# EFFECTIVE DATES

### Regular Session

The 2007–08 Regular Session convened on January 7, 2008, and adjourned *sine die* on November 30, 2008. Statutes enacted in 2008, other than those taking immediate effect, will become effective January 1, 2009.

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

An initiative statute or referendum or a constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

*Statutes Which Take Effect Immediately.* An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes *effective* on the date it is filed with the Secretary of State.

*Operative Date.* The provisions of a statute normally become operative on the date it takes effect. However, any statute may, by its own terms, delay the *operation* of its provisions until the happening of some contingency or until a specified time. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

### Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed *operative* date. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 2007–08 First Extraordinary Session reconvened on January 7, 2008, and adjourned *sine die* on September 19, 2008. The 91st day after adjournment is December 19, 2008.

The 2007–08 Second Extraordinary Session reconvened on January 7, 2008, and adjourned *sine die* on November 30, 2008. The 91st day after adjournment is March 1, 2009.

The 2007–08 Third Extraordinary Session convened on January 14, 2008, and adjourned *sine die* on September 16, 2008. The 91st day after adjournment is December 16, 2008.

The 2007–08 Fourth Extraordinary Session convened on November 6, 2008, and adjourned *sine die* on November 30, 2008. No statutes were enacted at the 2007–08 Fourth Extraordinary Session.

# CONSTITUTION OF THE STATE OF CALIFORNIA*

AS AMENDED AND IN FORCE NOVEMBER 4, 2008

PREAMBLE

We, the People of the State of California, grateful to Almighty God for our freedom, in order to secure and perpetuate its blessings, do establish this Constitution.

## ARTICLE I

DECLARATION OF RIGHTS

SECTION 1. [*Repealed November 5, 1974. See Section 1, below.*]

[*Inalienable Rights*]

SECTION 1. All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety, happiness, and privacy. [*New section adopted November 5, 1974.*]

[*Liberty of Speech and of the Press—Newspersons' Refusal to Disclose Information Sources Not Adjudged in Contempt*]

SEC. 2. (a) Every person may freely speak, write and publish his or her sentiments on all subjects, being responsible for the abuse of this right. A law may not restrain or abridge liberty of speech or press.

(b) A publisher, editor, reporter, or other person connected with or employed upon a newspaper, magazine, or other periodical publication, or by a press association or wire service, or any person who has been so connected or employed, shall not be adjudged in contempt by a judicial, legislative, or administrative body, or any other body having the power to issue subpoenas, for refusing to disclose the source of any information procured while so connected or employed for publication in a newspaper, magazine or other periodical publication, or for refusing to disclose any unpublished information obtained or prepared in gathering, receiving or processing of information for communication to the public.

Nor shall a radio or television news reporter or other person connected with or employed by a radio or television station, or any person who has been so connected or employed, be so adjudged in contempt for refusing to disclose the source of any information procured while so connected or employed for news or news commentary purposes on radio or television, or for refusing to disclose any unpublished information obtained or prepared in gathering, receiving or processing of information for communication to the public.

* Adopted by the people on May 7, 1879. Certain spelling and capitalization variances reflect State Printer's style in effect at time of adoption of amendments.

As used in this subdivision, ''unpublished information'' includes information not disseminated to the public by the person from whom disclosure is sought, whether or not related information has been disseminated and includes, but is not limited to, all notes, outtakes, photographs, tapes or other data of whatever sort not itself disseminated to the public through a medium of communication, whether or not published information based upon or related to such material has been disseminated. [*As amended June 3, 1980.*]

[*Right to Assemble and to Petition—Right of Access to Government Information*]

SEC. 3. (a) The people have the right to instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good.

(b) (1) The people have the right of access to information concerning the conduct of the people's business, and therefore, the meetings of public bodies and the writings of public officials and agencies shall be open to public scrutiny.

(2) A statute, court rule, or other authority, including those in effect on the effective date of this subdivision, shall be broadly construed if it furthers the people's right of access, and narrowly construed if it limits the right of access. A statute, court rule, or other authority adopted after the effective date of this subdivision that limits the right of access shall be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

(3) Nothing in this subdivision supersedes or modifies the right of privacy guaranteed by Section 1 or affects the construction of any statute, court rule, or other authority to the extent that it protects that right to privacy, including any statutory procedures governing discovery or disclosure of information concerning the official performance or professional qualifications of a peace officer.

(4) Nothing in this subdivision supersedes or modifies any provision of this Constitution, including the guarantees that a person may not be deprived of life, liberty, or property without due process of law, or denied equal protection of the laws, as provided in Section 7.

(5) This subdivision does not repeal or nullify, expressly or by implication, any constitutional or statutory exception to the right of access to public records or meetings of public bodies that is in effect on the effective date of this subdivision, including, but not limited to, any statute protecting the confidentiality of law enforcement and prosecution records.

(6) Nothing in this subdivision repeals, nullifies, supersedes, or modifies protections for the confidentiality of proceedings and records of the Legislature, the Members of the Legislature, and its employees, committees, and caucuses provided by Section 7 of Article IV, state law, or legislative rules adopted in furtherance of those provisions; nor does it affect

the scope of permitted discovery in judicial or administrative proceedings regarding deliberations of the Legislature, the Members of the Legislature, and its employees, committees, and caucuses. [*As amended November 4, 2004.*]

SEC. 4. [*Repealed November 5, 1974. See Section 4, below.*]

[*Liberty of Conscience*]

SEC. 4. Free exercise and enjoyment of religion without discrimination or preference are guaranteed. This liberty of conscience does not excuse acts that are licentious or inconsistent with the peace or safety of the State. The Legislature shall make no law respecting an establishment of religion.

A person is not incompetent to be a witness or juror because of his or her opinions on religious beliefs. [*New section adopted November 5, 1974.*]

[*The Military*]

SEC. 5. The military is subordinate to civil power. A standing army may not be maintained in peacetime. Soldiers may not be quartered in any house in wartime except as prescribed by law, or in peacetime without the owner's consent. [*New section adopted November 5, 1974.*]

SEC. 6. [*Repealed November 5, 1974. See Section 6, below.*]

[*Due Process of Law—Use of Pupil School Assignment or Pupil Transportation*]

SEC. 7. (a) A person may not be deprived of life, liberty, or property without due process of law or denied equal protection of the laws; provided, that nothing contained herein or elsewhere in this Constitution imposes upon the State of California or any public entity, board, or official any obligations or responsibilities which exceed those imposed by the Equal Protection Clause of the 14th Amendment to the United States Constitution with respect to the use of pupil school assignment or pupil transportation. In enforcing this subdivision or any other provision of this Constitution, no court of this State may impose upon the State of California or any public entity, board, or official any obligation or responsibility with respect to the use of pupil school assignment or pupil transportation, (1) except to remedy a specific violation by such party that would also constitute a violation of the Equal Protection Clause of the 14th Amendment to the United States Constitution, and (2) unless a federal court would be permitted under federal decisional law to impose that obligation or re-

sponsibility upon such party to remedy the specific violation of the Equal Protection Clause of the 14th Amendment of the United States Constitution.

Except as may be precluded by the Constitution of the United States, every existing judgment, decree, writ, or other order of a court of this State, whenever rendered, which includes provisions regarding pupil school assignment or pupil transportation, or which requires a plan including any such provisions shall, upon application to a court having jurisdiction by any interested person, be modified to conform to the provisions of this subdivision as amended, as applied to the facts which exist at the time of such modification.

In all actions or proceedings arising under or seeking application of the amendments to this subdivision proposed by the Legislature at its 1979–80 Regular Session, all courts, wherein such actions or proceedings are or may hereafter be pending, shall give such actions or proceedings first precedence over all other civil actions therein.

Nothing herein shall prohibit the governing board of a school district from voluntarily continuing or commencing a school integration plan after the effective date of this subdivision as amended.

In amending this subdivision, the Legislature and people of the State of California find and declare that this amendment is necessary to serve compelling public interests, including those of making the most effective use of the limited financial resources now and prospectively available to support public education, maximizing the educational opportunities and protecting the health and safety of all public school pupils, enhancing the ability of parents to participate in the educational process, preserving harmony and tranquility in this State and its public schools, preventing the waste of scarce fuel resources, and protecting the environment.

[*Privileges and Immunities*]

(b) Felony offenses involving acts of violence on another person, or felony sexual assault offenses on another person, when the facts are evident or the presumption great and the court finds based upon clear and convincing evidence that there is a substantial likelihood the person's release would result in great bodily harm to others; or

(c) Felony offenses when the facts are evident or the presumption great and the court finds based on clear and convinving evidence that the person has threatened another with great bodily harm and that there is a substantial likelihood that the person would carry out the threat if released.

Excessive bail may not be required. In fixing the amount of bail, the court shall take into consideration the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case.

A person may be released on his or her own recognizance in the court's discretion. [*As amended November 8, 1994.*]

A person charged with a felony by complaint subscribed under penalty of perjury and on file in a court in the county where the felony is triable shall be taken without unnecessary delay before a magistrate of that court. The magistrate shall immediately give the defendant a copy of the complaint, inform the defendant of the defendant's right to counsel, allow the defendant a reasonable time to send for counsel, and on the defendant's request read the complaint to the defendant. On the defendant's request the magistrate shall require a peace officer to transmit within the county where the court is located a message to counsel named by defendant.

A person unable to understand English who is charged with a crime has a right to an interpreter throughout the proceedings. [*New section adopted November 5, 1974.*]

The Legislature may provide for the deposition of a witness in the presence of the defendant and the defendant's counsel.

provide for possession by the condemnor following commencement of eminent domain proceedings upon deposit in court and prompt release to the owner of money determined by the court to be the probable amount of just compensation.

(b) The State and local governments are prohibited from acquiring by eminent domain an owner-occupied residence for the purpose of conveying it to a private person.

(c) Subdivision (b) of this section does not apply when State or local government exercises the power of eminent domain for the purpose of protecting public health and safety; preventing serious, repeated criminal activity; responding to an emergency; or remedying environmental contamination that poses a threat to public health and safety.

This Constitution shall not be construed by the courts to afford greater rights to criminal defendants than those afforded by the Constitution of the United States, nor shall it be construed to afford greater rights to minors in juvenile proceedings on criminal causes than those afforded by the Constitution of the United States.

This declaration of rights may not be construed to impair or deny others retained by the people. [*As amended June 5, 1990. Initiative measure.*]

[*Right to Fish*]

SECTION 25. The people shall have the right to fish upon and from the public lands of the State and in the waters thereof, excepting upon lands set aside for fish hatcheries, and no land owned by the State shall ever be sold or transferred without reserving in the people the absolute right to fish thereupon; and no law shall ever be passed making it a crime for the people to enter upon the public lands within this State for the purpose of fishing in any water containing fish that have been planted therein by the State; *provided*, that the Legislature may by statute, provide for the season when and the conditions under which the different species of fish may be taken. The death penalty provided for under those statutes shall not be deemed to be, or to constitute, the infliction of cruel or unusual punishments within the meaning of Article 1, Section 6 nor shall such punishment for such offenses be deemed to contravene any other provision of this constitution. [*New section adopted November 7, 1972. Initiative measure.*]

[*"The Victims' Bill of Rights"*]

SEC. 28. (a) The People of the State of California find and declare all of the following:

(1) Criminal activity has a serious impact on the citizens of California. The rights of victims of crime and their families in criminal prosecutions are a subject of grave statewide concern.

(2) Victims of crime are entitled to have the criminal justice system view criminal acts as serious threats to the safety and welfare of the people of California. The enactment of comprehensive provisions and laws ensuring a bill of rights for victims of crime, including safeguards in the criminal justice system fully protecting those rights and ensuring that crime victims are treated with respect and dignity, is a matter of high public importance. California's victims of crime are largely dependent upon

the proper functioning of government, upon the criminal justice system and upon the expeditious enforcement of the rights of victims of crime described herein, in order to protect the public safety and to secure justice when the public safety has been compromised by criminal activity.

(3) The rights of victims pervade the criminal justice system. These rights include personally held and enforceable rights described in paragraphs (1) through (17) of subdivision (b).

(4) The rights of victims also include broader shared collective rights that are held in common with all of the People of the State of California and that are enforceable through the enactment of laws and through good-faith efforts and actions of California's elected, appointed, and publicly employed officials. These rights encompass the expectation shared with all of the people of California that persons who commit felonious acts causing injury to innocent victims will be appropriately and thoroughly investigated, appropriately detained in custody, brought before the courts of California even if arrested outside the State, tried by the courts in a timely manner, sentenced, and sufficiently punished so that the public safety is protected and encouraged as a goal of highest importance.

(5) Victims of crime have a collectively shared right to expect that persons convicted of committing criminal acts are sufficiently punished in both the manner and the length of the sentences imposed by the courts of the State of California. This right includes the right to expect that the punitive and deterrent effect of custodial sentences imposed by the courts will not be undercut or diminished by the granting of rights and privileges to prisoners that are not required by any provision of the United States Constitution or by the laws of this State to be granted to any person incarcerated in a penal or other custodial facility in this State as a punishment or correction for the commission of a crime.

(6) Victims of crime are entitled to finality in their criminal cases. Lengthy appeals and other post-judgment proceedings that challenge criminal convictions, frequent and difficult parole hearings that threaten to release criminal offenders, and the ongoing threat that the sentences of criminal wrongdoers will be reduced, prolong the suffering of crime victims for many years after the crimes themselves have been perpetrated. This prolonged suffering of crime victims and their families must come to an end.

(7) Finally, the People find and declare that the right to public safety extends to public and private primary, elementary, junior high, and senior high school, and community college, California State University, University of California, and private college and university campuses, where students and staff have the right to be safe and secure in their persons.

(8) To accomplish the goals it is necessary that the laws of California relating to the criminal justice process be amended in order to protect the legitimate rights of victims of crime.

(b) In order to preserve and protect a victim's rights to justice and due process, a victim shall be entitled to the following rights:

(1) To be treated with fairness and respect for his or her privacy and dignity, and to be free from intimidation, harassment, and abuse, throughout the criminal or juvenile justice process.

(2) To be reasonably protected from the defendant and persons acting on behalf of the defendant.

(3) To have the safety of the victim and the victim's family considered in fixing the amount of bail and release conditions for the defendant.

(4) To prevent the disclosure of confidential information or records to the defendant, the defendant's attorney, or any other person acting on behalf of the defendant, which could be used to locate or harass the victim or the victim's family or which disclose confidential communications made in the course of medical or counseling treatment, or which are otherwise privileged or confidential by law.

(5) To refuse an interview, deposition, or discovery request by the defendant, the defendant's attorney, or any other person acting on behalf of the defendant, and to set reasonable conditions on the conduct of any such interview to which the victim consents.

(6) To reasonable notice of and to reasonably confer with the prosecuting agency, upon request, regarding, the arrest of the defendant if known by the prosecutor, the charges filed, the determination whether to extradite the defendant, and, upon request, to be notified of and informed before any pretrial disposition of the case.

(7) To reasonable notice of all public proceedings, including delinquency proceedings, upon request, at which the defendant and the prosecutor are entitled to be present and of all parole or other post-conviction release proceedings, and to be present at all such proceedings.

(8) To be heard, upon request, at any proceeding, including any delinquency proceeding, involving a post-arrest release decision, plea, sentencing, post-conviction release decision, or any proceeding in which a right of the victim is at issue.

(9) To a speedy trial and a prompt and final conclusion of the case and any related post-judgment proceedings.

(10) To provide information to a probation department official conducting a pre-sentence investigation concerning the impact of the offense on the victim and the victim's family and any sentencing recommendations before the sentencing of the defendant.

(11) To receive, upon request, the pre-sentence report when available to the defendant, except for those portions made confidential by law.

(12) To be informed, upon request, of the conviction, sentence, place and time of incarceration, or other disposition of the defendant, the scheduled release date of the defendant, and the release of or the escape by the defendant from custody.

(13) To restitution.

(A) It is the unequivocal intention of the People of the State of California that all persons who suffer losses as a result of criminal activity shall have the right to seek and secure restitution from the persons convicted of the crimes causing the losses they suffer.

(B) Restitution shall be ordered from the convicted wrongdoer in every case, regardless of the sentence or disposition imposed, in which a crime victim suffers a loss.

(C) All monetary payments, monies, and property collected from any person who has been ordered to make restitution shall be first applied to pay the amounts ordered as restitution to the victim.

(14) To the prompt return of property when no longer needed as evidence.

(15) To be informed of all parole procedures, to participate in the parole process, to provide information to the parole authority to be considered before the parole of the offender, and to be notified, upon request, of the parole or other release of the offender.

(16) To have the safety of the victim, the victim's family, and the general public considered before any parole or other post-judgment release decision is made.

(17) To be informed of the rights enumerated in paragraphs (1) through (16).

(c) (1) A victim, the retained attorney of a victim, a lawful representative of the victim, or the prosecuting attorney upon request of the victim, may enforce the rights enumerated in subdivision (b) in any trial or appellate court with jurisdiction over the case as a matter of right. The court shall act promptly on such a request.

(2) This section does not create any cause of action for compensation or damages against the State, any political subdivision of the State, any officer, employee, or agent of the State or of any of its political subdivisions, or any officer or employee of the court.

(d) The granting of these rights to victims shall not be construed to deny or disparage other rights possessed by victims. The court in its discretion may extend the right to be heard at sentencing to any person harmed by the defendant. The parole authority shall extend the right to be heard at a parole hearing to any person harmed by the offender.

(e) As used in this section, a ''victim'' is a person who suffers direct or threatened physical, psychological, or financial harm as a result of the commission or attempted commission of a crime or delinquent act. The term ''victim'' also includes the person's spouse, parents, children, siblings, or guardian, and includes a lawful representative of a crime victim who is deceased, a minor, or physically or psychologically incapacitated.

The term ''victim'' does not include a person in custody for an offense, the accused, or a person whom the court finds would not act in the best interests of a minor victim.

(f) In addition to the enumerated rights provided in subdivision (b) that are personally enforceable by victims as provided in subdivision (c), victims of crime have additional rights that are shared with all of the People of the State of California. These collectively held rights include, but are not limited to, the following:

(1) Right to Safe Schools. All students and staff of public primary, elementary, junior high, and senior high schools, and community colleges, colleges, and universities have the inalienable right to attend campuses which are safe, secure and peaceful.

(2) Right to Truth-in-Evidence. Except as provided by statute hereafter enacted by a two-thirds vote of the membership in each house of the Legislature, relevant evidence shall not be excluded in any criminal proceeding, including pretrial and post conviction motions and hearings, or in any trial or hearing of a juvenile for a criminal offense, whether heard in juvenile or adult court. Nothing in this section shall affect any existing statutory rule of evidence relating to privilege or hearsay, or Evidence Code Sections 352, 782 or 1103. Nothing in this section shall affect any existing statutory or constitutional right of the press.

(3) Public Safety Bail. A person may be released on bail by sufficient sureties, except for capital crimes when the facts are evident or the presumption great. Excessive bail may not be required. In setting, reducing or denying bail, the judge or magistrate shall take into consideration the protection of the public, the safety of the victim, the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case. Public safety and the safety of the victim shall be the primary considerations.

A person may be released on his or her own recognizance in the court's discretion, subject to the same factors considered in setting bail.

Before any person arrested for a serious felony may be released on bail, a hearing may be held before the magistrate or judge, and the prosecuting attorney and the victim shall be given notice and reasonable opportunity to be heard on the matter.

When a judge or magistrate grants or denies bail or release on a person's own recognizance, the reasons for that decision shall be stated in the record and included in the court's minutes.

(4) Use of Prior Convictions. Any prior felony conviction of any person in any criminal proceeding, whether adult or juvenile, shall subsequently be used without limitation for purposes of impeachment or enhancement of sentence in any criminal proceeding. When a prior felony conviction is an element of any felony offense, it shall be proven to the trier of fact in open court.

(5) Truth in Sentencing. Sentences that are individually imposed upon convicted criminal wrongdoers based upon the facts and circumstances surrounding their cases shall be carried out in compliance with the courts' sentencing orders, and shall not be substantially diminished by early release policies intended to alleviate overcrowding in custodial facilities. The legislative branch shall ensure sufficient funding to adequately house inmates for the full terms of their sentences, except for statutorily authorized credits which reduce those sentences.

(6) Reform of the parole process. The current process for parole hearings is excessive, especially in cases in which the defendant has been convicted of murder. The parole hearing process must be reformed for the benefit of crime victims.

(g) As used in this article, the term ''serious felony'' is any crime defined in subdivision (c) of Section 1192.7 of the Penal Code, or any successor statute. [*As amended November 4, 2008. Initiative measure.*]

[*Criminal Cases—Due Process of Law—Speedy and Public Trial*]

SEC. 29. In a criminal case, the people of the State of California have the right to due process of law and to a speedy and public trial. [*New section adopted June 5, 1990. Initiative measure.*]

[*Criminal Cases—Jointure-Hearsay Evidence—Discovery*]

SEC. 30. (a) This Constitution shall not be construed by the courts to prohibit the joining of criminal cases as prescribed by the Legislature or by the people through the initiative process.

(b) In order to protect victims and witnesses in criminal cases, hearsay evidence shall be admissible at preliminary hearings, as prescribed by the Legislature or by the people through the initiative process.

(c) In order to provide for fair and speedy trials, discovery in criminal cases shall be reciprocal in nature, as prescribed by the Legislature or by the people through the initiative process. [*New section adopted June 5, 1990. Initiative measure.*]

[*Prohibition Against Discrimination or Preferential Treatment*]

SEC. 31. (a) The State shall not discriminate against, or grant preferential treatment to, any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education, or public contracting.

(b) This section shall apply only to action taken after the section's effective date.

(c) Nothing in this section shall be interpreted as prohibiting bona fide qualifications based on sex which are reasonably necessary to the normal operation of public employment, public education, or public contracting.

(d) Nothing in this section shall be interpreted as invalidating any court order or consent decree which is in force as of the effective date of this section.

(e) Nothing in this section shall be interpreted as prohibiting action which must be taken to establish or maintain eligibility for any federal program, where ineligibility would result in a loss of federal funds to the State.

(f) For the purposes of this section, ''State'' shall include, but not necessarily be limited to, the State itself, any city, county, city and county, public university system, including the University of California, community college district, school district, special district, or any other political subdivision or governmental instrumentality of or within the State.

(g) The remedies available for violations of this section shall be the same, regardless of the injured party's race, sex, color, ethnicity, or national origin, as are otherwise available for violations of then-existing California antidiscrimination law.

(h) This section shall be self-executing. If any part or parts of this section are found to be in conflict with federal law or the United States Constitution, the section shall be implemented to the maximum extent that federal law and the United States Constitution permit. Any provision held invalid shall be severable from the remaining portions of this section. [*New section adopted November 5, 1996. Initiative measure.*]

Signatures to recall Senators, members of the Assembly, members of the Board of Equalization, and judges of courts of appeal and trial courts must equal in number 20 percent of the last vote for the office.

* New Article III adopted November 7, 1972.

[*Administrative Agencies: Declaration Statute Unenforceable or Unconstitutional Prohibited*]

SEC. 3.5. An administrative agency, including an administrative agency created by the Constitution or an initiative statute, has no power:

(a) To declare a statute unenforceable, or refuse to enforce a statute, on the basis of it being unconstitutional unless an appellate court has made a determination that such statute is unconstitutional;

(b) To declare a statute unconstitutional;

(c) To declare a statute unenforceable, or to refuse to enforce a statute on the basis that federal law or federal regulations prohibit the enforcement of such statute unless an appellate court has made a determination that the enforcement of such statute is prohibited by federal law or federal regulations. [*New section adopted June 6, 1978.*]

[*Salaries of Elected State Officers—Salaries of Judges*]

SEC. 4. (a) Except as provided in subdivision (b), salaries of elected state officers may not be reduced during their term of office. Laws that set these salaries are appropriations.

(b) Beginning on January 1, 1981, the base salary of a judge of a court of record shall equal the annual salary payable as of July 1, 1980, for that office had the judge been elected in 1978. The Legislature may prescribe increases in those salaries during a term of office, and it may terminate prospective increases in those salaries at any time during a term of office, but it shall not reduce the salary of a judge during a term of office below the highest level paid during that term of office. Laws setting the salaries of judges shall not constitute an obligation of contract pursuant to Section 9 of Article I or any other provision of law. [*As amended November 4, 1980.*]

[*Suits Against State*]

SEC. 5. Suits may be brought against the State in such manner and in such courts as shall be directed by law. [*New section adopted November 7, 1972.*]

[*Official State Language*]

SEC. 6. (a) Purpose.

English is the common language of the people of the United States of America and the State of California. This section is intended to preserve, protect and strengthen the English language, and not to supersede any of the rights guaranteed to the people by this Constitution.

(b) English as the Official Language of California.

English is the official language of the State of California.

(c) Enforcement.

The Legislature shall enforce this section by appropriate legislation. The Legislature and officials of the State of California shall take all steps

necessary to insure that the role of English as the common language of the State of California is preserved and enhanced. The Legislature shall make no law which diminishes or ignores the role of English as the common language of the State of California.

(d) Personal Right of Action and Jurisdiction of Courts.

Any person who is a resident of or doing business in the State of California shall have standing to sue the State of California to enforce this section, and the Courts of record of the State of California shall have jurisdiction to hear cases brought to enforce this section. The Legislature may provide reasonable and appropriate limitations on the time and manner of suits brought under this section. [*New section adopted November 4, 1986. Initiative measure.*]

[*Retirement Benefits for Elected Constitutional Officers*]

SEC. 7. (a) The retirement allowance for any person, all of whose credited service in the Legislators' Retirement System was rendered or was deemed to have been rendered as an elective officer of the State whose office is provided for by the California Constitution, other than a judge and other than a Member of the Senate or Assembly, and all or any part of whose retirement allowance is calculated on the basis of the compensation payable to the officer holding the office which the member last held prior to retirement, or for the survivor or beneficiary of such a person, shall not be increased or affected in any manner by changes on or after November 5, 1986, in the compensation payable to the officer holding the office which the member last held prior to retirement.

(b) This section shall apply to any person, survivor, or beneficiary described in subdivision (a) who receives, or is receiving, from the Legislators' Retirement System a retirement allowance on or after November 5, 1986, all or any part of which allowance is calculated on the basis of the compensation payable to the officer holding the office which the member last held prior to retirement.

(c) It is the intent of the people, in adopting this section, to restrict retirement allowances to amounts reasonably to be expected by certain members and retired members of the Legislators' Retirement System and to preserve the basic character of earned retirement benefits while prohibiting windfalls and unforeseen advantages which have no relation to the real theory and objective of a sound retirement system. It is not the intent of this section to deny any member, retired member, survivor, or beneficiary a reasonable retirement allowance. Thus, this section shall not be construed as a repudiation of a debt nor the impairment of a contract for a substantial and reasonable retirement allowance from the Legislators' Retirement System.

(d) The people and the Legislature hereby find and declare that the dramatic increase in the retirement allowances of persons described in sub-

division (a) which would otherwise result when the compensation for those offices increases on November 5, 1986, or January 5, 1987, are not benefits which could have reasonably been expected. The people and the Legislature further find and declare that the Legislature did not intend to provide in its scheme of compensation for those offices such windfall benefits. [*New section adopted November 4, 1986.*]

[*California Citizens Compensation Commission*]

SEC. 8. (a) The California Citizens Compensation Commission is hereby created and shall consist of seven members appointed by the Governor. The commission shall establish the annual salary and the medical dental, insurance, and other similar benefits of state officers.

(b) The commission shall consist of the following persons:

(1) Three public members, one of whom has expertise in the area of compensation, such as an economist, market researcher, or personnel manager; one of whom is a member of a nonprofit public interest organization; and one of whom is representative of the general population and may include, among others, a retiree, homemaker, or person of median income. No person appointed pursuant to this paragraph may, during the 12 months prior to his or her appointment, have held public office, either elective or appointive, have been a candidate for elective public office, or have been a lobbyist, as defined by the Political Reform Act of 1974.

(2) Two members who have experience in the business community, one of whom is an executive of a corporation incorporated in this State which ranks among the largest private sector employers in the State based on the number of employees employed by the corporation in this State and one of whom is an owner of a small business in this State.

(3) Two members, each of whom is an officer or member of a labor organization.

(c) The Governor shall strive insofar as practicable to provide a balanced representation of the geographic, gender, racial, and ethnic diversity of the State in appointing commission members.

(d) The Governor shall appoint commission members and designate a chairperson for the commission not later than 30 days after the effective date of this section. The terms of two of the initial appointees shall expire on December 31, 1992, two on December 31, 1994, and three on December 31, 1996, as determined by the Governor. Thereafter, the term of each member shall be six years. Within 15 days of any vacancy, the Governor shall appoint a person to serve the unexpired portion of the term.

(e) No current or former officer or employee of this State is eligible for appointment to the commission.

(f) Public notice shall be given of all meetings of the commission, and the meetings shall be open to the public.

(g) On or before December 3, 1990, the commission shall, by a single resolution adopted by a majority of the membership of the commission, establish the annual salary and the medical, dental, insurance, and other similar benefits of state officers. The annual salary and benefits specified in that resolution shall be effective on and after December 3, 1990.

Thereafter, at or before the end of each fiscal year, the commission shall, by a single resolution adopted by a majority of the membership of the commission, adjust the annual salary and the medical, dental, insurance, and other similar benefits of state officers. The annual salary and benefits specified in the resolution shall be effective on and after the first Monday of the next December.

(h) In establishing or adjusting the annual salary and the medical, dental, insurance, and other similar benefits, the commission shall consider all of the following:

(1) The amount of time directly or indirectly related to the performance of the duties, functions, and services of a state officer.

(2) The amount of the annual salary and the medical, dental, insurance, and other similar benefits for other elected and appointed officers and officials in this State with comparable responsibilities, the judiciary, and, to the extent practicable, the private sector, recognizing, however, that state officers do not receive, and do not expect to receive, compensation at the same levels as individuals in the private sector with comparable experience and responsibilities.

(3) The responsibility and scope of authority of the entity in which the state officer serves.

(i) Until a resolution establishing or adjusting the annual salary and the medical, dental, insurance, and other similar benefits for state officers takes effect, each state officer shall continue to receive the same annual salary and the medical, dental, insurance, and other similar benefits received previously.

(j) All commission members shall receive their actual and necessary expenses, including travel expenses, incurred in the performance of their duties. Each member shall be compensated at the same rate as members, other than the chairperson, of the Fair Political Practices Commission, or its successor, for each day engaged in official duties, not to exceed 45 days per year.

(k) It is the intent of the Legislature that the creation of the commission should not generate new state costs for staff and services. The Department of Personnel Administration, the Board of Administration of the Public Employees' Retirement System, or other appropriate agencies, or their successors, shall furnish, from existing resources, staff and services to the commission as needed for the performance of its duties.

(*l*) ''State officer,'' as used in this section, means the Governor, Lieutenant Governor, Attorney General, Controller, Insurance Commissioner,

Secretary of State, Superintendent of Public Instruction, Treasurer, member of the State Board of Equalization, and Member of the Legislature. [*New section adopted June 5, 1990.*]

[*Sale of Surplus State Property*]

SEC. 9. The proceeds from the sale of surplus state property occurring on or after the effective date of this section, and any proceeds from the previous sale of surplus state property that have not been expended or encumbered as of that date, shall be used to pay the principal and interest on bonds issued pursuant to the Economic Recovery Bond Act authorized at the March 2, 2004, statewide primary election. Once the principal and interest on those bonds are fully paid, the proceeds from the sale of surplus state property shall be deposited into the Special Fund for Economic Uncertainties, or any successor fund. For purposes of this section, surplus state property does not include property purchased with revenues described in Article XIX or any other special fund moneys. [*New section adopted November 2, 2004.*]

## ARTICLE IV

LEGISLATIVE

[*Heading as amended November 8, 1966.*]

SECTION 1. [*Repealed November 8, 1966. See Section 1, below.*]

[*Legislative Power*]

SECTION 1. The legislative power of this State is vested in the California Legislature which consists of the Senate and Assembly, but the people reserve to themselves the powers of initiative and referendum. [*New section adopted November 8, 1966.*]

SEC. 1a. [*Renumbered Section 20 of Article XIII and amended November 8, 1966.*]

SEC. 1b. [*Repealed November 8, 1966.*]

SEC. 1c. [*Repealed November 8, 1966.*]

SEC. 1d. [*Repealed November 8, 1966.*]

[*Legislators—Limitation on Incumbency—Restriction of Retirement Benefits— Limitation of Staff and Support Services—Number of Terms*]

SEC. 1.5. The people find and declare that the Founding Fathers established a system of representative government based upon free, fair, and competitive elections. The increased concentration of political power in the hands of incumbent representatives has made our electoral system less free, less competitive, and less representative.

The ability of legislators to serve unlimited number of terms, to establish their own retirement system, and to pay for staff and support services at state expense contribute heavily to the extremely high number of incumbents who are reelected. These unfair incumbent advantages discourage qualified candidates from seeking public office and create a class of career politicians, instead of the citizen representatives envisioned by the Founding Fathers. These career politicians become representatives of the bureaucracy, rather than of the people whom they are elected to represent.

To restore a free and democratic system of fair elections, and to encourage qualified candidates to seek public office, the people find and declare that the powers of incumbency must be limited. Retirement benefits must be restricted, state-financed incumbent staff and support services limited, and limitations placed upon the number of terms which may be served. [*New section adopted November 6, 1990. Initiative measure.*]

[*Senate and Assembly—Membership—Elections—Number of Terms—Qualifications—Vacancies*]

SEC. 2. (a) The Senate has a membership of 40 Senators elected for 4-year terms, 20 to begin every 2 years. No Senator may serve more than 2 terms.

The Assembly has a membership of 80 members elected for 2-year terms. No member of the Assembly may serve more than 3 terms.

Their terms shall commence on the first Monday in December next following their election.

(b) Election of members of the Assembly shall be on the first Tuesday after the first Monday in November of even-numbered years unless otherwise prescribed by the Legislature. Senators shall be elected at the same time and places as members of the Assembly.

(c) A person is ineligible to be a member of the Legislature unless the person is an elector and has been a resident of the legislative district for one year, and a citizen of the United States and a resident of California for 3 years, immediately preceding the election.

(d) When a vacancy occurs in the Legislature the Governor immediately shall call an election to fill the vacancy. [*As amended November 6, 1990. Initiative measure.*]

[*Legislative Sessions—Regular and Special Sessions*]

SEC. 3. (a) The Legislature shall convene in regular session at noon on the first Monday in December of each even-numbered year and each house shall immediately organize. Each session of the Legislature shall adjourn sine die by operation of the Constitution at midnight on November 30 of the following even-numbered year.

(b) On extraordinary occasions the Governor by proclamation may cause the Legislature to assemble in special session. When so assembled

it has power to legislate only on subjects specified in the proclamation but may provide for expenses and other matters incidental to the session. [*As amended June 8, 1976.*]

[*Legislators—Conflict of Interest—Prohibited Compensation—Earned Income*]

SEC. 4. (a) To eliminate any appearance of a conflict with the proper discharge of his or her duties and responsibilities, no Member of the Legislature may knowingly receive any salary, wages, commissions, or other similar earned income from a lobbyist or lobbying firm, as defined by the Political Reform Act of 1974, or from a person who, during the previous 12 months, has been under a contract with the Legislature. The Legislature shall enact laws that define earned income. However, earned income does not include any community property interest in the income of a spouse. Any Member who knowingly receives any salary, wages, commissions, or other similar earned income from a lobbyist employer, as defined by the Political Reform Act of 1974, may not, for a period of one year following its receipt, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the Legislature, other than an action or decision involving a bill described in subdivision (c) of Section 12 of this article, which he or she knows, or has reason to know, would have a direct and significant financial impact on the lobbyist employer and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, ''public generally'' includes an industry, trade, or profession.

[*Legislators—Travel and Living Expenses*]

(b) Travel and living expenses for Members of the Legislature in connection with their official duties shall be prescribed by statute passed by rollcall vote entered in the journal, two-thirds of the membership of each house concurring. A Member may not receive travel and living expenses during the times that the Legislature is in recess for more than three calendar days, unless the Member is traveling to or from, or is in attendance at, any meeting of a committee of which he or she is a member, or a meeting, conference, or other legislative function or responsibility as authorized by the rules of the house of which he or she is a member, which is held at a location at least 20 miles from his or her place of residence.

[*Legislators—Retirement*]

(c) The Legislature may not provide retirement benefits based on any portion of a monthly salary in excess of five hundred dollars ($500) paid to any Member of the Legislature unless the Member receives the greater amount while serving as a Member in the Legislature. The Legislature may, prior to their retirement, limit the retirement benefits payable to Members of the Legislature who serve during or after the term commencing in 1967.

When computing the retirement allowance of a Member who serves in the Legislature during the term commencing in 1967 or later, allowance may be made for increases in cost of living if so provided by statute, but only with respect to increases in the cost of living occurring after retirement of the Member. However, the Legislature may provide that no Member shall be deprived of a cost of living adjustment based on a monthly salary of five hundred dollars ($500) which has accrued prior to the commencement of the 1967 Regular Session of the Legislature. [*As amended June 5, 1990.*]

[*Legislators—Retirement*]

SEC. 4.5. Notwithstanding any other provision of this Constitution or existing law, a person elected to or serving in the Legislature on or after November 1, 1990, shall participate in the Federal Social Security (Retirement, Disability, Health Insurance) Program and the State shall pay only the employer's share of the contribution necessary to such participation. No other pension or retirement benefit shall accrue as a result of service in the Legislature, such service not being intended as a career occupation. This Section shall not be construed to abrogate or diminish any vested pension or retirement benefit which may have accrued under an existing law to a person holding or having held office in the Legislature, but upon adoption of this Act no further entitlement to nor vesting in any existing program shall accrue to any such person, other than Social Security to the extent herein provided. [*New section adopted November 6, 1990. Initiative measure.*]

[*Legislators—Qualifications—Expulsion*]

SEC. 5. (a) Each house shall judge the qualifications and elections of its Members and, by rollcall vote entered in the journal, two thirds of the membership concurring, may expel a Member.

[*Legislators—Honoraria*]

(b) No Member of the Legislature may accept any honorarium. The Legislature shall enact laws that implement this subdivision.

[*Legislators—Gifts—Conflict of Interest*]

(c) The Legislature shall enact laws that ban or strictly limit the acceptance of a gift by a Member of the Legislature from any source if the acceptance of the gift might create a conflict of interest.

[*Legislators—Prohibited Compensation or Activity*]

(d) No Member of the Legislature may knowingly accept any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any state government board or agency. If a Member knowingly accepts any compensation for appearing, agreeing to

appear, or taking any other action on behalf of another person before any local government board or agency, the Member may not, for a period of one year following the acceptance of the compensation, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the Legislature, other than an action or decision involving a bill described in subdivision (c) of Section 12 of this article, which he or she knows, or has reason to know, would have a direct and significant financial impact on that person and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, ''public generally'' includes an industry, trade, or profession. However, a Member may engage in activities involving a board or agency which are strictly on his or her own behalf, appear in the capacity of an attorney before any court or the Workers' Compensation Appeals Board, or act as an advocate without compensation or make an inquiry for information on behalf of a person before a board or agency. This subdivision does not prohibit any action of a partnership or firm of which the Member is a member if the Member does not share directly or indirectly in the fee, less any expenses attributable to that fee, resulting from that action.

[*Legislators—Lobbying*]

(e) The Legislature shall enact laws that prohibit a Member of the Legislature whose term of office commences on or after December 3, 1990, from lobbying, for compensation, as governed by the Political Reform Act of 1974, before the Legislature for 12 months after leaving office.

[*Legislators—Conflict of Interest*]

(f) The Legislature shall enact new laws, and strengthen the enforcement of existing laws, prohibiting Members of the Legislature from engaging in activities or having interests which conflict with the proper discharge of their duties and responsibilities. However, the people reserve to themselves the power to implement this requirement pursuant to Article II. [*As amended June 5, 1990. Subdivision (b) operative December 3, 1990.*]

SEC. 6. [*Repealed June 3, 1980. See Section 6, below.*]

[*Senatorial and Assembly Districts*]

SEC. 6. For the purpose of choosing members of the Legislature, the State shall be divided into 40 Senatorial and 80 Assembly districts to be called Senatorial and Assembly Districts. Each Senatorial district shall choose one Senator and each Assembly district shall choose one member of the Assembly. [*New section adopted June 3, 1980.*]

[*House Rules—Officers—Quorum*]

SEC. 7. (a) Each house shall choose its officers and adopt rules for its proceedings. A majority of the membership constitutes a quorum, but a smaller number may recess from day to day and compel the attendance of absent members.

[*Journals*]

(b) Each house shall keep and publish a journal of its proceedings. The rollcall vote of the members on a question shall be taken and entered in the journal at the request of 3 members present.

[*Public Proceedings—Closed Sessions*]

(c) (1) The proceedings of each house and the committees thereof shall be open and public. However, closed sessions may be held solely for any of the following purposes:

(A) To consider the appointment, employment, evaluation of performance, or dismissal of a public officer or employee, to consider or hear complaints or charges brought against a Member of the Legislature or other public officer or employee, or to establish the classification or compensation of an employee of the Legislature.

(B) To consider matters affecting the safety and security of Members of the Legislature or its employees or the safety and security of any buildings and grounds used by the Legislature.

(C) To confer with, or receive advice from, its legal counsel regarding pending or reasonably anticipated, or whether to initiate, litigation when discussion in open session would not protect the interests of the house or committee regarding the litigation.

(2) A caucus of the Members of the Senate, the Members of the Assembly, or the Members of both houses, which is composed of the members of the same political party, may meet in closed session.

(3) The Legislature shall implement this subdivision by concurrent resolution adopted by rollcall vote entered in the journal, two-thirds of the membership of each house concurring, or by statute, and shall prescribe that, when a closed session is held pursuant to paragraph (1), reasonable notice of the closed session and the purpose of the closed session shall be provided to the public. If there is a conflict between a concurrent resolution and statute, the last adopted or enacted shall prevail.

[*Recess*]

(d) Neither house without the consent of the other may recess for more than 10 days or to any other place. [*As amended June 5, 1990. Subdivision (c) operative December 3, 1990.*]

[*Legislature—Total Aggregate Expenditures*]

SEC. 7.5. In the fiscal year immediately following the adoption of this Act, the total aggregate expenditures of the Legislature for the compensation of members and employees of, and the operating expenses and equipment for, the Legislature may not exceed an amount equal to nine hundred fifty thousand dollars ($950,000) per member for that fiscal year or 80 percent of the amount of money expended for those purposes in the preceding fiscal year, whichever is less. For each fiscal year thereafter, the total aggregate expenditures may not exceed an amount equal to that expended for those purposes in the preceding fiscal year, adjusted and compounded by an amount equal to the percentage increase in the appropriations limit for the State established pursuant to Article XIII B. [*New section adopted November 6, 1990. Initiative measure.*]

[*Bills and Statutes—30-day Waiting Period*]

SEC. 8. (a) At regular sessions no bill other than the budget bill may be heard or acted on by committee or either house until the 31st day after the bill is introduced unless the house dispenses with this requirement by rollcall vote entered in the journal, three fourths of the membership concurring.

[*Bills and Statutes—3 Readings*]

(b) The Legislature may make no law except by statute and may enact no statute except by bill. No bill may be passed unless it is read by title on 3 days in each house except that the house may dispense with this requirement by rollcall vote entered in the journal, two thirds of the membership concurring. No bill may be passed until the bill with amendments has been printed and distributed to the members. No bill may be passed unless, by rollcall vote entered in the journal, a majority of the membership of each house concurs.

[*Bills and Statutes—Effective Date*]

(c) (1) Except as provided in paragraphs (2) and (3) of this subdivision, a statute enacted at a regular session shall go into effect on January 1 next following a 90-day period from the date of enactment of the statute and a statute enacted at a special session shall go into effect on the 91st day after adjournment of the special session at which the bill was passed.

(2) A statute, other than a statute establishing or changing boundaries of any legislative, congressional, or other election district, enacted by a bill passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, shall go into effect on January 1 next following the enactment date of the statute unless, before January 1, a copy of a referendum

petition affecting the statute is submitted to the Attorney General pursuant to subdivision (d) of Section 10 of Article II, in which event the statute shall go into effect on the 91st day after the enactment date unless the petition has been presented to the Secretary of State pursuant to subdivision (b) of Section 9 of Article II.

(3) Statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes shall go into effect immediately upon their enactment.

[*Bills and Statutes—Urgency Statutes*]

(d) Urgency statutes are those necessary for immediate preservation of the public peace, health, or safety. A statement of facts constituting the necessity shall be set forth in one section of the bill. In each house the section and the bill shall be passed separately, each by rollcall vote entered in the journal, two thirds of the membership concurring. An urgency statute may not create or abolish any office or change the salary, term, or duties of any office, or grant any franchise or special privilege, or create any vested right or interest. [*As amended June 5, 1990.*]

[*Ballot Measures—Application*]

SEC. 8.5. An act amending an initiative statute, an act providing for the issuance of bonds, or a constitutional amendment proposed by the Legislature and submitted to the voters for approval may not do either of the following:

(a) Include or exclude any political subdivision of the State from the application or effect of its provisions based upon approval or disapproval of the measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of that political subdivision.

(b) Contain alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure. [*New section adopted June 2, 1998.*]

SEC. 9. [*Repealed November 8, 1966. See Section 9, below.*]

[*Statutes—Title—Section*]

SEC. 9. A statute shall embrace but one subject, which shall be expressed in its title. If a statute embraces a subject not expressed in its title, only the part not expressed is void. A statute may not be amended by reference to its title. A section of a statute may not be amended unless the section is re-enacted as amended. [*New section adopted November 8, 1966.*]

[*Governor's Veto—Bill Introduction in Biennial Session—Fiscal Emergencies*]

SEC. 10. (a) Each bill passed by the Legislature shall be presented to the Governor. It becomes a statute if it is signed by the Governor. The

Governor may veto it by returning it with any objections to the house of origin, which shall enter the objections in the journal and proceed to reconsider it. If each house then passes the bill by rollcall vote entered in the journal, two-thirds of the membership concurring, it becomes a statute.

(b) (1) Any bill, other than a bill which would establish or change boundaries of any legislative, congressional, or other election district, passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, that is not returned within 30 days after that date becomes a statute.

(2) Any bill passed by the Legislature before September 1 of the second calendar year of the biennium of the legislative session and in the possession of the Governor on or after September 1 that is not returned on or before September 30 of that year becomes a statute.

(3) Any other bill presented to the Governor that is not returned within 12 days becomes a statute.

(4) If the Legislature by adjournment of a special session prevents the return of a bill with the veto message, the bill becomes a statute unless the Governor vetoes the bill within 12 days after it is presented by depositing it and the veto message in the office of the Secretary of State.

(5) If the 12th day of the period within which the Governor is required to perform an act pursuant to paragraph (3) or (4) of this subdivision is a Saturday, Sunday, or holiday, the period is extended to the next day that is not a Saturday, Sunday, or holiday.

(c) Any bill introduced during the first year of the biennium of the legislative session that has not been passed by the house of origin by January 31 of the second calendar year of the biennium may no longer be acted on by the house. No bill may be passed by either house on or after September 1 of an even-numbered year except statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes, and bills passed after being vetoed by the Governor.

(d) The Legislature may not present any bill to the Governor after November 15 of the second calendar year of the biennium of the legislative session.

(e) The Governor may reduce or eliminate one or more items of appropriation while approving other portions of a bill. The Governor shall append to the bill a statement of the items reduced or eliminated with the reasons for the action. The Governor shall transmit to the house originating the bill a copy of the statement and reasons. Items reduced or eliminated shall be separately reconsidered and may be passed over the Governor's veto in the same manner as bills.

(f) (1) If, following the enactment of the budget bill for the 2004–05 fiscal year or any subsequent fiscal year, the Governor determines that, for that fiscal year, General Fund revenues will decline substantially below the estimate of General Fund revenues upon which the budget bill for that fiscal year, as enacted, was based, or General Fund expenditures will increase substantially above that estimate of General Fund revenues, or both, the Governor may issue a proclamation declaring a fiscal emergency and shall thereupon cause the Legislature to assemble in special session for this purpose. The proclamation shall identify the nature of the fiscal emergency and shall be submitted by the Governor to the Legislature, accompanied by proposed legislation to address the fiscal emergency.

(2) If the Legislature fails to pass and send to the Governor a bill or bills to address the fiscal emergency by the 45th day following the issuance of the proclamation, the Legislature may not act on any other bill, nor may the Legislature adjourn for a joint recess, until that bill or those bills have been passed and sent to the Governor.

(3) A bill addressing the fiscal emergency declared pursuant to this section shall contain a statement to that effect. [*As amended March 2, 2004.*]

[*Committees*]

SEC. 11. The Legislature or either house may by resolution provide for the selection of committees necessary for the conduct of its business, including committees to ascertain facts and make recommendations to the Legislature on a subject within the scope of legislative control. [*As amended November 7, 1972.*]

[*Governor's Budget—Budget Bill—Other Appropriations*]

SEC. 12. (a) Within the first 10 days of each calendar year, the Governor shall submit to the Legislature, with an explanatory message, a budget for the ensuing fiscal year containing itemized statements for recommended state expenditures and estimated state revenues. If recommended expenditures exceed estimated revenues, the Governor shall recommend the sources from which the additional revenues should be provided.

(b) The Governor and the Governor-elect may require a state agency, officer or employee to furnish whatever information is deemed necessary to prepare the budget.

(c) (1) The budget shall be accompanied by a budget bill itemizing recommended expenditures.

(2) The budget bill shall be introduced immediately in each house by the persons chairing the committees that consider the budget.

(3) The Legislature shall pass the budget bill by midnight on June 15 of each year.

(4) Until the budget bill has been enacted, the Legislature shall not send to the Governor for consideration any bill appropriating funds for expenditure during the fiscal year for which the budget bill is to be enacted, except emergency bills recommended by the Governor or appropriations for the salaries and expenses of the Legislature.

(d) No bill except the budget bill may contain more than one item of appropriation, and that for one certain, expressed purpose. Appropriations from the General Fund of the State, except appropriations for the public schools, are void unless passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring.

(e) The Legislature may control the submission, approval, and enforcement of budgets and the filing of claims for all state agencies.

(f) For the 2004–05 fiscal year, or any subsequent fiscal year, the Legislature may not send to the Governor for consideration, nor may the Governor sign into law, a budget bill that would appropriate from the General Fund, for that fiscal year, a total amount that, when combined with all appropriations from the General Fund for that fiscal year made as of the date of the budget bill's passage, and the amount of any General Fund moneys transferred to the Budget Stabilization Account for that fiscal year pursuant to Section 20 of Article XVI, exceeds General Fund revenues for that fiscal year estimated as of the date of the budget bill's passage. That estimate of General Fund revenues shall be set forth in the budget bill passed by the Legislature. [*As amended March 2, 2004.*]

[*Legislators—Ineligible for Certain Offices*]

[*Impeachment*]

SEC. 18. (a) The Assembly has the sole power of impeachment. Impeachments shall be tried by the Senate. A person may not be convicted unless, by rollcall vote entered in the journal, two thirds of the membership of the Senate concurs.

(b) State officers elected on a statewide basis, members of the State Board of Equalization, and judges of state courts are subject to impeachment for misconduct in office. Whenever in the opinion of the Attorney General any law of the State is not being adequately enforced in any

The Legislature shall enact laws that define earned income. However, earned income does not include any community property interest in the income of a spouse. Any state officer who knowingly receives any salary, wages, commissions, or other similar earned income from a lobbyist employer, as defined by the Political Reform Act of 1974, may not, for a period of one year following its receipt, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the agency for which the state officer serves, other than an action or decision involving a bill described in subdivision (c) of Section 12 of Article IV, which he or she knows, or has reason to know, would have a direct and significant financial impact on the lobbyist employer and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, ''public generally'' includes an industry, trade, or profession.

[*State Officers—Honoraria*]

(b) No state officer may accept any honorarium. The Legislature shall enact laws that implement this subdivision.

[*State Officers—Gifts—Conflict of Interest*]

(c) The Legislature shall enact laws that ban or strictly limit the acceptance of a gift by a state officer from any source if the acceptance of the gift might create a conflict of interest.

[*State Officers—Prohibited Compensation or Activity*]

(d) No state officer may knowingly accept any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any state government board or agency. If a state officer

knowingly accepts any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any local government board or agency, the state officer may not, for a period of one year following the acceptance of the compensation, make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the state agency for which the state officer serves, other than an action or decision involving a bill described in subdivision (c) of Section 12 of Article IV, which he or she knows, or has reason to know, would have a direct and significant financial impact on that person and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, ''public generally'' includes an industry, trade, or profession. However, a state officer may engage in activities involving a board or agency which are strictly on his or her own behalf, appear in the capacity of an attorney before any court or the Workers' Compensation Appeals Board, or act as an advocate without compensation or make an inquiry for information on behalf of a person before a board or agency. This subdivision does not prohibit any action of a partnership or firm of which the state officer is a member if the state officer does not share directly or indirectly in the fee, less any expenses attributable to that fee, resulting from that action.

[*State Officers—Lobbying*]

(e) The Legislature shall enact laws that prohibit a state officer, or a secretary of an agency or director of a department appointed by the Governor, who has not resigned or retired from state service prior to January 7, 1991, from lobbying, for compensation, as governed by the Political Reform Act of 1974, before the executive branch of state government for 12 months after leaving office.

[*Judges—Elections—Terms—Vacancies*]

SEC. 16. (a) Judges of the Supreme Court shall be elected at large and judges of courts of appeal shall be elected in their districts at general elections at the same time and places as the Governor. Their terms are 12 years beginning the Monday after January 1 following their election, except that a judge elected to an unexpired term serves the remainder of the term. In creating a new court of appeal district or division the Legislature shall provide that the first elective terms are 4, 8, and 12 years.

(b) Judges of superior courts shall be elected in their counties at general elections except as otherwise necessary to meet the requirements of federal law. In the latter case the Legislature, by two-thirds vote of the membership of each house thereof, with the advice of judges within the affected court, may provide for their election by the system prescribed in subdivision (d), or by any other arrangement. The Legislature may provide that an unopposed incumbent's name not appear on the ballot.

(c) Terms of judges of superior courts are six years beginning the Monday after January 1 following their election. A vacancy shall be filled by election to a full term at the next general election after the second January 1 following the vacancy, but the Governor shall appoint a person to fill the vacancy temporarily until the elected judge's term begins.

(d) (1) Within 30 days before August 16 preceding the expiration of the judge's term, a judge of the Supreme Court or a court of appeal may file a declaration of candidacy to succeed to the office presently held by the judge. If the declaration is not filed, the Governor before September 16 shall nominate a candidate. At the next general election, only the candidate so declared or nominated may appear on the ballot, which shall present the question whether the candidate shall be elected. The candidate shall be elected upon receiving a majority of the votes on the question. A candidate not elected may not be appointed to that court but later may be nominated and elected.

(2) The Governor shall fill vacancies in those courts by appointment. An appointee holds office until the Monday after January 1 following the first general election at which the appointee had the right to become a candidate or until an elected judge qualifies. A nomination or appointment by the Governor is effective when confirmed by the Commission on Judicial Appointments.

(3) Electors of a county, by majority of those voting and in a manner the Legislature shall provide, may make this system of selection applicable to judges of superior courts. [*As amended November 5, 2002.*]

[*Judges—Restrictions, Other Employment, and Benefits*]

SEC. 17. A judge of a court of record may not practice law and during the term for which the judge was selected is ineligible for public employment or public office other than judicial employment or judicial office, except a judge of a court of record may accept a part-time teaching position that is outside the normal hours of his or her judicial position and that does not interfere with the regular performance of his or her judicial duties while holding office. A judge of a trial court of record may, however, become eligible for election to other public office by taking a leave of absence without pay prior to filing a declaration of candidacy. Acceptance of the public office is a resignation from the office of judge.

A judicial officer may not receive fines or fees for personal use.

A judicial officer may not earn retirement service credit from a public teaching position while holding judicial office. [*As amended November 8, 1988.*]

[*Judges—Discipline*]

SEC. 18. (a) A judge is disqualified from acting as a judge, without loss of salary, while there is pending (1) an indictment or an information charging the judge in the United States with a crime punishable as a felony under California or federal law, or (2) a petition to the Supreme Court to review a determination by the Commission on Judicial Performance to remove or retire a judge.

(b) The Commission on Judicial Performance may disqualify a judge from acting as a judge, without loss of salary, upon notice of formal proceedings by the commission charging the judge with judicial misconduct or disability.

(c) The Commission on Judicial Performance shall suspend a judge from office without salary when in the United States the judge pleads guilty or no contest or is found guilty of a crime punishable as a felony under California or federal law or of any other crime that involves moral turpitude under that law. If the conviction is reversed, suspension terminates, and the judge shall be paid the salary for the judicial office held by the judge for the period of suspension. If the judge is suspended and the conviction becomes final, the Commission on Judicial Performance shall remove the judge from office.

(d) Except as provided in subdivision (f), the Commission on Judicial Performance may (1) retire a judge for disability that seriously interferes with the performance of the judge's duties and is or is likely to become permanent, or (2) censure a judge or former judge or remove a judge for

action occurring not more than 6 years prior to the commencement of the judge's current term or of the former judge's last term that constitutes willful misconduct in office, persistent failure or inability to perform the judge's duties, habitual intemperance in the use of intoxicants or drugs, or conduct prejudicial to the administration of justice that brings the judicial office into disrepute, or (3) publicly or privately admonish a judge or former judge found to have engaged in an improper action or dereliction of duty. The commission may also bar a former judge who has been censured from receiving an assignment, appointment, or reference of work from any California state court. Upon petition by the judge or former judge, the Supreme Court may, in its discretion, grant review of a determination by the commission to retire, remove, censure, admonish, or disqualify pursuant to subdivision (b) a judge or former judge. When the Supreme Court reviews a determination of the commission, it may make an independent review of the record. If the Supreme Court has not acted within 120 days after granting the petition, the decision of the commission shall be final.

(e) A judge retired by the commission shall be considered to have retired voluntarily. A judge removed by the commission is ineligible for judicial office, including receiving an assignment, appointment, or reference of work from any California state court, and pending further order of the court is suspended from practicing law in this State. The State Bar may institute appropriate attorney disciplinary proceedings against any judge who retires or resigns from office with judicial disciplinary charges pending.

(f) A determination by the Commission on Judicial Performance to admonish or censure a judge or former judge of the Supreme Court or remove or retire a judge of the Supreme Court shall be reviewed by a tribunal of 7 court of appeal judges selected by lot.

(g) No court, except the Supreme Court, shall have jurisdiction in a civil action or other legal proceeding of any sort brought against the commission by a judge. Any request for injunctive relief or other provisional remedy shall be granted or denied within 90 days of the filing of the request for relief. A failure to comply with the time requirements of this section does not affect the validity of commission proceedings.

(h) Members of the commission, the commission staff, and the examiners and investigators employed by the commission shall be absolutely immune from suit for all conduct at any time in the course of their official duties. No civil action may be maintained against a person, or adverse employment action taken against a person, by any employer, public or private, based on statements presented by the person to the commission.

(i) The Commission on Judicial Performance shall make rules implementing this section, including, but not limited to, the following:

SEC. 2. It is hereby declared that because of the conditions prevailing in this State the general welfare requires that the water resources of the State be put to beneficial use to the fullest extent of which they are capable, and that the waste or unreasonable use or unreasonable method of use of water be prevented, and that the conservation of such waters is to be exercised with a view to the reasonable and beneficial use thereof in the interest of the people and for the public welfare. The right to water or to the use or flow of water in or from any natural stream or water course in this State is and shall be limited to such water as shall be reasonably required for the beneficial use to be served, and such right does not and shall not extend to the waste or unreasonable use or unreasonable method of use or unreasonable method of diversion of water. Riparian rights in a stream or water course attach to, but to no more than so much of the flow thereof as may be required or used consistently with this section, for the purposes for which such lands are, or may be made adaptable, in view of such reasonable and beneficial uses; provided, however, that nothing herein contained shall be construed as depriving any riparian owner of the reasonable use of water of the stream to which the owner's land is riparian under reasonable methods of diversion and use, or as depriving any appropriator of water to which the appropriator is lawfully entitled. This section shall be self-executing, and the Legislature may also enact laws in the furtherance of the policy in this section contained. [*New section adopted June 8, 1976.*]

Taxable land belonging to a local government and located outside of Inyo and Mono counties shall be assessed at the place where located and in an amount that does not exceed the lower of (1) its fair market value times the prevailing percentage of fair market value at which other lands are assessed and (2) a figure derived in the manner specified in this Section for land located in Mono County.

If land acquired by a local government after the lien date of the base year specified in this Section was assessed in the base year as part of a larger parcel, the assessed value of the part in the base year shall be that fraction of the assessed value of the larger parcel that the area of the part is of the area of the larger parcel.

If a local government divests itself of ownership of land without water rights and this land was assessed in Inyo County as of the 1966 lien date or in Mono County as of the 1967 lien date, the divestment shall not diminish the quantity of water rights assessable and taxable at the place where assessed as of that lien date.

(c) In the event the Legislature changes the prevailing percentage of fair market value at which land is assessed for taxation, there shall be used in the computations required by Section 11(b) of this Article, for the first year for which the new percentage is applicable, in lieu of the statewide per capita assessed value of land as of the last lien date prior to the current lien date, the statewide per capita assessed value of land on the prior lien date times the ratio of the new prevailing percentage of fair market value to the previous prevailing percentage.

(d) If, after March 1954, a taxable improvement is replaced while owned by and in possession of a local government, the replacement improvement shall be assessed, as long as it is owned by a local government, as other improvements are except that the assessed value shall not exceed the product of (1) the percentage at which privately owned improvements are assessed times (2) the highest full value ever used for taxation of the improvement that has been replaced. For purposes of this calculation, the full value for any year prior to 1967 shall be conclusively presumed to be 4 times the assessed value in that year.

(e) No tax, charge, assessment, or levy of any character, other than those taxes authorized by Sections 11(a) to 11(d), inclusive, of this Article, shall be imposed upon one local government by another local government that is based or calculated upon the consumption or use of water outside the boundaries of the government imposing it.

(f) Any taxable interest of any character, other than a lease for agricultural purposes and an interest of a local government, in any land owned by a local government that is subject to taxation pursuant to Section 11(a) of this Article shall be taxed in the same manner as other taxable interests. The aggregate value of all the interests subject to taxation pursuant to Section 11(a), however, shall not exceed the value of all interests in the land less the taxable value of the interest of any local government ascertained as provided in Sections 11(a) to 11(e), inclusive, of this Article.

(g) Any assessment made pursuant to Sections 11(a) to 11(d), inclusive, of this Article shall be subject to review, equalization, and adjustment by the State Board of Equalization, but an adjustment shall conform to the provisions of these Sections. [*New section adopted November 5, 1974.*]

SEC. 12. (a) Except as provided in subdivision (b), taxes on personal property, possessory interests in land, and taxable improvements located on land exempt from taxation which are not a lien upon land sufficient in value to secure their payment shall be levied at the rates for the preceding tax year upon property of the same kind where the taxes were a lien upon land sufficient in value to secure their payment.

(b) In any year in which the assessment ratio is changed, the Legislature shall adjust the rate described in subdivision (a) to maintain equality between property on the secured and unsecured rolls. [*As amended November 2, 1976.*]

Two or more county boards of supervisors may jointly create one or more assessment appeals boards which shall constitute the county board of equalization for each of the participating counties.

Except as provided in subdivision (g) of Section 11, the county board of equalization, under such rules of notice as the county board may prescribe, shall equalize the values of all property on the local assessment roll by adjusting individual assessments.

County boards of supervisors shall fix the compensation for members of assessment appeals boards, furnish clerical and other assistance for those boards, adopt rules of notice and procedures for those boards as may be required to facilitate their work and to insure uniformity in the processing and decision of equalization petitions, and may provide for their discontinuance.

This property shall be subject to taxation to the same extent and in the same manner as other property.

No other tax or license charge may be imposed on these companies which differs from that imposed on mercantile, manufacturing, and other business corporations. This restriction does not release a utility company from payments agreed on or required by law for a special privilege or franchise granted by a government body.

The Legislature may authorize Board assessment of property owned or used by other public utilities.

[*Ad Valorem Property Tax Revenue Allocations*]

SEC. 25.5. (a) On or after November 3, 2004, the Legislature shall not enact a statute to do any of the following:

(1) (A) Except as otherwise provided in subparagraph (B), modify the manner in which as valorem property tax revenues are allocated in accordance with subdivision (a) of Section 1 of Article XIII A so as to reduce for any fiscal year the percentage of the total amount of ad valorem property tax revenues in a county that is allocated among all of the local agencies in that county below the percentage of the total amount of those revenues that would be allocated among those agencies for the same fiscal year under the statutes in effect on November 3, 2004. For purposes of this subparagraph, ''percentage'' does not include any property tax revenues referenced in paragraph (2).

(B) Beginning with the 2008–09 fiscal year and except as otherwise provided in subparagraph (C), subparagraph (A) may be suspended for a fiscal year if all of the following conditions are met:

(i) The Governor issues a proclamation that declares that, due to a severe state fiscal hardship, the suspension of subparagraph (A) is necessary.

(ii) The Legislature enacts an urgency statute, pursuant to a bill passed in each house of the Legislature by rollcall vote entered in the journal, two-thirds of the membership concurring, that contains a suspension of subparagraph (A) for that fiscal year and does not contain any other provision.

(iii) No later than the effective date of the statute described in clause (ii), a statute is enacted that provides for the full repayment to local agencies of the total amount of revenue losses, including interest as provided by law, resulting from the modification of ad valorem property tax revenue allocations to local agencies. This full repayment shall be made not later than the end of the third fiscal year immediately following the fiscal year to which the modification applies.

(C) (i) Subparagraph (A) shall not be suspended for more than two fiscal years during any period of 10 consecutive fiscal years, which period begins with the first fiscal year for which subparagraph (A) is suspended.

(ii) Subparagraph (A) shall not be suspended during any fiscal year if the full repayment required by a statute enacted in accordance with clause (iii) of subparagraph (B) has not yet been completed.

(iii) Subparagraph (A) shall not be suspended during any fiscal year if the amount that was required to be paid to cities, counties, and cities and counties under Section 10754.11 of the Revenue and Taxation Code, as that section read on November 3, 2004, has not been paid in full prior to the effective date of the statute providing for that suspension as described in clause (ii) of subparagraph (B).

(iv) A suspension of subparagraph (A) shall not result in a total ad valorem property tax revenue loss to all local agencies within a county that exceeds 8 percent of the total amount of ad valorem property tax revenues that were allocated among all local agencies within that county for the fiscal year immediately preceding the fiscal year for which subparagraph (A) is suspended.

(2) (A) Except as otherwise provided in subparagraphs (B) and (C), restrict the authority of a city, county, or city and county to impose a tax rate under, or change the method of distributing revenues derived under, the Bradley-Burns Uniform Local Sales and Use Tax Law set forth in Part 1.5 (commencing with Section 7200) of Division 2 of the Revenue and Taxation Code, as that law read on November 3, 2004. The restriction imposed by this subparagraph also applies to the entitlement of a city, county, or city and county to the change in tax rate resulting from the end of the revenue exchange period, as defined in Section 7203.1 of the Revenue and Taxation Code as that section read on November 3, 2004.

(B) The Legislature may change by statute the method of distributing the revenues derived under a use tax imposed pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law to allow the State to participate in an interstate compact or to comply with federal law.

(C) The Legislature may authorize by statute two or more specifically identified local agencies within a county, with the approval of the governing body of each of those agencies, to enter into a contract to exchange allocations of ad valorem property tax revenues for revenues derived from a tax rate imposed under the Bradley-Burns Uniform Local Sales and Use Tax Law. The exchange under this subparagraph of revenues derived from a tax rate imposed under that law shall not require voter approval for the continued imposition of any portion of an existing tax rate from which those revenues are derived.

(3) Except as otherwise provided in subparagraph (C) of paragraph (2), change for any fiscal year the pro rata shares in which ad valorem property tax revenues are allocated among local agencies in a county other than pursuant to a bill passed in each house of the Legislature by rollcall vote entered in the journal, two-thirds of the membership concurring.

(4) Extend beyond the revenue exchange period, as defined in Section 7203.1 of the Revenue and Taxation Code as that section read on November 3, 2004, the suspension of the authority, set forth in that section on that date, of a city, county, or city and county to impose a sales and use tax rate under the Bradley-Burns Uniform Local Sales and Use Tax Law.

(5) Reduce, during any period in which the rate authority suspension described in paragraph (4) is operative, the payments to a city, county, or city and county that are required by Section 97.68 of the Revenue and Taxation Code, as that section read on November 3, 2004.

(6) Restrict the authority of a local entity to impose a transactions and use tax rate in accordance with the Transactions and Use Tax Law (Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code), or change the method for distributing revenues derived under a transaction and use tax rate imposed under that law, as it read on November 3, 2004.

(b) For purposes of this section, the following definitions apply:

(1) ''Ad valorem property tax revenues'' means all revenues derived from the tax collected by a county under subdivision (a) of Section 1 of Article XIII A, regardless of any of this revenue being otherwise classified by statute.

(2) ''Local agency'' has the same meaning as specified in Section 95 of the Revenue and Taxation Code as that section read on November 3, 2004. [*New section adopted November 2, 2004.*]

In the case of an insurer transacting title insurance in this State, the ''basis of the annual tax'' is, in respect to each year, all income upon business done in this State, except:

(2) Rents from real property.

(3) Profits from the sale or other disposition of investments.

(4) Income from investments.

''Investments'' as used in this subdivision includes property acquired by such insurer in the settlement or adjustment of claims against it but excludes investments in title plants and title records. In the case of an insurer transacting title insurance in this State which has a trust department and does a trust business under the banking laws of this State, there shall be excluded from the basis of the annual tax imposed by this section, the income of, and from the assets of, such trust department and such trust business, if such income is taxed by this State or included in the measure of any tax imposed by this State.

(g) Every insurer transacting the business of ocean marine insurance in this State shall annually pay to the State a tax measured by that proportion of the underwriting profit of such insurer from such insurance written in the United States, which the gross premiums of the insurer from such insurance written in this State bear to the gross premiums of the insurer from such insurance written within the United States, at the rate of 5 per centum, which tax shall be in lieu of all other taxes and licenses, state, county and municipal, upon such insurer, except taxes upon real estate, and such other taxes as may be assessed or levied against such insurer on account of any other class of insurance written by it. The Legislature shall define the terms ''ocean marine insurance'' and ''underwriting profit,'' and shall provide for the assessment, levy, collection and enforcement of the ocean marine tax.

(c) Notwithstanding any other provisions of law or of this Constitution, school districts, community college districts, and county offices of education may levy a 55 percent vote ad valorem tax pursuant to subdivision (b). [*As amended November 7, 2000. Initiative measure.*]

[*Valuation of Real Property—Appraised Value After 1975 Assessment—Replacement Dwelling*]

SEC. 2. (a) The ''full cash value'' means the county assessor's valuation of real property as shown on the 1975–76 tax bill under ''full cash value'' or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. All real property not already assessed up to the 1975–76 full cash value may be reassessed to reflect that valuation. For purposes of this section, ''newly constructed'' does not include real property that is reconstructed after a disaster, as declared by the Governor, where the fair market value of the real property, as reconstructed, is comparable to its fair market value prior to the disaster. Also, the term ''newly constructed'' does not include the portion of reconstruction or improvement to a structure, constructed of unreinforced masonry bearing wall construction, necessary to comply with any local ordinance relating to seismic safety during the first 15 years following that reconstruction or improvement.

However, the Legislature may provide that, under appropriate circumstances and pursuant to definitions and procedures established by the Legislature, any person over the age of 55 years who resides in property that is eligible for the homeowner's exemption under subdivision (k) of Section 3 of Article XIII and any implementing legislation may transfer the base year value of the property entitled to exemption, with the adjustments authorized by subdivision (b), to any replacement dwelling of equal or lesser value located within the same county and purchased or newly constructed by that person as his or her principal residence within two years of the sale of the original property. For purposes of this section, ''any person over the age of 55 years'' includes a married couple one member of

which is over the age of 55 years. For purposes of this section, ''replacement dwelling'' means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, and any land on which it may be situated. For purposes of this section, a two-dwelling unit shall be considered as two separate single-family dwellings. This paragraph shall apply to any replacement dwelling that was purchased or newly constructed on or after November 5, 1986.

In addition, the Legislature may authorize each county board of supervisors, after consultation with the local affected agencies within the county's boundaries, to adopt an ordinance making the provisions of this subdivision relating to transfer of base year value also applicable to situations in which the replacement dwellings are located in that county and the original properties are located in another county within this State. For purposes of this paragraph, ''local affected agency'' means any city, special district, school district, or community college district that receives an annual property tax revenue allocation. This paragraph shall apply to any replacement dwelling that was purchased or newly constructed on or after the date the county adopted the provisions of this subdivision relating to transfer of base year value, but shall not apply to any replacement dwelling that was purchased or newly constructed before November 9, 1988.

The Legislature may extend the provisions of this subdivision relating to the transfer of base year values from original properties to replacement dwellings of homeowners over the age of 55 years to severely disabled homeowners, but only with respect to those replacement dwellings purchased or newly constructed on or after the effective date of this paragraph.

[*Full Cash Value Reflecting Inflationary Rate*]

(b) The full cash value base may reflect from year to year the inflationary rate not to exceed 2 percent for any given year or reduction as shown in the consumer price index or comparable data for the area under taxing jurisdiction, or may be reduced to reflect substantial damage, destruction, or other factors causing a decline in value.

[*''Newly Constructed''*]

(c) For purposes of subdivision (a), the Legislature may provide that the term ''newly constructed'' does not include any of the following:

(1) The construction or addition of any active solar energy system.

(2) The construction or installation of any fire sprinkler system, other fire extinguishing system, fire detection system, or fire-related egress improvement, as defined by the Legislature, that is constructed or installed after the effective date of this paragraph.

(3) The construction, installation, or modification on or after the effective date of this paragraph of any portion or structural component of a

single- or multiple-family dwelling that is eligible for the homeowner's exemption if the construction, installation, or modification is for the purpose of making the dwelling more accessible to a severely disabled person.

(4) The construction or installation of seismic retrofitting improvements or improvements utilizing earthquake hazard mitigation technologies, that are constructed or installed in existing buildings after the effective date of this paragraph. The Legislature shall define eligible improvements. This exclusion does not apply to seismic safety reconstruction or improvements that qualify for exclusion pursuant to the last sentence of the first paragraph of subdivision (a).

(5) The construction, installation, removal, or modification on or after the effective date of this paragraph of any portion or structural component of an existing building or structure if the construction, installation, removal, or modification is for the purpose of making the building more accessible to, or more usable by, a disabled person.

[*"Change in Ownership"*]

(d) For purposes of this section, the term "change in ownership" does not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from the property replaced by eminent domain proceedings, by acquisition by a public entity, or governmental action that has resulted in a judgment of inverse condemnation. The real property acquired shall be deemed comparable to the property replaced if it is similar in size, utility, and function, or if it conforms to state regulations defined by the Legislature governing the relocation of persons displaced by governmental actions. The provisions of this subdivision shall be applied to any property acquired after March 1, 1975, but shall affect only those assessments of that property that occur after the provisions of this subdivision take effect.

[*Disasters—Replacement Property*]

(e) (1) Notwithstanding any other provision of this section, the Legislature shall provide that the base year value of property that is substantially damaged or destroyed by a disaster, as declared by the Governor, may be transferred to comparable property within the same county that is acquired or newly constructed as a replacement for the substantially damaged or destroyed property.

(2) Except as provided in paragraph (3), this subdivision shall apply to any comparable replacement property acquired or newly constructed on or after July 1, 1985, and to the determination of base year values for the 1985–86 fiscal year and fiscal years thereafter.

