacco paraphernalia by self-service display. However, the bill would provide an exemption to that prohibition for the display in a tobacco store of cigars, pipe tobacco, snuff, chewing tobacco, or dipping tobacco, provided that, in the case of the cigars, they are generally not sold or offered for sale in a sealed package of the manufacturer or importer containing less than 6 cigars. In the event of an enforcement action brought under the act, the bill would require the retail business that displays any of those items in a self-service display to have the burden of proving that it qualified for the exemption.

Ch. 813 (SB 1376) Perata. Voting systems.

(1) Existing law prohibits tampering with voting systems or equipment, making it a felony to tamper with or damage a voting machine, or to make or possess a key to a voting machine without authorization.

This bill would authorize the Secretary of State, Attorney General, and any local elections official in the county in which the act occurs, to bring a civil action against an individual, business, or other legal entity that commits any specified act of tampering with a voting system or voting equipment before, during, or after an election. By imposing new duties on local elections officials, this bill would create a state-mandated local program.

(2) Existing law requires the Secretary of State to study and adopt regulations governing the use of voting machines, voting devices, and vote tabulating devices. The Secretary of State is authorized to investigate any alleged violation of his or her regulations with the power to subpoena all necessary persons and records.

This bill would authorize the Secretary of State to also investigate any alleged violation of the Elections Code.

(3) Existing law requires an exact copy of the source code for all ballot tally software programs to be placed in an approved escrow facility prior to its use. The Secretary of State may seek injunctive relief requiring the elections officials to comply with this provision and related regulations.

This bill would require an exact copy of the source code for all ballot tally software programs certified by the Secretary of State, including all changes or modifications and new or amended versions, to be placed in an approved escrow facility prior to its use. The bill would prohibit the use of a voting system for an election unless an exact copy of the ballot tally software program source codes is placed in escrow. The bill would further provide that the Secretary of State shall have reasonable access to the materials placed in escrow, under specified circumstances. The bill would authorize the Secretary of State to seek injunctive

relief requiring the elections officials, or any vendor or manufacturer of a voting machine, voting system, or vote tabulating device, to comply with these provisions and related regulations.

(4) Existing law prohibits the use of a voting system, in whole or in part, unless it has received the approval of the Secretary of State prior to any election at which it is to be first used.

This bill would prohibit any jurisdiction from purchasing or contracting for a voting system, in whole or in part, unless it has received the approval of the Secretary of State.

(5) Existing law prohibits the change or modification of any approved voting system or its parts until the Secretary of State has been notified in writing and makes a determination that the change does not impair the system's accuracy and efficiency, as specified.

This bill would authorize the Secretary of State to seek injunctive, administrative, and certain other relief, including monetary damages, for an unauthorized change in hardware, software, or firmware to a voting system. The bill also would authorize the Secretary of State to seek injunctive relief requiring an elections official, or any vendor or manufacturer of a voting machine, voting system, or vote tabulating device, to comply with the requirements of the Elections Code, the regulations of the Secretary of State, and the specifications for voting machines, voting devices, vote tabulating devices, and any software used for each, including the programs and procedures for vote tabulating and testing.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 814 (SB 1438) Johnson. Elections: voting systems.

Existing federal law, the Help America Vote Act of 2002, requires, among other things, that each voting system used in an election for federal office produce a permanent paper record with an audit capacity for that system, allow the voter to verify his or her votes before the voter's ballot is cast, and be accessible for individuals with disabilities. The act provides funding for these purposes.

Existing law requires the Secretary of State to establish the specifications and the regulations governing voting machines, voting devices, and any software used, including the programs and procedures for vote tabulating and testing. The Secretary of State may not approve any voting system that does not fulfill statutory and regulatory requirements. Existing law also requires the Secretary of State to adopt rules and regulations governing any voting technology or systems used in the state that provide blind and visually impaired individuals with access that is equivalent to that provided to individuals who are not blind or visually impaired.

This bill would prohibit, on and after January 1, 2005, the Secretary of State from approving a direct recording electronic voting system that does not include an accessible voter verified paper audit trail, and prohibit, on and after January 1, 2006, a city or county from contracting for or purchasing a direct recording electronic voting system that does not include an accessible voter verified paper audit trail. In addition, the bill would require that, as of January 1, 2006, all direct recording electronic voting machines in use on that date, regardless of when contracted for or purchased, shall have received federal qualification, as defined, and shall include an accessible voter verified paper audit trail.

This bill would require that to the extent that they are available for the purposes of this article, federal funds or the Voting Modernization Fund, a special fund, shall be used. The bill would prohibit the expenditure of General Fund moneys for these purposes.

By increasing the duties of local elections officials, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that the Legislature finds there is no mandate contained in the bill that will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to these constitutional and statutory provisions.

Ch. 815 (SB 1449) Johnson. Political Reform Act of 1974: loans.

Under the Political Reform Act of 1974, a candidate for elective state office may not personally loan to his or her campaign an amount, the outstanding balance of which exceeds \$100,000. This limitation does not apply to a loan made to a candidate by a commercial lending institution in the lender's regular course of business on terms available to members of the general public for which the candidate is personally liable.

This bill would delete this exemption.

Existing law makes a violation of the Political Reform Act of 1974 subject to administrative, civil, and criminal penalties.

By removing an exemption to the loan prohibition, this bill would impose a state-mandated local program by expanding the scope of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a  $2/3$  vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a  $2/3$  vote.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 816 (SB 1712) Alpert. Campaign disclosure.

Existing law, the Online Disclosure Act of 1997, which is part of the existing Political Reform Act of 1974, requires the Secretary of State to develop online and electronic filing processes for use by specified persons and entities required to file statements and reports with the Secretary of State's office pursuant to the Political Reform Act of 1974.

This bill would require the Secretary of State to review current filing and disclosure requirements of the Online Disclosure Act of 1997 and report to the Legislature, no later than June 1, 2005, recommendations on revising requirements so as to promote greater reliance on electronic and online submissions.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a  $2/3$  vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a  $2/3$  vote.

Ch. 817 (SB 1730) Johnson. Primary elections.

Existing law requires that the statewide direct primary election be held on the first Tuesday in March in each even-numbered year. It requires that, in any year evenly divisible by the number 4, the statewide direct primary election be consolidated with the presidential primary held on the first Tuesday in March in those years. Existing law establishes certain dates as established election dates, including the first Tuesday after the first Monday in June of each

even-numbered year. Existing law establishes certain dates, including the first Tuesday after the first Monday in June of each even-numbered year, as mailed ballot election dates.

This bill would instead require that the statewide direct primary election be held on the first Tuesday after the first Monday in June of each year. The bill would make the first Tuesday after the first Monday in June of each year an established election date. The bill would also establish the first Tuesday after the first Monday in March of each even-numbered year as an established mail ballot election date. By requiring a higher level of service by local elections officials, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 818 (SB 1777) Ducheny. California Statewide Housing Plan.

(1) Existing law authorizes a council of governments to charge a fee to local governments to cover the projected reasonable, actual costs of the council in distributing regional housing needs. A city, county, or city and county may charge a fee to support the work of the planning agency and to reimburse it for the cost of any fee charged by the council of governments.

This bill would instead authorize the city, county, or city and county to charge a fee not to exceed the amount charged in the aggregate to the city, county, or city and county by the council of governments.

(2) The existing Employee Housing Act deems employee housing providing accommodations for 12 or fewer employees an agricultural land use for designated purposes.

This bill, instead, would deem employee housing consisting of no more than 12 beds in a group quarters or 12 units or spaces designed for use by a single family or household, an agricultural land use for those designated purposes.

(3) Existing law requires the California Statewide Housing Plan to include housing development goals for the fiscal year the plan is revised and projected 4 additional fiscal years ahead, as well as goals for the provision of housing assistance for the fiscal year the plan is revised and projected 4 additional fiscal years ahead.

This bill would, instead, require the plan to include a description of the statewide need for housing development for the year the plan is revised and projected 4 additional years ahead and would revise the housing assistance goals requirement, as specified.

(4) Existing law requires the Department of Housing and Community Development to biennially update and provide a revision of the plan to the Legislature.

This bill would, instead, require the Department of Housing and Community Development to update and provide a revision to the Legislature by January 1, 2006, by January 1, 2009, and every 4 years thereafter.

(5) Existing law requires the plan to provide a database for local housing market studies and serve as a guide for local housing elements.

This bill would require the plan to provide a reference guide for local market studies and for local housing elements.

#### Ch. 819 (AB 1000) Dutra. Corporations: disclosure statement.

Existing law, the General Corporation Law, requires a domestic corporation and a foreign corporation to file statements annually with the Secretary of State disclosing specified information concerning its operation and makes the information contained in the statements open to public inspection. Existing law specifies additional information that a publicly traded company is required to include in the statement.

This bill would revise these provisions, including changing the definitions for “publicly traded company” to “publicly traded corporation” and for “executive officer.”

Under existing law, information required in the statement includes the name of the independent auditor used by the corporation and a description of any services performed for the corporation during the previous 24 months by the auditor or its parent corporation, or by an agent, subsidiary, corporate partner, or corporate affiliate of the auditor or its parent corporation.

This bill would instead require the corporations to disclose services performed during its 2 most recent fiscal years and the period between the end of its most recent fiscal year.

Existing law requires these corporations to provide a statement indicating whether any member of the board of directors or executive officer of the corporation has been convicted of fraud within the previous 10 years.

This bill would instead require that statement if the conviction has not been overturned or expunged.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 820 (AB 1127) Shirley Horton. Whistleblower protection.

Existing law requires employers to prominently display in lettering larger than size 14 pica type a list of employees’ rights and responsibilities under the whistleblower laws.

This bill instead would require that the lettering of the list be larger than size 14 point type.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 821 (AB 2941) Bates. Special absentee voters: voting by facsimile.

Existing law permits an absent voter to return a ballot by mail to the elections official from whom it came or by personal delivery to the elections official or to a precinct board member at any polling place within the jurisdiction.

This bill would permit a special absentee voter who is temporarily living outside of the territorial limits of the United States or the District of Columbia to return his or her ballot by facsimile transmission to the elections official. The ballot would have to be received by the closing of the election day polls and accompanied by an identification envelope and an oath of voter declaration in a prescribed form. A special absentee voter would be encouraged to return his or her ballot by facsimile transmission only when necessary for the ballot to be received on election day. This bill would require that the special absentee voter agree to waive his or her right to a secret ballot, but the elections official would nevertheless be required to adopt appropriate procedures to protect the secrecy of ballots returned by facsimile transmission. The elections official would be required to determine the voter’s eligibility to vote by comparing the voter’s signature from the materials returned by facsimile transmission to the signature on the voter’s affidavit of registration.

This bill would require the Secretary of State to report to the Legislature by December 31, 2008, regarding the number of ballots returned by facsimile transmission and the benefits and problems resulting from the return of ballots by facsimile transmission.

This bill would remain in effect only until January 1, 2009.

By requiring that local elections officials implement the provisions of this bill regarding the return by special absentee voters of ballots by facsimile transmission, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 822 (AB 3092) Jerome Horton. Cigarettes.

(1) The California Cigarette and Tobacco Products Licensing Act of 2003 provides for the licensure, by the State Board of Equalization, of manufacturers, distributors, wholesalers, importers, and retailers of cigarette or tobacco products that are engaged in business in California and prohibits retailers, manufacturers, distributors, and wholesalers from distributing or selling those cigarette and tobacco products unless they are in compliance with these licensure requirements.

This bill would exempt from licensure requirements any person or entity that is exempt from regulation under the Cigarette and Tobacco Products Licensing Act of 2003 by the United States Constitution, federal law, or the California Constitution. This bill would also require a distributor or wholesaler that is subject to that act to specify in each invoice for the sale of tobacco products that all taxes on cigarette and tobacco products are included in the total amount of the invoice.

(2) The Cigarette and Tobacco Products Tax Law requires that an appropriate stamp be affixed to, or that an appropriate meter impression be made upon, each package of cigarettes prior to distribution. Existing law requires the State Board of Equalization, effective January 1, 2005, to replace the existing stamps and meter impressions with a stamp or meter impression that can be read by a scanning or similar device, and encrypted with specified information. Existing law authorizes the State Board of Equalization to prescribe, by regulation, the method and manner by which the stamps and meter impressions are to be affixed to each package of cigarettes.

This bill states the intent of the Legislature that the State Board of Equalization has the authority to implement these changes by regulation in a manner that does not affect commerce within this state.

(3) Existing law provides that every person, firm, or corporation that sells, or deals in tobacco or any preparation thereof, shall post conspicuously and keep so posted in his, her, or their place of business at each point of purchase a required notice, and any person failing to do so shall, upon conviction, be punished by a fine of \$10 for the first offense and \$50 for each succeeding violation of this provision, or by imprisonment for not more than 30 days.

This bill would increase the amounts of those fines to \$50 for the first offense, \$100 for the 2nd offense, \$250 for the 3rd offense, and \$500 for the 4th and each subsequent offense.

(4) This bill would incorporate additional changes made by this act to Section 308 of the Penal Code, as proposed to be made by AB 384, to be operative only if AB 384 and this bill are both enacted and take effect, and this bill is enacted last.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 823 (AB 20) Lieber. Victims of crime.

(1) Existing law provides that every witness testifying before a court of law take an oath, affirmation, or declaration except that children under 10 years of age may, in the court's discretion, only be required to promise to tell the truth.

This bill would expand this exemption to include dependent persons with a substantial cognitive impairment.

(2) Existing law provides that a leading question may be asked of a child witness who is under 10 years of age in specified cases involving prosecution of physical, mental, or sexual abuse.

This bill would expand this provision to provide that leading questions may be asked of a dependent person with a substantial cognitive impairment in the same circumstance.

(3) Existing law provides that evidence of a person's character or of a trait of his or her character is inadmissible when offered to prove his or her conduct on a specified occasion with certain exceptions, including when the defendant is accused of an offense involving abuse of an elder or dependent adult.

This bill would provide that this evidence is admissible when the offense involves abuse of a dependent person regardless of age.

(4) Existing law provides that it is a crime for any person who is a caretaker to willfully and lewdly commit any lewd or lascivious act upon a dependent adult with specified intent punishable by imprisonment in the state prison for 1, 2, or 3 years or by imprisonment in a county jail. If the crime is committed by use of force, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person, the crime is punishable by imprisonment in the state prison for 3, 6, or 8 years.

This bill would make these provisions applicable to all dependent persons regardless of age. Because this bill would change the definition of a crime, this bill would impose a state-mandated local program.

(5) Existing law provides, upon conviction of a felony violation of provisions proscribing theft, embezzlement, extortion, or other property crimes, that the fact that the victim was an elder or dependent adult shall be considered a circumstance in aggravation when imposing a term of imprisonment.

This bill would provide that the fact that the victim was a dependent person, regardless of age, would be considered a circumstance in aggravation when imposing a term of imprisonment for a felony violation of the specified provisions.

(6) Existing law provides that examination of a witness shall be open to the public except that in a criminal proceeding in which the defendant is charged with certain specified sexual crimes against a minor under 16 years of age, the court shall, upon motion, conduct a hearing to determine whether testimony of, and relating to, the minor shall be closed to the public.

This bill would expand this provision to allow the court to close the testimony of, and relating to, a dependent person with a substantial cognitive impairment to the public.

(7) Existing law provides that a magistrate may postpone a preliminary examination of a child who is 10 years of age or younger for one court day in order to accommodate his or her needs.

This bill would expand this provision to permit the accommodation of the needs of a dependent person.

(8) Existing law provides that examination of a witness shall be open to the public except that a magistrate may, upon motion, close the examination, as specified, during the testimony of a minor witness who is the complaining victim of a sex offense if testimony before the general public would be detrimental and no alternatives are available to avoid the perceived harm.

This bill would provide for the closure of the examination of a dependent person with a substantial cognitive impairment under the same circumstances.

(9) Existing law provides that any prosecution witness before a grand jury who is a minor, if the case involves a violation of certain specified sex offenses, may select a support person to attend his or her testimony, as specified.

This bill would provide a dependent person the opportunity to select a person to provide support as he or she testifies before the grand jury under the same circumstances.

(10) Existing law provides that in any criminal trial or proceeding in which a child who is 10 years of age or younger testifies, the court shall, upon the request of a party, instruct the jury concerning their evaluation of that testimony.

This bill would provide that similar instruction concerning evaluation of testimony shall be given to the jury upon the request of a party when a person with a developmental disability, or cognitive, mental, or communication impairment testifies.

(11) Existing law provides that in any criminal proceeding in which the defendant is charged with any specified offense, or an attempt to commit that offense, with or upon a person with a disability, the court may make accommodations to support the person with a disability, as specified.

This bill would add the offense of elder or dependent adult abuse to those offenses that, if charged in any criminal proceeding and are alleged to have been committed with or upon

a person with a disability, allow the court to make accommodations for the person with a disability.

(12) Existing law, the Child Abuse and Neglect Reporting Act, requires certain mandated reporters to report, as specified, incidents of child abuse or neglect of a child within at least 36 hours of receiving information on an incident. A failure to report as required is a misdemeanor.

This bill would also provide that if a mandated reporter intentionally conceals his or her failure to report an incident known by the mandated reporter to be abuse or severe neglect the failure to report would be a continuing offense until the failure is discovered by an agency designated to accept reports of abuse. Because this bill would change the definition of an existing crime, it would impose a state-mandated local program.

(13) Existing law requires certain mandated reporters to report, as specified, incidents of abuse or incidents in which he or she has been told of abuse of an elder or dependent adult. Existing law defines physical abuse for the purposes of these provisions.

This bill would expand the definition of physical abuse to include lewd or lascivious acts if committed against an adult. This bill would also provide that if a mandated reporter knowingly conceals his or her failure to report an incident known by the mandated reporter to be abuse or severe neglect the failure to report would be a continuing offense until the failure is discovered by an agency designated to accept reports of abuse.

(14) This bill would also state legislative intent to ensure that people who cannot live independently are treated fairly by the criminal justice system.

This bill would state legislative intent to protect the rights of developmentally disabled persons and other dependent persons who are witnesses in criminal cases and to ensure that they are given equal access to the criminal justice system.

(15) This bill would incorporate additional changes to Section 1109 of the Evidence Code proposed by AB 141, contingent upon the prior enactment of that bill.

(16) This bill would incorporate additional changes to Section 11166 of the Penal Code proposed by SB 1313, contingent upon the prior enactment of that bill.

(17) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 824 (AB 1077) Wesson. Veterans.

(1) Existing law authorizes the Department of General Services, on behalf of the Department of Veterans Affairs, to design, equip, construct, and establish veterans' homes in Fresno and Shasta Counties, to design, equip, construct, and renovate veterans' homes in Yountville, Barstow, and Chula Vista, and to design, equip, construct, and expand veterans' homes that are proposed to be built in Lancaster, Saticoy, and West Los Angeles.

This bill would additionally authorize the Department of General Services, on behalf of the Department of Veterans Affairs, to acquire the veterans' homes to be located in Fresno and Shasta Counties, and in Lancaster, Saticoy, and West Los Angeles.

(2) The State Building Construction Act of 1955 authorizes the State Public Works Board to acquire or construct public buildings and to issue revenue bonds, negotiable notes, and negotiable bond anticipation notes to finance that construction. Existing law authorizes the State Public Works Board to issue lease-revenue bonds, notes, or bond anticipation notes pursuant to that law to finance the design, construction, equipping, renovation, or expansion of veterans' homes at Yountville, Barstow, Chula Vista, Lancaster, Saticoy, and West Los Angeles, and in Fresno County and Shasta County, as provided. Existing law continuously appropriates funds derived from the sale of these instruments to the board, on behalf of the Department of Veterans Affairs, for this purpose.

This bill would, among other things, specify that \$162,000,000 is the amount of the bonds and notes that the board is authorized to issue, and would make an appropriation by

additionally authorizing these funds to be used to acquire and establish these homes. This bill would delete the authority of the board to augment the acquisition, design, and cost of the construction, renovation, or expansion of these homes and would delete the authority of the board to authorize additional amounts to establish a reasonable construction and equipping reserve.

(3) The Veterans' Homes Bond Act of 2000 requires the proceeds from the sale of the bonds issued under that act to be deposited in the Veterans' Home Fund. Existing law continuously appropriates, subject to approval by the Department of Finance, moneys in the Veterans' Home Fund, in an amount not to exceed \$15,000,000, to the Department of Veterans Affairs for the design, construction, equipping and renovation of the veterans' home in Yountville. Existing law also continuously appropriates, subject to the approval of the Department of Finance, certain federal matching funds for the design, construction, equipping, and renovation of specified veterans' homes.

This bill would require the Department of Veterans Affairs to prepare and submit a report to the Legislature and Governor semiannually, beginning on March 1, 2005, on these veterans homes, as provided.

(4) The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 825 (AB 1299) Daucher. Hospices.

The California Hospice Licensure Act of 1990 provides for the licensure of hospices by the State Department of Health Services in order to ensure the health and safety of patients experiencing the last phases of life due to the existence of a terminal disease, and to permit qualified persons, political subdivisions of the state, and governmental agencies to comply with requirements of federal law regarding the provision of hospice care.

Existing law requires every group health care service plan contract, except a specialized health care service plan contract, that is issued, amended, or renewed, to include a provision for hospice care. Existing law requires the hospice care to, at a minimum, be equivalent to hospice care provided by the federal Medicare program.

This bill would provide that the hospice care is not required to include preliminary services, as defined. However, the bill would require an enrollee who receives those preliminary services to remain eligible for coverage of curative treatment by a health care service plan during the course of preliminary services and prior to the election of hospice services.

This bill would authorize the provision of additional preliminary services, as defined, to persons who have not elected to become a hospice patient if those services are determined to be needed, and would make these additional services and related definitions inapplicable to group health care service plans.

Existing law requires licensed hospice services to comply with the "Standards for Quality Hospice Care, 1996" of the California State Hospice Association. Existing law makes violation of hospice licensure provisions a crime.

The bill would, instead, require licensed hospice services to comply with the "Standards for Quality Hospice Care, 2003" of the California Hospice and Palliative Care Association. By changing the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 826 (AB 1470) Ridley-Thomas. In-home supportive services: direct deposit wage payments.

Existing law provides for the In-Home Supportive Services (IHSS) program, under which, through employment by the recipient, by or through contract by the county, or by the creation of a public authority or pursuant to a contract with a nonprofit consortium, qualified

aged, blind, and disabled persons receive services enabling them to remain in their own homes. Under existing law, counties are responsible for the administration of the program. Existing law allows an IHSS recipient who hires and pays his or her service provider and who has been a recipient for at least a year to receive his or her IHSS grant through an electronic transfer.

This bill would allow an IHSS provider to authorize payment to himself or herself for IHSS services through direct deposit under a program established by the Controller.

This bill would require the Controller and the State Department of Social Services to determine the cost of developing and implementing the direct deposit program and to collect the cost from a nongovernmental 3rd-party contractor or the organization, entity, or individual requesting payment in order to utilize the direct deposit program.

Ch. 827 (AB 664) Lowenthal. Unemployment insurance: contribution rates.

(1) Existing law requires every employer, with specified exceptions, to pay contributions to the Unemployment Fund at specified rates.

This bill would require the Director of the Employment Development Department (EDD) to assign an employer the maximum contribution rate plus 2% for specified rating periods if that employer had previously obtained a favorable rate of contributions due to deliberate ignorance, reckless disregard, fraud, intent to evade, misrepresentation, or willful nondisclosure.

(2) Existing law also generally authorizes employers to submit to the EDD voluntary unemployment insurance contributions for the purposes of redetermining its unemployment insurance contribution rate, unless specifically excluded from this authorization. Existing law excludes from this authorization an employer whose reserve account has been subject to benefit charges, as specified.

This bill would additionally exclude from this authorization an employer who is assigned the maximum contribution rate plus 2% for certain rating periods, as specified, because that employer had previously obtained or attempts to obtain a favorable rate of contributions due to deliberate ignorance, reckless disregard, fraud, intent to evade, misrepresentation, or willful nondisclosure.

(3) Existing law requires specified employers to contribute 0.1% of specified wages into the Employment Training Fund but provides a relief from this requirement to an employer who has a negative reserve account balance on the computation date.

This bill would specify that an employer who has a negative reserve account balance on the computation date would, nonetheless, be required to contribute 0.1% of specified wages into the Employment Training Fund if the director assigned the employer the maximum rate plus 2% for certain rating periods, as specified, because that employer had previously obtained or attempted to obtain a favorable rate of contributions due to having engaged in specified acts.

(4) Existing law requires the director to furnish to each employer, at least annually, with an itemized statement of the charges to the employer's account and a statement of the account showing the credits and charges, the net balance of the employer's reserve, and the employer's contribution rate for the applicable rating period, and requires, prior to the expiration of the rating period to which the statements relate, to provide an employer with a notice of correction of any error in the statement of account or statement of charges and to assess a deficiency in, or refund an overpayment of, contributions paid.

This bill would not require that the notice of correction of any error must be mailed before the expiration of the rating period in the case where fraud, intent to evade, misrepresentation, or willful nondisclosure is found by the director.

(5) Existing law allows an employing unit, as defined, that acquires an organization, trade, or business, and continues that organization, trade, or business without substantial reduction of personnel to apply for transfer of the predecessor's reserve account, as specified, to the successor employer for purposes of determining the employer's rate of contribution, unless

the acquisition was undertaken by the employing unit solely or primarily for the purpose of obtaining a more favorable rate of contributions.

This bill would delete the requirement that obtaining a more favorable rate of contributions be the sole or primary purpose for the acquisition, and instead, would provide that a transfer of the predecessor's reserve account to the successor employer would not be allowed if the acquisition of the predecessor occurred for the purpose of obtaining a more favorable rate of contributions for the successor employer.

(6) Existing law also authorizes the Director of the Employment Development Department to treat 2 or more entities as one employing unit, as defined, if they are united because of ownership, operation, and use, and specifies factors and conditions pursuant to which ownership, operation, and use of 2 or more entities are considered to be united.

This bill would require the director to establish procedures that would allow the department to identify the transfer or acquisition of a business that is undertaken for purposes of obtaining a lower unemployment insurance contribution rate. This bill would also require that, in the case where an employer transfers all or part of its business or payroll to another employer, and both employers, at the time of transfer, are under common ownership, management or control, the reserve account of the transferred business must be combined with the reserve account of the transferee employer.

(7) Existing law, with limited exceptions, provides that every person who willfully violates the Unemployment Insurance Law or regulations implementing that law is guilty of a misdemeanor.

This bill would impose a penalty of either \$5,000 or 10% of the amount of any resulting underreporting of contributions, penalties, and interest, whichever is greater, on a person or business entity that knowingly advises another person to violate any provision of the Unemployment Insurance Code. This bill would also make it a violation for any person to willfully counsel, advise, procure, or coerce anyone to willfully make a false statement or representation, or knowingly fail to disclose a material fact for the purpose of lowering or avoiding any required contribution, or to avoid being or remaining subject to specific requirements, as provided, and would thereby establish a new crime.

(8) By providing for the deposit of additional moneys into the Unemployment Fund, a continuously appropriated fund, this bill would make an appropriation.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 828 (AB 1643) Ridley-Thomas. Employment.

Under existing law, for purposes of determining eligibility for unemployment and disability compensation benefits, a worker is an employee, and not an independent contractor, unless satisfactory proof, as specified, of independent contractor status exists.

Existing law, relating to unemployment and disability compensation benefits, requires the Employment Development Department to develop and implement a taxpayer education and information program, which would include participation in small business seminars and similar programs organized by state and local agencies, as specified.

This bill would additionally require the department to develop small business educational events and materials that explain the process of the department's determination of whether an individual is an employee or independent contractor, as specified.

This bill would also require the Employment Development Department to collect data and submit a report for the period from January 1, 2005, to December 1, 2005, on Employment Development Department determinations involving small business owners, as defined, in the course of processing claims for unemployment insurance or disability insurance benefits, as specified, and the length of time that the department took to make a final determination in each case. The bill would further require the department to report its findings and any

recommendations to the Legislature no later than July 1, 2006, and to conduct the study and report within the department's existing resources.

This bill would make findings and declarations of the Legislature's intent to determine the impact of existing regulations on small business owners.

Ch. 829 (AB 1886) Pavley. Property tax postponement.

The Senior Citizens and Disabled Citizens Property Tax Postponement Law allows senior citizens and disabled persons to postpone their payment of ad valorem property taxes, special assessments, and fees and other charges due on a residential dwelling, where household income, as defined, does not exceed either \$34,000 or \$24,000, as applicable.

This bill would authorize the postponement of specified property taxes that become delinquent, as provided. This bill would also modify procedures pertaining to the approval of a claim for postponement, as provided.

Ch. 830 (AB 2010) Hancock. Alameda and Solano Counties: domestic violence.

Existing law provides for county domestic violence program special funds for the purpose of funding local domestic violence programs. Certain fees payable at the time a marriage license is issued may be collected by the county clerks for deposit into these funds.

Existing law requires the collection of fees for certified copies of fetal death or death records and marriage or birth certificates. Existing law authorizes the board of supervisors of a county that has established a county children's trust fund to increase the fee for a certified copy of a birth certificate for purposes of the fund.

Existing law, the Contra Costa County "Zero Tolerance for Domestic Violence" Act, authorizes the Board of Supervisors of Contra Costa County, until 2007, to increase fees, up to a maximum increase of \$2, for certified copies of marriage certificates, birth certificates, fetal death records, and death records, for the purposes of providing funding for governmental oversight and for the coordination of domestic violence prevention, intervention, and prosecution efforts in the county. The Contra Costa County Board of Supervisors is required to submit a report to the Assembly Judiciary Committee and the Senate Judiciary Committee, by July 1, 2006, regarding the receipt of these fees, the expenditure of these funds, and the outcomes achieved as a result of certain activities.

This bill would authorize the Boards of Supervisors of Alameda and Solano Counties to make similar fee increases, until January 1, 2010. The bill would require each board, by July 1, 2009, to submit a report on funds received and expended in connection with the fee increases, and the outcome of activities associated with the act, to the Assembly Judiciary Committee and the Senate Judiciary Committee.

This bill would make legislative findings regarding the need for special legislation.

Ch. 831 (AB 2100) Steinberg. Developmental services.

Existing law requires the State Department of Developmental Services to contract with private-nonprofit corporations for the establishment of regional centers to provide services and supports for persons with developmental disabilities and their families. Existing law places within the jurisdictions of the department, state developmental centers, including, but not limited to, Agnews Developmental Center.

This bill would authorize the department to approve a regional center proposal to provide for payment of a lease or leases for housing for persons with developmental disabilities. The bill would authorize family home agencies to offer services and supports in family teaching homes, as defined. The bill, until January 1, 2009, would require the department to annually report vendor service data to the Legislature.

Ch. 832 (AB 2132) Reyes. Pupil health: self-administration of asthma medication.

Existing law provides that each pupil who is required to take, during the regular schoolday, medication prescribed for him or her by a physician, may be assisted by the school nurse or

other designated school personnel if the school district receives a written statement from the physician detailing the method, amount, and time schedules by which the medication is to be taken and a written statement from the parent or guardian of the pupil indicating the desire that the school district assist the pupil in the matters set forth in the physician's statement.

This bill would authorize a pupil to carry and self-administer inhaled asthma medication if the school district receives the statements described above.

The bill would require the written statements to be provided to the school district at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.

The bill would subject a pupil to specified disciplinary actions if that pupil uses the inhaled asthma medication in a manner other than as prescribed.

This bill would make its provisions effective only if SB 1912 of the 2003–04 Regular Session is enacted.

Ch. 833 (AB 2149) Longville. Group homes: foster care.

(1) Under existing law, the California Community Care Facilities Act, the State Department of Social Services generally regulates the licensure and operation of community care facilities, including residential group homes for children. Under existing law, a violation of these provisions is a misdemeanor.

Existing law requires a community care facility providing residential care for 6 or fewer persons, with certain exceptions, to provide a procedure approved by the licensing agency for immediate response to incidents and complaints.

This bill would apply similar procedures for responding to incidents and complaints against a group home facility, as defined, that is not subject to the existing procedures relating to incidents and complaints. The bill would require facilities to establish these procedures on or before July 1, 2005.

(2) Existing law requires a placement agency that is engaged in finding homes or other places for placement of persons of any age for temporary or permanent care, to notify the appropriate licensing agency of any known or suspected reportable incidents that would jeopardize the health or safety of residents in a community care facility. Existing law requires the director to establish an automated license information system on licensees and former licensees of licensed community care facilities, to maintain a record of any information that may be pertinent, as determined by the director. Existing law also authorizes the department, not less than 30 days prior to the anniversary of the effective date of the license of any residential community care facility, except a licensed foster family home, to transmit a copy to the facility's board members, parents, legal guardians, conservators, clients' rights advocates, or placing agencies, of all inspection reports given to the facility by the department during the past year as a result of a substantiated complaint regarding a violation of the act relating to resident abuse and neglect, food, sanitation, incidental medical care, and residential supervision.

This bill would authorize a county to develop a cooperative agreement with the department to access disclosable public record information from an alternative automated license information system concerning substantiated complaints for children placed in group home facilities located within the county.

This bill would authorize the department to transmit copies of all inspection reports to the county in which a group home facility is located if requested by the county.

The bill would require a group home facility, not less than 30 days prior to the anniversary of the effective date of the license of the group home facility, at the request of the county in which the facility is located, to transmit copies of all incident reports of the facility that involved a response by local law enforcement or emergency services personnel. It would require the group home facility, prior to transmitting copies of the incident reports to the county, to redact the name of any child referenced in the reports, and other related identifying information. The bill would authorize a placement agency to review these incident reports

to ensure that the group home facility has taken appropriate action to ensure the health and safety of its residents.

The bill would authorize the department, when it periodically reviews the record of substantiated complaints against each group home facility, pursuant to its oversight authority, to determine whether the nature, number, and severity of incidents upon which complaints were based constitute a basis for concern as to whether the provider is capable of effectively and efficiently operating the program, and if the department determines that there is cause for concern, to contact the county in which a group home facility is located and placement agencies in other counties using the group home facility, and request their recommendations as to what action, if any, the department should take with regard to the provider's status as a licensed group home provider.

(3) By expanding the definition of a crime under the California Community Care Facilities Act, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 834 (AB 2266) Committee on Veterans Affairs. Military and veterans: Cal-Vet Farm and Home Loan program.

Existing law provides for farm and home purchase benefits for qualifying veterans under the Veterans' Farm and Home Purchase Act of 1974 and subsequent acts. It authorizes the Department of Veterans Affairs to assist veterans in acquiring homes and farms by generally providing that the department may purchase a farm or home, which the department then sells to a purchaser, as defined. Existing law defines "home" to include, among other things, a condominium and a mobilehome.

This bill would expand the definition of "home" to include cooperative housing, as defined.

Ch. 835 (AB 2316) Chan. Life insurance: consumer protection.

Existing law generally regulates the sale and marketing of life insurance and annuities. Existing law requires the Insurance Commissioner to collect certain fees and assessments from insurers for regulatory purposes.

This bill would create the Life and Annuity Consumer Protection Fund as a special account within the Insurance Fund, and require that the moneys deposited therein from a \$1 fee levied against insurers based upon each individual life insurance and annuity product worth \$15,000 or more issued to a resident of this state be dedicated to protecting consumers of insurance products. The bill would require an insurer that chooses to charge purchasers this fee to set forth the charge separately. This bill would provide that the Insurance Commissioner shall distribute 50% of the funds within the department for consumer protection functions related to individual life insurance and annuity products, as specified, and 50% of the funds to district attorneys for investigating and prosecuting individual life insurance and annuity product financial abuse cases involving licensees and for other projects beneficial to insurance consumers. This bill would provide that the commissioner may develop guidelines and issue regulations for implementing these provisions. The bill would require that an insurer, upon receipt of an invoice, to transmit payment to the department for deposit in the fund, and that moneys remaining in the fund at the end of the fiscal year be retained in the account and carried forward.

The bill would provide that these provisions shall remain in effect until January 1, 2010.

Ch. 836 (AB 2848) Keene. New Motor Vehicle Board: all-terrain vehicles.

(1) Existing law establishes a New Motor Vehicle Board that regulates the activities or practices of a new motor vehicle dealer, manufacturer, manufacturer branch, distributor,

distributor branch, or representative, as those terms are defined by the Vehicle Code. Existing law requires licensing by the Department of Motor Vehicles to do these activities for specified types of vehicles.

This bill would include the activities and practices of dealers in all-terrain vehicles and the manufacturers, manufacturer branches, distributors, distributor branches, or representatives of those vehicles within the scope of the board.

This bill would require the all-terrain vehicle entities to make application to the Department of Motor Vehicles for a license, but would exempt them from the written examination and education program requirements. This bill would also require the holders of these licenses, and the dealers, manufacturers, manufacturer branches, distributors, distributor branches, and representatives of trailers that are subject to identification, to pay fees for the issuance and renewal of a license.

(2) Existing law defines the term “new motor vehicle dealer” for purposes of the Vehicle Code to include, among others, a dealer, as defined, that acquires for resale new and unregistered off-highway motorcycles from a manufacturer or distributor of those vehicles.

This bill would delete from that definition the requirement that off-highway motorcycles be unregistered and would include in that revised definition a dealer that acquires for resale all-terrain vehicles.

Ch. 837 (AB 2943) Pavley. Mercury-containing vaccines.

Existing law requires the State Department of Health Services to maintain a program of maternal and child health.

This bill, with certain exemptions, would prohibit, on and after July 1, 2006, a person who is knowingly pregnant or who is under 3 years of age from being vaccinated with a mercury-containing vaccine or injected with a mercury-containing product that contains more than a specified amount of mercury. The bill would require notice to be given to the Legislature and interested parties regarding any exemptions and requests for exemptions.

Ch. 838 (SB 1906) Sher. Surplus school property: use of proceeds: Santa Clara Unified School District.

Existing law, the Leroy F. Greene School Facilities Act of 1998 (the Greene Act of 1998), requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition.

Existing law requires a school district to use the funds derived from the sale of surplus property for capital outlay or for costs of maintenance of school district property that the governing board of the school district determines will not recur within a 5-year period. Existing law authorizes a school district having an average daily attendance of less than 10,001 in any fiscal year to deposit any and all interest earned on those funds into the general fund of the district if the district meets certain conditions.

This bill would, notwithstanding any other law, and until January 1, 2007, authorize the Santa Clara Unified School District to use the proceeds from the sale of surplus real and personal property, as provided, to deposit the proceeds into the general fund of the school district or county office of education, and to use the proceeds from that transaction for any one-time general fund purpose. If the purchase of the property was made using the proceeds of a general obligation bond act or revenue derived from developer fees, the bill would prohibit the amount deposited into the general fund of the school district or county office of education from exceeding the difference between the purchase price of the property and the proceeds of the transaction divided by the amount of the proceeds of the transaction, as defined.

This bill would declare that, due to the special circumstances applicable to the Santa Clara Unified School District, a general statute cannot be made applicable within the meaning of

Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

Ch. 839 (SB 177) Hollingsworth. Surplus school property: use of proceeds.

Existing law, the Leroy F. Greene School Facilities Act of 1998 (the Greene Act of 1998), requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition.

Existing law requires a school district to use the funds derived from the sale of surplus property for capital outlay or for costs of maintenance of school district property that the governing board of the school district determines will not recur within a 5-year period. Existing law authorizes a school district having an average daily attendance of less than 10,001 in any fiscal year to deposit any and all interest earned on those funds into the general fund of the district if the district meets certain conditions.

This bill would, notwithstanding any other law, and until January 1, 2007, authorize the Santee School District and the Capistrano Unified School District to sell certain surplus real and personal property, as provided, to deposit the proceeds into the general fund of the school district or county office of education, and to use the proceeds from that transaction for any one-time general fund purpose. If the purchase of the property was made using the proceeds of a general obligation bond act or revenue derived from developer fees, the bill would prohibit the amount deposited into the general fund of the school district or county office of education from exceeding the difference between the purchase price of the property and the proceeds of the transaction divided by the amount of the proceeds of the transaction, as defined.

This bill would declare that, due to the special circumstances applicable to the Santee School District and the Capistrano Unified School District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 840 (SB 914) Bowen. State Department of Health Services: domestic violence prevention grant program.

The Office of Criminal Justice Planning was abolished in 2003. Existing law requires the Director of Finance to designate an agency or agencies to carry out the functions of the office. The Office of Criminal Justice Planning formerly administered certain grant programs relating to victims of domestic violence and sex offenses.

This bill would state the intent of the Legislature that victims' services programs that were administered by the Office of Criminal Justice Planning be temporarily redirected to the Office of Emergency Services, and that certain programs involving domestic violence and sexual assault be permanently consolidated in one office, branch, or department. The bill would revise the administration of certain grant programs relating to victims of domestic violence and sex offenses as collaboratively administered by the Office of Emergency Services and specified advisory committees.

These changes would not apply to grants approved by the Office of Emergency Services in the 2004–05 funding cycle.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 841 (SB 1178) Kuehl. Dependent children: parenting.

Existing law authorizes the juvenile court to adjudge a child a dependent child of the court if the child has suffered, or there is a substantial risk that the child will suffer, among other things, serious physical harm inflicted nonaccidentally upon the child by his or her parent or guardian, or serious physical harm or illness as a result of the failure or inability of the parent or guardian to adequately supervise or protect that child.

Existing law also provides for foster care placement situations for dependent minors by state and local child welfare agencies.

This bill, the Teen Parents in Foster Care Act, would make legislative findings and declarations regarding the need to provide resources and support to dependent minor parents. This bill would set forth ways in which the families of dependent minor parents may be preserved, by assisting these parents in raising their children, as well as participating in school and extracurricular activities. The bill would encourage the department and local child welfare agencies to collect data on the number of minors in foster care who give birth and the number of minor parents who remain in placement with their minor children, and to collect information to be used to develop a more cost-effective infant supplemental payment rate structure to more adequately reimburse caregivers. The bill would require child welfare agencies, to the greatest extent possible, to identify and utilize whole family placements and other placement models that provide supportive family focused care for dependent teens and their children.

To the extent that this bill would increase the duties of county child welfare agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 842 (SB 1313) Kuehl. Child abuse reporting.

(1) Existing law defines willful cruelty or unjustifiable punishment of a child for purposes of these provisions as a situation in which any person willfully causes or permits any child to suffer, or inflicts thereon, unjustifiable physical pain or mental suffering, or having the care or custody of any child, willfully causes or permits the person or health of the child to be placed in a situation in which his or her person or health is endangered.

This bill would define the willful harming or injuring of a child or the endangering of the person or health of a child, for purposes of these provisions.

(2) Existing law identifies those persons who are mandated reporters for purposes of these provisions.

This bill would specify that volunteers of public and private organizations whose duties include direct contact with and supervision of children are not mandated reporters but are encouraged to report instances of child abuse and neglect.

(3) Existing law outlines the substance of training with regard to the duties imposed by these provisions but provides that a mandated reporter who does not receive this training shall not be excused from his or her duty as a mandated reporter.

This bill would provide that employers are strongly encouraged to provide their employees who are mandated reporters with training in the duties imposed upon them by these provisions and would require employers to provide a statement containing specified information, as well as copies of specified provisions, whether or not an employer provides training in child abuse and neglect identification and reporting. This bill would also provide that public and private organizations are encouraged to provide their volunteers whose duties include direct contact with and supervision of children with training in identifying and reporting child abuse and neglect.

(4) Existing law requires law enforcement agencies that received reports of child abuse and neglect from mandated reporters to forward to the Department of Justice a report of every case it investigates which is determined not to be unfounded.

