CHAPTER 171

An act making appropriations for the support of the government of the State of California and for several public purposes in accordance with the provisions of Section 12 of Article IV of the Constitution of the State of California, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 24, 2007. Filed with
Secretary of State August 24, 2007.]

I object to the following appropriations contained in Senate Bill 77.

Item 0250-001-0001—For support of Judicial Branch. I revise this item by deleting Provision 5.

I am deleting Provision 5, which would state the Legislature's intent that the Administrative Office of the Courts (AOC) prioritize existing resources to provide a \$5 increase to the hourly rates paid to attorneys in the Court Appointed Counsel Program (Program). A study of the Program's attorney rates is currently underway and is due to be completed by the end of August 2007. To the extent that the study justifies rate increases, the AOC has the ability to provide increases commensurate with the needs as determined by the study.

Item 0250-101-0932—For local assistance, Judicial Branch. I reduce this item from \$3,056,153,000 to \$3,035,796,000 by reducing:

(1) 45.10-Support for Operation of the Trial Courts from \$2,632,142,000 to \$2,611,785,000;

and by revising Provision 4.

I am reducing this item by \$20,357,000, which includes a reduction of \$17,377,000 for funding to support the implementation of the Omnibus Conservatorship and Guardianship Reform Act of 2006 (Act) and a reduction of \$2,980,000 for one month of savings related to the 50 new trial court judgeships established in 2006-07. It is my intention for the Judicial Branch to delay implementation of the Act until the 2008-09 fiscal year. Due to the timing of appointments and hiring, one month of the funding for new judgeships will not be necessary in 2007-08. These reductions are necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

I am revising Provision 4, which would require the Judicial Council to allocate not less than \$5,250,000 for court interpreter pay increases and other recruiting and retention incentives. Requiring the Judicial Council to allocate funds for court interpreter recruiting and retention incentives would alter the collective bargaining process by shifting the focus from the actual need for pay increases and other recruiting and retention measures, as negotiated through the normal process, to the minimum level of funding allocated.

Provision 4 is revised as follows:

“The funds appropriated in Schedule (4) shall be for payments for services of contractual court interpreters, and certified and registered court interpreters employed by the courts, and the following court interpreter coordinators: 1.0 each in counties of the 1st through the 15th classes, 0.5 each in counties of the 16th through the 31st classes, and 0.25 each in counties of the 32nd through the 58th classes. For the purposes of this provision, “court

interpreter coordinators” may be full- or part-time court employees, or those contracted by the court to perform these services.

The Judicial Council shall set statewide or regional rates and policies for payment of court interpreters, not to exceed the rate paid to certified interpreters in the federal court system. The Legislature finds and declares that there exists a shortage in the availability of certified and registered interpreters in the state courts that reduces the state’s ability to provide meaningful access to justice for all court users, including parties, witnesses, and victims. Therefore, every effort must be made to recruit and retain qualified interpreters to work in the state courts.

~~Of the amount appropriated in Schedule (4), not less than five million dollars (\$5,000,000), not including funds provided pursuant to Section 77202 of the Government Code, shall be provided to the trial courts for the purpose of adjusting or creating pay ranges for court interpreter employees that, at the top of the range, do not exceed the top step of the full performance range for staff interpreters in the Federal Courts as of the effective date of this provision. The establishment of pay ranges and their application to specific employee classifications shall be subject to meet and confer in good faith as provided in Chapter 7.5 (commencing with Section 71800) of Title 8 of the Government Code. The Judicial Council shall adjust statewide or regional rates for contract court interpreters in a manner that is equivalent to the average rate of increase provided to court interpreter employees. The Judicial Council shall notify the courts in each region of the availability of these funds for the purposes set forth in this provision, and shall allocate the funds upon notification that ranges and salary adjustments have been established and implemented as provided herein. In no event shall the daily rate set by the Judicial Council for contract interpreters exceed the equivalent median wage of court interpreters employed by the courts in each region.~~

~~Of the amount appropriated in Schedule (4), the Judicial Council shall allocate not less than two hundred fifty thousand dollars (\$250,000) to develop and make available to trial courts, interpreter training and recruitment programs including, but not limited to: 1) training programs designed for working interpreters who are subject to new certification exams in Russian, Western Armenian, Mandarin, Cambodian and Punjabi; 2) certification exam preparation courses for all languages subject to state certification exams; and 3) development of mentoring and internship programs in the trial courts for exam candidates attending educational institutions that train legal interpreters, subject to meet and confer in good faith as provided in Chapter 7.5 (commencing with Section 71800) of Title 8 of the Government Code. The Judicial Council shall adopt appropriate rules and procedures for the administration of these funds. The Judicial Council shall report to the Legislature and Director of Finance annually regarding expenditures from this schedule, which shall also include a report of expenditures for; equivalent work days of, non-certified and non-registered contract interpreters that provide interpretation services in the state trial courts; and number of interpreter vacancies filled.”~~

~~Item 0250-111-0001—For local assistance, Judicial Branch. I reduce this item from \$1,813,729,000 to \$1,793,372,000.~~

~~I am reducing this item by \$20,357,000 to conform with the action taken in Item 0250-101-0932.~~

~~Item 0530-001-9732—For support of Secretary of Health and Human Services Agency. I reduce this item from \$182,976,000 to \$177,841,000 by reducing:~~

- ~~(1) 30-Office of Systems Integration from \$182,976,000 to \$177,841,000.~~

This reduction conforms to the action taken in Item 5180-151-0001.

Item 0540-492—Reappropriation, Secretary for Resources. I revise this item by deleting Schedule 1.

“Notwithstanding any other provision of law, the period to liquidate encumbrances of the following citations is extended to June 30, 2008:

0001-General Fund

(1) ~~Item 0540-101-0001, Budget Act of 1999 (Ch. 50, Stats. 1999), as reappropriated by Item 0540-492, Budget Act of 2002 (Ch. 379, Stats. 2002), Item 0540-490, Budget Acts of 2003 (Ch. 157, Stats. 2003), 2005 (Chs. 38 and 39, Stats. 2005), and 2006 (Chs. 47 and 48, Stats. 2006), and Item 0540-491, Budget Act of 2004 (Ch. 208, Stats. 2004)~~

(2) Item 0540-101-0001, Budget Act of 2000 (Ch. 52, Stats. 2000), as reappropriated by Item 0540-490, Budget Acts of 2003 (Ch. 157, Stats. 2003), 2005 (Chs. 38 and 39, Stats. 2005), and 2006 (Chs. 47 and 48, Stats. 2006) and Item 0540-491, Budget Act of 2004 (Ch. 208, Stats. 2004)

(3) Item 0540-101-0001, Budget Act of 2001 (Ch. 106, Stats. 2001), as reappropriated by Item 0540-491, Budget Act of 2004 (Ch. 208, Stats. 2004), and Item 0540-490, Budget Acts of 2005 (Chs. 38 and 39, Stats. 2005) and 2006 (Chs. 47 and 48, Stats. 2006)”

I am eliminating the expenditure availability for two projects funded from the Coastal Resources Grant program. Funds for these projects have been available since 1999 and no funds have been expended on either project as required by the grant agreements. Several obstacles remain, making progress on these projects unlikely in the near future. Consequently, it would not be prudent to continue earmarking General Fund for these projects. This action will result in \$577,500 of General Fund savings.

Item 0552-001-0001—For support of the Office of the Inspector General. I reduce this item from \$19,265,000 to \$18,306,000 by reducing:

(1) 10-Office of Inspector General from \$19,265,000 to \$18,306,000, and by deleting Provision 1.

I am deleting the \$959,000 augmentation for the Office of the Inspector General (OIG) to implement their review of all candidates for superintendent in Division of Juvenile Justice facilities. Superintendent review was mandated by Chapter 709, Statutes of 2006 (AB 971). While I believe these activities are important, I am directing the OIG to delay implementation of this measure in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

Provision 1 would require the OIG to complete a study of custody resources within the California Department of Corrections and Rehabilitation’s (CDCR) budget related to the transfer of various medical guarding and transportation positions within the CDCR. I am concerned about the large number of programs being created and expanded within the OIG. The Budget includes additional resources for audits and investigations, auditing the budget of the California Prison Receivership, monitoring compliance with court orders in the Armstrong case, and chairing the California Rehabilitation Oversight Board created by Chapter 7, Statutes of 2007 (AB 900). Because of the increased workload requirements within their programmatic expansions and responsibilities, the OIG will not be able to complete this study. However, I am directing the CDCR’s reactivated Program Support Unit, whose historical responsibilities have included studying and making recommendations on custody staffing levels within the CDCR, to conduct this study.

Item 0690-002-0001—For Support of Office of Emergency Services. I delete Provision 4.

I am deleting Provision 4, which specifies that the duties and responsibilities of the State Anti-Gang Coordinator will be subject to additional definition in legislation. However, I will continue to work with the Legislature to further define the role of the Coordinator to assist state and local agencies in combating gang violence.

Item 0690-102-0214—For local assistance, Office of Emergency Services. I delete Provision 1.

I am deleting Provision 1, which specifies that funds for grants to cities and community-based organizations are for gang prevention, intervention, reentry, education, job training and skills development, and family and community services. In addition, the language in Provision 1 specifies that none of the funds can be used for law enforcement suppression activities or front-line police services.

While prevention and intervention are necessary components of a comprehensive anti-gang strategy, so is suppression. Therefore, I am vetoing Provision 1 and directing the State Anti-Gang Coordinator to draft and provide cities with grant instructions specifying that suppression activities are an allowable use of the funds, along with the other activities listed in Provision 1.

Item 0820-001-0001—For support of Department of Justice. I revise this item from \$404,237,000 to \$403,237,000, by reducing:

(8) 45-Public Rights from \$92,478,000 to \$89,312,000;

(15) Amount payable from Hazardous Waste Control Account (Item 0820-001-0014) from -\$1,973,000 to -\$987,000;

(26) Amount payable from the Toxic Substances Control Account (Item 0820-001-0557) -\$2,361,000 to -\$1,181,000;

and by deleting Provision 12.

I am deleting the \$1,000,000 legislative augmentation that would have provided funding for the Department of Justice (DOJ) to independently pursue climate change litigation as the plaintiff on behalf of the state. In the area of law related to climate change, the Air Resources Board (ARB) is the state agency with the responsibility to oversee litigation in that arena and has the funds to request the DOJ to pursue such litigation.

I am deleting Provision 12 to conform to this action.

I am reducing the Environmental Law Section's appropriations from the Hazardous Waste Control Account and the Toxic Substances Control Account by a total of \$2,166,000 to reflect half-year funding for the program, and I urge the Legislature to pass legislation that redirects these funds to the California Environmental Protection Agency's (Cal/EPA) and the Department of Toxic Substances Control's (DTSC) green chemistry initiative and returns the litigation oversight role in hazardous waste cases to Cal/EPA and DTSC. DTSC is increasingly turning to our local government partners and district attorneys to enforce California's hazardous waste laws. In addition, Cal/EPA and DTSC are developing a green chemistry initiative that will change the paradigm of toxic and chemical use and enforcement in California. The combination of these activities will improve our environment and human health through greater enforcement of current hazardous waste laws and usher in a new future to the approach of chemical use in California. In addition, when developing the 2008-09 Budget, we will review the litigation needs in this area and budget the necessary funds for legal services within DTSC's budget.

I am sustaining the \$541,000 legislative augmentation for the first year of a multi-year project to update the DOJ Automated Firearms Systems database. However, I am concerned that there has been no review done to ensure the information technology solution addresses

the program needs. In addition, I am concerned that competing demands for the Dealers' Record of Sale Special Account funds could necessitate an increase in fees on the sale of firearms. Therefore, in addition to having an approved feasibility study report prior to expending any funds, I am also requesting the DOJ to provide the Department of Finance and the Legislature with a long-term analysis of the fund, including any known pressures on that fund, to ensure that there are sufficient resources to cover the program costs without necessitating a fee increase.

Item 0820-001-0014—For support of Department of Justice. I reduce this item from \$1,973,000 to \$987,000.

I am revising this item to conform to the action I have taken in Item 0820-001-0001.

Item 0820-001-0557—For support of Department of Justice. I reduce this item from \$2,361,000 to \$1,181,000.

I am revising this item to conform to the action I have taken in Item 0820-001-0001.

Item 0855-101-0367—For local assistance, California Gambling Control Commission. I reduce this item from \$30,283,000 to \$283,000 and delete Provision 1.

I am deleting the \$30,000,000 for grants to local government agencies to mitigate the impacts on the local governments by tribal casinos. As evidenced in a recent Bureau of State Audits report, there is great concern regarding whether these funds are being used solely for their intended purpose, which is to mitigate the impacts of having tribal casinos in their communities. I will support legislation that includes an appropriation for mitigation funds if the process is reformed.

I am deleting Provision 1 to conform to this action.

With this reduction, there still remains \$283,000 for payment to Del Norte County which reflects local mitigation grant funding not received by Del Norte County from the Indian Gaming Special Distribution Fund in fiscal years 2003-04, 2004-05, and 2005-06.

Item 0860-001-0001—For support of State Board of Equalization. I reduce this item from \$218,835,000 to \$218,435,000 by reducing:

(2) 300000-Operating Expense and Equipment from \$96,269,000 to \$95,869,000, and by deleting Provision 3.

I am deleting this legislative augmentation of \$400,000 for a county assessor pilot program designed to promote taxpayer awareness of the requirement to pay use tax on non-exempt purchases if sales tax has not been paid. This reduction is necessary to limit program expansions and provide for a prudent General Fund reserve in light of the various uncertainties in revenues and spending that we face this year.

Item 0890-001-0001—For support of Secretary of State. I reduce this item from \$48,157,500 to \$47,822,000 by reducing:

(2) 20-Elections from \$46,933,500 to \$46,598,000.

I am deleting the \$335,500 legislative augmentation for 4.0 positions which would provide staffing to expand voter outreach and education efforts to support the three elections scheduled for 2008. During a time of limited General Fund resources, the counties, political parties, and civic organizations must step up and encourage and promote increased voter participation.

Item 3110-101-0001—For local assistance, Special Resources Program. I delete this item and Provision 1.

I am deleting the \$200,000 legislative augmentation for the Tahoe Regional Planning Agency for regulation enforcement and transit system development. It is premature to provide additional funding until the bi-state commission completes its report. With these

reductions, \$3,800,000 still remains to provide California's share of funding for the Tahoe Regional Planning Agency.

I am deleting Provision 1 to conform to this action.

Item 3340-101-6051—For local assistance, California Conservation Corps. I delete this item.

I am deleting the \$12,000,000 legislative augmentation that would provide \$1,000,000 to each of the 12 certified Local Conservation Corps. Notwithstanding the merit of the Local Corps programs, the California Conservation Corps is still in the process of developing grant guidelines for Proposition 84 bond funds. Furthermore, a recent audit of Proposition 12 and 40 bond funds identified a need for the Corps to improve its oversight of bond expenditures. The audit recommended that the Corps develop a corrective action plan prior to receiving additional bond funds. Therefore, it is necessary to delete this funding to ensure that bond proceeds are spent efficiently, effectively, and in a manner consistent with my Executive Order S-02-07 regarding bond accountability. I support funding for the Local Corps grant program when the grant guidelines and a corrective action plan that identifies appropriate oversight measures are in place.

Item 3360-001-0465—For Support, State Energy Resources Conservation and Development Commission. I revise this item by reducing:

- (1) 30-Development from \$128,807,000 to \$127,841,000, and
- (6) Reimbursements from -\$6,711,000 to -\$5,745,000.

I am eliminating a fund shift of \$966,000 from the Energy Resources Programs Account to reimbursements for the support of two contracts. Funding for these contracts was included in the budget of the Energy Commission (Commission) when I introduced the Governor's Budget last January. However, the Legislature removed the funds from the Commission's budget, placed them in the budget of the Air Resources Board, and indicated that the Commission may seek the funds by contracting with the Air Resources Board. This would have the effect of requiring both the Commission and the Air Board to engage in unnecessary work that would delay these important projects, and as such is unacceptable.

Item 3600-001-0001—For support of Department of Fish and Game. I reduce this item from \$84,503,000 to \$82,998,000 by reducing:

- (3) 30-Management of Department Lands and Facilities from \$54,180,000 to \$53,342,000;
- (4) 40-Enforcement from \$61,705,000 to \$60,200,000; and
- (22) Amount payable from the Coastal Wetlands Account (Item 3600-001-3104) from -\$974,000 to -\$136,000.

I am reducing the \$3,000,000 legislative augmentation for Fish and Game Warden recruitment and retention by \$1,505,000. Last year, for the first time in several years, I increased salaries by 25 percent during the three years of the bargaining agreement. I am sustaining \$1,495,000 to provide overtime funding for wardens and lieutenants, which continues my commitment to address compensation issues. However, this partial veto is necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

I am also revising this item to conform to the actions I have taken in Item 3600-001-3104.

Item 3600-001-3104—For support of Department of Fish and Game. I reduce this item from \$974,000 to \$136,000.

I am deleting the \$838,000 legislative augmentation for the maintenance and management of Department of Fish and Game coastal wetlands properties. Last year, I

sustained a \$5,000,000 transfer from the General Fund to the Coastal Wetlands Account to create an endowment to provide ongoing, sustainable funding for coastal wetlands management activities. This augmentation, if sustained for 2007-08 and continued in future years, would spend down the endowment in approximately six years, and place additional cost pressure on the General Fund at that time. With this reduction, \$1,400,000 million and 18.1 positions remain for coastal wetlands management.

Item 3720-001-0001—For support of California Coastal Commission. I reduce this item from \$11,881,000 to \$11,501,000 by reducing:

- (1) 10—Coastal Management Program from \$15,909,000 to \$15,529,000.

I am deleting the \$380,000 legislative augmentation for coastal enforcement. The California Coastal Commission has the authority to adjust its fees, and I am willing to consider augmentations that address the Commission's workload needs once fees have been adjusted to cover associated costs. Currently, however, the proposed augmentation would result in additional General Fund costs. This reduction is necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. With this reduction \$15,529,000 still remains to support the Commission's coastal management program.

Item 3780-001-0001—For support of Native American Heritage Commission. I reduce this item from \$970,000 to \$770,000 by reducing:

- (1) 10—Native American Heritage Commission from \$975,000 to \$775,000.

I am deleting the \$200,000 legislative augmentation for 2.0 positions to implement legislative mandates. This reduction is necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. With this reduction \$775,000 remains to support the Native American Heritage Commission.

Item 3790-301-6051—For capital outlay, Department of Parks and Recreation. I reduce this item from \$60,878,000 to \$45,878,000 by reducing:

- (3.7) 90.RS.412-Statewide: State Park System Opportunity and Inholding Acquisitions—Acquisition from \$30,000,000 to \$15,000,000.

I am vetoing \$15,000,000 of the \$25,000,000 augmentation to allow the Department sufficient resources for opportunity purchases and inholding acquisitions. The Department expended \$324,000,000 between 2000 and 2006 to acquire nearly 100,000 acres to expand the state park system. Given this recent significant investment, the Department should proceed cautiously to limit future operating costs.

Item 3790-492—Reappropriation, Department of Parks and Recreation. I revise this item by deleting Schedule 1.

“Notwithstanding any other provision of law, the period to liquidate encumbrances in the following citation is extended as cited below:

6029--California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Fund

(1) ~~Subdivision (b) of Section 2 of Chapter 1126 of the Statutes of 2002. The liquidation period for the grant of \$3,000,000 to the City of Oroville is extended to December 31, 2009.~~

I am eliminating the expenditure availability for this project funded from the Proposition 40 Historical and Cultural Resources Preservation Opportunity Grant Program. Funds for this project have been available for five years and have not yet been spent.

Item 3860-001-0001—For support of Department of Water Resources. I revise this item by reducing:

(1) 10-Continuing Formulation of the California Water Plan from \$120,292,000 to \$116,047,000, and

(29) Amount payable from the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Fund of 2006 (Item 3860-001-6051) from -\$12,165,000 to -\$7,920,000.

I am revising this item to conform to the action taken in Item 3860-001-6051.

Item 3860-001-6051—For support of Department of Water Resources. I reduce this item from \$12,165,000 to \$7,920,000.

I am deleting the legislative augmentation of \$4,245,000 for watershed basin planning activities. Although I support this program, I believe that these activities should be funded through Proposition 84 funds available for the development of regional and local land use plans. Statewide water planning activity funds should be reserved for activities such as planning future water storage, adaptations of the state's water systems to climate change, and other activities that address the state's future water supply needs.

Item 3860-101-6051—For local assistance, Department of Water Resources. I reduce this item from \$229,340,000 to \$219,340,000.

I am deleting the legislative augmentation of \$10,000,000 for the Flood Protection Corridor Program. My proposal includes \$24,000,000 Proposition 84 funds for projects to implement Flood Protection Corridor Program. This funding is sufficient to meet the needs of the program for the budget year, and I will propose additional funds to implement Flood Protection Corridor projects in future budgets.

Item 3860-101-6052—For local assistance, Department of Water Resources. I reduce this item from \$197,450,000 to \$167,450,000.

I am deleting the legislative augmentation of \$30,000,000 for the Floodway Corridor Program. This augmentation is unnecessary because criteria have not been developed for this new program created by Proposition 1E. Thus, it is not feasible for grants to be solicited and awarded during the fiscal year. The Department of Water Resources will develop criteria for this program during the fiscal year, and funds to implement Floodway Corridor Program projects will be included in future budgets.

Item 3900-001-0465—For support of State Air Resources Board. I delete this item.

I am eliminating this item by reducing \$966,000 in funding from the Energy Resources Programs Account. This funding was intended to support two contracts that were proposed in the budget of the Energy Commission when I introduced the Governor's Budget last January. However, the Legislature removed the funds from the Commission's budget, placed them in the budget of the Air Resources Board, and indicated that the Commission may seek the funds by contracting with the Air Resources Board. This would have the effect of requiring both the Commission and the Air Board to engage in unnecessary work that would delay these important projects, and as such is unacceptable.

Item 3900-001-6053—For support of State Air Resources Board.

I am sustaining the legislative augmentation of an additional \$96,500,000 provided for school bus replacement and retrofits to reduce the air pollution emissions of older, high-polluting school buses. However, I note a concern with respect to the ability of the State Air Resources Board to allocate almost \$200 million in lower-emission school bus funding within the next two years. It is important that we do not sacrifice accountability in the interests of expediency. Therefore, while acknowledging the challenge that the State Air Resources Board faces in distributing these funds, I am directing the State Air Resources Board to allocate these funds expeditiously while ensuring consistency with

the accountability safeguards identified in my Executive Order S-02-07 for the bonds that were approved by the voters in the November 2006 general election.

Item 3900-001-6054—For support of State Air Resources Board.

I am sustaining the legislative augmentation of an additional \$139,000,000 provided for trade corridor emissions reductions to be expended in the budget year for this new program authorized by the voters in Proposition 1B in the November 2006 general election. Proposition 1B provides \$1 billion to fund projects intended to improve air quality along four of California's major transportation corridors: from the Los Angeles ports to the Inland Empire, State Route 99 in the Central Valley, the San Francisco Bay Area, and the San Diego border region. The State Air Resources Board will be developing program guidelines and will solicit project proposals. The projects to be funded are intended to achieve air quality improvements above and beyond anything required by current law or regulation.

The travelers on our busy trade corridors and the individuals who reside along their routes are demanding relief now—not many years from now. However, I am concerned about taxing the ability of the State Air Resources Board to develop program guidelines and allocate \$250,000,000 in the 2007-08 fiscal year. We must ensure effective expenditure of this bond funding. It is important that we do not sacrifice accountability in the interests of expediency. Therefore, while acknowledging the challenge that the State Air Resources Board faces in distributing these funds, I am directing the State Air Resources Board to ensure that this funding be allocated consistent with the accountability safeguards identified in my Executive Order S-02-07 for all bond funds approved by the voters in the November 2006 general election.

I am requesting the State Air Resources Board to develop program administrative guidelines that make sense, reduce bureaucratic red tape, simplify and expedite project application and award procedures, and ensure projects are completed in record time. The people who voted for Proposition 1B are demanding this action. I know that my colleagues in the Legislature agree with these goals, and that the staff of the State Air Resources Board is up to this challenge.

In addition, because the language adopted by the Legislature relies heavily on local and regional entities to carry out this program, I am calling on those entities to work closely with the State Air Resources Board and ensure they are prepared to submit applications to receive and allocate funding as soon as possible in this fiscal year.

Item 4260-001-0001—For support of Department of Health Care Services. I reduce this item from \$136,412,000 to \$136,218,000 by reducing:

- (1) 20-Health Care Services from \$385,348,000 to \$382,971,000;
 - (6) Amount payable from the Childhood Lead Poisoning Prevention Fund (Item 4260-001-0080) from -\$198,000 to -\$142,000;
 - (8) Amount payable from the Federal Trust Fund (Item 4260-001-0890) from -\$224,133,000 to -\$224,036,000;
- and by deleting:
- (10) Amount payable from the California Discount Prescription Drug Program Fund (Item 4260-001-8040) (-\$2,030,000);
- and Provision 4.

I am deleting the \$56,000 legislative augmentation to restore 1.0 special funded position that was redirected from the Department of Health Services (DHS) to the new Department of Health Care Services. This will ensure the split of the DHS into two departments remains

budget-neutral, consistent with the intent of Chapter 241, Statutes of 2006 (SB 162). This action is consistent with the deletion of \$744,000 and 11.0 positions in the Department of Public Health.

I am also reducing \$56,000 in Item 4260-001-0080 to conform to this action.

Provision 4 prohibits the Department of Health Care Services from expending any funds to relocate the Fresno Medi-Cal Field Office. I am deleting Provision 4 because it interferes with the Executive Branch's ability to effectively administer programs. Maintaining the Department's ability to consolidate operations is an important component of increasing operational efficiencies.

I am deleting \$195,000 (\$98,000 General Fund and \$97,000 Federal Trust Fund) and 2.0 positions for the implementation of Chapter 328, Statutes of 2006 (SB 437), which included a pilot program for self-certification of income at enrollment for Medi-Cal and development of feasibility study reports to begin implementing changes to several automated eligibility systems. While I remain committed to implementation of these reforms, this reduction is needed to build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. I am directing the Department of Health Care Services to delay implementation for one year.

In order to further build a prudent reserve, I am deleting \$2,030,000 intended to specifically fund implementation costs for the California Discount Prescription Drug Program. I am directing the Department of Health Care Services to identify resources to move forward with implementation.

I am also deleting Item 4260-001-8040 to conform to this action.

I am deleting \$96,000 General Fund intended to fund implementation costs for the California Rx Prescription Drug Website Program and am directing the Department of Health Care Services to delay implementation of the program for one year.

Item 4260-001-0080—For support of Department of Health Care Services. I reduce this item from \$198,000 to \$142,000.

I am reducing this item to conform to the action I have taken in Item 4260-001-0001.

Item 4260-001-0890—For support of Department of Health Care Services. I reduce this item from \$224,133,000 to \$224,036,000.

I am reducing this item by \$97,000 to conform to the action I have taken in Item 4260-001-0001, related to the delayed implementation of Chapter 328, Statutes of 2006 (SB 437).

Item 4260-001-8040—For support of Department of Health Care Services. I delete this item.

I am deleting this item to conform to the action I have taken in Item 4260-001-0001 regarding the California Discount Prescription Drug Program.

Item 4260-006-0001—For transfer by the Controller to the California Discount Prescription Drug Program Fund. I delete this item and Provision 1.

I am deleting the \$6,330,000 in this item to conform to the actions I have taken in Items 4260-001-0001, 4260-001-8040, and 4260-119-8040 regarding the California Discount Prescription Drug Program.

I am also deleting Provision 1 to conform to this action.

Item 4260-101-0001—For local assistance, Department of Health Care Services. I reduce this item from \$14,313,728,000 to \$13,903,340,000 by reducing:

(1) 20.10.010-Eligibility (County Administration) from \$2,660,676,000 to \$2,633,842,000;

(3) 20.10.030-Benefits (Medical Care and Services) from \$32,222,681,000 to \$31,447,632,000; and

(8) Amount payable from the Federal Trust Fund (Item 4260-101-0890) from -\$20,595,964,000 to -\$20,204,469,000.

I am deleting the legislative augmentation of \$4,260,000 (\$2,130,000 General Fund and \$2,130,000 Federal Trust Fund) for workstation replacement to conform to the action taken in Item 5180-141-0001.

I am deleting \$106,286,000 (\$53,143,000 General Fund and \$53,143,000 Federal Trust Fund) of the funding for rates for managed health care plans in the Medi-Cal Program. This reduction is necessary to provide for a prudent General Fund reserve in light of the various uncertainties in revenues and spending that we face this year. With this reduction, \$108,000,000 (\$54,000,000 General Fund) still remains to fund rate increases for plans to ensure adequate access to care for low-income Californians.

I am reducing the Medi-Cal Program by \$644,893,000 (\$331,893,000 General Fund and \$313,000,000 Federal Trust Fund). This reduction is necessary to provide for a prudent General Fund reserve in light of the various uncertainties in revenues and spending that we face this year. This reduction is based on historical data showing that on average over the last three fiscal years, Medi-Cal expenditures have been more than \$400 million General Fund lower than the estimate.

I am deleting \$26,792,000 (\$13,396,000 General Fund and \$13,396,000 Federal Trust Fund) to delay the implementation of Chapter 328, Statutes of 2006 (SB 437), which included a pilot program for self-certification of income at enrollment for Medi-Cal and development of feasibility study reports to begin implementing changes to several automated eligibility systems. This action will delay implementation of SB 437 for one year. This reduction is necessary to provide for a prudent General Fund reserve in light of the various uncertainties in revenues and spending that we face this year.

I am reducing the \$19,652,000 (\$9,826,000 General Fund and \$9,826,000 Federal Trust Fund) in funding for the county grants portion of the Children's Outreach Initiative. This appropriation reduction is necessary to provide for a prudent General Fund reserve in light of the various uncertainties in revenues and spending that we face this year. With this reduction, \$147,020,000 (\$64,680,000 General Fund) still remains to fund other components of the Children's Outreach Initiative that streamline enrollment processes, improve retention, and support county-based enrollment efforts for children. The Department of Health Care Services will pay for any valid county claims for the Children's Outreach Initiative for the 2006-07 fiscal year from remaining funds within this item.

Item 4260-101-0890—For local assistance, Department of Health Care Services.

I reduce this item from \$20,595,964,000 to \$20,204,469,000.

I am reducing this item by \$391,495,000 to conform to the action I have taken in Item 4260-101-0001.

Item 4260-111-0001—For local assistance, Department of Health Care Services. I reduce this item from \$172,616,000 to \$162,616,000 by reducing:

(3) 20.35-Primary and Rural Health from \$53,289,000 to \$43,289,000, and by deleting Provision 3.

I am reducing \$10,000,000 General Fund from Expanded Access to Primary Care (EAPC) in order to help build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. I will seek a subsequent bill this session to

fund this program with Proposition 99 funding and maintain a constant level of funding in the program.

Provision 3 directs the Department of Health Care Services to work with various constituency groups to resolve issues with the timely discharge of patients enrolled in the California Children's Services Program. This requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language.

Given the Legislature's interest in this area and the importance of this program, I am instructing the director of the Department of Health Care Services to continue the activities of this legislative request to the extent such activities can be achieved using existing resources and without impairing the Department of Health Care Services ability to perform its essential functions.

Item 4260-113-0001—For local assistance, Department of Health Care Services. I reduce this item from \$190,394,000 to \$185,171,000 by reducing:

(1) 20.10.010-Eligibility (County Administration) from \$20,783,000 to \$5,860,000, and

(4) Amount payable from the Federal Trust Fund (Item 4260-113-0890) from -\$330,184,000 to -\$320,484,000.

I am reducing the \$14,923,000 (\$5,223,000 General Fund and \$9,700,000 Federal Trust Fund) in funding for the county grants portion of the Children's Outreach Initiative to conform to the action I have taken in Item 4260-101-0001. The Department of Health Care Services will pay for any valid county claims for the Children's Outreach Initiative for the 2006-07 fiscal year from remaining funds within this item.

Item 4260-113-0890—For local assistance, Department of Health Care Services. I reduce this item from \$330,184,000 to \$320,484,000.

I am reducing this item by \$9,700,000 to conform to the action I have taken in Item 4260-113-0001.

Item 4260-119-8040—For local assistance, Department of Health Care Services. I delete this item.

I am deleting the \$4,300,000 intended specifically to fund local assistance implementation costs for the California Discount Prescription Drug Program. This action is necessary to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

Item 4265-001-0001—For support of Department of Public Health. I reduce this item from \$96,897,000 to \$95,460,000 by reducing:

(2) 20-Public and Environmental Health from \$504,804,000 to \$502,502,000;

(3) 30-Licensing and Certification from \$151,366,000 to \$150,935,000;

(6) Reimbursements from \$-36,726,000 to \$-36,605,000;

(14) Amount payable from the Radiation Control Fund (Item 4265-001-0075) from -\$22,620,000 to -\$22,402,000;

(16) Amount payable from the Childhood Lead Poisoning Prevention Fund (Item 4265-001-0080) from -\$9,471,000 to -\$9,368,000;

(18) Amount payable from the Clinical Laboratory Improvement Fund (Item 4265-001-0098) from -\$5,571,000 to -\$5,517,000;

(24) Amount payable from the Genetic Disease Testing Fund (Item 4265-001-0203) from -\$113,633,000 to -\$113,577,000;

(31) Amount payable from the Safe Drinking Water Account (Item 4265-001-0306) from -\$11,383,000 to -\$11,204,000;

(37) Amount payable from the Federal Trust Fund (Item 4265-001-0890) from -\$212,090,000 to -\$211,956,000;

(41) Amount payable from the Licensing and Certification Trust Fund (Item 4265-001-3098) from -\$84,033,000 to -\$83,602,000;
and by deleting Provision 6.

I am reducing the \$744,000 legislative augmentation to restore 11.0 special funded positions that were redirected from the Department of Health Services (DHS) to administrative and managerial positions in the new Department of Health Care Services and Department of Public Health. This will ensure the split of the DHS into two departments remains budget-neutral, consistent with the intent of Chapter 241, Statutes of 2006 (SB 162). This action is consistent with the deletion of \$56,000 and 1.0 position in the Department of Health Care Services.

I am also reducing \$218,000 in Item 4265-001-0075, \$103,000 in Item 4265-001-0080, \$54,000 in Item 4265-001-0098, \$56,000 in Item 4265-001-0203, \$179,000 in Item 4265-001-0306, and \$134,000 in Item 4265-001-0890 to conform to this action.

I am also reducing \$1,314,000 and 9.0 positions to reflect a delay in implementation of the Healthcare Associated Infections Program under Chapter 526, Statutes of 2006 (SB 739) for one year. This action is necessary to help build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

I am also reducing \$431,000 and 3.0 positions in Item 4265-001-3098 to conform to this action.

I am reducing \$123,000 General Fund and 2.0 positions for the implementation of Chapter 328, Statutes of 2006 (SB 437), which required development of feasibility study reports to implement changes to several automated eligibility systems. I am taking this action to delay implementation for one year in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

I am also deleting Provision 6 which would require the Department of Public Health to provide an action plan to the Legislature by November 1, 2007, and addresses temporary management appointment issues identified by the Bureau of State Audits. This requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, I am instructing the director of the Department of Public Health to comply with this legislative request to the extent compliance can be achieved using existing resources and without impairing the department's ability to perform its essential functions.

Item 4265-001-0075—For support of Department of Public Health. I reduce this item from \$22,620,000 to \$22,402,000.

I am reducing this item to conform to the action I have taken in Item 4265-001-0001.

Item 4265-001-0080—For support of Department of Public Health. I reduce this item from \$9,471,000 to \$9,368,000.

I am reducing this item to conform to the action I have taken in Item 4265-001-0001.

Item 4265-001-0098—For support of Department of Public Health. I reduce this item from \$5,571,000 to \$5,517,000.

I am reducing this item to conform to the action I have taken in Item 4265-001-0001.

Item 4265-001-0203—For support of Department of Public Health. I reduce this item from \$113,633,000 to \$113,577,000.

I am reducing this item to conform to the action I have taken in Item 4265-001-0001.

Item 4265-001-0306—For support of Department of Public Health. I reduce this item from \$11,383,000 to \$11,204,000.

I am reducing this item to conform to the action I have taken in Item 4265-001-0001.

Item 4265-001-0890—For support of Department of Public Health. I reduce this item from \$212,090,000 to \$211,956,000.

I am reducing this item to conform to the action I have taken in Item 4265-001-0001.

Item 4265-001-3098—For support of Department of Public Health. I reduce this item from \$84,033,000 to \$83,602,000.

I am reducing this item by \$431,000 and 3.0 positions to conform to the action I have taken in Item 4265-001-0001 related to the Healthcare Associated Infections Program.

Item 4265-111-0001—For support of Department of Public Health. I reduce this item from \$273,999,000 to \$265,499,000 by reducing:

- (1) 10.10-Emergency Preparedness from \$198,220,000 to \$189,720,000.

In order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year, I am reducing \$8,500,000 from this item on a one-time basis from the ongoing discretionary funding provided for allocation to local health departments for local pandemic influenza preparedness and response planning. Even with this reduction, \$10,000,000 remains to fund local health departments' emergency preparedness activities. In addition, \$8,500,000 remains to provide storage to protect the state's investment in medical supplies and equipment to address health care surge capacity needs.

Item 4280-001-0001—For support of Managed Risk Medical Insurance Board. I reduce this item from \$2,516,000 to \$2,400,000 by reducing:

- (3) 40-Healthy Families Program from \$9,495,000 to \$9,162,000, and
- (9) Amount payable from Federal Trust Fund (Item 4280-001-0890) from -\$7,000,000 to -\$6,783,000.

I am reducing \$333,000 (\$116,000 General Fund and \$217,000 Federal Trust Fund) and 3.0 positions for the implementation of Chapter 328, Statutes of 2006 (SB 437) which provided for a program to test self-certification of income at the Annual Eligibility Review for the Healthy Families Program. I am directing the Managed Risk Medical Insurance Board to delay implementation for one year to contribute to a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

Item 4280-001-0890—For support of Managed Risk Medical Insurance Board. I reduce this item from \$7,000,000 to \$6,783,000.

I am reducing this item by \$217,000 to conform to my actions in 4280-001-0001, related to the delayed implementation of Chapter 328, Statutes of 2006 (SB 437).

Item 4280-101-0890—For local assistance, Managed Risk Medical Insurance Board.

I reduce this item from \$732,337,000 to \$729,841,000.

I am reducing this item by \$2,496,000 to conform to the action I have taken in Item 4280-101-0001, related to the delayed implementation of Chapter 328, Statutes of 2006 (SB 437).

Item 4280-102-0001—For local assistance, Managed Risk Medical Insurance Board.

I reduce this item from \$26,520,000 to \$26,240,000 by reducing:

- (1) 40-Healthy Families Program from \$75,190,000 to \$74,396,000, and

(3) Amount payable from the Federal Trust Fund (Item 4280-102-0890) from -\$41,053,000 to -\$40,539,000.

I am deleting \$794,000 (\$280,000 General Fund and \$514,000 Federal Trust Fund) to conform to the action I have taken in Item 4280-001-0001, related to the delayed implementation of Chapter 328, Statutes of 2006 (SB 437).