(3) In addition to the transfer of base year value of property within the same county that is permitted by paragraph (1), the Legislature may au-

thorize each county board of supervisors to adopt, after consultation with affected local agencies within the county, an ordinance allowing the transfer of the base year value of property that is located within another county in the State and is substantially damaged or destroyed by a disaster, as declared by the Governor, to comparable replacement property of equal or lesser value that is located within the adopting county and is acquired or newly constructed within three years of the substantial damage or destruction of the original property as a replacement for that property. The scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to this paragraph shall not exceed the scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to subdivision (a). For purposes of this paragraph, ''affected local agency'' means any city, special district, school district, or community college district that receives an annual allocation of ad valorem property tax revenues. This paragraph shall apply to any comparable replacement property that is acquired or newly constructed as a replacement for property substantially damaged or destroyed by a disaster, as declared by the Governor, occurring on or after October 20, 1991, and to the determination of base year values for the 1991–92 fiscal year and fiscal years thereafter.

(f) For the purposes of subdivision (e):

(1) Property is substantially damaged or destroyed if it sustains physical damage amounting to more than 50 percent of its value immediately before the disaster. Damage includes a diminution in the value of property as a result of restricted access caused by the disaster.

(2) Replacement property is comparable to the property substantially damaged or destroyed if it is similar in size, utility, and function to the property that it replaces, and if the fair market value of the acquired property is comparable to the fair market value of the replaced property prior to the disaster.

[*Real Property Transfers between Spouses*]

(g) For purposes of subdivision (a), the terms ''purchased'' and ''change in ownership'' do not include the purchase or transfer of real property between spouses since March 1, 1975, including, but not limited to, all of the following:

(1) Transfers to a trustee for the beneficial use of a spouse, or the surviving spouse of a deceased transferor, or by a trustee of such a trust to the spouse of the trustor.

(2) Transfers to a spouse that take effect upon the death of a spouse.

(3) Transfers to a spouse or former spouse in connection with a property settlement agreement or decree of dissolution of a marriage or legal separation.

(4) The creation, transfer, or termination, solely between spouses, of any coowner's interest.

(5) The distribution of a legal entity's property to a spouse or former spouse in exchange for the interest of the spouse in the legal entity in connection with a property settlement agreement or a decree of dissolution of a marriage or legal separation.

[*Real Property Transfers between Family Members*]

(h) (1) For purposes of subdivision (a), the terms ''purchased'' and ''change in ownership'' do not include the purchase or transfer of the principal residence of the transferor in the case of a purchase or transfer between parents and their children, as defined by the Legislature, and the purchase or transfer of the first one million dollars ($1,000,000) of the full cash value of all other real property between parents and their children, as defined by the Legislature. This subdivision shall apply to both voluntary transfers and transfers resulting from a court order or judicial decree.

(2) (A) Subject to subparagraph (B), commencing with purchases or transfers that occur on or after the date upon which the measure adding this paragraph becomes effective, the exclusion established by paragraph (1) also applies to a purchase or transfer of real property between grandparents and their grandchild or grandchildren, as defined by the Legislature, that otherwise qualifies under paragraph (1), if all of the parents of that grandchild or those grandchildren, who qualify as the children of the grandparents, are deceased as of the date of the purchase or transfer.

(B) A purchase or transfer of a principal residence shall not be excluded pursuant to subparagraph (A) if the transferee grandchild or grandchildren also received a principal residence, or interest therein, through another purchase or transfer that was excludable pursuant to paragraph (1). The full cash value of any real property, other than a principal residence, that was transferred to the grandchild or grandchildren pursuant to a purchase or transfer that was excludable pursuant to paragraph (1), and the full cash value of a principal residence that fails to qualify for exclusion as a result of the preceding sentence, shall be included in applying, for purposes of subparagraph (A), the one million dollar ($1,000,000) full cash value limit specified in paragraph (1).

[*Contaminated Property*]

(i) (1) Notwithstanding any other provision of this section, the Legislature shall provide with respect to a qualified contaminated property, as defined in paragraph (2), that either, but not both, of the following shall apply:

(A) (i) Subject to the limitation of clause (ii), the base year value of the qualified contaminated property, as adjusted as authorized by subdivision (b), may be transferred to a replacement property that is acquired or newly

constructed as a replacement for the qualified contaminated property, if the replacement real property has a fair market value that is equal to or less than the fair market value of the qualified contaminated property if that property were not contaminated and, except as otherwise provided by this clause, is located within the same county. The base year value of the qualified contaminated property may be transferred to a replacement real property located within another county if the board of supervisors of that other county has, after consultation with the affected local agencies within that county, adopted a resolution authorizing an intercounty transfer of base year value as so described.

(ii) This subparagraph applies only to replacement property that is acquired or newly constructed within five years after ownership in the qualified contaminated property is sold or otherwise transferred.

(B) In the case in which the remediation of the environmental problems on the qualified contaminated property requires the destruction of, or results in substantial damage to, a structure located on that property, the term ''new construction'' does not include the repair of a substantially damaged structure, or the construction of a structure replacing a destroyed structure on the qualified contaminated property, performed after the remediation of the environmental problems on that property, provided that the repaired or replacement structure is similar in size, utility, and function to the original structure.

(2) For purposes of this subdivision, ''qualified contaminated property'' means residential or nonresidential real property that is all of the following:

(A) In the case of residential real property, rendered uninhabitable, and in the case of nonresidential real property, rendered unusable, as the result of either environmental problems, in the nature of and including, but not limited to, the presence of toxic or hazardous materials, or the remediation of those environmental problems, except where the existence of the environmental problems was known to the owner, or to a related individual or entity as described in paragraph (3), at the time the real property was acquired or constructed. For purposes of this subparagraph, residential real property is ''uninhabitable'' if that property, as a result of health hazards caused by or associated with the environmental problems, is unfit for human habitation, and nonresidential real property is ''unusable'' if that property, as a result of health hazards caused by or associated with the environmental problems, is unhealthy and unsuitable for occupancy.

(B) Located on a site that has been designated as a toxic or environmental hazard or as an environmental cleanup site by an agency of the State of California or the federal government.

(C) Real property that contains a structure or structures thereon prior to the completion of environmental cleanup activities, and that structure or structures are substantially damaged or destroyed as a result of those environmental cleanup activities.

(D) Stipulated by the lead governmental agency, with respect to the environmental problems or environmental cleanup of the real property, not to have been rendered uninhabitable or unusable, as applicable, as described in subparagraph (A), by any act or omission in which an owner of that real property participated or acquiesced.

(3) It shall be rebuttably presumed that an owner of the real property participated or acquiesced in any act or omission that rendered the real property uninhabitable or unusable, as applicable, if that owner is related to any individual or entity that committed that act or omission in any of the following ways:

(A) Is a spouse, parent, child, grandparent, grandchild, or sibling of that individual.

(B) Is a corporate parent, subsidiary, or affiliate of that entity.

(C) Is an owner of, or has control of, that entity.

(D) Is owned or controlled by that entity.

If this presumption is not overcome, the owner shall not receive the relief provided for in subparagraph (A) or (B) of paragraph (1). The presumption may be overcome by presentation of satisfactory evidence to the assessor, who shall not be bound by the findings of the lead governmental agency in determining whether the presumption has been overcome.

(4) This subdivision applies only to replacement property that is acquired or constructed on or after January 1, 1995, and to property repairs performed on or after that date.

[*Effectiveness of Amendments*]

(j) Unless specifically provided otherwise, amendments to this section adopted prior to November 1, 1988, shall be effective for changes in ownership that occur, and new construction that is completed, after the effective date of the amendment. Unless specifically provided otherwise, amendments to this section adopted after November 1, 1988, shall be effective for changes in ownership that occur, and new construction that is completed, on or after the effective date of the amendment. ## ARTICLE XIII B*

GOVERNMENT SPENDING LIMITATION

[*Total Annual Appropriations*]

SECTION 1. The total annual appropriations subject to limitation of the State and of each local government shall not exceed the appropriations limit of the entity of government for the prior year adjusted for the change in the cost of living and the change in population, except as otherwise provided in this article. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Appropriations Limit Annual Calculation—Review*]

SEC. 1.5. The annual calculation of the appropriations limit under this article for each entity of local government shall be reviewed as part of an annual financial audit. [*New section adopted June 5, 1990. Operative July 1, 1990.*]

* New Article XIII B adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.

[*Revenues in Excess of Limitation*]

SEC. 2. (a)(1) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be transferred and allocated, from a fund established for that purpose, pursuant to Section 8.5 of Article XVI.

(2) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years.

(b) All revenues received by an entity of government, other than the State, in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the entity in compliance with this article during that fiscal year and the fiscal year immediately following it shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Appropriations Limit—Adjustments*]

SEC. 3. The appropriations limit for any fiscal year pursuant to Sec. 1 shall be adjusted as follows:

(a) In the event that the financial responsibility of providing services is transferred, in whole or in part, whether by annexation, incorporation or otherwise, from one entity of government to another, then for the year in which such transfer becomes effective the appropriations limit of the transferee entity shall be increased by such reasonable amount as the said entities shall mutually agree and the appropriations limit of the transferor entity shall be decreased by the same amount.

(b) In the event that the financial responsibility of providing services is transferred, in whole or in part, from an entity of government to a private entity, or the financial source for the provision of services is transferred, in whole or in part, from other revenues of an entity of government, to regulatory licenses, user charges or user fees, then for the year of such transfer the appropriations limit of such entity of government shall be decreased accordingly.

(c) (1) In the event an emergency is declared by the legislative body of an entity of government, the appropriations limit of the affected entity of government may be exceeded provided that the appropriations limits in the following three years are reduced accordingly to prevent an aggregate increase in appropriations resulting from the emergency.

(2) In the event an emergency is declared by the Governor, appropriations approved by a two-thirds vote of the legislative body of an affected entity of government to an emergency account for expenditures relating to that emergency shall not constitute appropriations subject to limitation. As used in this paragraph, ''emergency'' means the existence, as declared by the Governor, of conditions of disaster or extreme peril to the safety of persons and property within the State, or parts thereof, caused by such conditions as attack or probable or imminent attack by an enemy of the United States, fire, flood, drought, storm, civil disorder, earthquake, or volcanic eruption. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Contingency, Emergency, Unemployment, Etc., Funds—Contributions—Withdrawals—Transfers*]

SEC. 5. Each entity of government may establish such contingency, emergency, unemployment, reserve, retirement, sinking fund, trust, or similar funds as it shall deem reasonable and proper. Contributions to any such fund, to the extent that such contributions are derived from the proceeds of taxes, shall for purposes of this Article constitute appropriations subject to limitation in the year of contribution. Neither withdrawals from any such fund, nor expenditures of (or authorizations to expend) such withdrawals, nor transfers between or among such funds, shall for purposes of this Article constitute appropriations subject to limitation. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Prudent State Reserve*]

SEC. 5.5. *Prudent State Reserve.* The Legislature shall establish a prudent state reserve fund in such amount as it shall deem reasonable and necessary. [*Mandates of New Programs or Higher Levels of Service*]

SEC. 6. (a) Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State

shall provide a subvention of funds to reimburse that local government for the costs of the program or increased level of service, except that the Legislature may, but need not, provide a subvention of funds for the following mandates:

(1) Legislative mandates requested by the local agency affected.

(2) Legislation defining a new crime or changing an existing definition of a crime.

(3) Legislative mandates enacted prior to January 1, 1975, or executive orders or regulations initially implementing legislation enacted prior to January 1, 1975.

(b) (1) Except as provided in paragraph (2), for the 2005–06 fiscal year and every subsequent fiscal year, for a mandate for which the costs of a local government claimant have been determined in a preceding fiscal year to be payable by the State pursuant to law, the Legislature shall either appropriate, in the annual Budget Act, the full payable amount that has not been previously paid, or suspend the operation of the mandate for the fiscal year for which the annual Budget Act is applicable in a manner prescribed by law.

(2) Payable claims for costs incurred prior to the 2004–05 fiscal year that have not been paid prior to the 2005–06 fiscal year may be paid over a term of years, as prescribed by law.

(3) Ad valorem property tax revenues shall not be used to reimburse a local government for the costs of a new program or higher level of service.

(4) This subdivision applies to a mandate only as it affects a city, county, city and county, or special district.

(5) This subdivision shall not apply to a requirement to provide or recognize any procedural or substantive protection, right, benefit, or employment status of any local government employee or retiree, or of any local government employee organization, that arises from, affects, or directly relates to future, current, or past local government employment and that constitutes a mandate subject to this section.

(c) A mandated new program or higher level of service includes a transfer by the Legislature from the State to cities, counties, cities and counties, or special districts of complete or partial financial responsibility for a required program for which the State previously had complete or partial financial responsibility. [*As amended November 2, 2004.*]

[*Bonded Indebtedness*]

SEC. 7. Nothing in this Article shall be construed to impair the ability of the State or of any local government to meet its obligations with respect to existing or future bonded indebtedness. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Definitions*]

SEC. 8. As used in this article and except as otherwise expressly provided herein:

(a) ''Appropriations subject to limitation'' of the State means any authorization to expend during a fiscal year the proceeds of taxes levied by or for the State, exclusive of state subventions for the use and operation of local government (other than subventions made pursuant to Section 6) and further exclusive of refunds of taxes, benefit payments from retirement, unemployment insurance, and disability insurance funds.

(b) ''Appropriations subject to limitation'' of an entity of local government means any authorization to expend during a fiscal year the proceeds of taxes levied by or for that entity and the proceeds of state subventions to that entity (other than subventions made pursuant to Section 6) exclusive of refunds of taxes.

(c) ''Proceeds of taxes'' shall include, but not be restricted to, all tax revenues and the proceeds to an entity of government, from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service, and (2) the investment of tax revenues. With respect to any local government, ''proceeds of taxes'' shall include subventions received from the State, other than pursuant to Section 6, and, with respect to the State, proceeds of taxes shall exclude such subventions.

(d) ''Local government'' means any city, county, city and county, school district, special district, authority, or other political subdivision of or within the State.

(e) (1) ''Change in the cost of living'' for the State, a school district, or a community college district means the percentage change in California per capita personal income from the preceding year.

(2) ''Change in the cost of living'' for an entity of local government, other than a school district or a community college district, shall be either (A) the percentage change in California per capita personal income from the preceding year, or (B) the percentage change in the local assessment roll from the preceding year for the jurisdiction due to the addition of local nonresidential new construction. Each entity of local government shall select its change in the cost of living pursuant to this paragraph annually by a recorded vote of the entity's governing body.

(f) ''Change in population'' of any entity of government, other than the State, a school district, or a community college district, shall be determined by a method prescribed by the Legislature.

''Change in population'' of a school district or a community college district shall be the percentage change in the average daily attendance of the school district or community college district from the preceding fiscal year, as determined by a method prescribed by the Legislature.

''Change in population'' of the State shall be determined by adding (1) the percentage change in the State's population multiplied by the percentage of the State's budget in the prior fiscal year that is expended for other than educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges, and (2) the percentage change in the total statewide average daily attendance in kindergarten and grades one to 12, inclusive, and the community colleges, multiplied by the percentage of the State's budget in the prior fiscal year that is expended for educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges.

Any determination of population pursuant to this subdivision, other than that measured by average daily attendance, shall be revised, as necessary, to reflect the periodic census conducted by the United States Department of Commerce, or successor department.

(g) ''Debt service'' means appropriations required to pay the cost of interest and redemption charges, including the funding of any reserve or sinking fund required in connection therewith, on indebtedness existing or legally authorized as of January 1, 1979, or on bonded indebtedness thereafter approved according to law by a vote of the electors of the issuing entity voting in an election for that purpose.

(h) The ''appropriations limit'' of each entity of government for each fiscal year is that amount which total annual appropriations subject to limitation may not exceed under Sections 1 and 3. However, the ''appropriations limit'' of each entity of government for fiscal year 1978–79 is the total of the appropriations subject to limitation of the entity for that fiscal year. For fiscal year 1978–79, state subventions to local governments, exclusive of federal grants, are deemed to have been derived from the proceeds of state taxes.

(i) Except as otherwise provided in Section 5, ''appropriations subject to limitation'' do not include local agency loan funds or indebtedness funds, investment (or authorizations to invest) funds of the State, or of an entity of local government in accounts at banks or savings and loan associations or in liquid securities. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 9. ''Appropriations subject to limitation'' for each entity of government do not include:

(a) Appropriations for debt service.

(b) Appropriations required to comply with mandates of the courts or the federal government which, without discretion, require an expenditure for additional services or which unavoidably make the provision of existing services more costly.

(c) Appropriations of any special district which existed on January 1, 1978, and which did not as of the 1977–78 fiscal year levy an ad valorem tax on property in excess of 12½ cents per $100 of assessed value; or the appropriations of any special district then existing or thereafter created by a vote of the people, which is totally funded by other than the proceeds of taxes.

(2) Sales and use taxes collected on that increment of the tax specified in paragraph (1).

(3) That portion of the weight fee imposed on commercial vehicles which exceeds the weight fee imposed on those vehicles on January 1, 1990. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Effective Date of Article*]

SEC. 10. This Article shall be effective commencing with the first day of the fiscal year following its adoption. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Appropriations Limit on or after July 1, 1990*]

SEC. 10.5. For fiscal years beginning on or after July 1, 1990, the appropriations limit of each entity of government shall be the appropriations limit for the 1986–87 fiscal year adjusted for the changes made from that fiscal year pursuant to this article, as amended by the measure adding this section, adjusted for the changes required by Section 3. [*New section adopted June 5, 1990. Operative July 1, 1990.*]

[*Category Added or Removed from Appropriations Subject to Limitation—Severability*]

If any appropriation category shall be added to or removed from appropriations subject to limitation, pursuant to final judgment of any court of competent jurisdiction and any appeal therefrom, the appropriations limit shall be adjusted accordingly. If any section, part, clause or phrase in this Article is for any reason held invalid or unconstitutional, the remaining portions of this Article shall not be affected but shall remain in full force and effect. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 12. ''Appropriations subject to limitation'' of each entity of government shall not include appropriations of revenue from the Cigarette and Tobacco Products Surtax Fund created by the Tobacco Tax and Health Protection Act of 1988. [*New section adopted November 8, 1988. Initiative measure.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 13. ''Appropriations subject to limitation'' of each entity of government shall not include appropriations of revenue from the California Children and Families First Trust Fund created by the California Children and Families First Act of 1998. No adjustment in the appropriations limit of any entity of government shall be required pursuant to Section 3 as a result of revenue being deposited in or appropriated from the California Children and Families First Trust Fund. The surtax created by the California Children and Families First Act of 1998 shall not be considered General Fund revenues for the purposes of Section 8 of Article XVI. [*New section adopted November 3, 1998. Initiative measure.*]

SECTION 1. Definitions. As used in this article:

(a) ''General tax'' means any tax imposed for general governmental purposes.

(b) ''Local government'' means any county, city, city and county, including a charter city or county, any special district, or any other local or regional governmental entity.

(c) ''Special district'' means an agency of the State, formed pursuant to general law or a special act, for the local performance of governmental or proprietary functions with limited geographic boundaries including, but not limited to, school districts and redevelopment agencies.

(d) ''Special tax'' means any tax imposed for specific purposes, including a tax imposed for specific purposes, which is placed into a general fund. [*New section adopted November 5, 1996. Initiative measure.*]

* New Article XIII C adopted November 5, 1996. Initiative measure.

SEC. 2. Local Government Tax Limitation. Notwithstanding any other provision of this Constitution:

(a) All taxes imposed by any local government shall be deemed to be either general taxes or special taxes. Special purpose districts or agencies, including school districts, shall have no power to levy general taxes.

(b) No local government may impose, extend, or increase any general tax unless and until that tax is submitted to the electorate and approved by a majority vote. A general tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. The election required by this subdivision shall be consolidated with a regularly scheduled general election for members of the governing body of the local government, except in cases of emergency declared by a unanimous vote of the governing body.

(c) Any general tax imposed, extended, or increased, without voter approval, by any local government on or after January 1, 1995, and prior to the effective date of this article, shall continue to be imposed only if approved by a majority vote of the voters voting in an election on the issue of the imposition, which election shall be held within two years of the effective date of this article and in compliance with subdivision (b).

(d) No local government may impose, extend, or increase any special tax unless and until that tax is submitted to the electorate and approved by a two-thirds vote. A special tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 3. Initiative Power for Local Taxes, Assessments, Fees and Charges. Notwithstanding any other provision of this Constitution, including, but not limited to, Sections 8 and 9 of Article II, the initiative power shall not be prohibited or otherwise limited in matters of reducing or repealing any local tax, assessment, fee or charge. The power of initiative to affect local taxes, assessments, fees and charges shall be applicable to all local governments and neither the Legislature nor any local government charter shall impose a signature requirement higher than that applicable to statewide statutory initiatives. [*New section adopted November 5, 1996. Initiative measure.*]

## ARTICLE XIII D*

### ASSESSMENT AND PROPERTY-RELATED FEE REFORM

SECTION 1. Application. Notwithstanding any other provision of law, the provisions of this article shall apply to all assessments, fees and charges, whether imposed pursuant to state statute or local government charter authority. Nothing in this article or Article XIII C shall be construed to:

* New Article XIII D adopted November 5, 1996. Initiative measure.

(a) Provide any new authority to any agency to impose a tax, assessment, fee, or charge.

(b) Affect existing laws relating to the imposition of fees or charges as a condition of property development.

(c) Affect existing laws relating to the imposition of timber yield taxes. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 2. Definitions. As used in this article:

(a) ''Agency'' means any local government as defined in subdivision (b) of Section 1 of Article XIII C.

(b) ''Assessment'' means any levy or charge upon real property by an agency for a special benefit conferred upon the real property. ''Assessment'' includes, but is not limited to, ''special assessment,'' ''benefit assessment,'' ''maintenance assessment'' and ''special assessment tax.''

(c) ''Capital cost'' means the cost of acquisition, installation, construction, reconstruction, or replacement of a permanent public improvement by an agency.

(d) ''District'' means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service.

(e) ''Fee'' or ''charge'' means any levy other than an ad valorem tax, a special tax, or an assessment, imposed by an agency upon a parcel or upon a person as an incident of property ownership, including a user fee or charge for a property-related service.

(f) ''Maintenance and operation expenses'' means the cost of rent, repair, replacement, rehabilitation, fuel, power, electrical current, care, and supervision necessary to properly operate and maintain a permanent public improvement.

(g) ''Property ownership'' shall be deemed to include tenancies of real property where tenants are directly liable to pay the assessment, fee, or charge in question.

(h) ''Property-related service'' means a public service having a direct relationship to property ownership.

(i) ''Special benefit'' means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute ''special benefit.'' [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 3. Property Taxes, Assessments, Fees and Charges Limited. (a) No tax, assessment, fee, or charge shall be assessed by any agency upon any parcel of property or upon any person as an incident of property ownership except:

(1) The ad valorem property tax imposed pursuant to Article XIII and Article XIII A.

(2) Any special tax receiving a two-thirds vote pursuant to Section 4 of Article XIII A.

(3) Assessments as provided by this article.

(4) Fees or charges for property-related services as provided by this article.

(b) For purposes of this article, fees for the provision of electrical or gas service shall not be deemed charges or fees imposed as an incident of property ownership. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 4. Procedures and Requirements for All Assessments. (a) An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property-related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel. Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit.

(b) All assessments shall be supported by a detailed engineer's report prepared by a registered professional engineer certified by the State of California.

(c) The amount of the proposed assessment for each identified parcel shall be calculated and the record owner of each parcel shall be given written notice by mail of the proposed assessment, the total amount thereof chargeable to the entire district, the amount chargeable to the owner's particular parcel, the duration of the payments, the reason for the assessment and the basis upon which the amount of the proposed assessment was calculated, together with the date, time, and location of a public hearing on the proposed assessment. Each notice shall also include, in a conspicuous place thereon, a summary of the procedures applicable to the completion, return, and tabulation of the ballots required pursuant to subdivision (d), including a disclosure statement that the existence of a majority protest, as defined in subdivision (e), will result in the assessment not being imposed.

(d) Each notice mailed to owners of identified parcels within the district pursuant to subdivision (c) shall contain a ballot which includes the agency's address for receipt of the ballot once completed by any owner re-

ceiving the notice whereby the owner may indicate his or her name, reasonable identification of the parcel, and his or her support or opposition to the proposed assessment.

(e) The agency shall conduct a public hearing upon the proposed assessment not less than 45 days after mailing the notice of the proposed assessment to record owners of each identified parcel. At the public hearing, the agency shall consider all protests against the proposed assessment and tabulate the ballots. The agency shall not impose an assessment if there is a majority protest. A majority protest exists if, upon the conclusion of the hearing, ballots submitted in opposition to the assessment exceed the ballots submitted in favor of the assessment. In tabulating the ballots, the ballots shall be weighted according to the proportional financial obligation of the affected property.

(f) In any legal action contesting the validity of any assessment, the burden shall be on the agency to demonstrate that the property or properties in question receive a special benefit over and above the benefits conferred on the public at large and that the amount of any contested assessment is proportional to, and no greater than, the benefits conferred on the property or properties in question.

(g) Because only special benefits are assessable, electors residing within the district who do not own property within the district shall not be deemed under this Constitution to have been deprived of the right to vote for any assessment. If a court determines that the Constitution of the United States or other federal law requires otherwise, the assessment shall not be imposed unless approved by a two-thirds vote of the electorate in the district in addition to being approved by the property owners as required by subdivision (e). [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 5. Effective Date. Pursuant to subdivision (a) of Section 10 of Article II, the provisions of this article shall become effective the day after the election unless otherwise provided. Beginning July 1, 1997, all existing, new, or increased assessments shall comply with this article. Notwithstanding the foregoing, the following assessments existing on the effective date of this article shall be exempt from the procedures and approval process set forth in Section 4:

(a) Any assessment imposed exclusively to finance the capital costs or maintenance and operation expenses for sidewalks, streets, sewers, water, flood control, drainage systems or vector control. Subsequent increases in such assessments shall be subject to the procedures and approval process set forth in Section 4.

(b) Any assessment imposed pursuant to a petition signed by the persons owning all of the parcels subject to the assessment at the time the as-

sessment is initially imposed. Subsequent increases in such assessments shall be subject to the procedures and approval process set forth in Section 4.

(c) Any assessment the proceeds of which are exclusively used to repay bonded indebtedness of which the failure to pay would violate the Contract Impairment Clause of the Constitution of the United States.

(d) Any assessment which previously received majority voter approval from the voters voting in an election on the issue of the assessment. Subsequent increases in those assessments shall be subject to the procedures and approval process set forth in Section 4. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 6. Property-Related Fees and Charges. (a) Procedures for New or Increased Fees and Charges. An agency shall follow the procedures pursuant to this section in imposing or increasing any fee or charge as defined pursuant to this article, including, but not limited to, the following:

(1) The parcels upon which a fee or charge is proposed for imposition shall be identified. The amount of the fee or charge proposed to be imposed upon each parcel shall be calculated. The agency shall provide written notice by mail of the proposed fee or charge to the record owner of each identified parcel upon which the fee or charge is proposed for imposition, the amount of the fee or charge proposed to be imposed upon each, the basis upon which the amount of the proposed fee or charge was calculated, the reason for the fee or charge, together with the date, time, and location of a public hearing on the proposed fee or charge.

(2) The agency shall conduct a public hearing upon the proposed fee or charge not less than 45 days after mailing the notice of the proposed fee or charge to the record owners of each identified parcel upon which the fee or charge is proposed for imposition. At the public hearing, the agency shall consider all protests against the proposed fee or charge. If written protests against the proposed fee or charge are presented by a majority of owners of the identified parcels, the agency shall not impose the fee or charge.

(b) Requirements for Existing, New or Increased Fees and Charges. A fee or charge shall not be extended, imposed, or increased by any agency unless it meets all of the following requirements:

(1) Revenues derived from the fee or charge shall not exceed the funds required to provide the property-related service.

(2) Revenues derived from the fee or charge shall not be used for any purpose other than that for which the fee or charge was imposed.

(3) The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel.

(4) No fee or charge may be imposed for a service unless that service is actually used by, or immediately available to, the owner of the property in question. Fees or charges based on potential or future use of a service are not permitted. Standby charges, whether characterized as charges or assessments, shall be classified as assessments and shall not be imposed without compliance with Section 4.

(5) No fee or charge may be imposed for general governmental services including, but not limited to, police, fire, ambulance or library services, where the service is available to the public at large in substantially the same manner as it is to property owners.

Reliance by an agency on any parcel map, including, but not limited to, an assessor's parcel map, may be considered a significant factor in determining whether a fee or charge is imposed as an incident of property ownership for purposes of this article. In any legal action contesting the validity of a fee or charge, the burden shall be on the agency to demonstrate compliance with this article.

(c) Voter Approval for New or Increased Fees and Charges. Except for fees or charges for sewer, water, and refuse collection services, no property-related fee or charge shall be imposed or increased unless and until that fee or charge is submitted and approved by a majority vote of the property owners of the property subject to the fee or charge or, at the option of the agency, by a two-thirds vote of the electorate residing in the affected area. The election shall be conducted not less than 45 days after the public hearing. An agency may adopt procedures similar to those for increases in assessments in the conduct of elections under this subdivision.

(d) Beginning July 1, 1997, all fees or charges shall comply with this section. [*New section adopted November 5, 1996. Initiative measure.*]

The Legislature is hereby expressly vested with plenary power, unlimited by any provision of this Constitution, to create, and enforce a complete system of workers' compensation, by appropriate legislation, and in that behalf to create and enforce a liability on the part of any or all persons to compensate any or all of their workers for injury or disability, and their dependents for death incurred or sustained by the said workers in the course of their employment, irrespective of the fault of any party. A complete system of workers' compensation includes adequate provisions for the comfort, health and safety and general welfare of any and all workers and those dependent upon them for support to the extent of relieving from the consequences of any injury or death incurred or sustained by workers in the course of their employment, irrespective of the fault of any party; also full provision for securing safety in places of employment; full provision for such medical, surgical, hospital and other remedial treatment as is requisite to cure and relieve from the effects of such injury; full provision for adequate insurance coverage against liability to pay or furnish compensation; full provision for regulating such insurance coverage in all its aspects, including the establishment and management of a state compensation insurance fund; full provision for otherwise securing the payment of compensation; and full provision for vesting power, authority and jurisdiction in an administrative body with all the requisite governmental functions to determine any dispute or matter arising under such legislation, to the end that the administration of such legislation shall accomplish substantial justice in all cases expeditiously, inexpensively, and without incumbrance of any character; all of which matters are ex-

tion 1132.8 of the Labor Code, as it reads on January 1, 1990, shall not exceed, for the duration of the strike, the average daily hours worked for the preceding six months, or if the program has been in operation for less than six months, the average for the period of operation.

[*Charges*]

No person, association, copartnership or corporation shall by charging any fee, bonus, commission, discount or other compensation receive from a borrower more than the interest authorized by this section upon any loan or forbearance of any money, goods or things in action.

[*Exemptions*]

However, none of the above restrictions shall apply to any obligations of, loans made by, or forbearances of, any building and loan association as defined in and which is operated under that certain act known as the ''Building and Loan Association Act,'' approved May 5, 1931, as amended, or to any corporation incorporated in the manner prescribed in and operating under that certain act entitled ''An act defining industrial loan companies, providing for their incorporation, powers and supervision,'' approved May 18, 1917, as amended, or any corporation incorporated in the manner prescribed in and operating under that certain act entitled ''An act defining credit unions, providing for their incorporation, powers, management and supervision,'' approved March 31, 1927, as amended or any duly licensed pawnbroker or personal property broker, or any loans made or arranged by any person licensed as a real estate broker by the State of California and secured in whole or in part by liens on real property, or any bank as defined in and operating under that certain act known as the ''Bank Act,'' approved March 1, 1909, as amended, or any bank created and operating under and pursuant to any laws of this State or of the United States of America or any nonprofit cooperative association organized under Chapter 1 (commencing with Section 54001) of Division 20 of the Food and Agricultural Code in loaning or advancing money in connection with any activity mentioned in said title or any corporation, association, syndicate, joint stock company, or partnership engaged exclusively in the business of marketing agricultural, horticultural, viticultural, dairy, live stock, poultry and bee products on a cooperative nonprofit basis in loaning or advancing money to the members thereof or in connection with any such business or any corporation securing money or credit from any federal intermediate credit bank, organized and existing pursuant to the provisions of an act of Congress entitled ''Agricultural Credits Act of 1923,'' as amended in loaning or advancing credit so secured, or any other class of persons authorized by statute, or to any successor in interest to any loan or forbearance exempted under this article, nor shall any such charge of any said exempted classes of persons be considered in any action or for any purpose as increasing or affecting or as connected with the rate of interest hereinbefore fixed. The Legislature may from time to time prescribe the maximum rate per annum of, or provide for the supervision, or the filing of a schedule of, or in any manner fix, regulate or limit, the fees, bonuses, commissions, discounts or other compensation which all or any of

the said exempted classes of persons may charge or receive from a borrower in connection with any loan or forbearance of any money, goods or things in action.

[*Judgments Rendered in Court—Rate of Interest*]

## ARTICLE XVI

### PUBLIC FINANCE

[*Heading as amended November 5, 1974.*]

[*State Indebtedness—Limitation—Two-thirds Vote to Submit Bond Law—Submission of Law to Electors*]

SECTION 1. The Legislature shall not, in any manner create any debt or debts, liability or liabilities, which shall, singly or in the aggregate with any previous debts or liabilities, exceed the sum of three hundred thousand dollars ($300,000), except in case of war to repel invasion or suppress insurrection, unless the same shall be authorized by law for some single object or work to be distinctly specified therein which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within 50 years of the time of the contracting thereof, and shall be irrepealable until the principal and interest thereon shall be paid and discharged, and such law may make provision for a sinking fund to pay the principal of such debt or liability to commence at a time after the incurring of such debt or liability of not more than a period of one-fourth of the time of maturity of such debt or liability; but no such law shall take effect unless it has been passed by a two-thirds vote of all the members elected to each house of the Legislature and until, at a general election or at a direct primary, it shall have been submitted to the people and shall

have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated or to the payment of the debt thereby created. Full publicity as to matters to be voted upon by the people is afforded by the setting out of the complete text of the proposed laws, together with the arguments for and against them, in the ballot pamphlet mailed to each elector preceding the election at which they are submitted, and the only requirement for publication of such law shall be that it be set out at length in ballot pamphlets which the Secretary of State shall cause to be printed. The Legislature may, at any time after the approval of such law by the people, reduce the amount of the indebtedness authorized by the law to an amount not less than the amount contracted at the time of the reduction, or it may repeal the law if no debt shall have been contracted in pursuance thereof.

Notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with the State Allocation Board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending or coming before such board for the allocation and apportionment of funds to school districts for school construction purposes or purposes related thereto.

Notwithstanding any other provision of this constitution, or of any bond act to the contrary, if any general obligation bonds of the State heretofore or hereafter authorized by vote of the people have been offered for sale and not sold, the Legislature may raise the maximum rate of interest payable on all general obligation bonds authorized but not sold, whether or not such bonds have been offered for sale, by a statute passed by a two-thirds vote of all members elected to each house thereof.

The provisions of Senate Bill No. 763† of the 1969 Regular Session, which authorize an increase of the state general obligation bond maximum interest rate from 5 percent to an amount not in excess of 7 percent and eliminate the maximum rate of interest payable on notes given in anticipation of the sale of such bonds, are hereby ratified. [*As amended June 2, 1970.*]

[*Budget Deficits*]

SEC. 1.3. (a) For the purposes of Section 1, a ''single object or work,'' for which the Legislature may create a debt or liability in excess of three hundred thousand dollars ($300,000) subject to the requirements set forth in Section 1, includes the funding of an accumulated state budget deficit to the extent, and in the amount, that funding is authorized in a measure submitted to the voters at the March 2, 2004, statewide primary election.

† Chapter 740.

(b) As used in subdivision (a), ''accumulated state budget deficit'' means the aggregate of both of the following, as certified by the Director of Finance:

(1) The estimated negative balance of the Special Fund for Economic Uncertainties arising on or before June 30, 2004, not including the effect of the estimated amount of net proceeds of any bonds issued or to be issued pursuant to the California Fiscal Recovery Financing Act (Title 17 (commencing with Section 99000) of the Government Code) and any bonds issued or to be issued pursuant to the measure submitted to the voters at the March 2, 2004, statewide primary election as described in subdivision (a).

(2) Other General Fund obligations incurred by the State prior to June 30, 2004, to the extent not included in that negative balance.

(c) Subsequent to the issuance of any state bonds described in subdivision (a), the State may not obtain moneys to fund a year-end state budget deficit, as may be defined by statute, pursuant to any of the following: (1) indebtedness incurred pursuant to Section 1 of this article, (2) a debt obligation under which funds to repay that obligation are derived solely from a designated source of revenue, or (3) a bond or similar instrument for the borrowing of moneys for which there is no legal obligation of repayment. This subdivision does not apply to funding obtained through a short-term obligation incurred in anticipation of the receipt of tax proceeds or other revenues that may be applied to the payment of that obligation, for the purposes and not exceeding the amounts of existing appropriations to which the resulting proceeds are to be applied. For purposes of this subdivision, ''year-end state budget deficit'' does not include an obligation within the accumulated state budget deficit as defined by subdivision (b). [*New section adopted March 2, 2004.*]

[*General Obligation Bond Proceeds Fund*]

SEC. 1.5. The Legislature may create and establish a ''General Obligation Bond Proceeds Fund'' in the State Treasury, and may provide for the proceeds of the sale of general obligation bonds of the State heretofore or hereafter issued, including any sums paid as accrued interest thereon, under any or all acts authorizing the issuance of such bonds, to be paid into or transferred to, as the case may be, the ''General Obligation Bond Proceeds Fund.'' Accounts shall be maintained in the ''General Obligation Bond Proceeds Fund'' of all moneys deposited in the State Treasury to the credit of that fund and the proceeds of each bond issue shall be maintained as a separate and distinct account and shall be paid out only in accordance with the law authorizing the issuance of the particular bonds from which the proceeds were derived. The Legislature may abolish, subject to the conditions of this section, any fund in the State Treasury heretofore or hereafter created by any act for the purpose of having deposited therein the

proceeds from the issuance of bonds if such proceeds are transferred to or paid into the ''General Obligation Bond Proceeds Fund'' pursuant to the authority granted in this section; provided, however, that nothing in this section shall prevent the Legislature from re-establishing any bond proceeds fund so abolished and transferring back to its credit all proceeds in the ''General Obligation Bond Proceeds Fund'' which constitute the proceeds of the particular bond fund being re-established. [*New section adopted November 6, 1962.*]

SEC. 2. [*Repealed November 6, 1962. See Section 2, below.*]

[*Bond Issues—Submission by Constitutional Amendment Prohibited—Repeal of Certain Constitutional Provisions*]

SEC. 2. (a) No amendment to this Constitution which provides for the preparation, issuance and sale of bonds of the State of California shall hereafter be submitted to the electors, nor shall any such amendment to the Constitution hereafter submitted to or approved by the electors become effective for any purpose.

Each measure providing for the preparation, issuance and sale of bonds of the State of California shall hereafter be submitted to the electors in the form of a bond act or statute.

(b) The provisions of this Constitution enumerated in subdivision (c) of this section are repealed and such provisions are continued as statutes which have been approved, adopted, legalized, ratified, validated, and made fully and completely effective, by means of the adoption by the electorate of a ratifying constitutional amendment, except that the Legislature, in addition to whatever powers it possessed under such provisions, may amend or repeal such provisions when the bonds issued thereunder have been fully retired and when no rights thereunder will be damaged.

(c) The enumerated provisions of this Constitution are: Article XVI, Sections 2, 3, 4, 4½, 5, 6, 8, 8½, 15, 16, 16.5, 17, 18, 19, 19.5, 20 and 21. [*New section adopted November 6, 1962.*]

[*Appropriations*]

SEC. 3. [*Controller's Warrants*]

SEC. 7. Money may be drawn from the Treasury only through an appropriation made by law and upon a Controller's duly drawn warrant. [*New section adopted November 5, 1974.*]

[*School Funding Priority*]

SEC. 8. (a) From all state revenues there shall first be set apart the moneys to be applied by the State for support of the public school system and public institutions of higher education.

(b) Commencing with the 1990–91 fiscal year, the moneys to be applied by the State for the support of school districts and community college districts shall be not less than the greater of the following amounts:

(1) The amount which, as a percentage of General Fund revenues which may be appropriated pursuant to Article XIII B, equals the percentage of General Fund revenues appropriated for school districts and community college districts, respectively, in fiscal year 1986–87.

(2) The amount required to ensure that the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall not be less than the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B. This paragraph shall be operative only in a fiscal year in which the percentage growth in California per capita personal income is less than or equal to the percentage growth in per capita General Fund revenues plus one half of one percent.

(3) (A) The amount required to ensure that the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall equal the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in per capita General Fund revenues.

(B) In addition, an amount equal to one-half of one percent times the prior year total allocations to school districts and community colleges from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment.

(C) This paragraph (3) shall be operative only in a fiscal year in which the percentage growth in California per capita personal income in a fiscal year is greater than the percentage growth in per capital General Fund revenues plus one half of one percent.

(c) In any fiscal year, if the amount computed pursuant to paragraph (1) of subdivision (b) exceeds the amount computed pursuant to paragraph (2) of subdivision (b) by a difference that exceeds one and one-half percent of General Fund revenues, the amount in excess of one and one-half percent of General Fund revenues shall not be considered allocations to school districts and community colleges for purposes of computing the amount of state aid pursuant to paragraph (2) or 3 of subdivision (b) in the subsequent fiscal year.

(d) In any fiscal year in which school districts and community college districts are allocated funding pursuant to paragraph (3) of subdivision (b) or pursuant to subdivision (h), they shall be entitled to a maintenance factor, equal to the difference between (1) the amount of General Fund moneys which would have been appropriated pursuant to paragraph (2) of subdivision (b) if that paragraph had been operative or the amount of General Fund moneys which would have been appropriated pursuant to subdivision (b) had subdivision (b) not been suspended, and (2) the amount of General Fund moneys actually appropriated to school districts and community college districts in that fiscal year.

(e) The maintenance factor for school districts and community college districts determined pursuant to subdivision (d) shall be adjusted annually for changes in enrollment, and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B, until it has been allocated in full. The maintenance factor shall be allocated in a manner determined by the Legislature in each fiscal year in which the percentage growth in per capita General Fund revenues exceeds the percentage growth in California per capita personal income. The maintenance factor shall be reduced each year by the amount allocated by the Legislature in that fiscal year. The minimum maintenance factor amount to be allocated in a fiscal year shall be equal to the product of General Fund revenues from proceeds of taxes and one-half of the difference between the percentage growth in per capita General Fund revenues from proceeds of taxes and in California per capita personal income, not to exceed the total dollar amount of the maintenance factor.

(f) For purposes of this section, ''changes in enrollment'' shall be measured by the percentage change in average daily attendance. However, in any fiscal year, there shall be no adjustment for decreases in enrollment between the prior fiscal year and the current fiscal year unless there have been decreases in enrollment between the second prior fiscal year and the prior fiscal year and between the third prior fiscal year and the second prior fiscal year.

(h) Subparagraph (B) of paragraph (3) of subdivision (b) may be suspended for one year only when made part of or included within any bill enacted pursuant to Section 12 of Article IV. All other provisions of subdivision (b) may be suspended for one year by the enactment of an urgency statute pursuant to Section 8 of Article IV, provided that the urgency statute may not be made part of or included within any bill enacted pursuant to Section 12 of Article IV. [*As amended June 5, 1990. Operative July 1, 1990.*]

SEC. 8½. [*Repealed November 6, 1962.*]

(1) With respect to funds allocated to that portion of the State School Fund restricted for elementary and high school purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Superintendent of Public Instruction mutually determine that current annual expenditures per student equal or exceed the average annual expenditure per student of the 10 states with the highest annual expenditures per student for elementary and high schools, and that average class size equals or is less than the average class size of the 10 states with the lowest class size for elementary and high schools.

(2) With respect to funds allocated to that portion of the State School Fund restricted for community college purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Chancellor of the California Community Colleges mutually determine that current annual expenditures per student for community colleges in this State equal or exceed the average annual expenditure per student of the 10 states with the highest annual expenditure per student for community colleges.

(b) Notwithstanding the provisions of Article XIII B, funds allocated pursuant to this section shall not constitute appropriations subject to limitation.

(c) From any funds transferred to the State School Fund pursuant to subdivision (a), the Controller shall each year allocate to each school district and community college district an equal amount per enrollment in school districts from the amount in that portion of the State School Fund restricted for elementary and high school purposes and an equal amount per enrollment in community college districts from that portion of the State School Fund restricted for community college purposes.

(d) All revenues allocated pursuant to subdivision (a) shall be expended solely for the purposes of instructional improvement and accountability as required by law.

No provision of this Constitution, including, but not limited to, Section 25 of Article XIII and Sections 1 and 2 of Article XVI, shall be construed as a limitation upon the authority granted to the Legislature pursuant to this section. Nothing herein contained shall authorize any public agency to operate any industrial or commercial enterprise. [*New section adopted November 7, 1972.*]

[*Energy Alternative Sources Facilities—Acquisition, Construction, Etc.—Revenue Bond Issuance*]

[*Parking Meter Revenues*]

SEC. 15. A public body authorized to issue securities to provide public parking facilities and any other public body whose territorial area includes such facilities are authorized to make revenues from street parking meters available as additional security. [*New section adopted November 5, 1974.*]

[*Taxation of Redevelopment Projects*]

SEC. 16. All property in a redevelopment project established under the Community Redevelopment Law as now existing or hereafter amended, except publicly owned property not subject to taxation by rea-

son of that ownership, shall be taxed in proportion to its value as provided in Section 1 of this article, and those taxes (the word ''taxes'' as used herein includes, but is not limited to, all levies on an ad valorem basis upon land or real property) shall be levied and collected as other taxes are levied and collected by the respective taxing agencies.

The Legislature may provide that any redevelopment plan may contain a provision that the taxes, if any, so levied upon the taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called ''taxing agencies'') after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(a) That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of those taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of that property by the taxing agency, last equalized prior to the effective date of the ordinance, shall be allocated to, and when collected shall be paid into, the funds of the respective taxing agencies as taxes by or for those taxing agencies on all other property are paid (for the purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment project on the effective date of the ordinance but to which that territory has been annexed or otherwise included after the ordinance's effective date, the assessment roll of the county last equalized on the effective date of that ordinance shall be used in determining the assessed valuation of the taxable property in the project on that effective date); and

(b) Except as provided in subdivision (c), that portion of the levied taxes each year in excess of that amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed or otherwise) incurred by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project. Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in the project as shown by the last equalized assessment roll referred to in subdivision (a), all of the taxes levied and collected upon the taxable property in the redevelopment project shall be paid into the funds of the respective taxing agencies. When the loans, advances, and indebtedness, if any, and interest thereon, have been paid, then all moneys thereafter received from taxes upon the taxable property in the redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

(c) That portion of the taxes identified in subdivision (b) which are attributable to a tax rate levied by a taxing agency for the purpose of producing revenues in an amount sufficient to make annual repayments of the principal of, and the interest on, any bonded indebtedness for the acquisition or improvement of real property shall be allocated to, and when collected shall be paid into, the fund of that taxing agency. This paragraph shall only apply to taxes levied to repay bonded indebtedness approved by the voters of the taxing agency on or after January 1, 1989.

The Legislature may also provide that in any redevelopment plan or in the proceedings for the advance of moneys, or making of loans, or the incurring of any indebtedness (whether funded, refunded, assumed, or otherwise) by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, the portion of taxes identified in subdivision (b), exclusive of that portion identified in subdivision (c), may be irrevocably pledged for the payment of the principal of and interest on those loans, advances, or indebtedness.

It is intended by this section to empower any redevelopment agency, city, county, or city and county under any law authorized by this section to exercise the provisions hereof separately or in combination with powers granted by the same or any other law relative to redevelopment agencies. This section shall not affect any other law or laws relating to the same or a similar subject but is intended to authorize an alternative method of procedure governing the subject to which it refers.

The Legislature shall enact those laws as may be necessary to enforce the provisions of this section. [*As amended November 8, 1988.*]

SEC. 16.5. [*Repealed November 6, 1962.*]

[*State's Credit—Investment of Public Pension or Retirement Funds*]

SEC. 17. The State shall not in any manner loan its credit, nor shall it subscribe to, or be interested in the stock of any company, association, or corporation, except that the State and each political subdivision, district, municipality, and public agency thereof is hereby authorized to acquire and hold shares of the capital stock of any mutual water company or corporation when the stock is so acquired or held for the purpose of furnishing a supply of water for public, municipal or governmental purposes; and the holding of the stock shall entitle the holder thereof to all of the rights, powers and privileges, and shall subject the holder to the obligations and liabilities conferred or imposed by law upon other holders of stock in the mutual water company or corporation in which the stock is so held.

Notwithstanding any other provisions of law or this Constitution to the contrary, the retirement board of a public pension or retirement system shall have plenary authority and fiduciary responsibility for investment of moneys and administration of the system, subject to all of the following:

(a) The retirement board of a public pension or retirement system shall have the sole and exclusive fiduciary responsibility over the assets of the public pension or retirement system. The retirement board shall also have sole and exclusive responsibility to administer the system in a manner that will assure prompt delivery of benefits and related services to the participants and their beneficiaries. The assets of a public pension or retirement system are trust funds and shall be held for the exclusive purposes of providing benefits to participants in the pension or retirement system and their beneficiaries and defraying reasonable expenses of administering the system.

(b) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system solely in the interest of, and for the exclusive purposes of providing benefits to, participants and their beneficiaries, minimizing employer contributions thereto, and defraying reasonable expenses of administering the system. A retirement board's duty to its participants and their beneficiaries shall take precedence over any other duty.

(c) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with these matters would use in the conduct of an enterprise of a like character and with like aims.

(d) The members of the retirement board of a public pension or retirement system shall diversify the investments of the system so as to minimize the risk of loss and to maximize the rate of return, unless under the circumstances it is clearly not prudent to do so.

(e) The retirement board of a public pension or retirement system, consistent with the exclusive fiduciary responsibilities vested in it, shall have the sole and exclusive power to provide for actuarial services in order to assure the competency of the assets of the public pension or retirement system.

(f) With regard to the retirement board of a public pension or retirement system which includes in its composition elected employee members, the number, terms, and method of selection or removal of members of the retirement board which were required by law or otherwise in effect on July 1, 1991, shall not be changed, amended, or modified by the Legislature unless the change, amendment, or modification enacted by the Legislature is ratified by a majority vote of the electors of the jurisdiction in which the participants of the system are or were, prior to retirement, employed.

(g) The Legislature may by statute continue to prohibit certain investments by a retirement board where it is in the public interest to do so, and provided that the prohibition satisfies the standards of fiduciary care and loyalty required of a retirement board pursuant to this section.

(h) As used in this section, the term ''retirement board'' shall mean the board of administration, board of trustees, board of directors, or other governing body or board of a public employees' pension or retirement system; provided, however, that the term ''retirement board'' shall not be interpreted to mean or include a governing body or board created after July 1, 1991 which does not administer pension or retirement benefits, or the elected legislative body of a jurisdiction which employs participants in a public employees' pension or retirement system. [*As amended November 3, 1992. Initiative measure.*]

[*Municipal Debt Exceeding Income*]

SEC. 18. (a) No county, city, town, township, board of education, or school district, shall incur any indebtedness or liability in any manner or for any purpose exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the voters of the public entity voting at an election to be held for that purpose, except that with respect to any such public entity which is authorized to incur indebtedness for public school purposes, any proposition for the incurrence of indebtedness in the form of general obligation bonds for the purpose of repairing, reconstructing or replacing public school buildings determined, in the manner prescribed by law, to be structurally unsafe for school use, shall be adopted upon the approval of a majority of the voters of the public entity voting on the proposition at such election; nor unless before or at the time of incurring such indebtedness provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and provide for a sinking fund for the payment of the principal thereof, on or before maturity, which shall not exceed forty years from the time of contracting the indebtedness.

(b) Notwithstanding subdivision (a), on or after the effective date of the measure adding this subdivision, in the case of any school district, community college district, or county office of education, any proposition for the incurrence of indebtedness in the form of general obligation bonds for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, shall be adopted upon the approval of 55 percent of the voters of the district or county, as appropriate, voting on the proposition at an election. This subdivision shall apply only to a proposition for the incurrence of indebtedness in the form of general obligation bonds for the purposes specified in this subdivision if the proposition meets all of the accountability requirements of paragraph (3) of subdivision (b) of Section 1 of Article XIII A.

(c) When two or more propositions for incurring any indebtedness or liability are submitted at the same election, the votes cast for and against each proposition shall be counted separately, and when two-thirds or a ma-

jority or 55 percent of the voters, as the case may be, voting on any one of those propositions, vote in favor thereof, the proposition shall be deemed adopted. [*As amended November 7, 2000. Initiative measure.*]

Notwithstanding any provisions for debt limitation or majority protest as in this section provided, if, after the giving of such reasonable notice by publication and posting and the holding of such public hearing as the legislative body of any such chartered county, chartered city or chartered city and county shall have prescribed, such legislative body by no less than a four-fifths vote of all members thereof, finds and determines that the public convenience and necessity require such improvements or acquisitions, such debt limitation and majority protest provisions shall not apply.

Nothing contained in this section shall require the legislative body of any such city, county, or city and county to prepare or to cause to be prepared, hear, notice for hearing or report the hearing of any report as to any such proposed construction or acquisition or both. REDISTRICTING OF SENATE, ASSEMBLY, CONGRESSIONAL, AND BOARD OF EQUALIZATION DISTRICTS

[*Heading as amended November 4, 2008. Initiative measure.*]

[*Redistricting Following National Census*]

SECTION 1. In the year following the year in which the national census is taken under the direction of Congress at the beginning of each decade,

* New Article XXI adopted June 3, 1980.

the Legislature shall adjust the boundary lines of congressional districts in conformance with the following standards and process:

(a) Each member of Congress shall be elected from a single-member district.

(b) The population of all congressional districts shall be reasonably equal. After following this criterion, the Legislature shall adjust the boundary lines according to the criteria set forth and prioritized in paragraphs (2), (3), (4), and (5) of subdivision (d) of Section 2. The Legislature shall issue, with its final map, a report that explains the basis on which it made its decisions in achieving compliance with these criteria and shall include definitions of the terms and standards used in drawing its final map.

(c) Congressional districts shall be numbered consecutively commencing at the northern boundary of the State and ending at the southern boundary.

(d) The Legislature shall coordinate with the Citizens Redistricting Commission established pursuant to Section 2 to hold concurrent hearings, provide access to redistricting data and software, and otherwise ensure full public participation in the redistricting process. The Legislature shall comply with the open hearing requirements of paragraphs (1), (2), (3), and (7) of subdivision (a) of, and subdivision (b) of, Section 8253 of the Government Code, or its successor provisions of statute. [*As amended November 4, 2008. Initiative measure.*]

[*The Citizens Redistricting Commission*]

SEC. 2. (a) The Citizens Redistricting Commission shall draw new district lines (also known as ''redistricting'') for State Senate, Assembly, and Board of Equalization districts. This commission shall be created no later than December 31 in 2010, and in each year ending in the number zero thereafter.

(b) The Citizens Redistricting Commission (hereinafter the ''commission'') shall: (1) conduct an open and transparent process enabling full public consideration of and comment on the drawing of district lines; (2) draw district lines according to the redistricting criteria specified in this article; and (3) conduct themselves with integrity and fairness.

(c) (1) The selection process is designed to produce a Citizens Redistricting Commission that is independent from legislative influence and reasonably representative of this State's diversity.

(2) The Citizens Redistricting Commission shall consist of 14 members, as follows: five who are registered with the largest political party in California based on registration, five who are registered with the second largest political party in California based on registration, and four who are not registered with either of the two largest political parties in California based on registration.

(3) Each commission member shall be a voter who has been continuously registered in California with the same political party or unaffiliated with a political party and who has not changed political party affiliation for five or more years immediately preceding the date of his or her appointment. Each commission member shall have voted in two of the last three statewide general elections immediately preceding his or her application.

(4) The term of office of each member of the commission expires upon the appointment of the first member of the succeeding commission.

(5) Nine members of the commission shall constitute a quorum. Nine or more affirmative votes shall be required for any official action. The three final maps must be approved by at least nine affirmative votes which must include at least three votes of members registered from each of the two largest political parties in California based on registration and three votes from members who are not registered with either of these two political parties.

(6) Each commission member shall apply this article in a manner that is impartial and that reinforces public confidence in the integrity of the redistricting process. A commission member shall be ineligible for a period of 10 years beginning from the date of appointment to hold elective public office at the federal, state, county, or city level in this State. A member of the commission shall be ineligible for a period of five years beginning from the date of appointment to hold appointive federal, state, or local public office, to serve as paid staff for the Legislature or any individual legislator or to register as a federal, state, or local lobbyist in this State.

(d) The commission shall establish single-member districts for the Senate, Assembly, and State Board of Equalization pursuant to a mapping process using the following criteria as set forth in the following order of priority:

(1) Districts shall comply with the United States Constitution. Senate, Assembly, and State Board of Equalization districts shall have reasonably equal population with other districts for the same office, except where deviation is required to comply with the federal Voting Rights Act or allowable by law.

(2) Districts shall comply with the federal Voting Rights Act (42 U.S.C. Sec. 1971 and following).

(3) Districts shall be geographically contiguous.

(4) The geographic integrity of any city, county, city and county, neighborhood, or community of interest shall be respected to the extent possible without violating the requirements of any of the preceding subdivisions. Communities of interest shall not include relationships with political parties, incumbents, or political candidates.

(5) To the extent practicable, and where this does not conflict with the criteria above, districts shall be drawn to encourage geographical compactness such that nearby areas of population are not bypassed for more distant population.

(6) To the extent practicable, and where this does not conflict with the criteria above, each Senate district shall be comprised of two whole, complete, and adjacent Assembly districts, and each Board of Equalization district shall be comprised of 10 whole, complete, and adjacent Senate districts.

(e) The place of residence of any incumbent or political candidate shall not be considered in the creation of a map. Districts shall not be drawn for the purpose of favoring or discriminating against an incumbent, political candidate, or political party.

(f) Districts for the Senate, Assembly, and State Board of Equalization shall be numbered consecutively commencing at the northern boundary of the State and ending at the southern boundary.

(g) By September 15 in 2011, and in each year ending in the number one thereafter, the commission shall approve three final maps that separately set forth the district boundary lines for the Senate, Assembly, and State Board of Equalization districts. Upon approval, the commission shall certify the three final maps to the Secretary of State.

(h) The commission shall issue, with each of the three final maps, a report that explains the basis on which the commission made its decisions in achieving compliance with the criteria listed in subdivision (d) and shall include definitions of the terms and standards used in drawing each final map.

(i) Each certified final map shall be subject to referendum in the same manner that a statute is subject to referendum pursuant to Section 9 of Article II. The date of certification of a final map to the Secretary of State shall be deemed the enactment date for purposes of Section 9 of Article II.

(j) If the commission does not approve a final map by at least the requisite votes or if voters disapprove a certified final map in a referendum, the Secretary of State shall immediately petition the Supreme Court for an order directing the appointment of special masters to adjust the boundary lines of that map in accordance with the redistricting criteria and requirements set forth in subdivisions (d), (e), and (f). Upon its approval of the masters' map, the court shall certify the resulting map to the Secretary of State, which map shall constitute the certified final map for the subject type of district. [*New section adopted November 4, 2008. Initiative measure.*]

[*Defense of Certified Final Map*]

SEC. 3. (a) The commission has the sole legal standing to defend any action regarding a certified final map, and shall inform the Legislature if

it determines that funds or other resources provided for the operation of the commission are not adequate. The Legislature shall provide adequate funding to defend any action regarding a certified map. The commission has sole authority to determine whether the Attorney General or other legal counsel retained by the commission shall assist in the defense of a certified final map.

(b) (1) The Supreme Court has original and exclusive jurisdiction in all proceedings in which a certified final map is challenged.

(2) Any registered voter in this state may file a petition for a writ of mandate or writ of prohibition, within 45 days after the commission has certified a final map to the Secretary of State, to bar the Secretary of State from implementing the plan on the grounds that the filed plan violates this Constitution, the United States Constitution, or any federal or state statute.

(3) The Supreme Court shall give priority to ruling on a petition for a writ of mandate or a writ of prohibition filed pursuant to paragraph (2). If the court determines that a final certified map violates this Constitution, the United States Constitution, or any federal or state statute, the court shall fashion the relief that it deems appropriate. [*New section adopted November 4, 2008. Initiative measure.*]

SECTION 2. FINDINGS AND DECLARATIONS.

(b) The cause of this deterioration is the annual diversion by the Legislature of state gasoline and diesel taxes for purposes other than transportation.

(c) The purpose of this Act is to halt the diversions, preserve these revenues for the transportation purposes to which they are dedicated, and require repayment of transportation funds previously diverted for non-transportation purposes.

(d) If a catastrophic natural disaster or other grave emergency causes serious damage to California's transportation system, sufficient funds will be immediately available to repair the damage and rebuild the transportation system.

SECTION 3. Section 6 of Article XIX of the California Constitution is amended to read:

93. **Limits on Legislators' Terms in Office.**

[Submitted by the initiative and rejected by electors February 5, 2008.]

## PROPOSED LAW

TERM LIMITS AND LEGISLATIVE REFORM ACT

SECTION 1. TITLE.

This measure shall be known as the "Term Limits and Legislative Reform Act."

SECTION 2. FINDINGS AND DECLARATIONS.

The People of California find and declare the following:

A. Under a law enacted in 1990, a Member of the Legislature may serve a total of 14 years, consisting of no more than six years in the Assembly and no more than eight years in the Senate.

B. A variety of academic and public policy groups, some of which once supported term limits, have studied the effect of term limits in California and have concluded that our law is in need of reform to make government work for the people.

C. California faces many complex and critical issues ranging from underperforming schools to global warming to inadequate healthcare. The legislation required to solve these problems can take years to develop and pass, and Members of the Legislature must spend substantial amounts of time obtaining the kind of support among their colleagues necessary to address these urgent issues.

D. Currently, term limits produce a rapid turnover of lawmakers, some of whom never get enough time to build leadership skills or gain expertise in making public policy, and our most knowledgeable and experienced legislators are forced to leave the Assembly or the Senate prematurely, thus depriving Californians of their policy expertise.

E. When legislators lack the skills, the only ones who have the skills are the lobbyists.

F. We have to reform term limits to reduce partisanship, put an end to the constant campaign cycle, and work more effectively together across partisan lines.

G. We need to increase the flexibility of legislative terms to enable members to build necessary policy and process expertise, and slow the current whirlwind rotation by elected representatives from one elected office to another, which compromises public policy.

H. It is critical that we permit legislators to remain in a single house of the Legislature for a longer period of time in order to acquire the knowledge and expertise necessary to tackle the tough issues facing the State of California.

I. The National Conference of State Legislatures, Council of State Governments, and State Legislative Leaders Forum issued a report concluding that "[t]he effects of [term limits] on Sacramento's policymaking processes have been more profound," including "a widespread sense in Sacramento that something needs to be done soon to provide more stability and expertise to the Legislature's policymaking process."

J. We need to reform California's term limits law to permit members to remain in a single house for a longer period of time while reducing the total number of years that new members may serve.

SECTION 3. PURPOSE AND INTENT.

It is the intent of the people of California in enacting this measure to:

A. Provide greater stability and expertise to the Legislature's policymaking process.

B. Reduce the number of years that new members may serve in the Legislature from 14 to 12 to prevent members from becoming entrenched and to promote the opportunity for others to serve.

C. Permit legislators to gain the knowledge and experience necessary to tackle the critical issues facing our state.

D. Afford current members of the Senate and the Assembly the same opportunity to serve 12 years in a single house as newly elected members and preserve existing law regarding uncompleted terms.

SECTION 4. Section 2 of Article IV of the California Constitution is hereby amended to read:

SEC. 2. (a) *(1)* The Senate has a membership of 40 Senators elected for 4-year terms, 20 to begin every 2 years. ~~No Senator may serve more than 2 terms.~~

*(2)* The Assembly has a membership of 80 members elected for 2-year terms. ~~No member of the Assembly may serve more than 3 terms.~~

~~Their terms~~

*(3) The term of a Senator or a Member of the Assembly* shall commence on the first Monday in December next following ~~their~~ *his or her* election.

*(4) During his or her lifetime, a person may serve no more than 12 years in the Senate, the Assembly, or both, in any combination of terms.*

*(b) Notwithstanding paragraph (4) of subdivision (a), a Member of the Senate or the Assembly who is in office on the effective date of this subdivision may serve 12 years in the house in which he or she is currently serving. The 12-year limit in this subdivision shall include those years already served in the house in which the Member is currently serving and any additional years served in that house must be served consecutively.*

~~(b)~~

*(c)* ~~Election of members~~ *Members* of the Assembly shall be *elected* on the first Tuesday after the first Monday in November of even-numbered years unless otherwise prescribed by the Legislature. Senators shall be elected at the same time and places as ~~members~~ *Members* of the Assembly.

~~(c)~~

*(d)* A person is ineligible to be a ~~member~~ *Member* of the Legislature unless the person is an elector and has been a resident of the legislative district for one year, and a citizen of the United States and a resident of California for 3 years, immediately preceding the election*, and service of the full term of office to which the person is seeking to be elected would not exceed the maximum years of service permitted by subdivisions (a) and (b) of this section*.

~~(d)~~

*(e)* When a vacancy occurs in the Legislature the Governor immediately shall call an election to fill the vacancy.

SECTION 5. Section 7 of Article XX of the California Constitution is hereby amended to read:

SEC. 7. The limitations ~~on the number of terms~~ prescribed by Section 2 of Article IV, Sections 2 and 11 of Article V, Section 2 of Article IX, and Section 17 of Article XIII apply only to terms *or years of service* to which persons are elected or appointed on or after November 6, 1990~~, except that an incumbent Senator whose office is not on the ballot for the general election on that date may serve only one additional term~~. Those limitations *on terms and years of service* shall not apply to any unexpired term to which a person is elected or appointed*, or to any years served as part of an unexpired term,* if the remainder of the term is less than half of the full term.

SECTION 6. SEVERABILITY.

The provisions of this act are severable. If any provision of this act or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

SECTION 7. CONFLICTING INITIATIVES.

In the event that this measure and another initiative measure or measures that address the number of years or terms that a Member of the Legislature may serve shall appear on the same statewide election ballot, the provisions of the other measure or measures shall be deemed to be in conflict with this measure. In the event that this measure receives a greater number of affirmative votes, the provisions of this measure shall prevail in their entirety, and the provisions of the other measure shall be null and void.

92. **Community Colleges. Funding. Governance. Fees.**

[Submitted by the initiative and rejected by electors February 5, 2008.]

## PROPOSED LAW

SECTION 1. Title

This measure shall be known and may be cited as the "Community College Governance, Funding Stabilization, and Student Fee Reduction Act."

SECTION 2. Findings and Declarations of Purpose

The people of the State of California find and declare that:

1. California's community colleges enroll over 2.5 million students each year, providing opportunities for higher education and the skills to be competitive in California's workforce.

2. California's community colleges are affordable. Low student fees and financial aid have made community colleges a gateway to a better life for millions of Californians.

3. Business leaders call California's community colleges a vital component of our state's workforce development, contributing to a healthy economy.

4. The state can fund community college enrollment growth without raising taxes or taking funds from K–12 schools. A dual-funding mechanism under Proposition 98 will achieve both.

5. This initiative will lower student fees and prevent fees from increasing at a rate faster than the growth in personal incomes.

6. Community colleges should be accountable to taxpayers through the election of local boards facing regular election.

Therefore, the people of the State of California hereby adopt the Community College Governance, Funding Stabilization, and Student Fee Reduction Act.

SECTION 3. Section 4 of Article VII of the California Constitution is amended to read:

SEC. 4. The following are exempt from civil service:

*(e) The Legislature shall provide through the annual budget act sufficient funding for state operations to provide accountability and leadership of the system of local community college districts.*

*(f) No provisions of the Community College Governance, Funding Stabilization, and Student Fee Reduction Act shall be interpreted or applied to exempt the Board of Governors, or the community colleges, from obligations imposed by law with respect to matters other than those imposed by that act. Nor shall any provision of that act be construed or applied to authorize the Board of Governors, or any board officer or agent, to exercise authority with respect to the wages, hours or working conditions of employees of any community college district. Nor shall any provision of that act be construed or applied to alter the rights of the state employees of the Chancellor's Office Community Colleges System Office with respect to the state civil service or collective bargaining as set forth in applicable law. In adopting the Community College Governance, Funding Stabilization, and Student Fee Reduction Act, the people do not intend to establish the community colleges, the Board of Governors, or any individual college or district, as a "constitutional agency" as that term is used in the decisional law of this State, or to divest any community college employee or labor organization, or any community college district or governing board, of any previously accrued right, nor to affect the standards of judicial review applicable to actions of the Board of Governors, the community colleges, or any individual college or district, as to any matter other than those which affect the Board of Governors internal organization as set forth in the Community College Governance, Funding Stabilization, and Student Fee Reduction Act.*

SECTION 7. Section 8 of Article XVI of the California Constitution is amended to read:

SEC. 8. (a) From all state revenues there shall first be set apart the moneys to be applied by the State for support of the public school system and public institutions of higher education.

(b) Commencing with the 1990–91 fiscal year, the moneys to be applied by the State for the support of school districts and community college districts shall be not less than the greater of the following amounts:

(1) The amount which, as a percentage of General Fund revenues which may be appropriated pursuant to Article XIII B, equals the percentage of General Fund revenues appropriated for school districts and community college districts, respectively, in fiscal year 1986–87.

(2) The amount required to ensure that the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall not be less than the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B. This paragraph shall be operative only in a fiscal year in which the percentage growth in California per capita personal income is less than or equal to the percentage growth in per capita General Fund revenues plus one half of one percent.

(3) (A) The amount required to ensure that the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall equal the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in per capita General Fund revenues.

(B) In addition, an amount equal to one-half of one percent times the prior year total allocations to school districts and community colleges from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment.

(C) This paragraph (3) shall be operative only in a fiscal year in which the percentage growth in California per capita personal income in a fiscal year is greater than the percentage growth in per capita General Fund revenues plus one half of one percent.

(c) In any fiscal year, if the amount computed pursuant to paragraph (1) of subdivision (b) exceeds the amount computed pursuant to paragraph (2) of subdivision (b) by a difference that exceeds one and one-half percent of General Fund revenues, the amount in excess of one and one-half percent of General Fund revenues shall not be considered allocations to school districts and community colleges for purposes of computing the amount of state aid pursuant to paragraph (2) or ~~3~~*(3)* of subdivision (b) in the subsequent fiscal year.

(d) In any fiscal year in which school districts and community college districts are allocated funding pursuant to paragraph (3) of subdivision (b) or pursuant to subdivision ~~(h)~~*(i)*, they shall be entitled to a maintenance factor, equal to the difference between (1) the amount of General Fund moneys which would have been appropriated pursuant to paragraph (2) of subdivision (b) if that paragraph

had been operative or the amount of General Fund moneys which would have been appropriated pursuant to subdivision (b) had subdivision (b) not been suspended, and (2) the amount of General Fund moneys actually appropriated for school districts and community college districts in that fiscal year.

(e) The maintenance factor for school districts and community college districts determined pursuant to subdivision (d) shall be adjusted annually for changes in enrollment, and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B, until it has been allocated in full. The maintenance factor shall be allocated in a manner determined by the Legislature in each fiscal year in which the percentage growth in per capita General Fund revenues exceeds the percentage growth in California per capita personal income. The maintenance factor shall be reduced each year by the amount allocated by the Legislature in that fiscal year. The minimum maintenance factor amount to be allocated in a fiscal year shall be equal to the product of General Fund revenues from proceeds of taxes and one-half of the difference between the percentage growth in per capita General Fund revenues from proceeds of taxes and in California per capita personal income, not to exceed the total dollar amount of the maintenance factor.

*(f) Commencing with the 2007–08 fiscal year, in determining the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes pursuant to paragraph (2) of subdivision (b), paragraph (3) of subdivision (b), or in the calculation of the maintenance factor created under subdivision (d), the amount shall be separately calculated and appropriated by the Legislature to school districts and community college districts.*

~~(f)~~ *(g)* For purposes of *calculating the total allocations to school districts pursuant to* this section, "changes in enrollment" shall be measured by the percentage change in average daily attendance. However, in any fiscal year, there shall be no adjustment for decreases in enrollment between the prior fiscal year and the current fiscal year unless there have been decreases in enrollment between the second prior fiscal year and the prior fiscal year and between the third prior fiscal year and the second prior fiscal year.

*(h) For the purposes of calculating the total allocations to community college districts pursuant to this section, "changes in enrollment" shall be measured by the change in the population served by the independent system of public community colleges and other appropriate factors determined pursuant to statute.*

~~(h)~~ *(i)* Subparagraph (B) of paragraph (3) of subdivision (b) may be suspended for one year only when made part of or included within any bill enacted pursuant to Section 12 of Article IV. All other provisions of subdivision (b) may be suspended for one year by the enactment of an urgency statute pursuant to Section 8 of Article IV, provided that the urgency statute may not be made part of or included within any bill enacted pursuant to Section 12 of Article IV.

SECTION 8. Section 41210 is added to the Education Code, to read:

*41210. Notwithstanding any other provision of law, "total allocations to school districts and community college districts" shall not include any of the following:*

*(a) Any program that was funded by the General Fund and local property taxes in the 2004–05 fiscal year, but not considered as total allocations to school*

*districts and community college districts for the purposes of this section in the 2004–05 fiscal year.*

*(b) Repayment of bonded indebtedness issued pursuant to the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) or its successors or issued after the effective date of this statute pursuant to Chapter 3.7 (commencing with Section 15820.30) or Chapter 3.8 (commencing with Section 15820.50) of Part 10b of Division 3 of Title 2 of the Government Code or its successors.*

SECTION 9. Section 41211 is added to the Education Code, to read:

*41211. (a) "Changes in enrollment" pursuant to subdivision (h) of Section 8 of Article XVI of the California Constitution shall be the greater of:*

*(1) The percentage change in population from the second preceding year to the preceding year of the population of residents of the state between age 17 and age 21, inclusive, or*

*(2) The percentage change in population from the second preceding year to the preceding year of the population of residents of the state between age 22 and age 25, inclusive.*

*(b) The amount calculated for "changes in enrollment" in subdivision (a) shall be increased by the positive difference of the percentage rate of unemployment of California residents from the third quarter of the preceding year less 5 percent.*

SECTION 12. Section 70901.5 of the Education Code is amended to read:

70901.5. (a) The ~~board of governors~~ *Board of Governors of the California Community Colleges* shall establish procedures for the adoption of rules and regulations governing the California Community Colleges. Among other matters, the procedures shall implement the following requirements:

(1) Written notice of a proposed action shall be provided to each community college district and to all other interested parties and individuals, including the educational policy and fiscal committees of the Legislature and the Department of Finance, at least 45 days in advance of adoption. The regulations shall become effective no earlier than 30 days after adoption.

(2) The proposed regulations shall be accompanied by an estimate, prepared in accordance with instructions adopted by the Department of Finance, of the effect of the proposed regulations with regard to the costs or savings to any state agency, the cost of any state-mandated local program as governed by Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code, any other costs or savings of local agencies, and the costs or savings in federal funding provided to state agencies.

(3) The ~~board of governors~~ *Board of Governors of the California Community Colleges* shall ensure that all proposed regulations of the board meet the standards of "necessity," "authority," "clarity," "consistency," "reference," and "nonduplication," as those terms are defined in Section 11349 of the Government Code. A district governing board or any other interested party may challenge any proposed regulatory action regarding the application of these standards.

(4) Prior to the adoption of regulations, the ~~board of governors~~ *Board of Governors of the California Community Colleges* shall consider and respond to all written and oral comments received during the comment period.