This bill would change the definition of “substantiated report” for the purposes of these provisions to a report that is determined to constitute child abuse or neglect based upon evidence that makes it more likely than not that child abuse or neglect occurred.

(5) Existing law requires the reports filed by mandated reporters concerning abuse and neglect to include certain specified information about the victim and the information that gave rise to the suspicion of abuse and its source.

This bill would provide that a mandated reporter is not required to make a report if identifying information about the victim is not known to him or her.

(6) Existing law requires a mandated reporter to make a report if he or she knows or reasonably suspects that unjustifiable mental suffering has been inflicted upon a child. Existing law also provides that a mandated reporter may report whenever he or she has knowledge of or reasonably suspects that mental suffering has been inflicted upon a child or his or her emotional well-being is endangered.

This bill would instead provide that a mandated reporter may make a report if he or she has knowledge of or reasonably suspects that a child is suffering serious emotional damage or is at a substantial risk of suffering serious emotional damage.

(7) Existing law provides that mandated reports and information maintained by the Department of Justice in the Child Abuse Central Index are confidential and may be disclosed only under certain circumstances.

This bill would specify that a report by a mandated reporter is confidential and any violation of this confidentiality is punishable by a fine not to exceed \$500, imprisonment in a county jail for a period not to exceed 6 months, or by both that fine and imprisonment. This bill would clarify that a child abuse or neglect investigative report that results in a summary report being filed with the Department of Justice is confidential and may only be disclosed as specified.

This bill would provide that information in the Child Abuse Central Index maintained by the Department of Justice may be disclosed to a specified agency that is conducting a child abuse investigation relevant to information contained in the index and to a government agency that is conducting a background investigation of an applicant for a position as a peace officer regarding information concerning the applicant.

(8) Existing law provides that no mandated reporter shall be civilly or criminally liable for any report authorized by these provisions.

This bill would specify that this immunity applies even if the mandated reporter acquires the knowledge or reasonable suspicion of child abuse or neglect outside of his or her professional capacity or outside the scope of his or her employment.

This bill would make numerous other technical, nonsubstantive, and conforming changes.

(9) This bill would incorporate additional changes to Sections 11165.7 and 11166.5 of the Penal Code, proposed by AB 2531 contingent upon the prior enactment of that bill.

(10) This bill would incorporate additional changes to Section 11166 of the Penal Code, proposed by AB 20, contingent upon the prior enactment of that bill.

(11) This bill would incorporate additional changes to Section 11167 of the Penal Code, proposed by AB 2749, contingent upon the prior enactment of that bill.

(12) This bill would provide that the Commission on State Mandates may deny a claim by a local agency or school district if, after a hearing, the commission finds that the statute or executive order provides for offsetting savings to local agencies or school districts which result in no net costs to the local agency or school district, or includes additional revenue that was specifically intended to fund the cost of the state mandate in an amount sufficient to fund the cost of the state mandate.

Ch. 843 (SB 1436) Murray. Computer spyware.

Existing law provides for the regulation of various businesses by the Department of Consumer Affairs. No existing law provides for the regulation of computer spyware.

This bill would prohibit a person or entity other than the authorized user of a computer owned by a person in California from, with actual knowledge, conscious avoidance of actual knowledge, or willfully, causing computer software to be copied onto the computer and using the software to (1) take control of the computer, as specified, (2) modify certain settings relating to the computer's access to or use of the Internet, as specified, (3) collect, through intentionally deceptive means, personally identifiable information, as defined, (4) prevent, without authorization, an authorized user's reasonable efforts to block the installation of or disable software, as specified, (5) intentionally misrepresent that the software will be uninstalled or disabled by an authorized user's action, or (6) through intentionally deceptive means, remove, disable, or render inoperative security, antispyware, or antivirus software installed on the computer. The bill would also prohibit a person or entity who is not an authorized user from inducing an authorized user to install a software component by intentionally misrepresenting that it is necessary for security or privacy or in order to open, view, or play a particular type of content. The bill would prohibit a person or entity who is not an authorized user from deceptively causing the copying and execution on the computer of software components with the intent of causing an authorized user to use the components in a way that violates any of these prohibitions.

The bill would provide that if any part of these provisions or their applications are held invalid, the invalidity would not affect other provisions.

Ch. 844 (SB 1534) Johnson. Income tax forms.

The Personal Income Tax Law, which is administered by the Franchise Tax Board, imposes taxes upon the taxable income of specified persons.

This bill would provide that taxpayers whose total income, as defined, is less than specified amounts shall have the option of using Form 540 2EZ, as prepared by the Franchise Tax Board.

This bill would require the Legislative Analyst, in consultation with the Franchise Tax Board, to conduct a study and to report to the Legislature, no later than January 1, 2008, on the impact of the revised Form 540 2EZ on tax preparation and tax administration.

Ch. 845 (SB 1612) Speier. Foster care and child welfare services: funding.

(1) Existing law establishes the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which counties provide payments to foster care providers, including foster family homes, on behalf of qualified children in foster care. The program is funded by a combination of federal, state, and county funds, with moneys from the General Fund being continuously appropriated to pay for the state's share of AFDC-FC costs.

This bill would require the State Department of Social Services to amend the foster care state plan required under federal law, to authorize counties that elect to subsidize child care for foster parents to use federal foster care matching funds for the purpose of subsidizing that child care. The bill would require counties electing to administer the Foster Parent Child Care Program to follow guidelines developed by the department. The bill would require the federal funds to match only county funds.

(2) Existing law provides for the appropriation of certain sums out of any money in the State Treasury not otherwise appropriated, after deducting federal funds available, for various purposes, including providing aid for the adequate care of each child receiving AFDC-FC benefits. Existing law provides that notwithstanding these provisions, the county is to be responsible for 100% of the nonfederal share of payments to needy children eligible for AFDC-FC who are placed in public child care institutions.

This bill would also provide that the county is to be 100% responsible for payments made to foster parents pursuant to the requirements of the bill.

(3) Existing law makes appropriations in the annual Budget Act for the support of the government of the State of California and for several public purposes, including the support of the State Department of Social Services and the provision of child welfare services.

This bill would require \$91,440,000 of the amount appropriated in the Budget Act of 2004 for local assistance by the State Department of Social Services to be provided to counties to fund designated child welfare services activities.

This bill would reappropriate \$17,145,000 from the Budget Act of 2003 to the Budget Act of 2004 to augment child welfare services basic county allocations. The bill would allow the Department of Finance to reduce a part of the reallocated amount by a corresponding amount of savings in the 2004–05 fiscal year, if the savings are redirected to child welfare services uses designated in the bill.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 846 (SB 1912) Ashburn. Pupil health: self-administration of medication.

Existing law provides that each pupil who is required to take, during the regular schoolday, medication prescribed for him or her by a physician, may be assisted by the school nurse or other designated school personnel if the school district receives a written statement from the physician detailing the method, amount, and time schedules by which the medication is to be taken and a written statement from the parent, foster parent, or guardian of the pupil indicating the desire that the school district assist the pupil in the matters set forth in the physician's statement.

This bill would authorize a pupil to carry and self-administer auto-injectable epinephrine medication if the school district receives the statements described above.

The bill would require the written statements to be provided to the school district at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.

The bill would subject a pupil to specified disciplinary actions if that pupil uses the auto-injectable epinephrine medication in a manner other than as prescribed.

This bill would make its provisions operative only if AB 2132 of the 2003–04 Regular Session is enacted.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 847 (SB 1276) Bowen. Telecommunications: telephone service rates: universal service programs.

Existing law, the federal Telecommunications Act of 1996, establishes a program of cooperative federalism for the regulation of telecommunications to attain the goal of local competition, while implementing specific, predictable, and sufficient federal and state mechanisms to preserve and advance universal service, consistent with certain universal service principles. The universal service principles include the principle that consumers in all regions of the nation, including low-income consumers and those in rural, insular, and high-cost areas, should have access to telecommunications and information services, including interexchange services and advanced telecommunications and information services, that are reasonably comparable to those services provided in urban areas and that are available at rates that are reasonably comparable to rates charged for similar services in urban areas. The federal universal service principles also include the principle that elementary and secondary schools and classrooms, health care providers, and libraries should have access to advanced telecommunications service. The act authorizes states to adopt regulations not inconsistent with Federal Communications Commission rules to preserve and advance universal service. The act requires that every telecommunications carrier that provides intrastate telecommunications services contribute, on an equitable and nondiscriminatory basis, in a manner determined by the state, to the preservation and advancement of universal service in that state. The act authorizes each state to adopt regulations to provide for additional definitions and standards to preserve and advance universal service within the state, only to the extent that they adopt additional specific, predictable, and sufficient mechanisms that do not rely on or burden federal universal service support mechanisms.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. Existing law authorizes the commission to fix just and reasonable rates and charges. Existing law establishes the California High-Cost Fund-A Administrative Committee Fund, the California High-Cost Fund-B Administrative Committee Fund, the Universal Lifeline Telephone Service Trust Administrative Committee Fund, the Deaf and Disabled Telecommunications Program Administrative Committee Fund, the Payphone Service Providers Committee Fund, and the California Teleconnect Fund Administrative Committee Fund in the State Treasury and requires that the moneys in the funds be expended only to accomplish specified telecommunications universal service programs, upon appropriation in the annual Budget Act.

This bill would provide that moneys in the funds are the proceeds of rates and are held in trust for the benefit of ratepayers and to compensate telephone corporations for their costs of providing universal service. The bill would require that the moneys in the funds be expended only to accomplish specified telecommunications universal service programs, upon appropriation in the annual Budget Act or upon supplemental appropriation.

Existing law, until January 1, 2005, requires the commission to develop, implement, and maintain a program to establish a fair and equitable local rate structure designed to reduce any disparity in rates charged by small independent telephone corporations serving rural and small metropolitan areas, and a competitively neutral, and broadband program to provide for transfer payments to telephone corporations serving areas where the cost of providing services exceeds rates charged by providers, as determined by the commission. Pursuant to this requirement, the commission has imposed a surcharge to intrastate telephone service to fund the transfer payments funded through the California High-Cost Fund-A Administrative Committee Fund and the California High-Cost Fund-B Administrative Committee Fund.

This bill would extend these programs until January 1, 2009. The bill would make other technical changes and would require the commission to structure the programs so that any charge imposed to promote the goals of universal service reasonably equals the value of the benefits of universal service.

The bill would require the commission by January 1, 2006, to conduct a review of the program, as extended by the bill, for the establishment of a fair and equitable local telephone rate support structure, and a review of the California High-Cost Fund-B Administrative Committee Fund, to accomplish an adjustment of subsidy payments to reflect updated operating costs and an evaluation of whether subsidy levels can be reduced while maintaining the goals of the program.

Existing law establishes the California Teleconnect Fund Administrative Committee to advise the Public Utilities Commission regarding the development, implementation, and administration of a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations, funded through the California Teleconnect Fund Administrative Committee Fund.

This bill would appropriate \$17,974,000 from the California Teleconnect Fund Administrative Committee Fund to the commission for the purpose of transferring funds to telephone corporations providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations and authorized to receive these funds.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 848 (SB 1456) Kuehl. Hospitals: physicians and surgeons: self-governance.

(1) The Medical Practice Act provides for licensing and regulation of physicians and surgeons by the Medical Board of California. Existing law provides that the practice of medicine in a licensed general or specialized hospital having 5 or more physicians and surgeons on the medical staff without provision for organization and self-governance of the medical staff under certain rules constitutes unprofessional conduct subject to discipline by the board. A violation of specified provisions of the Medical Practice Act is a crime.

This bill would specify certain rights that would be included in hospital medical staff self-governance provisions. The bill would require the medical staff and the hospital governing board to meet and confer to resolve disputes related to these provisions, and would authorize court relief in certain circumstances. The bill would make findings and declarations of the Legislature in this regard.

(2) Because the bill would change the definition of a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would become operative only if SB 1325 is enacted and becomes effective on or before January 1, 2005.

#### Ch. 849 (AB 252) Jackson. Paternity judgments.

(1) Existing law provides for a voluntary declaration of paternity. Existing law also authorizes a court to set aside a voluntary declaration of paternity.

This bill would authorize a court to set aside a voluntary declaration of paternity unless the court determines that denial of an action to set aside the voluntary declaration of paternity is in the best interest of the child following consideration of specified factors.

(2) Existing law permits a local child support agency to bring an action to determine the existence or nonexistence of a father and child relationship.

This bill would permit the Department of Child Support Services to review the current practices of service of process in regard to those actions, and to develop methods to increase personal delivery.

This bill would also require a court to inform an alleged father of a child of his right to have genetic testing performed to determine if he is the biological father and of his right to move to set aside or vacate a judgment of paternity, as specified.

(3) Existing law authorizes a local child support agency to issue an administrative order requiring the mother, the child, and the alleged father to submit to genetic testing to determine paternity in any civil action or proceeding in which paternity is a relevant fact and a contested issue.

This bill would set forth procedures whereby certain persons may move to set aside or vacate a default judgment establishing paternity entered by a court of this state, as specified.

(4) Existing law authorizes a party in a civil action to make a motion to vacate a judgment within a specified period of time.

This bill would permit the court to grant those motions if certain conditions are satisfied, as specified, and would require court-ordered genetic testing, if requested by an authorized person or the court. Regardless of those test results, the bill would confer upon the court the discretion to deny a motion, if that is in the best interest of the child after consideration of specified factors. The bill would not apply to any adoption case or to any paternity case relating to a child conceived by artificial insemination, and would not affect specified distributions.

This bill would further set forth related procedures with regard to local child support agencies that provide specified services. The bill would authorize those agencies to issue administrative orders requiring genetic testing pursuant to the above, and would require those agencies to pay for that testing. By imposing additional duties on local child support agencies, the bill would create a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 850 (AB 1367) Steinberg. Medi-Cal: HIV/AIDS Pharmacy Pilot Program.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services and under which qualified low-income persons receive health care services, including pharmacy services and drugs.

This bill would require the department to establish the HIV/AIDS Pharmacy Pilot Program in up to 10 pharmacies to evaluate the provision of medication therapy management services, as defined, for people with HIV/AIDS to be effective January 1, 2005, for services rendered on or after September 1, 2004. The bill would require the pilot project to provide the necessary information to assess the effectiveness of pharmacist care in improving health outcomes for HIV/AIDS patients. The bill would require the department to consult with the pilot program pharmacies to establish appropriate outcome measures and the required timeframes for reporting those measures, which are required to be at least annually. The bill would require that the pilot program participants be paid an additional dispensing fee of \$9.50 per prescription for services rendered after September 1, 2004. The bill would provide for the repeal of its provisions on January 1, 2008.

Ch. 851 (AB 2151) Jackson. Medi-Cal: reimbursement rates: community and free clinics.

Existing law provides for the regulation and licensure of community and free clinics by the State Department of Health Services. Existing law provides an exemption from the licensure requirement for an intermittent clinic that is operated by a primary care community or free clinic, but that is operated on separate premises from the licensed clinic and is only open for limited services of no more than 20 hours a week. Existing law authorizes these clinics to purchase drugs at wholesale for administration or dispensing, under the direction of a physician, to patients registered for care at the clinic.

Existing law provides for the Medi-Cal program, which is administered by the department and under which qualified low-income persons receive health care benefits, including drugs, prosthetic and orthotic devices, durable medical equipment, medical supplies, and enteral formulae. Existing law provides for the reimbursement of pharmacies that provide these drugs and products under the Medi-Cal program. Existing law requires the department to establish the maximum allowable ingredient cost for drugs.

Existing regulations of the department provide that reimbursement of licensed community clinics and free clinics under the Medi-Cal program for take-home drugs shall not exceed the amounts payable for "drug ingredient cost" established by the department.

Pursuant to a federal waiver, the Medi-Cal program administers a program known as the Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program, under which comprehensive clinical family planning services are provided to any person who has a family income at or below 200% of the federal poverty level and who is eligible to receive those services pursuant to the terms of the waiver.

This bill would provide that a licensed community care clinic or free clinic or an intermittent clinic, with a valid license described above to purchase drugs at wholesale for administration or dispensing, shall comply with billing amount requirements, and be subject to maximum reimbursement rates, established by the bill for any take-home drugs and supplies provided under the Medi-Cal program or the Family PACT Waiver Program.

Ch. 852 (AB 2404) Steinberg. Discrimination: athletic programs.

Existing law prohibits discrimination and harassment based on sex, ethnic group identification, race, national origin, color, religion, mental or physical disability, or any basis that is contained in the prohibition of hate crimes in any program or activity conducted by

an educational institution that receives, or benefits from, state financial assistance or enrolls pupils who receive state student financial aid.

Existing federal law provides that no person on the basis of sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program or activity receiving federal financial assistance.

This bill would prohibit a city, county, city and county, or special district from discriminating against any person on the basis of gender in the operation, conduct, or administration of community youth athletics programs or in the allocation of parks and recreation facilities and resources that support or enable these programs. The bill would create an independent right to bring a civil action for equitable and monetary relief, as specified.

The bill would declare that the Unruh Civil Rights Act has been held to prohibit local governmental agencies from discriminating on the bases proscribed by the act, and that a specific state law also prohibits local governmental agencies that receive financial assistance from the state from discriminating on the basis of gender.

Ch. 853 (SB 451) Ducheny. Taxation of possessory interests.

Existing property tax law requires that all property subject to tax be assessed at its full value, and includes certain possessory interests among those property interests subject to tax. Existing property tax law defines a taxable possessory interest to be a use that is independent, durable, and exclusive.

This bill would clarify that, for purposes of the definition of a taxable possessory interest, a possession or use is not independent if it is pursuant to a contract, that includes, but is not limited to, a long-term lease, for the private construction, renovation, rehabilitation, replacement, management, or maintenance of housing for active duty military personnel and their dependents, if the housing units meet specified criteria. This bill would state that its provisions are declaratory of existing law.

Ch. 854 (SB 512) Figueroa. Marine resources: Pacific Fishery Management Council: Marine managed areas: state water quality protection areas.

(1) Existing law states that it is the policy of the state that the state be represented on the federal Pacific Fishery Management Council by representatives of those fisheries directly subject to the fishery management plans of the council. Existing law requires that special emphasis be made on the nominations and appointments to the council for a California commercial salmon troll fisherman, and, in order to assure a balanced representation on the council, representatives from the seafood processing industry, the commercial passenger carrying fishing industry, the groundfish fishery, and the coastal pelagic species fishery. Existing law requires that when the Governor makes a nomination for any seat on the council, the individual be knowledgeable of California's fishery resources and its fishing industry and needs. Existing law requires the nominations to be made after consultation with fishery organizations whose members are directly affected by the actions of the council.

This bill would state that it is the policy of the state that the state be represented on the council by persons knowledgeable about fisheries directly subject to the fishery management plans of the council. The bill would require that nominations and appointments to the council be a balanced representation of interested parties, including, but not limited to, the parties listed above and nongovernmental environmental organizations and marine scientists. The bill would delete the requirement that a person nominated by the Governor for a seat on the council be knowledgeable of the state's fishing needs. The bill would delete the requirement that the nominations be made after consultation with fishery organization members who are directly affected by the actions of the council, and, instead, would require the nominations be made after consultation with fishery organizations and other interested parties, including parties representing the public's interest in the fishery resources and marine environment.

(2) Existing law establishes the Marine Managed Areas Improvement Act, which, among other things, prescribes 6 classifications for designating managed areas in the marine and estuarine environments to ensure the long-term ecological viability and biological productivity of marine ecosystems and to preserve cultural resources in the coastal sea, including state water quality protection areas. The act defines state water quality protection areas for the purposes of the act as including areas of special biological significance.

Existing law requires the State Water Resources Control Board to formulate and adopt, and review at least every 3 years, a water quality control plan for the ocean waters of the state known as the California Ocean Plan. An existing plan adopted by the state board, the Water Quality Control Plan for Control of Temperature in the Coastal and Interstate Waters and Enclosed Bays and Estuaries of California (California Thermal Plan) establishes thermal requirements for coastal and interstate waters, and the bays and estuaries in the state.

This bill would specify that areas of special biological significance are a subset of state water quality protection areas and require special protection as determined by the state board pursuant to the California Ocean Plan and the California Thermal Plan.

(3) The Marine Managed Areas Improvement Act authorizes the state board and the California regional water quality control boards to take appropriate actions to protect state water quality protection areas. The act requires that, in a state water quality protection area, point source waste and thermal discharges be prohibited or limited by special conditions, and that nonpoint source pollution be controlled to the extent practicable.

This bill would, instead, require that waste discharges in a state water quality protection area be prohibited or limited by the imposition of special conditions in accordance with specified provisions of law.

Ch. 855 (SB 659) Soto. Public Utilities Commission: rehearings and judicial review.

Under existing law, after any order or decision has been made by the Public Utilities Commission, any party to the action or proceeding, or any stockholder or bondholder or other party pecuniarily interested in the public utility affected, may apply for a rehearing with respect to any matters determined in the action or proceeding and specified in the application for rehearing. Existing law specifically prohibits a cause of action arising out of any order or decision of the commission construing, applying, or implementing Chapter 4 of the Statutes of the 2001–02 First Extraordinary Session, relating to an electricity crisis, from accruing in any court to any corporation or person unless the corporation or person has filed an application to the commission for a rehearing within 10 days after the date of issuance of its order or decision, and requires the commission to issue its decision and order on rehearing within 20 days after the filing of that application.

Existing law also sets forth a specific procedure to expedite judicial review of an order or decision of the commission interpreting, implementing, or applying the provisions of Chapter 4 of the Statutes of the 2001–02 First Extraordinary Session.

This bill would limit the expedited rehearing and review provisions applicable specifically to Chapter 4 of the Statutes of the 2001–02 First Extraordinary Session, to only those orders or decisions of the commission that relate to either of the following: (1) the determination or implementation of the revenue requirements of the Department of Water Resources, or the establishment or implementation of bond or power charges necessary to recover those revenue requirements; or (2) in the determination of the department, require expedited review for the maintenance of any credit rating on any bonds or notes of the department issued pursuant to the division of the Water Code added by Chapter 4 of the Statutes of the 2001–02 First Extraordinary Session, or to meet the department’s obligations with respect to any bonds or notes issued pursuant to that division.

Ch. 856 (SB 1117) Burton. Tribal gaming: compact ratification.

Existing federal law, the Indian Regulatory Act of 1988, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. Existing law expressly ratifies a number of tribal-state gaming compacts between the State of California and specified Indian tribes.

This bill would ratify tribal-state gaming compacts and amendments of tribal-state gaming compacts entered into on August 23, 2004, between the State of California and the following 4 tribes: (1) the Buena Vista Rancheria of Me-Wuk Indians; (2) the Fort Mojave Indian Tribe; (3) the Coyote Valley Band of Pomo Indians; and (4) the Ewiiapaayp Band of Kumeyaay Indians. The bill would require that related revenue contributions be deposited into the General Fund. The bill would also specify that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act. The bill would also make related changes.

Ch. 857 (SB 1307) Figueroa. Wholesalers and manufacturers of dangerous drugs and devices.

(1) Existing law, the Pharmacy Law, provides for the licensing and regulation of pharmacists and wholesalers of dangerous drugs or dangerous devices by the Pharmacy Board. Existing law requires that dangerous drugs or dangerous devices be dispensed only by licensed pharmacists and only to certain persons or entities. Existing law provides certain exemptions from this requirement for manufacturers, veterinary food-animal drug retailers, and wholesalers, including those that employ sufficient qualified supervision by a person who possesses a certificate of exemption. Existing law also requires the board to take action against a licensee who is guilty of unprofessional conduct, as defined. Existing law makes a violation of the Pharmacy Law a crime.

This bill would revise the list of persons to whom a pharmacy may furnish dangerous drugs. The bill would also revise the exemption provisions related to manufacturers, veterinary food-animal drug retailers, and wholesalers, and would change the certificate of exemption requirement to a requirement of licensure as a designated representative, as defined. The bill would require a wholesaler to keep track of excessive purchases of dangerous drugs by a pharmacy that primarily or solely dispenses those drugs to patients of long-term care facilities, and would make the clearly excessive furnishing of dangerous drugs to that pharmacy by a wholesaler unprofessional conduct. The bill would make other related changes.

This bill would, on and after January 1, 2007, require a pedigree, as defined, to accompany each distribution of a dangerous drug, except if the compliance date is extended. It would, on and after that date, prohibit a wholesaler or pharmacy from selling, trading, or transferring a dangerous drug without a pedigree, and would prohibit a wholesaler or pharmacy from acquiring a dangerous drug without receiving a pedigree.

(2) Existing law prohibits a person from acting as a wholesaler of dangerous drugs or devices without a license.

This bill would require dangerous drugs or dangerous devices to be acquired from a person authorized by law to possess or furnish them. The bill would exempt a licensed drug manufacturer that only ships drugs of its own manufacture from the provisions governing wholesalers, except for the prohibition against furnishing dangerous drugs or devices to an unauthorized person.

(3) Existing law imposes certain licensing and registration requirements on out-of-state manufacturers and wholesalers doing business in this state, and on their principals and agents.

This bill would delete these requirements.

(4) Existing law requires any manufacturer who sells or transfers a dangerous drug or dangerous device into this state or who receives a dangerous drug or dangerous device from a person in this state to, upon request, furnish an authorized officer of the law with all records or other documentation of that sale or transfer. Existing law makes a manufacturer who fails

or refuses to comply with that request subject to a citation and a fine, an order of abatement, or both.

This bill instead would apply these provisions to a wholesaler licensed by the board. The bill would delete the provision that makes the failure or refusal to comply with a request subject to a citation and a fine, an order of abatement, or both. The bill would require a wholesaler to submit a surety bond of \$100,000, or an equivalent means of security, for all sites to be licensed.

(5) The bill would prohibit a county or municipality from issuing a business license for an establishment that requires a wholesaler license unless the establishment possesses a current wholesaler license issued by the board.

The bill would prohibit a person or entity from purchasing, trading, selling, or transferring a dangerous drug or device under specified circumstances, including if he or she knew, or reasonably should have known, the drug or device was adulterated or misbranded. The bill would make a violation of those provisions subject to a specified fine.

The bill would specify to whom a pharmacist may furnish dangerous drugs.

(6) The bill would make its provisions operative on January 1, 2006, except as specified.

(7) Because a violation of the requirements and prohibitions created by this bill would be a crime, the bill would impose a state-mandated local program.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(9) This bill would become operative only if AB 2682 is also enacted and becomes effective on or before January 1, 2005.

(10) This bill would incorporate additional changes in Sections 4059.5 and 4081 of the Business and Professions Code proposed by SB 1913, to be operative only if SB 1913 and this bill are both enacted and take effect, and this bill is enacted last.

#### Ch. 858 (SB 1357) Scott. Foster care and adoption.

Existing law governs juvenile court proceedings and adoption and foster care proceedings. Among other things, these provisions provide for the confidentiality of juvenile court records, require that notice of hearings in dependency proceedings be given to specified persons, and govern the rights of parents in adoption proceedings.

Existing federal law, the Indian Child Welfare Act, also governs proceedings to determine the custody or adoption placement of any child who is, or who may be, a member of, or eligible for membership in, an Indian tribe.

The Interstate Compact on the Placement of Children governs the placement of children in foster care or for adoption out of state.

This bill would provide that if a presumed father waives the right to notice in writing, as specified, no notice, relinquishment for, or consent to adoption shall be required from him for the adoption to proceed, as specified. The waiver would not affect the rights of any known federally recognized Indian tribe or tribes from which the child or the presumed father may be descended to notification of, or participation in, adoption proceedings as provided by the Indian Child Welfare Act.

The bill would provide that a child who is born in this state and placed for adoption in this state with a resident of this state is not subject to the provisions of the Interstate Compact on the Placement of Children. The bill would make related changes and clarifications.

The bill would revise the definition of an adoption service provider, for purposes of provisions governing adoption, to include an adoption agency licensed or otherwise approved under the laws of another country.

The bill would make changes to provisions governing postadoption contact agreements, the confidentiality of juvenile court records, and foster care.

Ch. 859 (SB 1444) Speier. Dietary supplements: steroid hormone precursors.

Existing law, the Sherman Food, Drug, and Cosmetics Law, provides for the regulation of the processing, labeling, advertising, and sale of food, drugs, and cosmetics, as defined, including dietary supplements, under the administration of the State Department of Health Services.

Existing law prohibits the sale of dietary supplements containing ephedrine group alkaloids or steroid hormone precursors unless the product label of these products includes certain statements regarding content and warning statements regarding the use of the product. Under existing law, it is a misdemeanor for any manufacturer, wholesaler, retailer, or other person to sell, transfer, or otherwise furnish a dietary supplement containing ephedrine group alkaloids or steroid hormone precursors to a person less than 18 years of age and a seller is required to request a valid identification of prospective purchasers who reasonably appear to be under 18 years of age. Existing law also defines anabolic steroids, with respect to contracts for the lease or rental of athletic facilities.

This bill would revise these provisions to replace the reference to steroid hormone precursors with a list of designated substances. By creating a new crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 860 (SB 1618) Battin. Employee compensation.

Existing law requires every employer to, at the time of each payment of wages, furnish each employee with an accurate itemized statement showing, among other things, the name of the employee and his or her social security number. Existing law exempts the state or a city, county, city and county, district, or other governmental entity from these provisions. Existing law provides that a knowing and intentional violation of this provision is a misdemeanor.

This bill would, instead, require an employer, by January 1, 2008, to furnish each employee with an accurate itemized statement showing no more than the last 4 digits of the employee's social security number or an existing employee identification number other than a social security number. The bill would additionally require the state, or any city, county, city and county, district, or any other governmental entity, if it furnishes its employees with a check, draft, or voucher paying the employee's wages, to, by January 1, 2008, use no more than the last four digits of the employee's social security number or to use an existing employee identification number other than the social security number on that check, draft, or voucher. By requiring an employer to furnish each employee with an accurate itemized statement showing no more than the last 4 digits or less of the employee's social security number, or an existing employee identification number other than a social security number, the violation of which is a misdemeanor, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 861 (SB 1633) Figueroa. Medical information privacy.

Existing law provides for the confidentiality of medical information regarding a patient. These provisions prohibit certain health care providers and business entities from disclosing medical information regarding a patient without the express authorization of the patient or legal representative, except as specified.

This bill would prohibit a business from seeking to obtain medical information directly from an individual for direct marketing purposes without providing specified disclosures

and obtaining the individual's consent. The bill would exempt businesses that are already subject to the Confidentiality of Medical Information Act, certain telephone corporations, and insurance institutions, agents, and support organizations, as specified, from the provisions of the bill.

Ch. 862 (SB 1838) Chesbro. Alcohol and drug prevention and treatment programs.

(1) Existing law provides for drug and alcohol prevention and treatment programs, administered by the State Department of Alcohol and Drug Programs. These provisions are organized into separate categories for programs related to the inappropriate use of alcoholic beverages and those related to the use and abuse of drugs. These provisions authorize the department to provide funds, to counties that elect to participate, for the planning and implementation of local programs to alleviate problems related to inappropriate alcohol and drug use, and require the department to review and approve or disapprove county alcohol program plans and county drug program plans submitted for state and federal funds allocated by the department.

This bill would reorganize and recast these provisions to combine the 2 program categories related to alcoholic beverages and drugs. The bill would revise definitions and terminology applicable to these provisions to reflect this change. The bill would make conforming changes to resolve conflicting provisions among the program categories combined under the bill related to, among other things, departmental audits of expenditures of funds allocated to counties.

(2) Existing law requires the department to develop and administer waiver application criteria for capital construction of alcohol recovery facilities and drug treatment facilities.

This bill would eliminate this requirement.

(3) Existing law requires the California Health and Human Services Agency to create an interagency task force to develop a coordinated state strategy for addressing the treatment needs of pregnant women, postpartum women, and their children for alcohol or drug abuse.

This bill would repeal this provision.

(4) Under existing law, any board of supervisors that elects to apply for funding under these provisions is required to submit to the department an annual county alcohol program plan, county drug program plan, or both, for the current state fiscal year, within 90 days after notification of the final allocation of each year.

This bill would require a county that elects to participate to submit the plans within 60 days after the notification.

(5) Existing law requires a county that elects to apply for funds under these provisions to establish a perinatal coordinating council.

This bill, instead, would authorize the county to establish a perinatal coordinating council.

(6) Existing law requires the department to negotiate net amount contracts with each county that requests to participate, in lieu of county plans, budgets, and reports, required for funding under these provisions.

This bill would revise the procedures applicable to a negotiated net amount contract.

(7) Existing law requires the department to implement a program certification procedure for direct services funded under these provisions as they relate to alcohol use.

This bill would, instead, require the department to implement a program certification procedure for alcohol and other drug treatment and recovery services funded under these provisions.

(8) Existing law requires all drug abuse programs, including narcotic treatment programs, within a county to register with the county.

This bill would require all narcotic and drug abuse programs and alcohol and other drug abuse programs within a county to register with the county.

(9) The bill would repeal various obsolete provisions and make conforming changes. The bill would make numerous technical, nonsubstantive changes to these provisions.

(10) This bill would provide that Section 11839.20 as added to the Health and Safety Code by this bill and additional changes in Section 11880 of the Health and Safety Code proposed by AB 2136 would become operative if both this bill and AB 2136 are chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 863 (SB 50) Sher. Solid waste: hazardous electronic waste: solid waste disposal fees.

(1) (A) The Electronic Waste Recycling Act of 2003 makes it unlawful to sell, on or after July 1, 2004, a covered electronic device, as defined, in this state to a consumer, as defined, unless the California Integrated Waste Management Board (board) or the Department of Toxic Substances Control (department) determines that the manufacturer of that device is in compliance with the act.

(B) The act requires a retailer selling a covered electronic device in this state to collect a covered electronic waste recycling fee from the consumer, as specified. The act requires a manufacturer, on or before April 1, 2004, to inform the retailer if a covered electronic device is subject to the waste recycling fee.

This bill would require the department to adopt regulations to identify electronic devices, as defined, that the department determines are presumed to be, when discarded, a hazardous waste pursuant to the hazardous waste control laws.

The bill would require a manufacturer to inform a retailer and the State Board of Equalization, in accordance with a specified schedule, whether a device is a covered electronic device that is identified in the regulations adopted by the department and would require a covered electronic device identified in the regulations, to be subject to the act in a specified manner. The bill would specify a procedure for a manufacturer to obtain a written nonhazardous determination from the department that an electronic device would not be a hazardous waste when discarded. The bill would require a manufacturer to notify certain retailers with regard to that determination. The bill would authorize the department to adopt emergency regulations to implement these requirements.

The bill would, instead of (A) above, prohibit a person from selling a new or refurbished covered electronic device in this state, on and after January 1, 2005, if the board or department determines that the manufacturer of the covered electronic device is not in compliance with the act.

(2) Existing law, the act, requires a retailer selling a covered electronic device in this state to collect an electronic waste recycling fee from the consumer on and after November 1, 2004, and to transmit the fee to the board in accordance with a schedule and procedures that the board is required to establish. The act requires the board, in collaboration with the department, on and after July 1, 2005, and at least once every 2 years thereafter, to review and adjust the electronic waste recycling fee, based on specified factors.

This bill, under certain circumstances, would make inapplicable certain penalties relating to the sale of a covered electronic device for which a fee has not been paid to which retailers are otherwise subject under existing law.

The bill would revise the definitions of the terms “consumer,” “covered electronic device,” “covered electronic waste,” “person,” “retailer,” and “retail sale,” and would define the terms “discarded,” “recycling,” “refurbished,” and “video display device” for purposes of the act.

The bill would require a retailer to collect the fee on and after January 1, 2005, instead of November 1, 2004, except as specified.

The bill would revise the procedures for reviewing and adjusting the covered electronic waste recycling fee.

The bill would repeal the authorization for the board to collect the fee and would require the State Board of Equalization to collect the electronic waste recycling fees. The bill would require those fees to be deposited in the Electronic Waste Recovery and Recycling Account.

The bill would require the covered electronic waste recycling fee to be due and payable quarterly on or before the last day of the month following each calendar quarter.

(3) The act requires each manufacturer of an electronic device who sells a covered electronic device in this state to submit an annual report to the board on the number of electronic devices sold by the manufacturer.

This bill would authorize a manufacturer to report only on those covered electronic devices that include applications of specified compounds that are exempt from Directive 2002/95/EC, as specified.

(4) Under existing law, the Electronic Waste Recovery and Recycling Account is created in the Integrated Waste Management Fund and the board and the department are authorized to expend the moneys deposited in the account, upon appropriation by the Legislature, for specified purposes.

This bill would continuously appropriate the money in the account to pay refunds and make electronic waste recovery payments and recycling payments. The bill would additionally continuously appropriate the money to make specified payments to manufacturers. The bill would authorize the money in the account to be expended, upon appropriation by the Legislature, for the other specified purposes.

The bill would establish the Electronic Waste Penalty Subaccount in the account, would require all fines or penalties collected pursuant to the act to be deposited in the subaccount, and would authorize the expenditure of the funds in the subaccount only upon appropriation by the Legislature.

(5) Existing law requires the board, in collaboration with the department, to establish an electronic waste recovery payment schedule to cover the net cost of an authorized collector in operating a free and convenient system for collecting, consolidating, and transporting covered electronic wastes. Existing law also requires the board to establish an electronic waste recycling payment schedule to cover an e-waste recycler's net cost of receiving, processing, and recycling covered electronic waste. Existing law requires the board to make those payments, as specified.

The bill would, instead, require the board to make those payments for covered electronic waste collected for recycling on and after January 1, 2005.

The bill would require the amount of the electronic waste recycling payment to be equal to \$0.28 per pound of the total weight of covered electronic waste received from an authorized collector and subsequently processed for recycling, until the board adopts an electronic waste recycling payment schedule for covered electronic waste.

This bill would require the board to adopt regulations specifying cancellation methods for the recovery, processing, or recycling of covered electronic waste and would revise the conditions under which the board may make those payments, including requiring the manufacturer or authorized collector or recycler to provide a cost-free and convenient opportunity to recycle electronic waste. The bill would also require the covered electronic waste, if processed, to be processed in this state according to the cancellation procedure adopted by the board and, would require, as a condition of making those payments, that the board declare that the state is a market participant in the business of the recycling of covered electronic waste, as specified. The bill would authorize the board to make a payment to a manufacturer who takes back covered electronic waste from a consumer in this state, as specified.

(6) Existing law requires a person who intends to export electronic waste to a foreign destination to comply with specified notification requirements and to demonstrate, among other things, that the handling of the exported electronic waste within the country of destination would meet certain standards adopted by the Organization for Economic Cooperation and Development.

This bill would instead require a person who exports covered electronic waste, or a covered electronic device intended for recycling or disposal, to a foreign country, or to another state for ultimate export to a foreign country, to comply with specified notification requirements

and make specified demonstrations, including a demonstration with regard to management of the waste in accordance with the decisions and implementing guidelines of the Organization for Economic Cooperation and Development, notwithstanding that the country of destination is not a member of the Organization for Economic Cooperation and Development.

(7) Existing law prohibits the board and the department from implementing the act if specified circumstances occur.

This bill would provide that the provisions of the act shall become inoperative on the date that one of those circumstances occurs, except for specified purposes.

(8) The bill would also make technical changes to the act.

(9) Because the act is incorporated into the hazardous waste control laws, a violation of which is a crime, the bill would impose a state-mandated local program by creating new crimes.

(10) The California Integrated Waste Management Act of 1989 requires each operator of a disposal facility in the state to pay a quarterly fee to the State Board of Equalization, as specified, for all waste disposed of at each disposal site. The fees are deposited in the Integrated Waste Management Account, which may be expended by the board, upon appropriation by the Legislature, for specified purposes regarding the regulation of solid waste.

This bill would require the board and the State Board of Equalization to ensure that the fees that are collected at a transfer station are paid to the State Board of Equalization

(11) The bill would require the Director of Finance to transfer, as a loan, up to \$5,000,000 from the General Fund, and up to \$25,000,000 from any special fund authorized by law, to the board to implement the bill. The bill would require any loan to be repaid on or before November 1, 2005, and prior to the making of specified expenditures.

(12) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(13) The bill would declare that it is an urgency statute, to take effect immediately.

Ch. 864 (SB 1782) Aanestad. Medical crimes: investigation and prosecution.

Existing law provides that a physician and surgeon may prescribe or administer controlled substances to a person in the course of his or her treatment of that person for a diagnosed condition causing intractable pain. Existing law requires the Division of Medical Quality to develop standards for review of cases concerning management of a patient's pain using current authoritative clinical practice guidelines. Existing law provides special procedures to protect the privacy of patient information and other privileged materials in the context of a search of a physician's records, when the physician is not reasonably suspected of involvement in criminal activity relating to those records.

This bill would make findings and declarations regarding review of cases involving the prescription of pain medication. This bill would state the intent of the Legislature that the California District Attorneys Association, on or before January 1, 2006, to collaborate with interested parties to develop protocols for the development and implementation of interagency investigations in connection with a physician's prescription of medication to patients. In addition, this bill would specify that the investigation protocol shall be designed to facilitate the timely return of medical records to a physician, as specified.

Ch. 865 (SB 1914) Committee on Business and Professions. Contractors: landscape architects: court reporters: geologists.

(1) Existing law provides for the regulation and licensure of landscape architects by the California Architects Board. Existing law requires a licensed landscape architect to notify the executive officer of the board of any change of address of his or her place of business. Failure

to notify the executive officer of the board results in a penalty that is paid to the board and deposited into the California Architects Board-Landscape Fund, which is a continuously appropriated fund.

This bill would instead require a licensed landscape architect to file his or her current mailing address with the board and to notify the board of any and all changes in mailing address, providing both his or her old and new address within 30 days after a change.

(2) Existing law, the Contractors' State License Law, creates the Contractors' State License Board within the Department of Consumer Affairs and provides for the licensure and regulation of contractors.

Existing law requires the board to conduct certain studies and reviews. Existing law requires an unlicensed person engaging in a project under \$500 to give notice to the consumer regarding his or her nonlicensee status. Existing law prohibits an applicant for licensure convicted of certain acts from applying for licensure for a one-year period following the conviction. Existing law allows a 30-day grace period for a delinquency fee, with regards to delinquent application for a license. Existing law requires a copy of a complaint in a civil action against a contractor's bond to be served on the register of the clerk of court, who must maintain a record. Existing law prohibits the board from making public disclosure of complaints against a licensee, except as specified.

This bill would delete these provisions and requirements.

Existing law requires a qualifying individual to file a bond in the amount of \$7,500.

This bill would, on and after January 1, 2007, require the bond amount to be \$12,500. The bill would also establish the aggregate surety on claims brought against the bond at an amount of \$7,500.

Existing law provides for a contractor's licensure examination, and exempts certain persons from the examination. Existing law requires contractors changing certain information, including business name or address, to notify the registrar within 90 days of the change. Existing law makes employment of certain person who have been denied a license or had action taken against their license, or the license of an entity that they were associated with, grounds for disciplinary action.

This bill would revise the conditions for exemption from licensure. The bill would require notice of a change in information to be given on a form prescribed by the registrar. The bill would exempt employment as a bona fide employee from the disciplinary action provisions related to employing persons who have been denied or had action taken against their license or the license of an entity they were associated with.

(3) Existing law provides for the certification and regulation of shorthand reporters by the Court Reporters Board of California in the Department of Consumer Affairs. Existing law requires the payment of an initial certification fee prior to certification. Existing law also requires a certificate holder applying for renewal to meet requirements that include notifying the board if he or she has been convicted of a misdemeanor substantially related to the functions and duties of a court reporter.