Item 4280-102-0890—For local assistance, Managed Risk Medical Insurance Board. I reduce this item from \$41,053,000 to \$40,539,000.

I am reducing this item by \$514,000 to conform to the action I have taken in Item 4280-102-0001, related to the delayed implementation of Chapter 328, Statutes of 2006 (SB 437).

Item 4440-101-0001—For local assistance, Department of Mental Health. I revise this item from \$518,723,000 to \$463,873,000 by reducing:

(1) 10.25-Community Services—Other Treatment from \$705,124,000 to \$638,274,000, and

(6) Reimbursements from -\$1,132,671,000 to -\$1,120,671,000.

I am deleting the \$54,850,000 legislative augmentation for the Integrated Services for Homeless Adults with Serious Mental Illness Program. While I support the goals of the program, this reduction is necessary to limit program expansions and to help bring ongoing expenditures in line with existing resources. To the extent counties find this program beneficial and cost-effective, it can be restructured to meet the needs of each county's homeless population using other county funding sources, such as federal funds, realignment funds, or Proposition 63 funds.

I am reducing Schedule (6) to eliminate the \$12,000,000 legislative augmentation for the 5 percent rate restoration for mental health managed care. This technical veto is consistent with the legislative action taken in Item 4440-103-0001.

Item 4700-001-0001—For support of Department of Community Services and Development. I reduce this item from \$250,000 to \$150,000 by reducing:

(1) 47-Naturalization Services from \$250,000 to \$150,000.

I am deleting the \$100,000 legislative augmentation to expand the Naturalization Services Program. This action is necessary for a prudent reserve for economic uncertainties. With this reduction, \$3,000,000 still remains to support the Naturalization Services Program, and to assist legal immigrants in completing their citizenship application, citizenship testing, and in preparing for the interview. In addition, similar services are provided by the California Department of Education, such as instruction in civics and English.

I am also taking conforming action to reduce Item 4700-101-0001.

Item 4700-101-0001—For local assistance, Department of Community Services and Development. I reduce this item from \$4,750,000 to \$2,850,000 by reducing:

(1) 47-Naturalization Services from \$4,750,000 to \$2,850,000.

I am reducing this item by \$1,900,000 to conform to my action in Item 4700-001-0001.

Item 5180-001-0001—For support of Department of Social Services. I reduce this item from \$102,904,000 to \$102,717,000 by reducing:

(2) 25-Social Services and Licensing from \$161,486,000 to \$161,212,000;

(8) Amount payable from the Federal Trust Fund (Item 5180-001-0890) from -\$347,576,000 to -\$347,489,000;

and by deleting Provision 8.

I am reducing this item by \$274,000 (\$187,000 General Fund and \$87,000 Federal Trust Fund) for 3.0 positions on a one-time basis. This funding would have provided resources for the Department of Social Services to assist in sibling searches within the Adoptions Program, pursuant to legislation enacted during fiscal year 2006-07. While I support efforts to remove barriers to sibling reunification and facilitate the release of information between siblings, I am delaying implementation of this program for one year in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. I am reducing Item 5180-151-0001 by \$1,046,000 and Item 5180-151-0890 by \$794,000 to conform to this action.

Provision 8 requires the Department of Social Services to display legal accusations filed by the Department against a provider's license on the Community Care Licensing public website pages as a condition to spending set-aside funding of \$1,475,000 to implement its Licensing Reform Automation proposal. I am delaying implementation of this project for one year, to provide for a prudent General Fund reserve in light of the various uncertainties in revenues and spending that we face this year. I am also deleting the provisional language related to this project funding.

Item 5180-001-0890—For support of Department of Social Services. I reduce this item from \$347,576,000 to \$347,489,000 and delete Provision 4.

I am reducing this item to conform to the action I have taken in Item 5180-001-0001 related to sibling searches within the Adoptions Program.

I am deleting Provision 4 to conform to the action I have taken in Item 5180-001-0001 related to licensing reform automation costs.

Item 5180-151-0890—For local assistance, Department of Social Services. I reduce this item from \$1,222,557,000 to \$1,218,641,000.

I am reducing this item to conform to the actions I have taken in Item 5180-151-0001 related to workstation replacement, sibling searches within the Adoptions Program, and foster youth identify theft.

Item 5180-153-0001—For local assistance, Department of Social Services. I revise this item by deleting Provision 2.

Provision 2 requires the Department of Social Services to collaborate with stakeholders to develop the timeline, components, and execution of the evaluation of the Title IV-E Waiver. This requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, I am directing the Department to work with stakeholders to facilitate the successful implementation of the Title IV-E Waiver, which allows participating counties flexibility in using federal Title IV-E foster care funds for direct services and supports.

Item 5225-001-0001—For support of the California Department of Corrections and Rehabilitation. I reduce this Item from \$6,980,353,000 to \$6,958,609,000 by reducing:

(1) 10-Corrections and Rehabilitation Administration from \$376,992,000 to \$369,580,000;

(4) 20-Juvenile Operations from \$183,097,300 to \$181,168,300;

(8) 25-Adult Corrections and Rehabilitation Operations from \$4,904,883,000 to \$4,892,480,000;

and by revising Provisions 10 and 16 and deleting Provisions 8, 11, and 19.

I am reducing funds for the second phase of the Consolidated Information Technology Infrastructure Project by \$4,408,000 and eliminating the \$3,004,000 augmentation for the Division of Juvenile Justice Infrastructure Migration Project. In addition, I am reducing

the augmentation provided for facility maintenance and special repair projects by \$10,000,000 and eliminating \$4,332,000 for equipment replacement. These reductions are necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. I am revising Provisions 10 and 16 to conform to these actions as follows:

“10. In implementing the Consolidated Information Technology Infrastructure Project (CITIP), the department shall, when possible, give first priority to data drops for business services and rehabilitative programming. ~~Of the funds appropriated in this item, \$4,408,000 may not be expended sooner than 30 days after the department provides a report to the Joint Legislative Budget Committee certifying that CITIP design and engineering work has been completed at 12 institutions. This report shall also identify the revised cost estimates to implement the CITIP at these 12 institutions as compared to the original estimated costs. The report shall also identify the reasons for any differences between the original and revised estimates.”~~

“16. Of the funds appropriated in this item, ~~\$698,514,000~~ *\$679,774,000* is available for expenditure only for the purposes identified below. Any unexpended funds shall revert to the General Fund.

- (aa) Valdivia Case Records: \$3,344,000
- (bb) Perez v. Tilton, Salary Enhancements: \$1,999,000"

I am deleting Provision 8, which would require the Department to pass along a portion of its 2.7-percent price increase to public community correctional facilities under contract with the Department. The Budget no longer contains funding for a price increase for the Department. Therefore, this language is unnecessary.

I am deleting Provision 11, which would allow the Department to submit a staffing plan to conduct background investigations and would preclude the use of sworn staff from being utilized. The Department's use of sworn staff to conduct background investigations has improved the processing time that it takes to conduct a background investigation as compared to non-sworn staff previously used. Because sworn staff have proved to be more effective than non-sworn classifications, and due to the need to aggressively fill the Department's vacant Correctional Officer positions, this provision would prevent the Department from managing their hiring process in a manner that allows Correctional Officer vacancies to be filled in the most effective way possible.

I am deleting Provision 19, which would require the Department to submit a plan for staffing and organizational changes in the Office of Facilities Management and other departmental units to deliver capital outlay projects, including those authorized by Chapter 7, Statutes of 2007 (AB 900). This reporting requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, it will be addressed as though the request had been included in Supplemental Report Language. Therefore, I am instructing the Secretary of the Department of Corrections and Rehabilitation to comply with this legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the Department's ability to perform its essential functions.

Item 5225-002-0001—For support of Department of Corrections and Rehabilitation. I reduce this Item from \$2,126,132,000 to \$2,124,612,000 by reducing:

- (4.2) 50.20-Dental Services-Adult from \$103,292,000 to \$103,129,000;
- (4.3) 50.30-Mental Health Services-Adult from \$303,093,000 to \$302,930,000; and
- (4.5) 50.50-Dental and Mental Health Services Administration-Adult from \$59,283,000 to \$58,089,000.

I am deleting the \$1,520,000 legislative augmentation to support positions to improve hiring efforts within the California Department of Corrections and Rehabilitation's (CDCR) Dental and Mental Health programs. While I am supportive of these activities, my budget proposed to fund these limited-term positions using the salary savings available from the vacancies within CDCR's Dental and Mental Health programs.

I expect that the recruitment efforts of the Department of Personnel Administration, the salary increases provided to dental and mental health classifications, and the hiring efforts of the CDCR will greatly improve the CDCR's ability to fill the vacancies within these programs. As such, I recognize that funding these positions through salary savings is only a short-term solution and it may be necessary to provide additional funding to support these efforts in the future.

Item 5225-301-0001—For capital outlay, Department of Corrections and Rehabilitation.

I am sustaining Provision 7, which requires the department to report to the Joint Legislative Budget Committee with an update to the facility master plan for juvenile facilities. This report will identify how the projects funded in the 2007-08 Budget implement the master plan. While the department is committed to completing this valuable plan and has every intention of providing the data, it will be unable to meet the October 31, 2007 deadline provided therein because of the necessary time constraints associated with compiling the level of detail as required by this report. I am directing the department to prepare and deliver the required report by February 29, 2008.

Item 5225-301-0660—For capital outlay, Department of Corrections and Rehabilitation. I reduce this item from \$119,752,000 to \$107,367,000 by deleting:

(5.1) 61.23.004-California State Prison, Corcoran: Wastewater Treatment Plant Improvements—Construction (\$5,944,000), and

(5.2) 61.30.004-Centinel State Prison, Imperial: Wastewater Treatment Plant Upgrades—Construction (\$6,441,000).

I am deleting these two wastewater treatment plant projects from this item because they cannot be funded with lease revenue bond financing, I am directing the Department of Corrections and Rehabilitation to fund both projects from the \$300,000,000 General Fund appropriation contained in Chapter 7, Statutes of 2007 (AB 900) for infrastructure improvements at existing prisons. Should this action result in additional funding needs in order to complete the infrastructure work at the various existing institutions, I expect that the Legislature will be supportive of future funding requests.

Item 6110-001-0001—For support of Department of Education. I reduce this item from \$47,380,000 to \$47,127,000 by reducing:

(1) 10-Instruction from \$62,022,000 to \$60,422,000;

(2) 20-Instructional Support from \$103,209,000 to \$99,833,000; and

(9) Amount payable from Federal Trust Fund (Item 6110-001-0890) from -\$163,060,000 to -\$158,337,000.

I am deleting the legislative augmentation of \$133,000 and 1.0 position to coordinate education programs for incarcerated youth and support implementation of alternative school programs. This reduction is necessary to limit program expansion and in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. Further, the Department of Education already has existing positions that support alternative school programs and there is not sufficient workload justification for this additional position.

I am deleting Provision 28 to conform to this action.

I am deleting the \$120,000 legislative augmentation to support implementation of the English language learner component of the Mathematics and Reading Professional Development Program. Chapter 524, Statutes of 2006 (SB 472), appropriated \$120,000 to the Department of Education without regard to fiscal year and authorized the Department to establish one position for this purpose. The Department has not filled the position and, consequently, the \$120,000 remains available for expenditure. Therefore, it is unnecessary to provide additional expenditure authority in the budget year. However, I am sustaining authority for 1.0 limited-term position for one year to enable the Department to fill the position in order to conduct one-time activities associated with this program.

I am also revising this item to conform to the actions I have taken in Item 6110-001-0890.

Item 6110-001-0890—For support of Department of Education. I reduce this item from \$163,060,000 to \$158,337,000.

I am reducing a legislative augmentation by \$198,000 in federal Title II funds and 6.0 positions to implement the Compliance, Monitoring, Interventions, and Sanctions (CMIS) program related to the highly qualified teacher requirements under the federal No Child Left Behind Act. The Department of Education did not provide sufficient workload justification for these positions. Further, the Legislature rejected the Administration's proposal to shift funding from federal Title V to Title II for 4.0 professional development positions, with a priority on meeting the highly qualified teacher requirements, as Title V will no longer be available to support these positions. Therefore, I am sustaining \$929,000 to support 2.0 new positions and the 4.0 existing but unfunded positions for the purpose of assisting school districts to meet the highly qualified teacher requirements. When combined with the positions that are currently dedicated for this purpose, the Department will have a total of 8.0 positions for the CMIS program.

I am revising Provision 34 to conform to this action as follows:

"34. Of the funds appropriated in this item, ~~\$1,127,000~~ \$929,000 of federal Title II funds is for the Compliance, Monitoring, Intervention, and Sanctions (CMIS) program. This program is designed to help school districts meet the highly qualified teacher requirements specified in the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.). By April 1, 2008, the State Department of Education shall submit a report on the CMIS program to the budget and policy committees. The report shall identify (a) the number of school districts that received CMIS support in the 2007-08 fiscal year, and (b) the major components of the plans that those districts developed to respond to the federal highly qualified teacher requirements. For each participating district, the report also shall provide longitudinal data on the number and percent of teachers who are and are not highly qualified. At a minimum, the 2007-08 report shall include finalized data for the 2004-05, 2005-06, and 2006-07 fiscal years, and initial data for the 2007-08 fiscal year. The report shall provide data separately for high-poverty and low-poverty schools. For comparison, the report shall provide the same longitudinal data for the statewide average of all school districts as well as the average for school districts not receiving CMIS support."

I am reducing this item by \$1,600,000 and 4.0 positions to monitor and provide technical assistance to alternative, county court, and Division of Juvenile Justice schools serving English learners. An increase in staff to monitor these schools has not been justified. Furthermore, monitoring and providing technical assistance for these schools is an ongoing activity and the use of one-time monies would be inappropriate. With this veto, these funds will be available to be distributed to local educational agencies for direct classroom instruction of English learner students.

I am deleting Provision 37 to conform to this action.

I am technically revising Provision 39 to eliminate references stipulating that \$450,000 of one-time funds is made available for special education dispute resolution contract "cost-of-living increases". This program does not receive a cost-of-living adjustment, but rather receives funding on a workload basis. Accordingly, the funds will be used for addressing new workload claims to ensure that the public receives prompt and appropriate due process for consideration of dispute resolution matters, as required by law.

I am revising Provision 39 to conform as follows:

"39. Of the funds appropriated in this item, \$450,000 is made available on a one-time basis for the special education dispute resolution contract ~~for cost-of-living increases~~. The State Department of Education, in coordination with the Office of Administrative Hearings,

shall provide quarterly caseload and expenditure data to the appropriate budget committees of the Legislature, the Department of Finance, and the Legislative Analyst's Office by March 1, 2008. The information shall also include updated budget detail and payment provisions, as shown in Exhibit B of the interagency agreement."

I am deleting the \$150,000 legislative augmentation to provide an independent evaluation of the special education dispute resolution services provided by the Office of Administrative Hearings. The proposal essentially is a request for data, some of which is duplicative. Instead, I am directing the Office of Administrative Hearings to provide the remaining data requested using existing resources, including specified workload and mediator use data, and efficiency options for the program.

I am deleting Provision 40 to conform to this action.

I am deleting the \$1,050,000 legislative augmentation to expand special education focused monitoring and technical assistance services in alternative, county court, and Division of Juvenile Justice schools. This program essentially provides auditing for compliance with individualized education plans and follow-up for necessary corrections. I am unable to support this augmentation. Individualized education plan compliance should already be a part of the Special Education program not only for alternative schools but in all educational settings. Students are entitled to receive the quality services required by law and included in their individual education plans. This particular funding should be allocated instead to local grants to fund direct special education instruction.

I am deleting Provision 41 to conform to this action.

I am reducing this item to delete the legislative augmentation of \$125,000 for a study to identify options for improving indicators of student socioeconomic status. Because the study is vague, I am concerned that \$125,000 augmentation may not be adequate to complete the study and may lead to future cost pressures to complete or expand the study. With this veto, these funds will be available to be distributed to local educational agencies for direct classroom instruction to improve the academic performance of schools. In lieu of this funding, I request that the Legislative Analyst's Office partner with the Department of Finance to explore the issue with existing resources and staff.

I am deleting Provision 43 to conform to this action.

I am reducing this item by \$350,000 and 4.0 positions for assistance to local educational agencies (LEAs) that are expected to face federal No Child Left Behind corrective action sanctions. Until more definitive results from a privately funded pilot project are available and a resulting plan for expenditure of the local assistance dollars is fully developed, it is premature to add staff to support these activities. Further, until the final determination is made on how to allocate local assistance funding, it is not clear that it is necessary for the State Department of Education to provide a higher level of assistance or that additional positions are needed.

I am deleting Provision 44 to conform to this action.

I am reducing this item to delete the legislative augmentation of \$300,000 intended to support a pilot project that allows schools to use non-adopted reading language arts materials for English learner students. The proposed new program would allow the use of instructional materials that are not aligned to state standards, which is a concern because all students should have access to standards-aligned materials. In addition, an alternate \$20 million pilot project is already underway, and that project will be assessing what educational practices work best for improving the academic performance of English learners.

I am deleting Provision 46 to conform to this action.

I am deleting the \$400,000 legislative augmentation to create an advisory committee and perform a best practices study that would assist local education agencies in implementing evidence-based practices intended to assist students with specific learning disabilities to improve academically. However, I believe local grants for direct instruction would be a more prudent and timely use of this funding.

I am deleting Provision 47 to conform to this action.

I am reducing this item by \$500,000 for an evaluation of the English Learner Best Practices Pilot Program (Pilot) pursuant to the requirements of Chapter 561, Statutes of 2006 (AB 2117). During last year's development of Assembly Bill 2117, which established the Pilot, the understanding was that the evaluation would be funded by a not-for-profit organization. However, this funding has not materialized. The legislative augmentation of \$1,000,000 for the evaluation appears to be excessive. Instead, I am sustaining \$500,000 of the augmentation which would be consistent with similar evaluations done in the recent past. I believe the evaluation is an important component of ensuring that the \$20 million Proposition 98 General Fund provided in the Budget Act of 2006 for the Pilot would produce conclusions that could lead to improvements in English learner academic performance.

I am revising Provision 48 to conform to this action.

“48. Of the funds appropriated in this item, ~~\$1,000,000~~ \$500,000 of one-time federal Title III funds is available on a one-time basis for five years for an independent evaluation administered by the State Department of Education pursuant to the requirements of Chapter 561 of the Statutes of 2006.”

I am reducing this item by \$50,000 for an evaluation to ensure that local educational agencies (LEAs) are employing methods to ensure effective and timely oral communication with non-English-speaking parents. To the extent that this is a problem for LEAs, they already receive federal funds that can be used for these purposes. Specifically, the Budget includes over \$165 million in federal Title III funds that can be used for parent outreach activities such as interpreter services. With this veto, these funds will be available to be distributed to LEAs for direct classroom instruction of English learner students.

I am deleting Provision 49 to conform to this action.

Item 6110-123-0001—For local assistance, Department of Education. I revise Provision 1 of this item.

I am deleting provisional language added by the Legislature that allocates funds to Intervention Underperforming Schools Program (II/USP) schools that are still subject to state sanctions and are working with school assistance and intervention teams (SAITs). The last cohort of II/USP schools qualified for funding in 2002-03 and since that time, some schools, even with the assistance of SAITs, still have not met bare minimum academic benchmarks to improve student achievement and to exit the program. Consequently, I do not believe that the state should continue to fund these activities given the efforts to consolidate state and federal accountability programs. In addition, I am concerned that the Legislature's shift of these II/USP costs from another Budget item to this item may create cost pressures within the II/USP successor program, the High Priority Schools Grant Program. I continue to support focusing efforts on improving low-performing schools and request that the State Board of Education assign the full spectrum of more effective sanction strategies available under current law to these schools to help them improve student achievement.

I am revising Provision 1 as follows to conform to this action.

“1. Funds appropriated in Schedule (1) are provided solely for the purpose of implementing the High Priority Schools Grant Program pursuant to Article 3.5 (commencing with Section 52055.600) of Chapter 6.1 of Part 28 of the Education Code. Of these funds, \$10,000,000 or whatever greater or lesser amount is necessary, shall be available to support schools working with school assistance and intervention teams or schools subject to state sanctions by the Superintendent of Public Instruction as part of the High Priority Schools Grant Program or the Immediate Intervention/Underperforming Schools Program.”

Item 6110-134-0890—For local assistance, Department of Education. I reduce this item from \$77,900,000 to \$70,800,000 by deleting:

(7) 10.30.013-District Assistance and Intervention Teams (\$7,100,000),
and by deleting Provision 9.

I am deleting \$7,100,000 and setting these funds aside for appropriation in subsequent legislation. This Legislative augmentation provided funding for District Assistance and Intervention Teams (DAITs) to work with local educational agencies (LEAs) facing sanctions under the federal accountability system. The augmentation is premature because a privately funded pilot project and evaluation of the effectiveness of DAITs is underway. Until the evaluation is completed, or an interim report shows that DAITs are effective, I cannot support funding for these new activities. I recognize the problem of a growing number of LEAs and schools entering federal No Child Left Behind sanctions and note that funding is set aside in this item, pursuant to subsequent legislation, for implementation of an effective plan that supports LEAs and schools and their attempts to improve the academic performance of their students.

Item 6110-196-0001—For local assistance, Department of Education (Proposition 98).

I reduce this item from \$1,761,366,000 to \$1,756,366,000 by reducing:

(1) 30.10.010-Special Programs, Child Development, Preschool Education from \$418,644,000 to \$413,644,000,

and by revising Provision 3 to conform.

I am reducing \$5,000,000 from preschool programs and revising Provision 3 by eliminating language that would expand the authorized use of these funds to include wrap-around child care for children participating in any state preschool program. These funds were provided to continue support of the Pre-Kindergarten Family Literacy program (PKFL) that was authorized by Chapter 211, Statutes of 2006 (AB 172) by providing ongoing funding for full-day child care for children participating in the PKFL program (AB 172 utilized one-time funding to provide this service in 2006-07). I believe that making these funds available to all preschool programs would undermine the PKFL program and negatively impact the ability of families to participate in the program. I am therefore setting these funds aside for legislation that would restore the priority for these funds to the PKFL programs.

I am revising Provision 3 to conform to this action as follows:

“3. Of the amount appropriated in Schedule (1), \$50,000,000 is available for pre-Kindergarten and Family Literacy Preschool programs pursuant to Chapter 211 of the Statutes of 2006. ~~Of the amount appropriated in Schedule (1), \$5,000,000 is available for wraparound care in order to provide direct child care for children in the state preschool program for the portion of the day that is not otherwise covered by services provided as part of the state preschool program.~~”

Item 6120-211-0001—For local assistance, California State Library. I reduce this item from \$21,342,000 to \$14,342,000 by reducing:

(1) 20.30-Direct Loan and Interlibrary Loan Programs from \$18,616,000 to \$11,616,000.

I am deleting \$7,000,000 for Direct Loan and Interlibrary Loan services. This reduction is necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

Item 6120-221-0001—For local assistance, California State Library, Public Library Foundation Program. I reduce this item from \$22,360,000 to \$14,360,000.

I am deleting the discretionary \$1,000,000 legislative augmentation to the Public Library Foundation. This reduction is necessary to limit program expansions and help bring ongoing General Fund expenditures in line with existing resources. In addition, I am deleting \$7,000,000 in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

Item 6440-001-0001—For support of University of California. I reduce this item from \$3,019,559,000 to \$3,016,059,000 by reducing:

(1) Support from \$2,936,063,000 to \$2,932,563,000,

and by revising Provisions 11,13, and 24 and deleting Provisions 26 and 27.

I am deleting the legislative augmentations for agricultural research (\$1,500,000) and for oceanographic research at the Scripps Institute of Oceanography (\$1,500,000) to limit program expansions and to help bring ongoing expenditures in line with existing resources. With these reductions, over \$77,000,000 of state and university funds remains to support agricultural research and over \$9,700,000 of state and university funds remains to support research at the Scripps Institute of Oceanography.

I am deleting provisions 26 and 27 to conform to these actions.

I am deleting \$500,000 for UC-Mexico research, which represents the amount of funding for the financing of a facility located in Mexico, in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. The University of California should use other sources for this purpose at its discretion.

I am revising Provision 11 to conform as follows:

~~“11. Notwithstanding Section 3.00, for the term of the financing, the University of California may use funds appropriated in Schedule (1) for debt service and costs associated with the purchase, renovation, and financing of a facility for the UC-Mexico research and academic programs in Mexico City. The amount to be financed shall not exceed \$7,000,000. The university shall report to the Legislature by March 15, 2008, on the (a) amount of funds spent to support the UC-Mexico facility, including the specific use of these funds; (b) amount of funds spent to support UC-Mexico research and academic programs, and (c) different types of research conducted and programs operated at the UC-Mexico facility.”~~

I am sustaining the legislative augmentation of \$19,300,000 for student academic preparation and education programs. However, the reporting requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature’s desire to obtain this information, it will be addressed as though the request had been included in Supplemental Report language. Therefore, I am instructing the President of the University of California to comply with this legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the University’s ability to perform its essential functions.

I am revising Provision 24 to conform as follows:

~~“24. Of the funds appropriated in Schedule (1), \$19,300,000 is for student academic preparation and education programs (SAPEP) and is to be matched with \$12,000,000 from existing university resources, for a total of \$31,300,000 for these programs. The University of California shall provide a plan to the Department of Finance and the fiscal committees of each house of the Legislature for expenditure of both state and university funds for SAPEP by September 1, 2007. It is the intent of the Legislature that the university report on the use of state and university funds provided for these programs, including detailed information on the outcomes and effectiveness of academic preparation programs consistent with the accountability framework developed by the university in April 2005. The report shall be submitted to the fiscal committees of each house of the Legislature not later than April 1, 2008.”~~

Finally, I am revising Provision 13 to delete language that describes a new methodology for determining the marginal cost of each additional state-supported student in the future. The new formula is not transparent, is too difficult to either replicate or verify allowing for potential manipulation in future years, and does not properly reflect the full mix of new faculty associated with the system-wide growth in students.

I am revising Provision 13 to conform as follows:

~~“13. Of the funds appropriated in Schedule (1), \$52,930,000 is to fund 5,000 additional state-supported full-time equivalent students (FTES) at the University of California, based on a marginal General Fund cost of \$10,586 per additional student. This funding rate is based on a methodology for determining the marginal cost of each additional state-supported student, as adopted by the Legislature for the 2006-07 fiscal year. This methodology calculates a total marginal cost (including operation and maintenance costs and faculty costs based on the salaries of recently hired professors) and then subtracts from this cost the fee revenue the university anticipates from each additional student (after adjusting for financial aid), in order to determine the amount of General Fund support needed from the state. It is the intent of the Legislature that enrollment growth funding provided to the university in subsequent fiscal years be based on this specific methodology. The Legislature expects the University of California to enroll a total of 198,455 state-supported FTES during the 2007-08 academic year. This enrollment target does not include nonresident students and students enrolled in non-state-supported summer programs. The University of California shall report to the Legislature by March 15, 2008, on whether it has met the 2007-08 enrollment goal. For purposes of this provision, enrollment totals shall only include state-supported students. If the University of California does not meet its total state-supported enrollment goal by at least 250 FTES, the Director of Finance shall revert to the General Fund by April 1, 2008, the total amount of enrollment funding associated with the total share of the enrollment goal that was not met.”~~

Item 6440-305-6048—For capital outlay, University of California.

I am sustaining the \$10,000,000 provided for the Life Sciences Research and Nursing Education Building in this item.

In my efforts to continue to support programs and projects that will alleviate the nursing shortage California is suffering, I am sustaining this legislative augmentation for the Charles R. Drew University of Medicine and Science to build a Life Sciences Research and Nursing Education Building. However, I note that a number of issues both legal and programmatically need to be resolved before funds may be expended. Specifically, there are legal concerns regarding the use of general obligation bonds for this project and may require the state to acquire and maintain ownership of the facility being built. Additionally,

the nursing program that will utilize this facility needs to be fully developed before the scope of this new facility can be generated. Until these concerns are resolved, no funds for this project may be expended.

Item 6610-001-0001—For support of California State University. I revise this item by revising Provision 7.

I am revising Provision 7 to delete language that describes a new methodology for determining the marginal cost of each additional state-supported student in the future. The new formula is not transparent, is too difficult to either replicate or verify allowing for potential manipulation in future years, and does not properly reflect the full mix of new faculty associated with the system-wide growth in students.

I am revising Provision 7 to conform as follows:

~~“7. Of the amount appropriated in Schedule (1), \$64,417,000 is to fund 8,355 additional state-supported full-time equivalent students (FTES) at the California State University (CSU), based on a marginal General Fund cost of \$7,710 per additional student. This funding rate is based on a methodology for determining the marginal cost of each additional state-supported student, as adopted by the Legislature for the 2006-07 fiscal year. This methodology calculates a total marginal cost (including operation and maintenance costs and faculty costs based on the salaries of recently hired professors) and then subtracts from this cost the fee revenue the university anticipates from each additional student (after adjusting for financial aid), in order to determine the amount of General Fund support needed from the state. It is the intent of the Legislature that enrollment growth funding provided to the university in subsequent fiscal years be based on this specific methodology. The Legislature expects CSU to enroll a total of 342,553 state-supported FTES during the 2007-08 academic year. This enrollment target does not include nonresident students and students enrolled in non-state-supported summer programs. The CSU shall provide a preliminary report to the Legislature by March 15, 2008, and a final report by May 1, 2008, on whether it has met the 2007-08 enrollment goal. For purposes of this provision, enrollment totals shall only include state-supported students. If CSU does not meet its total state-supported enrollment goal by at least 418 FTES, the Director of Finance shall revert to the General Fund by May 15, 2008, the total amount of enrollment funding associated with the total share of the enrollment goal that was not met.”~~

Item 6870-101-0001—For local assistance, Board of Governors of the California Community Colleges, Proposition 98. I reduce this item from \$3,906,649,000 to \$3,859,753,000 by reducing:

- (1) 10.10.010-Apportionments from \$3,093,135,000 to \$3,079,349,000;
 - (2) 10.10.020-Basic Skills and Apprenticeship from \$48,339,000 to \$15,229,000;
- and by deleting subdivision (c) of Provision 7.

I am reducing Schedule (1) by \$13,786,000 and Schedule (2) by \$33,110,000 to delete the legislative augmentations for a noncredit course rate increase and a basic skills student funding increase, respectively. However, I am setting these funds aside for legislation that appropriates these funds for improving outcomes for at-risk students in a manner more consistent with the priorities of my proposed Student Success Initiative (\$33,110,000) and the remainder for other more compelling Proposition 98 funding needs.

The Legislature’s proposed \$13,786,000 augmentation to support a second consecutive noncredit rate increase is premature and inconsistent with the agreement reached in last year’s compromise on Chapter 631, Statutes of 2006 (SB 361). As part of that agreement, my Administration indicated that any future noncredit rate increase would be subject to

improved student outcomes from last year's initial investment of \$30,000,000. To date, no accountability measures have been developed to evaluate this investment, nor has my Administration received a comprehensive list of courses and programs that have been approved by the Chancellor's Office for funding from the 2006-07 increase. While I cannot sustain this augmentation, the budget does provide a 4.53-percent COLA, which, when combined with the ongoing \$30,000,000 increase from 2006-07, provides for a 23-percent increase in per student funding for selected noncredit courses since the 2005-06 fiscal year.

I am deleting Provision 4.6 to conform to this action.

I cannot support the Legislature's \$33,110,000 redirection of funds proposed for my May Revision's Student Success Initiative because the accompanying control provisions do not contain the appropriate accountability and distribution mechanisms necessary to ensure this investment improves student outcomes, particularly for at-risk students transitioning from high schools. With this reduction, the community colleges still retain \$33,110,000 in unspent current year funds that carryover for expenditure in the budget year to address strategies for improving basic skills instruction. My Administration is prepared to work with the Chancellor's Office to reinstate the ongoing funding pending agreement on revised accountability and distribution provisions that address my priority for improving meaningful outcomes for students transitioning from high school.

I am deleting subdivision (c) of provision 7 to conform to this action.

Item 6870-486—Reappropriation, Proposition 98, Board of Governors of the California Community Colleges. I reduce this item from \$26,668,000 to \$21,168,000 by deleting legislative augmentations for the Part-time Faculty Health Insurance Program in Schedule (4) and the proposed Construction College Pilot Program in Schedule (6).

I am deleting the one-time augmentation of \$4,000,000 from the Proposition 98 Reversion Account for the Part-time Faculty Health Insurance Program because this program was established as an incentive grant program to encourage additional district investments in benefits for part-time faculty. However, these programs were not intended to require additional one-time or ongoing contributions from the state. Given the significant general purpose increases provided in this Budget for community colleges, I believe that districts have sufficient resources to provide additional benefits to part-time faculty at their discretion.

I am also deleting the one-time augmentation of \$1,500,000 for a Construction College pilot program at San Jose City College and another, unspecified site. While this program may have merit from a local perspective, significant investments are already proposed for apprenticeship and pre-apprenticeship programs, as well as traditional K-12 career path programs including construction technology, within my anticipated 2007-08 Career Technical Education Initiative expenditure plan. Additional funding for a construction-specific program would establish an undesirable precedent for singling out a local project for funding without competing for limited resources with other meritorious local projects. It is also premature to fund this program until other construction and related program grants can be evaluated.

Item 7980-001-0001—For support of Student Aid Commission. I reduce this item from \$15,449,000 to \$15,349,000 by reducing:

- (1) 15-Financial Aid Grants Program from \$13,886,000 to \$13,786,000, and by deleting Provision 5.

I am deleting the \$100,000 legislative augmentation for one position for purposes of administering the Public Interest Attorney Loan Repayment Program to conform to my action on Item 7980-101-0001.

I am deleting Provision 5 to conform to this action.

Item 7980-101-0001—For local assistance, Student Aid Commission. I reduce this item from \$859,814,000 to \$857,614,000 by reducing:

- (1) 15-Financial Aid Grants Program from \$889,950,000 to \$887,750,000, and by revising Provision 5 and deleting Provision 9.

I am reducing the legislative augmentation for the California Student Opportunity and Access Program (CalSOAP) by \$2,200,000. This program provides financial aid awareness as well as student academic preparation and education services to public school students. This reduction is necessary in order to build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. Additionally, I am concerned that this program's various student academic support and preparation activities have not been subjected to a cost-effectiveness analysis in many years. With this reduction, \$6,367,000 still remains for CalSOAP to support financial aid awareness activities. Further, it is my understanding that the California Student Aid Commission recently approved \$2,200,000 from the Student Loan Operating Fund for similar financial aid outreach purposes. Therefore, this augmentation is largely redundant with planned expenditures.

I am revising Provision 5 to conform to this action:

"5. Of the funds appropriated in Schedule (1), ~~\$8,567,000~~ \$6,367,000 is for the California Student Opportunity and Access Program established pursuant to Article 4 (commencing with Section 69560) of Chapter 2 of Part 42 of the Education Code and shall be available to provide financial aid awareness and outreach to students who are preparing to enter, or are currently enrolled in, college."

Additionally, I am deleting the legislative language augmentation included in Provision 9 that authorizes 100 new warrants for the Public Interest Attorney Loan Repayment Program. The authorization of 100 loan assumption warrants would commit the state to out-year costs in excess of \$1,000,000. Furthermore, this program authorizes warrants for attorneys employed by local government. Thus, in effect, this augmentation would serve to subsidize local government employee recruitment and retention with state funds. Therefore, this action is necessary to limit program expansions.

Item 7100-001-0185—For support of Employment Development Department. I reduce this item from \$79,495,000 to \$67,435,000.

I am reducing the \$27,060,000 legislative augmentation for the Job Services Program by \$12,060,000. This program provides employment services in the One-Stop Career Centers, facilitating a match between employers' needs and job seekers' skills, and while I agree with the Legislature that some additional resources would benefit job seekers, I am confident that the \$168,000,000 available will be sufficient in meeting the employment demands of California communities. Finally, I am directing the Employment Development Department to minimize the number of positions to be reduced in job services locations by making reductions in Administration and facility operations.

I am deleting Provision 4 to conform to this action.

Item 7350-001-0001—For support of Department of Industrial Relations. I reduce this item from \$67,768,000 to \$67,383,000 by reducing:

- (6) 50-Division of Labor Standards Enforcement from \$49,933,000 to \$49,548,000.

I am deleting \$385,000 and 5.0 positions for the Licensing and Registration Unit provided for recently enacted legislation including the registration of employers in the car washing and polishing industry. This reduction is necessary to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

Item 7350-011-0223—For support of Department of Industrial Relations. I revise this item by deleting Provision 1.

I delete Provision 1, which would require the Department of Industrial Relations to provide a long-term plan and a detailed repayment schedule by January 10, 2008, for the California Occupational Safety and Health Administration, Targeted Inspection and Consultation Fund loan.

This reporting requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, it will be addressed as though the request had been included in Supplemental Report language. Therefore, I am instructing the Director of the Department of Industrial Relations to comply with this legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the Department of Industrial Relations' ability to perform its essential functions.

Item 8120-011-0268—For support of Commission on Peace Officer Standards and Training. I revise this item by deleting Provision 3.

I am deleting Provision 3, which would require the Commission on Peace Officer Standards and Training to report to the Legislature on the findings of the local law enforcement agency audits conducted by the Controller on behalf of the commission. This reporting requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, it will be addressed as though the request had been included in Supplemental Report language. Therefore, I am instructing the Executive Director of the Commission on Peace Officer Standards and Training to comply with this legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the Commission on Peace Officer Standards and Training's ability to perform its essential functions.

Item 8660-001-0042—For support of Public Utilities Commission. I reduce this item from \$3,526,000 to \$3,354,000.

I am deleting a legislative augmentation of \$172,000 and 2.0 positions for Public Utilities Commission's (PUC) rail crossing safety staff. In the 2006 Budget Act, I included three positions for the rail safety crossing program, giving the PUC 20.0 base positions for rail crossing safety. To date, all those positions are not filled. It would be premature to authorize additional positions until the positions at the PUC are filled and the impact on workload can be determined. With these reductions, \$3,354,000 still remains to support the rail crossing safety staff.

Item 8660-001-0462—For support of Public Utilities Commission. I revise this item by reducing:

- (1) 10-Regulation of Utilities from \$120,157,000 to \$119,857,000;
- (3) 20-Regulation of Transportation from \$19,911,000 to \$19,739,000;
- (7) Amount payable from the State Highway Account, State Transportation Fund (Item 8660-001-0042) from -\$3,526,000 to -\$3,354,000; and

(18) Amount payable from the Public Utilities Commission Rate payer Advocate Account (Item 8660-001-3089) from -\$21,632,000 to -\$21,332,000.

I am revising this item to conform to the actions I have taken in Item 8660-001-3089 and Item 8660-001-0042.

Item 8660-001-3089—For support of Public Utilities Commission. I reduce this item from \$21,632,000 to \$21,332,000.

I am deleting a legislative augmentation of \$300,000 and 3 positions for the Division of Ratepayer Advocates' (DRA) water audits division. The Budget Act of 2006 provided additional auditors to the Public Utilities Commission (Commission) that were intended to meet the needs of the DRA as well as the balance of the Commission. With these reductions, \$2,200,000 and 22.0 positions still remain to support the Division of Ratepayer Advocates water auditing staff.