(5) The effective date for a regulation shall be suspended if, within ~~30~~ *60* days after adoption by the ~~board of governors~~ *Board of Governors of the California Community Colleges*, at least two-thirds of all *local district* governing boards vote, in open session, to disapprove the regulation. With respect to any regulation so disapproved, the ~~board of governors~~ *Board of Governors of the California Community Colleges* shall provide at least 45 additional days for review, comment, and hearing, including at least one hearing before the board itself. After the additional period of review, comment, and hearing, the board may do any of the following:

(A) Reject or withdraw the regulation.

(B) Substantially amend the regulation to address the concerns raised during the additional review period, and then adopt the revised regulation. The regulation shall be treated as a newly adopted regulation, and shall go into effect in accordance with those procedures.

(C) Readopt the regulation as originally adopted, or with those nonsubstantive, technical amendments deemed necessary to clarify the intent of the original regulation. If the ~~board of governors~~ *Board of Governors of the California Community Colleges* decides to readopt a regulation, with or without technical amendments, it shall also adopt a written declaration and determination regarding the specific state interests it has found necessary to protect by means of the specific language or requirements of the regulation. A readopted regulation may then be challenged pursuant to existing law in a court of competent jurisdiction, and shall not be subject to any further appeal within the California Community Colleges.

~~(6) As to any regulation which the Department of Finance determines would create a state-mandated local program cost, the board of governors shall not adopt~~

~~the regulation until the Department of Finance has certified to the board of governors and to the Legislature that a source of funds is available to reimburse that cost.~~

~~(7)~~ *(6)* Any district or other interested party may propose a new regulation or challenge any existing regulation.

(b) Except as expressly provided by this section, and except as provided by resolution of the ~~board of governors~~ *Board of Governors of the California Community Colleges*, the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code shall not apply to regulations adopted by the ~~board of governors~~ *Board of Governors of the California Community Colleges.*

### INITIATIVE CONSTITUTIONAL AMENDMENT

*Number on ballot*

99. **Eminent Domain. Limits on Government Acquisition of Owner-Occupied Residence.**

[Submitted by the initiative and approved by electors June 3, 2008.]

### PROPOSED LAW

SECTION 1. PURPOSE AND INTENT

By enacting this measure, the people of California hereby express their intent to:

(a) Protect their homes from eminent domain abuse.

(b) Prohibit government agencies from using eminent domain to take an owner-occupied home to transfer it to another private owner or developer.

(c) Amend the California Constitution to respond specifically to the facts and the decision of the U.S. Supreme Court in Kelo v. City of New London, in which the Court held that it was permissible for a city to use eminent domain to take the home of a Connecticut woman for the purpose of economic development.

(d) Respect the decision of the voters to reject Proposition 90 in November 2006, a measure that included eminent domain reform but also included unrelated provisions that would have subjected taxpayers to enormous financial liability from a wide variety of traditional legislative and administrative actions to protect the public welfare.

(e) Provide additional protection for property owners without including provisions, such as those in Proposition 90, which subjected taxpayers to liability for the enactment of traditional legislative and administrative actions to protect the public welfare.

(f) Maintain the distinction in the California Constitution between Section 19, Article I, which establishes the law for eminent domain, and Section 7, Article XI, which establishes the law for legislative and administrative action to protect the public health, safety and welfare.

(g) Provide a comprehensive and exclusive basis in the California Constitution to compensate property owners when property is taken or damaged by state or local governments, without affecting legislative and administrative actions taken to protect the public health, safety and welfare.

SECTION 2. AMENDMENT TO THE CALIFORNIA CONSTITUTION

Section 19 of Article I of the California Constitution is amended to read:

SEC. 19. *(a)* Private property may be taken or damaged for *a* public use *and* only when just compensation, ascertained by a jury unless waived, has first been paid to, or into court for, the owner. The Legislature may provide

for possession by the condemnor following commencement of eminent domain proceedings upon deposit in court and prompt release to the owner of money determined by the court to be the probable amount of just compensation.

*(b) The State and local governments are prohibited from acquiring by eminent domain an owner-occupied residence for the purpose of conveying it to a private person.*

*(c) Subdivision (b) of this section does not apply when State or local government exercises the power of eminent domain for the purpose of protecting public health and safety; preventing serious, repeated criminal activity; responding to an emergency; or remedying environmental contamination that poses a threat to public health and safety.*

*(d) Subdivision (b) of this section does not apply when State or local government exercises the power of eminent domain for the purpose of acquiring private property for a public work or improvement.*

*(e) For the purpose of this section:*

*1. "Conveyance" means a transfer of real property whether by sale, lease, gift, franchise, or otherwise.*

*2. "Local government" means any city, including a charter city, county, city and county, school district, special district, authority, regional entity, redevelopment agency, or any other political subdivision within the State.*

*3. "Owner-occupied residence" means real property that is improved with a single-family residence such as a detached home, condominium, or townhouse and that is the owner or owners' principal place of residence for at least one year prior to the State or local government's initial written offer to purchase the property. Owner-occupied residence also includes a residential dwelling unit attached to or detached from such a single-family residence which provides complete independent living facilities for one or more persons.*

*4. "Person" means any individual or association, or any business entity, including, but not limited to, a partnership, corporation, or limited liability company.*

*5. "Public work or improvement" means facilities or infrastructure for the delivery of public services such as education, police, fire protection, parks, recreation, emergency medical, public health, libraries, flood protection, streets or highways, public transit, railroad, airports and seaports; utility, common carrier or other similar projects such as energy-related, communication-related, water-related and wastewater-related facilities or infrastructure; projects identified by a State or local government for recovery from natural disasters; and private uses incidental to, or necessary for, the public work or improvement.*

*6. "State" means the State of California and any of its agencies or departments.*

SECTION 3. By enacting this measure, the voters do not intend to change the meaning of the terms in subdivision (a) of Section 19, Article I of the California Constitution, including, without limitation, "taken," "damaged," "public use," and "just compensation," and deliberately do not impose any restrictions on the exercise of power pursuant to Section 19, Article I, other than as expressly provided for in this measure.

SECTION 4. The provisions of Section 19, Article I, together with the amendments made by this initiative, constitute the exclusive and comprehensive authority in the California Constitution for the exercise of the power of eminent domain and for the payment of compensation to property owners when private property is taken or damaged by state or local government. Nothing in this initiative shall limit the ability of the Legislature to provide compensation in addition to that

which is required by Section 19 of Article I to property owners whose property is taken or damaged by eminent domain.

SECTION 5. The amendments made by this initiative shall not apply to the acquisition of real property if the initial written offer to purchase the property was made on or before the date on which this initiative becomes effective, and a resolution of necessity to acquire the real property by eminent domain was adopted on or before 180 days after that date.

SECTION 6. The words and phrases used in the amendments to Section 19, Article I of the California Constitution made by this initiative which are not defined in subdivision (e), shall be defined and interpreted in a manner that is consistent with the law in effect on January 1, 2007, and as that law may be amended or interpreted thereafter.

SECTION 7. The provisions of this measure shall be liberally construed in furtherance of its intent to provide homeowners with protection against exercises of eminent domain in which an owner-occupied residence is subsequently conveyed to a private person.

SECTION 8. The provisions of this measure are severable. If any provision of this measure or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

SECTION 9. In the event that this measure appears on the same statewide election ballot as another initiative measure or measures that seek to affect the rights of property owners by directly or indirectly amending Section 19, Article I of the California Constitution, the provisions of the other measure or measures shall be deemed to be in conflict with this measure. In the event that this measure receives a greater number of affirmative votes, the provisions of this measure shall prevail in their entirety, and each and every provision of the other measure or measures shall be null and void.

# MEASURES DEFEATED

## INITIATIVE CONSTITUTIONAL AMENDMENT

*Number on ballot*

98. **Eminent Domain. Limits on Government Authority.**

[Submitted by the initiative and rejected by electors June 3, 2008.]

## PROPOSED LAW

SECTION 1. STATEMENT OF FINDINGS

(a) Our state Constitution, while granting government the power of eminent domain, also provides that the people have an inalienable right to own, possess, and protect private property. It further provides that no person may be deprived of property without due process of law, and that private property may not be taken or damaged by eminent domain except for public use and only after just compensation has been paid to the property owner.

(b) Notwithstanding these clear constitutional guarantees, the courts have not protected the people's rights from being violated by state and local governments through the exercise of their power of eminent domain.

(c) For example, the U.S. Supreme Court, in Kelo v. City of New London, held that the government may use eminent domain to take property from its owner for the purpose of transferring it to a private developer. In other cases, the courts have allowed the government to set the price an owner can charge to sell or rent his or her property, and have allowed the government to take property for the purpose of seizing the income or business assets of the property.

(d) Farmland is especially vulnerable to these types of eminent domain abuses.

SECTION 2. STATEMENT OF PURPOSE

(a) State and local governments may use eminent domain to take private property only for public uses, such as roads, parks, and public facilities.

(b) State and local governments may not use their power to take or damage property for the benefit of any private person or entity.

(c) State and local governments may not take private property by eminent domain to put it to the same use as that made by the private owner.

(d) When state or local governments use eminent domain to take or damage private property for public uses, the owner shall receive just compensation for what has been taken or damaged.

(e) Therefore, the people of the state of California hereby enact the "California Property Owners and Farmland Protection Act."

SECTION 3. AMENDMENT TO CALIFORNIA CONSTITUTION

Section 19 of Article I of the California Constitution is amended to read:

SEC. 19. *(a)* Private property may be taken or damaged *only* for *a stated* public use ~~only~~ *and* when just compensation, ascertained by a jury unless waived, has first been paid to, or into court for, the owner. The Legislature may provide for possession by the condemnor following commencement of eminent domain proceedings upon deposit in court and prompt release to the owner of money determined by the court to be the probable amount of just compensation. *Private property may not be taken or damaged for private use.*

*(b) For purposes of this section:*

*(1) "Taken" includes transferring the ownership, occupancy, or use of property from a private owner to a public agency or to any person or entity other than a public agency, or limiting the price a private owner may charge another person to purchase, occupy or use his or her real property.*

*(2) "Public use" means use and ownership by a public agency or a regulated public utility for the public use stated at the time of the taking, including public facilities, public transportation, and public utilities, except that nothing herein prohibits leasing limited space for private uses incidental to the stated public use; nor is the exercise of eminent domain prohibited to restore utilities or access to a public road for any private property which is cut off from utilities or access to a public road as a result of a taking for public use as otherwise defined herein.*

*(3) "Private use" means:*

*(i) transfer of ownership, occupancy or use of private property or associated property rights to any person or entity other than a public agency or a regulated public utility;*

*(ii) transfer of ownership, occupancy or use of private property or associated property rights to a public agency for the consumption of natural resources or for the same or a substantially similar use as that made by the private owner; or*

*(iii) regulation of the ownership, occupancy or use of privately owned real property or associated property rights in order to transfer an economic benefit to one or more private persons at the expense of the property owner.*

*(4) "Public agency" means the state, special district, county, city, city and county, including a charter city or county, and any other local or regional governmental entity, municipal corporation, public agency-owned utility or utility district, or the electorate of any public agency.*

*(5) "Just compensation" means:*

*(i) for property or associated property rights taken, its fair market value;*

*(ii) for property or associated property rights damaged, the value fixed by a jury, or by the court if a jury is waived;*

*(iii) an award of reasonable costs and attorney fees from the public agency if the property owner obtains a judgment for more than the amount offered by a public agency as defined herein; and*

*(iv) any additional actual and necessary amounts to compensate the property owner for temporary business losses, relocation expenses, business reestablishment costs, other actual and reasonable expenses incurred and other expenses deemed compensable by the Legislature.*

*(6) "Prompt release" means that the property owner can have immediate possession of the money deposited by the condemnor without prejudicing his or her right to challenge the determination of fair market value or his or her right to challenge the taking as being for a private use.*

*(7) "Owner" includes a lessee whose property rights are taken or damaged.*

*(8) "Regulated public utility" means any public utility as described in Article XII, Section 3, that is regulated by the California Public Utilities Commission and is not owned or operated by a public agency. Regulated public utilities are private property owners for purposes of this article.*

*(c) In any action by a property owner challenging a taking or damaging of his or her property, the court shall consider all relevant evidence and exercise its independent judgment, not limited to the administrative record and without deference to the findings of the public agency. The property owner shall be entitled to an award of reasonable costs and attorney fees from the public agency if the court finds that the agency's actions are not in compliance with this section. In addition to other legal and equitable remedies that may be available, an owner whose property is taken or damaged for private use may bring an action for an injunction, a writ of mandate, or a declaration invalidating the action of the public agency.*

*(d) Nothing in this section prohibits a public agency or regulated public utility from entering into an agreement with a private property owner for the voluntary sale of property not subject to eminent domain, or a stipulation regarding the payment of just compensation.*

*(e) If property is acquired by a public agency through eminent domain, then before the agency may put the property to a use substantially different from the stated public use, or convey the property to another person or unaffiliated agency, the condemning agency must make a good faith effort to locate the private owner from whom the property was taken, and make a written offer to sell the property to him at the price which the agency paid for the property, increased only by the fair market value of any improvements, fixtures, or appurtenances added by the public agency, and reduced by the value attributable to any removal, destruction or waste of improvements, fixtures or appurtenances that had been acquired with the property. If property is repurchased by the former owner under this subdivision, it shall be taxed based on its pre-condemnation enrolled value, increased or decreased only as allowed herein, pIus any inflationary adjustments authorized by subdivision (b) of Section 2 of Article XIII A. The right to repurchase shall apply only to the owner from which the property was taken, and does not apply to heirs or successors of the owner or, if the owner was not a natural person, to an entity which ceases to legally exist.*

*(f) Nothing in this section prohibits a public agency from exercising its power of eminent domain to abate public nuisances or criminal activity.*

*(g) Nothing in this section shall be construed to prohibit or impair voluntary agreements between a property owner and a public agency to develop or rehabilitate affordable housing.*

*(h) Nothing in this section prohibits the California Public Utilities Commission from regulating public utility rates.*

*(i) Nothing in this section shall restrict the powers of the Governor to take or damage private property in connection with his or her powers under a declared state of emergency.*

SECTION 4. IMPLEMENTATION AND AMENDMENT

This act shall be self-executing. The Legislature may adopt laws to further the purposes of this act and aid in its implementation. No amendment to this act may be made except by a vote of the people pursuant to Article II or Article XVIII of the California Constitution.

SECTION 5. SEVERABILITY

The provisions of this act are severable. If any provision of this act or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

SECTION 6. EFFECTIVE DATE

The provisions of this act shall become effective on the day following the election ("effective date"); except that any statute, charter provision, ordinance, or regulation by a public agency enacted prior to January 1, 2007, that limits the price a rental property owner may charge a tenant to occupy a residential rental unit ("unit") or mobile home space ("space") may remain in effect as to such unit or space after the effective date for so long as, but only so long as, at least one of the tenants of such unit or space as of the effective date ("qualified tenant") continues to live in such unit or space as his or her principal place of residence. At such time as a unit or space no longer is used by any qualified tenant as his or her principal place of residence because, as to such unit or space, he or she has: (a) voluntarily vacated; (b) assigned, sublet, sold or transferred his or her tenancy rights either voluntarily or by court order; (c) abandoned; (d) died; or he or she has (e) been evicted pursuant to paragraph (2), (3), (4) or (5) of Section 1161 of the Code of Civil Procedure or Section 798.56 of the Civil Code as in effect on January 1, 2007; then, and in such event, the provisions of this act shall be effective immediately as to such unit or space.

The People of the State of California hereby find and declare all of the following:

1. Crime victims are entitled to justice and due process. Their rights include, but are not limited to, the right to notice and to be heard during critical stages of the justice system; the right to receive restitution from the criminal wrongdoer; the right to be reasonably safe throughout the justice process; the right to expect the government to properly fund the criminal justice system, so that the rights of crime victims stated in these Findings and Declarations and justice itself are not eroded by inadequate resources; and, above all, the right to an expeditious and just punishment of the criminal wrongdoer.

*1. High Speed Rail Bonds. (Statutes 2002, Chapter 697, SB 1856 and Statutes 2006, Chapter 44, AB 713) [Removed from ballot by Statutes 2008, Chapter 267, AB 3034.]

2. The People of the State of California declare that the "Victims' Bill of Rights Act of 2008: Marsy's Law" is needed to remedy a justice system that fails to fully recognize and adequately enforce the rights of victims of crime. It is named after Marsy, a 21-year-old college senior at U.C. Santa Barbara who was preparing to pursue a career in special education for handicapped children and had her whole life ahead of her. She was murdered on November 30, 1983. Marsy's Law is written on behalf of her mother, father, and brother, who were often treated as though they had no rights, and inspired by hundreds of thousands of victims of crime who have experienced the additional pain and frustration of a criminal justice system that too often fails to afford victims even the most basic of rights.

3. The People of the State of California find that the "broad reform" of the criminal justice system intended to grant these basic rights mandated in the Victims' Bill of Rights initiative measure passed by the electorate as Proposition 8 in 1982 has not occurred as envisioned by the people. Victims of crime continue to be denied rights to justice and due process.

4. An inefficient, overcrowded, and arcane criminal justice system has failed to build adequate jails and prisons, has failed to efficiently conduct court proceedings, and has failed to expeditiously finalize the sentences and punishments of criminal wrongdoers. Those criminal wrongdoers are being released from custody after serving as little as 10 percent of the sentences imposed and determined to be appropriate by judges.

5. Each year hundreds of convicted murderers sentenced to serve life in prison seek release on parole from our state prisons. California's "release from prison parole procedures" torture the families of murdered victims and waste millions of dollars each year. In California convicted murderers are appointed attorneys paid by the tax dollars of its citizens, and these convicted murderers are often given parole hearings every year. The families of murdered victims are never able to escape the seemingly unending torture and fear that the murderer of their loved one will be once again free to murder.

6. "Helter Skelter" inmates Bruce Davis and Leslie Van Houghton, two followers of Charles Manson convicted of multiple brutal murders, have had 38 parole hearings during the past 30 years.

7. Like most victims of murder, Marsy was neither rich nor famous when she was murdered by a former boyfriend who lured her from her parents' home by threatening to kill himself. Instead he used a shotgun to brutally end her life when she entered his home in an effort to stop him from killing himself. Following her murderer's arrest, Marsy's mother was shocked to meet him at a local supermarket, learning that he had been released on bail without any notice to Marsy's family and without any opportunity for her family to state their opposition to his release.

8. Several years after his conviction and sentence to "life in prison," the parole hearings for his release began. In the first parole hearing, Marsy's mother suffered a heart attack fighting against his release. Since then Marsy's family has endured the trauma of frequent parole hearings and constant anxiety that Marsy's killer would be released.

9. The experiences of Marsy's family are not unique. Thousands of other crime victims have shared the experiences of Marsy's family, caused by the failure of our criminal justice system to notify them of their rights, failure to give them notice of important hearings in the prosecutions of their criminal wrongdoers, failure to provide them with an opportunity to speak and participate,

failure to impose actual and just punishment upon their wrongdoers, and failure to extend to them some measure of finality to the trauma inflicted upon them by their wrongdoers.

SECTION 3. STATEMENT OF PURPOSES AND INTENT

It is the purpose of the People of the State of California in enacting this initiative measure to:

1. Provide victims with rights to justice and due process.

2. Invoke the rights of families of homicide victims to be spared the ordeal of prolonged and unnecessary suffering, and to stop the waste of millions of taxpayer dollars, by eliminating parole hearings in which there is no likelihood a murderer will be paroled, and to provide that a convicted murderer can receive a parole hearing no more frequently than every three years, and can be denied a follow-up parole hearing for as long as 15 years.

SECTION 4. VICTIMS' BILL OF RIGHTS

SECTION 4.1. Section 28 of Article I of the California Constitution is amended to read:

SEC. 28. (a) The People of the State of California find and declare *all of the following:*

*(1) Criminal activity has a serious impact on the citizens of California. The rights of victims of crime and their families in criminal prosecutions are a subject of grave statewide concern.*

*(2) Victims of crime are entitled to have the criminal justice system view criminal acts as serious threats to the safety and welfare of the people of California.* ~~that the~~ *The* enactment of comprehensive provisions and laws ensuring a bill of rights for victims of crime, including safeguards in the criminal justice system ~~to~~ fully ~~protect~~ *protecting* those rights *and ensuring that crime victims are treated with respect and dignity*, is a matter of ~~grave statewide concern~~ *high public importance. California's victims of crime are largely dependent upon the proper functioning of government, upon the criminal justice system and upon the expeditious enforcement of the rights of victims of crime described herein, in order to protect the public safety and to secure justice when the public safety has been compromised by criminal activity.*

*(3)* The rights of victims pervade the criminal justice system~~, encompassing not only the right to restitution from the wrongdoers for financial losses suffered as a result of criminal acts, but also the more basic expectation~~. *These rights include personally held and enforceable rights described in paragraphs (1) through (17) of subdivision (b).*

*(4) The rights of victims also include broader shared collective rights that are held in common with all of the People of the State of California and that are enforceable through the enactment of laws and through good-faith efforts and actions of California's elected, appointed, and publicly employed officials. These rights encompass the expectation shared with all of the people of California* that persons who commit felonious acts causing injury to innocent victims will be appropriately *and thoroughly investigated, appropriately* detained in custody, *brought before the courts of California even if arrested outside the State,* tried by the courts *in a timely manner, sentenced*, and sufficiently punished so that the public safety is protected and encouraged as a goal of highest importance.

*(5) Victims of crime have a collectively shared right to expect that persons convicted of committing criminal acts are sufficiently punished in both the manner and the length of the sentences imposed by the courts of the State of California. This right includes the right to expect that the punitive and deterrent*

*effect of custodial sentences imposed by the courts will not be undercut or diminished by the granting of rights and privileges to prisoners that are not required by any provision of the United States Constitution or by the laws of this State to be granted to any person incarcerated in a penal or other custodial facility in this State as a punishment or correction for the commission of a crime.*

*(6) Victims of crime are entitled to finality in their criminal cases. Lengthy appeals and other post-judgment proceedings that challenge criminal convictions, frequent and difficult parole hearings that threaten to release criminal offenders, and the ongoing threat that the sentences of criminal wrongdoers will be reduced, prolong the suffering of crime victims for many years after the crimes themselves have been perpetrated. This prolonged suffering of crime victims and their families must come to an end.*

*(7)* ~~Such~~ *Finally, the People find and declare that the right to* public safety extends to public *and private* primary, elementary, junior high, and senior high school*, and community college, California State University, University of California, and private college and university* campuses, where students and staff have the right to be safe and secure in their persons.

*(8)* To accomplish ~~these~~ *the* goals *it is necessary that the laws of California relating to the criminal justice process be amended in order to protect the legitimate rights of victims of crime*. ~~, broad reforms in the procedural treatment of accused persons and the disposition and sentencing of convicted persons are necessary and proper as deterrents to criminal behavior and to serious disruption of people's lives.~~

(b) *In order to preserve and protect a victim's rights to justice and due process, a victim shall be entitled to the following rights:*

*(1) To be treated with fairness and respect for his or her privacy and dignity, and to be free from intimidation, harassment, and abuse, throughout the criminal or juvenile justice process.*

*(2) To be reasonably protected from the defendant and persons acting on behalf of the defendant.*

*(3) To have the safety of the victim and the victim's family considered in fixing the amount of bail and release conditions for the defendant.*

*(4) To prevent the disclosure of confidential information or records to the defendant, the defendant's attorney, or any other person acting on behalf of the defendant, which could be used to locate or harass the victim or the victim's family or which disclose confidential communications made in the course of medical or counseling treatment, or which are otherwise privileged or confidential by law.*

*(5) To refuse an interview, deposition, or discovery request by the defendant, the defendant's attorney, or any other person acting on behalf of the defendant, and to set reasonable conditions on the conduct of any such interview to which the victim consents.*

*(6) To reasonable notice of and to reasonably confer with the prosecuting agency, upon request, regarding, the arrest of the defendant if known by the prosecutor, the charges filed, the determination whether to extradite the defendant, and, upon request, to be notified of and informed before any pretrial disposition of the case.*

*(7) To reasonable notice of all public proceedings, including delinquency proceedings, upon request, at which the defendant and the prosecutor are entitled to be present and of all parole or other post-conviction release proceedings, and to be present at all such proceedings.*

*(8) To be heard, upon request, at any proceeding, including any delinquency proceeding, involving a post-arrest release decision, plea, sentencing, post-conviction release decision, or any proceeding in which a right of the victim is at issue.*

*(9) To a speedy trial and a prompt and final conclusion of the case and any related post-judgment proceedings.*

*(10) To provide information to a probation department official conducting a pre-sentence investigation concerning the impact of the offense on the victim and the victim's family and any sentencing recommendations before the sentencing of the defendant.*

*(11) To receive, upon request, the pre-sentence report when available to the defendant, except for those portions made confidential by law.*

*(12) To be informed, upon request, of the conviction, sentence, place and time of incarceration, or other disposition of the defendant, the scheduled release date of the defendant, and the release of or the escape by the defendant from custody.*

*(13) To* ~~Restitution~~ *restitution.*

*(A)* It is the unequivocal intention of the People of the State of California that all persons who suffer losses as a result of criminal activity shall have the right to *seek and secure* restitution from the persons convicted of the crimes ~~for~~ *causing the* losses they suffer.

*(B)* Restitution shall be ordered from the convicted ~~persons~~ *wrongdoer* in every case, regardless of the sentence or disposition imposed, in which a crime victim suffers a loss~~, unless compelling and extraordinary reasons exist to the contrary. The Legislature shall adopt provisions to implement this section during the calendar year following adoption of this section~~.

*(C) All monetary payments, monies, and property collected from any person who has been ordered to make restitution shall be first applied to pay the amounts ordered as restitution to the victim.*

*(14) To the prompt return of property when no longer needed as evidence.*

*(15) To be informed of all parole procedures, to participate in the parole process, to provide information to the parole authority to be considered before the parole of the offender, and to be notified, upon request, of the parole or other release of the offender.*

*(16) To have the safety of the victim, the victim's family, and the general public considered before any parole or other post-judgment release decision is made.*

*(17) To be informed of the rights enumerated in paragraphs (1) through (16).*

(c) *(1) A victim, the retained attorney of a victim, a lawful representative of the victim, or the prosecuting attorney upon request of the victim, may enforce the rights enumerated in subdivision (b) in any trial or appellate court with jurisdiction over the case as a matter of right. The court shall act promptly on such a request.*

*(2) This section does not create any cause of action for compensation or damages against the State, any political subdivision of the State, any officer, employee, or agent of the State or of any of its political subdivisions, or any officer or employee of the court.*

*(d) The granting of these rights to victims shall not be construed to deny or disparage other rights possessed by victims. The court in its discretion may extend the right to be heard at sentencing to any person harmed by the defendant. The parole authority shall extend the right to be heard at a parole hearing to any person harmed by the offender.*

*(e) As used in this section, a "victim" is a person who suffers direct or threatened physical, psychological, or financial harm as a result of the commission or attempted commission of a crime or delinquent act. The term "victim" also includes the person's spouse, parents, children, siblings, or guardian, and includes a lawful representative of a crime victim who is deceased, a minor, or physically or psychologically incapacitated. The term "victim" does not include a person in custody for an offense, the accused, or a person whom the court finds would not act in the best interests of a minor victim.*

*(f) In addition to the enumerated rights provided in subdivision (b) that are personally enforceable by victims as provided in subdivision (c), victims of crime have additional rights that are shared with all of the People of the State of California. These collectively held rights include, but are not limited to, the following:*

*(1)* Right to Safe Schools. All students and staff of public primary, elementary, junior high, and senior high schools*, and community colleges, colleges, and universities* have the inalienable right to attend campuses which are safe, secure and peaceful.

~~(d)~~ *(2)* Right to Truth-in-Evidence. Except as provided by statute hereafter enacted by a two-thirds vote of the membership in each house of the Legislature, relevant evidence shall not be excluded in any criminal proceeding, including pretrial and post conviction motions and hearings, or in any trial or hearing of a juvenile for a criminal offense, whether heard in juvenile or adult court. Nothing in this section shall affect any existing statutory rule of evidence relating to privilege or hearsay, or Evidence Code~~,~~ Sections 352, 782 or 1103. Nothing in this section shall affect any existing statutory or constitutional right of the press.

~~(e)~~ *(3)* Public Safety Bail. A person may be released on bail by sufficient sureties, except for capital crimes when the facts are evident or the presumption great. Excessive bail may not be required. In setting, reducing or denying bail, the judge or magistrate shall take into consideration the protection of the public, *the safety of the victim,* the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case. Public safety *and the safety of the victim* shall be the primary ~~consideration~~ *considerations*.

A person may be released on his or her own recognizance in the court's discretion, subject to the same factors considered in setting bail. ~~However, no person charged with the commission of any serious felony shall be released on his or her own recognizance.~~

Before any person arrested for a serious felony may be released on bail, a hearing may be held before the magistrate or judge, and the prosecuting attorney *and the victim* shall be given notice and reasonable opportunity to be heard on the matter.

When a judge or magistrate grants or denies bail or release on a person's own recognizance, the reasons for that decision shall be stated in the record and included in the court's minutes.

~~(f)~~ *(4)* Use of Prior Convictions. Any prior felony conviction of any person in any criminal proceeding, whether adult or juvenile, shall subsequently be used without limitation for purposes of impeachment or enhancement of sentence in any criminal proceeding. When a prior felony conviction is an element of any felony offense, it shall be proven to the trier of fact in open court.

*(5) Truth in Sentencing. Sentences that are individually imposed upon convicted criminal wrongdoers based upon the facts and circumstances*

*surrounding their cases shall be carried out in compliance with the courts' sentencing orders, and shall not be substantially diminished by early release policies intended to alleviate overcrowding in custodial facilities. The legislative branch shall ensure sufficient funding to adequately house inmates for the full terms of their sentences, except for statutorily authorized credits which reduce those sentences.*

*(6) Reform of the parole process. The current process for parole hearings is excessive, especially in cases in which the defendant has been convicted of murder. The parole hearing process must be reformed for the benefit of crime victims.*

(g) As used in this article, the term "serious felony" is any crime defined in *subdivision (c) of* ~~Penal Code,~~ Section 1192.7~~(c)~~ *of the Penal Code, or any successor statute.*

SECTION 5. VICTIMS' RIGHTS IN PAROLE PROCEEDINGS

SECTION 5.1. Section 3041.5 of the Penal Code is amended to read:

3041.5. (a) At all hearings for the purpose of reviewing a prisoner's parole suitability, or the setting, postponing, or rescinding of parole dates, the following shall apply:

(1) At least 10 days prior to any hearing by the Board of ~~Prison Terms~~ *Parole Hearings*, the prisoner shall be permitted to review his or her file which will be examined by the board and shall have the opportunity to enter a written response to any material contained in the file.

(2) The prisoner shall be permitted to be present, to ask and answer questions, and to speak on his or her own behalf. *Neither the prisoner nor the attorney for the prisoner shall be entitled to ask questions of any person appearing at the hearing pursuant to subdivision (b) of Section 3043.*

(3) Unless legal counsel is required by some other provision of law, a person designated by the Department of Corrections shall be present to insure that all facts relevant to the decision be presented, including, if necessary, contradictory assertions as to matters of fact that have not been resolved by departmental or other procedures.

(4) The prisoner *and any person described in subdivision (b) of Section 3043* shall be permitted to request and receive a stenographic record of all proceedings.

(5) If the hearing is for the purpose of postponing or rescinding of parole dates, the prisoner shall have rights set forth in paragraphs (3) and (4) of subdivision (c) of Section 2932.

*(6) The board shall set a date to reconsider whether an inmate should be released on parole that ensures a meaningful consideration of whether the inmate is suitable for release on parole.*

(b) (l) Within 10 days following any meeting where a parole date has been set, the board shall send the prisoner a written statement setting forth his or her parole date, the conditions he or she must meet in order to be released on the date set, and the consequences of failure to meet those conditions.

(2) Within 20 days following any meeting where a parole date has not been set ~~for the reasons stated in subdivision (b) of Section 3041~~, the board shall send the prisoner a written statement setting forth the reason or reasons for refusal to set a parole date, and suggest activities in which he or she might participate that will benefit him or her while he or she is incarcerated.

*(3)* The board shall ~~hear each case annually thereafter, except the board may~~ schedule the next hearing ~~no later than the following~~*, after considering the views and interests of the victim, as follows*:

(A) ~~Two years after any hearing at which parole is denied if the board finds that it is not reasonable to expect that parole would be granted at a hearing during the following year and states the bases for the finding.~~ *Fifteen years after any hearing at which parole is denied, unless the board finds by clear and convincing evidence that the criteria relevant to the setting of parole release dates enumerated in subdivision (a) of Section 3041 are such that consideration of the public and victim's safety does not require a more lengthy period of incarceration for the prisoner than 10 additional years.*

(B) ~~Up to five years after any hearing at which parole is denied if the prisoner has been convicted of murder, and the board finds that it is not reasonable to expect that parole would be granted at a hearing during the following years and states the bases for the finding in writing. If the board defers a hearing five years, the prisoner's central file shall be reviewed by a deputy commissioner within three years at which time the deputy commissioner may direct that a hearing be held within one year. The prisoner shall be notified in writing of the deputy commissioner's decision. The board shall adopt procedures that relate to the criteria for setting the hearing between two and five years.~~ *Ten years after any hearing at which parole is denied, unless the board finds by clear and convincing evidence that the criteria relevant to the setting of parole release dates enumerated in subdivision (a) of Section 3041 are such that consideration of the public and victim's safety does not require a more lengthy period of incarceration for the prisoner than seven additional years.*

*(C) Three years, five years, or seven years after any hearing at which parole is denied, because the criteria relevant to the setting of parole release dates enumerated in subdivision (a) of Section 3041 are such that consideration of the public and victim's safety requires a more lengthy period of incarceration for the prisoner, but does not require a more lengthy period of incarceration for the prisoner than seven additional years.*

*(4) The board may in its discretion, after considering the views and interests of the victim, advance a hearing set pursuant to paragraph (3) to an earlier date, when a change in circumstances or new information establishes a reasonable likelihood that consideration of the public and victim's safety does not require the additional period of incarceration of the prisoner provided in paragraph (3).*

~~(3)~~ *(5)* Within 10 days of any board action resulting in the postponement of a previously set parole date, the board shall send the prisoner a written statement setting forth a new date and the reason or reasons for that action and shall offer the prisoner an opportunity for review of that action.

~~(4)~~ *(6)* Within 10 days of any board action resulting in the rescinding of a previously set parole date, the board shall send the prisoner a written statement setting forth the reason or reasons for that action, and shall schedule the prisoner's next hearing ~~within 12 months and~~ in accordance with paragraph ~~(2)~~ *(3)*.

*(c) The board shall conduct a parole hearing pursuant to this section as a de novo hearing. Findings made and conclusions reached in a prior parole hearing shall be considered in but shall not be deemed to be binding upon subsequent parole hearings for an inmate, but shall be subject to reconsideration based upon changed facts and circumstances. When conducting a hearing, the board shall admit the prior recorded or memorialized testimony or statement of a victim or witness, upon request of the victim or if the victim or witness has died or become unavailable. At each hearing the board shall determine the appropriate action to be taken based on the criteria set forth in paragraph (3) of subdivision (a) of Section 3041.*

*(d) (1) An inmate may request that the board exercise its discretion to advance a hearing set pursuant to paragraph (3) of subdivision (b) to an earlier date, by submitting a written request to the board, with notice, upon request, and a copy to the victim which shall set forth the change in circumstances or new information that establishes a reasonable likelihood that consideration of the public safety does not require the additional period of incarceration of the inmate.*

*(2) The board shall have sole jurisdiction, after considering the views and interests of the victim to determine whether to grant or deny a written request made pursuant to paragraph (1), and its decision shall be subject to review by a court or magistrate only for a manifest abuse of discretion by the board. The board shall have the power to summarily deny a request that does not comply with the provisions of this subdivision or that does not set forth a change in circumstances or new information as required in paragraph (1) that in the judgment of the board is sufficient to justify the action described in paragraph (4) of subdivision (b).*

*(3) An inmate may make only one written request as provided in paragraph (1) during each three-year period. Following either a summary denial of a request made pursuant to paragraph (1), or the decision of the board after a hearing described in subdivision (a) to not set a parole date, the inmate shall not be entitled to submit another request for a hearing pursuant to subdivision (a) until a three-year period of time has elapsed from the summary denial or decision of the board.*

SECTION 5.2. Section 3043 of the Penal Code is amended to read:

3043. (a) *(1)* Upon request, notice of any hearing to review or consider the parole suitability or the setting of a parole date for any prisoner in a state prison shall be sent by the Board of ~~Prison Terms~~ *Parole Hearings* at least ~~30~~ *90* days before the hearing to any victim of ~~a~~ *any* crime committed by the prisoner, or to the next of kin of the victim if the victim has died*, to include the commitment crimes, determinate term commitment crimes for which the prisoner has been paroled, and any other felony crimes or crimes against the person for which the prisoner has been convicted*. The requesting party shall keep the board apprised of his or her current mailing address.

*(2) No later than 30 days prior to the date selected for the hearing, any person, other than the victim, entitled to attend the hearing shall inform the board of his or her intention to attend the hearing and the name and identifying information of any other person entitled to attend the hearing who will accompany him or her.*

*(3) No later than 14 days prior to the date selected for the hearing, the board shall notify every person entitled to attend the hearing confirming the date, time, and place of the hearing.*

(b) *(1)* The victim, next of kin, ~~two~~ members of the victim's ~~immediate~~ family, ~~or~~ *and* two representatives designated ~~for a particular hearing by the victim or, in the event the victim is deceased or incapacitated, by the next of kin in writing prior to the hearing~~ *as provided in paragraph (2) of this subdivision* have the right to appear, personally or by counsel, at the hearing and to adequately and reasonably express his, her, or their views concerning the *prisoner and the case, including, but not limited to the commitment crimes, determinate term commitment crimes for which the prisoner has been paroled, any other felony crimes or crimes against the person for which the prisoner has been convicted, the effect of the enumerated crimes on the victim and the family of the victim,* ~~crime and~~ the

person responsible *for these enumerated crimes, and the suitability of the prisoner for parole.* ~~, except that~~

*(2)* ~~any~~ *Any* statement provided by a representative designated by the victim or next of kin *may cover any subject about which the victim or next of kin has the right to be heard including any recommendation regarding the granting of parole.* ~~shall be limited to comments concerning the effect of the crime on the victim.~~ *The representatives shall be designated by the victim or, in the event that the victim is deceased or incapacitated, by the next of kin. They shall be designated in writing for the particular hearing prior to the hearing.*

(c) A representative designated by the victim or the victim's next of kin for purposes of this section *may be any adult person selected by the victim or the family of the victim* ~~must be either a family or household member of the victim~~. The board ~~may not~~ *shall* permit a representative designated by the victim or the victim's next of kin to *attend a particular hearing, to* provide testimony at a hearing, ~~or~~ *and* to submit a statement to be included in the hearing as provided in Section 3043.2, *even though* ~~if~~ the victim, next of kin, or a member of the victim's immediate family is present at the hearing, ~~or if~~ *and even though* the victim, next of kin, or a member of the victim's immediate family has submitted a statement as described in Section 3043.2.

(d) ~~Nothing in this section is intended to allow the board to permit a victim's representative to attend a particular hearing if the victim, next of kin, or a member of the victim's immediate family is present at any hearing covered in this section, or if the victim, next of kin, or member of the victim's immediate family has submitted a written, audiotaped, or videotaped statement.~~

~~(e)~~ The board, in deciding whether to release the person on parole, shall consider the *entire and uninterrupted* statements of the victim or victims, next of kin, immediate family members of the victim, and the designated representatives of the victim or next of kin, if applicable, made pursuant to this section and shall include in its report a statement ~~of~~ whether the person would pose a threat to public safety if released on parole.

~~In~~

*(e) In* those cases where there are more than two immediate family members of the victim who wish to attend any hearing covered in this section, the board ~~may, in its discretion,~~ *shall* allow attendance of additional immediate family members ~~or limit attendance to the following order of preference~~ *to include the following*: spouse, children, parents, siblings, grandchildren, and grandparents.

~~The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.~~

SECTION 5.3. Section 3044 is added to the Penal Code, to read:

*3044. (a) Notwithstanding any other law, the Board of Parole Hearings or its successor in interest shall be the state's parole authority and shall be responsible for protecting victims' rights in the parole process. Accordingly, to protect a victim from harassment and abuse during the parole process, no person paroled from a California correctional facility following incarceration for an offense committed on or after the effective date of this act shall, in the event his or her parole is revoked, be entitled to procedural rights other than the following:*

*(1) A parolee shall be entitled to a probable cause hearing no later than 15 days following his or her arrest for violation of parole.*

*(2) A parolee shall be entitled to an evidentiary revocation hearing no later than 45 days following his or her arrest for violation of parole.*

*(3) A parolee shall, upon request, be entitled to counsel at state expense only if, considering the request on a case-by-case basis, the board or its hearing officers determine:*

*(A) The parolee is indigent; and*

*(B) Considering the complexity of the charges, the defense, or because the parolee's mental or educational capacity, he or she appears incapable of speaking effectively in his or her own defense.*

*(4) In the event the parolee's request for counsel, which shall be considered on a case-by-case basis, is denied, the grounds for denial shall be stated succinctly in the record.*

*(5) Parole revocation determinations shall be based upon a preponderance of evidence admitted at hearings including documentary evidence, direct testimony, or hearsay evidence offered by parole agents, peace officers, or a victim.*

*(6) Admission of the recorded or hearsay statement of a victim or percipient witness shall not be construed to create a right to confront the witness at the hearing.*

*(b) The board is entrusted with the safety of victims and the public and shall make its determination fairly, independently, and without bias and shall not be influenced by or weigh the state cost or burden associated with just decisions. The board must accordingly enjoy sufficient autonomy to conduct unbiased hearings, and maintain an independent legal and administrative staff. The board shall report to the Governor.*

SECTION 6. NOTICE OF VICTIMS' BILL OF RIGHTS

SECTION 6.1. Section 679.026 is added to the Penal Code, to read:

*679.026. (a) It is the intent of the people of the State of California in enacting this section to implement the rights of victims of crime established in Section 28 of Article I of the California Constitution to be informed of the rights of crime victims enumerated in the Constitution and in the statutes of this state.*

*(b) Every victim of crime has the right to receive without cost or charge a list of the rights of victims of crime recognized in Section 28 of Article I of the California Constitution. These rights shall be known as "Marsy Rights."*

*(c) (1) Every law enforcement agency investigating a criminal act and every agency prosecuting a criminal act shall, as provided herein, at the time of initial contact with a crime victim, during follow-up investigation, or as soon thereafter as deemed appropriate by investigating officers or prosecuting attorneys, provide or make available to each victim of the criminal act without charge or cost a "Marsy Rights" card described in paragraphs (3) and (4).*

*(2) The victim disclosures required under this section shall be available to the public at a state funded and maintained Web site authorized pursuant to Section 14260 of the Penal Code to be known as "Marsy's Page."*

*(3) The Attorney General shall design and make available in ".pdf" or other imaging format to every agency listed in paragraph (1) a "Marsy Rights" card, which shall contain the rights of crime victims described in subdivision (b) of Section 28 of Article I of the California Constitution, information on the means by which a crime victim can access the web page described in paragraph (2), and a toll-free telephone number to enable a crime victim to contact a local victim's assistance office.*

*(4) Every law enforcement agency which investigates criminal activity shall, if provided without cost to the agency by any organization classified as a*

*nonprofit organization under paragraph (3) of subdivision (c) of Section 501 of the Internal Revenue Code, make available and provide to every crime victim a "Victims' Survival and Resource Guide" pamphlet and/or video that has been approved by the Attorney General. The "Victims' Survival and Resource Guide" and video shall include an approved "Marsy Rights" card, a list of government agencies, nonprofit victims' rights groups, support groups, and local resources that assist crime victims, and any other information which the Attorney General determines might be helpful to victims of crime.*

*(5) Any agency described in paragraph (1) may in its discretion design and distribute to each victim of a criminal act its own Victims' Survival and Resource Guide and video, the contents of which have been approved by the Attorney General, in addition to or in lieu of the materials described in paragraph (4).*

SECTION 7. CONFLICTS WITH EXISTING LAW

## PROPOSED LAW

Section 1. Title.

This act shall be known and may be cited as the "Voters FIRST Act."

SEC. 2. Findings and Purpose.

The People of the State of California hereby make the following findings and declare their purpose in enacting this act is as follows:

(a) Under current law, California legislators draw their own political districts. Allowing politicians to draw their own districts is a serious conflict of interest that harms voters. That is why 99 percent of incumbent politicians were reelected in the districts they had drawn for themselves in the recent elections.

(b) Politicians draw districts that serve their interests, not those of our communities. For example, cities such as Long Beach, San Jose and Fresno are divided into multiple oddly shaped districts to protect incumbent legislators. Voters in many communities have no political voice because they have been split into as many as four different districts to protect incumbent legislators. We need reform to keep our communities together so everyone has representation.

(c) This reform will make the redistricting process open so it cannot be controlled by the party in power. It will give us an equal number of Democrats and Republicans on the commission, and will ensure full participation of independent voters—whose voices are completely shut out of the current process. In addition, this reform requires support from Democrats, Republicans, and independents for approval of new redistricting plans.

(d) The independent Citizens Redistricting Commission will draw districts based on strict, nonpartisan rules designed to ensure fair representation. The reform takes redistricting out of the partisan battles of the Legislature and guarantees redistricting will be debated in the open with public meetings, and all minutes will be posted publicly on the Internet. Every aspect of this process will be open to scrutiny by the public and the press.

(e) In the current process, politicians are choosing their voters instead of voters having a real choice. This reform will put the voters back in charge.

The date of certification of a final map to the Secretary of State shall be deemed the enactment date for purposes of Section 9 of Article II.*

*(j) If the commission does not approve a final map by at least the requisite votes or if voters disapprove a certified final map in a referendum, the Secretary of State shall immediately petition the Supreme Court for an order directing the appointment of special masters to adjust the boundary lines of that map in accordance with the redistricting criteria and requirements set forth in subdivisions (d), (e), and (f). Upon its approval of the masters' map, the court shall certify the resulting map to the Secretary of State, which map shall constitute the certified final map for the subject type of district.*

*that funds or other resources provided for the operation of the commission are not adequate. The Legislature shall provide adequate funding to defend any action regarding a certified map. The commission has sole authority to determine whether the Attorney General or other legal counsel retained by the commission shall assist in the defense of a certified final map.*

*(b) (1) The Supreme Court has original and exclusive jurisdiction in all proceedings in which a certified final map is challenged.*

*(2) Any registered voter in this state may file a petition for a writ of mandate or writ of prohibition, within 45 days after the commission has certified a final map to the Secretary of State, to bar the Secretary of State from implementing the plan on the grounds that the filed plan violates this Constitution, the United States Constitution, or any federal or state statute.*

*(3) The Supreme Court shall give priority to ruling on a petition for a writ of mandate or a writ of prohibition filed pursuant to paragraph (2). If the court determines that a final certified map violates this Constitution, the United States Constitution, or any federal or state statute, the court shall fashion the relief that it deems appropriate.*

Public comment shall be taken for at least 14 days from the date of public display of any map.*

*(b) The Legislature shall take all steps necessary to ensure that a complete and accurate computerized database is available for redistricting, and that procedures are in place to provide the public ready access to redistricting data and computer software for drawing maps. Upon the commission's formation and until its dissolution, the Legislature shall coordinate these efforts with the commission.*

*8253.5. Citizens Redistricting Commission Compensation.*

*Members of the commission shall be compensated at the rate of three hundred dollars ($300) for each day the member is engaged in commission business. The Legislature may make additional appropriations in any year in which it determines that the commission requires additional funding in order to fulfill its duties.*

*(b) The commission, with fiscal oversight from the Department of Finance or its successor, shall have procurement and contracting authority and may hire staff and consultants, exempt from the civil service requirements of Article*

*(d) Children's hospitals also provide essential training for pediatricians, pediatric specialists and others who treat children, and they conduct critically important medical research that benefits all of California's children.*

*(e) However, the burden of providing uncompensated care and the increasing costs of health care seriously impair our children's hospitals' ability to modernize and expand their facilities and to purchase the latest medical technologies and special medical equipment necessary to take care of sick children.*

*(f) Therefore, the people desire to provide a steady and ready source of funds for capital improvement programs for children's hospitals to improve the health, welfare, and safety of California's children.*

The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.*

*1179.60. The bonds authorized by this part shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this part and are hereby incorporated in this part as though set forth in full in this part.*

*1179.61. (a) Solely for the purpose of authorizing the issuance and sale pursuant to the State General Obligation Bond Law of the bonds authorized by this part, the Children's Hospital Bond Act Finance Committee is hereby created. For purposes of this part, the Children's Hospital Bond Act Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Controller, Director of Finance, and the Treasurer, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.*

*(b) The authority is designated the "board" for purposes of the State General Obligation Bond Law, and shall administer the program pursuant to this part.*

*1179.62. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this part in order to carry out the actions specified in Section 1179.54 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds be issued or sold at any one time.*

*1179.63. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.*

*1179.64. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated continuously from the General Fund in the State Treasury, for the purposes of this part, an amount that will equal the total of the following:*

*(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this part, as the principal and interest become due and payable.*

*(b) The sum necessary to carry out Section 1179.65, appropriated without regard to fiscal years.*

*1179.65. For the purposes of carrying out this part, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the committee to be sold for the purpose of carrying out this part. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund from proceeds received from the sale of bonds for the purpose of carrying out this part.*

*1179.66. All money deposited in the fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.*

*1179.67. Pursuant to Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, the cost of bond issuance shall be paid out of the bond proceeds. These costs shall be shared proportionally by each children's hospital funded through this bond act.*

*1179.68. The authority may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, including other authorized forms of interim financing that include, but are not limited to, commercial paper, in accordance with Section 16312 of the Government Code, for purposes of carrying out this part. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this part. The authority shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this part.*

*1179.69. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this part includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this part or any previously issued refunding bonds.*

*1179.70. Notwithstanding any other provision of this part, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this part that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment of earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.*

*1179.71. The people hereby find and declare that, inasmuch as the proceeds from the sale of bonds authorized by this part are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that part.*

*1179.72. Notwithstanding any other provision of this part, the provisions of this part are severable. If any provision of this part or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.*

(a) It is the intent of the Legislature by enacting this chapter and of the people of California by approving the bond measure pursuant to this chapter to initiate the construction of a high-speed train system that connects the San Francisco Transbay Terminal to Los Angeles Union Station and Anaheim, and links the state's major population centers, including Sacramento, the San Francisco Bay Area, the Central Valley, Los Angeles, the Inland Empire, Orange County, and San Diego consistent with the authority's certified environmental impact reports of November 2005 and July 9, 2008.*

*(b) (1) Net proceeds received from the sale of nine billion dollars ($9,000,000,000) principal amount of bonds authorized pursuant to this chapter, upon appropriation by the Legislature in the annual Budget Act, shall be used for (A) planning and engineering for the high-speed train system and (B) capital costs, as described in subdivision (c).*

*(2) As adopted by the authority in May 2007, Phase 1 of the high-speed train project is the corridor of the high-speed train system between San Francisco Transbay Terminal and Los Angeles Union Station and Anaheim.*

*(3) Upon a finding by the authority that expenditure of bond proceeds for capital costs in corridors other than the corridor described in paragraph (2) would advance the construction of the system, would be consistent with the criteria described in subdivision (f) of Section 2704.08, and would not have an adverse impact on the construction of Phase 1 of the high-speed train project, the authority may request funding for capital costs, and the Legislature may appropriate funds described in paragraph (1) in the annual Budget Act, to be expended for any of the following high-speed train corridors:*

*(A) Sacramento to Stockton to Fresno.*

*(B) San Francisco Transbay Terminal to San Jose to Fresno.*

*(C) Oakland to San Jose.*

*(5) Revenues of the authority, generated by operations of the high-speed train system above and beyond operating and maintenance costs and financing obligations, including, but not limited to, support of revenue bonds, as determined by the authority, shall be used for construction, expansion, improvement, replacement, and rehabilitation of the high-speed train system.*

*(c) Capital costs payable or reimbursable from proceeds of bonds described in paragraph (1) of subdivision (b) include, with respect to the high-speed train system or any portion thereof, all activities necessary for acquisition of interests in real property and rights-of-way and improvement thereof; acquisition and construction of tracks, structures, power systems, and stations; acquisition of rolling stock and related equipment; mitigation of any direct or indirect environmental impacts of activities authorized by this chapter; relocation assistance for displaced property owners and occupants; other related capital facilities and equipment; and such other purposes related to the foregoing, for the procurement thereof, and for the financing or refinancing thereof, as may be set forth in a statute hereafter enacted. The method of acquisition of any of the foregoing may also be set forth in a statute hereafter enacted.*

*(d) Proceeds of bonds authorized pursuant to this chapter shall not be used for any operating or maintenance costs of trains or facilities.*

*(e) The State Auditor shall perform periodic audits of the authority's use of proceeds of bonds authorized pursuant to this chapter for consistency with the requirements of this chapter.*

*2704.06. The net proceeds received from the sale of nine billion dollars ($9,000,000,000) principal amount of bonds authorized pursuant to this chapter, upon appropriation by the Legislature in the annual Budget Act, shall*

*2704.08. (a) Proceeds of bonds described in paragraph (1) of subdivision (b) of Section 2704.04 shall not be used for more than 50 percent of the total cost of construction of each corridor or usable segment thereof of the high-speed train system, except for bond proceeds used for the purposes of subdivision (g).*

*(b) Not more than 10 percent of the proceeds of bonds described in paragraph (1) of subdivision (b) of Section 2704.04 shall be used for environmental studies, planning, and preliminary engineering activities.*

*(d) Prior to committing any proceeds of bonds described in paragraph (1) of subdivision (b) of Section 2704.04 for expenditure for construction and real property and equipment acquisition on each corridor, or usable segment thereof, other than for costs described in subdivision (g), the authority shall have approved and concurrently submitted to the Director of Finance and the Chairperson of the Joint Legislative Budget Committee the following: (1) a detailed funding plan for that corridor or usable segment thereof that (A) identifies the corridor or usable segment thereof, and the estimated full cost of constructing the corridor or usable segment thereof, (B) identifies the sources of all funds to be used and anticipates time of receipt thereof based on offered commitments by private parties, and authorizations, allocations, or other assurances received from governmental agencies, (C) includes a projected ridership and operating revenue report, (D) includes a construction cost projection including estimates of cost escalation during construction and appropriate reserves for contingencies, (E) includes a report describing any material changes from the plan submitted pursuant to subdivision (c) for this corridor or usable segment thereof, and (F) describes the terms and conditions associated with any agreement proposed to be entered into by the authority and any other party for the construction or operation of passenger train service along the corridor or usable segment thereof; and (2) a report or reports, prepared by one or more financial services firms, financial consulting firms, or other consultants, independent of any parties, other than the authority, involved in funding or constructing the high-speed train system, indicating that (A) construction of the corridor or usable segment thereof can be completed as proposed in the plan submitted pursuant to paragraph (1), (B) if so completed, the corridor or usable segment thereof would be suitable and ready for high-speed train operation, (C) upon completion, one or more passenger service providers can begin using the tracks or stations for passenger train service, (D) the planned passenger train service to be provided by the authority, or pursuant to its authority, will not require operating subsidy, and (E) an assessment of risk and the risk mitigation strategies proposed to be employed. The Director of Finance shall review the plan within 60 days of its submission by the authority and, after receiving any communication from the Joint Legislative Budget Committee, if the director finds that the plan is likely to be successfully implemented as proposed, the authority may enter into commitments to expend bond funds that are subject to this subdivision and accept offered commitments from private parties.*

*(e) Subsequent to approval of the detailed funding plan required under subdivision (d), the authority shall promptly inform the Governor and the Legislature of any material changes in plans or project conditions that would jeopardize completion of the corridor as previously planned and shall identify means of remedying the conditions to allow completion and operation of the corridor.*

*(f) In selecting corridors or usable segments thereof for construction, the authority shall give priority to those corridors or usable segments thereof that are expected to require the least amount of bond funds as a percentage of total cost of construction. Among other criteria it may use for establishing priorities for initiating construction on corridors or usable segments thereof, the authority*

*shall include the following: (1) projected ridership and revenue, (2) the need to test and certify trains operating at speeds of 220 miles per hour, (3) the utility of those corridors or usable segments thereof for passenger train services other than the high-speed train service that will not result in any unreimbursed operating or maintenance cost to the authority, and (4) the extent to which the corridors include facilities contained therein to enhance the connectivity of the high-speed train network to other modes of transit, including, but not limited to, conventional rail (intercity rail, commuter rail, light rail, or other rail transit), bus, or air transit.*

*(g) Nothing in this section shall limit use or expenditure of proceeds of bonds described in paragraph (1) of subdivision (b) of Section 2704.04 up to an amount equal to 7.5 percent of the aggregate principal amount of bonds described in that paragraph for environmental studies, planning, and preliminary engineering activities, and for (1) acquisition of interests in real property and right-of-way and improvement thereof (A) for preservation for high-speed rail uses, (B) to add to third-party improvements to make them compatible with high-speed rail uses, or (C) to avoid or to mitigate incompatible improvements or uses; (2) mitigation of any direct or indirect environmental impacts resulting from the foregoing; and (3) relocation assistance for property owners and occupants who are displaced as a result of the foregoing.*

*(h) Not more than 2.5 percent of the proceeds of bonds described in paragraph (1) of subdivision (b) of Section 2704.04 shall be used for administrative purposes. The amount of bond proceeds available for administrative purposes shall be appropriated in the annual Budget Act. The Legislature may, by statute, adjust the percentage set forth in this subdivision, except that the Legislature shall not increase that percentage to more than 5 percent.*

*2704.10. (a) Bonds in the total amount of nine billion nine hundred fifty million dollars ($9,950,000,000), exclusive of refunding bonds issued in accordance with Section 2704.19, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.*

*(b) The Treasurer shall sell the bonds authorized by the committee pursuant to this section. The bonds shall be sold upon the terms and conditions specified in a resolution to be adopted by the committee pursuant to Section 16731 of the Government Code.*

*2704.11. (a) Except as provided in subdivision (b), the bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law, Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.*

*(b) Notwithstanding any provision of the State General Obligation Bond Law, each issue of bonds authorized by the committee shall have a final maturity of not more than 40 years from the date of original issuance thereof.*

*2704.12. (a) Solely for the purpose of authorizing the issuance and sale of the bonds authorized by this chapter and the making of those determinations and the taking of other actions as are authorized by this chapter, pursuant to the State General Obligation Bond Law, the High-Speed Passenger Train Finance Committee is hereby created. For purposes of this chapter, the High-Speed Passenger Train Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Treasurer, the Director of Finance, the Controller, the Secretary of Business, Transportation and Housing, and the chairperson of the authority. Notwithstanding any other provision of law, any member of the committee may designate a representative to act as that member in his or her place and stead for all purposes, as though the member were personally present. The Treasurer shall serve as chairperson of the committee. A majority of the committee shall constitute a quorum of the committee, and may act for the committee.*

*(b) For purposes of the State General Obligation Bond Law, the authority is designated the "board."*

*2704.13. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Sections 2704.06 and 2704.095 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be issued and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized be issued and sold at any one time. The committee shall consider program funding needs, revenue projections, financial market conditions, and other necessary factors in determining the term for the bonds to be issued. In*

*addition to all other powers specifically granted in this chapter and the State General Obligation Bond Law, the committee may do all things necessary or convenient to carry out the powers and purposes of this article, including the approval of any indenture relating to the bonds, and the delegation of necessary duties to the chairperson and to the Treasurer as agent for the sale of the bonds. Any terms of any bonds issued under this chapter may be provided under an indenture instead of under a resolution, as determined by the committee.*

*2704.14. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.*

*2704.15. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount equal to the total of the following: (a) that sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable, and (b) the sum necessary to carry out Section 2704.17, appropriated without regard to fiscal years.*

*2704.16. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for purposes of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of this chapter, less any amount borrowed pursuant to Section 2701.17. The board shall execute such documents as required by the Pooled Money Investment Board to obtain and repay the loan. Any amount loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.*

*2704.17. For the purpose of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of unsold bonds which have been authorized by the committee to be sold for the purpose of carrying out this chapter, less any amount borrowed pursuant to Section 2704.16. Any amount withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from the sale of bonds for the purpose of carrying out this chapter.*

*2704.18. All money deposited in the fund which is derived from premium on bonds sold shall be available to pay costs of issuing the bonds, and to the extent not so needed, together with accrued interest derived from sale of the bonds, shall be available for transfer to the General Fund as a credit to expenditures for bond interest.*

*2704.19. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of the State General Obligation Bond Law. Approval by the electors of the state for the issuance of bonds shall include approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.*

*2704.20. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the*

*disbursement of these proceeds is not subject to the limitations imposed by that article.*

*2704.21. Notwithstanding any provision of this chapter or the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes under designated conditions, the Treasurer may maintain separate accounts for the bond proceeds invested and the investment earnings on those proceeds, and may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law, or take any other action with respect to the investment and use of those bond proceeds, as may be required or desirable under federal law in order to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.*

[Approved by electors November 4, 2008.]

## PROPOSED LAW

SECTION 1. Article 5x (commencing with Section 998.400) is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

*Article 5x. Veterans' Bond Act of 2008*

*998.400. This article may be cited as the Veterans' Bond Act of 2008.*

*998.401. (a) The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), except as otherwise provided herein, is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this article, and the provisions of that law are included in this article as though set out in full in this article. All references in this article to "herein" refer both to this article and that law.*

*(b) For purposes of the State General Obligation Bond Law, the Department of Veterans Affairs is designated the board.*

*998.402. As used herein, the following words have the following meanings:*

*(a) "Board" means the Department of Veterans Affairs.*

*(b) "Bond" means veterans' bond, a state general obligation bond, issued pursuant to this article adopting the provisions of the State General Obligation Bond Law.*

*liability or liabilities, of the State of California, in the aggregate amount of not more than nine hundred million dollars ($900,000,000), exclusive of refunding bonds, in the manner provided herein.*

*998.404. (a) All bonds authorized by this article, when duly sold and delivered as provided herein, constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.*

*(b) There shall be collected annually, in the same manner and at the same time as other state revenue is collected, a sum of money, in addition to the ordinary revenues of the state, sufficient to pay the principal of, and interest on, these bonds as provided herein, and all officers required by law to perform any duty in regard to the collection of state revenues shall collect this additional sum.*

*(c) On the dates on which funds are to be remitted pursuant to Section 16676 of the Government Code for the payment of debt service on the bonds in each fiscal year, there shall be transferred to the General Fund to pay the debt service all of the money in the fund, not in excess of the amount of debt service then due and payable. If the money transferred on the remittance dates is less than debt service then due and payable, the balance remaining unpaid shall be transferred to the General Fund out of the fund as soon as it shall become available, together with interest thereon from the remittance date until paid, at the same rate of interest as borne by the bonds, compounded semiannually. Notwithstanding any other provision of law to the contrary, this subdivision shall apply to all veterans farm and home purchase bond acts pursuant to this chapter. This subdivision does not grant any lien on the fund or the moneys therein to the holders of any bonds issued under this article. For the purposes of this subdivision, "debt service" means the principal (whether due at maturity, by redemption, or acceleration), premium, if any, or interest payable on any date with respect to any series of bonds. This subdivision shall not apply, however, in the case of any debt service that is payable from the proceeds of any refunding bonds.*

*998.405. There is hereby appropriated from the General Fund, for purposes of this article, a sum of money that will equal both of the following:*

*(a) That sum annually necessary to pay the principal of, and the interest on, the bonds issued and sold as provided herein, as that principal and interest become due and payable.*

*(b) That sum necessary to carry out Section 998.406, appropriated without regard to fiscal years.*

*998.406. For the purposes of this article, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of a sum of money not to exceed the amount of the unsold bonds which have been authorized by the committee to be sold pursuant to this article. Any sums withdrawn shall be deposited in the fund. All moneys made available under this section to the board shall be returned by the board to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from the sale of bonds for the purpose of carrying out this article.*

*998.407. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this article. The amount of the request shall not exceed the amount of unsold bonds*

*which the committee has, by resolution, authorized to be sold for the purpose of carrying out this article. The board shall execute whatever documents are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this article.*

*998.408. Upon request of the board, supported by a statement of its plans and projects approved by the Governor, the committee shall determine whether to issue any bonds authorized under this article in order to carry out the board's plans and projects, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out these plans and projects progressively, and it is not necessary that all of the bonds be issued or sold at any one time.*

*998.409. As long as any bonds authorized under this article are outstanding, the Secretary of Veterans Affairs shall, at the close of each fiscal year, require a survey of the financial condition of the Division of Farm and Home Purchases, together with a projection of the division's operations, to be made by an independent public accountant of recognized standing. The results of each survey and projection shall be reported in writing by the public accountant to the Secretary of Veterans Affairs, the California Veterans Board, the appropriate policy committees dealing with veterans affairs in the Senate and the Assembly, and the committee.*

*The Division of Farm and Home Purchases shall reimburse the public accountant for these services out of any money which the division may have available on deposit with the Treasurer.*

*998.410. The committee may authorize the Treasurer to sell all or any part of the bonds authorized by this article at the time or times established by the Treasurer.*

*Whenever the committee deems it necessary for an effective sale of the bonds, the committee may authorize the Treasurer to sell any issue of bonds at less than their par value, notwithstanding Section 16754 of the Government Code. However, the discount on the bonds shall not exceed 3 percent of the par value thereof.*

*998.411. Out of the first money realized from the sale of bonds as provided herein, there shall be redeposited in the General Obligation Bond Expense Revolving Fund, established by Section 16724.5 of the Government Code, the amount of all expenditures made for the purposes specified in that section, and this money may be used for the same purpose and repaid in the same manner whenever additional bond sales are made.*

*998.412. Any bonds issued and sold pursuant to this article may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. The approval of the voters for the issuance of bonds under this article includes approval for the issuance of bonds issued to refund bonds originally issued or any previously issued refunding bonds.*

*998.413. Notwithstanding any provision of the bond act, if the Treasurer sells bonds under this article for which bond counsel has issued an opinion to the effect that the interest on the bonds is excludable from gross income for purposes of federal income tax, subject to any conditions which may be designated, the Treasurer may establish separate accounts for the investment of bond proceeds and for the earnings on those proceeds, and may use those proceeds or earnings to pay any rebate, penalty, or other payment required by federal law or take any*

*other action with respect to the investment and use of bond proceeds required or permitted under federal law necessary to maintain the tax-exempt status of the bonds or to obtain any other advantage under federal law on behalf of the funds of this state.*

*998.414. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this article are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by Article XIII B.*

4. **Waiting Period and Parental Notification Before Termination of Minor's Pregnancy.**

[Submitted by the initiative and rejected by electors November 4, 2008.]

## PROPOSED LAW

SECTION 1. Title

This measure shall be known and may be cited as the Child and Teen Safety and Stop Predators Act: Sarah's Law.

SEC. 2. Declaration of Findings and Purposes

The people of California have a compelling interest in protecting minors from the known risks of secret abortions, including the danger of not obtaining prompt care for health- and life-threatening complications when a minor's parent or responsible family member is unaware that she has undergone a secret abortion. The people also have a compelling interest in preventing sexual predators from using secret abortions to conceal sexual exploitation of minors.

SEC. 3. Parental Notification

Section 32 is added to Article I of the California Constitution, to read:

*SEC. 32. (a) For purposes of this section, the following terms shall be defined to mean:*

*(1) "Abortion" means the use of any means to terminate the pregnancy of an unemancipated minor known to be pregnant except for the purpose of producing a live birth. "Abortion" shall not include the use of any contraceptive drug or device.*

*(2) "Medical emergency" means a condition which, on the basis of the physician's good-faith clinical judgment, so complicates the medical condition of a pregnant unemancipated minor as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.*

*(3) "Parent" means a person who, at the time notice or waiver is required under this section, is either a parent if both parents have legal custody, or the parent or person having legal custody, or the legal guardian of an unemancipated minor.*

*(4) "Adult family member" means a person at least 21 years of age who is the grandparent, stepparent, foster parent, aunt, uncle, sibling, half-sibling, or first cousin of an unemancipated minor.*

*(5) "Notice" means a written notification, signed and dated by a physician or his or her agent, informing the parent or adult family member of an unemancipated minor that she is pregnant and has requested an abortion.*

*(6) "Unemancipated minor" means a female under the age of 18 years who has not entered into a valid marriage and is not on active duty with the armed services of the United States and has not received a declaration of emancipation under state law. For the purposes of this section, pregnancy does not emancipate a female under the age of 18 years.*

*(7) "Physician" means any person authorized under the statutes and regulations of the State of California to perform an abortion upon an unemancipated minor.*

*(b) Notwithstanding Section 1 of Article I, or any other provision of this Constitution or law to the contrary and except in a medical emergency as provided for in subdivision (f), a physician shall not perform an abortion upon a pregnant unemancipated minor until at least 48 hours has elapsed after the physician or the physician's agent has delivered written notice to her parent personally or by mail as provided in subdivision (c); or until the physician or the physician's agent has received a valid written waiver of notice as provided in subdivision (d); or until 48 hours after the physician has delivered written notice to an adult family member and has made a report of known or suspected child abuse, as provided in subdivision (e); or until the physician has received a copy of a waiver of notification from the court as provided in subdivision (h), (i), or (j). A copy of any notice or waiver shall be retained with the unemancipated minor's medical records. The physician or the physician's agent shall inform the unemancipated minor that her parent may receive notice as provided for in this section.*

*(c) The written notice shall be delivered by the physician or the physician's agent to the parent, either personally or by certified mail addressed to the parent at the parent's last known address with return receipt requested and restricted delivery to the addressee. If notice is provided by certified mail, a copy of the written notice shall also be sent at the same time by first class mail to the parent. Notice by mail may be presumed to have been delivered under the provisions of this subdivision at noon of the second day after the written notice sent by certified mail was postmarked, not counting any days on which regular mail delivery does not take place. A form for the notice shall be prescribed by the State Department of Health Services. The notice form shall be bilingual, in English and Spanish, and also available in English and each of the other languages in which California Official Voter Information Guides are published.*

*(d) Notice of an unemancipated minor's intent to obtain an abortion may be waived by her parent. The waiver must be in writing, on a form prescribed by the State Department of Health Services, signed by a parent, dated, and notarized. The parent shall specify on the form that the waiver is valid for 30 days, or until a specified date, or until the minor's eighteenth birthday. The written waiver need not be notarized if the parent personally delivers it to the physician or the physician's agent. The form shall include the following statement:* ***"WARNING. It is a crime to knowingly provide false information to a physician or a physician's agent for the purpose of inducing a physician or a physician's agent to believe that a waiver of notice has been provided by a parent or***

***guardian."*** *The waiver form shall be bilingual, in English and Spanish, and also available in English and each of the other languages in which California Official Voter Information Guides are published. For each abortion performed on an unemancipated minor pursuant to this subdivision, the physician or the physician's agent must receive a separate original written waiver that shall be retained with the unemancipated minor's medical records.*

*(e) Notice to a parent shall not be required under this section if, at least 48 hours prior to performing the abortion, the attending physician has delivered notice in the manner prescribed and on the form prescribed in subdivision (c) to an adult family member designated by the unemancipated minor and has made a written report of known or suspected child abuse concerning the unemancipated minor to the appropriate law enforcement or public child protective agency. Such report shall be based on a minor's written statement that she fears physical, sexual, or severe emotional abuse from a parent who would otherwise be notified and that her fear is based on a pattern of physical, sexual, or severe emotional abuse of her exhibited by a parent. The physician shall include the minor's statement with his or her report and shall also retain a copy of the statement and the report in the minor's medical records. The physician shall also include with the notice a letter informing the adult family member that a report of known or suspected child abuse has been made concerning the minor and identifying the agency to which the report was made. The minor shall be informed that the notice and the letter will be delivered to the adult family member she has designated.*

*(f) Notice shall not be required under this section if the attending physician certifies in the unemancipated minor's medical records the medical indications supporting the physician's good-faith clinical judgment that the abortion is necessary due to a medical emergency.*

*(g) Notice shall not be required under this section if waived pursuant to this subdivision and subdivision (h), (i), or (j). If the pregnant unemancipated minor elects not to permit notice to be given to a parent, she may file a petition with the juvenile court. No filing fee shall be required for filing a petition. If, pursuant to this subdivision, an unemancipated minor seeks to file a petition, the court shall assist the minor or person designated by the minor in preparing the documents required pursuant to this section. The petition shall set forth with specificity the minor's reasons for the request. The unemancipated minor shall appear personally in the proceedings in juvenile court and may appear on her own behalf or with counsel of her own choosing. The court shall, however, advise her that she has a right to court-appointed counsel upon request. The hearing shall be held by 5 p.m. on the second court day after filing the petition unless extended at the written request of the unemancipated minor or her counsel. The unemancipated minor shall be notified of the date, time, and place of the hearing on the petition. Judgment shall be entered within one court day of submission of the matter. The judge shall order a record of the evidence to be maintained, including the judge's written factual findings and legal conclusions supporting the decision. The court shall ensure that the minor's identity be kept confidential and that all court proceedings be sealed.*

*(h) (1) If the judge finds, by clear and convincing evidence, that the unemancipated minor is both sufficiently mature and well-informed to decide whether to have an abortion, the judge shall authorize a waiver of notice of a parent.*

*(2) If the judge finds, by clear and convincing evidence, that notice to a parent is not in the best interests of the unemancipated minor, the judge shall authorize a waiver of notice. If the finding that notice to a parent is not in the best interests of the minor is based on evidence of physical, sexual, or emotional abuse, the court shall ensure that such evidence is brought to the attention of the appropriate law enforcement or public child protective agency.*

*(3) If the judge does not make a finding specified in paragraph (1) or (2), the judge shall deny the petition.*

*(i) If the judge fails to rule within the time period specified in subdivision (g) and no extension was requested and granted, the petition shall be deemed granted and the notice requirement shall be waived.*

*(j) The unemancipated minor may appeal the judgment of the juvenile court at any time after the entry of judgment. The Judicial Council shall prescribe, by rule, the practice and procedure on appeal and the time and manner in which any record on appeal shall be prepared and filed and may prescribe forms for such proceedings. These procedures shall require that the hearing shall be held within three court days of filing the notice of appeal. The unemancipated minor shall be notified of the date, time, and place of the hearing. The appellate court shall ensure that the unemancipated minor's identity be kept confidential and that all court proceedings be sealed. No filing fee shall be required for filing an appeal. Judgment on appeal shall be entered within one court day of submission of the matter.*

*(k) The Judicial Council shall prescribe, by rule, the practice and procedure for petitions for waiver of parental notification, hearings, and entry of judgment as it deems necessary and may prescribe forms for such proceedings. Each court shall provide annually to the Judicial Council, in a manner to be prescribed by the Judicial Council to ensure confidentiality of the unemancipated minors filing petitions, a report of the number of petitions filed, the number of petitions granted under paragraph (1) or (2) of subdivision (h), deemed granted under subdivision (i), denied under paragraph (3) of subdivision (h), and granted or denied under subdivision (j), said reports to be publicly available unless the Judicial Council determines that the data contained in individual reports should be aggregated by county before being made available to the public in order to preserve the confidentiality of the unemancipated minors filing petitions.*

*(l) The State Department of Health Services shall prescribe forms for the reporting of abortions performed on unemancipated minors by physicians. The report forms shall not identify the unemancipated minor or her parent(s) by name or request other information by which the unemancipated minor or her parent(s) might be identified. The forms shall include the date of the procedure and the unemancipated minor's month and year of birth, the duration of the pregnancy, the type of abortion procedure, the numbers of the unemancipated minor's previous abortions and deliveries if known, and the facility where the abortion was performed. The forms shall also indicate whether the abortion was performed pursuant to subdivision (c), (d), (e), (f), (h), (i), or (j).*

*(m) The physician who performs an abortion on an unemancipated minor shall within one month file a dated and signed report concerning that abortion with the State Department of Health Services on forms prescribed pursuant to subdivision (l). The identity of the physician shall be kept confidential and shall not be subject to disclosure under the California Public Records Act.*

*(n) The State Department of Health Services shall compile an annual statistical report from the information specified in subdivision (l). The annual*

*report shall not include the identity of any physician who filed a report as required by subdivision (m). The compilation shall include statistical information on the numbers of abortions by month and by county where performed, the minors' ages, the duration of the pregnancies, the types of abortion procedures, the numbers of prior abortions or deliveries where known, and the numbers of abortions performed pursuant to each of subdivision (c), (d), (e), (f), (h), (i), or (j). The annual statistical report shall be made available to county public health officials, Members of the Legislature, the Governor, and the public.*

*(o) Any person who performs an abortion on an unemancipated minor and in so doing knowingly or negligently fails to comply with the provisions of this section shall be liable for damages in a civil action brought by the unemancipated minor, her legal representative, or by a parent wrongfully denied notification. The time for commencement of the action shall be within four years of the date the minor attains majority or four years of the date a parent wrongfully denied notification discovers or reasonably should have discovered the failure to comply with this section, whichever period expires later. A person shall not be liable under this section if the person establishes by written or documentary evidence that the person relied upon evidence sufficient to convince a careful and prudent person that the representations of the unemancipated minor or other persons regarding information necessary to comply with this section were bona fide and true. At any time prior to the rendering of a final judgment in an action brought under this subdivision, the plaintiff may elect to recover, in lieu of actual damages, an award of statutory damages in the amount of ten thousand dollars ($10,000). In addition to any damages awarded under this subdivision, the plaintiff shall be entitled to an award of reasonable attorney fees. Nothing in this section shall abrogate, limit, or restrict the common law rights of parents, or any right to relief under any theory of liability that any person or any state or local agency may have under any statute or common law for any injury or damage, including any legal, equitable, or administrative remedy under federal or state law, against any party, with respect to injury to an unemancipated minor from an abortion.*

5. **Nonviolent Drug Offenses. Sentencing, Parole and Rehabilitation.**

[Submitted by the initiative and rejected by electors November 4, 2008.]