This bill would authorize the board to issue an interim permit of specified duration to a candidate eligible for certification, prior to receipt of the initial certification fee. The bill would also require a certificate holder applying for renewal to notify the board if he or she has been convicted of any misdemeanor.

(4) Existing law, the Geologist and Geophysicist Act, creates the Board for Geologists and Geophysicists and makes it responsible for the registration and regulation of persons practicing as a geologist or geophysicist. A geologist registered under the act is referred to as a "registered geologist."

This bill would change the title designation "registered geologist" to "professional geologist" and would also authorize the board to register a person meeting specified requirements as a geologist-in-training.

Ch. 866 (AB 32) Salinas. Housing: farmworker housing.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

The Joe Serna, Jr. Farmworker Housing Grant Program requires the Department of Housing and Community Development to make grants or loans, or both, to local public entities, nonprofit corporations, and limited partnerships for the construction or rehabilitation of housing for agricultural employees and their families. The department has specified duties relating to the operation of this program.

This bill would, until January 1, 2008, authorize a local public agency, nonprofit corporation, or limited partnership that constructs or rehabilitates farmworker housing for agricultural employees with public funds to enter into a lease agreement with an agricultural employer, as defined, for farmworker housing for a term of more than one year if the agricultural employer agrees to lease the farmworker housing to agricultural employees on the same terms and conditions, including amount of rent, that would otherwise be included in a rental agreement between the local public agency, nonprofit corporation, or limited partnership and the agricultural employees for that housing.

Ch. 867 (AB 135) Reyes. Renewable energy resources.

Existing law requires the State Energy Resources Conservation and Development Commission (commission) to transfer funds collected for in-state operation and development of existing and new and emerging renewable resources technologies into the Renewable Resources Trust Fund. Existing law requires that 17.5% of the funds collected be used for a multiyear, consumer-based program to foster the development of emerging renewable technologies in distributed generation applications. The Emerging Renewable Resources Account is a continuously appropriated account established within the Renewable Resources Trust Fund to accomplish these purposes.

This bill would authorize the commission to expend, until December 31, 2008, up to sixty million dollars (\$60,000,000) of the funding allocated to the Renewable Resources Trust Fund for this purpose, subject to specified repayment requirements.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 868 (AB 263) Oropeza. Corporation taxes: deduction: insurance company dividends.

The Corporation Tax Law allows various deductions in computing the income that is subject to the taxes imposed by that law.

This bill would allow a dividends received deduction with respect to qualified dividends, as defined, received by a corporation during the taxable year from a corporation that is an insurer, whether or not the insurer is engaged in business in California, if at the time of each payment at least 80% of each class of stock of the insurer was owned by the corporation receiving the dividend.

The amount of the deduction would be equal to 80% or 85%, as applicable to specified taxable years, of the amount of the qualified dividends received. This bill would apply special rules to dividends received from an insurance company that insures risks of a member of the insurance company's commonly controlled groups, as defined.

This bill would provide that no deduction is allowed for specified expenses paid or incurred to an insurer, if the insurer is a member of the taxpayer's commonly controlled group and the amount paid or incurred would constitute income to the insurer if the insurer were subject to the California income or franchise tax.

This bill would, in connection with specified exchanges, provide that if a taxpayer transfers property to an insurer, the insurer shall not, for purposes of gain recognition, be considered to be a corporation for purposes of the Corporation Tax Law.

This bill would authorize the Franchise Tax Board to include in the gross income of the taxpayer (or a member of the taxpayer's combined reporting group) in that taxable year the taxpayer's pro rata share (or the pro rata share of a member of the taxpayer's combined reporting group) of any of those insurers' current earnings and profits in that taxable year, but not to exceed an amount equal to the specific insurer's net income attributable to

investment income for that year minus that insurer's net written premiums received in that same taxable year, if specified criteria applies.

This bill would make legislative findings and declarations, including the public purposes that would be served by the bill.

This bill would require the Legislative Analyst to conduct a study of its impact with respect to overcapitalization of insurance companies and to report to the Legislature, as provided.

This bill would take effect immediately as a tax levy.

**Ch. 869 (AB 269) Mullin. Redevelopment: San Mateo County.**

The Community Redevelopment Law requires redevelopment agencies to use not less than 20% of taxes allocated to the agency for low- and moderate-income housing, as specified. These funds may be used outside of the project area upon a finding by the agency and the legislative body of the community that it will benefit the project area.

This bill would authorize a redevelopment agency of a community within San Mateo County that has a certified housing element and has met 40% of very low and low-income housing needs to create and participate in a joint powers authority in order to pool low- and moderate-income housing funds. The bill would authorize the joint powers authority to loan, grant, or advance transferred funds to a receiving entity for any eligible housing development on specified property within 1/2 of a mile of the San Mateo County Transit District, San Mateo County Transportation Authority, or the Peninsula Corridor Joint Powers Authority right-of-way.

The bill would also require that specified conditions be met and described in a mutually binding contract between the joint powers authority and each participating agency and a receiving entity for the use and transfer of pooled housing funds, and that the conditions include, among other things, a determination by the department that the community of each participating agency has adopted housing elements that are in substantial compliance with existing law and that the proposed use of pooled funds by the receiving entity for these purposes is in compliance with these provisions.

The bill would, on or after January 1, 2009, prohibit a participating agency from creating a new joint powers authority or transferring funds to an existing joint powers authority unless a later enacted statute deletes or extends that date.

This bill would repeal these provisions on January 1, 2010.

**Ch. 870 (AB 675) Kehoe. Indian Gaming Special Distribution Fund.**

Existing law, operative until January 1, 2009, establishes the method of calculating the distribution of appropriations from the Indian Gaming Special Distribution Fund for grants to local government agencies impacted by tribal gaming. Existing law creates an Indian Gaming Local Community Benefit Committee in each county in which tribal gaming is conducted for the purpose of selecting those grants. The committee is composed of 7 local representatives, 3 of whom are elected representatives from cities located within 4 miles of a tribal casino, selected by the county board of supervisors, as specified.

This bill would revise the composition of the Indian Gaming Local Community Benefit Committee in San Diego County, as specified. By placing additional duties on a local government, this bill would impose a state-mandated local program.

This bill would make legislative findings and declarations as to the necessity of a special statute.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 871 (AB 825) Firebaugh. Education finance: categorical education program reform.**

Existing law establishes various categorical education programs under which funding is provided for specific educational purposes. Among these categorical education programs are school safety programs, teacher and staff preparation, induction, and professional development programs, and supplemental instruction programs.

This bill would establish block grants to be composed of funding for specified existing categorical education programs, make those programs inoperative on July 1, 2005, repeal them on January 1, 2006, with certain exceptions, and extend for one year the inoperative and repeal dates of the Early Intervention for School Success Program. The bill would establish a pupil retention block grant, school safety consolidated competitive grant, teacher credentialing block grant, professional development block grant, a new targeted instructional improvement block grant, and school library improvement block grant.

#### Ch. 872 (AB 864) Firebaugh. Gambling.

Existing law permits a city, county, or city and county to permit controlled gambling, consistent with state law, if a majority of electors affirmatively approve an ordinance so permitting, as specified. Existing law requires an amendment of an ordinance that would expand gambling to be submitted to, and approved by a majority of, the voters of the city, county, or city and county. However, existing law also provides that an amendment that would result in an expansion of gambling may occur once, without voter approval, if the expansion is within a specified threshold. Expansion of gambling is defined for the purpose of these provisions to be an increase of 25% or more with respect to various measures including in the number of gambling tables that may be operated in a gambling establishment. Existing law provides that these provisions do not apply to a licensed gambling establishment with 5 or fewer tables.

This bill would provide that these provisions shall apply to licensed gambling establishments with 5 or fewer tables. The bill would require that any amendment to a city or county ordinance relating to gambling establishments or the Gambling Control Act shall be submitted to the Division of Gambling Control for review and comment before the ordinance is adopted by the city or county. The bill would provide that an amendment of an ordinance permitting an expansion of gambling, within the specified threshold, may occur without voter approval more than once. This bill would change the definition of expansion of gambling to include an increase of 25% or more in the number of gambling tables that may be operated in a gambling establishment or an increase of 2 tables, whichever is greater. The bill would also provide that increasing the number of games offered in a gambling establishment does not constitute an expansion of gambling, as specified. The bill would also prohibit a city, county, or city and county from amending its ordinance in a cumulative manner to increase gambling by more than 25%, as specified.

#### Ch. 873 (AB 1009) Pavley. Air pollution: heavy-duty vehicles: emissions.

(1) Existing law requires the State Air Resources Board to adopt regulations requiring owners or operators of heavy-duty diesel motor vehicles to perform regular inspections of their vehicles for excessive emissions of smoke, and to adopt regulations requiring those heavy-duty diesel motor vehicles to utilize emission control equipment and alternative fuels. Existing federal law requires heavy-duty engines to meet emissions standards specified for the model-year of the vehicle.

This bill would, to the extent permissible under federal law, commencing January 1, 2006, require the owner or operator of any commercial motor truck, as defined, that enters into the state for purposes of operating in the state to maintain, and provide upon demand to enforcement authorities, evidence demonstrating that its engine met the federal emission standards applicable to commercial heavy-duty engines for that engine's model-year at the time it was manufactured.

The bill would require, not later than January 1, 2006, the state board, in consultation with the California Highway Patrol, to develop, adopt, and implement regulations establishing an

inspection protocol for determining whether the engines in motor trucks subject to the requirements of the bill met those applicable federal emission standards.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 874 (AB 1079) Bermudez. Automotive repair.

Existing law, the Automotive Repair Act, establishes the Bureau of Automotive Repair under the supervision and control of the Director of Consumer Affairs. The act provides for the registration and regulation of automotive repair dealers and makes a violation of its provisions a crime. The act requires an automotive repair dealer to provide a customer with a written repair estimate and prohibits the dealer from charging for repairs exceeding the estimate amount without the customer's consent.

This bill would define the term "customer" and would authorize a customer to designate in writing another person to authorize repairs in excess of the estimate amount. The bill would authorize the bureau to adopt regulations pertaining to the designation process.

Because a violation of the bill would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 875 (AB 1629) Frommer. Health and dependent care facilities.

Existing law provides for the licensure and regulation of health facilities by the State Department of Health Services. Existing law provides for the imposition each state fiscal year upon the entire gross receipts of certain intermediate care facilities a quality assurance fee, as a condition of participation in the Medi-Cal program.

This bill would provide for the imposition of a quality assurance fee on each skilled nursing facility, with some exemptions, to be administered by the Director of Health Services and deposited in the State Treasury. The bill would provide that funds assessed pursuant to these provisions shall be available to enhance federal financial participation in the Medi-Cal program or to provide additional reimbursement to, and support facility quality improvement efforts in, licensed skilled nursing facilities. The bill would provide that these provisions are to be implemented as long as 2 conditions are met, including federal approval. The bill would also specify 4 circumstances, concerning continued federal approval of the quality assurance fee, the enactment and continued effect of the Medi-Cal Long-Term Reimbursement Act under this bill, the failure of the state to sustain a continued maintenance of effort for state funding of nursing facility reimbursement, and any judicial or federal administrative determinations regarding the unavailability of federal financial participation, under which these provisions would become inoperative. In addition, these provisions would become inoperative on July 1, 2008, and would be repealed on January 1, 2009.

Existing law requires the department to perform various activities to promote the quality of care and life of residents, clients, and patients in these facilities.

This bill would require a skilled nursing facility to include in a resident's care assessment the resident's projected length of stay and the resident's discharge potential. The bill would specify additional requirements of a skilled nursing facility and attending physicians at the facility related to resident assessment, care planning, and assistance. The bill would also require the attending physician, if applicable, to indicate in the plan of care the needed care to assist the resident in achieving a resident's preference of return to the community.

Existing law provides for the Medi-Cal program, which is administered by the department and pursuant to which qualified low-income persons receive health care benefits. Existing law required that the Medi-Cal reimbursement rates in effect on August 1, 2003, remain in effect through July 31, 2005, for, among others, freestanding nursing facilities licensed as

skilled nursing facilities, intermediate care facilities, and intermediate care facilities for the developmentally disabled.

This bill would delete skilled nursing facilities from the application of this reimbursement rate limitation and would, instead, provide that the reimbursement rate limitation applies to skilled nursing facilities only until the first day of the month following federal approval to implement both the skilled nursing quality assurance fee and the rate methodology.

Existing law provides for the Medi-Cal Long-Term Reimbursement Act of 1990 under which the department is required to develop a reimbursement methodology for freestanding nursing facilities licensed as skilled nursing facilities and intermediate care facilities, and for intermediate care facilities for the developmentally disabled. These provisions, among other things, require the department to implement a facility specific ratesetting system by August 1, 2004, subject to federal approval and the availability of federal or other funds.

This bill would repeal these provisions. The bill would enact the Medi-Cal Long-Term Reimbursement Act, to be under the administration of the director. The act would require the department to implement a facility specific ratesetting system, subject to federal approval, that would be effective commencing on August 1, 2005, and implemented commencing on the first day of the month following federal approval. The bill would authorize the department to retroactively increase and make payment of rates to facilities under this provision. The act would require the department to develop and implement a cost-based reimbursement rate methodology for free standing nursing facilities. The act would require the department to seek approval of a Medicaid state plan amendment specifically outlining the reimbursement methodology developed pursuant to these provisions and would provide that this methodology shall be effective commencing on August 1, 2005, and implemented on the first day of the month following federal approval. The act would provide that it shall remain operative only as long as the skilled nursing facility quality assurance fee provisions provided by the bill continues as approved by the federal Centers for Medicare and Medicaid Services and federal financial participation for the methodology implemented under these provisions continues. The rate methodology established pursuant to these provisions would cease to be implemented on and after July 31, 2008.

The bill would make the following appropriations:

(a) \$106,781,000 from both the State Treasury and the Federal Trust Fund to the department for expenditure to fund an increase to the 2004–05 skilled nursing facility Medi-Cal reimbursement rate consistent with the existing rate methodology in the Medicaid state plan.

(b) \$2,000,000 for the 2004–05 fiscal year and \$1,000,000 for the 2005–06 fiscal year to the department from the General Fund for expenditure for purposes of expeditiously implementing the ratesetting system that would be required under this bill.

(c) \$350,000 for both the 2004–05 fiscal year and the 2005–06 fiscal year to the department from the General Fund for expenditure for purposes of funding the implementation of the bill.

(d) \$200,000 for the 2005–06 fiscal year to the Bureau of State Audits from the General Fund for purposes of implementing the bill.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 876 (AB 1857) Koretz. Animal cruelty: exotic or native wild cat species: declawing.

Existing law proscribes cruelty to animals, as specified.

This bill would make it a misdemeanor, punishable as specified, for any person to perform, procure, or arrange for surgical claw removal, declawing, onychectomy, or tendonectomy on an exotic or native wild cat species, as defined, or from altering such a cat's toes, claws, or paws in order to prevent their normal functioning. The bill would exempt from the prohibition procedures performed solely for a therapeutic purpose, as defined. Because a

violation of this prohibition would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 877 (AB 1950) Wiggins. Privacy: personal information.

Existing law regulates the handling of customer records and requires that a business take all reasonable steps to destroy a customer's records in its custody or control when they are no longer to be retained. Existing law requires a person or business that owns or licenses computerized data that include personal information, as defined, to disclose any breach of the security of its system, as specified.

This bill would require a business, other than specified entities, that owns or licenses personal information about a California resident to implement and maintain reasonable security procedures and practices to protect personal information from unauthorized access, destruction, use, modification, or disclosure. The bill would also require a business that discloses personal information to a nonaffiliated third party, to require by contract that those entities maintain reasonable security procedures, as specified. The bill would provide that a business that is subject to other laws providing greater protection to personal information in regard to subjects regulated by the bill shall be deemed in compliance with the bill's requirements, as specified.

Ch. 878 (AB 2141) Longville. Flood plain management: Alluvial Fan Task Force.

Existing law authorizes the state to participate in flood control planning and provides for state cooperation with the federal government in the construction of flood control projects.

This bill would require the Director of Water Resources, on or before June 30, 2005, to establish the Alluvial Fan Task Force, with prescribed membership determined by the director, to review the state of knowledge regarding alluvial fan flood plains and to prepare recommendations relating to alluvial fan flood plain management. The bill would authorize the director to enter into an interagency agreement with an appropriate agency to oversee the task force. The bill would require the task force to develop a model ordinance on alluvial fan flooding. The bill would require the task force to prepare and submit a report to the Legislature not later than June 30, 2006. The bill would require these described duties to be carried out only to the extent funding is made available for those purposes from the federal government or private sources. The bill would prohibit the expenditure of state funds to carry out the bill's provisions. The bill would make related findings and declarations.

Ch. 879 (AB 2176) Montanez. Large venue and large event recycling programs.

(1) Existing law, the California Integrated Waste Management Act of 1989, establishes an integrated waste management program administered by the California Integrated Waste Management Board. The act requires each city, county, city and county, and regional agency, if any, to develop a source reduction and recycling element of an integrated waste management plan containing specified components. On and after January 1, 2000, the element is required to divert 50% of the solid waste subject to the element, except as specified, through source reduction, recycling, and composting activities.

This bill would require the board, by April 1, 2005, to make available one or more model local agency ordinances to facilitate solid waste reduction, reuse, and recycling programs at large venues and large events, consult with specified entities while developing the model ordinances, and post specified information on the board's Internet Web site.

The bill would require each local agency, which the bill would define as a city or a county, to provide specified information, on and after July 1, 2005, to operators of large venues and

large events when issuing a permit and, by August 1, 2006, and annually thereafter, until August 1, 2008, to provide the board with an estimate and description of the top 10% of large venues and large events within its jurisdiction, based upon amount of solid waste generated, as submitted by operators at large venues and large events.

The bill would require the board, by December 1, 2008, to evaluate the solid waste reduction, reuse, and recycling rates and implementation of waste reduction, reuse, and recycling plans in the top 10% of large venues and large events, as reported by each local agency. The bill would require the board, after reviewing specified information, if it determines that less than 75% of the solid waste reduction, reuse, and recycling plans for the large venues and large events, have been prepared or implemented to meet their waste reduction, reuse, and recycling rates, to recommend to the Legislature those statutory changes needed to require operators of large venues and large events to implement solid waste reduction, reuse, and recycling plans.

The bill would require each operator of a large venue and large event, by July 1, 2005, and on or before July 1 annually thereafter, to submit specified documentation to the local agency, within one month of a request by the local agency.

The bill would require the operator of a large venue or a large event to meet by July 1, 2005, and by July 1 biennially thereafter, with recyclers and the solid waste enterprise that provides solid waste handling services to the large venue or large event to determine the solid waste reduction and recycling programs that are appropriate for the large venue or event, as specified.

The bill would require the board to provide technical assistance and tools with regard to implementing the bill's requirements, to the extent feasible under existing financial resources.

This bill would authorize a local agency to charge and collect a fee from the operator of a large venue or large event in order to recover the local agency's estimated costs incurred in complying with the provisions of the bill.

The bill would impose a state-mandated local program by requiring local agencies to provide specified information and include specified requirements in the local permitting process.

(2) Existing law requires the board to adopt a model ordinance for adoption by local agencies relating to adequate areas for collecting and loading recyclable materials in development projects. Local agencies are required to adopt an ordinance, not later than a specified date, relating to adequate areas for collecting and loading recyclable materials in development projects. If a local agency has not adopted that ordinance by the specified date, the model ordinance adopted by the board is required to take effect on that date and be enforced by the local agency and have the same force and effect as if adopted by the local agency as an ordinance.

This bill would prohibit a local agency, on and after July 1, 2005, from issuing any building permit to a development project, unless the development project provides adequate areas for collecting and loading recyclable materials.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 880 (AB 2277) Dymally. Hazardous waste.

(1) Under existing law, the California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, materials that require special handling, as defined, are required to be removed from major appliances and vehicles in which they are contained prior to crushing for transport or transferring to a baler or shredder for recycling. Existing law requires any hazardous material that becomes a hazardous waste when released or removed from a major appliance and any

mercury-containing motor vehicle light switch that becomes a hazardous waste when removed from any vehicle to be managed pursuant to specified hazardous waste control requirements.

Under existing law, a violation of hazardous waste management requirements is a crime.

This bill would change the definition of "materials that require special handling." The bill would additionally prohibit the disposal of those materials from a major appliance at a solid waste facility, pursuant to the hazardous waste control laws, and would require those materials to be removed from major appliances in which they are contained before the appliance is crushed, baled, shredded, sawed or sheared apart, disposed of, or otherwise processed in a manner that could result in the release or prevent the removal of materials that require special handling.

The bill would require a person who transports, delivers, or sells discarded major appliances to a scrap recycling facility, on and after January 1, 2006, to provide evidence that the person is a certified appliance recycler, except as specified, and would prohibit a scrap recycling facility from accepting a discarded major appliance, on and after January 1, 2006, from any person who is not a certified appliance recycler. The bill would require, on and after July 1, 2005, a person wishing to operate as a certified appliance recycler to submit an application for certification to the Department of Toxic Substances Control, as specified, and would require the department to issue a certificate, upon making a specified determination. The bill would require the certified uniform program agency in whose jurisdiction the facility is located to inspect the certified appliance recycling facility, as specified. By imposing new duties on a certified uniform program agency, the bill would impose a state-mandated local program.

The bill would prohibit, on and after January 1, 2006, a person, other than a certified appliance recycler, as defined, from taking specified actions, with respect to the removal from major appliances of materials that require special handling and the transport, delivery, or sale of discarded major appliances.

The bill would require a certified appliance recycler and other specified persons to retain specified records.

The bill would define terms for these purposes.

By imposing new hazardous waste management requirements, the violation of which would be a crime, the bill would impose a state-mandated local program.

(2) Existing law requires the Secretary for Environmental Protection to adopt regulations and implement a unified hazardous waste and hazardous materials management regulatory program. Existing law authorizes a city or local agency that meets specified requirements to apply to the secretary to implement the unified program, and requires every county to apply to the secretary to be certified to implement the unified program.

This bill would additionally include, in the unified program, a person who is subject to specified requirements regarding the removal of materials that require special handling from a major appliance, thereby creating a state-mandated local program by imposing new duties upon local agencies.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 881 (AB 2430) Wiggins. Commercial air carriers: hot air balloons.

(1) Existing law requires the Public Utilities Commission to require every commercial air operator, as defined, to procure, and continue in effect, adequate protection against liability for personal bodily injuries and property damage as a result of an accident, that may be imposed by law upon the operator and upon any person using, operating, or renting an aircraft, as defined, with the permission of the operator.

This bill would, until January 1, 2009, exclude from the definition of commercial air operator a person furnishing or providing transportation by hot air balloon for entertainment or recreational purposes. The bill would, until January 1, 2009, exclude from the definition of aircraft a hot air balloon furnished or providing transportation for entertainment or recreational purposes.

The bill, notwithstanding those provisions, would, until January 1, 2009, require that any person providing transportation by hot air balloon for hire, for entertainment or recreational purposes, maintain in force at least \$1,000,000 of liability insurance for personal injury, wrongful death, and property damage resulting from the operation of a balloon, with additional liability coverage of \$100,000 for each passenger for any balloon carrying more than 10 passengers. The bill would, until January 1, 2009, require that a notice be provided to every passenger that identifies both the insurer providing a policy of liability insurance to the person providing that transportation and the amount of insurance coverage provided by that policy.

The bill would, until January 1, 2009, require that any person providing transportation by hot air balloon for hire, for entertainment or recreational purposes, comply with any requirement of a city, county, or city and county (local government) that the person obtain a business license as a condition for operating in the jurisdiction of the local government and to prominently display the license at the person's primary place of business frequented by customers and potential customers. Whenever a local government requires a business license, any person providing transportation by hot air balloon for hire, for entertainment or recreational purposes, would, until January 1, 2009, be required to provide to the local government a currently effective certificate of insurance evidencing insurance coverage, at least annually or whenever there is a material change in insurance coverage. This bill would impose a state-mandated local program by requiring local governments, until January 1, 2009, to give reasonable notice of this requirement with any business license renewal notification and to maintain as a public record every business license issued by the local government to any person providing transportation by hot air balloon for hire, for entertainment or recreational purposes, and every currently effective certificate of insurance evidencing the insurance coverage required by the bill. A local government would, until January 1, 2009, be authorized to charge a reasonable fee for purposes of carrying out these provisions.

The bill would also impose a state-mandated local program by making it a misdemeanor to fail to obtain and maintain a current valid local business license as required by the bill or to fail to maintain insurance in force as required by the bill.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 882 (AB 2445) Canciamilla. Advance health care directives: registry.

Existing law provides that an adult with capacity may give individual health care instructions and defines advance health care directives in this regard. Existing law requires a supervising health care provider who knows of the existence of an advance health care directive to record it in a patient's health care record, and requires a health care provider to comply with the instructions of an advance health care directive, with specified exceptions. Existing law directs the Secretary of State to establish an Advance Health Care Directive Registry to receive and release specified information from a person who has executed a written advance health care directive. Existing law permits the Secretary of State to charge a fee to cover the actual costs of establishing and maintaining the registry.

This bill would require the Secretary of State to issue an Advance Health Care Directive Registry identification card to a registrant who has deposited advance health care directive

information with the registry, and would require the Secretary of State to charge a fee to cover the actual costs of establishing and maintaining the registry. The bill would require the Secretary of State to respond to specified requests for advanced health care directive information by the close of business on the next business day. The bill would revise the Public Records Act to exempt from the act all information provided to the Secretary of State for the purposes of registration in the Advance Health Care Directive Registry, except as specified, and would further require certain hospitals to check the registry for an advance health care directive, as specified.

This bill would incorporate additional changes in Section 6254 of the Government Code, proposed by AB 1933, to become operative only if AB 1933 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 883 (AB 2503) Liu. Rental vehicles: passenger vans.

Existing law generally regulates the business of renting passenger vehicles to the public.

This bill would require a rental company to provide specified documentation to the renter of a 15-passenger van, as defined, related to its associated dangers or if being rented for a business purpose or use, as specified, and would require the acknowledgment thereof.

Ch. 884 (AB 2572) Kehoe. Water meters.

Existing law generally requires the installation of a water meter as a condition of water service provided pursuant to a connection installed on or after January 1, 1992. Existing law declares that the state goal for measurement of water use is the achievement, on or before January 1, 1992, of the installation of water meters on all new water service connections after that date to systems owned or operated by a water purveyor.

This bill, with certain exceptions, would require an urban water supplier, as defined, on or before January 1, 2025, to install water meters on all municipal and industrial water service connections that are located in its service area.

The bill would require an urban water supplier, beginning on or before January 1, 2010, but subject to certain exceptions, to charge each customer that has a service connection for which a water meter has been installed, based on the actual volume of deliveries, as measured by a water meter.

The bill would require a water purveyor that becomes an urban water supplier on or after January 1, 2005, to install water meters on all municipal and industrial water service connections within 10 years of becoming an urban water supplier, and, with a certain exception, to charge each customer for which a meter has been installed, based on the actual volume of water delivered, as measured by the water meter, within 5 years of becoming an urban water supplier.

The bill would provide that these provisions supersede and preempt all enactments, including charter provisions and amendments thereto, and other local action of cities and counties, including charter cities and charter counties, and other local public agencies that conflict with these provisions, other than enactments or local action that impose additional or more stringent requirements regarding matters set forth in the bill.

The bill, on and after January 1, 2010, would require an urban water supplier that applies for financial assistance from the state for a wastewater treatment project, drinking water treatment project, or water use efficiency project, or a permit for a new or expanded water supply, to demonstrate that the applicant meets certain requirements.

The bill would authorize a water purveyor, including an urban water supplier, to recover the cost of providing services related to the purchase, installation, and operation of a water meter from rates, fees, or charges.

Ch. 885 (AB 2585) Parra. San Joaquin Valley Air Pollution Control District: Joint Strike Fighter Impact Zone.

Existing law requires air quality management districts and air pollution control districts, subject to the powers and duties of the State Air Resources Board, to adopt and enforce rules and regulations to achieve and maintain the state and federal ambient air quality standards in all areas affected by emission sources under their jurisdiction. Existing law establishes the San Joaquin Valley Unified Air Pollution Control District, formed by the Counties of Fresno, Kern, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare, and consisting of the Counties of Fresno, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare, and that portion of the County of Kern that is within the San Joaquin Valley Air Basin, as a single integrated agency. Existing law establishes the Air Pollution Control Fund in the State Treasury.

This bill would state the Legislature's intent to encourage the United States Navy to select Lemoore Naval Air Station as the Navy's West Coast Operations Center to house the F-35 Joint Strike Fighter. This bill would authorize the San Joaquin Valley Unified Air Pollution Control District to develop and adopt by regulation, not later than January 1, 2008, a program to fund projects that the district determines will provide measurable reductions in emissions of air contaminants from stationary or mobile sources in the district, to offset or mitigate any increase in air pollution that may result if the United States Navy selects the Lemoore Naval Air Station to house the F-35 Joint Strike Fighter.

The bill would require the California Research Bureau, in consultation with the State Board of Equalization and Franchise Tax Board, to calculate specified state tax revenues derived from, or attributable to, the Joint Strike Fighter Impact Zone for the 2003–04 fiscal year and for each fiscal year thereafter, commencing with the 2006–07 fiscal year.

The bill would define the "Joint Strike Fighter Impact Zone" to mean Kings County.

Ch. 886 (AB 2611) Simitian. Elder and dependent adult abuse.

(1) Existing law proscribes crimes against elder and dependent adults involving physical and financial abuse.

Existing law establishes criminal penalties for the willful abuse of an elder or dependent adult, when the person who permits or inflicts the abuse has knowledge that the victim is an elder or dependent adult.

Under existing law, with respect to theft, embezzlement, forgery, fraud, or identity theft perpetrated against an elder or dependent adult by certain persons, the applicable fine or imprisonment is determined based on whether the money, labor, goods, services, or real or personal property taken or obtained exceeds a value of \$400.

This bill would make technical changes to these provisions. This bill would also raise the \$400 threshold amount to \$800, only if AB 2705 is enacted and becomes effective on or before January 1, 2005. This bill would provide that in any case in which a person is convicted of violating these provisions the court may order, as a condition of probation, that the defendant be placed in an appropriate counseling program. This bill would require the defendant to pay the expense of his or her participation in the counseling program, as specified.

By changing the definition of an existing crime and increasing probation supervision duties, this bill would impose a state-mandated local program.

(2) Existing law includes provisions relating to the award of attorney's fees and costs, and damages to a plaintiff, when it is proven by clear and convincing evidence that a defendant is liable for physical abuse, neglect, or financial abuse, and the defendant has also been guilty of recklessness, oppression, fraud, or malice in the commission of the abuse.

This bill would revise these provisions to change the standard of proof for the commission of financial abuse to a preponderance of the evidence, but to permit additional recovery where there is clear and convincing evidence of recklessness, oppression, fraud, or malice.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 887 (AB 2682) Negrete McLeod. Pharmacy: out-of-state wholesalers.

The Pharmacy Act provides for licensing and regulation of manufacturers and wholesalers of prescription drugs and devices by the California State Board of Pharmacy and makes a violation of its provisions a crime. Existing law requires out-of-state manufacturers and wholesalers of prescription drugs and devices selling or distributing those drugs and devices in this state to obtain an out-of-state dangerous drugs and devices distributor's license from the board, unless they sell or distribute only through a licensed wholesaler.

This bill would delete these requirements applicable to out-of-state manufacturers and wholesalers of prescription drugs and devices on January 1, 2006. The bill would instead, on and after January 1, 2006, require a nonresident wholesaler, as defined, that ships, mails, or delivers dangerous drugs or dangerous devices in this state to obtain a nonresident wholesaler's license from the board. The bill would, on and after January 1, 2006, require, until January 1, 2011, a nonresident wholesaler to submit a surety bond of \$100,000, or an equivalent means of security for each place of business owned or operated by the nonresident wholesaler from or through which dangerous drugs or dangerous devices are shipped, mailed, or delivered to a site located in California. Because this bill would require additional persons to pay fees to the board to obtain a license, it would result in the deposit of additional revenue in the Pharmacy Board Contingent Fund, a continuously appropriated fund, and would thereby make an appropriation.

Because a violation of the Pharmacy Act is a crime, the bill would impose a state-mandated local program by revising the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would become operative only if SB 1307 is also enacted and becomes effective on or before January 1, 2005.

Ch. 888 (AB 2687) Canciamilla. Public administrators.

(1) Existing law establishes the public administrator as an officer of a county. Existing law regulates the administration of estates of decedents and permits the public administrator to be appointed to administer these estates under certain circumstances. Existing law grants public administrators a variety of powers in this regard, including the right to take control of a decedent's property, issue written certification of this fact, and summarily dispose of property, as specified. Existing law requires that, under certain circumstances, when real property is discovered prior to a tax sale, the public administrator of the county where the property is located be notified and that he or she commence probate proceedings.

This bill would revise and recast provisions relating to public administrators. Among other things, the bill would expand the authority of the public administrator to take control of property that, in the sole discretion of the public administrator, is subject to loss, injury, waste, or misappropriation. The bill would require specified entities, including private agencies, retirement fund administrators, insurance companies and others to provide the public administrator the property, as specified, and would require that these entities provide the property without requiring a death certificate or a charge. The bill would specify that the public administrators act with the authority of a personal representative in certain instances.

The bill would also increase the maximum value of a decedent's estate that a public administrator may dispose of without court authorization, as specified. The bill would increase the minimum compensation that a public administrator receives for performing specified actions. The bill would establish certain procedures for the sale of real property of a decedent, and would revise the provisions described above regarding notice of a public administrator of a decedent's land subject to a tax sale. By increasing the duties of local

officers, including the public administrator, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 889 (AB 2853) Laird. Local government expenses: state mandates.

(1) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

Existing law requires a county recorder to notify debtors of the recordation of involuntary liens affecting the title of real property.

Existing law requires a county assessor to report quarterly to the State Board of Equalization on specified property purchases or transfers between family members that involve a claim for exclusion from "change of ownership" assessment requirements.

Existing law requires the board of supervisors in each county that invests surplus funds to establish a treasury oversight committee.

Existing law requires the treasurer in the case of counties and the treasurer or chief financial officer in the case of cities to annually render to their respective legislative bodies and any oversight committee a statement of investment policy and quarterly reports.

Existing law requires that any traffic signal controller that is newly installed or upgraded by a local authority shall be of a standard traffic signal communication protocol capable of 2-way communications.

This bill would make these requirements optional, thereby eliminating state-mandated local programs, but would state that the Legislature, in recognition of the state and local interests served by these programs, encourages local agencies and officials to continue taking the actions formerly mandated by these provisions, and states that nothing in this statement of encouragement may be construed to impose any liability on a local agency that does not continue to take a formerly mandated action.

(2) Under existing law, in any case in which a person is arrested for an offense declared to be an infraction or a misdemeanor, including a violation of any city or county ordinance or a violation of the Vehicle Code, the person may be released pursuant to specified procedures that include presenting to a peace officer satisfactory identification or signing a promise or notice to appear. Under these procedures, the arresting officer may book the arrested person prior to release or indicate on the citation that the arrested person shall appear at the arresting agency to be booked or fingerprinted prior to his or her court date. The procedures require that, if it is indicated on the citation that the arrested person shall be booked or fingerprinted prior to the date of the person's court appearance, the arresting agency at the time of booking or fingerprinting provide the arrested person with verification of the booking or fingerprinting by either making an entry on the citation or providing the arrested person a verification form established by the arresting agency.

This bill would provide that, under these provisions, the verification of booking or fingerprinting shall be made by making an entry on the citation.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 890 (AB 2856) Laird. State mandates: Commission on State Mandates.

Under the California Constitution, whenever the Legislature or a state agency mandates a new program or higher level of service on any local government, including school districts, the state is required to provide a subvention of funds to reimburse the local government, with specified exceptions. Existing law establishes a procedure for local governmental agencies to file claims for reimbursement of these costs with the Commission on State Mandates. The procedure requires the commission to hear and decide upon each claim for reimbursement and provides that the commission may not find costs to be mandated by the state if, after a hearing, the commission makes specified findings, including, among others, that the statute or executive order imposing the mandate provides for offsetting savings to local agencies or school districts or includes additional revenue specifically intended to sufficiently fund the costs of the state mandate. The procedure provides for payment of claims from the State Mandates Claim Fund and pursuant to a local government claims bill.

This bill would revise the procedures for receiving claims and for hearings on claims, as specified. The bill would revise the definitions of terms related to the procedure and hearings and define additional terms. The bill would abolish the State Mandates Claim Fund and delete the option of paying claims from this fund. The bill would make other technical changes and delete obsolete references.

Ch. 891 (AB 2901) Pavley. Solid waste: cell phones: recycling.

Existing law requires the California Integrated Waste Management Board to administer state programs to recycle various specified materials, including the Electronic Waste Recycling Act of 2003, which governs certain electronic devices with display screens greater than 4 inches in size.

This bill would enact the Cell Phone Recycling Act of 2004 and would make it unlawful to sell, on and after July 1, 2006, a cell phone in this state to a consumer, as defined, unless the retailer of that cell phone complies with the act.

The bill would require a retailer selling a cell phone in this state to have in place, by July 1, 2006, a system for the acceptance and collection of used cell phones for reuse, recycling, or proper disposal. The bill would require the system to include specified elements.

The bill would require the Department of Toxic Substances Control on July 1, 2007, and each July 1 thereafter, to post on its Web site an estimated California recycling rate for cell phones, as specified. The bill would impose requirements upon state agencies that purchase or lease cell phones regarding a certification of compliance with the act by prospective bidders. The bill would contain a severability clause.

Ch. 892 (AB 3089) Committee on Governmental Organization. Indian Gaming Special Distribution Fund.

Existing law establishes the method of calculating the distribution of appropriations from the Indian Gaming Special Distribution Fund for grants to local government agencies impacted by tribal gaming. Under existing law, the Controller, acting in consultation with the California Gambling Control Commission, is responsible for dividing County Tribal Casino Accounts into Individual Tribal Casino Accounts, from which funds may be allocated for grants to local jurisdictions impacted by tribal gaming. Existing law specifies that funds not allocated from an individual tribal casino account by the end of each fiscal year revert back to the Indian Gaming Special Distribution Fund.

This bill would instead specify that funds not allocated from a county tribal casino account, if not allocated by the end of each fiscal year, revert back to the Indian Gaming Special Distribution Fund.

This bill would incorporate additional changes in Section 12715 of the Government Code proposed by AB 675 that would become operative only if AB 675 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 893 (AB 3095) Committee on Aging and Long-Term Care. Crime.

Existing law proscribes various crimes committed against an elder or dependent adult when the person has knowledge that the victim is an elder or dependent adult related to physical and financial abuse, including causing or permitting an elder or dependent adult to suffer or inflicting thereon unjustifiable physical pain or mental suffering and violating any provision of law proscribing theft, embezzlement, forgery, fraud, or identity theft, with respect to the person or property of an elder or dependent adult.

This bill would expand these provisions to include a situation in which the person reasonably should have known that the victim was an elder or dependent adult. This bill would also provide that in any case in which a person is convicted of violating these provisions, the court may order, as a condition of probation, that the defendant be placed in an appropriate counseling program. This bill would require the defendant to pay the expense of his or her participation in the counseling program, as specified. Because the bill would change the definition of a crime and increase probation supervision duties, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 894 (AB 1465) Chan. School facilities: new construction and modernization: small high schools.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition. Existing law requires the board to determine an applicant's maximum total new construction grant eligibility under a specified calculation and requires the board to annually adjust the per-unhoused-pupil apportionment to reflect construction cost changes.

Existing law precludes reduction of enrollment projections for a 3-year period, and requires the board to approve a supplemental apportionment, for an applicant school district having an enrollment of 2,500 or less.

This bill would provide that, commencing January 1, 2006, for a small high school, as defined, that meets certain criteria to be established by regulations adopted by the board, the maximum total new construction grant shall be adjusted to reflect 120% of the amounts determined pursuant to the above calculations, except as provided. The bill would establish this adjustment on a pilot program basis until January 1, 2008, and would require the board to set aside \$20,000,000 for this purpose from the proceeds of certain state bonds.

Existing law prohibits the board from apportioning funds for new construction unless certain conditions are met, including, but not limited to, the requirement that the school district, prior to the release of state funds, certify that the required 50% local matching funds will be deposited or expended.

This bill would, instead, until January 1, 2008, for a project for construction of a small high school, as provided, authorize apportionment to a school district only if the school district certifies that the required 40% local matching funds will be deposited or expended.

Existing law authorizes the release of funds equal to the local match upon certification by the school district that it has entered into a binding contract for completion of the project.

This bill would, until January 1, 2008, for a project to construct a small high school, as provided, authorize the release of funds equal to 60% of the total approved project costs.

Existing law requires the board to determine an applicant's total modernization funding eligibility under a specified calculation and requires the board to annually adjust the calculation factors to reflect inflation, as provided.

This bill would, until January 1, 2008, authorize additional modernization funding for a high school with an enrollment of 1,000 or more pupils that is seeking to reconfigure into 2 or more small high schools, to assist with costs generated by the reconfiguration. The bill would require the board to set aside \$5,000,000 for this purpose from the proceeds of certain state bonds and to adopt implementing regulations, and would limit the amount of funding for a single project.

This bill would require the board to conduct an evaluation on the cost of new construction and modernization of small high schools, as provided, and would require the State Department of Education to conduct an evaluation that focuses on pupil outcomes at the small high schools, as provided, and on the reasons school districts do not currently opt to build small high schools.

Ch. 895 (AB 2855) Laird. Education: policies.

(1) Existing law makes each school district and county office of education responsible for the overall development of all comprehensive school safety plans for its schools operating kindergarten or any of grades 1 to 12, inclusive. Existing law requires a school safety plan to include specified contents, including disaster procedures.

Other existing law requires the governing board of each school district and the county superintendent of schools of each county to establish an earthquake emergency procedure system, as specified, in every public school building under its jurisdiction having an occupant capacity of 50 or more pupils or more than one classroom. Existing law also requires the governing board of a school district to grant the use of school buildings, grounds, and equipment to public agencies for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare.

This bill would require a school district or county office of education to include the earthquake emergency procedure system and the disaster policy in its comprehensive school safety plan, as specified.

(2) Under existing law, if a school district or county office of education provides health and welfare benefits for employees upon their retirement and those benefits will continue after the employees reach 65 years of age, the superintendent of the school district or county superintendent of schools, as applicable, is required annually to provide information to the governing board of the school district or the county board of education regarding the estimated accrued but unfunded costs of those benefits, as specified.

This bill would make those requirements inoperative on January 1, 2005.

(3) Existing law authorizes the governing board of a school district to exclude children of filthy or vicious habits, or children suffering from contagious or infectious diseases. Existing law requires the governing board to adopt rules and regulations governing periodic reviews of its decisions to exclude children from school.

This bill would repeal both of those requirements.

(4) Existing law requires the governing board of each school district to adopt a policy authorizing teachers to permit the parent or guardian of a pupil who has been suspended by the teacher to attend a portion of a schoolday in the classroom of that pupil.

This bill, instead, would authorize the governing board to adopt that policy.

(5) Existing law requires a school counselor or school psychologist to attend a parent-teacher conference regarding the suspension of a pupil.

This bill, instead, would authorize a school counselor or school psychologist to attend that conference.

(6) Existing law requires all pupils, as part of the course in American government and civics required for high school graduation, to read and be taught specified documents, including, among others, the Declaration of Independence, the United States Constitution, and the Gettysburg Address.