Item 8770-001-0462—For Support of the Electricity Oversight Board. I reduce this item from \$3,579,000 to \$2,684,000 by reducing:

- (1) 30-Administration from \$4,128,000 to \$3,096,000, and
- (2) Amount payable from the Energy Resources Programs Account (Item 8770-001-0465) from -\$549,000 to -\$412,000.

I am reducing Schedule (1) to reflect my expectation that by April 1, 2008, the Electricity Oversight Board (EOB) will have transferred its remaining duties to the Public Utilities Commission. The EOB was established in 1996 as part of the state's attempt to restructure the electricity industry, and was given the responsibility for overseeing the California Independent System Operator, a non-profit entity that operates most of California's electric transmission grid. Since that time, changes in state and federal law have eliminated the need for the EOB; the duties it performs are now also performed either by the California Independent System Operator or the California Public Utilities Commission. When I first took office, the California Performance Review determined that the EOB should be eliminated, with its remaining functions transferred to other entities. It is time to implement this recommendation. With this reduction, sufficient funding will remain in the EOB budget to allow for an orderly staffing reduction plan so staff will have every opportunity to transfer to new duties within California state government. I am requesting the Department of Personnel Administration to fully assist the EOB in this effort.

Item 8770-001-0465—For support of the Electricity Oversight Board. I reduce this item from \$549,000 to \$412,000.

I am revising this item to conform to actions I have taken in Item 8770-001-0462.

Item 8910-001-0001—For support of Office of Administrative Law. I revise this item by deleting Provision 1.

I am deleting Provision 1, which would require the Office of Administrative Law to report to the Legislature on the use of positions assigned to underground regulation review. This reporting requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, it will be addressed as though the request had been included in Supplemental Report language. Therefore, I am instructing the director of the Office of Administrative Law to comply with this legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the Office of Administrative Law's ability to perform its essential functions.

Item 8955-001-0001—For support of California Department of Veterans Affairs. I revise this item by deleting Provision 5.

I delete Provision 5, which would require the California Department of Veterans Affairs (CDVA) to report on the Department's progress in providing a "restraint-free" environment for residents at the Veterans Homes. This reporting requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, it will be addressed as though the request had been included in Supplemental Report language. Therefore, I am instructing the Secretary of the CDVA to comply with this legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the CDVA's ability to perform its essential functions.

Item 9210-107-0001—For local assistance, Local Government Financing. I delete this item.

I am deleting the \$3,500,000 legislative augmentation for grants to county assessors, which would be made in proportion to the amount of property tax received by their K-14 schools. This reduction is necessary to limit program expansions and provide for a prudent General Fund reserve in light of the various uncertainties in revenues and spending that we face this year.

Local government is anticipated to receive \$28,000,000 in property tax revenue in 2007-08 pursuant to a new method of collecting fractionally owned aircraft property taxes, facilitated by budget trailer bill legislation. As a result, this \$3,500,000 augmentation is unnecessary.

Item 9800-001-0001—For Augmentation for Employee Compensation. I reduce this item from \$525,262,000 to \$453,262,000.

I am reducing funding by \$72,000,000 for employee compensation and instructing my administration to absorb this reduction in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. To effect this reduction, I am directing the Director of Finance to reduce the amount that would have been allocated to each department from Item 9800-001-0001 by an amount equal to 8.576 percent of that department's General Fund expenditures for personal services in April of 2007. With this reduction, \$453,262,000 still remains to be allocated by the Department of Finance for increases in employee compensation that the Department of Personnel Administration has already agreed to pay. This reduced amount available for allocation to departments will not affect pay or benefits for employees in any way. Employees will receive full pay, and the funding for pay increases not available from Item 9800 will be funded by a redirection within existing resources by individual departments. So, all previously negotiated employee compensation increases, and all employee compensation increases for medical, mental, and dental health positions arising from the Coleman and Plata court cases will be unaffected by my action to reduce this appropriation.

Item SEC 24.55—California Research and Education Network. I delete this control section.

I am deleting Control Section 24.55 because this language is unnecessary and could increase administrative costs at the expense of either direct network services or potentially higher fees. Chapter 552, Statutes of 2006, already provides appropriate oversight for K-12. Similarly, annual program review through the budget process, the governance structure of the higher education segments, and the current business practices of establishing

interagency agreements and essentially using cost-based accounting for each educational segment already provide appropriate accountability for higher education.

With the above deletions, revisions, and reductions, I hereby approve Senate Bill 77.
Schwarzenegger, Arnold

The people of the State of California do enact as follows:

SECTION 1.00. This act shall be known and may be cited as the “Budget Act of 2007.”

SEC. 1.50. (a) In accordance with Section 13338 of the Government Code, as added by Chapter 1284, Statutes of 1978, and as amended by Chapter 1286, Statutes of 1984, it is the intent of the Legislature that this act utilize a coding scheme compatible with the Governor’s Budget and the records of the Controller, and provide for the appropriation of federal funds received by the state and deposited in the State Treasury.

(b) Essentially, the format and style are as follows:

(1) Appropriation item numbers have a code which is common to all the state’s fiscal systems. The meaning of this common coded item number is as follows:

2720—Organization Code (this code represents the California Highway Patrol)

001—Reference Code (first appropriation for a particular fund for support of each department)

0044—Fund Code (Motor Vehicle Account, State Transportation Fund)

(2) Appropriation items are organized in organization code order.

(3) All the appropriation items, reappropriation items, and reversion items, if any, for each department or entity are adjacent to one another.

(4) Federal funds received by the state and deposited in the State Treasury are appropriated in separate items.

(c) The Department of Finance may authorize revisions to the codes used in this act in order to provide compatibility between the codes used in this act and those used in the Governor’s Budget and in the records of the State Controller.

(d) Notwithstanding any other provision of this act, the Department of Finance may revise the schedule of any appropriation made in this act where the revision is of a technical nature and is consistent with legislative intent. These revisions may include, but shall not be limited to, the substitution of category for program or program for category limitations, the proper categorization of allocated administration costs and cost recoveries, the distribution of any unallocated amounts within an appropriation and the adjustment of schedules to facilitate departmental accounting operations, including the elimination of categories providing for amounts payable from other items or other appropriations and the distribution of unallocated amounts to programs or categories. These revisions shall include a certification that the revisions comply with the intent and limitation of expenditures as appropriated by the Legislature.

(e) Notwithstanding any other provision of this act, when the Department of Finance, pursuant to subdivision (d), approves the schedule or revision of any appropriation relating to the elimination of amounts payable, the language authorizing the transfer shall also be eliminated.

SEC. 1.80. (a) The following sums of money and those appropriated by any other sections of this act, or so much thereof as may be necessary unless otherwise provided herein, are hereby appropriated for the use and support of the State of California for the 2007–08 fiscal year beginning July 1, 2007, and ending June 30, 2008. All of these appropriations, unless otherwise provided herein, shall be paid out of the General Fund in the State Treasury.

(b) All capital outlay appropriations and reappropriations, unless otherwise provided herein, are available as follows:

(1) Studies, preliminary plans, working drawings, and minor capital outlay funds are available for expenditure until June 30, 2008.

(2) Construction funds are available for expenditure until June 30, 2010, if allocated through fund transfer or approval to proceed to bid by the Department of Finance by June 30, 2008. Any funds not allocated by June 30, 2008, shall revert on July 1, 2008, to the fund from which the appropriation was made.

(3) All other capital outlay funds are available until June 30, 2010.

(c) Whenever by constitutional or statutory provision the revenues or receipts of any institution, department, board, bureau, commission, officer, employee, or other agency, or any moneys in any special fund created by law therefor, are to be used for salaries, support, or any proper purpose, expenditures shall be made therefrom for any such purpose only to the extent of the amount therein appropriated, unless otherwise stated herein.

(d) Appropriations for purposes not otherwise provided for herein that have been heretofore made by any existing constitutional or statutory provision shall continue to be governed thereby.

SEC. 2.00. Items of appropriation.

The Judicial Council shall notify the courts in each region of the availability of these funds for the purposes set forth in this provision, and shall allocate the funds upon notification that ranges and salary adjustments have been established and implemented as provided herein. In no event shall the daily rate set by the Judicial Council for contract interpreters exceed the equivalent median wage of court interpreters employed by the courts in each region.

Of the amount appropriated in Schedule (4), the Judicial Council shall allocate not less than \$250,000 to develop and make available to the trial courts for interpreter training and recruitment programs, including, but not limited to: (a) training programs designed for working interpreters who are subject to new certification examinations in Russian, Western Armenian, Mandarin, Cambodian, and Punjabi, (b) certification examination preparation courses for all languages subject to state certification examinations, and (c) development of mentoring and internship programs in the trial courts for examination candidates attending educational institutions that train legal interpreters, subject to meet and confer in good faith as provided in Chapter 7.5 (commencing with Section 71800) of Title 8 of the Government Code.

9. Upon approval by the Administrative Director of the Courts, and notification to the Department of Finance, the chairpersons of the committees in each house of the Legislature that consider appropriations and the State Budget, and the Chairperson of the Joint Legislative Budget Committee, the Controller shall additionally increase the amount of the transfer by an amount or amounts no more than \$1,090,000. Upon approval by the Administrative Director of the Courts, the Controller shall transfer up to 5 percent of the funding appropriated in Schedule (8) to Item 0250-001-0932 for administrative expenses. Ten percent of the funds remaining after administrative costs shall be for joint projects of courts and legal services programs to make legal assistance available to pro per litigants and 90 percent of the funds remaining after administrative costs shall be distributed consistent with Sections 6216 to 6223, inclusive, of the Business and Professions Code. 11. Of the funds appropriated in this item, \$27,767,000 is provided for the costs of new judgeships and accompanying staff. Any funds not used for this purpose shall revert to the General Fund. It is the intent of the Legislature that audits conducted by the Controller, or under the direction of the Controller, shall be fiscal audits that focus on claims and disbursements, as provided for in Section 12410 of the Government Code. The Controller’s estimate of the state’s liability for postemployment benefits prepared to comply with Governmental Accounting Standards Board (GASB) Statement 45 shall include, in addition to all other items required under the accounting statement: (a) an identification and explanation of any significant differences in actuarial assumptions or methodology from any relevant similar types of assumptions or methodology used by the California Public Employees’ Retirement System to estimate state pension obligations; and (b) alternative calculations of the state’s liability for postemployment benefits using different long-term rates of investment return consistent with a hypothetical assumption that the state will begin to deposit 100 percent or a lesser percent, respectively, of its annual required contribution under GASB Statement 45 to a re-

- tiree health and dental benefits trust fund beginning in the 2007–08 fiscal year. This provision shall not obligate the state to change the practice of funding health and dental benefits for annuitants currently required under state law.

The report should compare the known savings with the most recent estimate of projected savings and explain the methodology by which the savings were calculated.
 17. (a) The State Controller’s Office (SCO) shall conduct an audit of collection, distribution, and reporting practices related to local property tax revenue for K–14 districts. The intent of this audit is to determine why the growth rate in property tax revenues as reported by K–14 districts is lower than the growth rates reported by the State Board of Equalization and the countywide growth rates reported by county assessors. This audit shall determine how much property tax

is received at the district level, how those revenues are allocated, and how those revenues are reported for purposes of offsetting the state’s Proposition 98 General Fund obligation. The audit shall review and report on the property tax system, specifically the process from assessment to allocation, collection, and payment to K–14 districts and shall focus particular attention on pass-through payments received from redevelopment agencies.

- (b) Prior to initiating the audit, the SCO shall work with the Legislature, the State Department of Education, the Department of Finance, and the State Board of Equalization to ensure the scope adequately addresses the intent of the audit. The SCO shall provide an initial report on the audit findings to the Legislature, the State Department of Education, the Department of Finance, and the State Board of Equalization on or before November 1, 2007, and, if necessary, shall issue a supplemental report or reports as soon thereafter as possible.

- (c) The terms and conditions of the loan are approved, prior to the transfer of funds, by the Department of Finance pursuant to appropriate fiscal standards.
- 3. The Director of General Services may augment this item or any of Items 1760-001-0002, 1760-001-0003, 1760-001-0026, and 1760-001-0602, by up to an aggregate of 10 percent in cases where (a) the Legislature has approved funds for a customer for the purchase of services or equipment through the Department of General Services (DGS) and the corresponding expenditure authority has not been provided in this item or (b) a local government entity or the federal government has requested services from the DGS. Any augmentation that is deemed to be necessary on a permanent basis shall be submitted for review as part of the normal budget development process. If the Director of General Services augments this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602, the DGS shall notify the Department of Finance within 30 days after that augmentation is made as to the amount, justification, and the program augmented. Any augmentation made in accordance with this provision shall not result in an increase in any rate charged to other departments for services or the purchase of goods without the prior written consent of the Department of Finance. The Director of General Services shall not use this provision to augment this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602 for costs that the Department of General Services had knowledge of in time to include in the May Revision.
- 4. If this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602 is augmented pursuant to Provision 3 by the maximum allowed under that provision, the Director of Finance may further augment the item or

items in cases where (a) the Legislature has approved funds for a customer for the purchase of services or equipment through the Department of General Services (DGS) and the corresponding expenditure authority has not been provided in these items, or (b) a local government entity or the federal government has requested services from the DGS. Any augmentation that is deemed to be necessary on a permanent basis shall be submitted for review as part of the normal budget development process. The Director of Finance shall not use this provision to augment this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602 for costs that the Departments of Finance or General Services had knowledge of in time to include in the May Revision.

5. The Director of General Services may augment this item and Items 1760-001-0026 and 1760-001-0003 to increase authorized expenditures by the Office of State Publishing, the Office of Risk and Insurance Management, the Office of Fleet Administration, the Office of Energy Management, and the Office of Public Safety Radio Services. The augmentation shall be for the specific purpose of enabling the Office of State Publishing, the Office of Risk and Insurance Management, the Office of Fleet Administration, the Energy Services Program, and the Office of Public Safety Radio Services to provide competitive services to their customers (including local government entities or the federal government) and may be made only if the office has sufficient operating reserves available to fund the augmentation. If the Director of General Services proposes to augment either of the items in this provision, the director shall notify the Department of Finance, the chairpersons of the fiscal committees of each house of the Legislature, and the Chairperson of the Joint Legislative Budget Committee 30 days prior to making the augmentation, including the amount, justification, and the office augmented. Any augmentation that is deemed to be necessary on a permanent basis shall be submitted for review as part of the normal budget development process.

6. Any augmentation made pursuant to Provisions 3 and 4 shall be reported in writing to the chairpersons of the fiscal committees of each house of the Legislature and the Chairperson of the Joint Legislative Budget Committee within 30 days of the date the augmentation is approved. This notification shall be provided in a format consistent with normal budget change requests, including identification of the amount of, and justification for, the augmentation, and the program that has been augmented. Copies of the notification shall be provided to the Department of Finance.
7. Notwithstanding any other provision of law, the Director of General Services or his or her designee, in lieu of the Director of Finance, is authorized to approve Budget Revision, Standard Form 26, subject to a copy being provided to the Department of Finance.
8. Notwithstanding any other provision of law, due to the inability to issue energy efficiency revenue bonds pursuant to Chapter 2.7 (commencing with Section 15814.10) of Part 10b of Division 3 of Title 2 of the Government Code, in order to repay the General Fund for the cost of completing energy efficiency projects on specified buildings, the Department of General Services shall, within 10 fiscal years, recover an amount sufficient to repay the costs associated with completed energy efficiency projects plus 5 percent interest, through utility rates charged to tenants. On August 1 of each fiscal year beginning with the 2005–06 fiscal year, the Department of General Services shall transfer that amount to the General Fund. Once the General Fund has been fully repaid, the Department of General Services shall adjust utility rates for all tenants to accurately reflect the current rates.
9. The Director of Finance is authorized to increase this item for purposes of funding tenant improvement projects to facilitate the backfill of vacant space within stand-alone Department of General Services (DGS) bond funded office buildings. This provision shall only be used to augment expenditure authority for DGS stand-alone individual rate office buildings where a \$0.03 tenant improvement surcharge has been approved by

the Department of Finance and is included in the monthly rental rate. Department of Finance approval is contingent upon justification for the proposed tenant improvement projects to be provided by the DGS including an analysis of cost impacts and how the tenant improvements will improve the state's utilization of the facility. Any augmentation made in accordance with this provision shall not result in an increase in any rate charged to other departments for services without the prior written consent of the Department of Finance. Any augmentation made pursuant to this provision may be authorized not sooner than 30 days after notification in writing to the chairpersons of the fiscal committees of each house of the Legislature and the Chairperson of the Joint Legislative Budget Committee.

- 10. The Department of General Services shall provide an implementation progress report to the Department of Finance and the appropriate fiscal committees of the Legislature on April 1, 2009, and on April 1, 2010, to provide the status of the following areas: (a) progress on meeting statewide fleet utilization targets, (b) disposal of vehicles not meeting minimum utilization standards, (c) trend of statewide fleet size, (d) trend of statewide fleet average fuel efficiency, (e) timeframes associated with producing standard and ad hoc reports, and (f) savings and cost avoidances achieved to date and potential for additional savings and cost avoidances.

1900-001-0822—For support of the Board of Administration of the Public Employees’ Retirement System, payable from the Public Employees’ Health Care Fund..... (16,248,000)

Provisions:

1. Notwithstanding any other provision of law, the Board of Administration of the Public Employees’ Retirement System (PERS), in accordance with all applicable provisions of the California Constitution, shall submit to the Controller, the Department of Finance, the Joint Legislative Budget Committee, and the fiscal committees of the Legislature, all of the following:
 - (a) No later than May 15, 2008, a copy of the proposed budget for PERS for the 2008–09 fiscal year as approved by the board of administration.
 - (b) The revisions to the proposed budget for PERS for the 2007–08 fiscal year, as recommended by the PERS Finance Committee, at least 30 days prior to the consideration of those revisions by the board of administration.
 - (c) Commencing October 1, 2007, all expenditures and performance workload data provided to the board of administration, as updated on a quarterly basis. This quarterly update information is to be submitted to the Joint Legislative Budget Committee and fiscal committees of the Legislature, and shall be in sufficient detail to be useful for legislative oversight purposes and to sustain a thorough ongoing review of Public Employees’ Retirement System expenditures.
2. The Legislature finds and declares that the Public Employees’ Retirement System is accountable to members, governmental entities, and taxpayers with respect to the annual health premium increases that its board of administration

adopts. The board is encouraged to use the means at its disposal under law, consistent with requirements to provide benefits to public employees and others, to achieve low annual premium increases. To facilitate legislative oversight, the board shall submit an annual report within 100 days of its adoption of annual health premium increases or decreases that describes the methods it employed to moderate annual increases in premiums when taking that action. In years when the board adopts health premium increases in excess of those assumed in the most recent state retiree health program actuarial valuation, the report shall include a discussion of actions that the board plans to take, if any, to attempt to reduce the rate of annual premium growth to levels below those assumed in this valuation for the next three years. This reporting requirement applies to the board's action in 2007 to adopt premium rates for 2008 and all board actions to increase or decrease annual health premiums adopted thereafter. This reporting requirement does not obligate the board to adopt any specific level of premium for any given year or to change any action it otherwise determines is necessary under state law. The board may state in the report that it is unable to commit to specific actions to reduce the rate of health premium growth or does not know if future reductions in the rate of health premium growth can be achieved. The system is requested to complete these reports with existing budgetary and staffing resources. The report shall be submitted to the Chairperson of the Joint Legislative Budget Committee, the chairpersons of the committees and subcommittees in each house of the Legislature that consider the system's budget and activities, the Controller, the Director of Finance, and the Legislative Analyst.

1900-001-0950—For support of Board of Administration of the Public Employees' Retirement System, payable from the Public Employees' Contingency Reserve Fund..... 26,519,000

Provisions:

1. The appropriation made in this item is for support of the Board of Administration of the Public

- Employees' Retirement System pursuant to Section 22910 of the Government Code.
2. In addition to the purpose specified in Provision 1, funds appropriated in this item shall be used by the Public Employees' Retirement System to process Medicare Part D eligibility files, reconciliation files, and subsidy requests. The system may use funds of the Account for Retiree Drug Subsidy Payments in the Contingency Reserve Fund to fund a portion of these eligible costs, provided that this account supports only the portion of eligible expenses attributable to Medicare Part D retiree drug subsidy work related to state government and California State University members of the system. The Public Employees' Retirement System shall continue to apply directly for the maximum possible amount of Medicare Part D retiree drug subsidies in 2007 and 2008.
 3. Notwithstanding the requirements of Provision 2, the Public Employees' Retirement System may choose not to apply for subsidies related to plans for which it is not eligible to act as the sponsor and receive Part D subsidies related to their enrollees or with respect to persons enrolled in a board-approved Medicare Advantage prescription drug health benefit plan, consistent with actions of the Public Employees' Retirement System for the 2007 calendar year . If the Public Employees' Retirement System chooses not to apply for subsidies pursuant to this provision, the system shall notify the Department of Finance, the chairpersons of the committees and the appropriate subcommittees in each house of the Legislature that consider the budget, the Chairperson of the Joint Legislative Budget Committee, and the Legislative Analyst's Office, and the system shall explain the facts and circumstances underlying that choice.
 4. Notwithstanding the requirements of Provisions 2 and 3, the Public Employees' Retirement System may choose not to apply in the 2008 calendar year for subsidies related to one or more employee association health benefit plans upon the system's certification to the Department of Finance that the estimated state share of Medicare Part D retiree drug subsidy funds for those

plans for the 2006 calendar year did not exceed \$500,000 on a combined basis.

Schwarzenegger* (No. C01-1351 THE) suspended the exercise by the Secretary of the Department of Corrections and Rehabilitation of all powers related to the administration, control, management, operation, and financing of the California prison medical health care system. The court ordered that all such powers vested in the Secretary of the Department of Corrections and Rehabilitation were to be performed by a receiver appointed by the court commencing April 17, 2006, until further order of the court. The Director of the Division of Correctional Health Care Services of the Department of Corrections and Rehabilitation is to administer this item to the extent directed by the receiver.

4. Notwithstanding Section 13324 of the Government Code or Section 32.00 of this act, no state employee shall be held personally liable for any expenditure or the creation of any indebtedness in excess of the amounts appropriated therefor as a result of complying with the directions of the receiver or orders of the United States District court in *Plata v. Schwarzenegger*.

Provisions:

1. The funds appropriated in Schedule (1) are to be allocated by the Department of Corrections and Rehabilitation, upon approval by the Depart-

These funds may be used for all of the following: budget package development, environmental services, architectural programming, engineering assessments, schematic design, and preliminary plans. The amount appropriated in this item for these purposes is not to be construed as a commitment by the Legislature as to the amount of capital outlay funds it will appropriate in any future year. Before using these funds for preliminary plans, the Department of Corrections and Rehabilitation shall provide a 20-day notification to the Chairperson of the Joint Legislative Budget Committee, the chairpersons of the respective fiscal committee of each house of the Legislature, and the legislative members of the State Public Works Board, discussing the scope, cost, and future implications of the use of funds for preliminary plans.

5. It is the intent of the Legislature that the Department of Finance's new policy to treat Prison Industry Authority modular units as capital outlay has minimal impact on the Prison Industry Authority program. In order not to disrupt the Prison Industry Authority's rehabilitative carpentry and ironworker preapprenticeship program, the authority is authorized to construct modular facilities from support funded purchase orders received prior to June 30, 2007, and for any modular facilities that are authorized in the 2007-08 budget year.
 6. Of the funds appropriated in Schedule (2.5), \$6,500,000 is for the purchase of additional modular space for Farrell related programs.  7. Of the funds appropriated in this item, \$3,500,000 is for various capital outlay projects to respond to Farrell litigation. It is the intent of the Legislature that as 21st Century grantees either transfer to the ASES program or as their grant period expires, priority for the funding of new grants shall be given to high school programs, consistent with Section 8484.8 of the Education Code.
- (b) The State Department of Education shall provide an annual report to the Legislature and Department of Finance by November 1 of each year that identifies by cohort for the previous fiscal year each high school program funded, the amount of the annual grant and actual funds expended, the numbers of students served and planned to be served, and the average cost per student per day. - the nationally accepted needs analysis methodology.
6. Of the funds appropriated in Schedule (1), \$2,762,129 is for payment of energy service contracts in connection with the issuance of State Public Works Board Energy Efficiency Revenue Bonds.
 7. Of the funds appropriated in Schedule (5), \$2,700,000 is for repayment of \$25,000,000 borrowed by the University of California for deferred maintenance in the 1994–95 fiscal year. It is the intent of the Legislature to annually provide funds for that repayment purpose through the 2009–10 fiscal year.
 8. Of the funds appropriated in Schedule (5), \$2,405,000 is for repayment of \$25,000,000 borrowed by the University of California for deferred maintenance in the 1995–96 fiscal year. It is the intent of the Legislature to annually provide funds for that repayment purpose through the 2010–11 fiscal year.
 9. Of the funds appropriated in Schedule (1), \$2,108,000 is for the California State Summer School for Math and Science (COSMOS). The University of California shall report on the outcomes and effectiveness of COSMOS every five years, commencing April 1, 2011.
 10. Of the funds appropriated in Schedule (1), \$770,000 is for the Welfare Policy Research Project, pursuant to Article 9.7 (commencing with Section 11526) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code.
 11. Notwithstanding Section 3.00, for the term of the financing, the University of California may use funds appropriated in Schedule (1) for debt service and costs associated with the purchase, renovation, and financing of a facility for the UC-Mexico research and academic programs in Mexico City. The amount to be financed shall not exceed \$7,000,000. The university shall report to the Legislature by March 15, 2008, on the (a) amount of funds spent to support the UC-Mexico facility, including the specific use of these funds, (b) amount of funds spent to support UC-Mexico research and academic programs, and (c) different types of research conducted

- and programs operated at the UC-Mexico facility.
12. Of the funds provided in Schedule (1), \$1,125,000 is appropriated for science and math resource centers to implement the Science and Math Teacher Initiative. The University of California (UC) shall report to the Legislature and the Governor by February 1, 2008, on its progress toward increasing the quality and supply of science and math teachers. This report shall include the following information: (a) annual number of math and science teachers awarded credentials (by each UC campus) beginning with the 2004–05 academic year (before the state first provided funding for the initiative), (b) an expenditure plan on the use of the funds appropriated in this provision, (c) the effectiveness of the initiative’s different components and activities, including an identification of best practices, and (d) the job placement of students who earn a math or science teacher credential, including the location of the K–12 school of employment and whether it is in an urban, rural, or suburban setting.
 13. Of the funds appropriated in Schedule (1), \$52,930,000 is to fund 5,000 additional state-supported full-time equivalent students (FTES) at the University of California, based on a marginal General Fund cost of \$10,586 per additional student. This funding rate is based on a methodology for determining the marginal cost of each additional state-supported student, as adopted by the Legislature for the 2006–07 fiscal year. This methodology calculates a total marginal cost (including operation and maintenance costs and faculty costs based on the salaries of recently hired professors) and then subtracts from this cost the fee revenue the university anticipates from each additional student (after adjusting for financial aid), in order to determine the amount of General Fund support needed from the state. It is the intent of the Legislature that enrollment growth funding provided to the university in subsequent fiscal years be based on this specific methodology. The Legislature expects the University of California to enroll a total of 198,455 state-supported

FTES during the 2007–08 academic year. This enrollment target does not include nonresident students and students enrolled in non-state-supported summer programs. The University of California shall report to the Legislature by March 15, 2008, on whether it has met the 2007–08 enrollment goal. For purposes of this provision, enrollment totals shall only include state-supported students. If the University of California does not meet its total state-supported enrollment goal by at least 250 FTES, the Director of Finance shall revert to the General Fund by April 1, 2008, the total amount of enrollment funding associated with the total share of the enrollment goal that was not met.

14. Of the funds appropriated in Schedule (1), \$1,050,000 shall be used to support 70 full-time equivalent students in the Program in Medical Education (PRIME) at the Irvine, Davis, San Diego, and San Francisco campuses. The primary purpose of this program is to train physicians specifically to serve in underrepresented communities. The University of California shall report to the Legislature by March 15, 2008, on (a) its progress in implementing the PRIME program and (b) the use of the total funds provided for this program from both state and nonstate resources.
15. Of the funds provided in Schedule (1), \$1,617,000 is appropriated to fund the full cost of a minimum of 122 full-time equivalent students in entry-level clinical nursing programs and entry-level master's degree programs in nursing, and \$103,000 is to support an additional 20 master's degree level nursing students. This funding is intended as a supplement to marginal cost support provided within the University of California's enrollment growth funding, in recognition of the higher costs associated with master's degree level nursing programs. The university shall report to the Legislature and the Governor by May 1, 2008, on its progress toward meeting this enrollment goal.
16. Of the funds appropriated in Schedule (1), \$475,000 shall be expended for the Center for Earthquake Engineering Research, contingent upon the center continuing to receive federal

- matching funds from the National Science Foundation.
17. Of the funds appropriated in Schedule (1), \$385,000 shall be expended for viticulture and enology research, contingent upon the receipt of an equal amount of private sector matching funds.

 22. It is the intent of the Legislature that the University of California submit an annual report by March 1 of each year through the 2010–11 fiscal year to the Joint Legislative Budget Committee, legislative fiscal subcommittees, and the Department of Finance on the university's progress in reforming its compensation policies and practices, reflecting the criteria specified in Provision 27 of Item 6440-001-0001 of Section 2.00 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
 24. Of the funds appropriated in Schedule (1), \$19,300,000 is for student academic preparation and education programs (SAPEP) and is to be matched with \$12,000,000 from existing university resources, for a total of \$31,300,000 for these programs. The University of California shall provide a plan to the Department of Finance and the fiscal committees of each house of the Legislature for expenditure of both state and university funds for SAPEP by September 1, 2007. It is the intent of the Legislature that the university report on the use of state and university funds provided for these programs, including detailed information on the outcomes

If savings are identified in funds encumbered from this general obligation bond fund for construction contracts for capital outlay projects, remaining after completion of a capital outlay project and upon resolution of all change orders and claims, those savings may be used for the following purposes: (a) to begin working drawings for a project for which preliminary plan funds have been appropriated and the plans have been approved by the State Public Works Board consistent with the scope and cost approved by the Legislature as adjusted for inflation only, (b) to proceed further with the underground tank correction program, (c) to perform engineering evaluations on buildings that have been identified as potentially in need of seismic retrofitting, (d) to proceed with design and construction of projects to meet requirements under the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.), or (e) to fund minor capital outlay projects.

Not later than March 1 of each year, the University of California shall provide the Legislative Analyst with a progress report showing the identified savings, by project, and the purpose for which the identified savings were used.

Not later than November 1 of each year, the University of California shall prepare a report showing the identified savings, by project, and the purpose for which the identified savings were used. This report shall be submitted to the Chairperson of the Joint Legislative Budget Committee and to the chairpersons of the fiscal committees in each house of the Legislature.

6. or are otherwise not financed with the funds appropriated in this item. This requirement shall represent a moratorium on granting further exceptions to paying prevailing wage rates until June 30, 2008.

1. Notwithstanding Section 13332.11 of the Government Code or any other provision of law, the University of California may proceed with any phase of any project identified in the above schedule, including preparation of preliminary plans, working drawings, construction, or equipment purchases, without the need for any further approvals.
2. The University of California shall complete each project identified in the above schedule within the total funding amount specified in the schedule for that project. Notwithstanding Section 13332.11 of the Government Code or any other provision of law, the budget for any project to be funded from this item may be augmented by the University of California within the total appropriation made by this item, in an amount not to exceed 10 percent of the amount appropriated for that project. No funds appropriated in this item for equipment may be used for an augmentation under this provision, or be augmented

from any other funds appropriated in this item. This condition does not limit the authority of the University of California to use nonstate funds.

3. The University of California shall complete each project identified in the above schedule without any change to its scope. The scope of a project, in this respect, means the intended purpose of the project as determined by reference to the following elements of the budget request for that project submitted by the University of California to the Department of Finance: (a) the program elements related to project type and (b) the functional description of spaces required to deliver the academic and supporting programs as approved by the Legislature.
4. Notwithstanding any other provision of law, the appropriation made in this item is available for encumbrance until June 30, 2009, except that the funds appropriated for construction only must be bid by June 30, 2008, and are available for expenditure until June 30, 2009, and that the funds appropriated for equipment purposes are available for encumbrance until June 30, 2010. For the purposes of encumbrance, funds appropriated for construction management and project contingencies purposes, as well as any bid savings, shall be deemed to be encumbered at the time a contract for that purpose is awarded; these funds also may be used to initiate consulting contracts necessary for management of the project during the liquidation period. Any savings identified at the completion of the project also may be used during the liquidation period to fund the purposes described in Provision 5.
5. Identified savings in a budget for a capital outlay project, as appropriated in this item, remaining after completion of a capital outlay project and upon resolution of all change orders and claims, may be used without further approval: (a) to augment projects consistent with Provision 2, (b) to proceed further with the underground tank correction program, (c) to perform engineering evaluations on buildings that have been identified as potentially in need of seismic retrofitting, (d) to proceed with the design and construction of projects to meet requirements under the federal Americans with Disabilities Act of 1990

(42 U.S.C. Sec. 12101 et seq.), or (e) to fund minor capital outlay projects.

6. Not later than December 1 of each year, the University of California shall submit a report outlining for each project the expenditures of the funds appropriated in this item to the Chairperson of the Joint Legislative Budget Committee, the chairpersons of the fiscal committees of each house of the Legislature, the Legislative Analyst, and the Director of Finance. The report also shall include the following elements: (a) a statement of the identified savings by project and the purposes for which the identified savings were used, (b) a certification that each project, as proceeding or as completed, has remained within its scope and the amount funded for that project under this item, and (c) an evaluation of the outcome of the project measured against performance criteria.
7. The project identified in Schedule (1) may utilize design-build construction consistent with practices, policies, and procedures of the University of California.
8. An amount not to exceed \$10,000,000 as appropriated in Schedule (3) is for preliminary plans, working drawings, and construction to support the joint nursing education program component of a Life Sciences Research and Nursing Education facility at the Charles R. Drew University of Medicine and Science. Encumbrance of these funds requires the committal of matching funds of at least \$10,000,000 from nonstate sources. The Director of Finance shall confirm the commitment of matching funds prior to the release of state funds.

These funds shall be encumbered not sooner than 45 days after the submittal to the Joint Legislative Budget Committee and the Department of Finance of formal agreements between the Regents of the University of California and the Charles R. Drew University of Medicine and Science pertaining to (a) the ownership and occupancy of the facility, and (b) the operation of a joint program in nursing. No funds may be encumbered for this project until the State Public Works Board has determined that these requirements have been met.

It is the intent of the Legislature to fund the state's share of support costs of the joint nursing education program in a way that is consistent with this public-private partnership.

6440-401—Identified savings in funds encumbered from the Higher Education Capital Outlay Bond Funds of 1986, 1988, 1990, 1992, 1996, 1998, 2002, and 2004, and from the 2006 University Capital Outlay Bond Fund for capital outlay projects, remaining after completion of a capital outlay project and upon resolution of all change orders and claims, may be used: (a) to begin working drawings for a project for which preliminary plan funds have been appropriated and the plans have been approved by the State Public Works Board consistent with the scope and cost approved by the Legislature as adjusted for inflation only, (b) to proceed further with the underground tank corrections program, (c) to perform engineering evaluations on buildings that have been identified as potentially in need of seismic retrofitting, (d) to proceed with design and construction of projects to meet requirements under the federal Americans with Disabilities Act, and (e) for identified savings in funds encumbered from the Higher Education Capital Outlay Bond Funds of 1996, 1998, 2002, and 2004 to fund minor capital outlay projects.

No later than December 1 of each year, the University of California shall prepare a report showing (a) the identified savings by project and (b) the purpose for which the identified savings were used. This report shall be submitted to the Chairperson of the Joint Legislative Budget Committee and to the chairs of the fiscal committees in each house.

6610-001-0001—For support of California State University.....

2,920,880,000

Schedule:

(1) Support..... 2,920,880,000

Provisions:

1. The appropriations made in this item are exempt from Section 31.00, except as otherwise provided by the applicable sections of the Government Code referred to in Section 31.00.

2. Of the amount appropriated in this item, \$350,000 is for transfer to the Affordable Student Housing Revolving Fund for the purpose of subsidizing interest costs in connection with bond financing for construction of affordable student housing at the Fullerton and Hayward campuses in accordance with Article 3 (commencing with Section 90085) of Chapter 8 of Part 55 of the Education Code.
3. Of the amount appropriated in this item, \$1,878,000 is for repayment of the \$17,000,000 financed for the California State University through a third party for deferred maintenance projects in the 1994–95 fiscal year. It is the intent of the Legislature to annually provide funds for that repayment purpose until June 30, 2010.
4. Of the amount appropriated in this item, \$2,309,000 is for repayment of the \$24,000,000 financed for the California State University through a third party for deferred maintenance projects in the 1995–96 fiscal year. It is the intent of the Legislature to annually provide funds for that repayment purpose until June 30, 2011.
5. Of the amount appropriated in this item, \$33,785,000 is provided for student financial aid grants. These financial aid funds shall be provided to needy students according to the nationally accepted needs analysis methodology.
6. Of the funds provided in Schedule (1), \$2,713,000 is appropriated to enhance the capacity of science and math teacher credential programs to implement the Science and Math Teacher Initiative. The California State University (CSU) shall report to the Legislature and the Governor by February 1, 2008, on its progress toward increasing the quality and supply of science and math teachers. This report shall include the following information: (a) annual number of math and science teachers awarded credentials (by each CSU campus) beginning with the 2004–05 academic year (before the state first provided funding for the initiative), (b) an expenditure plan on the use of the funds appropriated in this provision, (c) the effectiveness of the initiative’s different components and activities, including an identification of best practices, and (d) the job placement of students

who earn a math or science teacher credential, including the location of the K–12 school of employment and whether it is in an urban, rural, or suburban setting.