## PROPOSED LAW

SECTION 1. Title.

This act shall be known and may be cited as the "Nonviolent Offender Rehabilitation Act of 2008."

SEC. 2. Findings and Declarations.

The people of the State of California hereby find and declare all of the following:

I. Failure to Provide Effective Rehabilitation is a Costly Mistake

(a) California's prison system has failed in its mission to rehabilitate criminals and protect public safety.

(b) State prisons are severely overcrowded and highly unsafe, currently with 175,000 inmates squeezed into facilities designed for about 100,000. Many of these inmates entered prison for nonviolent crimes and for nonviolent parole violations.

(c) Drug addiction is a leading cause of crime in California, with high prevalence among arrestees, prisoners and parolees. Moreover, untreated addiction is deadly: drug overdose is the second leading cause of accidental death in the United States and disproportionately impacts persons recently released from jail and prison.

(d) Punishment alone largely fails to change nonviolent criminal behavior, particularly when such behavior is driven by addiction and lack of basic education and skills.

(e) California's corrections system does not provide meaningful rehabilitation services to most inmates and parolees. Nonviolent offenders can languish for

years behind bars without education, vocational training, or rehabilitation programs of any kind. These inmates are then released into our communities without access to meaningful services, and with no skills or opportunities to help them safely and successfully be reintegrated into society.

(f) California's criminal justice system fails to offer effective drug treatment to tens of thousands of nonviolent offenders each year whose drug offenses and other criminal activity are driven by substance abuse and addiction. Moreover, courts are required to spend scarce resources on processing routine cases of adult marijuana possession, a waste of resources that can be curtailed by penalizing small amounts of marijuana possession as an infraction.

(g) California now offers virtually no publicly funded drug treatment options for youth under the age of 18, a tragic and short-sighted failure, in that young people with drug problems are at the highest risk to lead lives of addiction and criminality as adults. New sources of funding must be found for youth programs. At the same time, youth under the age of 18 who are arrested for possession of marijuana should receive appropriate, science-based drug education programs.

(h) California spends excessive time and resources monitoring nonviolent former inmates. Many states require much less supervision for low-risk offenders and have lower recidivism rates. Parole supervision should be targeted to more dangerous offenders, with serious or violent criminals given heightened parole supervision.

(i) High rates of incarceration and re-incarceration result, in part, from lack of appropriate treatment and rehabilitation options for youth and nonviolent offenders. Moreover, prison overcrowding makes rehabilitation almost impossible, and the lack of rehabilitation for nonviolent prisoners and parolees contributes directly to recidivism and re-incarceration of recently released inmates.

(j) Studies show that providing drug treatment and rehabilitation services to youth, to nonviolent offenders, and to nonviolent prisoners and parolees is an effective strategy to reduce future criminality and recidivism.

(k) In light of the crisis in California's prison system, Californians need and demand a major reorientation of state policies to provide greater rehabilitation, accountability and treatment options for youth, nonviolent offenders and nonviolent prisoners and parolees.

II. Treatment and Rehabilitation Enhance Public Safety

(a) Public safety is enhanced when young people are offered drug education and treatment, including family counseling, upon the first signs of a substance abuse problem.

(b) Public safety is enhanced when nonviolent, addicted offenders receive effective drug treatment and mental health services, instead of incarceration.

(c) Public safety is enhanced when nonviolent prisoners and parolees participate in effective rehabilitation programs designed to assist them in a successful reintegration into society.

(d) Public safety and institutional safety are enhanced when prisons are not forced to house more inmates than they were designed to hold. Rehabilitation programs have more successful outcomes when there is adequate space for programs and a minimum of lockdowns that impede such programs. Further, rehabilitation programs achieve better results when inmates have incentive to participate in and complete such programs.

(e) Public safety is enhanced when probation and parole officers oversee manageable caseloads and can focus on serious and violent offenders.

(f) California can protect public safety, save hundreds of millions of dollars, and reduce the unnecessary incarceration of nonviolent offenders by:

(1) expanding treatment opportunities for youth;

(2) diverting nonviolent offenders to treatment and providing incentives for them to complete such treatment;

(3) creating incentives for nonviolent inmates to behave in prison and to participate in and complete meaningful rehabilitation programs; and

(4) focusing parole resources on more dangerous offenders, and extending the period of supervision for such offenders, while providing effective rehabilitation programs for parolees.

III. Oversight and Accountability Are Critical for Individual Offenders and for Systems

(a) Offenders participating in rehabilitation and treatment programs in the criminal justice system must be held accountable by courts and parole authorities through the use of regular status hearings and structured responses to problems during treatment and rehabilitation.

(b) The criminal justice system must recognize that addiction, by definition, is a chronic, relapsing disease, and that addiction, standing alone, is not a behavioral problem for which punishment is appropriate. Punishing addiction has not worked and has proven counterproductive. Accordingly, it is incumbent upon criminal justice professionals to adhere to scientific research and clinical best practices that, among other things, recognize the various stages of recovery, endorse the use of incentives to improve treatment success rates, and sharply curtail the types and severity of sanctions used to respond to problems in treatment.

(c) Oversight and evaluation of treatment and rehabilitation programs is essential to ensure that appropriate programs are offered and best practices are adopted. To this end, independent researchers should study treatment and rehabilitation programs for youth, nonviolent offenders, inmates and parolees, and should report those results to the public. In addition, government agencies implementing new treatment and rehabilitation programs should be monitored and guided by independent commissions and authorities, with public input, to keep these efforts transparent and responsive to the public.

IV. Treatment and Rehabilitation Are Already a Proven Success; Programs Should Be Improved and Expanded

(a) Broadly based rehabilitation programs for nonviolent offenders in California are a proven success. In November 2000, the people approved Proposition 36, the Substance Abuse and Crime Prevention Act of 2000, requiring community-based drug treatment instead of incarceration for nonviolent drug possession offenders.

(b) Since its passage in 2000, Proposition 36 has offered treatment to over 190,000 nonviolent drug possession offenders. It has guided roughly 36,000 people into treatment each year.

(c) The treatment success rate for Proposition 36 is on a par with success rates found for some of the most effective treatment systems studied in California and across America.

(d) Independent studies by researchers at the University of California, Los Angeles, show that Proposition 36 saves taxpayers between $2.50 and $4.00 for every $1.00 invested in the program. Overall, the program saved taxpayers nearly $1.8 billion during the first six years of the new law's implementation.

(e) Despite its success, Proposition 36 treatment programs are not funded adequately. As a result, people in the program all too often receive less treatment, or the wrong kind of treatment. Two studies released in 2006 indicated that funding should be at least $228 million to $256 million, however, less than half the suggested amount was appropriated for fiscal year 2007–08, and counties are now sharply curtailing the type, intensity, and quality of treatment offered. California is better served by adequately investing in cost-effective treatment for nonviolent offenders.

(f) Several other states have successfully reduced recidivism by former inmates by providing rehabilitation programs before and after release from prison. Small-scale efforts in recent years in California have been less successful, due to the limited scope of the programs and the substantial barriers to implementation of those programs.

(g) It is time to expand drug treatment diversion pioneered by Proposition 36, and to coordinate, cohere, supervise, and, where appropriate, universalize multiple independent programs.

(h) California must commit to providing effective treatment to low-level offenders caught up in the criminal justice system and continue this commitment to rehabilitation for persons who are incarcerated, and after their release. The failure to seize these opportunities to address some of the root causes of criminal behavior risks the return of many offenders to the criminal justice system.

(i) Existing laws allowing people suffering from addiction to be prematurely terminated from treatment and incarcerated due to foreseeable relapses or problems should be amended to promote continued treatment, provided that a person is not committing additional crimes.

(j) The use of jail time to punish relapses and misbehavior during the treatment period has never been proved effective, and therefore should be reserved only for those people who are at imminent risk of being terminated from probation and treatment, and only after incentives and graduated sanctions have failed.

(k) Community-based treatment should be an option for a wider range of nonviolent offenders than covered by Proposition 36, provided that the offender's conduct is found to result primarily from the offender's underlying substance abuse problems. Where such offenders are afforded treatment instead of incarceration, the criminal justice system should be given additional tools and resources to provide effective treatment, ensure offender accountability, and prevent future criminality.

(*l*) In 2006, the Legislature passed a bill known as Senate Bill 1137 (Chapter 63, Statutes of 2006) attempting to amend Proposition 36. The proposed amendments, however, were enjoined by a court as likely unconstitutional because they conflict with the original measure. If the amendments are eventually ruled invalid, the legislation calls for them to be placed before the electors. In considering this measure, the people are considering substantially similar legislation, and therefore declare it unnecessary and undesirable for the 2006 legislation to be referred to the ballot.

SEC. 3. Purposes and Intents.

The people hereby declare that the intents and purposes of this measure are to:

(a) Prevent crime, promote addiction recovery, provide rehabilitation services and restorative justice programs, and heighten accountability for youth and nonviolent offenders.

(b) Reduce prison overcrowding and use prison beds primarily for serious and violent offenders and sex offenders, who pose the greatest risks to our communities.

(c) Create a continuum of care providing drug treatment and related services for at-risk youth and for people entering treatment through the court system, with graduated steps tied to the severity of a person's substance abuse problems and criminal history, beginning with programs under Section 1000 of the Penal Code.

(d) Create a continuum of care providing rehabilitation programs for prison inmates, parolees and former parolees, with the goal of reducing recidivism and preventing future criminal activity by offering appropriate services whenever they are necessary.

(e) Preserve valuable court resources currently spent processing adults caught possessing marijuana for personal use by penalizing possession of small amounts of marijuana for personal use as an infraction with a fine, diverting young people caught using marijuana into appropriate science-based drug education programs, and providing additional money for youth programs through the re-direction of fines paid by people caught possessing marijuana.

(f) Limit the use of state prisons to punish minor parole violations by nonviolent parolees, provided that such parolees have never committed a serious or violent felony, a sex offense requiring registration, or a gang crime.

(g) Provide appropriate incentives and rewards for nonviolent offenders, prisoners and parolees who participate in treatment and rehabilitation, to encourage participation and completion of such programs.

(h) Improve the efficacy of our criminal justice system by making appropriate treatment and rehabilitative services a major focus in the processing of nonviolent offenders.

(i) Transform the culture of our state corrections system by elevating the mission of rehabilitation of prisoners and former inmates and integrating that mission with parole through creating new rehabilitation positions, including a new secretary at the Department of Corrections and Rehabilitation.

(j) Extend parole supervision for serious and violent offenders, and to reduce parole caseloads so that parole officers can focus on more dangerous offenders.

(k) Refocus parole supervision for nonviolent offenders to prioritize their re-integration into society, free from lives of addiction and crime.

(*l*) Fund adequately and to ensure effective, high-quality treatment and rehabilitation programs for all of the populations referenced herein.

(m) Provide a range of programs and incentives for nonviolent offenders, prison inmates and parolees, without limiting the range of programs or incentives that may be offered to persons who do not qualify under the terms of this measure.

(n) Prevent overdose death and morbidity by offering overdose awareness and prevention education to inmates in county jails.

(o) Ensure independent oversight and guidance to government agencies charged with implementing the programs outlined in this act by appointing diverse groups of stakeholders to help serve as the public's eyes, ears, and voices in shaping and monitoring the implementation of the act.

(p) Strengthen California's drug courts by adequately funding those courts, permitting those courts to fashion their own eligibility criteria and operating procedures, and holding them accountable by requiring those courts, for the first time, to systematically collect and report data regarding their budgets, expenditures, operations, and treatment outcomes.

(q) Provide voters with the final say on these matters at the time of the election on this measure, and to therefore strike a provision of Senate Bill 1137 (Chapter 63, Statutes of 2006) that might otherwise require a future election on substantially the same subject.

1210. As used in Sections *1210.01 to 1210.05, inclusive, and Sections* 1210.1*, 1210.2* and 3063.1 of this code, and Division 10.8 (commencing with Section 11999.4) of the Health and Safety Code, the following definitions apply:

(a) The term "nonviolent drug possession offense" means the unlawful personal use, possession for personal use, or transportation for personal use, *or being under the influence,* of any controlled substance identified in Section 11054, 11055, 11056, 11057 or 11058 of the Health and Safety Code, *or of any controlled substance analog as defined in Section 11401 of the Health and Safety Code,* or the offense of being under the influence of a controlled substance in violation of Section 11550 of the Health and Safety Code*, or of any drug paraphernalia offense as defined in Section 11364 of the Health and Safety Code or Section 4140 of the Business and Professions Code*. The term "nonviolent drug possession offense" does not include the possession for sale, *transportation for sale,* production, or manufacturing of any controlled substance and does not include violations of Section 4573.6 or 4573.8. *A jury's determination that a defendant is guilty of simple possession is a dispositive finding that the defendant is eligible for probation under this act absent other disqualifying factors set forth in separate sections of the act. People v. Dove, 124 Cal.App.4th 1 (2004), is hereby nullified.*

(b) The term "drug treatment program," *"interim treatment program,"* or "drug treatment" means a ~~state~~ licensed or certified community drug treatment program, which may include one or more of the following: *science-based* drug education, outpatient services, *medication-assisted treatment* ~~narcotic replacement therapy~~, residential treatment, *mental health services* ~~detoxification services~~, and aftercare *or continuing care* ~~services~~. The term "drug treatment program" or "drug treatment" includes a drug treatment program operated under the direction of the Veterans Health Administration of the Department of Veterans Affairs or a program specified in Section 8001. That type of program shall be eligible to provide drug treatment services without regard to the licensing or certification provisions required by this subdivision. *Detoxification services in a noncustodial setting, and/or mental health services, may be provided as a part of drug treatment as defined in this subdivision, but neither service shall be deemed sufficient to serve as treatment.* The term "drug treatment program" or "drug treatment" does not include drug treatment programs offered in a prison*,* ~~or~~ jail*, or other custodial* facility.

*(c) The term "medication-assisted treatment" means the medically indicated and medically managed use of any prescription medication, with the defendant's consent, as a part of drug treatment, or as a complement or supplement to such treatment. Examples include, but are not limited to, the use of antipsychotics, relapse prevention medications, mood stabilizers, and opioid agonists, including methadone and buprenorphine. Drugs or medicines used as a part of medication-assisted treatment are presumptively a legitimate and allowable expense in addition to the costs of treatment services.*

*(d) The term "harm reduction therapy" or "harm reduction services" means programs guided by a public health philosophy which promotes methods of reducing the physical, social, emotional, and economic harms associated with drug misuse and other harmful behaviors on individuals, their families, and their communities. Harm reduction therapy recognizes that people use drugs, including alcohol, for a variety of reasons, and strives for an integrated treatment approach that addresses the complex relationship that people develop with psychoactive substances over the course of their lives, in the context of the social and occupational impacts and psychological and emotional implications of their substance misuse. Harm reduction programs are free of judgment or blame and directly involve the client in setting his or her own goals.*

~~(c)~~ *(e)* The term "successful completion of treatment" means that a defendant who has had drug treatment imposed as a condition of probation has completed the prescribed course of drug treatment as recommended by the treatment provider and ordered by the court and, as a result, there is reasonable cause to believe that the defendant will not abuse controlled substances in the future. ~~Completion~~ *Successful completion* of treatment shall not require ~~cessation of narcotic replacement therapy.~~ *termination or detoxification from medication-assisted treatments, or other medications which the court may verify to be taken pursuant to a valid prescription or otherwise taken consistent with state law.*

~~(d)~~ *(f)* The term "misdemeanor not related to the use of drugs" means a misdemeanor that does not involve (1) the simple possession or use of drugs or drug paraphernalia, being present where drugs are used, or failure to register as a drug offender, or (2) any activity similar to those listed in (1).

*(g) The term "clinical assessment" means an evaluation performed by a qualified health care professional or drug treatment professional certified by the State Department of Alcohol and Drug Programs, pursuant to regulations approved by the Oversight Commission, using a standardized tool to determine an individual's social and educational history, drug use history, addiction severity, and other factors indicating the individual's needs and the appropriate course of drug treatment, including opioid agonist treatment. When appropriate, a clinical assessment may include a separate evaluation of mental health needs and/or psychiatric and psychological factors.*

*(h) The term "criminal history evaluation" means a report by a probation department or other entity appointed by the court detailing a defendant's history of arrest, conviction, incarceration, and recidivism. Such an evaluation may include opinions or recommendations regarding the risk of recidivism by the defendant and appropriate monitoring conditions for the defendant.*

*(i) The term "addiction training" shall mean an educational program about drug abuse and addiction intended for an audience of persons working with defendants placed into treatment under the terms of this act. The objectives and content of addiction training programs shall be established by the State Department of Alcohol and Drug Programs in collaboration with a statewide association of physicians specializing in addiction and with the Judicial Council; provided, however, that one required portion of every addiction training course shall consist of education regarding opioid addiction and opioid agonist therapies and one portion shall cover principles and practices of harm reduction. Such training programs may be paid for from the Substance Abuse Treatment Trust Fund, in an amount approved by the Oversight Commission.*

*(j) "Incentives and rewards" means a response by a treatment provider or by the court to a client's or defendant's progress, attainment of certain goals or*

*benchmarks, or other good behavior in the course of treatment pursuant to this section, or the promise of such rewards, intended to encourage future progress and good behavior. Counties may spend funds allocated under this section to provide a range of such benefits to persons undergoing treatment pursuant to this section, consistent with regulations approved by the Oversight Commission. The State Department of Alcohol and Drug Programs shall annually publish a list of examples of appropriate incentives and rewards.*

*(k) The term "drug-related condition of probation" shall be interpreted broadly and shall include, but not be limited to, a probationer's specific drug treatment regimen, employment, vocational training, educational programs, psychological counseling, and family counseling.*

*(l) "Graduated sanction" means a response by a treatment provider or by the court to a client's or defendant's misbehavior, probation violations or relapse during treatment, intended to hold a person accountable for his or her actions, provide a negative consequence, and deter future problems from occurring. Sanctions are graduated in that they begin with a minimal negative consequence and become more onerous with additional misbehavior, violations, or relapses. Examples may include, but not be limited to, requiring additional visits to treatment, increased frequency of drug testing, attendance at a greater number of court sessions, or community service. The State Department of Alcohol and Drug Programs shall annually publish a list of examples of appropriate sanctions. Graduated sanctions do not include jail sanctions.*

*(m) "Jail sanction" means the imposition of a term of incarceration in a county jail in response to a defendant's misbehavior or probation violations. The length of time allowable for a jail sanction may be specified by statute; otherwise, no jail sanction shall exceed 10 days. Imposition of a jail sanction does not require, or imply, the termination of drug treatment.*

*When determining whether to impose jail sanctions, the court shall consider, among other factors, the seriousness of the violation, previous treatment compliance, employment, education, vocational training, medical conditions, medical treatment, including opioid agonist treatment, and including the opinion of the defendant's licensed and treating physician if available and presented at the hearing, child support obligations, and family responsibilities. The court shall also consider whether illicit drugs are available in the county's jail, the prevalence of drug use therein, and any documented impact of drug-related harms resulting from drug use in jail.*

*(n) "Youth programs" means noncustodial programs and services for youth under the age of 18 who are considered to be nonviolent and at risk of committing future drug offenses, pursuant to guidelines established by the Oversight Commission. Services may include, but shall not be limited to: drug treatment programs; family therapy for the youth, parent, guardian or primary caregiver; mental health counseling; psychiatric medication, counseling and consultation; education stipends for fees at university, college, technical or trade schools; employment stipends; and transportation to any of these services.*

SEC. 12. Section 1210.01 is added to the Penal Code, to read:

*1210.01. Assessment of Defendants Prior to Charging or Eligibility Determination.*

*(a) Notwithstanding any other provision of law, the court may order a clinical assessment and/or criminal history evaluation for any person arrested for an offense that might result in diversion and treatment under Track I, Track II, or Track III, as provided in Sections 1210.03 to 1210.05, inclusive, Section 1210.1,*

*and Section 1210.2. The costs of the clinical assessment shall be reimbursable from funds provided pursuant to this act. The defendant shall have the right to counsel and may refuse the clinical assessment and/or any interview for the criminal history evaluation until after the arraignment and a plea is entered.*

*(b) For any defendant who does appear for a clinical assessment or criminal history evaluation, no statement made by the defendant, or any information revealed during the course of the assessment or evaluation with respect to the specific offense with which the defendant is charged shall be admissible in any action or proceeding brought subsequently, including a sentencing hearing.*

SEC. 13. Section 1210.02 is added to the Penal Code, to read:

*1210.02. Treatment Placement, Monitoring Conditions, Payment, Judicial Training.*

*(a) Any defendant found eligible for treatment diversion under Track I, Track II, or Track III shall be placed into appropriate treatment and shall have monitoring conditions imposed consistent with the following terms:*

*(1) In determining an appropriate treatment program, the court must rely upon the clinical assessment of the defendant.*

*Prior to a final determination of the appropriate treatment program and the availability of such a program for the defendant, the court may order the defendant to attend any available treatment program that partly serves the defendant's needs as an interim measure for purposes of quickly engaging the defendant in treatment, provided that such an interim placement shall be for no more than 60 days. Defendants who refuse to attend such an interim treatment program shall not accrue violations of drug-related conditions of probation until placement in an appropriate treatment program. Defendants who participate in an interim treatment program shall not accrue program violations or violations of drug-related conditions of probation while attending an interim placement. The court shall credit the time that the defendant attends an interim treatment program toward the overall period of treatment required.*

*(2) The court shall refer the defendant to opioid agonist treatment or other medication-assisted treatments where the clinical assessment indicates the need for such treatment.*

*(3) In determining the appropriate monitoring conditions and requirements imposed upon the defendant, the court must rely upon the criminal history evaluation and clinical assessment.*

*(4) A defendant may request to be referred to a drug treatment program in any county.*

*(5) Any defendant who is participating in a treatment program in Track I, Track II, or Track III may be required to undergo analysis of his or her urine for the purpose of testing for the presence of any drug as part of the program. The results of such analysis may be used solely as a treatment tool to tailor the response of the treatment program and the court to the defendant's relapse. Such results shall be given no greater weight than any other aspects of the defendant's individual treatment program. Results of such testing shall not be admissible as a basis for any new criminal prosecution or proceeding, nor shall such results be cause, in and of themselves, for the court to enter judgment in a case where the defendant has had entry of judgment deferred under Track I diversion, or for the court to find that a violation of probation has occurred. A court may consider a test result as positive only if the laboratory performing such analysis utilized the following procedures and standards: validity testing, initial and confirmation testing, cutoff concentrations, dilution and adulteration criteria, and split specimen procedures.*

*(6) No person otherwise eligible for treatment shall be denied access to treatment due to the presence of a co-occurring psychiatric or developmental disorder or language barrier, nor shall an eligible defendant be required to cease the use of any medication-assisted treatments, or other medications taken pursuant to a valid prescription or otherwise taken consistent with state law, subject to court verification.*

*(7) In addition to any fine assessed under other provisions of law, the trial judge may require any person placed in Track I, Track II, or Track III treatment who is reasonably able to do so to contribute to the cost of his or her own placement in an appropriate drug treatment program, detoxification services, or urinalysis, provided that:*

*(A) Failure to pay such costs shall not be grounds for a treatment provider to refuse to report a client's completion of a program.*

*(B) Failure to pay such costs shall not be grounds for a court to deny dismissal of charges, indictment, complaint, or conviction.*

*(C) Failure to pay such costs shall not be grounds to refuse to seal records upon satisfactory performance or successful completion of treatment under Track I or II, respectively.*

*(D) Before or after the completion of treatment, the court may require community service as an alternative to the payment of outstanding fees, fines, or court costs, or may use administrative or civil methods to require payment of any outstanding amount.*

*(E) A person who is unable to pay the cost of his or her placement in a drug treatment program shall not be deprived of appropriate drug treatment or urinalysis ordered by the court.*

*(8) The court may also require participation in educational programs, vocational training, family counseling, health care, including mental health services, literacy training and/or community service, harm reduction services, and any other services that may be identified as appropriate by the clinical assessment of the defendant or through other evaluations of the defendant's needs.*

*(b) After July 1, 2010, every judge regularly presiding over a Track I, Track II, or Track III diversion case after a defendant is ordered to appear for a clinical assessment shall annually complete an addiction training course.*

SEC. 14. Section 1210.03 is added to the Penal Code, to read:

*1210.03. Track I. Treatment Diversion with Deferred Entry of Judgment.*

*(a) Notwithstanding any other provision of law, drug treatment shall be provided to eligible defendants. A defendant is eligible for the disposition options, sanctions, and treatment programs of Track I diversion if:*

*(1) The defendant is charged with one or more nonviolent drug possession offenses.*

*(2) The defendant has never been convicted of an offense defined in subdivision (c) of Section 667.5 as a violent felony or any offense defined in subdivision (c) of Section 1192.7 as a serious felony.*

*(3) The defendant has no prior conviction for any felony, other than a single nonviolent drug possession offense, within five years prior to the alleged commission of the charged offense.*

*(4) The defendant is not charged with any other offense that is not a nonviolent drug possession offense.*

*(b) A defendant who is not eligible solely because of a concurrent charge for another offense as provided in paragraph (4) of subdivision (a), whether in*

*the same or another case, in the same or another jurisdiction, may be deemed eligible for Track I treatment pursuant to this section if the court determines that it is in the interest of the defendant and in the furtherance of justice to permit deferred entry of judgment.*

*(c) A defendant may refuse Track I treatment. No defendant shall be ruled ineligible for Track I treatment solely because of failure to complete a diversion program offered pursuant to Section 1000.*

*(d) A defense attorney, a prosecuting attorney, or the court on its own motion, may request Track I treatment diversion for any defendant when it appears that the defendant meets the criteria set forth in subdivision(a) or the court has made the findings specified in subdivision (b). The court shall order an evidentiary hearing in any case in which there is a dispute as to the defendant's eligibility for Track I treatment diversion. The prosecution shall have the burden to prove that the defendant is not eligible. If the defendant is found ineligible, the court shall state the grounds for so finding on the record.*

*(e) If the court determines that a defendant is eligible for Track I treatment diversion, the court shall provide the following to the defendant and his or her attorney:*

*(1) A full description of the procedures for Track I treatment diversion, including any waivers required of the defendant, the defendant's right to refuse the program, the defendant's rights during the program, the potential duration of the program, the benefits a defendant may expect for completing the program, and the consequences of failure to complete the program.*

*(2) A general explanation of the roles and authorities of the probation department, the prosecuting attorney, the program, and the court in the process. An explanation of criminal record retention and disposition resulting from participation in the deferred entry of judgment program and the defendant's rights relative to answering questions about his or her arrest and deferred entry of judgment following successful completion of the program.*

*(f) If the defendant consents and waives his or her right to a speedy trial or a speedy preliminary hearing, the court shall grant deferred entry of judgment if the defendant pleads guilty to the charge or charges and waives time for the pronouncement of judgment.*

*(g) At the time that deferred entry of judgment is granted, any bail bond or undertaking, or deposit in lieu thereof, on file by or on behalf of the defendant shall be exonerated.*

*(h) At the time deferred entry of judgment is granted, the court shall seal from public view all records and files concerning the qualifying offense, including all records of arrest and detention, for the period the defendant is participating in a treatment program referred to in this section or is on a waiting list for a program referred to in this section.*

*(i) The court shall order the defendant to appear for a clinical assessment and criminal history evaluation, and shall thereafter order the defendant to attend and complete an appropriate treatment program. If the defendant had a clinical assessment performed prior to a determination of eligibility, the court may order a new assessment. The court shall thereafter place the defendant in treatment and set monitoring conditions consistent with the terms and requirements of Section 1210.02.*

*(j) If a defendant receives deferred entry of judgment under this section, and has not yet begun treatment within 30 days of the grant of deferred entry of judgment, the court shall conduct a hearing to determine the reasons for the*

*defendant's failure to begin treatment. The court shall consider evidence from the parties, probation department, and treatment provider. At the hearing, the defendant may refuse treatment and deferred entry of judgment.*

*If the defendant does not refuse treatment, the court may re-refer the defendant to the treatment program and may impose graduated sanctions or may enter judgment for the defendant's failure to start treatment, provided, however, that sanctions shall not be imposed or judgment entered when the defendant's failure to begin treatment resulted from a county's inability to provide appropriate treatment in a timely manner or from the county's failure to make treatment reasonably accessible, such as the failure to offer child care for a parenting defendant or failure to provide transportation if needed. A defendant for whom judgment is entered due to failure to begin treatment shall be transferred to Track II treatment diversion.*

*The court shall collect and report all data relevant to a defendant's failure to begin treatment within 30 days, the reasons therefor, and the court's responses, in any form required by the Oversight Commission. Such data regarding treatment show rates shall be published by the department, or researchers designated by the Oversight Commission, on county-by-county and statewide bases, not less than once per year.*

*(k) The period during which deferred entry of judgment is granted shall be for no less than six months nor longer than 18 months. Progress reports shall be filed with the court by the treatment provider and the probation department as directed by the court.*

*(l) No statement that is made during the course of treatment or any information procured therefrom, with respect to the specific offense with which the defendant is charged, shall be admissible in any action or proceeding brought subsequently, including a sentencing hearing.*

*(m) Deferred entry of judgment for a violation of Section 11368 of the Health and Safety Code shall not prohibit any administrative agency from taking disciplinary action against a licensee or from denying a license. Nothing in this subdivision shall be construed to expand or restrict the provisions of Section 1210.05.*

*(n) A defendant's plea of guilty pursuant to this chapter shall not constitute a conviction for any purpose unless a judgment of guilty is entered pursuant to Section 1210.04.*

*(o) During periodic review hearings to evaluate a defendant's progress, the court shall consider the use of incentives and rewards to encourage continued progress, and may impose graduated sanctions in response to problems reported by the treatment provider or probation department, or in the court's discretion, without entry of judgment. The court may not impose a jail sanction on a defendant participating in Track I treatment diversion.*

*(p) If the defendant has performed satisfactorily during the period in which deferred entry of judgment was granted, the criminal charge or charges shall be dismissed and the case records and files shall be permanently sealed, including any record of arrest and detention.*

SEC. 15. Section 1210.04 is added to the Penal Code, to read:

*1210.04. If it appears to the treatment provider, the prosecuting attorney, the court, or the probation department that the defendant is performing unsatisfactorily in the assigned program, or the defendant is convicted of a misdemeanor not related to the use of drugs, or the defendant is convicted of a felony that is not a nonviolent drug possession offense, or the defendant has*

*engaged in criminal conduct rendering him or her unsuitable for deferred entry of judgment, the prosecuting attorney or the court on its own, may make a motion for entry of judgment.*

*After notice to the defendant, the court shall hold a hearing to determine whether judgment should be entered. If the court finds that the defendant is not performing satisfactorily in the assigned program, or that the defendant is not benefiting from education, treatment, or rehabilitation, or the court finds that the defendant has been convicted of a crime as indicated above, or that the defendant has engaged in criminal conduct rendering him or her unsuitable for deferred entry of judgment, the court shall render a finding of guilt to the charge or charges pled, enter judgment, and schedule a sentencing hearing as otherwise provided in this code.*

*In determining whether the defendant has performed satisfactorily or unsatisfactorily in any treatment program, the court shall be guided by the evaluation provided for the court by the qualified treatment professional in charge of the defendant's treatment program, and the treatment provider's opinion as to the prospects for the defendant to return to treatment and continue treatment successfully with changes in the treatment plan.*

*If the court does not enter judgment, the treatment plan may be amended, and graduated sanctions may be imposed, consistent with the recommendation of the treatment provider.*

*If the court does enter judgment, the court shall sentence the defendant to Track II probation and treatment, if eligible. If the defendant has committed a new offense that is a misdemeanor not related to the use of drugs or a felony that is not a nonviolent drug possession offense, sentencing is not controlled by this section.*

SEC. 16. Section 1210.05 is added to the Penal Code, to read:

*1210.05. (a) Any record filed with the Department of Justice shall indicate the disposition in cases deferred pursuant to this chapter. Notwithstanding any other provision of law, upon successful completion of a deferred entry of judgment program, the arrest upon which the judgment was deferred shall be deemed to have never occurred. The defendant may indicate in response to any question concerning his or her prior criminal record that he or she was not arrested or granted deferred entry of judgment for the offense, except as specified in subdivision (b). A record pertaining to an arrest resulting in successful completion of a deferred entry of judgment program shall not be used in any way that could result in the denial of any employment, benefit, license, or certificate.*

*(b) The defendant shall be advised that, regardless of his or her successful completion of the deferred entry of judgment program, the arrest upon which the judgment was deferred may be disclosed by the Department of Justice in response to any peace officer application request and that, notwithstanding subdivision (a), this section does not relieve him or her of the obligation to disclose the arrest in response to any direct question contained in any questionnaire or application for a position as a peace officer, as defined in Section 830.*

SEC. 17. Section 1210.1 of the Penal Code is amended to read:

1210.1. *Track II. Treatment Diversion After a Conviction.*

(a) Notwithstanding any other provision of law, and except as provided in subdivision ~~(b)~~ *(f)*, any person *who is ineligible for Track I deferred entry diversion and is* convicted of a nonviolent drug possession offense shall receive probation. As a condition of probation the court shall require participation in and completion of an appropriate drug treatment program. ~~The court shall~~

~~impose appropriate drug testing as a condition of probation. The court may also impose, as a condition of probation, participation in vocational training, family counseling, literacy training and/or community service.~~ A court may not impose incarceration as an additional condition of probation. ~~Aside~~ *The court shall order the defendant to appear for a clinical assessment and criminal history evaluation, and shall thereafter order the defendant to attend and complete an appropriate treatment program. If the defendant had a clinical assessment performed prior to a determination of eligibility, the court may order a new assessment. The court shall thereafter place the defendant in treatment and set monitoring conditions consistent with the terms and requirements of Section 1210.02.*

*(b) Aside* from the limitations imposed in this subdivision, the trial court is not otherwise limited in the type of probation conditions it may impose. Probation shall be imposed by suspending the imposition of sentence. ~~No person shall be denied the opportunity to benefit from the provisions of the Substance Abuse and Crime Prevention Act of 2000 based solely upon evidence of a co-occurring psychiatric or developmental disorder. To~~

*(c) Upon granting probation under subdivision (a), the court shall seal all records and files concerning the qualifying offense, including all records of arrest, detention, and conviction, for the period that the defendant is in treatment or on a waiting list for treatment.*

*(d) To* the greatest extent possible, any person who is convicted of, and placed on probation pursuant to this section for a nonviolent drug possession offense shall be monitored by the court through the use of a dedicated court calendar and the incorporation of a collaborative court model of oversight that includes close collaboration with treatment providers and probation, drug testing commensurate with treatment needs, and supervision of progress through review hearings.

~~In addition to any fine assessed under other provisions of law, the trial judge may require any person convicted of a nonviolent drug possession offense who is reasonably able to do so to contribute to the cost of his or her own placement in a drug treatment program.~~

*(e) Any person who has been ordered to complete a drug treatment program pursuant to this section shall not be required to comply with the drug offender registration provisions of Section 11590 of the Health and Safety Code during the course of treatment. This exemption will become permanent upon the successful completion of the drug treatment program. Any person convicted of a nonviolent drug offense that was deemed ineligible for participation in or has been excluded from continued participation in this act shall be subject to the provisions of Section 11590 of the Health and Safety Code.*

~~(b)~~ *(f)* Subdivision (a) shall not apply to any of the following:

(1) Any defendant who previously has been convicted of one or more violent or serious felonies as defined in subdivision (c) of Section 667.5 or subdivision (c) of Section 1192.7, respectively, unless the nonviolent drug possession offense occurred after a period of five years in which the defendant remained free of both prison custody and the commission of an offense that results in a felony conviction other than a nonviolent drug possession offense, or a misdemeanor conviction involving physical injury or the threat of physical injury to another person.

(2) Any defendant who, in addition to one or more nonviolent drug possession offenses, has been convicted in the same proceeding of a misdemeanor not related to the use of drugs or any felony *that is not a nonviolent drug possession*

*offense, except that with respect to a misdemeanor conviction the court shall have discretion to declare the person eligible for treatment under subdivision (a) and suspend sentencing during participation in drug treatment.*

(3) Any defendant who, while armed with a deadly weapon, with the intent to use the same as a deadly weapon, unlawfully possesses or is under the influence of any controlled substance identified in Section 11054, 11055, 11056, 11057, or 11058 of the Health and Safety Code.

(4) Any defendant who refuses drug treatment as a condition of probation.

(5) Any defendant who has two separate convictions for nonviolent drug possession offenses, has participated in two separate courses of drug treatment pursuant to subdivision (a), and is found by the court, by clear and convincing evidence, to be unamenable to any and all forms of available drug treatment, as defined in subdivision (b) of Section 1210. Notwithstanding any other provision of law, the trial court shall sentence that defendant to 30 days in jail.

*(6) Any defendant who, in the 30 months prior to the current conviction, has five or more convictions for any offense or combination of offenses, including nonviolent drug possession offenses, and not including infractions. A defendant who is ineligible for Track II treatment diversion solely on the basis of this finding shall be eligible for Track III treatment diversion.*

*(g) No defendant shall be ruled ineligible for Track II treatment because of failure to complete a diversion program offered pursuant to Section 1000.*

~~(c) (1) Any defendent who has previously been convicted of at least three non-drug-related felonies for which the defendant has served three separate prison terms within the meaning of subdivision (b) of Section 667.5 shall be presumed eligible for treatment under subdivision (a). The court may exclude such a defendant from treatment under subdivision (a) where the court, pursuant to the motion of the prosecutor or its own motion, finds that the defendant poses a present danger to the safety of others and would not benefit from a drug treatment program. The court shall, on the record, state its findings, the reasons for those findings.~~

~~(2) Any defendant who has previously been convicted of a misdemeanor or felony at least five times within the prior 30 months shall be presumed to be eligible for treatment under subdivision (a). The court may exclude such a defendant from treatment under subdivision (a) if the court, pursuant to the motion of the prosecutor, or on its own motion, finds that the defendant poses a present danger to the safety of others or would not benefit from a drug treatment program. The court shall, on the record, state its findings and the reasons for those findings.~~

~~(d)~~ *(h)* Within seven days of an order imposing probation under subdivision (a), the probation department shall notify the drug treatment provider designated to provide drug treatment under subdivision (a). Within 30 days of receiving that notice, the treatment provider shall prepare a treatment plan and forward it to the probation department for distribution to the court and counsel. The treatment provider shall provide to the probation department standardized treatment progress reports, with minimum data elements as determined by the department, including all drug testing results. At a minimum, the reports shall be provided to the court every 90 days, or more frequently, as the court directs.

*(1) If a defendant receives probation under subdivision (a), and has not yet begun treatment within 30 days of the grant of probation, the court shall conduct a hearing to determine the reasons for the defendant's failure to appear at treatment. The court shall consider evidence from the parties, probation*

*department and treatment provider. At the hearing, the defendant may refuse treatment under subdivision (a).*

*If the defendant does not refuse treatment, the court may re-refer the defendant to the treatment program and may impose graduated sanctions or may revoke the defendant's probation for the defendant's failure to start treatment, provided, however, that sanctions shall not be imposed or probation revoked when the defendant's failure to begin treatment resulted from a county's inability to provide appropriate treatment in a timely manner or from the county's failure to make treatment reasonably accessible, such as the failure to offer child care for a parenting defendant or failure to provide transportation if needed. A defendant whose probation is terminated for failure to begin treatment may be transferred to Track III treatment diversion in the discretion of the court.*

*The court shall collect and report all data relevant to a defendant's failure to begin treatment within 30 days, the reasons therefor, and the court's responses, in any form required by the Oversight Commission. Such data regarding treatment show rates shall be published by the department, or researchers designated by the Oversight Commission, on county-by-county and statewide bases, not less than once per year.*

*(2) During periodic review hearings to evaluate a defendant's progress, the court shall consider the use of incentives and rewards to encourage continued progress, and may impose graduated sanctions in response to problems reported by the treatment provider or probation department, or in the court's discretion, with or without a finding that a violation of probation has occurred.*

~~(1)~~ *(3)* If at any point during the course of drug treatment the treatment provider notifies the probation department and the court that the defendant is unamenable to the drug treatment being provided, but may be amenable to other drug treatments or related programs, the probation department may move the court to modify the terms of probation, or on its own motion, the court may modify the terms of probation after a hearing to ensure that the defendant receives the alternative drug treatment or program.

~~(2)~~ *(4)* If at any point during the course of drug treatment the treatment provider notifies the probation department and the court that the defendant is unamenable to the drug treatment provided and all other forms of drug treatment programs pursuant to subdivision (b) of Section 1210, the probation department may move to revoke probation. At the revocation hearing, *the prosecution must prove the defendant is unamenable to all drug treatment programs pursuant to subdivision (b) of Section 1210* ~~if it is proved that the defendant is unamenable to all drug treatment programs pursuant to subdivision (b) of Section 1210~~, *whereupon* the court may revoke probation.

~~(3)~~ *(5)* Drug treatment services provided by subdivision (a) as a required condition of probation may not exceed 12 months, unless the court makes a finding supported by the record, that the continuation of treatment services beyond 12 months is necessary for drug treatment to be successful. If such a finding is made, the court may order up to two six-month extensions of treatment services. The provision of treatment services under *this section* ~~the Substance Abuse and Crime Prevention Act of 2000~~ shall not exceed 24 months.

*(6) When the defendant completes the required treatment program, the treatment provider shall notify the court within seven days. The court shall amend the terms of probation to provide for no more than six months of continued supervision after the date of treatment completion. Aftercare or continuing care services may be required and provided during this period.*

~~(e)~~ *(i)* (1) At any time after completion of drug treatment and the terms of probation, the court shall conduct a hearing, and if the court finds that the defendant successfully completed drug treatment, and substantially complied with the conditions of probation, including refraining from the use of drugs after the completion of treatment, the conviction on which the probation was based shall be set aside and the court shall dismiss the indictment, complaint, or information against the defendant*, and the court shall order the case records and files to remain sealed, including any record of arrest, detention, and conviction*. In addition, except as provided in paragraphs (2) and (3), both the arrest and the conviction shall be deemed never to have occurred. The defendant may additionally petition the court for a dismissal of charges at any time after completion of the prescribed course of drug treatment. Except as provided in paragraph (2) or (3), the defendant shall thereafter be released from all penalties and disabilities resulting from the offense of which he or she has been convicted.

(2) Dismissal of an indictment, complaint, or information pursuant to paragraph (1) does not permit a person to own, possess, or have in his or her custody or control any firearm capable of being concealed upon the person or prevent his or her conviction under Section 12021.

(3) Except as provided below, after an indictment, complaint, or information is dismissed pursuant to paragraph (1), the defendant may indicate in response to any question concerning his or her prior criminal record that he or she was not arrested or convicted for the offense. Except as provided below, a record pertaining to an arrest or conviction resulting in successful completion of a drug treatment program under this section may not, without the defendant's consent, be used in any way that could result in the denial of any employment, benefit, license, or certificate.

Regardless of his or her successful completion of drug treatment, the arrest and conviction on which the probation was based may be recorded by the Department of Justice and disclosed in response to any peace officer application request or any law enforcement inquiry. Dismissal of an information, complaint, or indictment under this section does not relieve a defendant of the obligation to disclose the arrest and conviction in response to any direct question contained in any questionnaire or application for public office, for a position as a peace officer as defined in Section 830, for licensure by any state or local agency, for contracting with the California State Lottery, or for purposes of serving on a jury.

~~(f)~~ *(j)* (1) If probation is revoked pursuant to the provisions of this subdivision, *the court may sentence the defendant to Track III probation and treatment or the court shall sentence the defendant to incarceration in the county jail for not more than one year. If the defendant has committed a new offense that is a misdemeanor not related to the use of drugs or a felony that is not a nonviolent drug possession offense, sentencing is not controlled by this paragraph.* ~~the defendant may be incarcerated pursuant to otherwise applicable law without regard to the provisions of this section. The court may modify or revoke probation if the alleged violation is proved.~~

(2) If a defendant receives probation under subdivision (a), and violates that probation either by committing an offense that is not a nonviolent drug possession offense, or by violating a non-drug-related condition of probation, and the state moves to revoke probation, the court *shall conduct a hearing to determine whether probation shall be revoked. The court may modify or revoke probation, and may impose graduated sanctions and/or jail sanctions prior to reinstatement of probation*

*and treatment, if the alleged violation is proved, provided, however, that no jail sanction shall be imposed on a defendant who is receiving medication-assisted treatment if that treatment is not available to the defendant in jail*. ~~may remand the defendant for a period not exceeding 30 days during which time the court may receive input from treatment, probation, the state, and the defendant, and the court may conduct further hearings as it deems appropriate to determine whether or not probation should be reinstated under this section. If the court reinstates the defendant on probation, the court may modify the treatment plan and any other terms of probation, and continue the defendant in a treatment program under the Substance Abuse and Crime Prevention Act of 2000. If the court reinstates the defendant on probation, the court may, after receiving input from the treatment provider and probation, if available, intensify or alter the treatment plan under subdivision (a), and impose sanctions, including jail sanctions not exceeding 30 days, a tool to enhance treatment compliance.~~

(3) (A) ~~If a defendant receives probation under~~ *After drug treatment commences pursuant to* subdivision (a), ~~and~~ *if there is probable cause to believe that the defendant has violated* ~~violates~~ that probation either by committing a nonviolent drug possession offense, or a misdemeanor for simple possession or use of drugs or drug paraphernalia, ~~being present where drugs are used, or failure to register as a drug offender, or any activity similar to those listed in subdivision (d) of Section 1210,~~ or by violating a drug-related condition of probation, ~~and the state moves to revoke probation,~~ the court shall conduct a hearing to determine whether probation shall be revoked. The trial court shall revoke probation *only* if the alleged probation violation is proved and the state proves by a preponderance of the evidence that the defendant poses a danger to the safety of others. *The court shall not revoke probation under this section for a drug-related violation of probation which occurred while the defendant was on a waiting list for a treatment program, was placed in an interim treatment program, or was otherwise waiting to begin appropriate drug treatment.* If the court does not revoke probation, it may intensify or alter the drug treatment plan and ~~in addition,~~ *impose a graduated sanction.* ~~if the violation does not involve the recent use of drugs as a circumstance of the violation, including, but not limited to, violations relating to failure to appear at treatment or court, noncompliance with treatment, and failure to report for drug testing, the court may impose sanctions including jail sanctions that may not exceed 48 hours of continuous custody as a tool to enhance treatment compliance and impose other changes in the terms and conditions of probation. The court shall consider, among other factors, the seriousness of the violation, previous treatment compliance, employment, education, vocational training, medical conditions, medical treatment, including narcotics replacement treatment, and including the opinion of the defendant's licensed and treating physician if immediately available and presented at the hearing, child support obligations, and family responsibilities. The court shall consider additional conditions of probation, which may include, but are not limited to, community service and supervised work programs. If one of the circumstances of the violation involves recent drug use, as well as other circumstances of violation, and the circumstance of recent drug use is demonstrated to the court by satisfactory evidence and a finding made on the record, the court may, after receiving input from treatment and probation, if available, direct the defendant to enter a licensed detoxification or residential treatment facility, and if there is no bed immediately available in such a facility, the court may order that the defendant be confined in a county~~

~~jail for detoxification purposes only, if the jail offers detoxification services, for a period not to exceed 10 days. The detoxification services must provide narcotic replacement therapy for those defendants presently actually receiving narcotic replacement therapy.~~

(B) If a defendant receives probation under subdivision (a), and for the second *or third* time *there is probable cause to believe that the defendant has violated* ~~violates that~~ probation either by committing a nonviolent drug possession offense, or a misdemeanor for simple possession or use of drugs or drug paraphernalia~~, being present where drugs are used, or failure to register as a drug offender, or any activity similar to those listed in subdivision (d) of Section 1210~~, or by violating a drug-related condition of probation, and the state moves to revoke probation, the court shall conduct a hearing to determine whether probation shall be revoked. The trial court shall revoke probation *only* if the alleged probation violation is proved and the state proves by a preponderance of the evidence either that the defendant poses a danger to the safety of others or is unamenable to drug treatment. In determining whether a defendant is unamenable to drug treatment, the court may consider, to the extent relevant, whether the defendant (i) has committed a serious violation of rules at the drug treatment program, (ii) has repeatedly committed violations of program rules that inhibit the defendant's ability to function in the program, or (iii) has continually refused to participate in the program or asked to be removed from the program. If the court does not revoke probation, it may intensify or alter the drug treatment plan *and impose a graduated sanction.*~~, and may, in addition, if the violation does not involve the recent use of drugs as a circumstance of the violation, including, but not limited to, violations relating to failure to appear at treatment or court, noncompliance with treatment, and failure to report for drug testing, impose sanctions including jail sanctions that may not exceed 120 hours of continuous custody as a tool to enhance treatment compliance and impose other changes in the terms and conditions of probation. The court shall consider, among other factors, the seriousness of the violation, previous treatment compliance, employment, education, vocational training, medical conditions, medical treatment, including narcotics replacement treatment, and including the opinion of the defendant's licensed and treating physician if immediately available and presented at the hearing, child support obligations, and family responsibilities. The court shall consider additional conditions of probation, which may include, but are not limited to, community service and supervised work programs. If one of the circumstances of the violation involves recent drug use, as well as other circumstances of violation, and the circumstance of recent drug use is demonstrated to the court by satisfactory evidence and a finding made on the record, the court may, after receiving input from treatment and probation, if available, direct the defendant to enter a licensed detoxification or residential treatment facility, and if there is no bed immediately available in the facility, the court may order that the defendant be confined in a county jail for detoxification purposes only, if the jail offers detoxification services, for a period not to exceed 10 days. Detoxification services must provide narcotic replacement therapy for those defendants presently actually receiving narcotic replacement therapy.~~

(C) If a defendant receives probation under subdivision (a), and ~~for the third or subsequent time violates~~ *on a subsequent occasion there is probable cause to believe that the defendant has violated* that probation either by committing a nonviolent drug possession offense, or by violating a drug-related condition of probation, ~~and the state moves for a third or subsequent time to revoke~~

~~probation,~~ the court shall conduct a hearing to determine whether probation shall be revoked. If the alleged probation violation is proved, the defendant is not eligible for continued probation under subdivision (a) *unless the court finds, in its discretion, after taking into consideration the opinions and recommendations of the drug treatment provider and the district attorney, that the defendant:*

*(1) Is not a danger to the community, and*

*(2) Is not unamenable to treatment.*

*If the court does not revoke probation, it may intensify or alter the drug treatment plan, impose a graduated sanction, and/or impose a jail sanction not to exceed 48 hours upon the first such imposition during the current course of treatment, five days upon the second such imposition during the current course of treatment, and 10 days for any subsequent imposition, provided, however, that no jail sanction shall be imposed on a defendant who is receiving medication-assisted treatment if that treatment is not available to the defendant in jail.* ~~*unless the court determines that the defendant is not a danger to the community and would benefit from further treatment under subdivision (a). The court may then either intensify or alter the treatment plan under subdivision (a) or transfer the defendant to a highly structured drug court. If the court continues the defendant in treatment under subdivision (a), or drug court, the court may impose appropriate sanctions including jail sanctions as the court deems appropriate.*~~

(D) ~~If a~~ *A* defendant *who is* on probation *and enrolled in a drug treatment program pursuant to the former provisions of Section 1210.1* at the effective date of this act *shall be subject to the revised provisions of the section for any future probation violation or for any new offense. Where such a probationer has committed one or more drug-related violations of probation prior to the effective date of the revisions, the count of the number of probation violations shall not be reset, but shall count forward from the number of violations prior to July 1, 2009, for purposes of establishing the court's response to such violations.* ~~for a nonviolent drug possession offense violates that probation either by committing a nonviolent drug possession offense, or a misdemeanor for simple possession or use of drugs or drug paraphernalia, being present where drugs are used, or failure to register as a drug offender, or any activity similar to those listed in subdivision (d) of Section 1210, or by violating a drug- related condition of probation, and the state moves to revoke probation, the court shall conduct a hearing to determine whether probation shall be revoked. The trial court shall revoke probation if the alleged probation violation is proved and the state proves by a preponderance of the evidence that the defendant poses a danger to the safety of others. If the court does not revoke probation, it may modify or alter the treatment plan, and in addition, if the violation does not involve the recent use of drugs as a circumstance of the violation, including, but not limited to, violations relating to failure to appear at treatment or court, noncompliance with treatment, and failure to report for drug testing, the court may impose sanctions including jail sanctions that may not exceed 48 hours of continuous custody as a tool to enhance treatment compliance and impose other changes in the terms and conditions of probation. The court shall consider, among other factors, the seriousness of the violation, previous treatment compliance, employment, education, vocational training, medical conditions, medical treatment, including narcotics replacement treatment, and including the opinion of the defendant's licensed and treating physician if immediately available and presented at the hearing, child support obligations, and family responsibilities. The court shall consider additional conditions of probation, which may include, but are not limited to,~~

~~community service and supervised work programs. If one of the circumstances of the violation involves recent drug use, as well as other circumstances of violation, and the circumstance of recent drug use is demonstrated to the court by satisfactory evidence and a finding made on the record, the court may, after receiving input from treatment and probation, if available, direct the defendant to enter a licensed detoxification or residential treatment facility, and if there is no bed immediately available in such a facility, the court may order that the defendant be confined in a county jail for detoxification purposes only, if the jail offers detoxification services, for a period not to exceed 10 days. The detoxification services must provide narcotic replacement therapy for those defendants presently actually receiving narcotic replacement therapy.~~

~~(E) If a defendant on probation at the effective date of this act for a nonviolent drug possession offense violates that probation a second time either by committing a nonviolent drug possession offense, or a misdemeanor for simple possession or use of drugs or drug paraphernalia, being present where drugs are used, or failure to register as a drug offender, or any activity similar to those listed in subdivision (d) of Section 1210, or by violating a drug-related condition of probation, and the state moves for a second time to revoke probation, the court shall conduct a hearing to determine whether probation shall be revoked. The trial court shall revoke probation if the alleged probation violation is proved and the state proves by a preponderance of the evidence either that the defendant poses a danger to the safety of others or that the defendant is unamenable to drug treatment. If the court does not revoke probation, it may modify or alter the treatment plan, and in addition, if the violation does not involve the recent use of drugs as a circumstance of the violation, including, but not limited to, violations relating to failure to appear at treatment or court, noncompliance with treatment, and failure to report for drug testing, the court may impose sanctions including jail sanctions that may not exceed 120 hours of continuous custody as a tool to enhance treatment compliance and impose other changes in the terms and conditions of probation. The court shall consider, among other factors, the seriousness of the violation, previous treatment compliance, employment, education, vocational training, medical conditions, medical treatment including narcotics replacement treatment, and including the opinion of the defendant's licensed and treating physician if immediately available and presented at the hearing, child support obligations, and family responsibilities. The court shall consider additional conditions of probation, which may include, but are not limited to, community service and supervised work programs. If one of the circumstances of the violation involves recent drug use, as well as other circumstances of violation, and the circumstance of recent drug use is demonstrated to the court by satisfactory evidence and a finding made on the record, the court may, after receiving input from treatment and probation, if available, direct the defendant to enter a licensed detoxification or residential treatment facility, and if there is no bed immediately available in such a facility, the court may order that the defendant be confined in a county jail for detoxification purposes only, if the jail offers detoxification services, for a period not to exceed 10 days. The detoxification services must provide narcotic replacement therapy for those defendants presently actually receiving narcotic replacement therapy.~~

~~(F) If a defendant on probation at the effective date of this act for a nonviolent drug offense violates that probation a third or subsequent time either by committing a nonviolent drug possession offense, or by violating a drug-~~

~~related condition of probation, and the state moves for a third or subsequent time to revoke probation, the court shall conduct a hearing to determine whether probation shall be revoked. If the alleged probation violation is proved, the defendant is not eligible for continued probation under subdivision (a), unless the court determines that the defendant is not a danger to the community and would benefit from further treatment under subdivision (a). The court may then either intensify or alter the treatment plan under subdivision (a) or transfer the defendant to a highly structured drug court. If the court continues the defendant in treatment under subdivision (a), or drug court, the court may impose appropriate sanctions including jail sanctions.~~

~~(g) The term "drug-related condition of probation" shall include a probationer's specific drug treatment regimen, employment, vocational training, educational programs, psychological counseling, and family counseling.~~

SEC. 18. Section 1210.2 is added to the Penal Code, to read:

*1210.2. Track III. Treatment Diversion After a Conviction for Possession Of Controlled Substances; Other Nonviolent Offenses; Judicial Discretion.*

*(a) Notwithstanding any other provision of law, an offender is eligible to be placed into Track III treatment diversion programs if the defendant has:*

*(1) Participated unsuccessfully in Track II treatment diversion;*

*(2) Committed a nonviolent drug possession offense or offenses, but is not eligible for Track II treatment diversion; or*

*(3) Committed a nonviolent offense or offenses, and the defendant appears to have a problem with substance abuse or addiction.*

*(b) The court must find that placement of the defendant in Track III treatment diversion pursuant to subdivision (a) is in the furtherance of justice. In the case of a defendant who has committed a nonviolent offense that is not a nonviolent drug possession offense, the court may require the defendant to provide restitution, participate in a restorative justice program, and/or complete a portion of a sentence for the offense prior to placement in Track III treatment diversion, with the remainder of the sentence suspended during participation.*

*(c) Notwithstanding any other provision of law, an offender shall be placed into Track III treatment diversion programs if the defendant is otherwise eligible for Track II treatment diversion but for the fact that, in the 30 months prior to the current conviction, the defendant has five or more convictions for any offense or combination of offenses, including nonviolent drug possession offenses and not including infractions.*

*(d) A defendant is not eligible for Track III treatment diversion under this section if the defendant:*

*(1) Has ever committed a serious felony, as defined in subdivision (c) of Section 1192.7, or a violent felony, as defined in subdivision (c) of Section 667.5, unless the district attorney seeks to place the defendant in Track III treatment diversion;*

*(2) Is eligible for Track I or Track II treatment diversion and has not been afforded any opportunity to participate in such programs; or*

*(3) Refuses placement in treatment diversion under this section.*

*(e) A defendant placed into Track III treatment diversion shall be granted probation. As a condition of probation the court shall require participation in and completion of an appropriate drug treatment program. The court shall order the defendant to appear for a clinical assessment and criminal history evaluation, and shall thereafter order the defendant to attend and complete an appropriate treatment program. If the defendant had a clinical assessment performed prior to a determination of eligibility, the court may order a new assessment. The court*

*shall thereafter place the defendant in treatment and set monitoring conditions consistent with the terms and requirements of Section 1210.02.*

*(f) If a defendant receives probation under this section, and has not yet begun treatment within 30 days of the grant of probation, the court shall conduct a hearing to determine the reason for the defendant's failure to begin treatment. The court shall consider evidence from the parties, probation department, and treatment provider. At the hearing, the defendant may refuse treatment.*

*If the defendant does not refuse treatment, the court may re-refer the defendant to the treatment program and may impose graduated sanctions and/or jail sanctions, or may revoke probation for the defendant's failure to start treatment, provided, however, that sanctions shall not be imposed or probation revoked when the defendant's failure to begin treatment resulted from a county's inability to provide appropriate treatment in a timely manner or from the county's failure to make treatment reasonably accessible, such as the failure to offer child care for a parenting defendant or failure to provide transportation if needed.*

*The court shall collect and report all data relevant to a defendant's failure to begin treatment within 30 days, the reasons therefor, and the court's responses, in any form required by the Oversight Commission. Such data regarding treatment show rates shall be published by the department, or researchers designated by the Oversight Commission, on county-by-county and statewide bases, not less than once per year.*

*(g) Drug treatment services provided by subdivision (e) as a required condition of probation may not exceed 18 months, unless the court makes a finding that the continuation of treatment services beyond 18 months is necessary for drug treatment to be successful. If such a finding is made, the court may order up to two three-month extensions of treatment services. The provision of treatment services under this section shall not exceed 24 months.*

*(h) To the greatest extent possible, any person who is placed on probation pursuant to this section shall be monitored by the court through the use of a dedicated court calendar and the incorporation of a collaborative court model of oversight that includes close collaboration with treatment providers and probation, urinalysis consistent with treatment needs, and supervision of progress through review hearings.*

*(i) During periodic review hearings to evaluate a defendant's progress, the court shall consider the use of incentives and rewards to encourage continued progress, and may impose graduated sanctions or jail sanctions in response to problems reported by the treatment provider or probation department, or in the court's discretion, with or without a finding that a violation of probation has occurred. A jail sanction shall not exceed 48 hours upon the first such imposition during the current course of treatment, five days upon the second such imposition during the current course of treatment, and 10 days for any subsequent imposition, provided, however, that no jail sanction shall be imposed on a defendant who is receiving medication-assisted treatment if that treatment is not available to the defendant in jail.*

*(j) Aside from the limitations imposed in this subdivision, the trial court is not otherwise limited in its authority to process and respond to probation violations. The court may terminate treatment and probation at any time in response to the defendant's behavior. If probation is terminated, the defendant may be sentenced without regard to any provision of this section.*

*(k) Upon successful completion of treatment as required under this section, the court may require continued probation. At any time after completion of*

*drug treatment and the terms of probation, the court shall conduct a hearing to determine the appropriate final disposition of the case, which may include dismissal of the conviction, indictment, complaint and information against the defendant, and the sealing of case records and files, including any record of arrest, detention and conviction. The defendant may, additionally, petition the court for a dismissal of charges at any time after completion of treatment. Any time a dismissal is ordered, the court shall set appropriate limitations for the defendant regarding the dismissed charges.*

SEC. 19. Section 2933 of the Penal Code is amended to read:

2933. (a) It is the intent of the Legislature that persons convicted of a crime and sentenced to the state prison under Section 1170 serve the entire sentence imposed by the court, except for a reduction in the time served in the custody of the ~~Director of Corrections~~ *Department of Corrections and Rehabilitation* for performance in work, training, or education programs established by the *Department of Corrections and Rehabilitation* ~~Director of Corrections~~. Worktime credits shall apply for performance in work assignments and performance in elementary, high school, or vocational education programs. Enrollment in a two- or four-year college program leading to a degree shall result in the application of time credits equal to that provided in Section 2931. For every six months of full-time performance in a credit qualifying program, as designated by the *department,* ~~director,~~ a prisoner shall be awarded worktime credit reductions from his or her term of confinement of six months. A lesser amount of credit based on this ratio shall be awarded for any lesser period of continuous performance. Less than maximum credit should be awarded pursuant to regulations adopted by the ~~director~~ *department* for prisoners not assigned to a full-time credit qualifying program. Every prisoner who refuses to accept a full-time credit qualifying assignment or who is denied the opportunity to earn worktime credits pursuant to subdivision (a) of Section 2932 shall be awarded no worktime credit reduction. Every prisoner who voluntarily accepts a half-time credit qualifying assignment in lieu of a full-time assignment shall be awarded worktime credit reductions from his or her term of confinement of three months for each six-month period of continued performance. Except as provided in subdivision (a) of Section 2932, every prisoner willing to participate in a full-time credit qualifying assignment but who is either not assigned to a full-time assignment or is assigned to a program for less than full time, shall receive no less credit than is provided under Section 2931. Under no circumstances shall any prisoner receive more than six months' credit reduction for any six-month period under this *subdivision* ~~section~~.

*(b) It is the intent of the people that persons convicted of a crime defined in paragraph (1) of subdivision (b) of Section 3000 and sentenced to the state prison under Section 1170 serve the entire sentence imposed by the court, except for a reduction in the time served in the custody of the Department of Corrections and Rehabilitation for good behavior and performance in rehabilitation programs approved by the department. Credits shall apply for good behavior and performance in rehabilitation programs. For every two months of good behavior, a prisoner shall be awarded a good time credit reduction to his or her term of confinement of no less than one month. For every two months of performance in a credit qualifying rehabilitation program, as designated by the Secretary of Rehabilitation, a prisoner shall be awarded a program time reduction to his or her term of confinement of no less than one month. As to both good time and program time reductions, a lesser amount of credit based on this*

*ratio shall be awarded for any lesser period of good behavior or performance. The Department of Corrections and Rehabilitation may award more than the minimum credit amounts provided for in this section pursuant to regulations approved by the Parole Reform Oversight and Accountability Board. Credits awarded pursuant to this subdivision shall not be used to reduce the term for any inmate who has ever been convicted of a serious or violent felony within the meaning of Section 667.5 or 1192.7, or who has ever been convicted of a Section 290 registration offense. Inmates may earn the credits provided in this subdivision whether serving time for their original commitment offense or serving time after having been returned to state prison from parole.*

*(c) Nothing in this section shall be interpreted to limit the awarding of credits to any inmates pursuant to any law or regulation existing prior to the effective date of this act.*

*(d) Inmates who qualify for credits under subdivisions (a) and (b) may earn credit under both subdivisions, provided, however, that the combined total of all credits shall not exceed one-half of the term of imprisonment imposed by the court, unless the inmate successfully completes a rehabilitation program as defined in paragraph (3) of subdivision (b) of Section 3000. The maximum amount of credit for inmates who successfully complete rehabilitation programs shall be designated in regulations approved by the Parole Reform Oversight and Accountability Board.*

~~(b)~~ (*e*) ~~Worktime credit~~ *Earning credits* is a privilege, not a right. ~~Worktime credit~~ *Credits* must be earned and may be forfeited pursuant to the provisions of Section 2932. The application of credit to reduce the sentence of a prisoner who committed a crime on or after January 1, 1997, is subject to the provisions of Section 3067. Except as provided in subdivision (a) of Section 2932, every prisoner shall have a reasonable opportunity to participate in a ~~full-time~~ credit qualifying *program or service or* assignment in a manner consistent with institutional security and available resources.

~~(c)~~ (*f*) Under regulations adopted by the Department of Corrections *and Rehabilitation*, which shall require a period of not more than one year free of disciplinary infractions, ~~worktime~~ credit which has been previously forfeited may be restored by the *department* ~~director~~. The regulations shall provide for separate classifications of serious disciplinary infractions as they relate to restoration of credits, the time period required before forfeited credits or a portion thereof may be restored, and the percentage of forfeited credits that may be restored for these time periods. For credits forfeited for commission of a felony specified in paragraph (1) of subdivision (a) of Section 2932, the Department of Corrections *and Rehabilitation* may provide that up to 180 days of lost credit shall not be restored and up to 90 days of credit shall not be restored for a forfeiture resulting from conspiracy or attempts to commit one of those acts. No credits may be restored if they were forfeited for a serious disciplinary infraction in which the victim died or was permanently disabled. Upon application of the prisoner and following completion of the required time period free of disciplinary offenses, forfeited credits eligible for restoration under the regulations for disciplinary offenses other than serious disciplinary infractions punishable by a credit loss of more than 90 days shall be restored unless, at a hearing, it is found that the prisoner refused to accept or failed to perform in a credit qualifying assignment, or extraordinary circumstances are present that require that credits not be restored. “Extraordinary circumstances” shall be defined in the regulations adopted by the director. However, in any case in which worktime credit was

forfeited for a serious disciplinary infraction punishable by a credit loss of more than 90 days, restoration of credit shall be at the discretion of the director.

The prisoner may appeal the finding through the Department of Corrections *and Rehabilitation* review procedure, which shall include a review by an individual independent of the institution who has supervisorial authority over the institution.

~~(d)~~ *(g)* The provisions of subdivision ~~(c)~~ *(f)* shall also apply in cases of credit forfeited under Section 2931 for offenses and serious disciplinary infractions occurring on or after January 1, 1983.

SEC. 20. Section 3000 of the Penal Code is amended to read:

3000. (a) (1) The ~~Legislature~~ *people* ~~finds~~ *find* and ~~declares~~ *declare* that the ~~period~~ *periods* immediately ~~following~~ *before and after the end of* incarceration ~~is~~ *are* critical to successful reintegration of the offender into society and to positive citizenship. It is in the interest of public safety for the state to *prepare inmates who are leaving prison for reintegration into society, to* provide for *appropriate* ~~the~~ supervision ~~of~~ and surveillance of parolees, including the judicious use of revocation actions, and to provide *appropriate* educational, vocational, family and personal counseling*, and restorative justice programming* necessary to assist *inmates and* parolees in the transition between imprisonment and discharge. A sentence pursuant to Section 1168 or 1170 shall include a period of parole, unless waived, as provided in this section.

(2) The ~~Legislature~~ *people* ~~finds~~ *find* and ~~declares~~ *declare* that it is not the intent of this section to diminish resources allocated to the Department of Corrections and Rehabilitation for parole functions for which the department is responsible. It is also not the intent of this section to diminish the resources allocated to the Board of Parole Hearings to execute its duties with respect to parole functions for which the board is responsible.

(3) The ~~Legislature~~ *people* ~~finds~~ *find* and ~~declares~~ *declare* that diligent effort must be made to ensure that parolees are held accountable for their criminal behavior, including, but not limited to, the satisfaction of restitution fines and orders *and participation in restorative justice programs, where appropriate, and that equally diligent efforts must be made to prevent such criminal behavior by provision of appropriate services, programs, and counseling before parolees leave prison and after they are released, with the goal of successful reintegration of the parolee into society.*

(4) The parole period of any person found to be a sexually violent predator shall be tolled until that person is found to no longer be a sexually violent predator, at which time the period of parole, or any remaining portion thereof, shall begin to run.

*(b) For purposes of this section, and subdivision (b) of Section 2933, the following definitions apply:*

*(1) The term "qualifying commitment offense" means that the current offense from which the inmate is being paroled is a controlled substance offense, a nonviolent property offense, or any other offense added by the Legislature by majority vote. A "controlled substance offense" is any offense involving possession or use of any controlled substance defined in Section 11054, 11055, 11056, 11057, or 11058 of the Health and Safety Code, or the sale or distribution of any such substance in an amount less than one kilogram, provided that the conviction did not involve a finding of sale or distribution to a minor. A "nonviolent property offense" is a crime against property in which no one is physically injured and which did not involve either the use or attempted use*

*of force or violence or the express or implied threat to use force or violence. The Parole Reform Oversight and Accountability Board shall create an advisory list of qualifying commitment offenses which meet the criteria identified in this subdivision.*

*(2) The term "Section 290 registration offense" means an offense for which registration is required pursuant to Section 290.*

*(3) The term "rehabilitation programs" refers to training and counseling programs paid for by the Department of Corrections and Rehabilitation designed to assist prison inmates and parolees in a successful reintegration into the community upon release. Such programs and services include, but are not limited to, drug treatment programs, mental health services, alcohol abuse treatment, re-entry services, cognitive skills development, housing assistance, education, literacy training, life skills, job skills, vocational training, victim impact awareness, restorative justice programs, anger management, family and relationship counseling, and provision of information involving publicly funded health, social security, and other benefits. Rehabilitation programs may include services provided in prison or after release from prison. When rehabilitation services are provided after release from prison, transportation to and from the services shall be provided by the department.*

*(4) The term "drug treatment program" or "drug treatment" means a drug treatment program which may include one or more of the following: science-based drug education, outpatient services, residential services, opioid agonist treatment, medication-assisted treatment, and aftercare services or continuing care. The term "drug treatment program" or "drug treatment" includes a drug treatment program operated under the direction of the Veterans Health Administration of the Department of Veterans Affairs or a program specified in Section 8001; such a program shall be eligible to provide drug treatment services without regard to the licensing or certification provisions required by this subdivision.*

*(5) The term "minimum supervision" means a level of parole under which the requirements of the parolee are to report to his or her parole officer no more than once every 90 days and to be subject to search.*

~~(b)~~ *(c)* Notwithstanding any provision to the contrary in Article 3 (commencing with Section 3040) of this chapter, the following shall apply:

~~(1) At the expiration of a term of imprisonment of one year and one day, or a term of imprisonment imposed pursuant to Section 1170 or at the expiration of a term reduced pursuant to Section 2931 or 2933, if applicable, the inmate shall be released on parole for a period not exceeding three years, except that any inmate sentenced for an offense specified in paragraph (3), (4), (5), (6), (11), (16), or (18) of subdivision (c) of Section 667.5 shall be released on parole for a period not exceeding five years, unless in either case the parole authority for good cause waives parole and discharges the inmate from the custody of the department.~~

*(1) As to all inmates sentenced to state prison under Section 1170 and scheduled to be released, including inmates returned to state prison for a parole violation, the department shall provide rehabilitation programs beginning no fewer than 90 days prior to their scheduled release. Prior to providing an inmate with rehabilitation programs, the department shall conduct a case assessment to determine the inmate's needs and which programs are most likely to result in the successful reintegration of the inmate upon release. If a parolee is returned to state prison for less than 90 days, the department shall nevertheless provide rehabilitation programs.*

*(2) As to all inmates released from state prison and on parole, the department shall provide rehabilitation programs tailored to the parolee's needs as defined by the case assessment.*

*(3) At the expiration of a term of imprisonment of one year and one day, or a term of imprisonment imposed pursuant to Section 1170 or at the expiration of a term reduced pursuant to Section 2931 or 2933, if applicable, and unless the parole authority for good cause waives parole and discharges the inmate from the custody of the department, an inmate shall be released from custody on parole supervision for a period not exceeding six months if all the following conditions have been satisfied:*

*(A) The offense from which the inmate is being paroled is a qualifying commitment offense;*

*(B) The inmate has never been convicted, or suffered a juvenile adjudication, of either a serious or violent felony within the meaning of Section 667.5 or 1192.7, or a Section 290 registration offense; and*

*(C) The inmate has never been convicted, or suffered a juvenile adjudication, of participating in a criminal street gang in violation of subdivision (a) of Section 186.22, or convicted of a felony committed for the benefit of, at the direction of, or in association with any criminal street gang in violation of subdivision (b) of Section 186.22.*

*The six-month supervision period may be extended only to account for time that the parolee is incarcerated due to parole violations or for time in which the parolee is absent from supervision. At the end of the supervision period, the parolee shall be discharged from further parole supervision. The parole authority may, however, assign a parolee to minimum supervision for a period not exceeding six months where the parolee has failed to complete an appropriate rehabilitation program which was offered. As to parolees retained on minimum supervision, final discharge from parole shall occur at the expiration of this six-month period or upon completion of an appropriate rehabilitation program, whichever is earlier.*

*Except as provided in paragraphs (4), (5) and (6), all other inmates shall be released on parole for a period not exceeding three years, unless the parole authority for good cause waives parole and discharges the inmate from the custody of the department.*

*(4) At the expiration of a term of imprisonment of one year and one day, or a term of imprisonment imposed pursuant to Section 1170 or at the expiration of a term reduced pursuant to Section 2931 or 2933, if applicable, any inmate sentenced for an offense which is either a serious or violent felony as defined in Section 667.5 or 1192.7 shall be released on parole for a period of up to five years, unless the parole authority for good cause waives parole and discharges the inmate from the custody of the department.*

*(5)* ~~(2)~~ In the case of any inmate sentenced under Section 1168, the period of parole shall not exceed five years in the case of an inmate imprisoned for any offense other than first or second degree murder for which the inmate has received a life sentence, and shall not exceed three years in the case of any other inmate, unless in either case the parole authority for good cause waives parole and discharges the inmate from custody of the department. This subdivision shall also be applicable to inmates who committed crimes prior to July 1, 1977, to the extent specified in Section 1170.2.