This bill would repeal that requirement and, instead, would require the Curriculum Development and Supplemental Materials Commission, when the history-social science

framework is revised, to ensure that those documents are incorporated in the framework, as appropriate. The bill would also require the State Board of Education and the Superintendent of Public Instruction, if any portion of the California Standards Tests is revised, to ensure that an appropriate number of questions on the tests relate to those documents.

(7) Existing law deems a pupil to have complied with the residency requirements for school attendance in a school district if the pupil meets specified requirements, including, among others, that the pupil lives in the home of a caregiving adult that is located within the boundaries of that school district. Existing law contains a caregiver's authorization affidavit which, when completed and signed by a caregiver 18 years of age or older, authorizes the caregiver to enroll the minor in school and consent to school-related medical care on behalf of the minor. Under existing law, the affidavit is not valid for more than one year after the date on which it is executed.

This bill would eliminate the one-year expiration date for the affidavit and would provide that the affidavit is invalid once the school, health care provider, or health care service plan receives notice that the minor is no longer living with the caregiver.

(8) The California Constitution requires the state to reimburse local agencies and school districts for costs mandated by the state and incurred by a local agency or school district to implement a new program or higher level of service. Existing law excepts from this requirement certain claims including, among others, a claim based on a statute or executive order that implemented a federal law or regulation, as provided, a claim based on a statute or executive order that imposed duties included in a ballot measure approved in a statewide election, and a claim for which a statute or executive order provides for offsetting savings to local agencies or school districts, as provided.

This bill would recast the federal law exception and would specify that the exception applies regardless of whether the federal law or regulation was enacted or adopted prior to or after the date on which the state statute or executive order was enacted or issued. The bill would revise the ballot measure exception to include duties imposed in a ballot measure approved in a local election. The bill would expand the offsetting savings exception to include a claim for which an appropriation in a Budget Act or other bill provides for the offsetting savings.

(9) Existing law requires every school district or private school that has children enrolled in the 1st grade to report by January 15 of each year to the county child health and disability prevention program, the State Department of Health Services, and the Department of Education on the total number of children enrolled in the 1st grade, the number of children who have had a health screening examination, and the number of children whose parents or guardian have given a written waiver of the examination. Existing law requires the Department of Health Services to compile the district information and report annually to the Legislature the percentage levels of compliance with the health screening and waiver requirements.

This bill would eliminate all of those reporting requirements.

(10) Existing law provides that no pupil shall receive a diploma of graduation from high school who, while in grades 9 to 12, inclusive, has not completed specified courses, including 2 courses in science. Prior law required a pupil to complete only one course in science to receive a diploma.

This bill would provide that for purposes of calculating the amount of the state reimbursement for the state-mandated local program imposed by increasing the science course requirement from one science course to 2 science courses, if the school district or county office claims reimbursement for a new science facility, the reimbursement shall be reduced by the amount of state bond funds, if any, received by the school district or county office to construct the new science facility.

(11) Existing law requires the governing board of a school district maintaining an elementary or secondary school to develop and cause to be implemented for each school in the school district a school accountability report card that includes specified information

regarding the academic achievement of the school. Other existing law establishes the Standardized Testing and Reporting (STAR) Program which requires each school district, charter school, and county office of education to administer to each of its pupils in grades 2 to 11, inclusive, an achievement test and a standards-based achievement test, as specified.

This bill would require the Commission on State Mandates, on or before December 31, 2005, to reconsider certain decisions it issued relating to state reimbursement for the school accountability report card and the STAR Program, and to reconsider its parameters and guidelines for calculating the state reimbursement, in light of federal statutes enacted and state court decisions rendered since those mandates were enacted.

Ch. 896 (AB 2525) Committee on Education. Education: planning.

(1) Under existing law the Child Care and Development Services Act provides services to children to age 14.

This bill would change the maximum age for eligibility in the program to 13, and would modify the definition of “parent” under the Child Care and Development Services Act, as specified.

(2) Existing law provides that the assigned reimbursement rate for alternative payment programs includes the cost of child care plus the administrative cost of the alternative payment program.

This bill would impose a limit on administrative costs for the alternative payment program, as specified.

(3) Existing law requires the State Department of Education to take certain actions in administering child care and child development programs, including, but not limited to, establishing a review group composed of certain representatives and to submit all policy memoranda and guidelines to the review group 30 days prior to their issuance, and establishing an in-service training program for professional staff.

This bill would delete these requirements.

(4) Existing law provides a formula for determining whether a family is eligible to receive services under the Child Care and Development Services Act based on the family’s income. Existing law also provides that children who were receiving services as of January 1, 1998, in certain child care programs, whose family income is above the eligibility level may continue to receive services so long as they continue to meet criteria that applied to the program on December 31, 1997.

This bill would delete this provision.

(5) Existing law contains various provisions relating to the implementation of the plan developed by the Commission on Child Care and Development Services and the expansion of child care and development services.

This bill would delete these provisions as they have been superseded by existing law, in that existing law, enacted in a later enacted statute, requires the State Department of Education to disburse augmentations to the base allocation for the expansion of child care and development programs, with certain requirements.

(6) Existing law requires the State Board of Education and the State Department of Education to request that the Curriculum Development and Supplemental Materials Commission review and revise, as necessary, the course requirements in the history-social science framework to ensure that minimum standards for courses in American government and civics include sufficient attention to teaching pupils how to interact with state and local governmental agencies and representatives to solve problems and to petition for changes in laws and procedures.

This bill would require the commission, when the history-social science framework is revised, to ensure that specified historical documents are incorporated into the framework.

(7) Existing law makes each school district and county office of education responsible for the overall development of comprehensive school safety plans for schools operating kindergarten and any of grades 1 to 12, inclusive. Existing law authorizes the filing of a

complaint of noncompliance with the school safety plans under the Uniform Complaint Procedures.

This bill would, in addition, authorize the filing of a complaint, under those procedures, of noncompliance with a school safety planning requirements of the federal No Child Left Behind Act of 2001.

(8) Existing law authorizes a county board of education to approve a charter for the operation of a countywide charter school that would operate at multiple sites throughout the county. Existing law prescribes the petition and approval process for such a school, the applicable requirements for operation, and other related matters.

This bill would provide that for pupils attending a countywide charter school who reside in a basic aid school district, as defined, the sponsoring local educational agency is the school district of residence of the pupil.

(9) Existing law, until January 1, 2005, specifically authorizes a court to order a person who is convicted for failing to comply with compulsory attendance laws, as specified, to immediately enroll the child in the appropriate school or educational program and provide proof of enrollment to the court.

This bill would extend this authorization to January 1, 2006.

(10) Under existing law, a work permit may not be issued to a pupil until the written request from the pupil's parent, guardian, foster parent, or residential shelter services provider for the permit has been filed with the issuing authority.

This bill would also permit a caregiver with whom the minor resides to file a written request for a work permit, thereby creating a state-mandated local program.

(11) Existing law requires the adopted course of study for grades 7 to 12, inclusive, to include algebra as part of the mathematics area of study. Existing law requires that a pupil complete while in grades 9 to 12, inclusive, 2 courses in mathematics, among other courses, to receive a diploma of graduation from high school. Existing law requires that at least one course, or a combination of the 2 courses, in mathematics required to be completed while in grades 9 to 12, inclusive, prior to receiving a diploma of graduation from high school, to meet or exceed the rigor of the content standards for Algebra I, as adopted by the State Board of Education. Existing law provides that a pupil who completes coursework in grade 7 or 8 for algebra is not exempt from the mathematics graduation requirement for grades 9 to 12, inclusive, or the requirement that, at least one course, or a combination of the 2 courses in mathematics required to be completed while in grades 9 to 12, inclusive, prior to receiving a diploma of graduation from high school, to meet or exceed the rigor of the content standards for Algebra I, as adopted by the State Board of Education.

This bill would exempt a pupil who, prior to enrollment in grade 9, completes coursework in algebra that meets or exceeds the rigor of the content standards for Algebra I, as adopted by the State Board of Education, from the requirement that at least one course, or a combination of the 2 courses, in mathematics required to be completed while in grades 9 to 12, inclusive, prior to receiving a diploma of graduation from high school, meet or exceed the rigor of the content standards for Algebra I, but not from the graduation requirement that the pupil complete 2 courses in mathematics while enrolled in grades 9 to 12, inclusive.

(12) Existing law requires the adopted course of study to provide instruction at the appropriate elementary and secondary grade levels in various subjects, including health.

This bill would provide that if any part of a school's instruction in health conflicts with the religious training and beliefs of a parent or guardian of a pupil, the pupil, upon the written request of the parent or guardian, shall be excused from the part of the instruction that conflicts with the religious training and beliefs, as defined in the bill.

(13) Existing law adjusts funding for pupils with exceptional needs based on an incidence multiplier, as defined, for each special education local plan area.

This bill would continue the current special education incidence factor formula through 2004-05.

(14) Existing law prohibits a local agency employer that terminates its contract of employment with its district superintendent of schools from providing a cash or noncash settlement to its superintendent in an amount that is greater than the superintendent's monthly salary multiplied by 0 to 6 if the local agency employer believes and confirms that the superintendent has engaged in specified illegal practices. In such a case, existing law requires the cash settlement to be determined by a hearing officer.

This bill would require the cash settlement to be determined by an administrative law judge.

(15) Existing law appropriates \$83,056,000 from the General Fund to the State Department of Education for supplemental instruction for the 2004–05 fiscal year to be expended consistent with specified provisions of the Budget Act of 2002.

This bill would, instead, require that those funds be expended consistent with specified provisions of the Budget Act of 2003.

(16) The Budget Act of 2004 appropriated \$277,862,000 to the State Department of Education for supplemental instruction and remedial programs and provided for a reimbursement rate of \$3.59 per hour of supplemental instruction.

This bill would decrease the reimbursement rate to \$3.53 per hour of supplemental instruction.

(17) The Budget Act of 2003 appropriated \$10,052,000 to the State Department of Education for local assistance for County Offices of Education Fiscal Oversight.

This bill would provide that any unexpended funds from that appropriation shall remain available to the County Office Fiscal Crisis and Management Assistance Team to provide annual written status reports assessing the progress of the Oakland Unified School District and the West Fresno Elementary School District in implementing specified improvement plans. The bill would also authorize any remaining funds to be used for other activities upon approval of both the Superintendent of Public Instruction and the Director of Finance.

(18) This bill would make other technical and nonsubstantive changes to existing law, repeal obsolete and duplicative provisions, and make changes in provisions governing child care and individuals with exceptional needs to conform to federal regulations.

(19) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(20) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 897 (AB 379) Mullin. Family child care home education networks.

(1) Existing law requires the Superintendent of Public Instruction to administer general child care and development programs consisting of programs that offer a full range of services for children from infancy to 14 years of age, for any part of a day, by a public or private agency, in centers and family child care homes.

This bill would require the Superintendent of Public Instruction to contract with entities organized under law to operate family child care home education networks that support educational objectives for children in licensed family child care homes that serve families eligible for subsidized child care. The bill would require the family child care home education network programs to provide specified services, including age and developmentally appropriate activities for children, parenting education, and parent

involvement. The bill would provide that its provisions do not impose any new requirement on a family child care home education network, as specified.

(2) Under existing law the Child Care and Development Services Act provides services to children to age 14.

This bill would change the maximum age for eligibility in the program to 13, and would modify the definition of "parent" under the Child Care and Development Services Act, as specified.

(3) This bill would incorporate additional changes in Section 8208 of the Education Code, proposed by AB 2525, to be operative only if AB 2525 and this bill are both chaptered and become effective January 1, 2005, and this bill is chaptered last.

(4) This bill would make other technical and nonsubstantive changes to existing law.

Ch. 898 (AB 2950) Goldberg. Critically overcrowded school facilities.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition. Eligibility for new construction funding under the act is determined, in part, by calculating enrollment projections determined by utilizing a cohort survival enrollment projection system.

Existing law also includes provisions that make apportionments, for eligible applicants with critically overcrowded schools, in advance of full compliance with all the application requirements otherwise required for an apportionment. Under existing law, upon the completion of preliminary process procedures required by the act, the apportionment made in advance of full compliance is converted into a final apportionment when the preliminary applicant complies with all the conditions required for a final apportionment.

This bill would provide alternative methods for an applicant in the critically overcrowded schools program to calculate enrollment for purposes of determining eligibility for a final apportionment for a project funded from the Kindergarten-University Public Education Facilities Bond Act of 2002.

Ch. 899 (SB 6) Alpert. School facilities: needs assessment: emergency repairs.

Existing law requires the governing board of any school district to furnish and repair the school property of its district and authorizes each school district to establish a restricted fund, known as the district deferred maintenance fund, for the purpose of major repair or replacement of specified items. Existing law requires the State Allocation Board to apportion from the State School Deferred Maintenance Fund, to eligible school districts, an amount equal to \$1 for each \$1 of local funds deposited in the district's deferred maintenance fund.

This bill would establish the School Facilities Needs Assessment Grant Program, to be administered by the State Allocation Board, for the purpose of awarding grants to school districts on behalf of schoolsites ranked in deciles 1 to 3, inclusive, on the Academic Performance Index, as specified, to conduct a one-time comprehensive assessment of school facilities needs, as provided.

The bill would establish in the State Treasury the School Facilities Emergency Repair Account, to be administered by State Allocation Board, for the purpose of reimbursing school districts with schools ranked in deciles 1 to 3, inclusive, on the Academic Performance Index, as specified, for emergency facility repairs, as provided. The bill would specify the source of the funds to be deposited into this account, including from the Proposition 98 Reversion Account, and would prescribe other requirements relating to the transfer of those funds.

The bill would require the State Allocation Board, for purposes of the above new program and account, to adopt regulations, establish and publish any procedures and policies for their administration, apportion funds to eligible school districts, provide technical assistance to school districts, and make specified reports to the Governor and the Legislature.

This bill would establish in the General Fund the Proposition 98 Reversion Account and would require the Legislature to transfer into this account moneys previously appropriated in satisfaction of the requirements of Section 8 of Article XVI of the California Constitution that have not been disbursed or otherwise encumbered for the purposes for which they were appropriated. The bill would require moneys that are appropriated in satisfaction of the minimum funding obligation under Section 8 of Article XVI of the California Constitution that would otherwise revert to the unexpended balance of the General Fund to be instead deposited in this new account.

This bill would appropriate \$250,000 from the General Fund to the State Allocation Board for the administration of the School Facilities Needs Assessment Grant Program and the School Facilities Emergency Repair Account for the 2004–05 fiscal year.

This bill would appropriate \$30,000,000 from the General Fund, of which \$25,000,000 would be appropriated to the State Department of Education for transfer to the State Allocation Board for grants to school districts under the School Facilities Needs Assessment Grant Program and \$5,000,000 would be appropriated for transfer to the School Facilities Emergency Repair Account. The bill would require the Controller to transfer those funds, as provided, upon receipt of certification from the Office of Public School Construction. The bill would provide that for the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation is General Fund revenues appropriated for school districts for the 2003–04 fiscal year.

This bill would state that the intent of the Legislature in enacting this act is to implement the settlement agreement in the case of *Williams v. State of California*.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 900 (SB 550) Vasconcellos. Education.

(1) Existing law requires a county superintendent of schools, among other things, to visit and examine each school in the county to observe its operation and learn of its problems. Existing law authorizes the county superintendent to annually present a report on the state of the schools in the county to the board of education and the board of supervisors of the county.

This bill would require the county superintendent to annually present a report to the governing board of each school district under his or her jurisdiction and to the board of supervisors of the county describing the state of the schools in the county and of his or her office that are ranked in deciles 1 to 3, inclusive, of the 2003 base Academic Performance Index, thereby imposing a state-mandated local program. The bill would require the county superintendent for the Counties of Alpine, Amador, Del Norte, Mariposa, Plumas, Sierra, and the City and County of San Francisco to contract with a neighboring county office of education or an independent auditor to conduct the required visits and make all required reports. The bill would make the priority objective of the visits to determine if there are sufficient textbooks, conditions of facilities that pose an emergency or urgent threat to the health or safety of pupils or staff, and accurate data reported on the school accountability report card with respect to the availability of sufficient textbooks and instructional materials, the safety, cleanliness, adequacy, and good repair of school facilities.

(2) Existing law requires a county superintendent of schools, among other things, to enforce the use of state textbooks and instructional materials and of high school textbooks and instructional materials regularly adopted by the proper authority.

This bill would require the county superintendent, for purposes of enforcing the use of required textbooks and instructional materials, to specifically review at least annually schools that are ranked in any of deciles 1 to 3, inclusive, of the 2003 base Academic Performance Index and that are not currently under review through a state or federal intervention program, thereby imposing a state-mandated local program. If the county superintendent determines that a school does not have sufficient textbooks or instructional materials, the bill would require the county superintendent to prepare a report that identifies

and documents the areas or instances of noncompliance, provide a copy of the report to the school district, forward the report to the Superintendent of Public Instruction, and provide the school district with the opportunity to remedy the deficiency. If the deficiency is not remedied, the bill would require the county superintendent to request the State Department of Education, with approval by the State Board of Education, to purchase textbooks or instructional materials for the school. The bill would require that the funds necessary for the purchase be considered a loan to the school district to be repaid based upon an agreed-upon schedule with the Superintendent of Public Instruction, or by deducting an amount from the district's next principal apportionment or other apportionment of state funds. The bill would authorize the department to expend up to \$5,000,000 from the State Instructional Materials Fund to acquire instructional materials for school districts for purposes of these provisions.

(3) Existing law, the Leroy F. Greene State School Building Lease-Purchase Law of 1976, the Leroy F. Greene State School Building Lease-Purchase Law of 1998, and the State Relocatable Classroom Law of 1979, requires the State Allocation Board to require a school district that receives funds for a school construction or modernization project pursuant to those laws, to make all necessary repairs, renewals, and replacement to ensure that a project is at all times kept in good repair, working order, and condition.

Existing law requires the State Allocation Board to establish the annual rent and conditions to be met by a school district to which it leases portable classrooms and requires a school district to undertake all necessary repairs, renewals, and replacement to ensure that those portable classrooms are at all times kept in good repair, working order, and condition.

This bill would, as a condition of participation in the school facilities program and the receipt of funds pursuant to the deferred maintenance program, require a school district to establish a facilities inspection system to ensure that each of its schools is in good repair, as defined in the bill.

(4) Existing law requires the Controller, in consultation with the Department of Finance and the State Department of Education, to develop a plan to review and report on financial and compliance audits, and with representatives of other entities, to recommend the statements and other information to be included in the audit reports filed with the state by local educational agencies and to propose the content of an audit guide.

This bill would require a compliance audit to include the verification of the reporting requirements for the sufficiency of textbooks and instructional materials, teacher misassignments, and the accuracy of information reported on the school accountability report card.

(5) Existing law, the Classroom Instructional Improvement and Accountability Act, requires each school district to develop and implement a school accountability report card, as prescribed. The existing act prohibits any change to its provisions, except a change to further its purpose enacted by a bill passed by a vote of  $\frac{2}{3}$  of the Legislature and signed by the Governor.

This bill would require the school accountability report card to include information regarding the availability of sufficient textbooks and other instructional materials for each pupil, any needed maintenance of school facilities to ensure good repair, the misassignments of teachers, including misassignments of English learner teachers, and the number of vacant teacher positions for the most recent 3-year period. The bill would define "misassignment" and "vacant position" for this purpose. By requiring school districts to include this additional information on the school accountability report card, the bill would impose a state-mandated local program. The bill would also provide that if the Commission on State Mandates finds a school district eligible for the reimbursement of costs incurred in complying with the requirements regarding the school accountability report card, the school district is to be reimbursed only if the information provided in the school accountability report card is accurate, as determined by a specified annual audit, or if the information is determined to be inaccurate, the information is corrected by May 15.

Existing law requires the State Department of Education to develop and recommend for adoption a standardized template for the school accountability report card and requires the standardized template to include fields for the insertion of data and information by the department and by local educational agencies.

This bill would require that template to also include a field to report the determination of the sufficiency of textbooks and instructional materials and a summary statement of the condition of school facilities. The bill would require the department to provide examples of summary statements of the condition of school facilities that are acceptable and those that are unacceptable.

This bill would declare that these provisions further the purposes of the Classroom Instructional Improvement and Accountability Act.

(6) Existing regulations require each local educational agency to adopt policies and procedures for the investigation and resolution of complaints and require each local educational agency to include in its policies and procedures the person, employee, or agency position or unit responsible for receiving complaints, investigating complaints, and ensuring local educational agency compliance.

This bill would require a school district to use its uniform complaint process to help identify and resolve any deficiencies related to instructional materials, conditions of facilities that are not maintained in a clean and safe manner or in good repair, and teacher vacancy or misassignment. The bill would require a notice to be posted in each classroom in each school in the school district notifying parents and guardians that there should be sufficient textbooks or instructional materials, school facilities must be clean, safe, and in good repair, and the location to obtain a form to file a complaint in case of a shortage. By requiring the posting of this notice, the bill would impose a state-mandated local program.

(7) Existing law requires a county superintendent of schools to provide for an audit of all funds under his or her jurisdiction and requires the governing board of a local educational agency to either provide for an audit of the books and accounts of the local educational agency or make arrangements with the county superintendent of schools having jurisdiction over the local educational agency to provide for that auditing. Existing law requires a county superintendent of schools to be responsible for reviewing the audit exceptions contained in an audit of a local educational agency under his or her jurisdiction related to attendance, inventory of equipment, internal control, and any miscellaneous items, and determining whether the exceptions were either corrected or an acceptable plan of correction was developed.

This bill would, commencing with the 2004–05 audit of local educational agencies, require the county superintendent of schools to include in the review of audit exceptions those audit exceptions related to use of instructional materials program funds, teacher misassignments, and information reported on the school accountability report card and to determine whether the exceptions are either corrected or an acceptable plan of correction developed, thereby imposing a state-mandated local program.

The bill would prohibit a local educational agency from being required to repay an apportionment based on a significant audit exception related to the verification of the sufficiency of textbooks and instructional materials, teacher misassignments, and the accuracy of the information reported on the school accountability report card if the county superintendent of schools certifies to the Superintendent of Public Instruction and the Controller that the audit exception was corrected or that an acceptable plan of correction was submitted to the county superintendent of schools.

(8) Existing law establishes, within the Public Schools Accountability Act of 1999, the High Priority Schools Grant Program and requires a school district participating in the program to develop a school action plan that includes 4 components: (a) pupil literacy and achievement, (b) quality of staff, (c) parental involvement, and (d) facilities, curriculum, instructional materials, and support services.

This bill would, for schools initially applying to participate in the program on or after the 2004–05 fiscal year, require the component of the school action plan on quality of staff to include highly qualified teachers and appropriately credentialed teachers for English learners. The bill would specify that the component on facilities, curriculum, instructional materials, and support services for those schools be on facilities in good repair, curriculum, sufficient instructional materials, and support services.

Existing law requires that a school receiving funds under the High Priority Schools Grant Program submit a report to the Superintendent of Public Instruction that includes, among other things, the availability of instructional materials in core content areas that are aligned with the academic content and performance standards for each pupil.

This bill would require schools initially applying to participate in the program on or after the 2004–05 fiscal year to measure the availability of instructional materials against a specified definition of “sufficient instructional materials.”

(9) Existing law requires the governing board of a school district to hold a public hearing and make a determination as to whether each pupil in each school in the district has or will have prior to the end of that fiscal year sufficient textbooks or instructional materials in each subject that are consistent with the content and cycles of the curriculum framework adopted by the State Board of Education.

This bill would instead require the determination to be as to whether each pupil in each school in the district has sufficient textbooks or instructional materials in each subject that are consistent with the content and cycles of the curriculum frameworks. The bill would require the hearing to be held at a time that will encourage the attendance of teachers and parents and guardians of pupils who attend the schools in the district and would prohibit the hearing from taking place during or immediately following school hours. The bill would define “sufficient textbooks or instructional materials” to mean that each pupil, including English learners, has a textbook or instructional materials, or both, to use in class and to take home to complete required homework assignments but would specify that 2 sets of textbooks or instructional materials for each pupil are not required.

(10) Existing law repeals the Instructional Materials Program on June 30, 2006, and makes implementation of the program during the 2002–03 to 2005–06, inclusive, fiscal years contingent on funding in the annual Budget Act.

This bill would delete the date of repeal and the contingent implementation of the program.

(11) Existing law appropriated \$138,000,000 from the General Fund to the State Department of Education for transfer to the Instructional Materials Fund.

This bill would make technical changes to that appropriation and would make other conforming changes.

(12) This bill would appropriate \$20,200,000 from the General Fund to the State Department of Education and, of that amount \$5,000,000 would be appropriated for transfer to the State Instructional Materials Fund for purposes of acquiring instructional materials, as specified, \$15,000,000 would be appropriated for allocation to county offices of education for review and monitoring of schools, as specified, and \$200,000 would be appropriated for purposes of implementing this act.

The funds appropriated by the bill for purposes of acquiring instructional materials and for review and monitoring activities would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(13) The bill would state that the intent of the Legislature in enacting this act is to implement the settlement agreement in the case of *Williams v. State of California*.

(14) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(15) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 901 (AB 1550) Daucher. Concept 6 program.

Existing law authorizes a school district to operate a program of multitrack year-round scheduling at one or more schools within the district. Under existing law, a program of multitrack year-round scheduling may operate for as few as 163 days in each fiscal year if the governing board of the school district adopts a resolution containing specified certifications at a regularly scheduled board meeting.

This bill would, commencing with the 2004–05 school year, prohibit a school district from operating a Concept 6 program unless the school district operated a Concept 6 program continuously since the 2003–04 school year. The bill would define a Concept 6 program to mean a program whereby a school operates on a 3-track year-round calendar in which each track provides fewer than 180 days, but no fewer than 163 days, of instruction per school year. The bill would require a district, as a condition of operating a Concept 6 program, by January 1, 2005, to present to the State Department of Education a comprehensive action plan detailing the strategy and steps to be taken annually to eliminate the use of the Concept 6 program as soon as practicable and no later than July 1, 2012.

The bill would require a district that plans to operate a Concept 6 program after June 30, 2006, and after July 30, 2009, to submit specified reports to the Superintendent of Public Instruction that establish substantial progress has been made toward meeting its annual goals stated in the comprehensive action plan and that it has developed a specific school building plan to provide adequate pupil capacity to eliminate the Concept 6 program. The bill would authorize the State Board of Education to appoint a monitor to oversee the district if it finds that substantial progress has not been made or a specific school building plan has not been developed and the reason for the failure is not due to circumstances beyond the control of the district. The bill would prohibit the operation of a Concept 6 program after July 1, 2012.

Existing law requires the State Department of Education, in consultation with the Office of Public School Construction, by July 1, 2008, to conduct a survey to determine whether school districts operating a program of multitrack year-round scheduling for as few as 163 days in a fiscal year will phase out this scheduling by the 2009–10 fiscal year, and to submit the survey to specified education committees of the Legislature and to the Department of Finance. Existing law requires the Legislature to determine, based on this survey, whether to repeal or continue the authority of a school district to operate a multitrack year-round schedule for as few as 163 days.

This bill, instead, would require the department, in consultation with the Office of Public School Construction, by July 1, 2008, to conduct a survey to determine whether school districts operating a Concept 6 program will phase out this program by the 2009–10 fiscal year, and to submit the survey to specified education committees of the Legislature and to the Department of Finance. The bill would require the Legislature to determine, based on the survey, whether to repeal the authority of a school district to operate a Concept 6 program prior to July 1, 2012.

The bill would declare that it would take effect immediately as an urgency statute.

Ch. 902 (AB 3001) Goldberg. Teachers.

(1) Existing law requires the county superintendent of schools to report to the Superintendent of Public Instruction on the financial condition of a school district if the county superintendent determines a school district may be unable to meet its financial obligations for the current or 2 subsequent fiscal years or if a school district has a qualified or negative certification. Existing law requires the county superintendent to take at least one

of certain actions and all actions that are necessary to ensure that the district meets its financial obligations.

This bill would require those possible actions to include assigning the Fiscal Crisis and Management Assistance Team to review district teacher hiring practices, teacher retention rate, provision of highly qualified teachers, and the extent of teacher misassignment and also to provide the district with recommendations to streamline and improve the teacher hiring process, teacher retention rate, extent of teacher misassignment, and provision of highly qualified teachers. The bill would require a school district that is assigned this review to follow the recommendations made unless it shows good cause for failure to do so.

(2) Existing law requires the Commission on Teacher Credentialing to report, by April 15 of each year, to the Legislature and the Governor on the number of classroom teachers who received credentials, internships, and emergency permits in the previous fiscal year. The report is required to include specified information.

This bill would expand, as specified, the kind of information to be included in that report.

(3) Existing law requires the county superintendent of schools to annually monitor and review school district certificated employee assignment practices according to certain priorities with first priority going to schools and school districts that are likely to have problems with teacher misassignment and teacher vacancies based on past experience or other available information. Existing law requires a county superintendent of schools to submit an annual report to the Commission on Teacher Credentialing summarizing the results of all assignment monitoring and reviews.

This bill would require the county superintendent of schools to give priority to schools ranked in deciles 1 to 3, inclusive, of the Academic Performance Index, as defined, if those schools are not currently under review through a state or federal intervention program. The bill would require a county superintendent of schools to investigate school and district efforts to ensure that any credentialed teacher in an assignment requiring a certificate authorizing the holder to teach English language development to English learners or training that authorizes the holder to teach English language development to English learners completes the necessary requirements for one of those certificates or completes the required training.

The bill would require a county superintendent of schools to submit the annual report summarizing the results of assignment monitoring and reviews to the department. The bill would require that report to include information on certificated employee assignment practices in schools ranked in deciles 1 to 3, inclusive, of the Academic Performance Index, as defined, to ensure that in any classes in these schools in which 20% or more pupils are English learners, the assigned teachers possess a certificate authorizing the holder to teach English language development to English learners or have completed training that would authorize them to teach English language development to English learners or are otherwise authorized by statute to do so. By adding these new requirements to the duties of county superintendents of schools, the bill would impose a state-mandated local program.

The bill would require the Superintendent of Public Instruction to submit a summary of the reports submitted by county superintendents of schools to the Legislature and would authorize the Legislature to hold public hearings on pupil access to teachers and to related statutory provisions.

(4) Existing law requires the Commission on Teacher Credentialing to grant an appropriate credential to an applicant from another state who completes teacher preparation that is at least comparable and equivalent to preparation that meets teacher preparation standards in California if the applicant has met the requirements of California for the basic skills proficiency test and teacher fitness.

This bill would delete the basic skills proficiency test requirement for these teacher credentialing applicants if the commission determines, as specified, that the applicant has met a comparable requirement.

(5) Existing law requires an out-of-state prepared teacher who is issued a California 5-year preliminary multiple subject, single subject, or education specialist teaching

credential to pass the state basic skills proficiency test, administered by the Commission on Teacher Credentialing, within one year of the issuance date of the credential in order to be eligible to continue teaching.

This bill would delete this requirement, if the commission determines, as specified, that the applicant has met a comparable requirement.

(6) Existing law requires the commission to issue a professional clear credential to an out-of-state prepared teacher who meets certain requirements among which are passing the state basic skills proficiency test administered by the commission and completing the study of health education and of a fifth-year program at a regionally accredited institution of higher education.

This bill would delete the requirements regarding the state basic skills proficiency test and a fifth-year program, if the commission determines, as specified, that the applicant has met comparable requirements. The bill would delete the health education requirement.

The bill would require the Commission on Teacher Credentialing, by June 30, 2005, to report to the Legislature and the Governor on the comparability and equivalency of the preparation of teachers in other states in the areas of basic skills proficiency and fifth year programs.

(7) Existing law establishes university and district teacher intern programs.

This bill would require the Commission on Teacher Credentialing to ensure that each district and university internship program in California provides program elements to its interns as required by the federal No Child Left Behind Act of 2001 and its implementing regulations.

(8) Existing law establishes the Principal Training Program, administered by the Superintendent of Public Instruction, with the approval of the State Board of Education. Incentive funding is awarded pursuant to the program to provide schoolsite administrators with instruction and training in areas that include, among others, school financial and personnel management and the curriculum frameworks and instructional materials aligned to the state academic standards.

This bill would require that instruction and training in school financial and personnel management include instruction related to personnel management, including hiring, recruitment and retention practices and misassignments of certificated personnel and that instruction and training in the curriculum frameworks and instructional materials aligned to the state academic standard include instruction and training to ensure the provision of sufficient textbooks and instructional materials as required by law.

(9) Existing law establishes within the Public Schools Accountability Act of 1999, the High Priority Schools Grant Program and requires a school district that has a school participating in the program to submit a report to the Superintendent of Public Instruction that includes specified information.

This bill would require that, commencing with the 2004–05 fiscal year, for a district with a school initially applying to participate in the program on or after July 2004, the report include whether at least 80% of the teachers assigned to the school are credentialed and the number of classes in which 20% or more pupils are English learners and assigned to teachers who do not possess a certificate authorizing the holder to teach English language development to English learners or have completed training that would authorize them to teach English language development to English learners or are otherwise authorized by statute to do so.

(10) Existing law requires the State Department of Education to establish a statewide system of school support that would provide intensive and sustained support and technical assistance for school districts, county offices of education, and schools in need of improvement. Existing law requires the system to provide assistance by reviewing and analyzing all facets of a school's operation and by assisting the school in developing recommendations for improving pupil performance and school operations.

This bill would require the review and analysis to include the recruitment, hiring, and retention of principals, teachers, and other staff, including vacancy issues and the roles and responsibilities of district and school management personnel. The bill would authorize the system to access the assistance of the Fiscal Crisis and Management Assistance Team to review district or school recruitment, hiring, and retention practices. The bill would require the system also to assist schools and districts in efforts to eliminate misassignments of certificated personnel.

(11) The bill would declare that the Legislature encourages school districts to provide all the schools it maintains that are ranked in deciles 1 to 3, inclusive, of the Academic Performance Index first priority to review resumes and job applications received by the district from credentialed teachers.

(12) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(13) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 903 (AB 2727) Daucher. Schools: uniform complaint process.

Existing regulations require each local educational agency to adopt policies and procedures for the investigation and resolution of complaints and require each local educational agency to include in its policies and procedures the person, employee, or agency position or unit responsible for receiving complaints, investigating complaints, and ensuring local educational agency compliance.

Senate Bill 550, of the 2003–04 Regular Session, would require a school district to use its uniform complaint process to help identify and resolve any deficiencies related to instructional materials, conditions of facilities that are not maintained in a clean and safe manner or in good repair, and teacher vacancy or misassignment. SB 550 would require a notice to be posted in each classroom in each school in the school district notifying parents and guardians that there should be sufficient textbooks or instructional materials, school facilities must be clean, safe, and in good repair, and the location to obtain a form to file a complaint in case of a shortage.

This bill would require a school district to use its uniform complaint process to help identify and resolve any emergency or urgent facilities conditions that pose a threat to the health and safety of pupils or staff instead of conditions of facilities that are not maintained in a clean and safe manner or in good repair.

This bill would become operative only if Senate Bill 850 is also enacted.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 904 (SB 1520) Burton. Force fed birds.

Existing law authorizes an officer to issue a citation to a person or entity keeping horses or other equine animals for hire if the person or entity fails to meet standards of humane treatment regarding the keeping of horses or other equine animals.

This bill would establish similar provisions regarding force feeding a bird, as defined. The bill would prohibit a person from force feeding a bird for the purpose of enlarging the bird's liver beyond normal size, and would prohibit a person from hiring another person to do so. The bill would also prohibit a product from being sold in the state if it is the result of force feeding a bird for the purpose of enlarging the bird's liver beyond normal size. The bill would authorize an officer to issue a citation for a violation of those provisions in an amount up to \$1,000 per violation per day.

The bill would provide that these prohibitions shall become operative on July 1, 2012.

Until July 1, 2012, this bill would prohibit an existing or future civil or criminal cause of action for engaging in an act prohibited by the bill, from proceeding against a person or entity engaged in, or controlled by persons or entities who were engaged in, agricultural practices that involved force feeding birds at the time of the enactment of this bill.

Ch. 905 (SB 18) Burton. Traditional tribal cultural places.

(1) Existing law establishes the Native American Heritage Commission and authorizes the commission to bring an action to prevent severe and irreparable damage to, or assure appropriate access for Native Americans to, a Native American sanctified cemetery, place of worship, religious or ceremonial site, or sacred shrine located on public property.

Existing law authorizes only specified entities or organizations, including certain tax-exempt nonprofit organizations, and local government entities to acquire and hold conservation easements, if those entities and organizations meet certain conditions.

This bill would include a federally recognized California Native American tribe or a nonfederally recognized California Native American tribe that is on the contact list maintained by the Native American Heritage Commission, among those entities and organizations that may acquire and hold conservation easements, as specified.

(2) Existing law requires the Office of Planning and Research to implement various long range planning and research policies and goals that are intended to shape statewide development patterns and significantly influence the quality of the state's environment and, in connection with those responsibilities, to adopt guidelines for the preparation and content of the mandatory elements required in city and county general plans.

This bill would require that, by March 1, 2005, the guidelines contain advice, developed in consultation with the Native American Heritage Commission, for consulting with California Native American tribes for the preservation of, or the mitigation of impacts to, specified Native American places, features, and objects. The bill would also require those guidelines to address procedures for identifying the appropriate California Native American tribes, for continuing to protect the confidentiality of information concerning the specific identity, location, character, and use of those places, features, and objects, and for facilitating voluntary landowner participation to preserve and protect the specific identity, location, character, and use of those places, features, and objects. The bill would define a California Native American tribe that is on the contact list maintained by the Native American Heritage Commission as a "person" for purposes of provisions relating to public notice of hearings relating to local planning issues.

(3) Existing law requires a planning agency during the preparation or amendment of the general plan, to provide opportunities for the involvement of citizens, public agencies, public utility companies, and civic, education, and other community groups, through public hearings and any other means the city or county deems appropriate.

This bill would require the planning agency on and after March 1, 2005, to refer the proposed action to California Native American tribes, as specified, and also provide opportunities for involvement of California Native American tribes. The bill would require that, prior to the adoption or amendment of a city or county's general plan, the city or county conduct consultations with California Native American tribes for the purpose of preserving specified places, features, and objects that are located within the city or county's jurisdiction. The bill would define the term "consultation" for purposes of those provisions. By imposing new duties on local governments with respect to consultations regarding the protection and preservation of California Native American historical, cultural, and sacred sites, the bill would impose a state-mandated local program.

On and after March 1, 2005, this bill would include open space for the protection of California Native American historical, cultural, and sacred sites within the definition of "local open-space plan" for purposes of provisions governing the preparation of the open-space element of a city and county general plan.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 906 (SB 1462) Kuehl. Military readiness activities: special use airspace.

(1) The Planning and Zoning Law requires the planning agency prior to action by a legislative body of a city or county to adopt or substantially amend a general plan, to refer the proposed action to specified entities, including, among other entities, any elementary, high school, or unified school district within the area covered by the proposed action and any areawide planning agency whose operations may be significantly affected by the proposed action, as determined by the planning agency.

The bill would include among those entities the branches of the United States Armed Forces when the proposed action lies within 1,000 feet of a military installation, within special use airspace, or beneath a low-level flight path and would require the Governor, on or before January 1, 2005, to develop processes to resolve conflicts between the military, a local or state agency, and a project applicant when the proposed project may have the potential to affect military readiness activities.

(2) The Planning and Zoning Law also requires each state agency and each local agency to compile one or more lists that specify in detail the information required from a project applicant as part of its statement of application for a development project and requires that copies of this information be made available to all project applicants and to any person who requests the information.

The bill would also revise the information required in the application by the project applicant when the proposed project is located within 1,000 feet of a military installation, beneath a low-level flight path, or within special use airspace, and would require the public agency to provide a copy of the complete application to any branch of the United States Armed Forces, as specified. The bill would authorize any branch of the United States Armed Forces to request consultation with the public agency and the project applicant to discuss the potential alternatives, mitigation measures, and the effects of the proposed project on military installations.

(3) The bill would provide that the provisions specified in (2) above are not operative until the Department of Defense provides electronic maps that identify military installations and special use airspace at a scale and in an electronic format that is acceptable to the Office of Planning and Research and provides other related information. By increasing the duties of local public officials, the bill would impose a state-mandated local program.

The bill would also require the Office of Planning and Research, within 30 days of its determination that the information is in an acceptable scale and format, to notify cities, counties, and cities and counties of the availability of the information on the Internet. It would require cities, counties, and cities and counties to comply with the provisions specified in (2) above within 30 days of receiving this notice.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) This bill would incorporate additional changes in Section 65352 of the Government Code proposed by SB 18 that would become operative only if SB 18 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 907 (SB 926) Knight. Economic development.

(1) Existing law establishes the California Defense Retention and Conversion Council in the Department of Housing and Community Development in the Business, Transportation and Housing Agency with specified members and duties related to defense retention and conversion and military base reuse activities in the state.

Existing law also requires the Office of Military Base Retention and Reuse, in the Technology, Trade, and Commerce Agency, to provide staff support to the council. The Technology, Trade, and Commerce Agency was abolished as of January 1, 2004.

This bill would repeal the provisions establishing and governing the California Defense Retention and Conversion Council. It would, until January 1, 2007, establish the Office of Military and Aerospace Support in the Business, Transportation and Housing Agency, and set forth its duties and authority with respect to state and local defense retention and conversion. It would provide that the Office of Military and Aerospace Support would be in the charge of a director who would be appointed by the Governor. The bill would authorize the office to establish a Military Advisory Committee with a specified membership.

This bill also would authorize the office to seek private funds for the operations of the office. The bill would establish the Military and Aerospace Support Account in the Special Deposit Fund in the State Treasury and require that any private funds the office accepts be deposited in that account. The bill would authorize, upon the approval of the Secretary of Business, Transportation and Housing, the office to expend moneys in the account, upon appropriation by the Legislature, for specified purposes of the office.

(2) Existing law requires the state to recognize a single local base retention entity for each active military base in the state if resolutions acknowledging the entity as the single local base retention entity are adopted by the affected local agencies and forwarded to the California Defense Retention and Conversion Council by July 1, 2002. A local entity awarded specified grant moneys prior to January 1, 2002, for a specified military installation, is recognized as the single local base retention entity. Local agencies are authorized to establish a joint powers authority for these purposes if a single local base retention entity cannot otherwise be identified or established. If the required resolutions are not adopted by January 1, 2002, and no local base retention entity has otherwise been recognized, the council is required to hold public hearings and recognize a single local base retention entity for each military base or recommend legislation or action by the local agency formation commission if necessary.

This bill would include United States Department of Defense installations within these provisions. It would delete references to the council and instead refer to the Office of Military and Aerospace Support. The bill would require the office to recognize a local retention authority for each active military installation, as defined, in the state, if a resolution has been adopted by entities within an identified affected local government, as defined, and forwarded to the office by October 1, 2004, and provide for recognition of an affected local government that has been awarded grant moneys prior to January 1, 2004. It would authorize the designation or establishment of a joint powers authority by multiple affected local governments under these provisions without requiring that a retention authority cannot be otherwise identified or established. It would also require the office to recognize a local retention authority for each military installation if no resolutions are adopted by October 1, 2004, and would delete the requirement for the office to hold public hearings in this regard, and to recommend legislation or action by a local agency formation commission.

