CONCURRENT AND JOINT RESOLUTIONS

2007 – 08

REGULAR SESSION

2007 RESOLUTION CHAPTERS

RESOLUTION CHAPTER 1

Senate Concurrent Resolution No. 2—Relative to the selection of the Legislative Counsel of California.

[Filed with Secretary of State December 7, 2006.]

Resolved by the Senate of the State of California, the Assembly thereof concurring, That, pursuant to Section 10201 of the Government Code, Diane F. Boyer-Vine is selected as the Legislative Counsel of California.

RESOLUTION CHAPTER 2

Senate Concurrent Resolution No. 1—Relative to the adoption of the Joint Rules of the Senate and Assembly for the 2007–08 Regular Session.

[Filed with Secretary of State January 9, 2007.]

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the following rules be adopted as the Joint Rules of the Senate and Assembly for the 2007–08 Regular Session:

JOINT RULES OF THE SENATE AND ASSEMBLY

Standing Committees

1. Each house shall appoint standing committees as the business of the house may require, the committees, the number of members, and the manner of selection to be determined by the rules of each house.

Joint Meeting of Committees

3. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen or chairwomen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of the bill.

Effect of Adoption of Joint Rules

3.5. The adoption of the Joint Rules for any extraordinary session may not be construed as modifying or rescinding the Joint Rules of the Senate and Assembly for any previous session, nor as affecting in any way the status or powers of the committees created by those rules.

Definition of Word “Bill”

4. Whenever the word “bill” is used in these rules, it includes any constitutional amendment, any resolution ratifying a proposed amendment to the United States Constitution, and any resolution calling for a constitutional convention.

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions relate to matters connected with the federal government.

Resolutions Treated as Bills

6. Concurrent and joint resolutions, other than resolutions ratifying proposed amendments to the United States Constitution and resolutions calling for constitutional conventions, shall be treated in all respects as bills except as follows:

- (a) They shall be given only one formal reading in each house.
- (b) They may not be deemed bills within the meaning of subdivision (a) of Section 8 of Article IV of the California Constitution.
- (c) They may not be deemed bills for the purposes of Rules 10.8, 53, 55, 56, and 61, subdivisions (a) and (c) of Rule 54, and subdivisions (a) and (b) of Rule 62.
- (d) They may not, except for those relating to voting procedures on the floor or in committee, be deemed bills for the purposes of subdivision (c) of Rule 62.

PREPARATION AND INTRODUCTION OF BILLS

Title of Bill

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall indicate the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number is not deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills that are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Digest of Bills Introduced

8.5. A bill may not be introduced unless it is contained in a cover attached by the Legislative Counsel and it is accompanied by a digest, prepared and attached to the bill by the Legislative Counsel, showing the changes in the existing law that are proposed by the bill. A bill may not be printed where the body of the bill or the Legislative Counsel's Digest has been altered, unless the alteration has been approved by the Legislative Counsel. If any bill is presented to the Secretary of the Senate or Chief Clerk of the Assembly for introduction, that does not comply with the foregoing requirements of this rule, the Secretary or Chief Clerk shall return it to the member who presented it. The digest shall be printed on the bill as introduced, commencing on the first page thereof.

Digest of Bills Amended

8.6. Whenever a bill is amended in either house, the Secretary of the Senate or the Chief Clerk of the Assembly, as the case may be, shall request the Legislative Counsel to prepare an amended digest and cause it to be printed on the first page of the bill as amended. The digest shall be amended to show changes in the existing law that are proposed by the bill as amended, with any material changes in the digest indicated by the use of appropriate type.

Errors in Digest

8.7. If a material error in a printed digest referred to in Rule 8.5 or 8.6 is brought to the attention of the Legislative Counsel, he or she shall prepare a corrected digest that shows the changes made in the digest as provided in Rule 10 for amendments to bills. He or she shall deliver the corrected digest to the Secretary of the Senate or the Chief Clerk of the Assembly, as the case may be. If the correction so warrants in the opinion of the President pro Tempore of the Senate or the Speaker of the Assembly, a corrected print of the bill as introduced shall be ordered with the corrected digest printed thereon.

Bills Amending Title 9 of the Government Code

8.8. A member who is the first-named author of a bill, that would amend, add, or repeal any provision of Title 9 (commencing with Section 81000) of the Government Code, upon introduction or amendment of the bill in either house shall notify the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, of the nature of the bill. Thereafter, the Chief Clerk of the Assembly or the Secretary of the Senate shall deliver a copy of the bill as introduced or amended to the Fair Political Practices Commission pursuant to Section 81012 of the Government Code.

Bills Amending the California Stem Cell Research and Cures Act

8.9. A member who is the first-named author of a bill, that would amend, add, or repeal any statutory provision of the California Stem Cell Research and Cures Act, other than the bond provisions thereof, upon introduction or amendment of the bill in either house shall notify the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, of the nature of the bill. At least 14 days prior to passage in the Assembly or Senate, respectively, the Chief Clerk of the Assembly or the Secretary of the Senate shall make copies of the bill as introduced or amended available in the Bill Room for access by the public and news media.

Restrictions as to Amendments

9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment, or resolution under consideration. An amendment is not in order when all that would be done to the bill is the addition of a coauthor or coauthors, unless the Committee on Rules

of the house in which the amendment is to be offered grants prior approval.

Changes in Existing Law to Be Marked by Author

10. In a bill amending or repealing a code section or a general law, any new matter shall be underlined, and any matter to be omitted shall be in type bearing a horizontal line through the center and commonly known as “strikeout” type. When printed the new matter shall be printed in italics, and the matter to be omitted shall be printed in “strikeout” type.

In an amendment to a bill that sets out for the first time a section being amended or repealed, any new matter to be added and any matter to be omitted shall be indicated by the author and shall be printed in the same manner as though the section as amended or repealed was a part of the original bill and was being printed for the first time.

When an entire code is repealed as part of a codification or recodification, or when an entire title, part, division, chapter, or article of a code is repealed, the sections comprising the code, title, part, division, chapter, or article shall not be set forth in the bill or amendment in strikeout type.

Rereferral to Fiscal and Rules Committees

10.5. A bill shall be rereferred to the fiscal committee of each house when it would do any of the following:

- (1) Appropriate money.
- (2) Result in substantial expenditure of state money by: (a) imposing new responsibilities on the state, (b) imposing new or additional duties on a state agency, or (c) liberalizing any state program, function, or responsibility.
- (3) Result in a substantial loss of revenue to the state.
- (4) Result in substantial reduction of expenditures of state money by reducing, transferring, or eliminating any existing responsibilities of any state agency, program, or function.

Concurrent and joint resolutions shall be rereferred to the fiscal committee of each house when they contemplate any action that would involve any of the following:

- (1) Any substantial expenditure of state money.
- (2) Any substantial loss of revenue to the state.

The above requirements do not apply to bills or concurrent resolutions that contemplate the expenditure or allocation of operating funds.

A bill that assigns a study to the Joint Legislative Budget Committee or to the Legislative Analyst shall be rereferred to the respective rules committees. Before the committee may act upon the bill, it shall obtain from the Joint Legislative Budget Committee an estimate of the amount required to be expended to make the study.

This rule may be suspended in either house as to any particular bill by approval of the Committee on Rules of the house and two-thirds vote of the membership of the house.

Short Title

10.6. A bill may not add a short title that names a current or former Member of the Legislature.

Heading of Bills

10.7. A bill or resolution may be authored only by a member or committee of the house of origin. Members or committees that are not of the house of origin may be “principal coauthors” or “coauthors.” A bill may not indicate in its heading or elsewhere that it was introduced at the request of a state agency or officer or any other person. A bill may not contain the words “By request” or words of similar import.

Consideration of Bills

10.8. The limitation contained in subdivision (a) of Section 8 of Article IV of the Constitution may be dispensed with as follows:

(a) A written request for dispensation entitled “Request to Consider and Act on Bill Within 30 Calendar Days” shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, and transmitted to the Committee on Rules of the appropriate house.

(b) The Committee on Rules of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for dispensing with the 30-calendar-day waiting period following the bill’s introduction.

(c) If the Committee on Rules recommends that the waiting period be dispensed with, the member may offer a resolution, without further reference thereof to committee, authorizing hearing and action upon the bill before the 30 calendar days have elapsed. The adoption of the resolution requires an affirmative recorded vote of three-fourths of the elected members of the house in which the resolution is presented.

Printing of Amendments

11. (a) Any bill amended by either house shall be immediately reprinted. Except as otherwise provided in subdivision (b), if new matter is added by the amendment, the new matter shall be printed in italics in the printed bill; if matter is omitted, the matter to be omitted shall be printed in strikeout type. When a bill is amended in either house, the first or previous markings shall be omitted.

(b) If amendments to a bill, including the report of a committee on conference, are adopted that omit the entire contents of the bill, the matter omitted need not be reprinted in the amended version of the bill. Instead, the Secretary of the Senate or the Chief Clerk of the Assembly, as the case may be, may select the amended bill and cause to be printed a brief statement to appear after the last line of the amended bill identifying which previously printed version of the bill contains the complete text of the omitted matter.

Manner of Printing Bills

12. The State Printer shall observe the directions of the Joint Rules Committee in printing all bills, constitutional amendments, and concurrent and joint resolutions.

Distribution of Legislative Publications

13. The Secretary of the Senate and the Chief Clerk of the Assembly shall order a sufficient number of bills and legislative publications as may be necessary for legislative requirements.

A complete list of bills may not be delivered except upon payment therefor of the amount fixed by the Joint Rules Committee for any regular or extraordinary session. No more than one copy of any bill or other legislative publication, nor more than a total of 100 bills or other legislative publications during a session, may be distributed free to any person, office, or organization. The limitations imposed by this paragraph do not apply to Members of the Legislature, the President of the Senate, the Secretary of the Senate, or the Chief Clerk of the Assembly for the proper functioning of their respective houses; the Legislative Counsel Bureau; the Attorney General's office; the Secretary of State's office; the Controller's office; the Governor's office; the Clerk of the Supreme Court; the clerk of the court of appeal for each district; the Judicial Council; the California Law Revision Commission; the State Library; the Library of Congress; the libraries of the University of California at Berkeley and at Los Angeles; or accredited members of the press. The

State Printer shall fix the cost of the bills and publications, including postage, and moneys as may be received by him or her shall, after deducting the cost of handling and mailing, be remitted on the first day of each month, one-half each to the Secretary of the Senate and the Chief Clerk of the Assembly for credit to legislative printing. Legislative publications heretofore distributed through the Bureau of Documents shall be distributed through the Bill Room. Unless otherwise provided for, the total number of each bill to be printed may not exceed 2,500.

Legislative Index

13.1. The Legislative Counsel shall provide for the periodic publication of a cumulative Legislative Index, which shall include tables of sections affected by pending legislation. The State Printer shall print the Legislative Index in the quantities, and at the times, determined by the Secretary of the Senate and the Chief Clerk of the Assembly. The costs of that printing shall be paid from the legislative printing appropriation.

Summary Digest

13.3. The Legislative Counsel shall compile and prepare for publication a summary digest of legislation passed at each regular and extraordinary session, which digest shall be prepared in a form suitable for inclusion in the publication of statutes. The digest shall be printed as a separate legislative publication on the order of the Joint Rules Committee, and may be made available to the public in the quantities, and at the prices, determined by the Joint Rules Committee.

Statutory Record

13.5. The Legislative Counsel shall prepare for publication from time to time a cumulative statutory record. The statutory record shall be printed as a legislative publication on the order of the Secretary of the Senate or the Chief Clerk of the Assembly.

OTHER LEGISLATIVE PRINTING

Printing of the Daily Journal

14. The State Printer shall print, in the quantities directed by the Secretary of the Senate and the Chief Clerk of the Assembly, copies of the Daily Journal of each day's proceedings of each house. At the end

of the session he or she shall also print, as directed by the Secretary of the Senate and the Chief Clerk of the Assembly, a sufficient number of copies properly paged after being corrected and indexed by the Secretary of the Senate and the Chief Clerk of the Assembly, to bind in book form as the Daily Journal of the respective houses of the Legislature.

What Shall Be Printed in the Daily Journal

15. The following shall be printed in the Daily Journal of each house:

(a) Messages from the Governor and messages from the other house, and the titles of all bills, joint and concurrent resolutions, and constitutional amendments when introduced in, offered to, or acted upon by, the house.

(b) Every vote taken in the house, and a statement of the contents of each petition, memorial, or paper presented to the house.

(c) A true and accurate account of the proceedings of the house, when not acting as a Committee of the Whole.

Printing of the Daily File

16. A Daily File of bills ready for consideration shall be printed each day for each house when the Legislature is not in joint recess, except days when a house does not meet.

Printing of History

17. Each house shall cause to be printed, once each week, a complete Weekly History of all bills, constitutional amendments, and concurrent, joint, and house resolutions originating in, considered by, or acted upon by, the respective houses and committees thereof. A regular form shall be prescribed by the Secretary of the Senate and the Chief Clerk of the Assembly. The Weekly History shall show the action taken upon each measure up to and including the legislative day preceding its issuance. Except for periods when the houses are in joint recess, for each day intervening there shall be printed a Daily History showing the consideration given to or action taken upon any measure since the issuance of the complete Weekly History.

Authority for Printing Orders

18. The State Printer may not print for use of either house, nor charge to legislative printing, any matter other than provided by law or by the rules, except upon a written order signed by the Secretary of the Senate,

on behalf of the Senate, or the Chief Clerk of the Assembly or other person authorized by the Assembly, on behalf of the Assembly. Persons authorized to order printing under this rule may, when necessity requires it, order certain matter printed in advance of the regular order, by the issuance of a rush order.

The Secretary of the Senate, on behalf of the Senate, and the Chief Clerk of the Assembly or other person authorized by the Assembly, on behalf of the Assembly, are hereby authorized and directed to order and distribute for the members stationery and legislative publications for which there is a demand, and, subject to the rules of their respective houses, to approve the bills covering those orders. All bills for printing must be presented by the State Printer within 30 days after the completion of the printing.

RECORD OF BILLS

Secretary and Chief Clerk to Keep Records

19. The Secretary of the Senate and the Chief Clerk of the Assembly shall keep a complete and accurate record of every action taken by the Senate and Assembly on every bill.

Secretary and Chief Clerk Shall Endorse Bills

20. The Secretary of the Senate and the Chief Clerk of the Assembly shall endorse on every original or engrossed bill a statement of any action taken by the Senate or Assembly concerning the bill.

ACTION IN ONE HOUSE ON BILL TRANSMITTED FROM THE OTHER

After a Bill Has Been Passed by the Senate or Assembly

21. When a bill has been passed by either house it shall be transmitted promptly to the other, unless a motion to reconsider or a notice of motion to reconsider has been made or it is held pursuant to some rule or order of the house.

The procedure of referring bills to committees shall be determined by the respective houses.

Messages to Be in Writing Under Proper Signatures

22. Notice of the action of either house to the other shall be in writing and under the signature of the Secretary of the Senate or the Chief Clerk of the Assembly, as the case may be. A receipt shall be taken from the officer to whom the message is delivered.

Consent Calendar: Uncontested Bills

22.1. Each standing committee may report an uncontested bill out of committee with the recommendation that it be placed on the Consent Calendar. The Secretary of the Senate and the Chief Clerk of the Assembly shall provide to each committee chairman or chairwoman appropriate forms for that report. As used in this rule, "uncontested bill" means a bill that (a) receives a do-pass or do-pass-as-amended recommendation from the committee to which it is referred, by unanimous vote of the members present provided a quorum is present, (b) has no opposition expressed by any person present at the committee meeting with respect to the final version of the bill as approved by the committee, and (c) prior to final action by the committee, has been requested by the author to be placed on the Consent Calendar.

Consent Calendar

22.2. Following its second reading and the adoption of any committee amendments thereto, any bill certified by the committee chairman or chairwoman as an uncontested bill shall be placed by the Secretary of the Senate or the Chief Clerk of the Assembly on the Consent Calendar, and shall be known as a "Consent Calendar bill." Any Consent Calendar bill that is amended from the floor shall cease to be a Consent Calendar bill and shall be returned to the Third Reading File. Upon objection of any member to the placement or retention of any bill on the Consent Calendar, the bill shall cease to be a Consent Calendar bill and shall be returned to the Third Reading File. No Consent Calendar bill may be considered for adoption until the second legislative day following the day of its placement on the Consent Calendar.

Consideration of Bills on Consent Calendar

22.3. A bill on the Consent Calendar is not debatable, except that the President of the Senate or the Speaker of the Assembly shall allow a reasonable time for questions from the floor and shall permit a proponent of the bill to answer the questions. Immediately prior to voting on the

first bill on the Consent Calendar, the President of the Senate or the Speaker of the Assembly shall call to the attention of the members the fact that the next rollcall will be the rollcall on the first bill on the Consent Calendar.

The Consent Calendar shall be considered as the last order of business on the Daily File.

PASSAGE AND ENROLLING OF BILL

Procedure on Defeat of More Than Majority Bill

23.5. Whenever a bill containing a section or sections requiring for passage an affirmative recorded vote of more than 21 votes in the Senate and more than 41 votes in the Assembly is being considered for passage, and the urgency clause, if the bill is an urgency bill, or the bill, in any case, fails to receive the necessary votes to make all sections effective, further action may not be taken on the bill, except that an amendment to remove all sections requiring the higher vote for passage from the bill shall be in order prior to consideration of further business. If the amendment is adopted, the bill shall be reprinted to reflect the amendment. When the bill is reprinted, it shall be returned to the same place on the file that it occupied when it failed to receive the necessary votes.

Enrollment of Bill After Passage

24. After a bill has passed both houses it shall be printed in enrolled form, omitting symbols indicating amendments, and shall be compared by the Engrossing and Enrolling Clerk and the proper committee of the house where it originated to determine that it is in the form approved by the houses. The enrolled bill shall thereupon be signed by the Secretary of the Senate and Chief Clerk of the Assembly and, except as otherwise provided by these rules, presented without delay to the Governor. The committee shall report the time of presentation of the bill to the Governor to the house and the record shall be entered in the Daily Journal. After enrollment and signature by the officers of the Legislature, constitutional amendments, and concurrent and joint resolutions, shall be filed without delay in the office of the Secretary of State and the time of filing shall be reported to the house and the record entered in the Daily Journal.

AMENDMENTS AND CONFERENCES

Amendments to Amended Bills Must Be Attached

25. Whenever a bill or resolution that has been passed in one house is amended in the other, it shall immediately be reprinted as amended by the house making the amendment or amendments. One copy of the amendment or amendments shall be attached to the bill or resolution so amended, and endorsed “adopted”; the amendment or amendments, if concurred in by the house in which the bill or resolution originated, shall be endorsed “concurred in”; and the endorsement shall be signed by the Secretary or Assistant Secretary of the Senate, or the Chief Clerk or Assistant Clerk of the Assembly, as the case may be. However, an amendment to the title of a bill adopted after the passage of the bill does not necessitate reprinting, but the amendment must be concurred in by the house in which the bill originated.

Amendments to Concurrent and Joint Resolutions

25.5. When a concurrent or joint resolution is amended, and the only effect of the amendments is to add coauthors, the joint or concurrent resolution may not be reprinted unless specifically requested by one of the added coauthors, but a list of the coauthors shall appear in the Daily Journal and History.

To Concur or Refuse to Concur in Amendments

26. If the Senate amends and passes an Assembly bill, or the Assembly amends and passes a Senate bill, the Senate (if it is a Senate bill) or the Assembly (if it is an Assembly bill) must either “concur” or “refuse to concur” in the amendments. If the Senate concurs (if it is a Senate bill), or the Assembly concurs (if it is an Assembly bill), the Secretary of the Senate or Chief Clerk of the Assembly shall so notify the house making the amendments, and the bill shall be ordered to enrollment.

Reference to Committee

26.5. Pursuant to Rule 26, whenever a bill is returned to its house of origin for a vote on concurrence in an amendment made in the other house, the Legislative Counsel shall promptly prepare and transmit to the Chief Clerk of the Assembly and the Speaker of the Assembly in the case of an Assembly bill, or to the Secretary of the Senate and Chair of the Senate Committee on Rules in the case of a Senate bill, a brief digest

summarizing the effect of the amendment made in the other house. The Secretary or Chief Clerk shall, upon receipt from the Legislative Counsel, cause the digest to be printed in the Daily File immediately following any reference to the bill covered by the digest. A motion to concur or refuse to concur in the amendment is not in order until the Legislative Counsel's Digest has appeared in the Daily File or an analysis of the bill has been prepared and distributed pursuant to Senate Rule 29.8 or Assembly Rule 77.

If the digest discloses that the amendment of the other house has made a substantial substantive change in the bill as first passed by the house of origin, the bill, if it is a Senate bill, shall, on motion of the Chair of the Senate Committee on Rules, be referred to the Senate Committee on Rules for reference to an appropriate standing committee. If the bill is an Assembly bill it shall be referred by the Speaker to the appropriate committee.

Upon receipt of the bill, the committee may, by a vote of a majority of its membership, recommend concurrence or nonconcurrence in the amendment or hold the bill in committee. The committee shall be subject to all the requirements for procedure provided under Rule 62 for committees, other than committees of first referral, and shall be subject to other requirements for normal committee procedure as the Assembly or Senate may separately provide in the standing rules of their respective houses.

Any of the provisions of this rule may be dispensed with regard to a particular bill in its house of origin upon an affirmative vote of a majority of the members of that house.

Concurring in Amendments Adding Urgency Section

27. When a bill that has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency statute, and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the membership of the house vote in the affirmative, the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of the membership of the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of the questions is less than two-thirds of the membership of the house, the effect is a refusal to concur in the

amendment or amendments, and the procedure thereupon shall be as provided in Rule 28.

When Senate or Assembly Refuses to Concur

28. If the Senate (if it is a Senate bill) or the Assembly (if it is an Assembly bill) refuses to concur in amendments to the bill made by the other house, and the other house has been notified of the refusal to concur, a conference committee shall be appointed for each house in the manner prescribed by these rules. The Senate Committee on Rules, on behalf of the Senate, and the Speaker of the Assembly, on behalf of the Assembly, shall each appoint a committee of three on conference, and the Secretary of the Senate or the Chief Clerk of the Assembly shall immediately notify the other house of the action taken.

Committee on Conference

28.1. (a) The Senate Committee on Rules and the Speaker of the Assembly, in appointing a committee on conference, shall each select two members from those voting with the majority on the point about which the difference has arisen, and the other member from the minority, in the event there is a minority vote.

Whether a member has voted with the majority or minority on the point about which the difference has arisen is determined by his or her vote on the appropriate rollcall, as follows:

(1) In the Assembly—

(A) The rollcall on the question of final passage of a Senate bill amended in the Assembly when the Senate has refused to concur with the Assembly amendments.

(B) The rollcall on the question of concurrence with Senate amendments to an Assembly bill.

(2) In the Senate—

(A) The rollcall on the question of final passage of an Assembly bill amended in the Senate when the Assembly has refused to concur with the Senate amendments.

(B) The rollcall on the question of concurrence with Assembly amendments to a Senate bill.

(b) Either house may suspend this rule by a two-thirds vote of the membership of the house.

Meetings and Reports of Committees on Conference

29. The first Senator named on the conference committee shall act as chairman or chairwoman of the committee from the Senate, and the first Member of the Assembly named on the committee shall act as chairman or chairwoman of the committee from the Assembly. The chairman or chairwoman of the committee on conference for the house of origin of the bill shall arrange the time and place of meeting of the conference committee, and shall prepare or direct the preparation of reports. It shall require an affirmative vote of not less than two of the Assembly Members and two of the Senate Members constituting the committee on conference to agree upon a report, and the report shall be submitted to both the Senate and the Assembly. The committee on conference shall report to both the Senate and the Assembly. The report is not subject to amendment. If either house refuses to adopt the report, the conferees shall be discharged and other conferees appointed, except that no more than three different conference committees may be appointed on any one bill. A member who has served on a committee on conference may not be appointed a member of another committee on conference on the same bill. It shall require the same affirmative recorded vote to adopt any conference report as required by the California Constitution upon the final passage of the bill affected by the report. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of each house to adopt any conference report affecting any bill that contains an item or items of appropriation that are subject to subdivision (d) of Section 12 of Article IV of the California Constitution. The report of a conference committee shall be in writing, and shall have affixed thereto the signatures of each Senator and each Member of the Assembly consenting to the report. Space shall also be provided where a member of a conference committee may indicate his or her dissent in the committee's findings. Any dissenting member may have attached to a conference committee report a dissenting report which shall not exceed, in length, the majority committee report. A copy of any amendments proposed in the majority report shall be placed on the desk of each member of the house before it is acted upon by the house.

The vote on concurrence or upon the adoption of the conference report shall be deemed the vote upon final passage of the bill.

Conference Committees

29.5. (a) All meetings of any conference committee on the Budget Bill shall be open and readily accessible to the public.

A conference committee on any bill may not meet, consider, or act on the subject matter of the bill except in a meeting that is open and readily accessible to the public, unless the action is on a report determined by the Legislative Counsel to be nonsubstantive. The Legislative Counsel shall examine each proposed report and shall note upon the face of the report that the amendments proposed are “substantive” or “nonsubstantive” as the case may be.

The chairman or chairwoman of the conference committee of each house shall give notice to the File Clerk of their respective houses of the time and place of the meeting. Notice of each public meeting shall be published in the Daily File of each house one calendar day prior to the meeting, except that the notice is not required for a meeting of a conference committee on the Budget Bill. When this subdivision is waived with respect to a meeting of any public conference committee, or when there is a meeting of a conference committee on the Budget Bill, every effort shall be made to inform the public that a meeting has been called. When this subdivision has been waived with respect to the meeting of any public conference committee, the chairman or chairwoman of the conference committee of each house shall immediately notify the chairman or chairwoman of the policy committee of their respective houses that considered the bill in question of the waiver, and of the time and place of the meeting.

(b) The first committee on conference of the Budget Bill, if a committee is appointed, shall submit its report to each house no later than 15 days after the Budget Bill has been passed by both houses. If the report is not submitted by that date, the conference committee shall be deemed to have reached no agreement and shall so inform each house pursuant to Rule 30.7.

(c) A committee on conference of the Budget Bill may consider only differences between the Assembly version of the Budget Bill as passed by the Assembly and the Senate version of the Budget Bill as passed by the Senate, and may not approve any item of expenditure or control that exceeds that contained in one of the two versions before the conference committee.

(d) A conference committee on any bill, other than the Budget Bill, may not approve any substantial financial provision in any bill if the financial provision has not been heard by the fiscal committee of each house, nor may any conference committee approve substantial policy changes that have not been heard by the policy committee of each house.

(e) A waiver of the one-calendar-day Daily File notice requirement of subdivision (a) is not effective for longer than three calendar days.

Conference Committee Reports

30. Upon submission of any report of a committee on conference recommending that the bill be further amended, the bill shall be reprinted incorporating the amendments recommended by the conference committee. The consideration of the report of a committee on conference is not in order until the bill, in the form recommended by the report of the committee on conference, has both been in print and been noticed in the Daily File for not less than one legislative day.

If the conference committee's report recommends only that the amendments of the Senate or the Assembly "be concurred in," consideration of the report shall be in order at any time, and reprinting of the bill is not required, but notice shall appear in the Daily File for not less than one legislative day.

A conference committee report is not in order unless it has been received by the Secretary of the Senate and the Chief Clerk of the Assembly at least three calendar days preceding the scheduled commencement of the summer, interim, or final recess of the Legislature.

This rule may be suspended as to any particular conference committee report by a two-thirds vote of the membership of either house.

This rule does not apply to a report of a committee on conference on the Budget Bill.

Conference Committee Reports on Urgency Statutes

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency statute, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative, the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put to a vote. If two-thirds of the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of the questions is less than two-thirds of the members elected to the house, the effect is a refusal to adopt the report of the committee on conference.

Failure to Agree on Report

30.7. A conference committee may find and determine that it is unable to submit a report to the respective houses, upon the affirmative vote to that effect of not less than two of the Assembly Members and not less than two of the Senate Members constituting the committee. That finding may be submitted to the Chief Clerk of the Assembly and the Secretary of the Senate in the form of a letter from the chairman or chairwoman of the committee on conference for the house of origin of the bill, containing the signatures of the members of the committee consenting to the finding and determination that the committee is unable to submit a report. The Chief Clerk of the Assembly and the Secretary of the Senate, upon being notified that a conference committee is unable to submit a report, shall so inform each house, whereupon the conferees shall be discharged and other conferees appointed, in accordance with Rule 29.

MISCELLANEOUS PROVISIONS

Authority When Rules Do Not Govern

31. All relations between the houses that are not covered by these rules shall be governed by Mason's Manual.

Press Rules

32. (a) Any person desiring privileges of an accredited press representative shall make application to the Joint Rules Committee. The application shall constitute compliance with any provisions of the rules of the Assembly or the Senate with respect to registration of news correspondents. The application shall state in writing the name of any print or electronic periodic news publication, news association, or radio or television station that employs the press representative, and any other occupations or employment he or she may have. The press representative shall further declare in the application that he or she is not employed, directly or indirectly, to assist in the prosecution of the legislative business of any person, corporation, or association, and will not become so employed while retaining the privilege of an accredited press representative.

(b) The application required by subdivision (a) of this rule shall be authenticated in a manner that is satisfactory to the Standing Committee of the Capitol Correspondents Association, which shall see that

occupation of seats and desks in the Senate and the Assembly Chambers is confined to bona fide correspondents of reputable standing in their business, who represent news media identified in subdivision (a). It is the duty of the standing committee, at its discretion, to report any violation of accredited press privileges to the Speaker of the Assembly or the Senate Committee on Rules and, pending action thereon, the offending correspondent may be suspended by the standing committee.

(c) Except as otherwise provided in this subdivision, persons engaged in other occupations whose chief attention is not given to newspaper correspondence or to news associations requiring telegraphic, radio, television, or electronic service are not entitled to the privileges accorded accredited press representatives. The press list in the Handbook of the California Legislature and the Senate and Assembly Histories shall be a list of only those persons authenticated by the Standing Committee of the Capitol Correspondents Association. Accreditation may be granted to any bona fide correspondent of reputable standing employed by a periodic publication of general circulation if the applicant is employed on a regular basis in the Capitol area preparing articles dealing with state government and politics and the publication is not an organ or organization involved in legislative advocacy.

(d) The press seats and desks in the Senate and Assembly Chambers shall be under the control of the standing committee of correspondents, subject to the approval and supervision of the Speaker of the Assembly and the Senate Committee on Rules. Press cards shall be issued by the President pro Tempore of the Senate and the Speaker of the Assembly only to correspondents properly accredited in accordance with this rule.

(e) An accredited member of the Capitol Correspondents Association may not, for compensation, perform any service for state constitutional officers or members of their staffs, for state agencies, for the Legislature, for candidates for state office, for a state officeholder, or for any person registered or performing as a legislative advocate.

(f) An accredited member of the association who violates subdivision (a) or (e) of this rule shall be subject to the following penalties:

(1) For the first offense, the Standing Committee of the Capitol Correspondents Association shall send a letter of admonition to the offending member, his or her employer, and the Joint Rules Committee. The letter shall state the nature of the member's rule violation and shall warn of an additional penalty for a second offense.

(2) For a second offense, the Standing Committee of the Capitol Correspondents Association shall recommend to the Joint Rules Committee that the member's accreditation be suspended or revoked and that he or she lose all rights and privileges attached thereto. The

Standing Committee of the Capitol Correspondents Association shall also dismiss the member from the association.

Any member of the Standing Committee of the Capitol Correspondents Association may propose that the committee make an inquiry to determine if an association member has violated subdivision (a) or (e) of this rule. Upon a majority vote of the Standing Committee of the Capitol Correspondents Association, an inquiry shall be made.

Upon receipt of a signed, written notice from any association member of his or her belief that another association member may have violated subdivision (a) or (e) of this rule, the Standing Committee of the Capitol Correspondents Association shall commence an inquiry into the possible violation.

If the Standing Committee of the Capitol Correspondents Association determines by majority vote that an association member has violated an association rule, it shall inform the member of its finding. Within two weeks of notification, the member may request a meeting of the membership. If the member makes that request, the Standing Committee of the Capitol Correspondents Association shall promptly schedule a meeting at the earliest possible time. After hearing the member and the committee review the circumstances of the alleged violation, the membership may, by majority vote, nullify the finding of the Standing Committee of the Capitol Correspondents Association. If nullification does not occur, the Standing Committee of the Capitol Correspondents Association immediately shall impose the appropriate penalty.

Dispensing With Joint Rules

33. A joint rule may not be dispensed with except by a vote of two-thirds of each house or as otherwise provided in these rules. If either house violates a joint rule, a question of order may be raised in the other house and decided in the same manner as in the case of the violation of the rules of the house. If it is decided that the joint rules have been violated, the bill involving the violation shall be returned to the house in which it originated, and the disputed matter shall be considered in like manner as in conference committee.

Dispensing with Joint Rules: Unanimous Consent

33.1. Notwithstanding any other rule, a joint rule that may be dispensed with by one house may be done so by unanimous consent if the rules committee of that house has approved.

Opinions of Legislative Counsel

34. Whenever the Legislative Counsel issues an opinion to any person other than the first-named author analyzing the constitutionality, operation, or effect of a bill or other legislative measure that is then pending before the Legislature or of any amendment made or proposed to be made to the bill or measure, he or she is authorized and instructed to deliver two copies of the opinion to the first-named author as promptly as feasible after the delivery of the original opinion and also to deliver a copy to any other author of the bill or measure who so requests. A copy of any letter prepared by the Legislative Counsel for the sole purpose of advising a member of a conflict between two or more bills as to the sections of law being amended, repealed, or added shall be submitted to the chairman or chairwoman of the committee to which each bill has been referred.

Resolutions Prepared by Legislative Counsel

34.1. Whenever the Legislative Counsel has been requested to draft a resolution commemorating or taking note of any event, or a resolution congratulating or expressing sympathy toward any person, and subsequently receives a similar request from another Member of the Legislature, he or she shall inform that requester and each subsequent requester that a resolution is being, or has been, prepared, and shall inform them of the name of the member for whom the resolution was, or is being, prepared.

Resolutions

34.2. A concurrent resolution, Senate resolution, or House resolution may be introduced to memorialize the death of a present or former state or federal elected official or a member of his or her immediate family. In all other instances, a resolution other than a concurrent resolution, as specified by the Committee on Rules of each house, or as provided by the Joint Rules Committee in those cases requiring that the resolution should emanate from both houses, shall be used for the purpose of commendation, congratulation, sympathy, or regret with respect to any person, group, or organization.

A concurrent resolution requesting the Governor to issue a proclamation may not be introduced without the prior approval of the Committee on Rules of the house in which the resolution is to be introduced.

Identical Drafting Requests

34.5. Whenever it comes to the attention of the Legislative Counsel that a member has requested the drafting of a bill that will be substantially identical to one already introduced, the Legislative Counsel shall inform the member of that fact.

Expense of Members

35. As provided in Section 8902 of the Government Code, each Member of the Legislature is entitled to reimbursement for living expenses while required to be in Sacramento to attend a session of the Legislature, while traveling to and from or in attendance at a committee meeting, or while attending to any legislative function or responsibility as authorized or directed by legislative rules or the Committee on Rules of the house of which he or she is a member, at the same rate as may be established by the State Board of Control for other elected state officers. Each member shall be reimbursed for travel expenses incurred in traveling to and from a session of the Legislature, when traveling to and from a meeting of a committee of which he or she is a member, or when traveling pursuant to any other legislative function or responsibility as authorized or directed by legislative rules or the Committee on Rules of the house of which he or she is a member, at the rate prescribed by Section 8903 of the Government Code.

Expense allowances for Members of the Senate and Assembly shall be approved and certified to the Controller by the Secretary of the Senate, on behalf of the Senate, and the Chief Clerk of the Assembly or other person authorized by the Assembly Committee on Rules, on behalf of the Assembly, weekly or as otherwise directed by either house, and upon certification the Controller shall draw his or her warrants in payment of the allowances to the respective members.

Issuance of Subpoenas

35.5. A subpoena requiring the attendance of a witness or the production of documents may be issued by the Senate Committee on Rules, the Speaker of the Assembly, or the chairman or chairwoman of a committee conducting an investigation only if permission has been secured from the rules committee of the respective house, or from the Joint Rules Committee if the subpoena is issued by the chairman or chairwoman of a joint committee.

Investigating Committees

36. In order to expedite the work of the Legislature, either house, or both houses jointly, may by resolution or statute provide for the appointment of committees to ascertain facts and to make recommendations as to any subject within the scope of legislative regulation or control.

The resolution providing for the appointment of a committee pursuant to this rule shall state the purpose of the committee and the scope of the subject concerning which it is to act, and may authorize it to act either during sessions of the Legislature or, when authorization may lawfully be made, after final adjournment.

In the exercise of the power granted by this rule, each committee may employ clerical, legal, and technical assistants as may be authorized by: (a) the Joint Rules Committee in the case of a joint committee, (b) the Senate Committee on Rules in the case of a Senate committee, or (c) the Assembly Committee on Rules in the case of an Assembly committee.

Except as otherwise provided herein for joint committees or by the rules of the Senate or the Assembly for single house committees, each committee may adopt and amend rules governing its procedure as may appear necessary and proper to carry out the powers granted and duties imposed under this rule. The rules may include provisions fixing the quorum of the committee and the number of votes necessary to take action on any matter. With respect to all joint committees, a majority of the membership from each house constitutes a quorum, and an affirmative vote of a majority of the membership from each house is necessary for the committee to take action.

Each committee is authorized and empowered to summon and subpoena witnesses, to require the production of papers, books, accounts, reports, documents, records, and papers of every kind and description, to issue subpoenas, and to take all necessary means to compel the attendance of witnesses and to procure testimony, oral and documentary. A committee's issuance of a subpoena shall comply with Rule 35.5.

Each member of the committees is authorized and empowered to administer oaths, and all of the provisions of Chapter 4 (commencing with Section 9400) of Part 1 of Division 2 of Title 2 of the Government Code, relating to the attendance and examination of witnesses before the Legislature and the committees thereof, apply to the committees. A committee may grant a witness immunity from criminal prosecution, pursuant to subdivision (a) of Section 9410 of the Government Code, only after securing permission from the rules committee of the respective house, or from the Joint Rules Committee in the case of a joint committee.

The Sergeant at Arms of the Senate or Assembly, or other person as may be designated by the chairman or chairwoman of the committee, shall serve any and all subpoenas, orders, and other process that may be issued by the committee, when directed to do so by the chairman or chairwoman, or by a majority of the membership of the committee.

Every department, commission, board, agency, officer, and employee of the state government, including the Legislative Counsel and the Attorney General and their subordinates, and of every political subdivision, county, city, or public district of or in this state, shall give and furnish to these committees and to their subcommittees upon request information, records, and documents as the committees deem necessary or proper for the achievement of the purposes for which each committee was created.

Each committee or subcommittee of either house, in accordance with the rules of that respective house, and each joint committee or subcommittee thereof, may meet at any time during the period in which it is authorized to act, either at the State Capitol or at any other place in the State of California, in public or executive session, and do any and all things necessary or convenient to enable it to exercise the powers and perform the duties herein granted to it or accomplish the objects and purposes of the resolution creating it, subject to the following exceptions:

(a) When the Legislature is in session:

(1) A committee or subcommittee of either house may not meet outside the State Capitol without the prior approval of the Senate Committee on Rules with respect to Senate committees and subcommittees, or the Speaker of the Assembly with respect to Assembly committees and subcommittees.

(2) A committee or subcommittee of either house, other than a standing committee or subcommittee thereof, may not meet unless notice of the meeting has been printed in the Daily File for four days prior thereto. This requirement may be waived by a majority vote of either house with respect to a particular bill.

(3) A joint committee or subcommittee thereof, other than the Joint Committees on Legislative Audit, Legislative Budget, and Rules, may not meet outside the State Capitol without the prior approval of the Joint Rules Committee.

(4) A joint committee or subcommittee thereof, other than the Joint Committees on Legislative Audit, Legislative Budget, and Rules, may not meet unless notice of the meeting has been printed in the Daily File for four days prior thereto.

(b) When the Legislature is in joint recess, each joint committee or subcommittee, other than the Joint Committees on Legislative Audit,

Legislative Budget, and Rules, shall notify the Joint Rules Committee at least two weeks prior to a meeting.

(c) The requirements placed upon joint committees by subdivisions (a) and (b) of this rule may be waived as deemed necessary by the Joint Rules Committee.

Each committee may expend such money as is made available to it for its purpose, but a committee may not incur any indebtedness unless money has been first made available therefor.

Living expenses may not be allowed in connection with legislative business for a day on which the member receives reimbursement for expenses while required to be in Sacramento to attend a session of the Legislature. The chairman or chairwoman of each committee shall audit and approve the expense claims of the members of the committee, including claims for mileage in connection with attendance on committee business, or in connection with specific assignments by the committee chairman or chairwoman, but excluding other types of mileage, and shall certify the amount approved to the Controller. The Controller shall draw his or her warrants upon the certification of the chairman or chairwoman.

Subject to the rules of each house for the respective committees of each house, or the joint rules for any joint committee, with the permission of the appointing authority of the respective house, or the permission of the appointing authorities of the two houses in the case of a joint committee, the chairman or chairwoman of any committee may appoint subcommittees and chairmen or chairwomen thereof for the purpose of more expeditiously handling and considering matters referred to it, and the subcommittees and the chairmen or chairwomen thereof shall have all the powers and authority herein conferred upon the committee and its chairman or chairwoman. The chairman or chairwoman of a subcommittee shall audit the expense claims of the members of the subcommittee, and other claims and the expenses incurred by it, and shall certify the amount thereof to the chairman or chairwoman of the committee, who shall, if he or she approves the same, certify the amount thereof to the Controller; the Controller shall draw his or her warrant therefor upon that certification, and the Treasurer shall pay the same. Any committee or subcommittee thereof that is authorized to leave the State of California in the performance of its duties shall, while out of the state, have the same authority as if it were acting and functioning within the state, and the members thereof shall be reimbursed for expenses.

Notwithstanding any other provision of this rule, if the standing rules of either house require that expense claims of committees for goods or services, pursuant to contracts, or for expenses of employees or members of committees be audited or approved, after approval of the committee

chairman or chairwoman, by another agency of either house, the Controller shall draw his or her warrants only upon the certification of the other agency. All expense claims approved by the chairman or chairwoman of any joint committee, other than the Joint Legislative Budget Committee and the Joint Legislative Audit Committee, shall be approved by the Joint Rules Committee, and the Controller shall draw his or her warrants only upon the certification of the Joint Rules Committee.

Except salary claims of employees clearly subject to federal withholding taxes and the requirement as to loyalty oaths, claims presented for services or pursuant to contract shall refer to the agreement, the terms of which shall be made available to the Controller.

Expenses of Committee Employees

36.1. Unless otherwise provided by respective house or committee rule or resolution, employees of legislative committees, when entitled to traveling expenses, are entitled to allowances in lieu of actual expenses for hotel accommodations, breakfast, lunch, and dinner, at the rates fixed by the State Board of Control from time to time in limitation of reimbursement of expenses of state employees generally. However, if an allowance for hotel accommodations, breakfast, lunch, and dinner is made by a committee at a rate in excess of the rate fixed by the State Board of Control, the chairman or chairwoman of the committee shall notify the Controller of that fact in writing.

Appointment of Committees

36.5. This rule applies whenever a joint committee is created by a statute or resolution that either provides that appointments be made and vacancies be filled in the manner provided for in the Joint Rules, or makes no provision for the appointment of members or the filling of vacancies.

The Senate members of the committee shall be appointed by the Senate Committee on Rules; the Assembly members of the committee shall be appointed by the Speaker of the Assembly; and vacancies occurring in the membership of the committee shall be filled by the respective appointing powers. The members appointed shall hold over until their successors are regularly selected.

Appointment of Joint Committee Chairmen or Chairwomen

36.7. The chairman or chairwoman of each joint committee heretofore or hereafter created, except the Joint Legislative Budget Committee and the Joint Legislative Audit Committee, shall be appointed by the Joint Rules Committee from a member or members recommended by the Senate Committee on Rules and the Speaker of the Assembly.

Joint Committee Funds

36.8. Each joint committee heretofore or hereafter created, except the Joint Legislative Budget Committee and the Joint Legislative Audit Committee, shall expend the funds heretofore or hereafter made available to it in compliance with the policies set forth by the Joint Rules Committee with respect to personnel, salaries, purchasing, office space assignment, contractual services, rental or lease agreements, travel, and any and all other matters relating to the management and administration of committee affairs.

Joint Legislative Budget Committee

37. In addition to any other committee provided for by these rules, there is a joint committee to be known as the Joint Legislative Budget Committee, which is hereby declared to be a continuing body.

It is the duty of the committee to ascertain facts and make recommendations to the Legislature and to the houses thereof concerning the State Budget, the revenues and expenditures of the state, and the organization and functions of the state and its departments, subdivisions, and agencies, with a view to reducing the cost of the state government and securing greater efficiency and economy.

The committee consists of eight Members of the Senate and eight Members of the Assembly. The Senate members of the committee shall be appointed by the Senate Committee on Rules. The Assembly members of the committee shall be appointed by the Speaker of the Assembly. The committee shall select its own chairman or chairwoman.

Any vacancy occurring at any time in the Senate membership of the Joint Legislative Budget Committee shall be filled by the Senate Committee on Rules, and the Senators appointed shall hold over until their successors are regularly selected. For the purposes of this rule, a vacancy shall be deemed to exist as to a Senator whose term is expiring whenever he or she is not reelected at the general election.

Any vacancy occurring at any time in the Assembly membership of the Joint Legislative Budget Committee shall be filled by appointment

by the Speaker of the Assembly, and the Members of the Assembly appointed shall hold over between regular sessions until their successors are regularly selected. For the purposes of this rule, a vacancy shall be deemed to exist as to a Member of the Assembly whose term is expiring whenever he or she is not reelected at the general election.

The committee may adopt rules to govern its own proceedings and its employees. The committee, with the permission of the appointing authorities of the two houses, may also create subcommittees from its membership, assigning to its subcommittees any study, inquiry, investigation, or hearing that the committee itself has authority to undertake or hold. A subcommittee for the purpose of this assignment has and may exercise all the powers conferred upon the committee, limited only by the express terms of any rule or resolution of the committee defining the powers and duties of the subcommittee. Those powers may be withdrawn or terminated at any time by the committee.

The Joint Legislative Budget Committee may render services to any investigating committee of the Legislature pursuant to contract between the Joint Legislative Budget Committee and the committee for which the services are to be performed. The contract may provide for payment to the Joint Legislative Budget Committee of the cost of the services from the funds appropriated to the contracting investigating committee. All legislative investigating committees are authorized to enter into those contracts with the Joint Legislative Budget Committee. Money received by the Joint Legislative Budget Committee pursuant to any agreement shall be in augmentation of the current appropriation for the support of the Joint Legislative Budget Committee.

The provisions of Rule 36 shall apply to the Joint Legislative Budget Committee, which has all the authority provided in that rule or pursuant to Section 11 of Article IV of the California Constitution.

The committee has authority to appoint a Legislative Analyst, to fix his or her compensation, to prescribe his or her duties, and to appoint any other clerical and technical employees as may appear necessary. The duties of the Legislative Analyst are as follows:

(1) To ascertain the facts and make recommendations to the Joint Legislative Budget Committee and, under its direction, to the committees of the Legislature concerning:

- (a) The State Budget.
- (b) The revenues and expenditures of the state.
- (c) The organization and functions of the state and its departments, subdivisions, and agencies.

(2) To assist the Senate Budget and Fiscal Review Committee and the Assembly Committees on Appropriations and Budget in consideration of the Budget, all bills carrying express or implied appropriations, and

all legislation affecting state departments and their efficiency; to appear before any other legislative committee; and to assist any other legislative committee upon instruction by the Joint Legislative Budget Committee.

(3) To provide all legislative committees and Members of the Legislature with information obtained under the direction of the Joint Legislative Budget Committee.

(4) To maintain a record of all work performed by the Legislative Analyst under the direction of the Joint Legislative Budget Committee, and to keep and make available all documents, data, and reports submitted to him or her by any Senate, Assembly, or joint committee. The committee may meet either during sessions of the Legislature, any recess thereof, or after final adjournment, and may meet or conduct business at any place within the State of California.

The chairman or chairwoman of the committee or, in the event of that person's inability to act, the vice chairman or vice chairwoman, shall audit and approve the expenses of members of the committee or salaries of the employees, and all other expenses incurred in connection with the performance of its duties by the committee. The chairman or chairwoman shall certify to the Controller the expense amount approved, the Controller shall draw his or her warrants upon the certification of the chairman or chairwoman, and the Treasurer shall pay the same to the chairman or chairwoman of the committee, to be disbursed by the chairman or chairwoman.

On and after the commencement of a succeeding regular session, those members of the committee who continue to be Members of the Senate and Assembly, respectively, continue as members of the committee until their successors are appointed, and the committee continues with all its powers, duties, authority, records, papers, personnel, and staff, and all funds theretofore made available for its use.

Upon the conclusion of its work, any Assembly, Senate, or joint committee (other than a standing committee) shall deliver to the Legislative Analyst for use and custody all documents, data, reports, and other materials that have come into the possession of the committee and that are not included within the final report of the committee to the Assembly, Senate, or the Legislature, as the case may be. The documents, data, reports, and other materials shall be available, upon request, to Members of the Legislature, the Senate Office of Research, and the Assembly Office of Research.

The Legislative Analyst, with the consent of the committee, shall make available to any Member or committee of the Legislature any other reports, records, documents, or other data under his or her control, except that reports prepared by the Legislative Analyst in response to a request from a Member or committee of the Legislature may be made available

only with the written permission of the member or committee who made the request.

The Legislative Analyst, upon the receipt of a request from any committee or Member of the Legislature to conduct a study or provide information that falls within the scope of his or her responsibilities and that concerns the administration of the government of the State of California, shall at once advise the Joint Legislative Budget Committee of the nature of the request without disclosing the name of the member or committee making the request.

The Legislative Analyst shall immediately undertake to provide the requesting committee or legislator with the service or information requested, and shall inform the committee or legislator of the approximate date when this information will be available. Should there be any material delay, he or she shall subsequently communicate this fact to the requester.

Neither the Committee on Rules of either house nor the Joint Rules Committee may assign any matter for study to the Joint Legislative Budget Committee or the Legislative Analyst without first obtaining from the Joint Legislative Budget Committee an estimate of the amount required to be expended by it to make the study.

Any concurrent, joint, Senate, or House resolution assigning a study to the Joint Legislative Budget Committee or to the Legislative Analyst shall be referred to the respective rules committees. Before the committees may act upon or assign the resolution, they shall obtain an estimate from the Joint Legislative Budget Committee of the amount required to be expended to make the study.

Citizen Cost Impact Report

37.1. Any Member or committee of the Legislature may recommend that the Legislative Analyst prepare a citizen cost impact analysis on proposed legislation. However, the recommendation shall first be reviewed by the Committee on Rules of the house where the recommendation originated, and this committee shall make the final determination as to which bills shall be assigned for preparation of an impact analysis.

In selecting specific bills for assignment to the Legislative Analyst for preparation of citizen cost impact analyses, the Committee on Rules shall request the Legislative Analyst to present an estimate of his or her time and prospective costs for preparing the analyses. Only those bills that have a potential significant cost impact shall be assigned. Where necessary, the Committee on Rules shall provide funds to offset added costs incurred by the Legislative Analyst.

The citizen cost impact analyses shall include those economic effects that the Legislative Analyst deems significant and that he or she believes will result directly from the proposed legislation. Insofar as feasible, the economic effects considered by the Legislative Analyst shall include, but not be limited to, the following:

- (a) The economic effect on the public generally.
- (b) Any specific economic effect on persons or businesses in the case of legislation that is regulatory.

The Legislative Analyst shall submit the citizen cost impact analyses to the committee or committees when completed, and at the time or times designated by the Committee on Rules.

The Legislative Analyst shall submit from time to time, but at least once a year, a report to the Legislature on the trends and directions of the state's economy, and shall list the alternatives and make recommendations as to legislative actions that, in his or her judgment, will ensure a sound and stable state economy.

Joint Legislative Audit Committee

37.3. The Joint Legislative Audit Committee is created pursuant to the Legislature's rulemaking authority under the California Constitution, and pursuant to Chapter 4 (commencing with Section 10500) of Part 2 of Division 2 of Title 2 of the Government Code. The committee consists of seven Members of the Senate and seven Members of the Assembly, who shall be selected in the manner provided for in these rules. Notwithstanding any other provision of these rules, four members from each house constitute a quorum of the Joint Legislative Audit Committee and the number of votes necessary to take action on any matter. The Chairman or Chairwoman of the Joint Legislative Audit Committee, upon receiving a request by any Member of the Legislature or committee thereof for a copy of a report prepared or being prepared by the Bureau of State Audits, shall provide the member or committee with a copy of the report when it is, or has been, submitted by the Bureau of State Audits to the Joint Legislative Audit Committee.

Study or Audits

37.4. (a) Notwithstanding any other provision of law, the Joint Legislative Audit Committee shall establish priorities and assign all work to be done by the Bureau of State Audits.

(b) Any bill requiring action by the Bureau of State Audits shall contain an appropriation for the cost of any study or audit.

(c) Any bill or concurrent, joint, Senate, or House resolution assigning a study to the Joint Legislative Audit Committee or to the Bureau of State Audits shall be referred to the respective rules committees. Before the committees may act upon or assign the bill or resolution, they shall obtain an estimate from the Joint Legislative Audit Committee of the amount required to be expended to make the study.

Waiver

37.5. Subdivision (b) of Rule 37.4 may be waived by the Joint Legislative Audit Committee. The chairman or chairwoman of the committee shall notify the Secretary of the Senate, the Chief Clerk of the Assembly, and the Legislative Counsel in writing when subdivision (b) of Rule 37.4 has been waived. If the cost of a study or audit is less than one hundred thousand dollars (\$100,000), the chairman or chairwoman of the committee may exercise the committee's authority to waive subdivision (b) of Rule 37.4.

Administrative Regulations

37.7. (a) Any Member of the Senate may request the Senate Committee on Rules, and any Member of the Assembly may request the Speaker of the Assembly, to direct a standing committee or the Office of Research of his or her respective house to study any proposed or existing regulation or group of related regulations. Upon receipt of a request, the Senate Committee on Rules or the Speaker of the Assembly shall, after review, determine whether a study shall be made. In reviewing the request, the Senate Committee on Rules or the Speaker of the Assembly shall determine:

- (1) The cost of making the study.
 - (2) The potential public benefit to be derived from the study.
 - (3) The scope of the study.
- (b) The study may consider, among other relevant issues, whether the proposed or existing regulation:
- (1) Exceeds the agency's statutory authority.
 - (2) Fails to conform to the legislative intent of the enabling statute.
 - (3) Contradicts or duplicates other regulations adopted by federal, state, or local agencies.
 - (4) Involves an excessive delegation of regulatory authority to a particular state agency.
 - (5) Unfairly burdens particular elements of the public.
 - (6) Imposes social or economic costs that outweigh its intended benefits to the public.

(7) Imposes unreasonable penalties for violation.

The respective reviewing unit shall, in a timely manner, transmit its concerns, if any, to the Senate Committee on Rules or the Speaker of the Assembly, and the promulgating agency.

In the event that a state agency takes a regulatory action that the reviewing unit finds to be unacceptable, the unit shall file a report for publication in the Daily Journal of its respective house indicating the specific reasons why the regulatory action should not have been taken. The report may include a recommendation that the Legislature adopt a concurrent resolution requesting the state agency to reconsider its action or that the Legislature enact a statute to restrict the regulatory powers of the state agency taking the action.

Joint Rules Committee

40. The Joint Rules Committee is hereby created. The committee has a continuing existence and may meet, act, and conduct its business during sessions of the Legislature or any recess thereof.

The committee consists of the members of the Assembly Committee on Rules, the Assembly Majority Floor Leader, the Assembly Minority Floor Leader, the Speaker of the Assembly, four members of the Senate Committee on Rules, and as many Members of the Senate as may be required to maintain equality in the number of Assembly Members and Senators on the committee, to be appointed by the Senate Committee on Rules. Vacancies occurring in the membership shall be filled by the appointing power.

The committee and its members have and may exercise all of the rights, duties, and powers conferred upon investigating committees and their members by the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time, which provisions are incorporated herein and made applicable to this committee and its members.

The committee shall ascertain facts and make recommendations to the Legislature and to the houses thereof concerning:

(a) The relationship between the two houses and procedures calculated to expedite the affairs of the Legislature by improving that relationship.

(b) The legislative branch of the state government and any defects or deficiencies in the law governing that branch.

(c) Methods whereby legislation is proposed, considered, and acted upon.

(d) The operation of the Legislature and the committees thereof, and the means of coordinating the work thereof and avoiding duplication of effort.

(e) Aids to the Legislature.

(f) Information and statistics for the use of the Legislature, the respective houses thereof, and the members.

Any matter of business of either house, the transaction of which would affect the interests of the other house, may be referred to the committee for action if the Legislature is not in recess, and shall be referred to the committee for action if the Legislature is in recess.

The committee has the following additional powers and duties:

(a) To select a chairman or chairwoman from its membership. The vice chairman or vice chairwoman of the committee shall be one of the Senate members of the committee, to be selected by the Senate Committee on Rules.

(b) To allocate space in the State Capitol Building and all annexes and additions thereto as provided by law.

(c) To approve, as provided by law, the appearance of the Legislative Counsel in litigation.

(d) To contract with other agencies, public or private, for the rendition and affording of services, facilities, studies, and reports to the committee as the committee deems necessary to assist it to carry out the purposes for which it is created.

(e) To cooperate with and secure the cooperation of county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of this rule, and to direct the sheriff of any county to serve subpoenas, orders, and other process issued by the committee.

(f) To report its findings and recommendations, including recommendations for the needed revision of any and all laws and constitutional provisions relating to the Legislature, to the Legislature and to the people from time to time.

(g) The committee, and any subcommittee when so authorized by the committee, may meet and act without as well as within the State of California, and are authorized to leave the state in the performance of their duties.

(h) To expend funds as may be made available to it to carry out the functions and activities related to the legislative affairs of the Senate and Assembly.

(i) To appoint a chief administrative officer of the committee, who shall have duties relating to the administrative, fiscal, and business affairs of the committee as the committee shall prescribe. The committee may terminate the services of the chief administrative officer at any time.

(j) To employ persons as may be necessary to assist all other joint committees, except the Joint Legislative Budget Committee and the Joint Legislative Audit Committee, in the exercise of their powers and

performance of their duties. In accordance with Rule 36.8, the committee shall govern and administer the expenditure of funds by other joint committees, requiring that the claims of joint committees be approved by the Joint Rules Committee or its designee. All expenses of the committee and of all other joint committees may be paid from the Operating Funds of the Assembly and Senate.

(k) To appoint the chairmen or chairwomen of joint committees, as authorized by Rule 36.7.

(l) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this rule.

The members of the Joint Rules Committee from the Senate may meet separately as a unit, and the members of the Joint Rules Committee from the Assembly may meet separately as a unit, and consider any action that is required to be taken by the Joint Rules Committee. If the majority of members of the Joint Rules Committee of each house at the separate meetings vote in favor of that action, the action shall be deemed to be action taken by the Joint Rules Committee.

The Joint Rules Committee shall meet not less than biweekly during a session of the Legislature, other than during a joint recess, at a regularly scheduled time and place. If the full committee fails to so meet, the members of the committee from the Senate shall meet separately as a unit and the members of the committee from the Assembly shall meet separately as a unit within five days of the regularly scheduled meeting date.

The committee succeeds to, and is vested with, all of the powers and duties of the Joint Committee on Legislative Organization, the State Capitol Committee, the Joint Committee on Interhouse Cooperation, the Joint Legislative Committee for School Visitations, and the Joint Standing Committee on the Joint Rules of the Senate and the Assembly.

Review of Administrative Regulations

40.1. The Joint Rules Committee, with regard to joint committees, and the respective rules committee of each house, with regard to standing and select committees of the house, shall approve any request for a priority review made by a committee pursuant to Section 11349.7 of the Government Code and shall submit approved requests to the Office of Administrative Law. The Joint Rules Committee or the respective rules committee, and the committee initiating the request, shall each receive a copy of the priority review.

Subcommittee on Legislative Space and Facilities

40.3. (a) A subcommittee of the Joint Rules Committee is hereby created, to be known as the Subcommittee on Legislative Space and Facilities. The subcommittee consists of three Members of the Senate and three Members of the Assembly, appointed by the Chairman or Chairwoman of the Joint Rules Committee, and the chairman or chairwoman of the fiscal committee of each house who shall have full voting rights on the subcommittee. The chairman or chairwoman of the subcommittee shall be appointed by the members thereof. For purposes of this subcommittee, the chairmen or chairwomen of the fiscal committees are ex officio members of the Joint Rules Committee, but do not have voting rights on that committee, nor may they be counted in determining a quorum. The subcommittee shall consider the housing of the Legislature and legislative facilities.

(b) The subcommittee and its members have and may exercise all of the rights, duties, and powers conferred upon investigating committees and their members by the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time, which provisions are incorporated herein and made applicable to this subcommittee and its members.

(c) The subcommittee has the following additional powers and duties:

(1) To contract with other agencies, public or private, for the rendition and affording of services, facilities, studies, and reports to the subcommittee as the committee deems necessary to assist it to carry out the purposes for which it is created.

(2) To cooperate with and secure the cooperation of county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of this rule, and to direct the sheriff of any county to serve subpoenas, orders, and other process issued by the subcommittee.

(3) To report its findings and recommendations to the Legislature and to the people from time to time.

(4) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this rule.

(d) The subcommittee is authorized to leave the State of California in the performance of its duties.

Claims for Workers' Compensation

41. The Chairman or Chairwoman of the Committee on Rules of each house, or a designated representative, shall sign any required worker's

compensation report regarding injuries or death arising out of and within the course of employment suffered by any member, officer, or employee of the house, or any employee of a standing or investigating committee thereof. In the case of a joint committee, the Chairman or Chairwoman of the Committee on Rules of either house, or a designated representative, may sign any report with respect to a member or employee of a joint committee.

Information Concerning Committees

42. The Committee on Rules of each house shall provide for a continuous cumulation of information concerning the membership, organization, meetings, and studies of legislative investigating committees. Each Committee on Rules shall be responsible for information concerning the investigating committees of its own house, and concerning joint investigating committees under a chairman or chairwoman who is a member of that house. To the extent possible, each Committee on Rules shall seek to ensure that the investigating committees for which it has responsibility under this rule have organized, including the organization of any subcommittees, and have had all topics for study assigned to them within a reasonable period of time.

The information thus cumulated shall be made available to the public by the Committee on Rules of each house and shall be published periodically under their joint direction.

Joint Committees

43. Any concurrent resolution creating a joint committee of the Legislature and any concurrent resolution allocating moneys from the Operating Funds of the Assembly and Senate to the committee shall be referred to the Committee on Rules of the respective houses.

Conflict of Interest

44. (a) A Member of the Legislature may not, while serving, have any interest, financial or otherwise, direct or indirect, engage in any business or transaction or professional activity, or incur any obligation of any nature, that is in substantial conflict with the proper discharge of his or her duties in the public interest and of his or her responsibilities as prescribed by the laws of this state.

(b) A Member of the Legislature may not, during the term for which he or she was elected:

(1) Accept other employment that he or she has reason to believe will either impair his or her independence of judgment as to his or her official duties, or require him or her, or induce him or her, to disclose confidential information acquired by him or her in the course of and by reason of his or her official duties.

(2) Willfully and knowingly disclose, for pecuniary gain, to any other person, confidential information acquired by him or her in the course of and by reason of his or her official duties, or use the information for the purpose of pecuniary gain.

(3) Accept or agree to accept, or be in partnership with any person who accepts or agrees to accept, any employment, fee, or other thing of value, or portion thereof, in consideration of his or her appearance, agreeing to appear, or taking of any other action on behalf of another person regarding a licensing or regulatory matter, before any state board or agency that is established by law for the primary purpose of licensing or regulating the professional activity of persons licensed, pursuant to state law.

This rule does not prohibit a member who is an attorney at law from practicing in that capacity before the Workers' Compensation Appeals Board or the Commissioner of Corporations, and receiving compensation therefor, or from practicing for compensation before any state board or agency in connection with, or in any matter related to, any case, action, or proceeding filed and pending in any state or federal court. This rule does not prohibit a member from making inquiry for information on behalf of a constituent before a state board or agency, if no fee or reward is given or promised in consequence thereof. The prohibition contained in this rule does not apply to a partnership in which a Member of the Legislature is a member if the Member of the Legislature does not share directly or indirectly in the fee resulting from the transaction, nor does it apply in connection with any matter pending before any state board or agency on the operative date of this rule if the affected Member of the Legislature is attorney of record or representative in the matter prior to the operative date.

(4) Receive or agree to receive, directly or indirectly, any compensation, reward, or gift from any source except the State of California for any service, advice, assistance, or other matter related to the legislative process, except fees for speeches or published works on legislative subjects and except, in connection therewith, the reimbursement of expenses for actual expenditures for travel and reasonable subsistence for which no payment or reimbursement is made by the State of California.

(5) Participate, by voting or any other action, on the floor of either house, or in committee or elsewhere, in the enactment or defeat of legislation in which he or she has a personal interest, except as follows:

(i) If, on the vote for final passage, by the house of which he or she is a member, of the legislation in which he or she has a personal interest, he or she first files a statement (which shall be entered verbatim in the Daily Journal) stating in substance that he or she has a personal interest in the legislation to be voted on and that, notwithstanding that interest, he or she is able to cast a fair and objective vote on the legislation, he or she may cast his or her vote without violating any provision of this rule.

(ii) If the member believes that, because of his or her personal interest, he or she should abstain from participating in the vote on the legislation, he or she shall so advise the presiding officer prior to the commencement of the vote and shall be excused from voting on the legislation without any entry in the Daily Journal of the fact of his or her personal interest. In the event that a rule of the house requiring that each member who is present vote aye or nay is invoked, the presiding officer shall order the member excused from compliance and shall order entered in the Daily Journal a simple statement that the member was excused from voting on the legislation pursuant to law.

(c) A person subject to this rule has an interest that is in substantial conflict with the proper discharge of his or her duties in the public interest and of his or her responsibilities as prescribed by the laws of this state, or a personal interest, arising from any situation, within the scope of this rule, if he or she has reason to believe or expect that he or she will derive a direct monetary gain or suffer a direct monetary loss, as the case may be, by reason of his or her official activity. He or she does not have an interest that is in substantial conflict with the proper discharge of his or her duties in the public interest and of his or her responsibilities as prescribed by the laws of this state, or a personal interest, arising from any situation, within the scope of this rule, if any benefit or detriment accrues to him or her as a member of a business, profession, occupation, or group to no greater extent than any other member of the business, profession, occupation, or group.

(d) A person who is subject to this rule may not be deemed to be engaged in any activity that is in substantial conflict with the proper discharge of his or her duties in the public interest and of his or her responsibilities as prescribed by the laws of this state, or to have a personal interest, arising from any situation, within the scope of this rule, solely by reason of any of the following:

(1) His or her relationship to any potential beneficiary of any situation is one that is defined as a remote interest by Section 1091 of the

Government Code or is otherwise not deemed to be a prohibited interest under Section 1091.1 or 1091.5 of the Government Code.

(2) Receipt of a campaign contribution that is regulated, received, reported, and accounted for pursuant to Chapter 4 (commencing with Section 84100) of Title 9 of the Government Code, so long as the contribution is not made on the understanding or agreement, in violation of law, that the person's vote, opinion, judgment, or action will be influenced thereby.

(e) The enumeration in this rule of specific situations or conditions that are deemed not to result in substantial conflict with the proper discharge of the duties and responsibilities of a legislator or legislative employee, or in a personal interest, may not be construed as exclusive.

The Legislature, in adopting this rule, recognizes that Members of the Legislature and legislative employees may need to engage in employment, professional, or business activities other than legislative activities in order to maintain a continuity of professional or business activity, or may need to maintain investments, which activities or investments do not conflict with specific provisions of this rule. However, in construing and administering this rule, weight should be given to any coincidence of income, employment, investment, or other profit from sources that may be identified with the interests represented by those sources that are seeking action of any character on matters then pending before the Legislature.

(f) An employee of either house of the Legislature may not, during the time he or she is so employed, commit any act or engage in any activity prohibited by any part of this rule.

(g) A person may not induce or seek to induce any Member of the Legislature to violate any part of this rule.

(h) A violation of any part of this rule is punishable as provided in Section 8926 of the Government Code.

Ethics Committees

45. The Senate Committee on Legislative Ethics and the Assembly Legislative Ethics Committee, respectively, shall receive complaints concerning members of their respective houses, and may investigate and make findings and recommendations concerning violations by members of their respective houses of Article 2 (commencing with Section 8920) of Chapter 1 of Part 1 of Division 2 of Title 2 of the Government Code. Each house shall adopt rules governing the establishment and procedures of the committee of that house.

Designating Legislative Sessions

50. Regular sessions shall be identified with the odd-numbered year subsequent to each general election, followed by a hyphen, and then the last two digits of the following even-numbered year. For example: 2007–08 Regular Session.

Designating Extraordinary Sessions

50.3. All extraordinary sessions shall be designated in numerical order by the session in which convened.

Days and Dates

50.5. (a) As used in these rules, “day” means a calendar day, unless otherwise specified.

(b) When the date of a deadline, recess requirement, or circumstance falls on a Saturday, Sunday, or Monday that is a holiday, the date shall be deemed to refer to the preceding Friday. When the date falls on a holiday on a weekday other than a Monday, the date shall be deemed to refer to the preceding day.

Legislative Calendar

51. (a) The Legislature shall observe the following calendar during the first year of the regular session:

(1) Organizational Recess—The Legislature shall meet on the first Monday in December following the general election to organize. Thereafter, each house shall be in recess from the time it determines until the first Monday in January, except when the first Monday is January 1 or January 1 is a Sunday, in which case, the following Wednesday.

(2) Spring Recess—The Legislature shall be in recess from the 10th day prior to Easter until the Monday after Easter.

(3) Summer Recess—The Legislature shall be in recess from July 20 until August 20. This recess shall not commence until the Budget Bill is passed.

(4) Interim Study Recess—The Legislature shall be in recess from September 14 until the first Monday in January, except when the first Monday is January 1 or January 1 is a Sunday, in which case, the following Wednesday.

(b) The Legislature shall observe the following calendar for the remainder of the legislative session:

(1) Spring Recess—The Legislature shall be in recess from the 10th day prior to Easter until the Monday after Easter.

(2) Summer Recess—The Legislature shall be in recess from July 3 until August 4. This recess may not commence until the Budget Bill is passed.

(3) Final Recess—The Legislature shall be in recess on September 1 until adjournment sine die on November 30.

(c) Recesses shall be from the hour of adjournment on the day specified, reconvening at the time designated by the respective houses.

(d) The recesses specified by this rule shall be designated as joint recesses.

Recall From Recess

52. Notwithstanding the power of the Governor to call a special session, the Legislature may be recalled from joint recess and reconvene in regular session by any of the following means:

(a) It may be recalled by joint proclamation, which shall be entered in the Daily Journal, of the Senate Committee on Rules and the Speaker of the Assembly or, in his or her absence from the state, the Assembly Committee on Rules.

(b) Ten or more Members of the Legislature may present a request for recall from joint recess to the Chief Clerk of the Assembly and the Secretary of the Senate. The request immediately shall be printed in the Daily Journal. Within 10 days thereafter, the Speaker of the Assembly or, if the Speaker is absent from the state, the Assembly Committee on Rules, and the Senate Committee on Rules shall act upon the request. If they concur in desiring to recall the Legislature from joint recess, they shall issue their joint proclamation to that effect entered in the Daily Journal no later than 20 days after publication of the request in the Daily Journal.

(c) If either or both of the parties specified in subdivision (b) does not concur, 10 or more Members of the Legislature may request the Chief Clerk of the Assembly or the Secretary of the Senate to petition the membership of the respective house. The petition shall be entered in the Daily Journal and shall contain a specified reconvening date commencing not later than 20 days after the date of the petition. If two-thirds of the members of the house or each of the two houses concur, the Legislature shall reconvene on the date specified. The necessary concurrences must be received at least 10 days prior to the date specified for reconvening.

Procedure on Suspending Rules by Single House

53. Whenever these rules authorize suspension of the Joint Rules as to a particular bill by action of a single house after approval by the Committee on Rules of that house, the following procedure shall be followed:

(a) A written request to suspend the joint rule shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, and shall be transmitted to the Committee on Rules of the appropriate house.

(b) The Assembly Committee on Rules or the Senate Committee on Rules, as the case may be, shall determine whether there exists an urgent need for the suspension of the joint rule with regard to the bill.

(c) If the appropriate rules committee recommends that the suspension be permitted, the member may offer a resolution, without further reference thereof to committee, granting permission to suspend the joint rule. The adoption of the resolution granting permission shall require an affirmative recorded vote of the elected members of the house in which the request is made.

Introduction of Bills

54. (a) A bill may not be introduced in the first year of the regular session after February 23 and a bill may not be introduced in the second year of the regular session after February 22. These deadlines do not apply to constitutional amendments, committee bills introduced pursuant to Assembly Rule 47 or Senate Rule 23, bills introduced in the Assembly with the permission of the Speaker of the Assembly, or bills introduced in the Senate with the permission of the Senate Committee on Rules. Subject to these deadlines, a bill may be introduced at any time except when the houses are in joint summer, interim, or final recess. Each house may provide for introduction of bills during a recess other than a joint recess. Bills shall be numbered consecutively during the regular session.

(b) The Desks of the Senate and Assembly shall remain open during a joint recess, other than a joint spring, summer, interim, or final recess, for the introduction of bills during business hours on Monday through Friday, inclusive, except holidays. Bills received at the Senate Desk during these periods shall be numbered and printed. After printing, the bills shall be delivered to the Secretary of the Senate and referred by the Senate Committee on Rules to a standing committee. Bills received at the Assembly Desk during these periods shall be numbered, printed, and referred to a committee by the Assembly Committee on Rules. After printing, the bills shall be delivered to the Chief Clerk of the Assembly.

On the reconvening of each house, the bills shall be read the first time, and shall be delivered to the committee to which they were referred.

(c) A member may not author a bill during a session that would have substantially the same effect as a bill he or she previously introduced during that session. This restriction does not apply in cases where the previously introduced bill was vetoed by the Governor or its provisions were “chaptered out” by a later chaptered bill pursuant to Section 9605 of the Government Code. An objection based on this restriction may be raised only while the bill is being considered by the house in which it is introduced. The objection shall be referred to the Committee on Rules of the house for a determination. The bill shall remain on the Daily File or with a committee, as the case may be, until a determination is made. If, upon consideration of the objection, the Committee on Rules determines that the bill objected to would have substantially the same effect as another bill previously introduced during the session by the author, the bill objected to shall be stricken from the Daily File or returned to the desk by the committee, as the case may be, and may not be acted upon during the remainder of the session. If the Committee on Rules determines that the bill objected to would not have substantially the same effect as a bill previously introduced during the session by the author, the bill may thereafter be acted upon by the committee or the house, as the case may be. The Committee on Rules may obtain assistance as it may desire from the Legislative Counsel as to the similarity of a bill or amendments to a prior bill.

This joint rule may be suspended by approval of the Committee on Rules and three-fourths vote of the membership of the house.

(d) During a joint recess, the Chief Clerk of the Assembly or Secretary of the Senate shall order the preparation of preprint bills when so ordered by any of the following:

- (1) The Speaker of the Assembly.
- (2) The Committee on Rules of the respective house.
- (3) A committee, with respect to bills within the subject matter jurisdiction of the committee.

Preprint bills shall be designated and shall be printed in the order received and numbered in the order printed. To facilitate subsequent amendment, a preprint bill shall be so prepared that, when introduced as a bill, the page and the line numbers will not change. The Chief Clerk of the Assembly and Secretary of the Senate shall publish a list periodically of preprint bills showing the preprint bill number, the title, and the Legislative Counsel’s Digest. The Speaker of the Assembly and Senate Committee on Rules may refer any preprint bill to committee for study.

30-Day Waiting Period

55. A bill other than the Budget Bill may not be heard or acted upon by committee or either house until the bill has been in print for 30 days. The date a bill is returned from the printer shall be entered in the Daily History. This rule may be suspended concurrently with the suspension of the requirement of Section 8 of Article IV of the Constitution or, if that period has expired, this rule may be suspended by approval of the Committee on Rules and two-thirds vote of the house in which the bill is being considered.

Return of Bills

56. Bills introduced in the first year of the regular session and passed by the house of origin on or before the January 31st constitutional deadline are “carryover bills.” Immediately after January 31, bills introduced in the first year of the regular session that do not become “carryover bills” shall be returned to the Chief Clerk of the Assembly or Secretary of the Senate, respectively. Notwithstanding Rule 4, as used in this rule “bills” does not include constitutional amendments.

Appropriation Bills

57. Appropriation bills that may not be sent to the Governor shall be held, after enrollment, by the Chief Clerk of the Assembly or Secretary of the Senate, respectively. The bills shall be sent to the Governor immediately after the Budget Bill has been passed.

Urgency Clauses

58. An amendment to add a section to a bill to provide that the act shall take effect immediately as an urgency statute may not be adopted unless the author of the amendment has first secured the approval of the Committee on Rules of the house in which the amendments are offered.

Veto

58.5. The Legislature may consider a Governor’s veto for only 60 days, not counting days when the Legislature is in joint recess.

Publications

59. During periods of joint recess, weekly, if necessary, the following documents shall be published: Daily Files, Histories, and Daily Journals.

Committee Hearings

60. (a) A standing committee or subcommittee thereof may not take action on a bill at any hearing held outside of the State Capitol.

(b) A committee may hear the subject matter of a bill or convene for an informational hearing during a period of recess. Four days' notice in the Daily File is required prior to the hearing.

(c) A bill may not be acted upon by a committee during a joint recess.

Deadlines

61. The deadlines set forth in this rule shall be observed by the Senate and Assembly. After each deadline, the Secretary of the Senate and the Chief Clerk of the Assembly may not accept committee reports from their respective committees except as otherwise provided in this rule:

(a) Odd-numbered year:

(1) Feb. 23—Last day for bills to be introduced.

(2) Apr. 27—Last day for policy committees to hear and report to fiscal committees fiscal bills introduced in their house.

(3) May 11—Last day for policy committees to hear and report to the floor nonfiscal bills introduced in their house.

(4) May 25—Last day for policy committees to meet prior to June 11.

(5) June 1—Last day for fiscal committees to hear and report to the floor bills introduced in their house.

(6) June 1—Last day for fiscal committees to meet prior to June 11.

(7) June 4-June 8—Floor session only. No committee may meet for any purpose.

(8) June 8—Last day for each house to pass bills introduced in that house.

(9) June 11—Committee meetings may resume.

(10) July 13—Last day for policy committees to meet and report bills.

(11) Aug. 31—Last day for fiscal committees to meet and report bills.

(12) Sept. 3-Sept. 14—Floor session only. No committee may meet for any purpose.

(13) Sept. 7—Last day to amend on the floor.

(14) Sept. 14—Last day for each house to pass bills.

(b) Even-numbered year:

(1) Jan. 18—Last day for policy committees to hear and report to fiscal committees fiscal bills introduced in their house in the odd-numbered year.

(2) Jan. 25—Last day for any committee to hear and report to the floor bills introduced in that house in the odd-numbered year.

(3) Jan. 31—Last day for each house to pass bills introduced in that house in the odd-numbered year.

(4) Feb. 22—Last day for bills to be introduced.

(5) April 18—Last day for policy committees to hear and report to fiscal committees fiscal bills introduced in their house.

(6) May 2—Last day for policy committees to hear and report to the floor nonfiscal bills introduced in their house.

(7) May 16—Last day for policy committees to meet prior to June 2.

(8) May 23—Last day for fiscal committees to hear and report to the floor bills introduced in their house.

(9) May 23—Last day for fiscal committees to meet prior to June 2.

(10) May 27-May 30—Floor session only. No committee may meet for any purpose.

(11) May 30—Last day for each house to pass bills introduced in that house.

(12) June 2—Committee meetings may resume.

(13) June 27—Last day for policy committees to meet and report bills.

(14) Aug. 15—Last day for fiscal committees to meet and report bills.

(15) Aug. 18-Aug. 31—Floor session only. No committee may meet for any purpose.

(16) Aug. 22—Last day to amend on floor.

(17) Aug. 31—Last day for each house to pass bills.

(c) If a bill is acted upon in committee before the relevant deadline, and the committee votes to report the bill out with amendments that have not at the time of the vote been prepared by the Legislative Counsel, the Secretary of the Senate and the Chief Clerk of the Assembly may subsequently receive a report recommending the bill for passage or for rereferral together with the amendments at any time within two legislative days after the deadline or, if the Legislature has recessed for the Summer Recess, within seven calendar days after the deadline.

(d) Notwithstanding subdivisions (a) and (b), a policy committee may report a bill to a fiscal committee on or before the relevant deadline for reporting nonfiscal bills to the floor if, after the policy committee deadline for reporting the bill to fiscal committee, the Legislative Counsel's Digest is changed to indicate reference to fiscal committee.

(e) Any bill in the house of origin that is not acted upon during the odd-numbered year as a result of the deadlines imposed in subdivision (a) may be acted upon when the Legislature reconvenes after the interim

study joint recess, or at any time the Legislature is recalled from the interim study joint recess.

(f) The deadlines imposed by this rule do not apply to the rules committees of the respective houses.

(g) The deadlines imposed by this rule do not apply in instances where a bill is referred to committee under Rule 26.5.

(h) The deadlines imposed by this rule do not apply in instances where a bill is referred to a committee under Assembly Rule 77.2.

(i) (1) Notwithstanding subdivisions (a) and (b), a policy committee or fiscal committee may meet for the purpose of hearing and reporting a constitutional amendment, or a bill that would go into immediate effect pursuant to subdivision (c) of Section 8 of Article IV of the California Constitution, at any time other than those periods when no committee may meet for any purpose.

(2) Notwithstanding subdivisions (a) and (b), either house may meet for the purpose of considering and passing a constitutional amendment, or a bill that would go into immediate effect pursuant to subdivision (c) of Section 8 of Article IV of the California Constitution, at any time during the session.

(j) This rule may be suspended as to any particular bill by approval of the Committee on Rules and two-thirds vote of the membership of the house.

Committee Procedure

62. (a) Notice of a hearing on a bill by the committee of first reference in each house, or notice of an informational hearing, shall be published in the Daily File at least four days prior to the hearing. Otherwise, notice shall be published in the Daily File two days prior to the hearing. That notice requirement may be waived by a majority vote of the house in which the bill is being considered. A bill may be set for hearing in a committee only three times. A bill is "set," for purposes of this subdivision, whenever notice of the hearing has been published in the Daily File for one or more days. If a bill is set for hearing, and the committee, on its own initiation and not the author's, postpones the hearing on the bill or adjourns the hearing while testimony is being taken, that hearing is not counted as one of the three times a bill may be set. After hearing the bill, the committee may vote on the bill. If the hearing notice in the Daily File specifically indicates that "testimony only" will be taken, that hearing is not counted as one of the three times a bill may be set. A committee may not vote on a bill so noticed until it has been heard in accordance with this rule. After a committee has voted on a bill, reconsideration may be granted only one time. Reconsideration may be

granted within 15 legislative days or prior to the interim study joint recess, whichever first occurs. A vote on reconsideration may not be taken without the same notice required to set a bill unless that vote is taken at the same meeting at which the vote to be reconsidered was taken, and the author is present. When a bill fails to get the necessary votes to pass it out of committee, or upon failure to receive reconsideration, it shall be returned to the Chief Clerk of the Assembly or Secretary of the Senate of the house of the committee and may not be considered further during the session.

This subdivision may be suspended with respect to a particular bill by approval of the Committee on Rules and two-thirds vote of the members of the house.

(b) If the committee adopts amendments other than those offered by the author and orders the bill reprinted prior to its further consideration, the hearing shall not be the final time a bill may be set under subdivision (a) of this rule.

(c) When a standing committee takes action on a bill, the vote shall be by rollcall vote only. All rollcall votes taken by a standing committee shall be recorded by the committee secretary on forms provided by the Chief Clerk of the Assembly and the Secretary of the Senate. The chairman or chairwoman of each standing committee shall promptly transmit a copy of the record of the rollcall votes to the Chief Clerk of the Assembly or the Secretary of the Senate, respectively, who shall cause the votes to be published as prescribed by each house.

This subdivision also applies to action of a committee on a subcommittee report. The rules of each house shall prescribe the procedure as to rollcall votes on amendments.

Any committee may, with the unanimous consent of the members present, substitute a rollcall from a prior bill, provided that the members whose votes are substituted are present at the time of the substitution.

A bill may not be passed out by a committee without a quorum being present.

This subdivision does not apply to:

(1) Procedural motions that do not have the effect of disposing of a bill.

(2) Withdrawal of a bill from a committee calendar at the request of an author.

(3) Return of a bill to the house where the bill has not been voted on by the committee.

(4) The assignment of a bill to committee.

(d) The chairman or chairwoman of the committee hearing a bill may, at any time, order a call of the committee. Upon a request by any member

of a committee or the author in person, the chairman or chairwoman shall order the call.

In the absence of a quorum, a majority of the members present may order a quorum call of the committee and compel the attendance of absentees. The chairman or chairwoman shall send the Sergeant at Arms for those members who are absent and not excused by their respective house.

When a call of a committee is ordered by the chairman or chairwoman with respect to a particular bill, he or she shall send the Sergeant at Arms, or any other person to be appointed for that purpose, for those members who have not voted on that particular bill and are not excused.

A quorum call or a call of the committee with respect to a particular bill may be dispensed with by the chairman or chairwoman without objection by any member of the committee, or by a majority of the members present.

If a motion is adopted to adjourn the committee while the committee is operating under a call, the call shall be dispensed with and any pending vote announced.

The committee secretary shall record the votes of members answering a call. The rules of each house may prescribe additional procedures for a call of a committee.

Redistricting Bills

62.5. This rule applies only to bills affecting the boundaries of legislative, congressional, or State Board of Equalization districts.

(a) Except as specifically provided in this rule, Rules 28, 28.1, 29, 29.5, 30, 30.5, 30.7, 61 (except for paragraph (12) of subdivision (a), and paragraph (15) of subdivision (b), of Rule 61), and 62 do not apply to bills affecting the boundaries of legislative, congressional, or State Board of Equalization districts.

(b) If the Senate (in the case of a Senate bill) or the Assembly (in the case of an Assembly bill) refuses to concur in amendments to a bill made by the other house, a committee on conference shall be appointed. The Speaker of the Assembly and the Senate Committee on Rules shall each appoint a committee on conference of three members, consisting of two members of the majority party and one member not of the majority party. The Secretary of the Senate and the Chief Clerk of the Assembly shall immediately notify the other house of the action taken.

(c) When a bill affecting the boundaries of legislative, congressional, or State Board of Equalization districts has been referred to a committee on conference, the chairman or chairwoman of the committee on conference shall immediately request the Senate Committee on Elections

and Reapportionment and the Assembly Committee on Elections, Reapportionment, and Constitutional Amendments to hold a public hearing on the bill. The committee on conference shall also hold a public hearing on the bill. The hearings of the policy committees and the committee on conference may be noticed and held concurrently.

(d) If either or both of the policy committees hold a public hearing on a bill pursuant to the request of the chairman or chairwoman of the committee on conference, the policy committees may consider amendments to the bill, and may make recommendations on amendments to the committee on conference. A policy committee recommendation for an amendment may be adopted only by a rollcall vote of the members of the policy committee.

(e) All proposed reports of a committee on conference, all proposed amendments to a proposed report of a committee on conference, and all proposed amendments presented to a policy committee shall be accompanied by appropriate maps. A committee vote may not be taken on any proposed report of a committee on conference, any proposed amendment to a proposed report of a committee on conference, or any proposed amendment presented to a policy committee unless the proposed report or proposed amendment, with accompanying maps, has been available to the public for at least 24 hours. Notwithstanding subdivision (h), district boundaries contained in any proposed report or any proposed amendment may not be required to be prepared or approved as to form by Legislative Counsel if the accompanying maps adequately reflect the district boundaries.

(f) All hearings of the policy committees and the committee on conference shall be open and readily accessible to the public, and shall be noticed in the Daily File for not less than two calendar days.

(g) The provisions of subdivision (e) prohibiting a committee vote on any proposed report of a committee on conference, any proposed amendment to a proposed report of a committee on conference, or any proposed amendment presented to a policy committee unless the amendment, accompanied by appropriate maps, has been available to the public for at least 24 hours do not apply in any of the following situations:

(1) The amendment proposed to a policy committee or the committee on conference does not change any district boundaries.

(2) The amendment proposed to a policy committee or the committee on conference is required to correct a technical error in the bill, and the proposed amendment would shift no more than 1 percent of the population of any district to any other district or districts.

(3) The amendment is a policy committee or committee on conference amendment that is proposed in response to amendments that have been proposed to the committee.

(h) Except as provided in subdivision (i), a vote may not be taken in either house on any bill or any report of the committee on conference on that bill unless the bill or the report has been in print in Legislative Counsel form and available to the public, accompanied by appropriate maps, for at least 24 hours.

(i) If either house refuses to adopt the report of the committee on conference, the bill may be returned to the committee on conference for further consideration. If the bill is returned to the committee on conference for an amendment described in paragraph (1) or (2) of subdivision (g), the notice requirements of subdivisions (e) and (h) do not apply.

(j) Notwithstanding any other rule, this rule may be suspended upon a majority vote of the membership of each house.

Uniform Rules

63. A standing committee of either house may not adopt or apply any rule or procedure governing the voting upon bills that is not equally applicable to the bills of both houses.

Votes on Bills

64. Every meeting of each house and standing committee or subcommittee thereof where a vote is to be taken on a bill, or amendments to a bill, shall be public.

Conflicting Rules

65. The provisions of Rule 50 and following of these rules prevail over any conflicting joint rule with a lesser number.

RESOLUTION CHAPTER 3

Assembly Concurrent Resolution No. 3—Relative to Korean-American Day.

WHEREAS, On January 13, 1903, the history of Korean immigration to America began as 102 courageous Korean men, women, and children ventured across the vast Pacific Ocean aboard the S.S. Gaelic to land in Hawaii; and

WHEREAS, The hopes of these Koreans for the promised land of opportunity was quickly frustrated by social, economic, and language barriers of unforeseen magnitude; and

WHEREAS, They did not falter in their pursuit of the American dream, but through tenacious effort and sacrifice, established a new home in a new land and educated their Korean-American children; and

WHEREAS, While the first Korean immigrants fought for the freedom and independence of their motherland, their children grew up to be patriotic American citizens, served in the Armed Forces of the United States during World War II, and made other important contributions to mainstream America; and

WHEREAS, While the first wave of immigrants gradually made inroads into California society, a timely enactment of the federal Immigration Act of 1965 opened wide doors for a second wave of Korean immigration; and

WHEREAS, Beginning in the 1970s, in search of better opportunities for their children, a multitude of dynamic Koreans joined the increasing flow of immigration to California; and

WHEREAS, With diligence, fortitude, and a strong belief in the American dream, these immigrants turned emergent areas into thriving and respectable California communities while raising children as productive Korean-Americans; and

WHEREAS, Korean-Americans have become an integral part of the State of California, and have made important contributions to mainstream American society; and

WHEREAS, In a quarter century, young Korean-Americans joined mainstream society and began to make significant contributions as Californians in the fields of finance, technology, law, medicine, education, sports, media, the arts, the military, and government, as well as in other areas; and

WHEREAS, As the Korean-American community, with a population of nearly two million, prepares for a new era and creates new history, we must instill in the upcoming generations proper appreciation for the courage and value of their forefathers, a deep sense of their roots, and pride in their own cultural heritage so that they may better contribute to the great State of California, rich with ethnic and cultural diversity; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California hereby proclaims January 13, 2007, as Korean-American Day; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 4

Assembly Concurrent Resolution No. 5—Relative to American Heart Month and Wear Red Day.

[Filed with Secretary of State February 27, 2007.]

WHEREAS, Heart disease is the leading cause of death and stroke and is the third leading cause of death in California and the United States; and

WHEREAS, Cardiovascular diseases (CVD) claim the lives of over 460,000 American women each year, approximately one death per minute; and

WHEREAS, Each year, 53 percent of all cardiovascular disease deaths occur in women, as compared to 47 percent in men, and about 32,800 more women than men die from stroke; and

WHEREAS, In 2007, the estimated direct and indirect costs of CVD and stroke in the United States total \$431.8 billion; and

WHEREAS, More women die of CVD than the next five leading causes of death combined, including all cancers; and

WHEREAS, Only 13 percent of women perceive heart disease as their greatest risk; and

WHEREAS, Stroke is the number one cause of serious, long-term disability; and

WHEREAS, The American Heart Association is the largest voluntary, not-for-profit organization whose mission is to reduce disability and death from heart disease and stroke; and

WHEREAS, The American Heart Association is committed to conducting and supporting medical research that advances knowledge in the areas of prevention and treatment of CVD; and

WHEREAS, The American Heart Association strives to inform all citizens about the critical importance of tools and skills that will increase the survival rate of women from heart disease and stroke; and

WHEREAS, February is designated as American Heart Month; and

WHEREAS, Go Red for Women is the American Heart Association's national call to increase awareness of heart disease, the leading cause of

death for women, and to inspire women to take charge of their heart health; and

WHEREAS, All women should learn their own personal risk for heart disease, using tools like the American Heart Association's Go Red for Women Heart Checkup, and by talking to their health care provider; and

WHEREAS, Wear Red Day is recognized nationwide each year to highlight the Go Red for Women campaign; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature recognizes the month of February 2007 as American Heart Month in California in order to raise awareness of the importance of the ongoing fight against heart disease and stroke; and be it further

Resolved, That the Legislature recognizes February 2, 2007, as Wear Red Day in California, and urges all citizens to show their support for women and the fight against heart disease by commemorating this day by wearing the color red; and be it further

Resolved, That the Legislature urges public support for Go Red for Women events planned in their community during the 2007 American Heart Month; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 5

Assembly Concurrent Resolution No. 14—Relative to the Lunar New Year 4704 celebration.

[Filed with Secretary of State February 27, 2007.]

WHEREAS, February 18, 2007, will mark the beginning of the Lunar New Year 4704, which is celebrated in many Asian communities around the world, including the United States, and especially California; and

WHEREAS, California is home to over 4 million Asian and Pacific Islander Americans of Bangladeshi, Cambodian, Chinese, Filipino, Hmong, Indian, Indonesian, Iu-Mien, Japanese, Korean, Laotian, Malaysian, Pakistani, Sri Lankan, Taiwanese, and Vietnamese descent; and

WHEREAS, The Asian and Pacific Islander American community has contributed to the social, cultural, civic, economic, and academic success of the state; and

WHEREAS, The lunar new year is predominantly celebrated by the 1.7 million Chinese, Korean, and Vietnamese residents of California; and

WHEREAS, The Lunar New Year 4704 is the Year of the Boar and is universally celebrated by these communities as a time to renew family ties and starting the new year with a clean slate; and

WHEREAS, The celebration of the lunar new year in communities throughout California illustrates the state's rich cultural diversity and commitment to racial, religious, and cultural tolerance; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members join Asian and Pacific Islander communities throughout the state in celebrating February 18, 2007, as the beginning of the Lunar New Year 4704 and extend best wishes for a peaceful and prosperous lunar new year to all Californians; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the authors for appropriate distribution.

RESOLUTION CHAPTER 6

Assembly Concurrent Resolution No. 16—Relative to a Day of Remembrance.

[Filed with Secretary of State February 27, 2007.]

WHEREAS, On February 19, 1942, President Franklin D. Roosevelt signed Executive Order 9066, under which 120,000 Americans and resident aliens of Japanese ancestry were incarcerated in internment camps during World War II; and

WHEREAS, Executive Order 9066 deferred the American dream for 120,000 Americans and resident aliens of Japanese ancestry by inflicting a great human cost of abandoned homes, businesses, careers, professional advancements, and disruption to family life; and

WHEREAS, Despite their families being incarcerated behind barbed wire in the United States, approximately 33,000 veterans of Japanese ancestry fought bravely for our country during World War II, serving in the 100th Battalion, the 442nd Regimental Combat Team, and the 522nd Field Artillery Battalion; and

WHEREAS, The 100th Battalion, the 442nd Regimental Combat Team, and the 522nd Field Artillery Battalion heroically suffered nearly 10,000 casualties and are honored as being among World War II's most decorated combat teams, having received seven Presidential

Distinguished Unit Citations, 52 Distinguished Service Crosses, 588 Silver Stars, 5,200 Bronze Stars, and 9,486 Purple Hearts; and

WHEREAS, On June 21, 2000, President William Jefferson Clinton elevated 20 Japanese Americans who served in the 100th Battalion and the 442nd Regimental Combat Team and were among 52 individuals who received the nation's second highest award—the Distinguished Service Cross—to receive the nation's highest military honor—the Medal of Honor—bringing the total number of recipients who so received the Medal of Honor to 21; and

WHEREAS, Nearly 6,000 veterans of Japanese ancestry served with the Military Intelligence Service and have been credited for shortening the war by two years by translating enemy battle plans, defense maps, tactical orders, intercepted messages and diaries, and interrogating enemy prisoners; and

WHEREAS, Nearly 40 years subsequent to the United States Supreme Court decisions upholding the convictions of Fred Korematsu, Min Yasui, and Gordon Hirabayashi for violations of curfew and Executive Order 9066, it was discovered that the United States War Department and Department of Justice officials had altered and destroyed evidence regarding the loyalty of Americans and resident aliens of Japanese ancestry and withheld information from the United States Supreme Court; and

WHEREAS, Dale Minami, Peggy Nagae, Dennis Hayashi, Rod Kawakami, and many attorneys and interns contributed innumerable hours to win a reversal in 1983 of the original convictions of Korematsu, Yasui, and Hirabayashi by filing a petition for writ of error coram nobis on the grounds that fundamental errors and injustice occurred; and

WHEREAS, On August 10, 1988, President Ronald Reagan signed into law the Civil Liberties Act of 1988, finding that Executive Order 9066 was not justified by military necessity and, hence, was caused by racial prejudice, war hysteria, and a failure of political leadership; and

WHEREAS, February 19, 2007, marks 65 years since the signing of Executive Order 9066 and a policy of grave injustice against American citizens and resident aliens of Japanese ancestry; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California declares February 19, 2007, as a Day of Remembrance in this state to increase public awareness of the events surrounding the internment of Americans of Japanese ancestry during World War II; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, the Superintendent of Public Instruction, the State Library, and the State Archives.

RESOLUTION CHAPTER 7

Assembly Concurrent Resolution No. 19—Relative to Black History Month.

[Filed with Secretary of State March 6, 2007.]

WHEREAS, Dr. Carter Godwin Woodson, distinguished African-American author, editor, publisher, and historian, who is known as the “Father of Black History,” founded Negro History Week in 1926, which became Black History Month in 1976, intended to encourage further research and publishing regarding the untold stories of African-American heritage; and

WHEREAS, The history of African-Americans here in the United States, as well as throughout the ages, is indeed unique and vibrant, and it is appropriate to celebrate this history during the month of February 2007, which has been proclaimed as Black History Month; and

WHEREAS, The history of the United States is rich with inspirational stories of great men and noble women whose actions, words, and achievements have united Americans and contributed to the success and prosperity of the United States; and

WHEREAS, During the first millennium, the Catholic Church had three popes who were either from Africa or of African descent: Saint Victor I (189–99), Saint Miltiades (311–14), and Saint Gelasius I (492–96); and

WHEREAS, The slave trade was a tragic episode in African history and began before August 1619 when the first slaves arrived in Jamestown, Virginia. During the course of the slave trade, an estimated 50 million African men, women, and children were lost to their native continent, though only about 15 million arrived safely to a new home. The others lost their lives on African soil or along the Guinea coast, or finally in holds on the ships during the dreaded Middle Passage across the Atlantic Ocean; and

WHEREAS, The first American to shed blood in the revolution that freed America from British rule was Crispus Attucks (March 5, 1770, Boston Massacre), an African-American seaman and slave. African-Americans also fought in wars including the Battles of Lexington and Concord in April 1775, Ticonderoga, White Plains, Bennington,

Brandywine, Saratoga, Savannah, Yorktown, Bunker Hill, the Battle of Rhode Island on August 29, 1775, and other revolutionary war battles, the War of 1812, including, the Battle of New Orleans, the Civil War, the Spanish-American War, World Wars I and II, Korea, and Vietnam; and

WHEREAS, In spite of the African slave trade, many Africans and African-Americans continued to move forward in society; during the Reconstruction period, two African-Americans served in the United States Senate and 14 sat in the House of Representatives; and

WHEREAS, From the earliest days of the United States, the course of its history has been greatly influenced by Black heroes and pioneers in many diverse areas, from science, medicine, business, and education to government, industry, and social leadership; and

WHEREAS, Africans and African-Americans have also been great inventors, inventing and improving such things as the air-conditioning unit, almanac, automatic gearshift, blood plasma bag, clothes dryer, doorknob, doorstop, electric lamp bulb, elevator, fire escape ladder, fountain pen, gas mask, golf tee, horseshoe, lantern, lawnmower, lawn sprinkler, lock, lubricating cup, refrigerating apparatus, spark plug, stethoscope, telephone transmitter, thermostat control, traffic signal, and typewriter; and

WHEREAS, A number of these brave and accomplished individuals, such as Booker T. Washington, George Washington Carver, Matthew Hansen, Daniel Hale Williams, Dr. Charles Drew, Jackie Robinson, Jesse Owens, Curt Flood, Medgar Evers, and, of course, Dr. Martin Luther King, Jr., are noted prominently in the history books of students nationwide, thus enabling them to learn about the important and lasting contributions of these individuals; and

WHEREAS, Among those Americans who have enriched our society are the members of the African-American community—individuals who have been steadfast in their commitment to promoting brotherhood, equality, and justice for all; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature takes great pleasure in recognizing February 2007 as Black History Month, urges all citizens to join in celebrating the accomplishments of African-Americans during Black History Month, and encourages the people of California to recognize the many talents, achievements, and contributions that African-Americans make to their communities; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 8

Senate Concurrent Resolution No. 5—Relative to California Museum Month.

[Filed with Secretary of State March 9, 2007.]

WHEREAS, California is home to over 1,300 museums that are located in every county and region throughout the state and serve over 26 million visitors annually; and

WHEREAS, California museums represent a multitude of disciplines and learning experiences, including art museums, zoos, aquariums, historical societies, science centers, botanical gardens, children's museums, and cultural centers; and

WHEREAS, California museums encourage curiosity and provide a source of enjoyment and education for every generation and every community across the state and enhance those provided by the public sector; and

WHEREAS, California museums nourish minds and spirits by fostering contemplation, exploration, critical thinking, and dialogue to advance knowledge, understanding, and appreciation of history, science, the arts, and the natural world; and

WHEREAS, California museums present exhibitions and programs created through research and scholarship for California residents and visitors to the state to explore new ideas, exchange stories, and discover collections and objects from our cultural and natural heritage; and

WHEREAS, California museums strengthen and enrich the lives of people by inspiring lifelong learning, serving as repositories and stewards for the state's unique history, culture, achievements, and values; and

WHEREAS, California museums forge relationships with community partners, such as schools, libraries, public broadcasting, and neighborhood and social service organizations, to foster civic participation and cultural understanding; and

WHEREAS, California museums contribute significantly to the livability and economic vitality of the state and its communities, create jobs, and attract tourists, local visitors, and businesses, all of which create a demand for services; and

WHEREAS, California museums are accessible to all residents, with half of the state's museums providing free admission and others offering free admission days; and

WHEREAS, The California Association of Museums has served to bring important recognition of this commemorative month and invites all museums, museum service organizations, California residents, and local governments to use this milestone to recognize and celebrate the

contributions of California museums as they serve communities, the nation, and the world; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the important role that museums have in the state, and proclaims May 2007 as California Museum Month; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 9

Assembly Concurrent Resolution No. 2—Relative to Kwanzaa.

[Filed with Secretary of State March 13, 2007.]

WHEREAS, Kwanzaa is an African American and Pan-African holiday that celebrates family, community, and culture; and

WHEREAS, Kwanzaa was established in 1966 by Dr. Maulana Karenga, professor, Department of Black Studies, California State University, Long Beach, and is the only indigenous African American holiday; and

WHEREAS, Kwanzaa is a nonheroic, nonreligious holiday that is celebrated from December 26th to January 1st each year; and

WHEREAS, Kwanzaa is rooted in the ancient history and culture of Africa. In particular, it has its origins in the first harvest celebrations of Africa; and

WHEREAS, The name Kwanzaa is derived from the phrase “matunda ya kwanzaa” that means first fruits in Swahili, a Pan-African language that is the most widely spoken African language; and

WHEREAS, Kwanzaa was created to introduce and reinforce seven basic values of African culture. These values, which follow, are called Nguzo Saba in Swahili, which means the Seven Principles:

- (a) Umoja (Unity);
- (b) Kujichagulia (Self-Determination);
- (c) Ujima (Collective Work and Responsibility);
- (d) Ujamaa (Cooperative Economics);
- (e) Nia (Purpose);
- (f) Kuumba (Creativity);
- (g) Imani (Faith); and

WHEREAS, Kwanzaa is a celebration that commemorates the following:

(a) A time of ingathering of the people to reaffirm the bonds between them;

(b) A time of special reverence for the creator and creation in thanks and respect for the blessings, bountifulness, and beauty of creation;

(c) A time for commemoration of the past in pursuit of its lessons and in honor of its models of human excellence, our ancestors;

(d) A time to recommit to our highest cultural ideals in our ongoing effort to always bring forth the best of African cultural thought and practice;

(e) A time for celebration of the Good, the good of life and of existence itself, the good of family, community and culture, the good of the awesome and the ordinary, in a word the good of the divine, natural and social; and

WHEREAS, It is important to commemorate Kwanzaa because Kwanzaa celebrations reaffirm and restore rootedness to the best of African culture, thereby strengthening community bonds and encouraging a recommitment to the highest cultural ideals; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature commemorate the 40th anniversary of the celebration of Kwanzaa; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 10

Assembly Concurrent Resolution No. 8—Relative to California Nonprofits and Philanthropy Week.

[Filed with Secretary of State March 13, 2007.]

WHEREAS, One of the great strengths of California is the presence of vigorous nonprofit and philanthropic organizations that provide a private means to pursue public purposes outside the confines of either the market or the state; and

WHEREAS, Residents of California have joined together to form over 144,000 nonprofits, including more than 107,000 active charitable nonprofits under Section 501(c) (3) of the Internal Revenue Code, 6,200 charitable foundations, and 50,000 religious groups, that employ over 950,000 people and receive and spend over \$175 billion per year; and

WHEREAS, Nonprofit and philanthropic organizations touch the lives of every person in California by serving people from all walks of life,

socioeconomic groups, political orientations, ethnicities, ages, genders, and cultural backgrounds; and

WHEREAS, Embraced within the nonprofit sector are some of our state's premier universities, hospitals, symphonies, museums, theaters, and grassroots groups, as well as thousands of community organizations that channel our impulses for charity, justice, and compassion to serve the common good and support, and empower those in greatest need; and

WHEREAS, More than one-half of all hospital care, most human services, a significant share of higher education, and low-cost housing, almost all arts and culture, and the majority of social justice and environmental programs are provided by nonprofits; and

WHEREAS, Over 15 million California residents volunteer three to five hours per week with nonprofit organizations; and

WHEREAS, The 6,200 independent foundations, including 20 of the nation's 100 largest charitable foundations, more than 100 corporate foundations, and 29 community foundations, including five of the nation's 25 largest community foundations, with assets totaling more than \$77 billion, annually give \$4.1 billion in grants to nonprofits; and

WHEREAS, Nonprofit social service and philanthropic organizations have helped millions of Americans get back on their feet, enabling them to become active, productive citizens; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature recognizes the importance and value of nonprofit and philanthropic organizations; and be it further

Resolved, That the Legislature hereby proclaims March 18 through March 24, 2007, as California Nonprofits and Philanthropy Week, as presented by the California Association of Nonprofits and its policy council; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for distribution.

RESOLUTION CHAPTER 11

Assembly Concurrent Resolution No. 6—Relative to teenage dating violence.

[Filed with Secretary of State March 14, 2007.]

WHEREAS, Teenage dating violence is a serious and growing problem throughout California; and

WHEREAS, Dating violence is controlling, abusive, and aggressive behavior in a relationship, that can occur in heterosexual or homosexual

relationships. It can include verbal, emotional, physical, or sexual abuse, or a combination of any of those; and

WHEREAS, One in three teenagers has experienced violence in a dating relationship; and

WHEREAS, Anyone can be a victim of dating violence. Both boys and girls are victims, but boys and girls tend to abuse their partners in different ways. Girls are more likely to yell, threaten to hurt themselves, pinch, slap, scratch, or kick, while boys are more likely to physically injure or force unwanted sexual activity. Some teenage victims experience violence occasionally while others are abused much more often; and

WHEREAS, Young women, ages 16 to 24 years, inclusive, experience the highest rates of dating violence; and

WHEREAS, Teenage victims are highly vulnerable to being revictimized; one study found that 80 percent of youths reporting violent behavior had been victimized two or more times; and

WHEREAS, Among female pupils ages 15 to 20 years, inclusive, who reported at least one violent act during a dating relationship, 24 percent reported experiencing extremely violent incidents such as rape or the use of weapons against them; and

WHEREAS, In a study of California high school pupils, up to 7 percent indicated that they were victims of teenage dating violence; and

WHEREAS, Approximately one in five female public high school pupils reported ever experiencing physical or sexual violence from dating partners; and

WHEREAS, Teenagers are less likely to report their victimization than adults because of the shock, shame, and stigma attached to being a victim of a crime. These obstacles represent a barrier to vulnerable teenagers seeking help; and

WHEREAS, Increased awareness of teenage dating violence is the first step toward prevention of this type of abuse; and

WHEREAS, Teenagers deserve to be in a relationship free of the fear of violence. They have a right to have safe relationships; and

WHEREAS, Governmental, private organizations, public officials as well as private citizens must work together to raise the awareness of the high incidence of teenage dating violence and to promote prevention strategies; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature proclaims February 5 to 9, 2007, as Teenage Dating Violence Awareness and Prevention Week; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 12

Assembly Concurrent Resolution No. 23—Relative to EntrepreneurshipWeek.

[Filed with Secretary of State March 19, 2007.]

WHEREAS, EntrepreneurshipWeek USA will be celebrated throughout the country from February 24 through March 3, 2007; and

WHEREAS, An entrepreneur is an individual who owns, organizes, and manages a business, and in so doing, assumes the risk of either making a profit or losing his or her investment; and

WHEREAS, The term “entrepreneur” also applies to individuals who take risks in pioneering new social ideas and innovative solutions within existing organizations; and

WHEREAS, Entrepreneurs are engaged citizens who work to improve their local communities, thereby providing better opportunities for business and a better overall environment for the human resources that entrepreneurs need to advance their innovative ideas; and

WHEREAS, According to the Department of Labor, most of the new jobs created in the United States during the past decade have stemmed from the creative efforts of entrepreneurs that have expanded and advanced technology and fueled the recent growth of the economy; and

WHEREAS, Of all new entrepreneurial enterprises, 99.9 percent begin as small businesses or microenterprises; and

WHEREAS, In the country as a whole, and in California in particular, well over 90 percent of all businesses can be characterized as small businesses or microenterprises; and

WHEREAS, Small businesses employ over 50 percent of all workers in the state; microenterprises, nearly 20 percent; and

WHEREAS, During the past 15 years, businesses in operation for less than 5 years have accounted for approximately 70 percent of the jobs created both nationally and in California; and

WHEREAS, The majority of small business and microenterprise owners use an average of ten thousand dollars (\$10,000) to start their own businesses, and the greatest single source of that startup money is personal savings; and

WHEREAS, Seventy percent of young Americans envision starting a business or doing something entrepreneurial as adults, but very few learn how to go about it; and

WHEREAS, Starting a new business or undertaking some form of entrepreneurial activity requires fundamental knowledge and skill in order to develop the marketing, management, and financial plans necessary to run a successful business; and

WHEREAS, The high interest shown by young people in becoming entrepreneurs and the critical role entrepreneurs have played in advancing the national and state economies make it vital to encourage young people from all academic backgrounds and all walks of life to explore their entrepreneurial potential; and

WHEREAS, EntrepreneurshipWeek USA, an event sponsored by the Ewing Marion Kaufman Foundation, New York Times, Inc. Magazine, and hundreds of partner organizations, will be celebrated across the country and is intended to promote awareness of the contributions of entrepreneurs as innovators, as positive forces in the economy, and as important resources for improving communities as places to live and work; and

WHEREAS, EntrepreneurshipWeek USA will help educate policymakers and community leaders about what they can do to help keep America's entrepreneurial engine running strong; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature supports the goal of EntrepreneurshipWeek USA to ignite the national and state consciousness of the importance of entrepreneurship and to remind people of the social and economic contributions made by entrepreneurs; and be it further

Resolved, The Legislature encourages educators, who teach in high schools and in institutions of higher learning, to advance entrepreneurial ideals and spirit to their students; and be it further

Resolved, That the Legislature urges all school administrators to ensure that their schools offer students opportunities to learn the basic principles of entrepreneurship; and be it further

Resolved, That the Legislature encourages schools, community-based organizations, business groups, and volunteer organizations who work with California youth, to sponsor, organize, and hold events during EntrepreneurshipWeek USA to fully promote entrepreneurship among the youth within the state; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 13

Senate Concurrent Resolution No. 9—Relative to Spay Day USA 2007.

[Filed with Secretary of State March 19, 2007.]

WHEREAS, At least a quarter million dogs and possibly twice as many cats are euthanized in California each year; and

WHEREAS, In most instances these dogs and cats are young, healthy, and friendly animals who are euthanized simply because there are not enough good homes for them; and

WHEREAS, An additional unknown number of animals die each year due to abandonment, neglect, abuse, starvation, or cruelty because they are unwanted; and

WHEREAS, The spaying or neutering of dogs and cats helps solve this tragic problem by reducing the number of unwanted animals; and

WHEREAS, Californians can contribute to this effort by spaying or neutering their own companion animals and by supporting programs in their communities that offer accessible spay and neuter services; and

WHEREAS, Veterinarians, humane societies, animal control agencies, and national and local animal welfare organizations will join together to advocate the spaying or neutering of dogs and cats on “Spay Day USA 2007”; and

WHEREAS, In particular, the Sacramento area has become a leader in coordination of Spay Day USA events, spaying or neutering nearly 1,000 dogs and cats during each of the past three years, with nearly 1,000 dogs and cats scheduled for Spay Day USA 2007; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California declares February 27, 2007, to be Spay Day USA 2007 and that Californians are requested to observe the day by having their dogs or cats spayed or neutered and by contributing to charitable organizations that provide spay and neuter services, and that California veterinarians are requested to work with animal shelters and rescue groups to provide accessible spay and neuter services; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 14

Senate Concurrent Resolution No. 12—Relative to Brain Injury Awareness Month.

[Filed with Secretary of State March 19, 2007.]

WHEREAS, According to the federal Centers for Disease Control and Prevention (CDC), 1.4 million Americans sustain a traumatic brain injury (TBI) each year, and 50,000 of those individuals die as a result of these injuries. In California alone, there are 22,400 reported TBIs per year; additionally, an estimated 10 million Americans are affected by acquired brain injury (ABI), which includes diagnoses of stroke, anoxia, and toxic exposure, as well as TBI. There are an additional 11,000 Californians that sustain ABIs per year. This makes ABI the second most prevalent injury and cause of disability in the United States; and

WHEREAS, With the CDC reporting that a TBI occurs every 21 seconds, this public health concern is the leading cause of death and disability in children and young adults. In fact, the CDC estimates that approximately 5.3 million Americans live with disabilities resulting from brain injury; and

WHEREAS, The CDC estimates that each year, one million children and adolescents are taken to emergency rooms with traumatic brain injuries resulting from motor vehicle accidents, falls, sports, and abuse. It is also estimated that TBI to children between birth and 19 years of age, annually result in 7,000 deaths, 150,000 hospitalizations, with approximately 30,000 becoming permanently disabled, and over \$1 billion in hospital care; and

WHEREAS, The costs relating to brain injury are staggering, and individuals with severe brain injury can typically face life-long disabilities, even after rehabilitation. The CDC also estimates that cumulative costs exceed \$60 billion annually; and

WHEREAS, Individuals with severe brain injury suffer from serious physical impairments and a variety of perceptual, cognitive, psychiatric, emotional, and behavioral complications, including impaired interpersonal and problem solving skills, memory loss, decreased thought processing abilities, speech and seizure disorders, and physical deficits; and

WHEREAS, The only cure for brain injury is prevention, and public awareness is critical to the prevention of brain injury and to enhancing the recovery process of all individuals affected by TBI; and

WHEREAS, The California Brain Injury Association is a statewide membership organization dedicated to providing prevention, research,

education, advocacy, and support services to all individuals affected by brain injury and to the general public; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature designate March of each year as Brain Injury Awareness Month in the State of California and that public officials and the citizens of California are encouraged to observe the month with appropriate activities and programs to raise awareness about the symptoms of, and ways of preventing, brain injuries; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 15

Senate Concurrent Resolution No. 17—Relative to the 2007 Black History Month.

[Filed with Secretary of State March 19, 2007.]

WHEREAS, California is a diverse state with citizens from all corners of the world; and

WHEREAS, The history of the state is rich with inspirational stories of great men and women whose actions, words, and achievements have united all Americans and contributed to the success and prosperity of our nation; and

WHEREAS, Among those Americans who have enriched our society are members of the African-American community, individuals responsible for countless efforts, movements, achievements, and contributions, documented and undocumented, in the political, cultural, and social history of California that should be highlighted; and

WHEREAS, In 1977, the Legislature established the California African American Museum to research, collect, preserve, and interpret for public enrichment, the history, art, and culture of African-Americans with emphasis on California and the Western United States; and

WHEREAS, In 1981, the California African American Museum began operations housed in temporary quarters at the California Museum of Science and Industry (now the California Science Center), and in 1984, moved to its current facility designed by African-American architects, Jack Haywood and the late Vince Proby; and

WHEREAS, The history collection of the California African American Museum reflects the history, heritage, and culture of African-Americans in California and the nation, thereby advancing the state's commitment to promote the study of African-American history and culture; and

WHEREAS, The California African American Museum is forging a new trail chronicling the African-American journey from the West Coast of Africa to the West Coast of the United States, and documenting the great migration West and the African-American contribution to the settlement of the West with emphasis on the Allensworth Township, while providing insights into the unique art and cultural contributions that African-Americans made in opening the western frontier; and

WHEREAS, The 2007 Black History Month commemoration in the State Capitol is enhanced by an exhibit installed by the California African American Museum, which reflects its 30 years of contribution to the history of African-Americans in the State of California through its efforts to fulfill its mission; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature takes great pleasure in recognizing the efforts of the California African American Museum, and urges all citizens to join in celebrating the accomplishments of African-Americans in communities throughout California and beyond during Black History Month and throughout the year.

RESOLUTION CHAPTER 16

Senate Concurrent Resolution No. 13—Relative to Irish-American Heritage Month.

[Filed with Secretary of State March 26, 2007.]

WHEREAS, Millions of Irish people, faced with severe hardship due to famine and poverty in their nation, immigrated to the United States over the last several centuries in search of a more promising future for themselves and their families; and

WHEREAS, Irish-Americans initially suffered prejudice and discrimination upon first arriving in the United States. As the years went on, Irish-Americans became very involved in the community and made numerous contributions in all aspects of American society and culture, especially in California; and

WHEREAS, Irish-Americans played vital roles in the development of the United States. Nine Irish-Americans were signers of the Declaration of Independence, and 19 Presidents of the United States have been of Irish heritage, including John F. Kennedy, Ronald Reagan, and Bill Clinton; and

WHEREAS, Many people of Irish descent have contributed to great movements that have helped to shape our country and its role in the

world, including Mother Jones, labor activist; Lucy Burns, activist in the Women's Movement; and Senator George Mitchell, negotiator of the Irish Peace Accord; and

WHEREAS, Irish-Americans have also played a major role in California politics. Many governors, legislative leaders, city mayors, and other public officials who have shaped the development of California over the years have been of Irish descent; and

WHEREAS, Irish-Americans were very involved in the development of infrastructure throughout the United States and especially in California. This included work on railroads and bridges that connected the West to the East. The Irish were also instrumental in the building of dams, roads, canals, and buildings that expanded greatly in the late 1800s; and

WHEREAS, Many Irish-Americans have made their mark in pursuit of public safety and have risked or lost their lives on countless occasions in carrying out their duties; and

WHEREAS, Irish-Americans have served with distinction in every war that this nation has fought. Many of the outstanding soldiers who fought for American freedom in the Revolutionary War were of Irish descent. Since then, Irish-Americans have sacrificed their lives in every other war in which the United States has fought; and

WHEREAS, Many Irish-Americans have contributed greatly to the United States economy in business, including Henry Ford; Alexander Stewart, the inventor of the American department store; and Cathleen Black, president, Hearst Publishing; and

WHEREAS, Irish-Americans have contributed to the American literary tradition through great authors including Flannery O'Connor, Eugene O'Neill, F. Scott Fitzgerald, Mary McCarthy, Tom Clancy, and Frank McCourt; and

WHEREAS, Irish-Americans have contributed to American entertainment with such stars as actors Jack Nicholson, John Wayne, and George Clooney, actor and comedian Bill Murray, actress Grace Kelly, actress and comedian Rosie O'Donnell, actor and singer Bing Crosby, actress and singer Rosemary Clooney, and actor and director Edward Burns being of Irish heritage; and

WHEREAS, Today, over 44 million Americans claim Irish heritage, and they continue to contribute to American and California politics, economy, and culture; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature, in honor of the multitude of contributions that Irish-Americans have made to make this a better country and state for all people, designates March 2007 and March 2008 to be Irish-American Heritage Month in California and calls upon the people of the state to observe the month of March with appropriate

ceremonies, programs, and activities, especially on March 17, since everyone is Irish on St. Patrick's Day; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 17

Assembly Concurrent Resolution No. 18—Relative to arts education.

[Filed with Secretary of State April 5, 2007.]

WHEREAS, Arts education, which includes dance, music, theatre, and the visual arts, is an essential and integral part of basic education for all pupils in prekindergarten, kindergarten, and grades 1 through 12; and

WHEREAS, The arts are crucial to achieving a state educational policy that is devoted to the teaching of basic academic skills and lifelong learning capacities with the goal of truly preparing all children for success after high school regardless of gender, age, economic status, physical ability, or learning ability; and

WHEREAS, A systematic, substantive, and sequential visual and performing arts curriculum addresses and develops ways of thinking, questioning, expression, and learning that complement learning in other core subjects, but that is unique in what it has to offer; and

WHEREAS, Pupils benefit from arts learning in the areas of cultural understanding, readiness for learning and creative thinking, cognitive outcomes, emotional intelligence and expression, social interaction and collaboration, and preparation for the workplace and lifelong learning; and

WHEREAS, Arts education in California is mandated for pupils in grades 1 through 12 by Sections 51210 and 51220 of the Education Code, which provide, in part, "the adopted course of study ... shall include instruction ... in visual and performing arts including dance, music, theatre and visual arts, aimed at the development of aesthetic appreciation and the skills of creative expression"; and

WHEREAS, The arts are recognized as part of a quality education, and the University of California and the California State University have instituted a policy that includes visual and performing arts as a college preparatory subject for all high school pupils wishing to enter California's institutions of higher education; and

WHEREAS, In 2006 the Legislature passed and Governor Schwarzenegger signed into law the single largest investment in music

and arts education programs in the history of our country, including a block grant of one hundred five million dollars (\$105,000,000) to support standards-aligned instruction in kindergarten and grades 1 through 12; and

WHEREAS, In 2006 the Legislature also passed and Governor Schwarzenegger signed into law an additional five hundred million dollars (\$500,000,000) to be distributed on a one-time basis for the purchase of visual and performing arts and physical education professional development supplies and equipment; and

WHEREAS, It is the intent that this funding help implement a comprehensive vision for arts education at the local level, to ensure that every pupil in California benefits from this investment; and

WHEREAS, This funding is the first step in investing in quality visual and performing arts programs for all California pupils; and

WHEREAS, Many national and state professional arts education associations hold celebrations in the month of March, giving California schools a unique opportunity to focus on the value of the arts for all pupils, to foster cross-cultural understanding, to give recognition to the state's outstanding young artists, and to enhance public support for this essential part of the curriculum; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature proclaims the month of March 2007 as Arts Education Month and encourages all legislators to participate with their educational communities in celebrating the arts with meaningful activities and programs for pupils, teachers, and the public that demonstrate learning and understanding in the visual and performing arts, and urges all residents to become interested in and give full support to quality school arts programs for children and youth; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 18

Assembly Concurrent Resolution No. 32—Relative to Read Across America Day.

[Filed with Secretary of State April 5, 2007.]

WHEREAS, Reading is the building block to learning, and is the foundation for future success; and

WHEREAS, In 1998, the National Education Association started its “Read Across America” campaign to encourage children to read and to

raise awareness about the importance of reading to students every day; and

WHEREAS, The California Teachers Association celebrates “Read Across America” and the positive impact it has made in the schools and the State of California; and

WHEREAS, “Read Across America” is a national celebration of Dr. Seuss’ birthday on March 2 that promotes reading and adult involvement in the education of pupils; and

WHEREAS, The theme of this year’s event, “Get Jazzed About Books,” reminds children of all ages that learning to read is fun and one of the most important things they will learn to do; and

WHEREAS, Students, parents, teachers, firefighters, and business and community leaders are taking part in “Read Across America” events to celebrate the joy of reading; and

WHEREAS, On March 2, 2007, the National Education Association, the California Teachers Association, local schools, libraries, bookstores, and other community organizations will commemorate “Read Across America Day”; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature joins the California Teachers Association in recognizing March 2, 2007, as Read Across America Day; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution to the California Teachers Association.

RESOLUTION CHAPTER 19

Assembly Concurrent Resolution No. 33—Relative to California Municipal Treasurers Day and Week.

[Filed with Secretary of State April 5, 2007.]

WHEREAS, California municipal treasurers are responsible for the receipt and custody of public funds; and

WHEREAS, The investment of public funds with a focus on the safety of principal, the liquidity to meet public agency cashflow needs, and to maximize yield are the central duties of municipal treasurers; and

WHEREAS, Public trust must be maintained with the reporting of investment policy and periodic reporting of portfolio holdings; and

WHEREAS, Municipal treasurers provide public assurance of compliance with a public agency's investment policy, the Government Code, and a public agency's liquidity needs; and

WHEREAS, Those municipal treasurers with investment discretion over public funds or public pension or retirement funds in excess of 10 million dollars must follow all applicable legislation; and

WHEREAS, Municipal treasurers must be aware of the laws governing eligible types of investments for public agencies, along with frequent changes to those laws, and the needs of the municipality in order to develop an investment policy that will satisfy those needs; and

WHEREAS, Municipal treasurers oversee the disbursement of funds in order to verify that only claims authorized by an entity's legislative body are paid; and

WHEREAS, Municipal treasurers should play an integral role in the determination of responsible and best practices financing methods for an entity's needs, including consideration of constitutional debt limits and evaluation of bonding directives in order to determine the appropriate bond type; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby commemorate the efforts and accomplishments of municipal treasurers and financial managers and heighten the awareness of the importance of financial management by proclaiming May 2, 2007, as California Municipal Treasurers Day, and the time period of April 30, 2007, through May 6, 2007, as California Municipal Treasurers Week; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 20

Assembly Concurrent Resolution No. 36—Relative to National Nutrition Month.

[Filed with Secretary of State April 5, 2007.]

WHEREAS, Food is the substance by which life is sustained; and

WHEREAS, The type, quality, and amount of food that individuals consume each day plays a vital role in their overall health and physical fitness; and

WHEREAS, There is a need for continuing education and a wide-scale effort to enhance good eating practices; and

WHEREAS, The American Dietetic Association is sponsoring the annual “March is National Nutrition Month” campaign in response to the public’s growing interest in nutrition; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby recognizes the 2007 “March is National Nutrition Month” campaign and encourages citizens of the state to join this campaign of those who are concerned about their nutrition and the nutrition of others in the hope of achieving optimum health for today and tomorrow; and be it further

Resolved, That the Chief Clerk of the Assembly provide copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 21

Senate Concurrent Resolution No. 7—Relative to Motorcycle Awareness Month.

[Filed with Secretary of State April 18, 2007.]

WHEREAS, Motorcycle riding is a popular form of efficient transportation and recreation for more than 1,000,000 people in California; and

WHEREAS, Motorcycles provide a means of transportation that uses fewer resources, causes less wear and tear on public roadways, and increases available parking areas; and

WHEREAS, It is important that drivers of all vehicles be aware of one another and learn to share the road and practice courtesy; and

WHEREAS, It is especially important that the citizens of California be aware of motorcycles on the streets and highways and recognize the importance of motorcycle safety; and

WHEREAS, The safety hazards created by automobile operators who have not been educated to watch for motorcyclists on the streets and highways of California are of prime concern to motorcyclists; and

WHEREAS, The American Brotherhood Aimed Toward Education (ABATE) of California is an organization that is actively promoting the safe operation, increased rider training, and increased motorist awareness of motorcycles; and

WHEREAS, It is important to recognize the need for awareness on the part of all drivers, especially with regard to sharing the road with motorcycles, and to honor motorcyclists’ many contributions to the communities in which they live and ride; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the month of May 2007, is hereby officially designated Motorcycle Awareness Month; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 22

Senate Concurrent Resolution No. 25—Relative to César Chávez Day.

[Filed with Secretary of State April 18, 2007.]

WHEREAS, On March 31, 1927, a true hero named César Estrada Chávez was born in Yuma, Arizona, to Librado and Juana Chávez and became the second oldest in a family of five children. César Chávez lived his life dedicated to improving the plight of farmworkers through struggle, sacrifice, and self-denial. He founded and led the first successful farmworkers' union in United States history. He stood for dignity and justice for farmworkers. Today, he remains a symbol of hope to all Californians who find hope and peace in justice; and

WHEREAS, In the 1930s, during the Great Depression, César Chávez' father lost his small farming business and the family went broke. The family became migrant workers and joined some 30,000 workers who followed the crops from Arizona into Southern California, then up the length of the Central Valley and back again, picking everything from peas to cotton. They lived in tents and other makeshift housing that often lacked a bathroom, electricity, or running water. Schooling for Chávez was irregular and haphazard. He attended some 30 different schools, often encountered discrimination, and was punished for speaking Spanish; and

WHEREAS, After graduation from the eighth grade, César Chávez was forced to quit school and take to the fields in order to help support his family. In 1944, at the age of 17, César Chávez joined the Navy and served in World War II. After he completed his tour of duty, César Chávez returned to California and married Helen Fabela, a woman who shared his dedication to the cause of the farmworker. They lived in San Jose in a tough Mexican neighborhood called "Sal Si Puedes" which translates to "get out if you can," and together raised eight children; and

WHEREAS, As a farmworker, César Chávez experienced firsthand the injustice of working long hours with little pay. Instilled with a sense of justice passed down from his mother, César Chávez made a decision to speak up and fight for change. He took part in his first strike in protest

of low wages and poor working conditions for farmworkers. Although initially unsuccessful, his participation in that first strike was to mark the beginning of a long career in which he fought for improved working and living conditions for farmworkers; and

WHEREAS, In 1962, César Chávez resigned his position with the Community Services Organization to embark on a bold new undertaking to form a farmworkers' union. He was joined by the great Dolores Huerta, and together they became the architects of the National Farm Worker's Union, the forerunner to the present United Farm Workers (UFW); and

WHEREAS, In 1965, César Chávez led a strike of California grapepickers to demand higher wages and urged all Americans to boycott table grapes as a show of support. The strike included a 340-mile march from Delano to Sacramento in 1966 in which thousands of farmworkers and supporters marched in solidarity. The farmworkers and supporters carried banners with the black eagle with the words "HUELGA" (strike) and "VIVA LA CAUSA" (long live our cause); and

WHEREAS, César Chávez preached nonviolence to the strikers even as they were physically abused by many of those opposed to the grape boycott. In 1968, he began a Ghandi-like fast to call attention to the migrant workers' cause. Although his dramatic act did little to solve the immediate problem, it increased public awareness of the conditions under which farmworkers labored. In 1973, the UFW organized a strike for higher wages from lettuce growers, and, after many battles, an agreement was finally reached in 1977 that gave the UFW the sole right to organize farmworkers; and

WHEREAS, During the 1980s, César Chávez led the effort to call attention to the health problems of farmworkers caused by the use of certain pesticides on crops; and

WHEREAS, On April 23, 1993, César Estrada Chávez died peacefully in his sleep in San Luis, Arizona. During his funeral, Cardinal Roger M. Mahoney, who celebrated the funeral mass, called César Chávez "a special prophet for the world's farmworkers"; and

WHEREAS, Many declared that the UFW would die without him, but on César Chávez' birthday, March 31, 1994, under the leadership of his son-in-law, Arturo Rodriquez, the UFW marched 343 miles from Delano to Sacramento, echoing César Chávez' historic 1966 march, and demonstrated that the UFW still worked for farmworkers; and

WHEREAS, In 1990, Mexican President Salinas de Gortari awarded César Chávez, the "El Aguila Azteca" (the Aztec Eagle), Mexico's highest award presented to people of Mexican heritage who have made major contributions outside of Mexico. He also became the second Mexican-American to receive the Presidential Medal of Freedom, the highest civilian honor in the United States, which was presented

posthumously to his wife, Helen Chávez, and their children on August 8, 1994, by President William Jefferson Clinton; and

WHEREAS, In 1994, César Chávez' family and the officers of the UFW created the César E. Chávez Foundation to inspire current and future generations by promoting the ideals of César Chávez' life, work, and vision. Communities throughout California and the United States have honored the memory of César Chávez by naming schools, parks, children's centers, streets, and other public works after the leader; and

WHEREAS, César Chávez led by example, giving of himself so that he might help others. His relentless pursuit of the belief that the American dream should be available to all Americans, regardless of race or national origin, stands as a monument to our free society. His life and work is not only an inspiration to Latinos, but to working Americans of all nationalities. His legacy lives on in the improved working and living conditions of hundreds of thousands of Californians and their families; and

WHEREAS, In the year 2000, the Legislature enacted Senate Bill 984 (Chapter 213 of the Statutes of 2000) to create an annual state holiday on César Chávez' birthday, March 31. This holiday provides all Californians the opportunity to learn from César Chávez' life and provides schoolchildren the opportunity to learn through community service; and

WHEREAS, The State Board of Education on Wednesday, February 6, 2002, adopted a model curriculum on the life and work of César Chávez, fulfilling a key provision of Chapter 213 of the Statutes of 2000, that also includes topics on pesticides, immigration, and agriculture's role in the economy; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes March 31, 2007, as the anniversary of the birth of César Chávez, and calls upon all Californians to participate in appropriate observances to remember César Chávez as a symbol of hope and justice to all persons; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 23

Assembly Concurrent Resolution No. 13—Relative to Chronic Obstructive Pulmonary Disease.

[Filed with Secretary of State April 23, 2007.]

WHEREAS, Chronic Obstructive Pulmonary Disease (COPD), also known as chronic bronchitis and emphysema, is the fourth leading cause of death in the United States and is the only one of the top five causes of death whose prevalence and death rate is rising; and

WHEREAS, COPD is a chronic and progressive disease that impacts an estimated 24 million Americans each year, approximately five million of which are residents of California; and

WHEREAS, In 2004, the national annual cost for COPD was estimated to be \$37 billion and in that same year, COPD caused approximately 121,000 deaths nationwide; and

WHEREAS, Many patients suffering with COPD are not diagnosed until they have reached an advanced stage of COPD, which often includes a disabling degree of lung dysfunction; and

WHEREAS, A diagnostic test for COPD, known as spirometry, is available for office use, allowing early diagnosis of COPD; and

WHEREAS, Early diagnosis and management of COPD can effectively reduce the overall financial burden of this illness on publicly funded health care programs, including Medi-Cal; and

WHEREAS, Proper management of COPD can lead to improved quality of life and self-sufficiency on the part of patients who receive publicly funded benefits; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature commends the State Department of Public Health and the State Department of Health Care Services for implementing a pilot program relating to chronic disease management of COPD, in an effort to reduce the financial and clinical burden of this illness upon the Medi-Cal program and the citizens of California; and be it further

Resolved, That the State Department of Public Health and the State Department of Health Care Services are each encouraged to prepare and submit a report of its respective findings and recommendations regarding the COPD pilot program to the appropriate committees of the Assembly and the Senate so that the Legislature can evaluate the program's effectiveness in reducing costs within the Medi-Cal program and in providing improved health and well-being for the affected patients; and be it further

Resolved, That the Legislature hereby designates November 2007 as Chronic Obstructive Pulmonary Disease Awareness Month, and November 14, 2007, as Chronic Obstructive Pulmonary Disease Awareness Day throughout the State of California, and that public officials and the citizens of California are encouraged to observe COPD Awareness Month with appropriate activities and programs to raise

awareness about the symptoms of, and ways of preventing, COPD; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 24

Assembly Concurrent Resolution No. 34—Relative to Shaken Baby Syndrome Awareness Week.

[Filed with Secretary of State April 23, 2007.]

WHEREAS, The 550,995 children born in California every year are our most vulnerable citizens; and

WHEREAS, The American Academy of Pediatrics recognizes that babies, infants, and toddlers are especially vulnerable to “Shaken Baby Syndrome,” the pattern of injury that results from an act of violent shaking by a parent or caregiver, but that children as old as five years of age can be injured by such acts of shaking; and

WHEREAS, Shaken Baby Syndrome and other inflicted head trauma is now recognized as a leading cause of child fatalities; and

WHEREAS, Researchers at the University of California, Irvine, report that children between the ages of birth and five months are at the greatest risk of injury and death due to abuse or neglect; and

WHEREAS, A 2003 report in the Journal of the American Medical Association surveyed the incidence of Shaken Baby Syndrome and estimates that an average of 300 children will die and 600 to 1,200 more children will be injured, with many cases resulting in severe and permanent disabilities, including loss of vision, brain damage, paralysis, and seizures; and

WHEREAS, Medical professionals believe that thousands more cases of Shaken Baby Syndrome are being misdiagnosed or not detected; and

WHEREAS, It is estimated that during an average year in California, nearly 230 children under five years of age will require medical attention because of inflicted head injuries, of which two-thirds are likely to occur in babies or infants younger than one year of age; and

WHEREAS, These inflicted injuries are usually precipitated when a parent or caregiver is not prepared to cope with the frustration and anger that can result from the inconsolable crying of an infant or unrealistic expectations of a child’s behavior; and

WHEREAS, It is estimated that 10 to 20 percent of infants experience episodes of colic, characterized by inconsolable crying for more than

three hours a day for more than three weeks, meaning that every year between 55,000 and 100,000 Californian babies may have such sustained periods of crying, with commensurate stress for their caregivers; and

WHEREAS, A survey conducted by Prevent Child Abuse America found that one-half of Americans with children believe parents do find themselves in situations where they are afraid they might abuse or neglect their child; and

WHEREAS, Shaken Baby Syndrome and other inflicted injuries are totally preventable; and

WHEREAS, The medical costs of treating Shaken Baby Syndrome cases and the costs of rehabilitation services to surviving infants, may exceed more than one million dollars (\$1,000,000) for the care of a single disabled child during the first few years of life; and

WHEREAS, The costs of those services are primarily paid by the Medi-Cal program, which in the year 2000 paid for 42.4 percent of births in the state, and by private health insurers, resulting in higher taxes and health insurance costs for all citizens of the state; and

WHEREAS, Shaken Baby Syndrome cases further impact costs to communities in many ways, including the investigation and prosecution of SBS cases, the tragic disruption of families, and the special education needs that are frequently required by those who have survived even modest head traumas; and

WHEREAS, Shaken Baby Syndrome prevention programs have demonstrated that educating new parents about the danger of shaking young children and how they can help protect their child from injury can effect a significant reduction in the number of Shaken Baby Syndrome cases; and

WHEREAS, Training and education for child care providers, as well as our high school and middle school pupils, who are frequently employed as paid or unpaid babysitters, is also effective in helping keep young children safe from injury; and

WHEREAS, The minimal costs and effort involved in such educational and preventive programs avert enormous medical and disability costs and untold grief for many families; and

WHEREAS, Efforts to prevent Shaken Baby Syndrome are supported by numerous organizations such as the American Academy of Pediatrics, the National Exchange Club, Kiwanis International, the Children's Trust Fund, Parents' Action, Healthy Start Coalition, as well as advocacy groups formed by parents and relatives of children who have been killed or injured by shaking, such as the Hannah Rose Foundation, the National Shaken Baby Coalition, the Shaken Baby Association, the SKIPPER Initiative, and the Shaken Baby Alliance; and

WHEREAS, The California Assembly and Senate strongly support efforts to protect our children, especially by education and awareness activities that enable parents to keep their children safe from injury; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Assembly and the Senate recognize the week of April 15 to April 21, 2007, inclusive, as “Shaken Baby Syndrome Awareness Week” in the State of California; and be it further

Resolved, That the California Assembly and the Senate request that the Governor proclaim the week of April 15 to April 21, 2007, inclusive, as “Shaken Baby Syndrome Awareness Week” in the State of California; and be it further

Resolved, That the California Assembly and the Senate encourage the Legislature and the Governor to undertake all practicable efforts to educate new parents, child care providers, foster and adoptive parents, babysitters, and others who care for our children about Shaken Baby Syndrome, including the causes and consequences of shaking injuries, the need to be prepared to cope with frustration and anger, and the need to educate all other caregivers of a child about the danger of shaking and ways they can help protect that child from injury; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 25

Senate Concurrent Resolution No. 18—Relative to California Fitness Month.

[Filed with Secretary of State April 24, 2007.]

WHEREAS, Exercise and fitness activities can increase self-esteem, boost energy, strengthen the heart and muscles, burn calories, and improve cholesterol levels; and

WHEREAS, Exercise and fitness activities are excellent ways to relieve stress, lower the risk of heart disease and diabetes, prevent bone loss, and decrease the risk of some cancers; and

WHEREAS, A person’s fitness level has a dramatic effect on the body’s ability to produce energy and to reduce fat; and

WHEREAS, A fit person burns a higher percentage of fat not only during activity, but also at rest, fit people have a higher proportion of muscle tissue, which burns more calories than fat, and those with more

muscle mass can eat more calories and still maintain a healthy weight; and

WHEREAS, To lose weight and keep it off, one should do an enjoyable, moderate-intensity aerobic activity for 30 to 60 minutes, three to five times a week; and

WHEREAS, A person should also do muscle-strengthening exercises two or three times a week, and should concentrate on maintaining a balanced diet; and

WHEREAS, Most popular diet programs cannot produce long-lasting weight reduction results without exercise; and

WHEREAS, There is no age limit for physical activity. Among the elderly, exercise provides cardiovascular, respiratory, neuromuscular, metabolic, and mental health benefits; and

WHEREAS, Fitness activities have been shown to sharpen mental ability in all people, and to retard the aging process; and

WHEREAS, Maximizing one's energy level, increasing muscle mass, and reducing body fat increases one's chances of living a longer, healthier life; and

WHEREAS, More than 60 percent of American adults do not get the recommended amount of physical activity, and 25 percent of American adults are not active; and

WHEREAS, Nearly all American youths from 12 to 21 years of age are not vigorously active on a regular basis; and

WHEREAS, The rate of type II diabetes tripled among American children from 2000 to 2005; and

WHEREAS, The United States Surgeon General recently spoke about the "cultural transformation" necessary to reverse the detrimental effects of childhood obesity, and the threat to national security that obesity poses for the country; and

WHEREAS, The State Department of Education reports that a majority of California's children are not physically fit; and

WHEREAS, Along with California Fitness Month, the American Heart Association has launched a campaign called "Start!" to encourage individuals and employers to create healthy lifestyles through healthy eating and exercise; and

WHEREAS, Health care providers, insurance companies, fitness clubs, and others in the private sector will be collaborating to promote fit living and health improvement activities during May 2007; and

WHEREAS, The League of American Bicyclists declares May 2007 National Bike Month, and the California Bicycle Coalition and other organizations are coordinating public awareness events to promote Bike-to-Work Week, which takes place from May 14 to May 18, 2007, inclusive; and

WHEREAS, The Legislature seeks to advance the physical fitness of all Californians by educating them about the benefits of exercise and a balanced diet; and

WHEREAS, The Legislature will increase public awareness about the benefits of exercise and physical fitness by encouraging its Members to host events in their districts that stimulate physical fitness and increase participation by Californians in activities that promote physical health and benefit both mental and physical well-being; and

WHEREAS, The Legislature encourages its Members, as well as organizations, businesses, and individuals, to sponsor and attend physical fitness events that are informative, fun, and result in a number of Californians becoming physically fit; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby proclaims the month of May 2007 as California Fitness Month, and encourages all Californians to enrich their lives through proper diet and exercise; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 26

Senate Concurrent Resolution No. 23—Relative to Prostate Cancer Awareness Month.

[Filed with Secretary of State April 24, 2007.]

WHEREAS, The American Cancer Society estimates one in six men will develop prostate cancer in their lifetime and there will be approximately 218,890 new cases of the disease in the United States in the current year, resulting in nearly 27,050 deaths; and

WHEREAS, In California, prostate cancer is the most common cancer among men in almost all race and ethnic groups and African-American men are 50 percent more likely to develop this disease than any other group of men; and

WHEREAS, In California, approximately 18,865 men will be diagnosed with prostate cancer this year and each day more than eight California men will die from this disease; and

WHEREAS, While prostate cancer is a leading cause of cancer deaths in men, little is known about this disease, and there are usually no symptoms in the early stages; and

WHEREAS, The survival rate approaches 100 percent when prostate cancer is diagnosed and treated early, but drops to 33 percent when the disease spreads to the other parts of the body; and

WHEREAS, Early detection is the key to survival and the American Cancer Society recommends that every man should be offered an annual prostate specific antigen (PSA) blood test and digital examination determined by his age and risk factor; and

WHEREAS, Men who have several close relatives who were diagnosed with prostate cancer at an early age could begin their testing at 40 years of age; and

WHEREAS, Men who have a father, son, or brother who had prostate cancer before 65 years of age and African-Americans should begin their testing at 45 years of age; and

WHEREAS, Other men who have a life expectancy of at least 10 more years should begin their testing at 50 years of age; and

WHEREAS, The Legislature joins communities across our nation to increase the awareness about the importance of early detection and treatment of prostate cancer; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature designates the month of September 2007 as Prostate Cancer Awareness Month in the State of California and that public officials and the citizens of California are encouraged to observe the month with appropriate activities and programs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 27

Assembly Joint Resolution No. 15—Relative to the Armenian Genocide.

[Filed with Secretary of State April 25, 2007.]

WHEREAS, The Armenian people, living in their 3,000-year historic homeland in eastern Asia Minor and throughout the Ottoman Empire, were subjected to severe persecution and brutal injustice by the rulers of the Ottoman Empire before and after the turn of the 20th century, including widespread massacres, usurpation of land and property, and acts of wanton destruction during the period from 1894 to 1896, inclusive, and again in 1909; and

WHEREAS, The horrible experience of the Armenians at the hands of their oppressors culminated in 1915 in what is known by historians as the “First Genocide of the Twentieth Century,” and as the prototype of modern day mass killing; and

WHEREAS, The Armenian Genocide began with the arrest, exile, and murder of hundreds of Armenian intellectuals, and business, political, and religious leaders, starting on April 24, 1915; and

WHEREAS, The regime then in control of the empire, known as the “Young Turks,” planned and executed the unspeakable atrocities committed against the Armenian people from 1915 to 1923, inclusive, which included the torture, starvation, and murder of 1,500,000 Armenians, death marches into the Syrian Desert, the forced exile of more than 500,000 innocent people, and the loss of the traditional Armenian homelands; and

WHEREAS, While there were some Turks and others who jeopardized their safety in order to protect Armenians from the crimes being perpetrated by the Young Turk regime, the genocide of the Armenian people constituted one of the most egregious violations of human rights in the history of the world; and

WHEREAS, The United States Ambassador to the Ottoman Empire, Henry Morgenthau, Sr., stated “Whatever crimes the most perverted instincts of the human mind can devise, and whatever refinements of persecutions and injustice the most debased imagination can conceive, became the daily misfortunes of this devoted people. I am confident that the whole history of the human race contains no such horrible episode as this. The great massacres and persecutions of the past seem almost insignificant when compared to the sufferings of the Armenian race in 1915. The killing of the Armenian people was accompanied by the systematic destruction of churches, schools, libraries, treasures of art, and cultural monuments in an attempt to eliminate all traces of a noble civilization with a history of more than 3,000 years”; and

WHEREAS, In discussing World War I, President Theodore Roosevelt wrote that “... the Armenian massacre was the greatest crime of the war, and the failure to act against Turkey is to condone it ... the failure to deal radically with the Turkish horror means that all talk of guaranteeing the future peace of the world is mischievous nonsense”; and

WHEREAS, Winston Churchill wrote: “As for Turkish atrocities: ... massacring uncounted thousands of helpless Armenians, men, women, and children together, whole districts blotted out in one administrative holocaust—these were beyond human redress”; and

WHEREAS, Contemporary newspapers like the New York Times commonly carried headlines such as “Tales of Armenian Horrors

Confirmed,” “Million Armenians Killed or in Exile,” and “Wholesale Massacre of Armenians by Turks”; and

WHEREAS, Adolph Hitler, in persuading his army commanders on the eve of World War II that the merciless persecution and killing of Poles, Jews, and other peoples would bring no retribution, declared, “Who, after all, speaks today of the annihilation of the Armenians?”; and

WHEREAS, Unlike other peoples and governments that have admitted and denounced the abuses and crimes of predecessor regimes, and despite the overwhelming proof of genocidal intent, the Republic of Turkey has inexplicably and adamantly denied the occurrence of the crimes against humanity committed by the Young Turk rulers, and those denials compound the grief of the few remaining survivors of the atrocities, desecrate the memory of the victims, and cause continuing trauma and pain to the descendants of the victims; and

WHEREAS, The Turkish Government has engaged in concerted efforts to revise history through the dissemination of propaganda falsely suggesting that Armenians were responsible for their fate in the period from 1915 to 1923, inclusive, and by the funding of programs at American educational institutions for the purpose of furthering the cause of this revisionism; and

WHEREAS, The Republic of Turkey has been condemned by Amnesty International and other human rights organizations for making free speech a crime by enacting Article 301 of the Turkish Penal Code, which makes “public denigration of Turkishness ... the Government of the Republic of Turkey, the judicial institutions of the State, the military or security structures” punishable by imprisonment, and has used this device to harass, intimidate, prosecute, and imprison Turkish citizens who have written or spoken honestly about the Armenian Genocide, including Nobel Prize winning author Orhan Pamuk; and

WHEREAS, Among those charged with “denigration of Turkishness” by Turkish prosecutors for his forthright acknowledgment of the Armenian Genocide was journalist Hrant Dink, and in this atmosphere of intolerance of dissent, Mr. Dink was assassinated for his views on January 19, 2007; and

WHEREAS, The accelerated level and scope of denial and revisionism, coupled with the passage of time and the fact that few survivors remain who serve as personal eyewitnesses to the indescribable brutality and torment, compel a sense of urgency in achieving formal recognition and reaffirmation of the historical truth of the Armenian Genocide; and

WHEREAS, By honoring the victims and survivors, and consistently remembering and forcefully condemning the atrocities committed against the Armenian people as well as the persecution of the Assyrian and

Greek populations of the Ottoman Empire, we guard against repetition of the crime of genocide; and

WHEREAS, California has become home to the largest population of Armenians in the world outside of Armenia, including Armenian Genocide survivors and their descendants, and those citizens have enriched our state and our Nation through leadership in academia, medicine, business, law, agriculture, government, the arts, and many other worthy endeavors, and they are proud and patriotic practitioners of American citizenship; and

WHEREAS, The State of California has been at the forefront of encouraging and promoting a curriculum relating to human rights and genocide in order to empower future generations to prevent recurrence of the crime of genocide; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California hereby designates April 24, 2007, as the “California Day of Remembrance for the Armenian Genocide of 1915–1923”; and be it further

Resolved, That the State of California commends its conscientious educators who teach about human rights and genocide; and be it further

Resolved, That the State of California respectfully memorializes the Congress and the President of the United States to act likewise and to formally recognize and reaffirm the historical truth that the atrocities committed against the Armenian people constituted genocide; and be it further

Resolved, That the State of California calls upon the Republic of Turkey to acknowledge the facts of the Armenian Genocide and to work toward a just resolution; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, Members of the United States Congress, the Governor, and the Turkish Ambassador to the United States.

RESOLUTION CHAPTER 28

Assembly Concurrent Resolution No. 1—Relative to California Holocaust Memorial Week.

[Filed with Secretary of State April 30, 2007.]

WHEREAS, The Holocaust was a tragedy of proportions the world had never before witnessed; and

WHEREAS, More than 60 years have passed since the tragic events we now call the Holocaust transpired, in which the dictatorship of Nazi Germany murdered six million Jews as part of a systematic program of genocide known as “The Final Solution of the Jewish Question”; and

WHEREAS, Jews were the primary victims, but they were not alone. Five million others were murdered in Nazi concentration camps as part of a carefully orchestrated, state-sponsored program of cultural, social, and political annihilation under the Nazi tyranny; and

WHEREAS, We must teach our children and future generations that the individual and communal acts of heroism during the Holocaust serve as a powerful example of how our nation and its citizens can, and must, respond to acts of hatred and inhumanity; and

WHEREAS, We must always remind ourselves of the horrible events of the Holocaust and remain vigilant against hatred, persecution, and tyranny lest these atrocities be repeated; and

WHEREAS, We, the people of California, should actively rededicate ourselves to the principles of human rights, individual freedom, and equal protection under the laws of a just and democratic society; and

WHEREAS, Each person in California should set aside moments of his or her time every year to give remembrance to those who lost their lives in the Holocaust; and

WHEREAS, The United States Holocaust Memorial Council has designated April 16 through April 22, 2007, as the Days of Remembrance of the Victims of the Holocaust, including the International Day of Remembrance, known as Yom HaShoah, on April 16, 2007; and

WHEREAS, According to Elie Wiesel, a Holocaust survivor and nationally recognized scholar, “... a memorial unresponsive to the future would violate the memory of the past”; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That April 16 through April 22, 2007, be proclaimed “California Holocaust Memorial Week,” and that Californians are urged to observe these days of remembrance for victims of the Holocaust in an appropriate manner; and be it further

Resolved, That the Chief Clerk of the Assembly transmit sufficient copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 29

Senate Concurrent Resolution No. 8—Relative to Child Abuse Prevention Month.

WHEREAS, Child abuse and neglect continue to pose a serious threat to our nation's children; and

WHEREAS, In 1996, more than 3,000,000 children were reported to child protective agencies in the United States as having suffered abuse and neglect; and

WHEREAS, It is estimated that for every three dollars (\$3) spent on the prevention of child abuse and neglect, at least six dollars (\$6) are saved that might be spent on child welfare services, special education services, medical care, foster care, counseling, and the housing of juvenile offenders; and

WHEREAS, Child abuse and neglect is a community problem and finding solutions depends on the involvement of people throughout the community; and

WHEREAS, The first organized statewide Blue Ribbon Campaign was originated in Norfolk, Virginia, by the grandmother of Bubba Dickinson, a child who was murdered by his mother's abusive boyfriend; and

WHEREAS, In recent years, the National Committee to Prevent Child Abuse, the California chapter and other local affiliates, United States military bases, and other groups have organized Blue Ribbon Campaigns to increase public awareness of child abuse and to promote ways to prevent child abuse; and

WHEREAS, The National Committee to Prevent Child Abuse, in all its forms, has proclaimed April as National Child Abuse Prevention Month; and

WHEREAS, Blue ribbons are displayed to increase awareness of child abuse and as a strategy for Child Abuse Prevention Month; and

WHEREAS, This year's campaign is entitled "Protecting Children Promoting Healthy Families and Preserving Communities"; and

WHEREAS, The flexibility of this program offers numerous opportunities to be innovative and to create partnerships within business, professional, and community organizations; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature does hereby acknowledge the month of April 2007 as Child Abuse Prevention Month, and encourage the people of the State of California to work together to support youth-serving child abuse prevention activities in their communities and schools during that month and throughout the year; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 30

Senate Concurrent Resolution No. 19—Relative to West Nile Virus and Mosquito and Vector Control Awareness Week.

[Filed with Secretary of State April 30, 2007.]

WHEREAS, West Nile virus is a mosquito-borne disease that can result in debilitating cases of meningitis and encephalitis and death to humans, horses, avian species, and other wildlife; and

WHEREAS, In the last two years, West Nile virus has killed 24 people in California and sickened nearly 1,200 others; and

WHEREAS, The State Department of Health Services and the Centers for Disease Control predict West Nile virus will again pose a public health threat in California in 2007; and

WHEREAS, Adequately funded mosquito and vector control, disease surveillance, and public awareness programs are the best way to prevent outbreaks of West Nile virus and other diseases borne by mosquitoes and other vectors; and

WHEREAS, Mosquitoes and other vectors, including, but not limited to, ticks, Africanized honey bees, rats, fleas, and flies, continue to be a source of human suffering, illness, death, and a public nuisance in California and around the world; and

WHEREAS, Excess numbers of mosquitoes and other vectors spread diseases, reduce enjoyment of outdoor living spaces, both public and private, reduce property values, hinder outdoor work, and reduce livestock productivity; and

WHEREAS, Professional mosquito and vector control based on scientific research has made great advances in reducing mosquito and vector populations and the diseases they transmit; and

WHEREAS, Established mosquito- and vector-borne diseases such as plague, Lyme disease, and encephalitis, and new and emerging vector-borne diseases, such as hantavirus, arenavirus, babesiosis, and ehrlichiosis cause illness and sometimes death every year in California; and

WHEREAS, Mosquito and vector control districts throughout the State of California work closely with the United States Environmental Protection Agency and the State Department of Health Services to reduce pesticide risks to humans, animals, and the environment while protecting human health from mosquito- and vector-borne diseases and nuisance attacks; and

WHEREAS, The public's awareness of the health benefits associated with safe, professionally applied mosquito and vector control methods

will support these efforts, as well as motivate the public to eliminate mosquito and vector breeding sites on private property; and

WHEREAS, Educational programs have been developed to include schools, civic groups, private industry, and governmental agencies, in order to meet the public's need for information about West Nile virus, other diseases, and mosquito and vector biology and control; and

WHEREAS, Public awareness can result in reduced production of mosquitoes and other vectors on private, commercial, and public lands by responsible parties, avoidance of the bites of mosquitoes and other vectors when the risk of West Nile virus and other disease transmission is high, detection of human cases of mosquito- and vector-borne diseases that may otherwise be misdiagnosed for lack of appropriate laboratory testing, and the formation of mosquito or vector control agencies where needed; and

WHEREAS, Public awareness can result in action to provide adequate funding for existing mosquito and vector control agencies or in areas where there are no existing controls; and

WHEREAS, West Nile Virus and Mosquito and Vector Control Awareness Week will increase the public's awareness of the threat of West Nile virus and other diseases and the activities of the various mosquito and vector research and control agencies working to minimize the health threat within California, and will highlight the educational programs currently available; and

WHEREAS, The Mosquito and Vector Control Association of California has designated the week of April 23 to April 29, 2007, inclusive, as West Nile Virus and Mosquito and Vector Control Awareness Week in the State of California; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby declares that the week of April 23 to April 29, 2007, inclusive, be designated as West Nile Virus and Mosquito and Vector Control Awareness Week; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Governor and Director of Health Services.

RESOLUTION CHAPTER 31

Senate Concurrent Resolution No. 26—Relative to World Languages and Cultures Month.

[Filed with Secretary of State April 30, 2007.]

WHEREAS, In 2006, under the direction of the President of the United States, the United States Department of Education, the United States Department of State, the United States Department of Defense, and the Office of the Director of National Intelligence collaborated to establish the National Security Language Initiative (NSLI); and

WHEREAS, The NSLI is designed to dramatically increase the number of Americans learning critical need languages, including Arabic, Chinese, Russian, Hindi, Farsi, and other languages, through new and expanded programs for kindergarten through university and into the workforce; and

WHEREAS, In order to meet the mission of the NSLI, Americans must be able to communicate in other languages, a challenge most California educational agencies are totally unprepared to meet; and

WHEREAS, The President of the United States in 2006 proposed the American Competitiveness Initiative to ensure that our students develop the 21st century skills they need to compete and thrive in the competitive global economy; and

WHEREAS, The United States Secretary of Education, in her Statement on International Education Week 2006, declared that “Technology has leveled the playing field and flattened the world ... and has illustrated the importance of foreign languages in communicating and forming partnerships with citizens from other cultures and countries”; and

WHEREAS, The Committee for Economic Development (CED) issued a report in 2006 entitled “Education for Global Leadership: The Importance of International Studies and Foreign Language Education for U.S. Economic and National Security”; and

WHEREAS, The CED report recommends the expansion of foreign language programs at every level of education to address the paucity of Americans fluent in foreign languages, especially critical, less-commonly taught languages; and

WHEREAS, California, due to its rich heritage of linguistic and cultural resources, is uniquely poised to play a leadership role in advancing the various national and state initiatives to expand the teaching and learning of foreign languages; and

WHEREAS, Proficiency in more than one language enhances communication and strengthens positive interactions among people in the United States and around the world; and

WHEREAS, The study of languages improves the academic and literacy skills of pupils, leading to increased levels of achievement on verbal and quantitative examinations; and

WHEREAS, The study of languages and cultures provides pupils with the opportunity to gain insight into the history, heritage, and perspectives

of all California residents and of residents of other communities around the world; and

WHEREAS, The conditions of the current international economy require that people be able to interact effectively with individuals from different cultural backgrounds; and

WHEREAS, Linguistic and cultural competence is critical to the security needs of the United States; and

WHEREAS, The study of languages and cultures increases understanding of, and encourages respect for, people of different backgrounds; and

WHEREAS, California language organizations are participating in a 10-year Discover Languages, Discover the World! campaign sponsored by the American Council on the Teaching of Foreign Languages to increase public awareness in the United States of the importance of providing educational instruction in languages and cultures; and

WHEREAS, During the month of May 2007 the California Language Teachers' Association, the California Foreign Language Project, the University of California Consortium for Language Learning and Teaching, and other educational organizations throughout California will sponsor special activities to promote awareness of the importance of California residents being able to interact successfully in multilingual and multicultural contexts in the United States and around the world; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby proclaims the month of May 2007, as World Languages and Cultures Month, during which time the Legislature encourages all educational communities in California to celebrate languages and cultures with appropriate pupil activities and programs that promote an understanding of the diversity of languages and cultures in California and the benefit that they represent to our nation, and urges all residents to become interested in and give full support to quality language and cultural programs for all pupils in California schools; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 32

Senate Concurrent Resolution No. 35—Relative to California Peace Officers' Memorial Day.

[Filed with Secretary of State May 7, 2007.]

WHEREAS, May 3, 2007, is California Peace Officers' Memorial Day, a day Californians observe in commemoration of those noble officers who have tragically sacrificed their lives in the line of duty; and

WHEREAS, Although California citizens are indebted to our California peace officers each day of the week, we make particular note of their bravery and dedication and we share in their losses on California Peace Officers' Memorial Day; and

WHEREAS, California peace officers have a job second in importance to none, and it is a job that is as difficult and dangerous as it is important; and

WHEREAS, The peace officers of California have worked dutifully and selflessly on behalf of the people of this great state, regardless of the peril or hazard to themselves; and

WHEREAS, By the enforcement of our laws, these same officers have safeguarded the lives and property of the citizens of California and have given their full measure to ensure those citizens the right to be free from crime and violence; and

WHEREAS, Special ceremonies and observations on behalf of California peace officers provide all Californians with the opportunity to appreciate the heroic men and women who have dedicated their lives to preserving public safety; now, therefore, be it

Resolved, by the Senate of the State of California, the Assembly thereof concurring, That California's peace officers who were killed in defense of their communities in 2006 be recognized;

Officer Rich May, East Palo Alto Police Department, End of Watch: January 7, 2006

Officer Earl H. Scott, California Highway Patrol, Modesto, End of Watch: February 17, 2006

Officer John Bailey, California Highway Patrol, Rancho Cucamonga, End of Watch: February 25, 2006

Deputy Pierre W. Bain, Los Angeles County Sheriff's Department, End of Watch: March 23, 2006

Sergeant Scott A. Hanson, Covina Police Department, End of Watch: July 3, 2006

Officer Nick-Tomasito Birco, San Francisco Police Department, End of Watch: July 26, 2006

Officer Brent W. Clearman, California Highway Patrol, Oakland, End of Watch: August 6, 2006

Officer Landon M. Dorris, Los Angeles Police Department, End of Watch: October 22, 2006

Deputy Jeffrey V. Mitchell, Sacramento County Sheriff's Department, End of Watch: October 27, 2006

Deputy William Joe Hudnall, Kern County Sheriff's Department, End of Watch: November 14, 2006

Officer Daniel S. Bessant, Oceanside Police Department, End of Watch: December 20, 2006

Officer Bryan D. Tuvera, San Francisco Police Department, End of Watch: December 23, 2006; and be it further

Resolved, That California's peace officers who were killed in defense of their communities in prior years, but not yet enrolled, also be recognized;

Constable Samuel D. Holman, Calaveras County Sheriff's Department, End of Watch: March 10, 1901

Deputy Constable Joseph Mamola, Oakland Township Constable's Office, End of Watch: April 13, 1927

Officer Roderick D. Gordon, Western Pacific Railroad, End of Watch: September 8, 1935

Officer David D. Irwin, California Highway Patrol, South Los Angeles, End of Watch: September 18, 2000; and be it further

Resolved, That the Members designate Thursday, May 3, 2007, as California Peace Officers' Memorial Day, and urge all Californians to remember those individuals who gave their lives for our safety and express appreciation to those who continue to dedicate themselves to making California a safer place in which to live and raise our families; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 33

Assembly Concurrent Resolution No. 37—Relative to Automotive Career Month.

[Filed with Secretary of State May 9, 2007.]

WHEREAS, The automotive industry employs over 500,000 Californians in automotive-dependent careers; and

WHEREAS, California ranks third among all states in the number of people employed by the auto industry, is home to the national headquarters for several automobile manufacturers, and is the location for research and design facilities for many domestic and international automobile manufacturers; and

WHEREAS, Career opportunities are expanding the over 1,600 new car dealers located in California, where dynamic positions with

high-income potential can be found in fields such as sales, auto repair and service, finance, marketing, administration, design, technology and computers, and communications; and

WHEREAS, Over the next 10 years, new car dealers in California will have to annually recruit 3,600 educated and well-trained auto technician professionals to keep up with increasing demand; and

WHEREAS, Well-paying job opportunities in the automotive industry will be abundant in coming years, and auto technicians alone can earn forty thousand dollars (\$40,000) to one hundred thousand dollars (\$100,000) annually; and

WHEREAS, The Legislature has recognized the importance of Career Technical Education (CTE) by approving the Strategic Growth Plan, approved by voters in November 2006, which authorized a general obligation bond to provide five hundred million dollars (\$500,000,000) for Career Technical Education, and increasing CTE funds by 18 percent over the last three years; and

WHEREAS, Automotive Youth Educational Systems (AYES) and its unique public-private partnership between auto manufacturers, new car dealers, and the State Department of Education, is the premier high school-to-work initiative preparing young people for entry level career positions or advanced studies in automotive technology; and

WHEREAS, AYES has over 20 California schools on its roster that join more than 400 AYES school programs nationally; and

WHEREAS, In addition to AYES-qualified high schools, nearly 500 other high schools, 55 regional occupational programs, and 70 community colleges offer automotive technology training programs in California; and

WHEREAS, A model public-private partnership in automotive technology is the Southland/Cerritos Center for Transportation Technology, a new educational center on the Cerritos College campus that connects education and industry to address the employment needs of Southern California auto dealers; and

WHEREAS, During Automotive Career Month, the California Motor Car Dealers Association and the state's new car dealers, automobile manufacturers, and other industry partners will reach out to students, teachers, and parents to educate them about the wide array of career opportunities available in the automotive industry; and

WHEREAS, Through this national initiative and many partnerships with manufacturers and educational professionals, new car dealers are leading the way in providing young people with well-paying and rewarding career opportunities; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the month of April 2007, is hereby officially designated Automotive Career Month; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 34

Assembly Concurrent Resolution No. 40—Relative to Financial Literacy Month.