*(6)* ~~(3)~~ Notwithstanding paragraphs (1) ~~and (2)~~, *(3), (4), and (5),* in the case of any offense for which the inmate has received a life sentence pursuant to Section 667.61 or 667.71, the period of parole shall be 10 years.

*(7)* ~~(4)~~ The parole authority shall consider the request of any inmate regarding the length of his or her parole and the conditions thereof.

*(8)* ~~(5)~~ Upon successful completion of parole, or at the end of the maximum statutory period of parole specified for the inmate under paragraph (1), ~~(2), or (3)~~ *(3), (4), (5), or (6)* as the case may be, whichever is earlier, the inmate shall be discharged from custody. The date of the maximum statutory period of parole under this subdivision and paragraphs (1), ~~(2), and (3)~~ *(3), (4), (5), and (6)* shall be computed from the date of initial parole and shall be a period chronologically determined. Time during which parole is suspended because the prisoner has absconded or has been returned to custody as a parole violator shall not be credited toward any period of parole unless the prisoner is found not guilty of the parole violation. However, the period of parole is subject to the following:

(A) Except as provided in Section 3064, in no case may a prisoner subject to three years on parole be retained under parole supervision or in custody for a period longer than four years from the date of his or her initial parole.

(B) Except as provided in Section 3064, in no case may a prisoner subject to five years on parole be retained under parole supervision or in custody for a period longer than seven years from the date of his or her initial parole.

(C) Except as provided in Section 3064, in no case may a prisoner subject to 10 years on parole be retained under parole supervision or in custody for a period longer than 15 years from the date of his or her initial parole.

Funding provided by the Substance Abuse Treatment Trust Fund shall cover those portions of care that cannot be paid for by other means, such as public or private insurance, mental health services funding from the Mental Health Services Fund, treatment program funding from the Department of Corrections and Rehabilitation, an individual defendant's contributions, or other funding sources for which the defendant is eligible.* ~~In addition, funds from the Substance Abuse Treatment Trust Fund shall not be used to fund in any way the drug treatment courts established pursuant to Article 2 (commencing with Section 11970.1) or Article 3 (commencing with Section 11970.4) of Chapter 2 of Part 3 of Division 10.5, including drug treatment or probation supervision associated with those drug treatment courts.~~

*(b) Prior to calculating the annual allocations for distribution to counties, the department shall withhold funds, in amounts approved by a majority of the Oversight Commission, from the Substance Abuse Treatment Trust Fund sufficient to:*

*(d) Upon the enactment of regulations promulgated by the department and approved by the Oversight Commission, distribution of up to 10 percent of the allocation to counties for Track I, Track II, and/or Track III programs may be made contingent upon specific requirements to adopt best practices, create innovative programs, and/or establish programs for underserved populations, and may be subject to a county matching requirement. Any regulation making a portion of county allocations contingent in this manner shall specify the disposition of funds not accessed by counties for failure to meet the specific requirements. Absent any such regulations, the department shall not place any contingency involving a county matching requirement on the allocations for Track I, Track II, or Track III programs.*

*(e) Notwithstanding the creation of Track III diversion programs in this act, and the requirement for 10 percent of funding from the trust fund to go to such programs, no provision of this act shall be interpreted to preclude:*

The department shall then allocate the funds reserved to adjust for actual rather than projected unencumbered funds, to the extent that the amount reserved is adequate to do so. Any balance of funds not reallocated pursuant to this subdivision shall be allocated in accordance with subdivision (e).~~

~~(d) If the department determines from actual expenditures that more funds should have been withheld from any county than were withheld pursuant to subdivision (a), it shall adjust any allocations pursuant to subdivision (c) accordingly, to the extent possible. If one or more counties fails to report actual expenditures in a timely manner, the department may, in its discretion, proceed with the available information, and may exclude any nonreporting county from any allocations pursuant to this section.~~

~~(e) If revenues, funds, or other receipts to the Substance Abuse Treatment Trust Fund are sufficient to create additional allocations to counties, through reconsideration of unencumbered funds, audit recoveries, or otherwise, the Director of Finance may authorize expenditures for the department in excess of the amount appropriated no earlier than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the fiscal committees in each house and the Chairperson of the Joint Legislative Budget Committee, or at~~

~~an earlier time that the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine.~~

## PROPOSED LAW

SECTION 1. TITLE

This act shall be known, and may be cited as, the "Safe Neighborhoods Act: Stop Gang, Gun, and Street Crime."

SEC. 2. FINDINGS AND DECLARATIONS

(a) The people of the State of California find and declare that state government has no higher purpose or more challenging mandate than the protection of our families and our neighborhoods from crime.

(b) Almost every citizen has been, or knows someone who has been, victimized by crime.

(c) Although crime rates have fallen substantially since the early 1990s, there have been some disturbing increases in the last few years in several categories of crime. According to the Federal Bureau of Investigation, there were 477 more homicides in California in 2006 than there were in 1999, a period during which homicides and homicide rates declined in many other states. In addition, the California Department of Justice has reported that there were 74,000 more vehicle thefts in 2006 than in 1999 and that the number of robberies in our state jumped by over 7,500 between 2005 and 2006. More needs to be done to reduce crime and keep our communities safe.

(d) Gangs are a large part of the reason why California has not fared as well as many other states in recent years in terms of decreasing crime rates. Street

gangs are largely responsible for increases in California homicides in recent years. Many gangs involve juveniles.

(e) Previously convicted felons and gang members commit the vast majority of gun crimes, including the killing of peace officers. Gangs have compromised our criminal justice system, routinely threatening and assaulting victims, witnesses, and even judges. It is essential that state laws and resources target these types of offenders.

(f) The proliferation of methamphetamine has created a multitude of crime problems, driving recent increases in vehicle and identity theft. Now the illegal drug of choice, methamphetamine is often sold by street gangs and, unlike many other drugs, is produced here in California. The effects of the drug are devastating on users and communities where its use is widespread.

(g) Our state adds several hundred thousand people to its population each year and must commit resources necessary to support increasing demands on criminal justice personnel and infrastructure. California's law enforcement personnel, programs, technology, and infrastructure have not kept pace. In fact, the resources available to California law enforcement agencies are generally not as great as those found in communities in other states. According to the U.S. Department of Justice, in 2004, 35 states had more sworn officers per 100,000 residents than California.

(h) Unfortunately, our Legislature has failed to address these problems in a comprehensive way. Programs to prevent crime and rehabilitate offenders are inadequate and unaccountable to the public. Penalties for certain crimes are not severe enough to deter. Enforcement efforts and deterrence programs that do work are often so erratically funded they cannot be sustained. Victims of crime are not afforded adequate information, protection, and support in the criminal justice system. In 2007, the State Senate abdicated its responsibility altogether, refusing to pass legislation that enhances criminal penalties.

(i) These conditions are unacceptable. Californians have used their constitutionally reserved power of initiative to enact comprehensive criminal justice reform in the past and it is time for us to do so again. Early intervention reduces crime and gang activity. Tougher criminal penalties reduce the number of crime victims.

SEC. 3. STATEMENT OF PURPOSE

In order to make our neighborhoods safe and reduce the number of crime victims, the people of the State of California hereby enact a comprehensive reform of our criminal justice laws in order to:

(a) Improve programs to prevent crimes;

(b) Enhance public involvement and public accountability;

(c) Increase punishment to incapacitate criminals and deter crime;

(d) Protect victims of crimes from abuse and ensure that they are treated with dignity at all stages of the criminal justice process; and

(e) Provide supplemental and sustainable funding for law enforcement, crime prevention, and victim programs.

SEC. 4. INTERVENTION

SEC. 4.1. Title 12.6 (commencing with Section 14260) is added to Part 4 of the Penal Code, to read:

*TITLE 12.6. OFFICE OF PUBLIC SAFETY EDUCATION AND INFORMATION*

*14260. (a) There is hereby established the Office of Public Safety Education and Information.*

*(b) The primary objectives of the office are to deter crime, support crime victims, encourage public cooperation with law enforcement, and administer grant programs that pursue these goals. These objectives shall be met in part through public service announcements disseminated by the most efficient means including television, radio, the Internet, and the office's own Web site.*

*(c) Public disclosures shall include, but not be limited to, information regarding the following themes and state laws: "Use a Gun and You're Done," "Three Strikes," and "Jessica's Law." In addition, disclosures will incorporate comparative crime rates by specific offense, including homicide, rape, robbery, burglary, and vehicle theft; incarceration rates; and prison demographics that explain by offense the makeup of inmate population. Comparative information regarding crime and criminal justice resources may include year-to-year as well as state-to-state comparisons. Public disclosures shall also include the relative efficacy of programs to deter, educate, and rehabilitate, including, but not limited to, the disclosure of recidivism rates and subsequent arrests and convictions.*

*(d) The office shall maintain a publicly accessible Web site that shall include at least three discrete features:*

*(1) A public safety information page that shall include general information regarding the criminal justice system, current crime activity, safety advice, statistics, changes in the law, and links to related Web sites, including the California Department of Justice and the Federal Bureau of Investigation.*

*(2) A statewide neighborhood watch page, known as "Cal Watch," providing informational support for and linking with local neighborhood watch programs and assisting communities, sheriffs, and police departments wishing to create new neighborhood watch programs.*

*(3) A crime victim information and support page shall link state and local programs that assist victims through the criminal justice process and provide services and reimbursement, including medical expenses, rape counseling, lost wages, and victim-paid rewards.*

*(e) The sum of twelve million five hundred thousand dollars ($12,500,000) is hereby appropriated from the General Fund to the Office of Public Safety Education and Information for the 2009–10 fiscal year and annually thereafter, adjusted for cost of living changes pursuant to the California Consumer Price Index, for the purpose of augmenting resources of district attorneys and law enforcement agencies employed to assist victims or comply with victim notification requirements under the California Constitution or consistent statutory measures.*

*(1) Twenty percent of the amount annually appropriated shall be distributed on a pro rata basis to participating county sheriffs' departments which maintain the Victim Information and Notification Everyday (VINE) program.*

*(2) Eighty percent of the amount annually appropriated shall support grant programs awarded to county district attorneys, sheriffs, and police departments in order to disseminate victim rights information and to assist victims of crime in gaining access to protective services, counseling, and loss reimbursement. Specific program and grant application requirements shall be promulgated by the office no later than March 30, 2009, and may be amended periodically. Applicant agencies may apply no later than June 15 preceding the fiscal year during which grant funds are sought.*

*(f) The Governor shall appoint an executive officer and staff, as reasonably necessary to implement the work of the office.*

*(g) The office shall work with state, local, and federal agencies to maximize public safety resources, secure matching funds, eliminate duplicative efforts, and help craft better public safety policies and practices.*

SEC. 4.2. Section 13921 is added to the Government Code, to read:

*13921. (a) There is hereby established the California Early Intervention, Rehabilitation, and Accountability Commission for the purpose of evaluating publicly funded programs designed to deter crime through early intervention, or reduce recidivism through rehabilitation, and to disclose those findings to the public. The commission shall adhere to the principle that limited public resources are best directed to programs that help limit incarceration through deterrence and focused rehabilitation rather than early release without meaningful accountability.*

*(b) The commission's long-term goal is to help identify and productively intervene with at-risk populations prior to incarceration, and, for those subject to incarceration, to identify programs and offenders with the greatest rehabilitative potential, so the most successful programs can be replicated.*

*(c) The commission is authorized to propose standards of accountability for publicly funded program providers and participants, make recommendations to continue, supplement, or decrease funding, and highlight favorable or unfavorable elements of the programs reviewed.*

*(d) The commission shall report annually to the Joint Legislative Audit Committee and the Governor regarding the expenditures and efficacy of publicly funded programs.*

*(e) All publicly funded early intervention programs shall have a clearly defined at-risk target population and identify participants so that participants' subsequent criminal involvement, if any, can be compared to similarly situated control groups.*

*(f) All publicly funded rehabilitation programs involving criminal offenders, including juveniles, shall be designed to help create a plan for the offenders' successful integration or reintegration into the community. Accordingly, all such programs shall have clearly defined goals and require the offender to develop skills to find employment, locate housing, overcome addiction, and/or develop a plan with the potential for successful reintegration.*

*(g) All recipient programs, including those directed toward early intervention and education, shall file an annual statement with the commission detailing staffing, curriculum, and program participation. Copies of annual statements to other granting authorities will be sufficient unless the commission requires additional information.*

*(h) The commission shall be comprised of nine members, consisting of three appointees of the Governor, including the chair; two Members of the Senate, one appointed by the Rules Committee and one by the Minority Leader; two Members of the State Assembly, one appointed by the Speaker and one by the Minority Leader; a retired judge appointed by the Chief Justice of the California Supreme Court; and the Attorney General or his or her designee. The members of the commission shall not receive compensation, but shall be reimbursed only for reasonable commission-related expenses.*

*(i) The Governor shall appoint an executive officer, who shall hire necessary staff to conduct research and administer to the commission, including staff to conduct periodic or random audits of all publicly funded programs, subject to budgetary limitations of the commission.*

*(j) Every early intervention or rehabilitation program funded in whole or in part with public funds shall make its physical facilities and financial records available to the commission as a condition of public funding.*

*(k) The commission may evaluate any early intervention, education, or rehabilitation program, juvenile or adult, public or private, for the purposes of comparative study.*

SEC. 4.3. Section 749.22 of the Welfare and Institutions Code is amended to read:

749.22. To be eligible for this grant, each county shall be required to establish a multiagency juvenile justice coordinating council that shall develop and implement a continuum of county-based responses to juvenile crime. The coordinating councils shall~~, at a minimum,~~ include the chief probation officer, as chair, and one representative each from the district attorney's office, the public defender's office, the sheriff's department, the board of supervisors, the department of social services, the department of mental health~~, a community-based drug and alcohol program~~, a city police department, the county office of education or a school district~~, and an at-large community representative. (a) An assessment of existing law enforcement, probation, education, mental health, health, social services, drug and alcohol and youth services resources which specifically target at-risk juveniles, juvenile offenders, and their families.

(b) An identification and prioritization of the neighborhoods, schools, and other areas in the community that face a significant public safety risk from juvenile crime, such as gang activity, ~~daylight~~ burglary, ~~late-night~~ robbery, vandalism, truancy, controlled substance sales, firearm-related violence, and juvenile alcohol *and drug* use within the council's jurisdiction.

(c) A local action plan (LAP) for improving and marshaling the resources set forth in subdivision (a) to reduce the incidence of juvenile crime and delinquency in the areas targeted pursuant to subdivision (b) and the greater community. The councils shall prepare their plans to maximize the provision of collaborative and integrated services of all the resources set forth in subdivision (a), and shall provide specified strategies for all elements of response, including prevention, intervention, suppression, and incapacitation, to provide a continuum for addressing the identified male and female juvenile crime problem, and strategies to develop and implement locally based or regionally based out-of-home placement options for youths who are persons described in Section 602.

(d) Develop information and intelligence-sharing systems to ensure that county actions are fully coordinated, and to provide data for measuring the

success of the grantee in achieving its goals. The plan shall develop goals related to the outcome measures that shall be used to determine the effectiveness of the program.

(e) Identify outcome measures which shall include, but not be limited to, the following:

(1) The rate of juvenile arrests *in relation to the crime rate*.

(2) The rate of successful completion of probation.

(3) The rate of successful completion of restitution and court-ordered community service responsibilities.

*(f) No person employed by or representing the interest of any private entity, including a charitable nonprofit organization which has received or may receive grant funding for providing services for juvenile or adult offenders or at-risk populations, may serve on a coordinating council.*

(b) Allocations from the Youthfu1 Offender Block Grant Fund shall be used to enhance the capacity of county probation~~, mental health, drug and alcohol, and other county~~ departments to provide *or secure* appropriate rehabilitative and supervision services to youthful offenders subject to Sections 731.1, 733, 1766, and 1767.35. ~~Counties, in expanding the Youthful Offender Block Grant allocation, shall provide all necessary services related to the custody and parole of the offenders.~~

(c) Expert testimony ~~which~~ *that* establishes that physical or mental trauma resulting from an alleged crime has caused harm to a witness of sufficient severity that the witness is physically unable to testify or is unable to testify without suffering substantial trauma may constitute a sufficient showing of unavailability pursuant to paragraph (3) of subdivision (a). *(3) The foundational hearing shall be conducted outside the presence of the jury. However, if the hearing is conducted after a jury trial has begun, the judge presiding at the hearing may consider evidence already presented to the jury in deciding whether the elements of subdivision (a) have been met.*

*11166.6. (a) Each county may establish child advocacy centers to coordinate the activities of the various agencies involved in the investigation and prosecution of alleged child abuse, including those that provide medical services and follow-up treatment to victims of child abuse. The purpose of these centers is to protect victims of child abuse by minimizing traumatizing interviews through the coordination of efforts of district attorneys, child welfare social workers, law enforcement, and medical personnel, among others, and to assist prosecution by reducing the chances of conflicting or inaccurate information by asking age-appropriate questions to help procure information that is admissible in court.*

*(b) (1) Member agencies of the child advocacy center shall, at a minimum, consist of a representative from the district attorney's office, the sheriff's department, a police department, and child protective services, and may include medical and mental health professionals.*

*(2) Members of the local child advocacy center shall be trained to conduct child forensic interviews. The training shall include instruction in risk assessment, the dynamics of child abuse, including the abuse of children with special needs, child sexual abuse and rape of children, and legally sound and age-appropriate interview and investigation techniques.*

*(c) The Child Advocacy Center Fund is hereby created for the purpose of supporting child advocacy centers. Money appropriated from the fund shall be made available through the Office of Emergency Services to any public or private nonprofit agency for the establishment or maintenance, or both, of child advocacy centers that provide comprehensive child advocacy services, as specified in this section.*

SEC. 5.7. Section 1464 of the Penal Code is amended to read:

1464. (a) (1) *The people of the State of California find and declare that street crime, through its prevalence and brutality, creates numerous victims who require support and services that are best obtained from experienced providers. Further, because the funds allocated to the Driver Training Penalty Assessment Fund are no longer used for their original purpose, it is appropriate to redirect those funds, which are generated by criminal penalty assessments, to victim services and law enforcement training programs.*

*(2)* Subject to Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code, and except as otherwise provided in this section, there shall be levied a state penalty in the amount of ten dollars ($10) for every ten

dollars ($10), or part of ten dollars ($10), upon every fine, penalty, or forfeiture imposed and collected by the courts for all criminal offenses, including all offenses, except parking offenses as defined in subdivision (i) of Section 1463, involving a violation of a section of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code.

~~(2)~~ *(3)* Any bail schedule adopted pursuant to Section 1269b or bail schedule adopted by the Judicial Council pursuant to Section 40310 of the Vehicle Code may include the necessary amount to pay the penalties established by this section and Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code, and the surcharge authorized by Section 1465.7, for all matters where a personal appearance is not mandatory and the bail is posted primarily to guarantee payment of the fine.

(c) When any deposited bail is made for an offense to which this section applies, and for which a court appearance is not mandatory, the person making the deposit shall also deposit a sufficient amount to include the state penalty prescribed by this section for forfeited bail. If bail is returned, the state penalty paid thereon pursuant to this section shall also be returned.

(d) In any case where a person convicted of any offense, to which this section applies, is in prison until the fine is satisfied, the judge may waive all or any part of the state penalty, the payment of which would work a hardship on the person convicted or his or her immediate family.

(e) After a determination by the court of the amount due, the clerk of the court shall collect the penalty and transmit it to the county treasury. The portion thereof attributable to Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code shall be deposited in the appropriate county fund and 70 percent of the balance shall then be transmitted to the State Treasury, to be deposited in the State Penalty Fund, which is hereby created, and 30 percent to remain on deposit in the county general fund. Notwithstanding any other provision of law, the funds transferred into the Traumatic Brain Injury Fund for the 1997–98, 1998–99, and 1999–2000 fiscal years, may be expended by the State Department of Mental Health, in the current fiscal year or a subsequent fiscal year, to provide additional funding to the existing projects funded by the Traumatic Brain Injury Fund, to support new projects, or to do both.

(B) Any moneys deposited in the State Penalty Fund attributable to the assessments made pursuant to subdivision (i) of Section 27315 of the Vehicle Code on or after the date that Chapter 6.6 (commencing with Section 5564) of Part 1 of Division 5 of the Welfare and Institutions Code is repealed shall be utilized in accordance with paragraphs (1) to (8), inclusive, of this subdivision.

(f) As used in this chapter, "criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having as one of its primary activities the commission of one or more of the criminal acts enumerated in paragraphs (1) to (25), inclusive, or (31) to (33), inclusive, of subdivision (e), having a common name or common identifying sign or symbol, and whose members individually or collectively engage in or have engaged in a pattern of criminal gang activity.

(g) ~~Notwithstanding any other law, the court may strike the additional punishment for the enhancements provided in this section or~~ *The court may* refuse to impose the minimum jail sentence for misdemeanors in an unusual case where the interests of justice would best be served, if the court specifies on the record and enters into the minutes the circumstances indicating that the interests of justice would best be served by that disposition.

(h) Notwithstanding any other provision of law, for each person committed to the Division of Juvenile Facilities for a conviction pursuant to subdivision (a) or (b) of this section, the offense shall be deemed one for which the state shall pay the rate of 100 percent of the per capita institutional cost of the Division of Juvenile Facilities, pursuant to Section 912.5 of the Welfare and Institutions Code.

(i) In order to secure a conviction or sustain a juvenile petition, pursuant to subdivision (a) it is not necessary for the prosecution to prove that the person devotes all, or a substantial part, of his or her time or efforts to the criminal street gang, nor is it necessary to prove that the person is a member of the criminal street gang. Active participation in the criminal street gang is all that is required.

(j) A pattern of gang activity may be shown by the commission of one or more of the offenses enumerated in paragraphs (26) to (30), inclusive, of

subdivision (e), and the commission of one or more of the offenses enumerated in paragraphs (1) to (25), inclusive, or (31) to (33), inclusive of subdivision (e). A pattern of gang activity cannot be established solely by proof of commission of offenses enumerated in paragraphs (26) to (30), inclusive, of subdivision (e), alone.

*(k) (1) Notwithstanding paragraph (4) of subdivision (a) of Section 166, any willful and knowing violation of any injunction issued pursuant to Section 3479 of the Civil Code against a criminal street gang, as defined in this section, or its individual members, shall constitute contempt of court, a misdemeanor, punishable by imprisonment in a county jail for not more than one year, by a fine of not more than one thousand dollars ($1,000), or by both that imprisonment and fine.*

*(2) A second violation of any order described in paragraph (1) occurring within seven years of a prior violation of any of those orders is punishable by imprisonment in a county jail for not less than 90 days and not more than one year.*

*(3) A third or subsequent violation of any order described in paragraph (1) occurring within seven years of the prior violation of any of those orders shall be punished by imprisonment in the county jail not to exceed one year, or by imprisonment in the state prison for one, two, or three years, provided that any person sentenced to imprisonment in the county jail shall be imprisoned for a period not to exceed one year, but not less than 180 days. If the court grants probation or suspends the execution of sentence imposed upon the defendant, it shall require as a condition thereof that the defendant serve 180 days in the county jail.*

*(4) The penalties in this subdivision shall apply unless a greater penalty is authorized by subdivision (d) or any other provision or provisions of law.*

*(l) Any person found guilty as an accessory to a felony, within the meaning of Section 32, shall be subject to one-half the punishment prescribed for a principal in such felony if it is pled and proved that the felony was committed for the benefit of, at the direction of, or in association with any criminal street gang unless a greater penalty is authorized by any other provision or provisions of law.*

SEC. 6.7. Section 186.22a of the Penal Code is amended to read:

186.22a. (a) Every building or place used by members of a criminal street gang for the purpose of the commission of the offenses listed in subdivision (e) of Section 186.22 or any offense involving dangerous or deadly weapons, burglary, or rape, and every building or place wherein or upon which ~~that~~ criminal conduct by gang members takes place, is a nuisance which shall be enjoined, abated, and prevented, and for which damages may be recovered, whether it is a public or private nuisance.

(b) Any action for injunction or abatement filed pursuant to subdivision (a), including an action filed by the Attorney General, shall proceed according to the provisions of Article 3 (commencing with Section 11570) of Chapter 10 of Division 10 of the Health and Safety Code~~, except that all of the following shall apply:~~

~~(1) The court shall not assess a civil penalty against any person unless that person knew or should have known of the unlawful acts.~~

~~(2) No order of eviction or closure may be entered.~~

~~(3) All injunctions issued shall be limited to those necessary to protect the health and safety of the residents or the public or those necessary to prevent further criminal activity.~~

~~(4) Suit may not be filed until 30-day notice of the unlawful use or criminal conduct has been provided to the owner by mail, return receipt requested, postage prepaid, to the last known address~~.

(c) Whenever an injunction is issued pursuant to subdivision (a), or Section 3479 of the Civil Code, to abate gang activity constituting a nuisance, the Attorney General or any district attorney or any prosecuting city attorney may maintain an action for money damages on behalf of the community or neighborhood injured by that nuisance. Any money damages awarded shall be paid by or collected from assets of the criminal street gang or its members. Only members of the criminal street gang who created, maintained, or contributed to the creation or maintenance of the nuisance shall be personally liable for the payment of the damages awarded. In a civil action for damages brought pursuant to this subdivision, the Attorney General, district attorney, or city attorney may use, but is not limited to the use of, the testimony of experts to establish damages suffered by the community or neighborhood injured by the nuisance. The damages recovered pursuant to this subdivision shall be deposited into a separate segregated fund for payment to the governing body of the city or county in whose political subdivision the community or neighborhood is located, and that governing body shall use those assets solely for the benefit of the community or neighborhood that has been injured by the nuisance.

(d) No nonprofit or charitable organization which is conducting its affairs with ordinary care or skill, and no governmental entity, shall be abated pursuant to subdivisions (a) and (b).

(e) Nothing in this chapter shall preclude any aggrieved person from seeking any other remedy provided by law.

(2) In those cases where a law enforcement agency believes that the return of the firearm, ammunition, or deadly weapon confiscated pursuant to this subdivision, is or will be used in criminal street gang activity or that the return of the item would be likely to result in endangering the safety of others, the law enforcement agency shall initiate a petition in the superior court to determine if the item confiscated should be returned or declared a nuisance.

(3) No firearm, ammunition, or deadly weapon shall be sold or destroyed unless reasonable notice is given to its lawful owner if his or her identity and address can be reasonably ascertained. The law enforcement agency shall inform the lawful owner, at that person's last known address by registered mail, that he or she has 30 days from the date of receipt of the notice to respond to the court clerk to confirm his or her desire for a hearing and that the failure to respond shall result in a default order forfeiting the confiscated firearm, ammunition, or deadly weapon as a nuisance.

(4) If the person requests a hearing, the court clerk shall set a hearing no later than 30 days from receipt of that request. The court clerk shall notify the person, the law enforcement agency involved, and the district attorney of the date, time, and place of the hearing.

(5) At the hearing, the burden of proof is upon the law enforcement agency or peace officer to show by a preponderance of the evidence that the seized item is or will be used in criminal street gang activity or that return of the item would be likely to result in endangering the safety of others. All returns of firearms shall be subject to Section 12021.3.

(6) If the person does not request a hearing within 30 days of the notice or the lawful owner cannot be ascertained, the law enforcement agency may file a petition that the confiscated firearm, ammunition, or deadly weapon be declared a nuisance. If the items are declared to be a nuisance, the law enforcement agency shall dispose of the items as provided in Section 12028.

It is the intent of the people of the State of California in enacting this measure to strengthen and improve the laws that punish and control perpetrators of gang offenses, firearm offenses, and other specified crimes. In all cases, these provisions shall be implemented in a manner consistent with the defendant's right to be taken before a magistrate or judge without unreasonable delay pursuant to Section 825.

(b) A defendant charged with a violent felony, as described in subdivision (c) of Section 667.5, shall not be released on his or her own recognizance where it appears, by clear and convincing evidence, that he or she previously has been charged with a felony offense and has willfully and without excuse from the court failed to appear in court as required while that charge was pending. In all other cases, in making the determination as to whether or not to grant release under this section, the court shall consider all of the following:

(1) The existence of any outstanding felony warrants on the defendant.

SEC. 9.5. Section 5072 is added to the Penal Code, to read:

*5072. (a) There is hereby established in the State Treasury the Parolee Reentry Fund for the purpose of funding contracts for parolee mentoring and workforce preparation programs to be awarded by the Secretary of the Department of Corrections and Rehabilitation. Recipients shall be required to have extensive expertise in designing, managing, monitoring, and evaluating mentoring, workforce, and comprehensive programs specific to parolees, including demonstrated evidence of an effective prisoner reentry program model. For purposes of awarding contracts, contract recipients are required to have extensive related experience working with federal, state, or local government agencies.*

*(b) The purpose of these programs is to target critical funding to assist and prepare offenders for return to their communities in an effort to reduce recidivism rates and the high costs and threat to public safety associated with the prevalent cycle of incarceration, release, and return to prison. The programs are also intended to provide support, opportunities, mentoring, education, and training to offenders on parole. Parameters of the programs shall be as follows:*

*(1) The programs shall focus on helping parolees make and sustain long-term attachments to the workforce.*

*(2) The programs shall offer parolees critical support services and referral for housing, addiction, and other services through a case management component. The program will also offer opportunities for positive social support through a mentoring component.*

*(3) The secretary may authorize programs that employ daily check-in facilities, GPS devices, voiceprints, or other technologies to monitor the daily activities of parolee participants, especially those who are not actively employed or participating in classes.*

*(c) The sum of twenty million dollars ($20,000,000) is hereby appropriated from the General Fund to the Parolee Reentry Fund for the 2009–10 fiscal year and annually thereafter, adjusted for cost of living changes pursuant to the California Consumer Price Index.*

*(d) It is the intent of the people that emphasis be placed upon programs that provide public safety through aggressive supervision of parolees. An offender's conduct during the months immediately following release from prison are of critical importance and generally determine whether he or she will return to custody. Parolees must be subject to conditions that include, at a minimum, the state's right to conduct warrantless searches. Programs that help monitor or assist parolees, including GPS, job training, mentoring, and education programs offer substantial promise but cannot be effectively implemented by parole agents who are routinely burdened by caseloads of 100 or more parolees per agent.*

*(e) Accordingly, the department shall, within six months of the effective date of this act, adopt a public plan designed to recruit and train sufficient*

*parole agents to reduce average caseloads below 50 parolees per agent with lower ratios for sex offenders, gang offenders, and other high-control groups. The overall caseload ratio shall be calculated based upon total parolees and total parole agents applying the same definitions and parole periods in place during the 2006–07 base year. The plan shall be fully implemented no later than December 31, 2010.*

For purposes of this subdivision, high-risk probationers shall include, but not be limited to, persons with at least one conviction for any of the following crimes:*

*(i) Assault with a deadly weapon, as defined in Section 245 of the Penal Code.*

*(ii) Funds shall be distributed to each participating county based on the sum requested by that county or that county's pro rata share of the total population of all participating counties, whichever is less.*

*(iii) If the total funds distributed is less than the annual allocation, the remainder shall be distributed to participating counties that sought a greater amount on the same basis as the initial distribution until the allocation is exhausted or all county requests have been honored.*

Grants may be made for periods of up to 10 years.*

*(b) The fund shall be administered by the Office of Public Safety Education and Information (OPSE), which shall match qualified increases in local agency expenditures to enhance regulatory capacity. *(3) In the event that available funding is not exhausted pursuant to paragraph (1) of subdivision (d) the process shall be repeated so that each agency that has sought a grant greater in proportion to its percentage of total vouchers calculated pursuant to paragraph (1) shall participate in a second or subsequent pool.*

*(f) The Office of Public Safety Education and Information may use up to 3 percent of the total funding for necessary administration of the fund and oversight of recipient programs.*

The following existing programs shall be funded at or above the level of funding they received in the Budget Act of 2007:

(1) Jail Efficiency Fund as established under Item 9210-105-0001.

(2) California Multi-Jurisdictional Methamphetamine Enforcement Team (CAL-MMET) program under Item 0690-101-0001.

(3) Central Valley Rural Crime Prevention Program established in Chapter 497 of the Statutes of 2005.

(4) Central Coast Rural Crime Prevention Program established in Chapter 18 of the Statutes of 2003.

(5) Juvenile Probation Camp Funding under Item 5225-101-0001, Schedule 1.

SEC. 12. INTENT REGARDING EXISTING PROGRAMS

It is the intent of the people that the adoption of the Safe Neighborhoods Act shall elevate public safety as a statewide priority and limit volatility in the funding of law enforcement and complementary programs of crime deterrence and offender rehabilitation. All too often, short-term economic problems and a multitude of competing interests cause promising programs of deterrence and law enforcement to come to an end or force public safety agencies to work without adequate personnel or equipment. Under the best of circumstances, California police, sheriffs, and correctional officers are faced with much higher caseloads than their counterparts in other parts of the country. Providing our public safety agencies authorization to enforce the law and deter crime is meaningless if these agencies are not provided resources commensurate with their authority. Authorizing additional resources to combat methamphetamine interdiction will prove illusory if the recipient agencies simultaneously lose funding to combat street gangs and firearm violations. Accordingly, this act is designed to protect both new and existing programs and resources and to subject all of the enumerated programs to greater public scrutiny. The objective is to establish a higher commitment to both crime deterrence and enforcement and to sustain that level of commitment.

SEC. 13. EDUCATION FUNDING GUARANTEE

No provision within this act shall be construed to alter the calculation of the minimum state obligations under Section 8 of Article XVI of the California Constitution, nor diminish the actual state and local support for K–14 schools required by law except as authorized by the Constitution.

SEC. 14. INTENT REGARDING VOTER-APPROVED DRUG TREATMENT

No provision of this act shall be construed to change the eligibility of any person to participate in a voter-approved drug treatment program.

SEC. 15. NON-SUPPLANTATION CLAUSE

The funding authorized and/or made permanent under this act shall supplement and enhance the resources and capacity of public safety agencies and programs throughout California and, accordingly, the state, or any city, county, city and county, or other political subdivision is prohibited from reducing the level of funding received by any recipient agency or program below that amount received during the higher of the 2007–08 or the 2008–09 fiscal year so as to supplant or offset in whole or in part the enhanced level of funding authorized by this act.

SEC. 16. FUNDING FLOOR NOT CEILING

Nothing in this act shall preclude the Legislature from increasing or authorizing public safety appropriations greater than, or in addition to, those approved under this act.

SEC. 17. FUTURE FUNDING CLAUSE

Notwithstanding Section 13340 of the Government Code, any moneys allocated and appropriated under this act that are not encumbered or expended within any applicable period prescribed by law shall, together with the accrued interest on the amount, revert to and remain in the same account for encumbrance and expenditure for the next fiscal period. If any recipient program ceases to require funding authorized under this act or if such funds remain undistributed to eligible agencies for a period of two fiscal years after authorization, those funds shall revert to the General Fund.

SEC. 18. CONFLICTING BALLOT MEASURES

In the event that this measure relating to strengthening our communities by increasing prison sentences on violent offenders and criminal street gang members, or any other measure that reduces criminal penalties or authorizes early release of inmates, is approved by a majority of voters at the same election, and this measure receives a greater number of affirmative votes than any other such measure or measures, this measure shall control in its entirety and conflicting provisions in the said other measure or measures shall be rendered void and without any legal effect. If this measure is approved but does not receive a greater number of affirmative votes than said other measure or measures, this measure shall take effect to the extent permitted by law.

SEC. 19. STATUTORY REFERENCES

Unless otherwise indicated, all references within this act to a statute shall be construed to reference the statute as it existed on January 1, 2008.

SEC. 20. SEVERABILITY CLAUSE

If any provision of this act, or part thereof, is for any reason held to be invalid or unconstitutional, the remaining provisions shall not be affected, but shall remain in full force and effect, and to this end the provisions of this act are severable.

SEC. 21. AMENDMENT CLAUSE

The provisions of this act shall not be amended by the Legislature except by a statute passed in each house by rollcall vote entered in the journal, three-

fourths of the membership of each house concurring, or by a statute that becomes effective only when approved by the voters. However, the Legislature may amend the provisions of this act to expand the scope of their application or to increase punishments or penalties provided herein by a statute passed by majority vote in each house thereof.

## PROPOSED LAW

### THE SOLAR AND CLEAN ENERGY ACT OF 2008

SECTION 1. TITLE

This measure shall be known as "The Solar and Clean Energy Act of 2008."

SEC. 2. FINDINGS AND DECLARATIONS

The people of California find and declare the following:

A. Global warming and climate change is now a real crisis. With the polar ice caps continuing to melt, temperatures rising worldwide, increasing greenhouse gases, and dramatic climate changes occurring, we are quickly reaching the tipping point. California is facing a serious threat from rising sea levels, increased drought, and melting Sierra snowpack that feed our water supply. California needs solar and clean energy to attack the climate changes which threaten our state.

B. California suffers from drought, air pollution, poor water quality, and many other environmental problems. Very little has been done because the special energy interests block change. Californians must take energy reform into their own hands. The alternative to dirty energy is solar and clean energy.

C. California can provide the leadership needed to attack global warming and climate change.

D. The Solar and Clean Energy Act will help reduce air pollution in California. With this initiative, we can help clean up our air and build a healthier, cleaner environment for our children.

E. Our traditional sources of power rely too much on fossil fuels and foreign energy that are getting more and more expensive and less reliable. This initiative will encourage investment in solar and clean energy sources that in the long-run are cheaper and are located here in California, and in the short-term, California's investment in solar and clean energy will result in no more than a 3 percent increase in electric rates—a small price to pay for a healthier and cleaner environment.

F. The Solar and Clean Energy Act will put California on the path to energy independence by requiring all electric utilities to produce 50 percent of their electricity from clean energy sources like solar and wind by 2025. Right now, over 22 percent of California's greenhouse gases comes from electricity generation but around 10 percent of California's electricity comes from solar and clean energy sources, leaving Californians vulnerable to high energy costs, to political instability in the Middle East, and to being held hostage by big oil companies.

G. The Solar and Clean Energy Act encourages new technology to produce electricity. Many people are familiar with the solar power that comes from panels that can be placed on rooftops, but there is dramatic new technology that allows solar energy to be generated from concentrations of solar mirrors in the desert. These mirrors are so efficient that a large square array, eleven miles on a side, may be able to generate enough electricity to meet all of California's needs and at a lower cost than we are paying today. The desert could lead us to energy independence.

H. The current law says we are supposed to have 20 percent solar and clean energy but we are still at around 10 percent and even big government-owned utilities like those in Los Angeles and Sacramento lobbied successfully to exempt themselves from the law. The Solar and Clean Energy Act provides incentives, tough standards, and penalties for those who do not comply.

I. The Solar and Clean Energy Act will benefit California's economy. Building facilities for solar and clean energy sources and transmission lines to transport that electricity will create good jobs that pay the prevailing wage. These jobs will bring new investments and new jobs to California and strengthen California's economy.

J. Global warming and California's reliance on fossil fuels and foreign energy are a matter of statewide concern, as is the implementation of statewide standards for the sources of electricity production and the permitting of solar and clean energy plants and related transmission facilities. Accordingly, the people find that these matters are not municipal affairs, as that term is used in Section 5 of Article XI of the California Constitution, but are instead matters of statewide concern.

SEC. 3. PURPOSE AND INTENT

It is the intent of the people of California in enacting this measure to:

A. Address global warming and climate change, and protect the endangered Sierra snowpack by reducing California's carbon-based greenhouse gas emissions;

B. Tap proven technologies such as solar, geothermal, wind, biomass, and small hydroelectric to generate clean energy throughout California and meet renewable energy targets without raising taxes on any California taxpayer;

C. Require all California utilities—including government-owned utilities like the Los Angeles Department of Water and Power—to procure electricity from solar and clean energy resources, in the following timeframes:

1. 20 percent by 2010;
2. 40 percent by 2020; and,
3. 50 percent by 2025;

D. Fast-track all approvals for the development of solar and clean energy plants and related transmission facilities while guaranteeing all environmental protections—including the Desert Protection Act;

E. Create production incentives for the development and construction of solar and clean energy plants and related transmission facilities;

F. Assess penalties upon all utilities that fail to meet renewable resource targets, and prohibit these utilities from passing on these penalties to consumers;

G. Permit long-term 20 year contracts for solar and clean energy to assure marketability and financing of solar and clean energy plants;

H. Cap price impacts on consumers' electricity bills at less than 3 percent. Over the long-term, studies have shown that consumer electricity costs will decline;

I. Grant the Public Utilities Commission the powers to enforce compliance of the renewables portfolio standard upon privately owned utilities, assess penalties for non-compliance, and prohibit utilities from passing on penalties to consumers;

J. Grant the California State Energy Resources Conservation and Development Commission (the Energy Commission) the powers to:

1. Enforce compliance of the renewables portfolio standard upon government-owned utilities, assess penalties to those utilities for non-compliance, and prohibit the utilities from passing on penalties to consumers;

2. Adopt rules to fast-track all approvals for the development of solar and clean energy resources and plants while guaranteeing all environmental protections—including the Desert Protection Act;

3. Allocate funds to purchase, sell, or lease real property, personal property or rights-of-way for the development and use of the property and rights-of-way for the generation and/or transmission of solar and clean energy, and to upgrade existing transmission lines; and,

4. Identify and designate Solar and Clean Energy Zones—primarily in the desert.

SEC. 4. Section 387 of the Public Utilities Code is amended to read:

387. (a) Each governing body of a local publicly owned electric utility, as defined in Section 9604, shall ~~be responsible for implementing and enforcing a~~ *implement the* renewables portfolio standard *as established and defined in this article* ~~that recognizes the intent of the Legislature to encourage renewable resources, while taking into consideration the effect of the standard on rates, reliability, and financial resources and the goal of environmental improvement~~.

(b) Each local publicly owned electric utility shall report, on an annual basis, to its customers and to the State Energy Resources Conservation and Development Commission, the following:

(1) Expenditures of public goods funds collected pursuant to Section 385 for eligible renewable energy resource development. Reports shall contain a description of programs, expenditures, and expected or actual results.

(2) The resource mix used to serve its customers by fuel type. Reports shall contain the contribution of each type of renewable energy resource with separate categories for those fuels that are eligible renewable energy resources as defined in Section 399.12~~, except that the electricity is delivered to the local publicly owned electric utility and not a retail seller~~. Electricity shall be reported as having been delivered to the local publicly owned electric utility from an eligible renewable energy resource when the electricity would qualify for compliance with the renewables portfolio standard ~~if it were delivered to a retail seller~~.

(3) The utility's status in implementing a renewables portfolio standard pursuant to subdivision (a) and the utility's progress toward attaining the standard following implementation.

SEC. 5. Section 399.25 of the Public Utilities Code is amended to read:

399.25. ~~(a) Notwithstanding any other provision in Sections 1001 to 1013, inclusive, an application of an electrical corporation for a certificate authorizing the construction of new transmission facilities shall be deemed to be necessary to the provision of electric service for purposes of any determination made under Section 1003 if the commission finds that the new facility is necessary to facilitate achievement of the renewable power goals established in Article 16 (commencing with Section 399.11).~~

~~(b)~~ *(a)* With respect to ~~a transmission facility described in subdivision (a)~~ *any transmission facilities deemed to be necessary by the Energy Commission to facilitate achievement of the renewables portfolio standard established in Article 16 (commencing with Section 399.11) of the Public Utilities Code*, the commission shall take all feasible actions to ensure that the transmission rates established by the Federal Energy Regulatory Commission are fully reflected in any retail rates established by the commission. These actions shall include, but are not limited to:

(1) Making findings, where supported by an evidentiary record, that those transmission facilities provide benefit to the transmission network and are necessary to facilitate the achievement of the renewables portfolio standard established in Article 16 (commencing with Section 399.11).

(2) Directing the utility to which the generator will be interconnected, where the direction is not preempted by federal law, to seek the recovery through general transmission rates of the costs associated with the transmission facilities.

(3) Asserting the positions described in paragraphs (1) and (2) to the Federal Energy Regulatory Commission in appropriate proceedings.

(4) Allowing recovery in retail rates of any increase in transmission costs incurred by ~~an electrical corporation~~ *a retail seller* resulting from the construction of the transmission facilities that are not approved for recovery in transmission rates by the Federal Energy Regulatory Commission after the commission determines that the costs were prudently incurred in accordance with subdivision (a) of Section 454.

*(b) Notwithstanding subdivision (a), a retail seller shall not recover any costs paid through the Solar and Clean Energy Transmission Account to facilitate the construction of any transmission facilities.*

SEC. 6. Section 399.11 of the Public Utilities Code is amended to read:

399.11. The ~~Legislature~~ *people* ~~finds~~ *find* and ~~declares~~ *declare* all of the following:

(a) In order to attain ~~a~~ *the* ~~target~~ *targets* of generating 20 percent of total retail sales of electricity in California from eligible renewable energy resources by December 31, 2010, *40 percent of total retail sales of electricity in California from eligible renewable energy resources by December 31, 2020, and 50 percent of total retail sales of electricity in California from eligible renewable energy resources by December 31, 2025,* and for the purposes of increasing the diversity, reliability, public health and environmental benefits of the energy mix *to address global warming and climate change, and to protect the endangered Sierra snowpack*, it is the intent of the ~~Legislature~~ *people* that the commission and the State Energy Resources Conservation and Development Commission implement the California Renewables Portfolio Standard Program described in this article.

(b) Increasing California's reliance on eligible renewable energy resources may promote stable electricity prices, protect public health, improve environmental quality, stimulate sustainable economic development, create new employment opportunities, and reduce reliance on imported fuels.

(c) The development of eligible renewable energy resources and the delivery of the electricity generated by those resources to customers in California may ameliorate air quality problems throughout the state*, address global warming and climate change, protect the endangered Sierra snowpack,* and improve public health by reducing the burning of fossil fuels and the associated environmental impacts and by reducing in-state fossil fuel consumption.

(d) The California Renewables Portfolio Standard Program is intended to complement the Renewable Energy Resources Program administered by the State Energy Resources Conservation and Development Commission and established pursuant to Chapter 8.6 (commencing with Section 25740) of Division 15 of the Public Resources Code.

(e) New and modified electric transmission facilities may be necessary to facilitate the state achieving its renewables portfolio standard targets.

SEC. 7. Section 399.12 of the Public Utilities Code is amended to read:

399.12. For purposes of this article, the following terms have the following meanings:

(a) "Conduit hydroelectric facility" means a facility for the generation of electricity that uses only the hydroelectric potential of an existing pipe, ditch, flume, siphon, tunnel, canal, or other manmade conduit that is operated to distribute water for a beneficial use.

(b) "Delivered" and "delivery" have the same meaning as provided in subdivision (a) of Section 25741 of the Public Resources Code.

(c) "Eligible renewable energy resource" means ~~an electric generating~~ *a solar and clean energy* facility that meets the definition of "in-state renewable electricity generation facility" in Section 25741 of the Public Resources Code, subject to the following limitations:

(1) (A) An existing small hydroelectric generation facility of 30 megawatts or less shall be eligible only if a retail seller owned or procured the electricity from the facility as of December 31, 2005. A new hydroelectric facility is not an eligible renewable energy resource if it will cause an adverse impact on instream beneficial uses or cause a change in the volume or timing of streamflow.

(B) Notwithstanding subparagraph (A), a conduit hydroelectric facility of 30 megawatts or less that commenced operation before January 1, 2006, is an eligible renewable energy resource. A conduit hydroelectric facility of 30 megawatts or less that commences operation after December 31, 2005, is an eligible renewable energy resource so long as it does not cause an adverse impact on instream beneficial uses or cause a change in the volume or timing of streamflow.

(2) A facility engaged in the combustion of municipal solid waste shall not be considered an eligible renewable *energy* resource unless it is located in Stanislaus County and was operational prior to September 26, 1996.

(d) "Energy Commission" means the State Energy Resources Conservation and Development Commission.

(e) "Local publicly owned electric utility" has the same meaning as provided in subdivision (d) of Section 9604.

(f) "Procure" means that a retail seller receives delivered electricity generated by an eligible renewable energy resource that it owns or for which it has entered into an electricity purchase agreement. Nothing in this article is intended to imply that the purchase of electricity from third parties in a wholesale transaction is the preferred method of fulfilling a retail seller's obligation to comply with this article.

(g) "Renewables portfolio standard" means the specified percentage of electricity generated by eligible renewable energy resources that a retail seller is required to procure pursuant to this article.

(h) (1) "Renewable energy credit" means a certificate of proof, issued through the accounting system established by the Energy Commission pursuant

to Section 399.13, that one unit of electricity was generated and delivered by an eligible renewable energy resource.

(2) "Renewable energy credit" includes all renewable and environmental attributes associated with the production of electricity from the eligible renewable energy resource, except for an emissions reduction credit issued pursuant to Section 40709 of the Health and Safety Code and any credits or payments associated with the reduction of solid waste and treatment benefits created by the utilization of biomass or biogas fuels.

(3) No electricity generated by an eligible renewable energy resource attributable to the use of nonrenewable fuels, beyond a de minimus quantity, as determined by the Energy Commission, shall result in the creation of a renewable energy credit.

(i) "Retail seller" means an entity engaged in the retail sale of electricity to end-use customers located within the state, including any of the following:

(1) An electrical corporation, as defined in Section 218.

(2) A community choice aggregator. The commission shall institute a rulemaking to determine the manner in which a community choice aggregator will participate in the renewables portfolio standard program subject to the same terms and conditions applicable to an electrical corporation.

(3) An electric service provider, as defined in Section 218.3, for all sales of electricity to customers beginning January 1, 2006. The commission shall institute a rulemaking to determine the manner in which electric service providers will participate in the renewables portfolio standard program. The electric service provider shall be subject to the same terms and conditions applicable to an electrical corporation pursuant to this article. Nothing in this paragraph shall impair a contract entered into between an electric service provider and a retail customer prior to the suspension of direct access by the commission pursuant to Section 80110 of the Water Code.

(4) "Retail seller" does not include any of the following:

(A) A corporation or person employing cogeneration technology or producing electricity consistent with subdivision (b) of Section 218.

(B) The Department of Water Resources acting in its capacity pursuant to Division 27 (commencing with Section 80000) of the Water Code.

~~(C) A local publicly owned electric utility.~~

SEC. 8. Section 399.13 of the Public Utilities Code is amended to read:

399.13. The Energy Commission shall do all of the following:

(a) Certify eligible renewable energy resources that it determines meet the criteria described in subdivision (b) of Section 399.12.

(b) Design and implement an accounting system to verify compliance with the renewables portfolio standard by retail sellers, to ensure that electricity generated by an eligible renewable energy resource is counted only once for the purpose of meeting the renewables portfolio standard of this state or any other state, to certify renewable energy credits produced by eligible renewable energy resources, and to verify retail product claims in this state or any other state. In establishing the guidelines governing this accounting system, the Energy Commission shall collect data from electricity market participants that it deems necessary to verify compliance of retail sellers, in accordance with the requirements of this article and the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code). In seeking data from ~~electrical corporations~~ *retail sellers*, the Energy Commission shall request data from the commission. The commission shall

collect data from ~~electrical corporations~~ *retail sellers* and remit the data to the Energy Commission within 90 days of the request.

(c) Establish a system for tracking and verifying renewable energy credits that, through the use of independently audited data, verifies the generation and delivery of electricity associated with each renewable energy credit and protects against multiple counting of the same renewable energy credit. The Energy Commission shall consult with other western states and with the Western Electricity Coordinating Council in the development of this system.

(d) Certify, for purposes of compliance with the ~~renewable~~ *renewables* portfolio standard requirements by a retail seller, the eligibility of renewable energy credits associated with deliveries of electricity by an eligible renewable energy resource to a local publicly owned electric utility, if the Energy Commission determines that the following conditions have been satisfied:

(1) The local publicly owned electric utility that is procuring the electricity is in compliance with the requirements of Section 387.

(2) The local publicly owned electric utility has established ~~an~~ *the* annual renewables portfolio standard *targets* ~~target comparable to those applicable to an electrical corporation~~ *required by Section 399.15*, is procuring sufficient eligible renewable energy resources to satisfy the targets, and will not fail to satisfy the targets in the event that the renewable energy credit is sold to another retail seller.

*(e) Institute a rulemaking proceeding to determine the manner in which a local publicly owned electric utility will comply with Section 387 and implement the renewables portfolio standard program. The Energy Commission shall utilize the same processes and have the same powers to enforce the renewables portfolio standard program with respect to local publicly owned electric utilities as the commission has with respect to retail sellers, including, but not limited to, those processes and powers specified in Sections 399.14 and 399.15 related to the review and adoption of a renewable energy procurement plan, establishment of flexible rules for compliance, and imposition of annual penalties for failure to comply with a local publicly owned electric utility's renewable energy procurement plan. The Energy Commission shall not have any authority to approve or disapprove the terms, conditions, or pricing of any renewable energy resources contract entered into by a local publicly owned electric utility, or authority pursuant to Section 2113.*

SEC. 9. Section 399.14 of the Public Utilities Code is amended to read:

399.14. (a) (1) The commission shall direct each ~~electrical corporation~~ *retail seller* to prepare a renewable energy procurement plan that includes the matter in paragraph (3), to satisfy its obligations under the renewables portfolio standard. To the extent feasible, this procurement plan shall be proposed, reviewed, and adopted by the commission as part of, and pursuant to, a general procurement plan process. The commission shall require each ~~electrical corporation~~ *retail seller* to review and update its renewable energy procurement plan as it determines to be necessary.

(2) The commission shall adopt, by rulemaking, all of the following:

~~(A) A process for determining market prices pursuant to subdivision (c) of Section 399.15. The commission shall make specific determinations of market prices after the closing date of a competitive solicitation conducted by an electrical corporation for eligible renewable energy resources.~~

~~(B)~~*(A)* A process that provides criteria for the rank ordering and selection of least-cost and best-fit eligible renewable energy resources to comply with the annual California Renewables Portfolio Standard Program obligations on a total

cost basis. This process shall consider estimates of indirect costs associated with needed transmission investments and ongoing utility expenses resulting from integrating and operating eligible renewable energy resources.

~~(C)~~*(B)* (i) Flexible rules for compliance, including rules permitting retail sellers to apply excess procurement in one year to subsequent years or inadequate procurement in one year to no more than the following three years. The flexible rules for compliance shall apply to all years, including years before and after a retail seller procures at least ~~20~~ *50* percent of total retail sales of electricity from eligible renewable energy resources.

(ii) The flexible rules for compliance shall address situations where, as a result of insufficient transmission, a retail seller is unable to procure eligible renewable energy resources sufficient to satisfy the requirements of this article. Any rules addressing insufficient transmission shall require a finding by the commission that the retail seller has undertaken all reasonable efforts to do all of the following:

(I) Utilize flexible delivery points.

(II) Ensure the availability of any needed transmission capacity.

(III) If the retail seller is an electric corporation, to construct needed transmission facilities.

(IV) Nothing in this subparagraph shall be construed to revise any portion of Section 454.5.

~~(D)~~*(C)* Standard terms and conditions to be used by all ~~electrical corporations~~ *retail sellers* in contracting for eligible renewable energy resources, including performance requirements for renewable generators. A contract for the purchase of electricity generated by an eligible renewable energy resource shall, at a minimum, include the renewable energy credits associated with all electricity generation specified under the contract. The standard terms and conditions shall include the requirement that, no later than six months after the commission's approval of an electricity purchase agreement entered into pursuant to this article, the following information about the agreement shall be disclosed by the commission: party names, resource type, project location, and project capacity.

(3) Consistent with the goal of procuring the least-cost and best-fit eligible renewable energy resources, the renewable energy procurement plan submitted by ~~an electrical corporation~~ *a retail seller* shall include all of the following:

(A) An assessment of annual or multiyear portfolio supplies and demand to determine the optimal mix of eligible renewable energy resources with deliverability characteristics that may include peaking, dispatchable, baseload, firm, and as-available capacity.

(B) Provisions for employing available compliance flexibility mechanisms established by the commission.

(C) A bid solicitation setting forth the need for eligible renewable energy resources of each deliverability characteristic, required online dates, and locational preferences, if any.

(4) In soliciting and procuring eligible renewable energy resources, each ~~electrical corporation~~ *retail seller* shall offer contracts of no less than ~~10~~ *20* years in duration, unless the commission approves of a contract of shorter duration.

(5) In soliciting and procuring eligible renewable energy resources, each ~~electrical corporation~~ *retail seller* may give preference to projects that provide tangible demonstrable benefits to communities with a plurality of minority or low-income populations.

(b) The commission may authorize a retail seller to enter into a contract of less than ~~10~~ *20* years' duration with an eligible renewable energy resource, if the commission has established, for each retail seller, minimum quantities of eligible renewable energy resources to be procured either through contracts of at least ~~10~~ *20* years' duration or from new facilities commencing commercial operations on or after January 1, 2005.

(c) The commission shall review and accept, modify, or reject each ~~electrical corporation's~~ *retail seller's* renewable energy procurement plan prior to the commencement of renewable procurement pursuant to this article by ~~an electrical corporation~~ *a retail seller*.

(d) The commission shall review the results of an eligible renewable energy resources solicitation submitted for approval by ~~an electrical corporation~~ *a retail seller* and accept or reject proposed contracts with eligible renewable energy resources based on consistency with the approved renewable energy procurement plan. If the commission determines that the bid prices are elevated due to a lack of effective competition among the bidders, the commission shall direct the ~~electrical corporation~~ *retail seller* to renegotiate the contracts or conduct a new solicitation.

(e) If an electrical corporation fails to comply with a commission order adopting a renewable energy procurement plan, the commission shall exercise its authority pursuant to Section 2113 to require compliance. ~~The commission shall enforce comparable penalties on any other retail seller that fails to meet annual procurement targets established pursuant to Section 399.15.~~

(f) (1) The commission may authorize a procurement entity to enter into contracts on behalf of customers of a retail seller for deliveries of eligible renewable energy resources to satisfy annual renewables portfolio standard obligations. The commission may not require any person or corporation to act as a procurement entity or require any party to purchase eligible renewable energy resources from a procurement entity.

(2) Subject to review and approval by the commission, the procurement entity shall be permitted to recover reasonable administrative and procurement costs through the retail rates of end-use customers that are served by the procurement entity and are directly benefiting from the procurement of eligible renewable energy resources.

(g) Procurement and administrative costs associated with long-term contracts entered into by ~~an electrical corporation~~ *a retail seller* for eligible renewable energy resources pursuant to this article, ~~and approved by the commission~~ *no more than 10 percent over the market price determined by the Energy Commission pursuant to subdivision (c) of Section 399.15*, shall be deemed reasonable per se *for electricity delivered on or before January 1, 2030*, and shall be recoverable in rates.

(h) Construction, alteration, demolition, installation, and repair work on an eligible renewable energy resource that receives production incentives *or funding* pursuant to ~~Section~~ *Sections* 25742*, 25743 or 25751.5* of the Public Resources Code, including work performed to qualify, receive, or maintain production incentives is "public works" for the purposes of Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code.

*(i) The commission shall impose annual penalties up to the amount of the shortfall in kilowatthours multipied by one cent ($0.01) per kilowatthour on any retail seller that fails to meet the annual procurement targets established pursuant to Section 399.15. The commission shall not cap the penalty that may be*

*imposed on a retail seller under this section. All penalties assessed and collected pursuant to this section shall be paid or transferred annually to the Solar and Clean Energy Transmission Account administered by the Energy Commission pursuant to Section 25751.5 of the Public Resources Code and shall be used for programs designed to foster the development of new in-state transmission and renewable electricity generation facilities. Penalties paid or transferred by any retail seller pursuant to this section shall not be recoverable by the retail seller either directly or indirectly in rates.*

*(j) Penalties assessed pursuant to subdivision (i) may be waived upon a finding by the commission that there is good cause for a retail seller's failure to comply with a commission order adopting a renewable energy procurement plan. A finding by the commission that there is good cause for failure to comp1y with a commission order adopting a renewable energy procurement plan shall be made if the commission determines that any one of the following conditions are met:*

*(1) The deadline or milestone changed due to circumstances beyond the retail seller's control, including, but not limited to, administrative and legal appeals, seller non-performance, insufficient response to a competitive solicitation for eligible renewable energy resources, and lack of effective competition.*

*(2) The retail seller demonstrates a good faith effort to meet the target, including, but not limited to, executed contracts that provide future deliveries sufficient to satisfy current year deficits.*

*(3) The target was missed due to unforeseen natural disasters or acts of God that prevent timely completion of the project deadline or milestone.*

*(4) The retail seller is unable to receive energy from eligible renewable energy resources due to inadequate electric transmission lines.*

*(5) For any year up to and including December 31, 2013, a local publicly owned electric utility demonstrates that, despite its good faith effort, it has had insufficient time to meet the annual procurement targets established in Section 399.15.*

SEC. 10. Section 399.15 of the Public Utilities Code is amended to read:

399.15. (a) In order to fulfill unmet long-term resource needs, *reduce greenhouse gas emissions, address global warming and climate change, protect the endangered Sierra snowpack, and lessen California's dependence on fluctuating fuel prices,* the commission shall establish a renewables portfolio standard requiring all ~~electrical corporations~~ *retail sellers* to procure a minimum quantity of electricity generated by eligible renewable energy resources as a specified percentage of total kilowatthours sold to their retail end-use customers each calendar year~~, subject to limits on the total amount of costs expended above the market prices determined in subdivision (c), to achieve the targets established under this article~~.

(b) The commission shall implement annual procurement targets for each retail seller as follows:

(1) *Notwithstanding Section 454.5, each* ~~Each~~ retail seller shall, pursuant to subdivision (a), increase its total procurement of eligible renewable energy resources by at least an additional ~~1~~ *2* percent of retail sales per year so that 20 percent of its retail sales are procured from eligible renewable energy resources no later than December 31, 2010*, 40 percent of its retail sales are procured from eligible renewable energy resources no later than December 31, 2020, and 50 percent of its retail sales are procured from eligible renewable energy resources no later than December 31, 2025*. ~~A retail seller with 20 percent of retails sales procured~~

~~from eligible renewable energy resources in any year shall not be required to increase its procurement of renewable energy resources in the following year.~~

(2) For purposes of setting annual procurement targets, the commission shall establish an initial baseline for each retail seller based on the actual percentage of retail sales procured from eligible renewable energy resources in 2001, and to the extent applicable, adjusted going forward pursuant to Section 399.12.

(3) Only for purposes of establishing these targets, the commission shall include all electricity sold to retail customers by the Department of Water Resources pursuant to Section 80100 of the Water Code in the calculation of retail sales by ~~an electrical corporation~~ *a retail seller.*

(4) *A retail seller is required to accept all bilateral offers for electricity generated by eligible renewable energy resources that are less than or equal to the market prices established pursuant to subdivision (c), except that a retail seller is not obligated to accept a bilateral offer for any year in which the retail seller has procured sufficient renewable energy resources to meet its annual target established pursuant to this subdivision.* ~~In the event that a retail seller fails to procure sufficient eligible renewable energy resources in a given year to meet any annual target established pursuant to this subdivision, the retail seller shall procure additional eligible renewable energy resources in subsequent years to compensate for the shortfall, subject to the limitation on costs for electrical corporations established pursuant to subdivision (d).~~

(c) The *Energy Commission* ~~commission~~ shall *determine by a rulemaking proceeding* ~~establish a methodology to determine~~ the market price of electricity for terms corresponding to the length of contracts with eligible renewable energy resources~~,~~ *and the methodology for making that determination that considers* ~~in consideration of~~ the following:

(1) The long-term market price of electricity for fixed price contracts, determined pursuant to ~~an electrical corporation's~~ *a retail seller's* general procurement activities as authorized by the commission.

(2) The long-term ownership, operating, and fixed-price fuel costs associated with fixed-price electricity from new generating facilities.

(3) The value of different products including baseload, peaking, and as-available electricity.

*(4) Natural gas price forecasts that are consistent with forecasts used for procurement of other resources, including loading order resources.*

*(5) The value and benefits of renewable resources, including, but not limited to, hedging value and carbon emissions reductions.*

*(6) The value and benefits of baseload generation.*

(d) *A retail seller shall not be required to enter into long-term contracts with operators of eligible renewable energy resources that exceed by more than 10 percent the market prices established pursuant to subdivision (c) for electricity delivered on or before January 1, 2030. The commission shall allow a retail seller to limit its annual procurement obligation to the quantity of eligible renewable energy resources that can be procured at no more than 10 percent over the market price established pursuant to subdivision (c). Indirect costs associated with the purchase of eligible renewable energy resources by a retail seller, including imbalance energy charges, sale of excess energy, decreased generation from existing resources, or transmission upgrades, are recoverable in rates, as authorized by the commission.* ~~The commission shall establish, for each electrical corporation, a limitation on the total costs expended above the market prices determined in subdivision (c)~~

~~for the procurement of eligible renewable energy resources to achieve the annual procurement targets established under this article.~~

~~(1) The cost limitation shall be equal to the amount of funds transferred to each electrical corporation by the Energy Commission pursuant to subdivision (b) of Section 25743 of the Public Resources Code and the 51.5 percent of the funds which would have been collected through January 1, 2012, from the customers of the electrical corporation based on the renewable energy public goods charge in effect as of January 1, 2007.~~

~~(2) The above market costs of a contract selected by an electrical corporation may be counted toward the cost limitation if all of the following conditions are satisfied:~~

~~(A) The contract has been approved by the commission and was selected through a competitive solicitation pursuant to the requirements of subdivision (d) of Section 399.14.~~

~~(B) The contract covers a duration of no less than 10 years.~~

~~(C) The contracted project is a new or repowered facility commencing commercial operations on or after January 1, 2005.~~

~~(D) No purchases of renewable energy credits may be eligible for consideration as an above market cost.~~

~~(E) The above market costs of a contract do not include any indirect expenses including imbalance energy charges, sale of excess energy, decreased generation from existing resources, or transmission upgrades.~~

~~(3) If the cost limitation for an electrical corporation is insufficient to support the total costs expended above the market prices determined in subdivision (c) for the procurement of eligible renewable energy resources satisfying the conditions of paragraph (2), the commission shall allow the electrical corporation to limit its procurement to the quantity of eligible renewable energy resources that can be procured at or below the market prices established in subdivision (c).~~

~~(4) Nothing in this section prevents an electrical corporation from voluntarily proposing to procure eligible renewable energy resources at above market prices that are not counted toward the cost limitation. Any voluntary procurement involving above market costs shall be subject to commission approval prior to the expense being recovered in rates.~~

(e) The establishment of a renewables portfolio standard shall not constitute implementation by the commission of the federal Public Utility Regulatory Policies Act of 1978 (Public Law 95-617).

(f) The *Energy Commission* ~~commission~~ shall consult with the ~~Energy Commission~~ *commission* in calculating market prices under subdivision (c). ~~and~~ *The Energy Commission and the commission shall consult with each other in* establishing ~~other~~ renewables portfolio standard policies.

SEC. 11. Section 1001 of the Public Utilities Code is amended to read:

1001. *Except as otherwise provided in Division 15 (commencing with Section 25000) of the Public Resources Code, no* ~~No~~ railroad corporation whose railroad is operated primarily by electric energy, street railroad corporation, gas corporation, electrical corporation, telegraph corporation, telephone corporation, water corporation, or sewer system corporation shall begin the construction of a street railroad, or of a line, plant, or system, or of any extension thereof, without having first obtained from the commission a certificate that the present or future public convenience and necessity require or will require such construction.

This article shall not be construed to require any such corporation to secure such certificate for an extension within any city or city and county within

which it has theretofore lawfully commenced operations, or for an extension into territory either within or without a city or city and county contiguous to its street railroad, or line, plant, or system, and not theretofore served by a public utility of like character, or for an extension within or to territory already served by it, necessary in the ordinary course of its business. If any public utility, in constructing or extending its line, plant, or system, interferes or is about to interfere with the operation of the line, plant, or system of any other public utility or of the water system of a public agency, already constructed, the commission, on complaint of the public utility or public agency claiming to be injuriously affected, may, after hearing, make such order and prescribe such terms and conditions for the location of the lines, plants, or systems affected as to it may seem just and reasonable.

SEC. 12. Section 25107 of the Public Resources Code is amended to read:

25107. "Electric transmission line" means any electric powerline carrying electric power from a thermal powerplant *or a solar and clean energy plant* located within the state to a point of junction with any interconnected transmission system. "Electric transmission line" does not include any replacement on the existing site of existing electric powerlines with electric powerlines equivalent to such existing electric powerlines or the placement of new or additional conductors, insulators, or accessories related to such electric powerlines on supporting structures in existence on the effective date of this division or certified pursuant to this division.

SEC. 13. Section 25110 of the Public Resources Code is amended to read:

25110. "Facility" means any electric transmission line*,* ~~or~~ thermal powerplant*, or solar and clean energy plant*, or both electric transmission line and thermal powerplant *or solar and clean energy plant, and extensions, modifications, upgrades of existing electric transmission lines*, regulated according to the provisions of this division.

SEC. 14. Section 25137 is added to the Public Resources Code, to read:

*25137. "Solar and clean energy plant" means any electrical generating facility using wind, solar photovoltaic, solar thermal, biomass, biogas, geothermal, fuel cells using renewable fuels, digester gas, municipal solid waste conversion, landfill gas, ocean wave, ocean thermal, or tidal current technologies, with a generating capacity of 30 megawatts or more, or small hydroelectric generation of 30 megawatts or less, and any facilities appurtenant thereto. Exploratory, development, and production wells, resource transmission lines, and other related facilities used in connection with a renewable project or a renewable development project are not appurtenant facilities for the purposes of this division.*

SEC. 15. Section 25502 of the Public Resources Code is amended to read:

25502. Each person proposing to construct a thermal powerplant*, solar and clean energy plant,* or electric transmission line on a site shall submit to the commission a notice of intention to file an application for the certification of the site and related facility or facilities. The notice shall be an attempt primarily to determine the suitability of the proposed sites to accommodate the facilities and to determine the general conformity of the proposed sites and related facilities with standards of the commission and assessments of need adopted pursuant to Sections 25305 to 25308, inclusive. The notice shall be in the form prescribed by the commission and shall be supported by such information as the commission may require.

Any site and related facility once found to be acceptable pursuant to Section 25516 is, and shall continue to be, eligible for consideration in an application for certification without further proceedings required for a notice under this chapter.

SEC. 16. Section 25517 of the Public Resources Code is amended to read:

25517. Except as provided in Section 25501, no construction of any thermal powerplant*, solar and clean energy plant,* or electric transmission line shall be commenced by any electric utility without first obtaining certification as prescribed in this division. Any onsite improvements not qualifying as construction may be required to be restored as determined by the commission to be necessary to protect the environment, if certification is denied.

SEC. 17. Section 25522 of the Public Resources Code is amended to read:

25522. (a) Except as provided in subdivision (c) of Section 25520.5 *and Section 25550*, within 18 months of the filing of an application for certification, or within 12 months if it is filed within one year of the commission's approval of the notice of intent, or at any later time as is mutually agreed by the commission and the applicant, the commission shall issue a written decision as to the application.

(b) The commission shall determine, within 45 days after it receives the application, whether the application is complete. If the commission determines that the application is complete, the application shall be deemed filed for purposes of this section on the date that this determination is made. If the commission determines that the application is incomplete, the commission shall specify in writing those parts of the application which are incomplete and shall indicate the manner in which it can be made complete. If the applicant submits additional data to complete the application, the commission shall determine, within 30 days after receipt of that data, whether the data is sufficient to make the application complete. The application shall be deemed filed on the date when the commission determines the application is complete if the commission has adopted regulations specifying the informational requirements for a complete application, but if the commission has not adopted regulations, the application shall be deemed filed on the last date the commission receives any additional data that completes the application.

SEC. 18. Section 25531 of the Public Resources Code is amended to read:

25531. (a) The decisions of the commission on any application for certification of a site and related facility are subject to judicial review by the Supreme Court of California.

(b) No new or additional evidence may be introduced upon review and the cause shall be heard on the record of the commission as certified to by it. The review shall not be extended further than to determine whether the commission has regularly pursued its authority, including a determination of whether the order or decision under review violates any right of the petitioner under the United States Constitution or the California Constitution. The findings and conclusions of the commission on questions of fact are final and are not subject to review, except as provided in this article. These questions of fact shall include ultimate facts and the findings and conclusions of the commission. A report prepared by, or an approval of, the commission pursuant to Section 25510, 25514, 25516, or 25516.5, or subdivision (b) of Section 25520.5, shall not constitute a decision of the commission subject to judicial review.

(c) Subject to the right of judicial review of decisions of the commission, no court in this state has jurisdiction to hear or determine any case or controversy concerning any matter which was, or could have been, determined in a proceeding

before the commission, or to stop or delay the construction or operation of any thermal powerplant *or solar and clean energy plant* except to enforce compliance with the provisions of a decision of the commission.

(d) Notwithstanding Section 1250.370 of the Code of Civil Procedure:

(1) If the commission requires, pursuant to subdivision (a) of Section 25528, as a condition of certification of any site and related facility, that the applicant acquire development rights, that requirement conclusively establishes the matters referred to in Sections 1240.030 and 1240.220 of the Code of Civil Procedure in any eminent domain proceeding brought by the applicant to acquire the development rights.

(2) If the commission certifies any site and related facility, that certification conclusively establishes the matters referred to in Sections 1240.030 and 1240.220 of the Code of Civil Procedure in any eminent domain proceeding brought to acquire the site and related facility.

(e) No decision of the commission pursuant to Section 25516, 25522, or 25523 shall be found to mandate a specific supply plan for any utility as prohibited by Section 25323.

SEC. 19. Section 25540.6 of the Public Resources Code is amended to read:

25540.6. (a) Notwithstanding any other provision of law, no notice of intention is required, and the commission shall issue its final decision on the application, as specified in Section 25523, within 12 months after the filing of the application for certification of the powerplant and related facility or facilities, or at any later time as is mutually agreed by the commission and the applicant, for any of the following:

(1) A thermal powerplant which will employ cogeneration technology, a thermal powerplant that will employ natural gas-fired technology, or a *solar and clean energy plant* ~~solar thermal powerplant~~.

(2) A modification of an existing facility.

(3) A thermal powerplant *or solar and clean energy plant* which it is only technologically or economically feasible to site at or near the energy source.

(4) A thermal powerplant with a generating capacity of up to 100 megawatts.

(5) A thermal powerplant *or solar and clean energy plant* designed to develop or demonstrate technologies which have not previously been built or operated on a commercial scale. Such a research, development, or commercial demonstration project may include, but is not limited to, the use of renewable or alternative fuels, improvements in energy conversion efficiency, or the use of advanced pollution control systems. Such a facility may not exceed 300 megawatts unless the commission, by regulation, authorizes a greater capacity. Section 25524 does not apply to such a powerplant and related facility or facilities.

(b) Projects exempted from the notice of intention requirement pursuant to paragraph (1), (4), or (5) of subdivision (a) shall include, in the application for certification, a discussion of the applicant's site selection criteria, any alternative sites that the applicant considered for the project, and the reasons why the applicant chose the proposed site. That discussion shall not be required for cogeneration projects at existing industrial sites. The commission may also accept an application for a noncogeneration project at an existing industrial site without requiring a discussion of site alternatives if the commission finds that the project has a strong relationship to the existing industrial site and that it is therefore reasonable not to analyze alternative sites for the project.