(3) The Bergeson-Peace Infrastructure and Economic Development Bank Act authorizes the California Infrastructure and Economic Development Bank to make loans and provide other assistance to public and private entities for various types of projects with respect to public development facilities, as defined, among other things. The activities of the bank

under these provisions are funded from the California Infrastructure and Economic Development Bank Fund, which is continuously appropriated for these purposes.

This bill would include within the definition of “public development facilities” for these purposes, military infrastructure, including specified components, and subject to specified conditions. By providing for a new use of continuously appropriated funds, this bill would make an appropriation.

(4) The Planning and Zoning Law requires that a city or county general plan consist of various elements, including, among other things, a land use element that considers, among other things, the impact of new growth on military readiness activities carried out on military bases, installations, and operating and training areas, when proposing zoning ordinances or designating land uses covered by the general plan for land or other territory adjacent to those military facilities or underlying designated military aviation routes and airspace. Existing law requires that cities and counties address military impacts based on information that the military provides.

This bill would in addition require cities and counties to address military impacts based on information from other sources.

(5) The Planning and Zoning Law with respect to the open-space element, defines open-space land to include areas adjacent to military installations, military training routes, and restricted airspace that can provide buffer zones to military activities and complement the resource value of the military lands.

This bill would revise the definition of open-space land to instead include open space in support of the mission of military installations that comprises areas that are adjacent to military installations, military training routes, and underlying restricted airspace that can provide additional buffer zones to military activities and complement the resource values of the military lands.

(6) The Planning and Zoning Law provides that a city or county is not required to comply with the provisions of paragraphs (4) and (5) above until (a) a specified agreement is entered into between the federal government and the state to fully reimburse all claims approved by the Commission on State Mandates and paid by the Controller, and (b) until the city’s or county’s next general plan revision. These provisions become inoperative on the January 1 following the date that the agreement is deemed to be terminated, as specified.

This bill would instead provide that a city or county is not required to comply with these provisions until the city or county undertakes its next general plan revision.

(7) This bill would make the operation of its provisions contingent upon the prior enactment of AB 2565 of the 2003–04 Regular Session.

(8) This bill would incorporate additional changes in Sections 65302 and 65560 of the Government Code proposed by AB 2055, AB 3065, and SB 18, to be operative if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2005, and this bill is enacted last.

(9) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 908 (AB 2666) Maldonado. Vehicles: off-highway vehicle recreation areas.

(1) Existing law regulates the state park system with respect to use of the state vehicular recreation areas.

This bill would make technical, nonsubstantive changes in existing law.

(2) Existing law requires the Controller in July and January each fiscal year to allocate the funds collected from a \$4 fee that is imposed for the issuance of renewal of identification for each off-highway motor vehicle, in the same manner as vehicle license fees are allocated to cities, counties, and cities and counties.

This bill would require the funds collected from the imposition of the \$4 fee to instead be allocated to cities, counties, and cities and counties based on the Division of Off-Highway Motor Vehicle Recreation of the Department of Parks and Recreation’s proportional off-highway motor vehicle usage estimates within each city, county, and city and county

during the prior calendar year. The bill would make conforming changes in existing law. These provisions would become operative on January 1, 2006.

(3) Existing law prohibits a person from driving a vehicle in violation of restrictions placed on his or her driver's license, or when his or her driver's license has been suspended or revoked.

This bill would prohibit a person from operating an off-highway motor vehicle on specified lands when the person is in violation of a license restriction, or when the person's license has been suspended or revoked. Because a violation of this prohibition would be a crime under other provisions of existing law, the bill would impose a state-mandated local program by creating a new crime.

(4) Existing law prohibits a person from operating, transporting, or leaving standing certain off-highway motor vehicles, if the vehicle is not registered with the Department of Motor Vehicles or identified under certain provisions relating to off-highway vehicles. A violation of this prohibition is an infraction.

This bill would specify that riding in violation of seasons established under certain regulations relating to off-road vehicle engine pollution control is a violation of this prohibition. The bill thereby would establish a state-mandated local program by revising the definition of a crime.

(5) Existing law prohibits a person from operating a vehicle on the highway unless the vehicle is equipped as required under existing law.

This bill would prohibit a person from displaying a flashing or steady burning red or blue warning light on an off-highway motor vehicle, except as specified.

The bill would prohibit an off-highway motor vehicle, except an authorized emergency vehicle, from being equipped with a siren, and would prohibit a person driving an off-highway motor vehicle, except an authorized emergency vehicle, from using a siren, except as specified.

Because a violation of these prohibitions would be an infraction under other provisions of existing law, the bill would establish a state-mandated local program by creating new crimes.

(6) This bill would incorporate additional changes in Section 14601.2 of the Vehicle Code proposed by SB 1697, to be operative only if this bill and SB 1697 are enacted and become effective on or before January 1, 2005, each bill amends Section 14601.2 of the Vehicle Code, and this bill is enacted last.

(7) This bill would incorporate additional changes in Section 14601.5 of the Vehicle Code proposed by AB 3049, to be operative only if this bill and AB 3049 are enacted and become effective on or before January 1, 2005, each bill amends Section 14601.5 of the Vehicle Code, and this bill is enacted last.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 909 (SB 136) Figueroa. Professions and commissions.

(1) Existing law provides for a Joint Committee on Boards, Commissions, and Consumer Protection and authorizes the chairperson of a policy committee to refer to that committee any legislative issues or proposals that would have specified effects, including those that would increase licensing requirements.

This bill would authorize referral where the issues or proposals would make any change to licensing requirements or would modify the scope of practice.

(2) Existing law requires a person with a registered dental assistant license to, on or before January 1, 2005, provide evidence of having successfully completed board approved courses in radiation safety and coronal polishing.

This bill would instead require the evidence to be provided on or before January 1, 2006. The bill would require the holder of an inactive license to comply with this requirement only as a condition of returning his or her license to active status.

(3) Existing law exempts a physician and surgeon licensed by the Medical Board of California from payment of a renewal fee if he or she has applied to the Division of Licensing for a retired license.

This bill would require the board to refund any fees paid by a physician and surgeon who applied to convert from retired status to active status on or after January 1, 2004, but prior to January 1, 2005, except as specified. Existing law provides for a Medical Board of California Enforcement Program Monitor appointed by the Director of the California Medical Board. Existing law requires the board and its staff to provide the monitor with data, information, or case files requested by the monitor to perform his or her duties. Existing law requires the monitor to submit an initial written report of findings and conclusions to the board, the department and the Legislature prior to September 1, 2004, and requires the monitor to submit a final report prior to September 1, 2005.

This bill would provide that the provision of the data, information, or case files does not constitute a waiver of any exemption from disclosure or discovery or of applicable confidentiality protections or privileges. The bill would also change the deadline for submission of the initial written report to November 1, 2004, and the deadline for submission of the final report to November 1, 2005.

(4) Existing law, the Speech-Language Pathologists and Audiologists Licensure Act, provides for the licensing and regulation of speech-language pathologists and audiologists by the Speech-Language Pathology and Audiology Board, in the Department of Consumer Affairs. These provisions will become inoperative on July 1, 2006, and will be repealed on January 1, 2007.

This bill would instead make these provisions inoperative on July 1, 2007, and repeal them on January 1, 2008.

Existing law provides for the appointment of 9 members to the Speech-Language Pathology and Audiology Board. It limits service on the board to 2 consecutive 4-year terms.

This bill would, commencing November 30, 2004, stagger the terms of service on the board by revising the length of terms to one to 4 years, as specified, and would count that term for purposes of the 2 consecutive term limit. The bill would make succeeding terms 4 years each.

(5) Existing law provides for the licensing and regulation of occupational therapists by the California Board of Occupational Therapy. These provisions will become inoperative on July 1, 2006, and will be repealed on January 1, 2007.

This bill would instead make these provisions inoperative on July 1, 2007, and repeal them on January 1, 2008.

(6) Existing law provides for the licensing and regulation of optometrists by the State Board of Optometry in the Department of Consumer Affairs, and provides for the appointment of an executive officer for the board. These provisions will become inoperative on July 1, 2006, and will be repealed on January 1, 2007.

This bill would instead make these provisions inoperative on July 1, 2008, and repeal them on January 1, 2009.

(7) Existing law provides for the licensing and regulation of acupuncturists by the Acupuncture Board, requires the board to employ necessary personnel, and provides for the appointment of an executive officer for the board. These provisions will become inoperative on July 1, 2005, and will be repealed on January 1, 2006.

This bill would instead make these provisions inoperative on July 1, 2006, and repeal them on January 1, 2007.

(8) Existing law provides for licensing and regulation of marriage and family therapists and clinical social workers by the Board of Behavioral Sciences. Existing law requires applicants for licensure in these professions to meet certain requirements, including

authorizing an oral examination to be required of applicants. Existing law imposes certain examination fees on applicants, including fees for written and oral examinations.

This bill would revise provisions related to the oral examination and would instead require an applicant who is successful in passing the written examination and who has not passed an oral examination to take and pass a clinical vignette written examination. The bill would establish the fee for taking the clinical vignette written examination at \$100 and the fee for reexamination at \$150. The bill would authorize the board to adjust all examination fees for these professions beginning on January 1, 2005, to reflect actual costs incurred in holding the examinations. The bill would make other related changes.

(9) Existing law provides for licensing and regulation of accountants by the California Board of Accountancy. Existing law, until January 1, 2006, establishes various examination requirements for persons seeking a certified public accountant certificate from the board.

This bill would extend the operation of certain of these provisions until January 1, 2010. The bill would revise certain examination requirements and make various other changes.

(10) Existing law, the Private Security Services Act, requires registration of security guards and security patrolpersons by the Bureau of Security and Investigative Services. Under the act, these registrants are required to complete 32 hours of training in security officer skills.

This bill would allow a registrant who is unable to provide evidence of having completed this training, to fulfill this requirement within 6 months of employment as a security guard or security patrolperson.

(11) Existing law, the Contractors' State License Law, creates the Contractors' State License Board and makes it responsible, through its registrar, for the licensure and regulation of contractors. Under this law, a licensure applicant is required, effective July 1, 2004, to submit a set of fingerprints for the board to obtain criminal history information from the Department of Justice and the United States Federal Bureau of Investigation.

This bill would instead require the board to obtain a licensure applicant's criminal history information from the Department of Justice when sufficient funds are available to the board and department for this purpose or on July 1, 2005, whichever occurs first.

(12) Existing law establishes the California Heritage Preservation Commission, the Commission for Economic Development, the Boating and Waterways Commission, and the Off-Highway Motor Vehicle Recreation Commission, with specified powers and duties.

This bill would terminate these commissions on July 1, 2006.

(13) Existing law establishes the Bureau for Private Postsecondary and Vocational Education in the Department of Consumer Affairs, and requires the bureau to make various determinations and to report to both the Director of Consumer Affairs and the Joint Committee on Boards, Commissions, and Consumer Protection by October 1, 2005.

This bill would instead require the bureau to report to those entities by March 1, 2005.

(14) This bill would incorporate additional changes in Section 5090.15 of the Public Resources Code proposed by AB 2666 that would become operative only if AB 2666 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

(15) This bill would provide that its provisions are severable.

(16) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 910 (SB 311) Sher. Education: class size.

Existing law establishes the Class Size Reduction Program, in which participating school districts are provided funding for each class in which the class size is reduced to a ratio of 20 pupils to 1 teacher in kindergarten and any of grades 1 to 3, inclusive.

Existing law requires the Class Size Reduction Program to be implemented in accordance with a prescribed order of priority based on grade level and requires the Controller to deduct a specified amount from the next principal apportionment to the school district for each class that the district failed to reduce to a class size of 20 or less pupils.

This bill would, until July 1, 2009, require the Controller to deduct from the next principal apportionment of the district a specified amount based on the annual pupil enrollment of a class above a different prescribed number.

The bill would authorize a school district located in the County of Los Angeles, Riverside, San Bernardino, San Diego, or Ventura to claim class size reduction funding for the 2003–04 school year based on enrollment counts before the October 2003 fires, in those classes if the district lost enrollment due to those fires.

The bill would declare that due to the unique circumstances relating to the Counties of Los Angeles, Riverside, San Bernardino, San Diego, and Ventura, a general statute cannot be made applicable.

The bill would make other technical changes.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 911 (SB 102) Burton. State teachers' retirement: service credit.

Under existing law, retirement benefits under the Defined Benefit Program of the State Teachers' Retirement Plan are based on the member's final compensation and years of credited service. Generally, final compensation is the highest average annual compensation earnable by the member during a 3-year period. However, for a member with 25 or more years of credited service, final compensation is the highest average annual compensation earnable by the member during a one-year period. Also, a member is entitled to certain increases in the amount of his or her monthly retirement allowance if the member has 30 or more years of credited service. The calculation of credited service under each of these provisions excludes credit for unused sick leave.

This bill would include credit for up to  $\frac{2}{10}$  of one year of unused sick leave in the calculation of credited service for purposes of those provisions. The bill would make related technical changes.

The bill would also appropriate \$124,000 from the Teachers' Retirement Fund to the Teachers' Retirement Board to modify the system's database of member accounts, as specified.

Ch. 912 (AB 2233) Committee on Public Employees, Retirement and Social Security. State teachers' retirement.

(1) The Teachers' Retirement Law establishes the Defined Benefit Program of the State Teachers' Retirement Plan.

This bill would make technical changes to various provisions of that law.

(2) Existing law prescribes the rights and benefits of the spouse, surviving spouse, or former spouse of a member of the Defined Benefit Program, or a participant of the Cash Balance Benefit Program, of the State Teachers' Retirement Plan. Existing law, as of January 1, 2005, grants registered domestic partners the same rights, benefits, and protections and subjects them to the same responsibilities, duties, and obligations as are granted to or imposed upon spouses.

This bill would specify that the provisions of the Teachers' Retirement Law applicable to a spouse, surviving spouse, or former spouse also apply to a registered domestic partner, surviving domestic partner, or former domestic partner, except as specified.

(3) The Teachers' Retirement Law requires a beneficiary designation by a member of the Defined Benefit Program to be witnessed by 2 witnesses.

This bill would eliminate that requirement.

(4) Existing law specifies the conditions that are required to be met for a service retirement allowance to become effective under the Defined Benefit Program of the State Teachers' Retirement Plan.

This bill would permit a member who files a retirement application to change or cancel that application as long as the form is received by the system no later than a specified date.

(5) Existing law establishes the service retirement allowance for a member of the Defined Benefit Program of the State Teachers' Retirement Plan who retires and reinstates or receives a disability allowance, as specified. A service retirement calculated under those provisions excludes certain types of service credit.

This bill would additionally exclude the purchase of redeposits of contributions pursuant to specified provisions.

(6) Existing law governing the State Teachers' Retirement System requires the Teachers' Retirement Board to establish a vendor registration process by which information about tax deferred investment products is made available to employees.

This bill would revise those provisions to specify, among other things, that the term "broker-dealer" as used in those provisions means broker-dealers who offer a proprietary 403(b) product, as defined, or who charge fees that are otherwise not disclosed.

(7) Existing law requires the governing board of a school district to grant an employee a leave of absence to enable the employee to serve as an elected officer of an employee organization.

This bill would make technical changes to that provision.

(8) This bill would declare that any act that amends or repeals any of the sections amended by this act shall prevail over this act.

#### Ch. 913 (SB 391) Florez. Pesticide drift exposure.

Under existing law, the Department of Pesticide Regulation is charged with enforcing pesticide laws and regulations, violation of which is subject to criminal and civil sanctions and penalties. Existing law establishes the Department of Pesticide Regulation Fund.

Existing law establishes reporting requirements relating to pesticide poisoning, and requires the Office of Environmental Health Hazard Assessment to develop and implement a program to alert physicians and others regarding symptoms, diagnosis, and treatment.

This bill would, in addition to other penalties, make any person found to have violated provisions relating to pesticides, liable for certain costs related to a resulting illness or injury. The bill would provide that the exposure of each person to pesticide shall constitute a separate violation of related provisions, thereby imposing a state-mandated local program by changing the disposition of a crime.

This bill would require the California Environmental Protection Agency to establish minimum standard protocols for the purposes of amending area plans and would require the certified uniform program agency to amend the area plan for emergency response accordingly. By requiring local agencies to comply with these requirements, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 914 (AB 1858) Steinberg. Foster children: education.

Existing law requires the California School Information Services program administrator to submit to the State Board of Education a plan to administer, coordinate, and manage the development and implementation of an electronic statewide school information system to address current problems of information exchange. Existing law requires the plan to prescribe the set of statewide data elements and codes to be implemented by the California

School Information Services and requires these data elements and codes to comply with specified privacy provisions.

This bill would require the State Department of Education to ensure that the California School Information Services' system meets the needs of pupils in foster care and includes disaggregated data on pupils in foster care.

Existing law requires the Superintendent of Public Instruction, with approval of the State Board of Education, to develop an Academic Performance Index (API), to measure the performance of schools, especially the performance of pupils, and to demonstrate comparable improvement in academic achievement by all numerically significant ethnic and socioeconomically disadvantaged subgroups within schools.

Existing law authorizes a school under the jurisdiction of a county board of education or a county superintendent of schools, a community day school, or an alternative school to receive an API score if the school has 11 or more valid test scores and the school chooses to receive an API score for at least 3 years.

This bill would also expand this authority for nonpublic, nonsectarian schools.

Existing law requires the Superintendent of Public Instruction, with approval of the State Board of Education, to develop an alternative accountability system for schools with certain API scores and for certain other schools, including community day schools and alternative schools.

This bill would also require the Superintendent of Public Instruction to develop an alternative accountability system for nonpublic, nonsectarian schools.

Existing law makes each school district, special education local plan area, or county office of education responsible for providing appropriate education to individuals with exceptional needs residing in a licensed children's institution or foster family home located in the geographical area covered by the local plan. Existing law defines a licensed children's institution as a residential facility that is licensed, as specified, to provide nonmedical care to children, including individuals with exceptional needs.

This bill would prohibit a licensed children's institution and a residential care facility from requiring, as a condition of admission or residency, that a child be identified as an individual with exceptional needs.

Existing law makes each school district, special education local plan area, or county office of education responsible for providing appropriate education to individuals with exceptional needs residing in a licensed children's institution or foster family home located in the geographical area covered by the local plan. Existing law requires the school district, special education local plan area, or county office of education, in providing appropriate programs, to first consider services in programs operated by a public education agency. Under existing law, if those programs are not appropriate, special education and related services are required to be provided by contract with a nonpublic, nonsectarian school that is certified by the Superintendent of Public Instruction.

This bill would require a local educational agency that has placed an individual with exceptional needs residing in a licensed children's institution or foster family home in a nonpublic, nonsectarian school to conduct an annual evaluation, as part of the annual individualized education program process, of whether the placement is the least restrictive environment that is appropriate to meet the pupils' needs. The bill would require the nonpublic, nonsectarian school to report to the local educational agency that made the placement, on a quarterly or trimester basis, as appropriate, the educational progress demonstrated by the individual with exceptional needs towards the attainment of the goals and objectives specified in the individual's individualized education program.

Existing law enumerates the requirements for meetings of an individualized education program team.

This bill would require an individual with exceptional needs to be allowed, as part of his or her participation in the individualized education program process, to provide confidential input to any representative of his or her individualized education program team.

Existing law authorizes school districts, special education local plan areas, and county offices of education to enter into master contracts for the provision of special education and related services with nonpublic, nonsectarian schools or agencies, as defined, and requires the master contract to be developed in accordance with specified requirements, including, among others, that the master contract include a description of the process being utilized by the school district, county office of education, or special education local plan area to oversee and evaluate placements in nonpublic, nonsectarian schools.

This bill would require the local educational agency to, at least once every year and, to the extent possible, as part of the individualized education program process, conduct certain evaluations and considerations. To the extent this bill would impose additional duties on those local educational agencies, the bill would impose a state-mandated local program.

The bill would, in addition, require the master contract to include that, with respect to a nonpublic, nonsectarian school that is associated, as specified, with a licensed children's institution, there be a method of evaluating whether the school meets specified guidelines, and with respect to a nonpublic, nonsectarian school, the school be subject to the alternative accountability system of the Public School Performance Accountability Program in the same manner as public schools during the school's testing period, as specified, and each pupil placed in the school be tested in accordance with that accountability program, and the school prepare a school accountability report card, as provided. The bill would require the test results to be reported by the nonpublic, nonsectarian school to the State Department of Education.

Existing law authorizes a master contract for special education and related services provided by a nonpublic, nonsectarian school or agency only if the school or agency has been certified by the Superintendent of Public Instruction as meeting specified standards. Existing law sets forth the certification application process and procedures for the nonpublic, nonsectarian schools or agencies that seek certification and provides that the Superintendent of Public Instruction may certify a nonpublic, nonsectarian school or agency for a period of not longer than 4 years. Existing law requires that only those nonpublic, nonsectarian schools and agencies that provide special education that utilize staff who hold, or are receiving training under the supervision of staff who hold, a current valid California credential or license, as specified, may be certified.

This bill would instead authorize the Superintendent of Public Instruction to certify a nonpublic, nonsectarian school or agency for a period of not longer than 18 months, and would make related changes. The bill would require a nonpublic, nonsectarian school or agency to make notification of its intent to seek certification. The bill would require that only those nonpublic, nonsectarian schools and agencies that provide special education that utilize staff who hold a certificate, permit, or other document equivalent to that which staff in a public school would be required to hold may be certified.

This bill would require a nonpublic, nonsectarian school that provides special education and related services to an individual with exceptional needs to certify in writing to the Superintendent of Public Instruction that the school satisfies various requirements relating to, among others, access to standards-based curriculum and instructional materials, access to specific instruction and assistance, and a discipline policy.

Existing law authorizes the Superintendent of Public Instruction to monitor a nonpublic, nonsectarian school or agency onsite at any time without prior notice when there is substantial reason to believe that there is an immediate danger to the health, safety, or welfare of a child.

This bill would require the Superintendent of Public Instruction to conduct an investigation onsite at any time without prior notice under those circumstances and monitor the facilities, the educational environment, and the quality of the educational program of an existing certified nonpublic, nonsectarian school or agency on a 3-year cycle, as provided. The bill would also require the Superintendent of Public Instruction, with respect to a nonpublic, nonsectarian school, to conduct an investigation, which is to include an

unannounced onsite visit, if the Superintendent of Public Instruction receives evidence of a significant deficiency in the quality of educational services provided by the school or noncompliance with other specified requirements. The bill would place additional requirements on a nonpublic, nonsectarian school regarding financial recordkeeping, submitting an annual budget and an annual audit, and documenting services and programs.

Existing law requires the Superintendent of Public Instruction to charge a nonpublic, nonsectarian school or agency a reasonable fee for certification and requires the nonpublic, nonsectarian school or agency to pay the fee when it applies for certification and when it updates its application for annual review by the Superintendent of Public Instruction. Existing law prescribes the base fee for these purposes based on the number of pupils.

This bill would increase the base fees.

Existing law requires a school district, special education local plan area, or county office of education, upon receipt of a request from a nonpublic, nonsectarian school for payment for services provided under contract, to either send a warrant within 45 days or notify the school or agency within 10 working days of the reason why payment will not be made.

This bill would provide that any educational funds received from a local educational agency for the educational costs of individuals with exceptional needs it has placed in nonpublic, nonsectarian schools are to be used solely for those purposes and not for the costs of a residential program.

This bill would require the State Department of Education to implement a program, as provided, to integrate individuals with exceptional needs placed in nonpublic, nonsectarian schools into public schools.

Existing law prohibits a licensed children's institution at which individuals with exceptional needs reside from requiring as a condition of residential placement that it provide the appropriate educational programs to those individuals through a nonpublic, nonsectarian school or agency owned or operated by a licensed children's institution. Existing law provides that those services may only be provided if the special education local plan area determines that alternative educational programs are not available.

This bill would prohibit a licensed children's institution at which individuals with exceptional needs reside from requiring as a condition of residential placement that it provide the appropriate educational programs to those individuals through a nonpublic, nonsectarian school or agency owned, operated by, or associated with, a licensed children's institution. The bill would provide that those services may only be provided if the special education local plan area determines that appropriate public alternative education programs are not available.

This bill would require a nonpublic, nonsectarian school to ensure confidential communication between a pupil of the school and members of the pupil's individualized education program team, at the pupil's discretion.

This bill would change all references to a school district, special education local plan area, and county office of education in those provisions to a local educational agency, and would define a local educational agency as a school district, a county office of education, a charter school participating as a member of a special education local plan area, or a special education local plan area.

This bill would require the State Department of Education and the State Department of Social Services to collaborate with specified entities to increase access to federal funds for foster youth services.

This bill would also delete obsolete language and make related changes and various technical, nonsubstantive changes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 915 (SB 722) McPherson. School performance.

Existing law establishes the Public Schools Accountability Act of 1999 and requires the Superintendent of Public Instruction to develop an Academic Performance Index (API), which consists in part of the results of the tests administered pursuant to the Standardized Testing and Reporting (STAR) Program, to measure the performance of schools, to demonstrate comparable improvement in academic achievement by all numerically significant ethnic and socioeconomically disadvantaged subgroups within schools, and to rank schools based on the value of the API. The API measures the performance of schools and the academic performance of pupils and consists of a variety of indicators.

This bill would require that the comparable improvement in academic achievement be measured by the API for all numerically significant pupil subgroups at the school, including ethnic subgroups, socioeconomically disadvantaged pupils, English language learners, and pupils with disabilities. The bill would define a numerically significant pupil subgroup by requiring the test scores of the pupils in the subgroup to be valid test scores and by requiring the subgroup to meet certain other criteria to ensure that the subgroup is numerically significant as compared to the total pupil population.

Ch. 916 (SB 699) Sher. Local planning agencies: duties.

The Planning and Zoning Law requires the planning agency, after a legislative body has adopted all or part of a general plan, to provide an annual report, on or before October 1 of each year, to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development on the status of the general plan and progress in meeting the community's share of regional housing needs. The report is required to be prepared through forms and definitions adopted by the Department of Housing and Community Development.

The bill would require the report to include the degree to which the approved general plan complies with specified guidelines for the preparation of the mandatory elements of the general plan and the date of the last revision to the general plan.

Ch. 917 (SB 1215) Morrow. Department of Fish and Game and Department of Parks and Recreation: Public Resources Account and Environmental License Plate Fund appropriations.

(1) Under existing law, the Tobacco Tax and Health Protection Act of 1988, as added by Proposition 99, establishes the Cigarette and Tobacco Products Surtax Fund and authorizes moneys in the fund to be appropriated for specified purposes. Existing law establishes 6 separate accounts in that fund, including, among others, the Public Resources Account. Existing law requires the Public Resources Account to be available for appropriation only in equal amounts for both programs to protect, restore, enhance, or maintain fish, waterfowl, and wildlife habitat on an equally funded basis and programs to enhance state and local park and recreation resources.

This bill would, commencing July 1, 2005, transfer any moneys appropriated from the Public Resources Account in the Cigarette and Tobacco Products Surtax Fund for programs to protect, restore, enhance, or maintain waterfowl habitat, to the Department of Fish and Game for expenditure for those same purposes.

(2) Existing law establishes the California Environmental License Plate Fund, and authorizes the balance of the moneys in the fund, after the payment of administrative costs, to be available upon appropriation for expenditure only for specified exclusive trust purposes.

This bill would, commencing July 1, 2005, transfer any moneys appropriated to the Department of Fish and Game from the California Environmental License Plate Fund, in an amount not to exceed the amount transferred to the Department of Fish and Game pursuant to (1), to the Department of Parks and Recreation for expenditure for those exclusive trust purposes.

Ch. 918 (SB 1227) Soto. Horse racing: fairs: allocation of racing dates.

(1) Existing law authorizes the California Horse Racing Board to allocate racing weeks to an applicant or applicants, and to specify the racing days, dates, and hours for horse racing meetings. Existing law entitles any fair racing association that conducted racing in the central or southern zone prior to January 1, 1980, to be allocated up to 3 weeks of racing.

This bill would prohibit the board from allocating racing dates to a private thoroughbred association in the central or southern zone for the purpose of conducting thoroughbred racing during daytime or nighttime hours if a fair racing association is conducting racing in the central zone on the same dates and if that fair is obligated to make payments on a capital expense loan incurred for the purpose of improving its facilities for horse racing.

(2) Existing law permits any county or district agricultural association fair that is licensed to conduct racing meetings for the first time on or after January 1, 1979, to retain the license fee applicable to its meeting for payment of a capital expense loan incurred for the purpose of preparing its facilities for horse racing.

This bill would permit any county fair in the central zone that conducted fair racing meetings prior to January 1, 1980, commencing with the 2006 racing session, to retain a specified portion of the license fee applicable to its meeting for payment of a capital expense loan incurred for the purpose of improving its facilities for horse racing.

Ch. 919 (SB 1262) Sher. Charitable organizations: fundraising.

(1) Under existing law, the Supervision of Trustees and Fundraisers for Charitable Purposes Act governs charitable corporations, trustees, commercial fundraisers, fundraising counsel, and commercial coventurers who hold or solicit property or perform services for charitable purposes over which the Attorney General has enforcement and supervisory powers. Under the act, the Attorney General is also required to establish and maintain a register of charitable corporations and trustees subject to the act.

Existing law also requires the solicitor or seller of any solicitation or sales solicitation for charitable purposes to comply with specified disclosure requirements. Existing law also provides that any person, firm, corporation, partnership or association, or any employee or agent thereof who violates these provisions is guilty of a misdemeanor.

The act also requires a commercial fundraiser to register with the Attorney General's Registry of Charitable Trusts, as specified, and to file an annual financial report of funds solicited on behalf of each tax-exempt organization or for each charitable purpose, and requires every charitable corporation and trustee subject to the act to also register and file with the Attorney General specified periodic written reports.

This bill would revise disclosure requirements applicable to financial records that are maintained by a soliciting organization. By expanding the scope of an existing crime, the bill would impose a state-mandated local program.

The bill would also apply the act to unincorporated associations, except as specified, and other legal entities holding property for charitable purposes and would require every charity, subject to the act, to file with the Attorney General within 30 days after the corporation, unincorporated association, or trustee initially receives any property, except as to future interests in a charitable trust. The bill would also require charities that receive or accrue a gross revenue of \$2,000,000 or more, as specified, in any fiscal year, to prepare annual financial statements that are audited by an independent certified public accountant pursuant to standards for auditor independence, to appoint an audit committee, and make its annual audited financial statements available to the public, as specified.

The bill would require a commercial fundraiser who is not registered, to agree to register prior to the commencement of solicitation, and would require a commercial fundraiser, not less than 10 working days prior to the commencement of each solicitation, campaign, event, or service, or not later than commencement of solicitation for solicitations to aid victims of emergency hardship or disasters, to file a notice with the Attorney General's Registry of Charitable Trusts that contains specified information on a form prescribed by the Attorney General, and would prohibit any person from acting as a commercial fundraiser if he or she, or any person employed by the commercial fundraiser, has been convicted of a crime arising from the conduct of a solicitation for a charitable organization or purpose punishable as a misdemeanor or felony. The bill would also prohibit a commercial fundraiser from soliciting in this state on behalf of a charitable organization unless it is registered in this state or is exempt from registration with the Attorney General's Registry of Charitable Trusts.

The bill would also require that contracts for services between a charitable organization and a fundraising counsel be in writing and that a notice on a form prescribed by the Attorney General containing specified information be filed by the fundraising counsel with the Attorney General's Registry of Charitable Trusts at least 10 working days prior to the performance of the contract and would provide that the contract between a charitable organization and a commercial fundraiser or fundraising counsel contain specified provisions and are subject to cancellation requirements. The bill would also require a fundraising counsel to register with the Attorney General's Registry of Charitable Trusts or, if not registered, to agree to register prior to the commencement of any solicitation, and would require both a commercial fundraiser and fundraising counsel to maintain specified records for 10 years and to make the records available, including copies of their contracts with the charitable organization, for inspection upon demand by the Attorney General.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 920 (SB 1500) Speier. Vehicles: financial responsibility.

(1) Existing law establishes, until January 1, 2007, low-cost automobile insurance pilot programs for the County of Los Angeles and the City and County of San Francisco within the California Automobile Assigned Risk Plan. Existing law requires a person to meet certain requirements to be eligible for a low-cost automobile insurance policy under the pilot programs, including being in a household where the annual household income does not exceed 250% of the federal poverty level. Existing law requires these low-cost automobile insurance policies to include certain attributes, including offering coverage in specified amounts for bodily injury and property damage that results from an accident.

Existing law requires the Insurance Commissioner to report on an annual basis to the Senate and Assembly Committees on Insurance on certain aspects of the pilot program.

This bill would require the specified reports to include certain additional information.

(2) Existing law authorizes the department to suspend, cancel, or revoke the registration of a vehicle when it is determined that the vehicle registration was attained by providing false evidence of financial responsibility or upon notification by an insurance company that the required coverage has been canceled, as specified.

This bill, on and after January 1, 2006, would require, rather than authorize, the department to suspend, cancel, or revoke the registration under these circumstances.

This bill, on and after January 1, 2006, and for the duration of the specified low-cost automobile insurance pilot programs, would require the department to provide residents of Los Angeles County and San Francisco County with specified information regarding affordable automobile insurance on the suspension, cancellation, or revocation notification document, in plain, bold type not less than 12 point in size, and in both English and Spanish.

(3) Existing law does not require each insurer to electronically report to the department all motor vehicle liability insurance policies issued within 30 days of the effective date of the coverage.

This bill would require each insurer, except as specified, on or before January 1, 2006, to use electronic reporting, and would require, on or before July 1, 2005, each insurer to advise the department of the method to be used for reporting. The bill would impose duties on the department in connection with this requirement and would specify the contents of the electronic reports. The bill, on and after January 1, 2006, would also require specified electronic reports to be made within 45 days of a change (termination, amendments, or cancellations) of information previously reported on a policy or amendment, as specified by the department. The bill would require the department to determine satisfactory evidence as to specified alternative forms of financial responsibility.

Because, under existing law, a violation of the Vehicle Code is a crime, this bill would impose a state-mandated local program by creating a new crime.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 921 (SB 1543) Figueroa. California Board of Accountancy: tax preparers.

(1) Existing law provides for the licensing and regulation of accountants by the California Board of Accountancy in the Department of Consumer Affairs. The provisions creating the board, specifying the board's composition, and authorizing the board to appoint an executive officer become inoperative on July 1, 2005, and are repealed on January 1, 2006.

This bill would change these dates to provide that the provisions become inoperative on July 1, 2011, and are repealed on January 1, 2012. The bill would require the Department of Finance, notwithstanding specified provisions in the Budget Act, to authorize up to \$2,000,000 dollars in additional expenditures for the board's enforcement and litigation activities. The bill would require funds for these expenditures to be payable from the Accountancy Fund. The bill would authorize funds to be encumbered in any fiscal year in which the board enters into a contract for litigation or enforcement purposes, as specified. The bill would require funds encumbered for these purposes to be continuously appropriated. The bill would enact provisions authorizing an individual whose principal place of business is not in this state, and who has a valid and current license, certificate, or permit to practice public accountancy from another state, to engage in the practice of public accountancy in this state under certain conditions. The bill would also prohibit a licensed accountant from disclosing confidential information concerning a client or a prospective client without obtaining the client's written permission with specified exceptions. The bill would authorize the board to assess specified administrative penalties and would require fees from those penalties to be deposited in the Accountancy Fund.

(2) Existing law requires a tax preparer, prior to rendering any tax preparation service, to provide a customer with specified information in writing. A violation of the laws regulating tax preparers is a crime.

This bill would prohibit a tax preparer from disclosing confidential information concerning a client or a prospective client without obtaining the client's written permission.

Because a violation of the bill by a tax preparer would be a crime, it would impose a state-mandated local program.

(3) Existing law authorizes the Franchise Tax Board, when it identifies an individual who has violated specific provisions regulating tax preparers, to notify the California Tax Education Council, which is required to notify the Attorney General, a district attorney, or a city attorney. Existing law authorizes these entities to cite a violating individual, levy a fine of up to \$1,000 per violation, and issue a cease and desist order.

This bill would instead require that the Franchise Tax Board notify the California Tax Education Council when it identifies a violation. The bill would delete the requirement that the council notify the Attorney General, a district attorney, or a city attorney. The bill instead would authorize the Franchise Tax Board, pursuant to a reimbursement agreement with the California Tax Education Council, to cite a violating individual, levy a fine of up to \$5,000 per violation, and issue a cease and desist order. The bill would prohibit the Franchise Tax Board from incurring costs associated with citing, levying a fine, or issuing a cease and desist order unless certain conditions are satisfied.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 922 (SB 1590) Dunn. Public records: personal information.

The existing California Public Records Act provides that, except for exempt records, every state or local agency, upon request, shall make records available to any person upon payment of fees to cover costs.

This bill would exempt from disclosure under these provisions any personal information received, collected, or compiled by specified public agencies regarding the employees, volunteers, board members, owners, partners, officers, or contractors of a reproductive health services facility, as defined. The bill would specify how those individuals may request nondisclosure of the information and would specify other restrictions on the use of the information.

Ch. 923 (SB 1596) Ducheny. Taxation: delinquent taxes: public auction.

(1) Existing property tax law generally authorizes a county tax collector to sell tax-defaulted property 5 years or more, or 3 years or more, as applicable, after that property has become tax defaulted. Existing law also authorizes a public agency, as provided, or a nonprofit organization to file a written objection to a proposed sale of tax-defaulted property. The written objection shall include certain written statements regarding the potential public use of the property, in the case of a public agency, or certain written statements regarding the rehabilitation and use of the property for low-income persons, in the case of a nonprofit organization.

This bill would permit a city, county, city and county, or nonprofit organization to request the tax collector to bring any residential real property that is not occupied by the owner as his or her principal place of residence to the next scheduled public auction if the taxes on the real property have been delinquent for at least 3 years and the real property will provide housing or services directly related to low-income persons. This bill also enumerates information that must be included in the request, and requires the tax collector to include the real property in the next scheduled public auction upon receiving the request. This bill would require a deed restriction to be placed on real property acquired by a nonprofit organization, as specified, and would also make conforming changes with respect to the requirement to sell tax-defaulted property and the notice of that sale.

By imposing new requirements upon tax collectors, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would incorporate the substantive changes in Sections 3361, 3362, 3691, 3691.2, and 4217 of the Revenue and Taxation Code proposed by both this bill and AB 2144, which would become operative only if AB 2144 and this bill are both chaptered and become effective January 1, 2005, and this bill is chaptered last.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Ch. 924 (SB 1608) Karnette. Corrections: prisoners: foreign nationals.

Existing law requires that upon entry of any person who is an undocumented alien subject to deportation into a facility operated by the Department of Corrections, and at least every year thereafter, the Director of Corrections inform the person of his or her right to be transferred to his or her country of origin to serve the remainder of his or her prison term.

This bill would delete the annual notification requirement, would expand these provisions to include all foreign nationals, and would provide the person the option to serve the remainder of his or her term in his or her current or former nation of citizenship. The bill would also impose additional notification requirements, upon the request of a foreign consulate, as specified, on the director, including notifying consulates or embassies pursuant to the 1963 Vienna Convention on Consular Relations Treaty of the names and locations of all inmates in the department's custody that have self-identified that nation as his or her place of birth.

This bill would make other technical conforming changes.

Ch. 925 (SB 1752) Battin. State property: surplus.

Existing law requires the Department of General Services to perform various functions and duties with respect to state property.

This bill would authorize the Director of General Services to sell, exchange, lease, or transfer<sup>2</sup> specified parcels of state property: the Northern California Youth Reception Center and Clinic in Sacramento and the Fred C. Nelles Correctional Facility in Whittier. The bill would exempt the sale, exchange, lease, or transfer of the parcels from specified provisions of the California Environmental Quality Act. This bill would require that the net proceeds be deposited in the General Fund and would require the reservation of mineral rights, as specified.

Ch. 926 (SB 1757) Denham. State procurement: vehicles.

Existing law provides that no purchase order or other form of documentation for acquisition or replacement of motor vehicles shall be issued against any appropriation until the Department of General Services has investigated and established the necessity for the acquisition or replacement.

This bill would require that all contracts for acquisition of motor vehicles or general use mobile equipment for an executive branch officer or agency or the California State University be made by or under the supervision of the Department of General Services, and would permit the department to collect a fee to offset the cost of the services provided. The bill would request and encourage the University of California to have the department perform these tasks with respect to the acquisition or replacement of motor vehicles by the University of California.

Ch. 927 (SB 1765) Sher. Pharmaceuticals: marketing practices.

The Sherman Food, Drug, and Cosmetic Law regulates the packaging, labeling, and advertising of drugs and devices.

This bill would require a pharmaceutical company to adopt and update a Comprehensive Compliance Program that is in accordance with a related federal government publication. The bill would require the Comprehensive Compliance Program to include, among other provisions, policies on interactions with health care professionals and limits on gifts and incentives to medical or health professionals. The bill would require each pharmaceutical company to establish explicitly in its Comprehensive Compliance Program a specific annual dollar limit on gifts, promotional materials, or items or activities that the pharmaceutical company may give or otherwise provide to an individual medical or health care professional, with certain exemptions.

This bill would require a pharmaceutical company to (1) annually declare, in writing, compliance with the Comprehensive Compliance Program and the bill, (2) make its

Comprehensive Compliance Program and written acknowledgment of compliance available to the public on its Web site, and (3) provide a toll-free telephone number where a copy or copies of the Comprehensive Compliance Program and written declaration of compliance may be obtained.

The bill would require its provisions to become operative on July 1, 2005.

Ch. 928 (SB 1818) Hollingsworth. Density bonuses.

The Planning and Zoning Law requires, when a developer of housing proposes a housing development within the jurisdiction of the local government, that the city, county, or city and county provide the developer with a density bonus or other incentives or concessions for the production of lower income housing units within the development if the developer meets certain requirements, including a requirement that the applicant agree or propose to construct a specified percentage of the total units for specified income households or qualifying residents. Existing law also requires an additional density bonus or additional concession or incentive to be granted to a developer of housing that meets those requirements and includes a child care facility, as defined, subject to specified conditions. Existing law prohibits the legislative body from establishing fees to support the work of the planning agency that exceed the reasonable cost of providing the service for which the fee is charged.

This bill would revise the above-described provision to, among other things, require, when a developer seeks a density bonus for a housing development within, or for the donation of land within, the jurisdiction of the local government, that the local government provide a density bonus or other incentives or concessions for the production of housing units and child care facilities, as specified. By increasing the duties of local officials, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 929 (AB 1071) Matthews. Commercial feed: inspection tonnage tax.

Existing law establishes an inspection tonnage tax for commercial feed, as specified, with a maximum rate of 15¢ per ton. The funds collected are deposited into the continuously appropriated Food and Agriculture Fund.

This bill would repeal that provision on January 1, 2010. In addition, it would authorize the Secretary of Food and Agriculture to designate a specified amount of the tonnage taxes collected to provide funding for research and education regarding the safe manufacture, distribution, and use of commercial feed.

By expanding the purposes for which funds in a continuously appropriated fund may be spent, this bill would make an appropriation.

Existing law authorizes the collection of administrative fees, as specified, from renderers and collection centers in connection with rendering. Under existing law, these provisions will become inoperative on July 1, 2005, and will be repealed on January 1, 2006. Other provisions of existing law require the funds collected to be deposited into the continuously appropriated Food and Agriculture Fund.

This bill would extend the operative date of those provisions to July 1, 2010, and repeal them on January 1, 2011.

By extending the operation of those provisions of law requiring collection and deposit of funds into a continuously appropriated fund, this bill would make an appropriation.