7. Of the amount appropriated in Schedule (1), \$64,417,000 is to fund 8,355 additional state-supported full-time equivalent students (FTES) at the California State University (CSU), based on a marginal General Fund cost of \$7,710 per additional student. This funding rate is based on a methodology for determining the marginal cost of each additional state-supported student, as adopted by the Legislature for the 2006–07 fiscal year. This methodology calculates a total marginal cost (including operation and maintenance costs and faculty costs based on the salaries of recently hired professors) and then subtracts from this cost the fee revenue the university anticipates from each additional student (after adjusting for financial aid), in order to determine the amount of General Fund support needed from the state. It is the intent of the Legislature that enrollment growth funding provided to the university in subsequent fiscal years be based on this specific methodology. The Legislature expects CSU to enroll a total of 342,553 state-supported FTES during the 2007–08 academic year. This enrollment target does not include nonresident students and students enrolled in non-state-supported summer programs. The CSU shall provide a preliminary report to the Legislature by March 15, 2008, and a final report by May 1, 2008, on whether it has met the 2007–08 enrollment goal. For purposes of this provision, enrollment totals shall only include state-supported students. If CSU does not meet its total state-supported enrollment goal by at least 418 FTES, the Director of Finance shall revert to the General Fund by May 15, 2008, the total amount of enrollment funding associated with the total share of the enrollment goal that was not met.
8. (a) The amount in Schedule (1) includes funding to increase enrollments in nursing programs beyond the levels served in 2005–06 as follows:

- (1) \$560,000 is provided to continue support for 280 FTES in entry-level master's degree nursing programs pursuant to Article 8 (commencing with Section 89270) of Chapter 2 of Part 55 of the Education Code.
 - (2) \$1,720,000 is provided to continue support for full cost of a minimum of 163 FTES in entry-level master's degree nursing programs.
 - (3) \$371,000 is provided to continue support for 35 FTES in baccalaureate degree nursing programs.
 - (b) Of the amount provided in Schedule (1), \$3,600,000 is provided to support 340 FTES in baccalaureate degree nursing programs during the 2007–08 academic year. FTES supported with this funding shall not count toward the enrollment reported pursuant to Provision 7. On or before May 1, 2008, CSU shall report to the Department of Finance and the Legislature the number of additional FTES enrolled in these programs above the levels for the 2006–07 academic year. In the event that CSU enrolls fewer than the 340 additional students for which funding is provided, the funding associated with the enrollment shortfall shall revert to the General Fund. The Director of Finance shall make any such reversion on or before May 15, 2008.
 - (c) The university shall report to the Legislature and the Governor by May 1, 2008, on its progress toward meeting the enrollment goals specified in subdivision (a).
10. Of the amount appropriated in Schedule (1), \$52,000,000 is appropriated for student academic preparation and student support services programs. The university shall provide \$45,000,000 to support the Early Academic Assessment Program and the Educational Opportunity Program. It is the intent of the Legislature that the university report on the outcomes and effectiveness of the Early Academic Assessment Program to the fiscal committees of each house of the Legislature no later than March 15, 2008.

Notwithstanding Section 13332.11 of the Government Code or any other provision of law, the California State University may proceed with any phase of any project identified in the above schedule, including preparation of preliminary plans, working drawings, construction, or equipment purchase, without the need for any further approvals.

2. The California State University shall complete each project identified in the above schedule within the total funding amount specified in the schedule for that project. Notwithstanding Section 13332.11 of the Government Code or any other provision of law, the budget for any project to be funded from this item may be augmented by the California State University within the total appropriation made in this item, in an amount not to exceed 10 percent of the amount appropriated for that project. No funds appropriated in this item for equipment may be used for an augmentation under this provision, or be augmented from any other funds appropriated in this item. This condition does not limit the authority of the California State University to use nonstate funds for these purposes.
3. The California State University shall complete each project identified in the above schedule without any change to its scope. The scope of a project means, in this respect, the intended purpose of the project as determined by reference to the following elements of the budget request for that project submitted by the California State University to the Department of Finance: (a) the program elements related to project type and (b) the functional description of spaces required to deliver the academic and supporting programs as approved by the Legislature.
4. Identified savings in a budget for a capital outlay project, as appropriated in this item, remaining after completion of a capital outlay project and upon resolution of all change orders and claims, may be used (a) to begin working drawings for a project for which preliminary plans have been approved by the State Public Works Board consistent with the scope and cost approved by the Legislature as adjusted for inflation only, (b) to proceed further with the underground tank corrections program, (c) to perform engineering evaluations on buildings identified as potentially in need of seismic retrofitting, (d) to proceed with design and construction of projects to meet requirements under the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.), (e) to fund minor capital outlay projects,

or (f) to fund feasibility studies for capital outlay.

5. No later than March 1 of each year, the California State University shall submit a report detailing the expenditure for each project of the funds appropriated in this item to the Chairperson of the Joint Legislative Budget Committee, the chairperson of the fiscal committees of each house of the Legislature, the Legislative Analyst, and the Director of Finance. The report shall include the following elements: (a) a statement of the identified savings by project, and the purpose for which the identified savings were used, (b) a certification that each project, as proceeding or as completed, has remained within its scope and the amount funded for that project under this item, and (c) an evaluation of the outcome of the project measured against performance criteria.
6. Notwithstanding any other provision of law, the appropriation made in this item is available for encumbrance during the 2007–08 and 2008–09 fiscal years, except that the funds appropriated for construction only must be bid by June 30, 2008, and are available for expenditure until June 30, 2010, and funds appropriated for equipment purposes are available for encumbrance until June 30, 2009. For the purposes of encumbrance, funds appropriated for construction management and project contingencies purposes, as well as any bid savings, shall be deemed to be encumbered at the time a contract for that purpose is awarded; these funds also may be used to initiate consulting contracts necessary for management of the project during the liquidation period. Any savings identified at the completion of the project also may be used during the liquidation period to fund the purposes described in Provision 4.

6610-401—Identified savings in funds encumbered from the Higher Education Capital Outlay Bond Funds of 1986, 1988, 1990, 1992, 1996, 1998, 2002, and 2004, and from the 2006 University Capital Outlay Bond Fund for capital outlay projects, remaining after completion of a capital outlay project and upon resolution of all change orders and claims, may be used: (a) to begin working drawings for a project for which

preliminary plan funds have been appropriated and the plans have been approved by the State Public Works Board consistent with the scope and cost approved by the Legislature as adjusted for inflation only, (b) to proceed further with the underground tank corrections program, (c) to perform engineering evaluations on buildings that have been identified as potentially in need of seismic retrofitting, or (d) to proceed with design and construction of projects to meet requirements under the federal Americans with Disabilities Act of 1990.

No later than November 1 of each year, the California State University shall prepare a report showing (a) the identified savings by project and (b) the purpose for which the identified savings were used. This report shall be submitted to the Chairperson of the Joint Legislative Budget Committee and to the chairpersons of the fiscal committees of each house of the Legislature.

6610-402—In recognition of the transition of the deposit of fee revenue from the State General Fund to the CSU local trust funds, the CSU, with DOF approval, shall annually calculate a base funding adjustment that represents the amount necessary to maintain fiscal neutrality for the State General Fund.

Provisions:

1. The funds appropriated in Schedules (1), (2), (3), (4), (5), (6), (7), (8), (10), (11), (12), (13), \$24,850,000 in Schedule (14), (15), (17), (18), and (21) are for transfer by the Controller during the 2007–08 fiscal year to Section B of the State School Fund.
2. The funds appropriated in Schedule (1) for Apportionments reflect the intent of the Legislature

- to defer \$200,000,000 for apportionments to the 2008–09 fiscal year, pursuant to separate legislation enacted for the 2007–08 fiscal year.
3. Notwithstanding any other provision of law, apportionment funding for community college districts shall be based on the greater of the current year or prior year level of full-time equivalent students (FTES), consistent with K–12 declining enrollment practices pursuant to Section 42238.5 of the Education Code. Decreases in FTES shall result in a revenue reduction at the district’s average level of apportionment funding per FTES and shall be made in the year following the initial year of decrease in FTES.
 4. The funds appropriated in Schedule (1) for Apportionments include \$31,409,000 to encourage district-level accountability efforts pursuant to Section 84754.5 of the Education Code. It is intended that the first report for the district-specific accountability system be provided by March 19, 2007, reflecting outcomes from the 2005–06 fiscal year in context as specified in Section 84754.5 of the Education Code.
 - 4.5. The amount appropriated in Schedule (1) for Apportionments reflects a reduction of \$80,000,000 to account for a like amount of unused current and prior year growth funding.
 - 4.6. Of the funds appropriated in Schedule (1) for Apportionments, \$13,786,000 is available to increase the per-student funding rate for career development and college preparation courses authorized pursuant to Section 84760.5 of the Education Code.
 5. Of the funds appropriated in Schedule (1), Apportionments:
 - (a) Up to \$100,000 is for a maintenance allowance, pursuant to Section 54200 of Title 5 of the California Code of Regulations.
 - (b) Up to \$500,000 is to reimburse colleges for the costs of federal aid repayments related to assessed fees for fee waiver recipients. This reimbursement only applies to students who completely withdraw from college before the census date pursuant to Section 58508 of Title 5 of the California Code of Regulations.

6. Notwithstanding any other provision of law, the Chancellor of the California Community Colleges shall not reduce district workload obligations for a lack of a funded cost-of-living adjustment.
7. (a) Of the amount appropriated in Schedule (2) for the Apprenticeship Program, up to \$15,229,000 shall be available as necessary upon certification by the Chancellor of the California Community Colleges for the purpose of funding community college-related and supplemental instruction pursuant to Section 3074 of the Labor Code, as provided in Section 8152 of the Education Code. No community college district shall use funds available under this provision to offer any new apprenticeship training program or the expansion of any existing program unless the new program or expansion has been approved by the chancellor.
- (b) Notwithstanding Section 8152 of the Education Code, each 60-minute hour of teaching time devoted to each indentured apprentice enrolled in and attending classes of related and supplemental instruction as provided under Section 3074 of the Labor Code shall be reimbursed at the rate of \$5.06 per hour. For purposes of this provision, each hour of teaching time may include up to 10 minutes for passing time and breaks.
- (c) Of the amount appropriated in Schedule (2), Basic Skills and Apprenticeship, \$33,100,000 is available for the following purposes:
 - (1) \$1,600,000 for faculty and staff development to improve curriculum, instruction, student services, and program practices in the areas of basic skills and English as a Second Language (ESL) programs. The Office of the Chancellor shall select a district, utilizing a competitive process, to carry out these faculty and staff development activities. Faculty and staff development provided using these funds shall be administered in a manner that ensures all colleges receiving funds pursuant to paragraph (2) are provided

with opportunities to participate. The chancellor shall provide a status report on the use of these funds by the selected district to the Legislative Analyst and the Department of Finance not later than September 1, 2008.

- (2) \$31,500,000 for allocation by the chancellor to community college districts for improving outcomes of students who enter college needing at least one course in ESL or basic skills. Funds allocated pursuant to this paragraph may be expended for program and curriculum planning and development, student assessment, advisement and counseling services, supplemental instruction and tutoring, articulation, instructional materials and equipment, and any other purpose directly related to the enhancement of basic skills, ESL instruction, and related student programs. The allocated funds shall augment, and not supplant, current expenditures by districts for matriculation and assessment services, basic skills, ESL instruction, and related student programs. To be eligible to receive funds pursuant to this paragraph, a district must submit to the Office of the Chancellor an application certifying that the college will, within the fiscal year, (A) complete an assessment of its programs and activities serving basic skills and ESL students utilizing the assessment tool developed pursuant to paragraph (1) of Item 6870-493 of Section 2.00 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006), and (B) submit to the Office of the Chancellor an action and expenditure plan for funds received under this paragraph. The chancellor shall work in consultation with the Department of Finance and the Legislative Analyst to develop annual accountability measures for this program. It is the intent of the Legislature that annual performance accountability measures for this program utilize data

available as part of the accountability system developed pursuant to Section 84754.5 of the Education Code. The chancellor shall distribute funds on the basis of the number of full-time equivalent students enrolled in basic skills and ESL courses in the preceding academic year, and may establish a minimum allocation of up to \$100,000 per college.

8. Funds appropriated in Schedule (3), Growth for Apportionments, shall be available first to any districts bringing online in the current fiscal year newly accredited colleges or California Postsecondary Education Commission approved educational centers. It is the intent of the Legislature that increases in basic foundation allocations to each college be funded prior to additional growth in full-time equivalent students. The Chancellor of the California Community Colleges shall provide a report by November 1 of each year, to the Department of Finance and the Legislative Analyst, on the number of new centers and colleges added for the current fiscal year and those anticipated to be added for the prospective budget year. This report shall also detail the specific funding adjustments provided for basic foundation allocations to each college and center for the current fiscal year.
9. Notwithstanding any other provision of law, funds appropriated in Schedule (3) for Growth for Apportionments shall only be allocated for growth in full-time equivalent students (FTES), on a district-by-district basis, as determined by the Chancellor of the California Community Colleges. The chancellor shall not include any FTES from concurrent enrollment in physical education, dance, recreation, study skills, and personal development courses and other courses in conflict with existing law for the purpose of calculating a district's three-year overcap adjustment. The Board of Governors of the California Community Colleges shall implement the criteria required by Provision 5(a) of Item 6870-101-0001 of the Budget Act of 2003 (Ch. 157, Stats. 2003) for the allocation of funds appropriated in Schedules (1) and (3), so as to ensure that courses related to student needs for transfer, ba-

sic skills, and vocational/workforce training are accorded the highest priority and are provided to the maximum extent possible within budgeted funds.

- 9.5. Notwithstanding any other provision of law, if the apportionments base budget is insufficient to fund all restored enrollment, then the funds appropriated in Schedule (3) for Growth for Apportionments shall first be allocated to those districts restoring workload before allocations are made for new workload.
10. Of the amount appropriated in Schedule (3), \$10,000,000 shall only be available for noncredit instruction to prepare students to pass the California High School Exit Examination (CAHSEE). The first priority shall be to serve high school students from the class of 2007 who met all other graduation requirements except for passage of the CAHSEE. Remaining funds may be used to support other necessary noncredit courses for other students who not only did not pass the CAHSEE, but who did not complete other coursework necessary to meet high school graduation requirements. These funds are intended to supplement but not supplant existing funding for these purposes.
11. (a) Of the funds appropriated in Schedule (4) for Student Financial Aid Administration, not less than \$10,170,000 is available to provide \$0.91 per unit reimbursement to community college districts for the provision of board of governors (BOG) fee waiver awards pursuant to paragraph (2) of subdivision (m) of Section 76300 of the Education Code.
 - (b) Of the funds appropriated in Schedule (4), not less than \$4,470,000 is available to provide reimbursement of 2 percent of total waiver value to community college districts for the provision of BOG fee waiver awards pursuant to paragraph (2) of subdivision (m) of Section 76300 of the Education Code.
 - (c) (1) Of the amount appropriated in Schedule (4), \$2,800,000 shall be for a contract with a community college district to conduct a statewide media campaign to promote the general message to

prospective students as follows: (A) the California Community Colleges (CCC) remain affordable, (B) financial aid and tax credits are available to cover enrollment fees and help with books and other costs, and (C) the active encouragement of contact between pupils and local CCC financial aid offices. Any funds used from this source to produce radio, television, or mail campaigns must emphasize the availability of financial aid, the easiest and most reliable method of accessing the aid, a contact telephone number, an Internet Web site address, where applicable, and the physical location of a financial aid office. Any mail campaign must give priority to existing pupils, recent high school graduates, and 12th graders. The outreach and information campaign should target its efforts in high schools, welfare offices, unemployment offices, churches, community centers, and any other location that will most effectively reach low-income and disadvantaged students who must overcome barriers in accessing postsecondary education. The community college district awarded the contract shall consult with the Chancellor of the California Community Colleges and the Student Aid Commission prior to performing any activities to ensure appropriate coordination with any other state efforts in this area and ensure compliance with this provision.

- (2) Of the amount appropriated in Schedule (4), not more than \$34,200,000 shall be for direct contact with potential and current financial aid applicants. Each CCC campus shall receive a minimum allocation of \$50,000. The remainder of the funding shall be allocated to campuses based upon a formula reflecting full-time equivalent students (FTES) weighted by a measure of low-income populations as demonstrated by BOG fee waiver program participation within

a district. It is the intent of the Legislature, to the extent that funds are provided in this item, that all campuses provide additional staff resources to increase both financial aid participation and student access to low-income and disadvantaged students who must overcome barriers in accessing postsecondary education. Funds may be used for screening current students for possible financial aid eligibility and offering personal assistance to these students in accessing financial aid, providing individual help in multiple languages for families and students in filling out the necessary paperwork to apply for financial aid, and increasing financial aid staff to process additional financial aid forms.

- (3) Funds allocated to a community college district for financial aid personnel, outreach determination of financial need, and delivery of student financial aid services shall supplement, and shall not supplant, the level of funds allocated for the administration of student financial aid programs during the 2001–02 fiscal year.
- (4) It is the intent of the Legislature that the Office of the Chancellor of the California Community Colleges provide the Legislature with a report not later than April 1, 2007, on the use of the funds allocated pursuant to paragraphs (1) and (2) of this subdivision (e), including the distribution of the funds, specific uses of the funds, strategies employed to reach low-income and disadvantaged students potentially eligible for financial aid, and the extent to which districts were successful in increasing the number of students accessing financial aid, particularly the maximum Pell Grant award.
- (5) It is the intent of the Legislature that the Chancellor of the California Community Colleges report by September 1, 2007, in the manner and using the factors set

- forth in Provision 11(b)(5) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 2004 (Ch. 208, Stats. 2004), on the impact of outreach efforts on student headcount and FTES enrollment for the 2005–06 and 2006–07 academic years.
12. Of the funds appropriated in Schedule (18) for Extended Opportunity Programs and Services, \$106,786,000 is for Extended Opportunity Programs and Services (EOPS) in accordance with Article 8 (commencing with Section 69640) of Chapter 2 of Part 42 of the Education Code. Funds provided in this item for EOPS shall be available to students on all campuses within the California Community College system, including those students on new campuses or in new districts. In addition, \$15,505,000 is for funding, at all colleges, the Cooperative Agencies Resources for Education (CARE) program in accordance with Article 4 (commencing with Section 79150) of Chapter 9 of Part 48 of the Education Code. The Board of Governors of the California Community Colleges shall allocate funds on a priority basis to local programs on the basis of need for student services.
 - 12.5. Of the funds appropriated in Schedule (18) for the Extended Opportunity Programs and Services, \$1,900,000 shall be available to support additional textbook assistance grants to community college students as an allowable expenditure consistent with subparagraph 10 of subdivision (b) of Section 69648 of the Education Code.
 13. Of the funds appropriated in Schedule (19) for the Fund for Student Success, \$6,158,000 is for additional targeted student services, to be expended as follows:
 - (a) \$1,921,000 is for the Puente Project to support up to 75 colleges. These funds are available if matched by \$200,000 of private funds and the participating community colleges and University of California campuses maintain their 1995–96 fiscal year support level for the Puente Project. All funding shall be allocated directly to participating districts in accordance with their participation agreement.

- (b) Up to \$2,459,000 is for the Mathematics, Engineering and Science Achievement (MESA) Program. For each dollar allocated, the recipient district shall provide \$1 in matching funds.
 - (c) No less than \$1,778,000 is for the Middle College High School Program. With the exception of fully compliant special part-time students at the community colleges pursuant to Sections 48802 and 76001 of the Education Code, student workload based on participation in the Middle College High School Program shall not be eligible for community college state apportionment. Further, no community college state apportionment shall be made available for physical education classes, noncredit classes, nor other courses specified in Provision 9.
14. (a) The funds appropriated in Schedule (5) for the Disabled Students Program are for assisting districts in funding the excess direct instructional cost of providing special support services or instruction, or both, to disabled students enrolled at community colleges, and for state hospital programs, as mandated by federal law.
- (b) Of the amount appropriated in Schedule (5), no less than \$3,945,000 shall be used to address deficiencies identified by the federal Office of Civil Rights (OCR), as determined by the Office of the Chancellor of the California Community Colleges.
 - (c) Of the amount appropriated in Schedule (5), at least \$943,000 shall be used for support of the High Tech Centers for activities including, but not limited to, training of district employees, staff, and students in the use of specialized computer equipment for the disabled. All High Tech Centers shall meet standards developed by the Office of the Chancellor. Colleges that receive these augmentations shall not supplant existing resources provided to the centers.
 - (d) Notwithstanding any other provision of law, of the funds appropriated in Schedule (5), \$1,702,000 shall be for state hospital adult education programs at the hospitals served

by the Coast, Kern, and West Valley Community College Districts since the 1986–87 fiscal year. If adult education services at any of the three hospitals are not supported by the community colleges in any portion of the 2007–08 fiscal year, remaining funds shall, upon order of the Department of Finance, after 30 days' notice to the Chairperson of the Joint Legislative Budget Committee, be transferred to the State Department of Developmental Services (DDS). For any transfer of funds to DDS during the 2007–08 fiscal year, the Proposition 98 base funding levels for community colleges and DDS shall be adjusted accordingly.

- (e) Of the funds appropriated in Schedule (5) for the Disabled Student Services, no less than \$9,600,000 shall be allocated to support high-cost sign language interpreter services and real-time captioning equipment or other communication accommodations for hearing-impaired students based on a 4-to-1 state-to-local district match.
15. The funds appropriated in Schedule (6), Special Services for CalWORKs recipients, are for the purpose of assisting welfare recipient students and those in transition off of welfare to achieve long-term self-sufficiency through coordinated student services offered at community colleges, including workstudy, other educational related work experience, job placement services, child care services, and coordination with county welfare offices to determine eligibility and availability of services. All services funded in Schedule (6) shall be for current CalWORKs recipients or prior CalWORKs recipients who are in transition off of cash assistance for no more than two years. Current cash-assistance recipients may utilize these services until their initial educational objectives are met. Former recipients in transition off of cash assistance may utilize these services for a period of up to two years after leaving cash assistance subject to the conditions of this provision. These funds shall be used to supplement and not supplant existing funds and services provided for CalWORKs recipients attending community colleges. The

Chancellor of the California Community Colleges shall develop an equitable method for allocating funds to all districts and colleges based on the relative numbers of CalWORKs recipients in attendance and shall allocate funds for the following purposes:

- (a) Job placement.
- (b) Coordination with county welfare offices and other local agencies, including local workforce investment boards.
- (c) Curriculum development and redesign.
- (d) Child care and workstudy.
- (e) Instruction.
- (f) Postemployment skills training and related skills.
- (g) Campus-based case management, limited to on-campus assistance and services not provided by county case workers that do not supplant other counseling and academic support services funded through existing CCC categorical programs.

Of the amount appropriated in Schedule (6), \$15,000,000 is for child care and does not require a district match. For the remaining funds, districts shall, as a condition of receipt of these funds, provide a \$1 match for every \$1 provided by the state.

Funds utilized for subsidized child care shall be for children of CalWORKs recipients through campus-based centers or parental choice vouchers at rates and with rules consistent with those applied to related programs operated by the State Department of Education in the 2007–08 fiscal year, including eligibility, reimbursement rates, and parental contribution schedules. Subsidized campus child care for CalWORKs recipients may be provided during the period they are engaged in qualifying state and federal work activities through attainment of their initial education and training plan and for up to three months thereafter or until the end of the academic year, whichever period of time is greater.

Funds utilized for workstudy shall be used solely for payments to employers that currently participate in campus-based workstudy programs or are providing work experiences that are direct-

ly related to and in furtherance of student educational programs and work participation requirements, provided that those payments may not exceed 75 percent of the wage for the workstudy positions, and the employers shall pay at least 25 percent of the wage for the workstudy positions. These funds may be expended only if the total hours of education, employment, and workstudy for the student are sufficient to meet both state and federal minimum requirements for qualifying work-related activities.

Funds may be used to provide credit or non-credit classes for CalWORKs students if a district has committed all of its funded full-time equivalent students (FTES) and is unable to offer the additional instructional services to meet the demand for CalWORKs students. This determination shall be based on fall enrollment information. Districts shall submit applications to the Office of the Chancellor by October 15 of each year. If the chancellor approves the use of funds for direct instructional workload, the Office of the Chancellor shall submit a report to the Department of Finance and the Joint Legislative Budget Committee by November 15, 2007, that (a) identifies the enrollment of new CalWORKs students, (b) states whether and why additional classes were needed to accommodate the needs of CalWORKs students, and (c) sets forth an expenditure plan for the balance of funds.

As a condition of receipt of the funds appropriated in Schedule (6), by the fourth week following the end of the semester or quarter term commencing in January 2008, each participating community college shall submit to the Office of the Chancellor a report, in the format specified by the chancellor in consultation with the State Department of Social Services, that includes, but is not limited to, the funded components, the number of hours of child care provided, the average monthly enrollment of CalWORKs dependents served in child care, the number of workstudy hours provided, the hourly salaries and type of jobs, the number of students being case managed, the short-term programs available, the student participation rates, and other outcome data. It is intended that, to the extent practical,

reporting from colleges utilize data gathered for federal reporting requirements at the state and local level. Further, it is intended that the Office of the Chancellor compile the information for annual reports to the Legislature, the Governor, the Legislative Analyst, and the Department of Finance and State Department of Social Services by November 15 of each year.

First priority for expenditures of any funds appropriated in Schedule (6) shall be in support of current CalWORKs recipients. However, if caseloads are insufficient to fully utilize all of the funding in this schedule in a cost beneficial way, it is intended that up to \$5,000,000 of the funds subject to local matching requirements may be allocated for providing postemployment services to former CalWORKs recipients who have been off of cash assistance for no longer than two years to assist them in upgrading skills, job retention, and advancement. Allowable services include direct instruction that cannot be funded under available growth funding, child care to support attendance in these classes consistent with this provision, job development and placement services, and career counseling and assessment activities which cannot be funded through other programs. Child care services may only be provided for periods commensurate with a student's need for postemployment training within the two-year transitional period.

Prior to allocation of funds for postemployment services, the chancellor shall first secure the approval of the Department of Finance for the allocations, complete a cumulative report on the outcomes, activities, and cost-effectiveness of the program no later than November 15, 2007, in compliance with the Budget Acts of 1998 (Ch. 324, Stats. 1998) and 1999 (Ch. 50, Stats. 1999) and this act, and shall provide the rationale and justification for the proposed allocation of postemployment services to districts for transitional students.

If a district is unable to fully expend its share of child care funds, it may request that the Office of the Chancellor approve a reallocation to other CalWORKs purposes authorized by this provision, subject to all pertinent limitations and dis-

strict match required for these purposes under this provision.

Of the funds appropriated in Schedule (6) for the Special Services for CalWORKs Recipients Program, no less than \$8,000,000 is to provide direct workstudy wage reimbursement for students served under this program, and \$1,000,000 is available for campus job development and placement services.

16. Funds appropriated in Schedule (6) for the Special Services for CalWORKs Recipients Program have been budgeted to meet the state's Temporary Assistance for Needy Families maintenance-of-effort requirement pursuant to the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193) and may not be expended in any way that would cause their disqualification as a federally allowable maintenance-of-effort expenditure.
17. (a) Funds provided in Schedule (7) for the Foster Care Education Program shall be allocated to provide foster and relative/kinship care education and training. Districts shall ensure that education and training required by Sections 1529.1 and 1529.2 of the Health and Safety Code and Section 16003 of the Welfare and Institutions Code receive priority. Districts may use any remaining funds for additional parenting skills training.
- (b) Funds provided in Schedule (7) shall be used for foster parent and relative/kinship care provider education training services consistent with the following criteria:
 - (1) The Chancellor of the California Community Colleges shall use these funds exclusively for foster parent and relative/kinship care provider education and training, as specified by the chancellor in consultation with an advisory committee that includes foster parents, representatives of statewide foster parent organizations, parent and relative/kinship care providers, and representatives from the State Department of Social Services.
 - (2) Acceptance of funds under this program shall constitute agreement by the district to comply with such reporting require-

- ments, guidelines, and other conditions for receipt of funding as the chancellor may establish.
- (3) Each college plan for foster and relative/kinship care education programs shall include the provision of training to facilitate the development of foster family homes, small family homes, and relative/kinship homes to care for no more than six children who have special mental, emotional, developmental, or physical needs.
 - (4) The State Department of Social Services shall facilitate the participation of county welfare departments in the foster and relative/kinship care education program.
18. (a) Funds appropriated in Schedule (8) for the Matriculation Program are for the purpose of student matriculation pursuant to Article 1 (commencing with Section 78210) of Chapter 2 of Part 48 of the Education Code.
- (b) Of the amount appropriated in Schedule (8), \$20,000,000 shall be allocated to community college districts on a one-to-one matching funds basis to provide matriculation services, including, but not limited to, orientation, assessment, and counseling, for students enrolled in designated noncredit classes and programs who may benefit most, as determined by the Chancellor of the California Community Colleges pursuant to Sections 78216 to 78218, inclusive, of the Education Code.
19. The funds in Schedule (12) for the Part-time Faculty Compensation Program shall be allocated solely to increase compensation for part-time faculty from the amounts previously authorized. Funds shall be distributed to districts based on the total actual full-time equivalent students served in the previous fiscal year and include a small district factor as determined by the Chancellor of the California Community Colleges. These funds are to be used to assist districts in making part-time faculty salaries more comparable to full-time salaries for similar work, as determined through each district's local collective

bargaining process. These funds shall not supplant the amount of resources each district used to compensate part-time faculty or be used to exceed parity of each part-time faculty employed by each district with regular full-time faculty at the same district, as certified by the chancellor. If a district achieves parity, its allocation may be used for any other educational purpose.

20. (a) \$10,350,000 of the funds provided in Schedule (14) for the Telecommunications and Technology Services Program shall be for the purpose of supporting technical and application innovations and for coordination of activities that serve to maximize the utility of the technology investments of the community college system towards improving learning outcomes. Allocations shall be made by the Chancellor of the California Community Colleges, based on criteria and guidelines as developed by the chancellor, on a competitive basis through the RFA/RFP application process as follows:
 - (1) \$2,000,000, or as much as necessary, shall be available for a statewide digital uplink for the purpose of delivering statewide satellite services to system colleges and districts related to instruction, student support, and administration.
 - (2) \$2,300,000 is for the development and implementation of a systemwide audio bridging and telephony capability of the 4C Net backbone to facilitate collaboration of faculty, students, and staff in instruction, student services, and shared governance activities.
 - (3) The balance of funds shall be available for centers to provide regional coordination for technical assistance and planning, cooperative purchase agreements, and faculty and staff development. All other provisions as specified in Provision 17(b)(3) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 1996 (Ch. 162, Stats. 1996) shall apply.
- (b) \$12,500,000 of the funds provided in Schedule (14) shall be available for allocations to districts. It is the intent of the Legis-

lature that these funds be used by colleges to maintain the technology capabilities specified in Provision 21(a) of Item 6870-101-0001 of the Budget Act of 2003 (Ch. 157, Stats. 2003). These funds shall not supplant existing funds used for those purposes, and colleges shall match maintenance and ongoing costs with other funds as provided by Provision 21(a) of Item 6870-101-0001 of the Budget Act of 2003 (Ch. 157, Stats. 2003).

- (c) Of the funds provided in Schedule (14), \$1,347,000 shall be available for grants to districts to fund California Virtual University distance education centers, for instructing faculty in teaching courses online, and other expenses for conversion of courses for distance education. The funds appropriated in this item shall not supplant existing funds and shall be subject to established fiscal controls, annual reporting, and accountability requirements specified by the chancellor. The chancellor shall develop criteria for the allocation of these funds. As a condition of receipt of the funds, colleges are required to submit to the Office of the Chancellor reports in a format specified by the chancellor sufficient to document the value and productivity of this program, including, but not limited to, numbers and nature of courses converted, and the amount of distance education instructional workload services provided as a result of these courses. It is intended that the Office of the Chancellor further develop the reporting criteria for participating colleges and submit that for review along with an annual progress report on program implementation to the Legislative Analyst, Office of the Secretary for Education, and the Department of Finance no later than November 1 of each year, for review and comment.
- (d) Of the funds provided in Schedule (14), \$2,000,000 is for ongoing support and expansion of the California Partnership for Achieving Student Success Program (Cal-PASS). As a condition of receipt of these

funds, the Cal-PASS Program shall submit to the Office of the Chancellor, by October 15 of each year, a report in a format specified by the chancellor that sufficiently documents the value and productivity of the program. The report shall include, but not be limited to, the numbers and percentages of institutions and school districts that have signed agreements with Cal-PASS, the number and percentage that have actively submitted data to Cal-PASS in the current year, and the results of an annual financial audit as prescribed by the chancellor that includes an accounting of all funding sources of Cal-PASS and all uses of funds by funding source.

- (e) The chancellor shall submit an annual report detailing the scope of program activities undertaken by the Telecommunications and Technology Services Program to the Legislative Analyst, the Office of the Secretary for Education, and the Department of Finance not later than December 1 of each year. This report shall include a disclosure of expenditures by program and by district. but rather shall be funded on their individual merits.

- (d) \$4,529,000 is available for Job Development Incentive Training programs focused on job creation for public assistance recipients. Any annual savings from this subdivision shall only be available for expenditure for one-time activities listed under subdivision (j) of Section 88531 of the Education Code.
- (dd) \$8,000,000 is allocated for the establishment of a Responsive Incumbent Worker Training Fund, which will serve to expand the delivery of performance improvement training to employers and incumbent workers in high-growth industries. Funds shall also be used to develop programs that integrate basic skills and career technical education curriculum in ways that provide students with seamless educational coursework that transitions students into high tech and high demand job sectors.
- (e) The following provisions apply to the expenditure of funds within subdivisions (a) and (b) above: Funds allocated for centers and regional collaboratives shall seek to maximize the use of state funds for subdivisions (g) to (j), inclusive, of Section 88531 of the Education Code. Funds allocated to districts for purposes of subdivisions (g) and (i) of Section 88531 of the Education Code for performance-based training and student internships shall be matched by a minimum of \$1 of private business and industry funding for each \$1 of state funds. Funds allocated for purposes of subdivision (h) of Section 88531 of the Education Code for credit and noncredit instruction may be transferred to Schedule (1) or (3) to facilitate distribution at the chancellor's discretion. Any funds that become available from network centers due to savings, discontinuance, or reduction of amounts shall first be made available for additional allocations in subdivision (b)

above to increase the level of subsidized training otherwise available.

- (f) Funds allocated by the Board of Governors of the California Community Colleges under this provision may not be used by community college districts to supplant existing courses or contract education offerings. The chancellor shall ensure that funds are spent only for expanded services and shall implement accountability reporting for districts receiving these funds to ensure that training, credit, and noncredit programs remain relevant to business needs. Programs that do not demonstrate continued relevance and support by business shall not be eligible for continued funding. The board of governors shall consider the level of involvement and financial commitments of business and industry as primary factors in making awards. The chancellor shall incorporate grant requirements into the guidelines for audits of economic development grants.
 - (g) Primary objectives of the Economic Development Program are to maximize instruction, to prepare students for entry-level jobs, to increase skills of the current workforce, and to stimulate the growth of businesses through training so that more jobs are created. As part of the annual report on the performance of the Economic Development Program, the chancellor shall provide disaggregated data detailing the funding provided to each economic development regional center and each industry-driven regional education and training collaborative, and to the extent practicable, the total number of hours of contract education services, performance improvement training, credit and noncredit instruction, and job placements created as a result of each center and collaborative.
22. (a) The funds appropriated in Schedule (16) for the Transfer Education and Articulation Program are available to support transfer and articulation projects and common course numbering projects.

- (b) Funding provided to community college districts from Schedule (16) is provided to directly offset any mandated costs claimed by community college districts pursuant to Chapter 737 of the Statutes of 2004.

The funds provided for instructional equipment and library materials shall not be used for personal services costs or operating expenses. The chancellor shall allocate funds to districts on the basis of actual reported FTES and may establish a minimum allocation per district. These funds shall be used only for the purpose of community college child care and development programs.
27. With regard to the funds appropriated in Schedule (23), Nursing Program Support, all of the following shall apply:
 - (a) \$14,000,000 shall be used to provide support for nursing program enrollment and equipment needs consistent with paragraph (2) of subdivision (a) of Section 2 of Chapter 514 of the Statutes of 2001. Legislature which consider appropriations, and the Chairperson of the Joint Legislative Budget Committee, in writing within 30 days after notification by the federal government that federal funds have been reduced, and shall include an estimate of the amount of the available or anticipated federal funds, the 2007–08 fiscal year expenditures of each program affected by the reduction, the effect of reduced funding on service levels authorized by this act, and a plan of reduced expenditures for each program affected by the reduction. SEC. 9.30. In the event that federal courts issue writs of execution for the levy of state funds and such writs are executed, the State Controller shall so notify the Department of Finance. The Department of Finance shall then notify the State Controller of the specific appropriation or fund to be charged. Federal writs of execution for the levy of state funds may only be charged against appropriations or funds having a direct programmatic link to the circumstances under which the federal writ was issued. If the appropriate department or agency no longer exists, or no linkage can be identified, the federal writ shall be charged to the unappropriated surplus of the General Fund. In the event that an appropriation in the act would have insufficient funding by such a charge, funding augmentations must follow the regular budget processes.

For the purposes of this section, the criteria set forth in subdivision (a) shall apply to both single transactions and cumulative transactions that involve the purchase of properties near or adjacent to each other.

(c) For purchases and grants meeting the criteria set forth in subdivision (a), the state agency, department, board, or commission may take public actions and hold public meetings prior to 30 days following notification only if such actions are expressly approved pending the completion of the 30-day review by the Department of Finance and the Joint Legislative Budget Committee, or not sooner than whatever lesser time the

Upon receipt of bids for the project, an estimate of any amount necessary for the completion of the project, including supervision, engineering, and other items, if any, shall be deemed a valid encumbrance and shall be included with any other valid encumbrance in determining the amount of an unencumbered balance.

A department shall prepare and submit to the Department of Finance a business proposal containing the following elements: installed base analysis, future use (including assumptions for future use), the reason for choosing a statewide license agreement rather than any other procurement method such as a volume purchase agreement, a cost/benefit analysis, a cost allocation methodology, and funding plan. A statewide software license agreement may not be entered into or amended unless the approval of the Director of Finance is first obtained and written notification of that approval is provided by the department to the Chairperson of the Joint Legislative Budget Committee, and the chairpersons of the budget committees of each house of the Legislature, not less than 30 days prior to the effective date of the approval, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine. Each notification required by this section shall:

- (1) Explain the necessity and rationale for the proposed agreement.
- (2) Identify the cost savings, revenue increase, or other fiscal benefit of the proposed agreement.
- (3) Identify the funding source for the proposed agreement.

(b) For purposes of this section, "statewide software license agreement" means a software license contract that can be used by multiple state agencies subject to Article 2 (commencing with Section 13320) of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code except that this section shall not apply to the University of California, the California State University, the State Compensation Insurance Fund, the community college districts, agencies provided for by Article VI of the California Constitution, or the Legislature.

SEC. 12.32. (a) It is the intent of the Legislature that appropriations that are subject to Section 8 of Article XVI of the California Constitution be designated with the wording “Proposition 98.” In the event these appropriations are not so designated, they may be designated as such by the Department of Finance, where that designation is consistent with legislative intent, within 30 days after notification in writing of the proposed designation to the chairperson of the committee in each house of the Legislature that considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or within a lesser time that the chairperson of the joint committee, or his or her designee, determines.

SEC. 14.00. (a) Notwithstanding any other provision of law, if the Director of the Department of Consumer Affairs determines in writing that there is insufficient cash in a special fund under the authority of a board, commission, or bureau of the department to make one or more payments currently due and payable, the director may order the transfer of moneys to that special fund, in the amount necessary to make the payment or payments, as a loan from a special fund under the authority of another board, commission, or bureau of the department. That loan shall be subject to all of the following conditions:

(1) No loan from a special fund shall be made that would interfere with the carrying out of the object for which the special fund was created.

(2) The loan shall be repaid as soon as there is sufficient money in the recipient fund to repay the amount loaned, but no later than a date 18 months after the date of the loan. Interest on the loan shall be paid from the recipient fund at the rate accruing during the loan period to moneys in the Pooled Money Investment Account.

(3) The amount loaned shall not exceed the amount that the appropriate board, commission, or bureau is statutorily authorized at the time of the loan to expend during the 2007–08 fiscal year from the recipient fund.