[Filed with Secretary of State May 9, 2007.]

WHEREAS, Californians' total personal income is 57 percent higher than the next closest state and accounts for 13 percent of all personal income in the United States; and

WHEREAS, Thirteen percent of Californians live below the poverty level; and

WHEREAS, During the past two decades, the proportion of households with outstanding debt has risen dramatically, and this increase has been the greatest for the lowest 40 percent of the income distribution; and

WHEREAS, In 2005, consumer bankruptcy filings numbered over 2 million, up 31.6 percent from 2004, representing one in every 53 households; and

WHEREAS, In 2005, Chapter 7 consumer bankruptcy filings, which provide consumers with the greatest relief from their debt, increased 47.2 percent; and

WHEREAS, Average credit card debt among low- and moderate-income households is \$8,650; and

WHEREAS, Over one-third of young adults own credit cards, and young people receive little in the way of financial education; and

WHEREAS, Average credit card debt among indebted young adults, ages 25 to 34 years, inclusive, increased by 55 percent in the past decade, to \$4,088, and average credit card debt among young adults, ages 18 to 24 years, inclusive, increased 104 percent; and

WHEREAS, Fifty-two percent of Americans do not regularly check their credit reports; and

WHEREAS, Forty-three percent of American families spend more than they earn; and

WHEREAS, A recent federal research survey found that Americans hold a total of \$1.9773 trillion in debt, not including mortgage debt, meaning a debt of \$18,654 per household; and

WHEREAS, The U.S. savings rate for consumers in late 2005 was a negative 1 percent, the lowest since the Great Depression; and

WHEREAS, The 2006 Retirement Confidence Survey found that a large majority of workers who have not put money aside for retirement have little in savings if at all; and

WHEREAS, The average amount in retirement accounts is \$49,944; and

WHEREAS, Forty-three percent of American households do not have retirement accounts; and

WHEREAS, Almost 70 percent of retired workers reported that they now spend the same as or more than they did when they worked; and

WHEREAS, Seventy percent of retirees said they wish they had saved more during their working years and 59 percent said they should have started saving earlier; and

WHEREAS, High school seniors taking part in a national survey of financial knowledge scored an average of 52.4 percent, which is a failing grade; and

WHEREAS, Only seven states require high school students to pass a test on personal finance in order to graduate; and

WHEREAS, In recent years, total annual borrowing through student loans has soared 85 percent, easily outpacing the 41 percent rise in public college costs and the 28 percent increase at private schools; and

WHEREAS, Undergraduates reported freshman year as the most prevalent time for obtaining credit cards, with 56 percent reporting having obtained their first card at 18 years of age; and

WHEREAS, Eighty-three percent of undergraduate students have at least one credit card with an average balance of \$2,237; and

WHEREAS, By the time a college student graduates he or she will have, an average, \$20,402 in credit card and education loan balances; and

WHEREAS, Increasing the financial literacy of all economic and ethnic groups is documented to improve attitudes, lead to improved decision-making, and provide for a more secure future for the individuals and their families who have been educated with regard to these issues; and

WHEREAS, Financial literacy training may be easily integrated as a valuable component for elementary and secondary schools, colleges and universities, libraries, community groups, and citizen town hall meetings; and

WHEREAS, Many groups are dedicated to increasing the financial literacy of Americans and a broad range of quality personal finance instructional materials and curricula have been created for this purpose,

but the audience to which this information is vital is not being reached; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby declares the month of April 2007 as Financial Literacy Month, in order to raise public awareness about the need for increased financial literacy; and be it further

Resolved, That legislators, employers, schools, service groups, community organizations, libraries, financial institutions, and the media, be encouraged to provide opportunities for financial literacy education for all Californians through a variety of means, and to collaborate with members of the California Society of Certified Public Accountants, California Jump Start Coalition, and others, as they provide outreach and education; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 35

Assembly Concurrent Resolution No. 42—Relative to Donate Life California.

[Filed with Secretary of State May 9, 2007.]

WHEREAS, Organ, tissue, and blood donation are life-giving acts recognized worldwide as expressions of compassion to those in need; and

WHEREAS, More than 95,000 individuals nationwide and almost 20,000 in California are currently on the national organ transplant wait list, and every 90 minutes one person dies while waiting for a donated organ; and

WHEREAS, A single individual's donation of the heart, lungs, liver, kidneys, pancreas, and small intestine can save up to eight lives. The donation of tissue can save and enhance the lives of up to 50 others, and a single blood donation can help three people in need; and

WHEREAS, Millions of lives each year are saved and enhanced by donors of organs, tissue, and blood; and

WHEREAS, More than one million Californians have signed up with the state-authorized Donate Life California Registry to ensure that their wishes to be organ and tissue donors are honored; and

WHEREAS, California residents can register with the Donate Life California Registry when applying for or renewing their driver's licenses

or identification cards at the Department of Motor Vehicles (DMV); now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That in recognition of April as National Donate Life Month, the Legislature proclaims April 4, 2007, as DMV/Donate Life California Day in the State of California, and the month of April 2007 as DMV/Donate Life California Month in the State of California. In doing so, the Legislature encourages all Californians to check “YES!” when applying for or renewing their driver’s license or identification card, or by signing up at www.donateLIFECalifornia.org or www.doneVIDACalifornia.org; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 36

Senate Concurrent Resolution No. 29—Relative to Lyme Disease Awareness Month.

[Filed with Secretary of State May 10, 2007.]

WHEREAS, Lyme disease is caused by the spirochete (a corkscrew-shaped bacteria) called *Borrelia burgdorferi* and is transmitted by the western black-legged tick. Lyme disease was first identified in North America in the 1970s in Lyme, Connecticut, the town for which it was then named. This disease has since been reported in many areas of the country, including 52 counties in California. Its spread is essentially global, having been reported in 30 countries on 6 continents and several islands. Lyme disease, therefore, is not “rare” and 25 percent of its victims are under 15 years of age; and

WHEREAS, The federal Centers for Disease Control and Prevention (CDC) made Lyme disease a nationally notifiable condition in 1982. Over 125,000 cases have since been reported nationwide, making Lyme disease the most frequently reported vector-borne disease. In 2002, the number of cases reported increased by 40 percent over the prior year to 23,763 cases. The CDC estimates that only 10 percent of the Lyme disease cases are actually reported, and the current CDC surveillance criteria is outdated and leads to gross underreporting; and

WHEREAS, Lyme disease mimics many other diseases and is called the second “great imitator” after syphilis. Patients are often misdiagnosed with more familiar conditions, including chronic fatigue, fibromyalgia, multiple sclerosis, amyotrophic lateral sclerosis (Lou Gehrig’s disease),

or Parkinson's disease, for which there is no cure, only palliative remedies. Manifestations of cognitive and memory impairment from neurological Lyme disease are commonly misdiagnosed as depression or other mental conditions; and

WHEREAS, Prompt treatment with antibiotics at the onset of Lyme disease can cure the infection and prevent complications of "persistent Lyme disease." However, if treatment is delayed, the disease will cause progressive debilitation and recovery will take much longer; and

WHEREAS, In California, the western black-legged tick (*Ixodes pacificus*) transmits the bacteria that cause Lyme disease during its bite and blood draw. These ticks are most common in the coastal regions and along the western slope of the Sierra Nevada range. Ticks prefer cool moist environments, such as shaded grasses, shrubs, and leaf litter under trees in oak woodlands; and

WHEREAS, Ticks have three life stages. The larvae and nymphs are found in low, moist vegetation such as in leaf litter and oak tree trunks. Adults are found on the tips of grasses and shrubs, often along trails and usually carried by deer. Infected nymphs and adult females of the western black-legged tick can transmit Lyme disease bacterium to humans. Because nymphs are tiny and difficult to see, they may not be removed promptly. Nymphs are most active in spring and early summer, when people are most likely to be outdoors. Indeed, the peak time for contracting the disease is between April and June, hence the designation of May as Lyme Disease Awareness Month; and

WHEREAS, There are fewer than 30 "Lyme-literate" physicians in clinical practice in California, resulting in frequent misdiagnosis and undertreatment of patients. This marginalization has led to broken families, financial hardship, job loss, increased numbers of people on disability or welfare, and even death. Lyme disease is a hidden public health epidemic that must be addressed promptly; and

WHEREAS, In 1999, Senate Bill 1115 established the Lyme Disease Advisory Committee (LDAC) to provide information and service to the Lyme patient community and to focus expertise and potential leadership on this public health epidemic and to encourage the use of protective clothing; and

WHEREAS, In 2002, Assembly Bill 2125 established that Lyme disease could be a compensable employment injury through the workers' compensation system for certain law enforcement personnel, thus recognizing that Lyme disease could be an occupational hazard and job injury; and

WHEREAS, In 2004, the International Lyme and Associated Diseases Society developed "Evidence-based Guidelines for the Management of Lyme Disease," published in Expert Review and Anti-infective

Ther.:2(1), 2004. It is now clear that long-term antibiotic treatment of persistent Lyme disease can be effective; and

WHEREAS, In 2004, Assembly Bill 1091 revised the method by which the state may modify the list of reportable diseases making Lyme disease laboratory-reportable in addition to doctor-reportable. This made a difference. For the first half of 2006, 119 Lyme disease cases were reported, versus 26 and 17 reported for the years 2005 and 2004, respectively; and

WHEREAS, Recently, in 2005, Assembly Bill 592 had a two-fold purpose: to ensure that physicians who diagnose Lyme disease based on personal examination and develop a treatment plan based on informed consent with the patient cannot be charged with incompetence for this professional practice, and specifically recognizing the treatment of “persistent Lyme disease” opening a window for both physicians and patients to see that this complex disease can indeed be treated. Today, California and Rhode Island are the only states in the United States that have this kind of state legislation; and

WHEREAS, The Legislature finds that this disease is a developing epidemic that presents a major health threat to all Californians; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California hereby proclaims the month of May 2007 as Lyme Disease Awareness Month; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 37

Senate Concurrent Resolution No. 28—Relative to youth sports.

[Filed with Secretary of State May 15, 2007.]

WHEREAS, The 2006 FITNESSGRAM data compiled by the State Department of Education reveals that over 70 percent of California children in grades 5, 7, and 9 do not meet minimum physical fitness standards and over 32 percent of California youth are overweight; and

WHEREAS, The state’s childhood obesity epidemic and related health conditions and associated costs are expected to increase unless concerted and coordinated efforts are made to increase opportunities for children and youth to engage in age-appropriate, high-quality physical activity programs during nonschool hours; and

WHEREAS, The Governor and Legislature have significantly increased statewide awareness regarding the risks associated with childhood obesity and have prioritized efforts to increase physical activity among children; and

WHEREAS, The California Park and Recreation Society promotes sports instruction, recreation, and play as natural and accepted ways for children and youth to engage in physical activity during nonschool hours; and

WHEREAS, Participation in physical activities can lower a child's risk of developing chronic health problems such as high blood pressure, asthma, heart disease, and diabetes, and can also help children grow up to be healthier adults; and

WHEREAS, Local park and recreation agencies are the primary providers of the spaces and places such as ball fields, sports centers, fitness centers, swimming pools, trails, and parks for youth sports experiences; and

WHEREAS, Local park and recreation agencies are the primary providers of the instructional sports programs and leagues for children and youth of all ages, gender, ethnicity, and abilities; and

WHEREAS, Trained staff and appropriately managed youth sports and physical activity programs focused on team building and positive peer interactions can greatly enhance physical activity experiences while ensuring the health and safety of California children; and

WHEREAS, In order to realize the true impact of youth sports participation and to provide a safe, positive, healthful, and fun environment for youth and their families to participate, we must raise the operating standards among all youth sports program providers; and

WHEREAS, The California Park and Recreation Society and its partner the National Alliance for Youth Sports seeks to improve the quality of youth sports experiences believing that "Better Sports for Kids, Better Kids for Life" is a model for all providers to use in providing youth sports programs; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the importance of quality youth sports experiences for the health development of California's children, as well as the important role that local park and recreation agencies play in providing safe and enjoyable youth sports experiences; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 38

Senate Concurrent Resolution No. 31—Relative to Healthy Communities Awareness Month.

[Filed with Secretary of State May 15, 2007.]

WHEREAS, There are more than 36 million people living in California; and

WHEREAS, Nearly 20 percent of California adults and 27 percent of California children are considered overweight or obese; and

WHEREAS, The League of California Cities, the California State Association of Counties, and the California School Boards Association support policies that focus on health and wellness, continuing education, and healthier lifestyles in all communities; and

WHEREAS, Many cities, counties, and schools have adopted policies, programs, and ordinances that promote healthy lifestyles by making their communities walkable, promoting youth and senior activities, eliminating the sale of junk food in city, county, or school facilities, providing incentives for stores that sell fresh produce to locate in depressed neighborhoods, and providing exercise opportunities for their residents; and

WHEREAS, The Cities, Counties and Schools Partnership Board of Directors adopted “Healthy Children, Healthy Communities: An Action Guide for California Communities” to support local government in collaboratively addressing child obesity; and

WHEREAS, City, county, and school officials believe there are important, long-term community benefits to be gained by encouraging healthy lifestyles, including a potential decrease in the rate of childhood obesity and its negative health-related impacts; and

WHEREAS, State and local communities can work together to understand the relationship between obesity, land-use policies, and community planning; and

WHEREAS, The state and local communities can work together to ensure that there are safe places for their residents to be active such as in parks, ball fields, pools, gyms, and recreation centers; and

WHEREAS, Access to healthy foods has a direct impact on the overall health of our community and planning for fresh food, open space, sidewalks, and parks should be a priority; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the importance of health and wellness in communities and the role planning plays in keeping our state and communities healthy and hereby declares this May and every

May thereafter to be Healthy Communities Awareness Month; and be it further

Resolved, That the Legislature encourages all citizens and local governments to celebrate Healthy Communities Awareness Month in a variety of ways; and be it further

Resolved, That the Secretary of the Senate provide copies of this resolution to the author's office for appropriate distribution.

RESOLUTION CHAPTER 39

Assembly Concurrent Resolution No. 29—Relative to NASCAR.

[Filed with Secretary of State May 21, 2007.]

WHEREAS, California is home to the California Speedway, host of two 2007 NASCAR Nextel Cup races; and

WHEREAS, May 18, 2007, is the fourth annual NASCAR Day, a one-day celebration of the NASCAR spirit; and

WHEREAS, The mission of NASCAR Day is to encourage individuals and corporations involved in NASCAR to join together to support the NASCAR Foundation; and

WHEREAS, The NASCAR Foundation was formed to support a wide range of charitable initiatives that reflect the core values of the entire NASCAR family; and

WHEREAS, On NASCAR Day, fans are encouraged to wear their NASCAR Day lapel pin to show their support; and

WHEREAS, NASCAR Day is an opportunity for fans to show their support for the sport, and help charities related to NASCAR drivers, teams, and tracks; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature declares May 18, 2007, as NASCAR Day for the State of California, and encourages fans to wear their NASCAR Day lapel pin to show their support; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 40

Assembly Concurrent Resolution No. 38—Relative to Vintners Hall of Fame.

[Filed with Secretary of State May 21, 2007.]

WHEREAS, On March 9, 2007, The Culinary Institute of America at Greystone will host the First Annual Vintners Hall of Fame Dinner at the St. Helena campus, and it is appropriate at this time to draw the special attention of the public to this prestigious event; and

WHEREAS, The Vintners Hall of Fame was created to honor and recognize California's wine industry pioneers, founders, and icons; and

WHEREAS, The Vintners Hall of Fame annual induction dinner and gala fundraising reception will endow new scholarship programs for the Rudd Center for Professional Wine Studies at The Culinary Institute of America at Greystone; and

WHEREAS, Founded in 1946, The Culinary Institute of America is an independent, nonprofit college offering bachelor's and associate degrees in culinary arts and baking and pastry arts; and

WHEREAS, A network of more than 37,000 alumni in foodservice and hospitality has helped earn The Culinary Institute of America its reputation as one of the world's premier culinary colleges; and

WHEREAS, Courses for foodservice professionals are offered at the college's main campus in Hyde Park, New York, and at The Culinary Institute of America at Greystone's campus in St. Helena; and

WHEREAS, Greystone also offers baking and pastry, advanced culinary arts, and wine certifications; and

WHEREAS, The Culinary Institute of America at Greystone has announced six wine industry founders and two wine industry icons to join Robert Mondavi in the Vintners Hall of Fame; and

WHEREAS, Founders, who are vintners whose early ventures planted the roots of the present-day California wine industry, include Andre Tchelistcheff, Georges de Latour, Charles Krug, Agoston Haraszthy, Gustave Niebaum, and Brother Timothy; and

WHEREAS, Icons, who are individuals whose achievements have contributed to the establishment and growth of the California wine industry, include Maynard Amerine and Harold Olmo; and

WHEREAS, The reception and dinner ceremony will gather the elite of the California and International Wine industries to honor Robert Mondavi's pioneering contributions to wine in America; and

WHEREAS, Robert Mondavi's commitment to advancing California's wine industry motivated him to produce wines that were intended to compete with premium European brands; and

WHEREAS, Robert Mondavi's induction into the Hall of Fame cites the fundamental changes in the industry that are a result of the risks he took throughout his life's mission that range from the introduction of cold fermentation in stainless steel tanks, the use of French oak barrels,

to the collaboration with the National Aeronautics and Space Administration using aerial imaging to understand the health and vigor of the vines; and

WHEREAS, Robert Mondavi, who has been at the forefront of wine education and innovation, views winegrowing and winemaking as a collaboration with nature, and the wine as a natural expression of the soil, climate, and vine; and

WHEREAS, To further honor Robert Mondavi, a sculpture in his likeness created by artist Larry Nolan, of LJM Sculpture in Windsor, Vermont, will be unveiled as the first of many to be on display to the public in the Vintners Hall of Fame room at Greystone; and

WHEREAS, The California wine industry has a long and continuing history and, in recent decades has become recognized for producing the world's finest wine; and

WHEREAS, Through ongoing research, wine education, and innovation, California's vintners further enhance the quality and competitiveness of their products and, under their leadership, the story of California wine continues to evolve; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature congratulates the Culinary Institute of America at Greystone on the occasion of the establishment of its Vintners Hall of Fame and first annual induction ceremony, and commends its inaugural recipients for their stellar efforts to serve as the voice of the California wine industry and for their contributions to the beautiful and diverse wine regions throughout the state; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of the resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 41

Assembly Concurrent Resolution No. 46—Relative to Skin Cancer Awareness Month.

[Filed with Secretary of State May 21, 2007.]

WHEREAS, Malignant melanoma, a serious skin cancer, is characterized by the uncontrolled growth of pigment-producing tanning cells; and

WHEREAS, Excessive exposure to ultraviolet radiation (UVA and UVB) is the most important and preventable cause of melanoma. Other possible causes include genetic factors and immune deficiencies.

Malignant melanoma has also been linked to past sunburns and sun and tanning device exposure at younger ages; and

WHEREAS, Melanoma can affect men, women, and children; and

WHEREAS, The incidence of melanoma has doubled in the last 20 years, and it continues to rise faster than any other cancer in women, except for lung cancer. Melanoma is the most common form of cancer among people between 25 and 29 years of age, and experts estimate that if the present rate continues, soon melanoma will strike one in 70 Californians; and

WHEREAS, Early detection is crucial. There is a direct correlation between the detection of melanoma and the survival rate. If melanoma is detected and treated early and aggressively by a qualified medical professional, the cure rate is very high; and

WHEREAS, Melanoma in its early stages may only be detected by visual inspection. Dermatologists recommend regular self-examination of the skin to detect changes in its appearance, especially changes in existing moles or blemishes. Additionally, patients with risk factors should have a complete skin examination annually; and

WHEREAS, On Monday, May 7, 2007, the California Society of Dermatology and Dermatologic Surgery engaged in its Eighth Annual Skin Cancer Awareness Day public health screening at the State Capitol Building, and in the seven preceding years, the society has screened nearly 2,000 persons, including constitutional officers, Members of the Legislature, members of the capitol community, and the general public; and

WHEREAS, The California Society of Dermatology and Dermatologic Surgery has an outstanding record of service and leadership in advancing the cause of prevention, detection, and treatment of skin cancers and diseases of the skin, and in its service to the capitol community and the people of the State of California, and is encouraged to continue its endeavors to expand these screening and detection efforts throughout the state; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the month of May 2007, shall be recognized as Skin Cancer Awareness Month in California, and that all Californians shall be encouraged to make themselves and their families aware of the risk of skin cancer as well as the measures that can be taken to prevent it; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 42

Assembly Concurrent Resolution No. 43—Relative to Cinco de Mayo Week.

[Filed with Secretary of State May 21, 2007.]

WHEREAS, Cinco de Mayo, or the fifth of May, is memorialized as a significant date in the history of California and Mexico in recognition of the courage of the Mexican people, who defeated a better trained and equipped army at the “Batalla de Puebla”; and

WHEREAS, Cinco de Mayo serves to remind us that the foundation of any nation and our state is in its people, in their spirit and courage in the face of adversity, in the strength of their drive to achieve self-determination, and in their willingness to sacrifice even life itself in the pursuit of freedom and liberty; and

WHEREAS, Cinco de Mayo offers an opportunity to reflect on the courage and achievements not only of the Mexican forces at Puebla, but also on the courage and achievements of Latinos here in California; and

WHEREAS, Achievements by Latinos in America and California include contributions to all facets of our community; and

WHEREAS, Latino voters continue to go to the polls in record numbers and influence the entrance of newly elected Latino public officials in both the Democratic and Republican parties and issues ranging from affordable housing, investing in our children, ensuring that higher education is affordable and accessible, creating good paying jobs for working families, and improving the overall quality of life for all Californians; and

WHEREAS, California’s Latinos have contributed to our culture and society through their many achievements in music, food, dance, poetry, literature, architecture, entertainment, sports, and across a broad spectrum of artistic expression; and

WHEREAS, In 2001, the Latino Caucus saw a need to recognize and honor distinguished Latinos for their contributions and dedication to California and the United States’ economy and cultural life with the annual Latino Spirit Awards. These recipients are outstanding individuals who have greatly contributed to the wonderful music, poetry, literature, journalism and entertainment of California, the United States and the world; and

WHEREAS, Latinos in California have challenged the frontiers of social and economic justice, thereby improving the working conditions and lives of countless Californians; and

WHEREAS, Latino entrepreneurs in the United States are the fastest growing group of business owners in our economy; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature urges all Californians to join in celebrating Cinco de Mayo, the historic day to honor the valiant spirit of the brave Mexicanos who defended the town of Puebla against the French invaders, to honor the Mexican Americans of today who have fought, died, and lived to protect the freedom of the United States; and be it further

Resolved, That the Legislature declares April 29 through May 5, 2007, as Cinco de Mayo Week; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 43

Assembly Concurrent Resolution No. 47—Relative to National Multicultural Cancer Awareness Week.

[Filed with Secretary of State May 21, 2007.]

WHEREAS, National Multicultural Cancer Awareness Week has been observed across the country each year since 1987 to bring attention to the disparities of cancer among racial and ethnic populations; and

WHEREAS, The American Cancer Society is participating in National Multicultural Cancer Awareness Week to point out the disparities in cancer incidence and mortality, and to encourage public and private sector commitments to helping eliminate these disparities; and

WHEREAS, California is the most populous and ethnically diverse state in the country, and thus, in a position to provide leadership for the nation to address the reduction of the incidence of cancer among all races and genders; and

WHEREAS, In California, disparities exist in knowledge about cancer; access to early detection, high quality treatment, health care coverage, and health care; and in survival. Systemic inequities also exist, including differences in occupational hazards, environmental exposures to pollution and other toxins, access to education, nutrition, physical activity, safe neighborhoods, healthy foods, and other factors that contribute to cancer risk; and

WHEREAS, The risk of developing and dying from cancer varies considerably by race and ethnicity in California. The medically

underserved are often diagnosed at later stages, and with a higher incidence of cancers with higher mortality, like lung cancer, and are more likely to receive lower quality health care; and

WHEREAS, In California, African-American males have the highest overall cancer rate, while African-Americans generally have higher rates of stomach, liver, and multiple melanoma cancer, and are much more likely to have cancer of the prostate and larynx. Also, Asian Pacific Islanders and Latinos have substantially higher rates of certain cancers, including liver and stomach cancer, than other ethnic groups, and Asian Pacific Islander and Latino women are more likely to develop and die from cervical cancer than any other ethnic group. Further, lung cancer is rising among recently immigrated Cambodian and Vietnamese men, who also have among the highest smoking rates of all ethnic groups. Lastly, American Indian males also have high smoking rates and suffer from high lung cancer rates; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the week of April 15 to 21, 2007, inclusive, be declared “National Multicultural Cancer Awareness Week,” and that the private sector and the state and federal governments are encouraged to promote policies and programs that seek to reduce cancer disparities and as a result, improve cancer prevention, detection, treatment and followup care for all Californians; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 44

Assembly Concurrent Resolution No. 49—Relative to American Stroke Month 2007.

[Filed with Secretary of State May 21, 2007.]

WHEREAS, Stroke is the third leading cause of death in the United States, killing about 150,000 Americans each year; and

WHEREAS, Stroke is a leading cause of serious long-term disability with more than 1.1 million American adults experiencing functional limitations or difficulty with activities of daily living resulting from a stroke; and

WHEREAS, Americans are more aware of the risk factors and warning signs for stroke than in the past, but still less than one in five adults can correctly classify all stroke symptoms; and

WHEREAS, Warning signs of stroke include sudden numbness or weakness of the face, arm, or leg, especially on one side of the body; sudden confusion, trouble speaking or understanding; sudden trouble seeing in one or both eyes; sudden trouble walking, dizziness, loss of balance or coordination; and sudden severe headache with no known cause; and

WHEREAS, Stroke leads to the death of more than 16,000 citizens of California each year; and

WHEREAS, New and effective treatments have been developed to treat and minimize the severity and damaging effects of strokes, but much more research is needed; and

WHEREAS, The American Stroke Association's Power To End Stroke Campaign urges members of our communities to familiarize themselves with the warning signs, symptoms, and risk factors associated with stroke to reduce the devastating effects a stroke has on the entire community; and

WHEREAS, The themes for American Stroke Month 2007 are "Young People and Stroke" to educate the public and policymakers about the devastating effects of stroke in young people under 30 years of age, and "Igniting the Power" to end stroke in African-Americans, who are at particularly high risk of the disease, by empowering them to reduce their risk, recognize the warning signs, and respond quickly; now, therefore, be it

Resolved, by the Assembly of the State of California, the Senate thereof concurring, That the month of May 2007 shall be recognized as American Stroke Month in California in order to raise awareness of the effects of stroke; and be it further

Resolved, That the Legislature urges all California citizens to familiarize themselves with the warning signs, symptoms, and risk factors associated with stroke so that we might begin to reduce the devastating effects strokes have on our population; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 45

Assembly Joint Resolution No. 1—Relative to Charles R. Drew University of Medicine and Science.

[Filed with Secretary of State May 21, 2007.]

WHEREAS, In the early 1960s, many community leaders of the Watts-Willowbrook area within the County of Los Angeles were deeply concerned about the significant lack of transportation and medical services in an area serving over one million residents, and conducted meetings from 1963 to 1964 to determine the economic and social costs of not having adequate medical services and regional transportation within the area; and

WHEREAS, Community leaders repeatedly made presentations to government officials to stress the importance of addressing those needs in an urgent manner; and

WHEREAS, Due to the racial situation at the time, few efforts were made by the local, state, and federal government officials to address those immediate and critical concerns; and

WHEREAS, This governmental inaction contributed to the Watts Riots that occurred in the summer of 1965, killing 34 persons, injuring over 1,000, and causing extensive property damage; and

WHEREAS, In August 1965, Governor Edmund G. Brown established a commission, known as the McCone Commission, to investigate the reasons for the Watts Riots and to make specific recommendations; and

WHEREAS, The findings of the McCone Commission dramatically indicated the breakdown of government entities responsible for addressing the problems of the community and confirmed the needs of the community as previously identified by its leaders; and

WHEREAS, As a direct result of the McCone Commission recommendations, a postgraduate medical school was incorporated in 1966, and it immediately began to fulfill its mission of serving the community by training doctors and other health professionals committed to quality education and relevant research in the context of meaningful community service by providing health care with excellence and compassion to the underserved; and

WHEREAS, Over the years, this postgraduate medical school became the Charles R. Drew University of Medicine and Science (Drew University), and the school continues to actively fulfill its mission; and

WHEREAS, Because of the socioeconomic and political climate at the time of incorporation, Drew University was unable to meet certain dates as specified in the federal Higher Education Act of 1965 (P.L. 89-329, and amendments thereto) in order to acquire the status of a Historically Black College and University (HBCU) and later only became eligible for classification as a Historically Black Graduate Institution (HBGI); and

WHEREAS, Nevertheless, over the years, Drew University has demonstrated its full commitment to minority communities by implementing and expanding its high-quality medical programs without the benefit and advantages of those designations; and

WHEREAS, The time has come to remedy the adverse impact of these technical and arbitrary exclusions that limited Drew University's institutional potential by precluding it from becoming a full partner with its sister HBCU and HBGI institutions from around the nation; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature respectfully memorializes the Congress and President of the United States to enact legislation to allow the Charles R. Drew University of Medicine and Science to become a fully and legally designated HBCU and HBGI institution as those terms are defined in the federal Higher Education Act of 1965; and be it further

Resolved, That Drew University, as the only medical university west of the Mississippi River that is fully committed to HBCU and HBGI principles, should remain true to its mission, maintain all appropriate academic and medical accreditations, and serve as a model for its sister institutions that are committed to providing high-quality medical care to medically underserved communities; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 46

Assembly Concurrent Resolution No. 45—Relative to the 2007 State Scientist Day.

[Filed with Secretary of State May 29, 2007.]

WHEREAS, The state employs nearly 3,000 professional scientists working in over 30 state departments in 230 scientific classifications; and

WHEREAS, State scientists hold graduate degrees in virtually every scientific discipline, including biology, nematology, virology, seismology, epidemiology, toxicology, and several others; and

WHEREAS, State scientists are represented by the California Association of Professional Scientists (CAPS) which is dedicated to

professionalism, independence, responsible advocacy, and earning recognition for the important work of state scientists; and

WHEREAS, The work of state scientists protects the public from life-threatening diseases, safeguards our wildlife and abundant natural resources, and protects our air and water from toxic waste and pollution; and

WHEREAS, State scientists are required to make critical decisions every day based on rigorous scientific fact-finding and these decisions ultimately impact the lives and property of all Californians; and

WHEREAS, State scientists perform important work in the areas of infectious disease prevention, oil spill prevention and response, the monitoring of drinking water, the protection of crops, brownfield cleanups, chemical and radiological disaster response, and much more; and

WHEREAS, State scientists host an annual State Scientist Day at the State Capitol to increase public awareness and recognition of the significant contributions made by scientists working in state government while entertaining and educating over 2,000 elementary school students with fun, hands-on science exhibits, including digging for hidden artifacts, viewing live fish in a 1,500-gallon tank, and playing Pollution Prevention “Wheel of Fortune” and Coastal Creature “Jeopardy”; and

WHEREAS, State Scientist Day has sparked an interest in science for thousands of California school children, legislators, state employees, and the public who attend the special event; and

WHEREAS, The work of state scientists provides all Californians with hope for clean food, safe homes, clean air and water, and a healthy environment; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California hereby proclaims Wednesday, May 23, 2007, as the 19th Annual State Scientist Day, and that this day shall be a tribute to the dedication and professionalism of the state scientists who work on behalf of all Californians; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 47

Assembly Concurrent Resolution No. 50—Relative to Asian and Pacific Islander American Heritage Month.

[Filed with Secretary of State May 29, 2007.]

WHEREAS, The earliest Asian Americans immigrated to the United States in the 1800s; and

WHEREAS, Asian and Pacific Islander Americans have played a critical role in the social, economic, and political development of California throughout its history; and

WHEREAS, The 4.22 million Asian and Pacific Islander Americans in California are one of the fastest growing ethnic populations in the state; and

WHEREAS, Asian and Pacific Islander Americans represent over 14 percent of California's population and represent ancestries that include Burmese, Cambodian, Chinese, East Indian, Filipino, Guamanian, Hawaiian, Hmong, Indonesian, Iu-Mien, Japanese, Korean, Laotian, Singaporean, Thai, Tongan, and Vietnamese; and

WHEREAS, The California Commission on Asian and Pacific Islander American Affairs was established in 2004 and is charged with advising the Governor, the Legislature, and state agencies on issues relating to the social and economic development, rights, and interests of the Asian and Pacific Islander American communities; and

WHEREAS, Asian and Pacific Islander American entrepreneurs have led many of California's businesses to the pinnacle of their respective industries; and

WHEREAS, Asian and Pacific Islander American communities throughout California actively promote their cultural heritage and promote cross-cultural understanding; and

WHEREAS, Asian and Pacific Islander Americans will continue to be an important part of California's diverse tapestry of cultures and ideas; and

WHEREAS, Asian and Pacific Islander American immigrants have contributed greatly to California's economic success, rural growth, and urban development; and

WHEREAS, Asian and Pacific Islander American refugees have revitalized many of California's communities, while bringing in new ideas and economic opportunities; and

WHEREAS, Asian and Pacific Islander American immigrants and refugees had to overcome tremendous odds and cultural barriers to establish a better life for their families; and

WHEREAS, Asian and Pacific Islander Americans have a proud legacy of service and dedication to the state and to the United States; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature commends Asian and Pacific Islander Americans for their notable accomplishments and outstanding service

to the state, and recognizes the month of May 2007 as Asian and Pacific Islander American Heritage Month; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 48

Assembly Concurrent Resolution No. 52—Relative to National Missing Children’s Day.

[Filed with Secretary of State May 29, 2007.]

WHEREAS, According to the United States Department of Justice, in one year there were an estimated 800,000 children missing; and

WHEREAS, On average, there are an estimated average of 2,185 children reported missing to law enforcement agencies daily; and

WHEREAS, As many as 58,200 of these children are victims of nonfamily abductions and more than 200,000 are the victims of family abductions; and

WHEREAS, The National Center for Missing and Exploited Children exists as a resource to help prevent child abduction and sexual exploitation, help find missing children, and assist victims of child abduction and sexual exploitation, their families, and the professionals who serve them. Although the National Center for Missing and Exploited Children assists law enforcement in the recovery of 96 percent of domestically missing children, too many children remain among the missing; and

WHEREAS, National Missing Children’s Day is a time to remember those children who are missing and give hope to their families; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That, in partnership with the National Center for Missing and Exploited Children and its collaborative organizations, the Legislature proclaims May 25, 2007, as National Missing Children’s Day; and be it further

Resolved, That the Legislature urges the participation of local government, law enforcement, schools, community-based organizations, and families in the protection and education of all individuals about the threat of child abduction and sexual exploitation, appropriate protective measures, and ways to respond and seek help from law enforcement and social services; and be it further

Resolved, That the Legislature encourages all individuals to take 25 minutes to teach a child important, possibly lifesaving, safety tips; and be it further

Resolved, That May 25, 2007, is set aside as National Missing Children's Day as part of the State of California's continuing efforts to prevent the abduction and sexual exploitation of children; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 49

Senate Concurrent Resolution No. 36—Relative to California Community College Music Day.

[Filed with Secretary of State June 1, 2007.]

WHEREAS, On May 11, 2007, the Music Association of California Community Colleges (MACCC) will celebrate California Community College Music Day, and it is appropriate at this time to draw the attention of the public to this special event; and

WHEREAS, Established in the 1953–54 school year as the California Junior College Music Educators Association, the name was modified after the State of California changed the name of the established Junior College System to the California Community Colleges; and

WHEREAS, MACCC is committed to addressing the wide variety of issues unique to California community college music teachers, with its membership including some of the most active and successful community college music teachers in the state; and

WHEREAS, MACCC recognizes that the attainment of musical skill is a lifelong endeavor, that the maintenance of these skills requires continuous practice and participation in musical activities, and that the inclusion of experienced, skilled musicians enhances the quality of a performing ensemble; and

WHEREAS, The MACCC organization has expanded to feature contests for composition majors and to provide the setting for performances of its conference choir and bands with world-renowned conductors, and it remains committed to working on behalf of the dedicated faculty to meet the needs of the music students who live in their respective communities; and

WHEREAS, The teachers who comprise the membership of the Music Association of California Community Colleges provide nurturing,

academically motivated programs that build confidence, raise student self-esteem, and provide each student with a belief system that supports the philosophy that all students can learn, achieve, and make good choices; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California applauds the Music Association of California Community Colleges for the concern and commitment it has displayed for the education of its students, that May 11, 2007, be recognized as California Community College Music Day, and that each May 11 thereafter be recognized as California Community College Music Day; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 50

Senate Concurrent Resolution No. 42—Relative to Autism Awareness Month.

[Filed with Secretary of State June 1, 2007.]

WHEREAS, Autism spectrum disorders (ASDs) now impact one out of every 150 children in the United States and is the fastest growing serious developmental disability; and

WHEREAS, California has been the established leader in providing services and supports for the early identification, assessment, intervention, education, and treatment of individuals with ASDs that began with the passage of landmark state legislation such as the Lanterman Developmental Disabilities Services Act of 1969 and Assembly Bill 3854 (1974, Burton), relating to autism and public education; and

WHEREAS, Parents and family members have made invaluable contributions through their commitment, caring, and advocacy to important advances in research, education, and treatment for individuals with ASDs; and

WHEREAS, In 2005, Senator Perata authored Senate Concurrent Resolution 51 (Chapter 124, Stats. 2005) that established, with the support of Assembly Speaker Nunez and bipartisan backing, the Legislative Blue Ribbon Commission on Autism, which is comprised of, among others, Senator Darrell Steinberg as chair, and Dr. Barbara Firestone, President and CEO of The Help Group, as vice chair, to identify gaps in programs and services related to the education and

treatment of children, adolescents, transitional youth, and adults with ASDs, and to provide recommendations that will contribute to the development of a comprehensive and integrated continuum of programs, services, and funding; and

WHEREAS, In 2006, Assembly Member Pavley authored Assembly Bill 2513 (Chapter 783, Stats. 2006), which was sponsored and supported by the California School Boards Association, California Association of Suburban School Districts, and the Association of California School Administrators, directed the Superintendent of Public Education to establish the Superintendent's Autism Advisory Committee (SAAC), and required this multidisciplinary advisory group to develop recommendations by which public and nonpublic schools, including charter schools, can better serve pupils with autism and their parents; and

WHEREAS, The Budget Act of 2006 provided additional funding that expanded the ASDs initiative to include additional professional training and development, state and regional ASDs resource centers, expansion of ASDs support staff, and the development, publication, and dissemination of "ASD: Best Practice Guidelines for Treatment and Interventions"; and

WHEREAS, The State Department of Developmental Services, the regional centers for individuals with developmental disabilities, the State Department of Education and local school districts, the State Department of Health Care Services, and the Centers for Autism Developmental Disabilities Research and Epidemiology (CADDRE) Network are committed to improving the quality of life for individuals with ASDs; and

WHEREAS, The University of California, Davis M.I.N.D. Institute, launched in 1998 with inspiration from the parent community and funding from the California State Legislature, is now recognized internationally as a premier research institution that is advancing our knowledge of ASDs and other neurodevelopmental disorders; and

WHEREAS, First 5 California has made the issue of autism for children who are five years of age and younger an important priority, including the First 5 California Special Needs Project, which indicates that 19 percent of children suffer from developmental delays or disabilities that are frequently undetected by routine examinations during the first five years of life; and

WHEREAS, The Help Group, the Autism Society of America, Autism Speaks, Families for Early Autism Treatment (FEAT), Protection and Advocacy, Inc., and other nonprofit organizations contribute to the well-being of individuals with autism and their families; and

WHEREAS, Current scientific research has demonstrated that the early identification and intervention of children with ASDs can result in significant positive outcomes in many children with ASDs; and

WHEREAS, The University of California, Los Angeles is recognized as a Center of Excellence in autism by the National Institutes of Health and has made significant contributions to the field; and

WHEREAS, Public information and awareness efforts are of paramount importance in accelerating early identification efforts and the proliferation of early intervention programs and services; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature affirms its commitment to the important issues described in this resolution by declaring April 2007 as Autism Awareness Month in California and emphasizes that each and every individual with an ASD is a valued and important member of our society; and be it further

Resolved, That the Legislature recognizes and commends the parents and relatives of individuals with ASDs for their sacrifice and dedication in providing for the special needs of individuals with ASDs and for absorbing significant financial costs for specialized education and support services; and be it further

Resolved, That the Legislature supports the goal of increasing federal funding for basic and applied translational research to learn the root causes of autism and identify the best methods of early intervention and treatment, expand programs for individuals with autism across their lifespan, and promote understanding of the special needs of people with autism; and be it further

Resolved, That the Legislature continues to support the important work of the Legislative Blue Ribbon Commission on Autism, the Superintendent's Autism Advisory Committee, The Help Group, the University of California, Davis M.I.N.D. Institute, the First 5 California State and County Commission, Families for Early Autism Treatment (FEAT), Protection and Advocacy, Inc., the Autism Society of America, Autism Speaks, the State Department of Health Care Services, Center for Autism Developmental Disabilities Research and Epidemiology (CADDRE) Network, the California State Council on Developmental Disabilities, and others; and be it further

Resolved, That the Legislature stresses the need to identify children with ASDs and to begin early intervention services immediately after a child has been diagnosed with autism, and that those services, interventions, and supports for individuals with ASDs, and their families, must be provided in an integrated, seamless, comprehensive, individually

focused, and culturally competent manner that are delivered across the child's lifespan; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the State Department of Developmental Services, the State Department of Health Care Services, the Area Boards for Developmental Disabilities, the State Department of Education, the Association of Regional Center Agencies, the University of California, Davis M.I.N.D. Institute, the University of California, Los Angeles, the Legislative Blue Ribbon Commission on Autism, The Superintendent's Autism Advisory Committee, the California School Boards Association, the California Association of Suburban School Districts, the Association of California School Administrators, The Help Group, the local chapters of the Autism Society of America, Autism Speaks, the United States Department of Health and Human Services, the National Institutes of Health, the federal Centers for Disease Control and Prevention, the State Council on Developmental Disabilities, First 5 California State and County Commission, Families for Early Autism Treatment (FEAT), Protection and Advocacy, Inc., and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 51

Senate Concurrent Resolution No. 44—Relative to the Wakamatsu Tea and Silk Colony Day.

[Filed with Secretary of State June 1, 2007.]

WHEREAS, On May 20, 1869, the steamship China landed in San Francisco carrying the first group of settlers from Japan to the United States. These settlers fled a bloody civil war in Japan, and intended to establish a permanent agricultural colony in California; and

WHEREAS, This group from Aizu Wakamatsu, led by John Henry Schell, traveled upriver by boat to Sacramento and overland by wagon to establish the Wakamatsu Tea and Silk Farm Colony on 640 acres at Gold Hill, near the historic gold rush town of Coloma in El Dorado County; and

WHEREAS, The colonists brought thousands of mulberry trees for silk farming, tea plants, bamboo roots, and many other Japanese agricultural products. They prospered at first, and participated in the 1870 San Francisco Horticultural Fair, displaying tea plants and plant oils; and

WHEREAS, In the early 1870s, however, the colony suffered numerous setbacks. The drought of 1871–72 exacerbated the water shortage and financial help from Japan never arrived; and

WHEREAS, The remaining colonists sold off most of their belongings in order to survive. Some were able to return to Japan, and others moved elsewhere to find more gainful employment; and

WHEREAS, Matsunosuke Sakurai, Kuninosuke Masumizu, and Okei Ito remained behind at the colony site. They were befriended and employed by the Francis Veerkamp family; and

WHEREAS, Matsunosuke Sakurai stayed with the Veerkamps until his death on February 25, 1901, and is believed to be buried at the Vineyard Cemetery at Coloma, the historical site of Marshall’s gold discovery a few miles from Gold Hill; and

WHEREAS, Okei, the Schnell’s nursemaid, died in the spring of 1871, and was buried on the knoll of the hill which she reputedly liked to climb to watch the sunset and look towards her homeland. A marble headstone now marks her grave, inscribed in both English and Japanese, “In memory of Okei, Died 1871, Age 19 Years, A Japanese Girl”; and

WHEREAS, In the ensuing years, the Wakamatsu Colony was lost and forgotten until after World War I, when a search was undertaken by several Japanese Americans from the Sacramento and Placer County areas; and

WHEREAS, These historians first interviewed 75-year old Henry Veerkamp, the son of the pioneer family that befriended the Japanese colonists. Mr. Veerkamp shared many memories of the Wakamatsu Colony, and was able to disclose the location of the original colony and Okei’s grave; and

WHEREAS, The State of California designated 1969 as the centennial year of Japanese immigration to the United States; and

WHEREAS, On June 7, 1969, then-Governor Ronald Regan and Japan Consul General Seiichi Shima dedicated a state historical plaque designating the Wakamatsu Colony as California Registered Historical Landmark No. 815; and

WHEREAS, Efforts to preserve the site of the Wakamatsu Colony are currently underway, thanks to a partnership coordinated by the American River Conservancy, the Japanese American Citizens League, the Veerkamp family, and many others in the neighboring communities; and

WHEREAS, Preservation of the colony site will recognize the contributions of Japanese to the development of the agricultural industry of California, will acknowledge the historical achievements of the pioneer Veerkamp family, and will contribute to a better understanding of the

legacies of the Native Americans who originally inhabited the Gold Hill region; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the California Legislature recognize May 20, 2007, as Wakamatsu Tea and Silk Colony Day in the State of California; and be it further

Resolved, That the California Legislature encourages all Members of the Legislature to help educate Californians about the Wakamatsu Tea and Silk Colony's history in California; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 52

Assembly Joint Resolution No. 10—Relative to Family Day.

[Filed with Secretary of State June 5, 2007.]

WHEREAS, The use of illegal drugs and the abuse of alcohol and nicotine constitute the greatest threats to the well-being of America's children; and

WHEREAS, Surveys conducted by The National Center on Addiction and Substance Abuse (CASA) at Columbia University have consistently found that the more often children and teenagers eat dinner with their families the less likely they are to smoke, drink, and use illegal drugs; and

WHEREAS, Teenagers who virtually never eat dinner with their families are 72 percent more likely than the average teenager to use illegal drugs, alcohol, and cigarettes; and

WHEREAS, Teenagers who almost always eat dinner with their families are 31 percent less likely than the average teenager to use illegal drugs, alcohol, and cigarettes; and

WHEREAS, The correlation between family dinners and reduced risk for teen substance abuse are well documented; and

WHEREAS, Parental influence is known to be one of the most crucial factors in determining the likelihood of substance abuse by teenagers; and

WHEREAS, Family dinners have long constituted a substantial pillar of family life in America; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress to proclaim the fourth Monday

in September as Family Day—A Day to Eat Dinner With Your Children and urges all citizens to recognize and participate in its observance; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, each member of the California delegation to the Congress of the United States, the Secretary of State, and the Secretary General of the United Nations.

RESOLUTION CHAPTER 53

Assembly Concurrent Resolution No. 48—Relative to the Fort Tejon earthquake of 1857.

[Filed with Secretary of State June 8, 2007.]

WHEREAS, The Fort Tejon earthquake of January 9, 1857, was one of the greatest earthquakes ever recorded in the United States, and is the largest earthquake ever recorded in California history with a magnitude estimated between 7.9 and 8.0; and

WHEREAS, January 9, 2007, was the 150th anniversary of that historic and catastrophic event; and

WHEREAS, Strong shaking lasting from one to two minutes was felt from San Diego to Marysville, and as far east as Las Vegas, causing the surface of the earth to shift along the San Andreas Fault about 30 feet, leaving a visible scar on the surface of the earth that can still be traced to this day, extending from near Parkfield, to near San Bernardino, a distance of roughly 225 miles; and

WHEREAS, The Fort Tejon earthquake uprooted trees in the San Bernardino Mountains, caused the Kern River to flow backwards for a period of time, stranded fish far from the banks of the now vanished Tulare Lake, and sloshed water out of the Mokelumne and Los Angeles Rivers. It caused some artesian wells in the Santa Clara Valley to go dry and formed new springs near Santa Barbara and San Fernando; and

WHEREAS, Because of its unique geological and seismic character, California remains one of the most seismically active regions on earth with massive and potentially destructive fault systems such as the San Andreas Fault and the Hayward Fault capable of generating a major earthquake; and

WHEREAS, The 1989 Loma Prieta earthquake and the 1994 Northridge earthquake are vivid and sobering reminders of the ongoing and unpredictable risk that earthquakes continue to pose to the residents

and the vital infrastructure of California, including dams, levees, bridges, power facilities, and essential services buildings; and

WHEREAS, California still has more numerous, large scale, and poorly understood fault systems which require further research and monitoring for future preparation against earthquake devastation; and

WHEREAS, The majority of California's 36 million residents live and work in areas subject to earthquakes; and

WHEREAS, An increasing population will put more Californians at risk from earthquakes in the future; and

WHEREAS, Scientists are using the 150th anniversary of the 1857 Fort Tejon earthquake to better characterize the severe ground shaking caused by earthquakes and understand the impact on modern structures were another magnitude 7.9 earthquake to occur in a large urban population in Southern California today, and to inform people of the great risks involving earthquakes in California and the need to prepare for the next "Big One"; and

WHEREAS, Risk Management Solutions, Inc. estimates that an earthquake the magnitude of the 1857 Fort Tejon earthquake in the Southern California region could result in projected losses of up to \$100 billion in residential damage and \$50 billion in commercial damage. Additional estimates include up to 18,000 casualties, three quarters of a million displaced households, and disruptions to water supply, transportation, and local and state economies and services; and

WHEREAS, The Earthquake Country Alliance is a public-private partnership of leading earthquake professionals, emergency managers, government officials, business and community leaders whose aim it is to provide further research and inform the public on the effects of earthquakes. Those involved include the United States Geological Survey, the City of Los Angeles Emergency Preparedness Department, the Southern California Earthquake Center, USC, UCLA, CalTech, the County of Los Angeles, the California Geological Survey, FEMA, the Office of Emergency Services, and the California Earthquake Authority, among others; and

WHEREAS, The Earthquake Country Alliance has kicked off the yearlong educational "Dare to Prepare" campaign that will culminate in 2008 with what officials say will be the biggest earthquake disaster drill in United States history; and

WHEREAS, It is indisputable that California must assume an active role to protect its residents from the threat of destruction of future damaging earthquakes; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California intends to continue to study, plan, prepare, support, and fund future actions that

will strengthen the state's ability to withstand, and respond to, the next major earthquakes, which inevitably will occur, and that the Legislature hereby states its intent that the lessons learned from past earthquakes be applied to California's preparedness and emergency response efforts; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 54

Senate Concurrent Resolution No. 43—Relative to California Architecture Week.

[Filed with Secretary of State June 12, 2007.]

WHEREAS, Architecture influences the daily lives of all Californians through the definition and enhancement of the areas in which we work, play, and live; and

WHEREAS, As of 2007, more than 20,000 licensed architects practice in California and are entrusted by the state to protect the public health, safety, and welfare through their concern for, and understanding of, important issues such as seismic safety, growth management, accessibility for people with disabilities, historic preservation, energy conservation, housing for the homeless, and the sensitivity of the relationship between nature and built environments; and

WHEREAS, California architects have been recognized as forerunners of architectural design in the United States and have helped create California's unique visual character through innovative and responsive designs of public and private spaces; and

WHEREAS, Architects have worked with teachers to establish an education program in California's public schools to teach young people about the relationship between people and their built environments; and

WHEREAS, In 2007 the American Institute of Architects (AIA) celebrates 150 years of service to the profession and the nation by working with their communities to create a better future by design; and

WHEREAS, The AIA California Council, in representing architects and the architectural profession in California, has worked in concert with other organizations in the design and construction industry to endeavor to streamline the state government's regulations of their industries; and

WHEREAS, Architects at local AIA chapters have worked diligently to represent architects and the architectural profession and to serve the public interest on issues such as community disaster assistance, managing

growth, housing the homeless, and preserving the architectural heritage of our communities; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby proclaims the week of April 9, 2007, to April 15, 2007, inclusive, and the second week of April each subsequent year, as California Architecture Week, and urges all Californians to become aware of architecture, architectural design, and the architects who help to shape our built and natural environments and create our livable communities; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 55

Assembly Joint Resolution No. 13—Relative to food safety.

[Filed with Secretary of State June 13, 2007.]

WHEREAS, Leafy green vegetables have been found to play an important role in improving vision, as well as preventing cardiovascular disease, reducing blood pressure, cholesterol, cancer risks and gastrointestinal problems; and

WHEREAS, California is a major producer of the leafy green vegetables, with the Salinas Valley producing as much as 70 percent of all leafy green vegetables sold in the United States; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That additional funds are requested from the federal government to conduct research into the most effective practices to prevent E. coli O157:H7 contamination of leafy green vegetables, and that the funds be directed to the Western Institute for Food Safety and Security at the University of California, Davis; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States and to all Members of the Congress of the United States.

RESOLUTION CHAPTER 56

Assembly Concurrent Resolution No. 53—Relative to Make-A-Wish Day celebrating Destination Joy.

[Filed with Secretary of State June 20, 2007.]

WHEREAS, On June 5, 2007, the Make-a-Wish Foundation is launching a nationwide awareness campaign, known as Destination Joy, which is intended to help people realize that they have the power to grant a wish to a critically ill child; and

WHEREAS, The Destination Joy campaign urges all individuals and organizations in California to join the campaign and contribute their time, energy, and resource to the Make-A-Wish Foundation to ensure the success of the campaign, and make wishes come true for children in need; and

WHEREAS, In California alone, Make-A-Wish chapters were able to provide over 1,450 wishes to critically ill children in 2006, and, as part of a nationwide organization of 69 chapters throughout the United States, the Make-A-Wish Foundation has provided over 148,000 wishes to ill children since its inception in 1983, and currently provides over 12,600 wishes annually; and

WHEREAS, The Make-A-Wish Foundation grants the wishes of children with life threatening medical conditions to enrich the human experience with hope, strength, and joy; and

WHEREAS, The designation of Make-A-Wish Day Celebrating Destination Joy on June 5, 2007, will provide much needed awareness of the charitable works of the Make-A-Wish Foundation in granting wishes to critically ill children; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby declares that Tuesday, June 5, 2007, shall be designated as Make-A-Wish Day celebrating Destination Joy, and encourages the state's residents and organizations to recognize the many contributions of the Make-A-Wish Foundation in supporting the care and well-being of children with life-threatening illnesses; and be further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 57

Assembly Concurrent Resolution No. 54—Relative to Physical Education and Sport Week and Physical Fitness and Sport Month.

[Filed with Secretary of State June 20, 2007.]

WHEREAS, There is a growing concern regarding obese and overweight young people, these numbers have been doubled in the last 30 years due to physical inactivity, nutrition, and lack of quality daily physical education; and

WHEREAS, Seventy-three percent of our 5th, 7th, and 9th graders continue to fail to reach the minimum requirements of physical fitness that represents protection from several health concerns, including diabetes, high blood pressure, blood lipid profiles, and weight control; and

WHEREAS, There is a strong relationship between health-related physical fitness and academic achievement as shown by the State Department of Education study of standardized test scores in mathematics, reading, and the physical performance test of 2004; and

WHEREAS, Daily physical activity helps children improve their self-esteem and self-confidence, improve judgment, strengthen peer relationships, experience goal setting, develop behavior skills, and increase stress reduction; and

WHEREAS, A high-quality daily program of physical education instruction for all children in kindergarten and grades 1 to 12, inclusive, should be an essential part of a comprehensive education; and

WHEREAS, From virtually daily reports in the news media, we learn of some aspect of the health crisis resulting from obesity and physical inactivity that confronts a growing number of Americans; and

WHEREAS, Many diseases and disorders afflicting our population begin during childhood and are correctable; and

WHEREAS, It is expected that this will be the first generation to not outlive the previous generation; and

WHEREAS, The number of physical education programs for kindergarten and grades 1 to 6, inclusive, are being reduced each year due to budget cuts, while the cost of health care for youth increases every year due to an increase in inactivity; and

WHEREAS, Children who participate in high-quality daily physical education programs tend to be healthier, more physically fit, and demonstrate higher standardized test scores; and

WHEREAS, The Surgeon General, in Healthy People 2010, has recommended increasing the number of mandated physical education programs that focus on health-related physical fitness; and

WHEREAS, Structured physical activity has been shown to increase children's mental alertness, academic performance, readiness to learn, and enthusiasm for learning; and

WHEREAS, Quality physical education instruction helps improve the overall health of children by improving their cardiovascular endurance, muscular strength and endurance, and flexibility; influencing

weight regulation through proper nutrition and exercise; assisting proper bone development, including posture; aiding in skill development for ease and efficiency of moving; and encouraging active lifestyle habits, including the use of leisure time; and

WHEREAS, A standards based curriculum for physical education enhances the quality of instruction to carry out the aforementioned statements; and

WHEREAS, School districts and educational agencies should have certified physical education specialists; and

WHEREAS, Early intervention with physical activity is critical to help the battle against childhood obesity because unfit children tend to become unfit adults who have significantly increased risk factors for heart disease, stroke, and diabetes; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby does all of the following:

(1) Acknowledges the value of high-quality daily physical education programs for all youth.

(2) Encourages local governments to support, and local educational agencies to provide, high-quality daily physical education experiences for all California children in kindergarten and grades 1 to 12, inclusive.

(3) Proclaims May 1 through 7, 2007, as “Physical Education and Sport Week.”

(4) Proclaims May 2007 as “Physical Fitness and Sport Month”; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 58

Senate Concurrent Resolution No. 49—Relative to Make It In Scrubs Month.

[Filed with Secretary of State June 21, 2007.]

WHEREAS, The health care workforce shortage presents a growing crisis in California as the state’s population ages and increases. The state currently has shortages in nearly all categories of the health care workforce; and

WHEREAS, Of California’s 58 counties, 51 have at least one Health Professional Shortage Area (HPSA), which means a geographic area, a population group, or a health care facility that has been designated by

the federal government as having a shortage of health care professionals; and

WHEREAS, The Counties of Fresno, Humboldt, Imperial, Kern, Lassen, Los Angeles, Madera, Riverside, San Bernardino, San Diego, San Joaquin, and Ventura either have received a score indicating the highest level of need or have the greatest shortage of full-time equivalent, nonfederal primary medical care, dental care, and mental health care providers serving an area, a population group, or a health care facility; and

WHEREAS, A key indicator of the health care workforce shortage is the poor geographic distribution of health care professionals. Many urban neighborhoods, and most rural communities, experience major difficulty recruiting and retaining adequate numbers of health care professionals to meet local needs; and

WHEREAS, Latino, African-American, and Southeast Asian communities are among the fastest growing communities collectively but are underrepresented in the health care profession; and

WHEREAS, Studies by The California Wellness Foundation, the University of California, the Sullivan Commission, and the Institute of Medicine indicate that a health care workforce that more closely mirrors the demographics of the California population will bring greater access to health care services and improved quality of care for many Californians; and

WHEREAS, Public-private partnerships have been formed to assist students through the education pipeline with integrated approaches involving academic support, financial aid, and training opportunities; and

WHEREAS, According to the Campaign for College Opportunity, demand for health care workers is expected to grow at such a pace that, by 2022, the health care field will be the state's third hottest market for college-educated workers; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the need for a large-scale effort to promote health care careers to young Californians, paying particular attention to the career expectations and cultural and language competencies of California students; and be further

Resolved, That the Legislature proclaims the month of June 2007 as Make It In Scrubs Month in order to recognize both the importance of attracting, motivating, and training California's youth for rewarding careers in the health care profession and the need to expand health care education programs in the state's colleges and universities in order to reduce admission waiting lists, expand financial aid opportunities, and

encourage young people across all cultures to pursue careers in the health care profession; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 59

Assembly Concurrent Resolution No. 17—Relative to the Mary Augustine Bridge.

[Filed with Secretary of State June 22, 2007.]

WHEREAS, Mary Augustine is a long-time resident of Bonita, California, and an equestrian and trail advocate; and

WHEREAS, In 1969, Mary was a founding member of a new horse club in Bonita called Equestrian Trails, Inc. (E.T.I.), a national club with a southwestern base in Los Angeles whose purpose was to build a network of trails throughout the country; and

WHEREAS, The Bonita Club, E.T.I. Corral 89, concentrated its efforts in Bonita and worked in concert with other corrals throughout San Diego County; and

WHEREAS, From the early days of E.T.I. Corral 89, through the subsequent reorganization and creation of Bonita Valley Horsemen (BVH) in February 1975, through approximately 1989, Mary worked tirelessly on various trails projects in Bonita and San Diego County; and

WHEREAS, Under the guidance of Jim Miller, an attorney who worked pro bono for Bonita Valley Horsemen, Mary's talent for working with local and state politicians and agencies blossomed; and

WHEREAS, Mary was instrumental in getting the first large trail project in Bonita started and completed. It is the current trail around the Chula Vista Golf Course used by, among others, riders, bikers, and hikers; and

WHEREAS, During the critical years of the 1970s and 80s, Mary became a force to be reckoned with. She worked with state and local agencies and persuaded developers to give land easements for dedicated trails, or to preserve existing trails, through Bonita Downs, Bonita Woods Park, Bonita Ridge, and Ranchito Robinwood; and

WHEREAS, These trails were to eventually feed into other trails planned for Sweetwater Regional Park. At that point there were an estimated 1,300 horses in Bonita, and San Diego County had the largest per capita population of horses in the U.S.A.; and

WHEREAS, As time went on developers began to see the wisdom of calling Mary for advice regarding trails through their developments or rerouting existing trails. Bonita was a horse community; and

WHEREAS, As interest and success in local and county trails grew, horse camps at Cuyamaca Rancho State Park had come into being and the Anza-Borrego horse camp was on the horizon. Mary was one of the first volunteers on the Mounted Assistance Unit, designed to aid park rangers on search and rescue missions, patrol the areas of the park that the rangers could not get to easily, uphold park rules, interpret the park regulations, and many other duties; and

WHEREAS, One of the first countywide efforts to create trails that networked was started by the San Diego County Comprehensive Planning Organization. The plan included tri-use trails for horseback riding, hiking, and biking. Its purpose was to find solutions for the legal, insurance, and economic problems regarding trails. Mary was the trail coordinator for the local E.T.I. Corral 89. Mary and Shirley Wise, president of local E.T.I. Corral 89, and Jim Miller had meetings with local agencies and interested groups regarding the trails plan. Mary was also on the executive board for the Sweetwater Valley Civic Association. The riding and hiking trails plan was approved by the county supervisors in 1976; and

WHEREAS, In the late 1970s, Mary headed up the new Sweetwater Summit Park east towards Jamul and the trail was built with the aid of a Comprehensive Employment and Training Act grant in the amount of \$40,000; and

WHEREAS, This trail was dedicated July 17, 1980, and on that day Mary led the first trail ride on the new trail, which is still used today regularly by riders, bikers, and hikers; and

WHEREAS, A long-time member and vice president of San Diego County Trails Council and Bonita Valley Horsemen, Mary continued to lead the fight for trails with the help of Jim Miller, BVH members, and past president Shirley Wise into the late 1980s; and

WHEREAS, Mary and her husband Ken moved to the dream home they built in 1990 on the north side of Cuyamaca Lake, overlooking the lake, where they still reside; and

WHEREAS, It was not smooth sailing, or riding, for the trails system we now enjoy in Bonita and San Diego County. It took the tremendous efforts, time, dollars, and energy of Mary Augustine and her supporters to achieve these wonderful results; and

WHEREAS, Bonita Valley Horsemen are very thankful for Mary's years of dedication, hard work, and experience; and

WHEREAS, Mary's ultimate goal, which she fulfilled, was to ride from the Pacific Ocean to Cuyamaca State Park and beyond to the desert regions of Cleveland National Park; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby recognizes the contributions of Mary Augustine to the people of California and encourages San Diego County to post appropriate markers on county property designating the horse bridge that crosses State Highway Route 125 and is located in Bonita, west of the Summit Park Campground in San Diego County, as the Mary Augustine Bridge; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 60

Assembly Concurrent Resolution No. 60—Relative to Flag Day.

[Filed with Secretary of State June 25, 2007.]

WHEREAS, On June 14, 1777, the Continental Congress adopted a resolution specifying that the flag of the new nation carry 13 stripes and 13 stars, with the colors representing hardiness and valor (red), purity and innocence (white), and vigilance, perseverance, and justice (blue); and

WHEREAS, In 1885, B.J. Cigrand, a Fredonia, Wisconsin schoolteacher, arranged for the students in his school district to observe June 14 as “Flag Birthday” or “Flag Day,” and George Balch, a New York City kindergarten teacher, planned similar festivities for his school’s students in 1889; and

WHEREAS, In 1893, Philadelphia became the first city to celebrate Flag Day, and in the following year, New York was the first state to observe the day; and

WHEREAS, After decades of growing numbers of state and community observances, President Woodrow Wilson established Flag Day on May 30, 1916, and President Harry Truman signed an Act of Congress in 1949 designating June 14 of each year as National Flag Day; and

WHEREAS, The United States Flag Code, as adopted by Congress, states, “the flag represents a living country and is itself considered a living thing,” and this is why we should give the flag our full respect; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California recognizes June 14, 2007, as Flag Day in California and encourages the citizens of the state to celebrate the symbol of our freedom and remember the hard

work and sacrifices that so many made to ensure that freedom; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 61

Senate Concurrent Resolution No. 34—Relative to San Jose State University's 2007 sesquicentennial anniversary celebration.

[Filed with Secretary of State June 28, 2007.]

WHEREAS, The year 2007 commemorates the sesquicentennial year that San Jose State University was first established in 1857 as Minns' Evening Normal School to train teachers for the growing population of California; and

WHEREAS, The success of Minns' Evening Normal School in San Francisco led to the establishment of the California State Normal School by action of the Legislature on May 2, 1862, beginning a new era for education in the state and the first statewide teacher training program; and

WHEREAS, From its beginnings as the oldest public four-year institution of higher education in California, San Jose State University has matured into a comprehensive university, offering bachelors and masters degrees in 134 programs; and

WHEREAS, San Jose State University is the flagship school of the California State University system, which uses the 1857 founding date as part of its own heritage, as noted on its official seal; and

WHEREAS, California State University is the largest public system of higher learning in the United States and recognized for its long-term commitment to affordable, accessible, and quality education; and

WHEREAS, San Jose State University is the surrounding region's largest university and the third largest public sector employer with 30,000 students and 4,000 employees; and

WHEREAS, San Jose State University-related spending in the San Francisco Bay area is an estimated four hundred seventy-nine million dollars (\$479,000,000), generating a total impact of eight hundred twenty-nine million dollars (\$829,000,000) on the region's economy, sustaining 11,000 jobs and generating forty-eight million dollars (\$48,000,000) annually in tax revenue; and

WHEREAS, San Jose State University has contributed to the rich economic life and culture of California by providing up to 7,000 graduates to the workforce each year; and

WHEREAS, San Jose State University has a prized tradition of enriching the lives of its students by providing them with the knowledge and skills to serve society; and

WHEREAS, San Jose State University ranks in the top 35 among the 100 colleges and universities leading the nation in graduating Latino students and is a recognized leader in graduating minority students; and

WHEREAS, San Jose State University's faculty contribute to the quality of life in the state by their engagement in scholarship, research, technological innovation, community service, and the arts; and

WHEREAS, San Jose State University actively partners with educational institutions, industries, and communities to enhance the quality of education, research development, and community service in California; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature takes great pleasure in honoring San Jose State University for its 150 years of commitment to public higher education on this day, April 30, 2007; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President of San Jose State University and to the author for appropriate distribution.

RESOLUTION CHAPTER 62

Senate Concurrent Resolution No. 39—Relative to physical fitness.

[Filed with Secretary of State June 28, 2007.]

WHEREAS, The rate of type II diabetes doubled in the American adult population since 1990; and

WHEREAS, There are currently 45 million obese adults in the United States; and

WHEREAS, The United States Surgeon General recently spoke about the cultural transformation necessary to reverse the negative health effects of obesity and diabetes, and the threat to national security that obesity and diabetes pose for the country; and

WHEREAS, Decreasing obesity reduces medical costs with fewer doctors visits and lessens the need for medication and or hospitalization; and

WHEREAS, Millions of dollars are lost every year due to employee sickness from these diseases; and

WHEREAS, Many companies and public agencies and their employees have taken a lead by implementing workplace wellness programs; and

WHEREAS, The goal of these programs has been to improve the well-being of employees and to reduce costs through prevention measures by implementing best practices, saving tens of millions of dollars every year; and

WHEREAS, In 2000 according to a State Department of Health Services study, the estimated direct and indirect cost to taxpayers for inactivity, obesity, and overweight adults in California was \$21.68 billion; and

WHEREAS, In 2007, the estimated cost has risen to \$28 billion per year; and

WHEREAS, The American Heart Association has launched a campaign called "Start!" to encourage individuals and employers to create healthy lifestyles by providing opportunities for healthy eating and regular exercise; and

WHEREAS, Health care providers, insurance companies, fitness clubs, and others in the private sector have collaborated to promote fit living and health improvement activities during May of 2007; and

WHEREAS, The Legislature seeks to advance the physical fitness of all Californians by educating them about the benefits of exercise and a balanced diet; and

WHEREAS, In California, 2007 has been called the Year of Health and there is a great effort to provide more effective and expanded health care; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature will increase public awareness about the benefits of exercise and physical fitness by encouraging its members to host events in their districts that encourage physical fitness and increase participation by Californians in activities that promote physical and mental health and a nutritious and well-balanced diet; and be it further

Resolved, That the Legislature encourages its members, as well as organizations, businesses, and individuals, to sponsor workplace wellness programs that result in healthier workers, decreasing the incidence of sickness and reducing costs; and be it further

Resolved, That the Legislature hereby urges all Californians to enrich their lives through proper diet and exercise; and be it further

Resolved, That any health care reform or expansion include prevention as a key strategy; and be it further

Resolved, That the Legislature encourages businesses, public agencies, labor organizations, and employees to work together to implement wellness programs, prevention programs, and healthy choices in the workplace; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 63

Senate Joint Resolution No. 6—Relative to the “Don’t Ask, Don’t Tell” military policy.

[Filed with Secretary of State June 28, 2007.]

WHEREAS, Since the 1994 codification into law by the United States Congress, and by the signature of the President, the policy now known as “Don’t Ask, Don’t Tell, Don’t Pursue, Don’t Harass” (National Defense Authorization Act of 1994 (Public Law 103-160)), has led to the discharge of a great number of lesbian and gay service members, thus ending their careers and burdening them with a lifelong stigma; and

WHEREAS, The capacity of the Armed Forces of the United States to carry out its missions, like the Global War on Terror, is hindered when competent and qualified individuals are involuntarily discharged from those forces; and

WHEREAS, The Armed Forces of the United States have been forced to retain Reserve and National Guard service members on active duty past standard deployment lengths in order to carry out its missions during the Global War on Terror; and

WHEREAS, The ability of the Armed Forces to recruit and retain the best and brightest Americans is hindered by excluding a section of the population solely because of sexual orientation; and

WHEREAS, Transgender and transsexual service members are not specifically banned by “Don’t Ask, Don’t Tell,” which addresses only issues of sexual orientation, but are nonetheless harmed by “Don’t Ask, Don’t Tell,” because they are often harassed or accused of being gay or lesbian on the basis of nongender conforming behavior; and

WHEREAS, Lesbian and gay service members have served honorably throughout United States history and continue to serve with distinction on active duty in the Global War on Terror, including in Operation Enduring Freedom in Afghanistan and Operation Iraqi Freedom in Iraq; and

WHEREAS, These men and women have achieved military honors, decorations, and promotions to the highest ranks of their respective services for their valor and service to the people of the United States; and

WHEREAS, Twenty-four other nations, including Great Britain, Australia, Canada, and Israel, allow open service by gays and lesbians; and

WHEREAS, Nine of those nations allowing open service by gays and lesbians have fought alongside American troops in Operation Iraqi Freedom, and 12 of those nations allowing open service by gays and lesbians have fought alongside American troops in Operation Enduring Freedom; and

WHEREAS, The Department of Homeland Security, the Federal Bureau of Investigation, the Defense Intelligence Agency, the National Security Agency, the Central Intelligence Agency, the Secret Service, and other federal departments handling national security allow their lesbian, gay, bisexual, and transgender personnel to serve openly; and

WHEREAS, There are at least 65,000 gay and lesbian service members on active duty today and another 1,000,000 gay and lesbian veterans who have served our nation proudly; and

WHEREAS, More than 11,000 service members have been discharged under the “Don’t Ask, Don’t Tell” policy, including nearly 800 service members in “critical occupations,” such as counterintelligence experts and medical specialists; and

WHEREAS, According to a Government Accountability Office report, 323 language specialists have been discharged from the military under the “Don’t Ask, Don’t Tell” policy, including 55 Arabic and 9 Farsi translators, vitally important positions to intelligence gathering and in critical shortage; and

WHEREAS, American taxpayers have paid between \$250 million and \$1.2 billion to investigate, eliminate, and replace qualified and patriotic service members who want to serve their country but are dismissed because their sexual orientation violates the “Don’t Ask, Don’t Tell” policy; and

WHEREAS, Evidence from a study conducted by the Center for the Study Of Sexual Minorities in the Military suggests that the “Don’t Ask, Don’t Tell” policy increases gay troops’ stress levels, lowers their morale, impairs their ability to form trusting bonds with their peers, restricts their access to medical care, psychological services, and religious consultations, and limits their ability to advance professionally and their willingness to join and remain in the services; and

WHEREAS, Every Department of Defense authorized study has shown that there is no correlation between sexual orientation and unit cohesion in the Armed Forces; and

WHEREAS, Public opinion polls have found that the majority of American citizens support keeping trained and skilled openly gay and lesbian service members in the military and repealing “Don’t Ask, Don’t Tell”; and

WHEREAS, A 2006 study of the Michael D. Palm Center found that nearly three in four troops say they are personally comfortable in the presence of gays and lesbians; and

WHEREAS, The United States military’s readiness to protect and defend our nation is severely compromised because of the discriminatory “Don’t Ask, Don’t Tell” policy that is arbitrarily enforced by commanders whose personal beliefs may influence their disciplinary action; and

WHEREAS, Discharges under “Don’t Ask, Don’t Tell” are historically fewer when troop strength is low, as in times of war, which denotes the tacit recognition by the military that lesbian and gay service members are fit and capable of military service, thereby further illustrating the arbitrary enforcement of this policy; and

WHEREAS, United States military forces cannot afford to lose any troops who can do their jobs, as evidenced by recent callups of the Army Reserve and the President’s recent proposal to escalate the number of United States troops deployed in Iraq; and

WHEREAS, California has 26 military bases which are home to tens of thousands of military personnel and their families, and, according to a 2004 Urban Institute study, an estimated 137,000 gay and lesbian veterans live in California; and

WHEREAS, The Legislature and courts of the State of California have extended protections based on sexual orientation and gender identity that affirm the equality under the law of lesbian, gay, bisexual, and transgender citizens in order to prevent invidious discrimination; and

WHEREAS, In 2004 the California Legislature passed, and the Governor signed, legislation that protects nonfederally recognized personnel in the California State Militia from the threat of “Don’t Ask, Don’t Tell”; and

WHEREAS, In 2005 the California Senate resolved, and the Assembly thereof concurred, that the California Legislature respectfully urges the President and the United States Congress to adopt the Military Readiness Enhancement Act of 2005 (H.R. 1059) to end the discriminatory policy of “Don’t Ask, Don’t Tell”; and

WHEREAS, Military readiness is enhanced when every qualified, capable American, regardless of sexual orientation, is welcomed into

our Armed Forces and has their talents utilized in the best interest of our national security; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully urges the President and the Congress of the United States to adopt the Military Readiness Enhancement Act of 2007 (H.R. 1246), reintroduced in the 110th Congress of the United States on February 28, 2007, by a bipartisan group of 109 cosponsors, to end the discriminatory federal policy of “Don’t Ask, Don’t Tell”; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President of the United States, to each Senator and Representative in the Congress of the United States, and to the presiding officer of each house of each state legislature of the several states.

RESOLUTION CHAPTER 64

Assembly Concurrent Resolution No. 10—Relative to CDF Firefighter Chris Kanton Memorial Highway.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, California Department of Forestry and Fire Protection (CDF) Firefighter Chris Kanton, at 23 years of age, passed away in the line of duty on Saturday, August 6, 2005, in the County of Riverside; and

WHEREAS, Responding to storm-related accidents, CDF Firefighter Chris Kanton was traveling in a CDF fire engine on State Highway Route 10 east of State Highway Route 60 when the engine left the highway and traveled down a steep embankment, struck several trees, and came to rest on the roadway below; and

WHEREAS, CDF Firefighter Chris Kanton, after graduating from high school in 2000 in Paso Robles, California, attended and graduated from the Allan Hancock Fire Academy in Santa Maria, California; and

WHEREAS, CDF Firefighter Chris Kanton subsequently completed HAZMAT training and served on the HAZMAT team at Station 81 in Bermuda Dunes and other locations as a full-time firefighter; and

WHEREAS, CDF Firefighter Chris Kanton transferred to Station 58 in Moreno Valley, where he served as a Firefighter II; and

WHEREAS, CDF Firefighter Chris Kanton’s love and passion for firefighting was exemplified by the numerous certifications he achieved throughout his career; and

WHEREAS, CDF Firefighter Chris Kanton was a loving son, husband, and brother, and a friend to many; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature recognizes the contributions of CDF Firefighter Chris Kanton to the people of California and designates the portion of State Highway Route 10 from the Beaumont Avenue/State Highway Route 79 exit to the Sunset Avenue exit, in the County of Riverside, as the CDF Firefighter Chris Kanton Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 65

Assembly Concurrent Resolution No. 20—Relative to the Deputy Greg A. Gariepy Memorial Highway.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, Greg A. Gariepy was born on July 2, 1965, in the United States Army Hospital in Wurzburg, Germany, where his father was stationed with the Army; and

WHEREAS, Greg A. Gariepy was a man of high integrity and devotion, whose life of dedication and sacrifice began at a young age; and

WHEREAS, On August 29, 1983, Greg A. Gariepy joined the Marine Corps, embarking on a 20-year career that included such assignments as drill instructor, sniper, and antiterrorism expert, and during which he attained the rank of E7, Gunnery Sergeant, and was awarded 24 medals, commendations, and ribbons; and

WHEREAS, Upon his retirement from the Marine Corps on September 30, 2003, Greg A. Gariepy chose to serve his community by joining the San Bernardino County Sheriff's Department, and he graduated from the academy with class No. 153 in December 2003; and

WHEREAS, During his career with the San Bernardino County Sheriff's Department, Greg A. Gariepy worked at the West Valley

Detention Center, the Morongo Basin Station, and, finally, the Twentynine Palms Station; and

WHEREAS, Greg A. Gariepy loved the outdoors, loved a good round of golf, and loved coaching softball — in coaching his girls' softball team he was tough, inspired teamwork, and gave the team members a shoulder to lean on and a laugh when needed; and

WHEREAS, Greg A. Gariepy had a passion for helping others and, on June 22, 2005, while on patrol and en route to assist a fellow deputy, he was involved in a fatal traffic accident in the town of Yucca Valley; and

WHEREAS, Greg A. Gariepy is survived by his wife, Mishelle, and his three children, Brett, Annette, and Brooke; and

WHEREAS, Greg A. Gariepy is remembered by his colleagues in the San Bernardino County Sheriff's Department as a "warrior" who led by example, who was not afraid to volunteer for the most difficult of duties, and who was a humble leader who understood that true leadership is characterized by action, not position; and

WHEREAS, It is appropriate that a portion of State Highway Route 247 be dedicated in honor of Deputy Greg A. Gariepy, a brave man who served our country and protected us and who was a selfless and self-sacrificing hero; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby dedicates that portion of State Highway Route 247 between State Highway Route 62 and the town limit of Yucca Valley, in the County of San Bernardino, in honor of Greg A. Gariepy by officially designating that route as the Deputy Greg A. Gariepy Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 66

Assembly Concurrent Resolution No. 25—Relative to the Norman Y. Mineta Highway.

WHEREAS, Norman Y. Mineta was born on November 12, 1931, in San Jose, California; and

WHEREAS, During World War II, Mr. Mineta and his family were among the 120,000 Americans of Japanese ancestry detained in internment camps; and

WHEREAS, In 1953, Mr. Mineta graduated from the University of California, Berkeley with a degree in Business Administration; and

WHEREAS, Thereafter, Mr. Mineta joined the United States Army and served as an intelligence officer in Korea and Japan; and

WHEREAS, From 1967 to 1971, Mr. Mineta served as a member of the San Jose City Council; and

WHEREAS, From 1971 to 1974, Mr. Mineta served as Mayor of San Jose, thereby becoming the first Asian-American mayor of a major United States city; and

WHEREAS, From 1975 to 1995, Mr. Mineta represented the Silicon Valley area as a Member of the United States House of Representatives; and

WHEREAS, During his career in Congress, Mr. Mineta's legislative and policy agenda was wide and varied, including major projects in the areas of economic development, science and technology policy, trade, transportation, the environment, intelligence, the budget, and civil rights; and

WHEREAS, As a Member of Congress, Mr. Mineta cofounded the Congressional Asian Pacific American Caucus and served as its first chair; and

WHEREAS, As a Member of Congress, Mr. Mineta also chaired the House Public Works and Transportation Committee from 1992 to 1994, chaired that committee's aviation subcommittee from 1981 to 1988, and chaired its Surface Transportation Subcommittee from 1989 to 1991; and

WHEREAS, As a Member of Congress, Mr. Mineta was also a key author of the landmark Intermodal Surface Transportation Efficiency Act of 1991, which shifted decisions concerning highway and mass transit planning to state and local governments and led to major upsurges in mass transit ridership and more environmentally friendly transportation projects; and

WHEREAS, As a Member of Congress, Mr. Mineta was also the driving force behind the passage of the Civil Liberties Act of 1988, which officially apologized for and redressed the injustices endured by Japanese Americans during World War II; and

WHEREAS, In 1995, The George Washington University awarded Mr. Mineta the Martin Luther King, Jr. Commemorative Medal for his contributions to the field of civil rights; and

WHEREAS, After leaving Congress, Mr. Mineta chaired the National Civil Aviation Review Commission, which in 1997 issued recommendations on reducing traffic congestion and the aviation accident rate, many of which were adopted by the Clinton administration; and

WHEREAS, In 2000, President Clinton appointed Mr. Mineta United States Secretary of Commerce, making Mr. Mineta the first Asian American to hold a post in the Presidential Cabinet; and

WHEREAS, In 2001, President George W. Bush appointed Mr. Mineta United States Secretary of Transportation, making Mr. Mineta the only Democrat to serve in George W. Bush's Cabinet and the first Cabinet member to switch directly from a Democratic to a Republican Cabinet; and

WHEREAS, During Mr. Mineta's first four years as Secretary of Transportation, the United States saw the lowest vehicle fatality rate ever recorded, the highest safety belt usage rate ever recorded, and the lowest rail fatality level ever recorded; and

WHEREAS, As Secretary of Transportation, Mr. Mineta oversaw the safest three-year period in aviation history and was instrumental in persuading every state in the country to set a maximum blood alcohol content level for automobile drivers at 0.08 percent, a level that has proved to be effective in preventing automobile crashes and improving automobile safety; and

WHEREAS, As Secretary of Transportation, Mr. Mineta also oversaw the United States Coast Guard's response to the terrorist attacks of September 11, 2001, including expanding the number and mission of Coast Guard Port Security Units and developing the Sea Marshal Program and Maritime Safety and Security Teams; and

WHEREAS, As Secretary of Transportation, Mr. Mineta also guided the creation of the Transportation Security Administration, an agency of more than 60,000 employees charged with protecting Americans as they travel across the United States; and

WHEREAS, In 2003, Mr. Mineta received the Panetta Institute's Jefferson-Lincoln Award for his bipartisan leadership in addressing the challenges faced by the United States and was selected by the Council of Excellence in Government to receive the Elliot L. Richardson Prize for Excellence and Integrity in Public Service; and

WHEREAS, On June 23, 2006, Mr. Mineta announced his resignation as United States Secretary of Transportation, effective July 7, 2006, making him the longest-serving Secretary of Transportation in the history of the Department of Transportation; and

WHEREAS, In recognition of Mr. Mineta's long career in public service and his contributions to the transportation field, it would be a

fitting tribute to designate State Highway Route 85 in Santa Clara County as the Norman Y. Mineta Highway; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates State Highway Route 85, except the segment between Prospect Road and Quito Road, in Santa Clara County as the “Norman Y. Mineta Highway”; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation, and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 67

Assembly Concurrent Resolution No. 26—Relative to Historic U.S. Highway Route 6.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, U.S. Highway Route 6 began in the 1920s as a short route between Provincetown, Massachusetts, and Brewster, New York; and

WHEREAS, Thereafter, U.S. Highway Route 6 was extended westward and, in 1926, ended in Denver, Colorado; and

WHEREAS, Around 1937, U.S. Highway Route 6 became a transcontinental highway when it was extended to Long Beach, California. The route thereby stretched a distance of 3,517 miles, making it the longest highway in the country; and

WHEREAS, U.S. Highway Route 6 has been called the Roosevelt Highway and is now officially named the Grand Army of the Republic Highway; and

WHEREAS, In 1964, California renumbered its state highway system and truncated U.S. Highway Route 6 at Bishop, California; and

WHEREAS, U.S. Highway Route 6 now stretches 3,249 miles and is recognized as the second longest highway in the country; and

WHEREAS, U.S. Highway Route 6, in addition to its importance in transportation, has outstanding natural, cultural, historic, and scenic qualities; and

WHEREAS, Over the years, U.S. Highway Route 6 has conveyed commerce and pleasure travelers whose needs were met by nearby cities and counties; and

WHEREAS, Though largely supplanted by other state highway routes, segments of the original U.S. Highway Route 6 remain, although many are no longer identified as such; and

WHEREAS, Former U.S. Highway Route 6 served as the main street of many California cities and towns along its length and, though no longer designated as former U.S. Highway Route 6, these segments represent both state and local historic significance; and

WHEREAS, Without formal designation, the history and contribution of these segments of U.S. Highway Route 6 to the development of the state would remain less known; and

WHEREAS, Recognition of these segments will foster the economic health and cultural preservation of small communities and towns located along the highway; and

WHEREAS, It is fitting that a means to designate these historic sections of former U.S. Highway Route 6 be established; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby recognizes the remaining segments of former U.S. Highway Route 6 for their historical significance and importance in the development of California; and be it further

Resolved, That the Department of Transportation is requested, upon application by an interested local agency or private entity, to identify any section of former U.S. Highway Route 6 that is still a publicly maintained highway and that is of interest to the applicant, and to designate that section of highway as Historic U.S. Highway Route 6; and be it further

Resolved, That the department is requested to determine the cost of appropriate highway markers or signs consistent with signing requirements for the state highway system showing the special Historic U.S. Highway Route 6 designation and, upon receiving donations from nonstate sources covering that cost, to erect those highway markers or signs on the portions of former U.S. Highway Route 6 that are part of the state highway system; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 68

Assembly Concurrent Resolution No. 27—Relative to Los Angeles County Deputy Sheriff Jerry Ortiz Memorial Highway.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, Of all the promises that America offers, none is more precious or elusive than the right to be free from crime and violence; and

WHEREAS, Californians are indebted every day to our peace officers, and we pay special tribute to their bravery and dedication and share in their pain when one of their members is killed in the line of duty; and

WHEREAS, The men and women of law enforcement have the unenviable task of guaranteeing the public's safety and it is as difficult and dangerous as it is important, as evidenced by the death, at the age of 35, of Deputy Jerry Ortiz of the Los Angeles County Sheriff's Department who was killed in the line of duty on June 24, 2005, in Hawaiian Gardens while conducting an investigation; and

WHEREAS, Deputy Ortiz faithfully served the residents of Los Angeles County as a Gang Enforcement Deputy; and

WHEREAS, Deputy Ortiz was a resident of Diamond Bar and served in the United States Army from 1988 to 1996; and

WHEREAS, Deputy Ortiz was a boxing fan and a member of the Los Angeles County Sheriff's Department Boxing Team; and

WHEREAS, It is appropriate to recognize the hazardous work, serious responsibility, and strong commitment that Deputy Ortiz willingly accepted during his 15 years as a law enforcement officer; and

WHEREAS, Deputy Ortiz is remembered as a passionate husband to his wife, Chela; a loving son to his parents, Luis and Rosa Ortiz; a caring father to his sons, Jeremy and Jacob; a thoughtful sibling to his sisters, Sylvia and Claudia, and brothers, Javier and Miguel; and a man who committed his life, religious beliefs, and his career to Los Angeles County and the safety of its residents; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature designates the segment of State Highway Route 60 between State Highway 605 and Rosemead Boulevard, in Los Angeles County, as Los Angeles County Deputy Sheriff Jerry Ortiz Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 69

Assembly Concurrent Resolution No. 30—Relative to the Elizabeth Jane Rosewarne Memorial Bridge.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, Elizabeth Jane Rosewarne was born to William and Elizabeth Sandow on July 12, 1866, in Eagle River, Michigan; and

WHEREAS, Elizabeth met Nicholas Rosewarne, who was born in England, in Nevada City, and they married in 1884; and

WHEREAS, Elizabeth and Nicholas moved to San Francisco, where Nicholas was a cable car conductor, and Elizabeth was a professional seamstress; and

WHEREAS, Elizabeth and Nicholas had three children, Edna, Ray, and Myrtle; and

WHEREAS, Due to Elizabeth's poor health, the doctor recommended she move from the foggy air of San Francisco to a warmer climate; and

WHEREAS, Nicholas traveled by boat to Usal and set out in search of land, selecting a 160-acre parcel bordering on the South Fork of the Eel River, across from Confusion Hill, which he purchased in May of 1896; and

WHEREAS, The following May, Elizabeth and the children boarded one of the vessels of the (Robert) Dollar Steamship Company, sailed to Usal, and from there, traveled by mule over a 10-mile backwoods trail to the homestead carrying essential belongings, including a child-size rocking chair that is still in the family today, strapped between two mules; and

WHEREAS, Elizabeth thrived in the new climate, taking the chores of a pioneer woman in stride and, while a petite woman, could work with a cross cut saw, fish the Eel River for salmon and trout, smoke salmon in the smokehouse, and pack a mule and haul wood on the family horse named Queen; and

WHEREAS, With Nicholas working on the Henry Neff Anderson's railroad between Andersonia (Piercy) and Usal during the week, Elizabeth traveled by horseback with both children strapped on the horse on the mountain trail to Usal, to pick up mail and supplies; and

WHEREAS, On one unforgettable trip to Usal, Elizabeth, carrying a sack of fresh meat, was followed closely by a shrieking panther, and although her horse spooked and jumped over a gate, she and the children managed to hold on tight and make it back safely to the homestead; and

WHEREAS, Elizabeth was an expert at baking her own bread, making her own butter and cream, and growing prized heirloom tomatoes that she traded to her neighbors, and in addition she canned over 400 jars of fruit during the summer from the Rosewarne homestead orchard; and

WHEREAS, Elizabeth was an expert seamstress and made all the clothes for her family and also loved to quilt, spending many evenings working on her latest quilt; and

WHEREAS, Elizabeth loved to fish and kept a daily count of her impressive catch, and her favorite fishing hole was in the eddy of the Eel River, which is the proposed bridge site for the northern span of the Eel River Bridge; and

WHEREAS, After a long day of chores, Elizabeth would hitch up the horse and take her daughter, Myrtle, to visit the neighbors, and in the evenings, the family would use a Parcheesi Board circle Elizabeth made on the back of her round oil cloth to play the game; and

WHEREAS, After Nicholas lost his vision in one eye from a logging accident and then in the other eye from glaucoma, Elizabeth cared for him until his death on May 3, 1922, at 69 years of age; and

WHEREAS, After Nicholas' death, Elizabeth moved across the Eel River to the north end of the Rosewarne Homestead, operating a Texaco Star gas station and a country store to support herself and her youngest daughter, Myrtle; and

WHEREAS, Elizabeth Jane Rosewarne died on January 7, 1949, and is buried in the family plot in Piercy Cemetery in Mendocino County, beside her son, Ray; and

WHEREAS, Elizabeth and Nicholas Rosewarne's homestead is the location for both the southern and northern spans of the Eel River Bridge; and

WHEREAS, The southern span of the Eel River Bridge will be named the Minney Lilley Memorial Bridge, and Minney Lilley and Elizabeth Rosewarne were friends, with Minney being mentioned in Elizabeth's diary and the teacher for Elizabeth's daughter, Myrtle, as well as several of Elizabeth's grandchildren and a greatgrandson; and

WHEREAS, The family of Elizabeth Jane Rosewarne feels it would be a fitting tribute to name both bridge spans after two pioneer women, inspiring women and young girls growing up, or traveling to and from the area, to know that pioneer women played a key role in the history of Mendocino County; and

WHEREAS, The Rosewarne Homestead has been sited in a report by the Department of Transportation as a historic archaeological site and is eligible for the National Register of Historic Places; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature recognizes the accomplishments and the extraordinary contributions of Elizabeth Jane Rosewarne to the history of California and hereby designates the northern span of the Eel River Bridge as the Elizabeth Jane Rosewarne Memorial Bridge; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 70

Assembly Concurrent Resolution No. 31—Relative to CHP Officer Ernest R. Felio.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, Ernest R. Felio was a Navy veteran and courageously served his country during the Korean War; and

WHEREAS, Ernest R. Felio joined the California Highway Patrol (CHP) and became an officer in 1962; and

WHEREAS, Officer Felio was happily married with four daughters. Officer Felio's passion was his family and equally important was his chosen career as a CHP officer; and

WHEREAS, Officer Felio was the recipient of the State of California's highest award, the Medal of Valor. Officer Felio was personally credited with saving the life of a man who was the victim of electrocution as a result of a traffic collision involving high voltage electrical transmission lines. Officer Felio disregarded his own personal safety and rescued the badly injured motorist by removing the motorist from his electrically charged motor vehicle; and

WHEREAS, Officer Felio's compassion for his fellow man was again demonstrated one evening while working his beat. Officer Felio observed

a woman with three girls standing next to a road in an isolated portion of Del Norte Canyon. Out of compassion and fear for the family's safety, after learning the family had been victims of abuse and abandonment, Officer Felio transported the family out of the elements and to his home until relatives could be summoned; and

WHEREAS, On the evening of September 7, 1980, Officer Felio's life tragically ended in horrific violence on the side of a cold dark highway in Del Norte County. Officer Felio was shot and killed during the course of a routine traffic stop after making contact with the motorist on Westbrook Lane west of State Highway Route 101; and

WHEREAS, This was a tragic and horrific ending to the life of a great man; and

WHEREAS, Officer Felio fulfilled the CHP's Code of Honor in that he laid down his life rather than swerve from the path of duty. Officer Felio's conduct was, at all times, above reproach and projected an exemplary image of one of the finest CHP officers this state has to offer; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates the portion of State Highway Route 101 in Del Norte County, between the E. M. Fine Memorial Bridge and the Oregon state line, as the CHP Officer Ernest R. Felio Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the costs of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing these special designation and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 71

Assembly Concurrent Resolution No. 39—Relative to Wick's Corner Interchange.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, Moses Wick was born in Ohio in 1822; and

WHEREAS, Moses Wick served in the Mexican War under the command of General Zachary Taylor, who eventually became President of the United States; and

WHEREAS, In 1852, Moses Wick moved to California with his wife Maria in a wagon train pulled by his team of oxen on a journey that took six months; and

WHEREAS, The land in the area of the current junction between State Highway Routes 70 and 149 was deeded in 1852 to Moses Wick as a reward for his military service; and

WHEREAS, On September 3, 1852, Moses Wick made a homestead of the 160 acre territory and began raising cattle as a pioneer cattle rancher. Through purchases and other land grants, he eventually owned about 800 acres adjacent to “Wick’s Corner”; and

WHEREAS, Moses Wick made a modest living as a butcher by selling and supplying beef to gold miners and merchants in the area; and

WHEREAS, He also used his faithful team of oxen to haul freight and cargo back and forth to the mines between Oroville and Sacramento; and

WHEREAS, Moses Wick died in 1888 at the age of 66 years and was survived by his second wife Roxie Ann, his son Charles, and daughter Ella Wick Crum; and

WHEREAS, Moses Wick’s cattle ranch was operated until his son Charles sold most of the ranch to Senator Thomas Rockhill in 1906 for \$25,000; and

WHEREAS, Moses Wick’s cattle ranch became a tavern and an early stagecoach stop for the Central Pacific Railroad. Although Wick’s historic home was demolished in 1947, this area continues to be known as “Wick’s Corner”; and

WHEREAS, The modern State Highway Route 70 was constructed in the 1960s when the former highway was submerged beneath the rising waters of Lake Oroville; and

WHEREAS, Mrs. Merle McAndrews, the great granddaughter of both Moses Wick and Senator Thomas Rockhill, still lives on the property in a portion of one of the original ranches that was built more than 70 years ago; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates the junction between State Highway Routes 70 and 149 near the City of Oroville, in the County of Butte, as the Wick’s Corner Interchange; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 72

Assembly Concurrent Resolution No. 41—Relative to the Officer James M. Goodman Memorial Highway.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, The role of peace officer is one of the highest vocations of public service and an individual who accepts a calling to serve in that role is worthy of the highest respect and honor that the community, the state, and the nation can provide; and

WHEREAS, On June 3, 2004, California Highway Patrol Officer James M. Goodman was killed in the line of duty. Officer Goodman was traveling west on his department motorcycle in the City of Redlands, attempting to overtake a vehicle he believed to be involved in a hit and run accident, when a van, traveling north on Nevada Street, entered the intersection from the south directly in the path of Officer Goodman. Officer Goodman was unable to avoid a collision and broadsided the van; and

WHEREAS, Officer Goodman thereafter succumbed to the injuries he received from the traffic collision; and

WHEREAS, Officer Goodman was born on September 11, 1955, in Martinez, California, was raised in the Bay Area, and graduated in 1973 from Pinole High School; and

WHEREAS, Officer Goodman honorably served in the United States Army for nearly eight years and dedicated four years to reserve duty, ultimately achieving the rank of sergeant; and

WHEREAS, Officer Goodman joined the California Highway Patrol on January 9, 1984. After successfully completing his training at the California Highway Patrol Academy, he reported to the Redwood City area on May 24, 1984; and

WHEREAS, On August 20, 1985, Officer Goodman was awarded a California Commission on Peace Officer Standards and Training Basic Certificate; and

WHEREAS, On April 1, 1987, Officer Goodman transferred to the San Jose area; on May 2, 1989, he was assigned to the Oakland area; on October 1, 1993, he was assigned to the Golden Gate Division; on June

26, 2000, he was assigned to the Oakland area; and on March 1, 2001, he was assigned to the San Bernardino area; and

WHEREAS, Over the years, Officer Goodman earned numerous certificates of achievement in the field of law enforcement; and

WHEREAS, While stationed in the Oakland area, Officer Goodman was the first officer to arrive on scene at the Cypress Freeway viaduct collapse after the Loma Prieta Earthquake occurred on October 17, 1989; and

WHEREAS, On the day of the earthquake, Officer Goodman helped to release a driver trapped under a collapsed portion of the Cypress Freeway viaduct by crawling through a small space only accessible by removing several pieces of his safety equipment. For three hours, while the viaduct continued to settle from aftershocks, he and his colleagues worked to free the driver. In honor of this heroic act, he and two other officers were awarded the Medal of Valor by Governor Pete Wilson; and

WHEREAS, On November 25, 1989, Officer Goodman received a Meritorious Award from the office of the Mayor of the City of Oakland for his valor, gallantry, and courage during the 1989 earthquake; and

WHEREAS, Officer Goodman made significant contributions to traffic safety and to the motoring public while serving at each assigned area; and

WHEREAS, Officer Goodman served for 20 years as a sworn peace officer for the California Highway Patrol and was known by his fellow officers for his outstanding dedication to the department and to the protection of the citizens of our state; and

WHEREAS, Officer Goodman is survived by his wife, Patti, his sons, Jacob and Joshua, his parents, Bill and Ruby, his brothers, Lee and Lynn, his sisters, Bonnie and Betty, and many nieces, nephews, and cousins; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates, in acknowledgment of the many years of dedicated service provided by CHP Officer Goodman to the citizens of California, the portion of State Highway Route 10 between mile markers 25.26 and 29.82 in San Bernardino County as the Officer James M. Goodman Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 73

Assembly Joint Resolution No. 14—Relative to customs duties.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, The goods movement and logistics industry in California employs one out of seven workers in the state, generating over \$200 billion annually for the state's economy and contributing more than \$16 billion a year in tax revenues to state and local governments; and

WHEREAS, California's agricultural, natural resources, and manufacturing industries exported more than \$110 billion worth of goods in 2004, making up 13.5 percent of our nation's total exports; and

WHEREAS, Foreign trade is increasing rapidly, with the number of containers shipped through California's ports expected to double over the next 15 years, and triple in the next 20 years; and

WHEREAS, This increased foreign trade creates a benefit for our state's workers and our state's economy, but also places a burden on California's ports, railways, highways, and airports; and

WHEREAS, The existing port security infrastructure is not capable of adequately monitoring the volume of cargo entering the United States today, with less than 40 percent of containers receiving radiation screening, and only 5 percent of containers physically inspected. Without further investment in port security infrastructure and technology, increasing trade will only increase our homeland security risks; and

WHEREAS, The United States Customs and Border Protection Agency is responsible for collecting duties and importation fees that are generated by foreign trade, a figure that reached \$24.7 billion in revenues for 2003, a number that is expected to rise to \$40 billion or more by 2015; and

WHEREAS, California single-handedly generates over 20 percent of these trade revenues; and

WHEREAS, Over 98 percent of the revenues derived from trade are deposited directly into the United States Treasury General Fund Accounts; and

WHEREAS, Less than 1 percent of these trade revenues are dedicated directly to the Customs and Border Protection Agency to deal with the impacts of trade on congestion, homeland security, and the environment; and

WHEREAS, California's Goods Movement Action Plan has identified \$47 billion worth of infrastructure needs to address mobility, environmental, and security concerns in this state throughout the state's four trade corridors: Los Angeles-Long Beach/Inland Empire, Bay Area, San Diego/Border, and Central Valley; and

WHEREAS, Other states with major trade centers are facing similar mobility, environmental, and security problems without sufficient revenues to mitigate these trade impacts, making this problem national in scope, and requiring a larger federal contribution to resolve these issues; and

WHEREAS, It is sound economic and environmental policy to invest trade revenues into trade infrastructure and mitigating trade impacts; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California memorializes the President and the Congress of the United States to enact legislation that will ensure that a substantial increment of new revenues derived from customs duties and importation fees be dedicated to mitigating the economic, mobility, security, and environmental impacts of trade in California and in other trade-affected states across the United States; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the United States House of Representatives, to the Majority Leader in the Senate, to each Senator and Representative from California in the Congress of the United States, and to the author for appropriate distribution.

RESOLUTION CHAPTER 74

Assembly Joint Resolution No. 17—Relative to accessible currency.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, Americans who are blind or have low vision are unable to differentiate between different denominations of United States currency; and

WHEREAS, For more than a decade people with visual impairments have been unsuccessfully attempting to persuade the United States Department of the Treasury to remedy this problem, even though Congress has supported the idea; and

WHEREAS, Approximately 180 nations have currency that, through a variety of means, including different sizes, dot systems, and lines built into the currency, enable persons who are blind or have low vision to differentiate between currency denominations; and

WHEREAS, In fact, the United States is the only major nation in the world where this problem still exists; and

WHEREAS, Not only can this lack of access lead to embarrassment for those with visual impairments, but of far greater import, it has led to instances where fraud has been committed against persons who are blind or have low vision; and

WHEREAS, Although machines are available that can identify currency, they are not affordable for most blind or visually impaired persons, are not always effective, and are not feasible for use in most situations in which these persons must use currency; and

WHEREAS, Experts in the field of security against counterfeit currency have acknowledged that many of the features that promote access for those who are blind or have low vision also further the goal of making counterfeiting more difficult; and

WHEREAS, Implementing changes in the system of currency as a part of the ongoing design modification process undertaken by the United States Department of the Treasury is an inexpensive means for the federal government to solve this problem; and

WHEREAS, In December 2006, in a case brought in federal district court by the American Council of the Blind, the court held that the failure on the part of the United States Department of the Treasury to make its currency accessible to those with visual impairments violated federal law, and that the department must begin to develop a remedy for this violation; and

WHEREAS, Editorials from all over the nation have hailed this decision; and

WHEREAS, The President of the United States, through the United States Department of the Treasury, has decided to appeal this decision; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature urges the United States Department of the Treasury to withdraw its appeal in this case and begin to design the most equitable method for all affected parties to make its currency accessible to persons who are blind or have low vision; and be it further

Resolved, That if the United States Department of the Treasury continues to pursue this appeal, the Congress and President of the United States enact legislation requiring the United States Department of the Treasury to make its currency accessible to persons who are blind or visually impaired; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of the resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the United States Department of the Treasury, and to the author for appropriate distribution.

RESOLUTION CHAPTER 75

Assembly Joint Resolution No. 19—Relative to the Healthy Families Program.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, The Legislature regards the health of our children to be of paramount importance to families in our state; and

WHEREAS, The Legislature regards poor child health as a threat to the educational achievement, and social and psychological well-being of the children in our state; and

WHEREAS, The Legislature considers protecting the health of our children to be essential to the well-being of our youngest citizens and the quality of life in our state; and

WHEREAS, The Legislature considers California's State Children's Health Insurance Program, the Healthy Families Program, to be an integral part of the arrangements for health benefits for children of our state; and

WHEREAS, The Legislature recognizes the value of the Healthy Families Program in preserving child wellness, preventing and treating childhood disease, improving health outcomes, and reducing overall health costs; and

WHEREAS, The Legislature considers the federal funding available for the Healthy Families Program to be indispensable to providing health benefits for children of modest means and finds that the success in increasing enrollment of eligible uninsured children across the country has caused expenditures of funds to exceed the annual federal allotment; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature urges the members of California's delegation to the United States Congress to ensure that the Congress timely reauthorizes the State Children's Health Insurance Program to assure adequate federal funding for the Healthy Families Program; and be it further

Resolved, That the Legislature urges the Governor to use his best efforts to work with the California Congressional delegation to ensure that the State Children's Health Insurance Program is reauthorized with adequate funding and in a timely manner; and be it further

Resolved, That the Legislature proclaims that all components of state government should work together with educators, health care providers, social workers, and parents to ensure that all available public and private assistance for providing health benefits to uninsured children in this state be used to the maximum extent possible; and be it further

Resolved, That the Legislature urges the Governor to use his best efforts to provide meaningful assistance to help identify and enroll children who qualify for Medi-Cal or the Healthy Families Program; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, to each Senator and Representative from California in the Congress of the United States, and to the author for appropriate distribution.

RESOLUTION CHAPTER 76

Senate Joint Resolution No. 5—Relative to benefits for Filipino Americans who fought in World War II.

[Filed with Secretary of State July 3, 2007.]

WHEREAS, On July 26, 1941, in anticipation of war with Japan, President Roosevelt issued an Executive Order calling over 200,000 Filipino soldiers to serve in the United States Armed Forces in the Far East (USAFFE); and

WHEREAS, Ten hours after Pearl Harbor was attacked, the United States military bases in the Phillipines were bombed, causing the war to spill onto the Filipino people; and

WHEREAS, On March 27, 1942, Congress passed Title 8 of the Second War Powers Act, which provided that noncitizens who served in active duty in the United States Armed Forces during World War II shall be granted United States citizenship, meaning that every USAFFE soldier had the right to equal treatment under the law; and

WHEREAS, On April 9, 1942, the United States retreated from the Philippines, leaving 75,000 USAFFE and regular soldiers to the Bataan Death March where close to 10,000 died along the drudge to P.O.W. camps; and

WHEREAS, Even after the American retreat, Filipinos continued to resist, gathering thousands more soldiers and forming guerilla units, who, in coordination with United States command, conducted operations, collected intelligence, and helped prepare for the American return; and

WHEREAS, On September 2, 1945, Japanese military command surrendered the Philippines back to American forces ending World War II on the islands, and Philippine nationals who served in the war began filing for naturalization at the United States Embassy in Manila; and

WHEREAS, Filipino men and women served courageously in the fight for freedom and democracy during World War II, under the leadership of General Douglas MacArthur; and

WHEREAS, After the war, the New Philippine Scouts were formed to help reestablish United States authority in the Pacific, causing thousands more Filipino soldiers to be called to serve the United States; and

WHEREAS, In November of 1945, adjudication of applications for naturalization of Filipino veterans were stopped, per order of the United States Department of State and the Commissioner of the Immigration and Naturalization Service; and

WHEREAS, In December of 1945, Congress passed legislation amending the immigration and naturalization law, setting a deadline of December 1946 for Filipino veterans applying for citizenship; and

WHEREAS, On February 18, 1946, Congress enacted the 1946 Rescission Act, which denied World War II Filipino veterans, including the USAFFE, the guerillas, and the New Philippine Scouts equal status as American veterans, which stripped them of equal recognition, compensation, and benefits; and

WHEREAS, In October of 1990, the 1990 Immigration Act was passed, granting United States citizenship to Filipino veterans, which allowed 24,000 Filipino World War II veterans, in their 70s and 80s to receive citizenship, but who were still denied equal status as American veterans; and

WHEREAS, California has long advocated for veterans, including continuation of the \$226 per month disability benefit provided by the California Veterans Cash Benefit Program; and

WHEREAS, The Filipino Veterans Equity Act of 2007 (H.R. No. 760, 110th Cong., 1st Sess., P. 1150 (2007); Sen. No. S. 57, 110th Cong., 1st Sess., p. S37, (2007)) would provide benefits for veterans, including healthcare, disability pensions, and burial expenses, which are much needed for many of the 24,000 surviving Filipino veterans and their families; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully

requests the President and Congress of the United States to enact the Filipino Veterans Equity Act of 2007; and be it further

Resolved, That the Secretary of Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 77

Senate Concurrent Resolution No. 30—Relative to American Diabetes Alert Day.

[Filed with Secretary of State July 5, 2007.]

WHEREAS, Twenty-one million Americans—including 2 million Californians—have diabetes, a serious disease that has no cure; and

WHEREAS, Diabetes is the fifth-leading cause of death by disease in the United States; and

WHEREAS, More than one-third of the people with diabetes, 6.2 million Americans, do not know that they have the disease; and

WHEREAS, Another 54 million Americans have prediabetes, a condition that puts them at the highest risk for developing type 2 diabetes; and

WHEREAS, People with undiagnosed diabetes may experience damage to the heart, eyes, kidneys, and limbs without producing any symptoms; and

WHEREAS, An increase in community awareness of risk factors and symptoms related to diabetes can improve the likelihood that people with diabetes will get the attention they need before suffering devastating complications; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature declares March 27, 2007, as American Diabetes Alert Day in California; and be it further

Resolved, That the Legislature encourages all Californians to help fight this disease and its life-threatening complications that include heart disease, stroke, blindness, kidney disease, and amputation by increasing awareness of the risk factors for diabetes, making healthy lifestyle choices, and by providing support to those suffering from diabetes; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 78

Senate Concurrent Resolution No. 45—Relative to California Indian Heritage Month.

[Filed with Secretary of State July 5, 2007.]

WHEREAS, President George W. Bush proclaimed November 2006 as National American Indian Heritage Month in recognition of American Indians and Alaskan Natives; and

WHEREAS, California is home to more Native American Indian tribes than any other state in the United States; as of the last census, over 330,000 American Indians were living in California, and their history forms an integral part of the state's history and needs to be told; and

WHEREAS, In recognition of the sovereignty of the California Indian nations to be self-governing, self-supporting, and self-reliant, Californians are working to protect and enhance tribal resources; and

WHEREAS, California Indians, through their rich cultural traditions and proud ancestry, have made vital contributions to the strength and diversity of our society; and

WHEREAS, Native American Indians have given much to the United States and to California and, in recognition of this fact, it is fitting that the honor is returned and Native American Indians are recognized for their rich history and commitment to the State of California; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature proclaims that the month of November 2007 be recognized as California Indian Heritage Month, encourages the observance of this event with activities that celebrate our uniqueness as Americans, and takes this opportunity to commend California Indian nations for their outstanding contributions to this great state; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 79

Senate Concurrent Resolution No. 46—Relative to California Anti-Bullying Week.

[Filed with Secretary of State July 5, 2007.]

WHEREAS, Bullying is a term that has no legal definition, but can be defined as repeated acts of physical or verbal assaults against another with the intent to torment, ridicule, harass, or harm; and

WHEREAS, The act of bullying in school interferes with the ability of a pupil to learn and prevents schools from instructing their pupils in a safe, nonthreatening environment; and

WHEREAS, The National Education Association states that during the past decade, bullying has become more dangerous and has occurred more frequently than in the past two decades; and

WHEREAS, Bullies, contrary to common belief, are confident, have high self-esteem, and make friends easily. Typically, they are aggressive, impulsive, and quick to anger. Bullies get into trouble often, are more likely to fight, drink, and smoke, and tend to commit more serious crimes as they get older; and

WHEREAS, Bullying is not always hitting, teasing, or name calling, but may also include acts that are damaging but harder to notice, such as excluding others on purpose, spreading rumors, or getting others to dislike another person; and

WHEREAS, According to the National Education Association, each day approximately 160,000 children do not attend school due to fear of attack, harassment, or peer intimidation; and

WHEREAS, Pupils who are bullied often experience extreme fear, anxiety, and physical symptoms, such as headaches and stomach aches, and may not be able to focus on their schoolwork; and

WHEREAS, Witnesses to bullying can be affected and may feel helpless, angry, and guilty, and may worry about becoming a target themselves. Additionally, children who are continually bullied can turn to violence; and

WHEREAS, With the increased usage of modern technology, such as e-mails, cell phones, text messages, and online networking Web sites, bullying has moved beyond the schoolyard; and

WHEREAS, It is imperative to recognize that bullying affects children of all ages, in all states, and in all nations; and

WHEREAS, Many states, such as Colorado, Connecticut, Indiana, Washington, and West Virginia, have taken the initiative to raise awareness and prevent this dangerous behavior; and

WHEREAS, The State Department of Education provides numerous resources for educators, parents, and community members to help recognize bullying behavior and approaches for dealing with it; and

WHEREAS, England has established an annual event during the month of November that concentrates on the effects of bullying and how to prevent it from happening; and

WHEREAS, The State of California hereby recognizes the efforts of teachers, parents, and members of our community to educate and raise awareness and to put a stop to this harmful behavior to ensure the safety of our children; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the California Legislature hereby designates the second week of the month of November 2007 as California Anti-Bullying Week; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Governor and the author for appropriate distribution.

RESOLUTION CHAPTER 80

Senate Concurrent Resolution No. 47—Relative to California Hispanic Heritage Month.

[Filed with Secretary of State July 5, 2007.]

WHEREAS, President Lyndon B. Johnson first proclaimed and designated the week that included September 15 and 16 in 1968 as National Hispanic Heritage Week, as a result of a Joint Resolution approved by Congress on September 17, 1968, in recognition of the contributions of Hispanic Americans to American culture and history; and

WHEREAS, The original weeklong commemoration was changed by Public Law No. 100-402, which took effect on January 1, 1989, to National Hispanic Heritage Month that is to include the 31-day period beginning September 15 and ending on October 15; and

WHEREAS, The objectives of National Hispanic Heritage Month are to create a greater awareness of the contributions of Hispanic Americans to American culture, to illustrate the diversity of the Hispanic American community, and to encourage a greater curiosity within young people about the rich history and cultural heritage of Hispanic Americans; and

WHEREAS, Hispanic influence is evident in American culture in, among other things, music, art, science, food, humanities, and business and trade; and

WHEREAS, Hispanic Americans from the time of the Revolutionary War to the War on Terrorism subsequent to September 11, 2001, have proudly served this country in the Armed Forces, and, during their course of service, 38 Hispanic Americans, including nine from California, have been awarded the Medal of Honor, the highest honor conferred for military bravery and heroism above and beyond the call of duty; and

WHEREAS, There are nearly 13 million Hispanic Americans in California; and

WHEREAS, Hispanic Americans have contributed to the development and success of California by playing major roles in building this state through agriculture, medicine, science, entertainment, business, education, civil rights, politics, and sports; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby proclaims September 15 to October 15, 2007, inclusive, as California Hispanic Heritage Month and encourages all Californians to observe this event in communities throughout the state; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 81

Senate Concurrent Resolution No. 48—Relative to Child Awareness Week.

[Filed with Secretary of State July 5, 2007.]

WHEREAS, Numerous individuals, children's organizations, and youth-serving organizations that work with children and youths on a daily basis provide invaluable services that serve to enrich and better the lives of children and youths; and

WHEREAS, By strengthening and supporting children's and youth-serving charities and other similar nongovernmental organizations, and by encouraging greater collaboration among these organizations, the lives of many more children may be improved and enriched; and

WHEREAS, Raising people's awareness of, and increasing the support for, charitable and nonprofit organizations in the state serving children and youth that provide access to health care, social services, education, the arts, sports, and other services will help to better the lives of children and youths; and

WHEREAS, September is a time when parents, families, teachers, school administrators, and others increase their focus on preparing

children and youths for the future as they begin a new school year and it is a time for the people of this state to highlight, and be mindful of, the needs of children and youths; and

WHEREAS, Children's charities, youth-serving organizations, and other nongovernmental organizations across California and the rest of the country should be recognized for the work they do to improve the lives and promote the well-being of children and youth in this state and country; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates the week of September 17, 2007, as Child Awareness Week to honor children's charities, youth-serving organizations, and other nongovernmental organizations that are committed to enriching and bettering the lives of children and youth in California and the rest of the county; and that public officials and citizens of California are encouraged to observe the week with appropriate activities and programs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 82

Senate Concurrent Resolution No. 54—Relative to 9-1-1 for Kids Safety Education Month.

[Filed with Secretary of State July 5, 2007.]

WHEREAS, Every year, about 200 million 9-1-1 calls are received at 9-1-1 emergency system centers across the United States; and

WHEREAS, Most calls to 9-1-1 emergency system centers are made by bystanders attempting to help someone in a crisis, often life-threatening, many of those calls are made by children as young as 4 or 5 years old; and

WHEREAS, The result of 9-1-1 calls from children may be measured in saved lives, underscoring the critical importance of training children early in life about the 9-1-1 emergency call number; and

WHEREAS, By educating children how to use 9-1-1 correctly, they can act quickly and confidently to obtain the necessary public safety or medical assistance they need to save lives and property, as well as teach their siblings, family members, friends, and neighbors; and

WHEREAS, The nonprofit organization "9-1-1 for Kids" is the official educational program for local, federal, and international public safety dispatch centers, agencies, and organizations, and is committed to the

sole purpose of teaching children how to save lives and property through the proper use of 9-1-1, the nation's universal emergency telephone number; and

WHEREAS, 9-1-1 for Kids has reached over five million children since its inception in 1994, helping to save thousands of lives and properties through its award-winning, student-tested, and teacher-approved 9-1-1 caller training classroom kit and educational support that teaches everyone when it is okay to call 9-1-1, how to dial 9-1-1, and what to say to the 9-1-1 dispatcher; and

WHEREAS, 9-1-1 for Kids has worked proactively to decrease the incidence of accidental and prank 9-1-1 calls, saving our government millions of dollars and helping to maintain the integrity of our 9-1-1 emergency network; and

WHEREAS, Since its inception, 9-1-1 for Kids has branched out to provide comprehensive teen and adult 9-1-1 caller training and disaster preparedness and response education, recognizing America's most compelling 9-1-1 youth heroes each year at 9-1-1 for Kids "Local 9-1-1 Heroes" ceremonies with regional and federal government officials; and

WHEREAS, The goal of the California 9-1-1 for Kids Safety Education Month is to provide all elementary students in California with emergency and disaster response education in their classrooms during this month, and to establish biannual safety educational events in every Head Start program and public elementary classroom in prekindergarten to grade 2, inclusive; and

WHEREAS, Through statewide and local public awareness campaigns, 9-1-1 for Kids, in collaboration with the California National Emergency Numbers Association (CalNENA), the Association of Public Safety Communications Officials (APCO West), 9-1-1 emergency system centers, law enforcement agencies, and fire departments, will train teachers, parents, school administrators, and other caregivers to conduct at least one activity aimed at educating elementary school children during California 9-1-1 for Kids Safety Education Month; and

WHEREAS, 9-1-1 for Kids is endorsed and supported by the Association of Public Safety Communications Officials (APCO International), the National Emergency Numbers Association (NENA), and the National Association of State 9-1-1 Administrators (NASNA); and

WHEREAS, 9-1-1 for Kids and the California 9-1-1 for Kids Safety Education Month are lead by their distinguished officers, International Ambassador Kathy Ireland; National Chairman Tim Brown, retired Oakland Raiders and the 1987 Heisman Trophy winner; Chairman Emeritus Howie Long, Fox National Football League Show and National Football League Hall of Fame inductee; Executive Director Elise Kim;

and International Spokespersons Jessica Simpson, recording artist and actress; and Patrick Long, race car driver; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates the month of June 2007 as “9-1-1 for Kids Safety Education Month” in the State of California, dedicated to 9-1-1 caller training and disaster and emergency preparedness and response education for California children, families, and residents; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 83

Senate Concurrent Resolution No. 4—Relative to the James E. Roberts Memorial Bridge.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, James E. “Jim” Roberts is deserving of special public commendation in recognition of his exemplary career with the Department of Transportation (Caltrans) as a structural engineer for a half-century; and

WHEREAS, Jim Roberts graduated with a bachelor of science degree in civil engineering and began his engineering career with Caltrans in the summer of 1953, but was deployed six weeks later to active duty in Korea as a commissioned second lieutenant in the Army, where he was involved in the rebuilding of damaged bridges after the war ended, and remained in the Army Reserves until he retired as a colonel in 1985 after 33 years of active and reserve duty; and

WHEREAS, Jim Roberts returned to Caltrans in the summer of 1955 to what was then the Bridge Department, Construction Branch, and began working on the Highway 101 Bypass in Cotati and eventually was moved to work on the “Grapevine” project in Bakersfield, where he began a four-year trek over the hill after work, to the University of Southern California (USC), returning home around midnight, to earn his Master of Science degree in Structural Engineering from USC in 1966; and

WHEREAS, Jim Roberts worked his way up through the ranks at Caltrans, until in 1981 he was promoted to Deputy of Engineering, and then became the project director representing Caltrans in working with the City and County of Sacramento and the Sacramento Regional Transit District to build the light rail project; and

WHEREAS, Jim Roberts, with the light rail project winding up in 1985, returned to Caltrans as the manager of bridge design, and on July 1, 1987, became the Division Chief of the Division of Structures, equivalent to Assistant State Highway Engineer; and

WHEREAS, Jim Roberts then became the Chief Bridge Engineer, and was instrumental in establishing seismic performance criteria following the Loma Prieta Earthquake of 1989; and

WHEREAS, Jim Roberts recognized the need for a better training program for young engineers and established the Bridge Design Academy, and was instrumental in creating opportunities for women to promote into higher positions in engineering; and

WHEREAS, Jim Roberts was active in over 17 professional organizations, including State President of the Professional Engineers in California Government in 1972; wrote over 50 papers and publications on bridges and other transportation issues; and was the recipient of over 20 professional awards during his career; and

WHEREAS, Jim Roberts retired in 2001 from Caltrans, and died on July 6, 2006; and

WHEREAS, It is appropriate to recognize Jim Roberts' many years of service to Caltrans and to the people of California by designating a bridge in his memory; now, therefore, be it

Resolved, by the Senate of the State of California, the Assembly thereof concurring, That the Tuolumne River Bridge on State Highway Route 120, in Tuolumne County, shall be designated as the James E. Roberts Memorial Bridge; and be it further

Resolved, That Caltrans is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation, and upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Director of Transportation and to the author of this resolution for appropriate distribution.

RESOLUTION CHAPTER 84

Senate Concurrent Resolution No. 10—Relative to the Officer Matthew J. Redding Memorial Interchange.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, Officer Matthew J. “Matt” Redding, a decorated officer, was killed in the line of duty by a drunk driver on October 9, 2005, on State Highway Route 65 near the interchange of Stanford Ranch Road and Galleria Boulevard while serving the community and protecting his fellow officers; and

WHEREAS, Matt Redding grew up in Rocklin, graduated from Del Oro High School, attended Sierra College, and had a strong desire to become a police officer; and

WHEREAS, Matt Redding was hired by the City of Rocklin as a police officer on December 10, 2001; and

WHEREAS, Matt Redding was a highly respected police officer who, in less than four years, was selected to serve on the Regional SWAT team and decorated for valor, life saving, and meritorious duty; and

WHEREAS, Matt Redding was known and loved by so many in the region and by those with whom he worked; and

WHEREAS, Matt Redding was a man committed to his family, his friends, his fellow officers, and the community of Rocklin; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature designates the interchange of Stanford Ranch Road and Galleria Boulevard at State Highway Route 65 as the Officer Matthew J. Redding Memorial Interchange; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 85

Senate Concurrent Resolution No. 11—Relative to the Correctional Officer Manuel A. Gonzalez, Jr. Memorial Highway.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, The state suffered a tragic loss on January 10, 2005, when, while working at the California Institution for Men in Chino, Correctional Officer Manuel A. Gonzalez, Jr. was stabbed to death by an inmate; and

WHEREAS, Officer Gonzalez was born on September 15, 1961, in Los Angeles, California, and grew up in Santa Fe Springs, California; and

WHEREAS, Officer Gonzalez graduated from Pioneer High School in 1979 and thereafter attended Rio Hondo College from 1980 to 1982; and

WHEREAS, After enlisting in the United States Army, Officer Gonzalez served in Germany and then in Fort Carson, Colorado, and was honorably discharged in 1986; and

WHEREAS, Hired by the Department of Corrections and Rehabilitation in 1988, Officer Gonzalez proudly served the department for 17 years, working at the state prison in Corcoran, California, until 1993, at the state prison in Lancaster, California, until 1996, and at the California Institution for Men in Chino, California, until his death in 2005; and

WHEREAS, Considered a consummate professional, Officer Gonzalez was a well-respected and reliable employee who went beyond his duties in order to assist other staff members and worked diligently to make prison facilities more safe; and

WHEREAS, A lover of sports, Officer Gonzalez enjoyed watching NASCAR, the Los Angeles Dodgers, and the University of Southern California basketball and football teams; and

WHEREAS, Officer Gonzalez is remembered by his friends and family as a loving son, brother, husband, and father; and

WHEREAS, Officer Gonzalez is survived by his parents Manuel and Bertha, his siblings David, Rosalina, and Dela, his children Mark, Steven, Roxanna, Jessica, Manuel, and Gustavo, his former wife Sylvia, his fiancée Tonia, and many beloved family members and friends; and

WHEREAS, Officer Gonzalez will be greatly missed by his family and by all who knew him, and will always be remembered for his professionalism and dedication to the Department of Corrections and Rehabilitation; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates the portion of State Highway Route 71 between State Highway Route 60 and Central Avenue in San Bernardino County as the Correctional Officer Manuel A. Gonzalez, Jr. Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 86

Senate Concurrent Resolution No. 16—Relative to the Gary Moon Memorial Interchange.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, Gary Moon served with utmost distinction as the Director of Freeway Construction for San Bernardino Associated Governments (SANBAG) between October 1990 and March 2003; and

WHEREAS, Mr. Moon earned the respect of the public, elected officials and colleagues for his problem solving abilities, willingness to listen and to take action, sensible and creative approaches to design and construction challenges, fair and kind treatment of staff and coworkers, quick wit and dry sense of humor; and

WHEREAS, During his tenure with the transportation planning agency, Mr. Moon was responsible for the construction of State Highway Route 210 in Upland, Rancho Cucamonga, and Fontana, as well as improvements to Interstate Highway Route 10 and State Highway Routes 60 and 71; and

WHEREAS, Also during his tenure, he was instrumental in leading project development for the widening of State Highway Route 215 (Interstate 215), improvements to congested freeway interchanges, the widening and extension of major streets and the separation of rail crossings from surface streets throughout the San Bernardino Valley; and

WHEREAS, Mr. Moon held a bachelor's degree from Claremont Men's College and both master's and doctorate degrees from Claremont Graduate School, was a former Navy Lieutenant, was a political science instructor at California State University, San Bernardino, and the University of Nevada, Las Vegas, and worked as a principal planner for the Southern California Association of Governments; and

WHEREAS, Upon his retirement in March 2003, Mr. Moon maintained his involvement with SANBAG as a part-time consultant and began an intensive fitness regimen with running and cessation of smoking, continued the management of the Marshall Canyon Equestrian Center in Claremont, and spent quality time with his wife, Kathy, and children, Nicholas and Amanda; and

WHEREAS, Too soon after his retirement, Mr. Moon was diagnosed with cancer and died after a short battle with the disease at the age of 59 in October 2005; and

WHEREAS, Mr. Moon's longstanding service and commitment to transportation in the Inland Empire makes it truly appropriate for the future interchange at State Highway Route 210 and Interstate 215 to be named in his honor; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the contributions of Gary Moon to the people of the State of California and designates the future interchange at State Highway Route 210 and Interstate 215 as the Gary Moon Memorial Interchange; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 87

Senate Concurrent Resolution No. 21—Relative to the James D. Schultz Memorial Freeway.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, California Highway Patrol (CHP) Officer James D. Schultz, a dedicated officer, was killed in the line of duty at the age of 46 years while conducting an abandoned vehicle check on westbound State Highway Route 8, commonly known as Interstate 8, between Gordon's Well Road and Brock Research Center Road in Imperial County; and

WHEREAS, Officer Schultz, while conducting his investigation, was struck by an errant, sleepy driver during the late evening of November 15, 1996, and died in the early morning hours on November 16 as a result of injuries sustained in the collision; and

WHEREAS, Officer Schultz, after graduating from Fredonia High School on June 23, 1968, in Fredonia, New York, enlisted in the United States Army on August 19, 1968; and

WHEREAS, Officer Schultz bravely served his country, including a one-year assignment in Vietnam; and

WHEREAS, Officer Schultz received an honorable discharge from the United States Army on August 18, 1971; and

WHEREAS, Officer Schultz began his career with CHP on January 31, 1972, and proudly served the State of California in the South Los Angeles, Oakland, El Centro, Garberville, Barstow, Bridgeport, and Winterhaven CHP areas; and

WHEREAS, Officer Schultz, at the time of his death, was survived by his wife, Teresa, and his son, Jeremiah; and

WHEREAS, Officer Schultz was known by his fellow officers for his dedication to CHP and to the protection of the people of California; and

WHEREAS, It is appropriate to dedicate a portion of State Highway Route 8 in Imperial County in Officer Schultz' memory because he made the ultimate sacrifice in his service to the people of California; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the portion of State Highway Route 8 between Gordon's Well Road and Brock Research Center Road in Imperial County be officially designated as the James D. Schultz Memorial Freeway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs for State Highway Route 8, consistent with the signage requirements for the state highway system, showing this special designation, and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 88

Senate Concurrent Resolution No. 22—Relative to the Stephanie Marie Frazier Memorial Highway.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, Stephanie Marie Frazier was born on October 12, 1980, and passed away on December 16, 2000, when she was just 20 years of age, from injuries sustained in an automobile accident on State Highway Route 50 near Ice House Road; and

WHEREAS, As a child, Stephanie attended Tabernacle Baptist School in Concord, California, until the eighth grade, and subsequently attended high school at Liberty Union High School in Brentwood, California, where she was on the volleyball team, basketball team, and swim team; and

WHEREAS, After graduating from high school in 1998, Stephanie attended Diablo Valley College in Pleasant Hill, California as a full-time student where she was on the student council and supported herself financially through her employment with Dennis Tierney and Associates; and

WHEREAS, Stephanie's dream was to attend the University of California at Davis, and she had been accepted to transfer there in the fall of 2001, to major in managerial economics; and

WHEREAS, Stephanie's life was taken on December 16, 2000, when another car crossed over the center divider on State Highway Route 50, just west of Ice House Road, and hit the car in which Stephanie and her sister, Lindsey, were riding; and

WHEREAS, The accident occurred during finals week, and for the first time in its history, Diablo Valley College awarded an honorary associate of arts degree in Stephanie's memory during its graduation ceremony; and

WHEREAS, Stephanie had a very outgoing personality and was not afraid of new situations; and

WHEREAS, Stephanie loved people, mentoring and helping others, and was an inspiration to many and loved by all; and

WHEREAS, After the accident, Stephanie's family worked diligently with the Department of Transportation to improve State Highway Route 50 where the accident occurred, analyzing 14 years of accident data, and hiring a highway traffic consultant who suggested specific improvements to make that portion of the highway safer; and

WHEREAS, In July 2006, the majority of those changes were completed, including restriping the dangerous section, doubling maintenance patrols, and this year, a special deicing agent will be placed on the road; and

WHEREAS, The Frazier family established a nonprofit foundation in Stephanie's memory, the Stephanie Marie Frazier Memorial Foundation, to provide meals to families whose children are hospitalized. Through their program, the Network of Care, which serves 31 hospitals in 12 counties throughout the state, they have helped over 10,000 families with the gifts of comfort, hope, and nourishment; and

WHEREAS, It is a proper and fitting tribute to Stephanie Marie Frazier that a segment of State Highway Route 50 be designated in her memory; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the segment of State Highway Route 50 commencing at post mile 38.5, which is west of Ice House Road outside of Pollock Pines, and terminating at post mile 40.5 in El Dorado County, be designated the Stephanie Marie Frazier Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author of this resolution for appropriate distribution.

RESOLUTION CHAPTER 89

Senate Concurrent Resolution No. 33—Relative to the Nello Irwin Greer Memorial Bridge.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, Nello Irwin Greer was born on March 9, 1922, in Phoenix, Arizona and, after briefly residing in Victorville, California, moved to St. Johns, Arizona where he spent his formative years; and

WHEREAS, Mr. Greer lived on the Greer Ranch in St. Johns, which resembled a setting from a Louis L'Amour story; and

WHEREAS, Mr. Greer fought during World War II, serving with General George S. Patton, Jr. at the Battle of the Bulge; and

WHEREAS, After returning from the war, Mr. Greer began his career with the Department of Transportation (Caltrans) in 1948, advancing to an engineering position and working on many state freeway projects in San Bernardino, California; and

WHEREAS, In 1960, Mr. Greer moved to District 11 in San Diego, California, where he lived until retiring from Caltrans in 1977, and some of his projects there include State Highway Route 163 from State Highway Route 8 north to the Geneese exit, the design of the first bridge on Friars Road with 13 lanes of traffic, as well as various other projects throughout the county; and

WHEREAS, The Pine Valley Project was by far the most incredible of Mr. Greer's projects; while Caltrans wanted the project's freeway to run through the town of Pine Valley, California, Mr. Greer moved the

project to the location where it currently exists, overcoming numerous obstacles to complete it; and

WHEREAS, One such obstacle was the design of a new bridge that was over 800 feet high, and Mr. Greer suggested its construction as a hollow bridge; and

WHEREAS, The construction of the bridge in the Pine Valley Project received many engineering awards, and the projected removals and quantities to finish the Pine Valley Project along with the tightest budget in Caltrans history, earned Mr. Greer many awards and recognition throughout the country; and

WHEREAS, After retiring, Mr. Greer worked for an engineering company that sent him all over the world designing and supervising the projects that he had designed, including the Glenwood Canyon Project (Interstate 70) in Glenwood, Colorado, that, was named the eighth man-made wonder of the world; and

WHEREAS, Mr. Greer was involved with many organizations during his career that include Toastmasters and the California State Employees Association, where he was involved on the state and local levels, and he also was an active member of the Church of Jesus Christ of Latter-day Saints; and

WHEREAS, Mr. Greer died on August 15, 2002, with his wife by his side; and

WHEREAS, His family includes his wife and two adopted sons, Charles Dunnington Greer and Scott Irwin Greer, and one adopted daughter, Leslie Leora Huch, and nine foster children; and

WHEREAS, In recognition of the distinguished life of Nello Irwin Greer and his extraordinary contributions to the transportation system of this state, it would be a fitting tribute to designate the bridge on State Highway Route 8 that crosses Pine Valley Creek as the Nello Irwin Greer Memorial Bridge; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates the bridge on State Highway Route 8 that crosses Pine Valley Creek as the Nello Irwin Greer Memorial Bridge; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs consistent with the signing requirements for the state highway system showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 90

Senate Concurrent Resolution No. 38—Relative to Los Angeles Police Officer Steven Gajda Memorial Highway.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, Steven Gajda was born on October 30, 1968, in Parkridge, Illinois; and

WHEREAS, Steven Gajda served as a helicopter crew member in the United States Army; and

WHEREAS, Steven Gajda entered the Los Angeles Police Academy on May 21, 1990, where he earned a reputation as a conscientious cadet; and

WHEREAS, After his appointment as an officer with the Los Angeles Police Department, Steven Gajda was assigned to the department's anti-gang unit, called the Community Resources Against Street Hoodlums (CRASH) unit, which operates in the most violent neighborhoods in Los Angeles; and

WHEREAS, Steven Gajda, while serving in the CRASH unit, was shot on December 31, 1997, when identified gang members wanted on murder charges were fleeing the scene of a New Year's Eve disturbance; and

WHEREAS, Steven Gajda died from these injuries the following day, January 1, 1998, his wife's birthday; and

WHEREAS, The men and women of law enforcement have the unenviable task of guaranteeing the public's safety, and it is as difficult and dangerous as it is important, as evidenced by the death of Steven Gajda who was killed in the line of duty; and

WHEREAS, Steven Gajda was known as an officer who was willing to accept responsibility and for his humor and artistic talents, drawing caricatures that showed life with the CRASH unit, and his spirit always brought support to his fellow officers; and

WHEREAS, Steven Gajda is survived by his wife, Belinda; his children, Brandon and Brittany; his father, Steve; his mother, Christine Hester; and his brothers, Mark, Scott, and Brian; and

WHEREAS, It would be a fitting tribute to Steven Gajda to name a segment of State Highway Route 60 as the Los Angeles Police Officer Steven Gajda Memorial Highway; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates the segment of State Highway Route 60 between its interchange with State Highway Route 10 at post-mile .118 and the Indiana Street overpass at post-mile 1.94 in the City of Los Angeles as the Los Angeles Police Officer Steven Gajda Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of erecting appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 91

Senate Concurrent Resolution No. 41—Relative to the Nels Dan Niemi Memorial Highway.

[Filed with Secretary of State July 10, 2007.]

WHEREAS, Officer Nels Daniel (Dan) Niemi was born on October 2, 1962, and was an officer with the San Leandro Police Department; and

WHEREAS, On July 25, 2005, Officer Niemi was working an overtime shift and was dispatched to a disturbance call at the 14600 block of Doolittle Drive in San Leandro. The caller said there were juveniles loitering and creating a disturbance in that area; and

WHEREAS, Officer Niemi arrived by himself and approached a group of male individuals. As he started talking to them and getting their identification, one of the subjects, without warning or provocation, pulled out a semiautomatic handgun and pointed it at Officer Niemi's face. The suspect shot and killed Officer Niemi; and

WHEREAS, An extensive manhunt was conducted and the alleged shooter was captured the next day; and

WHEREAS, The alleged shooter is now on trial where opening arguments are set for April 23rd; and

WHEREAS, Officer Niemi is survived by his wife, Dionne, his daughter, Jordan Gabrielle, who was six years of age at the time of her father's death, and his stepson Josh Hewitt, who was thirteen years of age at the time of his stepfather's death; and

WHEREAS, It is appropriate to recognize the contributions of Officer Niemi to the people of California; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates the portion of State Highway Route 880 between Washington Avenue and Marina Boulevard, in the City of San Leandro, as the Nels Dan Niemi Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 92

Senate Concurrent Resolution No. 14—Relative to the Officer John Palacios Memorial Highway.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, Officer John Palacios was born on October 1, 1954, in Donna, Texas; and

WHEREAS, Officer John Palacios faithfully served the residents of the City of Huron in Fresno County as an officer of the Huron Police Department; and

WHEREAS, Officer John Palacios died in the line of duty at 21 years of age on June 13, 1976, when he was assisting the California Highway Patrol with a traffic accident on State Highway Route 269 in Huron, California, and was struck and killed by a drunk driver; and

WHEREAS, Officer Palacios is survived by his wife, Gloria Luna Palacios, his daughter, Diana Palacios, and his parents, Ruben and Maxima Palacios; and

WHEREAS, It is appropriate to memorialize Officer John Palacios' service and sacrifice by dedicating a portion of State Highway Route 269 in his honor; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby dedicates the portion of State Highway Route 269 from State Highway Route 198 to the City of Five Points in Fresno County in memory of Officer John Palacios; and be it further

Resolved, That the described portion of State Highway Route 269 shall be designated as the Officer John Palacios Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of erecting appropriate signs, consistent with the signage requirements for the state highway system, showing that special designation and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 93

Senate Concurrent Resolution No. 15—Relative to the Nomlaki Highway.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, The people of the Nomlaki Indian Nation are the original native inhabitants of Tehama County and have lived in the region since time immemorial; and

WHEREAS, Historically, the Nomlaki greeted the Spanish explorers when they came into Tehama County with the Alferez Gabriel Moraga expedition in 1808; and

WHEREAS, The boundaries of the Nomlaki lands changed with the arrival of the Europeans, but once extended within the Sacramento River Valley, including most of present-day Tehama County; and

WHEREAS, The Nomlaki had a sophisticated social, political, and religious structure and were wise stewards of the land and natural resources; and

WHEREAS, The original trails through the Mendocino National Forest and connecting the valley and the mountains were cleared and used by the Nomlaki, some of which evolved into current highways in Tehama and Glenn Counties; and

WHEREAS, Of its original 25,000 acres, the Nomlaki tribal government now has jurisdiction over approximately 2,300 acres of

federal trust land concentrated in a reservation in Tehama County; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the portion of State Highway Route 5 between Gyle Road and Flores Avenue in Tehama County be officially designated as the Nomlaki Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing that special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and the author for appropriate distribution.

RESOLUTION CHAPTER 94

Senate Concurrent Resolution No. 20—Relative to the Ricardo A. Crocker Memorial Highway.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, On May 26, 2005, Santa Monica Police Officer Ricardo A. Crocker, a Major in the United States Marine Corps, was killed by a rocket propelled grenade explosion while conducting combat operations against enemy forces in Iraq; and

WHEREAS, Ricardo A. Crocker was assigned to Detachment D, Third Civil Affairs Group, attached to the Fifth Provisional Civil Affairs Group II MEF and had previously served in Operation Iraqi Freedom II with the Third Civil Affairs Group from February through September 2004, and was redeployed to Iraq with the Fifth Provisional Civil Affairs Group in February 2005; and

WHEREAS, At the time of his death, Ricardo A. Crocker, known as “Rick,” was 39 years of age and a 10-year veteran of the Santa Monica Police Department; and

WHEREAS, Ricardo A. Crocker held the rank of Captain in the United States Marine Corps when he was hired by the Santa Monica Police Department on July 21, 1995, subsequently being promoted to the rank of Major in the Marine Corps; and

WHEREAS, As an Officer for the Santa Monica Police Department, Ricardo A. Crocker served in uniform patrol and was a member of the Crime Impact Team and Special Entry Team, serving as the primary

emergency medical technician for the Special Entry Team, and was a rifle team member and rifle instructor; and

WHEREAS, While in his final assignment to the Police Activities League, Officer Crocker made an indelible impression on the youth of Santa Monica by teaching preparatory courses for the Scholastic Aptitude Test, leading the book club, and implementing hiking and camping programs that exposed these youth to his two passions: education and nature; and

WHEREAS, As a volunteer first aid and cardiopulmonary resuscitation (CPR) instructor with the American Red Cross of Santa Monica, Officer Crocker provided lifesaving instruction to hundreds of Santa Monica residents, and in recognition of his service and in honor of his memory, the American Red Cross of Santa Monica honors one individual annually with the "Rick Crocker Spirit of Volunteerism Award"; and

WHEREAS, Ricardo A. Crocker was an excellent officer and ambassador for the Santa Monica Police Department as well as an excellent protector of the community; and

WHEREAS, Ricardo A. Crocker was a consummate caring professional who represented the highest standards and traditions of law enforcement and the Santa Monica Police Department; and

WHEREAS, Ricardo A. Crocker was admired and loved and is sadly missed by everyone who knew him; and

WHEREAS, The death of Ricardo A. Crocker is a great loss to the entire community; and

WHEREAS, It is a fitting tribute to the memory of Ricardo A. Crocker and to the contributions and great sacrifice he made for our country, to designate the segment of State Highway Route 10 within the city limits of Santa Monica as the Ricardo A. Crocker Memorial Highway; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates the segment of State Highway Route 10 within the city limits of the City of Santa Monica as the Ricardo A. Crocker Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 95

Senate Concurrent Resolution No. 32—Relative to the Army Sergeant Brud Joseph Cronkrite Memorial Bridge.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, Brud Joseph Cronkrite was born on June 24, 1981, in El Cajon at El Cajon Valley Hospital; and

WHEREAS, Brud moved to Potrero, California, with his parents in December of 1994, at the age of 13, and fell in love with the family's 11-acre property, which he dreamed of someday inheriting and living on with his future family; and

WHEREAS, Brud hiked Potrero Peak with his younger brother Billy while living in Potrero; and

WHEREAS, Brud attended Mount Empire High School and was on the wrestling team, and on the day of his graduation virtually beamed with pride; and

WHEREAS, Brud joined the United States Army in March of 2001, attended boot camp and special training at Fort Knox, graduating with honors and receiving an excellent in marksmanship, and knew that he had found his calling in life; and

WHEREAS, Brud was stationed at Camp Casey in South Korea for one year, and was then assigned to the 1st Battalion, 37th Armor, 1st Armored Division, in Friedberg, Germany, and he served in Iraq for one year; and

WHEREAS, Brud's mother, whom he adored and called "Mama" despite the affectionate teasing of his fellow soldiers, wrote him a letter every week, without fail, which he would find waiting on his bunk when he returned from missions, letters with regard to which he stated "I can't tell in words what those letters mean to me," and, although he did not have much money, he called her whenever permitted; and

WHEREAS, During Brud's time serving abroad, Brud's family sent him treats that included, on one occasion, a huge box of Doritos and a yearly box of Girl Scout cookies; and

WHEREAS, In Christmas of 2003, Brud surprised his family with a visit home, which his family will cherish for the rest of their lives, during which he told them stories of how he lived in Iraq and the things that the soldiers craved from home; and

WHEREAS, Brud's division was scheduled to come home when their assignment in Iraq was extended by the President; and

WHEREAS, Brud died in Baghdad, Iraq, on May 14, 2004, three weeks after his stay had been extended, at the age of 22 years, from injuries that he sustained on May 13, 2004, in Karbala, when a

rocket-propelled grenade was fired into a building near him during a security patrol; and

WHEREAS, Brud was awarded the Bronze Star and the Purple Heart, and is buried at the Fort Rosecrans National Cemetery, where his marker is Section Q-1252A; and

WHEREAS, Brud leaves behind his mother and father, Wendy and William Cronkrite, his older sister Messina Hanson, his younger brother William (Billy) Cronkrite, his nephew Robert (Robby) Hanson, and an extended family that includes two grandfathers, two grandmothers, five aunts, one uncle, and many cousins; and

WHEREAS, Brud is featured on the Web site “Fallen Heroes” and numerous messages have been left for him and his family by his friends at home and abroad and by many fellow soldiers, who hail him as being selfless, dependable, and a “great tanker, an awesome soldier, and a close friend”; and

WHEREAS, Brud was the 775th American soldier killed in the Iraq War and he and his family made the ultimate sacrifice to keep all Americans safe; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby honors Army Sergeant Brud Joseph Cronkrite and designates the overpass on State Highway Route 8 at Buckman Springs Road in Pine Valley as the “Army Sergeant Brud Joseph Cronkrite Memorial Bridge”; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signage requirements for the state highway system, showing this special designation, and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 96

Senate Concurrent Resolution No. 37—Relative to the Lewis E. Platt Memorial Highway.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, Lewis E. Platt was president and chief executive officer of the Hewlett-Packard Company (HP) from 1992 to 1999, and served as chairman of the board of HP from 1993 to 1999, having been elected

to that position by the board to succeed David Packard upon his retirement in 1993; and

WHEREAS, Lewis E. Platt was born on April 11, 1941, in Johnson City, New York and received a bachelor's degree in mechanical engineering from Cornell University in Ithaca, New York; and

WHEREAS, Thereafter, Lewis E. Platt earned a master's degree in business administration from the Wharton School at the University of Pennsylvania in Philadelphia and received an honorary doctorate in engineering science from Santa Clara University; and

WHEREAS, Lewis E. Platt began his employment with HP in 1966, and held a variety of management posts in the company's medical products operations prior to becoming general manager of the Waltham Massachusetts Division in 1974, and, thereafter, served as general manager of HP's analytical group from 1980 to 1984, and was elected a vice president of HP in 1983, managing various aspects of HP's computer business from 1984 to 1988; and

WHEREAS, In 1987, Lewis E. Platt was appointed to the Advisory Committee on Trade Policy Negotiations by President Bill Clinton and served as chairman of one of its task forces, the World Trade Organization Task Force; and

WHEREAS, In 1996, Lewis E. Platt was elected cochair and a member of the board of directors of Joint Venture Silicon Valley and the Tech Network, formed in 1991, to strengthen the local economy and make the area a better place to live, and he was a member of The Business Council, also serving as a member of the California Business Roundtable from 1993 to 1995; and

WHEREAS, Lewis E. Platt always championed the philosophies that set HP apart, particularly its egalitarian work culture, the progressive attention to employees' needs, and a real commitment to the communities where HP is located; and

WHEREAS, Lewis E. Platt, while serving as the chief executive officer and chairman of the board of HP, one of the largest high-tech companies in the world, took the time to personally engage in a local transportation measure championed by the Silicon Valley Leadership Group to improve the quality of life and the economic health of Silicon Valley, specifically taking the following steps to promote that measure:

(1) Loaning out an HP employee funded by HP for six months to run the countywide campaign for the measure.

(2) Serving as fundraising chair for the campaign with Ron Gonzales, who was a supervisor for the County of Santa Clara at that time, serving as his vice chair.

(3) Personally raising nearly nine hundred thousand dollars (\$900,000) of the one million six hundred thousand dollars (\$1,600,000) required

to run a competitive campaign for the measure; and through his leadership, HP made a sizable financial contribution, as well as the in-kind contribution of the time and salary of the loaned HP employee. In addition, making fewer than 15 telephone calls, Lewis E. Platt raised the rest of the funds needed for the campaign.

(4) Motivating the rest of the fundraising committee through his personal leadership and engagement by chairing meetings of a communitywide committee of 45 diverse leaders. His leadership by example motivated that group to raise the entire one million six hundred thousand dollars (\$1,600,000) in less than 90 days; and

WHEREAS, The campaign resulted in the voters' approval of Measures A and B at the General Election held on November 5, 1996, with the additional one-half cent sales tax revenue, which terminated on April 1, 2006, funding 19 road and rail-transit improvements, all completed on time and within budget, just as Lewis E. Platt had promised during the campaign for these measures; and

WHEREAS, The distinguished life of Lewis E. Platt ended on September 8, 2005; now, therefore, be it

Resolved, by the Senate of the State of California, the Assembly thereof concurring, That in recognition of the numerous achievements and contributions of Lewis E. Platt, the Legislature designates the segment of State Highway Route 87 between State Highway Route 280 and the Julian Street/Santa Clara Street exit in the City of San Jose, the Lewis E. Platt Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 97

Senate Joint Resolution No. 3—Relative to the federal Secure Rural Schools and Community Self-Determination Act of 2000.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, From 1908 to 2000, counties in the United States received 25 percent of the revenues generated on national forest lands in lieu of

lost tax revenues that could have been generated had these lands remained in private hands; and

WHEREAS, In the 1990s, the volume and value of timber harvested on national forest lands was dramatically reduced, which lead Congress to enact the federal Secure Rural Schools and Community Self-Determination Act of 2000, which provided a six-year guarantee payment option that was independent of the revenue generated on the national forest lands; and

WHEREAS, The Secure Rural Schools and Community Self-Determination Act of 2000, as extended by the United States Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Public Law 110-28), will expire on September 30, 2007, which would create a lapse in funding to critical programs in schools and counties across the United States, including California, in the coming years; and

WHEREAS, Rural schools are dependent on federal revenue-sharing programs, including federal forest payments, for maintaining vital educational services and programs, and to ensure an equitable education for all students; and

WHEREAS, Many of California's county public works programs will be crippled without stable, predictable, long-term funding from the act, causing the local road network to suffer long-term degradation and putting communities at risk for public safety emergencies due to cuts in staffing and operational activities; and

WHEREAS, A number of efforts are being made in both the United States House of Representatives and the United States Senate to fully reauthorize the act through 2011, and the Legislature strongly supports these efforts; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully urges the 110th Congress to reauthorize and fund the federal Secure Rural Schools and Community Self-Determination Act of 2000 to provide a long-term, stable source of funding for schools and counties to maintain vital programs prior to September 30, 2007, to avoid any interruption in county services and school operations; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 98

Senate Joint Resolution No. 8—Relative to diabetes.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, Diabetes is a chronic, debilitating disease affecting every organ system; and

WHEREAS, Type 1 diabetes is an autoimmune disease in which a person's pancreas stops producing insulin, a hormone that enables people to get energy from food; and

WHEREAS, Type 1 diabetes is a nonpreventable and so far incurable chronic disease that is one of the most prevalent diseases affecting children; and

WHEREAS, Type 2 diabetes is a metabolic disorder in which a person's body still produces insulin but is unable to use it effectively; and

WHEREAS, Type 2 diabetes disproportionately affects the African-American, Latino, Native American, and Pacific Islander communities; and

WHEREAS, Diabetes affects nearly 21 million Americans and over two million Californians and is on the rise; and

WHEREAS, Diabetes is the most costly chronic disease, costing the California health care system over \$12 billion per year; and

WHEREAS, The complications from diabetes have devastating effects, such as kidney failure, blindness, nerve damage, amputation, heart attack, and stroke; and

WHEREAS, Diabetes is the seventh leading cause of death in California; and

WHEREAS, Caring for diabetic students in public schools has further complicated the lives of parents, students, and school staff alike; and

WHEREAS, Diabetes has significant indirect economic costs in lost production estimated over \$37 billion nationwide; and

WHEREAS, Researching a cure for type 1 diabetes will assist in curing type 2 diabetes and many other autoimmune diseases; and

WHEREAS, Finding a cure for diabetes will be far more cost effective than life-long treatment and will improve the quality of life and life expectancy of millions of Americans; and

WHEREAS, Funding for the federal Special Statutory Funding Program for Type 1 Diabetes Research, as mandated by Section 330B of the Public Health Service Act, ends with the 2008 fiscal year; and

WHEREAS, Funding for the Special Diabetes Program for Indians, as mandated by Section 330C of the Public Health Service Act, ends with the 2008 fiscal year; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California proclaims its intention to develop a state-funded program for diabetes research; and be it further

Resolved, That the Legislature of the State of California urges the President and Congress of the United States to renew the Special Statutory Funding Program for Type 1 Diabetes Research and the Special Diabetes Program for Indians; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 99

Assembly Concurrent Resolution No. 4—Relative to the Esperanza Firefighters Memorial Highway.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, On October 21, 2006, at 1:12 a.m., a wildfire known as the Esperanza Fire began at the Esperanza and San Gorgonio Wash in Riverside County and 40,200 acres burned; and

WHEREAS, Five heroic firefighters of Engine Company #57, Mark Loutzenhiser, Daniel Hoover-Najera, Jason McKay, Jess McLean, and Pablo Cerda, fought valorously to contain the fire while protecting lives and property; and

WHEREAS, While unselfishly serving their community with great honor and dedication, on October 26, 2006, these five firefighters were overrun by the flames of the Esperanza Fire; and

WHEREAS, The untimely death of these five firefighters in the pursuit of the highest ideals of public safety has brought immense sorrow and loss to the people of the local community and the state as well as the countless individuals whose lives they touched; and

WHEREAS, These brave firefighters leave behind families and friends with loving memories of their unselfish and heroic deeds; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates State Highway Route 243 as the “Esperanza Firefighters Memorial Highway” in memory of the firefighters of Engine Company #57 who lost their lives; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs for State Highway Route 243, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Legislature also proposes a memorial to be erected at one of the turnouts overlooking the valley below with a plaque honoring these five brave firefighters. This memorial is to be funded by private donations and organizations dedicated to honoring these true heroes; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 100

Assembly Concurrent Resolution No. 35—Relative to the California Law Revision Commission.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, The California Law Revision Commission is authorized to study topics set forth in the calendar contained in its report to the Governor and the Legislature that have been or are thereafter approved for study by concurrent resolution of the Legislature, and topics that have been referred to the commission for study by concurrent resolution of the Legislature or by statute; and

WHEREAS, The commission, in its annual report covering its activities for 2006 and 2007, recommends continued study of 21 topics, all of which the Legislature has previously authorized or directed the commission to study, and further recommends addition of one new topic to its calendar and removal of one previously authorized topic from its calendar; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California approves for continued study by the California Law Revision Commission the topics listed below, all of which the Legislature has previously authorized or directed the commission to study:

(1) Whether the law should be revised that relates to creditors' remedies, including, but not limited to, attachment, garnishment, execution, repossession of property (including the claim and delivery

statute, self-help repossession of property, and the Commercial Code provisions on repossession of property), confession of judgment procedures, default judgment procedures, enforcement of judgments, the right of redemption, procedures under private power of sale in a trust deed or mortgage, possessory and nonpossessory liens, insolvency, and related matters.

(2) Whether the California Probate Code should be revised, including, but not limited to, the issue of whether California should adopt, in whole or in part, the Uniform Probate Code, and related matters.

(3) Whether the law should be revised that relates to real and personal property, including, but not limited to, a marketable title act, covenants, servitudes, conditions, and restrictions on land use or relating to land, powers of termination, escheat of property and the disposition of unclaimed or abandoned property, eminent domain, quiet title actions, abandonment or vacation of public streets and highways, partition, rights and duties attendant on assignment, subletting, termination, or abandonment of a lease, and related matters.

(4) Whether the law should be revised that relates to family law, including, but not limited to, community property, the adjudication of child and family civil proceedings, child custody, adoption, guardianship, freedom from parental custody and control, and related matters, including other subjects covered by the Family Code.

(5) Whether the law relating to offers of compromise should be revised.

(6) Whether the law relating to discovery in civil cases should be revised.

(7) Whether the acts governing special assessments for public improvement should be simplified and unified.

(8) Whether the law relating to the rights and disabilities of minors and incompetent persons should be revised.

(9) Whether the Evidence Code should be revised.

(10) Whether the law relating to arbitration, mediation, and other alternative dispute resolution techniques should be revised.

(11) Whether there should be changes to administrative law.

(12) Whether the law relating to the payment and the shifting of attorney's fees between litigants should be revised.

(13) Whether the Uniform Unincorporated Nonprofit Association Act, or parts of that uniform act, and related provisions should be adopted in California.

(14) Recommendations to be reported pertaining to statutory changes that may be necessitated by court unification.

(15) Whether the law of contracts should be revised, including the law relating to the effect of electronic communications on the law

governing contract formation, the statute of frauds, the parol evidence rule, and related matters.

(16) Whether the law governing common interest housing developments should be revised to clarify the law, eliminate unnecessary or obsolete provisions, consolidate existing statutes in one place in the codes, establish a clear, consistent, and unified policy with regard to formation and management of these developments and transaction of real property interests located within them, and to determine to what extent they should be subject to regulation.

(17) Whether the statutes of limitation for legal malpractice actions should be revised to recognize equitable tolling or other adjustment for the circumstances of simultaneous litigation, and related matters.

(18) Whether the law governing disclosure of public records and the law governing protection of privacy in public records should be revised to better coordinate them, including consolidation and clarification of the scope of required disclosure and creation of a single set of disclosure procedures, to provide appropriate enforcement mechanisms, and to ensure that the law governing disclosure of public records adequately treats electronic information, and related matters.

(19) Whether the law governing criminal sentences for enhancements relating to weapons or injuries should be revised to simplify and clarify the law and eliminate unnecessary or obsolete provisions.

(20) Whether the Subdivision Map Act (Division 2 (commencing with Section 66410) of Title 7 of the Government Code) and the Mitigation Fee Act (Chapter 5 (commencing with Section 66000), Chapter 6 (commencing with Section 66010), Chapter 7 (commencing with Section 66012), Chapter 8 (commencing with Section 66016), and Chapter 9 (commencing with Section 66020) of Division 1 of Title 7 of the Government Code) should be revised to improve their organization, resolve inconsistencies, and clarify and rationalize provisions, and related matters.

(21) Whether the Uniform Statute and Rule Construction Act (1995) should be adopted in California in whole or part, and related matters; and be it further

Resolved, That the Legislature approves for study by the California Law Revision Commission the new topic listed below:

Whether the law governing the place of trial in a civil case should be revised; and be it further

Resolved, That the Legislature approves removal from the calendar of the California Law Revision Commission the topic listed below:

A comprehensive review of the Code of Civil Procedure and applicable case law in order to clarify the circumstances in which parties are entitled to oral argument, and related matters; and be it further

Resolved, That before commencing work on any project within the calendar of topics the Legislature has authorized or directed the commission to study, the commission shall submit a detailed description of the scope of work to the Chairs and Vice Chairs of the Committees on Judiciary of the Senate and Assembly, and if during the course of the project there is a major change to the scope of work, submit a description of the change; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the California Law Revision Commission; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 101

Assembly Concurrent Resolution No. 51—Relative to hate crimes.

[Filed with Secretary of State July 12, 2007.]

WHEREAS, Hate crimes are acts of terror meant to intimidate and cause fear in our communities to deter the free exercise of enjoyment of any rights or privileges secured by the United States and the California Constitutions, the laws of the United States, and the laws of the State of California; and

WHEREAS, The California Department of Justice reported 1,409 hate crimes in 2004, and 1,397 in 2005; and

WHEREAS, The United States Department of Justice's National Criminal Victimization Survey estimates that an annual average of 210,000 hate crime victimizations occurred nationally from July 2000 to December 2003; and

WHEREAS, The United States Department of Justice's National Criminal Victimization Survey reveals that 56 percent of hate crimes are not reported to the police; and

WHEREAS, The underreporting of hate crimes is the result of a variety of factors that include the victim's lack of knowledge about the criminal justice system, fear of retaliation, linguistic and cultural barriers, immigration status, and prior negative experience with governmental agencies; and

WHEREAS, California needs to remain vigilant in promoting tolerance to address growing white supremacist movements, such as the Aryan Nation and Aryan Brotherhood, in California that recruit our youth

through music, the Internet, and other media and information outlets; and

WHEREAS, The Anti-Defamation League reports that hate rock concerts are organized yearly in southern California by labels like White Heat Productions and Condemned Records which feature bands that encourage hate violence in their lyrics; and

WHEREAS, The Southern Poverty Law Center reports that the number of active hate crime organizations increased from 52 active hate organizations in 2005 to 63 active hate organizations in 2006; and

WHEREAS, The 36 million Californians make up one of the most diverse populations in the United States where 43.8 percent identify as White, 35.2 percent identify as Latino, 6.6 percent identify as Black, 11.1 percent identify as Asian, 0.7 percent identify as Native American, 0.3 percent identify as Native Hawaiian, 1.9 percent identify as multiethnic, 12.3 percent identify as people with disabilities, 50.5 percent identify as female and 26.8 percent identify as foreign-born Americans; and

WHEREAS, All Californians should condemn acts of violence and prejudice on the basis of race, ethnic background, national origin, religious belief, sex, age, disability, or sexual orientation; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the month of June 2007 is hereby designated as Hate Crimes Awareness Month to educate community members on the proper reporting of hate crimes and to increase awareness about diversity and tolerance to improve public safety; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 102

Senate Concurrent Resolution No. 3—Relative to The Wall Las Memorias Project AIDS monument.

[Filed with Secretary of State July 16, 2007.]

WHEREAS, In Los Angeles, unprotected sex with an HIV positive male is the most common method of infection with HIV; and

WHEREAS, In Los Angeles, more than 52,000 people are living with HIV or AIDS; and

WHEREAS, In Los Angeles, over half of the newborns with HIV are African-American and nearly half of the newborns with HIV are Latinos; and

WHEREAS, In Los Angeles, one out of five people with HIV does not know they are infected; and

WHEREAS, In the United States, AIDS kills more African-American and Latino men 25 to 44 years of age than any other disease; and

WHEREAS, In the United States, AIDS is the number one killer of African-American women 25 to 34 years of age; and

WHEREAS, In the United States, more Latina women 25 to 34 years of age die from AIDS than from diabetes, cancer, or heart disease; and

WHEREAS, In the United States, one of every four people infected this year with HIV is younger than 21 years of age; and

WHEREAS, In a recent study, three out of four young gay men with HIV did not know they were infected; and

WHEREAS, More Americans have died from AIDS than in World War I, World War II, and the Korean, Vietnam, and Persian Gulf Wars combined; and

WHEREAS, The Wall Las Memorias Project was selected to receive the Stoney Award for its significant contributions in raising awareness in the Latino community about the HIV/AIDS epidemic and its impact on countless families throughout the State of California; and

WHEREAS, The Wall Las Memorias Project was founded in 1993 with the mission of educating the Latino community about the HIV/AIDS epidemic and building an eternal monument to honor loved ones who have died from that disease; and

WHEREAS, The AIDS monument was envisioned by local community activist, Richard Zaldivar, who believed that a public symbol would create a focal point for discussion and healing among those impacted by the HIV/AIDS epidemic; and

WHEREAS, Over the past decade, The Wall Las Memorias Project has built support for the AIDS monument through innovative prevention programs, leadership training, and grassroots community organizing, which have led to a coalition of elected officials, community-based organizations, churches, schools, entertainers, union leaders, and community members; and

WHEREAS, The AIDS monument, designed by architect David Angelo and public artist Robin Brailsford, is located at Lincoln Park in the historic community of Lincoln Heights, northeast of downtown Los Angeles; and

WHEREAS, The AIDS monument is designed as a Quetzalcoatl serpent, an Aztec symbol for rebirth, and it consists of eight wall panels, six murals depicting life with AIDS in the Latino community and two

granite panels containing the names of individuals who have died from AIDS, and includes a serene park setting for personal meditation; and

WHEREAS, The Wall Las Memorias Project remains in the forefront of the battle to stop the spread of HIV/AIDS, and the AIDS monument has significantly helped raise awareness about the epidemic and remind the community that the need for education remains vital to the success of its future generations; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the contributions of The Wall Las Memorias Project to the people of California and requests the Department of Transportation to erect informational signs, consistent with the signing requirements for the state highway system and upon receiving donations from nonstate sources sufficient to cover the cost, on the southbound portion of State Highway Route 5 between exit 135 and 136 and the northbound portion of State Highway Route 5 between Plaza de la Raza and the Main Street sign, in the County of Los Angeles, directing motorists to The Wall Las Memorias Project AIDS monument; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 103

Senate Concurrent Resolution No. 59—Relative to Valley Fever Awareness Month.

[Filed with Secretary of State July 16, 2007.]

WHEREAS, Valley fever (coccidioidomycosis), a progressive, multisymptom, respiratory disorder, is a debilitating disease; and

WHEREAS, It is caused by the inhalation of tiny airborne fungi that live in soil, but are released into the air by soil disturbance or wind; and

WHEREAS, Valley fever attacks the respiratory system, causing infection that can lead to symptoms that resemble a cold, influenza, or pneumonia redundant; and

WHEREAS, Left untreated or mistreated, infection can spread from the lungs into the bloodstream, causing inflammation to the skin, permanent damage to lung and bone tissue, and swelling of the membrane surrounding the brain, leading to meningitis, which can be devastating and even fatal; and

WHEREAS, Once serious symptoms of valley fever appear, including pneumonia and labored breathing, treatment must be prompt with antifungal drugs that are disagreeable and often toxic, especially for patients who have them injected beneath the base of their skulls for meningitis, causing side effects such as nausea, fever, and kidney damage; and

WHEREAS, Within California alone, valley fever is found in portions of the Sacramento Valley, all of the San Joaquin Valley, desert regions, and portions of southern California; and

WHEREAS, In the last 10 years, infection rates in California and Arizona have risen 400 percent, from an estimated 1,600 cases in 1996 to over 8,000 cases in 2006; and

WHEREAS, Central valley prison inmates are being infected by valley fever at epidemic levels, contributing significantly to the state's prison health care costs; and

WHEREAS, Valley fever kills between 100 and 200 more Americans every year than tuberculosis; and

WHEREAS, Valley fever most seriously affects the young, the elderly, those with lowered immune systems, and those of African-American and Filipino descent; and

WHEREAS, Valley fever has been a disease studied for the past 100 years, but still remains impossible to control and difficult to treat; and

WHEREAS, There is no known cure to date for valley fever; however, researchers are closer than they ever have been to finding a much needed vaccine to cure this devastating disease; and

WHEREAS, The research effort to find a vaccine and a funding partnership, including funding from the State of California, were approved by the Legislature and signed by Governor Wilson in 1997; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature does hereby proclaim August 2007, as Valley Fever Awareness Month; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 104

Senate Concurrent Resolution No. 40—Relative to speech-language pathologists.

WHEREAS, Speech-language pathologists provide essential services to the children of California, including children with autism; and

WHEREAS, The critical shortage of speech-language pathologists in public schools is affecting the ability of school districts to provide special education speech and language services to students, including children with autism; and

WHEREAS, The number of children with autism in the United States increased from 12,222 in the 1992–93 school year to 141,002 in the 2003–04 school year according to the United States Department of Education; and

WHEREAS, The number of children with autism in California public schools increased from 1,605 in the 1992–93 school year to 29,370 in the 2004–05 school year according to the State Department of Education; and

WHEREAS, The large increase in the number of children with autism has increased the demand for the services of speech-language pathologists in the public schools; and

WHEREAS, The United States Department of Labor projects that more than 34,000 additional speech-language pathologists will be needed to fill the demand nationwide between the years 2000 and 2010; and

WHEREAS, It is projected that more than 57,000 speech-language pathologist job openings between the years 2000 and 2010 will be available due to growth and net replacements; and

WHEREAS, The shortage of speech-language pathologists could lead to an increase in special education litigation in public schools; and

WHEREAS, Ensuring an adequate supply of high quality speech-language pathologists is critical to the success of students served under the federal Individuals with Disabilities Education Act; and

WHEREAS, Forty-nine percent of school based speech-language pathologists are 45 years of age or older and will be eligible to retire in the next 15 years; and

WHEREAS, There are only 15 university programs in the state that provide master's degree training for speech-language pathologists; and

WHEREAS, A survey by the American Speech-Language-Hearing Association and the California Speech-Language-Hearing Association indicated that 85 school districts in the state reported that they need over 222 speech-language pathologists; and

WHEREAS, A 2006 American Speech-Language-Hearing Association survey reported that 68 percent of school-based speech-language pathologists indicated that job openings were more numerous than job seekers in their school districts; and

WHEREAS, This survey also indicated that in the 1999–2000 academic year there were 11,148 job openings for speech-language pathologists in the United States; and

WHEREAS, Fifty-nine percent of respondents to this survey reported that the shortage of speech-language pathologists was making it difficult for them to fill job openings; and

WHEREAS, At present, the colleges and universities in the state are producing an insufficient number of speech-language pathologists to fill existing job openings; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature requests the Governor and all state agencies to work together to alleviate the critical shortage of speech-language pathologists in the state; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Governor, the Regents of the University of California, the Trustees of the California State University, the Board of Governors of the California Community Colleges, and to private universities operating in the state.

RESOLUTION CHAPTER 105

Senate Concurrent Resolution No. 50—Relative to child abuse and neglect.

[Filed with Secretary of State July 24, 2007.]

WHEREAS, In 2004, the State Department of Social Services estimated that 378,301 cases of abuse and neglect involving approximately 713,391 children were referred for investigation; and

WHEREAS, According to an audit conducted in 2002 by the State Department of Health Services, 140 children died in the state as a result of abuse and neglect; and

WHEREAS, Child abuse occurs at every socioeconomic level, across ethnic and cultural lines, within all religions, and at all levels of education; and

WHEREAS, Innumerable scientific studies have documented the link between the abuse and neglect of children and a wide range of medical, emotional, psychological, and behavioral disorders; and

WHEREAS, Children should be taught to understand dangerous and potentially dangerous circumstances, and be given the knowledge and confidence needed to best handle or resist them; and

WHEREAS, To combat child abuse in California and the nation, we should empower our children with the tools they need to stay safe; and

WHEREAS, The rationale for child abuse prevention programs is clear, and studies all across the nation illustrate the effectiveness of preventive programs; and

WHEREAS, In addition to having a potential for prevention, child abuse prevention programs create environments in which children can more easily disclose prior or ongoing maltreatment, and they offer an immediate opportunity for present victims to reach out for help, thereby preventing continued abuse; and

WHEREAS, The State Board of Education is scheduled to adopt content standards in health education in 2009; and

WHEREAS, From the content standards, an updated framework will be developed, and in 2012, the State Board of Education will adopt instructional materials for use by districts; and

WHEREAS, We must take a proactive approach to protecting our most vulnerable segment of society; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby strongly encourages the State Board of Education to include instruction on preventing child abuse and neglect in the next set of health education content standards; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 106

Assembly Concurrent Resolution No. 22—Relative to the Armed Forces Freeway.

[Filed with Secretary of State July 25, 2007.]

WHEREAS, The City of Riverside's Military Heritage Committee in 2006 adopted as a project the designation of a local freeway in honor of the area's military history; and

WHEREAS, The committee was joined by the Riverside County Board of Supervisors in identifying a portion of State Highway Route 215 to be designated as the Armed Forces Freeway; and

WHEREAS, The designation would commemorate the extensive military history of Riverside County, from 1774 when Lieutenant Colonel Juan Bautista de Anza marched through the area now occupied by March Air Reserve Base, to the formation of Riverside's own World War I

volunteer regiment (the Rainbow Rifles), to the establishment of Alessandro Field in February 1918, to the numerous military facilities established throughout the county that contributed to the Nation's war effort during World War II, to today's strategically located and thriving March Air Reserve Base; and

WHEREAS, Riverside County has been home to many important military facilities, including Camp Rancho del Jurupa (1862, Army), Camp Rubidoux (World War II, California State Guard), Camp Ono (World War II, Army), Camp Haan (World War II, Army), Camp Anza (World War II, Army), March Air Force Base and March Air Reserve Base (World War I and continuing, Army Air Corps and Air Force), with additional subsidiary and medical facilities located in Norco, Thermal, Desert Center, Blythe, Banning, Beaumont, Cherry Valley, Hemet, and Palm Springs; and

WHEREAS, The portion of State Highway Route 215 to be designated as the Armed Forces Freeway runs between present-day March Air Reserve Base and the Riverside National Cemetery, home of the Medal of Honor Memorial, the Prisoner of War/Missing in Action National Memorial, and the Fallen Soldier/Veterans' Memorial, and thus is a fitting tribute to honor the many men and women of our Armed Forces who have at one time or another called this area home; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the portion of State Highway Route 215 in Riverside County between the intersection of State Highway Route 60 and the Ramona Expressway is hereby designated as the Armed Forces Freeway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 107

Assembly Concurrent Resolution No. 62—Relative to the Congressman George Miller Benicia-Martinez Bridge.

WHEREAS, George Miller was born in Richmond, California, on May 17, 1945; and

WHEREAS, George Miller graduated from San Francisco State University and received his law degree from the University of California, Davis; and

WHEREAS, George Miller thereafter served on the staff of former State Senate Majority Leader George Moscone; and

WHEREAS, George Miller has been a member of the United States Congress, representing the Seventh District of California since 1975; and

WHEREAS, Congressman Miller's myriad achievements include authoring the Central Valley Project Improvement Act of 1992 and other laws concerning environmental protection and resource management, energy policy, child care, mental health, aid to victims of domestic violence, and numerous education reforms; and

WHEREAS, Congressman Miller has consistently championed federal support for California's diverse, multimodal transportation system. His work was instrumental in accomplishing all of the following: extending the BART rail system, upgrading the Vallejo Baylink ferry service, reconfiguring the interchange of Interstate Route 680 and State Highway Route 24, establishing the intermodal rail and bus stations in Martinez and Richmond, widening State Highway Route 4 between Martinez and Hercules and between Pacheco and Pittsburg, and advancing the soon-to-be-built Vallejo Station complex; and

WHEREAS, Congressman Miller has been a tireless advocate for children and was one of the four original authors of the historic No Child Left Behind Act of 2001, which passed with strong bipartisan support in 2001 and was signed into law in 2002. Reflecting Congressman Miller's ability to reach across party lines, the act fulfilled many of his longstanding legislative efforts to improve teacher quality requirements, to hold schools accountable for the education of all children, and to provide federal financial support to meet the act's goals; and

WHEREAS, In January 2007, Congressman Miller was elected by his colleagues to serve as chairman of the House Education and Labor Committee, a panel on which he has served since his arrival in Congress and as Senior Democrat since 2001; and

WHEREAS, Congressman Miller continues to serve on the House Natural Resources Committee, a panel he chaired from 1991 to 1994; and

WHEREAS, Congressman Miller orchestrated a federal and state effort to meet technical and environmental challenges created by construction of the new Benicia-Martinez Bridge, an effort that led to several important engineering advances, including the use of pumped

air to create a bubble curtain around underwater pile driving to protect migratory fish from potentially lethal shockwaves; and

WHEREAS, The new Benicia-Martinez Bridge links the Contra Costa County and Solano County portions of the Seventh Congressional District; and

WHEREAS, The original Benicia-Martinez Bridge, which opened in 1962, was designated the George Miller, Jr., Memorial Bridge in 1975 to honor Congressman Miller's father, who represented Contra Costa County in the California State Assembly from 1947 to 1948, and in the California State Senate from 1949 until his death in 1969; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature recognizes the contributions made by Congressman George Miller and the unique circumstance that the new northbound Benicia-Martinez Bridge runs adjacent to the existing George Miller, Jr., Memorial Bridge, and hereby designates the new northbound Benicia-Martinez Bridge as the Congressman George Miller Benicia-Martinez Bridge; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 108

Assembly Joint Resolution No. 11—Relative to the In-Home Supportive Services program.

[Filed with Secretary of State August 29, 2007.]

WHEREAS, For over 30 years, the In-Home Supportive Services (IHSS) program has provided care for our most precious residents; and

WHEREAS, Currently, IHSS allows more than 370,000 aged, blind, and disabled Californians to remain safely and independently in their own homes instead of in more expensive institutional care; and

WHEREAS, Over 300,000 dedicated workers provide IHSS care to residents in their homes; and

WHEREAS, The IHSS Residual program was a primarily state- and county-funded program which allowed individuals to receive IHSS care from a family member provider; and

WHEREAS, In 2004, facing a devastating budget cut to the residual program, providers, consumers, counties, the Legislature, and the administration worked together to apply for a federal waiver under Section 1115 of the Social Security Act (42 U.S.C. Sec. 1315) to obtain additional Medicaid funding for the IHSS program; and

WHEREAS, Following unprecedented federal, state, and stakeholder cooperation, the federal Center for Medicaid and Medicare Services (CMS) approved the waiver in just four months; and

WHEREAS, Due to the new federal funding, over 75,000 residual program consumers continued to receive uninterrupted IHSS care under the new IHSS Plus Waiver; and

WHEREAS, The IHSS Plus Waiver will expire in July 2009, and the state must apply for renewal in 2008; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That it is a priority of this Legislature to continue its commitment to the In-Home Supportive Services program and the preservation of the residual program; and be it further

Resolved, That the Legislature encourages the State Department of Social Services, State Department of Health Services, the Secretary of California Health and Human Services, and all other relevant departments to work expeditiously to ensure that the IHSS Plus Waiver program is renewed and protected; and be it further

Resolved, That the Legislature urges the federal Centers for Medicaid and Medicare Services to renew the IHSS Plus Waiver and preserve the continuum of care that thousands of aged, blind, and disabled Californians depend on every day to sustain their independence and maintain their dignity; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of Social Services, the Director of Health Services, the Secretary of California Health and Human Services, and the Secretary of the United States Health and Human Services.

RESOLUTION CHAPTER 109

Assembly Joint Resolution No. 29—Relative to the Local Law Enforcement Hate Crimes Prevention Act.

WHEREAS, Hate crimes are acts of terror meant to intimidate and cause fear in our communities and to deter the free exercise and enjoyment of any rights or privileges secured by the United States and California Constitutions, the laws of the United States, and the laws of the State of California; and

WHEREAS, The California Department of Justice reported the occurrence of 1,409 hate crimes in 2004 and 1,397 hate crimes in 2005; and

WHEREAS, The United States Federal Bureau of Investigations reported 7,163 hate crime offenses in 2005; and

WHEREAS, The United States Department of Justice's National Criminal Victimization Survey estimates that an annual average of 210,000 hate crime victimizations occurred nationally between July 2000 and December 2003; and

WHEREAS, The National Criminal Victimization Survey also indicates that only 92,000, or less than 44 percent, of hate crime victimizations during that time period were reported to the police; and

WHEREAS, The Southern Poverty Law Center reports that the number of hate groups in the United States increased from 52 active hate organizations in 2005 to 63 active hate organizations in 2006; and

WHEREAS, The Southern Poverty Law Center also reports that the number of hate groups in the United States continued to grow in 2006, increasing 5 percent over the prior year to 844 total groups; and

WHEREAS, According to research by the Intelligence Project of the Southern Poverty Law Center, there has been a 40 percent increase in the number of hate groups since 2000, when 602 such groups existed in the United States; and

WHEREAS, Much of the expansion of hate groups has been driven by these groups' exploitation of the issue of illegal immigration; and

WHEREAS, The underreporting of hate crimes is the result of a variety of factors that include the victim's lack of knowledge about the criminal justice system, fear of retaliation, linguistic and cultural barriers, immigration status, and prior negative experience with governmental agencies; and

WHEREAS, The federal government possesses the authority to investigate and prosecute hate crimes committed because of the victim's race, ethnicity, religion, or national origin; and

WHEREAS, According to the United States Federal Bureau of Investigation, 13.8 percent of victims of hate crime offenses in 2005 were targeted because of a bias against a particular sexual orientation; and

WHEREAS, Only 11 states and the District of Columbia have laws addressing hate crimes motivated by bias against the victim's sexual orientation and gender identity, among other protected categories; and

WHEREAS, Thirty-one states and the District of Columbia include coverage for disability-based crimes; and

WHEREAS, The Local Law Enforcement Hate Crimes Prevention Act (LLEHCPA), also known as the Matthew Shepard Act, strengthens the ability of federal, state, and local governments to investigate and prosecute hate crimes based on race, ethnicity, religion, gender, gender identity, sexual orientation, and disability; and

WHEREAS, The LLEHCPA provides grants to state and local governments to combat violent crimes committed by juveniles and to train law enforcement officers to assist in state and local investigations and prosecutions of bias-motivated crimes; and

WHEREAS, The LLEHCPA protects rights of the accused as expressed in the First Amendment to the United States Constitution by prohibiting the introduction of evidence of association or expression to prove that a crime has been committed, unless it specifically relates to the offense charged; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature calls on the United States Senate and the United States House of Representatives to support the Local Law Enforcement Hate Crimes Prevention Act (LLEHCPA), also known as the Matthew Shepard Act; and be it further

Resolved, That the Legislature urge the President of the United States to sign into law the Local Law Enforcement Hate Crimes Prevention Act (LLEHCPA), also known as the Matthew Shepard Act; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 110

Senate Concurrent Resolution No. 51—Relative to the CHP Lieutenant Michael Elvin Walker Memorial Highway.

[Filed with Secretary of State September 7, 2007.]

WHEREAS, Lieutenant Michael Elvin Walker of the Department of the California Highway Patrol, Badge No. 9919, was born on September

19, 1959, in San Francisco, and he and his brothers, Robert, Steve, and Jim were the children of the late Robert and Kathleen Walker; and

WHEREAS, Lieutenant Walker attended Archbishop Riordan High School in San Francisco, and later attended Solano and Los Medanos Community Colleges, San Francisco City College, and San Francisco State University; and

WHEREAS, Lieutenant Walker's brother, Robert, of Auburn, is also a CHP officer (Badge No. 9095), and both brothers wanted to become CHP officers at an early age; and

WHEREAS, in October 1981, Lieutenant Walker graduated from the CHP Academy, started his career in Los Angeles, transferred after one year to his hometown of San Francisco, and then transferred in 1983 to Contra Costa County where he remained for 15 years; and

WHEREAS, Lieutenant Walker was interested in pursuing a career in management, worked at the CHP's Golden Gate Communications Center, was promoted to sergeant, transferred to the Cordelia Inspection Facility in Solano County, and was promoted in May 2005, to lieutenant with a position in Santa Cruz; and

WHEREAS, Lieutenant Walker was killed on December 31, 2005, while assisting a disabled motorist traveling southbound on State Highway Route 17 just south of Glenwood Drive in Santa Cruz County. The motorist had lost control on a curve on the wet, mountainous roadway and was disabled on the highway embankment, and as Lieutenant Walker retrieved flares from the trunk of his patrol vehicle, another vehicle struck a Caltrans truck that had responded to assist with traffic control, with the impact of the collision forcing the Caltrans truck forward and fatally striking Lieutenant Walker; and

WHEREAS, Lieutenant Walker was a blessing to everyone who was touched by him, always demonstrating strong dedication, love, and commitment to family, friends, and the community; and

WHEREAS, Lieutenant Walker is survived by his beloved wife, Michelle Marie Walker, and children, Amanda and Jennifer, as well as his three brothers; and

WHEREAS, Lieutenant Walker's presence will be felt throughout the CHP and law enforcement community for years to come, as the loss of such a caring and giving person is a loss not just to family, friends, and coworkers, but is truly a loss to the entire community and the state that Lieutenant Walker served; and

WHEREAS, In recognition of Lieutenant Walker's ultimate sacrifice for the residents of this state, it is appropriate to dedicate a portion of State Highway Route 17 in Santa Cruz County in his memory; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the portion of State Highway Route 17 in Santa Cruz County south of Glenwood Drive, between post mile 5.91 and post mile 11.78, is hereby designated as the CHP Lieutenant Michael Elvin Walker Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Director of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 111

Senate Joint Resolution No. 2—Relative to forest resources.

[Filed with Secretary of State September 7, 2007.]

WHEREAS, In 1998, the California Legislature adopted Assembly Bill 1986, which was signed into law by Governor Pete Wilson as Chapter 615 of the Statutes of 1998; and

WHEREAS, Through this legislation, state taxpayers provided California's \$230 million contribution toward the \$480 million acquisition cost of approximately 7,500 acres of land within and adjacent to the Headwaters Forest from Pacific Lumber Company; and

WHEREAS, An agreement was entered into between certain state agencies, the federal government, Pacific Lumber Company, and MAXXAM, Incorporated; and

WHEREAS, The agreement made the acquisition of the Headwaters Forest contingent on the adoption of a specified habitat conservation plan (HCP) and issuance of a multispecies incidental take permit by the federal government for approximately 210,000 acres of forest land that Pacific Lumber Company retained; and

WHEREAS, Assembly Bill 1986 made the state's \$230 million payment also contingent on additional logging restrictions to protect residual old growth forest stands and other lands adjacent to fish-bearing streams that provide habitat to endangered salmon species; and

WHEREAS, These special logging restrictions were subsequently incorporated into a state contract that the Wildlife Conservation Board entered into with Pacific Lumber Company and MAXXAM, Inc., as a

condition of the state's \$230 million payment for the Headwaters Forest; and

WHEREAS, The state contract required Pacific Lumber Company to record real estate covenants on its lands to provide an absolute 50-year prohibition on logging within 12 residual groves of old growth redwood forest consisting of the Elk Head Residual, Cooper Mill, Allen Creek, Allen Creek Extension, Road 3, Owl Creek, Shaw Gift, Right Road 9, Road 7 and 9 North, Booth's Run, Bell Lawrence, and Lower North Fork Elk, known as the "Lesser Cathedrals" and entailing 6,700 acres, and similar logging restrictions adjacent to all fish-bearing and perennial streams on the property to protect salmon habitat; and

WHEREAS, The Pacific Lumber Company, in January 2007, declared bankruptcy and may be seeking waivers from state and federal agencies from the logging restrictions required by the HCP, Assembly Bill 1986, and state contract; and

WHEREAS, The Headwaters Forest and Lesser Cathedral groves represent some of the largest intact stands of ancient redwoods left in the world; and

WHEREAS, Safeguarding all elements of the agreement, consistent with state law, is essential for continued survival of the remnant ancient redwood forest ecosystem, as well as the fish and wildlife species dependent on it for their survival; and

WHEREAS, It is the priority and duty of the state to protect our environment and to preserve California's natural beauty for future generations; and

WHEREAS, The current bankruptcy proceedings may seek to extinguish the logging restrictions on Pacific Lumber Company's forest land required by the purchase agreement; now, therefore, be it;

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature and the State of California is committed to ensuring that all provisions of the agreement, consistent with state law, remain in effect to protect the \$480 million investment that state and federal taxpayers have made for the protection of the Headwaters Forest, as well as other residual stands of old growth redwoods, and fish and wildlife habitat on adjacent lands; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 112

Senate Joint Resolution No. 9—Relative to funding for veterans health care.

[Filed with Secretary of State September 7, 2007.]

WHEREAS, The United States Department of Veterans Affairs (VA) provides medical care for veterans, many of whom have risked their lives to protect the security of our nation; and

WHEREAS, The funding for this health care at the VA is passed each year by the Congress of the United States as part of the discretionary budget; and

WHEREAS, Each year the budget is passed, the funding for this health care has been very seriously underfunded; and

WHEREAS, This serious and now chronic shortfall affects the access to, and the quality of, medical care services that the VA provides for our veterans; and

WHEREAS, The priority of serving veterans must be absolute and irrevocable, and must be the foundation for the VA and our nation; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully urge the President and the Congress of the United States to pass assured funding for veterans health care, and that the Governor and the Legislature of California support this assured funding for veterans health care; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President of the United States, to the Vice President of the United States, to the Speaker of the United States House of Representatives, to the Majority Leader of the United States Senate, and to key members in the Congress of the United States.

RESOLUTION CHAPTER 113

Assembly Concurrent Resolution No. 57—Relative to the Veterans' Memorial Highway.

[Filed with Secretary of State September 10, 2007.]

WHEREAS, Humboldt County and this country owe a great debt and gratitude to the veterans of this country and honor their courage; and

WHEREAS, It is appropriate to honor all veterans who have served in this country's Armed Forces from the country's birth, both in war and in peacetime, and to pay tribute to the tremendous sacrifices veterans have made to maintain the strength, freedom, and independence of our country; and

WHEREAS, Humboldt County veterans groups, assisted by the Board of Supervisors of Humboldt County, have identified a portion of State Highway Route 101 to designate in honor of veterans; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates that portion of State Highway Route 101 in Humboldt County from milepost 68.40 to milepost 71.10 as the Veterans' Memorial Highway to honor all veterans who have served in the Armed Forces of the United States; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 114

Assembly Concurrent Resolution No. 58—Relative to the CHP Officer Erick S. Manny Memorial Highway.

[Filed with Secretary of State September 10, 2007.]

WHEREAS, Erick S. Manny was born on May 24, 1970, in Bakersfield, California; and

WHEREAS, His parents were Connie J. Cummings and Albert B. Manny; and

WHEREAS, Erick S. Manny attended Highland High School in Bakersfield, where he was a three-sport athlete, participating in baseball, football, and wrestling; and

WHEREAS, Erick S. Manny entered the California Highway Patrol Academy on November 13, 2000, and, after graduating, was assigned to the Fort Tejon CHP office on May 11, 2001; and

WHEREAS, Officer Manny was killed in the line of duty on December 21, 2005, when he was in pursuit of a speeding driver on State Highway Route 5 near the "Grapevine," and lost control of his patrol car; and

WHEREAS, Officer Manny was married to his high school sweetheart, Ronina "Nina" Manny, and had two wonderful children, Toran and Teagan; and

WHEREAS, Officer Manny was a dedicated officer who loved his job and enjoyed the people with whom he worked. He was a wonderful father and husband, and his greatest joys were his wife and children. In his spare time, Officer Manny enjoyed playing softball, going with family and friends to Dodgers' games, and taking the family for weekend adventures in their trailer; and

WHEREAS, It would be a fitting tribute to Officer Manny to name the portion of State Highway Route 5 from the Fort Tejon Exit to the Grapevine Exit in Kern County as the CHP Officer Erick S. Manny Memorial Highway; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates the portion of State Highway Route 5 from the Fort Tejon Exit to the Grapevine Exit in Kern County as the CHP Officer Erick. S. Manny Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of erecting the appropriate signs, consistent with the signing requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 115

Assembly Concurrent Resolution No. 59—Relative to the Lieutenant Jared M. Landaker Memorial Highway.

[Filed with Secretary of State September 10, 2007.]

WHEREAS, Lieutenant Jared M. Landaker made the ultimate sacrifice for his country when, on February 7, 2007, he gave his life while serving in Iraq in the United States Marine Corps; and

WHEREAS, Lieutenant Landaker was born in Madera, California, on May 3, 1981, to proud parents, Joe and Laura Landaker; and

WHEREAS, Due to a possible complication at Lieutenant Landaker's birth, doctors warned Joe and Laura Landaker that their child might be mentally challenged. The doctors encouraged surgery, an option that Joe and Laura Landaker refused; and

WHEREAS, Although smaller in size than most boys his age, Lieutenant Landaker proved the doctors wrong by excelling in both academics and sports; and

WHEREAS, What Lieutenant Landaker lacked in stature, he made up for in spirit, heart, and determination, presenting himself throughout his life as a force to be reckoned with; and

WHEREAS, As a young man, Lieutenant Landaker enjoyed skiing, snowboarding, and playing baseball and football; and

WHEREAS, While attending Big Bear High School, Lieutenant Landaker played varsity baseball, served as the quarterback on the varsity football team, was an all-CIF defensive back, and was inducted into the player hall of fame; and

WHEREAS, The head football coach at Big Bear High School, Dave Griffith, considered Lieutenant Landaker not only a standout football player but also a standout person and a role model to kids. Joe Bradley, a physics teacher and baseball coach at Big Bear High School, also held Lieutenant Landaker in high regard, stating that he had never coached a kid with more heart or courage; and

WHEREAS, In homage to Lieutenant Landaker's athletic legacy at Big Bear High School, his jersey, number 15, was recently retired and an award is to be made in his honor; and

WHEREAS, After graduating from high school, Lieutenant Landaker studied physics at the University of La Verne; and

WHEREAS, Following the events of September 11, 2001, Lieutenant Landaker felt the need to do his part and decided to join the United States Marine Corps; and

WHEREAS, Lieutenant Landaker proceeded to attend Officer Candidate School, The Basic School, and flight school. Ranking in the top 5 percent during flight training, he was awarded the privilege of selecting an aircraft. Desiring to be a part of the community, he chose the CH-46 Sea Knight helicopter, an aircraft involving some of the most noble assignments in the military; and

WHEREAS, Within just seven months, Lieutenant Landaker achieved the status of Helicopter Aircraft Commander, a status that typically takes at least one year to achieve; and

WHEREAS, Lieutenant Landaker received a commission as second lieutenant on September 7, 2003, followed by a commission of first lieutenant on September 7, 2005; and

WHEREAS, Lieutenant Landaker served as a first lieutenant with the Marine Medium Helicopter Squadron 364, nicknamed “the Purple Foxes.” As a medevac pilot, he airlifted wounded marines and citizens out of dangerous combat zones in Anbar province in Iraq; and

WHEREAS, On February 7, 2007, just one week before his scheduled return home, Lieutenant Landaker gave his life while flying a CH-46 Sea Knight helicopter that was shot down over Anbar province; and

WHEREAS, In recognition of his service in the military, Lieutenant Landaker received a purple heart, a National Defense Service Medal, an Iraqi Campaign Medal, a Global War on Terrorism Service Medal, a Sea Service Deployment Ribbon, and a Navy and Marine Corps Achievement Medal; and

WHEREAS, Lieutenant Landaker was a proud American and a true patriot with exceptional kindness, thoughtfulness, and sincerity, and a paramount love for his country, family, and friends; and

WHEREAS, Lieutenant Landaker remains a hero to the community of Big Bear and to all who knew him; and

Resolved by the Assembly of the State of California, the Senate thereof concurring, That in recognition of the sacrifice made by Lieutenant Landaker for his country and the valiance with which he served, the Legislature designates the portion of State Highway Route 38 between mile markers 49.530 and 59.396 in San Bernardino County as the Lieutenant Jared M. Landaker Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing that special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 116

Assembly Joint Resolution No. 5—Relative to Social Security.

[Filed with Secretary of State September 10, 2007.]

WHEREAS, After 1965, California’s educators were not allowed to participate in the federal social security system; and

WHEREAS, Most peace officers and firefighters, and many other public employees are not covered by Social Security; and

WHEREAS, Due to higher contribution rates and superior investment returns, the California State Teachers' Retirement System provides retirees with superior benefits compared to those provided by the federal social security system; and

WHEREAS, The State Teachers' Retirement System is not coordinated with the federal social security system; and

WHEREAS, The benefits of certain members of the Public Employees' Retirement System and retirement systems established pursuant to the County Employees Retirement Law of 1937 are not coordinated with the federal social security system; and

WHEREAS, The Social Security Act includes two offsets, the Government Pension Offset and the Windfall Elimination Provision, that reduce the social security benefits payable to persons who are entitled to benefits under other retirement systems, under certain conditions; and

WHEREAS, These provisions penalize individuals who move from private sector employment to teaching and vice versa; and

WHEREAS, These provisions penalize individuals who earned social security benefits through their own employment prior to teaching; and

WHEREAS, California has a significant teacher shortage and requires more than 16,000 new teachers per year to meet enrollment growth needs, retirement replacement, as well as class size reduction in targeted schools; and

WHEREAS, Every child should have the opportunity to have a highly qualified teacher in his or her classroom, but the Social Security Act offsets limit the number of fully credentialed teachers in the classroom by penalizing individuals who change from private to public employment; and

WHEREAS, The recruitment and retention of teachers, peace officers, firefighters, and other public employees from other states who are entitled to social security benefits upon retirement is also limited and restricted by these offsets; and

WHEREAS, The Social Security Fairness Act, which would repeal the Government Pension Offset and the Windfall Elimination Provision, is currently before Congress; and

WHEREAS, The elimination of the Government Pension Offset and the Windfall Elimination Provision would greatly improve the opportunities for hiring and retaining teachers, peace officers, firefighters, and other public employees in California; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California requests the Congress of the United States to support the Social Security Fairness Act which would repeal the Government Pension Offset and the Windfall Elimination Provision from the Social Security Act, and further, the

Legislature of the State of California requests President George W. Bush to sign that legislation; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 117

Assembly Joint Resolution No. 7—Relative to agriculture.

[Filed with Secretary of State September 10, 2007.]

WHEREAS, In January 2007, California suffered its most extensive cold weather freeze in nearly 60 years, causing severe damage to crops and trees; and

WHEREAS, The freeze and frost damage caused over \$1.1 billion in agricultural crop damage, with the losses possibly growing, as the full extent of damage is still being assessed; and

WHEREAS, The impact of the losses will impose significant hardship upon agricultural workers, producers, and crop processing and packing houses; and

WHEREAS, The monetary losses to the state's crops are estimated to be at least \$410 million for navel oranges, \$184 million for Valencia oranges, \$114 million for lemons, \$67 million for mandarins, \$28.5 million grapefruits, \$145 million for avocados, \$17 million for leafy vegetables, \$120 million for nursery stock, \$20 million for grapes, and \$36 million for strawberries; and

WHEREAS, The United States Secretary of Agriculture Mike Johanns has issued a secretarial natural disaster designation for the counties of El Dorado, Fresno, Glenn, Imperial, Kern, Madera, Merced, Monterey, Riverside, Sacramento, San Bernardino, San Luis Obispo, Santa Barbara, Stanislaus, Sutter, Tulare, Yolo, Yuba, and also declared contiguous disaster counties in Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Inyo, Kings, Lake, Los Angeles, Mariposa, Mendocino, Mono, Napa, Nevada, Orange, Placer, Plumas, San Benito, San Diego, San Joaquin, Santa Clara, Santa Cruz, Sierra, Solano, Tehama, Tuolumne, and Ventura; and

WHEREAS, President Bush declared the January 2007 freeze a major disaster and ordered federal aid to supplement state and local recovery efforts in the affected areas, including the Counties of Fresno, Imperial,

Kern, Los Angeles, Monterey, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Tulare, and Ventura; and

WHEREAS, Agricultural workers are suffering job loss or significant reductions in hours and pay due to the impact of the freeze; and

WHEREAS, Agricultural workers will require assistance to meet the basic needs of life, including food, housing rent, and other daily needs for themselves and their families; and

WHEREAS, Insurance policies for commodity producers are not always sufficient or available to mitigate crop losses resulting from the freeze; and

WHEREAS, Efforts by Governor Schwarzenegger and other state agencies have begun to address the needs of agricultural workers and producers, but the resources of the federal government are required to assist Californians' response to the January 2007 freeze; and

WHEREAS, The need for assistance is especially great in California's agricultural areas because many of these smaller communities rely upon the agricultural industry for the vast majority of their economic activity; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California hereby respectfully requests the President of the United States and the United States Congress to act swiftly in enacting legislation providing relief and assistance to California workers, producers, and processors suffering losses from the January 2007 freeze; and be it further

Resolved, That the California Legislature respectfully expresses support for federal legislation providing assistance and relief for agricultural workers, producers, and processors, consistent with the \$1.7 billion relief package, embodied in S. 524, authored by Senator Barbara Boxer, and H.R. 925, authored by Congressman Devin Nunes, which are supported by a bipartisan group of California's Congressional Delegation; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 118

Assembly Joint Resolution No. 16—Relative to immigration.

[Filed with Secretary of State September 10, 2007.]

WHEREAS, The Anti-Defamation League, in monitoring extremism and bigotry in our country, has documented cases of human rights abuses at the United States-Mexico border, including violent attacks on immigrants, sometimes resulting in brutal execution-style slaying. One Anti-Defamation League report found that, “violent incidents against illegal immigrants have been brutal and are occurring with greater regularity, further intensifying the atmosphere of fear and suspicion on both sides of the border.” There are also instances of immigrants being sold into drug and prostitution rings to fund covert enterprises. The Anti-Defamation League has also seen a rise in hate crimes, discrimination cases, and bigotry against Latinos in this state, which occur regardless of immigration status; and

WHEREAS, As a result of concern for human rights of all, the Anti-Defamation League drafted the Declaration of Los Angeles to declare that human rights deserve a place in the immigration debate that is now central in the political arena and that bigotry and xenophobia do not. The Anti-Defamation League secured signatures in support of the Declaration of Los Angeles from major civil rights and community-based organizations in Los Angeles, including the following organizations: ACLU of Southern California, American Jewish Committee, American Jewish Congress, Archdiocese of Los Angeles, Asian Pacific American Legal Center, Bet Tzedek Legal Services, Coalition for Human Immigrant Rights of Los Angeles, Gay and Lesbian Alliance Against Defamation, Los Angeles Center for Law and Justice, League of United Latin American Citizens, Mexican American Legal Defense and Education Fund, National Council of Jewish Women Los Angeles Section, Progressive Jewish Alliance, Public Counsel Law Center, Southern Christian Leadership Conference of Greater Los Angeles, and South Asian Network; and

WHEREAS, The Anti-Defamation League, together with its partners in this project, brought the Declaration of Los Angeles, to the City Council of the City of Los Angeles on December 13, 2006. The City Council of the City of Los Angeles, under the leadership of Council President Eric Garcetti, unanimously passed a resolution acknowledging the Declaration of Los Angeles and declaring, as part of the city’s federal legislative agenda, support for “any state or federal legislation concerning border and immigration policy that (1) provides resources to monitor and respond to groups who advocate vigilantism in any form that subverts the democratic process (2) ensures that there continues to be humane treatment of undocumented persons by holding to the highest standards of human rights and dignity all law enforcement and judicial processes related to deportation, detention and immigration status”; and

WHEREAS, The Anti-Defamation League together with its partners and with the support of the City Council of the City of Los Angeles have asked the State of California to join them in this initiative; and

WHEREAS, The Legislature declares the following:

(1) Security precautions are necessary to protect the integrity of the United States border and the well-being of the American people. The United States has every right as a sovereign nation to control its border and immigration policies. However, immigration policy must also take into consideration and strive to protect civil and human rights of immigrants.

(2) In response to the alleged threat that undocumented persons pose to American society, groups have formed to put pressure on the United States government.

(3) Additionally, groups have conducted private patrols along the border between the United States and Mexico.

(4) Although the Legislature seeks to protect the right to free speech in the First Amendment to the United States Constitution, it neither condones nor endorses any rhetoric used to incite either violence or intolerance toward people, regardless of race, citizenship status, or nationality.

(5) The Legislature neither condones nor endorses groups who engage in vigilantism or who incite violence toward undocumented immigrants.

(6) Members of hate groups, such as neo-Nazi and white supremacist groups, have expressed support for civilian patrol and anti-immigration groups, through participation in patrols, protests and rallies.

(7) Although there is a continued risk of terrorists and criminals misusing the immigration system to illegally enter the United States, a safe and secure border cannot be achieved through civilian vigilantism.

(8) Coordinated efforts by federal, state, and local law enforcement officials are necessary to monitor the activities of civilian border patrols and extremist groups in order to maintain safety and public order and to protect human and civil rights.

(9) Anti-immigration and anti-Latino rhetoric ignores the valuable economic and cultural contributions these groups have made to American society for hundreds of years; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature urges local, state, and federal government officials, when crafting immigration policy that affects the United States-Mexico border, to take the following steps as called for in the Declaration of Los Angeles:

(1) Recognize and protect the basic human rights of immigrants.

(2) Support human rights and the humane treatment of undocumented persons as part of the tradition of fighting intolerance and bias.

(3) Recognize and publicly denounce xenophobia and anti-immigrant bias as having no place in the United States' immigration policy.

(4) Monitor and respond to extremist groups who advocate bigotry or racism, vigilantism in any form, violence, or any other tactic that subverts the democratic process.

(5) Hold to the highest standards of human rights and dignity all law enforcement and judicial processes that relate to deportation, detention, and immigration status.

(6) Recognize the need for a safe and secure United States; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 119

Assembly Joint Resolution No. 24—Relative to speech.

[Filed with Secretary of State September 10, 2007.]

WHEREAS, A free press is vital to the publication of important news within our society so that our government is accountable to its citizens; and

WHEREAS, A journalist's promise of confidentiality to a source is often the only way the public can learn about waste, fraud, and abuse in government and the private sector, and the forced disclosure of confidential sources and information will cause individuals to refuse to talk to journalists, resulting in a chilling effect on the free flow of information and the public's right to know; and

WHEREAS, The most famous confidential source in United States history, W. Mark Felt, also known as Deep Throat, voluntarily revealed his identity as a resident of Santa Rosa 33 years after the Watergate scandal revealed corruption in the highest levels of the Nixon White House; and

WHEREAS, Shield laws promote the free flow of information to the public and prevent government from making journalists its investigative agents by prohibiting courts from holding journalists in contempt for refusing to disclose unpublished news sources or information received from those sources; and

WHEREAS, California's shield law was first enacted in 1935 and later incorporated as subdivision (b) of Section 2 of Article I of the California Constitution in 1980 to provide that a journalist may not be held in contempt for refusing to disclose a news source or unpublished information gathered for news purposes; and

WHEREAS, California's shield law was broadened in 2000 to also provide that no testimony or other evidence given by a journalist under subpoena in a civil or criminal proceeding may be construed as a waiver of immunity rights provided by the California Constitution, that a journalist subpoenaed in any civil or criminal proceeding shall be given at least five days' notice, except in exigent circumstances, and that a judge must set forth findings on the record stating why the testimony of a journalist is essential to guarantee the defendant's constitutionally guaranteed right to a fair trial when presiding over a criminal trial wherein a journalist is asserting protection under the media shield law; and

WHEREAS, In *O'Grady v. Superior Court* (2006) 139 Cal.App.4th 1423, the application of California's shield law was further broadened to include the gathering and collection of news by journalists publishing information through the Internet; and

WHEREAS, Thirty-three states—Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Montana, Nebraska, Nevada, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, and Washington—and the District of Columbia have statutory shield laws giving journalists some form of privilege against compelled production of confidential or unpublished information; and

WHEREAS, Sixteen states—Hawaii, Idaho, Iowa, Kansas, Maine, Massachusetts, Mississippi, Missouri, New Hampshire, South Dakota, Texas, Utah, Vermont, Virginia, West Virginia, and Wisconsin—have established varying confidentiality privileges for journalists through their courts; and

WHEREAS, In 2007, legislation was introduced in six states—Kansas, Massachusetts, Missouri, Texas, Utah, and West Virginia—to establish a statutory shield law and in New York to expand its shield law; and

WHEREAS, Pending measures in the Congress of the United States would establish a federal shield law for journalists through the enactment of the Free Flow of Information Act; and

WHEREAS, The pending Free Flow of Information Act establishes that a federal entity may not compel a journalist to divulge confidential sources unless a court determines by a preponderance of the evidence that (1) it is necessary because all reasonable alternatives have been

exhausted, (2) it is essential to a criminal investigation, it is necessary to prevent imminent harm to national security or to individuals, or it is necessary to identify a person who has violated medical and financial privacy laws, and (3) taking into account the public interests, nondisclosure of a confidential source would be contrary to the public interest; and

WHEREAS, The pending Free Flow of Information Act stipulates that the testimony or documents sought by a federal entity from a journalist should be narrowly and appropriately tailored in scope; and

WHEREAS, Over the last six years, four federal courts of appeals—the First Circuit, the Fifth Circuit, the Ninth Circuit, and the Circuit for the District of Columbia—have affirmed contempt citations issued to reporters who declined to reveal confidential sources, each imposing prison sentences more severe than any previously experienced by journalists in American history; and

WHEREAS, In relation to *Miller v. United States* (2005) 125 S.Ct. 2977, and *Cooper v. United States* (2005) 125 S.Ct. 2977, the Attorneys General of 34 states— Arizona, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Montana, Nebraska, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, West Virginia, and Wisconsin—and the District of Columbia stated in an amicus brief submitted to the United States Supreme Court, “A federal policy that allows journalists to be imprisoned for engaging in the same conduct that these State privileges encourage and protect ‘buck[s] that clear policy of virtually all states,’ and undermines both the purpose of the shield laws, and the policy determinations of the State courts and legislatures that adopted them”; and

WHEREAS, Confidentiality of certain communications has long been protected in order to further important interests, both public and private, including communications between doctor and patient, lawyer and client, and priest and penitent; and

WHEREAS, A May 2005 poll conducted by the First Amendment Center and American Journalism Review found that 69 percent of Americans agree with the statement: “Journalists should be allowed to keep a news source confidential”; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully urges the Congress of the United States to enact a shield law for America’s journalists; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 120

Senate Joint Resolution No. 7—Relative to renewable energy resources.

[Filed with Secretary of State September 11, 2007.]

WHEREAS, The United States has a quantity of renewable energy resources that is sufficient to supply a significant portion of the energy needs of the United States; and

WHEREAS, The agricultural, forestry, and working land of California can help ensure a sustainable domestic energy system; and

WHEREAS, Accelerated development and use of renewable energy technologies would provide numerous benefits to all citizens of California and the United States, including improved national security, improved balance of payments, healthier rural economies, improved environmental quality, and abundant, reliable, and affordable energy; and

WHEREAS, The production of transportation fuels from renewable energy would help the United States meet rapidly growing domestic and global energy demands, reduce the dependence of the United States on energy imported from volatile regions of the world that are politically unstable, stabilize the cost and availability of energy, and safeguard the economy and security of the United States; and

WHEREAS, Increased energy production from domestic renewable resources would attract substantial new investments in energy infrastructure, create economic growth, develop new jobs for the citizens of the United States, and increase the income for farm, ranch, and forestry jobs in the rural regions of the United States; and

WHEREAS, Increased use of renewable energy is practical and can be cost effective with the implementation of supportive policies and proper incentives to stimulate markets and infrastructure; and

WHEREAS, Public policies aimed at enhancing renewable energy production and accelerating technological improvements will further reduce energy costs over time and increase market demand; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California supports legislation

introduced in the Congress of the United States expressing the sense of Congress that it is the goal of the United States that, no later than January 1, 2025, not less than 25 percent of the total energy consumed in the United States comes from renewable resources; and be it further

Resolved, That the California Legislature respectfully requests that Congress ensure that efforts to increase renewable energy production do not harm current production of food, feed, and fiber; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 121

Assembly Concurrent Resolution No. 7—Relative to the Officer David Lamoree Memorial Highway.

[Filed with Secretary of State September 12, 2007.]

WHEREAS, It was with the most profound sorrow and deep sense of loss that word was received of the passing of Officer David Frank Lamoree on October 23, 2005, whose pursuit of the highest ideals of public safety merit gratitude and respectful acknowledgment by the people of the state; and

WHEREAS, Officer David Lamoree was born in Vallejo, California, on October 23, 1979, and decided on a police career at 10 years of age; and

WHEREAS, Graduating from Will C. Wood High School, Officer Lamoree earned criminal justice degrees from Solano Community College and attended the police academy in Contra Costa County; and

WHEREAS, A police officer for six months at Solano Community College, Officer Lamoree served on the San Pablo Police Department for a few years before relocating to the Rio Vista police force; and

WHEREAS, While driving to his Fairfield home on October 21, 2005, Officer Lamoree was hit head-on by a car on State Highway Route 12, west of State Highway Route 113, on a portion of State Highway Route 12 that is only two lanes and that has become increasingly congested and dangerous; and

WHEREAS, Officer Lamoree was taken off life support on October 23, 2005, his 26th birthday; and

WHEREAS, Officer Lamoree was an organ donor who potentially saved the lives of eight people and improved the lives of 50 others; and

WHEREAS, This gallant and dedicated officer exemplified the true character of the brave men and women who devote their time and energy to the perilous duties of law enforcement, and his death is a great loss to the entire community; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the portion of State Highway Route 12 between Olsen Road and State Highway Route 113 in Solano County be designated the “Officer David Lamoree Memorial Highway”; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signing requirements for the state highway system, showing that special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 122

Assembly Joint Resolution No. 2—Relative to benefits for Filipino Americans who fought in World War II.

[Filed with Secretary of State September 12, 2007.]

WHEREAS, The Republic of the Philippines (hereafter the Philippines) was a colony of the United States, and as a result, the United States government possessed authority over that nation; and

WHEREAS, On July 26, 1941, in anticipation of war with Japan, President Roosevelt issued an Executive order calling over 200,000 Filipino soldiers to serve in the United States Armed Forces in the Far East (USAFFE); and

WHEREAS, Ten hours after Pearl Harbor was attacked, the United States military bases in the Philippines were bombed, causing the war to spill onto the Filipino people; and

WHEREAS, On March 27, 1942, Congress passed Title 8 of the Second War Powers Act, which provided that noncitizens who served in active duty in the United States Armed Forces during World War II shall be granted United States citizenship, meaning that every USAFFE soldier had the right to equal treatment under the law; and

WHEREAS, On April 9, 1942, the United States surrendered the Philippines, leaving 75,000 USAFFE and regular soldiers to the Bataan Death March where close to 10,000 died along the drudge to P.O.W. camps; and

WHEREAS, Even after the American surrender, Filipinos continued to resist, gathering thousands more soldiers and forming guerilla units, who, in coordination with United States command, conducted operations, collected intelligence, and helped prepare for the American return; and

WHEREAS, On September 2, 1945, Japanese military command surrendered the Philippines back to American forces ending World War II on the islands, and Philippine nationals who served in the war began filing for naturalization at the United States Embassy in Manila; and

WHEREAS, Filipino men and women served courageously in the fight for freedom and democracy during World War II, under the leadership of General Douglas MacArthur; and

WHEREAS, After the war, the New Philippine Scouts were formed to help reestablish United States authority in the Pacific, causing thousands more Filipino soldiers to be called to serve the United States; and

WHEREAS, In November of 1945, adjudication of applications for naturalization of Filipino veterans were stopped, per order of the United States Department of State and the Commissioner of the Immigration and Naturalization Service; and

WHEREAS, In December of 1945, Congress passed legislation amending the immigration and naturalization law, setting a deadline of December 1946 for Filipino veterans applying for citizenship; and

WHEREAS, On February 18, 1946, Congress enacted the 1946 Rescission Act, which denied World War II Filipino veterans, including the USAFFE, the guerillas, and the New Philippine Scouts equal status as American veterans, which stripped them of equal recognition, compensation, and benefits; and

WHEREAS, In October of 1990, the 1990 Immigration Act was passed, granting United States citizenship to Filipino veterans, which allowed 24,000 Filipino World War II veterans, in their 70s and 80s to receive citizenship, but who were still denied equal status as American veterans; and

WHEREAS, Congress passed Section 405 of the Immigration Act of 1990, which was authored by Congressman Dymally; and

WHEREAS, The course of correction has continued under Presidents Bill Clinton and George W. Bush and under many legislative reforms regarding health care, benefits for surviving spouses, and burial rights; and

WHEREAS, Most families of Filipino World War II veterans who are residing in the United States, have been longing to reunite with their sons, daughters, and minor grandchildren whom they left behind, between 1990 and 1995, when they were naturalized and finally established residence in the United States; and

WHEREAS, A new opportunity was opened with the introduction of bills in Congress, that would grant special immigrant status to the sons, daughters, and minor grandchildren of World War II Filipino veterans who are now United States citizens; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully requests the President and Congress of the United States to enact legislation granting veteran benefits to the Filipino Americans who fought in World War II in the United States Armed Forces; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 123

Assembly Joint Resolution No. 4—Relative to CalWORKs.

[Filed with Secretary of State September 12, 2007.]

WHEREAS, California implemented the federal Personal Responsibility and Work Opportunity Reconciliation Act through Assembly Bill 1542 (Chapter 270 of the Statutes of 1997), thereby establishing the California Work Opportunity and Responsibility to Kids (CalWORKs) program, implemented on January 1, 1998; and

WHEREAS, The CalWORKs program was created on a bipartisan basis, adopting essential goals of reducing child poverty and dependency on government benefits while promoting work and marriage; and

WHEREAS, Since its creation, CalWORKs has done both of the following:

(a) Offered a flexible array of welfare-to-work services to meet varied individual needs of parents working toward self-sufficiency.

(b) Assured a safety net for children when parents' aid is discontinued or the family continues to need assistance after the expiration of the 60-month time limit; and

WHEREAS, Since 1995, California has moved thousands of low-income families to self-sufficiency, reducing by over 50 percent the number of cases receiving cash assistance; and

WHEREAS, Significant challenges remain in CalWORKs, to address barriers to self-sufficiency, reduce poverty, engage a greater percentage of adults in welfare-to-work activities, and satisfy federal work participation requirements; and

WHEREAS, Child support is no longer primarily a welfare reimbursement, revenue-producing device for the federal and state governments and is a family-first program, intended to ensure families' self-sufficiency by making child support a more reliable source of income; and

WHEREAS, California's child support program annually collects over \$2.3 billion, distributes over \$1.7 billion to families directly, and retains \$587 million as reimbursement for welfare costs, paying the remainder to the federal government; and

WHEREAS, The federal Deficit Reduction Act of 2005 (DRA) contained several provisions affecting the Temporary Assistance for Needy Families (TANF) block grant and the operation of state welfare-to-work programs; and

WHEREAS, The United States Department of Health and Human Services promulgated regulations implementing the DRA on June 28, 2006; and

WHEREAS, In several respects, the DRA and implementing regulations limit California's ability to operate its program and provide employment services in a manner the state has found to be most effective in achieving self-sufficiency for low-income families and in protecting the well-being of indigent children, specifically as follows:

(a) They deny credit for the state's substantial reduction in caseload since the CalWORKs program was established in 1997.

(b) They discourage the state from offering flexible programs and services appropriate for participants with disabilities, potentially violating the federal Americans with Disabilities Act and Section 504 of the Rehabilitation Act.

(c) They restrict a state's ability to offer employment and training programs that enhance skills and qualifications leading to jobs providing self-sustaining wages and benefits.

(d) They impose excessively burdensome duties on states to verify and report specific hours of participation beyond what is normally recorded by employers and training providers.

(e) They retain an unrealistically excessive 90-percent work participation rate for two-parent families which, in conjunction with the imposition of federal requirements on nonfederal state-funded programs

and the elimination of the previous caseload reduction formula, set a standard that no state can expect to meet; and

WHEREAS, The DRA contained several provisions that changed how the federal government funds states for operating the child support program, including a prohibition against claiming federal matching funds for child support activities paid with federal performance incentive funds, and the imposition of an annual fee of \$25 for each family that has not received TANF assistance if the state collects at least \$500 in child support on behalf of the family; and

WHEREAS, The impact of the prohibition in the DRA against claiming federal matching funds for child support collection activities that the state pays with performance incentives will annually cost California over \$90 million in federal matching funds and result in an estimated loss of over \$800 million in child support collections over five years; and

WHEREAS, The \$25-fee requirement, if passed on to the family by the state, will constitute a financial barrier to parents who desire to use child support services, and if not passed on to the family and paid by the state, will cost California over \$1.7 million annually, because the automation and accounting costs of administering the fee will exceed the potential revenue generated through the imposition of the fee; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature hereby requests the United States Congress and President to repeal or amend provisions of the Deficit Reduction Act of 2005, as follows:

- (a) Modify work participation rules to do all of the following:
 - (1) Give credit for persons with disabilities partial participation in welfare-to-work activities, consistent with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act.
 - (2) Allow credit for vocational training and education for 24 months, and include a Parents as Scholars Program for those for whom education is a path out of poverty.
 - (3) Allow credit for blended activities that include barrier removal as part of an employment program.
- (b) Replace the caseload reduction credit with one based upon the numbers of adults leaving aid with employment.
- (c) Eliminate the separate 90 percent work participation rate for two-parent families.
- (d) Simplify the tracking, recording, and reporting of work activities.
- (e) Repeal the prohibition on states' claiming of federal matching funds for child support activities paid with performance incentives.

(f) Repeal the imposition of a \$25-annual fee for each family that has not received assistance from the TANF block grant if the state collects at least \$500 in child support on behalf of that family; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 124

Assembly Joint Resolution No. 20—Relative to a Tom Bradley commemorative postal stamp.

[Filed with Secretary of State September 12, 2007.]

WHEREAS, The late Mayor Tom Bradley will forever be a towering figure in the history of Los Angeles as well as in our state and our nation; and

WHEREAS, Tom Bradley strongly guided Los Angeles along a course paved with obstacles during his recordsetting 20 years as mayor. His sure guidance was the steady force that reassured residents; and

WHEREAS, Tom Bradley was first elected mayor in 1973, and he paved the way for many other leaders on the local, state, and national level. Although he made history as the first black mayor of a major city, Tom Bradley ran and won his campaign, pledging to be a representative of the entire city, and his achievement of this promise made him one of this nation's most respected mayors; and

WHEREAS, Tom Bradley was a product of the Los Angeles public school system, and his academic abilities enabled him to parlay his high school athletic prowess into a university education. Bradley received a scholarship to attend UCLA where he soon distinguished himself as a track star; and

WHEREAS, Tom Bradley joined the Los Angeles Police Department in 1940. In May 1941, he married Ethel Arnold and had two daughters, Lorraine and Phyllis; and

WHEREAS, Tom Bradley worked full time as a police officer and went to law school at night. He graduated from Southwestern University in 1956 and passed the California State bar examination; and

WHEREAS, After 21 years of service, he retired from the Los Angeles Police Department with the rank of lieutenant in 1961 and began to practice law. In 1963, he ran for a seat on the Los Angeles City Council.

He won and served for 10 years before becoming the city's 37th mayor in 1973; and

WHEREAS, Mayor Bradley opened the doors of city hall; his staff and administration appointees represented the rich cultural fabric of the city. He attracted businesses to the city and established policies that resulted in the dramatic resurgence of the downtown Los Angeles economic center. He turned the city's harbor and airports into top-of-the-line businesses, expanding the number of people employed and the city's ability to compete in a world market; and

WHEREAS, Mayor Bradley also focused his attention on creating economic opportunities both for the inner city, with such community revitalization projects as the Baldwin Hills-Crenshaw and Vermont-Slauson shopping centers, and the entire city, where he put forward affordable housing and fair planning policies; and

WHEREAS, Mayor Bradley led a long and hard battle to bring rail transportation to the City of Los Angeles. As a result, today, the Metro Blue Line carries passengers from Long Beach to downtown Los Angeles, and the Metro Red Line has become the first underground rail system, carrying passengers from downtown to North Hollywood; and

WHEREAS, Mayor Bradley served on many regional and national public interest organizations and was unanimously elected as President of the National League of Cities in 1974; and

WHEREAS, Mayor Bradley secured the 1984 summer Olympic games for the City of Los Angeles, and united the private and public sectors behind a common goal to produce the most successful Olympic games in the modern history of the event. The games boosted economic activity in southern California by \$3.3 billion, created 68,000 jobs, and ended with a \$215 million surplus; and

WHEREAS, Tom Bradley's record of service is so exceptional that it is especially fitting that the achievement and legacy of this great man be marked by the issuance of a special commemorative stamp by the United States Postal Service in his honor; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California urges the Citizens Stamp Advisory Committee of the United States Postal Service to approve the issuance of a commemorative postal stamp in honor of the late Mayor Tom Bradley; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 125

Assembly Joint Resolution No. 23—Relative to education.

[Filed with Secretary of State September 12, 2007.]

WHEREAS, The general intent and spirit of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), known as the NCLB, are commendable; and

WHEREAS, The NCLB is due to be reauthorized by Congress in 2007; and

WHEREAS, There is growing, bipartisan recognition among state legislatures and in Congress that states need more flexibility and financial support in implementing the NCLB; and

WHEREAS, Before the enactment of the NCLB, California established, implemented, and sustained an accountability system that holds pupils and schools to some of the highest standards in the entire country; and

WHEREAS, Many provisions of the NCLB conflict with California's own accountability system and fail to recognize schools that are making substantial improvement; and

WHEREAS, More than four years of operational experience in implementing the NCLB has resulted in unintended consequences, including the identification of some of the highest performing schools and school districts in California as being "in need of improvement"; and

WHEREAS, Many of the unintended consequences result from the rigid application of a "one size fits all" approach to accountability; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature and the State of California urge the Congress of the United States to amend the federal No Child Left Behind Act of 2001 to provide states more flexibility in the implementation of the law and in the identification of schools in need of improvement in order to strategically target resources and interventions toward those schools and school districts that are most in need; and be it further

Resolved, That the Legislature of the State of California urges the Congress of the United States to amend the federal No Child Left Behind Act of 2001 to permit adequate yearly progress to accommodate a range of accountability models, including a growth model of district, school, and subgroup improvement, and to respect parental choice by giving states the flexibility to exclude from the participation rate calculation, a pupil whose parent chooses not to have the pupil tested; and be it further

Resolved, That the Legislature of the State of California urges the President of the United States and the Congress of the United States to fully fund the requirements of the No Child Left Behind Act of 2001 for the life of the act; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, to the United States Secretary of Education, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 126

Senate Concurrent Resolution No. 52—Relative to the University of California Retirement Plan.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, The University of California was established as a great institution of higher education to provide opportunities for thousands of people every year; and

WHEREAS, The University of California, with 10 campuses and five medical centers, is the largest public sector employer in California; and

WHEREAS, There are more than 120,000 employees who work for the University of California and who participate in the University of California Retirement Plan (UCRP); and

WHEREAS, The UCRP is unilaterally managed by the Regents of the University of California, and the Regents are explicitly authorized by Section 9 of Article IX of the California Constitution to delegate its authority or functions to its committees, the faculty of the university, or to others; and

WHEREAS, The UCRP is required to remain financially strong so that the University of California may recruit and retain employees who make the University of California a world-class institution and so that employees may retire with dignity and with the benefits they were promised; and

WHEREAS, Shared governance of a pension plan means that pension plan decisions are made by the agreement of trustees representing the employees who are plan participants and the employer; and

WHEREAS, Pension plans with shared governance provide better benefits for workers, and are generally financially healthier and have proven to be far more secure than unilaterally managed plans in that plans with shared governance account for 10 percent of the total assets covered by the federal Pension Benefit Guaranty Corporation and only

account for 1½ percent of the total underfunded plans covered by the Pension Benefit Guaranty Corporation; and

WHEREAS, The Regents of the University of California have taken a contribution holiday for the past 16 years and have not made any contributions to the pension plan since 1990, instead, diverting pension fund assets to finance the Capital Accumulation Provision (CAP) I and II allocations, which provide individual CAP accounts in lieu of wage increases, at a cost of well over 1.2 billion dollars to date; and

WHEREAS, With shared governance, when there is a fund surplus, decisions related to the surplus are agreed upon by trustees representing employees and the employer, and shared governance improves pension security by reducing conflicts of interest and providing broader oversight of pension investments and benefit changes; and

WHEREAS, The California State University and the California Community Colleges sponsor pension plans with shared governance that include board members representing plan participants and the employer; and

WHEREAS, The regents have discussed requiring employees, starting in 2007, to contribute to the UCRP 2 percent of their salary that escalates to 5 percent, while wages at the University of California lag behind other comparable institutions including universities, hospitals, and the California Community Colleges, thereby forcing many employees of the University of California to work multiple jobs to make ends meet; and

WHEREAS, The regents' discussion to restart employee contributions to the UCRP occurred without the benefit of the appropriate actuarial studies of the funded status of the UCRP, which would be performed according to widely accepted actuarial standards and best practices, and without the benefit of an updated actuarial experience study that, according to the UCRP document, was overdue; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California, on behalf of the citizens of California, finds that shared governance of the University of California Retirement Plan is necessary to ensure that significant pension plan decisions are based on full and accurate information, to prevent conflicts of interest from impacting the management and performance of the University of California Retirement Plan, and to ensure that the University of California Retirement Plan is financially sound and well managed in a fair and appropriate manner; and be it further

Resolved, That the Legislature memorializes the Regents of the University of California to provide for shared governance of the University of California Retirement Plan by including trustees

representing the employer and the faculty and staff plan participants, similar to the Public Employees' Retirement System and the State Teachers' Retirement System; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to each board member of the Regents of the University of California and to the President of the University of California.

RESOLUTION CHAPTER 127

Senate Concurrent Resolution No. 55—Relative to autism spectrum disorders.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, Autism and autism spectrum disorders are neurodevelopmental disorders of unknown etiology that may cause significant impairments in language, communications, social interactions, abnormalities in behaviors, and other physical manifestations; and

WHEREAS, Autism is the fastest growing serious developmental disability in California. Presently, one out of every 166 children is afflicted with some form of autism spectrum disorder; and

WHEREAS, Pursuant to Resolution Chapter 124 of the Statutes of 2006, the Legislature established the Legislative Blue Ribbon Commission on Autism to do all the following:

(a) Study and investigate autism issues, including, but not limited to, the early identification of and intervention in autism spectrum disorders and to identify gaps in programs, services, and funding related to the early identification of autism spectrum disorders, and provide recommendations to close the identified gaps.

(b) Identify gaps in programs and services related to the education and treatment of children, adolescents, transitional youth, and adults with autism spectrum disorders.

(c) Provide recommendations for the planning of a comprehensive and integrated continuum of programs, services, and funding that will be required to address the "aging out" of children who comprise the current autism epidemic; and

WHEREAS, The commission is required to submit one or more reports, including its findings and recommendations, to the Legislature and the Governor by September 30, 2007; and

WHEREAS, The commission is currently authorized to act only until November 30, 2007; and

WHEREAS, By extending the authorization of the commission to act through November 30, 2008, the commission would have sufficient time to monitor the degree to which its recommendations are being implemented; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the commission is authorized to act until November 30, 2008.

RESOLUTION CHAPTER 128

Senate Concurrent Resolution No. 58—Relative to including the Mexican Repatriation Program in school curriculum.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, Beginning in 1929, government authorities and certain private sector entities in California and throughout the United States undertook an aggressive, illegal, and unconstitutional program, known as “the Mexican Repatriation Program,” to forcibly remove persons of Mexican ancestry from the United States; and

WHEREAS, In California, approximately 400,000 American citizens and legal residents of Mexican ancestry were relocated to Mexico; and

WHEREAS, In total, an estimated 2 million people of Mexican ancestry were forcibly relocated to Mexico, approximately 1.2 million of whom had been born in the United States, including California; and

WHEREAS, Throughout California, massive raids were conducted on Mexican-American communities, resulting in the clandestine removal of thousands of people, many of whom were never able to return to the United States, their country of birth; and

WHEREAS, These raids also had the effect of coercing thousands of people to leave the United States in the face of threats and acts of violence; and

WHEREAS, These raids targeted persons of Mexican ancestry, with authorities and others indiscriminately characterizing these persons as “illegal aliens,” even when they were United States citizens or permanent legal residents; and

WHEREAS, The Mexican Repatriation Program was a cruel twist of fate for those who were born in the United States, served in the military, and contributed to the nation’s economy; and

WHEREAS, In California and in other states, programs were instituted to unconstitutionally remove persons of Mexican ancestry from the

United States to Mexico by securing transportation arrangements with railroads and shipping companies; and

WHEREAS, As a result of the Mexican Repatriation Program, families were forced to abandon, or were defrauded of, personal and real property, which often was sold by local authorities as “payment” for the transportation expenses incurred in their removal from the United States to Mexico; and

WHEREAS, As another result of the illegal program, United States citizens and legal residents were separated from their families and country, and were deprived of their livelihood and United States constitutional rights; and

WHEREAS, As a further result, United States citizens were deprived of their right to participate in the political process guaranteed to all citizens, thereby resulting in the tragic denial of due process and equal protection of the laws; and

WHEREAS, This deplorable period in United States history has largely gone unnoticed, and the stories of those illegally deported have been largely unheard; and

WHEREAS, Historically, other groups have also experienced a gross violation of their human rights: Japanese-Americans were interned during World War II; millions of Jews and Gypsies were victims of genocide; Native Americans were forced to relocate to reservations; and African-Americans were forced into slavery. Legislation has been used to address these types of human rights violations by offering apology acts, requiring their inclusion in our social studies curriculum, and in some cases, offering compensation for the victims’ losses; and

WHEREAS, The work of educators is to teach children about the mistakes made by our citizens and government during social, political, economic, and war crises. Teaching about these atrocities can help create a more just and accepting pluralistic society so that such acts are not repeated; and

WHEREAS, The inclusion of this historical event in our textbooks and curriculum is vital to giving victims a sense of justice, while ensuring that future generations never forget; and

WHEREAS, The State of California has apologized to those individuals whose basic civil liberties and constitutional rights were violated during the Mexican Repatriation Program (Ch. 663, Stats. 2005); now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the importance of including the aggressive, illegal, and unconstitutional Mexican Repatriation Program in the social studies curriculum and requests that the Curriculum Development and Supplemental Materials Commission and the State

Board of Education include the Mexican Repatriation Program in the 2009 curriculum framework; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Superintendent of Public Instruction, the State Board of Education, all commissioners serving on the Curriculum Development and Supplemental Materials Commission, and the author for further appropriate distribution.

RESOLUTION CHAPTER 129

Senate Concurrent Resolution No. 61—Relative to Carbon Monoxide Awareness Week.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, Carbon monoxide is produced by furnaces, common household appliances, vehicles, generators, fireplaces, and other systems that are powered by the burning of fuel that includes, but is not limited to, natural gas, propane, gasoline, oil, and wood; and

WHEREAS, Carbon monoxide is a colorless, odorless, and tasteless poison gas that can be fatal when inhaled, and it is known as “the silent killer” because it cannot be seen, smelled, or tasted; and

WHEREAS, Carbon monoxide is the leading cause of accidental poisoning deaths in the United States; and

WHEREAS, The Journal of the American Medical Association has determined that carbon monoxide claims more than 2,000 lives each year; and

WHEREAS, The American Association of Poison Control Centers has determined that there are 40,000 emergency room visits from suspected carbon monoxide poisoning, and 20,000 health-related injuries each year; and

WHEREAS, The Mayo Clinic has determined that 51 percent of all carbon monoxide poisoning cases reported involve children six years of age and under; and

WHEREAS, The Consumer Product Safety Commission has determined that older adults more frequently have preexisting health conditions that affect the heart, lungs, and circulatory system, and the presence of one or more of these conditions lowers a victim’s tolerance and increases the risk of a fatal carbon monoxide exposure; and

WHEREAS, In 2001, 25 percent of the carbon monoxide poisoning deaths from home-related products were adults 65 years of age and older; and

WHEREAS, A January 2006 article in the Journal of the American Medical Association showed that, for individuals who had been involved in carbon monoxide poisoning and survived, there was a three-fold increase in coronary artery disease seven years later when compared to patients who were not poisoned; and

WHEREAS, The Carbon Monoxide Health and Safety Association has determined that the combined medical cost of carbon monoxide accidents, lost productivity, and lost wages amounts to \$8.8 billion per year; and

WHEREAS, The State Air Resources Board has determined that, on average, between 30 and 40 avoidable deaths occur in California each year due to unintentional carbon monoxide poisoning, as well as between 175 and 700 avoidable emergency room visits and hospitalizations, and between hundreds and thousands of avoidable illnesses; and

WHEREAS, Public education and awareness about carbon monoxide poisoning are critical to protecting residents of California from the dangers of this deadly gas and the risk factors in the home; and

WHEREAS, Carbon monoxide alarms have been determined to be the most effective way to detect carbon monoxide and there is a dramatic correlation between carbon monoxide alarm ordinances in cities and lower death rates from carbon monoxide; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby recognizes and declares the second week of November as Carbon Monoxide Awareness Week and urges the State Fire Marshal, local fire departments, public schools, and all other interested persons or organizations to initiate awareness activities during that week to alert the general public to the dangers of carbon monoxide poisoning and ways to reduce the risk factors in their homes; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the State Fire Marshal and to the author for appropriate distribution.

RESOLUTION CHAPTER 130

Senate Concurrent Resolution No. 62—Relative to Alzheimer's Disease Awareness Month.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, Alzheimer's disease is a slow, progressive disorder of the brain that results in loss of memory and other cognitive function and, eventually, death; and

WHEREAS, Alzheimer's disease affects an estimated five million Americans, and that number is expected to quadruple by 2050, according to recent research by the Johns Hopkins Bloomberg School of Public Health; and

WHEREAS, Alzheimer's disease is the eighth leading cause of death in California, and is currently the fifth leading cause of death in California among individuals over 65 years of age; and

WHEREAS, The stigma associated with Alzheimer's disease typically results in a delay in the diagnosis of affected individuals, in some cases up to six years; and

WHEREAS, Caregivers for individuals with Alzheimer's disease suffer from increased levels of stress and depression, which can create health problems that differ from those of caregivers of people with other illnesses; and

WHEREAS, Recent advancements in scientific research have demonstrated the benefits of early medical treatment for individuals with Alzheimer's disease, as well as the benefits of early access to counseling and other support services for their caretakers; and

WHEREAS, With early diagnosis, individuals affected with Alzheimer's disease can avoid or correct contributing medical problems, commence available therapy, organize current and future care, and enhance self-determination, and caregivers for Alzheimer's disease patients can identify and embrace support services; and

WHEREAS, National Memory Screening Day was established by the Alzheimer's Foundation of America in 2003 as a collaborative effort with local organizations and health care professionals across the country to promote awareness, early detection, and early diagnosis of memory impairment so that individuals can obtain proper medical treatment, social services, and other resources related to their condition; and

WHEREAS, National Alzheimer's Disease Awareness Month is November, and National Memory Screening Day is held each November in recognition of National Alzheimer's Disease Awareness Month; and

WHEREAS, During National Alzheimer's Disease Month and National Memory Screening Day, qualified health professionals administer free face-to-face memory screenings at hundreds of sites throughout the United States; and

WHEREAS, Memory screening is not used to diagnose any illness, but is used as an indicator to determine whether a person might benefit from further examination by a qualified physician; and

WHEREAS, Memory screenings are a safe and cost-effective intervention to direct at-risk individuals to appropriate clinical resources, thus reducing the costs of long-term care or hospitalization resulting from undiagnosed complications; and

WHEREAS, Screenings also greatly benefit those with normal scores by allaying fears, providing a baseline for future screenings, and promoting chronic disease prevention and successful aging; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature designates November 2007 as Alzheimer's Disease Awareness Month in the State of California to raise awareness about the importance of early diagnosis and treatment of Alzheimer's disease; and be it further

Resolved, That the Legislature designates Tuesday, November 13, 2007, as National Memory Screening Day and urges the citizens of California to participate in a free and confidential memory screening program; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 131

Senate Concurrent Resolution No. 65—Relative to adoption.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, Each year in California nearly 485,000 reports are made of child abuse and neglect, and some 26,000 children enter foster care; and

WHEREAS, About 77,000 children in California live apart from their families in child welfare supervised out-of-home care; and

WHEREAS, Nearly half of the children in foster care in California have been away from their families in out-of-home care for two or more years; and

WHEREAS, Of the 36,000 children leaving foster care between July 2005 and June 2006, 55 percent were reunited with their families, 20 percent were adopted, and 12 percent were emancipated; and

WHEREAS, Local courts and communities throughout California have created programs promoting permanency that have resulted in a decrease in the number of children waiting for permanent, safe homes; and

WHEREAS, The Judicial Council is committed to working with the Governor, the Legislature, and local courts and communities to achieve permanency for children who have been abused or neglected; and

WHEREAS, The California Blue Ribbon Commission on Children in Foster Care was appointed by the Judicial Council to recognize that the courts and their partners can improve safety, permanency, well-being, and fairness outcomes for children and families; and

WHEREAS, The Senate and the Assembly are committed to working together to improve outcomes for children in the child welfare system; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby designates November 2007 as Court Adoption and Permanency Month, during which the courts and their local communities are encouraged to join in activities to expedite permanency for children who have been abused or neglected; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 132

Senate Concurrent Resolution No. 66—Relative to QUALCOMM Million Dollar Challenge Commemorative Week.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, The Challenged Athletes Foundation (CAF) was established in 1997 to provide opportunities and support for people with physical disabilities so that they can pursue active lifestyles through physical fitness and competitive athletics; and

WHEREAS, CAF has raised more than \$11 million dollars thereby allowing it to satisfy more than 2,500 funding requests from challenged athletes in all 50 states and 10 countries; and

WHEREAS, The QUALCOMM Million Dollar Challenge is a seven-day, 600-mile bicycle ride down the California coastline from San Francisco to San Diego, beginning on Saturday, October 20, 2007, with an arrival in San Diego on Friday, October 26, 2007, and including an optional 56-mile final stage on Sunday, October 28, 2007; and

WHEREAS, The money raised from the QUALCOMM Million Dollar Challenge will help seed a capital campaign for the construction of a CAF headquarters facility, unless otherwise directed by the donor, in which case the donation will be applied towards payment for handcycles,

racing chairs, sports chairs, and sports prosthetics for challenged athletes, as well as helping to subsidize the competition expenses and training expenses of challenged athletes; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the week of October 20 to October 28, 2007, is hereby declared to be QUALCOMM Million Dollar Challenge Commemorative Week; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 133

Senate Joint Resolution No. 13—Relative to the César Estrada Chávez Study Act of 2007.

[Filed with Secretary of State September 18, 2007.]

WHEREAS, There are no historical, geographical, or cultural designations in the National Park Service honoring or recognizing the Latino community; and

WHEREAS, The life of César Estrada Chávez, by chronicling the history of agricultural labor in the west, provides the National Park Service an opportunity to redress this omission; and

WHEREAS, César Estrada Chávez was a preeminent civil rights and labor leader who championed the use of nonviolent means to achieve social change; and

WHEREAS, César Estrada Chávez founded and led the National Farm Workers Association, which became the United Farm Workers of America; and

WHEREAS, César Estrada Chávez has taken his place among other national labor leaders in the United States Department of Labor's Hall of Fame; and

WHEREAS, In 1994, César Estrada Chávez was posthumously awarded the Presidential Medal of Freedom, the highest honor given to civilians by the United States of America; and

WHEREAS, President William J. Clinton described César Estrada Chávez as "one of our greatest advocates for nonviolent change," and Senator Robert F. Kennedy described Mr. Chávez as "one of the heroic figures of our time"; and

WHEREAS, In celebration of the life of César Estrada Chávez, California established a state holiday on March 31, Mr. Chávez's birthday; and

WHEREAS, Since the death of César Estrada Chávez, communities across the nation have renamed schools, parks, streets, libraries, other public facilities, awards, and scholarships in his honor; and

WHEREAS, The César Estrada Chávez Study Act of 2007 (H.R. No. 359, 110th Cong., 1st Sess., (2007)) would authorize the Secretary of the Interior to conduct a special resource study of sites in Arizona, California, and other states significant to the life of César Estrada Chávez and the United States farm labor movement, to determine whether any of the sites examined meets the criteria for listing on the National Register of Historic Places or designation as a national historic landmark; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully requests the President and Congress of the United States to enact H.R. 359, the César Estrada Chávez Study Act of 2007; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 134

Assembly Concurrent Resolution No. 11—Relative to Domestic Violence Awareness Month.

[Filed with Secretary of State September 21, 2007.]

WHEREAS, Home should be a place of warmth, unconditional love, and security; however, for many Americans, home is tainted with violence and fear; and

WHEREAS, Domestic violence is much more than the occasional family dispute; and

WHEREAS, Domestic violence, also known as intimate partner violence, is a pattern of assaultive or coercive behaviors that may include inflicted physical injury, psychological abuse, sexual assault, progressive social isolation, stalking, deprivation, intimidation, and threats; these behaviors are perpetrated by someone who is, was, or wishes to be involved in an intimate or dating relationship with an adult or adolescent, and are aimed at establishing control by one partner over another; and

WHEREAS, According to the Surgeon General, United States Public Health Service, domestic violence is a societal problem of epidemic proportions; and

WHEREAS, Domestic violence is a serious criminal justice and public health problem. In the most recent (July 2000) National Violence Against Women Survey, 1.5 percent of surveyed women and 0.9 percent of surveyed men said they were physically assaulted or raped by a partner in the previous 12 months; according to these estimates, approximately 1.5 million women and 835,000 men are physically assaulted or raped by an intimate partner annually in the United States; cumulatively, an estimated 25 percent of women and 8 percent of men in the United States have been physically or sexually abused by an intimate partner at some point in their lives; and

WHEREAS, Many victims are victimized more than once and the number of intimate partner victimizations exceeds the number of intimate partner victims annually. Thus, approximately 5 million intimate partner rapes and physical assaults are perpetrated against women in the United States annually, and approximately 3 million intimate partner physical assaults are committed against men in the United States annually; and

WHEREAS, Women are 10 times more likely than men to be victimized by an intimate partner, and young women, women who are separated, divorced, or single, low-income women, and African American women are disproportionately victims of assault and rape. More than 11 percent of women who lived with a woman as part of a couple reported being raped, physically assaulted, or stalked by a female cohabitant, and over 30 percent of the women who married or lived with a man as part of a couple reported this type of violence by a husband or male cohabitant; and

WHEREAS, Approximately 15 percent of the men who lived with a man as a couple reported being raped, physically assaulted, or stalked by a male cohabitant and 8 percent of the men who married or lived with a woman as a couple reported this type of violence by a wife or female cohabitant; and

WHEREAS, Most intimate partner victimizations are not reported to the police, so that approximately only one-fifth of all rapes, one-quarter of all physical assaults, and one-half of all stalkings perpetrated against females by intimate partners were reported to the police, and even fewer rapes, physical assaults, and stalkings perpetrated against males by intimate partners were reported; and

WHEREAS, Domestic violence has serious health consequences: the immediate injuries sustained by victims during violent episodes can be severe and sometimes fatal, while physical and psychological abuse has been linked to a number of adverse medical health effects; domestic

violence is linked to 8 of 10 of the leading indicators for Healthy People 2010; the health effects of intimate partner violence often persist for years after the abuse has ended; and

WHEREAS, The costs of domestic violence are substantial. The Centers for Disease Control and Prevention (CDC) estimated in 1995 that the total cost of intimate partner violence against adult women was approximately \$5.8 billion; the great majority of these costs, more than \$4 billion, were for health care services; and

WHEREAS, The millions of members of the United States medical community annually treat millions of intimate partner rapes and physical assaults. Of the estimated 4.8 million intimate partner rapes and physical assaults perpetrated against women annually, approximately 2 million result in an injury to the victim and almost 600,000 result in some type of medical treatment of the victim. Of the estimated 3 million intimate partner physical assaults perpetrated against men annually, almost 600,000 result in an injury to the victim, and almost 125,000 result in some type of medical treatment of the victim. Many medically treated victims receive multiple forms of care, including, but not limited to, ambulance services, emergency room care, or physical therapy, as well as multiple treatments, including, but not limited to, several days of hospitalization for the same victimization; and

WHEREAS, Women who are battered have more than twice the health care needs and costs than those who are never battered. Approximately 17 percent of pregnant women report having been battered, and the results include miscarriages, stillbirths, and a two to four times greater likelihood of bearing a low birth weight baby. Abused women are disproportionately represented among the homeless and suicide victims. Victims of domestic violence are being denied insurance in some states because the victims are considered to have a preexisting condition; and

WHEREAS, The health consequences of intimate partner violence are not limited to the adult partner being abused; between 3.3 million and 10 million children witness violence in their homes and studies have indicated that violent juvenile offenders are four times more likely to have grown up in homes where they saw violence, and children who have witnessed violence at home are also five times more likely to commit or suffer violence when they become adults; and

WHEREAS, According to the United States Department of Labor, one million people are assaulted and injured every year as a result of workplace violence, one thousand people are killed every year due to workplace violence, 30 percent of battered women lose their jobs due to harassment at work by abusive husbands and boyfriends, domestic violence rates are five times higher among families below poverty levels,

and severe spousal abuse is twice as likely to be committed by unemployed men as by those working full time; and

WHEREAS, Intimate partner violence, regardless of gender, affects families across America in all socioeconomic, racial, and ethnic groups; and

WHEREAS, Identifying and responding to abuse can make a difference. Models developed to identify other chronic health problems can effectively be applied to intimate partner violence; routine inquiry of all patients by skilled health care professionals increases opportunities for both identification and effective interventions, validates intimate partner violence as a serious public health issue, and enables providers to assist both victims and their children; and

WHEREAS, More than one-half of the number of women in need of shelter from an abusive environment may be turned away from a shelter due to lack of space; and

WHEREAS, Women are not the only targets of domestic violence: young children, elderly persons, men, and those with disabilities are also victims in their own homes; and

WHEREAS, Emotional, physical, and psychological scars are often permanent; and

WHEREAS, A coalition of organizations has emerged to confront this crisis directly. Law enforcement agencies, domestic violence hotlines, battered women and childrens' shelters, health care providers, community centers, community-based organizations, faith-based organizations, the courts, and the volunteers that serve those entities are helping in the effort to end domestic violence; and

WHEREAS, It is important to recognize the compassion and dedication of the individuals involved in that effort, applaud their commitment, and increase public understanding of this significant problem; and

WHEREAS, The first Day of Unity was celebrated in October 1981 and was sponsored by the National Coalition Against Domestic Violence for the purpose of uniting battered women's advocates across the nation in an effort to end domestic violence; and

WHEREAS, That one day has grown into a month of activities at all levels of government, aimed at creating awareness about the problem and presenting solutions; and

WHEREAS, The first Domestic Violence Awareness Month was proclaimed in October 1987; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby proclaims the month of October 2007 as Domestic Violence Awareness Month; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the President of the United States, the Governor of the

State of California, the Director of the United States Department of Health and Human Services, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 135

Assembly Concurrent Resolution No. 28—Relative to human trafficking.

[Filed with Secretary of State September 21, 2007.]

WHEREAS, Human trafficking in the United States is on the rise, and combating it must involve the American people and the United States government; and

WHEREAS, The United States is the only nation in history to fight a civil war that resulted in the abolition of slavery, and its government and citizens must once again stand united to successfully defeat the current forms of slavery in the United States and around the world, no matter how long it takes; and

WHEREAS, Americans are committed to individual freedom and will do all they can to help eliminate modern day slavery, which includes human trafficking, early and forced marriage, forced labor, bonded labor, and slavery by descent; and

WHEREAS, Americans will take the necessary steps to nonviolently stop modern day slavery around the world and help its victims find physical, mental, emotional, and spiritual restoration; and

WHEREAS, Beyond all differences of race, creed, or political persuasion, Americans are one people who must face national threats together, and while they now live with a heightened awareness of human trafficking and other forms of modern day slavery, they refuse to allow them to continue; and

WHEREAS, Opposition by the American people will be directed against all individuals, groups, organizations, and nations who support, advance, or commit acts of modern day slavery; and

WHEREAS, Under the guidance of March Against Terror USA, the National Day of Human Trafficking Awareness and the Fight Against Concealed Enslavement (FACE) Program represent an ongoing commitment by the American people to year-round awareness of human trafficking and all other forms of modern day slavery; and

WHEREAS, The American people, through their awareness, will assist authorities in whatever it takes to disrupt and defeat the global human trafficking network; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the National Day of Human Trafficking Awareness is recognized by the Legislature on January 11 of each year in order to encourage greater awareness of human trafficking and all other forms of modern day slavery; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 136

Assembly Concurrent Resolution No. 66—Relative to Hydrocephalus.

[Filed with Secretary of State September 21, 2007.]

WHEREAS, Hydrocephalus is a serious neurological condition, characterized by the abnormal buildup of cerebrospinal fluids in the ventricles of the brain; and

WHEREAS, There is no known cure for hydrocephalus, which affects an estimated one million Americans; and

WHEREAS, One or two in every 1,000 babies are born with hydrocephalus; and

WHEREAS, Over 375,000 older Americans have hydrocephalus, which often goes undetected or is misdiagnosed as dementia, Alzheimer's disease, or Parkinson's disease; and

WHEREAS, With appropriate diagnosis and treatment people with hydrocephalus are able to live full and productive lives; and

WHEREAS, The standard treatment for hydrocephalus was developed in 1952, and carries multiple risks including shunt failure, infection, and overdrainage; and

WHEREAS, There are fewer than 10 centers in the United States specializing in the treatment of adults with normal pressure hydrocephalus; and

WHEREAS, Each year the people of the United States spend in excess of \$1,000,000,000 to treat hydrocephalus; and

WHEREAS, A September 2005 conference sponsored by seven institutes of the National Institutes of Health, and entitled, "Hydrocephalus: Myths, New Facts, Clear Directions," resulted in efforts to initiate new, collaborative research and treatment efforts; and

WHEREAS, The Hydrocephalus Association is one of the nation's oldest and largest patient and research advocacy and support networks for individuals suffering from hydrocephalus; and

WHEREAS, Further research into the epidemiology, pathophysiology, disease burden, and improved treatment of hydrocephalus should be conducted or supported; and

WHEREAS, Public awareness and professional education regarding hydrocephalus should increase through partnerships between the federal government and patient advocacy organizations, such as the Hydrocephalus Association; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature proclaims the month of September as Hydrocephalus Awareness Month; and be it further

Resolved, That the Legislature of the State of California respectfully urges the President and Congress of the United States to collect comprehensive statistics and data regarding the seriousness of hydrocephalus and its impact on families; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of the resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 137

Assembly Concurrent Resolution No. 67—Relative to Voter Registration Month.

[Filed with Secretary of State September 21, 2007.]

WHEREAS, The Presidential primary election is one of the first steps in electing a President for the United States, and on February 5, 2008, California will conduct its earliest Presidential primary election ever; and

WHEREAS, The Presidential primary election was moved to increase California's relevance in the Presidential primary process, and this is a unique opportunity for California's voters to play a significant role in choosing the Presidential nominees; and

WHEREAS, By moving California's Presidential primary election to February, candidates for President will be visiting California as part of their efforts to win the nomination instead of focusing merely on fundraising; and

WHEREAS, While more than 15.6 million Californians are registered to vote, an additional 7 million are eligible but have not yet registered; and

WHEREAS, To participate in the February 2008 Presidential primary election as an eligible voter, an individual must be a United States citizen, a resident of California, at least 18 years of age at the time of the primary

election, not in prison or on parole for a felony conviction, and not deemed mentally incompetent; and

WHEREAS, There are numerous ways that voters may register to vote, including calling a toll-free voter registration hotline maintained by the Secretary of State to request a voter registration application, using the Internet to go online and request a voter registration application, going in person to the Department of Motor Vehicles and completing an affidavit of voter registration, downloading a form from the Secretary of State and returning it by mail and completing an affidavit of registration during a community voter registration drive; and

WHEREAS, Many people are unaware that they should reregister to vote when they have changed their residences, when they wish to change political party affiliation, and when names are legally changed; and

WHEREAS, The deadline for eligible voters to register to vote in the February 5, 2008, Presidential primary election is January 22, 2008; and

WHEREAS, There is an ongoing need for every eligible Californian to exercise his or her civic duty by participating in the voting process; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby proclaims the month of January 2008 as Voter Registration Month; and be it further

Resolved, That the Legislature encourages all eligible Californians to register to vote by January 22, 2008, in order that they can vote in the February 5, 2008, Presidential primary election; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 138

Assembly Concurrent Resolution No. 68—Relative to Neuropathy Action Awareness Day.

[Filed with Secretary of State September 21, 2007.]

WHEREAS, Peripheral neuropathy is a disorder that results from functional impairment or damage to nerves peripheral to the brain and spinal cord; and

WHEREAS, An estimated 20 million people in the United States suffer from peripheral neuropathy, which manifests itself in many forms, including acute motor paralysis, subacute sensorimotor paralysis, and chronic sensorimotor paralysis; and

WHEREAS, Peripheral neuropathy can result from such different causes as metabolic disease, viral and bacterial infection, physical injury, poisoning, malnutrition, and genetic disorder; and

WHEREAS, Clinical symptoms can indicate the existence of peripheral neuropathy, but precise diagnosis requires review and analysis of medical history, physical examination, medical testing, and exclusionary treatments; and

WHEREAS, Peripheral neuropathy is preventable only to the extent that the underlying cause is preventable, requiring the individual patient's alert awareness of bodily deficiency, illness, infection, or injury that can cause peripheral neuropathy, and the individual's willingness to seek early diagnosis and treatment; and

WHEREAS, The Neuropathy Action Foundation has been established to inform people of peripheral neuropathy, educate them on its symptoms and best preventive practices, and promote medical research toward improved methods of diagnosing and treating peripheral neuropathy; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That June 26, 2008, is hereby declared as Neuropathy Action Awareness Day in California to raise public awareness regarding the symptoms and treatment of peripheral neuropathy; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 139

Assembly Concurrent Resolution No. 71—Relative to blood-related cancers.

[Filed with Secretary of State September 21, 2007.]

WHEREAS, Blood cancers currently afflict more than 823,000 Americans, with an estimated 135,520 new cases diagnosed each year; and

WHEREAS, Leukemia, lymphoma, and myeloma will kill an estimated 52,310 people in the United States this year; and

WHEREAS, The Leukemia & Lymphoma Society, through voluntary contributions, is dedicated to finding cures for these diseases through research efforts and the support of those that suffer from them; and

WHEREAS, The Leukemia & Lymphoma Society maintains seven chapters and three satellite offices in the State of California to support patients with these diseases and their family members; and

WHEREAS, The State of California is similarly committed to the eradication of these diseases and supports the treatment of its citizens that suffer from them; and

WHEREAS, The State of California encourages efforts to enhance research funding and education programs that address these diseases; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That Members of the Legislature join with the Leukemia & Lymphoma Society in designating the month of September 2007, as “Leukemia, Lymphoma, and Myeloma Awareness Month,” in order to enhance the understanding of blood-related cancers and to encourage participation in voluntary activities to support education programs and the funding of research programs to find a cure for them; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor of the State of California and to the author for appropriate distribution.

RESOLUTION CHAPTER 140

Assembly Concurrent Resolution No. 72—Relative to California Native American Day.

[Filed with Secretary of State September 21, 2007.]

WHEREAS, California is home to more federally recognized Indian tribes than any other state in the United States; and

WHEREAS, The cultural and governmental contributions of the native peoples of California have shaped the course for the state throughout history; and

WHEREAS, California designated the fourth Friday of every September as California Native American Day; and

WHEREAS, California Native American Day is celebrated in this state by tribes and communities across the state, and is a day for educators of California to teach factual California Indian history in schools; and

WHEREAS, California Indian tribes are committed to contributing to the educational curricula provided by the state and believe in providing new and improved educational resources about the varied cultural histories of, and governance models used by, California Native Americans; and

WHEREAS, Since 1999, the San Manuel Band of Mission Indians, in conjunction with the California State University at San Bernardino,

have conducted a program to share Native American culture with the children and educators of San Bernardino County; and

WHEREAS, This year the San Manuel Tribal Unity and Cultural Awareness Program and the Santos Manuel Student Union at the California State University at San Bernardino are cosponsors of a five-day conference designed to enhance the awareness of and discuss California Indian culture; and

WHEREAS, The California Indian Cultural Awareness Conference will be held concurrently with California Native American Day and will assist educators by providing new educational resources regarding the rich and varied lives of the California Indian Nations; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature recognizes the importance of California Native American Day, celebrated this year on September 28, 2007, and the annual California Cultural Awareness Conference to the enhancement of awareness of California Indian culture; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 141

Assembly Concurrent Resolution No. 64—Relative to the 20-year anniversary of the California Vietnam Veterans Memorial.

[Filed with Secretary of State September 25, 2007.]

WHEREAS, California has the largest United States veterans' population in the nation, comprising some 3.3 million armed services veterans, which is 12.3 percent of the nationwide veteran population of nearly 27 million veterans, who represent an impressive one-fifth of California's total population; and

WHEREAS, More than 350,000 California veterans served in Vietnam, that resulted in 40,000 of them being wounded and 5,822 being killed or missing in action, which comprised more than 10 percent of the nation's total; and

WHEREAS, More California residents died in Vietnam than residents of any other state, and California veterans received more Medals of Honor, Bronze Stars, and Purple Hearts than veterans of any other state; and

WHEREAS, The history of the California Vietnam Veterans Memorial began when Herman Woods, a double amputee who served in the 1st

Air Cavalry Division, United States Army (1970), returned to California from the dedication of the National Vietnam Veterans Memorial in our nation's capitol, Washington, D.C.; and

WHEREAS, Assembly Member Richard Floyd subsequently held a rally on the steps of the State Capitol to confirm community support for the measure, and when 800 people attended, he was convinced that construction of the California Vietnam Veterans Memorial was the will of the people; and

WHEREAS, Assembly Member Richard Floyd introduced Assembly Bill 650, which created the California Vietnam Veterans Memorial in Capitol Park, that was signed into law by Governor Deukmejian in September, 1983; and

WHEREAS, The California Vietnam Veterans Memorial is located in the north-east section of the Capitol Park grounds of the State Capitol and is a standing tribute to the 5,822 servicemen and servicewomen killed and missing in action; and

WHEREAS, The 3,750 square foot structure lies near the World Peace Rose Garden, a new historic landmark, and is surrounded by lush greenery and other points of historical interest; and

WHEREAS, The California Vietnam Veterans Memorial was dedicated on December 10, 1988, in Capitol Park; and

WHEREAS, There were hundreds in attendance at the dedication ceremonies; and

WHEREAS, Events surrounding the dedication were spread out over a two-day period, commencing with "Buddy Search" registrations, reunions, open houses, and concluding with the dedication ceremony in Capitol Park; and

WHEREAS, Additional activities included a five-hour reading of the Memorial names at Westminster Chapel near the park, a showing of "Dear America: Letters Home from Vietnam" at the nearby Crest Theater, and a march from Capitol Mall to the Memorial, where Brigadier General George B. Price was the keynote speaker at the dedication and Kelvin H. Hunter, Jr., a retired army colonel, was the dedication coordinator; and

WHEREAS, The newly formed Vietnam Veterans Memorial Commission was comprised of nine veterans, eight of whom served in Vietnam, including, Linda J. McClenahan, Chairperson, Leo K. Thorsness, Congressional Medal of Honor winner and Vice Chairperson, Gregory C. Green, Treasurer, Abel A. Cota, Secretary, B.T. Collins, member, Don A. Drumheller, member, Jesse G. Ugalde, member, Senator Jim Ellis, member, Assembly Member Richard E. Floyd, member and author of Assembly Bill 650, and Jerri L. Dale, Executive Officer, which led to the creation of the California Vietnam Veterans Memorial, the

theme of which reflects the overwhelming majority of those who were killed in Vietnam, including 19-year old infantry soldiers, their youth, camaraderie, the fatigue of the war, and the American women who served, with the winning entry in the opening design competition awarded to Michael Larson, a Marine Corps Vietnam veteran, and Thomas Chytrowski; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby commemorates 2008 as the 20-year anniversary of the California Vietnam Veterans Memorial, encourages all Californians to take part in the ceremonies commemorating the 20-year anniversary, to be held on December 10, 2008, including opening ceremonies, and urges that all steps necessary to inform all Californians of the date of these ceremonies and locations of these events be taken, so that all Californians may have the opportunity to remember and honor the service, efforts, and sacrifices of Vietnam veterans, and to pay homage to those veterans who are still alive; and be it further

Resolved, That the Chief Clerk of the Assembly provide copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 142

Assembly Concurrent Resolution No. 74—Relative to California Firefighters Memorial Day.

[Filed with Secretary of State September 25, 2007.]

WHEREAS, The dedicated men and women who risk their lives serving and protecting the citizens and property of the state of California, and who, through their work as firefighters, put themselves in harm's way on a daily basis; and

WHEREAS, Their steadfast commitment to public service and unwavering courage in the face of danger should not go unrecognized; and

WHEREAS, It is a harsh reality of the firefighting profession that too often these champions of public service and safety lose their lives in the line of duty, protecting and preserving the beauty of this state and its people; and

WHEREAS, On the grounds of the State Capitol there exists a memorial bearing the names of over 1,000 fallen firefighters, who will forever be remembered for their bravery, humility, and selflessness; and

WHEREAS, On September 29, 2007, firefighters and their families will gather at the State Capitol with other Californians to remember those whose lives were lost in the line of duty this year and in years past, as part of the 2007 California Firefighters Memorial annual ceremony; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby proclaims Saturday, September 29, 2007, as California Firefighters Memorial Day, and urges all Californians to remember those firefighters who have given their lives in the line of duty and to express appreciation to those who everyday continue to protect our families, hopes, and dreams; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

RESOLUTION CHAPTER 143

Assembly Joint Resolution No. 18—Relative to naturalization.

[Filed with Secretary of State September 25, 2007.]

WHEREAS, California is home to many hard-working, taxpaying, legal permanent residents who are eager to become full-fledged Americans by pursuing the dream of United States citizenship; and

WHEREAS, On May 30, 2007, the United States Citizenship and Immigration Services (USCIS) issued a final rule increasing the fees for starting the naturalization process from \$400 to \$675, an increase of 69 percent; and

WHEREAS, Under the final rule, which was published in the Federal Register on May 30, 2007, at 72 Fed. Reg. 29851, the fee hike went into effect on July 30, 2007; and

WHEREAS, Naturalization fees have been soaring since 1991, when newcomers paid \$90 to apply for United States citizenship; and

WHEREAS, Naturalization fee increases result from our nation's system of financing immigration services, which requires the USCIS to rely almost exclusively on application fees to fund the delivery of services to immigrants; and

WHEREAS, The USCIS believes that it needs this massive fee hike to pay for major infrastructure investments and process enhancements, such as improvements in the timeliness of background checks, modernization of its outdated business systems through technology upgrades, facilities improvements, and enhancements in its personnel training and recruitment programs; and

WHEREAS, The USCIS has not adequately explained or justified the amounts and distributions of its recent fee increases; and

WHEREAS, The USCIS had produced no specific, detailed plan for its infrastructure modernization efforts; and

WHEREAS, The USCIS has suffered from a lack of transparency and stability in its operations and policy development; and

WHEREAS, There are at least 2.3 million legal permanent residents in California who are eligible to apply for United States citizenship; and

WHEREAS, According to data from the 2000 census, about one-third (36 percent) of California noncitizen households have annual incomes that are less \$25,000; and

WHEREAS, The fee increase will be a nearly insurmountable barrier in the path of legal permanent residents who seek to naturalize, many of whom have limited financial resources; and

WHEREAS, We believe that our system for funding immigration services should be a partnership between newcomers and the federal government where applicants pay a reasonable fee for quality service; and

WHEREAS, House Joint Resolution 47, introduced into the United States House of Representatives on June 30, 2007, disapproves of the final rule implementing the fee increase and declares that the rule shall have no force or effect; and

WHEREAS, The fee increase is contrary to the spirit of our nation's and state's tradition of welcoming and integrating immigrants, and sends newcomers the wrong message at a time when they are seeking to embrace United States citizenship; and

WHEREAS, Naturalization benefits California by helping to ensure that newcomers become full participants in our nation's civic life; and

WHEREAS, The full participation of newcomers enriches and maintains the vitality of our democracy; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature adamantly opposes the fee increase by USCIS and demands a halt on the fee increase for all naturalization applications; and be it further

Resolved, That the Legislature expresses its strong support for House Joint Resolution 47, and calls upon all members of California's Congressional delegation to cosponsor and support the swift enactment of the resolution; and be it further

Resolved, That the Legislature calls on the Director of the USCIS to immediately provide President George W. Bush and the Congress with accurate information to ascertain the amount of federal appropriations that would be needed to enable the USCIS to modernize its operations,

and enhance its naturalization services, without raising the naturalization fee; and be it further

Resolved, That the Legislature calls on President George W. Bush and the Congress to address the fundamental problems in our nation's system for financing immigration services by providing appropriations to supplement fee revenue to cover costs of major USCIS expenses such as infrastructure investments, process enhancements, and capital improvements; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of the United States Citizenship and Immigration Services, the President of the United States, all members of California's Congressional delegation, the Speaker of the House of Representatives, and the President pro Tempore of the Senate for inclusion in the Congressional Record.

RESOLUTION CHAPTER 144

Assembly Joint Resolution No. 34—Relative to National Lupus Awareness Month.

[Filed with Secretary of State September 25, 2007.]

WHEREAS, Lupus is a serious, complex, and debilitating autoimmune disease that can cause inflammation and tissue damage to virtually any organ system in the body, including the skin, joints, other connective tissue, blood and blood vessels, heart, lungs, kidney, and brain; and

WHEREAS, It is estimated that approximately 1,500,000 to 2,000,000 Americans live with some form of lupus. Lupus typically affects women nine times more often than men, and 80 percent of newly diagnosed cases of lupus develop among women of child bearing age; and

WHEREAS, Lupus disproportionately affects women of color; being two to three times more common among African-Americans, Hispanics, Asians, and Native Americans, and is generally more prevalent in minority populations; a health disparity that remains unexplained. According to the Centers for Disease Control and Prevention, the rate of lupus mortality has increased since the late 1970s and is higher among older African-American women; and

WHEREAS, There have been no new drugs approved by the federal Food and Drug Administration (FDA) specifically for lupus in nearly 40 years, and, while current treatments for the disease can be effective, those treatments can lead to damaging side effects; and

WHEREAS, The pain and fatigue associated with lupus can threaten people's ability to live independently and make it difficult to maintain employment and lead normal lives. One in five people diagnosed with lupus is disabled by the disease, and, as a consequence, receives support from government programs, including Medicare, Medicaid, Social Security Disability, and Supplemental Security Income; and

WHEREAS, The estimated average annual cost of medical treatment for an individual with lupus can range between \$10,000 and \$30,000; and

WHEREAS, For people who have the most serious form of lupus, medical costs can greatly exceed that amount, thus causing a significant economic, emotional, and social burden to families and society; and

WHEREAS, Many of the people with lupus suffer four or more years and visit three or more physicians before obtaining a diagnosis of lupus, and early diagnosis of, and commencement of treatment for, lupus can prevent or reduce serious organ damage, disability, and death; and

WHEREAS, Despite the magnitude of lupus and its impact on individuals, families, and health professionals, public understanding of lupus is very limited. Only one in five Americans can provide even basic information about lupus, and awareness of lupus is lowest among adults ages 18 to 34 years, the age group most likely to develop symptoms of lupus; and

WHEREAS, Lupus is a significant national health issue that deserves a comprehensive and coordinated response by federal and state governments with the involvement of health care providers, patients with lupus, and public health communities; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the month of October 2007 be designated as "National Lupus Awareness Month" and that the private sector and the state and federal governments are encouraged to promote policies and programs that seek to reduce the incidence of lupus, and improve current methods of prevention, detection, treatment, and followup care for all Californians; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 145

Assembly Concurrent Resolution No. 55—Relative to character education in public schools.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, California's interest in character education has been progressing from the 1980s, when Senator Albert Rodda initiated a select bipartisan committee on character education. Interest has since been advanced by the Superintendent of Public Instruction, the State Board of Education, presidents of the United States, and more recently, by state legislative and congressional leaders; and

WHEREAS, Section 233.5 of the Education Code authorizes the provisions of character education; and

WHEREAS, Good character, citizenship, and ethics are essential to developing an inclusive society, restoring public confidence in our institutions, and preparing literate, skilled, and responsible participants in our schools, government, workplaces, and local communities; and

WHEREAS, Character education addresses common virtues and behaviors that support respect, responsibility, trustworthiness, justice, fairness, caring, giving, service, leadership, initiative, and teamwork; and

WHEREAS, Good character, citizenship, and ethics also relate to the closing of the academic achievement and participation gaps that currently exist between pupils in our public schools; and

WHEREAS, Implementing California's standards for core subject matter areas may be enhanced by character education, which may increase commitment to instructional priorities, academic rigor, and discipline, and may improve school performance and provide the opportunity for full citizenship; and

WHEREAS, Good character, citizenship, and ethics begin with good role models and leadership in our homes, communities, and schools; and

WHEREAS, The character, citizenship, and ethics that are expected in our society and government, and the rights, responsibilities, and participation of citizens should be a continual and meaningful part of character education for every pupil in prekindergarten through grade 12; and

WHEREAS, The importance of character, citizenship, and ethics cannot be underestimated in establishing a positive school climate for pupils, and is the shared responsibility of the entire education community; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature urges the State Board of Education,

county offices of education, and local school governing bodies to examine current practices, to increase emphasis on character, citizenship, and ethics in order to close the achievement and participation gaps so that all pupils are successful, and to have the highest ethical standards and practices demonstrated by school officials; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the State Board of Education, the Superintendent of Public Instruction, boards of education and administrators of county offices and school districts, and to the author for distribution.

RESOLUTION CHAPTER 146

Assembly Concurrent Resolution No. 56—Relative to Mesothelioma Awareness Week.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, Exposure to asbestos can cause malignant tumor growth resulting in a rare form of cancer called mesothelioma as well as diffuse pleural thickening of the lung tissue and fibrosis causing lung cancer; and

WHEREAS, Workers in the building and construction trades, shipping industry workers, firefighters, and military personnel are heavily impacted by exposure to asbestos; and

WHEREAS, There are three types of malignant mesothelioma, including: (1) pleural mesothelioma, which accounts for 75 percent of mesothelioma cases and starts in the chest cavity, (2) peritoneal mesothelioma, which accounts for about 10 to 20 percent of mesothelioma cases and starts in the abdomen, and (3) pericardial mesothelioma, which is rare and starts in the heart; and

WHEREAS, Each year more than 3,000 Americans are diagnosed with mesothelioma caused by exposure to toxic asbestos; and

WHEREAS, Asbestos is a naturally occurring fiber, and has been used mostly for commercial and industrial purposes, including drywall and insulation materials; and

WHEREAS, Asbestos has been used in older plastics, paper products and floor tiles, thus giving the greatest exposure to those individuals working with those products, or living near manufacturing plants of those products; and

WHEREAS, The survival rate from the onset of mesothelioma symptoms generally ranges from 4 to 12 months; and

WHEREAS, The average age of mesothelioma diagnosis ranges from 50 to 70 years of age; and

WHEREAS, Symptoms of mesothelioma include, among other things, a persistent cough, recurring infections such as bronchitis and pneumonia, shortness of breath, bone pain, jaundice (yellow coloring of the skin and eyes), and chest pain, which is often aggravated by deep breathing; and

WHEREAS, New treatments for mesothelioma have been able to increase the life expectancy of patients by using methods such as gene therapy, immunotherapy, intensity modulated radiation therapy (IMRT) as well as new chemotherapy agents; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature designate the week of June 3, 2007, through June 10, 2007, as Mesothelioma Awareness Week to raise awareness about the symptoms of, and ways of preventing and treating mesothelioma; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Mesothelioma Research Foundation of America, the California Building Trades Association, and to the author for appropriate distribution.

RESOLUTION CHAPTER 147

Assembly Concurrent Resolution No. 70—Relative to Red Ribbon Week.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, Californians for Drug-Free Youth, Inc. (CADFY), a statewide parent-community organization, the office of the Governor, the office of the Attorney General, the Department of Alcohol and Drug Programs, the State Department of Education, the California Parent Teacher Association, and over 100 other statewide agencies, departments, and organizations are cosponsoring October 23 through 31, 2007, as the period that includes Red Ribbon Week; and

WHEREAS, The National Family Partnership, Inc. initiated the Red Ribbon Campaign after Drug Enforcement Administration Agent Enrique “Kiki” Camarena was killed in Mexico by drug traffickers in 1985; and

WHEREAS, Parents, youth, schools, businesses, law enforcement, religious institutions, service organizations, senior citizens, medical and military personnel, sports teams, and individuals throughout the state will demonstrate their commitment to drug-free, healthy lifestyles by

wearing and displaying red ribbons during this weeklong celebration; and

WHEREAS, The theme of this year's effort is "Look at Me. I'm Drug Free"; and

WHEREAS, Drug abuse stands as one of the major challenges our state faces in securing a safe and healthy future for our children; and

WHEREAS, The objective of Red Ribbon Week 2007 will be to promote this view through drug prevention, education, parental involvement, and communitywide support; and

WHEREAS, The Assembly of the State of California has further committed its resources to ensure the success of the Red Ribbon Week celebration; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby proclaims its support for the Red Ribbon Week celebration by proclaiming the period of October 23 through 31, 2007, as including Red Ribbon Week; and be it further

Resolved, That the Legislature encourages all Californians to help build drug-free communities and to participate in drug prevention activities by making a visible statement that we are firmly committed to healthy, productive, and drug-free lifestyles; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, and to the author for appropriate distribution throughout the community.

RESOLUTION CHAPTER 148

Assembly Concurrent Resolution No. 73—Relative to the Nathan Shapell Memorial Highway.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, Nathan Shapell was a man of integrity and principle, a builder of lives who was dedicated to helping others less fortunate. A survivor of the Holocaust, he was determined to not only rebuild his own life, but to help others rebuild theirs. For more than five years after World War II, he built a community for thousands of displaced people and survivors of the camps before emigrating to the United States in the early 1950s; and

WHEREAS, Nathan Shapell built a highly successful real estate development company that is recognized as an industry leader and highly respected as a role model for corporate philanthropy; and

WHEREAS, Nathan Shapell dedicated a major portion of his life to public service. He was a past President and Executive Board Member of the American Academy of Achievement and served as a Member of President Reagan's Private Sector Survey on Cost Control. He founded and cochaired Building a Better Los Angeles, a one-time project that raised over \$1 million for the homeless. In 1987, he accepted the position of President of D.A.R.E. America, a renowned drug abuse resistance education program. In 1992, Governor Pete Wilson appointed him to serve as a member of the California Competitiveness Council and develop recommendations to revitalize California's economy; and

WHEREAS, Nathan Shapell's greatest public contributions were made through his 29 years of service on California's "Little Hoover Commission." As chairman for an unprecedented 18 years of this one-of-a-kind commission, he helped save taxpayers billions of dollars and improve the lives of hundreds of thousands of Californians in areas that include nursing home operations, children's services, property management, transportation, the Medi-Cal program, and public education; and

WHEREAS, Nathan Shapell's commitment to service on behalf of the public was recognized in 1986 when Santa Clara University bestowed upon him an honorary Doctorate of Public Service degree. In 1987, Tel Aviv University awarded Mr. Shapell a Doctor Philosophiae Honoris Causa. He chronicled the early years of his life in his book, "Witness to the Truth"; and

WHEREAS, Mr. Shapell lived in Beverly Hills until his death on March 11, 2007. His daughter and son-in-law, Vera and Paul Guerin, and his grandchildren, Lisa, Dana, and Michael, live in Los Angeles; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby designates the portion of State Highway Route 405 from Howard Hughes Parkway to Mulholland Drive in the County of Los Angeles as the Nathan Shapell Memorial Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs, consistent with the signage requirements for the state highway system, showing this special designation and, upon receiving donations from nonstate sources covering the cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 149

Assembly Concurrent Resolution No. 75—Relative to the Chumash Highway.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, In prehistoric times, the Chumash territory encompassed some 7,000 square miles, and today, this same region in southern central California takes in five counties, including Santa Barbara, Ventura, San Luis Obispo, Los Angeles, and Kern; and

WHEREAS, While some place names in this geographic region reflect their Chumash language origins, the trails and routes that connected them remain unrecognized as the forerunners of today's highways; and

WHEREAS, State Highway Route 154 follows an elaborate Chumash trail network, which linked several hundred early Chumash villages and towns, seasonal encampments, rock art sites, shrines, gathering places, and water sources, and these trails were vital to sustaining cultural longevity for over 8,000 years in this region as they formed the foundation for economic and social exchange among the Chumash; and

WHEREAS, In historic times, routes through the Chumash territory were first recorded in the diaries of the Gaspar de Portola Expedition in 1769, in which it is noted that in many instances Chumash Indians led members of the expedition from one village to another, showing them the trails; and

WHEREAS, Many notable works subsequently validate the location of the Chumash trail system, including along present-day State Highway Route 154; and

WHEREAS, Numerous archaeological sites along State Highway Route 154 further support the historical significance of the area and the trails to the Chumash; and

WHEREAS, It is accordingly appropriate to designate State Highway Route 154 as the Chumash Highway; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That State Highway Route 154 in Santa Barbara County is recognized for its historical importance in Chumash culture; and be it further

Resolved, That State Highway Route 154 is hereby designated as the Chumash Highway; and be it further

Resolved, That the Department of Transportation is requested to determine the cost of appropriate signs consistent with the signing requirements for the state highway system showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of Transportation and to the author for appropriate distribution.

RESOLUTION CHAPTER 150

Assembly Joint Resolution No. 27—Relative to the United States Postal Service.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, Letter carriers of the United States Postal Service provide mail delivery service to over 144 million homes and businesses across the nation; and

WHEREAS, The United States Postal Service increasingly promotes the contracting out of mail delivery services as a key business strategy of its core function; and

WHEREAS, In the last five years the United States Postal Service has contracted out 3.5 million deliveries nationwide, replacing workers who earned living wages and benefits with low-wage contract jobs without benefits; and

WHEREAS, By contracting out letter carrier positions, the United States Postal Service is bypassing the hiring process that ensures that only qualified people handle America's mail; and

WHEREAS, The contracting out of mail delivery services limits the ability of the United States Postal Service to prevent, investigate, and prosecute mail theft, mail fraud, and other illegal issues of the mail; and

WHEREAS, The protection of our mail delivery services is a vital component of our national security; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature urges the United States Postal Service to discontinue the practice of contracting out mail delivery services; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, to the Minority Leader of the Senate, to each Senator and Representative from California in the Congress of the United States, and the United States Postmaster.

RESOLUTION CHAPTER 151

Assembly Joint Resolution No. 28—Relative to union representation.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, In the wake of the Supreme Court ruling in *National Labor Relations Board v. Kentucky River Community Care, Inc.* (2001) 532 U.S. 706, the National Labor Relations Board (NLRB) issued a series of decisions, known collectively as the “Oakwood” decision, that expanded the definition of supervisor to include charge nurses; and

WHEREAS, The NLRB based its decision on the fact that charge nurses have the ability “to assign and responsibly to direct” other coworkers in their daily duties; and

WHEREAS, The NLRB concluded that an employee who has the ability to assign tasks to coworkers for as little as 10 to 15 percent of the time can still be classified as a supervisor; and

WHEREAS, The 10 to 15 percent threshold is so low that a worker who assigns coworkers to tasks only one hour a day or only one shift every two weeks, with tasks for the remaining hours of the day or the remaining shifts assigned by others, could still be deemed a supervisor; and

WHEREAS, The ability to assign and direct coworkers is an essential function for virtually all lead workers in every industry and is not exclusive to supervisory employees; and

WHEREAS, Supervisors are explicitly excluded from protections in the National Labor Relations Act (NLRA), 29 U.S.C. Sec. 151 et seq., including the right to organize and bargain collectively over wages and working conditions without facing employer reprisals; and

WHEREAS, The Oakwood decision calls into question the right of charge nurses to remain in or join unions, potentially stripping away rights from up to 80,000 registered nurses in California; and

WHEREAS, Without bargaining unit protections, lead workers could be stripped of numerous benefits, including the right to overtime pay, seniority bidding, and job security based on the “just cause” requirement; and

WHEREAS, The Oakwood decision focused on nurses, but its rationale could be extended to lead workers in all industries, and a recent report by the Economic Policy Institute estimated that this decision could result in the loss of union rights for 250,000 California workers and up to eight million workers nationwide; and

WHEREAS, Confusion over the meaning of supervisor, in the wake of the Oakwood decision, has led the NLRB to hold dozens of cases, including 60 involving union elections; and

WHEREAS, Union members have demonstrated their outrage against the Oakwood decision in states across the country; and

WHEREAS, The Re-Empowerment of Skilled and Professional Employees and Construction Tradeworkers (RESPECT) Act has been introduced in the United States House of Representatives as H.R. 1644 by Congressman Robert Andrews (D-NJ) and in the United States Senate as S. 969 by Senator Christopher Dodd (D-CT) and enjoys bipartisan support; and

WHEREAS, The RESPECT Act would overturn the NLRB decision by specifying that a supervisor must engage in supervisory acts, in the interest of the employer, for the majority of his or her time, and by deleting the reference to the ability to assign or direct; and

WHEREAS, the RESPECT Act would protect the rights of nurses to engage in collective bargaining, and collective bargaining rights for nurses are critical to the public interest because they are advocates for improved patient care and safety; and

WHEREAS, The RESPECT Act would protect all workers from being misclassified as supervisors and ensure that lead workers in every industry can remain in and join unions to advocate for safer workplaces, work together for better wages and benefits, and have a voice at work; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the California Legislature calls on the President and Congress of the United States to support and pass the bipartisan RESPECT Act; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 152

Assembly Joint Resolution No. 32—Relative to C-17 transport aircraft.

[Filed with Secretary of State October 2, 2007.]

WHEREAS, The C-17 Globemaster III Transport Jet (hereafter C-17 transport aircraft) is a critical component of our Armed Force's ability to effectively deploy strategic military assets in crucial locations around the world in a timely fashion; and

WHEREAS, The C-17 transport aircraft is a proven workhorse of Air Mobility Command and is the only aircraft capable of performing all airlift missions; and

WHEREAS, The highly flexible C-17 transport aircraft is indispensable in the Global War on Terrorism, countless humanitarian missions, numerous peacekeeping missions, and, most recently, aiding victims of Hurricane Katrina; and

WHEREAS, The C-17 transport aircraft is the last wide-body military aircraft production line in the United States; and

WHEREAS, Congress had previously authorized a purchase of 222 C-17 transport aircraft; and

WHEREAS, Boeing has delivered 164 of the 190 C-17 transport aircraft under its current contract with the Pentagon, with the last C-17 transport aircraft currently scheduled to be delivered in August 2009; and

WHEREAS, The Boeing C-17 transport aircraft manufacturing facility and its nationwide supplier network is critical to our regional, state, and national economies; and

WHEREAS, The C-17 transport aircraft program has over 650 suppliers in 42 states, employs approximately 30,000 people, and has a national economic impact of over \$8.4 billion; and

WHEREAS, Boeing employs approximately 5,500 workers in Long Beach, California, at the last remaining aircraft manufacturing facility in this state; and

WHEREAS, Numerous suppliers in California help produce this incredible aircraft and employ approximately 5,300 workers; and

WHEREAS, Unless Boeing receives a solid commitment from the United States Government in the coming months to produce additional C-17 transport aircraft, job losses and other negative impacts to the regional, state, and national economy will begin as early as this year; and

WHEREAS, As stated by Governor Arnold Schwarzenegger in a November 3, 2005, letter to the President of the United States, "The C-17 is performing superbly in the Global War on Terrorism. Our war fighting commanders have testified repeatedly about the importance of the C-17. Despite the obvious need for more C-17s, the Pentagon is delaying its commitment to future orders and threatening the viability of the program"; and

WHEREAS, The Pentagon's independent advisory group, the Defense Science Board, has recommended that the C-17 transport aircraft production line cannot be allowed to close when the current production expires; and

WHEREAS, Closing this program would cede the leadership in the field of aerospace airlift manufacturing to the Europeans, making us reliant on foreign nations to provide us with future airlift capability; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That California fully supports ongoing production at the C-17 transport aircraft production line and supplier network due to the monumental impact it has on the security and safety of the United States and on the economic condition of the entire nation; and be it further

Resolved, That California pledges to support ongoing efforts to secure ongoing production commitments for the C-17 transport aircraft to continue the critical role the C-17 transport aircraft program plays in our community, the nation, and the world; and be it further

Resolved, That California implores the President of the United States, the Congress of the United States, and the military to more quickly make available the funding necessary to ensure the continued vitality of the C-17 transport aircraft production line; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, to the Speaker of the House of Representatives, to the Majority Leader of the Senate, and to each Senator and Representative from California in the Congress of the United States.

2007 – 08

FIRST EXTRAORDINARY SESSION

EXTRAORDINARY SESSION SPECIAL RULES OF EFFECTIVENESS

Except for a statute calling an election, a statute providing for a tax levy or an appropriation calling for the usual current expenses of the state, and an urgency statute, all of which take effect immediately following enactment, a statute adopted during an extraordinary session takes effect on the 91st day following the adjournment of the special session (see subdivision (c) of Section 8 of Article IV of the California Constitution). The effective date of a concurrent or joint resolution is the date it is filed with the Secretary of State.

The 2007–08 First Extraordinary Session convened on September 11, 2007. This Extraordinary Session had not been adjourned prior to publication of this Statutes and Amendments to the Codes. Please refer to the succeeding year's Statutes and Amendments to the Codes.

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

WHEREAS, an extraordinary occasion has arisen and now exists requiring that the Legislature of the State of California be convened in extraordinary session; now therefore,

I, **ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 11th day of September 2007, at a time to be determined, for the following purpose and to legislate upon the following subjects:

1. To consider and act upon legislation to comprehensively reform California's health care system that relies on shared financing and contributions from individuals, employers, health providers, federal, state and local government, and others.
2. To consider and act upon legislation that will provide for health care coverage for all Californians and access to health insurance without regard to medical history.
3. To consider and act upon legislation to make health care more affordable by: (a) reducing the cost to employers and insured individuals associated with uncompensated health care services delivered to the uninsured and low Medi-Cal reimbursement rates, (b) preventing chronic diseases, and (c) promoting more cost effective health care delivery.
4. To consider and act upon legislation to modify or extend existing programs to provide for a transition to comprehensive health care reform.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 11th day of September, 2007.

ARNOLD SCHWARZENEGGER
Governor of California

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

WHEREAS, an extraordinary occasion has arisen and now exists requiring that the Legislature of the State of California be convened in extraordinary session; now therefore,

I, **ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 11th day of September, 2007, at a time to be determined, for the following purpose and to legislate upon the following subjects:

1. To consider and act upon legislation to protect and restore the Sacramento-San Joaquin Delta while also improving the reliability and quality of water supplies from that estuary.
2. To consider and act upon legislation to address the short term and long term improvement of California's water management system including the development of new surface and groundwater storage and improved conveyance facilities.
3. To consider and act upon legislation to appropriate funds, including appropriations for general obligation and lease revenue bonds, to improve water resource management, build additional water storage facilities, develop groundwater aquifers, improve groundwater quality and flood protection, and restore the Sacramento-San Joaquin Delta and other important ecosystem restoration projects.
4. To consider and act upon legislation to place a general obligation bond and, as necessary, a lease revenue bond on the ballot.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 11th day of September, 2007.

PREFACE

Digests

The Summary Digest consists of a short summary of each law enacted, and of each concurrent or joint resolution adopted by the Legislature in 2007.

The text of the Summary Digest is arranged numerically by chapter number.

Superior numbers following the title refer to a Governor's Message affecting that law. These are printed after the digests in the "Digest Chapters Superior Numbers" section.

Cross Reference Tables

Cross reference tables are arranged numerically by bill or resolution number and indicate the chapter number of each.

New General Laws

Lists new general laws passed in the years 1999–2007 which do not specifically amend, add to, or repeal any existing code or general law.

Index

A subject matter index to all measures, including constitutional amendments and resolutions, is included.

Statutory Record

This edition of the Summary Digest includes a statutory record for 1999–2007. Superior numbers following the *Effect* refer to a special condition affecting that section.

Cumulative statutory records for 10-year periods, 1989–1998, 1979–1988, 1969–1978, 1959–1968 and 1949–1958, and for the 16-year period, 1933–1948, are published in separate volumes, which supplement the original statutory record, 1850–1932, published in 1933.

EFFECTIVE DATES

Regular Session

The 2007–08 Regular Session convened on December 4, 2006, and the interim study recess commenced on September 14, 2007. Statutes enacted in 2007, other than those taking immediate effect, will become effective January 1, 2008. In absence of other considerations, the provisions of a statute become operative on the date it takes effect. Digests indicate statutes taking immediate effect.

An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes *effective* on the date it is filed with the Secretary of State.

However, any statute may, by its own terms, delay the *operation* of its provisions until the happening of some contingency, until a specified time, or until a vote of the electors at a statewide election. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

A constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed *operative date*. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 2007–08 First Extraordinary Session convened on September 11, 2007. This Extraordinary Session had not been adjourned prior to the publication of this Summary Digest; please refer to the succeeding year’s Summary Digest.

The 2007–08 Second Extraordinary Session convened on September 11, 2007. This Extraordinary Session had not been adjourned prior to the publication of this Summary Digest; please refer to the succeeding year’s Summary Digest.

BILL CHAPTERS**Ch. 1 (SB 41) Battin Taxation: California Fallen Firefighters Assistance Tax Clarification Act of 2006.**

The Corporation Tax Law exempts certain organizations from taxation, as provided.

This bill would provide that payments made by an exempt organization, as defined, on or after October 26, 2006, and before June 1, 2007, to any family member of a firefighter who died as a result of the October 2006 Esperanza Incident fire in Southern California would be treated as payments made in furtherance of the charitable purpose of that organization.

This bill would make a legislative finding and declaration relating to the public purpose served by the bill.

This bill would take effect immediately as a tax levy.

Ch. 2 (SB 113) Calderon Elections: presidential primary elections.

Existing law specifies that the presidential primary election be held on the first Tuesday after the first Monday in June in any year evenly divisible by the number 4. Existing law also specifies that the statewide direct primary election be held on the first Tuesday after the first Monday in June of each even-numbered year, and be consolidated with the presidential primary election in any year in which the statewide direct primary election is in a year evenly divisible by the number 4.

This bill would require that the presidential primary election be held on the first Tuesday in February in any year evenly divisible by the number 4. By increasing the duties on county elections officials due to the presidential primary election in February, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would state the intent of the Legislature to fully reimburse the counties for the costs of these new elections in an expeditious manner upon certification of those costs.

Ch. 3 (SB 40) Romero Sentencing.

Existing law establishes various felonies punishable by a triad of terms of incarceration in the state prison, comprised of low, middle, and upper terms. Existing law requires the court to impose the middle term, unless there are circumstances in mitigation or aggravation of the crime.

This bill would instead provide that the choice of the appropriate term would rest within the sound discretion of the court. The bill would make other nonsubstantive changes. This bill would provide that these changes would be repealed on January 1, 2009. The bill would make other conforming changes.

The bill would require the Department of Corrections and Rehabilitation, commencing July 1, 2007, to post on its Internet Web site biannual updates of the number of felons admitted to state prison with at least one upper term sentence, as specified. The bill would also require the Judicial Council to report to the Legislature on or before January 1, 2008, on the implementation of the provisions of the bill, as specified.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 4 (AB 300) Nunez Public contracts: 2016 Olympic Games and Paralympic Games.

Existing law provides specified requirements in awarding certain public contracts.

This bill would authorize the Governor to sign agreements required by the United States Olympic Committee as part of the bid process for Los Angeles to become the United States applicant city and candidate city for the 2016 Olympic Games and Paralympic Games.

This bill would make legislative findings and declarations that, among other things, the Southern California Committee for the Olympic Games has developed a self-sufficient bid for financing the games. This bill would authorize the Governor to enter into an agreement for the state to be jointly liable, not to exceed a specified amount, with the Organizing Committee for the Olympic Games (OCOG), as specified, for obligations of the OCOG, and for any financial deficit relating to the games, as provided.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 5 (SB 12) Lowenthal Planning and zoning: housing element: Southern California Association of Governments.

(1) The Planning and Zoning Law requires a city or county general plan to include specified mandatory elements, including a housing element that identifies and analyzes existing and projected housing needs and includes a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing.

The Planning and Zoning Law requires each local government to review its housing element as frequently as appropriate to evaluate certain data, and establishes June 30, 2007, as the date of the 4th revision for the housing element of local governments within the jurisdiction of the Southern California Association of Governments.

The Planning and Zoning Law requires that, at least 2 years prior to a scheduled revision of a local government's housing element, each council of governments, or delegate subregion, as applicable, develop a proposed methodology for distributing the existing and projected regional housing need to cities, counties, and cities and counties within the region, or within the subregion, where applicable, pursuant to specified provisions. That law requires that the methodology be consistent with specified objectives that include, among other things, a determination of the availability of land suitable for urban development or for conversion to residential use, the availability of underutilized land, and opportunities for infill development and increased residential densities.

This bill, until January 1, 2015, would substantially revise the procedure for the Southern California Association of Governments, or delegate subregion, as applicable, to develop a final allocation plan for distributing the existing and projected regional housing need to cities and counties within the region or subregion.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 6 (SB 141) Committee on Local Government Validations.

This bill would enact the First Validating Act of 2007, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 7 (AB 900) Solorio Prisons: construction.

Existing law authorizes the financing and construction of state prison facilities using lease-purchase financing arrangements by means of the issuance of state revenue bonds, as specified.

This bill, the Public Safety and Offender Rehabilitation Services Act of 2007 would authorize the Department of Corrections and Rehabilitation to design, construct, or renovate prison housing units, prison support buildings, and programming space in order to add up to 7,484 beds, and, after reporting that site assessments are complete, 4,516 beds, and to acquire land, design, construct, and renovate reentry program facilities, and to construct and establish new buildings at facilities under the jurisdiction of the department to provide medical, dental, and mental health treatment or housing for 6,000 inmates, as specified. This bill would also authorize the State Public Works Board to issue revenue bonds, negotiable notes, or negotiable bond anticipation notes pursuant to this part to finance the design,

construction, and the costs of interim financing of these projects and would appropriate those funds for that purpose.

In addition, this bill would authorize the department to design, construct, or renovate prison housing units, prison support buildings, and programming space in order to add 4,000 beds at existing prison facilities, to design, construct, and establish new buildings at facilities under the jurisdiction of the department to provide medical, dental, and mental health treatment or housing for 2,000 inmates and to construct, establish, and operate reentry program facilities throughout the state that will house up to an additional 10,000 inmates. This bill would also authorize the State Public Works Board to issue revenue bonds, negotiable notes, or negotiable bond anticipation notes pursuant to this part to finance the design, construction, and the costs of interim financing of these projects and would appropriate those funds for that purpose, however, the board may not release these funds until a 3-member panel has certified that specified requirements have been met. This bill would provide that the authority provided by these provisions shall expire on January 1, 2014, and no project shall be commenced after that date, but projects already commenced may be completed.

This bill would authorize the Department of Corrections and Rehabilitation, a participating county, as defined, and the State Public Works Board to enter into a construction agreement in order to acquire, design, and construct a local jail facility approved by the Corrections Standards Authority, as specified. This bill would authorize the board to issue up to \$750,000,000 in revenue bonds, notes, or bond anticipation notes to finance the acquisition, design, or construction of approved local jail facilities and would appropriate those funds for that purpose. This bill would provide that these provisions would become inoperative on June 30, 2017.

In addition, this bill would authorize the Department of Corrections and Rehabilitation, a participating county, as defined, and the State Public Works Board to enter into a construction agreement in order to acquire, design, and construct a local jail facility approved by the Corrections Standards Authority, as specified. This bill would authorize the board to issue up to \$470,000,000 in revenue bonds, notes, or bond anticipation notes to finance the acquisition, design, or construction of approved local jail facilities and would appropriate those funds for that purpose. This bill would provide that the department and the Corrections Standards Authority may not award funds under these provisions unless a 3-member panel has certified that certain conditions have been met, as specified.

Existing law authorizes the Department of Corrections and Rehabilitation to establish pilot programs that provide training and counseling for parolees to assist in their successful reintegration into the community.

This bill would require the department to determine and implement a system of incentives to increase inmate participation in, and completion of, academic and vocational education, consistent with the inmate's educational needs, as specified.

This bill would require the department to develop and implement a plan to obtain additional rehabilitation and treatment services for prison inmates and parolees, as specified.

This bill would require the department to examine and report to the Legislature on whether the provisions of existing law related to payments to inmates released from prison are hindering the success of parolees and resulting in their rapid return to prison for parole violations, as specified.

This bill would require the department to expand substance abuse treatment services in prisons to accommodate at least 4,000 additional inmates who have histories of substance abuse, as specified.

This bill would require the department to conduct assessments of all inmates that include, but are not limited to, data regarding the inmate's history of substance abuse, medical and mental health, education, family background, criminal activity, and social functioning which shall be used to place inmates in programs that will aid in their reentry to society and that will most likely reduce the inmate's chances of reoffending.

This bill would authorize the department to obtain day treatment, and to contract for crisis care services, for parolees with mental health problems, as specified.

This bill would require the department to develop an Inmate Treatment and Prison-to-Employment Plan that should evaluate and recommend changes to the Governor and the Legislature regarding current inmate education, treatment, and rehabilitation programs to determine whether the programs provide sufficient skills to inmates that will likely result in their successful employment in the community, and reduce their chances of returning to prison after release to parole.

This bill would state various findings and declarations regarding improvements of a parolee's opportunity for successful reintegration into society due to continuity of services provided both before and after an inmate's release on parole. This bill would authorize the Department of Corrections and Rehabilitation to construct, establish, and operate reentry program facilities throughout the state that will house up to 6,000 inmates and facilities that will house up to an additional 10,000 inmates within one year of being released or rereleased from custody, as specified. This bill would require that reentry program facilities provide programming to inmates and parole violators tailored to the specific problems faced by this population when reintegrating into society. This bill would require the department to develop a collaborative partnership with the local government, local law enforcement, and community service providers in the communities where reentry program facilities are operated.

This bill would require the department to develop and implement, by January 15, 2008, a plan to address management deficiencies within the department, as specified.

This bill would create the California Rehabilitation Oversight Board (C-ROB) in the Office of the Inspector General to regularly examine and report to the Legislature and Governor on the various mental health, substance abuse, and educational and employment programs for inmates and parolees operated by the Department of Corrections and Rehabilitation. This bill would also provide that the board shall make recommendations with respect to modifications, additions, and eliminations of rehabilitation and treatment programs.

This bill would create a 3-member panel charged with verifying whether certain conditions have been met before the State Board of Public Works may release funds to the Department of Corrections and Rehabilitation for the construction of housing and other facilities, as specified.

Existing law provides that the Department of Corrections and Rehabilitation shall prepare plans for, and construct facilities and renovations included within, its master plan for which funds have been appropriated by the Legislature.

This bill would expand provisions defining "master plan" to include the department's plans to activate or remove temporary beds in dayrooms, gyms, and other areas.

Existing law requires the department to submit a site plan and projected planning guide to the Joint Legislative Committee on Prison Construction and Operation for each facility included in the master plan.

This bill would instead require the board to submit various plans to the Joint Legislative Budget Committee, as specified, and to provide quarterly reports to the committee on the progress of funded projects.

This bill would require the department to meet with representatives of cities or counties whenever the Legislature authorizes the planning, design, or construction of new permanent housing units to describe the scope of the project and the project schedule, and to consider comments from the city or county representatives regarding the project's impact.

Existing law provides that the Joint Legislative Prison Committee shall be reimbursed, from funds appropriated to the Department of Corrections and Rehabilitation for support, for costs, as agreed to by the Department of Corrections and Rehabilitation, incurred by the committee in reviewing environmental assessment studies, as specified.

This bill would repeal those provisions.

This bill would also authorize the department to use portable or temporary buildings to provide rehabilitation, treatment, and educational services to inmates within its custody or to house inmates, as long as that housing does not jeopardize safety.

This bill would state various findings and declarations regarding staff vacancies at the Department of Corrections and Rehabilitation.

Existing law provides that any court or other agency or officer of this state having power to commit or transfer an inmate to any institution for confinement may commit or transfer that inmate to any institution outside this state if this state has entered into a contract or contracts for the confinement of inmates in that institution and the inmate, if he or she was sentenced under California law, has executed a written consent to the transfer.

This bill would, until a specified date, eliminate the consent requirement, except in certain circumstances.

This bill would authorize the department to establish a training academy for correctional officers in southern California.

This bill would appropriate the sum of \$350,000,000 from the General Fund to the Department of Corrections and Rehabilitation for capital outlay to renovate, improve, or expand infrastructure capacity at existing prison facilities and to supplement funds for rehabilitation and treatment of prison inmates and parolees, as specified.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 8 (SB 866) Runner Mental health: sexually violent predators.

Existing law requires, prior to release from the custody of the Department of Corrections and Rehabilitation of a person who has been convicted of certain crimes of a sexual nature, the director to refer that person to the State Department of Mental Health for evaluation if the director determines that person may be a sexually violent predator.

Under existing law, if the evaluation by the State Department of Mental Health determines that the person is a sexually violent predator, the department is required to forward a request for the filing of a petition to the counsel designated by the county in which the person was convicted. The law authorizes civil commitment of the person to the State Department of Mental Health as a sexually violent predator, for treatment in a secure facility, if the person is adjudicated to be likely to engage in sexually violent criminal behavior if discharged.

This bill would appropriate \$12,532,000 from the General Fund to the State Department of Mental Health for support of this program during the 2006–07 fiscal year, pursuant to a prescribed schedule.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 9 (AB 443) Wolk California Highway Patrol: main office.

Existing law requires the Department of the California Highway Patrol to maintain its main office in Sacramento.

This bill, instead, would require that office to be maintained within 20 miles of Sacramento.

Ch. 10 (SB 101) Ducheny Budget Act of 2006: augmentation.

The Budget Act of 2006 appropriated specified amounts from the General Fund for specified programs.

This bill would appropriate \$213,044,000 from the General Fund and unallocated nongovernmental cost funds, as scheduled, in augmentation of appropriations in that Budget Act. The bill would declare that it is to take effect immediately as a statute providing for the usual current expenses of the state.

Ch. 11 (AB 1714) Levine Energy: solar energy systems.

Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations. A decision of the PUC adopted the California Solar Initiative. Existing law requires the PUC to undertake certain steps in

implementing the California Solar Initiative, including requiring time-variant pricing for all ratepayers with a solar energy system, as defined.

This bill would authorize the PUC to delay implementation of time-variant pricing for ratepayers with a solar energy system, until the effective date of the rates established in the next general rate case of the state's 3 largest electrical corporations. If the commission delays implementation of time-variant pricing, the bill would require that ratepayers required to take service under time-variant pricing between January 1, 2007, and January 1, 2008, and that would otherwise qualify for flat rate pricing, be given the option to take service under flat rate or time-variant pricing.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 12 (AB 342) Saldana Pupil health: individuals with exceptional needs.

Existing law provides that any individual with exceptional needs who requires specialized physical health care services, during the regular schoolday, may be assisted by certain qualified persons.

This bill would also authorize a qualified person holding a certificate of public health in nursing to assist those individuals.

Ch. 13 (SB 252) Aanestad Dentistry: registered sex offenders.

Existing law, the Dental Practice Act, provides for the licensing and regulation of the practice of dentistry by the Dental Board of California, in the Department of Consumer Affairs, and authorizes the board to deny, revoke, or suspend a license for specified reasons. Existing law requires persons convicted of certain sex offenses to register as sex offenders, as specified.

This bill would, with regard to an individual who is required to register as a sex offender, require the board to deny an application for licensure, renewal, or reinstatement of, or to revoke, a license under the Dental Practice Act, with specified exceptions.

Ch. 14 (AB 604) Walters Deceased persons: cancellation of services.

Existing law places restrictions on businesses under various circumstances related to, among other things, customer records and privacy.

Existing law governs the procedures by which an authorized person, as defined, may receive a certified copy of a death certificate.

This bill would prohibit a business that receives a request from a family member, attorney, or personal representative of a deceased person to cancel that person's services, as defined, from requiring an in-person cancellation.

Ch. 15 (AB 859) Plescia Civil procedure: service of process.

(1) Existing law requires certain documents to be filed with a levying officer under a writ of attachment or execution within 5 days of the levy, including an affidavit of the registered process server stating the manner of levy performed and proof of service of the copy of the writ and notice of attachment or levy on other persons.

This bill instead would require that filing within 5 court days of the levy, and would instead allow for the filing of the above-described statement by service of process.

(2) Existing law requires that prior to a hearing on a writ of possession, the defendant be served with a copy of the summons and complaint, a notice of application and hearing, and a copy of the application and any affidavit in support thereof.

This bill would require service in the same manner as a summons, as specified, if the defendant has not appeared in the action and further writs, notices, orders, or other papers are required to be served on the defendant.

Ch. 16 (AB 908) Adams California Emergency Services Act: Year 2000 Problem.

The California Emergency Services Act includes within those events constituting a state or local emergency for purposes of the act, complications resulting from the Year 2000 Problem, as defined, and provides for specified activities in preparation or response to that event.

This bill would delete those provisions relating to the Year 2000 Problem.

Ch. 17 (SB 376) Migden Unfair competition: actions by city attorneys.

Existing law authorizes specified governmental agencies to bring an action for unfair competition and to recover a civil penalty from the defendant in those actions. Under existing law, a city attorney for a city or city and county with a population in excess of 750,000 or for a city and county if the district attorney has consented may bring an unfair competition action and recover a civil penalty.

This bill would instead allow an unfair competition action to be brought and allow recovery of a civil penalty by a city attorney for any city and county.

Ch. 18 (AB 304) Huff Community care facilities and residential care facilities for the elderly: disaster and mass casualty plans.

Existing law, the California Community Care Facilities Act, provides for the licensure and regulation of community care facilities, as defined, and provides for criminal sanctions for a violation of those provisions. Existing law requires any person desiring issuance of a license for a community care facility or a special permit for specialized services to file with the State Department of Social Services, an application on a prescribed form, containing specified information.

Existing law, the California Residential Care Facilities for the Elderly Act, provides for the licensure and regulation of residential care facilities for the elderly, as defined, and provides for criminal sanctions for a violation of those provisions. Existing law requires any person desiring issuance of a license or a special permit for a residential care facility for the elderly to file with the department, an application on a prescribed form, containing specified information.

This bill would require a community care facility or residential care facility that is licensed or has a special permit therefor to provide a copy of the disaster and mass casualty plan required pursuant to specified regulations to any fire department, law enforcement agency, or civil defense or other disaster authority in the area or community in which the facility is located, upon request of the fire department, law enforcement agency, or civil defense or other disaster authority.

Ch. 19 (AB 951) Jones Alcoholic beverages: possession: Lower American River.

(1) Existing law establishes the Alcoholic Beverage Control Act to regulate the possession, sale, and consumption of alcohol. Existing law makes it a crime to violate any provision of the Alcoholic Beverage Control Act.

This bill would prohibit a person, in a nonmotorized vessel on certain portions of the Lower American River, as defined, from possessing a container, as defined, with an alcoholic beverage during the summer holiday periods that the Sacramento County Board of Supervisors prohibits the consumption or possession of an open alcoholic beverage container on the land portions along the river. The bill would require Sacramento County to provide notice on the land portions along the river that this conduct is punishable as an infraction.

Because this bill would create a new crime and require Sacramento County to provide notice on the land portions along the river that this conduct is punishable as an infraction, this bill would impose a state-mandated local program.

This bill would make legislative findings and declarations as to the necessity of a special statute.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 20 (AB 1174) Keene Hospital districts.

The existing Local Health Care District Law provides for the formation of local health care districts and specifies district powers. Existing law specifically authorizes the Eastern Plumas Health Care District to obtain and be issued a single consolidated license to operate a physical plant as a skilled nursing facility or an intermediate care facility that is located on the campus of the Sierra Valley District Hospital. That authorization is only operative until the Sierra Valley District Hospital is annexed by the Eastern Plumas Health Care District, or January 1, 2008, whichever occurs first.

This bill would delete the January 1, 2008, date, thus extending the operative date of the provision until the date that the Sierra Valley District Hospital is annexed by the Eastern Plumas Health Care District.

Ch. 21 (AB 1194) Karnette School employees.

Existing law gives public school employees the right to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of employer-employee relations. A public school employee who is in a unit for which an exclusive representative is selected may join that organization or pay a fair share service fee.

This bill would give public school employees the right to represent themselves individually in their employment relations with the public school employer, except that once the employees in an appropriate unit select an exclusive representative and it is recognized or certified, the employee in that unit would be prohibited from meeting and negotiating with the public school employer.

Ch. 22 (AB 1685) Garrick Before and after school programs: grants.

(1) Existing law establishes the 21st Century High School After School Safety and Enrichment for Teens Program for the purpose of creating incentives for establishing locally driven after school enrichment programs that partner schools and communities to provide academic support and safe, constructive alternatives for high school pupils after the regular schoolday, and that may assist pupils in passing the high school exit examination. The participating high school after school programs are required to submit to the State Department of Education annual outcome-based data for evaluation including research-based indicators and measurable pupil outcomes, including, but not limited to, academic performance, school attendance, positive behavioral changes, and, to the extent possible, performance on the high school exit examination and graduation rates.

This bill would require that certain measures of program effectiveness related to reporting of positive behavioral changes or skill development consistent with the program elements be based on reporting by schoolday teachers or after school staff who directly supervise pupils, rather than schoolday or after school teachers.

(2) The After School Education and Safety Program Act of 2002, enacted by initiative statute, establishes the After School Education and Safety Program to serve pupils in kindergarten and grades 1 to 9, inclusive, at participating public elementary, middle, junior high, and charter schools. The act provides a formula for determining an amount to be

continuously appropriated from the General Fund to the department to provide grants to schools participating in the program. The act requires, before any other grants are funded, that grants made to public schools for the 2005–06 fiscal year continue to be funded in each subsequent fiscal year at the 2005–06 fiscal year level, including adjustments related to increased reimbursement rates and maximum grant amounts for after school programs pursuant to specified statutory provisions. The act authorizes an amendment of that provision regarding grant funding levels only by a bill that furthers the purposes of the act and is passed by a vote of $\frac{2}{3}$ of each house of the Legislature and signed by the Governor.

This bill would clarify that the 2005–06 fiscal year funding level also includes adjustments related to increased reimbursement rates and maximum grant amounts for before school programs pursuant to specified statutory provisions.

(3) The existing After School Education and Safety Program also includes components not enacted by initiative statute. One of those provisions requires participating programs, as required by the department, to submit annual outcome-based data for evaluation, including research-based indicators and measurable pupil outcomes for academic performance, attendance, and positive behavioral changes.

This bill would require that certain measures of program effectiveness related to reporting of positive behavioral changes or skill development consistent with the program elements be based on reporting by schoolday teachers or after school staff who directly supervise pupils, rather than schoolday or after school teachers.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 23 (AB 766) Walters Charter schools.

Existing law authorizes the governing board of a school district or the county superintendent of schools of a county to, among other things, conduct field trips or excursions in connection with courses of instruction or school-related social, educational, cultural, athletic, or school band activities to and from places in the state, any other state, the District of Columbia, or a foreign country for pupils enrolled in elementary or secondary schools. All persons making a field trip or excursion are deemed to have waived all claims against the district or the State of California for injury, accident, illness, or death occurring during or by reason of the field trip or excursion.

This bill would clarify that provision by adding charter schools to the list of entities against which all claims are deemed to have been waived.

Ch. 24 (AB 1323) DeSaulnier Tuberculosis testing.

Existing law requires an intradermal tuberculin test as a part of employment in specified occupations.

This bill would authorize this test to be made by any other tuberculin test approved by the federal Food and Drug Administration (FDA).

Existing law also requires each health care provider who treats a person for active tuberculosis disease, each person in charge of a health facility, or each person in charge of a clinic providing outpatient treatment for active tuberculosis disease, to promptly report to the local health officer when there are reasonable grounds to believe that a person has active tuberculosis disease, and when a person ceases treatment for tuberculosis disease. The initial disease notification report is required to include an individual treatment plan that includes, among other information, tuberculin skin test results.

This bill would alternatively authorize the reporting of the test results of other tests for tuberculosis infection recommended by the federal Centers for Disease Control and Prevention and licensed by the FDA, as specified.

Ch. 25 (SB 16) Florez Local agency finance: limited obligation bonds.

Existing law authorizes cities and counties to issue various types of debt instruments, including limited obligation bonds, funded by certain revenue sources, and subject to

specified criteria. The initiating resolution adopted by a local agency pursuant to these provisions is required to include, among other things, a pledge by the local agency that any bonds issued pursuant to the resolution shall be secured by all or part of the revenues received by the local agency.

This bill would additionally authorize a local agency to restrict the pledge to the revenues received by the local agency from a specified geographical area that is within the local agency's exterior boundaries.

Ch. 26 (SB 206) Cox Public contracts: counties.

Under the Local Agency Public Construction Act, counties with a population of less than 500,000 must comply with specified procedures for contracting for public projects. Existing law allows a public agency, as defined includes counties, to elect to be subject to the Uniform Public Construction Cost Accounting Act, which authorizes alternative bidding procedures for public projects, as specified.

This bill would declare that every county containing a population of less than 500,000 is authorized to participate in the Uniform Public Construction Cost Accounting Act.

This bill would state that this change is declaratory of existing law.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 27 (SB 444) Committee on Local Government Local government: standby charges.

The Uniform Standby Charge Procedures Act establishes procedures for any local agency authorized by law to provide water, sewer, or water and sewer service, and authorized to collect standby or availability charges or assessments in connection with that service, to fix, give notice of, and collect those charges. Article XIII D of the California Constitution and implementing statutes limit local officials' powers to levy benefit assessments.

This bill would amend that act to conform its provisions to the statutes implementing Article XIII D. This bill would amend provisions of various acts that authorize counties, cities, and special districts to impose standby or availability charges on assessments to conform to the revised Uniform Standby Charge Procedures Act. This bill would further state the intent of the Legislature that these provisions are intended to be declaratory of existing law.

Ch. 28 (SB 488) Migden Public resources: open-space district: exchange of real property.

Existing law authorizes the East Bay Regional Park District, and the Midpeninsula Regional Open Space District, in a calendar year to exchange not more than 40 acres of district-owned real property or any interest in real property, for real property or an interest in real property, that is of equal or greater value and is necessary to be acquired for park or open-space purposes.

This bill would authorize the Sonoma County Agricultural Preservation and Open Space District to exchange not more than 40 acres of district-owned real property or any interest in real property for the above purposes.

Ch. 29 (AB 140) Garcia Desert Water Agency.

Existing law authorizes the Desert Water Agency to construct, operate, and maintain works to develop hydroelectric energy for use by the agency to construct, operate, and maintain its projects for the control, conservation, diversion, and transmission of water. Existing law authorizes the agency to enter into contracts for the sale of that energy for a term not to exceed 50 years.

This bill would instead authorize the Desert Water Agency to construct, operate, and maintain facilities for the generation of electricity that are hydroelectric or specified eligible renewable energy resources for the control, conservation, diversion, and transmission of water, as well as for the construction, treatment, and disposal of sewage. The agency would

NOTE: Superior numbers appear as a separate section at the end of the digests.

be authorized to enter into contracts for the sale of electricity generated by the agency for a term not to exceed that 50-year period.

Ch. 30 (AB 1196) Gaines Flamethrowing devices.

Existing law requires the State Fire Marshal to adopt regulations governing the possession and use of flamethrowing devices. Existing law prohibits the use or possession of a flamethrowing device without a valid permit issued by the State Fire Marshal and provides that a violation of these provisions is a crime, as specified. Under existing law, the State Fire Marshal is authorized to impose fees in amounts sufficient to cover the costs incurred in the administration and enforcement of these provisions.

This bill would provide that these provisions shall not apply to the sale, purchase, possession, transportation, storage, or use of a flamethrowing device that is used in fire suppression by a person who is regularly employed by or a paid officer, employee, or member of a fire department, fire protection district, or firefighting agency, as specified, while on duty and acting within the course and scope of his or her employment.

Ch. 31 (AB 1640) La Malfa Mental incapacity: deletion of demeaning terminology.

Existing law uses terms “idiot,” “imbecility,” and “lunatics” when referring to mentally incompetent persons with regard, respectively, to certain notice provisions for construction of a wharf or chute, certain workers’ compensation injuries, and persons who are not capable of committing a crime or who encourage others to commit crimes.

This bill would delete those references, and would, instead, refer to persons who are mentally incapacitated, and would declare the intent of the Legislature not to adversely affect existing case law using those terms.

Ch. 32 (SB 138) Calderon Construction contracts: indemnity.

Existing law provides that, except as specified, all agreements affecting any residential construction contract and amendment to such a contract entered into after January 1, 2006, that purport to indemnify the builder by a subcontractor against liability for claims of construction defects or other injury to property arising from, pertaining to, or relating to the negligence of the builder or the builder’s other agents, servants, or independent contractors who are directly responsible to the builder, or for defects in design furnished by those persons, or for claims that are unrelated to the scope of the work in the agreement, are unenforceable.

This bill would provide that, except as specified, all agreements affecting any residential construction contract and amendments to such a contract entered into after January 1, 2008, that purport to indemnify the general contractor or contractor not affiliated with the builder by a subcontractor against liability for claims of construction defects or other injury to property arising from, pertaining to, or relating to the negligence of the nonaffiliated general contractor or nonaffiliated contractor or their other agents, servants, or independent contractors who are directly responsible to the nonaffiliated general contractor or nonaffiliated contractor, or for defects in design furnished by those persons, or for claims that are unrelated to the scope of the work in the agreement, are unenforceable.

Ch. 33 (SB 170) Denham School attendance: residency requirements.

Existing law provides that a pupil is deemed to have complied with the residency requirements for school attendance in a school district if the pupil satisfies one of the specified requirements. Until July 1, 2007, existing law authorizes a school district in which at least one parent or legal guardian of a pupil is employed to allow that pupil to attend a school in that district through grade 12 if a parent or legal guardian so chooses and if a parent or legal guardian of the pupil continues to be employed by an employer situated within the attendance boundaries of the district.

This bill would extend the operation of the provision authorizing the school district in which a parent or the legal guardian of the pupil is physically employed to allow the pupil to attend a school in that district, through June 30, 2012, and would repeal the provision on January 1, 2013.

The bill also would make technical and conforming changes.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 34 (SB 271) Cedillo Criminal street gangs: injunctions.

Existing law allows the Attorney General to maintain an action for money damages on behalf of a community injured as a result of a nuisance created by gang activity, as specified.

This bill would, in addition, allow any district attorney or any prosecuting city attorney to maintain the action for money damages, as specified.

Ch. 35 (SB 283) Maldonado Community colleges: board of governors: membership.

Existing law establishes the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as one of the segments of public postsecondary education in this state. The membership of the board includes 2 student members appointed from a list of names of at least 3 persons submitted to the Governor by the California Student Association of Community Colleges.

This bill would delete the reference to that association and, instead, require the student organization recognized by the board of governors to submit that list.

Ch. 36 (SB 822) Aanestad Immunity: evaluation of practitioner of healing arts.

Existing law provides immunity from liability to any person whose communications to a hospital, hospital medical staff, veterinary hospital staff, professional society, or any medical, dental, podiatric, or veterinary school, among others, are intended to aid in the evaluation of the qualifications, fitness, character, or insurability of a practitioner of the healing or veterinary arts. Under existing case law, this immunity is qualified in that the communication must have been intended to aid in the evaluation of the qualifications, fitness, character, or insurability of a practitioner.

This bill would extend that immunity to any person whose communications to a psychology school are intended to aid in the evaluation of the qualifications, fitness, character, or insurability of a practitioner of the healing or veterinary arts. The bill would provide that nothing in these provisions is intended to affect the case law described above.

Ch. 37 (SB 106) Wiggins Tribal gaming: compact ratification.

The federal Indian Gaming Regulatory Act provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify the tribal-state gaming compact entered into on August 29, 2006, between the State of California and the Yurok Tribe of the Yurok Reservation. The bill would require that related revenue contributions be deposited into the General Fund and would also specify that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

Ch. 38 (SB 174) Ducheny Tribal gaming: compact ratification.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law

expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify an amendment to a tribal-state gaming compact entered into between the State of California and the Morongo Band of Mission Indians, executed on August 29, 2006. The bill would require that related revenue contributions be deposited into the General Fund and would provide that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

Ch. 39 (SB 175) Ducheny Tribal gaming: compact ratification.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify an amendment to a tribal-state gaming compact entered into between the State of California and the Sycuan Band of the Kumeyaay Nation, executed on August 30, 2006. The bill would provide that the terms of that amended compact shall apply only to the State of California and the tribe that has signed it, and shall not bind any tribe that is not a signatory to the amended compact. The bill would require that related revenue contributions be deposited into the General Fund, except as specified, and would provide that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

Ch. 40 (SB 903) Padilla Tribal gaming: compact ratification.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify an amendment to the tribal-state gaming compact entered into between the State of California and the Pechanga Band of Luiseño Mission Indians, executed on August 28, 2006. The bill would require that related revenue contributions be deposited into the General Fund and would provide that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

Ch. 41 (SB 957) Torlakson Tribal gaming: compact ratification.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify an amendment to a tribal-state gaming compact entered into between the State of California and the Agua Caliente Band of Cahuilla Indians, executed on August 8, 2006. The bill would require that related revenue contributions be deposited into the General Fund and would also specify that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

Ch. 42 (AB 1738) Coto Tribal gaming: memoranda of agreement.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of

gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would approve memoranda of agreement entered into between the State of California and the Agua Caliente Band of Cahuilla Indians, the Morongo Band of Mission Indians, the Pechanga Band of Luiseño Indians, and the Sycuan Band of the Kumeyaay Nation, executed on June 27, 2007.

Ch. 43 (SB 649) Committee on Judiciary Trial court restructuring.

(1) The California Constitution provides for the abolition of municipal courts and their unification within the superior courts, as specified.

This bill would conform various statutory provisions of law to the abolition of municipal courts and their unification within the superior courts. The bill would also make related statutory changes with respect to the classification of limited civil cases, appeals in limited civil cases and misdemeanor and infraction cases, and arraignment by 2-way electronic audiovideo communication.

(2) The bill would make other technical, nonsubstantive changes.

(3) This bill would incorporate additional changes in Section 977 of the Penal Code proposed by AB 678 that would become operative only if AB 678 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 44 (SB 641) Corbett Vehicle rental agreements: San Jose airport.

Existing law governs contracts between rental car companies and their customers. Existing law authorizes a company that rents passenger vehicles to the public to collect a customer facility charge, which is defined to mean a fee that is required by an airport to be collected for specified purposes, if specified circumstances apply, including, but not limited to, the collection of the fee is required by an airport operated by a city, a county, a city and county, a joint powers district, or a special district, the fee is calculated on a per contract basis, the fee is a user fee and not a tax, as specified, and the fee is \$10 per contract, except as specified.

Existing law authorizes a rental car company that conducts business with customers that use either the consolidated rental car facility or the common use transportation system, or both, at the San Jose International Airport to charge a fee imposed by the City of San Jose for specified purposes in an amount not to exceed \$10.15. Existing law further authorizes a rental car company that conducts business with customers that use an airport-mandated common use busing system operated for the movement of passengers between the terminal and an interim rental car facility at San Jose International Airport to impose a fee not to exceed \$5 per contract.

This bill would delete the latter provisions applicable to the San Jose International Airport and instead authorize the imposition of a customer facility charge under the general provisions described above.

Ch. 45 (SB 611) Steinberg Financial abuse of elder and dependent adults.

Existing law provides for the award of attorney's fees and costs, and damages to a plaintiff when it is proven by a preponderance of the evidence that the defendant is liable for financial abuse of an elder or dependent adult and permits additional recovery where there is clear and convincing evidence of recklessness, oppression, fraud, or malice.

Under the Attachment Law, a plaintiff is authorized to use the remedy of attachment against a defendant's property to secure the amount of the claimed indebtedness to the plaintiff in connection with cases involving contracts.

This bill would also permit the use of the Attachment Law in cases involving financial abuse against an elder or dependent adult, whether or not other forms of relief are demanded.

Ch. 46 (SB 330) Committee on Human Services Community services programs.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law establishes the Department of Community Services and Development to perform various functions, including coordinating and assisting community action agencies with respect to antipoverty and community services programs.

This bill would correct obsolete provisions in, and would make other technical changes in, existing law relating to the department and community action agencies.

Ch. 47 (SB 313) Scott Adoption.

(1) Existing law allows a child, the child's natural mother, a man presumed to be the child's father under specified provisions of law, an adoption agency to whom the child has been relinquished, or a prospective adoptive parent of the child to bring specified actions relating to the existence of a father and child relationship.

This bill would require the court, if any prospective adoptive parent who has physical custody of the child, or any licensed California adoption agency that has legal custody of the child, has not been joined as a party to an action to determine the existence of a father and child relationship or an action for custody by the alleged natural father, to join the prospective adoptive parent or adoption agency as a party, without a motion for joinder.

The bill would require a man who brings an action to determine paternity and custody of a child who he has reason to believe is in the physical or legal custody of an adoption agency, or of one or more persons other than the child's mother who are prospective adoptive parents, to serve his entire pleading on, and give notice of all proceedings to, the adoption agency or the prospective adoptive parents, or both.

(2) Existing law authorizes an adoption proceeding to be brought under specified circumstances in which a child has been abandoned by his or her parents, including if the child has been left by both parents or the sole parent in the care and custody of another person for a period of 6 months.

This bill would revise and recast those circumstances under which an adoption proceeding may be brought with respect to an abandoned child, to include, among other things, if the child has been left in the care and custody of another person for a period of 6 months without any provision for the child's support, or without communication from the parent or parents, with the intent on the part of the parent or parents to abandon the child. The bill would provide that, in the event that a guardian has been appointed for the child, the court may still declare the child abandoned if the parent or parents have failed to communicate with or support the child within the meaning of these provisions. The bill would make related technical changes.

(3) Existing law authorizes an interested person to file an adoption petition for an order or judgment declaring a child free from the custody and control of either or both parents.

This bill would define "interested person" for purposes of this provision.

(4) Existing law generally provides that a child having a presumed father, as specified, may not be adopted without the consent of the child's birth parents, if living. However, if one birth parent has been awarded custody by judicial order, or has custody by agreement of both parents, and the other birth parent for a period of one year willfully fails to communicate with and to pay for the care, support, and education of the child when able to do so, then the birth parent having sole custody may consent to the adoption, after the noncustodial birth parent has been served with a specified citation. The failure of a birth parent to pay for the care, support, and education of the child for the period of one year or the failure of a birth parent to communicate with the child for the period of one year is prima facie evidence that the failure was willful and without lawful excuse.

This bill would additionally provide that if the parent or parents have made only token efforts to support or communicate with the child, the court may disregard those token efforts.

(5) Existing law authorizes certain persons to file a petition to adopt a child, including a legal guardian who has been the child's legal guardian for more than 6 months, if the court has found the child to be abandoned, as specified.

This bill would instead authorize a legal guardian who has been the child's legal guardian for more than 6 months to file a petition if the child is alleged to be abandoned.

Ch. 48 (SB 183) Corbett Elderly and dependent adults: civil actions.

Existing law provides that the department of the superior court having jurisdiction over probate conservatorships shall also have concurrent jurisdiction over civil actions and proceedings involving a claim for relief arising out of the abduction or abuse of an elderly or dependent adult. Existing law further provides that, upon petition, after the death of the elder or dependent adult, the right to maintain an action shall be transferred to the personal representative of the decedent, or if none, to the person or persons entitled to succeed to the decedent's estate.

This bill would instead provide that after the death of the elder or dependent adult, the right to commence or maintain an action shall pass to the personal representative, and if there is no personal representative, to an intestate heir whose interest may be affected by the action, to the decedent's successor in interest, as defined, or an interested person, as defined, subject to specified conditions.

Ch. 49 (AB 181) Beall County penalties: automated fingerprint identification fund.

Existing law permits a county board of supervisors, subject to specified limitations, to establish in the county treasury an Automated Fingerprint Identification and Digital Image Photographic Suspect Booking Identification System Fund into which shall be deposited the amounts specified in resolutions adopted by the board of supervisors. Existing law requires these funds to be held separate from other funds that are subject to transfer and division, as specified. Existing law provides that deposits to the fund may continue through the 20th year after the initial calendar year in which the surcharge is collected, or longer if necessary to make payments upon any lease or leaseback arrangement utilized to finance specified projects.

This bill would delete the limitation on the period during which deposits may be made into an Automated Fingerprint Identification and Digital Image Photographic Suspect Booking Identification System Fund.

Ch. 50 (AB 265) Mendoza Barbering and cosmetology: threading.

Existing law, the Barbering and Cosmetology Act, regulates barbering, cosmetology, skin care, nail care, and electrolysis. Existing law, until July 1, 2008, excludes threading, as defined, from the practice of barbering and cosmetology.

This bill would extend the operation of those provisions until July 1, 2009. This bill would also delete certain obsolete language.

Ch. 51 (AB 332) DeVore Elections: recall petitions: signature certification.

Under existing law, elections officials must determine the sufficiency of recall petitions with regard to the required number of valid signatures within 30 days from the date of filing the petition, as provided.

This bill would provide that Saturdays, Sundays, and holidays would be excluded in calculating the 30-day requirement of determining the sufficiency of a recall petition with regard to the number of valid signatures.

Ch. 52 (AB 390) Ruskin Wholesale Regional Water System Security and Reliability Act.

Under existing law, the City and County of San Francisco operates the Hetch Hetchy Project as a regional water delivery system, supplying water to persons and entities in the city and the Counties of Alameda, San Mateo, and Santa Clara. Existing law establishes the Wholesale Regional Water System Security and Reliability Act which imposes various requirements on wholesale regional water systems. The act defines "bay area wholesale

customers” for purposes of the act, as 26 specified public agencies in the Counties of San Mateo, Alameda, and Santa Clara that purchase water from the City and County of San Francisco, including the Los Trancos County Water District.

This bill would reduce the number of listed public agencies defined as “bay area wholesale customers” to 25 and remove the Los Trancos County Water District from that definition.

Ch. 53 (AB 432) Garcia Real estate: time-share plans.

Existing law establishes the Vacation Ownership and Time-Share Act of 2004. The act requires a time-share plan developer, prior to selling, offering, or disposing of a time-share interest in the state, to prepare, for issuance by the Real Estate Commissioner, a public report containing certain disclosures, as specified, or, for a plan located outside of the state, a public report authorized for use by that state containing disclosures substantially equivalent to or greater than those required by California law.{N1}

This bill would authorize a developer to submit, upon approval by the commissioner, a public report that combines, in a manner prescribed by the commissioner, the disclosures required by California law and the information required to be disclosed in a public report issued by a regulatory agency in one or more other states.

Ch. 54 (AB 473) Adams Political Reform Act of 1974: filing campaign statements.

The Political Reform Act of 1974 requires elected officers, candidates, and committees to file campaign statements. The act requires all candidates, elected officers, committees, and proponents of state ballot measures or the qualification of state ballot measures, with certain exceptions, to file 2 copies of these campaign statements with the clerk of the county in which they are domiciled. The act provides that a committee is domiciled at the address listed on its campaign statement or if the committee is outside of California, it is deemed to be Los Angeles County.

This bill would provide instead that all candidates and elected officers and their controlled committees shall file one copy of the campaign statements with the elections official of the county in which the candidate or elected officer is domiciled. The bill would make this provision inapplicable to proponents of state ballot measures or the qualification of state ballot measures.

The act requires certain officers, candidates, and committees to file copies with the Secretary of State and at additional locations.

This bill would reduce the number of copies that a committee, candidate, or elected officer is required to file at additional locations from 2 to 1.

In addition, in cases in which these provisions require filing with the clerk of the county, the bill would instead require filing with the elections official of the county.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act’s purposes, upon a 2/3 vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

Ch. 55 (AB 542) Gaines State Historical Building Safety Board: membership.

Existing law establishes the State Historical Building Safety Board with a specified membership, to act as a consultant to the State Architect and other state agencies with respect to the State Historical Building Code.

This bill would include the Building Owners and Managers Association of California within the membership of the board.

Ch. 56 (AB 685) Karnette Special education.

Existing law requires that every individual with exceptional needs, as defined, who is eligible be provided with educational instruction, services, or both, at no cost to his or her parent or guardian or, as appropriate, to him or her. A free appropriate public education is

required to be made available to individuals with exceptional needs in accordance with specified federal regulations adopted pursuant to the federal Individuals with Disabilities Education Act.

The United States Secretary of Education issued final regulations to implement changes made to the federal Individuals with Disabilities Education Act by the federal Individuals with Disabilities Education Improvement Act of 2004. Those regulations took effect on October 13, 2006.

This bill would make technical changes to various provisions of existing law regarding special education and related services to conform various provisions to the new federal regulations and update cross-references in response to those regulations. The bill also would delete obsolete provisions and make other clarifying and technical, nonsubstantive changes.

Ch. 57 (AB 775) Niello County employees' retirement: employment of retirees: prohibition.

The County Employees Retirement Law of 1937 authorizes a county to employ, without reinstatement from retirement, a retired member in a position requiring special skills or knowledge. Under the law, a retired member may not work more than 90 working days or 720 hours, in a fiscal year or any other designated 12-month period, except as specified in Contra Costa County. The law authorizes a board of supervisors to extend that reemployment period to permit a retired member to work up to 120 working days or 960 hours, whichever is greater, in a fiscal year or any other designated 12-month period.

This bill would provide that the authorizations described above are inapplicable to a retired member who is employed by an employer under the system and who, within 12 months prior to that employment, received unemployment insurance compensation following the termination of an appointment with the same employer. The bill would require a retired person who accepts an appointment after receiving unemployment insurance compensation, as specified, to terminate that employment on the last day of the current pay period and would prohibit reappointment for a period of 12 months.

Ch. 58 (AB 913) Niello Vehicles: motor carriers: permits.

Existing law requires a motor carrier to pay the Department of Motor Vehicles a \$150 fee for the reissuance of a motor carrier's permit following its suspension or revocation.

This bill would waive that fee requirement, if the suspension or revocation was based on a lapse in liability insurance or workers' compensation insurance, and the evidence of valid insurance coverage demonstrates that a lapse in coverage for the carrier's operation did not occur.

Ch. 59 (AB 957) Spitzer State property: Department of Transportation records.

Existing law requires the Department of Transportation, by July 1 of each year, to furnish to the Department of General Services an updated record of each parcel of real property that it possesses, including lands, buildings, office buildings, maintenance stations, equipment yards, and parking facilities and to include in that record specified information about each parcel, including, among other information, its location, size, purchase price, and description of current use. Existing law excludes existing highways, airspace, excess lands, and properties acquired for highway projects from inclusion in this record.

This bill would delete the exclusion for airspace, excess lands, and properties acquired for highway projects from this recording requirement.

Ch. 60 (AB 965) Anderson California Republican Party: organization.

Existing law establishes the political party organization of the Republican Party of California with respect to the membership of the state central committee, the use of proxies, and the general business of the committee.

This bill would instead specify that the party is the "California Republican Party" and would repeal those provisions applicable to the state central committee and instead require

that the membership of delegates to the state central committee, the procedures for notification of members of appointments, the use of proxies, and the form of appointment of delegate members be as set forth in the standing rules and bylaws of the California Republican Party. The bill would also require the California Republican Party to maintain a current copy of its standing rules and bylaws for public inspection on the Internet.

The bill would also require that the officers, methods of electing officers, terms of officers, quorum requirements for meetings of the state central committee and procedures for the conduct of committee proceedings and adoption of a state party platform be as set forth in the standing rules and bylaws of the California Republican Party.

Ch. 61 (AB 1175) Niello Clinical laboratories: personnel.

Existing law provides for the regulation and licensure of clinical laboratories and clinical laboratory personnel by the State Department of Health Services until June 30, 2007, and thereafter by the State Department of Public Health.

Existing law requires a laboratory director or a licensed authorized designee, who is required to be appointed by the laboratory director, to establish, validate, and document explicit criteria by which clinical laboratory test or examination results are autoverified, as defined.

This bill would instead specify that an authorized designee may be appointed by the laboratory director.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 62 (AB 1283) Laird Affordable housing.

Existing law, until January 1, 2008, authorizes any redevelopment agency in Santa Cruz County, the Contra Costa County Redevelopment Agency, and the Monterey County Redevelopment Agency to make assistance available from its low- and moderate-income housing fund directly to a home buyer and separately defines affordable housing cost for these purposes. Existing law imposes specified reporting requirements on those redevelopment agencies.

This bill would extend the repeal date of these provisions to January 1, 2013.

Ch. 63 (AB 1287) Jeffries Absentee voting.

Existing law provides that absentee ballots may be submitted to satellite offices, the locations, hours, and telephone numbers of which must be announced by general news release no less than 14 days before voting at that location.

This bill would provide that in cases of disaster or emergency, only 48 hours' notice of the satellite office information is required.

Ch. 64 (AB 1376) Berryhill Urban water management plan: comments.

The Urban Water Management Planning Act requires every public and private urban water supplier that directly or indirectly provides water for municipal purposes to more than 3,000 customers, or supplies more than 3,000 acre-feet of water annually, to prepare and adopt an urban water management plan. The act requires each urban water supplier to make the plan available for public inspection, to hold a public hearing on the plan, and to notify any city or county within which the supplier provides water supplies that the supplier will be reviewing the plan and considering amendments or changes to the plan.

This bill would require each urban water supplier to make that notification to the city or county at least 60 days prior to the public hearing.

Ch. 65 (AB 1462) Adams Child care institutions.

Existing law establishes the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which counties provide payments to foster care providers, including group homes, on behalf of qualified children in foster care. The program is funded

by a combination of federal, state, and county funds, with money from the General Fund being continuously appropriated to pay for the state's share of AFDC-FC costs.

Existing law designates the various placements which may be made for a child eligible for AFDC-FC benefits, including a licensed group home. Existing law defines a group home for purposes of the AFDC-FC program as a nondetention privately operated residential home, organized and operated on a nonprofit basis only, of any capacity, that provides services in a group setting to children in need of care and supervision.

Existing law requires foster care providers licensed as group homes to have rates established by the State Department of Social Services only if the group home is organized and operated on a nonprofit basis, except as specified.

This bill would, if federal financial participation is available, require the payment of AFDC-FC benefits for certain children with developmental disabilities, who have special behavioral or medical needs, who are placed in a for-profit child care institution, as defined, and for whom the county placing agency demonstrates that there are no alternative placement options.

This bill would require the county placing agency to review and report to the juvenile court at the 6-month case plan update regarding the continuing appropriateness of a child's placement under the bill. The bill would be effective only during a federal fiscal year for which the department determines that no restriction on federal matching AFDC-FC payment exists. The bill would specify the conditions under which federal financial participation would be provided to children eligible under the bill.

Because it would increase the duties of counties administering the AFDC-FC program, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 66 (AB 1513) Niello Motor carriers: permits.

Existing law requires a motor carrier of property to pay an initial and renewal permit fee to the Department of Motor Vehicles, except for a motor carrier of property engaged solely in interstate or foreign transportation of property by motor vehicle.

This bill would update reference to applicable federal law relating to interstate or foreign transportation of property by a motor vehicle.

Ch. 67 (AB 1525) Cook Private postsecondary education.

(1) The Private Postsecondary and Vocational Education Reform Act of 1989 generally sets minimum standards of instructional quality, ethical and business practices, health and safety, and fiscal responsibility for private postsecondary and vocational educational institutions, as defined. The act establishes the Bureau for Private Postsecondary and Vocational Education in the Department of Consumer Affairs. Existing law requires the bureau, among other things, to review and investigate all institutions, programs, and courses of instruction approved under the act.

The act establishes the Private Postsecondary and Vocational Education Administration Fund and the continuously appropriated Student Tuition Recovery Fund. The act specifies that certain violations of its provisions are subject to civil penalties and that certain willful violations of the act are punishable as crimes. A provision of the act provides for it to become inoperative on July 1, 2007, and provides for its repeal on January 1, 2008.

The bill would express the intent of the Legislature to provide for the protection of the interests of students who, and institutions which, have pending matters, or any other pending business, before the bureau as of June 30, 2007.

The bill would require that each matter, as defined, pending before the bureau as of the close of business on June 30, 2007, be deemed to remain pending before the bureau or a successor agency as of February 1, 2008, irrespective of any applicable deadlines. With respect to any deadline applicable to a pending matter, the bill would require that no time be deemed to have elapsed between July 1, 2007, and January 31, 2008, inclusive. The bill would require that any institution, program, or course of study that is approved by the bureau, or authorized as prescribed, as of the close of business on June 30, 2007, be deemed to be approved as of February 1, 2008, irrespective of any applicable conditions, deadlines, or additional requirements. The bill would also require that, with respect to any deadline applicable to the approval or conditional approval of an institution, program, or course of study, no time shall be deemed to have elapsed between July 1, 2007, and January 31, 2008, inclusive.

The bill would authorize the Director of Consumer Affairs to enter into voluntary agreements with institutions that state that the institutions agree to comply with state statutes, rules, and regulations applicable to these institutions as of June 30, 2007. The bill would require institutions to disclose to their current and prospective students in writing, within 60 days of the effective date of the bill, whether they entered into, or declined to enter into, a voluntary agreement with the director.

The bill would require the rights and obligations established by the act on or before June 30, 2007, to be determined by the law in effect on or before June 30, 2007, and any claim or cause of action in any manner based on the act that arose on or before June 30, 2007, whether or not reduced to a final judgment, to be preserved. The bill would authorize any remedy that was or could have been ordered to redress a violation of the act on or before June 30, 2007, to be ordered or maintained thereafter. The bill would require the rights, obligations, claims, causes of action, and remedies set forth in this provision to remain subject to the provisions of the act in effect on or before June 30, 2007, notwithstanding the inoperative status or repeal of the act on or after July 1, 2007.

The bill would continue the existence of the Private Postsecondary and Vocational Education Administration Fund and the continuously appropriated Student Tuition Recovery Fund, thereby making an appropriation.

These provisions would be repealed on February 1, 2008.

(2) The bill would state that its provisions are to apply retroactively to July 1, 2007.

(3) The bill would continue the approval of private postsecondary institutions for specified purposes until July 1, 2008.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 68 (AB 1678) De La Torre Public officials: conflicts of interest.

Existing law provides that Members of the Legislature, and state, county, district, judicial district, and county officers or employees shall not be financially interested in any contract made by them in their official capacity, or by any body or board of which they are members. A contract made in violation of any of these provisions may be avoided at the instance of any party except the officer interested in the contract, and may not be avoided because of the interest of an officer therein unless the contract is made in the official capacity of the officer, or by a board or body of which the officer is a member.

This bill would provide that the applicable statute of limitations for commencing an action under the provisions governing the avoidance of contracts in violation of existing law is 4 years after the plaintiff has discovered, or in the exercise of reasonable care should have discovered, the violation.

Ch. 69 (AB 1698) Eng Truancy: state mandate.

The California Constitution requires the state to reimburse local agencies and school districts whenever the Legislature or a state agency mandates a new program or higher level of service on the local agencies or school districts. Statutory provisions establish procedures

for local agencies to file a test claim for reimbursement of these costs with the Commission on State Mandates. Existing law authorizes the commission to order a reconsideration of all or part of a test claim or incorrect reduction claim on petition of any party. This authority expires 30 days after the statement of decision is delivered or mailed to the claimant.

This bill would require the commission, by January 31, 2008, to amend the parameters and guidelines regarding the notification of truancy mandate program and to modify the definition of a truant and the elements included in the initial truancy notifications to conform to Chapter 1023 of the Statutes of 1994 and Chapter 19 of the Statutes of 1995. Upon revision of the parameters and guidelines, the Controller would be required to revise the appropriate claiming instructions to be consistent with the revised parameters and guidelines. The bill would deem changes by the commission to the parameters and guidelines to be effective on July 1, 2006.

Ch. 70 (AB 1716) Committee on Utilities and Commerce Telecommunications: California Teleconnect Fund Administrative Committee Fund.

Existing law establishes the California Teleconnect Fund Administrative Committee Fund in the State Treasury, and provides that moneys in the fund, collected by telephone corporations in utility rates authorized by the commission and deposited into the fund, may only be expended for the purposes authorized, upon appropriation in the annual Budget Act. Existing law requires the commission to develop, implement, and administer a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations. Existing law requires, for all customers eligible to receive discounts for telecommunications services under the federal Universal Service E-rate program (E-rate discounts), with the exception for certain necessary small schools, as defined, that also apply for discounts on telecommunications services provided through the California Teleconnect Fund program (teleconnect discounts), that the teleconnect discount be applied after applying the E-rate discount, as defined. Existing law requires the commission to require, as a condition of participation in the California Teleconnect Fund program, that customers eligible for the E-rate discount provide the commission with information necessary for the commission to determine the percentage of the E-rate discount to which the customer would be entitled.

This bill would amend the exception for necessary small schools to instead make it applicable to certain small school districts, as specified, and would delete the requirement that customers eligible for the E-rate discount provide the commission with information necessary for the commission to determine the percentage of the E-rate discount to which the customer would be entitled. The bill would change references to “the” E-rate discount to “an” E-rate discount, and would amend the definition of “E-rate discount” to authorize the commission to use an actual E-rate discount or a representative discount figure, as determined by the commission.

Ch. 71 (SB 100) Ducheny Budget Act of 2006.

The Budget Act of 2006 appropriated specified amounts from the General Fund and unallocated nongovernmental cost funds for expenditure for contingencies or emergencies upon written notification from the Director of Finance.

The bill would appropriate \$140,970,000, as scheduled, in augmentation of these Budget Act appropriations.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 72 (SB 125) Harman Horse racing.

Existing law requires a quarter horse racing association in the southern zone to show races of a harness racing association in the northern zone via satellite, and requires a harness racing association in the northern zone to show races of a quarter horse racing association in the southern zone via satellite, as specified. Existing law also requires each racing association to

pay the other an additional 5% of the amount wagered on the satellite races at their respective facilities, as specified. Existing law requires that the additional 5% received by harness racing associations be distributed equally as commissions to the racing association and as purses to the horsemen participating in the meeting.

This bill would expand the distribution schedule described above for the additional 5% of the amount wagered on satellite races received to each racing association by deleting the reference to harness racing associations.

Existing law prohibits certain authorized fees or charges from being paid by the operator of a satellite wagering facility that was licensed in the northern zone prior to January 1, 2000.

This bill would state that it is, and always has been, the intent of the Legislature that this provision apply to impact fees charged by a thoroughbred racing association or a thoroughbred fair racing association in the northern zone, on satellite wagers accepted by satellite facilities operated by those associations.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 73 (SB 196) Machado Teacher credentialing: district interns.

Existing law authorizes the Commission on Teacher Credentialing, until January 1, 2008, to issue district intern credentials authorizing persons employed by a school district to provide classroom instruction to pupils with mild and moderate disabilities in special education classes.

This bill would delete that termination date, thereby authorizing the commission to issue those district intern credentials indefinitely.

Ch. 74 (SB 221) Runner Legislators' Retirement System: compensation.

The Legislators' Retirement Law permits the Insurance Commissioner or an elective officer of the state whose office is provided for by the Constitution, other than a judge or Member of the Senate or Assembly, to become a member of the Legislators' Retirement System and receive a retirement allowance based upon the highest compensation received by that Insurance Commissioner or elective officer while he or she was serving in office.

This bill would provide that the retirement allowance of a member of the Legislators' Retirement System who is a member of that retirement system as the Insurance Commissioner or an elective officer of the state whose office is provided for by the Constitution, other than a judge or Member of the Senate or Assembly, and who enters the system on or after January 1, 2008, shall be based on the highest average salary that was earnable by the person during any consecutive 12-month period of service.

Ch. 75 (SB 249) Negrete McLeod Horse racing: unauthorized payments.

Existing law prohibits racing associations or fairs that are licensed in California from making unauthorized payments to a horse owner or agent for the benefit of horsemen, and prohibits horse owners or their agents from accepting unauthorized payments or other consideration, except as specified.

This bill would provide that this prohibition does not apply to any payment by a licensed thoroughbred racing association in connection with funds contributed or authorized by the horsemen's organization responsible for negotiating purse agreements on behalf of the horsemen participating in the racing meeting, including purse supplements, sponsorship contributions, or promotional funds.

Ch. 76 (SB 293) Ackerman Presidential nominees.

Under existing law, the Secretary of State is required to deliver certificates of nomination to local elections officials 68 days prior to a general election.

This bill would, until January 1, 2009, require, if the Republican National Convention will conclude after the deadline for the Secretary of State to deliver certificates of nomination to local elections officials, the Chairperson of the Republican State Central Committee to notify the Secretary of State of the apparent nomination, with certain requirements, of the

Republican candidates for President and Vice President of the United States either not less than 78 days prior to the election or as soon as the nominations become apparent but not less than 61 days prior to the election. The bill would require the Secretary of State to prepare the certificates of nomination based on this information.

Ch. 77 (SB 317) Denham Horse racing: official veterinarians.

Existing law requires applicants for license as a steward to pass both a written and oral exam, and sets forth qualifications for persons to be admitted to that exam.

This bill would require applicants for license as an official veterinarian to pass both a written and oral exam, and would establish qualifications for persons to be admitted to the official veterinarian exam.

Ch. 78 (SB 357) Cox Life insurance: group policies.

Existing law provides that group life insurance may be written under a policy covering not less than 10 persons.

This bill would provide that group life insurance may be written under a policy covering not less than 2 persons.

Existing law provides that the premium for group life insurance issued to an employer may be paid by the employer or the employer and employees jointly.

This bill would provide that the premium for group life insurance issued to an employer may be paid by the employee, employer, or the employer and employees jointly.

Existing law requires that 75% of eligible employees must participate in group life coverage if part of the premium is paid with eligible employee contributions.

This bill would delete that requirement.

Existing law provides that coverage for dependants may continue through 22 years of age if the dependant is attending an educational institution.

This bill would provide that coverage for dependants may continue through 24 years of age if the dependant is attending an educational institution.

Existing law provides for group disability insurance, provided it is issued under specified conditions, including the requirement that the policy insure not less than 3 employees, agents, or members.

This bill would reduce the required number of insureds from 3 to 2.

Ch. 79 (SB 363) Simitian Teacher credentialing: identification number.

The Teacher Credentialing Law of 1988 requires the Commission on Teacher Credentialing to establish professional standards, assessments, and examinations for entry and advancement in the education profession. Existing law requires the commission to establish a nonpersonally identifiable teacher identification number for each teacher to whom it issues a credential, certificate, permit, or other document to teach in the public schools.

This bill instead would require the commission to establish a nonpersonally identifiable educator identification number for each educator to whom it issues a credential to provide a service in the public schools.

Ch. 80 (SB 414) Corbett Limited liability partnerships: public accountancy and law.

Existing law requires that every registered limited liability partnership and foreign limited liability partnership provide specified security for claims arising out of the practice of public accountancy and law. Under existing law, the total aggregate limit of liability under the policy or policies of insurance or the amount of security required to be provided by those partnerships providing accountancy or legal services is \$100,000 multiplied by the number of licensed persons, but not less than \$500,000 and not more than \$5,000,000 or \$7,500,000, respectively.

This bill would provide that the total aggregate limit of liability under the policy or policies of insurance or the amount of security for those partnerships providing accountancy or legal services with 5 or fewer licensees shall be not less than \$1,000,000 and for partnerships with more than 5 licensees, shall be an additional \$100,000 for each additional licensee up to the \$5,000,000 or \$7,500,000 maximum, respectively.

Ch. 81 (SB 715) Lowenthal Advertising displays: noncommercial, protected speech.

Existing law, the Outside Advertising Act, provides for regulation by the Department of Transportation of advertising displays, as defined, within view of public highways, as specified.

This bill would specify that the Director of Transportation is precluded from regulating noncommercial, protected speech contained within any advertising display authorized by, or exempted from, the Outside Advertising Act.

Ch. 82 (SB 796) Runner Additional grand juries.

Existing law authorizes the presiding judge in any county or city and county, or the judge appointed by the presiding judge to supervise the grand jury, to impanel an additional grand jury upon the request of the Attorney General or the district attorney or upon his or her own motion.

This bill would authorize the Presiding Judge of the Superior Court of the County of Los Angeles, or the judge appointed by the presiding judge to supervise the grand jury, to instead impanel up to 2 additional grand juries, in accordance with specified procedures.

Ch. 83 (SB 969) Aanestad Veterinary medicine.

Existing law provides that a person practices veterinary medicine when he or she, among other things, administers a drug for the prevention, cure, or relief of a wound, fracture, bodily injury, or disease of animals, except where the drug is administered by a registered veterinary technician or an unregistered assistant at the direction of and under the direct supervision of a licensed veterinarian.

This bill would, until January 1, 2012, authorize a registered veterinary technician and an unregistered assistant to administer a drug, including, but not limited to, a drug that is a controlled substance, except for the induction of anesthesia, under the direct or indirect supervision of a licensed veterinarian when done pursuant to the order, control, and full professional responsibility of the veterinarian. This bill would also define various terms for purposes of that provision and would make related changes.

Ch. 84 (AB 151) Berryhill Peace officers: county custodial officers.

Existing law defines various persons as peace officers, including, among others, custodial officers in certain counties.

This bill would include custodial officers, as specified, in the Counties of Glenn, Lassen, and Stanislaus within the definition of peace officer.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 85 (AB 243) Nakanishi Contractors: filing complaints and disciplinary actions.

Existing law, the Contractors' State License Law, provides for the licensure and regulation of contractors by the Contractors' State License Board. Existing law establishes timeframes for filing various complaints and accusations, which are grounds for disciplinary action against a licensed contractor. Existing law requires an accusation regarding an alleged breach of an express, written warranty by a licensee to be filed within the duration of the warranty.

This bill would require a disciplinary action to be filed against a licensee convicted of crimes related to the qualifications, functions, and duties of a contractor within 2 years after discovery of the conviction by the registrar of contractors or the board. The bill would also

require a disciplinary action regarding an alleged breach of an express, written warranty by a licensee to be filed within 18 months from the expiration of the warranty.

Ch. 86 (AB 1255) Parra County employees' retirement: pension benefits: Fresno County.

The County Employees Retirement Law of 1937 provides various formulas for the calculation of retirement benefits that counties subject to that law may adopt by resolution. That law provides a particular formula for the calculation of retirement benefits that a county may adopt if the county has implemented certain alternative provisions for survivorship benefits under social security, as specified, and a majority of the members of the affected class or classes vote in favor of the termination of retirement benefits under social security, as specified. That law authorizes counties and districts to adopt specified retirement benefits for general members of the retirement system and prohibits the adoption, by resolution, ordinance, contract, or contract amendment, of retirement benefits for some, but not all, general members.

This bill would permit the board of supervisors of Fresno County to adopt the provisions described above, to apply only to members first hired by the county on and after the date these provisions become operative in the county and to those members represented by Service Employees International Union Local 521 whose retirement benefits were established pursuant to a specified provision of that law, without regard to the requirement of implementing alternative survivorship benefits or the requirement of terminating benefits under social security. The bill would also make conforming, technical changes to these provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 87 (SB 50) Torlakson Claims against the state: appropriation.

Existing law requires the Department of Justice to pay certain judgments against the state.

This bill would appropriate a total of \$3,445,000 to the Department of Justice to pay specific settlements. Any funds appropriated in excess of the amount required for the payment of these claims shall revert to the General Fund on June 30, 2008.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 88 (SB 102) Migden Blood transfusions.

Existing law requires, whenever there is a reasonable possibility, as determined by a physician, that a blood transfusion may be necessary as a result of a medical procedure, that the physician, by means of a standardized written summary that is published by the Medical Board of California and distributed upon request, inform the patient of the positive and negative aspects of receiving autologous blood and directed and nondirected homologous blood from volunteers.

This bill would also include a doctor of podiatric medicine within the scope of these requirements. It would require the information to be given by the physician or doctor of podiatric medicine, directly or through a nurse practitioner, certified nurse midwife, or physician assistant, authorized to order a blood transfusion.

Ch. 89 (SB 279) Yee State highways: public nuisance.

Existing law provides that it is a misdemeanor for any person to park a vehicle or place a structure wholly or partly within any highway for the purpose of sale or to sell from the vehicle or structure. Existing law also provides that any vehicle or structure parked or placed wholly or partly within any state highway for the purpose of sale, or to sell from, is a nuisance that may be immediately removed by the Department of Transportation. Existing law authorizes the California Highway Patrol and all peace officers to enforce these provisions.

This bill would provide that peace officers from a local law enforcement agency may enforce these provisions.

Ch. 90 (SB 437) Negrete McLeod Local agencies: redevelopment.

(1) Under the Community Redevelopment Law, a redevelopment agency is required to submit to its legislative body annually any audit undertaken by another governmental agency, and an annual report that includes, among others, an independent financial audit, a fiscal statement for the previous year, a description of the agency's activities with regard to housing and displacement in the previous fiscal year, and a description of the agency's progress in alleviating blight in the previous fiscal year, as specified.

This bill would also require the annual report to include a list of the fiscal years that the agency expects specified time limits to expire.

(2) Existing law requires a redevelopment agency that has adopted a redevelopment plan, as specified, to adopt an implementation plan that contains a number of specified elements, and must be updated as specified.

This bill would require the implementation plan to identify the fiscal years that the agency expects specified time limits to expire.

Ch. 91 (SB 500) Corbett Credit services organizations.

(1) Existing law regulates the activities of credit services organizations, and requires them to register with the Department of Justice. Existing law prohibits a credit services organization, its salespersons, agents, representatives, and contractors, as specified, from engaging in certain activities, including charging or receiving money or other consideration for referring the buyer to a retail seller or other credit grantor who will or may extend credit to the buyer on substantially the same terms as are generally offered to the public or without the services of the organization. Existing law provides that a violation of these provisions is a misdemeanor.

This bill would provide additional activities in which a credit services organization, and its salespersons, agents, representatives, and contractors are prohibited from engaging, including, among others, directly or indirectly extending credit to any buyer, referring any buyer to a credit grantor that is related to the credit services organization by common ownership, management, or control, and providing a credit grantor with assurance that an extension of credit to a buyer referred by the credit services organization will be repaid. The bill would also prohibit the Department of Justice from providing a credit services organization certificate of registration to any person who has engaged in, or proposes to engage in, specified activities. By broadening the definition of a crime, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 92 (SB 519) Committee on Governmental Organization Public meetings: special meetings.

The Bagley-Keene Open Meeting Act requires that all meetings of a state body be open and public and all persons be permitted to attend. The act requires the body to provide notice and an agenda of a regular meeting at least 10 days in advance of the meeting but authorizes the calling of a special meeting for specified purposes when compliance with the 10-day notice would impose a substantial hardship on the state body or when immediate action is required to protect the public interest.

This bill would authorize the calling of a special meeting to provide for an interim executive officer of a state body upon the death, incapacity, or vacancy in the office of the executive officer.

Ch. 93 (SB 525) Lowenthal Administrative hearings: restitution orders.

Under existing law, a violation of certain requirements governing manufacturers, manufacturer branches, remanufacturers, remanufacturer branches, distributors, distribution branches, transporters, and dealers, licensed by the Department of Motor Vehicles, may be adjudicated in an administrative hearing.

This bill would allow an administrative decision rendered against a licensee for a violation of these requirements to include an order of restitution for any financial loss or damage found to have been suffered by a person in the case. The failure to pay the restitution would be separate grounds for the department to refuse to issue a license to a licensee.

Ch. 94 (SB 699) Ducheny Developer fees: water rights and supply.

The Mitigation Fee Act authorizes fees and charges for specific purposes, including fees and charges imposed for water and sewer connections or capacity charges that may not exceed the estimated reasonable cost of providing the service or improvement for which the fee or charge is imposed, unless a question regarding the amount of the fee or charge imposed in excess of this cost is submitted to and approved by $\frac{2}{3}$ of the electors voting on the issue.

The act defines a “capacity charge” as a charge for facilities in existence at the time a charge is imposed or charges for new facilities to be constructed in the future that are of benefit to the person or property being charged.

The bill would redefine a “capacity charge” to mean a charge for public facilities in existence at the time a charge is imposed or charges for new public facilities to be acquired or constructed in the future that are of proportional benefit to the person or property being charged, including supply or capacity contracts for rights or entitlements, real property interests, and entitlements and other rights of the local agency involving capital expense relating to its use of existing or new public facilities.

The bill would also provide that a “capacity charge” does not include a commodity charge.

Ch. 95 (SB 706) Runner Civil action: unlawful detainer: controlled substances.

Existing law authorizes certain courts having jurisdiction over specified cities to hear an unlawful detainer action brought by a city attorney or city prosecutor on behalf of the people against any person who remains in possession of leased real property after the lease is terminated because the lessor was using the real property for purposes of selling controlled substances.

This bill would include the City of Palmdale in that list of specified cities.

Ch. 96 (SB 744) Runner Food facilities.

(1) The California Uniform Retail Food Facilities Law (CURFFL) provides for the regulation of health and sanitation standards for food facilities, including commissaries, by the State Department of Public Health and is primarily enforced by local health agencies. A violation of any provision of CURFFL is a misdemeanor.

CURFFL defines a commissary as a food facility that services mobile food facilities, mobile support units, or vending machines where all of specified actions occur.

This bill would revise the definition of a commissary to mean a food facility that services mobile food facilities, mobile support units, or vending machines where any of the specified actions occur. By extending the applicability of the misdemeanor provisions of the CURFFL and by increasing the duties of local enforcement agencies, this bill would create a state-mandated local program.

(2) CURFFL excludes from the definition of “limited food preparation” the slicing, chopping, or grinding of raw ingredients or potentially hazardous food.

This bill would eliminate the slicing or chopping of raw ingredients or potentially hazardous food from the exclusion.

(3) CURFFL imposes various requirements on retail food facilities regarding the identification and certification of molluscan shellfish that are harvested and received for sale or service.

The bill would revise certain requirements, as specified.

(4) CURFFL authorizes a local health officer or local enforcement agency to require the immediate restriction or exclusion of any employee or food employee applicant from a food facility under specified conditions.

This bill would delete this authorization with respect to food employee applicants.

(5) CURFFL requires a food facility permitholder to instruct all food employees regarding the relationship between personal hygiene and food safety.

This bill would, instead, require the owner who has a food safety certificate or employee who has this certificate to provide this instruction. By changing the definition of a crime, this bill would impose a state-mandated local program.

(6) CURFFL requires the person in charge to notify the local enforcement agency when notified that a food employee or food employee applicant has been diagnosed with an infectious agent.

This bill would require the local enforcement agency to be notified when the person in charge is made aware that a food employee has been so diagnosed.

(7) CURFFL specifies foods that may be held between 41°F and 45°F.

This bill would provide that these foods may be held at or below 45°F.

(8) CURFFL requires food to be inspected upon receipt and prior to any use, storage, or resale.

This bill would require this inspection to be as soon as practicable.

(9) CURFFL authorizes food facilities to engage in the brewing of alcoholic beverages only pursuant to a specified Hazard Analysis Critical Control Point plan.

This bill would delete this plan requirement.

(10) This bill would also make various technical, nonsubstantive changes to the above-described provisions.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(12) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 97 (SB 813) Wiggins Death of a candidate: election cancellation.

Existing law requires that, notwithstanding any other provision of law, except for an election for a judicial office, an election may not be conducted and no votes cast for the office be counted, and if counted the votes are null and void, if an incumbent is a candidate for a nonpartisan statewide, countywide, or citywide office, or for a nonpartisan office that is elected by division, area, or district, which he or she currently holds at an election at which only one other candidate, excluding any write-in candidates, has qualified to have his or her name placed on the ballot for that office, and either the challenger or the incumbent dies after the hour of 12:01 a.m. of the 68th day before the election.

Existing law also requires that a special election be called and held when the death of the challenger or the incumbent occurs as specified above.

This bill would specify that these provisions apply to a primary election and not to a runoff election.

Ch. 98 (SB 819) Hollingsworth Local government: consolidation.

Existing law, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, establishes procedures for the organization and reorganization of cities and special districts. With respect to the consolidation of special districts, until January 1, 2005, the law

required all of the districts to have been formed pursuant to the same principal act. Existing law, until July 1, 2008, permits the consolidation of 2 or more special districts not formed pursuant to the same principal act if certain procedures are followed.

This bill would delete that July 1, 2008, expiration date on the authorization to consolidate 2 or more special districts not formed pursuant to the same principal act.

Existing law sets forth the various powers and duties of a local agency formation commission in reviewing and approving or disapproving proposals for changes of organization or reorganization. Existing law authorizes a commission to initiate proposals for consolidation of districts, dissolution, merger, establishment of a subsidiary district, or a reorganization that includes any of those changes, and only under specified circumstances.

This bill would authorize a commission to initiate proposals for the formation of a new district or districts.

This bill would provide that its provisions would not affect any application for a change of organization or reorganization that a local agency formation commission has accepted for filing before January 1, 2008, or any litigation pending on January 1, 2008.

Ch. 99 (SB 1037) Committee on Banking, Finance and Insurance Banking and trust business.

Existing law, the Banking Law, provides for the regulation of banks and trust companies by the Commissioner of Financial Institutions.

Existing law specifies that the Corporate Securities Law does not apply to securities issued by and representing an interest in or a direct obligation of a specified bank or trust company.

This bill would instead specify that the Corporate Securities Law of 1968 does not apply to the offer and sale of securities issued by and representing an interest in or a direct obligation of a specified bank or trust company if the securities are offered and sold pursuant to the commissioner's authorization, as specified, or the securities are exempt, as specified.

Under existing law, no specified bank may offer or sell any security issued by it unless the commissioner has issued a permit authorizing that sale.

This bill would make various transactions exempt from the requirement that the commissioner issue a permit authorizing that sale.

Under existing law regulating trust companies, no corporation may engage in the trust business unless certain requirements are satisfied. Existing law permits a nonprofit corporation to act as a receiver as a result of the appointment by a court.

This bill would delete that provision and instead specify that various persons are exempt from meeting certain requirements before engaging in the trust and banking business. Examples of these persons include, among others, any natural persons serving as trustee of 1 or more trusts where at least 1 trustor is a family member, as defined, and any member of the State Bar or any certified public accountant, as specified, as well as any nonprofit corporation acting as trustee incidental to the purposes for which it was organized, as specified. The bill would also define various terms and make numerous technical changes.

Ch. 100 (SB 1038) Committee on Banking, Finance and Insurance Insurance.

Existing law provides that any person or other entity that provides coverage in this state for medical or related services whether this coverage is by direct payment, or otherwise, and that enters into an arrangement or contract with, or underwrites, a preferred provider organization or arrangement is subject to the jurisdiction of the Department of Insurance.

This bill would delete a repealed statutory cross-reference in that provision.

Existing law requires specified insurers to establish the California Insurance Guarantee Association the purpose of which is to provide insurer insolvency coverage for each member. Existing law defines, as used in these provisions, "unearned premium," as that portion of a premium that has not been earned and is remaining for the unexpired term of an insolvent insurer's premium because of the cancellation of the policy, as specified.

This bill would specify that “unearned premium” is to be calculated by the liquidator, and make other technical, nonsubstantive changes.

Existing law provides that any district attorney who fails to submit an application for fraud prosecution funds to the commissioner within 90 days of the deadline for submission of application shall be subject to loss of distribution of the moneys.

This bill would instead provide that any district attorney who fails to submit an application for fraud prosecution funds to the commissioner by the deadline set by the commissioner shall be subject to loss of distribution of the moneys.

Existing law requires the Fraud Division to annually compile and report, as a part of the commissioner’s annual report, specified information.

This bill would delete the requirement that the division compile and report the specified information.

Ch. 101 (SB 998) Cox Commissioner of Corporations: business regulation.

(1) Existing law requires domestic corporations, foreign corporations, nonprofit public benefit corporations, and nonprofit mutual benefit corporations to file statements either annually or biennially with the Secretary of State containing specified information including the street address of its principal executive office.

This bill would require those corporations to also include the mailing address of the corporation in the annual or biennial statements in certain circumstances.

(2) Existing law provides for the regulation, by the Commissioner of Corporations, of issuers of securities, franchises, persons engaged in the business of making deferred deposit transactions, finance lenders, and check sellers, bill payers, and proraters. A willful violation of the laws regulating these individuals is a crime. Existing law also provides for the regulation, by the Commissioner of Corporations, of securities depositories.

This bill would authorize the Commissioner of Corporations, with respect to those individuals, to issue an order censuring, suspending, or barring from any position of employment, management, or control, specified licensees or other persons, and prohibiting licensees or persons from participating in the business, as specified, for prescribed cause.

Under existing law, all applicants, except California corporations, applying for registration of an offer to sell franchises are required to file with the commissioner a specified form appointing the commissioner as agent for service of process, as specified.

This bill would extend that exception to California limited partnerships and California limited liability companies.

(3) Existing law provides for the regulation, by the Commissioner of Corporations, of issuers of securities, agents, broker-dealers, investment adviser representatives, investment advisers, persons engaged in the business of commodities, franchises, check sellers, bill payers and proraters, escrow agents, finance lenders, persons engaged in the business of making deferred deposit transactions, and mortgage lenders. A willful violation of the laws regulating these individuals is a crime. Existing law also provides for the regulation, by the Commissioner of Corporations, of capital access companies, bucket shops, and securities depositories.

Existing law makes it unlawful to make any untrue statement of a material fact in, among other things, an application filed with the commissioner.

This bill would make it unlawful to knowingly alter, destroy, mutilate, conceal, cover up, falsify, or make a false entry in any record, document, or tangible object with specified intent. The bill would also make it unlawful for any person to knowingly make an untrue statement to the commissioner during the course of licensing, investigation, or examination, with specified intent. Because a willful violation of those specified provisions would be a crime, the bill would impose a state-mandated local program.

(4) Existing law makes it unlawful to sell any franchise subject to registration without first providing the prospective franchisee with a copy of, among other things, the offering

circular, at least 10 business days prior to the execution of any binding franchise or prior to the receipt of any consideration, as specified.

This bill would instead require the offering circular to be provided to the prospective franchisee at least 14 days prior to the execution of any binding franchise or prior to the receipt of any consideration, as specified.

(5) Existing law, the California Finance Lenders Law, provides for the licensure and regulation of finance lenders, as defined, by the Commissioner of Corporations and exempts specified entities from its provisions. Existing law requires the commissioner to investigate an applicant for licensure and, in the case of an applicant that is a corporation, trust, or association, to investigate its principal officers, directors, and certain other persons. Existing law authorizes the commissioner to deny an application for licensure under specified conditions. Existing law requires licensees to maintain a specified surety bond and to file a copy of that bond with the commissioner.

This bill would exempt a person from the California Finance Lenders Law if that person is doing business under the laws of any state relating to, among other things, banks, credit unions, and small business investment companies. The bill would require the commissioner, in investigating applications for licensure submitted by a corporation, trust, limited liability company, or association, to additionally investigate the applicant and its managing members. The bill would also authorize the commissioner to deny an application for licensure if the applicant itself has, within the last 10 years, been convicted or pled nolo contendere to a crime or committed specified acts involving dishonesty, fraud, or deceit. The bill would instead require the licensee to file an original surety bond with the commissioner.

(6) Existing law, the California Residential Mortgage Lending Act, provides for the licensing and regulation by the Commissioner of Corporations of persons engaged in the business of making residential mortgage loans or servicing those loans. The California Residential Mortgage Lending Act requires a licensee that ceases to engage in activity regulated by the act, and that no longer desire to be licensed, to inform the commissioner in writing, surrender the license, and file other specified information with the commissioner, including a plan for the withdrawal from regulated business that includes a closing audit performed by an independent certified public accountant. Existing law requires licensees to maintain a specified surety bond and to file a copy of that bond with the commissioner.

This bill would instead require the plan for withdrawal to include either the closing audit or a review or other procedures prescribed by rule or order of the commissioner. The bill would also instead require the licensee to file an original surety bond with the commissioner.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 102 (SB 1041) Committee on Veterans Affairs State militia.

Existing law provides that the militia of the state consist of the active militia, which includes the National Guard, the State Military Reserve, and the Naval Militia, and the unorganized militia, which includes all persons liable to service in the militia, except for members of the active militia.

This bill would clarify that the unorganized militia does not include members of the State Military Reserve, in addition to the National Guard and the Naval Militia.

Ch. 103 (AB 61) Nava Santa Barbara Metropolitan Transit District.

Existing law establishes the Santa Barbara Metropolitan Transit District, which is governed by a board of 5 members.

This bill would increase the number of members on the board by 2 members to a total of 7 members. The bill would require the City Council of the City of Carpinteria and the City Council of the City of Goleta to each appoint one of the additional members to the board.

By increasing the membership of the board of the Santa Barbara Metropolitan Transit District, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 104 (AB 104) Solorio Criminal records: city attorneys.

Existing law requires the Department of Justice to maintain specified criminal history information, and requires the Attorney General to supply that information to specified law enforcement and other entities, as prescribed.

This bill would additionally require the Attorney General to provide criminal history information to city attorneys pursuing civil gang injunctions, or drug abatement actions, as specified.

Existing law requires local criminal justice agencies to supply local criminal history information, as defined, to specified law enforcement and other entities, as prescribed.

This bill would additionally require local criminal justice agencies to provide local criminal history information to city attorneys pursuing civil gang injunctions, or drug abatement actions, as specified.

By imposing additional duties on local criminal justice agencies, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 105 (AB 361) Ma Decedents' estates: creditor claims.

Existing law requires the general personal representative or the estate attorney of a decedent's estate to provide notices to the Director of Health Care Services and the Director of the California Victim Compensation and Government Claims Board, under specified circumstances, not later than 90 days after the date letters of administration are first issued.

This bill would require that the general personal representative or estate attorney give the Franchise Tax Board notice of the administration of the estate, as specified, not later than 90 days after the date letters of administration are first issued. This requirement would apply to estates for which letters of administration are first issued on or after July 1, 2008.

Ch. 106 (AB 470) DeSaulnier Electric personal assistive mobility devices.

(1) Existing law defines "pedestrian" for purposes of the Vehicle Code to include a person who is using an electric personal assistive mobility device (EPAMD), as that term is defined. The definition of EPAMD, among other things, requires the maximum speed of the EPAMD to be less than 12.5 miles per hour. Existing law imposes safety specifications on EPAMDs, and authorizes a city, county, or city and county, to ensure the safety of pedestrians, to regulate the time, place, and manner of the operation of EPAMDs and their use as a pedestrian for purposes of the Vehicle Code. A violation of those provisions is an infraction. State agencies are also authorized to limit or prohibit the time, place, and manner of EPAMD use on state property. Existing law repeals these provisions on January 1, 2008, unless a later enacted statute deletes or extends that date.

This bill would delete the repeal of those provisions, thereby extending them indefinitely. The bill also would change the definition of EPAMD to require the maximum speed of an EPAMD to be no more than 12.5 miles per hour, rather than less than 12.5 miles per hour, and to require an EPAMD to be no greater than 20 inches deep and 25 inches wide.

The bill would impose additional safety requirements on the operation of an EPAMD. The bill would require a person operating an EPAMD on specified surfaces to yield the right-of-way to all pedestrians on foot.

The bill would impose a state-mandated local program by extending indefinitely the existing provisions, the violation of which constitutes an infraction, and because a violation of the new provisions would be an infraction.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 107 (AB 711) Emmerson Contractors: landscape contractors.

Existing law, the Contractors' State License Law, creates the Contractors' State License Board within the Department of Consumer Affairs and provides for the licensing and regulation of contractors. Existing law authorizes a landscape contractor working within the classification of his or her license to enter into a prime contract for the construction of a swimming pool, spa, or hot tub, provided that the improvements are included within a landscape project that the landscape contractor is supervising and are subcontracted to a single licensed swimming pool contractor or are performed by the landscape contractor who is a licensed swimming pool contractor. Existing law specifies various acts and omissions that constitute grounds for disciplinary action against a licensed contractor, and authorizes the Registrar of Contractors to deny an application for licensure or renewal of licensure, issue a citation, or suspend or revoke a license or registration for any act or omission constituting a cause for disciplinary action.

This bill would authorize a landscape contractor working within the classification of his or her license to enter into a prime contract for the construction of an outdoor cooking center or an outdoor fireplace provided that the improvements are included within a residential landscape project that the contractor is supervising and that, in the case of an outdoor fireplace, it is not attached to a dwelling. The bill would require any work performed in connection with the construction of the outdoor cooking center or outdoor fireplace that is outside of the scope of the landscape contractor classification to be performed by a general building contractor, as specified, or an appropriately licensed specialty contractor, unless the landscape contractor is also a general building contractor or holds an appropriate specialty license classification to perform the work. The bill would provide that a violation of these provisions and related provisions of existing law would be grounds for disciplinary action.

Ch. 108 (AB 714) Maze Adoption: relatives: release of information.

Existing law requires that, in any case in which a child is removed from the physical custody of his or her parents pursuant to specified provisions of law, preferential consideration be given to a request by a relative of the child for placement of the child with the relative.

Existing law prohibits the State Department of Social Services and licensed adoption agencies from releasing information that would identify persons who receive, or have received, adoption services, except as specified.

This bill would provide that, with respect to a child who was previously a dependent of the court and was previously adopted, and whose adoption has been disrupted or set aside pursuant to specified provisions, or who has been released into the custody of the department or a licensed adoption agency by the adoptive parents or parent, the department and any licensed adoption agency may search for a relative and furnish identifying information relating to the child to that relative if it is believed the child's welfare will be promoted thereby. The bill would provide that, for the purposes of these provisions, a relative includes a member of the child's birth family and nonrelated extended family members, regardless of whether the parental rights were terminated, provided that specified circumstances exist.

Ch. 109 (AB 745) Silva Local agency formation commissions.

The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 requires specified procedures to be followed for the submission of a proposal for a change of organization or reorganization to the local agency formation commission. Existing law requires the disclosure of expenditures for political purposes related to a change of organization or reorganization proposal that has been submitted to a local agency formation commission, and contributions in support of or in opposition to those measures.

This bill would require expenditures for political purposes made in connection with a proposal that will be submitted to a local agency formation commission, and contributions in support of or in opposition to those proposals, and expenditures for political purposes made in connection to proceedings for a change of organization or reorganization, and contributions in support of or in opposition to those proceedings, to be disclosed and reported to the same extent and subject to the same requirements of the Political Reform Act of 1974 as provided for local initiative measures.

Ch. 110 (AB 905) Arambula Child care: eligibility.

The Child Care and Development Services Act provides child care and development services to children from birth to 13 years of age and their parents through full- and part-time programs. The act requires the Superintendent of Public Instruction to adopt rules and regulations on eligibility, enrollment, and priority of services needed to implement those programs. A regulation adopted by the Superintendent provides that a family's period of eligibility for those programs is limited to 60 working days during the contract period if the basis of the family's need is seeking employment.

This bill would authorize the Superintendent to extend the 60-day eligibility period by an additional 60 days if he or she determines that opportunities for employment have diminished to the degree that one or both parents cannot reasonably be expected to find employment within 60 working days and granting the extension is in the public interest.

Ch. 111 (AB 924) Emmerson Crimes: vehicles.

Existing law defines "criminal profiteering activity" as any act committed or attempted or any threat made for financial gain or advantage, which act or threat may be charged as one of several specified crimes.

This bill would add offenses involving vehicle theft to that list of specified crimes.

Because the bill would expand the scope of a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 112 (AB 946) Krekorian Electricity: renewable energy resources.

The Public Utilities Act imposes various duties and responsibilities on the Public Utilities Commission with respect to the purchase of electricity and requires the commission to review and adopt a procurement plan and a renewable energy procurement plan for each electrical corporation pursuant to the California Renewables Portfolio Standard Program. The program requires that a retail seller of electricity, including electrical corporations, community choice aggregators, and electric service providers, but not including local publicly owned electric utilities, purchase a specified minimum percentage of electricity generated by eligible renewable energy resources, as defined, in any given year as a specified percentage of total kilowatthours sold to retail end-use customers each calendar year (renewables portfolio standard). Existing law requires every electrical corporation to file with the commission a standard tariff for the renewable energy output produced at an electric generation facility, as defined, that, among other things, is an eligible renewable energy

resource. Existing law requires the electrical corporation to make this tariff available to public water or wastewater agencies that own and operate an electric generation facility within the service territory of the electrical corporation, upon request, on a first-come-first-served basis, until the combined statewide cumulative rated generating capacity of those electric generation facilities equals 250 megawatts, with each electrical corporation required to offer service or contracts until that electrical corporation meets its proportionate share of the 250 megawatts based on the ratio of its peak demand to the total statewide peak demand of all electrical corporations.

The existing definition of an “electric generation facility” includes a requirement that the facility be owned and operated by a public water or wastewater agency that is a retail customer of an electrical corporation, that the facility have an effective capacity of not more than one megawatt and is located on or adjacent to a water or wastewater facility owned and operated by the public water or wastewater agency.

This bill would amend the definition of an “electric generation facility” to require that the facility be owned and operated by a public water or wastewater agency that is a retail customer of an electrical corporation, that the facility have an effective capacity of not more than one megawatt, and that the facility is located on property owned or under the control of the public water or wastewater agency.

The bill would make other nonsubstantive technical changes.

Ch. 113 (AB 1126) Eng Civil discovery: unlawful detainer: subpoenas.

Existing law specifies the procedural rules applicable to the conduct of discovery in civil actions. Existing law sets forth various summary proceedings for use in civil actions involving the possession of real property, including actions for unlawful detainer.

This bill would provide that, in any action under the above summary proceedings, a discovery motion may be made at any time upon giving 5 days’ notice.

The bill would require the Judicial Council to adopt rules prescribing the time for the filing and service of opposition and reply papers relating to specified motions filed in connection with the above summary proceedings.

The bill would allow a plaintiff in the above summary proceedings to propound interrogatories, make a demand for inspection, and make requests for admission without leave of court at any time that is 5 days after service of the summons on, or appearance by, the relevant party, whichever occurs first. The bill would make related changes to the procedures governing discovery in those summary proceedings.

Existing law accords certain rights and protections to a consumer whose personal records are subject to a subpoena that is directed to a witness with whom the consumer has transacted business or who has acted as agent or fiduciary of the consumer. Under existing law, those rights and protections include the power of the court to make an order appropriate to protect the consumer from unreasonable or oppressive demands.

This bill would, in addition, allow the court to make the above order to protect an employee who is or has been employed by a witness subject to a subpoena, and an individual who is or has been represented by a labor organization that is a witness subject to a subpoena, when the subpoena covers records pertaining to the employee. The bill would make technical changes conforming the provisions of law protecting employees whose records are subject to a subpoena to the provisions protecting consumers.

The bill would require that, if the party giving notice of a deposition is a subpoenaing party, and the deponent is a witness commanded by a deposition subpoena to produce personal records of a consumer or employment records of an employee, the deposition be scheduled for a date at least 20 days after issuance of that subpoena.

Ch. 114 (AB 1208) Silva Improvement districts.

Existing law, the Parking and Business Improvement Area Law of 1989, authorizes local governmental entities to levy assessments on businesses located and operating in a parking

and business improvement area. Existing law requires specified proceedings to establish or modify a parking and business improvement area, including the adoption of a resolution by the governing body and a public hearing. Existing law requires these public hearings to be commenced within 20 to 30 days of, and completed within 30 days of the adoption of the resolution indicating the intent to establish or modify a parking and business improvement area.

This bill would delete the 20-day and 30-day limits for commencement and completion of those public hearings and would instead make certain other existing notice and procedural requirements applicable to those hearings.

Existing law, the Property and Business Improvement District Law of 1994, authorizes local governmental entities to levy assessments on properties and businesses within a business improvement district for the purpose of financing certain improvements. Existing law requires the management district plan for a business improvement district to include certain information, including a description of the boundaries of the district. Existing law prohibits the boundaries of a proposed district to overlap with the boundaries of an existing district. Existing law specifies that this prohibition does not apply to business improvement districts overlapping with other improvement areas. Existing law requires a local governmental entity to provide specified notice and hearing if the governing body proposes to modify a management district plan, to levy an assessment, or to impose a new or increased assessment.

This bill would revise the limitation on the overlapping of business improvement districts to instead prohibit the overlapping of proposed and existing property assessment districts. The bill would require different provisions of existing law relating to notice and hearing procedures to be applied to new or increased property assessments and business assessments, as specified. The bill would also revise the notice and hearing procedures to be applied to proposed modifications of a management district plan.

Existing law, the Multifamily Improvement District Law, provides that upon submission of a written petition, signed by either more than $\frac{2}{3}$ of the property owners or more than $\frac{2}{3}$ of the business owners in a proposed multifamily improvement district, the governing body may initiate proceedings to form a multifamily improvement district, as specified. Existing law requires the governing body to provide specified notice and hearing if the governing body proposes to modify a management district plan.

This bill would instead authorize a governing body to initiate proceedings to form a multifamily improvement district upon the submission of a written petition signed by either property owners or business owners that would pay more than $\frac{2}{3}$ of the proposed assessment. The bill would also revise the notice and hearing procedures to be applied to proposed modifications of a management district plan, as specified.

Ch. 115 (AB 1211) Price Depositions: costs.

Existing law provides a comprehensive procedure for the noticing, conduct, and transcription or recording of oral depositions inside the state. Existing law requires the party noticing the deposition to bear the cost of the transcription, unless the court, on motion and for good cause, orders that the cost be borne or shared by another party.

This bill would provide, in addition, that the obligation to timely pay the deposition officer or entity providing the services of the deposition officer for that transcription, and any other deposition products or services, as defined, that are requested, shall be the responsibility of the requesting attorney or a party representing himself or herself, unless responsibility for the payment is otherwise provided by law or the deposition officer or entity is notified in writing that the party or another identified person will be responsible for payment. The bill would provide that these provisions do not prohibit or supersede an agreement between an attorney and a party allocating responsibility for the payment of deposition costs to the party.

Ch. 116 (AB 1326) Houston San Francisco Bay Area Rapid Transit District: Los Angeles County Metropolitan Transportation Authority.

Existing law establishes various regional transportation authorities, including the San Francisco Bay Area Rapid Transit District (BART) and the Los Angeles County Metropolitan Transportation Authority (MTA). Existing law requires that, when the expenditure required for a purchase of supplies, equipment, and materials by BART or MTA exceeds \$100,000, adjusted annually as provided under federal law, the purchase shall be by contract let to the lowest responsible bidder or to the responsible bidder who submits a proposal that provides the best value, as defined, except as specified. Existing law also requires that, when an expected expenditure required by BART or MTA exceeds \$2,500, adjusted annually as provided under federal law, but does not exceed a specified amount, the district or commission shall obtain a minimum of 3 quotations that permit price and term to be compared, except as specified.

This bill would delete the provisions requiring the above maximum and minimum expenditure amounts to be adjusted annually as provided under federal law.

Ch. 117 (AB 1364) Benoit Workers' compensation.

Existing law requires insurers issuing workers' compensation insurance, from time to time as demanded by the commissioner, to deposit with the Treasurer, a bank or savings and loan association authorized to engage in the trust business, or a trust company, cash instruments or approved interest-bearing securities as a prerequisite to admission to transact workers' compensation insurance for the purpose of paying compensable workers' compensation claims under policies issued by the insurer in the event the insurer fails to pay those claims when they come due. Existing law provides that the deposit shall be maintained at a deposit value specified by the commissioner, but in any event no less than an amount determined, as specified.

This bill would provide that if the insurer providing the deposit is domiciled in a state where state law, as specified, provides that with respect to covered claims, the deductible amount paid by a guarantee association after the entry of an order of liquidation under large deductible workers' compensation policies, any part of the reimbursement proceeds, as specified, are general assets of the estate, then the amount of the insurer's deposit shall be calculated based on the gross amount of that insurer's liabilities for loss and loss adjustment expenses under those policies without regard to the deductible, and those reserves may not be reduced by any collateral or reimbursement obligations insureds were required to provide under those policies.

The bill would further provide that nothing in this section shall require that the deposit be calculated based on gross amounts of liabilities described above if the domiciliary state does not have an existing law, as specified, providing that the reimbursement proceeds described above are general assets of the estate.

Ch. 118 (AB 1374) Hernandez Peace officers: reserve housing authority patrol officers.

Existing law authorizes qualified persons to be deputized or appointed as reserve or auxiliary sheriffs or police officers of various local governmental agencies, which reserve officers are assigned to the prevention and detection of crime and the general enforcement of the laws of this state, and are considered peace officers, under specified circumstances.

This bill would expressly include all reserve housing authority patrol officers employed by a housing authority, as defined, among those reserve officers who are considered peace officers.

Ch. 119 (AB 1495) La Malfa Information signs for roadside businesses in rural areas: RV-friendly symbols.

Existing law provides that the Department of Transportation shall have full possession and control of the state highway system. Existing law requires the department to adopt rules and regulations to allow the placement of information signs identifying specific roadside businesses offering fuel, food, lodging, or camping near exits on freeways in rural areas, and to charge a fee in that regard.

This bill would require the department to incorporate an “RV-friendly” symbol on a sign placed under these provisions for a specific roadside business that requests the symbol and meets criteria of the department relating to sufficiency of access for recreational vehicles. The bill would require the department to adopt rules and regulations and to charge an additional fee for placement and maintenance of the symbol.

Ch. 120 (AB 1514) Maze Juveniles: psychotropic medication.

Existing law authorizes only a juvenile court judicial officer to make orders regarding the administration of psychotropic medications for a dependent child who has been removed from the physical custody of his or her parent.

This bill, likewise, would provide, with respect to a ward of the court who has been placed in foster care, that only a juvenile court judicial officer is authorized to make orders regarding the administration of psychotropic medications. The bill would require the Judicial Council to adopt rules of court and develop appropriate forms for implementation of these provisions on or before July 1, 2008.

Ch. 121 (AB 1575) Richardson Vehicle liens.

Existing law provides that every person has a lien dependent upon possession for the compensation to which the person is legally entitled for making repairs or performing labor upon, and furnishing supplies or materials for, and for the storage, repair, or safekeeping of, and the rental of parking space for, any vehicle subject to registration, as specified. A lienholder must obtain authorization to conduct a lien sale for a vehicle with a value determined to be over \$4,000. Existing law provides that the portion of the lien in excess of \$750 for any work or services, or the amount in excess of \$400 for any storage, safekeeping, or rental of parking space, or in excess of \$500 for storage or safekeeping if an application for authorization to conduct a lien sale has been filed, rendered or performed at the request of any person other than the legal owner or lessor is invalid unless prior to commencing any work, services, storage, safekeeping, or rental of parking space, the person claiming the lien gives actual notice in writing, as specified, to the legal owner named in the registration certificate and the written consent of the legal owner is obtained before those services are performed.

This bill would increase those amounts from \$750 to \$1,500, from \$400 to \$1,025, and from \$500 to \$1,250, respectively, subject to specified limitations on parking and storage fees. The bill would prohibit the lienholder, upon completion of the work or services, from dismantling, disengaging, removing, or stripping from the vehicle the parts used to complete the work or services. The bill would provide that a vehicle lien shall be extinguished, and no lien sale shall be conducted, if the lienholder, after written demand by the legal owner or the lessor to receive a written copy of the work order or invoice reflecting the services or repairs performed and the authorization to perform the services or repairs, fails to provide that copy to the legal owner or lessor, or his or her agent, within 10 days.

Ch. 122 (AB 1639) Duvall Insurance: licensing.

Existing law provides that a provider teaching any approved continuing education course at any approved seminar shall qualify for the same number of classroom hours as would be granted to a person taking and successfully completing that course, except that such person shall qualify for those classroom hours only once each license term.

This bill would provide that a provider may not use its own self-study course toward its continuing education requirement.

Existing law provides that an applicant for a surplus line broker's license shall provide a fee of \$295 for up to 2 natural named persons, and \$83 for each additional natural person named.

This bill would provide that the fee for the application shall be \$700 every 2 years. It would require every applicant for a business entity license to provide the names of all persons who may exercise the power and perform the duties under the license.

This bill would also provide that whenever a surplus line broker licensed as an organization desires to change the persons who are authorized to transact business under the license, it shall immediately file an application with the commissioner reflecting the change. The bill would require all natural persons named to take and pass the qualifying examination, as specified, and that they be in all other respects subject to the laws applying to surplus line brokers.

Existing law provides that no independent or public insurance adjusters shall conduct a business under a fictitious or other business name unless and until he or she has obtained the written authorization of the commissioner to do so.

This bill would provide that independent or public insurance adjusters who conduct business under a fictitious name must comply with specified rules, and the commissioner may disapprove of the use of a fictitious business name on specified grounds.

Ch. 123 (AB 1715) Committee on Utilities and Commerce Public utilities: Digital Infrastructure and Video Competition Act.

Existing law, the Digital Infrastructure and Video Competition Act of 2006, establishes a procedure for the issuance of state franchises for the provision of video service, defined to include cable service and open-video systems, administered by the Public Utilities Commission. Under existing law, any person or corporation that seeks to provide video service in this state is required to file an application with the commission for a state franchise with specified information, signed under penalty of perjury.

Existing property tax law specifies the manner in which local tax assessors determine the value of cable television possessory interests that are created in a cable television franchise or license that is granted by a local government. Under existing law, this valuation method also applies to possessory interests created in a cable franchise or license or a franchise to provide video services that is granted by the state under the act.

This bill would make technical, nonsubstantive, clarifying, and conforming changes in these provisions of the law.

Ch. 124 (AB 1718) Committee on Agriculture Agricultural advisory and promotional agencies.

Existing law generally regulates the proof of ownership for various animals including cattle, and provides for evidence of ownership of those animals, including a dairy exemption number, as specified, for certain cattle. Existing law further provides that the Secretary of Food and Agriculture may revoke the dairy exemption number of any person who violates any provision of the Food and Agricultural Code.

This bill would instead provide that the secretary may revoke the dairy exemption number of any person who violates certain provisions of the Food and Agricultural Code, as specified.

Existing law establishes various advisory and promotional entities for agricultural products, including, among others, the California Kiwifruit Commission.

This bill would authorize the commission to collect and disseminate various marketing information in order to prevent unfair trade practices, as specified.

The bill would authorize the commission to recommend kiwifruit quality standards to the Secretary of Food and Agriculture, and provide for their adoption, as specified.

Existing law establishes the California Walnut Commission.

This bill would make technical changes to procedures governing election of members to the commission.

Existing law establishes the California Cut Flower Commission.

This bill would expand the definition of “shipping research, analysis, and development” engaged in by the commission to include the development of shipping opportunities, practices, and methods, as specified.

The bill would authorize the commission to work to develop and arrange for shipping alternatives for producers in order to improve the quality of flowers and access to markets, as specified.

Existing law establishes the Mendocino County Winegrape and Wine Commission, and defines certain terms used in those provisions.

This bill would define “vintner” and “processor,” for purposes of these provisions, to mean persons who are engaged in producing, or causing to be produced, winegrape products, as specified.

Existing law provides that the commission shall establish assessments on winegrape producers based upon the number of tons of winegrapes delivered to vintners during the preceding marketing season.

This bill would, instead, base assessments upon the number of tons of winegrapes marketed during the preceding marketing season.

Existing law also provides that the assessment shall not apply to winegrapes produced for a producer’s or vintner’s own home or ornamental use if he or she files an affidavit with the commission which is approved, as specified.

This bill would also provide that a producer growing winegrapes commercially on 3 acres or less be exempt from the base assessment of winegrapes if he or she files an affidavit with the commission which is approved, as specified.

Ch. 125 (AB 1732) Committee on Elections and Redistricting Elections.

(1) Existing law defines “elections official” to include, among other persons, a county clerk, city clerk, registrar of voters, elections supervisor, or governing board having jurisdiction over elections within any county, city, or district within the state.

The bill would delete “governing board” from this definition.

(2) Existing law provides that if a petition protesting the adoption of an ordinance, and circulated by a person who is a registered voter or who is qualified to be a registered voter of the city, is submitted to the elections official of the legislative body of the city in his or her office during normal office hours, as posted, within 30 days of the adoption of the ordinance, and is signed by a specified number of registered voters, then the effective date of the ordinance shall be suspended and the legislative body shall reconsider the ordinance.

This bill would instead require that the petition be submitted to the elections official under these provisions within 30 days of the date the adopted ordinance is attested by the city clerk or secretary to the legislative body.

(3) Existing law, in addition to specified restrictions on a candidate’s statement for nonpartisan elective office in any local agency, limits the statement by a candidate for judicial office in the ballot pamphlet to a recitation of the candidate’s own personal background and qualifications, and prohibits him or her from making reference to other candidates for judicial office or to another candidate’s qualifications, character, or activities.

This bill would additionally apply these limitations to all candidates for nonpartisan elective office in any local agency. By expanding the scope of application of restrictions on candidates for local nonpartisan elective office, the bill would increase the duties of local elections officials and, thereby, impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 126 (SB 484) Lowenthal Recall and special elections: City of Lynwood.

Existing law provides the procedure for the recall of local government officers pursuant to a petition that is circulated for signatures and submitted by the proponents of the recall. It requires that when the city or county elections official is the officer sought to be recalled, the elections official's duties in connection with the recall process be performed by some other person designated by the applicable governing board.

This bill would state legislative findings that there exists a need for an experienced, objective, impartial, and professional entity to conduct any recall or special election that is held in the City of Lynwood in the County of Los Angeles during calendar years 2007 and 2008, and would state the intent of the Legislature in connection with this bill. It would require any recall or special election held in the City of Lynwood during the 2007 and 2008 calendar years to be administered by the Los Angeles County Registrar-Recorder/County Clerk, subject to approval by the Board of Supervisors of Los Angeles County.

This bill would require the City of Lynwood, consistent with a specified provision of state law, to pay the County of Los Angeles from the city treasury for any expenses authorized and necessarily incurred in conducting any recall or special election held in the City of Lynwood pursuant to this bill. It would provide a procedure under which the Controller would reallocate to the county amounts otherwise scheduled for distribution to the city from unrestricted funds or moneys, as specified.

The California Constitution provides that a local or special statute is invalid in any case if a general statute can be made applicable.

This bill would declare that, due to the unique circumstances pertaining to the City of Lynwood that the bill is intended to remedy, a general statute within the meaning of specified provisions of the California Constitution cannot be made applicable and a special statute is necessary.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 127 (SB 548) Hollingsworth California Emergency Services Act.

The California Emergency Services Act established the Disaster Response-Emergency Operations Account in the Special Fund for Economic Uncertainties, and continuously appropriated moneys in the account for allocation by the Director of Finance to state agencies for qualifying disaster response operation costs for specified activities. Those provisions were repealed as of July 1, 2007.

This bill would, until January 1, 2009, reenact the above repealed provisions. By creating a continuously appropriated fund, this bill would make an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 128 (AB 222) Emmerson Undomesticated burros.

Existing law makes it unlawful to kill, wound, capture, or have in possession any undomesticated burro.

This bill would authorize an officer or employee of a local animal control agency to remove an undomesticated burro, as defined, that strays onto private land or a public roadway, as specified. The bill would authorize an officer or employee of a local animal control agency to provide medical care or treatment, including, but not limited to, euthanasia if medically appropriate, to an undomesticated burro that is seriously ill or injured.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 129 (AB 257) Anderson Parks: veterans: park passes.

Existing law requires that a veteran, as defined, of any war, as defined, in which the United States has been, or may be engaged, who is a resident of this state, upon presentation to the

Department of Parks and Recreation of proof of disability or proof of being held captive as a prisoner of war and of an honorable discharge from service, upon application therefor and payment of a fee of \$3.50, be issued a pass entitling the bearer to the use of all facilities, including boat launching facilities, in units of the state park system.

This bill would eliminate the fee requirement for these park passes, and would additionally make a veteran who is a recipient of a Congressional Medal of Honor eligible for a pass.

Ch. 130 (AB 299) Tran Maintenance of the codes.

Existing law directs the Legislative Counsel to advise the Legislature from time to time as to legislation necessary to maintain the codes.

This bill would make technical, nonsubstantive changes in various provisions of law to effectuate the recommendations made by the Legislative Counsel to the Legislature.

Ch. 131 (AB 323) Evans Alcoholic beverage licensees: wine.

The Alcoholic Beverage Control Act provides that nothing in that law prohibits a winegrower from giving or selling wine to certain nonprofit organizations, as specified, at prices other than those contained in schedules filed with the Department of Alcoholic Beverage Control. Existing law allows nonprofit organizations holding a temporary wine license to conduct winetastings.

This bill would add beer and wine wholesalers that also hold off-sale beer and wine retail licenses and only sell wine to those who are not prohibited from giving or selling wine to those nonprofit organizations. This bill would also allow beer and wine wholesalers that also hold off-sale beer and wine retail licenses and only sell wine, subject to specified conditions, to assist a nonprofit organization holding a temporary wine license in conducting a winetasting.

The Alcoholic Beverage Control Act provides that a violation of its provisions is a misdemeanor, unless otherwise specified. This bill, by creating a new crime, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 132 (AB 367) De Leon Court-ordered debts.

(1) Existing law authorizes any county or court that implements a comprehensive program to identify and collect various delinquent fees and penalties to deduct and deposit in the county treasury or the trial court operations fund the cost of operating that program from any revenues collected prior to distributing the revenues to other governmental entities, as specified.

This bill would specify that those fees include public defender fees. The bill also would delete other obsolete provisions relating to local comprehensive collection programs that were superseded by the above provisions.

(2) Existing law requires the Judicial Council to adopt guidelines for a comprehensive program concerning the collection of moneys owed for fees and other penalties imposed by court order, after considering the recommendations of a collaborative court-county working group. Existing law requires that working group to survey courts and counties regarding current collection efforts and make recommendations to the Judicial Council regarding collection methods.

This bill would require the Judicial Council to develop performance measures and benchmarks to review the effectiveness of court and county collection programs and to report on these collection programs to the Legislature on or before September 1, 2009, and annually thereafter, as specified. This bill would delete the above provisions relating to the working

group. The bill would require the Judicial Council, on or after July 1, 2009, to establish a task force to evaluate criminal and traffic-related court-ordered debts imposed against adult and juvenile offenders. Among other things, the task force would be required to make recommendations to the Judicial Council no later than June 30, 2010, regarding the priority in which court-ordered debts should be satisfied.

(3) Under existing law, unpaid fines and other penalties for criminal offenses imposed by a court upon a person or entity in an amount less than \$250, except for certain traffic offenses, may be referred to the Franchise Tax Board for collection after being delinquent for 90 days.

This bill would decrease the above amount required to refer those unpaid debts to the Franchise Tax Board from \$250 to \$100. The bill would also delete the exemption for traffic offenses.

Ch. 133 (AB 469) Horton Teacher credentialing: applications.

Existing law establishes in state government the Commission on Teacher Credentialing and requires the commission, among other things, to review and approve applications for, and issue, teaching and services credentials. A credential is required to contain its date of expiration, be issued on a form prescribed by the commission, and bear the signatures of the secretary and the chairman of the commission or their facsimile signatures.

This bill would instead require the credential to bear the signatures of the executive director and the chair of the commission or their facsimile signatures. The commission would be required to process an application for a credential within 50 business days of receipt, subject to specified exceptions. A specific timeframe would be established for the submission of certain applications to the commission by specified educational entities.

Ch. 134 (AB 522) Duvall Nonadmitted insurers.

Existing law generally provides that a surplus line broker may solicit and place insurance, other than as excepted, with nonadmitted insurers only if that insurance can not be procured from insurers admitted for the particular class or classes of insurance and that actually write the particular type of insurance in this state.

This bill would provide that this requirement does not apply to extensions of coverage by a nonadmitted insurer, of or for the same risks, and to the same insured under an existing surplus lines policy, as specified.

Existing law, until January 1, 2008, specifies various duties of nonadmitted insurers and surplus line brokers transacting business in this state. Specifically, it gives applicants and policyholders notice of the power to cancel the policy within 5 days under specified circumstances, and notice that the broker fee must be returned and that the premium must be prorated when a policy is canceled. It imposes a similar requirement with respect to personal insurance and associated umbrella policies.

This bill, by repealing the January 1, 2008, termination date, would extend these provisions indefinitely.

Existing law, operative on January 1, 2008, specifies various duties of nonadmitted insurers and surplus line brokers transacting business in this state, but without the above-specified requirements.

This bill would repeal this provision.

Ch. 135 (AB 647) Salas Tobacco use programs.

Existing law establishes the Tobacco Education and Research Oversight Committee to provide advice to the State Department of Health Services and the State Department of Education with respect to policy development, integration, and evaluation of tobacco education programs. Existing law specifies the duties of the State Department of Education with respect to tobacco programs administered by local public and private schools, school districts, and county offices of education. Existing law requires the State Department of Education to award and administer grants for projects directed at the prevention of tobacco

use among schoolage children. Existing law specifies the duties of county offices of education regarding antitobacco programs.

This bill would revise the above-described provisions to, among other things, require the State Department of Education to administer a competitive grant program for school-based, antitobacco education programs and tobacco use intervention and cessation activities, and revise the duties of the county offices of education with respect to this grant program. The provisions of this bill would take effect July 1, 2009.

Ch. 136 (AB 670) Spitzer Animals: bites: owner information.

Existing law makes it a misdemeanor or a felony for a person owning or having custody or control of a mischievous animal to negligently allow the animal to cause serious bodily injury to another person, as specified.

This bill would require a person who owns or has custody or control of an animal to, as soon as is practicable, but no later than 48 hours thereafter, provide identifying information to another person when the person knows, or has reason to know, the animal bit the other person, as specified. Failure to provide the required information would be an infraction, punishable by a fine of not more than \$100.

Because this bill would create a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 137 (AB 686) Gaines Minors: fitness hearing.

Existing law, enacted by initiative statute, establishes the criteria by which the juvenile court may find that certain minors, including a person who has committed one of specified violent offenses when he or she was 16 years of age or older, 2 or more felony offenses under certain circumstances, or specified violent offenses at 14 years of age or older under certain circumstances, are unfit for treatment in juvenile court. Existing law authorizes the district attorney to file an accusatory pleading in a court of criminal jurisdiction against those minors, including, among others, a minor 14 years of age or older who is alleged to have personally used a firearm during the commission or attempted commission of a felony, as described in a specified provision. The initiative statute provides that any amendment of its provisions requires a $\frac{2}{3}$ vote of the membership of each house of the Legislature.

This bill would clarify that the personal use of a firearm during the commission or attempted commission of a felony includes, for purposes of the above provisions, certain felonies that are enumerated in a separate provision. The bill would correct an obsolete cross-reference and make other technical, nonsubstantive changes to those provisions.

Because the bill would amend an initiative statute, it would require a $\frac{2}{3}$ vote.

Ch. 138 (AB 796) Committee on Insurance Insurance.

Existing law requires that insurers file a comprehensive financial plan with the commissioner on the occurrence of a Company Action Level Event, as defined. That report must be filed if, among other things, certain insurers' annual Risk-Based Capital (RBC) report indicates either of 2 specified levels of Total Adjustable Capital.

This bill would add another level of Total Adjusted Capital which, with respect to certain insurers, would be indicated in the insurer's RBC report.

Existing law limits the ability of a surplus line broker to place any coverage with a nonadmitted insurer, as specified. In order for a nonadmitted insurer to qualify for coverage it must demonstrate financial stability, as defined. In making this showing, securities specifically valued by the National Association of Insurance Commissioners Securities Valuation Office are presumed to be readily marketable, absent evidence to the contrary.

This bill would delete the presumption relating to marketability of securities valued by the National Association of Insurance Commissioners.

Existing law requires that Insurance Exchanges created and authorized under the laws of individual states maintain specified amounts of capital and surplus. In demonstrating this requirement, securities specifically valued by the National Association of Insurance Commissioner Securities Valuation Office are presumed to be readily marketable, absent evidence to the contrary.

This bill would delete the presumption relating to marketability of securities valued by the National Association of Insurance Commissioners.

Existing law requires an insurer who charges an additional earthquake insurance premium or deductible because a dwelling fails to meet certain criteria to not charge the same if the dwelling is brought into compliance with specified building code provisions.

This bill would include compliance with successor editions of the building code provisions for those purposes, or with any local government modifications to those requirements, as specified.

Existing law defines financial guaranty insurance, and provides that a credit default swap shall not constitute an insurance contract and shall not constitute the transaction of insurance.

This bill would recast the definition of a credit default swap.

Ch. 139 (AB 805) Galgiani Firearms.

Existing law authorizes certain peace officers to be licensed to carry concealed handguns, including specifying the format for the certificate evidencing the person's license. Existing law requires that the peace officer's address appear on the certificate.

This bill would delete the requirement that the peace officer's address appear on the certificate.

Ch. 140 (AB 840) Emmerson Real estate: licenses.

Existing law, the Real Estate Law, provides for the licensure and regulation of real estate licensees and mineral, oil, and gas brokers by the Real Estate Commissioner. Existing law authorizes the commissioner to suspend, revoke, or deny the issuance of a license to a person who, among other things, is convicted of a felony or a crime involving moral turpitude.

This bill would instead authorize the commissioner to suspend, revoke, or deny the issuance of a license to a person who is convicted of a felony, or a crime substantially related to the qualifications, functions, or duties of a real estate licensee. This bill would make other technical, nonsubstantive changes.

Ch. 141 (AB 861) Tran Dissolution of marriage: estates and trusts.

Existing law governs the treatment of a community property share in retirement plans and the validity of any nonprobate transfer on death.

Existing law authorizes a court, upon noticed motion, to sever and grant an early and separate trial on the issue of the dissolution of the status of the marriage apart from other issues. Existing law authorizes the court to impose upon a party specified conditions on granting the severance. These conditions also require the party, until judgment is final, as specified, to maintain existing health and medical insurance coverage for the other party and the minor children and to indemnify and hold the other party harmless from adverse consequences resulting to the other party if the bifurcation results in a loss of the other party's rights with respect to a probate homestead, a probate family allowance, pension or retirement rights and benefits, and social security benefits or elections, as specified. These conditions also require that, prior to entry of judgment terminating the status of the marriage, the party's retirement or pension plan be joined as a party to the proceeding for dissolution and that the court enter an order with reference to the defined benefit or similar plan.

This bill would revise, recast, and expand those conditions. Among other things, the bill would define "health and medical insurance coverage" for purposes of the provision

requiring the party to maintain that coverage for the other party and any minor children. The bill would include a new condition authorizing the court to make an order, if appropriate and except as specified, requiring that a party maintain a beneficiary designation for a nonprobate transfer asset until judgment has been entered with respect to the community ownership of that asset and until the other party's interest therein has been distributed to him or her. The bill would also include a new condition authorizing the court to require that the community interest in an Individual Retirement Account (IRA) by or for the benefit of the party be assigned or transferred, as specified, to the other party to preserve the ability of the party to defer the distribution of the IRA upon the death of the other party. In addition, the bill would include a new condition authorizing the court to order a specific security interest under specified circumstances that may arise upon the death of one party.

With respect to the condition described above requiring that the party's retirement or pension plan be joined as a party to the proceeding prior to entry of judgment, this bill would instead require, prior to, or simultaneously with, entry of judgment, that the party's retirement or pension plan be joined as a party to the proceeding, except as specified, and that the court enter a specified order, interim order, or attachment addressing the retirement plan benefits, including survivor and death benefits, as specified. The bill would also require the moving party to promptly serve a copy of that order, interim order, or attachment and a copy of the judgment granting a dissolution of the status of the marriage on the retirement or pension plan administrator.

Ch. 142 (AB 933) Jeffries Exempt employee salaries.

Existing law provides for the salaries, benefits, and raises of various exempt state employees, including the heads of various state agencies.

This bill would revise these provisions. The bill would also delete obsolete statutory provisions relating to the Governor, Members of the Legislature, and other statewide elected officers.

Ch. 143 (AB 1023) DeSaulnier Recycling: compostable and biodegradable plastic trash bags.

Existing law requires a manufacturer of plastic trash bags equal to or greater than 0.70 mil thickness to ensure either that its trash bags intended for sale in this state contain a quantity of recycled plastic postconsumer material equal to at least 10% of the weight of the regulated bags, or that at least 30% of the weight of the material used in all of its plastic products intended for sale in this state is recycled plastic postconsumer material. The manufacturer is required to obtain from its supplier of recycled plastic postconsumer material a statement containing specified information and to certify to the Integrated Waste Management Board that it is in compliance with the recycled plastic postconsumer material requirements.

Existing law prohibits a person from selling a plastic bag that is labeled as "biodegradable," "compostable," "degradable," or as otherwise specified, unless, at the time of the sale, the plastic bag meets a current American Society for Testing and Materials (ASTM) standard specification for the term used on the label.

This bill would exempt, from those requirements for plastic trash bags, a plastic bag that is labeled with one of those terms and meets the ASTM standard specification for that term.

Ch. 144 (AB 1047) Houston Uniform Public Construction Cost Accounting Act: notification.

Existing law allows a public agency to elect to be subject to the Uniform Public Construction Cost Accounting Act, which authorizes bidding procedures for public projects, as specified.

This bill would require the Controller to send a notice, on or before January 1, 2009, to all public agencies describing the provisions of, and the benefits of, using the bidding procedures authorized under the act.

Existing law requires the California Uniform Public Construction Cost Accounting Commission to make recommendations to the Controller regarding adjustments to specified monetary limits based on material changes in public construction costs, which shall become effective beginning with the fiscal year that commences following the Controller's notification to affected public agencies of the adjustment, as specified.

This bill would instead require the Controller's notification of the adjustment to be sent to all public agencies, and would require the notification to also include a description of the provisions of, and the benefits of, using the bidding procedures authorized under the act.

Ch. 145 (AB 1238) Plescia County property: exchanges.

Existing law authorizes the board of supervisors of a county to exchange real property of equal value with any person, firm, or corporation, for the purpose of removing defects in the title to real property owned by the county, or where the real property to be exchanged is not required for county use and the property to be acquired is required for county use, as specified.

This bill would instead authorize the board of supervisors of a county to exchange real property, as specified, with certain entities provided that the value of any private real property exchanged is equal to, or greater than, 75% of the value of the county property offered in exchange, and would limit the cash added to the balance of the transaction to be no more than 25% of the value of the county property proposed for exchange.

Ch. 146 (AB 1264) Eng Courts: delay reduction: unnamed defendants.

The Trial Court Delay Reduction Act requires the Judicial Council to adopt standards of timely disposition for the processing and disposition of civil and criminal actions.

Existing law prohibits delay reduction rules from requiring the dismissal of unnamed defendants prior to the conclusion of the introduction of evidence at trial, except upon stipulation or motion of the parties.

This bill would likewise prohibit delay reduction rules from requiring the severance of unnamed defendants prior to the conclusion of the introduction of evidence at trial, except upon stipulation or motion of the parties.

The bill would make other technical changes.

Ch. 147 (AB 1362) Smyth Parks and recreation.

Existing law authorizes the Department of Finance to delegate to the Department of Parks and Recreation the right to exercise the same authority granted to the Division of the State Architect and the Real Estate Services Division in the Department of General Services, to plan, design, construct, and administer contracts and professional services for legislatively approved capital outlay projects. This provision is repealed as of January 1, 2009.

This bill would extend the repeal date to January 1, 2014.

Ch. 148 (AB 1518) Committee on Banking and Finance Credit unions.

Existing law provides for the regulation of credit unions by the Commissioner of Financial Institutions. Existing law provides that investigation and examination reports prepared by the commissioner's duly designated representatives are not public records but authorizes those records to be disclosed to certain personnel of the credit union. Existing law authorizes a credit union to make certain types of investments and to become a member of specified organizations. Existing law prohibits a credit union from making any gift or donation in excess of \$1,000 unless the gift or donation is in the best interest of the credit union and specified conditions are satisfied. Existing law authorizes the board of directors of a credit union, with written approval of the commissioner, to appoint an executive committee for specified purposes and to delegate the power to approve applications for new membership to certain individuals if the board reviews those approved membership applications quarterly. Existing law makes it a misdemeanor for specified officers, directors, committee members, certain loan officers, or employees of a credit union to knowingly permit or

participate in the creation of an obligation with a nonmember of the credit union. Existing law authorizes a credit union to issue shares and enter into certain obligations with members of the credit union.

This bill would authorize the investigation and examination reports prepared by the commissioner's duly designated representatives to be disclosed to internal and external auditors and attorneys of the credit union to the extent necessary for the auditors and attorneys to perform work related to issues addressed in the examination report. The bill would authorize a credit union to become a member of an organization composed of community economic development entities and business or trade organizations. The bill would change the \$1,000 limit on credit union gifts or donations to \$25,000 and would authorize the board of directors of a credit union to establish a budget for gifts and donations. The bill would authorize the board of directors of a credit union to appoint an executive committee to act as expressly approved by the board, as specified, and to delegate the power to approve applications for new membership to specified individuals as long as the board reviews a report of membership applications at least quarterly. The bill would provide that a member who is withdrawing membership in a credit union may be required to give specified notice of intention to withdraw shares. The bill would authorize a credit union to issue shares and enter into obligations with nonmembers if they are a joint applicant or co-obligor with a member of the credit union.

Ch. 149 (AB 1598) Price Alcoholic beverages: places of consumption.

Existing law generally prohibits the sale or consumption of alcoholic beverages at a public schoolhouse or any grounds thereof. Existing law provides that this prohibition does not apply if the alcoholic beverage is acquired, possessed, or used in connection with a course of instruction given at the school and the person has been authorized to acquire, possess, or use it by the governing body or other administrative head of the school.

The bill would provide that the prohibition against the sale or consumption of alcoholic beverages on the grounds of a public schoolhouse does not apply if the alcoholic beverage is beer or wine acquired, possessed, used, sold, or consumed only in connection with a course of instruction, sponsored dinner, or meal demonstration given as part of a culinary arts program at a campus of a California Community College and the person has been authorized to acquire, possess, use, sell, or consume the beer or wine by the governing body or other administrative head of the school.

Ch. 150 (SB 124) Ducheny Evasion of tolls: registered owner.

Under existing law, the registered owner, driver, rentee, or lessee of a vehicle cited for a toll evasion violation of an applicable statute, regulation, or ordinance is jointly and severally liable for the toll evasion penalty imposed by law.

Existing law defines "registered owner" to mean a person registered by the Department of Motor Vehicles as the owner of a vehicle.

This bill, for purposes of the above, would further define "registered owner" to include a person registered as the owner of the vehicle by the appropriate agency or authority of another state, the District of Columbia, or a territory or possession of the United States.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 151 (SB 234) Corbett Consumer warranties: members of the Armed Forces.

The Song-Beverly Consumer Warranty Act provides consumer warranty protection to buyers of various products, including new and used motor vehicles. That law requires every manufacturer of consumer goods sold in California for which the manufacturer has made an express warranty to maintain sufficient service and repair facilities, as specified, to carry out the terms of the warranties.

This bill would permit a member of the Armed Forces, as defined, who is stationed in or a resident of this state at the time he or she purchased a motor vehicle, as defined, with a

manufacturer's express warranty, in the United States from a manufacturer who sells motor vehicles in this state or its agent or when he or she filed an action under the Song-Beverly Consumer Warranty Act, to exercise his or her rights under that act, regardless of in which state the vehicle is purchased or registered.

Ch. 152 (SB 403) Harman Child custody and visitation: drug and alcohol testing.

Existing law, until January 1, 2008, authorizes a court to require any person who is seeking custody of, or visitation with, a child who is the subject of a custody, visitation, or guardianship proceeding, to undergo testing for the illegal use of controlled substances and the use of alcohol under specified circumstances, as specified.

This bill would extend the operative date of those provisions to January 1, 2009.

Ch. 153 (SB 433) Harman Homestead exemptions.

Existing law provides for a homestead exemption for judgment debtors. Existing law governs circumstances under which the exemption is applicable, the amount that may be exempt, and the duration of the exemption.

This bill would provide that a judgment debtor who is not currently residing in the homestead is entitled to the exemption while a separated or former spouse resides in or exercises control over the possession of the homestead until entry of judgment or other legally enforceable agreement dividing the community property, as specified.

Ch. 154 (SB 630) Aanestad Public works.

(1) The State Building Construction Act of 1955 authorizes the State Public Works Board to acquire or construct public buildings and to issue revenue bonds, negotiable notes, and negotiable bond anticipation notes to finance that construction. Existing law authorizes the State Public Works Board to issue \$162,000,000 in lease-revenue bonds, notes, or bond anticipation notes pursuant to that law to finance the acquisition, design, construction, establishment, equipping, renovation, or expansion of veterans' homes at Yountville, Barstow, Chula Vista, Lancaster, Saticoy, and West Los Angeles, and in Fresno County and Shasta County, as provided. Existing law continuously appropriates funds derived from the sale of these instruments to the board, on behalf of the Department of Veterans Affairs, for this purpose.

This bill would appropriate \$30,000,000 from the Public Buildings Construction Fund to the Department of Veterans Affairs, to finance the acquisition, design, construction, establishment, equipping, renovation, or expansion of the veterans' homes, as specified, and would also authorize the board to issue additional lease-revenue bonds, notes, or bond anticipation notes for that purpose. This bill would appropriate additional funds from the Public Buildings Construction Fund, as specified, to the Department of Veterans Affairs, in order to finance specified projects that are ready to proceed to bid for which there are insufficient funds in the federal appropriation, and would require the federal funds, when they become available and are received, to be used to reimburse any interim financing, as provided.

This bill would condition any issuance of bonds or notes for these purposes upon priority 1 placement on the United States Department of Veterans Affairs State Home Grant Program Priority List.

(2) Existing law authorizes the Director of General Services, when authorized by the Legislature, to use the design-build procurement process for a specific project, to contract and procure state office facilities, other buildings, structures, and related facilities, as provided, and requires the director, prior to contracting for the procurement of state office facilities and other state buildings and structures, to prepare a program setting forth the scope of the project and to establish a competitive prequalification process, as provided. Existing law, with specified exceptions, prohibits the expenditure of funds appropriated for a design-build project, until the Department of Finance and the State Public Works Board have

approved performance criteria or performance criteria and concept drawings for the project, as specified, and reverts any appropriated amounts for the design-build phase of a design-build project, where the funds have been expended on the design-build phase by any state agency prior to this approval, to the fund from which the appropriation was made. Existing law provides that these provisions shall only remain operative until the completion of at least 5 design-build projects, as specified, or January 1, 2006, whichever occurs later.

This bill would instead authorize the Director of General Services to enter into only 7 design-build contracts pursuant to these provisions, as specified, and would be effective July 1, 2009, provided that these provisions shall only remain operative for these 7 design-build projects.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 155 (SB 921) Vincent Horse racing: equine medication.

Existing law, the Horse Racing Law, prohibits any substance from being administered by any means to a horse after it has been entered to race in a horse race, unless the California Horse Racing Board has, by regulation, specifically authorized the use of the substance, as specified. Existing law establishes specified penalties for a violation of that prohibition, including a monetary penalty of not more than \$50,000.

This bill would instead establish a monetary penalty of not more than \$100,000 for a violation of the prohibition on administering unauthorized substances to horses entered in a horse race.

Ch. 156 (SB 1044) Committee on Revenue and Taxation Income and corporation taxes: tax withholding.

The Personal Income Tax Law and the Corporation Tax Law disallow a deduction for amounts paid to an individual or entity as remuneration for personal services if that individual or entity fails to report payments required under specified provisions of those laws.

This bill would correct references to obsolete provisions of those laws.

Ch. 157 (SB 1050) Committee on Natural Resources and Water Water meters.

Existing law generally requires the installation of a water meter as a condition of water service provided pursuant to a new water service connection installed on or after January 1, 1992. Existing law requires an urban water supplier, as defined, on or before January 1, 2025, to install water meters on all municipal and industrial water service connections that are located in its service area. Existing law also requires an urban water supplier to, beginning on or before January 1, 2010, but subject to certain exceptions, charge each customer that has a service connection for which a water meter has been installed, based on the actual volume of deliveries, as measured by the water meter.

This bill would prohibit those provisions from limiting the authority of a water purveyor, including, but not limited to, an urban water supplier that promotes conservation through volumetric water pricing, to determine and impose a rate, fee, or charge in addition to the charge for the actual volume of metered water delivered.

Ch. 158 (AB 139) Bass Vehicles: schoolbus drivers: medical examinations.

Existing law requires an applicant for an original or renewal certificate to drive a schoolbus, school pupil activity bus, youth bus, general public paratransit vehicle, or farm labor vehicle to submit to the Department of Motor Vehicles a report of a medical physician's examination of the applicant given not more than 2 years prior to the application date.

This bill would authorize the medical examination to be given by a licensed advanced practice registered nurse qualified to perform a medical examination or a licensed physician assistant.

Ch. 159 (AB 341) Spitzer Estates and trusts: creditor's claims.

(1) Existing law requires the personal representative administering a decedent's estate to provide notice to creditors of the decedent pursuant to a specified procedure. Existing law permits property to be titled in a trust, and provides that, upon the death of a settlor of a trust, the property of the deceased settlor that was subject to the power of revocation at the time of the settlor's death is subject to the claims of creditors of the deceased settlor's estate.

This bill would make various changes in the provisions described above to increase uniformity between the provisions, including (a) establishing a definition of the term "creditor" and using it to replace the term "claimant"; (b) clarifying how notice shall be given to creditors of a decedent's estate; (c) specifying the effect of various provisions on limitations of actions; (d) revising the procedure for giving notice to a creditor of a trust and lengthening the period of time that a creditor of a trust may file a claim; and (e) revising provisions pursuant to which a creditor of a trust may file, and a court may allow, a late claim.

(2) Existing law requires a trustee to notify the Director of Health Services of the death of a settlor of a trust who the trustee knows or has reason to believe has been receiving health care pursuant to specified provisions.

This bill would require a trustee to notify the Director of Health Services of the death of the spouse of a settlor of a trust who the trustee knows or has reason to believe has been receiving health care services.

(3) Existing law specifies the interest rate to be paid by people who receive distributions of property from a trust prior to the expiration of the time allowed for a public entity to file a claim against the trust, if a public entity subsequently successfully enforces a claim on the trust property.

This bill would revise the rate of interest to be paid on a public entity's claims against distributees receiving trust property, as described above.

(4) The bill would also make other technical changes to these provisions.

Ch. 160 (AB 369) Solorio Child abuse reporting.

Existing law requires the Department of Justice to maintain an index of all reports of child abuse and severe neglect submitted by agencies mandated to make those reports. Existing law requires the Department of Justice to make relevant information contained in the index available to specified law enforcement agencies, county welfare departments, and other agencies that are conducting a child abuse investigation.

This bill would require the Department of Justice to make available to a Court Appointed Special Advocate program that is conducting a background investigation of an applicant seeking employment with the program or a volunteer position as a Court Appointed Special Advocate, information contained in the index regarding known or suspected child abuse by the applicant.

Existing law authorizes a designated Court Appointed Special Advocate program to submit to the Department of Justice fingerprint images and related information of employment and volunteer candidates for the purpose of obtaining information as to the existence and nature of any record of state- or federal-level convictions or state- or federal-level arrests, as specified.

This bill would revise that provision to also authorize a designated Court Appointed Special Advocate program to submit to the Department of Justice fingerprint images and related information of employment and volunteer candidates for the purpose of obtaining information as to the existence and nature of child abuse investigations contained in the Child Abuse Central Index.

Ch. 161 (AB 645) Feuer Vehicles: traffic violations: adjudication.

(1) Existing law authorizes a court to order a person issued a notice to appear for a traffic violation to attend a traffic violator school licensed under certain provisions of the Vehicle Code, in lieu of adjudicating the traffic offense, and with the consent of the defendant, or after conviction of a traffic offense.

This bill would make these provisions inapplicable to a person convicted of specified hit and run violations, driving-under-the-influence violations, and reckless driving violations.

(2) Existing law authorizes a court to order a continuance of a proceeding against a person who receives a notice to appear in court for a violation of a statute relating to the safe operation of a vehicle, in consideration for that person's attendance at a licensed school for traffic violators, a licensed driving school, or any other court-approved program of driving instruction. After that attendance, the court may dismiss the complaint, under certain conditions.

This bill would make these provisions inapplicable to a person when the traffic offense is an offense that is assigned 2 points in the calculation of a person's violation point count for driver's license purposes.

Because this bill would impose increased duties on local criminal justice systems, the bill would create a state-mandated local program.

(3) Existing law provides a procedure for eligible persons to have a conviction dismissed, and to be released from all penalties and disabilities resulting from the offense of which they were convicted, subject to certain exceptions.

This bill would make these provisions inapplicable to a person when the traffic offense is an offense that is assigned 2 points in the calculation of a person's violation point count for driver's license purposes. However, if a person convicted of one of those offenses petitions the court, the court in its discretion and in the interests of justice would be authorized to order the above-described existing procedure for that person.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 162 (AB 774) Houston Physical education: volunteer instructors.

Existing law requires the adopted course of study for grades 1 to 12, inclusive, to include physical education, and requires pupils to attend physical education for a specified minimum amount of time, based on grade level, unless otherwise exempted. Two courses in physical education are required to be completed by a pupil as part of the requirements for receipt of a diploma of graduation from high school, unless that pupil is otherwise exempted from physical education.

Existing law authorizes the Commission on Teacher Credentialing to issue single subject credentials in the area of physical education, among other credentials.

This bill would authorize a school district or a county office of education to establish a registry of volunteer after school physical recreation instructors. To be included on a registry, a prospective registrant would be required to submit to a specified criminal background check, submit current contact information, and keep that information current. A school, school district, or county office of education would be authorized to contribute funds to pay for all or part of the cost of a criminal background check required of a prospective registrant. The bill also would authorize a school district or county office of education maintaining a registry to impose other requirements on prospective registrants, including, but not limited to, certification in cardiopulmonary resuscitation. The bill would authorize a school under the jurisdiction of a school district or county office of education maintaining a registry, upon approval of the person acting as the coordinator of, or overseeing, the after school activities of the school, to allow a registrant to provide instruction in physical recreation to pupils after school hours or provide other services. Instruction in physical recreation provided to a pupil by a volunteer would be prohibited from counting toward satisfaction of either the physical education course requirements for graduation from high school or the required number of minutes of instruction in physical education.

Ch. 163 (AB 854) Keene Firearms.

Existing law generally regulates the transfer of firearms. Existing law also provides various exceptions to these requirements.

This bill would provide exceptions to various requirements in connection with the transfer of firearms in the case of transfers, including loans, to consultant-evaluators, as defined. The bill would also make technical, nonsubstantive changes, and state the intent of the Legislature relative to the purposes of the bill.

Ch. 164 (AB 895) Aghazarian Health care coverage: dental care.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, the willful violation of which is a crime, provides for the licensure and regulation of health care service plans and specialized health care service plans, including plans covering dental services. Existing law provides for the regulation of insurers by the Department of Insurance. Existing law imposes specified coverage and disclosure requirements on health care service plans and insurers. Existing law provides for, but does not require, a coordination of benefits in instances where coverage for a claim is available from more than one insurer or plan, as specified.

This bill would require a health care service plan or a specialized health care service plan contract covering dental services, or a disability insurer that issues a dental insurance policy, to declare its coordination of benefits policy, as defined, prominently in its evidence of coverage documents or in its contracts or policies with both enrollees or insureds and subscribers or policyholders. The bill would require an enrollee's or insured's primary dental benefit plan, as defined, that is coordinating dental benefits with one or more other plans or insurers to pay the maximum amount required by its contract or policy with the enrollee or insured or the subscriber or policyholder. The bill would require a secondary dental benefit plan, as defined, to pay the lesser of either the amount that it would have paid in the absence of any other dental benefit coverage or the enrollee's or insured's total out-of-pocket cost payable under the primary dental benefit plan for benefits covered under the secondary dental benefit plan.

Because a willful violation of the bill's requirements with regard to health care service plans would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 165 (AB 1019) Blakeslee Land use: annexation: housing.

The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 authorizes local governments to annex portions of territory to other local governments, as specified.

The Planning and Zoning Law requires local governments to adopt comprehensive general plans that address a number of elements, including the housing element. The Department of Housing and Community Development is required to assist local governments in the allocation of the regional housing needs. Existing law also authorizes a city or county to transfer a percentage of its share of the regional housing needs to another city or county, as specified.

Existing law requires each city, county, and city and county to revise its housing element on specified dates, in accordance with a specified schedule, and not less often than once every 5th year after that revision.

Existing law requires, during the period between adoption of a final regional housing needs allocation until the due date of the housing element update, that the council of governments, or the department, whichever assigned the county's share, reduce the share of regional housing needs of a county if certain conditions are met. If an incorporation of a new city occurs after the council of governments, or the department for areas with no council of governments, has made its final allocation under these provisions, the city and county are authorized to reach a mutually acceptable agreement on a revised determination of regional

housing needs, to reallocate a portion of the affected county's share of regional housing needs to the new city, and report the revision to the council of governments and the department, or to the department for areas with no council of governments.

This bill would authorize a similar mutually acceptable agreement on a revised determination of regional housing needs if an annexation of unincorporated land to a city occurs after the council of governments, or the department for areas with no council of governments, has made its final allocation.

Ch. 166 (AB 1153) Garcia Mobilehome dealers: occupational licensing.

The Mobilehomes-Manufactured Housing Act of 1980 makes it unlawful for a person to act as a manufacturer, distributor, dealer, or seller of mobilehomes, manufactured homes, or commercial coaches, as defined, without an appropriate occupational license or temporary permit issued by the Department of Housing and Community Development.

This bill would require every applicant for these occupational licenses to submit fingerprints and related information, as specified, to the Department of Justice for the purposes of obtaining federal summary criminal history information from the Federal Bureau of Investigation for compilation and dissemination to the Department of Housing and Community Development, and would make a conforming change.

Ch. 167 (AB 1262) Caballero Spheres of influence.

Existing law requires a commission to develop and determine the sphere of influence of each local governmental agency within the county. Existing law requires, until January 1, 2008, that at least 30 days prior to submitting an application to the commission for a determination of a new sphere of influence or to update an existing sphere of influence for a city, representatives from the city meet with county representatives to discuss the proposed sphere and its boundaries, and to explore methods to reach agreement on the boundaries, development standards, and zoning requirements within the sphere, as specified. If an agreement is reached, it is required to be submitted to the commission, which shall give it great weight in the final determination of the city's sphere of influence. If no agreement is reached, the commission shall consider the applicant city's sphere of influence consistent with specified policies of the commission.

This bill would revise the above procedure to, among other things, delete the time periods by which a city and county may reach an agreement. It would also delete the January 1, 2008, limitation provision, thereby making the revised procedure permanent.

Because the bill would permanently extend existing requirements that apply to local government entities, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 168 (SB 198) Battin Age discrimination: homeless youth.

Existing law allows the development and operation of emergency, transitional, and permanent housing facilities that specifically assist homeless youth by exempting these facilities from state and local laws prohibiting age discrimination in housing. Existing law defines a homeless youth as being either an emancipated minor who is homeless or at risk of becoming homeless, or someone between 18 and 24 years of age, who is also homeless or at risk of becoming homeless, is no longer eligible for foster care based on age, or has run away from home.

This bill would expand the definition of a homeless youth to include anyone 24 years of age and younger who is also homeless or at risk of becoming homeless, is no longer eligible for foster care based on age, or has run away from home. The bill would also state the intent

of the Legislature that housing made available to homeless unemancipated minors shall be consistent with applicable regulations.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 169 (SB 230) Yee Police protection districts.

(1) Existing law provided, until October 1, 1959, for the formation and administration of police protection districts in unincorporated towns. Existing law provides for the continuation of police protection districts formed prior to that date.

This bill would provide that a police protection district's police department, its chief of police, and its employees shall have all the rights, duties, privileges, immunities, obligations, and powers of a municipal police department. By imposing new duties upon a local district, this bill would create a state-mandated local program. The bill would also authorize the district board to delegate to the chief of police the authority to appoint and dismiss district employees. The bill would express the intent of the Legislature that this bill shall not affect the Broadmoor Police Protection District's current reimbursements for any state-mandated local programs.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 170 (SB 273) Ackerman Education: American Indian education centers.

(1) Existing law establishes within the State Department of Education an American Indian Education Unit to provide technical support to, and administrative oversight of, American Indian education programs established by the state in order to ensure certain matters, and prescribes certain duties of the unit.

The Superintendent of Public Instruction, with input from existing American Indian education center directors, is required to appoint an American Indian Education Oversight Committee by January 30, 2007. The committee is required to provide input and advice to the Superintendent on all aspects of American Indian education programs established by the state.

The State Board of Education, upon the advice and recommendations of the Superintendent, is required to approve revised guidelines for the selection and administration of American Indian education centers. The amendments and updates to the 1975 guidelines require the input of, and majority approval by, the American Indian Education Oversight Committee prior to the submission of the guidelines to the State Board.

This bill would require the Superintendent to request input from the committee regarding changes to the 1975 guidelines, rather than requiring that the committee provide input on, and approval of, changes to the guidelines, prior to the submission of the guidelines to the State Board.

(2) Existing law permits the application for the establishment of a California American Indian education center to be made to the department by any tribal group or incorporated American Indian association, separately or jointly, upon forms provided by the department. The department is required to determine the funding levels for each center and any new programs to be created and to consider recommendations made by an advisory committee regarding center funding levels. Funding is permitted to be carried forward from a previous fiscal year for use during the subsequent summer months if deemed necessary by the department to carry out the purposes of the American Indian education programs.

The bill would delete the requirement that the department determine the funding levels for each center and the requirements for the involvement of an advisory committee to make recommendations regarding those funding levels. The authorization to carry forward funding from a previous fiscal year also would be removed.

Ch. 171 (SB 77) Ducheny Budget Act of 2007.¹

This bill would make appropriations for support of state government for the 2007–08 fiscal year.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 172 (SB 78) Ducheny Budget Act of 2007.²

SB 77, as proposed by Conference Report No. 1 on July 9, 2007, would make appropriations for the support of state government for the 2007–08 fiscal year.

This bill would amend and supplement the Budget Act of 2007 by revising items of appropriation for the Office of the Chief Information Officer; the Secretary of State and Consumer Services; the Office of Emergency Services; the California Gambling Control Commission; the Department of Consumer Affairs; the Department of General Services; the Department of Transportation; the Department of the California Highway Patrol; the Department of Parks and Recreation; the State Air Resources Board; the California Integrated Waste Management Board; the State Water Resources Control Board; the State Department of Alcohol and Drug Programs; the Managed Risk Medical Insurance Board; the State Department of Mental Health; the State Department of Social Services; the Department of Corrections and Rehabilitation; the State Department of Education; the Employment Development Department; and the Department of Finance.

This bill would become operative only if SB 77, as proposed by Conference Report No. 1 on July 9, 2007, is enacted and becomes effective on or before January 1, 2008.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 173 (SB 79) Committee on Budget and Fiscal Review Transportation.³

(1) Existing law authorizes the issuance of \$2.99 billion of voter-approved general obligation bonds for mass transit purposes pursuant to the Clean Air and Transportation Improvement Act of 1990 and the Passenger Rail and Clean Air Bond Act of 1990. Existing law authorizes the issuance of \$2 billion of voter-approved general obligation bonds for seismic retrofit of state-owned highways and bridges pursuant to the Seismic Retrofit Bond Act of 1996. Debt service for these bond measures is required to be made from the General Fund.

Existing law, pursuant to Proposition 116 of 1990, an initiative act, creates the Public Transportation Account as a trust fund in the State Transportation Fund, provides that revenues are to be deposited in the account from a specified portion of the sales taxes on gasoline and diesel fuel, and provides that moneys in the account are available for expenditure only for transportation planning and mass transportation purposes. Article XIX A of the California Constitution also imposes restrictions on loans of Public Transportation Account revenues to the General Fund. Existing law requires 50% of the fuel sales tax revenues in the account to be appropriated to the Department of Transportation for allocation to certain state mass transportation and transportation planning programs, and requires the remaining 50% of those revenues to be appropriated to the Controller, by 2 different formulas, for allocation to various local transit agencies for mass transportation purposes through the state transit assistance program.

The bill would establish the Mass Transportation Fund in the State Treasury and would require the transfer of certain gasoline sales tax revenues that would otherwise be deposited in the Public Transportation Account to that fund each fiscal year, commencing with the 2007–08 fiscal year. The bill would specify that the eligible uses of money in the Mass Transportation Fund would include payment of debt service on transportation bonds, funding of home-to-school transportation, Small School District Transportation, and regional center transportation for the Department of Developmental Services, and reimbursement of the General Fund relative to specified past and current obligations.

The bill would also establish the Transportation Debt Service Fund in the State Treasury and dedicate moneys in the fund to payment of debt service on bonds, including debt service

NOTE: Superior numbers appear as a separate section at the end of the digests.

on the 3 above-described bond acts. The bill would appropriate \$339,289,345 from the moneys in the fund, derived from a specified portion of the gasoline sales tax revenues transferred from the Mass Transportation Fund, in the 2007–08 fiscal year for debt service on those bond acts. The bill would also transfer \$200,000,000 from the moneys in the fund to the General Fund in the 2007-08 fiscal year as reimbursement for debt service payments made in prior fiscal years for public-transportation-related general obligation bond expenditures.

The bill would provide that the amount of revenues in the Public Transportation Account available for appropriation in the 2007–08 fiscal year to the state transit assistance program shall be reduced by the amount of excess appropriations to that program in the 2006–07 fiscal year compared to actual revenues available in that year, with the amount of the excess to remain in the account to fund other state public transportation priorities. The bill, in the 2007–08 fiscal year, would adjust the allocations of the fuel sales tax revenues in the Public Transportation Account, as specified, and for each future fiscal year commencing with the 2008–09 fiscal year, would require that those revenues in the Public Transportation Account be appropriated according to different formulas than in current law, as specified.

(2) Article XIX B of the California Constitution requires, commencing with the 2003–04 fiscal year, sales taxes on gasoline that are deposited in the General Fund to be transferred to the Transportation Investment Fund for allocation to various transportation purposes. Article XIX B authorizes the transfer of these revenues to be suspended in whole or in part for a fiscal year due to a severe state fiscal hardship, subject to certain conditions and requirements. Existing law requires an amount equivalent to the amount that would have been transferred in the absence of 2 suspensions enacted in the 2003–04 and 2004–05 fiscal years to be transferred by the Controller to the Transportation Deferred Investment Fund not later than June 30, 2008, or June 30, 2009, as applicable, for allocation to transportation purposes that would have been funded in the absence of a suspension, plus interest in certain cases.

Article XIX B, as amended by Proposition 1A, approved by the voters at the November 7, 2006, statewide general election, requires full payment by June 30, 2016, of the amount that would have been transferred to the Transportation Investment Account in the absence of the suspension of transfer of revenues that occurred in the 2003–04 and 2004–05 fiscal years, and until that has occurred, requires the amount of transfer payments in each fiscal year to be at least $\frac{1}{10}$ of the outstanding amount.

This bill would revise the statutory provisions providing for transfers from the General Fund to the Transportation Deferred Investment Fund in that regard in order to provide for transfers in each fiscal year until June 30, 2016, of the minimum amount required by the California Constitution, plus interest, as specified, and would delete the requirement to make all payments by June 30, 2008, or June 30, 2009, as applicable. The bill would make other related changes.

(3) Existing law, the Clean Air and Transportation Improvement Act of 1990 (Proposition 116), establishes the Clean Air and Transportation Improvement Fund, which is continuously appropriated to the California Transportation Commission for allocation to itself, the Department of Transportation, the Department of Parks and Recreation, and to local agencies for specified mass transportation projects. Existing law requires all funds allocated to an agency under the act to be programmed, encumbered, obligated, or spent prior to July 1, 2000, unless economically infeasible. With respect to those funds allocated to an agency that are not expended or encumbered prior to July 1, 2000, existing law authorizes the Legislature, by a statute passed in each house by a $\frac{2}{3}$ vote, to reallocate those funds for another rail project within that agency's jurisdiction.

The bill would identify certain unexpended funds allocated to the Department of Transportation under the act for specified state-sponsored passenger rail projects and would reallocate those funds to the department to be made available for expenditure by the High Speed Rail Authority for the state-sponsored high-speed rail project.

(4) Existing law specifies the amounts apportioned monthly from the Highway Users Tax Account in the Transportation Tax Fund to cities and counties and the amounts transferred monthly to the Bicycle Transportation Account in the State Transportation Fund. Existing law requires the sum of \$416,667 to be transferred monthly to the Bicycle Transportation Account from the Highway Users Tax Account. Existing law continuously appropriates the money in the Bicycle Transportation Account.

This bill would instead, commencing July 31, 2007, require a monthly transfer of \$600,000 to the Bicycle Transportation Account from the Highway Users Tax Account. Because this bill would increase the amount of revenue in the Bicycle Transportation Account, it would make an appropriation.

(5) Existing law establishes the Biennial Inspection of Terminals program to ensure the safe operation of certain specified vehicles by a motor carrier through the inspection of these vehicles at the motor carrier's terminal by the Department of California Highway Patrol. The motor carrier is charged a nonrefundable initial and renewal fee for each terminal in the program.

This bill would, instead, provide a fee schedule for a terminal inspection application based on the number of vehicles in the terminal and an initial terminal inspection fee for a terminal that was not previously inspected. The bill would also impose a delinquent fee if the motor carrier fails to pay the required fees within the appropriate timeframe.

(6) Existing law authorizes a city or county to adopt rules and regulations, by ordinance or resolution, for temporarily closing to through traffic a highway under its jurisdiction when, after a public hearing, certain conditions are found to exist. Existing law prohibits the temporary closure from being more than 18 months, except that it may be extended for not more than 5 consecutive periods of not more than 18 months each if, prior to each extension, a public hearing is held and certain conditions are found to continue to exist.

This bill would authorize the extension for not more than 8 additional consecutive periods, rather than 5 additional consecutive periods, of not more than 18 months each.

(7) The Commercial Vehicle Registration Act of 2001 requires the Department of Motor Vehicles, in consultation with the Department of the California Highway Patrol, the Department of Transportation, the State Board of Equalization, and the commercial vehicle industry, to review and report to the Legislature its findings and, if applicable, make any recommendation as to the necessary adjustments in the fee schedule, to ensure that revenue neutrality is obtained and maintained for all affected entities and funds.

This bill would repeal those requirements.

(8) The bill would declare that it is to take effect immediately an urgency statute.

Ch. 174 (SB 80) Committee on Budget and Fiscal Review Education.

(1) Existing law requires, for the 1990–91 fiscal year and each fiscal year thereafter, that moneys to be applied by the state for the support of school districts, community college districts, and direct elementary and secondary level instructional services provided by the state be distributed in accordance with certain calculations governing the proration of those moneys among the 3 segments of public education. Existing law makes that provision inapplicable to the fiscal years between the 1992–93 and 2006–07 fiscal years, inclusive.

This bill, in addition, would make that provision inapplicable to the 2007–08 fiscal year.

(2) Existing law requires the Superintendent of Public Instruction to reimburse school districts for free and reduced-price meals served or sold based on the average statewide meal cost.

This bill would base that reimbursement on the median statewide meal cost.

(3) Existing law requires each person between the ages of 6 and 18 years who is not otherwise exempt to attend the public full-time day school in the school district in which his or her parent or guardian is a resident. The governing board of a school district is authorized to accept interdistrict transfers by admitting pupils residing in other school districts to attend its schools, subject to specified conditions. A school district that elects to accept interdistrict

transfers is authorized to keep an accounting of all requests made for alternative attendance and records of all disposition of those requests. The provisions governing interdistrict transfers become inoperative on July 1, 2007, and are repealed on January 1, 2008.

This bill, instead, would require a school district that elects to accept interdistrict transfers to keep an accounting of all requests made for alternative attendance and records of all disposition of those requests and to report that information to the Superintendent of Public Instruction annually on or before a date designated by the Superintendent. Commencing in 2008, the Superintendent annually would be required to make the information received from school districts available to the Governor, the Legislature, and the public on or before April 1. On or before November 1, 2008, the State Department of Education would be required to prepare and submit a report to the Legislature regarding the effectiveness of the interdistrict transfer program. Commencing on the effective date of this bill, the governing board of a school district that has not previously elected to participate in the interdistrict transfer program would be prohibited from electing to become a school district of choice, as defined. The inoperative and repeal dates for the provisions governing interdistrict transfers would be extended to July 1, 2009, and January 1, 2010, respectively.

(4) The Pupil Nutrition, Health, and Achievement Act of 2001 requires a school to be reimbursed \$0.21 for free and reduced-price meals sold or served to pupils. To qualify for this reimbursement, a school is required to follow the Enhanced Food Based Meal Pattern, Nutrient Standard Meal Planning, or Traditional Meal Pattern developed by the United States Department of Agriculture (USDA) or the California's Shaping Health as Partners in Education (SHAPE) menu patterns developed by the state.

The Child Nutrition Act of 1974 authorizes a child nutrition entity, as defined, to apply to the State Department of Education for all available federal and state funds so that a nutritionally adequate breakfast or lunch, or both, may be provided to pupils and requires the department before July 1 of each year to prescribe an adjustment in the established state meal contribution rates based on a specified cost-of-living adjustment.

This bill would require schools and school districts, commencing with the 2007–08 fiscal year, for meals and food items sold or served as part of a free or reduced-price meal program, to comply with specified nutrition-related prohibitions and requirements. By requiring schools and school districts to satisfy new requirements for free and reduced-price meals, the bill would impose a state-mandated local program. These prohibitions and requirements would not apply to USDA commodity foods, as specified. Child development programs would be encouraged, commencing with the 2007–08 fiscal year, for meals and food items sold or served as part of a free or reduced-price meal program, to comply with specified nutrition-related prohibitions and requirements.

(5) Existing law requires the State Department of Education to identify local educational agencies that are in danger of being identified within 2 years as program improvement local educational agencies under the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), and to notify those local educational agencies, in writing, of this status and provide those local educational agencies with research-based criteria to conduct a voluntary self-assessment. A local educational agency that is identified for corrective action under the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.) is subject to one or more sanctions recommended by the Superintendent and approved by the state board, including a requirement to contract with a district assistance and intervention team to aid the local educational agency.

This bill would require the department to transmit, by April 1, 2010, to the appropriate fiscal and policy committees of the Legislature, the Legislative Analyst's Office, and the Department of Finance a copy of the final evaluation of the pilot project involving district assistance and intervention teams conducted by the department and a consortium of county offices of education.

(6) Existing law, the Budget Act of 2006, appropriates \$633,000 for purposes of the American Indian Early Childhood Education Program. That program was repealed effective January 1, 2004.

This bill would recodify the American Indian Early Childhood Education Program, under which the governing board of a school district receiving equalization aid, having a school in which there is a concentration of 10% or more of American Indian pupils, and that maintains prekindergarten or kindergarten, or both, and grades 1 to 4, inclusive, would be authorized to apply to the Superintendent of Public Instruction for a project in American Indian early childhood education. A school district receiving funds would be required to establish a districtwide American Indian advisory committee for American Indian early childhood education.

(7) Existing law adjusts funding for individuals with exceptional needs based on an incidence multiplier, as defined, for each special education local plan area.

This bill would continue the current special education incidence factor formula through the 2007–08 fiscal year.

(8) Existing law, the Leroy Greene California Assessment of Academic Achievement Act, until July 1, 2007, requires each school district, charter school, and county office of education to administer to each of its pupils in grades 2 to 11, inclusive, certain achievement tests, including a standards-based achievement test pursuant to the Standardized Testing and Reporting (STAR) Program. Existing law, commencing July 1, 2007, deletes that requirement with regard to pupils in grade 2. Existing law repeals the act on January 1, 2011.

This bill would reinstate the requirement that each school district, charter school, and county office of education administer those achievement tests to each of its pupils in grade 2 on and after July 1, 2007. The bill would make certain provisions relating to those achievement tests inoperative on July 1, 2011, and would extend the repeal date of the act to January 1, 2012. By extending the time period during which school districts are required to perform various duties related to the administration of achievement tests, the bill would impose a state-mandated local program.

(9) Existing law requires the Superintendent of Public Instruction to review existing tests that assess the English language development of pupils whose primary language is a language other than English and to determine if those tests have sufficient range to assess pupils in kindergarten and grades 1 to 12, inclusive, in English reading, speaking, and written skills. Pupils in kindergarten and grade 1 are required to be assessed in reading and written communication only to the extent that comparable standards and assessments in English and language arts are used for native speakers of English.

This bill, instead, would require the tests to have sufficient range to assess pupils in grades 2 to 12, inclusive, in English listening, speaking, reading, and writing skills, and would require pupils in kindergarten and grade 1 to be assessed in English listening, speaking, and early literacy skills. In developing the test for pupils in kindergarten and grade 1, the State Department of Education would be required to minimize any additional testing time and to ensure that the test is age and developmentally appropriate, as specified. The department would be required to report to the Legislature on the administration of the kindergarten and grade 1 English listening, speaking, and early literacy assessment results, as well as on the administrative process, as specified.

(10) Under the California Constitution, whenever the Legislature or a state agency mandates a new program or higher level of service on any local government, including school districts, the state is required to provide a subvention of funds to reimburse the local government, with specified exceptions.

Existing law provides that no local agency or school district shall be required to implement or give effect to any statute or Executive order, or portion thereof that imposes a mandate during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if specified conditions are met, including that the statute or executive order, or portion thereof, has been specifically

identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. Existing law provides that only certain specified mandates are subject to that provision.

This bill would add Sexual Harassment Training in the Law Enforcement Workplace, as specified, to the list of mandates subject to that provision.

(11) Existing law appropriates \$26,726,000 from the General Fund to the State Department of Education for the Pupil Retention Block Grant for expenditure during the 2007–08 fiscal year.

This bill, instead, would appropriate that amount for supplemental instruction for expenditure during the 2007–08 fiscal year, thereby making an appropriation.

(12) Existing law requires a school district or charter school that applies for funding appropriated for the purpose of meeting the outstanding long-term fiscal obligations of school districts and charter schools concerning retired employee nonpension benefits to complete and submit to the county superintendent of schools a plan for meeting those obligations.

This bill would require the plan to be completed and submitted to the county superintendent of schools on or before June 30, 2009.

(13) Existing law requires the State Department of Education to contract for the development of the California Longitudinal Pupil Achievement Data System, which will provide for the retention and analysis of data on specified statewide tests administered to pupils. The data elements and codes included in the system are required to comply with, among other things, the federal Family Education Rights and Privacy Act statute and regulations.

This bill would require the department to provide a report, no later than August 1, 2007, to the Legislature, the Department of Finance, the Office of the Secretary for Education, and the Legislative Analyst's Office that includes the current guidelines used by the department regarding access to data within CALPADS, a summary of the ways in which other states interpret and apply the federal Family Educational Rights and Privacy Act, and suggestions, based on current knowledge and understanding, for options to ensure access that is consistent with the federal Family Educational Rights and Privacy Act.

(14) This bill would set the cost-of-living adjustment for specified items in the Budget Act of 2006 at 4.53%.

(15) This bill would make funds appropriated pursuant to specified items in the Budget Act of 2007 available for encumbrance until July 31, 2010, and would thereafter revert all unencumbered funds in those items to the Proposition 98 Reversion Account.

(16) This bill would appropriate \$388,283,000 from the General Fund for expenditure during the 2008–09 fiscal year according to a specified schedule. The bill would provide that for purposes of satisfying the minimum annual funding obligation for school districts required by the California Constitution, those funds are General Fund revenues appropriated for school districts and community college districts for the 2008–09 fiscal year.

(17) This bill would appropriate \$200,000,000 from the General Fund to the Board of Governors of the California Community Colleges for expenditure during the 2008–09 fiscal year according to a specified item in the Budget Act of 2007. The bill would provide that for purposes of satisfying the minimum annual funding obligation for community college districts required by the California Constitution, those funds are General Fund revenues appropriated for community college districts for the 2008–09 fiscal year.

(18) This bill would state the intent of the Legislature regarding the priority allocation, in the 2008–09 fiscal year, of certain funds for kindergarten and grades 1 to 12, inclusive, to fund revenue limit equalization.

(19) This bill would make other technical, clarifying, and conforming changes.

(20) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(21) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 175 (SB 81) Committee on Budget and Fiscal Review Corrections.

Existing law authorizes the Department of Corrections and Rehabilitation to design, construct, or renovate prison housing units, support buildings, and programming space in order to add approximately 7,000 beds, to design, construct, or renovate prison housing units, support buildings, and programming space in order to add approximately 4,000 beds to existing prison facilities, and to add additional beds for medical treatment and housing, as specified. Existing law authorizes the issuance of bonds for purposes of financing these projects, as specified.

This bill would require the department to conduct site assessments in connection with determining where to construct or renovate housing units pursuant to the projects described above, and to report those assessments to the Joint Legislative Budget Committee as specified. The bill would provide that specified reporting requirements apply separately to each institution or facility. The bill would require additional reports by the department to the Joint Legislative Budget Committee concerning the budgets, schedules, allocations from funds for the projects, and other items, in connection with the projects described above.

Existing law requires the Department of Corrections and Rehabilitation to prepare and update a master plan concerning construction and renovation of facilities under the department's jurisdiction for which funds have been appropriated by the Legislature. Existing law generally defines items to be included in the master plan.

This bill would specify additional items to be included in the master plan relative to the construction and renovation projects described above.

Existing law provides state financing for construction siting of county jails, subject to matching funds from counties, as specified. Existing law requires the Department of Corrections and Rehabilitation and the Corrections Standards Authority to give funding preference for those purposes to counties that assist the state in siting reentry facilities, as specified.

This bill would require the Corrections Standards Authority, to the extent possible, to ensure that funds for the construction of new jail beds be coordinated with the Department of Correction and Rehabilitation's efforts to site new reentry facilities.

Existing law establishes the Department of Corrections and Rehabilitation, and charges it with various duties.

This bill would require the Department of Corrections and Rehabilitation, by January 10 of each year, to provide to the Joint Legislative Budget Committee operational and fiscal information to be displayed in the Governor's proposed budget, and other operational and fiscal data, as specified. The bill would declare the intent of the Legislature in that regard.

Existing law authorizes the Department of Corrections and Rehabilitation to develop and implement, as specified, relapse prevention treatment programs to reduce the recidivism of sex offenders.

This bill would require the department to include a research component to each relapse prevention treatment program contracted for by the department.

Existing law authorizes the Inspector General to conduct a management review audit of any warden in the Department of Corrections and Rehabilitation. Existing law also requires the Inspector General to audit each warden and institution, as specified.

This bill would require the management review audit to include an assessment of the maintenance of the facility managed by the warden. This bill would also include, within the required audit of wardens and facilities, issues relating to personnel, training, investigations, financial matters, and an assessment of the maintenance of the facility managed by the warden, as specified.

Existing law authorizes local jurisdictions to present claims for reimbursement to the Department of Corrections and Rehabilitation for detention costs associated with persons under the jurisdiction of the state, as specified.

This bill would require the local jurisdiction to submit any of those claims to the department within 6 months after the close of the month in which the costs are incurred. If the claims are not submitted within that time, the bill would prohibit the reimbursement of the claims.

Existing law appropriates \$300,000,000 for capital outlay to be allocated to renovate, improve, or expand infrastructure capacity at existing prison facilities. Existing law also authorizes the funds to be used for land acquisition, environmental services, architectural programming, engineering assessments, schematic design, preliminary plans, working drawings, and construction.

This bill would require the Department of Corrections and Rehabilitation to report to the Joint Legislative Budget Committee on the funds appropriated pursuant to existing law. This bill would also subject the projects for which funds are appropriated pursuant to existing law to approval and administrative oversight by the State Public Works Board, as specified.

Existing law provides, in any case in which a minor who is detained in or committed to a county institution established for the purpose of housing juveniles attains 18 years of age prior to or during the period of detention or confinement, that he or she may be allowed to come or remain in contact with those juveniles until 19 years of age, at which time he or she, upon the recommendation of the probation officer, shall be delivered to the custody of the sheriff for the remainder of the time he or she remains in custody, unless the juvenile court orders continued detention in a juvenile facility.

This bill would provide, if continued detention is ordered for a ward who is 19 years of age or older but under 21 years of age, that he or she may be allowed to come into or remain in contact with any other person detained in the institution. The bill would require the county to apply to the Corrections Standards Authority for approval of a county institution established for the purpose of housing juveniles as a suitable place for confinement before the institution is used for the detention or commitment of an individual under the jurisdiction of the juvenile court who is 19 years of age or older but under 21 years of age where the detained person will come into or remain in contact with persons under 18 years of age who are detained in the institution.

Existing law authorizes the juvenile court to make specified orders, including an order to commit a ward to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, if a minor is adjudged a ward of the court for violating any law or ordinance defining a crime, except as specified. Under existing law, only those persons convicted of a public offense who are found to be less than 21 years of age at the time of apprehension, are not sentenced to death, life imprisonment, imprisonment for 90 days or less, or the payment of a fine, and are not granted probation, or whose probation has been revoked and terminated, may be committed by the juvenile court to the division.

This bill would, commencing September 1, 2007, restrict the authority of the juvenile court to order the commitment of a ward to the division to those wards who have committed specified offenses. By changing the counties' responsibilities with respect to juvenile offenses, this bill would impose a state-mandated local program.

The bill would authorize the court committing a ward to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, to recall that commitment in the case of any ward whose commitment offense was not any of the specified offenses referenced above, unless the offense was a specified sex offense, and who remains confined in an institution operated by the division as of September 1, 2007. The bill would require the court to set and convene a recall disposition hearing for the purpose of ordering an appropriate alternative disposition for the ward.

Existing law prohibits the commitment of a ward of the juvenile court to the division who is under 11 years of age, or who is suffering from any contagious, infectious, or other disease, as specified.

This bill would, commencing September 1, 2007, also prohibit the commitment to the division of a ward who has been or is adjudged a ward of the court, and the most recent offense alleged in any petition and admitted or found to be true by the court is not any of the specified offenses referenced above, unless the offense was a specified sex offense. The bill would make conforming changes.

Under existing law, if a person has been committed to the Division of Juvenile Facilities, the Board of Parole Hearings is authorized, among other things, to permit the ward his or her liberty under supervision and upon conditions, as specified, order confinement of the ward, order reconfinement or renewed release under supervision, or revoke or modify any parole or disciplinary appeal order.

This bill would, commencing September 1, 2007, make these powers of the board subject to the provisions described above and below, and would provide that the county of commitment shall supervise the parole of any ward released on parole who was committed to the custody of the division for committing an offense other than those referenced above. The bill would require the court to set and convene a parole disposition hearing, as specified, and would provide that the division shall have no further jurisdiction over the ward. By changing the counties' responsibilities with respect to juvenile offenses, the bill would impose a state-mandated local program.

Existing law authorizes the Board of Parole Hearings to suspend, cancel, or revoke any parole and order returned to custody of the Division of Juvenile Facilities any person committed to the division who is on parole.

This bill would provide, commencing September 1, 2007, that any parolee under the jurisdiction of the Division of Juvenile Parole Operations shall be returned to the custody of the Division of Juvenile Facilities if the parolee is under the jurisdiction of the division for the commission of an offense referenced above, or to the custody of the county of commitment if the parolee is under the jurisdiction of the division for the commission of an offense other than those referenced above.

Existing law establishes within the Department of Corrections and Rehabilitation the State Commission on Juvenile Justice, which is comprised of 11 members whom are appointed, as specified, by the Senate Committee on Rules, the Speaker of the Assembly, the chairperson of the Judicial Council, and the Governor, after consultation with, and with the advice of, the secretary of the department, and with the advice and consent of the Senate.

This bill would change the composition of the State Commission on Juvenile Justice to 12 members, to include, among others, a representative of counties, a director of a county human services agency, an attorney with expertise in the area of juvenile justice policy, and a director of a county mental health agency, to be appointed by specified persons and entities, as described, and would abolish the commission on January 1, 2009.

Existing law requires the county of commitment to make specified payments to the state for each person committed to the Division of Juvenile Facilities, including a percentage of per capita institutional cost.

This bill would establish the Youthful Offender Block Grant Program, commencing September 1, 2007, to enhance the capacity of county departments to provide appropriate rehabilitative and supervision services to youthful offenders, and would require the State Commission on Juvenile Justice to develop a Juvenile Justice Operational Master Plan for that purpose, as specified. The bill would require the Director of Finance to determine the total amount of the block grant pursuant to a specified formula and the allocation for each county, and to report those findings to the Controller who would then make an allocation to each county from the Youthful Offender Block Grant Fund, as established by this bill. The bill would provide for an annual increase in those amounts. The bill would require each county, on or before January 1, 2008, to prepare and submit to the Corrections Standards

Authority for approval a Juvenile Justice Development Plan for youthful offenders that includes a description of the programs, placements, services, or strategies to be funded by the block grant allocation. By increasing the duties of local officials, the bill would impose a state-mandated local program.

This bill would authorize the Department of Corrections and Rehabilitation, a participating county, as defined, and the State Public Works Board to enter into a construction agreement in order to acquire, design, renovate, or construct a local youthful offender rehabilitative facility approved by the Corrections Standards Authority, as specified. This bill would authorize the board to issue up to \$100,000,000 in revenue bonds, notes, or bond anticipation notes to finance the acquisition, design, renovation, or construction of approved local youthful offender rehabilitative facilities and would appropriate those funds for that purpose. This bill would provide that these provisions would become inoperative on June 30, 2017.

The bill would make a specified statement of legislative intent regarding the adequacy of the funding for the state mandate.

Existing law generally regulates the conditions of confinement for inmates and wards in state institutions and facilities. Existing law generally authorizes contracting by the state for the provision of specified services in connection with state institutions and facilities.

This bill would require the Department of General Services, in coordination with the Department of Technology Services, pursuant to other provisions of existing law, to amend contracts that provide telephone services to inmates and wards in state facilities in order to limit the amount of state concession fees per a prescribed schedule over several fiscal years, as specified.

Existing law appropriates \$50,000,000 to the Department of Corrections and Rehabilitation to supplement funds for rehabilitation and treatment of prison inmates and parolees. The funds may be used for staffing, contracts, and other services that include academic and vocational services, substance abuse treatment, and mental health treatment.

This bill would provide that those funds shall be used for developing prison-to-employment programs, expanding substance abuse programs for inmates and parolees, developing and implementing a risk assessment and needs assessment for inmates, establishing and funding day treatment services for mentally ill parolees, and expanding educational and vocational programs for inmates.

Existing law establishes within the Department of Corrections and Rehabilitation the Corrections Standards Authority which is charged with studying crime, as specified, with particular reference to conditions in California.

This bill would provide that the Corrections Standards Authority shall allocate funding for 2 one-time probation pilot projects, as specified. Each pilot project shall be funded at \$5,000,000 and shall be provided to one county probation department, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would provide that its provisions are severable.

This bill would declare that it is to take effect immediately as urgency statutes.

Ch. 176 (SB 82) Committee on Budget and Fiscal Review Administration of Justice.

(1) Existing law designates the Judicial Council as the entity having full responsibility, jurisdiction, control, and authority over trial court facilities for which title is held by the state, including the acquisition and development of facilities.

The bill would make a statement of legislative findings. This bill would require the Judicial Council, for court facility proposals, to develop performance expectations that meet specified criteria. The bill would require the Director of Finance, in reviewing a court facility proposal that includes a public-private partnership component, to consider any terms that could create long-term funding commitments and how those terms may be structured to minimize risk to the state's credit ratings. The bill would require the Judicial Council, following the approval of the Director of Finance, to notify the Joint Legislative Budget Committee of the performance expectations and benchmark criteria for the proposal at least 30 days prior to the release of initial solicitation documents for a court facility project. The bill would provide that the Judicial Council may proceed with the solicitation 30 days after giving that notice, if the Joint Legislative Budget Committee does not express opposition or concerns.

(2) Existing law creates the State Court Facilities Construction Fund, which is financed by certain state court construction penalty assessments, parking surcharges, and filing fee surcharges on civil actions, as specified. Existing law provides that 25% of all money collected for the State Court Facilities Construction Fund from any county shall be designated for implementation of trial court projects in that county.

This bill would limit the application of the requirement that 25% of money collected in a county be designated for trial court projects in that county, as described above, by prohibiting the Judicial Council from committing to additional expenditures from the State Court Facilities Construction Fund above the amount appropriated in the Budget Act of 2007 unless the expenditures are replaced with increased funds to the fund.

(3) Under existing law, the Judicial Council is responsible for disposing of surplus court facilities transferred to the state by the counties, subject to certain requirements, including the obligation to deposit moneys received from their disposal into a specified fund, to consult with the counties regarding the disposition of the facilities, and to consider the impact on local communities regarding potential new uses of the facilities.

This bill would require the Judicial Council to submit a plan to the Legislature for the disposition of court facilities transferred to the state, prior to, or as part of, any budget submission to fund a new courthouse that will replace the existing court facilities transferred to the state.

(4) Existing law imposes, until July 1, 2007, a state surcharge of 20% on a base fine imposed and collected by a court for a criminal offense, as specified.

This bill would delete the inoperative date provision for that surcharge, thereby making those provisions operative indefinitely.

(5) Existing law provides that the Department of Justice is composed of the Office of the Attorney General, the Division of Law Enforcement, and the Division of Gambling Control.

This bill would instead provide that the Department of Justice is composed of the Office of the Attorney General and those other divisions, bureaus, branches, sections, or other units as the Attorney General may create within the department pursuant to existing authority, as specified.

(6) The Gambling Control Act provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission and the investigation and enforcement of those activities by the Division of Gambling Control within the Department of Justice.

This bill would revise the act to replace references to the Division of Gambling Control with references to the Department of Justice, to conform with the provisions described above. The bill would make other related, conforming changes.

(7) Existing law requires the Attorney General to issue guidelines and authorizes him or her to adopt regulations to implement the Witness Protection Program. These guidelines are required to include a process by which state and local agencies apply for reimbursement of costs for providing witness protection services and an appropriate level of matching funds to be contributed by local agencies.

This bill would instead require local agencies to contribute 25% of the cost of witness protection services, thereby imposing a state-mandated local program.

(8) Existing law requires that the Attorney General make an annual report to the Legislature no later than January 1 on the fiscal and operation status of the Witness Protection Program.

This bill would require that report to include the amount of funding sought and received by each county as well as the amount of funding provided, and the amount of the required local match.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(10) This bill would provide that its provisions are severable.

(11) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 177 (SB 84) Committee on Budget and Fiscal Review Human Services.

Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states. Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program under which, through a combination of state and county funds and federal funds received through the TANF program, each county provides cash assistance and other benefits to qualified low-income families.

Existing law requires the Department of Child Support Services, beginning July 1, 1999, to pay to each county a child support incentive for child support collections. Additionally, effective July 1, 2000, existing law provides that the 10 counties with the best performance standards shall receive an additional 5% of the state's share of the counties' collections that are used to reduce or repay aid that is paid under the CalWORKs program. Existing law requires the counties to use the additional funds for specified child support related activities. Existing law suspends the payment of this additional 5% for fiscal years 2002–03 to 2006–07, inclusive.

This bill would extend the suspension of the 5% payment through the 2007–08 fiscal year.

This bill would require the department to provide to the Legislature, and post on its Web site, specified data and information relating to child support collections, and also to require counties to post a link to that data and information on their Web sites. The bill also would require the department to update the Legislature during the annual budget subcommittee hearing process commencing in 2008, on the state and local progress on child support federal performance measures and collections, as specified.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, and under which qualified low-income persons receive health care services. Existing law requires the Department of Child Support Services to provide payments to the local child support agency of \$50 per case for obtaining 3rd-party health coverage or insurance of beneficiaries, to the extent that funds are appropriated in the Budget Act. Under existing law, these payments are suspended for fiscal years 2003–04 to 2006–07, inclusive.

This bill would extend the suspension of payments to local child support agencies through the 2007–08 fiscal year.

Under existing law, the State Department of Social Services regulates the licensure and operation of various community care facilities, residential care facilities for the elderly, child day care centers, and family day care homes. Existing law requires the department to conduct annual unannounced visits to these facilities under designated circumstances. Existing law further requires the department to conduct annual unannounced visits to no less than 20%

of the remaining facilities, based on a random sampling methodology developed by the department. If the total citations issued by the department exceed the previous year's by 10%, existing law requires the department to increase the random sample by 10% the following year, and authorizes the department to request additional resources for this purpose.

This bill would require the department to suspend implementation of the provisions requiring a 10% increase of the random sample for the 2007–08 fiscal year. The bill would require the department to submit trailer bill language to the Legislature on or before February 1, 2008, that reflects appropriate indicators to trigger an annual increase in the number of facilities for which the department conducts unannounced visits, as specified.

Under existing law, the State Department of Alcohol and Drug Programs is responsible for licensing and certifying alcoholism and drug abuse recovery and treatment programs and facilities, including both residential and nonresidential programs. Existing law authorizes the department to charge a reasonable fee for the certification or renewal of certification of alcohol and drug programs that voluntarily request that certification, but prohibits the department from levying a fee for certification of nonprofit organizations or local governmental entities for these purposes. Existing law also requires the department to calculate and establish the fee for licensure of residential alcoholism and drug abuse recovery or treatment facilities, as defined.

This bill would revise existing law relating to the establishment of fees for residential and nonresidential alcoholism and drug abuse recovery or treatment facilities and programs, by requiring the department to charge a fee to license or certify all programs, regardless of the form of organization or ownership of the program. The bill would require the department to submit the new or revised fees to the Legislature for approval, prior to implementation. The bill would establish the Residential and Outpatient Program Licensing Fund, consisting of specified fees, fines, and penalties. The bill would require the money in the fund, upon appropriation by the Legislature, to be used to support the department's licensing and certification activities. The bill would make various conforming changes.

The Substance Abuse and Crime Prevention Act of 2000, enacted by initiative statute (Proposition 36), established the Substance Abuse Treatment Trust Fund within the State Treasury to be continuously appropriated for carrying out the purposes of the act relating to diverting from incarceration into community-based substance abuse treatment programs, nonviolent defendants, probationers, and parolees charged with simple drug possession or drug use offenses.

Existing law establishes the Substance Abuse Offender Treatment Program, until July 1, 2009, pursuant to which the State Department of Alcohol and Drug Programs distributes funds to counties that meet designated eligibility criteria, for the purpose of improving county treatment practices with respect to substance abuse offenders. Under the program, the maximum amount that a county may receive is not permitted to exceed 30% of the county's allocation from the department for that fiscal year from the Substance Abuse Treatment Trust Fund. Existing law authorizes the department to implement the Substance Abuse Offender Treatment Program by all-county letters or similar instructions for the 2006–07 fiscal year, pending the adoption of emergency regulations.

This bill would revise the requirements of the Substance Abuse Offender Treatment Program, including deleting the maximum allowable amount allocated to counties and the July 2009 repeal date, and by revising county eligibility requirements. The bill also would extend the department's authority to implement the program by all-county letters through the 2007–08 fiscal year and to implement these provisions by emergency regulations commencing with the 2008–09 fiscal year.

Existing law, the Mello-Granlund Older Californians Act, establishes the California Department of Aging in the California Health and Human Services Agency. Under existing law, the department's mission is to provide leadership to the area agencies on aging in developing systems of home- and community-based services that maintain individuals in their own homes or least restrictive homelike environments. Existing law sets forth the duties

and powers of the department, including requiring the department to submit specified information annually to the Legislature and the Legislative Analyst regarding the number of persons served by programs and services administered by the department, and expenditures related to these programs and services.

This bill would suspend this reporting requirement until the 2010–11 fiscal year, but would, instead, require the department to annually submit copies of program fact sheets for each state and federal program administered by the department, as specified.

Existing law establishes within the California Department of Aging, the Office of the State Long-Term Care Ombudsman, to promote the development, coordination, and utilization of resources to meet the long-term care needs of older individuals. Existing law requires the office to sponsor a meeting of representatives of approved organizations at least twice each year, and to provide training to these representatives as appropriate. Existing law requires that the department have a criminal record clearance conducted by the State Department of Social Services prior to certifying an individual as an ombudsman. Existing law further requires ombudsmen to receive 36 hours of training approved by the office annually, and 12 hours of additional training annually.

This bill additionally would require the department to issue a card identifying an individual as an ombudsman, following the criminal record clearance and acceptance by the office. The bill would specify that the 36 hours of training that is required to be approved by the office is to be classroom training. This bill would revise the duties of the department and the State Department of Social Services in conducting the criminal record clearance procedures, as specified.

Existing law requires various state departments, including the Department of Rehabilitation, to submit to the Department of Finance for approval all assumptions underlying all estimates used to develop the departments' budgets by September 10 of each year, and to submit revisions to these assumptions by March 1 of the following year.

This bill would revise the requirements applicable to the Department of Rehabilitation of submission of assumptions and estimates of case services expenditures, and would require the department to forward this information to specified committees of the Legislature, if the Department of Finance has not already released the information.

Existing law requires each county to develop and, as needed, update, a plan describing how the county intends to deliver the activities and services necessary to move CalWORKs recipients from welfare to work. Existing law requires each county to review that plan, and prepare and submit to the department a plan addendum detailing how the county will meet specified performance goals for the CalWORKs program.

This bill would require the department to review these county plans, work with the County Welfare Directors Association and county welfare directors to address designated issues related to sanctioned families and time-limited families in the CalWORKs program, and report this information to the Legislature by September 1, 2008.

Existing law requires the State Department of Social Services to administer a voluntary Temporary Assistance Program (TAP), to provide cash assistance and other benefits, commencing no later than April 1, 2007, to specified current and future CalWORKs recipients who meet the exemption criteria for participation in welfare-to-work activities, and are not single parents who have a child under one year of age. Existing law allows the department to suspend implementation of the TAP until October 1, 2007, under specified circumstances.

This bill would revise these provisions to require, instead, that the TAP commence on or before April 1, 2009, with no provision for suspending the program's implementation.

Existing law, through the Kinship Guardianship Assistance Payment Program (Kin-GAP), which is a part of the CalWORKs Program, provides aid on behalf of eligible children who are placed in the home of a relative caretaker, and limits the application of the program to children who have been adjudged a dependent child of the juvenile court and whose dependency has been dismissed on or after January 1, 2000, concurrently or

subsequent to the establishment of the kinship guardianship. The program is funded by state and county funding and available federal funds.

Existing law also requires the State Department of Social Services to establish the Kin-GAP Plus Program, as an optional alternative to the Kin-GAP Program, with similar eligibility and administrative provisions, except that the Kin-GAP Plus Program additionally applies to certain delinquent children who have been declared wards of the juvenile court and whose wardships have been terminated, and would include payments for a specialized care increment and clothing allowance, under certain circumstances.

This bill would repeal the Kin-GAP Plus Program, and effective October 1, 2006, would extend benefits under the Kin-GAP Program to children who would have been covered by the Kin-GAP Plus Program, as specified. The bill would make various conforming changes.

Existing law requires each county to provide cash assistance and other social services to needy families through the CalWORKs program using federal TANF program, state, and county funds.

Existing law continuously appropriates moneys from the General Fund to defray a portion of county aid grant costs under the CalWORKs program.

Existing law, with certain exceptions, requires an annual cost-of-living adjustment to be made in maximum aid payments provided to needy families under the CalWORKs program.

This bill would provide that no adjustment shall be made to the maximum aid payment for the purpose of increasing CalWORKs benefits for the 2007–08 fiscal year.

Existing law establishes the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which counties provide payments to foster care providers on behalf of qualified children in foster care, pursuant to a schedule of basic rates. The program is funded by a combination of federal, state, and county funds, with moneys from the General Fund being continuously appropriated to pay for the state's share of AFDC-FC costs. Existing law requires the schedule of basic rates to be adjusted, as specified. Under existing law, a county that receives state participation for a basic rate in excess of the amount set forth in the schedule of basic rates receives an annual increase of $\frac{1}{2}$ of these percentage adjustments; however, for the 1999–2000 fiscal year, these counties receive an increase in state participation for the basic rate for the entire percentage adjustment.

This bill would require the schedule of basic rates, as adjusted pursuant to existing law, to be increased by 5%, rounded to the nearest dollar. The bill would provide that this increased rate would not be reflected in specified amounts paid to licensed foster family agencies, or to adoptive parents under the Adoption Assistance Program, under specified circumstances. The bill would also provide that those counties that receive state participation in excess of the basic rates shall receive an increase in state participation for the basic rate for the entire percentage adjustment for the 2007–08 fiscal year.

Under existing law, in addition to the basic rate payable for the care of a foster child under the AFDC-FC program, counties that had a clothing allowance, as defined, in effect on a specified date, are authorized to continue to receive state participation at the same level for the clothing allowance.

This bill would provide that the maximum amount of the clothing allowance for children whose foster care payment is the responsibility of Colusa, Plumas, and Tehama Counties may be up to \$274 per child per year, and would require a county that elects to receive the clothing allowance to submit a Clothing Allowance Program Notification to the department, as specified.

Existing law requires payment of a supplemental clothing allowance of \$100 per year, subject to the availability of funds, without a county share of cost.

This bill would require this supplemental clothing allowance to be paid for children under the Kin-GAP Program without a county share of cost, in accordance with a specified provision of existing law.

This bill, commencing January 1, 2008, would increase by specified percentages and amounts the rate schedules applicable to AFDC-FC payments for group homes and other designated foster care placements.

This bill would revise existing procedures related to the collection by counties of overpayments to foster care providers and adoption assistance recipients, and would impose related duties on the State Department of Social Services.

Because moneys from the General Fund are continuously appropriated to pay for the state's share of the AFDC-FC and Kin-GAP programs, by increasing state costs under these programs, this bill would make an appropriation.

Existing law provides for the State Supplementary Program for the Aged, Blind and Disabled (SSP), which requires the State Department of Social Services to contract with the United States Secretary of Health and Human Services to make payments to SSP recipients to supplement supplemental security income (SSI) payments made available pursuant to the federal Social Security Act.

Under existing law, benefit payments under the SSP program are calculated by establishing the maximum level of nonexempt income and federal SSI and state SSP benefits for each category of eligible recipient. The state SSP payment is the amount, when added to the nonexempt income and SSI benefits available to the recipient, which would be required to provide the maximum benefit payment.

Existing state law provides, except in certain calendar years, for the annual adjustment of the total level of combined state and federal benefits as established by statutory schedule to reflect changes in the cost of living, as defined.

Existing law provides that, commencing with the 2007 calendar year and thereafter, in any calendar year in which no cost of living adjustment is made to the payment schedules, there shall be a pass along of any cost-of-living increases in federal SSI benefits.

This bill would provide that commencing with the 2008 calendar year, the annual adjustment would be effective from June 1 to May 31, inclusive, of the following calendar year.

The bill would specify, however, that the pass along of federal benefits shall continue to be effective on January 1 of each calendar year.

Existing law provides for the county-administered In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons are provided with services in order to permit them to remain in their own homes and avoid institutionalization. Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium.

Existing law requires the State Department of Social Services to establish a program of direct deposit by electronic transfer for payments to in-home supportive services providers, and requires the department, the Controller, and the California Health and Human Services Agency to make all necessary automation changes to allow for payment by direct deposit.

This bill would require the department to establish the direct deposit program, in cooperation with the Controller, on or before June 30, 2008.

Existing law provides for the Adoption Assistance Program (AAP), to be established and administered by the State Department of Social Services or the county, for the purpose of benefitting children residing in foster homes by providing the stability and security of permanent homes. The program provides for the payment by the department and counties, of cash assistance to eligible families that adopt eligible children, and bases the amount of the payment on the needs of the child and the resources of the family to meet those needs. Under existing law, from funds appropriated for this purpose, the state compensates licensed private adoption agencies for otherwise unreimbursed costs of placing certain children. Effective July 1, 1999, the maximum reimbursement amount was \$5,000.

This bill would increase the maximum reimbursement amount to \$10,000, effective February 1, 2008, for cases for which the adoptive home study approval occurred on or after July 1, 2007. The bill would also require the department to review the reimbursement methodology for the AAP and provide specified information to the fiscal committees of the Legislature, commencing with the budget subcommittee hearings for the 2008–09 fiscal year.

Existing law, the Lanterman Developmental Disabilities Services Act, requires the State Department of Developmental Services to allocate funds to private nonprofit regional centers for the provision of community services and supports for persons with developmental disabilities and their families.

Under existing law, the cost of providing 24-hour out-of-home nonmedical care and supervision in community care facilities for children who receive both AFDC-FC benefits and regional center services funded by the AFDC-FC program.

This bill would revise rates under the AFDC-FC program and AAP for children who are also regional center consumers. The bill would require regional centers to separately purchase or secure services contained in the child's Individualized Family Service Plan (IFSP) or Individual Program Plan (IPP). The bill would also revise the AFDC-FC rates for 24-hour out-of-home nonmedical care and supervision for these children in community care facilities, and would require the rates to be adjusted annually, as specified.

This bill would provide that the rates established by the bill would apply to AFDC-FC eligibility determinations, and adoption assistance agreements signed, on and after July 1, 2007. The bill, however, would require rates lower than those in effect as of July 1, 2007, to be raised to the levels established by the bill, and to remain in effect unless a change in the child's circumstances or eligibility warrants redetermination of the rate. This bill would provide for the adoption of emergency regulations to implement these provisions.

By increasing the state's level of participation in AFDC-FC and AAP rates, this bill would make an appropriation.

Existing law requires the State Department of Social Services to establish and supervise a county- or county consortia-administered program to provide cash assistance to aged, blind, and disabled legal immigrants who are not citizens and who successfully complete an application process. Existing law requires any person found by the department to be eligible for federal SSI benefits to be required to apply for those benefits. Under existing law, an individual who fully cooperates in the Social Security Administration's application and appeal process may continue to receive cash assistance benefits, and remains eligible for those benefits if he or she receives an unfavorable decision from the Social Security Administration.

This bill would revise these provisions to authorize recipients who naturalize while receiving cash assistance benefits to continue to be eligible for cash assistance benefits until he or she receives SSI benefits, or has exhausted all appeals for the initial SSI application.

Existing law provides for subsidized child care programs for eligible persons, including recipients of benefits under the CalWORKs program, which are administered by the State Department of Education.

This bill would require the department to conduct a study and submit a report to the Legislature, by September 2008, to establish best statewide practices for the prevention, detection, identification, and investigation of improper payments and fraud in all subsidized child care programs. The bill would specify the required components of the study.

Existing law established the Department of Rehabilitation within the California Health and Human Services Agency. The duties of the department include the administration of various programs to establish employment opportunities for individuals with disabilities, including the Supported Employment Program (SEP) and the Work Activity Program (WAP).

This bill would require the department to count the number of SEP and WAP consumers served by the department in the 2007–08 fiscal year, the cost of providing those services, and

to identify funding options if the costs are projected to exceed the amount budgeted for SEP and WAP consumer activities, under designated circumstances. The bill would require the department to submit this information to the budget and fiscal committees of the Legislature, as specified, and also to submit a proposed methodology for projecting caseload and funding growth in the SEP and the WAP for the 2008–09 and subsequent fiscal years.

This bill would require any funds remaining of the amount appropriated in a specified item of the 2007 Budget Act for reimbursement of food banks and Foodlink for certain food storage and transportation costs associated with the 2006–07 freeze to be expended to respond to other emergency food needs throughout the state.

Existing law requires the Department of Justice to maintain an index, identified as the Child Abuse Central Index (CACI), of all reports of child abuse and severe neglect, as specified. Existing law requires that the CACI be checked under various circumstances, including before the State Department of Social Services grants a license or otherwise approves an individual to care for children, or in other situations involving the out-of-home placement of a child.

This bill would require the State Department of Social Services, in consultation with the County Welfare Directors Association, to track actual county costs in the 2007–08 fiscal year to implement a specified court case settlement requiring counties to implement a notification and grievance process for individuals listed on the CACI.

Existing law requires certain participants in the CalWORKs program to participate in specified welfare-to-work activities.

This bill would require the State Department of Social Services to provide options for consideration by the administration and the Legislature for increasing the state's CalWORKs welfare-to-work participation, and to submit these options to designated legislative committees on or before October 1, 2007.

Existing law extends eligibility for certain transitional housing placement program services that are available to foster youth to a person less than 24 years of age who has emancipated from the foster care system in a county that has elected to participate in a transitional housing placement program for youths between 18 and 24 years of age, provided that the person has not received these services for more than a total of 24 months.

This bill would authorize up to \$10,525,000 of the amount appropriated in a specified item of the 2007 Budget Act for the Transitional Housing Program Plus to be used for eligible costs incurred in the 2006–07 fiscal year.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 178 (SB 85) Committee on Budget and Fiscal Review Environment.

(1) Existing law establishes the Significant Natural Areas Program, administered by the Department of Fish and Game, which requires the department to maintain, expand, and keep current a data management system, designated the California Natural Diversity Data Base, designed to document information on natural resources.

Through the Vegetation Classification and Mapping Program, the department facilitates and oversees efforts to develop accurate and scientifically defensible maps and classifications of vegetation and habitat throughout the state to support conservation and management decisions at the local, regional, and state level.

The department has entered into a memorandum of understanding with other state and federal agencies to establish a cooperative vegetation and habitat mapping initiative to facilitate statewide joint data collection and processing, establish common mapping and classification standards across all ownership, and provide timely response to both state and federal information and analytical requirements.

This bill would require the department to undertake the development of a vegetation mapping standard for the state, in consultation with interested stakeholders. The bill would specify components of the standard. The bill would require the department to submit a report to the budget committee of each house of the Legislature, no later than January 10, 2008, that

would provide the mapping standard and related information. The bill would authorize the department to adopt regulations to implement these provisions.

(2) Existing law creates the Food Safety Account within the Department of Pesticide Regulation Fund, the funds in which may be expended, upon appropriation by the Legislature for pest management research purposes, to carry out the recommendations of the pest management advisory committee.

This bill would provide that transfers of moneys from the Department of Pesticide Regulation Fund to the Food Safety Account shall cease on June 30, 2007, and that, as of June 30, 2009, the Food Safety Account shall cease to exist. At that time, any balance in the account, or any outstanding liabilities and encumbrances of the account, shall be transferred to, or become those of, the Department of Pesticide Regulation Fund, as specified. The bill would authorize funds in the Department of Pesticide Regulation Fund to be expended instead, upon appropriation, for pest management grants. This bill would make other conforming changes.

(3) The Environmental Cleanup and Fee Reform Act of 1997 creates the Toxic Substances Control Account in the General Fund. Specified charges imposed on corporations handling hazardous materials are required to be deposited in that account. Existing law expresses the Legislature's intent that \$500,000 in that account should be appropriated in the annual Budget Act for the administration and collection of those charges.

This bill would instead declare that an amount should be appropriated in the annual Budget Act that does not exceed the costs incurred by the State Board of Equalization, a private party, or other public agency, to administer and collect those charges.

Existing law requires that the revenues from specified fees and charges imposed upon the management of hazardous waste be deposited into the Hazardous Waste Control Account in the General Fund. The money in that account may be appropriated to the Department of Toxic Substances Control for allocation to the State Board of Equalization to pay refunds of specified fees.

This bill would provide that the department may also allocate appropriated funds to the board for the administration and collection of hazardous waste fees that are deposited into the Hazardous Waste Control Account.

(4) Under existing law, the funds in the Toxic Substances Control Account in the General Fund may be appropriated to the Department of Toxic Substances Control for specified purposes, including the payment of the costs of removal and remedial action incurred by the state in response to a release of hazardous substances. The Controller is required to establish a separate subaccount in the Toxic Substances Control Account for any funds received from a settlement agreement for a removal or remedial action to be performed at a specific site. Existing law also establishes the Stringfellow Insurance Proceeds Account (Stringfellow Account) in the State Treasury and requires specified insurance funds recovered in connection with the Stringfellow Superfund Site in Riverside County be deposited in that account. The funds deposited in the Stringfellow Account are available for expenditure, upon appropriation by the Legislature, for activities related to the Stringfellow Superfund Site to fulfill a specified agreement.

This bill would require the funds in the Stringfellow Insurance Proceeds Account to be expended to carry out the 2002 Consent Decree. The Stringfellow Account would become inoperative on July 1, 2013. A subaccount, operative on July 1, 2013, would be created in the state account as the successor fund to the Stringfellow Account. All assets, liabilities, and surplus in the Stringfellow Account would be transferred to, and become a part of, that subaccount. All appropriations made from the Stringfellow Account, to the extent encumbered, would continue to be available from the subaccount for expenditure for the same purposes and periods.

(5) The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt regulations to require the reporting and verification of emissions of greenhouse gases and to monitor and enforce compliance with the reporting and

verification program, and requires the state board to adopt a statewide greenhouse gas (GHG) emissions limit equivalent to the statewide GHG emissions levels in 1990 to be achieved by 2020. The act requires the state board to adopt rules and regulations in an open public process to achieve the maximum technologically feasible and cost-effective GHG emission reductions. The act requires all state agencies to consider and implement strategies to reduce their GHG emissions.

This bill would require specified state agencies to prepare and submit to the Secretary for Environmental Protection, in a standardized format as determined by the California Environmental Protection Agency, specified information relating to the state agency's GHG emissions, including a list of measures adopted and implemented by the agency to meet any GHG emission reduction targets, as defined, and a status report on GHG emissions reduced as a result of these measures. The California Environmental Protection Agency would be required to provide that information on its Internet Web site in the form of a state agency greenhouse gas emission reduction report card.

The bill would require that funds appropriated to the State Air Resources Board pursuant to Item 3900-001-0115 of the Budget Act of 2007, and used for market-based compliance mechanisms to be expended solely for the assessment and evaluation of potential market based compliance mechanisms, and not for adoption of implementation of those mechanisms, until the State Air Resources Board has taken specified actions and would require these funds to be spent to assess and evaluate all potential market-based compliance mechanisms.

(6) Existing law authorizes the Department of Finance, until January 1, 2009, to delegate to the Department of Parks and Recreation the right to exercise the same authority granted to the Division of the State Architect and the Real Estate Services Division in the Department of General Services, to plan, design, construct, and administer contracts and professional services for legislatively approved capital outlay projects. Existing law authorizes the Department of Finance to revoke that delegation at any time before January 1, 2009.

This bill would authorize the Department of Finance to delegate to the Department of Forestry and Fire Protection the right to exercise that same authority, and would authorize the Department of Finance to revoke the delegation at any time.

(7) Under existing law, the Department of Parks and Recreation is required to operate, manage, and maintain units of the state park system. Existing law regulates the sale of surplus state property.

This bill would authorize the Director of the Department of Parks and Recreation to grant to the City of Santa Cruz, subject to specified conditions, all of the rights, title, and interest of the State of California in approximately 37.6 acres, known as Lighthouse Field State Beach, in the County of Santa Cruz. The bill would require that the real property conveyed be operated, maintained, and improved by the City of Santa Cruz for park purposes. The bill would require Attorney General review and approval of the deposit of the net proceeds from the transfer.

(8) The Disaster Preparedness and Flood Prevention Bond Act of 2006, a bond act approved by the voters at the November 7, 2006, statewide general election, authorizes the issuance of bonds in the amount of \$4,090,000,000 for the purposes of financing disaster preparedness and flood prevention projects. The act makes available, upon appropriation to the Department of Water Resources, \$3,000,000,000 for purposes relating to the State Plan of Flood Control and reducing the risk of levee failure in the Sacramento-San Joaquin Delta.

This bill would require the department, beginning November 1, 2007, and quarterly thereafter until funds are liquidated, to prepare and submit to the Joint Legislative Budget Committee a report that includes prescribed information relating to the expenditure of that \$3,000,000,000. The department would be required to adopt emergency regulations to implement a specified provision of the Water Code that governs the payment of certain nonfederal costs associated with a federal-state flood control project. The bill would prohibit the department from requiring a local cost-share for certain specified levee evaluations.

(9) Existing law establishes the Coastal Wetlands Fund in the State Treasury and requires the fund to be an interest-bearing fund administered by the Department of Fish and Game. Existing law prohibits the principal of the Coastal Wetlands Fund from being expended, and requires the fund to be maintained so that the interest earned on the fund provides a continuous funding source for wetlands maintenance. Existing law requires that 60% of the interest appropriated be allocated to the Department of Fish and Game for maintenance of coastal wetlands owned by the department and that the remaining 40% be allocated to the State Coastal Conservancy for expenditure in the form of grants for maintenance of coastal wetlands property owned by the state, a conservancy of the state, a local government agency, or a nonprofit organization, as specified.

This bill would delete the prohibition regarding the expenditure of the principal of that fund and would repeal the existing formula for the allocation of the fund. The bill would instead authorize the funds in the Coastal Wetlands Fund to be expended by the Department of Fish and Game and the State Coastal Conservancy, upon appropriation by the Legislature, for the maintenance of coastal wetlands property owned by the state, a conservancy of the state, a local government agency, or a nonprofit organization. The bill would allow those funds to be expended in the form of grants.

(10) The California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Bond Act of 2002, approved by the voters as Proposition 40 on March 5, 2002, made \$15,000,000 in bond funds available for grants to local conservation corps for acquisition and development of facilities to support local conservation corps programs.

This bill would authorize the Sacramento Local Conservation Corps, certified by the California Conservation Corps, to sell a certain parcel located in Sacramento County that was purchased with a portion of those bond funds. The bill would require the net proceeds from the sale to be used only towards the purchase of another certain parcel located within Sacramento County. The bill would also require the sale to be at no less than fair market value and approved by the California Conservation Corps, and the purchase to be at no more than fair market value and also approved by the California Conservation Corps.

The bill would require that any net proceeds from the sale of that certain parcel in excess of the purchase price of the other certain parcel shall revert to the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Fund, and would appropriate that sum from the fund to the California Conservation Corps for local assistance.

(11) Existing law establishes the Baldwin Hills Conservancy to acquire and manage public lands within the Baldwin Hills area, and to provide recreational, open space, wildlife habitat restoration and protection, and lands for educational uses within the area. Existing law provides that the conservancy will remain in effect until January 1, 2008.

This bill would extend the repeal date for the conservancy to January 1, 2018.

(12) Under existing law, the Department of Water Resources operates the State Water Project and exercises other functions relating to the state's water resources. The department is authorized to enter into contracts and agreements in connection with the State Water Project. The California Global Warming Solutions Act of 2006 requires state agencies to consider and implement strategies to reduce their greenhouse gas emissions.

Existing law authorizes the department to enter into contracts for the purchase of electric power and to sell power to retail end-use customers and, with specified exceptions, to local publicly owned electric utilities at not more than the department's acquisition costs. The department is prohibited from entering into new contracts for the purchase of electric power on and after January 2, 2003, for resale to retail end-use customers and to local publicly owned electric utilities.

This bill would require the department to comply with the greenhouse gas emission standards adopted by the Public Utilities Commission for a local publicly owned electric utility, to use reasonable, feasible, and cost-effective efforts to use energy efficiently, and to increase its use of renewable energy in its water operations and in its renegotiation of existing electricity contracts for retail end-use customers and local publicly owned electric utilities.

On or before March 1, 2008, and at least once every year thereafter until December 21, 2015, the department would be required to report to the Legislature and the Governor on the status of contracts it has for fossil fuel generated electricity and its efforts to reduce its dependency on fossil fuels, and on changes to the portfolio of existing energy contracts.

(13) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 179 (SB 86) Committee on Budget and Fiscal Review State government.

(1) Existing law, the Unclaimed Property Law, governs the disposition of unclaimed property, including the escheat of certain property to the state. Those provisions require a person holding funds or other property escheated to the state to report to the Controller certain information regarding the property and the owner, and set forth procedures whereby a person may file a claim to the property or to the net proceeds from its sale. Those provisions also specify the procedures for transferring the property from the holder of the property to the state and for administering the property.

This bill would modify the procedures governing the disposition of unclaimed property. The bill would provide that, within 165 days after the final date for filing the report described above, the Controller shall mail a notice, as specified, to each person having an address listed in the report who appears to be entitled to property of the value of \$50 or more escheated under these provisions. It would require the Controller to establish and conduct a notification program designed to inform owners about the possible existence of unclaimed property received pursuant to these provisions. The bill would make specified changes regarding the duties of a holder of property that has escheated and the duties of the Controller after receiving the property, including a requirement that the Controller retain the property for 18 months from specified dates. The bill would make other related changes.

(2) Existing law establishes the Agricultural Pest Control Research Account in the Department of Food and Agriculture Fund.

This bill would abolish that account as of June 30, 2007, or upon enactment of the bill, whichever is later, and would transfer any remaining funds and encumbrances to the Transportation Planning and Development Account in the State Transportation Fund.

(3) Existing law requires that any state position that is vacant for 6 consecutive monthly pay periods be abolished by the Controller on the following July 1, subject to specified conditions.

This bill would, from July 1, 2007, to June 30, 2010, inclusive, and notwithstanding the above provisions, require any state position that is vacant for 12 consecutive monthly pay periods to be abolished by the Controller on the following July 1, subject to these specified conditions.

(4) Existing law vests the Department of Finance with general powers of supervision over all matters concerning the financial and business policies of the state.

This bill would state the intent of the Legislature that the department set statewide fiscal and accounting policies and procedures and provide any state agency that handles public moneys or its equivalent with training, advice, and consulting services. The bill would also authorize the Director of Finance, to the extent authorized under the annual Budget Act, to assess specified funds to support the department's training, advice, and consulting services to state agencies.

(5) Existing law requires that new public buildings be models of energy efficiency and be designed, constructed, and equipped with energy efficiency measures, materials, and devices, subject to specified criteria, and that existing buildings be retrofitted to meet specified standards when renovated or remodeled. In addition, certain executive orders require state agencies to implement certain energy and resource efficiency standards in this regard.

This bill would require any building the state intends to occupy, for which construction commences on and after January 1, 2009, and any renovation to a building the state intends to occupy that commences on or after that date, to be designed, constructed, and operated,

to meet, at a minimum, the applicable standards described in the United States Green Building Council's Leadership in Energy and Environmental Design silver rating.

The bill would also require any building lease, for which the state is the sole tenant, entered into on or after January 1, 2009, that requires major renovation or the construction of a new building on or after that date, to be designed, constructed, and operated, to meet, at a minimum, the standards described in the United States Green Building Council's Leadership in Energy and Environmental Design silver rating.

(6) Existing law establishes a procedure for local governmental agencies to file claims for reimbursement of specified costs associated with state-mandated local programs with the Commission on State Mandates, and sets forth the procedure for a determination by the commission for eligibility for reimbursement, appropriation and payment of claims, including payment pursuant to the enactment of a local government claims bill, the establishment of interest accrued on claims, and the review of state mandates by the Legislative Analyst generally.

This bill would revise these procedures, including certain associated deadlines, and delete the provisions governing the local government claims bill, instead requiring payment to be made in the annual Budget Act according to specified criteria.

(7) Under existing law, policy, and bargaining agreements, the state reimburses employees for all necessary and actual expenses they incur when they travel on official state business. The Controller's office has established the California Automated Travel Expense Reimbursement System (CalATERS) for processing travel claims for participating state agencies. Existing law requires all state agencies to implement and use that system to automate the processing of employee travel claims by July 1, 2009, unless the Controller recommends, and the Department of Finance approves, an exemption request, as specified.

This bill would provide that payments for the services of the Controller in implementing these provisions shall be made by direct transfer, as specified.

(8) The Public Employees' Medical and Hospital Care Act requires the Board of Administration of the Public Employees' Retirement System to approve health benefit plans for certain public employees and annuitants, and authorizes the board to contract with carriers offering health benefit plans. That law creates in the State Treasury the Public Employees' Contingency Reserve Fund, and within that fund, requires an account to be maintained to defray increases in future rates, reduce contributions of employees, annuitants, and employers, implement cost containment programs, and increase the benefits related to these health benefit plans, as specified. Existing federal law provides for Medicare Part D, the voluntary federal program for prescription drug reimbursement coverage.

This bill would provide that the Board of Administration of the Public Employees' Retirement System is designated, for the purposes of federal law, as the sponsor of a qualified retiree prescription drug plan for a state or contracting agency plan, or related plan, or an individual if the Public Employees' Retirement System applies for a retiree drug subsidy, as defined, related to that plan or individual and the system meets the definition of plan sponsor under federal law, as specified. The bill would provide that any funds attributable to a retiree drug subsidy for a contracting agency plan, local annuitant, or local employee, as defined, shall be deposited in the Public Employees' Contingency Reserve Fund, a continuously appropriated fund. By increasing contributions to a continuously appropriated fund, the bill would make an appropriation.

This bill would also provide that there is in the Public Employees' Contingency Reserve Fund the Account for Retiree Drug Subsidy Payments. The bill would provide that funds in this account shall be appropriated by the Legislature for reducing the contributions by the state and state annuitants for health benefits that include prescription drug benefits for state annuitants, defraying increases in future employer or state annuitant health benefit or prescription drug rates, increasing state annuitant health benefits or prescription drug benefits, and implementing cost containment programs related to state annuitant health benefits that include prescription drug benefits.

(9) Existing law generally regulates the storage of hazardous substances in underground storage tanks. Specified provisions of federal law impose liability for the costs incurred by a state for undertaking corrective action with regard to a release of petroleum from an underground storage tank, and the money recovered pursuant to federal law by the state is required to be deposited in the Leaking Underground Storage Tank Cost Recovery Fund in the General Fund. The State Water Resources Control Board (board) is authorized to expend the money in that fund, upon appropriation by the Legislature, for the purpose of taking specified actions with respect to underground storage tanks containing petroleum.

Under the Barry Keene Underground Storage Tank Cleanup Trust Fund Act of 1989, an owner of an underground storage tank is required to pay a storage fee for each gallon of petroleum placed in the tank. The fees are required to be deposited in the Underground Storage Tank Cleanup Fund and the money in the fund may be expended by the board, upon appropriation by the Legislature, for various specified purposes.

This bill would authorize the Controller, upon appropriation by the Legislature, to expend money from the Leaking Underground Storage Tank Cost Recovery Fund, for the costs of corrective action at a specified site.

This bill would also require, after the corrective action at that site is complete, in accordance with a uniform closure letter, that all unencumbered funds in the Leaking Underground Storage Tank Fund, and all net proceeds from the sale or the disposition of that site made on behalf of the Controller, be transferred to the Underground Storage Tank Cleanup Fund.

(10) The Housing and Emergency Shelter Trust Fund Act of 2006 authorizes the issuance of bonds in the amount of \$2,850,000,000 pursuant to the State General Obligation Bond Law. Proceeds from the sale of these bonds are required to be used to finance various existing housing programs, capital outlay related to infill development, brownfield cleanup that promotes infill development, and housing-related parks. The act establishes the Housing and Emergency Shelter Trust Fund of 2006 in the State Treasury, requires the sum of \$850,000,000 to be deposited in the Regional Planning, Housing, and Infill Incentive Account, which the act establishes in the fund, and makes the money in the account available, upon appropriation, for infill incentive grants for capital outlay related to infill housing development and other related infill development, and for brownfield cleanup that promotes infill housing development and other related infill development consistent with regional and local plans, subject to the conditions and criteria that the Legislature may provide in statute.

This bill would establish the Infill Incentive Grant Program of 2007, that would require the Department of Housing and Community Development, upon appropriation by the Legislature of the funds in the Regional Planning, Housing, and Infill Incentive Account for certain purposes, to establish and administer a competitive grant program to allocate those funds to selected capital improvements projects related to qualifying infill projects or qualifying infill areas, as defined.

The bill would require the California Pollution Control Financing Authority, in consultation with the Department of Housing and Community Development, upon appropriation by the Legislature of the funds in the Regional Planning, Housing, and Infill Incentive Account for certain additional purposes, to administer loans or grants under the California Recycle Underutilized Sites (CALReUSE) Program for the purpose of brownfield cleanup that promotes infill residential and mixed-use development, consistent with regional and local land use plans.

The bill would also appropriate \$240,000,000 and \$60,000,000, respectively, from the Budget Act of 2007 for the Infill Incentive Grant Program of 2007 and for CALReUSE in the 2007–08 fiscal year.

(11) Existing law provides for the collection of fees by the Division of Occupational Safety and Health for inspections of elevators, aerial passenger tramways, and permanent amusement rides. Fees collected for elevator inspections are deposited into the Elevator Safety Account. Fees collected for the inspection of aerial passenger tramways are deposited

into the General Fund. Fees collected for permanent amusement ride inspections are deposited into a special fund titled the Permanent Amusement Ride Inspection Fund. Existing law exempts the state and other political subdivisions from paying these fees.

This bill would direct that all fees collected by the division for the inspection of elevators, aerial passenger tramways, and permanent amusement rides be deposited into the Elevator Safety Account. This bill would, effective June 30, 2007, abolish the Permanent Amusement Ride Inspection Fund and direct that all moneys in the fund, as well as all outstanding liabilities and encumbrances, be transferred to the Elevator Safety Account.

This bill would also require the state and all other political subdivisions thereof to pay the inspection fees charged by the division.

(12) Existing law establishes a minigrant program for the development and support of domestic violence programs and services for the gay, lesbian, bisexual, and transgender community. Existing law requires the Office of Emergency Services (OES) to use funds from the Equality in Prevention and Services for Domestic Abuse Fund to award at least 4 minigrants annually of up to \$10,000 to qualifying organizations to fund those domestic violence programs and services.

This bill would revise those provisions to require OES to award up to 4 grants annually to qualifying organizations, with at least one in southern California and one in northern California. The bill would also change all references to "minigrant" in those provisions to "grant."

(13) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 180 (SB 87) Committee on Budget and Fiscal Review Taxation: fractionally owned aircraft: teacher retention credit.

Existing property tax law requires that aircraft, other than certificated aircraft, be valued and assessed only in the county in which it is habitually situated. Existing property tax law requires owners, as well as operators, of private and public airports, to provide the assessor of the county in which the airport is situated, with specified information regarding aircraft using the airport as a base, to be used by the assessor in the assessment of aircraft at market value.

This bill would instead provide a formula, based upon the number of landings in and departures from a county in proportion to landings and departures worldwide, to assess a fleet of fractionally owned aircraft, as defined, that would be taxed by the counties where the fleet lands. This bill would require that the fleet be assessed to the manager in control of the fleet, as specified. This bill would specify that this fleetwide assessment applies for the 2007–08 fiscal year and each fiscal year thereafter, and also to specified prior fiscal years. This bill would authorize the Aircraft Advisory Subcommittee of the California Assessors' Association to designate a lead county assessor's office for each manager of a fleet of fractionally owned aircraft in this state in an assessment year. If a lead county assessor's office is designated and that office accepts this designation, this bill would require this lead county assessor to calculate the value of a fleet of fractionally owned aircraft and to transmit these calculations to other county assessors, but would specify that each county assessor is responsible for assessing and enrolling the taxable value of the aircraft that has situs in his or her county, as provided. This bill would provide that fractionally owned aircraft would be assessed under the provisions of the bill only if a designated lead county assessor's office accepts that designation. This bill would also authorize the lead county assessor's office to lead an audit team to audit each manager of a fleet of fractionally owned aircraft, and would require these managers to file a property statement solely with the lead county assessor's office, as provided. This bill would also require owners, as well as operators, of private and public airports to provide, upon the request of the assessor of the county in which the airport is situated, with specified information regarding aircraft utilizing the airport facilities.

Existing law requires taxpayers that meet certain criteria to file a property statement with the county assessor. Existing law requires the State Board of Equalization to prescribe the contents of this statement and to notify property tax assessors of these contents.

This bill would require the board to specify that these property statements contain information regarding the payment of California use tax and a notice to taxpayers that information provided on the statement may be shared with the board. This bill would require the board to implement this change in a manner that does not increase local costs.

The Personal Income Tax Law authorizes various credits against the taxes imposed by that law, including a credit, calculated on the basis of either years of service or a specified formula, to a credentialed teacher for each taxable year beginning on or after January 1, 2007.

This bill would repeal the provision that authorizes this credit.

This bill, by repealing an existing personal income tax credit, would result in a change in state taxes for the purpose of increasing revenue within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require, for passage, the approval of $\frac{2}{3}$ of each house of the Legislature.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 181 (SB 88) Committee on Budget and Fiscal Review Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006: implementation.

Existing law, the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B at the November 7, 2006, general election, authorizes the issuance of \$19.925 billion of general obligation bonds for specified purposes, including reducing emissions and improving air quality in trade corridors, State Route 99 corridor enhancements, port security projects, schoolbus retrofit and replacement purposes, state transportation improvement program augmentation, public transit and passenger rail improvements, transit security projects, local bridge seismic retrofit projects, highway-railroad grade separation and crossing improvement projects, state highway safety and rehabilitation projects, and local street and road improvement, congestion relief, and traffic safety projects. Existing law specifies the responsibilities of various agencies with regard to implementing the bond act. Existing law also establishes various programs for the reduction of vehicular air pollution, including the Lower-Emission School Bus Program adopted by the State Air Resources Board.

This bill would designate administrative agencies for each of the programs funded by the bond act, which would be the California Transportation Commission, the State Air Resources Board, the Controller, the Office of Homeland Security, the Office of Emergency Services, or the Department of Transportation, as specified. The bill would impose various requirements on these agencies relative to adopting program guidelines, making of allocations of bond funds, and reporting on projects funded by the bond funds. The bill would enact other related provisions.

This bill would appropriate \$350,000,000 from the Local Street and Road Improvement, Congestion Relief, and Traffic Safety Account created by the bond act, for allocation by the Controller to cities and counties as an augmentation to funds appropriated from that account by the Budget Act of 2007.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 182 (SB 89) Committee on Budget and Fiscal Review Student Financial aid: state student loan guarantee program: assets and liabilities: sale.

Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education. Existing law authorizes the commission to carry out prescribed tasks, and authorizes the commission to establish an auxiliary organization for the purpose of providing operational and administrative services for the commission's participation in the Federal Family Education Loan Program. Under existing

law, the operations of the auxiliary organization are required to be conducted in conformity with an operating agreement approved, for a period not to exceed 5 years, by the commission.

This bill would authorize the Director of Finance to act as agent for the state in the sale of the student loan guarantee portfolio and certain related assets and liabilities of the student loan guarantee program not retained by the commission to an entity approved by the United States Secretary of Education to act as a state student loan guarantee agency for the Federal Family Education Loan Program, and selected by the director, in consultation with the Treasurer, pursuant to a prescribed procedure. The bill would also authorize the Director of Finance to consummate other transactions to maximize the value of the state student loan guarantee program to the state.

The bill would require the director to deposit the net proceeds of any sale of state student loan guarantee program assets and liabilities, or any funds achieved through any other arrangement to maximize the value of the program to the state, into the General Fund.

The bill would appropriate \$300,000 from the General Fund to the Director of Finance for the purposes of obtaining professional advice and counsel related to the sale of the state student loan guarantee program assets and liabilities under the bill.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 183 (SB 90) Committee on Budget and Fiscal Review State government: information technology.

(1) Under existing law, the duties of the office of the State Chief Information Officer include, but are not limited to, generally providing oversight, advice, and management regarding information technology to the Governor and various agencies within the state.

This bill would additionally require the office of the State Chief Information Officer to, among other things, approve and oversee information technology projects, establish and enforce state information technology strategic plans, policies, standards, and enterprise architecture, and produce an annual strategic plan.

(2) Existing law requires each state agency and department to enact and maintain a permanent privacy policy that includes specified privacy principles, and complies with the Information Practices Act of 1977.

This bill would create the Office of Information Security and Privacy Protection in the State and Consumer Services Agency, to ensure the confidentiality, integrity, and availability of state systems and applications, and to promote and protect consumer privacy to ensure the trust of the residents of the state.

(3) Existing law establishes within the Department of Consumer Affairs an Office of Privacy Protection under the direction of the Director of Consumer Affairs and the Secretary of State and Consumer Services, to protect the privacy of individuals' personal information. Existing law specifies that these provisions are only operative in years in which there is an appropriation from the General Fund in the Budget Act for these purposes.

This bill would revise this provision to create, until January 1, 2013, in the Office of Information Security and Privacy Protection, the Office of Privacy Protection.

(4) This bill would provide for the transfer of employees of the Office of Technology Review, Oversight, and Security within the Department of Finance to the office of the State Chief Information Officer, the Office of Information Security and Privacy Protection, or the Finance Information Technology Consulting Unit within the Department of Finance, subject to specified conditions.

Ch. 184 (SB 91) Committee on Budget and Fiscal Review Student financial aid.

Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education. Existing law authorizes the commission to carry out prescribed tasks, and authorizes the commission to establish an auxiliary organization for the purpose of providing operational and administrative services for the

commission's participation in the Federal Family Education Loan Program. Under existing law, the operations of the auxiliary organization are required to be conducted in conformity with an operating agreement approved, for a period not to exceed 5 years, by the commission.

This bill would repeal provisions of existing law relating to the establishment and operation of the auxiliary organization and the state's participation in the Federal Family Education Loan Program if and when the Director of Finance notifies the Secretary of State and the Chairperson of the Joint Legislative Budget Committee that specified occurrences, related to either a sale of the state student loan guarantee program assets to a transferee guaranty agency, as defined, or a transaction with a transferee guarantee program operator, have been consummated and 30 days elapse after the receipt of the notice.

Ch. 185 (SB 97) Dutton CEQA: greenhouse gas emissions.

The California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project, as defined, that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect. CEQA requires the Office of Planning and Research (OPR) to prepare and develop proposed guidelines for the implementation of CEQA by public agencies.

The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases that cause global warming in order to reduce emissions of greenhouse gases.

The bill would require the OPR, by July 1, 2009, to prepare, develop, and transmit to the Resources Agency guidelines for the feasible mitigation of greenhouse gas emissions or the effects of greenhouse gas emissions, as required by CEQA, including, but not limited to, effects associated with transportation or energy consumption. The Resources Agency would be required to certify and adopt those guidelines by January 1, 2010. The OPR would be required to periodically update the guidelines to incorporate new information or criteria established by the State Air Resources Board pursuant to the California Global Warming Solutions Act of 2006.

This bill would provide that in an environmental impact report, negative declaration, mitigated negative declaration, or other document required by CEQA for either transportation projects funded under the Highway Safety, Traffic Reduction, Air Quality and Port Security Bond Act of 2006, or projects funded under the Disaster Preparedness and Flood Prevention Bond Act of 2006, the failure to analyze adequately the effects of greenhouse gas emissions otherwise required to be reduced pursuant to regulations adopted under the Global Warming Solutions Act of 2006 does not create a cause of action for a violation of CEQA. The bill would provide that this provision shall apply retroactively for any of the above documents that are not final and shall be repealed on January 1, 2010.

Ch. 186 (AB 199) Committee on Budget State government.

(1) Existing law requires that any state position that is vacant for 6 consecutive monthly pay periods be abolished by the Controller on the following July 1. Amendments to existing law proposed by SB 86 of the 2007-08 Regular Session, if enacted, would, from July 1, 2007, to June 30, 2010, inclusive, instead require any state position that is vacant for 12 consecutive monthly pay periods to be abolished by the Controller on the following July 1.

This bill would delete the amendments to this provision proposed by SB 86, if those amendments are enacted and become effective on or before January 1, 2008.

(2) Existing law requires that new public buildings be models of energy efficiency and be designed, constructed, and equipped with energy efficiency measures, materials, and devices, and that existing buildings be retrofitted to meet specified standards when renovated or remodeled. In addition, certain executive orders require state agencies to implement certain energy and resource efficiency standards in this regard.

A requirement proposed to be added by SB 86 of the 2007–08 Regular Session, if enacted, would provide that any building the state intends to occupy, for which construction commences on and after January 1, 2009, and any renovation to a building the state intends to occupy that commences on or after that date, to be designed, constructed, and operated, to meet, at a minimum, the applicable standards described in the United States Green Building Council’s Leadership in Energy and Environmental Design silver rating.

This bill would delete this requirement proposed to be added by SB 86, if that provision is enacted and becomes effective on or before January 1, 2008.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 187 (AB 201) Committee on Budget Transportation bonds: implementation.

Existing law, the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B at the November 7, 2006, general election, authorizes the issuance of general obligation bonds for various transportation-related purposes, including reducing emissions and improving air quality in trade corridors. SB 88 of the 2007–08 Regular Session, as proposed to be enacted, describes the types of projects eligible for funding in that regard, among other things, to include projects for the replacement, repower, or retrofit of diesel locomotive engines, except to the extent the project is otherwise required by law or regulation or pursuant to a memorandum of understanding or other agreement between a railroad company and a public agency, as specified.

This bill would amend the provisions to be added by SB 88 to allow projects for the replacement, repower, or retrofit of diesel locomotive engines to be eligible for funding in the case where a railroad company has entered into a memorandum of understanding or other agreement with a public agency, provided that the State Air Resources Board determines that the emission reductions that would be achieved by the locomotive engine are not necessary to satisfy any mandated emission reduction requirements under any such agreement.

This bill would also declare that it is to take effect immediately as an urgency statute.

Ch. 188 (AB 203) Committee on Budget Health.

Existing law prescribes various duties and responsibilities of the Department of Finance with respect to the preparation of the annual state budget.

This bill would require the department and the State Department of Public Health to provide specified budget information concerning designated programs administered by the State Department of Public Health.

Existing law prescribes the procedures for the licensure and regulation of clinics, including primary care clinics, by the State Department of Public Health.

This bill would authorize primary care clinics to submit verification of certification to the Licensing and Certification Division of the State Department of Public Health for specified purposes.

Existing law provides for the licensure and regulation of health facilities by the State Department of Public Health.

Existing law contains ratesetting provisions governing fees for the licensure of health facilities by the State Department of Public Health. Existing law requires that the Licensing and Certification Division of the department be supported entirely by federal funds and special funds no later than the beginning of the 2009–10 fiscal year, unless specified by law or unless funds are appropriated from the General Fund for that purpose.

This bill would specify that for the 2007–08 fiscal year General Fund support shall be provided in an amount of not less than \$2,782,000, and would prescribe additional requirements to be used in calculating licensure fees.

Existing law requires periodic inspection of health facilities by the department as part of licensing and certification of those facilities. Existing law specifies that the department shall

inspect for compliance with state law and regulations during a state or federal periodic inspection.

This bill would, instead, require inspections for compliance with state law and regulations to occur during a state periodic inspection or at the same time as a federal periodic inspection.

Existing law authorizes the department to assess a licensee of a general acute care hospital, an acute psychiatric hospital, or a special hospital an administrative penalty not to exceed \$25,000 if the licensee receives a notice of deficiency constituting an immediate jeopardy to the health or safety of a patient and is required to submit a plan of correction.

Existing law provides, however, that, upon the adoption of specified regulations, the administrative penalty for such a violation shall be up to \$50,000, and that, if the violation does not constitute such an immediate jeopardy violation the penalty may be up to \$17,500, except that no penalty shall be assessed for a minor violation.

Existing law, as a condition of licensure, requires every hospital to maintain written policies about discount payment and charity care for qualified patients.

This bill would, upon the effective date of the regulations referred to above, expressly provide that the penalties for a violation that is not an immediate jeopardy violation, apply to the provisions relating to discount payment and charity care policies.

Existing law provides that inspections and investigations of long-term health care facilities that are certified by the Medicare Program or the Medicaid Program shall determine compliance with state law and federal standards.

This bill would provide that those inspections and investigations shall determine compliance to the extent that California law provides greater protection to residents or is more precise than federal standards.

Existing law requires the department to impose a uniform quality assurance fee on each skilled nursing facility, with certain exceptions, in accordance with a prescribed formula. The formula is based on the determination of the projected net revenues of skilled nursing facilities. The fee will cease to be assessed and collected on and after July 31, 2008.

This bill would extend the assessment and collection of the uniform quality assurance fee until July 31, 2009, and change the percentage to 5.5% effective January 1, 2008. The bill would make other conforming changes. It would also modify the manner in which the maximum aggregate amount of the fee is determined.

Existing law establishes procedures and requirements to govern the allocation to, and expenditure by, local health jurisdictions and treatment facilities, designated pursuant to a federally approved plan, of federal funding received for the prevention of, and response to, bioterrorist attacks and other public health emergencies. Existing law requires a local health jurisdiction receiving funds under these provisions to deposit the money in a special Local Public Health Preparedness Trust Fund. These provisions provide that federal funding received by the State Department of Public Health for bioterrorism preparedness and emergency response is subject to appropriation in the annual Budget Act. These provisions become inoperative on September 1, 2007, and are repealed as of January 1, 2008.

This bill would extend the inoperative and repeal dates to September 1, 2010, and January 1, 2011, respectively. It would also modify reporting provisions with which local public health districts must comply.

Existing law requires the development of a list of drugs to be provided under the AIDS Drug Assistance Program, which is administered by the State Department of Public Health.

This bill would require the list to be developed in consultation with the AIDS Drug Assistance Program Medical Advisory Committee, would exempt changes to the list from the Administrative Procedure Act, and would require the department to make a prescribed notification concerning these changes to the fiscal and policy committees of the Legislature.

Existing law requires each licensed primary care clinic that applies to the department for funds for the delivery of medical services to demonstrate that it is an active Medi-Cal provider by having a Medi-Cal provider number.

This bill would, instead, require the applicant to demonstrate that it is an active Medi-Cal provider by being enrolled in Medi-Cal for a period of 3 months.

Existing law, the Birth Defects Monitoring Program, requires the Director of Health Services to maintain a system for the collection of prescribed information on birth defects and other activities. The program is funded by prenatal screening fees which are deposited in the continuously appropriated Genetic Disease Testing Fund.

This bill would, instead, require that those fees be deposited in the Genetic Disease Testing Fund, except for moneys to fund activities related to the Birth Defect Monitoring Program, which would be deposited in the Birth Defects Monitoring Fund, to be created by the bill, and that would be available for expenditure upon appropriation by the Legislature.

Existing law establishes the California Discount Prescription Drug Program Fund for the deposit of all payments under that program and makes money available to the department when appropriated by the Legislature for the purposes of the program.

This bill would provide that the fund is continuously appropriated to the department without regard to fiscal year for the purpose of providing payment to participating pharmacies and administrative costs of the program, thereby making an appropriation.

Existing law establishes the Healthy Families-to-Medi-Cal Bridge Benefits Program to provide any person enrolled for coverage under the Healthy Families Program who meets certain criteria with a 2 calendar-month period of health care benefits to provide the person with an opportunity to apply for Medi-Cal. The program is administered by the Managed Risk Medical Insurance Board.

This bill would provide for the repeal of this program on the date that the Director of Health Care Services executes a declaration stating that implementation of the presumptive Medi-Cal eligibility program, which the bill would create, has commenced. It would provide that this presumptive eligibility program would apply to children meeting specified criteria, with the program to be implemented to the extent that federal financial participation is available. Because each county is required to administer the eligibility process, and the bill would require additional duties to be performed in this regard, it would create a state-mandated local program.

Existing law requires the board, if a federal waiver is obtained, to expand eligibility under the Healthy Families Program, to include uninsured parents of children enrolled in the Healthy Families Program or, under certain circumstances, the Medi-Cal program.

Existing law requires, to the extent that federal financial participation is available, that the department implement an option provided for under the federal Social Security Act for a program for accelerated enrollment of children into the Medi-Cal program. The department is, however, prohibited from implementing this option unless the federal waiver for expansion of Healthy Families Program benefits to uninsured parents, as described above, is obtained.

This bill would repeal the requirement that the accelerated enrollment program be implemented only if the Healthy Families Program waiver for the inclusion of uninsured parents is obtained.

Existing law establishes various state developmental centers, including Agnews Developmental Center, for the care of developmentally disabled persons.

This bill would require the Secretary of California Health and Human Services to verify that the State Department of Developmental Services and the State Department of Health Care Services have established protocols for the provision of services to people with developmental disabilities transitioning from the Agnews Developmental Center. The bill would provide that, subject to the receipt of federal financial participation, services rendered to Medi-Cal beneficiaries transitioning from Agnews Developmental Center to the community shall be provided by Medi-Cal managed care plan. The bill would also require the State Department of Developmental Services to continue the operation of the Agnews Outpatient Clinic until the department is no longer responsible for the property.

Existing law, the Lanterman Developmental Disabilities Services Act, requires the State Department of Developmental Services to allocate funds to private nonprofit regional centers for the provision of community services and support for persons with developmental disabilities and their families and sets forth the duties of regional centers in that regard. Existing law requires the department to develop a plan for the proposed closure of any developmental center. Existing law also authorizes the department to engage in activities that will meet the goal of an orderly closure of Agnews Developmental Center.

Existing law requires through June 30, 2007, that contracts between the department and regional centers for persons with developmental disabilities specify certain coordinator-to-consumer ratios.

This bill would extend that requirement to June 30, 2008.

Existing law provides for the assessment of certain individuals for whom benefits are provided by regional centers. Existing law provides that if assessment is needed, prior to July 1, 2007, the assessment shall be performed within 120 days following initial intake, and requires that assessments after that date shall be performed within 60 days following intake.

This bill would extend the 120-day assessment requirement until July 1, 2008.

Existing law limits the rate of payment a regional center may pay a provider for specified services to a rate that is in effect on or after July 1, 2006, except as provided.

This bill would, instead, apply that limit to the 2007–08 fiscal year, and would limit the rate to that in effect on or after July 1, 2007, subject to the specified exception.

Existing law provides that, during the 2006–07 fiscal year, no regional center may approve any service level for a residential service provider if the approval would result in an increase to be paid to the provider that is greater than the rate in effect on July 1, 2006.

This bill would make that limitation applicable during the 2007–08 fiscal year, and would base the limitation on the rate in effect on June 30, 2007.

Existing law prohibits, during the 2006–07 fiscal year, the State Department of Developmental Services from establishing any permanent payment rate for a community-based day program or in-home respite care agency that has a temporary payment rate in effect on July 1, 2006, or making other specified changes or adjustments that would result in a rate increase.

This bill would base that prohibition for the 2007–08 fiscal year on the rate in effect on or after July 1, 2007.

Existing law provides that, for the 2006–07 fiscal year, a regional center may not expend any purchase of service funds for the startup of any new program unless certain criteria are met, except as specified.

This bill would provide that, for the 2007–08 fiscal year only, a regional center shall not expend any purchase of service funds for the startup of any new program unless the expenditure is necessary to protect the consumer's health or safety or because of other extraordinary circumstances and the department has granted prior written authorization.

The bill would also require the State Department of Developmental Services to develop a plan of options to better control regional center costs of operating and providing state-supported services. The bill would require the department to submit the plan to the Joint Legislative Budget Committee and the fiscal and policy committees of the Legislature no later than October 1, 2007.

Existing law provides that no person having private health care coverage, as defined, is entitled to receive the same health care furnished or paid for by a publicly funded health care program.

This bill would redefine private health care coverage for purposes of these provisions.

Existing law entitles publicly funded health care programs that furnish or pay for health care for a person having private health care coverage to be subrogated to the rights the person has against the carrier of that private health care coverage within 3 years of rendering the service.

This bill would require that an entity providing private health care coverage, as a condition of doing business in the state, accept the state's right of recovery, as specified.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Care Services, under which basic health care services are provided to qualified low-income persons.

Under existing Medi-Cal provisions "business address" is defined as the location where an applicant or provider provides services, goods, supplies, or merchandise to a Medi-Cal beneficiary. The business address of a vehicle or vessel owned, operated, and used to provide Medi-Cal services and other items is either the applicant or provider's pay-to-address or the business address location for which a separate provider number is issued.

This bill would delete the business address location for which there is a separate provider number and, instead, use the business address location listed on the provider's application as the location where similar services and items would be provided.

Existing law requires information about Medi-Cal providers, or applicants to be providers, for enrollment purposes, submission of claims, and similar purposes to include the provider's number.

This bill would, except as provided, eliminate the requirement for separate provider numbers for each business address of the provider and would make conforming changes.

This bill would also eliminate various references to the need for a provider number in order to obtain Medi-Cal reimbursement, and instead, refer in this regard to enrollment in the Medi-Cal program.

Existing law permits the Director of Health Services to issue a Medi-Cal provider a unique identification number or numbers notwithstanding the National Provider Identifier (NPI) issued by the federal government.

This bill would, instead, authorize the department to require a Medi-Cal applicant or provider to submit an NPI number, or to issue a unique identification number or numbers for transactions not identified as covered transactions under the rules of the Health Insurance Portability and Accountability Act of 1996.

Under existing law, the department is authorized to contract for the provision of Medi-Cal services through certain managed health care options.

Under existing law, each Medi-Cal beneficiary or eligible applicant is required to be provided with information as to these health care options in receiving Medi-Cal benefits, including certain provider information.

This bill would revise the provider information to be provided, including specifying that it be for the geographic area in which the beneficiary or applicant resides through a specialized provider directory for the beneficiary or applicant to be implemented as a pilot project in 2 counties, as specified.

Existing law provides the California Medical Assistance Commission with the authority to negotiate exclusive contracts with county organized health systems to provide health care services under the Medi-Cal program.

This bill would provide, on and after the effective date of this bill, that the State Department of Health Care Services rather than the commission has exclusive authority to negotiate those contracts. The bill would require the department to disclose those contracts upon request as public records.

Existing law requires the department to enter into demonstration contracts with manufacturers of medical supplies for 4 items of its own selection of medical supplies existing on the pharmacy claims processing system to establish rebates or other cost-saving mechanisms and to report to the Legislature on the outcomes of the contracts no later than January 1, 2007.

This bill would require the department to evaluate the products and execute the contracts pursuant to specified criteria and would require the report to be made no later than January 1, 2009.

Existing law authorizes the department to enter into exclusive or nonexclusive contracts on a bid or negotiated basis with manufacturers, distributors, dispensers, or suppliers of appliances, durable medical equipment, medical supplies, and other product-type health care services and with laboratories for clinical laboratory services, as specified.

Existing law contains provisions governing the reimbursement of hearing aids under the Medi-Cal program.

This bill would require the department, on or before June 30, 2008, to enter into exclusive or nonexclusive contracts, on a bid or negotiated basis, for purchasing hearing aid appliances.

Existing law requires the department to reimburse Medi-Cal pharmacy providers for legend and nonlegend drugs pursuant to specified criteria including the average sales price of a drug calculated by certain factors.

This bill would delete the term “average sales price” and substitute the term “average manufacturer’s price,” as defined and make related changes.

Existing law permits the department to enter into contracts with manufacturers of enteral formulae for Medi-Cal patients whose condition precludes the full use of regular food.

This bill would, instead, permit contracts with the manufacturers of enteral nutrition products and specify the criteria those products shall meet.

The bill would also modify various procedures, including ratesetting provision, governing the provision of medical supplies under the Medi-Cal program.

Existing law authorizes the director, as well as the Attorney General, and other specified officials, to bring an action to recover the reasonable value of benefits provided or that will be provided to a Medi-Cal recipient against a 3rd party, including an insurance carrier, because of any injury for which the 3rd party is liable.

Existing law contains procedures governing these actions, as well as provisions pertaining to the director’s right to claim reimbursement when the claim against a 3rd party is brought by another person, including the recipient. Existing law prohibits the director’s claim for exceeding one-half of the beneficiary’s recovery after deducting fees and costs.

This bill would define the term “lien” as the director’s claim for recovery, from a beneficiary’s tort action or claim, of the reasonable value of benefits provided on behalf of the beneficiary. This bill would limit recovery of the director’s lien from an injured beneficiary’s action or claim to what the beneficiary receives after deducting attorney’s fees and litigation costs of a settlement, judgment, or award.

Under existing law, when benefits are provided or will be provided to a Medi-Cal beneficiary because of an injury for which another person or carrier is liable, the director may recover from that person or carrier the reasonable value of benefits so provided. In connection with that recovery, existing law requires insurers to provide specified information upon request of the department.

This bill would redefine “insurer” for these purposes.

Existing law establishes a formula for provider reimbursement rates for incontinence medical supplies covered by the Medi-Cal program.

This bill would revise that formula and would specify the criteria for evaluating products for the department’s list of incontinence medical supplies. It would also permit the department to enter into contracts, as specified, for the purchase of these supplies.

Under existing law, in order to qualify for Medi-Cal coverage an incontinence medical supply product shall be in general retail distribution. General retail distribution includes when the product is on display and available for purchase at retail outlets.

This bill would, instead, specify that the product is on display and available for purchase at licensed pharmacies or licensed medical supply dealers within California.

Existing law, the Medi-Cal Long-Term Care Reimbursement Act, requires the department to implement a facility specific ratesetting system for facilities providing long-term care services. The director may implement the act by provider bulletins until July 31, 2007, by which time the director shall have adopted regulations.

This bill would change that date to July 31, 2008.

Existing law provides that, beginning with the 2007–08 rate year, the maximum increase in the weighted average Medi-Cal reimbursement rate required for purposes of these provisions shall not exceed 5.5% of the weighted average Medi-Cal reimbursement rate for the proceeding fiscal year, adjusted as prescribed.

This bill would extend that rate through the 2008–09 rate year.

Existing law, administered by the department, provides for the HIV/AIDS Pharmacy Pilot Program, as described, to evaluate the provision of medication therapy management services, as defined, for people with HIV/AIDS. Existing law provides for the repeal of these provisions on January 1, 2008.

This bill would authorize the department to seek federal financial participation under specified conditions and would extend the repeal date of the HIV/AIDS Pharmacy Pilot Program to June 30, 2008.

Existing law specifies the procedures by which the department determines prospective per capita rates of payment of services for Medi-Cal beneficiaries enrolled in a prepaid health plan.

This bill would require that, for rates established on or after August 1, 2007, the department shall pay capitation rates to health plans participating in the Medi-Cal managed care program, and permit the department to utilize a county and health plan specific rate methodology to develop Medi-Cal managed care capitation rates for contracts between the department and case management plans, county health systems, and a geographic managed care pilot project.

It would require the department and the commission to report to the Legislature, through budget subcommittee hearings to be convened in 2008, regarding changes implemented in the 2007–08 fiscal year regarding Medi-Cal Managed Care reimbursement rates negotiated under the Geographic Managed Care model concerning the use of health plan specific encounter and claims data, and the application of actuarial methods.

Existing law defines actuarial methods and related terms for purposes of these Medi-Cal prepaid health plan provisions.

This bill would make these provisions inoperative on August 1, 2007, and repeal them on January 1, 2008.

Existing law requires the department to impose annually, until January 1, 2009, a quality improvement fee on each Medi-Cal managed care plan in the amount of 6% of the plan's total operating revenues, as defined, to be deposited in the General Fund, with the revenue derived from this fee to be used to increase Medi-Cal managed care plan capitation rates.

This bill would extend the provisions pertaining to the fee until October 1, 2009, and would provide that the amount of the fee shall be up to 6% of the plans total operating revenue.

Existing law requires the department to establish a pilot program to provide continuous skilled nursing care as a benefit under the Medi-Cal program when those services are provided pursuant to a federal waiver. This provision is repealed as of January 1, 2008.

This bill would extend the repeal date to January 1, 2010.

Existing law, relating to the operation of a pilot program in Santa Barbara County for the delivery of Medi-Cal services, among other things, authorizes the California Medical Assistance Commission to negotiate exclusive contracts and rates with the Santa Barbara Regional Health Authority and requires the contracts to be approved by the Department of Finance.

This bill would instead authorize the State Department of Health Care Services to negotiate those contracts and would delete the requirement of approval by the Department of Finance.

Existing law provides that the board of supervisors of a county that contracted with the department pursuant to a specified provision of law during the 1990–91 fiscal year and any county with a population under 300,000, as determined in accordance with the 1990 decennial census, may, by adopting a resolution to the effect, elect to participate in the County

Medical Services Program for state administration of health care services to eligible persons in the county. Existing law revises, for the 2006–07 fiscal year, state and county financial responsibilities for certain increases in the County Medical Services Program.

This bill would further extend that provision to include the 2007–08 fiscal year.

This bill would reallocate certain amounts appropriated in the Budget Act of 2007 from the Cigarette and Tobacco Products Surtax Fund, with these revenues to be allocated to certain county health services programs.

This bill would require the State Department of Mental Health, in collaboration with the State Department of Health Care Services to provide specified material to the fiscal and policy committees of the Legislature regarding a prescribed State Department of Mental Health workplan and materials concerning certain mental health programs in San Mateo County.

This bill would require the State Department of Health Care Services to issue an All County Welfare Directors Letter and a Medi-Cal Provider Bulletin regarding the Conlan v. Shewry Beneficiary Reimbursement process, as specified.

This bill would authorize the Managed Risk Medical Insurance Board and the State Department of Health Care Services to adopt emergency regulations to implement applicable provisions of the bill.

Existing law provides for the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Program, which provides certain mental health and other medical services to Medi-Cal beneficiaries and other qualified persons.

This bill would require the State Department of Mental Health to develop a plan for the EPSDT Program, as provided, and would require the department to, in developing the plan, provide program efficiencies while protecting clients, to consult with counties, and to consider the role of counties in providing services under the program. The bill would require the department to submit the plan to the Joint Legislative Budget Committee and the fiscal and policy committees of the Legislature no later than March 1, 2008.

The bill would also require the department to work with the Legislature to develop an appropriate administrative structure for the EPSDT Program for implementation in the 2008–09 fiscal year.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 189 (SB 644) Correa Court records: social security numbers.

Existing law requires an abstract of judgment or decree requiring the payment of money to contain, among other things, the social security number and driver's license number of the judgment debtor if they are known to the judgment creditor, as specified.

Property tax law authorizes a county tax collector to file specified liens on unsecured property for delinquent taxes, which filing for record without fee may contain the assessee's social security number, if known.

This bill would delete the requirement that the above-described abstracts and filings contain the social security number of the judgment debtor or assessee, and instead require only the last 4 digits of that person's social security number.

Ch. 190 (SB 556) Wiggins The light brown apple moth.

Existing law provides for the control and abatement of plant pests.

This bill, the Light Brown Apple Moth Act of 2007, would make various findings and declarations relating to the agricultural pest. This bill would create the Light Brown Apple

Moth Program in the Department of Food and Agriculture and the Light Brown Apple Moth Account in the Department of Food and Agriculture Fund, from which the department may allocate funds to local agencies for activities to eradicate the Light Brown Apple Moth. This bill would require the department to annually review the progress made by each local agency to which funds have been allocated and make recommendations, as needed, to improve individual local agency eradication efforts. This bill would also require the department to report to the Legislature on January 10, 2008, and on each January 10th thereafter while these provisions are operative, regarding its expenditures, progress, and ongoing priorities in combating the light brown apple moth in California. This bill would provide that these provisions would become inoperative on October 1, 2009, and as of January 1, 2010, would be repealed unless a later enacted statute extends that date.

This bill would declare that it is to take effect immediately as an urgency measure.

Ch. 191 (SB 112) Scott Teachers.

(1) Existing law establishes the voluntary California Beginning Teacher Support and Assessment System, also known as the Marian Bergeson Beginning Teacher Support and Assessment System, that includes providing an effective transition into the teaching career for first- and 2nd-year teachers, and ensuring that an individual induction plan is in place for each participating teacher. For purposes of this system, the term “beginning teacher” is defined as a teacher with a valid California credential or an intern participating in the program established who is serving in the first year or 2nd year of service.

This bill would exclude from the definition of “beginning teacher” a teacher with a life credential, a clear credential, or a professional clear teaching credential who returns to serve in a certificated teaching position.

(2) Existing law prohibits the governing board of a school district from initially hiring, on a permanent, temporary, or substitute basis, a certificated person unless that person has demonstrated basic skills proficiency or is exempted from the requirement. Among others exempted from that prohibition are (a) a certificated person who has been employed in a position requiring certification in any school district within 39 months prior to employment with the district, (b) a retired certificated employee who has taught 15 years or more in a California public school and meets specified requirements, (c) a certificated person who has not been employed in a position requiring certification in any school district within 39 months prior to employment but has passed a basic skills proficiency examination developed and administered by the school district offering that person employment, if he or she will take the state basic skills proficiency test within one year of the date of his or her employment, and (d) a certificated person who is employed for purposes of the class size reduction program if he or she has been employed in a position requiring certification in any school district within 39 months prior to employment with the district or if he or she has not been employed in a position requiring certification in any school district within 39 months prior to employment for purposes of the class size reduction program if he or she will take the state basic skills proficiency test within one calendar year of the date of his or her employment.

This bill would delete the specific exemptions described above and instead exempt a person who (1) has passed the state basic skills proficiency examination at least once, (2) achieved a passing score on the Graduate Record Examinations (GRE) General Test, the Scholastic Aptitude Test (SAT) Reasoning Test, or the ACT Plus Writing test, or (3) possessed a credential before the enactment of the statute that made the test a requirement.

Ch. 192 (SB 659) Calderon Repossessors.

Existing law, the Collateral Recovery Act, provides for the licensure and regulation of repossession agencies by the Bureau of Security and Investigative Services under the supervision and control of the Director of Consumer Affairs. The act provides that a repossession agency does not include the legal owner of specified collateral. With regard to collateral that is required to be registered with the Department of Motor Vehicles, the act

requires the legal owner to be listed on the records with the Department of Motor Vehicles. The act requires a notice to be mailed to the Chief of the Bureau of Security and Investigative Services within 7 days of a licensee or its employees being involved in a violent act in the scope of his or her employment, as specified. The act authorizes the Director of Consumer Affairs to assess administrative fines if a licensee fails to submit that notice.

This bill would provide that the legal owner of collateral that is required to be registered with the Department of Motor Vehicles shall include the seller or lessor named on a valid conditional sales contract or rental or lease agreement if the seller or lessor is a licensed vehicle dealer. The bill would require a licensee who was involved or whose employee was involved in a violent act or a threatened violent act while in the scope of his or her employment to mail a copy of the notice indicating that fact to the person who made the assignment to the licensee, as specified. The bill would authorize the director to assess specified administrative fines if a licensee fails to mail the copy of that notice. The bill would prohibit a holder of a lease contract, or a bank, credit union, finance lender, or vehicle dealer from assigning a reposessor to repossess a vehicle connected with an incident of violence notice without simultaneously advising the reposessor of the information contained in the notice. Because a willful violation of this prohibition by a credit union or a finance lender would be a crime, this bill would impose a state-mandated local program.

Existing law provides that a peace officer or, in certain other cases, a magistrate, may cause the removal and seizure of a vehicle, as specified. Existing law provides that a vehicle so seized may be impounded for 30 days. Under existing law, a vehicle removed and seized may be released to the legal owner or the legal owner's agent prior to the end of 30 days' impoundment if certain conditions are met, including, but not limited to, the requirement that the legal owner or the legal owner's agent present a copy of the assignment, as defined, and either a certificate of repossession for the vehicle, a security agreement for the vehicle, or title showing proof of legal ownership for the vehicle. Existing law prohibits an impounding agency from requiring any of these documents to be notarized. Existing law authorizes an impounding agency to require the agent of a legal owner to produce a copy of his or her repossession agency license. Existing law provides that an impounding agency that complies with certain requirements is not liable to a registered owner of a vehicle for the improper release of the vehicle, as specified.

This bill would additionally make these provisions applicable to a law enforcement agency or a person acting on behalf of the law enforcement agency or impounding agency.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 193 (SB 762) Cox Alcoholic beverages: licenses.

The Alcoholic Beverage Control Act, administered by the Department of Alcoholic Beverage Control, regulates the sale and distribution of alcoholic beverages and the granting of licenses for the manufacture, distribution, and sale of alcoholic beverages within the state. The act also provides for a limitation on the amount of on-sale general licenses that may be issued by the department based on the population of the county in which the licensed premises are located, as provided.

This bill would provide an exception to this limitation for a county of the 56th class, as specified. The bill makes legislative findings and declarations regarding the necessity of a special statute.

Ch. 194 (AB 839) Emmerson Real estate: military licensee.

Existing law, the Real Estate Law, provides for the licensure and regulation of real estate brokers and salespersons by the Real Estate Commissioner. Under existing law, a military

licensee in the military service of the United States is not required to renew his or her real estate license until the beginning of the license period that first commences after his or her returning to the real estate business or one year following termination of military service, whichever is the earlier. Existing law specifies that “persons in the military service of the United States” includes certain military persons and no others.

This bill would add the National Guard to that list of specified persons.

Ch. 195 (AB 1042) Spitzer Property taxation: applications for changed assessment: electronic filing.

Existing law authorizes a property tax assessee to request a changed assessment from a county board of equalization if the assessee files a written application for a changed assessment.

This bill would authorize the clerk of a county board of equalization to accept electronically filed applications for a changed assessment containing an authenticated electronic signature, as provided, if that application meets certain criteria.

Ch. 196 (SB 192) Ducheny Mexican prepaid health plans.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. Under the act, a prepaid health plan operating lawfully in Mexico is required to apply for licensure with the department if it elects to operate in this state and to meet specified standards for licensure. The act, until January 1, 2008, requires as a licensure condition that a Mexican plan offer and sell only employer-sponsored group plan contracts, as specified, solely for Mexican nationals legally employed in San Diego and Imperial Counties and their dependents for services provided wholly in Mexico and on and after that date, expands the condition’s scope, allowing a plan to offer and sell those contracts for Mexican citizens legally employed in this state and their dependents for services provided wholly in Mexico. The act also requires, until January 1, 2008, as a licensure condition that a Mexican plan employ or designate a medical director licensed by this state to practice medicine as well as a medical director practicing under Mexican laws.

This bill would continue indefinitely these licensure conditions, restricting a Mexican prepaid health plan’s coverage to Mexican nationals legally employed in San Diego and Imperial Counties and their dependents and requiring employment or designation of medical directors for the plan.

Ch. 197 (SB 296) Dutton Office of Emergency Services: disaster preparedness.

The California Emergency Services Act authorizes the Office of Emergency Services to include private businesses and nonprofit organizations within its responsibilities to prepare the state for disasters. The act creates the Disaster Resistant Communities Account in the General Fund and authorizes the Director of the Office of Emergency Services, upon appropriation by the Legislature, to expend the money in the account for this purpose. The act requires that any new activity undertaken by the office under these provisions be contingent upon the receipt of donations to the account.

This bill would rename the account the Disaster Resistant Communities Fund in the State Treasury and would delete the requirement that any new activity be contingent upon the receipt of donations to the account. It would instead require that these provisions be implemented only to the extent that in-kind contributions or donations are received from the private sector, or grant funds are received from the federal government, for these purposes.

Ch. 198 (SB 366) Aanestad Clinical laboratories: personnel.

Existing law generally establishes a maximum workload for the examination of gynecologic slides by a cytotechnologist when performing a manual review of slides. However, existing law, until January 1, 2008, provides that specified federal workload requirements shall apply when reviewing those slides using automated or semiautomated

screening devices approved by the Federal Food and Drug Administration and requires the technical supervisor of an individual who performs primary screening to establish the maximum workload for that individual in accordance with specified federal criteria. Existing law also provides, until January 1, 2008, that where cytotechnologists are represented by a labor organization, these maximum workload requirements shall be contained in a collective bargaining agreement or memorandum of understanding.

This bill would continue the operation of these provisions indefinitely.

Ch. 199 (SB 513) Committee on Elections, Reapportionment and Constitutional Amendments Voting and district referenda.

(1) Existing law permits the use of various voting systems, including punchcard voting systems, and defines the word “demonstrator” to mean a model or facsimile of the voting device or the portion of the face of the voting machine that shows the voter how to operate the machine.

This bill would delete the definition of “demonstrator” from these provisions.

(2) Under existing law, the presidential primary election is held on the first Tuesday in February in any year evenly divisible by the number 4.

This bill would make conforming changes to statutes relating to the presidential primary election.

(3) Existing law requires that except in the case of a judicial office filled in accordance with subdivision (d) of Section 16 of Article VI of the Constitution, every candidate for judicial office shall file a written and signed declaration of intention to become a candidate.

This bill would declare that no candidate for judicial office would be required to state his or her residential address on the declaration of intention, so long as the address is provided to an elections official for verification.

(4) Existing law requires that a copy of each declaration of intention filed by a candidate for judicial office shall be immediately forwarded by the elections official to the Secretary of State.

This bill would delete that requirement.

(5) Existing law allows voters of any district that is a local public entity, as defined, to petition for a referendum on legislative acts of the district, as specified. Existing law specifies the form for a proposed referendum measure against an ordinance passed by a county board of supervisors.

This bill would specify the form for a proposed referendum measure against an ordinance passed by a district that is a local public entity, as defined.

Ch. 200 (SB 684) Cox Intercity rail services: feeder buses.

Existing law authorizes the Department of Transportation to contract with Amtrak to provide intercity rail passenger services. Existing law also authorizes the department to provide funding to Amtrak to contract for feeder bus services operated in conjunction with the intercity trains, but subject to the restriction, among others, that the bus services be used only by passengers who are connecting to or from a train.

This bill would remove this restriction with respect to a feeder bus service contracted by Amtrak to serve the route between the City of Sacramento and the City of South Lake Tahoe and intermediate points if no other bus service is provided by a private intercity bus company, and would authorize the department to amend its contract with Amtrak for that purpose. The bill would also require the department to report to the Legislature in that regard by March 1, 2010.

Ch. 201 (AB 1048) Richardson Illegal dumping enforcement officers.

Existing law provides that specified wardens, police officers, sheriffs, and deputy sheriffs shall enforce provisions of law relating to solid waste disposal.

This bill would correct an erroneous cross-reference and provide that illegal dumping enforcement officers, as defined, shall be among those persons who enforce provisions of law relating to solid waste disposal.

Existing law provides that certain persons, including illegal dumping enforcement officers, are not peace officers but may exercise the powers of arrest of a peace officer during the course and within the scope of their employment, if they receive a course in the exercise of those powers. Existing law also requires the Department of Justice to maintain state summary criminal history information and provides that the Attorney General may furnish that information to peace officers and other specified persons and agencies upon a showing of compelling need.

This bill would provide that the Attorney General may furnish illegal dumping enforcement officers state summary criminal history information upon the showing of a compelling need, as specified.

Existing law requires the Attorney General to supply state summary criminal history information to specified law enforcement and other entities, as prescribed.

This bill would additionally require the Attorney General to provide criminal history information to city attorneys pursuing civil gang injunctions or drug abatement actions, as specified.

Ch. 202 (AB 1286) Richardson Horse racing: county fairs.

Existing law authorizes satellite wagering, as specified. Existing law provides that all revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes.

This bill would authorize the Alameda County Fair to operate 2 additional satellite wagering facilities, with certain approval, as specified. The bill would also authorize the Los Angeles County Fair to conduct satellite wagering at one additional location, under certain conditions.

By expanding wagering on horse racing by authorizing additional satellite wagering facilities, this bill would increase the amount of continuously appropriated license fees, thereby making an appropriation.

Ch. 203 (SB 246) Margett Agriculture.

Existing law provides that the state is divided into agricultural districts in which 50 or more persons, who are residents of a district, may form a district agricultural association for the purpose of holding fairs for exhibiting all of the industries and industrial enterprises, resources, and products of the state and constructing, maintaining, and operating recreational and cultural facilities. Existing law provides that the officers of the association shall consist of a board of directors who shall be citizens and residents of the district.

This bill would provide that District 48 is the County of Los Angeles. This bill would also provide that the directors of the 48th District Agricultural Association may not serve concurrently on another fair board.

Ch. 204 (SB 278) Lowenthal Pupils: excused absences.

Existing law requires a pupil to be excused from school when the pupil is absent due to, among other things, justifiable personal reasons, including an appearance in court, attendance at a funeral service, observance of a holiday or ceremony of his or her religion, attendance at religious retreats, or attendance at an employment conference.

This bill would add attendance at an education conference on the legislative or judicial process offered by a nonprofit organization to the justifiable personal reasons for which a pupil is required to be excused from school.

Ch. 205 (SB 353) Kuehl Protective orders: companion animals.

Existing law authorizes a court to issue an ex parte order enjoining a party from engaging in specified acts against another party, including threatening or harassing that party, and, in the discretion of the court, against other named family or household members. A violation of this court order constitutes contempt of court, which is punishable as a misdemeanor.

This bill would additionally authorize the court to include in a protective order a grant to the petitioner of the exclusive care, possession, or control of any animal owned, possessed, leased, kept, or held by either the petitioner or the respondent or a minor child residing in the residence or household of either the petitioner or respondent. The bill would authorize the court to order the respondent to stay away from the animal and forbid specified acts with respect to that animal. The bill would require the Judicial Council, by July 1, 2009, to modify the criminal and civil court forms consistent with these provisions. The bill would also include specified findings and declarations.

Because a violation of this court order would be punishable as contempt, a misdemeanor, this bill would create a new crime and would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 206 (SB 407) Romero Domestic violence.

Existing law generally provides that no person has a privilege to refuse to be a witness or to refuse to disclose any matter or produce any writing, object, or other thing. However, a victim of domestic violence has a privilege to refuse to disclose, and to prevent another from disclosing, a confidential communication, as defined, between the victim and a domestic violence counselor, as specified.

The California Constitution requires that a statute that would exclude relevant evidence in any criminal proceeding be enacted by a $\frac{2}{3}$ vote.

This bill would, among other things, expand the scope of the privilege by expanding the definition of a domestic violence counselor. The bill would also make other related, conforming changes, and would make specified findings and declarations.

Because this bill would exclude relevant evidence in criminal proceedings, the bill would require a $\frac{2}{3}$ vote.

Ch. 207 (SB 443) Migden Tissue donors: sperm donors.

Existing law prohibits the transfer of any tissues, as defined, into the body of another person by means of transplantation, unless the donor of the tissues has been screened and found nonreactive for evidence of infection with HIV, agents of viral hepatitis (HBV and HCV), human T lymphotropic virus-1 (HTLV-1), and syphilis.

Existing law provides an exception to this prohibition for therapeutic insemination of sperm or use of sperm in other advanced reproductive technologies if the sperm donor is found reactive for hepatitis B, hepatitis C, or syphilis if the sperm donor is the spouse of, partner of, or designated donor for that recipient.

This bill would expand the exception to that prohibition for therapeutic insemination of sperm or use of sperm in other advanced reproductive technologies if the sperm donor is found reactive for HIV or HTLV-1.

The bill would authorize the use of sperm whose donor has tested reactive for HIV or HTLV-1 for the purposes of insemination or advanced reproductive technology only after the donor's sperm has been effectively processed to minimize the infectiousness of the sperm for that specific donation, and where informed and mutual consent has occurred. The bill would require the State Department of Public Health to adopt regulations by January 1, 2010, regulating facilities that perform sperm processing pursuant to those provisions.

The bill would require a physician providing insemination or advanced reproductive technologies to, among other things, provide, as appropriate, prophylactic treatments,

including, but not limited to, antiretroviral treatments, to the recipient to reduce the risk of acquiring infection during and subsequent to insemination, and to perform appropriate followup testing of the recipient for HIV or HTLV-1 following the insemination or other advanced reproductive technology.

Ch. 208 (SB 542) Romero Sexually violent predators: DNA testing.

Under existing law, any person who was convicted of a felony and is currently serving a term of imprisonment may make a motion for performance of a DNA test.

Under existing law, prior to release from custody of a person who has been convicted of certain crimes of a sexual nature, the person may be referred for a court hearing to determine if the person should be committed to the State Department of Mental Health as a sexually violent predator for treatment in a secure facility.

This bill would require that any right to a DNA test that may exist for a person subject to the sexually violent predator provisions, be in conformity with those provisions applicable to incarcerated persons, and would declare that it does not limit any other legal or equitable right to request DNA testing.

Ch. 209 (SB 558) Cogdill Public utilities: lease, sale, or transfer of public utilities.

Existing law sets forth the procedures by which a municipal corporation, as defined, may lease, sell, or transfer a public utility owned and operated by it. The Cortese-Knox-Herzberg Local Government Reorganization Act prescribes requirements for the orderly transition of a reorganization in governmental facilities and finances.

This bill would make these procedures inapplicable to the lease, sale, or transfer of public utilities by a municipal corporation to another local agency pursuant to the act.

Ch. 210 (SB 620) Correa Dentistry: general anesthesia.

Existing law, the Dental Practice Act, authorizes a physician and surgeon, until January 1, 2008, to administer general anesthesia to a dental patient in the office of a dentist who does not possess a general anesthesia permit if, among other things, the physician and surgeon holds a valid general anesthesia permit issued by the Dental Board of California. In order to obtain that permit, existing law requires the physician and surgeon, among other things, to pay specified fees, which are deposited in the State Dentistry Fund, a continuously appropriated fund, and in the Contingent Fund of the Medical Board of California, and to submit his or her application to the Medical Board of California for review, as specified.

This bill would delete the January 1, 2008, repeal date, thereby extending the operation of these provisions indefinitely. By extending the operation of the provisions dealing with the payment of fees into a continuously appropriated fund, the bill would make an appropriation.

Ch. 211 (SB 629) Correa Automobile insurance: peace officers.

Existing law requires any peace officer or firefighter, as defined, who has been involved in an accident to submit to his or her private automobile insurer a written declaration stating whether or not at the time of the accident he or she was operating an emergency vehicle, as defined, in the performance of his or her duty during the hours of his or her employment.

This bill would repeal that provision.

Ch. 212 (SB 639) Harman Judgments: foreign-country money judgments.

The existing Uniform Foreign Money-Judgments Recognition Act provides that foreign judgments that grant or deny recovery of a sum of money and that are final and conclusive are enforceable in California, with specified exceptions. The act excepts foreign judgments from its provisions in certain instances, including when the judgment was rendered under a system that does not provide impartial tribunals or the court lacked jurisdiction. The act prohibits nonrecognition of a foreign judgment based on a lack of personal jurisdiction if

certain bases of personal jurisdiction are present. The act permits a court to grant a stay in an action to enforce a judgment if an appeal is pending or is available, as specified.

This bill would repeal the Uniform Foreign Money-Judgments Recognition Act and enact in its place the Uniform Foreign-Country Money Judgments Recognition Act. In addition to provisions of the previous act, described above, the new act would allocate the burden of proof for parties seeking or resisting recognition of a foreign-country judgment, as defined. The bill would provide a procedure for recognition of a foreign-country judgment, establish a statute of limitations on an action to recognize a foreign-country judgment, and specify the effective date of the act in relation to the date of the foreign-country judgment.

Ch. 213 (AB 490) Hancock Local government: public utility districts: Alameda-Contra Costa Transit District: San Francisco Bay Area Rapid Transit District: compensation of directors.

(1) The Public Utility District Act authorizes the formation of public utility districts and authorizes a district to acquire, construct, own, operate, and control works for supplying its inhabitants with light, water, power, heat, transportation, telephone service, or other means of communication, or means for the disposition of garbage, sewage, or refuse matter. The act requires that each member of the board of directors of a district receive the compensation that the board by ordinance provides, not to exceed \$4,800 a year. Existing law provides for the compensation of members of a board of directors of a water district, as defined.

This bill would authorize each member of the board of a district to receive the compensation that the board by ordinance provides, not to exceed \$4,800 a year. The bill would provide, as an alternative, that the board may provide, by ordinance or resolution and subject to certain restrictions, that each of its members may receive compensation in an amount not to exceed \$100 for each day of service. The bill would authorize a district that is a water district to increase the amount of compensation that may be received by members of the board pursuant to those provisions providing for the compensation of members of a board of a water district and would include a public utility district that provides water service within the existing definition of a water district. The bill would authorize a public utility district board, by ordinance or resolution, to provide that its board members receive their actual and necessary traveling and incidental expenses incurred while on business. The bill would authorize a board member to waive any or all payments or compensation.

(2) Existing law creates the Alameda-Contra Costa Transit District to provide public transit services in portions of Alameda County and Contra Costa County. Existing law provides for the district to be governed by an elected board of directors, and authorizes the board to establish the compensation of directors at \$100 for each attendance at meetings of the board and for each day the director is engaged in authorized district business, not to exceed \$500 in any calendar month, plus necessary traveling and personal expenses incurred in the performance of district business authorized by the board. Existing law also imposes certain restrictions on the claims of local officials for reimbursement.

This bill would repeal the provisions relating to the compensation of directors and instead provide that the board may, by ordinance or resolution, provide that each director shall be paid not more than \$1,000 per calendar month in lieu of per meeting compensation, subject to various deductions and adjustments for directors not attending all scheduled and noticed board or committee meetings, as specified. The bill would also provide for payment of necessary traveling and personal expenses incurred solely as a result of performance of duties by a director, in amounts as authorized by the board, subject to the restrictions imposed on the claims of local officials for reimbursement. The bill would authorize the board to provide an adjustment to the monthly compensation based upon the California Consumer Price Index.

(3) Existing law creates the San Francisco Bay Area Rapid Transit District (BART) to construct and operate a rail rapid transit system in the San Francisco Bay area, as defined. Existing law authorizes the board of directors of BART to provide, by ordinance or

resolution, that each director shall be paid a sum that shall not exceed \$1,000 for each month served, subject to attendance requirements and reductions for missing board and committee meetings.

This bill would authorize the BART board, by ordinance or resolution, to provide for an adjustment to the monthly compensation based upon the California Consumer Price Index.

Ch. 214 (SB 33) Simitian Vehicles: wireless telephones and mobile service devices.

(1) Under existing law, on and after July 1, 2008, it will be an infraction for any person to drive a motor vehicle while using a wireless telephone, unless that telephone is designed and configured to allow hands-free listening and talking operation, and is used in that manner while driving, except as otherwise provided. A violation point is not given for a violation. A violation is punishable by a base fine of \$20 for a first offense and \$50 for each subsequent offense.

This bill, on and after July 1, 2008, would prohibit a person under the age of 18 years from driving a motor vehicle while using a wireless telephone, even if equipped with a hands-free device, or while using a mobile service device, as defined. The prohibition would not apply to such a person using a wireless telephone or a mobile service device for emergency purposes. By creating a new infraction, the bill would impose a state-mandated local program.

The bill would prohibit a law enforcement officer from stopping a vehicle for the sole purpose of determining whether the driver is violating the above prohibition, but would not prohibit a law enforcement officer from stopping a vehicle for the purpose of determining whether the driver is using a wireless telephone without a hands-free device. The bill would prohibit a violation point from being given for a conviction of violating the above prohibition. A violation would be punishable by a base fine of \$20 for a first offense and \$50 for each subsequent offense.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 215 (SB 20) Torlakson Charter schools.

(1) The Charter Schools Act of 1992, as amended, authorizes a petition for the operation of a state charter school to be submitted directly to the State Board of Education. The state board is authorized to approve a charter for the operation of a state charter school that may operate at multiple sites throughout the state. The act prohibits the state board from approving a petition to establish a state charter school unless it finds that the proposed state charter school will provide instructional services of statewide benefit that cannot be provided by a charter school operating in only one school district, or in only one county.

This bill would require the state board to base the statewide benefit finding on substantial evidence.

(2) The act requires the state board to adopt regulations that ensure a state charter school approved pursuant to the authority described in (1) above meets all requirements otherwise imposed on charter schools pursuant to the act, except for the geographic and site limitations otherwise imposed on charter schools.

This bill, in addition, would require the charter to ensure that the governing board of each school district in which a state charter schoolsite is proposed to be located is notified 120 days prior to the commencement of instruction at each schoolsite, as applicable.

(3) Existing law establishes the Charter School Facility Grant Program to be administered by the State Department of Education for the purposes of providing assistance with facilities rent and lease costs for pupils in state charter schools.

The bill would appropriate \$18,000,000 from the Proposition 98 Reversion Account to the State Department of Education, on a one-time basis, for the Charter School Facility Grant Program. A charter school receiving these funds would be eligible for up to 75% of the total annual facilities rent and lease costs it incurred in the 2006–07 fiscal year. The bill also would declare the intent of the Legislature that not less than \$18,000,000 annually be appropriated for purposes of the grant program on the same basis as other elementary and secondary education categorical programs.

Ch. 216 (SB 142) Committee on Local Government Validations.

This bill would enact the Second Validating Act of 2007, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 217 (SB 143) Committee on Local Government Validations.

This bill would enact the Third Validating Act of 2007, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

Ch. 218 (SB 910) Scott State Highway Route 164: relinquishment.

Existing law provides that the Department of Transportation has full possession and control of all state highways. Existing law describes the authorized routes in the state highway system and establishes a process for adoption of a highway on an authorized route by the California Transportation Commission. Existing law authorizes the commission to relinquish certain state highway segments to local agencies.

This bill would authorize the commission to relinquish the portion of State Highway Route 164 in the City of Temple City to that city under certain conditions.

Ch. 219 (AB 305) Ma Vehicles: sale: used vehicles.

Existing law requires a dealer, with certain exceptions, to offer a contract cancellation option agreement to an individual when selling a used vehicle at retail for personal, family, or household use.

The bill would require that when a buyer, who leased a purchased vehicle immediately preceding the sale of that vehicle to the buyer, exercises the contract cancellation option, the limit on the amount of the restocking fee that can be charged by the dealer would be increased. The increased amount would be the amount the buyer would have been obligated to pay at the time of the termination of the lease for excess mileage, unrepaired damage, and excess wear and tear, as specified in the lease. The dealer would be required to provide notice of this requirement, including a statement regarding the increased restocking fee.

Ch. 220 (AB 556) Huff International Baccalaureate Programs.

Existing law declares that the International Baccalaureate Program is a comprehensive and rigorous 2-year curriculum, leading to examinations for high school pupils. From funds appropriated for this purpose, the Superintendent of Public Instruction is required to allocate annually to each school district on behalf of each public school or middle school in the district that offers an International Baccalaureate Program, up to \$25,000 to cover the ongoing costs of professional development required by the program and to help pay the required program examination fees for low- and middle-income pupils in need of financial assistance. Existing law also provides for the award of startup grants of \$15,000. If funds are insufficient to fully fund all grants authorized, funding priority is given to schools that were funded in the prior year and in the amount of the prior year grant.

This bill would repeal the provisions regarding startup grants and an obsolete limitation on the amount of grants for middle school programs. If funds are insufficient to fully fund

all grants authorized, 2nd funding priority would be required to be given to high schools and middle schools that have the highest percentage of pupils from low-income families.

Ch. 221 (AB 776) Aghazarian Alcoholic beverages: advertising.

Existing law generally restricts certain alcoholic beverage licensees, including manufacturers and winegrowers, from paying, crediting, or compensating a retailer for advertising in connection with the advertising and sale of alcoholic beverages.

This bill would expressly authorize a beer manufacturer to sponsor or purchase advertising space and time from, or on behalf of, an off-sale retail licensee that is an owner or coowner of a professional sports team that is a tenant of, and plays its home games in, a specified arena, under specified conditions. This bill would also make a beer manufacturer who, through coercion or other means, induces the holder of a wholesaler's license to fulfill certain contractual obligations guilty of a misdemeanor. This bill would additionally provide that an off-sale retail licensee, as described, who solicits or coerces a holder of a wholesaler's license to solicit a beer manufacturer to sponsor or purchase advertising time or space is guilty of a misdemeanor. The bill thus imposes a state-mandated local program by creating new crimes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill makes findings and declarations regarding the need for special legislation and declares that this bill is to take effect immediately as an urgency statute.

Ch. 222 (SB 38) Battin Disaster relief.

(1) Existing law authorizes a county board of supervisors to provide by ordinance for the reassessment of property that is damaged or destroyed, without fault on the part of the assessee, by a major misfortune or calamity, upon the application of the assessee or upon the action of the county assessor with the board's approval. With respect to certain counties that have adopted reassessment ordinances and have been declared by the Governor to be in a state of emergency as a result of certain events, existing law provides for state allocations of the estimated amounts of the reductions in property tax revenues resulting in certain fiscal years from reassessments under those ordinances. Existing law also continuously appropriates, without regard to fiscal years, moneys in the Special Fund for Economic Uncertainties for purposes of funding these state allocations.

This bill would provide for similar state allocations with respect to property tax revenue reductions resulting from a reassessment for damages incurred within the County of Riverside, which was declared by the Governor to be in a state of emergency due to wildfires that occurred in October 2006.

By requiring moneys continuously appropriated from the Special Fund for Economic Uncertainties to be allocated for the new purpose of reimbursing these counties for these property tax revenue reductions, this bill would make an appropriation.

(2) Existing property tax law provides, pursuant to a specified provision of the California Constitution, for a homeowners' property tax exemption in the amount of \$7,000 of the full value of a "dwelling," as defined.

This bill would provide that any dwelling that qualified for the exemption prior to October 26, 2006, that was damaged or destroyed by the wildfires in the County of Riverside, as declared by the Governor in October 2006, and that has not changed ownership since October 26, 2006, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to wildfires.

The California Constitution requires the Legislature, in each fiscal year, to reimburse local governments for the revenue losses incurred by those governments in that fiscal year as a result of the homeowners' property tax exemption.

This bill would state the intent of the Legislature to make this required reimbursement in the annual Budget Act. By requiring local tax officials to implement new exemption criteria, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) The Personal Income Tax Law and the Corporation Tax Law provide for the carryover to specified taxable years of specified losses sustained as a result of certain disasters occurring in California in an area determined by the President of the United States to warrant specified federal assistance, or proclaimed by the Governor to be in a state of emergency.

This bill would extend these provisions to losses sustained in the County of Riverside as a result of the wildfires that occurred in October 2006. This bill would authorize a taxpayer to make an election to claim a deduction for those losses on the tax return for the preceding year.

(4) (A) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by SB 114 and AB 62, to be operative only if SB 114, AB 62, and this bill are all enacted, all 3 bills amend the respective sections, and this bill is enacted after SB 114 and AB 62.

(B) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by SB 114, to be operative only if SB 114 and this bill are both enacted, each bill amends the respective sections, AB 62 is not enacted, or if enacted, does not amend those sections, and this bill is enacted after SB 114.

(C) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by AB 62, to be operative only if AB 62 and this bill are both enacted, each bill amends the respective sections, SB 114 is not enacted, or if enacted, does not amend those sections, and this bill is enacted after AB 62.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 223 (SB 114) Florez Disaster relief.

(1) Existing law authorizes a county board of supervisors to provide by ordinance for the reassessment of property that is damaged or destroyed, without fault on the part of the assessee, by a major misfortune or calamity, upon the application of the assessee or upon the action of the county assessor with the board's approval. With respect to certain counties that have adopted reassessment ordinances and have been declared by the Governor to be in a state of emergency as a result of certain events, existing law provides for state allocations of the estimated amounts of the reductions in property tax revenues resulting in certain fiscal years from reassessments under those ordinances. Existing law also continuously appropriates, without regard to fiscal years, moneys in the Special Fund for Economic Uncertainties for purposes of funding these state allocations.

This bill would provide for similar state allocations with respect to property tax revenue reductions resulting from a reassessment for damages incurred within the Counties of El Dorado, Fresno, Imperial, Kern, Kings, Madera, Merced, Monterey, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Santa Clara, Stanislaus, Tulare, Ventura, and Yuba that were declared by the Governor to be in a state of emergency due to severe freezing conditions that commenced January 11, 2007.

By requiring moneys continuously appropriated from the Special Fund for Economic Uncertainties to be allocated for the new purpose of reimbursing these counties for these property tax revenue reductions, this bill would make an appropriation.

(2) Existing property tax law provides, pursuant to a specified provision of the California Constitution, for a homeowners' property tax exemption in the amount of \$7,000 of the full value of a "dwelling," as defined.

This bill would provide that any dwelling that qualified for the exemption prior to January 11, 2007, that was damaged or destroyed by the severe freezing conditions, commencing January 11, 2007, that occurred in the Counties of El Dorado, Fresno, Imperial, Kern, Kings, Madera, Merced, Monterey, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Santa Clara, Stanislaus, Tulare, Ventura, and Yuba, as declared by the Governor, and that has not changed ownership since January 11, 2007, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to severe freezing conditions.

The California Constitution requires the Legislature, in each fiscal year, to reimburse local governments for the revenue losses incurred by those governments in that fiscal year as a result of the homeowners' property tax exemption.

This bill would state the intent of the Legislature to make this required reimbursement in the annual Budget Act. By requiring local tax officials to implement new exemption criteria, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) The Personal Income Tax Law and the Corporation Tax Law provide for the carryover to specified taxable years of specified losses sustained as a result of certain disasters occurring in California in an area determined by the President of the United States to warrant specified federal assistance, or proclaimed by the Governor to be in a state of emergency.

This bill would extend these provisions to losses sustained in the Counties of El Dorado, Fresno, Imperial, Kern, Kings, Madera, Merced, Monterey, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Santa Clara, Stanislaus, Tulare, Ventura, and Yuba as a result of the severe freezing conditions that occurred in January 2007. This bill would authorize a taxpayer to make an election to claim a deduction for those losses on the tax return for the preceding year.

(4) (A) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by SB 38 and AB 62, to be operative only if SB 38, AB 62, and this bill are all enacted, all 3 bills amend the respective sections, and this bill is enacted after SB 38 and AB 62.

(B) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by SB 38, to be operative only if SB 38 and this bill are both enacted, each bill amends the respective sections, AB 62 is not enacted or if enacted, does not amend those sections, and this bill is enacted after SB 38.

(C) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by AB 62, to be operative only if AB 62 and this bill are both enacted, each bill amends the respective sections, SB 38 is not enacted, or if enacted, does not amend those sections, and this bill is enacted after AB 62.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 224 (AB 62) Nava Disaster relief.

(1) Existing law authorizes a county board of supervisors to provide by ordinance for the reassessment of property that is damaged or destroyed, without fault on the part of the assessee, by a major misfortune or calamity, upon the application of the assessee or upon the action of the county assessor with the board's approval. With respect to certain counties that have adopted reassessment ordinances and have been declared by the Governor to be in a state of emergency as a result of certain events, existing law provides for state allocations of the estimated amounts of the reductions in property tax revenues resulting in certain fiscal years from reassessments under those ordinances. Existing law also continuously appropriates, without regard to fiscal years, moneys in the Special Fund for Economic Uncertainties for purposes of funding these state allocations.

This bill would provide for similar state allocations with respect to property tax revenue reductions resulting from a reassessment for damages incurred within the County of Ventura, which was declared by the Governor to be in a state of emergency due to the wildfires that occurred during the 2006 calendar year, the County of El Dorado, which was declared by the Governor to be in a state of emergency due to the wildfires that occurred in June 2007, and the Counties of Santa Barbara and Ventura, which were declared by the Governor to be in a state of emergency due the Zaca Fire that occurred during the 2007 calendar year.

By requiring moneys continuously appropriated from the Special Fund for Economic Uncertainties to be allocated for the new purpose of reimbursing these counties for these property tax revenue reductions, this bill would make an appropriation.

(2) Existing property tax law provides, pursuant to a specified provision of the California Constitution, for a homeowners' property tax exemption in the amount of \$7,000 of the full value of a "dwelling," as defined.

This bill would provide that any dwelling that qualified for the exemption prior to the commencement dates, as listed in the Governor's proclamations during the 2006 calendar year, that was damaged or destroyed by the wildfires in the County of Ventura, and that has not changed ownership since the commencement dates, as listed in the Governor's proclamations of 2006, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to wildfires.

This bill would also provide that any dwelling that qualified for the exemption prior to June 24, 2007, that was damaged or destroyed by the wildfires in the County of El Dorado, as declared by the Governor in June 2007, and that has not changed ownership since June 24, 2007, may not be denied an exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to wildfires.

This bill would additionally provide that any dwelling that qualified for the exemption prior to July 4, 2007, that was damaged or destroyed by the Zaca Fire that occurred in the Counties of Santa Barbara and Ventura, as declared by the Governor in August 2007, and that has not changed ownership since July 4, 2007, may not be denied an exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to the Zaca Fire.

The California Constitution requires the Legislature, in each fiscal year, to reimburse local governments for the revenue losses incurred by those governments in that fiscal year as a result of the homeowners' property tax exemption.

This bill would state the intent of the Legislature to make this required reimbursement in the annual Budget Act. By requiring local tax officials to implement new exemption criteria, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) The Personal Income Tax Law and the Corporation Tax Law provide for the carryover to specified taxable years of specified losses sustained as a result of certain disasters occurring in California in an area determined by the President of the United States to warrant specified federal assistance, or proclaimed by the Governor to be in a state of emergency.

This bill would extend these provisions to losses sustained in the County of Ventura as a result of the wildfires that occurred during the 2006 calendar year, the County of El Dorado as a result of the wildfires that occurred in June 2007, and the Counties of Santa Barbara and Ventura as a result of the Zaca Fire that occurred during the 2007 calendar year. This bill would authorize a taxpayer to make an election to claim a deduction for those losses on the tax return for the preceding year.

(4) (A) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by SB 38 and SB 114, to be operative only if SB 38, SB 114, and this bill are all enacted, all 3 bills amend the respective sections, and this bill is enacted after SB 38 and SB 114.

(B) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by SB 38, to be operative only if SB 38 and this bill are both enacted, each bill amends the respective sections, SB 114 is not enacted, or if enacted, does not amend those sections, and this bill is enacted after SB 38.

(C) This bill would incorporate additional changes to Sections 218, 17207, and 24347.5 of the Revenue and Taxation Code, proposed by SB 114, to be operative only if SB 114 and this bill are both enacted, each bill amends the respective sections, SB 38 is not enacted, or if enacted, does not amend those sections, and this bill is enacted after SB 114.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 225 (AB 297) Maze Property tax exemption: newly planted trees.

The California Constitution exempts from property taxation fruit and nut trees until 4 years after the season in which they were planted in orchard form and grapevines until 3 years after the season in which they were planted in vineyard form. Existing statutory law implementing these exemptions specifies that any fruit- or nut-bearing tree severely damaged during the exemption period by the December 1998 freeze so as to require pruning to the trunk or bud union to establish a new shoot as a replacement for the damaged tree or grapevine, is to be considered a new planting in orchard form.

This bill would modify this statutory provision to also apply to any fruit- or nut-bearing tree that was similarly damaged during the January 2007 freeze.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

This bill would take effect immediately as a tax levy.

Ch. 226 (SB 941) Padilla Tribal gaming: compact ratification.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify an amendment to a tribal-state gaming compact entered into between the State of California and the San Manuel Band of Mission Indians, executed on August 28, 2006. The bill would provide that the terms of that amended compact shall apply only to the State of California and the tribe that has signed it, and shall not bind any tribe that is not a signatory to the amended compact. The bill would require that related revenue contributions be deposited into the General Fund, except as specified, and would provide that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

Ch. 227 (AB 1212) Nunez Tribal gaming: letter of agreement.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would approve a letter of agreement entered into between the State of California and the San Manuel Band of Mission Indians, executed on September 5, 2007.

Ch. 228 (SB 943) Machado Prisons.

Existing law authorized the construction of a medium security prison for women, currently known as the Northern California Women's Facility, and prohibited the housing of male inmates in that prison.

This bill would authorize the use of the Northern California Women's Facility as a reentry facility to house inmates, parole violators, or parolees pending revocation of parole, as specified.

Existing law requires the Department of Corrections and Rehabilitation to give funding preference to counties that assist the state in siting reentry facilities.

This bill would provide that San Joaquin County and the City of Stockton sited and assisted the state in siting reentry facilities when they passed resolutions supporting the conversion of the former Northern California Women's Facility to a reentry facility, as specified.

Ch. 229 (AB 188) Aghazarian Conservation easement registry.

Existing law requires the Secretary of the Resources Agency to establish a central public registry of all conservation easements held or required by the state, or purchased with state grant funds provided by an agency, department, or division of the state on or after January 1, 2006. Existing law specifies the information that is required to be included in the registry, and limits the information that the secretary is required to post on the Internet.

This bill would change that date to January 1, 2000, and would modify the information that is required to be included in the registry. The bill would further limit the information that the secretary is required to post on the Internet to specified information regarding conservation easements held or required by the state, or purchased with state grant funds provided by an agency, department, or division of the state on or after January 1, 2006.

Ch. 230 (AB 244) Nakanishi Contractors: home improvement contracts: service and repair contracts.

Existing law provides for the licensing and regulation of contractors by the Contractors' State License Board. Existing law requires a home improvement contract, as defined, to be in writing and to contain certain information, notices, and disclosures. Under existing law, if a downpayment is charged, the contract must express the details of the downpayment and must include a statement that the downpayment may not exceed the lesser of \$1,000 or 10% of the contract amount. In addition, under existing law, if progress payments are to be made,

the contract must express the details of those payments and must include a specified statement.

This bill would provide that a contractor furnishing a bond, bond equivalent, or joint control approved by the registrar need not include the progress payment details, the progress payment statement, or the downpayment statement as part of the contract.

Under existing law, a violation of certain provisions regulating home improvement contracts and service and repair contracts, as defined, is a crime. Existing law requires that an indictment or information alleging a violation be brought within a specified period of time after the date the buyer signs the contract.

This bill would require that the information or indictment be brought within a specified period of time from the date of the contract or, if the contract is not reduced to writing, from the date the buyer makes the first payment.

Ch. 231 (AB 349) Salas Recorded instruments: translation certificates.

Existing law prohibits the county recorder from accepting for record an instrument executed or certified in whole or in part in any language other than English without the translation certification of the county clerk. Existing law requires the county clerk to verify that the translation in English of the instrument is a true translation, and to certify that fact under seal of the county. The clerk may charge a fee of \$1.50 for these services.

This bill, instead, would provide that a translation in English of an instrument executed or certified in whole or in part in any language other than English may be presented to the county clerk for verification that the translation was performed by a certified or registered court interpreter, as specified, or by an accredited translator registered with the American Translators Association. Upon verification that the translation was performed by a qualified interpreter or translator, and that the translation is accompanied by a notarized declaration by the interpreter or translator that the translation is true and accurate, the bill would require the clerk to certify that verification under seal of the county. The bill would authorize the clerk to charge a fee of \$10 for verification and certification of each document. By imposing new duties on county clerks, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 232 (AB 478) Wolk Vehicles: bicycle safety.

(1) The Vehicle Code regulates the safe operation of bicycles on highways and roadways. Operation of a bicycle upon a highway, during darkness, requires the use of an illuminated lamp and certain specified reflecting devices. It is a crime to violate any provision of the Vehicle Code.

This bill would expand the places where the operator of a bicycle is required to use an illuminated lamp and certain specified reflecting devices to include sidewalks where bicycle operation is not prohibited by the local jurisdiction and bikeways, as defined. The bill would expand the requirement that the operator of the bicycle have reflectors on each pedal to include the option of having reflectors on his or her shoes or ankles.

Because this bill would create a new crime, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 233 (AB 485) Solorio Special education: nonpublic, nonsectarian schools and agencies: certification revocation.

Existing law sets forth a method for providing special education and related services to pupils with exceptional needs. Under certain circumstances, contracts are permitted to be entered for the provision of those services by nonpublic, nonsectarian schools or agencies, as defined. Existing law authorizes a master contract for special education and related services provided by a nonpublic, nonsectarian school or agency only if the school or agency has been certified by the Superintendent of Public Instruction as meeting specified standards. The Superintendent is authorized to revoke or suspend the certification of a nonpublic, nonsectarian school or agency for any of specified reasons.

This bill would prohibit a nonpublic, nonsectarian school or agency whose certification has been revoked, and certain other administrators and entities involved with the school or agency, from being eligible to apply for recertification for 2 years from the revocation date.

Ch. 234 (AB 603) Price Voter registration: confidentiality.

(1) Existing law establishes programs until January 1, 2008, known as “Address Confidentiality for Victims of Domestic Violence, Sexual Assault, and Stalking” and “Address Confidentiality for Reproductive Health Care Service Providers, Employees, Volunteers, and Patients” that authorizes specified persons to complete an application containing specified information in person at a community-based victims’ assistance program to be approved by the Secretary of State for the purpose of enabling state and local agencies to respond to requests for public records without disclosing a program participant’s residence address contained in any public record, including the program participant’s voter registration. Existing law requires the Secretary of State to act as that person’s agent for service of process and to designate a substitute mailing address for program participants pursuant to specified procedures that state and local agencies are required to use at the request of a program participant.

Under existing law, any person who makes a false statement in an application is guilty of a misdemeanor, and any person who is granted confidentiality pursuant to these provisions may file a new affidavit of voter registration or reregistration and be considered an absent voter for subsequent elections until the county elections official is notified otherwise by the Secretary of State or the voter.

This bill would extend the application of these programs until January 1, 2013. By increasing the duties of local public officials and extending the operation of an existing crime, the bill would impose a state-mandated local program.

(2) This bill would incorporate additional changes in Section 2166.5 of the Elections Code, proposed by AB 1243, to be operative only if AB 1243 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 235 (AB 634) Charles Calderon Deferred deposit transactions.

Existing law, the California Deferred Deposit Transaction Law, provides for the licensure and regulation by the Commissioner of Corporations of persons engaged in the business of making or negotiating deferred deposit transactions. Existing law defines “deferred deposit transaction” for the purpose of that law.

This bill would modify that definition.

Ch. 236 (AB 691) Silva Certified common interest development managers.

Existing law, the Davis-Stirling Common Interest Development Act, establishes a scheme for the regulation of common interest developments. Existing law requires a person to meet certain requirements in order to be called a “certified common interest development manager” and imposes other requirements with regard to common interest development managers. Existing law makes professional associations, as defined, responsible for the certification of common interest development managers, as specified. Existing law defines various terms for carrying out these provisions. Under existing law, the provisions regulating certified common interest development managers will become inoperative and be repealed on January 1, 2008.

This bill would extend the operation of these provisions until January 1, 2012. The bill would modify the requirements in order to be called a “certified common interest development manager” and would also revise various definitions. The bill would make numerous, nonsubstantive, and technical changes.

Ch. 237 (AB 804) Huff Escrow agents.

Existing law, the Escrow Law, provides for the licensure and regulation of escrow agents by the Commissioner of Corporations. A willful violation of the Escrow Law is a crime.

(1) Existing law requires a licensed escrow agent, in referring to corporate licensure under the Escrow Law in any communication, as specified, to include a statement that the escrow company holds an escrow license issued by the Department of Corporations.

This bill would modify that statement to refer to the California Department of Corporations.

(2) Existing law establishes the Escrow Agents’ Fidelity Corporation (Fidelity Corporation) to indemnify its member escrow agents against loss, as specified. Existing law prohibits the Fidelity Corporation and its members from advertising, printing, displaying, publishing, distributing, or broadcasting any statement or representation with regard to a guarantee of trust obligations that is false or misleading or calculated to deceive or misinform the public.

Existing law requires that advertising referring to the Fidelity Corporation to include a statement to the effect that the Escrow Agents’ Fidelity Corporation is a private corporation and is not an agency or other instrumentality of the State of California.

This bill would modify that statement.

(3) Existing law makes it unlawful for any person to enter into any arrangement permitting any fee, commission, or compensation which is contingent upon the performance of any act, condition, or instruction set forth in an escrow to be drawn or paid, as specified, prior to the actual closing and completion of the escrow. However, existing law authorizes a disbursement, other than for a fee, commission, or compensation to be advanced or paid out prior to the close of an escrow if that arrangement is specified in the written instructions of all parties to the transaction.

This bill would authorize a licensee to charge a fee for administering an escrow that has been postponed for at least 2 months from the most recent closing date agreed upon by the parties in the written instructions or has been canceled if certain requirements are met.

(4) Existing law makes it unlawful for any person subject to this law or any director, stockholder, trustee, officer, agent, or employee of that person to, among other things, knowingly or recklessly disburse or cause the disbursement of escrow funds otherwise than in accordance with escrow instructions.

This bill would specify that any person subject to this law or any director, stockholder, trustee, officer, agent, or employee of that person who violates any provision of the federal Real Estate Settlement Procedures Act violates this law. Because a willful violation of those provisions would be a crime, the bill would impose a state-mandated local program.

(5) Under existing law, an escrow agent’s license remains in effect until surrendered, revoked, or suspended. Existing law provides that surrender of a license becomes effective

30 days after receipt of an application to surrender that license or within a shorter period of time as determined by the commissioner.

This bill would delete that provision and instead require a licensee who no longer desires to be licensed to provide written notification to the commissioner and to also tender the license, as specified, to the commissioner. The bill would require the licensee, within 105 days of the written notice, to submit to the commissioner a specified closing audit report. The bill would specify that a license is not surrendered until the commissioner has reviewed and accepted the closing audit report, a determination has been made by the commissioner that there is no violation of this law, and tender of the license is accepted in writing by the commissioner.

The bill would make various technical, nonsubstantive changes.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 238 (AB 897) Houston Taxation: tax-exempt organizations: administration.

The Corporation Tax Law, in modified conformity to federal income tax laws, exempts various types of organizations from the taxes imposed by that law, provided that those organizations satisfy certain specified requirements, including a requirement to apply for tax-exempt status with, and be approved by, the Franchise Tax Board and to pay a filing fee, as provided.

This bill would delete that requirement as it applies to certain specified organizations, and instead, would provide that an organization, as defined, shall be exempt from state taxes, as provided, upon its submission, on or after January 1, 2008, to the Franchise Tax Board of a copy of the notification issued by the Internal Revenue Service approving the organization's tax-exempt status pursuant to Section 501(c)(3) of the Internal Revenue Code, as specified.

This bill would make a legislative finding and declaration relating to the public purpose served by specified provisions of the bill.

Ch. 239 (AB 918) Torrico Public utilities: stocks and security transactions.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations, and authorizes the commission to fix the rates and charges for every public utility. The existing Public Utilities Act regulates stock and security transactions by public utilities, and prohibits a public utility from issuing stocks and stock certificates, or other evidence of interest or ownership, or bonds, notes, or other evidences of indebtedness payable at periods of more than 12 months, without first securing authorization to do so from the commission. The act exempts from the stock and security transaction provisions, with certain exceptions, persons delivering commodities for or to public utilities or municipal or other public corporations primarily for resale or use in serving the public or any portion of the public. The act authorizes the commission, by order or rule, to exempt any public utility or class of public utility from the stock and security transaction provisions if the commission finds that application of those provisions is not in the public interest.

This bill would provide that a telephone corporation that is not regulated under a rate-of-return regulatory structure, as defined, is exempt from the stock and security transaction provisions, but authorizes the commission to impose any stock and security transaction requirement if the commission finds, in a proceeding in which the telephone corporation is or may become a party, that application of the requirement is required by the public interest. A telephone corporation that is also an electrical corporation or a gas corporation would not be exempt from the stock and security transaction provisions unless the commission, by order or rule, exempts the telephone corporation upon finding that

application of the stock and security transaction provisions to the telephone corporation is not in the public interest.

Ch. 240 (AB 936) Committee on Business and Professions Contractors.

Existing law, the Contractors' State License Law, provides for the licensure and regulation of contractors and for the registration of home improvement salespersons, as defined. Existing law requires an applicant for that licence or registration to furnish a full set of fingerprints and requires the Contractors' State License Board to use that set of fingerprints to obtain the applicant's criminal history information.

This bill would delete obsolete language from those provisions.

Existing law specifies various events that result in the cancellation of a license and authorizes the renewal of an expired license within 5 years after its expiration if the appropriate form is filed and fee is paid. Existing law requires a licensee whose license is expired, canceled, or inactive to notify the Registrar of Contractors of a change of address of record within a specified period of time and to maintain a current address of record during the 3-year period following that expiration, cancellation, or inactivation.

This bill would instead require a licensee whose license is renewable, as specified, or whose license is canceled to notify the registrar in writing of a change in address of record within a specified period of time and to maintain a current address of record during the 5-year period following the expiration or cancellation of the license.

Ch. 241 (AB 1448) Niello Peace officers: impersonation: uniforms.

Existing law makes it a crime for a person, who is not a peace officer, to impersonate a peace officer, as specified.

This bill would require law enforcement uniform vendors to verify that a person buying a uniform is an employee of the law enforcement agency identified on the uniform. This bill would make it a crime for a vendor selling a law enforcement uniform to fail to verify the person buying the uniform is an employee of the law enforcement agency identified on the uniform, unless the uniform is sold as a prop, as specified.

Because this bill would create a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 242 (AB 1508) Lieu Money transmission: licensees and agents.

Existing law provides for the licensure and regulation by the Commissioner of Financial Institutions of money transmitters, who receive money in this state for transmission to foreign countries, and makes a violation of these provisions a crime.

Existing law authorizes licensees to appoint a person to act as an agent for that licensee if, among other things, that person has obtained the authorization of the commissioner to act as an agent for that licensee.

This bill would delete the provision requiring the commissioner to authorize a person to act as an agent for a licensee. Instead, the bill would require a licensee to conduct a review of the proposed agent's fitness to act as an agent and determine that the proposed agent is of good character and sound financial standing and to maintain records of this review for a specified period.

Existing law authorizes the commissioner to revoke or suspend an agent's authorization, after a hearing, if the commissioner makes certain findings, and to immediately suspend or revoke that authorization if necessary to protect the public.

The bill would authorize the commissioner, after notice and a hearing, to issue an order suspending or barring an agent from continuing to be or becoming an agent of any licensee

for a specified period if the commissioner makes certain findings, and to issue an order immediately suspending or barring that agent from continuing to be or becoming an agent of any licensee if necessary to protect the public. The bill would specify procedures with respect to applications to modify or rescind the order and would require a licensee to suspend or terminate an agent if an order with respect to the agent becomes effective.

Existing law prohibits a licensee from establishing a branch office, as defined, or changing the location of a branch office without obtaining the approval of the commissioner and paying certain fees. Existing law also requires licensees, at the end of each fiscal quarter, to file with the commissioner a report containing, among other things, the addresses of each branch office and agent. Existing law requires a licensee, upon order of the commissioner, to deposit and maintain a specified amount of cash or securities, or a bond, with the Treasurer as a trust fund.

This bill would delete the provision requiring a licensee to obtain the commissioner's approval to establish or change the address of a branch office or requiring the payment of fees with respect to the offices. The bill would require a licensee, at the end of each calendar year quarter, to file with the commissioner a report containing, among other things, the current status and address of each branch office in this state, the names of persons who acted as the licensee's agent, and the volume of transmission money received, including a specified schedule. The bill would require a licensee to own at all times specified eligible securities, as defined, in an amount not less than the aggregate amount of all transmission money received by the licensee.

Existing law requires a licensee to file with the commissioner a certified copy of every receipt form used by it or by its agents for money received for transmission. Under existing law, no licensee or its agents shall use any receipt unless a certified copy has first been filed with and approved by the commissioner.

This bill would require a licensee to file the certified copy of every receipt form within 10 business days of its first use and would require the commissioner to notify the licensee if the receipt does not comply with specified requirements. The bill would require a new licensee, as defined, to file a certified copy of the receipt forms to be used by it or its agents for money received for transmission with the commissioner and would prohibit the new licensee from using the receipt forms until approved by the commissioner.

Existing law authorizes the commissioner to revoke or suspend a license issued to a money transmitter if, after a hearing, the commissioner finds, among other things, the licensee has committed a violation of the licensing act or any rule or regulation adopted by the commissioner.

This bill would provide the commissioner with the authority to revoke or suspend a license, after notice and opportunity for hearing, for a violation of any other state or federal law that reasonably applies to the conduct of the licensee and would further authorize the commissioner, when necessary to protect the public, to issue an order immediately revoking or suspending that licensee's license and would specify procedures for a hearing following the issuance of such an order.

Because the bill would revise requirements pertaining to money transmission licensees and their agents, a violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 243 (AB 1686) Leno Assault and battery: victims.

Under existing law, an assault committed against a person employed in a specified position, including, peace officers, custodial officers, firefighters, emergency medical technicians, lifeguards, process servers, and traffic officers, when the person committing the

battery knew or should have known the victim was engaged in the performance of his or her duties is a misdemeanor, punishable by imprisonment in the county jail not exceeding one year.

This bill would define parking control officers as persons employed by a city, county, or city and county to monitor and enforce state laws and local ordinances relating to parking and would make it a misdemeanor to assault a parking control officer engaged in the performance of his or her duties if the person committing the assault knew or should have known the victim was a parking control officer, punishable by imprisonment in the county jail not exceeding 6 months or by a fine not exceeding \$2,000, or by both the fine and imprisonment.

Because this bill would increase the duties of local prosecutors, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 244 (AB 1744) Committee on Local Government Local government reorganization.

(1) Existing law, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, defines “prime agricultural land” to mean an area of land that has not been developed for a use other than an agricultural use, and that, among other qualifications, supports livestock used for the production of food and fiber, and that has an annual carrying capacity equivalent to at least one animal unit per acre, as defined in the United States Department of Agriculture in the National Handbook on Range and Related Grazing Lands, July 1967.

This bill would instead use the National Range and Pasture Handbook, Revision 1, December 2003, to provide at least one animal unit per acre, as specified. It would also make various technical, nonsubstantive changes to the act.

(2) Existing law, when mailed written notice is required under the act to be provided to landowners or to all registered voters within an affected area, and the number of notices required to be mailed exceeds 1,000, authorizes notice of the hearing to be mailed or delivered at least 10 days prior to the hearing to each local agency expected to provide water, sewage, streets, roads, schools, or other essential facilities or services to the project, whose ability to provide those facilities and services may be significantly affected, in place of other specified notice procedures.

This bill would instead authorize notice to be provided by publishing a display advertisement of at least $\frac{1}{8}$ page in one or more newspapers of general circulation within each affected county, affected city, or affected district, at least 21 days prior to the hearing.

(3) Existing law specifies the procedures for selecting members and filling vacancies for independent special district selection committees.

This bill would, where a vacancy occurs and only one candidate is nominated for a vacant seat, require that candidate to be deemed selected with no further proceedings.

(4) Existing law requires a local agency formation commission to annually adopt, following noticed public hearings, a proposed budget by May 1 and a final budget by June 15, and requires the commission to transmit its proposed and final budgets to the board of supervisors, each city, the clerk and chair of the city selection committee, if any, each independent special district, and to the clerk and chair of the independent special district selection committee, if any.

This bill would instead require the local agency formation commission to transmit its proposed and final budgets to the board of supervisors, each city, and each independent special district.

(5) Existing law requires a local agency formation commission to prepare and update applicable spheres of influence, and requires the commission to conduct a service review of

the municipal services provided in the county or other appropriate area designated by the commission, and requires the commission to prepare a written statement of its determinations with respect to various criteria.

This bill would revise the criteria required in the written statement prepared by the commission.

(6) Existing law requires a legislative body adopting a resolution of application for the annexation of territory, as specified, to conduct a public hearing on the resolution prior to submission of the resolution to the local agency formation commission, and requires notice of the hearing on the resolution to be published, as specified.

This bill would also require mailed notice to be provided to landowners in accordance with certain criteria.

(7) Existing law requires the executive officer of a commission to prepare and execute a certificate of completion and to make specified findings immediately after completion of proceedings ordering a change of organization or reorganization without election or confirming an order for a change of organization or reorganization after confirmation by the voters.

This bill would instead require the executive officer to prepare and execute a certificate of completion and to make specified findings upon the completion of all commission proceedings for a change of organization or reorganization, as specified, and the satisfaction of any conditions contained in the commission resolution making determinations that are required to be completed prior to filing a certificate of completion.

(8) Existing law, until December 31, 2007, prohibits the local agency formation commission in Ventura County from imposing a condition that requires the City of Simi Valley to initiate proceedings on a proposal for a change of organization or reorganization unless the territory that would be affected is contiguous and physically related to the affected territory.

This bill would extend the operation of this prohibition to December 31, 2014, and would make legislative findings regarding the necessity for a special statute.

(9) Existing law specifies the number, selection, and terms of the members of a local agency formation commission, including the alternate public member of a commission.

This bill would extend the current term of office of the alternate public member of the Santa Barbara Local Agency Formation Commission to March 1, 2009, and would make legislative findings regarding the necessity for a special statute.

Ch. 245 (SB 99) Committee on Budget and Fiscal Review Prisons: construction.

Existing law charges the Department of Corrections and Rehabilitation with the responsibility of planning and constructing state correctional facilities and permits funding for the construction of various prisons through lease-purchase financing arrangements.

This bill would authorize funding for the design and construction of a central health facility at San Quentin State Prison, as specified, by means of state issued revenue bonds. It would authorize the State Public Works Board to issue up to \$146,160,000 in revenue bonds, notes, or bond anticipation notes for that purpose and would continuously appropriate the proceeds for that purpose.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 246 (SB 108) Wiggins Alcoholic beverages: winegrower's license.

The Alcoholic Beverage Control Act authorizes a person issued a winegrower's license to conduct winetastings either on or off the winegrower's premises. The act provides that when a winetasting is held off the winegrower's premises at an event sponsored by a private nonprofit organization, as defined, no wine may be sold, and no sales or orders solicited, except as provided.

This bill would expand the definition of a nonprofit organization to include specified tax-exempt organizations.

The Alcoholic Beverage Control Act provides that a violation of its provisions is a misdemeanor, unless otherwise specified. This bill, by changing the definition of an existing crime, imposes a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 247 (SB 415) Harman Spousal support: change of circumstances.

Existing law authorizes a court to award child support and spousal support. Existing law also authorizes the court to terminate or modify an award of child or spousal support at any time as the court determines to be necessary, except as specified. In this regard, existing case law requires that the court grant a request for modification of spousal support only if there is a material change of circumstances, other than those accounted for in the previous order.

Existing law also provides that the duration of child support continues as to an unmarried child who has attained the age of 18 years, is a full-time high school student, and is not self-supporting, until the child completes the 12th grade or attains the age of 19 years, whichever occurs first.

This bill would provide, until January 1, 2011, that in a proceeding in which a spousal support order exists or in which the court has retained jurisdiction over a spousal support order, if a companion child support order is in effect, the termination of child support pursuant to the latter provision described above specifying the duration of child support shall constitute a change of circumstances that may be the basis for a request for modification of spousal support.

Ch. 248 (SB 473) Cox State agencies: fingerprinting vendors.

Existing law requires the Department of Justice to establish and implement a certification program in the Department of Justice for processing fingerprint-based criminal background clearances on individuals who roll fingerprints. Existing law requires the Department of Justice to work with applicant regulatory entities to improve and make more efficient the criminal offender record information request process related to employment, licensing, and certification background investigations.

This bill would prohibit a state agency that requires fingerprinting for any non-law-enforcement purpose from requiring the use of specified live scan fingerprinting service providers certified by the Department of Justice to roll fingerprint impressions. The bill also would authorize state agencies to identify on their Web sites a list of live scan fingerprinting service providers certified by the Department of Justice, and if a state agency chooses to do so, it would be required to provide a link to the Department of Justice's Web site that lists all certified live scan fingerprinting service providers.

Ch. 249 (SB 523) Yee Child support: order to seek employment.

(1) Existing law allows a court, in any proceeding in which there is at issue the support of a child for whom support is authorized under specified provisions of law, to order either or both parents to pay an amount necessary for the support of the child. Existing law allows a court to issue various orders to enforce a delinquent child support obligation, including an order requiring the delinquent parent to submit to any of specified entities, each 2 weeks or at a frequency deemed appropriate by the court, a list of at least 5 different places the parent has applied for employment.

This bill would, until January 1, 2011, establish a pilot project in the County of San Mateo to allow the superior court to order a parent, concurrent with an initial child support order, to submit to the appropriate child support enforcement agency, or any other entity designated by the court, a list of at least 5 different places to which the parent has applied for employment. It would allow the court to issue that order only upon the filing of a declaration

by a child support enforcement officer of the local child support enforcement agency meeting specified conditions. The bill would prohibit the court from issuing a citation for contempt for the failure of the parent to comply with the order unless the parent has become delinquent in his or her child support payments. This bill would require the San Mateo child support enforcement agency to report to the Department of Child Support Services and the Legislature, on or before January 1, 2010, on the cost and performance of the pilot program. By increasing the duties of a local entity the bill would impose a state-mandated local program.

(2) Existing law requires each county to maintain a local child support agency that is responsible for establishing, modifying, and enforcing child support obligations, including medical support, enforcing spousal support orders, and determining paternity, as specified.

This bill would authorize a local child support agency to substitute original signatures with any form of electronic signatures on pleadings filed for the purpose of establishing, modifying, or enforcing paternity, child support, or medical support, except for pleadings or documents required to be signed under penalty of perjury.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 250 (SB 528) Aanestad Common interest developments: open meetings.

Existing law requires that a common interest development be managed by an association. The Common Interest Development Open Meeting Act provides that any member of the governing association of a common interest development may attend meetings of the board of directors of the association, except as specified. The act also requires that notice of the time and place of a meeting be given to members at least 4 days prior to the meeting, except in the case of an emergency meeting, as described.

This bill would require the above notice to contain the agenda for the meeting. It would prohibit the board of directors from discussing or taking action on any item at a nonemergency meeting unless the item was placed on the agenda included in the notice. The bill would provide that these provisions do not prohibit a resident who is not a member of the board from speaking on issues not on the agenda. The bill would also permit the board of directors, an agent of the board, or a member of the board's staff, to briefly respond to statements made or questions posed by a person speaking at a meeting, ask a question for clarification, make a brief announcement, or make a brief report on his or her own activities, as specified. The bill would further permit the board of directors or a member of the board of directors, subject to rules or procedures of the board of directors, to provide a reference or factual information to its managing agent or other agents or staff, request its managing agent or other agents or staff to report back to the board of directors at a subsequent meeting or to place a matter of business on a future agenda, or direct its managing agent or other agents or staff to perform administrative tasks that are necessary to carry out these provisions. This bill would also permit the board of directors to take action on any item of business not appearing on the agenda posted and distributed if (1) a majority of the board of directors present at the meeting determines that an emergency situation exists, (2) the board determines, by a specified vote, that there is a need to take immediate action and that the need for action came to the attention of the board after the agenda was posted and distributed, or (3) the item appeared on an agenda that was posted and distributed for a prior meeting that occurred not more than 30 calendar days before the date that action is taken on the item and, at the prior meeting, action on the item was continued to the meeting at which the action is taken. The bill would require the board, before discussing any item pursuant to these provisions, to openly identify the item to the members in attendance at the meeting. The bill would make technical changes.

Ch. 251 (SB 718) Scott Jails: inmate welfare fund.

Existing law provides that the sheriff of each county may maintain an inmate welfare fund to be kept in the treasury of the county into which profit from a store operated in connection with the county jail, 10% of all gross sales of inmate hobbycraft, and any rebates or commissions received from a telephone company, as specified, is required to be deposited. Existing law authorizes the sheriff to expend money from the fund to assist indigent inmates, prior to release, with clothes and transportation expenses, as specified.

This bill would additionally create a pilot program which would authorize the sheriff of specified counties to expend money from the inmate welfare fund for the purpose of assisting indigent inmates, after release, with the reentry process, as specified. This bill would repeal this additional authorization as of January 1, 2013, unless a later enacted statute deletes or extends that date.

Ch. 252 (SB 959) Romero Involuntary home detention.

Existing law establishes a voluntary home detention program where participants are subject to electronic monitoring, as specified.

This bill would establish an involuntary home detention program, under which participants would be electronically monitored, as specified.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 253 (SB 1046) Committee on Environmental Quality California Environmental Quality Act: fees and notices: recreational uses of reservoirs.

(1) Existing law requires the Department of Fish and Game to impose and collect filing fees, in prescribed amounts, to defray the costs of managing and protecting fish and wildlife trust resources, including, consulting with other public agencies, reviewing environmental documents, recommending mitigation measures, developing monitoring requirements for purposes of the California Environmental Quality Act (CEQA), consulting, and other activities protecting specified trust resources. Existing law requires a local agency to pay a filing fee for a project for which it prepares a negative declaration pursuant to CEQA, or for a project with an environmental impact report (EIR) pursuant to CEQA, to the county clerk at the time of filing a notice of determination. Existing law requires a state agency to pay a filing fee for a project for which it prepares a negative declaration, or for a project with an EIR, to the Office of Planning and Research (office) at the time of filing a notice of determination.

This bill would require a local agency, collecting a filing fee from the project applicant, to remit it to the county clerk at the time of filing a notice of determination. The bill would require a state agency collecting the filing fee to remit the fee to the office at the time of filing a notice of determination.

(2) Existing law prohibits the recreational use of reservoirs where water is stored for domestic use and defines recreational use for this purpose to include recreation in which there is bodily contact with the water by a participant.

Existing law, until January 1, 2008, exempts Canyon Lake Reservoir from this prohibition, and sets forth conditions and restrictions to ensure water purity.

This bill would delete the repeal date for Canyon Lake Reservoir, thereby extending the exemption for this reservoir indefinitely.

(3) CEQA requires a lead agency, as defined, to prepare, or cause to be prepared by contract, and certify the completion of, an EIR on a project, as defined, that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect. Existing law requires a lead agency that has completed an EIR to file a notice of completion with the Office of Planning and Research, identifying the project and indicating the EIR has been prepared.

The bill would require a lead agency to identify a project's location by latitude and longitude in a notice of completion for an EIR.

(4) Because this bill would impose new duties on local agencies with respect to notices of completion required to be filed with the Office of Planning and Research, the bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(6) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 254 (SB 1051) Committee on Natural Resources and Water Conservation.

(1) Existing law requires the California Geological Survey (CGS) in the Department of Conservation to carry out programs that will reduce the loss of life and property by mitigating geologic hazards. Existing law authorizes the State Geologist to conduct, with city and county governments, or federal agencies, large-scale geological investigations for specified purposes.

The bill additionally would require CGS to carry out programs that will protect the environment by mitigating geologic hazards, and would make related changes.

The bill would revise and recast the State Geologist's investigation authorization, to authorize the State Geologist to conduct geological investigations, studies, and other activities for specified purposes, with governmental and nongovernmental entities. The bill also would authorize the State Geologist to enter into agreements that may provide funding for activities of the CGS and for the activities of the Department of Conservation that are directly related to the activities of the CGS.

The bill would make other related changes, concerning the activities of the Department of Conservation.

(2) Existing law generally provides that all the well records of an owner or operator that are filed in a specified manner are public records for purposes of the California Public Records Act, unless the owner or operator requests that the Division of Oil, Gas, and Geothermal Resources in the Department of Conservation maintain the records as confidential information for a specified period of time.

The bill would revise the period of time for which the records are required to be maintained as confidential.

(3) The California Farmland Conservancy Program Act establishes a program for grants to applicants for the acquisition of agricultural conservation easements or fee title. The act requires direct costs paid to an applicant to have been incurred after the application was submitted to the Department of Conservation. In order to receive grant funds, an applicant for a grant for acquisition of fee title is required to agree to reimburse a specified fund within 30 days of sale of the fee title, by a specified amount.

The bill would specify that the submitted application is required to be complete, and would specify that the reimbursement is required to be directly from escrow.

(4) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 255 (AB 384) Portantino Firefighters.

The Public Employees' Medical and Hospital Care Act provides continuing health benefit coverage to the surviving spouse, as defined, or eligible family member of a firefighter or peace officer who dies as a result of an injury or disease sustained in the line of duty. Contributions paid by those persons and the state are deposited into one of 2 continuously appropriated funds to provide that coverage.

This bill would enact the California Fallen Federal Firefighter Survivor Assistance Act of 2007, which would extend that health benefit coverage to the surviving spouse, as defined, or eligible family member of a firefighter employed by the federal government who was a resident of, and whose regular duty assignment was to perform firefighting services in, this state, and who dies as a result of an injury or disease sustained in the line of duty. By

extending that coverage to those survivors, the bill would increase the contributions to continuously appropriated funds, thereby making an appropriation.

Ch. 256 (SB 431) Aanestad Public employees' retirement.

(1) The Public Employees' Retirement Law provides that, after the implementation of the Trial Court Employment Protection and Governance Act, for counties contracting with the Board of Administration of the Public Employees' Retirement System, a trial court and a county in which the trial court is located shall jointly participate in the retirement system by joint contract. Existing law also requires the assets and liabilities of a county and a trial court jointly contracting with the board to be combined for purposes of setting the employer contribution rate for both the county and the trial court.

This bill would require the Board of Administration of the Public Employees' Retirement System, from its existing resources and for the Counties of Butte and Solano, to prepare a separate computation of the assets and liabilities of the trial court and each county, as determined by the actuary. The bill would require each respective county and the trial court for that county to identify for the Board of Administration which active, inactive, and retired members shall be considered employees of the respective county and the trial court, as specified. The bill would require the Board of Administration, on or before October 1, 2008, to forward a computation to each respective county and trial court for that county that is based upon the most recent annual actuarial valuation, as specified. The bill would provide that nothing in these provisions shall be construed to effect the combined calculation of assets and liabilities for purposes of setting the employer contribution rate for both a county and a trial court, as specified.

(2) Under existing law, the Department of Personnel Administration may contract with one or more vision care plans for annuitants and eligible family members. Under existing law, a vision care plan or plans are required to be funded by the annuitants' premium. These premiums are required to be deposited in the Vision Care Program for State Annuitants Fund and are available upon appropriation by the Legislature, as specified.

This bill would amend the Budget Act of 2007 by appropriating \$6,500,000 from the Vision Care Program for State Annuitants Fund to the Department of Personnel Administration for the purpose of funding the Vision Care Program for State Annuitants.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 257 (AB 191) Committee on Budget Juvenile justice.

(1) Existing law authorizes the Governor, upon recommendation of the Secretary of the Department of Corrections and Rehabilitation, to appoint an undersecretary of the department, subject to Senate confirmation.

This bill would authorize the Governor, upon recommendation of the secretary, to appoint 2 undersecretaries of the department, subject to Senate confirmation, as specified.

(2) Existing law authorizes the court committing a ward to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, to recall that commitment in the case of any ward whose commitment offense was not any specified offense, and who remains confined in an institution operated by the division as of September 1, 2007. Existing law requires the court to set and convene a recall disposition hearing for the purpose of ordering an appropriate alternative disposition for the ward.

This bill would condition the authority of the court to recall the commitment of a ward upon the recommendation of the chief probation officer of the county. The bill would require the court to provide notice to the division of the recall disposition hearing, and would require the division to transport and deliver the ward to the custody of the probation department of the committing county, as specified. The bill would require the division to notify the Department of Finance and provide specified information when a county recalls a ward pursuant to these provisions.

(3) Existing law provides that the county of commitment shall supervise the parole of any ward released on parole who was committed to the custody of the division for committing an offense other than those referenced above. Existing law requires the court to set and convene a parole disposition hearing, as specified, and provides that the division has no further jurisdiction over a ward who is released on parole under the supervision of a county pursuant to these provisions.

This bill would require the division to provide a specified written review of the ward's case to the probation department and the court of the committing county, and the ward's counsel, not less than 60 days prior to the scheduled parole consideration hearing, and would authorize the probation department to provide to the division a written plan for the reentry supervision of the ward. The bill would require that any ward who is granted parole pursuant to these provisions be placed on parole jurisdiction for up to 15 court days following his or her release, and would require the committing court to convene a reentry disposition hearing for the ward within 15 court days of the release of the ward from the division.

(4) Existing law provides, commencing September 1, 2007, that any parolee under the jurisdiction of the Division of Juvenile Parole Operations shall be returned to the custody of the county of commitment if the parolee is under the jurisdiction of the division for the commission of an offense other than those referenced above.

This bill would require the Division of Juvenile Parole Operations, if a ward subject to this provision is detained by the division for the purpose of initiating proceedings to suspend, cancel, or revoke the ward's parole, to notify the court and probation department of the committing county within 48 hours of the ward's detention that the ward is subject to parole violation proceedings. The bill would require the committing court, within 15 days of a parole violation notice, to conduct a reentry disposition hearing for the ward, and would authorize the ward to be detained by the division, provided that he or she is delivered to the custody of the probation department within a specified period prior to the reentry disposition hearing. The bill would require the court to consider specified factors at the hearing, at which the ward shall be entitled to representation by counsel, and to enter a disposition order consistent with these considerations and the protection of the public. The court would be required to fully inform the ward of the terms, conditions, responsibilities, and sanctions that are relevant to his or her reentry plan.

(5) Existing law establishes the Youthful Offender Block Grant Program, commencing September 1, 2007, to enhance the capacity of county departments to provide appropriate rehabilitative and supervision services to youthful offenders. Existing law requires the Director of Finance to determine the total amount of the block grant pursuant to a specified formula and the allocation for each county, and to report those findings to the Controller who then makes an allocation to each county from the Youthful Offender Block Grant Fund. Existing law provides for an annual increase in those amounts.

This bill would specify the total amounts to be transferred from the General Fund to the Youthful Offender Block Grant Fund for the 2009–10 fiscal year and, for each fiscal year, would require the Director of Finance to determine the total amount of the Youthful Offender Block Grant and the allocation for each county, and to report those findings to the Controller, who would then make an allocation to each county from the Youthful Offender Block Grant Fund. The bill would specify the minimum block grant allocation for each county for each fiscal year, except that the allocation for any eligible county for wards whose commitment was recalled by the court pursuant to the provisions described in (1) above would be determined by the Department of Finance, as specified.

(6) Existing law requires the Corrections Standards Authority to allocate funding for 2 one-time probation pilot projects to test models for reducing the number of offenders coming to state prison. The authority is required to design and implement the pilot projects as specified.

This bill would relieve the authority of the duty to design and implement those pilot projects.

- (7) This bill would make related conforming and technical changes.
- (8) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 258 (AB 112) Wolk Highways: Safety Enhancement-Double Fine Zones.

Existing law establishes standards for the designation of a highway or road segment as a Safety Enhancement-Double Fine Zone and limits the term of such a zone to 4 years.

This bill would modify the standards for the designation of a segment of a state highway as a Safety Enhancement-Double Fine Zone, including requiring the Director of Transportation, in consultation with the Commissioner of the California Highway Patrol, to certify that a segment of state highway meets specified criteria. The bill would provide that designation as a Safety Enhancement-Double Fine Zone would be valid for a minimum of 2 years and would authorize the renewal and revocation of a designation, as specified. The bill would declare that a specified segment of State Highway Route 12 is eligible for designation as a Safety Enhancement-Double Fine Zone. The bill would also require the Department of Transportation to conduct a Safety Enhancement-Double Fine Zone study, as specified.

Ch. 259 (AB 67) Dymally State and local agencies: bilingual services.

Existing law requires local and state agencies to provide information regarding public services in a non-English language if a substantial number of the public served by the agency are non-English-speaking people. Existing law also requires state agencies to provide reports to the State Personnel Board regarding the provision of information in a non-English language, subject to certain exceptions by the State Personnel Board.

This bill would provide that a person is qualified as a bilingual person, employee, or interpreter for these purposes if the State Personnel Board has tested and certified the person or approved the testing and certification. The bill would provide that local agencies would have discretion to determine who is qualified to provide information in a non-English language. The bill would also authorize additional grounds for the State Personnel Board to exempt state agencies from the reporting requirements.

Ch. 260 (AB 123) Nunez Parklands: Westside Park.

The Roberti-Z'berg-Harris Urban Open-Space and Recreation Program Act (urban open-space act), administered by the Department of Parks and Recreation, authorizes grants to be made by the department to cities, counties, and districts for recreational or open-space purposes. The urban open-space act requires property acquired or developed pursuant to the urban open-space act to be used by the grant recipient only for the purposes for which the grant moneys were requested and prohibits any other use of the area, except as authorized by the Legislature.

The California Wildlife, Coastal, and Park Land Conservation Act (conservation act) authorizes grants to be made by the department to cities, counties, districts, and nonprofit organizations for specified purposes, including purposes related to parks. The conservation act requires property acquired, developed, rehabilitated, or restored pursuant to the conservation act to be used only for purposes of the conservation act and prohibits any other use of the property, except as authorized by the Legislature.

This bill would authorize the City of Huntington Park to transfer to the Los Angeles Unified School District up to 3.8 acres of parkland in Westside Park and the facilities on that land if certain conditions are met. Before the transfer could occur, the Department of Parks and Recreation would have to determine that all those conditions have been met. The bill would require, as one of the conditions, that the transferred property be used only for a school facility.

Ch. 261 (AB 195) Committee on Budget Health care: Expanded Access to Primary Care Program.

Existing law establishes the Physician Services Account within the Cigarette and Tobacco Products Surtax Fund and authorizes the expenditure of revenue in that account to pay for physician services provided to patients who cannot afford to pay for those services and who are without health care coverage from private carriers or from any program funded by the federal government. Existing law also establishes the Expanded Access to Primary Care program that requires the State Department of Health Care Services to select primary care clinics to reimburse for delivering medical services to persons whose income level is at or below 200% of the federal poverty level and for which payment will not be made through private or public third-party reimbursement. Under existing law, the California Major Risk Medical Insurance Program provides major risk medical coverage to persons unable to secure adequate private health coverage, as specified, and revenue from the Major Risk Medical Insurance Fund is expended for those purposes. Existing law requires that specified amounts be deposited into that fund annually, including \$11,000,000 from the Physician Services Account.

This bill would reduce the amount of revenue deposited into the Major Risk Medical Insurance Fund from the Physician Services Account to \$1,000,000 for the 2007–08 fiscal year. The bill would appropriate \$12,000,000 from the Physician Services Account to the State Department of Health Care Services for expenditure in the 2007-08 fiscal year for the Expanded Access to Primary Care program.

The bill would declare that its provisions would take effect immediately as an urgency statute.

Ch. 262 (AB 269) Eng Dentists: dental auxiliaries: licensure renewal.

The Dental Practice Act provides for the licensure and regulation of dentists by the Dental Board of California, and provides for the licensure and regulation of dental auxiliaries by the Committee on Dental Auxiliaries. The act requires each licensee to apply to the board or the committee, as appropriate, for license renewal.

This bill would require a licensee, as specified, to report, upon his or her initial licensure and any application for license renewal, information regarding his or her specialty board certification and practice status and would authorize this information to be posted on the board's or the committee's Internet Web site. The bill would authorize a licensee, including a dental auxiliary licensee, to report cultural background and foreign language proficiency in his or her licensure renewal application, and would require that this information be compiled and reported on the board's or the committee's Internet Web site on or before July 1 of each year. The bill would require the board and the committee to take certain actions to phase in this reporting mechanism by January 1, 2009. The bill would specify that if the committee ceases to exist its responsibilities pursuant to these provisions be transferred to the successor entity or entities responsible for licensing registered dental hygienists and registered dental assistants.

Ch. 263 (AB 310) Silva Maintenance of the codes.

Existing law establishes the California Law Revision Commission. Existing law authorizes the commission to recommend changes in the law as it deems necessary to modify or eliminate antiquated and inequitable rules of law and bring the law into harmony with modern conditions. Existing law requires the commission to file a report at each regular session of the Legislature containing a calendar of topics selected by the commission for study, which is subject to approval by concurrent resolution of the Legislature. Existing law authorizes the commission to recommend revisions to correct technical or minor defects in the statutes without the prior concurrent resolution of the Legislature referring the matter to it for study.

This bill would make technical and minor changes in various provisions of the law to effectuate the recommendations of the commission.

Ch. 264 (AB 315) Berg Integrated health and human services programs.

Existing law permits the Counties of Alameda, Mendocino, Humboldt, and any other county, as determined by the Secretary of California Health and Human Services to, until January 1, 2009, implement, upon approval of that county, and with the assistance and participation of the appropriate state departments, a program for the funding and delivery of services and benefits through an integrated and comprehensive county health and human services system, subject to certain limitations.

This bill would eliminate the repeal date of these provisions, thus extending their duration indefinitely.

Ch. 265 (AB 381) Galgiani Medi-Cal: provider reimbursement.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits.

Existing law, subject to certain exceptions, prohibits a provider under the Medi-Cal program from submitting a reimbursement request to the Medi-Cal program that contains a beneficiary's social security number in order to receive payment if the department has issued that beneficiary a Medi-Cal beneficiary identification card containing a beneficiary number that includes the issuance date.

This bill would delete the limitation on this prohibition to those instances in which the request is submitted in order to receive payment, but would exempt the submission of a request by a provider for beneficiary eligibility from the prohibition.

Existing law provides that the above prohibition does not apply to a licensed hospital, long-term health care facility, a primary care clinic, or emergency medical transportation services.

This bill would, instead, exempt from this prohibition a licensed hospital, long-term health care facility, a primary care clinic, emergency medical transportation services, or a hospital-based physician, only if the providers of these services have made a good faith effort to obtain a recipient's beneficiary identification card number. It would, however, terminate this exemption when the department establishes an automated system whereby a provider can access a beneficiary identification card number for submitting reimbursement requests.

Ch. 266 (AB 417) Blakeslee Regional health authority: Santa Barbara and San Luis Obispo Counties.

Existing law authorizes the Board of Supervisors of the County of Santa Barbara to order the formation of the Santa Barbara Regional Health Authority that shall include all of the areas of the county, provides for the provision of medical services by the authority within a service area, and defines service area to mean Santa Barbara County and those counties contiguous to Santa Barbara County. Existing law permits the authority, which is governed by a board of directors appointed by the Board of Supervisors of Santa Barbara County, to provide a health care system in a county contiguous to the County of Santa Barbara when authorized by resolution of the other county's board of supervisors. Existing law authorizes the Santa Barbara County Board of Supervisors, after it has adopted a resolution, to review major administrative decisions of the authority and to approve, modify, reflect, or repeal those decisions.

This bill would rename the authority as the Santa Barbara San Luis Obispo Regional Health Authority and would permit the authority, upon authorization by the Board of Supervisors of San Luis Obispo County, to provide a health care system in San Luis Obispo County. The bill would, upon the authorization by the Board of Supervisors of San Luis Obispo, revise the membership of the board of directors of the authority to reduce the number of directors appointed by the Board of Supervisors of Santa Barbara County and to add directors appointed by the Board of Supervisors of San Luis Obispo County and would specify the qualifications of all the directors. The bill would authorize the boards of

supervisors to review and to approve, modify, reflect, or repeal major administrative decisions of the authority, as specified. The bill would also make other conforming technical changes with respect to the authority.

This bill would state the findings and declarations of the Legislature concerning the need for special legislation.

Ch. 267 (AB 472) Committee on Agriculture Cattle brands: fees.

Existing law establishes a system for recordation of cattle brands, and establishes various fees in connection with the recordation, and use of a brand, as specified. Existing law requires these fees to be deposited in the Food and Agriculture Fund, a continuously appropriated fund.

This bill would increase various fees in connection with recordation and use of cattle brands.

By increasing the amount of fees deposited in a continuously appropriated fund, this bill would make an appropriation.

Ch. 268 (AB 500) Lieu Civil actions: telephonic appearances.

Existing law regulates the procedure of civil actions and requires that every action be prosecuted by the real party in interest, except as specified. Existing law permits attorneys to make appearances by telephone at trial setting conferences, except as specified. Existing law requires the Judicial Council to adopt standards of judicial administration governing the appearance of counsel by telephone at conferences and hearings. Existing law requires every superior court to provide for appearance of counsel by telephone in certain matters.

This bill would permit a party in a general civil case, as defined, who has provided notice, to appear by telephone at specified conferences, hearings, and proceedings. The bill would permit a court to require a party to appear in person at these hearings, conferences, or proceedings if the court makes a specified determination on a hearing-by-hearing basis. The bill would require the Judicial Council to adopt rules effectuating these provisions by January 1, 2008. The bill would repeal existing provisions that require the Judicial Council to adopt standards and procedures in connection with appearances by telephone and the superior courts to provide for appearances by telephone in certain matters. The bill would also make a statement of legislative intent.

Ch. 269 (AB 622) Mullin High school equivalency certificates: confined persons.

(1) Existing law requires the Superintendent of Public Instruction to issue a California high school equivalency certificate to any person who passes a general educational development test approved by the State Board of Education and administered by an approved testing center, is a California resident or a member of the armed services and assigned to duty in California, and is either 18 years old or would have graduated from high school if he or she had remained in school and followed the usual course of study toward graduation.

This bill, in addition, would add a person who is at least 17 years old, has accumulated a certain number of units of high school credit, and is confined to a state or county hospital or to an institution maintained by a state or county correctional agency, to the list of persons who are eligible to receive a high school equivalency certificate.

(2) Existing law authorizes the Superintendent to provide for the administration of the general educational development test to persons confined in certain hospitals or correctional institutions.

This bill would authorize the Superintendent to grant a waiver to a county office of education to provide a general educational development test preparation program, not to exceed one hour per schoolday, as part of any other instructional program during the regular schoolday to a person who is at least 17 years old, has accumulated insufficient units of high

school credit to graduate from high school by 18 years of age, and is confined to a state or county hospital or to an institution maintained by a state or county correctional agency.

Ch. 270 (AB 720) De Leon Insurance: licenses.

Existing law authorizes a life agent, by or on behalf of a life, disability, or life and disability insurer, to transact life, disability, or life and disability insurance.

This bill would instead authorize a life licensee to act as a life agent on behalf of a life insurer or a disability insurer to transact life insurance, accident and health insurance, or life and accident and health insurance.

Under existing law, a life licensee is a person authorized by and on behalf of a life, disability, or life and disability insurer to transact life, disability, or life and disability insurance, and a life agent license authorizes a licensee to act in that capacity.

This bill would recast and reorganize those provisions based on types of licenses to act as a life agent. The first type of licensee would be authorized to act as a life-only agent, to transact insurance coverage on human lives including benefits of endowment and annuities. The 2nd type of licensee would be authorized to transact accident and health coverage, as specified.

Existing law provides that an organization may hold any license or licenses necessary to act in specified capacities, including as a life agent.

This bill would change the above reference from “life agent” to “life-only agent.” The bill would also add a license to act as an accident and health agent to the types of licenses that an organization may hold.

Existing law exempts certain applicants, who have been licensed to act as agents, from requirements related to license examinations. This includes an exemption for an applicant for a license to act as a life agent who has been licensed as such during any part of the license year in which the application is filed or the immediately preceding year.

This bill would change the above reference from “life agent” to “life-only agent” and would also exempt an applicant for a license to act as an accident and health agent who has been licensed as such during any part of the license year in which the application is filed or the immediately preceding year.

Existing law, at the discretion of the commissioner, exempts an applicant for a personal lines license who has been continually employed by an admitted insurer or licensed fire and casualty broker in a full-time position for at least 3 years prior to January 1, 2001, from having to pass an examination to obtain a personal lines license.

This bill would delete those provisions. The bill would additionally require an applicant for both a life-only and accident and health license types to meet the requirement for a permanent license by passing one examination covering subjects pertaining to both license types and paying a specified fee.

Existing law requires the commissioner, on or before the first day of August to make a report to the Governor, the Legislature, and the committees of the Senate and Assembly having jurisdiction over insurance containing a tabular statement and synopsis showing the general condition of insurance, and related matters, in this state.

This bill would require the commissioner to include in this report information, as specified, relating to the various types of agent licenses. At the end of 5 years, the commissioner would be required to issue a cumulative summary of the agent data required to be included in the yearly reports.

Existing law requires that all new applicants for various agent licenses meet prelicensing education standards, including, for a life agent license, a minimum of 40 hours, including instruction in workers’ compensation and employers’ liability.

This bill would reduce the above number of minimum hours from 40 to 20 and would delete the requirement that the above curriculum include instruction in workers’ compensation and employers’ liability. The bill would also require a minimum of 20 hours of prelicensing study as a prerequisite for qualification for an accident and health agent

license. The curriculum for satisfying this requirement would be approved by the curriculum board and submitted to the commissioner for final approval. The bill would also permit an applicant for a fire and casualty broker-agent license, who is currently licensed as such in another state and who has completed 40 hours of prelicensing education for licensing in that state, to complete only an ethics course, as specified.

Existing law requires a life agent who wishes to sell 24-hour care coverage to complete specified educational requirements on workers' compensation and employer liability.

This bill would recast the above provisions to apply only to accident and health agent licensees.

Existing law requires licensed personal lines broker-agents to complete 10 hours of continuing education courses, programs of instruction, or seminars prior to the renewal of their licenses.

The bill would also require personal lines broker-agents, life-only agents, accident and health agents, and agents licensed as both life-only and accident and health agents, to complete 24 hours of continuing education prior to renewal of their licenses. The bill would make other conforming changes.

This bill would incorporate additional changes to Sections 1637 and 1749 of the Insurance Code proposed by AB 797 contingent on the prior enactment of that bill.

Ch. 271 (AB 797) Coto Insurance: agents.

Existing law defines various types of insurance agent licensees.

This bill would add a limited lines automobile insurance agent, as specified, to the existing types of agent licensees.

Existing law provides that an organization may hold any license or licenses necessary to act in specified capacities.

This bill would provide that an organization may hold a license to act as a limited lines automobile insurance agent.

Existing law requires that all new applicants for various agent licenses meet prelicensing education standards as specified.

This bill would require candidates for the limited lines automobile insurance agent license to undergo a minimum of 20 hours of prelicensing study as a prerequisite for qualification for the license. The curriculum for satisfying this requirement would be approved by the curriculum board and submitted to the commissioner for final approval, as specified. The bill would also require licensed limited lines automobile insurance agents who apply to become fire and casualty broker-agents or personal lines agents to submit specified application material, complete prelicensing education, and pass a qualifying examination. The bill would also establish standards for determining the license year and license term for a limited lines automobile insurance agent.

Existing law requires the Insurance Commissioner to appoint a curriculum board, consisting of specified insurance-related and consumer representatives. The board is required to develop or recommend courses of study on various topics, and develop standards for providers and instructors of courses, all in connection with education requirements for insurance licenses. The board must submit the curriculum and standards to the commissioner for final approval.

This bill would provide that the board may approve standards for courses in business management practices that may consist of up to 25% of the agent or broker requirements for license renewal.

Existing law requires licensed agents to complete 10 hours of approved continuing education courses, programs of instruction, or seminars prior to the renewal of their license.

This bill would require limited lines automobile insurance agents to complete a minimum of 20 hours of continuing education prior to renewing their licenses, and would prohibit specified topics from being included in the courses.

Existing law provides that the commissioner shall require fees, as specified, for various licenses.

This bill would provide that the commissioner shall require fees, as specified, for a license to act as a limited lines automobile insurance agent.

This bill would incorporate additional changes to Sections 1637 and 1749 of the Insurance Code proposed by AB 720 contingent on the prior enactment of that bill.

Ch. 272 (AB 798) Committee on Insurance Unemployment insurance: unemployment compensation benefits.

(1) Existing law requires the Director of Employment Development to permit the use of any information in his or her possession to the extent necessary for specified purposes.

This bill would additionally require the director to provide, to the extent permitted by federal law, the California Community Colleges Chancellor's Office with each student's quarterly wage information, as provided, to be used for specified purposes.

(2) Under existing law, unemployment compensation benefits are based on wages paid in a base period that is calculated according to the month within which the benefit year begins. Existing law establishes alternative definitions of base period for claims filed on or after January 1, 1990, and before January 1, 1992.

This bill would delete those alternative definitions that are now obsolete.

(3) (A) This bill would incorporate additional changes to Section 1095 of the Unemployment Insurance Code, proposed by SB 869, to be operative only if SB 869 and this bill are both enacted, each bill amends Section 1095 of the Unemployment Insurance Code, AB 8 is not enacted, or if enacted, does not amend that section, and this bill is enacted after SB 869.

(B) This bill would incorporate additional changes to Section 1095 of the Unemployment Insurance Code, proposed by AB 8, to be operative only if AB 8 and this bill are both enacted, each bill amends Section 1095 of the Unemployment Insurance Code, SB 869 is not enacted, or if enacted, does not amend that section, and this bill is enacted after AB 8.

(C) This bill would incorporate additional changes to Section 1095 of the Unemployment Insurance Code, proposed by SB 869 and AB 8, to be operative only if SB 869, AB 8, and this bill are all enacted, all 3 bills amend Section 1095 of the Unemployment Insurance Code, and this bill is enacted after SB 869 and AB 8.

Ch. 273 (AB 801) Walters Vehicles: license plates.

(1) Existing law prohibits the use of a device that obstructs or impairs the reading or recognition of a license plate by a remote emission sensing device. A violation of this provision is a crime.

This bill would prohibit the use of a device that would obstruct or impair the reading or recognition of a license plate by an electronic device operated by state or local law enforcement or by an electronic device operated in connection with a toll road, high-occupancy toll lane, toll bridge, or other toll facility, creating a new crime, thereby imposing a state-mandated local program.

This bill would provide that a person who sells a product or device that obscures or is intended to obscure the reading or recognition of a license plate is guilty of an infraction, punishable by a specified fine only, creating a new crime, thereby imposing a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 274 (AB 929) Sharon Runner California Housing Finance Agency: bonds.

Existing law sets forth various powers and duties of the California Housing Finance Agency in conjunction with the financing of housing. Existing law authorizes the agency to issue revenue bonds not exceeding a specified amount outstanding at any time, exclusive of indebtedness incurred to refund or renew bonds previously issued by the agency, the proceeds of which are used to finance housing developments and other residential structures.

The bill would make an appropriation by increasing by \$2,000,000,000 the authorization of bonds to be issued by the agency, the proceeds of which under existing law are required to be deposited in the continuously appropriated California Housing Finance Fund.

Ch. 275 (AB 937) Committee on Business and Professions Architects: landscape architects.

The Architects Practice Act provides for licensing and regulation of persons engaged in the practice of architecture by the California Architects Board. Existing law provides for the licensing of certain persons, as defined, to practice architecture and permits an architect to form a partnership with nonarchitects if certain conditions are met. Existing law requires architects to have responsible control, as defined, over certain aspects of practice. Existing law authorizes a corporation to furnish or supply by contract architectural services by and under the responsible control of a licensed architect or architects. Existing law makes it a crime for an unlicensed person to engage in certain activities related to architecture, for a person to make certain representations, or for a licensee in responsible control of plans, specifications, and instruments of service not to sign off on those documents.

This bill would revise the definition of a person for purposes of the Architects Practice Act to also include a partnership or a professional corporation and would specify that the term includes a general corporation rather than a corporation. The bill would permit an architect to form a business entity or collaborate with a nonarchitect as long as certain conditions are met and would define the terms “business entity” and “collaboration” to include an employer and employee relationship, a joint venture, a partnership, a general corporation, and a consulting relationship, as specified. The bill would additionally revise the definition of “responsible control” to mean control over the content of all architectural instruments of service, rather than control over the content of technical submissions. The bill would permit a corporation to furnish or supply by contract architectural services as long as any architects’ professional services are offered and provided under the responsible control of a licensed architect or architects. The bill would declare that its provisions shall not be construed to restrict or limit the scope of practice of a professional engineer or a professional land surveyor who forms a business entity or collaborates with one or more architects or a corporation providing architectural services. Because this bill would expand the application of certain criminal provisions, it would impose a state-mandated local program.

Existing law provides for the licensure and regulation of landscape architects by the California Architects Board and makes it a misdemeanor for any person to, among other things, engage in the practice of landscape architecture without a valid, unrevoked license from the board. Existing law requires landscape architects to provide customers with detailed written contracts that include specified provisions, including, but not limited to, a description of the procedure that the landscape architect and client will use to accommodate additional services.

This bill would specify exceptions to that written contract requirement, would require that the contract be executed prior to the landscape architect commencing work, except as specified, and would require that the written contract also include a description of the procedure to be used by either party to terminate the contract. The bill would also specify that a written contract includes a contract in electronic form. In addition, this bill would make it a misdemeanor for an unlicensed person to use the stamp of a licensed landscape architect, as specified, or to advertise or put out a device that might indicate to the public that he or she is a licensed landscape architect or qualified to engage in landscape architecture. Because the bill would create new crimes, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 276 (AB 986) Eng Optometrists: regulation.

Existing law, the Optometry Practice Act, creates the State Board of Optometry and makes it responsible for the registration and regulation of optometrists. Under the act, the board assesses various fees that are deposited in the State Optometry Fund, and the revenues in that fund, other than penalty and fine revenues, are continuously appropriated to the board. The act requires an optometrist to notify the board of the address of his or her practice and to report to the board any change in the practice's location. The act makes a violation of its provisions a crime.

This bill would require an optometrist to maintain a patient's records for a minimum of 7 years from the date he or she completes treatment of a patient and at least until a minor patient becomes 19 years of age. The bill would exempt an optometrist from notifying the board of the address of his or her temporary practice, as defined by the board, at specified settings and would require the optometrist to carry evidence of licensure while practicing in those settings and to include the address of his or her primary practice and the temporary practice setting on a receipt provided to the patient. The bill would increase the amount of certain fees assessed by the board and would also specify the amount of various other fees assessed by the board. Because the bill would thereby increase the amount of revenue in the State Optometry Fund that is continuously appropriated, it would make an appropriation.

Because the bill would also specify additional requirements under the Optometry Practice Act, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 277 (AB 1020) Sharon Runner Recordation: change of ownership.

The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value" or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. Existing property tax law specifies those circumstances in which the transfer of ownership interests results in a change in ownership of the real property, and provides that certain transfers do not result in a change of ownership.

This bill would provide that the recordation of a certificate of sale pursuant to specified provisions of law relating to property sold subject to a right of redemption, does not constitute a change of ownership, as provided. This bill would also make a clarifying change relating to the recordation of digital instruments.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

Ch. 278 (AB 1080) Mullin State preschool programs: funding.

The Child Care and Development Services Act requires the Superintendent of Public Instruction to administer state preschool programs that include part-day and preschool appropriate programs for prekindergarten children 3 to 5 years of age, inclusive. The act provides that \$50,000,000 from a specified item in the Budget Act of 2006 for child development and preschool programs is available for expenditure by the Superintendent according to a specified schedule. The act specifies that \$45,000,000 of that amount is to reimburse participating programs located in the attendance area of elementary schools in deciles 1 to 3, inclusive, based on the 2005 base Academic Performance Index on a per-child basis at the same rate that is used for the state preschool program.

This bill would require the State Department of Education, if funds from the \$45,000,000 amount are offered under a new competitive bidding process after January 1, 2008, due to the termination, suspension, or relinquishment of an original contract award and in order to maintain an existing class, to assign first priority to successful applicants that will maintain that class within the attendance area of the elementary school pursuant to the program's original grant. The bill would also make other technical, clarifying, and conforming changes to existing statutory provisions.

Ch. 279 (AB 1144) Maze Fishing licenses and permits.

(1) Existing law requires every person over the age of 16 years who takes any fish, reptile, or amphibian for any purpose other than profit to first obtain a license for that purpose and to have that license on his or her person or in his or her immediate possession when engaged in carrying out any activity authorized by the license, as provided. Existing law provides for specified exceptions to the license requirement, including a provision requiring the Department of Fish and Game to issue a reduced fee sport fishing license to specified applicants, including a person receiving aid to the aged under certain existing law.

This bill would delete that aid to the aged reduced-fee license.

(2) Existing law generally prohibits the renewal of commercial fishing licenses or permits after a deadline for a renewal application, but provides a grace period together with a \$50 penalty for renewal applications submitted on or before the last day of the next month immediately following the deadline.

This bill would revise that provision to generally prohibit a commercial fishing license, stamp, permit, or other entitlement for which there is a renewal deadline from being renewed after that deadline. The bill would require the department to assess a late fee for renewal applications received after the deadline, according to a specified schedule, and would prohibit the department from waiving the applicable late fee. The bill would require the department to deny any application for renewal received after March 31 of the permit year following the year in which the applicant last held a valid permit for that fishery. The bill would authorize an applicant who is denied renewal of a late application to submit a written appeal for renewal to the Fish and Game Commission within 60 days of the date of the department's denial. The bill would authorize the commission, upon consideration of the appeal, to grant the renewal, and would require the commission to assess the applicable late fee.

(3) Existing law generally requires any person who engages in any business for profit involving fish to have a commercial fish business license, and requires specialty licenses for specified classes of fish business. Existing law makes a violation of the provisions of the Fish and Game Code a crime.

This bill would impose additional conditions to be fulfilled with regard to a commercial fish business entitlement, and would provide for suspension or revocation on specified grounds.

Because this bill would impose new requirements on commercial fish business entitlements, a violation of which would be a crime, the bill would impose a state-mandated local program.

(4) Existing law makes it unlawful to take or possess salmon for commercial purposes on a vessel unless the vessel is registered with the department and the owner of the vessel has a valid and properly affixed commercial salmon vessel permit for the use of that vessel. Existing law authorizes the owner of a permitted vessel, or that owner's agent, to apply for renewal of the permit annually on or before March 31. Existing law requires the department, if an owner to whom a permit has been issued, or that owner's agent, applies for renewal of the permit, and the application for the renewal is received in an office of the department, or is postmarked if mailed, after March 31 but on or before April 30, to accept the application and, upon payment of a late fee, to issue the permit for use of the permitted vessel in the subsequent permit year.

This bill would change that renewal deadline to April 30. The bill would require renewal applications to be received or postmarked on or before that date, subject to a prescribed late fee.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 280 (AB 1260) Caballero Local government: taxes, fees, assessments, and charges: notice.

Articles XIII C and XIII D of the California Constitution generally require that assessments, fees, and charges be submitted to property owners for approval or rejection after the provision of written notice and the holding of a public hearing. Existing law, the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with Article XIII C and Article XIII D of the California Constitution.

Existing statutory law provides notice, protest, and hearing procedures for the levying of new or increased assessments by local government agencies pursuant to Articles XIII C and XIII D of the California Constitution.

This bill would authorize the agency providing the property-related service to a parcel to provide the required notice of a proposed increase of an existing fee or charge in the agency's regular billing statement or any other mailing by the agency to the address at which the agency customarily mails the billing statement for the fee or charge. The bill would also authorize the agency providing the property-related service to a parcel to provide the required notice of a proposed new fee or charge in the manner authorized for notice of a proposed increased fee or charge where the agency is providing an existing property-related service to the address. The bill would require the agency, if the agency desires to preserve any authority it may have, to record or enforce a lien on the parcel to which service is provided, to also mail notice to the recordowner's address shown on the last equalized assessment roll, if that address is different than the billing or service address. The bill would also authorize any agency that bills, collects, and remits a fee or charge on behalf of another agency to provide notice on behalf of the other agency, as specified.

The bill would allow one written protest per parcel, as specified, to be counted in calculating a majority protest to a proposed new or increased fee or charge subject to Section 6 of Article XIII D of the California Constitution.

Ch. 281 (AB 1360) Anderson Taxation: Franchise Tax Board administration: notice of proposed deficiency.

Existing tax laws impose various taxes and fees, and authorize the Franchise Tax Board to administer the assessment, audit, and collection of various taxes and fees. Existing law requires the Franchise Tax Board to mail notice to the taxpayer of any deficiency proposed to be assessed, or of any final deficiency, on tax returns filed by the taxpayer pursuant to the Personal Income Tax Law or the Corporation Tax Law.

This bill would require the Franchise Tax Board to postmark every notice of proposed deficiency assessment and every notice of final deficiency mailed to taxpayers after January 1, 2008.

Ch. 282 (AB 1437) Aghazarian Petroleum underground storage tanks: claims.

The Barry Keene Underground Storage Tank Cleanup Trust Fund Act of 1989 requires owners and operators of petroleum underground storage tanks to pay a storage fee for each gallon of petroleum placed in the tank and requires the fees to be deposited in the Underground Storage Tank Cleanup Fund. The State Water Resources Control Board (board) is authorized to expend moneys from that fund to pay claims to aid eligible owners and operators of petroleum underground storage tanks who take corrective action to clean up unauthorized releases from those tanks. A claimant for corrective action costs is required to be in compliance with specified insurance and permit requirements. The board is authorized to waive those requirements on and after January 1, 1994, if the board makes certain findings that the claimant was unaware of the permit requirement before January 1, 1990, there was no intent to intentionally avoid the permit requirement, and the claimant has complied with other specified fees and insurance requirements. A claimant who is exempted pursuant to those findings is required to obtain a specified level of financial responsibility. The board may waive this financial responsibility requirement if the claimant can demonstrate through a certification issued by an underground storage tank permitting agency based on site and tank tests at the time of the permit application that certain conditions were satisfied prior to causing the contamination.

This bill would, in addition, authorize the board to pay claims to aid eligible owners and operators of petroleum underground storage tanks if the board finds that a claimant who acquires real property on which an underground storage tank is situated and, despite the exercise of reasonable diligence, was unaware of the existence of the underground storage tank and has obtained the required permit within a reasonable period, not to exceed one year, from when the claimant should have become aware of the existence of the underground storage tank or when an applicable agency began issuing underground storage tank permits, whichever occurs later. The board would be required to waive the permitting requirements if the board determines that the claimant was unaware of the permitting requirement and complies with that requirement within a reasonable period, not to exceed one year, after becoming aware of the requirement, and the claimant obtains the specified level of financial responsibility. A claimant, who filed a claim before January 1, 2008, but was ineligible for a waiver of the permit requirement under applicable statutes or regulations existing at the time of the claim, would be authorized to resubmit a new claim on or after January 1, 2008.

This bill would revise the waiver of the financial responsibility requirement to authorize the certification by an underground storage tank permitting agency to be based on a site evaluation and tank tests.

Ch. 283 (AB 1441) Garrick Political Reform Act of 1974: legal defense.

The existing Political Reform Act of 1974 authorizes candidates for elective state office and elected state officials to establish legal defense accounts that are not subject to state campaign contribution limits and specifies that the funds in these accounts may be used only for attorney's fees and other expenses arising from specified civil, criminal, or administrative proceedings, with contributions to the accounts required to be reported in a manner prescribed by the Fair Political Practices Commission.

This bill would extend these provisions to candidates for local elective office and local elective officials, would provide that contributions to the legal defense accounts of these candidates for local elective office are subject to any limitations provided by local ordinance, and would make these contributions subject to commission reporting requirements.

Existing provisions of the act provide for administrative, civil, and criminal penalties for violations.

Because a violation of the bill would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes upon a $2/3$ vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

Ch. 284 (AB 1702) Blakeslee Demonstration projects.

(1) The California Constitution provides that the civil service includes every officer and employee of the state, except as specified. The constitution requires the State Personnel Board to enforce the civil service provisions and to prescribe probationary periods and classifications, adopt other rules authorized by statute, and review disciplinary actions. Existing law authorizes the State Personnel Board to conduct and evaluate demonstration projects relating to improved personnel management, as specified.

This bill would authorize the Department of Transportation to conduct competitive examinations on a position-specific basis for specified managerial classifications as agreed to by the State Personnel Board, as specified. The bill would also make legislative findings and declarations with regard to a related demonstration project.

(2) Existing law authorizes the State Personnel Board, directly or through agreement or contract with one or more agencies and other public and private organizations, to conduct and evaluate demonstration projects.

This bill would provide that for any demonstration project made permanent pursuant to legislation operative on or after January 1, 2008, a department participating in the demonstration project shall file a report on all aspects of the demonstration project with the State Personnel Board. The bill would require the report to include, but is not limited to, the number of applicants, the number of applicants that were hired, the cost of the hiring process, the number and nature of examination appeals, and the length of time to complete the hiring and testing process. The bill would require, for a 3-year period from the date the demonstration project becomes permanent, that the department file this report on an annual basis. The bill would provide that after this 3-year period, the department shall file a report if a report is requested by the State Personnel Board. The bill would further permit the State Personnel Board, when it receives the report, to hold a public hearing to provide for the exchange of information and an opportunity for public comment about the demonstration project that is the subject of the report.

Ch. 285 (AB 1729) Committee on Water, Parks and Wildlife Fish and wildlife.

(1) Existing law requires each person that takes birds or mammals in California to apply for, and be granted, a hunting license. Existing law authorizes specified persons to obtain tags or stamps for the taking of specific animals or aquatic species, if certain requirements are met. Existing law imposes specific requirements for the proper completion of a tag.

This bill would remove references to a "license tag" or "license stamp" and, instead, would refer only to a "tag" or "stamp." This bill would revise existing tag completion provisions for deer, wild pigs, and bears.

(2) Existing law establishes the license year for a falconry license as commencing on March 1 and ending on the last day of February of the next succeeding calendar year. Existing law imposes a fee for permits for the importation, exportation, or intrastate transfer of a bird of prey.

This bill would modify that year to commence July 1, and end on the last day of June. The bill would delete that permit fee.

(3) Existing law establishes in the Resources Agency, the Department of Fish and Game to manage and protect wildlife trust resources. Existing law defines “wildlife” to include all wild animals, birds, plants, fish, amphibians, and related ecological communities, including the habitat upon which the wildlife depends for its continued viability.

This bill would include reptiles in that definition.

(4) Existing law provides that nothing prohibits the department from taking, for scientific or propagation purposes, fish, amphibians, reptiles, mammals, birds, and the nests and eggs thereof, or any other form of plant or animal life.

This bill would also provide that nothing prohibits the department from such takings for public health or safety purposes, the prevention or relief of suffering, or law enforcement purposes.

(4.5) Existing law requires the department to establish the Shared Habitat Alliance for Recreational Enhancement program to encourage private landowners to voluntarily make their land available to the public for wildlife-dependent recreational activities, as defined.

This bill would authorize the department to contract with landowners for the establishment of cooperative hunting areas, as specified. The bill would make corresponding changes to related provisions.

(5) Generally, it is unlawful to possess fish, reptiles, or amphibians except during the open season where taken and for 10 days thereafter; and not more than the possession limit of a fish, reptile, or amphibian may be possessed during the period after the close of the open season. It is also generally unlawful to possess game birds or mammals except during the open season where taken. Existing law defines “bag limit” to mean the maximum limit, in number or amount, of birds, mammals, fish, or amphibians that may lawfully be taken by any one person during a specified period of time.

This bill would make it unlawful to take mammals, birds, fish, reptiles, and amphibians outside of established seasons or to exceed any bag limit or possession limit established in this code or by regulations adopted by the commission. Violation of any established season, bag limit, or possession limit may be charged as a violation of this section or of the specific code section or regulation that establishes the season or limit. The bill would additionally define “possession limit” to mean the maximum, in number or amount of, birds, mammals, fish, reptiles, or amphibians that may be lawfully possessed by one person. The bill would include reptiles in the bag limit definition.

(6) Existing law makes it unlawful to use certain artificial lights to assist in that taking of specified animals.

This bill would make it unlawful to use or possess at any time for such a purpose, any night vision equipment or optical devices that use light-amplifying circuits that are electrical or battery powered.

(7) Existing law enumerates specific criteria for the adoption by the commission, on or before January 1, 2007, of regulations to be promulgated with respect to wild animals. The regulations are required to be designed to provide for the welfare of wild animals.

This bill would also require that the regulations be designed to provide for the safety of the public.

(8) Existing law regulates the importation of live nonnative wild animals and provides the procedure for handling a live nonnative wild animal that is found at large within the state.

This bill would define “nonnative wild animal” and would make other technical changes to those provisions.

(9) Existing law regulates the importation and transportation of designated dead animals.

This bill would include reptiles among those designated dead animals.

(10) Existing law makes it unlawful to take birds or mammals with firearms or with bow and arrow when intoxicated.

This bill would make it unlawful to take birds or mammals with firearms, BB devices, crossbows, or with bow and arrow when intoxicated.

(11) Existing law makes it unlawful to discharge certain weapons within 150 yards of certain buildings, establishing a safety zone.

This bill would also make it unlawful to intentionally discharge any firearm or release any arrow or crossbow bolt over or across any public road or way, open to the public, in an unsafe manner.

(12) Existing law, except as specified, makes it unlawful to possess or confine certain live cats, excepting house cats, provides for the seizure of unlawfully possessed or confined cats, requires the adoption of regulations by the commission, and requires the department inspection of permitted facilities.

This bill would delete those provisions.

(13) Existing law generally requires a hunting license applicant to have completed a hunter safety course.

This bill would rename that course a hunter education course. The bill would make corresponding changes to related provisions.

(14) Existing law provides for the licensure and regulation of domesticated migratory game bird shooting areas. That law requires that a licensee raise or use a minimum of 500 birds during the annual license period.

This bill would delete the requirement imposing that minimum.

(15) Existing law makes it a misdemeanor to take any Antwerp or homing pigeon.

This bill would instead provide that a person who purposely takes any racing pigeon currently registered with a recognized organization is guilty of a misdemeanor, but would also provide that the incidental take of registered racing pigeons with the shooting or taking of wild band-tailed pigeons or domestic pigeons is not a violation of this provision.

(16) Existing law defines resident game birds and upland game bird species. Existing law permits the taking of certain nongame birds.

This bill would revise those definitions.

(17) Under existing law, the department is authorized to take any bird that is unduly preying on any bird, mammal, or fish.

This bill would authorize the department to take any individual bird, or birds of any species, that, in its opinion, are unduly preying upon any species of bird, mammal, amphibian, reptile, or fish.

(18) Existing law defines fur-bearing mammals to include pine marten, fisher, wolverine, mink, river otter, gray fox, cross fox, silver fox, red fox, kit fox, raccoon, beaver, badger, and muskrat.

This bill would delete wolverine, cross fox, and silver fox from that definition.

(19) Existing law generally requires a person who traps fur-bearing mammals or nongame mammals, designated by the commission, or who sells raw furs of those mammals, to procure a trapping license from the department.

This bill would provide that nothing in the Fish and Game Code or regulations adopted pursuant thereto shall be construed to prevent or prohibit a person from trapping specified animals, except as specified.

(20) Existing law makes it unlawful to take certain fox varieties for profitmaking purposes.

This bill would revise that provision to make it unlawful only to take red fox for those purposes.

(21) Existing law regulates the taking of certain animals injuring property.

The bill would authorize the department to allow certain exceptions to specific requirements concerning the take of deer and rabbits.

(22) Existing law makes it unlawful, in any district or part of a district in Butte County, to kill or retain in possession any king, silver, or kokanee salmon or any steelhead that has not taken the bait or lure in its mouth.

This bill would make it unlawful to kill or retain in possession any chinook, coho, or kokanee salmon or any steelhead that has not taken the bait or lure in its mouth, in inland waters.

(23) Existing law makes it unlawful to deposit, permit to pass into, or place where it can pass into, the waters of the state, or to abandon, dispose of, or throw away, within 150 feet of the high water mark of the waters of the state, any cans, bottles, garbage, motor vehicle or parts thereof, rubbish, or the viscera or carcass of any dead mammal, or the carcass of any dead bird.

This bill would add litter, refuse, waste, and debris to that list of items.

(24) The department is authorized to enter at any time any car, warehouse, depot, ship, or growing area where any fish, amphibians, or aquatic plants are held or stored, for the purpose of making an examination to ascertain whether those fish, amphibians, or aquatic plants are infected, diseased, or parasitized.

This bill would also authorize entry into vehicles and containers, would change the purpose to a regulatory inspection, and additionally authorize the department to determine if aquaculture products are being or have been legally imported, transported, or possessed.

(25) Existing law requires every person over the age of 16 years who takes any fish, reptile, or amphibian for any purpose other than profit to first obtain a license for that purpose and to have that license on his or her person or in his or her immediate possession when engaged in carrying out any activity authorized by the license. Existing law excepts an owner of real property, or the owner's invitee, who takes fish for purposes other than profit from a lake or pond that is wholly enclosed by that owner's real property and that is located offstream and not hydrologically connected to any permanent or intermittent waterway of the state.

This bill would revise that exception as to eligible persons and water bodies.

(26) Existing law requires a commercial fishing license for specified commercial fishing activities. Existing law regulating commercial fishing imposes, or authorizes the imposition of, various license, permit, and registration fees. Existing law requires a person engaging in activities for which a commercial fishing license is required to have specified identification.

This bill would authorize the use of a current valid passport as identification under specified circumstances.

(27) A provision, which was repealed on January 1, 2007, provided for the payment of a specified landing tax on abalone. Existing law, the provisions of which require its repeal on January 1, 2008, requires the appointment of a Commercial Abalone Advisory Committee, with prescribed membership, to recommend to the director activities to be conducted with funds collected under the repealed landing tax.

This bill would extend the existence of this advisory committee until January 1, 2013.

(28) Existing law generally makes it unlawful to use specified weapons in a game refuge.

This bill would include BB devices and crossbows in those weapons.

(29) Existing law makes specific violations of regulation or statute an infraction.

This bill would add several violations of regulations to that existing infraction provision. The bill would also make several other violations of statute an infraction.

(30) The bill would make other corresponding and clarifying changes, as well as deleting certain obsolete provisions.

(31) Existing law generally makes it a crime to violate fish and game laws.

This bill, by revising and adding to those laws, would change the definition of crime, thereby imposing a state-mandated local program.

(32) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(1) Existing law provides that a maximum tax rate election and specified other elections may be conducted wholly by mail, if certain conditions are satisfied.

This bill would delete the authority to conduct a maximum tax rate election wholly by mail.

(2) Existing law requires that, whenever the elections official is required to mail official matter, only one copy of each piece of that official matter be mailed to a postal address where 2 or more registered voters have the same surname and the same postal address.

Existing law requires the elections official administering a municipal election, not less than 10 calendar days before specified official election materials are submitted for printing, including the official voter's pamphlet, to make a copy of those election materials available for public examination.

This bill would delete obsolete references in these provisions.

Ch. 287 (SB 10) Kehoe Airport land use commissions: San Diego County Regional Airport Authority.

(1) The State Aeronautics Act (state act) governs the creation and operation of airports in this state. Under the state act, each county in which there is an airport served by a scheduled airline and each county with an airport operated for the benefit of the general public, with certain exceptions, is required to establish an airport land use commission. The state act requires the commission to formulate a comprehensive land use compatibility plan to provide for the orderly growth of the airport and the area surrounding the airport within the jurisdiction of the commission, and safeguard the general welfare of the inhabitants within the vicinity of the airport and the public in general. Under the state act, if the board of supervisors and the city selection committee of mayors in the county each makes a determination by a majority vote that proper land use planning can be accomplished through the actions of an appropriately designated body, then the body so designated assumes the planning responsibilities of an airport land use commission, and a commission need not be formed in that county.

The state act exempts the County of San Diego from those provisions, and, instead, designates the San Diego County Regional Airport Authority as the entity responsible for coordinating the airport planning of public agencies within San Diego County, and requires the authority, on or before June 30, 2005, to adopt an airport land use compatibility plan.

The San Diego Association of Governments (SANDAG), originally established pursuant to existing law authorizing the formation of a joint powers agency, has certain responsibilities with respect to transportation, infrastructure financing, and growth management planning for the San Diego County region. Existing law provides for the consolidation of certain regional transportation planning, programming, and related functions from various existing agencies, including SANDAG, the San Diego Metropolitan Transit Development Board (MTDB), and the North County Transit District (NCTD) (collectively the consolidated agency).

This bill would make the authority responsible for the preparation, adoption, and amendment of an airport land use compatibility plan for each airport in San Diego County and would require the authority to engage in a public collaborative planning process when preparing and updating an airport land use compatibility plan. The bill would require the authority to prepare and adopt a regional aviation strategic plan with the objective of identifying workable strategies to improve the performance of the San Diego County regional airport system, thereby imposing a state-mandated local program. The bill would require the consolidated agency to prepare and adopt, in a public process and in consultation with the authority and other specified entities, an airport multimodal accessibility plan for the San Diego region.

(2) The San Diego County Regional Airport Authority Act (act) establishes the authority as a local entity of regional government with jurisdiction throughout the County of San Diego. The act establishes the governing body and structure of the authority and assigns

various powers and duties to the authority regarding the establishment and operation of airports within the county.

Under the act, the authority has the exclusive authority to study, plan, and implement any improvements, expansion, or enhancements at existing or future airports within its control. The act requires the authority to adopt a comprehensive plan on the future of a San Diego regional international airport and to submit a particular airport site recommendation in the form of a local ballot proposition to the San Diego County Registrar of Voters for placement on either the November 2, 2004, or the November 7, 2006, countywide election ballot.

This bill would dissolve the board of directors of the San Diego County Regional Airport Authority and replace that board of directors with a new 9-member board of directors appointed for staggered 3-year terms, pursuant to procedures established by the bill. The bill would authorize the board of directors to provide for additional nonvoting, noncompensated members of the board of directors. The bill would require the board of directors to appoint an Audit Committee of 4 board members and 3 public members, appointed for staggered 3-year terms, to perform certain audit and review functions. The bill would make other changes to the proceedings of the board of directors, the compensation of directors, and in the operation of the authority. The bill would provide that the authority has exclusive responsibility to study, plan, and implement any improvements, expansion, or enhancements at San Diego International Airport. The bill would delete those ballot provisions of the act and other provisions regarding the study of possible sites.

(3) The provisions of the bill would be known as the San Diego County Regional Airport Authority Reform Act of 2007.

(4) This bill would authorize the board of directors of the authority to adopt and enforce rules and regulations for the administration, maintenance, operation, and use of its facilities and services. The bill would recast existing provisions making the violation of a rule, regulation, or ordinance adopted by the authority a misdemeanor or an infraction and would instead make the violation of a rule, regulation, or ordinance adopted by the board of directors a misdemeanor or an infraction.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 288 (SB 104) Machado Crisis nurseries.

Existing law provides for the licensure and regulation by the State Department of Social Services of community care facilities, including, but not limited to, facilities that provide care for children. Existing law, which would be repealed on January 1, 2008, includes crisis nurseries, as defined, within these regulated community care facilities and sets forth specific provisions applicable to crisis nurseries.

This bill would extend to July 1, 2011, the repeal date of these provisions relating to the regulation of crisis nurseries as community care facilities. Since violation of provisions applicable to community care facilities is a crime, this bill would impose a state-mandated local program by changing the definition of an existing crime.

Existing law provides for the Aid to Families with Dependant Children-Foster Care (AFDC-FC) program, under which, pursuant to a combination of federal, state, and county funds, aid on behalf of eligible children, including, but not limited to, children in a crisis nursery, is paid to foster care providers.

Existing law continuously appropriates moneys from the General Fund to pay for a share of the cost of the AFDC-FC payments, but excludes from this appropriation any payments for children in crisis nurseries.

This bill would specify that no appropriation shall be made under those provisions for the purposes of implementing this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 289 (SB 116) Maldonado Unemployment compensation benefits: freezing weather.

Existing law provides that an individual is considered “unemployed” for the purpose of eligibility for unemployment compensation benefits if, for any week of less than full-time work, the wages payable to the individual for that week, when reduced by \$25 or 25% of the wages payable, whichever is greater, do not equal or exceed the individual’s unemployment weekly benefit amount. Existing law provides for the calculation of unemployment benefits.

This bill would provide that an individual who has been laid off from his or her most recent work, or is unable to commence work at his or her regular or seasonal workplace, as a direct result of the freezing weather conditions in January 2007, as specified, shall be considered “unemployed” for the purpose of eligibility for unemployment compensation benefits if the individual worked or was scheduled to commence work in a county specifically designated by the Governor as being in a state of emergency, as provided, and for any week of less than full-time work, the wages payable to the individual for that week, when reduced by \$200, do not equal or exceed the individual’s unemployment weekly benefit amount. This bill would require the payment of unemployment compensation to an individual under these circumstances in a weekly amount equal to his or her weekly benefit amount less the amount of wages in excess of \$200 payable for that week, with benefits subject to the regular one-week waiting period.

This bill would provide for repeal of these provisions on November 4, 2007.

Existing law provides that unemployment compensation benefits are paid from the Unemployment Fund, a continuously appropriated special fund. By expanding benefits payable from the fund, this bill would make an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 290 (SB 134) Cedillo County employees’ retirement: mandatory retirement.

The County Employees Retirement Law of 1937 provides a comprehensive set of rights and benefits for county and district employees who are members of a retirement system subject to that law. That law permits a county to require sheriffs, undersheriffs, and marshals who are safety members to be retired at 60 years of age or 70 years of age.

This bill would, upon approval of a resolution by the board of supervisors in Los Angeles County, make that requirement inapplicable to specified safety members in that county if a physician employed or approved by the county certifies that the safety member is capable of performing his or her assigned duties pursuant to standards set forth by his or her employer. The bill would also provide that these provisions apply to a specified safety member who reinstates from retirement. The bill would provide that the resolution of the board of supervisors may designate a date, which may be prior to the date of the resolution or the effective date of these provisions, upon which the resolution and these provisions shall be operative in Los Angeles County.

Ch. 291 (SB 223) Machado Real estate appraisals.

(1) The Real Estate Appraisers’ Licensing and Certification Law, which is part of the Real Estate Law, provides for the licensing and certification of real estate appraisers. That law prohibits a licensed appraiser from engaging in any appraisal activity in connection with the purchase, sale, or transfer of real property if his or her compensation is affected by the sales commission generated by the transaction for which the appraisal was made. Existing law makes a knowing and willful violation of the Real Estate Law a misdemeanor.

This bill would prohibit a licensed appraiser from engaging in any appraisal activity in connection with the purchase, sale, transfer, financing, or development of real property if his or her compensation is dependent on or affected by the value conclusion generated by the appraisal. By broadening the definition of a crime, this bill would impose a state-mandated local program.

(2) Existing law regulates the transfer of real property and the activities of real estate brokers and mortgage lenders.

This bill would prohibit anyone with an interest in a real estate transaction involving an appraisal from improperly influencing, as specified, the reporting, result, or review of a real estate appraisal sought in connection with a mortgage loan. The bill would provide, if a person who violates these provisions is licensed by a state licensing law and the violation occurs within the course and scope of the person's duties as a licensee, that the violation shall be deemed a violation of that state licensing law. The bill would also provide that nothing in these provisions shall be construed to authorize communications that are otherwise prohibited under existing law.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 292 (SB 232) Ducheny Instructional strategies: subject matter projects.

Existing law provides for the establishment and maintenance of 6 subject matter projects by the Regents of the University of California with the approval of the Concurrence Committee. Existing law provides that these subject matter projects are to create opportunities for researchers, higher education faculty, and elementary and secondary school faculty to work together to identify exemplary teaching practices, examine and develop research on learning, knowledge, and educational materials, and to provide support to teachers to develop and enhance content knowledge and pedagogical skills. Under existing law, these projects become inoperative on June 30, 2007, and are repealed on January 1, 2008.

This bill would require the Concurrence Committee to provide a final report to the Governor and to appropriate policy and fiscal committees of the Legislature on or before January 1, 2011, including specified information relating to the subject matter projects. The bill would delete obsolete language relating to an independent note changes of the subject matter projects that was required to be completed prior to February 1, 2006. The bill would extend the date on which those projects become inoperative to June 30, 2012, and the repeal date to January 1, 2013, thus extending the existence of these projects by 5 years.

Ch. 293 (SB 282) Cox State Fair Leasing Authority.

Existing law authorizes 2 or more public agencies to enter into a joint powers agreement to conduct agricultural, industrial, cultural, or other fairs or expositions. Under existing law, entities formed pursuant to a joint powers agreement have the authority to issue revenue bonds for the purposes of conducting a program or completing a project under its jurisdiction.

This bill would authorize the formation of a joint powers entity, the State Fair Leasing Authority, to be composed of the Department of Food and Agriculture, the Department of Finance, the Department of General Services, and the California Exposition and State Fair, appointed as specified. The authority would be authorized to enter into leases or other agreements for the use of the State Fair Race Track or any other property owned or controlled by the California Exposition and State Fair, and to enter into indebtedness, including issuing bonds, in order to carry out its purposes. The bill would require the California Exposition and State Fair, in consultation with the authority, to prepare a master plan approved by the

board of directors of the fair for the long-range comprehensive development and improvement of the property of the California Exposition and State Fair.

Ch. 294 (SB 289) Vincent Gambling Control Act: licenses.

The Gambling Control Act provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission, and for the investigation and enforcement of those activities and establishments by the Division of Gambling Control within the Department of Justice. Under that act, a person is deemed unsuitable to hold a state gambling license if that person, or any partner, officer, director, or shareholder of that person, has a financial interest in a business or organization engaged in any form of prohibited gambling, as specified.

This bill would revise that provision by authorizing the commission to deem an applicant or licensee suitable to hold a state gambling license even if the applicant or licensee has a financial interest in another business conducting lawful gambling outside of California that, if conducted within the state, would violate California law, unless the applicant or licensee owns more than a 1% interest in, or has control of, that business.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 295 (SB 295) Cogdill Cigarettes and tobacco products.

The Cigarette and Tobacco Products Tax Law imposes a tax on every distributor of cigarettes at specified rates. For purposes of that law, "untaxed tobacco product" is defined as any tobacco product that has not yet been distributed in a manner that results in a tax liability.

The Tobacco Tax and Health Protection Act of 1988 (Proposition 99), which was adopted by the voters at the general election held on November 8, 1988, imposes a surtax on the distribution of cigarettes in addition to the tax imposed pursuant to the Cigarette Tax Law as of the effective date of the adoption of Proposition 99, and imposes a tax on the distribution of certain tobacco products at an equivalent total rate determined pursuant to specified criteria.

The California Families and Children Act of 1998 (Proposition 10), which was adopted by the voters at the general election held on November 3, 1998, imposes a surtax on the distribution of cigarettes in addition to the tax imposed pursuant to the Cigarette Tax Law and the Tobacco Tax and Health Protection Act of 1988 as of the effective date of the adoption of Proposition 10, and imposes a tax on the distribution of certain tobacco products at an equivalent rate.

Existing law includes as an "untaxed tobacco product" any tobacco product that was distributed in a manner that resulted in a tax liability, but that was returned to the distributor after the tax was paid and for which the distributor claimed a deduction pursuant to a specified provision of Proposition 99, or a refund or credit under other specified provisions.

This bill would include as an "untaxed tobacco product" any tobacco product that was distributed in a manner that resulted in a tax liability, but that was returned to the distributor after the tax was paid and for which the distributor claimed a deduction pursuant to a specified provision of the California Families and Children Act of 1998.

This bill would take effect immediately as a tax levy.

Ch. 296 (SB 319) Wiggins Employment of minors: agricultural packing plants.

Existing law prescribes limits on the hours of employment of minors, but authorizes the Labor Commissioner to grant an exemption to employers operating agricultural packing plants for employment of minors 16 and 17 years of age for up to 10 hours on days when school is not in session, during the peak harvest season. Under existing law, which will be repealed January 1, 2008, that exemption may additionally authorize employment of a minor who is enrolled in a school in Lake County to be employed for more than 48, but not more than 60, hours a week upon prior written approval by the Lake County Board of Education.

This bill would revise those provisions relating to Lake County by limiting the employer exemption that may be issued by the Labor Commissioner to the employment of minors, 16 or 17 years of age, who reside in Lake County, and only on days when school is not in session, for up to 10 hours a day, as well as for more than 48 hours but not more than 60 hours in a week, upon prior written approval of the Lake County Office of Education. The bill would delete a requirement that a minor be enrolled in school in Lake County for the exemption to apply.

Existing law also requires the Labor Commissioner, prior to issuing the Lake County exemption or renewing an exemption, to inspect an affected agricultural packing plant, and to file a written report with the Legislature on or before March 1 of each year describing the general working conditions of minors employed in the agricultural packing industry during the past year, as specified. Existing law further requires an affected employer, on or before March 1 of each year, as a condition of receiving that exemption or a renewal of that exemption, to file a written report to the Labor Commissioner, as specified.

This bill would extend the operation of the Lake County provisions until January 1, 2012.

Ch. 297 (SB 339) Scott Insurance: excess investment.

Existing law provides that an insurer may make excess fund investments in shares of an open-end diversified investment company, as defined, under specified conditions.

This bill would revise and recast the conditions applicable to an investment company in which a domestic insurer may make excess fund investments.

Ch. 298 (SB 343) Negrete McLeod Local agencies: open meetings: documents.

The Ralph M. Brown Act requires that any meeting of a legislative body of a local agency be open and public and all persons be permitted to attend. The act requires the body to post an agenda at least 72 hours before a regular meeting and provides that agendas and any other writings, when distributed to all, or a majority of all, of the members of a legislative body of a local agency by any person in connection with a matter subject to discussion or consideration at a meeting of the body are public records subject to the public disclosure requirements of the California Public Records Act.

This bill would provide that if a writing that is a public record under these provisions, and that relates to an agenda item for an open session of a regular meeting of the legislative body of a local agency, is distributed less than 72 hours prior to that meeting, the writing shall be made available for public inspection at a public office or location that the agency shall designate for this purpose. It would require each local agency to list the address of this office or location on the agendas for all meetings of the legislative body of that agency. It also would authorize a local agency to post a writing that is a public record under these provisions on the agency's Internet Web site. It would make these provisions effective on July 1, 2008.

Ch. 299 (SB 354) Margett Contractors: aiding unlicensed persons.

Existing law, the Contractors' State License Law, authorizes the Contractors' State License Board to conduct all functions and duties relating to the licensing, regulation, and discipline of licensees and requires the board to appoint a registrar of contractors to perform specified duties. Existing law authorizes the registrar of contractors to issue a citation, instead of initiating disciplinary proceedings, to a licensee when the registrar has probable cause to believe that the licensee has committed acts in violation of the Contractors' State License Law. Existing law authorizes the citation to include an order for payment by a licensee of a specified sum to an injured party. Existing law provides that it is grounds for disciplinary action for a licensed contractor to aid an unlicensed person in evading the Contractors' State License Law or to allow an unlicensed person to use his or her license.

This bill would authorize the registrar of contractors to order a licensee to pay a specified sum to an injured party if the registrar finds that a licensee has aided an unlicensed person

in evading the Contractors' State License Law or allowed an unlicensed person to use his or her license.

Ch. 300 (SB 370) Kuehl Medi-Cal: organ and bone marrow transplants.

Existing law establishes the Medi-Cal program, administered by the State Department of Health Care Services, under which basic health care services are provided to qualified low-income persons. Existing law authorizes the department to implement utilization controls through the establishment of guidelines, protocols, algorithms, or criteria for drugs, medical supplies, durable medical equipment, and enteral formulae.

Under existing law, liver, heart, and bone marrow transplant and donor surgeries are covered as reimbursable services under the Medi-Cal program.

This bill would repeal these provisions as to liver and heart transplant and donor surgeries, and would instead, require all donor and recipient organ transplant surgeries to be covered under the Medi-Cal program when an organ transplant is provided to a beneficiary who is eligible for full-scope benefits in a medical facility that meets the requirements of, and is approved by, the department. The bill would also require all donor and recipient organ and bone marrow transplant surgeries that are authorized by the department pursuant to these provisions to be subject to utilization controls.

This bill would require the department, for purposes of donor and recipient organ transplant surgeries, to establish standards as to both the circumstances and the criteria that the department will use for approving facilities and personnel for organ transplants eligible for receiving reimbursement under the Medi-Cal program.

Ch. 301 (SB 385) Machado Real estate: mortgages: real estate brokers.

The Business, Transportation and Housing Agency consists of various agencies, including, but not limited to, the Department of Corporations, the Department of Real Estate, and the Department of Financial Institutions. The agency is under the supervision of the Secretary of Business, Transportation and Housing.

Under existing law, state financial institutions are regulated by the Department of Financial Institutions. Other entities that engage in the business of making or brokering residential mortgage loans, including, but not limited to, real estate brokers and residential mortgage lenders, are regulated by the Department of Corporations under the California Finance Lenders Law or the California Residential Mortgage Lending Act or by the Department of Real Estate under the Real Estate Law. Existing law provides that willful violations of the provisions governing real estate brokers and licensees under the California Residential Mortgage Lending Act are crimes. Federal financial institution regulatory agencies and the Conference of State Bank Supervisors, together with the American Association of Residential Mortgage Regulators, have each published guidance on nontraditional mortgage product risks and a statement on subprime mortgage lending.

This bill would require the Commissioner of Financial Institutions to apply that guidance and statement to all state-regulated financial institutions, including, but not limited to, privately insured, state-chartered credit unions, and would authorize the commissioner to issue emergency and final regulations for clarification purposes, as specified. The bill would also require the Commissioner of Real Estate and the Commissioner of Corporations to apply the guidance and statement to real estate brokers and licensees, respectively, and would authorize those commissioners to adopt emergency and final regulations or rules for clarification purposes, as specified. The bill would require the Secretary of Business, Transportation and Housing to ensure that these commissioners coordinate their policymaking and rulemaking efforts.

This bill would also require specified financial institutions, specified real estate brokers, finance lenders, and persons licensed under the California Residential Mortgage Lending Act to adopt and adhere to policies and procedures that are reasonably intended to achieve the objectives set forth in the guidance and statement. Because a willful violation of these

provisions with respect to real estate brokers and persons licensed under the California Residential Mortgage Lending Act would be a crime, the bill would impose a state-mandated local program.

The Real Estate Law provides for the licensure and regulation of real estate brokers and defines a real estate broker as a person who, among other things, engages as a principal in the business of buying from, selling to, or exchanging with the public, real property sales contracts or promissory notes, as specified. Existing law requires real estate brokers to pay specified fees that are deposited into the continuously appropriated Real Estate Fund. Under existing law, it is a crime for a person to act as a real estate broker without a license.

This bill would also define a real estate broker as a person who engages as a principal in the business of making loans and would define the term “in the business” as the making of 8 or more specified loans in a calendar year to the public from the person’s own funds, as defined.

Because this bill would increase fees deposited into the Real Estate Fund, the bill would make an appropriation. In addition, because this bill would expand the definition of a real estate broker and create new crimes, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 302 (SB 425) Margett Public safety.

Existing law authorizes certain additional penalties to be levied on fines for criminal offenses, including a state penalty, a county penalty, and penalties relating to state court construction, emergency medical services, and DNA fingerprinting, in specified amounts.

This bill would provide that these additional penalties do not apply to specified fines, penalties, and surcharges. The bill would make certain changes regarding the distribution of penalty funds by counties under these provisions.

Under existing law, a person is guilty of disorderly conduct, a misdemeanor, based on various acts, including if the person loiters or wanders upon the streets or from place to place without apparent reason or business and refuses to identify himself or herself or account for his or her presence to a law enforcement officer in circumstances making that identification reasonable.

This bill would delete the above provision.

This bill would make other technical, nonsubstantive changes.

This bill would incorporate additional changes in Section 1464 of the Penal Code, proposed by SB 153, to be operative only if SB 153 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 303 (SB 430) Machado Insurance: California Earthquake Authority.

Existing law authorizes the California Earthquake Authority, administered under the authority of the commissioner to transact basic residential earthquake insurance and defines “available capital,” for the purpose of issuing policies.

This bill would revise the definition of “available capital,” as specified.

Existing law permits the authority to require participating insurers to make certain additional capital assessments under specified conditions. These assessments are required to be reduced to zero 12 years after the commencement of authority operations. That 12-year period ends on December 1, 2008.

This bill would specify that these assessments shall be reduced to zero on December 1, 2008, with respect to earthquake events that commence on or after that date. This bill would also provide that, if claims and claim expenses paid by the authority due to earthquake events that commence on or after December 1, 2008, exhaust existing capital and the maximum

amount of all specified assessments, the board shall have the power to further assess participating insurers, subject to specified maximum limits according to a specified formula.

This bill would make various other related changes to implement the assessment provisions that apply to earthquake events that commence on or after December 1, 2008. The provisions of the bill would become operative on July 1, 2008.

Ch. 304 (SB 733) Torlakson Instructional Materials Funding Realignment Program.

The Instructional Materials Funding Realignment Program requires the State Department of Education to apportion funds appropriated for purposes of the program to school districts to ensure that each pupil is provided with a standards-aligned textbook or basic instructional materials as adopted by the State Board of Education subsequent to the adoption of content standards for kindergarten and grades 1 to 8, inclusive, or as adopted by the local governing board for grades 9 to 12, inclusive. The program becomes inoperative on July 1, 2007, and is repealed on January 1, 2008.

This bill would require the program to be administered for purposes of funding as if it had been operative at the beginning of the 2007–08 fiscal year, make the program operative on January 1, 2008, and change the inoperative and repeal dates to July 1, 2013, and January 1, 2014, respectively.

Ch. 305 (SB 768) Corbett Misuse of voter registration information.

Existing law requires individuals and organizations that distribute voter registration cards to return the completed cards from voters to the appropriate elections official or to deposit the cards in the postal service within 3 days of receiving them.

Existing law also provides a procedure that permits an elector to entrust his or her completed affidavit of registration to another person for return to the appropriate elections official.

This bill would provide that an affiant's driver's license number, identification card number, and social security number are confidential and would make it an infraction, punishable by a fine not to exceed \$500, except as specified, for any person, individual, or organization to knowingly disclose this information from an affidavit of registration or a voter registration card that was distributed to a voter, or entrusted by the elector to another person.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 306 (SB 788) Cogdill Corporation tax law: water's-edge: administration.

Existing law provides that, in the case of a business with income derived from, or attributable to, sources both within and without this state, the income is apportioned between this state and other states and foreign countries for tax purposes in accordance with a specified formula based on the property, payroll, and sales within and without this state, except as otherwise provided. Existing law permits certain taxpayers, as provided, to elect to determine their income under a water's-edge election and requires the Franchise Tax Board to examine the annual filings of those taxpayers for any potential noncompliance, and, if the noncompliance is found, to conduct a detailed examination of those filings, regardless of the net revenue benefit to the state, as specified.

This bill would permit the Franchise Tax Board to conduct audits of those annual returns on a discretionary rather than mandatory basis and would apply to audits commenced on or after the effective date of this bill.

Ch. 307 (SB 795) Yee Cemeteries: investment of special care trust funds.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law, the Cemetery Act, which is administered by the Cemetery and Funeral Bureau, provides for the regulation of certain cemeteries, including any cemetery that establishes an endowment care fund or a special care trust fund. Under existing law, endowment care funds and special care trust funds are required to be invested and reinvested in specified types of investments. Existing law provides that any investment lawful for endowment care funds is a lawful investment for special care trusts created by irrevocable agreement.

This bill would instead provide that any investment that is lawful for endowment care funds is a lawful investment for any special care trust.

Existing regulations adopted by the bureau require a trust agreement between the board of trustees or cemetery authority and trustor to set forth what revocation expenses will be charged out of the income of the trust upon its revocation, as provided, and prohibits the amount charged for revocation expenses from exceeding 10% of the trust corpus.

The bill would require the board of trustees to honor a written request of revocation by the trustor within 30 days upon receipt of the written request, and would authorize a board of trustees to charge a revocation fee out of the earned income of a special care trust fund, provided that the amount charged does not exceed 10% of the trust corpus, subject to certain exceptions. The bill would also permit the board of trustees to charge an annual fee, not to exceed 4% of the trust balance, for administering a revocable special care trust fund, as provided. The bill would make a violation of these provisions punishable by disciplinary action as provided under existing provisions of law, or by a civil fine, or both, as determined by the Cemetery and Funeral Bureau.

Ch. 308 (SB 916) Yee Acute psychiatric hospitals: patient detention and release.

Existing law exempts a licensed general acute care hospital, as defined, licensed professional staff of the hospital, or any physician and surgeon, providing emergency medical services to a person at the hospital from civil and criminal liability for detaining a person, or for the actions of the person after release from the hospital, if certain conditions exist, including, among other things, that the person is not detained beyond 8 hours.

This bill would revise and recast the immunity provisions to in part exempt a licensed acute psychiatric hospital that is not a specified mental health facility designated by the county, or licensed general acute care hospital that is not a specified mental health facility designated by the county, from civil or criminal liability for detaining a person under specified conditions, and would increase the maximum period of detention to 24 hours. The bill would impose additional conditions applicable when the detention is for more than 8, but less than 24 hours.

The bill would recast the immunity provisions for conduct of the person after release by establishing additional conditions, including, but not limited to, conditions applicable to release by a clinical psychologist, and conditions applicable when the physician and surgeon and the clinical psychologist disagree.

Ch. 309 (SB 1043) Committee on Revenue and Taxation The Personal Income Tax Law and the Corporations Tax Law: offers of settlement: evidence.

The Personal Income Tax Law and the Corporations Tax Law authorize the Franchise Tax Board to settle administrative civil tax disputes and provide that the executive officer and chief counsel, jointly, of the Franchise Tax Board may approve a settlement of any civil tax matter in a dispute involving a reduction of tax and penalties, as specified.

This bill would make any evidence of an offer of settlement made during settlement negotiations between a taxpayer and the Franchise Tax Board, or any statement made in pursuit of settlement, inadmissible, as provided, in any subsequent adjudicative proceeding, including any appeal to the State Board of Equalization.

Ch. 310 (AB 63) Emmerson Parks and recreation: Glen Helen Regional Park.

(1) Existing law authorizes the County of San Bernardino to grant an easement for road purposes across lands within the Glen Helen Regional Park acquired with moneys received pursuant to the Roberti-Z'berg-Harris Urban Open-Space and Recreation Program Act under specified conditions.

This bill would instead authorize the County of San Bernardino to grant no more than 9 acres for that easement, and no more than 7 acres for a fee interest in the property for which a road easement has been granted or in a portion thereof, provided the county transfers parkland in Glen Helen Regional Park pursuant to specified conditions, including the acquisition of substitute parkland. The bill would also make technical corrections.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 311 (AB 136) Emmerson Search and Rescue Memorial.

Existing law prescribes various duties for the Department of General Services in connection with development and maintenance of the park around the State Capitol Building.

This bill would authorize the California State Sheriffs Search and Rescue Coordinators, in consultation with the department and a specifically created committee, to construct and maintain a memorial in the Capitol Historic Region to honor California search-and-rescue volunteers who have died in the line of duty. It would require that the planning, construction, and maintenance of the memorial be funded with private donations through a nonprofit foundation to be established. It also would prohibit construction of the memorial until the master plan of the State Capitol Park is approved and adopted by the Joint Committee on Rules and the Department of Finance has determined that sufficient private funding is available to construct and maintain the memorial.

Ch. 312 (AB 192) Committee on Budget State government.

(1) Existing law authorizes a salary of \$91,054 to be paid to specified positions within state government, and authorizes an increase of that salary in any fiscal year in which a general salary increase is provided for state employees, as specified.

This bill would include the State Chief Information Officer and the Secretary for Environmental Protection within these provisions.

(2) Existing law provides that the Secretary of the Business, Transportation and Housing Agency has the power of general supervision for, and is directly responsible to the Governor for, the operations of each department, office, and unit within the Business, Transportation and Housing Agency. Existing law also establishes the Special Deposit Fund and the Small Business Expansion Fund in the State Treasury. Existing law provides that the Small Business Expansion Fund is continuously appropriated to the Business, Transportation and Housing Agency for specified purposes.

This bill would require the secretary to administer the Economic Adjustment Assistance Grant, as the successor to the former Secretary of Technology, Trade and Commerce. This bill would also transfer funds held in trust in the Sudden and Severe Economic Dislocation Grant Account of the Special Deposit Fund to, and would also direct specified loan repayments to, the Small Business Expansion Fund, for specified purposes for use by the Business, Transportation and Housing Agency. By making these additional funds available for expenditure by the agency from a continuously appropriated fund, this bill would make an appropriation.

(3) Existing law establishes the Infill Incentive Grant Program of 2007, that requires the Department of Housing and Community Development, upon a specified appropriation by the Legislature, to establish and administer a competitive grant program to allocate those funds to selected capital improvements projects relating to qualifying infill projects or qualifying infill areas, as defined.

This bill would modify the affordability requirements for a qualifying infill project or qualifying infill area.

- (4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 313 (AB 193) Committee on Budget Transportation revenues.

(1) Existing law, pursuant to Chapter 173 of the Statutes of 2007, creates the Transportation Debt Service Fund and the Mass Transportation Fund, among other things, for the purpose of using transportation revenues for the payment of debt service on transportation bonds and to reimburse the General Fund for past debt service payments on transportation bonds and for certain payments required to be made by the General Fund to transportation funds governed by Article XIX B of the California Constitution. In that regard, certain transportation revenues are transferred to those funds by Chapter 173 of the Statutes of 2007, and the sum of \$339,289,345 from the Transportation Debt Service Fund is appropriated for the purpose of paying debt service in the 2007–08 fiscal year on specified bond measures.

This bill would delete the above-described appropriation and instead authorize the Director of Finance to reimburse the General Fund for up to \$339,289,345 from the Transportation Debt Service Fund for the purpose of offsetting the cost of debt service in the 2007–08 fiscal year on specified bond measures. The bill would also authorize the Director of Finance to reimburse the General Fund for \$200,000,000 from the Transportation Debt Service Fund for the purpose of offsetting the cost of debt service payments made in prior fiscal years on transportation-related bond expenditures and for \$82,678,000 in the 2007–08 fiscal year from the Mass Transportation Fund for the purpose of offsetting payments made by the General Fund to transportation funds governed by Article XIX B of the California Constitution.

(2) Existing law, pursuant to Chapter 181 of the Statutes of 2007, designates certain state agencies as the administrative agencies for certain bond accounts for the purpose of implementing the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006. Under these provisions the Controller is designated as the administrative agency for the Local Street and Road Improvement, Congestion Relief, and Traffic Safety Account of 2006.

This bill would delete the designation of the Controller in that regard. The bill would make various other technical, nonsubstantive changes.

- (3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 314 (AB 196) Committee on Budget Transportation bond funds: cities and counties.

Existing law, the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B at the November 7, 2006, general election, authorizes the issuance of general obligation bonds for various transportation purposes, including \$2,000,000,000 for local streets and roads. Chapter 181 of the Statutes of 2007 enacts implementing provisions relative to the bond funds available for this purpose.

This bill would require the Controller to allocate the \$950,000,000 appropriated in the 2007–08 fiscal year from Proposition 1B bond funds for local streets and roads to counties in the amount of \$400,000,000 and cities in the amount of \$550,000,000. The bill would make other related changes to the provisions enacted by Chapter 181 of the Statutes of 2007.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 315 (AB 246) Torrico County employees' retirement: retirement boards.

The County Employees Retirement Law of 1937 prohibits a member or employee of a retirement board from becoming an endorser, surety, or obligor on, or from having any personal interest in the making of an investment for the board, or in the gains or profits that accrue from those investments, except as specified.

This bill would prohibit a member or employee of a retirement board or board of investments from selling or providing any investment product that would be considered an

asset of the retirement fund to a retirement system established under that law. The bill would also make technical, nonsubstantive changes to these provisions.

Ch. 316 (AB 452) Arambula Voter registration: notification of change in party affiliation.

(1) Existing law requires the local elections official to send a voter notification form upon receipt of a properly executed affidavit of registration or when the local elections official receives an official notice that the voter's address has changed. Existing law requires the voter notification form to inform the voter of his or her party affiliation, that he or she is registered to vote, and that he or she may vote in any election held 15 or more days after the date shown on the notice.

This bill would require the local elections official to send a voter notification form when the voter's recent registration indicates a change in party affiliation. The bill also would authorize the Secretary of State, in coordination with local elections officials who choose to participate, to develop specific procedures to address complaints related to voter registration, as specified. By imposing new duties on elections officials, this bill would impose a state-mandated local program.

(2) Existing law requires the Secretary of State to print blank forms of the voter notification described above, and to supply the forms to county elections officials, as requested. Existing law authorizes the Secretary of State to continue to supply existing voter notification forms prior to printing new or revised forms, as specified.

This bill would authorize county elections officials to continue to use existing voter notification forms prior to printing new or revised forms, as specified.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 317 (AB 538) Emmerson Sales and use taxes: exemptions: children's clothing.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. That law provides various exemptions from that tax, including an exemption for new children's clothing, which is sold to a nonprofit organization, as defined, for its distribution, without charge, to elementary schoolchildren.

This bill would, until January 1, 2014, expand this exemption to provide that any new children's clothing that is sold to a nonprofit organization for its distribution to all children, without charge, are exempt from that tax, and would modify the definition of a nonprofit organization to include other tax exempt organizations, as specified.

Counties and cities are authorized to impose local sales and use taxes in conformity with state sales and use taxes. Exemptions from state sales and use taxes enacted by the Legislature are automatically incorporated into the local taxes.

Section 2230 of the Revenue and Taxation Code provides that the state will reimburse counties and cities for revenue losses caused by the enactment of sales and use tax exemptions.

This bill would provide that no appropriation is made and the state shall not reimburse local agencies for sales and use tax revenues lost by them pursuant to this bill.

This bill would take effect immediately as a tax levy. However, the provisions of this bill would not become operative until January 1, 2008.

Ch. 318 (AB 554) Hernandez Public employees: benefits.

The Public Employees' Medical and Hospital Care Act permits an employer to elect to participate in the prefunding of health care coverage for annuitants. Under that law, if an employer elects to participate in the prefunding of health care coverage for annuitants, the Board of Administration of the Public Employees' Retirement System determines the contribution rate for that employer. That law requires the board of administration to notify each employer that provides retirement benefits through the Public Employees' Retirement System of that employer's contribution rate, regardless of whether that employer participates in the prefunding of health care coverage.

This bill would revise and recast those provisions to permit the Board of Administration of the Public Employees' Retirement System to authorize an employer to participate in the prefunding of health care coverage and other postemployment benefits for annuitants. The bill would require a participating employer to contract with the board of administration regarding specified terms and conditions of the prefunding of health care coverage and other postemployment benefits.

Ch. 319 (AB 566) Plescia Water conservation.

(1) Existing law, the Water Conservation in Landscaping Act, required the Department of Water Resources, by January 1, 1992, to adopt a model local water efficient landscape ordinance that each local agency may adopt. Existing law further requires the department, to the extent funds are appropriated for this purpose, by January 1, 2009, and after holding public hearings, to update the model water efficient landscape ordinance that may include climate information for irrigation scheduling based on the California Irrigation Management Information System.

This bill would make a technical change to these provisions.

(2) Existing law requires the Department of Water Resources to update the California Water Plan every 5 years and to release, one year prior to issuing each successive update, a preliminary draft of the assumptions and other estimates upon which the study will be based, including, among other things, evapotranspiration rates for major crop types, including estimates of evaporative losses by irrigation practice and the extent to which evaporation reduces transpiration.

This bill would require the Department of Water Resources to continue the operation of the California Irrigation Management Information System to allow evapotranspiration data to be generated for, and made available to, all regions of the state, and would require the department to develop a standard data protocol for evapotranspiration data, as specified, to the extent funds are appropriated for these purposes. The bill would also provide that specified funds are available, upon appropriation, to provide regional contributions toward satisfying these provisions.

Ch. 320 (AB 753) Committee on Public Employees, Retirement and Social Security County employees' retirement: administration.

(1) The County Employees Retirement Law of 1937 sets forth the membership composition for boards of retirement and boards of investments, as specified. Under that law, the retirement board in specified counties is comprised of 9 members. That law provides that the retirement board in those counties is authorized to appoint an alternate retired member to the office of the 8th member of the board from a list of nominees, as specified. That law also provides that the alternate retired member is entitled to the same compensation as the 8th member of the retirement board for attending a meeting. Under that law, when an alternate retired member is appointed to the retirement board, the alternate safety member of the retirement board shall not sit or act for the 8th member of the board. That law permits the board of supervisors for counties for which these provisions apply to provide that certain members of these boards shall receive compensation of not more than \$100 for a meeting or for a meeting of a committee authorized by the entire board.

This bill would provide that the alternate safety member of the retirement board shall not sit or act for the 8th member of the retirement board unless both the 8th member and the alternate retired member of the retirement board are not attending a meeting, as specified. The bill would also provide that the board of supervisors may provide that an alternate retired member of a board of retirement may be paid for meetings, as described above. The bill would also delete the requirement that a committee meeting be authorized by the entire board to be compensable, and instead would require that the committee meeting be authorized by the board.

(2) That law permits the board of supervisors in Los Angeles County to provide that certain members of the board of investments and the board of retirement shall receive compensation of not more than \$100 for a meeting, or for a meeting of a committee authorized by a vote of 6 members of the board, not to exceed 3 meetings per month.

This bill would provide, in Los Angeles County, that the board of supervisors may provide that an alternate retired member of a board of retirement may be paid for meetings, as described above. The bill would delete the requirement that a committee meeting be authorized by a vote of 6 members of the board to be compensable, and instead would require that the committee meeting be authorized by the board. The bill would also permit payment for up to 5 meetings per month, instead of 3. The bill would also delete a provision related to compensation for specified board members of a 5-member board of retirement in Los Angeles County.

(3) Under that law, if the proof received, including any medical examination, shows to the satisfaction of the board of retirement that a member is permanently incapacitated physically or mentally for the performance of his or her duties in the service of his or her public employer, the board of retirement shall grant that member a disability retirement allowance.

This bill would permit a board of supervisors in Los Angeles County to provide that certain members of a board of retirement shall receive compensation for the review and analysis of disability retirement cases. The bill would provide that this compensation shall be limited to the first time a case is considered by the board of retirement and shall not exceed \$100 per day, to be prorated and not to exceed 32 hours a month, subject to a change based on the Consumer Price Index, as specified.

Ch. 321 (AB 754) Committee on Public Employees, Retirement and Social Security Public employees.

(1) Existing law requires the Department of Personnel Administration to provide any side letter, appendix, or other addendum to a properly ratified memorandum of understanding that requires the expenditure of \$250,000 or more related to salary and benefits and that is not already contained in the original memorandum of understanding or the Budget Act to the Joint Legislative Budget Committee. Existing law requires the Joint Legislative Budget Committee, within 30 days after receiving the side letter, appendix, or other addendum, to determine if the addendum presents substantial additions that are not reasonably within the parameters of the original memorandum of understanding and thereby requires legislative action to ratify the addendum.

This bill would approve addenda to memoranda of understanding entered into by the state employer and State Bargaining Units 1, 7, and 16 that require the expenditure of funds. The bill would approve provisions of the addenda that require the expenditure of funds. The bill would provide that those provisions shall not take effect unless the funds are specifically appropriated by the Legislature or already exist within available appropriations, and would allow the reopening of negotiations if the Legislature does not approve or fully fund any addendum included in the bill.

(2) The Public Employees' Retirement Law provides a comprehensive set of rights and benefits based upon age, service credit, and final compensation. Existing law defines final compensation variously for different member classifications and bargaining units and, in this regard, defines final compensation for a state member for the purpose of calculating

retirement benefits as the highest annual average compensation earnable by the member during a designated 12-month period.

Existing law provides that final compensation for certain patrol members, including patrol members in State Bargaining Unit 5, for specified patrol service shall be increased by 6% if the member retires or dies on or after July 1, 2007, but prior to July 1, 2008, by 4% if the member retires or dies on or after July 1, 2008, but prior to July 1, 2009, and by 2% if the member retires or dies on or after July 1, 2009, but prior to July 1, 2010.

This bill would provide that final compensation for these patrol members shall be increased by 6% if the member retires or dies on or after July 1, 2008, but prior to July 1, 2009, by 4% if the member retires or dies on or after July 1, 2009, but prior to July 1, 2010, and by 2% if the member retires or dies on or after July 1, 2010, but prior to July 1, 2011.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 322 (AB 756) Committee on Public Employees, Retirement and Social Security Memoranda of understanding: addenda.

Existing law requires the Department of Personnel Administration to provide any side letter, appendix, or other addendum to a properly ratified memorandum of understanding that requires the expenditure of \$250,000 or more related to salary and benefits and that is not already contained in the original memorandum of understanding or the Budget Act to the Joint Legislative Budget Committee. Existing law requires the Joint Legislative Budget Committee, within 30 days after receiving the side letter, appendix, or other addendum, to determine if the addendum presents substantial additions that are not reasonably within the parameters of the original memorandum of understanding and thereby requires legislative action to ratify the addendum.

This bill would approve the addenda to memoranda of understanding entered into by the state employer and State Bargaining Units 1, 3, 8, 18, 19, and 20 that require the expenditure of funds, as specified. The bill would further approve provisions of the addenda that require the expenditure of funds, and would appropriate \$26,516,000 from the General Fund and other unallocated nongovernmental cost funds for those purposes. The bill would provide that those provisions shall not take effect unless the funds are specifically appropriated by the Legislature or already exist within available appropriations, and would allow the reopening of negotiations if the Legislature does not approve or fully fund any addendum.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 323 (AB 757) Committee on Public Employees, Retirement and Social Security Teachers: retirement and employment.

(1) The State Teachers' Retirement Law specifies the days or hours of creditable service that equal "full time" for the purpose of calculating benefits under the Defined Benefit Program of the State Teachers' Retirement System, with a minimum standard applied to employees providing kindergarten through grade 12 instruction, as specified.

This bill would apply that minimum standard to employees providing prekindergarten instruction.

(2) That law provides for the election of 3 members to the Teachers' Retirement Board at elections conducted by the board. Two of those members are to be elected by active members of the Defined Benefit Program and active participants of the Cash Balance Benefit Program, subject to the requirement that the members, inclusive, and participants are employed by a school district that provides instruction for kindergarten and grades 1 to 12, inclusive.

This bill would also allow those members, inclusive, and participants to be persons employed by a school district that provides instruction for prekindergarten.

(3) That law allows the Teachers' Retirement Board to perform any acts necessary for the administration of the State Teachers' Retirement System. That law also requires each member or beneficiary of the system to furnish to the board any information affecting his or her status as a member or beneficiary of the Defined Benefit Program as the board requires.

This bill would clarify that the board has the authority to request, and that, upon request, a member, participant, or beneficiary is required to provide to the board, financial statements, certified copies of state and federal income tax records, evidence of financial status, and employment, legal, or medical documentation.

(4) That law provides that information filed with the State Teachers' Retirement System by a member, participant, or beneficiary of the plan is confidential, to be released only upon specified circumstances.

This bill would allow the system to release that information to specified persons in relation to disability claims or if detrimental to the member, as specified.

(5) That law allows the governing board of a school district or a community college district or a county superintendent of schools to establish regulations that allow an employee who is a member of the Defined Benefit Program to reduce his or her workload from full time to part time and receive the service credit the member would have received had the member been employed on a full-time basis.

This bill would require workload reductions to commence at the beginning of the school year, thereby prohibiting midyear reductions.

(6) That law permits a member of the Defined Benefit Program to elect to purchase additional service credit if specified contributions are paid to the State Teachers' Retirement System. That law permits the member to purchase as additional service credit time spent on approved maternity or paternity leave of 2 years or less in duration, as specified.

This bill would instead permit a member of the Defined Benefit Program to purchase as additional service credit time spent on leave approved by an employer in this state as maternity or paternity leave, not to exceed 24 consecutive months.

(7) That law provides when a member is granted a disability allowance and attains normal retirement age, his or her disability allowance is terminated and the member is eligible for a service retirement. That law prohibits the State Teachers' Retirement System from calculating that service retirement based upon service credited for unused sick leave.

This bill would additionally prohibit the State Teachers' Retirement System from calculating that service retirement based upon service credited for unused leave of absence for education.

(8) Under that law, any retired member who was unmarried or not in a registered domestic partnership at the time of retirement, may, after the effective date of retirement, name his or her new spouse or domestic partner as his or her option beneficiary, subject to specified requirements.

Upon that election, this bill would require the retired member to also submit a certified copy of his or her marriage certificate or certificate of registration of domestic partnership.

(9) Under that law, a member may cancel a preretirement election of an option on a properly executed form provided by the State Teachers' Retirement System on or before the day preceding the effective date of retirement or during the period between termination of the retirement allowance, as specified.

This bill would instead allow a member to make changes to a preretirement election, subject to receipt within a specified 30-day period, and would provide that a change or cancellation of that election shall become effective as of the date of the member's signature.

(10) Under that law, retired members and nonmember spouses, disabled members, and beneficiaries of the Defined Benefit Program receive monthly allowances that are subject to supplementary increases to preserve their purchasing power, and an increase according to a specified schedule, payable commencing on or before July 1, 2001.

This bill would provide that if the monthly allowance payable to these retired members and nonmember spouses, disabled members, and beneficiaries is adjusted after the effective date of these provisions, the increase according to the specified schedule applied on the effective date of these provisions, shall also be applied to the adjusted monthly allowance payable.

(11) That law establishes the Teachers' Deferred Compensation Fund, a continuously appropriated fund, as a repository for funds received by the State Teachers' Retirement

System pursuant to administering funds received in administering specified deferred compensation plans. That law also requires the Teachers' Retirement Board to establish a vendor registration process for the purposes of providing information about tax-deferred retirement investment products. That law requires the premium and fee revenues and compensation deferrals from specified annuity and custodial accounts and the vendor registration process to be deposited into trust accounts in the Teachers' Deferred Compensation Fund.

This bill would require specified assets and fee revenue for administrative and compliance services to be deposited in the Deferred Compensation Administrative and Compliance Services Operating Account in the Teachers' Deferred Compensation Fund. The bill would prohibit the expenditure of the assets and fee revenue for a purpose other than an expenditure used to carry out the purpose of those assets and fee revenue. By authorizing a new purpose for the expenditure of moneys in a continuously appropriated fund, this bill would make an appropriation.

(12) That law permits a member of the Defined Benefit Program to elect to purchase service in the uniformed services of the United States or out-of-state service as service credit in that program. That law also permits a person who had his or her accumulated contributions refunded and again becomes a member of the Defined Benefit Program to redeposit his or her accumulated contributions with interest, as specified. That law establishes the Defined Benefit Supplement Program to provide supplemental retirement benefits for members of the Defined Benefit Program. That law permits the member, as part of the Defined Benefit Supplement Program, to elect from among several forms of retirement benefit payments, including a lump-sum payment, an annuity payable in monthly installments, or a combination of the lump-sum payment and the annuity.

This bill would prohibit a member from using a lump-sum payment under these provisions to purchase additional service, out-of-state service, or service in the uniformed services of the United States as service credit, or to redeposit previously refunded retirement contributions, as specified.

(13) Existing law allows the governing board of any school district that maintains kindergarten or grades 1 to 12, inclusive, classes in bilingual education or special education programs to employ district interns to provide instruction to pupils in those grades or classes as classroom teachers, subject to specified requirements.

This bill would extend that authority to the governing board of any school district that maintains prekindergarten classes in bilingual education or special education programs.

(14) The bill would also make various technical and clarifying changes to the State Teachers' Retirement Law.

Ch. 324 (AB 771) De Leon Agricultural industry.

Existing law requires the Department of Food and Agriculture, headed by the Secretary of Food and Agriculture, to promote and protect the agricultural industry of the state.

This bill would authorize the secretary, when conflicts arise between sectors of agriculture, to designate agricultural working groups to work toward conflict resolution. Members of the working groups would be appointed by and serve at the pleasure of the secretary, in accordance with specified procedures.

Existing law generally regulates beekeepers, honey producers, and citrus growers.

This bill would make findings and declarations about the threat to the seedless mandarin industry caused by other agricultural products. The bill would enact the Seedless Mandarin and Honeybee Coexistence Working Group Act, which would require the secretary, no more than 15 days after enactment of this bill, to designate a Seedless Mandarin and Honeybee Coexistence Working Group to meet regularly to develop best management practices that address the coexistence issues related to production of seedless mandarin varieties in specified counties while providing reasonable access to citrus to the bee industry. The bill would give the Seedless Mandarin and Honeybee Coexistence Working Group reasonable

time to develop best management practices and also would grant the secretary the authority to adopt regulations, as deemed necessary, if the working group fails to reach consensus prior to June 1, 2008. However, the bill would require the secretary to adopt regulations no later than February 1, 2009, if the working group fails to reach consensus by June 1, 2008.

Ch. 325 (AB 829) Duvall Vehicles: aftermarket parts: motorcycles: air pollution.

Vehicles in this state, with certain exceptions, are required to be equipped with correctly installed, operational motor vehicle pollution control devices or systems, with specified exceptions.

This bill would allow aftermarket and performance parts to be sold and installed on motorcycles, concurrent with a motorcycle's transfer to an ultimate purchaser, where the parts have valid State Air Resources Board Executive Orders.

Ch. 326 (AB 1008) Charles Calderon Insurance: vehicle service contracts.

Existing law defines "vehicle service contract" for purposes of provisions relating to sellers of vehicles.

This bill would change the definition of "vehicle service contract" to include only those agreements that have a term of at least one year that promise routine maintenance, and agreements that promise repair or replacement of a tire, wheel, or glass on a vehicle, as specified.

Under existing law, certain types of agreements or contracts do not constitute insurance, including a maintenance service contract with a term of one year or less that does not contain provisions for indemnification and does not provide a discount to the purchaser, as specified.

This bill would delete that provision and instead provide that an agreement promising only routine maintenance that does not constitute a vehicle service contract does not constitute insurance.

Existing law provides that prior to offering a vehicle service contract form to a purchaser or providing a vehicle service contract form to a seller, an obligor shall file with the commissioner a specimen of that vehicle service contract form.

This bill would provide that a vehicle service contract may include any or all specified benefits, subject to specified requirements.

Existing law provides that prior to incurring an obligation under a vehicle service contract, an obligor shall file with the commissioner, as specified, a policy covering 100% of the obligor's vehicle service contract obligation.

This bill would provide that in lieu of filing an insurance policy as specified prior to incurring an obligation under a vehicle service contract, an obligor or its parent company may establish to the commissioner's satisfaction that it possesses a net worth of \$100,000,000 and provides the commissioner, upon request, with specified documentation. The bill would also provide that if the obligor elects to meet the net worth requirement through the parent company, the parent company shall agree in writing to guarantee the obligations of the obligor relating to contracts of the obligor issued in this state.

Ch. 327 (AB 1124) Karnette County employees' retirement.

(1) The County Employees Retirement Law of 1937 sets forth the membership composition for boards of retirement and boards of investments, as specified. Under that law, the retirement board in specified counties is comprised of 9 members and, unless there is no eligible candidate, an alternate member who is the candidate for the 7th member from the group of safety members under specified provisions that is not represented by a board member who received the highest number of votes for all candidates in that group. Under that law, the alternate member shall vote as a member of the retirement board only if the 2nd, 3rd, 7th, or 8th member is absent from a board meeting or if there is a vacancy on the board with respect to those members, as specified.

This bill would, unless prohibited by a resolution or regulation of the board, provide that the alternate member shall have the same rights, privileges, responsibilities, and access to closed sessions as the 2nd, 3rd, 7th, or 8th member and permit the alternate member to hold positions on committees of the board independent of the 2nd, 3rd, 7th, or 8th member and permit the alternate member to participate in the deliberations of the board or its committees whether or not the 2nd, 3rd, 7th, or 8th member is present.

(2) That law also provides that in counties in which the board of retirement or the board of retirement and the board of investments have appointed personnel, as defined, the respective board or boards shall annually adopt a budget covering the entire expense of the administration of the retirement system and that expense shall be charged against the earnings of the retirement fund. That law prohibits the expense incurred in any year from exceeding $\frac{18}{100}$ of 1% of the total assets of the retirement system.

This bill would provide, until January 1, 2013, that if during any year the expense of administration of the retirement system includes expenditures for software, hardware, and computer technology consulting services in support of that software or hardware, the expense incurred may not exceed the greater of the sum of $\frac{18}{100}$ of 1% of the total assets of the retirement system plus \$1,000,000 or $\frac{23}{100}$ of 1% of the total assets of the retirement system.

(3) That law permits the board of supervisors of a county or the governing body of a district or other public entity, with the agreement of the board of retirement, to provide for the contribution of funds into a Post-Employment Benefits Trust Account and requires the retirement system to establish the account as part of the retirement fund. Existing law establishes the Post-Employment Benefits Trust Account for the purpose of funding the benefits provided under a post-employment group health, life, or other welfare benefits plan established and maintained by the county or district. Existing law prohibits the use of the assets of the retirement fund for paying the costs of benefits provided through the Post-Employment Benefits Trust Account, but permits the account assets to be invested with retirement fund assets. Existing law requires that the funds in the account be separately accounted on the books of the retirement system. If the board of retirement elects to terminate the account, existing law provides a specific order and method for disbursing the funds in the account, and requires an employer to retain sufficient amounts to pay for the post-employment insurance benefits for participants in plans provided by the former participating employer. Existing law permits an employer participating in the Post-Employment Benefits Trust Account to expressly delegate specified responsibilities in this regard to the retirement system.

This bill would provide that the retirement system's action to establish the Post-Employment Benefits Trust Account as a part of the retirement fund is discretionary and not mandatory. The bill would additionally provide that a permitted use of funds in the account is for the funding of benefits provided under a supplemental benefits plan generally. The bill would delete the requirement that the retirement system account for Post-Employment Benefits Trust Account funds on the books of the system. The bill would specify that various actions in connection with the Post-Employment Benefits Trust Account be taken in conformance with federal law and the California Constitution. The bill would require, upon termination of the account, as described above, that the employer retain sufficient amounts to pay for post-employment benefits generally for participants in plans provided by the former participating employer. The bill would correct an erroneous cross-reference.

Ch. 328 (AB 1187) DeSaulnier Sturgeon: abalone: lobster: Centrarchidae: penalties.

(1) Existing law prohibits any person from taking abalone for commercial purposes in specified districts. Existing law establishes a rebuttable presumption, affecting the burden of producing evidence, that a person who is required to obtain a license to take a fish, reptile,

or amphibia, and who takes or possesses more than 12 individual abalone or takes abalone in excess of the annual bag limit, possesses the abalone for commercial purposes.

This bill would repeal the rebuttable presumption that a person who takes or possesses a specified amount of abalone possesses it for commercial purposes. The bill would make the possession of specified amounts of abalone prima facie evidence that it is possessed for commercial purposes.

(2) Under existing law, except as specified, it is unlawful to buy or sell, or to offer to buy or sell, a whole sturgeon, or any part thereof, including eggs, or to possess sturgeon, or parts thereof, including eggs, in any place where fish are bought, possessed for sale, or sold, or where food is offered for sale, or in any truck or other conveyance operated by or for a place so selling or possessing fish.

Existing law prohibits the taking of lobsters for commercial purposes except under a valid lobster permit.

Existing law generally prohibits the sale or purchase of fish of the family Centrarchidae (Sacramento perch, crappie, black bass, and sunfish), other than cultured fish.

This bill, with certain exceptions, would make it unlawful to take or possess for commercial purposes, buy, or sell, or to offer to buy or sell, any whole sturgeon, or any part thereof, including, but not limited to, eggs, thereby imposing a state-mandated local program by creating a new crime.

The bill would make the possession of specified amounts of sturgeon or lobster prima facie evidence that it is possessed for commercial purposes.

The bill would also prohibit the taking or possession for commercial purposes of fish of the family Centrarchidae, thereby imposing a state-mandated local program by creating new crimes.

The bill would make a violation of the provisions prohibiting the sale, purchase, or possession of sturgeon for commercial purposes subject to a fine of not less than \$5,000, or more than \$10,000, or imprisonment in a county jail not to exceed one year, or both the fine and imprisonment. The bill would make a violation of the provisions prohibiting the sale, purchase, or possession of lobster subject to a fine of not less than \$5,000, or more than \$10,000, or imprisonment in a county jail not to exceed 6 months, or both the fine and imprisonment.

The bill would require a court to permanently revoke any commercial fishing license or commercial fishing permit, and authorize the court to permanently revoke any sport fishing license, issued to a violator by the Department of Fish and Game. The bill would authorize the seizure and forfeiture of any vessel, diving or other fishing gear or apparatus, or vehicle used in the commission of specified offenses, but would prohibit a judge from ordering the forfeiture of a vehicle if there is a community property interest in the vehicle that is owned by a person other than the defendant and the vehicle is the only vehicle available to the defendant's immediate family that may be operated on the highway with a class A, B, or C driver's license. The bill would provide that 50% of the revenue deposited in the Fish and Game Preservation Fund from fines and forfeitures collected pursuant to those provisions is to be allocated for the support of the Special Operations Unit of the department, and used for law enforcement purposes.

(3) Subject to regulation by the department, existing law authorizes, the sale or purchase of a striped bass, or parts thereof, if the striped bass is taken or possessed by, and is the cultured progeny of, a registered aquaculturist, or if the striped bass is taken legally in another state that permits the sale of that fish and if the fish is lawfully imported pursuant to a specified law.

This bill would additionally authorize the offering for sale of a striped bass, or parts thereof, if the above-described conditions are met. The bill would authorize the sale or offering for sale of a salmon, or parts thereof, if the salmon is lawfully taken in another state that permits the sale of salmon, and the salmon is lawfully imported pursuant to a specified law, or if the

salmon is taken under authority of a commercial fishing license and meets certain seasonal, catch location, and size requirements.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 329 (AB 1222) Laird State mandates: legislatively determined mandate.

(1) Under the California Constitution, whenever the Legislature or a state agency mandates a new program or higher level of service on any local government, including school districts, the state is required to provide a subvention of funds to reimburse the local government, with specified exceptions. Existing law establishes a procedure for local governmental agencies to file claims for reimbursement of these costs with the Commission on State Mandates. These procedures require that a claim for reimbursement include, among other things, a written narrative that identifies the specific sections of statutes or executive orders alleged to contain a mandate.

This bill would require that a test claim also identify the effective date and register number of regulations alleged to contain a mandate, as well as a legislatively determined mandate on the same statute or executive order. It would also require that the written narrative contain specified declarations with respect to legislatively determined mandates, if applicable.

(2) The procedures established by existing law also require the commission to hear and decide upon each claim for reimbursement and then determine the amount to be subvented for reimbursement and adopt parameters and guidelines for payment of claims. Existing law requires the commission to consult with the Department of Finance, among other state officials, when adopting parameters and guidelines for reimbursement.

This bill would provide that, notwithstanding these provisions, the department and a local agency, school district, or statewide association may jointly request that the Legislature determine if a particular statute or executive order imposes a mandate for which reimbursement is required by the California Constitution. It would require that a joint request submitted to the Legislature identify the statute or executive order, a reasonable reimbursement methodology, a list of eligible claimants, an estimate of statewide costs for the initial claiming period, an annual dollar amount necessary for reimbursement, and documentation of significant support among local agencies or school districts for the methodology. It would provide that, if the Legislature accepts the joint request and determines that the statute or executive order, or portion thereof, imposes a mandate for which reimbursement is required, it shall declare by statute that the requirements of the statute or executive order, or portion thereof, are a legislatively determined mandate, and specify the term and period of reimbursement and methodology for reimbursing eligible local agencies or school districts subject to specified criteria, or, with respect to local government agencies subject to specified provisions of the California Constitution applicable to the reimbursement of mandates, appropriate funds sufficient for reimbursement in the Budget Act or suspend the mandate.

The bill also would provide that, when it accepts reimbursement for a legislatively determined mandate, a local agency or school district agrees that payment as agreed to pursuant to the statute adopted by the Legislature constitutes full reimbursement of its costs for that mandate for the applicable period of reimbursement, that the reasonable reimbursement methodology is appropriate for reimbursement payments on that mandate for 5 fiscal years or as otherwise specified in the statute, and that the local government shall withdraw any test claim pending before the commission regarding this mandate, any unpaid reimbursement claims previously filed by the local agency or school district with the Controller on the same mandate for the same period shall be deemed withdrawn, and a test claim on the same statute or executive order as a legislatively determined mandate will not be filed with the commission except as specified.

The bill also would specify procedures for the commission in connection with a test claim based on the same statute or executive order as a legislatively determined mandate and make other conforming changes.

(3) The procedures established by existing law require the commission to submit adopted parameters and guidelines to the Controller for payment of reimbursement claims.

This bill would authorize the commission to instead adopt and submit to the Controller a reasonable reimbursement methodology proposed by a test claimant and the department and would require the Controller to issue claiming instructions pursuant to that methodology, as specified.

Ch. 330 (AB 1246) Blakeslee Land use: natural resources: transfer of property interests.

Existing law allows a state or local public agency to authorize a nonprofit organization to hold title to, and manage an interest in, real property that the state or local public agency requires a property owner to transfer to the agency to mitigate any adverse impact upon natural resources caused by permitting the development of a project or facility, provided the nonprofit organization meets certain requirements.

This bill would authorize a state or local public agency that, in the development of its own project, is required to transfer an interest in real property to mitigate an adverse impact upon natural resources, to transfer the interest to a nonprofit organization that meets the specified requirements.

Ch. 331 (AB 1288) Hayashi County employees: vision care.

(1) The County Employees Retirement Law of 1937 authorizes a county retirement board to give effect to a revocable written authorization signed by a retired member or beneficiary of a retired member entitled to a retirement allowance or benefit for the deduction of a specified amount for the purpose of paying for group life insurance, group disability insurance, prepaid group medical or hospital service plans, or dental plans approved by the board.

This bill would further allow for the written authorization of, and deduction for, any vision care program approved by a county retirement board.

(2) Existing law requires the Department of Personnel Administration to administer a vision care program for specified state annuitants and their dependents. The County Employees Retirement Law of 1937 provides a comprehensive set of benefits for county and district employees who are members of a retirement system subject to that law.

This bill would establish the County Retirement System Vision Care Program for purposes of providing vision care benefits to county and district retirees and their dependents, at retiree expense. The bill would permit the sponsor of the vision care program to contract with a 3rd-party administrator to provide vision care to the retired member, his or her survivors, and his or her eligible dependents.

Ch. 332 (AB 1316) Bass State teachers' retirement: disability.

(1) The State Teachers' Retirement Law permits a member of the Defined Benefit Program to elect from among several forms of retirement benefits based upon age, service credit, and final compensation. That law also permits a member of the Defined Benefit Program to apply for a disability allowance or disability retirement if the member has 5 or more years of credited service, and subject to specified requirements.

This bill would additionally permit a member of the Defined Benefit Program who is eligible and applies for a disability allowance or disability retirement to apply for and receive a service retirement pending a determination of his or her application for disability, and subject to specified requirements and restrictions. The bill would provide that a member may not cancel his or her application for disability prior to a determination of that application unless he or she submits a written request to the State Teachers' Retirement System, as

specified. The bill would permit a member to cancel his or her service retirement application or terminate his or her service retirement allowance pursuant to existing provisions of the State Teachers' Retirement Law. The bill would also permit the State Teachers' Retirement System to make appropriate adjustments to the applicable service retirement, disability allowance, or disability retirement of a member if the member cancels his or her service retirement application or terminates his or her service retirement allowance.

The bill would provide that if a member who applies for a service retirement pending a determination of his or her application for disability dies prior to a determination of the application for disability, any subsequent benefits payable to the member's surviving spouse or beneficiary shall be based on the service retirement allowance, as specified. The bill would also provide that if a member who is granted a disability allowance or a disability retirement dies prior to receiving notification of the approval of his or her application for disability, the disability allowance or disability retirement shall be payable to the member's surviving spouse or beneficiary, as specified.

The bill would further permit the State Teachers' Retirement System to recover a service retirement allowance overpayment made to a member subject to these provisions by deducting that overpayment from any subsequent disability benefit payable to the member.

(2) That law permits a member of the Defined Benefit Program who is at least 55 years of age, and prior to reaching 60 years of age, to elect to receive $\frac{1}{2}$ of the service retirement allowance for normal retirement age for a limited time and then revert to the full retirement allowance for normal retirement age. That law also permits a member of the Defined Benefit Program who retires for service prior to January 1, 2011, to elect to receive a lump-sum payment and an actuarially reduced monthly allowance in lieu of the monthly unmodified allowance that would otherwise be payable to the member.

This bill would provide that these provisions shall not apply to a member of the Defined Benefit Program who applies for a service retirement pending a determination of his or her application for disability.

Ch. 333 (AB 1317) Mullin Public employees' retirement: executive compensation.

(1) Existing law requires the Teachers' Retirement Board to fix compensation for certain positions in the State Teachers' Retirement System, notwithstanding specified authority granted to the Department of Personnel Administration.

This bill would extend that requirement to a general counsel position.

(2) Existing law requires the Board of Administration of the Public Employees' Retirement System to appoint and fix the compensation of certain employees of the system whose positions are designated as managerial, notwithstanding specified authority granted to the Department of Personnel Administration.

This bill would extend that requirement to a general counsel position.

Ch. 334 (AB 1368) Mullin School bonds: school and community college districts.

Existing law permits the governing board of a school district or a community college district, by resolution, to issue notes, on a negotiated or competitive-bid basis, maturing within a period not to exceed one year, in anticipation of the sale of bonds by that district at the time the notes are issued. All notes issued and any renewal of the notes are required to be payable at a fixed time not more than 5 years from the date of the original issuance of the note. If the sale of the bonds does not occur prior to the maturity of the notes, the fiscal officer of the district, in order to meet the notes then maturing, is required to issue renewal notes for this purpose. The renewal of a note may not be issued after the sale of bonds in anticipation of which the original note was issued.

A note and any renewal of a note are to be payable from the proceeds of the sale of bonds or of any renewal of notes or from other funds of the district lawfully available for the purpose of repaying the notes, including state grants.

This bill would authorize a district to issue notes that mature within a period not to exceed 5 years, rather than one year. The prohibition on the fiscal officer of a school district or a community college district issuing a renewal note that would have a maturity date later than 5 years from the date of the original issuance of the note would be restated.

Ch. 335 (AB 1401) Aghazarian Insurance fraud: assessments.

Existing law provides that the costs of administration and operation of the Fraud Division contained within the Department of Insurance are to be borne by all of the insurers admitted to transact insurance in this state. The assessment is equal among all insurers, in an amount adequate to operate the division, not to exceed \$1,300 each fiscal year.

This bill would repeal and recast this provision to require each insurer doing business in this state to pay an annual special purpose assessment to be determined by the commissioner, not to exceed \$5,100, to be used exclusively for the support of the Fraud Division. All moneys received by the commissioner from insurers pursuant to this special purpose assessment would be transmitted to the Treasurer to be deposited in the State Treasury to the credit of the Insurance Fund.

This bill would also require the department to report annually on the department's Internet Web site specified information, and make other conforming changes.

Ch. 336 (AB 1533) Committee on Banking and Finance Registered warrants: reimbursement warrants.

Existing law sets forth the procedures for the sale of registered reimbursement warrants, including the manner in which interest is fixed for the warrants.

This bill would specify that these procedures apply to the sale of registered reimbursement warrants at public sale, and would additionally specify procedures for the sale of registered reimbursement warrants in negotiated sales, including the establishment of fixed or variable interest rates for those warrants. The bill would additionally require written notification to specified legislative committees before and after the issuance of registered reimbursement warrants, subject to specified criteria.

Ch. 337 (AB 1581) Fuller Traffic-actuated signals: bicycles: motorcycles.

(1) Existing law provides for official traffic control devices.

This bill would include as an official traffic control device a traffic-actuated signal that displays one or more of its indications in response to the presence of traffic detected by mechanical, visual, electrical, or other means. Upon the first placement of a traffic-actuated signal or replacement of the loop detector of a traffic-actuated signal, the signal would have to be installed and maintained, to the extent feasible and in conformance with professional engineering practices, so as to detect lawful bicycle or motorcycle traffic on the roadway. Cities and counties would not be required to comply with those requirements until the Department of Transportation has established uniform standards, specifications, and guidelines for the detection of bicycles and motorcycles by traffic-actuated signals and related signal timing. The Commission on State Mandates would be required to consult with the Department of Transportation regarding mandate claims relating to these provisions. This bill would provide that its provisions would remain in effect until January 1, 2018, and would be repealed on that date. By imposing new duties on local government, this bill would impose a state-mandated local program upon local governments.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 338 (AB 1717) Committee on Agriculture Pesticides.

Existing law requires that any action brought for various violations of provisions of law and regulations regarding pesticides be commenced within 2 years of the occurrence of the violation, with specified exceptions, including actions brought to collect civil penalties imposed pursuant to specified provisions of law, which shall be brought within 4 years of the occurrence of the violation.

This bill would include among actions that shall be brought within 4 years of the violation, actions brought to collect civil penalties for violations of provisions of law prohibiting sale of any adulterated or misbranded pesticide.

Existing law generally regulates pest control operators, field representatives, and applicators.

This bill would require Branch 2 and Branch 3 structural pest control operator qualifying managers and companies registered with the Structural Pest Control Board to register with the agricultural commissioner prior to operating a structural pest control business within a county. This bill would provide that a fee may be levied at the time of the registration. This bill would also provide that the commissioner may levy a civil penalty against any person who violates these provisions.

This bill would also provide that it is unlawful for a board licensed Branch 1 pest controller licensee to conduct fumigations unless that person has registered with the commissioner. This bill would provide that a fee may be levied at the time of the registration. This bill would also provide that the commissioner may levy a civil penalty against any person who violates these provisions. Because this bill would create a new crime, this bill would impose a state-mandated local program.

This bill would also require licensed pest controllers, structural pest control operators, field representatives, applicators, and companies registered with the Structural Pest Control Board to notify the agricultural commissioner at least 24 hours prior to commencing fumigation operations.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 339 (AB 1735) Committee on Agriculture Milk and dairy products: standards.

Existing law regulates the cooling time for, temperatures of, and microbial standards for market milk, as specified.

This bill would reduce the required cooling time and temperatures of market milk, as specified. This bill would also specify a specific microbial standard for coliform bacteria within market milk, as specified.

Existing law provides that any violation of these provisions is a misdemeanor.

Because this bill would change the terms of a crime, the bill would impose a state-mandated local program.

Existing law defines half-and-half, ice cream, sherbet, nonfat dry milk, sour cream, yogurt, and eggnog, for purposes of regulation.

This bill would set forth limits on the amount of bacteria that may be present in any of those products.

Existing law provides that any violation of these provisions is a misdemeanor.

Because this bill would change the terms of a crime, the bill would impose a state-mandated local program.

Existing federal law defines light cream, coffee cream, or table cream, light whipping cream or whipping cream, heavy cream or heavy whipping cream, and whipped cream.

This bill would provide that these products shall be defined as food that complies with those provisions and would set forth limits on the amount of bacteria that may be present in any of those products. Because this bill would create new crimes, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 340 (AB 1745) Committee on Revenue and Taxation Government finance.

(1) Existing law authorizes the legislative body of a local agency that has a sinking fund or money in its treasury that is not required for immediate needs to invest in specified investments, including, among other things, bonds issued by the state and the United States.

This bill would authorize these local agencies to also invest in registered treasury notes and bonds issued by any of the 50 United States, as specified.

(2) Existing law imposes penalties upon taxpayers that pay their property taxes after specified delinquency dates. Existing law requires a property tax penalty to be canceled when the reason for the delinquency is that the property tax bill was sent to the wrong address, and authorizes county officials to cancel property tax penalties in other circumstances. Existing law provides for a supplemental property tax roll for property tax assessments made after the property tax lien date.

This bill would specify that these provisions relating to canceling penalties also apply to penalties imposed as a result of delinquent payments for assessments on the supplemental property tax roll.

(3) Existing law defines the term negotiable paper, which includes bank checks, drafts, and express and postal money orders, for purposes of payment of any tax or assessment, or on a redemption.

This bill would instead limit the term negotiable paper to include checks, drafts, and money orders.

(4) Existing law requires all taxes on the secured roll to be paid at the tax collector's office and authorizes the board of supervisors to order that the taxes be collected in any other or additional location within that county.

This bill would instead require that all taxes be paid at the tax collector's office and would authorize the board of supervisors to order that the taxes be collected in any other or additional location, regardless of whether that other or additional location is within that county.

(5) Existing law requires a tax collector to attempt to sell property that has become tax-defaulted 5 years or more after that property has become tax-defaulted, or 3 years or more after the property becomes tax-defaulted in the case of nonresidential commercial property, as defined, unless a county elects to instead have the 5-year period apply to nonresidential commercial property. Existing law requires the tax collector to provide a notice to taxpayers whose property is tax-defaulted, and requires that this notice specify the amount of taxes originally declared in default. Existing law requires the tax collector, in the case of an intended tax sale of tax-defaulted nonresidential commercial property, to notify specified parties at least 90 days before an intended sale or at least 90 days before the date upon which the property may be sold.

This bill would instead require the tax collector to notify taxpayers whose property is tax-defaulted of the amount necessary to redeem the property as of the date of the notice rather than the amount of taxes originally declared in default. This bill also would require the tax collector, in the case of an intended sale of nonresidential commercial property, to instead

notify the specified parties not less than 45 days, but not more than 120 days before, either the intended sale date or the date upon which the property may be sold.

(6) Existing law authorizes, but does not require, the tax collector to attempt to sell property that has been tax-defaulted for 3 years or more and is subject to a nuisance abatement lien either on his or her own volition or when requested by a city, county, city and county, or certain nonprofit entities pursuant to a specified statute. When a nonprofit organization makes such a request, existing law requires a city, county, or city and county, as applicable, to have a formal resolution of approval of the request.

This bill would authorize the tax collector to attempt to sell property that has been tax-defaulted for 3 years or more, regardless of whether it is subject to a nuisance abatement lien, when either requested by the specified entities pursuant to the specified statute or when requested by a person or entity that has a nuisance abatement lien on the property. This bill would also delete the requirement that a city, county, or city and county have a formal resolution of approval of a nonprofit entity's request to sell tax-defaulted property.

(7) Under existing law, if a taxpayer mistakenly pays property taxes on property that he or she does not own, the property tax is transferred to the property of the taxpayer for which the payment is intended. Existing law requires the county tax collector, upon being convinced by substantial evidence of a mistake, to refund property taxes mistakenly paid in the case in which there is no property of the taxpayer to which the payment may be applied. Existing law does not specify when the tax collector is to provide this refund.

This bill would require the tax collector, in the case in which there is no property of the taxpayer to which a mistaken property tax payment may be applied, to refund the mistakenly paid taxes at any time before a guaranty or certificate of title issues respecting the unintended property and before 2 years have elapsed since the date of the payment.

By changing the manner in which county officials administer tax-defaulted property notices and property tax refunds, this bill would impose a state-mandated local program.

(8) Existing law authorizes a taxpayer, his or her guardian or conservator, or the administrator of his or her estate to bring an action in superior court for a property tax refund if the refund claim was refused by local tax officials.

This bill would specify that these superior court actions may not be brought in the small claims division of the superior court.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 341 (AB 1747) Committee on Revenue and Taxation Franchise Tax Board: notices: last known address: check cashers: informational return: Taxpayers' Bill of Rights.

(1) The Personal Income Tax Law and the Corporation Tax Law authorize the Franchise Tax Board to administer and collect taxes imposed by those laws, and, among other things, require the board to send any notice addressed to a taxpayer by first-class mail postage prepaid but do not specify the address to which required notices must be sent. In this connection, the federal income tax law requires the Internal Revenue Service to mail a notice to the taxpayer at the taxpayer's last known address, as defined.

This bill, in specified conformity to federal income tax laws, would define "last known address" as the address that appears on the taxpayer's last tax return filed with the Franchise Tax Board, as provided, unless the taxpayer provides clear and concise written notification of a different address.

(2) Existing law requires a check casher, as defined, who cashes checks, as defined, for the same person in an aggregate amount exceeding \$10,000 within one calendar year, as provided, to file an informational return with the Franchise Tax Board, as specified. Existing law imposes civil penalties on persons who fail to file these returns or fail to supply all of the

information required by these returns. In the case of willful failures, existing law makes these failures a felony.

This bill would exclude one-party checks, payroll checks, and government checks, as defined, from those checks subject to the filing requirement.

(3) The Katz-Harris Taxpayers' Bill of Rights Act provides specified protections for taxpayers for purposes of, among other things, determining their correct tax liability. The act requires the Franchise Tax Board to perform annually a systematic identification of areas of recurrent taxpayer noncompliance and report its findings to the Legislature on October 1 of each year.

This bill would require the board to report its findings to the Legislature on December 1 of each year.

Ch. 342 (AB 1748) Committee on Revenue and Taxation Taxation.

(1) The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. Existing law exempts from the use tax the first \$400 of tangible personal property that is both purchased in a foreign country and personally hand-carried into this state.

This bill would modify that use tax exemption by exempting the first \$800 of tangible personal property that is purchased outside this state and personally hand-carried into this state.

(2) Under the Sales and Use Tax Law and the Motor Vehicle Fuel Tax Law, certain taxpayers whose monthly tax liabilities meet or exceed specified amounts are required to make monthly prepayments of their tax liability. Under those laws, if a taxpayer fails to make timely prepayment of the tax liability, a 6% penalty will apply to the amount not timely remitted. Existing law also requires that the penalty be increased to 10%, as provided, if a person's failure to make a prepayment is due to negligence or intentional disregard of that law. Existing law does provide a mechanism for a taxpayer to dispute the imposition of the negligence penalty.

This bill would provide that the 10% negligence penalty law would be assessed as a deficiency determination in order to allow taxpayers an opportunity to dispute the application of the negligence penalty by filing a petition for redetermination.

(3) The Bradley-Burns Uniform Local Sales and Use Tax Law and the Transactions and Use Tax Law authorize local governmental agencies to impose sales and use taxes in modified conformity to state sales and use taxes and authorize the State Board of Equalization to impose specified charges in administering those local taxes, as provided.

This bill would make clarifying changes to those provisions.

(4) The Bradley-Burns Uniform Local Sales and Use Tax Law provides that all sales and use taxes collected by the State Board of Equalization pursuant to contract with any city, city and county, redevelopment agency, or county, shall be transmitted by the board to those local entities, as specified.

This bill would repeal obsolete provisions related thereto.

(5) Existing law authorizes various local governmental entities, subject to certain limitations and approval requirements, to levy transactions and use taxes in accordance with the procedures and requirements set forth in the Transactions and Use Tax Law, and requires the local governmental entities, including districts, as defined, to contract with the State Board of Equalization to administer all transactions and use taxes, as authorized. Existing law provides that all such taxes collected by the board must be transmitted to the local governmental entities based on the location in which the sales were made. Existing law, however, does not provide a mechanism for the board to redistribute the transactions and use tax revenues that have been misallocated to a district.

This bill would allow the board to redistribute the revenues, collected by the board pursuant to a contract with the districts, that were originally misallocated by the board, but would limit the amounts eligible for the redistribution only to those amounts that were

originally distributed not earlier than 2 quarterly periods prior to the quarterly period in which the board obtains knowledge of the improper distribution.

This bill would also make clarifying changes to and would repeal obsolete provisions under the Transactions and Use Tax Law.

(6) The Use Fuel Tax Law and the Diesel Fuel Tax Law both impose a tax upon each gallon of fuel subject to tax under those laws, and provide, as specified, for the transfer of revenues derived from those taxes, after authorized refunds and other allocations for specified purposes, to the Highway Users Tax Account in the Transportation Tax Fund. The Motor Vehicle Fuel Tax Law also imposes a tax of \$0.18 per gallon of fuel and requires that a portion of the amounts collected under that law be continuously appropriated for expenditure for specified purposes.

Existing law requires the Controller to transfer revenues derived from the taxes imposed under the Use Fuel Tax Law and the Diesel Fuel Tax Law to the Highway Users Tax Account at the same time as the transfers of moneys received under the Motor Vehicle Fuel License Tax Law are made.

This bill would revise the provisions of the Use Fuel Tax Law and the Diesel Fuel Tax Law to correct obsolete references to the "Motor Vehicle Fuel License Tax Law," which, effective January 1, 2002, was renamed as the "Motor Vehicle Fuel Tax Law."

(7) The Cigarette and Tobacco Products Tax Law requires distributors and wholesalers of cigarette and tobacco products to be licensed by the State Board of Equalization. The Cigarette and Tobacco Products Tax Law also requires a tax imposed by that law with respect to distributions of cigarettes to be paid by distributors through the use of stamps or meter register settings, and requires that these stamps or meter register settings be affixed to each package of cigarettes sold. Existing law requires distributors that elect to defer payments for stamps and meter register settings to file a report with the board regarding the distribution of cigarettes and purchases of stamps and meter register settings on or before the 5th day of the month following the month during which the cigarettes or tobacco products were distributed.

This bill would instead require those distributors who elect to defer payments to file the report with the State Board of Equalization regarding the distribution of cigarettes and purchases of stamps and meter register settings on the 25th day of the month following the month during which the cigarettes or tobacco products were distributed.

(8) The Cigarette and Tobacco Products Tax Law, under the Cigarette Tax Law, imposes a tax on every distributor of cigarettes and tobacco products at specified rates. Consumers and users subject to the tax resulting from the use or consumption of cigarettes or tobacco products, as defined, from whom the tax has not been collected are required to file a report of the amount of cigarettes received during the preceding month with the State Board of Equalization on or before the 25th day of the month following the month during which the cigarettes were received.

This bill would instead require a consumer or user subject to the tax, from whom the tax has not been collected, to file a report of the amount of cigarettes or tobacco products received during the preceding month with the State Board of Equalization on or before the last day of the month following the end of the quarter during which the cigarettes or tobacco products were received.

(9) Existing law requires the State Board of Equalization to administer various tax and fee programs, including the Motor Vehicle Fuel Tax Law, the Use Fuel Tax Law, the Private Railroad Car Tax Law, the Cigarette and Tobacco Products Tax Law, the Alcoholic Beverage Tax Law, the Timber Yield Tax Law, the Energy Resources Surcharge Law, the Emergency Telephone Users Surcharge Act, the Hazardous Substances Tax Law, the Integrated Waste Management Fee Law, the Oil Spill Response, Prevention, and Administration Fees Law, the Underground Storage Tank Maintenance Fee Law, the Fee Collection Procedures Law, and the Diesel Fuel Tax Law. Those laws provide for the imposition of interest and penalties for specified violations thereof.

This bill would provide that, under regulations prescribed by the board, a tax or fee liability under those laws that is unreported, understated, or unpaid due to certain omissions of one spouse, and the other spouse did not know of, and had no reason to know of, the understatement or nonpayment, and certain other criteria are met, then the other spouse shall be relieved of liability for the tax or fee, interest, and penalties attributable to that understatement or nonpayment, as provided. This bill would provide that this relief shall apply retroactively. The bill would, under the Emergency Telephone Users Surcharge Act change the effective date of the surcharge rate period, as provided.

This bill would make a legislative finding and declaration relating to the public purpose served by specified provisions of the bill.

(10) Counties and cities are authorized to impose local sales and use taxes in conformity with state sales and use taxes. Exemptions from state sales and use taxes enacted by the Legislature are automatically incorporated into the local taxes.

Section 2230 of the Revenue and Taxation Code provides that the state will reimburse counties and cities for revenue losses caused by the enactment of sales and use tax exemptions.

This bill would provide that no appropriation is made and the state shall not reimburse local agencies for sales and use tax revenues lost by them pursuant to this bill.

Ch. 343 (SB 144) Committee on Local Government Local Government Omnibus Act of 2007.

(1) Existing law authorizes 2 or more public agencies to enter into agreements to jointly exercise any power common to the contracting parties, as specified. Existing law requires specified notice to be filed with the Secretary of State when a joint powers agreement provides for the creation of an agency or entity that is separate from the parties to the agreement, as specified. Existing law also authorizes one or more persons to form a corporation, as specified, by executing and filing articles of incorporation with the Secretary of State.

This bill would require a corporation that is created by a local elected agency, as specified, and an agency or entity formed pursuant to a joint powers agreement, as specified, to furnish an additional copy of its articles of incorporation, or notice of the agreement to the Secretary of State, and would require the Secretary of State to forward the extra copy to the Controller.

(2) Existing law provides that 3 members of the board of library trustees of a local public library may call a special meeting of that board by written notice served upon each member of the board at least 3 hours before the time specified for the proposed meeting.

This bill would delete this provision and instead provide that meetings of the board are governed by the Ralph M. Brown Act.

(3) Existing law requires planned excavations near subsurface installations to be conducted in a specified manner that protects the subsurface installations from damage, and requires the operator, if the excavation is within 10 feet of a high-priority subsurface installation, as defined, to notify the excavator of the installation, as specified, and to hold an onsite meeting with the operator to verify the location of the installation. Existing law defines "high-priority subsurface installation" to mean, among other things, high-pressure natural gas pipelines with normal operating pressures greater than 415kPA gauge (60psig) or greater than 6 inches nominal pipe diameter.

This bill would instead define "high-priority subsurface installation" to mean, among other things, high-pressure natural gas pipelines with normal operating pressures greater than 415kPA gauge (60psig).

(4) Existing law provides for the procedure to fill a vacancy in an elective office of the governing board of a local special district, as specified.

This bill would clarify the procedure for filling a vacant office, and the length of time an appointee would hold that office, as specified. The bill would also declare the Legislature's

intent to codify the holding in *Robson v. Upper San Gabriel Valley Municipal Water District* (2006) 142 Cal.App.4th 877.

(5) Existing law establishes the California Debt and Investment Advisory Commission and requires it to perform specified activities relating to state and local debt issuance and other governmental financing matters. Existing law requires state and local bond issuers to submit a report of final sale and a copy of the final official statement for the issue, as specified.

This bill would require the issuer to provide specified documents along with the report of final sale if no official statement or other disclosure document exists.

(6) Existing law requires the Secretary of State, in consultation with the Department of General Services to approve and adopt appropriate standards for storing and recording with a trusted system, as defined, permanent and nonpermanent documents in electronic media, as specified.

This bill would extend this requirement to specified local officials.

(7) Existing law requires certain specified county officers to annually file with the county clerk or the county auditor an inventory under oath, showing in detail all county property in his or her possession or charge, as specified. The board of supervisors is authorized to prepare an inventory of the property, as specified, which is required to be kept of record by the county clerk or auditor for at least 5 years, after which the board of supervisors is authorized to order the inventory destroyed.

This bill would authorize the board of supervisors to order the inventory of county property in the possession or charge of county officials after 5 years, or at any time after the document has been reproduced in accordance with specified standards.

(8) Existing law authorizes the auditor or ex officio auditor of a county to destroy any county, school, or special district claim, warrant, or any other paper issued warrant voucher that is more than 5 years old, or at any time after the document has been, among other things, reproduced on film of a type approved for permanent photographic records by the National Bureau of Standards.

This bill would require the county auditor or ex officio auditor of a county to follow specified standards adopted by the Secretary of State for storing and destroying documents by utilizing a trusted system, as specified, and would declare that a duplicate copy of any record reproduced in compliance with those standards to be deemed an original.

(9) Existing law authorizes the treasurer of a county to destroy any certificate, notwithstanding provisions of law that authorize the board of supervisors to order the destruction of records, if the certificate has been filed for more than 5 years or the certificate has been filed for more than one year if the record, paper, or document is photographed, microphotographed, or reproduced on film of a type approved for permanent photographic records by the National Bureau of Standards, the device used to reproduce the record, paper, or document on film is one that accurately reproduces the original in all details, the photographs, microphotographs, or other reproductions on film are placed in conveniently accessible files and provision is made for preserving, examining, and using the same, and the record, paper, or document is reproduced and preserved utilizing other information technology.

This bill would authorize the treasurer to destroy any certificate that has been filed for more than one year if (A) the record, paper, or document is photographed, microphotographed, or reproduced by electronically recorded video images on magnetic surfaces, or recorded on optical disk or reproduced on any other medium that does not permit additions, deletions, or changes to the original document and is produced in compliance with specified standards for the recording of permanent records or nonpermanent records if the copy is kept or maintained for 5 years from the date of the document; (B) the device used to reproduce the record, paper, or document on film or any other medium is one that accurately reproduces the original in all details; (C) the photographs, microphotographs, or other reproductions on film or any other medium are placed in conveniently accessible files and provision is made

for preserving, examining, and using the same; and (D) the record, paper, or document is reproduced and preserved utilizing other information technology.

(10) The California Health Facilities Financing Authority Act defines “health facility” to mean any facility, place, or building that is licensed, accredited, or certified and organized, maintained, and operated for the diagnosis, care, prevention, and treatment of human illness, or physical, mental, or developmental disability, as specified, and provides as an example, among others, a nonprofit accredited community work-activity program, as specified.

This bill would revise a cross-reference in this provision.

(11) Existing law authorizes the Board of Supervisors of Sonoma County and Tulare County to consolidate the duties of the offices of Auditor-Controller and Treasurer-Tax Collector into the elected office of Auditor-Controller-Treasurer-Tax Collector, as specified.

This bill would also authorize the Board of Supervisors of Mendocino County to consolidate the duties of the offices of Auditor-Controller and Treasurer-Tax Collector into the elected office of Auditor-Controller-Treasurer-Tax Collector, as specified.

(12) Existing law, the Community Services District Law, requires a community services district to follow specified procedures when disposing of surplus land.

This bill would correct an incorrect cross-reference in that provision.

(13) Existing law authorizes various local agencies to adopt a retail transactions and use tax, pursuant to the Transactions and Use Tax Law, as specified, provided that a majority of the electors voting on the measure to impose the tax subsequently approve the measure, as specified.

This bill would instead require the measure to impose the tax to be approved by $\frac{2}{3}$ of the electors voting on the measure.

(14) The Sacramento Ballpark Authority Law authorizes the board of supervisors in El Dorado, Placer, Sacramento, San Joaquin, and Yolo Counties to cumulatively form the Sacramento Ballpark Authority, as specified.

This bill would repeal this authorization.

(15) Existing law governs the amendment of an adopted general plan by a local legislative body.

This bill would delete an obsolete cross-reference in these provisions.

(16) Existing law requires a certificate or statement by the county surveyor, if a subdivision for which a final map is required lies within an unincorporated area, or by the city engineer or city surveyor, if a subdivision lies within a city, as specified.

This bill would define the terms “certificate,” “certify,” and “certified,” for purposes of these provisions.

(17) Existing law establishes the Fresno Metropolitan Projects Authority, as specified, and authorizes the authority to carry out various duties, and to impose a transactions and use tax, as specified.

This bill would repeal these provisions.

(18) Existing law, until October 1, 1959, authorizes an unincorporated town to be formed into a district to protect and safeguard life and property and to equip and maintain a police department, as specified, and authorizes a territory that is not a part of another police protection district and is contiguous to an existing district in the same county to be annexed to that district.

Existing law requires the board of supervisors, at the time of levying the county taxes to levy a tax on all the taxable property in the district sufficient to raise any amount reported to it by the district board, as specified, and requires any amount of money raised for the establishment and equipment of a police station in a district by a special tax levied as specified, not to exceed 1% of the assessed value of the taxable property in the district in any one year. Existing law also requires any amount of money raised for the maintenance of a police department in a district by an annual tax levied, as specified, not to exceed $\frac{3}{4}$ of 1% of the assessed value of the property in the district, except as specified.

This bill would instead require the auditor of each county in which a district is located to allocate to the district, its share of property tax revenue, pursuant to the requirements for allocation of property tax revenue, and would authorize a special district to levy special taxes services, as specified.

(19) Existing law, the Community Redevelopment Law, defines various physical conditions that cause blight.

This bill would make a technical, nonsubstantive change to this provision.

(20) Existing law governs the composition of the Sacramento Metropolitan Air Quality Management District's Board of Directors, as specified.

This bill would permit a city council and city selection committee to appoint a mayor or another city council member as an alternate to serve and vote in place of a member who is absent or is disqualified from participating.

(21) The Santa Clara County Open-Space Authority Act defines various terms for purposes of the act, including "board of supervisors" and "interim governing board," as specified. The act specifies the selection and powers of the interim governing board, the compensation of the members of the governing board, and the selection of the chairperson and vice chairperson of the governing board, as specified. Existing law requires funding for the activities of the authority, as specified, for the act to become operative with respect to the governing board.

This bill would repeal the definitions of "board of supervisors" and "interim governing board," and the requirement of funding for the activities of the authority. This bill would also repeal the provisions governing the interim governing board. The bill would, as of January 1, 2008, specify the time of, and procedures for, the election of the members of the governing board of the authority. The bill would revise the compensation of members of the governing board, to permit members to recoup any necessary expenses incurred in the performance of their official duties, and would specify the method of determination of whether a member's activities on a given day are compensable. The bill would also revise the selection of a chairperson and vice chairperson of the governing board, as specified.

(22) Existing law defines a "jurisdictional change" for the purposes of annual property tax revenue allocations.

This bill would revise that definition.

(23) Existing law requires a city, prior to a hearing on the formation or extent of a district pursuant to the Mello-Roos Community Facilities Act of 1982, to adopt, by resolution or ordinance, the proposed boundaries of the district to be specially taxed or assessed by reference to a map of the district, as specified.

This bill would make technical, nonsubstantive changes to these provisions.

(24) Existing law authorizes Mendocino County to impose a transactions and use tax by the adoption of an ordinance, as specified, if the ordinance imposing the tax is submitted to, and approved by, the voters of the county, the tax is imposed at a rate of $\frac{1}{2}$ of 1% for not more than 5 years, and the revenues collected from the tax are used only to fund library programs and operations.

This bill would repeal this provision.

Ch. 344 (SB 235) Negrete McLeod Vision care: annuitants: California State University.

The Vision Care Program for State Annuitants, administered by the Department of Personnel Administration, provides vision care coverage to specified state annuitants and their dependents, as contracted for by the department. Annuitants of the California State University and University of California systems are prohibited from participating in the program.

Existing law allows the Trustees of the California State University to provide by rule for the government of their appointees and employees, including, but not limited to, provisions

related to the employer's contribution to employees, annuitants, and survivors health benefits.

This bill would enact the California State University Annuitant Vision Care Program, which would require the California State University system, on and after July 1, 2008, to administer a vision care program for all participating annuitants, as defined, of that institution, as specified.

Ch. 345 (SB 280) Scott Education.

(1) Existing law authorizes the assignment of a teacher with a designated subjects teaching credential or a service credential with a special class authorization to provide specially designed content instruction delivered in English, as defined, to limited-English-proficient pupils if the teacher completes, or is enrolled in, a course of staff development in methods of specially designed content instruction delivered in English for not less than 45 clock hours.

This bill would delete the requirement that the teacher complete or be enrolled in a course of staff development.

(2) Existing law prohibits the governing board of a school district from initially hiring, on a permanent, temporary, or substitute basis, a certificated person unless that person has demonstrated basic skills proficiency or is exempted from the requirement. The Commission on Teacher Credentialing is required to issue a preliminary multiple subject teaching credential, preliminary single subject teaching credential, and preliminary education specialist credential to an out-of-state prepared teacher who meets certain requirements, among which is satisfaction of the basic skills proficiency requirement.

This bill would require the holder of one of the credentials described above to meet the state basic skills proficiency requirement within one year of the date that the credential is issued or the credential would become invalid.

(3) Existing law provides increased incentive grant funding to a school district or county office of education that agrees to enhance internship programs and address the distribution of teacher interns, as specified. To qualify for this funding, a school district or county office of education is required to provide teacher interns with preservice training and classroom observation, supervision, assistance, and assessment by experienced teachers and to maintain a ratio of one experienced teacher to 5 teacher interns at the same schoolsite.

This bill would require the preservice training to be completed before the intern provides instructional services and would require the experienced teacher who observes, supervises, assists, and assesses an intern to be employed by the school district or county office of education and assigned to assist the intern at the schoolsite. The ratio of experienced teachers to interns would be required to be one experienced teacher to no more than 5 interns at each schoolsite where interns in the program are assigned.

(4) Under existing law, the California Educational Facilities Authority Act, the California Educational Facilities Authority is authorized to loan funds and make grants to institutions of higher education, including private colleges, for specified projects, including construction or acquisition of dormitory, academic, and related facilities. The act defines "private college" to include a private nonprofit research organization, and requires the organization to be affiliated with one or more private colleges, but solely for the purpose of refunding bonds or other obligations previously issued by the authority.

This bill would revise that definition by deleting the requirement that the private nonprofit research organization be affiliated with one or more private colleges. The bill would specify that a "private college" includes a private nonprofit research organization engaged in basic research and advanced education at the predoctoral or postdoctoral levels through personnel situated within the state, but only if the organization previously has borrowed the proceeds of bonds or other obligations previously issued by the authority.

Because this bill would authorize the authority to expend funds for new purposes, the bill would make an appropriation.

Ch. 346 (SB 281) Maldonado District agricultural associations: goods and property.

Under existing law, a district agricultural association, with the approval of the Department of Food and Agriculture and the Department of General Services, may enter into contracts, purchase, convey, sell, or lease property, or engage in several other types of legal transactions.

This bill would require the Department of Food and Agriculture to develop criteria to be used, subject to the approval of the Department of General Services, for the disposal of property by a district agricultural association and the California Exposition and State Fair.

Existing law provides that there is in the department the California Citrus Advisory Committee, comprised as specified. The committee is required to develop and make recommendations to the Secretary of Food and Agriculture on all matters regarding the implementation of an inspection program.

This bill would specify that procedures for implementing an inspection program shall include, but not be limited to, a mandatory hold for inspection prior to the shipping, following a citrus freeze.

Ch. 347 (SB 350) Runner Hospitals: discount payment and charity care policies.

Existing law requires each hospital, as a condition of licensure, to maintain a written policy regarding discount payments for financially qualified patients as well as a written charity care policy.

Existing law requires any extended payment plans offered by a hospital to be interest free.

This bill would limit that requirement to situations where all the payments are timely made and would specify that the hospital extended payment plan may be declared no longer operative after the patient's failure to make all consecutive payments due during a 90-day period, as provided. The bill would also prescribe procedures for the extension or renegotiation of an extended payment plan, and would prohibit the hospital, collection agency, or assignee from reporting adverse information to a consumer credit reporting agency or commencing a civil action against the patient for nonpayment prior to the time the extended payment plan is declared to be nonoperative. The bill would make related conforming changes.

Existing law requires a hospital to reimburse the patient or patients any amount actually paid in excess of the amount due for hospital care, including interest.

This bill would prescribe the amount of interest required to be paid by the hospital for those excess amounts actually paid by a patient or patients, as well as the interest accrual date.

Ch. 348 (SB 512) Committee on Elections, Reapportionment and Constitutional Amendments Political Reform Act of 1974: elections.

Existing law requires that candidates for specified elected state offices file statements with the Fair Political Practices Commission disclosing their financial interests.

This bill would require a candidate for an elected office that is designated in a conflict of interest code to file, with the elections official with whom the candidate's nomination documents are filed, a statement disclosing his or her financial interests.

Existing law requires the disclosure of investments as part of the financial disclosure required of various elected officials and candidates for elected office.

This bill would provide that interests in government defined-benefit pension plans are not investments subject to disclosure requirements.

Because a violation of the act is a misdemeanor, the bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes upon a $\frac{2}{3}$ vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

Ch. 349 (SB 520) Committee on Governmental Organization Alcoholic beverages: containers: licensees.

(1) Existing law requires junk dealers and recyclers, as defined, to sell and purchase junk, which includes ferrous and nonferrous scrap metals and alloys.

This bill would prohibit junk dealers and recyclers from purchasing or receiving stainless steel or aluminum alloy beer kegs marked with an indicia of ownership, as defined, from anyone except the indicated owner, unless specified information is provided to the junk dealer or recycler.

(2) The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, the suspension of, and the conditions imposed upon, alcoholic beverage licenses by the Department of Alcoholic Beverage Control. Existing law provides for the issuance of an on-sale general alcoholic beverage license to a person who does not operate a bona fide eating place or other public premises and who meets specified conditions, including, among other things, operating a catering business under specified conditions.

This bill would renumber the provision relating to caterers.

(3) Existing law authorizes the department to revoke a license upon specified grounds, including where a retail licensee knowingly permits the illegal sale, or negotiations for the sale, of controlled substances or dangerous drugs, as provided.

This bill would update an obsolete cross-reference and make technical, nonsubstantive changes to the provision regarding the illegal sale of controlled substances or dangerous drugs.

(4) Existing law generally restricts certain alcoholic beverage licensees, including manufacturers and winegrowers, from paying, crediting, or compensating a retailer for advertising in connection with the advertising and sale of alcoholic beverages.

This bill would expressly authorize a beer manufacturer, holder of a winegrower's license, winegrower's agent, holder of an importer's general license, distilled spirits manufacturer, holder of a distilled spirits rectifiers general license, or a distilled spirits manufacturer's agent to sponsor events promoted by or purchase advertising space and time from, or on behalf of, a live entertainment marketing company that is a wholly owned subsidiary of a live entertainment company that has its principal place of business in the County of Los Angeles, whose shares of stock are sold to the general public on a national stock exchange, and also owns subsidiaries that hold on-sale retail licenses, under specified conditions. This bill would also make a beer manufacturer, holder of a winegrower's license, winegrower's agent, holder of an importer's general license, distilled spirits manufacturer, holder of a distilled spirits rectifiers general license, or a distilled spirits manufacturer's agent who, through coercion or other means, induces the holder of a wholesaler's license to fulfill those contractual obligations guilty of a misdemeanor. This bill would additionally make an on-sale retail licensee, as described, who solicits or coerces a holder of a wholesaler's license to solicit a beer manufacturer, holder of a winegrower's license, winegrower's agent, holder of an importer's general license, distilled spirits manufacturer, holder of a distilled spirits rectifiers general license, or a distilled spirits manufacturer's agent to purchase advertising time or space guilty of a misdemeanor. The bill thus imposes a state-mandated local program by creating new crimes.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 350 (SB 574) Negrete McLeod Alcoholic beverages.

The Alcoholic Beverage Control Act licenses and regulates beer manufacturers and wholesalers.

This bill would provide that if a successor beer manufacturer, as defined, acquires the rights to manufacture, import, or distribute a brand or brands of beer, and then cancels the distribution rights of an existing beer wholesaler, as defined, the successor beer manufacturer shall notify the existing beer wholesaler of his or her intent to cancel those rights. This bill would provide that the successor beer manufacturer's designee, as defined, and the existing beer wholesaler shall negotiate in good faith to determine the fair market value, as defined, of the distribution rights and require the designee to compensate the existing beer wholesaler in the agreed amount of the fair market value, or if they are unable to agree on the fair market value, shall engage in arbitration subject to specified conditions, as provided.

The Alcoholic Beverage Control Act provides that a violation of specified provisions of the act is a misdemeanor.

This bill, by including provisions that would be subject to those existing criminal sanctions, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 351 (SB 770) Cogdill Milk.

Existing law provides that the sale by any retailer, wholesale customer, manufacturer, or distributor, of milk, cream, or any dairy product at less than cost is an unlawful practice. Existing law defines certain terms as used in these provisions, including "total consideration paid or exchanged for raw product," which means, in the case of market milk or market cream, the applicable minimum price of the market milk or market cream, if any, payable by distributors to producers pursuant to stabilization or marketing plans, as specified.

This bill would change the definition of "total consideration paid or exchanged for raw product," in the case of market milk or market cream used in the manufacture of class 1, 2, and 3 products, to mean the Department of Food and Agriculture's current announced regulated minimum price of the market milk or market cream, payable by handlers to producers, except as specified. Because this bill would change the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 352 (SB 855) Ridley-Thomas California State University: State University Revenue Bond Act of 1947.

(1) Existing law establishes the California State University and its various campuses under the administration of the Trustees of the California State University. The existing State University Revenue Bond Act of 1947 authorizes the trustees, among other things, to utilize the proceeds of various fees, rents, or other charges, including fees relating to the construction of student body centers, parking and other transportation facilities, and student health facilities, and fees charged for extension programs and other self-supporting instructional programs, as a revenue source to repay bonds issued by the trustees to fund the construction of these facilities. The proceeds of these fees, rents, and other charges are continuously appropriated to the trustees for their respective purposes.

This bill would amend the definitions of "bonds" and "revenue bonds" under the act to include commercial paper notes issued by the trustees.

The bill would authorize the trustees to loan or advance proceeds of revenue bonds or revenue bond anticipation notes to any person or state or local governmental entity, and to enter into loan agreements, leases, installment purchase agreements, conditional sales contracts, and similar financing instruments with the recipient of the loan or advance.

(2) Existing law requires the trustees to determine the interest rate, and to pay the interest, on an annual or semiannual basis, on revenue bond anticipation notes and revenue bonds issued under the act.

The bill would authorize the trustees to set the interest at a fixed or variable rate on revenue bond anticipation notes in the time, form, and manner set forth in the indenture for the notes, rather than annually or semiannually.

(3) Existing law authorizes the trustees to fix, prescribe, and collect rates, rentals, or other charges in connection with the services and facilities furnished from a project acquired, constructed, or purchased from part or all of the proceeds of the bonds issued under the act, sufficient to pay the principal of and interest on the bonds as they become due.

The bill would authorize the trustees to also use revenues securing bonds for this purpose.

(4) This bill would require the trustees to report to the Director of Finance, the Legislative Analyst, and to the chairpersons of the appropriate policy and fiscal committees of the Legislature on the specific actions taken to implement this bill and an assessment of the costs and benefits of those actions. The bill would request the Legislative Analyst to review and comment on this report as part of its annual analysis of the Budget Bill.

Ch. 353 (SB 901) Padilla State teachers' retirement: postretirement earnings.

(1) The State Teachers' Retirement Law limits the amount of postretirement compensation that may be earned in specified types of employment by a retired member of the Defined Benefit Program without a reduction in the retirement benefits of the member. That law, operative until January 1, 2008, provides exemptions from this limit and specifies that the limitation provisions do not apply to either compensation earned by a member retired for service who has returned to work after retirement and, for at least 12 consecutive months, has not performed specified activities or compensation earned for the performance of activities for which the employer is not able to receive state apportionment or to compensation that is not creditable, as specified.

This bill would extend the operation of both these provisions until June 30, 2009, and extend the provisions related to an exemption based upon the employer not being able to receive state apportionment or to compensation that is not creditable indefinitely.

(2) Under that law, operative until January 1, 2008, the service retirement allowance of a retired member of the Defined Benefit Program is exempt from a reduction if the retired member is appointed as a trustee or administrator by the Superintendent of Public Instruction for a maximum period of 2 years, as specified. That law also exempts from the earnings limitation, until January 1, 2008, any specified types of service performed by members who retired for service on or before January 1, 2004, if certain conditions are met.

This bill would extend these provisions until June 30, 2009. The bill would instead provide that specified types of service performed by members who retired for service with an effective date on or before January 1, 2006, are exempt from the earnings limitation, if certain conditions are met.

(3) That law further exempts from the earnings limitation compensation received by a retired member providing direct remedial instruction, as specified, if that retired member retired on or before January 1, 2004. That law requires a school district that employs the retired member to submit documentation to the retirement system that substantiates the eligibility of the retired member for temporary employment under these provisions.

This bill would provide that the compensation received by a retired member providing direct remedial instruction, who retired for service with an effective date on or before January 1, 2006, shall be exempt from the earning limitation only until June 30, 2009. This bill would

additionally require a school district that employs the retired member to submit the documentation for eligibility on a properly executed form provided by the retirement system.

(4) This bill would also make technical, nonsubstantive changes to these provisions.

Ch. 354 (SB 1047) Committee on Business, Professions and Economic Development Professions and vocations.

(1) Existing law establishes the Department of Consumer Affairs which is comprised of various boards and similar entities with responsibilities for the licensure and regulation of various licensed professions and vocations. Under existing law, the department is under the control of the Director of Consumer Affairs.

This bill would require each of those boards to meet at least 3 times each calendar year and at least once each calendar year in northern California and in southern California. The bill would authorize the director to exempt any board from the meeting requirement upon a showing of good cause and to call a special meeting of the board when a board is not fulfilling its duties.

(2) Existing law, the Professional Fiduciaries Act, provides for the licensure and regulation of professional fiduciaries by the Professional Fiduciaries Bureau.

Existing law provides that, on and after July 1, 2008, no person shall act or hold himself or herself out to the public as a professional fiduciary unless that person has satisfied the licensure requirements.

This bill would instead make that provision applicable on and after January 1, 2009.

Existing law requires a person to meet specified requirements for licensure as a professional fiduciary, including the possession of either a baccalaureate degree of arts or sciences, an associate of arts or science degree and at least 5 years experience with substantive fiduciary responsibilities, as specified, or experience of not less than 3 years with substantive fiduciary responsibilities, as specified.

This bill would instead require possession of either a baccalaureate degree of arts or sciences, an associate of arts or sciences degree and at least 3 years experience working as a professional fiduciary or working with substantive fiduciary responsibilities, as specified, or experience of not less than 5 years, prior to July 1, 2012, working as a professional fiduciary or working with substantive fiduciary responsibilities, as specified.

Existing law requires the bureau to maintain certain information in each licensee's file, including whether the licensee has ever filed for bankruptcy or held a controlling financial interest in a business that filed for bankruptcy and whether the licensee has ever been removed for cause or resigned as a conservator, guardian, trustee, or personal representative as well as various other details relating to that removal or resignation. Existing law also requires licensees to annually file with the bureau a statement, under penalty of perjury, containing that information.

This bill would instead require licensees to file and the bureau to maintain information regarding whether the licensee has ever filed for bankruptcy or held a controlling financial interest in a business that filed for bankruptcy in the last 10 years and whether the licensee has ever been removed as a fiduciary by a court for breach of trust committed intentionally, with gross negligence, in bad faith, or with reckless indifference, or has demonstrated a pattern of negligent conduct, as specified.

Existing law specifies that a professional fiduciary, among other things, does not include any person whose sole activity as a professional fiduciary is as a broker-dealer, broker-dealer agent, or investment adviser representative.

This bill would specify that a professional fiduciary also does not include any person whose sole activity as a professional fiduciary is as an investment adviser.

(3) Existing law, the Professional Engineers Act and the Professional Land Surveyors' Act, provides for the licensure and regulation of professional engineers and land surveyors by the Board for Professional Engineers and Land Surveyors, in the Department of Consumer Affairs.

Existing law requires a licensee to report to the board a felony conviction and a civil judgment, settlement, arbitration award, or administrative action award of \$50,000 or more, occurring on or after July 1, 2006, if funds are appropriated for that purpose in the 2006–07 Budget Act and sufficient hiring authority is granted to the board for that purpose.

This bill would instead require a licensee to report to the board those matters occurring on or after January 1, 2008, if funds are appropriated for that purpose in the 2007–08 Budget Act and sufficient hiring authority is granted to the board for that purpose.

Existing law authorizes the board to receive and investigate complaints against engineers-in-training and land surveyors-in-training and, by a majority vote, to revoke his or her certificate for, among other things, conviction of a crime or violating the act.

This bill would additionally authorize the board, by a majority vote, to revoke the certificate of any engineer-in-training or land surveyor-in-training for committing any act constituting grounds for denial of a license.

Existing law requires the executive officer of the board to prepare a specified roster with the names and addresses of all licensed land surveyors and delinquent licenses, to be filed with the Secretary of State.

This bill would instead require the board or an entity designated by the board to compile and maintain a register of all licensed land surveyors that includes specified information for each licensee.

The bill would also make nonsubstantive, technical changes.

(4) Existing law, the Contractors' State License Law, provides for the licensure and regulation of contractors by the Contractors' State License Board.

The bill would make nonsubstantive, technical changes to provisions of that law.

(5) Existing law provides for the licensure and regulation of structural pest control operators by the Structural Pest Control Board. Existing law provides that a violation of those provisions is a crime.

Existing law authorizes fumigation to be performed only under the direct and personal supervision of an operator or field representative in a branch of pest control that includes fumigation or who is the qualifying manager of a registered company.

This bill would instead authorize fumigation to be performed only under the direct and personal supervision of an operator or field representative in a branch of pest control that includes fumigation and would modify the definition of "direct and personal supervision" for that purpose.

Existing law requires a registered company, as defined, to make specified masks available for a fumigating crew for protection against fumigants.

This bill would repeal that provision.

Existing law provides that a structural pest control field representative is licensed by the board to secure structural pest control work, identify infestations or infections, make inspections, submit bids for or otherwise contract, in behalf of a registered company.

This bill would specify that a structural pest control field representative is also licensed by the board to apply pesticides on behalf of a registered company.

Existing law requires the board to consult with the Director of Food and Agriculture when developing or adopting regulations that may affect the Department of Food and Agriculture.

This bill would instead require the board to consult with the Department of Pesticide Regulation in that regard.

Existing law requires applicants for a Branch 1, 2, or 3 operator's license to demonstrate to the board that he or she has passed board-approved courses in certain areas and requires the board to develop correspondence courses with educational institutions to fulfill this requirement.

This bill would delete the provision requiring the board to develop those correspondence courses.

Existing law requires companies engaging in the practice of structural pest control to be registered with the board and to designate an individual with an operator's license to act as its qualifying manager.

This bill would prohibit an individual with an operator's license from acting as a qualifying manager for more than 2 registered companies, as specified.

Existing law requires the licenses of operators to be prominently displayed in the registered company's office.

This bill would instead require the licenses of qualifying managers to be prominently displayed in the registered company's office. The bill would also require the branch supervisor's license to be prominently displayed in a branch office.

The bill would make nonsubstantive, conforming, and technical changes to provisions of that law.

Because the bill would impose new requirements under the law dealing with structural pest control operators, a violation of which would be a crime, the bill would impose a state-mandated local program.

(6) The Electronic and Appliance Repair Dealer Registration Law provides for registration and regulation of service dealers and service contractors by the Bureau of Electronic and Appliance Repair in the Department of Consumer Affairs.

Existing law regulating service contractors will be repealed on January 1, 2008. Existing law requires persons acting as service contractors to be registered, and provides for various criminal penalties for a violation of these provisions.

This bill would extend the operation of these provisions until January 1, 2013. Because these criminal penalties would be extended, the bill would impose a state-mandated local program by expanding the scope of a crime.

Existing law requires the Director of Consumer Affairs to validate the registration and send proof of validation to the service dealer. Under existing law, the director may refuse to validate, or may temporarily or permanently invalidate the registration of a service dealer for specified acts or omissions done by the service dealer or associated person.

This bill would instead require the director to issue the registration and send proof of issuance to the service dealer. The bill would instead authorize the director to deny, suspend, revoke, or place on probation the registration of a service dealer for specified acts or omissions done by the service dealer or associated person and would also add to that list of specified acts or omissions.

(7) Existing law, the Automotive Repair Act, provides for the licensure and regulation of automotive repair dealers. Under existing law, there is a Bureau of Automotive Repair, which is under the supervision of the Director of Consumer Affairs. Existing law authorizes the director and the Chief of the Bureau of Automotive Repair to bring disciplinary actions against an automotive repair dealer.

This bill would provide that all accusations against an automotive repair dealer shall be filed within 3 years after the act or omission alleged as the ground for disciplinary action, except that an accusation alleging fraud or misrepresentation may be filed within 2 years after the bureau's discovery of the fraud or misrepresentation, as specified.

(8) Under existing law, the Home Furnishings and Thermal Insulation Act, there is the Bureau of Home Furnishings and Thermal Insulation which is responsible for the licensure and regulation of, among others, upholstered furniture retailers, bedding retailers, and upholstered furniture and bedding wholesalers. A violation of the act is a crime.

Under existing law, a license that is not renewed within one year of expiration is canceled; however, the holder of a license may apply to have his or her license restored, reinstated, or reissued if specified requirements are met.

This bill would delete that provision authorizing the holder of a license to have his or her license restored, reinstated, or reissued. The bill would specify that to renew an expired license within 6 years after expiration, the licensee shall apply on a form prescribed by the bureau and pay all accrued renewal, delinquent, and penalty fees. The bill would specify that

a license that is not renewed within 6 years of its expiration shall not be renewed, restored, reinstated, or reissued. The bill would authorize the holder of this type of a license to apply for and obtain a new license if certain requirements are satisfied and the bill would authorize the bureau to impose conditions on these licenses.

Existing law requires secondhand, as defined, bedding to be sanitized before it is sold.

This bill would extend that requirement to used, as defined, bedding. Because a violation of this requirement would be a crime, the bill would impose a state-mandated local program.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 355 (SB 14) Negrete McLeod Retirement: military service.

(1) Existing law provides that specified state military personnel become state members of the Public Employees' Retirement System when they are placed on full-time active duty. Existing law generally excludes part-time employees from membership in the retirement system, subject to certain exceptions. Existing law authorizes state and school members of the retirement system to receive up to 4 years of service credit for prior military service, if those members pay certain additional contributions to the retirement system. Member contributions to the retirement system are deposited in the Public Employees' Retirement Fund, a continuously appropriated fund.

This bill would provide that officers, warrant officers, and enlisted personnel of the California National Guard shall, upon written election filed with the Board of Administration of the Public Employees' Retirement System, become state members of the retirement system, and be referred to as National Guard members. The bill would provide that employer contributions to the retirement fund for these members would be paid by the member. The bill would also authorize those members to receive service credit for their service in the Armed Forces of the United States and prior service in the California National Guard, as specified, if those members pay certain additional contributions to the retirement system. The bill would require the Military Department, if payment is requested by the Board of Administration of the Public Employees' Retirement System, to reimburse the retirement system for the administrative and program costs of administering the membership and service credit of National Guard members.

By increasing member contributions to the Public Employees' Retirement Fund, the bill would make an appropriation.

(2) Existing law prohibits a member of the Public Employees' Retirement System from receiving credit for the same service in 2 public retirement systems.

This bill would make that prohibition inapplicable to National Guard members, as specified.

(3) Under existing law, if a member retires from both the Public Employees' Retirement System and a reciprocal retirement system, the member's highest final compensation from either system may be used to calculate his or her retirement allowance if the member retires from both systems concurrently.

This bill would prohibit a National Guard member from using his or her final compensation under a reciprocal retirement system to calculate a retirement benefit for the service of that National Guard member with the California National Guard.

(4) Under existing law, state employees who become members of the Public Employees' Retirement System after a certain date do not immediately make contributions nor receive service credit for their service during their first 24 months of employment.

This bill would permit a National Guard member to make contributions and receive service credit in the system upon entry into service with the California National Guard.

(5) Existing law permits the Governor, if it is in the best interest of the state to encourage state employees to retire resulting in cost savings to state agencies, to authorize that a member

of the Public Employees' Retirement System receive an additional 2 years of service credit, as specified.

This bill would prohibit an employee from using his or her service in the California National Guard or service as a National Guard member to qualify for that additional 2 years of service credit.

(6) Existing law permits a member of the Public Employees' Retirement System, if he or she retires within 4 months of separation of employment, to receive service credit in the retirement system for any unused sick leave he or she accumulated with his or her employer, as specified.

This bill would prohibit a National Guard member from receiving service credit in the Public Employees' Retirement System for any unused sick leave earned as a National Guard member.

(7) The Public Employees' Medical and Hospital Care Act authorizes the Board of Administration of the Public Employees' Retirement System to contract with carriers for health benefit plans and major medical plans for employees and annuitants, as specified, and approve other specified plans.

This bill would prohibit a National Guard member from receiving health care benefits under the Public Employees' Medical and Hospital Care Act based on his or her service with the California National Guard.

(8) The County Employees Retirement Law, upon approval by a county board of supervisors, authorizes a member of a county or district retirement system to receive service credit for time during which he or she was absent from county service and serving in the Armed Forces if, among other things, the military service is not the basis for present or future military retirement pay.

This bill would authorize that member to receive that service credit under specified conditions without regard to whether his or her military service is the basis for present or future military retirement pay.

(9) Existing law provides that members of the California National Guard, California Air National Guard, and California National Guard Reserve receive credit for time served on full-time active duty in the Armed Forces of the United States or any reserve component as if that service had been rendered in the state forces. That credit applies to, among other things, computing length of state service for military retirement with pay.

This bill would additionally permit those members to receive credit for part-time duty or service.

(10) Existing law authorizes specified officers and enlisted members on active duty with the Adjutant General who are not members of the Public Employees' Retirement System to receive military retirement with pay, as specified, based on a computation of state service. However, inactive service in a reserve component of the Armed Forces of the United States is excluded from that computation.

This bill would eliminate that exclusion.

(11) The bill would make related legislative findings and declarations.

Ch. 356 (SB 272) Runner Public postsecondary education: Armed Forces service.

(1) Existing law requires each segment of public higher education to establish, and update as necessary, a written policy concerning students who are called to active military service, as specified. Existing law grants to qualifying members of the National Guard, the State Military Reserve, and the Naval Militia an entitlement to academic leave when active duty, as defined, interrupts college attendance for the purpose of pursuing an undergraduate degree.

This bill would require the California State University and each community college district, and request the University of California, with respect to each campus in their respective jurisdictions that administers a priority enrollment system, to grant priority for registration for enrollment to any member or former member of the Armed Forces of the

United States for any academic term attended at one of these institutions within 2 years of leaving active duty, including, but not necessarily limited to, any student of those institutions who is called to active military duty compelling the student to take an academic leave of absence.

Insofar as the bill would impose costs on the California Community Colleges in evaluating an individual's eligibility for priority in enrollment, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 357 (SB 386) Cogdill Vehicles: special license plates.

Existing law authorizes a person who is a former American prisoner of war or a Congressional Medal of Honor recipient to apply for special license plates for his or her vehicle. The person's surviving spouse may retain the special license plates, subject to certain conditions.

Existing law exempts former American prisoners of war and Congressional Medal of Honor recipients, among others, from payment of vehicle registration fees and payment of charges under the Vehicle License Fee Law.

This bill would exempt the surviving spouse of a former American prisoner of war or of a Congressional Medal of Honor recipient from payment of the specified fees and charges if that spouse elects to retain the special license plates. The bill would authorize a member of the former prisoner of war's, or the Congressional Medal of Honor recipient's, family, as defined, to retain one of the special license plates as a family heirloom, upon submitting an affidavit to the Department of Motor Vehicles agreeing not to attempt to use the special license plates for vehicle registration purposes, subject to the condition that the special license plates are not valid for use for vehicle registration purposes or for the specified exemption from fees and charges by a person other than the person issued the special license plates and the surviving spouse of that person.

Ch. 358 (AB 7) Lieu Armed services members: consumer loans.

The California Finance Lenders Law provides, among other things, for the licensure and regulation by the Commissioner of Corporations of persons engaged in the business of making consumer loans and governs the terms that may be included in those loans. The California Deferred Deposit Transaction Law provides for the licensure and regulation by the commissioner of persons engaged in the business of making or negotiating deferred deposit transactions, which are transactions in which the lender defers depositing a consumer's personal check until a specified date pursuant to a written agreement. A willful violation of either the California Finance Lenders Law or the California Deferred Deposit Transaction Law is a crime.

This bill would require any state-chartered bank or credit union that makes a refund anticipation loan to a covered borrower, as defined, to comply with specified provisions of federal law relating to terms of consumer credit extended to armed services members and dependents of armed services members. The bill would, on and after October 1, 2007, make it unlawful under the California Finance Lenders Law and the California Deferred Deposit Transaction Law to violate specified provisions of the John Warner National Defense Authorization Act for Fiscal Year 2007, relating to the Armed Forces. Because this bill would make a willful violation of those provisions a crime, it would impose a state-mandated local program.

Existing law provides that any person who violates specified provisions prohibiting discrimination against a member of the military or naval forces of this state or the United States, including discrimination with respect to the terms of a loan or financing based on that person's membership in the military or naval forces of this state or of the United States, is guilty of a misdemeanor.

This bill would exempt from the discrimination provisions, with respect to loans and transactions covered by the John Warner National Defense Authorization Act for Fiscal Year 2007, any person who does not market or extend consumer loans to specified covered borrowers, and any person who does not market deferred deposit transactions to, or enter into such transactions with, specified covered borrowers.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 359 (AB 223) Sharon Runner Absentee voting: military service.

(1) Existing law permits a special absentee voter, as defined, who is temporarily living outside of the territorial limits of the United States or the District of Columbia, to return his or her ballot by facsimile transmission.

This bill would apply these provisions to a person called for military service within the United States on or after the final date to make application for an absent voter's ballot.

(2) Existing law provides that if a special absentee voter is unable to appear at his or her polling place because of being recalled to military service after the final day for making application for an absent voter's ballot, but before 5 p.m. on the day before the day of election, he or she may appear before the elections official and make application for an absent voter's ballot.

This bill would revise these provisions to provide that a special absentee voter may appear before the elections official either in his or her county of registration or, if within the state, in the county in which he or she is recalled to military service to make application for an absent voter's ballot which may be submitted by facsimile or by e-mail or online transmission to be counted, as specified. By increasing the duties of local elections officials, the bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(4) This bill would incorporate additional changes to Sections 3103.5 and 3110 of the Elections Code, proposed by both this bill and AB 1243, to be operative only if AB 1243 and this bill are both enacted, each bill amends the respective sections, and this bill is enacted after AB 1243.

Ch. 360 (AB 282) Cook Crimes: military decorations.

Existing law provides that it is a misdemeanor for a person to falsely represent himself or herself as a veteran or ex-serviceman, or member of the Armed Forces of the United States, as specified.

This bill would provide that it is an infraction for a person, with the intent to defraud, to, orally, in writing, or by wearing any military decoration, as defined, falsely represent himself or herself to have been awarded any military decoration.

By making a violation of these provisions a crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 361 (AB 392) Lieu Military service: benefits.

Existing law provides certain benefits for qualifying members of the Armed Forces of the United States, National Guard, and Reserves.

This bill would require a qualified employer to allow a qualified employee who is a spouse of a qualified member of the Armed Forces, National Guard, or Reserves to take up to 10 days of unpaid leave during a qualified leave period, as provided.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 362 (AB 950) Salas Public postsecondary education: student residency requirements: active duty military.

Existing law establishes uniform student residency requirements for purposes of ascertaining the amount of tuition and fees to be paid by students of public postsecondary education institutions. Existing law entitles a graduate student at a campus of the California State University who is a member of the Armed Forces of the United States stationed in this state on active duty to resident classification for the purpose of determining the amount of tuition and fees for no more than one academic year, and thereafter applies uniform residency requirements to that student. Members of the Armed Forces assigned for educational purposes to a state-supported institution of higher education are exempted from these residency classifications. Existing law requests the Regents of the University of California to establish the same residency requirements for students enrolled at the University of California.

This bill would extend to 2 academic years the period during which these active duty military graduate students would be entitled to resident classification for the purpose of determining the amount of tuition and fees.

Ch. 363 (AB 1528) Committee on Banking and Finance Military service.

Existing law provides certain protections for members of the Armed Forces of the United States, National Guard, and Reserves.

This bill would prohibit any person or entity licensed under specified codes to market financial services or products to a service member or former service member, as defined, or the spouse of a service member or former service member, in a misleading or deceptive manner that suggests that the person or entity marketing the financial service or product is either acting on behalf of or as an affiliate of one or more branches of the United States military or the United States Department of Veterans Affairs, or that the product or financial service is being offered on behalf of one or more branches of the United States military or the United States Department of Veterans Affairs. This bill would also provide that if a person who violates this provision is licensed under any state licensing law, a violation of this provision shall be deemed a violation of the laws under which that person is licensed. This bill would provide that these provisions shall not apply to any bank, as defined, or any credit union, as defined.

Ch. 364 (SB 5) Machado Flood management.

(1) The Planning and Zoning Law requires a city, county, and city and county to adopt a comprehensive, long-term general plan for the physical development of the city, county, or city and county that addresses a number of elements. The law authorizes the legislative body of a city or county to adopt zoning ordinances regulating, among other things, the use of buildings, structures, and land. The law authorizes a city or county to enter into a development agreement with a person having a legal or equitable interest in real property for the development of the property.

This bill would require each city, including a charter city, and county within the Sacramento-San Joaquin Valley, within 24 months of the adoption of a specified flood protection plan by the Central Valley Flood Protection Board, to amend its general plan to include data and analysis contained in that flood protection plan, goals and policies for the protection of lives and property that will reduce the risk of flood damage, and related feasible implementation measures. The bill would require each city, including a charter city, and county within the Sacramento-San Joaquin Valley, within 36 months of the adoption of that flood protection plan but not more than 12 months after the amendment of the general plan under the bill's provisions, to amend its zoning ordinance so that it is consistent with the general plan, as amended. By establishing requirements on cities and counties, the bill would impose a state-mandated local program.

On the effective date of those amendments, a city, including a charter city, and county within the Sacramento-San Joaquin Valley would be prohibited from entering a development agreement for any property that is located within a flood hazard zone unless the city or county makes certain findings, based on substantial evidence. On the effective date of those amendments, a city, including a charter city, and county within the Sacramento-San Joaquin Valley would also be prohibited from approving any discretionary permit or entitlement, or any ministerial permit that would result in the construction of a new residence, for a project that is located within a flood hazard zone unless the city or county makes certain findings, based on substantial evidence.

(2) The Subdivision Map Act requires the legislative body of a city or county to deny approval of a tentative map, or a parcel map for which a tentative map was not required under certain circumstances.

The bill, after the amendments to the general plan and the zoning ordinance described in (1) have become effective, would require the legislative body of each city, including a charter city, and county within the Sacramento-San Joaquin Valley to deny approval of a tentative map, or a parcel map for which a tentative map was not required, for any subdivision that is located within a flood hazard zone unless the city or county makes specified findings, based on substantial evidence.

(3) The Department of Water Resources performs various flood control activities throughout the state. Existing law authorizes the Reclamation Board to engage in various flood control activities along the Sacramento River and San Joaquin River, their tributaries, and related areas.

This bill would require the department, on or before December 31, 2010, to prepare a strategic flood protection plan for the Sacramento-San Joaquin Valley. The department would be required to prepare a plan identified as the Central Valley Flood Protection Plan not later than January 1, 2012, and the Central Valley Flood Protection Board would be required to adopt the plan not later than July 1, 2012. The bill would require the plan to include specified components, including a description of the Sacramento-San Joaquin River Flood Management System, a description of the facilities included in the State Plan of Flood Control, an evaluation of the structural improvements necessary to bring each of the facilities of the State Plan of Flood Control to within its design standard, and a list of facilities recommended to be removed from the State Plan of Flood Control. The plan would be required to be updated every 5 years.

The bill would authorize the department to implement certain flood protection improvements before the adoption of the plan if the Director of Water Resources makes a specified determination. Upon the adoption of the plan by the board, certain facilities would be deemed to be a part of the Sacramento-San Joaquin River Flood Management System, and the board would be required to take action necessary to remove facilities from the State Plan of Flood Control that are recommended for removal in the plan.

The bill would require the department, on or before January 1, 2009, to propose for adoption and approval by the California Building Standards Commission updated requirements to the California Building Standards Code for construction in areas protected

by the facilities of the Central Valley Flood Protection Plan where levels are anticipated to exceed 3 feet for the 200-year flood event. The department would be required to develop a cost-sharing formula for specified bond funds for repairs or improvements of facilities included in the plan.

The bill would require each county, consistent with the adoption of the plan, to collaborate with cities within its jurisdiction to develop flood emergency plans. The bill would require each city, including a charter city, and county, consistent with the adoption of the plan, to collaborate with the state and local flood management agencies to provide cost-effective strategies for reducing flood risk to existing economically disadvantaged communities located in nonurbanized areas and to develop funding mechanisms to finance local flood protection responsibilities. By establishing new land use planning requirements on cities and counties, the bill would impose a state-mandated local program. The bill would authorize a local agency to prepare a local plan of flood protection in accordance with specified requirements.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(5) The bill would become operative only if AB 162 and SB 17 are enacted and become operative.

Ch. 365 (SB 17) Florez Flood protection.

(1) Existing law establishes the 7-member Reclamation Board in the Department of Water Resources. Existing law requires the board members to be appointed and to serve at the pleasure of the Governor. Existing law prescribes compensation for each board member for time spent attending meetings of the board in the amount of \$100, except as specified. Existing law requires the board to elect one of its members as president. Existing law requires the board to appoint a secretary, who may be a board member, and authorizes the board to appoint a general manager, a chief engineer, and an assistant secretary. Existing law authorizes the board to employ certain other employees.

This bill would rename the Reclamation Board the Central Valley Flood Protection Board. The bill would require the board to act independently of the department. The bill would state the intent of the Legislature to transfer the duties and corresponding funding allocated to the Reclamation Board as it exists on December 31, 2007, together with all necessary positions, to the board as it is reconstituted on and after January 1, 2008. The bill would prohibit the department from overturning any action or decision by the board. The bill would increase the membership of the board from 7 to 9 members. The bill would require 7 members to be appointed by the Governor, subject to Senate confirmation, 4 of whom would be required to meet specified eligibility requirements and 3 of whom would be designated as public members. The bill would require one board member to be appointed by the Senate Committee on Rules and one board member to be appointed by the Speaker of the Assembly and would designate those 2 members as public members. The bill, with a certain exception, would require the board members to serve 4-year terms. The bill would require the board members to receive a salary identical to that received by members of the State Air Resources Board. The bill would require the Governor to select one of the board members as president. The bill would repeal provisions relating to the appointment or employment of specified personnel and, instead, authorize the board to appoint an executive officer and chief engineer and to employ legal counsel and other necessary staff.

(2) Existing law provides that a member of the board having an interest in lands within the drainage district is not disqualified from voting to execute any part of the plans of flood control or from carrying out the objects of the board.

This bill would instead require that a member of the board comply with specified conflict of interest requirements when voting to carry out any part of a plan of flood control and when carrying out the objects of certain provisions of law relating to the board. The bill would subject the board members to specified requirements relating to conflict of interest and ex parte communications.

(3) Existing law authorizes the board to engage in various flood control activities along the Sacramento River, San Joaquin River, their tributaries, and related areas.

This bill would prohibit a board member from advocating to a federal agency on behalf of a project that has been or is reasonably anticipated to be submitted to the board for review unless the board authorizes that action in accordance with specified requirements. The bill would require the board to adopt regulations relating to evidentiary hearings and to hold evidentiary hearings to determine any matter that requires the issuance of a permit. The bill would require the board to take action only after allowing public comment and to consider, as applicable, specified matters for the purpose of taking that action in any evidentiary hearing. The bill would authorize the board to collaborate with state and federal agencies, if appropriate, regarding certain multiobjective flood management strategies. The bill would require the department to prepare a preliminary report, by December 31, 2009, on the status of the State Plan of Flood Control and to submit the report to the board. The bill would require the department to inspect the project levees, as defined, and to include certain components in the preliminary report. The bill would require the board, by December 31, 2010, to adopt and submit to the Governor and the Legislature a final report in accordance with prescribed procedures. The bill would require the board, on or before December 31, 2010, to prepare and adopt a strategic flood protection plan. The bill would require the board to establish and update, every 5 years, standards for levee construction, operation, and maintenance. The bill would require the board to review local and regional land use plans to ensure their compliance with flood protection and public safety standards adopted by the board. The bill would require the board to review, and authorize the board to make recommendations regarding, flood control plans adopted by local public agencies. The bill would prohibit the board from allocating any funds to a local public agency for a flood control project unless the board determines that project ensures adequate flood protection consistent with existing law. The bill would establish procedures for the decertification of locally maintained flood control facilities as a part of the State Plan of Flood Control.

Ch. 366 (AB 5) Wolk Flood management.

(1) Existing law establishes the 7-member Reclamation Board in the Department of Water Resources. Existing law requires the board members to be appointed and to serve at the pleasure of the Governor. Existing law prescribes compensation for each board member for time spent attending meetings of the board in the amount of \$100, except as specified. Existing law requires the board to elect one of its members as president. Existing law requires the board to appoint a secretary, who may be a board member, and authorizes the board to appoint a general manager, a chief engineer, and an assistant secretary. Existing law authorizes the board to employ certain other employees.

This bill would rename the Reclamation Board the Central Valley Flood Protection Board. The bill would require the board to act independently of the department. The bill would state the intent of the Legislature to transfer the duties and corresponding funding allocated to the Reclamation Board as it exists on December 31, 2007, together with all necessary positions, to the board as it is reconstituted on and after January 1, 2008. The bill would prohibit the department from overturning any action or decision by the board. The bill would increase the membership of the board from 7 to 9 members. The bill would require 7 members to be appointed by the Governor, subject to Senate confirmation, 4 of whom would be required to meet specified eligibility requirements and 3 of whom would be designated as public members. The bill would require one board member to be the Chair of the Senate Committee on Natural Resources and Water and one board member to be the Chair of the Assembly

Committee on Water, Parks and Wildlife, and would designate those 2 members as nonvoting ex officio members. The bill, with a certain exception, would require the board members to serve 4-year terms. The bill would require the board members to receive a salary identical to that received by members of the State Air Resources Board and would incorporate additional changes made by AB 933, which has been chaptered. The bill would require the Governor to select one of the board members as president. The bill would repeal provisions relating to the appointment or employment of specified personnel and, instead, authorize the board to appoint an executive officer and chief engineer and to employ legal counsel and other necessary staff.

(2) Existing law provides that a member of the board having an interest in lands within the drainage district is not disqualified from voting to execute any part of the plans of flood control or from carrying out the objectives of the board.

This bill would instead require that a member of the board comply with specified conflict of interest requirements when voting to carry out any part of a plan of flood control and when carrying out the objectives of certain provisions of law relating to the board. The bill would subject the board members to specified requirements relating to conflict of interest and ex parte communications.

(3) Existing law authorizes the board to engage in various flood control activities along the Sacramento River, San Joaquin River, their tributaries, and related areas.

This bill would prohibit a board member from advocating to a federal agency on behalf of a project that has been or is reasonably anticipated to be submitted to the board for review unless the board authorizes that action in accordance with specified requirements. The bill would require the board to adopt regulations relating to evidentiary hearings and to hold evidentiary hearings to determine any matter that requires the issuance of a permit. The bill would require the board to take action only after allowing public comment and to consider, as applicable, specified matters for the purpose of taking that action in any evidentiary hearing. The bill would authorize the board to collaborate with state and federal agencies, if appropriate, regarding certain multiobjective flood management strategies.

(4) The Department of Water Resources performs various flood control activities throughout the state. Existing law also authorizes the Reclamation Board to engage in various flood control activities along the Sacramento River and San Joaquin River, their tributaries, and related areas. Existing law requires the board to establish and enforce standards for the maintenance and operation of, and to undertake other responsibilities with regard to, flood control works under its jurisdiction.

This bill would authorize the department to provide meals and other necessary support to any person engaged in emergency flood fight activities, as defined, on behalf of, or in cooperation with, the department. The bill would require the department, on or before December 31, 2008, to prepare, and the board to adopt, a schedule for mapping areas at risk of flooding in the Sacramento River and San Joaquin River drainage. The bill would authorize the board or the department to establish a program of mitigation banking for the activities of the board or the department and for the benefit of local districts in the discharge of specified flood control responsibilities.

The bill would require the department to prepare, and the board to adopt, a flood control system status report, to be updated periodically, for the State Plan of Flood Control, as defined, and to undertake a related inspection of project levees, as defined. The bill would require the department, on or before September 1, 2010, and on or before September 1 of each year thereafter, to provide written notice to each landowner whose property is determined to be within a levee flood protection zone. The bill would require the department to prepare and maintain maps for levee flood protection zones. The bill would authorize the department to revise the maps to include updated information.

The bill would require, on or before September 30 of each year, a local agency responsible for the operation and maintenance of a project levee to prepare and submit to the department a specified report of information for inclusion in periodic flood management reports

prepared by the department. By establishing these requirements on a local agency, the bill would impose a state-mandated local program. The bill would require the department, on or before December 31, 2008, to prepare and transmit to the board a report on project levees that are operated and maintained by each local agency using certain information. The bill would specify that a local agency responsible for the operation and maintenance of a project levee may propose to the board an upgrade of the project levee.

(5) Existing law authorizes, on a project-by-project basis, and in accordance with designated plans, state participation in federal flood control projects and specifies the degree of cooperation to be assumed by the state and local agencies in connection with those projects. Existing law, except as otherwise provided, requires the board to give assurances satisfactory to the Secretary of the Army that local cooperation as required by federal law will be furnished by the state in connection with described flood control projects.

This bill would authorize the department and the board to participate with the federal government or local agencies in the design of environmental enhancements associated with a federal flood control project, and to participate in the construction of environmental enhancements associated with a federal flood control project for which the state has authorized state participation.

(6) Existing law establishes procedures for the assumption of flood control maintenance and operation duties by the department in connection with the formation of a maintenance area on behalf of a federal flood control project unit if the department finds that a unit of a project is not being operate or maintained in accordance with standards established by federal regulations or the governing body of a local agency obligated to operate and maintain that unit by resolution declares that it no longer desires to operate and maintain the unit. Under existing law, the department and the board are not required to form a maintenance area if neither agency has given the nonfederal assurances to the United States required for the project, except as otherwise provided for a project for which an application for the formation of the maintenance area has been submitted on or before July 1, 2003. Existing law prescribes requirements relating to the imposition of assessments on behalf of a maintenance area. Existing law requires the funds generated by the imposition of the assessments to be deposited in the Water Resources Revolving Fund and continuously appropriates those funds to pay the operation and maintenance costs of maintenance areas. Existing law provides for the dissolution of a maintenance area.

This bill would provide for the formation of a maintenance area if the department determines that a project unit is not being operated or maintained in accordance with federal regulations or the modification of a project unit that has been permitted by the board and that provides flood protection is not being operated or maintained in accordance with the requirements established by the board or the department, or if the local agency obligated to operate and maintain the project unit declares that it no longer desires to do so. The bill would provide that, if a maintenance area is formed for a portion of a project unit, any remaining portion of the project unit not included in the maintenance area remains the responsibility of the local agency obligated to operate and maintain that unit. The bill would authorize the board and the department to consolidate maintenance areas that share a common boundary.

The bill would delete the provisions relating to the formation of a maintenance area for a project for which an application for the formation of a maintenance area has been submitted on or before July 1, 2003. The bill would provide that the department is not required to perform certain work in connection with the formation of a maintenance area requested by a local agency until the local agency requesting the formation of the maintenance area pays to the department an amount of money that reflects certain costs incurred by the department.

The bill would change requirements relating to the imposition of assessments by revising the definition of the term "maintenance" to include work described as maintenance by the board or the department. By expanding the definition of that term to include additional work, the costs of which would be paid on behalf of maintenance areas from the continuous

appropriation of funds from the Water Resources Revolving Fund, the bill would make an appropriation.

(7) Under existing law, the department expends or allocates funds on behalf of various flood control projects within the Sacramento-San Joaquin Delta and related areas.

This bill, commencing July 1, 2008, would subject the allocation or expenditure of funds by the state for the upgrade of a project levee, if that upgrade is authorized on or after July 1, 2008, that protects an urban area in which more than 1,000 people reside to a requirement that the local agency responsible for the operation and maintenance of the project levee and any city or county protected by the project levee enter into an agreement to adopt a safety plan that includes specified components, within 2 years. If a city or county is responsible for the operation or maintenance of the project levee, the bill would require the governing body to approve a resolution committing to the preparation of a safety plan within 2 years. The bill would define the "upgrade of a project levee" to mean specified improvements, excluding any action undertaken on an emergency basis.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(9) This bill would repeal certain provisions added by AB 156 if AB 156 and this bill are enacted and become operative and other conditions are met.

(10) This bill would repeal a provision added by SB 17 if SB 17 and this bill are enacted and become operative and other conditions are met.

Ch. 367 (AB 70) Jones Flood liability.

Existing law, under various circumstances, subjects a public entity or an employee of a public entity to liability for property damage or personal injury caused by or from floods or floodwaters.

This bill would provide that a city or county may be required to contribute its fair and reasonable share of the property damage caused by a flood to the extent that it has increased the state's exposure to liability for property damage by unreasonably approving, as defined, new development in a previously undeveloped area, as defined, that is protected by a state flood control project, unless the city or county meets specified requirements.

The bill would become operative only if SB 5 is enacted and becomes effective on or before January 1, 2008.

Ch. 368 (AB 156) Laird Flood control.

(1) The Department of Water Resources performs various flood control activities throughout the state. Existing law also authorizes the Reclamation Board to engage in various flood control activities along the Sacramento River and San Joaquin River, their tributaries, and related areas. Existing law requires the board to establish and enforce standards for the maintenance and operation of, and to undertake other responsibilities with regard to, flood control works under its jurisdiction.

This bill would authorize the department to provide meals and other necessary support to any person engaged in emergency flood fight activities, as defined, on behalf of, or in cooperation with, the department. The bill would require the department, on or before December 31, 2008, to prepare, and the board to adopt, a schedule for mapping areas at risk of flooding in the Sacramento River and San Joaquin River drainage. The bill would authorize the board or the department to establish a program of mitigation banking for the

activities of the board or the department and for the benefit of local districts in the discharge of specified flood control responsibilities.

The bill would require the department to prepare, and the board to adopt, a flood control system status report, to be updated periodically, for the State Plan of Flood Control, as defined, and to undertake a related inspection of project levees, as defined. The bill would require the department, on or before September 1, 2010, and on or before September 1 of each year thereafter, to provide written notice to each landowner whose property is determined to be within a levee flood protection zone. The bill would require the department to prepare and maintain maps for levee flood protection zones. The bill would authorize the department to revise the maps to include updated information.

The bill would require, on or before September 30 of each year, a local agency responsible for the operation and maintenance of a project levee to prepare and submit to the department a specified report of information for inclusion in periodic flood management reports prepared by the department. By establishing these requirements on a local agency, the bill would impose a state-mandated local program. The bill would require the department, on or before December 31, 2008, to prepare and transmit to the board a report on project levees that are operated and maintained by each local agency using certain information. The bill would specify that a local agency responsible for the operation and maintenance of a project levee may propose to the board an upgrade of the project levee.

(2) Existing law authorizes, on a project-by-project basis, and in accordance with designated plans, state participation in federal flood control projects and specifies the degree of cooperation to be assumed by the state and local agencies in connection with those projects. Existing law, except as otherwise provided, requires the board to give assurances satisfactory to the Secretary of the Army that local cooperation as required by federal law will be furnished by the state in connection with described flood control projects.

This bill would authorize the department and the board to participate with the federal government or local agencies in the design of environmental enhancements associated with a federal flood control project, and to participate in the construction of environmental enhancements associated with a federal flood control project for which the state has authorized state participation.

(3) Existing law establishes procedures for the assumption of flood control maintenance and operation duties by the department in connection with the formation of a maintenance area on behalf of a federal flood control project unit if the department finds that a unit of a project is not being operated or maintained in accordance with standards established by federal regulations or the governing body of a local agency obligated to operate and maintain that unit by resolution declares that it no longer desires to operate and maintain the unit. Under existing law, the department and the board are not required to form a maintenance area if neither agency has given the nonfederal assurances to the United States required for the project, except as otherwise provided for a project for which an application for the formation of the maintenance area has been submitted on or before July 1, 2003. Existing law prescribes requirements relating to the imposition of assessments on behalf of a maintenance area. Existing law requires the funds generated by the imposition of the assessments to be deposited in the Water Resources Revolving Fund and continuously appropriates those funds to pay the operation and maintenance costs of maintenance areas. Existing law provides for the dissolution of a maintenance area.

This bill would provide for the formation of a maintenance area if the department determines that a project unit is not being operated or maintained in accordance with federal regulations or the modification of a project unit that has been permitted by the board and that provides flood protection is not being operated or maintained in accordance with the requirements established by the board or the department, or if the local agency obligated to operate and maintain the project unit declares that it no longer desires to do so. The bill would provide that, if a maintenance area is formed for a portion of a project unit, any remaining portion of the project unit not included in the maintenance area remains the responsibility of

the local agency obligated to operate and maintain that unit. The bill would authorize the board and the department to consolidate maintenance areas that share a common boundary.

The bill would delete the provisions relating to the formation of a maintenance area for a project for which an application for the formation of a maintenance area has been submitted on or before July 1, 2003. The bill would provide that the department is not required to perform certain work in connection with the formation of a maintenance area requested by a local agency until the local agency requesting the formation of the maintenance area pays to the department an amount of money that reflects certain costs incurred by the department.

The bill would change requirements relating to the imposition of assessments by revising the definition of the term "maintenance" to include work described as maintenance by the board or the department. By expanding the definition of that term to include additional work, the costs of which would be paid on behalf of maintenance areas from the continuous appropriation of funds from the Water Resources Revolving Fund, the bill would make an appropriation.

(4) Under existing law, the department expends or allocates funds on behalf of various flood control projects within the Sacramento-San Joaquin Delta and related areas.

This bill, commencing July 1, 2008, would subject the allocation or expenditure of funds by the state for the upgrade of a project levee, if that upgrade is authorized on or after July 1, 2008, that protects an urban area in which more than 1,000 people reside to a requirement that the local agency responsible for the operation and maintenance of the project levee and any city or county protected by the project levee enter into an agreement to adopt a safety plan that includes specified components, within 2 years. If a city or county is responsible for the operation or maintenance of the project levee, the bill would require the governing body to approve a resolution committing to the preparation of a safety plan within 2 years. The bill would define the "upgrade of a project levee" to mean specified improvements, excluding any action undertaken on an emergency basis.

(5) Existing law generally prohibits the expenditure of funds by a state agency for capital outlay until the Department of Finance and the State Public Works Board have approved preliminary plans for the project by to be funded from a capital outlay appropriation.

This bill would provide that the approval of the State Public Works Board is not required prior to the expenditure of specified flood protection bond funds by the department under certain circumstances. The bill would also make inapplicable certain requirements relating to the adoption of regulations to the development and adoption of program guidelines and selection criteria for the purposes of the Disaster Preparedness and Flood Prevention Bond Act of 2006.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 369 (AB 162) Wolk Land use: water supply.

(1) The Planning and Zoning Law requires a city or county general plan to include specified mandatory elements, including a land use element that designates the proposed general distribution and general location and extent of the uses of the land for various purposes and a conservation element that considers, among other things, the effect of development within the jurisdiction, as described in the land use element, on natural resources located on public lands, including military installations, and provides that the conservation element may also cover, among other things, flood control.

This bill would require the land use element to identify and annually review those areas covered by the general plan that are subject to flooding as identified by flood plain mapping prepared by the Federal Emergency Management Agency or the Department of Water Resources. The bill also would require, upon the next revision of the housing element, on or after January 1, 2009, the conservation element of the general plan to identify rivers, creeks, streams, flood corridors, riparian habitat, and land that may accommodate floodwater for purposes of groundwater recharge and stormwater management. By imposing new duties on local public officials, the bill would create a state-mandated local program.

(2) The Planning and Zoning Law also requires that a city or county general plan contain a safety element for the protection of the community from any unreasonable risks associated with the effects of seismically induced surface rupture, ground shaking, ground failure, tsunami, seiche, and dam failure; slope instability leading to mudslides and landslides, subsidence, liquefaction, and other seismic, geologic, and fire hazards.

This bill would also require, upon the next revision of the housing element, on or after January 1, 2009, the safety element to identify, among other things, information regarding flood hazards and to establish a set of comprehensive goals, policies, and objectives, based on specified information for the protection of the community from, among other things, the unreasonable risks of flooding.

The bill would also require the planning agency, upon each revision of the housing element to review, and if necessary, to identify new information that was not available during the previous revision of the safety element and would provide criteria by which cities and counties that have flood plain management ordinances may comply with these provisions.

(3) The Planning and Zoning Law also requires, prior to the periodic review of its general plan and prior to preparing or revising its safety element, each city and county to consult with the Division of Mines and Geology of the Department of Conservation and with the Office of Emergency Services, as specified, and requires that at specified times prior to adoption or amendment of the safety element, each city and county submit one copy of a draft or amendment of the safety element to specified state agencies and local governments for review pursuant to specified procedures.

Existing law establishes the 7-member Reclamation Board in the Department of Water Resources and requires the board members to be appointed and serve at the pleasure of the Governor. Senate Bill 17 of the 2006–07 Regular Session, if enacted, would rename the Reclamation Board as the Central Valley Flood Protection Board, and would revise the membership of the board.

This bill would also require each city and county located within the boundaries of the Sacramento and San Joaquin Drainage District to submit the draft element or draft amendment to the safety element of its general plan to the Central Valley Flood Protection Board and every local agency that provides flood protection to territory in the city or county at least 90 days prior to the adoption of, or amendment to, the safety element. The bill would also require the board and a local agency to review the draft or an existing safety element and report its written recommendations to the planning agency within 60 days of its receipt of the draft or existing safety element, as specified.

(4) The Planning and Zoning Law requires, prior to action by a legislative body to adopt or substantially amend a general plan, that the planning agency refer the proposed action to specified state, local, and federal agencies.

This bill would also require that the proposed action be referred to the board when the proposed action is within the boundaries of the Sacramento and San Joaquin Drainage District.

(5) The Planning and Zoning Law requires at least 2 years prior to a scheduled revision of a local government's housing element that each council of governments, or delegate subregion, as applicable, or the Department of Housing and Community Development, where there is no council of governments, develop a proposed methodology for distributing the existing and projected regional housing needs to cities, counties, and cities and counties

within the region or within the subregion, where applicable, pursuant to specified provisions. That law requires that the methodology be consistent with specified objectives that include, among other things, a determination of the availability of land suitable for urban development or for conversion to residential use, the availability of underutilized land, and opportunities for infill development and increased residential densities.

This bill would provide that the determination of available land suitable for urban development may exclude lands where the flood management infrastructure designed to protect the jurisdiction is not adequate to avoid the risk of flooding such that the development of housing would be impractical due to cost or other considerations.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 370 (AB 740) Laird Vessels: invasive species.

The Marine Invasive Species Act, which generally applies to all vessels carrying or capable of carrying ballast water into the coastal waters of the state after operating outside of the coastal waters of the state and to all ballast water and associated sediments taken on a vessel, imposes specified requirements on the master, owner, operator, or person in charge of one of those vessels, that operates in the waters of the state, to minimize the uptake and release of nonindigenous species, including the removal of fouling organisms from the hull, piping, and tanks on a regular basis, and the cleaning of the ballast tanks regularly to remove sediments and dispose of those sediments. The act additionally requires the master, owner, operator, agent, or person in charge of one of those vessels, that visits a California port or place, to maintain specified information related to the vessel and ballast water management, and to make that information available to the State Lands Commission. The act defines terms for its purposes.

This bill would define the terms “submerged portion of a vessel” and “hull fouling” for purposes of the act and specify that the act additionally applies to all hull fouling. The bill would require those persons to remove hull fouling organisms from hull, piping, propellers, sea chests, and other submerged portions of one of those vessels on a regular basis, as the bill would define that term for purposes of removal of hull fouling organisms until specified regulations are adopted. The bill would require the cleaning of the ballast tanks regularly to remove fouling organisms and sediments. The bill would require inwater cleaning of the submerged portion of a vessel while in the waters of the state to be conducted using best available technologies economically achievable.

The bill also would require the master, owner, operator, agent, or person in charge of one of those vessels, that is subject to the Marine Invasive Species Act, to maintain specified records concerning drydocking, inwater cleaning of the submerged portion of the vessel, and antifouling paint applications to the vessel. The bill would require the master, owner, operator, agent, or person in charge to provide the information in electronic or written form to the commission annually upon request of the commission, beginning on January 1, 2008, and continuing until specified regulations are adopted.

The bill would require the commission, in consultation with specified entities, by January 1, 2012, to develop and adopt regulations governing the management of hull fouling on those vessels arriving at a California port or place, to protect the waters of the state.

Ch. 371 (AB 800) Lieu Discharge of hazardous substance or sewage.

(1) Existing law generally requires a person who, without regard to intent or negligence, causes or permits any sewage or other waste, or the effluent of treated sewage or other waste, to be discharged in or on any waters of the state, or discharged in or deposited where it is, or probably will be, discharged in or on any waters of the state, as soon as that person has knowledge of the discharge, to immediately notify the local health officer or the director of

environmental health of the discharge. A person who fails to notify in accordance with these requirements is guilty of a misdemeanor that is punishable by a fine that is not less than \$500 nor more than \$1,000, or imprisonment for less than one year, or both.

(2) The Porter-Cologne Water Quality Control Act generally requires a person who causes or permits any hazardous substance or sewage to be discharged in or on any waters of the state, as soon as that person has knowledge of the discharge and other requirements are met, to immediately notify the Office of Emergency Services of the discharge in accordance with specified spill reporting requirements. The act requires the Office of Emergency Services to immediately notify the appropriate California regional water quality control board and the local health officer and administrator of environmental health of the discharge. A person who fails to notify in accordance with these requirements, with a certain exception, is guilty of a misdemeanor that is punishable by a fine of not more than \$20,000, imprisonment for not more than one year, or both.

This bill would provide that notification pursuant to these provisions does not nullify a person's responsibilities pursuant to (1) above.

Ch. 372 (AB 1056) Leno California Ocean Protection Act.

(1) The California Ocean Protection Act establishes the Ocean Protection Council in state government, consisting of the Secretary of the Resources Agency, the Secretary for Environmental Protection, the Chair of the State Lands Commission, and 2 public members. The executive officer of the State Coastal Conservancy acts as secretary to the council, and the Secretary of the Resources Agency is the chair of the council.

Under existing law, the council coordinates activities of state agencies that are related to the protection and conservation of coastal waters and ocean ecosystems to, among other things, establish policies to coordinate the collection and sharing of scientific data between agencies related to coastal and ocean resources.

This bill would repeal the requirement that the Secretary of the Resources Agency act as chair of the council, and instead would require the council, at its first meeting in a calendar year, to elect a chair from among its voting members.

This bill would require the council to establish a science advisory team of distinguished scientists to assist it in meeting the purposes of the act. At the request of the council, the science advisory team may convene to, among other things, review and evaluate results of research or investigations to provide information for the council's activities. The bill would require that the science advisory team include scientists from a range of disciplines in the council's purview and would require that the science advisory team provide an independent and timely analysis of reports and studies in a specified manner. The bill would also require the council to contract with the California Ocean Science Trust and other nonprofit organizations, ocean science institutes, academic institutions, or others that have experience in conducting the scientific and educational tasks that are required by the council. The bill would revise legislative findings regarding the council.

(2) Under existing law, the Legislature may appropriate funds directly to the State Coastal Conservancy for expenditures authorized by the council.

This bill would provide that if an expenditure has been approved by the council, approval of the State Coastal Conservancy is not required, except in the case of block grants provided by the council to be administered by the State Coastal Conservancy.

Ch. 373 (AB 1220) Laird Oil spill response fund.

(1) The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act imposes a uniform oil spill response fee, as specified, during any period that the Oil Spill Response Trust Fund contains less than a designated amount, as prescribed, adjusted for inflation. The administrator is authorized to raise the fee only upon making certain findings regarding a calamitous or unforeseen event that will deplete the fund. The money in the fund is continuously appropriated for specified purposes and the fees, and interest on deposits in the

fund, may be expended for specified purposes. Existing law authorizes the Treasurer to purchase financial security, in a designated amount, which may be drawn upon by the administrator of the fund. Existing law requires the Treasurer to make necessary financial arrangements to obtain the money needed to pay for costs of an oil spill, in excess of money in the fund.

This bill would specify the procedures for the purchase and repayment of that financial security when moneys are borrowed by the Treasurer or the administrator. The bill would authorize the Treasurer to obtain financial security in a form which, in the event of an oil spill, may be drawn upon immediately by the administrator, upon making certain determinations. The bill would additionally impose the uniform oil spill response fee when the administrator determines that revenue is necessary to repay those borrowings or repay any draw on a financial security obtained by the Treasurer. The administrator would instead be authorized to increase the fee upon a finding that there are existing demands for expenditures from the fund that will deplete the fund. The Treasurer would be additionally authorized to enter any financial arrangement necessary or appropriate to refund any draw by the administrator, and the bill would require that borrowing to be reimbursed or repaid from the fund.

The bill would require the administrator, following an oil spill, in consultation with the Treasurer, to notify the Governor if the administrator determines that it is likely that there will not be sufficient moneys in the fund to pay expected costs in a timely manner. The bill would require the Governor, upon notification, to request the federal government to pay those costs, and if sufficient federal funds are not available within 5 days, the Governor would be required to make a written request to the Treasurer to borrow and deposit in the fund the amount necessary, as determined by the administrator, to pay those estimated excess response costs. The bill would provide that the party responsible for the spill is liable to the state for all money borrowed by the Treasurer for the purpose of responding to the oil spill.

The bill would appropriate from the fund moneys necessary to pay the principal, interest, premium, if any, fees, costs, or charges in connection with any standby arrangement or other financial arrangement, including bonds or obligations.

The bill would require the State Board of Equalization to cease collecting, and to resume collecting, the fee, in conformance with these changes, and to provide refunds, as specified.

(2) The act requires every owner or operator of specified marine facilities and owners or operators of certain vessels to prepare and implement an oil spill contingency plan containing specified provisions that has been submitted to, and approved by, the administrator, including provisions for training and drills at least annually on all elements of the plan.

This bill would revise the requirements of the plan to instead require the plan to include provisions for training and drills on elements of the plan at least annually and provisions for subjecting all elements of the plan to drills or tests, as specified by the administrator, at least once every 3 years.

(3) The act provides that a nonprofit maritime association that provides spill response services pursuant to an oil spill contingency plan approved by the administrator, and the association's officers, directors, members, and employees have limited liability, pursuant to specified requirements.

This bill would repeal that limited liability.

(4) The bill would declare that it would take effect immediately as an urgency statute.

Ch. 374 (AB 1280) Laird Ocean resources: California Ocean Protection Trust Fund.

Existing law establishes the California Ocean Protection Trust Fund in the State Treasury. Moneys deposited in the fund, upon appropriation by the Legislature, are authorized to be expended for specified projects and activities and, upon authorization of the Ocean Protection Council, for grants, specified loans, or direct expenditures on projects or activities that take specified actions.

This bill would include the development and implementation of fishery management plans pursuant to a part of the Marine Life Management Act of 1998, as a project or activity for which the council may expend trust funds. Eligible projects and activities would include, but not be limited to, innovative community-based or cooperative management and allocation strategies that create incentives for ecosystem improvement. Eligible expenditures would include, but not be limited to, certain costs.

Existing law permits the Ocean Protection Council to expend those funds for grants or loans on certain projects to foster sustainable fisheries.

This bill would include as a permitted project the design of community-based or cooperative management mechanisms that promote certain goals.

Ch. 375 (AB 1396) Laird California Coastal Trail.

(1) Existing law authorizes the Legislature to transfer excess specified coastal zone property to specified agencies, including the State Coastal Conservancy, under specified circumstances.

This bill would require the Department of Transportation, for the purposes of existing law, to notify specified agencies on a quarterly basis, including the State Coastal Conservancy, of excess property.

(2) Existing law requires designated transportation planning agencies to prepare and adopt a regional transportation plan that includes a policy element, an action element, and a financial element. The plan is required to be directed at achieving a coordinated and balanced regional transportation system.

This bill would require those transportation planning agencies, whose jurisdiction includes a portion of the California Coastal Trail or property designated for the coastal trail, as specified, to coordinate with specified agencies regarding development of the coastal trail, and to include provisions for the coastal trail in their regional transportation plans. Because the bill thereby would increase the duties of local agencies, it would impose a state-mandated local program.

(3) Existing law requires the State Coastal Conservancy, in consultation with the Department of Parks and Recreation and the California Coastal Commission, to coordinate the development of the California Coastal Trail.

The bill would require the conservancy to also consult with the Department of Transportation in coordinating development of the coastal trail.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 376 (AB 3) Bass Physician assistants.

(1) Existing law, the Physician Assistant Practice Act, establishes the Physician Assistant Committee of the Medical Board of California (the medical board) and provides for its licensure of physician assistants meeting specified criteria and for the regulation of their practice. Under the act, a physician assistant is authorized to perform medical services under the supervision of a physician and surgeon who is authorized to supervise not more than 2 physician assistants at any one time, except under specified circumstances. The act prohibits a physician assistant from administering, providing, or issuing a drug order for Schedule II through Schedule V controlled substances without advance approval from a supervising physician and surgeon.

This bill would authorize a physician assistant to administer, provide, or issue a drug order for these classes of controlled substances without advance approval by a supervising physician and surgeon if the physician assistant completes specified educational

requirements. The bill would require a physician assistant and his or her supervising physician and surgeon to establish written supervisory guidelines and would specify that this requirement may be satisfied by the adoption of specified protocols. The bill would increase to 4 the number of physician assistants a physician and surgeon may supervise and would make related changes.

(2) Existing law, the Medi-Cal Act, establishes the Medi-Cal program to provide health care benefits and services to persons who meet specified eligibility criteria.

This bill would specify that services provided by a physician assistant are included as a covered benefit under the Medi-Cal program.

Ch. 377 (AB 101) Ma Vehicles: parking enforcement: video image evidence.

Existing law requires a peace officer or person authorized to enforce parking laws and regulations to securely attach to a vehicle in violation of those laws or regulations a notice of violation, if the vehicle is unattended during the time of the violation.

This bill would authorize the City and County of San Francisco (San Francisco), until January 1, 2012, to enforce parking violations in specified transit-only traffic lanes through the use of video image evidence. San Francisco would be authorized to install automated forward facing parking control devices on city-owned public transit vehicles for the purpose of video imaging of parking violations occurring in transit-only traffic lanes. A designated employee, who is qualified by San Francisco, would be required to review the video image for determining whether these parking violations had occurred and to issue a notice of a parking violation to the registered owner within 15 days of the violation. The video image records would be confidential and be available only to public agencies to enforce parking violations.

If San Francisco implements the pilot program authorized by this bill, San Francisco would be required, on or before March 1, 2011, to submit to the transportation committees of the Legislature an evaluation of the effectiveness of the pilot program.

Ch. 378 (AB 106) Berg Immunizations.

Under existing law, the State Department of Health Services is responsible for the licensure and regulation of health facilities, including general acute care hospitals, as defined.

Under existing law, the department also has responsibilities relating to the prevention and control of communicable diseases by various means, including requiring immunization by vaccine for various populations.

Existing law requires a skilled nursing facility, an intermediate care facility, or a nursing facility, as defined, to offer immunizations for influenza and pneumococcal disease to its residents, aged 65 years or older, between October 1 and April 1 of each year, and to offer pneumococcal vaccine to all new admittees. The facility is required to be reimbursed the standard Medi-Cal rate for vaccines provided to Medi-Cal recipients, except under specified circumstances. Existing law requires the facility to obtain informed consent for the immunization services from the resident or, if the person lacks the capacity to make medical decisions, for the person legally authorized to make medical decisions on the resident's behalf.

This bill would require a general acute care hospital, pursuant to its own standardized procedures and if it has the vaccine in its possession, each year, commencing October 1 to the following April 1, inclusive, to offer, prior to discharge, immunizations for influenza and pneumococcal disease to its inpatients, aged 65 years or older.

Ch. 379 (AB 126) Beall Structural Fumigation Enforcement Program.

Existing law provides that the Los Angeles County Agricultural Commissioner and the Orange County Agricultural Commissioner may contract with the Director of the Department of Pesticide Regulation to perform increased structural fumigation, inspection, and enforcement activities in Los Angeles County and Orange County. Existing law

authorizes the director to adopt regulations to carry out these provisions and to levy a civil penalty against a person violating these provisions.

This bill would also apply these provisions to the Santa Clara County Agricultural Commissioner and to Santa Clara County. The bill would repeal these provisions on January 1, 2010.

Ch. 380 (AB 187) Nakanishi Veterans.

Existing law authorizes counties to pay for any necessary expenses for the burial or cremation of any indigent veteran, not to exceed \$75. Existing law further provides that the money necessary to provide this aid may be taken from the general fund of the county. For purposes of implementing these provisions, existing law defines a veteran as a person honorably discharged from any branch of the United States Army, Navy, or American Red Cross that has served in any war in which the United States has been engaged.

This bill would instead define a veteran for the purposes of the laws that authorize the provision of local aid to indigent veterans, as any person who has both been honorably discharged from the United States Army, United States Navy, United States Air Force, United States Marine Corps, United States Coast Guard, the Merchant Marine, or the American Red Cross, and who has served in any war. This bill would increase the amount that counties may pay for the burial or cremation of any indigent veteran to \$350. This bill would repeal obsolete provisions pertaining to the source of funds for aid to indigent veterans.

Existing law authorizes a soldier, sailor, or marine, as specified, designated by the board of supervisors of a county, to pay \$250 toward the burial expenses of a veteran, or a widow of a veteran, as specified. Existing law provides that the expenses to the county of each burial or contribution shall not exceed \$250.

This bill would increase the amount that a soldier, sailor, or marine may contribute toward the burial expenses of a veteran, or a widow of a veteran, to \$350. This bill would provide that the amount that each county is required to pay or contribute for the burial expenses of a veteran or a widow of a veteran shall not exceed \$350.

Ch. 381 (AB 198) Committee on Budget Income taxes: limited liability companies: apportionment.

The Personal Income Tax Law requires every limited liability company subject to a specified tax to pay annually to this state a fee equal to specified amounts based upon total income from all sources reportable to this state. That law defines total income as gross income, as defined, plus the cost of goods sold, as specified.

This bill, for taxable years beginning on and after January 1, 2007, would clarify that total income from all sources reportable to this state means gross income, as defined, plus the cost of goods sold, as specified, derived from or attributable to this state within the meaning of specified provisions of the Corporation Tax Law relating to apportionment and allocation, as provided. This bill would make legislative findings and declarations regarding the necessity for the equitable treatment of limited liability companies.

Existing law provides, for the purposes of specified taxes, that if any deduction, credit, or exclusion administered under the Personal Income Tax Law or the Corporation Tax Law is finally adjudged discriminatory against a national banking association under a specified federal law, or is for any reason finally adjudged invalid, or discriminatory under the California Constitution or the laws or Constitution of the United States, the tax shall be recomputed by the Franchise Tax Board, as specified.

This bill would provide that if a fee imposed under a specified section is finally adjudged as discriminatory or unfairly apportioned under the California Constitution or the laws or the Constitution of the United States, the fee of a disfavored taxpayer that files, or has filed, a timely claim for refund asserting discrimination or unfair apportionment shall be recomputed by the Franchise Tax Board for the taxable year in question, as of the time of

allowance of the recomputation, only to the extent necessary to remedy the discrimination or unfair apportionment not otherwise relieved by existing law, and that the amount of the fee as originally computed shall be subject to the provisions relating to original computations.

This bill would make findings with regard to actions for refunds of fees.

This bill would take effect immediately as a tax levy.

Ch. 382 (AB 216) Bass Special education: nonpublic, nonsectarian schools.

Existing law requires school districts, county offices of education, and special education local plan areas to comply with state laws that conform to the federal Individuals with Disabilities Education Act, in order that the state may qualify for federal funds available for the education of individuals with exceptional needs. School districts, county offices of education, and special education local plan areas are required to identify, locate, and assess individuals with exceptional needs and to provide those pupils with a free appropriate public education in the least restrictive environment, with special education and related services as reflected in an individualized education program. Under certain circumstances, a school district, county office of education, or special education local plan area is authorized to enter into a contract for the provision of special education and related services with a nonpublic, nonsectarian school or agency that has been certified by the Superintendent of Public Instruction.

Under existing law, a nonpublic, nonsectarian school that provides special education and related services to an individual with exceptional needs is required to certify in writing to the Superintendent that it meets specified requirements, including, among others, that pupils have access to the specified educational materials, services, and programs to the extent available at the local educational agency in which the nonpublic school is located. One of the specified educational materials relates to standards-based, core curriculum and instructional materials.

This bill, instead, would require that the educational materials, services, and programs provided by the nonpublic, nonsectarian school be consistent with the pupil's individualized education program. The bill also would revise the provision relating to standards-based, core curriculum and instructional materials.

Ch. 383 (AB 227) Beall Trial court funding.

Existing law specifies the amounts that the counties are required to remit to the state for the purposes of trial court funding. Under existing law, the state and the counties have negotiated transfers of county civil assessment revenue and the counties' portion of certain fees. Existing law provides, commencing July 1, 2005, that the counties' obligation to remit specified amounts to the Trial Court Trust Fund is reduced each fiscal year through the 2008–09 fiscal year, in accordance with specified procedures.

This bill would revise the amounts that the counties are obligated to remit to the Trial Court Trust Fund commencing in the 2006–07 fiscal year. The bill would provide that these new amounts do not apply for purposes of a calculation related to fee, fine, and forfeiture revenue. The bill would specifically provide the amount that the County of Santa Clara was required to remit in the 2005–06 fiscal year and would provide that this amount is to be reduced by a specified calculation. The bill would state the intent of the Legislature that this provision operate retroactively. The bill would provide a specified amount that the County of Santa Clara is required to remit in the 2006–07 fiscal year and in subsequent fiscal years, and would provide that it is to be reduced by a specified calculation. The bill would also make conforming changes.

Ch. 384 (AB 321) Nava Vehicles: prima facie speed limits: schools.

(1) Existing law establishes a 25 miles per hour prima facie limit when approaching or passing a school building or the grounds thereof, contiguous to a highway and posted up to

500 feet away from the school grounds, with a standard “SCHOOL” warning sign, while children are going to or leaving the school either during school hours or during the noon recess period. The prima facie limit also applies when approaching or passing school grounds that are not separated from the highway by a fence, gate, or other physical barrier while the grounds are in use by children and the highway is posted with a standard “SCHOOL” warning sign. A violation of that prima facie limit is an infraction.

Existing law allows a city or county, based on an engineering and traffic survey that the prima facie speed limit of 25 miles per hour is more than is reasonable or safe, by ordinance or resolution, to determine and declare a prima facie speed limit of 20 or 15 miles per hour, whichever is justified as the appropriate speed limit by that survey.

This bill would additionally allow a city or county to establish in a residence district, on a highway with a posted speed limit of 30 miles per hour or slower, a 15 miles per hour prima facie limit when approaching, at a distance of less than 500 feet from, or passing, a school building or the grounds thereof, contiguous to a highway and posted with a school warning sign that indicates a speed limit of 15 miles per hour, while children are going to or leaving the school, either during school hours or during the noon recess period. The prima facie limit would also apply when approaching, at that same distance, or passing school grounds that are not separated from the highway by a fence, gate, or other physical barrier while the grounds are in use by children and the highway is posted with one of those signs.

The bill would provide that a 25 miles per hour prima facie limit in a residence district, on a highway with a posted speed limit of 30 miles per hour or slower, applies, as to those local authorities, when approaching, at a distance of 500 to 1,000 feet from, one of those areas where children are going to or leaving the school, either during school hours or during the noon recess period, that is posted with a school warning sign that indicates a speed limit of 25 miles per hour.

The bill would require that these prima facie speed limits apply only to highways that meet certain conditions.

The bill would require a city or county that adopts a resolution or ordinance establishing revised prima facie limits to reimburse the Department of Transportation for any costs incurred by that department in implementing the bill.

By authorizing a change in the prima facie limits, the bill would expand the scope of an existing crime, thereby imposing a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 385 (AB 328) Salas Health care service plans: disease reports.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975 (Knox-Keene Act), provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Under the Knox-Keene Act, all contracts between a provider and a plan are required to be in writing. Other provisions of existing law require a health care provider, as defined, to report specified diseases or conditions of a patient to the local health officer where the patient resides.

This bill would require a health care service plan, on and after July 1, 2008, to include in its contract with a health care provider, as defined, who provides services to an enrollee in Mexico a provision requiring the provider to comply with this mandate, reporting the specified diseases or conditions to the health officer in California where the patient resides or is employed. The bill would also require a health care service plan that contracts with those health care providers to give a specified notification to those providers of the reporting requirement.

Because the bill would specify an additional requirement under the Knox-Keene Act, the willful violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 386 (AB 329) Nakanishi Chronic diseases: telemedicine.

Existing law, the Medical Practice Act, creates the Medical Board of California that is responsible for issuing a physician and surgeon's certificate to practice medicine and for regulating the practice of physicians and surgeons. The act also regulates the practice of telemedicine, defined as the practice of health care delivery, diagnosis, consultation, treatment, transfer of medical data, and education using interactive audio, video, or data communications.

This bill would authorize the board to establish a pilot program to expand the practice of telemedicine, and would authorize the board to implement the program by convening a working group. The bill would specify that the purpose of the pilot program would be to develop methods, using a telemedicine model, of delivering health care to those with chronic diseases and delivering other health information. The bill would require the board to make recommendations regarding its findings to the Legislature within one calendar year of the commencement date of the pilot program.

Ch. 387 (AB 463) Huffman Vehicles: disabled persons: parking.

Existing law authorizes a vehicle that is equipped with a side-loading lift or ramp that is used for the loading and unloading of disabled persons to park in not more than 2 adjacent stalls or spaces in a public off-street parking facility when loading or unloading disabled persons, under specified circumstances.

This bill would revise that provision to apply to a vehicle with a special license plate or distinguishing placard issued to a disabled person or disabled veteran, or entity transporting those persons, which is equipped with a lift, ramp, or assistive equipment. The bill would make the provision applicable on a street or highway or in a public or private off-street parking facility.

Ch. 388 (AB 403) Tran Attorney-client privilege.

(1) Under existing law, a client of a lawyer has a privilege to refuse to disclose, and to prevent another from disclosing, a confidential communication between the client and lawyer if the privilege is claimed by the holder of the privilege, a person who is authorized to claim the privilege by the holder, or the person who was the lawyer at the time of the confidential communication. However, the lawyer may not claim the privilege if there is no holder of the privilege in existence or if he or she is otherwise instructed by a person authorized to permit disclosure.

This bill would require the California Law Revision Commission to study whether and, if so, under what circumstances, the attorney-client privilege should survive the death of the client, and to report all of its findings to the Legislature on or before July 1, 2009.

(2) Under existing law, if subsequent administration of an estate is necessary after the personal representative has been discharged because other property is discovered or because it becomes necessary or proper for any cause, the court is required to appoint as personal representative the person entitled to appointment and to give notice of the hearing of the appointment to the person who served as personal representative at the time of the order of discharge and to other interested persons, as specified.

This bill would require the appointed personal representative to be a holder of the decedent's lawyer-client privilege, as specified. The bill also would require the court to

perform these functions when subsequent administration of an estate is necessary after the personal representative has been discharged because disclosure is sought of a communication that is deemed privileged in the absence of a waiver by a personal representative, as specified.

Ch. 389 (AB 468) Ruskin Vehicles: abatement of abandoned vehicles.

(1) Existing law authorizes a county satisfying specified conditions to establish a service authority for the abatement of abandoned vehicles and to impose a \$1 vehicle registration fee for the abatement of abandoned vehicles. The fees imposed and the moneys received by the service authority from the Abandoned Vehicle Trust Fund, a continuously appropriated fund, can only be used for the abatement, removal, and disposal of abandoned, wrecked, dismantled, or inoperative vehicles from private or public property. The service authority is authorized to adopt an ordinance establishing procedures for the abatement, removal, and disposal, as a public nuisance, of an abandoned, wrecked, dismantled, or inoperative vehicle and for the recovery of costs.

This bill would authorize the service authority to use the fees imposed, as well as the moneys received from the Abandoned Vehicle Trust Fund, for the costs associated with the enforcement of the ordinance adopted by the service authority. The service authority would be prohibited from offsetting the costs of vehicles towed under authorities other than the ordinance adopted by the service authority or when the costs are recovered by another provision of law. The service authority would be authorized to carry forward unexpended money in a fiscal year to the following fiscal year for the abandoned vehicle abatement program upon agreement with its member agencies. The service authority would be authorized to carry out an abandoned vehicle abatement from public property after providing a notice specified by a local ordinance of the jurisdiction in which the abandoned vehicle is located and that notice has expired.

(2) Existing law requires a service authority to issue to the Controller a yearend fiscal report by October 31 of each year.

This bill would require the service authority additionally to include in the fiscal report the number of notices to abate issued to vehicles, the total expenditures by the service authority for towing and storage of abandoned vehicles during the previous fiscal year, and the number of vehicles disposed of pursuant to the abandoned vehicle abatement program in the previous fiscal year. On or before January 1, 2010, and biennially thereafter, the service authority would be required to have a financial audit conducted by a qualified independent 3rd party.

Ch. 390 (AB 475) Emmerson Criminal procedure: motions.

Existing law requires a person seeking to have a court order the record of his or her arrest destroyed to serve a copy of the petition on the prosecuting attorney of the county or city having jurisdiction over the offense.

This bill would require the petitioner to also serve a copy of the petition on the law enforcement agency having jurisdiction over the offense and would allow the law enforcement agency to present evidence at the motion through the district attorney.

Ch. 391 (AB 569) Portantino Wiretaps.

Existing law regulating government interception of electronic communications, as specified, remains in effect only until January 1, 2008.

This bill would extend the effective date to January 1, 2012.

Because this bill would expand the duties of local law enforcement, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 392 (AB 587) Karnette Antiterrorism: training courses and activities.

Existing law requires the Department of Motor Vehicles to make available for issuance the California memorial license plate. Additional fees other than the base fees are required for the issuance, renewal, retention, or transfer of California memorial license plates. Existing law requires 85% of the additional revenue derived from the issuance, renewal, transfer, and substitution of California memorial license plates to be deposited in the Antiterrorism Fund. Upon appropriation by the Legislature, $\frac{1}{2}$ of the moneys in the fund is required to be allocated to the Office of Emergency Services to be used solely for antiterrorism activities, as defined, and $\frac{1}{2}$ of the moneys in the fund is required to be used solely for antiterrorism activities. Eligible activities include, but are not limited to, hiring and training additional law enforcement, fire protection, and public health personnel, and response training for existing and additional law enforcement, fire protection, and public health personnel.

This bill would appropriate \$5,000,000 from the fund. Two million five hundred thousand dollars of that money would be appropriated to the Office of Emergency Services for disbursement in the 2007–08, 2008–09, and 2009–10 fiscal years to the California Fire Fighter Joint Apprenticeship Program. The program would be required to expend that money to develop, in cooperation with the State Fire Marshal, antiterrorism training courses and reimburse fire agencies for antiterrorism training activities. The remaining \$2,500,000 would be appropriated to the Commission on Peace Officer Standards and Training for expenditure in the 2007–08, 2008–09, and 2009–10 fiscal years. The commission would be required to expend that money to develop antiterrorism training courses and reimburse local law enforcement agencies and eligible state law enforcement agencies for antiterrorism training activities.

Ch. 393 (AB 673) Hayashi Child abuse or neglect: mandated reports.

Existing law, the Child Abuse and Neglect Reporting Act, requires the filing of a report with a police department or county sheriff's office or county welfare department by a mandated reporter, as defined, who, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. For the purposes of these provisions, the terms "child abuse or neglect in out-of-home care" and "child abuse or neglect" are defined as including physical injury inflicted by other than accidental means. Failure to file a mandated report is a misdemeanor.

This bill would amend the terms "child abuse or neglect in out-of-home care" and "child abuse or neglect" to include death inflicted by other than accidental means.

Existing law also provides that any other person who has knowledge of or observes a child whom he or she knows or reasonably suspects has been a victim of child abuse or neglect may report the known or suspected instance of child abuse or neglect.

This bill would specify that these provisions apply to a mandated reporter who acts in his or her private capacity and not in his or her professional capacity or within the scope of his or her employment.

Because this bill would increase the duties of local officials, and increase the scope of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 394 (AB 679) Benoit Illegal dumping: assessments.

Existing law establishes various offenses for littering and illegal dumping.

This bill would require the court to impose a fine on violators in addition to any other penalty or fine, in the amount of \$100 for an infraction or \$200 for a misdemeanor, as specified. The bill would require that the money from the fines be deposited in the city's or county's general fund for use for illegal dumping enforcement, as specified.

Ch. 395 (AB 702) Portantino Musical performances or productions: deceptive acts.

Existing law prohibits various unfair business practices, including certain advertising practices. Existing law provides various remedies for these violations, including civil penalties of not more than \$2,500 per violation, restitution, and injunctive relief. Existing law also makes it a crime to violate any of the provisions governing advertising.

This bill would make it unlawful for any performing group or its promoter, manager, or agent to advertise or conduct a live musical performance or production through the use of a false, deceptive, or misleading affiliation, connection, or association between a performing group and a recording group, as defined, except under specified circumstances.

By adding this new provision, this bill would expand the scope of an existing crime, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 396 (AB 758) Plescia Vehicles: traffic violator schools.

(1) Existing law authorizes a court to order a person convicted of a traffic violation to attend a traffic violator school licensed under certain provisions of the Vehicle Code; or, in lieu of adjudicating a traffic offense, if the defendant holds a certain noncommercial driver's license, and with the consent of the defendant, to order the person to attend a licensed traffic violator school, a licensed driving school, or any other court-approved program of driving instruction.

This bill would prohibit the Department of Motor Vehicles from requiring a licensee, in the event of a cancellation of a scheduled class, to provide a program of instruction in traffic safety to a person for a fee that is less than the standard fee normally charged by the licensee for its program if the notice of cancellation was given to a student at least 72 hours in advance of the class, or if the class was canceled due to exigent circumstances beyond the control of the licensee.

(2) Existing law authorizes a licensed traffic violator school to charge a fee, not to exceed \$3, in addition to the fee charged by the department, for the issuance of a duplicate certificate of completion.

The bill would authorize the traffic violator school to charge a fee, not to exceed \$15, instead of \$3, for the issuance of a duplicate certificate of completion, at the request of a traffic violator, when the original was lost, stolen, or mutilated.

(3) Existing law permits a court to order a continuance against a person who receives a notice to appear in court for a violation of a statute relating to the safe operation of a vehicle, in consideration for attendance at a licensed school for traffic violators, a licensed driving school, or other court-approved program of driving instruction, and after that attendance and subject to specified conditions, to dismiss the complaint.

This bill would require the Department of Motor Vehicles, on or before July 1, 2008, to submit a report to the Legislature containing a comprehensive plan with specified components by which the licensing of all traffic violator instruction programs may be consolidated under the authority of the department.

Ch. 397 (AB 836) Bass In-home supportive services providers: tax credit.

Existing law provides for the county-administered In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons are provided with services in order to permit them to remain in their own homes and avoid institutionalization.

Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium.

Existing law requires the Controller to install and operate a uniform state payroll system for all state agencies, except as specified. Existing law also imposes various duties on the Controller with respect to the payment of IHSS provider wages.

This bill would require the Controller, between January 1 and April 15 of each year, to include a notice on, and insert an informational flyer, which shall be prepared by the State Department of Social Services, with, all payroll warrants issued to IHSS providers informing those providers that they may qualify for the federal earned income tax credit.

Ch. 398 (AB 868) Davis Gasoline dispensing: weights and measures.

Existing law regulates gasoline temperature and measurement for purposes of dispensing fuel at retail facilities.

This bill would require the California Energy Commission, in partnership with the Department of Food and Agriculture and the State Air Resources Board, to conduct a cost-benefit analysis and survey, as specified, and to make recommendations to the Legislature regarding future legislation and regulations, regarding the reference temperature for fuel dispensation, as specified, not later than December 31, 2008.

Ch. 399 (AB 886) Sharon Runner Notaries.

Existing law requires a notary public to keep one active sequential journal of all official acts and requires that the journal include copies of notarized documents and, in connection with the signing of a deed, quitclaim deed, or deed of trust affecting real property, a thumbprint of the signing party.

This bill would apply the thumbprint requirement in connection with specified notarized documents.

Existing law requires a notary public, when executing various documents, to determine from personal knowledge or satisfactory evidence, the existence of certain facts or identities, as specified.

This bill would instead require that this determination be from satisfactory evidence and would make conforming changes. This bill would also provide that failure to obtain satisfactory evidence, under certain circumstances, would subject a notary public to a civil penalty not to exceed \$10,000, enforceable by the Secretary of State or any public prosecutor.

Existing law requires a notary public to notify the Secretary of State of any change in the location or address of the principal place of business or of any name change.

This bill would prohibit a notary from using a commercial mail receiving agency or post office as his or her principal place of business or residence, subject to a specific exception. It would make willful failure to notify the secretary of a change of address or name to be punishable as an infraction by a fine of not more than \$500.

Existing law authorizes the Secretary of State to refuse to appoint any person as notary public or to revoke or suspend the commission of any notary public upon specified grounds.

Existing law also makes specified violations by a notary public punishable by a civil penalty not to exceed \$750 or \$1,000.

This bill would recast the provisions under which the secretary may, and specify provisions under which the secretary shall, refuse to appoint any person as notary public. It would make conforming changes to the fine provisions and provide specific civil penalties if he or she willfully fails to provide access to the journal when requested by a peace officer, willfully fails to disclose the receipt of notice of revocation as specified, or fails to obtain a thumbprint from a party signing a document.

Existing law sets forth the circumstances under which a notary surrenders a journal of notarial acts to a peace officer.

This bill would require a peace officer to have probable cause, as defined, to seize a journal of notarial acts and would require that any applicable requirements of, or exceptions to state and federal law apply to a peace officer engaged in the search or seizure of a sequential journal. This bill would set forth the conditions upon which a notary public may surrender the journal. The bill would require a peace officer or law enforcement agency that seizes a journal to notify the Secretary of State, by facsimile, within 24 hours, or as soon as possible, of the name of the notary public whose journal was seized.

Existing law authorizes the Secretary of State to enforce provisions of law governing notaries.

This bill would authorize peace officers and public prosecutors to also enforce specific provisions, and would require a public prosecutor to notify the Secretary of State when a civil penalty is imposed for violations of those provisions.

By expanding the duties of public prosecutors, this bill would constitute a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 400 (AB 903) Houston Emergency services.

Existing law, the California Disaster Assistance Act, requires the Director of the Office of Emergency Services to allocate funds for any local agency project to restore or repair real property of the local agency damaged or destroyed by a disaster, as specified. The Disaster Assistance Fund is continuously appropriated, without regard to fiscal years, for purposes of the act.

This bill would provide that a private nonprofit organization that is eligible for specified disaster assistance under federal law would be eligible for state assistance for distribution of supplies, and other disaster or emergency assistance activities resulting in extraordinary cost. It would provide that an organization is not eligible for assistance under these provisions if it employs religious content in the provision of emergency assistance and would require that the grant of assistance comply with constitutional prohibitions against discrimination and the use of public funds to aid any religious organization or activity. It would direct the Office of Emergency Services to adopt regulations for this purpose. By expanding the purpose for which moneys in the Disaster Assistance Fund, a continuously appropriated fund, are available, this bill would make an appropriation.

Ch. 401 (AB 920) Brownley Crime information: disclosure: consideration.

Existing law prohibits the dissemination or disclosure of certain personal information of peace officers, as specified.

This bill would provide that certain persons who, for financial gain, disclose or solicit the exchange of information obtained in the course of a criminal investigation, with the knowledge that the disclosure of the information is prohibited, as specified, would be guilty of a misdemeanor punishable by a fine not exceeding \$1,000. The bill would also provide

that those same certain persons who, for financial gain, solicit or sell any photograph or video taken without authorization inside a law enforcement or court facility, as specified, would be guilty of a misdemeanor punishable by a fine not exceeding \$1,000. The bill would also provide that any person who, for financial gain, solicits any of those certain persons to disclose information obtained in the course of a criminal investigation, the disclosure of which is prohibited, or who, for financial gain, solicits any of those certain persons to disclose any photograph or video taken without authorization inside a law enforcement or court facility, as specified, would be guilty of a misdemeanor punishable by a fine not exceeding \$1,000. The bill would also require, upon conviction, the forfeiture of monetary compensation received for the commission of any of the offenses described above, as specified.

Because this bill would create new crimes, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 402 (AB 935) Committee on Business and Professions County clerks: preservation of records.

Existing law authorizes a county officer to destroy any nonjudicial documents or records in his or her custody if authorized by a resolution of the board of supervisors and if the records are, prior to destruction, photographed, microphotographed, or otherwise recorded for public use. Existing law requires any papers or documents to be retained by the county clerk for at least one year before they are destroyed, unless another provision of law requires that they be retained longer.

Existing law requires legal document assistants and unlawful detainer assistants to be registered with the county clerk in the county in which their principal place of business is located and in any other county in which they perform acts for which registration is required. Existing law requires process servers and professional photocopiers to be registered with the county clerk of the county in which they reside or have a principal place of business, as specified. Existing law requires the Insurance Commissioner to certify the names of holders of bail licenses to every county clerk of the state and to make up and certify to every county clerk in the state a complete list of all admitted surety insurers.

This bill would, in the case of a legal document assistant, unlawful detainer assistant, process server, or professional photocopier, require the county clerk to retain an application for registration or certificate of registration for a period of 3 years following the expiration date of the application or certificate, after which time the bill would authorize the destruction of the application or certificate if that application or certificate is scanned or if the requirements for the destruction of nonjudicial documents or records are met. The bill would require the retention of the scanned image for a period of 10 years, after which time the bill would authorize the destruction of that image without the making or preservation of a reproduction. The bill would, in the case of the certification of the names of holders of bail licenses and the complete list of admitted surety insurers, require the county clerk to retain these records for a period of 2 years, after which time the bill would authorize the destruction of these documents without the making or preservation of a reproduction.

Because this bill would impose additional duties on county clerks, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 403 (AB 976) Charles Calderon Tenancy: tenant's characteristics.

Existing law regulates the terms and conditions of residential tenancies. Existing law requires, among other things, that a dwelling unit be fit for human occupation, and prohibits a landlord from engaging in certain activities, including threats and extortion, to influence a tenant to vacate.

This bill would prohibit a city, county, or city and county from requiring a landlord to, among other things, compile, disclose, report, provide, or otherwise take any action regarding a tenant or a prospective tenant based on the immigration or citizenship status of that tenant. The bill would also prohibit a landlord from independently performing any of these acts. The bill would specify that these provisions do not prohibit a landlord from complying with any federal law or from requesting information necessary to determine or verify identity or financial qualifications.

Ch. 404 (AB 1010) Hernandez San Gabriel Basin Water Quality Authority Act.

(1) Existing law, the San Gabriel Basin Water Quality Authority Act, establishes the San Gabriel Basin Water Quality Authority and provides for its powers and duties. Existing law repeals the act on July 1, 2010. Upon the act's repeal, existing law prescribes various requirements for the administration of the authority's debts and assets.

This bill would extend the July 1, 2010, date of repeal of the act to July 1, 2017, thereby imposing a state-mandated local program by extending the period of time in which the authority and other local public entities are required to carry out various duties under the act.

(2) The act requires the authority to develop and adopt a basinwide groundwater quality management and remediation plan and to cooperate with all appropriate entities for that purpose.

This bill would require the authority, commencing April 1, 2008, and on at least a quarterly basis thereafter, to update its Internet Web site with information regarding its activities undertaken pursuant to the basinwide groundwater quality management and remediation plan. The bill would require the authority, to submit by March 31, 2008, and every 6 months thereafter, a status report on its activities undertaken pursuant to the plan to the State Water Resources Control Board and the Los Angeles Regional Water Quality Control Board.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 405 (AB 1079) Richardson Crime laboratories.

Existing law requires the Department of Justice to perform duties in the investigation, detection, apprehension, and prosecution or suppression of crimes.

This bill would require the department, to establish a task force, as specified, to conduct a review of California's crime laboratory system. The task force would be required to review and make recommendations as to how best to configure, fund, and improve the delivery of state and local crime laboratory services in the future and to report its findings to the Department of Finance and specified legislative committees by July 1, 2009. The bill would also set forth related legislative findings.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 406 (AB 1092) Emmerson Recreational vehicles.

Existing law prohibits a manufacturer, manufacturer branch, distributor, or distributor branch that is licensed under the Vehicle Code from engaging in certain conduct involving

a dealer having a franchise for the sale of new vehicles or vehicle parts. A violation of the Vehicle Code is a crime.

For a dealer and manufacturer agreement involving recreational vehicles, this bill would additionally prohibit, upon mutual agreement of the parties to enter into a dealer agreement, a licensed manufacturer, manufacturer branch, distributor, or distributor branch from failing or refusing to provide a written dealer agreement that complies with statutory franchise requirements. The agreement would be required to include provisions regarding dealership transfer and termination, sales territory, and reimbursement for dealer costs for work related to the manufacturer's warranty for each line-make of recreational vehicle covered by the agreement.

Because a violation of this prohibition would be a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 407 (AB 1139) Emmerson Department of Motor Vehicles: display systems: advertising.

Existing law specifies the duties and responsibilities of the Department of Motor Vehicles.

This bill would authorize the department to enter into a contract with a private vendor for the purpose of acquiring and utilizing message display systems that may be used on the department's mailings or other department property. The contract vendor would be allowed to utilize a portion of the available time and space for the purpose of advertising products or services. Advertising on a message display system would be limited to 15 minutes or less in a 60-minute period.

Ch. 408 (AB 1199) Richardson White collar crime: enhancement.

Existing law provides that any person who commits 2 or more related felonies, a material element of which is fraud or embezzlement, which involve a pattern of related felony conduct, and the pattern of related felony conduct involves the taking of more than \$100,000, shall be punished, upon conviction of 2 or more felonies in a single proceeding, by an additional term of imprisonment, as specified.

This bill would revise the above provision to specify that a person would also be subject to the additional prison term if the pattern of related felony conduct results in the loss by another person or entity of more than \$100,000. By revising the definition of an enhancement, the bill would impose a state-mandated local program.

This bill would provide that the changes contained in this act are intended to be declaratory of existing law.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 409 (AB 1229) Carter Law enforcement.

Existing law establishes within the Department of Justice a Commission on Peace Officer Standards and Training, which consists of 14 members appointed by the Governor, as specified. Four of the members of the commission are required to be peace officers of the rank of sergeant or below with a minimum of 5 years' experience as a deputy sheriff, city police officer, marshal, or state-employed peace officer for whom the commission sets standards. These 4 members of the commission are also required to have demonstrated leadership in their local or state peace officer association or union.

This bill would instead require that the Commission on Peace Officer Standards and Training consist of 15 members appointed by the Governor, as specified. The bill would require each member of those 4 members specified above to have demonstrated leadership in the recognized employee organization having the right to represent the member, as set forth in specified provisions. The bill would also require that one member be a California peace officer of the rank of sergeant or below with a minimum of 5 years' experience and shall have demonstrated leadership in a California-based law enforcement association, as specified. The bill would also make nonsubstantive changes.

Ch. 410 (AB 1308) Torrico Horse racing.

Existing law authorizes a licensed racing association or fair that conducts a live race meeting to accept wagers on any race in the state, as specified.

This bill would authorize a thoroughbred association or fair, subject to approval by the board, to deduct from the parimutuel pool for any type of wager, a specified percentage for the meeting of the thoroughbred association or fair that accepts the wager.

Ch. 411 (AB 1322) Duvall Transportation: eminent domain.

Existing law makes the Department of Transportation responsible for the construction of state highways and authorizes it to do any act necessary for the construction, improvement, maintenance, or use of highways under its jurisdiction, possession, or control. Under existing law, the department is authorized to acquire by eminent domain any property necessary for state highway purposes.

This bill would require the department, for any property that the department is acquiring by, or under threat of, eminent domain, to provide, in a timely manner, to the property owner a copy of all appraisals performed or obtained by the department. The bill would also require the appraiser to provide a copy of those appraisals to the department if they are first provided to the property owner instead of the department.

Ch. 412 (AB 1515) La Malfa Public resources: forest resources.

(1) The Z'Berg-Nejedly Forest Practice Act of 1973 authorizes, until January 1, 2008, the State Board of Forestry and Fire Protection to exempt from certain requirements, if the exemption is consistent with the purposes of the act, the harvesting of trees that eliminate the vertical continuity of vegetative fuels and the horizontal continuity of tree crowns, for the purpose of reducing the rate of fire spread, fire duration and intensity, fuel ignitability, or ignition of tree crowns, if specified requirements are met. The Department of Forestry and Fire Protection, after timber operations are complete, is required to conduct an onsite inspection.

A willful violation of the act or a rule or regulation of the board is a misdemeanor.

This bill would extend this exemption until January 1, 2013. The bill also would revise the requirements that must be met for the exemption, including requiring the board to adopt regulations to implement some of those revisions.

Because a willful violation of the extended exemption or the board's regulations would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 413 (AB 1531) DeSaulnier Vehicles: disabled parking.

(1) Existing law authorizes a vehicle equipped with a special license plate, placard, or temporary placard indicating the person is a disabled person, disabled veteran, or an organization or agency involved in the transportation of disabled persons or disabled veterans, as specified, to exercise certain parking privileges, including parking or leaving standing a vehicle in a stall or parking place designated for a disabled person or disabled

veteran. These spaces are distinguished by signs and markings placed pursuant to certain specifications.

This bill would limit the maximum consecutive number of times a person could renew a temporary disability placard to 6. Offstreet parking and parking facilities under the jurisdiction of a state or local agency would be required to state, on the signs designating a parking space as reserved for a disabled person and disabled veteran, the minimum amount a person could be fined for parking or leaving standing a vehicle in the space, without displaying the specified special license plate, placard, or temporary placard on the vehicle. If the loading and unloading area adjacent to a parking stall or space designated for disabled persons or disabled veterans is to be marked by a border and hatched lines, the border would be required to be painted blue and the hatched lines painted a suitable contrasting color to the parking space. Within the border the words "No Parking" would be required to be painted in white letters no less than 12 inches high. The new sign and painting requirements would be limited to parking space construction on or after July 1, 2008, and replacement signs and painting performed on or after July 1, 2008, or, for state controlled parking facilities and offstreet parking subject to local authority, as the State Architect deems necessary when renovations, structural repair, alterations, and additions occur to existing building and facilities on or after July 1, 2008. Because this bill would place additional duties on local agencies, the bill imposes a state-mandated local program.

The bill would require all new or replacement signs installed after July 1, 2008, relating to parking privileges for disabled persons, to use "persons with disabilities" rather than "disabled persons," when the reference is required.

(2) Existing law requires an unauthorized person who parks or leaves a vehicle standing in a space reserved for a disabled person or disabled veteran in an offstreet parking facility without displaying the required special license plate, placard, or temporary placard, to be subject to being convicted of an infraction and fined not less than \$250.

This bill would require upon conviction of a first offense, a fine of not less than \$250 and not more than \$500 to be imposed. The bill would require upon conviction of a 2nd offense, a fine of not less than \$500 and not more than \$750 be imposed. Upon conviction of a 3rd offense, a fine of not less than \$750 and not more than \$1,000 would be required to be imposed.

Because this bill would change the penalties for a crime, it would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 414 (AB 1564) Nava Emergency services.

Existing law ratifies, approves, and sets forth the provisions of the Emergency Management Assistance Compact, an interstate agreement that provides for mutual assistance between states in responding to emergencies and disasters. Under the existing law, the party states will provide mutual assistance for emergencies and disasters arising from natural disaster, technological hazard, manmade disaster, civil emergency aspects of resource shortages, community disorder, insurgency, or enemy attack. The compact becomes inoperative on March 1, 2007, and as of January 1, 2008, is repealed.

This bill would prohibit this state from giving or receiving assistance for any condition resulting from a labor controversy. This bill would also extend the operation of the compact to March 1, 2012, and would repeal the compact on January 1, 2013.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 415 (AB 1571) DeSaulnier Child care: alternative payment programs: reimbursement.

The Child Care and Development Services Act requires the State Department of Education to reallocate specified funds to reimburse alternative payment programs for actual and allowable costs incurred for additional services. Alternative payment programs are authorized to apply for reimbursement in an amount not to exceed \$5,000 or 2% of the contract amount, whichever is greater. Alternative payment programs that receive reimbursement funds for 2 consecutive years are prohibited from applying for reimbursement funds for the following year.

This bill instead would authorize alternative payment programs, excluding programs that provide child care services to CalWORKs recipients, to apply for reimbursement of up to 3% of the contract amount, or for a greater amount subject to the discretion of the department based on the availability of funds. The prohibition on applying for reimbursement funds for a 3rd consecutive year would be deleted. The department would be required to approve or deny applications submitted on or before September 30 of each calendar year. The department would be required to distribute reimbursement funds for each approved application within 90 days of receiving the application if it was filed within a specified date range. If requests for reimbursement exceed available funds, the department would be required to assign priority for reimbursement according to the order in which it receives applications. Alternative payment programs would be required to return to the department reimbursement funds that are not substantiated by the program's annual audit.

Ch. 416 (AB 1580) La Malfa Scott Valley and Shasta Valley Watermaster District.

(1) Existing law provides for the establishment of watermaster service areas by the Department of Water Resources for the purposes of ensuring the most practical and economic supervision of the distribution of water. Existing law specifies that upon the submission of a specified petition to a court in which a relevant judicial decree has been entered, the court may appoint a public agency as a watermaster to replace the watermaster appointed by the department.

This bill would create a watermaster district to be known as the Scott Valley and Shasta Valley Watermaster District. The bill would generally specify the powers and purposes, as well as the boundaries, of the district. The bill would prescribe the composition of the board of directors of the district. The bill would require the district to provide watermaster service on behalf of water right holders whose place of use under an appointed decree, as defined, is a parcel of real property within the district. The bill would authorize the district to enter into an agreement to provide watermaster service to water right holders whose place of use is an eligible parcel, as defined. The bill would require the board of directors of the district to provide for the preparation of regular audits of the district's accounts and records and specified annual financial reports. By imposing duties on the district and Siskiyou County in connection with the operation of the district, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 417 (AB 1616) Garrick Horse racing: prohibited substances: administrative hearings.

Existing law requires enforcement proceedings relating to the use of prohibited substances during a horse race be referred to the Office of Administrative Hearings for adjudication, as specified.

This bill would instead require referral to either a Board of Stewards or hearing officer appointed by the California Horse Racing Board, as specified, at the election of the respondent.

Existing law also provides that the California Horse Racing Board shall neither modify nor amend a proposed decision by the administrative law judge so as to increase any sanction or penalty contemplated in the proposed decision, and that the board may, by means of a written decision that includes the reasons for its decision, modify or amend a proposed decision by the administrative law judge so as to decrease, mitigate, or suspend a sanction or penalty contemplated in the proposed decision.

The bill would repeal those provisions.

Ch. 418 (AB 1642) Hancock Medi-Cal: noncontract hospitals.

Existing law establishes the Medi-Cal program, administered by the State Department of Health Care Services, under which basic health care services are provided to qualified low-income persons. Existing law provides that a hospital providing Medi-Cal services on a noncontract basis and that is in a closed health facility planning area is not eligible to receive reimbursement for services provided to a Medi-Cal beneficiary unless the noncontract hospital provides necessary emergency services to a Medi-Cal beneficiary who is in a life threatening or emergency situation, but cannot be sufficiently stabilized in order to facilitate transport to a contracting hospital.

This bill would also permit a noncontract hospital in a closed health facility planning area to receive a Medi-Cal reimbursement when the noncontract hospital is a facility location of a nonprofit hospital which is an affiliate of a nonprofit health care service plan, the facility location is approved in accordance with the standards of the California Children's Services (CCS) program, the hospital is providing services medically necessary for the treatment of the CCS-eligible condition of a CCS-eligible patient who is a member of the health care service plan for all other health care services not related to that condition, and the services for the treatment of that condition are authorized by the CCS program.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 419 (AB 1683) Wolk Fish and game: dreissenid mussels.

(1) Existing law provides for the compensation of members of the Fish and Game Commission, including their actual and necessary expenses. Existing law requires the commission, on or before July 1, 2000, to submit certain recommendations to the Legislature relating to the commission.

This bill would delete that obsolete recommendation requirement.

(2) Existing law generally prohibits the sale, possession, importation, transportation, transfer, live release, or giving away without consideration, of the saltwater algae of the *Caulerpa* species, and subjects any person who violates that prohibition to a civil penalty of not less than \$500 and not more than \$10,000 for each violation.

This bill, except as otherwise authorized by the Department of Fish and Game, would prohibit a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water within the state, dreissenid mussels. The bill would authorize the Director of Fish and Game or his or her designee to conduct inspections of specified conveyances that may carry or contain adult or larval dreissenid mussels; order that areas in a conveyance that contain water be drained, dried, or decontaminated pursuant to procedures approved by the department; impound or quarantine conveyances for up to 5 days or the period of time necessary to ensure that the dreissenid mussels can no longer live on or in the conveyance; and conduct inspections of waters of the state and facilities located within waters of the state, that may contain dreissenid mussels and, if those mussels are detected or may be present, order the closure of the waters or facilities to conveyances or otherwise restrict access to the waters or facilities, with the concurrence of the Secretary of the Resources Agency. The bill would require the director or his or her

designee to take specified action with respect to conveyances removed from, or introduced to, those waters and facilities. The director could authorize other state agencies to exercise this authority upon a prescribed written determination by the director. The bill would exempt a public or private agency that operates a water supply system from those enforcement activities, if the operator of the facilities has prepared and implemented a prescribed plan to control or eradicate dreissenid mussels. The bill would require that the discovery of dreissenid mussels be immediately reported to the department. A person who violates or resists, delays, obstructs, or interferes with the implementation of these provisions would be subject to a penalty, in an amount not to exceed \$1,000, that is imposed administratively by the department. The department would be authorized to adopt regulations to carry out these provisions. Because, under existing law, a violation of these provisions would be a crime, the bill would impose a state-mandated local program. These provisions would be repealed on January 1, 2012.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 420 (AB 1705) Niello Sentencing: enhancement.

Existing law provides for an additional term of imprisonment, as specified, when any person takes, damages, or destroys any property in the commission or attempted commission of a felony and is repealed as of January 1, 2008.

This bill would raise the monetary thresholds for these enhancements and extend the repeal date to January 1, 2018.

This bill would state the Legislature's intent that the provisions of this bill be reviewed within 10 years to consider the effects of inflation on its provisions and that it be applied prospectively only.

Because this bill would extend the repeal date of sentencing enhancements, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 421 (AB 1713) Committee on Agriculture Agriculture.

Existing law provides for the distribution to counties of funds transferred to the Department of Food and Agriculture Fund from the Motor Vehicle Fuel Account as partial reimbursement for county expenses incurred in carrying out various agricultural programs, as specified.

This bill would make those provisions inoperative on July 1, 2008, and would repeal those provisions on January 1, 2009. This bill would recast the schedule of distributions made from this account by adding provisions that would become operative on July 1, 2008. This bill would appropriate to the department moneys in the Department of Food and Agriculture Fund transferred from the account for disbursement to counties for pesticide use enforcement, uniform operation of agricultural policy and administration of programs supervised by the secretary, pest detection and trapping programs, and for emergency detection, investigation, or eradication of agricultural plant or animal pests or diseases, as specified. This bill would also require counties that receive funds for agricultural programs, as specified, to meet specified criteria in order to be eligible to receive those transfers.

Because this bill would make money in a continuously appropriated fund available for a new purpose, it would make an appropriation.

Ch. 422 (AB 1723) Committee on Judiciary Attorneys: IOLTA accounts.

Existing law, the State Bar Act, provides for the licensing and regulation of the practice of law by the State Bar of California. Existing law requires an attorney or law firm that receives or disburses trust funds to establish an interest-bearing demand trust account and to deposit in the account all client deposits that are nominal in amount or are on deposit for a short period of time. Existing law requires the account to be established with a bank or other financial institution authorized by the Supreme Court, and requires the depository institution to meet certain requirements, including transmitting a remittance statement to the Supreme Court. Existing law requires that the earnings from these trust accounts be paid to the State Bar to be used for programs for free legal services for indigent persons.

This bill would instead require that the above funds be deposited in IOLTA accounts, and would require that the dividends earned on the accounts be paid to the State Bar of California in the same manner as interest. The bill would require an IOLTA account to be established and maintained with an eligible institution, as defined, offering or making available an IOLTA account meeting specified requirements, including offering a rate of interest or dividends not less than that generally paid to nonattorney customers on similar accounts. The bill would authorize an eligible institution to charge only reasonable fees in accordance with customary practice, and would make any fees or service charges the sole responsibility of the lawyer or law firm maintaining the IOLTA account and payable only from the interest or dividends on the account, as specified. The bill would require an eligible institution's remittance statement to include the average balance for each account for each month. The bill would also make related changes.

Ch. 423 (AB 1733) Committee on Elections and Redistricting Park districts.

Existing law authorizes a procedure for the creation of a regional park district, regional park and open-space district, and regional open-space district where certain requirements, including, but not limited to, the holding of an election, must be met. The election returns are required to be forwarded to the board of supervisors of the county having the largest area within the proposed district, and the board of supervisors is required to meet on the next Monday after the day of the election to canvass the votes cast.

This bill would instead require that the election results be forwarded to the appropriate board of supervisors, pursuant to specified elections provisions, and that the board of supervisors certify the results of the election at the next meeting after the receipt of the election returns.

Ch. 424 (AB 1749) Dymally Health facilities: private nonprofit university medical education project.

The California Educational Facilities Authority Act establishes the California Educational Facilities Authority, the purpose of which is to provide private institutions of higher education within the state an additional means by which to expand, enlarge, and establish dormitory, academic, faculty, and staff housing, and related facilities, finance those facilities, refinance existing facilities, and to provide private and public institutions of higher education within the state an additional means to assist students in financing their costs of attendance. A provision of the act that became effective on September 29, 2006, requires an applicant for financing to provide documentation, before the authority approves the issuance of bonds for the project for which financing is sought, that the project is either in compliance with the California Environmental Quality Act or is not within the scope of that act.

This bill would instead require that, until July 1, 2008, the provision described above would not apply to a private nonprofit university medical education project consisting of a single building if the State Treasurer determines that the university received from an underwriting firm a draft engagement agreement that was dated September 25, 2006, and that was subsequently entered into by the university, for purposes that included the issuance of bonds by the California Educational Facilities Authority for that project based on the

requirements of that provision as it read from January 1, 1987, to September 28, 2006, inclusive.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 425 (SB 7) Oropeza Smoking in vehicles with minor passengers.

(1) Existing law makes it an infraction for a person to smoke a cigarette, cigar, or other tobacco-related product within 25 feet of a playground or tot lot sandbox area.

This bill would make it an infraction punishable by a fine not exceeding \$100 for a person to smoke a pipe, cigar, or cigarette in a motor vehicle, whether in motion or at rest, in which there is a minor.

This bill would prohibit a law enforcement officer from stopping a vehicle for the sole purpose of determining whether the driver was in violation of the antismoking provisions imposed by the bill.

(2) Existing law, the Brady-Jared Teen Driver Safety Act of 1997, allows for the issuance of a driver's license to a person at least 16 years of age, but under 18 years of age pursuant to the provisional licensing program. Under the act, licensees are required to meet specified requirements, driver education and training, and are prohibited during the first 12 months after issuance of a license from driving during the hours of 11 p.m. and 5 a.m., or from transporting passengers who are under 20 years of age, except as provided. The act further prohibits a law enforcement officer from stopping a vehicle for the sole purpose of determining whether the driver is in violation of those restrictions.

This bill would also prohibit a law enforcement officer from stopping a vehicle under the act for the sole purpose of determining whether a driver with a provisional license is in violation of the antismoking provisions imposed by the bill.

The bill would impose a state-mandated local program by creating a new crime.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 426 (SB 105) Migden Taxation: registered domestic partners.

(1) The Personal Income Tax Law imposes taxes on taxable income and treats married couples and registered domestic partners the same in determining ownership of business interests and stock shares. Under existing franchise and income tax laws and the Corporation Tax Law, the marital status of a person is considered in determining the ownership of business interests and stock shares. The Katz-Harris Taxpayers' Bill of Rights Act provides taxpayers with specified protections for purposes of, among other things, determining their correct tax liability, and includes a release from a levy upon a finding that the levy threatens the health or welfare of the taxpayer or the taxpayer's spouse.

This bill would provide that a domestic partner or former domestic partner be treated as the spouse or former spouse of that taxpayer for purposes of applying the Personal Income Tax Law, specified franchise and income tax laws, the Corporation Tax Law, and the Katz-Harris Taxpayers' Bill of Rights Act, except where that treatment would result in specified treatment under federal income tax law, as provided.

(2) The Personal Income Tax Law defines "adjusted gross income" with regard to registered domestic partners filing a joint return, for the purposes of computing limitations based upon that income, as the total of the amount required to be shown as adjusted gross income on the federal tax return for the same taxable year of each registered domestic partner.

This bill would revise the definition of "adjusted gross income" with regard to registered domestic partners, including former registered domestic partners, for purposes of computing limitations based upon that income, to mean the total of the adjusted gross income on a federal tax return computed as if the registered domestic partner or former registered domestic partner was treated as a spouse or former spouse, respectively, for federal income

tax purposes and used the same filing status that was used on the state tax return for the same taxable year.

(3) The Personal Income Tax Law imposes a penalty on a taxpayer who underpays an estimated income tax but specifies that a penalty may not be imposed for an underpayment in specified taxable years if the underpayment was created or increased by specified changes in law.

This bill would prohibit the imposition of a penalty under that law for an underpayment in the 2007 taxable year if the underpayment was created or increased by a specified change in law.

This bill would incorporate additional changes made by AB 1561 that would become operative if both bills are enacted and this bill is enacted after AB 1561.

This bill would take effect immediately as a tax levy.

Ch. 427 (SB 161) Margett Public works contracts: Internet submissions.

Existing public contract law authorizes public entities to adopt methods and procedures to receive bids on public works or other contracts over the Internet, as specified.

This bill would authorize public entities to receive supporting materials submitted pursuant to a public works contract over the Internet, as specified. This bill would require public entities that receive bids and supporting materials over the Internet to provide an electronic receipt to the contractor either by immediate transmission or by providing access to the contractor to an electronic file that contains the receipt, as specified.

The California State University Contract Law requires that bids on contracts of the university be sealed and accompanied by one of several specified forms of bidder's security in an amount equal to 10% of the amount of the bid. That law prohibits a bid from being considered if the bid does not contain this security.

This bill would specify that bids made under the California State University Contract Law may be submitted electronically as under the other provisions of the bill, but only if the bidder submits the required bidder's security within 24 hours after the opening of bids.

Ch. 428 (SB 162) Negrete McLeod Local government: organization.

Existing law, the Cortese-Knox-Hertzberg Act, specifies the factors that a local agency formation commission is required to consider in the review of a proposal for a change of organization or reorganization including the comments of any affected local agency and information or comments from the landowner or owners, as specified.

This bill would also require a local agency formation commission to consider information or comments from voters or residents of the affected territory and the extent that the proposal will promote environmental justice, as defined, thus creating a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 429 (SB 211) Cox Seismic safety: application filing fees.

Existing law, the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983, requires the Office of Statewide Health Planning and Development (OSHPD) to assume certain duties relating to the review of project applications for construction and alteration of health facility buildings. OSHPD is required to determine an application filing fee to cover the cost of administering the act, in accordance with prescribed limitations. Existing law authorizes postponement of the fee's payment if specified requirements are met, including a requirement that the proposed construction or alteration has been proposed as a result of a seismic event that has been declared to be a disaster by the Governor.

This bill would revise this requirement to instead require the proposed construction or alteration to be proposed as a result of any event that has been declared a disaster by the Governor.

Existing law requires the office to adopt regulations establishing seismic safety standards for hospital equipment anchorages.

This bill would require that the regulations include, but not be limited to, standards for architectural, mechanical, and electrical components, supports, and attachments.

Ch. 430 (SB 264) Alquist Transactions and use taxes: Santa Clara Valley Transportation Authority.

The Transactions and Use Tax Law authorizes various local governmental entities, subject to certain limitations and approval requirements, to levy transactions and use taxes as special taxes in accordance with the procedures and requirements set forth in that law. The Santa Clara Valley Transportation Authority Act provides for the establishment of the Santa Clara Valley Transportation Authority with a specified membership. Upon approval of a specified proposition by a vote of the electorate, the authority would be authorized to impose a retail transactions and use tax for specified purposes.

This bill would revise that act to conform to the voter approval requirements set forth in the California Constitution. This bill would also authorize the Santa Clara Valley Transportation Authority to adopt an ordinance to impose a transactions and use tax, for specified purposes, if certain conditions are met.

The bill makes legislative findings and declarations as to the necessity of a special statute.

Ch. 431 (SB 316) Yee Insurance.

Existing law requires insurers to maintain certain minimum reserves for outstanding losses and loss expenses for various coverages included in the lines of business described in the annual statement.

This bill would delete workers' compensation insurance from this requirement.

Existing law provides that the Commission on Health and Safety and Workers' Compensation shall conduct a continuing examination of the workers' compensation system, as specified, and issue an annual report to be made available to the Governor, the Legislature, and the public, upon request.

This bill would require the commission to examine the causes of the number of insolvencies among workers' compensation insurers within the past 10 years. It would require that by June 1, 2009, the report be published on its Internet Web site, and the Legislature and Governor be informed of its availability.

The bill would specify the content, method of obtaining data, confidentiality of data, maximum cost, and other information relating to the report. This bill, by authorizing the payment of one-half the costs for the report, as specified, from the Workers' Compensation Administration Revolving Fund, would make an appropriation.

Ch. 432 (SB 384) Cogdill Wild trout.

The Trout and Steelhead Conservation and Management Planning Act of 1979 finds and declares that it is the policy of the state to establish and maintain wild trout stocks in suitable waters of the state and establish angling regulations designed to maintain the wild trout fishery in those waters by natural reproduction. The act requires the Department of Fish and Game to determine for each stream or lake whether it should be managed as a wild trout fishery, or whether its management should involve the planting of trout. Existing law requires that the Fish and Game Commission develop, as part of the wild trout program, catch and release fisheries in those waters containing trout. Existing law requires the department to establish an ongoing program to determine the viability of various forms of catch and release regulations for trout streams and lakes. Existing law requires the department to prepare a list each year of no less than 25 miles of stream or stream segments and at least one

lake that it deems suitable for consideration as catch and release trout fisheries and to submit this list to the commission for its consideration, and the commission is required to annually submit a report to the Legislature that includes its reasons why any stream or lake listed by the department as suitable for consideration as a catch and release fishery was or was not included in the program.

This bill would additionally find and declare that it is the policy of the state to discourage artificial planting of hatchery-raised hybrid and nonnative fish species in wild trout waters or in other areas that would adversely affect native aquatic species. The bill would require the department to determine whether a stream or lake should be managed as a wild trout fishery, or whether its management should involve the planting of native trout species to supplement wild trout populations. The bill would eliminate the requirement that the commission develop catch and release fisheries and would instead require the commission to develop additional wild trout waters. The bill would require the department to prepare a list of no less than 25 miles of stream or stream segments and at least one lake that it deems suitable for designation as wild trout waters and to submit this list to the commission. The bill would require, if the commission removes any stream or lake that it has designated as a wild trout fishery from the program, that an equivalent amount of stream mileage or an equivalent size lake be added to the wild trout program. The bill would require the department to prepare and complete management plans for all wild trout waters not more than 3 years following their initial designation by the commission, and to update the management plan every 5 years following completion of the initial management plan. The bill would delete certain obsolete provisions from the act and make other, nonsubstantive changes.

Ch. 433 (SB 387) Alquist Dentists: death or incapacity.

Existing law, the Dental Practice Act, provides for the licensure and regulation by the Dental Board of California of those engaged in the practice of dentistry. Existing law provides that a person practices dentistry if the person, among other things, manages or conducts as manager, proprietor, conductor, lessor, or otherwise, a place where dental operations are performed. Existing law excludes from the unlicensed practice of dentistry certain clinics and other entities that comply with various requirements.

This bill would also exclude from the unlicensed practice of dentistry an executor or administrator of a dentist's estate, a legal guardian, conservator, or authorized representative of a dentist who is deceased or incapacitated, or a trustee or successor trustee of a trust that owns a deceased or incapacitated dentist's dental practice, as specified, for the purposes of a contract with another licensed dentist or dentists to continue the dental practice if the practice meets specified criteria, for a period not to exceed 12 months from the date of death or incapacity. The bill would require the executor, administrator, legal guardian, conservator, representative, or trustee or successor trustee to meet certain requirements, including providing specified notification to the board. The bill would provide that the notification would include a statement that if the person required to make the notification willfully states as true any material fact that he or she knows to be false, he or she shall be subject to a civil penalty of up to \$10,000. The bill would authorize the board to order the termination of the practice upon making certain findings, and would require the board to follow certain procedures in doing so. The bill would also require that a specified written notification relating to the bill's provisions be included with, or as part of, all application forms required for licensure and renewal. The bill would make related changes.

Ch. 434 (SB 516) Aanestad Shasta-Tehama County Watermaster District.

(1) Existing law provides for the establishment of watermaster service areas by the Department of Water Resources for the purposes of ensuring the most practical and economic supervision of the distribution of water. Existing law specifies that upon the submission of a specified petition to a court in which a relevant judicial decree has been entered, the court

may appoint a public agency as a watermaster to replace the watermaster appointed by the department.

This bill would create a watermaster district to be known as the Shasta-Tehama County Watermaster District, and would establish the boundaries of the district to include Shasta County and some parts of Tehama County. The bill would generally specify the powers and purposes of the district and prescribe the composition of the board of directors of the district. The bill would require the Board of Supervisors of Shasta County and Tehama County, on or before February 1, 2008, to appoint members of the board of directors who shall hold office until successor members are elected and qualified. Upon their election by the voters of the district, the bill would require the members of the board to classify themselves by lot into 2 classes. The first class would have 4 members with terms of office of 4 years, and the 2nd class would have 3 members with terms of office of 2 years. The bill would require that thereafter all members serve on the board for a term of 4 years. The bill would require the district to provide watermaster service on behalf of specified parcels that are a place of use for water rights under an appointed decree, as defined. The bill would authorize the district to enter into agreements to provide watermaster service to holders of certain water rights for which the department is not the watermaster. The bill would require that amounts owed to Shasta County for services provided to the district by Shasta County be included in the district's budget for each watermaster service area, except for that portion of the district coterminous with Tehama County. The bill would require that the amount owed to Tehama County for services provided to the district be included in the district's budget for that portion of the district coterminous with Tehama County. By imposing election duties on Shasta County and Tehama County in connection with the operation of the district, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 435 (SB 539) Margett Trial Court Trust Fund.

Existing law establishes the Trial Court Trust Fund, the proceeds of which are apportioned for specified court purposes, including funding trial court operations. Existing law specifies certain fees, collected on or before December 31, 2005, that are to be deposited in a special account in the county treasury and transmitted monthly to the Controller for deposit in the Trial Court Trust Fund. Existing law requires the Controller to calculate a penalty on any delinquent payment by multiplying the amount of the delinquent payment at a daily rate equivalent to 1½% per month for the number of days the payment is delinquent.

This bill would require those fees to be transmitted monthly from the county treasury to the State Treasury, instead of to the Controller. The bill would require the Controller to calculate interest on any delinquent payment at a daily rate equivalent to the rate of return of money deposited in the Local Agency Investment Fund from the date the payment was originally due to either 30 days after the date of issuance by the Controller of the final audit report concerning the failure to pay or the date of payment by the entity responsible for the delinquent payment, whichever comes first, and to calculate a penalty at a daily rate equivalent to 1½% per month from the date 30 days after the issuance of that final audit report. The bill would also allow for a payment schedule in the event of a large interest or penalty amount, as specified. The bill would provide that the party responsible for the error or other action that caused the failure to pay may include, but is not limited to, the party that collected the funds if that party failed or delayed in providing the party responsible for remitting the funds to the Trial Court Trust Fund with sufficient information needed by the remitting party to distribute the funds. The bill would provide that these changes shall apply to all delinquent payments for which no final audit has been issued by the Controller prior to January 1, 2008.

Ch. 436 (SB 698) Torlakson Eminent domain.

The California Constitution authorizes governmental entities to take or damage private property for public use only when just compensation, ascertained by a jury unless waived, has first been paid to, or into court for, the owner.

The Eminent Domain Law provides the procedure for the exercise of the constitutional power and authorizes the plaintiff to make an application to the court to take possession of property prior to judgment and sets forth the procedures the plaintiff must follow. Existing law requires, in this regard, that the plaintiff describe the property which the plaintiff is seeking to possess in his or her motion, to include a statement describing the defendant's right to oppose the motion, and serve a copy of that motion on the defendant owner of the property and the occupants, if any. Existing law permits a defendant or occupant of the property to oppose the motion and seek a hearing on the motion regardless of whether the hardship of having possession taken at the time specified in the order is substantial. Existing law requires the written opposition to be signed under penalty of perjury. Existing law requires a public entity to establish an amount that it believes to be just compensation for property to be acquired, and to make an offer to the owner or owners of record to acquire the property for the amount established, prior to adopting a resolution of necessity for the taking and initiating negotiations for the acquisition of real property.

The bill would provide that, if the defendant opposes the motion to take possession of the property prior to judgment, and if the written opposition asserts a hardship, it shall be supported by a declaration signed under penalty of perjury stating facts supporting the hardship. The bill would also require a public entity exercising the power of eminent domain, at the time it makes the offer to acquire the property, as described above, to provide the property owner an informational pamphlet outlining the process of eminent domain and the property owner's rights under the Eminent Domain Law.

Ch. 437 (SB 729) Padilla Vehicles: dealers: consumer protection.

(1) Existing law imposes licensing and regulatory requirements on vehicle dealers. A violation of those requirements is a crime.

This bill would create the Consumer Motor Vehicle Recovery Corporation ("recovery corporation"), with a board of directors with certain powers and duties, in order to provide payments to consumers on eligible claims, including, but not limited to, a vehicle dealer or lessor-retailer's failure to remit license or registration fees or failure to pay proceeds of a consignment sale, subject to certain requirements and limitations. On and after July 1, 2008, the Department of Motor Vehicles would be required to charge dealers or lessor-retailers a fee, as prescribed, for each vehicle sold by the dealers or lessor-retailers. Those fees less an amount that is equal to the department's costs related to collecting and processing the fees, would be continuously appropriated to the department for quarterly payment to the recovery corporation in order to fund its operations and pay eligible consumer claims, thereby making an appropriation.

A violation of these requirements would be a crime. In addition, a violation of a requirement to submit certain applications under penalty of perjury would be a crime. Because this bill would create new crimes, the bill would create a state-mandated local program.

The Department of Motor Vehicles would, in addition, be authorized to refuse issuing a license to a dealer, lessor-retailer, and certain other entities if the department finds that the applicant failed to repay the full amount of a claim paid by the recovery corporation, plus interest at the rate of 10% per annum.

The operation of the recovery corporation would be subject to examination and review by the Attorney General and his or her representatives, who would have the authority to determine that the recovery corporation has failed or ceased to operate, under specified circumstances. The bill would require that if the recovery corporation is dissolved or ceases to exist, or if the Attorney General or his or her representative determines, as prescribed, that

the recovery corporation has failed or ceased to operate, all outstanding debts, obligations of the recovery corporation, and amounts due for services rendered would first be paid from the remaining assets, including the recovery fund. The assets remaining, after settling those liabilities, would be distributed to the participants, less the costs of that distribution.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 438 (SB 730) Florez Gambling: licenses.

(1) The Gambling Control Act provides for the licensure of certain individuals and establishments involved in various gambling activities, and for the regulation of those activities, by the California Gambling Control Commission. Existing law provides for the enforcement of those activities by the Department of Justice.

Existing law requires certain persons employed in the operation of a gambling enterprise, known as key employees, to apply for and obtain a key employee license. Existing law requires that licenses issued to key employees be for specified positions only, and that the positions be enumerated on an endorsement on the license. Existing law requires a key employee license to be endorsed on the license that is issued to the owner of the gambling enterprise.

This bill would delete the requirement that licenses issued to key employees be for specified positions only, and would delete the requirement that those licenses be endorsed on the owner's license, as specified. The bill would provide that a key employee license shall entitle the holder to work as a key employee in any key employee position at any gambling establishment, provided that the key employee terminates employment with one gambling establishment before commencing work for another. The bill would also require the commission to establish a program for portable personal licenses for key employees, and would require the commission to seek to implement that program on or before July 1, 2008.

(2) Existing law requires that an application for a license or a determination of suitability be accompanied by a deposit that, in the judgment of the head of the entity within the Department of Justice that is responsible for fulfilling the obligations imposed by the act, will be adequate to pay the anticipated costs and charges incurred in the investigation and processing of the application. Existing law requires the head of that entity to adopt a schedule of costs and charges of investigation for use as guidelines in fixing the amount of any required deposit under these provisions.

This bill would require that schedule to distinguish between initial and renewal licenses with respect to costs and charges.

(3) Existing law requires that a gambling license be renewed annually, or for a longer period that the commission may set, not to exceed 2 years, upon proper application for renewal and payment of state gambling fees as required by statute or regulation.

This bill would require, instead, that a gambling license be renewed upon application for renewal and payment of state gambling fees as required by statute or regulation. The bill would provide that licenses renewed on or before July 31, 2008, shall be for the renewal period in effect at the time of the renewal but shall not expire any sooner than 15 months after the approval of the renewal application, and that licenses renewed on or after August 1, 2008, shall expire 24 months after the date of the approval of the renewal application or after the expiration of the prior license, whichever is later.

(4) Existing law requires every gambling license application to be accompanied by a nonrefundable fee of \$500, which is assessed against the gambling license issued to the owner of the gambling establishment.

This bill would require that fee be raised by regulation, not to exceed \$1,200, by January 1, 2009, and would exempt key employee licenses from the above-described assessment, as specified.

(5) The bill would provide that gaming chips may be used on the gaming floor by a patron of a gambling establishment, as defined, to pay for food and beverage items that are served at the table.

Ch. 439 (SB 771) Kuehl Deceased personalities: testamentary instruments.

Existing law establishes a cause of action for damages on behalf of specified injured parties for the unauthorized use of a deceased personality's name, voice, signature, photograph, or likeness for commercial purposes within 70 years of the personality's death, except as specified. Existing law provides that the rights recognized under these provisions are property rights, freely transferable, in whole or in part, by contract or by means of trust or testamentary documents, whether the transfer occurs before the death of the deceased personality, by the deceased personality or his or her transferees, or, after the death of the deceased personality, by the person in whom the rights vest under these provisions or the transferees of that person.

This bill would provide, instead, that the above property rights are freely transferable or descendible by contract or by means of any trust or any other testamentary instrument executed before or after January 1, 1985. It would provide that those rights shall be deemed to have existed at the time of death of any person who died prior to January 1, 1985, and shall vest in the persons entitled to these property rights under the testamentary instrument of the deceased personality effective as of the date of his or her death, except as specified. The bill would provide that, in the absence of an express provision in a testamentary instrument to transfer these rights, a provision in the instrument that provides for the disposition of the residue of the deceased personality's assets shall be effective to transfer the rights.

Ch. 440 (SB 773) Wiggins Vehicles: limitations of access.

Existing law exempts from established limitations of access governing the operation of vehicles on highways, licensed carriers of livestock when engaged in travel necessary and incidental to the shipment of livestock on specified portions of State Highway Route 101 (Highway 101). In order for the exemption to apply, the carriers must meet certain specified conditions. The Department of the California Highway Patrol is required to continue the previously issued comprehensive study of the effect of the exemption on public safety, within the provided parameters. Existing law is repealed on January 1, 2012.

This bill would require, as a condition the carriers must meet to qualify for the exemption, that the distance from the kingpin to the rearmost axle of the semitrailer does not exceed 43 feet instead of the current 40 feet. The carriers would also be required to fulfill the condition that the length of the semitrailer does not exceed a total of 48 feet.

The bill would require that if the Department of Transportation determines prior to January 1, 2012, that the only adjustment to Highway 101 possible to accommodate the livestock trucks allowed to travel on those portions of Highway 101 is the removal of any tree that has a diameter of 42 inches or greater, measured outside the bark, at 12 inches above ground on the side adjacent to the highest ground level, the Director of Transportation would be required to notify the Secretary of State, and the exemption and study requirements would be repealed upon receipt of the specified notice by the Secretary of State.

The bill would also require that if the Department of Transportation determines prior to January 1, 2012, that safety improvements to the portion of Highway 101 described herein have resulted in the reclassification of the entire segment as a terminal access route, the Director of Transportation would be required to notify the Secretary of State, and the exemption and study requirements would be repealed upon receipt of the specified notice by the Secretary of State.

Ch. 441 (SB 892) Corbett Family law: child support.

(1) Before entry of a child support order, existing law allows a child support obligor to file an application with the court to reduce or eliminate the related child support security deposit, if specified conditions are met.

This bill would also require the child support obligor, after the filing of that application, to serve the application and supporting financial and other information upon the child support obligee and any other party to the proceeding.

(2) Existing law obligates a parent to support his or her child. Existing federal law, Title IV-D of the Social Security Act, in connection with child support enforcement, requires the state to effect laws that require the use of certain procedures to collect unpaid child support debt, including liens that arise by the operation of law against real and personal property for amounts of overdue support owed by a noncustodial parent who resides or owns property within the state.

Existing law requires the Department of Child Support Services to administer all services and perform all functions necessary to establish, collect, and distribute child support, and requires the department and the local child support agency to promptly and effectively collect and enforce child support obligations. Pursuant to the above-described provisions of federal law, existing law further provides, when the local child support agency is enforcing a delinquent support obligation, for the creation of a lien against the real property, as defined, of the support obligor in specified circumstances.

This bill would authorize the transmission, filing, and recording of the lien that arises by the operation of law against the real property of the support obligor, pursuant to the above-described provisions of existing law, by means of a digitized or a digital electronic record, as provided.

Ch. 442 (SB 956) Correa Neighborhood electric vehicles.

Existing law defines “low-speed vehicle” for purposes of the Vehicle Code as a motor vehicle, other than a motor truck, with 4 wheels that is capable of a minimum speed of 20 miles per hour and a maximum speed of 25 miles per hour on a paved level surface and that has a gross vehicle weight rating of less than 3,000 pounds. Existing law imposes certain restrictions on the use of low-speed vehicles on public streets and highways, and generally requires an operator of a low-speed vehicle to have a driver’s license. A violation of the Vehicle Code is an infraction, unless otherwise specified.

Existing law authorizes a city or county to establish a golf cart transportation plan subject to the review of the appropriate transportation planning agency and traffic law enforcement agency. Existing law provides that operating a golf cart other than on an authorized roadway is an infraction punishable by a fine not exceeding \$100. Existing law authorizes, until January 1, 2009, the City of Lincoln and the City of Rocklin in the County of Placer to establish a neighborhood electric vehicle transportation plan subject to the same review process established for a golf cart transportation plan, and defines “neighborhood electric vehicle” for these purposes to have the same meaning as the above definition of low-speed vehicle. A person operating a neighborhood electric vehicle in the plan area in violation of certain provisions is guilty of an infraction punishable by a fine not exceeding \$100.

This bill, until January 1, 2013, would enact similar provisions authorizing the County of Orange to establish a neighborhood electric vehicle transportation plan for the Ranch Plan Planned Community in that county, subject to similar penalties. The bill would require a report to the Legislature by November 1, 2011. Because the bill would create a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 443 (SB 379) Denham Horse racing: out-of-country thoroughbred races.

Existing law provides that a thoroughbred racing association or fair may distribute the audiovisual signal and accept wagers on the results of out-of-state and out-of-country thoroughbred races during the calendar period the association or fair is conducting a race meeting, provided that the total number of thoroughbred races on which wagers are accepted statewide in any given year does not exceed the total number of thoroughbred races on which wagers were accepted in 1998. Existing law further prohibits the total number of thoroughbred races imported by associations or fairs from exceeding 23 per day on days when live thoroughbred or fair racing is being conducted in the state. However, that limitation excludes races imported that are part of the race card of the Kentucky Derby, Kentucky Oaks, and other specified races.

This bill would add the Dubai Cup to the list of imported races not subject to the limitation of 23 races per day.

Under existing law, revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes.

This bill would authorize additional wagering, and would increase the amount of continuously appropriated license fees, thereby making an appropriation.

Ch. 444 (AB 1736) Committee on Governmental Organization Horse racing.

Existing law regulates the number of out-of-state races that may be imported, exclusive of races that are part of the race card of specified events.

This bill would add Travers Stakes to the list of events not included in the limitation on imported races.

Existing law requires any racing association or fair that conducts thoroughbred racing to pay to the owners' organization a certain portion of the purses for a national marketing program, until January 1, 2008. Existing law also authorizes racing associations, fairs, and other related organizations to form a private, statewide marketing organization to market and promote thoroughbred and fair horse racing, and to obtain, provide, or defray the cost of workers' compensation coverage for stable employees and jockeys of thoroughbred trainers. A specified percentage of the amount handled by each satellite wagering facility is required to be distributed to that statewide marketing organization. These provisions will be repealed as of January 1, 2008.

This bill would extend the repeal date for the above provisions until January 1, 2011.

Under existing law, revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes.

This bill would authorize additional wagering, and would increase the amount of continuously appropriated license fees, thereby making an appropriation. This bill would incorporate an additional change to Section 19596.2 of the Business and Professions Code proposed by SB 379 contingent on the prior enactment of that bill.

Ch. 445 (AB 1585) Lieber Tobacco products: nonsale distribution.

Existing law prohibits, except under specified circumstances, the sale or distribution of tobacco products that is not face-to-face. Existing law authorizes the assessment of civil penalties for any violation.

This bill would also include nonsale distribution, as defined, of tobacco products within this prohibition, and would make conforming changes.

This bill would provide that if this bill and AB 1617 are both enacted and become effective on or before January 1, 2008, and this bill amends Section 22963 of the Business and Professions Code and AB 1617 repeals and adds that section, then the provisions of AB 1617

that repeal and add that section shall become operative and the provisions of this bill that amend that section shall not become operative, regardless of the order of enactment.

Existing law makes the nonsale distribution of any smokeless tobacco or cigarettes unlawful in any public building, park or playground, or on any public sidewalk, street, or other public grounds, or on any private property that is open to the general public.

This bill would include gift certificates, gift cards, or other similar offers, within the prohibited distributions and would make conforming changes.

Ch. 446 (SB 582) Corbett Charitable solicitations.

Existing law requires certain disclosures to be made prior to a solicitation or sales solicitation for charitable purposes.

This bill would authorize a charity, as defined, to engage in a solicitation for charitable purposes that involves persons standing in a public roadway soliciting contributions from passing motorists, if the persons to be engaged in the solicitation are specified law enforcement personnel, firefighters, or other persons employed to protect the public safety of a local agency, as defined, and if, not later than 10 business days before the proposed solicitation is to begin, the charity files an application, containing specified information, with the city, county, or city and county having jurisdiction over the location or locations where the solicitation is to occur. The bill would also require the charity to provide proof of a valid policy of liability insurance, as specified. The bill would require the city, county, or city and county to approve the application within 5 business days of the filing date of the application, but would authorize the city, county, or city and county to impose reasonable conditions in writing that are consistent with the intent of these provisions and that are based on articulated public safety concerns. The bill would specify that its provisions are not intended to prevent a local agency from adopting an ordinance regulating the time, place, or manner of charitable solicitations in a public roadway by other persons or charities. The bill would also make related legislative findings and declarations.

By imposing new duties on local agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 447 (SB 868) Ridley-Thomas In-home supportive services: criminal background checks.

Existing law provides for the In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons receive services enabling them to remain in their own homes. Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium. Under existing law, the functions of a nonprofit consortium contracting with the county, or a public authority established for this purpose, include investigating the qualifications and background of potential personnel.

This bill would authorize the investigation of certain potential personnel by a nonprofit consortium or public authority to include criminal background checks conducted by the Department of Justice upon the request of the nonprofit consortium or public authority.

The bill would require the public authority or nonprofit consortium to deny a potential provider's request to be placed on the registry for providing supportive services to a recipient of the In-Home Supportive Services program if the criminal background check reveals that the person has been convicted of specified offenses.

The bill would also prohibit a fee from being charged to a provider, potential personnel, or a recipient to cover any cost related to administering requirements with respect to an

investigation, or the costs to certain entities for processing a criminal background check, under these provisions.

This bill would provide that it is not to be construed to prohibit the Department of Justice from assessing a fee to cover the cost of furnishing summary criminal history information pursuant to existing law. The bill would further provide that, upon verification that at least 50% of the public authority or nonprofit consortium list of registry applicants have received a criminal background check, the county may request reimbursement for the non-federal share of cost associated with the criminal background check, as provided.

The bill would also, to extent that an appropriation is made for this purpose, authorize a nonprofit consortium or public authority to, upon request of a recipient of in-home supportive services, or personal care services under the Medi-Cal program, provide a criminal background check on a non-registry applicant or provider from the Department of Justice. The bill would also impose various duties and conditions related to the provision of a criminal background check on a non-registry applicant or provider.

Existing law requires the Department of Justice to secure a criminal record to determine whether a person has been convicted or incarcerated within the last 10 years for a sex offense against a minor, or for a violation of other prescribed crimes, including any felony, and to provide a subsequent arrest notification, as provided, if an employer of the person requests the determination and submits fingerprints of the person to the department and the person is unlicensed and provides nonmedical domestic or personal care to an aged or disabled adult in the adult's own home. Existing law defines "employer" for purposes of these provisions to include, but not be limited to, an IHSS recipient and any recipient of personal care services under the Medi-Cal program.

This bill would revise the definition of "employer" to also include a public authority or nonprofit consortium.

Existing law requires the department to charge a fee to the employer to cover the cost of administering the background checks pursuant to these provisions.

This bill would require, if the employer is an in-home supportive services recipient, a recipient of personal care services under the Medi-Cal program, or a public authority or nonprofit consortium, the fee to be shared by the county and the state in accordance with a specified ratio.

This bill would incorporate additional changes in Section 12301.6 of the Welfare and Institutions Code proposed by AB 182, to be operative only if AB 182 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 448 (AB 358) Blakeslee State property: Santa Maria.

Existing law authorizes the Director of General Services, to sell, transfer, exchange, or otherwise dispose of specified state property subject to certain conditions.

This bill would authorize the director to exchange with the City of Santa Maria, at fair market value and upon terms and conditions the director deems to be in the best interests of the state, state real property under the jurisdiction of the Department of Motor Vehicles located in the City of Santa Maria, for a land-for-land exchange, build-to-suit lease with a purchase option, new lease purchase agreement, existing leased facility, or any other equitable exchange, to be occupied by the Department of Motor Vehicles, subject to the approval of the State Public Works Board and authorization that may be provided in the Budget Bill. This bill would require that, if the exchange with the city is completed, the city would reimburse the Department of General Services for specified costs and expenses. It would provide that if the exchange is not completed by January 1, 2010, the director may enter into an exchange agreement with parties other than the City of Santa Maria, at fair market value, and upon terms and conditions the director deems to be in the best interests of the state, for this purpose, still subject to the approval of the State Public Works Board and funding under the Budget Bill.

The California Constitution provides that the proceeds from the sale of surplus state property that was purchased with General Fund revenues be used to pay the principal and interest on bonds issued pursuant to the Economic Recovery Bond Act until the principal and interest on those bonds is fully paid, after which these proceeds are required to be deposited into the Special Fund for Economic Uncertainties. Existing statutory law similarly requires that the net proceeds received from any real property disposition be paid into the Deficit Recovery Bond Retirement Sinking Fund Subaccount, a continuously appropriated account, until the bonds issued pursuant to the act are retired.

This bill would declare that the exchange of state property authorized by the bill does not constitute a sale of surplus state property as set forth in these provisions.

Ch. 449 (SB 1045) Committee on Revenue and Taxation Property taxation.

(1) The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, “full cash value” is defined as the assessor’s valuation of real property as shown on the 1975–76 tax bill under “full cash value” or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. The California Constitution and existing property tax law exclude from a “change in ownership” specified property transfers, including transfers of a principal residence, between parents and their children and from grandparents to their grandchildren, as provided. For purposes of these exclusions, existing property tax law defines a “principal residence” as a dwelling that has been granted either the homeowners’ property tax exemption or the disabled veterans’ property tax exemption. For purposes of these exclusions, existing property tax law also defines an “eligible transferee” as a parent, child, or grandchild of an eligible transferor.

This bill would clarify the definition of “principal residence,” for purposes of these change in ownership exclusions, to instead provide that the dwelling be eligible for either the homeowners’ or disabled veterans’ property tax exemption because the transferor owned and occupied the dwelling. This bill would also correct an erroneous reference to clarify that an “eligible transferee” does not include a grandparent.

(2) The California Constitution and existing property tax law authorize taxpayers that meet certain conditions to transfer the base year value, as defined, of property to replacement property. Existing law requires a taxpayer that seeks to transfer the base year value of property to replacement property to file a claim for this transfer, as specified. Existing law provides that this claim is not a public document and is not subject to public inspection, but shall be available for inspection by the transferee and the transferor, their respective spouse, legal representative, and the executor or administrator of their estate.

This bill would replace the terms transferee and transferor with the term claimant. This bill would also require the claim to be available for inspection by the trustee of a trust in which the claimant or the claimant’s spouse is a present beneficiary.

(3) Existing property tax law establishes a veterans’ organization exemption. Existing law prohibits the county assessor from approving a claim for the veterans’ organization exemption until the claimant has received an organizational clearance certificate, as specified, from the State Board of Equalization. Existing law requires board staff to issue an organizational clearance certificate to an entity that qualifies for the veterans’ organization exemption.

This bill would require an organization that files a claim for the veterans’ organization exemption to file with the assessor a valid organizational clearance certificate, as specified.

(4) By changing the manner in which county officials process claims for the veterans’ exemption and base year value transfers, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 450 (AB 402) Ma Property taxation: change in ownership.

The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, “full cash value” is defined as the assessor’s valuation of real property as shown on the 1975–76 tax bill under “full cash value” or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. The California Constitution excludes from a “change in ownership” specified property transfers of a principal residence and the first \$1,000,000 of the value of other real property between parents and their children, as defined by the Legislature. Existing property tax law implementing this constitutional exclusion generally defines “children” as a child born of the parent or parents, stepchildren, sons-in-law and daughters-in-law, and adopted children. Existing law requires those seeking this exclusion to file a claim therefor, and requires that parts of this claim be made under penalty of perjury.

This bill would specify, for purposes of this change in ownership exclusion, that “children” also includes a foster child, as provided. This bill would prohibit the exclusion of a purchase or transfer of a principal residence from a foster child to the child’s biological parent if the transferor child received that principal residence, or interest therein, from a foster parent through a purchase or transfer that was previously excluded. This bill would also require a person claiming the exclusion established by the bill to provide legal substantiation regarding the foster child status of the child, as specified. By changing the manner in which county officials administer this change in ownership exclusion, this bill would impose a state-mandated local program. This bill would also impose a state-mandated local program by expanding the definition of the crime of perjury by adding a new class of people who must file the exclusion claim under penalty of perjury.

Existing law requires property owners to report changes in ownership to, as applicable, the county assessor or the State Board of Equalization, and imposes penalties for failing to provide these reports. Existing law specifies that when an interest in a portion of real property, other than real property held in joint tenancy, is purchased or changes ownership, only the interest or portion transferred is reappraised at its full cash value. Existing property tax law specifies that if a unit or lot within a cooperative housing corporation, community apartment project, condominium, planned unit development, shopping center, industrial park, or other residential, commercial, or industrial land subdivision complex with common areas or facilities is purchased or changes ownership, then only the unit or lot transferred and the share in the common area reserved as an appurtenance of the unit or lot is reappraised.

This bill would require, upon a written request by the county assessor, the owners of a cooperative housing corporation, community apartment project, condominium, planned unit development, or other residential subdivision complex, with units or lots consisting of specified dwellings and with common areas or facilities, that transfer ownership interests without utilizing recorded deeds to file a specified report describing the property with the assessor. If the owners fail to file this report, this bill would authorize the assessor to send a change in ownership statement to every owner, tenant-shareholder, or occupant of each individual lot. If this statement is not filed, this bill would impose the same penalty on owners and shareholders as is imposed under existing law for failing to report a change in ownership to the assessor.

This bill would incorporate additional changes to Section 63.1 of the Revenue and Taxation Code, proposed by SB 1045, to be operative only if SB 1045 and this bill are both enacted, each bill amends Section 63.1 of the Revenue and Taxation Code, and this bill is enacted after SB 1045.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

Ch. 451 (AB 1492) Laird Vehicles: transit buses: right-of-way.

Existing law requires a driver to yield the right-of-way to an approaching authorized emergency vehicle that is sounding a siren and has at least one lighted lamp exhibiting a red light.

This bill would, in the Santa Cruz Metropolitan Transit District and the Santa Clara Valley Transportation Authority, if the applicable entity approves a resolution, authorize a transit bus to be equipped with a specified yield right-of-way sign on the left rear of the bus. The bill would require a participating transit agency to undertake a public education program to encourage motorists to yield to a transit bus when the sign is activated.

Ch. 452 (AB 1464) Benoit Vehicles: Preclusion of vehicle registration and issuance of arrest warrant.

Existing law makes it unlawful for the owner, or any other person, employing or otherwise directing the driver of any vehicle to cause the operation of the vehicle upon a highway in any manner contrary to law. If the owner or other person is not driving the vehicle that is operated in a manner contrary to law, the owner or other person may be mailed a notice to appear. Failure to appear in response to that notice cannot result in a warrant of arrest. A verified complaint must be filed, and if the person does not appear in court, then an arrest warrant may be issued or renewal of the registration of the vehicle involved in the offense may be precluded. The owner or other person served the complaint has 10 days to answer the charges in the complaint.

This bill would permit the court, when an owner or other person given a notice to appear does not appear in court, or pay the applicable fine and penalties if an appearance is not required, to notify the owner or other person by mail that registration may be precluded by that failure and file a notice of noncompliance with the Department of Motor Vehicles in order to preclude registration of the vehicle involved in the offense, if the owner or other person does not respond as required within 21 days of the notification. The time to appear in court to answer the charges in a verified complaint would be extended to 21 days. The bill would make conforming changes.

Ch. 453 (AB 1589) Duvall Vehicles: reports: reexaminations: removal.

Existing law authorizes a peace officer, as defined, or a regularly employed and salaried public employee, who is engaged in directing traffic or enforcing parking laws and regulations, to remove a vehicle when the vehicle is found or operated upon a highway, public lands, or an offstreet parking facility with a registration expiration date in excess of 6 months before the date it is found or operated.

This bill would provide additional instances relating to registration when a vehicle may be removed from a highway, public lands, or an offstreet parking facility.

The bill would also make technical, nonsubstantive changes.

This bill also would incorporate additional changes in Section 22651 of the Vehicle Code proposed by AB 1165 to be operative if AB 1165 and this bill are both enacted and this bill is enacted last.

Ch. 454 (AB 1663) Evans Special education: conformance to federal law.

(1) Existing law establishes a right of individuals with exceptional needs to receive free appropriate public education and ensures the right to special instruction and related services needed to meet their unique needs, in conformity with federal law.

This bill would make various revisions generally conforming state law to federal requirements relating to, among others, pupil identification, assessment, and eligibility; individualized education program development, including notice, implementation, and review; procedural safeguards, including due process hearing procedures and requirements; and pupil information confidentiality. The bill would also make clarifying, conforming, and other technical changes. To the extent that these revisions would impose new duties on local educational agencies, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 455 (SB 594) Romero Witness Relocation and Assistance Program.

Existing law establishes the Witness Protection Program, and authorizes the Attorney General to reimburse state and local agencies for the provision of specified services to witnesses.

This bill would rename that program the Witness Relocation and Assistance Program, and would include support, advocacy, and other services for witnesses' safe transition into a new environment as part of the services to be reimbursed.

Ch. 456 (AB 1013) Krekorian Unlawful detainer: nuisance abatement.

(1) Existing law establishes the criteria for determining when a tenant is guilty of unlawful detainer, including conduct involving illegally selling a controlled substance, which is deemed to constitute committing a nuisance on the premises.

This bill would add the circumstance of a person who commits an offense involving unlawful possession or use of illegal weapons or ammunition or uses the premises to further that purpose, to those circumstances that are deemed to constitute a nuisance.

(2) Existing law establishes procedures for unlawful detainer actions in the name of the people for certain nuisances, to be brought by the city attorney or city prosecutor.

This bill would create pilot programs in specified cities in the Counties of Los Angeles, San Diego, Sacramento, and Alameda that would establish as a basis for the unlawful detainer action in the name of the people, an unlawful weapons or ammunition purpose, as defined. The programs, effective until January 1, 2010, would require the city attorney and city prosecutor of each participating jurisdiction to annually provide specified information to the Judicial Council regarding the number of cases for unlawful detainer filed for a weapons or ammunition purpose and would require the Judicial Council to compile that information, and report the merits of the pilot programs to the Legislature by April 15, 2009. By imposing new duties on local officials, the bill would create a state-mandated local program. The bill would make other conforming changes.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 457 (AB 1291) Mendoza Antigang violence parenting classes.

Under existing law, if a minor has been adjudged a ward of the juvenile court, and the court finds that a specified notice has been given to the parent or guardian of the minor and orders that the parent or guardian shall retain custody of the minor either subject to or without the supervision of the probation officer, the parent or guardian may be required to participate with the minor in a counseling or education program, including, but not limited to, parent education and parenting programs operated by community colleges, school districts, or other appropriate agencies designated by the court.

This bill would authorize the juvenile court, if a minor is found to be a ward of the court by reason of the commission of a gang-related offense, and the court finds that the minor is a first-time offender and orders that a parent or guardian retain custody of that minor, to order the parent or guardian to attend antigang violence parenting classes. The bill would require the Department of Justice to establish the curriculum of those classes, including specified criteria. The bill would provide that the father, mother, spouse, or other person liable for the support of the minor, the estate of that person, and the estate of the minor shall be liable for the cost of the classes, unless the court finds that the person or estate does not have the financial ability to pay.

Ch. 458 (AB 1300) Price The Family Connection and Young Offender Rehabilitation Act of 2007.

(1) Existing law states that the purpose of the Division of Juvenile Programs within the Department of Corrections and Rehabilitation is to provide comprehensive training, treatment, and rehabilitative services to youthful offenders under the jurisdiction of the department, that are designed to promote community restoration and accountability to victims, and to produce youth who become law-abiding and productive members of society.

This bill would expand the purpose of the division to include the provision of comprehensive education to youthful offenders, in addition to training, treatment, and rehabilitative services, and it would provide that the services shall be designed to promote family ties, in addition to community restoration and accountability to victims, and to produce youth who become law-abiding and productive members of society.

This bill would provide that a ward confined in a facility of the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, shall be encouraged to communicate with family members, clergy, and others, and to participate in programs, that will facilitate his or her education, rehabilitation, and accountability to victims, and that may help the ward become a law-abiding and productive member of society. Among other things, the bill would require the division or facility to maintain a toll-free telephone number for information relating to visitation.

(2) Existing law authorizes the Secretary of the Department of Corrections and Rehabilitation to transfer persons confined in one institution or facility of the Division of Juvenile Facilities to another.

This bill would require proximity to family to be considered in placement of those persons.

Ch. 459 (AB 1381) Nunez Gangs: Office of Gang and Youth Violence Policy.

Existing law establishes the Corrections Standards Authority, which administers various federally funded grant programs relating to juvenile justice and crime prevention.

This bill would establish the Office of Gang and Youth Violence Policy, which would be responsible for coordinating and assisting various persons and entities with strategies to prevent violence and gang involvement, and which, and to the extent feasible, would be authorized to perform related duties, including establishing an Internet Web site, as specified.

The bill would state the intent of the Legislature regarding the creation of the office. The bill would also require the office to submit a report to the Legislature on or before March 1, 2009, containing recommendations and other information, as specified.

Ch. 460 (SB 22) Migden Breast-feeding.

Under existing law, the State Department of Public Health licenses and regulates health facilities, including hospitals.

This bill would require the State Department of Public Health to recommend specified training that is intended to improve breast-feeding rates among mothers and infants for general acute care hospitals and special hospitals that provide maternity care, and that have exclusive patient breast-feeding rates in the lowest 25%, as described. The bill would require the department to notify the hospital director or other person in charge of the hospital that the training is available, upon request, to the hospital.

Existing law provides for the California Special Supplemental Food Program for Women, Infants, and Children (WIC) administered by the State Department of Public Health and counties, under which nutrition and other assistance is provided to low-income postpartum and lactating women, infants, and children under 5 years of age. Existing law also requires the department to conduct a public service campaign that includes the promotion of mothers breast-feeding their infants.

This bill would require the department not later than July 1, 2008, to the extent that specified federal funds and private grants or donations are made available for this purpose, to begin expansion of the breast-feeding peer counseling program at local agency WIC sites, as provided.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which health care services are provided to qualified low-income persons. Existing law provides that Medi-Cal benefits include various services to lactating mothers and infants.

This bill would require the department to streamline and simplify existing Medi-Cal program procedures in order to improve access to lactation supports and breast pumps among Medi-Cal recipients.

Ch. 461 (SB 166) Negrete McLeod Emergency preparedness: community college districts.

Existing law makes each school district and county office of education responsible for the overall development of all comprehensive school safety plans for its schools operating kindergarten or any of grades 1 to 12, inclusive. Existing law requires the Office of Emergency Services, in coordination with all interested state agencies with designated response roles in the state emergency plan and interested local emergency management agencies, to jointly establish by regulation a standardized emergency management system for use by all emergency response agencies, to include specified components.

Existing law establishes the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as one of the segments of public postsecondary education in this state. Under existing law, the board of governors appoints a chief executive officer, known as the Chancellor of the California Community Colleges.

This bill would make various legislative findings and declarations regarding emergency preparedness plans. The bill would require by January 1, 2009, the Office of the Chancellor of the California Community Colleges, in consultation with the Governor's Office of Emergency Services and the Office of Homeland Security, to develop emergency preparedness standards and guidelines to assist community college districts and campuses in the event of a natural disaster, hazardous condition, or terrorist activity on or around a community college campus as specified.

Ch. 462 (SB 184) Alquist Transportation projects.

Existing law authorizes a regional or local entity that is the sponsor of, or is eligible to receive funding for, a project contained in the state transportation improvement program to expend its own funds for any component of a project within its jurisdiction that is included in an adopted state transportation improvement program, and for which the commission has not made an allocation. Existing law requires these expenditures to be reimbursed by the state, under specified conditions. Existing law limits these provisions to projects advanced for expenditures by an eligible regional or local entity within the 12 months preceding the date the project would otherwise be allocated funding by the commission.

This bill would instead limit these provisions to projects advanced for expenditure by an eligible regional or local entity that are programmed in the current fiscal year of the state transportation improvement program, would require the regional or local entity to request an allocation from the commission no later than the time of the first expenditure for the project, and would make other related changes.

Ch. 463 (SB 418) Migden Local government finance: special education funding.

Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund (ERAF) in that county for allocation to school districts, community college districts, and the county office of education.

If any excess revenues remain in a county ERAF after allocations are made to these school entities, existing law requires the county auditor to allocate these excess moneys to county superintendents of schools for special education programs. Existing law specifies that these allocations are to be counted as augmentations to property tax revenues for special education programs to the extent that these revenues offset state aid otherwise received pursuant to a specified statute. Existing law requires that, if any excess revenues remain in county ERAFs after these allocations are made for special education programs, these excess revenues be allocated among the county and cities and special districts in the county in proportion to their contribution to the county ERAF.

Existing law requires the Superintendent of Public Instruction to calculate funding for each special education local plan area (SELPA) each fiscal year and to calculate the amount of General Fund moneys the SELPA shall receive after subtracting from the total amount of funding the SELPA is to receive for special education programs and licensed children's institutions the amount of property tax revenues available to the SELPA and the amount of federal moneys received pursuant to a specified provision. Existing law requires the State Department of Education to apportion to each SELPA an amount of funding for out-of-home care in licensed children's institutions pursuant to a specified formula.

This bill would, for the 2007–08 fiscal year and for each fiscal year thereafter, require the auditor of a county whose ERAF contains excess funds to apportion, to the extent funds are available after funding is provided for general special education programs, funds sufficient to cover not more than 50% of the amount determined, pursuant to a specified statute, to a SELPA for the funding of out-of-home care in licensed children's institutions. This bill would require the State Department of Education, for the same fiscal years, to apportion the

remaining 50% of the amount determined pursuant to that specified provision, or a larger percentage, as necessary, if the applicable county ERAF has insufficient funds available for that purpose, to the applicable SELPA. This bill would prohibit a county from being required to provide excess ERAF funds for purposes of specified special education programs for a fiscal year prior to the 2007–08 fiscal year that has not already provided for those programs prior to the start of the 2007–08 fiscal year. This bill also would, for the 2007–08 fiscal year and for each fiscal year thereafter, prohibit excess ERAF funds from being apportioned to additional special education programs.

By changing the manner in which property tax revenues are allocated by county auditors, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 464 (AB 340) Hancock Child welfare services: resource family pilot program.

Existing law requires the placement of dependent children by the juvenile court according to specified procedures. Existing law requires the state, through the State Department of Social Services and county welfare departments, to establish and support a system of statewide child welfare, which includes services related to foster care placement of dependent children and adoption. Existing law provides for the licensure of foster care providers, and the approval of adoptive parents.

This bill would require the State Department of Social Services, in consultation with county welfare agencies, to implement a pilot program to establish a unified resource family approval process to replace the existing multiple processes for licensing foster family homes, approving relatives and nonrelative extended family members as foster care providers, and approving adoptive families, as provided in the bill. The bill would define a resource family for its purposes as an individual or couple that a participating county has approved to care for a related or unrelated child who is under the jurisdiction of the juvenile court or otherwise in the care of a county child welfare agency.

This bill would require the department, prior to implementing the pilot program, to promulgate standards for home approval and permanency assessment for placing children in a resource family.

This bill would require the pilot program to be conducted in up to 5 counties that volunteer to participate. It would authorize the pilot program to continue through the 2010–11 fiscal year, or for 3 full fiscal years following the receipt of funding for the program, whichever is later.

Existing law establishes the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which counties provide payments to foster care providers on behalf of qualified children in foster care. The program is funded by a combination of federal, state, and county funds, with moneys from the General Fund being continuously appropriated to pay for the state's share of AFDC-FC costs. Existing law requires that a child be in one of 7 designated placements in order to be eligible for AFDC-FC.

This bill also would require a child placed in a resource family home that meets specified standards to be eligible for AFDC-FC. The bill would provide that a resource family be paid a specified AFDC-FC rate, and would apply existing sharing ratios for state financial participation.

This bill would make its implementation contingent upon the continued availability of federal funds for costs associated with the placement of children with resource families as provided in the bill.

This bill would provide that no appropriation pursuant to the provision continuously appropriating funds for the AFDC-FC program would be made for purposes of the bill.

The bill would also set forth specified responsibilities for the department and counties participating in the pilot program for implementing and enforcing standards provided in the bill.

Existing law requires the State Department of Social Services or licensed adoption agency to require each person filing an application for adoption to be fingerprinted, and to secure from an appropriate law enforcement agency any criminal record of that person to determine whether the person has ever been convicted of a crime other than a minor traffic violation, and authorizes the department or a licensed adoption agency to secure the person's full criminal record, if any.

This bill would require that any federal level criminal offender record requests submitted to the Department of Justice be submitted with fingerprint images and related information required by the Department of Justice, as specified. The bill would require the Department of Justice to forward any such record requests received pursuant to those provisions to the Federal Bureau of Investigation (FBI), to review the information returned to the department from the FBI, and to compile and disseminate a response to the State Department of Social Services or to the licensed adoption agency.

Existing law authorizes the State Department of Social Services to conduct a specified foster care demonstration project in up to 20 counties, to allow flexible use of federal and state foster care funds by utilizing a federal capped allocation model over a 5-year period, based on the terms and conditions of a prescribed federal waiver. Existing law provides that any county, state, or federal savings in the foster care program that occur as a result of the demonstration project shall be reinvested by the counties in child welfare services program improvements.

This bill instead would provide that any unexpended federal or state funds may be retained by the county for expenditure in subsequent fiscal years, consistent with the prescribed purposes of the demonstration project.

Ch. 465 (AB 1331) Evans Foster youth: federal benefits.

Existing law provides for the placement of certain children in foster care under the custody of the State Department of Social Services and county welfare departments.

Existing law establishes the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which counties provide payments to foster care providers on behalf of qualified children in foster care. The program is funded by a combination of federal, state, and county funds, with moneys from the General Fund being continuously appropriated to pay for the state's share of AFDC-FC costs.

Existing law, the federal Social Security Act, provides for benefits for eligible beneficiaries, including survivorship and disability benefits and Supplemental Security Income (SSI) benefits for, among others, blind and disabled children. The act authorizes a person or entity to be appointed as a representative payee for a beneficiary who cannot manage or direct the management of his or her money. Existing law also provides for the State Supplementary Program for Aged, Blind and Disabled under which State Supplemental Payments (SSP) are made in supplementation of SSI benefits.

Existing law requires a county to apply to become a child's representative payee for purposes of these federal benefits during the time the child is placed in foster care, and also requires the county to provide information regarding certain federal requirements when a foster youth who is receiving SSI payments is approaching his or her 18th birthday.

Existing law requires the State Department of Social Services to convene a workgroup to develop best practice guidelines for county welfare departments to assist eligible children who are in the state's or a county's custody and are qualified under the bill in obtaining federal social security and supplemental security income benefits. Existing law requires the workgroup to make recommendations to the department, by December 31, 2006, regarding the feasibility and cost-effectiveness of reserving a designated amount of foster children's social security and SSI/SSP benefits in lieu of reimbursing the county and the state for care

and maintenance, and, in making those recommendations, to consider that the reserved benefits would be for the purpose of assisting the foster child in the transfer to self-sufficient living in a manner consistent with federal law.

This bill would require a county to screen each foster youth in foster care who is at least 16 years and 6 months of age and not older than 17 years and 6 months of age in order to determine whether the youth is eligible for federal SSI benefits.

This bill would make compliance with this requirement contingent upon the ability of the county to use state AFDC-FC resources for the foster youth pending the application for federal benefits, as prescribed, and would require the department to clarify that this funding mechanism is consistent with federal law.

This bill would provide that no appropriation would be made for purposes of funding the bill pursuant to the provision continuously appropriating funds for the AFDC-FC program.

By increasing county duties, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 466 (AB 1453) Soto Foster care: residentially based services.

Existing law provides for child welfare services, which are public social services directed toward, among other purposes, protecting and promoting the welfare of all children, including those in foster care placement. Existing law provides for the placement of children in foster care in various settings, including group homes, by foster placement agencies, under the oversight of the State Department of Social Services.

Existing law provides for the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which, pursuant to a combination of federal, state, and county funds, aid on behalf of eligible children is paid to foster care providers.

Existing law, the California Community Care Facilities Act, provides for the licensure and regulation of community care facilities, including group homes, by the State Department of Social Services.

Existing law requires the State Department of Social Services, under the direction of the California Health and Human Services Agency and in collaboration with other appropriate organizations, as specified, to reexamine the role of out-of-home placements currently available for children served within the child welfare services system.

This bill would require the department to convene a workgroup of designated public and private stakeholders that will develop a plan for transforming the current system of group care for foster children or youth, and for children with serious emotional disorders into a system of residentially based services, as defined. The bill would require the department, by January 1, 2011, to provide a copy of the plan developed by the workgroup to the Legislature. The bill would require the department to encourage counties and private nonprofit agencies to develop voluntary agreements to test alternative program design and funding models to achieve the bill's objectives. The bill would authorize voluntary agreements between counties and nonprofit agencies to transfer all or part of an existing group home program into a residentially based services program, if specified conditions are met, would prohibit the agreements from exceeding 5 years from January 1, 2008, and would authorize the department to waive otherwise applicable regulatory provisions and approve alternative funding models, in order to facilitate implementation of these agreements. The bill would specify the required characteristics of these alternative funding models.

The bill would also require the department to report during the legislative budget hearings on the status of any county agreements entered into pursuant to these provisions, and on the development of statewide residentially based services programs.

Ch. 467 (AB 1512) Torrico Medi-Cal: foster children.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, and which provides health care services to qualified low-income recipients. The Medi-Cal program is partially governed and funded by federal Medicaid provisions. Under existing law, low-income children in foster care are covered under the Medi-Cal program. Existing law requires the county child welfare agency with the responsibility for the care and placement of the foster child, in consultation with the child's foster caregiver, to determine whether it is in the best interest of the child to enroll in a Medi-Cal managed care plan. In some counties a county organized health system provides Medi-Cal services. Existing law requires the department to establish for Medi-Cal managed care plans urgent disenrollment procedures for foster children in out-of-county placements.

This bill would require that, whenever a foster child enrolled in a county organized health system is placed in an out-of-county placement, the county child welfare or probation agency with responsibility for the care and placement of the child determine, no later than one day after the out-of-county placement begins and in consultation with the child's foster caregiver, whether the child should remain in the county organized health system. If it is determined that the child should be disenrolled, the county department is required to submit a request to the appropriate entity that the child be disenrolled.

This bill would require the department to develop urgent disenrollment procedures that require county organized health systems to disenroll foster children who have been placed out of county within 2 working days of that placement in order that they may be enrolled in a Medi-Cal managed care plan in the county of the placement. The bill would require the department and the county organized health systems to perform other related duties.

By placing new duties on counties, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 468 (SB 39) Migden County welfare agencies and departments: child abuse and neglect: files.

(1) Existing law requires the case file of a dependent child or ward of the juvenile court to be kept confidential, except as specified. Existing law permits the juvenile case files that pertain to a deceased child who was within the jurisdiction of the juvenile court, as provided, to be released to the public after a petition has been filed and interested parties have been afforded an opportunity to file an objection, subject to certain limitations.

This bill would revise those provisions and instead require that juvenile case files that pertain to any child who died as the result of child abuse or neglect shall be released to the public, subject to certain limitations set forth in the bill. The bill would also add specified attorneys to the persons allowed access to a juvenile case file.

(2) Existing law provides for a system of child welfare services administered by each county, with oversight by the State Department of Social Services.

This bill would require the custodian of records within a county welfare agency or department to disclose, within 5 days from a request, or upon substantiation, specified records, subject to the redaction of certain identifying personal information, of child abuse or neglect that results in the death of a child.

This bill would also require all county welfare agencies and departments to notify the State Department of Social Services, as provided, of all child fatalities that occurred within its jurisdiction that were the result of child abuse or neglect, and would require the State Department of Social Services to establish a procedure for, and annually report on, that notification, as specified. The bill would also require the State Department of Social Services

to adopt emergency regulations to implement the above-described changes, as specified, which regulations would be excepted from the rulemaking provisions of the Administrative Procedures Act.

By increasing the duties of local agencies, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 469 (SB 785) Steinberg Foster children: mental health services.

Existing law requires the State Department of Mental Health to implement managed mental health care for Medi-Cal beneficiaries through fee-for-service or capitated rate contracts with mental health plans, including individual counties, counties acting jointly, any qualified individual or organization, or a nongovernmental entity. Under existing law, this may include the provision of specialty mental health services to children in foster care.

This bill would require the State Department of Mental Health, by July 1, 2008, to create a standardized contract, service authorization procedure, and set of documentation standards and forms, and to use these items to facilitate the receipt of medically necessary specialty mental health services by a foster child who is placed outside of his or her county of original jurisdiction, as specified. In addition, the bill would require the California Health and Human Services Agency to coordinate the efforts of the State Department of Mental Health and the State Department of Social Services for the performance of designated duties with respect to implementing these provisions, including establishing informational materials for foster care providers and county child welfare agencies, relating to the provision of mental health services to children in their care, as specified.

Existing law provides for the Adoption Assistance Program, administered by the State Department of Social Services, which provides for the payment by the department and counties of cash assistance to eligible families that adopt eligible children, and bases the amount of the payment on the needs of the child and the resources of the family to meet those needs. Under existing law, the department or licensed adoption agency is required, among other duties, to provide the prospective adoptive family with information on the availability of mental health services through the Medi-Cal program or other programs.

Existing law provides that the county responsible for determining the child's eligibility for the program, and for providing financial aid is the county that at the time of the adoptive placement would otherwise be responsible for making a payment pursuant to the CalWORKs program or the Aid to Families with Dependent Children-Foster Care program if the child were not adopted.

Existing law provides for Kinship Guardianship Assistance Payment Program (Kin-GAP), as a part of the CalWORKs program, which provides aid on behalf of specified categories of eligible children who are placed in the home of a relative caretaker. Existing law provides that the county that formally had court ordered jurisdiction over a child receiving benefits under the Kin-GAP program shall be responsible for paying the child's aid regardless of where the child actually resides, so long as the child resides in California.

This bill would provide that a foster child whose adoption has become final and who is receiving or is eligible to receive Adoption Assistance Program assistance, including Medi-Cal, or who has become the subject of a legal guardianship and is receiving Kin-GAP assistance, including Medi-Cal, and whose foster care court supervision has been terminated, shall be provided medically necessary specialty mental health services, as specified.

This bill would require the State Department of Mental Health, if necessary, to seek federal approval prior to implementing the bill.

To the extent that it would impose new duties on county child welfare departments in connection with the provision of mental health services to foster children, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 470 (SB 472) Corbett Prescription drugs: labeling requirements.

Existing law, the Pharmacy Law, provides for the licensure and regulation of the practice of pharmacy by the California State Board of Pharmacy in the Department of Consumer Affairs. Existing law prohibits a pharmacist from dispensing a prescription, except in a container that meets certain labeling requirements.

This bill would require the board to promulgate regulations that require, on or before January 1, 2011, a standardized, patient-centered, prescription drug label on all prescription medication dispensed to patients in California. The bill would require the board to hold special public meetings statewide in order to seek information from certain groups, and would require the board to consider specified factors in developing the label requirements. The bill would require the board to report to the Legislature on or before January 1, 2010, on its progress at the time of the report, and to report to the Legislature on or before January 1, 2013, on the status of implementation of the requirements.

Because a knowing violation of the Pharmacy Law constitutes a crime, and because the above-described provisions would impose additional duties under that law, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 471 (SB 614) Simitian Public works: design-build contracts.

(1) Existing law authorizes, until January 1, 2010, a school district governing board to enter into a design-build contract, as defined, in which factors in addition to price and cost may be considered in awarding a contract for the design and construction of a school facility that exceeds \$10,000,000.

This bill instead would authorize a school district governing board to enter into those contracts that exceed \$2,500,000, and would extend this authority until January 1, 2014.

(2) Existing law prohibits, in a contract between the design-build entity and a subcontractor, and in a contract between a subcontractor and any subcontractor thereunder, the percentage of the retention proceeds withheld to exceed the percentage specified in the contract between the school district or community college district and the design-build entity, except as provided.

This bill would prohibit retention proceeds withheld by the school district or community college district from the design-build entity to exceed 5% if a performance and payment bond, issued by an admitted surety insurer, is required in the solicitation of bids.

(3) Existing law requires each contract with a design-build entity to provide that no construction or alteration of any school building is to commence prior to the receipt of the written approval of the plans, as to the safety of design and construction, from the Department of General Services.

This bill would define "plans" for these purposes to include, but is not limited to, plans for foundations or other building systems, as determined by the Division of the State Architect, based on design criteria provided by the architect or structural engineer of the

design-build entity to the Department of General Services prior to the receipt of completed building plans.

(4) Existing law authorizes the governing boards of 3 specified community college districts and up to 5 community college facility construction projects selected by the Chancellor of the California Community Colleges to enter into a design-build contract, as defined, until January 1, 2011, in which factors in addition to price and cost may be considered in awarding a contract for the design and construction of a community college facility for an amount that exceeds \$10,000,000.

This bill instead would make those provisions applicable to any community college district governing board and would authorize the governing board of a community college district to enter into those contracts that exceed \$2,500,000, and would extend this authority until January 1, 2014.

(5) This bill would provide that, except as provided in the bill, nothing in the bill is to be construed to affect the application of any other law.

Ch. 472 (SB 633) Alquist Persons with disabilities: care in community settings and hospital discharge planning policies.

Existing law prohibits unjustified institutionalization of persons with disabilities and requires that services be provided in community settings when possible.

This bill would declare the intent of the Legislature regarding the state's commitment to providing services for persons with disabilities and seniors in the most integrated setting.

Existing law provides for the licensure and regulation of health facilities, including hospitals, as defined. Existing law requires each hospital to have a written discharge planning policy and process, as specified. Violation of the provisions relating to the licensure and regulation of health care facilities is a crime.

This bill would require a hospital to provide every patient anticipated to be in need of long-term care at the time of discharge with contact information for at least one public or nonprofit agency or organization dedicated to providing information or referral services relating to community-based long-term care options in the patient's county of residence and appropriate to the needs and characteristics of the patient. By changing the definition of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 473 (SB 645) Correa Design-build contracts: cities: counties.

Existing law requires public entities to comply with certain procedures in soliciting and evaluating bids and awarding contracts for the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement.

Existing law, until January 1, 2011, permits cities in the Counties of Solano and Yolo and the City of Victorville, with the approval of the city council, to enter into design-build contracts, as defined, in accordance with specified procedures. Existing law requires any city that elects to use the design-build method to make a specified report to the Legislative Analyst's Office before December 2009, and requires the Legislative Analyst's Office to report to the Legislature regarding the use of the design-build method.

This bill, until January 1, 2011, would also permit the City of Stanton, with the approval of the city council, to enter into design-build contracts, as defined, in accordance with specified provisions. This bill would require the City of Stanton, if it elects to use the design-build method, to make a specified report to the Legislative Analyst's Office before December 1, 2009, and would require the Legislative Analyst's Office to report to the Legislature regarding the effectiveness of the design-build method. This bill makes a finding and declaration of the necessity to enact special legislation with respect to the City of Stanton.

Existing law authorizes specified state agencies, cities, and counties to implement alternative procedures for the awarding of contracts on a design-build basis.

This bill would authorize, until January 1, 2013, the Orange County Sanitation District to enter into design-build contracts in excess of \$6,000,000, as defined, according to a specified procedure.

This bill makes findings regarding the necessity of a special statute.

This bill would require specified information to be verified under oath, thus imposing a state-mandated local program by expanding the scope of an existing crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 474 (SB 686) Corbett State Bar Act.

Existing law, the State Bar Act, provides for the licensure and regulation of attorneys by the State Bar of California, a public corporation. Existing law requires the State Bar to charge an annual membership fee to active members of up to \$315 for the year 2007. Existing law authorizes the Board of Governors of the State Bar to increase the annual membership fees by an additional amount not exceeding \$10, to be used only for the costs of financing constructing, purchasing, or leasing facilities to house State Bar staff and for major capital improvement projects related to facilities owned by the State Bar, and requires the State Bar, at least 30 days prior to entering into an agreement for construction, purchase, or lease of a facility in San Francisco, to submit its preliminary plan and cost estimate for the facility to the Judiciary Committees of the Legislature for review.

This bill would require the board to fix the annual membership fee for active members for 2008 at a sum not to exceed \$315. The bill would delete the authorization for the board to increase the annual membership fees to be used for the costs of financing, constructing, purchasing, or leasing facilities for staff and major capital improvement projects. The bill would delete the requirement that the State Bar submit a preliminary plan and cost estimate for the construction, purchase, or lease of a facility in San Francisco to the Judiciary Committees. The bill would also, until January 1, 2011, authorize the board to increase the annual membership fee for active members by up to \$10 in any year to be used for the costs of upgrading its information technology system, and would require the additional amount to be separately listed and described in the annual membership fee invoice, as specified.

This bill would require the board, on or before January 10, 2008, to report to the Judiciary Committees, with a copy to the State Auditor, certain information relating to its strategic planning process, budget, funds, and auditing system. The bill would make technical, nonsubstantive changes to conform the State Bar Act to the renumbering of the California Rules of Court.

Existing law provides that it is the duty of an attorney to, among other things, never reject, for any consideration personal to himself or herself, the cause of the defenseless or oppressed.

This bill would provide that a lawyer may fulfill his or her ethical commitment to provide pro bono services, in part, by providing financial support to organizations providing free legal services to persons of limited means.

Ch. 475 (SB 720) Kuehl Foster children.

Existing law relating to the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program defines various categories of placement options for eligible foster children. One of these categories is the "whole family foster home," which is defined as a family home, approved relative caregiver or nonrelative extended family member's home, or certified family home, that provides foster care for a minor parent and his or her child, and is specifically recruited and trained in this regard.

Existing law provides for Kinship Guardianship Assistance Payment Program (Kin-GAP) and the Kin-GAP Plus programs, as a part of the CalWORKs program, which provides aid on behalf of specified categories of eligible children who are placed in the home of a relative caretaker. Existing law requires the rate paid on behalf of children eligible for a Kin-GAP payment to equal 100% of the rate paid to a licensed or approved foster home, as specified.

This bill would expand the definition of a whole family foster home by specifying that this category includes both new and existing foster homes, and by including the homes of nonrelated legal guardians who are appropriately recruited and trained.

Existing law establishes a schedule of rates payable under the AFDC-FC program. Existing law requires the payment made for care and supervision of a child who is living with a teen parent in a whole family foster home to equal the basic rate for children placed in a licensed or approved home, as specified.

This bill would require the payment made for the care and supervision of a dependent infant who is living with his or her dependent teen parent in a group home to equal the infant supplemental rate for group home payments. The bill would require a Kin-GAP relative who was designated as a whole family foster home immediately prior to entering the Kin-GAP program to receive the same amounts for the care and supervision of a child living with a teen parent as they received as a whole family foster home under AFDC-FC.

Existing law requires a shared responsibility plan to be developed, and updated as needed, between a teen parent, as defined, caregiver, and other county or state representatives, as appropriate, for the care of the child of a teen parent when the child of a teen parent is not under the jurisdiction of the dependency court but is in the full or partial physical custody of the teen parent who is living in an out-of-home placement in a whole family foster home, as defined.

This bill would expand the meaning of “teen parent” to include, under specified circumstances, a child adjudged to be a dependent child or ward of the court or a child who is a ward of a nonrelated legal guardian and receiving case management, living in an out-of-home placement in a whole family foster home, who is a parent. The bill would provide that the shared responsibility plan requirements would no longer apply when a former whole family foster home is receiving payments under the KIN-GAP program, as specified.

Existing law continuously appropriates funds for allocation to each county for the adequate care of children eligible to receive AFDC-FC benefits.

This bill would provide that no appropriation pursuant to provisions of law continuously appropriating funds for the AFDC-FC program would be made for the purposes of funding the bill.

This bill would incorporate additional changes in Section 11400 of the Welfare and Institutions Code proposed by AB 1494 to be operative only if AB 1494 and this bill are both enacted and become effective on or before January 1, 2008, and this bill is enacted last.

Ch. 476 (SB 734) Torlakson Instructional materials: reviews: fees.

(1) Existing law requires the State Board of Education to adopt basic instructional materials for use in kindergarten and grades 1 to 8, inclusive. Existing law further requires the state board to ensure that curriculum frameworks are reviewed and adopted in each subject area consistent with specified submission cycles.

This bill would reenact a provision that, until January 1, 2007, required the State Department of Education, prior to conducting a followup adoption, to notify all publishers and manufacturers known to produce basic instructional materials in that subject, that a fee will be assessed based on the number of programs the publisher or manufacturer indicates will be submitted. A review of a submission would be prohibited from being conducted until the fee is paid in full. These provisions would be repealed on January 1, 2011.

(2) Existing law requires the state board, in reviewing and adopting or recommending for adoption submitted basic instructional materials, to use specified criteria, and ensure that, in

its judgment, the submitted basic instructional materials meet all of the specified criteria, including, but not limited to, compliance with the specified requirements and guidelines for social content. Regulations establish the procedures for social content review, including, but not limited to, authorizing the State Department of Education or its agents to charge publishers and manufacturers a fee not to exceed the cost of the service for conducting a social content review, for including their instructional materials in the list of instructional materials that have been approved by the state board for compliance with social content requirements, or both, if a publisher or manufacturer requests that their instructional materials be reviewed for compliance with social content requirements and those materials are not concurrently being submitted for adoption.

This bill would require the state board to adopt regulations to govern the social content reviews conducted outside the primary and followup instructional material adoption processes. The department would be authorized to contract with agents to conduct the specified social content reviews. The department would be required to assess a fee for the review that meets specified requirements, including notice to publishers and manufacturers. These provisions would be repealed on January 1, 2011.

Ch. 477 (SB 767) Ridley-Thomas Drug overdose treatment: liability.

Existing law authorizes a physician and surgeon to prescribe, dispense, or administer prescription drugs, including prescription controlled substances, to an addict under his or her treatment, as specified. Existing law prohibits, except in the regular practice of his or her profession, any person from knowingly prescribing, administering, dispensing, or furnishing a controlled substance to or for any person who is not under his or her treatment for a pathology or condition other than an addiction to a controlled substance, except as specified.

This bill would authorize, until January 1, 2011, a licensed health care provider, who is already permitted pursuant to existing law to prescribe an opioid antagonist, as defined, if acting with reasonable care, to prescribe and subsequently dispense or distribute an opioid antagonist in conjunction with an opioid overdose prevention and treatment training program, as defined, without being subject to civil liability or criminal prosecution. The bill would require a local health jurisdiction that operates or registers an opioid overdose prevention and treatment training program to collect prescribed data and report it to the Senate and Assembly Committees on Judiciary by January 1, 2010. The bill would provide that these provisions apply only to specified counties.

Ch. 478 (SB 783) Torlakson Amusement Rides Safety Law.

Under the Amusement Rides Safety Law, the Division of Occupational Safety and Health regulates the safe installation, repair, maintenance, use, operation, and inspection of all amusement rides, as defined, for the protection of the general public using those amusement rides. However, the Permanent Amusement Ride Safety Inspection Program regulates permanent amusement rides, as defined.

The Permanent Amusement Ride Safety Inspection Program prohibits the operation of a permanent amusement ride without a policy of insurance in an amount of not less than \$1,000,000 per occurrence insuring the owner or operator against liability for injury or death to persons arising out of the use of the permanent amusement ride. The Amusement Rides Safety Law prohibits the operation of an amusement ride without a policy of insurance in an amount of not less than \$500,000 insuring the owner or operator against liability for injury suffered by persons riding the amusement ride.

This bill would increase the minimum policy of insurance amount under the Amusement Rides Safety Law to \$1,000,000 per occurrence, effective January 1, 2009.

Existing law requires an operator of an amusement ride to report or cause to be reported to the division immediately by telephone each known incident where the maintenance,

operation, or use of the amusement ride results in a fatality or injury to a person that requires medical service other than ordinary first aid treatment.

This bill would also require a report for incidents where the maintenance, operation, or use of the amusement ride results in a loss of consciousness that requires medical service other than ordinary first aid treatment, major mechanical failure, or a patron falling from a moving ride or falling from a ride that has temporarily stopped in an elevated position. The bill would additionally require that a written accident report on a form designated by the division be submitted to the division within 24 hours of any incident.

The Permanent Amusement Ride Safety Inspection Program authorizes the division to inspect any permanent amusement ride after the report of an accident to the division.

This bill would grant similar inspection authority to the division with respect to any amusement ride.

The Permanent Amusement Ride Safety Inspection Program requires each owner of a permanent amusement ride to provide specified training for its employees in the safe operation and maintenance of amusement rides.

This bill would establish a similar requirement for each owner of any amusement ride. This bill would additionally require the owner of an amusement ride to maintain all records necessary to demonstrate that these requirements have been met, and, effective January 1, 2009, make these records available to a division inspector upon request.

The Permanent Amusement Ride Safety Inspection Program authorizes the division to impose on an owner or operator of a permanent amusement ride a civil penalty if the division determines that the owner or operator subject to the program has willfully or intentionally violated the program or any rule or regulation promulgated under that program and that violation results in death or serious injury. The program also requires the division to enforce the program by the issuance of citations and notices of civil penalty and establishes a process of appeal to the Occupational Safety and Health Appeals Board.

This bill would, under the Amusement Rides Safety Law, grant to the division similar authority to impose civil penalties, would impose similar enforcement requirements upon the division, and would establish a similar process of appeal.

This bill would require the division to adopt rules and regulations necessary for the administration of the Amusement Rides Safety Law, including the reporting requirements established under the bill.

Because this bill would impose additional requirements upon an owner and operator of an amusement ride, a violation of which would be a misdemeanor, the bill would create new crimes, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 479 (SB 793) Harman Public swimming pools.

Existing law requires lifeguard services to be provided for any public swimming pool that is of wholly artificial construction where a direct fee is charged for its use. For all other public swimming pools, existing law requires lifeguard service or signs clearly indicating that the service is not provided. Existing law requires lifeguards who provide lifeguard service to possess, as minimal qualifications, current Red Cross advanced lifesaving certificates or Y.M.C.A. senior lifesaving certificates, or equivalent qualifications and training in administering first aid. Existing law establishes similar requirements for persons providing aquatic instruction, as specified.

This bill would, instead, require the above-described lifeguards to possess, as minimum qualifications, as determined by the department current certificates from an American Red Cross or YMCA of the U.S.A. lifeguard training program, or to have equivalent

qualifications, and to have been trained to administer first aid. The bill would make conforming changes to the provisions relating to persons providing aquatic instruction.

Ch. 480 (SB 812) Correa Alternative workweek schedules: pharmacists.

Existing law generally requires premium overtime rates of pay for work in excess of 8 hours in a day and work in excess of 40 hours in a workweek with specified exceptions, including where the employer and employees have agreed to an alternative workweek pursuant to specified procedures. The Industrial Welfare Commission, pursuant to constitutionally authorized delegated powers from the Legislature, has established regulations, denominated wage orders, governing wages, hours, and working conditions in various industries. Pharmacists, depending on the nature of their work, may be regulated by Wage Order 7, relating to the mercantile industry, or Wage Order 4, relating to professional, technical, clerical, mechanical, and similar occupations, including employees in the health care industry. Although both wage orders permit the adoption of alternative workweek schedules by agreement for those employees performing work in those industries, Wage Order 7 requires that any such agreement provide not less than 2 consecutive days off within a workweek, whereas, Wage Order 4 has no such restriction.

This bill would provide that pharmacists engaged in the practice of pharmacy who are employed in the mercantile industry, pursuant to Wage Order 7, shall be permitted to adopt alternative workweek schedules allowed by Wage Order 4, including alternative workweeks that can be adopted by employees working in the health care industry.

Ch. 481 (SB 854) Ridley-Thomas Voter registration: students.

(1) Existing law requires the Secretary of State to annually provide secondary education and specified postsecondary education campuses with a number of voter registration forms that is consistent with the number of students enrolled at each school. The Secretary of State is required to provide written notice with each form, instructing students regarding voter eligibility and where to file the completed forms.

This bill would allow students to submit completed voter registration forms to the Secretary of State in addition to returning the forms in person or by mail to the elections official of the county in which the student resides. This bill would require every community college and California State University campus that operates an automated class registration system on or before January 1, 2008, to permit students through an automated program in coordination with the Secretary of State, during the class registration process, to elect to receive a voter registration form that is preprinted with personal information relevant to voter registration by January 1, 2010. This bill would further allow a community college or California State University campus that does not operate an automated class registration system on or before January 1, 2008, 2 years from when it begins operating an automated class registration system to implement an automated voter registration program. This bill would state that the University of California is encouraged to comply with this requirement. The bill also would require the Secretary of State to annually submit to the Legislature, on or before January 1 of each year, a report on its student voter registration efforts, as specified.

This bill would require every high school, community college, and California State University campus to designate a contact person, as specified, for the Secretary of State to contact in order to facilitate the distribution of voter registration cards. This bill would state that the University of California is encouraged to comply with this requirement.

By imposing new duties on public schools and the community colleges, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 482 (SB 929) Cogdill Overtime compensation: prevailing wage determinations.

Existing law provides that 8 hours of labor constitutes a day's work. Under existing law, any work in excess of 8 hours in one workday and any work in excess of 40 hours in any one workweek and the first 8 hours worked on the 7th day of work in any one workweek is required to be compensated at the rate of no less than 1¹/₂ times the regular rate of pay for an employee. Existing law exempts a professional employee in the computer software field from this overtime compensation requirement if the employee is primarily engaged in work that is intellectual or creative, the employee's hourly rate of pay is not less than \$41, and the employee meets other requirements.

This bill would decrease the hourly rate of pay requirement for this exemption to not less than \$36.

Existing law generally requires contractors and subcontractors performing work on public works, as defined, costing over \$1,000 to pay to their workers the general prevailing rate of per diem wages, including these wage rates for holiday and overtime work, in the locality in which the public work is performed. Existing law provides that per diem wages includes both hourly wage rates and employer payments for employee benefits, as specified. Existing law requires the Director of Industrial Relations to determine per diem wages by referencing collective bargaining agreements, wage rates for federal public works, and, in certain instances, data from the labor organizations and employers associations, as specified. If the director determines that the general prevailing rate of per diem wages is the rate established by a collective bargaining agreement, and that collective bargaining agreement contains definite and predetermined changes during its term that will affect the rate adopted by the director, existing law requires the director to incorporate those changes into his or her prevailing wage determination.

This bill would authorize contractors and subcontractors, whenever the director's prevailing wage determination contains a predetermined change but does not specify how the change will be allocated between hourly wages and employer payments for benefits, to allocate payments equal to that change to either hourly wages or benefits for a specified time period, as provided. This bill would also provide that, if the allocation of a predetermined change is subsequently altered by the parties pursuant to the collective bargaining agreement that was the basis of the prevailing wage determination, a contractor or subcontractor may allocate payments of not less than the amount of the definite and predetermined change in accordance with either the originally published allocation or the allocation as altered in the collective bargaining agreement.

Ch. 483 (SB 1039) Committee on Health State Department of Public Health.

Existing law, the California Public Health Act of 2006, commencing July 1, 2007, establishes the State Department of Public Health, renames the former State Department of Health Services as the State Department of Health Care Services, and redistributes between these 2 departments the functions and responsibilities of the former State Department of Health Services.

This bill would make technical and conforming changes.

Existing law, until July 1, 2007, expressly requires that the appointment of the Chief Deputies of the State Department of Health Services be subject to Senate confirmation.

Commencing July 1, 2007, existing law does not specify whether the appointment of the Chief Deputies of the State Department of Public Health or of the State Department of Health Care Services are subject to Senate confirmation.

This bill would specify that appointment of the Chief Deputies of the State Department of Public Health and of the State Department of Health Care Services are subject to Senate confirmation.

Ch. 484 (AB 15) Houston Metropolitan Transportation Commission: Vasco Road.

Existing law creates the Metropolitan Transportation Commission as a local area planning agency to provide comprehensive regional transportation planning for the San Francisco Bay area counties.

This bill would require the commission, in cooperation with the Contra Costa Transportation Authority, on or before September 30, 2008, to conduct a study and submit a report to the Legislature containing recommendations to expedite approval and facilitate funding of the construction and maintenance of a median barrier on a specified portion of Vasco Road in Contra Costa County. The bill would authorize the commission to request funding to cover the cost of that study, as specified, and would also require the commission to establish a policy committee and a technical advisory committee, as specified.

Because the bill would require local agencies to perform additional duties, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement shall be made pursuant to these statutory provisions for costs mandated by the state pursuant to this act, but would recognize that local agencies and school districts may pursue any available remedies to seek reimbursement for these costs.

Ch. 485 (AB 18) Blakeslee Signature stamps: authorized users.

Existing law provides that, when a signature is required for any purpose specified in the Elections Code, a person who cannot write may satisfy that requirement by the use of a mark if certain conditions are met.

This bill would provide, in addition, that a person with a disability, as defined, who, by reason of the disability, is unable to write may use a signature stamp, or authorize another person to use the stamp, to serve as his or her signature for any purpose specified in the Elections Code. The bill would require that a signature affixed with a signature stamp pursuant to these provisions be treated in the same manner as a signature made in writing and would authorize a signature stamp to be used as a mark, as specified. It would impose certain conditions on the use of signature stamps, including a condition that the signature stamp be used in the presence of the Secretary of State, local elections officials, or their designees to obtain a ballot.

The bill would prohibit the use of a signature stamp on a ballot, or to obtain an absentee ballot, in any local, state, or federal election unless the person is the authorized user of the signature stamp. The bill would also provide that a registered voter or any person who is eligible to vote, who qualifies as an authorized user, may use a signature stamp only after he or she first submits his or her affidavit of registration or a new affidavit of registration, whichever is applicable, in the presence of a county elections official, using the signature stamp to sign the affidavit.

The bill would require the Secretary of State to report to the Legislature, not later than January 1, 2009, regarding the use of signature stamps during the 2008 elections.

Ch. 486 (AB 28) Huffman Personal income taxes: contributions: California Breast Cancer Research Fund.

The Personal Income Tax Law allows taxpayers, until January 1, 2008, to designate on their tax returns that a specified amount in excess of their tax liability be contributed to the California Breast Cancer Research Fund.

This bill would extend the operation of those provisions until January 1, 2013.

Ch. 487 (AB 119) Price Elections: payment of expenses.

Existing law, operative January 1, 2007, repealed, among other things, those provisions in the Elections Code that had required that all expenses authorized and necessarily incurred in the preparation for, and conduct of, elections be paid from the county treasuries, except when an election is called by the governing body of a city.

This bill would, retroactive to January 1, 2007, restore those provisions.

This bill would additionally provide, until January 1, 2008, that expenses incurred on or after January 1, 2007, for elections proclaimed by the Governor to fill a vacancy in the office of State Senator or Member of the Assembly, or to fill a vacancy in the office of United States Senator or Representative in Congress, are to be paid by the state. Where an election proclaimed by the Governor is consolidated with a local election, the bill would provide that the state would pay only those additional expenses directly related to the election proclaimed by the Governor.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 488 (AB 176) Jones CalWORKs: child support.

Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states. Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program for the allocation of federal funds received through the TANF program, under which each county provides cash assistance and other benefits to qualified low-income families.

Under existing law, a recipient of CalWORKs aid is required to assign to the county any rights to support from any other person that the recipient may have, on his or her behalf, or on behalf of any other family member for whom the recipient is receiving aid, not exceeding the total amount of CalWORKs cash assistance provided to the family.

This bill would require assignment to the county of all rights to support for applications received on or after October 1, 2009, with respect to support that accrues during the period of time that the applicant or recipient is receiving CalWORKs assistance.

Existing law requires a local child support agency to monitor child support cases, and seek modifications when needed.

This bill would impose a state-mandated local program by additionally requiring the local child support agency, at least once every 3 years, to review, and if necessary, seek modification of, each child support case for which assistance is being provided under the CalWORKs program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 489 (AB 194) Committee on Budget Budget Act of 2007.

The Budget Act of 2007 made appropriations for the support of state government for the 2007–08 fiscal year.

This bill would amend and supplement the Budget Act of 2007 by revising items of appropriation for the State Department of Health Care Services, the Employment

Development Department, the Department of Parks and Recreation, the State Department of Education, and the Board of Governors of the California Community Colleges.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 490 (AB 263) Arambula Property tax revenue allocations: Fresno Metropolitan Flood Control District.

Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. Under these provisions for the 1992–93 fiscal year, the formula for special districts reduces the amounts of property tax revenue deemed allocated in the prior fiscal year to certain special districts by 35%, not to exceed 10% of a district's total annual revenues for the 1989–90 fiscal year, as reported in a specified publication of the Controller. Existing law requires the Director of Finance to ensure that the amount of these revenue reductions for all special districts equals \$375,000,000 for the 1992–93 fiscal year.

Existing law also requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund (ERAF) in that county for allocation to school districts, community college districts, and the county office of education.

This bill would, for the 2007–08 fiscal year, decrease by \$633,000 the total amount of property tax revenue deemed allocated to the Fresno County ERAF for the Fresno Metropolitan Flood Control District for the prior fiscal year. This bill would also require that these allocation adjustments be incorporated into property tax revenue allocations for future fiscal years. This bill would also require the Director of Finance to ensure that this change does not result in an increase in the amount of a reduction under these provisions for any other special district. This bill would make findings and declarations regarding the necessity of a special statute.

By changing the manner in which property tax revenues are allocated by county officials in the County of Fresno, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason. This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 491 (AB 288) Price Voter intimidation: Voter Intimidation Restitution Fund.

Existing law prohibits certain activities intended to compel a person to vote or dissuade a person from voting. Violation of these provisions is a felony.

This bill would authorize a court to order any person convicted of violating this prohibition to also pay a restitution fine, in an amount determined by the court, to be deposited in the Voter Intimidation Restitution Fund created by this bill. The bill would, upon appropriation by the Legislature, allocate the money in this fund to the Secretary of State for purposes of voter education campaigns that address the specific crime committed by anyone convicted of violating this prohibition.

Ch. 492 (AB 292) Blakeslee California Emergency Services Act: Nuclear Planning Assessment Special Account.

(1) The California Emergency Services Act provides for the assessment of certain state agency costs on utilities operating certain nuclear powerplants, and the deposit of those moneys into, and the appropriation and allocation of moneys from, the Nuclear Planning Assessment Special Account. These provisions become inoperative on July 1, 2009, and are repealed on January 1, 2010.

This bill would extend the inoperative date of these provisions to July 1, 2019, and the repeal date to January 1, 2020. The bill would revise funding levels payable from the account beginning with the 2009–10 fiscal year and would revise the manner for yearly adjusting and compounding of funding available for the Diablo Canyon site.

(2) Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations. Existing law authorizes the commission to fix the rates and charges for every public utility and requires that those rates and charges be just and reasonable. The act requires the commission to develop and transmit to the Office of Emergency Services an equitable method of assessing utilities operating nuclear powerplants for their reasonable pro rata share of state agency costs specified in the act and provides that the amounts paid by the utilities be allowed for ratemaking purposes by the commission. The act provides that upon it becoming inoperative, any amounts remaining in the special account be refunded pro rata to the contributing utility.

This bill would require that upon the act becoming inoperative, any amounts remaining in the special account be refunded pro rata to the contributing utility, to be credited to the utility's ratepayers and would require that the commission ensure that any moneys refunded to an electrical corporation are credited to ratepayers.

Ch. 493 (AB 356) Mendoza Gambling control.

(1) Existing law, the Gambling Control Act, provides for the licensure and regulation of various legalized gambling activities and establishments by the California Gambling Control Commission. Under the act, a corporation is ineligible to receive a license to own a gambling enterprise unless the conduct of controlled gambling is among the purposes stated in its articles of incorporation, and the articles of incorporation have been submitted to and approved by the commission.

This bill would authorize the commission to delegate to staff the approval of articles of incorporation, statements of limited partnership, and other entity filings that are required to specifically state that gambling is one of the purposes for which the business entity is formed.

(2) Existing law regulates the collection of player fees in gambling establishments. Existing law prohibits a player fee from being calculated as a fraction or percentage of wagers made or winnings earned. Existing law also authorizes flat fees on each wager to be assessed at different collection rates, but no more than 3 collection rates may be established per table.

This bill would increase that amount to 5 collection rates per table.

Ch. 494 (AB 383) Tran Medi-Cal: orthodontic services.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care services. Existing law requires that emergency and essential diagnostic and restorative dental services are covered benefits under Medi-Cal, except as specified, subject to certain limitations.

This bill would, commencing July 1, 2008, notwithstanding these provisions, require that the active and retentive phases of orthodontic treatment covered under Medi-Cal be reimbursed on a quarterly basis pursuant to a specified formula, only until specified standards are implemented by the department, at which time the bill would exempt only covered retentive phase orthodontic services from those provisions.

Ch. 495 (AB 404) Ruskin Political Reform Act of 1974: disclosure.

Existing law requires a broadcast or mass mailing advertisement supporting or opposing a candidate or ballot measure, if paid for by an independent expenditure, to include a disclosure statement that identifies the name of the committee making the independent expenditure and the names of the persons from whom the committee making the independent expenditure has received its 2 highest cumulative contributions of \$50,000 or more during the 12-month period prior to the expenditure, as specified.

This bill would require that an advertisement supporting or opposing a candidate, that is paid for by an independent expenditure, expressly state that it is not authorized by a candidate or candidate-controlled committee.

Existing law makes a violation of the act subject to administrative, civil, and criminal penalties.

This bill would impose a state-mandated local program by imposing these penalties on persons who violate the provisions of this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes upon a $\frac{2}{3}$ vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

Ch. 496 (AB 434) Silva Notaries public.

Existing law requires a notary public to keep an active journal of all official acts performed as a notary public, and to include in this journal, among other things, information as to every instrument acknowledged or proved before the notary. Existing law requires a notary, upon written request of any member of the public, as specified, to supply a photostatic copy of any line item contained in this journal.

This bill would require a notary public to either provide a photostatic copy, as specified, to the requesting member of the public, or acknowledge that the line item does not exist, within 15 business days of receipt of the request by the notary.

Ch. 497 (AB 462) Villines Vehicle: license plates.

Under existing law, an owner of a vehicle that is a 1962 or older model-year vehicle may, under specified circumstances, utilize license plates of this state with the date of year corresponding to the model-year date when the vehicle was manufactured. A fee of \$35 is required to be charged for the application for the use of these special plates.

This bill instead would authorize this option for the owner of a vehicle that is a 1969 or older model-year or the owner of a commercial vehicle or pickup truck that is a 1972 or older model-year. The bill would also increase the amount of the application fee to \$45.

The changes made by the bill would become operative on July 1, 2009.

Ch. 498 (AB 574) Torrico High-occupancy toll (HOT) lanes.

(1) Existing law authorizes the San Diego Association of Governments (SANDAG) to conduct, administer, and operate a value pricing and transit development demonstration program on a maximum of 2 transportation corridors in San Diego County involving high-occupancy toll (HOT) lanes. Existing law authorizes this program for each corridor for a period of 4 years after SANDAG first collects revenues for that corridor.

This bill would authorize the SANDAG program to operate indefinitely by deleting the 4-year limitation provision. The bill would also authorize SANDAG to issue bonds backed by program revenues.

(2) Existing law authorizes the Sunol Smart Carpool Lane Joint Powers Authority, consisting of the Alameda County Congestion Management Agency, the Alameda County Transportation Improvement Authority, and the Santa Clara Valley Transportation Authority, to conduct, administer, and operate a value pricing high-occupancy vehicle (HOT lane) program on the Sunol Grade segment of State Highway Route 680 in Alameda and Santa Clara Counties and authorizes the Alameda County Congestion Management Agency to conduct, administer, and operate a program on a corridor within Alameda County for a maximum of 2 transportation corridors in Alameda County. Existing law authorizes the operation of these programs for a period of 4 years after the administering agency first collects revenues for any of the authorized corridors.

This bill would authorize these programs to operate indefinitely by deleting the provisions that limit the operation of these programs to a period of 4 years after the administering agency first collects revenues for any of the authorized corridors. The bill would also authorize the administering agency to issue bonds, refunding bonds, or bond anticipation notes backed by program revenues.

(3) Existing law authorizes the Santa Clara Valley Transportation Authority (VTA) to conduct, administer, and operate a HOT lane program on any 2 of the corridors included in the high-occupancy vehicle lane system in Santa Clara County. Existing law authorizes the operation of this program for a period of 4 years after VTA first collects revenues from a HOT lane under the program.

This bill would authorize the program to operate indefinitely by deleting the provisions that limit the operation of the program to a period of 4 years after VTA first collects revenues from a HOT lane under the program. The bill would also authorize VTA to issue bonds, refunding bonds, or bond anticipation notes backed by program revenues.

Ch. 499 (AB 715) Laird Water conservation: low-flush water closets and urinals.

(1) The State Housing Law requires all water closets sold or installed in this state to be water closets and associated flushometer valves, if any, that use no more than an average of 1.6 gallons per flush and urinals and associated flushometer valves, if any, that use no more than an average of one gallon per flush and requires these water closets, urinals, and associated flushometer valves to meet performance standards established by the American Society of Mechanical Engineers standards. Violation of the State Housing Law is punishable as a misdemeanor.

This bill would require that all water closets sold or installed in this state shall use no more than an average of 1.6 gallons per flush and that all urinals sold or installed in this state use no more than an average of one gallon per flush. It would require that, on and after January 1, 2014, all water closets and all urinals, other than blow-out urinals, sold or installed in this state shall be high-efficiency water closets and urinals. These provisions would remain operative only until January 1, 2014, or until the date on which the California Building Standards Commission includes standards in the California Building Standards Code that conform to these requirements, whichever date is later.

The bill also would require manufacturers selling water closets or urinals in this state to offer high-efficiency models for sale in a specified percentage of all models offered, including 50% by January 1, 2010, 67% by January 1, 2011, 75% by January 1, 2012, 85% by January 1, 2013, and 100% by January 1, 2014. It would require these manufacturers, by January 30 of 2010, 2011, 2012, and 2013, to inform, in writing, the California Energy Commission of the percentage of high-efficiency models it is offering for sale that year. These provisions would remain operative only until January 1, 2014, or until the date on which the California Building Standards Commission includes standards in the California Building Standards Code that conform to these requirements, whichever date is later.

The bill would require a nonwater-supplied urinal approved for installation or sold in this state to satisfy specified requirements.

The bill would require, on or before July 1, 2009, any state agency that adopts or proposes building standards for plumbing systems to consider developing building standards that would govern the use of nonwater-supplied urinals for submission to the California Building Standards Commission, as specified.

By changing the definition of a crime, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 500 (AB 915) Hernandez Medi-Cal managed care.

Existing law establishes the Medi-Cal program, administered by the State Department of Health Care Services, under which basic health care services are provided to qualified low-income persons. Existing law provides that a Medi-Cal managed care health plan contractor that has entered into a contract with the department may offer nonmonetary incentives to promote good health practices by Medi-Cal enrollees, if approved by the department.

This bill would, in the absence of countervailing considerations and to the extent permitted by federal law, require the department to approve the use by health plans of nonmonetary incentives for health education to accomplish specified purposes, and would require the department to develop and publish written guidelines for the appropriate use of nonmonetary incentives that may be offered.

Ch. 501 (AB 917) Salas Elections.

(1) Existing law provides that if a precinct board is unable to furnish a ballot to a qualified voter on election day because of an insufficient number of ballots at the precinct, the county elections official is required to deliver additional ballots to the precinct in order to allow voting by 10:00 p.m.

This bill would instead require that additional ballots be delivered within 2 hours. The bill would also require the precinct board to give waiting voters the option of casting their vote immediately using an alternative procedure approved by the Secretary of State and established prior to the election.

(2) Existing law regulates generally the issuing of ballots on election day as well as the use of direct recording electronic voting systems.

This bill would, in the case of an election for a state or federal office, require that each polling place using a direct recording electronic voting system also be provided by the county elections official with a supply of paper ballots, which may include provisional ballots, equivalent to specified percentages of the registered voters in the precinct for statewide direct primary and general elections. The county elections official would be required to establish procedures for the use of the paper ballots if the direct recording electronic voting system becomes nonfunctional, and the precinct board would be required to allow a voter to vote by paper ballot rather than the electronic system if the voter so chooses and there are sufficient paper ballots available. The bill would also provide that any vote cast on a provisional ballot subject to these provisions by an otherwise qualified voter shall be counted as a regular ballot and is not subject to the requirements for casting a provisional ballot.

This bill would require the Secretary of State, for each statewide election, to conduct parallel monitoring, as defined, of each direct recording electronic voting system in use on election day, as specified, and to make the results of the parallel monitoring available prior to the certification of the election.

(3) By increasing the duties of county elections officials, the bill would impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 502 (AB 921) Krekorian Public social services: hearings.

Existing law authorizes an applicant for or recipient of public social services who is dissatisfied with certain actions of the county welfare department, to request a hearing from the State Department of Social Services. Existing law requires a request for hearing to be filed within 90 days after the order or action complained of.

This bill would authorize a person to file a request for a hearing more than 90 days after the order or action complained of, if the director determines there is good cause, as defined, for filing beyond the 90-day period.

Existing law authorizes an affected county, applicant, or recipient, within 30 days after receiving the proposed decision of an administrative law judge adopted by the Director of Social Services, a final decision rendered by an administrative law judge or a decision issued by the director himself or herself, to file a request with the director for a rehearing. Existing law requires the director to grant or deny the request for rehearing between 5 and 15 working days after the receipt of the request, and provides that the request shall be deemed denied if the director does not take action within the time allowed.

This bill would, instead, require the director to grant or deny the rehearing request no later than 35 days after the request is made. The bill specifies grounds for rehearing and requires that notice granting or denying rehearing specify the legal grounds of the decision. The bill would authorize a rehearing beyond 30 days if an applicant or recipient does not receive a copy of the relevant decision, or when the director determines that good cause, as defined, exists.

This bill would also require the department to implement the bill through all-county information notices from the director by January 1, 2008.

Ch. 503 (AB 1055) Blakeslee Environment: mitigation: Highway 99.

The Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 requires \$1,000,000,000 in specified bond funds, upon appropriation, to be made available to the Department of Transportation for improvements to Highway 99.

The California Environmental Quality Act authorizes a master environmental impact report to be prepared for a plan adopted by the department for improvements to regional segments of Highway 99 funded by those bond funds.

This bill would authorize the department to communicate, coordinate, and consult with the Resources Agency, Wildlife Conservation Board, Department of Fish and Game, Department of Conservation, and other appropriate federal, state, or local governments, to consider and implement mitigation requirements on a regional basis for the projects covered by that master environmental impact report. The bill would authorize the department to execute an agreement, memorandum of understanding, or other similar instrument to memorialize its understanding of any communication, coordination, or implementation activities with other state agencies for the purpose of meeting mitigation requirements on a regional basis.

Ch. 504 (AB 1063) Evans Local agency finance: limited tax bonds.

Existing law authorizes the board of supervisors of any county to levy, increase, or extend a transactions or use tax for specified purposes, subject to specified criteria.

This bill would specify that a county board of supervisors may provide for the issuance of bonds payable from the proceeds of the tax, subject to specified criteria, and would make various conforming changes.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 505 (AB 1090) Spitzer Ballot designation requirements.

(1) Existing law provides, with the exception of candidates for Justice of the State Supreme Court or Court of Appeal, that each candidate for elective city, county, district, state, or federal office, at his or her option, may have appear immediately under his or her name as a candidate only one of a number of specified designations, including, but not limited to, his or her current principal professions, vocations, or occupations.

This bill would require the elections official to maintain a copy of the ballot designation for each candidate that appears on the ballot in that county for a specified period of time. By increasing the duties of local elections officials, the bill would impose a state-mandated local program.

This bill would additionally require a candidate who submits a ballot designation on his or her nomination documents to also file a ballot designation worksheet that supports the use of these words and would require that the ballot designation worksheet be filed by the candidate with the elections official at the same time that the candidate files his or her declaration of candidacy.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 506 (AB 1178) Hernandez Medical information: disclosures.

(1) The Confidentiality of Medical Information Act prohibits a provider of health care, health care service plan, or contractor, as defined, from disclosing medical information regarding a patient, enrollee, or subscriber, except as authorized by that patient, enrollee, or subscriber, or as otherwise required or authorized by law. Under the Confidentiality of Medical Information Act, any violation of the provisions of the act that results in economic loss or personal injury to a patient is punishable as a misdemeanor.

This bill would further except from that prohibition the disclosure of medical information, consistent with applicable law and standards of ethical conduct, by a psychotherapist, as defined, if the psychotherapist, in good faith, believes the disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a reasonably foreseeable victim or victims, and the disclosure is made to a person or persons reasonably able to prevent or lessen the threat, including the target of the threat. By changing the definition of a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would also incorporate additional changes to Section 56.10 of the Civil Code proposed by AB 1687 and AB 1727, to be operative only if any or all of those bills are enacted and this bill is chaptered last.

Ch. 507 (AB 1224) Hernandez Optometrists: telemedicine.

Existing law, the Optometry Practice Act, creates the State Board of Optometry, which licenses optometrists and regulates their practice. The act defines the practice of optometry as including the treatment of primary open-angle glaucoma with the participation, as

specified, of a collaborating ophthalmologist. Existing law, the Medical Practice Act, regulates the practice of telemedicine, defined as the practice of health care delivery, diagnosis, consultation, treatment, transfer of medical data, and education using interactive audio, video, or data communications, by a health care practitioner, as defined. A violation of the provisions governing telemedicine is unprofessional conduct.

This bill would make a licensed optometrist subject to these telemedicine provisions and would define collaborating ophthalmologist for purposes of his or her participation in treating primary open angle glaucoma.

Ch. 508 (AB 1243) Karnette Vote by mail voters.

(1) Existing law permits any voter to apply for permanent absent voter status if the voter completes an application containing the required information in accordance with specified statutory provisions and establishes provisions applicable to absent voters and permanent absent voters.

This bill would revise these provisions to rename “an absent voter” and a “permanent absent voter” as a vote by mail voter. The bill would also require affidavits of registration to contain a space to permit the affiant to apply for “vote by mail status” and would make other technical, nonsubstantive conforming changes to these provisions.

By increasing the duties of local elections officials, the bill would impose a state-mandated local program.

(2) Existing law provides that absentee ballots may be submitted to satellite offices, the locations, hours, and telephone numbers of which must be announced by general news release no less than 14 days before voting at that location.

This bill would provide that in cases of disaster or emergency, only 48 hours’ notice of the satellite office information is required.

(3) This bill would incorporate additional changes in Section 2150 of the Elections Code, proposed by AB 44, to be operative only if AB 44 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(4) This bill would incorporate additional changes in Section 2166.5 of the Elections Code, proposed by AB 603, to be operative only if AB 603 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(5) This bill would incorporate additional changes in Section 3011 of the Election Code, proposed by AB 1167, to be operative only if AB 1167 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(6) This bill would incorporate additional changes in Sections 3017 and 15320 of the Election Code, proposed by AB 773, to be operative only if AB 773 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(7) This bill would incorporate additional changes to Sections 3103.5 and 3110 of the Elections Code, proposed by both this bill and AB 223, to be operative only if AB 223 and this bill are both enacted, each bill amends the respective sections, and this bill is enacted after AB 223.

(8) This bill would incorporate additional changes in Section 14310 of the Election Code, proposed by AB 1248, to be operative only if AB 1248 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 509 (AB 1273) Leno State claims.

Existing law requires the California Victim Compensation and Government Claims Board to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$733,647.47 from various funds to the Executive Officer of the California Victim Compensation and Government Claims Board to pay claims accepted by the board. This bill would require the Controller, upon the request of the board, in a form prescribed by the Controller, to transfer surcharges and fees from the Budget Act items of appropriation identified in this bill to Item 8700-001-0001 of Section 2.00 of the Budget Act of 2007, as specified.

Existing law requires the state to pay counties for the costs of conducting specified elections proclaimed by the Governor during 2006.

This bill would appropriate \$1,765,000 from the General Fund to the board to pay claims resulting from county election costs under these provisions.

Existing law provides that the board may authorize any state agency to settle and pay claims filed against the state in connection with specified filing fees if the settlement does not exceed \$1,000.

This bill would authorize any state agency to settle any claim against the state if the settlement does not exceed \$1,000.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 510 (AB 1274) Leno Claims against the state: appropriation.

Existing law authorizes a procedure for the payment of claims against the state.

This bill would appropriate \$3,275,236 from the General Fund to the Department of Justice for payment of specified claims against the state and would require that appropriated funds in excess of the amount required to pay those claims revert to the General Fund.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 511 (AB 1307) Krekorian Public employee benefits: supplemental contribution program.

Under existing law, an individual who is a member of the Public Employees' Retirement System, the Legislators' Retirement System, the Judges' Retirement System, or Judges' Retirement System II may participate in the Supplemental Contributions Program. Under existing law, that individual may contribute at least a minimum amount to the Supplemental Contributions Program. Existing law requires the Board of Administration of the Public Employees' Retirement System to administer that program and requires employee contributions to be paid to the Supplemental Contributions Program Fund, a continuously appropriated fund.

This bill would additionally permit an individual employed by an employer who contracts with the board for the Supplemental Contributions Program to participate in that program. By increasing contributions to a continuously appropriated fund, the bill would make an appropriation. The bill would also make clarifying and technical changes to these provisions.

Ch. 512 (AB 1402) Evans Individual program plan meetings: recordation: appeals procedure information.

Existing law, the Lanterman Developmental Disabilities Services Act, grants persons with developmental disabilities the right to receive treatment and services to meet their needs, regardless of age or degree of disability, at each stage of life. Existing law requires that the state pay for these services through contracts with various private nonprofit corporations for the operation of regional centers for the developmentally disabled, and requires regional centers to develop an individual program plan for each consumer that sets forth the treatment and services to be provided for the consumer.

Existing law grants an applicant for, or recipient of, services, or his or her representative, who is dissatisfied with any decision or action of the service agency, as defined, an

opportunity for a fair hearing, including the option for a voluntary informal meeting or for voluntary mediation.

This bill would grant a consumer, or his or her parent, guardian, conservator, or authorized representative, the right to make an audiotape recording of the individual program plan meeting, and would require the regional centers and vendors to provide appeal procedure information on their respective Internet Web sites, if any, including, but not limited to, a link to the department's Internet Web site, including the department's telephone number for the purpose of answering consumer and applicant questions about the appeals procedure. It would also require all recipients, applicants, and others having legal responsibility for recipients or applicants to be notified of the service agency's mediation and fair hearing procedure upon request.

Ch. 513 (AB 1432) Soto State teachers' retirement.

The State Teachers' Retirement Law prescribes a comprehensive system of rights and benefits for its members and specifically permits a court, upon legal separation or dissolution of marriage, to award to a nonmember spouse, as defined, a separate account under the Defined Benefit Program pursuant to that person's community property interest. The law permits an employer to offer benefits under the Cash Balance Benefit Program to certain employees who are employed less than 50% of full time, and addresses community property interests in this regard. The law provides certain exceptions for nonparticipant domestic partners in connection with federal tax law limitations.

Existing law permits a member of the Defined Benefit Plan of the State Teachers' Retirement System to elect to purchase service credit for out-of-state service performed in a position while employed by a public educational institution located in another state or territory of the United States or for educational service performed as an employee of the United States, as specified. Existing law provides that contributions for the purchase of service credit are deposited in the State Teachers' Retirement Fund, a continuously appropriated fund.

This bill would remove exceptions regarding certain transfers of accumulated contributions and rollover distributions for nonparticipant domestic partners in connection with federal tax law limitations. The bill would also make technical changes.

The bill would also permit a member of the Defined Benefit Plan of the State Teachers' Retirement System to elect to purchase service credit for service as an employee of an educational institution located outside of the United States and its territories that receives a portion of its funding from any foreign or domestic public sources, as specified, among others. By providing for increased contributions to a continuously appropriated fund, this bill would make an appropriation.

Ch. 514 (AB 1612) Nava Vehicles: hazardous materials: permits.

(1) Existing law, the Biennial Inspection of Terminals Program, generally requires the Department of the California Highway Patrol to inspect, at least every 25 months, every terminal of a motor carrier who operates certain vehicles. A terminal that has attained 2 consecutive satisfactory compliance ratings pursuant to those inspections is eligible for administrative review in lieu of the next required inspection, unless specified circumstances apply.

The bill would prohibit a motor carrier of hazardous materials from being granted administrative review in lieu of those inspections at any terminal from which specified hazardous materials carrying vehicles are operated.

(2) Existing law prohibits a motor carrier from operating a vehicle that transports hazardous materials, unless the motor carrier holds a valid license for the transportation of hazardous materials.

This bill would prohibit the department from issuing a license to transport hazardous materials to a motor carrier unless each terminal from which hazardous materials carrying

vehicles are operated is in compliance with the Biennial Inspection of Terminals Program and is currently rated satisfactory. The department would be required to adopt rules and regulations providing for a temporary license to transport hazardous materials for carriers who have not been issued an unsatisfactory rating for specified inspections conducted within the previous 3 years.

(3) Existing law authorizes the Department of Transportation or local authorities, as applicable, to issue special permits to operate or move vehicles of specified size, weight, or load.

This bill would authorize the Department of Transportation or a local authority, as applicable, to issue a special permit authorizing the applicant to operate or move a vehicle carrying a load, lying in the horizontal position, of stacked trusses or wall panels that are used as single width components in the manufacture of a finished product, if certain requirements are met.

Ch. 515 (AB 1734) Committee on Elections and Redistricting Elections: record format.

(1) Existing law requires a county elections official to maintain a record of which political party's ballot, or whether a nonpartisan ballot, was requested at a partisan primary election by each person who declined to state a party affiliation, and to make that record available to authorized persons or committees, as specified.

This bill would require that a produced record be made available in either a printed or electronic format, as requested by the authorized person or committee.

(2) Existing law requires an elections official to send certain election results to the Secretary of State in the manner requested by the secretary.

This bill would require an elections official to provide the Secretary of State with certain election results, including the total number of ballots cast, in an electronic format in the manner requested.

By increasing the duties of local elections officials, the bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 516 (AB 34) Portantino Umbilical Cord Blood Collection Program.

Existing law, administered by the State Department of Public Health, contains provisions governing the licensure of blood banks, including provisions relating to licensure for purposes of umbilical cord blood banking storage services. Existing law also requires the department to conduct the Umbilical Cord Blood Community Awareness Campaign.

This bill would require the department to establish, by January 1, 2010, and until January 1, 2015, the Umbilical Cord Blood Collection Program for the purpose of increasing the amount of umbilical cord blood that is donated in the state and that will be added to the national inventory. The bill would authorize the department, to the extent private or public funds are identified for this purpose, to contract with blood banks that are licensed or accredited to provide umbilical cord blood banking storage services, for the purpose of collecting and storing umbilical cord blood.

The bill would require that any funds available for purposes of the program be deposited into the Umbilical Cord Blood Collection Program Fund, which this bill would create. The bill would require that the moneys in the fund be available for expenditure, upon appropriation by the Legislature, for that purpose. The bill would also require that

information collected pursuant to the program be confidential, and be used solely for the purposes of the program, as prescribed.

The bill would provide that its provisions shall only become operative if SB 962 of the 2007–08 Regular Session is enacted and becomes operative.

Ch. 517 (SB 962) Migden Umbilical cord blood: research.

Existing law imposes various responsibilities upon the State Department of Public Health and prenatal care providers with respect to prenatal care, screening, and counseling.

Existing law, administered by the department, contains provisions governing the licensure of blood banks, including provisions relating to licensure or accreditation for purposes of umbilical cord blood banking. Existing law also requires the department to conduct the Umbilical Cord Blood Community Awareness Campaign, which, among other things, authorizes a primary prenatal care provider, as defined, to provide to a woman who is known to be pregnant, during the first prenatal visit, certain information developed by the department regarding her options with respect to umbilical cord blood banking.

Existing law establishes the Umbilical Cord Blood Education Account, in which private donations are collected and deposited for the purpose of funding the information developed by the department pursuant to the Umbilical Cord Blood Community Awareness Campaign, and requires these funds to be available upon a determination by the Director of Finance that sufficient private donations have been collected and deposited into the account.

Existing law, the Hereditary Disorders Act, requires the department to establish regulations and standards for a hereditary disorders program, including with respect to prenatal testing programs for newborns. A violation of these provisions is a crime.

Pursuant to this act, existing regulations require clinicians to provide all pregnant women, at the first prenatal visit, with information about the use and availability of prenatal screening for birth defects of the fetus. If a pregnant woman voluntarily requests prenatal screening, these regulations, among other things, require a clinician to make available to her the opportunity to read and sign a consent document, as specified.

Existing law also provides for the Birth Defects Monitoring Program, administered by the department, which includes the storage of pregnancy blood for research-related purposes. Existing law authorizes the department to charge a fee for prenatal screening, and requires the fees to be deposited into the Birth Defects Monitoring Program Fund to be used, upon appropriation by the Legislature, to support the pregnancy blood sample storage, testing, and research activities of the Birth Defects Monitoring Program.

This bill would authorize a primary prenatal care provider to provide information required to be developed pursuant to the Umbilical Cord Blood Community Awareness Campaign to a woman who is known to be pregnant during the first prenatal visit.

The bill would also require, as part of the Hereditary Disorders Act, the department to provide any umbilical cord blood samples it receives pursuant to the Umbilical Cord Blood Community Awareness Campaign to the Birth Defects Monitoring Program, for storage and research, and would require the department to establish fees to be collected from researchers and health care providers, who have been approved by the department, to use the umbilical cord, pregnancy blood, and newborn blood samples for research, to cover the costs of administering the program. The bill would set forth the various duties of the department relating to collecting and storing the samples, and would require that information collected in connection with the samples be confidential, and be used solely for the purposes of the program, as specified. The bill would require these fees to be deposited into the Birth Defects Monitoring Program Fund, to be used by the department, upon appropriation by the Legislature, for purposes of paying the costs associated with the department's duties with respect to umbilical cord blood samples, as prescribed.

The Committee for the Protection of Human Subjects (CPHS) serves as the institutional review board for the California Health and Human Services Agency, for the purpose of

assuring that research involving human subjects is conducted ethically and with minimum risk to participants.

This bill would require CPHS to determine if certain criteria relating to the security and confidentiality of a donor's personal information are met before umbilical cord blood samples that have been collected are released for research activities.

The bill would provide that these provisions shall only become operative if AB 34, of the 2007–08 Regular Session, is enacted and becomes operative on or before January 1, 2008.

By creating a new crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 518 (SB 474) Kuehl Medi-Cal: hospital demonstration project funding.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions.

Existing law establishes the Medi-Cal Hospital/Uninsured Care Demonstration Project Act, which revises hospital reimbursement methodologies under the Medi-Cal program in order to maximize the use of federal funds consistent with federal Medicaid law and stabilize the distribution of funding for hospitals that provide care to Medi-Cal beneficiaries and uninsured patients. This demonstration project provides for funding, in supplementation of Medi-Cal reimbursement, to various hospitals, including designated public hospitals, nondesignated public hospitals, and private hospitals, as defined, in accordance with certain provisions relating to disproportionate share hospitals. These provisions include a formula for determining baseline funding of these hospitals, and for adjustments to the baseline funding formula.

This bill would modify the formula for calculating a hospital's adjusted baseline funding amount.

Existing law provides for the payment of safety net care pool funds to designated public hospitals, or governmental entities with which they are affiliated, pursuant to the demonstration project. Existing law requires that the department claim safety net care pool funds using the optimal combination of hospital certified public expenditures and certified public expenditures of a hospital that operates nonhospital clinics or provides physician, nonphysician practitioner, or other health care services that are identified as hospital services under the demonstration project.

This bill would require the department to separately identify and account for federal safety net care pool funds claimed and received by the department under a specified health care coverage initiative program.

This bill would also require that \$100,000,000 of the safety net care pool funds claimed and received by the state pursuant to the demonstration project that are based on the certified public expenditures of the County of Los Angeles, or its designated public hospitals, be deposited in the South Los Angeles Medical Services Preservation Fund, which this bill would create in the State Treasury, for each of the 3 project years, 2007–08, 2008–09, and 2009–10, to be continuously appropriated to the department for the purpose of reimbursing the county for its specified costs. The bill would require any unused funds in any project year to revert to the Health Care Support Fund.

Existing law provides for the payment of stabilization funding to certain designated public hospitals, project year private disproportionate share hospitals, and nondesignated public hospitals, as those terms are defined, under the demonstration project.

This bill would make various revisions to the calculation of that stabilization funding.

The bill would require the County of Los Angeles to, as a condition for receiving distributions from the South Los Angeles Medical Services Preservation Fund in any project year, assure the director that it will not reduce the county's ongoing, systemwide financial contribution to the county department of health services during that project year for health care services to the uninsured.

Existing law establishes the continuously appropriated Private Hospital Supplemental Fund, and allows the California Medical Assistance Commission to distribute certain amounts from the fund to private hospitals that satisfy specified criteria.

This bill would require the County of Los Angeles to, for the 2007–08, 2008–09, and 2009–10 project years, make intergovernmental transfers to the state to fund the nonfederal share of increased Medi-Cal payments to those private hospitals that serve the South Los Angeles population formerly served by Los Angeles County Martin Luther King, Jr. -Harbor Hospital. The bill would require the intergovernmental transfers to be funded by county tax revenues and to total \$5,000,000 per project year, subject to specified exceptions. The bill would require these moneys to be deposited in the Private Hospital Supplemental Fund, thus constituting an appropriation, and distributed to the private hospitals designated by the county.

Existing law establishes the Distressed Hospital Fund, and provides for payments from the fund to hospitals that meet specified criteria. Existing law requires, if funding is insufficient to make payments to hospitals pursuant to specified provisions of law, funds in the Distressed Hospital Fund to first be available for use under contracts negotiated by the commission for hospitals contracting under a specified selective provider contracting program.

This bill would prohibit the commission from considering the lack of federal financial participation in direct grants to designated public hospitals in determining which hospital may receive funding under these provisions.

Ch. 519 (SB 13) Wyland School facilities funding process: career technical education facilities.

Existing law, the Kindergarten-University Public Education Facilities Bond Act of 2006, in part, authorizes the sale of \$7,329,000,000 of state general obligation bonds to provide aid to school districts, county superintendents of schools, and county boards of education to construct and modernize education facilities. The Leroy F. Greene School Facilities Act of 1998 (the Greene Act) requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and authorizes the board to allocate supplemental funding for site development and acquisition. The Greene Act requires the career technical education advisory committee of a school district, in conjunction with an application of the district for funding of any construction or modernization project, and as a condition of the district receiving funds for the project, to provide written confirmation that the need for vocational and career technical education facilities is being adequately met within the district, as specified. The Greene Act prohibits the board from apportioning funds to a school district unless the applicant school district has certified that the services for design professionals working on the project have been obtained through a specified competitive bidding process and has obtained written approval from the State Department of Education that the site selection, and the building plans and specifications, comply with the standards adopted by the department.

This bill would require the State Department of Education to include in its application for new construction plan approval certain questions relating to career technical education facilities, including whether the project will include facilities related to career technical education and if not, how the applicant district plans to meet the needs of pupils related to career technical education. The department would be required to maintain the answers to those questions in a publicly accessible manner and to provide a summary of the responses to those questions to the Office of Public School Construction on a quarterly basis. The

Office of Public School Construction would be required to post the summary to its Web site as soon as possible after receiving it.

Ch. 520 (SB 52) Scott Teacher credentialing: designated subjects: career technical education.

Existing law requires the Commission on Teacher Credentialing to establish standards for the issuance and renewal of credentials, certificates, and permits, including the designated subjects vocational education teaching credentials. The minimum requirements for the designated subjects preliminary vocational education teaching credential and minimum requirements for the 5-year renewal of that credential are established.

This bill would change the name of that credential to the designated subjects preliminary career technical education teaching credential. The passage of a specified basic skills examination would be deleted from the minimum requirements for the designated subjects preliminary career technical education teaching credential. The authority of the commission to require a subject examination as part of the minimum requirements also would be deleted. The bill would require the commission to establish a list of authorized subjects for the designated subjects preliminary and professional clear career technical education teaching credential and would require the list to reflect the 15 industry sectors identified in the California career technical education model curriculum standards adopted by the State Board of Education. The commission would be required to implement the authorized subjects list by September 30, 2007. The commission would be required to convene an advisory committee to review credential requirements for designated subjects career technical education teaching credentials and make recommendations for consolidating requirements for full-time and part-time service. By April 1, 2008, the commission would be required to make recommendations to the Legislature on the minimum requirements for designated subjects career technical education teaching credentials.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 521 (SB 95) Maldonado Residential outdoor science program.

Existing law authorizes the governing board of any school district or a county superintendent of schools to conduct outdoor science education and conservation education programs or classes.

This bill would establish eligibility criteria for a residential outdoor science program and would require the Superintendent of Public Instruction to apportion, subject to appropriation of funds for that purpose, to each school district or county office of education that operates a residential outdoor science program, an amount of \$10 per eligible participating pupil per day of participation up to a maximum of 5 days.

Ch. 522 (SB 139) Scott Nursing education.

(1) The existing Donahoe Higher Education Act sets forth, among other things, the missions and functions of the various segments of postsecondary education in the state. These segments include the California State University, the California Community Colleges, and the various private and independent colleges and universities.

This bill would add to the Donahoe Higher Education Act a provision prohibiting a campus of the California State University or the California Community Colleges that operates a registered nursing program from requiring a student who has been admitted to that registered nursing program and who has already earned a baccalaureate or higher degree from a regionally accredited institution of higher education to complete general education requirements. The bill would instead authorize these segments to require those students to complete only the coursework that is necessary to prepare him or her for licensing as a registered nurse.

The bill would authorize any college, university, or other entity that operates an accredited registered nursing program to require any prospective student to provide criminal record clearance, as defined, prior to enrollment.

(2) Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education.

Existing law establishes the State Nursing Assumption Program of Loans for Education (SNAPLE), administered by the commission, under which any person enrolled in an institution of postsecondary education and participating in that loan assumption program is eligible to receive a conditional warrant for loan assumption, to be redeemed upon becoming employed as a full-time nursing faculty member at a California college or university.

Existing law establishes a loan assumption program for employees of specified state facilities within the SNAPLE program. This program provides loan assumption benefits to persons who fulfill agreements to work full time for 4 consecutive years as clinical registered nurses in state-operated 24-hour facilities, as specified, that employ registered nurses and that, at the time the person commences employment at the facility, have a vacancy rate of greater than 10% in clinical registered nursing positions, as reported, pursuant to the bill, to the commission by the Department of Personnel Administration. The program provides for a progressive assumption of the amount of a qualifying loan over 4 consecutive years of qualifying clinical registered nursing service, up to a total loan assumption of \$20,000.

Under existing law, this program becomes inoperative on July 1, 2012, and is repealed on January 1, 2013.

This bill would make a person who has earned a baccalaureate or graduate level degree, and who meets the other requirements of the program, eligible to enter into an agreement for loan assumption under the program. The bill would require that, if a provision is added to the program and the commission deems it necessary to adopt a rule or regulation to implement that provision, the commission develop and adopt that rule or regulation no later than 6 months after the operative date of the statute that adds the provision.

The bill would make a person who is currently employed as a registered nurse in a state-operated 24-hour facility ineligible to enter into an agreement for loan assumption under this program. The bill would also specify that, in any fiscal year, the commission shall award no more than the number of warrants that are authorized by the Governor and the Legislature in the annual Budget Act for that year for the assumption of loans pursuant to the program.

(3) Existing law authorizes the Board of Governors of the California Community Colleges and the Chancellor of the California Community Colleges to award grants to community college districts with associate degree nursing programs to expand enrollment, reduce program attrition, or both. Under this provision, funds may be used for, among other purposes, the providing of diagnostic assessments.

This bill would provide that the board of governors solely, rather than the board of governors and the chancellor, would award these grants. The bill would authorize a community college district, irrespective of whether it participates in the program established by this provision, to use multicriteria screening measures, including any diagnostic assessment tool that is commonly used in registered nursing programs and is approved by the chancellor.

The bill would authorize a community college registered nursing program to use additional multicriteria screening measures if it determines that the number of applicants to that program exceeds its capacity. The bill would prohibit a community college district from excluding an applicant to a registered nursing program on the sole basis that the applicant is not a resident of that district or has not completed prerequisite courses in that district.

(4) Existing law establishes the California State University, under the administration of the Trustees of the California State University, as one of the segments of public

postsecondary education in this state. Existing law provides for the operation of 25 component institutions of the university.

Existing law establishes the University of California, under the administration of the Regents of the University of California, as one of the segments of public postsecondary education in this state. Existing law authorizes the provision of instruction at the 10 component institutions of the university. Existing law expresses legislative intent with respect to the expansion of baccalaureate degree nursing programs of those respective segments.

This bill would express legislative intent that the funding for the baccalaureate degree enrollment expansions referenced in these provisions be funded within the general enrollment growth funding that is traditionally provided to the respective segments during the annual budget process.

The bill would prohibit the California State University from disqualifying or prohibiting a student who possesses a baccalaureate or higher degree from enrolling in, and completing, a baccalaureate degree nursing program on the sole basis of that student's possession of the degree.

(5) Existing law establishes the Office of Statewide Health Planning and Development, which is charged with the administration of health policy and planning. Existing law establishes the California Health Data and Planning Fund, and authorizes moneys from that fund to be appropriated for expenditure for health-related programs of the office.

This bill would provide for the establishment of a health care workforce clearinghouse under the administration of the Office of Statewide Health Planning and Development. The bill would provide that the clearinghouse would serve as the central source of health care workforce and educational data in the state. The bill would provide that the activities of the clearinghouse would be funded by appropriations made from the California Health Data and Planning Fund.

Ch. 523 (SB 190) Yee Public postsecondary education: California State University: University of California: open meetings: Higher Education Governance Accountability Act.

(1) Existing law establishes the Trustees of the California State University, and provides for the administration of the university by that body. Under existing law, the membership of the trustees includes 16 members appointed by the Governor and 5 ex officio members, who are the Governor, the Lieutenant Governor, the Superintendent of Public Instruction, the Speaker of the Assembly, and the person named by the trustees to serve as the Chancellor of the California State University.

Existing law, the Bagley-Keene Act, generally requires, with specified exceptions for authorized closed sessions, that the meetings of state bodies be open and public and that all persons be permitted to attend. The Bagley-Keene Act also generally requires that the agenda for meetings provide an opportunity for members of the public to directly address the body of any item of interest to the public that is within the subject matter jurisdiction of the body. Each member of a state body who attends a meeting of that body in violation of any provision of the Bagley-Keene Act, and where the member intends to deprive the public of information to which the member knows or has reason to know the public is entitled under the act, is guilty of a misdemeanor.

This bill would enact the Higher Education Governance Accountability Act.

This bill would make all meetings of the trustees subject to the Bagley-Keene Act, except as provided in the bill. By extending the provisions of the Bagley-Keene Act to cover the meetings of the trustees, the bill would constitute a state-mandated local program by creating a new crime.

The bill would require the trustees to take action in open session on an executive compensation proposal concerning the Chancellor of the California State University, the

president of an individual campus, a vice chancellor, the treasurer, the assistant treasurer, the general counsel, or the trustees' secretary.

(2) Existing law establishes the Regents of the University of California, and provides for the administration of the university by that body. Under existing law, the membership of the regents includes 18 members appointed by the Governor and 7 ex officio members, who are the Governor, the Lieutenant Governor, the Speaker of the Assembly, the Superintendent of Public Instruction, the president and vice president of the alumni association of the university, and the acting president of the university. Under existing law, meetings of the regents are subject to the Bagley-Keene Act, except as otherwise prescribed in provisions specifically applicable to the regents.

Existing law generally authorizes the regents, defined to mean the board of regents and its standing and special committees or subcommittees, other than groups of 3 or fewer regents appointed to advise and assist the university administration in contract negotiations, to conduct closed sessions when they meet to consider or discuss specified matters, including matters concerning the appointment, employment, performance, compensation, or dismissal of certain university officers or employees. Existing law requires action by the regents on compensation proposals for the principal officers of the regents and the officers of the university, as defined, to be in open session.

This bill would provide that the definition of the regents for these purposes would include an advisory board, advisory commission, advisory committee, advisory subcommittee, study group, task force, or similar multimember advisory body of the Board of Regents that has continuing subject matter jurisdiction in the area of compensation, if created by formal action of the Board of Regents or of any member of the Board of Regents, and if the advisory body so created consists of one or more regents, other than ex officio members of the Board of Regents, except as specified. The bill would also require action taken on an executive compensation proposal concerning the President of the University of California, the chancellor of an individual campus, a vice president, the treasurer, the assistant treasurer, the general counsel, or the secretary to occur in open session.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 524 (SB 345) Aanestad Charter schools.

(1) The Charter Schools Act of 1992 prescribes the requirements for the establishment and operation of charter schools. Charter schools operate independently of the existing school district structure and are exempt from most statutory provisions and regulations governing the operations of public schools.

Existing law authorizes the governing board of a school district to use certain monthly installment and withholding options in making salary payments to the district's certificated employees.

This bill would authorize the governing board of a charter school to use those same monthly installment and withholding options for purposes of making salary payments to its certificated employees.

(2) The Charter Schools Act of 1992 requires the Superintendent of Public Instruction annually to compute a general-purpose entitlement that includes revenue limit funding for each charter school according to specified calculations. The act requires charter schools, as a condition of receiving funding apportionments, to offer in each fiscal year a specified number of minutes of instruction to each pupil based on grade level. For purposes of that instructional time requirement, the act defines "classroom-based instruction" as occurring only when charter school pupils are engaged in required educational activities under the immediate supervision and control of an employee of the charter school who possesses a specified teaching certification. The act requires, for purposes of calculating average daily

attendance for classroom-based instruction apportionments, that at least 80% of the instructional time offered by the charter school be at the charter schoolsite. Charter schools are required to ensure the attendance of all pupils for whom a classroom-based apportionment is claimed at the schoolsite for at least 80% of the minimum instructional time required to be offered.

This bill, notwithstanding those provisions, would authorize the Center for Advanced Research and Technology operating pursuant to a joint powers agreement between the Clovis Unified School District and the Fresno Unified School District to receive general-purpose funding, as calculated pursuant to a specified statute, for the 2007–08 fiscal year for a total average daily attendance not to exceed the center’s average daily attendance as determined at the 2nd principal apportionment for the 2006–07 fiscal year.

(3) Existing law authorizes the superintendent of a school district in which a minor resides to issue a work permit upon receipt of a written request from a parent, guardian, foster parent, or other specified person. The superintendent also is authorized to designate certain certificated employees and certain persons having charge of private schools to issue work permits.

This bill would grant that same authority to issue work permits, or to designate other individuals to issue work permits, to the chief executive officer, or the equivalent position, of a charter school.

(4) This bill would make additional changes in Section 49110 of the Education Code to be operative only if SB 406 and this bill are enacted and become effective on or before January 1, 2008, each bill amends Section 49110 of the Education Code, and this bill is enacted last.

(5) This bill would state findings and declarations of the Legislature concerning the need for special legislation.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 525 (AB 177) Bass Charter schools: at-risk pupils: county board of education.

(1) Existing law allows a charter school that serves at-risk pupils and operates under a charter approved before June 1, 1997, by the Los Angeles County Board of Education to operate until June 30, 2008. The existing statute requires the approval of the county board of education for the specified charter school or schools to continue operating after June 30, 2003.

This bill would instead allow the specified charter school or schools to operate until June 30, 2013, subject to the approval of the county board of education for continued operation after June 30, 2008.

(2) The existing statute requires that the specified charter school or schools receive funding for the attendance of pupils for each fiscal year up to and including the 2007–08 fiscal year at the same rates as community schools and community day schools in the same county.

This bill would extend that provision to also cover the attendance of pupils in the 2007–08 to 2012–13 fiscal years, inclusive.

Ch. 526 (AB 347) Nava Pupils: high school exit examination: intensive instruction and services.

(1) Existing law requires each pupil completing grade 12 to successfully pass the high school exit examination as a condition of receiving a diploma of graduation or a condition of graduation from high school.

Existing law provides specified funding for eligible pupils, as defined, who are required to pass the high school exit examination, to be used for intensive instruction and services for those pupils, and provides for the allocation of those funds, based on a per pupil rate calculation, to schools. As a condition of receiving funding, a school district is required to accomplish certain matters, including, among other things, ensure that each eligible pupil

receives an appropriate diagnostic assessment to identify that pupil's areas of need and submit an annual report to the Superintendent of Public Instruction relating to the provision of intensive instruction and services to pupils.

This bill, among other things, would revise the definition of "eligible pupil" to include pupils who have not satisfied the requirement that they pass the high school exit examination in order to graduate from high school and have failed one or both parts of the examination by the end of grade 12; revise the calculation for determining the per pupil rate for purposes of funding; authorize the receipt of intensive instruction and services on Saturdays, evenings, or at a time and location deemed appropriate by the school district for eligible pupils; expand the authorized scope of intensive instruction and services to include instruction in English language arts or mathematics, or both, that eligible pupils need to pass those parts of the high school exit examination not yet passed and the provision of instruction and services by a public or nonpublic entity as determined by the local educational agency; require a school district to accomplish additional matters relating to pupils who have not passed one or both parts of the exit examination by the end of grade 12; and require the annual report to also include information relating to the notification of eligible pupils of the intensive instruction and services provided and be submitted to the appropriate county superintendent of schools.

(2) Existing law requires a school district to use its uniform complaint process to help identify and resolve any deficiencies related to instructional materials, emergency or urgent facilities conditions that pose a threat to the health and safety of pupils or staff, and teacher vacancy or misassignment. A notice regarding the appropriate subjects of a complaint is required to be posted in each classroom in each school in the school district and a complaint regarding those deficiencies is required to be filed with the principal of the school or his or her designee.

This bill also would require a school district to use its uniform complaint process to help identify and resolve any deficiencies related to intensive instruction and services provided to pupils who have not passed one or both parts of the high school exit examination after the completion of grade 12. The bill would also require the notice, for certain classrooms, to include certain information about the entitlement to receive the intensive instruction and services, and would require a complaint regarding any deficiency related to intensive instruction and services to be submitted to the district official designated by the district superintendent. By imposing additional duties on school districts, this bill would impose a state-mandated local program.

(3) Existing law establishes the Middle and High School Supplemental Counseling Program and requires the governing board of a school district that maintains any of grades 7 to 12, inclusive, as a condition of receiving funds appropriated for purposes of that program, to adopt a counseling program at a public meeting that includes, among other things, a provision for a counselor to meet with each pupil, as specified, to explain the academic and department records of the pupil, his or her educational options, the coursework and academic progress needed for satisfactory completion of middle or high school, passage of the high school exit examination, and the availability of career technical education. In addition to these counseling services, a school district is required to identify certain pupils, such as those at risk of not graduating with the rest of their class, and to require its schools to provide certain assistance in developing a list of coursework and experience. As a further condition of receipt of funds, a school district is required to submit an annual report in a manner determined by the Superintendent that describes certain matters, including the number and percentage of pupils who participated in conferences and who fail to pass one or both sections of the high school exit examination.

This bill also would require the counselor to explain the availability, for up to 2 consecutive academic years after the completion of grade 12 or until the pupil has passed both parts of the high school exit examination, whichever comes first, of intensive instruction and services for those pupils who have not passed one or both parts of the exit examination by the end of grade 12. The bill also would require a school district, for the identified pupils, to inform

a pupil who has not passed one or both parts of the high school exit examination of the option of intensive instruction and services. The bill would require the report also to be submitted to the appropriate county superintendent of schools and contain an assurance that the school district has complied with the provision that requires a school counselor to apprise a pupil of certain information during an individual conference.

(4) Existing law requires a county superintendent of schools to undertake specified duties regarding the oversight of the school districts within his or her jurisdiction.

This bill would require a county superintendent of schools to perform additional duties related to conducting school visits and verifying that pupils who have not passed the high school exit examination by the end of grade 12 are informed that they are entitled to receive intensive instruction and services for up to 2 consecutive academic years after completion of grade 12 or until the pupil has passed both parts of the exit examination, whichever comes first, and verifying that those pupils who elected to receive the instruction and services are being served. By imposing additional duties on local educational agencies or officials, the bill would impose a state-mandated local program.

(5) This bill would make other technical, nonsubstantive changes to existing law.

(6) This bill also would incorporate additional changes in Section 52378 of the Education Code, proposed by SB 405, to be operative if SB 405 and this bill are both enacted and become effective on or before January 1, 2008, and this bill is enacted last.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(8) By specifying a new purpose for the use of \$1.5 million of funds that would be appropriated to the State Department of Education in the Budget Act of 2007 for allocation to county offices of education, this bill would make an appropriation.

To the extent that the funds appropriated by this bill are allocated to a school district, which is defined to include, but is not limited to, a county board of education and a county superintendent of schools, which govern and administer, respectively, a county office of education, those funds would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(9) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 527 (AB 428) Carter High school curriculum: notification regarding college preparatory courses.

(1) Existing law prohibits, except as specified, a pupil from receiving a diploma of graduation from high school if that pupil, while in grades 9 to 12, inclusive, has not completed specified academic requirements. Existing law requires school districts maintaining any of grades 7 to 12, inclusive, to offer a course of study satisfying the prerequisites for admission to the California public institutions of postsecondary education, and a course of study that provides an opportunity for pupils to attain entry-level employment skills in business or industry upon graduation from high school.

Existing law requires the governing board of each school district at the beginning of the first semester or quarter of the regular school term to notify parents or guardians of minor pupils of specified rights and responsibilities of the parent or guardian.

This bill would require each school district offering any of grades 9 to 12, inclusive, each school year, as part of the specified annual notification, to provide the parent or guardian of each minor pupil enrolled in any of those grades in the district with written notification that, to the extent possible, would not exceed one page in length. The notification contents would relate to the courses offered by the district that satisfy the subject requirements for admission

to the California State University and the University of California and also would include information on career technical education, including a brief description of it, as defined by the State Department of Education.

The bill also would make conforming and technical, nonsubstantive changes, including, but not limited to, the correction of obsolete references to the provisions governing the existing, specified annual notification.

(2) By requiring each school district offering any of grades 9 to 12, inclusive, to provide parents and guardians of minor pupils enrolled in any of those grades in the district with additional written information as part of a specified notification, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 528 (AB 580) Smyth Classified school employees.

Existing law requires all vacancies in the classified service of a school district that has adopted the merit system to be filled from applicants on eligibility lists that are made up from promotional examinations or by appointments made by means of transfer, demotion, reinstatement, or reemployment, as specified. If a vacancy is filled from applicants on an eligibility list, the appointment is required to be made from the eligible candidates having the first 3 ranks on the list who are ready and willing to accept the position.

Existing law authorizes, in a school district that has adopted the merit system, an appointment to be made from other than the first 3 ranks when the ability to speak, read, or write a language in addition to English, or possession of a driver's license is a requirement of the position to be filled, but in that case existing law requires the appointment to be made from among the highest 3 ranks of applicants on the list who meet the special requirements and are ready and willing to accept the position.

This bill would, in a school district with a pupil population over 400,000, authorize an appointment to be made from other than the first 3 ranks on the eligibility list if specialized licenses, certifications, knowledge, or ability that cannot reasonably be acquired during the probationary period or a specific gender is required for successful job performance of a position, in which case the appointment would be required to be made from among the highest 3 ranks of applicants on the list who meet the special requirements and are ready and willing to accept the position. This authorization would apply only to specified classifications of positions. A school district making an appointment pursuant to this selection method would be required to study, among other things, the effectiveness of the method and submit a report on the study to the affected labor unions.

The bill would repeal this provision on January 1, 2012.

Ch. 529 (AB 597) Committee on Education Career technical education: Web site pages.

Existing law provides for the establishment of various programs for career technical education in the public schools, including regional occupational centers and programs. The State Department of Education has career technical education staff responsible for the design, implementation, and maintenance of a basic integrated statewide information system for career technical education and technical training. Existing law requires the governing board of each school district participating in a career technical education program to appoint a career technical education advisory committee to develop recommendations on the program and to provide a liaison between the district and potential employers.

This bill would make the State Department of Education responsible for the creation of comprehensive, easy to access, user-friendly Web site pages with specified information about opportunities and programs available in the state on career technical education in elementary and secondary schools. The department would be required to select by July 1, 2008, and on a competitive basis, an elementary or secondary school career technical education program for pupils to develop the Web site pages as part of a career technical education course of study related to technology and Web site development. The department would be required to establish criteria and parameters for the content of the Web site pages and periodically review the work of the design process to ensure that all the criteria and legal considerations are met. These Web site pages would be required to be incorporated into the department's Web site by January 1, 2010. The department would be required to establish criteria for the posting of information and links on the Web site and provide ongoing Web site administration and maintenance.

Ch. 530 (AB 1061) Mullin School accountability: report card.

(1) The Classroom Instructional Improvement and Accountability Act requires the governing board of each school maintaining an elementary or secondary school to develop and cause to be implemented for each school in the district a school accountability report card that includes assessments of various school conditions. The act prohibits any change to its provisions, except a change to further its purposes enacted by a bill passed by a vote of $\frac{2}{3}$ of the Legislature and signed by the Governor.

This bill would delete certain items from the list of school conditions for which assessments are required to be included in the school accountability report card, including, among others, the quality of school instruction and leadership, classroom discipline and climate for learning, the availability of qualified substitute teachers, the degree to which pupils are prepared to enter the workforce, and whether the school qualifies for the Governor's Performance Award Program. The Legislature would find and declare that the changes made to the act by those provisions further the purposes of the act.

(2) Statutory provisions require the State Department of Education to develop and recommend for adoption a standardized template for the school accountability report card. The standardized template is required to include specified information. Local educational agencies are required to make the report cards available through the Internet or through paper copies.

This bill would require that the standardized template include additional information. The department would be required to report to the Legislature and the Governor by February 1, 2008, on the remaining elements in the school accountability report card, on the feasibility of combining elements, and on alternatives for improving the usability and readability of the school accountability report card. Each school district would be required, commencing with the 2008-09 school year, to make its annually updated school accountability report card available through the Internet or hard copies on or before February 1 of each year.

(3) This bill also would delete obsolete provisions and make clarifying and other technical changes.

Ch. 531 (AB 662) Ruskin Water conservation.

The Warren-Alquist State Energy Resources Conservation and Development Act requires the State Energy Resources Conservation and Development Commission (Energy Commission) to prescribe, by regulation, standards for minimum levels of operating efficiency for appliances based on feasible and attainable efficiencies, or other feasible improved efficiencies, that will reduce the electrical energy consumption growth rate and that do not result in any added total costs to the consumer over the designed life of the appliances concerned.

This bill would instead require that the standards for minimum levels of operating efficiency be based on those efficiencies that will reduce the energy or water consumption

growth rates, and that do not result in any added total costs over the designed life of the appliances concerned.

This bill would incorporate additional changes in Section 25402 of the Public Resources Code proposed by AB 1560, to be operative only if AB 1560 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 532 (AB 1560) Huffman Public resources: building standards.

(1) The Warren-Alquist State Energy Resources Conservation and Development Act requires the State Energy Resources Conservation and Development Commission (Energy Commission) to prescribe, by regulation, energy conservation design standards for new residential and new nonresidential buildings.

This bill would require the Energy Commission to prescribe, by regulation, water efficiency and conservation standards for those buildings. The Energy Commission would be required to demonstrate that the adopted water efficiency or conservation standards are necessary to save energy. Before adopting a water efficiency or conservation standard for residential buildings, the Energy Commission and the Department of Housing and Community Development would be required to issue jointly specified findings regarding the standards. In the development of the standards, the Energy Commission would be required to consult with members of a specified coordinating council and to involve parties subject to the proposed standards in public meetings and an opportunity to provide written or oral comments on the proposed regulations. The standards adopted would be required to be cost effective when taken in their entirety and when amortized over the economic life of the structure compared with historic practices.

(2) Existing law requires the Department of Housing and Community Development to propose the adoption, amendment, or repeal of building standards to the California Building Standards Commission and to adopt, amend, and repeal other rules and regulations for the protection of the public health, safety, and general welfare of the occupants and the public involving buildings and building construction.

This bill would authorize the department to propose standards related to voluntary best practice and mandatory requirements related to environmentally preferable water using devices and measures that do not unreasonably or unnecessarily impact the ability of Californians to purchase or rent affordable housing.

(3) This bill would incorporate additional changes in Section 25402 of the Public Resources Code, proposed by AB 662, to be operative only if AB 662 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 533 (AB 1103) Saldana Energy: commercial buildings: consumption.

Existing law declares that electrical energy is essential to the health, safety, and welfare of the people and the economy of this state, and it is the state's policy to promote all feasible means of energy conservation.

This bill would require electric and gas utilities, as defined, on and after January 1, 2009, to maintain records of the energy consumption data of all nonresidential buildings to which they provide service, in a format compatible for uploading to the United States Environmental Protection Agency's Energy Star Portfolio Manager (Energy Star Portfolio Manager), for at least the most recent 12 months. Upon written or secured electronic authorization of a nonresidential building owner or operator, on and after January 1, 2009, an electric or gas utility would be required to upload all of the energy consumption data for a building to the Energy Star Portfolio Manager in a manner that preserves the confidentiality of the customer. The electric and gas utilities would be encouraged to work with the United States Environmental Protection Agency and their customers to develop reasonable reporting options that would maximize efficiency and minimize overall program cost.

The bill would require, on and after January 1, 2010, that a nonresidential building owner or operator disclose Energy Star Portfolio Manager benchmarking data and ratings, for the

most recent 12-month period, to a prospective buyer, lessee, or lender. After the benchmarking data and ratings are disclosed, the property owner, operator, or his or her agent would not be required to provide additional information regarding the benchmarking data and ratings. The information disclosed would be considered adequate to inform the prospective buyer, lessee of the entire building, or lender that would finance the entire building of the benchmarking data and ratings for the building.

Ch. 534 (AB 1109) Huffman Energy resources: lighting efficiency: hazardous waste.

(1) Existing law, administered by the Department of Toxic Substances Control, prohibits the management of hazardous waste, except in accordance with the hazardous waste laws or the regulations adopted by the department. A violation of the Hazardous Waste Control Law is a crime.

This bill would enact the California Lighting Efficiency and Toxics Reduction Act and would prohibit, on and after January 1, 2010, a person from manufacturing for sale in the state specified general purpose lights that contain levels of hazardous substances prohibited by the European Union pursuant to the RoHS Directive. A person would be prohibited, on and after January 1, 2010, from selling or offering for sale in the state, the above specified general purpose lights. A person would also be prohibited, on and after January 1, 2010, from selling general purpose lights from manufacturers who failed to provide the required documentation or certification specified below. These prohibitions would not apply to high intensity discharge lamps and compact fluorescent lamps greater than 9 inches in length until January 1, 2012 and to specified incandescent lamps and enhanced spectrum lamps until January 1, 2014. These prohibitions would not apply to high output and very high output linear fluorescent lamps greater than 32 millimeters in diameter and preheat linear fluorescent lamps. On or after January 1, 2014, the department would be required to determine, in consultation with manufacturers of those high output and very high output linear fluorescent lamps, whether those lamps should be subject to the prohibition taking into consideration changes in lamp design or manufacturing technology, allowing for removal or reduction of mercury. A manufacturer would be required to prepare and upon request of the department submit, within a specified time period, technical documentation or other information showing that its general purpose lights for sale or offered for sale in this state comply with the requirements of the RoHS Directive. A manufacturer would be required to provide, upon request, a certification to a person who sells or offers for sale that manufacturer's general purpose lights attesting that those lights do not contain levels of hazardous substances that would result in the prohibition of those general purpose lights being sold or offered for sale in California. The bill would specify that any violation of the above requirements and prohibitions is not subject to any criminal penalties imposed pursuant to the Hazardous Waste Control Law.

The department, in coordination with the California Integrated Waste Management Board, would be required to convene a task force to consider, and make recommendations by September 1, 2008, on the most effective, cost-efficient, and convenient method for the consumer for the proper collection and recycling of end-of-life general purpose lights generated in this state, methods to educate consumers about proper management and collection opportunities, and designations on the general purpose light and light packaging regarding proper recycling and compliance of the light with the act.

(2) The State Energy Resources Conservation and Development Commission is required to prescribe, by regulation, standards for energy conservation and efficiency, including the adoption of efficiency standards for outdoor lighting.

On or before December 31, 2008, this bill would require the commission to adopt minimum energy efficiency standards for all general purpose lights on a schedule specified in regulations. The regulations, in combination with other programs and activities affecting lighting use in the state, would be structured to reduce average statewide electrical energy

consumption by not less than 50% from the 2007 levels for indoor residential lighting and not less than 25% from the 2007 levels for indoor commercial and outdoor lighting by 2018. The Department of General Services and other state agencies in coordination with the commission would be required to end the purchase of general purpose lights within 2 years of the adoption of the standards regarding energy consumption limits for all general purpose lights, and for general purpose lights with historically appropriate appearances within 4 years of the adoption of the standards.

Certain defined specialty lighting and special-needs lighting would be exempt from the requirements of this bill. The commission would be authorized to provide for the inclusion of a particular type of specialty light in its energy efficiency standards if the commission makes specified findings.

Ch. 535 (AB 1481) De La Torre Waste discharge and water reclamation requirements: recycled water: landscape irrigation uses.

Under existing law, the State Water Resources Control Board and the California regional water quality control boards prescribe waste discharge requirements in accordance with the federal national pollutant discharge elimination system (NPDES) permit program and the Porter-Cologne Water Quality Control Act (state act). The state act authorizes the state board or a regional board to prescribe general waste discharge requirements if certain requirements are met.

This bill would require the state board, on or before July 31, 2009, to adopt a general permit for landscape irrigation uses of recycled water for which the State Department of Public Health has established uniform statewide recycling criteria. The bill would require the state board to establish a reasonable schedule of fees to reimburse the state board for the costs it incurs in implementing, developing, and administering these provisions. The bill would prescribe the manner in which an applicant may become subject to the general permit. The bill would require the state board to designate an ombudsperson to coordinate and facilitate communication on recycled water, on the issuance of specified water reclamation and waste discharge requirements, and on the promotion of water recycling while ensuring reasonable protection of water quality.

Ch. 536 (AB 1470) Huffman Solar energy: Solar Water Heating and Efficiency Act of 2007.

(1) Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including gas corporations. The commission is required to implement elements of the California Solar Initiative, which modifies the self-generation incentive program for distributed generation resources and provides incentives to customer-side photovoltaics and solar thermal electric projects under one megawatt. The commission is required to award monetary incentives for up to the first megawatt of alternating current generated by solar energy systems that meet the eligibility criteria established by the State Energy Resources Conservation and Development Commission (Energy Commission). The commission is required to adopt a performance-based incentive program for solar energy photovoltaic systems and is authorized to award monetary incentives for solar thermal and solar water heating devices in a total amount up to \$100,800,000.

This bill would establish the Solar Water Heating and Efficiency Act of 2007. The bill would make findings and declarations of the Legislature relating to the promotion of solar water heating systems and other technologies that reduce natural gas demand. The bill would define several terms for purposes of the act. The bill would require the commission to evaluate the data available from a specified pilot program, and, if it makes a specified determination, to design and implement a program of incentives for the installation of 200,000 solar water heating systems in homes and businesses throughout the state by 2017. The bill would require the commission, in consultation with the Energy Commission and interested members of the public, to establish eligibility criteria for the solar water heating

systems receiving gas customer funded incentives. The commission would be required to establish conditions on those incentives. The bill would specify that, except for the Solar Water Heating Pilot Program in San Diego, only solar water heating technologies that displace electricity are eligible for a portion of California Solar Initiative funds, as determined by the commission.

The commission would be required to allocate not less than 10% of the overall funds for installation of solar water heating systems for specified low-income residential housing. The bill would authorize the commission to extend eligibility for funding pursuant to this program to include residential housing occupied by specified ratepayers. The bill would prohibit moneys from being diverted from any existing programs for low-income ratepayers. The bill would require consumer rebates provided through the program to decline over time and be structured to reduce the cost of solar water heating technologies. The Energy Commission, in coordination with the commission, would be required to consider, when appropriate, coupling rebates for solar water heating systems with complementary energy efficient technologies. The commission would be required to report to the Legislature, not later than July 1, 2010, on the effectiveness of the program. The bill would repeal these provisions on August 1, 2018.

(2) Existing law establishes a surcharge on all natural gas consumed in the state to fund certain low-income assistance programs, cost-effective energy efficiency and conservation activities, and public interest research and development. Existing law requires a public utility gas corporation, as defined, to collect the surcharge from natural gas consumers, as specified. The moneys from the surcharge are deposited in the Gas Consumption Surcharge Fund and are continuously appropriated to specified entities, including to the commission, or to an entity designated by the commission, to fund low-income assistance programs, cost-effective energy efficiency and conservation activities, and public interest research and development not adequately provided by the competitive and regulated markets.

This bill would require the commission to fund the program of the Solar Water Heating and Efficiency Act of 2007, for the service territories of the gas corporations, through a surcharge applied to gas customers in those service territories based on the amount of natural gas consumed, not to exceed \$250,000,000 over the course of the 10-year program. The bill would require the commission to annually establish a surcharge rate for each class of gas customers. The bill would exempt from that surcharge those gas customers participating in the California Alternate Rates for Energy (CARE) or Family Electric Rate Assistance (FERA) programs. The bill would require that the program be administered by the gas corporations or 3rd party administrators, as determined by the commission, and subject to the supervision of the commission.

(3) The bill would require the governing body of each publicly owned utility providing gas service to retail end-use gas customers, to adopt, implement, and finance a solar water heating system incentive program meeting certain requirements, thereby imposing a state-mandated local program.

(4) The bill would repeal these provisions on August 1, 2018.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 537 (AB 1406) Huffman Recycled water: toilet and urinal flushing: condominiums.

Existing law requires the State Department of Public Health to establish uniform statewide criteria for each varying type of recycled water use if the use involves the protection of public health. Existing law declares that the use of potable domestic water for toilet and urinal flushing in structures, as defined, is a waste or an unreasonable use of water if suitable recycled water is available for those uses. Existing law generally authorizes a public agency

to require the use of recycled water for toilet and urinal flushing in structures if certain requirements are met.

This bill would include condominium projects within the meaning of “structure” for the purposes of those provisions.

The bill would allow the use of recycled water in condominium projects subject to specified conditions, including a requirement that the agency delivering the recycled water to the condominium project file a report with the appropriate regional water quality control board and receive written approval of the report from the State Department of Public Health.

Ch. 538 (SB 362) Simitian Identification devices: subcutaneous implanting.

Existing law accords every person the right of protection from bodily restraint or harm, from personal insult, from defamation, and from injury to his or her personal relations, subject to the qualifications and restrictions provided by law.

This bill would prohibit a person from requiring, coercing, or compelling any other individual to undergo the subcutaneous implanting of an identification device, as defined. The bill would provide for the assessment of civil penalties for a violation thereof, as specified, and would allow an aggrieved party to bring an action against a violator for damages and injunctive relief, subject to a 3-year statute of limitation, or as otherwise provided.

Ch. 539 (SB 428) Dutton Electrical corporations: demand reduction.

(1) The Public Utilities Act requires the Public Utilities Commission to develop a program for residential and commercial customer air-conditioning load control with the goal of contributing to the adequacy of electricity supply and helping customers reduce their electric bills in a cost-effective manner. The act authorizes the Public Utilities Commission to establish rates for public utilities regulated by the commission, including electrical corporations. The act authorizes the commission to approve contracts between an electrical corporation and its heavy industrial customers, as determined by the electrical corporation, of not more than 10 years’ duration, in which the electrical corporation buys from the heavy industrial customer the right to interrupt the customer’s service on short notice, as determined by the commission, through a payment mechanism providing for a discounted rate for service. Under those provisions, the commission has adopted, by decision, electrical corporation programs for the interruption of power in exchange for reduced rates.

The act requires electrical corporations to continue the availability to qualified heavy industrial customers of optional interruptible or curtailable service, and requires the effective rate for interruptible or curtailable service to qualifying customers to reflect a pricing incentive for electing to operate under the interruptible or curtailable service option. The act further requires the commission to continue the availability of optional interruptible or curtailable service at least until March 31, 2002, and prohibits, until March 31, 2002, the alteration of the level of the pricing incentive for interruptible or curtailable service from the levels in effect on June 10, 1996.

This bill would require electrical corporations to offer optional interruptible or curtailable service programs using pricing incentives that are cost effective and that may reflect the full range of costs avoided by the reductions in demand created by these programs, as specified. The bill would also delete the provisions requiring the commission to continue the availability of optional interruptible or curtailable service at least until March 31, 2002, and the provision prohibiting the alteration of the level of the pricing incentive in effect on June 10, 1996. These provisions would be repealed on January 1, 2015.

Because a violation of the act is a crime, this bill, by imposing new requirements on electrical corporations, would create a new crime, thereby imposing a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 540 (SB 538) Battin Manufactured housing.

Existing law defines the terms “mobilehome” and “manufactured housing” similarly for certain purposes.

This bill would establish a separate definition for each of the specified terms and would make conforming changes in related provisions of existing law. The bill would add a definition for “multifamily manufactured home.”

The bill would require the permissible scope of work for the General Manufactured Housing Contractor (C-47) license classification set forth in specified state regulations to include the specified definitions for “mobilehome,” “manufactured home,” and “multifamily manufactured home.”

The bill would require the Department of Housing and Community Development to adopt regulations for the construction, alteration, or conversion of commercial modulars, as defined, based on the California Buildings Standards Code.

Ch. 541 (SB 742) Steinberg Off-highway motor vehicle recreation.

(1) The Off-Highway Motor Vehicle Recreation Act of 2003 (act), provides for the acquisition, operation, and funding of state off-highway vehicular recreation areas and trails. These provisions are to be repealed on January 1, 2008.

This bill would extend the act to January 1, 2018, would delete certain obsolete provisions, and would include certain legislative findings and declarations.

(2) The act establishes the Off-Highway Motor Vehicle Recreation Commission, consisting of 7 members, with 3 of the members appointed by the Governor.

This bill would increase the membership of the commission to 9 members, with 5 members appointed by the Governor, subject to Senate confirmation.

(3) The act imposes certain duties and responsibilities on the Off-Highway Motor Vehicle Recreation Commission and the Division of Off-Highway Motor Vehicle Recreation with respect to off-highway recreation.

This bill would revise and recast some of those duties and responsibilities.

(4) The act requires the division to publish and periodically update a guidebook relating to off-highway recreation and requires that the guidebook contain specified information.

This bill, instead, would require the division, in cooperation with the commission, to make available on the division’s Internet Web site information relating to off-highway motor vehicle recreation. The bill specifies certain information that, at a minimum, the Web site shall include.

The bill also would require the division to create a guidebook of federal, state, and local off-highway vehicle recreation opportunities and that the guidebook contain specified information. The bill would require the division to work with retailers of off-highway motor vehicles and off-highway recreation associations to distribute the guidebook and to increase awareness of the resources available on the division’s Internet Web site.

(5) Under the act, grants may be made to cities, counties, and districts, and cooperative agreements may be entered into with federal agencies or federally recognized Native American tribes.

This bill would require the division to develop and implement a grant and cooperative agreement program to support specified activities related to off-highway motor vehicles and programs involving off-highway motor vehicle safety or education. The bill would provide guidelines to implement this program. The bill would specify percentages of the total amount appropriated by the Legislature to be awarded for specified purposes. The bill would make other changes with respect to those grants and cooperative agreements.

This bill would require that law enforcement grants and cooperative agreements be allocated to local and federal law enforcement entities for personnel and related equipment, with the amount of the grant or cooperative agreement being proportional to the off-highway motor vehicle enforcement needs under each entity's jurisdiction. The bill would require the division to develop a method to determine the law enforcement needs for each applicant and eligibility guidelines for law enforcement projects. The bill would require the department to audit law enforcement entities that receive grant money, considering whether the law enforcement entity has spent the grant money in accordance with its application, at least once every 5 years.

(6) The act provides for certain allocations, for specified purposes, to the division from the Conservation and Enforcement Services Account (the enforcement account), upon appropriation by the Legislature.

This bill would revise the purposes for which those funds allocated to the division are required to be expended upon appropriation by the Legislature.

(7) Existing law prohibits a person from parking a vehicle, during a specified portion of the year, in a designated area, unless that vehicle displays a SNO-PARK parking permit issued by the Department of Parks and Recreation. The department is required to determine the amount of the fee for the issuance of the parking permit, subject to specified limits on the amounts of the fee. Existing law requires the proceeds from the sale of SNO-PARK parking permits to be paid to the credit of the Winter Recreation Fund. An amount not to exceed 5% of total funds appropriated is required to be available to be expended for specified administrative costs.

This bill would delete the specified limits on the amounts of the fee, and would delete the provision concerning administrative costs.

(8) Existing law requires certain moneys, the amount of which is determined by specified formulas, in the Motor Vehicle Fuel Account (the fuel account) attributable to taxes imposed upon distribution of motor vehicle fuel related to specified off-highway motor vehicles and off-highway vehicle activities, to be transferred from that account on the first day of every month to the fund or the enforcement account. The money in the fund and the enforcement account is required to be used, upon appropriation, for specified purposes related to off-highway motor vehicle recreation.

This bill would repeal those provisions requiring the transfer of that money from the fuel account, and, instead, would require certain money in the fuel account to be transferred to the fund according to a specified calculation that the Department of Transportation, in cooperation with the Department of Parks and Recreation and the Department of Motor Vehicles, would be authorized to adjust every 5 years, taking into account specified factors.

(9) Existing law requires the Department of Motor Vehicles to determine the size, color, and letters or numbers of the plate or device issued to an off-highway motor vehicle for identification purposes.

This bill would require the department, in the design of the identification plate or device, to make the identification number the most prominent feature of the device.

The bill would require the department, by July 1, 2009, in conjunction with the Division of Off-Highway Motor Vehicle Recreation of the Department of Parks and Recreation, to report to the Assembly Committee on Water, Parks and Wildlife and the Senate Committee on Natural Resources and Water, regarding recommendations to improve the identification of off-highway motor vehicles. The report would be required to, at a minimum, examine the benefits and challenges of certain options related to that identification. The department and the division would be required, in preparing the report, to work with vehicle manufacturers to evaluate feasibility.

(10) Existing law, until January 1, 2008, generally imposes a service fee of \$7 for the issuance or renewal of identification of off-highway motor vehicles subject to identification, and a special fee of \$8 that is required to be paid at the time of payment of the service fee. Until January 1, 2008, existing law requires specified moneys, including that special fee, the

moneys transferred to the fund as described in (8) above, and specified use fees for state vehicular recreation areas, to be deposited in the fund. On and after January 1, 2008, existing law repeals those provisions, except for the imposition of the \$7 service fee.

This bill, on and after January 1, 2008, would impose a special fee of \$33 that would be required to be paid at the time of payment of the service fee. The bill would require the special fees, moneys transferred to the fund from the fuel account pursuant to the bill, and specified use fees for state vehicular recreation areas to be deposited in the fund. The bill would require, upon appropriation, moneys in the fund to be allocated for specified purposes related to off-highway recreation. The bill would provide that these provisions shall remain in effect until January 1, 2018, and as of that date are repealed.

(11) Under existing law, it is unlawful to operate a vehicle in violation of special regulations, which have been promulgated by the governmental agency having jurisdiction over public lands, including, but not limited to, regulations governing access, routes of travel, plants, wildlife, wildlife habitat, water resources, and historical sites.

This bill would provide that a person who operates a motor vehicle in an area closed to that vehicle is guilty of a public offense, and would assess monetary penalties for the violation. By creating a new crime, the bill would impose a state-mandated local program.

(12) This bill would make other changes related to off-highway recreation.

(13) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 542 (SB 966) Simitian Pharmaceutical drug waste disposal.

(1) Existing law creates the California Integrated Waste Management Board (board) within the California Environmental Protection Agency.

This bill would, until January 1, 2013, require the board to develop, in consultation with appropriate state, local, and federal agencies, model programs for the collection and proper disposal of pharmaceutical drug waste. The model programs would be required to include, at a minimum, specific actions and informational elements and would be required to be available to eligible participants no sooner than July 1, 2008, but no later than December 1, 2008.

The bill would provide that its provisions shall not apply to a controlled substance, as defined.

(2) Existing law requires the board to expend certain funds, upon appropriation by the Legislature, for the making of grants, as provided, to cities, counties, and other local agencies with responsibilities for solid waste management, and for local programs to prevent the disposal of hazardous wastes at disposal sites, including, but not limited to, initial implementation or expansion of household hazardous waste programs. The total amount of the grants in any one fiscal year may exceed \$3,000,000 but cannot exceed \$5,000,000, if sufficient funds are appropriated from the Integrated Waste Management Account for this purpose.

This bill would increase the limit to \$6,000,000.

Ch. 543 (AB 339) Cook Mobilehomes: escrow.

Existing law requires a mobilehome or manufactured home dealer, for every transaction by or through the dealer to sell or lease with the option to buy a new or used manufactured home or mobilehome subject to registration under existing law, to execute in writing and obtain the buyer's signature on a purchase order, conditional sale contract, or other document evidencing the purchase contemporaneous with, or prior to, the receipt of any cash or cash equivalent from the buyer, to establish an escrow account with an escrow agent, and to cause to be deposited into that escrow account any cash or cash equivalent received at any time prior to the close of escrow as a deposit, downpayment, or whole or partial payment for the

manufactured home or mobilehome or accessory thereto. If any dispute arises between the parties to the escrow and upon notification in writing to the escrow agent, unless otherwise specified in the escrow instructions, all funds denoted as deposit are required to be held in escrow until a release is signed by the disputing party, or pursuant to new written escrow instructions signed by the parties involved, or pursuant to a final order for payment or division by a court of competent jurisdiction.

This bill would require that, at the opening of escrow, and upon receiving written notice from a party to the escrow of a dispute, the escrow agent shall inform the parties of their right to hold funds in escrow by submitting a written request to hold funds in escrow, and that, upon receipt by the escrow agent of a party's written request to hold funds in escrow, all funds denoted as deposit be held in escrow pending release under specified conditions.

Ch. 544 (AB 752) Dymally Hospital funding.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits, including hospital services. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions.

Existing law establishes the Medi-Cal Hospital/Uninsured Care Demonstration Project Act that revises hospital reimbursement methodologies in order to maximize the use of federal funds consistent with federal Medicaid law and stabilize the distribution of funding for hospitals, including designated public hospitals, as defined, that provide care to Medi-Cal beneficiaries and uninsured patients.

Existing law specifically provides that for services provided during the 2005–06 and 2006–07 project years, the amounts allocated to designated public hospitals shall be paid as direct grants, which shall not constitute Medi-Cal payments.

This bill would extend that provision for the 2007–08, 2008–09, and 2009–10 project years and would impose additional funding allocation requirements for those project years for designated public hospitals.

Ch. 545 (AB 1397) Soto Long-term health care facilities.

Existing law provides for the licensure of long-term health care facilities by the State Department of Public Health. Under existing law, the Long-Term Care, Health, Safety, and Security Act of 1973, the department may assess penalties for violation of prescribed requirements. Moneys collected as a result of the penalties imposed pursuant to these provisions are required to be deposited into the Health Facilities Citation Penalties Account, and used, upon appropriation by the Legislature, for the protection of health or property of residents of long-term health care facilities, including reimbursing residents for personal funds lost and costs associated with informational meetings.

This bill would specify that the account includes moneys collected as a result of penalties imposed both under the act and under federal law. The bill would require that these moneys be deposited into 2 separate accounts, the State Health Facilities Citation Penalties Account, for violations of state law, and the Federal Health Facilities Citation Penalties Account, for violations of federal law, the moneys in which would be used by the department, upon appropriation by the Legislature, for the purposes specified in existing law.

The bill would require the department to post on its Web site prescribed information about the funds in those accounts and, with respect to moneys in the Federal Health Facilities Citation Penalties Account, prescribed quality of care purposes.

Ch. 546 (AB 1426) Wolk Parks and nature education facilities: Central Valley Vision.

The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, an initiative statute adopted by the voters at the November 7, 2006, statewide general election, among other things, makes \$400,000,000 in bond funds

available to the Department of Parks and Recreation for development, acquisition, interpretation, restoration, and rehabilitation of the state park system and its natural, historical, and visitor serving resources.

This bill would require the Department of Parks and Recreation to develop a detailed plan of implementation for its Central Valley Vision. In developing the plan, the department would be required to identify and prioritize specific sites and projects for acquisition and development in the Central Valley with respect to the protection of natural, cultural, and historical resources and access to recreational opportunities at state parks.

The bill would require the department, by January 1, 2009, to report to the Legislature on the plan and its timeline for implementation of the plan. The bill would provide that its provisions would be implemented to the extent that funds are appropriated pursuant to those provisions of the initiative or any other source.

Ch. 547 (AB 1473) Feuer Solid waste facility: temporary permits.

(1) The California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, prohibits a person from operating a solid waste facility without a solid waste facilities permit if that facility is required to have a permit pursuant to the act. The enforcement agency is required to immediately issue a cease and desist order ordering a solid waste facility that is operating without a permit to immediately cease operations and to direct the owner or operator of the facility to obtain a permit.

This bill would require the board to adopt emergency regulations to authorize an enforcement agency, upon the board's concurrence, to issue a temporary solid waste facilities permit to a person operating a solid waste transfer or processing station or a composting facility, which, as of January 1, 2008, is required under the act to have a solid waste facilities permit but for which a permit has not been obtained. The bill would require the regulations to direct any person desiring to obtain a temporary solid waste facilities permit to submit an application to the enforcement agency no later than 60 days from the effective date of the regulations; to obtain a permanent solid waste facilities permit from the enforcement agency having jurisdiction, or cease activities for which a permit is required, as specified; a facility covered under a temporary solid waste facilities permit to have been in operation on or before January 1, 2007; and that the owner or operator of a covered facility agree to inspections, at least monthly by the enforcement agency.

The bill would require a local enforcement agency to diligently notify the operators of all facilities within its jurisdiction of the availability of temporary solid waste facilities permits, thereby imposing a state-mandated local program by imposing new duties upon local enforcement agencies. The bill would also require the board to expeditiously review and act on a proposed temporary solid waste facilities permit.

The bill would require the board to adopt the regulations as emergency regulations and would require the Office of Administrative Law to consider the regulations as necessary for the immediate preservation of the public peace, health and safety, or general welfare. The board would be required to file the regulations with the Office of Administrative Law at the earliest feasible date or on March 1, 2008, whichever date is earlier. The bill would provide that the regulations would remain in effect until July 1, 2010, and on that date would become inoperative.

The bill would provide that its provisions would become inoperative on July 1, 2010, and, as of January 1, 2011, would be repealed.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 548 (AB 1568) Berg Coastal resources: Ma-le'l Dunes.

Existing law requires the State Coastal Conservancy to coordinate the development of the California Coastal Trail.

This bill would designate the portion of the Ma-le'l Dunes in Humboldt County that is part of the California Coastal Trail and that is under the jurisdiction of the conservancy as the Senator Wesley Chesbro Coastal Trail. The bill would require the conservancy, subject to a time condition, to erect appropriate signage to reflect the designation, upon receipt of funding by parties who request the conservancy to erect the signage, and to cause all directories and other publications concerning the California Coastal Trail to reflect the designation as the publications are periodically revised.

Ch. 549 (AB 446) Soto Mobilehomes.

Existing law generally prohibits the removal of a mobilehome from a mobilehome park in the event of its sale to a 3rd party during the term of the homeowner's rental agreement or in the 60 days following the provision of a specified notice. Existing law permits park management to require removal of a mobilehome upon the sale of the mobilehome to a 3rd party, in order to upgrade the quality of the park, if it is not a mobilehome, as defined, if it is over a specified number of years old, or if it is in a significantly rundown condition.

This bill would prohibit management of a park from requiring removal of a mobilehome from a park upon the sale of the mobilehome to a 3rd party, as described above, unless management has provided to the homeowner notice particularly specifying the condition that permits the removal of the mobilehome.

Ch. 550 (AB 682) Berg HIV/AIDS testing.

Existing law prohibits, except in certain cases, a person from testing a person's blood for evidence of antibodies to the probable causative agent of acquired immunodeficiency syndrome (AIDS) without the written consent of the subject of the test or the written consent of the subject, as provided, confirming that he or she obtained the consent from the subject.

This bill would delete those provisions, and would, instead, require a medical care provider, prior to ordering a test that identifies infection with human immunodeficiency virus (HIV), to inform the patient that the test is planned, provide information about the test, inform the patient regarding specified treatment options and further testing needed, and advise the patient that he or she has the right to decline the test. The bill would require the medical provider, if a patient declines the test, to note that fact in the patient's medical file.

Existing law requires the physician and surgeon or other person engaged in the prenatal care of a pregnant woman or attending the woman at the time of delivery, prior to obtaining a prescribed blood specimen, to ensure that the woman is informed of the intent to perform a test for HIV infection, the routine nature of the test, the purpose of the testing, the risks and benefits of the test, and certain other information about the risks associated with the transmission of HIV, and specifies that a woman has a right to accept or refuse this testing. Existing law requires that acceptance of testing for HIV be documented in writing on a prescribed form, with a copy to be maintained in the patient's medical file. Existing law authorizes a multispecialty medical group that provides health care services to enrollees of a health care service plan to use a form incorporating specified HIV information.

This bill would delete those provisions regarding the acceptance of HIV testing by a patient, and would, instead, specify that a woman has a right to decline this testing.

Existing law requires the physician and surgeon or other person engaged in the prenatal care of the pregnant woman or attending the woman at the time of labor, delivery, or post partum, after the results of HIV testing done pursuant to these provisions have been received, to explain the results and the implications for the mother's and infant's health, including any followup care that is needed. Existing law states that health care providers are strongly encouraged to seek consultation with other providers specializing in the care of HIV-positive women.

This bill would require that the woman also receive any followup testing that is needed. The bill would also state that health care providers are strongly encouraged to seek consultation with HIV specialists who provide care for pregnant and post partum HIV-positive women.

Existing law provides, notwithstanding any other provision of law, that completion of a statement of acceptance of an HIV test pursuant to specified existing law constitutes sufficient consent for HIV testing for a pregnant woman or woman at the time of labor and delivery, and prohibits a laboratory or health care provider from requesting further consent for HIV testing.

This bill would delete the provisions designating completion of the statement of acceptance of an HIV test as sufficient consent for the HIV testing under the circumstances described above.

This bill would prohibit a person from administering a test for HIV infection pursuant to those provisions, unless the person being tested or his or her parent, guardian, conservator, or other specified person, signs a written statement documenting the person's informed consent to the test. The bill would provide an exception to that requirement for tests to detect HIV on a cadaver when an autopsy is performed, or when blood is tested as part of a scientific investigation conducted by a medical researcher operating under the approval of an institutional review board or by the department, in accordance with a prescribed protocol.

Ch. 551 (AB 738) Strickland Ojai Basin Groundwater Management Agency.

The Ojai Basin Groundwater Management Agency Act establishes the Ojai Basin Groundwater Management Agency. The act authorizes the agency to impose, by ordinance, a charge on the extraction of groundwater by the use of extraction facilities within the boundaries of the agency to pay the costs of the agency in carrying out groundwater management activities. The act prohibits the agency from imposing a charge that exceeds \$7.50 per acre-foot pumped per year.

This bill would authorize the board of directors of the agency to establish a groundwater extraction charge maximum limitation that exceeds that \$7.50 per acre-foot amount pumped per year if that action is approved by a majority vote of the operators of extraction facilities that are subject to the charge, with votes weighted based on the volume of water extracted by each operator, and the charge does not exceed \$25 per acre-foot pumped per year.

Ch. 552 (AB 1687) Brownley Confidential information.

(1) Existing law prohibits a provider of health care, a health care service plan, contractor, or corporation and its subsidiaries and affiliates from intentionally sharing, selling, or otherwise using any medical information, as defined, for any purpose not necessary to provide health care services to a patient, except as expressly authorized by the patient, enrollee, or subscriber, as specified, or as otherwise required or authorized by law. Existing law also permits that medical information to be disclosed to providers of health care, health care service plans, contractors, or other health care professionals or facilities for purposes of diagnosis or treatment of the patient. Existing law provides that a violation of these provisions that results in economic loss or personal injury to a patient is punishable as a misdemeanor. Existing federal law defines "covered entity" for purposes of the federal Health Insurance Portability and Accountability Act.

This bill would provide that for purposes of these provisions, a provider of health care may disclose medical information to a county social worker, a probation officer, or any other person who is legally authorized to have custody or care of a minor, as defined, for the purpose of coordinating health care services and medical treatment provided to the minor. By expanding the definition of a crime, the bill would impose a state-mandated local program. The bill would also prohibit a county social worker, probation officer, or any other person who is legally authorized to have custody or care of a minor who receives medical information from further disclosing that information unless the disclosure is for the purpose

of coordinating health care services and medical treatment of the minor and the disclosure is authorized by law. The bill would further provide that medical information disclosed pursuant to these provisions may not be admitted into evidence in any criminal or delinquency proceeding against the minor thereby requiring a $\frac{2}{3}$ vote for enactment pursuant to the Victims' Bill of Rights. The bill would provide that if a provider of health care determines that the disclosure of medical information concerning the diagnosis and treatment of a mental health condition of a minor is reasonably necessary for the purpose of assisting in coordinating the treatment and care of the minor, that medical information may be disclosed to a county social worker, probation officer, or any other person who is legally authorized to have custody or care of the minor. The bill would also prohibit the further disclosure of information concerning the diagnosis and treatment of a mental health condition of a minor unless the disclosure is for the purpose of coordinating mental health services and treatment of the minor and the disclosure is authorized by law. The bill would also make related legislative findings and declarations.

(2) The bill would also incorporate additional changes to Section 56.10 of the Civil Code proposed by AB 1178 and AB 1727, to be operative only if any or all of those bills are enacted and this bill is chaptered last.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 553 (AB 1727) Committee on Judiciary Conservators and guardians.

(1) Existing federal law, the Health Insurance Portability and Accountability Act of 1996 (HIPAA), establishes certain requirements relating to the provision of health insurance, and the protection of privacy of individually identifiable health information. Existing state law, the Confidentiality of Medical Information Act, provides that medical information, as defined, may not be disclosed by providers of health care, health care service plans, or contractors, as defined, without the patient's written authorization, subject to certain exceptions, including disclosure to a probate court investigator, as specified. A violation of the act resulting in economic loss or personal injury to a patient is a misdemeanor and subjects the violating party to liability for specified damages and administrative fines and penalties. Existing law provides that if a person in a county requires a guardian or conservator and there is no one else who is qualified and willing to act, then a public guardian shall apply for appointment as guardian or conservator of the person, the estate, or the person and estate, if there is an imminent threat to the person's health or safety or the person's estate.

This bill would authorize a public guardian or a county's adult protective services agency, upon a showing of probable cause that a person is in substantial danger of abuse or neglect, to petition a court for orders in connection with an investigation of whether the appointment of the public guardian would be appropriate. These orders would provide for the authorized release of confidential medical information and financial information, and would specify certain conditions to the release of medical information, including the obligation of the public guardian and adult protective services agency to keep information acquired under the order confidential. The bill would revise provisions permitting release of confidential medical information to a probate court investigator. By changing the definition of a crime, this bill would impose a state-mandated local program. The bill would also require the Judicial Council to adopt rules of court necessary for an expedited procedure that would authorize by court order a release of confidential medical information.

(2) Existing law governs the establishment of conservatorships and guardianships. Existing law requires the Judicial Council to create a rule specifying the qualifications of judges and various court personnel connected with probate matters and to develop a specified educational program for nonprofessional conservators and guardians. Existing law creates various notification requirements in connection with conservatorships and

temporary conservatorships. Existing law requires guardians and conservators to file inventories and accountings of estates with courts. Existing law regulates the sale of estate property by a guardian or conservator.

This bill, among other things, would require the Judicial Council to consult with specified associations in connection with the establishment of the rule relating to qualifications and educational requirements of court personnel. The bill would require the Judicial Council to develop the educational program for nonprofessional conservators and guardians by January 1, 2008. This bill would prohibit a conservatorship of the person or of the estate from being granted unless the court makes an express finding that the granting of the conservatorship is the least restrictive alternative needed for the protection of the conservatee. The bill would create new requirements on courts when guardianships and conservatorships are transferred from other jurisdictions. The bill would require a conservator to mail the order appointing the conservator and a specified notice to the conservatee and the conservatee's relatives within 30 days of the issuance of the order. The bill would establish notice requirements for termination of a temporary conservatorship under specified circumstances. The bill would require private professional conservators to provide information about themselves and their association with proposed conservatees in certain petitions, unless that information is included in a petition for appointment of a general conservator, as specified. The bill would require courts to ensure compliance with requirements regarding inventories and accountings, and with requirements for submission of a care plan and a report contingent upon the passage of SB 800, in one of 2 specified ways. The bill would revise requirements to which a personal representative must conform in selling estate property. The bill would also make technical corrections.

(3) Existing law requires a court investigator to interview a proposed conservatee's relatives prior to any conservatorship or temporary conservatorship hearing, as specified. Existing law also requires that each conservatorship be reviewed periodically, as specified, estate assets accounted, and requires a court investigator to visit the conservatee and report to the court regarding the appropriateness of the conservatorship.

This bill would revise the time within which a court investigator is to interview a proposed temporary conservatee's relatives, and would require, as part of a review of a conservatorship, that the court investigator review the accounting of the conservatee's estate with the conservatee, to the extent practicable. The bill would also require that specified confidential information be kept in separate attachments and not be provided in reports sent to certain relatives of a conservatee. The bill would require courts to coordinate investigations with filings of accounting if feasible. The bill would revise accounting requirements and require the Judicial Council to develop guidelines for reviewing accounting and detecting fraud. The bill would require the Judicial Council, on or before January 1, 2009, to develop and adopt a rule of court and a Judicial Council form petition for authority to administer psychotropic medications.

(4) Existing law provides that on or after the filing of a petition for appointment of a conservator for a gravely disabled person, any person entitled to petition for appointment of the conservator may file a petition for appointment of a temporary conservator of the person or estate or both. Existing law further provides that the petition for appointment of a conservator and the petition for appointment of a temporary conservator may be filed as one petition or as separate petitions.

This bill would delete the provision that provides that those petitions may be filed as one petition or as separate petitions.

(5) Existing law requires every person appointed as a guardian or conservator to post a bond approved by the court before a letter of guardianship or conservatorship is issued.

This bill would provide that attorney's fees and costs incurred in a successful action for surcharge against a conservator or guardian for breach of his or her duties shall be a surcharge against the conservator or guardian and, if unpaid, shall be recovered against the surety on the bond.

(6) Existing law permits a court, in its discretion, to grant a conservator or guardian specified powers to be exercised without further court authorization, including the power to contract, the power to employ certain advisers and agents, the power to employ attorneys, as specified, and the power to purchase tangible personal property. Existing law permits a guardian or conservator to exercise other powers without court authorization unless authorization is otherwise specifically required.

This bill would permit the powers, described above, to be exercised generally without court authorization. The bill would specify that a guardian or conservator does not have certain other powers without express authorization by a court or other provisions of law and would revise the descriptions of these powers. The bill would prohibit payment of any attorney's fees from the estate of a ward or conservatee without prior court order.

(7) This bill would provide that one of its provisions would become operative only if SB 800 is also enacted. The bill would also incorporate additional changes to Section 56.10 of the Civil Code proposed by AB 1178 and AB 1687, to be operative only if any or all of those bills are enacted and this bill is chaptered last.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 554 (SB 193) Scott Teacher credentialing: paraprofessional teacher training program.

(1) The Wildman-Keeley-Solis Exemplary Teacher Training Act of 1997 establishes the California School Paraprofessional Teacher Training Program for the purpose of recruiting paraprofessionals to participate in a program designed to encourage them to enroll in teacher training programs and to provide instructional service as teachers in the public schools. The act requires the Commission on Teacher Credentialing, in consultation with certain other educational entities, to select, pursuant to specified criteria, 24 or more school districts or county offices of education representing rural, urban, and suburban areas that apply to participate in the program. The act requires a school district or county office of education to require a person participating in the program to commit to fulfilling certain specified obligations relating to obtaining a teaching credential and employment as a teacher in the district.

This bill, in addition, would require a school district or county office of education to require a program participant to obtain a certificate of clearance from the commission and provide verification of a specified level of academic achievement prior to participating in the program.

(2) The act requires a program participant to repay assistance received under the program if he or she fails to fulfill the specified obligations, but prohibits requiring a participant who is laid off to repay the assistance until the participant is offered reemployment and has an opportunity to fulfill his or her repayment obligations.

This bill would extend the time periods for the repayment of assistance by specified periods if a participant is unable to fulfill those obligations due to a serious illness, a pregnancy, or another natural cause, or if an interruption in employment caused by a natural disaster prevents a participant from completing one of the required years of service. The commission would be required to report to the Department of Finance by March 31 of each year the amount of funds collected by a school district or county office of education as repayment of assistance and the amount of funds that remain unspent from the amount appropriated to the commission in the annual Budget Act for purposes of the program.

(3) The act requires the commission to contract with an independent evaluator to conduct an evaluation on an annual basis to determine the success of paraprofessional recruitment programs, as specified.

This bill would instead require that the evaluation be conducted once every 5 years, to be completed with existing resources. The bill would require, by January 1 of each year in which an evaluation is conducted, commencing with January 1, 2009, the commission to submit the completed evaluation to the Governor and the education policy and fiscal committees of the Assembly and Senate.

(4) The act expresses the intent of the Legislature that in each fiscal year funding for the California School Paraprofessional Teacher Training Program be allocated to the Commission on Teacher Credentialing for grants to school districts. The act limits grants to school districts to \$3,000 per program participant per year, and makes funding for the grants contingent upon an appropriation in the annual Budget Act.

This bill would increase the limit on grants per paraprofessional per year to \$3,500.

Ch. 555 (SB 559) Kehoe Property taxation: change in ownership: exclusion.

(1) The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, “full cash value” is defined as the assessor’s valuation of real property as shown on the 1975–76 tax bill under “full cash value” or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. Beginning on January 1, 2006, existing law excludes from the definition of “change in ownership” transfers of real property between registered domestic partners.

This bill would also exclude from the definition of “change in ownership” any transfer of property between registered domestic partners that occurred between January 1, 2000, and January 1, 2006. This bill would require the assessor to reverse any reassessment for property that was transferred between these parties during this time period, but only if the transferee submits an application for reversal of that reassessment on or before June 30, 2009, as specified. This bill would authorize a county to charge a fee for these reassessment reversals, as provided. This bill would require the State Board of Equalization to prepare a form for these requests, as specified. Any reassessment reversal would apply commencing with the lien date of the assessment year in which the claim is filed. By requiring county assessors to reverse a reassessment for this property, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

(4) This bill would take effect immediately as a tax levy.

Ch. 556 (SB 568) Wiggins Criminal procedure: mental competence.

Existing law prohibits a person from being tried or adjudged to punishment while that person is mentally incompetent. If a defendant is found to be mentally incompetent, the trial or judgment shall be suspended until the person becomes mentally competent, during which time the court shall order that the mentally incompetent defendant be delivered to a state hospital or to any other available public or private treatment facility, or be placed on outpatient status, as specified. After the court-appointed psychiatrist examines the defendant and forms an opinion about whether or not treatment of the defendant with antipsychotic medication is appropriate, he or she is required to inform the court of his or her opinions as

to the likely side effects of that medication, the efficacy of the medication, and possible alternative treatments.

This bill would include within that requirement that the psychiatrist also inform the court whether it is medically appropriate to administer antipsychotic medication in the county jail. The bill would provide that the term "treatment facility" as used in these provisions, for the sole purpose of administering antipsychotic medication pursuant to a court order, includes a county jail that, upon the concurrence of the county board of supervisors and the county sheriff, the county mental health director, or the chief of corrections, as specified, may be designated to provide medically approved medication to defendants found to be mentally incompetent due to a mental disorder. The bill would limit treatment in these facilities to a maximum of 6 months. The bill would require the State Department of Mental Health to report to the Legislature, not later than January 1, 2009, on specified topics relating to treatment, pursuant to the provisions of the bill, of defendants who are incompetent to stand trial. The bill would provide that its provisions would be repealed on January 1, 2010.

Ch. 557 (SB 589) Correa Mobilehome and special occupancy parks: sewage disposal.

(1) The Mobilehome Parks Act makes it unlawful to permit any wastewater or material from a plumbing fixture in a manufactured home, mobilehome, or recreational vehicle to be deposited upon the surface of the ground and authorizes the Department of Housing and Community Development to adopt rules and regulations to carry out the purposes of this provision. Existing law makes it a misdemeanor to willfully violate a provision of the Mobilehome Parks Act.

The Special Occupancy Parks Act establishes a similar crime relating to recreational vehicle parks, temporary recreational vehicle parks, incidental camping areas, and tent camps.

This bill would include a plumbing fixture in a permanent building located within a mobilehome park or special occupancy park, within the scope of the prohibitions described above and would revise the scope of the prohibitions to include sewage or waste material from any mobilehome park sewage or waste disposal system, thereby creating new crimes and imposing a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 558 (SB 599) Negrete McLeod California Mexican American Veterans' Memorial Beautification and Enhancement Committee.

Existing law establishes the California Mexican American Veterans' Memorial Beautification and Enhancement Commission and provides for its composition and duties. Existing law authorizes the beautification and enhancement of an existing memorial on state grounds, as defined, and authorizes the commission to, among other things, establish a schedule for its design, construction, and dedication; to solicit designs and devise a process for selection of the final design; to monitor construction; and to consult with and obtain final design and site orientation approval from the Department of General Services.

This bill would delete the provisions establishing the California Mexican American Veterans' Memorial Beautification and Enhancement Commission, and would instead require the Secretary of Veterans Affairs to establish a California Mexican American Veterans' Memorial Beautification and Enhancement Committee, as specified. This bill would authorize the committee to, among other things, establish a schedule for the design, construction, and dedication of the memorial; to solicit designs and devise a process for selection of the final design; to monitor construction; and to consult with and obtain final

design and site orientation approval from the Department of General Services and the Secretary of Veterans Affairs.

Existing law establishes the California Mexican American Veterans' Memorial Beautification and Enhancement Account, a continuously appropriated account, in the General Fund. Existing law authorizes taxpayers to designate a contribution to the account through a voluntary checkoff on their tax returns. Existing law also authorizes the commission to receive contributions, for the beautification and enhancement of the memorial, which are to be deposited in the account. Funds in the account are to be appropriated to the commission for purposes of beautification and enhancement of the memorial and for reimbursement of the Controller and the Franchise Tax Board for related costs.

This bill would repeal the provisions authorizing taxpayers to designate a contribution to the account through a voluntary checkoff on their tax returns. This bill would instead authorize the Department of Veterans Affairs to receive those contributions for the beautification and enhancement of the memorial, which are, under existing law, required to be deposited in the account, and appropriated to the department, along with existing funds collected through the auspices of the California Mexican American Veterans' Memorial Beautification and Enhancement Commission, for purposes of beautification and enhancement of the memorial.

Existing law prohibits the commission from soliciting any construction funds until the veterans memorial has been constructed on State Capitol grounds under existing law.

This bill would delete the provision prohibiting the committee from soliciting any construction funds until the veterans memorial has been constructed on State Capitol grounds under existing law.

Existing law requires the commission to notify the Governor and the Franchise Tax Board when the beautification and enhancement of the memorial is complete.

This bill would instead require the committee to notify the Governor and the Secretary of Veterans Affairs when the beautification and enhancement of the memorial is complete.

Ch. 559 (SB 667) Hollingsworth School finance.

Existing law defines a necessary small school as an elementary school with an average daily attendance of less than 101, exclusive of pupils attending grades 7 and 8 of a junior high school, maintained by a school district that maintains 2 or more schools, that meets other criteria involving combinations of distance and average daily attendance. The county superintendent of schools is required to make computations for each elementary and secondary school district that has fewer than 2,501 units of 2nd principal apportionment average daily attendance and maintains at least one school that meets the criteria for a necessary small school.

This bill would appropriate \$55,000 from the General Fund to the Valley Center-Pauma Unified School District for purposes of allowing the school district to continue to operate the Palomar Mountain Elementary School, which through the 1999-2000 school year was part of the Pauma Elementary School District and qualified that district to receive necessary small school funding for the school.

Ch. 560 (SB 690) Calderon Criminal history.

Existing law establishes procedures for the disclosure of local summary criminal history information by a local criminal justice agency for certain purposes, as specified.

This bill would require local criminal justice agencies to provide local criminal history information to city attorneys pursuing civil gang injunctions or drug abatement actions, as specified.

By imposing additional duties on local criminal justice agencies, this bill would impose a state-mandated local program.

This bill would also authorize a public prosecutor, in response to a written public records request, to provide information from a local summary criminal history, if release of the information would enhance public safety, the interest of justice, or the public's understanding of the justice system and the person making the request declares that the request is made for a scholarly or journalistic purpose. This bill would provide that if a person in a declaration willfully states as true any material fact that he or she knows to be false, he or she shall be subject to a civil penalty not exceeding \$10,000.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 561 (SB 753) Correa Mobilehomes and manufactured homes: purchase.

Existing law establishes the CalHome Program under the administration of the Department of Housing and Community Development to provide grants and loans to enable low- and very low income households to become or remain homeowners. Existing law specifically includes mutual housing and limited equity cooperative housing among the types of housing that are eligible to receive assistance under the program, subject to certain conditions.

This bill would, except as specified, authorize funds under the program to be used to finance the purchase of the land beneath a mobilehome or manufactured home by the owner of the home, or the purchase of both a mobilehome or manufactured home lot and the home.

The bill would include community land trusts among the types of housing that are eligible to receive assistance under the program.

The bill would provide that the conditions in existing law relating to funding mutual housing and limited equity cooperative housing under the program do not apply to the financing of an interest in a manufactured housing community or mobilehome park that is organized as mutual housing or a limited equity cooperative.

Ch. 562 (SB 829) Wyland Veteran benefits.

The Veterans' Farm and Home Purchase Act of 1974 authorizes the Department of Veterans Affairs to assist veterans in acquiring homes and farms by generally providing that the department may purchase a farm or home which the department then sells to a purchaser, as defined. Existing law limits the amount that the department may expend for purchasing a mobilehome that is to be sited in a mobilehome park, as defined, to \$125,000.

This bill would raise the amount that the department may expend for purchasing a mobilehome that is to be sited in a mobilehome park to \$175,000.

Ch. 563 (SB 839) Calderon Fireworks.

(1) The State Fireworks Law requires the State Fire Marshal to adopt regulations relating to fireworks as may be necessary for the protection of life and property, and requires the State Fire Marshal to appoint deputies and employees as may be required to carry out the provisions of that law. That law provides that the State Fire Marshal, his or her salaried deputies, or a chief of a fire department, or his or her authorized representatives, a fire protection agency, or any other public agency authorized by statute to enforce the State Fire Marshal's regulations, may seize any fireworks, as described, and may charge a person whose fireworks are seized with specified costs of transporting, storing, and handling the seized fireworks. That law also makes it unlawful for a person to, among other matters, transport fireworks unless those fireworks have been classified and registered by the State Fire Marshal.

This bill would make it unlawful for a person to possess a specified amount of dangerous fireworks, and upon conviction, is guilty of a public offense punishable by a fine or by imprisonment, as specified. By creating a new crime, the bill would impose a state-mandated local program. The bill would require the State Fire Marshal, on or before July 1, 2008, to identify and evaluate specified data relating to fireworks, and require the State Fire Marshal to furnish a copy of the evaluation methods to any interested person upon request. The bill would require the State Fire Marshal, in conjunction with the Attorney General, to send notices regarding unauthorized shipments of fireworks in California, as specified.

The bill would create the State Fire Marshal Fireworks Enforcement and Disposal Fund. The bill would provide that 65% of the penalty imposed by these provisions, except for administrative fines imposed by local jurisdictions, shall be deposited in the fund for use by the State Fire Marshal, upon appropriation by the Legislature, to enforce, prosecute, dispose of, and manage dangerous fireworks and to educate public safety agencies in the proper handling and management of dangerous fireworks. The bill would also provide that 35% of the penalty, except for administrative fines imposed by local jurisdictions, will remain with the public safety agency for specified expenses. The bill would require the county treasurer in the county where the offense was committed to forward those penalties as specified in these provisions. By imposing a higher level of service on a local agency, the bill would impose a state-mandated local program.

The bill would require the Office of the State Fire Marshal, consulting with public safety agencies and other stakeholders, to develop a model ordinance that permits local jurisdictions to adopt a streamlined enforcement and administrative fine procedures related to the possession of 25 pounds or less of dangerous fireworks, as specified. The bill would also require the State Fire Marshal, in consultation with local jurisdictions, to develop regulations, in conjunction with the model ordinance, to specify a procedure on how to reimburse the Office of the State Fire Marshal for the actual costs associated with the disposal of seized dangerous fireworks and to recover those costs, as part of an administrative fine, from any person who violates that ordinance, as specified. The bill would require a local ordinance in effect on or after January 1, 2008, that is not the model ordinance to comply with these provisions. By requiring a higher level of service on a local agency, the bill would impose a state-mandated local program.

The bill would further require the State Fire Marshal, pursuant to the requirements and procedures established by the Office of Administrative Law, to establish regulations to assess fees on all import and export, wholesale, and retail fireworks licensees in California, as specified. The bill would provide that these fees shall be deposited in the State Fire Marshal Fireworks Enforcement and Disposal Fund for use by the State Fire Marshal, upon appropriation by the Legislature, to carry out specified statewide programs.

(2) Existing law prohibits a driver of a commercial motor vehicle from operating a commercial motor vehicle for one year if the driver is convicted of a first violation of specified vehicle-related offenses or convicted of other specified crimes.

This bill would require the Department of Motor Vehicles, in conjunction with the State Fire Marshal, to develop regulations and procedures to temporarily suspend the commercial motor vehicle license of a person who is operating a commercial motor vehicle while transporting dangerous fireworks having a gross weight of 10,000 pounds or more. The bill would also prohibit a driver of a commercial motor vehicle from operating a commercial motor vehicle for 3 years if the driver is convicted of transporting dangerous fireworks having a gross weight of 10,000 pounds or more.

(3) This bill would also make various technical, nonsubstantive changes to these provisions.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 564 (SB 883) Calderon Victims' compensation.

Existing law provides that crime victims may be awarded compensation by the California Victims Compensation and Government Claims Board for the pecuniary losses they suffer as a direct result of criminal acts. The awarding of compensation is subject to application procedures, eligibility requirements, and specified limits on the amount of compensation, including a limit of \$3,000 for outpatient mental health counseling. Payment is made under these provisions from the State Restitution Fund, which is continuously appropriated to the board for these purposes.

This bill would increase the limitation of an award for outpatient mental health counseling from \$3,000 to \$5,000, and would make a conforming change. By increasing the amount of an award authorized to be made from continuously appropriated funds, this bill would make an appropriation.

Existing law authorizes the board to establish maximum rates and service limitations for reimbursement of medical and medical-related services and for mental health and counseling services. Existing law also exempts the adoption, amendment, and repeal of the limitations and rates by the board from the Administrative Procedure Act.

This bill would make a clarifying change to this provision.

Existing law authorizes the board to order a reconsideration of all or part of a decision on an application for compensation on its own motion or on written request of the applicant but authorizes the board to grant no more than one such request for consideration with respect to any one decision on any application for compensation.

This bill would make a clarifying change to this provision.

Ch. 565 (AB 298) Maze Relative caregivers.

(1) Existing law governs the placement of dependent children. Under specified circumstances, when a court orders a hearing to be held pursuant to provisions governing the termination of parental rights, the court is required to direct the agency supervising the child and a specified adoption agency to prepare an assessment that includes certain information regarding the child and any identified prospective adoptive parent or guardian.

This bill would specifically provide that a relative caregiver's preference for legal guardianship rather than adoption under circumstances that do not include an unwillingness to accept legal or financial responsibility for the child may not constitute the sole basis for recommending removal of the child from the relative caregiver for purposes of adoptive placement. The bill would require that a relative caregiver be given information regarding the options of legal guardianship and adoption, including the long-term benefits and consequences of each option, prior to establishing legal guardianship or pursuing adoption.

(2) Existing law sets forth the circumstances that constitute a sufficient basis for terminating parental rights to a dependent child.

Existing law provides that specified findings by the juvenile court constitute a sufficient basis for termination of parental rights unless the court finds a compelling reason for determining that termination would be detrimental to the child, as specified.

This bill would revise the provision describing the specified findings that constitute a sufficient basis for terminating parental rights by instead requiring the court to terminate parental rights under those circumstances, unless (A) the child is living with a relative who is unable or unwilling to adopt the child because of circumstances that do not include an unwillingness to accept legal or financial responsibility for the child, but who is willing to provide a stable and permanent environment for the child through legal guardianship, as

specified, or (B) the court finds a compelling reason for determining that termination would be detrimental to the child, as specified.

(3) Existing law authorizes the juvenile court, after considering various reports and receiving evidence in a proceeding to determine whether to terminate parental rights to a dependent child, to make findings and orders in a specified order of preference governing the actions that the court may take with respect to the child.

This bill would authorize the court to appoint a relative with whom the child is currently residing as legal guardian for the child as the second option in the order of preference governing the orders that the court may take with respect to the child.

(4) Existing law provides that before the juvenile court may hold a hearing on a petition to terminate a legal guardianship, it shall order the county department of social services or welfare department to prepare a report for the court's consideration that shall include an evaluation of whether the child could safely remain in the legal guardian's home, without terminating the legal guardianship, if services were provided to the child or legal guardian. If applicable, existing law further requires the report to identify recommended services to maintain the legal guardianship and to set forth a plan for providing those services.

This bill would also require that report to include an evaluation of whether a child could safely be returned to a legal guardian's home, without terminating the legal guardianship, and, if applicable, to identify recommended family maintenance or reunification services. By adding to the duties of county employees with regard to those reporting requirements and services, the bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 566 (AB 394) Levine Safe schools: discrimination and harassment.

Existing law prohibits discrimination on the basis of specified protected characteristics, including, but not limited to, actual and perceived gender identification and sexual orientation, in any program or activity conducted by an educational institution, as specified.

This bill would require the State Department of Education to monitor adherence to the antidiscrimination and antiharassment requirements as part of its regular monitoring and review of local educational agencies and to assess whether local educational agencies have done certain things, including, among others, adopted a policy that prohibits discrimination and harassment and adopted a process for receiving and investigating complaints of discrimination and harassment. The department would be required to display information on curricula and other resources that specifically address bias-related discrimination and harassment on specified Internet Web sites. The department would also be required to develop, and post on appropriate department Internet Web sites, a model handout describing certain rights and obligations relating to antidiscrimination and antiharassment and the policies addressing bias-related discrimination and harassment in schools.

Ch. 567 (AB 102) Ma Marriage: domestic partnerships: name.

(1) Existing law provides for the registration of domestic partnerships and requires 2 persons desiring to become domestic partners to complete and file a Declaration of Domestic Partnership with the Secretary of State. Existing law requires the Secretary of State to prepare the form for the Declaration of Domestic Partnership pursuant to specified requirements.

This bill would require the Declaration of Domestic Partnership form to contain an optional section for either party or both parties to indicate a change in name. The bill would allow one party or both parties to a registered domestic partnership to elect to change the middle or last names by which that party wishes to be known after registration of the domestic

partnership by entering the new name in the spaces provided on the Declaration of Domestic Partnership form without intent to defraud.

(2) Existing law requires the Secretary of State to register the Declaration of Domestic Partnership in a registry for those partnerships and to return certain documents to the registrants, including a Certificate of Registered Domestic Partnership, except as specified.

This bill would require that the Certificate of Registered Domestic Partnership include the name used by each party before registration of the domestic partnership and any new name.

(3) Existing law requires that, before entering into or declaring a marriage, the parties first obtain a marriage license from a county clerk. Existing law requires the State Department of Public Health to prescribe the forms for the marriage license.

This bill would allow, on and after January 1, 2009, one party or both parties to a marriage to elect to change the middle or last names by which that party wishes to be known after solemnization of the marriage. The bill would require, on and after January 1, 2009, that the forms for the marriage license contain spaces for either party to indicate a change in name and would allow either party to change his or her name by entering the new middle or last names in the space provided on the marriage license application without intent to defraud.

(4) Existing law requires the State Department of Public Health to prepare and publish a brochure containing specified information for distribution to applicants for marriage licenses and persons who qualify as domestic partners.

This bill would require that the above brochure contain information concerning options for changing a name upon solemnization of marriage or upon registration of a domestic partnership. The bill would also require that information to include a notice that recording a change in name or the absence of a change in name on a marriage license application and certificate may not be amended once the marriage license is issued, but that options to adopt a change in name are preserved, as specified.

(5) Existing law, effective January 1, 2008, requires that a marriage license contain certain information, including the maiden name of the parties' mothers and the maiden name of the female, if previously married.

Existing law requires that each marriage performed be registered by the person performing the ceremony. Existing law creates an exemption from this requirement for members of a religious society or denomination not having clergy. Existing law requires those persons to file a License and Certificate of Declaration of Marriage containing specified information, including the maiden name of the parties' mothers and the maiden name of the female, if previously married and if her name has been changed. Existing law, effective January 1, 2008, requires those persons to file a License and Certificate of Non-Clergy Marriage subject to these provisions.

This bill would, effective January 1, 2009, modify the provisions relating to marriage licenses and Licenses and Certificates of Non-Clergy Marriage to conform with the above provisions allowing either party to a marriage to change his or her name. The bill would require that a marriage license and a License and Certificate of Non-Clergy Marriage include the last names at birth of each party's parents and any new name selected by a party for use upon solemnization of the marriage.

By requiring counties to alter their forms to conform with these requirements, the bill would impose a state-mandated local program.

(6) Existing law prohibits a person engaged in a trade or business of any kind or in the provision of a service of any kind from refusing to do business with, refusing to provide the service to, or imposing a specified requirement upon the use of a name, as a condition of doing business with or providing the service to, a woman in connection with her use of her birth name or former name.

This bill would extend these protections to any person, and would apply them, in addition, to a person's use of a name adopted upon solemnization of marriage or registration of domestic partnership.

(7) Existing law provides that, upon application for an original or duplicate driver's license, the Department of Motor Vehicles may require the applicant to produce any identification that it determines is necessary in order to ensure that the name of the applicant stated in the application is his or her true, full name and that his or her residence address as set forth in the application is his or her true residence address.

This bill would provide that the provisions of this act shall not be construed to prohibit the Department of Motor Vehicles from accepting other documents establishing a true, full name, including, but not limited to, a certified copy of a Certificate of Registered Domestic Partnership, a certified copy of a marriage license or certificate, a copy of a document substantially equivalent to a Certificate of Registered Domestic Partnership, or a copy of a marriage certificate recording a marriage outside of this state, as specified.

(8) This bill would make other technical, nonsubstantive changes.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 568 (AB 14) Laird Discrimination: Civil Rights Act of 2007.

(1) The Unruh Civil Rights Act entitles all persons within the jurisdiction of this state to the full and equal accommodations, advantages, facilities, privileges, or services in all business establishments, regardless of sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation.

Under existing law, persons holding licenses under the provisions of the Business and Professions Code are subject to disciplinary action for refusing, or aiding or inciting another licensee to refuse, to perform the licensed services because of the prospective recipient's race, color, sex, religion, ancestry, disability, marital status, or national origin. Existing law also creates an exception to that prohibition for healing arts practitioners if the licensed activity sought would pose a direct threat to the health or safety of others.

This bill would enact the Civil Rights Act of 2007, as described herein, and would instead subject those licensees to disciplinary action if the above-described discrimination is based upon the prospective recipient's sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation. This bill would also provide, however, that nothing in these provisions would prohibit the consideration of those characteristics for purposes of diagnosis or treatment, or require any healing arts practitioner to perform a licensed activity for which he or she is not qualified.

(2) Existing law provides that no person within the jurisdiction of this state shall be excluded or required to be excluded from a business transaction on the basis of a policy expressed in any document or writing and imposed by a 3rd party if that policy requires discrimination against that person on the basis of the person's sex, race, color, religion, ancestry, or national origin, or on the basis that the person conducts or has conducted business in a particular location.

This bill would instead prohibit that discrimination if based upon sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation, or on the basis that the person conducts or has conducted business in a particular location.

(3) Existing law provides that it is an unlawful trust and an unlawful restraint of trade for any person to grant or accept any letter of credit, or other document that evidences the transfer of funds or credit, or enter into any contract for the exchange of goods or services, if the letter of credit, contract, or other document contains any provision that requires any person to discriminate against, or to certify that he, she, or the letter, contract, or document has not dealt with, any other person on the basis of sex, race, color, religion, ancestry, or national origin, or on the basis of a person's lawful business association.

This bill would instead prohibit that discrimination if based upon sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation, or on the basis of a person's lawful business association.

(4) The Horse Racing Law authorizes the California Horse Racing Board to provide by rule for the exclusion or ejection of specified persons from any horse racing inclosure. Notwithstanding that authorization, the law prohibits the board from providing by rule for the exclusion or ejection of a person on the ground of race, color, creed, national origin or ancestry, or sex.

This bill would instead prohibit the board from excluding or ejecting a person on the ground of sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation.

(5) Existing law prohibits tennis, handball, racquetball, and beach and athletic clubs from discriminating against any person on account of specified characteristics.

This bill would conform those provisions to the Unruh Civil Rights Act, and instead prohibit those clubs from discriminating on account of sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation.

(6) Existing law requires every alcoholic beverage club licensee that restricts membership or the use of its services or facilities on the basis of age, sex, race, religion, color, ancestry, or national origin to incorporate a printed statement on its receipts that the expenditures covered by those receipts are nondeductible for tax purposes.

This bill would instead impose that requirement upon every alcoholic beverage club licensee that restricts membership or the use of its services or facilities on the basis of ancestry, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(7) The California Fair Dealership Law prohibits various acts of discrimination based on race, color, religion, national ancestry, or sex, with regard to the granting of dealerships, as defined.

This bill would conform those provisions to the Unruh Civil Rights Act, and instead prohibit that discrimination based upon sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation.

(8) A provision of the Song-Beverly Credit Card Act of 1971 prohibits a card issuer, as defined, from refusing to issue a credit card to a person solely because of that person's race, religious creed, color, national origin, ancestry, or sex.

This bill would conform that provision to the Unruh Civil Rights Act, and instead prohibit that discrimination if based upon sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation.

(9) Existing law specifies that no eligible person shall be exempt from service as a trial juror by reason of occupation, race, color, religion, sex, national origin, economic status, or sexual orientation, or for any other reason.

This bill would instead specify that no eligible person shall be exempt from service as a trial juror by reason of occupation, economic status, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability, or for any other reason.

(10) Existing law provides that no cause of action may be maintained against a person serving without compensation as a director or officer of a nonprofit corporation incorporated pursuant to specified provisions of the nonprofit corporation law on account of any negligent act or omission by that person within the scope of that person's duties, except by court order or if the corporation unlawfully restricts membership, services, or benefits conferred on the basis of race, religious creed, color, national origin, ancestry, sex, marital status, disability, political affiliation, or age.

This bill would instead except from that immunity a director or officer of a nonprofit corporation that unlawfully restricts membership, services, or benefits on the basis of

ancestry, marital status, political affiliation, race, national origin, religion, age, sex, sexual orientation, color, disability, or medical condition.

(11) Existing law provides that it is the policy of the state to afford all persons equal rights and opportunities in the postsecondary institutions of the state, regardless of specified factors. Existing law prohibits those institutions from discriminating on the basis of those factors, and requires the governing board of each community college district, the Chancellor of the California State University, the president of each California State University campus, the President of the University of California, and the chancellor of each University of California campus to ensure that campus programs and activities are free from discrimination based upon those factors.

This bill would recast those factors in terms of, among others, sex, race, color, religion, age, ethnic group identification, national origin, disability, or sexual orientation.

(12) Existing law requires Cal Grant Program awards to be awarded without regard to race, religion, creed, sex, or age.

This bill would instead require Cal Grant Program awards to be awarded without regard to age, sex, race, color, religion, ethnic group identification, national origin, disability, or sexual orientation.

(13) Existing law prohibits the funds of a community college district, California State University, or University of California to be used for membership with, or for any participation involving a financial payment or contribution to, any private organization which membership practices are discriminatory on the basis of race, creed, color, sex, religion, or national origin.

This bill would instead prohibit those funds from being used for membership or participation with any private organization that discriminates on the basis of sex, race, color, religion, age, ethnic group identification, national origin, disability, or sexual orientation.

(14) Existing law prohibits a county elections official from refusing to deputize a person to register voters because of race, creed, color, national origin, ancestry, sex, marital status, disability, religious or political affiliation, or age.

This bill would instead prohibit that refusal to deputize if based upon a person's ancestry, marital status, political affiliation, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(15) Existing law prohibits the state from using state funds for membership or any participation involving any private organization or the use of a facility which membership practices discriminate on the basis of, among others, race, creed, color, sex, religion, or national origin. Existing law also prohibits the legislative body of a local agency from using a facility which practices discriminate on the basis of those factors.

This bill would instead prohibit that state or local involvement and use of private facilities if the organization or facility discriminates on the basis of, among others, ancestry, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(16) Existing law requires a city, county, or other local agency that owns, operates, or controls a public beach, or access to that beach, to allow for its use by any person regardless of color, race, religion, ancestry, sex, national origin, or residence.

This bill would allow for that access regardless of sex, race, color, religion, ancestry, age, ethnic group identification, national origin, disability, sexual orientation, or residence.

(17) Existing law authorizes the Judicial Council to provide by rule of court for racial, ethnic, gender bias, and sexual harassment training for judges, commissioners, and referees.

This bill would further authorize the Judicial Council to provide by rule of court for training for judges, commissioners, and referees on any other bias based on race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(18) Existing law prohibits the provision of emergency services and care to be based upon, or affected by, a person's race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic

status, or ability to pay for medical services, except as specified, and requires every hospital to adopt that policy.

This bill would instead prohibit that discrimination if based upon ethnicity, citizenship, age, preexisting medical condition, insurance status, economic status, ability to pay for medical services, sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, or sexual orientation, except as specified, and would require every hospital to adopt that policy.

(19) Existing law authorizes each county to apply to the State Department of Health Services for funds for the purposes of alleviating problems in its county related to alcohol and drug abuse. Existing law authorizes each county to administer and coordinate all county alcohol and other drug programs funded by the state. Existing law requires every county alcohol and drug program administrator to assure compliance with applicable laws relating to discrimination against any person because of race, creed, age, religion, sex, sexual preference, or disabling conditions.

This bill would instead require every county alcohol and drug program administrator to assure compliance with applicable laws relating to discrimination against any person because of race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(20) Existing law prohibits state governmental entities and contractors from discriminating in the awarding of any contract or subcontract on the basis of race, color, sex, ethnic origin, or ancestry.

This bill would instead prohibit that discrimination on the basis of ancestry, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(21) Existing law governs contracts for state park system concessions, and prohibits discrimination by a concessionaire or his or her agents or employees against any person because of the race, color, religion, sex, marital status, national origin, or ancestry of that person.

This bill would conform those provisions to the Unruh Civil Rights Act, and would instead prohibit that discrimination if based upon sex, race, color, religion, ancestry, age, ethnic group identification, national origin, disability, medical condition, marital status, or sexual orientation.

(22) Existing law prohibits a public utility from charging a person different rates or deposit amounts because of that person's race, religious creed, color, national origin, ancestry, physical handicap, medical condition, occupation, sex, marital status, or change in marital status.

This bill would instead prohibit that discrimination if based upon occupation, sex, race, color, religion, ancestry, age, ethnic group identification, national origin, disability, medical condition, marital status, or sexual orientation.

(23) The Municipal Utility District Act prohibits a municipal utility district from discriminating in the awarding and performance of district contracts on the basis of race, color, sex, national origin, marital status, sexual preference, creed, ancestry, medical condition, or retaliation.

This bill would instead prohibit that discrimination if based upon marital status, ancestry, medical condition, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, disability, or retaliation.

(24) The Personal Income Tax Law and the Bank and Corporation Tax Law prohibit tax deductions based upon payments or expenditures made at a club that restricts membership or the use of its services or facilities on the basis of age, sex, race, religion, color, ancestry, or national origin.

This bill would instead prohibit those deductions if made at a club that discriminates on the basis of ancestry, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability. The bill would also delete an identical and duplicate provision as that described above.

(25) Existing law requires the state to contract with appropriate agencies to provide regional centers in the community for persons with developmental disabilities. Existing law prohibits those regional centers from conducting any meeting, conference, or other function in any facility that discriminates on the basis of race, religious creed, color, national origin, ancestry, sex, or disability.

This bill would further prohibit those centers from conducting any meeting, conference, or other function in any facility that discriminates on the basis of ancestry, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(26) Existing law requires any county that chooses to provide assisted outpatient treatment services to consider the cultural, linguistic, gender, age, and special needs of minorities in the target populations.

This bill would additionally require those counties to consider those needs based upon race, national origin, ethnic group identification, religion, sex, sexual orientation, color, or disability in the target populations.

(27) Existing law requires the State Department of Mental Health to establish service standards that ensure that members of the target population are identified and that services are provided to assist those members. Existing law requires those individual personal service plans to ensure that members of the target population involved in the system of care receive age, gender, and culturally appropriate services, to the extent feasible.

This bill would additionally require those service plans to ensure that members of the target population receive culturally appropriate services or appropriate services based upon race, national origin, ethnic group identification, religion, sex, sexual orientation, color, or disability, to the extent feasible.

(28) Existing law specifies that for the purposes of the Welfare and Institutions Code that aid shall be administered and services provided promptly and humanely, with due regard for the preservation of family life, and without discrimination on account of race, national origin or ancestry, religion, sex, marital status, or political affiliation.

This bill would instead specify that those services be provided without discrimination on account of ancestry, marital status, political affiliation, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(29) Existing law requires the State Department of Social Services to adopt regulations to govern county transitional housing placement programs that provide supervised housing services to youth meeting specified criteria. Existing law requires the department to review the admission criteria to ensure that the criteria are sufficient to protect participants and that they do not discriminate on the basis of race, gender, sexual orientation, or disability.

This bill would instead require that the admission criteria do not discriminate on the basis of race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability.

(30) Existing law establishes a statewide program to enable specified recipients of aid and other low-income households to receive food stamps under the federal Food Stamp Program. Existing law provides that in the determination of eligibility for food stamps, there shall be no discrimination against any household by reason of race, color, religious creed, national origin, sex, marital status, or political belief, to the extent not in conflict with federal law.

This bill would instead prohibit that discrimination if based upon marital status, political belief, race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability, to the extent not in conflict with federal law.

(31) This bill would provide that the changes to Sections 66030, 66251, 66292, 66292.1, 66292.2, 69535, 72011, 72014, 89757, and 92150 of the Education Code proposed by this bill shall not become operative if SB 777 is enacted and becomes effective on or before January 1, 2008, each bill amends those provisions, and this bill is chaptered last.

(32) This bill would incorporate additional changes in Section 66270 of the Education Code, proposed by SB 777, to be operative only if SB 777 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(33) This bill would incorporate additional changes in Section 5806 of the Welfare and Institutions Code, proposed by SB 851, to be operative only if SB 851 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(34) This bill would incorporate additional changes in Section 16522.1 of the Welfare and Institutions Code, proposed by AB 671, to be operative only if AB 671 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 569 (SB 777) Kuehl Discrimination.

(1) Existing law states that it is the policy of the state to afford equal rights and opportunities to all persons in the public or private elementary and secondary schools and postsecondary educational institutions of the state regardless of their sex, ethnic group identification, race, national origin, religion, or mental or physical disability and prohibits a person from being subjected to discrimination on those bases and contains various provisions to implement that policy.

Existing law prohibits a teacher from giving instruction, and a school district from sponsoring any activity, that reflects adversely upon persons because of their race, sex, color, creed, handicap, national origin, or ancestry.

This bill would revise the list of prohibited bases of discrimination and the kinds of prohibited instruction and activities and, instead, would refer to disability, gender, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic contained in the definition of hate crimes that is contained in the Penal Code. The bill would define disability, gender, nationality, race or ethnicity, religion, and sexual orientation for this purpose.

(2) Existing laws relating to education refer to “handicapped pupils,” “handicapped adults,” “physically handicapped pupils,” “physically handicapped adults,” “the handicapped,” and “handicapped persons.”

This bill would change these terms to “pupils with disabilities,” “adults with disabilities,” “pupils with physical disabilities,” “adults with physical disabilities,” and “persons with disabilities.”

(3) This bill would incorporate additional changes in Section 44253.3 of the Education Code, proposed by SB 859, to be operative only if SB 859 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(4) This bill would incorporate additional changes in Section 66270 of the Education Code, proposed by AB 14, to be operative only if AB 14 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 570 (AB 821) Nava Ridley-Tree Condor Preservation Act.

(1) Existing law regulates the taking of birds and mammals, and prohibits the taking of specified nongame birds. Existing law permits the Department of Fish and Game to preserve the California condor, and requires the Fish and Game Commission to establish a list of endangered species and a list of threatened species. Existing law generally provides that a violation of the fish and game laws is a crime.

This bill would enact the Ridley-Tree Condor Preservation Act to require the use of nonlead centerfire rifle and pistol ammunition when taking big game and coyote within specified areas. The act would require the commission to establish, by regulation, by July 1, 2008, a public process to certify centerfire rifle and pistol ammunition as nonlead ammunition, and to define nonlead ammunition by regulation. The act would also require the commission, to the extent funding is available, to provide hunters within these areas with nonlead ammunition at no or reduced charge through a coupon program. Under the act, a person who violates those requirements would be guilty of an infraction punishable by a \$500 fine for the first offense. Because the act would create a new crime, this bill would create a state-mandated local program.

The act would also declare the Legislature's intent to protect vulnerable wildlife species, including the California condor, from the ongoing threat of lead poisoning.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 571 (AB 1172) Sharon Runner Inmate release.

Existing law requires, prior to release from the custody of the Department of Corrections and Rehabilitation of a person who has been convicted of certain crimes of a sexual nature, the director to refer that person to the State Department of Mental Health for evaluation if the director determines that person may be a sexually violent predator.

Under existing law, if the State Department of Mental Health determines that the person is a sexually violent predator, the department is required to forward a request for the filing of a petition to the counsel designated by the county in which the person was convicted. The law authorizes civil commitment of the person to the State Department of Mental Health as a sexually violent predator for treatment in a secure facility, if the person is adjudicated to be likely to engage in sexually violent criminal behavior if discharged.

Existing law relating to the release of inmates who have been convicted of certain violent crimes requires notice of the scheduled release to be given to prescribed persons.

This bill would include within this notice requirement persons scheduled for release from the State Department of Mental Health, including, but not limited to, conditional release, and would increase certain inmate release notice requirements from 45 days to 60 days.

Existing law relating to conditional release hearings for sexually violent predators requires the court to give a 15-day notice of the hearing to the committed person's attorney and to the State Department of Mental Health, and requires that, if approved by the court, the person be placed in the community within 21 days after receipt of the court's findings.

This bill would increase those notice requirements to 30 days.

Existing law, with certain exceptions, requires the department to provide a 15-day notice to local officials prior to recommending to the court that a sexually violent predator be conditionally released for community treatment.

This bill would increase that notice to 30 days.

This bill would require that copies of related documents be provided to the court and to the State Department of Mental Health.

Ch. 572 (AB 1471) Feuer Firearms: microstamping.

Existing law defines unsafe handguns as failing to pass certain tests, or lacking certain features, as specified.

This bill, the Crime Gun Identification Act of 2007, would, commencing January 1, 2010, expand the definition of "unsafe handgun" to include semiautomatic pistols that are not designed and equipped with a microscopic array of characters that identify the make, model, and serial number of the pistol, etched in 2 or more places on the interior surface or internal working parts of the pistol, and that are transferred by imprinting on each cartridge case when the firearm is fired. Those provisions would be subject to specified certification procedures by the Department of Justice regarding the use of that technology.

By expanding the definition of "unsafe handgun," the manufacture, sale, and other specified transfer of which is a crime, this bill would expand the scope of an existing crime, and thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 573 (AB 1509) Spitzer Sex offenders: community placement.

Existing law, as amended by Proposition 83 of the November 7, 2006, statewide general election, generally regulates the granting and conditioning of parole. Existing law further prohibits an inmate who is released on parole for a violent felony, as specified, or a felony inflicting great bodily injury, from being returned to a location within 35 miles of the actual residence of a victim or witness of that felony, upon a victim or witness request and the Board of Parole Hearings or the Department of Corrections and Rehabilitation finds that there is a need for this restriction, as specified.

This bill would include the crime of continuous abuse of a child as a violent felony; the bill would thereby provide that an inmate released on parole for continuous abuse of a child shall be subject to the above restrictive placement procedures. The bill would also make technical, nonsubstantive changes to the above provisions.

Proposition 83 permits the Legislature, by a $2/3$ vote of membership of each house and in accordance with specified procedures, to amend the provisions of the act.

This bill would therefore require a $2/3$ vote.

Ch. 574 (AB 1548) Solorio Public postsecondary education: College Textbook Transparency Act.

(1) The Donahoe Higher Education Act authorizes the activities of the 4 segments of the postsecondary education system in the state. These segments include the 3 public postsecondary segments: the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges. Private and independent postsecondary educational institutions constitute the other segment.

Provisions of the Donahoe Higher Education Act apply to the University of California only to the extent that the regents act, by resolution, to make them applicable.

Existing law urges textbook publishers to take specified actions aimed at reducing the amounts that students currently pay for textbooks. Existing law requires the Trustees of the California State University and the Board of Governors of the California Community Colleges, and requests the Regents of the University of California, among other things, to work with the academic senates of each respective segment to encourage faculty to give consideration to the least costly practices in assigning textbooks, to encourage faculty to disclose to students how new editions of textbooks are different from previous editions and the cost to students for textbooks selected, to review procedures for faculty to inform college and university bookstores of textbook selections, and to encourage faculty to work closely with publishers and college and university bookstores in creating bundles and packages that are economically sound and deliver cost savings to students.

Existing law expresses the intent of the Legislature to encourage private colleges and universities to work with their respective academic senates, and to encourage faculty to consider practices in selecting textbooks that will result in the lowest costs to students.

This bill would add the College Textbook Transparency Act to the Donahoe Higher Education Act.

This bill would require the publisher, as defined, of a textbook to print certain information on the outer cover of, or within, a textbook, as defined, on or after January 1, 2010.

This bill would require a publisher, or agent or employee of a publisher, of textbooks intended for use at a postsecondary educational institution to respond to a request from an adopter, as defined, for specified information.

This bill would require a public postsecondary educational institution to encourage adopters, with course material selection responsibilities to place their orders with sufficient lead time, whenever possible, to enable the university-managed bookstore or contract-managed bookstore to confirm the availability of the requested materials. The bill, except as specified, would prohibit an adopter at an institution of higher education from

demanding or receiving anything of value, including the donation of equipment or goods, any payment, loan, advance, or deposit of money, present or promised, for adopting specific course materials required for coursework or instruction.

This bill would prohibit a publisher or campus bookstore from soliciting faculty for the purpose of the sale of instructor copies or complimentary teacher editions of textbooks that have been provided by a publisher at no charge to a faculty member or other employee.

Pursuant to existing law, the bill would apply to the University of California only to the extent that the regents act, by resolution, to make these provisions applicable. Because the bill would impose new duties on community college districts, the bill would constitute a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 575 (SB 220) Corbett Vended water.

Existing law prescribes various quality and labeling standards for bottled water and vended water, including mineral water, and limits the levels of certain contaminants that may be contained in those water products. Violation of these provisions is a crime.

Existing law requires the State Department of Public Health to perform various duties under these provisions.

Existing law establishes a fee schedule for annual bottled and vended water licenses, and sets the fee for water-vending machines at \$10.25.

This bill would increase the annual license fee for a water-vending machine to \$40.

This bill would also require, as a condition of licensure, a water-bottling plant, as defined, to annually prepare a bottled water report, as specified, to make the report available to each customer, upon request, and to prepare the report in English, Spanish, and in other languages that exceed 10% of the state's population.

Existing law requires the department to require that each water-vending machine, retail water treatment plant, water hauler vehicle and facility, and private water source be maintained in a clean and sanitary condition at all times.

This bill would, effective January 1, 2009, require water-vending machines to be cleaned and serviced at least once every 31 days. The bill would also require, as of January 1, 2009, that maintenance and complaint records be kept by the owner for a minimum of 2 years and be made available to the department upon request. It would require, commencing January 1, 2009, the department to conduct annual inspections of not less than 20% of the licensed water-vending machines in the state, as provided, would authorize the department to embargo the machine or impose a fine, or both, if a violation is found, would authorize the department to conduct reinspections of licensed water-vending machines as necessary to prevent repeated or continuing violations, and would require the department to assess a fee to cover the costs of performing a reinspection conducted within 12 months of the initial inspection.

Existing law requires each container of bottled water sold in this state, each water-vending machine, and each container provided by retail water facilities located in this state to contain specified information and to be clearly labeled in an easily readable format.

This bill, commencing January 1, 2009, would require each label on bottled water sold at retail or wholesale in this state in a beverage container to also include the name and contact information for the bottler or brand owner, the source of the bottled water, and a statement that contains specified information, as provided. The bill would also require bottlers that distribute directly to consumers to provide a statement on each billing statement that includes

certain contact information, and the means by which a customer may obtain information relating to water quality.

Existing law requires that each water-vending machine, retail water facility, and private water source that sells water at retail display prescribed information, including, but not limited to, a telephone number for further information, service, or complaints.

This bill would require that the telephone number be a toll-free or local telephone number, that the toll-free telephone number of the department's food and drug branch also be displayed, and that the notice include prescribed license, maintenance, and suitable container information.

By changing the definition of existing crimes and by creating a new crime, this bill would impose a state-mandated local program.

The bill would also require the department to submit in its annual budget report to the Legislature specified information relating to the licensed entities it regulates pursuant to these provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 576 (SB 880) Calderon Crime.

Existing law provides that it is a crime to import for commercial purposes, possess with intent to sell, or sell any part or product of the dead body of a kangaroo punishable by a fine between \$1,000 and \$5,000, imprisonment in the county jail not to exceed 6 months, or both fine and imprisonment, for each violation.

This bill would, until January 1, 2011, provide that these provisions shall not apply to kangaroos that may be harvested lawfully under Australian national and state law, the federal Endangered Species Act of 1971, and applicable international conventions, provided that the Department of Fish and Game is annually informed of statistical information regarding the commercial harvest of kangaroos, as specified.

Ch. 577 (AB 1750) Committee on Health Health.

(1) Existing law provides for the Medi-Cal program, administered by the State Department of Health Care Services, under which basic health care services are provided to qualified low-income persons.

Existing law, the False Claims Act, provides that a person who commits any one of several enumerated acts relating to the submission to the state or a political subdivision of the state of a false claim for money, property or services, as specified, may be liable to the state or political subdivision for a civil penalty of up to \$10,000 for the submission of the false claim.

This bill would establish a minimum civil penalty of \$5,000 for making a false claim, as specified, and would retain the maximum penalty of \$10,000. This bill would also require designated providers under the Medi-Cal program to comply with specified federal False Claims Act employee training and policy requirements as a condition of payment for services, goods, supplies, and merchandise provided to Medi-Cal beneficiaries.

(2) Existing law provides that the board of supervisors of a county that contracted with the State Department of Health Care Services pursuant to a specified provision of law during the 1990–91 fiscal year and any county with a population under 300,000, as determined in accordance with the 1990 decennial census, by adopting a resolution to that effect, may elect to participate in the County Medical Services Program (CMSP) for state administration of health care services to eligible persons in the county. Existing law requires the department to allocate funds from various sources to CMSP counties.

This bill would require that those funds be allocated to counties that are eligible to participate in the CMSP and would also make technical, nonsubstantive changes to these provisions.

(3) Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care.

This bill would make technical, nonsubstantive changes to various provisions pertaining to the regulation of health care service plans and would also delete certain obsolete provisions.

(4) Existing law provides for the regulation of health insurers by the Department of Insurance and defines health insurance as an individual or group disability insurance policy that provides coverage for hospital, medical, or surgical benefits. Under existing law, a health insurer that markets and sells individual health insurance policies is required to maintain underwriting guidelines, as specified, and to file annually with the Insurance Commissioner a general description of its rating and underwriting guidelines for individual health insurance policies.

This bill would specify that the requirements applicable to a health insurer that markets and sells individual health insurance policies apply to a health insurer that issues, renews, or amends an individual health insurance policy, and would exempt from these requirements a closed block of business, as defined in existing law. The bill would provide that, effective January 1, 2008, the term “specialized health insurance policy” means a policy of health insurance for covered benefits in a single specialized area of health care.

(5) Existing law establishes the Healthy Families Program administered by the Managed Risk Medical Insurance Board to provide health care services to eligible children. Existing law authorizes certain geographic managed care plans, as defined, that do not have a commercial license from the Department of Managed Health Care to contract with the board for a maximum period of 12 months.

This bill would repeal that provision.

(6) Existing law, the California Public Records Act, generally requires that records of state and local agencies be open to public inspection. Under existing law, certain records are exempt from this requirement, including specified records of the Managed Risk Medical Insurance Board relating to negotiations with health plans pursuant to the Access for Infants and Mothers Program, the California Major Risk Medical Insurance Program, the Healthy Families Program, and the County Health Initiative Matching Fund. Existing law requires a contract entered into pursuant to these negotiations, except specified portions, to be open to the public one year after they have been fully executed. Existing law also requires that all meetings of a state body, as defined, be open and public, unless it is authorized to meet in closed session for specified purposes.

This bill would expand the exemption for records under these other programs administered by the board to include those relating to negotiations with any entity contracting or seeking to contract with the board. This bill would also require the contracts to, instead, be open for inspection one year after their effective dates. The bill would further authorize the board to meet in closed session when considering the development of rates and contracting strategy pursuant to the Healthy Families Program, the Access for Infants and Mothers Program, the County Health Initiative Matching Fund, and the California Major Risk Medical Insurance Program.

(8) This bill would declare that it is to take effect immediately as an urgency statute.

(9) This bill would also incorporate amendments to Section 6254 of the Government Code, proposed by SB 449, to be operative only if SB 449 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 578 (SB 449) Aanestad Crime records: victims of sex offenses.

The California Public Records Act requires state and local agencies to make public records available upon receipt of a request that reasonably describes an identifiable record not otherwise exempt from disclosure by express provisions of law, and upon the payment of fees to cover the associated costs. The act expressly exempts from disclosure the names and

addresses of victims of specified crimes, at the victim's request or the victim's parent or guardian if the victim is a minor.

This bill would expand the category of crime victims whose names and addresses are not subject to disclosure under the act, to include additional sex crimes.

Existing law provides that the victim of a sex offense may request that his or her name and address not be a matter of public record, although the victim's name may be disclosed to certain law enforcement officials for official business, even if the victim requested to keep his or her name and address confidential.

This bill would expand the types of crimes deemed to be sex offenses that are subject to those disclosure limitations to include annoying or molesting a child under 18 years of age.

This bill would also incorporate amendments to Section 6254 of the Government Code, proposed by AB 1750, to be operative only if AB 1750 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 579 (SB 172) Alquist Crimes: sex offenders.

Existing law provides for various penalty provisions related to sex offenders.

This bill would make nonsubstantive, conforming changes to those provisions. The bill would make clarifying changes to provisions related to the risk assessment tool to be used to identify sex offenders, and would make related technical changes.

Existing law requires persons who have been convicted of specified crimes, and other persons as required by a court, to register as a sex offender. Existing law sets forth the procedure for doing so.

This bill would reorganize and renumber the provisions that set forth that procedure, and would make conforming technical changes in related provisions of law.

This bill would incorporate additional changes in Section 1522 of the Health and Safety Code, proposed by SB 776, to be operative only if SB 776 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

This bill would incorporate additional changes in Section 646.9 of the Penal Code, proposed by AB 289, to be operative only if AB 289 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 580 (SB 776) Vincent Community care facilities: criminal history clearance.

Under existing law, the State Department of Social Services regulates the licensure and operation of community care facilities, residential care facilities for the elderly, and child day care facilities.

Under existing law, licensees and other individuals who are present and provide care in certain community care, foster care, and child day care facilities are required to provide fingerprints and the department is required to secure the individual's criminal history, to determine whether he or she has been convicted of a crime other than a minor traffic violation, or convicted of specified sex-related offenses.

Existing law authorizes the department to authorize a county, if certain circumstances are met, to issue a criminal records exemption. Existing law authorizes a county child welfare agency to secure summary criminal history information for these purposes.

Existing law authorizes the department to accept criminal record clearance or exemptions from a county office with department-delegated licensing authority, and authorizes a county office with department-delegated licensing authority, to accept criminal record clearance or exemption from the department or from any other county office with department-delegated licensing authority.

This bill would, similarly, authorize a county child welfare agency with criminal record clearances and exemption authority to receive and provide criminal record clearance or exemptions from another county that has that authority.

Existing law permits a county child welfare agency to secure from an appropriate governmental criminal agency the state summary criminal history of a relative or a nonrelative extended family member of a child who has been detained or is a dependent of the court in assessing the appropriateness and safety of placing the child in the home of that person during an emergency situation.

This bill would provide that when such a person who has been assessed and approved as a caregiver moves to a different county and continued placement of the child with that person is intended, the move shall be considered an emergency situation.

This bill would declare that nothing in the bill is intended to authorize disclosure of arrest information to the department that may not be disclosed pursuant to injunction in 2 specific court cases.

This bill would incorporate additional changes in Section 1522 of the Health and Safety Code proposed by SB 172 to become operative only if this bill and SB 172 are enacted and become effective on or before January 1, 2008, and this bill is enacted last.

Ch. 581 (SB 340) Ackerman Criminal history information.

Existing law requires the Department of Justice to maintain specified criminal history information, and requires the Attorney General to supply that information to specified law enforcement and other agencies, as prescribed.

This bill additionally would require the Attorney General to furnish criminal history information to city attorneys pursuing civil gang injunctions or drug abatement actions, as specified. The bill also would expand the list of agencies entitled to receive criminal history reports to include an illegal dumping enforcement officer, an agency providing conservatorship investigations, a court investigator providing investigations or reviews in conservatorships, and a probation officer, domestic relations investigator, other officer designated to investigate potential dependency cases, or court investigator providing investigation in guardianships.

Ch. 582 (AB 289) Spitzer Protective orders.

Existing law provides that any person who willfully inflicts corporal injury resulting in a traumatic condition upon a person who with whom he or she has a specified familiar relationship shall be punished by imprisonment in the state prison for 2, 3, or 4 years, or in a county jail for not more than one year, or by a fine of up to \$6,000, or by both that fine and imprisonment.

This bill would provide that upon conviction for violating these provisions, the sentencing court shall also consider issuing an order restraining the defendant from any contact with the victim, whether the defendant is sentenced to state prison, county jail, or if imposition of sentence is suspended and the defendant is placed on probation, which may be valid for up to 10 years, as determined by the court.

Existing law also provides that any person who willfully, maliciously, and repeatedly follows or willfully and maliciously harasses another person and who makes a credible threat with the intent to place that person in reasonable fear for his or her safety, or the safety of his or her immediate family is guilty of the crime of stalking, punishable as a misdemeanor or a felony. Existing law further provides for various enhanced penalties for stalking under specified circumstances.

Existing law provides that upon conviction for stalking, the sentencing court also shall consider issuing an order restraining the defendant from any contact with the victim, that may be valid for up to 10 years, as determined by the court, based on specified factors. A violation of this provision is a misdemeanor punishable by 6 months in a county jail.

This bill would provide that this protective order may be issued by the court whether the defendant is sentenced to state prison, county jail, or if imposition of sentence is suspended and the defendant is placed on probation.

The bill would incorporate additional changes to Section 646.9 of the Penal Code, proposed by SB 172, to be operative only if SB 172 and this bill are both enacted, both bills amend Section 646.9, and this bill is enacted after SB 172.

By creating new crimes this bill would impose state-mandated local programs.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 583 (SB 703) Ducheny Placement of children.

(1) The Interstate Compact on the Placement of Children, which has been adopted in this state, authorizes and governs the interstate placement of children. Pursuant to the compact, the officers and agencies of this state and its subdivisions are authorized to enter into agreements with appropriate officers or agencies of, or in, other states to provide for the out-of-state placement of a child and for the provision of services to that child.

This bill would require a county child welfare agency to conduct, complete, and report the results of a home study, as specified, within 60 days after an officer or agency of this state, or its political subdivision, receives a request from another state to conduct a study of a home environment for purposes of assessing the safety and suitability of placing a child in the home, except as specified. The bill would also require a county to treat a home study report received from another state as meeting specified requirements of this state for the completion of a home study, except as specified. By imposing new duties on local employees, the bill would impose a state-mandated local program.

(2) Existing law authorizes various types of adoption agencies that have been licensed by the State Department of Social Services to provide adoption services, as specified. Existing law provides that intercountry adoption services, as described, shall be exclusively provided by private adoption agencies licensed by the department to provide those services.

This bill would require any private full-service adoption agency and any noncustodial adoption agency to be accredited by the Council on Accreditation, or supervised by an accredited primary provider, or acting as an exempted provider, in compliance with a specified provision of federal law as a condition of licensure to provide intercountry adoption services. The bill would prohibit an adoption facilitator from offering, providing, or facilitating any adoption service in connection with certain intercountry adoptions, unless the facilitator is registered, posts a bond, and is approved by a specified accrediting entity. The bill would impose additional requirements relating to the provision of adoption services in connection with intercountry adoptions.

(3) Existing law authorizes the Director of Social Services to enter into an agreement with any California Indian tribe or any out-of-state Indian tribe regarding the care and custody of Indian children and jurisdiction over Indian child custody proceedings.

Existing law requires the Attorney General to furnish state summary criminal history information, if needed in the course of their duties, to the courts. Existing law authorizes the Attorney General to direct any agency that maintains, or has received, criminal offender records to produce for inspection information concerning the storage and dissemination of criminal offender record information.

This bill would revise those provisions to specifically apply to a tribe or consortium of tribes that has entered into an agreement with the state, as described above. The bill would provide that any entity that fails to provide for inspection information concerning the storage and dissemination of criminal offender record information, when directed to do so by the Attorney General, shall lose access to criminal offender record information.

(4) Under existing law, mandated reports of suspected child abuse and neglect are confidential and may be disclosed only under specified circumstances to specified entities and persons.

This bill would authorize the disclosure of these reports to out-of-state agencies responsible for approving prospective foster or adoptive parents or relative caregivers for placement of a child, as specified.

(5) The Department of Justice is required to maintain an index of all reports of known or suspected child abuse and severe neglect. The department is required to make available to the State Department of Social Services, or to any county licensing agency that has contracted with the state for the performance of specified licensing and enforcement duties, information regarding a known or suspected child abuser maintained in the index concerning, among others, any person who is an applicant for licensure or any adult who resides or is employed in the home of an applicant for licensure.

This bill would require the department to also make that information available to a tribal court or tribal child welfare agency of a tribe or consortium of tribes that has entered into an agreement with the state, as described in (3) above. The bill would require the department to make available to an out-of-state agency, for purposes of approving a prospective foster or adoptive parent or relative caregiver for placement of a child, information regarding a known or suspected child abuser maintained in the index concerning the prospective foster or adoptive parent or relative caregiver, and any other adult living in the home of the prospective parent or relative caregiver. The bill would authorize the department to charge the out-of-state agency a fee for providing the information, to be deposited in the Department of Justice Child Abuse Fund for expenditure, upon appropriation by the Legislature, to offset the costs incurred to process requests for that information.

(6) Existing law requires the juvenile court to conduct various hearings regarding children who are, or who may become, dependent children. Existing law requires the probation officer, the social worker, or the clerk of the court to provide notice of those hearings to certain persons, including parents, guardians, the child, if he or she is 10 years of age or older, adult relatives under certain conditions, and attorneys for the parents or guardians, as specified.

This bill additionally would require the probation officer, social worker, or the clerk of the court to provide notice of certain of those hearings to the current caregiver for the child, including foster parents, relative caregivers, preadoptive parents, and nonrelative extended family members. By imposing new duties on probation officers and social workers, the bill would create a state-mandated local program. The bill would require the court to consider in-state and out-of-state placement options for the child at these hearings, as specified.

(7) Existing law requires the State Department of Social Services to check the Child Abuse Central Index prior to granting a license to, or otherwise approving, any individual to care for children. Existing law also requires a county social worker to cause a check of the Child Abuse Central Index to be conducted on all persons over 18 years of age living in a home whenever a child may be placed in the home of a relative or prospective guardian or other person who is not a licensed or certified foster parent.

This bill would also require, if any person in a household is 18 years of age or older and has lived in another state in the preceding 5 years, the department or its designated representative to check the other state's child abuse and neglect registry to the extent required by federal law prior to granting a license to, or otherwise approving, any foster family home, certified family home, or person for whom an adoption home study is conducted or who has filed to adopt. The bill would require the licensing agency or licensed adoption agency to check another state's child abuse and neglect registry if any prospective foster or adoptive parent, or any person over 18 years of age residing in the household, has lived in the other state in the preceding 5 years. The bill would require the department, in consultation with the County Welfare Directors Association, to develop and promulgate the process and criteria to be used to review and consider other states' findings of child abuse or neglect.

(8) Existing law sets forth the goals of the state regarding the needs of children who are alleged to be abused or neglected, and requires the state to encourage the development of approaches to child protection that would achieve those goals, including providing support

to foster children and foster families. In carrying out these requirements, the State Department of Social Services is required to ensure that emergency response services, family maintenance services, family reunification services, and permanent placement services are coordinated with the implementation of specified program models.

This bill would require each county to provide the State Department of Social Services with a disaster response plan describing how county programs that receive federal assistance under the Social Security Act for child and family services would respond to a disaster. The bill would require the department to review its disaster plan, revise the plan to clarify the role and responsibilities of the state in the event of a disaster, and consult with counties to identify opportunities for collaboration in the event of a disaster.

This bill also would require the department, in consultation with the County Welfare Directors Association and other advocates, to develop a comprehensive plan to ensure that 90% of foster children are visited by their caseworkers on a monthly basis by October 1, 2011, and that the majority of the visits occur in the residence of the child. The plan would be required to include any data reporting requirements necessary to comply with specified provisions of federal law.

(9) Existing law requires social workers to prepare and update a case plan in connection with periodic status review hearings in the juvenile court, and specifies requirements for the development of the case plan.

This bill would require the case plan to consider in-state and out-of-state placement options if out-of-home services are used and the goal is reunification.

(10) The bill would make other related and conforming changes. By imposing various new duties on counties, the bill would impose a state-mandated local program.

(11) This bill would incorporate additional changes in Section 1522 of the Health and Safety Code proposed by SB 172 and SB 776, to be operative if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(12) This bill would incorporate additional changes in Section 11105 of the Penal Code enacted by AB 104 (Ch. 104, Stats. 2007) and proposed by AB 1048 and SB 340, to be operative only if this bill and one or more of the other bills are chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(13) This bill would incorporate additional changes in Section 11170 of the Penal Code enacted by AB 369 (Ch. 160, Stats. 2007), to be operative if AB 369 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(14) This bill would incorporate additional changes in Sections 361.5, 366.21, 366.22, and 366.26 of the Welfare and Institutions Code proposed by AB 298, to be operative if AB 298 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(15) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 584 (SB 233) Cox Public contracts: design-build contracting.

Existing law requires public entities to comply with certain procedures in soliciting and evaluating bids and awarding contracts for the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement. Existing law, until January 1, 2011, authorizes certain counties, with the approval of the board of supervisors, to enter into specified design-build contracts for construction projects, in accordance with specified provisions. Existing law defines a "project" as the construction of a building and the improvements directly related to the construction of a building. Existing

law includes findings and declarations for this provision stating the intent of the Legislature with regard to enabling the specified counties to use cost-effective options for modernizing public facilities.

This bill would change the definition of project to mean the construction of a building and improvements directly related to the construction of a building, and county wastewater treatment facilities. This bill would also change the findings and declarations for this provision to state the intent of the Legislature to enable the specified counties to use the design-build method for buildings and county sanitation wastewater treatment infrastructure. This bill would also remove a portion of the legislative findings and declarations.

This bill would incorporate additional changes to Section 20133 of the Public Contract Code, proposed by SB 416, to be operative only if SB 416 and this bill are both enacted, each bill amends Section 20133 of the Public Contract Code, and this bill is enacted after SB 416.

Ch. 585 (SB 416) Ashburn Design-build: counties.

Existing law requires public entities to comply with certain procedures in soliciting and evaluating bids and awarding contracts for the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement.

Existing law, until January 1, 2011, authorizes certain counties, with the approval of the board of supervisors, to enter into design-build contracts, as defined, in accordance with specified provisions.

This bill would authorize any county, with the approval of the board of supervisors, to enter into design-build contracts, as defined, in accordance with specified provisions.

This bill would require specified information to be verified under oath, thus imposing a state-mandated local program by expanding the scope of an existing crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would incorporate additional changes to Section 20133 of the Public Contract Code, proposed by SB 233, to be operative only if SB 233 and this bill are both enacted, each bill amends Section 20133 of the Public Contract Code, and this bill is enacted after SB 233.

Ch. 586 (AB 234) Eng Professions and vocations: family therapists and psychologists.

Existing law makes the Board of Behavioral Sciences responsible for licensing and regulating the practice of marriage and family therapy and makes a violation of these provisions a crime.

Existing law requires an applicant for the marriage and family therapist licensure examination to complete specified experience, with limits on the amount of experience that may be earned in certain areas of emphasis, including professional enrichment activities, and subject to various hourly limitations.

This bill would impose a 125-hour limitation on experience earned providing personal psychotherapy services via telemedicine, as defined, and would modify the definition of professional enrichment activities for these purposes.

Under existing law, trainees and interns may have no proprietary interest in their employer's business.

This bill would additionally provide that trainees and interns may not lease or rent space, pay for furnishings, equipment or supplies, or in any other way pay for the obligations of their employers. By revising this provision, this bill would expand the scope of an existing crime, thereby imposing a state-mandated local program.

Existing law provides that education gained outside of California applies toward the marriage and family therapist licensure requirements.

This bill would instead specify that education gained while residing outside of California applies toward the licensure requirements.

Existing law provides for the regulation and licensure of educational psychologists by the board. Existing law authorizes the board to issue a license as an educational psychologist if the applicant meets specified requirements. Existing law requires a licensee to complete 60 hours of continuing education in order to renew his or her license. Existing law exempts from the continuing education requirement a licensee who possesses a current pupil personnel services credential issued on or after July 1, 1994.

This bill would revise the educational and experience requirements that an applicant is required to meet in order to be licensed by the board as an educational psychologist. The bill would instead require a licensee to complete 36 hours of continuing education in order to renew his or her license. The bill would also remove the exemption from the continuing education requirement for a licensee who possesses a current pupil personnel service credential issued on or after July 1, 1994.

The bill would make other technical and conforming changes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 587 (SB 1049) Committee on Business, Professions and Economic Development Healing arts.

(1) Existing law, the Dental Practice Act, provides for the licensure and regulation of dentists by the Dental Board of California and dental auxiliaries by the Committee on Dental Auxiliaries.

Existing law, until January 1, 2009, requires the board to license as a registered dental assistant a person who files an application prior to September 1, 2007, and submits specified written evidence of either graduation from a specified educational program or specified work experience that is satisfactory to the board. Under existing law, on and after September 1, 2007, a person may apply for and be issued a license as a registered dental assistant by providing evidence of either completion of a specified educational program or specified work experience and the completion of 3 board-approved specialty registration courses.

This bill would instead extend the existing licensure requirements, until January 1, 2011, with respect to a person who files an application prior to September 1, 2009, and would delay the modified licensure requirements for registered dental assistants to September 1, 2009. The bill would make related changes to those provisions.

(2) Existing law provides for the licensure and regulation of physical therapists and physical therapist assistants by the Physical Therapy Board of California. Existing law authorizes the board to appoint a person exempt from civil service to serve as an executive officer. This provision will become inoperative on July 1, 2007, and will be repealed on January 1, 2008.

This bill would instead make that provision inoperative on July 1, 2013, and would repeal it on January 1, 2014.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 588 (SB 1048) Committee on Business, Professions and Economic Development Healing arts.

(1) Existing law provides for the regulation and licensure of clinical laboratories and clinical laboratory personnel, including laboratory directors.

This bill would prohibit a laboratory director from directing more than a specified number of laboratories.

(2) Existing law, the Dental Practice Act, establishes the Dental Board of California and provides for the licensure and regulation of the practice of dentistry. The act makes the willful

practice, attempt to practice, or advertisement to practice without appropriate authorization in circumstances causing harm, as specified, a misdemeanor offense. The act also provides for the licensure of various types of dental auxiliaries and for their licensure fees to be established by board resolution, and requires the board to adopt regulations for the approval and recognition of specified dental education courses. The act also provides for the establishment by board resolution of fees for the review of radiation courses and specialty registration courses. The act defines the functions certain dental auxiliaries are authorized to perform and the requirements for such authorization, and, on and after January 1, 2008, revises the criteria for licensure and the functions certain dental auxiliaries are authorized to perform. Under the act, commencing on that date, the board is authorized to issue dental auxiliary licenses for a registered orthodontic, surgery, and restorative assistant, and a dentist is authorized to train and educate employees in those licensure categories pursuant to specified procedures. The act requires the board, commencing January 1, 2008, to adopt regulations governing the procedures that dental auxiliaries are authorized to perform.

This bill would delay from January 1, 2008, to January 1, 2010, the operation of provisions revising the duties and licensure criteria for certain dental auxiliaries and requiring the board to adopt regulations governing the procedures dental auxiliaries are authorized to perform. The bill would similarly delay the board's licensure of the additional dental auxiliary categories and would revise the procedures applicable to a dentist training his or her employees in those categories. The bill would revise the board's requirement to adopt regulations for the approval and recognition of dental education courses, and would revise the licensure and examination fee provisions for dental auxiliaries and apply the fee provisions applicable to review of radiation courses or specialty registration courses to the review of any course approval application. The bill would revise educational requirements for a registered dental assistant with relation to the performance of specified registered surgery assistant duties and monitoring of patients during the preoperative, intraoperative, and postoperative phases. The bill would make other related changes to the dental auxiliary provisions of the Dental Practice Act. The bill would also increase the punishment for unauthorized practice under the Dental Practice Act in circumstances causing harm, as specified, by making it a felony offense. The bill would authorize the board to require a licensee to pay the costs of monitoring probationary terms or conditions imposed on his or her license and would prohibit the board from renewing or reinstating a license if those costs are unpaid.

(3) Existing law, the Medical Practice Act, provides for the licensure and regulation of physicians and surgeons by the Medical Board of California (the medical board) and for the licensure and regulation of podiatrists by the California Board of Podiatric Medicine (the podiatric board), within the jurisdiction of the medical board. Existing law creates the Health Quality Enforcement Section within the Department of Justice with the primary responsibility of prosecuting proceedings against licensees and applicants within the jurisdiction of the medical board and various other boards. Under existing law, a panel of administrative law judges, the Medical Quality Hearing Panel within the Office of Administrative Hearings, conducts disciplinary proceedings against licensees of the medical board and of boards under its jurisdiction. Existing law requires the podiatric board and the Division of Medical Quality of the medical board to issue an order of nonadoption of a proposed decision by the Medical Quality Hearing Panel within 90 days of receipt of the decision. Existing law requires that all complaints or relevant information concerning licensees that are within the jurisdiction of the medical board or the Board of Psychology be made available to the Health Quality Enforcement Section and requires the Division of Medical Quality of the medical board to report annually specified information to the Legislature relating to its operations and to the licensees of the medical board.

This bill would specify that an applicant remains eligible for a physician and surgeon's certificate issued by the medical board after having obtained a passing score on the licensure examination in more than 4 attempts. The bill would authorize the podiatric board to employ,

within the limits of the funds received by the podiatric board and subject to specified limitations, all personnel necessary to carry out the licensing and regulatory provisions applicable to podiatrists. The bill also would clarify that the provisions concerning the responsibilities of the Health Quality Enforcement Section within the Department of Justice apply to complaints and proceedings concerning licensees of the podiatric board. The bill would extend to 100 days the time period within which the podiatric board and the Division of Medical Quality are required to issue an order of nonadoption of a proposed decision by the Medical Quality Hearing Panel and would revise the information the division is required to include in its annual report to the Legislature.

(4) Existing law, the Occupational Therapy Act, establishes the California Board of Occupational Therapy and makes it responsible for issuing an occupational therapist's license and an occupational therapy assistant certification. The act requires that licensure and certification examinations be given at least twice each year at a place determined by the board and that the board provide notice of the examinations.

This bill would delete these particular provisions relating to licensure and certification examinations and would specify that the information on the board's Internet Web site is adequate for licensure verification purposes.

(5) Existing law, the Nursing Practice Act, provides for the registration and regulation of nurses by the Board of Registered Nursing in the Department of Consumer Affairs. Existing law requires an employer of, or agent for, a registered nurse to ascertain that the nurse is authorized to practice as a registered professional nurse. A violation of the Nursing Practice Act is a crime.

This bill would require an employer of, or agent for, a registered nurse required to hold a board-issued certification, as specified, or a temporary licensee or interim permittee to practice nursing to ascertain that the person is currently authorized to practice pursuant to the board-issued certification or as a temporary licensee or interim permittee. Because this bill would impose new requirements under the Nursing Practice Act, the violation of which would be a crime, it would impose a state-mandated local program.

(6) Under existing law, the Optometry Practice Act, the State Board of Optometry licenses and regulates persons engaged in the practice of optometry and makes a violation of the act a crime. Existing law requires an applicant for licensure to meet certain requirements, including signing a release allowing disclosure of information from the National Practitioner Data Bank.

This bill would instead require an applicant for licensure to sign a release allowing disclosure of information from the Healthcare Integrity and Protection Data Bank.

(7) Existing law, the Physician Assistant Practice Act, provides for the licensing and regulation of physician assistants by the Physician Assistant Committee of the Medical Board of California. Existing law provides for the submission of applications for reinstatement, restoration, or modification of probation with respect to the revocation of a license or approval of a physician assistant after a specified period of time.

This bill would delete those provisions and would instead authorize a person whose license or approval has been revoked or suspended or placed on probation to petition the committee to reinstate the license or approval or modify the penalty after specified minimum periods of time, would require the petitioner to submit certain information, and would provide for a hearing by the committee, as specified. The bill would authorize the committee to require a licensee to pay the costs of monitoring probationary conditions imposed on his or her license.

(8) Existing law provides for the licensure and regulation of naturopathic doctors. Existing law requires a licensee to pass a recertifying examination before the 10th anniversary of his or her initial licensure, and requires the bureau to establish standards for recertification.

This bill would delete the requirements that a licensee pass a recertifying examination.

(9) Existing law, the Pharmacy Law, provides for the licensure and regulation of pharmacists and wholesalers of dangerous drugs or dangerous devices by the Pharmacy Board and generally makes a violation of its provisions a crime.

Existing law authorizes a prescriber to dispense a controlled substance to an emergency room patient, if certain requirements are met, including the hospital pharmacy reporting dispensing information to the Department of Justice, as specified, if the drug is a schedule II or schedule III controlled substance.

This bill would also require the hospital to report dispensing information for any schedule IV controlled substance.

Existing law requires a board inspector to affix a tag or other marking to an adulterated or counterfeit dangerous drug or device, as specified, until such time as the drug or device is found not to be adulterated or counterfeit.

This bill would extend these provisions to dangerous drugs and devices that are misbranded, as defined.

Existing law prohibits a person from acting as a wholesaler or nonresident wholesaler of dangerous drugs or devices without a license, but exempts certain drug manufacturers that are otherwise licensed, as specified. Existing law authorizes the board to issue a temporary wholesaler license or temporary nonresident wholesaler license, as the board determines to be in the public interest, and requires that the fee for such a license be fixed by the board at an amount not to exceed the annual fee for renewal of a wholesaler license or nonresident wholesaler license, respectively. Existing law, until January 1, 2011, generally requires an applicant for issuance or renewal of a wholesaler or nonresident wholesaler license to submit a surety bond of \$100,000 or an equivalent means of security to secure payment of any administrative fines and costs imposed by the board.

This bill would instead apply the exemption from licensing to certain drug manufacturer premises that are otherwise licensed, as specified. The bill would authorize the board to set the license fee for a temporary wholesaler or temporary nonresident wholesaler license at either \$550 or an amount not to exceed the annual fee for renewal of a license to compound injectable sterile drug products. The bill would authorize such a temporary license to be issued for a period not to exceed 180 days, subject to terms and conditions the board deems necessary, when needed to protect public safety. The bill would provide for termination of a temporary license that was issued by mistake or where a permanent license has been denied, as specified. The bill would extend the provisions requiring an applicant for issuance or renewal of a wholesaler or a nonresident wholesaler license to submit a surety bond or equivalent means of security until January 1, 2015. Because the bill may increase the amount of fees deposited into the Pharmacy Board Contingent Fund, a continuously appropriated fund, the bill would make an appropriation.

Existing law requires the licensure of intern pharmacists, and sets forth specified requirements that an intern pharmacist must meet and conditions under which an intern pharmacist license may be issued.

This bill would allow a person who has not completed the experience requirements necessary to be eligible for the licensure examination to have his or her intern license extended for up to 2 years at the discretion of the board in certain circumstances.

Under existing law, the board is authorized to issue citations containing fines and orders of abatement for a violation of the Pharmacy Law or regulations adopted pursuant to that law, and the board's executive officer is authorized to issue a letter of admonishment for a violation of those provisions. Existing law authorizes a county to establish, by ordinance, a repository and distribution program for purposes of distributing surplus unused medications, as defined, to persons in need of financial assistance to ensure access to necessary pharmaceutical therapies, and authorizes a drug manufacturer or a licensed health facility, pharmacy wholesaler, or pharmacy to donate medications pursuant to the provisions.

This bill would allow a citation or letter of admonishment to be issued for a violation of the provisions related to the repository and distribution programs.

Because this bill would create new requirements under the Pharmacy Law, the violation of which would be a crime, it would impose a state-mandated local program.

The bill would make other technical and clarifying amendments to the Pharmacy Law.

(10) Existing law establishes the Board of Behavioral Sciences and provides for the licensure of marriage and family therapists and registration of marriage and family therapist interns and for the regulation of these licensees and registrants. Under existing law, a licensee is required to complete continuing education as a prerequisite for licensure renewal and may place his or her license on inactive status. Existing law allows a licensee to renew his or her expired license within 5 years of its expiration date. Existing law assesses specified fees for licensure and registration with the board that are deposited into the Behavioral Sciences Fund. Under existing law, an employee of a governmental entity, educational facility, or nonprofit charitable institution is exempt from the provisions otherwise pertaining to marriage and family therapists if his or her practice is performed under the employer's supervision.

This bill would additionally exempt from those provisions the work performed by a volunteer in those particular settings. The bill would revise the licensure requirements for an applicant possessing a license issued by another state in an equivalent field and would shorten the time within which an expired license may be renewed to 3 years after its expiration date. The bill would recast the provisions relating to inactive licenses and would delete certain obsolete continuing education requirements. The bill would delete other obsolete provisions relating to intern registration and would recast the renewal requirements for an intern registration. The bill would designate additional acts as unprofessional conduct for disciplinary purposes by the board and would recast its fee provisions.

(11) Existing law, the Educational Psychologist Practice Act, provides for the licensure and regulation of educational psychologists by the Board of Behavioral Sciences. Under the act, a licensee is required to complete continuing education as a prerequisite for licensure renewal and may renew his or her license within 5 years of its expiration date.

This bill would shorten the time within which an expired license may be renewed to 3 years after its expiration date and would designate additional acts as unprofessional conduct for disciplinary proceedings by the board.

(12) Existing law, the Clinical Social Workers Practice Act, provides for the licensure and regulation of clinical social workers by the Board of Behavioral Sciences and makes a violation of the act's provisions a crime. The act requires a person to register with the board as an associate clinical social worker prior to obtaining experience for licensure and allows the extension of this registration after it has been renewed 5 times. Under the act, fees assessed for registration and licensure are deposited into the Behavioral Sciences Fund. The act requires its licensees to complete continuing education as a prerequisite for licensure renewal and allows a licensee to place his or her license on inactive status. Under the act, a licensee may renew his or her expired license within 5 years of its expiration date. The act exempts from its provisions the practice of an employee in specified settings and the use of hypnotic techniques in designated settings.

This bill would revise these provisions to describe the exempt practice settings as a governmental entity, a school, college, or university, and a nonprofit charitable institution and would additionally exempt from the act's provisions the work performed by a volunteer in those settings. The bill would delete the provisions allowing extension of the associate clinical worker registration and would shorten the time within which an expired license may be renewed to 3 years after its expiration date. The bill would recast the licensure fee provisions and those relating to inactive licenses. The bill would delete certain obsolete continuing education requirements. The bill would designate additional acts as unprofessional conduct for disciplinary purposes by the board and would impose certain requirements on the use of a fictitious name by a licensee in his or her practice. Because the bill would specify additional requirements under the act, the violation of which would be a crime, it would impose a state-mandated local program.

(13) This bill would incorporate additional changes in Sections 1725, 1750.4, 1753, and 1770 of the Business and Professions Code, proposed by SB 534, to be operative only if SB 534 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

This bill would incorporate additional changes in Section 1751 of the Business and Professions Code, proposed by SB 534 and SB 963, to be operative only if either or both of those bills and this bill are chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

This bill would incorporate additional changes to Section 2335 of the Business and Professions Code, proposed by AB 253, to be operative only if AB 253 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

This bill would incorporate additional changes to Section 4200.1 of the Business and Professions Code, proposed by SB 963, to be operative only if SB 963 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

This bill would incorporate additional changes in Sections 12529 and 12529.5 of the Government Code, proposed by SB 797 to be operative only if SB 797 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(14) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 589 (AB 98) Niello CalWORKs eligibility: work activities.

Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states. Existing law provides for the CalWORKs program for the allocation of federal funds received through the TANF block grant program, under which each county provides cash assistance and other benefits to qualified low-income families.

Existing law requires certain participants in the CalWORKs program to participate in certain welfare-to-work activities, including, but not limited to, subsidized employment in either the public or private sector.

This bill would require the department to pay 50% of the wage subsidy to counties that include these activities within their welfare-to-work activities, subject to prescribed limitations. The bill would also require the department, no later than January 10, 2011, to report to the Legislature on the outcomes of implementing the bill, as prescribed.

Ch. 590 (AB 105) Lieu Tanning facilities.

Existing law, the Filante Tanning Facility Act of 1988, the violation of which is a crime, provides for regulation of tanning facilities by the Department of Consumer Affairs. The act requires a tanning facility to provide a written warning statement to customers and to post certain warning signs in areas where a tanning device, as defined, is used. The act also prohibits a tanning facility from claiming or distributing promotional materials that claim that using a tanning device is safe or free from risk and requires a tanning facility to, among other things, use a timer, as specified.

This bill would instead apply those provisions to an ultraviolet tanning device, as specified, and would define the term "ultraviolet tanning device." The bill would require that the written warning statement include specified additional warnings and be given to a customer before the customer uses an ultraviolet tanning device. The bill would require the warning signs to be posted conspicuously and in an area where an ultraviolet tanning device is used that is readily visible to a person using an ultraviolet tanning device. The bill would also authorize a tanning facility to include in that warning sign a statement regarding spray on tans and other sunless tanning products, as specified. The bill would prohibit a tanning facility from claiming that indoor tanning has any known health benefits. The bill would

require a tanning facility timer to be remotely located so that customers could not set their own exposure time.

The Filante Tanning Facility Act of 1988 also prohibits a person under 14 years of age from using a tanning device and requires a person between 14 and 18 years of age to provide the tanning facility with a specified statement signed by his or her parent or legal guardian before using a tanning device.

This bill would prohibit a person under 14 years of age from using an ultraviolet tanning device. The bill would also prohibit a tanning facility from allowing a person between 14 and 18 years of age to use an ultraviolet tanning device unless that person's parent or legal guardian provides consent by appearing in person, as specified, and signing a specified form in the presence of the facility owner or employee. The bill would make that consent valid for 12 months and authorize both its withdrawal and annual renewal, as specified. The bill would also require that proof of age be provided, as specified.

By expanding the scope of a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 591 (AB 220) Bass Firefighters.

The Public Safety Officers Procedural Bill of Rights Act prescribes various rights of public safety officers, as defined, with regard to representation, discrimination, discipline, and interrogation, as specified.

This bill would enact the Firefighters Procedural Bill of Rights Act to prescribe various rights of firefighters, defined as any firefighter employed by a public agency, including a firefighter who is a paramedic or emergency medical technician, with specified exceptions. The bill would prescribe rights related to, among others, political activity, interrogation, punitive action, and administrative appeals, with specified requirements imposed upon the employing agency and the imposition of a civil penalty for a violation thereof. The bill would also specify that reimbursement of funds by the state shall be limited to the actual costs associated with the act, as specified.

By adding to the duties of local agencies to comply with that act, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 592 (AB 233) Jones Diesel vehicles and engines: Healthy Heart and Lung Act.

(1) Existing law gives the State Air Resources Board the responsibility for control of emissions from motor vehicles and requires the state board to coordinate efforts of all levels of government as they affect air quality. The state board is required to identify toxic air contaminants and to establish airborne toxic control measures for toxic air contaminants. The state board has adopted an airborne toxic control measure to limit diesel-fueled commercial motor vehicle idling. Violations of this regulation are subject to a minimum civil penalty of \$100.

This bill would increase this minimum civil penalty to \$300. The bill would also require the state board, every 3 years, to review enforcement of specified diesel emission control regulations and develop a strategic plan for consistent, comprehensive, and fair enforcement

of these regulations. The bill would require the state board to submit this plan to the relevant legislative policy and fiscal committees by January 1, 2009, and every 3 years thereafter.

(2) Existing law requires a commercial motor vehicle that operates with a declared gross or combined gross vehicle weight that exceeds 10,000 pounds to register with the Department of Motor Vehicles, and subjects these vehicles to special weight fees.

This bill would require the department to, for any diesel commercial vehicle subject to these provisions, refuse registration, or renewal or transfer of registration, if the owner or an operator of the vehicle has been cited for a violation pertaining to the vehicle of specified air pollution laws until the violation has been cleared, as determined by the State Air Resources Board.

Ch. 593 (AB 236) Lieu Public resources: state and local motor vehicle fleets.

(1) Existing law requires the Department of General Services, in consultation with the State Energy Resources Conservation and Development Commission (Energy Commission) and the State Air Resources Board (board), to develop and adopt specifications and standards for all passenger cars and light-duty trucks that are purchased or leased on behalf of, or by, state offices, agencies, and departments. These specifications and standards are required to include specified elements. The Director of General Services is required to compile and maintain specified information on the nature of vehicles that are owned or leased by the state.

This bill would require the Department of General Services, in conjunction with the board and the Energy Commission, by December 31, 2008, to amend and revise existing purchasing methodology to rank environmental and energy benefits, and costs of motor vehicles for potential procurement by state and local governments and to develop vehicle ranking containing specified criteria. By July 1, 2009, available vehicles in individual classes would be ranked based on the purchasing methodology revised by the Energy Commission. The Department of General Services would be required to procure, for use in the state fleet, vehicles that meet federal requirements and have been ranked best in their class as determined by the revised purchasing methodology, except as specified. The Department of General Services would be required to take specified actions regarding vehicle procurement and alternative fuel and related infrastructure. By July 1, 2009, a vehicle capable of using alternative fuels would be required to be operated on those fuels unless alternative fuels are not readily available or other factors exist that may prevent the use of those fuels.

The Director of General Services would be required to compile and maintain the number of alternative fuel vehicles in the vehicle fleet that use the respective alternative fuel in those vehicles and the number that use petroleum and to report to the Legislature and the Governor, beginning on July 1, 2009, and every 3 years thereafter, the information on the nature of vehicles that are owned or leased by the state. On December 31, 2009, and annually thereafter, the Director of General Services would, additionally, be required to report to the Legislature and the Governor on the total annual vehicle miles traveled by state vehicles.

The Secretary of State and Consumer Services, in consultation with the Department of General Services and other appropriate agencies, would be required, on or before July 1, 2009, to develop and implement, and submit to the Legislature and the Governor, a plan to reduce or displace the state fleet's consumption of petroleum products. Beginning on April 1, 2010, and annually thereafter, the Department of General Services would be required to provide the Department of Finance and the appropriate committees of the Legislature with a progress report on meeting the goals in that plan.

(2) Existing law authorizes a city, county, city and county, and special district, including a school district and a community college district, when awarding a vehicle procurement contract, to evaluate and score fuel economy, in addition to other life-cycle factors, in choosing passenger cars or light-duty trucks, or both, with the lowest life-cycle cost; and to require that 75% of the passenger cars or light-duty trucks, or both, to be acquired be energy-efficient vehicles.

This bill would make technical, nonsubstantive changes to those provisions.

Ch. 594 (AB 241) Price Horse racing: satellite wagering.

Existing law generally regulates horse racing, including satellite wagering on horse races. Existing law authorizes the California Horse Racing Board to authorize certain fairs and racing associations to operate satellite wagering facilities.

This bill would authorize an additional 15 minisatellite wagering sites, as defined, in each zone under certain conditions. The bill would apply a specified provision requiring, as a condition of operating a minisatellite facility, the entity operating the facility must enter into a written contractual agreement with a bona fide labor organization, as defined. The bill would also require the board to adopt emergency regulations to implement the new facilities by April 1, 2008. The bill would authorize satellite wagering to continue to be conducted at certain racetracks that have closed, under certain conditions.

Existing law generally regulates horse racing and defines “inclosure” for purposes of wagering as all areas of the racing association’s or fair’s grounds and locations, as designated by the racing association or fair licensed to conduct a live racing meeting and approved by the board, excluding the public parking lot.

This bill would delete the parking lot exclusion from that definition.

Existing law authorizes any fair in San Joaquin, San Bernardino, Humboldt, or Fresno Counties, subject to certain conditions, to operate a satellite wagering facility, as specified.

This bill would remove the specified counties listed in that provision, so as to authorize any county to operate a satellite wagering facility under those conditions.

By expanding wagering on horse racing by authorizing additional satellite wagering facilities, this bill would increase the amount of continuously appropriated license fees, thereby making an appropriation.

Ch. 595 (AB 338) Coto Workers’ compensation: temporary disability payments.

Existing workers’ compensation law generally requires employers to secure the payment of workers’ compensation, including medical treatment, for injuries incurred by their employees that arise out of, or in the course of, employment. Existing law prohibits aggregate disability payments for a single injury occurring on or after April 19, 2004, causing temporary disability from extending for more than 104 compensable weeks within a period of 2 years from the date of commencement of temporary disability payment, except if an employee suffers from certain injuries or conditions.

This bill would, for a single injury occurring on or after January 1, 2008, increase to 5 years from the date of injury, the period of time during which an employee can receive aggregate disability payments.

Ch. 596 (AB 382) Committee on Housing and Community Development Housing omnibus act.

(1) Existing law authorizes a redevelopment agency, a housing authority, a city, or a county to issue bonds to provide financing for the acquisition, construction, rehabilitation, refinancing, or development of units reserved for occupancy by low- or very low income households for a specified period. When the period for reservation expires or terminates, existing law requires the units to remain available to eligible households occupying the units until one of specified alternatives occurs. These provisions also apply to units financed with the proceeds of bonds that have been refunded, as specified.

This bill would make a technical, clarifying change to these provisions.

(2) Existing law regulates manufactured housing communities.

The Mobilehome Parks Act requires the Department of Housing and Community Development, or a city, county, or city and county that assumes responsibility for the enforcement of the act, to enter and inspect mobilehome parks every 7 years to ensure

enforcement of the act and implementing regulations. A mobilehome park may include manufactured homes.

This bill would delete provisions in existing law governing manufactured housing communities and, instead, would define “manufactured housing community” for the purposes of the Mobilehome Parks Act.

(3) Existing law authorizes establishment of a renewal area by the legislative body of a community for the purpose of providing low-income, middle-income, and normal-market housing, including single- or multiple family dwellings, and sufficient commercial establishments to serve persons living within a reasonable distance of the renewal area, and for the purpose of rebuilding or rehabilitating a renewal area to maintain its neighborhood character.

This bill would repeal these provisions.

(4) Existing law, the Limited Dividend Housing Corporations Law, authorizes the formation of corporations for the purpose of providing housing for families of low income or reconstructing slum areas, subject to approval by the department.

This bill would repeal the Limited Dividend Housing Corporations Law.

(5) Existing law requires a redevelopment agency to establish a separate Low and Moderate Income Housing Fund and deposit in that fund certain tax increment funds derived from redevelopment. The moneys in the fund are required to be used to increase, improve, and preserve the supply of low- and moderate-income housing within the territorial jurisdiction of the agency. The agency is required to require all new or substantially rehabilitated housing units developed or otherwise assisted with moneys from the fund, except as specified, to remain available at affordable housing cost to, and occupied by, persons and families of low or moderate income and very low income and extremely low income households for the longest feasible time, but for not less than 55 years for rental units, and not less than 45 years for owner-occupied units.

This bill would require the agency to require all new or substantially rehabilitated mutual self-help housing units, as defined, developed or otherwise assisted with moneys from the fund, except as specified, to remain available at affordable housing cost to, and occupied by, persons and families of low or moderate income and very low income and extremely low income households for the longest feasible time, but for not less than 15 years. The bill would authorize the sale of these housing units prior to the expiration of the 15-year period pursuant to a program that meets certain conditions.

(6) Existing law authorizes the Redevelopment Agency of the County of Alameda, for only the Mt. Eden Sub-Area of the Eden Redevelopment Project Area, to count, towards satisfaction of specified low-income housing production requirements in existing law, the construction of units outside the project area but within the City of Hayward if all of certain conditions are met. This provision is scheduled to be repealed on January 1, 2012.

This bill would delete the specified repeal date and, instead, would provide that this provision does not apply to a housing unit for which construction commences on or after January 1, 2012.

(7) The Housing Authorities Law authorizes the establishment of a functioning housing authority within a city or county by enactment of a resolution by the city or county declaring that there is need of a functioning housing authority in the city or county. A housing authority may contract with the Department of Housing and Community Development, or any other authority, for the furnishing by the department or authority of any necessary staff services associated with or required by an authority and which could be performed by the staff of an authority.

This bill, additionally, would authorize a housing authority to contract with any city or county for the furnishing of those services.

(8) Existing law authorizes a city or county to enter into an agreement with another city or county to form an area housing council for the purpose of developing and implementing

an area housing plan covering the cities and counties comprising the membership of the council.

This bill would repeal this authority.

(9) Existing law establishes a low-income housing tax credit program, administered by the California Tax Credit Allocation committee, which provides procedures and requirements for the allocation of state tax credit amounts among low-income housing projects based on federal law.

Existing law defines “rural area” for the purposes of the program and for related provisions of existing law. Existing law requires the Department of Housing and Community Development, upon the request of the committee, to prepare a list of areas located in nonmetropolitan areas, including a list of census tracts for unincorporated areas.

Existing law also establishes a farmworker housing assistance program and prescribes requirements for claiming tax credits under the program, including a requirement that expenditures upon which the amount of the credit is based shall be eligible costs, as defined, and a limitation on the amount of development fees that may be included as eligible costs.

This bill would delete the requirement that the department prepare the lists specified above, and would make various technical, nonsubstantive changes to the definition of “rural area” for purposes of the above provisions.

The bill would revise the definition of “eligible costs” for purposes of the farmworker housing assistance program. It would also require the amount of development fees included as eligible costs under the farmworker housing assistance program to be consistent with the amount of development fees allowed for eligible costs under the low-income housing tax credit program.

(10) Existing law establishes the Local Housing Trust Fund Matching Grant Program for the purpose of supporting local housing trust funds dedicated to the creation or preservation of affordable housing. Existing law authorizes the department to make matching grants available to cities and counties, or a city and county, and existing charitable nonprofit organizations that have created, funded, and operated housing trust funds prior to January 1, 2003. Existing law also authorizes the department to make matching grants available to new local housing trusts created after January 1, 2003.

Existing law requires applicants for the grant program to be required to continue funding the local housing trust fund from specified local sources, and continue the trust in operation, for a period of no less than 5 years from the date of award. If the funding is not continued for a 5-year period, then the amount of the department’s grant to the local housing trust fund, to the extent that the trust fund has unencumbered funds available, is required to be immediately repaid, and any payments from any projects funded by the local housing trust fund that would have been paid to the local housing trust fund are required to be paid instead to the department and used for the grant program.

This bill, instead, would require that payments from any projects funded by the local housing trust fund that would have been paid to the local housing trust fund be paid instead to the department and used for the Multifamily Housing Program, or its successor.

(11) Existing law creates the Building Equity and Growth in Neighborhoods (BEGIN) Program and the BEGIN Fund. Moneys in the fund are made available, upon appropriation, to the department for grants to cities, counties, and cities and counties for assistance in the form of 2nd mortgage loans for downpayment purposes to qualifying new home buyers in those cities, counties, and cities and counties that have taken prescribed actions to remove barriers to affordable housing.

This bill would require the maximum amount of downpayment assistance under the BEGIN Program to be set in the current Notice of Funding Availability (NOFA), and would delete the loan maximum in existing law of \$30,000, but would retain the loan maximum in existing law of 20% of the sale price of the residence.

(12) This bill would also delete obsolete provisions, correct erroneous cross-references, and make various other, technical changes to related housing provisions.

(13) This bill would incorporate additional changes in Section 33334.3 of the Health and Safety Code, proposed by AB 987, to be operative only if AB 987 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

(14) This bill would incorporate additional changes in Section 33413 of the Health and Safety Code, proposed by AB 987, to be operative only if AB 987 and this bill are both chaptered and become effective on or before January 1, 2008, and this bill is chaptered last.

Ch. 597 (AB 422) Hancock Hazardous substances: water quality.

(1) Existing law, the Carpenter-Presley-Tanner Hazardous Substance Account Act (California Superfund Act) imposes liability for hazardous substance removal or remedial actions and requires the Department of Toxic Substances Control to adopt, by regulation, criteria for the selection and for the priority ranking of hazardous substance release sites for removal or remedial action under the act. The California Superfund Act excludes releases of petroleum from that act. The California Superfund Act requires any response action taken or approved under that act to meet certain requirements with regard to, among other things, the preparation of the health or ecological risk assessment. The act requires the exposure assessment of that risk assessment to meet specified requirements, including the development of reasonable maximum estimates of exposure for both current land use conditions and reasonably foreseeable future land use conditions at the site.

This bill would require that the exposure assessment of any health or ecological risk assessment prepared in conjunction with a response action taken or approved pursuant to the California Superfund Act include the development of reasonable maximum estimates of exposure to volatile organic compounds that may enter structures that are on the site or that are proposed to be constructed on the site and may cause exposure due to accumulation of those volatile organic compounds in the indoor air of those structures.

(2) Existing law, the Porter-Cologne Water Quality Control Act (water quality control act), requires a person who discharges waste into the waters of the state in violation of waste discharge requirements or other order or prohibition issued by a regional board or the state water board, upon the order of that regional board or the state board, to clean up the waste or to abate the effects of the waste. The act subjects a person who violates a cleanup or abatement order to civil penalties.

This bill would authorize the state board or a regional board to require a person conducting cleanup, abatement, or other remedial action for a brownfield site, as defined, to assess the potential human health or ecological risks caused or created by the discharge using human health and environmental screening levels or a site-specific assessment of risks.

The bill would provide that this authority applies only to an order issued by the state board or a regional board on or after January 1, 2008, but the bill would allow the state board or a regional board to require a site-specific assessment of human health or ecological risks at a brownfield site that is subject to an order issued before January 1, 2008, pursuant to the water quality control act as it read on December 31, 2007. The bill would provide that if the state board or a regional board requires a site-specific assessment of human health or ecological risks at a brownfield site that is subject to an order issued before January 1, 2008, the state board or a regional board would be required to make a specified determination.

Ch. 598 (AB 532) Wolk State property: solar energy.

Existing law requires the Department of General Services, in consultation with the State Energy Resources Conservation and Development Commission, to ensure that solar energy equipment is installed, no later than January 1, 2007, on all state buildings and state parking facilities, where feasible.

This bill would require the department to ensure that solar energy equipment is installed no later than January 1, 2009, on these buildings and facilities, as well as state-owned swimming pools that are heated with fossil fuels or electricity, where feasible.

Existing law requires that solar energy equipment be installed, where feasible, as part of the construction of all state buildings and state parking facilities for which construction commences on or after January 1, 2003.

This bill would change this requirement to apply to construction commencing on or after January 1, 2008.

Existing law provides that it is feasible to install solar equipment if adequate space on or adjacent to a building is available, if the solar-energy equipment is cost-effective, and if funding is available.

This bill would specify that funding for purposes of determining if installation is feasible may be funding from the state or another source.

Ch. 599 (AB 607) Brownley Residential hotels: locking mail receptacles.

Existing law states the Legislature's intent for the state to play an important role in improving the quality of residential hotels as a housing resource for persons of very low and low income. Existing law also requires a lessor to maintain a building intended for the occupation of human beings in a tenantable condition, subject to certain exceptions.

This bill would, after July 1, 2008, require all residential hotels to provide each residential unit with a locking mail receptacle, acceptable for mail delivery by the United States Postal Service. This bill also authorizes, under certain circumstances, cities, counties, and cities and counties to make and enforce ordinances that provide greater protections and increased penalties for a residential hotel's failure to provide an adequate locking mail receptacle for each residential unit. This bill would, after July 1, 2008, make a failure to provide an adequate locking mail receptacle a basis for considering a residential unit untenable.

Ch. 600 (AB 609) Eng State building construction: energy conservation.

The State Building Construction Act of 1955 authorizes the State Public Works Board to acquire and to engage in the construction of, cogeneration equipment, alternative energy equipment, or conservation measures, and any combination thereof, and to enter into energy service contracts at any structure, building, facility, site, or work used, owned, or acquired by state agencies, subject to specified criteria. Equipment, conservation measures, or energy services contracts subject to these provisions are required to be anticipated to provide cost savings to the state in each year during the term of any revenue bonds, notes, or energy service contracts issued or entered into pursuant to the act or other specified provisions of law, except as otherwise authorized by the Legislature.

This bill would instead require the equipment, conservation measures, or energy service contracts to be anticipated to provide cost savings to the state during the useful life of the equipment or conservation measure.

Ch. 601 (AB 610) Price Small Business Expansion Fund.

The California Small Business Financial Development Corporation Law authorizes the formation of small business financial development corporations to grant loans or loan guarantees for the purpose of stimulating small business development and imposes certain duties with respect thereto on a director designated by the Secretary of Business, Transportation and Housing. The California Small Business Expansion Fund, which is created under that law and is continuously appropriated, provides funds to be used to pay for defaulted loan guarantees and administrative costs of these corporations. Existing law specifies that the amount of guarantee liability outstanding at any one time shall not exceed 4 times the amount of funds on deposit in the expansion fund plus any receivables due from funds loaned from the fund to another fund in state government, as specified. Existing law imposes a similar leverage ratio on the amount of guarantee liability outstanding with respect to a corporation's trust fund account. Existing law authorizes the director to authorize a corporation to exceed these specified leverage ratios pending annual reallocation of funds;

however, a corporation may not exceed an outstanding guarantee liability of more than 5 times its funds on deposit.

This bill would instead, until January 1, 2013, limit the amount of guarantee liability outstanding with respect to these funds to 5 times the amount of funds on deposit in the expansion fund or in a corporation's trust fund account and would delete the provision authorizing the director to allow a corporation to exceed that leverage ratio.

Ch. 602 (AB 629) Brownley Sex education programs: requirements.

Existing law establishes requirements for the provision of sex education.

Existing law, the California Comprehensive Sexual Health and HIV/AIDS Prevention Education Act, authorizes school districts to provide comprehensive sexual health education, as defined, in any kindergarten to grade 12, inclusive, and ensures that all pupils in grades 7 to 12, inclusive, receive HIV/AIDS prevention education, as defined.

Existing law enumerates various requirements for comprehensive sexual health education and HIV/AIDS prevention education. Existing law requires a school district to notify the parent or guardian of a pupil about instruction in comprehensive sexual health education and HIV/AIDS prevention and empowers a parent or guardian to excuse his or her pupil from all or part of that instruction.

This bill would enact the Sexual Health Education Accountability Act, which would require, with certain exceptions, any program that provides education to prevent adolescent or unintended pregnancy or to prevent sexually transmitted infections and that is conducted, operated, or administered by the state or any state agency, or is funded directly or indirectly by the state, or receives any financial assistance from state funds or funds administered by the state to meet specified requirements.

Ch. 603 (AB 641) Torrico Developer fees.

Existing law prohibits a local agency that imposes any fees or charges on a residential development for the construction of public improvements or facilities from requiring the payment of those fees or charges until the date of the final inspection, or the date the certificate of occupancy is issued, whichever occurs first, except that the agency is authorized to require the payment of those fees and charges at an earlier time if (1) the local agency determines that the fees or charges will be collected for public improvements or facilities for which an account has been established and funds appropriated, and for which the local agency has adopted a proposed construction schedule or plan prior to final inspection or issuance of the certificate of occupancy, or (2) the fees or charges are to reimburse the local agency for expenditures previously made. If the fee or charge is not fully paid prior to issuance of a building permit, existing law authorizes the local agency issuing the building permit to require the property owner, as a condition of issuance of the building permit, to execute a contract to pay the fee or charge within the specified time.

This bill would provide that the specified exemption to the existing prohibition does not apply, except for developer fees levied for school construction purposes, to units reserved for occupancy by lower income households included in a residential development proposed by a nonprofit housing developer in which at least 49% of the total units are reserved for occupancy by lower income households, as defined, at an affordable rent, as defined. The bill would provide that fees and charges exempted under the bill from payment prior to the date of final inspection or issuance of the certificate of occupancy shall become immediately due and payable when the residential development no longer meets the lower income household occupancy requirements. The bill would authorize a city, county, or city and county to require the posting of a performance bond or a letter of credit from a federally insured, recognized depository institution, in addition to the contract required under existing law, to guarantee payment of any fees or charges that are subject to the exemption provided under the bill.

Ch. 604 (AB 646) Wolk Public resources: Cache Creek Resource Management Plan.

(1) The Surface Mining and Reclamation Act of 1975, governs surface mining operations and reclamation of mined lands, and provides, among other things, for the submission of reclamation plans to, and issuance of permits by, lead agencies to persons engaging in surface mining operations. Until December 31, 2008, a site specific plan in conjunction and consistent with the Cache Creek Resource Management Plan is to be considered a functional equivalent of a reclamation plan for purposes of the act. The board of supervisors of the county in which the Cache Creek Resource Management Plan is to be implemented are required, until December 31, 2008, to prepare and forward to the Director of Conservation annually a report containing specified information relating to mining operations.

This bill would extend these provisions until December 31, 2012. By extending the duties of the board of supervisors of the county in which the Cache Creek Resource Management Plan is to be implemented, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 605 (AB 649) Ma Horse racing: jockeys.