Existing law generally regulates the transportation of inedible kitchen grease.

This bill would authorize any registered transporter or licensed renderer of inedible kitchen grease to deliver any inedible kitchen grease to a licensed renderer or collection center for processing or recycling into usable products, as specified.

Existing law provides that in addition to the required fee for registration as a transporter of inedible kitchen grease, the Department of Food and Agriculture may charge an additional fee necessary to cover the costs of administering provisions relating to transporters of inedible kitchen grease. Existing law provides that these provisions will become inoperative on July 1, 2005, and will be repealed on January 1, 2006. Other provisions of existing law require the funds collected to be deposited into the continuously appropriated Food and Agriculture Fund.

This bill would extend the operation of these provisions until July 1, 2010, and repeal them on January 1, 2011.

By extending the operation of these provisions of law requiring collection and deposit of funds into a continuously appropriated fund, this bill would make an appropriation.

Existing law generally regulates transporters of inedible kitchen grease.

This bill would, in addition, require that a registered transporter of inedible kitchen grease to, whenever any contract for the transportation of inedible kitchen grease under which that transporter provides transportation services is terminated or expires, notify the county health officer of the termination or expiration of the contract and that the registered transporter is no longer transporting inedible kitchen grease pursuant to that contract.

Ch. 930 (AB 1199) Berg. Trinity Public Utility District: health care district.

(1) The existing Local Health Care District Law establishes the manner in which a local health care district may be formed.

This bill would authorize the Trinity Public Utility District to exercise the powers of a health care district pursuant to the Local Health Care District Law.

(2) Existing law requires that a public utility district only acquire, own, or operate revenue producing utilities.

Notwithstanding that requirement, this bill would provide that the facilities and services that may be provided if the Trinity Public Utility District exercises powers of a health care district need not be financed on a self-sustaining, revenue-producing basis and would authorize the raising of revenue to defray the cost of the facilities and services.

(3) The existing Nonprofit Corporation Law authorizes the formation of a nonprofit public benefit corporation and requires the articles of incorporation of a nonprofit public benefit corporation to include a statement that the corporation is not organized for the private gain of any person and is organized for either public or charitable purposes.

This bill would authorize the Trinity Public Utility District to form a nonprofit public benefit corporation pursuant to the Nonprofit Corporation Law.

(4) This bill would repeal its provisions on January 1, 2008.

(5) This bill would make legislative findings and declarations as to the necessity of a special statute and would declare that it is to take effect immediately as an urgency statute.

Ch. 931 (AB 1546) Simitian. Local governments: vehicle fee for congestion and stormwater management programs.

Existing law provides for the imposition by air districts and other local agencies of fees on the registration of motor vehicles in certain areas of the state that are in addition to the basic vehicle registration fee collected by the Department of Motor Vehicles.

This bill would authorize the City/County Association of Governments of San Mateo County to impose an annual fee of up to \$4 on motor vehicles registered within San Mateo County for a program for the management of traffic congestion and stormwater pollution within that county. The bill would require the City/County Association of Governments of San Mateo County to have an independent audit performed on the program and to provide its findings to the Legislature. The bill would require a program with performance measures and a budget before the fee may be imposed. The bill would require the Department of Motor Vehicles, if requested, to collect the fee and distribute the proceeds, after deduction of specified administrative costs, to the association. The bill would require that the fees

collected may only be used to pay for programs bearing a relationship or benefit to the motor vehicles paying the fee, and would require the board of the association to make a specified finding of fact by a  $\frac{2}{3}$  vote. The fee would terminate on January 1, 2009.

Ch. 932 (AB 1796) Leno. Food stamps: eligibility.

Existing law provides for the Food Stamp Program, under which food stamps allocated to the state by the federal government are distributed to eligible individuals by each county. Existing law provides that a person convicted of specified felonies related to controlled substances shall be ineligible for aid under the Food Stamp Program.

This bill would provide that a convicted drug felon, with certain exceptions, shall be eligible for aid under the Food Stamp Program. The bill would require these Food Stamp Program applicants to have proof of completion of or other affiliation with a government-recognized drug treatment program, or other evidence that the illegal use of controlled substances has ceased.

The bill would authorize implementation of its provisions through an all-county letter or similar instruction, and would otherwise require the department to adopt implementing regulations by July 1, 2005.

By changing eligibility standards under the Food Stamp Program, this bill would increase the responsibilities of counties in the administration of the program, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 933 (AB 1825) Reyes. Sexual harassment: training and education.

Existing law makes certain specified employment practices unlawful, including the harassment of an employee directly by the employer or indirectly by agents of the employer with the employer's knowledge. Existing law further requires every employer to act to ensure a workplace free of sexual harassment by implementing certain minimum requirements, including posting sexual harassment information posters at the workplace and obtaining and making available an information sheet on sexual harassment.

This bill would require employers with 50 or more employees to provide 2 hours of training and education to all supervisory employees, as specified, within one year of January 1, 2005, unless the employer has provided sexual harassment training and education to employees after January 1, 2003. The bill would require each employer to provide sexual harassment training and education to each supervisory employee once every 2 years, after January 1, 2006. The bill would require the state to incorporate this training into the 80 hours of training provided to all new supervisory employees, using existing resources. The bill would provide that a claim that the training and education did not reach a particular individual does not automatically result in the liability of an employer for sexual harassment and that an employer's compliance with these provisions does not insulate the employer from liability for sexual harassment of any current or former employee or applicant. The bill would specify that the statute establishes a minimum threshold for training and education and that employers may provide training and education beyond that required by the statute to prevent and correct sexual harassment and discrimination.

Ch. 934 (AB 2554) Pavley. State teachers' retirement: postretirement earnings.

Under existing law, the service retirement allowance of a retired member of the Defined Benefit Program of the Teachers' Retirement Plan is reduced if the member's postretirement compensation from specified activities exceeds a certain dollar amount, except in specified circumstances.

Existing law exempts from that earnings limitation, until January 1, 2008, service performed in an emergency situation in certain vacant administrative positions for up to  $\frac{1}{2}$  of the full-time equivalent for that position, if certain conditions are met.

This bill would limit the period of that exemption to not more than 2 years after the date the retired member is appointed or assigned to that position.

Existing law also exempts from the earnings limitation, until July 1, 2005, any of a list of specified types of service performed by members who retired for service on or before January 1, 2000, if certain conditions were met.

This bill would extend that exemption until January 1, 2008, would expand it to apply to service performed by members who retired for service on or before January 1, 2004, and would expand the list of types of service subject to the exemption to include instruction and services provided to pupils in special education programs and English language learner programs.

Existing law also exempts from the earnings limitation direct remedial instruction, as specified, performed by retired members who retired for service on or before July 1, 2000.

This bill would expand that exemption to apply to those services performed by members who retired for service on or before January 1, 2004.

This bill would incorporate additional changes to Section 24216 of the Education Code proposed by AB 2753, contingent upon the prior enactment of that bill.

#### Ch. 935 (AB 1852) Mullin. State teachers' retirement.

(1) Existing law authorizes a school district, community college district, or county office of education to grant members of the Defined Benefit Program of the State Teachers' Retirement Plan 2 additional years of service credit or, prior to January 1, 2005, an additional 2 years of service and 2 years of age, if certain conditions are satisfied and the member retires for service within a designated period. Any member granted additional credit for service or service and age under those provisions forfeits that credit if he or she is reemployed within 5 years after retirement by the district from which he or she retired or within two years after retirement by any other district.

This bill would instead provide that any member granted additional credit for service or service and age under those provisions would not forfeit that credit if he or she is reemployed at any time after retirement by any other district.

(2) The Teachers' Retirement Law prescribes limits on the amount of postretirement income that may be earned in specified types of employment by a retired member of the Defined Benefit Program without a reduction in the member's retirement benefits. Specifically, that limit applies to a retired member who receives 2 additional years of service credit at retirement and performs creditable service within one year after retirement for the school district from which he or she retired.

Under this bill, that limit would apply to a retired member who receives those additional years of service credit at retirement and performs creditable service within one year after retirement for any school district, community college district, or county office of education in the state.

(3) Existing law authorizes members of the Defined Benefit Program of the State Teachers' Retirement Plan who retire prior to January 1, 2011, at a specified age or at a specified age with 30 years of service, to elect to receive a specified lump-sum payment upon retirement and an actuarially reduced monthly allowance.

This bill would authorize any member who retires prior to that date to make that election. The bill would also specify the method to be used by the Teachers' Retirement Board to

calculate the member's actuarially reduced monthly allowance, that results in no net actuarial impact to the program.

(4) This bill would incorporate additional changes in Section 24216 of the Education Code proposed by AB 2554 to become operative only if this and AB 2554 are both enacted on or before January 1, 2005, each bill amends Section 24216 of the Education Code, and this bill is enacted last.

(5) The bill would appropriate \$53,000 from the Teachers' Retirement Fund to the Teachers' Retirement Board to implement a specified provision.

Ch. 936 (AB 1916) Maddox. Occupancy taxes: exemptions and delinquencies.

(1) Existing law authorizes the legislative body of a city or county to impose an excise tax for the privilege of occupying a room or other living space in a hotel, inn, tourist home or house, motel, or other lodging, as provided.

This bill would clarify that these provisions also apply to a city and county. This bill would also require the legislative body of a city, county, or city and county that elects to exempt from these taxes certain foreign, federal, state, and local governmental employees and officers to create a form for these employees and officers to claim the exemption, as provided.

(2) Existing law authorizes county boards of supervisors to establish procedures for the collection of delinquent occupancy taxes.

This bill would require the legislative body of a city, county, or city and county that imposes an occupancy tax to establish procedures to allow prospective property owners that would be required to collect this tax to apply for, and be issued, an occupancy tax clearance certificate, as specified. This bill also would establish a 4-year statute of limitations for an action by any of these entities to collect past due occupancy taxes, except in cases of fraud or the failure of the property owner to file an occupancy tax return.

This bill states the Legislature's intent that this bill not be construed to make any changes to transient occupancy taxes that apply to charter cities and charter counties.

(3) This bill would incorporate additional changes in Section 7280 of the Revenue and Taxation Code proposed by AB 2252 that would become operative only if AB 2252 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 937 (AB 1933) Pacheco. Public records.

Under the California Public Records Act, except for exempt records, every state or local agency, upon request, is required to make records available to any person upon payment of fees to cover costs.

Under the act, records that are exempt from disclosure include law enforcement investigatory records, although address information of a crime victim and of an individual arrested for a crime may be disclosed to a licensed private investigator or to a requester declaring under penalty of perjury that the request is made for a scholarly, journalistic, political, or governmental purpose, subject to specified restrictions, including that the address information obtained under these provisions remain confidential and not be used directly or indirectly to sell a product or service.

This bill would provide that this address information may not be used directly or indirectly, or furnished to another, to sell a product or service. It would provide that nothing in these provisions shall be construed to prohibit or limit a scholarly, journalistic, political, or governmental use of this address information.

This bill would incorporate additional changes in Section 6254 of the Government Code, proposed by AB 2445, to be operative only if AB 2445 and this bill are both chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

Ch. 938 (AB 1959) Chu. State Auditor: drugs.

Existing law authorizes the Department of General Services to enter into contracts on a bid or negotiated basis with manufacturers and suppliers of single-source or multiple source drugs, authorizes the department to obtain from them discounts, rebates, or refunds as permissible under federal law, and provides that those contracts are exempt from competitive bid and other acquisition procedures applicable to the state acquisition of goods and services. Existing law requires the State Department of Mental Health, the Department of Corrections, the Department of the Youth Authority, and the State Department of Developmental Services to participate in the program, and authorizes other state, local, and public agency governmental entities to elect to participate in that contracting program.

Existing law, the Public Employees' Medical and Hospital Care Act, authorizes the Board of Administration of the Public Employees' Retirement System to contract with eligible carriers for health benefits plans for employees and annuitants and major medical plans or approve health benefits plans offered by employee organizations.

Existing law authorizes the State Department of Health Services to enter into contracts with manufacturers of single-source and multiple source drugs, on a bid or nonbid basis, for drugs from each major therapeutic category, and requires the department to maintain a list of those drugs for which contracts have been executed. Existing law also provides that those contracts are exempt from competitive bid and other acquisition procedures applicable to the state acquisition of goods and services.

This bill would require the State Auditor to conduct an audit of the state's procurement and reimbursement practices as they relate to the purchase of drugs for or by state agencies, as specified, and issue and provide to the Legislature an audit report no later than May 31, 2005, and an analysis of the implementation of the recommendations contained in the report.

#### Ch. 939 (AB 1979) Wiggins. Financial transactions.

Existing law requires a lender to set forth provisions for variable interest rates in security documents and evidence of the debt that are issued in this connection and to include specified provisions in these documents regarding variable interest rates. Existing law exempts supervised financial organizations from these requirements, and defines this term to include various entities, including state or federally regulated banks, savings associations, savings banks, or credit unions.

This bill would revise this definition to also exempt licensed finance lenders and licensed residential mortgage lenders.

Existing law sets forth the process for cancellation of a policy of insurance and requires a notice of cancellation to be in writing and to identify the grounds for cancellation.

This bill would provide that a lienholder's copy of this notice shall be deemed mailed if, with the lienholder's consent, it is delivered by electronic transmittal, facsimile, or personal delivery.

#### Ch. 940 (AB 2693) Wiggins. Lending.

Under existing law, real estate licensees are licensed and regulated by the Real Estate Commissioner and finance lenders and brokers are licensed and regulated by the Commissioner of Corporations.

This bill would prohibit real estate licensees and licensed finance lenders and brokers from failing to disburse funds in accordance with a commitment to make a loan, or intentionally delaying the closing of a loan for the purpose of increasing specified costs to the borrower.

Existing law defines a real estate broker as a person who, among other things, solicits borrowers or lenders for or negotiates loans or collects payments or performs other services for borrowers or lenders or note owners in connection with loans secured directly or collaterally by liens on real property or on a business opportunity.

This bill would require a real estate broker engaging in these activities who meets certain criteria to annually notify the Department of Real Estate in writing.

Existing law requires a lender to set forth provisions for variable interest rates in security documents and any evidence of the debt that are issued in this connection and to include specified provisions in these documents regarding variable interest rates. Existing law exempts supervised financial organizations from these requirements, and defines this term to include various entities, including state or federally regulated banks, savings associations, savings banks, or credit unions.

This bill would revise this definition to also exempt licensed finance lenders and licensed residential mortgage lenders.

Existing law sets forth the process for cancellation of a policy of insurance and requires a notice of cancellation to be in writing and to identify the grounds for cancellation.

This bill would provide that a lienholder's copy of this notice shall be deemed mailed if, with the lienholder's consent, it is delivered by electronic transmittal, facsimile, or personal delivery.

Because a willful violation of the bill relating to real estate licensees and finance lenders and brokers would be a misdemeanor, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 941 (AB 2024) Bermudez. Ports: transportation network.

Existing law provides that the Department of Transportation in the Business, Transportation and Housing Agency has full possession and control of all state highways. Existing law requires the department to engage in various transportation planning activities, including activities related to identification of intermodal corridors of economic significance.

This bill would require the Port of Los Angeles and the Port of Long Beach to evaluate changes to the goods movement network to gauge adherence by those ports to the certain state goals relative to utilization of and congestion at ports and to collect statistics regarding compliance with federal, state, and local efforts to achieve certain related objectives. The bill would require the ports to report to the Business, Transportation and Housing Agency, the Office of Goods Movement of the Department of Transportation, and the Assembly and Senate Committees on Transportation in this regard by January 31, 2005, and annually thereafter through 2007. Because the bill would place duties on the ports, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 942 (AB 2043) Lowenthal. Maritime Port Strategic Master Plan Task Force.

Existing law provides for the regulation of ports and harbors.

This bill would require the California Marine and Intermodal Transportation System Advisory Council, as defined, to meet on an unspecified basis, hold public hearings, and compile data on certain issues relating to the growth and congestion of maritime ports. The bill would request the council to compile specified information and submit its findings in a report to the Legislature not later than January 1, 2006. The bill would specify that the report should include recommendations on methods to better manage the growth of maritime ports and address the environmental impacts of moving goods through those ports.

The bill would prohibit the activities of the council pursuant to these provisions from being funded with appropriations from the General Fund.

Ch. 943 (AB 2121) Committee on Budget. Water resources.

Under existing law, the State Water Resources Control Board is responsible for the administration of water rights.

This bill would require the board to prepare annually a written summary, in chart form, of pending applications to appropriate water in the Counties of Marin, Napa, Sonoma, Mendocino, and Humboldt, and would require certain information to be included in that summary. The bill would authorize the board to post that information on its Web site. The bill would require the board, on or before January 1, 2007, to adopt principles and guidelines for maintaining instream flows in certain streams in accordance with state policy for water quality control, for the purposes of water right administration, and would authorize the board to adopt principles and guidelines for maintaining instream flows in other streams for those purposes.

Ch. 944 (AB 2144) Ridley-Thomas. Property taxation: tax-defaulted property: redemption period.

Existing law requires a tax collector to attempt to sell property that has become tax defaulted 5 years or more after that property has become tax defaulted, as provided. Existing law authorizes the tax collector to sell tax-defaulted property that is subject to a nuisance abatement lien 3 years or more after that property becomes tax defaulted, as specified.

This bill would require the county tax collector to attempt to sell tax-defaulted nonresidential commercial property, as defined, 3 years or more after the property becomes tax defaulted, unless a county elects not to have this requirement apply, as specified. This bill would specify that this requirement applies only to property that becomes tax defaulted on or after January 1, 2005. This bill also would require the tax collector to notify specified parties of an intended sale of nonresidential commercial property, as provided. This bill also would make conforming changes to related provisions.

This bill would incorporate the substantive changes in Sections 3361, 3362, 3691, 3691.2, and 4217 of the Revenue and Taxation Code proposed by both this bill and SB 1596, which would become operative only if SB 1596 and this bill are both chaptered and become effective January 1, 2005, and this bill is chaptered last.

Ch. 945 (AB 2248) Frommer. Parkinson's disease registry.

Existing law requires the State Department of Health Services to conduct a program of epidemiological assessments of the incidence of cancer and establish a system for the collection of information determining the incidence of cancer. Pursuant to these provisions, existing law authorizes the department to designate demographic parts of the state as regional cancer incidence reporting areas and establish regional cancer disease registries. Existing law requires any hospital or other facility providing therapy to cancer patients and health care practitioners diagnosing or providing treatment to cancer patients within a cancer reporting area to report each case of cancer to the department or the authorized representative of the department in a format prescribed by the department. Information collected pursuant to this registry is confidential, except as provided.

This bill would require the department to conduct a similar program of epidemiological assessments of the incidence of Parkinson's disease and establish a similar system for the collection of information determining the incidence of Parkinson's disease. The bill would provide that its provisions would be implemented only to the extent funds from federal or private sources are made available for this purpose and would require the department to provide notification of the receipt of sufficient private or federal funds to implement those provisions.

Ch. 946 (AB 2407) Bermudez. Kindergarten.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law authorizes the governing board of any school district to establish an early primary program consisting of same-age pupils or any combination of state preschool or child development program, kindergarten, 1st, 2nd, or 3rd grade pupils, based on an integrated, experiential, and developmentally appropriate educational program.

Existing law requires the governing board of a school district, except as specified, to maintain all of the elementary day schools established by it for an equal length of time during the school year.

This bill would authorize a school district that is implementing an early primary program to maintain kindergarten classes at different schoolsites within the district for different lengths of time during the schoolday.

Ch. 947 (AB 2580) Goldberg. Domestic partnerships.

(1) Existing law provides that a cause of action for the wrongful death of a person may be asserted by his or her domestic partner, as defined.

Under certain circumstances, this bill would allow a cause of action for wrongful death to proceed pursuant to the above although a Declaration of Domestic Partnership was not filed with the Secretary of State, if other specified requirements are met.

(2) Existing law provides for the establishment and termination of domestic partnerships, as specified. On and after January 1, 2005, existing law extends the rights and duties of marriage to persons registered as domestic partners. Existing law requires the Director of General Services, through the forms management center, to provide notice to state agencies, among others, that in reviewing and revising all public-use forms that refer to or use the terms spouse, husband, wife, father, mother, marriage, or marital status, that appropriate references to domestic partner, parent, or domestic partnership be included.

This bill would provide that any reference to the date of a marriage also be deemed to refer to the date of registration of a domestic partnership with the state with regard to, among other things, community property or the dissolution of a partnership. The bill would require the enforcement of a premarital agreement as between domestic partners registered with the state before January 1, 2005, if that agreement meets specified conditions, and would require the Secretary of State to include that information in a letter that the Secretary of State is required to send to registered domestic partners, as specified. The bill would further revise and recast certain references to domestic partners or partnerships in the above provisions as "registered" or "state-registered" domestic partners or partnerships, as specified, and would make a conforming change with respect to state forms.

Ch. 948 (AB 2709) Levine. Vehicle: financial responsibility.

Existing law requires every driver and every owner of a motor vehicle to be able, at all times, to establish financial responsibility, as defined, for the vehicle. Existing law requires, among other things, upon the renewal of registration of a motor vehicle with the Department of Motor Vehicles, that a form be submitted that includes a statement from the insurance company or surety company that the policy or bond meets the financial responsibility requirements.

This bill would require the department to develop a method by which law enforcement officers, on and after July 1, 2006, may electronically verify that an insurance policy or bond for a motor vehicle has been issued.

Ch. 949 (AB 2861) Koretz. Employment of offenders.

Under existing law, prison inmates and persons confined in a county jail, industrial farm, road camp, or city jail, or while performing community service in lieu of a fine or custody, who have been convicted of specified offenses, may not be employed so that they have access to personal information of private individuals, as specified.

This bill would make an exception to this prohibition on employment that permits access to certain personal information to permit adults assigned to work furlough, to have access

to driver's licenses and credit cards only for the time needed to complete an immediate transaction.

Ch. 950 (AB 2867) Nunez. Tenancy: residential hotels.

Existing law prohibits a person from requiring an occupant of a residential hotel, as defined, to move, or to check out and reregister, before the end of 30 days occupancy for the purpose of avoiding application of laws related to the hiring of real property.

This bill would provide that evidence that an occupant of a residential hotel, as defined, was required to check out and reregister creates a rebuttable presumption, solely affecting the burden of producing evidence, of the purpose of having an occupant maintain transient status, as specified.

Ch. 951 (AB 3065) Kehoe. General plan: safety element.

(1) The Planning and Zoning Law requires that a city or county general plan consist of various elements, including, among other things, land use, circulation, housing, open space, conservation, and safety elements, which are required to meet specified requirements. The safety element is for the protection of the community from unreasonable risks associated with, among other things, the effects of seismically induced surface rupture, ground shaking, ground failure, tsunami, seiche, dam failure, and wild land and urban fires.

This bill would revise and recodify the safety element requirements for state responsibility areas and very high fire hazard severity zones. The bill would require that its provisions apply to both cities and counties and would require, at least 90 days prior to the occurrence of specified actions by a city or county, that both the draft element or draft amendment to the safety element, and that an existing safety element pursuant to a specified schedule, be submitted to the State Board of Forestry and Fire Protection and to local agencies that provide fire protection to territory in the city or county. By imposing new duties on local agencies, the bill would create a state-mandated local program.

(2) This bill would incorporate additional changes to Section 65302 of the Government Code proposed by AB 2055 and SB 926, to become operative only if either or both of these bills are chaptered and become effective on or before January 1, 2005, and this bill is chaptered last.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 952 (AB 3049) Committee on Transportation. Motor vehicles: commercial.

(1) Existing law prohibits a person from failing or refusing to comply with a lawful out-of-service order issued by a peace officer.

This bill would prohibit a person from failing or refusing to comply with a lawful out-of-service order issued by the United States Secretary of the Department of Transportation.

(2) Existing law provides for the issuance of a commercial driver's license by the Department of Motor Vehicles.

This bill would require a person to establish California residence in order to be issued a commercial driver's license.

This bill would, if the State of California is decertified by the federal government and prohibited from issuing an initial, renewal, or upgraded commercial driver's license because the state is not in compliance with federal regulations, apply certain commercial driver's licensing requirements.

(3) Existing law prohibits a person from operating a schoolbus transporting one or more pupils at or below the 12th grade unless the person has in his or her immediate possession a valid certificate issued by the department to permit the operation of schoolbuses.

This bill would also require that person to possess a valid commercial driver's license with a passenger endorsement and be issued a schoolbus driver's certificate.

(4) Existing law requires the department to impose various penalties if a person refuses a peace officer's request to submit to, or fails to complete, a chemical test or tests to determine the alcohol content of his or her blood, as specified.

This bill would require the department to disqualify a person from operating a commercial motor vehicle for the rest of his or her life if that person has, on more than one occasion, refused the peace officer's request to submit, or fails to complete, a chemical test or tests while driving a motor vehicle and the peace officer provides the department with a specified sworn statement.

This bill would provide that whenever in the Vehicle Code the department is required to disqualify the commercial driving privilege of a person to operate a commercial motor vehicle upon the conviction of that person of violating that code, the suspension or revocation shall begin upon receipt by the department of a duly certified abstract of any court record showing that the person has been so convicted.

This bill would delete a provision allowing for the issuance of a restricted commercial driver's license to a person who was not operating a commercial motor vehicle at the time an offense occurred.

(5) Existing law prohibits a driver of a commercial motor vehicle from operating a commercial motor vehicle for one year if the driver is convicted of a first violation of specified vehicle-related offenses.

This bill would additionally include within the listed offenses using a motor vehicle to commit a felony, except as specified, operating a motor vehicle and refusing to submit, or failing to complete a chemical test or tests, and would delete the requirement that driving under the influence of alcohol or drugs, or both, occur while operating a commercial motor vehicle for the above provisions to apply.

(6) Existing law prohibits a driver of a commercial motor vehicle from operating a commercial motor vehicle for life if convicted of more than one violation of specific vehicle-related offenses.

This bill would include in those listed offenses the same additional offenses and charges made under paragraph (5), and would include certain additional offenses occurring while transporting a hazardous material.

(7) Existing law prohibits a driver from operating a commercial motor vehicle for life if the driver uses a commercial motor vehicle in the commission of a felony involving manufacturing, distributing, or dispensing a controlled substance, or possession with intent to manufacture, distribute, or dispense a controlled substance.

This bill would apply the lifetime disqualification from operating a commercial motor vehicle to the commission of the offense in any motor vehicle.

(8) Existing law prohibits a driver from operating a commercial motor vehicle for 60 days or 120 days, depending upon the occurrence of prior violations within specified periods involving certain serious traffic violations involving a commercial motor vehicle.

This bill would apply the above prohibitions to a driver convicted of a serious traffic violation involving a noncommercial motor vehicle, if the conviction of the offense resulted in the revocation, cancellation, or suspension of the driver's license.

(9) Existing law prohibits a driver from operating a commercial motor vehicle for 90 days, one year, or 3 years, based on the number of prior convictions for violating out-of-service orders.

This bill would impose enhanced driving restrictions on persons who violate out-of-service orders involving transportation of hazardous materials requiring placards or while operating a vehicle designed to transport 16 or more passengers, including the driver.

This bill would also impose civil penalties on the driver and on the driver's employer if that employer knowingly allows or requires an employee to operate a commercial motor vehicle in violation of out-of-service orders.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would impose a civil penalty of not more than \$10,000 on an employer that knowingly allows or requires an employee to operate a commercial motor vehicle in violation of a federal, state, or local law or regulation pertaining to railroad crossings.

This bill would provide that a driver whose driving is determined to constitute an imminent hazard, as defined, is disqualified from operating a commercial motor vehicle for the period specified by the federal Motor Carrier Safety Administration, that disqualification action would be made part of the driver's record, and a driver who is simultaneously disqualified under this provision and any other state law or regulation would be required to serve those disqualification periods concurrently.

(10) Existing law prohibits the suspension of the driving privilege of a person employed for the purpose of driving a motor vehicle for compensation whose occupation requires the use of a motor vehicle, in the course of his or her employment, that is not registered in his or her name, even though his or her privilege to drive is otherwise suspended under the state financial responsibility statute.

This bill would specify that these provisions do not apply to a commercial driver's licenseholder and that a commercial driver's licenseholder whose driving privilege is otherwise suspended under the state financial responsibility statute may not operate a commercial motor vehicle.

(11) Existing law makes it a serious traffic violation for purposes of the commercial motor vehicle safety program and a misdemeanor for a person who operates a commercial motor vehicle upon the highway at a speed exceeding by 15 miles per hour or more the maximum speed limit.

This bill would recast existing law and in addition would make it a serious traffic violation for and an infraction for a person who holds a commercial driver's license, as defined, and operates a noncommercial motor vehicle upon a highway at a speed exceeding a posted limit established under the Vehicle Code by 15 miles per hour or more.

(12) Under existing law, a person may have a complaint relating to the safe operation of a vehicle dismissed with a copy of that dismissal forwarded to the department after a person attends a licensed traffic violator school, licensed driving school, or other court-approved program of driving instruction. Existing law prohibits a court from ordering a person to attend traffic violator school in lieu of adjudicating an offense if the person was issued a notice to appear for a serious traffic violation, as defined, that occurred in a commercial motor vehicle, as defined.

This bill would recast and revise these provisions to provide that, in lieu of adjudicating a traffic offense committed by a person who holds a noncommercial class C, class M1, or class M2 driver's license, and with the consent of the defendant, a court may order that person to attend a licensed traffic violator school, a licensed driving school, or any other court-approved program of driving instruction.

The bill would prohibit a court from ordering or permitting a person who holds a class A, class B, or commercial class C driver's license to complete a licensed traffic violator school, a licensed driving school, or any other court-approved program of driving instruction in lieu of adjudicating any traffic offense committed by the holder of a class A, class B, or commercial class C driver's license.

This bill would also prohibit a court from ordering or permitting any person, regardless of the driver's license class, to complete a licensed traffic violator school, a licensed driving school, or any other court-approved program of driving instruction in lieu of adjudicating an offense that occurred in a commercial motor vehicle.

(13) Because provisions of this bill would expand the scope of existing crimes, this bill would impose a state-mandated local program.

(14) This bill would also make technical and conforming changes.

(15) This bill would incorporate additional changes in Section 1803.5 of the Vehicle Code proposed by AB 2377, to be operative only if this bill and AB 2377 are enacted and become

effective on or before January 1, 2005, each bill amends Section 1803.5 of the Vehicle Code, and this bill is enacted last.

(16) This bill would incorporate additional changes in Section 12804.9 of the Vehicle Code proposed by AB 1878, to be operative only if this bill and AB 1878 are enacted and become effective on or before January 1, 2005, each bill amends Section 12804.9 of the Vehicle Code, and this bill is enacted last.

(17) This bill would incorporate amendments to Section 13353 of the Vehicle Code contained in SB 1694 and SB 1697, with the amendments from each bill to become operative only if that section is amended by each bill, and this bill is enacted after the other bills.

(18) This bill would incorporate amendments to Section 13353.7 of the Vehicle Code contained in SB 1694 and SB 1697, with the amendments from each bill to become inoperative only if that section is amended by each bill, and this bill is enacted after the other bills.

(19) This bill would incorporate additional changes in Section 13369 of the Vehicle Code proposed by AB 2040, to be operative only if this bill and AB 2040 are enacted and become effective on or before January 1, 2005, each bill amends Section 13369 of the Vehicle Code, and this bill is enacted last.

(20) This bill would incorporate additional changes in Section 14601.5 of the Vehicle Code proposed by AB 2666, to be operative only if this bill and AB 2666 are enacted and become effective on or before January 1, 2005, each bill amends Section 14601.5 of the Vehicle Code, and this bill is enacted last.

(21) This bill would incorporate additional changes in Section 41501 of the Vehicle Code proposed by AB 2377, to be operative only if this bill and AB 2377 are enacted and become effective on or before January 1, 2005, each bill amends Section 41501 of the Vehicle Code, and this bill is enacted last.

(22) This bill would incorporate additional changes in Section 42005 of the Vehicle Code proposed by AB 2377, to be operative only if this bill and AB 2377 are enacted and become effective on or before January 1, 2005, each bill amends Section 42005 of the Vehicle Code, and this bill is enacted last.

(23) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(24) This bill would appropriate \$753,892 from the Motor Vehicle Account in the State Transportation Fund to the Department of Motor Vehicles for purposes of the bill.

(25) This act would become operative on September 20, 2005, except as provided.

#### Ch. 953 (AB 2897) Bogh. Prisoners: medical testing.

Existing law makes legislative findings and declarations concerning the spread of the human immunodeficiency virus (HIV) and acquired immunodeficiency syndrome (AIDS) within state and local correctional institutions. Existing law provides that a law enforcement employee who believes that he or she came into contact with bodily fluids of either an inmate of a correctional institution, a person who has been arrested or taken into custody, or a person on probation or parole, or an inmate of a correctional institution who believes that he or she has come into contact with the bodily fluids of another inmate, may request an HIV test of that person. Existing law requires that the chief medical officer of a correctional facility decide whether to order a test of an inmate who is the subject of a report by a law enforcement officer within 5 days. Existing law also provides that an inmate may request the testing of another inmate, as specified. Existing law provides that these provisions shall be repealed January 1, 2005, as specified.

This bill would delete the repeal of these provisions. This bill would amend legislative findings and declarations with respect to the exposure of law enforcement personnel to HIV. This bill would provide that an incident report filed by a law enforcement employee

containing a request for HIV testing of an inmate shall not be delayed, as specified. This bill would require that the chief medical officer decide whether to order a test of an inmate who is the subject of a report within 24 hours of receiving the report. This bill would provide that a test shall be ordered if the chief medical officer finds that there is a significant risk that HIV was transmitted. This bill would provide that an appeal of the decision of a chief medical officer whether to order the subject of a report to undergo HIV testing shall be heard within 7 calendar days. This bill would also provide that if an appeal is filed, the decision shall be rendered within 2 days of the hearing.

By requiring local officials to perform new duties and additional duties, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 954 (AB 2805) Ridley-Thomas. Redevelopment plans.

The existing Community Redevelopment Law imposes specified time limitations on redevelopment plans, including time limits on the effectiveness of the plans and time limits on the commencement of eminent domain proceedings to acquire property within the project area. The law also imposes limits on the number of dollars of taxes that may be divided and allocated to the redevelopment agency pursuant to the plans and limits the amount of the bond indebtedness that can be outstanding at one time without an amendment to the plans. The law prescribes procedures for the amendment of redevelopment plans.

This bill would authorize the City Council of the City of Los Angeles, by December 31, 2009, to adopt one ordinance to amend the redevelopment plan for the Hoover Redevelopment Project, as to both the original project area and the expanded project area to, among other things, extend or increase any or all of the above-described time and dollar limits, notwithstanding provisions of the law relating to the amendment of redevelopment plans. The bill would require the city council to submit the proposed ordinance to the California Infrastructure and Economic Development Bank for review and approval, as specified.

**BILL CHAPTERS****Ch. 1 (AB 13) Firebaugh. Workers' compensation: fraud.**

Existing law requires an insurer, upon written request of an authorized governmental agency, as defined, to release to the agency all relevant information deemed important to the agency that the insurer may possess relating to any specific workers' compensation insurance fraud investigation.

This bill would add any city attorney whose duties include criminal prosecutions and any law enforcement agency investigating workers' compensation fraud to the list of authorized governmental agencies to which an insurer must release this information.

**Ch. 2 (SB 2) Speier. Workers' compensation: insurance.**

(1) Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee for injuries sustained in the course of employment.

Existing law prohibits knowingly making or causing to be made certain false or fraudulent statements in connection with workers' compensation, and provides for specified penalties and the payment of restitution for violating these prohibitions. Existing law also authorizes an insurer or self-insured employer to provide a notice, on or with a check for temporary disability benefits, relating to acts that constitute fraud.

This bill would, commencing January 1, 2005, revise the contents of the notice, require the notice to be provided in both English and Spanish, and would make provision of the notice mandatory.

(2) Existing law makes it a misdemeanor to fail to secure the payment of workers' compensation benefits, punishable by imprisonment in the county jail for up to one year, a fine of up to \$10,000, or both.

This bill would revise the penalties applicable to the above offense, including establishing a separate term of imprisonment and fine for the 2nd and subsequent convictions, thereby imposing a state-mandated local program. The bill would give the court discretion to charge the convicted person the costs of investigation. It would also authorize the issuance of a search warrant when the property to be seized includes an item or evidence that tends to show a violation of these provisions.

(3) Existing law authorizes the director, at any time, to require an employer to furnish a written statement showing the name of his or her insurer, or the manner in which the employer has complied with his or her obligation to secure the payment of workers' compensation.

This bill would also authorize an investigator for the Department of Insurance Fraud Bureau, or its successor, or a district attorney investigator investigating workers' compensation fraud to require an employer to furnish the written statement described above.

(4) Existing law provides for the imposition of criminal penalties, including fines, on any person or entity who solicits, accepts, or refers any business to or from any individual or entity with the knowledge that, or with reckless disregard for whether, the individual or entity intends to violate certain provisions of law relating to insurance fraud.

Existing law also imposes criminal penalties, including fines, on persons who commit certain false or fraudulent acts in connection with an insurance claim.

This bill would revise the amounts of these fines. The bill would require the court to order restitution for these violations, and would allow the costs of investigation to be charged to any person convicted of violating these prohibitions.

(5) Existing law provides for periods of limitations of time after which a criminal complaint or indictment may not be filed against a defendant. Existing law permits those limitations of time to be extended or waived for various reasons. Under existing law, for specified crimes and categories of crime there is a delay in the commencement of the time

permitted for filing until the offense has been discovered, or could reasonably have been discovered.

This bill would add violations of provisions relating to transactions involving a monetary instrument that are related to criminal activity, to those for which the commencement of the applicable limitation of time commences only when the offense has been, or could reasonably have been, discovered.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**RESOLUTION CHAPTERS**

Res. Ch. 1 (SCA 1) Burton. Access to government information.

The California Constitution provides that the people have the right to instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good. Various provisions of existing law, including, among others, the California Public Records Act, the Legislative Open Records Act, the Bagley-Keene Open Meeting Act, and the Ralph M. Brown Act, provide, with some exceptions, for public access to government records and meetings of government bodies.

This measure would provide that the people have the right of access to information concerning the conduct of the people's business. It would provide that the meetings of public bodies and writings of public officials and agencies shall be open to public scrutiny.

This measure also would provide that any statute, court rule, or other authority, including those in effect on the effective date of this measure, shall be broadly construed if it effectuates the people's right of access, and narrowly construed if it limits the right of access. A statute, court rule, or other authority adopted after the effective date of this measure that limits the right of access shall be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

This measure also would provide that nothing in its provisions supersedes or modifies the right to privacy guaranteed by the California Constitution, or affects the construction of any statute, court rule, or other authority to the extent that it protects that right to privacy, including any statutory procedures governing discovery or disclosure of information concerning the official performance or professional qualifications of a peace officer. It would state that nothing in its provisions supersedes or modifies any provision of the California Constitution, including the guarantee of due process and equal protection.

It would state that its provisions do not repeal or nullify, expressly or by implication, any constitutional or statutory exception to the right of access to public records or meetings of public bodies that is in effect on the effective date of this measure, including any statute protecting the confidentiality of law enforcement and prosecution records.

The measure would state that its provisions do not repeal, nullify, supersede, or modify protections for the confidentiality of proceedings and records of the Legislature, the Members of the Legislature, and its employees, committees, and caucuses provided by certain provisions of the California Constitution, state law, or legislative rules adopted in furtherance of those provisions; nor do they affect the scope of permitted discovery in judicial or administrative proceedings regarding deliberations of the Legislature, the Members of the Legislature, and its employees, committees, and caucuses.

Res. Ch. 2 (ACR 141) Runner. Four Chaplains Day.

This measure would proclaim February 3, 2004, as Four Chaplains Day in honor of four chaplains of different faiths who aided men of all faiths on the U.S.A.T. Dorchester after it was attacked by German torpedoes and sank during the Second World War.

Res. Ch. 3 (ACR 143) Koretz. Spay Day USA 2004.

This measure would declare February 24, 2004, to be Spay Day USA 2004, and would request that Californians observe that day by having their dogs or cats spayed or neutered and by contributing to organizations that provide spay and neuter services.

Res. Ch. 4 (ACR 155) Jerome Horton. Dr. Martin Luther King, Jr. Day.

This measure would designate that January 19, 2004, be observed as the official memorial of the late Rev. Dr. Martin Luther King, Jr.'s birth, commemorate Dr. Martin Luther King, Jr. Day, the work of Dr. Martin Luther King, Jr., and the Civil Rights Movement in changing public policy in California and in the United States of America.

Res. Ch. 5 (ACR 157) Yee. Blood donors.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This measure would recognize January 2004, as “California Volunteer Blood Donor Month” and would declare it as the official start of a public effort to increase the number and diversity of blood donors in California. The measure would declare that the citizens of California pay tribute to those who donate blood for others in need, especially to those who donate blood on a regular basis.

Res. Ch. 6 (ACR 158) Yee. Mental Wellness Month.

This measure would recognize January 2004, as Mental Wellness Month in California, and would urge all Californians to take this opportunity to focus on their own mental wellness as well as the mental wellness of others.

Res. Ch. 7 (SJR 23) Ashburn. Military base closures.

This measure would resolve that the state, through the Legislature, the Governor, and the California Congressional delegation, request the President and Congress of the United States to include “intellectual capital” and “total mission support”, as defined, in the list of essential 2005 Base Realignment and Closure Act evaluation criteria.

Res. Ch. 8 (ACR 153) Montanez. Cervical Cancer Awareness Month.

This measure would recognize that January 2004, is “Cervical Cancer Awareness Month.” This measure would also declare the resolve of the Legislature to encourage and promote the efforts of people and health care practitioners in the state to increase awareness about cervical cancer, including the early detection, prevention, risk factors, and early warning symptoms and signs of the disease.

Res. Ch. 9 (ACR 160) Mountjoy. President Abraham Lincoln.

This measure would honor President Abraham Lincoln on his birthday.

Res. Ch. 10 (ACR 164) Haynes. Ronald Reagan Day.

This measure would recognize February 6, 2004, and subsequent yearly anniversaries thereafter, as Ronald Reagan Day.

Res. Ch. 11 (ACR 146) Chan. Women’s heart health.

This measure would recognize the month of February 2004, as American Heart Month in California in order to raise awareness of the effects of heart disease on women. The measure would also recognize February 6, 2004, as Wear Red for Women Day and would urge all citizens to become aware of the vital issues of women’s heart health by wearing and displaying the color red on that day. The measure would urge public support for the Go Red for Women events planned in their community during American Heart Month.

Res. Ch. 12 (ACR 161) Oropeza. California Girls and Women in Sports Week.

This measure would commemorate the accomplishments of female athletes, coaches, officials, and sports administrators for their important contribution in promoting the value of sports in the achievement of full human potential and would proclaim February 2 through 6, 2004, as California Girls and Women in Sports Week.

Res. Ch. 13 (ACR 165) Jerome Horton. Black History Month.

This measure would recognize February 2004 as Black History Month, urge all citizens to join in celebrating the accomplishments of African-Americans during Black History Month, and encourage the people of California to recognize the many talents, achievements, and contributions that African-Americans make to their communities.

Res. Ch. 14 (SCR 56) Figueroa. Joint Committee on Boards, Commissions, and Consumer Protection.

This measure would rename the Joint Legislative Sunset Review Committee the Joint Committee on Boards, Commissions, and Consumer Protection.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 15 (SCR 57) Margett. “Go Red for Women Day.”