To the extent that the amount of moneys currently in the clearing account is insufficient to make the payment or payments on behalf of that special fund, the department may transfer additional moneys to the clearing account from any other special fund under the authority of a board, commission, or bureau of the department to include in the loan. A loan made to a special fund under this subdivision shall be subject to all of the following conditions:

(A) The loan shall not be made if it would reduce the amount advanced to the clearing account from another special fund, or the amount contained in that special fund, as applicable, to an extent that would interfere with the carrying out of the object for which that special fund was created.

(B) The loan shall be repaid as soon as there is sufficient money in the recipient fund to repay the amount loaned, but no later than a date 60 days after the date of the loan.

(C) The amount loaned shall not exceed the amount that the appropriate board, commission, or bureau is statutorily authorized at the time of the loan to expend during the 2007–08 fiscal year from the recipient fund.

(2) For purposes of this subdivision, the “clearing account” in the Consumer Affairs Fund is the account established in that fund, consisting of moneys advanced from the various special funds within the department, from which the Department of Consumer Affairs pays operating and other expenses of each special fund in an amount ordinarily not exceeding the amount advanced from that special fund.

(c) The Director of the Department of Consumer Affairs shall provide a report by March 1, 2008, on all loans initiated or repayments made pursuant to subdivision (a) or (b) within the preceding fiscal year to the chairperson of the budget committee, and the chairperson of the appropriate legislative oversight committee, of each house of the Legislature.

(d) At least 10 days prior to initiating a loan to be made pursuant to subdivision (a) or (b), the Director of the Department of Consumer Affairs shall provide written notification to the Joint Legislative Budget Committee if either (1) any loan from any one fund exceeds \$200,000 or (2) the aggregate amount of loans from any one fund exceeds \$200,000.

(c) Within 30 days of making any adjustment pursuant to this section, the Department of Finance shall report the adjustment in writing to the Joint Legislative Budget Committee.

SEC. 24.00. For the 2007–08 fiscal year, the donations and oil and mineral revenues from federal lands that are deposited in the State School Fund shall be divided between Section A and Section B of the State School Fund, with 85 percent of these revenues to be credited to Section A of

the fund exclusively for regular apportionments for school districts serving pupils in kindergarten or any of grades 1 to 12, inclusive, and 15 percent to Section B of the fund exclusively for community college district regular apportionments. The amounts accruing to the State School Fund under this section shall be disbursed fully before any General Fund transfers to Section A or Section B of the State School Fund are disbursed for regular apportionments.

SEC. 24.03. Notwithstanding any other provision of law, funds appropriated by Section 2.00, Section 8.50, Section 28.00, Section 28.50, or any other provision of this act may not be expended for the support of any program, network, or material, with the exception of instruction to pupils who are identified as deaf or hearing impaired pursuant to 34 C.F.R. 300.8(c) paragraphs (3) and (5), that promotes or uses reading instruction methodologies that emphasize contextual clues in lieu of fluent decoding.

SEC. 24.10. (a) Notwithstanding Section 1464 of the Penal Code or Section 41304 of the Education Code, the first \$1,106,000 received by the Driver Training Penalty Assessment Fund for the 2007–08 fiscal year shall be available for the purposes of Item 6110-001-0178 of Section 2.00. The amount retained by the Driver Training Penalty Assessment Fund for the purposes of Item 6110-001-0178 may be adjusted by the Department of Finance for actions pursuant to any section of this act.

(b) After moneys are retained by the Driver Training Penalty Assessment Fund pursuant to subdivision (a), the Controller shall transfer any remaining balances as follows: \$4,121,000 to the Victim-Witness Assistance Fund; \$9,800,000 to the Corrections Training Fund; and \$14,000,000 to the Peace Officers' Training Fund. Any remaining unallocated moneys in the Driver Training Penalty Assessment Fund shall be transferred to the General Fund.

SEC. 24.55. (a) For purposes of this section, "state educational institutions" means the University of California (UC), the California State University (CSU), the California Community Colleges (CCC), and the State Department of Education (SDE), or their designees, as part of their participation on the Board of the Corporation for Education Network Initiatives in California (CENIC).

(b) To expend General Fund moneys, student fee revenue, or any other moneys for the California Research and Education Network (CalREN) or the K–12 High Speed Network (HSN), state educational institutions shall do all of the following:

(1) Ensure that each segment-specific contract includes a service level agreement between CENIC and each segment.

(2) Ensure that each segment-specific contract specifies that any interest earned on state moneys shall be used for operating CalREN on behalf of the UC, CSU, CCC, and K–12 segments. Any segment-specific cash re-serves held by CENIC shall be maintained separately and accrue interest to that segment.

(3) Ensure that each segment-specific contract protects state assets by requiring CENIC to track both segment-specific and shared assets purchased with state funds.

(4) Ensure that each segment-specific contract contains agreed-upon fee structures that specify services, associated fees, and payment terms.

(5) Ensure that each segment-specific contract contains appropriate protection of state intellectual property.

SEC. 24.60. Each state entity receiving lottery funds shall annually report to the Governor and the Legislature on or before May 15 the amount of lottery funds that the entity received and the purposes for which those funds were expended in the prior fiscal year, including administrative costs. The State Department of Education shall report on behalf of K–12 entities. If applicable, the entity shall also report the amount of lottery funds received on the basis of adult education average daily attendance (ADA) and the amount of lottery funds expended for adult education.

SEC. 24.70. From the funds appropriated to the State Department of Education for local assistance, the department shall ensure that the expenditure of funds allocated to a local educational agency (LEA), through a contract between the department and the LEA or through a grant from the department to the LEA, shall be subject to the LEA's fiscal accountability policies and procedures. If it is necessary for the LEA to establish a separate entity to complete the work scope of the contract or grant, the fiscal accountability policies and procedures for that entity shall be the same as those of the LEA, or amended only with the approval of both the superintendent of schools of the LEA and a fiscal representative of the department designated by the Superintendent of Public Instruction. Further, the department shall have the authority to provide for an audit of the expenditures under the contract or grant between the department and the LEA to verify conformance with appropriate fiscal accountability policies and procedures. The cost of the audit, if required, shall be charged to the audited contract or grant.

SEC. 25.25. Notwithstanding any other provision of law, a sum not to exceed \$14,644,000 is appropriated from various special and nongovernmental cost funds to the State Controller for payment of costs to support the replacement of the existing automated human resource/payroll systems known as the 21st Century Project. The Controller shall assess these funds in sufficient amounts to pay for the authorized 21st Century Project costs that are attributable to such funds pursuant to Government Code Section 12432. Assessments in support of the expenditures for the 21st Century Project shall be made quarterly and the total amount assessed from these funds in the 2007–08 fiscal year shall not exceed the total expenditures incurred by the State Controller for the 21st Century Project that are attributable to those funds in the 2007–08 fiscal year.

SEC. 25.50. Notwithstanding any other provision of law, an amount not to exceed \$861,000 is hereby appropriated from various funds to the

Controller, as specified below, for reimbursement of costs for the ongoing maintenance and support of the Apportionment Payment System:

0046 Public Transportation Account	\$ 18,000

0965 Timber Tax Fund	1,000
0969 Public Safety Account	254,000
Total, All Funds	\$861,000

The Controller shall assess these funds for the costs of the Apportionment Payment System because apportionment payments in excess of \$10,000,000 are made annually from these funds. Assessments in support of the expenditures for the Apportionment Payment System shall be made monthly, and the total amount assessed from these funds may not exceed the total expenditures incurred by the Controller for the Apportionment Payment System for the 2007–08 fiscal year.

SEC. 26.00. (a) It is the intent of the Legislature, in enacting this section, to provide flexibility for the administrative approval of intraschedule transfers within individual items of appropriation in those instances where the transfers are necessary for the efficient and cost-effective implementation of the programs, projects, and functions funded by this act. No transfer shall be authorized under this section to either eliminate any program, project, or function, except when implementation is found to be no longer feasible in light of changing circumstances or new information, or establish any new program, project, or function.

(b) The Director of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to which an appropriation is made by this act, authorize the augmentation of the amount available for expenditure in any schedule set forth for that appropriation, by making a transfer from any of the other designated programs, projects, or functions within the same schedule. No intraschedule transfer may be made under this section to fund any capital outlay purpose, regardless of whether budgeted in a capital outlay or a local assistance appropriation. Upon the conclusion of the 2007–08 fiscal year, the Director of Finance shall furnish the chairpersons of the committees in each house of the Legislature that consider appropriations and the State Budget, and the Chairperson of the Joint Legislative Budget Committee, with a report on all authorizations given pursuant to this section during that fiscal year.

(c) Intraschedule transfers of the amounts available for expenditure for a program, project, or function designated in any line of any schedule set forth for that appropriation by transfer from any of the other designated

programs, projects, or functions within the same schedule shall not exceed, during any fiscal year:

(1) 20 percent of the amount so scheduled on that line for those appropriations made by this act that are \$2,000,000 or less.

(2) \$400,000 of the amount so scheduled on that line for those appropriations made by this act that are more than \$2,000,000 but equal to or less than \$4,000,000.

(3) 10 percent of the amount so scheduled on that line for those appropriations made by this act that are more than \$4,000,000.

(4) The Department of Transportation Highway Program shall be limited to a schedule change of 10 percent.

(d) Any transfer in excess of \$200,000 may be authorized pursuant to this section not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house of the Legislature that consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine.

(e) Any transfer in excess of the limitations provided in subdivision (c) may be authorized not sooner than 30 days after notification in writing of the necessity to exceed the limitations is provided to the chairpersons of the committees in each house of the Legislature that consider appropriations and the Chairperson of the Joint Legislative Budget Committee or his or her designee, may in each instance determine.

SEC. 28.00. (a) It is the intent of the Legislature in enacting this section to provide flexibility for administrative approval of augmentations for the expenditure of unanticipated federal funds or other nonstate funds in cases that meet the criteria set forth in this section. However, this section does not provide an alternative budget process, and proposals for additional spending ordinarily should be considered in the annual State Budget or other state legislation. Specifically, augmentations for items which the administration had knowledge to include in its 2007–08 budget plan should not be submitted through the process provided by this section. Augmentations for items which can be deferred to 2008–09 should be included in the administration's 2008–09 budget proposals.

(b) The Director of Finance may authorize the augmentation of the amount available for expenditure for any program, project, or function in the schedule of any appropriation in this act or any additional program, project, or function equal to the amount of any additional, unanticipated funds that he or she estimates will be received by the state during the 2007–08 fiscal year from any agency of local government or the federal government, or from any other nonstate source, provided that the additional funding meets all of the following requirements:

(1) The funds will be expended for a purpose that is consistent with state law.

(2) The funds are made available to the state under conditions permitting their use only for a specified purpose, and the additional expenditure proposed under this section would apply to that specified funding purpose.

(3) Acceptance of the additional funding does not impose on the state any requirement to commit or expend new state funds for any program or purpose.

(4) The need exists to expend the additional funding during the 2007–08 fiscal year.

(c) In order to receive consideration for an augmentation, an agency shall either (1) notify the director within 45 days of receiving official notice of the availability of additional, unanticipated funds, or (2) explain in writing to the director why that notification was infeasible or impractical. In either case, the recipient agency shall provide the director a copy of the official notice of fund availability.

(d) The director also may reduce any program, project, or function whenever he or she determines that funds to be received will be less than the amount taken into consideration in the schedule.

(e) Any augmentation or reduction that exceeds either (1) \$400,000 or (2) 10 percent of the amount available for expenditure in the affected program, project, or function may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house of the Legislature that consider appropriations, the chairpersons of the committees, and the appropriate subcommittees, in each house of the Legislature that consider the State Budget, and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine. With regard to any proposed augmentation, the notification shall state the basis for the determination by the director that the augmentation meets each of the requirements set forth in subdivisions (b) and (c). This notification shall include the date that the recipient department received official notice of the additional funds, and a copy of the agency's written explanation if a 45-day notice was not provided to the director. This notification requirement does not apply to federal funds related to caseload increases in Medi-Cal, California Work Opportunity and Responsibility to Kids (CalWORKs), and Supplemental Security Income/State Supplementary Program (SSI/SSP).

(f) Any personnel action that is dependent on funds subject to this section shall not be effective until after the provisions of this section have been complied with. Any authorization made pursuant to this section shall remain in effect for the period the director may determine in each instance, but in no event after June 30, 2008.

SEC. 28.50. (a) Except as otherwise provided by law, an officer, department, division, bureau, or other agency of the state may expend for the 2007–08 fiscal year all moneys received as reimbursement from another officer, department, division, bureau, or other agency of the state that has not been taken into consideration by this act or any other statute,

upon the prior written approval of the Director of Finance. The Department of Finance may also reduce any reimbursement amount and related program, project, or function amount if funds received from another officer, department, division, bureau, or other agency of the state will be less than the amount taken into consideration in the schedule.

(b) For any expenditure of reimbursements or any transfer for the 2007–08 fiscal year that exceeds \$200,000, the Director of Finance shall provide notification in writing of any approval granted under this section, not less than 30 days prior to the effective date of that approval, to the chairpersons of the committees in each house of the Legislature that consider appropriations, the chairpersons of the committees and the appropriate subcommittees in each house of the Legislature that consider the State Budget, and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine. Increases to reimbursements are not reportable under this section if the funding for the other officer, department, division, bureau, or other agency of the state providing the reimbursement has already been approved by the Legislature. These adjustments are considered technical in nature and are authorized in Section 1.50.

SEC. 29.00. The Department of Finance shall calculate and publish a listing of total personnel-years and estimated salary savings for each department and agency. These listings shall be published by the Department of Finance at the same time as the publication of (a) the Governor's Budget, (b) the May Revision, and (c) the Final Change Book.

(a) The listing provided at the time of the publication of the Governor's Budget shall contain estimates of personnel-years for the prior year, current year, and budget year.

(b) The listing provided at the time of publication of the May Revision shall contain estimates of personnel-years proposed for the budget year.

(c) The listing provided at the time of the publication of the Final Change Book shall contain estimates of personnel-years for the fiscal year just enacted.

SEC. 30.00. Section 13340 of the Government Code is amended to read:

13340. (a) Except as provided in subdivision (b), on and after July 1, 2008, no moneys in any fund that, by any statute other than a Budget Act, are continuously appropriated without regard to fiscal years, may be encumbered unless the Legislature, by statute, specifies that the moneys in the fund are appropriated for encumbrance.

(b) Subdivision (a) does not apply to any of the following:

(1) The scheduled disbursement of any local sales and use tax proceeds to an entity of local government pursuant to Part 1.5 (commencing with Section 7200) of Division 2 of the Revenue and Taxation Code.

(2) The scheduled disbursement of any transactions and use tax proceeds to an entity of local government pursuant to Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code.

(3) The scheduled disbursement of any funds by a state or local agency or department that issues bonds and administers related programs for which funds are continuously appropriated as of June 30, 2008.

(4) Moneys that are deposited in proprietary or fiduciary funds of the California State University and that are continuously appropriated without regard to fiscal years.

(5) The scheduled disbursement of any motor vehicle license fee revenues to an entity of local government pursuant to the Vehicle License Fee Law (Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code).

SEC. 31.00. (a) The appropriations made by this act shall be subject, unless otherwise provided by law, to Section 13320 and Article 2.5 (commencing with Section 13332) of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code, requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

(b) The fiscal year budgets shall authorize, in the manner that the Department of Finance shall prescribe, all established positions whose continuance for the year is approved and all new positions. No new position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

(c) The Director of Finance, or his or her authorized designee, shall notify the Chairperson of the Joint Legislative Budget Committee within 30 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step per month of \$6,506 as of July 1, 2007.

(d) It is the intent of the Legislature that all positions administratively established pursuant to this section that are intended by the administration to be ongoing be submitted to the Legislature for approval through the regular budget process as soon as possible. All positions administratively established pursuant to this section during the 2007–08 fiscal year shall terminate on June 30, 2008, except for those positions that have been (1) approved by the Legislature as part of the regular budget process for the 2008–09 fiscal year as new positions, or (2) approved by the Department of Finance after the 2008–09 Governor’s Budget submission to the Legislature and subsequently reported to the Legislature prior to July 1, 2008. The positions identified in (2) above may be reestablished by the Department of Finance during the 2008–09 fiscal year, provided that these positions are shown in the Governor’s Budget for the 2009–10 fiscal year as submitted to the Legislature, and provided that these positions do not result in the reestablishment of positions deleted by the Legislature through the budget process for the 2008–09 fiscal year. The Department of Finance will notify the Legislature within 30 days of the reestablishment of positions approved in the 2008–09 fiscal year pursuant to (2) above.

(e) Moneys appropriated in the 2007–08 fiscal year may be expended for increases in salary ranges or any other employee compensation action only if appropriated for that purpose, or if the Department of Finance

certifies to the salary and other compensation-setting authority, prior to the adoption of the action, that funds are available to pay the increased salary or employee compensation resulting from the action. Prior to certification, the Department of Finance shall determine whether the increase in salary range or employee compensation action will require supplemental funding in the 2008–09 fiscal year. If the Department of Finance determines that supplemental funding will be required, the department may certify only if it notifies in writing, at least 30 days before, the chairpersons of the committees in each house of the Legislature that consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or a lesser time which the chairperson of the joint committee, or his or her designee, determines.

(f) A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the Controller that these expenditures comply with this section.

SEC. 32.00. (a) The officers of the various departments, boards, commissions, and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of these appropriations. Any indebtedness attempted to be created against the state in violation of this section shall be null and void, and shall not be allowed by the Controller nor paid out of any state appropriation.

(b) Any member of a department, board, commission, or institution who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act shall be liable both personally and on his or her official bond for the amount of the indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm, or corporation to which the indebtedness is owing. Notwithstanding the foregoing or any other provision of law, a person may not be held personally liable for the amount of any indebtedness created by an expenditure in excess of an appropriation made by this act if all of the following occur: (1) the expenditure is in response to increases in enrollment, population, or caseload by the State Department of Social Services, the Department of Corrections and Rehabilitation, the State Department of Developmental Services, the State Department of Mental Health, the State Department of Health Care Services, or the State Department of Public Health; (2) that expenditure is incurred no sooner than 30 days after the Director of Finance notifies in writing of the necessity therefor the Chairperson of the Joint Legislative Budget Committee; and (3) if the chairperson does not advise in response that the expenditure shall not occur. The director's notification shall include a certification of any amounts required by enrollment, population, or caseload, rather than management decisions or policy changes.

(c) Neither subdivision (a) nor (b) applies to the expenditure of moneys to fund continuous appropriations, including appropriations made in the

California Constitution, and federal laws mandating the expenditure of funds.

SEC. 33.00. If any item of appropriation in this act is vetoed, eliminated, or reduced by the Governor under Section 10 of Article IV of the California Constitution, while approving portions of this act, such veto, elimination, or reduction shall not affect the other portions of this act, and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act, and as if any reduced item of appropriation had not been reduced.

SEC. 34.00. If any portion of this act is held unconstitutional, that decision shall not affect the validity of any other portion of this act. The Legislature hereby declares that it would have passed this act, and each portion thereof, irrespective of the fact that any other portion be declared unconstitutional.

SEC. 35.50. (a) For purposes of paragraph (1) of subdivision (f) of Section 10, and subdivision (f) of Section 12, of Article IV of the California Constitution, "General Fund revenues" means the total resources available to the General Fund for a fiscal year before any transfer to the Budget Stabilization Account.

(b) For purposes of subdivision (f) of Section 12 of Article IV of the California Constitution, "all appropriations from the General Fund for that fiscal year" shall not include any transfer to the Budget Stabilization Account to retire Economic Recovery Bonds because that amount is reflected in the "amount of any General Fund moneys transferred to the Budget Stabilization Account."

(c) For purposes of subdivision (f) of Section 12 of Article IV of the California Constitution, the estimate of General Fund revenues for the 2007–08 fiscal year pursuant to this act, as passed by the Legislature, is \$106,689,100,000.

(d) For purposes of subdivision (b) of Section 20 of Article XVI of the California Constitution, General Fund revenues shall be defined as revenues and transfers before any transfer to the Budget Stabilization Account, excluding any proceeds from Economic Recovery Bonds, as estimated in the enacted State Budget.

SEC. 35.60. (a) Whenever the Director of Finance determines that there is a shortfall in the General Fund reserve, the Director shall order the transfer from the Budget Stabilization Account to the General Fund the amount determined by the Director of Finance to be sufficient to ensure there is a prudent General Fund reserve. Upon receipt of the order from the Director of Finance, the Controller shall make the transfer in the amount ordered.

(b) The Director of Finance shall notify the Chairperson of the Joint Legislative Budget Committee and the chairpersons of the committees of each house of the Legislature that consider appropriations not more than 15 days after ordering the transfer pursuant to this section.

SEC. 36.00. This act, inasmuch as it provides for appropriations for the usual and current expenses of the state, shall, under the provisions of Section 8 of Article IV of the California Constitution, take effect immediately.

SEC. 37.00. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act makes appropriations and contains related provisions for support of state and local government for the 2007–08 fiscal year and provides for capital outlay appropriations in continuance of existing programs and to promote and sustain the economy of the state. It is imperative that these appropriations be made available for expenditure not later than July 1, 2007. It is therefore necessary that this act go into immediate effect.

CHAPTER 172

An act to amend and supplement the Budget Act of 2007 by amending Items 0502-001-9730, 0510-001-0001, 0855-001-0367, 1111-003-0001, 1760-001-0001, 1760-001-0666, 2660-001-0042, 2665-001-0046, 2720-001-0044, 3790-001-0001, 3900-001-0044, 3900-001-0115, 3910-001-0387, 3940-001-0001, 3940-001-0193, 4200-101-0001, 4200-101-3019, 4200-105-0001, 4280-101-0001, 4280-111-0232, 4280-111-0233, 4280-112-0232, 4280-112-0233, 4440-011-0001, 4440-103-0001, 4440-115-0001, 5180-101-0001, 5180-101-0514, 5180-101-0890, 5180-111-0001, 5180-141-0001, 5180-141-0890, 5180-151-0001, 5180-403, 5225-101-0001, 6110-009-0001, 6110-111-0001, 6110-113-0001, 6110-188-0001, 6110-227-0001, 6110-485, 6110-495, 7100-001-0514, 7100-001-0870, 8860-001-0001, 8860-002-0001, and 9350-104-6065, of, by adding Items 0690-001-6061, 0690-001-6073, 0690-101-6061, 0690-101-6073, 2660-004-6072, 2660-104-6072, 2660-304-6072, 4280-111-0236, and 6110-111-0046 to, and by repealing Items 0690-001-6054, 0690-101-6054, 2660-004-6053, 2660-004-6056, 2660-004-6060, 2660-104-6053, 2660-104-6056, 2660-104-6060, 2660-304-6053, and 2660-304-6056 of, Section 2.00 of, and by amending Sections 4.05, 12.32, and 35.50 of, and by adding Sections 9.00, 11.15, 24.80, and 29.50 to, that act, relating to the State Budget, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 24, 2007. Filed with
Secretary of State August 24, 2007.]

I object to the following appropriations contained in Senate Bill 78.

Item 1760-001-0666—For support of Department of General Services. I revise this item by deleting Provision 10.

I delete Provision 10, which would require the Department of General Services to provide an implementation progress report on the Fleet Asset Management System.

This reporting requirement would result in an expenditure increase without regard to the availability of revenues. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, it will be addressed as though the request had been included in Supplemental Report language. Therefore, I am instructing that the Director of the Department of General Services comply with this legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the Department of General Services' ability to perform its essential functions.

Item 2660-001-0042—For support of Department of Transportation.

I am sustaining the Legislature's augmentation for capital outlay support. In the May Revision, reflecting the large increase of work to be done to implement Proposition 1B as well as Caltrans' work funded from other sources, I proposed additional funding necessary

to use contractual services for engineering, design, environmental studies, and other work needed to ready projects for construction. This was proposed in lieu of expanding state staff in order to speed up delivery of Proposition 1B projects.

The augmentation was based on 90 percent state staff and 10 percent contract staff. Because it will take a year or more to hire and train state staff, I am very concerned that this action will delay projects by a year or more and end up costing more than using contractual services because of salary costs incurred while training new state hires and the impact of inflation on construction costs while projects are delayed. Moreover, because the funding from Proposition 1B is one-time and will be exhausted over the next five years, the hiring of new permanent state staff could lead to the need for future layoffs. An appropriate balance between state staff and contract staff will enable the state to improve its highways, roads, bridges, and railroad crossings immediately. Therefore, I am directing the Director of the Department of Transportation to take all steps necessary to deliver these projects as quickly as possible, including an increased use of contractual services within the funding level the Legislature has provided.

Item 3790-001-0001—For support of Department of Parks and Recreation. I reduce this item from \$145,359,000 to \$130,359,000 by reducing:

(1) For support of the Department of Parks and Recreation from 383,495,000 to \$368,495,000.

I am vetoing \$15,000,000 General Fund on a one-time basis for maintenance at state parks. The Department of Parks and Recreation's existing maintenance budget is approximately \$67,000,000, and a one-time augmentation of \$90,000,000 was provided in 2006-07 to address deferred maintenance needs. Furthermore, Proposition 84 provides \$400,000,000 for the development and rehabilitation of state parks, including deferred maintenance. For these reasons, and in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year, I believe a one-time reduction can be made without a significant impact on the department's ability to perform its essential functions in 2007-08.

Item 3900-001-0044—For support of State Air Resources Board. I reduce this item from \$94,533,000 to \$93,875,000 by reducing:

(1) 15-Mobile Source from \$696,312,000 to \$675,188,000;

(2) 25-Stationary Source from \$53,845,000 to \$53,345,000;

(7) Amount payable from the Air Pollution Control Fund (Item 3900-001-0115) from -\$174,541,000 to -\$154,541,000;

and by deleting:

(9.5) Amount payable from the Energy Resources Programs Account (Item 3900-001-0465) (-\$966,000).

I am reducing Schedule 1 to eliminate the legislative augmentation of \$658,000 and 6.7 positions for additional diesel enforcement efforts. In the past three budgets, I have included additional staff for diesel enforcement every year. In 2005-06, I added 15.3 positions, in 2006-07, I added 5.8 positions, and in the 2007-08 Governor's Budget, I included 6.7 more positions. The Legislature concurred in all of these augmentations, but added 6.7 additional positions this year for reasons which have not been explained. While I recognize that diesel

enforcement is important, these augmentations are all funded by the Motor Vehicle Account, which is facing significant fiscal pressures for other high-priority expenditures. In light of this, and the lack of workload justification for the 6.7 position legislative augmentation, it is necessary to make this reduction in order to preserve Motor Vehicle Account funds for other critical needs.

I am also revising this item to conform to the actions I have taken in Items 3900-001-0115 and 3900-001-0465.

Item 3900-001-0115—For support of State Air Resources Board. I reduce this item from \$174,541,000 to \$154,541,000.

I am deleting the \$20,000,000 legislative augmentation for construction equipment grants that would be funded by increasing vehicle-related fees charged to the citizens of California. This proposal would carve out one industry, construction, for a state subsidy to comply with proposed air quality regulatory requirements. This focus on a single industry is inconsistent with the Air Board's overall approach to regulating air quality.

I am sustaining the \$1,000,000 fund shift from General Fund to the Air Pollution Control Fund (APCF) for legal defense costs associated with Chapter 200, Statutes of 2002 and associated provisional language. I note, however, that the resources expected to be available in the APCF are quite limited. Consequently, should the legal defense costs exceed the \$1,000,000 provided in this item, the Air Board will likely request General Fund deficiency funding rather than additional resources from the APCF.

Item 3940-001-0001—For support of State Water Resources Control Board. I reduce this item from \$39,344,000 to \$39,102,000 by reducing:

- (1) 10-Water Quality from \$463,986,400 to \$459,499,400, and
- (5) Reimbursements from -\$14,244,000 to -\$9,999,000.

I am eliminating a legislative augmentation of \$242,000 and 2.0 positions to accelerate the development of Total Maximum Daily Load standards (TMDLs) in the North Coast Regional Water Board. I support the expeditious implementation of TMDLs throughout the state. However, I believe this can be accomplished within existing resources. In addition, this reduction is necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year. With this reduction, \$1,100,000 still remains to support the development of North Coast Regional Water Board TMDLs.

I am also eliminating a legislative augmentation of \$4,245,000 in reimbursement authority for water basin planning. My budget proposed funding water basin planning from Chapter 9 of Proposition 84. The Legislature shifted this funding to reimbursements, to be provided by the Department of Water Resources from funds made available by Chapter 4 of Proposition 84. However, notwithstanding the merits of this program, it is not appropriately funded from Chapter 4 of Proposition 84, which requires the funding to be used for statewide, rather than basin-specific, water planning activities. With this reduction, \$6,600,000 still remains to support water basin planning.

Item 4280-101-0001—For local assistance of the Managed Risk Medical Insurance Board. I reduce this item from \$373,832,000 to \$372,429,000 by reducing:

- (2) 40-Healthy Families Program from \$1,032,841,000 to \$1,028,942,000, and
- (3) Amount payable from the Federal Trust Fund (Item 4280-101-0890) from

-\$732,337,000 to -\$729,841,000.

I am deleting \$3,899,000 (\$1,403,000 General Fund and \$2,496,000 Federal Trust Fund) to conform to the action I have taken in Item 4280-001-0001, related to the delayed implementation of SB 437 (Chapter 328, Statutes of 2006).

Item 5180-101-0001—For local assistance, Department of Social Services. I reduce this item from \$2,210,356,000 to \$2,207,412,000 by reducing:

(2) 16.65-Other Assistance Payments from \$1,324,322,000 to \$1,321,378,000.

I am reducing by \$2,944,000 the augmentation I included in the May Revision to fund local food banks and Foodlink to provide relief to Californians from the effects of last winter's severe weather conditions. This reduction in funding is possible due to a decrease in the number of disaster victims being served and a reduced timeframe that these victims will require services. This action will in no way affect the services being provided to victims of the freeze disaster.

Item 5180-141-0001—For local assistance, Department of Social Services. I reduce this item from \$437,764,000 to \$432,941,000 by reducing:

(1) 16.75-County Administration and Automation Projects from \$1,085,916,000 to \$1,073,349,000;

(2) Reimbursements from -\$57,871,000 to -\$54,951,000; and

(3) Amount payable from the Federal Trust Fund (Item 5180-141-0890) from -\$590,281,000 to -\$585,457,000.

I am deleting the legislative augmentation of \$12,567,000 (\$4,823,000 General Fund, \$2,920,000 Reimbursements, and \$4,824,000 Federal Trust Fund) for workstation replacement and help desk support of the Statewide Automated Welfare System, including the CalWORKs Information Network. Although I understand that workstations need to be replaced on a regular basis, this reduction is needed to build a prudent reserve. In addition, I believe this cost may be paid from funds provided for general county administration.

I am also reducing \$2,130,000 in Item 4260-101-0001 and \$2,130,000 in Item 4260-101-0890 to conform to this action.

Item 5180-141-0890—For local assistance, Department of Social Services. I reduce this item from \$590,281,000 to \$585,457,000 and delete Provision 2.

I am reducing this item to conform to the action I have taken in Item 5180-141-0001 related to workstation replacement and help desk support.

Item 5180-151-0001—For local assistance, Department of Social Services. I reduce this item from \$756,589,000 to \$739,528,000 by reducing:

(1) 25.30-Children and Adult Services and Licensing from \$2,077,314,000 to \$2,056,169,000;

(3) Reimbursements from -\$115,875,000 to -\$115,707,000; and

(6) Amount payable from the Federal Trust Fund (Item 5180-151-0890) from -\$1,222,557,000 to -\$1,218,641,000.

In order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year, I am deleting the legislative augmentation of \$12,000,000 General Fund for the Adult Protective Services program. This veto maintains funding for the program at the level proposed in the May Revision.

I am deleting the legislative augmentation of \$5,135,000 (\$2,467,000 General Fund, \$168,000 Reimbursements, and \$2,500,000 Federal Trust Fund) for workstation replacement of the Child Welfare Services/Case Management System. Although I understand that workstations need to be replaced on a regular basis, this reduction is needed to build a prudent reserve. I am reducing Item 0530-001-9732 by \$5,135,000 to conform to this action.

I am reducing this item by \$4,010,000 (\$2,594,000 General Fund and \$1,416,000 Federal Trust Fund) on a one-time basis. This funding would have provided resources to counties for sibling searches in the Adoptions Program and to help prevent foster youth identity theft, pursuant to legislation enacted in the 2006-07 fiscal year. I am suspending implementation of these programs by one year to further build a prudent reserve and I am directing the Department of Social Services to notify counties that these activities should be suspended during this fiscal year.

Item 5225-101-0001—For local assistance, California Department of Corrections and Rehabilitation. I reduce this item from \$336,791,000 to \$321,891,000 by deleting:

- (8) 60.01-County Juvenile Justice Planning Grants (\$4,900,000);
 - (9) 60.02-County Juvenile Justice Competitive Grants (\$10,000,000);
- and Provision 10.

I am deleting the \$4,900,000 legislative augmentation, which was intended to provide one-time grants to all counties to plan for changes in state law governing county custody and rehabilitative services for youthful offenders whose offenses are not listed in Welfare and Institutions Code Section 707(b). I am also deleting the \$10,000,000 legislative augmentation, which was intended to provide one-time competitive grants to counties for additional planning and development efforts related to the juvenile offender population that will now be housed locally. These reductions are necessary in order to further build a prudent reserve in light of the various uncertainties in revenues and spending that we face this year.

I am deleting Provision 10 to conform to this action.

Item 7100-001-0870—For support of Employment Development Department. I revise this item by reducing:

- (1) 10-Employment and Employment Related Services from \$180,125,000 to \$168,065,000, and
- (10) Amount payable from the Employment Development Contingent Fund (Item 7100-001-0185) from -\$79,495,000 to -\$67,435,000.

I am revising this item to conform to the action I have taken in Item 7100-001-0185.

Item SEC. 29.50—2008-09 State Operations and Capital Outlay Budget Restrictions. I delete this Control Section.

This Control Section provides legislative intent language to assist me in preparing the 2008-09 Budget that I will propose. The intent language directs the Department of Finance not to include funding in the Budget for various issues that evidently are low priorities for the Legislature. While controlling expenditures is a worthy and laudable goal every year, I do not think it is appropriate to predetermine funding decisions now, and I will propose a Budget that reflects my spending priorities within available fiscal resources. I believe it is important that the full and deliberative process take place for each and every program.

California taxpayers expect that we all do our job completely each year, and I would miss an opportunity to continue discussions on these important issues with my legislative friends next year; therefore, I am deleting this control section.

With the above deletions, revisions, and reductions, I hereby approve Senate Bill 78.

Schwarzenegger, Arnold

The people of the State of California do enact as follows:

SECTION 1. Item 0502-001-9730 of Section 2.00 of the Budget Act of 2007 is amended to read:

Provisions:

1. Notwithstanding any other provision of law, revenues from the sale of legislative bills and publications received by the Legislative Bill Room shall be deposited in the Service Revolving Fund.
2. Notwithstanding any other provision of law, if the Director of General Services determines in writing that there is insufficient cash in a special fund under his or her authority to make one or more payments currently due and payable, he or she may order the transfer of moneys to that special fund in the amount necessary to make payment or payments, as a loan from the Service Revolving Fund. That loan shall be subject to all of the following conditions:
 - (a) No loan shall be made that would interfere with the carrying out of the object for which the Service Revolving Fund was created.
 - (b) The loan shall be repaid as soon as there are sufficient moneys in the recipient fund to repay the amount loaned, but no later than 18 months after the date of the loan. The amount loaned shall not exceed the amount that the fund or program is authorized at the time of the loan to expend during the 2007–08 fiscal year from the recipient fund except as otherwise provided in Provisions 4, 5, and 6.
 - (c) The terms and conditions of the loan are approved, prior to the transfer of funds, by the Department of Finance pursuant to appropriate fiscal standards.
3. The Director of General Services may augment this item or any of Items 1760-001-0002, 1760-001-0003, 1760-001-0026, and 1760-001-0602, by up to an aggregate of 10 percent in cases where (a) the Legislature has approved funds for a customer for the purchase of services or equipment through the Department of General Services (DGS) and the corresponding expenditure authority has not been provided in this item or (b) a local government entity or the federal government has requested services from the DGS. Any augmentation that is deemed to be necessary on a permanent basis shall be submitted for review as part of the normal budget development process. If the Director of

General Services augments this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602, the DGS shall notify the Department of Finance within 30 days after that augmentation is made as to the amount, justification, and the program augmented. Any augmentation made in accordance with this provision shall not result in an increase in any rate charged to other departments for services or the purchase of goods without the prior written consent of the Department of Finance. The Director of General Services shall not use this provision to augment this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602 for costs that the Department of General Services had knowledge of in time to include in the May Revision.

4. If this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602 is augmented pursuant to Provision 3 by the maximum allowed under that provision, the Director of Finance may further augment the item or items in cases where (a) the Legislature has approved funds for a customer for the purchase of services or equipment through the Department of General Services (DGS) and the corresponding expenditure authority has not been provided in these items, or (b) a local government entity or the federal government has requested services from the DGS. Any augmentation that is deemed to be necessary on a permanent basis shall be submitted for review as part of the normal budget development process. The Director of Finance shall not use this provision to augment this item or Item 1760-001-0002, 1760-001-0003, 1760-001-0026, or 1760-001-0602 for costs that the Departments of Finance or General Services had knowledge of in time to include in the May Revision.
5. The Director of General Services may augment this item and Items 1760-001-0026 and 1760-001-0003 to increase authorized expenditures by the Office of State Publishing, the Office of Risk and Insurance Management, the Office of Fleet Administration, the Office of Energy Management, and the Office of Public Safety Radio Services. The augmentation shall be for the specific purpose of enabling the Office of State Publishing, the Office of Risk and Insurance Manage-

ment, the Office of Fleet Administration, the Energy Services Program, and the Office of Public Safety Radio Services to provide competitive services to their customers (including local government entities or the federal government) and may be made only if the office has sufficient operating reserves available to fund the augmentation. If the Director of General Services proposes to augment either of the items in this provision, the director shall notify the Department of Finance, the chairpersons of the fiscal committees of each house of the Legislature, and the Chairperson of the Joint Legislative Budget Committee 30 days prior to making the augmentation, including the amount, justification, and the office augmented. Any augmentation that is deemed to be necessary on a permanent basis shall be submitted for review as part of the normal budget development process.

6. Any augmentation made pursuant to Provisions 3 and 4 shall be reported in writing to the chairpersons of the fiscal committees of each house of the Legislature and the Chairperson of the Joint Legislative Budget Committee within 30 days of the date the augmentation is approved. This notification shall be provided in a format consistent with normal budget change requests, including identification of the amount of, and justification for, the augmentation, and the program that has been augmented. Copies of the notification shall be provided to the Department of Finance.
7. Notwithstanding any other provision of law, the Director of General Services or his or her designee, in lieu of the Director of Finance, is authorized to approve Budget Revision, Standard Form 26, subject to a copy being provided to the Department of Finance.
8. Notwithstanding any other provision of law, due to the inability to issue energy efficiency revenue bonds pursuant to Chapter 2.7 (commencing with Section 15814.10) of Part 10b of Division 3 of Title 2 of the Government Code, in order to repay the General Fund for the cost of completing energy efficiency projects on specified buildings, the Department of General Services shall, within 10 fiscal years, recover an amount sufficient to repay the costs associated with completed energy efficiency projects plus 5 percent

interest, through utility rates charged to tenants. On August 1 of each fiscal year beginning with the 2005–06 fiscal year, the Department of General Services shall transfer that amount to the General Fund. Once the General Fund has been fully repaid, the Department of General Services shall adjust utility rates for all tenants to accurately reflect the current rates.