SEC. 20. Section 25541 of the Public Resources Code is amended to read:

25541. The commission may exempt from this chapter thermal powerplants with a generating capacity of up to 100 megawatts, ~~and~~ modifications to existing generating facilities that do not add capacity in excess of 100 megawatts, *and solar and clean energy plants*, if the commission finds that no substantial adverse impact on the environment or energy resources will result from the construction or operation of the proposed facility or from the modifications.

SEC. 21. Section 25541.1 of the Public Resources Code is amended to read:

25541.1. It is the intent of the ~~Legislature~~ *people* to encourage the development of thermal powerplants *or solar and clean energy plants* using resource recovery (waste-to-energy) technology. Previously enacted incentives for the production of electrical energy from nonfossil fuels in commercially scaled projects have failed to produce the desired results. At the same time, the state faces a growing problem in the environmentally safe disposal of its solid waste. The creation of electricity by a thermal powerplant *or solar and clean energy plant* using resource recovery technology addresses both problems by doing all of the following:

(a) Generating electricity from a nonfossil fuel of an ample, growing supply.

(b) Conserving landfill space, thus reducing waste disposal costs.

(c) Avoiding the health hazards of burying garbage.

Furthermore, development of resource recovery facilities creates new construction jobs, as well as ongoing operating jobs, in the communities in which they are located.

SEC. 22. Section 25542.5 is added to the Public Resources Code, to read:

*25542.5. The Energy Commission shall, on an annual basis, publish a report that identifies and designates Solar and Clean Energy Zones in the state of California based on geographic areas identified by the Energy Commission's Public Interest Energy Research Program as having potential for solar and clean energy resources.*

SEC. 23. Section 25550 is added to the Public Resources Code, to read:

*25550. (a) Notwithstanding subdivision (a) of Section 25522, and Section 25540.6, the commission shall establish a process to issue its final certification for any solar and clean energy plant and related facilities within six months after the filing of the application for certification that, on the basis of an initial review, shows that there is substantia1 evidence that the project will not cause a significant adverse impact on the environment or electrical transmission and distribution system and will comp1y with all applicable standards, ordinances, or laws. For purposes of this section, filing has the same meaning as in Section 25522.*

*(b) Solar and clean energy plants and related facilities reviewed under this process shall satisfy the requirements of Section 25520 and other necessary information required by the commission, by regulation, including the information required for permitting by each local, state, and regional agency that would have jurisdiction over the proposed solar and clean energy plant and related facilities but for the exclusive jurisdiction of the commission and the information required for permitting by each federal agency that has jurisdiction over the proposed solar and clean energy plant and related facilities.*

*(c) After acceptance of an application under this section, the commission shall not be required to issue a six-month final decision on the application if it determines there is substantial evidence in the record that the solar and clean energy plant and related facilities will likely result in a significant adverse impact on the environment or electrical system or does not comply with an applicable*

*standard, ordinance, or law. Under this circumstance, the commission shall make its decision in accordance with subdivision (a) of Section 25522 and Section 25540.6, and a new application shall not be required.*

*(d) For an application that the commission accepts under this section, all local, regional, and state agencies that would have had jurisdiction over the proposed solar and clean energy plant and related facilities, but for the exclusive jurisdiction of the commission, shall provide their final comments, determinations, or opinions within 100 days after the filing of the application. The regional water quality control boards, as established pursuant to Chapter 4 (commencing with Section 13200) of Division 7 of the Water Code, shall retain jurisdiction over any applicable water quality standard that is incorporated into any final certification issued pursuant to this chapter.*

*(e) Applicants of solar and clean energy plants and related facilities that demonstrate superior environmental or efficiency performance shall receive priority in review.*

*(f) With respect to a solar and clean energy plant and related facilities reviewed under the process established by this section, it shall be shown that the applicant has a contract with a general contractor and has contracted for an adequate supply of skilled labor to construct, operate, and maintain the plant.*

*(g) With respect to a solar and clean energy plant and related facilities reviewed under the process established by this section, it shall be shown that the solar and clean energy plant and related facilities complies with all regulations adopted by the commission that ensure that an application addresses disproportionate impacts in a manner consistent with Section 65040.12 of the Government Code.*

*(h) This section shall not apply to an application filed with the commission on or before January 1, 2009.*

*(i) To implement this section, the commission may adopt emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 2 of Division 3 of Title 2 of the Government Code. For purposes of that chapter, including without limitation, Section 11349.6 of the Government Code, the adoption of the regulations shall be considered by the Office of Administrative Law to be necessary for the immediate preservation of the public peace, health, safety, and general welfare.*

*(j) All solar and clean energy plants receiving certification pursuant to this section shall be considered a public works project subject to the provisions of Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code, and the Department of Industrial Relations shall have the same authority and responsibility to enforce those provisions as it has under the Labor Code.*

SEC. 24. Chapter 6.6 (commencing with Section 25560) is added to Division 15 of the Public Resources Code, to read:

*25560. No electrical corporation as defined in Section 218 of the Public Utilities Code shall begin the construction of a transmission line or of any extension, modification, or upgrade thereof, without having first obtained from the commission a certificate that the present or future public convenience and necessity require or will require such construction.*

*This chapter shall not be construed to require any such corporation to secure such certificate for an extension within any city or city and county within which it has theretofore lawfully commenced operations, or for an extension into territory either within or without a city or city and county contiguous to its transmission line or system, and not theretofore served by a public utility*

*of like character, or for an extension within or to territory already served by it, necessary in the ordinary course of its business. If any public utility, in constructing or extending its line or system, interferes or is about to interfere with the operation of the line or system of any other public utility or of the water system of a public agency, already constructed, the commission, on complaint of the public utility or public agency claiming to be injuriously affected, may, after hearing, and in consultation with the Public Utilities Commission make such order and prescribe such terms and conditions for the location of the lines or systems affected as to it may seem just and reasonable.*

*25561. (a) The commission shall exempt the construction of any line or system, or extension thereof, located outside the boundaries of the state from the requirements of Section 25560, upon the application of the public utility constructing that line or system, or extension thereof, if the public utility derives 75 percent or more of its operating revenues from outside the state, as recorded in the fiscal period immediately before the filing of the application, unless the commission determines that the public interest requires that the construction should not be exempt from Section 25560.*

*(b) Except as provided in subdivision (c), the commission shall make the determination denying the exemption, as specified in subdivision (a), within 90 days after the public utility files the application for exemption with the commission. If the commission fails to make this determination within that 90-day period, the construction of that line or system, or extension thereof, is exempt from the requirements of Section 25560.*

*(c) The commission and the public utility filing the application for exemption may, if both agree, extend the time period within which the commission is required to make the determination denying the exemption, for not more than an additional 60 days after the expiration of the 90-day period specified in subdivision (b).*

*25562. (a) The commission, as a basis for granting any certificate pursuant to Section 25560, shall give consideration to the following factors:*

*(1) Community values.*

*(2) Recreational and park areas.*

*(3) Historical and aesthetic values.*

*(4) Influence on environment, except that in the case of any line or system or extension thereof located in another state which will be subject to environmental review pursuant to the National Environmental Policy Act of 1969 (Chapter 55 (commencing with Section 4321) of Title 42 of the United States Code) or similar state laws in the other state, the commission shall not consider influence on the environment unless any emissions or discharges therefrom would have a significant influence on the environment of this state.*

*(5) Proximity to and related effect on populated areas and whether alternative locations are reasonably available and appropriate.*

*(6) Value and benefits of baseload generation.*

*(b) With respect to any electrical transmission line required to be constructed, modified, or upgraded to provide transmission from a thermal powerplant or a solar and clean energy plant, and for which a certificate is required pursuant to the provisions of Division 15 (commencing with Section 25000), the decision granting such other certificate shall be conclusive as to all matters determined thereby and shall take the place of the requirement for consideration by the commission of the six factors specified in subdivision (a) of this section.*

*(c) As a condition for granting any certificate pursuant to Section 25560, the commission shall require compliance with the California Desert Protection Act of 1994 (commencing with Section 410aaa of Title 16 of the United States Code).*

*25563. In considering an application for a certificate for an electric transmission facility pursuant to Section 25560, the commission shall consider cost-effective alternatives to transmission facilities that meet the need for an efficient, reliable, and affordable supply of electricity, including, but not limited to, demand-side alternatives such as targeted energy efficiency, ultraclean distributed generation, as defined in Section 353.2 of the Public Utilities Code, and other demand reduction resources. The provisions of this section shall not apply to any electrical transmission line required to be constructed, modified, or upgraded to provide transmission from a solar and clean energy plant.*

*25564. Every electrical corporation submitting an application to the commission for a certificate authorizing the new construction of any electric transmission line or extension, not subject to the provisions of Chapter 6 (commencing with Section 25500), shall include all of the following information in the application in addition to any other required information:*

*(a) Preliminary engineering and design information on the project. The design information provided shall include preliminary data regarding the operating characteristics of the line or extension.*

*(b) A project implementation plan showing how the project would be contracted for and constructed. This plan shall show how all major tasks would be integrated and shall include a timetable identifying the design, construction, completion, and operation dates for each major component of the line or extension.*

*(c) An appropriate cost estimate, including preliminary estimates of the costs of financing, construction, and operation of the line or extension.*

*(d) The corporation shall demonstrate the financial impact of the line or extension construction on the corporation's ratepayers, stockholders, and on the cost of the corporation's borrowed capital. The cost analyses shall be performed for the projected useful life of the line or extension.*

*(e) A design and construction management and cost control plan which indicates the contractual and working responsibilities and interrelationships between the corporation's management and other major parties involved in the project. This plan shall also include a construction progress information system and specific cost controls.*

*25565. Every electrical corporation submitting an application to the commission for a certificate authorizing the new construction of an electric transmission line or extension, which is subject to the provisions of Chapter 6 (commencing with Section 25500), shall include in the application the information specified in subdivisions (b), (c), and (e) of Section 25564, in addition to any other required information. The corporation may also include in the application any other information specified in Section 25564.*

*25566. Before any certificate may issue under this chapter, every applicant for a certificate shall file in the office of the commission a certified copy of the applicant's articles of incorporation or charter. Every applicant for a certificate shall file in the office of the commission such evidence as is required by the commission to show that the applicant has received the required consent, franchise, or permit of the proper county, city and county, city, or other public authority.*

*25567. (a) The commission may, with or without hearing, issue the certificate as requested for, or refuse to issue it, or issue it for the construction*

*of a portion only of the contemplated electric transmission line or extension thereof, or for the partial exercise only of the right or privilege, and may attach to the exercise of the rights granted by the certificate such terms and conditions, including provisions for the acquisition by the public of the franchise or permit and all rights acquired thereunder and all works constructed or maintained by authority thereof, as in its judgment the public convenience and necessity require; provided, however, that before issuing or refusing to issue the certificate, the commission shall hold one or more hearings addressing any issues raised in a timely application for a hearing by any person entitled to be heard.*

*(b) When the commission issues a certificate for the new construction of an electric transmission line or extension, the certificate shall specify the operating and cost characteristics of the transmission line or extension, including, but not limited to, the size, capacity, cost, and all other characteristics of the transmission line or extension which are specified in the information which the electrical corporations are required to submit, pursuant to Section 25564 or 25565.*

*(c) Notwithstanding any other provision in this chapter, an application for a certificate authorizing the construction of new transmission facilities shall be deemed to be necessary to the provision of electric service for purposes of any determination made under Section 25564 if the commission finds that the new facility is necessary to facilitate achievement of the renewables portfolio standard as established in Article 16 (commencing with Section 399.11) of the Public Utilities Code and the eligible renewable energy resources requirement as established in Chapter 8.6 (commencing with Section 25740) of this division.*

*25568. (a) Whenever the commission issues to an electrical corporation a certificate authorizing the new construction of a transmission line, or of any extension, modification, or upgrade thereof estimated to cost greater than fifty million dollars ($50,000,000), the commission shall specify in the certificate a maximum cost determined to be reasonable and prudent for the facility. The commission shall determine the maximum cost using an estimate of the anticipated construction cost, taking into consideration the design of the project, the expected duration of construction, an estimate of the effects of economic inflation, and any known engineering difficulties associated with the project.*

*(b) After the certificate has been issued, the corporation may apply to the commission for an increase in the maximum cost specified in the certificate. The commission may authorize an increase in the specified maximum cost if it finds and determines that the cost has in fact increased and that the present or future public convenience and necessity require construction of the project at the increased cost; otherwise, it shall deny the application.*

*(c) After construction has commenced, the corporation may apply to the commission for authorization to discontinue construction. After a showing to the satisfaction of the commission that the present or future public convenience and necessity no longer require the completion of construction of the project, and that the construction costs incurred were reasonable and prudent, the commission may authorize discontinuance of construction and the Public Utilities Commission may authorize recovery of those construction costs which the commission determines were reasonable and prudent.*

*(d) In any decision by the Public Utilities Commission establishing rates for an electrical corporation reflecting the reasonable and prudent costs of the new construction of any transmission line, or of any extension, modification, or upgrade thereof, when the commission has found and determined that the addition or extension is used and useful, the Public Utilities Commission shall*

*consider whether or not the actual costs of construction are within the maximum cost specified by the commission.*

SEC. 25. Section 25740 of the Public Resources Code is amended to read:

## PROPOSED LAW

### THE CALIFORNIA RENEWABLE ENERGY AND CLEAN ALTERNATIVE FUEL ACT.

SECTION 1. Title.

This measure shall be known and may be cited as "The California Renewable Energy and Clean Alternative Fuel Act."

SECTION 2. Findings and declarations.

The people of California find and declare the following:

A. California's excessive dependence on petroleum products threatens our health, our environment, our economy and our national security.

B. Transportation accounts for 40 percent of California's annual greenhouse gas emissions, and we rely on petroleum-based fuels for an overwhelming 96 percent of our transportation needs. This petroleum dependency contributes to climate change and leaves workers, consumers and businesses vulnerable to price spikes from an unstable energy market.

C. The landmark California Global Warming Solutions Act of 2006 requires California to reduce statewide greenhouse gas emissions to 1990 levels by 2020.

D. Governor Schwarzenegger has issued an executive order establishing a groundbreaking low carbon fuel standard that will reduce the carbon intensity of California's passenger vehicle fuels by at least 10 percent by 2020. This standard is expected to triple the state's renewable fuels market and put 20 times the number of alternative fuel or hybrid vehicles on our roads.

E. Government should provide public funds to meet these policy goals by creating incentives for businesses and consumers to conserve energy and use alternative energy sources.

F. A comprehensive alternative energy strategy must be implemented. This strategy should concentrate on three areas: renewable electricity generation, clean alternative fuels for transportation, and energy efficiency and conservation.

G. A variety of clean domestic fuels are available to power automobiles, including natural gas, cellulosic ethanol, biodiesel and hydrogen.

H. Clean and renewable domestic sources of energy are available for the generation of electricity, including solar, wind, geothermal and tidal power.

I. An effective clean energy strategy must consist of short- and long-term objectives. The strategy must utilize clean energy technologies and clean alternative fuels that are commercially available while investing in clean energy technologies and fuels for the future. Emissions reduction and energy efficiency are an important component of this strategy.

J. Energy conservation will increase as the public is educated in the use of new, clean energy alternatives, such as improved computerized monitoring and control systems, energy-efficient appliances and more efficient engines for vehicles.

K. Local governments can play an important role in educating the public on the use of alternative energy by creating alternative energy demonstration projects in communities throughout California.

L. California's history of technological innovation and entrepreneurship, international leadership in promoting energy efficiency, abundance of world-leading academic institutions, and national leadership in environmental stewardship qualifies California to lead the way into an era of renewable energy and clean alternative fuels.

SECTION 3. Purpose and intent.

It is the intent of the people of California in enacting this measure to:

A. Invest five billion dollars ($5,000,000,000) in projects and programs designed to enhance California's energy independence and to reduce our dependence on foreign oil, reduce greenhouse gas emissions, implement the California Global Warming Solutions Act of 2006 and improve air quality.

B. Provide incentives for the engineering, design and construction of facilities and related infrastructure for the large-scale production of electricity using renewable energy technologies, such as solar, wind, geothermal, and tidal power.

C. Provide incentives for individuals and businesses to purchase or lease and install equipment in California for the production of electrical energy utilizing renewable energy technologies.

D. Provide rebates for individuals and businesses to purchase clean alternative energy vehicles, including hybrid, plug-in hybrid and natural-gas-powered vehicles. Funds will also be provided for testing and certification of alternative fuel vehicles and research and development of low-carbon fuels.

E. Provide funds for local governments to create renewable energy demonstration projects and educational projects in their communities.

F. Provide grants to California public universities, colleges and community colleges for the purpose of training students to work with clean and renewable energy technologies.

G. Provide consumer education on the availability and use of clean and renewable energy products and services.

H. Make full use of California's resources and its capability for innovation to develop new ways to meet the state's important long-term goals: the Renewable Portfolio Standard, Control of Greenhouse Gas Emissions and Criteria Air Pollutants from Motor Vehicles and the state's petroleum reduction goals set forth in this act.

I. Ensure that the revenues from this measure are invested wisely in commercially viable technology achieving short-term and longer-term measurable results while supporting research and new technologies, and require mandatory independent audits and annual progress reports so that project administrators are accountable to the people of California.

SECTION 4. Addition of Division 16.6, commencing with Section 26410, to the Public Resources Code. Division 16.6 (commencing with Section 26410) is added to the Public Resources Code, to read:

*(b) All projects and programs proposed by each public entity identified in Section 26421 shall comply with state content standards for educational programs that serve children in kindergarten and grades 1 to 12, inclusive.*

*26423. Based on the standards in Section 26424, the funds in the Education, Training, and Outreach Account shall be appropriated and expended by the State Energy Resources Conservation and Development Commission for the following purposes:*

*(a) Make grants to California public universities, colleges, and community colleges for:*

*(1) Staff development, training grants, and research to train students to work with and to improve the economic viability and accelerate the commercialization of renewable energy technologies, energy efficiency technologies, and clean alternative fuels in buildings, equipment, electricity generation, and vehicles.*

*(2) Tuition assistance for low-income students and former fossil fuel energy workers and certified vehicle mechanics to obtain training to work with renewable energy technologies, such as solar, geothermal, wind, wave, and tidal technologies, clean alternative fuels, and energy efficiency technologies, in buildings, equipment, electricity generation, and vehicles.*

*(b) The sum of twenty-five million dollars ($25,000,000) shall be available for outreach to provide public information concerning the importance, availability, and accessibility of clean alternative fuels and clean alternative fuel vehicles, energy efficiency devices and technologies, and renewable energy technologies.*

*(c) Such other programs as may be determined by the State Energy Resources Conservation and Development Commission to advance the purpose and intent of this act consistent with its stated goals and objectives.*

*26424. Standards for Education, Training, and Outreach Account Expenditures.*

*(a) The State Energy Resources Conservation and Development Commission shall make expenditures pursuant to Section 26423 consistent with the goals of training students to work with renewable energy technologies, such as solar, geothermal, wind, wave, and tidal power technologies, or energy efficiency technologies, in buildings, equipment, electricity generation, clean alternative fuels, and clean alternative fuel vehicles.*

*(b) All expenditures made pursuant to Section 26423 shall, as deemed necessary or appropriate by the State Energy Resources Conservation and Development Commission, be based upon a competitive selection process established by the State Energy Resources Conservation and Development Commission.*

*26425. The Legislature shall enact such legislation as is necessary, if any, to implement this chapter.*

*CHAPTER 5. FISCAL PROVISIONS*

*26426. Bonds in the total amount of five billion dollars ($5,000,000,000), not including the amount of any refunding bonds issued in accordance with Section 26435, or so much thereof as is necessary, may be issued and sold to be used for carrying out the purposes set forth in this division and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.*

*26427. The bond proceeds shall be deposited into the California Renewable Energy and Clean Alternative Fuel Fund created by Section 26413. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of and interest on the bonds as they become due and payable.*

*26428. The bonds authorized by this division shall be prepared, executed, issued, sold, paid and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all provisions of that law shall apply to the bonds and to this division; provided, however, that the limitations set forth in Section 16727 of the Government Code shall not apply to the bonds and to this division.*

*26429. (a) Solely for purposes of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this division, the California Renewable Energy and Clean Alternative Fuel Finance Committee is hereby created. For purposes of this division, the California Renewable Energy and Clean Alternative Fuel Finance Committee is "the committee" as that term is defined and used by the State General Obligation Bond Law. The committee shall consist of the Controller, the Director of Finance, and the Treasurer, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.*

*(b) For the purposes of this chapter, the Secretary of the Resources Agency shall be "the board" as that term is defined and used by the State General Obligation Bond Law.*

*26430. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this division in order to carry out the actions specified in this division and, if so, the amount of bonds to be*

*issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time. The committee shall, to the maximum extent permitted, give priority to the issuance and sale of bonds necessary to allocate funds to the Alternative Fuel Vehicle Rebate Subaccount established in subdivision (a) of Section 26419.*

*26431. There shall be collected annually in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do so and perform each and every act that is necessary to collect that additional sum.*

*26432. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund, for purposes of this division, an amount that will equal the total of (a) the sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this division, as the principal and interest become due and payable, and (b) the sum that is necessary to carry out the provisions of Section 26433, appropriated without regard to fiscal years.*

*26433. For the purposes of carrying out this division, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds that have been authorized to be sold for the purposes of carrying out this division. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds that would otherwise be deposited in that fund.*

*26434. All money derived from premium and accrued interest on bonds sold shall be reserved and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.*

*26435. Any bonds issued or sold pursuant to this division may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of the bonds shall include approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.*

*26436. The people of California hereby find and declare that inasmuch as the proceeds from the sale of bonds authorized by this division are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitation imposed by that article.*

### *Chapter 6. Accountability*

*26437. In addition to any other required reports, the State Energy Resources Conservation and Development Commission, the State Air Resources Board, and the Controller shall each issue an annual report to the Governor, the Legislature, and the public that sets forth their activities and accomplishments relating to this act and future program directions. Each annual report shall include, but not be limited to, the following information: the number and dollar amounts of incentives, including but not limited to grants, loans, loan guarantees, credits, buydowns, and rebates; the recipients of incentives for the prior year; the administrative expenses relating to the act; a summary of research findings,*

*including promising new research areas and technological innovations; and an assessment of the relationship between the award of incentives and any applicable strategic plan.*

SECTION 5. Competing, regulatory alternative.

A. In the event that another measure ("competing measure") appears on the same ballot as this act that seeks to adopt or impose provisions or requirements that differ in any regard to, or supplement, the provisions or requirements contained in this act, the voters hereby expressly declare their intent that if both the competing measure and this act receive a majority of votes cast, and this act receives a greater number of votes than the competing measure, this act shall prevail in its entirety over the competing measure without regard to whether specific provisions of each measure directly conflict with each other.

B. In the event that both the competing measure and this act receive a majority of votes cast, and the competing measure receives a greater number of votes than this act, this act shall be deemed complementary to the competing measure. To this end, and to the maximum extent permitted by law, the provisions of this act shall be fully adopted except to the extent that specific provisions contained in each measure are deemed to be in direct conflict with each other on a "provision-by-provision" basis pursuant to *Yoshisato v. Superior Court* (1992) 2 Cal.4th 978.

SECTION 6. Amendment. The provisions of this act may be amended to carry out its purpose and intent by statutes approved by a two-thirds vote of each house of the Legislature and signed by the Governor.

SECTION 7. Severability. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of this act that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

2007 – 08

REGULAR SESSION

2008 CHAPTERS

# CHAPTER 1

An act to add Sections 75074.5 and 75094 to the Government Code, relating to judges' retirement.

[Approved by Governor February 28, 2008. Filed with Secretary of State February 28, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 75074.5 is added to the Government Code, to read:

75074.5. (a) Notwithstanding any other provision of law, the designated beneficiary or beneficiaries of any judge who designated a beneficiary to receive an optional settlement benefit by a writing filed with the board, in compliance with Section 75074, on or after January 1, 2003, and before January 1, 2007, and who dies while in office, shall be entitled to receive the optional settlement benefit the judge elected pursuant to Section 75071, subject to the provisions of subdivisions (b) and (c).

(b) The benefit payable under this section shall be actuarially adjusted to an amount equal in value to the amount the judge would have received if the judge retired on the date of death. If the judge was not eligible to retire on the date of death, the allowance shall not be payable until the date upon which the judge would have been eligible to begin receiving a service retirement allowance under Section 75025.

(c) If the designated beneficiary of a judge who dies while in office receives an allowance pursuant to this section, no person shall have any other claim to benefits otherwise available to the judge's designated or statutory beneficiaries with respect to the Judges' Retirement Fund or with respect to any other provision of the Judges' Retirement Law. However, if the judge's surviving spouse is eligible for an allowance under Section 75104.4, the allowance provided for by Section 75104.4 shall be paid and the allowance payable under this section shall be actuarially adjusted to reflect the benefit provided by Section 75104.4. All benefits paid under this section are subject to the provisions of subdivision (b) of Section 75074.

(d) This section does not prevent a beneficiary from claiming or receiving payments to which he or she may be entitled under the Extended Service Incentive Program set forth in Article 4.5 (commencing with Section 75085).

SEC. 2. Section 75094 is added to the Government Code, to read:

75094. (a) Notwithstanding any other provision of this article to the contrary, the surviving spouse of a judge shall receive an allowance that is equal to the amount that the judge would have received had the judge been retired from service on the date of his or her death and had elected optional settlement 2 specified in subdivision (b) of Section 75071, if all of the following apply to the judge:

(1) The judge died in office on or after January 1, 2005.

(2) The judge had attained the minimum age for service retirement applicable to the judge preceding his or her death, with a minimum of 20 years of service.

(3) The judge was eligible to receive an allowance pursuant to Section 75025 or 75033.5.

(b) A surviving spouse receiving an allowance pursuant to this section shall have no other claim to benefits with respect to the Judges' Retirement Fund or with respect to any other provision of the Judges' Retirement Law.

(c) The benefits provided by this section are only payable to the surviving spouse of a judge who elects to come within this section. Notwithstanding Section 75090, that election may be made at any time while the judge is in office and, once made, the election is irrevocable.

(d) This section does not prevent a surviving spouse from claiming or receiving any payments to which he or she may be entitled as a beneficiary under the Extended Service Incentive Program set forth in Article 4.5 (commencing with Section 75085).

(2) The person is unlicensed and provides nonmedical domestic or personal care to an aged or disabled adult in the adult's own home.

(b) (1) If it is found that the person has ever been convicted of a violation or attempted violation of Section 243.4 of the Penal Code, a sex offense against a minor, or of any felony which requires registration

pursuant to Section 290 of the Penal Code, or that the person has been convicted or incarcerated within the last 10 years as the result of committing a violation or attempted violation of Section 273a, 273d, or subdivision (a) or (b) of Section 368, of the Penal Code, or as the result of committing a theft, robbery, burglary, or any felony, the Department of Justice shall notify the employer of that fact. If no criminal record information has been recorded, the Department of Justice shall provide the employer with a statement of that fact.

(2) Any employer may deny employment to any person who is the subject of a report under paragraph (1) when the report indicates that the person has committed any of the crimes identified in paragraph (1).

(3) Nothing in this section shall be construed to require any employer to hire any person who is the subject of a report under paragraph (1) when the report indicates that the person has not committed any of the crimes indicated in paragraph (1).

(c) (1) Fingerprints shall be on a card provided by the Department of Justice for the purpose of obtaining a set of fingerprints. The employer shall submit the fingerprints to the Department of Justice. Within 30 calendar days of the receipt of the fingerprints, the Department of Justice shall notify the employer of the criminal record information, as provided in this subdivision. If no criminal record information has been recorded, the Department of Justice shall provide the employer with a statement of that fact as soon as possible, but not later than 30 calendar days of receipt of the fingerprints. If new fingerprints are required for processing, the Department of Justice shall, as soon as possible, but not later than 30 calendar days from the date of receipt of the fingerprints, notify the employer that the fingerprints were illegible.

(2) Fingerprints may be taken by any local law enforcement officer or agency for purposes of paragraph (1).

(3) Counties shall notify any recipient of, or applicant for, in-home supportive services or personal care services under the Medi-Cal program, upon his or her application for in-home supportive services or personal care services or during his or her annual redetermination, or upon the recipient's changing providers, that a criminal record check is available, and that the check can be performed by the Department of Justice.

(d) (1) The Department of Justice shall charge a fee to the employer to cover the costs of administering this section.

(2) (A) If the employer is an in-home supportive services recipient, as defined in Section 123202.2, a recipient of personal care services under the Medi-Cal program pursuant to Sections 14132.95 to 14132.97, inclusive, or any public authority or nonprofit consortium as described in subdivision (a) of Section 12301.6, the fee shall be shared by the county and the state in the same ratio as described in Section 12306.

(B) (i) Notwithstanding any other provision of law, and except as provided in clause (ii), the department shall, no later than January 1, 2009, implement subparagraph (A) through an all county letter from the director.

(ii) No later than July 1, 2009, the department shall adopt regulations to implement the provisions listed in clause (i).

(e) It is the intent of the Legislature that the Department of Justice charge a fee to cover its cost in providing services in accordance with this section to comply with the 30-calendar-day requirement for provision to the department of the criminal record information, as contained in subdivision (c).

SECTION 1. It is the intent of the Legislature that vehicles used on public roadways meet all applicable Federal Motor Vehicle Safety Standards to ensure the highest level of safety. Low-speed vehicles

provide an efficient alternative to full-size vehicles. Therefore, it is the intent of the Legislature to provide time for organizations within the City of La Verne to convert their fleet of golf cart type vehicles to safer low-speed vehicles. It is further the intent of the Legislature that the authority granted by this act not be extended beyond January 1, 2016.

SEC. 2. Section 1957 of the Streets and Highways Code is amended to read:

1957. (a) If a city or county adopts a golf cart transportation plan, it shall do both of the following:

(1) Establish minimum general design criteria for the development, planning, and construction of separated golf cart lanes, including, but not limited to, the design speed of the facility, the space requirements of the golf cart, and roadway design criteria.

(2) In cooperation with the department, establish uniform specifications and symbols for signs, markers, and traffic control devices to control golf cart traffic; to warn of dangerous conditions, obstacles, or hazards; to designate the right-of-way as between golf carts, other vehicles, and bicycles; to state the nature and destination of the golf cart lane; and to warn pedestrians, bicyclists, and motorists of the presence of golf cart traffic.

(b) The construction of separated golf cart lanes, as required under paragraph (1) of subdivision (a), does not apply in any of the following locations:

(1) A residence district, as defined in Section 515 of the Vehicle Code, located within any city containing a population of less than 50,000 residents with a geographical area of more than 20 square miles in which city there are at least 20 golf courses, if the speed limit in that district is 25 miles per hour or less.

(2) (A) The City of La Verne, on those street and highway segments for which the city council makes a finding that the street or highway segment is suitable to safely permit the use of regular vehicular traffic and also the driving of golf carts, and makes a separate finding that the construction of separated golf cart lanes is infeasible given the physical space limitations of the street or highway segment. In addition, these street or highway segments shall meet all of the following requirements:

(i) Have speed limits of 25 miles per hour or less, as established by an engineering and traffic survey.

(ii) Be immediately adjacent to or surrounded by the campus of a university or a retirement community.

(iii) Provide a route between unconnected portions of the campus of a university or the real property of a retirement community, or provide direct access to an otherwise inaccessible portion of the campus of a university or the real property of a retirement community.

(iv) Be approved for purposes of this paragraph by the law enforcement agency with primary traffic jurisdiction over the street or highway segments.

(v) Accommodate golf carts without adversely impacting traffic safety or the travel needs of commuters and other users, according to a safety determination made by a traffic engineer.

(vi) Be limited to golf carts owned by the university or retirement community and equipped with a windshield, headlights, brake lights, and seatbelts.

(vii) Limit the use of golf carts to employees of the university or retirement community acting within the scope and course of employment for the maintenance or security of the university or the retirement community.

(B) For purposes of this paragraph, "golf cart" includes, but is not limited to, a utility style golf cart, used for transporting maintenance equipment, and a shuttle style golf cart.

(C) This paragraph shall become inoperative on January 1, 2016.

SEC. 3. The Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of unique circumstances pertaining to higher education and retirement communities in the City of La Verne.

## CHAPTER 8

An act to amend Section 8880.321 of the Government Code, relating to the California State Lottery.

[Approved by Governor April 23, 2008. Filed with Secretary of State April 23, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 8880.321 of the Government Code is amended to read:

8880.321. The commission shall promulgate regulations to establish a system of verifying the validity of prizes and to effect payment of the prizes, provided that:

(a) For convenience of the public, lottery game retailers may be authorized by the commission to pay winners of up to six hundred dollars ($600) after performing validation procedures on their premises appropriate to the lottery game involved.

(b) No prize may be paid arising from tickets or shares that are stolen, counterfeit, altered, fraudulent, unissued, produced or issued in error,

unreadable, not received or not recorded by the lottery by applicable deadlines, lacking in captions that confirm and agree with the lottery play symbols required by the lottery game involved, purchased by a minor, or not in compliance with additional specific rules and regulations and confidential validation and security tests appropriate to the particular lottery game. The lottery may pay a prize even though the actual winning ticket is not received by the lottery if the lottery validates the claim for the prize based upon substantial proof. "Substantial proof" means any evidence that would permit the lottery to use established validation procedures, as specified in lottery regulations, to validate the claim.

The commission may require that any form relating to a claim for a prize shall be signed under penalty of perjury. This declaration shall meet the requirements of Section 2015.5 of the Code of Civil Procedure.

(c) No particular prize in any lottery game shall be paid more than once.

(d) The commission may specify that winners of less than twenty-five dollars ($25) claim the prizes from either the same lottery game retailer from whom the ticket or share was purchased or from the lottery itself.

(e) Players shall have the right to claim prize money for 180 days after the drawing or the end of the lottery game or play in which the prize was won, or, if a multistate lottery game, up to one year for jackpots or grand prizes. The commission may define shorter time periods for eligibility for participation in, and entry into, drawings involving entries or finalists. If a valid claim is not made for a prize directly payable by the commission or for any online game prize within the period applicable for that prize, the unclaimed prize money shall revert to the benefit of the public purpose described in this chapter.

(f) After the expiration of the claim period for prizes for each lottery game, the commission shall make available a detailed tabulation of the total number of tickets or shares actually sold in a lottery game and the total number of prizes of each prize denomination that were actually claimed and paid directly by the commission.

(g) A ticket or share shall not be purchased by, and a prize shall not be paid to, a member of the commission, any officer or employee of the commission, any officer or employee of the Controller who is designated in writing by the Controller as having possible access to confidential lottery information, programs, or systems, or any spouse, child, brother, sister, or parent of that person who resides within the same household of the person. Any person who knowingly sells or purchases a ticket or share in violation of this section, or who knowingly claims or attempts to claim a prize with a ticket or share that was purchased or sold in violation of this section, is guilty of a misdemeanor.

(h) No prize shall be paid to any person under the age of 18 years. Any person who knowingly claims or attempts to claim a prize with a ticket or share purchased by a person under the age of 18 years is guilty of a misdemeanor.

SEC. 2. The Legislature finds and declares that this act furthers the purposes of the California State Lottery Act of 1984, enacted by Proposition 37 at the November 6, 1984, general election.

## CHAPTER 9

An act to amend Sections 70321, 70363, 70374, and 70402 of, and to repeal and add Section 70322 of, the Government Code, relating to court facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 23, 2008. Filed with Secretary of State April 23, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 70321 of the Government Code is amended to read:

70321. (a) The Judicial Council, in consultation with the superior court of each county and the county shall enter into agreements regarding the transfer of responsibility for court facilities from that county to the Judicial Council. The agreements shall be executed no later than December 31, 2009. Transfer of responsibility may occur not earlier than July 1, 2004, and not later than December 31, 2009. On or before July 1, 2003, each county shall designate those persons who shall negotiate the agreements on behalf of the county and shall give the Judicial Council the names of those persons. The name of a person designated by a county to negotiate on its behalf may be changed by the county at any time by providing written notice to the Judicial Council.

(b) (1) Notwithstanding any other provision of law and except as provided in paragraph (2) of this subdivision, any transfer agreement that is executed on or after October 1, 2008, and on or before March 31, 2009, shall contain a requirement that the county pay, in addition to the county facility payment established pursuant to Article 5 (commencing with Section 70351), a continuing amount from the date of transfer calculated by multiplying the county facilities payment by the percentage change in the National Implicit Price Deflator for State and Local Government Purchases, as published by the Department of Finance, for

the fiscal year in which the transfer agreement is executed as compared to the prior fiscal year.

(2) Prior to September 30, 2008, the Administrative Office of the Courts and a county may jointly declare that extraordinary circumstances exist that have prohibited successful execution of a transfer agreement, that all relevant transfer documents have been timely submitted and reviewed by the county; that the failure to execute a transfer agreement prior to September 30, 2008, is not caused by the action, inaction, or delay on the part of the county; and that the agreement can reasonably be executed on or before December 31, 2008. If such a declaration is signed, the application of the multiplier described in paragraph (1) shall be tolled through December 31, 2008. If the transfer agreement is executed by December 31, 2008, the multiplier shall not apply. Justification for a joint declaration shall be limited to the following:

(i) The failure to execute the transfer agreement was caused by the action, inaction, or delay of a third party, or a party to the transaction other than the county; or

(ii) The Administrative Office of the Courts and the county have agreed to pursue an alternative method for complying with a seismic liability obligation under the provisions of Section 70324 and failure to execute the transfer agreement was caused by unique circumstances directly connected to the implementation of the alternative method authorized by the section.

(3) In exercising the authority provided under paragraph (2), a county shall not arbitrarily or capriciously request a joint declaration without a good faith belief that the conditions for such a declaration are met, and the Administrative Office of the Courts shall not arbitrarily or capriciously decline to sign a joint declaration described in paragraph (2) if the conditions for such a declaration are otherwise met.

(4) Copies of any such joint declarations described in paragraph (2) will be transmitted upon their signing by both parties to the chairs of the Senate and Assembly Budget, Appropriations, and Judiciary Committees.

(c) Notwithstanding any other provision of law, any transfer agreement that is executed on or after April 1, 2009, shall contain a requirement that the county pay, in addition to the county facility payment established pursuant to Article 5 (commencing with Section 70351), a continuing amount from the date of transfer calculated by multiplying the county facilities payment by the year-to-year percentage change in the annual state appropriations limit as described in Section 3 of Article XIII B of the California Constitution for the year in which the transfer agreement is executed.

SEC. 2. Section 70322 of the Government Code is repealed.

SEC. 3. Section 70322 is added to the Government Code, to read:

70322. Agreements for the transfer of responsibility for court facilities from the county to the Judicial Council may include multiple buildings within the county, and need not require a separate agreement for each building.

SEC. 4. Section 70363 of the Government Code is amended to read:

70363. Each county shall calculate the county facilities payment for each facility pursuant to Section 70351.5 or using the forms and instructions as approved and distributed pursuant to Section 70361. The county shall mail the Judicial Council and local court the actual expenditure figures and adjustments at least 90 days prior to the proposed date of transfer of responsibility for that facility. The county auditor or, at the discretion of the board of supervisors, the board shall certify the reported expenditures and indexed calculations.

(a) Prior to the transfer of responsibility of each court facility from the county to the state, the Administrative Office of the Courts shall review the accuracy of the calculations.

(b) The Administrative Office of the Courts and the county shall meet and discuss any differences they have concerning the calculations in an effort to reduce or eliminate any areas of disagreement. Following the discussions, the Administrative Office of the Courts shall mail the Department of Finance the proposed county facility payment and any necessary background information, including the calculations and the reported county expenditures and a summary of any disagreements between the Administrative Office of the Courts and the county regarding the payment.

(c) The Department of Finance shall within 30 days of the receipt of the proposed county facilities payment from the Administrative Office of the Courts do any of the following:

(1) Approve the proposed payment.

(2) Approve a modified payment.

(3) Request additional information from either the county or the Administrative Office of the Courts.

(d) When the department has approved a county facilities payment for that facility, it shall mail the Administrative Director of the Courts the approved county facilities payment. The Administrative Office of the Courts shall mail a copy of the Department of Finance notification to the county administrative officer and the court executive officer.

SEC. 5. Section 70374 of the Government Code is amended to read:

70374. (a) The Judicial Council shall annually recommend to the Governor and the Legislature the amount proposed to be spent for projects paid for with money in the State Court Facilities Construction Fund. The use of the appropriated money is subject to subdivision (*l*) of Section 70391.

(b) Acquisition and construction of court facilities shall be subject to the State Building Construction Act of 1955 (commencing with Section 15800) and the Property Acquisition Law (commencing with Section 15850), except that, (1) notwithstanding any other provision of law, the Administrative Office of the Courts shall serve as an implementing agency upon approval of the Department of Finance, and (2) the provisions of subdivision (e) shall prevail. Acquisition and construction of facilities are not subject to the provisions of the Public Contract Code, but shall be subject to facilities contracting policies and procedures adopted by the Judicial Council after consultation and review by the Department of Finance.

(c) Money in the State Court Facilities Construction Fund shall only be used for either of the following:

(1) To acquire, rehabilitate, construct, or finance court facilities, as defined by subdivision (d) of Section 70301.

(2) To rehabilitate one or more existing court facilities in conjunction with the construction, acquisition, or financing of one or more new court facilities.

(d) Except as provided in Section 70374.2, 25 percent of all money collected for the State Court Facilities Construction Fund from any county shall be designated for implementation of trial court projects in that county. The Judicial Council shall determine the local projects after consulting with the trial court in that county and based on the locally approved trial court facilities master plan for that county.

(e) The following provisions shall prevail over provisions of the State Building Construction Act of 1955 (Part 10.6 (commencing with Section 15800) of Division 3 of Title 2) in regard to buildings subject to this section.

(1) The Administrative Office of the Courts shall be responsible for the operation, including, but not limited to, the maintenance and repair, of all court facilities whose title is held by the state. Notwithstanding Section 15807, the operation of buildings under this section shall be the responsibility of the Judicial Council.

(2) Notwithstanding Section 15808.1, the Judicial Council shall have the responsibility for determining whether a building under this act shall be located within or outside of an existing public transit corridor.

(3) The buildings under this section are subject to Section 15814.12 concerning cogeneration and alternative energy sources at the request of, or with the consent of, the Judicial Council. Any building acquired by the state pursuant to this section on or before July 1, 2007, is not subject to subdivision (b) of Section 15814.12 concerning acquiring of cogeneration or alternative energy equipment if the building when acquired, already had cogeneration or alternative energy equipment.

Section 15814.17 only applies to buildings to which the Judicial Council has given its consent under subdivision (a) of Section 15814.12.

SEC. 6. Section 70402 of the Government Code is amended to read:

70402. (a) Any amount in a county's courthouse construction fund established by Section 76100, a fund established by Section 70622 in the County of Riverside, a fund established by Section 70624 in the County of San Bernardino, and a fund established by Section 70625 in the City and County of San Francisco, shall be transferred to the State Court Facilities Construction Fund at the later of the following dates:

(1) The date of the last transfer of responsibility for court facilities from the county to the Judicial Council or December 31, 2009, whichever is earlier.

(2) The date of the final payment of the bonded indebtedness for any court facility that is paid from that fund is retired.

(b) If the responsibility for one or more facilities does not transfer, the county's courthouse construction fund shall retain that portion of the total money in the fund as the square footage of the facilities that do not transfer bears to the total square footage of court facilities in that county.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The current deadline for the transfer of responsibility for court facilities to the state pursuant to Chapter 1082 of the Statutes of 2002 will not be met. In order to allow continued negotiation and the completion of that transfer, it is necessary that the deadline of June 30, 2007, be extended to December 31, 2009.

## CHAPTER 11

An act to amend Section 65584.07 of the Government Code, relating to land use.

[Approved by Governor April 29, 2008. Filed with Secretary of State April 29, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 65584.07 of the Government Code is amended to read:

65584.07. (a) During the period between adoption of a final regional housing needs allocation and the due date of the housing element update under Section 65588, the council of governments, or the department, whichever assigned the county's share, shall reduce the share of regional housing needs of a county if all of the following conditions are met:

(1) One or more cities within the county agree to increase its share or their shares in an amount equivalent to the reduction.

(2) The transfer of shares shall only occur between a county and cities within that county.

(3) The county's share of low-income and very low income housing shall be reduced only in proportion to the amount by which the county's share of moderate- and above moderate-income housing is reduced.

(4) The council of governments or the department, whichever assigned the county's share, shall approve the proposed reduction, if it determines that the conditions set forth in paragraphs (1), (2), and (3) above have been satisfied. The county and city or cities proposing the transfer shall submit an analysis of the factors and circumstances, with all supporting data, justifying the revision to the council of governments or the department. The council of governments shall submit a copy of its decision regarding the proposed reduction to the department.

(b) (1) The county and cities that have executed transfers of regional housing needs pursuant to subdivision (a) shall use the revised regional housing need allocation in their housing elements and shall adopt their housing elements by the deadlines set forth in Section 65588.

(2) A city that has received a transfer of a regional housing need pursuant to subdivision (c) shall adopt or amend its housing element within 30 months of the effective date of incorporation.

(3) A county or city that has received a transfer of regional housing need pursuant to subdivision (d) shall amend its housing element within 180 days of the effective date of the transfer.

(4) A county or city is responsible for identifying sites to accommodate its revised regional housing need by the deadlines set forth in paragraphs (1), (2), and (3).

(5) All materials and data used to justify any revision shall be made available upon request to any interested party within seven days upon payment of reasonable costs of reproduction unless the costs are waived due to economic hardship. A fee may be charged to interested parties for any additional costs caused by the amendments made to former subdivision (c) of Section 65584 that reduced from 45 to 7 days the time

within which materials and data were required to be made available to interested parties.

(c) (1) If an incorporation of a new city occurs after the council of governments, subregional entity, or the department for areas with no council of governments, has made its final allocation under Section 65584.03, 65584.04, 65584.06, or 65584.08, a portion of the county's allocation shall be transferred to the new city. The city and county may reach a mutually acceptable agreement for transfer of a portion of the county's allocation to the city, which shall be accepted by the council of governments, subregional entity, or the department, whichever allocated the county's share. If the affected parties cannot reach a mutually acceptable agreement, then either party may submit a written request to the council of governments, subregional entity, or to the department for areas with no council of governments, to consider the facts, data, and methodology presented by both parties and determine the number of units, by income category, that should be transferred from the county's allocation to the new city.

(2) Within 90 days after the date of incorporation, either the transfer, by income category, agreed upon by the city and county, or a written request for a transfer, shall be submitted to the council of governments, subregional entity, or to the department, whichever allocated the county's share. A mutually acceptable transfer agreement shall be effective immediately upon receipt by the council of governments, the subregional entity, or the department. A copy of a written transfer request submitted to the council of governments shall be submitted to the department. The council of governments, subregional entity, or the department, whichever allocated the county's share, shall make the transfer effective within 180 days after receipt of the written request. If the council of governments allocated the county's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.04 or 65584.08. If the subregional entity allocated the subregion's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.03. If the department allocated the county's share, the transfer shall be based on the considerations specified in Section 65584.06. The transfer shall neither reduce the total regional housing needs nor change the regional housing needs allocated to other cities by the council of governments, subregional entity, or the department. A copy of the transfer finalized by the council of governments or subregional entity shall be submitted to the department. The council of governments, the subregional entity, or the department, as appropriate, may extend the 90-day deadline if it determines an extension is consistent with the objectives of this article.

(d) (1) If an annexation of unincorporated land to a city occurs after the council of governments, subregional entity, or the department for

areas with no council of governments, has made its final allocation under Section 65584.03, 65584.04, 65584.06, or 65584.08, a portion of the county's allocation may be transferred to the city. The city and county may reach a mutually acceptable agreement for transfer of a portion of the county's allocation to the city, which shall be accepted by the council of governments, subregional entity, or the department, whichever allocated the county's share. If the affected parties cannot reach a mutually acceptable agreement, then either party may submit a written request to the council of governments, subregional entity, or to the department for areas with no council of governments, to consider the facts, data, and methodology presented by both parties and determine the number of units, by income category, that should be transferred from the county's allocation to the city.

(2) (A) Except as provided under subparagraph (B), within 90 days after the date of annexation, either the transfer, by income category, agreed upon by the city and county, or a written request for a transfer, shall be submitted to the council of governments, subregional entity, and to the department. A mutually acceptable transfer agreement shall be effective immediately upon receipt by the council of governments, the subregional entity, or the department. The council of governments, subregional entity, or the department for areas with no council of governments, shall make the transfer effective within 180 days after receipt of the written request. If the council of governments allocated the county's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.04 or 65584.08. If the subregional entity allocated the subregion's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.03. If the department allocated the county's share, the transfer shall be based on the considerations specified in Section 65584.06. The transfer shall neither reduce the total regional housing needs nor change the regional housing needs allocated to other cities by the council of governments, subregional entity, or the department for areas with no council of governments. A copy of the transfer finalized by the council of governments or subregional entity shall be submitted to the department. The council of governments, the subregional entity, or the department, as appropriate, may extend the 90-day deadline if it determines an extension is consistent with the objectives of this article.

(B) If the annexed land is subject to a development agreement authorized under subdivision (b) of Section 65865 that was entered into by a city and a landowner prior to January 1, 2008, the revised determination shall be based upon the number of units allowed by the development agreement.

(3) A transfer shall not be made when the council of governments or the department, as applicable, confirms that the annexed land was fully incorporated into the methodology used to allocate the city's share of the regional housing needs.

(b) It is the intent of the Legislature that protection of the public shall be the highest priority for the State Board of Chiropractic Examiners in exercising its licensing, regulatory, and disciplinary functions, and that whenever the protection of the public is inconsistent with the other interests sought to be promoted, the protection of the public shall be paramount.

SEC. 2. ## CHAPTER 13

An act to amend Sections 40200.5 and 40215 of the Vehicle Code, relating to vehicles.

[Approved by Governor May 16, 2008. Filed with Secretary of State May 16, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 40200.5 of the Vehicle Code is amended to read:

40200.5. (a) Except as provided in subdivision (c) of Section 40200.4, an issuing agency may elect to contract with the county, with a private vendor, or with any other city or county processing agency, other than the Department of the California Highway Patrol or other state law enforcement agency, within the county, with the consent of that other entity, for the processing of notices of parking violations and notices of delinquent parking violations, prior to filing with the court pursuant to Section 40230.

If an issuing agency contracts with a private vendor for processing services, it shall give special consideration to minority business enterprise participation in providing those services. For purposes of this subdivision, "special consideration" has the same meaning as specified in subdivision (c) of Section 14838 of the Government Code, as it relates to small business preference.

(b) A contract entered pursuant to subdivision (a) shall provide for monthly distribution of amounts collected between the parties, except those amounts payable to a county pursuant to Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code and amounts payable to the Department of Motor Vehicles pursuant to Section 4763 of this code.

(c) If a contract entered into pursuant to subdivision (a) includes the provision of qualified examiners or administrative hearing providers,

the contract shall be based on either a fixed monthly rate or on the number of notices processed and shall not include incentives for the processing entity based on the number of notices upheld or denied or the amount of fines collected.

SEC. 2. Section 40215 of the Vehicle Code is amended to read:

40215. (a) For a period of 21 calendar days from the issuance of a notice of parking violation or 14 calendar days from the mailing of a notice of delinquent parking violation, a person may request an initial review of the notice by the issuing agency. The request may be made by telephone, in writing, or in person. There shall be no charge for this review. If, following the initial review, the issuing agency is satisfied that the violation did not occur, that the registered owner was not responsible for the violation, or that extenuating circumstances make dismissal of the citation appropriate in the interest of justice, the issuing agency shall cancel the notice of parking violation or notice of delinquent parking violation. The issuing agency shall advise the processing agency, if any, of the cancellation. The issuing agency or the processing agency shall mail the results of the initial review to the person contesting the notice, and, if following that review, cancellation of the notice does not occur, include a reason for that denial.

(b) If the person is dissatisfied with the results of the initial review, the person may request an administrative hearing of the violation no later than 21 calendar days following the mailing of the results of the issuing agency's initial review. The request may be made by telephone, in writing, or in person. The person requesting an administrative hearing shall deposit the amount of the parking penalty with the processing agency. The issuing agency shall provide a written procedure to allow a person to request an administrative hearing without payment of the parking penalty upon satisfactory proof of an inability to pay the amount due. Notice of this procedure shall be provided to all persons requesting an administrative hearing. After January 1, 1996, an administrative hearing shall be held within 90 calendar days following the receipt of a request for an administrative hearing, excluding time tolled pursuant to this article. The person requesting the hearing may request one continuance, not to exceed 21 calendar days.

(c) The administrative hearing process shall include the following:

(1) The person requesting a hearing shall have the choice of a hearing by mail or in person. An in-person hearing shall be conducted within the jurisdiction of the issuing agency. If an issuing agency contracts with an administrative provider, hearings shall be held within the jurisdiction of the issuing agency or within the county of the issuing agency.

(2) If the person requesting a hearing is a minor, that person shall be permitted to appear at a hearing or admit responsibility for the parking

violation without the necessity of the appointment of a guardian. The processing agency may proceed against the minor in the same manner as against an adult.

(3) The administrative hearing shall be conducted in accordance with written procedures established by the issuing agency and approved by the governing body or chief executive officer of the issuing agency. The hearing shall provide an independent, objective, fair, and impartial review of contested parking violations.

(4) (A) The issuing agency's governing body or chief executive officer shall appoint or contract with qualified examiners or administrative hearing providers that employ qualified examiners to conduct the administrative hearings. Examiners shall demonstrate those qualifications, training, and objectivity necessary to conduct a fair and impartial review. An examiner shall not be employed, managed, or controlled by a person whose primary duties are parking enforcement or parking citation, processing, collection, or issuance. The examiner shall be separate and independent from the citation collection or processing function. An examiner's continued employment, performance evaluation, compensation, and benefits shall not, directly or indirectly, be linked to the amount of fines collected by the examiner.

(B) Examiners shall have a minimum of 20 hours of training. The examiner is responsible for the costs of the training. The issuing agency may reimburse the examiner for those costs. Training may be provided through (i) an accredited college or university, (ii) a program conducted by the Commission on Peace Officer Standards and Training, (iii) American Arbitration Association or a similar established organization, or (iv) through any program approved by the governing board of the issuing agency, including a program developed and provided by, or for, the agency. Training programs may include topics relevant to the administrative hearing, including, but not limited to, applicable laws and regulations, parking enforcement procedures, due process, evaluation of evidence, hearing procedures, and effective oral and written communication. Upon the approval of the governing board of the issuing agency, up to 12 hours of relevant experience may be substituted for up to 12 hours of training. In addition, up to eight hours of the training requirements described in this subparagraph may be credited to an individual, at the discretion of the governing board of the issuing agency, based upon training programs or courses described in (i) to (iv), inclusive, that the individual attended within the last five years.

(5) The officer or person who issues a notice of parking violation shall not be required to participate in an administrative hearing. The issuing agency shall not be required to produce any evidence other than the notice of parking violation or copy thereof and information received

from the Department of Motor Vehicles identifying the registered owner of the vehicle. The documentation in proper form shall be prima facie evidence of the violation.

(6) The examiner's decision following the administrative hearing may be personally delivered to the person by the examiner or sent by first-class mail, and, if the notice is not cancelled, include a written reason for that denial.

(7) Following a determination by the examiner that a person has committed the violation, the examiner may, consistent with the written guidelines established by the issuing agency, allow payment of the parking penalty in installments, or an issuing agency may allow for deferred payment or allow for payments in installments, if the person provides evidence satisfactory to the examiner or the issuing agency, as the case may be, of an inability to pay the parking penalty in full. If authorized by the governing board of the issuing agency, the examiner may permit the performance of community service in lieu of payment of a parking penalty.

(d) The provisions of this section relating to the administrative appeal process do not apply to an issuing agency that is a law enforcement agency if the issuing agency does not also act as the processing agency.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for certain costs that may be incurred by a local agency or school district because, in that regard, this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

However, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

Where a coin-operated telephone service is furnished for a guarantee or other periodic amount, such amount is subject to the surcharge imposed by this part.

(2) "Charges for services" shall not include charges for intrastate toll calls where bills for such calls originate out of California.

(3) "Charges for services" shall not include charges for any nonrecurring, installation, service connection or one-time charge for service or directory advertising, and shall not include private

(2) The charge is paid within the United States.

(b) A service which entitles the subscriber, upon payment of a periodic charge (determined as a flat amount or upon the basis of total elapsed transmission time), to the privilege of a predetermined amount of units or dollars of telephonic communications or an unlimited number of telephonic communications to or from all or a substantial portion of the persons having telephone or radiotelephone stations in a specified area which is outside the local telephone system area in which the station provided with this service is located.

SEC. 5. Section 41016.5 is added to the Revenue and Taxation Code, to read:

41016.5. (a) "VoIP service" means any service that satisfies the requirements set forth in paragraph (1) and (2).

(1) Does all of the following:

(A) Enables real-time, two-way voice communication that originates from and terminates to the user's location using Internet Protocol (IP) or any successor protocol.

(B) Requires a broadband connection from the user's location.

(C) Permits users, generally, to receive calls that originate on the public switched telephone network and to terminate calls to the public switched telephone network.

(2) Does at least one of the following:

(A) Requires Internet protocol-compatible customer premises equipment (CPE).

(B) When necessary, is converted to or from transmission control protocol (TCP)/IP by the service user's service supplier before or after being switched by the public switched telephone network.

(C) Is a service that the Federal Communications Commission (FCC) has affirmatively required to provide 911 or E911 service.

(b) This definition shall only apply to this part.

SEC. 6. Section 41019.5 is added to the Revenue and Taxation Code, to read:

41019.5. (a) It is the intent of the Legislature that telephone quality communication utilizing VoIP shall not be regulated by the enactment of Senate Bill 1040 of the 2007–08 Regular Session. The sole purpose of this act is to ensure that all forms of telephonic quality communications that connect to the "911" emergency system contribute to the State Emergency Telephone Number Account and that this act may not be used by a court or administrative body for any purpose other than to interpret and apply this part.

(b) For purposes of this section only, "VoIP" means any service that:

(1) Enables real-time or two-way voice communication that originates or terminates from the user's location using IP or any successor protocol.

(2) Uses a broadband connection from the user's location, including any service that permits users, generally, to receive calls that originate on the public switched telephone network and to terminate calls to the public switched telephone network.

SEC. 7. Section 41020 of the Revenue and Taxation Code is amended to read:

41020. (a) A surcharge is hereby imposed on amounts paid by every person in the state for both of the following:

(1) Intrastate telephone communication service in this state commencing on July 1, 1977.

(2) VoIP service that provides access to the "911" emergency system by utilizing the digits 9-1-1 by any service user in this state commencing on January 1, 2009. The surcharge shall not apply to charges for VoIP service where any point of origin or destination is outside of this state.

(b) (1) Notwithstanding Section 41025, charges not subject to the surcharge may be calculated by a service supplier based upon books and records kept in the regular course of business, and, for purposes of calculating the interstate revenue portion not subject to the surcharge, a service supplier may also choose a reasonable and verifiable method from the following:

(A) Books and records kept in the regular course of business.

(B) Traffic or call pattern studies representative of the service supplier's business within California.

(C) For VoIP service only, the VoIP safe harbor factor established by the FCC to be used to calculate the service supplier's contribution to the federal Universal Service Fund. The FCC safe harbor factor in effect for VoIP service on September 1 of each year shall apply for the period

of January 1 through December 31, inclusive, of the next succeeding calendar year for purposes of this method. At such time as the FCC establishes a safe harbor factor for the federal Universal Service Fund for VoIP service that is greater than 75 percent for interstate revenue or abolishes the safe harbor factor applicable to VoIP service, this method shall become void and of no effect, in which case a VoIP service supplier may use an alternative method approved in advance by the board, which shall be available to all VoIP service suppliers. The FCC safe harbor factor applicable to VoIP service, as described in this subparagraph, is used solely as a mechanism to calculate the charges not subject to the surcharge for VoIP service and is not necessarily reflective of the intrastate portion of VoIP service. The use of the FCC safe harbor factor authorized by this subdivision shall not be interpreted to permit application of any intrastate requirement, other than the surcharge imposed under this part, upon VoIP service suppliers.

(2) Any method chosen by a service supplier shall remain in effect for at least one calendar year.

(3) If a service supplier reasonably relies upon books and records kept in the regular course of business or any documentation that satisfies the reasonable and verifiable method, then the service supplier's determination of the portion of the billed amount attributable to services not subject to the surcharge shall be rebuttably presumed to be correct. The service supplier's choice of books and records or other method and surcharge billing practice shall also be rebuttably presumed to be fair and legal business practices.

(4) It is the intent of the Legislature that the provisions of subparagraph (C) shall not be considered to be a precedent for the application of the surcharge or any other tax or fee where a person is required to collect a tax or fee imposed upon another.

(c) The surcharge imposed shall be at the rate of one-half of 1 percent of the charges made for such services to and including November 1, 1982, and thereafter at a rate fixed pursuant to Article 2 (commencing with Section 41030).

(d) The surcharge shall be paid by the service user as hereinafter provided.

(e) The surcharge imposed shall not apply to either of the following:

(3) "Home service provider" means the facilities-based carrier or reseller with which the customer contracts for the provision of mobile telecommunications services.

(8) "Serving carrier" means a facilities-based carrier providing mobile telecommunications service to a customer outside a home service provider's or reseller's licensed area.

(9) "Taxing jurisdiction" means any of the several states, the District of Columbia, or any territory or possession of the United States, any municipality, city, county, township, parish, transportation district, or assessment jurisdiction, or any other political subdivision within the territorial limits of the United States with the authority to impose a tax, charge, or fee.

(10) "VoIP service provider" means that provider of VoIP service with whom the end user customer contracts for the provision of VoIP services for the customer's own use and not for resale.

SEC. 8. Section 41025 of the Revenue and Taxation Code is amended to read:

41025. If a bill is rendered to persons using intrastate telephone services or VoIP service, the amount on which the surcharge with respect to such services shall be based shall be the sum of all charges for such services included in the bill; except that if the person who renders the bill groups individual items for purposes of rendering the bill and computing the surcharge, then the amount on which the surcharge with respect to each such group shall be based shall be the sum of all items within that group, and the surcharge on the remaining items not included in any such group shall be based on the charge for each item separately.

SEC. 9. Section 41030 of the Revenue and Taxation Code is amended to read:

41030. The Department of General Services shall determine annually, on or before October 1, a surcharge rate that it estimates will produce sufficient revenue to fund the current fiscal year's 911 costs. The surcharge rate shall be determined by dividing the costs (including incremental costs) the Department of General Services estimates for the current fiscal year of 911 plans approved pursuant to Section 53115 of the Government Code, less the available balance in the State Emergency Telephone Number Account in the General Fund, by its estimate of the

charges for intrastate telephone communications services and VoIP service to which the surcharge will apply for the period of January 1 to December 31, inclusive, of the next succeeding calendar year, but in no event shall such surcharge rate in any year be greater than three-quarters of 1 percent nor less than one-half of 1 percent.

41050. The surcharge imposed by Section 41020 attaches at the time charges for the intrastate telephone communication services and VoIP service are billed by the service supplier to the service user and shall be paid by the service user when paying for such services.

SEC. 13. Section 41152 is added to the Revenue and Taxation Code, to read:

## CHAPTER 24

An act to amend Section 6829 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor June 6, 2008. Filed with Secretary of State June 6, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 6829 of the Revenue and Taxation Code is amended to read:

6829. (a) Upon the termination, dissolution, or abandonment of the business of a corporation, partnership, limited partnership, limited liability partnership, or limited liability company, any officer, member, manager, partner, or other person having control or supervision of, or who is charged with the responsibility for the filing of returns or the payment of tax, or who is under a duty to act for the corporation, partnership, limited partnership, limited liability partnership, or limited liability company in complying with any requirement of this part, shall, notwithstanding any provision in the Corporations Code to the contrary, be personally liable for any unpaid taxes and interest and penalties on those taxes, if the officer, member, manager, partner, or other person willfully fails to pay or to cause to be paid any taxes due from the corporation, partnership, limited partnership, limited liability partnership, or limited liability company pursuant to this part.

(b) The officer, member, manager, partner, or other person shall be liable only for taxes that became due during the period he or she had the control, supervision, responsibility, or duty to act for the corporation, partnership, limited partnership, limited liability partnership, or limited liability company described in subdivision (a), plus interest and penalties on those taxes.

(c) Personal liability may be imposed pursuant to this section, only if the board can establish that the corporation, partnership, limited

partnership, limited liability partnership, or limited liability company had included tax reimbursement in the selling price of, or added tax reimbursement to the selling price of, tangible personal property sold in the conduct of its business, or when it can be established that the corporation, partnership, limited partnership, limited liability partnership, or limited liability company consumed tangible personal property and failed to pay the tax to the seller or has included use tax on the billing and collected the use tax or has issued a receipt for the use tax and failed to report and pay use tax.

(d) For purposes of this section "willfully fails to pay or to cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

(e) Except as provided in subdivision (f), the sum due for the liability under this section may be collected by determination and collection in the manner provided in Chapter 5 (commencing with Section 6451) and Chapter 6 (commencing with Section 6701).

(f) A notice of deficiency determination under this section shall be mailed within three years after the last day of the calendar month following the quarterly period in which the board obtains actual knowledge, through its audit or compliance activities, or by written communication by the business or its representative, of the termination, dissolution, or abandonment of the business of the corporation, partnership, limited partnership, limited liability partnership, or limited liability company, or, within eight years after the last day of the calendar month following the quarterly period in which the corporation, partnership, limited partnership, limited liability partnership, or limited liability company business was terminated, dissolved, or abandoned, whichever period expires earlier. If a business or its representative files a notice of termination, dissolution, or abandonment of its business with a state or local agency other than the board, this filing shall not constitute actual knowledge by the board under this section.

## CHAPTER 25

An act to amend Section 809 of the Business and Professions Code, relating to healing arts.

[Approved by Governor June 6, 2008. Filed with Secretary of State June 6, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 809 of the Business and Professions Code is amended to read:

809. (a) The Legislature hereby finds and declares the following:

(1) In 1986, Congress enacted the Health Care Quality Improvement Act of 1986 (Chapter 117 (commencing with Section 11101) Title 42, United States Code), to encourage physicians to engage in effective professional peer review, but giving each state the opportunity to "opt-out" of some of the provisions of the federal act.

(2) Because of deficiencies in the federal act and the possible adverse interpretations by the courts of the federal act, it is preferable for California to "opt-out" of the federal act and design its own peer review system.

(3) Peer review, fairly conducted, is essential to preserving the highest standards of medical practice.

(4) Peer review that is not conducted fairly results in harm both to patients and healing arts practitioners by limiting access to care.

(5) Peer review, fairly conducted, will aid the appropriate state licensing boards in their responsibility to regulate and discipline errant healing arts practitioners.

(6) To protect the health and welfare of the people of California, it is the policy of the State of California to exclude, through the peer review mechanism as provided for by California law, those healing arts practitioners who provide substandard care or who engage in professional misconduct, regardless of the effect of that exclusion on competition.

(7) It is the intent of the Legislature that peer review of professional health care services be done efficiently, on an ongoing basis, and with an emphasis on early detection of potential quality problems and resolutions through informal educational interventions.

(8) Sections 809 to 809.8, inclusive, shall not affect the respective responsibilities of the organized medical staff or the governing body of an acute care hospital with respect to peer review in the acute care hospital setting. It is the intent of the Legislature that written provisions implementing Sections 809 to 809.8, inclusive, in the acute care hospital setting shall be included in medical staff bylaws that shall be adopted by a vote of the members of the organized medical staff and shall be subject to governing body approval, which approval shall not be withheld unreasonably.

(9) (A) The Legislature thus finds and declares that the laws of this state pertaining to the peer review of healing arts practitioners shall apply in lieu of Chapter 117 (commencing with Section 11101) of Title 42 of the United States Code, because the laws of this state provide a more

careful articulation of the protections for both those undertaking peer review activity and those subject to review, and better integrate public and private systems of peer review. Therefore, California exercises its right to opt out of specified provisions of the Health Care Quality Improvement Act relating to professional review actions, pursuant to Section 11111(c)(2)(B) of Title 42 of the United States Code. This election shall not affect the availability of any immunity under California law.

(B) The Legislature further declares that it is not the intent or purposes of Sections 809 to 809.8, inclusive, to opt out of any mandatory national data bank established pursuant to Subchapter II (commencing with Section 11131) of Chapter 117 of Title 42 of the United States Code.

(b) For the purpose of this section and Sections 809.1 to 809.8, inclusive, "healing arts practitioner" or "licentiate" means a physician and surgeon, podiatrist, clinical psychologist, marriage and family therapist, clinical social worker, or dentist; and "peer review body" means a peer review body as specified in paragraph (1) of subdivision (a) of Section 805, and includes any designee of the peer review body.

## CHAPTER 26

An act to amend Section 21100.4 of the Vehicle Code, relating to vehicles.

[Approved by Governor June 6, 2008. Filed with Secretary of State June 6, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 21100.4 of the Vehicle Code is amended to read:

21100.4. (a) (1) A magistrate presented with the affidavit of a peace officer or a designated local transportation officer establishing reasonable cause to believe that a vehicle, described by vehicle type and license number, is being operated as a taxicab or other passenger vehicle for hire in violation of licensing requirements adopted by a local authority under subdivision (b) of Section 21100 shall issue a warrant or order authorizing the peace officer or designated local transportation officer to immediately seize and cause the removal of the vehicle. As used in this section, "designated local transportation officer" means any local public officer employed by a local authority to investigate and enforce local taxicab and vehicle for hire laws and regulations.

(2) The warrant or court order may be entered into a computerized database.

(3) A vehicle so impounded may be impounded for a period not to exceed 30 days.

(4) The impounding agency, within two working days of impoundment, shall send a notice by certified mail, return receipt requested, to the legal owner of the vehicle, at an address obtained from the department, informing the owner that the vehicle has been impounded and providing the owner with a copy of the warrant or court order. Failure to notify the legal owner within two working days shall prohibit the impounding agency from charging for more than 15 days' impoundment when a legal owner redeems the impounded vehicle.

(b) (1) An impounding agency shall release a vehicle to the registered owner or his or her agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the vehicle's seizure under any of the following circumstances:

(A) When the vehicle is a stolen vehicle.

(B) When the vehicle was seized under this section for an offense that does not authorize the seizure of the vehicle.

(2) A vehicle may be released under this subdivision, except upon presentation of the registered owner's or agent's currently valid license to operate the vehicle under the licensing requirements adopted by the local authority under subdivision (b) of Section 21100, and proof of current vehicle registration, or upon order of the court.

(c) (1) Whenever a vehicle is impounded under this section, the magistrate ordering the storage shall provide the vehicle's registered and legal owners of record, or their agents, with the opportunity for a poststorage hearing to determine the validity of the storage.

(2) A notice of the storage shall be mailed or personally delivered to the registered and legal owners within 48 hours after issuance of the warrant or court order, excluding weekends and holidays, by the person or agency executing the warrant or court order, and shall include all of the following information:

(A) The name, address, and telephone number of the agency providing the notice.

(B) The location of the place of storage and a description of the vehicle, that shall include, if available, the name or make, the manufacturer, the license plate number, and the mileage of the vehicle.

(C) A copy of the warrant or court order and the peace officer's affidavit, as described in subdivision (a).

(D) A statement that, in order to receive their poststorage hearing, the owners, or their agents, are required to request the hearing from the

magistrate issuing the warrant or court order in person, in writing, or by telephone, within 10 days of the date of the notice.

(3) The poststorage hearing shall be conducted within two court days after receipt of the request for the hearing.

(4) At the hearing, the magistrate may order the vehicle released if he or she finds any of the circumstances described in subdivision (b) or (e) that allow release of a vehicle by the impounding agency.

(5) Failure of either the registered or legal owner, or his or her agent, to request, or to attend, a scheduled hearing satisfies the poststorage hearing requirement.

(6) The agency employing the peace officer or designated local transportation officer who caused the magistrate to issue the warrant or court order shall be responsible for the costs incurred for towing and storage if it is determined in the poststorage hearing that reasonable grounds for the storage are not established.

(d) The registered owner or his or her agent is responsible for all towing and storage charges related to the impoundment, and any administrative charges authorized under Section 22850.5.

(e) A vehicle removed and seized under subdivision (a) shall be released to the legal owner of the vehicle or the legal owner's agent prior to the end of the impoundment period and without the permission of the magistrate authorizing the seizure of the vehicle if all of the following conditions are met:

(1) The legal owner is a motor vehicle dealer, bank, credit union, acceptance corporation, or other licensed financial institution legally operating in this state or is another person, not the registered owner, holding a financial interest in the vehicle.

(2) The legal owner or the legal owner's agent pays all towing and storage fees related to the seizure of the vehicle. A lien sale processing fee shall not be charged to the legal owner who redeems the vehicle prior to the 15th day of impoundment. Neither the impounding authority nor any person having possession of the vehicle shall collect from the legal owner of the type specified in paragraph (1), or the legal owner's agent, any administrative charges imposed pursuant to Section 22850.5 unless the legal owner voluntarily requested a poststorage hearing.

(3) (A) The legal owner or the legal owner's agent presents either lawful foreclosure documents or a certificate of repossession and a security agreement or title showing proof of legal ownership for the vehicle. The documents presented may be originals, photocopies, or facsimile copies, or may be transmitted electronically. The impounding agency may not require any documents to be notarized. The impounding agency may require the agent of the legal owner to produce a photocopy or facsimile copy of its repossession agency license or registration issued

pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code, or to demonstrate, to the satisfaction of the impounding agency, that the agent is exempt from licensure pursuant to Section 7500.2 or 7500.3 of the Business and Professions Code.

(B) No administrative costs authorized under subdivision (a) of Section 22850.5 may be charged to the legal owner of the type specified in paragraph (1), who redeems the vehicle unless the legal owner voluntarily requests a poststorage hearing. No city, county, city and county, or state agency shall require a legal owner or a legal owner's agent to request a poststorage hearing as a requirement for release of the vehicle to the legal owner or the legal owner's agent. The impounding agency may not require any documents other than those specified in this paragraph. The impounding agency may not require any documents to be notarized.

(C) As used in this paragraph, "foreclosure documents" means an "assignment" as that term is defined in subdivision (o) of Section 7500.1 of the Business and Professions Code.

(f) (1) A legal owner or the legal owner's agent that obtains release of the vehicle pursuant to subdivision (e) may not release the vehicle to the registered owner of the vehicle or any agents of the registered owner until the termination of the impoundment period.

(2) The legal owner or the legal owner's agent may not relinquish the vehicle to the registered owner until the registered owner or that owner's agent presents his or her valid driver's license or valid temporary driver's license, and an operator's license that is in compliance with the licensing requirements adopted by the local authority under subdivision (b) of Section 21100, to the legal owner or the legal owner's agent. The legal owner or the legal owner's agent shall make every reasonable effort to ensure that the licenses presented are valid.

(3) Prior to relinquishing the vehicle, the legal owner may require the registered owner to pay all towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 that were incurred by the legal owner in connection with obtaining the custody of the vehicle.

(g) Notwithstanding any other provision of this section, the registered owner and not the legal owner shall remain responsible for any towing and storage charges related to the impoundment and the administrative charges authorized under Section 22850.5 and any parking fines, penalties, and administrative fees incurred by the registered owner.

(h) The impounding agency is not liable to the registered owner for the improper release of the vehicle to the legal owner or the legal owner's agent if the release complies with this section.

(2) The school district certifies that it suffered a loss of enrollment in classes in which the Program to Reduce Class Size in Two Courses in Grade 9 is implemented and this loss of enrollment is due to the October 2007 fires and would result in a decrease in funding that the district receives pursuant to this chapter.

SEC. 2. Section 52124.1 is added to the Education Code, to read:

52124.1. (a) Notwithstanding any other provision of this chapter, a school district located in the County of Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, or Ventura may claim funding pursuant to this chapter for the 2007–08 school year based on enrollment counts before the October 2007 fires, in classes for which the K–3 Class Size Reduction Program is implemented, if the following criteria are met:

(c) This section shall remain in effect only until July 1, 2009, and as of January 1, 2010, is repealed, unless a later enacted statute, that is enacted before January 1, 2010, deletes or extends that date.

SEC. 3. The Legislature hereby finds and declares that due to unique circumstances relating to the Counties of Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

(2) If the dental hygienist in alternative practice provides services to a patient 18 months or more after the first date that he or she provides services to a patient, he or she shall obtain written verification that the patient has been examined by a dentist or physician and surgeon licensed to practice in this state. The verification shall include a prescription for dental hygiene services as described in subdivision (b). Failure to comply

with this paragraph or subdivision (b) shall be considered unprofessional conduct.

(c) The proceedings under this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the committee shall have all the powers granted in that chapter.

1933. A licensee shall be issued a substitute license upon request and payment of the required fee. The request shall be accompanied by an affidavit or declaration containing satisfactory evidence of the loss or destruction of the license certificate.

1934. A licensee who changes his or her address of record shall notify the committee within 30 days of the change. A licensee who changes his or her legal name shall provide the committee with documentation of the change within 10 days.

1935. If not renewed, a license issued under the provisions of this article, unless specifically excepted, expires at 12 midnight on the last day of the month of the legal birth date of the licensee during the second year of a two-year term. To renew an unexpired license, the licensee shall, before the time at which the license would otherwise expire, apply for renewal on a form prescribed by the committee and pay the renewal fee prescribed by this article.

1936. Except as otherwise provided in this article, an expired license may be renewed at any time within five years after its expiration by filing an application for renewal on a form prescribed by the committee and payment of all accrued renewal and delinquency fees. If the license is renewed after its expiration, the licensee, as a condition precedent of renewal, shall also pay the delinquency fee prescribed by this article. Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee, if any, is paid, whichever last occurs. If so renewed, the license shall continue in effect until the expiration date provided in Section 1935 that next occurs after the effective date of the renewal.

1936.1. (a) If the committee determines that the public health and safety would be served by requiring all holders of licenses under this article to continue their education after receiving a license, the committee may require, as a condition of license renewal, that licensees submit assurances satisfactory to the committee that they will, during the succeeding two-year period, inform themselves of the developments in the practice of dental hygiene occurring since the original issuance of their licenses by pursuing one or more courses of study satisfactory to the committee, or by other means deemed equivalent by the committee. The committee shall adopt, amend, and revoke regulations providing

for the suspension of the licenses at the end of the two-year period until compliance with the assurances provided for in this section is accomplished.

(b) The committee may also, as a condition of license renewal, require licensees to successfully complete a portion of the required continuing education hours in specific areas adopted in regulations by the committee. The committee may prescribe this mandatory coursework within the general areas of patient care, health and safety, and law and ethics. The mandatory coursework prescribed by the committee shall not exceed seven and one-half hours per renewal period. Any mandatory coursework required by the committee shall be credited toward the continuing education requirements established by the committee pursuant to subdivision (a).

(c) The providers of courses referred to in this section shall be approved by the committee. Providers approved by the dental board shall be deemed approved by the committee.

1937. A suspended license is subject to expiration and shall be renewed as provided in this article. The renewal does not entitle the licensee, while the license remains suspended and until it is reinstated, to engage in the licensed activity or in any other activity or conduct in violation of the order or judgment by which the license was suspended.

1938. A revoked license is subject to expiration as provided in this article. A revoked license may not be renewed. If it is reinstated after its expiration, the licensee, as a condition precedent to its reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the last regular renewal date before the date on which it is reinstated and the delinquency fee, if any, accrued at the time of its revocation.

1939. A license that is not renewed within five years after its expiration may not be renewed, restored, reinstated, or reissued. The holder of the license may apply for and obtain a new license upon meeting all of the requirements of a new applicant prescribed in this article.

1940. (a) A licensee who desires an inactive license shall submit an application to the committee on a form provided by the committee.

(b) In order to restore an inactive license to active status, the licensee shall submit an application to the committee on a form provided by the committee, accompanied by evidence that the licensee has completed the required number of hours of approved continuing education in compliance with this article within the last two years preceding the date of the application.

(c) The holder of an inactive license shall continue to pay to the committee the required biennial renewal fee.

(d) Within 30 days of receiving a request either to restore an inactive license or to inactivate a license, the committee shall inform the applicant in writing whether the application is complete and accepted for filing or is deficient and, if so, the specific information required to complete the application.

1941. It is the intent of this article that the committee grant or renew approval of only those educational programs for a registered dental hygienist, a registered dental hygienist in alternative practice, or a registered dental hygienist in extended functions that continuously maintain a high quality standard of instruction.

1943. (a) The committee may deny an application to take an examination for licensure as a registered dental hygienist, a registered dental hygienist in alternative practice, or a registered dental hygienist in extended functions at any time prior to licensure for any of the following reasons:

(2) The applicant committed or aided and abetted the commission of any act for which a license is required under this chapter.

(3) Another state or territory suspended or revoked the license that it had issued to the applicant on a ground that constitutes a basis in this state for the suspension or revocation of licensure under this article.

(b) The proceedings under this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the committee shall have all of the powers granted therein.

1944. (a) The committee shall establish by resolution the amount of the fees that relate to the licensing of a registered dental hygienist, a registered dental hygienist in alternative practice, and a registered dental hygienist in extended functions. The fees established by board resolution in effect on June 30, 2009, as they relate to the licensure of registered dental hygienists, registered dental hygienists in alternative practice, and registered dental hygienists in extended functions, shall remain in effect until modified by the committee. (6) The biennial renewal fee shall not exceed eighty dollars ($80).

(7) The delinquency fee shall not exceed twenty-five dollars ($25) or one-half of the renewal fee, whichever is greater. Any delinquent license may be restored only upon payment of all fees, including the delinquency fee, and compliance with all other applicable requirements of this article.

(8) The fee for issuance of a duplicate license to replace one that is lost or destroyed, or in the event of a name change, shall not exceed twenty-five dollars ($25) or one-half of the renewal fee, whichever is greater.

(9) The fee for each curriculum review and site evaluation for educational programs for dental hygienists that are not accredited by a committee-approved agency, the Council for Private Postsecondary and Vocational Education, or the Chancellor's office of the California Community Colleges shall not exceed one thousand four hundred dollars ($1,400).

(12) The amount of fees payable in connection with permits issued under Section 1962 is as follows:

(A) The initial permit fee is an amount equal to the renewal fee for the applicant's license to practice dental hygiene in effect on the last regular renewal date before the date on which the permit is issued.

(B) If the permit will expire less than one year after its issuance, then the initial permit fee is an amount equal to 50 percent of the renewal fee in effect on the last regular renewal date before the date on which the permit is issued.

(b) The renewal and delinquency fees shall be fixed by the committee at not more than the current amount of the renewal fee for a license to practice under this article nor less than five dollars ($5).

(c) Fees fixed by the committee pursuant to this section shall not be subject to the approval of the Office of Administrative Law.

(d) Fees collected pursuant to this section shall be collected by the committee and deposited into the State Dental Hygiene Fund, which is hereby created. All money in this fund shall, upon appropriation by the Legislature in the annual Budget Act, be used to implement the provisions of this article.

(e) No fees or charges other than those listed in this section shall be levied by the committee in connection with the licensure of registered dental hygienists, registered dental hygienists in alternative practice, or registered dental hygienists in extended functions.

1945. On July 1, 2009, a percentage of the funds in the State Dental Auxiliary Fund shall be transferred to the State Dental Hygiene Fund based on the number of registered dental hygienists, registered hygienists in alternative practice, and registered dental hygienists in extended functions licensed on June 30, 2009, compared to all dental auxiliaries licensed by the Committee on Dental Auxiliaries on June 30, 2009. The board's authority to expend those funds, as appropriated in the 2008 Budget Act, shall be vested in the committee to carry out the provisions of this chapter as they relate to dental hygienists for the 2008–09 fiscal year, including the payment of any encumbrances related to dental hygienists, dental hygienists in alternative practice, and dental hygienists in extended functions incurred by the State Dental Auxiliary Fund. (4) A health care facility that fails or refuses to comply with a court order, issued in the enforcement of a subpoena, mandating the release of records to the committee is guilty of a misdemeanor punishable by a fine payable to the committee not to exceed five thousand dollars ($5,000). Any statute of limitations applicable to the filing of an accusation by the committee against a licensee shall be tolled during the period the health care facility is out of compliance with the court order and during any related appeals.

(c) Multiple acts by a licensee in violation of subdivision (b) shall be punishable by a fine not to exceed five thousand dollars ($5,000) or by imprisonment in a county jail not exceeding six months, or by both that fine and imprisonment. Multiple acts by a health care facility in violation of subdivision (b) shall be punishable by a fine not to exceed five thousand dollars ($5,000) and shall be reported to the State Department of Public Health and shall be considered as grounds for disciplinary action with respect to licensure, including suspension or revocation of the license or certificate.

(d) A failure or refusal to comply with a court order issued in the enforcement of a subpoena mandating the release of records to the committee constitutes unprofessional conduct and is grounds for suspension or revocation of his or her license.

1956. It is unprofessional conduct for a person licensed under this article to require, either directly or through an office policy, or knowingly permit the delivery of dental hygiene care that discourages necessary treatment, or permits clearly excessive, incompetent, unnecessary, or grossly negligent treatment, or repeated negligent acts, as determined by the standard of practice in the community.

(g) A petition shall not be considered while the petitioner is under sentence for any criminal offense, including any period during which the petitioner is on court-imposed probation or parole.

(h) A petition shall not be considered while there is an accusation or petition to revoke probation pending against the person.

(i) The committee may deny without a hearing or argument any petition filed pursuant to this section within a period of two years from the effective date of the prior decision following a hearing under this section. Nothing in this section shall be deemed to alter Sections 822 and 823.

1961. A person who willfully, under circumstances that cause risk of bodily harm, serious physical or mental illness, or death, practices, attempts to practice, advertises, or holds himself or herself out as practicing dental hygiene without having at the time of so doing a valid, unrevoked, and unsuspended license as provided in this chapter, is guilty of a crime, punishable by imprisonment in a county jail for up to one year. The remedy provided in this section shall not preclude any other remedy provided by law.

(c) A permit issued under this section shall expire and become invalid unless renewed in the manner provided for in this article for the renewal of certificates issued under this article.

(d) A permit issued under this section may be revoked or suspended if the committee finds that any requirement for original issuance of a permit is no longer being fulfilled by the permitholder. Proceedings for revocation or suspension shall be governed by the Administrative Procedure Act.

(e) If charges of unprofessional conduct are filed against the holder of a permit issued under this section, or a member of an association, partnership, group, or corporation to whom a permit has been issued under this section, proceedings shall not be commenced for revocation or suspension of the permit until a final determination of the charges of unprofessional conduct, unless the charges have resulted in revocation or suspension of a license.

1963. The committee may prefer a complaint for violation of any part of this article before any court of competent jurisdiction and may, by its officers, counsel and agents, assist in presenting the law or facts at the trial. The district attorney of each county in this state shall prosecute all violations of this article in their respective counties in which the violations occur.

1964. In addition to the other proceedings provided for in this article, on application of the committee, the superior court of any county shall issue an injunction to restrain an unlicensed person from conducting the practice of dental hygiene, as defined in this article.

1965. If a person has engaged in or is about to engage in an act that constitutes an offense against this chapter, the superior court of any county, on application of 10 or more persons holding licenses to practice dental hygiene issued under this article, may issue an injunction or other appropriate order restraining that conduct. Proceedings under this section shall be governed by Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure.

1966. (a) It is the intent of the Legislature that the committee seek ways and means to identify and rehabilitate licensees whose competency may be impaired due to abuse of dangerous drugs or alcohol, so that licensees so afflicted may be treated and returned to the practice of dental hygiene in a manner that will not endanger the public health and safety. It is also the intent of the Legislature that the committee establish a

diversion program as a voluntary alternative approach to traditional disciplinary actions.

(b) One or more diversion evaluation committees shall be established by the committee. The committee shall establish criteria for the selection of each diversion evaluation committee. Each member of a diversion evaluation committee shall receive per diem and expenses as provided in Section 103.

1966.1. (a) The committee shall establish criteria for the acceptance, denial, or termination of licensees in a diversion program. Unless ordered by the committee as a condition of a licensee's disciplinary probation, only those licensees who have voluntarily requested diversion treatment and supervision by a diversion evaluation committee shall participate in a diversion program.

(b) A licensee who is not the subject of a current investigation may self-refer to the diversion program on a confidential basis, except as provided in subdivision (f).

(c) A licensee under current investigation by the committee may also request entry into a diversion program by contacting the committee. The committee may refer the licensee requesting participation in the program to a diversion evaluation committee for evaluation of eligibility. Prior to authorizing a licensee to enter into the diversion program, the committee may require the licensee, while under current investigation for any violations of this article or other violations, to execute a statement of understanding that states that the licensee understands that his or her violations of this article or other statutes, that would otherwise be the basis for discipline, may still be investigated and the subject of disciplinary action.

(d) If the reasons for a current investigation of a licensee are based primarily on the self-administration of any controlled substance or dangerous drugs or alcohol under Section 1681, or the illegal possession, prescription, or nonviolent procurement of any controlled substance or dangerous drugs for self-administration that does not involve actual, direct harm to the public, the committee shall close the investigation without further action if the licensee is accepted into the committee's diversion program and successfully completes the requirements of the program. If the licensee withdraws or is terminated from the program by a diversion evaluation committee, the investigation shall be reopened and disciplinary action imposed, if warranted, as determined by the committee.

(e) Neither acceptance nor participation in the diversion program shall preclude the committee from investigating or continuing to investigate, or taking disciplinary action or continuing to take disciplinary action

against, any licensee for any unprofessional conduct committed before, during, or after participation in the diversion program.

(f) All licensees shall sign an agreement of understanding that the withdrawal or termination from the diversion program at a time when a diversion evaluation committee determines the licensee presents a threat to the public's health and safety shall result in the utilization by the committee of diversion treatment records in disciplinary or criminal proceedings.

(g) Any licensee terminated from the diversion program for failure to comply with program requirements is subject to disciplinary action by the committee for acts committed before, during, and after participation in the diversion program. A licensee who has been under investigation by the committee and has been terminated from the diversion program by a diversion evaluation committee shall be reported by the diversion evaluation committee to the committee.

1966.2. Each diversion evaluation committee shall have the following duties and responsibilities:

(a) To evaluate those licensees who request to participate in the diversion program according to the guidelines prescribed by the committee and to consider the recommendations of any licensees designated by the committee to serve as consultants on the admission of the licensee to the diversion program.

(b) To review and designate those treatment facilities to which licensees in a diversion program may be referred.

(c) To receive and review information concerning a licensee participating in the program.

(d) To consider in the case of each licensee participating in a program whether he or she may safely continue or resume the practice of dental hygiene.

(e) To perform other related duties as the committee may by regulation require.

1966.3. Notwithstanding the provisions of Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, relating to public meetings, a diversion evaluation committee may convene in closed session to consider reports pertaining to any licentiate requesting or participating in a diversion program. A diversion evaluation committee shall only convene in closed session to the extent that it is necessary to protect the privacy of a licensee.

1966.4. Each licensee who requests participation in a diversion program shall agree to cooperate with the treatment program designed by a diversion evaluation committee and to bear all costs related to the program, unless the cost is waived by the committee. Any failure to

comply with the provisions of a treatment program may result in termination of the licensee's participation in a program.

1966.5. (a) After a diversion evaluation committee, in its discretion, has determined that a licensee has been rehabilitated and the diversion program is completed, the diversion evaluation committee shall purge and destroy all records pertaining to the licensee's participation in the diversion program.

(b) Except as authorized by subdivision (f) of Section 1966.1, all committee and diversion evaluation committee records and records of proceedings pertaining to the treatment of a licensee in a program shall be kept confidential and are not subject to discovery or subpoena.

1966.6. The committee shall provide for the representation of any person making reports to a diversion evaluation committee or the committee under this article in any action for defamation for reports or information given to the diversion evaluation committee or the committee regarding a licensee's participation in the diversion program.

SEC. 53. The Legislature finds and declares that Section 47 of this act, which adds Article 9 (commencing with Section 1900) to Chapter 4 of Division 2 of the Business and Professions Code, imposes a limitation on the public's right of access to the meetings of public bodies or the writings of public officials and agencies within the meaning of Section 3 of Article I of the California Constitution. Pursuant to that

constitutional provision, the Legislature makes the following findings to demonstrate the interest protected by this limitation and the need for protecting that interest:

In order to encourage participation in a diversion evaluation program that would identify and rehabilitate dental hygiene licensees who may be impaired due to abuse of dangerous drugs or alcohol, in order to protect the public health and safety, it is necessary and appropriate to provide limited confidentiality to ceratin records and proceedings.

SEC. 54. (a) It is the intent of the Legislature that the Committee on Dental Auxiliaries, in cooperation with the Dental Board of California, the Department of Consumer Affairs, and the Department of Finance, carefully review this act and recommend appropriate changes to the fees paid by dental assistants, dental hygienists, dental hygienists in alternative practice, and dental hygienists in extended functions and the funds into which those moneys are deposited. It is further the intent of the Legislature that these recommended changes be submitted to the Legislature with the Governor's 2009 Budget Act.

(b) On July 1, 2009, the executive officer of the Committee on Dental Auxiliaries shall become the executive officer of the Dental Hygiene Committee of California. Beginning January 1, 2009, the executive officer of the Committee on Dental Auxiliaries shall use the six-month period until the Committee on Dental Auxiliaries sunsets to transition the duties of the Committee on Dental Auxiliaries relative to dental hygienists, dental hygienists in alternative practice, and dental hygienists in extended functions.

SEC. 55. This act shall become operative on July 1, 2009, except Section 54, which shall become operative on January 1, 2009.

SEC. 56. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

## CHAPTER 32

An act to amend Section 51241 of the Education Code, relating to physical education.

[Approved by Governor June 23, 2008. Filed with
Secretary of State June 23, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 51241 of the Education Code is amended to read:

51241. (a) The governing board of a school district or the office of the county superintendent of schools of a county may grant a temporary exemption to a pupil from courses in physical education, if the pupil is one of the following:

(1) Ill or injured and a modified program to meet the needs of the pupil cannot be provided.

(2) Enrolled for one-half, or less, of the work normally required of full-time pupils.

(b) (1) The governing board of a school district or the office of the county superintendent of schools of a county, with the consent of a pupil, may grant a pupil an exemption from courses in physical education for two years any time during grades 10 to 12, inclusive, if the pupil has met satisfactorily at least five of the six standards of the physical performance test administered in grade 9 pursuant to Section 60800.

(2) Pursuant to Sections 51210, 51220, and 51222, physical education is required to be offered to all pupils, and, therefore, schools are required to provide adequate facilities and instructional resources for that instruction. In this regard, paragraph (1) shall be implemented in a manner that does not create a new program or impose a higher level of service on a local educational agency. Paragraph (1) does not mandate any overall increase in staffing or instructional time because, pursuant to subdivision (d), pupils are not permitted to attend fewer total hours of class if they do not enroll in physical education. Paragraph (1) does not mandate any new costs because any additional physical education instruction that a local educational agency provides may be accomplished during the existing instructional day, with existing facilities. Paragraph (1) does not prevent a local educational agency from implementing any other temporary or permanent exemption authorized by this section.

(c) The governing board of a school district or the office of the county superintendent of a county may grant permanent exemption from courses in physical education if the pupil complies with any one of the following:

(1) Is 16 years of age or older and has been enrolled in the grade 10 for one academic year or longer.

(2) Is enrolled as a postgraduate pupil.

(3) Is enrolled in a juvenile home, ranch, camp, or forestry camp school where pupils are scheduled for recreation and exercise pursuant

to the requirements of Section 4346 of Title 15 of the California Code of Regulations.

[Approved by Governor June 23, 2008. Filed with Secretary of State June 23, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 101.2 is added to the Business and Professions Code, to read:

101.2. (a) Notwithstanding paragraph (3) of subdivision (b) of Section 101.1, if the Dental Board of California, the Speech-Language Pathology and Audiology Board, the Board of Vocational Nursing and Psychiatric Technicians, or the Board of Barbering and Cosmetology becomes inoperative or is repealed, both of the following shall apply:

(1) The executive officer of the board shall have the same administrative duties with regard to any bureau replacing the board as he or she had with regard to the board, and shall operate under the direction of the Department of Consumer Affairs.

(2) The Governor shall succeed to the authority of the board to appoint an executive officer pursuant to Section 1616.5, 2531.75, 2847, or 7303.5, respectively.

(b) The Department of Consumer Affairs may create an advisory committee for each bureau described in subdivision (a) to advise and direct the bureau's executive officer. An advisory committee created under this subdivision shall consist of the prior members of the board, and the committee shall be subject to the per diem provisions related to the prior board and to all procedural requirements governing the actions of the prior board.

(c) An advisory committee created pursuant to subdivision (b) shall meet as often as is necessary, as determined by that committee.

(d) This section shall remain in effect only until January 1, 2009, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2009, deletes or extends that date.

SEC. 2. Section 490 of the Business and Professions Code is amended to read:

490. (a) In addition to any other action that a board is permitted to take against a licensee, a board may suspend or revoke a license on the ground that the licensee has been convicted of a crime, if the crime is substantially related to the qualifications, functions, or duties of the business or profession for which the license was issued.

(b) Notwithstanding any other provision of law, a board may exercise any authority to discipline a licensee for conviction of a crime that is independent of the authority granted under subdivision (a) only if the crime is substantially related to the qualifications, functions, or duties of the business or profession for which the licensee's license was issued.

(c) A conviction within the meaning of this section means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action that a board is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

(d) The Legislature hereby finds and declares that the application of this section has been made unclear by the holding in Petropoulos v. Department of Real Estate (2006) 142 Cal.App.4th 554, and that the holding in that case has placed a significant number of statutes and regulations in question, resulting in potential harm to the consumers of California from licensees who have been convicted of crimes. Therefore, the Legislature finds and declares that this section establishes an independent basis for a board to impose discipline upon a licensee, and

that the amendments to this section made by Senate Bill 797 of the 2007–08 Regular Session do not constitute a change to, but rather are declaratory of, existing law.

SEC. 3. Section 1616.5 of the Business and Professions Code is amended to read:

1616.5. (a) The board, by and with the approval of the director, may appoint a person exempt from civil service who shall be designated as an executive officer and who shall exercise the powers and perform the duties delegated by the board and vested in him or her by this chapter.

(b) This section shall remain in effect only until January 1, 2012, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2012, deletes or extends that date..

SEC. 4. Section 2006 of the Business and Professions Code is amended to read:

2006. (a) On and after January 1, 2006, any reference in this chapter to an investigation by the board, or one of its divisions, shall be deemed to refer to an investigation directed by employees of the Department of Justice.

(b) This section shall become inoperative on July 1, 2010, and as of January 1, 2011, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2011, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 5. Section 2531.75 of the Business and Professions Code is amended to read:

2531.75. (a) The board may appoint a person exempt from civil service who shall be designated as an executive officer and who shall exercise the powers and perform the duties delegated by the board and vested in him or her by this chapter.

(b) This section shall remain in effect only until January 1, 2012, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2012, deletes or extends that date.

SEC. 6. Section 2847 of the Business and Professions Code is amended to read:

2847. (a) The board may select an executive officer who shall perform duties as are delegated by the board and who shall be responsible to it for the accomplishment of those duties.

(b) The person selected to be the executive officer of the board shall be a duly licensed vocational nurse under this chapter, a duly licensed professional nurse as defined in Section 2725, or a duly licensed psychiatric technician. The executive officer shall not be a member of the board.

(c) With the approval of the Director of Finance, the board shall fix the salary of the executive officer.

(d) The executive officer shall be entitled to traveling and other necessary expenses in the performance of his or her duties. He or she shall make a statement, certified before a duly authorized person, that the expenses have been actually incurred.

(e) This section shall remain in effect only until January 1, 2012, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2012, deletes or extends that date.

SEC. 7. Section 3041.3 of the Business and Professions Code is amended to read:

3041.3. (a) In order to be certified to use therapeutic pharmaceutical agents and authorized to diagnose and treat the conditions listed in subdivisions (b), (d), and (e) of Section 3041, an optometrist shall apply for a certificate from the board and meet all requirements imposed by the board.

(b) The board shall grant a certificate to use therapeutic pharmaceutical agents to any applicant who graduated from a California accredited school of optometry prior to January 1, 1996, is licensed as an optometrist in California, and meets all of the following requirements:

The individual serving as the preceptor shall schedule no more than three optometrist applicants for each of the required 65 hours of the preceptorship program. This paragraph shall not be construed to limit the total number of optometrist applicants for whom an individual may serve as a preceptor, and is intended only to ensure the quality of the preceptorship by requiring that the ophthalmologist preceptor schedule the training so that each applicant optometrist completes each of the 65 hours of the preceptorship while scheduled with no more than two other optometrist applicants.

(3) Successfully completes a minimum of 20 hours of self-directed education.

(4) Passes the National Board of Examiners in Optometry's "Treatment and Management of Ocular Disease" examination or, in the event this examination is no longer offered, its equivalent, as determined by the State Board of Optometry.

(5) Passes the examination issued upon completion of the 80-hour didactic course required under paragraph (1) and provided by the accredited school of optometry or residency program in ophthalmology.

(6) When any or all of the requirements contained in paragraph (1), (4), or (5) have been satisfied on or after July 1, 1992, and before January 1, 1996, an optometrist shall not be required to fulfill the satisfied requirements in order to obtain certification to use therapeutic pharmaceutical agents. In order for this paragraph to apply to the requirement contained in paragraph (5), the didactic examination that the applicant successfully completed shall meet equivalency standards, as determined by the board.

(7) Any optometrist who graduated from an accredited school of optometry on or after January 1, 1992, and before January 1, 1996, shall not be required to fulfill the requirements contained in paragraphs (1), (4), and (5).

(4) Is certified by an accredited school of optometry as having completed at least 10 hours of experience with a board-certified ophthalmologist.

(d) The board shall grant a certificate to use therapeutic pharmaceutical agents to any applicant who is an optometrist who obtained his or her license outside of California if he or she meets all of the requirements for an optometrist licensed in California to be certified to use therapeutic pharmaceutical agents.

(1) In order to obtain a certificate to use therapeutic pharmaceutical agents, any optometrist who obtained his or her license outside of California and graduated from an accredited school of optometry prior to January 1, 1996, shall be required to fulfill the requirements set forth in subdivision (b). In order for the applicant to be eligible for the certificate to use therapeutic pharmaceutical agents, the education he or she received at the accredited out-of-state school of optometry shall be equivalent to the education provided by any accredited school of optometry in California for persons who graduate before January 1, 1996. For those out-of-state applicants who request that any of the requirements contained in subdivision (b) be waived based on fulfillment of the requirement in another state, if the board determines that the completed requirement was equivalent to that required in California, the requirement shall be waived.

(2) In order to obtain a certificate to use therapeutic pharmaceutical agents, any optometrist who obtained his or her license outside of California and who graduated from an accredited school of optometry on or after January 1, 1996, shall be required to fulfill the requirements set forth in subdivision (c). In order for the applicant to be eligible for the certificate to use therapeutic pharmaceutical agents, the education he or she received by the accredited out-of-state school of optometry shall be equivalent to the education provided by any accredited school of optometry for persons who graduate on or after January 1, 1996. (3) The State Board of Optometry shall decide all issues relating to the equivalency of an optometrist's education or training under this subdivision.

SEC. 8. Section 4982 of the Business and Professions Code is amended to read:

(a) The conviction of a crime substantially related to the qualifications, functions, or duties of a licensee or registrant under this chapter. The record of conviction shall be conclusive evidence only of the fact that the conviction occurred. The board may inquire into the circumstances surrounding the commission of the crime in order to fix the degree of discipline or to determine if the conviction is substantially related to the

qualifications, functions, or duties of a licensee or registrant under this chapter. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge substantially related to the qualifications, functions, or duties of a licensee or registrant under this chapter shall be deemed to be a conviction within the meaning of this section. The board may order any license or registration suspended or revoked, or may decline to issue a license or registration when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or, when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under Section 1203.4 of the Penal Code allowing the person to withdraw a plea of guilty and enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

(b) Securing a license or registration by fraud, deceit, or misrepresentation on any application for licensure or registration submitted to the board, whether engaged in by an applicant for a license or registration, or by a licensee in support of any application for licensure or registration.

(c) Administering to himself or herself any controlled substance or using of any of the dangerous drugs specified in Section 4022, or of any alcoholic beverage to the extent, or in a manner, as to be dangerous or injurious to the person applying for a registration or license or holding a registration or license under this chapter, or to any other person, or to the public, or, to the extent that the use impairs the ability of the person applying for or holding a registration or license to conduct with safety to the public the practice authorized by the registration or license, or the conviction of more than one misdemeanor or any felony involving the use, consumption, or self-administration of any of the substances referred to in this subdivision, or any combination thereof. The board shall deny an application for a registration or license or revoke the license or registration of any person, other than one who is licensed as a physician and surgeon, who uses or offers to use drugs in the course of performing marriage and family therapy services.

(d) Gross negligence or incompetence in the performance of marriage and family therapy.

(e) Violating, attempting to violate, or conspiring to violate any of the provisions of this chapter or any regulation adopted by the board.

(f) Misrepresentation as to the type or status of a license or registration held by the person, or otherwise misrepresenting or permitting misrepresentation of his or her education, professional qualifications, or professional affiliations to any person or entity.

(g) Impersonation of another by any licensee, registrant, or applicant for a license or registration, or, in the case of a licensee, allowing any other person to use his or her license or registration.

(m) Failure to maintain confidentiality, except as otherwise required or permitted by law, of all information that has been received from a client in confidence during the course of treatment and all information about the client that is obtained from tests or other means.

(n) Prior to the commencement of treatment, failing to disclose to the client or prospective client the fee to be charged for the professional services, or the basis upon which that fee will be computed.

(o) Paying, accepting, or soliciting any consideration, compensation, or remuneration, whether monetary or otherwise, for the referral of professional clients. All consideration, compensation, or remuneration shall be in relation to professional counseling services actually provided by the licensee. Nothing in this subdivision shall prevent collaboration among two or more licensees in a case or cases. However, no fee shall be charged for that collaboration, except when disclosure of the fee has been made in compliance with subdivision (n).

(p) Advertising in a manner that is false, misleading, or deceptive.

(q) Reproduction or description in public, or in any publication subject to general public distribution, of any psychological test or other assessment device, the value of which depends in whole or in part on the naivete of the subject, in ways that might invalidate the test or device.

An act described in this subdivision occurring prior to the effective date of this subdivision shall constitute unprofessional conduct and shall subject the licensee to refusal, suspension, or revocation of a license under this section.

(2) The Legislature hereby finds and declares that protection of the public, and in particular minors, from sexual misconduct by a licensee is a compelling governmental interest, and that the ability to suspend or revoke a license for sexual conduct with a minor occurring prior to the effective date of this section is equally important to protecting the public as is the ability to refuse a license for sexual conduct with a minor occurring prior to the effective date of this section.

SEC. 9. Section 4989.54 of the Business and Professions Code is amended to read:

4989.54. The board may deny a license or may suspend or revoke the license of a licensee if he or she has been guilty of unprofessional conduct. Unprofessional conduct includes, but is not limited to, the following:

(1) The record of conviction shall be conclusive evidence only of the fact that the conviction occurred.

(3) A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge substantially related to the qualifications, functions, or duties of a licensee under this chapter shall be deemed to be a conviction within the meaning of this section.

(4) The board may order a license suspended or revoked, or may decline to issue a license when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under Section 1203.4 of the Penal Code allowing the person to withdraw a plea of guilty and enter a plea of not guilty or setting aside the verdict of guilty or dismissing the accusation, information, or indictment.

(b) Securing a license by fraud, deceit, or misrepresentation on an application for licensure submitted to the board, whether engaged in by an applicant for a license or by a licensee in support of an application for licensure.

(c) Administering to himself or herself a controlled substance or using any of the dangerous drugs specified in Section 4022 or an alcoholic beverage to the extent, or in a manner, as to be dangerous or injurious to himself or herself or to any other person or to the public or to the extent that the use impairs his or her ability to safely perform the functions authorized by the license.

(m) Intentionally or recklessly causing physical or emotional harm to any client.

(n) Engaging in sexual relations with a client or a former client within two years following termination of professional services, soliciting sexual relations with a client, or committing an act of sexual abuse or sexual misconduct with a client or committing an act punishable as a sexually related crime, if that act or solicitation is substantially related to the qualifications, functions, or duties of a licensed educational psychologist.

(o) Prior to the commencement of treatment, failing to disclose to the client or prospective client the fee to be charged for the professional services or the basis upon which that fee will be computed.

(w) Failing to comply with the elder and adult dependent abuse reporting requirements of Section 15630 of the Welfare and Institutions Code.

(x) Willful violation of Chapter 1 (commencing with Section 123100) of Part 1 of Division 106 of the Health and Safety Code.

(y) (1) Engaging in an act described in Section 261, 286, 288a, or 289 of the Penal Code with a minor or an act described in Section 288 or 288.5 of the Penal Code regardless of whether the act occurred prior to or after the time the registration or license was issued by the board. An act described in this subdivision occurring prior to the effective date of this subdivision shall constitute unprofessional conduct and shall subject the licensee to refusal, suspension, or revocation of a license under this section.

(2) The Legislature hereby finds and declares that protection of the public, and in particular minors, from sexual misconduct by a licensee is a compelling governmental interest, and that the ability to suspend or revoke a license for sexual conduct with a minor occurring prior to the effective date of this section is equally important to protecting the public as is the ability to refuse a license for sexual conduct with a minor occurring prior to the effective date of this section.

SEC. 10. Section 4990.32 of the Business and Professions Code is amended to read:

4990.32. (a) Except as otherwise provided in this section, an accusation filed pursuant to Section 11503 of the Government Code against a licensee or registrant under the chapters the board administers and enforces shall be filed within three years from the date the board discovers the alleged act or omission that is the basis for disciplinary action or within seven years from the date the alleged act or omission that is the basis for disciplinary action occurred, whichever occurs first.

(b) An accusation filed against a licensee alleging the procurement of a license by fraud or misrepresentation is not subject to the limitations set forth in subdivision (a).

(c) The limitations period provided by subdivision (a) shall be tolled for the length of time required to obtain compliance when a report required to be filed by the licensee or registrant with the board pursuant to Article 11 (commencing with Section 800) of Chapter 1 is not filed in a timely fashion.

(d) An accusation alleging sexual misconduct shall be filed within three years after the board discovers the act or omission alleged as the grounds for disciplinary action or within 10 years after the act or omission alleged as the grounds for disciplinary action occurred, whichever occurs first. This subdivision shall apply to a complaint alleging sexual misconduct received by the board on and after January 1, 2002.

(e) If an alleged act or omission involves a minor, the seven-year limitations period provided for by subdivision (a) and the 10-year limitations period provided for by subdivision (d) shall be tolled until the minor reaches the age of majority. However, if the board discovers an alleged act of sexual contact with a minor under Section 261, 286, 288, 288.5, 288a, or 289 of the Penal Code after the limitations periods described in this subdivision have otherwise expired, and there is independent evidence that corroborates the allegation, an accusation shall be filed within three years from the date the board discovers that alleged act.

(f) The limitations period provided by subdivision (a) shall be tolled during any period if material evidence necessary for prosecuting or determining whether a disciplinary action would be appropriate is unavailable to the board due to an ongoing criminal investigation.

(g) For purposes of this section, "discovers" means the latest of the occurrence of any of the following with respect to each act or omission alleged as the basis for disciplinary action:

(1) The date the board received a complaint or report describing the act or omission.

SEC. 11. Section 4992.3 of the Business and Professions Code is amended to read:

4992.3. The board may deny a license or a registration, or may suspend or revoke the license or registration of a licensee or registrant if he or she has been guilty of unprofessional conduct. Unprofessional conduct includes, but is not limited to, the following:

(a) The conviction of a crime substantially related to the qualifications, functions, or duties of a licensee or registrant under this chapter. The

record of conviction shall be conclusive evidence only of the fact that the conviction occurred. The board may inquire into the circumstances surrounding the commission of the crime in order to fix the degree of discipline or to determine if the conviction is substantially related to the qualifications, functions, or duties of a licensee or registrant under this chapter. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge substantially related to the qualifications, functions, or duties of a licensee or registrant under this chapter is a conviction within the meaning of this section. The board may order any license or registration suspended or revoked, or may decline to issue a license or registration when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or, when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under Section 1203.4 of the Penal Code allowing the person to withdraw a plea of guilty and enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

(b) Securing a license or registration by fraud, deceit, or misrepresentation on any application for licensure or registration submitted to the board, whether engaged in by an applicant for a license or registration, or by a licensee in support of any application for licensure or registration.

(c) Administering to himself or herself any controlled substance or using any of the dangerous drugs specified in Section 4022 or any alcoholic beverage to the extent, or in a manner, as to be dangerous or injurious to the person applying for a registration or license or holding a registration or license under this chapter, or to any other person, or to the public, or, to the extent that the use impairs the ability of the person applying for or holding a registration or license to conduct with safety to the public the practice authorized by the registration or license, or the conviction of more than one misdemeanor or any felony involving the use, consumption, or self-administration of any of the substances referred to in this subdivision, or any combination thereof. The board shall deny an application for a registration or license or revoke the license or registration of any person who uses or offers to use drugs in the course of performing clinical social work. This provision does not apply to any person also licensed as a physician and surgeon under Chapter 5 (commencing with Section 2000) or the Osteopathic Act who lawfully prescribes drugs to a patient under his or her care.

(d) Gross negligence or incompetence in the performance of clinical social work.

(e) Violating, attempting to violate, or conspiring to violate this chapter or any regulation adopted by the board.

[Approved by Governor June 25, 2008. Filed with Secretary of State June 25, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 186.22a of the Penal Code is amended to read:

186.22a. (a) Every building or place used by members of a criminal street gang for the purpose of the commission of the offenses listed in subdivision (e) of Section 186.22 or any offense involving dangerous or deadly weapons, burglary, or rape, and every building or place wherein or upon which that criminal conduct by gang members takes place, is a nuisance which shall be enjoined, abated, and prevented, and for which damages may be recovered, whether it is a public or private nuisance.

(b) Any action for injunction or abatement filed pursuant to subdivision (a), including an action filed by the Attorney General, shall proceed according to the provisions of Article 3 (commencing with Section 11570) of Chapter 10 of Division 10 of the Health and Safety Code, except that all of the following shall apply:

(1) The court shall not assess a civil penalty against any person unless that person knew or should have known of the unlawful acts.

(2) No order of eviction or closure may be entered.

(3) All injunctions issued shall be limited to those necessary to protect the health and safety of the residents or the public or those necessary to prevent further criminal activity.

(4) Suit may not be filed until 30-day notice of the unlawful use or criminal conduct has been provided to the owner by mail, return receipt requested, postage prepaid, to the last known address.

(c) Whenever an injunction is issued pursuant to subdivision (a), or Section 3479 of the Civil Code, to abate gang activity constituting a nuisance, the Attorney General or any district attorney or any prosecuting city attorney may maintain an action for money damages on behalf of the community or neighborhood injured by that nuisance. Any money damages awarded shall be paid by or collected from assets of the criminal street gang or its members. Only members of the criminal street gang who created, maintained, or contributed to the creation or maintenance of the nuisance shall be personally liable for the payment of the damages awarded. In a civil action for damages brought pursuant to this

subdivision, the Attorney General, district attorney, or city attorney may use, but is not limited to the use of, the testimony of experts to establish damages suffered by the community or neighborhood injured by the nuisance. The damages recovered pursuant to this subdivision shall be deposited into a separate segregated fund for payment to the governing body of the city or county in whose political subdivision the community or neighborhood is located, and that governing body shall use those assets solely for the benefit of the community or neighborhood that has been injured by the nuisance.

(d) No nonprofit or charitable organization which is conducting its affairs with ordinary care or skill, and no governmental entity, shall be abated pursuant to subdivisions (a) and (b).

(e) Nothing in this chapter shall preclude any aggrieved person from seeking any other remedy provided by law.

(3) No firearm, ammunition, or deadly weapon shall be sold or destroyed unless reasonable notice is given to its lawful owner if his or her identity and address can be reasonably ascertained. The law enforcement agency shall inform the lawful owner, at that person's last known address by registered mail, that he or she has 30 days from the date of receipt of the notice to respond to the court clerk to confirm his or her desire for a hearing and that the failure to respond shall result in a default order forfeiting the confiscated firearm, ammunition, or deadly weapon as a nuisance.

(4) If the person requests a hearing, the court clerk shall set a hearing no later than 30 days from receipt of that request. The court clerk shall notify the person, the law enforcement agency involved, and the district attorney of the date, time, and place of the hearing.

(5) At the hearing, the burden of proof is upon the law enforcement agency or peace officer to show by a preponderance of the evidence that the seized item is or will be used in criminal street gang activity or that

return of the item would be likely to result in endangering the safety of others. All returns of firearms shall be subject to Section 12021.3.

(6) If the person does not request a hearing within 30 days of the notice or the lawful owner cannot be ascertained, the law enforcement agency may file a petition that the confiscated firearm, ammunition, or deadly weapon be declared a nuisance. If the items are declared to be a nuisance, the law enforcement agency shall dispose of the items as provided in Section 12028.

[Approved by Governor June 30, 2008. Filed with Secretary of State June 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and hereby declares that it is necessary to expedite the funding of eligible applications for regional planning, housing, and infill incentive programs and the Transit-Oriented Development Implementation Program that are funded under the Housing and Emergency Shelter Trust Fund Act of 2006, in order to address the state's pressing housing and infrastructure needs and stimulate the economy. Furthermore, the Legislature finds and declares that it is necessary to expedite the funding to eligible applicants from specified funds contained in the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, in order to improve the condition and safety of neighborhood streets and roads, and to improve traffic congestion, safety, and air quality at locations where roads and highways intersect with railroad crossings at grade. The combined effects of the infrastructure improvements funded pursuant to this act will be more housing that is closer to jobs; shorter, faster, and safer commutes with improved air quality; and a commensurate reduction in energy usage.

Towards this end, the following amounts are appropriated from the following accounts for the following purposes:

(a) The sum of one hundred million dollars ($100,000,000) is hereby appropriated to the Department of Housing and Community Development from the Regional Planning, Housing, and Infill Incentive Account established in the Housing and Emergency Shelter Trust Fund of 2006 under subdivision (b) of Section 53545 of the Health and Safety Code, for the purposes of augmenting the Infill Infrastructure Grant Program Notice of Funding Availability issued by that department on February 28, 2008, and for associated support costs.

(b) The sum of fifty million dollars ($50,000,000) is hereby appropriated to the Department of Housing and Community Development from the Transit-Oriented Development Account established in the Housing and Emergency Shelter Trust Fund of 2006 under subdivision (c) of Section 53545 of the Health and Safety Code, for the purposes of augmenting the Transit-Oriented Development Grant Program Notice of Funding Availability issued by that department on December 7, 2007, and for associated support costs.

(c) The sum of sixty-three million dollars ($63,000,000) is hereby appropriated from the Highway-Railroad Crossing Safety Account established pursuant to subdivision (j) of Section 8879.23 of the Government Code, for allocation to the department and other eligible applicants consistent with Section 8879.63 of the Government Code and guidelines adopted by the California Transportation Commission pursuant to that section. These funds are appropriated for purposes of augmenting the amount appropriated in Item 2660-104-6063 of Section 2 of the Budget Act of 2007.

(d) The sum of eighty-seven million dollars ($87,000,000) is hereby appropriated from the Local Streets and Road Improvement, Congestion Relief, and Traffic Safety Account of 2006, established pursuant to subdivision (*l*) of Section 8879.23 of the Government Code, for allocation to counties pursuant to subparagraph (A) of paragraph (1) of subdivision (*l*) of Section 8879.23 of the Government Code for purposes of augmenting the amount appropriated in Item 9350-104-6065 of Section 2 of the Budget Act of 2007.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make available, at the earliest possible time, funds to address the state's pressing need for affordable housing and transportation infrastructure to remedy the need for housing options that are located closer to workers' jobs and to improve related transportation facilities

and options to shorten commutes and make existing trips faster, safer, and more economical, and to stimulate the economy, it is necessary that this act take effect immediately.

## CHAPTER 40

An act to amend Section 714 of the Civil Code, relating to common interest developments.

[Approved by Governor June 30, 2008. Filed with Secretary of State June 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 714 of the Civil Code is amended to read:

714. (a) Any covenant, restriction, or condition contained in any deed, contract, security instrument, or other instrument affecting the transfer or sale of, or any interest in, real property, and any provision of a governing document, as defined in subdivision (j) of Section 1351, that effectively prohibits or restricts the installation or use of a solar energy system is void and unenforceable.

(b) This section does not apply to provisions that impose reasonable restrictions on solar energy systems. However, it is the policy of the state to promote and encourage the use of solar energy systems and to remove obstacles thereto. Accordingly, reasonable restrictions on a solar energy system are those restrictions that do not significantly increase the cost of the system or significantly decrease its efficiency or specified performance, or that allow for an alternative system of comparable cost, efficiency, and energy conservation benefits.

(c) (1) A solar energy system shall meet applicable health and safety standards and requirements imposed by state and local permitting authorities.

(2) A solar energy system for heating water shall be certified by the Solar Rating Certification Corporation (SRCC) or other nationally recognized certification agencies. SRCC is a nonprofit third party supported by the United States Department of Energy. The certification shall be for the entire solar energy system and installation.

(3) A solar energy system for producing electricity shall also meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters

Laboratories and, where applicable, rules of the Public Utilities Commission regarding safety and reliability.

(d) For the purposes of this section:

(1) (A) For solar domestic water heating systems or solar swimming pool heating systems that comply with state and federal law, "significantly" means an amount exceeding 20 percent of the cost of the system or decreasing the efficiency of the solar energy system by an amount exceeding 20 percent, as originally specified and proposed.

(B) For photovoltaic systems that comply with state and federal law, "significantly" means an amount not to exceed two thousand dollars ($2,000) over the system cost as originally specified and proposed, or a decrease in system efficiency of an amount exceeding 20 percent as originally specified and proposed.

(2) "Solar energy system" has the same meaning as defined in paragraphs (1) and (2) of subdivision (a) of Section 801.5.

(e) Whenever approval is required for the installation or use of a solar energy system, the application for approval shall be processed and approved by the appropriate approving entity in the same manner as an application for approval of an architectural modification to the property, and shall not be willfully avoided or delayed.

(f) Any entity, other than a public entity, that willfully violates this section shall be liable to the applicant or other party for actual damages occasioned thereby, and shall pay a civil penalty to the applicant or other party in an amount not to exceed one thousand dollars ($1,000).

(g) In any action to enforce compliance with this section, the prevailing party shall be awarded reasonable attorney's fees.

(h) (1) A public entity that fails to comply with this section may not receive funds from a state-sponsored grant or loan program for solar energy. A public entity shall certify its compliance with the requirements of this section when applying for funds from a state-sponsored grant or loan program.

(2) A local public entity may not exempt residents in its jurisdiction from the requirements of this section.

or alleged rape or crime against nature; deaths in prison or while under sentence; deaths known or suspected as due to contagious disease and constituting a public hazard; deaths from occupational diseases or occupational hazards; deaths of patients in state mental hospitals serving the mentally disabled and operated by the State Department of Mental Health; deaths of patients in state hospitals serving the developmentally disabled and operated by the State Department of Developmental Services; deaths under such circumstances as to afford a reasonable ground to suspect that the death was caused by the criminal act of another; and any deaths reported by physicians or other persons having knowledge of death for inquiry by coroner. Inquiry pursuant to this section does not include those investigative functions usually performed by other law enforcement agencies.

In any case in which the coroner conducts an inquiry pursuant to this section, the coroner or a deputy shall personally sign the certificate of death. If the death occurred in a state hospital, the coroner shall forward a copy of his or her report to the state agency responsible for the state hospital.

The coroner shall have discretion to determine the extent of inquiry to be made into any death occurring under natural circumstances and falling within the provisions of this section, and if inquiry determines that the physician of record has sufficient knowledge to reasonably state the cause of a death occurring under natural circumstances, the coroner may authorize that physician to sign the certificate of death.

For the purpose of inquiry, the coroner shall have the right to exhume the body of a deceased person when necessary to discharge the responsibilities set forth in this section.

Any funeral director, physician, or other person who has charge of a deceased person's body, when death occurred as a result of any of the causes or circumstances described in this section, shall immediately notify the coroner. Any person who does not notify the coroner as required by this section is guilty of a misdemeanor.

SEC. 2. Section 27520 of the Government Code is amended to read:

27520. (a) The coroner shall perform or cause to be performed an autopsy on a decedent, for which an autopsy has not already been performed, if the surviving spouse requests him to do so in writing. If there is no surviving spouse, the coroner shall perform the autopsy if requested to do so in writing by a surviving child or parent, or if there is no surviving child or parent, by the next of kin of the deceased.

(b) The coroner may perform or cause to be performed an autopsy on a decedent, for which an autopsy has already been performed, if the surviving spouse requests him to do so in writing. If there is no surviving spouse, the coroner may perform the autopsy if requested to do so in

writing by a surviving child or parent, or if there is no surviving child or parent, by the next of kin of the deceased.

(c) The cost of an autopsy requested pursuant to either subdivision (a) or (b) shall be borne by the person requesting that it be performed.

## CHAPTER 46

An act to amend Section 8514 of the Business and Professions Code, relating to pest control.

[Approved by Governor June 30, 2008. Filed with Secretary of State June 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 8514 of the Business and Professions Code is amended to read:

8514. No registered company shall commence work on a contract, or sign, issue, or deliver any documents expressing an opinion or statement relating to the control of household pests, or wood destroying pests or organisms until an inspection has been made.

Notwithstanding any provision of this chapter, after an inspection has been made, a registered company which holds a branch registration for the control of household pests, or wood destroying pests or organisms, but its branch registration restricts the method of eradication or control permitted, may recommend and enter into a contract for the eradication or control of pests within the scope of its branch registration, provided that it subcontracts in writing the actual performance of the work to a registered company which holds a branch registration authorizing the particular method to be used.

A registered company may in writing subcontract any pest control work for which it is registered in any branch or branches to a registered company holding a valid branch registration to do such work.

Nothing in this chapter shall be construed to prohibit a registered company or the consumer from subcontracting with a licensed contractor to do any work authorized under Section 8556.

A registered company shall not subcontract structural fumigation work, as permitted in this section, without the written consent of the consumer. The consumer must be informed in advance, in writing, of any proposed work which the registered company intends to subcontract and of the consumer's right to select another person or entity of the consumer's choosing to perform the work. The consumer may authorize the

subcontracting of the work as proposed or may contract directly with another registered company licensed to perform the work. Nothing in this paragraph shall be construed to eliminate any otherwise applicable licensure requirements, nor permit a licensed contractor to perform any work beyond that authorized by Section 8556.

Nothing herein contained shall permit or authorize a registered company to perform, attempt to perform, advertise or hold out to the public or to any person that it is authorized, qualified, or registered to perform, pest control work in a branch, or by a method, for which it is not registered, except that a Branch 2 or Branch 3 registered company may advertise fumigation or any all encompassing treatment described in paragraph (8) of subdivision (a) of Section 1991 of Title 16 of the California Code of Regulations if the company complies with the requirements of this section.

Subcontracting of work, as permitted herein, shall not relieve the prime contractor or the subcontractor from responsibility for, or from disciplinary action because of, an act or omission on its part, which would otherwise be a ground for disciplinary action. However, the registered company making the initial proposal including proposed work that the registered company intends to subcontract shall not be subject to disciplinary action or otherwise responsible for an act or omission in the performance of the work that the consumer directly contracts with another registered company to perform, as permitted by this section.

## CHAPTER 47

An act to amend Section 786 of the Penal Code, relating to crime.

[Approved by Governor July 1, 2008. Filed with Secretary of State July 1, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 786 of the Penal Code is amended to read:

786. (a) When property taken in one jurisdictional territory by burglary, carjacking, robbery, theft, or embezzlement has been brought into another, or when property is received in one jurisdictional territory with the knowledge that it has been stolen or embezzled and the property was stolen or embezzled in another jurisdictional territory, the jurisdiction of the offense is in any competent court within either jurisdictional territory, or any contiguous jurisdictional territory if the arrest is made within the contiguous territory, the prosecution secures on the record

the defendant's knowing, voluntary, and intelligent waiver of the right of vicinage, and the defendant is charged with one or more property crimes in the arresting territory.

(b) (1) The jurisdiction of a criminal action for unauthorized use, retention, or transfer of personal identifying information, as defined in subdivision (b) of Section 530.55, shall also include the county where the theft of the personal identifying information occurred, the county in which the victim resided at the time the offense was committed, or the county where the information was used for an illegal purpose. If multiple offenses of unauthorized use of personal identifying information, all involving the same defendant or defendants and the same personal identifying information belonging to the one person, occur in multiple jurisdictions, any one of those jurisdictions is a proper jurisdiction for all of the offenses.

(2) When charges alleging multiple offenses of unauthorized use of personal identifying information occurring in multiple territorial jurisdictions are filed in one county pursuant to this section, the court shall hold a hearing to consider whether the matter should proceed in the county of filing, or whether one or more counts should be severed. The district attorney filing the complaint shall present evidence to the court that the district attorney in each county where any of the charges could have been filed has agreed that the matter should proceed in the county of filing. In determining whether all counts in the complaint should be joined in one county for prosecution, the court shall consider the location and complexity of the likely evidence, where the majority of the offenses occurred, the rights of the defendant and the people, and the convenience of, or hardship to, the victim and witnesses.

(3) When an action for unauthorized use, retention, or transfer of personal identifying information is filed in the county in which the victim resided at the time the offense was committed, and no other basis for the jurisdiction applies, the court, upon its own motion or the motion of the defendant, shall hold a hearing to determine whether the county of the victim's residence is the proper venue for trial of the case. In ruling on the matter, the court shall consider the rights of the parties, the access of the parties to evidence, the convenience to witnesses, and the interests of justice.

(c) This section shall not be interpreted to alter victims' rights under Section 530.6.

# CHAPTER 48

An act to amend Section 868.5 of the Penal Code, relating to witness testimony.

[Approved by Governor July 1, 2008. Filed with Secretary of State July 1, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 868.5 of the Penal Code is amended to read:

868.5. (a) Notwithstanding any other law, a prosecuting witness in a case involving a violation of Section 187, 203, 205, 207, 211, 215, 220, 240, 242, 243.4, 245, 261, 262, 273a, 273d, 273.5, 273.6, 278, 278.5, 285, 286, 288, 288a, 288.5, 289, or 647.6, former Section 277 or 647a, subdivision (1) of Section 314, or subdivision (b), (d), or (e) of Section 368 when the prosecuting witness is the elder or dependent adult, shall be entitled, for support, to the attendance of up to two persons of his or her own choosing, one of whom may be a witness, at the preliminary hearing and at the trial, or at a juvenile court proceeding, during the testimony of the prosecuting witness. Only one of those support persons may accompany the witness to the witness stand, although the other may remain in the courtroom during the witness' testimony. The person or persons so chosen shall not be a person described in Section 1070 of the Evidence Code unless the person or persons are related to the prosecuting witness as a parent, guardian, or sibling and do not make notes during the hearing or proceeding.

(b) If the person or persons so chosen are also witnesses, the prosecution shall present evidence that the person's attendance is both desired by the prosecuting witness for support and will be helpful to the prosecuting witness. Upon that showing, the court shall grant the request unless information presented by the defendant or noticed by the court establishes that the support person's attendance during the testimony of the prosecuting witness would pose a substantial risk of influencing or affecting the content of that testimony. In the case of a juvenile court proceeding, the judge shall inform the support person or persons that juvenile court proceedings are confidential and may not be discussed with anyone not in attendance at the proceedings. In all cases, the judge shall admonish the support person or persons to not prompt, sway, or influence the witness in any way. Nothing in this section shall preclude a court from exercising its discretion to remove a person from the courtroom whom it believes is prompting, swaying, or influencing the witness.

(c) The testimony of the person or persons so chosen who are also witnesses shall be presented before the testimony of the prosecuting witness. The prosecuting witness shall be excluded from the courtroom during that testimony. Whenever the evidence given by that person or those persons would be subject to exclusion because it has been given before the corpus delicti has been established, the evidence shall be admitted subject to the court's or the defendant's motion to strike that evidence from the record if the corpus delicti is not later established by the testimony of the prosecuting witness.

## CHAPTER 57

An act to amend Section 3041.5 of the Family Code, relating to child custody.

[Approved by Governor July 1, 2008. Filed with Secretary of State July 1, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 3041.5 of the Family Code is amended to read:

3041.5. (a) In any custody or visitation proceeding brought under this part, as described in Section 3021, or any guardianship proceeding brought under the Probate Code, the court may order any person who is seeking custody of, or visitation with, a child who is the subject of the proceeding to undergo testing for the illegal use of controlled substances and the use of alcohol if there is a judicial determination based upon a preponderance of evidence that there is the habitual, frequent, or continual illegal use of controlled substances or the habitual or continual abuse of alcohol by the parent, legal custodian, person seeking guardianship, or person seeking visitation in a guardianship. This evidence may include, but may not be limited to, a conviction within the last five years for the illegal use or possession of a controlled substance. The court shall order the least intrusive method of testing for the illegal use of controlled substances or the habitual or continual abuse of alcohol by either or both parents, the legal custodian, person seeking guardianship, or person seeking visitation in a guardianship. If substance abuse testing is ordered

by the court, the testing shall be performed in conformance with procedures and standards established by the United States Department of Health and Human Services for drug testing of federal employees. The parent, legal custodian, person seeking guardianship, or person seeking visitation in a guardianship who has undergone drug testing shall have the right to a hearing, if requested, to challenge a positive test result. A positive test result, even if challenged and upheld, shall not, by itself, constitute grounds for an adverse custody or guardianship decision. Determining the best interests of the child requires weighing all relevant factors. The court shall also consider any reports provided to the court pursuant to the Probate Code. The results of this testing shall be confidential, shall be maintained as a sealed record in the court file, and may not be released to any person except the court, the parties, their attorneys, the Judicial Council (until completion of its authorized study of the testing process) and any person to whom the court expressly grants access by written order made with prior notice to all parties. Any person who has access to the test results may not disseminate copies or disclose information about the test results to any person other than a person who is authorized to receive the test results pursuant to this section. Any breach of the confidentiality of the test results shall be punishable by civil sanctions not to exceed two thousand five hundred dollars ($2,500). The results of the testing may not be used for any purpose, including any criminal, civil, or administrative proceeding, except to assist the court in determining, for purposes of the proceeding, the best interest of the child pursuant to Section 3011, and the content of the order or judgment determining custody or visitation. The court may order either party, or both parties, to pay the costs of the drug or alcohol testing ordered pursuant to this section. As used in this section, "controlled substances" has the same meaning as defined in the California Uniform Controlled Substances Act, Division 10 (commencing with Section 11000) of the Health and Safety Code.

(b) This section shall remain in effect only until January 1, 2013, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.

*The people of the State of California do enact as follows:*

SECTION 1. Section 76000.5 of the Government Code is amended to read:

76000.5. (a) (1) Except as otherwise provided elsewhere in this section, for purposes of supporting emergency medical services pursuant to Chapter 2.5 (commencing with Section 1797.98a) of Division 2.5 of the Health and Safety Code, in addition to the penalties set forth in Section 76000, the county board of supervisors may elect to levy an additional penalty in the amount of two dollars ($2) for every ten dollars ($10), or part of ten dollars ($10), upon every fine, penalty, or forfeiture imposed and collected by the courts for all criminal offenses, including violations of Division 9 (commencing with Section 23000) of the Business and Professions Code relating to the control of alcoholic beverages, and all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code. This penalty shall be collected together with and in the same manner as the amounts established by Section 1464 of the Penal Code.

(2) This additional penalty does not apply to the following:

(A) Any restitution fine.

(B) Any penalty authorized by Section 1464 of the Penal Code or this chapter.

(C) Parking offenses subject to Article 3 (commencing with Section 40200) of Chapter 1 of Division 17 of the Vehicle Code.

(D) The state surcharge authorized by Section 1465.7 of the Penal Code.

(b) Funds shall be collected pursuant to subdivision (a) only if the county board of supervisors provides that the increased penalties do not offset or reduce the funding of other programs from other sources, but that these additional revenues result in increased funding to those programs.

(c) Money collected pursuant to subdivision (a) shall be taken from fines and forfeitures deposited with the county treasurer prior to any division pursuant to Section 1463 of the Penal Code.

(d) Funds collected pursuant to this section shall be deposited into the Maddy Emergency Medical Services (EMS) Fund established pursuant to Section 1797.98a of the Health and Safety Code.

(e) This section shall remain in effect only until January 1, 2014, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2014, deletes or extends that date.

SEC. 2. Section 1797.98a of the Health and Safety Code is amended to read:

1797.98a. (a) The fund provided for in this chapter shall be known as the Maddy Emergency Medical Services (EMS) Fund.

(b) (1) Each county may establish an emergency medical services fund, upon the adoption of a resolution by the board of supervisors. The moneys in the fund shall be available for the reimbursements required by this chapter. The fund shall be administered by each county, except that a county electing to have the state administer its medically indigent services program may also elect to have its emergency medical services fund administered by the state.

(2) Costs of administering the fund shall be reimbursed by the fund, based on the actual administrative costs, not to exceed 10 percent of the amount of the fund.

(3) All interest earned on moneys in the fund shall be deposited in the fund for disbursement as specified in this section.

(4) Each administering agency may maintain a reserve of up to 15 percent of the amount in the portions of the fund reimbursable to physicians and surgeons, pursuant to subparagraph (A) of, and to hospitals, pursuant to subparagraph (B) of, paragraph (5). Each administering agency may maintain a reserve of any amount in the portion of the fund that is distributed for other emergency medical services purposes as determined by each county, pursuant to subparagraph (C) of paragraph (5).

(5) The amount in the fund, reduced by the amount for administration and the reserve, shall be utilized to reimburse physicians and surgeons and hospitals for patients who do not make payment for emergency

medical services and for other emergency medical services purposes as determined by each county according to the following schedule:

(A) Fifty-eight percent of the balance of the fund shall be distributed to physicians and surgeons for emergency services provided by all physicians and surgeons, except those physicians and surgeons employed by county hospitals, in general acute care hospitals that provide basic or comprehensive emergency services up to the time the patient is stabilized.

(B) Twenty-five percent of the fund shall be distributed only to hospitals providing disproportionate trauma and emergency medical care services.

(C) Seventeen percent of the fund shall be distributed for other emergency medical services purposes as determined by each county, including, but not limited to, the funding of regional poison control centers. Funding may be used for purchasing equipment and for capital projects only to the extent that these expenditures support the provision of emergency services and are consistent with the intent of this chapter.

(c) The source of the moneys in the fund shall be the penalty assessment made for this purpose, as provided in Section 76000 of the Government Code.

(d) Any physician and surgeon may be reimbursed for up to 50 percent of the amount claimed pursuant to subdivision (a) of Section 1797.98c for the initial cycle of reimbursements made by the administering agency in a given year, pursuant to Section 1797.98e. All funds remaining at the end of the fiscal year in excess of any reserve held and rolled over to the next year pursuant to paragraph (4) of subdivision (b) shall be distributed proportionally, based on the dollar amount of claims submitted and paid to all physicians and surgeons who submitted qualifying claims during that year.

(e) Of the money deposited into the fund pursuant to Section 76000.5 of the Government Code, 15 percent shall be utilized to provide funding for all pediatric trauma centers throughout the county, both publicly and privately owned and operated. The expenditure of money shall be limited to reimbursement to physicians and surgeons, and to hospitals for patients who do not make payment for emergency care services in hospitals up to the point of stabilization, or to hospitals for expanding the services provided to pediatric trauma patients at trauma centers and other hospitals providing care to pediatric trauma patients, or at pediatric trauma centers, including the purchase of equipment. Local emergency medical services (EMS) agencies may conduct a needs assessment of pediatric trauma services in the county to allocate these expenditures. Counties that do not maintain a pediatric trauma center shall utilize the money deposited into the fund pursuant to Section 76000.5 of the Government Code to improve access to, and coordination of, pediatric trauma and emergency

services in the county, with preference for funding given to hospitals that specialize in services to children, and physicians and surgeons who provide emergency care for children. Funds spent for the purposes of this section, shall be known as Richie's Fund. This subdivision shall remain in effect only until January 1, 2014, and shall have no force or effect on or after that date, unless a later enacted statute, that is chaptered before January 1, 2014, deletes or extends that date.

(f) Costs of administering money deposited into the fund pursuant to Section 76000.5 of the Government Code shall be reimbursed from the money collected, not to exceed 10 percent. This subdivision shall remain in effect only until January 1, 2014, and shall have no force or effect on or after that date, unless a later enacted statute, that is chaptered before January 1, 2014, deletes or extends that date.

[Approved by Governor July 3, 2008. Filed with Secretary of State July 3, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature hereby declares that it disapproves the court's holding in Wolfe v. City of Fremont (2006) 144 Cal.App.4th 533, 545, fn. 6, to the extent that it construes the prohibition against serial meetings by a legislative body of a local agency, as contained in the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code, to require that a series of individual meetings by members of a body actually result in a collective concurrence to violate the prohibition rather than also

including the process of developing a collective concurrence as a violation of the prohibition.

(b) It is the intent of the Legislature that the changes made by Section 3 of this act supersede the court's holding described in subdivision (a).

SEC. 2. Section 6252.7 is added to the Government Code, to read:

6252.7. Notwithstanding Section 6252.5 or any other provision of law, when the members of a legislative body of a local agency are authorized to access a writing of the body or of the agency as permitted by law in the administration of their duties, the local agency, as defined in Section 54951, shall not discriminate between or among any of those members as to which writing or portion thereof is made available or when it is made available.

SEC. 3. Section 54952.2 of the Government Code is amended to read:

54952.2. (a) As used in this chapter, "meeting" means any congregation of a majority of the members of a legislative body at the same time and location, including teleconference location as permitted by Section 54953, to hear, discuss, deliberate, or take action on any item that is within the subject matter jurisdiction of the legislative body.

(b) (1) A majority of the members of a legislative body shall not, outside a meeting authorized by this chapter, use a series of communications of any kind, directly or through intermediaries, to discuss, deliberate, or take action on any item of business that is within the subject matter jurisdiction of the legislative body.

(2) Paragraph (1) shall not be construed as preventing an employee or official of a local agency, from engaging in separate conversations or communications outside of a meeting authorized by this chapter with members of a legislative body in order to answer questions or provide information regarding a matter that is within the subject matter jurisdiction of the local agency, if that person does not communicate to members of the legislative body the comments or position of any other member or members of the legislative body.

(c) Nothing in this section shall impose the requirements of this chapter upon any of the following:

(1) Individual contacts or conversations between a member of a legislative body and any other person that do not violate subdivision (b).

(2) The attendance of a majority of the members of a legislative body at a conference or similar gathering open to the public that involves a discussion of issues of general interest to the public or to public agencies of the type represented by the legislative body, provided that a majority of the members do not discuss among themselves, other than as part of the scheduled program, business of a specified nature that is within the subject matter jurisdiction of the local agency. Nothing in this paragraph

is intended to allow members of the public free admission to a conference or similar gathering at which the organizers have required other participants or registrants to pay fees or charges as a condition of attendance.

(3) The attendance of a majority of the members of a legislative body at an open and publicized meeting organized to address a topic of local community concern by a person or organization other than the local agency, provided that a majority of the members do not discuss among themselves, other than as part of the scheduled program, business of a specific nature that is within the subject matter jurisdiction of the legislative body of the local agency.

(4) The attendance of a majority of the members of a legislative body at an open and noticed meeting of another body of the local agency, or at an open and noticed meeting of a legislative body of another local agency, provided that a majority of the members do not discuss among themselves, other than as part of the scheduled meeting, business of a specific nature that is within the subject matter jurisdiction of the legislative body of the local agency.

(5) The attendance of a majority of the members of a legislative body at a purely social or ceremonial occasion, provided that a majority of the members do not discuss among themselves business of a specific nature that is within the subject matter jurisdiction of the legislative body of the local agency.

(6) The attendance of a majority of the members of a legislative body at an open and noticed meeting of a standing committee of that body, provided that the members of the legislative body who are not members of the standing committee attend only as observers.

## CHAPTER 64

An act to amend Sections 56375, 56375.4, and 56383 of the Government Code, relating to local government.

[Approved by Governor July 3, 2008. Filed with Secretary of State July 3, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 56375 of the Government Code is amended to read:

56375. The commission shall have all of the following powers and duties subject to any limitations upon its jurisdiction set forth in this part:

(a) (1) To review and approve or disapprove with or without amendment, wholly, partially, or conditionally, proposals for changes of organization or reorganization, consistent with written policies, procedures, and guidelines adopted by the commission.

(2) The commission may initiate proposals for any of the following:

(A) The consolidation of a district, as defined in Section 56036.

(B) The dissolution of districts.

(C) A merger.

(D) The establishment of a subsidiary district.

(E) The formation of a new district or districts.

(F) A reorganization that includes any of the changes specified in subparagraph (A), (B), (C), (D), or (E).

(3) A commission may initiate a proposal described in paragraph (2) only if that change of organization or reorganization is consistent with a recommendation or conclusion of a study prepared pursuant to Section 56378, 56425, or 56430 and the commission makes the determinations specified in subdivision (b) of Section 56881.

(4) A commission shall not disapprove an annexation to a city, initiated by resolution, of contiguous territory that the commission finds is any of the following:

(A) Surrounded or substantially surrounded by the city to which the annexation is proposed or by that city and a county boundary or the Pacific Ocean if the territory to be annexed is substantially developed or developing, is not prime agricultural land as defined in Section 56064, is designated for urban growth by the general plan of the annexing city, and is not within the sphere of influence of another city.

(B) Located within an urban service area that has been delineated and adopted by a commission, which is not prime agricultural land, as defined by Section 56064, and is designated for urban growth by the general plan of the annexing city.

(C) An annexation or reorganization of unincorporated islands meeting the requirements of Section 56375.3.

(5) As a condition to the annexation of an area that is surrounded, or substantially surrounded, by the city to which the annexation is proposed, the commission may require, when consistent with the purposes of this division, that the annexation include the entire island of surrounded, or substantially surrounded, territory.

(6) A commission shall not impose any conditions that would directly regulate land use density or intensity, property development, or subdivision requirements.

(7) The decision of the commission with regard to a proposal to annex territory to a city shall be based upon the general plan and prezoning the city. When the development purposes are not made known to the annexing city, the annexation shall be reviewed on the basis of the adopted plans and policies of the annexing city or county. A commission shall require, as a condition to annexation, that a city prezone the territory to be annexed or present evidence satisfactory to the commission that the existing development entitlements on the territory are vested or are already at buildout, and are consistent with the city's general plan. However, the commission shall not specify how, or in what manner, the territory shall be prezoned.

(b) With regard to a proposal for annexation or detachment of territory to, or from, a city or district or with regard to a proposal for reorganization that includes annexation or detachment, to determine whether territory proposed for annexation or detachment, as described in its resolution approving the annexation, detachment, or reorganization, is inhabited or uninhabited.

(c) With regard to a proposal for consolidation of two or more cities or districts, to determine which city or district shall be the consolidated, successor city or district.

(d) To approve the annexation of unincorporated, noncontiguous territory, subject to the limitations of Section 56742, located in the same county as that in which the city is located, and that is owned by a city and used for municipal purposes and to authorize the annexation of the territory without notice and hearing.

(e) To approve the annexation of unincorporated territory consistent with the planned and probable use of the property based upon the review of general plan and prezoning designations. No subsequent change may be made to the general plan for the annexed territory or zoning that is not in conformance to the prezoning designations for a period of two years after the completion of the annexation, unless the legislative body for the city makes a finding at a public hearing that a substantial change has occurred in circumstances that necessitate a departure from the prezoning in the application to the commission.

(f) With respect to the incorporation of a new city or the formation of a new special district, to determine the number of registered voters residing within the proposed city or special district or, for a landowner-voter special district, the number of owners of land and the assessed value of their land within the territory proposed to be included in the new special district. The number of registered voters shall be calculated as of the time of the last report of voter registration by the county elections official to the Secretary of State prior to the date the first signature was affixed to the petition. The executive officer shall

notify the petitioners of the number of registered voters resulting from this calculation. The assessed value of the land within the territory proposed to be included in a new landowner-voter special district shall be calculated as shown on the last equalized assessment roll.

(g) To adopt written procedures for the evaluation of proposals, including written definitions not inconsistent with existing state law. The commission may adopt standards for any of the factors enumerated in Section 56668. Any standards adopted by the commission shall be written.

(h) To adopt standards and procedures for the evaluation of service plans submitted pursuant to Section 56653 and the initiation of a change of organization or reorganization pursuant to subdivision (a).

(i) To make and enforce regulations for the orderly and fair conduct of hearings by the commission.

(j) To incur usual and necessary expenses for the accomplishment of its functions.

(k) To appoint and assign staff personnel and to employ or contract for professional or consulting services to carry out and effect the functions of the commission.

(*l*) To review the boundaries of the territory involved in any proposal with respect to the definiteness and certainty of those boundaries, the nonconformance of proposed boundaries with lines of assessment or ownership, and other similar matters affecting the proposed boundaries.

(m) To waive the restrictions of Section 56744 if it finds that the application of the restrictions would be detrimental to the orderly development of the community and that the area that would be enclosed by the annexation or incorporation is so located that it cannot reasonably be annexed to another city or incorporated as a new city.

(n) To waive the application of Section 25210.90 or Section 22613 of the Streets and Highways Code if it finds the application would deprive an area of a service needed to ensure the health, safety, or welfare of the residents of the area and if it finds that the waiver would not affect the ability of a city to provide any service. However, within 60 days of the inclusion of the territory within the city, the legislative body may adopt a resolution nullifying the waiver.

(o) If the proposal includes the incorporation of a city, as defined in Section 56043, or the formation of a district, as defined in Section 2215 of the Revenue and Taxation Code, the commission shall determine the property tax revenue to be exchanged by the affected local agencies pursuant to Section 56810.

(p) To authorize a city or district to provide new or extended services outside its jurisdictional boundaries pursuant to Section 56133.

(q) To enter into an agreement with the commission for an adjoining county for the purpose of determining procedures for the consideration of proposals that may affect the adjoining county or where the jurisdiction of an affected agency crosses the boundary of the adjoining county.

SEC. 2. Section 56375.4 of the Government Code is amended to read:

56375.4. (a) The authority to initiate, conduct, and complete any proceeding pursuant to subdivision (a) of Section 56375.3 does not apply to any territory that, after January 1, 2000, became surrounded or substantially surrounded by the city to which annexation is proposed, except for islands that were created after January 1, 2000, as a result of boundary adjustments between two counties. The authority to initiate, conduct, and complete any proceeding pursuant to paragraph (1) of subdivision (a) of Section 56375.3 shall expire January 1, 2014. The period of time between January 1, 2000, and January 1, 2014, shall not include any period of time during which, in an action pending in any court, a local agency is enjoined from conducting proceedings pursuant to paragraph (1) of subdivision (a) of Section 56375.3. Upon final disposition of that case, the previously enjoined local agency may initiate, conduct, and complete proceedings pursuant to paragraph (1) of subdivision (a) of Section 56375.3 for the same period of time as was remaining under that 14-year limit at the time the injunction commenced. However, if the remaining time is less than six months, that authority shall continue for six months following final disposition of the action.

(b) Between January 1, 2000, and January 1, 2014, no new proposal involving the same or substantially the same territory as a proposal initiated pursuant to paragraph (1) of subdivision (a) of Section 56375.3 after January 1, 2000, shall be initiated for two years after the date of adoption by the commission of a resolution terminating proceedings.

SEC. 3. Section 56383 of the Government Code is amended to read:

56383. (a) The commission may establish a schedule of fees and a schedule of service charges for the proceedings taken pursuant to this division, including, but not limited to, all of the following:

(1) Filing and processing applications filed with the commission.

(2) Proceedings undertaken by the commission and any reorganization committee.

(3) Amending a sphere of influence.

(4) Reconsidering a resolution making determinations.

(b) The fees shall not exceed the estimated reasonable cost of providing the service for which the fee is charged and shall be imposed pursuant to Section 66016. The service charges shall not exceed the cost of providing the service for which the service charge is charged and shall be imposed pursuant to Section 60016.

(c) The commission may require that an applicant deposit some or all of the required amount that will be owed with the executive officer before any further action is taken. The deposit shall be made within the time period specified by the commission. No application shall be deemed filed until the applicant deposits the required amount with the executive officer. The executive officer shall provide the applicant with an accounting of all costs charged against the deposited amount. If the costs are less than the deposited amount, the executive officer shall refund the balance to the applicant after the executive officer verifies the completion of all proceedings. If the costs exceed the deposited amount, the applicant shall pay the difference prior to the completion of all proceedings.

(d) The commission may reduce or waive a fee, service charge, or deposit if it finds that payment would be detrimental to the public interest. The reduction or waiver of any fee, service charge, or deposit is limited to the costs incurred by the commission in the proceedings of an application.

(e) Any mandatory time limits for commission action may be deferred until the applicant pays the required fee, service charge, or deposit.

(f) The signatures on a petition submitted to the commission by registered voters shall be verified by the elections official of the county and the costs of verification shall be provided for in the same manner and by the same agencies which bear the costs of verifying signatures for an initiative petition in the same county.

(g) For incorporation proceedings that have been initiated by the filing of a sufficient number of voter signatures on petitions that have been verified by the county registrar of voters, the commission may, upon the receipt of a certification by the proponents that they are unable to raise sufficient funds to reimburse fees, service charges, or deposits for the proceedings, take no action on the proposal and request a loan from the General Fund of an amount sufficient to cover those expenses subject to availability of an appropriation for those purposes and in accordance with any provisions of the appropriation. Repayment of the loan shall be made a condition of approval of the incorporation, if successful, and shall become an obligation of the newly formed city. Repayment shall be made within two years of the effective date of incorporation. If the proposal is denied by the commission or defeated at an election, the loan shall be forgiven.

NOTICE TO PROPERTY OWNER

Dear Property Owner:

An application for a building permit has been submitted in your name listing yourself as the builder of the property improvements specified at _____.

We are providing you with an Owner-Builder Acknowledgment and Information Verification Form to make you aware of your responsibilities and possible risk you may incur by having this permit issued in your name as the Owner-Builder.

We will not issue a building permit until you have read, initialed your understanding of each provision, signed, and returned this form to us at our official address indicated. An agent of the owner cannot execute this notice unless you, the property owner, obtain the prior approval of the permitting authority.

OWNER'S ACKNOWLEDGMENT AND VERIFICATION OF INFORMATION

DIRECTIONS: Read and initial each statement below to signify you understand or verify this information.

____1. I understand a frequent practice of unlicensed persons is to have the property owner obtain an "Owner-Builder" building permit that erroneously implies that the property owner is providing his or her own labor and material personally. I, as an Owner-Builder, may be held liable and subject to serious financial risk for any injuries sustained by an unlicensed person and his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an Owner-Builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

____2. I understand building permits are not required to be signed by property owners unless they are *responsible* for the construction and are not hiring a licensed Contractor to assume this responsibility.

____3. I understand as an "Owner-Builder" I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed Contractor and having the permit filed in his or her name instead of my own.

____4. I understand Contractors are required by law to be licensed and bonded in California and to list their license numbers on permits and contracts.

____5. I understand if I employ or otherwise engage any persons, other than California licensed Contractors, and the total value of my construction is at least five hundred dollars ($500), including labor and materials, I may be considered an "employer" under state and federal law.

____6. I understand if I am considered an "employer" under state and federal law, I must register with the state and federal government, withhold payroll taxes, provide workers' compensation disability insurance, and contribute to unemployment compensation for each "employee." I also understand my failure to abide by these laws may subject me to serious financial risk.

____7. I understand under California Contractors' State License Law, an Owner-Builder who builds single-family residential structures cannot legally build them with the intent to offer them for sale, unless *all* work is performed by licensed subcontractors and the number of structures does not exceed four within any calendar year, or all of the work is performed under contract with a licensed general building Contractor.

____8. I understand as an Owner-Builder if I sell the property for which this permit is issued, I may be held liable for any financial or personal injuries sustained by any subsequent owner(s) that result from any latent construction defects in the workmanship or materials.

____9. I understand I may obtain more information regarding my obligations as an "employer" from the Internal Revenue Service, the United States Small Business Administration, the California Department of Benefit Payments, and the California Division of Industrial Accidents. I also understand I may contact the California Contractors' State License Board (CSLB) at 1-800-321-CSLB (2752) or www.cslb.ca.gov for more information about licensed contractors.

____10. I am aware of and consent to an Owner-Builder building permit applied for in my name, and understand that I am the party legally and financially responsible for proposed construction activity at the following address:

_____

____11. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern Owner-Builders as well as employers.

____ 12. I agree to notify the issuer of this form immediately of any additions, deletions, or changes to any of the information I have provided on this form.

Licensed contractors are regulated by laws designed to protect the public. If you contract with someone who does not have a license, the Contractors' State License Board may be unable to assist you with any financial loss you may sustain as a result of a complaint. Your only remedy against unlicensed Contractors may be in civil court. It is also important for you to understand that if an unlicensed Contractor or employee of that individual or firm is injured while working on your property, you may be held liable for damages. If you obtain a permit as Owner-Builder and wish to hire Contractors, you will be responsible for verifying whether or not those Contractors are properly licensed and the status of their workers' compensation insurance coverage.

Before a building permit can be issued, this form must be completed and signed by the property owner and returned to the agency responsible for issuing the permit.
Note: A copy of the property owner's driver's license, form notarization, or other verification acceptable to the agency is required to be presented when the permit is issued to verify the property owner's signature.

(v) The witness does not have a financial interest in the document being acknowledged and is not named in the document.

(B) A notary public who violates this section by failing to obtain the satisfactory evidence required by subparagraph (A) shall be subject to a civil penalty not exceeding ten thousand dollars ($10,000). An action to impose this civil penalty may be brought by the Secretary of State in an administrative proceeding or any public prosecutor in superior court, and shall be enforced as a civil judgment. A public prosecutor shall inform the secretary of any civil penalty imposed under this subparagraph.

(c) An officer who has taken an acknowledgment pursuant to this section shall be presumed to have operated in accordance with the provisions of law.

(d) Any party who files an action for damages based on the failure of the officer to establish the proper identity of the person making the acknowledgment shall have the burden of proof in establishing the negligence or misconduct of the officer.

(e) Any person convicted of perjury under this section shall forfeit any financial interest in the document.

SEC. 2. Section 1196 of the Civil Code is amended to read:

1196. A witness shall be proved to be a subscribing witness by the oath of a credible witness who provides the officer with any document

satisfying the requirements of paragraph (3) or (4) of subdivision (b) of Section 1185.

SEC. 3. Section 8206 of the Government Code is amended to read:

8206. (a) (1) A notary public shall keep one active sequential journal at a time, of all official acts performed as a notary public. The journal shall be kept in a locked and secured area, under the direct and exclusive control of the notary. Failure to secure the journal shall be cause for the Secretary of State to take administrative action against the commission held by the notary public pursuant to Section 8214.1.

(2) The journal shall be in addition to, and apart from, any copies of notarized documents that may be in the possession of the notary public and shall include all of the following:

(A) Date, time, and type of each official act.

(B) Character of every instrument sworn to, affirmed, acknowledged, or proved before the notary.

(C) The signature of each person whose signature is being notarized.

(D) A statement as to whether the identity of a person making an acknowledgment or taking an oath or affirmation was based on satisfactory evidence. If identity was established by satisfactory evidence pursuant to Section 1185 of the Civil Code, then the journal shall contain the signature of the credible witness swearing or affirming to the identity of the individual or the type of identifying document, the governmental agency issuing the document, the serial or identifying number of the document, and the date of issue or expiration of the document.

(E) If the identity of the person making the acknowledgment or taking the oath or affirmation was established by the oaths or affirmations of two credible witnesses whose identities are proven to the notary public by presentation of any document satisfying the requirements of paragraph (3) or (4) of subdivision (b) of Section 1185 of the Civil Code, the notary public shall record in the journal the type of documents identifying the witnesses, the identifying numbers on the documents identifying the witnesses, and the dates of issuance or expiration of the documents identifying the witnesses.

(F) The fee charged for the notarial service.

(G) If the document to be notarized is a deed, quitclaim deed, deed of trust affecting real property, or a power of attorney document, the notary public shall require the party signing the document to place his or her right thumbprint in the journal. If the right thumbprint is not available, then the notary shall have the party use his or her left thumb, or any available finger and shall so indicate in the journal. If the party signing the document is physically unable to provide a thumbprint or fingerprint, the notary shall so indicate in the journal and shall also provide an explanation of that physical condition. This paragraph shall

not apply to a trustee's deed resulting from a decree of foreclosure or a nonjudicial foreclosure pursuant to Section 2924 of the Civil Code, nor to a deed of reconveyance.

(b) If a sequential journal of official acts performed by a notary public is stolen, lost, misplaced, destroyed, damaged, or otherwise rendered unusable as a record of notarial acts and information, the notary public shall immediately notify the Secretary of State by certified or registered mail. The notification shall include the period of the journal entries, the notary public commission number, and the expiration date of the commission, and when applicable, a photocopy of any police report that specifies the theft of the sequential journal of official acts.

(c) Upon written request of any member of the public, which request shall include the name of the parties, the type of document, and the month and year in which notarized, the notary shall supply a photostatic copy of the line item representing the requested transaction at a cost of not more than thirty cents ($0.30) per page.

(d) The journal of notarial acts of a notary public is the exclusive property of that notary public, and shall not be surrendered to an employer upon termination of employment, whether or not the employer paid for the journal, or at any other time. The notary public shall not surrender the journal to any other person, except the county clerk, pursuant to Section 8209, or immediately, or if the journal is not present then as soon as possible, upon request to a peace officer investigating a criminal offense who has reasonable suspicion to believe the journal contains evidence of a criminal offense, as defined in Sections 830.1, 830.2, and 830.3 of the Penal Code, acting in his or her official capacity and within his or her authority. If the peace officer seizes the notary journal, he or she must have probable cause as required by the laws of this state and the United States. A peace officer or law enforcement agency that seizes a notary journal shall notify the Secretary of State by facsimile within 24 hours, or as soon possible thereafter, of the name of the notary public whose journal has been seized. The notary public shall obtain a receipt for the journal, and shall notify the Secretary of State by certified mail within 10 days that the journal was relinquished to a peace officer. The notification shall include the period of the journal entries, the commission number of the notary public, the expiration date of the commission, and a photocopy of the receipt. The notary public shall obtain a new sequential journal. If the journal relinquished to a peace officer is returned to the notary public and a new journal has been obtained, the notary public shall make no new entries in the returned journal. A notary public who is an employee shall permit inspection and copying of journal transactions by a duly designated auditor or agent of the notary public's employer, provided that the inspection and copying

is done in the presence of the notary public and the transactions are directly associated with the business purposes of the employer. The notary public, upon the request of the employer, shall regularly provide copies of all transactions that are directly associated with the business purposes of the employer, but shall not be required to provide copies of any transaction that is unrelated to the employer's business. Confidentiality and safekeeping of any copies of the journal provided to the employer shall be the responsibility of that employer.

(e) The notary public shall provide the journal for examination and copying in the presence of the notary public upon receipt of a subpoena duces tecum or a court order, and shall certify those copies if requested.

## CHAPTER 68

An act to amend Sections 56106, 56157, 56332, 56375.3, 56425.5, 56654, 56706, and 57080 of, to amend the heading of Chapter 7 (commencing with Section 57176) of Part 4 of Division 3 of Title 5 of, and to repeal Sections 56650.5 and 56758 of, the Government Code, relating to local agencies.

[Approved by Governor July 3, 2008. Filed with Secretary of State July 3, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 56106 of the Government Code is amended to read:

56106. Any provisions in this division governing the time within which an official or the commission is to act shall in all instances, except for notice requirements and the requirements of subdivision (i) of Section 56658 and subdivision (b) of Section 56895, be deemed directory, rather than mandatory.

SEC. 2. Section 56157 of the Government Code is amended to read:

56157. When mailed notice is required to be given to:

(a) A county, city, or district, it shall be addressed to the clerk of the county, city, or district.

(b) A commission, it shall be addressed to the executive officer.

(c) Proponents, it shall be addressed to the persons so designated in the petition at the address specified in the petition.

(d) Landowners, it shall be addressed to each person to whom land is assessed, as shown upon the most recent assessment roll being prepared by the county at the time the proponent adopts a resolution of application pursuant to Section 56654 or files a notice of intention to circulate a petition with the executive officer pursuant to subdivision (a) of Section 56700.4, at the address shown upon the assessment roll and to all landowners within 300 feet of the exterior boundary of the property that is the subject of the hearing at least 21 days prior to the hearing. This requirement may be waived if proof satisfactory to the commission is presented that shows that individual notices to landowners have already been provided by the initiating agency. Notice also shall be either posted or published in accordance with Section 56153 in a newspaper of general circulation that is circulated within the affected territory 21 days prior to the hearing.

(e) Persons requesting special notice, it shall be addressed to each person who has filed a written request for special notice with the executive officer or clerk at the mailing address specified in the request.

(f) To all registered voters within the affected territory, to the address as shown on the most recent index of affidavits prepared by the county elections official at the time the proponent adopts a resolution of application pursuant to Section 56654 or files a notice of intention to circulate a petition with the executive officer pursuant to subdivision (a) of Section 56700.4 and to all registered voters within 300 feet of the exterior boundary of the property that is the subject of the hearing at least 21 days prior to the hearing. This requirement may be waived if proof satisfactory to the commission is presented that shows that individual notices to registered voters have already been provided by the initiating agency. Notice shall also either be posted or published in accordance with Section 56153 in a newspaper of general circulation that is circulated within the affected territory 21 days prior to the hearing.

(g) Pursuant to subdivisions (d) and (f), if a landowner or landowners and registered voter or voters are the same individual or individuals, only one notice is required to be mailed.

(h) If the total number of notices required to be mailed in accordance with subdivisions (d) and (f) exceeds 1,000, then notice may instead be provided by publishing a display advertisement of at least one-eighth page in a newspaper, as specified in Section 56153, at least 21 days prior to the hearing.

SEC. 3. Section 56332 of the Government Code is amended to read:

56332. (a) The independent special district selection committee shall consist of the presiding officer of the legislative body of each independent special district. However, if the presiding officer of an independent special district is unable to attend a meeting of the independent special

district selection committee, the legislative body of the district may appoint one of its members to attend the meeting of the selection committee in the presiding officer's place. Those districts shall include districts located wholly within the county and those containing territory within the county representing 50 percent or more of the assessed value of taxable property of the district, as shown on the last equalized county assessment roll. Each member of the committee shall be entitled to one vote for each independent special district of which he or she is the presiding officer. Members representing a majority of the eligible districts shall constitute a quorum.

(b) The executive officer shall call and give written notice of all meetings of the members of the selection committee. A meeting shall be called and held under either of the following circumstances:

(1) Whenever a vacancy exists among the members or alternate members representing independent special districts upon the commission.

(2) Upon receipt of a written request by one or more members of the selection committee representing districts having 10 percent or more of the assessed value of taxable property within the county, as shown on the last equalized county assessment roll.

(c) (1) If the executive officer determines that a meeting of the special district selection committee, for the purpose of selecting the special district representatives or for filling a vacancy, is not feasible, the executive officer may conduct the business of the committee in writing, as provided in this subdivision. The executive officer may call for nominations to be submitted in writing within 30 days. At the end of the nominating period, the executive officer shall prepare and deliver, or send by certified mail, to each independent special district one ballot and voting instructions. If only one candidate is nominated for a vacant seat, that candidate shall be deemed selected, with no further proceedings.

(2) As an alternative to the delivery by certified mail, the executive officer, with the prior concurrence of the district, may transmit the ballot and voting instructions by electronic mail, provided that the executive officer shall retain written evidence of the receipt of that material.

(3) The ballot shall include the names of all nominees and the office for which each was nominated. The districts shall return the ballots to the executive officer by the date specified in the voting instructions, which date shall be at least 30 days from the date on which the executive officer mailed the ballots to the districts.

(4) If the executive officer has transmitted the ballot and voting instructions by electronic mail, the districts may return the ballots to the executive officer by electronic mail, provided that the executive officer retains written evidence of the receipt of the ballot.

(5) Any ballot received by the executive officer after the specified date is invalid. The executive officer shall announce the results of the election within seven days of the specified date.

(d) The selection committee shall appoint two regular members and one alternate member to the commission. The members so appointed shall be elected or appointed special district officers residing within the county but shall not be members of the legislative body of a city or county. If one of the regular district members is absent from a commission meeting or disqualifies himself or herself from participating in a meeting, the alternate district member may serve and vote in place of the regular district member for that meeting. The representation by a regular district member who is a special district officer shall not disqualify, or be cause for disqualification of, the member from acting on a proposal affecting the special district. The special district selection committee may, at the time it appoints a member or alternate, provide that the member or alternate is disqualified from voting on proposals affecting the district of which the member is a representative.

(e) If the office of a regular district member becomes vacant, the alternate member may serve and vote in place of the former regular district member until the appointment and qualification of a regular district member to fill the vacancy.

SEC. 4. Section 56375.3 of the Government Code is amended to read:

56375.3. (a) In addition to those powers enumerated in Section 56375, a commission shall do either of the following:

## CHAPTER 69

An act to add and repeal Sections 2923.5, 2923.6, 2924.8, and 2929.3 of the Civil Code, and to add and repeal Section 1161b of the Code of Civil Procedure, relating to mortgages, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 2008. Filed with Secretary of State July 8, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) California is facing an unprecedented threat to its state economy and local economies because of skyrocketing residential property foreclosure rates in California. Residential property foreclosures increased sevenfold from 2006 to 2007. In 2007, more than 84,375 properties were lost to foreclosure in California, and 254,824 loans went into default, the first step in the foreclosure process.

(b) High foreclosure rates have adversely affected property values in California, and will have even greater adverse consequences as foreclosure rates continue to rise. According to statistics released by the HOPE NOW Alliance, the number of completed California foreclosure sales in 2007 increased almost threefold from 1,902 in the first quarter to 5,574 in the fourth quarter of that year. Those same statistics report that 10,556 foreclosure sales, almost double the number for the prior quarter, were completed just in the month of January 2008. More foreclosures means less money for schools, public safety, and other key services.

(c) Under specified circumstances, mortgage lenders and servicers are authorized under their pooling and servicing agreements to modify mortgage loans when the modification is in the best interest of investors. Generally, that modification may be deemed to be in the best interest of investors when the net present value of the income stream of the modified loan is greater than the amount that would be recovered through the disposition of the real property security through a foreclosure sale.

(d) It is essential to the economic health of California for the state to ameliorate the deleterious effects on the state economy and local economies and the California housing market that will result from the continued foreclosures of residential properties in unprecedented numbers by modifying the foreclosure process to require mortgagees, beneficiaries, or authorized agents to contact borrowers and explore options that could avoid foreclosure. These changes in accessing the state's foreclosure process are essential to ensure that the process does not exacerbate the current crisis by adding more foreclosures to the glut of foreclosed properties already on the market when a foreclosure could have been avoided. Those additional foreclosures will further destabilize the housing market with significant, corresponding deleterious effects on the local and state economy.

(e) According to a survey released by the Federal Home Loan Mortgage Corporation (Freddie Mac) on January 31, 2008, 57 percent of the nation's late-paying borrowers do not know their lenders may offer alternatives to help them avoid foreclosure.

(f) As reflected in recent government and industry-led efforts to help troubled borrowers, the mortgage foreclosure crisis impacts borrowers not only in nontraditional loans, but also many borrowers in conventional loans.

(g) This act is necessary to avoid unnecessary foreclosures of residential properties and thereby provide stability to California's statewide and regional economies and housing market by requiring early contact and communications between mortgagees, beneficiaries, or authorized agents and specified borrowers to explore options that could avoid foreclosure and by facilitating the modification or restructuring of loans in appropriate circumstances.

SEC. 2. Section 2923.5 is added to the Civil Code, to read:

2923.5. (a) (1) A mortgagee, trustee, beneficiary, or authorized agent may not file a notice of default pursuant to Section 2924 until 30 days after contact is made as required by paragraph (2) or 30 days after satisfying the due diligence requirements as described in subdivision (g).

(2) A mortgagee, beneficiary, or authorized agent shall contact the borrower in person or by telephone in order to assess the borrower's financial situation and explore options for the borrower to avoid foreclosure. During the initial contact, the mortgagee, beneficiary, or authorized agent shall advise the borrower that he or she has the right to request a subsequent meeting and, if requested, the mortgagee, beneficiary, or authorized agent shall schedule the meeting to occur within 14 days. The assessment of the borrower's financial situation and discussion of options may occur during the first contact, or at the subsequent meeting scheduled for that purpose. In either case, the borrower shall be provided the toll-free telephone number made available by the United States Department of Housing and Urban Development (HUD) to find a HUD-certified housing counseling agency. Any meeting may occur telephonically.

(b) A notice of default filed pursuant to Section 2924 shall include a declaration from the mortgagee, beneficiary, or authorized agent that it has contacted the borrower, tried with due diligence to contact the borrower as required by this section, or the borrower has surrendered the property to the mortgagee, trustee, beneficiary, or authorized agent.

(c) If a mortgagee, trustee, beneficiary, or authorized agent had already filed the notice of default prior to the enactment of this section and did not subsequently file a notice of rescission, then the mortgagee, trustee, beneficiary, or authorized agent shall, as part of the notice of sale filed pursuant to Section 2924f, include a declaration that either:

(1) States that the borrower was contacted to assess the borrower's financial situation and to explore options for the borrower to avoid foreclosure.

(2) Lists the efforts made, if any, to contact the borrower in the event no contact was made.

(d) A mortgagee's, beneficiary's, or authorized agent's loss mitigation personnel may participate by telephone during any contact required by this section.

(e) For purposes of this section, a "borrower" shall include a mortgagor or trustor.

(f) A borrower may designate a HUD-certified housing counseling agency, attorney, or other advisor to discuss with the mortgagee, beneficiary, or authorized agent, on the borrower's behalf, options for the borrower to avoid foreclosure. That contact made at the direction of the borrower shall satisfy the contact requirements of paragraph (2) of subdivision (a). Any loan modification or workout plan offered at the meeting by the mortgagee, beneficiary, or authorized agent is subject to approval by the borrower.

(g) A notice of default may be filed pursuant to Section 2924 when a mortgagee, beneficiary, or authorized agent has not contacted a borrower as required by paragraph (2) of subdivision (a) provided that the failure to contact the borrower occurred despite the due diligence of the mortgagee, beneficiary, or authorized agent. For purposes of this section, "due diligence" shall require and mean all of the following:

(1) A mortgagee, beneficiary, or authorized agent shall first attempt to contact a borrower by sending a first-class letter that includes the toll-free telephone number made available by HUD to find a HUD-certified housing counseling agency.

(2) (A) After the letter has been sent, the mortgagee, beneficiary, or authorized agent shall attempt to contact the borrower by telephone at least three times at different hours and on different days. Telephone calls shall be made to the primary telephone number on file.

(B) A mortgagee, beneficiary, or authorized agent may attempt to contact a borrower using an automated system to dial borrowers, provided that, if the telephone call is answered, the call is connected to a live representative of the mortgagee, beneficiary, or authorized agent.

(C) A mortgagee, beneficiary, or authorized agent satisfies the telephone contact requirements of this paragraph if it determines, after attempting contact pursuant to this paragraph, that the borrower's primary telephone number and secondary telephone number or numbers on file, if any, have been disconnected.

(3) If the borrower does not respond within two weeks after the telephone call requirements of paragraph (2) have been satisfied, the

mortgagee, beneficiary, or authorized agent shall then send a certified letter, with return receipt requested.

(4) The mortgagee, beneficiary, or authorized agent shall provide a means for the borrower to contact it in a timely manner, including a toll-free telephone number that will provide access to a live representative during business hours.

(5) The mortgagee, beneficiary, or authorized agent has posted a prominent link on the homepage of its Internet Web site, if any, to the following information:

(A) Options that may be available to borrowers who are unable to afford their mortgage payments and who wish to avoid foreclosure, and instructions to borrowers advising them on steps to take to explore those options.

(B) A list of financial documents borrowers should collect and be prepared to present to the mortgagee, beneficiary, or authorized agent when discussing options for avoiding foreclosure.

(C) A toll-free telephone number for borrowers who wish to discuss options for avoiding foreclosure with their mortgagee, beneficiary, or authorized agent.

(D) The toll-free telephone number made available by HUD to find a HUD-certified housing counseling agency.

(h) Subdivisions (a), (c), and (g) shall not apply if any of the following occurs:

(1) The borrower has surrendered the property as evidenced by either a letter confirming the surrender or delivery of the keys to the property to the mortgagee, trustee, beneficiary, or authorized agent.

(2) The borrower has contracted with an organization, person, or entity whose primary business is advising people who have decided to leave their homes on how to extend the foreclosure process and avoid their contractual obligations to mortgagees or beneficiaries.

(3) The borrower has filed for bankruptcy, and the proceedings have not been finalized.

(i) This section shall apply only to loans made from January 1, 2003, to December 31, 2007, inclusive, that are secured by residential real property and are for owner-occupied residences. For purposes of this subdivision, "owner-occupied" means that the residence is the principal residence of the borrower.

(j) This section shall remain in effect only until January 1, 2013, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.

SEC. 3. Section 2923.6 is added to the Civil Code, to read:

2923.6. (a) The Legislature finds and declares that any duty servicers may have to maximize net present value under their pooling and servicing

agreements is owed to all parties in a loan pool, not to any particular parties, and that a servicer acts in the best interests of all parties if it agrees to or implements a loan modification or workout plan for which both of the following apply:

(1) The loan is in payment default, or payment default is reasonably foreseeable.

(2) Anticipated recovery under the loan modification or workout plan exceeds the anticipated recovery through foreclosure on a net present value basis.

(b) It is the intent of the Legislature that the mortgagee, beneficiary, or authorized agent offer the borrower a loan modification or workout plan if such a modification or plan is consistent with its contractual or other authority.

(c) This section shall remain in effect only until January 1, 2013, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.

SEC. 4. Section 2924.8 is added to the Civil Code, to read:

2924.8. (a) Upon posting a notice of sale pursuant to Section 2924f, a trustee or authorized agent shall also post the following notice, in the manner required for posting the notice of sale on the property to be sold, and a mortgagee, trustee, beneficiary, or authorized agent shall mail, at the same time in an envelope addressed to the "Resident of property subject to foreclosure sale" the following notice in English and the languages described in Section 1632: "Foreclosure process has begun on this property, which may affect your right to continue to live in this property. Twenty days or more after the date of this notice, this property may be sold at foreclosure. If you are renting this property, the new property owner may either give you a new lease or rental agreement or provide you with a 60-day eviction notice. However, other laws may prohibit an eviction in this circumstance or provide you with a longer notice before eviction. You may wish to contact a lawyer or your local legal aid or housing counseling agency to discuss any rights you may have."

(b) It shall be an infraction to tear down the notice described in subdivision (a) within 72 hours of posting. Violators shall be subject to a fine of one hundred dollars ($100).

(c) A state government entity shall make available translations of the notice described in subdivision (a) which may be used by a mortgagee, trustee, beneficiary, or authorized agent to satisfy the requirements of this section.

(d) This section shall only apply to loans secured by residential real property, and if the billing address for the mortgage note is different than the property address.

(e) This section shall remain in effect only until January 1, 2013, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.

SEC. 5. Section 2929.3 is added to the Civil Code, to read:

2929.3. (a) (1) A legal owner shall maintain vacant residential property purchased by that owner at a foreclosure sale, or acquired by that owner through foreclosure under a mortgage or deed of trust. A governmental entity may impose a civil fine of up to one thousand dollars ($1,000) per day for a violation. If the governmental entity chooses to impose a fine pursuant to this section, it shall give notice of the alleged violation, including a description of the conditions that gave rise to the allegation, and notice of the entity's intent to assess a civil fine if action to correct the violation is not commenced within a period of not less than 14 days and completed within a period of not less than 30 days. The notice shall be mailed to the address provided in the deed or other instrument as specified in subdivision (a) of Section 27321.5 of the Government Code, or, if none, to the return address provided on the deed or other instrument.

(2) The governmental entity shall provide a period of not less than 30 days for the legal owner to remedy the violation prior to imposing a civil fine and shall allow for a hearing and opportunity to contest any fine imposed. In determining the amount of the fine, the governmental entity shall take into consideration any timely and good faith efforts by the legal owner to remedy the violation. The maximum civil fine authorized by this section is one thousand dollars ($1,000) for each day that the owner fails to maintain the property, commencing on the day following the expiration of the period to remedy the violation established by the governmental entity.

(3) Subject to the provisions of this section, a governmental entity may establish different compliance periods for different conditions on the same property in the notice of alleged violation mailed to the legal owner.

(b) For purposes of this section, "failure to maintain" means failure to care for the exterior of the property, including, but not limited to, permitting excessive foliage growth that diminishes the value of surrounding properties, failing to take action to prevent trespassers or squatters from remaining on the property, or failing to take action to prevent mosquito larvae from growing in standing water or other conditions that create a public nuisance.

(c) Notwithstanding subdivisions (a) and (b), a governmental entity may provide less than 30 days' notice to remedy a condition before imposing a civil fine if the entity determines that a specific condition of

the property threatens public health or safety and provided that notice of that determination and time for compliance is given.

(d) Fines and penalties collected pursuant to this section shall be directed to local nuisance abatement programs.

(e) A governmental entity may not impose fines on a legal owner under both this section and a local ordinance.

(f) These provisions shall not preempt any local ordinance.

(g) This section shall only apply to residential real property.

(h) The rights and remedies provided in this section are cumulative and in addition to any other rights and remedies provided by law.

## CHAPTER 75

An act to add Section 25245 to the Business and Professions Code, relating to alcoholic beverages.

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) That wine produced in Lodi from grapes grown in the Lodi region has national and international recognition.

(b) The likely proliferation of smaller, separate viticultural area designations, while highly desirable within the developing Lodi region, has the potential of diminishing the historical, agricultural, and economic importance of the Lodi winegrowing area and confusing consumers.

(c) Thus, it is necessary to require wines produced within the boundaries of the existing Lodi appellation to be labeled as being derived from that region, if the wine label indicates that they are produced within a separate viticultural area within Lodi wine country, to preserve consumer identification and understanding of the name "Lodi" and to protect this important state agricultural resource and wine products derived from that area.

SEC. 2. Section 25245 is added to the Business and Professions Code, to read:

25245. (a) Any wine labeled with a viticultural area appellation of origin established pursuant to Part 9 (commencing with Section 9.1) of Title 27 of the Code of Federal Regulations that is located entirely within the "Lodi" viticultural area shall bear the designation "Lodi" on the label in direct conjunction therewith in a type size not smaller than 1mm less than that of said viticultural area designation, provided neither designation is smaller than 2mm on containers of more than 187ml or smaller than 1mm on containers of 187ml or less.

(b) The department may suspend or revoke the license of any person who violates this section.

(c) This section shall not apply to any wine labeled with a viticultural area appellation of origin established pursuant to Part 9 (commencing with Section 9.1) of Title 27 of the Code of Federal Regulations when the name of the appellation includes the term "Lodi."

(d) This section applies only to wine that is bottled on or after January 1, 2009.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the

definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

*The people of the State of California do enact as follows:*

SECTION 1. Section 3524.5 is added to the Business and Professions Code, to read:

3524.5. The committee may require a licensee to complete continuing education as a condition of license renewal under Section 3523 or 3524. (B) Access to state summary criminal history information, as defined in Section 11105 of the Penal Code, whether in full or in summary.

(C) Access to cash, checks, or other accountable items.

(2) The commission shall require that any services contract that is entered into, renewed, or amended on or after January 1, 2009, include a provision requiring the contractor to agree to permit the commission to require fingerprint images and associated information from the contractor's employees, contractors, agents, or subcontractors, whose duties include, or would include, access to information and accountable items under paragraph (1) as part of a contract with the commission, in order for the commission to request criminal background checks on those individuals.

(c) The Department of Justice shall respond to the California Gambling Control Commission with information as provided under subdivision (p) of Section 11105 of the Penal Code.

(d) The California Gambling Control Commission shall request subsequent arrest notification from the Department of Justice, as provided under Section 11105.2 of the Penal Code, for individuals described in subdivision (a) hired on or after January 1, 2009.

(e) The Department of Justice may assess a fee sufficient to cover the processing costs required under this section, as authorized pursuant to subdivision (e) of Section 11105 of the Penal Code.

(f) This section does not apply to an employee of the California Gambling Control Commission whose appointment occurred prior to January 1, 2009.

(g) The executive director of the California Gambling Control Commission may investigate the criminal history of persons applying for employment and prospective service contractors and their agents, subcontractors, or employees, in order to make a final determination of a person's fitness to perform duties that would include access to any information or accountable items specified under paragraph (1) of subdivision (a). Under no circumstances shall a person who would be disqualified from holding a state gambling license pursuant to subdivisions (c) to (f), inclusive, of Section 19859 of the Business and Professions Code be selected, appointed, or hired in a position that would include any duties involving access to information or accountable items specified under paragraph (1) of subdivision (a).

## CHAPTER 78

An act to amend Section 1104.9 of the Insurance Code, relating to insurance.

[Approved by Governor July 8, 2008. Filed with Secretary of State July 8, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1104.9 of the Insurance Code is amended to read:

1104.9. (a) (1) As used in this section, "qualified custodian" means: (A) commercial banks (as defined in Section 105 of the Financial Code), savings and loan associations (as defined in Section 5102 of the Financial Code), and trust companies (other than trust departments of title insurance companies), or any entity approved by the commissioner as a qualified custodian; (B) that is either (i) domiciled and has a principal place of business in this state or (ii) a national banking association with a trust office located in this state; and (C) that either has a net worth of at least one hundred million dollars ($100,000,000) or is able to demonstrate to the satisfaction of the commissioner that it is financially secure. The commissioner may consider, among other factors, evidence of the following in order to determine whether a custodian is financially secure for the purpose of this subdivision: (i) its obligations under an agreement approved by the commissioner pursuant to subdivision (c) are guaranteed

by its parent holding company, (ii) its parent holding company has a net worth of at least one hundred million dollars ($100,000,000), or (iii) it is a member of a holding company system with a net worth of at least one hundred million dollars ($100,000,000).

(2) As used in this section, "qualified depository" means an entity that is located in this state or a reciprocal state and is (A) a depository that provides for the long-term immobilization of securities or a clearing corporation that is also a depository, and that in either case has been approved by or registered with the Securities and Exchange Commission, (B) a Federal Reserve bank, or (C) an entity approved by the commissioner as a qualified depository.

A "qualified depository" may also include an entity that is located outside the United States, if it is a securities depository and clearing agency, incorporated or organized under the laws of a country other than the United States, (i) that operates a transnational system for securities or equivalent book entries (specifically Euroclear and Cedel, or successors to all or substantially all of their operations), or (ii) that operates a central system for securities or equivalent book entries, but solely for securities issued by, or by entities within, the country in which the securities depository and clearing agency is incorporated or organized. The depository shall meet all qualifying requirements imposed by this section upon Euroclear or Cedel.

(3) As used in this section, "qualified subcustodian" means an entity located in this state or a reciprocal state (A) that holds securities of the domestic insurer, and maintains an account through which the securities are held, in this state or a reciprocal state and (B) that has shareholder equity of at least one hundred million dollars ($100,000,000) or is able to demonstrate to the satisfaction of the commissioner that it is financially secure. The qualified subcustodian shall be: (A) a commercial bank, a savings and loan association, or a trust company (other than trust departments of title insurance companies); (B) a subsidiary of a qualified custodian; or (C) any entity approved by the commissioner as a qualified subcustodian. The commissioner may consider, among other factors, evidence of the following in order to determine whether a subcustodian is financially secure for the purpose of this subdivision: (i) its obligations are guaranteed by its parent company, (ii) its parent holding company has shareholder equity of at least one hundred million dollars ($100,000,000), or (iii) it is a member of a holding company system with shareholder equity of at least one hundred million dollars ($100,000,000). A "qualified subcustodian" may also include an entity that is located outside the United States, that is used by the domestic insurer for the purpose of obtaining access to a qualified depository located outside the United States. The qualified foreign subcustodian shall be a banking

institution or trust company, incorporated or organized under the laws of a country other than the United States, that is regulated by that country's government or an agency thereof, and that has shareholders' equity in excess of two hundred million dollars ($200,000,000), whether in United States dollars or the equivalent of United States dollars, as of the close of its most recently completed fiscal year; or a majority-owned direct or indirect subsidiary of a qualified United States bank or bank holding company, if the subsidiary is incorporated or organized under the laws of a country other than the United States and has shareholders' equity in excess of one hundred million dollars ($100,000,000), whether in United States dollars or the equivalent of United States dollars, as of the close of its most recently completed fiscal year; or is able to demonstrate to the satisfaction of the commissioner that it is financially secure. The commissioner may consider, among other factors, evidence of the following in order to determine whether a qualified foreign subcustodian is financially secure for purposes of this subdivision: (i) its obligations are guaranteed by its parent company, (ii) its parent holding company has shareholder equity of at least two hundred million dollars ($200,000,000), or (iii) it is a member of a holding company system with shareholder equity of at least two hundred million dollars ($200,000,000).

(4) As used in this section, "subsidiary" means: (A) an entity all of whose voting securities (other than director qualifying shares, if any) are owned, directly or indirectly, by a qualified custodian; or (B) any affiliated entity approved by the commissioner as a subsidiary of a qualified custodian. For the purpose of this section, an affiliated entity means an entity that (A) controls or is controlled, either directly or indirectly or through one or more intermediaries by a qualified custodian or (B) is under the common control, directly or indirectly, as or with a qualified custodian.

(5) As used in this section, "entity approved by the commissioner as a qualified custodian," "entity approved by the commissioner as a qualified depository," "entity approved by the commissioner as a qualified subcustodian," and "entity approved by the commissioner as a subsidiary of a qualified custodian" mean those entities that meet the conditions or standards established by the commissioner. The commissioner shall charge and collect in advance a one-time fee of one thousand five hundred dollars ($1,500) to review an application for approval of any entity pursuant to this section.

(6) As used in this section, "reciprocal state" has the same meaning as in subdivision (f) of Section 1064.1.

(7) As used in this section, "moneys" means cash held incidental to securities transactions occurring in the ordinary course of business with

respect to securities held pursuant to the custodial agreements under this section.

(8) (A) Except as provided in subparagraph (B), as used in this section, "insurer," "domestic insurer," and "domestic admitted insurer" mean any insurer, other than a domestic life insurer that is incorporated or that has its principal place of business in this state. Except as provided in subparagraph (B), no portion of this section applies to domestic life insurers nor shall this section affect the interpretation of any other portion of this code with respect to domestic life insurers nor is it intended to create a precedent for the application of its provisions to those insurers. However, the exclusion of domestic life insurers from this section shall not be construed to diminish the commissioner's existing authority over those insurers under any other provision of this code.

(B) Domestic life insurers that are wholly owned by any insurer other than a domestic life insurer or are part of an insurance holding company system whose other insurer affiliates are not domestic life insurers may elect to be subject to this section by affirmatively stating that election in the statement otherwise required to be filed by that system pursuant to Section 1215.4.

(b) Notwithstanding Section 1104.1, a domestic admitted insurer may maintain its securities and moneys in a reciprocal state, subject to the requirements of this section, through a custodian account located in California in or with a qualified custodian, and that qualified custodian may maintain those securities or moneys in a qualified depository or qualified subcustodian, either or both of which may be located in a reciprocal state. In addition, a domestic insurer that has foreign investments or any other investments that require delivery outside of the United States upon sale or maturity that qualify under Section 1240, 1241, or 10506, or any other provision of this code, may maintain those securities or moneys in or with a qualified depository located in a jurisdiction outside the United States. However, the aggregate amount of general account investments so deposited shall not exceed the lesser of 5 percent of the total admitted assets of the insurer or 25 percent of the excess of admitted assets over the sum of paid-up capital, liabilities, and surplus required by Section 700.02. However, unless exempted by the commissioner, not more than 50 percent of that amount of assets that an insurer is authorized to invest pursuant to Section 1241 or 1241.1 may be maintained in any single country in a qualified depository as defined in clause (ii) of paragraph (2) of subdivision (a) and as to life companies not more than 12.5 percent of that amount of assets that an insurer is authorized to invest pursuant to Section 1241 or 1241.1 may be maintained in any single country in a qualified depository as defined in clause (ii) of paragraph (2) of subdivision (a). The percentage or dollar

value of admitted assets and paid-up capital and liabilities shall be determined by the insurer's last preceding annual statement of conditions and affairs made as of the preceding December 31 that has been filed with the commissioner pursuant to law. No broker or agent, as defined in the Federal Securities Exchange Act of 1934 (15 U.S.C. Sec. 78c et seq.), may serve as a qualified custodian, qualified subcustodian, or qualified depository under this section. However, no otherwise qualified custodian or subcustodian shall be disqualified on account of its activities as a broker or dealer, as so defined, when the activities are incidental to its custodial or other business.

(c) No securities shall be deposited in or with a qualified custodian, qualified depository, or qualified subcustodian except as authorized by an agreement between the insurer and the qualified custodian, if the agreement is satisfactory to and has been approved by the commissioner. The agreement shall require that the securities be held by the qualified custodian for the benefit of the insurer and that the books and records of the qualified custodian shall so designate. The agreement shall further require that beneficial title to the securities remain in the insurer and shall require that the qualified subcustodian and qualified depository be the agents of the qualified custodian. The agreement shall also specifically require that the qualified custodian shall exercise the standard of care of a professional custodian engaged in the banking or trust company industry and having professional expertise in financial and securities processing transactions and custody would observe in these affairs. This section does not affect the burden of proof under applicable law with respect to the assertion of liability in any claim, action, or dispute alleging any breach of, or failure to observe, that standard of care.

(d) No agreement between the qualified custodian and the insurer shall be approved by the commissioner unless the qualified custodian agrees therein to comply with this section. Except when the agreement is submitted in conjunction with an application for an original certificate of authority or variable contract qualification, a fee of five hundred dollars ($500) shall be paid to the commissioner at the time of filing the agreement for approval. However, no fee shall be required if the form of the agreement has been previously submitted for approval and approved by the commissioner as certified by the insurer and qualified custodian submitting the agreement to the commissioner. The agreement shall be deemed approved unless, within 60 days after receipt by the commissioner of that agreement and any required filing fee, the commissioner has disapproved the agreement in writing citing specific reasons for disapproval.

(e) Notwithstanding the maintenance of securities with an out-of-state qualified depository or qualified subcustodian pursuant to agreement, if the commissioner has reasonable cause to believe that the domestic insurer (1) is conducting its business and affairs in a manner as to threaten to render it insolvent, or (2) is in a hazardous condition or is conducting its business and affairs in a manner that is hazardous to its policyholders, creditors, or the public, or (3) has committed or is committing or has engaged or is engaging in any act that would constitute grounds for rendering it subject to conservation or liquidation proceedings, or if the commissioner determines that irreparable loss and injury to the property and business of the domestic insurer has occurred or may occur unless the commissioner acts immediately, then the commissioner may, without hearing, order the insurer and the qualified custodian promptly to effect the transfer of the securities back to a qualified custodian, qualified subcustodian, or qualified depository located in this state from any qualified depository or qualified subcustodian located outside of this state (the transfer order). Upon receipt of the transfer order, the qualified custodian shall promptly effect the return of the securities. Notwithstanding the pendency of any hearing or action provided for in subdivision (f), the transfer order shall be complied with by those persons subject to that order. Any challenge to the validity of the transfer order shall be made in accordance with subdivision (f). It is the responsibility of both the insurer and the qualified custodian to oversee that compliance with the transfer order is completed as expeditiously as possible. Upon receipt of a transfer order, there shall be no trading of the securities without specific instructions from the commissioner until the securities are received in this state, except to the extent trading transactions are in process on the day the transfer order is received by the insurer and the failure to complete the trade may result in loss to the insurer's account. Issuance of a transfer order does not affect the qualified custodian's liabilities with regard to the securities that are the subject of the order.

(f) At the same time the transfer order is served, the commissioner shall issue and also serve upon the insurer a notice of hearing to be held at a time and place fixed therein which shall not be less than 20 nor more than 45 days after the service thereof. Upon request of the insurer and agreement of the department, the hearing may be held within a shorter time but in no event less than 10 days after the service of the notice of hearing. The transfer order and notice of hearing may be served by certified mail, express mail, messenger, telegram, or any other means calculated to give prompt actual notice to (1) the California office of the insurer designated in the agreement, its home office as shown on its most recently filed annual or quarterly statement, or its California agent for service of process; and (2) the California office of the qualified custodian

designated in the agreement. If, as a result of the hearing, any of the statements as to conduct, conditions, or grounds for the transfer order are found to be true, or if other conditions or grounds are discovered or become known at the hearing and are found to be true, the commissioner shall affirm the transfer order and may make additional order or orders, pertaining to the transfer order, as may be reasonably necessary.

The insurer subject to the transfer order is entitled to judicial review in the state of the commissioner's order issued as a result of the hearing.

Alternatively, at any time prior to the commencement of the hearing on the transfer order, the insurer may waive the hearing and have judicial review in this state of the transfer order by petition for writ of mandate and declaratory relief without first exhausting administrative remedies or procedures. In that event the insurer is not entitled to any extraordinary remedies prior to trial.

No person other than the insurer has standing at the hearing by the commissioner or for any judicial review of the transfer order.

The bond shall be in a sum not less than one hundred percent of the total amount payable by the terms of the contract.

(2) The state entity shall state in its call for bids for any contract that a payment bond is required in the case of such an expenditure.

(b) A payment bond filed and approved in accordance with this section shall be sufficient to enter upon the performance of work under a duly authorized contract that supplements the contract for which the payment

All other public entities shall be governed by Section 3247 of the Civil Code.

(e) For purposes of this section, "public work" includes the erection, construction, alteration, repair, or improvement of any state structure, building, road, or other state improvement of any kind.

## CHAPTER 80

An act to amend Sections 1063.1, 1063.2, and 1063.75 of the Insurance Code, relating to insurance.

[Approved by Governor July 8, 2008. Filed with Secretary of State July 8, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1063.1 of the Insurance Code is amended to read:

1063.1. As used in this article:

(a) "Member insurer" means an insurer required to be a member of the association in accordance with subdivision (a) of Section 1063, except and to the extent that the insurer is participating in an insolvency program adopted by the United States government.

(b) "Insolvent insurer" means an insurer that was a member insurer of the association, consistent with paragraph (11) of subdivision (c), either at the time the policy was issued or when the insured event occurred, and against which an order of liquidation or receivership with a finding of insolvency has been entered by a court of competent jurisdiction, or, in the case of the State Compensation Insurance Fund, if a finding of insolvency is made by a duly enacted legislative measure.

(c) (1) "Covered claims" means the obligations of an insolvent insurer, including the obligation for unearned premiums, (A) imposed

by law and within the coverage of an insurance policy of the insolvent insurer; (B) which were unpaid by the insolvent insurer; (C) which are presented as a claim to the liquidator in this state or to the association on or before the last date fixed for the filing of claims in the domiciliary liquidating proceedings; (D) which were incurred prior to the date coverage under the policy terminated and prior to, on, or within 30 days after the date the liquidator was appointed; (E) for which the assets of the insolvent insurer are insufficient to discharge in full; (F) in the case of a policy of workers' compensation insurance, to provide workers' compensation benefits under the workers' compensation law of this state; and (G) in the case of other classes of insurance if the claimant or insured is a resident of this state at the time of the insured occurrence, or the property from which the claim arises is permanently located in this state.

(2) "Covered claims" also include the obligations assumed by an assuming insurer from a ceding insurer where the assuming insurer subsequently becomes an insolvent insurer if, at the time of the insolvency of the assuming insurer, the ceding insurer is no longer admitted to transact business in this state. Both the assuming insurer and the ceding insurer shall have been member insurers at the time the assumption was made. "Covered claims" under this paragraph shall be required to satisfy the requirements of subparagraphs (A) to (G), inclusive, of paragraph (1), except for the requirement that the claims be against policies of the insolvent insurer. The association shall have a right to recover any deposit, bond, or other assets that may have been required to be posted by the ceding company to the extent of covered claim payments and shall be subrogated to any rights the policyholders may have against the ceding insurer.

(3) "Covered claims" does not include obligations arising from the following:

(A) Life, annuity, health, or disability insurance.

(B) Mortgage guaranty, financial guaranty, or other forms of insurance offering protection against investment risks.

(C) Fidelity or surety insurance including fidelity or surety bonds, or any other bonding obligations.

(D) Credit insurance.

(E) Title insurance.

(F) Ocean marine insurance or ocean marine coverage under any insurance policy including claims arising from the following: the Jones Act (46 U.S.C. Sec. 688), the Longshore and Harbor Workers' Compensation Act (33 U.S.C. Sec. 901 et seq.), or any other similar federal statutory enactment, or any endorsement or policy affording protection and indemnity coverage.

(G) Any claims servicing agreement or insurance policy providing retroactive insurance of a known loss or losses, except a special excess workers' compensation policy issued pursuant to subdivision (c) of Section 3702.8 of the Labor Code that covers all or any part of workers' compensation liabilities of an employer that is issued, or was previously issued, a certificate of consent to self-insure pursuant to subdivision (b) of Section 3700 of the Labor Code.

(4) "Covered claims" does not include any obligations of the insolvent insurer arising out of any reinsurance contracts, nor any obligations incurred after the expiration date of the insurance policy or after the insurance policy has been replaced by the insured or canceled at the insured's request, or after the insurance policy has been canceled by the liquidator, nor any obligations to any state or to the federal government.

(5) "Covered claims" does not include any obligations to insurers, insurance pools, or underwriting associations, nor their claims for contribution, indemnity, or subrogation, equitable or otherwise, except as otherwise provided in this chapter.

An insurer, insurance pool, or underwriting association may not maintain, in its own name or in the name of its insured, any claim or legal action against the insured of the insolvent insurer for contribution, indemnity or by way of subrogation, except insofar as, and to the extent only, that the claim exceeds the policy limits of the insolvent insurer's policy. In those claims or legal actions, the insured of the insolvent insurer is entitled to a credit or setoff in the amount of the policy limits of the insolvent insurer's policy, or in the amount of the limits remaining, where those limits have been diminished by the payment of other claims.

(6) "Covered claims," except in cases involving a claim for workers' compensation benefits or for unearned premiums, does not include any claim in an amount of one hundred dollars ($100) or less, nor that portion of any claim that is in excess of any applicable limits provided in the insurance policy issued by the insolvent insurer.

(7) "Covered claims" does not include that portion of any claim, other than a claim for workers' compensation benefits, that is in excess of five hundred thousand dollars ($500,000).

(8) "Covered claims" does not include any amount awarded as punitive or exemplary damages, nor any amount awarded by the Workers' Compensation Appeals Board pursuant to Section 5814 or 5814.5 because payment of compensation was unreasonably delayed or refused by the insolvent insurer.

(9) "Covered claims" does not include (A) any claim to the extent it is covered by any other insurance of a class covered by this article available to the claimant or insured nor (B) any claim by any person other than the original claimant under the insurance policy in his or her

own name, his or her assignee as the person entitled thereto under a premium finance agreement as defined in Section 673 and entered into prior to insolvency, his or her executor, administrator, guardian or other personal representative or trustee in bankruptcy and does not include any claim asserted by an assignee or one claiming by right of subrogation, except as otherwise provided in this chapter.

(10) "Covered claims" does not include any obligations arising out of the issuance of an insurance policy written by the separate division of the State Compensation Insurance Fund pursuant to Sections 11802 and 11803.

(11) "Covered claims" does not include any obligations of the insolvent insurer arising from any policy or contract of insurance issued or renewed prior to the insolvent insurer's admission to transact insurance in the State of California.

(12) "Covered claims" does not include surplus deposits of subscribers as defined in Section 1374.1.

(13) "Covered claims" shall also include obligations arising under an insurance policy written to indemnify a permissibly self-insured employer pursuant to subdivision (b) or (c) of Section 3700 of the Labor Code for its liability to pay workers' compensation benefits in excess of a specific or aggregate retention, provided, however, that for purposes of this article, those claims shall not be considered workers' compensation claims and therefore are subject to the per claim limit in paragraph (7) and any payments and expenses related thereto shall be allocated to category (c) for claims other than workers' compensation, homeowners, and automobile, as provided in Section 1063.5.

These provisions shall apply to obligations arising under any policy as described herein issued to a permissibly self-insured employer or group of self-insured employers pursuant to Section 3700 of the Labor Code and notwithstanding any other provision of the Insurance Code, those obligations shall be governed by this provision in the event that the Self-Insurers' Security Fund is ordered to assume the liabilities of a permissibly self-insured employer or group of self-insured employers pursuant to Section 3701.5 of the Labor Code. The provisions of this paragraph apply only to insurance policies written to indemnify a permissibly self-insured employer or group of self-insured employers under subdivision (b) or (c) of Section 3700, for its liability to pay workers' compensation benefits in excess of a specific or aggregate retention, and this paragraph does not apply to special excess workers' compensation insurance policies unless issued pursuant to authority granted in subdivision (c) of Section 3702.8 of the Labor Code, and as provided for in subparagraph (G) of paragraph (3) of subdivision (c). In addition, this paragraph does not apply to any claims servicing agreement

or insurance policy providing retroactive insurance of a known loss or losses as are excluded in subparagraph (G) of paragraph (3) of subdivision (c).

Each permissibility self-insured employer or group of self-insured employers, or the Self-Insurers' Security Fund, shall, to the extent required by the Labor Code, be responsible for paying, adjusting, and defending each claim arising under policies of insurance covered under this section, unless the benefits paid on a claim exceed the specific or aggregate retention, in which case:

(A) If the benefits paid on the claim exceed the specific or aggregate retention, and the policy requires the insurer to defend and adjust the claim, the California Insurance Guarantee Association (CIGA) shall be solely responsible for adjusting and defending the claim, and shall make all payments due under the claim, subject to the limitations and exclusions of this article with regards to covered claims. As to each claim subject to this paragraph, notwithstanding any other provisions of the Insurance Code or the Labor Code, and regardless of whether the amount paid by CIGA is adequate to discharge a claim obligation, neither the self-insured employer, group of employers, nor the Self-Insurers' Security Fund, shall have any obligation to pay benefits over and above the specific or aggregate retention, except as provided in subdivision (c).

(B) If the benefits paid on the claim exceed the specific or aggregate retention, and the policy does not require the insurer to defend and adjust the claim, the permissibility self-insured employer or group of self-insured employers, or the Self-Insurers' Security Fund, shall not have any further payment obligations with respect to the claim, but shall continue defending and adjusting the claim, and shall have the right, but not the obligation, in any proceeding to assert all applicable statutory limitations and exclusions as contained in this article with regard to the covered claim. CIGA shall have the right, but not the obligation, to intervene in any proceeding where the self-insured employer, group of self-insured employers, or the Self-Insurers' Security Fund is defending any such claim and shall be permitted to raise the appropriate statutory limitations and exclusions as contained in this article with respect to covered claims. Regardless of whether the self-insured employer or group of employers, or the Self-Insurers' Security Fund, asserts the applicable statutory limitations and exclusions, or whether CIGA intervenes in any such proceeding, CIGA shall be solely responsible for paying all benefits due on the claim, subject to the exclusions and limitations of this article with respect to covered claims. As to each claim subject to this paragraph, notwithstanding any other provision of the Insurance Code or the Labor Code and regardless of whether the amount paid by CIGA is adequate to discharge a claim obligation, neither the

self-insured employer, group of employers, nor the Self-Insurers' Security Fund, shall have any obligation to pay benefits over and above the specific or aggregate retention, except as provided in this subdivision.

(C) In the event that the benefits paid on the covered claim exceed the per claim limit in paragraph (7) of subdivision (c), the responsibility for paying, adjusting, and defending the claim shall be returned to the permissibly self-insured employer or group of employers, or the Self-Insurers' Security Fund.

These provisions shall apply to all pending and future insolvencies. For purposes of this paragraph, a pending insolvency is one involving a company that is currently receiving benefits from the guaranty association.

(d) "Admitted to transact insurance in this state" means an insurer possessing a valid certificate of authority issued by the department.

(e) "Affiliate" means a person who directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with an insolvent insurer on December 31 of the year next preceding the date the insurer becomes an insolvent insurer.

(f) "Control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or nonmanagement services, or otherwise, unless the power is the result of an official position with or corporate office held by the person. Control is presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing, 10 percent or more of the voting securities of any other person. This presumption may be rebutted by showing that control does not in fact exist.

(g) "Claimant" means any insured making a first party claim or any person instituting a liability claim; provided that no person who is an affiliate of the insolvent insurer may be a claimant.

(h) "Ocean marine insurance" includes marine insurance as defined in Section 103, except for inland marine insurance, as well as any other form of insurance, regardless of the name, label, or marketing designation of the insurance policy, that insures against maritime perils or risks and other related perils or risks, which are usually insured against by traditional marine insurance such as hull and machinery, marine builders' risks, and marine protection and indemnity. Those perils and risks insured against include, without limitation, loss, damage, or expense or legal liability of the insured arising out of or incident to ownership, operation, chartering, maintenance, use, repair, or construction of any vessel, craft or instrumentality in use in ocean or inland waterways, including liability

of the insured for personal injury, illness, or death for loss or damage to the property of the insured or another person.

(i) "Unearned premium" means that portion of a premium as calculated by the liquidator that had not been earned because of the cancellation of the insolvent insurer's policy and is that premium remaining for the unexpired term of the insolvent insurer's policy. "Unearned premium" does not include any amount sought as return of a premium under any policy providing retroactive insurance of a known loss or return of a premium under any retrospectively rated policy or a policy subject to a contingent surcharge or any policy in which the final determination of the premium cost is computed after expiration of the policy and is calculated on the basis of actual loss experience during the policy period.

SEC. 2. Section 1063.2 of the Insurance Code is amended to read:

1063.2. (a) The association shall pay and discharge covered claims and in connection therewith pay for or furnish loss adjustment services and defenses of claimants when required by policy provisions. It may do so either directly by itself or through a servicing facility or through a contract for reinsurance and assumption of liabilities by one or more member insurers or through a contract with the liquidator, upon terms satisfactory to the association and to the liquidator, under which payments on covered claims would be made by the liquidator using funds provided by the association.

(b) The association shall be a party in interest in all proceedings involving a covered claim, and shall have the same rights as the insolvent insurer would have had if not in liquidation, including, but not limited to, the right to: (1) appear, defend, and appeal a claim in a court of competent jurisdiction; (2) receive notice of, investigate, adjust, compromise, settle, and pay a covered claim; and (3) investigate, handle, and deny a noncovered claim. The association shall have no cause of action against the insureds of the insolvent insurer for any sums it has paid out, except as provided by this article.

(c) (1) If damages against uninsured motorists are recoverable by the claimant from his or her own insurer, the applicable limits of the uninsured motorists coverage shall be a credit against a covered claim payable under this article. Any person having a claim that may be recovered under more than one insurance guaranty association or its equivalent shall seek recovery first from the association of the place of residence of the insured, except that if it is a first-party claim for damage to property with a permanent location, he or she shall seek recovery first from the association of the permanent location of the property, and if it is a workers' compensation claim, he or she shall seek recovery first from the association of the residence of the claimant. Any recovery under this article shall be reduced by the amount of recovery from any other

insurance guaranty association or its equivalent. A member insurer may recover in subrogation from the association only one-half of any amount paid by such insurer under uninsured motorist coverage for bodily injury or wrongful death (and nothing for a payment for anything else), in those cases where the injured person insured by such an insurer has proceeded under his or her uninsured motorist coverage on the ground that the tort-feasor is uninsured as a result of the insolvency of his or her liability insurer (an insolvent insurer as defined in this article), provided that such member insurer shall waive all rights of subrogation against such tort-feasor. Any amount paid a claimant in excess of the amount authorized by this section may be recovered by action, or other proceeding, brought by the association.

(2) Any claimant having collision coverage on a loss which is covered by the insolvent company's liability policy shall first proceed against his or her collision carrier. Neither that claimant nor the collision carrier, if it is a member of the association, shall have the right to sue or continue a suit against the insured of the insolvent insurance company for such collision damage.

(d) The association shall have the right to recover from any person who is an affiliate of the insolvent insurer and whose liability obligations to other persons are satisfied in whole or in part by payments made under this article the amount of any covered claim and allocated claims expense paid on behalf of that person pursuant to this article.

(e) Any person having a claim or legal right of recovery under any governmental insurance or guaranty program which is also a covered claim, shall be required to first exhaust his or her right under the program. Any amount payable on a covered claim shall be reduced by the amount of any recovery under the program.

(f) "Covered claims" for unearned premium by lenders under insurance premium finance agreements as defined in Section 673 shall be computed as of the earliest cancellation date of the policy pursuant to Section 673 or subdivision (g) of this section.

(g) "Covered claims" shall not include any judgments against or obligations or liabilities of the insolvent insurer or the commissioner, as liquidator, or otherwise resulting from alleged or proven torts, nor shall any default judgment or stipulated judgment against the insolvent insurer, or against the insured of the insolvent insurer, be binding against the association.

(h) "Covered claims" shall not include any loss adjustment expenses, including adjustment fees and expenses, attorney fees and expenses, court costs, interest, and bond premiums, incurred prior to the appointment of a liquidator.

SEC. 3. Section 1063.75 of the Insurance Code is amended to read:

1063.75. Any bonds issued to provide funds for covered claim obligations for workers' compensation claims shall be issued prior to January 1, 2011, in an aggregate principal amount outstanding at any one time not to exceed $1.5 billion, and any bonds issued or issued to refund bonds shall not have a final maturity exceeding 20 years from the date of issuance. The bonds shall be issued at the request of CIGA, shall be in the form, shall bear the date or dates, and shall mature at the time or times as the indenture authorized by the request may provide. The bonds may be issued in one or more series, as serial bonds or as term bonds, or as a combination thereof, and, notwithstanding any other provision of law, the amount of principal of, or interest on, bonds maturing at each date of maturity need not be equal. The bonds shall bear interest at the rate or rates, variable or fixed or a combination thereof, be in the denominations, be in the form, either coupon or registered, carry the registration privileges, be executed in the manner, be payable in the medium of payment at the place or places within or without the state, be subject to the terms of redemption, contain the terms and conditions, and be secured by the covenants as the indenture may provide. The indenture may provide for the proceeds of the bonds and funds securing the bonds to be invested in any securities and investments, including investment agreements, as specified therein. CIGA may enter into or authorize any ancillary obligations or derivative agreements as it determines necessary or desirable to manage interest rate risk or security features related to the bonds. The bonds shall be sold at public or private sale by the Treasurer at, above, or below the principal amount thereof, on the terms and conditions and for the consideration in the medium of payment that the Treasurer shall determine prior to the sale.

The ordinance shall take effect on the day immediately following the day of the election at which the proposition is adopted.

(b) If the ordinance expands, extends, or increases the transactions and use tax, the commission shall contract with the State Board of

Equalization to perform all functions incident to the administration and operation of the ordinance.

SEC. 9. Section 132330 of the Public Utilities Code is amended to read:

132330. Any action or proceeding wherein the validity of the adoption of the extension, expansion, or increase of the retail transactions and use tax, or the issuance of any bonds thereunder, or any of the proceedings in relation thereto is contested, questioned, or denied, shall be commenced within 60 days from the date of the election at which the ordinance is approved; otherwise, the bonds and all proceedings in relation thereto, including the adoption and approval of the ordinance and the levy and collection of the retail transactions and use tax, shall be held to be valid and in every respect legal and incontestable.

SEC. 10. Section 132332 of the Public Utilities Code is amended to read:

132332. The commission has no power to extend, expand, or increase any tax other than the transactions and use tax extended, expanded, or increased upon approval of the voters in accordance with this chapter.

## CHAPTER 86

An act to amend Sections 136.2 and 273.75 of the Penal Code, relating to domestic violence.

[Approved by Governor July 10, 2008. Filed with Secretary of State July 10, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 136.2 of the Penal Code is amended to read:

136.2. (a) Except as provided in subdivision (c), upon a good cause belief that harm to, or intimidation or dissuasion of, a victim or witness has occurred or is reasonably likely to occur, any court with jurisdiction over a criminal matter may issue orders including, but not limited to, the following:

(1) Any order issued pursuant to Section 6320 of the Family Code.

(2) An order that a defendant shall not violate any provision of Section 136.1.

(3) An order that a person before the court other than a defendant, including, but not limited to, a subpoenaed witness or other person entering the courtroom of the court, shall not violate any provisions of Section 136.1.

(4) An order that any person described in this section shall have no communication whatsoever with any specified witness or any victim, except through an attorney under any reasonable restrictions that the court may impose.

(5) An order calling for a hearing to determine if an order as described in paragraphs (1) to (4), inclusive, should be issued.

(6) An order that a particular law enforcement agency within the jurisdiction of the court provide protection for a victim or a witness, or both, or for immediate family members of a victim or a witness who reside in the same household as the victim or witness or within reasonable proximity of the victim's or witness' household, as determined by the court. The order shall not be made without the consent of the law enforcement agency except for limited and specified periods of time and upon an express finding by the court of a clear and present danger of harm to the victim or witness or immediate family members of the victim or witness.

For purposes of this paragraph, "immediate family members" include the spouse, children, or parents of the victim or witness.

(7) (A) Any order protecting victims of violent crime from all contact by the defendant, or contact, with the intent to annoy, harass, threaten, or commit acts of violence, by the defendant. The court or its designee shall transmit orders made under this paragraph to law enforcement personnel within one business day of the issuance, modification, extension, or termination of the order, pursuant to subdivision (a) of Section 6380 of the Family Code. It is the responsibility of the court to transmit the modification, extension, or termination orders made under this paragraph to the same agency that entered the original protective order into the Domestic Violence Restraining Order System.

(B) (i) If a court does not issue an order pursuant to subparagraph (A) in a case in which the defendant is charged with a crime of domestic violence as defined in Section 13700, the court on its own motion shall consider issuing a protective order upon a good cause belief that harm to, or intimidation or dissuasion of, a victim or witness has occurred or is reasonably likely to occur, that provides as follows:

(I) The defendant shall not own, possess, purchase, receive, or attempt to purchase or receive, a firearm while the protective order is in effect.

(II) The defendant shall relinquish any firearms that he or she owns or possesses pursuant to Section 527.9 of the Code of Civil Procedure.

(ii) Every person who owns, possesses, purchases, or receives, or attempts to purchase or receive, a firearm while this protective order is in effect is punishable pursuant to subdivision (g) of Section 12021.

(C) Any order issued, modified, extended, or terminated by a court pursuant to this paragraph shall be issued on forms adopted by the

Judicial Council of California and that have been approved by the Department of Justice pursuant to subdivision (i) of Section 6380 of the Family Code. However, the fact that an order issued by a court pursuant to this section was not issued on forms adopted by the Judicial Council and approved by the Department of Justice shall not, in and of itself, make the order unenforceable.

(b) Any person violating any order made pursuant to paragraphs (1) to (7), inclusive, of subdivision (a) may be punished for any substantive offense described in Section 136.1, or for a contempt of the court making the order. A finding of contempt shall not be a bar to prosecution for a violation of Section 136.1. However, any person so held in contempt shall be entitled to credit for any punishment imposed therein against any sentence imposed upon conviction of an offense described in Section 136.1. Any conviction or acquittal for any substantive offense under Section 136.1 shall be a bar to a subsequent punishment for contempt arising out of the same act.

(c) (1) Notwithstanding subdivisions (a) and (e), an emergency protective order issued pursuant to Chapter 2 (commencing with Section 6250) of Part 3 of Division 10 of the Family Code or Section 646.91 of the Penal Code shall have precedence in enforcement over any other restraining or protective order, provided the emergency protective order meets all of the following requirements:

(A) The emergency protective order is issued to protect one or more individuals who are already protected persons under another restraining or protective order.

(B) The emergency protective order restrains the individual who is the restrained person in the other restraining or protective order specified in subparagraph (A).

(C) The provisions of the emergency protective order are more restrictive in relation to the restrained person than are the provisions of the other restraining or protective order specified in subparagraph (A).

(2) An emergency protective order that meets the requirements of paragraph (1) shall have precedence in enforcement over the provisions of any other restraining or protective order only with respect to those provisions of the emergency protective order that are more restrictive in relation to the restrained person.

(d) (1) A person subject to a protective order issued under this section shall not own, possess, purchase, receive, or attempt to purchase or receive a firearm while the protective order is in effect.

(2) The court shall order a person subject to a protective order issued under this section to relinquish any firearms he or she owns or possesses pursuant to Section 527.9 of the Code of Civil Procedure.

(3) Every person who owns, possesses, purchases or receives, or attempts to purchase or receive a firearm while the protective order is in effect is punishable pursuant to subdivision (g) of Section 12021 of the Penal Code.

(e) (1) In all cases where the defendant is charged with a crime of domestic violence, as defined in Section 13700, the court shall consider issuing the above-described orders on its own motion. All interested parties shall receive a copy of those orders. In order to facilitate this, the court's records of all criminal cases involving domestic violence shall be marked to clearly alert the court to this issue.

(2) In those cases in which a complaint, information, or indictment charging a crime of domestic violence, as defined in Section 13700, has been issued, a restraining order or protective order against the defendant issued by the criminal court in that case has precedence in enforcement over any civil court order against the defendant, unless a court issues an emergency protective order pursuant to Chapter 2 (commencing with Section 6250) of Part 3 of Division 10 of the Family Code or Section 646.91 of the Penal Code, in which case the emergency protective order shall have precedence in enforcement over any other restraining or protective order, provided the emergency protective order meets the following requirements:

(A) The emergency protective order is issued to protect one or more individuals who are already protected persons under another restraining or protective order.

(B) The emergency protective order restrains the individual who is the restrained person in the other restraining or protective order specified in subparagraph (A).

(C) The provisions of the emergency protective order are more restrictive in relation to the restrained person than are the provisions of the other restraining or protective order specified in subparagraph (A).

(3) Custody and visitation with respect to the defendant and his or her minor children may be ordered by a family or juvenile court consistent with the protocol established pursuant to subdivision (f), but if ordered after a criminal protective order has been issued pursuant to this section, the custody and visitation order shall make reference to, and acknowledge the precedence of enforcement of, any appropriate criminal protective order. On or before July 1, 2006, the Judicial Council shall modify the criminal and civil court forms consistent with this subdivision.

(f) On or before January 1, 2003, the Judicial Council shall promulgate a protocol, for adoption by each local court in substantially similar terms, to provide for the timely coordination of all orders against the same defendant and in favor of the same named victim or victims. The protocol

shall include, but shall not be limited to, mechanisms for assuring appropriate communication and information sharing between criminal, family, and juvenile courts concerning orders and cases that involve the same parties, and shall permit a family or juvenile court order to coexist with a criminal court protective order subject to the following conditions:

(1) Any order that permits contact between the restrained person and his or her children shall provide for the safe exchange of the children and shall not contain language either printed or handwritten that violates a "no contact order" issued by a criminal court.

(2) Safety of all parties shall be the courts' paramount concern. The family or juvenile court shall specify the time, day, place, and manner of transfer of the child, as provided in Section 3100 of the Family Code.

(g) On or before January 1, 2003, the Judicial Council shall modify the criminal and civil court protective order forms consistent with this section.

This subdivision shall apply to all applications for relief under this section which are filed on or after November 23, 1970.

Ability to make this reimbursement shall be determined by the court using the standards set forth in paragraph (2) of subdivision (g) of Section 987.8 and shall not be a prerequisite to a person's eligibility under this section. The court may order reimbursement in any case in which the petitioner appears to have the ability to pay, without undue hardship, all or any portion of the costs for services established pursuant to this subdivision.

(e) Relief shall not be granted under this section unless the prosecuting attorney has been given 15 days' notice of the petition for relief. The probation officer shall notify the prosecuting attorney when a petition is filed, pursuant to this section.

(f) If, after receiving notice pursuant to subdivision (e), the prosecuting attorney fails to appear and object to a petition for dismissal, the prosecuting attorney may not move to set aside or otherwise appeal the grant of that petition.

(g) Notwithstanding the above provisions or any other provision of law, the Governor shall have the right to pardon a person convicted of a violation of subdivision (c) of Section 286, Section 288, subdivision (c) of Section 288a, Section 288.5, or subdivision (j) of Section 289, if there are extraordinary circumstances.

In addition to the low- and moderate-income persons or families criteria established in subdivision (b) of Section 50826 and Sections 50827 and 50828, the department shall also utilize as criteria for the economic development allocation the federal standards of "blight" and "urgent need" under this section, Section 50832.1, and Section 50833.

(d) A jurisdiction may submit multiyear proposals for a period not exceeding three years in duration.

SEC. 2. Section 50832 of the Health and Safety Code, as added by Section 4 of Chapter 197 of the Statutes of 2005, is repealed.

SEC. 3. Section 50833 of the Health and Safety Code, as amended by Section 5 of Chapter 197 of the Statutes of 2005, is amended to read:

50833. (a) The department shall determine and announce in the applicable NOFA the percentage of the total amount of the State Block Grant Program funds set aside for economic development that shall be allocated to make economic development planning and technical assistance grants to eligible small cities or counties for business attraction, retention, and expansion programs for the development of local economic development strategies, predevelopment grant feasibility studies, and downtown revitalization programs. Eligible small cities or counties may contract with public agencies or nonprofit economic development corporations and other eligible subgrantees or for-profit corporations or entities to provide these services. Each applicant shall be required to provide a cash match of up to 25 percent of the total amount requested. A technical assistance grant received under this set-aside is in addition to the city or county ceiling, under Section 50832, or its ability to apply under the economic development or general program set-asides. The department shall determine and announce in the applicable NOFA the maximum per year grant amount. Each applicant shall not receive more than two grants per year and shall be eligible to apply each year, although no applicant shall receive grants in excess of the maximum amount determined by the department and announced in the applicable NOFA in any one year. Funds not applied for or allocated under this section

may be used for other economic development purposes under Sections 50832 and 50832.1.

(b) The department shall determine and announce in the applicable NOFA the percentage of the total amount of the State Block Grant Program funds not used for economic development that shall be set aside to make technical assistance grants to eligible small cities or counties for purposes including, but not limited to: inventory of housing needing rehabilitation in the district, income surveys of area residents, and any general studies of housing needs in the district. Each applicant shall be required to provide a cash match of up to 25 percent of the total amount requested. A technical assistance grant received under this set-aside is in addition to the city or county ceiling or its ability to apply under the economic development or general program set-asides. Unexpended funds allocated under this section shall revert to the general program, but not to the economic development set-aside. The department shall determine and announce in the applicable NOFA the maximum grant amount per application. Each applicant shall not receive more than two grants per year and shall be eligible to apply each year, although no applicant shall receive grants in excess of the maximum amount determined by the department and announced in the applicable NOFA in any one year.

(c) If, under federal law, the economic development planning and technical assistance grants and the general allocation planning and assistance grants are considered to be administrative expenditures, the department may reduce the percentages of the set-asides by up to the amount necessary to remain within the allowable limits for administrative expenditures.

(d) Two or more jurisdictions may pool their funds and make a joint application for the same project.

(e) General administrative activity planning studies shall not be counted against allocations under this section.

SEC. 4. Section 50833 of the Health and Safety Code, as added by Section 6 of Chapter 197 of the Statutes of 2005, is repealed.