This measure would proclaim February 6, 2004, as “Go Red for Women Day” in California, and would encourage all Californians to wear red on that day, in support of those women whose lives have been touched by heart disease or stroke.

Res. Ch. 16 (SJR 17) Morrow. Veterans benefits.

This measure would request the President and the Congress of the United States to enact legislation to establish a federal/state partnership to use local county veterans service officers to assist the United States Department of Veterans Affairs in eliminating the veterans claims processing backlog.

Res. Ch. 17 (ACR 173) McCarthy. California Nonprofits and Philanthropy Week.

This measure would proclaim March 14 to March 20, 2004, inclusive, as California Nonprofits and Philanthropy Week.

Res. Ch. 18 (SCR 52) Alpert. Family Empowerment Month.

This measure would designate the month of March of every year as Family Empowerment Month.

Res. Ch. 19 (ACR 61) Koretz. Financial Literacy Month.

This measure would declare the month of April 2004 as Financial Literacy Month, in order to raise public awareness about the need for increased financial literacy.

Res. Ch. 20 (ACR 159) Lieber. Myositis Awareness Day.

This measure would designate September 21, 2004, as Myositis Awareness Day.

Res. Ch. 21 (ACR 176) Bogh. George Washington’s birthday.

This measure would commemorate on February 22, 2004, the birthday of President George Washington.

Res. Ch. 22 (ACR 181) McCarthy. National Anthem Day.

This measure would proclaim March 3, 2004, as the anniversary of National Anthem Day.

Res. Ch. 23 (ACR 186) Frommer. Colorectal Cancer Awareness Month.

This measure would proclaim the month of March 2004, to be Colorectal Cancer Awareness Month.

Res. Ch. 24 (ACR 190) McCarthy. Stars of Life Day.

This measure would declare March 11, 2004, to be “Stars of Life Day” in recognition of the emergency medical services personnel who have been nominated for performing extraordinary acts of heroism, commitment, skill, and dedication in performance of their duties.

Res. Ch. 25 (ACR 192) Mullin. Irish-American Heritage Month.

This measure would designate March 2004 as Irish-American Heritage Month in honor of the multitude of contributions that Irish-Americans have made to the country and state.

Res. Ch. 26 (ACR 172) Nakano. Day of Remembrance.

This measure would declare February 19, 2004, as a Day of Remembrance in order to increase public awareness of the events surrounding the internment of Americans of Japanese ancestry during World War II, and would encourage the annual observance of this day in subsequent years so that children in California may learn from our history.

Res. Ch. 27 (ACR 174) Kehoe. Arts Education Month.

This measure would proclaim the month of March 2004 as Arts Education Month and encourage all educational communities to celebrate the arts with meaningful pupil activities and programs that demonstrate learning and understanding in the visual and performing arts. The measure would urge all residents to become interested in and give full support to quality school arts programs for children and youth.

Res. Ch. 28 (SCR 58) McPherson. California Private School Recognition Day.

This measure would declare each March 22 to be “California Private School Recognition Day.”

Res. Ch. 29 (SCR 42) Soto. Women In Pain Awareness Month.

This measure would recognize the important need to raise awareness concerning gender disparity in pain assessment and treatment in the United States, and would declare the month of February as Women In Pain Awareness Month.

Res. Ch. 30 (ACR 196) Firebaugh. César Chávez Day.

This measure would recognize March 31 as the anniversary of the birth of César Chávez, and would call upon all Californians to participate in appropriate observances to remember César Chávez as a symbol of hope and justice to all persons.

Res. Ch. 31 (SJR 15) Alarcon. Federal poverty level.

This measure would memorialize the President and Congress of the United States to ensure that the United States is working to meet the basic needs of all families, to begin a process to better calculate the federal poverty level, and to use existing models to calculate poverty, including geographical costs of living.

Res. Ch. 32 (SCR 54) Denham. World Languages and Cultures Month.

This measure would declare the month of May 2004, World Languages and Cultures Month.

Res. Ch. 33 (SCR 55) Alpert. Educational Options Month.

This measure would proclaim May as Educational Options Month and provide that the California Legislature encourage all Californians to work together to ensure the future success of every young student participating in educational options in our state.

Res. Ch. 34 (ACR 194) Chu. Sexual Assault Awareness Month.

This measure would resolve that the month of April be designated henceforth as Sexual Assault Awareness Month.

Res. Ch. 35 (ACR 201) Pavley. California Earth Day 2004.

This measure would declare April 22, 2004, “California Earth Day,” reaffirm the Legislature’s commitment to the fundamental principles of environmental laws, and encourage the state’s residents to promote the goals of Earth Day 2004.

Res. Ch. 36 (ACR 206) Nakano. California Space Day.

This measure would request that the Governor proclaim April 13, 2004, as California Space Day in recognition of the contributions made by the satellite industry.

Res. Ch. 37 (AJR 36) Dutton. Veterans benefits: Qualified Veterans Mortgage Bonds.

This measure would memorialize the President and Congress to enact legislation that would revise provisions of the Internal Revenue Code so that Qualified Veterans Mortgage Bonds may be issued by a state to fund home purchase and home improvement loans to certain additional veterans.

Res. Ch. 38 (AJR 66) Lieber. Equal Pay Day.

This measure would proclaim April 20, 2004, as Equal Pay Day, and would urge the Congress of the United States to protect the fundamental right of all American women to receive equal pay for equal work and to continue to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex and for other purposes.

Res. Ch. 39 (ACR 115) Canciamilla. Inspector Raymond J. Giacomelli Memorial Overcrossing.

This measure would designate the overcrossing at State Highway Route 4 and Loveridge Road in the City of Pittsburg in Contra Costa County as the Inspector Raymond J. Giacomelli Memorial Overcrossing. The measure would request the Department of Transportation to determine the costs of appropriate plaques and markers showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 40 (ACR 121) La Suer. Semper Fi Highway.

This measure would designate the section of State Highway Route 15 between State Highway Route 163 and Miramar Road in the County of San Diego as the Semper Fi Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 41 (ACR 131) Cox. William Alexander Leidesdorff, Jr. Memorial Highway.

This measure would designate a specified portion of State Highway Route 50 as the William Alexander Leidesdorff, Jr. Memorial Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 42 (ACR 135) Runner. Deputy Sheriff Stephen Sorensen Memorial Highway.

This measure would designate a specified portion of State Highway Route 138 as the Deputy Sheriff Stephen Sorensen Memorial Highway. The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 43 (ACR 139) Dymally. The Martin Luther King, Jr./Charles R. Drew Medical Center.

This measure would urge that the Martin Luther King, Jr. General Hospital, the Charles R. Drew University of Medicine and Science, and the University of California at Los Angeles to develop a joint advisory team to develop recommendations to the leadership of the Martin Luther King, Jr./Charles R. Drew Medical Center for training programs for residents at the center for accreditation purposes.

Res. Ch. 44 (ACR 147) Cohn. California Holocaust Memorial Week.

This measure would proclaim the time period of April 15 through April 30, 2004, as California Holocaust Memorial Week and would urge Californians to observe these days of remembrance for the victims of the Holocaust in an appropriate manner.

Res. Ch. 45 (ACR 166) Nation. Day of the Horse.

This measure would designate the 2nd Saturday of every December as the Day of the Horse.

Res. Ch. 46 (ACR 169) Koretz. Postpartum Mood and Anxiety Disorder Awareness Month.

This measure would proclaim the month of May 2004 to be "Postpartum Mood and Anxiety Disorder Awareness Month" in California. The measure would declare various ways to identify mothers-to-be who are at risk and ways to effectively facilitate a mother's recovery. The measure would declare that the State Department of Health Services and the State Department of Mental Health should work together to explore ways to improve women's access to mental health care at the state and local levels, to facilitate increased awareness and education about postpartum mood and anxiety disorders, to explore and encourage the use of prenatal screening tools, and to improve the availability of effective treatment and support services.

Res. Ch. 47 (ACR 199) Liu. Disaster Resistance Week.

This measure would declare the week of May 2, 2004, as Disaster Resistance Week and call upon state and local governments, corporations, educational institutions, nonprofit organizations, and members of the public to create new and improve partnerships in order to develop cost effective solutions to reduce the potential losses from future natural and human caused disasters, and to make every effort possible to implement mitigation measures.

Res. Ch. 48 (ACR 200) Corbett. California Earthquake Preparedness Month.

This measure would declare the month of April to be California Earthquake Preparedness Month and urge all Californians and government agencies to engage in education, evaluation of seismic hazards, mitigation, safety activities, and the exchange of information related to earthquake preparedness with other states and nations during that month.

Res. Ch. 49 (ACR 202) Levine. Library Week.

This measure would proclaim April 18 to 24, inclusive, 2004, as Library Week.

Res. Ch. 50 (AJR 57) Jackson. Reproductive rights: *Roe v. Wade*.

This measure would memorialize the Congress and the President of the United States to protect and uphold the intent and substance of the United States Supreme Court decision in *Roe v. Wade*, relating to reproductive rights, and to encourage all Americans to participate in the national celebration, "The March for Women's Lives," in recognition of that decision's historic importance in promoting women's rights.

Res. Ch. 51 (SCR 35) Florez. United States Navy Lieutenant Commander Otis Vincent Tolbert Memorial Highway.

This measure would name a specified portion of State Highway Route 198 as the United States Navy Lieutenant Commander Otis Vincent Tolbert Memorial Highway. The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 52 (SCR 45) Chesbro. Frank and Elly Hartmann Bridge.

This measure would designate a specified bridge on State Highway Route 29 as the "Frank and Elly Hartmann Bridge." The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 53 (SCR 46) Ashburn. Police Officer Richard Perkins Memorial Highway.

This measure would designate a portion of State Highway Route 395 in Inyo County as the Police Officer Richard Perkins Memorial Highway. The measure would request the Department of Transportation to determine the cost for appropriate signs showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 54 (SCR 66) McPherson. California Western Monarch Day.

This measure would declare February 5, 2004, and subsequent anniversaries thereafter, to be California Western Monarch Day.

Res. Ch. 55 (SCR 73) Battin. Mosquito and Vector Control and West Nile Virus Awareness Week.

This measure would declare May 3 through May 9, 2004, Mosquito and Vector Control and West Nile Virus Awareness Week.

Res. Ch. 56 (ACR 191) Leno. Firefighters.

This measure would honor firefighters from the Department of Corrections, the Department of the Youth Authority and the Department of Forestry and Fire Protection for their service during the fire season of 2003.

Res. Ch. 57 (ACR 212) Parra. California Peace Officers' Memorial Day.

This measure would honor California peace officers and commemorate Friday, May 7, 2004, as California Peace Officers' Memorial Day.

Res. Ch. 58 (ACR 214) Chan. Children's Fitness and Nutrition Week 2004.

This measure would proclaim the week of April 26 to April 30, 2004, to be YEAH!: Youth Eating and Acting Healthy!: Children's Fitness and Nutrition Week 2004.

Res. Ch. 59 (ACR 215) Yee. Relative to Children's Memorial Day.

This measure would proclaim the fourth Friday of April of every year as "Children's Memorial Day."

Res. Ch. 60 (ACR 104) Pavley. Day of the Teacher.

This measure would proclaim May 12, 2004, to be the Day of the Teacher and would urge Californians to observe that day.

Res. Ch. 61 (SCR 60) Battin. Child Abuse Prevention Month.

This measure would acknowledge the month of April 2004, as Child Abuse Prevention Month, and encourage the people of the State of California to work together to support youth-serving child abuse prevention activities in their communities and schools.

Res. Ch. 62 (SCR 62) Battin. California Indian Heritage Month.

This measure would proclaim November 2004 as California Indian Heritage Month, encourage its observance with activities that celebrate our uniqueness as Americans, and commend California Indian nations for their outstanding contributions to this state.

Res. Ch. 63 (SCR 74) Torlakson. California Fitness Month.

This measure would proclaim the month of May 2004, as California Fitness Month, and would encourage all Californians to enrich their lives through proper diet and exercise.

Res. Ch. 64 (SCR 75) Karnette. Love Your Neighborhood Week.

This measure would proclaim the week of May 9 to May 15, 2004, as Love Your Neighborhood Week in recognition of the importance of a clean neighborhood environment.

Res. Ch. 65 (ACR 182) Samuelian. Hmong-American Veterans Memorial Day.

This measure would recognize May 15 as Hmong-American Veterans Memorial Day.

Res. Ch. 66 (ACR 188) Maze. Arthritis Awareness Month.

This measure would proclaim May 2004, as Arthritis Awareness Month.

Res. Ch. 67 (ACR 218) Houston. Teacher Appreciation Week.

This measure would designate May 9 through May 15, 2004, Teacher Appreciation Week.

Res. Ch. 68 (AJR 41) Yee. Psychotropic drugs and youth: the federal Pediatric Research Equity Act of 2003.

This measure would commend the Congress and the President of the United States for recognizing the importance of testing the safety and effectiveness of drugs for pediatric use through the enactment of the Pediatric Research Equity Act of 2003.

Res. Ch. 69 (ACR 50) Negrete McLeod. Public Service Recognition Week.

This measure would recognize the week of May 3 through May 9, 2004, as Public Service Recognition Week, to honor those individuals who devote their careers to professional civil service, and encourage the people of the state, counties, cities, and special districts to observe this week with appropriate programs, ceremonies, and activities.

Res. Ch. 70 (ACR 205) Daucher. Autism Awareness Month.

This measure would proclaim April 2004 as Autism Awareness Month and would acknowledge the contributions made in the area of early autism intervention treatment by experts in the field and the sacrifice and dedication of families of autistic people. The measure would also declare the Legislature's support for increasing federal funding for autism research and the Legislature's continuing support of research into the causes and treatment of autism at the University of California, Davis M.I.N.D. Institute. The measure would commend the United States Department of Health and Human Services for the swift implementation of the Children's Health Act of 2000. The measure would stress the need to begin early intervention services soon after a child has been diagnosed with autism.

Res. Ch. 71 (ACR 207) Chan. School health.

This measure would proclaim May 12, 2004, as School Nurse Day.

Res. Ch. 72 (ACR 208) Pavley. State Parks Month.

This measure would declare May 2004 to be State Parks Month.

Res. Ch. 73 (ACR 210) Vargas. California SAFE KIDS Week.

This measure would declare the week of May 1 through May 8, 2004, as California SAFE KIDS Week, in support of the activities of the National SAFE KIDS Campaign during National SAFE KIDS Week, and would encourage Californians to participate in the state and local activities planned for the observance of that week.

Res. Ch. 74 (ACR 220) Correa. Black April Memorial Week.

This measure would proclaim April 23 through April 30, 2004, as Black April Memorial Week, a special time for Californians to remember the countless lives lost during the Vietnam War era and to hope for a more humane and just life for the people of Vietnam.

Res. Ch. 75 (ACR 227) Chu. Asian and Pacific Islander American Heritage Month.

This measure would commend Asian and Pacific Islander Americans for their notable accomplishments and outstanding service to the state and recognize May 2004 as Asian and Pacific Islander American Heritage Month.

Res. Ch. 76 (ACR 140) Wesson. Brown v. Board of Education and Equality in Education Day.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This measure would commemorate the *Brown v. Board of Education* (1954) 347 U.S. 483 decision and would observe May 17, 2004, as “*Brown v. Board of Education and Equality in Education Day*.” This measure would also urge the State Department of Education to provide model instructional materials to schools that encourages schools to observe the *Brown v. Board of Education* decision with appropriate educational activities that help pupils understand the importance of tolerance, humanity, and equality of opportunity.

Res. Ch. 77 (ACR 203) Garcia. California National Guard: “Adopt an Armory” program.

This measure would commend the California National Guard Strategic Planning Council for establishing the “Adopt an Armory” program for the restoration of California National Guard armories, and would urge the public to support the program.

Res. Ch. 78 (ACR 211) Mountjoy. The 200th Anniversary of the Lewis and Clark Corps of Discovery Expedition.

This measure would call on all Californians to commemorate the 200th Anniversary of the Lewis and Clark Corps of Discovery Expedition, which began on May 14, 1804.

Res. Ch. 79 (ACR 217) Mountjoy. National Day of Prayer.

This measure would recognize May 6, 2004, as a National Day of Prayer, and would encourage all the people of California to gather together in homes and places of worship to pray for their God’s blessings upon our state and our nation.

Res. Ch. 80 (ACR 219) Houston. National Scholarship Month.

This measure would recognize May 2004, and each May thereafter, as National Scholarship Month.

Res. Ch. 81 (ACR 223) Cohn. Women’s Health Month.

This measure would proclaim the month of May as Women’s Health Month.

Res. Ch. 82 (SCR 63) Morrow. POW Recognition Day.

This measure would designate April 9, 2004, as POW Recognition Day in California.

Res. Ch. 83 (SCR 71) Morrow. Military and veterans: D-Day.

This measure would commemorate the 60th anniversary of D-Day, the day Allied forces landed on the fortified beaches of Normandy, France, in opposition to Nazi tyranny, and would urge the people of California to honor the men and women of the United States who died in the pursuit of freedom and a just peace.

Res. Ch. 84 (SCR 79) Scott. American Stroke Month.

This measure would recognize the Month of May 2004 as American Stroke Month in California.

Res. Ch. 85 (ACR 222) Haynes. Small Business Month.

This measure would proclaim the month of May 2004 as Small Business Month and would encourage Californians to observe Small Business Month appropriately.

Res. Ch. 86 (ACR 226) Berg. Older Americans Month.

This measure would recognize the month of May 2004 as Older Americans Month and would encourage all Californians to promote and participate in activities and services that contribute to the health, welfare, and independence of older citizens.

Res. Ch. 87 (ACR 229) Kehoe. California Museum Month.

This measure would recognize the important role that museums have in the state and would proclaim May 2004 as California Museum Month.

Res. Ch. 88 (ACR 230) Garcia. Memorial day.

This measure would recognize May 31, 2004, as Memorial Day, and urge the people of California to honor the men and women of the United States who died in the pursuit of freedom and peace.

Res. Ch. 89 (ACR 232) Shirley Horton. Armed Forces Day.

This measure would recognize the 3rd Saturday of May as Armed Forces Day, a special day to educate the public about the role of the military and to celebrate the contributions of our servicemen and women.

Res. Ch. 90 (ACR 233) Parra. Yellow Ribbon Day.

This measure would proclaim May 22, 2004, as Yellow Ribbon Day, a special day for Californians to extend their sincerest appreciation for the sacrifices military families and our troops are making and to commemorate our troops and their families with ceremonial activities.

Res. Ch. 91 (SCR 82) Scott. Foster Care Month.

This measure would proclaim May 2004, as Foster Care Month, and provide that the California Legislature urges all citizens to volunteer their talents and energies on behalf of children in foster care, their foster and kinship parents, and the child welfare and legal professionals working in California this month and throughout the year.

Res. Ch. 92 (AJR 79) Chu. Corporate elections.

This measure would urge the United States Securities and Exchange Commission to implement its proposed shareholder participation rules in order to answer the call for badly needed reform, to improve corporate accountability, to restore investor confidence, and to provide shareholders with increased access to proxy to promote greater board oversight of corporate operations and responsiveness to shareholder concerns.

Res. Ch. 93 (AJR 64) Chu. Bias-motivated crimes.

This measure would state that the Legislature is, among other things, concerned by the number of bias-motivated crimes against Arab-Americans, Muslim-Americans, South Asian-Americans, Sikh-Americans, and other Americans in recent months and would call upon local, state, and federal law enforcement authorities to work to prevent bias-motivated crimes and to investigate and prosecute vigorously all bias-motivated crimes committed against all Americans, including Arab-Americans, Muslim-Americans, South Asian-Americans, and Sikh-Americans.

Res. Ch. 94 (SJR 16) Morrow. Military airfares.

This measure would urge airline companies in the United States to permanently establish reduced price airfares for active duty military personnel.

Res. Ch. 95 (SJR 28) Torlakson. Gasoline: MTBE.

This measure would memorialize the United States Environmental Protection Agency to reconsider granting an administrative waiver of the act's oxygenated gasoline requirement for the State of California, to the extent permitted by the federal Clean Air Act. The measure would also memorialize the United States Congress, if an administrative waiver is not granted, to enact legislation that would permit California to waive the oxygen content requirement for reformulated gasoline only if the fuel meets other requirements of the federal Clean Air Act for reformulated gasoline, and would memorialize the President of the United States to sign that legislation, if enacted.

Res. Ch. 96 (AJR 33) Dymally. Taiwan and the World Health Organization.

This measure would commend Taiwan on its contributions to promote world health and memorialize the President and Congress to take action necessary to endorse and obtain observer status for Taiwan at the annual weeklong summit of the World Health Assembly in Geneva, Switzerland.

Res. Ch. 97 (AJR 54) Pacheco. The federal medical assistance percentage (FMAP).

This measure would memorialize the President and Congress of the United States to revise the formula used to calculate the federal medical assistance percentage (FMAP) to consider, in addition to a state's per capita income, the total number of persons living in poverty in that state.

Res. Ch. 98 (AJR 70) Garcia. HIV and AIDS prevention and treatment for women.

This measure would memorialize the President and Congress of the United States to recognize and respond to the growing risk of women contracting, and the increased numbers of women who have contracted, HIV or AIDS by providing more funding for and financial participation in prevention, outreach, and treatment programs that specifically help women and their families who are living with or at risk of contracting HIV or AIDS.

Res. Ch. 99 (AJR 50) Pavley. Fuel cell vehicles.

This measure would state California's commitment to achieving a clean transportation future based on the rapid commercialization of hydrogen and fuel cell technologies, among other promising and complementary clean air and energy efficient technologies. The measure would request the United States Department of Energy to recognize California's progress and commitment to accelerating the commercialization of hydrogen and fuel cell vehicles and to ensure that appropriate federal funding be provided to support those activities in California.

Res. Ch. 100 (AJR 65) Bogh. Soboba Band of Luiseño Indians.

This measure would declare the support of the Legislature of California for the resolution of the ongoing negotiations between the Soboba Band of Luiseño Indians, the Eastern Municipal Water District and the Lake Hemet Municipal Water District, the Metropolitan Water District of Southern California, and the United States Department of the Interior to reach a water and land settlement that is consistent with federal law, would memorialize the United States Department of the Interior to give its full support to the settlement legislation, and would memorialize the United States Congress to pass that legislation.

Res. Ch. 101 (AJR 68) Parra. Federal child nutrition programs.

This measure would memorialize the Congress of the United States to eliminate the reduced price school meals program category and to instead expand the free school meals program category to provide free meals for all children in families that are below 185% of the applicable family size income level.

Res. Ch. 102 (SCR 83) Perata. California Aphasia Awareness Month.

This measure would declare that the Legislature recognizes June of each year as California Aphasia Awareness Month.

Res. Ch. 103 (SCA 18) Johnson. Primary elections: surplus state property.

(1) The California Constitution requires the Legislature to provide for primary elections for partisan offices, including an open presidential primary.

This measure would state that a political party that participated in a primary election for a partisan office has the right to participate in the general election for that office and shall not be denied the ability to place on the general election ballot the candidate who received, at the primary election, the highest vote among that party's candidates.

(2) The Economic Recovery Bond Act authorizes the issuance of bonds to finance the accumulated state budget deficit, as defined. There is in the General Fund the Special Fund for Economic Uncertainties that represents a reserve fund required by the California Constitution.

This measure would require that the proceeds from the sale of surplus state property, with specified exceptions, be used to pay the principal and interest on bonds issued as described above, and, once the principal and interest on those bonds are fully paid, would require that the proceeds from the sale of surplus state property be deposited in the Special Fund for Economic Uncertainties.

Res. Ch. 104 (AJR 69) Matthews. Specialty Crops.

This measure would respectfully request that the Congress of the United States of America support the passage of HR 3242, the Specialty Crop Competitiveness Act of 2003.

Res. Ch. 105 (ACR 237) Cogdill. National Fishing and Boating Week.

This measure would proclaim the week of June 5 through June 13, 2004, as National Fishing and Boating Week.

Res. Ch. 106 (SCR 81) Torlakson. California Task Force on Youth and Workplace Wellness.

This measure would continue the existence and expand the membership of the California Task Force on Youth and Workplace Wellness to perform duties to promote fitness and health in schools and workplaces. It would provide that the task force is to consist of Members of the Legislature and experts appointed by the Speaker of the Assembly and the Senate Committee on Rules. It would provide that members of the task force are to conduct task force business on a volunteer basis, permit the task force to accept private funds and in-kind donations, require the task force to submit a report on its work to the Legislature on or before June 30, 2006, and provide that the task force would cease to exist on July 1, 2006.

Res. Ch. 107 (SJR 20) Florez. Regulation of financial institutions.

This measure would request the Congress of the United States to disapprove the rule submitted by the Office of Comptroller of the Currency relating to bank activities and regulations as published in the Federal Register on January 13, 2004, so the rule has no force and effect, and if necessary, to consider legislation that will prevent the unilateral expansion of jurisdiction over financial institutions by federal regulators without the specific endorsement of the United States Congress.

Res. Ch. 108 (ACR 168) Maze. Korean War Armistice Day.

This measure would designate July 27, 2004, as Korean War Veterans Armistice Day. It would urge Californians to remember the Korean War and those who fought against communism. It would also resolve that Governor Arnold Schwarzenegger proclaim July 27, 2004, as Korean War Armistice Day and instruct all state departments, agencies, interested groups, organizations, and individuals to fly the United States flag at half-mast on July 27, 2004, in memory of the veterans who died as a result of their service in Korea.

Res. Ch. 109 (ACR 178) Mountjoy. Compressed Air Foam System (CAFS).

This measure would call upon all California city and county fire departments to make themselves aware of Compressed Air Foam System (CAFS), gels, and other new firefighting technologies that may be used to fight fires and provide benefits in the cities and counties served by those fire departments, and to keep abreast of any new technologies that may be developed in the future.

Res. Ch. 110 (ACR 221) Bermudez. Student volunteer programs.

This measure would encourage Members of the California Legislature to promote volunteer service and civic participation to high school students in their districts and would designate May 1 as Student Volunteer Day, a day for Members to recognize those students in their district who volunteer their time to the community annually from June 1 to April 1.

Res. Ch. 111 (AJR 61) Ridley-Thomas. Prescription drugs.

This measure would memorialize the United States Secretary of Health and Human Services to certify to the Congress of the United States that implementation of provisions of the Medicare Prescription Drug, Improvement and Modernization Act of 2003, permitting the importation of prescription drugs from Canada into the United States, will pose no additional risk to the public's health and safety and will result in a significant reduction in the cost of prescription drugs to the American consumer.

Res. Ch. 112 (AJR 62) Ridley-Thomas. Prescription drugs.

This measure would call upon the California delegation of the United States Senate and House of Representatives to sponsor and support legislation to repeal any Medicare provision that would prohibit the federal government from negotiating fair drug prices as contained in a section of the federal Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173).

Res. Ch. 113 (AJR 74) Pavley. Hybrid electric vehicles.

This measure would memorialize the President and the Congress to take legislative action to allow single-occupant hybrid electric vehicles that achieve a fuel economy highway rating of at least 45 miles per gallon, and conform to any additional emissions category of the federal Environmental Protection Agency or the California Air Resources Board, or meet any other requirements identified by the responsible agency, to travel in California's High Occupancy Vehicle (HOV) lanes.

Res. Ch. 114 (SCR 53) Hollingsworth. Firefighter Steven Rucker Memorial Highway.

This measure would designate a specified portion of State Highway Route 79 as the Firefighter Steven Rucker Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon being provided donations from nonstate sources covering that cost, to place those plaques and markers.

Res. Ch. 115 (SCR 61) Battin. California Hispanic Heritage Month.

This measure would proclaim September 15 to October 15, 2004, inclusive, as California Hispanic Heritage Month, and would encourage all Californians to observe this event in communities throughout the state.

Res. Ch. 116 (SCR 64) Ducheny. Fire Chief F.S. "Pete" Pedroza Memorial Highway.

This measure would designate a specified portion of State Highway Route 111 in the County of Imperial as the Fire Chief F.S. "Pete" Pedroza Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers or to permit a private source to erect a monument.

Res. Ch. 117 (SCR 50) Ashburn. CHP Officer David W. Manning Memorial Freeway.

This measure would designate a specified portion of State Highway Route 178 as "CHP Officer David W. Manning Memorial Freeway." The measure would also request the

Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon donations being provided from nonstate sources covering that cost, to place, or caused to be placed, those plaques and markers.

Res. Ch. 118 (SCR 67) McPherson. CHP Officer John Pedro Memorial Highway.

This measure would designate a portion of State Highway Route 1 in Santa Cruz County as the "CHP Officer John Pedro Memorial Highway." This measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon donations being provided from nonstate sources covering that cost, to place those plaques and markers.

Res. Ch. 119 (SCR 68) Chesbro. John Castro Memorial Interchange.

This measure would request the Department of Transportation to grant, without charge, encroachment permits authorizing an appropriate memorial for John Castro consisting of plaques and markers within the right-of-way of the interchange at State Highway Route 29 and Trancas Road in Napa County, and upon receiving donations from nonstate sources covering the cost, to place or permit the placement of those plaques and markers.

Res. Ch. 120 (SCR 69) Chesbro. Everett and Louella Thomas Memorial Highway.

This measure would designate a portion of State Highway Route 101 in Humboldt County as the Everett and Louella Thomas Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 121 (SCR 70) Ducheny. Victor V. Veysey Expressway.

This measure would designate a portion of State Highway Route 78 in the County of Imperial as the Victor V. Veysey Expressway. This measure would also designate the western terminus of the Ben Hulse Highway to be the junction of Route 78 and Route 111, upon its construction. The measure would request the Department of Transportation to determine the cost for appropriate signs showing those designations and, upon receiving donations from nonstate sources covering that cost, to place or permit the placement of those signs.

Res. Ch. 122 (ACR 142) Chavez. Los Angeles County Deputy Sheriff David W. March Memorial Interchange.

This measure would designate the interchange of State Highway Route 605 and State Highway Route 210 as the Los Angeles County Deputy Sheriff David W. March Memorial Interchange. The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing the special designation and upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 123 (ACR 162) Kehoe. CHP Officer Dean E. Beattie Memorial Highway.

This measure would designate a portion of State Highway Route 163 in the City of San Diego as the CHP Officer Dean E. Beattie Memorial Highway. The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect these plaques and markers.

Res. Ch. 124 (ACR 171) Maze. Vietnam War veterans.

This measure would request the Governor to proclaim March 8, 2005, a day in honor of Vietnam War veterans and to proclaim that the State of California fly its flags at half-mast on that day in honor of these veterans.

Res. Ch. 125 (ACR 175) Samuelian. Hmong History Month.

This measure would recognize May as Hmong History Month.

Res. Ch. 126 (ACR 179) Leslie. Officer Mark A. White Memorial Highway.

This measure would designate a specified portion of State Highway Route 65 as the Officer Mark A. White Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 127 (ACR 180) Bogh. Blue Star Memorial Highway.

This measure would designate State Highway Route 62 from its junction with State Highway Route 10 to Adobe Road in Twenty-nine Palms as a Blue Star Memorial Highway. The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 128 (ACR 185) McCarthy. Petroleum Highway.

This measure would designate a portion of State Highway 33 in Kern County as the Petroleum Highway. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers. The measure would also request the Department of Transportation to grant encroachment permits authorizing plaques and markers that are consistent with the signing requirements for the state highway system to be placed at appropriate pullout locations along the designated highway.

Res. Ch. 129 (ACR 244) Koretz. Hepatitis C awareness.

This measure would encourage the State Department of Health Services and local health jurisdictions to take various actions relating to hepatitis C virus (HCV) awareness, prevention, and treatment, including improving data collection and education procedures, and applying for available federal funding for HCV-related programs.

Res. Ch. 130 (AJR 53) Reyes. The Breast Cancer Research Stamp Program.

This measure would memorialize the President and Congress of the United States to enact legislation to make the Breast Cancer Research Stamp Program permanent.

Res. Ch. 131 (AJR 72) Frommer. Federal Clean Air Act: gasoline oxygenate additives.

This measure would memorialize the United States Environmental Protection Agency to take immediate action to review and reconsider California's request for an administrative waiver from the gasoline oxygenate additive requirements of the federal Clean Air Act in order to relieve gasoline consumers in California from record-breaking gasoline prices.

Res. Ch. 132 (AJR 83) Daucher. Special education: federal funding.

This measure would memorialize the President and the Congress of the United States to provide the full federal share of funding for special education programs to the states so that this state and other states will not be required to take funding from other vital state and local programs to fund this underfunded federal mandate.

Res. Ch. 133 (SCA 4) Torlakson. Local government finance.

(1) The California Constitution requires that specified revenues derived under the Vehicle License Fee (VLF) Law be allocated among the counties and cities of the state according to statute. Existing statute requires that a specified percentage of the revenues derived under the

VLF Law be deposited in the Local Revenue Fund in the State Treasury for allocation among counties and cities for specified purposes.

This measure would require those revenues derived under the VLF Law from that portion of the vehicle license fee rate that does not exceed 0.65% of the market value of a vehicle to be deposited in an amount specified by that law in the Local Revenue Fund for allocation to cities, counties, and cities and counties, and the balance of that portion to be allocated among those entities as otherwise provided by law. This measure would also require that compensating allocations be made if a statute reduces the annual vehicle license fee below 0.65% of the market value of a vehicle.

(2) Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue among local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined.

This measure would prohibit the Legislature from enacting a statute that modifies the manner of apportioning ad valorem property tax revenues so as to reduce the percentage of the total amount of ad valorem property tax revenues that are collected countywide and allocated among all local agencies, as defined, in a county below the percentage that these agencies would receive under the law in effect on the operative date of this measure. This measure would authorize the suspension of this prohibition for a fiscal year, if certain conditions are met. This measure would, except as otherwise provided by another provision of this measure, also prohibit the Legislature from enacting a statute that changes for any fiscal year the pro rata shares in which ad valorem property tax revenues are allocated among local agencies in a county, other than by a bill approved by a  $\frac{2}{3}$  vote of the membership of each house of the Legislature.

(3) The Bradley-Burns Uniform Local Sales and Use Tax Law authorizes a county to impose a local sales and use tax at a rate of 1.25%, and similarly authorizes a city, located within a county imposing such a tax rate, to impose a local sales tax rate of 1% that is credited against the county rate. Beginning on July 1, 2004, and continuing through the revenue exchange period, as defined, existing law partially suspends the authority of a city or a county to impose a sales and use tax rate under the Bradley-Burns Law. Existing law also authorizes various local governmental entities to impose transaction and use taxes at various rates for various purposes.

This measure would prohibit the Legislature, except as otherwise provided by this measure, from restricting the tax rate authority of local governments under the laws described above, and from changing the method of distributing revenues derived under those laws. This measure would also prohibit the Legislature from extending beyond the revenue exchange period the partial suspension of the Bradley-Burns Law tax rate authority, and from reducing certain property tax revenue allocations related to that suspension.

This measure would also allow the Legislature, by statute, to authorize 2 or more local agencies, with the approval of the governing body of each of those agencies, to enter into a contract for the exchange of property tax revenue allocations for revenues derived under the Bradley-Burns Law.

(4) Under the California Constitution, whenever the Legislature or a state agency mandates a new program or higher level of service on any local government, the state is required to provide a subvention of funds to reimburse the local government, with specified exceptions. Existing statutory law establishes a procedure for local government agencies to file claims for reimbursement of these costs with the Commission on State Mandates and the Controller.

This measure would provide that for the 2005–06 fiscal year and every subsequent fiscal year, with respect to a mandate for which the costs of a city, county, city and county, or special district claim previously have been determined to be payable by the state pursuant to law, the Legislature shall either appropriate, in the annual Budget Act, the full payable amount that

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

has not been previously paid, or suspend the operation of the mandate in the current fiscal year. The measure would also provide that payable claims for costs incurred prior to the 2004–05 fiscal year that have not been paid prior to the 2005–06 fiscal year may be paid over a term of years, as prescribed by law.

The measure would also specify that a new program or higher level of service includes a transfer by the Legislature of complete or partial financial responsibility for a required program from the state to cities, counties, cities and counties, or special districts. This measure would also state that ad valorem property tax revenues may not be used to reimburse a local government for the costs of a new program or higher level of service.

(5) This measure would also declare that this measure supersedes Proposition 65 on the November 2, 2004, general election ballot, if both measures are approved and this measure receives a higher number of affirmative votes.

Res. Ch. 134 (ACR 195) Yee. Literacy instruction: braille.

This measure would encourage school districts, the State Department of Education, the California State University, and the United States Department of Education to generate greater efforts to fund literacy instruction for blind and visually impaired pupils.

Res. Ch. 135 (ACR 228) Chavez. Video and computer games: rating system.

This measure would resolve that the Entertainment Software Rating Board (ESRB) should carefully consider the content of video and computer games, and that its ratings should reflect content that allows participants to virtually commit realistic acts of violence. The measure would urge the video and computer game industry and its retail partners to make efforts to educate consumers about the availability of the ESRB rating system, and would urge retailers to utilize the rating system. The measure would also urge community groups, statewide advocacy groups, and the media to promote and educate consumers about the rating system.

Res. Ch. 136 (AJR 55) Reyes. Violence Against Children Act of 2003.

This measure would memorialize the Congress to pass, and the President to sign, as soon as possible the Violence Against Children Act of 2003 which, among other things, would toughen federal criminal penalties for crimes against children, provide assistance to local police and prosecutors to combat crimes against children, provide emergency medical treatment and counseling to child victims and their families, and establish a National Amber Alert System.

Res. Ch. 137 (ACR 133) Bates. Oceanside Police Officer Tony Zeppetella Memorial Highway.

This measure would designate a specified portion of State Highway Route 76 as the Oceanside Police Officer Tony Zeppetella Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 138 (SCR 65) Speier. Officer Eugene A. Doran and Marine Lance Corporal Patrick M. Doran Memorial Bridge.

This measure would redesignate the Eugene A. Doran Memorial Bridge on State Highway Route 280 at San Mateo Creek, north of State Highway Route 92, in the County of San Mateo as the Officer Eugene A. Doran and Marine Lance Corporal Patrick M. Doran Memorial Bridge. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 139 (SJR 24) Ortiz. Pharmaceutical advertising.

This measure would memorialize the President and Congress of the United States to recognize the problems caused by direct-to-consumer advertising of prescription drugs by pharmaceutical companies and to take specified actions in the regulation of consumer advertising of prescription drugs.

Res. Ch. 140 (SJR 29) Kuehl. Food marketing and advertising directed to children.

This measure would request federal officials and entities and private industries to take various actions concerning foods and beverages that are advertised or marketed to children.

Res. Ch. 141 (ACR 116) Yee. History and social science curriculum: coverage of human rights violations and historical atrocities.

This measure would urge the State Board of Education to take action at the next instructional materials primary adoption cycle to ensure that history and social science textbooks used in California schools in grade 10 fairly and accurately portray human rights violations and other historical atrocities in a comprehensive manner.

Res. Ch. 142 (ACR 189) La Malfa. Bernie Richter Memorial Highway.

This measure would designate the 5-mile segment of State Highway Route 99 south of its intersection with State Highway Route 70 in the County of Sutter as the Bernie Richter Memorial Highway. The measure would also request the Department of Transportation to determine the costs of appropriate plaques and markers showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 143 (ACR 216) Ridley-Thomas. Senior housing and care quality.

This measure would urge that all senior housing and care providers in California adopt the Quality First 10-Point Plan.

Res. Ch. 144 (ACR 240) Kehoe. Joint Legislative Committee on Emergency Services and Homeland Security.

Under existing law, the Blue Ribbon Fire Commission is established in state government by action of the Governor to investigate the circumstances surrounding the October 2003 fires in southern California and to make recommendations on what is needed to improve and enhance wildfire response and operational relationships among federal, state, and local planning agencies.

This measure would create the Joint Legislative Committee on Emergency Services and Homeland Security, with specified membership of each house of the Legislature. The joint committee would be constituted as an investigating committee of the houses, and its powers would include hearing and discussing the recommendations of the Blue Ribbon Fire Commission, and, with regard to emergency services and homeland security, conducting hearings, making recommendations as to legislation, and forming technical advisory committees to assist it in carrying out its duties. The joint committee would continue in existence until November 30, 2004.

This measure would authorize the Senate Committee on Rules to make operating funds available to support the joint committee and its members.

Res. Ch. 145 (AJR 44) Koretz. Holocaust era insurance policies.

The Holocaust Victim Insurance Relief Act of 1999 requires any insurer doing business in California to disclose information about all policies that were sold in Europe by the insurer or a related company and that were in effect between 1920 and 1945. A recent ruling by the United States Supreme Court held this act unconstitutional.

This measure would urge the Insurance Commissioner to investigate any feasible alternatives to enacting state law that would serve to increase the likelihood that payments may be made to the heirs of Holocaust victims, and would urge the United States Congress

to immediately enact legislation to require insurance companies to disclose their Holocaust era policy information.

Res. Ch. 146 (AJR 71) Wolk. Veterans health care.

This measure would request the President and Congress of the United States to enact appropriate legislation to provide a guaranteed level of funding for veterans health care, and to restore medical benefits eligibility for veterans in Priority Group 8. This measure would also urge the Department of Veterans Affairs to seek out eligible veterans to provide them with benefits information.

Res. Ch. 147 (AJR 87) Goldberg. Employee Free Choice Act.

This measure would urge the Congress of the United States to pass the Employee Free Choice Act, S. 1925 and H.R. 3619.

Res. Ch. 148 (ACR 145) Nakano. Martin L. Ganz Memorial Highway.

This measure would designate a portion of State Highway Route 405 as the Martin L. Ganz Memorial Highway. The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect appropriate plaques and markers.

Res. Ch. 149 (ACR 151) Cox. George M. Clark Memorial Bicycle Bridge.

This measure would designate the bicycle bridge on Hazel Avenue over State Highway Route 50 as the George M. Clark Memorial Bicycle Bridge. The measure would request the Department of Transportation, upon receipt of funds covering the cost, to grant an encroachment permit authorizing an appropriate sign to be placed on the south side of the bridge.

Res. Ch. 150 (ACR 156) Frommer. Burbank Police Officer Matthew Pavelka Memorial Freeway.

This measure would designate a specified portion of State Highway Route 5 in the County of Los Angeles as the Burbank Police Officer Matthew Pavelka Memorial Freeway. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 151 (ACR 163) Spitzer. CHP Officer Shannon Distel Memorial Interchange.

This measure would designate the interchange at State Highway Route 15 and State Highway Route 91 within the City of Corona in the County of Riverside as the CHP Officer Shannon Distel Memorial Interchange. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 152 (ACR 177) Maze. University of California: UC Cooperative Extension .

This measure would request that the United States Department of Agriculture, the Regents of the University of California, and the board of supervisors in each county in the state continue their support and funding of the UC Cooperative Extension as a priority .

Res. Ch. 153 (AJR 63) Maze. State Highway Route 99.

This measure would memorialize the President and Congress of the United States to enact legislation to include State Highway Route 99 in the interstate highway system.

Res. Ch. 154 (AJR 86) Lieber. Space exploration.

This measure would request that the Congress and the President of the United States enact and fully fund the proposed budget for space exploration for the federal 2005 fiscal year to enable the United States, and California, in particular, to remain a leader in the exploration and development of space.

Res. Ch. 155 (SCR 87) Torlakson. Soccer in California.

This measure would, among other things, declare the Legislature's wish to honor soccer players, teams, and coaches from the state and to recognize the overall contribution that the sport makes to the well-being of Californians.

Res. Ch. 156 (SCR 88) Ashburn. Valley Fever Awareness Month.

This measure would proclaim August 2004, as Valley Fever Awareness Month.

Res. Ch. 157 (SJR 2) Figueroa. Health care.

This measure would request Congress to enact and the President to sign an HMO Patient's Bill of Rights or alternative legislation expanding the rights of states. The measure would request the Governor to support that legislation and to lobby the Congress and the President in that regard.

Res. Ch. 158 (ACR 167) Richman. Condemning hateful acts and beliefs.

This measure would, among other things, repudiate anti-Semitic sentiments expressed by former Malaysian Prime Minister Mahatir Mohamad; commend the Organization for Security and Cooperation in Europe for convening its 2nd conference on anti-Semitism in Berlin, Germany in April 2004; call upon other governments and international bodies to condemn those remarks and any other hateful, discriminatory, and dangerous remarks; deplore the conduct of the international representatives at the October 2003 summit of the Organization of the Islamic Conference who expressed support or approval of these remarks, and urge these representatives to also condemn these remarks.

Res. Ch. 159 (ACR 213) Wiggins. Filipino farmworkers.

This measure would recognize the contributions made by Filipino labor leaders and farmworkers to the farmworker movement over the past 80 years in California and the United States.

Res. Ch. 160 (AJR 14) Koretz. Arab economic boycott of Israel.

The measure would urge the President of the United States and the Governor to strictly enforce United States and California antiboycott legislation. This measure would condemn the Arab League's economic boycott of Israel and call on the Arab League and its members to disavow and end this boycott.

Res. Ch. 161 (AJR 47) Frommer. Cesar E. Chavez.

This measure would request the California delegation of the United States Senate and House of Representatives to support the passage of S. 164, introduced by Senator McCain, and H.R. 1034 introduced by Representative Solis, which call for the Secretary of the Interior to prepare an inventory of key sites in Cesar E. Chavez's life, in order for the National Parks Service to commemorate his life.

Res. Ch. 162 (AJR 73) Simitian. Armenian Genocide: Day of Remembrance.

This measure would designate April 24, 2004, as "California Day of Remembrance for the Armenian Genocide of 1915-1923." It would memorialize the Congress of the United States to likewise commemorate the Armenian Genocide.

Res. Ch. 163 (AJR 91) Chan. Trade assistance for services workers.

This measure would memorialize the Congress and the President of the United States to extend the trade adjustment assistance program, which provides assistance during extended periods of unemployment to workers who lose their jobs as a result of increased imports, to services workers.

Res. Ch. 164 (SCR 77) Vasconcellos. State Advisory Committee on Institutional Religion.

This measure would commend the 56 years of work of the State Advisory Committee on Institutional Religion in assisting the implementation of chaplaincy programs within various state institutions and would urge the committee to assist state agencies that employ institutional chaplains to make the most effective possible use of staff, volunteers, and other resources.

Res. Ch. 165 (SCR 78) Cedillo. Bill Keene Interchange.

This measure would designate the interchange of State Highway Routes 101 and 110 in the City of Los Angeles as the Bill Keene Interchange. The measure would also request the Department of Transportation to determine the cost of appropriate signs and markers showing this designation, and to erect those signs and markers upon receiving donations from nonstate sources covering that cost, plus a sign maintenance fee.

Res. Ch. 166 (SCR 84) Denham. Larry Combs Memorial Rest Stop.

This measure would designate the Westly rest stop on Interstate Highway Route 5 as the "Larry Combs Memorial Rest Stop." The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost and a sign maintenance fee, to erect those plaques and markers.

Res. Ch. 167 (SCR 86) Figueroa. Pain Awareness Month.

This measure would proclaim the month of September 2004 as Pain Awareness Month.

Res. Ch. 168 (SJR 25) Ortiz. Medicare prescription drugs.

This measure would memorialize the Congress and President of the United States to enact and sign into law specified revisions to the Medicare Prescription Drug, Improvement, and Modernization Act of 2003.

Res. Ch. 169 (SJR 30) Torlakson. Federal environmental review and permitting process streamlining.

This measure would memorialize the President, the Congress, the federal Secretary of Transportation, and the federal Department of Transportation to streamline the federal environmental review and permitting process by (1) ensuring adequate funding for the State Office of Historic Preservation in California; and (2) accelerating project delivery by developing a multiagency infrastructure team to be involved in the development of transportation projects from the early planning phase and continuing through the environmental permitting and construction phases.

Res. Ch. 170 (ACR 193) Liu. Higher education.

This measure would declare that a top priority in future state policy and budgets would be the provision of opportunities for high-quality higher education consistent with the Master Plan for Education in California. The measure would declare that the Legislature is committed to prescribed higher education policy goals relating to educational opportunity, participation, student success, public benefits, and cost-effectiveness. The measure would also specify ways through which to achieve the provision of adequate opportunities for students to attend public higher education in California.

Res. Ch. 171 (ACR 242) Goldberg. Ballot tally software.

This measure would request the Secretary of State to investigate and evaluate the use of open-source software in all voting machines in California and report his or her findings and recommendations to the Legislature by January 1, 2006. The measure would state that the Legislature is committed to exploring and reviewing all available programs and features, including open-source software, that may enhance the security of election results and increase voter confidence in the integrity of the voting process.

Res. Ch. 172 (AJR 85) Leno. Same-sex couples.

This measure would respectfully oppose any federal enactment designed to prohibit or restrict the provision of rights and obligations under the law for same-sex couples and their families.

Res. Ch. 173 (ACR 148) Cohn. Domestic Violence Awareness Month.

This measure would proclaim the month of October 2004 as Domestic Violence Awareness Month.

Res. Ch. 174 (ACR 149) Cohn. Health Cares About Domestic Violence Day.

This measure would proclaim October 6, 2004, as Health Cares About Domestic Violence Day.

Res. Ch. 175 (ACR 152) Diaz. Michael Evanhoe Interchange; Reverend Cecil "Chip" Murray Overcrossing.

This measure would designate the interchange of State Highway Routes 85 and 101 in the City of San Jose as the Michael Evanhoe Interchange, to be effective upon the retirement of Michael Evanhoe from the Valley Transportation Authority and from the transportation consulting business. The measure would also designate the Western Avenue Overcrossing at State Highway Route 10, in the City of Los Angeles, as the Reverend Cecil "Chip" Murray Overcrossing and a specified segment of State Highway Route 210 as the Congressman George E. Brown, Jr. Memorial Highway. The measure would request the Department of Transportation to determine the costs of appropriate signs and markers showing these designations and, upon receiving donations from nonstate sources covering that cost, to erect those signs and markers.

Res. Ch. 176 (ACR 224) Cohn. Family Health and Fitness Month.

This measure would proclaim the month of September 2004, as Family Health and Fitness Month, and would encourage all Californians to enrich their lives through proper diet and exercise.

Res. Ch. 177 (ACR 225) Cohn. Breast cancer.

This measure would designate the month of October 2004, as Breast Cancer Awareness Month, would designate October 15, 2004, as Breast Examination and Mammography Awareness Day, and would recognize the need for various actions to be taken in this regard.

Res. Ch. 178 (ACR 251) Wolk. Assisted Living Week.

This measure would proclaim the week of September 12 through September 18, 2004, as Assisted Living Week, and would encourage all citizens to visit friends and loved ones who reside in assisted living communities.

Res. Ch. 179 (ACR 253) Steinberg. Court Adoption and Permanency Month.

This measure would proclaim November, 2004, to be Court Adoption and Permanency Month, in which the courts and their local communities are encouraged to join together in activities to expedite permanency.

Res. Ch. 180 (ACR 257) Bogh. California Economic Literacy Week.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This measure would designate the week of October 25, 2004, through October 29, 2004, as California Economic Literacy Week, and would urge Californians to observe these days by working for a better understanding of our economic system.

Res. Ch. 181 (ACR 258) Negrete McLeod. Red Ribbon Week.

This measure would proclaim October 25 through October 31, 2004, as Red Ribbon Week, and would encourage all Californians to help build drug-free communities and participate in drug prevention activities.

Res. Ch. 182 (AJR 88) Nation. No Child Left Behind Act of 2001.

This measure would urge the President and the Congress of the United States to fully fund the requirements of the No Child Left Behind Act of 2001 for the life of the act, and would urge the Congress of the United States to amend the act to permit yearly adequate progress to accommodate a range of accountability models and to respect parental choice by giving states flexibility to exclude from the participation rate calculation, a pupil whose parent chooses not to have the pupil tested. The bill would also urge the Congress of the United States to amend the act to provide that a teacher who is certificated under California's certification requirements is deemed highly qualified for purposes of the act.

Res. Ch. 183 (ACR 234) Firebaugh. State investment in arts and culture.

This measure would declare that the Legislature recognizes the economic, educational, and civic value of preservation, public presentation, and promotion of the arts, culture, and cultural heritage and that it intends to seriously consider recommendations contained in specified research on the arts as a guide to effectively address how the state can better organize itself to contribute to California's world-class arts and cultural environment.

Res. Ch. 184 (SCR 91) Figueroa. Renaming the San Lorenzo River Redwoods: Byron Sher Redwoods.

This measure would honor Senator Byron Sher by requesting that the Department of Parks and Recreation rename the San Lorenzo River Redwoods the Byron Sher Redwoods.

Res. Ch. 185 (SCR 93) Torlakson. Bone and Joint Decade National Awareness Week.

This measure would declare the week of October 12 to 20, 2004, inclusive, as Bone and Joint Decade National Awareness Week in California, and would encourage the communities and citizens of California to organize activities during that week to promote awareness about musculoskeletal conditions and to help educate our citizens about prevention strategies.

Res. Ch. 186 (SCR 94) Ortiz. Ovarian Cancer Awareness Month.

This measure would provide that the California Legislature recognizes September 2004 as Ovarian Cancer Awareness Month throughout California, and would encourage and promote the efforts of the people and the health care practitioners of the state to increase their awareness of this disease and to educate themselves about its early detection and prevention, the risk factors involved in its development, and the early warning symptoms and signs.

Res. Ch. 187 (SJR 31) McPherson. Vocational and technical education.

This measure would urge the United States Congress to continue and fully fund the Carl D. Perkins Vocational and Technical Education Act of 1998.

Res. Ch. 188 (AJR 56) Frommer. Assault weapons ban.

This measure would memorialize the Congress and the President of the United States to enact legislation that would extend and strengthen the 1994 act banning assault weapons.

Res. Ch. 189 (ACR 67) Bermudez. City of Artesia: Little India.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would designate specified exits on State Highway Route 91 as the route for the designation of Little India in the City of Artesia, and would request the Department of Transportation to determine the costs of appropriate plaques and markers and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect these plaques and markers.

Res. Ch. 190 (ACR 252) Mullin. California Council on Science and Technology.

This measure would request the California Council on Science and Technology to create a study group, as specified, on how the State of California should treat intellectual property created under state contracts.

Res. Ch. 191 (AJR 45) Mountjoy. Extradition treaty with Mexico.

This measure would urge the United States Congress to adopt federal House Concurrent Resolution No. 93 and Senate Concurrent Resolution No. 79, which express the sense of Congress that the President should renegotiate the extradition treaty with Mexico so that the possibility of capital punishment or life imprisonment will not interfere with the timely extradition of criminal suspects from Mexico to the United States and also would separately urge the President to renegotiate this treaty.

Res. Ch. 192 (AJR 60) Lieber. Immigration: same-sex partners.

This measure would respectfully request that the President and Congress of the United States adopt the Permanent Partners Immigration Act of 2003, which would add the phrase "or permanent partner" to sections of immigration law that provide immigration rights to legally married couples, and would allow gay and lesbian citizens to sponsor their partners as United States residents.

Res. Ch. 193 (AJR 96) Liu. Women's Equality Day.

This measure would memorialize the Congress and the President of the United States to uphold protections of women's equality and to encourage all Americans to participate in the celebration of Women's Equality Day on August 26, 2004, the 84th anniversary of the passage of the Nineteenth Amendment to the United States Constitution, which gave women the right to vote.

Res. Ch. 194 (ACR 209) Parra. Kern County Korean War Veterans Memorial Highway.

This measure would designate a specified portion of State Highway Route 58 as the Kern County Korean War Veterans Memorial Highway. The measure would request the Department of Transportation to determine the cost of appropriate plaques designating that portion of State Highway Route 58 and, upon receiving donations from nonstate sources covering that cost, to erect those plaques.

Res. Ch. 195 (ACR 248) Mountjoy. Donald S. Wieman Vista Point.

This measure would designate a specified location on State Highway Route 18 in San Bernardino County as the Donald S. Wieman Vista Point. The measure would also request the Department of Transportation to determine the cost of appropriate signs and markers showing this special designation, and to erect those signs and markers upon receiving donations from nonstate sources covering that cost and a sign maintenance fee.

Res. Ch. 196 (ACR 235) Vargas. Clean schoolbuses.

This measure would urge that state apportionment of funds for home-to-school transportation be used in the most efficient and cost-effective manner possible.

Res. Ch. 197 (ACR 236) Correa. Child Awareness Month.

This measure would declare September 2004, as Child Awareness Month, and would encourage organizations, agencies, and individuals engaged in the enhancement of children's well-being and health to hold or participate in events which increase public awareness of children's issues and provide opportunities for the public to donate time and resources to the cause.

Res. Ch. 198 (ACR 243) Samuelian. Sikh-Americans.

This measure would honor the contributions of the Sikh community to California.

Res. Ch. 199 (ACR 254) Firebaugh. Asset acquisition disparity.

This measure would conclude that research indicates that asset acquisition disparity is largely based on differences in access to education and that targeted research is needed. This measure would resolve that the Milken Institute, the Earned Assets Resource Network, the Latino Legislative Caucus, and the Hispanic Republican Caucus have agreed to jointly engage in the research and to report to the Governor and Legislature by January 15, 2005.

Res. Ch. 200 (ACR 255) Berg. Health Care Decisions Week.

This measure would recognize the week of November 7 through 13, 2004, as Health Care Decisions Week in California, and would encourage all citizens to think and talk with loved ones about their wishes for medical care.

Res. Ch. 201 (ACR 238) Negrete McLeod. State employee merit awards.

This measure would declare that merit award payments in specified amounts, authorized by the Department of Personnel Administration, are made to specified current or retired state employees whose proposals have resulted in annual savings and net revenue gain to the state.

## 2004 DIGEST CHAPTERS SUPERIOR NUMBERS

1 [Ch. 208] I object to the following appropriations contained in Senate Bill 1113.

Item 0555-001-0028—For support of Secretary for Environmental Protection. I reduce this item from \$1,444,000 to \$982,000.

I am deleting the \$462,000 legislative augmentation to assist the metal plating industry in complying with existing state regulations regarding the disposal of hazardous waste containing hexavalent chromium. This reduction is necessary to limit program expansions and provide for a prudent fund reserve in light of the declining balance in the Unified Program Account.

Item 0555-001-0044—For support of Secretary for Environmental Protection. I revise this item by reducing:

(1) 30-Support from \$10,113,000 to \$8,151,000;

(5) Amount payable from the Unified Program Account (Item 0555-001-0028) from -\$1,444,000 to -\$982,000;

and by deleting:

(11.5) Amount payable from the Hazardous Waste Reduction Loan Account (Item 0555-001-0828) (-1,500,000).

I am revising this item to conform to the actions I have taken in Items 0555-001-0028 and 0555-001-0828.

Item 0555-001-0828—For support of Secretary for Environmental Protection. I delete this item and Provision 1.

I am deleting the \$1,500,000 legislative augmentation to assist the metal plating industry in complying with existing state regulations regarding the disposal of hazardous waste containing hexavalent chromium. While certified unified program agencies are intended to assist businesses, it is not appropriate to single out a particular industry for special assistance for failure to comply with environmental rules.

Item 0690-102-0001—For local assistance, Office of Emergency Services.

I am sustaining the \$2,000,000 legislative augmentation related to funding 10 domestic violence programs. This augmentation will ensure services for domestic violence victims are protected in all communities. However, I am directing the Office of Emergency Service (OES) to incorporate these funds into the existing funding for domestic violence shelters and allow the 10 shelters to obtain funding through the grant process currently administered by OES. Providing a separate appropriation for these 10 particular shelters would create an inequitable process, and would allocate more funding per shelter compared to the other 75 shelters that receive funding.

Item 1111-003-0001—For support of Consumer Affairs. I reduce this item from \$450,000 to \$365,000 by reducing:

(1) 40-Office of Privacy Protection from \$485,000 to \$400,000.

I am deleting the \$85,000 legislative augmentation which would provide funding for the Office of Privacy Protection. Given the fiscal condition of the State, this reduction is necessary to help build a prudent reserve and bring ongoing expenditures in line with existing resources over the longer term.

Item 1760-492—Reappropriation, Department of General Services. I revise this item by deleting Schedule (2.5).

I am eliminating the availability of funding provided to the City of Oakland for the seismic retrofit of the Police Administration Building. Funds have been available since 1994 and the city is still unable to provide the required matching funds to receive the resources. If the city is able to commit the funds in the future, I will reconsider this request.

Item 1880-001-0001—For support of State Personnel Board. I reduce this item from \$3,888,000 to \$3,753,000 by reducing:

(3) 50.01-Administrative Services from \$2,798,000 to \$2,663,000.

In recognition of potential workload increases associated with the end of the hiring freeze, I am sustaining \$465,000 of this \$600,000 legislative augmentation to provide funding for staff in the Bilingual Services Unit, the Appeals Division, the Examination Services Unit, and for information technology services. I am deleting the \$135,000 for temporary help and related costs. In addition, I am directing the State Personnel Board to develop performance-based measures to evaluate its effectiveness.

Item 2240-105-0001—For transfer to the Emergency Housing and Assistance Fund. I reduce this item from \$5,300,000 to \$4,000,000.

I am reducing the \$1,300,000 legislative augmentation for transfer from the General Fund to the Emergency Housing and Assistance Fund to help build a prudent reserve and bring ongoing expenditures in line with existing resources over the longer term. With these reductions, \$4,000,000 still remains to support the Emergency Housing and Assistance Program (EHAP), which grants funding to local agencies that provide homeless shelter beds and related services.

Item 2240-490—Reappropriation, Department of Housing and Community Development. I delete this item.

I am deleting the reappropriation of \$400,000 in grant funds originally made available in 2001 but never spent by the City of Orange Cove. The 2004–05-budget plan assumes that these funds as well as others that reverted to the General Fund on July 1, 2004, would be available as a resource for the 2004–05 budget.

Item 2600-001-0042—For support of California Transportation Commission. I reduce this item from \$651,000 to \$613,000.

I am reducing this item by \$38,000 to conform to the action I have taken in Item 2660-001-0046.

Item 2600-001-0046—For support of California Transportation Commission. I reduce this item from \$1,000,000 to \$932,000 by reducing:

- (1) 10-Administration of California Transportation Commission from \$1,651,000 to \$1,545,000, and
- (2) Amount payable from the State Highway Account, State Transportation Fund (Item 2600-001-0042) from –\$651,000 to –\$613,000.

I am deleting the \$106,000 legislative augmentation to increase staffing at the Commission to restore a Legislative Deputy position that was eliminated in 2003–04 subsequent to being vacant for one year. Given the fiscal condition of the State, this reduction is necessary to bring ongoing expenditures in line with existing resources over the longer term.

Item 2665-001-0046—For support of High Speed Rail Authority. I reduce this item from \$1,819,000 to \$1,099,000 and by deleting Provision 1.

I am deleting the \$720,000 legislative augmentation for the completion of the final draft of the High Speed Rail Environmental Impact Report (EIR). The Authority has been fully funded to complete the EIR but reports that it redirected a portion of these funds to the draft EIR when required to perform additional work on that document by federal agencies. Given the fiscal condition of the State, this reduction is necessary to bring ongoing expenditures in line with existing resources over the longer term.

I am also revising this item by deleting Provision 1. This provision would have restricted the use of \$300,000 of this item to the legal defense of the environmental documents. By deleting this language I am providing the Authority with the budgetary flexibility it will need to meet its priorities.

Item 3340-001-0001—For support of California Conservation Corps. I reduce this item from \$25,373,000 to \$23,773,000 by reducing:

- (1) 10-Training and Work Program from \$57,256,000 to \$55,656,000.

I am reducing this item by \$1,600,000 and 14 positions for the operation of the Ukiah residential facility. The California Conservation Corps is a valuable program that helps protect the environment and promote leadership skills for young men and women. However, in light of the State's current fiscal condition, the Ukiah residential facility was selected for conversion to a non-residential facility after a thorough review of all facilities because there are two other Corps residential facilities, Leggett and Shasta Pacific, nearby that also provide services to the Ukiah area. After the conversion, 15 corps members and one Corps employee will remain at the facility.

Item 3790-494—Reappropriation, Department of Parks and Recreation. I delete this item.

I am deleting this legislative reappropriation for three local parks projects. I am deleting the General Fund reappropriation for the renovation and repair of the La Palma Community Center. Given the fiscal condition of the State, this reduction is necessary to help build a prudent reserve and bring ongoing expenditures in line with existing resources over the longer term. I am also deleting the reappropriation of Proposition 12 bond funds for the Paxton-Arleta Softball/Soccer Field. This use of Proposition 12 bond funds is inconsistent with the purpose for which the funds were originally appropriated and therefore not eligible for reappropriation. Finally, I am deleting the reappropriation for the Community Build Youth Center. These bond funds were appropriated in the Budget Act of 2000 and more than adequate time has passed for the funds to be expended for this purpose.

Item 3940-001-0001—For support of State Water Resources Control Board. I revise this item by reducing:

- (1) 10-Water Quality from \$387,080,000 to \$386,878,000, and
- (7) Amount payable from the Waste Discharge Permit Fund (Item 3940-001-0193) from -\$55,913,000 to -\$55,711,000.

I am revising this item to conform to the action I have taken in Item 3940-001-0193.

Item 3940-001-0193—For support of State Water Resources Control Board. I reduce this item from \$55,913,000 to \$55,711,000.

I am deleting the \$202,000 legislative augmentation for activities related to the development of statewide septic tank system standards. The State Water Resources Control Board will continue its efforts to develop the standards with the remaining \$287,000 during 2004-05, and will not need the additional resources provided by this augmentation.

Item 4260-001-0001—For support of Department of Health Services. I delete Provision 3 of this item to make a technical correction to the Budget Bill.

Provision 3 in Item 4260-001-0001 refers to provisional language in Item 4260-111-0001 that was removed from the Budget Bill, and is therefore no longer necessary.

Item 4260-001-0890—For support of Department of Health Services. I delete Provision 5.

I am deleting Provision 5, which would require the Department of Health Services (DHS) to include in its application for funding from the federal Centers for Disease Control and Prevention's (CDC) Public Health Preparedness and Responses to Bio-terrorism Program a request for the establishment of reporting procedures for low-level radioactive waste. Notwithstanding the merits of reporting low-level radioactive waste, this request is outside the scope of the State's Cooperative Agreement with the CDC. Including this provision in the application will likely delay the availability of federal funds.

Item 4260-101-0001—For local assistance, Department of Health Services. I reduce this item from \$11,728,217,000 to \$11,727,467,000 by reducing:

(3) 20.10.030-Benefits (Medical Care and Services) from \$28,531,016,000 to \$28,529,516,000;

(6) Amount payable from the Federal Trust Fund (Item 4260-101-0890) from -\$185,577,411,000 to -\$18,576,661,000;

and by deleting Provision 15.

While I recognize the important services that these pharmacies provide to Californians living with HIV/AIDS, I am reducing this item by \$750,000 and deleting this provision because providing additional Medi-Cal pharmacy compensation to HIV/AIDS clinics would create unacceptable program inequities that will lead to unnecessary litigation against the State. The budget will ensure that those suffering with HIV/AIDS will continue to have access to critically important drugs.

The concept of a reimbursement model that incorporates the features identified in this proposal should be considered as part of an overall analysis of Medi-Cal provider reimbursement.

I am also deleting a \$750,000 augmentation from the Federal Trust Fund in Item 4260-101-0890 to conform to this action.

In order to correct a technical error in the Budget Bill, I am also reducing the amount payable from the Federal Trust Fund (Item 4260-101-0890) by \$167,000,000,000.

Item 4260-101-0890—For local assistance, Department of Health Services. I reduce this item from \$18,577,411,000 to \$18,576,661,000 and delete Provision 2.

I am reducing this item by \$750,000 to conform to my action in Item 4260-101-0001.

I am deleting Provision 2 because it is not possible to obtain federal matching funds without first spending General Fund resources, which have not been appropriated for this purpose. Provision 2 would require the Department of Health Services to expand the scope of the federally required LA County Health Department audit to include an unrelated audit.

Item 4440-101-0001—For local assistance, Department of Mental Health. I reduce this item from \$79,676,000 to \$59,718,000 by reducing:

(1) 10.25-Community Services—Other Treatment from \$1,439,054,000 to \$1,438,746,000; and

(1.5) 10.47-Community Services—Children's Mental Health Services from \$20,000,000 to \$350,000.

I am reducing this item by \$308,000 to eliminate supplemental funding to thirteen counties that is used to match federal rehabilitation funds. This action prioritizes the limited funding available for other mental health programs that reach all or most counties, and is necessary to help build a prudent reserve and bring ongoing expenditures in line with existing resources over the long term.

I am reducing by \$19,650,000 the \$20,000,000 legislative augmentation to restore funding for the Children's System of Care program. This action is necessary to help build a prudent reserve and bring ongoing expenditures in line with existing resources over the long term. \$350,000 remains in this item for support of the Cathie Wright Technical Assistance Center, which provides training and technical assistance to counties to implement integrated health and human services programs.

During favorable economic conditions, the State has been able to fund a higher level of services to address the mental health needs of children. With current limited resources, however, priority must be placed on the provision of direct and essential services to these children, which will continue to be provided by the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program and local county realignment funding. With current limited state resources, however, priority must be placed on the provision of direct and essential services to these children. By maintaining the Cathie

Wright Technical Assistance Center, it is my hope that the enhanced coordination of services within counties can be maintained until the economic situation improves.

Item 5175-101-0001—For local assistance, Department of Child Support Services. I reduce this item from \$252,159,000 to \$250,799,000 by reducing:

- (1) 10-Child Support Services from \$978,519,000 to \$974,519,000;
  - (a) 10.01-Child Support Administration from \$875,095,000 to \$871,095,000;
- (3) Amount payable from the Federal Trust Fund (Item 5175-001-0890) from -\$447,175,000 to -\$444,535,000;

and by deleting Provision 9.

I am deleting the \$1,360,000 legislative augmentation for the Los Angeles County local child support agency. On the basis of equity and given the current condition of the General Fund, I cannot support this expenditure. With this reduction, \$871,095,000 remains for administrative support of local child support agencies.

I am also deleting a \$2,640,000 legislative augmentation from the Federal Trust Fund in Item 5175-101-0890 to conform to this action.

Item 5175-101-0890—For local assistance, Department of Child Support Services. I reduce this item from \$447,175,000 to \$444,535,000 by reducing:

I am reducing this item by \$2,640,000 to conform to the action I have taken in Item 5175-101-0001.

Item 5180-101-0001—For local assistance, Department of Social Services. I reduce this item from \$2,881,929,000 to \$2,881,900,000 by reducing:

- (1) 16.30-CalWORKs from \$5,231,280,000 to \$5,191,280,000;
- (2) 16.65-Other Assistance Payments from \$1,522,917,000 to \$1,522,888,000; and
- (6) Amount payable from the Federal Trust Fund (Item 5180-101-0890) from -\$3,677,127,000 to -\$3,637,127,000.

I am deleting the \$29,000 legislative augmentation for increased costs resulting from providing California Food Assistance Program benefits to convicted drug felons. This technical correction conforms to removal of the language from the associated Budget Trailer Bill.

I am also revising this item to conform to the action I have taken in Item 5180-101-0890.

Item 5180-101-0890—For local assistance, Department of Social Services. I reduce this item from \$3,677,127,000 to \$3,637,127,000.

I am reducing \$40,000,000 in federal Temporary Assistance for Needy Families Block Grant funds for CalWORKs employment services to nullify the effect of language included in the Budget Trailer Bill to provide unspent 2003-04 CalWORKs single allocation funds to counties in 2004-05. This language increases current spending and reduces the ability to maintain funding for the CalWORKs program within available federal and state resources.

While the budget ensures resources necessary to maintain existing benefits and services, this veto will improve the State's ability to continue these essential benefits and services in the future.

Item 5180-141-0001—For local assistance, Department of Social Services. I reduce this item from \$405,478,000 to \$405,454,000 by reducing:

- (1) 16.75-County Administration and Automation Projects from \$1,024,616,000 to \$1,024,557,000; and
- (3) Amount payable from the Federal Trust Fund (Item 5180-141-0890) from -\$580,825,000 to -\$580,790,000.

I am deleting the \$59,000 (\$24,000 General Fund and \$35,000 Federal Trust Fund) legislative augmentation for increased administration costs resulting from providing Food Stamp benefits to convicted drug felons. This technical correction conforms to removal of the language from the associated Budget Trailer Bill.

Item 5180-141-0890—For local assistance, Department of Social Services. I reduce this item from \$580,825,000 to \$580,790,000.

I am revising this item to conform to the action I have taken in Item 5180-141-0001.

Item 5180-151-0001—For local assistance, Department of Social Services. I reduce this item from \$768,509,000 to \$751,364,000 by reducing:

- (1) 25.30-Children and Adult Services and Licensing from \$2,049,695,000 to \$2,032,550,000;

and by deleting Provisions 11 and 12.

I am reducing the \$17,145,000 legislative augmentation for the Child Welfare Services Augmentation. During better economic times the State was able to pay the counties' share-of-cost to provide additional social workers for Child Welfare Services. However, due to limited state resources in the General Fund, the State is unable to continue to waive the 30 percent nonfederal county share-of-cost for the Child Welfare Services Augmentation in this Budget. Assuming that counties backfill this reduction with their own resources, \$91,440,000 in total funds remains available to counties to support this important program. I am deleting Provision 12 to conform to this action.

The Legislature adopted language that would require the Department of Social Services, with input from the Continuing Care Advisory Committee, to establish a panel to develop governance standards for applicants and operators of Continuing Care Retirement Communities, on or by July 1, 2005. I am deleting Provision 11, as it is inconsistent with efforts to streamline government and consolidate or eliminate boards and commissions to achieve operational efficiencies.

Item 5240-001-0001—For support of the Department of Corrections. I reduce this item from \$5,311,082,000 to \$5,309,719,000 by reducing:

- (2) 22-Health Care Services Program from \$942,126,000 to \$940,763,000.

I am deleting the \$1,363,000 legislative augmentation associated with the denial of the department's plan to reclassify 23.5 vacant staff psychiatrist positions to nurse practitioners. The department will reclassify these positions thereby eliminating the need for the augmentation. The reclassification represents a reasonable effort to address the department's increasing medical and mental health costs through improved efficiencies that do not compromise or lessen the provision of inmate care. The reclassification is consistent with policies adopted by the Department of Mental Health. The hiring of Nurse Practitioners will also assist in maintaining continuity of mental health care due to the reduced need of temporary contract staff.

Item 6110-001-0001—For support of Department of Education. I reduce this item from \$36,443,000 to \$36,193,000 by reducing:

- (2) 20-Instructional Support from \$53,393,000 to \$53,143,000.

I am reducing a portion of this state operations budget by \$250,000 to provide for a prudent General Fund reserve in light of the State's current fiscal condition. Over the last several years, other constitutional offices have had to absorb significant General Fund reductions without the benefit of the substantial federal funds provided to the State Department of Education. I would note that the Department has received \$2.1 million in federal fund augmentations in this budget, an increase that far exceeds this reduction.

Item 6110-130-0001—For local assistance, Department of Education. I reduce this item from \$10,300,000 to \$9,035,000.

I am sustaining \$9,035,000 for the Advancement Via Individual Determination program (AVID) to provide training to teachers and school leaders and assistance to schools in implementing this program that helps students prepare for and be successful in college that might otherwise not attend. During better economic times the State was able to fully support a variety of worthy programs. However, due to limited resources in the General Fund, the State is unable to continue to sustain the same level of support.

In making this reduction I encourage districts that currently participate in the AVID program to utilize some of the existing staff development dollars available to them. This budget already includes \$957 million for staff development and teacher training programs.

I am revising Provision 1 to conform to this action.

“1. Of the funds appropriated, \$1,300,000 is available for administration of the Advancement Via Individual Determination (AVID) centers and \$6,000,000 is available for competitive outreach grants to local education agencies for the AVID program. Notwithstanding any other provision of law, the remaining ~~\$3,000,000~~ \$1,735,000 shall be used solely for the provision of advanced placement teacher training or tutoring services.”

Item 6110-161-0890—For local assistance, Department of Education. I reduce this item from \$1,091,674,000 to \$1,090,974,000 by reducing:

(7) 10.60.050.032-IDEA, Family Empowerment Centers from \$3,432,000 to \$2,732,000,

and by deleting Provision 11.

I am deleting the legislative augmentation of \$700,000 to establish four additional family empowerment centers. An increase in the number of centers is premature, as funding has been provided to conduct a study to evaluate the effectiveness of the twelve existing family empowerment centers. If the study shows these centers are effective in helping students with special needs, their families and schools, I will consider an augmentation to provide better access.

I am deleting Provision 11 to conform to this action.

Item 6110-164-0001—For local assistance, Department of Education. I delete this item and Provision 1.

I am deleting the \$1,700,000 legislative augmentation to restore funding for the School-to-Career program. While I am very supportive of vocational education, I am interested in a more comprehensive proposal to reform and improve the State's efforts in this area rather than sustaining small programs that help a few schools. The State provides an estimated \$2 billion for vocational education in programs such as Regional Occupational Centers and Programs, secondary school vocational programs, apprentice programs and Community College programs. The multiplicity of programs and organizations involved makes it difficult to ensure accountability and to ensure all of California's students receive the kind of training and education they need to perform well in good jobs. The grants provided by this program were intended to provide short-term resources to assist local partnerships to implement activities and working relationships that would be sustained after state funds expire. Once a program is established, it is expected that local businesses provide ongoing support to the extent that they benefit from these partnerships.

I am deleting Provision 1 to conform to this action.

Item 6110-485—Reappropriation, Department of Education, Proposition 98. I revise this item from \$320,249,000 to \$319,749,000, by deleting:

(8) \$500,000, on a one-time basis, to the State Department of Education for the establishment of a web-based model that would differentiate and compare the capabilities of electronic assessment resources. These funds would be available contingent upon legislation for this purpose.

I am deleting the legislative augmentation of \$500,000 for the establishment of a web-based model that would allow for comparisons of software packages used to evaluate pupil assessment results. Given that the State currently spends \$112.6 million on student testing and assessment, the establishment of this model may have merit. However, I would like to consider the expenditure of additional state funds for this

purpose, in conjunction with the pending legislative measure. Until I can evaluate the final legislative proposal, it is premature to appropriate funds in the Budget Act for this purpose.

Item 6360-001-0407—For support of the Commission on Teacher Credentialing. I reduce this item from \$14,411,000 to \$14,211,000 by reducing:

- (1) 10-Standards for Preparation and Licensing of Teachers from \$14,650,000 to \$14,450,000.

I am deleting the \$200,000 legislative augmentation to fund an additional 2.0 positions to address the credential processing backlog. This augmentation is unnecessary because the Commission can reduce the credentialing backlog with the staff provided in the budget. Providing credentialed teachers for all pupils is a goal of this Administration. The Commission should adopt greater efficiencies in conjunction with the review being conducted by the State Auditor, which is expected to be completed in the Fall of 2004, in order to eliminate the credential processing backlog.

Item 6870-101-0001—For local assistance, Board of Governors of the California Community Colleges (Proposition 98). I reduce this item from \$2,810,212,000 to \$2,778,803,000 by reducing:

- (4) 10.10.040-Partnership for Excellence from \$225,000,000 to \$193,591,000; and by revising Provision 4.

I am reducing this item by reducing the funding for the Partnership for Excellence program by \$31,409,000 to maintain the May Revision Proposition 98 spending level for community colleges. Instead, funds were provided to support additional student enrollments and to maintain lower fees for Bachelor degree holders. With this reduction, \$193,591,000 will still be available for this program through the general apportionments pursuant to Provision 4(a) of this item. The Legislature reduced the rigor of the accountability structure for this program proposed in the Governor's Budget. Because this program lacks accountability at the district level, it is appropriate that this funding be reduced. However, given my strong commitment to the Community Colleges and the extraordinary work they do in educating over a million full-time equivalent students seeking transfer, technical and basic skills every year, I am willing to restore this funding in the 2005–06 budget provided that district level goals and performance evaluations are incorporated into the accountability structure as had been proposed.

I revise provision 4(a) as follows to conform to this action: "4. (a) The amount appropriated in Schedule (4) shall be made available to districts in the same manner as the general apportionment funding in Schedule (1), and shall be made available ~~in the same amount provided~~ to each district for the Partnership for Excellence program in the 2003–04 fiscal year, including the funding deferred for this program pursuant to Section 84321 of the Education Code, and notwithstanding the basic aid status of any district. As a condition of receiving these funds, the districts shall first agree to assure that courses related to student needs for transfer, basic skills, and vocational and workforce training are accorded the highest priority and are provided to the maximum extent possible within the budgeted funds."

Item 8260-101-0001—For local assistance, California Arts Council. I delete this item.

I am deleting the \$1,000,000 legislative augmentation for local arts grants. Given the fiscal condition of the State, this reduction is necessary to help build a prudent reserve and bring ongoing expenditures in line with existing resources over the longer term.

Item 8570-101-0001—For local assistance, Department of Food and Agriculture. I reduce this item from \$6,078,000 to \$5,528,000 by reducing:

- (1) 11-Agricultural Plant and Animal, Pest and Disease Prevention from \$6,078,000 to \$5,528,000.

I am deleting the \$550,000 legislative augmentation that would provide specified Los Angeles County employees performing pest detection and eradication activities with permanent employee status. This augmentation is associated with pending legislation and I am opposed to the appropriation of funds for legislation that has not yet been approved by the Legislature and the Administration.

Item 8665-001-9326—For support of California Consumer Power and Conservation Financing Authority. I reduce this item from \$1,224,000 to \$424,000 by reducing:

- (1) 15-Energy Acquisition from \$738,000 to \$258,000;
- (2) 20-Planning and Policy Development from \$486,000 to \$166,000;
- (3) 30.01-Administration from \$343,000 to \$119,000; and
- (4) 30.02-Distributed Administration from –\$343,000 to –\$119,000.

I am deleting the \$800,000 legislative augmentation to increase funding for California Power Authority (Authority) activities. I proposed in my January 10 Budget to eliminate the Authority as a first step towards reorganizing California's energy agencies. While further energy reorganizations may be proposed, the continued existence of the Authority will not contribute to improving California's energy situation and its elimination need not wait for more comprehensive energy reorganization proposals. Other State energy agencies already perform activities similar to those of the Authority. Elimination of the Authority is an appropriate first step to streamline energy programs and I renew my call on the Legislature to send me legislation statutorily eliminating this unnecessary organization.

Item 8830-001-0001—For support of California Law Revision Commission. I reduce this item from \$662,000 to \$512,000 by reducing:

- (1) 10-Law Revision Commission from \$677,000 to \$527,000.

I am deleting the \$150,000 legislative augmentation. Given the fiscal condition of the State, this reduction is necessary to help build a prudent reserve and bring ongoing expenditures in line with existing resources over the longer term. With this reduction, \$527,000 remains to support the Commission's programs.

With the above deletions, revisions, and reductions, I hereby approve Senate Bill 1113.

ARNOLD SCHWARZENEGGER, Governor

- 2 [Ch. 216] Senate Bill 1108 contains numerous changes to the law regarding schools consistent with the Budget that I have approved. Foremost among those provisions that I am approving are \$110 million for K–12 school district revenue limit equalization and statutory provisions allocating \$80 million in equalization funding for community colleges. Included in this bill, of great importance to school districts is the \$270 million in funding to reduce cuts made to revenue limits in the 2003–04 Budget, and a new mechanism to ensure that old Proposition 98 debts will be paid off beginning in 2006–07 at a pace the State can afford—\$150 million per year. Also included in this bill is \$138 million in one-time funds for instructional materials to schools in deciles 1 and 2 of the Academic Performance Index, and \$58.4 million to retire old debts for State mandates on schools.

However, I am eliminating three appropriations in his bill totaling over \$11 million that we were not part of the agreements I made with legislative leaders on education spending. With these deletions, I am setting aside the funds to focus on the education priorities agreed to with education leaders to provide more flexible funding so local schools can fund their most important needs.

I am deleting a change to law in Section 10 of the bill that adjusts state funding for revenue limits by the savings schools receive from lower Public Employees Retirement System rates. The change in Education Code Section 42238.23 exempts funds provided to regional occupational centers that are joint powers organizations from these reduc-

tions that apply to all other educational agencies. This is not equitable and is unwarranted. By deleting this amendment, existing law will be restored, which under the current interpretation of the Department of Education, will reduce the statutory appropriation for school revenue limits equitably to all educational agencies.

I am deleting the \$6,000,000 legislative augmentation in subparagraph (A) of paragraph (3) of subdivision (a) of Section 36 to provide Arts Works grants. While I am supportive of arts programs, this small, competitive grant program serves relatively few schools. These funds, which count towards Proposition 98 2003–04 obligations, will be appropriated to schools at a future date. During this time of fiscal difficulties, these funds should be spent for educational priorities agreed to with education leaders to provide more flexible funding so local schools can fund their most important needs.

I am deleting the \$5,000,000 legislative augmentation in subparagraph (D) of paragraph (3) of subdivision (a) of Section 36 to start a new cohort for the Academic Improvement & Achievement Act. This small, competitive grant program helps only 12 districts out of the over 1,000 school districts in the state. The program has sufficient funding to complete the existing cohorts, and is set to sunset on July 1, 2005. These funds, which count towards the Proposition 98 obligation for 2003–04, will be appropriated at a future date. During this time of fiscal difficulties, these funds should be spent for educational priorities agreed to with education leaders to provide more flexible funding so local schools can fund their most important needs.

I am signing this bill with the following reductions:

I am deleting Section 10.

I am revising Section 36 as follows:

I reduce the total of the appropriations in subdivision (a) of Section 36 of this bill from \$926,527,000 to \$915,441,000 by deleting subparagraph (A) of paragraph (3) of subdivision (a), which contains an appropriation for \$6,000,000, and by deleting subparagraph (D) of paragraph (3) of subdivision (a), which contains an appropriation for \$5,000,000. I am also correcting the total of the appropriation to reflect the sum of the parts.

ARNOLD SCHWARZENEGGER, Governor

3 [Ch. 230] I am signing Senate Bill 1107 with the following reductions:

The Sierra Nevada's are a valuable natural asset for all Californians. There is a bipartisan proposal pending in the Legislature to create a Sierra Nevada Conservancy that balances statewide values and local interests. I am deleting \$5 million of the \$9.15 million appropriation for the Sierra Nevada Cascade and sustaining \$4.15 million to assure that there are adequate resources to make the Sierra Nevada Conservancy a success when it is created. The remaining funding level more accurately reflects the actual amount that the Secretary will be able to expend in the 2004–05 fiscal year until the conservancy is fully implemented.

Additionally, I am deleting \$28.35 million of the \$38.35 million appropriations for the purpose of awarding grants related to River Parkways conservation programs. These reductions better reflect the actual amount that the Secretary will be able to expend in the 2004–05 fiscal year because the bill requires new program activities which will take time to implement.

ARNOLD SCHWARZENEGGER, Governor