9. The Director of Finance is authorized to increase this item for purposes of funding tenant improvement projects to facilitate the backfill of vacant space within stand-alone Department of General Services (DGS) bond funded office buildings. This provision shall only be used to augment expenditure authority for DGS stand-alone individual rate office buildings where a \$0.03 tenant improvement surcharge has been approved by the Department of Finance and is included in the monthly rental rate. Department of Finance approval is contingent upon justification for the proposed tenant improvement projects to be provided by the DGS including an analysis of cost impacts and how the tenant improvements will improve the state's utilization of the facility. Any augmentation made in accordance with this provision shall not result in an increase in any rate charged to other departments for services without the prior written consent of the Department of Finance. Any augmentation made pursuant to this provision may be authorized not sooner than 30 days after notification in writing to the chairpersons of the fiscal committees of each house of the Legislature and the Chairperson of the Joint Legislative Budget Committee.
10. The Department of General Services shall provide an implementation progress report to the Department of Finance and the appropriate fiscal committees of the Legislature on April 1, 2009, and on April 1, 2010, to provide the status of the following areas: (a) progress on meeting statewide fleet utilization targets, (b) disposal of vehicles not meeting minimum utilization standards, (c) trend of statewide fleet size, (d) trend of statewide fleet average fuel efficiency, (e) timeframes associated with producing standard and ad hoc reports, and (f) savings and cost avoidances achieved

to date and potential for additional savings and cost avoidances.

This item may not be augmented earlier than 30 days, or a lesser amount of time as determined by the Chairperson of the Joint Legislative Budget Committee or his or her designee, after written notification of the necessity for augmentation to the chairperson of the committee in each house of the Legislature that considers appropriations and the Chairperson of the Joint Legislative Budget Committee.

becomes effective. In making the determination as to availability of funds to meet the expenditures of a rule, regulation, or all-county letter that would increase the costs of a program, the Department of Finance shall consider the amount of the proposed increase on an annualized basis, the effect the change would have on the expenditure limitations for the program set forth in this act, the extent to which the rule, regulation, or all-county letter constitutes a deviation from the premises under which the expenditure limitations were prepared, and any additional factors relating to the fiscal integrity of the program or the state's fiscal situation.

- (b) Notwithstanding Sections 28.00 and 28.50, the availability of funds contained in this item for rules, regulations, or all-county letters that add to program costs funded from the General Fund in excess of \$500,000 on an annual basis, including those that are the result of a federal regulation but excluding those that are (1) specifically required as a result of the enactment of a federal or state law or (2) included in the appropriation made by this act, shall not be approved by the Department of Finance sooner than 30 days after notification in writing to the chairpersons of the committees in each house of the Legislature that consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or such lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

SEC. 65. Item 8860-002-0001 of Section 2.00 of the Budget Act of 2007 is amended to read:

Provisions:	

- 1. The Department of Finance shall submit to the Legislature, no later than April 1, 2008, an approved Special Project Report for the Financial Information System for California (Project #8860-30). The department shall amend the contract to reflect the requirements of this provision and shall consult with the bureau in making that amendment, and the bureau shall approve the contents of the amendment prior to its execution. The contract shall be amended prior to any vendor payment from any amounts appropriated in this item to fund the contract. For purposes of this provision, "transfer the contract administration authority" means that the bureau's authority under the contract shall include, but not necessarily be limited to, the following:
 - (a) Receiving and approving for payment by the department, all invoices for payment under the contract.
 - (b) Directly receiving from the contractor any reports or other products produced under the contract,

without any modification to those reports or products by the department.

- (c) Receiving notice of any and all meetings held under the contract so that the bureau may attend those meetings.
- (d) Receiving communications made under the contract.

Nothing in this provision shall supersede or compromise the Office of Technology Review, Oversight, and Security’s project oversight authority and responsibilities with respect to the FISCal project.

- 4. A communication plan between oversight entities and contractors shall be developed and presented to the Legislature concurrent with the Special Project Report.

SEC. 66. Item 9350-104-6065 of Section 2.00 of the Budget Act of 2007 is amended to read:

9350-104-6065—Local assistance-shared revenues for support of Local Streets and Road Improvement, Congestion Relief and Traffic Safety Account of 2006, Highway Safety, Traffic Reduction, Air Quality, and Port Security Fund of 2006..... 600,000,000

Provisions:

- 1. These funds shall be available for allocation by the Controller until June 30, 2010.

SEC. 67. Section 4.05 of the Budget Act of 2007 is amended to read:

Sec. 4.05. (a) The Director of Finance, in consultation with agency secretaries and other cabinet members, shall reduce General Fund appropriations in the 2007–08 fiscal year by a total of \$100,297,000 on a one-time basis. Each agency secretary shall recommend to the Director of Finance amounts to be reduced from the appropriations to departments within the agency. The Director of Finance may provide the agency secretaries with target reduction amounts, in which case the agency secretaries shall provide the Director of Finance with a list of recommended reductions that is no less than the target amount for that agency. For departments not reporting to an agency secretary, the Director of Finance shall determine the amount of the reductions.

(b) The Director of Finance shall not reduce, pursuant to subdivision (a), the amounts appropriated for the following: higher education; the judicial branch; the Legislature; the Legislative Counsel Bureau; constitutional officers; debt service, including, but not limited to, tobacco

settlement revenue shortfall, payment of interest on General Fund loans, and interest payments to the federal government; health and dental benefits for annuitants; equity claims before the California Victim Compensation and Government Claims Board; or augmentations for contingencies or emergencies, unless the savings identified would not negatively impact program needs as provided for in this act or current law, and provided that the affected entity or the state official responsible for that expenditure concurs with the reduction.

(c) General Fund savings from appropriations other than those in the 2007–08 fiscal year may be credited towards the overall savings in subdivision (a). Savings from funds other than the General Fund that would otherwise revert to the General Fund in the 2007–08 fiscal year may also be credited towards the total savings specified in subdivision (a).

(d) Nothing within this section shall be construed to confer any authority upon the Director of Finance to modify or eliminate any other provision of existing law.

(e) Not later than February 15, 2008, the Director of Finance shall report to the Chairperson of the Joint Legislative Budget Committee and the chairpersons of the committees of each house of the Legislature that consider appropriations the amount of reductions made in each item of appropriation pursuant to this section. The report shall include the following: each specific reduction by department, agency, and program; whether the reduction is one time or ongoing; a description of programmatic effects; the number and description of positions affected; and any other description necessary to fully disclose the reduction's impact.

(f) A state operations appropriation, and a program, project, or function designated in any line of any schedule set forth by that appropriation, may not be reduced pursuant to subdivision (a) by more than 20 percent. A local assistance appropriation, and a program, project, or function designated in any line of any schedule set forth by that appropriation, may not be reduced pursuant to subdivision (a) by more than 5 percent.

SEC. 68. Section 9.00 is added to the Budget Act of 2007, to read:

Sec. 9.00. Notwithstanding any other provision of law, the Director of Finance may reduce the appropriation in Schedule (14) of Item 6110-485 in order to ensure adequate funds in the Proposition 98 Reversion Account in the event the transfer from the Proposition 98 Reversion Account to the School Facilities Emergency Repair Account described in Schedule (13) of Item 6110-485 is required.

If the Director of Finance reduces the amount in Schedule (14) of Item 6110-485 to ensure adequate funding in the School Facilities Emergency Repair Account, the director shall adjust Item 6110-111-0046 upward

by an equal amount to ensure that funding for the Home-to-School transportation program is consistent with the total amount appropriated for the program by this act.

SEC. 69. Section 11.15 is added to the Budget Act of 2007, to read:

Sec. 11.15. Notwithstanding any other provision of law, whenever a reference is made to the Department of Finance or the Office of the State Chief Information Officer related to review, approval, or legislative notification for information technology projects, the following shall apply:

(a) From the period July 1, 2007, to December 31, 2007, inclusive, references to either of the above organizations related to information technology projects shall require approval or notification or both by the Department of Finance.

(b) From the period January 1, 2008, to June 30, 2008, inclusive, references to either of the above organizations related to information technology projects shall require approval or notification or both by the Office of the State Chief Information Officer.

This section does not apply to Sections 11.00 and 11.10.

SEC. 70. Section 12.32 of the Budget Act of 2007 is amended to read:

Sec. 12.32. (a) It is the intent of the Legislature that appropriations that are subject to Section 8 of Article XVI of the California Constitution be designated with the wording "Proposition 98." In the event these appropriations are not so designated, they may be designated as such by the Department of Finance, where that designation is consistent with legislative intent, within 30 days after notification in writing of the proposed designation to the chairperson of the committee in each house of the Legislature that considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or within a lesser time that the chairperson of the joint committee, or his or her designee, determines.

(b) Pursuant to the Proposition 98 funding requirements established in Chapter 2 (commencing with Section 41200) of Part 24 of the Education Code, the total appropriations for Proposition 98 for the 2007–08 fiscal year are \$41,492,504,000 or 42.2 percent of total General Fund revenues and transfers subject to the state appropriations limit. General Fund revenues appropriated for school districts are \$37,202,628,000 or 37.8 percent of total General Fund revenues and transfers subject to the state appropriations limit. General Fund revenues appropriated for community college districts are \$4,170,624,000 or 4.2 percent of total General Fund revenues and transfers subject to the state appropriations limit. General Fund revenues appropriated for other state agencies that provide direct elementary and secondary level education, as defined in Section 41302.5 of the Education Code, are \$119,252,000

or 0.1 percent of total General Fund revenues and transfers subject to the state appropriations limit.

SEC. 71. Section 24.80 is added to the Budget Act of 2007, to read:

Sec. 24.80. (a) Notwithstanding any other provision of law, the Director of Finance is authorized to reimburse four hundred nine million dollars (\$409,000,000) in General Fund expenditures for the purposes of offsetting the cost of debt service payments made in prior fiscal years for public transportation related general obligation bond expenditures in the 2007–08 fiscal year from the Public Transportation Account. The total reimbursement shall not reduce the balance in the Public Transportation Account below a prudent reserve as determined by the Director of Finance.

(b) This reimbursement will result in overall General Fund savings. It is not the intent of the Legislature in enacting this section to provide additional expenditure authority to state programs.

(c) Funds provided from the Public Transportation Account for this purpose are derived from the sales tax on fuels and are dedicated to mass transportation purposes pursuant to Section 99310.5 of the Public Utilities Code. The Legislature hereby finds that funding debt service on bonds benefiting public transportation is a component of the state's mass transportation program.

(d) Under the provisions of Article XIXB as amended by Proposition 1A in the November 7, 2006, statewide general election, funds from sales taxes on fuels that are placed in the General Fund must be then allocated to the Transportation Investment Fund and distributed in conformance to the provisions of Proposition 42 that are applicable to that year. If the provisions of Proposition 42 are suspended in the future, Proposition 1A provides that any proceeds from sales taxes on fuels that are placed in the General Fund must be repaid in three years and limits future suspensions. Thus any funds from sales taxes on fuels can no longer be retained in the General Fund and thus cannot practically become revenues that affect the calculation of the Proposition 98 guarantee.

(e) Because there were no revenues from the sales tax on fuel deposited in the General Fund in the 1986–87 fiscal year, the calculation of the first year of funding guaranteed to schools under Proposition 98 is not affected by this revenue source.

(f) The Legislature finds therefore that the operation of this section does not reduce the amount of funds allocable to schools under Article XVI of the California Constitution.

SEC. 72. Section 29.50 is added to the Budget Act of 2007, to read:

Sec. 29.50. It is the intent of the Legislature that, in assisting the Governor in preparing the State Budget for the 2008–09 fiscal year, the

Department of Finance not include any proposed funding for any of the following: (a) discretionary price adjustments to state, University of California, or California University operations, and (b) General Fund capital outlay, beyond the minimal amount of fifty million dollars (\$50,000,000) for emergencies and contingencies.

SEC. 73. Section 35.50 of the Budget Act of 2007 is amended to read:

Sec. 35.50. (a) For purposes of paragraph (1) of subdivision (f) of Section 10, and subdivision (f) of Section 12, of Article IV of the California Constitution, "General Fund revenues" means the total resources available to the General Fund for a fiscal year before any transfer to the Budget Stabilization Account.

(b) For purposes of subdivision (f) of Section 12 of Article IV of the California Constitution, "all appropriations from the General Fund for that fiscal year" shall not include any transfer to the Budget Stabilization Account to retire Economic Recovery Bonds because that amount is reflected in the "amount of any General Fund moneys transferred to the Budget Stabilization Account."

(c) For purposes of subdivision (f) of Section 12 of Article IV of the California Constitution, the estimate of General Fund revenues for the 2007–08 fiscal year pursuant to this act, as passed by the Legislature, is \$106,764,100,000.

(d) For purposes of subdivision (b) of Section 20 of Article XVI of the California Constitution, General Fund revenues shall be defined as revenues and transfers before any transfer to the Budget Stabilization Account, excluding any proceeds from Economic Recovery Bonds, as estimated in the enacted State Budget.

SEC. 74. Sections 1 to 73, inclusive, of this act shall become operative only if the Budget Act of 2007, Senate Bill 77, as proposed by Conference Report No. 1 on July 9, 2007, is enacted and becomes effective on or before January 1, 2008.

SEC. 75. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act makes appropriations for the support of the government of the State of California and for several public purposes for the 2007–08 fiscal year. It is imperative that these appropriations be made effective as soon as possible. It is therefore necessary that this act go into immediate effect.

CHAPTER 173

An act to add Chapter 9 (commencing with Section 16965) to Part 3 of Division 4 of Title 2 of the Government Code, to amend Section 99312 of, and to add Section 99655 to, the Public Utilities Code, to amend Sections 7102, 7105, and 7106 of, and to add Section 7103 to, the Revenue and Taxation Code, to amend Section 2106 of the Streets and Highways Code, to amend Sections 21101.4 and 34501.12 of the Vehicle Code, and to repeal Section 59 of Chapter 861 of the Statutes of 2000, relating to transportation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 24, 2007. Filed with
Secretary of State August 24, 2007.]

To the Members of the California State Senate:

I am signing Senate Bill 79 with the following objections:

I am eliminating the two hundred million dollar (\$200,000,000) appropriation for transfer from the Transportation Debt Service Fund to the General Fund in paragraph (2) of subdivision (b) of Section 16965 of the Government Code as added by this bill in Section 1. The language making this appropriation is technically deficient and does not conform to what I believe was Legislative intent and may not achieve the intended fiscal result. I am setting aside these funds for appropriation in subsequent legislation to achieve the intended purpose of offsetting General Fund debt service costs for public transportation-related bonds.

I am eliminating the eighty-two million six hundred seventy-eight thousand dollar (\$82,678,000) appropriation for transfer from the Mass Transportation Fund to the General Fund in subdivision (b) of Section 7103 of the Revenue and Taxation Code as added by this bill in Section 5. The language making this appropriation is technically deficient and does not conform to what I believe was Legislative intent and may not achieve the intended fiscal result. I am setting aside these funds for appropriation in subsequent legislation to achieve the intended purpose of offsetting General Fund debt service costs for public transportation-related bonds.

I am also reducing the appropriation in paragraph (1) of subdivision (d) Section 99312 of the Public Utilities Code, as amended in Section 2 of this bill, from two hundred million dollars (\$200,000,000) to one hundred million dollars (\$100,000,000) and modifying the language in the paragraph accordingly as follows:

“SEC. 2. Section 99312 of the Public Utilities Code is amended to read:

99312. From the funds transferred to the account pursuant to Section 7102 of the Revenue and Taxation Code, the Legislature shall appropriate funds for the following purposes:

(a) To the department, 50 percent for purposes of Section 99315.

(b) To the Controller, 25 percent for allocation to transportation planning agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board pursuant to Section 99314.

(c) To the Controller, 25 percent for allocation to transportation agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board for purposes of Section 99313.

(d) *For the 2007–08 fiscal year, notwithstanding any other provision of this section, or any other provision of law, the allocations made pursuant to this section shall be adjusted as follows:*

(1) *From the funds transferred to the account pursuant to paragraph (1) of subdivision (a) of Section 7102 of the Revenue and Taxation Code, ~~one hundred fifty million dollars (\$100,000,000)~~ (\$50,000,000) shall be allocated pursuant to subdivision (b); ~~one hundred fifty million dollars (\$100,000,000)~~ (\$50,000,000) shall be allocated pursuant to subdivision (c); and the remainder of revenue shall remain in the Public Transportation Account to fund other state public transportation priorities. The Controller shall make these allocations in four equal quarterly amounts of ~~twenty-five~~ twelve and one-half million dollars ~~(\$25,000,000)~~ (\$12,500,000), as achievable by the receipt of the specified revenue.*

(2) *The amount appropriated in Item 2640-101-0046 of the Budget Act of 2006 for state transit assistance pursuant to subdivision (b) and (c) was greater than the amount of revenues received to support state transit assistance pursuant to Section 7102 of the Revenue and Taxation Code. Therefore, notwithstanding any other provision of law, the amount that would have otherwise been available for appropriation to state transit assistance in the 2007–08 fiscal year pursuant to paragraphs (2) and (3) of subdivision (a) of Section 7102 of the Revenue and Taxation Code, shall be reduced by the excess amount that was appropriated to state transit assistance in the Budget Act of 2006, and that excess amount, as determined by the Department of Finance, shall instead remain in the Public Transportation Account to fund other state public transportation priorities. The Controller shall attempt to spread this adjustment equally over four quarterly payments, as achievable by revenue estimates.*

(e) *For the 2008–09 fiscal year and thereafter, notwithstanding any other provision of this section, or any other provision of law, from the funds transferred to the account pursuant to paragraph (1) of subdivision (a) of Section 7102 of the Revenue and Taxation Code, the Legislature shall appropriate funds for the following purposes:*

(1) *To the department, 33.34 percent for purposes of Section 99315.*

(2) *To the Controller, 33.33 percent for allocation to transportation planning agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board pursuant to Section 99314.*

(3) To the Controller, 33.33 percent for the allocation to transportation agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board for purposes of Section 99313.”

I am reducing this appropriation because the total of appropriations made in this account exceeds projected resources and would put the account into a deficit. The revenues funding this appropriation are from the spillover calculation, which has proven to be very unpredictable and volatile in the past. To protect the viability of the other appropriations from the account, in particular those for State Transportation Improvement Program projects, a prudent reserve is necessary. If sufficient revenues become available to provide this level of grants to local transit agencies, I would be willing to consider a supplemental appropriation later in the year. Another provision of this bill provides for substantial increase in these grants in 2008-09.

While I am sustaining the language regarding the out-year funding for the State Transit Assistance program, future year appropriations will be reviewed in light of future budget needs, and therefore may be subject to future redirection.

Schwarzenegger, Arnold

The people of the State of California do enact as follows:

SECTION 1. Chapter 9 (commencing with Section 16965) is added to Part 3 of Division 4 of Title 2 of the Government Code, to read:

CHAPTER 9. TRANSPORTATION DEBT SERVICE FUND

16965. (a) The Transportation Debt Service Fund is hereby created in the State Treasury. Moneys in the fund shall, among other things, as provided in this section, be dedicated to payment of debt service on bonds including bonds issued pursuant to the Clean Air and Transportation Improvement Act of 1990 (Part 11.5 (commencing with Section 99600) of Division 10 of the Public Utilities Code), the Passenger Rail and Clean Air Bond Act of 1990 (Chapter 17 (commencing with Section 2700) of Division 3 of the Streets and Highways Code), and the Seismic Retrofit Bond Act of 1996 (Chapter 12.48 (commencing with Section 8879) of Division 1 of Title 2). If the moneys in the fund are insufficient to pay the balance of the debt consistent with existing obligations, the General Fund will be used to pay the balance of any debt service.

(b) (1) From moneys transferred to the fund pursuant to subdivision (b) of Section 7103 of the Revenue and Taxation Code, the sum of three hundred thirty-nine million two hundred eighty-nine thousand three hundred forty-five dollars (\$339,289,345) is hereby appropriated, for the purpose of paying the debt service in the 2007–08 fiscal year in the following amounts:

(A) Clean Air and Transportation Improvement Act of 1990, one hundred twenty-three million nine hundred seventy-three thousand four hundred ninety-three dollars (\$123,973,493).

(B) Passenger Rail and Clean Air Bond Act of 1990, seventy million nine hundred eighty-three thousand three hundred sixty-three dollars (\$70,983,363).

(C) Seismic Retrofit Bond Act of 1996, one hundred forty-four million three hundred thirty-two thousand four hundred eighty-nine dollars (\$144,332,489).

(2) From moneys transferred to the fund pursuant to subdivision (b) of Section 7103 of the Revenue and Taxation Code, the sum of two hundred million dollars (\$200,000,000) shall be transferred in the 2007–08 fiscal year to the General Fund as reimbursement for debt service payments made in prior fiscal years for public-transportation-related general obligation bond expenditures.

SEC. 2. Section 99312 of the Public Utilities Code is amended to read:

99312. From the funds transferred to the account pursuant to Section 7102 of the Revenue and Taxation Code, the Legislature shall appropriate funds for the following purposes:

(a) To the department, 50 percent for purposes of Section 99315.

(b) To the Controller, 25 percent for allocation to transportation planning agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board pursuant to Section 99314.

(c) To the Controller, 25 percent for allocation to transportation agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board for purposes of Section 99313.

(d) For the 2007–08 fiscal year, notwithstanding any other provision of this section, or any other provision of law, the allocations made pursuant to this section shall be adjusted as follows:

(1) From the funds transferred to the account pursuant to paragraph (1) of subdivision (a) of Section 7102 of the Revenue and Taxation Code, one hundred million dollars (\$100,000,000) shall be allocated pursuant to subdivision (b); one hundred million dollars (\$100,000,000) shall be allocated pursuant to subdivision (c); and the remainder of revenue shall remain in the Public Transportation Account to fund other state public transportation priorities. The Controller shall make these allocations in four equal quarterly amounts of twenty-five million dollars (\$25,000,000), as achievable by the receipt of the specified revenue.

(2) The amount appropriated in Item 2640-101-0046 of the Budget Act of 2006 for state transit assistance pursuant to subdivision (b) and (c) was greater than the amount of revenues received to support state transit assistance pursuant to Section 7102 of the Revenue and Taxation

Code. Therefore, notwithstanding any other provision of law, the amount that would have otherwise been available for appropriation to state transit assistance in the 2007–08 fiscal year pursuant to paragraphs (2) and (3) of subdivision (a) of Section 7102 of the Revenue and Taxation Code, shall be reduced by the excess amount that was appropriated to state transit assistance in the Budget Act of 2006, and that excess amount, as determined by the Department of Finance, shall instead remain in the Public Transportation Account to fund other state public transportation priorities. The Controller shall attempt to spread this adjustment equally over four quarterly payments, as achievable by revenue estimates.

(e) For the 2008–09 fiscal year and thereafter, notwithstanding any other provision of this section, or any other provision of law, from the funds transferred to the account pursuant to paragraph (1) of subdivision (a) of Section 7102 of the Revenue and Taxation Code, the Legislature shall appropriate funds for the following purposes:

- (1) To the department, 33.34 percent for purposes of Section 99315.
- (2) To the Controller, 33.33 percent for allocation to transportation planning agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board pursuant to Section 99314.
- (3) To the Controller, 33.33 percent for the allocation to transportation agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board for purposes of Section 99313.

SEC. 3. Section 99655 is added to the Public Utilities Code, to read: 99655. As of June 30, 2007, fourteen million five hundred sixty-three thousand dollars (\$14,563,000) allocated for the improvement of the Los Angeles-Fresno-San Francisco Bay Area passenger rail corridor in Section 99622 remains unexpended, and one million dollars (\$1,000,000) allocated for rail right-of-way studies in former Section 99621 remains unexpended. Pursuant to subdivision (c) of Section 99684, the unexpended funds cited in this section are hereby reallocated to the department and shall be made available for expenditure by the High-Speed Rail Authority for the state-sponsored high-speed rail project.

SEC. 4. Section 7102 of the Revenue and Taxation Code is amended to read:

7102. The money in the fund shall, upon order of the Controller, be drawn therefrom for refunds under this part, credits or refunds pursuant to Section 60202, and refunds pursuant to Section 1793.25 of the Civil Code, or be transferred in the following manner:

- (a) (1) All revenues, less refunds, derived under this part at the 4³/₄-percent rate, including the imposition of sales and use taxes with respect to the sale, storage, use, or other consumption of motor vehicle fuel which would not have been received if the sales and use tax rate had been 5 percent and if motor vehicle fuel, as defined for purposes of

(H) For the 2008–09 fiscal year and every fiscal year thereafter, 50 percent of the revenue estimated pursuant to this paragraph each quarter shall, notwithstanding any other provision of this paragraph or any other provision of law, be transferred to the Mass Transportation Fund.

(\$82,678,000) shall be transferred to the General Fund as reimbursement for the payments made by the General Fund pursuant to subdivision (f) of Section 1 of Article XIX B of the California Constitution.

SEC. 6. Section 7105 of the Revenue and Taxation Code is amended to read:

7105. (a) The Transportation Deferred Investment Fund is hereby created in the State Treasury. The Transportation Deferred Investment Fund is to be considered part of the Transportation Investment Fund, except as specifically required for accounting purposes, in order to facilitate the repayment and allocation of revenues consistent with paragraph (1) of subdivision (f) of Section 1 of Article XIX B of the California Constitution as provided in this section and Section 7106.

(b) Pursuant to Section 14557 of the Government Code, the transfer of revenues from the General Fund to the Transportation Investment Fund that would have otherwise been required under subdivision (a) of Section 1 of Article XIX B of the California Constitution was partially suspended for the 2003–04 fiscal year. The amount of the transfer for the 2003–04 fiscal year was two hundred eighty-nine million dollars (\$289,000,000). According to the State Board of Equalization calculations, with the concurrence of the Department of Finance, the amount of the transfer suspended for the 2003–04 fiscal year was eight hundred sixty-seven million five hundred sixty-eight thousand dollars (\$867,568,000). On or before June 30 of each fiscal year until June 30, 2016, the Controller shall transfer an amount from the General Fund to the Transportation Deferred Investment Fund that is equal to the minimum repayment required by Article XIX B of the California Constitution. The repayment shall also include interest calculated at the Pooled Money Investment Account rate relative to the amounts that would otherwise have been available for the transportation programs described in paragraphs (2) to (5), inclusive, of subdivision (c) of Section 7104. The amount to be repaid by June 30, 2016, from the General Fund to the Transportation Deferred Investment Fund shall be reduced by the amount of any payment made to the Transportation Deferred Investment Fund from any funding source, excluding subdivision (d). The moneys deposited in the Transportation Deferred Investment Fund pursuant to this subdivision are continuously appropriated without regard to fiscal years for disbursement in the manner and for the purposes set forth in this section.

(c) The Controller, from the moneys deposited in the Transportation Deferred Investment Fund pursuant to subdivision (b) and Article XIX B of the California Constitution, shall make transfers and apportionments of those funds in the same manner and amounts that would have been made in the 2003–04 fiscal year from the Transportation Investment

Fund pursuant to Section 7104, as that section read on January 1, 2003, if the transfer of funds from the General Fund to the Transportation Investment Fund had not been partially suspended for the 2003–04 fiscal year pursuant to Section 14557 of the Government Code, except that in the 2007–08 fiscal year any remaining principle or interest owed to the Public Transportation Account shall be repaid first before any other transfers are made. However, in making those transfers and apportionments, the Controller shall take into account and deduct therefrom any transfers and apportionments that were made from the Transportation Investment Fund in the 2003–04 fiscal year from funds made available pursuant to subdivision (b) of Section 14557 of the Government Code. It is the intent of the Legislature that, upon completion of the transfer of funds pursuant to subdivision (b) from the General Fund to the Transportation Deferred Investment Fund, each of the transportation programs that was to have been funded during the 2003–04 fiscal year from the Transportation Investment Fund pursuant to Section 7104 of this code shall have received the amount of funding that the program would have received in the absence of the suspension of the transfer pursuant to Section 14557 of the Government Code.

(d) The interest that is to be deposited in the Transportation Deferred Investment Fund pursuant to subdivision (b) shall be allocated proportionately to each program element in paragraphs (2) to (5), inclusive, of subdivision (c) of Section 7104, based on the amount that each program did not receive in the 2003–04 fiscal year due to suspension of the transfer pursuant to Section 14557 of the Government Code.

(e) Four hundred ninety-five million dollars (\$495,000,000) is hereby appropriated from the General Fund to the Transportation Deferred Investment Fund for the purpose of paying a portion of the amount required to be paid pursuant to subdivision (b). The Controller shall make the payment immediately upon enactment of the statute amending this section in the 2005–06 Regular Session. Notwithstanding subdivision (c), these funds, shall be distributed as follows:

(1) The first one hundred ninety-two million dollars (\$192,000,000) and any interest due pursuant to this section shall remain in the Transportation Deferred Investment Fund to be used for projects in the State Transportation Improvement Program pursuant to paragraph (3) of subdivision (c) of Section 7104.

(2) The next one hundred ninety-two million dollars (\$192,000,000) and any interest due pursuant to this section shall be distributed to cities and counties, as follows:

(A) Ninety-six million dollars (\$96,000,000) and any interest due pursuant to this section shall be transferred to cities for the purposes

specified in Section 7104 pursuant to the formula in paragraph (5) of subdivision (c) of that section.

(B) Ninety-six million dollars (\$96,000,000) and any interest due pursuant to this section shall be transferred to counties for the purposes specified in Section 7104 pursuant to the formula in paragraph (4) of subdivision (c) of that section.

(3) Ninety-six million dollars (\$96,000,000) and any interest due pursuant to this section shall be transferred to the Public Transportation Account for allocation pursuant to Section 99312 of the Public Utilities Code.

(4) Any funds remaining following the distributions required by paragraphs (1), (2), and (3) shall be transferred to the Traffic Congestion Relief Fund, and shall be deemed to be funds received by that fund in the 2003–04 fiscal year.

(f) The Legislature finds and declares that continued investment in transportation is essential for the California economy. That investment reduces traffic congestion, assists in economic development, improves the condition of local streets and roads, and provides high-quality public transportation.

(g) Notwithstanding any other provision of law, the Department of Finance may adjust the budgeting, accounting, and reporting system for the Transportation Deferred Investment Fund so that unliquidated encumbrances are not reflected in the fund balance or financial statement.

SEC. 7. Section 7106 of the Revenue and Taxation Code is amended to read:

7106. (a) Pursuant to Section 14558 of the Government Code, the transfer of revenues from the General Fund to the Transportation Investment Fund that would have otherwise been required under subdivision (a) of Section 1 of Article XIX B of the California Constitution was suspended for the 2004–05 fiscal year. According to the State Board of Equalization calculations, with the concurrence of the Department of Finance, the amount of the transfer suspended for the 2004–05 fiscal year was one billion two hundred fifty-seven million nine hundred forty-six thousand dollars (\$1,257,946,000). On or before June 30 of each fiscal year until June 30, 2016, the Controller shall transfer an amount from the General Fund to the Transportation Deferred Investment Fund that is equal to the minimum repayment required by Article XIX B of the California Constitution. The repayment shall also include interest calculated at the Pooled Money Investment Account rate relative to the amounts that would otherwise have been available for the transportation programs described in paragraphs (2) to (5), inclusive, of subdivision (c) of Section 7104. The amount to be repaid by June 30, 2016, from the General Fund to the Transportation Deferred Investment

Fund shall be reduced by the amount of any payment made to the Transportation Deferred Investment Fund from any funding source.

(c) The Controller, from the money deposited in the Transportation Deferred Investment Fund pursuant to subdivision (a) and Article XIXB of the California Constitution, shall make transfers and apportionments of those funds in the same manner and amounts that would have been made in the 2004–05 fiscal year from the Transportation Investment Fund pursuant to Section 7104, as that section read on January 1, 2003, if the transfer of funds from the General Fund to the Transportation Investment Fund had not been suspended for the 2004–05 fiscal year pursuant to Section 14558 of the Government Code. It is the intent of the Legislature that upon completion of the transfer of funds pursuant to subdivision (a) from the General Fund to the Transportation Deferred Investment Fund that each of the transportation programs that was to have been funded during the 2004–05 fiscal year from the Transportation Investment Fund pursuant to Section 7104 shall have received the amount of funding that the program would have received in the absence of the suspension of the transfer pursuant to Section 14558 of the Government Code.

(d) The interest that is to be deposited in the Transportation Deferred Investment Fund pursuant to subdivision (a) shall be allocated proportionately to each program element in paragraphs (2) to (5), inclusive, of subdivision (c) of Section 7104, based on the amount that each program did not receive in the 2004–05 fiscal year due to suspension of the transfer pursuant to Section 14558 of the Government Code.

(e) Seven hundred twenty million dollars (\$720,000,000) is hereby appropriated from the General Fund to the Transportation Deferred Investment Fund for the purpose of paying a portion of the amount required to be paid pursuant to subdivision (a). The Controller shall make the payment immediately upon enactment of the statute amending this section in the 2005–06 Regular Session. In addition, two hundred million dollars (\$200,000,000) transferred to the Transportation Deferred Investment Fund pursuant to subparagraph (F) of paragraph (1) of subdivision (a) of Section 7102 shall also be available for that purpose. Notwithstanding subdivision (c), these funds, totaling nine hundred twenty million dollars (\$920,000,000), shall be distributed as follows:

(1) The first two hundred thirty-two million dollars (\$232,000,000) and any interest due pursuant to this section shall remain in the Transportation Deferred Investment Fund to be used for projects in the

State Transportation Improvement Program pursuant to paragraph (3) of subdivision (c) of Section 7104.

(2) The next two hundred thirty-two million dollars (\$232,000,000) and any interest due pursuant to this section shall be distributed to cities and counties, as follows:

(A) One hundred sixteen million dollars (\$116,000,000) and any interest due pursuant to this section shall be transferred to cities for the purposes specified in Section 7104 pursuant to the formula in paragraph (5) of subdivision (c) of that section.

(B) One hundred sixteen million dollars (\$116,000,000) and any interest due pursuant to this section shall be transferred to counties for the purposes specified in Section 7104 pursuant to the formula in paragraph (4) of subdivision (c) of that section.

(3) One hundred sixteen million dollars (\$116,000,000) and any interest due pursuant to this section shall be transferred to the Public Transportation Account for allocation pursuant to Section 99312 of the Public Utilities Code.

(4) Any funds remaining following the distributions required by paragraphs (1), (2), and (3) shall be transferred to the Traffic Congestion Relief Fund, and shall be deemed to be funds received by that fund in the 2004–05 fiscal year. It is estimated that the amount to be available under this subparagraph will be three hundred fifteen million dollars (\$315,000,000).

SEC. 8. Section 2106 of the Streets and Highways Code is amended to read:

2106. A sum equal to the net revenue derived from one and four one-hundredths cent (\$0.0104) per gallon tax under the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301) of Division 2 of the Revenue and Taxation Code) shall be apportioned monthly from the Highway Users Tax Account in the Transportation Tax Fund among the counties and cities as follows:

(a) Four hundred dollars (\$400) per month shall be apportioned to each city and city and county and eight hundred dollars (\$800) per month shall be apportioned to each county and city and county.

(b) Commencing on July 31, 2007, and on the last day of each month after that date, the sum of six hundred thousand dollars (\$600,000) per month shall be transferred to the Bicycle Transportation Account in the State Transportation Fund.

(c) The balance shall be apportioned, as follows:

(1) A base sum shall be computed for each county by using the same proportions of fee-paid and exempt vehicles as are established for purposes of apportionment of funds under subdivision (d) of Section 2104.

(2) For each county, the percentage of the total assessed valuation of tangible property subject to local tax levies within the county which is represented by the assessed valuation of tangible property outside the incorporated cities of the county shall be applied to its base sum, and the resulting amount shall be apportioned to the county. The assessed valuation of taxable tangible property, for purposes of this computation, shall be that most recently used for countywide tax levies as reported to the Controller by the State Board of Equalization. If an incorporation or annexation is legally completed following the base sum computation, the new city's assessed valuation shall be deducted from the county's assessed valuation, the estimate of which may be provided by the State Board of Equalization.

(3) The difference between the base sum for each county and the amount apportioned to the county shall be apportioned to the cities of that county in the proportion that the population of each city bears to the total population of all the cities in the county. Populations used for determining apportionment of money under Section 2107 are to be used for purposes of this section.

SEC. 9. Section 21101.4 of the Vehicle Code is amended to read:

21101.4. (a) A local authority may, by ordinance or resolution, adopt rules and regulations for temporarily closing to through traffic a highway under its jurisdiction when all of the following conditions are, after a public hearing, found to exist:

(1) The local authority finds and determines that there is serious and continual criminal activity in the portion of the highway recommended for temporary closure. This finding and determination shall be based upon the recommendation of the police department or, in the case of a highway in an unincorporated area, on the joint recommendation of the sheriff's department and the Department of the California Highway Patrol.

(2) The highway is not designated as a through highway or arterial street.

(3) Vehicular or pedestrian traffic on the highway contributes to the criminal activity.

(4) The closure will not substantially adversely affect traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services, or the delivery of freight by commercial vehicles in the area of the highway proposed to be temporarily closed.

(b) A highway may be temporarily closed pursuant to subdivision (a) for not more than 18 months, except that this period may be extended for not more than eight additional consecutive periods of not more than 18 months each if, prior to each of those extensions, the local authority

holds a public hearing and finds, by ordinance or resolution, that all of the following conditions exist:

(1) Continuation of the temporary closure will assist in preventing the occurrence or reoccurrence of the serious and continual criminal activity found to exist when the immediately preceding temporary closure was authorized. This finding and determination shall be based upon the recommendation of the police department or, in the case of a highway in an unincorporated area, on the joint recommendation of the sheriff's department and the Department of the California Highway Patrol.

(2) The highway is not designated as a through highway or arterial street.

(3) Vehicular or pedestrian traffic on the highway contributes to the criminal activity.

(4) The immediately preceding closure has not substantially adversely affected traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services, or the delivery of freight by commercial vehicles in the area of the highway that was temporarily closed.

(c) The local authority shall mail written notice of the public hearing required under subdivision (a) or (b) to all residents and owners, as shown on the last equalized assessment roll, of property adjacent to the portion of highway where a temporary closure or extension of temporary closure is proposed.

(1) The registered owner leases the vehicle to another person for a term of more than four months. If the lease is for more than four months, the lessee is the motor carrier.

(2) The registered owner operates the vehicle exclusively under the authority and direction of another person. If the operation is exclusively under the authority and direction of another person, that other person may assume the responsibilities as the motor carrier. If not so assumed, the registered owner is the motor carrier. A person who assumes the motor carrier responsibilities of another pursuant to subdivision (b) shall provide to that other person whose motor carrier responsibility is so assumed, a completed copy of a departmental form documenting that assumption, stating the period for which responsibility is assumed, and signed by an agent of the assuming person. A legible copy shall be carried in each vehicle or combination of vehicles operated on the highway

during the period for which responsibility is assumed. That copy shall be presented upon request by any authorized employee of the department. The original completed departmental form documenting the assumption shall be provided to the department within 30 days of the assumption. If the assumption of responsibility is terminated, the person who had assumed responsibility shall so notify the department in writing within 30 days of the termination.

(b) (1) A motor carrier may combine two or more terminals that are not subject to an unsatisfactory compliance rating within the last 36 months for purposes of the inspection required by subdivision (d) subject to all of the following conditions:

(A) The carrier identifies to the department, in writing, each terminal proposed to be included in the combination of terminals for purposes of this subdivision prior to an inspection of the designated terminal pursuant to subdivision (d).

(B) The carrier provides the department, prior to the inspection of the designated terminal pursuant to subdivision (d), a written listing of all its vehicles of a type subject to subdivision (a), (b), (e), (f), or (g) of Section 34500 that are based at each of the terminals combined for purposes of this subdivision. The listing shall specify the number of vehicles of each type at each terminal.

(C) The carrier provides to the department at the designated terminal during the inspection all maintenance records and driver records and a representative sample of vehicles based at each of the terminals included within the combination of terminals.

(2) If the carrier fails to provide the maintenance records, driver records, and representative sample of vehicles pursuant to subparagraph (C) of paragraph (1), the department shall assign the carrier an unsatisfactory terminal rating and require a reinspection to be conducted pursuant to subdivision (h).

(3) For purposes of this subdivision, the following terms have the meanings given:

(A) "Driver records" includes pull notice system records, driver proficiency records, and driver timekeeping records.

(B) "Maintenance records" includes all required maintenance, lubrication, and repair records and drivers' daily vehicle condition reports.

(C) "Representative sample" means the following, applied separately to the carrier's fleet of motortrucks and truck tractors and its fleet of trailers:

Fleet Size	Representative Sample
1 or 2	All
3 to 8	3
9 to 15	4
16 to 25	6
26 to 50	9

91 or more	20

(c) Each motor carrier who, in this state, directs the operation of, or maintains, any vehicle of a type described in subdivision (a) shall designate one or more terminals, as defined in Section 34515, in this state where vehicles can be inspected by the department pursuant to paragraph (4) of subdivision (a) of Section 34501 and where vehicle inspection and maintenance records and driver records will be made available for inspection.

(d) (1) The department shall inspect, at least every 25 months, every terminal, as defined in Section 34515, of any motor carrier who, at any time, operates any vehicle described in subdivision (a).

(2) The department shall place an inspection priority on those terminals operating vehicles listed in subdivision (g) of Section 34500.

(3) As used in this section and in Sections 34505.5 and 34505.6, subdivision (f) of Section 34500 includes only those combinations where the gross vehicle weight rating (GVWR) of the towing vehicle exceeds 10,000 pounds, but does not include a pickup truck, and subdivision (g) of Section 34500 includes only those vehicles transporting hazardous material for which the display of placards is required pursuant to Section 27903, a license is required pursuant to Section 32000.5, or for which hazardous waste transporter registration is required pursuant to Section 25163 of the Health and Safety Code. Historical vehicles, as described in Section 5004, vehicles that display special identification plates in accordance with Section 5011, implements of husbandry and farm vehicles, as defined in Chapter 1 (commencing with Section 36000) of Division 16, and vehicles owned or operated by an agency of the federal government are not subject to this section or to Sections 34505.5 and 34505.6.

(e) (1) It is the responsibility of the motor carrier to schedule with the department the inspection required by subdivision (d). The motor carrier shall submit an application form supplied by the department, accompanied by the required fee contained in paragraph (2), for each terminal the motor carrier operates. This fee shall be submitted within

30 days of establishing a terminal. All fees submitted under paragraph (2) are nonrefundable.

(2) (A) The fee for each terminal is set forth in the following table:

16 to 25	\$ 800
26 to 50	\$1,040
51 to 90	\$1,165
91 or more	\$1,870

(B) In addition to the fee specified in subparagraph (A), the motor carrier shall submit an additional fee of three hundred fifty dollars (\$350) for each of its terminals not previously inspected under the section.

(3) Except as provided in paragraph (5), the inspection term for each inspected terminal of a motor carrier shall expire 25 months from the date the terminal receives a satisfactory compliance rating, as specified in subdivision (h). Applications and fees for subsequent inspections shall be submitted not earlier than nine months and not later than seven months before the expiration of the motor carrier's then current inspection term. If the motor carrier has submitted the inspection application and the required accompanying fees, but the department is unable to complete the inspection within the 25-month inspection period, then no additional fee shall be required for the inspection requested in the original application.

(4) All fees collected pursuant to this subdivision shall be deposited in the Motor Vehicle Account in the State Transportation Fund. An amount equal to the fees collected shall be available for appropriation by the Legislature from the Motor Vehicle Account to the department for the purpose of conducting truck terminal inspections and for the additional roadside safety inspections required by Section 34514.

(5) To avoid the scheduling of a renewal terminal inspection pursuant to this section during a carrier's seasonal peak business periods, the current inspection term of a terminal that has paid all required fees and has been rated satisfactory in its last inspection may be reduced by not more than nine months if a written request is submitted by the carrier to the department at least four months prior to the desired inspection month, or at the time of payment of renewal inspection fees in compliance with paragraph (3), whichever date is earlier. A motor carrier may request this adjustment of the inspection term during any inspection cycle. A

request made pursuant to this paragraph shall not result in a fee proration and does not relieve the carrier from the requirements of paragraph (3).

(6) Failure to pay a fee required by this section, within the appropriate timeframe, shall result in additional delinquent fees as follows:

(A) For a delinquency period of more than 30 days, the penalty is 60 percent of the required fee.

(B) For a delinquency period of one to two years, the penalty is 80 percent of the required fee.

(C) For a delinquency period of more than two years, the penalty is 160 percent of the required fee.

(7) Federal, state, and local public entities are exempt from the fee requirement of this section.

(f) It is unlawful for a motor carrier to operate a vehicle subject to this section without having submitted an inspection application and the required fees to the department as required by subdivision (e) or (h).

(g) (1) It is unlawful for a motor carrier to operate a vehicle subject to this section after submitting an inspection application to the department, without the inspection described in subdivision (d) having been performed and a safety compliance report having been issued to the motor carrier within the 25-month inspection period or within 60 days immediately preceding the inspection period.

(2) It is unlawful for a motor carrier to contract or subcontract with, or otherwise engage the services of, another motor carrier, subject to this section, unless the contracted motor carrier has complied with this section. A motor carrier shall not contract or subcontract with, or otherwise engage the services of, another motor carrier until the contracted motor carrier provides certification of compliance with this section. This certification shall be completed in writing by the contracted motor carrier. The certification, or a copy thereof, shall be maintained by each involved party for the duration of the contract or the period of service plus two years, and shall be presented for inspection immediately upon the request of an authorized employee of the department.

(h) (1) An inspected terminal that receives an unsatisfactory compliance rating shall be reinspected within 120 days after the issuance of the unsatisfactory compliance rating.

(2) A terminal's first required reinspection under this subdivision shall be without charge unless one or more of the following is established:

(A) The motor carrier's operation presented an imminent danger to public safety.

(B) The motor carrier was not in compliance with the requirement to enroll all drivers in the pull notice program pursuant to Section 1808.1.

(C) The motor carrier failed to provide all required records and vehicles for a consolidated inspection pursuant to subdivision (b).

(3) If the unsatisfactory rating was assigned for any of the reasons set forth in paragraph (2), the carrier shall submit the required fee as provided in paragraph (4).

(4) Applications for reinspection pursuant to paragraph (3) or for second and subsequent consecutive reinspections under this subdivision shall be accompanied by the fee specified in paragraph (2) of subdivision (e) and shall be filed within 60 days of issuance of the unsatisfactory compliance rating. The reinspection fee is nonrefundable.

(5) When a motor carrier's Motor Carrier of Property Permit or Public Utilities Commission operating authority is suspended as a result of an unsatisfactory compliance rating, the department shall conduct no reinspection for permit or authority reinstatement until requested to do so by the Department of Motor Vehicles or the Public Utilities Commission, as appropriate.

(i) It is the intent of the Legislature that the department make its best efforts to inspect terminals within the resources provided. In the interest of the state, the Commissioner of the California Highway Patrol may extend for a period, not to exceed six months, the inspection terms beginning prior to July 1, 1990.

(j) To encourage motor carriers to attain continuous satisfactory compliance ratings, the department may establish and implement an incentive program consisting of the following:

(1) After the second consecutive satisfactory compliance rating assigned to a motor carrier terminal as a result of an inspection conducted pursuant to subdivision (d), and after each consecutive satisfactory compliance rating thereafter, an appropriate certificate, denoting the number of consecutive satisfactory ratings, shall be awarded to the terminal, unless the terminal has received an unsatisfactory compliance rating as a result of any inspection conducted in the interim between the consecutive inspections conducted under subdivision (d), or the motor carrier is rated unsatisfactory by the department following a controlled substances and alcohol testing program inspection. The certificate authorized under this paragraph shall not be awarded for performance in the administrative review authorized under paragraph (2). However, the certificate shall include a reference to any administrative reviews conducted during the period of consecutive satisfactory compliance ratings.

(2) Unless the department's evaluation of the motor carrier's safety record indicates a declining level of compliance, a terminal that has attained two consecutive satisfactory compliance ratings assigned following inspections conducted pursuant to subdivision (d) is eligible for an administrative review in lieu of the next required inspection, unless the terminal has received an unsatisfactory compliance rating as a result

of any inspection conducted in the interim between the consecutive inspections conducted under subdivision (d). An administrative review shall consist of all of the following:

(A) A signed request by a terminal management representative requesting the administrative review in lieu of the required inspection containing a promise to continue to maintain a satisfactory level of compliance for the next 25-month inspection term.

(B) A review with a terminal management representative of the carrier's record as contained in the department's files. If a terminal has been authorized a second consecutive administrative review, the review required under this subparagraph is optional, and may be omitted at the carrier's request.

(C) Absent any cogent reasons to the contrary, upon completion of the requirements of subparagraphs (A) and (B), the safety compliance rating assigned during the last required inspection shall be extended for 25 months.

(3) Not more than two administrative reviews may be conducted consecutively. At the completion of the 25-month inspection term following a second administrative review, a terminal inspection shall be conducted pursuant to subdivision (d). If this inspection results in a satisfactory compliance rating, the terminal shall again be eligible for an administrative review in lieu of the next required inspection. If the succession of satisfactory ratings is interrupted by any rating of other than satisfactory, irrespective of the reason for the inspection, the terminal shall again attain two consecutive satisfactory ratings to become eligible for an administrative review.

(4) As a condition for receiving the administrative reviews authorized under this subdivision in lieu of inspections, and in order to ensure that compliance levels remain satisfactory, the motor carrier shall agree to accept random, unannounced inspections by the department.

(k) This section shall be known and may be cited as the Biennial Inspection of Terminals Program or BIT.

The update shall explain any significant variations from the five-year cost projection for the current year budget and the proposed budget.

(c) The Superintendent shall provide each school district with guidelines for professional development that are designed to assist classroom teachers to use the results of the assessments administered pursuant to this chapter to modify instruction for the purpose of improving pupil learning. These guidelines shall be developed in consultation with classroom teachers and approved by the state board before dissemination.

(d) The Superintendent and the state board shall consider comments and recommendations from school districts and the public in the development, adoption, and approval of assessment instruments.

(e) The results of the achievement test administered pursuant to Article 4 (commencing with Section 60640) shall be returned to the school district within the period of time specified by the state board.

60605. (a) (1) (A) Not later than January 1, 1998, the state board shall adopt statewide academically rigorous content standards, pursuant to the recommendations of the Commission for the Establishment of Academic Content and Performance Standards, in the core curriculum areas of reading, writing, and mathematics to serve as the basis for assessing the academic achievement of individual pupils and of schools, school districts, and the California educational system. Not later than November 1, 1998, the state board shall adopt these standards in the core curriculum areas of history/social science and science.

(B) The state board shall adopt statewide performance standards in the core curriculum areas of reading, writing, mathematics, history/social science, and science based on the recommendations made by the Superintendent of a contractor or contractors.

(C) The state board shall require the contractor or contractors to submit performance standards to the Superintendent and the state board not later

than a specified date that allows sufficient opportunity for the Superintendent to make a recommendation to the state board and for the state board to conduct regional hearings prior to the adoption of the performance standards.

(2) (A) The state board may modify any proposed content standards or performance standards prior to adoption and may adopt content and performance standards in individual core curriculum areas as those standards are submitted to the state board. The state performance standards shall be established against specific grade level benchmarks of academic achievement for each subject area tested and shall be based on the knowledge and skills that pupils will need in order to succeed in the information-based, global economy of the 21st century. These skills shall not include personal behavioral standards or skills, including, but not limited to, honesty, sociability, ethics, or self-esteem. The standards adopted pursuant to this section shall be for the purpose of guiding state decisions regarding the development, adoption, and approval of assessment instruments pursuant to this chapter and does not mandate any actions or activities by school districts.

(B) Because these standards are models, the adoption of these standards is not subject to the Administrative Procedure Act. This subparagraph is declaratory of existing law.

(3) Before adopting academic content and performance standards, the state board shall hold regional hearings for the purpose of giving parents and other members of the public the opportunity to comment on the proposed standards.

(b) (1) The state board shall require the department to notify publishers of the opportunity to submit, for consideration by the state board pursuant to Section 60642, tests of achievement that include all of the basic academic skills identified in subdivision (c) of Section 60603 in grades 2 to 8, inclusive, and the core curriculum areas of English and language arts, mathematics, and science in grades 9 to 11, inclusive.

(2) The Superintendent shall recommend to the state board which achievement test to adopt pursuant to subdivision (b) of Section 60642.

(c) (1) The state board shall ensure that the statewide assessment system adopted pursuant to this chapter yields valid, reliable individual pupil scores and, where applicable, aggregate school scores, school district scores, and statewide scores of pupils and assesses basic academic skills and content standards, including the use of a direct writing assessment or other applied academic skills if deemed valid and reliable and if resources are made available for their use.

(2) This subdivision does not prevent the state board from developing or adopting an assessment instrument that also contains assessments of basic academic skills.

(d) To the extent feasible and as otherwise required, the state board shall ensure that assessments developed, or contracted for pursuant to Section 60642.5, by the state are aligned with the statewide content and performance standards adopted pursuant to subdivision (a). The department, with the approval of the state board, periodically shall contract for a review of the achievement test for conformance with these standards.

(e) After adopting statewide content and performance standards, the state board shall review the existing curriculum frameworks for conformity with the new statewide standards and shall modify the curriculum frameworks where appropriate to bring them into alignment with the standards.

(f) The state board shall adopt regulations for the conduct and administration of the testing and assessment program.

(g) The state board shall adopt a regulation for minimum security procedures that test and assessment publishers and school districts must follow to ensure the security and integrity of test and assessment questions and materials.

(h) This section shall become inoperative on July 1, 2011.

(a) One workbook to be distributed to all pupils in the 10th grade. This workbook shall contain information on the proficiency levels that must be demonstrated by pupils on the high school exit examination described in Chapter 9 (commencing with Section 60850). The workbook also shall contain sample questions, with explanations describing how these sample questions test pupil knowledge of the language arts and mathematics content standards adopted by the state board pursuant to Section 60605.

(b) Separate workbooks for each of grades 2 to 11, inclusive. Each pupil in grades 2 to 11, inclusive, who is required to take the achievement tests described in Section 60642 or Section 60642.5 shall receive a copy of the workbook designed for the same grade level in which the pupil is enrolled. These workbooks shall contain material to assist pupils and their parents with standards-based learning, including the grade appropriate academic content standards adopted by the state board pursuant to Section 60605 and sample questions that require knowledge

of these standards to answer. The workbooks also shall describe how the sample questions test knowledge of the state board adopted academic content standards.

60606. (c) Panel members shall serve two-year terms, without compensation. No panel member shall serve more than two consecutive terms.

(d) The panel shall review the two instruments specified in subdivision (a) in order to ensure that the content of the instruments complies with the requirements of Section 60614. Notwithstanding any other provision of law, the panel may meet in closed session with a publisher for the purpose of addressing questions and clarifying issues that relate to ensuring that the content of the publisher's test or assessment, as the case may be, comply with the requirements of Section 60614.

(e) The panel shall report its findings and recommendations to the state board within 10 days of its receipt of each instrument. If the panel fails to report within the required 10 days, the test or assessment shall be deemed acceptable to the panel.

SEC. 21. Section 60606 of the Education Code, as added by Section 12 of Chapter 233 of the Statutes of 2004, is repealed.

SEC. 22. Section 60640 of the Education Code, as amended by Section 4 of Chapter 676 of the Statutes of 2005, is amended to read:

60640. (a) There is hereby established the Standardized Testing and Reporting Program, to be known as the STAR Program.

(b) Commencing in the 2004–05 fiscal year and each fiscal year thereafter, and from the funds available for that purpose, each school

district, charter school, and county office of education shall administer to each of its pupils in grades 3 and 7 the achievement test designated by the state board pursuant to Section 60642 and shall administer to each of its pupils in grades 2 to 11, inclusive, the standards-based achievement test provided for in Section 60642.5. The state board shall establish a testing period to provide that all schools administer these tests to pupils at approximately the same time during the instructional year, except as necessary to ensure test security and to meet the final filing date.

(c) The publisher and the school district shall provide two makeup days for the testing of previously absent pupils within the testing period established by the state board in subdivision (b).

(d) The governing board of the school district may administer achievement tests in grades other than those required by subdivision (b) as it deems appropriate.

(e) Pursuant to Section 1412(a)(17) of Title 20 of the United States Code, individuals with exceptional needs, as defined in Section 56026, shall be included in the testing requirement of subdivision (b) with appropriate accommodations in administration, where necessary, and those individuals with exceptional needs who are unable to participate in the testing, even with accommodations, shall be given an alternate assessment.

(f) (1) At the option of the school district, pupils with limited English proficiency who are enrolled in any of grades 2 to 11, inclusive, may take a second achievement test in their primary language. Primary language tests administered pursuant to this subdivision and subdivision (g) shall be subject to the requirements of subdivision (a) of Section 60641. These primary language tests shall produce individual pupil scores that are valid and reliable.

(2) Notwithstanding any other law, the state board shall designate for use, as part of this program, a single primary language test in each language for which a test is available for grades 2 to 11, inclusive, pursuant to the process used for designation of the assessment chosen in the 1997–98 fiscal year, as specified in Sections 60642 and 60643, as applicable.

(3) (A) The department shall use funds made available pursuant to Title VI of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.) and appropriated by the annual Budget Act for the purpose of developing and adopting primary language assessments that are aligned to the state academic content standards. Subject to the availability of funds, primary language assessments shall be developed and adopted for reading/language arts and mathematics in the dominant primary language of limited-English-proficient pupils. The dominant primary language shall be determined by the count in the annual language

census of the primary language of each limited-English-proficient pupil enrolled in the California public schools.

(B) Once a dominant primary language assessment is available for use for a specific grade level, it shall be administered in place of the assessment designated pursuant to paragraph (1) for that grade level.

(C) In choosing a contractor to develop a primary language assessment the state board shall consider the criteria for choosing a contractor or test publisher as specified by Sections 60642 and 60643, and as specified by Section 60642.5, as applicable.

(D) Subject to the availability of funds, the assessments shall be developed in grade order starting with the lowest grade subject to the STAR Program.

(E) If the state board contracts for the development of primary language assessments or test items to augment an existing assessment, the state shall retain ownership rights to the assessment and the test items. With the approval of the state board, the department may license the test for use in other states subject to a compensation agreement approved by the Department of Finance.

(F) On or before January 1, 2006, the department shall submit to the Legislature a report on the development and implementation of the initial primary language assessments and recommendations on the development and implementation of future assessments and funding requirements.

(g) A pupil identified as limited English proficient pursuant to the administration of a test made available pursuant to Section 60810 who is enrolled in any of grades 2 to 11, inclusive, and who either receives instruction in his or her primary language or has been enrolled in a school in the United States for less than 12 months shall be required to take a test in his or her primary language if a test is available.

(h) (1) The Superintendent shall apportion funds to school districts to enable school districts to meet the requirements of subdivisions (b), (e), (f), and (g).

(2) The state board annually shall establish the amount of funding to be apportioned to school districts for each test administered and annually shall establish the amount that each publisher shall be paid for each test administered under the agreements required pursuant to Section 60643. The amounts to be paid to the publishers shall be determined by considering the cost estimates submitted by each publisher each September and the amount included in the annual Budget Act, and by making allowance for the estimated costs to school districts for compliance with the requirements of subdivisions (b), (e), (f), and (g).

(3) An adjustment to the amount of funding to be apportioned per test shall not be valid without the approval of the Director of Finance. A request for approval of an adjustment to the amount of funding to be

apportioned per test shall be submitted in writing to the Director of Finance and the chairpersons of the fiscal committees of both houses of the Legislature with accompanying material justifying the proposed adjustment. The Director of Finance is authorized to approve only those adjustments related to activities required by statute. The Director of Finance shall approve or disapprove the amount within 30 days of receipt of the request and shall notify the chairpersons of the fiscal committees of both houses of the Legislature of the decision.

(i) For purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation for the apportionments made pursuant to paragraph (1) of subdivision (h), and the payments made to the publishers under the contracts required pursuant to Section 60643 or subparagraph (C) of paragraph (1) of subdivision (a) of Section 60605 between the department and the contractor, are "General Fund revenues appropriated for school districts," as defined in subdivision (c) of Section 41202, for the applicable fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202, for that fiscal year.

(j) As a condition to receiving an apportionment pursuant to subdivision (h), a school district shall report to the Superintendent all of the following:

(1) The number of pupils enrolled in the school district in grades 2 to 11, inclusive.

(2) The number of pupils to whom an achievement test was administered in grades 2 to 11, inclusive, in the school district.

(3) The number of pupils in paragraph (1) who were exempted from the test at the request of their parents or guardians.

(k) The Superintendent and the state board are authorized and encouraged to assist postsecondary educational institutions to use the assessment results of the California Standards Tests, including, but not limited to, the augmented California Standards Tests, for academic credit, placement, or admissions processes.

(l) The Superintendent, with the approval of the state board, annually shall release to the public at least 25 percent of test items from the standards-based achievement test provided for in Section 60642.5 from the test administered in the previous year.

(m) This section shall become inoperative on July, 1, 2011.

SEC. 23. Section 60640 of the Education Code, as amended by Section 5 of Chapter 676 of the Statutes of 2005, is repealed.

SEC. 24. Section 60642 of the Education Code is amended to read:

60642. (a) The Superintendent and the state board may consider any evaluations of independent experts who have not been employed by a test publisher in the preceding 12 months regarding the suitability of the achievement tests submitted by publishers as required by subdivision (b) of Section 60605 for use as part of the STAR Program established by this article.

(b) Based upon a review of the achievement tests submitted and the recommendation made by the Superintendent pursuant to subdivision (b) of Section 60605, the state board, in its sole discretion, based on the considerations set forth in Section 60644, shall designate for use as part of the STAR Program a single test in grades 3 and 7.

(c) The state board shall ensure that the achievement test designated pursuant to subdivision (b) contains the subject areas specified in subdivision (c) of Section 60603 for grades 3 and 7.

(d) The state board is hereby authorized to designate the achievement test to be administered pursuant to this article for more than one academic year subject to the availability of funds.

(e) The state board shall minimize, to the extent it deems feasible, the amount of testing time required by the assessment in subdivision (b) for those content areas for which there also exists a standards-based examination as provided for pursuant to Section 60642.5.

(f) This section shall become inoperative on July, 1, 2011.

SEC. 25. Section 60643 of the Education Code, as amended by Section 19 of Chapter 233 of the Statutes of 2004, is amended to read:

60643. (a) To be eligible for consideration under Section 60642 or 60642.5 by the state board, test publishers shall agree in writing each year to meet the following requirements, as applicable, if selected:

(1) Enter into an agreement, pursuant to subdivision (e) or (f), with the department by October 15 of that year.

(2) With respect to selection under Section 60642.5, align the standards-based achievement test provided for in Section 60642.5 to the academically rigorous content and performance standards adopted by the state board.

(3) Comply with subdivisions (c) and (d) of Section 60645.

(4) Provide valid and reliable individual pupil scores only in the content areas specified in subdivision (c) of Section 60642 to parents or guardians, teachers, and school administrators.

(5) Provide valid and reliable aggregate scores only in the content areas specified in subdivision (c) of Section 60642 to school districts and county boards of education in all of the following forms and formats:

(A) Grade level.

(B) School level.

(C) District level.

(D) Countywide.

(E) Statewide.

(F) Comparison of statewide scores relative to other states.

(6) Provide disaggregated scores, based on limited-English-proficient status and nonlimited-English-proficient status. For purposes of this section, pupils with “nonlimited-English-proficient status” shall include the total of those pupils who are English-only pupils, fluent-English-proficient pupils, and redesignated fluent-English-proficient pupils. These scores shall be provided to school districts and county boards of education in the same forms and formats listed in paragraph (5).

(7) Provide disaggregated scores by pupil gender and ethnicity and provide disaggregated scores based on whether pupils are economically disadvantaged or not. These disaggregated scores shall be in the same forms and formats as listed in paragraph (5). In any one year, the disaggregation shall entail information already being collected by school districts, county offices of education, or charter schools.

(8) Provide disaggregated scores for pupils who have individualized education programs and have enrolled in special education, to the extent required by federal law. These scores shall be provided in the same forms and formats listed in paragraph (5). This section shall not be construed to exclude the scores of special education pupils from any state or federal accountability system.

(9) Provide information listed in paragraphs (5), (6), (7), and (8) to the department and the state board in the medium requested by each entity, respectively.

(b) It is the intent of the Legislature that the publisher work with the Superintendent and the state board in developing a methodology to disaggregate statewide scores as required in paragraphs (6) and (7) of subdivision (a), and in determining which variable indicated on the STAR testing document shall serve as a proxy for “economically disadvantaged” status pursuant to paragraph (7).

(c) Access to any information about individual pupils or their families shall be granted to the publisher only for purposes of correctly associating test results with the pupils who produced those results or for reporting and disaggregating test results as required by this section. School districts are prohibited from excluding a pupil from the test if a parent or parents decline to disclose income. This chapter does not abridge or deny rights to confidentiality contained in the federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Sec. 1232g) or other applicable provisions of state and federal law that protect the confidentiality of information collected by educational institutions.

(d) Notwithstanding any other provision of law, the publisher of the achievement test designated pursuant to Section 60642, the publisher of the standards-based achievement test provided for in Section 60642.5, or any contractor under subdivision (f) shall comply with all of the conditions and requirements enumerated in subdivision (a), as applicable, to the satisfaction of the state board.

(e) (1) A publisher shall not provide a test described in Section 60642, 60642.5, or 60650 or in subdivision (f) of Section 60640 for use in California public schools, unless the publisher enters into a written contract with the department as set forth in this subdivision.

(2) The department shall develop, and the state board shall approve, a contract to be entered into with any publisher pursuant to paragraph (1). The department may develop the contract through negotiations with the publisher.

(3) For purposes of the contracts authorized pursuant to this subdivision, the department is exempt from the requirements of Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code and from the requirements of Article 6 (commencing with Section 999) of Chapter 6 of Division 4 of the Military and Veterans Code.

(4) The contracts shall include provisions for progress payments to the publisher for work performed or costs incurred in the performance of the contract. Not less than 10 percent of the amount budgeted for each separate and distinct component task provided for in each contract shall be withheld pending final completion of all component tasks by that publisher. The total amount withheld pending final completion shall not exceed 10 percent of the total contract price.

(5) The contracts shall require liquidated damages to be paid by the publisher in the amount of up to 10 percent of the total cost of the contract for any component task that the publisher through its own fault or that of its subcontractors fails to substantially perform by the date specified in the agreement.

(6) The contracts shall establish the process and criteria by which the successful completion of each component task shall be recommended by the department and approved by the state board.

(7) The publishers shall submit, as part of the contract negotiation process, a proposed budget and invoice schedule, that includes a detailed listing of the costs for each component task and the expected date of the invoice for each completed component task.

(8) The contracts shall specify the following component tasks, as applicable, that are separate and distinct:

(A) Development of new tests or test items as required by paragraph (2) of subdivision (a).

(B) Test materials production or publication.

- (C) Delivery of test materials to school districts.
- (D) Test processing, scoring, and analyses.
- (E) Reporting of test results to the school districts, including, but not limited to, all reports specified in this section.
- (F) Reporting of test results to the department, including, but not limited to, the electronic files required pursuant to this section.
- (G) All other analyses or reports required by the Superintendent to meet the requirements of state and federal law and set forth in the agreement.

(9) The contracts shall specify the specific reports and data files, if any, that are to be provided to school districts by the publisher and the number of copies of each report or file to be provided.

(10) The contracts shall specify the means by which any delivery date for materials to each school district shall be verified by the publisher and the school district.

(11) School districts may negotiate a separate agreement with the publisher for any additional materials or services not within the contracts specified in this subdivision, including, but not limited to, the administration of the tests to pupils in grade levels other than grades 2 to 11, inclusive. Any separate agreement is not within the scope of the contract specified in this subdivision.

(f) The department, with approval of the state board, may enter into a separate contract for the development or administration of any test authorized pursuant to this part, including, but not limited to, item development, coordination of tests, assemblage of tests or test items, scoring, or reporting. The liquidated damages provision set forth in paragraph (5) of subdivision (e) shall apply to any contract entered into pursuant to this subdivision.

(g) This section shall become inoperative on July, 1, 2011.

SEC. 26. Section 60643 of the Education Code, as added by Section 20 of Chapter 233 of the Statutes of 2004, is repealed.

SEC. 27. Section 60643.1 of the Education Code, as amended by Section 21 of Chapter 233 of the Statutes of 2004, is amended to read:

60643.1. (a) (1) The test publisher designated by the state board pursuant to Section 60642 shall make available a reading list on the Internet by June 1 of the applicable school year. The reading list shall include an index that correlates ranges of pupil reading scores on the English language arts portion of the achievement test designated pursuant to Section 60642 to titles of materials that would be suitable for pupils in each of grades 2 to 11, inclusive, to read in order to improve their reading skills. This reading list shall include titles of books that allow a pupil to practice reading at his or her current reading level and that will assist the pupil in achieving a higher level of proficiency. To the extent

possible, the index also shall include information related to the subject matter of each title. At a minimum, the reading list also shall categorize titles by subject matter and identify age-appropriate distinctions in the list.

(2) The test publisher, in each school year, shall make available for purchase by school districts a report that provides a numerical distribution of the reading scores of all pupils in California who took the achievement test designated pursuant to Section 60642.

(3) The test publisher, in each school year, shall make available for purchase by school districts reading lists that can be distributed to pupils based on a pupil's age and the ranges of scores on the English language arts portion of the achievement test designated pursuant to Section 60642.

(4) The requirements of this subdivision shall become operative only upon a determination by the Director of Finance that funds are available to make an adjustment pursuant to subdivision (h) of Section 60640.

(b) The state board and the Superintendent jointly shall certify that the process used by the publisher to determine the reading levels of the corresponding reading list pursuant to paragraph (1) of subdivision (a) meets the following criteria:

(1) The process is educationally valid.

(2) The process results in a reading list for each reading span that provides titles at the pupil's current reading level and the next higher level for challenging practice.

(3) The process results in a selection from the universe of titles from the list developed pursuant to subdivision (d) that matches each reading level.

(4) The process is unbiased in the selection of publishers' titles from the legal compliance list.

(c) The titles listed at each reading level range posted on the Internet and the reading lists made available to school districts pursuant to subdivision (a), at a minimum, shall include all relevant literature materials approved as of September 1, 1999, as being legally compliant pursuant to Article 3 (commencing with Section 60040) of Chapter 1 of Part 33, and the titles listed in all of the content area reading and literature lists that are developed and published by the department and that have been determined by the department to meet the relevant reading level as certified pursuant to subdivision (b).

(d) By imposing the requirements of this section on publishers, it is not the intent of the Legislature to unfairly disadvantage any publisher who has otherwise met the requirements of this section or of Article 3 (commencing with Section 60040) of Chapter 1 of Part 33.

(e) This section shall become inoperative on July, 1, 2011.

SEC. 28. Section 60643.1 of the Education Code, as added by Section 22 of Chapter 233 of the Statutes of 2004, is repealed.

SEC. 29. Section 60810 of the Education Code is amended to read:

60810. (a) (1) The Superintendent shall review existing tests that assess the English language development of pupils whose primary language is a language other than English. The tests shall include, but not be limited to, an assessment of achievement of these pupils in English reading, speaking, and written skills. The Superintendent shall determine which tests, if any, meet the requirements of subdivisions (b) and (c). If any existing test or series of tests meets these criteria, the Superintendent, with approval of the state board, shall report to the Legislature on its findings and recommendations.

(2) If no suitable test exists, the Superintendent shall explore the option of a collaborative effort with other states to develop a test or series of tests and share test development costs. If no suitable test exists, the Superintendent, with approval of the state board, may contract to develop a test or series of tests that meets the criteria of subdivisions (b) and (c) or may contract to modify an existing test or series of tests so that it will meet the requirements of subdivisions (b) and (c).

(3) The Superintendent and the state board shall release a request for proposals for the development of the test or series of tests required by this subdivision. The state board shall select a contractor or contractors for the development of the test or series of tests required by this subdivision, to be available for administration during the 2000–01 school year.

(4) The Superintendent shall apportion funds appropriated to enable school districts to meet the requirements of subdivision (d). The state board shall establish the amount of funding to be apportioned per test administered, based on a review of the cost per test.

(5) An adjustment to the amount of funding to be apportioned per test is not valid without the approval of the Director of Finance. A request for approval of an adjustment to the amount of funding to be apportioned per test shall be submitted in writing to the Director of Finance and the chairpersons of the fiscal committees of both houses of the Legislature with accompanying material justifying the proposed adjustment. The Director of Finance is authorized to approve only those adjustments related to activities required by statute. The Director of Finance shall approve or disapprove the amount within 30 days of receipt of the request and shall notify the chairpersons of the fiscal committees of both houses of the Legislature of the decision.

(b) (1) The test or series of tests developed or acquired pursuant to subdivision (a) shall have sufficient range to assess pupils in grades 2 to 12, inclusive, in English listening, speaking, reading, and writing

skills. Pupils in kindergarten and grade 1 shall be assessed in English listening and speaking, and, once an assessment is developed, early literacy skills. The early literacy assessment shall be administered for a period of three years beginning after the initial administration of the assessment or until July 1, 2012, whichever occurs first. Six months after the results of the last administered assessment are collected, but no later than January 1, 2013, the department shall report to the Legislature on the administration of the kindergarten and grade 1 early literacy assessment results, as well as on the administrative process, in order to determine whether reauthorization of the early literacy assessment is appropriate.

(2) In the development and administration of the assessment for pupils in kindergarten and grade 1, the department shall minimize any additional assessment time, to the extent possible. To the extent that it is technically possible, items that are used to assess listening and speaking shall be used to measure early literacy skills. The department shall ensure that the test and procedures for its administration are age and developmentally appropriate. Age and developmentally appropriate procedures for administration may include, but are not limited to, one-on-one administration, a small group setting, and orally responding or circling a response to a question.

(c) The test or series of tests shall meet all of the following requirements:

The department may use the funding provided in Section 28 of Chapter 7 of the Statutes of 2007 to complete the site assessments. After completing these site assessments the department shall define the scope and costs of each project pursuant to subdivision (d). This authorization is in addition to the authorization in subdivision (a) of Section 15891.40. Any new beds constructed shall be supported by rehabilitative programming for inmates, including, but not limited to, education, vocational programs, substance abuse treatment programs, employment programs, and prerelease planning. The Department of Corrections and Rehabilitation is authorized to design, construct, or renovate prison housing units, prison support buildings, and programming space in order to add approximately 4,000 beds at existing prison facilities. This authorization is in addition to the authorization in subdivision (a) of Section 15819.40. Any new beds constructed shall be supported by rehabilitative programming for inmates, including, but not limited to, education, vocational programs, substance abuse treatment programs, employment programs, and prerelease planning. The authority contained in this subparagraph together with the funds appropriated in Section 15819.413 for this purpose, shall constitute the scope and cost of a single capital outlay project for purposes of calculating augmentations pursuant to Section 13332.11 as described in Section 15819.411.

(b) The Department of Corrections and Rehabilitation is authorized to design and construct new, or renovate existing buildings at facilities under the jurisdiction of the department to provide medical, dental, and mental health treatment or housing for approximately 2,000 inmates. This authorization is in addition to the authorization in subdivision (c) of Section 15819.40. The authority contained in this subparagraph together with the funds appropriated in Section 15819.413 for this purpose, shall constitute the scope and cost of a single capital outlay project for purposes of calculating augmentations pursuant to Section 13332.11 as described in Section 15819.411.

(c) The Department of Corrections and Rehabilitation is authorized to construct, establish, and operate reentry program facilities throughout the state that will house approximately 10,000 inmates pursuant to Section 6271.1 of the Penal Code, and together with the funds appropriated in Section 15819.413 for this purpose, this shall constitute the scope and cost of a single capital outlay project for purposes of

calculating augmentations pursuant to Section 13332.11 as described in Section 15819.411.

(d) (1) The reporting requirements set forth in Sections 7000 to 7003.5, inclusive, of the Penal Code, shall apply separately to each institution or facility. The scope and cost of the project for each institution or facility shall be established by the State Public Works Board individually. The amount of the total appropriations in Section 15819.413 that is necessary for each project shall be allocated to each institution or facility project. The appropriations may be allocated based on current estimates. These initial allocations may be adjusted commensurate to changes that occur during the progression of the projects. As allocations are made or adjusted, the anticipated deficit or savings shall be continuously traced and reported. Once the total appropriation has been allocated, any augmentation necessary to fund an anticipated deficit shall be based on the total applicable capital outlay appropriation in Section 15819.413 and applied to each project allocation as necessary.

(2) For each institution, the department shall report to the Joint Legislative Budget Committee, identifying those projects that the department proposes to undertake, and any support buildings, and programming space to support approximately 4,000 new beds at existing institutions. For each institution, the department shall describe the scope, budget, schedule, number of beds by security level, along with approximate square footage of prison support buildings, and programming space to be constructed or renovated. If after providing these reports, the committee fails to take any action with respect to each report within 30 days after submittal, this inaction shall be deemed to be approval for purposes of this section, and the department is authorized to proceed to design, construct, or renovate prison housing units, support buildings, and programming space for each institution for which a report has been approved.

(3) The Department of Corrections and Rehabilitation shall notify the Joint Legislative Budget Committee 45 days prior to the submission of preliminary plans to the board for each project authorized in this section. If after providing these notifications, the committee fails to take any action with respect to each report within 45 days after submittal, this inaction shall be deemed to be approval for purposes of this section, and the department is authorized to design, construct, or renovate prison housing units, support buildings, and programming space for each institution for which a report has been approved.

(4) The Department of Corrections and Rehabilitation shall report quarterly to the Joint Legislative Budget Committee on the allocations from the appropriations in Section 15819.413 and the anticipated deficit or savings. Each reentry program facility authorized under subdivision

(c) shall be considered to be a separate project. Each medical, mental health, or dental building improvement authorized under subdivision (b) shall be considered to be a separate project, except that building improvements that have a related purpose and that are located at the same prison may be considered one project, for reporting purposes pursuant to Sections 7000 and 7003.5 of the Penal Code.

SEC. 4. Section 15819.411 of the Government Code is amended to read:

15819.411. The scope and costs of the projects authorized by this chapter shall be subject to approval and administrative oversight by the State Public Works Board, including augmentations, pursuant to Section 13332.11. For purposes of this chapter, the availability of an augmentation for each individual project allocation shall be calculated based on the total applicable capital outlay appropriation contained in Section 15819.413 and is not limited to 20 percent of the individual project allocation.

SEC. 5. Section 15820.907 of the Government Code is amended to read:

15820.907. (a) Participating county matching funds for projects funded under this chapter shall be a minimum of 25 percent of the total project costs. The CSA may reduce matching fund requirements for participating counties with a general population below 200,000 upon petition by a participating county to the CSA requesting a lower level of matching funds.

(b) The CDCR and CSA shall give funding preference to counties that assist the state in siting reentry facilities, pursuant to Section 6270. The CSA shall, to the extent possible, ensure that funds for the construction of new jail beds be coordinated with CDCR's efforts to site new reentry facilities.

(c) The CDCR and CSA shall give funding preference to counties that assist the state in siting mental health day treatment and crisis care, pursuant to Section 3073 of the Penal Code, and to counties that provide a continuum of care so that parolees with mental health and substance abuse needs can continue to receive services at the conclusion of their period of parole.

SEC. 6. Section 1557 of the Penal Code is amended to read:

1557. (a) This section shall apply when this state or a city, county, or city and county employs a person to travel to a foreign jurisdiction outside this state for the express purpose of returning a fugitive from justice to this state when the Governor of this state, in the exercise of the authority conferred by Section 2 of Article IV of the United States Constitution, or by the laws of this state, has demanded the surrender of

the fugitive from the executive authority of any state of the United States, or of any foreign government.

(b) Upon the approval of the Governor, the State Controller shall audit and pay out of the State Treasury as provided in subdivision (c) or (d) the accounts of the person employed to bring back the fugitive, including any money paid by that person for all of the following:

(1) Money paid to the authorities of a sister state for statutory fees in connection with the detention and surrender of the fugitive.

(2) Money paid to the authorities of the sister state for the subsistence of the fugitive while detained by the sister state without payment of which the authorities of the sister state refuse to surrender the fugitive.

(3) Where it is necessary to present witnesses or evidence in the sister state, without which the sister state would not surrender the fugitive, the cost of producing the witnesses or evidence in the sister state.

(4) Where the appearance of witnesses has been authorized in advance by the Governor, who may authorize the appearance in unusual cases where the interests of justice would be served, the cost of producing witnesses to appear in the sister state on behalf of the fugitive in opposition to his or her extradition.

(c) No amount shall be paid out of the State Treasury to a city, county, or city and county except as follows:

(1) When a warrant has been issued by any magistrate after the filing of a complaint or the finding of an indictment and its presentation to the court and filing by the clerk, and the person named therein as defendant is a fugitive from justice who has been found and arrested in any state of the United States or in any foreign government, the county auditor shall draw his or her warrant and the county treasurer shall pay to the person designated to return the fugitive, the amount of expenses estimated by the district attorney to be incurred in the return of the fugitive.

(2) If the person designated to return the fugitive is a city officer, the city officer authorized to draw warrants on the city treasury shall draw his or her warrant and the city treasurer shall pay to that person the amount of expenses estimated by the district attorney to be incurred in the return of the fugitive.

(3) The person designated to return the fugitive shall make no disbursements from any funds advanced without a receipt being obtained therefor showing the amount, the purpose for which the sum is expended, the place, the date, and to whom paid.

(4) A receipt obtained pursuant to paragraph (3) shall be filed by the person designated to return the fugitive with the county auditor or appropriate city officer or State Controller, as the case may be, together with an affidavit by the person that the expenditures represented by the receipts were necessarily made in the performance of duty, and when

the advance has been made by the county or city treasurer to the person designated to return the fugitive, and has thereafter been audited by the State Controller, the payment thereof shall be made by the State Treasurer to the county or city treasury that has advanced the funds.

(5) In every case where the expenses of the person employed to bring back the fugitive as provided in this section, are less than the amount advanced on the recommendation of the district attorney, the person employed to bring back the fugitive shall return to the county or city treasurer, as appropriate, the difference in amount between the aggregate amount of receipts so filed by him or her, as herein employed, and the amount advanced to the person upon the recommendation of the district attorney.

(6) When no advance has been made to the person designated to return the fugitive, the sums expended by him or her, when audited by the State Controller, shall be paid by the State Treasurer to the person so designated.

(7) Any payments made out of the State Treasury pursuant to this section shall be made from appropriations for the fiscal year in which those payments are made.

(d) Payments to state agencies will be made in accord with the rules of the California Victim Compensation and Government Claims Board. No city, county, or other jurisdiction may file, and the state may not reimburse, a claim pursuant to this section that is presented to the Department of Corrections and Rehabilitation or to any other agency or department of the state more than six months after the close of the month in which the costs were incurred.

The funds appropriated by that section may be used for land acquisition, environmental services, architectural programming, engineering assessments, schematic design, preliminary plans, working drawings, and construction.

(2) These funds may also be used to address deficiencies related to utility systems owned by local government entities and serving state prison facilities subject to the provisions of Section 54999 of the Government Code. The department shall report on any funds to be expended for this purpose to the Joint Legislative Budget Committee. If the committee fails to take any action with respect to each notification within 20 days after submittal, this inaction shall be deemed to be approval for purposes of this section.

(3) This subsection authorizes the scope and cost of a single capital outlay project for purposes of calculating augmentations pursuant to Section 13332.11.

(b) The scope and costs of the projects described in subdivision (a) of this section shall be subject to approval and administrative oversight by the State Public Works Board, including augmentations, pursuant to Section 13332.11 of the Government Code. The availability of an augmentation for each individual project allocation shall be based on the total applicable capital outlay appropriation contained in Section 28 of Chapter 7 of the Statutes of 2007 and is not limited to 20 percent of the individual project allocation. These requirements shall be applied separately to each institution. All of the necessary infrastructure improvements at each institution may be treated as one project such that there would be one infrastructure improvement project at each institution. The scope and cost of each infrastructure improvement project shall be established by the board individually. The amount of the total appropriation in Section 28 of Chapter 7 of the Statutes of 2007 that is necessary for each infrastructure improvement project shall be allocated by institution. The appropriation may be allocated based on current estimates. These initial allocations may be adjusted commensurate to changes that occur during the progression of the projects. As allocations are made or adjusted, the anticipated deficit or savings shall be continuously tracked and reported. Once the total appropriation has been allocated, any augmentation necessary to fund an anticipated deficit shall be based on the total appropriation and allocated to each project as necessary. The Joint Legislative Budget Committee shall be notified 30 days prior to the establishment of scope, schedule, and cost for each project by the board. The Department of Corrections and Rehabilitation

shall notify the Joint Legislative Budget Committee 45 days prior to the submission of preliminary plans to the board for each project. The Department of Corrections and Rehabilitation shall report on the allocations from the appropriation in Section 28 of Chapter 7 of the Statutes of 2007 and the anticipated deficit or savings to the Joint Legislative Budget Committee quarterly.

(c) The scope and costs of the projects described in subdivision (a) shall be part of the Department of Corrections and Rehabilitation's Master Plan, as defined in Section 7000.

SEC. 18. Section 208.5 of the Welfare and Institutions Code is amended to read:

208.5. (a) Notwithstanding any other law, in any case in which a minor who is detained in or committed to a county institution established for the purpose of housing juveniles attains 18 years of age prior to or during the period of detention or confinement he or she may be allowed to come or remain in contact with those juveniles until 19 years of age, at which time he or she, upon the recommendation of the probation officer, shall be delivered to the custody of the sheriff for the remainder of the time he or she remains in custody, unless the juvenile court orders continued detention in a juvenile facility. If continued detention is ordered for a ward under the jurisdiction of the juvenile court who is 19 years of age or older but under 21 years of age, the detained person may be allowed to come into or remain in contact with any other person detained in the institution subject to the requirements of subdivision (b). The person shall be advised of his or her ability to petition the court for continued detention in a juvenile facility at the time of his or her attainment of 19 years of age. Notwithstanding any other law, the sheriff may allow the person to come into and remain in contact with other adults in the county jail or in any other county correctional facility in which he or she is housed.

(b) The county shall apply to the Corrections Standards Authority for approval of a county institution established for the purpose of housing juveniles as a suitable place for confinement before the institution is used for the detention or commitment of an individual under the jurisdiction of the juvenile court who is 19 years of age or older but

under 21 years of age where the detained person will come into or remain in contact with persons under 18 years of age who are detained in the institution. The authority shall review and approve or deny the application of the county within 30 days of receiving notice of this proposed use. In its review, the authority shall take into account the available programming, capacity, and safety of the institution as a place for the combined confinement and rehabilitation of individuals under the jurisdiction of the juvenile court who are over 19 years of age and those who are under 19 years of age.

SEC. 19. Section 731 of the Welfare and Institutions Code is amended to read:

731. (a) If a minor is adjudged a ward of the court on the ground that he or she is a person described by Section 602, the court may order any of the types of treatment referred to in Sections 727 and 730 and, in addition, may do any of the following:

(1) Order the ward to make restitution, to pay a fine up to two hundred fifty dollars (\$250) for deposit in the county treasury if the court finds that the minor has the financial ability to pay the fine, or to participate in uncompensated work programs.

(2) Commit the ward to a sheltered-care facility.

(3) Order that the ward and his or her family or guardian participate in a program of professional counseling as arranged and directed by the probation officer as a condition of continued custody of the ward.

(4) Commit the ward to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, if the ward has committed an offense described in subdivision (b) of Section 707.

(b) A ward committed to the Division of Juvenile Facilities may not be held in physical confinement for a period of time in excess of the maximum period of imprisonment that could be imposed upon an adult convicted of the offense or offenses that brought or continued the minor under the jurisdiction of the juvenile court. A ward committed to the Division of Juvenile Facilities also may not be held in physical confinement for a period of time in excess of the maximum term of physical confinement set by the court based upon the facts and circumstances of the matter or matters that brought or continued the ward under the jurisdiction of the juvenile court, which may not exceed the maximum period of adult confinement as determined pursuant to this section. This section does not limit the power of the Juvenile Parole Board to retain the ward on parole status for the period permitted by Section 1769.

SEC. 20. Section 731.1 is added to the Welfare and Institutions Code, to read:

731.1. Notwithstanding any other law, the court committing a ward to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, may recall that commitment in the case of any ward whose commitment offense was not an offense listed in subdivision (b) of Section 707, unless the offense was a sex offense set forth in paragraph (3) of subdivision (d) of Section 290 of the Penal Code, and who remains confined in an institution operated by the division as of September 1, 2007. Upon recall of the ward, the court shall set and convene a recall disposition hearing for the purpose of ordering an alternative disposition for the ward that is appropriate under all of the circumstances prevailing in the case. Pending the recall disposition hearing, the ward shall be detained or housed in the manner and place, consistent with the requirements of law, as may be directed by the court in its order of recall.

SEC. 21. Section 733 of the Welfare and Institutions Code is repealed.

SEC. 22. Section 733 is added to the Welfare and Institutions Code, to read:

733. A ward of the juvenile court who meets any condition described below shall not be committed to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities:

(a) The ward is under 11 years of age.

(b) The ward is suffering from any contagious, infectious, or other disease that would probably endanger the lives or health of the other inmates of any facility.

(c) The ward has been or is adjudged a ward of the court pursuant to Section 602, and the most recent offense alleged in any petition and admitted or found to be true by the court is not described in subdivision (b) of Section 707, unless the offense is a sex offense set forth in paragraph (3) of subdivision (d) of Section 290 of the Penal Code. This subdivision shall be effective on and after September 1, 2007.

SEC. 23. Section 736 of the Welfare and Institutions Code is amended to read:

736. (a) Except as provided in Section 733, the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, shall accept a ward committed to it pursuant to this article if the Chief Deputy Secretary for the Division of Juvenile Justice believes that the ward can be materially benefitted by the division's reformatory and educational discipline, and if the division has adequate facilities, staff, and programs to provide that care. A ward subject to this section shall not be transported to any facility under the jurisdiction of the division until the superintendent of the facility has notified the committing court of the place to which that ward is to be transported and the time at which he or she can be received.

(b) To determine who is best served by the Division of Juvenile Facilities, and who would be better served by the State Department of Mental Health, the Chief Deputy Secretary for the Division of Juvenile Justice and the Director of the State Department of Mental Health shall, at least annually, confer and establish policy with respect to the types of cases that should be the responsibility of each department.

SEC. 24. Section 1731.5 of the Welfare and Institutions Code is amended to read:

1731.5. (a) After certification to the Governor as provided in this article, a court may commit to the Division of Juvenile Facilities any person who meets all of the following:

(1) Is convicted of an offense described in subdivision (b) of Section 707 or paragraph (3) of subdivision (d) of Section 290 of the Penal Code.

(2) Is found to be less than 21 years of age at the time of apprehension.

(3) Is not sentenced to death, imprisonment for life, with or without the possibility of parole, whether or not pursuant to Section 190 of the Penal Code, imprisonment for 90 days or less, or the payment of a fine, or after having been directed to pay a fine, defaults in the payment thereof, and is subject to imprisonment for more than 90 days under the judgment.

(4) Is not granted probation, or was granted probation and that probation is revoked and terminated.

(b) The Division of Juvenile Facilities shall accept a person committed to it pursuant to this article if it believes that the person can be materially benefited by its reformatory and educational discipline, and if it has adequate facilities to provide that care.

(c) Any person under 18 years of age who is not committed to the division pursuant to this section may be transferred to the authority by the Secretary of the Department of Corrections and Rehabilitation with the approval of the Chief Deputy Secretary for the Division of Juvenile Justice. In sentencing a person under 18 years of age, the court may order that the person shall be transferred to the custody of the Division of Juvenile Facilities pursuant to this subdivision. If the court makes this order and the division fails to accept custody of the person, the person shall be returned to court for resentencing. The transfer shall be solely for the purposes of housing the inmate, allowing participation in the programs available at the institution by the inmate, and allowing division parole supervision of the inmate, who, in all other aspects shall be deemed to be committed to the Department of Corrections and Rehabilitation and shall remain subject to the jurisdiction of the Secretary of the Department of Corrections and Rehabilitation and the Juvenile Parole Board. Notwithstanding subdivision (b) of Section 2900 of the Penal Code, the secretary, with the concurrence of the chief deputy secretary,

may designate a facility under the jurisdiction of the chief deputy secretary as a place of reception for any person described in this subdivision.

The chief deputy secretary shall have the same powers with respect to an inmate transferred pursuant to this subdivision as if the inmate had been committed or transferred to the Division of Juvenile Facilities either under the Arnold-Kennick Juvenile Court Law or subdivision (a).

The duration of the transfer shall extend until any of the following occurs:

(1) The chief deputy secretary orders the inmate returned to the Department of Corrections and Rehabilitation.

(2) The inmate is ordered discharged by the Juvenile Parole Board.

(3) The inmate reaches 18 years of age. However, if the inmate's period of incarceration would be completed on or before the inmate's 21st birthday, the chief deputy secretary may continue to house the inmate until the period of incarceration is completed.

SEC. 25. Section 1766 of the Welfare and Institutions Code is amended to read:

1766. (a) Subject to Sections 733 and 1767.35, and subdivision (b) of this section, if a person has been committed to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, the Juvenile Parole Board, according to standardized review and appeal procedures established by the board in policy and regulation and subject to the powers and duties enumerated in subdivision (a) of Section 1719, may do any of the following:

(1) Permit the ward his or her liberty under supervision and upon conditions it believes are best designed for the protection of the public.

(2) Order his or her confinement under conditions it believes best designed for the protection of the public pursuant to the purposes set forth in Section 1700, except that a person committed to the division pursuant to Sections 731 or 1731.5 may not be held in physical confinement for a total period of time in excess of the maximum periods of time set forth in Section 731. Nothing in this subdivision limits the power of the board to retain the minor or the young adult on parole status for the period permitted by Sections 1769, 1770, and 1771.

(3) Order reconfinement or renewed release under supervision as often as conditions indicate to be desirable.

(4) Revoke or modify any parole or disciplinary appeal order.

(5) Modify an order of discharge if conditions indicate that such modification is desirable and when that modification is to the benefit of the person committed to the division.

(6) Discharge him or her from its control when it is satisfied that discharge is consistent with the protection of the public.

(b) The county of commitment shall supervise the parole of any ward released on parole on or after September 1, 2007, who was committed to the custody of the division for committing an offense other than those described in subdivision (b) of Section 707. The division shall have no further jurisdiction over a ward who is released on parole under the supervision of a county pursuant to this section. Upon receipt of the ward by the county, the court shall set and convene a parole disposition hearing for the purpose of identifying and ordering those parole conditions that are appropriate under all of the circumstances prevailing in the case and best designed for the protection of the public.

(c) Within 60 days of intake, the division shall provide the court and the probation department with a treatment plan for the ward.

(d) A ward shall be entitled to an appearance hearing before a panel of board commissioners for any action that would result in the extension of a parole consideration date pursuant to subdivision (d) of Section 5076.1 of the Penal Code.

(e) The department shall promulgate policies and regulations to implement this section.

(f) Commencing on July 1, 2004, and annually thereafter, for the preceding fiscal year, the department shall collect and make available to the public the following information:

(1) The total number of ward case reviews conducted by the division and the board, categorized by guideline category.

(2) The number of parole consideration dates for each category set at guideline, above guideline, and below guideline.

(3) The number of ward case reviews resulting in a change to a parole consideration date, including the category assigned to the ward, the amount of time added to or subtracted from the parole consideration date, and the specific reason for the change.

(4) The percentage of wards who have had a parole consideration date changed to a later date, the percentage of wards who have had a parole consideration date changed to an earlier date, and the average annual time added or subtracted per case.

(5) The number and percentage of wards who, while confined or on parole, are charged with a new misdemeanor or felony criminal offense.

(6) Any additional data or information identified by the department as relevant.

(g) As used in subdivision (f), the term "ward case review" means any review of a ward that changes, maintains, or appreciably affects the programs, treatment, or placement of a ward.

SEC. 26. Section 1767.3 of the Welfare and Institutions Code is amended to read:

1767.3. (a) The Juvenile Parole Board may suspend, cancel, or revoke any parole and may order returned to custody, as specified in Section 1767.35, any person under the jurisdiction of the Division of Juvenile Parole Operations.

(b) The written order of the Chief Deputy Secretary for the Division of Juvenile Justice is a sufficient warrant for any peace officer to return to custody any person under the jurisdiction of the Division of Juvenile Parole Operations.

(c) The written order of the Chief Deputy Secretary for the Division of Juvenile Justice is a sufficient warrant for any peace officer to return to custody, pending further proceedings before the Juvenile Parole Board, any person under the jurisdiction of the Division of Juvenile Parole Operations, or for any peace officer to return to custody any person who has escaped from the custody of the Division of Juvenile Facilities or from any institution or facility in which he or she has been placed by the division.

(d) All peace officers shall execute the orders in like manner as a felony warrant.

SEC. 27. Section 1767.35 is added to the Welfare and Institutions Code, to read:

1767.35. Commencing on September 1, 2007, any parolee under the jurisdiction of the Division of Juvenile Parole Operations shall be returned to custody upon the suspension, cancellation, or revocation of parole as follows:

(a) To the custody of the Division of Juvenile Facilities if the parolee is under the jurisdiction of the division for the commission of an offense described in subdivision (b) of Section 707.

(b) To the county of commitment if the parolee is under the jurisdiction of the division for the commission of an offense not described in subdivision (b) of Section 707.

SEC. 28. Section 1776 of the Welfare and Institutions Code is amended to read:

1776. Whenever an alleged parole violator is detained in a county detention facility pursuant to a valid exercise of the powers of the Department of Corrections and Rehabilitation as specified in Sections 1753, 1755, and 1767.3 and when such detention is initiated by the Department of Corrections and Rehabilitation and is related solely to a violation of the conditions of parole and is not related to a new criminal charge, the county shall be reimbursed for the costs of such detention by the Department of the Department of Corrections and Rehabilitation. Such reimbursement shall be expended for maintenance, upkeep, and improvement of juvenile hall and jail conditions, facilities, and services. Before the county is reimbursed by the department, the total amount of

all charges against that county authorized by law for services rendered by the department shall be first deducted from the gross amount of the reimbursement authorized by this section. Such net reimbursement shall be calculated and paid monthly by the department. The department shall withhold all or part of such net reimbursement to a county whose juvenile hall or jail facility or facilities do not conform to minimum standards for local detention facilities as authorized by Section 6030 of the Penal Code or Section 210 of this code.

“Costs of such detention,” as used in this section, shall include the same cost factors as are utilized by the Department of Corrections and Rehabilitation in determining the cost of prisoner care in state correctional facilities.

No city, county, or other jurisdiction may file, and the state may not reimburse, a claim pursuant to this section that is presented to the Department of Corrections and Rehabilitation or to any other agency or department of the state more than six months after the close of the month in which the costs were incurred.

SEC. 29. Section 1798.5 of the Welfare and Institutions Code is amended to read:

1798.5. (a) Commencing July 1, 2005, there is hereby established within the Department of Corrections and Rehabilitation the State Commission on Juvenile Justice. The purpose of the commission is to provide comprehensive oversight, planning, and coordination of efforts, which enhance the partnership and performance of state and local agencies in effectively preventing and responding to juvenile crime.

(b) The commission shall be composed of 12 members, and shall include all of the following:

(11) An attorney with expertise in the area of juvenile justice policy, appointed by the Senate Committee on Rules.

(12) A director of a county mental health agency, appointed by the statewide organization representing county mental health directors.

(c) This section shall remain in effect only until January 1, 2009, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2009, deletes or extends that date.

SEC. 30. Chapter 1.5 (commencing with Section 1950) is added to Division 2.5 of the Welfare and Institutions Code, to read:

CHAPTER 1.5. YOUTHFUL OFFENDER BLOCK GRANT PROGRAM

Article 1. General Provisions

1950. The purpose of this chapter is to enhance the capacity of local communities to implement an effective continuum of response to juvenile crime and delinquency.

1951. (a) There is hereby established the Youthful Offender Block Grant Fund.

(b) Allocations from the Youthful Offender Block Grant Fund shall be used to enhance the capacity of county probation, mental health, drug and alcohol, and other county departments to provide appropriate rehabilitative and supervision services to youthful offenders subject to Sections 731.1, 733, 1766, and 1767.35. Counties, in expending the Youthful Offender Block Grant allocation, shall provide all necessary services related to the custody and parole of the offenders.

(c) The county of commitment is relieved of obligation for any payment to the state pursuant to Section 912, 912.1, or 912.5 for each offender who is not committed to the custody of the state solely pursuant to subdivision (c) of Section 733, and for each offender who is supervised by the county of commitment pursuant to subdivision (b) of Section 1766 or subdivision (b) of Section 1767.35.

1952. For the 2007–08 fiscal year, all of the following shall apply:

(a) An amount equal to the total of all of the following shall be transferred from the General Fund to the Youthful Offender Block Grant Fund:

(1) One hundred seventeen thousand dollars (\$117,000) per ward multiplied by the average daily population (ADP) for the year for wards

who are not committed to the custody of the state pursuant to subdivision (c) of Section 733, and Sections 731.1 and 1767.35.

(2) Fifteen thousand dollars (\$15,000) per parolee multiplied by the ADP for the year for parolees who are supervised by the county of commitment pursuant to subdivision (b) of Section 1766 or subdivision (b) of Section 1767.35.

(3) An amount equal to 5 percent of the total of paragraphs (1) and (2). This amount shall be reserved by the Controller for distribution by the Department of Finance, upon recommendation of the Corrections Standards Authority, in collaboration with the Division of Juvenile Facilities, for unforeseen circumstances associated with the implementation of the act that added this chapter. This amount is a one-time allocation and shall not be built into the base described in subdivision (a) of Section 1953 unless the Department of Finance finds a continuation of unforeseen circumstances. A county that wishes to seek funds from this reserved amount shall submit a request to the Corrections Standards Authority that outlines the unusual circumstances that exist in the county and why the county's Youthful Offender Block Grant is inadequate to meet the county financial needs to accommodate and supervise youthful offenders pursuant to the act that added this chapter.

(b) The Director of Finance shall determine the total amount of the block grant, pursuant to the formula specified in subdivision (a), and the allocation for each county, pursuant to Section 1955, and shall report those findings to the Controller. The Controller shall make an allocation from the Youthful Offender Block Grant Fund to each county in accordance with the report.

(c) Any portion of the funds described in paragraph (3) of subdivision (a) that is unused during the 2007–08 fiscal year shall revert to the General Fund.

1953. For the 2008–09 fiscal year, the total of the following amounts shall be transferred from the General Fund to the Youthful Offender Block Grant Fund:

(a) The amount transferred to the Youthful Offender Block Grant Fund for the 2007–08 fiscal year, as described in subdivision (a) of Section 1952, adjusted to account for full-year impacts.

(b) One hundred seventeen thousand dollars (\$117,000) per ward multiplied by the ADP for the year for wards who are not committed to the custody of the state pursuant to subdivision (c) of Section 733, and Sections 731.1 and 1767.35.

(c) Fifteen thousand dollars (\$15,000) per parolee based on ADP for the year for parolees who are supervised by the county of commitment pursuant to subdivision (b) of Section 1766.

1954. For the 2009–10 fiscal year, and each year thereafter, an amount shall be transferred from the General Fund to the Youthful Offender Block Grant Fund equal to that amount transferred to the Youthful Offender Block Grant Fund for the 2008–09 fiscal year, as described in subdivisions (a), (b), and (c) of Section 1953, adjusted to account for full-year impact.

1955. (a) The allocation amount for each county from the Youthful Offender Block Grant Fund shall be distributed as follows:

(1) Fifty percent based on the number of the county’s juvenile felony court dispositions, according to the most recent data compiled by the Department of Justice, calculated as a percentage of the state total.

(2) Fifty percent based on the county’s population of minors from 10 to 17 years of age, inclusive, according to the most recent data published by the Department of Justice, calculated as a percentage of the state total.

(b) Each county shall receive a minimum block grant allocation of fifty-eight thousand five hundred dollars (\$58,500).

(c) Commencing with the 2008–09 fiscal year, allocations shall be available to counties that have met the requirements of Section 1961.

Article 2. Performance and Accountability

1960. The Legislature finds and declares that local youthful offender justice programs, including both custodial and noncustodial corrective services, are better suited to provide rehabilitative services for certain youthful offenders than state-operated facilities. Local communities are better able than the state to provide these offenders with the programs they require, in closer proximity to their families and communities, including, but not limited to, all of the following:

(a) Implementing risk and needs assessment tools and evaluations to assist in the identification of appropriate youthful offender dispositions and reentry plans.

(b) Placements in secure and semisecure youthful offender rehabilitative facilities and in private residential care programs, with or without foster care waivers, supporting specialized programs for youthful offenders.

(c) Nonresidential dispositions such as day or evening treatment programs, community service, restitution, and drug-alcohol and other counseling programs based on an offender’s assessed risks and needs.

(d) House arrest, electronic monitoring, and intensive probation supervision programs.

(e) Reentry and aftercare programs based on individual aftercare plans for each offender who is released from a public or private placement or confinement facility.

(f) Capacity building strategies to upgrade the training and qualifications of juvenile justice and probation personnel serving the juvenile justice caseload.

(g) Regional program and placement networks, including direct brokering and placement locating networks to facilitate out-of-county dispositions for counties lacking programs or facilities.

1960.5. (a) The State Commission on Juvenile Justice, pursuant to Section 1798.5, shall develop a Juvenile Justice Operational Master Plan. On or before January 1, 2009, the commission shall develop and make available for implementation by the counties the following strategies:

(1) Risk and needs assessment tools to evaluate the programming and security needs of all youthful offenders and at-risk youth.

(2) Juvenile justice universal data collection elements, which shall be common to all counties.

(3) Criteria and strategies to promote a continuum of evidence-based responses to youthful offenders.

(b) In drafting the Juvenile Justice Operational Master Plan, the commission shall take into consideration both of the following:

(1) Evidence-based programs and risk and needs assessment tools currently in use by the counties.

(2) The costs of implementing these strategies.

(c) On or before May 1, 2008, the commission shall provide an interim report to the Legislature, which shall include the status of the work of the commission and the strategies it has identified to date.

1961. On or before January 1, 2008, each county shall prepare and submit to the Corrections Standards Authority for approval a Juvenile Justice Development Plan for youthful offenders who have not committed an offense described in subdivision (b) of Section 707 and are in the custody of the county commencing September 1, 2007. The plan shall include both of the following:

(a) A description of the programs, placements, services, or strategies to be funded by the block grant allocation pursuant to this chapter, including, but not limited to, the programs, tools, and strategies outlined in Section 1960.

(b) A description of any regional agreements or arrangements to be supported by the block grant allocation pursuant to this chapter.

(c) A description of how these new programs coordinate with programs under Chapter 353 of the Statutes of 2000 (A.B. 1913).

1962. (a) The Corrections Standards Authority, in consultation with the Division of Juvenile Facilities, may provide technical assistance to counties, including, but not limited to, regional workshops, prior to issuing any Request for Proposal.

(b) The Corrections Standards Authority may monitor and inspect any programs or facilities supported by block grant funds allocated pursuant to this chapter and may enforce violations of grant requirements with suspensions or cancellations of grant funds.

Article 3. Local Youthful Offender Rehabilitative Facility Construction Grants

1970. For the purposes of this article, “participating county” means any county, or regional consortium of counties, within the state that has been certified to the State Public Works Board by the Correction Standards Authority as having satisfied all of the requirements set forth in Section 1975 for financing a local youthful offender rehabilitative facility pursuant to this article.

1971. (a) The Department of Corrections and Rehabilitation, a participating county, and the State Public Works Board are authorized to acquire, design, renovate, or construct a local youthful offender rehabilitative facility approved by the Correction Standards Authority pursuant to Section 1975, or a site or sites owned by, or subject to a lease or option to purchase held by a participating county. The ownership interest of a participating county in the site or sites for a local youthful offender rehabilitative facility shall be determined by the board to be adequate for purposes of its financing in order to be eligible under this article.

(b) Notwithstanding Section 15815 of the Government Code, a participating county may acquire, design, renovate, or construct the local youthful offender rehabilitative facility in accordance with its local contracting authority. Notwithstanding Section 14951 of the Government Code, the participating county may assign an inspector during the construction of the project.

(c) The department, a participating county, and the board shall enter a construction agreement for the project that shall provide, at a minimum, all of the following:

(1) Performance expectations of the parties related to the acquisition, design, renovation, or construction of the local youthful offender rehabilitative facility.

(2) Guidelines and criteria for use and application of the proceeds of revenue bonds, notes, or bond anticipation notes issued by the board to pay for the cost of the approved local youthful offender rehabilitative facility project.

(3) Ongoing maintenance and staffing responsibilities for the term of the financing.

(d) The construction agreement shall include a provision that the participating county agrees to indemnify, defend, and hold harmless the State of California for any and all claims and losses arising out of the acquisition, design, renovation, and construction of the local youthful offender rehabilitative facility. The construction agreement may also contain additional terms and conditions that facilitate the financing by the board.

(e) The scope and cost of the approved local youthful offender rehabilitative facility project shall be subject to approval and administrative oversight by the board.

(f) For purposes of compliance with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code), neither the board nor the department, shall be deemed a lead or responsible agency. The participating county shall be the lead agency.

1972. Upon the receipt by a participating county of responsive construction bids, the board and the department may borrow funds for project costs after the project has been certified pursuant to Section 1970 from the Pooled Money Investment Account pursuant to Sections 16312 and 16313, or from any other appropriate source. In the event any of the revenue bonds, notes, or bond anticipation notes authorized by this chapter are not sold, the department shall commit a sufficient amount of its support appropriation to repay any loans made for an approved project.

1973. (a) The board may issue up to one hundred million dollars (\$100,000,000) in revenue bonds, notes, or bond anticipation notes, to finance the acquisition, design, renovation, or construction, and a reasonable construction reserve, of approved local youthful offender rehabilitative facilities described in Section 1971.

(b) Proceeds from the revenue bonds, notes, or bond anticipation notes may be utilized to reimburse a participating county for the costs of acquisition, preliminary plans, working drawings, and construction for approved projects.

(c) Notwithstanding Section 13340 of the Government Code, funds derived pursuant to this section are continuously appropriated for purposes of this article.

(d) This section shall become inoperative on June 30, 2017. No projects shall be commenced after that date, but projects already commenced may be financed through the issuance of bonds pursuant to this article.

1974. With the consent of the board, the department, and a participating county are authorized to enter into leases or subleases, as lessor or lessee, for any property or approved project and are further

authorized to enter into contracts or other agreements for the use, maintenance, and operation of the local youthful offender rehabilitative facility in order to facilitate the financing authorized by this article. In those leases, subleases, or other agreements, the participating county shall agree to indemnify, defend, and hold harmless the State of California for any and all claims and losses accruing and resulting from or arising out of the participating county's use and occupancy of the local youthful offender rehabilitative facility.

1975. (a) The authority shall adhere to its duly adopted regulations for the approval or disapproval of local youthful offender rehabilitative facilities. The authority also shall consider cost-effectiveness in determining approval or disapproval. No state moneys shall be encumbered in contracts let by a participating county until final architectural plans and specifications have been approved by the authority, and subsequent construction bids have been received. The review and approval of plans, specifications, or other documents by the authority are for the purpose of ensuring proper administration of moneys and determination of whether the project specifications comply with law and regulation. The authority may require changes in construction materials to enhance safety and security if materials proposed at the time of final plans and specifications are not essential and customary as used statewide for facilities of the same security level. Participating counties are responsible for the acquisition, design, construction, staffing, operation, repair, and maintenance of the project.

(b) The authority shall establish minimum standards and funding schedules and procedures, which shall take into consideration, but not be limited to, all of the following:

(1) Certification by a participating county of project site control through either fee simple ownership of the site or comparable long-term possession of the site, and right of access to the project sufficient to ensure undisturbed use and possession.

SEC. 31. It is the intent of the Legislature in enacting Sections 18 to 27, inclusive, 29, and 30 of this act that those provisions shall not result in an unfunded, reimbursable state mandate. The overall purpose of the pilot projects is to test models for reducing the number of offenders coming to state prison. The pilot projects shall be designed and implemented by the Corrections Standards Authority as put forward in subdivisions (a) and (b) of this section.

(a) One pilot project shall be provided to one county probation department in a large, urban county. The funding for the pilot project may be used to fund prevention or supervision services for probationers. The pilot project shall target 18 to 25 year-old, inclusive, probationers with known gang affiliations. The pilot project should target probationers within a jurisdiction or jurisdictions within a county that are known gang "hot spots." The grantee county probation department shall work with other local law enforcement agencies, as necessary to coordinate the project and enhance services to the gang "hot spot." The Corrections Standards Authority shall require that the county probation department provide a report and evaluation of this pilot project.

[Approved by Governor August 24, 2007. Filed with
Secretary of State August 24, 2007.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) The transfer of responsibility for court facilities from the counties to the state requires that court facilities be efficiently and economically provided to the court system.

(2) The State of California stands to benefit from the consideration and implementation of efficient and contemporary methods of developing and managing major capital infrastructure improvements. Significant cost increases in the real estate and construction sectors make it

imperative that the state proceed with capital construction in a timely manner to best mitigate those increases.

(3) The costs of maintaining and operating a building over its life span are greater than the initial construction costs, so the control of these maintenance and operations costs must be factored into any responsible infrastructure development method.

(4) Project delivery methods that implement these cost control considerations should include development by an entity that provides all capital activities, including the financing, design, construction, maintenance, and operation of a building. Those methods may include some or all of the following:

(A) Putting existing property to a higher and better use and leveraging redevelopment proceeds to reduce the state's cost of new replacement court projects.

(B) Combining new court facilities with other appropriate and compatible noncourt uses that would provide a subsidy to reduce the state's maintenance and operation costs.

(C) Utilizing competitive bids to give the state the best financing terms and possible subsidies from redevelopment of current court properties and development of new facilities.

(D) Using a lease-purchase with the option to acquire any noncourt space for future growth needs.

(5) The Judicial Council has established a detailed, multiyear court facilities capital infrastructure plan to acquire court facilities and provide necessary improvements for the judicial branch in the most economically feasible manner.

(b) In order to implement the findings and declarations contained in subdivision (a), the Legislature hereby enacts Section 70391.5 of the Government Code.

SEC. 2. Section 19804 of the Business and Professions Code is amended to read:

19804. (a) In any action for declaratory or injunctive relief, or for relief by way of any extraordinary writ, other than an action initiated pursuant to Section 19932, wherein the construction, application, or enforcement of this chapter, or any regulation adopted pursuant thereto, or any order of the department or the commission issued pursuant thereto, is called into question, a court shall not grant any preliminary or permanent injunction, or any peremptory writ of mandate, certiorari, or prohibition, in connection therewith, except as follows:

(1) Upon proof by clear and convincing evidence that the department or the commission is abusing or threatens to abuse its discretion.

(2) Upon proof by clear and convincing evidence that the department or the commission is exceeding or threatens to exceed its jurisdiction.

(b) No temporary injunction or other provisional order shall issue to restrain, stay, or otherwise interfere with any action by the department or the commission, except upon a finding by the court, based on clear and convincing evidence, that the public interest will not be prejudiced thereby, and no order may be effective for more than 15 calendar days.

(c) This section does not relieve a petitioner's obligation to exhaust administrative remedies.

(d) In an action for relief of any nature wherein the construction, application, or enforcement of this chapter, or any regulation adopted pursuant thereto, or any order of the department or commission issued pursuant thereto, is called into question, the party filing the pleading shall furnish a copy thereof to the department and to the commission. The copy shall be furnished by the party filing the pleading within 10 business days after filing.

(c) "Banking game" or "banked game" does not include a controlled game if the published rules of the game feature a player-dealer position and provide that this position must be continuously and systematically rotated amongst each of the participants during the play of the game, ensure that the player-dealer is able to win or lose only a fixed and limited wager during the play of the game, and preclude the house, another entity, a player, or an observer from maintaining or operating as a bank during the course of the game. For purposes of this section it is not the intent of the Legislature to mandate acceptance of the deal by every player if the department finds that the rules of the game render the maintenance of or operation of a bank impossible by other means. The house shall not occupy the player-dealer position.

In determining whether there has been expansion of gambling relating to “hours of operation,” the department shall consider the hours in the day when the local ordinance permitted the gambling establishment to be open for business on January 1, 1996, and compare the current ordinance and the hours during which the gambling establishment may be open for business. The fact that the ordinance was

amended to permit gambling on a day, when gambling was not permitted on January 1, 1996, shall not be considered in determining whether there has been gambling in excess of that permitted by Section 19961.

(s) "House" means the gambling establishment, and any owner, shareholder, partner, key employee, or landlord thereof.

(t) "Independent agent," except as provided by regulation, means any person who does either of the following:
