## CHAPTER 586

An act to amend Section 1277 of the Code of Civil Procedure, relating to name changes.

[Approved by Governor September 29, 2008. Filed with Secretary of State September 29, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1277 of the Code of Civil Procedure is amended to read:

1277. (a) If a proceeding for a change of name is commenced by the filing of a petition, except as provided in subdivisions (b), (c), and (e), the court shall thereupon make an order reciting the filing of the petition, the name of the person by whom it is filed, and the name proposed. The order shall direct all persons interested in the matter to appear before the court at a time and place specified, which shall be not less than six nor more than 12 weeks from the time of making the order, unless the court orders a different time, to show cause why the application for change of name should not be granted. The order shall direct all persons interested in the matter to make known any objection that they may have to the granting of the petition for change of name by filing a written objection, which includes the reasons for the objection, with the court at least two court days before the matter is scheduled to be heard and by appearing in court at the hearing to show cause why the petition for change of name should not be granted. The order shall state that, if no written objection is timely filed, the court may grant the petition without a hearing.

A copy of the order to show cause shall be published pursuant to Section 6064 of the Government Code in a newspaper of general circulation to be designated in the order published in the county. If no newspaper of general circulation is published in the county, a copy of the order to show cause shall be posted by the clerk of the court in three of the most public places in the county in which the court is located, for a like period. Proof shall be made to the satisfaction of the court of this publication or posting, at the time of the hearing of the application.

Four weekly publications shall be sufficient publication of the order to show cause. If the order is published in a daily newspaper, publication once a week for four successive weeks shall be sufficient.

If a petition has been filed for a minor by a parent and the other parent, if living, does not join in consenting thereto, the petitioner shall cause, not less than 30 days prior to the hearing, to be served notice of the time and place of the hearing or a copy of the order to show cause on the other parent pursuant to Section 413.10, 414.10, 415.10, or 415.40. If notice of the hearing cannot reasonably be accomplished pursuant to Section 415.10 or 415.40, the court may order that notice be given in a manner that the court determines is reasonably calculated to give actual notice to the nonconsenting parent. In that case, if the court determines that notice by publication is reasonably calculated to give actual notice to the nonconsenting parent, the court may determine that publication of

the order to show cause pursuant to this subdivision is sufficient notice to the nonconsenting parent.

(b) (1) If the petition for a change of name alleges a reason or circumstance described in paragraph (2), and the petitioner is a participant in the address confidentiality program created pursuant to Chapter 3.1 (commencing with Section 6205) of Division 7 of Title 1 of the Government Code, the action for a change of name is exempt from the requirement for publication of the order to show cause under subdivision (a), and the petition and the order of the court shall, in lieu of reciting the proposed name, indicate that the proposed name is confidential and will be on file with the Secretary of State pursuant to the provisions of the address confidentiality program.

(2) The procedure described in paragraph (1) applies to petitions alleging any of the following reasons or circumstances:

(A) To avoid domestic violence, as defined in Section 6211 of the Family Code.

(B) To avoid stalking, as defined in Section 646.9 of the Penal Code.

(C) The petitioner is, or is filing on behalf of, a victim of sexual assault, as defined in Section 1036.2 of the Evidence Code.

(3) For any petition under this subdivision, the current legal name of the petitioner shall be kept confidential by the court and shall not be published or posted in the court's calendars, indexes, or register of actions, as required by Article 7 (commencing with Section 69840) of Chapter 5 of Title 8 of the Government Code, or by any means or in any public forum, including a hardcopy or an electronic copy, or any other type of public media or display.

(4) (A) A petitioner may request that the court file the petition and any other papers associated with the proceeding under seal. The court may consider the request at the same time as the petition for name change, and may grant the request in any case in which the court finds that all of the following factors apply:

(i) There exists an overriding interest that overcomes the right of public access to the record.

(ii) The overriding interest supports sealing the record.

(iii) A substantial probability exists that the overriding interest will be prejudiced if the record is not sealed.

(iv) The proposed order to seal the records is narrowly tailored.

(v) No less restrictive means exist to achieve the overriding interest.

(B) On or before January 1, 2010, the Judicial Council shall develop rules of court and forms consistent with the requirements of this paragraph.

(c) A proceeding for a change of name for a witness participating in the state Witness Protection Program established by Title 7.5

(commencing with Section 14020) of Part 4 of the Penal Code who has been approved for the change of name by the program is exempt from the requirement for publication of the order to show cause under subdivision (a).

(d) If application for change of name is brought as part of an action under the Uniform Parentage Act (Part 3 (commencing with Section 7600) of Division 12 of the Family Code), whether as part of a petition or cross-complaint or as a separate order to show cause in a pending action thereunder, service of the application shall be made upon all other parties to the action in a like manner as prescribed for the service of a summons, as is set forth in Article 3 (commencing with Section 415.10) of Chapter 4 of Title 5 of Part 2. Upon the setting of a hearing on the issue, notice of the hearing shall be given to all parties in the action in a like manner and within the time limits prescribed generally for the type of hearing (whether trial or order to show cause) at which the issue of the change of name is to be decided.

(e) If a guardian files a petition to change the name of his or her minor ward pursuant to Section 1276:

(1) The guardian shall provide notice of the hearing to any living parent of the minor by personal service at least 30 days prior to the hearing.

(2) If either or both parents are deceased or cannot be located, the guardian shall cause, not less than 30 days prior to the hearing, to be served a notice of the time and place of the hearing or a copy of the order to show cause on the child's grandparents, if living, pursuant to Section 413.10, 414.10, 415.10, or 415.40.

## CHAPTER 587

An act to amend Section 13957 of the Government Code, relating to crime victims, and making an appropriation therefor.

[Approved by Governor September 29, 2008. Filed with Secretary of State September 29, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 13957 of the Government Code is amended to read:

13957. (a) The board may grant for pecuniary loss, when the board determines it will best aid the person seeking compensation, as follows:

(1) Subject to the limitations set forth in Section 13957.2, reimburse the amount of medical or medical-related expenses incurred by the victim, including, but not limited to, eyeglasses, hearing aids, dentures, or any prosthetic device taken, lost, or destroyed during the commission of the crime, or the use of which became necessary as a direct result of the crime.

(2) Subject to the limitations set forth in Section 13957.2, reimburse the amount of outpatient psychiatric, psychological, or other mental health counseling-related expenses incurred by the victim or derivative victim, including peer counseling services provided by a rape crisis center as defined by Section 13837 of the Penal Code, and including family psychiatric, psychological, or mental health counseling for the successful treatment of the victim provided to family members of the victim in the presence of the victim, whether or not the family member relationship existed at the time of the crime, that became necessary as a direct result of the crime, subject to the following conditions:

(A) The following persons may be reimbursed for the expense of their outpatient mental health counseling in an amount not to exceed ten thousand dollars ($10,000):

(i) A victim.

(ii) A derivative victim who is the surviving parent, sibling, child, spouse, fiancé, or fiancée of a victim of a crime that directly resulted in the death of the victim.

(iii) A derivative victim, as described in paragraphs (1) to (4), inclusive, of subdivision (c) of Section 13955, who is the primary caretaker of a minor victim whose claim is not denied or reduced pursuant to Section 13956 in a total amount not to exceed ten thousand dollars ($10,000) for not more than two derivative victims.

(B) The following persons may be reimbursed for the expense of their outpatient mental health counseling in an amount not to exceed five thousand dollars ($5,000):

(i) A derivative victim not eligible for reimbursement pursuant to subparagraph (A), provided that mental health counseling of a derivative victim described in paragraph (5) of subdivision (c) of Section 13955, shall be reimbursed only if that counseling is necessary for the treatment of the victim.

(ii) A victim of a crime of unlawful sexual intercourse with a minor committed in violation of subdivision (d) of Section 261.5 of the Penal Code. A derivative victim of a crime committed in violation of subdivision (d) of Section 261.5 of the Penal Code shall not be eligible for reimbursement of mental health counseling expenses.

(iii) A minor who suffers emotional injury as a direct result of witnessing a violent crime and who is not eligible for reimbursement of

the costs of outpatient mental health counseling under any other provision of this chapter. To be eligible for reimbursement under this clause, the minor must have been in close proximity to the victim when he or she witnessed the crime.

(C) The board may reimburse a victim or derivative victim for outpatient mental health counseling in excess of that authorized by subparagraphs (A) or (B) or for inpatient psychiatric, psychological, or other mental health counseling if the claim is based on dire or exceptional circumstances that require more extensive treatment, as approved by the board.

(D) Expenses for psychiatric, psychological, or other mental health counseling related services may be reimbursed only if the services were provided by either of the following individuals:

(i) A person who would have been authorized to provide those services pursuant to former Article 1 (commencing with Section 13959) as it read on January 1, 2002.

(ii) A person who is licensed by the state to provide those services, or who is properly supervised by a person who is so licensed, subject to the board's approval and subject to the limitations and restrictions the board may impose.

(3) Reimburse the expenses of nonmedical remedial care and treatment rendered in accordance with a religious method of healing recognized by state law.

(4) Subject to the limitations set forth in Section 13957.5, authorize compensation equal to the loss of income or loss of support, or both, that a victim or derivative victim incurs as a direct result of the victim's or derivative victim's injury or the victim's death. If the victim or derivative victim requests that the board give priority to reimbursement of loss of income or support, the board may not pay medical expenses, or mental health counseling expenses, except upon the request of the victim or derivative victim or after determining that payment of these expenses will not decrease the funds available for payment of loss of income or support.

(5) Authorize a cash payment to or on behalf of the victim for job retraining or similar employment-oriented services.

(6) Reimburse the claimant for the expense of installing or increasing residential security, not to exceed one thousand dollars ($1,000). Reimbursement shall be made either upon verification by law enforcement that the security measures are necessary for the personal safety of the claimant or verification by a mental health treatment provider that the security measures are necessary for the emotional well-being of the claimant. For purposes of this paragraph, a claimant is the crime victim, or, if the victim is deceased, a person who resided

with the deceased at the time of the crime. Installing or increasing residential security may include, but need not be limited to, both of the following:

(A) Home security device or system.

(B) Replacing or increasing the number of locks.

(7) Reimburse the expense of renovating or retrofitting a victim's residence or a vehicle, or both, to make the residence, the vehicle, or both, accessible or the vehicle operational by a victim upon verification that the expense is medically necessary for a victim who is permanently disabled as a direct result of the crime, whether the disability is partial or total.

(8) (A) Authorize a cash payment or reimbursement not to exceed two thousand dollars ($2,000) to a victim for expenses incurred in relocating, if the expenses are determined by law enforcement to be necessary for the personal safety of the victim or by a mental health treatment provider to be necessary for the emotional well-being of the victim.

(B) The cash payment or reimbursement made under this paragraph shall only be awarded to one victim per crime giving rise to the relocation. The board may authorize more than one relocation per crime if necessary for the personal safety or emotional well-being of the victim. However, the total cash payment or reimbursement for all relocations due to the same crime shall not exceed two thousand dollars ($2,000).

(C) The board may, under compelling circumstances, award a second cash payment or reimbursement to a victim for another crime if both of the following conditions are met:

(i) The crime occurs more than three years from the date of the crime giving rise to the initial relocation cash payment or reimbursement.

(ii) The crime does not involve the same offender.

(D) When a relocation payment or reimbursement is provided to a victim of sexual assault or domestic violence and the identity of the offender is known to the victim, the victim shall agree not to inform the offender of the location of the victim's new residence and not to allow the offender on the premises at any time, or shall agree to seek a restraining order against the offender.

(9) When a victim dies as a result of a crime, the board may reimburse any individual who voluntarily, and without anticipation of personal gain, pays or assumes the obligation to pay any of the following expenses:

(A) The medical expenses incurred as a direct result of the crime in an amount not to exceed the rates or limitations established by the board.

(B) The funeral and burial expenses incurred as a direct result of the crime, not to exceed seven thousand five hundred dollars ($7,500).

(10) When the crime occurs in a residence, the board may reimburse any individual who voluntarily, and without anticipation of personal gain, pays or assumes the obligation to pay the reasonable costs to clean the scene of the crime in an amount not to exceed one thousand dollars ($1,000). Services reimbursed pursuant to this subdivision shall be performed by persons registered with the State Department of Public Health as trauma scene waste practitioners in accordance with Chapter 9.5 (commencing with Section 118321) of Part 14 of Division 104 of the Health and Safety Code.

(11) Reimburse the licensed child care expenses necessarily incurred by a victim or derivative victim as a direct result of a crime that resulted in physical injury or death, if the following conditions are met:

(A) The injured or deceased victim was a primary caregiver for the victim's dependent children.

(B) The total reimbursement for all child care expenses does not exceed five thousand dollars ($5,000). The board shall have the ability to set a lower reimbursement amount if necessary to protect the solvency of the Restitution Fund.

(C) The periods of time for which child care expenses may be reimbursed do not exceed a total of 180 days. The time periods need not be continuous.

(D) The child care expenses are consistent with the usual and customary rates charged by the child care provider for other children in the provider's care. If the provider only cares for the victim's children, the reimbursement rate shall not exceed two hundred dollars ($200) per week for one child or four hundred dollars ($400) per week for two or more children subject to the limit in subparagraph (E).

(E) No victim or derivative victim may receive reimbursement for child care expenses in addition to reimbursement subject to paragraph (4).

(F) This paragraph is a pilot program and shall be operative only until January 1, 2010.

(b) The total award to or on behalf of each victim or derivative victim may not exceed thirty-five thousand dollars ($35,000), except that this amount may be increased to seventy thousand dollars ($70,000) if federal funds for that increase are available.

SEC. 2. Section 13957 of the Government Code is amended to read:

13957. (a) The board may grant for pecuniary loss, when the board determines it will best aid the person seeking compensation, as follows:

(1) Subject to the limitations set forth in Section 13957.2, reimburse the amount of medical or medical-related expenses incurred by the victim, including, but not limited to, eyeglasses, hearing aids, dentures, or any prosthetic device taken, lost, or destroyed during the commission of the

crime, or the use of which became necessary as a direct result of the crime.

(2) Subject to the limitations set forth in Section 13957.2, reimburse the amount of outpatient psychiatric, psychological, or other mental health counseling-related expenses incurred by the victim or derivative victim, including peer counseling services provided by a rape crisis center as defined by Section 13837 of the Penal Code, and including family psychiatric, psychological, or mental health counseling for the successful treatment of the victim provided to family members of the victim in the presence of the victim, whether or not the family member relationship existed at the time of the crime, that became necessary as a direct result of the crime, subject to the following conditions:

(A) The following persons may be reimbursed for the expense of their outpatient mental health counseling in an amount not to exceed ten thousand dollars ($10,000):

(i) A victim.

(ii) A derivative victim who is the surviving parent, sibling, child, spouse, fiancé, or fiancée of a victim of a crime that directly resulted in the death of the victim.

(iii) A derivative victim, as described in paragraphs (1) to (4), inclusive, of subdivision (c) of Section 13955, who is the primary caretaker of a minor victim whose claim is not denied or reduced pursuant to Section 13956 in a total amount not to exceed ten thousand dollars ($10,000) for not more than two derivative victims.

(B) The following persons may be reimbursed for the expense of their outpatient mental health counseling in an amount not to exceed five thousand dollars ($5,000):

(i) A derivative victim not eligible for reimbursement pursuant to subparagraph (A), provided that mental health counseling of a derivative victim described in paragraph (5) of subdivision (c) of Section 13955, shall be reimbursed only if that counseling is necessary for the treatment of the victim.

(ii) A victim of a crime of unlawful sexual intercourse with a minor committed in violation of subdivision (d) of Section 261.5 of the Penal Code. A derivative victim of a crime committed in violation of subdivision (d) of Section 261.5 of the Penal Code shall not be eligible for reimbursement of mental health counseling expenses.

(iii) A minor who suffers emotional injury as a direct result of witnessing a violent crime and who is not eligible for reimbursement of the costs of outpatient mental health counseling under any other provision of this chapter. To be eligible for reimbursement under this clause, the minor must have been in close proximity to the victim when he or she witnessed the crime.

(C) The board may reimburse a victim or derivative victim for outpatient mental health counseling in excess of that authorized by subparagraphs (A) or (B) or for inpatient psychiatric, psychological, or other mental health counseling if the claim is based on dire or exceptional circumstances that require more extensive treatment, as approved by the board.

(D) Expenses for psychiatric, psychological, or other mental health counseling-related services may be reimbursed only if the services were provided by either of the following individuals:

(i) A person who would have been authorized to provide those services pursuant to former Article 1 (commencing with Section 13959) as it read on January 1, 2002.

(ii) A person who is licensed by the state to provide those services, or who is properly supervised by a person who is so licensed, subject to the board's approval and subject to the limitations and restrictions the board may impose.

(3) Reimburse the expenses of nonmedical remedial care and treatment rendered in accordance with a religious method of healing recognized by state law.

(4) Subject to the limitations set forth in Section 13957.5, authorize compensation equal to the loss of income or loss of support, or both, that a victim or derivative victim incurs as a direct result of the victim's or derivative victim's injury or the victim's death. If the victim or derivative victim requests that the board give priority to reimbursement of loss of income or support, the board may not pay medical expenses, or mental health counseling expenses, except upon the request of the victim or derivative victim or after determining that payment of these expenses will not decrease the funds available for payment of loss of income or support.

(5) Authorize a cash payment to or on behalf of the victim for job retraining or similar employment-oriented services.

(6) Reimburse the claimant for the expense of installing or increasing residential security, not to exceed one thousand dollars ($1,000). Reimbursement shall be made either upon verification by law enforcement that the security measures are necessary for the personal safety of the claimant or verification by a mental health treatment provider that the security measures are necessary for the emotional well-being of the claimant. For purposes of this paragraph, a claimant is the crime victim, or, if the victim is deceased, a person who resided with the deceased at the time of the crime. Installing or increasing residential security may include, but need not be limited to, both of the following:

(A) Home security device or system.

(B) Replacing or increasing the number of locks.

(7) Reimburse the expense of renovating or retrofitting a victim's residence or a vehicle, or both, to make the residence, the vehicle, or both, accessible or the vehicle operational by a victim upon verification that the expense is medically necessary for a victim who is permanently disabled as a direct result of the crime, whether the disability is partial or total.

(8) (A) Authorize a cash payment or reimbursement not to exceed two thousand dollars ($2,000) to a victim for expenses incurred in relocating, if the expenses are determined by law enforcement to be necessary for the personal safety of the victim or by a mental health treatment provider to be necessary for the emotional well-being of the victim.

(B) The cash payment or reimbursement made under this paragraph shall only be awarded to one claimant per crime giving rise to the relocation. The board may authorize more than one relocation per crime if necessary for the personal safety or emotional well-being of the claimant. However, the total cash payment or reimbursement for all relocations due to the same crime shall not exceed two thousand dollars ($2,000). For purposes of this paragraph a claimant is the crime victim, or, if the victim is deceased, a person who resided with the deceased at the time of the crime.

(C) The board may, under compelling circumstances, award a second cash payment or reimbursement to a victim for another crime if both of the following conditions are met:

(i) The crime occurs more than three years from the date of the crime giving rise to the initial relocation cash payment or reimbursement.

(ii) The crime does not involve the same offender.

(D) When a relocation payment or reimbursement is provided to a victim of sexual assault or domestic violence and the identity of the offender is known to the victim, the victim shall agree not to inform the offender of the location of the victim's new residence and not to allow the offender on the premises at any time, or shall agree to seek a restraining order against the offender.

(9) When a victim dies as a result of a crime, the board may reimburse any individual who voluntarily, and without anticipation of personal gain, pays or assumes the obligation to pay any of the following expenses:

(A) The medical expenses incurred as a direct result of the crime in an amount not to exceed the rates or limitations established by the board.

(B) The funeral and burial expenses incurred as a direct result of the crime, not to exceed seven thousand five hundred dollars ($7,500).

(10) When the crime occurs in a residence, the board may reimburse any individual who voluntarily, and without anticipation of personal

gain, pays or assumes the obligation to pay the reasonable costs to clean the scene of the crime in an amount not to exceed one thousand dollars ($1,000). Services reimbursed pursuant to this subdivision shall be performed by persons registered with the State Department of Public Health as trauma scene waste practitioners in accordance with Chapter 9.5 (commencing with Section 118321) of Part 14 of Division 104 of the Health and Safety Code.

(11) Reimburse the licensed child care expenses necessarily incurred by a victim or derivative victim as a direct result of a crime that resulted in physical injury or death, if the following conditions are met:

(A) The injured or deceased victim was a primary caregiver for the victim's dependent children.

(B) The total reimbursement for all child care expenses does not exceed five thousand dollars ($5,000). The board shall have the ability to set a lower reimbursement amount if necessary to protect the solvency of the Restitution Fund.

(C) The periods of time for which child care expenses may be reimbursed do not exceed a total of 180 days. The time periods need not be continuous.

(D) The child care expenses are consistent with the usual and customary rates charged by the child care provider for other children in the provider's care. If the provider only cares for the victim's children, the reimbursement rate shall not exceed two hundred dollars ($200) per week for one child or four hundred dollars ($400) per week for two or more children subject to the limit in subparagraph (E).

(E) No victim or derivative victim may receive reimbursement for child care expenses in addition to reimbursement subject to paragraph (4).

(F) This paragraph is a pilot program and shall be operative only until January 1, 2010.

(b) The total award to or on behalf of each victim or derivative victim may not exceed thirty-five thousand dollars ($35,000), except that this amount may be increased to seventy thousand dollars ($70,000) if federal funds for that increase are available.

SEC. 3. Section 2 of this bill incorporates amendments to Section 13957 of the Government Code proposed by both this bill and AB 717. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2009, (2) each bill amends Section 13957 of the Government Code, and (3) this bill is enacted after AB 717, in which case Section 1 of this bill shall not become operative.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5600.3 of the Welfare and Institutions Code is amended to read:

5600.3. To the extent resources are available, the primary goal of the use of funds deposited in the mental health account of the local health and welfare trust fund should be to serve the target populations identified in the following categories, which shall not be construed as establishing an order of priority:

(a) (1) Seriously emotionally disturbed children or adolescents.

(2) For the purposes of this part, "seriously emotionally disturbed children or adolescents" means minors under the age of 18 years who have a mental disorder as identified in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders, other than a primary substance use disorder or developmental disorder, which results in behavior inappropriate to the child's age according to expected developmental norms. Members of this target population shall meet one or more of the following criteria:

(A) As a result of the mental disorder, the child has substantial impairment in at least two of the following areas: self-care, school functioning, family relationships, or ability to function in the community; and either of the following occur:

(C) The child meets special education eligibility requirements under Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code.

(b) (1) Adults and older adults who have a serious mental disorder.

(2) For the purposes of this part, "serious mental disorder" means a mental disorder that is severe in degree and persistent in duration, which may cause behavioral functioning which interferes substantially with the primary activities of daily living, and which may result in an inability to maintain stable adjustment and independent functioning without treatment, support, and rehabilitation for a long or indefinite period of time. Serious mental disorders include, but are not limited to, schizophrenia, bipolar disorder, post-traumatic stress disorder, as well as major affective disorders or other severely disabling mental disorders. This section shall not be construed to exclude persons with a serious mental disorder and a diagnosis of substance abuse, developmental disability, or other physical or mental disorder.

(3) Members of this target population shall meet all of the following criteria:

(A) The person has a mental disorder as identified in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders, other than a substance use disorder or developmental disorder or acquired traumatic brain injury pursuant to subdivision (a) of Section 4354 unless that person also has a serious mental disorder as defined in paragraph (2).

(B) (i) As a result of the mental disorder, the person has substantial functional impairments or symptoms, or a psychiatric history demonstrating that without treatment there is an imminent risk of decompensation to having substantial impairments or symptoms.

(ii) For the purposes of this part, "functional impairment" means being substantially impaired as the result of a mental disorder in independent living, social relationships, vocational skills, or physical condition.

(C) As a result of a mental functional impairment and circumstances, the person is likely to become so disabled as to require public assistance, services, or entitlements.

(C) Persons arrested or convicted of crimes.

(D) Persons who require acute treatment as a result of a first episode of mental illness with psychotic features.

(5) California veterans in need of mental health services and who meet the existing eligibility requirements of this section, shall be provided services to the extent services are available to other adults pursuant to this section. Veterans who may be eligible for mental health services through the United States Department of Veterans Affairs should be advised of these services by the county and assisted in linking to those services.

(A) No eligible veteran shall be denied county mental health services based solely on his or her status as a veteran.

(B) Counties shall refer a veteran to the county veterans service officer, if any, to determine the veteran's eligibility for, and the availability of, mental health services provided by the United States Department of Veterans Affairs or other federal health care provider.

(C) Counties should consider contracting with community-based veterans' services agencies, where possible, to provide high-quality, veteran specific mental health services.

(c) Adults or older adults who require or are at risk of requiring acute psychiatric inpatient care, residential treatment, or outpatient crisis intervention because of a mental disorder with symptoms of psychosis, suicidality, or violence.

(d) Persons who need brief treatment as a result of a natural disaster or severe local emergency.

SEC. 2. Section 5806 of the Welfare and Institutions Code is amended to read:

5806. The State Department of Mental Health shall establish service standards that ensure that members of the target population are identified, and services provided to assist them to live independently, work, and reach their potential as productive citizens. The department shall provide annual oversight of grants issued pursuant to this part for compliance with these standards. These standards shall include, but are not limited to, all of the following:

(a) A service planning and delivery process that is target population based and includes the following:

The local director of mental health shall consult with the sheriff, the police chief, the probation officer, the mental health board, contract agencies, and family, client, ethnic, and citizen constituency groups as determined by the director.

(2) Plans for services, including outreach to families whose severely mentally ill adult is living with them, design of mental health services, coordination and access to medications, psychiatric and psychological services, substance abuse services, supportive housing or other housing assistance, vocational rehabilitation, and veterans' services. Plans shall also contain evaluation strategies, that shall consider cultural, linguistic, gender, age, and special needs of minorities in the target populations. Provision shall be made for staff with the cultural background and linguistic skills necessary to remove barriers to mental health services due to limited-English-speaking ability and cultural differences. Recipients of outreach services may include families, the public, primary care physicians, and others who are likely to come into contact with individuals who may be suffering from an untreated severe mental illness who would be likely to become homeless if the illness continued to be untreated for a substantial period of time. Outreach to adults may include adults voluntarily or involuntarily hospitalized as a result of a severe mental illness.

(3) Provisions for services to meet the needs of target population clients who are physically disabled.

(4) Provision for services to meet the special needs of older adults.

(7) Provision for psychiatric and psychological services that are integrated with other services and for psychiatric and psychological collaboration in overall service planning.

(8) Provision for services specifically directed to seriously mentally ill young adults 25 years of age or younger who are homeless or at significant risk of becoming homeless. These provisions may include continuation of services that would still be received through other funds had eligibility not been terminated due to age.

(9) Services reflecting special needs of women from diverse cultural backgrounds, including supportive housing that accepts children, personal services coordinator therapeutic treatment, and substance treatment programs that address gender specific trauma and abuse in the lives of

persons with mental illness, and vocational rehabilitation programs that offer job training programs free of gender bias and sensitive to the needs of women.

(10) Provision for housing for clients that is immediate, transitional, permanent, or all of these.

(11) Provision for clients who have been suffering from an untreated severe mental illness for less than one year, and who do not require the full range of services but are at risk of becoming homeless unless a comprehensive individual and family support services plan is implemented. These clients shall be served in a manner that is designed to meet their needs.

(12) Provision for services for veterans.

(b) Each client shall have a clearly designated mental health personal services coordinator who may be part of a multidisciplinary treatment team who is responsible for providing or assuring needed services. Responsibilities include complete assessment of the client's needs, development of the client's personal services plan, linkage with all appropriate community services, monitoring of the quality and followthrough of services, and necessary advocacy to ensure each client receives those services which are agreed to in the personal services plan. Each client shall participate in the development of his or her personal services plan, and responsible staff shall consult with the designated conservator, if one has been appointed, and, with the consent of the client, consult with the family and other significant persons as appropriate.

(c) The individual personal services plan shall ensure that members of the target population involved in the system of care receive age, gender, and culturally appropriate services or appropriate services based on any characteristic listed or defined in Section 11135 of the Government Code, to the extent feasible, that are designed to enable recipients to:

(1) Live in the most independent, least restrictive housing feasible in the local community, and for clients with children, to live in a supportive housing environment that strives for reunification with their children or assists clients in maintaining custody of their children as is appropriate.

(2) Engage in the highest level of work or productive activity appropriate to their abilities and experience.

(9) Reduce or eliminate the distress caused by the symptoms of mental illness.

(10) Have freedom from dangerous addictive substances.

(d) The individual personal services plan shall describe the service array that meets the requirements of subdivision (c), and to the extent applicable to the individual, the requirements of subdivision (a).

SEC. 3. Section 5807 of the Welfare and Institutions Code is amended to read:

5807. (a) The State Department of Mental Health shall require counties which receive funding to develop interagency collaboration with shared responsibilities for services under this part and achievement of the client and cost outcome goals and interagency collaboration goals specified.

(b) Collaborative activities shall include:

(1) Identification of those agencies that have a significant joint responsibility for the target population and ensuring collaboration on planning for services to that population.

SEC. 4. Section 5808 of the Welfare and Institutions Code is amended to read:

5808. In order to reduce the state and county cost of a mental health system of care, participating counties shall collect reimbursement for services from clients which shall be the same as patient fees established pursuant to Section 5710, fees paid by private or public third-party payers, federal financial participation for Medicaid or Medicare services or veterans' services, and other financial sources when available.

SEC. 5. Section 5815 is added to the Welfare and Institutions Code, to read:

5815. The State Department of Health Care Services, in conjunction with the State Department of Mental Health, shall seek all available federal funding for mental health services for veterans.

SEC. 6. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

However, if the Department of Justice has determined that the out-of-state crime, if committed or attempted in this state, would have been punishable in this state as a crime described in subdivision (c) of Section 290, the person shall be placed on the Internet Web site as provided in subdivision (b) or (c), as applicable to the crime.

(e) (1) If a person has been convicted of the commission or the attempted commission of any of the offenses listed in this subdivision, and he or she has been convicted of no other offense listed in subdivision (b), (c), or (d) other than those listed in this subdivision, that person may file an application with the Department of Justice, on a form approved by the department, for exclusion from the Internet Web site. If the department determines that the person meets the requirements of this subdivision, the department shall grant the exclusion and no information concerning the person shall be made available via the Internet Web site described in this section. He or she bears the burden of proving the facts that make him or her eligible for exclusion from the Internet Web site. However, a person who has filed for or been granted an exclusion from the Internet Web site is not relieved of his or her duty to register as a sex offender pursuant to Section 290 nor from any otherwise applicable provision of law.

(2) This subdivision shall apply to the following offenses:

submits to the department a certified copy of a probation report filed in court that clearly states that all victims involved in the commission of the offense were at least 16 years of age or older at the time of the commission of the offense.

(D) (i) An offense for which the offender successfully completed probation, provided that the offender submits to the department a certified copy of a probation report, presentencing report, report prepared pursuant to Section 288.1, or other official court document that clearly demonstrates that the offender was the victim's parent, stepparent, sibling, or grandparent and that the crime did not involve either oral copulation or penetration of the vagina or rectum of either the victim or the offender by the penis of the other or by any foreign object.

(ii) An offense for which the offender is on probation at the time of his or her application, provided that the offender submits to the department a certified copy of a probation report, presentencing report, report prepared pursuant to Section 288.1, or other official court document that clearly demonstrates that the offender was the victim's parent, stepparent, sibling, or grandparent and that the crime did not involve either oral copulation or penetration of the vagina or rectum of either the victim or the offender by the penis of the other or by any foreign object.

(iii) If, subsequent to his or her application, the offender commits a violation of probation resulting in his or her incarceration in county jail or state prison, his or her exclusion, or application for exclusion, from the Internet Web site shall be terminated.

(iv) For the purposes of this subparagraph, "successfully completed probation" means that during the period of probation the offender neither received additional county jail or state prison time for a violation of probation nor was convicted of another offense resulting in a sentence to county jail or state prison.

(3) If the department determines that a person who was granted an exclusion under a former version of this subdivision would not qualify for an exclusion under the current version of this subdivision, the department shall rescind the exclusion, make a reasonable effort to provide notification to the person that the exclusion has been rescinded, and, no sooner than 30 days after notification is attempted, make information about the offender available to the public on the Internet Web site as provided in this section.

(4) Effective January 1, 2012, no person shall be excluded pursuant to this subdivision unless the offender has submitted to the department documentation sufficient for the department to determine that he or she has a SARATSO risk level of low or moderate-low.

(f) The Department of Justice shall make a reasonable effort to provide notification to persons who have been convicted of the commission or attempted commission of an offense specified in subdivision (b), (c), or (d), that on or before July 1, 2005, the department is required to make information about specified sex offenders available to the public via an Internet Web site as specified in this section. The Department of Justice shall also make a reasonable effort to provide notice that some offenders are eligible to apply for exclusion from the Internet Web site.

(g) (1) A designated law enforcement entity, as defined in subdivision (f) of Section 290.45, may make available information concerning persons who are required to register pursuant to Section 290 to the public via an Internet Web site as specified in paragraph (2).

(2) The law enforcement entity may make available by way of an Internet Web site the information described in subdivision (c) if it determines that the public disclosure of the information about a specific offender by way of the entity's Internet Web site is necessary to ensure the public safety based upon information available to the entity concerning that specific offender.

(3) The information that may be provided pursuant to this subdivision may include the information specified in subdivision (b) of Section 290.45. However, that offender's address may not be disclosed unless he or she is a person whose address is on the Department of Justice's Internet Web site pursuant to subdivision (b) or (c).

(h) For purposes of this section, "offense" includes the statutory predecessors of that offense, or any offense committed in another jurisdiction that, if committed or attempted to be committed in this state, would have been punishable in this state as an offense listed in subdivision (c) of Section 290.

(i) Notwithstanding Section 6254.5 of the Government Code, disclosure of information pursuant to this section is not a waiver of exemptions under Chapter 3.5 (commencing with Section 6250) of Title 1 of Division 7 of the Government Code and does not affect other statutory restrictions on disclosure in other situations.

(j) (1) Any person who uses information disclosed pursuant to this section to commit a misdemeanor shall be subject to, in addition to any other penalty or fine imposed, a fine of not less than ten thousand dollars ($10,000) and not more than fifty thousand dollars ($50,000).

(2) Any person who uses information disclosed pursuant to this section to commit a felony shall be punished, in addition and consecutive to any other punishment, by a five-year term of imprisonment in the state prison.

(k) Any person who is required to register pursuant to Section 290 who enters an Internet Web site established pursuant to this section shall be punished by a fine not exceeding one thousand dollars ($1,000),

imprisonment in a county jail for a period not to exceed six months, or by both that fine and imprisonment.

(*l*) (1) A person is authorized to use information disclosed pursuant to this section only to protect a person at risk.

(2) Except as authorized under paragraph (1) or any other provision of law, use of any information that is disclosed pursuant to this section for purposes relating to any of the following is prohibited:

(A) Health insurance.

(B) Insurance.

(C) Loans.

(D) Credit.

(E) Employment.

(F) Education, scholarships, or fellowships.

(G) Housing or accommodations.

(H) Benefits, privileges, or services provided by any business establishment.

(3) This section shall not affect authorized access to, or use of, information pursuant to, among other provisions, Sections 11105 and 11105.3, Section 8808 of the Family Code, Sections 777.5 and 14409.2 of the Financial Code, Sections 1522.01 and 1596.871 of the Health and Safety Code, and Section 432.7 of the Labor Code.

(4) (A) Any use of information disclosed pursuant to this section for purposes other than those provided by paragraph (1) or in violation of paragraph (2) shall make the user liable for the actual damages, and any amount that may be determined by a jury or a court sitting without a jury, not exceeding three times the amount of actual damage, and not less than two hundred fifty dollars ($250), and attorney's fees, exemplary damages, or a civil penalty not exceeding twenty-five thousand dollars ($25,000).

(B) Whenever there is reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of misuse of the information available via an Internet Web site established pursuant to this section in violation of paragraph (2), the Attorney General, any district attorney, or city attorney, or any person aggrieved by the misuse is authorized to bring a civil action in the appropriate court requesting preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order against the person or group of persons responsible for the pattern or practice of misuse. The foregoing remedies shall be independent of any other remedies or procedures that may be available to an aggrieved party under other provisions of law, including Part 2 (commencing with Section 43) of Division 1 of the Civil Code.

(m) The public notification provisions of this section are applicable to every person described in this section, without regard to when his or her crimes were committed or his or her duty to register pursuant to Section 290 arose, and to every offense described in this section, regardless of when it was committed.

(n) On or before July 1, 2006, and every year thereafter, the Department of Justice shall make a report to the Legislature concerning the operation of this section.

(o) A designated law enforcement entity and its employees shall be immune from liability for good faith conduct under this section.

(p) The Attorney General, in collaboration with local law enforcement and others knowledgeable about sex offenders, shall develop strategies to assist members of the public in understanding and using publicly available information about registered sex offenders to further public safety. These strategies may include, but are not limited to, a hotline for community inquiries, neighborhood and business guidelines for how to respond to information posted on this Web site, and any other resource that promotes public education about these offenders.

On or before July 1, 2006, the Department of Justice shall determine whether any person convicted of an offense listed in paragraph (2) also has one or more prior or subsequent convictions of an offense listed in subdivision (c) of Section 290, and, for those persons, the Department of Justice shall make available to the public via the Internet Web site the address at which the person resides. However, the address at which the person resides shall not be disclosed until a determination is made that the person is, by virtue of his or her additional prior or subsequent conviction of an offense listed in subdivision (c) of Section 290, subject to this subdivision.

(2) This subdivision shall apply to the following offenses:

(A) Section 220, except assault to commit mayhem.

(B) Paragraph (1), (3), or (4) of subdivision (a) of Section 261.

(C) Paragraph (2) of subdivision (b), or subdivision (f), (g), or (i), of Section 286.

(E) Subdivision (b), (d), (e), or (i) of Section 289.

(d) (1) On or before July 1, 2005, with respect to a person who has been convicted of the commission or the attempted commission of any of the offenses listed in, or who is described in, this subdivision, the Department of Justice shall make available to the public via the Internet Web site his or her name and known aliases, a photograph, a physical description, including gender and race, date of birth, criminal history, the community of residence and ZIP Code in which the person resides or the county in which the person is registered as a transient, and any other information that the Department of Justice deems relevant, but not the information excluded pursuant to subdivision (a) or the address at which the person resides.

(2) This subdivision shall apply to the following offenses and offenders:

(A) Subdivision (a) of Section 243.4, provided that the offense is a felony.

(B) Section 266, provided that the offense is a felony.

(C) Section 266c, provided that the offense is a felony.

(D) Section 266j.

(E) Section 267.

(F) Subdivision (c) of Section 288, provided that the offense is a misdemeanor.

(J) Section 647.6.

(K) Section 653c.

(L) Any person required to register pursuant to Section 290 based upon an out-of-state conviction, unless that person is excluded from the Internet Web site pursuant to subdivision (e). However, if the Department of Justice has determined that the out-of-state crime, if committed or attempted in this state, would have been punishable in this state as a crime described in subdivision (c) of Section 290, the person shall be placed on the Internet Web site as provided in subdivision (b) or (c), as applicable to the crime.

(e) (1) If a person has been convicted of the commission or the attempted commission of any of the offenses listed in this subdivision, and he or she has been convicted of no other offense listed in subdivision (b), (c), or (d) other than those listed in this subdivision, that person may file an application with the Department of Justice, on a form approved by the department, for exclusion from the Internet Web site. If the department determines that the person meets the requirements of this subdivision, the department shall grant the exclusion and no information concerning the person shall be made available via the Internet Web site described in this section. He or she bears the burden of proving the facts that make him or her eligible for exclusion from the Internet Web site. However, a person who has filed for or been granted an exclusion from the Internet Web site is not relieved of his or her duty to register as a sex offender pursuant to Section 290 nor from any otherwise applicable provision of law.

(2) This subdivision shall apply to the following offenses:

(A) A felony violation of subdivision (a) of Section 243.4.

(D) (i) An offense for which the offender successfully completed probation, provided that the offender submits to the department a certified copy of a probation report, presentencing report, report prepared pursuant to Section 288.1, or other official court document that clearly demonstrates that the offender was the victim's parent, stepparent, sibling, or grandparent and that the crime did not involve either oral copulation or penetration of the vagina or rectum of either the victim or the offender by the penis of the other or by any foreign object.

(ii) An offense for which the offender is on probation at the time of his or her application, provided that the offender submits to the department a certified copy of a probation report, presentencing report, report prepared pursuant to Section 288.1, or other official court document that clearly demonstrates that the offender was the victim's parent, stepparent, sibling, or grandparent and that the crime did not involve either oral copulation or penetration of the vagina or rectum of either the victim or the offender by the penis of the other or by any foreign object.

(iii) If, subsequent to his or her application, the offender commits a violation of probation resulting in his or her incarceration in county jail or state prison, his or her exclusion, or application for exclusion, from the Internet Web site shall be terminated.

(iv) For the purposes of this subparagraph, "successfully completed probation" means that during the period of probation the offender neither received additional county jail or state prison time for a violation of probation nor was convicted of another offense resulting in a sentence to county jail or state prison.

(3) If the department determines that a person who was granted an exclusion under a former version of this subdivision would not qualify for an exclusion under the current version of this subdivision, the department shall rescind the exclusion, make a reasonable effort to provide notification to the person that the exclusion has been rescinded, and, no sooner than 30 days after notification is attempted, make information about the offender available to the public on the Internet Web site as provided in this section.

(4) Effective January 1, 2012, no person shall be excluded pursuant to this subdivision unless the offender has submitted to the department documentation sufficient for the department to determine that he or she has a SARATSO risk level of low or moderate-low.

(f) The Department of Justice shall make a reasonable effort to provide notification to persons who have been convicted of the commission or attempted commission of an offense specified in subdivision (b), (c), or (d), that on or before July 1, 2005, the department is required to make information about specified sex offenders available to the public via an Internet Web site as specified in this section. The Department of Justice shall also make a reasonable effort to provide notice that some offenders are eligible to apply for exclusion from the Internet Web site.

(g) (1) A designated law enforcement entity, as defined in subdivision (f) of Section 290.45, may make available information concerning persons who are required to register pursuant to Section 290 to the public via an Internet Web site as specified in paragraph (2).

(2) The law enforcement entity may make available by way of an Internet Web site the information described in subdivision (c) if it determines that the public disclosure of the information about a specific offender by way of the entity's Internet Web site is necessary to ensure the public safety based upon information available to the entity concerning that specific offender.

(3) The information that may be provided pursuant to this subdivision may include the information specified in subdivision (b) of Section 290.45. However, that offender's address may not be disclosed unless he or she is a person whose address is on the Department of Justice's Internet Web site pursuant to subdivision (b) or (c).

(h) For purposes of this section, "offense" includes the statutory predecessors of that offense, or any offense committed in another jurisdiction that, if committed or attempted to be committed in this state, would have been punishable in this state as an offense listed in subdivision (c) of Section 290.

(i) Notwithstanding Section 6254.5 of the Government Code, disclosure of information pursuant to this section is not a waiver of exemptions under Chapter 3.5 (commencing with Section 6250) of Title 1 of Division 7 of the Government Code and does not affect other statutory restrictions on disclosure in other situations.

(j) (1) Any person who uses information disclosed pursuant to this section to commit a misdemeanor shall be subject to, in addition to any other penalty or fine imposed, a fine of not less than ten thousand dollars ($10,000) and not more than fifty thousand dollars ($50,000).

(2) Any person who uses information disclosed pursuant to this section to commit a felony shall be punished, in addition and consecutive to any other punishment, by a five-year term of imprisonment in the state prison.

(k) Any person who is required to register pursuant to Section 290 who enters an Internet Web site established pursuant to this section shall be punished by a fine not exceeding one thousand dollars ($1,000), imprisonment in a county jail for a period not to exceed six months, or by both that fine and imprisonment.

(*l*) (1) A person is authorized to use information disclosed pursuant to this section only to protect a person at risk.

(2) Except as authorized under paragraph (1) or any other provision of law, use of any information that is disclosed pursuant to this section for purposes relating to any of the following is prohibited:

(A) Health insurance.

(B) Insurance.

(C) Loans.

(D) Credit.

(E) Employment.

(F) Education, scholarships, or fellowships.

(G) Housing or accommodations.

(H) Benefits, privileges, or services provided by any business establishment.

(3) This section shall not affect authorized access to, or use of, information pursuant to, among other provisions, Sections 11105 and 11105.3, Section 8808 of the Family Code, Sections 777.5 and 14409.2 of the Financial Code, Sections 1522.01 and 1596.871 of the Health and Safety Code, and Section 432.7 of the Labor Code.

(4) (A) Any use of information disclosed pursuant to this section for purposes other than those provided by paragraph (1) or in violation of paragraph (2) shall make the user liable for the actual damages, and any amount that may be determined by a jury or a court sitting without a jury, not exceeding three times the amount of actual damage, and not less than two hundred fifty dollars ($250), and attorney's fees, exemplary damages, or a civil penalty not exceeding twenty-five thousand dollars ($25,000).

(B) Whenever there is reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of misuse of the information available via an Internet Web site established pursuant to this section in violation of paragraph (2), the Attorney General, any district attorney, or city attorney, or any person aggrieved by the misuse is authorized to bring a civil action in the appropriate court requesting preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order against the person or group of persons responsible for the pattern or practice of misuse. The foregoing remedies shall be independent of any other remedies or procedures that may be available to an aggrieved party under other provisions of law, including Part 2 (commencing with Section 43) of Division 1 of the Civil Code.

(m) The public notification provisions of this section are applicable to every person described in this section, without regard to when his or her crimes were committed or his or her duty to register pursuant to Section 290 arose, and to every offense described in this section, regardless of when it was committed.

(n) On or before July 1, 2006, and every year thereafter, the Department of Justice shall make a report to the Legislature concerning the operation of this section.

(o) A designated law enforcement entity and its employees shall be immune from liability for good faith conduct under this section.

(p) The Attorney General, in collaboration with local law enforcement and others knowledgeable about sex offenders, shall develop strategies to assist members of the public in understanding and using publicly

available information about registered sex offenders to further public safety. These strategies may include, but are not limited to, a hotline for community inquiries, neighborhood and business guidelines for how to respond to information posted on this Internet Web site, and any other resource that promotes public education about these offenders.

However, if the Department of Justice has determined that the out-of-state crime, if committed or attempted in this state, would have been punishable in this state as a crime described in subdivision (c) of Section 290, the person shall be placed on the Internet Web site as provided in subdivision (b) or (c), as applicable to the crime.

(e) (1) If a person has been convicted of the commission or the attempted commission of any of the offenses listed in this subdivision, and he or she has been convicted of no other offense listed in subdivision (b), (c), or (d) other than those listed in this subdivision, that person may file an application with the Department of Justice, on a form approved by the department, for exclusion from the Internet Web site. If the department determines that the person meets the requirements of this subdivision, the department shall grant the exclusion and no information concerning the person shall be made available via the Internet Web site described in this section. He or she bears the burden of proving the facts that make him or her eligible for exclusion from the Internet Web site. However, a person who has filed for or been granted an exclusion from the Internet Web site is not relieved of his or her duty to register as a sex offender pursuant to Section 290 nor from any otherwise applicable provision of law.

(iii) If, subsequent to his or her application, the offender commits a violation of probation resulting in his or her incarceration in county jail or state prison, his or her exclusion, or application for exclusion, from the Internet Web site shall be terminated.

(iv) For the purposes of this subparagraph, "successfully completed probation" means that during the period of probation the offender neither received additional county jail or state prison time for a violation of probation nor was convicted of another offense resulting in a sentence to county jail or state prison.

(3) If the department determines that a person who was granted an exclusion under a former version of this subdivision would not qualify for an exclusion under the current version of this subdivision, the department shall rescind the exclusion, make a reasonable effort to provide notification to the person that the exclusion has been rescinded, and, no sooner than 30 days after notification is attempted, make information about the offender available to the public on the Internet Web site as provided in this section.

(4) Effective January 1, 2012, no person shall be excluded pursuant to this subdivision unless the offender has submitted to the department documentation sufficient for the department to determine that he or she has a SARATSO risk level of low or moderate-low.

(2) The law enforcement entity may make available by way of an Internet Web site the information described in subdivision (c) if it determines that the public disclosure of the information about a specific

offender by way of the entity's Internet Web site is necessary to ensure the public safety based upon information available to the entity concerning that specific offender.

(3) The information that may be provided pursuant to this subdivision may include the information specified in subdivision (b) of Section 290.45. However, that offender's address may not be disclosed unless he or she is a person whose address is on the Department of Justice's Internet Web site pursuant to subdivision (b) or (c).

(h) For purposes of this section, "offense" includes the statutory predecessors of that offense, or any offense committed in another jurisdiction that, if committed or attempted to be committed in this state, would have been punishable in this state as an offense listed in subdivision (c) of Section 290.

(i) Notwithstanding Section 6254.5 of the Government Code, disclosure of information pursuant to this section is not a waiver of exemptions under Chapter 3.5 (commencing with Section 6250) of Title 1 of Division 7 of the Government Code and does not affect other statutory restrictions on disclosure in other situations.

(j) (1) Any person who uses information disclosed pursuant to this section to commit a misdemeanor shall be subject to, in addition to any other penalty or fine imposed, a fine of not less than ten thousand dollars ($10,000) and not more than fifty thousand dollars ($50,000).

(2) Any person who uses information disclosed pursuant to this section to commit a felony shall be punished, in addition and consecutive to any other punishment, by a five-year term of imprisonment in the state prison.

(k) Any person who is required to register pursuant to Section 290 who enters an Internet Web site established pursuant to this section shall be punished by a fine not exceeding one thousand dollars ($1,000), imprisonment in a county jail for a period not to exceed six months, or by both that fine and imprisonment.

(*l*) (1) A person is authorized to use information disclosed pursuant to this section only to protect a person at risk.

(2) Except as authorized under paragraph (1) or any other provision of law, use of any information that is disclosed pursuant to this section for purposes relating to any of the following is prohibited:

(A) Health insurance.

(B) Insurance.

(C) Loans.

(D) Credit.

(E) Employment.

(F) Education, scholarships, or fellowships.

(G) Housing or accommodations.

(H) Benefits, privileges, or services provided by any business establishment.

(3) This section shall not affect authorized access to, or use of, information pursuant to, among other provisions, Sections 11105 and 11105.3, Section 8808 of the Family Code, Sections 777.5 and 14409.2 of the Financial Code, Sections 1522.01 and 1596.871 of the Health and Safety Code, and Section 432.7 of the Labor Code.

(4) (A) Any use of information disclosed pursuant to this section for purposes other than those provided by paragraph (1) or in violation of paragraph (2) shall make the user liable for the actual damages, and any amount that may be determined by a jury or a court sitting without a jury, not exceeding three times the amount of actual damage, and not less than two hundred fifty dollars ($250), and attorney's fees, exemplary damages, or a civil penalty not exceeding twenty-five thousand dollars ($25,000).

(B) Whenever there is reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of misuse of the information available via an Internet Web site established pursuant to this section in violation of paragraph (2), the Attorney General, any district attorney, or city attorney, or any person aggrieved by the misuse is authorized to bring a civil action in the appropriate court requesting preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order against the person or group of persons responsible for the pattern or practice of misuse. The foregoing remedies shall be independent of any other remedies or procedures that may be available to an aggrieved party under other provisions of law, including Part 2 (commencing with Section 43) of Division 1 of the Civil Code.

(m) The public notification provisions of this section are applicable to every person described in this section, without regard to when his or her crimes were committed or his or her duty to register pursuant to Section 290 arose, and to every offense described in this section, regardless of when it was committed.

(n) On or before July 1, 2006, and every year thereafter, the Department of Justice shall make a report to the Legislature concerning the operation of this section.

(o) A designated law enforcement entity and its employees shall be immune from liability for good faith conduct under this section.

(p) The Attorney General, in collaboration with local law enforcement and others knowledgeable about sex offenders, shall develop strategies to assist members of the public in understanding and using publicly available information about registered sex offenders to further public safety. These strategies may include, but are not limited to, a hotline for

community inquiries, neighborhood and business guidelines for how to respond to information posted on this Internet Web site, and any other resource that promotes public education about these offenders.

(L) Any person required to register pursuant to Section 290 based upon an out-of-state conviction, unless that person is excluded from the Internet Web site pursuant to subdivision (e). However, if the Department of Justice has determined that the out-of-state crime, if committed or attempted in this state, would have been punishable in this state as a crime described in subdivision (c) of Section 290, the person shall be placed on the Internet Web site as provided in subdivision (b) or (c), as applicable to the crime.

(e) (1) If a person has been convicted of the commission or the attempted commission of any of the offenses listed in this subdivision, and he or she has been convicted of no other offense listed in subdivision (b), (c), or (d) other than those listed in this subdivision, that person may

file an application with the Department of Justice, on a form approved by the department, for exclusion from the Internet Web site. If the department determines that the person meets the requirements of this subdivision, the department shall grant the exclusion and no information concerning the person shall be made available via the Internet Web site described in this section. He or she bears the burden of proving the facts that make him or her eligible for exclusion from the Internet Web site. However, a person who has filed for or been granted an exclusion from the Internet Web site is not relieved of his or her duty to register as a sex offender pursuant to Section 290 nor from any otherwise applicable provision of law.

(2) This subdivision shall apply to the following offenses:

(A) A felony violation of subdivision (a) of Section 243.4.

(ii) An offense for which the offender is on probation at the time of his or her application, provided that the offender submits to the department a certified copy of a probation report, presentencing report, report prepared pursuant to Section 288.1, or other official court document that clearly demonstrates that the offender was the victim's parent, stepparent, sibling, or grandparent and that the crime did not involve either oral copulation or penetration of the vagina or rectum of either the victim or the offender by the penis of the other or by any foreign object.

(iii) If, subsequent to his or her application, the offender commits a violation of probation resulting in his or her incarceration in county jail or state prison, his or her exclusion, or application for exclusion, from the Internet Web site shall be terminated.

(iv) For the purposes of this subparagraph, "successfully completed probation" means that during the period of probation the offender neither

received additional county jail or state prison time for a violation of probation nor was convicted of another offense resulting in a sentence to county jail or state prison.

(3) If the department determines that a person who was granted an exclusion under a former version of this subdivision would not qualify for an exclusion under the current version of this subdivision, the department shall rescind the exclusion, make a reasonable effort to provide notification to the person that the exclusion has been rescinded, and, no sooner than 30 days after notification is attempted, make information about the offender available to the public on the Internet Web site as provided in this section.

(4) Effective January 1, 2012, no person shall be excluded pursuant to this subdivision unless the offender has submitted to the department documentation sufficient for the department to determine that he or she has a SARATSO risk level of low or moderate-low.

(f) The Department of Justice shall make a reasonable effort to provide notification to persons who have been convicted of the commission or attempted commission of an offense specified in subdivision (b), (c), or (d), that on or before July 1, 2005, the department is required to make information about specified sex offenders available to the public via an Internet Web site as specified in this section. The Department of Justice shall also make a reasonable effort to provide notice that some offenders are eligible to apply for exclusion from the Internet Web site.

(g) (1) A designated law enforcement entity, as defined in subdivision (f) of Section 290.45, may make available information concerning persons who are required to register pursuant to Section 290 to the public via an Internet Web site as specified in paragraph (2).

(2) The law enforcement entity may make available by way of an Internet Web site the information described in subdivision (c) if it determines that the public disclosure of the information about a specific offender by way of the entity's Internet Web site is necessary to ensure the public safety based upon information available to the entity concerning that specific offender.

(3) The information that may be provided pursuant to this subdivision may include the information specified in subdivision (b) of Section 290.45. However, that offender's address may not be disclosed unless he or she is a person whose address is on the Department of Justice's Internet Web site pursuant to subdivision (b) or (c).

(h) For purposes of this section, "offense" includes the statutory predecessors of that offense, or any offense committed in another jurisdiction that, if committed or attempted to be committed in this state, would have been punishable in this state as an offense listed in subdivision (c) of Section 290.

(i) Notwithstanding Section 6254.5 of the Government Code, disclosure of information pursuant to this section is not a waiver of exemptions under Chapter 3.5 (commencing with Section 6250) of Title 1 of Division 7 of the Government Code and does not affect other statutory restrictions on disclosure in other situations.

(j) (1) Any person who uses information disclosed pursuant to this section to commit a misdemeanor shall be subject to, in addition to any other penalty or fine imposed, a fine of not less than ten thousand dollars ($10,000) and not more than fifty thousand dollars ($50,000).

(2) Any person who uses information disclosed pursuant to this section to commit a felony shall be punished, in addition and consecutive to any other punishment, by a five-year term of imprisonment in the state prison.

(k) Any person who is required to register pursuant to Section 290 who enters an Internet Web site established pursuant to this section shall be punished by a fine not exceeding one thousand dollars ($1,000), imprisonment in a county jail for a period not to exceed six months, or by both that fine and imprisonment.

(*l*) (1) A person is authorized to use information disclosed pursuant to this section only to protect a person at risk.

(2) Except as authorized under paragraph (1) or any other provision of law, use of any information that is disclosed pursuant to this section for purposes relating to any of the following is prohibited:

(A) Health insurance.

(B) Insurance.

(C) Loans.

(D) Credit.

(E) Employment.

(F) Education, scholarships, or fellowships.

(G) Housing or accommodations.

(H) Benefits, privileges, or services provided by any business establishment.

(3) This section shall not affect authorized access to, or use of, information pursuant to, among other provisions, Sections 11105 and 11105.3, Section 8808 of the Family Code, Sections 777.5 and 14409.2 of the Financial Code, Sections 1522.01 and 1596.871 of the Health and Safety Code, and Section 432.7 of the Labor Code.

(4) (A) Any use of information disclosed pursuant to this section for purposes other than those provided by paragraph (1) or in violation of paragraph (2) shall make the user liable for the actual damages, and any amount that may be determined by a jury or a court sitting without a jury, not exceeding three times the amount of actual damage, and not less than two hundred fifty dollars ($250), and attorney's fees, exemplary

damages, or a civil penalty not exceeding twenty-five thousand dollars ($25,000).

(B) Whenever there is reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of misuse of the information available via an Internet Web site established pursuant to this section in violation of paragraph (2), the Attorney General, any district attorney, or city attorney, or any person aggrieved by the misuse is authorized to bring a civil action in the appropriate court requesting preventive relief, including an application for a permanent or temporary injunction, restraining order, or other order against the person or group of persons responsible for the pattern or practice of misuse. The foregoing remedies shall be independent of any other remedies or procedures that may be available to an aggrieved party under other provisions of law, including Part 2 (commencing with Section 43) of Division 1 of the Civil Code.

(m) The public notification provisions of this section are applicable to every person described in this section, without regard to when his or her crimes were committed or his or her duty to register pursuant to Section 290 arose, and to every offense described in this section, regardless of when it was committed.

(n) On or before July 1, 2006, and every year thereafter, the Department of Justice shall make a report to the Legislature concerning the operation of this section.

(o) A designated law enforcement entity and its employees shall be immune from liability for good faith conduct under this section.

(p) The Attorney General, in collaboration with local law enforcement and others knowledgeable about sex offenders, shall develop strategies to assist members of the public in understanding and using publicly available information about registered sex offenders to further public safety. These strategies may include, but are not limited to, a hotline for community inquiries, neighborhood and business guidelines for how to respond to information posted on this Internet Web site, and any other resource that promotes public education about these offenders.

(1) Order the defendant evaluated pursuant to Section 1203.03, or similar evaluation by the county probation department.

(2) Conduct a hearing at the time of sentencing to determine if probation of the defendant would pose a threat to the victim. The victim shall be notified of the hearing by the prosecuting attorney and given an opportunity to address the court.

(3) Order any psychiatrist or psychologist appointed pursuant to Section 288.1 to include a consideration of the threat to the victim and the defendant's potential for positive response to treatment in making his or her report to the court. Nothing in this section shall be construed to require the court to order an examination of the victim.

(b) If a defendant is granted probation pursuant to subdivision (a), the court shall order the defendant to be placed in an appropriate treatment program designed to deal with child molestation or sexual offenders, if an appropriate program is available in the county.

(c) Any defendant ordered to be placed in a treatment program pursuant to subdivision (b) shall be responsible for paying the expense of his or her participation in the treatment program as determined by the court. The court shall take into consideration the ability of the defendant to pay, and no defendant shall be denied probation because of his or her inability to pay.

SEC. 4. Section 12021 of the Penal Code is amended to read:

12021. (a) (1) Any person who has been convicted of a felony under the laws of the United States, the State of California, or any other state, government, or country or of an offense enumerated in subdivision (a), (b), or (d) of Section 12001.6, or who is addicted to the use of any narcotic drug, and who owns, purchases, receives, or has in his or her possession or under his or her custody or control any firearm is guilty of a felony.

(2) Any person who has two or more convictions for violating paragraph (2) of subdivision (a) of Section 417 and who owns, purchases, receives, or has in his or her possession or under his or her custody or control any firearm is guilty of a felony.

(c) (1) Except as provided in subdivision (a) or paragraph (2) of this subdivision, any person who has been convicted of a misdemeanor violation of Section 71, 76, 136.1, 136.5, or 140, subdivision (d) of Section 148, Section 171b, 171c, 171d, 186.28, 240, 241, 242, 243, 243.4, 244.5, 245, 245.5, 246.3, 247, 273.5, 273.6, 417, 417.6, 422, 626.9, 646.9, 12023, or 12024, subdivision (b) or (d) of Section 12034, Section 12040, subdivision (b) of Section 12072, subdivision (a) of former Section 12100, Section 12220, 12320, or 12590, or Section 8100, 8101, or 8103 of the Welfare and Institutions Code, any firearm-related offense pursuant to Sections 871.5 and 1001.5 of the Welfare and Institutions Code, or of the conduct punished in paragraph (3) of subdivision (g) of Section 12072, and who, within 10 years of the conviction, owns, purchases, receives, or has in his or her possession or under his or her custody or control, any firearm is guilty of a public offense, which shall be punishable by imprisonment in a county jail not exceeding one year or in the state prison, by a fine not exceeding one thousand dollars ($1,000), or by both that imprisonment and fine. The petition shall be filed with the court in which the petitioner was sentenced. If possible, the matter shall be heard before the same judge who sentenced the petitioner. Upon filing the petition, the clerk of the court shall set the hearing date and shall notify the petitioner and the prosecuting attorney of the date of the hearing. Upon making each of the following findings, the court may reduce or eliminate the prohibition, impose conditions on reduction or

elimination of the prohibition, or otherwise grant relief from the prohibition as the court deems appropriate:

(B) Finds that the petitioner is not within a prohibited class as specified in subdivision (a), (b), (d), (e), or (g) or Section 12021.1, and the court is not presented with any credible evidence that the petitioner is a person described in Section 8100 or 8103 of the Welfare and Institutions Code.

(C) (i) Finds that the petitioner does not have a previous conviction under this subdivision no matter when the prior conviction occurred.

(ii) In making its decision, the court shall consider the petitioner's continued employment, the interest of justice, any relevant evidence, and the totality of the circumstances. The court shall require, as a condition of granting relief from the prohibition under this section, that the petitioner agree to participate in counseling as deemed appropriate by the court. Relief from the prohibition shall not relieve any other person or entity from any liability that might otherwise be imposed. It is the intent of the Legislature that courts exercise broad discretion in fashioning appropriate relief under this paragraph in cases in which relief is warranted. However, nothing in this paragraph shall be construed to require courts to grant relief to any particular petitioner. It is the intent of the Legislature to permit persons who were convicted of an offense specified in Section 273.5, 273.6, or 646.9 to seek relief from the prohibition imposed by this subdivision.

(3) Any person who is subject to the prohibition imposed by this subdivision because of a conviction of an offense prior to that offense being added to paragraph (1) may petition the court only once for relief from this prohibition. The petition shall be filed with the court in which the petitioner was sentenced. If possible, the matter shall be heard before the same judge that sentenced the petitioner. Upon filing the petition, the clerk of the court shall set the hearing date and notify the petitioner and the prosecuting attorney of the date of the hearing. Upon making each of the following findings, the court may reduce or eliminate the prohibition, impose conditions on reduction or elimination of the prohibition, or otherwise grant relief from the prohibition as the court deems appropriate:

(A) Finds by a preponderance of the evidence that the petitioner is likely to use a firearm in a safe and lawful manner.

(B) Finds that the petitioner is not within a prohibited class as specified in subdivision (a), (b), (d), (e), or (g) or Section 12021.1, and the court is not presented with any credible evidence that the petitioner is a person described in Section 8100 or 8103 of the Welfare and Institutions Code.

(C) (i) Finds that the petitioner does not have a previous conviction under this subdivision, no matter when the prior conviction occurred.

(ii) In making its decision, the court may consider the interest of justice, any relevant evidence, and the totality of the circumstances. It is the intent of the Legislature that courts exercise broad discretion in fashioning appropriate relief under this paragraph in cases in which relief is warranted. However, nothing in this paragraph shall be construed to require courts to grant relief to any particular petitioner.

(4) Law enforcement officials who enforce the prohibition specified in this subdivision against a person who has been granted relief pursuant to paragraph (2) or (3) shall be immune from any liability for false arrest arising from the enforcement of this subdivision unless the person has in his or her possession a certified copy of the court order that granted the person relief from the prohibition. This immunity from liability shall not relieve any person or entity from any other liability that might otherwise be imposed.

(d) (1) Any person who, as an express condition of probation, is prohibited or restricted from owning, possessing, controlling, receiving, or purchasing a firearm and who owns, purchases, receives, or has in his or her possession or under his or her custody or control, any firearm but who is not subject to subdivision (a) or (c) is guilty of a public offense, which shall be punishable by imprisonment in a county jail not exceeding one year or in the state prison, by a fine not exceeding one thousand dollars ($1,000), or by both that imprisonment and fine. The court, on forms provided by the Department of Justice, shall notify the department of persons subject to this subdivision. The notice shall include a copy of the order of probation and a copy of any minute order or abstract reflecting the order and conditions of probation.

The notice shall inform the defendant of the prohibition regarding firearms and include a form to facilitate the transfer of firearms. Failure to provide the notice shall not be a defense to a violation of this section.

The juvenile court, on forms prescribed by the Department of Justice, shall notify the department of persons subject to this subdivision. Notwithstanding any other law, the forms required to be submitted to the department pursuant to this subdivision may be used to determine eligibility to acquire a firearm.

(f) Subdivision (a) shall not apply to a person who has been convicted of a felony under the laws of the United States unless either of the following criteria is satisfied:

## CHAPTER 601

An act to amend, repeal, and add Section 6601 of the Welfare and Institutions Code, relating to sexually violent predators, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) There is within the State Department of Mental Health the Sex Offender Commitment Program (SOCP). The SOCP exists to implement

the provisions of the sexually violent predator civil commitment program (Article 4 (commencing with Section 6600) of Part 2 of Division 6 of the Welfare and Institutions Code).

(b) The sexually violent predator civil commitment program requires clinical evaluations of potential sexually violent predators for possible commitment in order to provide treatment, as well as to protect California's citizens from possible victimization by sexually violent predators.

(c) Persons referred to the SOCP by the Department of Corrections and Rehabilitation as possible sexually violent predators and who meet the preliminary screening criteria must undergo precommitment evaluations by at least two professionals who meet the requirements specified in Section 6601 of the Welfare and Institutions Code.

(d) It is difficult for the state to recruit and retain individuals with the required expertise within the civil service.

(e) Evaluations must be conducted in a timely manner to avoid the release into society of possible sexually violent predators.

(f) It is the intent of the Legislature to ensure the protection of California's residents by providing the State Department of Mental Health with the necessary flexibility in obtaining experienced professionals, both within the civil service and through contracts, so that sexually violent predator evaluations can occur within the statutory timeframe.

SEC. 2. Section 6601 of the Welfare and Institutions Code is amended to read:

6601. (a) (1) Whenever the Secretary of the Department of Corrections and Rehabilitation determines that an individual who is in custody under the jurisdiction of the Department of Corrections and Rehabilitation, and who is either serving a determinate prison sentence or whose parole has been revoked, may be a sexually violent predator, the secretary shall, at least six months prior to that individual's scheduled date for release from prison, refer the person for evaluation in accordance with this section. However, if the inmate was received by the department with less than nine months of his or her sentence to serve, or if the inmate's release date is modified by judicial or administrative action, the secretary may refer the person for evaluation in accordance with this section at a date that is less than six months prior to the inmate's scheduled release date.

(2) A petition may be filed under this section if the individual was in custody pursuant to his or her determinate prison term, parole revocation term, or a hold placed pursuant to Section 6601.3, at the time the petition is filed. A petition shall not be dismissed on the basis of a later judicial or administrative determination that the individual's custody was

unlawful, if the unlawful custody was the result of a good faith mistake of fact or law. This paragraph shall apply to any petition filed on or after January 1, 1996.

(b) The person shall be screened by the Department of Corrections and Rehabilitation and the Board of Parole Hearings based on whether the person has committed a sexually violent predatory offense and on a review of the person's social, criminal, and institutional history. This screening shall be conducted in accordance with a structured screening instrument developed and updated by the State Department of Mental Health in consultation with the Department of Corrections and Rehabilitation. If as a result of this screening it is determined that the person is likely to be a sexually violent predator, the Department of Corrections and Rehabilitation shall refer the person to the State Department of Mental Health for a full evaluation of whether the person meets the criteria in Section 6600.

(c) The State Department of Mental Health shall evaluate the person in accordance with a standardized assessment protocol, developed and updated by the State Department of Mental Health, to determine whether the person is a sexually violent predator as defined in this article. The standardized assessment protocol shall require assessment of diagnosable mental disorders, as well as various factors known to be associated with the risk of reoffense among sex offenders. Risk factors to be considered shall include criminal and psychosexual history, type, degree, and duration of sexual deviance, and severity of mental disorder.

(d) Pursuant to subdivision (c), the person shall be evaluated by two practicing psychiatrists or psychologists, or one practicing psychiatrist and one practicing psychologist, designated by the Director of Mental Health, one or both of whom may be independent professionals as defined in subdivision (g). If both evaluators concur that the person has a diagnosed mental disorder so that he or she is likely to engage in acts of sexual violence without appropriate treatment and custody, the Director of Mental Health shall forward a request for a petition for commitment under Section 6602 to the county designated in subdivision (i). Copies of the evaluation reports and any other supporting documents shall be made available to the attorney designated by the county pursuant to subdivision (i) who may file a petition for commitment.

(e) If one of the professionals performing the evaluation pursuant to subdivision (d) does not concur that the person meets the criteria specified in subdivision (d), but the other professional concludes that the person meets those criteria, the Director of Mental Health shall arrange for further examination of the person by two independent professionals selected in accordance with subdivision (g).

(f) If an examination by independent professionals pursuant to subdivision (e) is conducted, a petition to request commitment under this article shall only be filed if both independent professionals who evaluate the person pursuant to subdivision (e) concur that the person meets the criteria for commitment specified in subdivision (d). The professionals selected to evaluate the person pursuant to subdivision (g) shall inform the person that the purpose of their examination is not treatment but to determine if the person meets certain criteria to be involuntarily committed pursuant to this article. It is not required that the person appreciate or understand that information.

(g) Any independent professional who is designated by the Secretary of the Department of Corrections and Rehabilitation or the Director of Mental Health for purposes of this section shall not be a state government employee, shall have at least five years of experience in the diagnosis and treatment of mental disorders, and shall include psychiatrists and licensed psychologists who have a doctoral degree in psychology. The requirements set forth in this section also shall apply to any professionals appointed by the court to evaluate the person for purposes of any other proceedings under this article.

(h) If the State Department of Mental Health determines that the person is a sexually violent predator as defined in this article, the Director of Mental Health shall forward a request for a petition to be filed for commitment under this article to the county designated in subdivision (i). Copies of the evaluation reports and any other supporting documents shall be made available to the attorney designated by the county pursuant to subdivision (i) who may file a petition for commitment in the superior court.

(i) If the county's designated counsel concurs with the recommendation, a petition for commitment shall be filed in the superior court of the county in which the person was convicted of the offense for which he or she was committed to the jurisdiction of the Department of Corrections and Rehabilitation. The petition shall be filed, and the proceedings shall be handled, by either the district attorney or the county counsel of that county. The county board of supervisors shall designate either the district attorney or the county counsel to assume responsibility for proceedings under this article.

(j) The time limits set forth in this section shall not apply during the first year that this article is operative.

(k) If the person is otherwise subject to parole, a finding or placement made pursuant to this article shall toll the term of parole pursuant to Article 1 (commencing with Section 3000) of Chapter 8 of Title 1 of Part 3 of the Penal Code.

(*l*) Pursuant to subdivision (d), the attorney designated by the county pursuant to subdivision (i) shall notify the State Department of Mental Health of its decision regarding the filing of a petition for commitment within 15 days of making that decision.

(m) (1) The department shall provide the fiscal and policy committees of the Legislature, including the Chairperson of the Joint Legislative Budget Committee, and the Department of Finance, with a semiannual update on the progress made to hire qualified state employees to conduct the evaluation required pursuant to subdivision (d). The first update shall be provided no later than July 10, 2009.

(2) On or before January 2, 2010, the department shall report to the Legislature on all of the following:

(A) The costs to the department for the sexual offender commitment program attributable to the provisions in Proposition 83 of the November 2006 general election, otherwise known as Jessica's Law.

(B) The number and proportion of inmates evaluated by the department for commitment to the program as a result of the expanded evaluation and commitment criteria in Jessica's Law.

(C) The number and proportion of those inmates who have actually been committed for treatment in the program.

(3) This section shall remain in effect and be repealed on the date that the director executes a declaration, which shall be provided to the fiscal and policy committees of the Legislature, including the Chairperson of the Joint Legislative Budget Committee, and the Department of Finance, specifying that sufficient qualified state employees have been hired to conduct the evaluations required pursuant to subdivision (d), or January 1, 2011, whichever occurs first.

SEC. 3. Section 6601 is added to the Welfare and Institutions Code, to read:

6601. (a) (1) Whenever the Secretary of the Department of Corrections and Rehabilitation determines that an individual who is in custody under the jurisdiction of the Department of Corrections and Rehabilitation, and who is either serving a determinate prison sentence or whose parole has been revoked, may be a sexually violent predator, the secretary shall, at least six months prior to that individual's scheduled date for release from prison, refer the person for evaluation in accordance with this section. However, if the inmate was received by the department with less than nine months of his or her sentence to serve, or if the inmate's release date is modified by judicial or administrative action, the secretary may refer the person for evaluation in accordance with this section at a date that is less than six months prior to the inmate's scheduled release date.

(2) A petition may be filed under this section if the individual was in custody pursuant to his or her determinate prison term, parole revocation term, or a hold placed pursuant to Section 6601.3, at the time the petition is filed. A petition shall not be dismissed on the basis of a later judicial or administrative determination that the individual's custody was unlawful, if the unlawful custody was the result of a good faith mistake of fact or law. This paragraph shall apply to any petition filed on or after January 1, 1996.

(b) The person shall be screened by the Department of Corrections and Rehabilitation and the Board of Parole Hearings based on whether the person has committed a sexually violent predatory offense and on a review of the person's social, criminal, and institutional history. This screening shall be conducted in accordance with a structured screening instrument developed and updated by the State Department of Mental Health in consultation with the Department of Corrections and Rehabilitation. If as a result of this screening it is determined that the person is likely to be a sexually violent predator, the Department of Corrections and Rehabilitation shall refer the person to the State Department of Mental Health for a full evaluation of whether the person meets the criteria in Section 6600.

(c) The State Department of Mental Health shall evaluate the person in accordance with a standardized assessment protocol, developed and updated by the State Department of Mental Health, to determine whether the person is a sexually violent predator as defined in this article. The standardized assessment protocol shall require assessment of diagnosable mental disorders, as well as various factors known to be associated with the risk of reoffense among sex offenders. Risk factors to be considered shall include criminal and psychosexual history, type, degree, and duration of sexual deviance, and severity of mental disorder.

(d) Pursuant to subdivision (c), the person shall be evaluated by two practicing psychiatrists or psychologists, or one practicing psychiatrist and one practicing psychologist, designated by the Director of Mental Health. If both evaluators concur that the person has a diagnosed mental disorder so that he or she is likely to engage in acts of sexual violence without appropriate treatment and custody, the Director of Mental Health shall forward a request for a petition for commitment under Section 6602 to the county designated in subdivision (i). Copies of the evaluation reports and any other supporting documents shall be made available to the attorney designated by the county pursuant to subdivision (i) who may file a petition for commitment.

(e) If one of the professionals performing the evaluation pursuant to subdivision (d) does not concur that the person meets the criteria specified in subdivision (d), but the other professional concludes that the person

meets those criteria, the Director of Mental Health shall arrange for further examination of the person by two independent professionals selected in accordance with subdivision (g).

(f) If an examination by independent professionals pursuant to subdivision (e) is conducted, a petition to request commitment under this article shall only be filed if both independent professionals who evaluate the person pursuant to subdivision (e) concur that the person meets the criteria for commitment specified in subdivision (d). The professionals selected to evaluate the person pursuant to subdivision (g) shall inform the person that the purpose of their examination is not treatment but to determine if the person meets certain criteria to be involuntarily committed pursuant to this article. It is not required that the person appreciate or understand that information.

(g) Any independent professional who is designated by the Secretary of the Department of Corrections and Rehabilitation or the Director of Mental Health for purposes of this section shall not be a state government employee, shall have at least five years of experience in the diagnosis and treatment of mental disorders, and shall include psychiatrists and licensed psychologists who have a doctoral degree in psychology. The requirements set forth in this section also shall apply to any professionals appointed by the court to evaluate the person for purposes of any other proceedings under this article.

(h) If the State Department of Mental Health determines that the person is a sexually violent predator as defined in this article, the Director of Mental Health shall forward a request for a petition to be filed for commitment under this article to the county designated in subdivision (i). Copies of the evaluation reports and any other supporting documents shall be made available to the attorney designated by the county pursuant to subdivision (i) who may file a petition for commitment in the superior court.

(i) If the county's designated counsel concurs with the recommendation, a petition for commitment shall be filed in the superior court of the county in which the person was convicted of the offense for which he or she was committed to the jurisdiction of the Department of Corrections and Rehabilitation. The petition shall be filed, and the proceedings shall be handled, by either the district attorney or the county counsel of that county. The county board of supervisors shall designate either the district attorney or the county counsel to assume responsibility for proceedings under this article.

(j) The time limits set forth in this section shall not apply during the first year that this article is operative.

(k) If the person is otherwise subject to parole, a finding or placement made pursuant to this article shall toll the term of parole pursuant to

Article 1 (commencing with Section 3000) of Chapter 8 of Title 1 of Part 3 of the Penal Code.

(*l*) Pursuant to subdivision (d), the attorney designated by the county pursuant to subdivision (i) shall notify the State Department of Mental Health of its decision regarding the filing of a petition for commitment within 15 days of making that decision.

(2) The amount of actual damages, if any, sustained by the patient.

(c) (1) In addition, any person or entity that negligently discloses medical information in violation of the provisions of this part shall also be liable, irrespective of the amount of damages suffered by the patient as a result of that violation, for an administrative fine or civil penalty not to exceed two thousand five hundred dollars ($2,500) per violation.

(2) (A) Any person or entity, other than a licensed health care professional, who knowingly and willfully obtains, discloses, or uses medical information in violation of this part shall be liable for an administrative fine or civil penalty not to exceed twenty-five thousand dollars ($25,000) per violation.

*The people of the State of California do enact as follows:*

SECTION 1. Section 1262.8 of the Health and Safety Code is repealed.

SEC. 2. Section 1262.8 is added to the Health and Safety Code, to read:

1262.8. (a) A noncontracting hospital shall not bill a patient who is an enrollee of a health care service plan for poststabilization care, except for applicable copayments, coinsurance, and deductibles, unless one of the following conditions are met:

(1) The patient or the patient's spouse or legal guardian refuses to consent, pursuant to subdivision (f), for the patient to be transferred to the contracting hospital as requested and arranged for by the patient's health care service plan.

(2) The hospital is unable to obtain the name and contact information of the patient's health care service plan as provided in subdivision (c).

(b) If a patient with an emergency medical condition, as defined by Section 1317.1, is covered by a health care service plan that requires prior authorization for poststabilization care, a noncontracting hospital, except as provided in subdivision (n), shall, prior to providing poststabilization care, do all of the following once the emergency medical condition has been stabilized, as defined by Section 1317.1:

(1) Seek to obtain the name and contact information of the patient's health care service plan. The hospital shall document its attempt to ascertain this information in the patient's medical record, which shall include requesting the patient's health care service plan member card or asking the patient, or a family member or other person accompanying the patient, if he or she can identify the patient's health care service plan, or any other means known to the hospital for accurately identifying the patient's health care service plan.

(2) Contact the patient's health care service plan, or the health plan's contracting medical provider, for authorization to provide poststabilization care, if identification of the plan was obtained pursuant to paragraph (1).

(A) The hospital shall make the contact described in this subparagraph by either following the instructions on the patient's health care service plan member card or using the contact information provided by the patient's health care service plan pursuant to subdivision (j) or (k).

(B) A representative of the hospital shall not be required to make more than one telephone call to the health care service plan, or its contracting medical provider, provided that in all cases the health care service plan, or its contracting medical provider, shall be able to reach a representative of the hospital upon returning the call, should the plan, or its contracting medical provider, need to call back. The representative of the hospital who makes the telephone call may be, but is not required to be, a physician and surgeon.

(3) Upon request of the patient's health care service plan, or the health plan's contracting medical provider, provide to the plan, or its contracting medical provider, the treating physician and surgeon's diagnosis and any other relevant information reasonably necessary for the health care service plan or the plan's contracting medical provider to make a decision to authorize poststabilization care or to assume management of the patient's care by prompt transfer.

(c) A noncontracting hospital that is not able to obtain the name and contact information of the patient's health care service plan pursuant to subdivision (b) is not subject to the requirements of this section.

(d) (1) A health care service plan, or its contracting medical provider, that is contacted by a noncontracting hospital pursuant to paragraph (2) of subdivision (b), shall, within 30 minutes from the time the noncontracting hospital makes the initial contact, do either of the following:

(A) Authorize poststabilization care.

(B) Inform the noncontracting hospital that it will arrange for the prompt transfer of the enrollee to another hospital.

(2) If the health care service plan, or its contracting medical provider, does not notify the noncontracting hospital of its decision pursuant to paragraph (1) within 30 minutes, the poststabilization care shall be deemed authorized, and the health care service plan, or its contracting medical provider, shall pay charges for the care, in accordance with the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2) and any regulation adopted thereunder.

(3) If the health care service plan, or its contracting medical provider, notified the noncontracting hospital that it would assume management of the patient's care by prompt transfer, but either the health care service plan or its contracting medical provider fails to transfer the patient within a reasonable time, the poststabilization care shall be deemed authorized,

and the health care service plan, or its contracting medical provider, shall pay charges, in accordance with the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2 of the Health and Safety Code) and any regulation adopted thereunder, for the care until the enrollee is transferred.

(4) If the health care service plan, or its contracting medical provider, provides authorization to the noncontracting hospital for specified poststabilization care and services, the health care service plan, or its contracting medical provider, shall be responsible to pay for that authorized care.

(e) If a health care service plan, or its contracting medical provider, decides to assume management of the patient's care by prompt transfer, the health care service plan, or its contracting medical provider, shall do all of the following:

(1) Arrange and pay the reasonable charges associated with the transfer of the patient.

(2) Pay for all of the immediately required medically necessary care rendered to the patient prior to the transfer in order to maintain the patient's clinical stability.

(3) Be responsible for making all arrangements for the patient's transfer, including, but not limited to, finding a contracted facility available for the transfer of the patient.

(f) (1) If the patient, or the patient's spouse or legal guardian refuses to consent to the patient's transfer under subdivision (e), the noncontracting hospital shall promptly provide a written notice to the patient or the patient's spouse or legal guardian indicating that the patient will be financially responsible for any further poststabilization care provided by the hospital.

(2) For patients whose primary language is one of the Medi-Cal threshold languages, the notice shall be delivered to them in their primary language.

(3) The Department of Managed Health Care shall translate the notice required by this subdivision in all Medi-Cal threshold languages and make the translations available to the hospitals subject to this section.

(4) The written notice provided pursuant to this subdivision shall include the following statement:

THIS NOTICE MUST BE PROVIDED TO YOU UNDER CALIFORNIA LAW

"You have received emergency care at a hospital that is not a part of your health plan's provider network. Under state law, emergency care must be paid by your health plan no matter where you get that care. The

doctor who is caring for you has decided that you may be safely moved to another hospital for the additional care you need. Because you no longer need emergency care, your health plan has not authorized further care at this hospital. Your health plan has arranged for you to be moved to a hospital that is in your health plan's provider network.

If you agree to be moved, your health plan will pay for your care at that hospital. You will only have to pay for your deductible, copayments, or coinsurance for care. You will not have to pay for your deductible, copayments, or coinsurance for transportation costs to another hospital that is covered by your health plan.

IF YOU CHOOSE TO STAY AT THIS HOSPITAL FOR YOUR ADDITIONAL CARE, YOU WILL HAVE TO PAY THE FULL COST OF CARE NOW THAT YOU NO LONGER NEED EMERGENCY CARE. This cost may include the cost of the doctor or doctors, the hospital, and any laboratory, radiology, or other services that you receive.

If you do not think you can be safely moved, talk to the doctor about your concerns. If you would like additional help, you may contact:

Your health plan member services department. Look on your health plan member card for that phone number. You can file a grievance with your plan.

The HMO Helpline at 888-HMO-2219. The HMO Helpline is available 24 hours a day, 7 days a week. The HMO Helpline can work with your health plan to address your concerns, but you may still have to pay the full cost of care at this hospital if you stay."

(5) The hospital shall give one copy of the written notice required by this subdivision to the patient, or the patient's spouse or legal guardian, for signature and may retain a copy in the patient's medical record.

(6) The hospital shall ensure prompt delivery of the notice to the patient or his or her spouse or legal guardian. The hospital shall obtain signed acceptance of the written notice required by this subdivision, and signed acceptance of any other documents the hospital requires for any further poststabilization care, from the patient or the patient's spouse or legal guardian, and shall provide the health care service plan, or its contracting medical provider, with confirmation of the patient's, or his or her spouse or legal guardian's, receipt of the written notice.

(7) If the noncontracting hospital fails to meet the requirements of this subdivision, the hospital shall not bill the patient or the patient's health care service plan, or its contracting medical provider, for poststabilization care provided to the patient.

(8) If the patient, or the patient's spouse or legal guardian, refuses to sign the notice, the noncontracting hospital shall document in the patient's medical record that the notice was provided and signature was refused.

Upon the patient's refusal to sign, the patient shall assume financial responsibility for any further poststabilization care provided by the hospital.

(9) The Department of Managed Health Care may, by regulation, modify the wording of the notice required under this subdivision for clarity, readability, and accuracy of the information provided.

(10) The Department of Managed Health Care may, in conjunction with consumer groups, health care service plans, and hospitals, modify the wording of the notice to include language regarding Medicare beneficiaries, if appropriate under Medicare rules. The initial modification shall not be subject to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340, et. seq.) of Part 1 of Division 3 of Title 2 of the Government Code).

(g) If poststabilization care has been authorized by the health care service plan, the noncontracting hospital shall request the patient's medical record from the patient's health care service plan or its contracting medical provider.

(h) The health care service plan, or its contracting medical provider, shall, upon conferring with the noncontracting hospital, transmit any appropriate portion of the patient's medical record, if the records are in the plan's possession, via facsimile transmission or electronic mail, whichever method is requested by the noncontracting hospital's representative or the noncontracting physician and surgeon. The health care service plan, or its contracting medical provider, shall transmit the patient's medical record in a manner that complies with all legal requirements to protect the patient's privacy.

(i) A health care service plan, or its contracting medical provider, that requires prior authorization for poststabilization care shall provide 24-hour access for patients and providers, including noncontracting hospitals, to obtain timely authorization for medically necessary poststabilization care.

(j) A health care service plan shall provide all noncontracting hospitals in the state with specific contact information needed to make the contact required by this section. The contact information provided to hospitals shall be updated as necessary, but no less than once a year.

(k) In addition to meeting the requirements of subdivision (j), a health care service plan shall provide the contact information described in subdivision (j) to the Department of Managed Health Care. The contact information provided pursuant to this subdivision shall be updated as necessary, but no less than once a year. The receiving department shall post this contact information on its Internet Web site no later than January 1 of each calendar year.

(1) The procedure is provided in the treatment area of the emergency department.

(2) The procedure concludes the treatment of the presenting emergency medical condition of a patient and is related to that condition, even though the treatment may not resolve the underlying medical condition.

(3) The procedure is performed according to accepted standards of practice.

(4) The procedure would result in the direct discharge or release of the patient from the emergency department following this care.

(o) Nothing in this section is intended to prevent a health care service plan or its contracting medical provider from assuming management of the patient's care at any time after the initial provision of poststabilization care by the noncontracting hospital before the patient has been discharged. Upon the request of the health care service plan or its contracting medical provider, the noncontracting hospital shall provide the health care service plan or its contracting medical provider with any information specified in paragraph (3) of subdivision (b).

(p) Nothing in this section shall authorize a provider of health care services to bill a Medi-Cal beneficiary enrolled in a Medi-Cal managed care plan or otherwise alter the provisions of subdivision (a) of Section 14019.3 of the Welfare and Institutions Code.

(3) Serious dysfunction of any bodily organ or part.

(c) "Active labor" means a labor at a time at which either of the following would occur:

(1) There is inadequate time to effect safe transfer to another hospital prior to delivery.

(2) A transfer may pose a threat to the health and safety of the patient or the unborn child.

(d) "Hospital" means all hospitals with an emergency department licensed by the state department.

(e) "State department" means the State Department of Public Health.

(f) "Medical hazard" means a material deterioration in medical condition in, or jeopardy to, a patient's medical condition or expected chances for recovery.

(g) "Board" means the Medical Board of California.

(h) "Within the capability of the facility" means those capabilities which the hospital is required to have as a condition of its emergency medical services permit and services specified on Services Inventory Form 7041 filed by the hospital with the Office of Statewide Health Planning and Development.

(i) "Consultation" means the rendering of an opinion, advice, or prescribing treatment by telephone and, when determined to be medically necessary jointly by the emergency and specialty physicians, includes

review of the patient's medical record, examination, and treatment of the patient in person by a specialty physician who is qualified to give an opinion or render the necessary treatment in order to stabilize the patient.

(j) A patient is "stabilized" or "stabilization" has occurred when, in the opinion of the treating provider, the patient's medical condition is such that, within reasonable medical probability, no material deterioration of the patient's condition is likely to result from, or occur during, the release or transfer of the patient as provided for in Section 1317.2, Section 1317.2a, or other pertinent statute.

(k) (1) Notwithstanding subdivision (j), a patient may be transferred for admission to a psychiatric unit within a general acute care hospital, as defined in subdivision (a) of Section 1250, or an acute psychiatric hospital, as defined in subdivision (b) of Section 1250, for care and treatment that is solely necessary to relieve or eliminate a psychiatric emergency medical condition, as defined in paragraph (3) of subdivision (a), provided that, in the opinion of the treating provider, the patient's psychiatric emergency medical condition is such that, within reasonable medical probability, no material deterioration of the patient's psychiatric emergency medical condition is likely to result from, or occur during, a transfer of the patient. A provider shall notify the patient's health care service plan, or the health plan's contracting medical provider of the need for the transfer if identification of the plan is obtained pursuant to subparagraph (A) of paragraph (2).

(2) A hospital that transfers a patient pursuant to paragraph (1) shall do both of the following:

(A) Seek to obtain the name and contact information of the patient's health care service plan. The hospital shall document its attempt to ascertain this information in the patient's medical record. The hospital's attempt to ascertain the information shall include requesting the patient's health care service plan member card, asking the patient, the patient's family member, or other person accompanying the patient if he or she can identify the patient's health care service plan, or using other means known to the hospital to accurately identify the patient's health care service plan.

(B) Notify the patient's health care service plan or the health plan's contracting medical provider of the transfer, provided that the identification of the plan was obtained pursuant to subparagraph (A). The hospital shall provide the plan or its contracting medical provider with the name of the patient, the patient's member identification number, if known, the location and contact information, including a telephone number, for the location where the patient will be admitted, and the preliminary diagnosis.

(3) (A) A hospital shall make the notification described in subparagraph (B) of paragraph (2) by either following the instructions on the patient's health care service plan member card or by using the contact information provided by the patient's health care service plan. A health care service plan shall provide all noncontracting hospitals in the state to which one of its members would be transferred pursuant to subparagraph (A) of paragraph (2) of subdivision (a) with specific contact information needed to make the contact required by this section. The contact information provided to hospitals shall be updated as necessary, but no less than once a year.

(B) A hospital making the transfer pursuant to paragraph (1) shall not be required to make more than one telephone call to the health care service plan, or its contracting medical provider, provided that in all cases the health care service plan, or its contracting medical provider, shall be able to reach a representative of the provider upon returning the call, should the plan, or its contracting medical provider, need to call back. The representative of the hospital who makes the telephone call may be, but is not required to be, a physician and surgeon.

(4) If a transfer made pursuant to paragraph (1) is made to a facility that does not have a contract with the patient's health care service plan or health insurer, the plan or insurer may subsequently require and make provision for the transfer of the patient receiving services pursuant to this subdivision and subdivision (a) from the noncontracting facility to a general acute care hospital, as defined in subdivision (a) of Section 1250, or an acute psychiatric hospital, as defined in subdivision (b) of Section 1250, that has a contract with the plan or its delegated payer, provided that in the opinion of the treating provider the patient's psychiatric emergency medical condition is such that, within reasonable medical probability, no material deterioration of the patient's psychiatric emergency medical condition is likely to result from, or occur during, the transfer of the patient.

(5) Upon admission, the hospital to which the patient was transferred shall notify the health care service plan of the transfer, provided that the facility has the name and contact information of the patient's health care service plan. The facility shall not be required to make more than one telephone call to the health care service plan, or its contracting medical provider, provided that in all cases the health care service plan, or its contracting medical provider, shall be able to reach a representative of the facility upon returning the call, should the plan, or its contracting medical provider, need to call back. The representative of the facility who makes the telephone call may be, but is not required to be, a physician and surgeon.

(6) Nothing in this subdivision shall be construed to require providers to seek authorization to provide emergency services and care, as defined in paragraph (2) of subdivision (a), to a patient who has a psychiatric emergency medical condition, as defined in paragraph (3) of subdivision (a), that is not otherwise required by law.

SEC. 4. Section 1371.4 of the Health and Safety Code is amended to read:

1371.4. (a) A health care service plan that covers hospital, medical, or surgical expenses, or its contracting medical providers, shall provide 24-hour access for enrollees and providers, including, but not limited to, noncontracting hospitals, to obtain timely authorization for medically necessary care, for circumstances where the enrollee has received emergency services and care is stabilized, but the treating provider believes that the enrollee may not be discharged safely. A physician and surgeon shall be available for consultation and for resolving disputed requests for authorizations. A health care service plan that does not require prior authorization as a prerequisite for payment for necessary medical care following stabilization of an emergency medical condition or active labor need not satisfy the requirements of this subdivision.

(b) A health care service plan, or its contracting medical providers, shall reimburse providers for emergency services and care provided to its enrollees, until the care results in stabilization of the enrollee, except as provided in subdivision (c). As long as federal or state law requires that emergency services and care be provided without first questioning the patient's ability to pay, a health care service plan shall not require a provider to obtain authorization prior to the provision of emergency services and care necessary to stabilize the enrollee's emergency medical condition.

(c) Payment for emergency services and care may be denied only if the health care service plan, or its contracting medical providers, reasonably determines that the emergency services and care were never performed; provided that a health care service plan, or its contracting medical providers, may deny reimbursement to a provider for a medical screening examination in cases when the plan enrollee did not require emergency services and care and the enrollee reasonably should have known that an emergency did not exist. A health care service plan may require prior authorization as a prerequisite for payment for necessary medical care following stabilization of an emergency medical condition.

(d) If there is a disagreement between the health care service plan and the provider regarding the need for necessary medical care, following stabilization of the enrollee, the plan shall assume responsibility for the care of the patient either by having medical personnel contracting with the plan personally take over the care of the patient within a reasonable

amount of time after the disagreement, or by having another general acute care hospital under contract with the plan agree to accept the transfer of the patient as provided in Section 1317.2, Section 1317.2a, or other pertinent statute. However, this requirement shall not apply to necessary medical care provided in hospitals outside the service area of the health care service plan. If the health care service plan fails to satisfy the requirements of this subdivision, further necessary care shall be deemed to have been authorized by the plan. Payment for this care may not be denied.

(e) A health care service plan may delegate the responsibilities enumerated in this section to the plan's contracting medical providers.

(f) Subdivisions (b), (c), (d), (g), and (h) shall not apply with respect to a nonprofit health care service plan that has 3,500,000 enrollees and maintains a prior authorization system that includes the availability by telephone within 30 minutes of a practicing emergency department physician.

(g) The Department of Managed Health Care shall adopt by July 1, 1995, on an emergency basis, regulations governing instances when an enrollee requires medical care following stabilization of an emergency medical condition, including appropriate timeframes for a health care service plan to respond to requests for treatment authorization.

(h) The Department of Managed Health Care shall adopt, by July 1, 1999, on an emergency basis, regulations governing instances when an enrollee in the opinion of the treating provider requires necessary medical care following stabilization of an emergency medical condition, including appropriate timeframes for a health care service plan to respond to a request for treatment authorization from a treating provider who has a contract with a plan.

(i) The definitions set forth in Section 1317.1 shall control the construction of this section.

(j) (1) A health care service plan that is contacted by a hospital pursuant to Section 1262.8 shall, within 30 minutes of the time the hospital makes the initial telephone call requesting information, either authorize poststabilization care or inform the hospital that it will arrange for the prompt transfer of the enrollee to another hospital.

(2) A health care service plan that is contacted by a hospital pursuant to Section 1262.8 shall reimburse the hospital for poststabilization care rendered to the enrollee if any of the following occur:

(A) The health care service plan authorizes the hospital to provide poststabilization care.

(B) The health care service plan does not respond to the hospital's initial contact or does not make a decision regarding whether to authorize

poststabilization care or to promptly transfer the enrollee within the timeframe set forth in paragraph (1).

(C) There is an unreasonable delay in the transfer of the enrollee, and the noncontracting physician and surgeon determines that the enrollee requires poststabilization care.

(3) A health care service plan shall not require a hospital representative or a noncontracting physician and surgeon to make more than one telephone call pursuant to Section 1262.8 to the number provided in advance by the health care service plan. The representative of the hospital that makes the telephone call may be, but is not required to be, a physician and surgeon.

(4) An enrollee who is billed by a hospital in violation of Section 1262.8 may report receipt of the bill to the health care service plan and the department. The department shall forward that report to the State Department of Public Health.

(5) For purposes of this section, "poststabilization care" means medically necessary care provided after an emergency medical condition has been stabilized.

SEC. 5. Section 1386 of the Health and Safety Code is amended to read:

1386. (a) The director may, after appropriate notice and opportunity for a hearing, by order suspend or revoke any license issued under this chapter to a health care service plan or assess administrative penalties if the director determines that the licensee has committed any of the acts or omissions constituting grounds for disciplinary action.

(b) The following acts or omissions constitute grounds for disciplinary action by the director:

(1) The plan is operating at variance with the basic organizational documents as filed pursuant to Section 1351 or 1352, or with its published plan, or in any manner contrary to that described in, and reasonably inferred from, the plan as contained in its application for licensure and annual report, or any modification thereof, unless amendments allowing the variation have been submitted to, and approved by, the director.

(2) The plan has issued, or permits others to use, evidence of coverage or uses a schedule of charges for health care services that do not comply with those published in the latest evidence of coverage found unobjectionable by the director.

(3) The plan does not provide basic health care services to its enrollees and subscribers as set forth in the evidence of coverage. This subdivision shall not apply to specialized health care service plan contracts.

(4) The plan is no longer able to meet the standards set forth in Article 5 (commencing with Section 1367).

(5) The continued operation of the plan will constitute a substantial risk to its subscribers and enrollees.

(6) The plan has violated or attempted to violate, or conspired to violate, directly or indirectly, or assisted in or abetted a violation or conspiracy to violate any provision of this chapter, any rule or regulation adopted by the director pursuant to this chapter, or any order issued by the director pursuant to this chapter.

(7) The plan has engaged in any conduct that constitutes fraud or dishonest dealing or unfair competition, as defined by Section 17200 of the Business and Professions Code.

(8) The plan has permitted, or aided or abetted any violation by an employee or contractor who is a holder of any certificate, license, permit, registration, or exemption issued pursuant to the Business and Professions Code or this code that would constitute grounds for discipline against the certificate, license, permit, registration, or exemption.

(9) The plan has aided or abetted or permitted the commission of any illegal act.

(10) The engagement of a person as an officer, director, employee, associate, or provider of the plan contrary to the provisions of an order issued by the director pursuant to subdivision (c) of this section or subdivision (d) of Section 1388.

(11) The engagement of a person as a solicitor or supervisor of solicitation contrary to the provisions of an order issued by the director pursuant to Section 1388.

(12) The plan, its management company, or any other affiliate of the plan, or any controlling person, officer, director, or other person occupying a principal management or supervisory position in the plan, management company, or affiliate, has been convicted of or pleaded nolo contendere to a crime, or committed any act involving dishonesty, fraud, or deceit, which crime or act is substantially related to the qualifications, functions, or duties of a person engaged in business in accordance with this chapter. The director may revoke or deny a license hereunder irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

(13) The plan violates Section 510, 2056, or 2056.1 of the Business and Professions Code or Section 1375.7.

(14) The plan has been subject to a final disciplinary action taken by this state, another state, an agency of the federal government, or another country for any act or omission that would constitute a violation of this chapter.

(15) The plan violates the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code).

(16) The plan violates Section 806 of the Military and Veterans Code.

(17) The plan violates Section 1262.8.

(c) (1) The director may prohibit any person from serving as an officer, director, employee, associate, or provider of any plan or solicitor firm, or of any management company of any plan, or as a solicitor, if either of the following applies:

(A) The prohibition is in the public interest and the person has committed, caused, participated in, or had knowledge of a violation of this chapter by a plan, management company, or solicitor firm.

(B) The person was an officer, director, employee, associate, or provider of a plan or of a management company or solicitor firm of any plan whose license has been suspended or revoked pursuant to this section and the person had knowledge of, or participated in, any of the prohibited acts for which the license was suspended or revoked.

(2) A proceeding for the issuance of an order under this subdivision may be included with a proceeding against a plan under this section or may constitute a separate proceeding, subject in either case to subdivision (d).

(d) A proceeding under this section shall be subject to appropriate notice to, and the opportunity for a hearing with regard to, the person affected in accordance with subdivision (a) of Section 1397.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

SEC. 7. Section 3.5 of this bill incorporates amendments to Section 1317.1 of the Health and Safety Code proposed by both this bill and AB 2861. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2009, (2) each bill amends Section 1317.1 of the Health and Safety Code, and (3) this bill is enacted after AB 2861, in which case Section 3 of this bill shall not become operative.

1389.7. (a) Every health care service plan that offers, issues, or renews individual plan contracts shall offer to any individual, who was covered under an individual plan contract that was rescinded, a new individual plan contract, without medical underwriting, that provides equal benefits. A health care service plan may also permit an individual, who was covered under an individual plan contract that was rescinded, to remain covered under that individual plan contract, with a revised premium rate that reflects the number of persons remaining on the plan contract.

(b) "Without medical underwriting" means that the health care service plan shall not decline to offer coverage to, or deny enrollment of, the individual or impose any preexisting condition exclusion on the individual who is issued a new individual plan contract or remains covered under an individual plan contract pursuant to this section.

(c) If a new individual plan contract is issued, the plan may revise the premium rate to reflect only the number of persons covered on the new individual plan contract.

(d) Notwithstanding subdivision (a) and (b), if an individual was subject to a preexisting condition provision or a waiting or an affiliation period under the individual plan contract that was rescinded, the health care service plan may apply the same preexisting condition provision or waiting or affiliation period in the new individual plan contract. The time period in the new individual plan contract for the preexisting condition provision or waiting or affiliation period shall not be longer than the one in the individual plan contract that was rescinded and the health care service plan shall credit any time that the individual was covered under the rescinded individual plan contract.

(e) The plan shall notify in writing all enrollees of the right to coverage under an individual plan contract pursuant to this section, at a minimum, when the plan rescinds the individual plan contract. The notice shall adequately inform enrollees of the right to coverage provided under this section.

(f) The plan shall provide 60 days for enrollees to accept the offered new individual plan contract and this contract shall be effective as of the effective date of the original plan contract and there shall be no lapse in coverage.

(g) This section shall not apply to any individual whose information in the application for coverage and related communications led to the rescission.

(2) That he or she explained to the applicant, in easy-to-understand language, the risk to the applicant of providing inaccurate information and that the applicant understood the explanation.

(c) If, in an attestation required by subdivision (b), a declarant willfully states as true any material fact he or she knows to be false, that person shall, in addition to any applicable penalties or remedies available under current law, be subject to a civil penalty of up to ten thousand dollars ($10,000). Any public prosecutor may bring a civil action to impose that civil penalty. These penalties shall be paid to the Managed Care Fund.

(d) A health care service plan application shall include a statement advising declarants of the civil penalty authorized under this section.

SEC. 3. Section 10119.2 is added to the Insurance Code, to read:

A health insurer may also permit an individual, who was covered under an individual health benefit plan that was rescinded, to remain covered under that individual health benefit plan, with a revised premium rate that reflects the number of persons remaining on the health benefit plan.

(b) "Without medical underwriting" means that the health insurer shall not decline to offer coverage to, or deny enrollment of, the individual or impose any preexisting condition exclusion on the individual who is issued a new individual health benefit plan or remains covered under an individual health benefit plan pursuant to this section.

(c) If a new individual health benefit plan is issued, the insurer may revise the premium rate to reflect only the number of persons covered under the new individual health benefit plan.

(d) Notwithstanding subdivision (a) and (b), if an individual was subject to a preexisting condition provision or a waiting or affiliation period under the individual health benefit plan that was rescinded, the health insurer may apply the same preexisting condition provision or waiting or affiliation period in the new individual health benefit plan. The time period in the new individual health benefit plan for the preexisting condition provision or waiting or affiliation period shall not be longer than the one in the individual health benefit plan that was rescinded and the health insurer shall credit any time that the individual was covered under the rescinded individual health benefit plan.

(e) The insurer shall notify in writing all insureds of the right to coverage under an individual health benefit plan pursuant to this section, at a minimum, when the insurer rescinds the individual health benefit plan. The notice shall adequately inform insureds of the right to coverage provided under this section.

(c) If, in an attestation required by subdivision (b), a declarant willfully states as true any material fact he or she knows to be false, that person shall, in addition to any applicable penalties or remedies available under current law, be subject to a civil penalty of up to ten thousand dollars

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

## CHAPTER 605

An act to amend Sections 1280.1 and 1280.3 of, and to add Section 1280.15 to, the Health and Safety Code, relating to health facilities.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1280.1 of the Health and Safety Code is amended to read:

1280.1. (a) Subject to subdivision (d), prior to the effective date of regulations adopted to implement Section 1280.3, if a licensee of a health facility licensed under subdivision (a), (b), or (f) of Section 1250 receives a notice of deficiency constituting an immediate jeopardy to the health or safety of a patient and is required to submit a plan of correction, the department may assess the licensee an administrative penalty in an amount not to exceed twenty-five thousand dollars ($25,000) per violation.

(b) If the licensee disputes a determination by the department regarding the alleged deficiency or the alleged failure to correct a deficiency, or regarding the reasonableness of the proposed deadline for correction or the amount of the penalty, the licensee may, within 10 days, request a hearing pursuant to Section 131071. Penalties shall be paid when appeals have been exhausted and the department's position has been upheld.

(c) For purposes of this section "immediate jeopardy" means a situation in which the licensee's noncompliance with one or more

requirements of licensure has caused, or is likely to cause, serious injury or death to the patient.

(d) This section shall apply only to incidents occurring on or after January 1, 2007. With respect to incidents occurring on or after January 1, 2009, the amount of the administrative penalties assessed under subdivision (a) shall be up to one hundred thousand dollars ($100,000) per violation. With respect to incidents occurring on or after January 1, 2009, the amount of the administrative penalties assessed under subdivision (a) shall be up to fifty thousand dollars ($50,000) for the first administrative penalty, up to seventy-five thousand dollars ($75,000) for the second subsequent administrative penalty, and up to one hundred thousand dollars ($100,000) for the third and every subsequent violation. An administrative penalty issued after three years from the date of the last issued immediate jeopardy violation shall be considered a first administrative penalty so long as the facility has not received additional immediate jeopardy violations and is found by the department to be in substantial compliance with all state and federal licensing laws and regulations. The department shall have full discretion to consider all factors when determining the amount of an administrative penalty pursuant to this section.

(e) No new regulations are required or authorized for implementation of this section.

(f) This section shall become inoperative on the effective date of regulations promulgated by the department pursuant to Section 1280.3.

(g) In enforcing this section, the department shall take into consideration the special circumstances of small and rural hospitals, as defined in Section 124840, in order to protect access to quality care in those hospitals.

SEC. 2. Section 1280.15 is added to the Health and Safety Code, to read:

1280.15. (a) A clinic, health facility, home health agency, or hospice licensed pursuant to Section 1204, 1250, 1725, or 1745 shall prevent unlawful or unauthorized access to, and use or disclosure of, patients' medical information, as defined in subdivision (g) of Section 56.05 of the Civil Code and consistent with Section 130203. The department, after investigation, may assess an administrative penalty for a violation of this section of up to twenty-five thousand dollars ($25,000) per patient whose medical information was unlawfully or without authorization accessed, used, or disclosed, and up to seventeen thousand five hundred dollars ($17,500) per subsequent occurrence of unlawful or unauthorized access, use, or disclosure of that patients' medical information. For purposes of the investigation, the department shall consider the clinic's, health facility's, agency's, or hospice's history of compliance with this

section and other related state and federal statutes and regulations, the extent to which the facility detected violations and took preventative action to immediately correct and prevent past violations from recurring, and factors outside its control that restricted the facility's ability to comply with this section. The department shall have full discretion to consider all factors when determining the amount of an administrative penalty pursuant to this section.

(b) (1) A clinic, health facility, agency, or hospice to which subdivision (a) applies shall report any unlawful or unauthorized access to, or use or disclosure of, a patient's medical information to the department no later than five days after the unlawful or unauthorized access, use, or disclosure has been detected by the clinic, health facility, agency, or hospice.

(2) A clinic, health facility, agency, or hospice shall also report any unlawful or unauthorized access to, or use or disclosure of, a patient's medical information to the affected patient or the patient's representative at the last known address, no later than five days after the unlawful or unauthorized access, use, or disclosure has been detected by the clinic, health facility, agency, or hospice.

(c) If a clinic, health facility, agency, or hospice to which subdivision (a) applies violates subdivision (b), the department may assess the licensee a penalty in the amount of one hundred dollars ($100) for each day that the unlawful or unauthorized access, use, or disclosure is not reported, following the initial five-day period specified in subdivision (b). However, the total combined penalty assessed by the department under subdivision (a) and this subdivision shall not exceed two hundred fifty thousand dollars ($250,000) per reported event.

(d) In enforcing subdivisions (a) and (c), the department shall take into consideration the special circumstances of small and rural hospitals, as defined in Section 124840, and primary care clinics, as defined in subdivision (a) of Section 1204, in order to protect access to quality care in those hospitals and clinics. When assessing a penalty on a skilled nursing facility or other facility subject to Section 1423, 1424, 1424.1, or 1424.5, the department shall issue only the higher of either a penalty for the violation of this section or a penalty for violation of Section 1423, 1424, 1424.1, or 1424.5, not both.

(e) All penalties collected by the department pursuant to this section, Sections 1280.1, 1280.3, and 1280.4, shall be deposited into the Internal Departmental Quality Improvement Account, which is hereby created within the Special Deposit Fund under Section 16370 of the Government Code. Upon appropriation by the Legislature, moneys in the account shall be expended for internal quality improvement activities in the Licensing and Certification Program.

(f) If the licensee disputes a determination by the department regarding a failure to prevent or failure to timely report unlawful or unauthorized access to, or use or disclosure of, patients' medical information, or the imposition of a penalty under this section, the licensee may, within 10 days of receipt of the penalty assessment, request a hearing pursuant to Section 131071. Penalties shall be paid when appeals have been exhausted and the penalty has been upheld.

(g) In lieu of disputing the determination of the department regarding a failure to prevent or failure to timely report unlawful or unauthorized access to, or use or disclosure of, patients' medical information, transmit to the department 75 percent of the total amount of the administrative penalty, for each violation, within 30 business days of receipt of the administrative penalty.

(h) Notwithstanding any other provision of law, the department may refer violations of this section to the office of Health Information Integrity for enforcement pursuant to Section 130303, except that if Assembly Bill 211 of the 2007–08 Regular Session is not enacted, the department may refer violations to the Office of HIPAA Implementation.

(i) For purposes of this section, the following definitions shall apply:

(1) "Reported event" means all breaches included in any single report that is made pursuant to subdivision (b), regardless of the number of breach events contained in the report.

(2) "Unauthorized" means the inappropriate access, review, or viewing of patient medical information without a direct need for medical diagnosis, treatment, or other lawful use as permitted by the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code) or any other statute or regulation governing the lawful access, use, or disclosure of medical information.

SEC. 3. Section 1280.3 of the Health and Safety Code is amended to read:

1280.3. (a) Commencing on the effective date of the regulations adopted pursuant to this section, the director may assess an administrative penalty against a licensee of a health facility licensed under subdivision (a), (b), or (f) of Section 1250 for a deficiency constituting an immediate jeopardy violation as determined by the department up to a maximum of seventy-five thousand dollars ($75,000) for the first administrative penalty, up to one hundred thousand dollars ($100,000) for the second subsequent administrative penalty, and up to one hundred twenty-five thousand dollars ($125,000) for the third and every subsequent violation. An administrative penalty issued after three years from the date of the last issued immediate jeopardy violation shall be considered a first administrative penalty so long as the facility has not received additional

immediate jeopardy violations and is found by the department to be in substantial compliance with all state and federal licensing laws and regulations. The department shall have full discretion to consider all factors when determining the amount of an administrative penalty pursuant to this section.

(b) Except as provided in subdivision (c), for a violation of this chapter or the rules and regulations promulgated thereunder that does not constitute a violation of subdivision (a), the department may assess an administrative penalty in an amount of up to twenty-five thousand dollars ($25,000) per violation. This subdivision shall also apply to violation of regulations set forth in Article 3 (commencing with Section 127400) of Chapter 2 of Part 2 of Division 107 or the rules and regulations promulgated thereunder.

The department shall promulgate regulations establishing the criteria to assess an administrative penalty against a health facility licensed pursuant to subdivisions (a), (b), or (f) of Section 1250. The criteria shall include, but need not be limited to, the following:

(1) The patient's physical and mental condition.

(2) The probability and severity of the risk that the violation presents to the patient.

(3) The actual financial harm to patients, if any.

(4) The nature, scope, and severity of the violation.

(5) The facility's history of compliance with related state and federal statutes and regulations.

(6) Factors beyond the facility's control that restrict the facility's ability to comply with this chapter or the rules and regulations promulgated thereunder.

(7) The demonstrated willfulness of the violation.

(8) The extent to which the facility detected the violation and took steps to immediately correct the violation and prevent the violation from recurring.

(c) The department shall not assess an administrative penalty for minor violations.

(d) The regulations shall not change the definition of immediate jeopardy as established in this section.

(e) The regulations shall apply only to incidents occurring on or after the effective date of the regulations.

(f) If the licensee disputes a determination by the department regarding the alleged deficiency or alleged failure to correct a deficiency, or regarding the reasonableness of the proposed deadline for correction or the amount of the penalty, the licensee may, within 10 working days, request a hearing pursuant to Section 131071. Penalties shall be paid

when all appeals have been exhausted and the department's position has been upheld.

(g) For purposes of this section, "immediate jeopardy" means a situation in which the licensee's noncompliance with one or more requirements of licensure has caused, or is likely to cause, serious injury or death to the patient.

(h) In enforcing subdivision (a) the department shall take into consideration the special circumstances of small and rural hospitals, as defined in Section 124840, in order to protect access to quality care in those hospitals.

SEC. 4. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

## CHAPTER 606

An act to add Sections 12693.55 and 12698.26 to the Insurance Code, relating to health care coverage.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) The Healthy Families Program and the Access for Infants and Mothers Program provide access to health care for the state's chronically underserved and uninsured children and prenatal, well child, and labor and delivery services for pregnant women who might otherwise have difficulty obtaining vital and basic health care services.

(b) In addition to receiving reimbursement from the state through contract managed care plans for services provided to enrollees of these programs, some health care providers seek additional compensation by inappropriately billing enrollees of the programs directly for additional payments.

(c) Enrollees of these programs with limited economic means should not be subjected to aggressive billing practices from overbilling providers who accept reimbursement from one of the programs and then seek an additional double payment by billing unsuspecting enrollees for services previously compensated by the state's taxpayers.

(d) Enrollees of these programs should not be obligated to pay excessive and improper double billings.

(e) Enrollees of these programs, including many with language barriers and those who are low income, should not be subjected to aggressive collection tactics, threats to their credit, and other improper and coercive billing practices designed to intimidate them into making excessive payments they are not obligated to make.

(f) The practice of balance billing Medicare and Medi-Cal enrollees is explicitly prohibited under existing federal and state law.

SEC. 2. Section 12693.55 is added to the Insurance Code, to read:

12693.55. (a) A health care provider who is furnished documentation of a person's enrollment in the program shall not seek reimbursement nor attempt to obtain payment for any covered services provided to that person other than from the participating health plan covering that person.

(b) The provisions of subdivision (a) do not apply to any copayments required for the covered services provided to the person under his or her participating health plan.

(c) For purposes of this section, "health care provider" means any professional person, organization, health facility, or other person or institution licensed by the state to deliver or furnish health care services.

SEC. 3. Section 12698.26 is added to the Insurance Code, to read:

12698.26. (a) A health care provider who is furnished documentation of a subscriber's enrollment in the program shall not seek reimbursement nor attempt to obtain payment for any covered services provided to that subscriber other than from the participating health plan covering the subscriber.

(b) The provisions of subdivision (a) do not apply to any copayments required for the covered services provided to the subscriber under his or her participating health plan.

(c) For purposes of this section, "health care provider" means any professional person, organization, health facility, or other person or institution licensed by the state to deliver or furnish health care services.

## CHAPTER 607

An act to amend Sections 1356, 1367.01, 1367.03, 1368, 1368.04, 1374.9, 1374.34, 1393.6, and 128555 of, and to add Section 1341.45 to, the Health and Safety Code, and to add Section 12739.05 to the Insurance Code, relating to health care, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 2008. Filed with
Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1341.45 is added to the Health and Safety Code, to read:

1341.45. (a) There is hereby created in the State Treasury the Managed Care Administrative Fines and Penalties Fund.

(b) The fines and administrative penalties collected pursuant to this chapter, on and after the operative date of this section, shall be deposited into the Managed Care Administrative Fines and Penalties Fund.

(c) The fines and administrative penalties deposited into the Managed Care Administrative Fines and Penalties Fund shall be transferred by the department, beginning September 1, 2009, and annually thereafter, as follows:

(1) The first one million dollars ($1,000,000) shall be transferred to the Medically Underserved Account for Physicians within the Health Professions Education Fund and shall, upon appropriation by the Legislature, be used for the purposes of the Steven M. Thompson Physician Corps Loan Repayment Program, as specified in Article 5 (commencing with Section 128550) or Chapter 5 of Part 3 of Division 107 and, notwithstanding Section 128555, shall not be used to provide funding for the Physician Volunteer Program.

(2) Any amount over the first one million dollars ($1,000,000), including accrued interest, in the fund shall be transferred to the Major Risk Medical Insurance Fund created pursuant to Section 12739 of the Insurance Code and shall, upon appropriation by the Legislature, be used for the Major Risk Medical Insurance Program for the purposes specified in Section 12739.1 of the Insurance Code.

(d) Notwithstanding subdivision (b) of Section 1356 and Section 1356.1, the fines and administrative penalties authorized pursuant to this chapter shall not be used to reduce the assessments imposed on health care service plans pursuant to Section 1356.

SEC. 2. Section 1356 of the Health and Safety Code is amended to read:

1356. (a) Each plan applying for licensure under this chapter shall reimburse the director for the actual cost of processing the application, including overhead, up to an amount not to exceed twenty-five thousand dollars ($25,000). The cost shall be billed not more frequently than monthly and shall be remitted by the applicant to the director within 30 days of the date of billing. The director shall not issue a license to an

applicant prior to receiving payment in full from that applicant for all amounts charged pursuant to this subdivision.

(b) (1) In addition to other fees and reimbursements required to be paid under this chapter, each licensed plan shall pay to the director an amount as estimated by the director for the ensuing fiscal year, as a reimbursement of its share of all costs and expenses, including, but not limited to, costs and expenses associated with routine financial examinations, grievances, and complaints including maintaining a toll-free telephone number for consumer grievances and complaints, investigation and enforcement, medical surveys and reports, and overhead reasonably incurred in the administration of this chapter and not otherwise recovered by the director under this chapter or from the Managed Care Fund. The amount may be paid in two equal installments. The first installment shall be paid on or before August 1 of each year, and the second installment shall be paid on or before December 15 of each year.

(2) The amount paid by each plan shall be ten thousand dollars ($10,000) plus an amount up to, but not exceeding, an amount computed in accordance with paragraph (3).

(3) (A) In addition to the amount specified in paragraph (2), all plans, except specialized plans, shall pay 65 percent of the total amount of the department's costs and expenses for the ensuing fiscal year as estimated by the director. The amount per plan shall be calculated on a per enrollee basis as specified in paragraph (4).

(B) In addition to the amount specified in paragraph (2), all specialized plans shall pay 35 percent of the total amount of the department's costs and expenses for the ensuing fiscal year as estimated by the director. The amount per plan shall be calculated on a per enrollee basis as specified in paragraph (4).

(4) The amount paid by each plan shall be for each enrollee enrolled in its plan in this state as of the preceding March 31, and shall be fixed by the director by notice to all licensed plans on or before June 15 of each year. A plan that is unable to report the number of enrollees enrolled in the plan because it does not collect that data, shall provide the director with an estimate of the number of enrollees enrolled in the plan and the method used for determining the estimate. The director may, upon giving written notice to the plan, revise the estimate if the director determines that the method used for determining the estimate was not reasonable.

(5) In determining the amount assessed, the director shall consider all appropriations from the Managed Care Fund for the support of this chapter and all reimbursements provided for in this chapter.

(c) Each licensed plan shall also pay two thousand dollars ($2,000), plus an amount up to, but not exceeding, forty-eight hundredths of one cent ($0.0048), for each enrollee for the purpose of reimbursing its share

of all costs and expenses, including overhead, reasonably anticipated to be incurred by the department in administering Sections 1394.7 and 1394.8 during the current fiscal year. The amount charged shall be remitted within 30 days of the date of billing.

(d) In no case shall the reimbursement, payment, or other fee authorized by this section exceed the cost, including overhead, reasonably incurred in the administration of this chapter.

(e) For the purpose of calculating the assessment under this section, an enrollee who is enrolled in one plan and who receives health care services under arrangements made by another plan or plans, whether pursuant to a contract, agreement, or otherwise, shall be considered to be enrolled in each of the plans.

(f) On and after January 1, 2009, no refunds or reductions of the amounts assessed shall be allowed if any miscalculated assessment is based on a plan's overestimate of enrollment.

SEC. 3. Section 1367.01 of the Health and Safety Code is amended to read:

1367.01. (a) A health care service plan and any entity with which it contracts for services that include utilization review or utilization management functions, that prospectively, retrospectively, or concurrently reviews and approves, modifies, delays, or denies, based in whole or in part on medical necessity, requests by providers prior to, retrospectively, or concurrent with the provision of health care services to enrollees, or that delegates these functions to medical groups or independent practice associations or to other contracting providers, shall comply with this section.

(b) A health care service plan that is subject to this section shall have written policies and procedures establishing the process by which the plan prospectively, retrospectively, or concurrently reviews and approves, modifies, delays, or denies, based in whole or in part on medical necessity, requests by providers of health care services for plan enrollees. These policies and procedures shall ensure that decisions based on the medical necessity of proposed health care services are consistent with criteria or guidelines that are supported by clinical principles and processes. These criteria and guidelines shall be developed pursuant to Section 1363.5. These policies and procedures, and a description of the process by which the plan reviews and approves, modifies, delays, or denies requests by providers prior to, retrospectively, or concurrent with the provision of health care services to enrollees, shall be filed with the director for review and approval, and shall be disclosed by the plan to providers and enrollees upon request, and by the plan to the public upon request.

(c) A health care service plan subject to this section, except a plan that meets the requirements of Section 1351.2, shall employ or designate a medical director who holds an unrestricted license to practice medicine in this state issued pursuant to Section 2050 of the Business and Professions Code or pursuant to the Osteopathic Act, or, if the plan is a specialized health care service plan, a clinical director with California licensure in a clinical area appropriate to the type of care provided by the specialized health care service plan. The medical director or clinical director shall ensure that the process by which the plan reviews and approves, modifies, or denies, based in whole or in part on medical necessity, requests by providers prior to, retrospectively, or concurrent with the provision of health care services to enrollees, complies with the requirements of this section.

(d) If health plan personnel, or individuals under contract to the plan to review requests by providers, approve the provider's request, pursuant to subdivision (b), the decision shall be communicated to the provider pursuant to subdivision (h).

(e) No individual, other than a licensed physician or a licensed health care professional who is competent to evaluate the specific clinical issues involved in the health care services requested by the provider, may deny or modify requests for authorization of health care services for an enrollee for reasons of medical necessity. The decision of the physician or other health care professional shall be communicated to the provider and the enrollee pursuant to subdivision (h).

(f) The criteria or guidelines used by the health care service plan to determine whether to approve, modify, or deny requests by providers prior to, retrospectively, or concurrent with, the provision of health care services to enrollees shall be consistent with clinical principles and processes. These criteria and guidelines shall be developed pursuant to the requirements of Section 1363.5.

(g) If the health care service plan requests medical information from providers in order to determine whether to approve, modify, or deny requests for authorization, the plan shall request only the information reasonably necessary to make the determination.

(h) In determining whether to approve, modify, or deny requests by providers prior to, retrospectively, or concurrent with the provision of health care services to enrollees, based in whole or in part on medical necessity, a health care service plan subject to this section shall meet the following requirements:

(1) Decisions to approve, modify, or deny, based on medical necessity, requests by providers prior to, or concurrent with the provision of health care services to enrollees that do not meet the requirements for the 72-hour review required by paragraph (2), shall be made in a timely

fashion appropriate for the nature of the enrollee's condition, not to exceed five business days from the plan's receipt of the information reasonably necessary and requested by the plan to make the determination. In cases where the review is retrospective, the decision shall be communicated to the individual who received services, or to the individual's designee, within 30 days of the receipt of information that is reasonably necessary to make this determination, and shall be communicated to the provider in a manner that is consistent with current law. For purposes of this section, retrospective reviews shall be for care rendered on or after January 1, 2000.

(2) When the enrollee's condition is such that the enrollee faces an imminent and serious threat to his or her health, including, but not limited to, the potential loss of life, limb, or other major bodily function, or the normal timeframe for the decisionmaking process, as described in paragraph (1), would be detrimental to the enrollee's life or health or could jeopardize the enrollee's ability to regain maximum function, decisions to approve, modify, or deny requests by providers prior to, or concurrent with, the provision of health care services to enrollees, shall be made in a timely fashion appropriate for the nature of the enrollee's condition, not to exceed 72 hours after the plan's receipt of the information reasonably necessary and requested by the plan to make the determination. Nothing in this section shall be construed to alter the requirements of subdivision (b) of Section 1371.4. Notwithstanding Section 1371.4, the requirements of this division shall be applicable to all health plans and other entities conducting utilization review or utilization management.

(3) Decisions to approve, modify, or deny requests by providers for authorization prior to, or concurrent with, the provision of health care services to enrollees shall be communicated to the requesting provider within 24 hours of the decision. Except for concurrent review decisions pertaining to care that is underway, which shall be communicated to the enrollee's treating provider within 24 hours, decisions resulting in denial, delay, or modification of all or part of the requested health care service shall be communicated to the enrollee in writing within two business days of the decision. In the case of concurrent review, care shall not be discontinued until the enrollee's treating provider has been notified of the plan's decision and a care plan has been agreed upon by the treating provider that is appropriate for the medical needs of that patient.

(4) Communications regarding decisions to approve requests by providers prior to, retrospectively, or concurrent with the provision of health care services to enrollees shall specify the specific health care service approved. Responses regarding decisions to deny, delay, or modify health care services requested by providers prior to,

retrospectively, or concurrent with the provision of health care services to enrollees shall be communicated to the enrollee in writing, and to providers initially by telephone or facsimile, except with regard to decisions rendered retrospectively, and then in writing, and shall include a clear and concise explanation of the reasons for the plan's decision, a description of the criteria or guidelines used, and the clinical reasons for the decisions regarding medical necessity. Any written communication to a physician or other health care provider of a denial, delay, or modification of a request shall include the name and telephone number of the health care professional responsible for the denial, delay, or modification. The telephone number provided shall be a direct number or an extension, to allow the physician or health care provider easily to contact the professional responsible for the denial, delay, or modification. Responses shall also include information as to how the enrollee may file a grievance with the plan pursuant to Section 1368, and in the case of Medi-Cal enrollees, shall explain how to request an administrative hearing and aid paid pending under Sections 51014.1 and 51014.2 of Title 22 of the California Code of Regulations.

(5) If the health care service plan cannot make a decision to approve, modify, or deny the request for authorization within the timeframes specified in paragraph (1) or (2) because the plan is not in receipt of all of the information reasonably necessary and requested, or because the plan requires consultation by an expert reviewer, or because the plan has asked that an additional examination or test be performed upon the enrollee, provided the examination or test is reasonable and consistent with good medical practice, the plan shall, immediately upon the expiration of the timeframe specified in paragraph (1) or (2) or as soon as the plan becomes aware that it will not meet the timeframe, whichever occurs first, notify the provider and the enrollee, in writing, that the plan cannot make a decision to approve, modify, or deny the request for authorization within the required timeframe, and specify the information requested but not received, or the expert reviewer to be consulted, or the additional examinations or tests required. The plan shall also notify the provider and enrollee of the anticipated date on which a decision may be rendered. Upon receipt of all information reasonably necessary and requested by the plan, the plan shall approve, modify, or deny the request for authorization within the timeframes specified in paragraph (1) or (2), whichever applies.

(6) If the director determines that a health care service plan has failed to meet any of the timeframes in this section, or has failed to meet any other requirement of this section, the director may assess, by order, administrative penalties for each failure. A proceeding for the issuance of an order assessing administrative penalties shall be subject to

appropriate notice to, and an opportunity for a hearing with regard to, the person affected, in accordance with subdivision (a) of Section 1397. The administrative penalties shall not be deemed an exclusive remedy for the director. These penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45.

(i) A health care service plan subject to this section shall maintain telephone access for providers to request authorization for health care services.

(j) A health care service plan subject to this section that reviews requests by providers prior to, retrospectively, or concurrent with, the provision of health care services to enrollees shall establish, as part of the quality assurance program required by Section 1370, a process by which the plan's compliance with this section is assessed and evaluated. The process shall include provisions for evaluation of complaints, assessment of trends, implementation of actions to correct identified problems, mechanisms to communicate actions and results to the appropriate health plan employees and contracting providers, and provisions for evaluation of any corrective action plan and measurements of performance.

(k) The director shall review a health care service plan's compliance with this section as part of its periodic onsite medical survey of each plan undertaken pursuant to Section 1380, and shall include a discussion of compliance with this section as part of its report issued pursuant to that section.

(*l*) This section shall not apply to decisions made for the care or treatment of the sick who depend upon prayer or spiritual means for healing in the practice of religion as set forth in subdivision (a) of Section 1270.

(m) Nothing in this section shall cause a health care service plan to be defined as a health care provider for purposes of any provision of law, including, but not limited to, Section 6146 of the Business and Professions Code, Sections 3333.1 and 3333.2 of the Civil Code, and Sections 340.5, 364, 425.13, 667.7, and 1295 of the Code of Civil Procedure.

SEC. 4. Section 1367.03 of the Health and Safety Code is amended to read:

1367.03. (a) Not later than January 1, 2004, the department shall develop and adopt regulations to ensure that enrollees have access to needed health care services in a timely manner. In developing these regulations, the department shall develop indicators of timeliness of access to care and, in so doing, shall consider the following as indicators of timeliness of access to care:

(1) Waiting times for appointments with physicians, including primary care and specialty physicians.

(2) Timeliness of care in an episode of illness, including the timeliness of referrals and obtaining other services, if needed.

(3) Waiting time to speak to a physician, registered nurse, or other qualified health professional acting within his or her scope of practice who is trained to screen or triage an enrollee who may need care.

(b) In developing these standards for timeliness of access, the department shall consider the following:

(1) Clinical appropriateness.

(2) The nature of the specialty.

(3) The urgency of care.

(4) The requirements of other provisions of law, including Section 1367.01 governing utilization review, that may affect timeliness of access.

(c) The department may adopt standards other than the time elapsed between the time an enrollee seeks health care and obtains care. If the department chooses a standard other than the time elapsed between the time an enrollee first seeks health care and obtains it, the department shall demonstrate why that standard is more appropriate. In developing these standards, the department shall consider the nature of the plan network.

(d) The department shall review and adopt standards, as needed, concerning the availability of primary care physicians, specialty physicians, hospital care, and other health care, so that consumers have timely access to care. In so doing, the department shall consider the nature of physician practices, including individual and group practices as well as the nature of the plan network. The department shall also consider various circumstances affecting the delivery of care, including urgent care, care provided on the same day, and requests for specific providers. If the department finds that health care service plans and health care providers have difficulty meeting these standards, the department may make recommendations to the Assembly Committee on Health and the Senate Committee on Insurance of the Legislature pursuant to subdivision (i).

(e) In developing standards under subdivision (a), the department shall consider requirements under federal law, requirements under other state programs, standards adopted by other states, nationally recognized accrediting organizations, and professional associations. The department shall further consider the needs of rural areas, specifically those in which health facilities are more than 30 miles apart and any requirements imposed by the State Department of Health Care Services on health care

service plans that contract with the State Department of Health Care Services to provide Medi-Cal managed care.

(f) (1) Contracts between health care service plans and health care providers shall assure compliance with the standards developed under this section. These contracts shall require reporting by health care providers to health care service plans and by health care service plans to the department to ensure compliance with the standards.

(2) Health care service plans shall report annually to the department on compliance with the standards in a manner specified by the department. The reported information shall allow consumers to compare the performance of plans and their contracting providers in complying with the standards, as well as changes in the compliance of plans with these standards.

(g) (1) When evaluating compliance with the standards, the department shall focus more upon patterns of noncompliance rather than isolated episodes of noncompliance.

(2) The director may investigate and take enforcement action against plans regarding noncompliance with the requirements of this section. Where substantial harm to an enrollee has occurred as a result of plan noncompliance, the director may, by order, assess administrative penalties subject to appropriate notice of, and the opportunity for, a hearing in accordance with Section 1397. The plan may provide to the director, and the director may consider, information regarding the plan's overall compliance with the requirements of this section. The administrative penalties shall not be deemed an exclusive remedy available to the director. These penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45. The director shall periodically evaluate grievances to determine if any audit, investigative, or enforcement actions should be undertaken by the department.

(3) The director may, after appropriate notice and opportunity for hearing in accordance with Section 1397, by order, assess administrative penalties if the director determines that a health care service plan has knowingly committed, or has performed with a frequency that indicates a general business practice, either of the following:

(A) Repeated failure to act promptly and reasonably to assure timely access to care consistent with this chapter.

(B) Repeated failure to act promptly and reasonably to require contracting providers to assure timely access that the plan is required to perform under this chapter and that have been delegated by the plan to the contracting provider when the obligation of the plan to the enrollee or subscriber is reasonably clear.

(C) The administrative penalties available to the director pursuant to this section are not exclusive, and may be sought and employed in any combination with civil, criminal, and other administrative remedies deemed warranted by the director to enforce this chapter.

(4) The administrative penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45.

(h) The department shall work with the patient advocate to assure that the quality of care report card incorporates information provided pursuant to subdivision (f) regarding the degree to which health care service plans and health care providers comply with the requirements for timely access to care.

(i) The department shall report to the Assembly Committee on Health and the Senate Committee on Insurance of the Legislature on March 1, 2003, and on March 1, 2004, regarding the progress toward the implementation of this section.

(j) Every three years, the department shall review information regarding compliance with the standards developed under this section and shall make recommendations for changes that further protect enrollees.

SEC. 5. Section 1368 of the Health and Safety Code is amended to read:

1368. (a) Every plan shall do all of the following:

(1) Establish and maintain a grievance system approved by the department under which enrollees may submit their grievances to the plan. Each system shall provide reasonable procedures in accordance with department regulations that shall ensure adequate consideration of enrollee grievances and rectification when appropriate.

(2) Inform its subscribers and enrollees upon enrollment in the plan and annually thereafter of the procedure for processing and resolving grievances. The information shall include the location and telephone number where grievances may be submitted.

(3) Provide forms for grievances to be given to subscribers and enrollees who wish to register written grievances. The forms used by plans licensed pursuant to Section 1353 shall be approved by the director in advance as to format.

(4) (A) Provide for a written acknowledgment within five calendar days of the receipt of a grievance, except as noted in subparagraph (B). The acknowledgment shall advise the complainant of the following:

(i) That the grievance has been received.

(ii) The date of receipt.

(iii) The name of the plan representative and the telephone number and address of the plan representative who may be contacted about the grievance.

(B) Grievances received by telephone, by facsimile, by e-mail, or online through the plan's Internet Web site pursuant to Section 1368.015, that are not coverage disputes, disputed health care services involving medical necessity, or experimental or investigational treatment and that are resolved by the next business day following receipt are exempt from the requirements of subparagraph (A) and paragraph (5). The plan shall maintain a log of all these grievances. The log shall be periodically reviewed by the plan and shall include the following information for each complaint:

(i) The date of the call.

(ii) The name of the complainant.

(iii) The complainant's member identification number.

(iv) The nature of the grievance.

(v) The nature of the resolution.

(vi) The name of the plan representative who took the call and resolved the grievance.

(5) Provide subscribers and enrollees with written responses to grievances, with a clear and concise explanation of the reasons for the plan's response. For grievances involving the delay, denial, or modification of health care services, the plan response shall describe the criteria used and the clinical reasons for its decision, including all criteria and clinical reasons related to medical necessity. If a plan, or one of its contracting providers, issues a decision delaying, denying, or modifying health care services based in whole or in part on a finding that the proposed health care services are not a covered benefit under the contract that applies to the enrollee, the decision shall clearly specify the provisions in the contract that exclude that coverage.

(6) Keep in its files all copies of grievances, and the responses thereto, for a period of five years.

(b) (1) (A) After either completing the grievance process described in subdivision (a), or participating in the process for at least 30 days, a subscriber or enrollee may submit the grievance to the department for review. In any case determined by the department to be a case involving an imminent and serious threat to the health of the patient, including, but not limited to, severe pain, the potential loss of life, limb, or major bodily function, or in any other case where the department determines that an earlier review is warranted, a subscriber or enrollee shall not be required to complete the grievance process or to participate in the process for at least 30 days before submitting a grievance to the department for review.

(B) A grievance may be submitted to the department for review and resolution prior to any arbitration.

(C) Notwithstanding subparagraphs (A) and (B), the department may refer any grievance that does not pertain to compliance with this chapter to the State Department of Health Services, the California Department of Aging, the federal Health Care Financing Administration, or any other appropriate governmental entity for investigation and resolution.

(2) If the subscriber or enrollee is a minor, or is incompetent or incapacitated, the parent, guardian, conservator, relative, or other designee of the subscriber or enrollee, as appropriate, may submit the grievance to the department as the agent of the subscriber or enrollee. Further, a provider may join with, or otherwise assist, a subscriber or enrollee, or the agent, to submit the grievance to the department. In addition, following submission of the grievance to the department, the subscriber or enrollee, or the agent, may authorize the provider to assist, including advocating on behalf of the subscriber or enrollee. For purposes of this section, a "relative" includes the parent, stepparent, spouse, adult son or daughter, grandparent, brother, sister, uncle, or aunt of the subscriber or enrollee.

(3) The department shall review the written documents submitted with the subscriber's or the enrollee's request for review, or submitted by the agent on behalf of the subscriber or enrollee. The department may ask for additional information, and may hold an informal meeting with the involved parties, including providers who have joined in submitting the grievance or who are otherwise assisting or advocating on behalf of the subscriber or enrollee. If after reviewing the record, the department concludes that the grievance, in whole or in part, is eligible for review under the independent medical review system established pursuant to Article 5.55 (commencing with Section 1374.30), the department shall immediately notify the subscriber or enrollee, or agent, of that option and shall, if requested orally or in writing, assist the subscriber or enrollee in participating in the independent medical review system.

(4) If after reviewing the record of a grievance, the department concludes that a health care service eligible for coverage and payment under a health care service plan contract has been delayed, denied, or modified by a plan, or by one of its contracting providers, in whole or in part due to a determination that the service is not medically necessary, and that determination was not communicated to the enrollee in writing along with a notice of the enrollee's potential right to participate in the independent medical review system, as required by this chapter, the director shall, by order, assess administrative penalties. A proceeding for the issuance of an order assessing administrative penalties shall be subject to appropriate notice of, and the opportunity for, a hearing with

regard to the person affected in accordance with Section 1397. The administrative penalties shall not be deemed an exclusive remedy available to the director. These penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45.

(5) The department shall send a written notice of the final disposition of the grievance, and the reasons therefor, to the subscriber or enrollee, the agent, to any provider that has joined with or is otherwise assisting the subscriber or enrollee, and to the plan, within 30 calendar days of receipt of the request for review unless the director, in his or her discretion, determines that additional time is reasonably necessary to fully and fairly evaluate the relevant grievance. In any case not eligible for the independent medical review system established pursuant to Article 5.55 (commencing with Section 1374.30), the department's written notice shall include, at a minimum, the following:

(A) A summary of its findings and the reasons why the department found the plan to be, or not to be, in compliance with any applicable laws, regulations, or orders of the director.

(B) A discussion of the department's contact with any medical provider, or any other independent expert relied on by the department, along with a summary of the views and qualifications of that provider or expert.

(C) If the enrollee's grievance is sustained in whole or in part, information about any corrective action taken.

(6) In any department review of a grievance involving a disputed health care service, as defined in subdivision (b) of Section 1374.30, that is not eligible for the independent medical review system established pursuant to Article 5.55 (commencing with Section 1374.30), in which the department finds that the plan has delayed, denied, or modified health care services that are medically necessary, based on the specific medical circumstances of the enrollee, and those services are a covered benefit under the terms and conditions of the health care service plan contract, the department's written notice shall do either of the following:

(A) Order the plan to promptly offer and provide those health care services to the enrollee.

(B) Order the plan to promptly reimburse the enrollee for any reasonable costs associated with urgent care or emergency services, or other extraordinary and compelling health care services, when the department finds that the enrollee's decision to secure those services outside of the plan network was reasonable under the circumstances.

The department's order shall be binding on the plan.

(7) Distribution of the written notice shall not be deemed a waiver of any exemption or privilege under existing law, including, but not limited

to, Section 6254.5 of the Government Code, for any information in connection with and including the written notice, nor shall any person employed or in any way retained by the department be required to testify as to that information or notice.

(8) The director shall establish and maintain a system of aging of grievances that are pending and unresolved for 30 days or more that shall include a brief explanation of the reasons each grievance is pending and unresolved for 30 days or more.

(9) A subscriber or enrollee, or the agent acting on behalf of a subscriber or enrollee, may also request voluntary mediation with the plan prior to exercising the right to submit a grievance to the department. The use of mediation services shall not preclude the right to submit a grievance to the department upon completion of mediation. In order to initiate mediation, the subscriber or enrollee, or the agent acting on behalf of the subscriber or enrollee, and the plan shall voluntarily agree to mediation. Expenses for mediation shall be borne equally by both sides. The department shall have no administrative or enforcement responsibilities in connection with the voluntary mediation process authorized by this paragraph.

(c) The plan's grievance system shall include a system of aging of grievances that are pending and unresolved for 30 days or more. The plan shall provide a quarterly report to the director of grievances pending and unresolved for 30 or more days with separate categories of grievances for Medicare enrollees and Medi-Cal enrollees. The plan shall include with the report a brief explanation of the reasons each grievance is pending and unresolved for 30 days or more. The plan may include the following statement in the quarterly report that is made available to the public by the director:

"Under Medicare and Medi-Cal law, Medicare enrollees and Medi-Cal enrollees each have separate avenues of appeal that are not available to other enrollees. Therefore, grievances pending and unresolved may reflect enrollees pursuing their Medicare or Medi-Cal appeal rights."

If requested by a plan, the director shall include this statement in a written report made available to the public and prepared by the director that describes or compares grievances that are pending and unresolved with the plan for 30 days or more. Additionally, the director shall, if requested by a plan, append to that written report a brief explanation, provided in writing by the plan, of the reasons why grievances described in that written report are pending and unresolved for 30 days or more. The director shall not be required to include a statement or append a brief explanation to a written report that the director is required to prepare under this chapter, including Sections 1380 and 1397.5.

(d) Subject to subparagraph (C) of paragraph (1) of subdivision (b), the grievance or resolution procedures authorized by this section shall be in addition to any other procedures that may be available to any person, and failure to pursue, exhaust, or engage in the procedures described in this section shall not preclude the use of any other remedy provided by law.

(e) Nothing in this section shall be construed to allow the submission to the department of any provider grievance under this section. However, as part of a provider's duty to advocate for medically appropriate health care for his or her patients pursuant to Sections 510 and 2056 of the Business and Professions Code, nothing in this subdivision shall be construed to prohibit a provider from contacting and informing the department about any concerns he or she has regarding compliance with or enforcement of this chapter.

SEC. 6. Section 1368.04 of the Health and Safety Code is amended to read:

1368.04. (a) The director shall investigate and take enforcement action against plans regarding grievances reviewed and found by the department to involve noncompliance with the requirements of this chapter, including grievances that have been reviewed pursuant to the independent medical review system established pursuant to Article 5.55 (commencing with Section 1374.30). Where substantial harm to an enrollee has occurred as a result of plan noncompliance, the director shall, by order, assess administrative penalties subject to appropriate notice of, and the opportunity for, a hearing with regard to the person affected in accordance with Section 1397. The administrative penalties shall not be deemed an exclusive remedy available to the director. These penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45. The director shall periodically evaluate grievances to determine if any audit, investigative, or enforcement actions should be undertaken by the department.

(b) The director may, after appropriate notice and opportunity for hearing in accordance with Section 1397, by order, assess administrative penalties if the director determines that a health care service plan has knowingly committed, or has performed with a frequency that indicates a general business practice, either of the following:

(1) Repeated failure to act promptly and reasonably to investigate and resolve grievances in accordance with Section 1368.01.

(2) Repeated failure to act promptly and reasonably to resolve grievances when the obligation of the plan to the enrollee or subscriber is reasonably clear.

(c) The administrative penalties available to the director pursuant to this section are not exclusive, and may be sought and employed in any combination with civil, criminal, and other administrative remedies deemed warranted by the director to enforce this chapter.

(d) The administrative penalties authorized pursuant to this section shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45.

SEC. 7. Section 1374.9 of the Health and Safety Code is amended to read:

1374.9. For violations of Section 1374.7, the director may, after appropriate notice and opportunity for hearing, by order, levy administrative penalties as follows:

(a) Any health care service plan that violates Section 1374.7, or that violates any rule or order adopted or issued pursuant to this section, is liable for administrative penalties of not less than two thousand five hundred dollars ($2,500) for each first violation, and of not less than five thousand dollars ($5,000) nor more than ten thousand dollars ($10,000) for each second violation, and of not less than fifteen thousand dollars ($15,000) and not more than one hundred thousand dollars ($100,000) for each subsequent violation.

(b) The administrative penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45.

(c) The administrative penalties available to the director pursuant to this section are not exclusive, and may be sought and employed in any combination with civil, criminal, and other administrative remedies deemed advisable by the director to enforce the provisions of this chapter.

SEC. 8. Section 1374.34 of the Health and Safety Code is amended to read:

1374.34. (a) Upon receiving the decision adopted by the director pursuant to Section 1374.33 that a disputed health care service is medically necessary, the plan shall promptly implement the decision. In the case of reimbursement for services already rendered, the plan shall reimburse the provider or enrollee, whichever applies, within five working days. In the case of services not yet rendered, the plan shall authorize the services within five working days of receipt of the written decision from the director, or sooner if appropriate for the nature of the enrollee's medical condition, and shall inform the enrollee and provider of the authorization in accordance with the requirements of paragraph (3) of subdivision (h) of Section 1367.01.

(b) A plan shall not engage in any conduct that has the effect of prolonging the independent review process. The engaging in that conduct or the failure of the plan to promptly implement the decision is a violation

of this chapter and, in addition to any other fines, penalties, and other remedies available to the director under this chapter, the plan shall be subject to an administrative penalty of not less than five thousand dollars ($5,000) for each day that the decision is not implemented. The administrative penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45.

(c) The director shall require the plan to promptly reimburse the enrollee for any reasonable costs associated with those services when the director finds that the disputed health care services were a covered benefit under the terms and conditions of the health care service plan contract, and the services are found by the independent medical review organization to have been medically necessary pursuant to Section 1374.33, and either the enrollee's decision to secure the services outside of the plan provider network was reasonable under the emergency or urgent medical circumstances, or the health care service plan contract does not require or provide prior authorization before the health care services are provided to the enrollee.

(d) In addition to requiring plan compliance regarding subdivisions (a), (b), and (c) the director shall review individual cases submitted for independent medical review to determine whether any enforcement actions, including penalties, may be appropriate. In particular, where substantial harm, as defined in Section 3428 of the Civil Code, to an enrollee has already occurred because of the decision of a plan, or one of its contracting providers, to delay, deny, or modify covered health care services that an independent medical review determines to be medically necessary pursuant to Section 1374.33, the director shall impose penalties.

(e) Pursuant to Section 1368.04, the director shall perform an annual audit of independent medical review cases for the dual purposes of education and the opportunity to determine if any investigative or enforcement actions should be undertaken by the department, particularly if a plan repeatedly fails to act promptly and reasonably to resolve grievances associated with a delay, denial, or modification of medically necessary health care services when the obligation of the plan to provide those health care services to enrollees or subscribers is reasonably clear.

SEC. 9. Section 1393.6 of the Health and Safety Code is amended to read:

1393.6. For violations of Article 3.1 (commencing with Section 1357) and Article 3.15 (commencing with Section 1357.50), the director may, after appropriate notice and opportunity for hearing, by order levy administrative penalties as follows:

(a) Any person, solicitor, or solicitor firm, other than a health care service plan, who willfully violates any provision of this chapter, or who willfully violates any rule or order adopted or issued pursuant to this chapter, is liable for administrative penalties of not less than two hundred fifty dollars ($250) for each first violation, and of not less than one thousand dollars ($1,000) and not more than two thousand five hundred dollars ($2,500) for each subsequent violation.

(b) Any health care service plan that willfully violates any provision of this chapter, or that willfully violates any rule or order adopted or issued pursuant to this chapter, is liable for administrative penalties of not less than two thousand five hundred dollars ($2,500) for each first violation, and of not less than five thousand dollars ($5,000) nor more than ten thousand dollars ($10,000) for each second violation, and of not less than fifteen thousand dollars ($15,000) and not more than one hundred thousand dollars ($100,000) for each subsequent violation.

(c) The administrative penalties shall be paid to the Managed Care Administrative Fines and Penalties Fund and shall be used for the purposes specified in Section 1341.45.

(d) The administrative penalties available to the director pursuant to this section are not exclusive, and may be sought and employed in any combination with civil, criminal, and other administrative remedies deemed advisable by the director to enforce the provisions of this chapter.

SEC. 10. Section 128555 of the Health and Safety Code is amended to read:

128555. (a) The Medically Underserved Account for Physicians is hereby established within the Health Professions Education Fund. The primary purpose of this account is to provide funding for the ongoing operations of the Steven M. Thompson Physician Corps Loan Repayment Program provided for under this article. This account also may be used to provide funding for the Physician Volunteer Program provided for under this article.

(b) All moneys in the Medically Underserved Account contained within the Contingent Fund of the Medical Board of California shall be transferred to the Medically Underserved Account for Physicians on July 1, 2006.

(c) Funds in the account shall be used to repay loans as follows per agreements made with physicians:

(1) Funds paid out for loan repayment may have a funding match from foundations or other private sources.

(2) Loan repayments may not exceed one hundred five thousand dollars ($105,000) per individual licensed physician.

(3) Loan repayments may not exceed the amount of the educational loans incurred by the physician participant.

(d) Notwithstanding Section 11105 of the Government Code, effective January 1, 2006, the foundation may seek and receive matching funds from foundations and private sources to be placed in the account. "Matching funds" shall not be construed to be limited to a dollar-for-dollar match of funds.

(e) Funds placed in the account for purposes of this article, including funds received pursuant to subdivision (d), are, notwithstanding Section 13340 of the Government Code, continuously appropriated for the repayment of loans. This subdivision shall not apply to funds placed in the account pursuant to Section 1341.45.

(f) The account shall also be used to pay for the cost of administering the program and for any other purpose authorized by this article. The costs for administration of the program may be up to 5 percent of the total state appropriation for the program and shall be subject to review and approval annually through the state budget process. This limitation shall only apply to the state appropriation for the program.

(g) The office and the foundation shall manage the account established by this section prudently in accordance with the other provisions of law.

SEC. 11. Section 12739.05 is added to the Insurance Code, to read:

12739.05. Notwithstanding Section 12739, funds placed in the Major Risk Medical Insurance Fund pursuant to Section 1341.45 of the Health and Safety Code shall not be continuously appropriated.

SEC. 12. On the effective date of this act, the Department of Managed Health Care shall make the following one-time transfers of fine and administrative penalty moneys from the Managed Care Fund in the following amounts:

Thompson Physician Corps Loan Repayment Program, as specified in Article 5 (commencing with Section 128550) of Chapter 5 of Part 3 of Division 107 of the Health and Safety Code and, notwithstanding Section 128555 of the Health and Safety Code, shall not be used to provide funding for the Physician Volunteer Program.

(b) Ten million dollars ($10,000,000) to the Major Risk Medical Insurance Fund created pursuant to Section 12739 of the Insurance Code to be used for the Major Risk Medical Insurance Program for the purposes specified in Section 12739.1 of the Insurance Code.

SEC. 13. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make available, at the earliest possible time, funds to address the state's pressing need for available health care coverage for individuals who are otherwise uninsurable and to eliminate the current waiting list for the Major Risk Medical Insurance Program, to help carry out the powers of the Department of Managed Health Care to protect and promote the interests of the public and carry out the intent of the Legislature to promote the delivery and the quality of health and medical care to the public, and for the uninsured who may be prompted to enroll sooner in health care service plans arranging coverage for the Major Risk Medical Insurance Program, it is necessary that this act take effect immediately.

(1) If the state board determines that an advance is needed for the project to proceed in an efficient manner, allocate to the recipient up to

25 percent of the financial assistance amount, not exceeding one million dollars ($1,000,000), in advance of actual expenditures. The recipient shall repay to the state board any funds advanced pursuant to this section, including any interest earned on the advance funds, if the funds are unused upon expiration of the funding agreement or if the funds are not expended in accordance with the financial assistance agreement.

(2) Establish a payment process pursuant to which the recipient of financial assistance receives funds within 30 days of the date on which the state board receives a project payment request unless the state board, within that 30-day period, determines that the project payment would not be in accordance with the terms of the program guidelines.

(3) Utilize wire transfers or other appropriate payment procedures to expedite project payments.

(d) Use moneys in the fund for the purposes permitted by the federal act.

(e) Provide for the deposit of matching funds and any other available and necessary moneys into the fund.

(f) Make requests on behalf of the state for deposit into the fund of available federal moneys under the federal act and determine on behalf

of the state appropriate maintenance of progress toward compliance with the enforceable deadlines, goals, and requirements of the federal act.

(g) Determine on behalf of the state that publicly owned treatment works that receive financial assistance from the fund will meet the requirements of, and otherwise be treated as required by, the federal act.

(h) Provide for appropriate audit, accounting, and fiscal management services, plans, and reports relative to the fund.

(i) Take additional incidental action as appropriate for the adequate administration and operation of the fund.

Sec. 1383(d)(7)) and processing the financial assistance application. The fee shall be waived by the board if sufficient funds to cover those costs are available from other sources.

(k) Use money returned to the fund under clause (ii) of subparagraph (D) of paragraph (1) of subdivision (b) of Section 13480, and any other source of matching funds, if not prohibited by statute, as matching funds for the federal administrative allowance under Section 603(d)(7) of the federal act (33 U.S.C. (*l*) Expend money repaid by financial assistance recipients for financial assistance service under clauses (i) and (ii) of subparagraph (D) of paragraph (1) of subdivision (b) of Section 13480 to pay administrative costs incurred by the board under this chapter.

## CHAPTER 610

An act to add Chapter 3.4 (commencing with Section 370) to Division 1 of the Water Code, relating to water rates.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 3.4 (commencing with Section 370) is added to Division 1 of the Water Code, to read:

### Chapter 3.4. Allocation-Based Conservation Water Pricing

370. The Legislature hereby finds and declares all of the following:

(a) The use of allocation-based conservation water pricing by public entities that sell and distribute water is one effective means by which

waste or unreasonable use of water can be prevented and water can be saved in the interest of the people and for the public welfare, within the contemplation of Section 2 of Article X of the California Constitution.

(b) It is in the best interest of the people of California to encourage public entities to voluntarily use allocation-based conservation water pricing, tailored to local needs and conditions, as a means of increasing efficient uses of water, and further discouraging wasteful or unreasonable use of water under both normal and dry-year hydrologic conditions.

(c) The Legislature intends that allocation-based conservation water pricing is an alternative method that can be used by public entities to encourage water users to conserve water, increase efficient uses of water, and further discourage waste of water. The Legislature does not intend to limit the discretion of public entities to evaluate and select among different methods for conserving water or to create a presumption that the election to not use a particular method is a waste or unreasonable use of water by the public entity.

(d) Nothing in this chapter is intended to limit, or dictate, the design of rate structures that public entities may use to promote conservation by water users.

(e) Nothing in this chapter directs, or otherwise compels, a public entity to use allocation-based conservation water pricing.

371. For purposes of this chapter, the following terms have the following meanings:

(a) "Allocation-based conservation water pricing" means a retail water rate structure that meets all of the criteria in Section 372.

(b) "Basic charge" means a volumetric unit charge for the cost of water service other than any fixed costs that are recovered through meter charges or other fixed charges other than incremental costs that are recovered through conservation charges. A basic charge may include the cost of generally applicable conservation measures assumed in establishing basic use allocations.

(c) "Conservation charge" means a volumetric unit charge for incremental costs.

(d) "Incremental costs" means the costs of water service, including capital costs, that the public entity incurs directly, or by contract, as a result of the use of water in excess of the basic use allocation or to implement water conservation or demand management measures employed to increase efficient uses of water, and further discourage the wasteful or unreasonable use of water, and may include any of the following:

(1) Conservation best management practices, conservation education, irrigation controls and other conservation devices, and other demand management measures.

(2) Water system retrofitting, dual plumbing and facilities for production, distribution, and all uses of recycled water and other alternative water supplies.

(3) Projects and programs for prevention, control, or treatment of the runoff of water from irrigation and other outdoor water uses. Incremental costs shall not include the costs of stormwater management systems and programs.

(4) Securing dry-year water supply arrangements.

(5) Procuring water supplies to satisfy increments of water use in excess of the basic use allocations for the customers of the public entity, including supply or capacity contracts for water supply rights or entitlements and related energy costs for water delivery.

(e) "Public entity" means a city, whether general law or chartered, county, city and county, special district, agency, authority, any other municipal public corporation or district, or any other political subdivision of the state that provides retail water service and that is an urban water supplier, as defined in Section 10617.

372. (a) A public entity may employ allocation-based conservation water pricing that meets all of the following criteria:

(1) Billing is based on metered water use.

(2) A basic use allocation is established for each customer account that provides a reasonable amount of water for the customer's needs and property characteristics. Factors used to determine the basic use allocation may include, but are not limited to, the number of occupants, the type or classification of use, the size of lot or irrigated area, and the local climate data for the billing period. Nothing in this chapter prohibits a customer of the public entity from challenging whether the basic use allocation established for that customer's account is reasonable under the circumstances. Nothing in this chapter is intended to permit public entities to limit the use of property through the establishment of a basic use allocation.

(3) A basic charge is imposed for all water used within the customer's basic use allocation, except that at the option of the public entity, a lower rate may be applied to any portion of the basic use allocation that the public entity has determined to represent superior or more than reasonable conservation efforts.

(4) A conservation charge shall be imposed on all increments of water use in excess of the basic use allocation. The increments may be fixed or may be determined on a percentage or any other basis, without limitation on the number of increments, or any requirement that the increments or conservation charges be sized, or ascend uniformly, or in a specified relationship. The volumetric prices for the lowest through the highest priced increments shall be established in an ascending

relationship that is economically structured to encourage conservation and reduce the inefficient use of water, consistent with Section 2 of Article X of the California Constitution.

(b) (1) Except as specified in subdivision (a), the design of an allocation-based conservation pricing rate structure shall be determined in the discretion of the public entity.

(2) The public entity may impose meter charges or other fixed charges to recover fixed costs of water service in addition to the allocation-based conservation pricing rate structure.

(c) A public entity may use one or more allocation-based conservation water pricing structures for any class of municipal or other service that the public entity provides.

373. (a) Revenues derived from allocation-based conservation water pricing shall not exceed the reasonable cost of water service including basic costs and incremental costs. This chapter does not limit the sources of funding for incremental costs to charges for water use.

(b) Revenues derived from allocation-based conservation water pricing shall not exceed the proportional cost of service attributable to the customer's parcel, as determined by giving consideration to all of the following:

(1) Customer classes established in consideration of service characteristics, demand patterns, and other factors.

(2) Basic use allocations.

(3) Meter size.

(4) Metered volume of water consumed.

(5) The public entity's discretionary allocation of incremental costs between and among the increments of water use subject to conservation charges, as permitted by paragraph (4) of subdivision (a) of Section 372 to meet the requirement of that section.

(c) In establishing the schedule of charges and metered volumes for the increments of water use subject to conservation charges, the public entity may also consider both of the following:

(1) Customer overuse characteristics, including ratios between overuse volumes and basic use allocations, variations in demand and consumption patterns, or other characteristics of overuse experienced by the public entity.

(2) The extent to which the pricing structure of the increments will be effective in minimizing or eliminating the need for other measures to curtail potential overuse.

374. (a) Allocation-based conservation water pricing under this chapter may be used on an ongoing basis and shall not require any finding of emergency or other water shortage conditions.

(b) The authority granted in this chapter is in addition to any other authority that a public entity has to use rate structure design to foster the conservation of water.

(c) The imposition and revision of rates and charges by a public entity under this chapter shall be subject to the procedures otherwise required by law for the public entity's water rates.

## CHAPTER 611

An act to add Section 53756 to the Government Code, relating to local government.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 53756 is added to the Government Code, to read:

53756. An agency providing water, sewer, or refuse collection service may adopt a schedule of fees or charges authorizing automatic adjustments that pass through increases in wholesale charges for water or adjustments for inflation, if it complies with all of the following:

(a) It adopts the schedule of fees or charges for a property-related service for a period not to exceed five years pursuant to Section 53755.

(b) The schedule of fees or charges may include a schedule of adjustments, including a clearly defined formula for adjusting for inflation. Any inflation adjustment to a fee or charge for a property-related service shall not exceed the cost of providing that service.

(d) Notice of any adjustment pursuant to the schedule shall be given pursuant to subdivision (a) of Section 53755, not less than 30 days before the effective date of the adjustment.

## CHAPTER 612

An act relating to transportation.

[Approved by Governor September 30, 2008. Filed with
Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) The State of California needs to ensure efficient and environmentally responsible movement of rail passengers and goods for all Californians. Currently, the Public Utilities Commission, the Business, Transportation and Housing Agency, the Department of Transportation, the California High-Speed Rail Authority, the California Transportation Commission, and local government entities all have responsibility for different aspects of the system for overseeing and regulating railroad activities in California.

(2) For optimum efficiency in state government and for health, safety, and mobility benefits for California's residents, California should strive for the best coordination of the state's rail planning, funding, operation, and system safety functions.

(b) To that end, the California Research Bureau, in consultation with the Business, Transportation and Housing Agency, the Department of Transportation, the California Transportation Commission, the Public Utilities Commission, the California High Speed Rail Authority, and the Office of the Legislative Analyst, shall do all of the following:

(1) Analyze and make recommendations for improving the state's rail functions.

(2) Make recommendations for improving oversight, regulation, and efficiency of those state agencies necessary to improve passenger and freight rail mobility in California.

(3) Estimate any costs associated with the implementation of its recommendations.

(c) Issues to be analyzed pursuant to subdivision (b) shall include, but not be limited to, all of the following:

(1) How to improve the efficiency, performance, and stability of rail activities funded in part or in whole with state funds.

(2) The benefits and liabilities of establishing one accountable state commission or department responsible for the oversight, regulation, identification, and prioritization of rail transportation and safety programs and projects, including, but not limited to, rail grade crossings and separations, rail equipment procurement and passenger service, the provision of traditional passenger rail and high-speed rail service, and rail safety regulation and oversight.

(3) Issues the Legislature should consider if legislation is introduced to consolidate any, or all, of the functions, responsibilities, or activities of the five state agencies with jurisdiction over rail-related matters into one or more state agencies, commissions, or departments.

(d) In preparing analysis and making recommendations pursuant to this act, the California Research Bureau shall take into account and apply all authorities, requirements, and restrictions under the California State Constitution, federal law, and state law. No later than May 1, 2009, the California Research Bureau shall report its findings pursuant to this act to the Senate Committee on Transportation and Housing, the Assembly Committee on Transportation, and the Joint Legislative Budget Committee.

# CHAPTER 615

An act to add Chapter 2.3 (commencing with Section 35521) to Part 5 of Division 13 of the Water Code, relating to the Hot Spring Valley Water District.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 2.3 (commencing with Section 35521) is added to Part 5 of Division 13 of the Water Code, to read:

## Chapter 2.3. Provisions Pertaining Only to the Hot Spring Valley Water District

35521. (a) Notwithstanding any other provision of law, the Hot Spring Valley Irrigation District in the County of Modoc is dissolved, and the Hot Spring Valley Water District is hereby formed in that county.

(b) The Hot Spring Valley Water District is declared to be, and shall be deemed, a water district as if the district had been formed pursuant to this division. The exterior boundary of the Hot Spring Valley Water District shall be the exterior boundary of the former Hot Spring Valley Irrigation District.

(c) The Hot Spring Valley Water District succeeds to, and is vested with, all of the powers, duties, responsibilities, obligations, liabilities, and jurisdiction of the former Hot Spring Valley Irrigation District.

(d) The status, position, and rights of any officer or employee of the former Hot Spring Valley Irrigation District shall not be affected by the transfer and shall be retained by the person as an officer or employee of the Hot Spring Valley Water District.

(e) The Hot Spring Valley Water District shall have ownership, possession, and control of all of the books, records, papers, offices, equipment, supplies, moneys, funds, appropriations, licenses, permits, entitlements, agreements, contracts, claims, judgments, land, and other assets and property, real or personal, owned or leased by, connected with the administration of, or held for the benefit or use, of the former Hot Spring Valley Irrigation District.

(f) The unexpended balance of any funds available for use by the former Hot Spring Valley Irrigation District shall be available for use by the Hot Spring Valley Water District.

(g) No payment for the use, or right of use, of any property, real or personal, acquired or constructed by the former Hot Spring Valley Irrigation District shall be required by reason of the succession pursuant to this act; nor shall any payment for the Hot Spring Valley Water District's acquisition of the powers, duties, responsibilities, obligations, liabilities, and jurisdiction be required by reason of that succession.

(h) All ordinances, rules, and regulations adopted by the former Hot Spring Valley Irrigation District in effect immediately preceding January 1, 2009, shall remain in effect and shall be fully enforceable unless readopted, amended, or repealed by the Hot Spring Valley Water District, or until they expire by their own terms. Any statute, law, rule, or regulation now in force, or that may hereafter be enacted or adopted with reference to the former Hot Spring Valley Irrigation District shall mean the Hot Spring Valley Water District.

(i) Any action by or against the former Hot Spring Valley Irrigation District shall not abate, but shall continue in the name of the Hot Spring Valley Water District, and the Hot Spring Valley Water District shall be substituted for the former Hot Spring Valley Irrigation District by the court in which the action is pending. The substitution shall not in any way affect the rights of the parties to the action.

(j) No contract, lease, license, permit, entitlement, bond, or any other agreement to which the former Hot Spring Valley Irrigation District is a party shall be void or voidable by reason of this act, but shall continue in effect, with the Hot Spring Valley Water District assuming all of the rights, obligations, liabilities, and duties of the former Hot Spring Valley Irrigation District. Bonds issued by the former Hot Spring Valley Irrigation District shall become the indebtedness of the Hot Spring Valley Water District. Any continuing obligations or responsibilities of the former Hot Spring Valley Irrigation District for managing and maintaining bond issuances shall be transferred to the Hot Spring Valley Water District without impairment to any security contained in the bond instrument.

(k) (1) Notwithstanding Section 35003, each voter of the Hot Spring Valley Water District, as defined by Section 34027, shall be entitled to cast only one vote, regardless of the value, acreage, or number of parcels of the voter's land within the district.

(2) Voting in the Hot Spring Valley Water District shall be by electoral divisions in accordance with Article 2 (commencing with Section 35025) of Chapter 1 of Part 4. The Hot Spring Valley Water District shall be divided into the same electoral divisions, with the same division boundaries, as those established within the former Hot Spring Valley Irrigation District. Members of the former Hot Spring Valley Irrigation District Board of Directors who are serving on January 1, 2009, may

continue to serve the balance of their current terms of office, representing the same electoral divisions, as members of the Board of Directors of the Hot Spring Valley Water District.

SEC. 2. The Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of the unique circumstances of the Hot Spring Valley Irrigation District in the County of Modoc. The facts constituting the special circumstances are:

The Hot Spring Valley Irrigation District has few registered voters who are both eligible and willing to hold office as members of the district's board of directors. Rather than create a new special exception to the Irrigation District Law and permit landowners to vote and hold office on an irrigation district's board of directors, the Legislature prefers to convert the Hot Spring Valley Irrigation District into a California water district which is governed pursuant to a principal act that allows landowners to vote and hold office. Rather than require local officials, residents, and landowners to spend several months implementing the statutory procedures necessary for the concurrent dissolution of an irrigation district and the formation of a California water district, the Legislature prefers to order this reorganization directly.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district are the result of a program for which legislative authority was requested by that local agency or school district, within the meaning of Section 17556 of the Government Code and Section 6 of Article XIII B of the California Constitution.

## CHAPTER 616

An act to amend Sections 25299.24, 25299.54, 25299.57, and 25299.81 of, and to add Section 25299.50.2 to, the Health and Safety Code, relating to petroleum underground storage tanks.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 25299.24 of the Health and Safety Code is amended to read:

25299.24. "Tank," "underground storage tank," "underground tank system," and "tank system" have the same meaning as defined in Chapter 6.7 (commencing with Section 25280), except as follows:

(a) These terms mean only those tanks that contain only petroleum or, consistent with the federal act, a mixture of petroleum with de minimis quantities of other regulated substances.

(b) These terms include all of the following components that are connected either directly or indirectly to the tank:

(1) Spill containment structures that are substantially or totally beneath the surface of the ground.

(2) Those portions of vent lines, vapor recovery lines, and fill pipes that are beneath the surface of the ground.

SEC. 2. Section 25299.50.2 is added to the Health and Safety Code, to read:

25299.50.2. (a) The Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund is hereby established in the State Treasury.

(b) The sum of ten million dollars ($10,000,000) is hereby transferred, for each of the 2008–09, 2009–10, and 2010–11 fiscal years, from the Underground Storage Tank Cleanup Fund to the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund, for expenditure upon appropriation by the Legislature, for the costs of response actions to remediate the harm caused by a petroleum contamination, including contamination caused by a refined product of petroleum or a petroleum derivative, at a site that meets all of the following conditions:

(1) The site meets the conditions described in paragraph (2) of subdivision (a) of Section 25395.20.

(2) The petroleum contamination is the principal source of contamination at the site.

(3) The source of the petroleum contamination is, or was, an underground storage tank.

(4) A financially responsible party has not been identified to pay for remediation at the site.

(c) Any funds in the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund that are not expended in the 2009–10, 2010–11, or 2011–12 fiscal years shall remain in the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund until they are encumbered.

(d) Notwithstanding Section 16304.1 of the Government Code, a disbursement in liquidation of an encumbrance may be made before or during the four years following the last day the appropriation is available for encumbrance.

(a) Except as provided in subdivisions (b), (c), (d), (e), (g), and (h), an owner or operator, required to perform corrective action pursuant to Section 25296.10, or an owner or operator who, as of January 1, 1988, is required to perform corrective action, who has initiated this action in accordance with Division 7 (commencing with Section 13000) of the Water Code, who is undertaking corrective action in compliance with waste discharge requirements or other orders issued pursuant to Division 7 (commencing with Section 13000) of the Water Code, or Chapter 6.7 (commencing with Section 25280), may apply to the board for satisfaction of a claim filed pursuant to this article.

(b) A person who has failed to comply with Article 3 (commencing with Section 25299.30) is ineligible to file a claim pursuant to this section.

(c) An owner or operator of an underground storage tank containing petroleum is ineligible to file a claim pursuant to this section if the person meets both of the following conditions:

(1) The person knew, before January 1, 1988, of the unauthorized release of petroleum which is the subject of the claim.

(2) The person did not initiate, on or before June 30, 1988, any corrective action in accordance with Division 7 (commencing with Section 13000) of the Water Code concerning the release, or the person did not, on or before June 30, 1988, initiate corrective action in accordance with Chapter 6.7 (commencing with Section 25280) or the person did not initiate action on or before June 30, 1988, to come into compliance with waste discharge requirements or other orders issued pursuant to Division 7 (commencing with Section 13000) of the Water Code concerning the release.

(d) An owner or operator who violates Section 25296.10 or a corrective action order, directive, notification, or approval order issued pursuant to this chapter, Chapter 6.7 (commencing with Section 25280) of this code, or Division 7 (commencing with Section 13000) of the Water Code, is liable for a corrective action cost that results from the owner's or operator's violation and is ineligible to file a claim pursuant to this section.

(e) Notwithstanding this chapter, a person who owns a tank located underground that is used to store petroleum may apply to the board for satisfaction of a claim, and the board may pay the claim pursuant to Section 25299.57 without making the finding specified in paragraph (3) of subdivision (d) of Section 25299.57 if all of the following apply:

(1) The tank meets one of the following requirements:

(A) The tank is located at the residence of a person on property used exclusively for residential purposes at the time of discovery of the unauthorized release of petroleum.

(B) The tank owner demonstrates that the tank is located on property that, on and after January 1, 1985, is not used for agricultural purposes, the tank is of a type specified in subparagraph (B) of paragraph (1) of subdivision (y) of Section 25281, and the petroleum in the tank is used solely for the purposes specified in subparagraph (B) of paragraph (1) of subdivision (y) of Section 25281 on and after January 1, 1985.

(2) The tank is not a tank described in subparagraph (A) of paragraph (1) of subdivision (y) of Section 25281 and the tank is not used on or after January 1, 1985, for the purposes specified in that subparagraph.

(3) The claimant has complied with Section 25299.31 and the permit requirements of Chapter 6.7 (commencing with Section 25280), or the claimant is not subject to the requirements of those provisions.

(f) Whenever the board has authorized the prepayment of a claim pursuant to Section 25299.57, and the amount of money available in the fund is insufficient to pay the claim, the owner or operator shall remain obligated to undertake the corrective action in accordance with Section 25296.10.

(g) The board shall not reimburse a claimant for any eligible costs for which the claimant has been, or will be, compensated by another person. This subdivision does not affect reimbursement of a claimant from the fund under either of the following circumstances:

(1) The claimant has a written contract, other than an insurance contract, with another person that requires the claimant to reimburse the person for payments the person has provided the claimant pending receipt of reimbursement from the fund.

(2) An insurer has made payments on behalf of the claimant pursuant to an insurance contract and either of the following applies:

(A) The insurance contract explicitly coordinates insurance benefits with the fund and requires the claimant to do both of the following:

(i) Maintain the claimant's eligibility for reimbursement of costs pursuant to this chapter by complying with all applicable eligibility requirements.

(ii) Reimburse the insurer for costs paid by the insurer pending reimbursement of those costs by the fund.

(B) The claimant received a letter of commitment prior to June 30, 1999, for the occurrence and the claimant is required to reimburse the insurer for any costs paid by the insurer pending reimbursement of those costs by the fund.

(h) (1) Except as provided in paragraph (2), a person who purchases or otherwise acquires real property on which an underground storage tank or tank specified in subdivision (e) is situated shall not be reimbursed by the board for a cost attributable to an occurrence that commenced prior to the acquisition of the real property if both of the following conditions apply:

(A) The purchaser or acquirer knew, or in the exercise of reasonable diligence would have discovered, that an underground storage tank or tank specified in subdivision (e) was located on the real property being acquired.

(B) A person who owned the site or owned or operated an underground storage tank or tank specified in subdivision (e) at the site during or after the occurrence and prior to acquisition by the purchaser or acquirer would not have been eligible for reimbursement from the fund.

(2) Notwithstanding paragraph (1), if the claim is filed on or after January 1, 2003, the board may reimburse the eligible costs claimed by a person who purchases or otherwise acquires real property on which an underground storage tank or tank specified in subdivision (e) is situated, if all of the following conditions apply:

(A) The claimant is the owner or operator of the underground storage tank or tank specified in subdivision (e) that had an occurrence that commenced prior to the owner's acquisition of the real property.

(B) The claimant satisfies all eligibility requirements, other than those specified in paragraph (1).

(C) The claimant is not an affiliate of a person whose act or omission caused or would cause ineligibility for the fund.

(3) If the board reimburses a claim pursuant to paragraph (2), a person specified in subparagraph (B) of paragraph (1), other than a person who is ineligible for reimbursement from the fund solely because the property was acquired from another person who was ineligible for reimbursement from the fund, shall be liable for the amount paid from the fund. The Attorney General, upon request of the board, shall bring a civil action to recover the liability imposed under this paragraph. All money recovered by the Attorney General under this paragraph shall be deposited in the fund.

(4) The liability established pursuant to paragraph (3) does not limit or supersede liability under any other provision of state or federal law, including common law.

(5) For purposes of this subdivision, the following definitions shall apply:

(A) "Affiliate" means a person who has one or more of the following relationships with another person:

SEC. 4. Section 25299.57 of the Health and Safety Code is amended to read:

25299.57. (a) If the board makes the determination specified in subdivision (d), the board may only pay for the costs of a corrective action that exceed the level of financial responsibility required to be

obtained pursuant to Section 25299.32, but not more than one million five hundred thousand dollars ($1,500,000) for each occurrence. In the case of an owner or operator who, as of January 1, 1988, was required to perform corrective action, who initiated that corrective action in accordance with Division 7 (commencing with Section 13000) of the Water Code or Chapter 6.7 (commencing with Section 25280), and who is undertaking the corrective action in compliance with waste discharge requirements or other orders issued pursuant to Division 7 (commencing with Section 13000) of the Water Code or Chapter 6.7 (commencing with Section 25280), the owner or operator may apply to the board for satisfaction of a claim filed pursuant to this article. The board shall notify claimants applying for satisfaction of claims from the fund of eligibility for reimbursement in a prompt and timely manner and that a letter of credit or commitment that will obligate funds for reimbursement shall follow the notice of eligibility as soon thereafter as possible.

(b) (1) For claims eligible for reimbursement pursuant to subdivision (c) of Section 25299.55, the claimant shall submit the actual cost of corrective action to the board, which shall either approve or disapprove the costs incurred as reasonable and necessary. At least 15 days before the board proposes to disapprove the reimbursement of corrective action costs that have been incurred on the grounds that the costs were unreasonable or unnecessary, the board shall issue a notice advising the claimant and the lead agency of the proposed disallowance, to allow review and comment.

(2) The board shall not reject any actual costs of corrective action in a claim solely on the basis that the invoices submitted fail to sufficiently detail the actual costs incurred, if all of the following apply:

(A) Auxiliary documentation is provided that documents to the board's satisfaction that the invoice is for necessary corrective action work.

(B) The costs of corrective action work in the claim are reasonably commensurate with similar corrective action work performed during the same time period covered by the invoice for which reimbursement is sought.

(C) The invoices include a brief description of the work performed, the date that the work was performed, the vendor, and the amount.

(c) (1) For claims eligible for prepayment pursuant to subdivision (c) of Section 25299.55, the claimant shall submit the estimated cost of the corrective action to the board, which shall approve or disapprove the reasonableness of the cost estimate.

(2) If the claim is for reimbursement of costs incurred pursuant to a performance-based contract, Article 6.5 (commencing with Section 25299.64) shall apply to that claim.

(d) Except as provided in subdivision (j), a claim specified in subdivision (a) may be paid if the board makes all of the following findings:

(1) There has been an unauthorized release of petroleum into the environment from an underground storage tank.

(2) The claimant is required to undertake or contract for corrective action pursuant to Section 25296.10, or, as of January 1, 1988, the claimant has initiated corrective action in accordance with Division 7 (commencing with Section 13000) of the Water Code.

(3) The claimant has complied with Section 25299.31.

(4) (A) Except as provided in subparagraphs (B), (C), and (F), the claimant has complied with the permit requirements of Chapter 6.7 (commencing with Section 25280). A claimant shall obtain a permit required by subdivision (a) of Section 25284 for the underground storage tank that is the subject of the claim when the claimant becomes subject to subdivision (a) of Section 25284 or when the applicable local agency begins issuing permits pursuant to subdivision (a) of Section 25284, whichever occurs later.

(B) A claimant who acquires real property on which an underground storage tank is situated and, despite the exercise of reasonable diligence, was unaware of the existence of the underground storage tank when the real property was acquired, has obtained a permit required by subdivision (a) of Section 25284 for the underground storage tank that is the subject of the claim within a reasonable period, not to exceed one year, from when the claimant should have become aware of the existence of the underground storage tank, or when the applicable local agency began issuing permits pursuant to Section 25284, whichever occurs later.

(C) All claimants who file their claim on or after January 1, 2008, and who do not obtain a permit required by subdivision (a) of Section 25284 in accordance with subparagraph (A) or (B) may seek a waiver of the requirement to obtain a permit. The board shall waive the provisions of subparagraphs (A) and (B) as a condition for payment from the fund if the board finds all of the following:

(i) The claimant was unaware of the permit requirement, and upon becoming aware of the permit requirement, the claimant complies with either subdivision (a) of Section 25284 or Section 25298 and the regulations adopted to implement those sections within a reasonable period, not to exceed one year, from when the claimant became aware of the permit requirement.

(ii) Prior to submittal of the application to the fund, the claimant has complied with Section 25299.31 and has obtained and paid for all permits currently required by this paragraph.

(iii) Prior to submittal of the application to the fund, the claimant has paid all fees, interest, and penalties imposed pursuant to Article 5 (commencing with Section 25299.40) of this code and Part 26 (commencing with Section 50101) of Division 2 of the Revenue and Taxation Code for the underground storage tank that is the subject of the claim.

(D) (i) A claimant exempted pursuant to subparagraph (C) and who has complied, on or before December 22, 1998, either with subdivision (a) of Section 25284 or Section 25298 and the regulations adopted to implement those sections, shall obtain a level of financial responsibility twice as great as the amount that the claimant is otherwise required to obtain pursuant to subdivision (a) of Section 25299.32, but not less than ten thousand dollars ($10,000). All other claimants exempted pursuant to subparagraph (C) shall obtain a level of financial responsibility that is four times as great as the amount that the claimant is otherwise required to obtain pursuant to subdivision (a) of Section 25299.32, but not less than twenty thousand dollars ($20,000).

(ii) The board may waive the requirements of clause (i) if the claimant can demonstrate that the conditions specified in clauses (i) to (iii), inclusive, of subparagraph (C) were satisfied prior to the causing of any contamination. That demonstration may be made through a certification issued by the permitting agency based on a site evaluation and tank tests at the time of permit application or in any other manner acceptable to the board.

(E) All claimants who file a claim before January 1, 2008, and who are not eligible for a waiver of the permit requirements pursuant to applicable statutes or regulations in effect on the date of the filing of the claim may resubmit a new claim pursuant to subparagraph (C) on or after January 1, 2008. The board shall rank all claims resubmitted pursuant to subparagraph (C) lower than all claims filed before January 1, 2008, within their respective priority classes specified in subdivision (b) of Section 25299.52.

(F) The board shall waive the provisions of subparagraph (A) as a condition for payment from the fund for a claimant who filed his or her claim on or after January 1, 2008, and before July 1, 2009, but is not eligible for a waiver of the permit requirement pursuant to the regulations adopted by the board in effect on the date of the filing of the claim, and who did not obtain or apply for a permit required by subdivision (a) of Section 25284, if the board finds all of the following:

(i) The claim is filed pursuant to paragraph (2) of subdivision (h) of Section 25299.54 and the claim otherwise satisfies the eligibility requirements of that paragraph.

(ii) The claimant became the owner or de facto owner of an underground storage tank prior to December 22, 1998.

(iii) The claimant did not, and does not, operate the underground storage tank.

(iv) Within three years after becoming the owner or de facto owner of the underground storage tank but not after December 22, 1998, the claimant caused the underground storage tank to be removed and closed in accordance with applicable law, and commenced no later than December 22, 1998, to perform corrective action pursuant to Section 25296.10 of this code or pursuant to Division 7 (commencing with Section 13000) of the Water Code.

(G) The board shall rank all claims submitted pursuant to subparagraph (F) in their respective priority classes specified in subdivision (b) of Section 25299.52 in the order in which the claims are received by the board, but subsequent to any claim filed on a previous date in each of those priority classes.

(H) For purposes of clauses (ii) and (iv) of subparagraph (F), "de facto owner of an underground storage tank" means a person who purchases or otherwise acquires real property, as defined in subparagraph (D) of paragraph (5) of subdivision (h) of Section 25299.54, and has actual possession of, and control over, an underground storage tank that has been abandoned by its previous owner.

(5) The board has approved either the costs incurred for the corrective action pursuant to subdivision (b) or the estimated costs for corrective action pursuant to subdivision (c).

(6) The claimant has paid all fees, interest, and penalties imposed pursuant to Article 5 (commencing with Section 29299.40) and Part 26 (commencing with Section 50101) of Division 2 of the Revenue and Taxation Code for the underground storage tank that is the subject of the claim.

(e) The board shall provide the claimant, whose cost estimate has been approved, a letter of commitment authorizing payment of the costs from the fund.

(f) The claimant may submit a request for partial payment to cover the costs of corrective action performed in stages, as approved by the board.

(g) (1) A claimant who submits a claim for payment to the board shall submit multiple bids for prospective costs as prescribed in regulations adopted by the board pursuant to Section 25299.77.

(2) A claimant who submits a claim to the board for the payment of professional engineering and geologic work shall submit multiple proposals and fee estimates, as required by the regulations adopted by the board pursuant to Section 25299.77. The claimant's selection of the

provider of these services is not required to be based on the lowest estimated fee, if the fee estimate conforms with the range of acceptable costs established by the board.

(3) A claimant who submits a claim for payment to the board for remediation construction contracting work shall submit multiple bids, as required in the regulations adopted by the board pursuant to Section 25299.77.

(4) Paragraphs (1), (2), and (3) do not apply to a tank owned or operated by a public agency if the prospective costs are for private professional services within the meaning of Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 of the Government Code and those services are procured in accordance with the requirements of that chapter.

(h) The board shall provide, upon the request of a claimant, assistance to the claimant in the selection of contractors retained by the claimant to conduct reimbursable work related to corrective actions. The board shall develop a summary of expected costs for common corrective actions. This summary of expected costs may be used by claimants as a guide in the selection and supervision of consultants and contractors.

(i) The board shall pay, within 60 days from the date of receipt of an invoice of expenditures, all costs specified in the work plan developed pursuant to Section 25296.10, and all costs that are otherwise necessary to comply with an order issued by a local, state, or federal agency.

(j) (1) The board shall pay a claim of not more than three thousand dollars ($3,000) per occurrence for regulatory technical assistance to an owner or operator who is otherwise eligible for reimbursement under this chapter.

(2) For the purposes of this subdivision, regulatory technical assistance is limited to assistance from a person, other than the claimant, in the preparation and submission of a claim to the fund. Regulatory technical assistance does not include assistance in connection with proceedings under Section 25296.40, 25299.39.2, or 25299.56 or any action in court.

(k) (1) Notwithstanding any other provision of this section, the board shall pay a claim for the costs of corrective action to a person who owns property on which is located a release from a petroleum underground storage tank that has been the subject of a completed corrective action and for which additional corrective action is required because of additionally discovered contamination from the previous release, only if the person who carried out the earlier and completed corrective action was eligible for, and applied for, reimbursement pursuant to subdivision (b), and only to the extent that the amount of reimbursement for the earlier corrective action did not exceed the amount of reimbursement authorized by subdivision (a). Reimbursement to a claimant on a

reopened site shall occur when funds are available, and reimbursement commitment shall be made ahead of any new letters of commitment to be issued, as of the date of the reopening of the claim, if funding has occurred on the original claim, in which case funding shall occur at the time it would have occurred under the original claim.

(2) For purposes of this subdivision, a corrective action is completed when the local agency or regional board with jurisdiction over the site or the board issues a closure letter pursuant to subdivision (g) of Section 25296.10.

SEC. 5. Section 25299.81 of the Health and Safety Code is amended to read:

25299.81. (a) Except as provided in subdivisions (b) and (c), this chapter shall remain in effect only until January 1, 2016, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 2016, deletes or extends that date.

(b) Notwithstanding subdivision (a), Article 1 (commencing with Section 25299.10), Article 2 (commencing with Section 25299.11), and Article 4 (commencing with Section 25299.36) shall not be repealed and shall remain in effect on January 1, 2016.

(c) The repeal of certain portions of this chapter does not terminate any of the following rights, obligations, or authorities, or any provision necessary to carry out these rights and obligations:

(1) The filing and payment of claims against the fund, including the costs specified in subdivisions (c), (e), and (h) of Section 25299.51, and claims for commingled plumes, as specified in Article 11 (commencing with Section 25299.90), until the moneys in the fund are exhausted. Upon exhaustion of the fund, any remaining claims shall be invalid.

(2) The repayment of loans, outstanding as of January 1, 2016, due and payable to the board.

(3) The recovery of moneys reimbursed to a claimant to which the claimant is not entitled, or the resolution of any cost recovery action.

(4) The collection of unpaid fees that are imposed pursuant to Article 5 (commencing with Section 25299.40), as that article read on December 31, 2015, or have become due before January 1, 2016, including any interest or penalties that accrue before, on, or after January 1, 2016, associated with those unpaid fees.

(5) (A) The filing of an application for funds from, and the making of payments from, the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund pursuant to Section 25299.50.2, any action for the recovery of moneys paid pursuant to Section 25299.50.2 to which the recipient is not entitled, and the resolution of that cost recovery action.

(B) Upon liquidation of funds in the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund, the obligation to make a payment from the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund is terminated.

(d) The board shall continuously post and update on its Internet Web site, but at a minimum, annually on or before September 30, information that describes the status of the fund and shall make recommendations, when appropriate, to improve the efficiency of the program.

(19) A residential facility for persons with developmental disabilities, as defined in Sections 4688.5 and 4688.6 of the Welfare and Institutions Code, which includes, but is not limited to, a community care facility licensed pursuant to Section 1502 of the Health and Safety Code and a family teaching home as defined in Section 4689.1 of the Welfare and Institutions Code, but which does not include a residential facility for persons with special health care needs, as defined in Section 1567.50 of the Health and Safety Code.

"Health facility" includes a clinic that is described in subdivision (*l*) of Section 1206 of the Health and Safety Code.

"Health facility" includes the following facilities, if the facility is operated in conjunction with one or more of the facilities specified in paragraphs (1) to (19), inclusive, of this subdivision: a laboratory, laundry, or nurses or interns residence, housing for staff or employees and their families or patients or relatives of patients, a physicians' facility, an administration building, a research facility, a maintenance, storage, or utility facility, all structures or facilities related to any of the foregoing facilities or required or useful for the operation of a health facility and the necessary and usual attendant and related facilities and equipment, and parking and supportive service facilities or structures required or useful for the orderly conduct of the health facility.

"Health facility" does not include any institution, place, or building used or to be used primarily for sectarian instruction or study or as a place for devotional activities or religious worship.

(e) "Participating health institution" means a city, city and county, or county, a district hospital, or a private nonprofit corporation or association authorized by the laws of this state to provide or operate a health facility and that, pursuant to the provisions of this part, undertakes the financing or refinancing of the construction or acquisition of a project or of working capital as provided in this part. or refinancing of a health facility or acquisition of a health facility. "Project" may include any combination of one or more of the foregoing undertaken jointly by any participating health institution with one or more other participating health institutions.

(g) "Revenue bond" means any bond, warrant, note, lease, or installment sale obligation that is evidenced by a certificate of participation or other evidence of indebtedness issued by the authority.

(h) "Working capital" means moneys to be used by, or on behalf of, a participating health institution to pay or prepay maintenance or operation expenses or any other costs that would be treated as an expense item, under generally accepted accounting principles, in connection with the ownership or operation of a health facility, including, but not limited to, reserves for maintenance or operation expenses, interest for not to exceed one year on any loan for working capital made pursuant to this part, and reserves for debt service with respect to, and any costs necessary or incidental to, that financing.

SEC. 2. Section 4688.6 is added to the Welfare and Institutions Code, to read:

4688.6. (a) Notwithstanding any other provision of law to the contrary, the department may receive and approve a proposal or proposals by any regional center to provide for, secure, or assure the full payment of a lease or leases on housing based on the availability for occupancy in each home. These proposals shall not include an adult residential facility for persons with special health care needs, as defined in Section 1567.50 of the Health and Safety Code. Proposals submitted by regional centers shall meet all of the following conditions:

(1) The acquired or developed real property is available for occupancy by individuals eligible for regional center services and is integrated with other housing in the community for people without disabilities.

(2) The regional center has submitted documents demonstrating the appropriate credentials and terms of the project and has approved the proposed nonprofit ownership entity, management entity, and developer or development entity for each project.

(3) The costs associated with the proposal are reasonable and maximize the receipt of federal Medicaid funding. The department shall only approve proposals that include a process for the regional center to review recent sales of comparable properties to ensure the purchase price is within the range of fair market value and, if significant renovations of a home will be undertaken after the home is purchased, competing bids for that renovation work to ensure that the cost of the work is reasonable. For purposes of this subdivision, "significant renovations" means renovations that exceed 5 percent of the purchase price of the home.

(4) The proposal includes a plan for a transfer at a time certain of the real property's ownership to a nonprofit entity to be approved by the regional center.

(5) The regional center has submitted, with the proposal, the nonrefundable developer fee established in subdivision (d).

(b) Prior to approving a regional center proposal pursuant to subdivision (a), the department may contract or consult with a public or private sector entity that has appropriate experience in structuring complex real estate financial transactions, but is not otherwise involved in any lending related to the project to review any of the following:

(1) The terms and conditions of the financing structure for acquisition or development of the real property.

(2) Any and all agreements that govern the real property's ownership, occupancy, maintenance, management, and operation, to ensure that the use of the property is maintained for the benefit of persons with developmental disabilities.

(c) The department may impose a limit on the number of proposals considered pursuant to subdivision (a). If a limit is imposed, the department shall notify the Association of Regional Center Agencies.

(d) (1) The department shall charge the developer of the housing described in the regional center proposal a reasonable, nonrefundable fee for each proposal submitted. The fee shall be for the purpose of reimbursing the department's costs associated with conducting the review and approval required by subdivision (b). The fee shall be set by the department within 30 days of the effective date of the act that added this section, and shall be adjusted annually, as necessary, to ensure the payment of the costs incurred by the department.

(2) Fees collected shall be deposited in the Developmental Disabilities Services Account established pursuant to Section 14672.9 of the Government Code and shall be used solely for the purpose of conducting the review and approval required by subdivision (b), upon appropriation by the Legislature. Interest and dividends on moneys collected pursuant to this section shall, notwithstanding Section 16305.7 of the Government Code, be retained in the account for purposes of this section. Moneys deposited in the Developmental Disabilities Services Account pursuant to this subdivision shall not be subject to the requirements of subdivision (i) of Section 14672.9 of the Government Code.

(3) Notwithstanding paragraph (2), for the 2008–09 fiscal year, the Director of Finance may approve an expenditure of up to seventy-five thousand dollars ($75,000) by the department from moneys deposited in the account for the purposes specified in subdivision (b). In the 2009–10 fiscal year and each fiscal year thereafter, moneys shall be available to the department upon appropriation by the Legislature.

(e) No sale, encumbrance, hypothecation, assignment, refinancing, pledge, conveyance, exchange, or transfer in any other form of the real property, or of any of its interest therein, shall occur without the prior written approval of the department and the regional center.

(f) Notice of the restrictions pursuant to this section shall be recorded against the acquired or developed real property subject to this section.

(g) At least 30 days prior to granting approval under subdivision (e), the department shall provide notice to the chairs and vice chairs of the fiscal committees of the Assembly and the Senate and the Director of Finance.

(h) The regional center shall not be eligible to acquire or develop real property for the purpose of residential housing.

(i) Unless otherwise authorized by law, a regional center shall not use purchase of service funds to implement this section.

(j) With the exception of funds authorized in paragraph (3) of subdivision (d), this section shall be implemented within the department's annual budget. This subdivision shall not preclude the receipt or use of federal, state non-General Fund, or private funds to implement this section.

(k) The department shall establish guidelines and procedures for the administration of this section.

## CHAPTER 618

An act to amend Section 50675.1 of the Health and Safety Code, relating to housing.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 50675.1 of the Health and Safety Code is amended to read:

50675.1. (a) This chapter shall be known and may be cited as the Multifamily Housing Program.

(b) Assistance provided to a project pursuant to this chapter shall be provided in the form of a deferred payment loan to pay for the eligible costs of development as hereafter described.

(c) Except as provided in paragraph (3), on and after January 1, 2008, of the total assistance provided under this chapter, the percentage that is awarded for units restricted to senior citizens, as defined in paragraph

(1) of subdivision (b) of Section 51.3 of the Civil Code, shall be proportional to the percentage of lower income renter households in the state that are lower income elderly renter households, as reported by the federal Department of Housing and Urban Development on the basis of the most recent decennial census conducted by the United States Census Bureau.

(1) The department shall be deemed to have met its obligation under this subdivision if the assistance awarded is not less than 1 percent below the proportional share.

(2) This subdivision does not require the department to provide loans to projects that fail to meet minimum threshold requirements under subdivision (b) of Section 50675.7.

(3) Assistance for projects meeting the definitions in paragraphs (2) and (3) of subdivision (e) of Section 11139.3 of the Government Code and subdivisions (c) and (d) of Section 53260 shall be excluded from the total assistance calculation under this subdivision.

(4) The department shall determine the time period over which it will measure compliance with this section, but that period shall not be less than one year or two funding cycles, whichever period is longer.

(5) If, at the end of the time period determined by the department, the total amount of funding for which sponsors have submitted qualified applications is lower than the proportional share, the department may award the remaining funds to units that are not restricted to senior citizens.

(6) The department's annual report to the Legislature submitted under Section 50408 shall include a breakdown of funding awards between units restricted to senior citizens and units that are not age-restricted.

(d) This chapter shall be administered by the department and the department shall establish the terms upon which loans may be made consistent with the provisions of this chapter.

(e) Notwithstanding any other provision of law, the sponsor of a supportive housing development, as defined in subdivision (b) of Section 50675.14, may restrict occupancy to persons with veteran status, if all of the following conditions apply:

(1) The veterans shall possess significant barriers to social reintegration and employment that require specialized treatment and services that are due to a physical or mental disability, substance abuse, or the effects of long-term homelessness.

(2) The veterans are otherwise eligible to reside in an assisted unit.

(3) The sponsor also provides, or assists in providing, the specialized treatment and services.

(4) The development is located on property that is owned or leased by the United States Department of Veterans Affairs, or the California

Department of Veterans Affairs, and is leased to the sponsor for a term of not less than 55 years.

## CHAPTER 619

An act to add Chapter 2.4 (commencing with Section 35523) to Part 5 of Division 13 of the Water Code, relating to the Vandalia Water District.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 2.4 (commencing with Section 35523) is added to Part 5 of Division 13 of the Water Code, to read:

### CHAPTER 2.4. PROVISIONS PERTAINING ONLY TO THE VANDALIA WATER DISTRICT

35523. (a) Notwithstanding any other provision of law, the Vandalia Irrigation District in the County of Tulare is dissolved, and the Vandalia Water District is hereby formed in that county.

(b) The Vandalia Water District is declared to be, and shall be deemed, a water district as if the district had been formed pursuant to this division. The exterior boundary of the Vandalia Water District shall be the exterior boundary of the former Vandalia Irrigation District.

(c) The Vandalia Water District succeeds to, and is vested with, all of the powers, duties, responsibilities, obligations, liabilities, and jurisdiction of the former Vandalia Irrigation District.

(d) The status, position, and rights of any officer or employee of the former Vandalia Irrigation District are not affected by the transfer and shall be retained by the person as an officer or employee of the Vandalia Water District.

(e) The Vandalia Water District shall have ownership, possession, and control of all of the books, records, papers, offices, equipment, supplies, moneys, funds, appropriations, licenses, permits, entitlements, agreements, contracts, claims, judgments, land, and other assets and property, real or personal, owned or leased by, connected with the administration of, or held for the benefit or use of, the former Vandalia Irrigation District.

(f) The unexpended balance as of January 1, 2009, of any funds available for use by the former Vandalia Irrigation District shall be available for use by the Vandalia Water District.

(g) No payment for the use, or right of use, of any property, real or personal, acquired or constructed by the former Vandalia Irrigation District shall be required by reason of the succession pursuant to this act, nor shall any payment for the Vandalia Water District's acquisition of the powers, duties, responsibilities, obligations, liabilities, and jurisdiction be required by reason of that succession.

(h) All ordinances, rules, and regulations adopted by the former Vandalia Irrigation District in effect immediately preceding January 1, 2009, shall remain in effect and shall be fully enforceable unless amended or repealed by the Vandalia Water District, or until they expire by their own terms. Any statute, law, rule, or regulation in force as of December 31, 2008, or that may hereafter be enacted or adopted with reference to the former Vandalia Irrigation District shall mean the Vandalia Water District.

(i) Any action by or against the former Vandalia Irrigation District shall not abate, but shall continue in the name of the Vandalia Water District, and the Vandalia Water District shall be substituted for the former Vandalia Irrigation District by the court in which the action is pending. The substitution shall not in any way affect the rights of the parties to the action.

(j) No contract, lease, license, permit, entitlement, bond, or any other agreement to which the former Vandalia Irrigation District is a party shall be void or voidable by reason of the enactment of this chapter, but shall continue in effect, with the Vandalia Water District assuming all of the rights, obligations, liabilities, and duties of the former Vandalia Irrigation District. Bonds issued by the former Vandalia Irrigation District shall become the indebtedness of the Vandalia Water District. Any continuing obligations or responsibilities of the former Vandalia Irrigation District for managing and maintaining bond issuances shall be transferred to the Vandalia Water District without impairment to any security contained in the bond instrument.

SEC. 2. The Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of the unique circumstances of the Vandalia Irrigation District in the County of Tulare. The facts constituting the special circumstances are:

The Vandalia Irrigation District has few registered voters who are both eligible and willing to hold office as members of the district's board of directors. Rather than create a new special exception to the Irrigation

District Law and permit landowners to vote and hold office on an irrigation district's board of directors, the Legislature prefers to convert the Vandalia Irrigation District into a California water district which is governed pursuant to a principal act that allows landowners to vote and hold office. Rather than require local officials, residents, and landowners to spend several months implementing the statutory procedures necessary for the concurrent dissolution of an irrigation district and the formation of a California water district, the Legislature prefers to implement this reorganization directly.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district are the result of a program for which legislative authority was requested by that local agency or school district, within the meaning of Section 17556 of the Government Code and Section 6 of Article XIII B of the California Constitution.

## CHAPTER 620

An act to amend Section 1936 of the Civil Code, and to amend Sections 170010, 170011, 170013, 170016, 170017, and 170018 of, and to add Sections 170035 and 170036 to, the Public Utilities Code, relating to airports.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1936 of the Civil Code is amended to read:

1936. (a) For the purpose of this section, the following definitions shall apply:

(1) "Rental company" means a person or entity in the business of renting passenger vehicles to the public.

(2) "Renter" means any person in a manner obligated under a contract for the lease or hire of a passenger vehicle from a rental company for a period of less than 30 days.

(3) "Authorized driver" means (A) the renter, (B) the renter's spouse if that person is a licensed driver and satisfies the rental company's minimum age requirement, (C) the renter's employer or coworker if he or she is engaged in business activity with the renter, is a licensed driver, and satisfies the rental company's minimum age requirement, and (D)

a person expressly listed by the rental company on the renter's contract as an authorized driver.

(4) (A) "Customer facility charge" means a fee required by an airport to be collected by a rental company from a renter for either of the following purposes:

(i) To finance, design, and construct consolidated airport car rental facilities.

(ii) To finance, design, construct, and provide common use transportation systems that move passengers between airport terminals and those consolidated car rental facilities.

(B) The aggregate amount to be collected shall not exceed the reasonable costs, as determined by an independent audit paid for by the airport, to finance, design, and construct those facilities. Copies of the audit shall be provided to the Assembly and Senate Committees on Judiciary, the Assembly Committee on Transportation, and the Senate Committee on Transportation and Housing. In the case of a transportation system, the audit also shall consider the reasonable costs of providing the transit system or busing network. At the Burbank Airport, and at all other airports, the fees designated as a customer facility charge shall not be used to pay for terminal expansion, gate expansion, runway expansion, changes in hours of operation, or changes in the number of flights arriving or departing from the airport.

(C) Except as provided in subparagraph (D), the authorization given pursuant to this section for an airport to impose a customer facility charge shall become inoperative when the bonds used for financing are paid.

(D) If a bond or other form of indebtedness is not used for financing, or the bond or other form of indebtedness used for financing has been paid, the Oakland International Airport may require the collection of a customer facility charge for a period of up to 10 years from the imposition of the charge for the purposes allowed by, and subject to the conditions imposed by, this section.

(5) "Damage waiver" means a rental company's agreement not to hold a renter liable for all or any portion of any damage or loss related to the rented vehicle, any loss of use of the rented vehicle, or any storage, impound, towing, or administrative charges.

(6) "Electronic surveillance technology" means a technological method or system used to observe, monitor, or collect information, including telematics, Global Positioning System (GPS), wireless technology, or location-based technologies. "Electronic surveillance technology" does not include event data recorders (EDR), sensing and diagnostic modules (SDM), or other systems that are used either:

(A) For the purpose of identifying, diagnosing, or monitoring functions related to the potential need to repair, service, or perform maintenance on the rental vehicle.

(B) As part of the vehicle's airbag sensing and diagnostic system in order to capture safety systems-related data for retrieval after a crash has occurred or in the event that the collision sensors are activated to prepare the decisionmaking computer to make the determination to deploy or not to deploy the airbag.

(7) "Estimated time for replacement" means the number of hours of labor, or fraction thereof, needed to replace damaged vehicle parts as set forth in collision damage estimating guides generally used in the vehicle repair business and commonly known as "crash books."

(8) "Estimated time for repair" means a good faith estimate of the reasonable number of hours of labor, or fraction thereof, needed to repair damaged vehicle parts.

(9) "Membership program" means a service offered by a rental company that permits customers to bypass the rental counter and go directly to the car previously reserved. A membership program shall meet all of the following requirements:

(A) The renter initiates enrollment by completing an application on which the renter can specify a preference for type of vehicle and acceptance or declination of optional services.

(B) The rental company fully discloses, prior to the enrollee's first rental as a participant in the program, all terms and conditions of the rental agreement as well as all required disclosures.

(C) The renter may terminate enrollment at any time.

(D) The rental company fully explains to the renter that designated preferences, as well as acceptance or declination of optional services, may be changed by the renter at any time for the next and future rentals.

(E) An employee designated to receive the form specified in subparagraph (C) of paragraph (1) of subdivision (t) is present at the lot where the renter takes possession of the car, to receive any change in the rental agreement from the renter.

(10) "Passenger vehicle" means a passenger vehicle as defined in Section 465 of the Vehicle Code.

(b) Except as limited by subdivision (c), a rental company and a renter may agree that the renter will be responsible for no more than all of the following:

(1) Physical or mechanical damage to the rented vehicle up to its fair market value, as determined in the customary market for the sale of that vehicle, resulting from collision regardless of the cause of the damage.

(2) Loss due to theft of the rented vehicle up to its fair market value, as determined in the customary market for the sale of that vehicle,

provided that the rental company establishes by clear and convincing evidence that the renter or the authorized driver failed to exercise ordinary care while in possession of the vehicle. In addition, the renter shall be presumed to have no liability for any loss due to theft if (A) an authorized driver has possession of the ignition key furnished by the rental company or an authorized driver establishes that the ignition key furnished by the rental company was not in the vehicle at the time of the theft, and (B) an authorized driver files an official report of the theft with the police or other law enforcement agency within 24 hours of learning of the theft and reasonably cooperates with the rental company and the police or other law enforcement agency in providing information concerning the theft. The presumption set forth in this paragraph is a presumption affecting the burden of proof which the rental company may rebut by establishing that an authorized driver committed, or aided and abetted the commission of, the theft.

(3) Physical damage to the rented vehicle up to its fair market value, as determined in the customary market for the sale of that vehicle, resulting from vandalism occurring after, or in connection with, the theft of the rented vehicle. However, the renter shall have no liability for any damage due to vandalism if the renter would have no liability for theft pursuant to paragraph (2).

(4) Physical damage to the rented vehicle up to a total of five hundred dollars ($500) resulting from vandalism unrelated to the theft of the rented vehicle.

(5) Actual charges for towing, storage, and impound fees paid by the rental company if the renter is liable for damage or loss.

(6) An administrative charge, which shall include the cost of appraisal and all other costs and expenses incident to the damage, loss, repair, or replacement of the rented vehicle.

(c) The total amount of the renter's liability to the rental company resulting from damage to the rented vehicle shall not exceed the sum of the following:

(1) The estimated cost of parts which the rental company would have to pay to replace damaged vehicle parts. All discounts and price reductions or adjustments that are or will be received by the rental company shall be subtracted from the estimate to the extent not already incorporated in the estimate, or otherwise promptly credited or refunded to the renter.

(2) The estimated cost of labor to replace damaged vehicle parts, which shall not exceed the product of (A) the rate for labor usually paid by the rental company to replace vehicle parts of the type that were damaged and (B) the estimated time for replacement. All discounts and price reductions or adjustments that are or will be received by the rental

company shall be subtracted from the estimate to the extent not already incorporated in the estimate, or otherwise promptly credited or refunded to the renter.

(3) (A) The estimated cost of labor to repair damaged vehicle parts, which shall not exceed the lesser of the following:

(i) The product of the rate for labor usually paid by the rental company to repair vehicle parts of the type that were damaged and the estimated time for repair.

(ii) The sum of the estimated labor and parts costs determined under paragraphs (1) and (2) to replace the same vehicle parts.

(B) All discounts and price reductions or adjustments that are or will be received by the rental company shall be subtracted from the estimate to the extent not already incorporated in the estimate, or otherwise promptly credited or refunded to the renter.

(4) For the purpose of converting the estimated time for repair into the same units of time in which the rental rate is expressed, a day shall be deemed to consist of eight hours.

(5) Actual charges for towing, storage, and impound fees paid by the rental company.

(6) The administrative charge described in paragraph (6) of subdivision (b) shall not exceed (A) fifty dollars ($50) if the total estimated cost for parts and labor is more than one hundred dollars ($100) up to and including five hundred dollars ($500), (B) one hundred dollars ($100) if the total estimated cost for parts and labor exceeds five hundred dollars ($500) up to and including one thousand five hundred dollars ($1,500), and (C) one hundred fifty dollars ($150) if the total estimated cost for parts and labor exceeds one thousand five hundred dollars ($1,500). An administrative charge shall not be imposed if the total estimated cost of parts and labor is one hundred dollars ($100) or less.

(d) (1) The total amount of an authorized driver's liability to the rental company, if any, for damage occurring during the authorized driver's operation of the rented vehicle shall not exceed the amount of the renter's liability under subdivision (c).

(2) A rental company shall not recover from the renter or other authorized driver an amount exceeding the renter's liability under subdivision (c).

(3) A claim against a renter resulting from damage or loss, excluding loss of use, to a rental vehicle shall be reasonably and rationally related to the actual loss incurred. A rental company shall mitigate damages where possible and shall not assert or collect a claim for physical damage which exceeds the actual costs of the repairs performed or the estimated cost of repairs, if the rental company chooses not to repair the vehicle, including all discounts and price reductions. However, if the vehicle is

a total loss vehicle, the claim shall not exceed the total loss vehicle value established in accordance with procedures that are customarily used by insurance companies when paying claims on total loss vehicles, less the proceeds from salvaging the vehicle, if those proceeds are retained by the rental company.

(4) If insurance coverage exists under the renter's applicable personal or business insurance policy and the coverage is confirmed during regular business hours, the renter may require that the rental company submit any claims to the renter's applicable personal or business insurance carrier. The rental company shall not make any written or oral representations that it will not present claims or negotiate with the renter's insurance carrier. For purposes of this paragraph, confirmation of coverage includes telephone confirmation from insurance company representatives during regular business hours. Upon request of the renter and after confirmation of coverage, the amount of claim shall be resolved between the insurance carrier and the rental company. The renter shall remain responsible for payment to the rental car company for any loss sustained that the renter's applicable personal or business insurance policy does not cover.

(5) A rental company shall not recover from the renter or other authorized driver for an item described in subdivision (b) to the extent the rental company obtains recovery from another person.

(6) This section applies only to the maximum liability of a renter or other authorized driver to the rental company resulting from damage to the rented vehicle and not to the liability of another person.

(e) (1) Except as provided in subdivision (f), a damage waiver shall provide or, if not expressly stated in writing, shall be deemed to provide that the renter has no liability for a damage, loss, loss of use, or a cost or expense incident thereto.

(2) Except as provided in subdivision (f), every limitation, exception, or exclusion to a damage waiver is void and unenforceable.

(f) A rental company may provide in the rental contract that a damage waiver does not apply under any of the following circumstances:

(1) Damage or loss results from an authorized driver's (A) intentional, willful, wanton, or reckless conduct, (B) operation of the vehicle under the influence of drugs or alcohol in violation of Section 23152 of the Vehicle Code, (C) towing or pushing anything, or (D) operation of the vehicle on an unpaved road if the damage or loss is a direct result of the road or driving conditions.

(2) Damage or loss occurs while the vehicle is (A) used for commercial hire, (B) used in connection with conduct that could be properly charged as a felony, (C) involved in a speed test or contest or

in driver training activity, (D) operated by a person other than an authorized driver, or (E) operated outside the United States.

(3) An authorized driver who has (A) provided fraudulent information to the rental company, or (B) provided false information and the rental company would not have rented the vehicle if it had instead received true information.

(g) (1) A rental company that offers or provides a damage waiver for any consideration in addition to the rental rate shall clearly and conspicuously disclose the following information in the rental contract or holder in which the contract is placed and, also, in signs posted at the place, such as the counter, where the renter signs the rental contract, and, for renters who are enrolled in the rental company's membership program, in a sign that shall be posted in a location clearly visible to those renters as they enter the location where their reserved rental cars are parked or near the exit of the bus or other conveyance that transports the enrollee to a reserved car: (A) the nature of the renter's liability, e.g., liability for all collision damage regardless of cause, (B) the extent of the renter's liability, e.g., liability for damage or loss up to a specified amount, (C) the renter's personal insurance policy or the credit card used to pay for the car rental transaction may provide coverage for all or a portion of the renter's potential liability, (D) the renter should consult with his or her insurer to determine the scope of insurance coverage, including the amount of the deductible, if any, for which the renter is obligated, (E) the renter may purchase an optional damage waiver to cover all liability, subject to whatever exceptions the rental company expressly lists that are permitted under subdivision (f), and (F) the range of charges for the damage waiver.

(2) In addition to the requirements of paragraph (1), a rental company that offers or provides a damage waiver shall orally disclose to all renters, except those who are participants in the rental company's membership program, that the damage waiver may be duplicative of coverage that the customer maintains under his or her own policy of motor vehicle insurance. The renter's receipt of the oral disclosure shall be demonstrated through the renter's acknowledging receipt of the oral disclosure near that part of the contract where the renter indicates, by the renter's own initials, his or her acceptance or declination of the damage waiver. Adjacent to that same part, the contract also shall state that the damage waiver is optional. Further, the contract for these renters shall include a clear and conspicuous written disclosure that the damage waiver may be duplicative of coverage that the customer maintains under his or her own policy of motor vehicle insurance.

(3) The following is an example, for purposes of illustration and not limitation, of a notice fulfilling the requirements of paragraph (1) for a

rental company that imposes liability on the renter for collision damage to the full value of the vehicle:

NOTICE ABOUT YOUR FINANCIAL RESPONSIBILITY AND OPTIONAL DAMAGE WAIVER

You are responsible for all collision damage to the rented vehicle even if someone else caused it or the cause is unknown. You are responsible for the cost of repair up to the value of the vehicle, and towing, storage, and impound fees.

Your own insurance, or the issuer of the credit card you use to pay for the car rental transaction, may cover all or part of your financial responsibility for the rented vehicle. You should check with your insurance company, or credit card issuer, to find out about your coverage and the amount of the deductible, if any, for which you may be liable.

Further, if you use a credit card that provides coverage for your potential liability, you should check with the issuer to determine if you must first exhaust the coverage limits of your own insurance before the credit card coverage applies.

The rental company will not hold you responsible if you buy a damage waiver. But a damage waiver will not protect you if (list exceptions).

(A) When the above notice is printed in the rental contract or holder in which the contract is placed, the following shall be printed immediately following the notice:

"The cost of an optional damage waiver is $____ for every (day or week)."

(B) When the above notice appears on a sign, the following shall appear immediately adjacent to the notice:

"The cost of an optional damage waiver is $____ to $____ for every (day or week), depending upon the vehicle rented."

(h) Notwithstanding any other provision of law, a rental company may sell a damage waiver subject to the following rate limitations for each full or partial 24-hour rental day for the damage waiver.

(1) For rental vehicles that the rental company designates as an "economy car," "subcompact car," "compact car," or another term having similar meaning when offered for rental, or another vehicle having a manufacturer's suggested retail price of nineteen thousand dollars ($19,000) or less, the rate shall not exceed nine dollars ($9).

(2) For rental vehicles that have a manufacturer's suggested retail price from nineteen thousand one dollars ($19,001) to thirty-four thousand nine hundred ninety-nine dollars ($34,999), inclusive, and that are also either vehicles of next year's model, or not older than the previous year's model, the rate shall not exceed fifteen dollars ($15).

For those rental vehicles older than the previous year's model-year, the rate shall not exceed nine dollars ($9).

(i) The manufacturer's suggested retail prices described in subdivision (h) shall be adjusted annually to reflect changes from the previous year in the Consumer Price Index. For the purposes of this section, "Consumer Price Index" means the United States Consumer Price Index for All Urban Consumers, for all items.

(j) A rental company that disseminates in this state an advertisement containing a rental rate shall include in that advertisement a clearly readable statement of the charge for a damage waiver and a statement that a damage waiver is optional.

(k) (1) A rental company shall not require the purchase of a damage waiver, optional insurance, or another optional good or service.

(2) A rental company shall not engage in any unfair, deceptive, or coercive conduct to induce a renter to purchase the damage waiver, optional insurance, or another optional good or service, including conduct such as, but not limited to, refusing to honor the renter's reservation, limiting the availability of vehicles, requiring a deposit, or debiting or blocking the renter's credit card account for a sum equivalent to a deposit if the renter declines to purchase the damage waiver, optional insurance, or another optional good or service.

(*l*) (1) In the absence of express permission granted by the renter subsequent to damage to, or loss of, the vehicle, a rental company shall not seek to recover any portion of a claim arising out of damage to, or loss of, the rented vehicle by processing a credit card charge or causing a debit or block to be placed on the renter's credit card account.

(2) A rental company shall not engage in any unfair, deceptive, or coercive tactics in attempting to recover or in recovering on any claim arising out of damage to, or loss of, the rented vehicle.

(m) (1) A customer facility charge may be collected by a rental company under the following circumstances:

(A) Collection of the fee by the rental company is required by an airport operated by a city, a county, a city and county, a joint powers authority, a special district, or the San Diego County Regional Airport Authority formed pursuant to Division 17 (commencing with Section 170000) of the Public Utilities Code.

(B) The fee is calculated on a per-contract basis.

(C) The fee is a user fee, not a tax imposed upon real property or an incidence of property ownership under Article XIII D of the California Constitution.

(D) Except as otherwise provided in subparagraph (E), the fee shall be ten dollars ($10) per contract.

(E) If the fee imposed by the airport is for both a consolidated rental car facility and a common-use transportation system, the fee collected from customers of on-airport rental car companies shall be ten dollars ($10), but the fee imposed on customers of off-airport rental car companies who are transported on the common-use transportation system is proportionate to the costs of the common-use transportation system only. The fee is uniformly applied to each class of on-airport or off-airport customers, provided the airport requires off-airport customers to use the common-use transportation system.

(F) Revenues collected from the fee do not exceed the reasonable costs of financing, designing, constructing, or operating the facility or transportation services and shall not be used for any other purpose.

(G) The fee is separately identified on the rental agreement.

(H) This paragraph does not apply to airports the fees of which are governed by Section 50474.1 of the Government Code or Section 57.5 of the San Diego Unified Port District Act.

(2) Notwithstanding any other provision of law, including, but not limited to, Part 1 (commencing with Section 6001) to Part 1.7 (commencing with Section 7280), inclusive, of Division 2 of the Revenue and Taxation Code, the fees collected pursuant to this section, or another law whereby a local agency operating an airport requires a rental car company to collect a facility financing fee from its customers, are not subject to sales, use, or transaction taxes.

(n) (1) A rental company shall only advertise, quote, and charge a rental rate that includes the entire amount except taxes, a customer facility charge, if any, and a mileage charge, if any, that a renter must pay to hire or lease the vehicle for the period of time to which the rental rate applies. A rental company shall not charge in addition to the rental rate, taxes, a customer facility charge, if any, and a mileage charge, if any, any fee that is required to be paid by the renter as a condition of hiring or leasing the vehicle, including, but not limited to, required fuel or airport surcharges other than customer facility charges, nor a fee for transporting the renter to the location where the rented vehicle will be delivered to the renter.

(2) In addition to the rental rate, taxes, customer facility charges, if any, and mileage charges, if any, a rental company may charge for an item or service provided in connection with a particular rental transaction if the renter could have avoided incurring the charge by choosing not to obtain or utilize the optional item or service. Items and services for which the rental company may impose an additional charge include, but are not limited to, optional insurance and accessories requested by the renter, service charges incident to the renter's optional return of the vehicle to a location other than the location where the vehicle was hired or leased,

and charges for refueling the vehicle at the conclusion of the rental transaction in the event the renter did not return the vehicle with as much fuel as was in the fuel tank at the beginning of the rental. A rental company also may impose an additional charge based on reasonable age criteria established by the rental company.

(3) A rental company shall not charge a fee for authorized drivers in addition to the rental charge for an individual renter.

(4) If a rental company states a rental rate in print advertisement or in a telephonic, in-person, or computer-transmitted quotation, the rental company shall disclose clearly in that advertisement or quotation the terms of mileage conditions relating to the advertised or quoted rental rate, including, but not limited to, to the extent applicable, the amount of mileage and gas charges, the number of miles for which no charges will be imposed, and a description of geographic driving limitations within the United States and Canada.

(5) (A) When a rental rate is stated in an advertisement, quotation, or reservation in connection with a car rental at an airport where a customer facility charge is imposed, the rental company shall disclose clearly the existence and amount of the customer facility charge. For purposes of this subparagraph, advertisements include radio, television, other electronic media, and print advertisements. For purposes of this subparagraph, quotations and reservations include those that are telephonic, in-person, and computer-transmitted. If the rate advertisement is intended to include transactions at more than one airport imposing a customer facility charge, a range of fees may be stated in the advertisement. However, all rate advertisements that include car rentals at airport destinations shall clearly and conspicuously include a toll-free telephone number whereby a customer can be told the specific amount of the customer facility charge to which the customer will be obligated.

(B) If a person or entity other than a rental car company, including a passenger carrier or a seller of travel services, advertises or quotes a rate for a car rental at an airport where a customer facility charge is imposed, that person or entity shall, provided that he, she, or it is provided with information about the existence and amount of the fee, to the extent not specifically prohibited by federal law, clearly disclose the existence and amount of the fee in any telephonic, in-person, or computer-transmitted quotation at the time of making an initial quotation of a rental rate and at the time of making a reservation of a rental car. If a rental car company provides the person or entity with rate and customer facility charge information, the rental car company is not responsible for the failure of that person or entity to comply with this subparagraph when quoting or confirming a rate to a third person or entity.

(6) If a rental company delivers a vehicle to a renter at a location other than the location where the rental company normally carries on its business, the rental company shall not charge the renter an amount for the rental for the period before the delivery of the vehicle. If a rental company picks up a rented vehicle from a renter at a location other than the location where the rental company normally carries on its business, the rental company shall not charge the renter an amount for the rental for the period after the renter notifies the rental company to pick up the vehicle.

(o) A rental company shall not use, access, or obtain any information relating to the renter's use of the rental vehicle that was obtained using electronic surveillance technology, except in the following circumstances:

(1) (A) When the equipment is used by the rental company only for the purpose of locating a stolen, abandoned, or missing rental vehicle after one of the following:

(i) The renter or law enforcement has informed the rental company that the vehicle has been stolen, abandoned, or missing.

(ii) The rental vehicle has not been returned following one week after the contracted return date, or by one week following the end of an extension of that return date.

(iii) The rental company discovers the rental vehicle has been stolen or abandoned, and, if stolen, it shall report the vehicle stolen to law enforcement by filing a stolen vehicle report, unless law enforcement has already informed the rental company that the vehicle has been stolen, abandoned, or is missing.

(B) If electronic surveillance technology is activated pursuant to subparagraph (A), a rental company shall maintain a record, in either electronic or written form, of information relevant to the activation of that technology. That information shall include the rental agreement, including the return date, and the date and time the electronic surveillance technology was activated. The record shall also include, if relevant, a record of written or other communication with the renter, including communications regarding extensions of the rental, police reports, or other written communication with law enforcement officials. The record shall be maintained for a period of at least 12 months from the time the record is created and shall be made available upon the renter's request. The rental company shall maintain and furnish explanatory codes necessary to read the record. A rental company shall not be required to maintain a record if electronic surveillance technology is activated to recover a rental vehicle that is stolen or missing at a time other than during a rental period.

(2) In response to a specific request from law enforcement pursuant to a subpoena or search warrant.

(3) This subdivision does not prohibit a rental company from equipping rental vehicles with GPS-based technology that provides navigation assistance to the occupants of the rental vehicle, if the rental company does not use, access, or obtain information relating to the renter's use of the rental vehicle that was obtained using that technology, except for the purposes of discovering or repairing a defect in the technology and the information may then be used only for that purpose.

(4) This subdivision does not prohibit a rental company from equipping rental vehicles with electronic surveillance technology that allows for the remote locking or unlocking of the vehicle at the request of the renter, if the rental company does not use, access, or obtain information relating to the renter's use of the rental vehicle that was obtained using that technology, except as necessary to lock or unlock the vehicle.

(5) This subdivision does not prohibit a rental company from equipping rental vehicles with electronic surveillance technology that allows the company to provide roadside assistance, such as towing, flat tire, or fuel services, at the request of the renter, if the rental company does not use, access, or obtain information relating to the renter's use of the rental vehicle that was obtained using that technology except as necessary to provide the requested roadside assistance.

(6) This subdivision does not prohibit a rental company from obtaining, accessing, or using information from electronic surveillance technology for the sole purpose of determining the date and time the vehicle is returned to the rental company, and the total mileage driven and the vehicle fuel level of the returned vehicle. This paragraph, however, shall apply only after the renter has returned the vehicle to the rental company, and the information shall only be used for the purpose described in this paragraph.

(p) A rental company shall not use electronic surveillance technology to track a renter in order to impose fines or surcharges relating to the renter's use of the rental vehicle.

(q) A renter may bring an action against a rental company for the recovery of damages and appropriate equitable relief for a violation of this section. The prevailing party shall be entitled to recover reasonable attorney's fees and costs.

(r) A rental company that brings an action against a renter for loss due to theft of the vehicle shall bring the action in the county in which the renter resides or, if the renter is not a resident of this state, in the jurisdiction in which the renter resides.

(s) A waiver of any of the provisions of this section shall be void and unenforceable as contrary to public policy.

(t) (1) A rental company's disclosure requirements shall be satisfied for renters who are enrolled in the rental company's membership program if all of the following conditions are met:

(A) Prior to the enrollee's first rental as a participant in the program, the renter receives, in writing, the following:

(i) All of the disclosures required by paragraph (1) of subdivision (g), including the terms and conditions of the rental agreement then in effect.

(ii) An Internet Web site address, as well as a contact number or address, where the enrollee can learn of changes to the rental agreement or to the laws of this state governing rental agreements since the effective date of the rental company's most recent restatement of the rental agreement and distribution of that restatement to its members.

(B) At the commencement of each rental period, the renter is provided, on the rental record or the folder in which it is inserted, with a printed notice stating that he or she had either previously selected or declined an optional damage waiver and that the renter has the right to change preferences.

(C) At the commencement of each rental period, the rental company provides, on the rearview mirror, a hanger on which a statement is printed, in a box, in at least 12-point boldface type, notifying the renter that the collision damage waiver offered by the rental company may be duplicative of coverage that the customer maintains under his or her own policy of motor vehicle insurance. If it is not feasible to hang the statement from the rearview mirror, it shall be hung from the steering wheel.

The hanger shall provide the renter a box to initial if he or she (not his or her employer) has previously accepted or declined the collision damage waiver and that he or she now wishes to change his or her decision to accept or decline the collision damage waiver, as follows:

"□ If I previously accepted the collision damage waiver, I now decline it.

□ If I previously declined the collision damage waiver, I now accept it."

The hanger shall also provide a box for the enrollee to indicate whether this change applies to this rental transaction only or to all future rental transactions. The hanger shall also notify the renter that he or she may make that change, prior to leaving the lot, by returning the form to an employee designated to receive the form who is present at the lot where the renter takes possession of the car, to receive any change in the rental agreement from the renter.

(2) (A) This subdivision is not effective unless the employee designated pursuant to subparagraph (E) of paragraph (8) of subdivision (a) is actually present at the required location.

(B) This subdivision does not relieve the rental company from the disclosures required to be made within the text of a contract or holder in which the contract is placed; in or on an advertisement containing a rental rate; or in a telephonic, in-person, or computer-transmitted quotation or reservation.

(u) The amendments made to this section during the 2001–02 Regular Session of the Legislature do not affect litigation pending on or before January 1, 2003, alleging a violation of Section 22325 of the Business and Professions Code as it read at the time the action was commenced.

## CHAPTER 623

An act to amend Sections 5640, 5641, 5642, 5643, 5644, 5645, 5646, 5647, 5648, 5649, 5650, and 5653 of, to amend the heading of Chapter 3.3 (commencing with Section 5640) of Division 5 of, to add Sections 5643.6 and 5652.5 to, and to repeal Section 5651 of, the Public Resources Code, relating to parks and recreation.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. It is the intent of the Legislature to make available to the Department of Parks and Recreation, upon appropriation, four hundred million dollars ($400,000,000) provided by subdivision (b) of

Section 75065 of the Public Resources Code that shall be used to award competitive grants to critically underserved communities pursuant to the Statewide Park Development and Community Revitalization Act of 2008 (Chapter 3.3 (commencing with Section 5640) of Division 5 of the Public Resources Code).

SEC. 2. The heading of Chapter 3.3 (commencing with Section 5640) of Division 5 of the Public Resources Code is amended to read:

CHAPTER 3.3. THE STATEWIDE PARK DEVELOPMENT AND COMMUNITY REVITALIZATION ACT OF 2008

SEC. 3. Section 5640 of the Public Resources Code is amended to read:

5640. This chapter shall be known, and may be cited, as the Statewide Park Development and Community Revitalization Act of 2008.

SEC. 4. Section 5641 of the Public Resources Code is amended to read:

5641. The Legislature hereby finds and declares as follows:

(a) The program created by this chapter will finance the acquisition and development of parks and recreation areas and facilities in the communities that are currently least served by park and recreation facilities by emphasizing the creation of park space and recreational opportunities and the expansion of park accessibility to underserved communities. These underserved communities are often the same areas that suffer most from high unemployment and destructive or unlawful conduct by youth.

(b) The program established by this chapter will encourage community participation in, and a greater sense of responsibility toward, new parks and recreation areas and facilities, which will help keep them clean and safe and which will enhance community pride and sustain neighborhood vitality.

(c) New parks and facilities will provide safe recreational opportunities for children, positive outlets, and secure sites for youth, while also meeting the special recreational and social needs of senior citizens and other population groups.

(d) California suffers from an acute shortage of parks throughout the state, particularly in poor communities.

(e) It is therefore the intent of the Legislature that the funds made available through the Statewide Park Development and Community Revitalization Act of 2008 be used to award competitive grants statewide to advance certain goals and policies, including, but not limited to, assisting in the acquisition of park space or the development of park and recreation opportunities to critically underserved communities. It is

further the intent of the Legislature that this be accomplished by delivering project funds to neighborhood and regional park projects in areas of highest need, while offering technical assistance to all applicants and potential applicants for grant preparation to encourage full participation in the grant program.

SEC. 5. Section 5642 of the Public Resources Code is amended to read:

5642. As used in this chapter, the following terms shall have the following meanings:

(a) "City" means a city or the City and County of San Francisco.

(7) A regional park district formed pursuant to Article 3 (commencing with Section 5500) of Chapter 3.

(d) "Facilities" includes, but is not limited to, places for organized team sports, outdoor recreation, and informal turf play; nonmotorized recreational trails; permanent play structures; landscaping; community gardens; places for passive recreation, enjoyment of scenic open space, nature appreciation and study, and outdoor education; multipurpose structures designed to meet the special recreational, educational, vocational, and social needs of youth, senior citizens, and other population groups; recreation areas created by the redesign and retrofit of urban freeways; community swimcenters; regional recreational trails; and infrastructure and other improvements that support these facilities.

(e) Notwithstanding subdivision (k) of Section 75005, "nonprofit organization" means any nonprofit entity qualified to do business in California, qualified under Section 501(c)(3) of Title 26 of the United States Code, and that has among its primary purposes the preservation, protection, or enhancement of land or water resources in their natural, scenic, historical, agricultural, forested, or open-space condition or use, or the provision of conservation and environmental education and other recreational, vocational, and educational services to youth.

SEC. 6. Section 5643 of the Public Resources Code is amended to read:

5643. (a) The Department of Parks and Recreation shall establish a local assistance program to distribute grants to the most critically underserved communities across the state, on a competitive basis, to eligible cities, counties, joint powers authorities, districts, and nonprofit organizations for the acquisition or development, or both, of property for parks and recreation areas and facilities.

(b) The Department of Parks and Recreation shall encourage joint partnership projects, if available, between two or more agencies, including, but not limited to, school districts, nonprofit organizations, and local governmental agencies in order to enhance investment of public resources.

(a) The proposed project will create a new park where one currently does not exist, a new recreational facility, or new recreational opportunity.

(b) The applicant demonstrates to the satisfaction of the department that the project is located in a critically underserved community, or in the case of a regional park or trail, the project is within close proximity to one or more critically underserved communities.

(c) The proposed project is designed to provide efficient use of water and other natural resources, which may include, but is not limited to, projects that use climate-appropriate vegetation, reduce stormwater runoff, capture and store stormwater, minimize the use of pesticides and fertilizers, incorporate pervious surfaces into project design, or use construction methods that use recycled materials and minimize construction waste.

(d) The amount of the grant applied for, together with any matching contribution, will meet all the costs of acquiring or developing, or both, the new park or facilities, or new recreational opportunities, and when construction of the project is completed, the new park or facility will be fully usable by the residents of the critically underserved community.

(e) The project applicant or partnering entities will provide for public safety and recreational opportunities following project completion.

(f) Following project completion, the project's weekday and weekend operating hours will accommodate the needs of the community residents. Entrance or membership fees shall not significantly deter use by community residents. Pursuant to receiving these funds, fees cannot be limited to nonresidents of the community in which the park space or recreational opportunity is located.

SEC. 10. Section 5646 of the Public Resources Code is amended to read:

5646. In evaluating applications for grants that meet the requirements of Section 5645, the department shall assign higher priority to applications, for each of the following criteria satisfied:

(a) The project will acquire new parks, develop new parks, expand overused parks, or create a new recreational opportunity in a community that has demonstrated insufficient or no park space and recreation facilities. In evaluating the deficiency level of park and recreation facilities in a critically underserved community, the department shall consider the number of acres of usable parkland per 1,000 residents.

(b) The critically underserved community has a significant percent of persons living at or below the poverty level.

(c) The project will enhance workforce development and employment opportunities, utilize members of the California Conservation Corps or certified local conservation corps, if available, or accommodate outdoor learning opportunities for school pupils or at-risk youth in the service area.

(d) The project applicant has actively involved the public and community-based groups in the selection and planning of the project.

SEC. 11. Section 5647 of the Public Resources Code is amended to read:

5647. (a) The department shall adopt guidelines to amplify or clarify the criteria specified in this chapter, and may adopt additional criteria, to supplement those criteria, but the scope of the additional criteria shall be limited to providing additional guidance in selecting projects in areas that have the greatest deficiencies in parks and facilities.

(b) The department shall develop a procedural guide for the administration of this chapter and the guidance of applicants.

(c) The department shall solicit written comments and hold public hearings at convenient locations throughout the state on any guideline or procedural guide that is proposed to be adopted or developed pursuant to this section.

(d) The department shall offer technical assistance to all applicants and potential applicants for grant preparation in order to encourage full participation in the grant program.

(e) The department shall allow grantees to spend no more than 25 percent of the grant amount for project planning, design, compliance with the California Environmental Quality Act (Division 13 (commencing with Section 21000)), and other incidental, but directly related, construction or acquisition costs.

(f) The department shall adopt the guidelines or develop the procedural guide on or before April 1, 2009.

(g) Any regulation or procedural guide adopted or developed pursuant to this section shall not be subject to the review or approval of the Office of Administrative Law or to any other requirement of Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code.

SEC. 12. Section 5648 of the Public Resources Code is amended to read:

5648. (a) The local assistance program created by this chapter is intended to include grants for the acquisition or development, or both, of parcels of property of any size that will serve residents of a critically underserved community and otherwise meet the requirements of this chapter. The department shall not assign an application a lower priority

on the basis that the application proposes the acquisition of a city lot or other small parcel.

(b) A grant may be expended to acquire the fee title, a leasehold, or other interest in real property. If an application proposes to acquire less than fee title, the applicant shall demonstrate in the application, to the satisfaction of the department, that the proposed project will provide public benefits that are commensurate with the type and duration of the interest in real property to be acquired.

SEC. 13. Section 5649 of the Public Resources Code is amended to read:

5649. (a) An eligible nonprofit organization may apply for a grant on its own behalf or on behalf of an eligible city, county, or district pursuant to a contract with that city, county, or district to acquire and develop the park or recreation area. The application may include a copy of the contract and the resolution or other authorization for the contract. The contract shall specify arrangements for the long-term management and operation of the park or recreation area.

(b) An eligible applicant may apply for a grant to develop state-owned parklands if the applicant manages those lands under a contract with the state without state reimbursement for management costs.

SEC. 14. Section 5650 of the Public Resources Code is amended to read:

5650. (a) Every applicant for a grant pursuant to this chapter and the entity that will operate and maintain the property, if that entity is different than the applicant, shall agree to comply with all of the following requirements:

(1) To operate and maintain the property developed pursuant to this chapter so that it is usable by residents of the targeted critically underserved community. With the approval of the department, the grant recipient, or its successor in interest in the property, may transfer its property interest and the responsibility to operate and maintain the property, in accordance with the terms of the grant and any applicable law, to a public agency or nonprofit organization that is able to operate and maintain the property in perpetuity. Any attempt to make a transfer in violation of this subdivision is void.

(2) To use the property only for the purposes for which the grant was made and to make no other use or sale or other disposition of the property, except as authorized by specific act of the Legislature. If the use of the property is changed to a use that is not permitted by the terms of the grant, or if the property is sold or otherwise disposed of, the grant recipient shall reimburse the state an amount equal to the amount of the grant, the fair market value of the land and any improvements constructed with the grant, or the proceeds from the sale or other disposition,

whichever amount is greatest. If the property that is sold or otherwise disposed of is less than the entire interest in the property funded with the grant, the grant recipient shall reimburse the state an amount equal to either the proceeds from the sale or other disposition of the interest or the fair market value of the interest sold or otherwise disposed of, whichever amount is greater.

(b) In lieu of seeking reimbursement pursuant to paragraph (2) of subdivision (a), the department may impose restrictions on the use of public park property identical to the requirements for the preservation of public parks set forth in the Public Park Preservation Act of 1971 (Chapter 2.5 (commencing with Section 5400)) with respect to any property used, sold, or otherwise disposed of in a manner not permitted by the terms of the grant.

SEC. 15. Section 5651 of the Public Resources Code is repealed.

SEC. 16. Section 5652.5 is added to the Public Resources Code, to read:

5653. Five business days after awarding a grant pursuant to this chapter, the department shall make information available on the department's Internet Web site regarding the status of the grant and other relevant information, including, but not limited to, a geographic breakdown of awarded grants and the overall amount applied for by all grant applicants, the total amount applied for by awarded grant applicants, each award amount, and a brief description of the funded projects.

## CHAPTER 624

An act to add Section 25205 to the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) Many alcoholic beverages currently available in California are packaged and labeled in a manner that is similar to packaging and labels

used for nonalcoholic beverages and products like energy drinks, colas, sodas, fruit drinks, and gelatins.

(b) This packaging and labeling practice has the potential for confusing underage youth, parents, teachers, law enforcement personnel, retail employers that sell alcoholic beverages, and other members of the public regarding the alcoholic content of these beverages.

(c) Ensuring that underage youth, parents, teachers, law enforcement personnel, retail employees that sell alcoholic beverages, and other members of the public are able to readily discern the fact that a particular product contains alcohol and the amount of alcohol the beverage contains is a high priority for California. California currently regulates information, including information regarding the contents of the container, located on containers of alcoholic beverages sold within the state.

(d) The purpose of Section 25205 of the Business and Professions Code is to provide additional consumer information regarding the alcohol content on the container of specified alcoholic beverages as a means to reduce potential consumer confusion and is not intended to provide health information or a warning.

SEC. 2. Section 25205 is added to the Business and Professions Code, to read:

25205. (a) Any container of beer or alcoholic beverage, other than sake, that is approved for labeling as a malt beverage under the Federal Alcohol Administration Act (27 U.S.C. Sec. 201 et seq.), that derives 0.5 percent or more of its alcoholic content by volume from flavors or other ingredients containing distilled alcohol and that is sold by a manufacturer or importer to a wholesaler or retailer within this state on or after July 1, 2009, shall bear a distinctive, conspicuous, and prominently displayed label, or firmly affixed sticker, containing the following information:

(1) The percentage alcohol content of the beverage by volume.

(2) The phrase "CONTAINS ALCOHOL" in bold capitalized letters at least three millimeters in height and that is distinguishable from the background and placed conspicuously in either horizontal or vertical lettering on the front of the brand label. A firmly affixed sticker need not be placed on the brand label provided it is placed on the front of the container.

(b) The department may require licensees to submit information as it determines to be necessary, and may adopt regulations as may be required, to implement and enforce this section. The regulations shall be for the limited purpose of ensuring compliance with this section and shall not place additional requirements on the label or sticker required by this section. Any information required to be provided by any licensee

to the department pursuant to this section shall be considered confidential and corporate proprietary information. This information shall not be subject to disclosure under the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code).

(c) It is the exclusive purpose of this section to identify and specially label products described in subdivision (a) and not to classify these specially labeled products. Nothing in this section shall be construed to permit the classification of any product in a manner that is inconsistent with the definitions of beer, wine, and distilled spirits set forth in Chapter 1 (commencing with Section 23000) of this division.

SEC. 3. The Legislature finds and declares that Section 2 of this act, which adds Section 25205 to the Business and Professions Code, imposes a limitation on the public's rights of access to the writings of public officials and agencies within the meaning of Section 3 of Article I of the California Constitution. Pursuant to that constitutional provision, the Legislature makes the following findings to demonstrate the interest protected by this limitation and the need for protecting that interest:

In order to facilitate manufacturer and importer participation in the labeling program, it is necessary to protect the confidentiality of trade secrets.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

## CHAPTER 625

An act to amend Section 18901.5 of, and to add Section 18900.1 to, the Welfare and Institutions Code, relating to food stamps.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 18900.1 is added to the Welfare and Institutions Code, to read:

18900.1. (a) The State Department of Social Services shall propose a new name for the Food Stamp Program in California, by July 1, 2009. The department shall convene stakeholders to develop the new name, as provided in subdivision (b). The new name shall reflect one or more of the following concepts:

(1) That food stamps are no longer delivered by stamps.

(2) That food stamps support healthy living.

(3) That food stamps are important to agriculture in California.

(4) That food stamps would be better viewed as a health and nutrition program than as a welfare program.

(b) The department shall convene a diverse group of stakeholders to develop the new name, including representatives from agencies working to improve health and reduce diet-related illnesses.

(c) The department is encouraged to test the impact the new name would have on improving the perception of the program among low-income residents, and on increasing program participation.

SEC. 2. Section 18901.5 of the Welfare and Institutions Code is amended to read:

18901.5. (a) The department shall establish a program of categorical eligibility for food stamps in accordance with Section 5(a) of the federal Food Stamp Act of 1977 (7 U.S.C. Sec. 2014(a)), and implementing regulations, to improve nutrition and promote the retention and development of assets and resources for needy households who meet all other Food Stamp Program eligibility requirements. Categorical eligibility for food stamps shall also apply to any individual who is a member of a household that will be receiving or is eligible to receive cash assistance under Part 5 (commencing with Section 17000), or eligible to receive food assistance under Chapter 10.1 (commencing with Section 18930).

(b) The director shall implement the program established pursuant to this section only with the appropriate federal authorization and if implementation would not result in the loss of federal financial participation.

(c) Notwithstanding the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code) and Section 10554 of the Welfare and Institutions Code, until emergency regulations are filed with the Secretary of State, the State Department of Social Services may implement the changes made by subdivision (a) through all-county letters or similar instructions from the director. The department shall adopt emergency regulations as necessary to implement those amendments on or before January 1, 2010. The program established pursuant to this section shall be established on or before July 1, 2009,

and shall be fully implemented as to new applicants for food stamps on or before January 1, 2010.

(d) The department shall adopt regulations to implement this section. The adoption, amendment, repeal, or readoption of a regulation authorized by this section is deemed to address an emergency, for purposes of Sections 11346.1 and 11349.6 of the Government Code, and the department is hereby exempted for this purpose from the requirements of subdivision (b) of Section 11346.1 of the Government Code. The emergency regulations shall be exempt from review by the Office of Administrative Law. The department shall adopt final regulations implementing the program authorized by this section on or before July 1, 2010.

SEC. 3. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

---

## CHAPTER 626

(1) The person injured was 16 years of age or younger.

(2) The dangerous condition created a substantial and unreasonable risk of death or serious bodily harm to children 16 years of age or younger using the property or adjacent property with due care in a manner in which it was reasonably foreseeable that it would be used.

(3) The person injured did not discover the condition or did not appreciate its dangerous character because of his or her immaturity.

(4) The public entity or public employee had actual knowledge of the condition and knew or should have known of its dangerous character a sufficient time prior to the injury to have taken measures to protect against the condition.

(g) Subdivisions (c) and (f) shall become inoperative on and after January 1, 2013.

SEC. 2. Section 831.9 is added to the Government Code, to read:

831.9. (a) The County of Los Angeles Department of Public Works shall maintain a record of all known or reported injuries incurred by the public in the unlined flood control channels or adjacent groundwater recharge spreading grounds during the activities of groundwater recharge. The County of Los Angeles Department of Public Works shall also maintain a record of all claims, paid and not paid, including any civil actions or proceedings and their results, arising from those incidents, that were filed against the county. Copies of these records shall be filed annually, no later than January 1 of each year, with the Judicial Council, which shall then submit a report to the Legislature on or before January 31, 2012, on the incidences of injuries incurred, claims asserted, and the results of any civil action or proceeding filed by persons injured at these facilities.

(b) This section shall remain in effect only until January 1, 2013, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district are the result of a program for which legislative authority was requested by that local agency or school district, within the meaning of Section 17556 of the Government Code and Section 6 of Article XIII B of the California Constitution.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of

Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Prior legislation, partially immunizing Los Angeles County from liability for the use of its flood control system to transport and conserve water by recharging underground aquifers, has expired. Over 1,000,000 residents of Los Angeles County benefited from the transport of more than 2,500,000 acre-feet of groundwater during the effective period of the expired legislation. It is therefore necessary for the health and safety of Los Angeles County residents that this act go into immediate effect.

(q) In addition to the prescribed fee imposed upon a licensed caterer to conduct an event authorized by this section, the department may also impose a fee upon a licensee authorized by this section to provide, free of charge, entertainment, food, and beverages at an authorized event. The fee shall be representative of the cost of administering and enforcing the provisions of this section, but shall not exceed two hundred dollars ($200) per event.

(r) The Legislature finds and declares both of the following:

(1) That it is necessary and proper to require a separation between manufacturing interests, wholesale interests, and retail interests in the production and distribution of alcoholic beverages in order to prevent suppliers from dominating local markets through vertical integration and to prevent excessive sales of alcoholic beverages produced by overly aggressive marketing techniques.

(2) Any exception established by the Legislature to the general prohibition against tied interests must be limited to the express terms of the exception so as to not undermine the general prohibitions.

(s) This section shall remain in effect until January 1, 2014, and as of that date is repealed, unless a later enacted statute that is enacted before January 1, 2014, deletes or extends that date.

SEC. 2. ## CHAPTER 641

An act to add Chapter 8 (commencing with Section 50700) to Part 2 of Division 31 of the Health and Safety Code, relating to housing, and making an appropriation therefor.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 8 (commencing with Section 50700) is added to Part 2 of Division 31 of the Health and Safety Code, to read:

### CHAPTER 8. HOUSING-RELATED PARKS PROGRAM

50700. For the purposes of this chapter, the following terms have the following meanings, unless the context clearly requires otherwise:

(a) "Designated time period" means the time period designated in the Notice of Funding Availability required under subdivision (b) of Section 50702.

(b) "Disadvantaged community," for the purposes of this program, means an area within a city, county, or city and county that is composed solely of those census tracts designated by the United States Department of Housing and Urban Development as having at least 51 percent of its

residents of low- or moderate-income levels, using the most recent United States Department of Census data available at the time of the Notice of Funding Availability.

(c) "Housing start" means documentation of a completed foundation inspection issued during the designated time period.

(d) "Infill project" means a residential or mixed-use residential project located within an urbanized area on a site that has been previously developed, or on a vacant site where at least 75 percent of the perimeter of the site adjoins parcels that are developed with urban uses. For these purposes, a property is adjoining the side of a project site if the property is separated from the project site only by an improved public right-of-way.

(e) "Park and recreation facility" means a facility that provides benefits to the community and includes, but is not limited to, places for organized team sports, outdoor recreation, and informal turf play; nonmotorized recreational trails; permanent play structures; landscaping; community gardens; places for passive recreation; multipurpose structures designed to meet the special recreational, educational, vocational, and social needs of youth, senior citizens, and other population groups; recreation areas created by the redesign and retrofit of urban freeways; community swim centers; regional recreational trails; and infrastructure and other improvements that support these facilities.

(f) "Parks deficient community" means a community that has less than three acres of usable parkland per 1000 residents.

(g) "Regional blueprint plan" means a regional plan that implements statutory requirements intended to foster comprehensive planning, as defined in Section 65041.1 of, Chapter 2.5 (commencing with Section 65080) of Division 1 of Title 7 of, and Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of, the Government Code. The regional blueprint plan articulates regional consensus and performance outcomes on a more efficient land use pattern that supports improved mobility and reduces dependency on single-occupant vehicle trips; accommodates an adequate supply of housing for all income levels; reduces impacts on valuable farmland, natural resources, and air quality; includes the reduction of greenhouse gas emissions; increases water and energy conservation and efficiency; and promotes a prosperous economy and safe, healthy, sustainable, and vibrant neighborhoods.

(h) "Urbanized area" means an incorporated city or an urbanized area or urban cluster as defined by the United States Census Bureau. For unincorporated areas outside of an urban area or urban cluster, the area shall be within a designated urban service area that is designated in the local general plan for urban development and is served by public sewer and water.

(i) "Urban use" means any residential, commercial, industrial, public institutional, transit, transportation passenger facility, or retail use, or any combination of those uses.

50701. There is hereby established in state government the Housing-Related Parks Program, to be administered by the department, using funds allocated, upon appropriation, under subdivision (d) of Section 53545, for the purpose of providing grants for the creation, development, or rehabilitation of park and recreation facilities to cities, counties, and cities and counties for housing starts for newly constructed units that are affordable to very low or low-income households.

50702. (a) To the extent that funds are available for this purpose, the department shall determine a base grant amount to be provided under this chapter to any city, county, or city and county that meets all of the following criteria:

(1) On or before the end of the period covered by the Notice of Funding Availability required under subdivision (b), the jurisdiction has adopted a housing element that the department, pursuant to Section 65585 of the Government Code, has found to be in substantial compliance with the requirements of Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code, and the jurisdiction has submitted to the department the annual progress report required under Section 65400 of the Government Code within the preceding 12 months.

(2) The jurisdiction can document housing starts for newly constructed units that are affordable to very low or low-income households within the designated time period and that meet either of the following criteria:

(A) In the case of rental units, the development is subject to a regulatory agreement recorded against the property that obligates the owner to maintain rents on the restricted units at levels affordable to very low or low-income households for at least 55 years.

(B) In the case of ownership housing, units in the development are initially sold to households of very low or low income at an affordable housing cost. If public funds are used to achieve an affordable housing cost, then upon the sale of an assisted unit to a very low or low-income household, the public entity shall ensure the repayment of the public funds and reuse of those funds for affordable housing for a period of at least 20 years. The proposed mechanism for restrictions of ownership units shall be consistent with criteria established by the department and specified in the Notice of Funding Availability.

(b) For each year that funds are available, the department shall issue a Notice of Funding Availability for housing starts issued during the designated time period. The department shall accept applications at the close of the designated period. Grant amounts shall be based on a

per-bedroom incentive for each unit restricted for very low and low-income households. For the purposes of this section, single-room occupancies and studio apartments shall be considered one-bedroom units.

(c) If eligibility for funds exceeds the amount of funding available for the program, the department shall reduce all grants proportionally. Funds awarded shall be disbursed upon documentation of a certificate of occupancy, final inspection, or other comparable local approval.

50703. (a) The department shall award bonus funds in addition to the base grant award for applicants that meet the requirements under Section 50702. The department shall determine the amount of the bonus funds to be awarded pursuant to this chapter.

(b) The amount of the bonus funds to be awarded shall be established in the Notice of Funding Availability.

(c) Bonus funds shall be awarded for any of the following:

(1) Qualifying units that are affordable to extremely low income households.

(2) Qualifying units that are affordable to very low and low-income households and are developed in infill projects.

(3) Jurisdictions that have met or exceeded housing production thresholds established by the department, in consultation with the Department of Finance.

(4) Jurisdictions that demonstrate that grant funds will be spent to improve a park or community recreational facility that will serve a disadvantaged community, as defined in subdivision (a) of Section 50700.

(5) Jurisdictions that demonstrate that grant funds will be spent to create a new park or community recreational facility that will serve a disadvantaged community, as defined in subdivision (a) of Section 50700.

(6) Jurisdictions that meet the definition of a park deficient community, as defined in subdivision (b) of Section 50700.

(7) Those jurisdictions that can demonstrate that grant funds will be spent to create or improve a park or community recreational facility to support infill development, or development within a jurisdiction that has conformed its general plan to the regional blueprint, as determined by the council of governments.

50704. (a) (1) Except as authorized under paragraph (2), a city, county, or city and county shall not receive a grant unless it qualifies, based on housing starts issued during the period designated in the Notice of Funding Availability, for a grant in an amount of seventy-five thousand dollars ($75,000) or more.

(2) If a city, county, or city and county is not able to meet the minimum qualification amount under paragraph (1), it may delay application, combine the number of housing starts issued during the

designated period described in paragraph (1) with the number of housing starts issued during one or more subsequent Notice of Funding Availability periods, and apply once it is able to meet the minimum qualification amount by using the combined amount of housing starts issued.

(b) Grants provided pursuant to this chapter shall be used for the costs of park and recreation facility creation, development, or rehabilitation, including, but not limited to, the acquisition of land for the purposes of those activities, consistent with the requirements set forth in Section 16727 of the Government Code.

(c) Funds awarded pursuant to this chapter shall supplement, not supplant, other available funding.

(d) A city, county, or city and county that receives funds under this chapter may subcontract through a recreation and park district formed under Chapter 4 (commencing with Section 5780) of Division 5 of the Public Resources Code, or a district formed pursuant to Section 5500 or 35100 of the Public Resources Code, for the creation or improvement of a park or recreational facility, or any nonprofit organization described in Section 501(c)(3) of the Internal Revenue Code (26 U.S.C. Sec. 501(c)(3)), that is exempt from taxation under Section 501(a) of that code (26 U.S.C. Sec. 501(a)), and that has among its purposes the conservation of natural or cultural resources.

50704.5. The department shall adopt guidelines for the operation of the program. The guidelines shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code.

SEC. 2. The sum of four hundred fifty-nine thousand dollars ($459,000) is hereby appropriated from the Housing Urban-Suburban-and-Rural Parks Account in the Housing and Emergency Shelter Trust Fund of 2006 to the Department of Housing and Community Development to fund the startup administrative costs of the Housing-Related Parks Program established under this act.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 25299.50.3 is added to the Health and Safety Code, to read:

25299.50.3. (a) For purposes of this section, "school district" means a school district as defined in Section 80 of the Education Code, or a county office of education.

(b) The School District Account is hereby created in the Underground Storage Tank Cleanup Fund, for expenditure by the board to pay a claim filed by a district that is a school district and has a priority based on paragraph (4) of subdivision (b) of Section 25299.52. Notwithstanding Section 25299.52, in the 2009–10, 2010–11, and 2011–12 fiscal years, the board shall pay a claim filed by a district that is a school district and has a priority based on paragraph (4) of subdivision (b) of Section 25299.52 only from funds appropriated from the School District Account.

(c) (1) The sum of ten million dollars ($10,000,000) per year shall be transferred, in the 2009–10, 2010–11, and 2011–12 fiscal years, from the Underground Storage Tank Cleanup Fund to the School District Account, for expenditure upon appropriation by the Legislature for the payment of claims filed by a district that is a school district with a priority based on paragraph (4) of subdivision (b) of Section 25299.52.

(2) The board shall consult with the Department of Toxic Substances Control in allocating the funds transferred to the School District Account.

(3) The board shall pay claims from the School District Account in the order of the date of the filing of the claim application to the Underground Storage Tank Cleanup Fund.

(d) Funds in the School District Account that are not expended in the 2009–10 or 2010–11 fiscal years shall remain in the School District Account. Unencumbered funds remaining in the School District Account on July 1, 2012, shall be transferred to the Underground Storage Tank Cleanup Fund. Encumbered funds remaining in the School District Account on July 1, 2012, shall remain in the School District Account. Those encumbered funds remaining in the School District Account on July 1, 2012, shall be liquidated on or before June 30, 2014.

(e) The board shall include information on the expenditure of the funds transferred to the School District Account, as well as the amount of all claims filed by districts that are school districts and the amount of reimbursements made to districts that are school districts from the Underground Storage Tank Cleanup Fund, in its annual report, and shall, in consultation with the Department of Toxic Substances Control, estimate the amount of funds needed to reimburse anticipated future claims by districts that are school districts. The board shall provide a copy of this report to the State Allocation Board and the State Department of Education.

(f) This section does not affect the priority of a district that is a school district and has a priority based on paragraph (2) or (3) of subdivision (b) of Section 25299.52.

(g) This section shall remain in effect only until July 1, 2014, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 2014, deletes or extends that date.

SEC. 2. Section 25299.50.4 is added to the Health and Safety Code, to read:

25299.50.4. (a) It is the intent of the Legislature that the board and the Department of Toxic Substances Control, using information gathered and reported pursuant to subdivision (e) of Section 25299.50.3, propose changes to Section 25299.50.3 that may be necessary to ensure that adequate funds are available to reimburse anticipated future claims by districts that are school districts and have a priority based on paragraph (4) of subdivision (b) of Section 25299.52.

(b) This section shall remain in effect only until July 1, 2014, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 2014, deletes or extends that date.

SEC. 3. Section 25299.50.5 is added to the Health and Safety Code, to read:

25299.50.5. Upon the repeal of Section 25299.50.3, all moneys in the School District Account and all moneys due that account shall revert

to, and accrue to the benefit of, the Underground Storage Tank Cleanup Fund in the State Treasury.

SEC. 4. Section 25356.1 of the Health and Safety Code is amended to read:

25356.1. (a) For purposes of this section, "regional board" means a California regional water quality control board and "state board" means the State Water Resources Control Board.

(b) Except as provided in subdivision (h), the department, or, if appropriate, the regional board shall prepare or approve remedial action plans for the sites listed pursuant to Section 25356.

(c) A potentially responsible party may request the department or the regional board, when appropriate, to prepare or approve a remedial action plan for a site not listed pursuant to Section 25356, if the department or the regional board determines that a removal or remedial action is required to respond to a release of a hazardous substance. The department or the regional board shall respond to a request to prepare or approve a remedial action plan within 90 days of receipt. This subdivision does not affect the authority of a regional board to issue and enforce a cleanup and abatement order pursuant to Section 13304 of the Water Code or a cease and desist order pursuant to Section 13301 of the Water Code.

(d) All remedial action plans prepared or approved pursuant to this section shall be based upon Section 25350, Subpart E of the National Oil and Hazardous Substances Pollution Contingency Plan (40 C.F.R. 300.400 et seq.), and any amendments thereto, and upon all of the following factors, to the extent that these factors are consistent with these federal regulations and do not require a less stringent level of cleanup than these federal regulations:

(1) Health and safety risks posed by the conditions at the site. When considering these risks, the department or the regional board shall consider scientific data and reports which may have a relationship to the site.

(2) The effect of contamination or pollution levels upon present, future, and probable beneficial uses of contaminated, polluted, or threatened resources.

(3) The effect of alternative remedial action measures on the reasonable availability of groundwater resources for present, future, and probable beneficial uses. The department or the regional board shall consider the extent to which remedial action measures are available that use, as a principal element, treatment that significantly reduces the volume, toxicity, or mobility of the hazardous substances, as opposed to remedial actions that do not use this treatment. The department or the regional board shall not select remedial action measures that use offsite transport and disposal of untreated hazardous substances or contaminated

materials if practical and cost-effective treatment technologies are available.

(4) Site-specific characteristics, including the potential for offsite migration of hazardous substances, the surface or subsurface soil, and the hydrogeologic conditions, as well as preexisting background contamination levels.

(5) Cost-effectiveness of alternative remedial action measures. In evaluating the cost-effectiveness of proposed alternative remedial action measures, the department or the regional board shall consider, to the extent possible, the total short-term and long-term costs of these actions and shall use, as a major factor, whether the deferral of a remedial action will result, or is likely to result, in a rapid increase in cost or in the hazard to public health or the environment posed by the site. Land disposal shall not be deemed the most cost-effective measure merely on the basis of lower short-term cost.

(6) The potential environmental impacts of alternative remedial action measures, including, but not limited to, land disposal of the untreated hazardous substances as opposed to treatment of the hazardous substances to remove or reduce its volume, toxicity, or mobility prior to disposal.

(e) A remedial action plan prepared pursuant to this section shall include the basis for the remedial action selected and shall include an evaluation of each alternative considered and rejected by the department or the regional board for a particular site. The plan shall include an explanation for rejection of alternative remedial actions considered but rejected. The plan shall also include an evaluation of the consistency of the selected remedial action with the requirements of the federal regulations and the factors specified in subdivision (d), if those factors are not otherwise adequately addressed through compliance with the federal regulations. The remedial action plan shall also include a nonbinding preliminary allocation of responsibility among all identifiable potentially responsible parties at a particular site, including those parties which may have been released, or may otherwise be immune, from liability pursuant to this chapter or any other provision of law. Before adopting a final remedial action plan, the department or the regional board shall prepare or approve a draft remedial action plan and shall do all of the following:

(1) Circulate the draft plan for at least 30 days for public comment.

(2) Notify affected local and state agencies of the removal and remedial actions proposed in the remedial action plan and publish a notice in a newspaper of general circulation in the area affected by the draft remedial action plan. The department or the regional board shall also post notices in the location where the proposed removal or remedial action would be located and shall notify, by direct mailing, the owners

of property contiguous to the site addressed by the plan, as shown in the latest equalized assessment roll.

(3) Hold one or more meetings with the lead and responsible agencies for the removal and remedial actions, the potentially responsible parties for the removal and remedial actions, and the interested public, to provide the public with the information that is necessary to address the issues that concern the public. The information to be provided shall include an assessment of the degree of contamination, the characteristics of the hazardous substances, an estimate of the time required to carry out the removal and remedial actions, and a description of the proposed removal and remedial actions.

(4) Comply with Section 25358.7.

(f) After complying with subdivision (e), the department or the regional board shall review and consider any public comments, and shall revise the draft plan, if appropriate. The department or the regional board shall then issue the final remedial action plan.

(g) (1) A potentially responsible party named in the final remedial action plan issued by the department or the regional board may seek judicial review of the final remedial action plan by filing a petition for writ of mandate pursuant to Section 1085 of the Code of Civil Procedure within 30 days after the final remedial action plan is issued by the department or the regional board. Any other person who has the right to seek judicial review of the final remedial action plan by filing a petition for writ of mandate pursuant to Section 1085 of the Code of Civil Procedure shall do so within one year after the final remedial action plan is issued. No action may be brought by a potentially responsible party to review the final remedial action plan if the petition for writ of mandate is not filed within 30 days of the date that the final remedial action plan was issued. No action may be brought by any other person to review the final remedial action plan if the petition for writ of mandate is not filed within one year of the date that the final remedial action plan was issued. The filing of a petition for writ of mandate to review the final remedial action plan shall not stay any removal or remedial action specified in the final plan.

(2) For purposes of judicial review, the court shall uphold the final remedial action plan if the plan is based upon substantial evidence available to the department or the regional board, as the case may be.

(3) This subdivision does not prohibit the court from granting any appropriate relief within its jurisdiction, including, but not limited to, enjoining the expenditure of funds pursuant to paragraph (2) of subdivision (b) of Section 25385.6.

(h) (1) This section does not require the department or a regional board to prepare a remedial action plan if conditions present at a site

present an imminent or substantial endangerment to the public health and safety or to the environment or, if the department, a regional board, or a responsible party takes a removal action at a site and the estimated cost of the removal action is less than two million dollars ($2,000,000). The department or a regional board shall prepare or approve a removal action work plan for all sites where a nonemergency removal action is proposed and where a remedial action plan is not required. For sites where removal actions are planned and are projected to cost less than two million dollars ($2,000,000), the department or a regional board shall make the local community aware of the hazardous substance release site and shall prepare, or direct the parties responsible for the removal action to prepare, a community profile report to determine the level of public interest in the removal action. Based on the level of expressed interest, the department or regional board shall take appropriate action to keep the community informed of project activity and to provide opportunities for public comment which may include conducting a public meeting on proposed removal actions.

(2) A remedial action plan is not required pursuant to subdivision (b) if the site is listed on the National Priority List by the Environmental Protection Agency pursuant to the federal act, if the department or the regional board concurs with the remedy selected by the Environmental Protection Agency's record of decision. The department or the regional board may sign the record of decision issued by the Environmental Protection Agency if the department or the regional board concurs with the remedy selected.

(3) The department may waive the requirement that a remedial action plan meet the requirements specified in subdivision (d) if all of the following apply:

(A) The responsible party adequately characterizes the hazardous substance conditions at a site listed pursuant to Section 25356.

(B) The responsible party submits to the department, in a form acceptable to the department, all of the following:

(i) A description of the techniques and methods to be employed in excavating, storing, handling, transporting, treating, and disposing of materials from the site.

(ii) A listing of the alternative remedial measures which were considered by the responsible party in selecting the proposed removal action.

(iii) A description of methods that will be employed during the removal action to ensure the health and safety of workers and the public during the removal action.

(iv) A description of prior removal actions with similar hazardous substances and with similar public safety and environmental considerations.

(C) The department determines that the remedial action plan provides protection of human health and safety and for the environment at least equivalent to that which would be provided by a remedial action plan prepared in accordance with subdivision (c).

(D) The total cost of the removal action is less than two million dollars ($2,000,000).

(4) For purposes of this section, the cost of a removal action includes the cleanup of removal of released hazardous substances from the environment or the taking of other actions that are necessary to prevent, minimize, or mitigate damage that may otherwise result from a release or threatened release, as further defined by Section 9601 (23) of Title 42 of the United States Code.

(5) Paragraph (2) of this subdivision does not apply to a removal action paid from the state account.

(i) Article 2 (commencing with Section 13320), Article 3 (commencing with Section 13330), Article 5 (commencing with Section 13350), and Article 6 (commencing with Section 13360) of Chapter 5 of Division 7 of the Water Code apply to an action or failure to act by a regional board pursuant to this section.

## CHAPTER 645

An act to amend Sections 18705, 18707, 18708, and 18709 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 18705 of the Revenue and Taxation Code is amended to read:

18705. (a) Any taxpayer may designate on the tax return that a contribution in excess of the tax liability, if any, be made to the California Military Family Relief Fund, established by Section 18706. That designation is to be used as a voluntary checkoff on the tax return.

(b) The contributions shall be in full dollar amounts and may be made individually by each signatory on the joint return.

(c) A designation shall be made for any taxable year on the initial return for that taxable year, and once made shall be irrevocable. In the event that payments and credits reported on the return, together with any other credits associated with the taxpayer's account, do not exceed the taxpayer's liability, the return shall be treated as though no designation has been made. In the event that no designee is specified, the contribution shall be transferred to the General Fund, after reimbursement of the direct actual costs of the Franchise Tax Board for the collection and administration of funds under this article.

(d) In the event a taxpayer designates a contribution to more than one account or fund listed on the tax return, and the amount available for designation is insufficient to satisfy the total amount designated, the contribution shall be allocated among the designees on a pro rata basis.

(e) The Franchise Tax Board shall revise the forms of the return to include a space labeled the "California Military Family Relief Fund" to allow for the designation permitted.

(1) The forms shall include in the instructions information that the contribution may be in the amount of one dollar ($1) or more and that the contribution shall be used to provide financial aid grants to reserve members of the Armed Forces of the United States who are California residents, who have been called to active duty.

(2) The forms shall also include in the instructions information that additional contributions may be made at any time to the California Military Family Relief Fund, from sources other than the tax form.

(f) Notwithstanding any other provision of law, a voluntary contribution designation for the California Military Family Relief Fund may not be added to the tax return until another voluntary contribution designation is removed.

(g) A deduction shall be allowed under Article 6 (commencing with Section 17201) of Chapter 3 for any contribution made pursuant to subdivision (a).

SEC. 2. Section 18707 of the Revenue and Taxation Code is amended to read:

18707. All moneys transferred to the California Military Family Relief Fund, upon appropriation by the Legislature, shall be allocated as follows:

(a) To the Franchise Tax Board and the Controller for reimbursement of all costs incurred by the Franchise Tax Board and the Controller in connection with their duties under this article.

(b) (1) (A) To the Military Department for the establishment of financial aid grants to reserve members of the Armed Forces of the United States who are California residents, who have been called to active duty. Moneys transferred to the California Military Family Relief

Fund before January 1, 2009, shall be reserved for the California National Guard. Grants to the members of the California National Guard shall first be distributed from moneys transferred to the California Military Family Relief Fund before January 1, 2009, and only after these moneys are exhausted shall these grants be awarded from moneys transferred to the California Military Family Relief Fund on and after January 1, 2009. The Military Department shall establish eligibility criteria for the grants.

(B) On or after January 1, 2009, the California National Guard may make moneys transferred to the California Military Family Relief Fund before January 1, 2009, up to one hundred thousand dollars ($100,000), available for distribution to qualified members of the reserve component, excluding members of the California National Guard, until adequate moneys are available to ensure that all approved grants are funded. These distributed moneys shall be repaid to the California National Guard with moneys transferred to the California Military Family Relief Fund on and after January 1, 2009.

(2) It is the intent of the Legislature that every qualified reserve member, regardless of branch, in need of emergency assistance be able to receive a grant. In order to ensure that the grants awarded pursuant to this article are administered objectively, the awarding of grants from the California Military Family Relief Fund shall be governed by a Memorandum of Agreement, developed by a working group comprised of representatives from at least three reserve components that describe the procedures and requirements for participation in the grant program. All organizations participating in the grant program must be signatories of the Memorandum of Agreement.

(3) In addition to criteria established by the Military Department pursuant to paragraph (1), reserve members of the Armed Forces of the United States who are California residents shall show proof of all of the following to be eligible to receive a grant:

(A) Membership in the Armed Forces of the United States.

(B) Residency in California.

(C) Deployment to active duty for at least 60 consecutive days.

(D) One of the following:

(i) The military salary of the member, combined with any ongoing partial receipt of civilian salary, has decreased by 10 percent or more from the member's civilian salary, or the household income of the member's family has decreased by 10 percent or more from the member's household income prior to deployment.

(ii) The member, within six months of returning from active duty, has experienced a 10-percent loss, or greater, in income, compared to predeployment income, as a direct result of deployment.

(4) Grants awarded pursuant to this article may only be used for any of the following: food, housing, child care, utilities, medical services, medical prescriptions, insurance, and vehicle-related payments.

(5) Reserve members of the Armed Forces of the United States who are California residents may not be eligible to receive a grant if the member receives a punitive discharge or an administrative discharge with service characterized as under other than honorable conditions.

(6) Reserve members of the Armed Forces of the United States who are awarded grants pursuant to this article may be required to receive counseling, within a specified time period, as a condition of the grants.

SEC. 3. Section 18708 of the Revenue and Taxation Code is amended to read:

18708. The Legislature finds and declares all of the following:

(a) Due to the extended wars and conflicts around the globe, deployment of reserve members of the Armed Forces of the United States can average a year or more.

(b) Private companies do not generally offset the difference in their employees' reduced salaries while serving overseas. Military families are losing as much as 70 percent of their household income when a primary income producer serves on active duty.

(c) It is the intent of the Legislature, in enacting this article, to establish a fund for the granting of relief aid to persons who are reserve members of the Armed Forces of the United States who are California residents, who have been called to active duty.

SEC. 4. Section 18709 of the Revenue and Taxation Code is amended to read:

18709. (a) This article shall, subject to subdivision (b), remain in effect only until January 1, 2015, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2015, deletes or extends that date.

(b) (1) By September 1, 2006, and by September 1 of each subsequent calendar year that the California Military Family Relief Fund appears on a tax return, the Franchise Tax Board shall do all of the following:

(A) Determine the minimum contribution amount required to be received during the next calendar year for the fund to appear on the tax return for the taxable year that includes that next calendar year.

(B) Provide written notification to the Adjutant General of the amount determined in subparagraph (A).

(C) Determine whether the amount of contributions estimated to be received during the calendar year will equal or exceed the minimum contribution amount determined by the Franchise Tax Board for the calendar year pursuant to subparagraph (A). The Franchise Tax Board shall estimate the amount of contributions to be received by using the

actual amounts received and an estimate of the contributions that will be received by the end of that calendar year.

(2) If the Franchise Tax Board determines that the amount of contributions estimated to be received during a calendar year will not at least equal the minimum contribution amount for the calendar year, this article is repealed with respect to taxable years beginning on or after January 1 of that calendar year.

(3) For purposes of this section, the minimum contribution amount for a calendar year means two hundred fifty thousand dollars ($250,000) for the 2006 calendar year or the minimum contribution amount adjusted pursuant to subdivision (c).

(c) For each calendar year, beginning with calendar year 2007, the Franchise Tax Board shall adjust, on or before September 1 of that calendar year, the minimum contribution amount specified in subdivision (b) as follows:

(1) The minimum contribution amount for the calendar year shall be an amount equal to the product of the minimum contribution amount for the prior calendar year multiplied by the inflation factor adjustment as specified in paragraph (2) of subdivision (h) of Section 17041, rounded off to the nearest dollar.

(2) The inflation factor adjustment used for the calendar year shall be based on the figures for the percentage change in the California Consumer Price Index received on or before August 1 of the calendar year pursuant to paragraph (1) of subdivision (h) of Section 17041.

(d) Notwithstanding the repeal of this article, any contribution amounts designated pursuant to this article prior to its repeal shall continue to be transferred and disbursed in accordance with this article as in effect immediately prior to that repeal.

(e) Notwithstanding the amendments made to this section by the act adding this subdivision, if, by September 1, 2006, the Franchise Tax Board determines that the amount of contributions estimated to be received during the 2006 calendar year will not be at least two hundred fifty thousand dollars ($250,000), this article is repealed with respect to returns filed for taxable years beginning on or after January 1, 2006.

and discrimination and harassment, including, but not limited to, sexual harassment.

(c) The partnership shall provide training to the statewide cadre representatives to enable them to initiate and maintain school community safety programs among school districts, county offices of education, agencies serving youth, allied agencies, community-based organizations, and law enforcement agencies in each region.

SEC. 4. Section 48900 of the Education Code is amended to read:

48900. A pupil shall not be suspended from school or recommended for expulsion, unless the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has committed an act as defined pursuant to any of subdivisions (a) to (r), inclusive:

## CHAPTER 648

An act to amend Sections 1570.2, 1570.7, 1570.9, 1572, 1574.5, and 1578.1 of the Health and Safety Code, and to amend Sections 14521, 14526.1, 14528.1, 14550, and 14550.5 of, and to add Section 14553.1 to, the Welfare and Institutions Code, relating to adult day health care.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1570.2 of the Health and Safety Code is amended to read:

1570.2. The Legislature hereby finds and declares that there exists a pattern of overutilization of long-term institutional care for elderly persons or adults with disabilities, and that there is an urgent need to establish and to continue a community-based system of quality adult day health care which will enable elderly persons or adults with disabilities to maintain maximum independence. While recognizing that there continues to be a substantial need for facilities providing custodial care, overreliance on this type of care has proven to be a costly panacea in both financial and human terms, often traumatic, and destructive of continuing family relationships and the capacity for independent living.

It is, therefore, the intent of the Legislature in enacting this chapter and related provisions to provide for the development of policies and programs that will accomplish the following:

(a) Ensure that elderly persons and adults with disabilities are not institutionalized inappropriately or prematurely.

(b) Provide a viable alternative to institutionalization for those elderly persons and adults with disabilities who are capable of living at home with the aid of appropriate health care or rehabilitative and social services.

(c) Establish adult day health centers in the community for this purpose, that will be easily accessible to all participants, including economically disadvantaged elderly persons and adults with disabilities, and that will provide outpatient health, rehabilitative, and social services

necessary to permit the participants to maintain personal independence and lead meaningful lives.

(d) Include the services of adult day health centers as a benefit under the Medi-Cal Act, that shall be an initial and integral part in the development of an overall plan for a coordinated, comprehensive continuum of optional long-term care services based upon appropriate need.

(e) Establish a rural alternative adult day health care program designed to meet the special needs and requirements of rural areas to enable the implementation of subdivisions (a) through (d), inclusive, for all Californians in need of those services.

(f) Ensure that all laws, regulations, and procedures governing adult day health care be enforced equitably regardless of organizational sponsorship and that all program flexibility provisions be administered equitably.

SEC. 2. Section 1570.7 of the Health and Safety Code is amended to read:

1570.7. As used in this chapter and in any regulations promulgated thereunder:

(a) "Adult day health care" means an organized day program of therapeutic, social, and skilled nursing health activities and services provided pursuant to this chapter to elderly persons or adults with disabilities with functional impairments, either physical or mental, for the purpose of restoring or maintaining optimal capacity for self-care. Provided on a short-term basis, adult day health care serves as a transition from a health facility or home health program to personal independence. Provided on a long-term basis, it serves as an alternative to institutionalization in a long-term health care facility when 24-hour skilled nursing care is not medically necessary or viewed as desirable by the recipient or his or her family.

(b) "Adult day health center" or "adult day health care center" means a licensed and certified facility that provides adult day health care.

(c) "Core staff" includes the positions of program director, registered nurse, social worker, activity director, and program aide.

(g) "Extended hours" means those hours of operation prior to or following the adult day health care program hours of service, as designated by the adult day health care center in its plan of operation,

during which the adult day health care center may operate an adult day program, or an Alzheimer's day care resource center, or both.

(h) "Hours of service" means the program hours defined and posted by the adult day health care center for the provision of adult day health care services, pursuant to Section 14550 of the Welfare and Institutions Code, which shall be no less than four hours, excluding transportation.

(i) "Individual plan of care" means a plan designed to provide recipients of adult day health care with appropriate treatment in accordance with the assessed needs of each individual.

(j) "License" means a basic permit to operate an adult day health care center. With respect to a health facility licensed pursuant to Chapter 2 (commencing with Section 1250), "license" means a special permit, as defined by Section 1251.5, empowering the health facility to provide adult day health care services.

(k) "Long-term absence" or "long-term vacancy" means an absence or vacancy lasting, or likely to last, more than one month. An adult day health care center's policies and procedures shall be specific regarding coverage in the situation for long-term absences or vacancies.

(*l*) "Maintenance program" means procedures and exercises that are provided to a participant, pursuant to Section 1580, in order to generally maintain existing function. These procedures and exercises are planned by a licensed or certified therapist and are provided by a person who has been trained by a licensed or certified therapist and who is directly supervised by a nurse or by a licensed or certified therapist.

(m) "Program director" shall be a person with both of the following:

(1) One of the following backgrounds:

(A) A person with a bachelor's degree and a minimum of two years of experience in a management, supervisory, or administrative position.

(B) A person with a master's degree and a minimum of one year of experience in a management, supervisory, or administrative position.

(C) A registered nurse with a minimum of two years experience in a management, supervisory, or administrative position.

The therapy and services may also be provided by an assistant or aide under the appropriate supervision of a licensed therapist, as determined by the licensed therapist. The therapy and services are provided to restore function, when there is an expectation that the condition will improve significantly in a

reasonable period of time, as determined by the multidisciplinary assessment team.

(o) "Short-term absence" or "short-term vacancy" means an absence or vacancy lasting one month or less, and includes sick leave and vacations. An adult day health care center shall ensure that appropriate staff is designated to serve in these positions during the short-term absence or vacancy and that the center's policies and procedures are specific regarding coverage of short-term absences or vacancies.

(p) "Social worker" shall be a person who meets one of the following:

(1) The person holds a master's degree in social work from an accredited school of social work.

(2) The person holds a master's degree in psychology, gerontology, or counseling from an accredited school and has one year of experience providing social services in one or more of the fields of aging, health, or long-term care services.

(3) The person is licensed by the California Board of Behavioral sciences.

(4) The person holds a bachelor's degree in social work from an accredited school with two years of experience providing social services in one or more of the fields of aging, health, or long-term care services.

SEC. 3. Section 1570.9 of the Health and Safety Code is amended to read:

1570.9. In the event of conflict between the provisions of this chapter and the provisions of Chapter 1 (commencing with Section 1200), Chapter 2 (commencing with Section 1250), or Chapter 3 (commencing with Section 1500) of this division, this chapter shall be deemed controlling. Except as provided in Section 1507, no facility which provides a specialized program of both medical and nonmedical care for the elderly or adults with disabilities on an outpatient basis shall be licensed as a health facility, clinic, or community care facility under this division, but shall be subject to licensure exclusively in accordance with the provisions of this chapter.

Review of the need and desirability of proposals for adult day health centers shall be governed by the provisions of this chapter and shall not be subject to review under Part 1.5 (commencing with Section 437) of Division 1.

1572. (a) The functions and duties of the State Department of Public Health provided for under this chapter shall be performed by the California Department of Aging commencing on the date those functions are transferred from the State Department of Public Health to the California Department of Aging. The authority, functions, and

responsibility for the administration of the adult day health care program by the California Department of Aging and the State Department of Public Health shall be defined in an interagency agreement between the two departments and the State Department of Health Care Services that specifies how the departments will work together.

(b) The interagency agreement shall specify that the California Department of Aging is designated by the department as the agency responsible for community long-term care programs. At a minimum, the interagency agreement shall clarify each department's responsibilities on issues involving licensure and certification of adult day health care providers, payment of adult day health care claims, prior authorization of services, promulgation of regulations, and development of adult day health care Medi-Cal rates. This agreement shall also include provisions whereby the department and the California Department of Aging shall collaborate in the development and implementation of health programs and services for older persons and functionally impaired adults.

(c) The Director of the California Department of Aging shall make recommendations regarding licensure to the Licensing and Certification Division in the State Department of Public Health. The recommendation shall be based on all of the following criteria:

SEC. 5. Section 1574.5 of the Health and Safety Code is amended to read:

These requirements shall not prohibit program flexibility for the use of alternate concepts, methods, procedures, techniques, equipment, number and qualifications of personnel, or the conducting of pilot projects, if these alternatives or pilot projects are carried out with provisions for safe and adequate care and with the prior written approval of the state department. This approval shall provide for the terms and conditions under which permission to use an alternative or pilot program is granted. Particular attention shall be given to encourage the development of models appropriate to rural areas. The department may allow the substitution of work experience for academic requirements for the position of program director, administrator, or activity coordinator.

(b) The applicant or licensee may submit a written request to the department for program flexibility, and shall submit with the request substantiating evidence supporting the request.

Costs shall be allocated among the programs in accordance with generally accepted accounting practices.

(b) The department, unless otherwise specified by the interagency agreement entered into pursuant to Section 1572 shall evaluate the program services provided for in subdivision (a) for quality of care and compliance with program requirements, concurrent with inspections of the adult day health care facility, using a single survey process.

(c) The department and the California Department of Aging shall jointly develop and adopt regulations pursuant to Section 1580 for the provision of different levels of care under the single adult day health care license.

SEC. 7. Section 14521 of the Welfare and Institutions Code is amended to read:

(5) The participant's condition or conditions require individualized adult day health care services specified in subdivisions (a) to (d), inclusive, of Section 14550.5, on each day of attendance, that are needed in addition to any other health care support the participant is currently receiving in his or her place of residence and designed to maintain the ability of the participant to remain in the community and avoid emergency department visits, hospitalizations, or other institutionalization.

(e) Reauthorization of an adult day health care treatment authorization request shall be granted when the criteria specified in subdivision (d) have been met and the participant's condition would likely deteriorate if the adult day health care services were denied.

# CHAPTER 650

An act to add Section 66205.7 to the Education Code, relating to career technical education.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature hereby finds and declares all of the following:

(a) There is inherent value in career technical education.

(b) In an economy characterized by increased demands for college-educated workers and for increased skills among entry-level workers, career technical education, when combined with core academic coursework, can help prepare young people for successful transition into the workforce or for further education and training.

(c) When students apply academic subject matter in out-of-school contexts, they deepen their understanding and retention of academic concepts, and thereby increase academic achievement.

(d) A curriculum that shows how academic knowledge and skills are used in the world of work may motivate more students to persevere in the academic courses that prepare them for college. Research shows that when students combine career technical education coursework with academic preparation, their graduation and participation rates improve.

(e) It is the intent of the Legislature that on and after July 1, 2009, applications for admissions to the California State University and the University of California include an opportunity for students to record courses that do not meet the "a-g" admission requirements of the University of California, including, but not necessarily limited to, career technical education courses.

SEC. 2. Section 66205.7 is added to the Education Code, to read:

66205.7. The California State University and the University of California are requested to carry out all of the following responsibilities:

(a) If the department or another state agency develops a model career technical education curriculum that integrates academic and technical knowledge and skills, designate qualified representatives to offer their expertise in the development and establishment of that curriculum. This model curriculum shall incorporate provisions of the curriculum developed pursuant to subdivision (i) of Section 51220, as appropriate.

(b) If a school district or other local educational agency with schools maintaining kindergarten or any of grades 1 to 12, inclusive, offers

students an integrated model curriculum developed pursuant to subdivision (a), designate qualified representatives to offer their expertise to teachers and administrators in the delivery of that curriculum. School districts or other local educational agencies are also encouraged to seek the expertise of an advisory group that may include representatives from all of the following:

(1) Business and industry, related to career technical programs in kindergarten and grades 1 to 12, inclusive.

(2) Classroom teachers in career technical education.

(3) School administrators.

(4) The California State University and the University of California.

(5) Parents.

(c) On or before July 1, 2011, develop an online resource that lists the academic and technical courses offered at each of the 109 community colleges in this state that, when completed by high school students, satisfy one of the subject area requirements of the "a-g" admission requirements of the University of California, and link this information to the career technical education Web site pages created in accordance with Section 52499.66.

(d) On or before July 1, 2011, develop an online resource that posts the existence and terms of agreements made between local high schools and individual university campuses that grant university credit or advanced standing to students who complete specified high school pathway programs to study, and link this information to the career technical education Web site pages created in accordance with Section 52499.66.

## CHAPTER 652

An act to add and repeal Section 35567 of the Education Code, relating to school facilities construction, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature finds and declares as follows:

(1) On November 6, 2007, residents of the north Sacramento area approved Measure B at an election held on that date for the purpose of voting on whether to reorganize four area school districts into one unified school district. The four school districts that were unified to form the new Twin Rivers Unified School District were the Del Paso Heights School District, the Grant Joint Union High School District, the North Sacramento School District, and the Rio Linda Union School District.

(2) In January 2007, the Grant Joint Union High School District entered into a construction contract to construct a grade 7 to 12, inclusive, middle and high school, the East Natomas Education Complex, which, as approved, was designed to house approximately 3,000 pupils once completed in 2010. In July 2008, the East Natomas Education Complex, which was already under construction, became the property and obligation of the recently reorganized Twin Rivers Unified School District.

(3) Under current law, a school district newly formed, reorganized, or affected by reorganization, pursuant to an election that occurred on or after November 4, 1998, is required to calculate or recalculate its existing school building capacity pursuant to regulations adopted by the State Allocation Board. Upon beginning this process and taking possession of the East Natomas Education Complex, the Twin Rivers Unified School District discovered that it shall not have sufficient eligibility to access necessary state funding to complete the entire East Natomas Education Complex project as originally proposed.

(4) Regulations adopted by the State Allocation Board require an application for new construction funding to be submitted before the date of occupancy for any classrooms included in the construction contract. Thus, the Twin Rivers Unified School District will be ineligible for new construction funding to complete the East Natomas Education Complex project if it occupies any space in the complex before submitting a new construction application for the East Natomas Education Complex to the State Allocation Board. Consequently, the Twin Rivers Unified School District finds itself with an uncompleted project that may have to be left vacant, resulting in substantial maintenance and security costs to the district.

(b) It is the intent of the Legislature in enacting this act to provide the Twin Rivers Unified School District with a temporary exemption from requirements regarding new construction eligibility in order to allow that district to establish eligibility and complete construction commenced by its predecessor high school district.

SEC. 2. Section 35567 is added to the Education Code, to read:

35567. (a) This section shall be implemented only if the State Allocation Board determines that the Twin Rivers Unified School District has insufficient eligibility for a grant of funds pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10 of Division 1 of Title 1 with which to complete the East Natomas Education Complex project as contracted by the Grant Joint Union High School District.

(b) Notwithstanding paragraph (1) of subdivision (b) of Section 17071.75 and related regulations regarding occupancy for purposes of determining eligibility for new construction funding, the Twin Rivers Unified School District may occupy a portion of the East Natomas Education Complex project without jeopardizing its future eligibility for funding, pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10 of Division 1 of Title 1, for purposes of constructing and completing the East Natomas Education Complex project. The occupancy exception set forth in this subdivision shall be limited to the number of classrooms necessary to house up to 1,000 pupils pursuant to Section 17071.25 within the footprint of the middle school as contracted by the Grant Joint Union High School District. The number of classrooms to be occupied and grade levels of pupils to be housed in the East Natomas Education Complex project pursuant to the occupancy exception authorized pursuant to this subdivision shall be specifically delineated and submitted to the State Allocation Board before the Twin Rivers Unified School District occupies any part of the East Natomas Education Complex.

(c) (1) Notwithstanding subdivision (b), eligibility for new construction funding for the East Natomas Education Complex project shall be subject to all other requirements of Chapter 12.5 (commencing with Section 17070.10) of Part 10 of Division 1 of Title 1 and implementing regulations.

(2) Once the State Allocation Board determines that the Twin Rivers Unified School District has sufficient eligibility, and grants funds pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10 of Division 1 of Title 1 with which to house up to 1,000 unhoused pupils within the middle school of the East Natomas Education Complex project as contracted by the Grant Joint Union High School District, the Twin Rivers Unified School District shall no longer be entitled to use the occupancy exception set forth in subdivision (b).

(d) If the Twin Rivers Unified School District calculates or recalculates, pursuant to subdivision (c) of Section 17071.10, its existing school building capacity on a districtwide basis, the district shall use its eligibility to complete construction of the East Natomas Education Complex project before submitting an application for other new

construction projects in the school district. If the Twin Rivers Unified School District calculates or recalculates, pursuant to subdivision (c) of Section 17071.10, its existing school building capacity on the basis of high school attendance area, the district shall use its eligibility to complete construction of the East Natomas Education Complex project before submitting an application for other new construction projects in that attendance area.

(e) This section does not exempt the district's baseline eligibility from adjustment to reflect the additional classrooms generated by the project once the project is completed.

(f) The governing board of the Twin Rivers Unified School District may initiate nullification of the occupancy exception granted by this section by submitting a board resolution, adopted at a regularly scheduled meeting of the governing board and requesting that nullification, to the State Allocation Board. Upon receipt of this written notification by the State Allocation Board, the occupancy exception granted by this section shall be nullified.

(g) This section shall become inoperative on July 1, 2015, and, as of January 1, 2016, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2016, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 3. Due to the unique circumstances of the Twin Rivers Unified School District as set forth in Section 1 of this act regarding the formation of Twin Rivers Unified School District by the reorganization and unification of the Grant Joint Union High School District and three other school districts and the commitment of the Grant Joint Union High School District prior to that reorganization to construct the East Natomas Education Complex, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to allow the Twin Rivers Unified School District, in a timely manner, to establish eligibility for funds to complete the construction commenced by its predecessor high school district of a school facility and to avoid leaving the project uncompleted and vacant, which would result in substantial maintenance and security costs to the newly formed Twin Rivers Unified School District, it is necessary that this act take effect immediately.

## CHAPTER 653

An act to add Section 17282.5 to the Education Code, relating to school facilities.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 17282.5 is added to the Education Code, to read:

17282.5. (a) On or before January 1, 2010, the Division of the State Architect within the Department of General Services shall develop uniform criteria for precheck approval processes for solar design plans, including structural plans and calculations, for a school facility that comply with rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations. The criteria shall include provisions to ensure fire and life safety.

(b) The Department of General Services shall complete review of solar design plan applications submitted by a school district that conform with the criteria established pursuant to subdivision (a) within 45 calendar days of the receipt of a complete application. If the Department of General Services requests an applicant to submit a corrected application, the Department of General Services shall act on the corrected application within 10 calendar days of the date the applicant submits the corrected complete application to that department for approval.

## CHAPTER 654

An act to amend Section 1775.5 of the Insurance Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1775.5 of the Insurance Code is amended to read:

1775.5. (a) Every surplus line broker shall annually, on or before the first day of March of each year pay to the Insurance Commissioner for the use of the State of California a tax of 3 percent of the gross premiums less return premiums upon business done by him or her under authority of his or her license during the preceding calendar year, excluding any portions of premiums upon business done involving the risk finance portion of any blended finite risk product used in the financing element of state or federal Superfund environmental settlements involving remediation of soil or groundwater contamination or by the provisions of Section 1760.5. If during any calendar year 3 percent of such return premiums upon business done by a surplus line broker exceed 3 percent of the gross premiums upon such business done by him or her in that year, then he or she may either carry forward such excess to the next succeeding year and apply it as a credit against 3 percent of gross premiums on such business done by him or her in such succeeding year, or he or she may elect to receive, and thereupon be paid a refund equal to the amount of taxes theretofore paid by him or her on such excess of return premiums paid over gross premiums received.

(b) For the purpose of determining such tax, the total premium charged for all such nonadmitted insurance placed in a single transaction with one underwriter or group of underwriters, whether in one or more policies, shall be allocated to this state in such proportion as the total premium on the insured properties or operations in this state, as computed on the exposure in this state on the basis of any single standard rating method in use in all states or countries where such insurance applies, bears to the total premium so computed in all states or countries in which such nonadmitted insurance may apply. This provision shall not apply to interstate motor transit operations conducted between this and other states. With respect to such operations surplus line tax shall be payable on the entire premium charged on all nonadmitted insurance, less the following:

(1) Such portion of the premium as is determined, as herein provided, to have been charged for operations in other states taxing such premium on operations in such states of an insured maintaining its headquarters office in this state.

(2) The premium for any operations outside of this state of an insured who maintains a headquarters operating office outside of this state and a branch office in this state.

(c) A penalty of 10 percent of the amount of the payment due pursuant to this section shall be levied upon and paid by any surplus line broker who fails to make the necessary payment within the time required, plus interest at the rate of 1 percent per calendar month or fraction thereof, from March 1, the due date of the annual tax, until the date the payment

is received by the commissioner. The penalty and interest shall be applied as prescribed in Section 12636.5 of the Revenue and Taxation Code. The commissioner, upon a showing of good cause, may extend for a period not to exceed 30 days, the time for filing a tax return or paying any amount required to be paid with the return. The extension may be granted at any time, provided that a request therefor is filed with the commissioner within, or prior to, the period for which the extension may be granted.

Any surplus line broker to whom an extension is granted shall, in addition to the tax, pay interest at the rate of 1 percent per month or fraction thereof from March 1, until the date of payment. The commissioner may remit the penalty in a case where the commissioner finds, as a result of examination or otherwise, that the failure of or delay in payment arose out of excusable mistake or excusable inadvertence.

(d) For any part of a payment required by this section or by Section 1775.4 which was not made within the time required by law, when such nonpayment or late payment was due to fraud on the part of the broker, a penalty of 25 percent of the amount unpaid shall be added thereto, in addition to all other penalties otherwise imposed.

(e) For the purposes of this section these terms shall have the following meanings:

(1) "Blended finite risk product" means a contractual arrangement combining risk finance with traditional risk transfer, where a distinct portion of the program cost represents the funding of a known, existing, nonfortuitous future cost, obligation, responsibility, or liability at its discounted net present value, and another portion of the program cost represents risk transfer for losses which have yet to occur related to the cost, obligation, responsibility, or liability that is the subject of the program.

(2) "Risk financing" means that portion of any blended finite risk product which represents the funding of a known, existing, nonfortuitous future cost, obligation, responsibility, or liability.

(3) "Risk finance" or "financing element" means a method of funding for a known future cost over a long time horizon in current-value dollars using the principle of net present value discounting.

SEC. 2. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

Funds reported under this section and approved by the Superintendent shall continue to be allocated as part of the district's adult block entitlement in subsequent fiscal years.

(e) The Superintendent shall adopt rules and regulations for the administration of this section to include:

(1) Allowable expenditures.

(2) The range of expenditures per pupil enrolled in the program.

## CHAPTER 657

An act to amend Sections 65040.2 and 65302 of the Government Code, relating to planning.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. This act shall be known and may be cited as the California Complete Streets Act of 2008.

SEC. 2. The Legislature finds and declares all of the following:

(a) The California Global Warming Solutions Act of 2006, enacted as Chapter 488 of the Statutes of 2006, sets targets for the reduction of greenhouse gas emissions in California to slow the onset of human-induced climate change.

(b) The State Energy Resources Conservation and Development Commission has determined that transportation represents 41 percent of total greenhouse gas emissions in California.

(c) According to the United States Department of Transportation's 2001 National Household Travel Survey, 41 percent of trips in urban areas nationwide are two miles or less in length, and 66 percent of urban trips that are one mile or less are made by automobile.

(d) Shifting the transportation mode share from single passenger cars to public transit, bicycling, and walking must be a significant part of short- and long-term planning goals if the state is to achieve the reduction in the number of vehicle miles traveled and in greenhouse gas emissions required by current law.

(e) Walking and bicycling provide the additional benefits of improving public health and reducing treatment costs for conditions associated with reduced physical activity including obesity, heart disease, lung disease, and diabetes. Medical costs associated with physical inactivity were estimated by the State Department of Health Care Services to be $28 billion in 2005.

(f) The California Blueprint for Bicycling and Walking, prepared pursuant to the Supplemental Report of the Budget Act of 2001, sets the

goal of a 50 percent increase in bicycling and walking trips in California by 2010, and states that to achieve this goal, bicycling and walking must be considered in land use and community planning, and in all phases of transportation planning and project design.

(g) In order to fulfill the commitment to reduce greenhouse gas emissions, make the most efficient use of urban land and transportation infrastructure, and improve public health by encouraging physical activity, transportation planners must find innovative ways to reduce vehicle miles traveled and to shift from short trips in the automobile to biking, walking, and use of public transit.

(h) It is the intent of the Legislature to require in the development of the circulation element of a local government's general plan that the circulation of users of streets, roads, and highways be accommodated in a manner suitable for the respective setting in rural, suburban, and urban contexts, and that users of streets, roads, and highways include bicyclists, children, persons with disabilities, motorists, movers of commercial goods, pedestrians, public transportation, and seniors.

SEC. 3. Section 65040.2 of the Government Code is amended to read:

65040.2. (a) In connection with its responsibilities under subdivision (*l*) of Section 65040, the office shall develop and adopt guidelines for the preparation of and the content of the mandatory elements required in city and county general plans by Article 5 (commencing with Section 65300) of Chapter 3. For purposes of this section, the guidelines prepared pursuant to Section 50459 of the Health and Safety Code shall be the guidelines for the housing element required by Section 65302. In the event that additional elements are hereafter required in city and county general plans by Article 5 (commencing with Section 65300) of Chapter 3, the office shall adopt guidelines for those elements within six months of the effective date of the legislation requiring those additional elements.

(b) The office may request from each state department and agency, as it deems appropriate, and the department or agency shall provide, technical assistance in readopting, amending, or repealing the guidelines.

(c) The guidelines shall be advisory to each city and county in order to provide assistance in preparing and maintaining their respective general plans.

(d) The guidelines shall contain the guidelines for addressing environmental justice matters developed pursuant to Section 65040.12.

(e) The guidelines shall contain advice including recommendations for best practices to allow for collaborative land use planning of adjacent civilian and military lands and facilities. The guidelines shall encourage enhanced land use compatibility between civilian lands and any adjacent

or nearby military facilities through the examination of potential impacts upon one another.

(f) The guidelines shall contain advice for addressing the effects of civilian development on military readiness activities carried out on all of the following:

(1) Military installations.

(2) Military operating areas.

(3) Military training areas.

(4) Military training routes.

(5) Military airspace.

(6) Other territory adjacent to those installations and areas.

(g) By March 1, 2005, the guidelines shall contain advice, developed in consultation with the Native American Heritage Commission, for consulting with California Native American tribes for all of the following:

(1) The preservation of, or the mitigation of impacts to, places, features, and objects described in Sections 5097.9 and 5097.993 of the Public Resources Code.

(2) Procedures for identifying through the Native American Heritage Commission the appropriate California Native American tribes.

(3) Procedures for continuing to protect the confidentiality of information concerning the specific identity, location, character, and use of those places, features, and objects.

(4) Procedures to facilitate voluntary landowner participation to preserve and protect the specific identity, location, character, and use of those places, features, and objects.

(h) Commencing January 1, 2009, but no later than January 1, 2014, upon the next revision of the guidelines pursuant to subdivision (i), the office shall prepare or amend guidelines for a legislative body to accommodate the safe and convenient travel of users of streets, roads, and highways in a manner that is suitable to the rural, suburban, or urban context of the general plan, pursuant to subdivision (b) of Section 65302.

(1) In developing guidelines, the office shall consider how appropriate accommodation varies depending on its transportation and land use context, including urban, suburban, or rural environments.

(2) The office may consult with leading transportation experts including, but not limited to, bicycle transportation planners, pedestrian planners, public transportation planners, local air quality management districts, and disability and senior mobility planners.

(i) The office shall provide for regular review and revision of the guidelines established pursuant to this section.

SEC. 4. Section 65302 of the Government Code is amended to read:

65302. The general plan shall consist of a statement of development policies and shall include a diagram or diagrams and text setting forth

objectives, principles, standards, and plan proposals. The plan shall include the following elements:

(a) A land use element that designates the proposed general distribution and general location and extent of the uses of the land for housing, business, industry, open space, including agriculture, natural resources, recreation, and enjoyment of scenic beauty, education, public buildings and grounds, solid and liquid waste disposal facilities, and other categories of public and private uses of land. The location and designation of the extent of the uses of the land for public and private uses shall consider the identification of land and natural resources pursuant to paragraph (3) of subdivision (d). The land use element shall include a statement of the standards of population density and building intensity recommended for the various districts and other territory covered by the plan. The land use element shall identify and annually review those areas covered by the plan that are subject to flooding identified by flood plain mapping prepared by the Federal Emergency Management Agency (FEMA) or the Department of Water Resources. The land use element shall also do both of the following:

(1) Designate in a land use category that provides for timber production those parcels of real property zoned for timberland production pursuant to the California Timberland Productivity Act of 1982 (Chapter 6.7 (commencing with Section 51100) of Part 1 of Division 1 of Title 5).

(2) Consider the impact of new growth on military readiness activities carried out on military bases, installations, and operating and training areas, when proposing zoning ordinances or designating land uses covered by the general plan for land, or other territory adjacent to military facilities, or underlying designated military aviation routes and airspace.

(A) In determining the impact of new growth on military readiness activities, information provided by military facilities shall be considered. Cities and counties shall address military impacts based on information from the military and other sources.

(B) The following definitions govern this paragraph:

(i) "Military readiness activities" mean all of the following:

(I) Training, support, and operations that prepare the men and women of the military for combat.

(II) Operation, maintenance, and security of any military installation.

(III) Testing of military equipment, vehicles, weapons, and sensors for proper operation or suitability for combat use.

(ii) "Military installation" means a base, camp, post, station, yard, center, homeport facility for any ship, or other activity under the jurisdiction of the United States Department of Defense as defined in

paragraph (1) of subsection (e) of Section 2687 of Title 10 of the United States Code.

(b) (1) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, any military airports and ports, and other local public utilities and facilities, all correlated with the land use element of the plan.

(2) (A) Commencing January 1, 2011, upon any substantive revision of the circulation element, the legislative body shall modify the circulation element to plan for a balanced, multimodal transportation network that meets the needs of all users of streets, roads, and highways for safe and convenient travel in a manner that is suitable to the rural, suburban, or urban context of the general plan.

(B) For purposes of this paragraph, "users of streets, roads, and highways" means bicyclists, children, persons with disabilities, motorists, movers of commercial goods, pedestrians, users of public transportation, and seniors.

(c) A housing element as provided in Article 10.6 (commencing with Section 65580).

(d) (1) A conservation element for the conservation, development, and utilization of natural resources including water and its hydraulic force, forests, soils, rivers and other waters, harbors, fisheries, wildlife, minerals, and other natural resources. The conservation element shall consider the effect of development within the jurisdiction, as described in the land use element, on natural resources located on public lands, including military installations. That portion of the conservation element including waters shall be developed in coordination with any countywide water agency and with all district and city agencies, including flood management, water conservation, or groundwater agencies that have developed, served, controlled, managed, or conserved water of any type for any purpose in the county or city for which the plan is prepared. Coordination shall include the discussion and evaluation of any water supply and demand information described in Section 65352.5, if that information has been submitted by the water agency to the city or county.

(2) The conservation element may also cover all of the following:

(A) The reclamation of land and waters.

(B) Prevention and control of the pollution of streams and other waters.

(C) Regulation of the use of land in stream channels and other areas required for the accomplishment of the conservation plan.

(D) Prevention, control, and correction of the erosion of soils, beaches, and shores.

(E) Protection of watersheds.

(F) The location, quantity and quality of the rock, sand and gravel resources.

(3) Upon the next revision of the housing element on or after January 1, 2009, the conservation element shall identify rivers, creeks, streams, flood corridors, riparian habitats, and land that may accommodate floodwater for purposes of groundwater recharge and stormwater management.

(e) An open-space element as provided in Article 10.5 (commencing with Section 65560).

(f) (1) A noise element that shall identify and appraise noise problems in the community. The noise element shall recognize the guidelines established by the Office of Noise Control and shall analyze and quantify, to the extent practicable, as determined by the legislative body, current and projected noise levels for all of the following sources:

(A) Highways and freeways.

(B) Primary arterials and major local streets.

(C) Passenger and freight on-line railroad operations and ground rapid transit systems.

(D) Commercial, general aviation, heliport, helistop, and military airport operations, aircraft overflights, jet engine test stands, and all other ground facilities and maintenance functions related to airport operation.

(E) Local industrial plants, including, but not limited to, railroad classification yards.

(F) Other ground stationary noise sources, including, but not limited to, military installations, identified by local agencies as contributing to the community noise environment.

(2) Noise contours shall be shown for all of these sources and stated in terms of community noise equivalent level (CNEL) or day-night average level ($L_{dn}$). The noise contours shall be prepared on the basis of noise monitoring or following generally accepted noise modeling techniques for the various sources identified in paragraphs (1) to (6), inclusive.

(3) The noise contours shall be used as a guide for establishing a pattern of land uses in the land use element that minimizes the exposure of community residents to excessive noise.

(4) The noise element shall include implementation measures and possible solutions that address existing and foreseeable noise problems, if any. The adopted noise element shall serve as a guideline for compliance with the state's noise insulation standards.

(g) (1) A safety element for the protection of the community from any unreasonable risks associated with the effects of seismically induced surface rupture, ground shaking, ground failure, tsunami, seiche, and dam failure; slope instability leading to mudslides and landslides;

subsidence, liquefaction, and other seismic hazards identified pursuant to Chapter 7.8 (commencing with Section 2690) of Division 2 of the Public Resources Code, and other geologic hazards known to the legislative body; flooding; and wildland and urban fires. The safety element shall include mapping of known seismic and other geologic hazards. It shall also address evacuation routes, military installations, peakload water supply requirements, and minimum road widths and clearances around structures, as those items relate to identified fire and geologic hazards.

(2) The safety element, upon the next revision of the housing element on or after January 1, 2009, shall also do the following:

(A) Identify information regarding flood hazards, including, but not limited to, the following:

(i) Flood hazard zones. As used in this subdivision, "flood hazard zone" means an area subject to flooding that is delineated as either a special hazard area or an area of moderate or minimal hazard on an official flood insurance rate map issued by the Federal Emergency Management Agency. The identification of a flood hazard zone does not imply that areas outside the flood hazard zones or uses permitted within flood hazard zones will be free from flooding or flood damage.

(ii) National Flood Insurance Program maps published by FEMA.

(iii) Information about flood hazards that is available from the United States Army Corps of Engineers.

(iv) Designated floodway maps that are available from the Central Valley Flood Protection Board.

(v) Dam failure inundation maps prepared pursuant to Section 8589.5 that are available from the Office of Emergency Services.

(vi) Awareness Floodplain Mapping Program maps and 200-year flood plain maps that are or may be available from, or accepted by, the Department of Water Resources.

(vii) Maps of levee protection zones.

(viii) Areas subject to inundation in the event of the failure of project or nonproject levees or floodwalls.

(ix) Historical data on flooding, including locally prepared maps of areas that are subject to flooding, areas that are vulnerable to flooding after wildfires, and sites that have been repeatedly damaged by flooding.

(x) Existing and planned development in flood hazard zones, including structures, roads, utilities, and essential public facilities.

(xi) Local, state, and federal agencies with responsibility for flood protection, including special districts and local offices of emergency services.

(B) Establish a set of comprehensive goals, policies, and objectives based on the information identified pursuant to subparagraph (A), for

the protection of the community from the unreasonable risks of flooding, including, but not limited to:

(i) Avoiding or minimizing the risks of flooding to new development.

(ii) Evaluating whether new development should be located in flood hazard zones, and identifying construction methods or other methods to minimize damage if new development is located in flood hazard zones.

(iii) Maintaining the structural and operational integrity of essential public facilities during flooding.

(iv) Locating, when feasible, new essential public facilities outside of flood hazard zones, including hospitals and health care facilities, emergency shelters, fire stations, emergency command centers, and emergency communications facilities or identifying construction methods or other methods to minimize damage if these facilities are located in flood hazard zones.

(v) Establishing cooperative working relationships among public agencies with responsibility for flood protection.

(C) Establish a set of feasible implementation measures designed to carry out the goals, policies, and objectives established pursuant to subparagraph (B).

(3) After the initial revision of the safety element pursuant to paragraph (2), upon each revision of the housing element, the planning agency shall review and, if necessary, revise the safety element to identify new information that was not available during the previous revision of the safety element.

(4) Cities and counties that have flood plain management ordinances that have been approved by FEMA that substantially comply with this section, or have substantially equivalent provisions to this subdivision in their general plans, may use that information in the safety element to comply with this subdivision, and shall summarize and incorporate by reference into the safety element the other general plan provisions or the flood plain ordinance, specifically showing how each requirement of this subdivision has been met.

(5) Prior to the periodic review of its general plan and prior to preparing or revising its safety element, each city and county shall consult the California Geological Survey of the Department of Conservation, the Central Valley Flood Protection Board, if the city or county is located within the boundaries of the Sacramento and San Joaquin Drainage District, as set forth in Section 8501 of the Water Code, and the Office of Emergency Services for the purpose of including information known by and available to the department, the office, and the board required by this subdivision.

(6) To the extent that a county's safety element is sufficiently detailed and contains appropriate policies and programs for adoption by a city,

a city may adopt that portion of the county's safety element that pertains to the city's planning area in satisfaction of the requirement imposed by this subdivision.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.

An act to amend Section 66412 of the Government Code, relating to land use.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 66412 of the Government Code is amended to read:

66412. This division shall be inapplicable to any of the following:

(b) Mineral, oil, or gas leases.

(c) Land dedicated for cemetery purposes under the Health and Safety Code.

(d) A lot line adjustment between four or fewer existing adjoining parcels, where the land taken from one parcel is added to an adjoining parcel, and where a greater number of parcels than originally existed is not thereby created, if the lot line adjustment is approved by the local agency, or advisory agency. A local agency or advisory agency shall limit its review and approval to a determination of whether or not the parcels resulting from the lot line adjustment will conform to the local general plan, any applicable specific plan, any applicable coastal plan, and zoning and building ordinances. An advisory agency or local agency shall not impose conditions or exactions on its approval of a lot line adjustment except to conform to the local general plan, any applicable specific plan, any applicable coastal plan, and zoning and building ordinances, to require the prepayment of real property taxes prior to the

approval of the lot line adjustment, or to facilitate the relocation of existing utilities, infrastructure, or easements. No tentative map, parcel map, or final map shall be required as a condition to the approval of a lot line adjustment. The lot line adjustment shall be reflected in a deed, which shall be recorded. No record of survey shall be required for a lot line adjustment unless required by Section 8762 of the Business and Professions Code.

(e) Boundary line or exchange agreements to which the State Lands Commission or a local agency holding a trust grant of tide and submerged lands is a party.

(f) Any separate assessment under Section 2188.7 of the Revenue and Taxation Code.

(g) Unless a parcel or final map was approved by the legislative body of a local agency, the conversion of a community apartment project, as defined in Section 1351 of the Civil Code, to a condominium, as defined in Section 783 of the Civil Code, but only if all of the following requirements are met:

(1) At least 75 percent of the units in the project were occupied by record owners of the project on March 31, 1982.

(2) A final or parcel map of the project was properly recorded, if the property was subdivided, as defined in Section 66424, after January 1, 1964, with all of the conditions of that map remaining in effect after the conversion.

(3) The local agency certifies that the above requirements were satisfied if the local agency, by ordinance, provides for that certification.

(4) Subject to compliance with subdivision (e) of Section 1351 of the Civil Code, all conveyances and other documents necessary to effectuate the conversion shall be executed by the required number of owners in the project as specified in the bylaws or other organizational documents. If the bylaws or other organizational documents do not expressly specify the number of owners necessary to execute the conveyances and other documents, a majority of owners in the project shall be required to execute the conveyances or other documents. Conveyances and other documents executed under the foregoing provisions shall be binding upon and affect the interests of all parties in the project.

(h) Unless a parcel or final map was approved by the legislative body of a local agency, the conversion of a stock cooperative, as defined in Section 1351 of the Civil Code, to a condominium, as defined in Section 783 of the Civil Code, but only if all of the following requirements are met:

(1) At least 51 percent of the units in the cooperative were occupied by stockholders of the cooperative on January 1, 1981, or individually owned by stockholders of the cooperative on January 1, 1981. As used

in this paragraph, a cooperative unit is "individually owned" if and only if the stockholder of that unit owns or partially owns an interest in no more than one unit in the cooperative.

(2) No more than 25 percent of the shares of the cooperative were owned by any one person, as defined in Section 17, including an incorporator or director of the cooperative, on January 1, 1981.

(3) A person renting a unit in a cooperative shall be entitled at the time of conversion to all tenant rights in state or local law, including, but not limited to, rights respecting first refusal, notice, and displacement and relocation benefits.

(4) The local agency certifies that the above requirements were satisfied if the local agency, by ordinance, provides for that certification.

(5) Subject to compliance with subdivision (e) of Section 1351 of the Civil Code, all conveyances and other documents necessary to effectuate the conversion shall be executed by the required number of owners in the cooperative as specified in the bylaws or other organizational documents. If the bylaws or other organizational documents do not expressly specify the number of owners necessary to execute the conveyances and other documents, a majority of owners in the cooperative shall be required to execute the conveyances or other documents. Conveyances and other documents executed under the foregoing provisions shall be binding upon and affect the interests of all parties in the cooperative.

(i) The leasing of, or the granting of an easement to, a parcel of land, or any portion or portions thereof, in conjunction with the financing, erection, and sale or lease of a windpowered electrical generation device on the land, if the project is subject to discretionary action by the advisory agency or legislative body.

(j) The leasing or licensing of a portion of a parcel, or the granting of an easement, use permit, or similar right on a portion of a parcel, to a telephone corporation as defined in Section 234 of the Public Utilities Code, exclusively for the placement and operation of cellular radio transmission facilities, including, but not limited to, antennae support structures, microwave dishes, structures to house cellular communications transmission equipment, power sources, and other equipment incidental to the transmission of cellular communications, if the project is subject to discretionary action by the advisory agency or legislative body.

(k) Leases of agricultural land for agricultural purposes. As used in this subdivision, "agricultural purposes" means the cultivation of food or fiber, or the grazing or pasturing of livestock.

(*l*) The leasing of, or the granting of an easement to, a parcel of land or any portion or portions of the land, in conjunction with the financing, erection, and sale or lease of a solar electrical generation device on the

land, if the project is subject to review under other local agency ordinances regulating design and improvement or if the project is subject to other discretionary action by the advisory agency or legislative body.

(m) The leasing of, or the granting of an easement to, a parcel of land or any portion or portions of the land, in conjunction with a biogas project that utilizes, as part of its operation, agricultural waste or byproducts from the land where the project is located and reduces overall emissions of greenhouse gases from agricultural operations on the land, if the project is subject to review under other local agency ordinances regulating design and improvement or if the project is subject to discretionary action by the advisory agency or legislative body.

## CHAPTER 659

An act to add Section 496e to the Penal Code, relating to theft, and declaring the urgency thereof, to take effect immediately.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to discourage the theft of parts of fire hydrants and fire department connections, so that they are operative and immediately available to fire personnel to protect life and property from fires, it is necessary that this act take effect immediately.

The commission shall establish minimum standards for scholarship in the required coursework. The commission also shall establish alternative ways in which the requirement can be satisfied by language-learning experience that creates an awareness of the challenges of second-language acquisition and development.

(c) Completion of coursework in human relations in accordance with the commission's standards of program quality and effectiveness that includes, at a minimum, instruction in the following:

(1) The nature and content of culture.

(2) Cross-cultural contact and interactions.

If the requirement specified in paragraph (1) of subdivision (b) is satisfied by the possession of a children's center instructional permit, or a children's center supervision permit, then instruction for English language development shall be limited to the programs authorized by that permit. If the requirement specified in paragraph (1) of subdivision (b) is satisfied by the possession of a designated subjects teaching credential in adult education, then instruction for English language development shall be limited to classes organized primarily for adults.

(2) Specially designed content instruction delivered in English in the subjects and at the levels authorized by the teacher's prerequisite credential or permit used to satisfy the requirement specified in paragraph (1) of subdivision (b).

If the requirement specified in paragraph (1) of subdivision (b) is satisfied by

the possession of a designated subjects teaching credential in adult education, then instruction for primary language development is limited to classes organized primarily for adults.

(b) The minimum requirements for the authorization, which may be completed at the same time as the initial preparation for the prerequisite credential or at a later date, shall include both of the following:

(1) Possession of a valid California teaching credential, services credential, visiting faculty permit, children's center instructional permit, or children's center supervision permit which credential or permit authorizes the holder to provide instruction to pupils in preschool, kindergarten, any of grades 1 to 12, inclusive, or classes primarily organized for adults, except for the following:

(A) Emergency credentials or permits.

(B) Exchange credentials as specified in Section 44333.

(C) District intern credentials as specified in Section 44325.

(d) The authorization shall remain valid as long as the prerequisite credential or permit specified in paragraph (1) of subdivision (b) remains valid.

(e) The commission initially shall issue authorizations for languages spoken by the largest numbers of limited-English-proficient pupils for which there are reasonable numbers of teachers or potential teachers who speak those languages. The commission shall explore alternative ways to make authorizations available for other languages.

SEC. 3. Section 44253.7 of the Education Code is amended to read:

44253.7. (a) The Commission on Teacher Credentialing, based upon the availability of funds, shall develop objective and verifiable standards for an authorization for bilingual-cross-cultural competence for holders

of an appropriate credential, certificate, authorization, or permit who will be serving English language learners. These authorizations may be issued to persons holding an appropriate credential or authorization issued by the commission, including, but not limited to, counselors; special education professionals, including, but not limited to, the holders of special education credentials, clinical services credentials, and school psychologist authorizations; and child development and preschool professionals.

(b) Candidates for the authorization, by oral and written examination, or by completing an approved program that consists of coursework or a combination of coursework and examinations, shall demonstrate all of the following either at the same time as the initial preparation for the prerequisite credential or at a later date:

(1) That the person is competent in both the oral and written skills of a language other than English.

A passing score on the reading and writing portions of the basic skills proficiency test administered pursuant to Section 44252.5 or in accordance with Section 44252 shall satisfy the written skills portion of this requirement.

(3) That the person has both the knowledge and understanding of the cultural and historical heritage of the limited-English-proficient individuals to be served.

(4) That the person has the ability to perform the services the candidate is certified or authorized to perform in English and in a language other than English.

(c) The commission may develop rules and regulations setting forth objective and verifiable standards for approval of training programs leading to the authorizations issued pursuant to this section.

(d) For the purpose of assessing the qualifications established by the commission in accordance with this section, the commission shall develop rules, regulations, or guidelines establishing an assessment system that may include local educational agencies, institutions of higher education, and qualified nonprofit bilingual testing agencies as assessor agencies.

(e) It is not the intent of the Legislature in enacting this section that possession of any authorization established by this section be a state-mandated requirement for employment. It is the intent that this is a matter for local educational agencies to determine.

# CHAPTER 661

An act to amend Section 37710 of, and to add and repeal Section 37710.5 of, the Education Code, relating to school districts.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 37710 of the Education Code is amended to read:

37710. If a school operating on a four-day school week pursuant to Section 37710.5 or 37711 fails to achieve its Academic Performance Index growth target pursuant to Section 52052, the authority of that school to operate on a four-day school week shall be permanently revoked commencing with the beginning of the following school year.

SEC. 2. Section 37710.5 is added to the Education Code, to read:

37710.5. (a) Beginning in the 2009–10 fiscal year, the Potter Valley Community Unified School District may operate one or more schools in the school district on a four-day school week if the district complies with the instructional time requirements specified in Section 37701 and the other requirements of this chapter. The State Board of Education may waive five-consecutive-day operating requirements for any of the following programs that operate on a four-day week pursuant to this section, provided that the district meets the minimum time requirement for each program:

(1) Preschools.
(2) Before and after school programs.
(3) Independent study programs.
(4) Child nutrition and food service programs.
(5) Community day schools.
(6) Regional occupational centers or programs.
(7) Continuation high schools.

(b) If the school district operates one or more schools on a four-day week pursuant to this section, and the program for the school year provides fewer than the 180 days of instruction required under Section 46200, the Superintendent shall reduce the base revenue limit per unit of average daily attendance for that fiscal year by the amount the school district would have received for the increase received pursuant to subdivision (a) of Section 46200, as adjusted in fiscal years subsequent to the 1984–85 fiscal year. If the school district operates one or more schools on a four-day school week pursuant to this section, and the

program provides fewer than the minimum instructional minutes required under Section 46201, the Superintendent shall reduce the base revenue limit per unit of average daily attendance for that fiscal year in which the reduction occurs by the amount the school district would have received for the increase in the base revenue limit per unit of average daily attendance pursuant to subdivision (a) of Section 46201, as adjusted in the 1987–88 fiscal year and fiscal years thereafter.

(c) If the school district operates one or more schools on a four-day school week pursuant to this section, the school district shall submit a report to the department, the Senate Committee on Education and the Assembly Committee on Education on January 15, 2014. The report shall include, but not necessarily be limited to, information on the following:

(1) Programs the district offered on the fifth day and their participation rates.

(2) Whether the four-day school week schedule resulted in any fiscal savings.

(3) Impact on overall attendance of the schools operating a four-day school week.

(4) Programs for which the Superintendent waived minimum time and five-consecutive-day requirements and the operational and educational effect of the programs if they operated at less time than required.

(d) This section shall remain in effect only until January 1, 2015, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2015, deletes or extends that date.

SEC. 3. The Legislature finds and declares that, due to the unique circumstances applicable to the Potter Valley Community Unified School District, a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special law is therefore necessary.

## CHAPTER 662

An act to amend Section 3 of Chapter 1358 of the Statutes of 1987, relating to state property.

*The people of the State of California do enact as follows:*

SECTION 1. Section 3 of Chapter 1358 of the Statutes of 1987, as amended by Chapter 648 of the Statutes of 1992, is amended to read:

Sec. 3. The Director of General Services, with the approval of the State Public Works Board and the Director of Parks and Recreation, may sell or exchange for current market value or for any lesser consideration authorized by law and upon the terms and conditions and subject to the reservations and exceptions as the Director of General Services deems to be in the best interest of the state, all or any part of the following real property:

## CHAPTER 663

An act relating to surplus property.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Chino Valley Unified School District may transfer surplus property owned by the school district, located adjacent to Chaparral Elementary School and bordered by Pomona Rincon Road and Bird Farm Road, to the City of Chino Hills, in the County of San Bernardino, pursuant to this section.

(b) The property may be transferred to the city upon payment to the district by the city in an amount specified by the school district, and the execution of an agreement between the school district and the city for development of the property into a park. The Chino Valley Unified School District shall remit to the State Allocation Board the greater of the following:

(1) Fifty percent of the amount realized from the sale of the property.

(2) An amount equal to the apportionment for site acquisition provided by the State Allocation Board pursuant to Section 17072.12 of the Education Code adjusted to the pro rata share of the property being sold by the district.

Revenues received by the Chino Valley Unified School District as a result of this property transfer shall be deposited into the capital outlay fund of the school district. Notwithstanding any other provision of law, the deed or other instrument of transfer shall provide that the property shall revert to the state if the use of the property changes to a use not consistent with parks and recreation purposes.

(c) The property was purchased by the Chino Valley Unified School District from the state at less than fair market value, pursuant to subdivision (k) of Section 11011.1 of the Government Code, with a reversion to the state if the property is not used for school purposes. If the conditions of subdivision (b) are met, then the use of the property shall be deemed to be for school purposes and shall not be subject to reversion to the state because of its use for parks and recreation purposes.

(d) The Chino Valley Unified School District is not eligible to receive an apportionment of funds that are derived from the sale of state general obligation bonds for a project involving the property transferred pursuant to this section.

SEC. 2. Due to the unique circumstances concerning the Chino Valley Unified School District and the City of Chino Hills, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution. Therefore, this act is necessarily applicable only to the Chino Valley Unified School District and the City of Chino Hills.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 65400 of the Government Code is amended to read:

65400. (a) After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(1) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan, so that it will serve as an effective guide for orderly growth and development, preservation and conservation

of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(2) Provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes all of the following:

(A) The status of the plan and progress in its implementation.

(B) The progress in meeting its share of regional housing needs determined pursuant to Section 65584 and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

(C) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

(b) The housing element portion of the annual report required under subparagraph (B) of paragraph (2) of subdivision (a) shall be prepared through the use of forms and definitions adopted by the Department of Housing and Community Development pursuant to the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2).

(c) If a court finds, upon a motion to that effect, that a city, county, or city and county failed to submit, within 60 days after the deadline established in this section, the housing element portion of the report required pursuant to subparagraph (B) of paragraph (2) of subdivision (a) that substantially complies with the requirements of this section, the court shall issue an order or judgment compelling compliance with this section within 60 days. If the city, county, or city and county fails to comply with the court's order within 60 days, the plaintiff or petitioner may move for sanctions, and the court may, upon that motion, grant appropriate sanctions. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment is not carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled. This subdivision applies to proceedings initiated on or after the first day of October following the adoption of forms and definitions by the Department of Housing and Community Development pursuant to paragraph (2) of subdivision (a), but no sooner than six months following that adoption.

SEC. 2. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of

housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels, including extremely low income households, as defined in subdivision (b) of Section 50105 and Section 50106 of the Health and Safety Code. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584. Local agencies shall calculate the subset of very low income households allotted under Section 65584 that qualify as extremely low income households. The local agency may either use available census data to calculate the percentage of very low income households that qualify as extremely low income households or presume that 50 percent of the very low income households qualify as extremely low income households. The number of extremely low income households and very low income households shall equal the jurisdiction's allocation of very low income households pursuant to Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable for residential development, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) (A) The identification of a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit. The identified zone or zones shall include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zone or zones that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zone or zones with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zones where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate

that existing or proposed permit processing, development, and management standards are objective and encourage and facilitate the development of, or conversion to, emergency shelters. Emergency shelters may only be subject to those development and management standards that apply to residential or commercial development within the same zone except that a local government may apply written, objective standards that include all of the following:

(i) The maximum number of beds or persons permitted to be served nightly by the facility.

(ii) Off-street parking based upon demonstrated need, provided that the standards do not require more parking for emergency shelters than for other residential or commercial uses within the same zone.

(iii) The size and location of exterior and interior onsite waiting and client intake areas.

(iv) The provision of onsite management.

(v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.

(vi) The length of stay.

(vii) Lighting.

(viii) Security during hours that the emergency shelter is in operation.

(B) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(C) A local government that can demonstrate to the satisfaction of the department the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zone or zones where new emergency shelters are allowed with a conditional use permit.

(D) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zones for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures. The

analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7). Transitional housing and supportive housing shall be considered a residential use of property, and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone.

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

(7) An analysis of any special housing needs, such as those of the elderly, persons with disabilities, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on annual and seasonal need. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period.

(8) An analysis of opportunities for energy conservation with respect to residential development.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis

required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government which have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs which can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program which have not been legally obligated for other purposes and which could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category, including extremely low income, that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment

project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period of the general plan with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2.

(B) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities.

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) The program shall include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals. The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement, with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit towards its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for

review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

SEC. 3. Section 65583.2 of the Government Code is amended to read:

65583.2. (a) A city's or county's inventory of land suitable for residential development pursuant to paragraph (3) of subdivision (a) of Section 65583 shall be used to identify sites that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584. As used in this section, "land suitable for residential development" includes all of the following:

(1) Vacant sites zoned for residential use.

(2) Vacant sites zoned for nonresidential use that allows residential development.

(3) Residentially zoned sites that are capable of being developed at a higher density.

(4) Sites zoned for nonresidential use that can be redeveloped for, and as necessary, rezoned for, residential use.

(b) The inventory of land shall include all of the following:

(1) A listing of properties by parcel number or other unique reference.

(2) The size of each property listed pursuant to paragraph (1), and the general plan designation and zoning of each property.

(3) For nonvacant sites, a description of the existing use of each property.

(4) A general description of any environmental constraints to the development of housing within the jurisdiction, the documentation for which has been made available to the jurisdiction. This information need not be identified on a site-specific basis.

(5) A general description of existing or planned water, sewer, and other dry utilities supply, including the availability and access to distribution facilities. This information need not be identified on a site-specific basis.

(6) Sites identified as available for housing for above moderate-income households in areas not served by public sewer systems. This information need not be identified on a site-specific basis.

(7) A map that shows the location of the sites included in the inventory, such as the land use map from the jurisdiction's general plan for reference purposes only.

(c) Based on the information provided in subdivision (b), a city or county shall determine whether each site in the inventory can accommodate some portion of its share of the regional housing need by income level during the planning period, as determined pursuant to Section 65584. The analysis shall determine whether the inventory can provide for a variety of types of housing, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, emergency shelters, and transitional housing. The city or county shall determine the number of housing units that can be accommodated on each site as follows:

(1) If local law or regulations require the development of a site at a minimum density, the department shall accept the planning agency's calculation of the total housing unit capacity on that site based on the established minimum density. If the city or county does not adopt a law or regulations requiring the development of a site at a minimum density, then it shall demonstrate how the number of units determined for that site pursuant to this subdivision will be accommodated.

(2) The number of units calculated pursuant to paragraph (1) shall be adjusted as necessary, based on the land use controls and site improvements requirement identified in paragraph (5) of subdivision (a) of Section 65583.

(3) For the number of units calculated to accommodate its share of the regional housing need for lower income households pursuant to paragraph (2), a city or county shall do either of the following:

(A) Provide an analysis demonstrating how the adopted densities accommodate this need. The analysis shall include, but is not limited to, factors such as market demand, financial feasibility, or information based on development project experience within a zone or zones that provide housing for lower income households.

(B) The following densities shall be deemed appropriate to accommodate housing for lower income households:

(i) For incorporated cities within nonmetropolitan counties and for nonmetropolitan counties that have micropolitan areas: sites allowing at least 15 units per acre.

(ii) For unincorporated areas in all nonmetropolitan counties not included in clause (i): sites allowing at least 10 units per acre.

(iii) For suburban jurisdictions: sites allowing at least 20 units per acre.

(iv) For jurisdictions in metropolitan counties: sites allowing at least 30 units per acre.

(d) For purposes of this section, metropolitan counties, nonmetropolitan counties, and nonmetropolitan counties with micropolitan areas are as determined by the United States Census Bureau.

Nonmetropolitan counties with micropolitan areas include the following counties: Del Norte, Humboldt, Lake, Mendocino, Nevada, Tehama, and Tuolumne and such other counties as may be determined by the United States Census Bureau to be nonmetropolitan counties with micropolitan areas in the future.

(e) A jurisdiction is considered suburban if the jurisdiction does not meet the requirements of clauses (i) and (ii) of subparagraph (B) of paragraph (3) of subdivision (c) and is located in a Metropolitan Statistical Area (MSA) of less than 2,000,000 in population, unless that jurisdiction's population is greater than 100,000, in which case it is considered metropolitan. Counties, not including the City and County of San Francisco, will be considered suburban unless they are in a MSA of 2,000,000 or greater in population in which case they are considered metropolitan.

(f) A jurisdiction is considered metropolitan if the jurisdiction does not meet the requirements for "suburban area" above and is located in a MSA of 2,000,000 or greater in population, unless that jurisdiction's population is less than 25,000 in which case it is considered suburban.

(g) For sites described in paragraph (3) of subdivision (b), the city or county shall specify the additional development potential for each site within the planning period and shall provide an explanation of the methodology used to determine the development potential. The methodology shall consider factors including the extent to which existing uses may constitute an impediment to additional residential development, development trends, market conditions, and regulatory or other incentives or standards to encourage additional residential development on these sites.

(h) The program required by subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 shall accommodate 100 percent of the need for housing for very low and low-income households allocated pursuant to Section 65584 for which site capacity has not been identified in the inventory of sites pursuant to paragraph (3) of subdivision (a) on sites that shall be zoned to permit owner-occupied and rental multifamily residential use by right during the planning period. These sites shall be zoned with minimum density and development standards that permit at least 16 units per site at a density of at least 16 units per acre in jurisdictions described in clause (i) of subparagraph (B) of paragraph (3) of subdivision (c) and at least 20 units per acre in jurisdictions described in clauses (iii) and (iv) of subparagraph (B) of paragraph (3) of subdivision (c). At least 50 percent of the very low and low-income housing need shall be accommodated on sites designated for residential use and for which nonresidential uses or mixed-uses are not permitted.

(i) For purposes of this section and Section 65583, the phrase "use by right" shall mean that the local government's review of the owner-occupied or multifamily residential use may not require a conditional use permit, planned unit development permit, or other discretionary local government review or approval that would constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Any subdivision of the sites shall be subject to all laws, including, but not limited to, the local government ordinance implementing the Subdivision Map Act. A local ordinance may provide that "use by right" does not exempt the use from design review. However, that design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Use by right for all rental multifamily residential housing shall be provided in accordance with subdivision (f) of Section 65589.5.

SEC. 4. Section 65584.04 of the Government Code is amended to read:

65584.04. (a) At least two years prior to a scheduled revision required by Section 65588, each council of governments, or delegate subregion as applicable, shall develop a proposed methodology for distributing the existing and projected regional housing need to cities, counties, and cities and counties within the region or within the subregion, where applicable pursuant to this section. The methodology shall be consistent with the objectives listed in subdivision (d) of Section 65584.

(b) (1) No more than six months prior to the development of a proposed methodology for distributing the existing and projected housing need, each council of governments shall survey each of its member jurisdictions to request, at a minimum, information regarding the factors listed in subdivision (d) that will allow the development of a methodology based upon the factors established in subdivision (d).

(2) The council of governments shall seek to obtain the information in a manner and format that is comparable throughout the region and utilize readily available data to the extent possible.

(3) The information provided by a local government pursuant to this section shall be used, to the extent possible, by the council of governments, or delegate subregion as applicable, as source information for the methodology developed pursuant to this section. The survey shall state that none of the information received may be used as a basis for reducing the total housing need established for the region pursuant to Section 65584.01.

(4) If the council of governments fails to conduct a survey pursuant to this subdivision, a city, county, or city and county may submit

information related to the items listed in subdivision (d) prior to the public comment period provided for in subdivision (c).

(c) Public participation and access shall be required in the development of the methodology and in the process of drafting and adoption of the allocation of the regional housing needs. Participation by organizations other than local jurisdictions and councils of governments shall be solicited in a diligent effort to achieve public participation of all economic segments of the community. The proposed methodology, along with any relevant underlying data and assumptions, and an explanation of how information about local government conditions gathered pursuant to subdivision (b) has been used to develop the proposed methodology, and how each of the factors listed in subdivision (d) is incorporated into the methodology, shall be distributed to all cities, counties, any subregions, and members of the public who have made a written request for the proposed methodology. The council of governments, or delegate subregion, as applicable, shall conduct at least one public hearing to receive oral and written comments on the proposed methodology.

(d) To the extent that sufficient data is available from local governments pursuant to subdivision (b) or other sources, each council of governments, or delegate subregion as applicable, shall include the following factors to develop the methodology that allocates regional housing needs:

(1) Each member jurisdiction's existing and projected jobs and housing relationship.

(2) The opportunities and constraints to development of additional housing in each member jurisdiction, including all of the following:

(A) Lack of capacity for sewer or water service due to federal or state laws, regulations or regulatory actions, or supply and distribution decisions made by a sewer or water service provider other than the local jurisdiction that preclude the jurisdiction from providing necessary infrastructure for additional development during the planning period.

(B) The availability of land suitable for urban development or for conversion to residential use, the availability of underutilized land, and opportunities for infill development and increased residential densities. The council of governments may not limit its consideration of suitable housing sites or land suitable for urban development to existing zoning ordinances and land use restrictions of a locality, but shall consider the potential for increased residential development under alternative zoning ordinances and land use restrictions. The determination of available land suitable for urban development may exclude lands where the Federal Emergency Management Agency (FEMA) or the Department of Water Resources has determined that the flood management infrastructure designed to protect that land is not adequate to avoid the risk of flooding.

(C) Lands preserved or protected from urban development under existing federal or state programs, or both, designed to protect open space, farmland, environmental habitats, and natural resources on a long-term basis.

(D) County policies to preserve prime agricultural land, as defined pursuant to Section 56064, within an unincorporated area.

(3) The distribution of household growth assumed for purposes of a comparable period of regional transportation plans and opportunities to maximize the use of public transportation and existing transportation infrastructure.

(4) The market demand for housing.

(5) Agreements between a county and cities in a county to direct growth toward incorporated areas of the county.

(6) The loss of units contained in assisted housing developments, as defined in paragraph (9) of subdivision (a) of Section 65583, that changed to non-low-income use through mortgage prepayment, subsidy contract expirations, or termination of use restrictions.

(7) High-housing cost burdens.

(8) The housing needs of farmworkers.

(9) The housing needs generated by the presence of a private university or a campus of the California State University or the University of California within any member jurisdiction.

The methodology may include numerical weighting.

(f) Any ordinance, policy, voter-approved measure, or standard of a city or county that directly or indirectly limits the number of residential building permits issued by a city or county shall not be a justification for a determination or a reduction in the share of a city or county of the regional housing need.

(g) In addition to the factors identified pursuant to subdivision (d), the council of governments, or delegate subregion, as applicable, shall identify any existing local, regional, or state incentives, such as a priority for funding or other incentives available to those local governments that are willing to accept a higher share than proposed in the draft allocation to those local governments by the council of governments or delegate subregion pursuant to Section 65584.05.

(h) Following the conclusion of the 60-day public comment period described in subdivision (c) on the proposed allocation methodology, and after making any revisions deemed appropriate by the council of

governments, or delegate subregion, as applicable, as a result of comments received during the public comment period, each council of governments, or delegate subregion, as applicable, shall adopt a final regional, or subregional, housing need allocation methodology and provide notice of the adoption of the methodology to the jurisdictions within the region, or delegate subregion as applicable, and to the department.

SEC. 5. Section 65584.05 of the Government Code is amended to read:

65584.05. (a) At least one and one-half years prior to the scheduled revision required by Section 65588, each council of governments and delegate subregion, as applicable, shall distribute a draft allocation of regional housing needs to each local government in the region or subregion, where applicable, based on the methodology adopted pursuant to Section 65584.04. The draft allocation shall include the underlying data and methodology on which the allocation is based. It is the intent of the Legislature that the draft allocation should be distributed prior to the completion of the update of the applicable regional transportation plan. The draft allocation shall distribute to localities and subregions, if any, within the region the entire regional housing need determined pursuant to Section 65584.01 or within subregions, as applicable, the subregion's entire share of the regional housing need determined pursuant to Section 65584.03.

(b) Within 60 days following receipt of the draft allocation, a local government may request from the council of governments or the delegate subregion, as applicable, a revision of its share of the regional housing need in accordance with the factors described in paragraphs (1) to (9), inclusive, of subdivision (d) of Section 65584.04, including any information submitted by the local government to the council of governments pursuant to subdivision (b) of that section. The request for a revised share shall be based upon comparable data available for all affected jurisdictions and accepted planning methodology, and supported by adequate documentation.

(c) Within 60 days after the request submitted pursuant to subdivision (b), the council of governments or delegate subregion, as applicable, shall accept the proposed revision, modify its earlier determination, or indicate, based upon the information and methodology described in Section 65584.04, why the proposed revision is inconsistent with the regional housing need.

(d) If the council of governments or delegate subregion, as applicable, does not accept the proposed revised share or modify the revised share to the satisfaction of the requesting party, the local government may

appeal its draft allocation based upon either or both of the following criteria:

(1) The council of governments or delegate subregion, as applicable, failed to adequately consider the information submitted pursuant to subdivision (b) of Section 65584.04, or a significant and unforeseen change in circumstances has occurred in the local jurisdiction that merits a revision of the information submitted pursuant to that subdivision.

(2) The council of governments or delegate subregion, as applicable, failed to determine its share of the regional housing need in accordance with the information described in, and the methodology established pursuant to Section 65584.04.

(e) The council of governments or delegate subregion, as applicable, shall conduct public hearings to hear all appeals within 60 days after the date established to file appeals. The local government shall be notified within 10 days by certified mail, return receipt requested, of at least one public hearing on its appeal. The date of the hearing shall be at least 30 days and not more than 35 days after the date of the notification. Before taking action on an appeal, the council of governments or delegate subregion, as applicable, shall consider all comments, recommendations, and available data based on accepted planning methodologies submitted by the appellant. The final action of the council of governments or delegate subregion, as applicable, on an appeal shall be in writing and shall include information and other evidence explaining how its action is consistent with this article. The final action on an appeal may require the council of governments or delegate subregion, as applicable, to adjust the allocation of a local government that is not the subject of an appeal.

(f) The council of governments or delegate subregion, as applicable, shall issue a proposed final allocation within 45 days after the completion of the 60-day period for hearing appeals. The proposed final allocation plan shall include responses to all comments received on the proposed draft allocation and reasons for any significant revisions included in the final allocation.

(g) In the proposed final allocation plan, the council of governments or delegate subregion, as applicable, shall adjust allocations to local governments based upon the results of the revision request process and the appeals process specified in this section. If the adjustments total 7 percent or less of the regional housing need determined pursuant to Section 65584.01, or, as applicable, total 7 percent or less of the subregion's share of the regional housing need as determined pursuant to Section 65584.03, then the council of governments or delegate subregion, as applicable, shall distribute the adjustments proportionally to all local governments. If the adjustments total more than 7 percent of the regional housing need, then the council of governments or delegate

subregion, as applicable, shall develop a methodology to distribute the amount greater than the 7 percent to local governments. In no event shall the total distribution of housing need equal less than the regional housing need, as determined pursuant to Section 65584.01, nor shall the subregional distribution of housing need equal less than its share of the regional housing need as determined pursuant to Section 65584.03. Two or more local governments may agree to an alternate distribution of appealed housing allocations between the affected local governments. If two or more local governments agree to an alternative distribution of appealed housing allocations that maintains the total housing need originally assigned to these communities, then the council of governments shall include the alternative distribution in the final allocation plan.

(h) Within 45 days after the issuance of the proposed final allocation plan by the council of governments and each delegate subregion, as applicable, the council of governments shall hold a public hearing to adopt a final allocation plan. To the extent that the final allocation plan fully allocates the regional share of statewide housing need, as determined pursuant to Section 65584.01, the council of governments shall have final authority to determine the distribution of the region's existing and projected housing need as determined pursuant to Section 65584.01. Within 60 days after adoption by the council of governments, the department shall determine whether or not the final allocation plan is consistent with the existing and projected housing need for the region, as determined pursuant to Section 65584.01. The department may revise the determination of the council of governments if necessary to obtain this consistency.

(i) Any authority of the council of governments to review and revise the share of a city or county of the regional housing need under this section shall not constitute authority to revise, approve, or disapprove the manner in which the share of the city or county of the regional housing need is implemented through its housing program.

The Director of Public Health shall adopt and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 for the purposes described in this section. The State Department of Public Health shall enforce building standards published in the State Building Standards Code relating to organized camps and such other rules and regulations adopted by such director pursuant to the provisions of this section as the director determines are necessary to protect the health and safety of campers. In adopting building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 and in adopting such other rules and regulations pursuant to the provisions of this section, the Director of Public Health shall consider the Camp Standards of the American Camping Association.

(b) The Director of Public Health shall adopt and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 and shall adopt such other rules and regulations pursuant to the provisions of this section establishing minimum standards for intermittent short-term organized camps operated by a city or a county as the director deems necessary to protect the health and safety of campers. For purposes of this subdivision, "intermittent short-term organized camps" means a site for camping by any group of people for a period of not more than 72 consecutive hours for that group.

SEC. 20. Section 18897.4 of the Health and Safety Code is amended to read:

18897.4. Every local health officer shall enforce within his or her jurisdiction the building standards published in the State Building Standards Code relating to organized camps and the other rules and regulations adopted by the Director of Public Health pursuant to Section 18897.2.

SEC. 21. Section 18897.6 of the Health and Safety Code is amended to read:

18897.6. Organized camps shall not be subject to regulation by any state agency other than the State Department of Public Health, California regional water quality control boards, the State Water Resources Control Board, and the State Fire Marshal; provided, that this section shall not affect the authority of the Department of Industrial Relations to regulate the wages or hours of employees of organized camps and this section shall not be construed to limit the application of building standards published in the State Building Standards Code to structures in organized camps.

SEC. 22. Section 18897.7 of the Health and Safety Code is amended to read:

18897.7. No organized camp shall be operated in this state unless each site or location in which the camp operates satisfies the minimum standards for organized camps prescribed in building standards published in the State Building Standards Code relating to organized camps, and in other rules and regulations adopted by the Director of Public Health and the State Fire Marshal. Any violation of this section or of any building standard published in the State Building Standards Code relating to organized camps or any other rule or regulation adopted pursuant to Section 18897.2 or 18897.3 in the operation of organized camps is a misdemeanor.

SEC. 23. Section 50675.14 of the Health and Safety Code is amended to read:

50675.14. (a) This section shall apply only to projects funded with funds appropriated for supportive housing projects.

(b) For purposes of this section the following terms have the following meanings:

(1) "Supportive housing" means housing with no limit on length of stay, that is occupied by the target population, and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community.

(2) "Target population" means persons with low incomes having one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health conditions, or individuals eligible for services provided under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code) and may include, among other populations, adults, emancipated youth, families, families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, and homeless people.

(c) The criteria, established by the department, for selecting supportive housing projects shall give priority to the following:

(1) Supportive housing projects that house persons with disabilities who would otherwise be at high risk of homelessness, where the application for funding demonstrates collaboration with programs that meet the needs of the supportive housing residents' disabilities.

(2) Supportive housing projects that include a focus on measurable outcomes and a plan for evaluation, which evaluation shall be submitted by the borrowers, annually, to the department.

(d) The department may provide higher per-unit loan limits as reasonably necessary to provide and maintain rents that are affordable to the target population.

(e) In an evaluation or ranking of a borrower's development and ownership experience, the department shall consider experience acquired in the prior 10 years.

(f) (1) A borrower shall, beginning the second year after supportive housing project occupancy, include the following data in his or her annual report to the department. However, a borrower who submits an annual evaluation pursuant to subdivision (c) may, instead, include this information in the evaluation:

(A) The length of occupancy by each supportive housing resident for the period covered by the report.

(B) Changes in each supportive housing resident's employment status during the previous year.

(C) Changes in each supportive housing resident's source and amount of income during the previous year.

(2) The department shall include aggregate data with respect to the supportive housing projects described in this section in the report that it submits to the Legislature pursuant to Section 50675.12.

(g) The department shall consider, commencing in the second year of the funding, the feasibility and appropriateness of modifying its regulations to increase the use of funds by small projects. In doing this, the department shall consider its operational needs and prior history of funding supportive housing facilities.

SEC. 24. Section 50802 of the Health and Safety Code is amended to read:

50802. (a) The department shall ensure that not less than 20 percent of the moneys in the Emergency Housing and Assistance Fund shall be allocated to nonurban counties during any given fiscal year. If the funds designated for facilities operation that are allocated to nonurban counties are not awarded by the end of that fiscal year, then those unencumbered funds shall be allocated in the next fiscal year to urban counties. Funds for capital development that are not awarded by the end of the second fiscal year shall be awarded in the subsequent fiscal year to urban counties.

(b) The amount of funds that the department allocates from the Emergency Housing and Assistance Fund to each region, excluding funds allocated pursuant to subdivision (a), shall be based upon a formula that accords at least 20 percent weight to each of the following factors:

(1) The relative number of persons in the region below the poverty line according to the most recent federal census, updated, if possible, with an estimate by the Department of Finance, compared to the total of the urban counties.

(2) The relative number of persons unemployed within each region, based on the most recent one-year period for which data is available, compared to the total of the urban counties.

(c) Grant funds shall be disbursed as expeditiously as possible by the department.

(d) The department shall use not more than 5 percent of the amount available for funds pursuant to this chapter to defray the department's administrative costs pursuant to this chapter.

(e) Notwithstanding any other provision of this chapter, the department shall distribute funds appropriated for purposes of the activities specified in paragraph (2) of subdivision (a) of Section 50803 as grants in the form of forgivable deferred loans, subject to all of the following:

(1) Funding shall be made available to each project as a loan with a term of five years for rehabilitation, seven years for substantial rehabilitation, or 10 years for acquisition and rehabilitation or new construction. Each deferred loan shall be secured by a deed of trust and promissory note. Repayment of the loan shall be deferred as long as the project is used as an emergency shelter or transitional housing. At the completion of the specified year term, the loan shall be forgiven. If a transfer or conveyance of the project property, however, occurs prior to that time that results in the property no longer being used as an emergency shelter or transitional housing, the department shall terminate the grant and require the repayment of the deferred loan in full.

(2) Applications for funding shall be made pursuant to department-issued statewide "Notices of Funding Availability" without the need for additional regulations.

(3) The department shall set forth the criteria for evaluating applications in the "Notices of Funding Availability" and shall make deferred loans based on those applications that best meet the criteria.

(4) The department shall specify in the "Notice of Funding Availability" both maximum and minimum grant amounts that may be varied for urban and nonurban counties.

(5) Contracts for projects that have not begun construction within the initial 12-month period shall be terminated and funds reallocated. The department, however, may extend this period by a period not to exceed 12 months.

SEC. 25. (a) Section 1 of this act shall not become operative if Senate Bill 375 of the 2007–08 Regular Session is enacted and becomes effective on or before January 1, 2009, and amends Section 65400 of the Government Code.

(b) Section 2 of this act shall not become operative if Senate Bill 375 of the 2007–08 Regular Session is enacted and becomes effective on or

before January 1, 2009, and amends Section 65583 of the Government Code.

(c) Section 4 of this act shall not become operative if Senate Bill 375 of the 2007–08 Regular Session is enacted and becomes effective and amends Section 65584.04 of the Government Code.

(d) Section 6 of this act shall not become operative if Senate Bill 375 of the 2007–08 Regular Session is enacted and becomes effective and amends Section 65588 of the Government Code.

SEC. 26. Section 16.5 of this bill incorporates amendments to Section 18031.7 of the Health and Safety Code proposed by both this bill and AB 2050. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2009, (2) each bill amends Section 18031.7 of the Health and Safety Code, and (3) this bill is enacted after AB 2050, in which case Section 16 of this bill shall not become operative.

SEC. 27. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

## CHAPTER 665

An act to amend, repeal, and add Section 1675 of the Civil Code, relating to residential property.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1675 of the Civil Code is amended to read:

1675. (a) As used in this section, "residential property" means real property primarily consisting of a dwelling that meets both of the following requirements:

(1) The dwelling contains not more than four residential units.

(2) At the time the contract to purchase and sell the property is made, the buyer intends to occupy the dwelling or one of its units as his or her residence.

(b) A provision in a contract to purchase and sell residential property that provides that all or any part of a payment made by the buyer shall constitute liquidated damages to the seller upon the buyer's failure to complete the purchase of the property is valid to the extent that payment in the form of cash or check, including a postdated check, is actually made if the provision satisfies the requirements of Sections 1677 and 1678 and either subdivision (c) or (d) of this section.

(c) If the amount actually paid pursuant to the liquidated damages provision does not exceed 3 percent of the purchase price, the provision is valid to the extent that payment is actually made unless the buyer establishes that the amount is unreasonable as liquidated damages.

(d) If the amount actually paid pursuant to the liquidated damages provision exceeds 3 percent of the purchase price, the provision is invalid unless the party seeking to uphold the provision establishes that the amount actually paid is reasonable as liquidated damages.

(e) For the purposes of subdivisions (c) and (d), the reasonableness of an amount actually paid as liquidated damages shall be determined by taking into account both of the following:

(1) The circumstances existing at the time the contract was made.

(2) The price and other terms and circumstances of any subsequent sale or contract to sell and purchase the same property if the sale or contract is made within six months of the buyer's default.

(f) (1) Notwithstanding either subdivision (c) or (d), for the initial sale of newly constructed attached condominium units, as defined pursuant to Section 783 that involves the sale of an attached residential condominium unit located within a structure of 10 or more residential condominium units and the amount actually paid to the seller pursuant to the liquidated damages provision exceeds 3 percent of the purchase price of the residential unit in the transaction both of the following shall occur in the event of a buyer's default:

(A) The seller shall perform an accounting of its costs and revenues related to and fairly allocable to the construction and sale of the residential unit within 60 calendar days after the final close of escrow of the sale of the unit within the structure.

(B) The accounting shall include any and all costs and revenues related to the construction and sale of the residential property and any delay caused by the buyer's default. The seller shall make reasonable efforts to mitigate any damages arising from the default. The seller shall refund to the buyer any amounts previously retained as liquidated damages in excess of the greater of either 3 percent of the originally agreed-upon purchase price of the residential property or the amount of the seller's losses resulting from the buyer's default, as calculated by the accounting.

(2) The refund shall be sent to the buyer's last known address within 90 days after the final close of escrow of the sale or lease of all the residential condominium units within the structure.

(3) If the amount retained by the seller after the accounting does not exceed 3 percent of the purchase price, the amount is valid unless the buyer establishes that the amount is unreasonable as liquidated damages pursuant to subdivision (e).

(4) Subdivision (d) shall not apply to any dispute regarding the reasonableness of any amount retained as liquidated damages pursuant to this subdivision.

(5) Notwithstanding the time periods regarding the performance of the accounting set forth in paragraph (1), if a new qualified buyer has entered into a contract to purchase the residential property in question, the seller shall perform the accounting within 60 calendar days after a new qualified buyer has entered into a contract to purchase.

(6) As used in this subdivision, "structure" means either of the following:

(A) Improvements constructed on a common foundation.

(B) Improvements constructed by the same owner that must be constructed concurrently due to the design characteristics of the improvements or physical characteristics of the property on which the improvements are located.

(7) As used in this subdivision, "new qualified buyer" means a buyer who either:

(A) Has been issued a loan commitment, which satisfies the purchase agreement loan contingency requirement, by an institutional lender to obtain a loan for an amount equal to the purchase price less any downpayment possessed by the buyer.

(B) Has contracted to pay a purchase price that is greater than or equal to the purchase price to be paid by the original buyer.

(g) (1) (A) Notwithstanding subdivision (c), (d), or (f), for the initial sale of newly constructed attached condominium units, as defined pursuant to Section 783, that involves the sale of an attached residential condominium unit described in subparagraph (B), and the amount actually paid to the seller pursuant to the liquidated damages provision exceeds 6 percent of the purchase price of the residential unit in the transaction, then both of the following shall occur in the event of a buyer's default:

(i) The seller shall perform an accounting of its costs and revenues related to and fairly allocable to the construction and sale of the residential unit within 60 calendar days after the final close of escrow of the sale of the unit within the structure.

(ii) The accounting shall include any and all costs and revenues related to the construction and sale of the residential property and any delay

caused by the buyer's default. The seller shall make reasonable efforts to mitigate any damages arising from the default. The seller shall refund to the buyer any amounts previously retained as liquidated damages in excess of the greater of either 6 percent of the originally agreed-upon purchase price of the residential property or the amount of the seller's losses resulting from the buyer's default, as calculated by the accounting.

(B) This subdivision applies to an attached residential condominium unit for which both of the following are true:

(i) The unit is located within a structure of 20 or more residential condominium units, standing over eight stories high, that is high-density infill development, as defined in paragraph (10) of subdivision (a) of Section 21159.24 of the Public Resources Code, and that is located in a city, county, or city and county with a population density of 1,900 residents per square mile or greater, as evidenced by the 2000 United States census.

(ii) The purchase price of the unit was more than one million dollars ($1,000,000).

(2) The refund shall be sent to the buyer's last known address within 90 days after the final close of escrow of the sale or lease of all the residential condominium units within the structure.

(3) If the amount retained by the seller after the accounting does not exceed 6 percent of the purchase price, the amount is valid unless the buyer establishes that the amount is unreasonable as liquidated damages pursuant to subdivision (e).

(4) Subdivision (d) shall not apply to any dispute regarding the reasonableness of any amount retained as liquidated damages pursuant to this subdivision.

(5) Notwithstanding the time periods regarding the performance of the accounting set forth in paragraph (1), if a new qualified buyer has entered into a contract to purchase the residential property in question, the seller shall perform the accounting within 60 calendar days after a new qualified buyer has entered into a contract to purchase.

(6) As used in this subdivision, "structure" means either of the following:

(A) Improvements constructed on a common foundation.

(B) Improvements constructed by the same owner that must be constructed concurrently due to the design characteristics of the improvements or physical characteristics of the property on which the improvements are located.

(7) As used in this subdivision, "new qualified buyer" means a buyer who either:

(A) Has been issued a loan commitment, which satisfies the purchase agreement loan contingency requirement, by an institutional lender to

obtain a loan for an amount equal to the purchase price less any downpayment possessed by the buyer.

(B) Has contracted to pay a purchase price that is greater than or equal to the purchase price to be paid by the original buyer.

(8) Commencing on July 1, 2010, and annually on each July 1 thereafter, the dollar amount of the minimum purchase price specified in paragraph (1) shall be adjusted. The Real Estate Commissioner shall determine the amount of the adjustment based on the change in the median price of a single family home in California, as determined by the most recent data available from the Federal Housing Finance Board. Upon determining the amount of the adjustment, the Real Estate Commissioner shall publish the current dollar amount of the minimum purchase price on the Internet Web site of the Department of Real Estate.

(9) Prior to the execution of a contract for sale of a residential condominium unit subject to this subdivision, the seller shall provide to the buyer the following notice, in at least 12-point type:

"Important Notice Regarding Your Deposit: Under California law, in a contract for the initial sale of a newly constructed attached condominium unit in a building over eight stories tall, containing 20 or more residential units, and located in a high-density infill development in a city, county, or city and county with 1,900 residents or more per square mile, where the price is more than one million dollars ($1,000,000), as adjusted by the Department of Real Estate, liquidated damages of 6 percent of the purchase price are presumed valid if the buyer defaults, unless the buyer establishes that the amount is unreasonable."

If the seller fails to provide this notice to the buyer prior to the execution of the contract, the amount of any liquidated damages shall be subject to subdivisions (c) and (d).

(h) This section shall become inoperative on July 1, 2014, and, as of January 1, 2015, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2015, deletes or extends the dates on which it becomes inoperative and is repealed.

## CHAPTER 666

An act to add Sections 60852.1 and 60852.2 to the Education Code, relating to the high school exit examination.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 60852.1 is added to the Education Code, to read:

60852.1. (a) The Superintendent shall recommend, and the state board shall select, members of a panel that will convene to make recommendations regarding alternative means for eligible pupils with disabilities to demonstrate that they have achieved the same level of academic achievement in the content standards in English language arts or mathematics, or both, required for passage of the high school exit examination.

(1) The panel shall be composed of educators and other individuals who have experience with the population of pupils with disabilities eligible for alternative means of demonstrating academic achievement, as defined in Section 60852.2, and educators and other individuals who have expertise with multiple forms of assessment. The panel shall consult with experts in other states that offer alternative means for pupils with disabilities to demonstrate academic achievement. A majority of the panel shall be classroom teachers.

(2) The panel shall make findings and recommendations regarding all of the following:

(A) Specific options for alternative assessments, submission of evidence, or other alternative means by which eligible pupils with disabilities may demonstrate that they have achieved the same level of academic achievement in the content standards in English language arts or mathematics, or both, required for passage of the high school exit examination.

(B) Scoring or other evaluation systems designed to ensure that the pupil has achieved the same competence in the content standards required for passage of the high school exit examination.

(C) Processes to ensure that the form, content, and scoring of assessments, evidence, or other means of demonstrating academic achievement are applied uniformly across the state.

(D) Estimates of one-time or ongoing costs, and whether each option should be implemented on a statewide or regional basis, or both.

(3) The panel shall present its options and make its findings and recommendations to the Superintendent and to the state board by October 1, 2009.

(b) By October 1, 2010, for those portions of, or those academic content standards assessed by, the high school exit examination for which the state board determines it is feasible to create alternative means by which eligible pupils with disabilities may demonstrate the same level of academic achievement required for passage of the high school exit

examination, the state board, taking into consideration the findings and recommendations of the panel, shall adopt regulations for alternative means by which eligible pupils with disabilities, as defined in Section 60952.2, may demonstrate that they have achieved the same level of academic achievement in the content standards required for passage of the high school exit examination. The regulations shall include appropriate timelines and the manner in which pupils and school districts shall be timely notified of the results.

SEC. 2. Section 60852.2 is added to the Education Code, to read:

60852.2. (a) For purposes of this chapter, "eligible pupil with a disability" means a pupil who meets all of the following criteria:

(1) The pupil has an operative individualized education program adopted pursuant to the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.) or a plan adopted pursuant to Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794 (a)) that indicates that the pupil has an anticipated graduation date and is scheduled to receive a high school diploma on or after January 1, 2011.

(2) The pupil has not passed the high school exit examination.

(3) The school district or state special school certifies that the pupil has satisfied or will satisfy all other state and local requirements for the receipt of a high school diploma on or after January 1, 2011.

(4) The pupil has attempted to pass those sections not yet passed of the high school exit examination at least twice after grade 10, including at least once during the current enrollment of the pupil in grade 12, with the accommodations or modifications, if any, specified in the individualized education program or the Section 504 plan of the pupil.

(b) Commencing January 1, 2011, an eligible pupil with a disability may participate in the alternative means of demonstrating the level of academic achievement in the content standards required for passage of the high school exit examination in the manner prescribed by the regulations adopted pursuant to Section 60852.1. The state board may, by regulation, extend this date by up to two years if it determines that an extension is necessary for the appropriate implementation of the regulations adopted pursuant to Section 60852.1.

(c) An eligible pupil with a disability shall be deemed to have satisfied the requirements of Section 60851 for those parts of the high school exit examination that the pupil has not passed if the school district in which the pupil is enrolled is notified that the pupil has successfully demonstrated the same level of academic achievement in the statewide content standards as the level of academic achievement that is necessary to pass the high school exit examination through one or more of the alternative means prescribed in the regulations adopted pursuant to Section 60852.1.

SEC. 3. The funds appropriated pursuant to Provision 23 of Item 6110-001-0890 of the Budget Act of 2008 shall be allocated by the Superintendent of Public Instruction in the following manner:

(a) Two hundred thousand dollars ($200,000) to support the work of the panel established pursuant to Section 60952.1 of the Education Code.

(b) The balance of the one million fifty thousand dollars ($1,050,000) shall be used pursuant to an expenditure plan developed by the State Department of Education and approved by the Director of Finance to implement the requirements of Sections 60852.1 and 60852.2 of the Education Code.

## CHAPTER 667

An act to add Section 2302 to the Fish and Game Code, relating to invasive aquatic species.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) The introduction and spread of nonnative dreissenid mussel species threaten the California water system and the ecological health of California waterways.

(b) Nonnative dreissenid mussel species are fast-growing mollusks that can rapidly grow into dense barnacle-like clusters and completely cover and clog critical water supply infrastructure.

(c) Nonnative dreissenid mussel species have been shown to disrupt the ecological balance in watersheds, lakes, and reservoirs by devouring massive amounts of food and nutrients and starving native species.

(d) Nonnative dreissenid mussel species reproduce quickly. A single mussel may release over 40,000 eggs in a reproductive cycle and up to 1,000,000 eggs in a spawning season.

(e) Nonnative dreissenid mussel species spread easily. The microscopic larval stage of the mussels can be suspended in water and move downstream to other water bodies or can be carried in plants, boats, motors, trailers, and recreational equipment.

(f) Zebra and quagga mussels, both of which are nonnative dreissenid mussel species, have recently been discovered in California. Since early 2007, nonnative quagga mussels have been found in the Colorado River and the Colorado River Aqueduct, and at least 10 reservoirs in Nevada,

Arizona, and southern California. In January 2008, nonnative zebra mussels were first discovered in northern California and in the San Justo Reservoir in San Benito County.

(g) Wherever nonnative dreissenid mussels have invaded, water system costs have risen dramatically to provide for cleaning of facilities, additional treatment, and construction of additional water supply intakes. The Department of Water Resources estimates the cost to control mussels in the State Water Project to be forty million dollars ($40,000,000) annually.

(h) Working to prevent the spread of dreissenid mussels in California is a serious problem and requires the combined effort of federal, state, and local entities.

(i) The state is implementing an early detection monitoring program that involves the monitoring of high-priority water bodies throughout the state, including California waters, rivers, and the Sacramento-San Joaquin Delta, for the presence of dreissenid mussels.

(j) The combined effort of federal, state, and local entities is needed to address this serious threat at reservoirs throughout the state.

SEC. 2. Section 2302 is added to the Fish and Game Code, to read:

2302. (a) Any person, or federal, state, or local agency, district, or authority that owns or manages a reservoir, as defined in Section 6004.5 of the Water Code, where recreational, boating, or fishing activities are permitted, except a privately owned reservoir that is not open to the public, shall do both of the following:

(1) Assess the vulnerability of the reservoir for the introduction of nonnative dreissenid mussel species.

(2) Develop and implement a program designed to prevent the introduction of nonnative dreissenid mussel species.

(b) The program shall include, at a minimum, all of the following:

(1) Public education.

(2) Monitoring.

(d) Any entity that owns or manages a reservoir, as defined in Section 6004.5 of the Water Code, except a privately owned reservoir that is not open to the public for recreational, boating, or fishing activities, may

(e) Except as specifically set forth in this section, this section applies both to reservoirs that are owned or managed by governmental entities and reservoirs that are owned or managed by private persons or entities.

### PART 9. HEALTH BENEFITS FOR DEPENDENTS OF STATE EMPLOYEES

22980. (a) If a correctional officer who was injured as a result of an incident at a state prison and subsequently retired from state employment and sustained an injury as the result of a work-related event that arose out of and in the course of his or her official duties as a correctional officer at a state prison, before January 1, 1984, and that meets the definition of a bloodborne infectious disease contained in Section 3212.8 of the Labor Code, and a dependent or former dependent of that person contracts the bloodborne infectious disease from that correctional officer,

the dependent or former dependent may elect to receive health care benefits sufficient to cover all medically necessary health care costs associated with the disease, for the duration of the disease. The state shall contribute the cost of providing that benefit coverage from the General Fund, upon appropriation by the Legislature. The dependent's or former dependent's health care coverage shall cease if that person is subsequently employed by an agency that provides health care coverage under the Public Employees' Retirement System.

(b) If the dependent or former dependent elects to receive benefits pursuant to this section that do not already exist, his or her election shall constitute the sole and exclusive remedy of the dependent or former dependent against the employer of the employee or former employer of the annuitant and the dependent or former dependent may not bring a civil action against the state.

(c) If the dependent or former dependent does not elect to receive benefits pursuant to this section, as specified in subdivision (a), the dependent or former dependent shall retain the right to pursue all civil remedies otherwise allowed by law, and shall not be subject to a defense that the dependent's or former dependent's claim is barred by this section.

(d) For purposes of this section, "former dependent" means a person who was diagnosed with a bloodborne infectious disease, on or after January 1, 1990, which was contracted from a correctional officer who comes within the description of subdivision (a) and is covered under Section 3212.8 of the Labor Code while a dependent of that person, but the dependency relationship has terminated.

(e) For purposes of this section, "dependent" has the meaning provided by Section 17056 of the Revenue and Taxation Code.

(f) It is the intent of the Legislature that this section apply retroactively.

(g) The Board of Directors of the State Compensation Insurance Fund shall administer this benefit.

(h) This section shall become operative on July 1, 2009.

# CHAPTER 671

An act to add and repeal Article 2 (commencing with Section 78910) of Chapter 7 of Part 48 of Division 7 of Title 3 of the Education Code, relating to community colleges.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) Open education resources are learning materials or resources whose copyrights have expired, or that have been released with an intellectual property license that permits their free use or repurposing by others without the permission of the original authors or creators. Open education resources include items such as courses, course materials, textbooks, streaming video of classroom lectures, tests, software, and any other tools, materials, or techniques used to transmit knowledge that have an impact on teaching and learning.

(b) Community colleges need to take greater advantage of open education resources, especially for basic skills and general education classes, including, but not limited to, algebra, that use course content that remains generally unchanged over time.

SEC. 2. Article 2 (commencing with Section 78910) is added to Chapter 7 of Part 48 of Division 7 of Title 3 of the Education Code, to read:

## Article 2. Open Education Resources Centers

78910. The Chancellor of the California Community Colleges may designate a lead community college district to coordinate the planning and development of the pilot program.

(b) For purposes of this article, "open education resources" are learning materials or resources, including, but not necessarily limited to, books, course materials, video materials, tests, or software, the

(c) The lead community college district specified in subdivision (a) shall be selected from community college district applicants based upon a demonstration of its ability to accomplish all of the following:

(1) Develop and implement a model for the creation of open education resources (OER) course content that is pedagogically sound and fully accessible, in compliance with the federal Americans With Disabilities Act (Public Law 101-336), by students with varying learning styles and disabilities.

(2) Develop community college model OER courses and instructional materials that meet the requirements of the Intersegmental General Education Transfer Curriculum (IGETC) or of basic skills education courses in English, English as a second language, or mathematics, or that meet the requirements of both the IGETC and the basic skills education courses.

(3) Develop a community college professional development course that introduces faculty, staff, and college course developers to the concept, creation, content, and production methodologies that enable OER to be offered to students in community college classes, including, but not necessarily limited to, all of the following:

(A) Substitutes for textbooks.

(B) Addressing issues relating to copyright, the obtaining of permission for use of material, and other intellectual property concepts.

(C) Accessibility for students with disabilities.

(f) No additional state appropriation shall be requested or provided for purposes of the section.

78910.5. This article shall remain in effect only until January 1, 2012 , and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2012, deletes or extends that date.

## CHAPTER 672

An act to amend Sections 400 and 21714 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 400 of the Vehicle Code is amended to read:

400. (a) A "motorcycle" is a motor vehicle having a seat or saddle for the use of the rider, designed to travel on not more than three wheels in contact with the ground.

(b) A motor vehicle that has four wheels in contact with the ground, two of which are a functional part of a sidecar, is a motorcycle if the vehicle otherwise comes within the definition of subdivision (a).

(c) A farm tractor is not a motorcycle.

(d) A three-wheeled motor vehicle that otherwise meets the requirements of subdivision (a), has a partially or completely enclosed seating area for the driver and passenger, is used by local public agencies for the enforcement of parking control provisions, and is operated at slow speeds on public streets, is not a motorcycle. However, a motor vehicle described in this subdivision shall comply with the applicable sections of this code imposing equipment installation requirements on motorcycles.

SEC. 2. Section 21714 of the Vehicle Code is amended to read:

(b) Between two or more vehicles that are traveling in adjacent traffic lanes.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

## CHAPTER 673

An act to amend Section 49561 of, and to add Section 49562 to, the Education Code, and to amend Section 14100.2 of the Welfare and Institutions Code, relating to school meals.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) Studies have shown that children who receive meals at school tend to perform better on academic tests, are less likely to be tardy or absent from school, and are more likely to get key nutrients needed for good health.

(b) The Medi-Cal program in California provides health care to low-income children throughout the state. With considerable state investment in this program, the Legislature recognizes that it has an interest in ensuring that these children receive proper nutrition in order to avoid the costly health consequences of an inadequate diet.

(c) Most children participating in the Medi-Cal program are eligible for free or reduced price school meals yet some are not enrolled. Many more are enrolled, but have had to fill out substantial paperwork at school to prove that they are in need of a free or reduced price meal, even though they have already provided substantial information to demonstrate need to the Medi-Cal program. This redundant paperwork can be a burden for families and for schools.

(d) Chapter 361 of the Statutes of 2005 required the State Department of Education to create a computerized data-matching system using databases from the department and from the State Department of Health Care Services to directly certify participants in the Food Stamp Program and CalWORKs program for enrollment in the National School Breakfast

Program and the National School Lunch Program. The Medi-Cal program was not included at that time.

(e) In California, this computerized matching system is now in place and successfully has been enrolling children from the Food Stamp Program and CalWORKs program into the school meal program. Other states have successfully tested the use of Medicaid data for verifying eligibility for school meals. California can be the first state to test the use of Medicaid data for directly enrolling Medicaid recipient children into school meal programs.

(f) Therefore, it is the intent of the Legislature to seek to expand direct certification for school meals by establishing a process to use Medi-Cal data for automatically enrolling needy children into free and reduced price school meal programs.

SEC. 2. Section 49561 of the Education Code is amended to read:

49561. (a) The department shall create a computerized data-matching system using existing databases from the department and the State Department of Health Care Services to directly certify recipients of the Food Stamp Program, the California Work Opportunity and Responsibility to Kids program (the CalWORKs program) (Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code), and other programs authorized for direct certification under federal law, for enrollment in the National School Lunch and School Breakfast Programs.

(b) The department shall design a process using an existing agency database that will conform with data from the State Department of Health Care Services to meet the direct certification requirements of the National School Lunch Act, as amended, pursuant to Chapter 13 (commencing with Section 1751) of Title 42 of the United States Code, and the federal Child Nutrition Act of 1966, as amended, pursuant to Chapter 13A (commencing with Section 1771) of Title 42 of the United States Code.

(c) The department shall design a process using computerized data pursuant to subdivision (a) that will maximize enrollment in school meal programs and improve program integrity while ensuring that pupil privacy safeguards remain in place. The State Department of Health Care Services shall conduct the data match of local school records and return a list to the department, including only the data fields submitted by the department and an indicator of program eligibility, as required by federal law.

(d) (1) Each state agency identified in subdivision (a) is responsible for the maintenance and protection of data received by their respective agency. The state agency that possesses the data shall follow privacy and confidentiality procedures consistent with all applicable state and federal law. To the extent permitted by state and federal law, the

department and the State Department of Health Care Services may review the data only for the purposes of improving the effectiveness of the data matches made pursuant to this section and Section 49562.

(2) Notwithstanding Section 10850 of the Welfare and Institutions Code, data that identify applicants for, or recipients of, public social services, may be transferred from existing databases maintained by the State Department of Health Care Services, in order to directly certify recipients of the Food Stamp Program, the CalWORKs program, and other programs authorized for direct certification under federal law, in compliance with subdivision (a). The Legislature hereby finds and declares that this paragraph is declaratory of existing law.

(e) The department shall determine the availability of and request or apply for, as appropriate, federal funds to assist the state in implementing new direct certification requirements mandated by federal law.

(f) This section shall become operative upon receipt of federal funds to assist the state in implementing new direct certification requirements mandated by federal law.

SEC. 3. Section 49562 is added to the Education Code, to read:

49562. (a) The department, in consultation with the State Department of Health Care Services, shall develop and implement a process to use participation data from the Medi-Cal program administered pursuant to Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code, to verify income as established in the federal Child Nutrition and WIC Reauthorization Act of 2004 (P.L. 108-265) and, to the extent permitted under federal law, directly certify children whose families meet the applicable income criteria into the school meal program.

(b) In the operation of this process, the department shall limit the information needed from the State Department of Health Care Services to identify families whose income falls below the eligibility cutoff for free or reduced price meals, and the least amount of information needed to facilitate a match of local school records. The State Department of Health Care Services shall conduct the data match of local school records and return a list to the department, including only the data fields submitted by the department and an indicator of program eligibility, as required by federal law.

(c) The department and the State Department of Health Care Services shall design this process to maintain pupil privacy and the privacy of Medi-Cal recipients by establishing privacy and confidentiality procedures consistent with all applicable state and federal laws. To the extent permitted by state and federal law, the department and the State Department of Health Care Services may review the data only for the

purposes of improving the effectiveness of the data matches made pursuant to this section and Section 49561.

(d) The department specifically shall ensure that the process conforms to the federal Health Insurance Portability and Accountability Act of 1996 (P.L. 104-191) by using strategies employed by other states in Medicaid verification projects or by developing a new strategy that ensures conformity.

(e) The department shall seek all necessary approvals to establish this process and shall apply for available federal funds to support the work of this process.

(f) This section shall become operative upon the receipt of federal funds to assist the state in implementing the provisions of this section.

SEC. 4. Section 14100.2 of the Welfare and Institutions Code is amended to read:

14100.2. (a) Except as provided in subdivision (i), all types of information, whether written or oral, concerning a person, made or kept by any public officer or agency in connection with the administration of any provision of this chapter, Chapter 8 (commencing with Section 14200), or Chapter 8.7 (commencing with Section 14520) and for which a grant-in-aid is received by this state from the United States government pursuant to Title XIX of the Social Security Act shall be confidential, and shall not be open to examination other than for purposes directly connected with the administration of the Medi-Cal program. However, in the context of a petition for the appointment of a conservator for a person with respect to whom this information is made or kept, and in the context of a criminal prosecution for a violation of Section 368 of Penal Code with respect to such a person, all of the following shall apply:

A public officer or employee of any such agency may answer truthfully, at any proceeding related to the petition or prosecution, when asked if he or she is aware of information that he or she believes is related to the legal mental capacity of that aid recipient or the need for a conservatorship for that aid recipient. If the officer or employee states that he or she is aware of this information, the court may order the officer or employee to testify about his or her observations and to disclose any relevant agency records if the court has an other independent reason to believe that the officer or employee has information that would facilitate the resolution of the matter.

(b) Except as provided in this section, and to the extent permitted by federal law or regulation, all information about applicants and recipients as provided for in subdivision (a) to be safeguarded includes, but is not limited to, names and addresses, medical services provided, social and economic conditions or circumstances, agency evaluation of personal

information, and medical data, including diagnosis and past history of disease or disability.

(c) Purposes directly connected with the administration of the Medi-Cal program, Chapter 8 (commencing with Section 14200), or Chapter 8.7 (commencing with Section 14520) encompass those administrative activities and responsibilities in which the department and its agents are required to engage to insure effective program operations. These activities include, but are not limited to: establishing eligibility and methods of reimbursement; determining the amount of medical assistance; providing services for recipients; conducting or assisting an investigation, prosecution, or civil or criminal proceeding related to the administration of the Medi-Cal program; and conducting or assisting a legislative investigation or audit related to the administration of the Medi-Cal program.

(d) Any officer, agent, or employee of the department or of any public agency shall provide the Joint Legislative Audit Committee and the State Auditor with any and all the information described in subdivision (b) within a reasonable period of time as determined by the committee in consultation with the department, after receipt of a request from the committee approved by a majority of the members of the committee. The Joint Legislative Audit Committee and the State Auditor may use that information only for the purpose of investigating or auditing the administration of the Medi-Cal program, Chapter 8 (commencing with Section 14200), or Chapter 8.7 (commencing with Section 14520), and shall not use that information for commercial or political purposes. In any case where disclosure of information is authorized by this section, the Joint Legislative Audit Committee or the State Auditor shall not disclose the identity of any applicant or recipient, except in the case of a criminal or civil proceeding conducted in connection with the administration of the Medi-Cal program.

(e) The access to information provided in subdivision (d) shall be permitted only to the extent and under the conditions provided by federal law and regulations governing the release of such information.

(f) The department may make rules and regulations governing the custody, use, and preservation of all records, papers, files, and communications pertaining to the administration of the laws relating to the Medi-Cal program, Chapter 8 (commencing with Section 14200), or Chapter 8.7 (commencing with Section 14520). The rules and regulations shall be binding on all departments, officials, and employees of the state, or of any political subdivision of the state and may provide for giving information to or exchanging information with agencies, public, or political subdivisions of the state, and may provide for giving information to or exchanging information with agencies, public or private,

which are engaged in planning, providing, or securing such services for or in behalf of recipients or applicants; and for making case records available for research purposes, provided that that research will not result in the disclosure of the identity of applicants for or recipients of those services.

(g) Upon request, the department shall release to the negotiator established pursuant to Article 2.6 (commencing with Section 14081) all computer tapes and any modifications thereto, including paid claims, connected with the administration of the Medi-Cal program which are in the possession or under the control of the department, including tapes prepared prior to the effective date of this section.

To ensure compliance with federal law and regulations, the department shall make the minimum necessary modifications to its computer tapes prior to releasing the tapes to the negotiator in order to assure the confidentiality of the identity of all applicants for, or recipients of, those services. The department shall not make any modifications to paid claims tapes that affect information regarding beneficiaries' aid categories or counties of origin.

(h) Any person who knowingly releases or possesses confidential information concerning persons who have applied for or who have been granted any form of Medi-Cal benefits or benefits under Chapter 8 (commencing with Section 14200) or Chapter 8.7 (commencing with Section 14520) for which state or federal funds are made available in violation of this section is guilty of a misdemeanor.

(i) (1) To the extent federal funds are made available from the United States Department of Agriculture, the department may do both of the following:

(A) To the extent permitted by federal law, exercise its option under Section 1396a(a)(7)(B) of Title 42 of the United States Code, in coordination with the State Department of Education, to exchange the information necessary to perform direct verification of the eligibility of children for free or reduced price meals.

(B) To the extent permitted by federal law, in coordination with the State Department of Education, exchange the information necessary to perform direct certification for enrolling children to receive free or reduced price meals.

(2) To the extent permitted by state and federal law, the department and the State Department of Education may review the data only for the purposes of improving the effectiveness of the data matches made pursuant to Sections 49561 and 49562 of the Education Code.

## CHAPTER 677

An act to add Chapter 5.8 (commencing with Section 40610) to Part 3 of Division 26 of the Health and Safety Code, relating to air quality.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 5.8 (commencing with Section 40610) is added to Part 3 of Division 26 of the Health and Safety Code, to read:

### Chapter 5.8. San Joaquin Valley Clean Air Attainment Program

40610. The Legislature finds and declares as follows:

(a) Residents of the San Joaquin Valley suffer some of the worst air quality in the world. This poor air quality poses a significant threat to public health, the environment, and the economy of the valley.

(b) The extreme difficulty for the valley to meet state and federal ambient air quality standards requires an urgent and unified program that combines more strict clean air rules and regulations and ongoing funding to clean up those sources that cannot be regulated effectively.

(c) The purpose of this chapter is to establish a program for the San Joaquin Valley to achieve state and federal ambient air quality standards by the earliest practicable date.

40612. (a) In order to provide funding for air pollution control programs needed to achieve and maintain state and federal air quality, the district may do both of the following:

(1) Notwithstanding the limits on the amount of the motor vehicle fee specified in Sections 44223 and 44225, increase the fee established pursuant to these sections to up to, but not exceeding, thirty dollars ($30) per motor vehicle per year for the purposes of establishing and implementing incentive-based programs to achieve surplus emissions reductions that the district determines are needed to remediate air pollution harms created by motor vehicles on which the fee is imposed and that are intended to achieve and maintain state and federal ambient air quality standards required by the federal Clean Air Act (42 U.S.C. Sec. 7401 et seq.). Except for the amount of the fee, any increase shall be subject to Chapter 7 (commencing with Section 44220) of Part 5, including, but not limited to, the adoption of a resolution providing for both the fee increase and a corresponding program for expenditure of the moneys raised by the increased fees for the reduction of mobile source emissions.

(2) Notwithstanding Section 40717.9, adopt rules and regulations to reduce vehicle trips in order to reduce air pollution from vehicular sources.

(b) Fees adopted pursuant to this section are in addition to any other fees imposed by the district, and may be charged in any of fiscal years 2009–10 to 2023–24, inclusive. Fees may be assessed after the 2012–13 fiscal year only if the United States Environmental Protection Agency approves the district's proposed reclassification of its nonattainment status for ozone from severe to extreme. The fees adopted pursuant to this section are for the district portion of the total amount needed to achieve and maintain state and federal ambient air quality standards. At least ten million dollars ($10,000,000) shall be used to mitigate the impacts of air pollution on public health and the environment in disproportionately impacted environmental justice communities in the San Joaquin Valley. The district board shall convene an environmental justice advisory committee, selected from a list given to the board by environmental justice groups from the San Joaquin Valley, to recommend the neighborhoods in the district that constitute environmental justice communities, and how to expend funds within these communities.

(c) (1) The fees adopted pursuant to this section shall become effective after the state board makes both of the following findings:

(A) The district has undertaken all feasible measures to reduce nonattainment air pollutants from sources within the district's jurisdiction and regulatory control.

(B) The district has notified the state board that fees have been adopted pursuant to this section and provided the state board with an estimate of the total funds that will be provided annually by each of those fees.

(2) The state board shall file a written copy of its findings made pursuant to this subdivision with the Secretary of State within two days of its determination.

(3) The fees adopted pursuant to this section shall be collected nine months after the requirements of paragraph (2) are met.

40613. The state board shall assess the district's progress in using any fees assessed pursuant to Section 40612 to achieve and maintain state and federal ambient air quality standards every two years that the fee is assessed, and shall submit these assessments to the Legislature within two weeks of their completion.

## CHAPTER 678

An act to amend Section 1720.4 of the Labor Code, relating to public works, and making an appropriation therefor.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1720.4 of the Labor Code is amended to read:

1720.4. (a) This chapter shall not apply to any of the following work:

(1) Any work performed by a volunteer. For purposes of this section, "volunteer" means an individual who performs work for civic, charitable, or humanitarian reasons for a public agency or corporation qualified under Section 501(c)(3) of the Internal Revenue Code as a tax-exempt organization, without promise, expectation, or receipt of any compensation for work performed.

(A) An individual shall be considered a volunteer only when his or her services are offered freely and without pressure and coercion, direct or implied, from an employer.

(B) An individual may receive reasonable meals, lodging, transportation, and incidental expenses or nominal nonmonetary awards without losing volunteer status if, in the entire context of the situation, those benefits and payments are not a substitute form of compensation for work performed.

(C) An individual shall not be considered a volunteer if the person is otherwise employed for compensation at any time (i) in the construction,

alteration, demolition, installation, repair, or maintenance work on the same project, or (ii) by a contractor, other than a corporation qualified under Section 501(c)(3) of the Internal Revenue Code as a tax-exempt organization, that is receiving payment to perform construction, alteration, demolition, installation, repair, or maintenance work on the same project.

(2) Any work performed by a volunteer coordinator. For purposes of this section, "volunteer coordinator" means an individual paid by a corporation qualified under Section 501(c)(3) of the Internal Revenue Code as a tax-exempt organization, to oversee or supervise volunteers. An individual may be considered a volunteer coordinator even if the individual performs some nonsupervisory work on a project alongside the volunteers, so long as the individual's primary responsibility on the project is to oversee or supervise the volunteers rather than to perform nonsupervisory work.

(3) Any work performed by members of the California Conservation Corps or of Community Conservation Corps certified by the California Conservation Corps pursuant to Section 14507.5 of the Public Resources Code.

(b) This section shall apply retroactively to otherwise covered work concluded on or after January 1, 2002, to the extent permitted by law.

(c) On or before January 1, 2011, the director shall submit a written report to the Legislature that does both of the following:

(1) Describes the number and the nature of complaints received and investigations conducted involving the use of volunteers on public works projects subject to this chapter, that are projects as described in Section 21190 of the Public Resources Code.

(2) Provides an estimate of each of the following as they relate to public works projects that involve the acquisition, presentation, or restoration of natural areas, including parks or ecological reserves, or other public works projects that have one or more of the purposes, as described in Section 21190 of the Public Resources Code:

(A) The number of hours per year that volunteers work on public works projects.

(B) The cost per year of public works projects, that are projects as described in Section 21190 of the Public Resources Code, and the percentage of work performed by volunteers.

(C) The types of work done by volunteers on public works projects, that are projects as described in Section 21190 of the Public Resources Code.

(d) The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the Environmental License Plate Fund for the purposes of funding the report required pursuant to subdivision (c).

(e) This section shall remain in effect only until January 1, 2012, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 2012, deletes or extends that date.

SEC. 2. The Legislature finds and declares all of the following:

(a) It is the intent of the Legislature that public works projects should never undermine the wage base in a community.

(b) The Legislature finds that the requirement, that workers on public works projects be paid the prevailing rate of per diem wages, ensures that the local wage base is not lowered.

(c) It is the intent of the Legislature that this act shall not apply to the work of state and local public sector employees.

## CHAPTER 680

An act to amend Sections 124977, 124991, and 125002 of the Health and Safety Code, relating to public health.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 124977 of the Health and Safety Code is amended to read:

124977. (a) It is the intent of the Legislature that, unless otherwise specified, the genetic disease testing program carried out pursuant to this chapter be fully supported from fees collected for services provided by the program.

(b) (1) The department shall charge a fee to all payers for any tests or activities performed pursuant to this chapter. The amount of the fee shall be established by regulation and periodically adjusted by the director in order to meet the costs of this chapter. Notwithstanding any other provision of law, any fees charged for prenatal screening and followup services provided to persons enrolled in the Medi-Cal program, health care service plan enrollees, or persons covered by health insurance policies, shall be paid in full and deposited in the Genetic Disease Testing Fund or the Birth Defects Monitoring Fund consistent with this section, subject to all terms and conditions of each enrollee's or insured's health care service plan or insurance coverage, whichever is applicable, including, but not limited to, copayments and deductibles applicable to these services, and only if these copayments, deductibles, or limitations are disclosed to the subscriber or enrollee pursuant to the disclosure provisions of Section 1363.

(2) The department shall expeditiously undertake all steps necessary to implement the fee collection process, including personnel, contracts, and data processing, so as to initiate the fee collection process at the earliest opportunity.

(3) Effective for services provided on and after July 1, 2002, the department shall charge a fee to the hospital of birth, or, for births not occurring in a hospital, to families of the newborn, for newborn screening and followup services. The hospital of birth and families of newborns born outside the hospital shall make payment in full to the Genetic Disease Testing Fund. The department shall not charge or bill Medi-Cal beneficiaries for services provided under this chapter.

(4) (A) The department shall charge a fee for prenatal screening to support the pregnancy blood sample storage, testing, and research activities of the Birth Defects Monitoring Program.

(B) The prenatal screening fee for activities of the Birth Defects Monitoring Program shall be ten dollars ($10).

(5) The department shall set guidelines for invoicing, charging, and collecting from approved researchers the amount necessary to cover all expenses associated with research application requests made under this section, data linkage, retrieval, data processing, data entry, reinventory,

and shipping of blood samples or their components and related data management.

(6) The only funds from the Genetic Disease Testing Fund that may be used for the purpose of supporting the pregnancy blood sample storage, testing, and research activities of the Birth Defects Monitoring Program are those prenatal screening fees assessed and collected prior to the creation of the Birth Defects Monitoring Program Fund specifically to support those Birth Defects Monitoring Program activities.

(7) The Birth Defects Monitoring Program Fund is hereby created as a special fund in the State Treasury. Fee revenues that are collected pursuant to paragraph (4) shall be deposited into the fund and shall be available upon appropriation by the Legislature to support the pregnancy blood sample storage, testing, and research activities of the Birth Defects Monitoring Program. Notwithstanding Section 16305.7 of the Government Code, interest earned on funds in the Birth Defects Monitoring Program Fund shall be deposited as revenue into the fund to support the Birth Defects Monitoring Program.

(c) (1) The Legislature finds that timely implementation of changes in genetic screening programs and continuous maintenance of quality statewide services requires expeditious regulatory and administrative procedures to obtain the most cost-effective electronic data processing, hardware, software services, testing equipment, and testing and followup services.

(2) The expenditure of funds from the Genetic Disease Testing Fund for these purposes shall not be subject to Section 12102 of, and Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of, the Public Contract Code, or to Division 25.2 (commencing with Section 38070). The department shall provide the Department of Finance with documentation that equipment and services have been obtained at the lowest cost consistent with technical requirements for a comprehensive high-quality program.

(3) The expenditure of funds from the Genetic Disease Testing Fund for implementation of the Tandem Mass Spectrometry screening for fatty acid oxidation, amino acid, and organic acid disorders, and screening for congenital adrenal hyperplasia may be implemented through the amendment of the Genetic Disease Branch Screening Information System contracts and shall not be subject to Chapter 3 (commencing with Section 12100) of Part 2 of Division 2 of the Public Contract Code, Article 4 (commencing with Section 19130) of Chapter 5 of Part 2 of Division 5 of Title 2 of the Government Code, and any policies, procedures, regulations or manuals authorized by those laws.

(4) The expenditure of funds from the Genetic Disease Testing Fund for the expansion of the Genetic Disease Branch Screening Information

System to include cystic fibrosis and biotinidase may be implemented through the amendment of the Genetic Disease Branch Screening Information System contracts, and shall not be subject to Chapter 2 (commencing with Section 10290) or Chapter 3 (commencing with Section 12100) of Part 2 of Division 2 of the Public Contract Code, Article 4 (commencing with Section 19130) of Chapter 5 of Part 2 of Division 5 of Title 2 of the Government Code, or Sections 4800 to 5180, inclusive, of the State Administrative Manual as they relate to approval of information technology projects or approval of increases in the duration or costs of information technology projects. This paragraph shall apply to the design, development, and implementation of the expansion, and to the maintenance and operation of the Genetic Disease Branch Screening Information System, including change requests, once the expansion is implemented.

(d) (1) The department may adopt emergency regulations to implement and make specific this chapter in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of the Administrative Procedure Act, the adoption of regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these emergency regulations shall not be subject to the review and approval of the Office of Administrative Law. Notwithstanding Sections 11346.1 and 11349.6 of the Government Code, the department shall submit these regulations directly to the Secretary of State for filing. The regulations shall become effective immediately upon filing by the Secretary of State. Regulations shall be subject to public hearing within 120 days of filing with the Secretary of State and shall comply with Sections 11346.8 and 11346.9 of the Government Code or shall be repealed.

(2) The Office of Administrative Law shall provide for the printing and publication of these regulations in the California Code of Regulations. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the regulations adopted pursuant to this chapter shall not be repealed by the Office of Administrative Law and shall remain in effect until revised or repealed by the department.

(3) The Legislature finds and declares that the health and safety of California newborns is in part dependent on an effective and adequately staffed genetic disease program, the cost of which shall be supported by the fees generated by the program.

SEC. 2. Section 124991 of the Health and Safety Code is amended to read:

124991. (a) (1) The Birth Defects Monitoring Program, within the State Department of Public Health, shall collect and store any umbilical cord blood samples it receives from hospitals for storage and research. For purposes of ensuring financial stability, the Birth Defects Monitoring Program shall ensure that the following conditions, alone or in combination, are met:

(A) The fees paid by researchers pursuant to subdivision (c) shall be used for, and be sufficient to cover the cost of, collecting and storing blood samples, including umbilical cord blood samples.

(B) The department receives confirmation that a researcher has requested umbilical cord blood samples from the Birth Defects Monitoring Program for research or has requested umbilical cord blood samples to be included within a request for pregnancy or newborn blood samples through the program and has provided satisfactory evidence that adequate funding will be provided to the department from the fees paid by the researcher for the request.

(C) The department receives federal grant moneys to pay for initial startup costs for the collection and storage of umbilical cord blood samples.

(2) The department may limit the number of umbilical cord blood samples the program collects each year.

(b) (1) All information relating to umbilical cord blood samples collected and utilized by the department shall be confidential, and shall be used solely for the purposes of the program, or, if approved by the department, research. Access to confidential information shall be limited to authorized persons who agree, in writing, to maintain the confidentiality of that information. Notwithstanding any other provision of law, when the blood samples specified in subdivision (c), including those samples with any information identifying the person from whom the samples were obtained, are stored, processed, analyzed, or otherwise shared for research purposes with nondepartment staff, those samples may be shared by the program with department-authorized researchers for research purposes, and department representatives approved by the department, subject to the confidentiality and security requirements for confidential information established in this section and in Section 103850.

(2) The department shall maintain an accurate record of all persons who are given confidential information pursuant to this section, and any disclosure of confidential information shall be made only upon written agreement that the information will be kept confidential, used for its approved purpose, and not be further disclosed.

(3) Any person who, in violation of a written agreement to maintain confidentiality, discloses any information provided pursuant to this section, or who uses information provided pursuant to this section in a manner other than as approved pursuant to this section may be denied further access to any confidential information maintained by the department, and shall be subject to a civil penalty not exceeding one thousand dollars ($1,000). The penalty provided in this section shall not be construed as to limit or otherwise restrict any remedy, provisional or otherwise, provided by law for the benefit of the department or any other person covered by this section.

(c) In order to implement this section, the department shall establish fees in an amount that shall not exceed the costs of administering the program and the collection and storage of these samples, which the department shall collect from researchers who have been approved by the department and who seek to use the following types of blood samples for research:

(1) Umbilical cord blood.

(2) Pregnancy blood collected by the Genetic Disease Screening Program, and stored by the Birth Defects Monitoring Program.

(3) Newborn blood collected by the Genetic Disease Screening Program.

(d) Fees collected pursuant to subdivision (c) shall be collected by the department and deposited into the Birth Defects Monitoring Program Fund, the Genetic Disease Testing Fund, created pursuant to Section 124996, or the Cord Blood Banking Fund, which is hereby created as a special fund in the State Treasury. The amount of fees deposited into each of these funds shall be based on the program that is providing those pregnancy blood samples, and the purpose for which the blood sample was obtained. Notwithstanding any other provision of law, the moneys in the Birth Defects Monitoring Program Fund, the Genetic Disease Testing Fund, and the Cord Blood Banking Fund that are collected pursuant to subdivision (c), may be used by the department, upon appropriation by the Legislature, for the purposes specified in subdivision (e).

(e) Moneys in those funds shall be used for the costs related to data management, including data linkage and entry, and blood collection, storage, retrieval, processing, inventory, and shipping.

(f) The department shall comply with the existing requirements in the Birth Defects Monitoring Program, as set forth in Chapter 1 (commencing with Section 103825) of Part 2 of Division 102.

(g) The department, any entities approved by the department, and researchers shall maintain the confidentiality of patient information and blood samples in accordance with existing law and in the same manner

as other medical record information with patient identification that they possess, and shall use the information only for the following purposes:

(1) Research to identify risk factors for children's and women's diseases.

(2) Research to develop and evaluate screening tests.

(3) Research to develop and evaluate prevention strategies.

(4) Research to develop and evaluate treatments.

(h) (1) For purposes of ensuring the security of a donor's personal information, before any blood samples are released pursuant to this section for research purposes, the State Committee for the Protection of Human Subjects (CPHS) shall determine if all of the following criteria have been met:

(A) The department, contractors, researchers, or other entities approved by the department have provided a plan sufficient to protect personal information from improper use and disclosures, including sufficient administrative, physical, and technical safeguards to protect personal information from reasonable anticipated threats to the security or confidentiality of the information.

(B) The department, contractors, researchers, or other entities approved by the department have provided a sufficient plan to destroy or return all personal information as soon as it is no longer needed for the research activity, unless the program contractors, researchers, or other entities approved by the department have demonstrated an ongoing need for the personal information for the research activity and have provided a long-term plan sufficient to protect the confidentiality of that information.

(C) The department, contractors, researchers, or other entities approved by the department have provided sufficient written assurances that the personal information will not be reused or disclosed to any other person or entity, or used in any manner not approved in the research protocol, except as required by law or for authorized oversight of the research activity.

(2) As part of its review and approval of the research activity for the purpose of protecting personal information held in agency databases, CPHS shall accomplish at least all of the following:

(A) Determine whether the requested personal information is needed to conduct the research.

(B) Permit access to personal information only if it is needed for the research activity.

(C) Permit access only to the minimum necessary personal information needed for the research activity.

(D) Require the assignment of unique subject codes that are not derived from personal information in lieu of social security numbers if the research can still be conducted without social security numbers.

(E) If feasible, and if cost, time, and technical expertise permit, require the agency to conduct a portion of the data processing for the researcher to minimize the release of personal information.

(i) In addition to the fees described in subdivision (c), the department may bill a researcher for the costs associated with the department's process of protecting personal information, including, but not limited to, the department's costs for conducting a portion of the data processing for the researcher, removing personal information, encrypting or otherwise securing personal information, or assigning subject codes.

(j) Nothing in this section shall prohibit the department from using its existing authority to enter into written agreements to enable other institutional review boards to approve research activities, projects or classes of projects for the department, provided the data security requirements set forth in this section are satisfied.

SEC. 3. Section 125002 of the Health and Safety Code is amended to read:

125002. (a) In order to align closely related programs and in order to facilitate research into the causes of, and treatment for, birth defects, the Birth Defects Monitoring Program provided for pursuant to Chapter 1 (commencing with Section 103825) of Part 2 of Division 102 shall become part of the Maternal, Child, and Adolescent Health program provided for in Article 1 (commencing with Section 123225) of Chapter 1 of Part 2 of Division 106.

(b) It is the intent of the Legislature that pregnancy blood samples, taken for prenatal screening, shall be stored and made available to any researcher who is approved by the department for the following purposes:

(1) Research to identify risk factors for children's and women's diseases.

(2) Research to develop and evaluate screening tests.

(3) Research to develop and evaluate prevention strategies.

(4) Research to develop and evaluate treatments.

(2) Protocol review for scientific merit by the department or another entity authorized by the department.

(3) Protocol review by the State Committee for the Protection of Human Subjects.

(d) Since the pregnancy blood samples described in this section will be stored by the California Birth Defects Monitoring Program or another entity authorized by the department, the storage, analysis, and sharing

of pregnancy blood samples for research purposes shall be done in compliance with Section 103850, pertaining to confidentiality of information.

(e) The department shall adopt regulations specifying the protocols and conditions under which blood samples will be released for research purposes, in accordance with the procedures set forth in subdivision (d) of Section 124977.

(f) Until such time that regulations are adopted by the department pursuant to subdivision (e), the Genetic Disease Screening Program and the Birth Defects Monitoring Program shall release blood samples to only those researchers who meet the requirements of this section, including all of the following:

(1) The research project was approved by the State Committee for the Protection of Human Subjects.

(2) The research project's protocol was approved by the State Committee for the Protection of Human Subjects, and specifically included a description of the number and type of blood samples requested from the Genetic Disease Screening Program or the Maternal, Child, and Adolescent Health Program, including the Birth Defects Monitoring Program for the project.

(3) There is written documentation that the Genetic Disease Screening Program or the Maternal, Child, and Adolescent Health Program, including the Birth Defects Monitoring Program, approved a request for the blood samples for the research project approved by the State Committee for the Protection of Human Subjects.

SEC. 5. Section 699.5 of the Insurance Code is amended to read:

699.5. (a) The ownership or financial control, in part, direct or indirect, of any domestic, foreign, or alien insurer, by any state of the United States or by a foreign government or by any political subdivision of either, or by an agency of any other state, government, or subdivision thereof, shall not, provided the insurer complies with all other requirements for issuance, renewal, or continuation of a license, restrict the commissioner from issuing, renewing, or continuing in effect the license of that insurer to transact in this state the kinds of insurance business for which that insurer is otherwise qualified under the provisions of this chapter and under its charter, unless the commissioner finds that any of the following is true:

(1) The insurer is subject to any form of subsidy that would enable it to compete unfairly with domestic insurers.

(2) The insurer is subject to governmental practices that discriminate on the basis of any characteristic listed or defined in subdivision (b) or (e) of Section 51 of the Civil Code.

(3) The ownership or financial control will create the presence of any sovereign immunity in the insurer.

(4) Appropriate measures and controls do not exist to avoid security problems resulting from an insurer's access to confidential information and data of its insured.

(5) The ownership or financial control results in substantial or undue influence being asserted over the insurer.

(b) The failure by any applicant for a license to submit the information requested by the commissioner for the purposes of determining whether to make a finding pursuant to subdivision (a) shall be sufficient to deny the application.

(c) Nothing in the amendments to this section enacted during the 1994 portion of the 1993–94 Regular Session of the Legislature shall be interpreted to authorize the issuance of a license to an insurer wholly owned by any governmental entity described in subdivision (a).

SEC. 6. Section 10141 of the Insurance Code is amended to read:

10141. No application for insurance or insurance investigation report furnished by such an insurer to its agents or employees for use in determining the insurability of the applicant shall carry any identification, or any requirement therefor, of the applicant's race, color, religion, ancestry, national origin, or sexual orientation.

SEC. 7. Section 11628 of the Insurance Code is amended to read:

11628. (a) (1) No admitted insurer that is licensed to issue and issuing motor vehicle liability policies, as defined in Section 16450 of the Vehicle Code, shall fail or refuse to accept an application for that insurance, to issue that insurance to an applicant therefor, or issue or cancel that insurance under conditions less favorable to the insured than in other comparable cases, except for reasons applicable alike to persons of every characteristic listed or defined in subdivision (b) or (e) of Section 51 of the Civil Code, including, but not limited to, language, or persons of the same geographic area; nor shall any characteristic listed or defined in subdivision (b) or (e) of Section 51 of the Civil Code, including, but not limited to, language, or location within a geographic area, of itself, constitute a condition or risk for which a higher rate, premium, or charge may be required of the insured for that insurance.

(2) As used in this section "geographic area" means a portion of this state of not less than 20 square miles defined by description in the rating manual of an insurer or in the rating manual of a rating bureau of which the insurer is a member or subscriber. In order that geographic areas used for rating purposes may reflect homogeneity of loss experience, a record of loss experience for the geographic area shall include the breakdown of actual loss experience statistics by ZIP Code area (as designated by the United States Postal Service) within each geographic area for family owned private passenger motor vehicles and lightweight commercial motor vehicles, under 1 ½-ton load capacity, used for local service or retail delivery, normally within a 50-mile radius of garaging, and that are not part of a fleet of five or more motor vehicles under one ownership. A record of loss experience for the geographic area, including that statistical data by ZIP Code area, shall be submitted annually to the commissioner for examination by each insurer licensed to issue and issuing motor vehicle liability policies, motor vehicle physical damage policies, or both. Loss experience shall include separate loss data for each type of coverage, including liability or physical damage coverage, underwritten. That report shall include the insurer's statewide loss ratio, loss adjustment expense ratio, expense ratio, and combined ratio on its assigned-risk business. An insurer may satisfy its obligation to report statistical data under this subdivision by providing its loss experience data and statewide expense ratio and combined ratio on its assigned-risk business to a rating or advisory organization for submission to the commissioner. This data shall be made available to the public by the commissioner annually after examination. However, the data shall be released in aggregate form by ZIP Code in order that no individual insurer's loss experience for any specific geographic area be revealed. Differentiation in rates between geographical areas shall not constitute unfair discrimination.

(3) All information reported to the department pursuant to this subdivision shall be confidential.

(4) As used in this section:

(A) "Language" means the inability to speak, read, write, or comprehend the English language.

(B) "Dependents" shall include, but not be limited to, issue regardless of generation.

(C) "Spouse" shall be determined without regard to current marital status.

(b) The commissioner may require insurers with combined ratios on statewide assigned-risk business that are 10 percent above the mean combined ratio for all plan participants to also report the following:

(1) The reason for the excessive ratio.

(2) A plan for reducing the ratio, and when the reduction can be expected to occur. The commissioner may require insurers subject to this subdivision to provide periodic reports on the progress in reducing the combined ratio.

(c) (1) No admitted insurer, licensed to issue and issuing motor vehicle liability insurance policies as defined in Section 16450 of the Vehicle Code, shall fail or refuse to accept an application for that insurance, refuse to issue that insurance to an applicant therefor, or cancel that insurance solely for the reason that the applicant for that insurance or any insured is employed in a specific occupation, or is on active duty service in the Armed Forces of the United States.

(2) Nothing in this section shall prohibit an insurer from doing any of the following:

(A) Considering the occupation of the applicant or insured as a condition or risk for which a higher rate or discounted rate may be required or offered for coverage in the course and scope of his or her occupation.

(B) Charging a deviated rate to any classification of risks involving a specific occupation, or grouping thereof, if the rate meets the requirements of Chapter 9 (commencing with Section 1850) of Part 2 of Division 1 and is based upon actuarial data which demonstrates a significant actual historical differential between past losses or expenses attributable to the specific occupation, or grouping thereof, and the past losses or expenses attributable to other classification of risks. For purposes of compiling that actuarial data for a specific occupation or grouping thereof, a person shall be deemed employed in the occupation in which that data is compiled if any of the following is true:

(i) The majority of his or her employment during the previous year was in the occupation.

(ii) The majority of his or her aggregate earnings for the immediate preceding three-year period were derived from the occupation.

(iii) The person is a member in good standing of a union that is an authorized collective bargaining agent for persons engaged in the occupation.

(3) Nothing in this section shall be construed to include in the definition of "occupation" any status or activity that does not result in remuneration for work done or services performed, or self-employment in a business operated out of an applicant's or insured's place of residence or persons engaged in the renting, leasing, selling, repossessing, rebuilding, wrecking, or salvaging of motor vehicles.

(d) Nothing in this section shall limit or restrict the ability of an insurer to refuse to accept an application for or refuse to issue or cancel insurance for the reason that it is a commercial vehicle or based upon the consideration of a vehicle's size, weight, design, or intended use.

(e) It is the intent of the Legislature that actuarial data by occupation may be examined for credibility by the commissioner on the same basis as any other automobile insurance data which he or she is empowered to examine.

(f) (1) Except as provided in Article 4 (commencing with Section 11620), nothing in this section or in Article 10 (commencing with Section 1861.01) of Chapter 9 of Part 2 of Division 1 or in any other provision of this code, shall prohibit an insurer from limiting the issuance or renewal of insurance, as defined in subdivision (a) of Section 660, to persons who engage in, or have formerly engaged in, governmental or military service or segments of categories thereof, and their spouses, dependents, direct descendants, and former dependents or spouses.

(2) The term "military service" includes, but is not limited to, officers, warrant officers, and enlisted persons, officer and warrant officer candidates, cadets or midshipmen at a service academy, cadets or midshipmen in advance Reserve Officer Training Corps programs or on Reserve Officer Training Corps program scholarships, National Guard officer candidates, students in government-sponsored precommissioning programs, and foreign military officers while on temporary duty in the United States.

(g) Any person subject to regulation by the commissioner pursuant to this code who fails to comply with a data call required by the department pursuant to subdivision (a) shall be liable to the state for a civil penalty in an amount not exceeding five thousand dollars ($5,000) for each 30-day period that the person is not in compliance, unless the failure to comply is willful, in which case the civil penalty shall be in an amount not to exceed ten thousand dollars ($10,000) for each 30-day period that the person is not in compliance, but not to exceed an aggregate

amount of one hundred thousand dollars ($100,000). The commissioner shall collect the amount so payable and may bring an action in the name of the people of the State of California to enforce collection. These penalties shall be in addition to other penalties provided by law.

(h) This section shall be known and may be cited as the "Rosenthal Auto Insurance Nondiscrimination Law."

SEC. 8. Section 12095 of the Insurance Code is amended to read:

12095. No insurer admitted in this state to issue surety insurance shall fail or refuse to accept an application for a contractor's license or performance bond, or to issue such a bond to an applicant therefor, or refuse or cancel such a bond, under conditions less favorable to the obligor than in other comparable cases, except for reasons applicable alike to persons of every characteristic listed or defined in subdivision (b) or (e) of Section 51 of the Civil Code, or persons of every geographical area; nor shall any characteristic listed or defined in subdivision (b) or (e) of Section 51 of the Civil Code, or location within a county, of itself, constitute a condition or risk for which a greater rate, premium, charge, guaranty, or collateral may be required of the applicant for such a bond.

SEC. 9. Section 4600.6 of the Labor Code is amended to read:

4600.6. Any workers' compensation insurer, third-party administrator, or other entity seeking certification as a health care organization under subdivision (e) of Section 4600.5 shall be subject to the following rules and procedures:

(a) Each application for authorization as an organization under subdivision (e) of Section 4600.5 shall be verified by an authorized representative of the applicant and shall be in a form prescribed by the administrative director. The application shall be accompanied by the prescribed fee and shall set forth or be accompanied by each and all of the following:

(1) The basic organizational documents of the applicant, such as the articles of incorporation, articles of association, partnership agreement, trust agreement, or other applicable documents and all amendments thereto.

(2) A copy of the bylaws, rules, and regulations, or similar documents regulating the conduct of the internal affairs of the applicant.

(3) A list of the names, addresses, and official positions of the persons who are to be responsible for the conduct of the affairs of the applicant, which shall include, among others, all members of the board of directors, board of trustees, executive committee, or other governing board or committee, the principal officers, each shareholder with over 5 percent interest in the case of a corporation, and all partners or members in the

case of a partnership or association, and each person who has loaned funds to the applicant for the operation of its business.

(4) A copy of any contract made, or to be made, between the applicant and any provider of health care, or persons listed in paragraph (3), or any other person or organization agreeing to perform an administrative function or service for the plan. The administrative director by rule may identify contracts excluded from this requirement and make provision for the submission of form contracts. The payment rendered or to be rendered to the provider of health care services shall be deemed confidential information that shall not be divulged by the administrative director, except that the payment may be disclosed and become a public record in any legislative, administrative, or judicial proceeding or inquiry. The organization shall also submit the name and address of each provider employed by, or contracting with, the organization, together with his or her license number.

(5) A statement describing the organization, its method of providing for health services, and its physical facilities. If applicable, this statement shall include the health care delivery capabilities of the organization, including the number of full-time and part-time physicians under Section 3209.3, the numbers and types of licensed or state-certified health care support staff, the number of hospital beds contracted for, and the arrangements and the methods by which health care will be provided, as defined by the administrative director under Sections 4600.3 and 4600.5.

(6) A copy of the disclosure forms or materials that are to be issued to employees.

(7) A copy of the form of the contract that is to be issued to any employer, insurer of an employer, or a group of self-insured employers.

(8) Financial statements accompanied by a report, certificate, or opinion of an independent certified public accountant. However, the financial statements from public entities or political subdivisions of the state need not include a report, certificate, or opinion by an independent certified public accountant if the financial statement complies with any requirements that may be established by regulation of the administrative director.

(9) A description of the proposed method of marketing the organization and a copy of any contract made with any person to solicit on behalf of the organization or a copy of the form of agreement used and a list of the contracting parties.

(10) A statement describing the service area or areas to be served, including the service location for each provider rendering professional services on behalf of the organization and the location of any other organization facilities where required by the administrative director.

(11) A description of organization grievance procedures to be utilized as required by this part, and a copy of the form specified by paragraph (3) of subdivision (j).

(12) A description of the procedures and programs for internal review of the quality of health care pursuant to the requirements set forth in this part.

(13) Evidence of adequate insurance coverage or self-insurance to respond to claims for damages arising out of the furnishing of workers' compensation health care.

(14) Evidence of adequate insurance coverage or self-insurance to protect against losses of facilities where required by the administrative director.

(15) Evidence of adequate workers' compensation coverage to protect against claims arising out of work-related injuries that might be brought by the employees and staff of an organization against the organization.

(16) Evidence of fidelity bonds in such amount as the administrative director prescribes by regulation.

(17) Other information that the administrative director may reasonably require.

(b) (1) An organization, solicitor, solicitor firm, or representative may not use or permit the use of any advertising or solicitation that is untrue or misleading, or any form of disclosure that is deceptive. For purposes of this chapter:

(A) A written or printed statement or item of information shall be deemed untrue if it does not conform to fact in any respect that is or may be significant to an employer or employee, or potential employer or employee.

(B) A written or printed statement or item of information shall be deemed misleading whether or not it may be literally true, if, in the total context in which the statement is made or the item of information is communicated, the statement or item of information may be understood by a person not possessing special knowledge regarding health care coverage, as indicating any benefit or advantage, or the absence of any exclusion, limitation, or disadvantage of possible significance to an employer or employee, or potential employer or employee.

(C) A disclosure form shall be deemed to be deceptive if the disclosure form taken as a whole and with consideration given to typography and format, as well as language, shall be such as to cause a reasonable person, not possessing special knowledge of workers' compensation health care, and the disclosure form therefor, to expect benefits, service charges, or other advantages that the disclosure form does not provide or that the organization issuing that disclosure form does not regularly make available to employees.

(2) An organization, solicitor, or representative may not use or permit the use of any verbal statement that is untrue, misleading, or deceptive or make any representations about health care offered by the organization or its cost that does not conform to fact. All verbal statements are to be held to the same standards as those for printed matter provided in paragraph (1).

(c) It is unlawful for any person, including an organization, subject to this part, to represent or imply in any manner that the person or organization has been sponsored, recommended, or approved, or that the person's or organization's abilities or qualifications have in any respect been passed upon, by the administrative director.

(d) (1) An organization may not publish or distribute, or allow to be published or distributed on its behalf, any advertisement unless (A) a true copy thereof has first been filed with the administrative director, at least 30 days prior to any such use, or any shorter period as the administrative director by rule or order may allow, and (B) the administrative director by notice has not found the advertisement, wholly or in part, to be untrue, misleading, deceptive, or otherwise not in compliance with this part or the rules thereunder, and specified the deficiencies, within the 30 days or any shorter time as the administrative director by rule or order may allow.

(2) If the administrative director finds that any advertisement of an organization has materially failed to comply with this part or the rules thereunder, the administrative director may, by order, require the organization to publish in the same or similar medium, an approved correction or retraction of any untrue, misleading, or deceptive statement contained in the advertising.

(3) The administrative director by rule or order may classify organizations and advertisements and exempt certain classes, wholly or in part, either unconditionally or upon specified terms and conditions or for specified periods, from the application of subdivision (a).

(e) (1) The administrative director shall require the use by each organization of disclosure forms or materials containing any information regarding the health care and terms of the workers' compensation health care contract that the administrative director may require, so as to afford the public, employers, and employees with a full and fair disclosure of the provisions of the contract in readily understood language and in a clearly organized manner. The administrative director may require that the materials be presented in a reasonably uniform manner so as to facilitate comparisons between contracts of the same or other types of organizations. The disclosure form shall describe the health care that is required by the administrative director under Sections 4600.3 and 4600.5, and shall provide that all information be in concise and specific terms,

relative to the contract, together with any additional information as may be required by the administrative director, in connection with the organization or contract.

(2) All organizations, solicitors, and representatives of a workers' compensation health care provider organization shall, when presenting any contract for examination or sale to a prospective employee, provide the employee with a properly completed disclosure form, as prescribed by the administrative director pursuant to this section for each contract so examined or sold.

(3) In addition to the other disclosures required by this section, every organization and any agent or employee of the organization shall, when representing an organization for examination or sale to any individual purchaser or the representative of a group consisting of 25 or fewer individuals, disclose in writing the ratio of premium cost to health care paid for contracts with individuals and with groups of the same or similar size for the organization's preceding fiscal year. An organization may report that information by geographic area, provided the organization identifies the geographic area and reports information applicable to that geographic area.

(4) Where the administrative director finds it necessary in the interest of full and fair disclosure, all advertising and other consumer information disseminated by an organization for the purpose of influencing persons to become members of an organization shall contain any supplemental disclosure information that the administrative director may require.

(f) When the administrative director finds it necessary in the interest of full and fair disclosure, all advertising and other consumer information disseminated by an organization for the purpose of influencing persons to become members of an organization shall contain any supplemental disclosure information that the administrative director may require.

(g) (1) An organization may not refuse to enter into any contract, or may not cancel or decline to renew or reinstate any contract, because of the age or any characteristic listed or defined in subdivision (b) or (e) of Section 51 of the Civil Code of any contracting party, prospective contracting party, or person reasonably expected to benefit from that contract as an employee or otherwise.

(2) The terms of any contract shall not be modified, and the benefits or coverage of any contract shall not be subject to any limitations, exceptions, exclusions, reductions, copayments, coinsurance, deductibles, reservations, or premium, price, or charge differentials, or other modifications because of the age or any characteristic listed or defined in subdivision (b) or (e) of Section 51 of the Civil Code of any contracting party, potential contracting party, or person reasonably expected to benefit from that contract as an employee or otherwise; except that

premium, price, or charge differentials because of the sex or age of any individual when based on objective, valid, and up-to-date statistical and actuarial data are not prohibited. Nothing in this section shall be construed to permit an organization to charge different rates to individual employees within the same group solely on the basis of the employee's sex.

(3) It shall be deemed a violation of subdivision (a) for any organization to utilize marital status, living arrangements, occupation, gender, beneficiary designation, ZIP Codes or other territorial classification, or any combination thereof for the purpose of establishing sexual orientation. Nothing in this section shall be construed to alter in any manner the existing law prohibiting organizations from conducting tests for the presence of human immunodeficiency virus or evidence thereof.

(4) This section shall not be construed to limit the authority of the administrative director to adopt or enforce regulations prohibiting discrimination because of sex, marital status, or sexual orientation.

(h) (1) An organization may not use in its name any of the words "insurance," "casualty," "health care service plan," "health plan," "surety," "mutual," or any other words descriptive of the health plan, insurance, casualty, or surety business or use any name similar to the name or description of any health care service plan, insurance, or surety corporation doing business in this state unless that organization controls or is controlled by an entity licensed as a health care service plan or insurer pursuant to the Health and Safety Code or the Insurance Code and the organization employs a name related to that of the controlled or controlling entity.

(2) Section 2415 of the Business and Professions Code, pertaining to fictitious names, does not apply to organizations certified under this section.

(3) An organization or solicitor firm may not adopt a name style that is deceptive, or one that could cause the public to believe the organization is affiliated with or recommended by any governmental or private entity unless this affiliation or endorsement exists.

(i) Each organization shall meet the following requirements:

(1) All facilities located in this state, including, but not limited to, clinics, hospitals, and skilled nursing facilities, to be utilized by the organization shall be licensed by the State Department of Health Services, if that licensure is required by law. Facilities not located in this state shall conform to all licensing and other requirements of the jurisdiction in which they are located.

(2) All personnel employed by or under contract to the organization shall be licensed or certified by their respective board or agency, where that licensure or certification is required by law.

(3) All equipment required to be licensed or registered by law shall be so licensed or registered and the operating personnel for that equipment shall be licensed or certified as required by law.

(4) The organization shall furnish services in a manner providing continuity of care and ready referral of patients to other providers at any time as may be appropriate and consistent with good professional practice.

(5) All health care shall be readily available at reasonable times to all employees. To the extent feasible, the organization shall make all health care readily accessible to all employees.

(6) The organization shall employ and utilize allied health manpower for the furnishing of health care to the extent permitted by law and consistent with good health care practice.

(7) The organization shall have the organizational and administrative capacity to provide services to employees. The organization shall be able to demonstrate to the department that health care decisions are rendered by qualified providers, unhindered by fiscal and administrative management.

(8) All contracts with employers, insurers of employers, and self-insured employers and all contracts with providers, and other persons furnishing services, equipment, or facilities to or in connection with the workers' compensation health care organization, shall be fair, reasonable, and consistent with the objectives of this part.

(9) Each organization shall provide to employees all workers' compensation health care required by this code. The administrative director shall not determine the scope of workers' compensation health care to be offered by an organization.

(j) (1) Every organization shall establish and maintain a grievance system approved by the administrative director under which employees may submit their grievances to the organization. Each system shall provide reasonable procedures in accordance with regulations adopted by the administrative director that shall ensure adequate consideration of employee grievances and rectification when appropriate.

(2) Every organization shall inform employees upon enrollment and annually thereafter of the procedures for processing and resolving grievances. The information shall include the location and telephone number where grievances may be submitted.

(3) Every organization shall provide forms for complaints to be given to employees who wish to register written complaints. The forms used by organizations shall be approved by the administrative director in advance as to format.

(4) The organization shall keep in its files all copies of complaints, and the responses thereto, for a period of five years.

(k) Every organization shall establish procedures in accordance with regulations of the administrative director for continuously reviewing the quality of care, performance of medical personnel, utilization of services and facilities, and costs. Notwithstanding any other provision of law, there shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any person who participates in quality of care or utilization reviews by peer review committees that are composed chiefly of physicians, as defined by Section 3209.3, for any act performed during the reviews if the person acts without malice, has made a reasonable effort to obtain the facts of the matter, and believes that the action taken is warranted by the facts, and neither the proceedings nor the records of the reviews shall be subject to discovery, nor shall any person in attendance at the reviews be required to testify as to what transpired thereat. Disclosure of the proceedings or records to the governing body of an organization or to any person or entity designated by the organization to review activities of the committees shall not alter the status of the records or of the proceedings as privileged communications.

The above prohibition relating to discovery or testimony does not apply to the statements made by any person in attendance at a review who is a party to an action or proceeding the subject matter of which was reviewed, or to any person requesting hospital staff privileges, or in any action against an insurance carrier alleging bad faith by the carrier in refusing to accept a settlement offer within the policy limits, or to the administrative director in conducting surveys pursuant to subdivision (o).

This section shall not be construed to confer immunity from liability on any workers' compensation health care organization. In any case in which, but for the enactment of the preceding provisions of this section, a cause of action would arise against an organization, the cause of action shall exist notwithstanding the provisions of this section.

(*l*) Nothing in this chapter shall be construed to prevent an organization from utilizing subcommittees to participate in peer review activities, nor to prevent an organization from delegating the responsibilities required by subdivision (i) as it determines to be appropriate, to subcommittees including subcommittees composed of a majority of nonphysician health care providers licensed pursuant to the Business and Professions Code, as long as the organization controls the scope of authority delegated and may revoke all or part of this authority at any time. Persons who participate in the subcommittees shall be entitled to the same immunity from monetary liability and actions for civil damages as persons who participate in organization or provider peer review committees pursuant to subdivision (i).

(m) Every organization shall have and shall demonstrate to the administrative director that it has all of the following:

(1) Adequate provision for continuity of care.

(2) A procedure for prompt payment and denial of provider claims.

(n) Every contract between an organization and an employer or insurer of an employer, and every contract between any organization and a provider of health care, shall be in writing.

(o) (1) The administrative director shall conduct periodically an onsite medical survey of the health care delivery system of each organization. The survey shall include a review of the procedures for obtaining health care, the procedures for regulating utilization, peer review mechanisms, internal procedures for assuring quality of care, and the overall performance of the organization in providing health care and meeting the health needs of employees.

(2) The survey shall be conducted by a panel of qualified health professionals experienced in evaluating the delivery of workers' compensation health care. The administrative director shall be authorized to contract with professional organizations or outside personnel to conduct medical surveys. These organizations or personnel shall have demonstrated the ability to objectively evaluate the delivery of this health care.

(3) Surveys performed pursuant to this section shall be conducted as often as deemed necessary by the administrative director to assure the protection of employees, but not less frequently than once every three years. Nothing in this section shall be construed to require the survey team to visit each clinic, hospital, office, or facility of the organization.

(4) Nothing in this section shall be construed to require the medical survey team to review peer review proceedings and records conducted and compiled under this section or in medical records. However, the administrative director shall be authorized to require onsite review of these peer review proceedings and records or medical records where necessary to determine that quality health care is being delivered to employees. Where medical record review is authorized, the survey team shall ensure that the confidentiality of the physician-patient relationship is safeguarded in accordance with existing law and neither the survey team nor the administrative director or the administrative director's staff may be compelled to disclose this information except in accordance with the physician-patient relationship. The administrative director shall ensure that the confidentiality of the peer review proceedings and records is maintained. The disclosure of the peer review proceedings and records to the administrative director or the medical survey team shall not alter the status of the proceedings or records as privileged and confidential communications.

(5) The procedures and standards utilized by the survey team shall be made available to the organizations prior to the conducting of medical surveys.

(6) During the survey, the members of the survey team shall offer such advice and assistance to the organization as deemed appropriate.

(7) The administrative director shall notify the organization of deficiencies found by the survey team. The administrative director shall give the organization a reasonable time to correct the deficiencies, and failure on the part of the organization to comply to the administrative director's satisfaction shall constitute cause for disciplinary action against the organization.

(8) Reports of all surveys, deficiencies, and correction plans shall be open to public inspection, except that no surveys, deficiencies or correction plans shall be made public unless the organization has had an opportunity to review the survey and file a statement of response within 30 days, to be attached to the report.

(p) (1) All records, books, and papers of an organization, management company, solicitor, solicitor firm, and any provider or subcontractor providing medical or other services to an organization, management company, solicitor, or solicitor firm shall be open to inspection during normal business hours by the administrative director.

(2) To the extent feasible, all the records, books, and papers described in paragraph (1) shall be located in this state. In examining those records outside this state, the administrative director shall consider the cost to the organization, consistent with the effectiveness of the administrative director's examination, and may upon reasonable notice require that these records, books, and papers, or a specified portion thereof, be made available for examination in this state, or that a true and accurate copy of these records, books, and papers, or a specified portion thereof, be furnished to the administrative director.

(q) (1) The administrative director shall conduct an examination of the administrative affairs of any organization, and each person with whom the organization has made arrangements for administrative, or management services, as often as deemed necessary to protect the interest of employees, but not less frequently than once every five years.

(2) The expense of conducting any additional or nonroutine examinations pursuant to this section, and the expense of conducting any additional or nonroutine medical surveys pursuant to subdivision (o) shall be charged against the organization being examined or surveyed. The amount shall include the actual salaries or compensation paid to the persons making the examination or survey, the expenses incurred in the course thereof, and overhead costs in connection therewith as fixed by the administrative director. In determining the cost of examinations or

surveys, the administrative director may use the estimated average hourly cost for all persons performing examinations or surveys of workers' compensation health care organizations for the fiscal year. The amount charged shall be remitted by the organization to the administrative director.

(3) Reports of all examinations shall be open to public inspection, except that no examination shall be made public, unless the organization has had an opportunity to review the examination report and file a statement or response within 30 days, to be attached to the report.

SEC. 10. Section 103 of the Welfare and Institutions Code is amended to read:

103. (a) Persons acting as a CASA shall be individuals who have demonstrated an interest in children and their welfare. Each CASA shall participate in a training course conducted under the rules and regulations adopted by the Judicial Council and in ongoing training and supervision throughout his or her involvement in the program. Each CASA shall be evaluated before and after initial training to determine his or her fitness for these responsibilities. Ongoing training shall be provided at least monthly.

(b) Each CASA shall commit a minimum of one year of service to a child until a permanent placement is achieved for the child or until relieved by the court, whichever is first. At the end of each year of service, the CASA, with the approval of the court, may recommit for an additional year.

(c) A CASA shall have no associations that create a conflict of interest with his or her duties as a CASA.

(d) An adult otherwise qualified to act as a CASA shall not be discriminated against based upon marital status, socioeconomic factors, or because of any characteristic listed or defined in Section 11135 of the Government Code.

(e) Each CASA is an officer of the court, with the relevant rights and responsibilities that pertain to that role and shall act consistently with the local rules of court pertaining to CASAs.

(f) Each CASA shall be sworn in by a superior court judge or commissioner before beginning his or her duties.

(g) A judge may appoint a CASA when, in the opinion of the judge, a child requires services which can be provided by the CASA, consistent with the local rules of court.

(h) To accomplish the appointment of a CASA, the judge making the appointment shall sign an order, which may grant the CASA the authority to review specific relevant documents and interview parties involved in the case, as well as other persons having significant information relating

to the child, to the same extent as any other officer of the court appointed to investigate proceedings on behalf of the court.

SEC. 11. Section 14200.1 of the Welfare and Institutions Code is amended to read:

14200.1. The purpose of this chapter is to afford persons eligible to receive benefits under Chapter 7 (commencing with Section 14000) of this part the opportunity to enroll as regular subscribers in prepaid health plans, without reference to marital status or any characteristic listed or defined in Section 11135 of the Government Code.

SEC. 12. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

## CHAPTER 683

An act to add Part 1.8 (commencing with Section 442) to Division 1 of the Health and Safety Code, relating to end-of-life care.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) Palliative and hospice care are invaluable resources for terminally ill Californians in need of comfort and support at the end of life.

(b) Palliative care and conventional medical treatment for terminally ill patients should be thoroughly integrated rather than viewed as separate entities.

(c) Even though Californians with a prognosis of six months or less to live are eligible for hospice care, nearly two-thirds of them receive hospice services for less than one month.

(d) Many terminally ill patients benefit from being referred to hospice care earlier, where they receive better pain and symptom management and have an improved quality of life.

(e) Significant information gaps may exist between health care providers and their patients on end-of-life care options potentially leading to delays in, or lack of referrals to, hospice care for terminally ill patients. The sharing of important information regarding specific treatment options in a timely manner by health care providers with terminally ill patients

is a key component of quality end-of-life care. Information that is helpful to patients and their families includes, but is not limited to, the availability of hospice care, the efficacy and potential side effects of continued disease-targeted treatment, and withholding or withdrawal of life-sustaining treatments.

(f) Terminally ill and dying patients rely on their health care providers to give them timely and informative data. Research shows a lack of communication between health care providers and their terminally ill patients can cause problems, including poor availability of, and lack of clarity regarding, advance health care directives and patients' end-of-life care preferences. This lack of information and poor adherence to patient choices can result in "bad deaths" that cause needless physical and psychological suffering to patients and their families.

(g) Those problems are complicated by social issues, such as cultural and religious pressures on the providers, patients, and their family members. A recent survey found that providers that object to certain practices are less likely than others to believe they have an obligation to present all of the options to patients and refer patients to other providers, if necessary.

(h) Every medical school in California is required to include end-of-life care issues in its curriculum and every physician in California is required to complete continuing education courses in end-of-life care.

(i) Palliative care is not a one-size-fits-all approach. Patients have a range of diseases and respond differently to treatment options. A key benefit of palliative care is that it customizes treatment to meet the needs of each individual person.

(j) Informed patient choices will help terminally ill patients and their families cope with one of life's most challenging situations.

SEC. 2. Part 1.8 (commencing with Section 442) is added to Division 1 of the Health and Safety Code, to read:

## PART 1.8. END-OF-LIFE CARE

442. For the purposes of this part, the following definitions shall apply:

(a) "Actively dying" means the phase of terminal illness when death is imminent.

(b) "Disease-targeted treatment" means treatment directed at the underlying disease or condition that is intended to alter its natural history or progression, irrespective of whether or not a cure is a possibility.

(c) "Health care provider" means an attending physician and surgeon. It also means a nurse practitioner or physician assistant practicing in accordance with standardized procedures or protocols developed and

approved by the supervising physician and surgeon and the nurse practitioner or physician assistant.

(d) "Hospice" means a specialized form of interdisciplinary health care that is designed to provide palliative care, alleviate the physical, emotional, social, and spiritual discomforts of an individual who is experiencing the last phases of life due to the existence of a terminal disease, and provide supportive care to the primary caregiver and the family of the hospice patient, and that meets all of the criteria specified in subdivision (b) of Section 1746.

(e) "Palliative care" means medical treatment, interdisciplinary care, or consultation provided to a patient or family members, or both, that has as its primary purpose the prevention of, or relief from, suffering and the enhancement of the quality of life, rather than treatment aimed at investigation and intervention for the purpose of cure or prolongation of life as described in subdivision (b) of Section 1339.31. In some cases, disease-targeted treatment may be used in palliative care.

(f) "Refusal or withdrawal of life-sustaining treatment" means forgoing treatment or medical procedures that replace or support an essential bodily function, including, but not limited to, cardiopulmonary resuscitation, mechanical ventilation, artificial nutrition and hydration, dialysis, and any other treatment or discontinuing any or all of those treatments after they have been used for a reasonable time.

442.5. When a health care provider makes a diagnosis that a patient has a terminal illness, the health care provider shall, upon the patient's request, provide the patient with comprehensive information and counseling regarding legal end-of-life care options pursuant to this section. When a terminally ill patient is in a health facility, as defined in Section 1250, the health care provider, or medical director of the health facility, if the patient's health care provider is not available, may refer the patient to a hospice provider or private or public agencies and community-based organizations that specialize in end-of-life care case management and consultation to receive comprehensive information and counseling regarding legal end-of-life care options.

(a) If the patient indicates a desire to receive the information and counseling, the comprehensive information shall include, but not be limited to, the following:

(1) Hospice care at home or in a health care setting.

(2) A prognosis with and without the continuation of disease-targeted treatment.

(3) The patient's right to refusal of or withdrawal from life-sustaining treatment.

(4) The patient's right to continue to pursue disease-targeted treatment, with or without concurrent palliative care.

(5) The patient's right to comprehensive pain and symptom management at the end of life, including, but not limited to, adequate pain medication, treatment of nausea, palliative chemotherapy, relief of shortness of breath and fatigue, and other clinical treatments useful when a patient is actively dying.

(6) The patient's right to give individual health care instruction pursuant to Section 4670 of the Probate Code, which provides the means by which a patient may provide written health care instruction, such as an advance health care directive, and the patient's right to appoint a legally recognized health care decisionmaker.

(b) The information described in subdivision (a) may, but is not required to be, in writing. Health care providers may utilize information from organizations specializing in end-of-life care that provide information on factsheets and Internet Web sites to convey the information described in subdivision (a).

(c) Counseling may include, but not be limited to, discussions about the outcomes for the patient and his or her family, based on the interest of the patient. Information and counseling as described in subdivision (a) may occur over a series of meetings with the health care provider or others who may be providing the information and counseling based on the patient's needs.

(d) The information and counseling sessions may include a discussion of treatment options in a manner that the patient and his or her family can easily understand. If the patient requests information on the costs of treatment options, including the availability of insurance and eligibility of the patient for coverage, the patient shall be referred to the appropriate entity for that information.

442.7. If a health care provider does not wish to comply with his or her patient's request for information on end-of-life options, the health care provider shall do both of the following:

(a) Refer or transfer a patient to another health care provider that shall provide the requested information.

(b) Provide the patient with information on procedures to transfer to another health care provider that shall provide the requested information.

## CHAPTER 684

An act to amend Section 31720.7 of the Government Code, and to amend Section 3212.8 of the Labor Code, relating to public safety personnel.

[Approved by Governor September 30, 2008. Filed with
Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 31720.7 of the Government Code is amended to read:

31720.7. (a) If a safety member, a firefighter, a county probation officer, or a member in active law enforcement develops a blood-borne infectious disease or a methicillin-resistant Staphylococcus aureus skin infection, the disease or skin infection so developing or manifesting itself in those cases shall be presumed to arise out of, and in the course of, employment. The blood-borne infectious disease or methicillin-resistant Staphylococcus aureus skin infection so developing or manifesting itself in those cases shall in no case be attributed to any disease or skin infection existing prior to that development or manifestation.

(b) Any safety member, firefighter, county probation officer, or member active in law enforcement described in subdivision (a) permanently incapacitated for the performance of duty as a result of a blood-borne infectious disease or methicillin-resistant Staphylococcus aureus skin infection shall receive a service-connected disability retirement.

(c) (1) The presumption described in subdivision (a) is rebuttable by other evidence. Unless so rebutted, the board is bound to find in accordance with the presumption.

(2) The blood-borne infectious disease presumption shall be extended to a member following termination of service for a period of three calendar months for each full year of the requisite service, but not to exceed 60 months in any circumstance, commencing with the last date actually worked in the specified capacity.

(3) Notwithstanding paragraph (2), the methicillin-resistant Staphylococcus aureus skin infection presumption shall be extended to a member following termination of service for a period of 90 days commencing with the last day actually worked in the specified capacity.

(d) "Blood-borne infectious disease," for purposes of this section, means a disease caused by exposure to pathogenic microorganisms that are present in human blood that can cause disease in humans, including, but not limited to, those pathogenic microorganisms defined as blood-borne pathogens by the Department of Industrial Relations.

(e) "Member in active law enforcement," for purposes of this section, means members employed by a sheriff's office, by a police or fire department of a city, county, city and county, district, or by another public or municipal corporation or political subdivision or who are

described in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code or who are employed by any county forestry or firefighting department or unit, except any of those members whose principal duties are clerical or otherwise do not clearly fall within the scope of active law enforcement services or active firefighting services, such as stenographers, telephone operators, and other office workers, and includes a member engaged in active law enforcement who is not classified as a safety member.

SEC. 2. Section 3212.8 of the Labor Code is amended to read:

3212.8. (a) In the case of members of a sheriff's office, of police or fire departments of cities, counties, cities and counties, districts, or other public or municipal corporations or political subdivisions, or individuals described in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, whether those persons are volunteer, partly paid, or fully paid, and in the case of active firefighting members of the Department of Forestry and Fire Protection, or of any county forestry or firefighting department or unit, whether voluntary, fully paid, or partly paid, excepting those whose principal duties are clerical or otherwise do not clearly fall within the scope of active law enforcement service or active firefighting services, such as stenographers, telephone operators, and other office workers, the term "injury" as used in this division, includes a blood-borne infectious disease or methicillin-resistant Staphylococcus aureus skin infection when any part of the blood-borne infectious disease or methicillin-resistant Staphylococcus aureus skin infection develops or manifests itself during a period while that person is in the service of that office, staff, division, department, or unit. The compensation that is awarded for a blood-borne infectious disease or methicillin-resistant Staphylococcus aureus skin infection shall include, but not be limited to, full hospital, surgical, medical treatment, disability indemnity, and death benefits, as provided by the workers' compensation laws of this state.

(b) (1) The blood-borne infectious disease or methicillin-resistant Staphylococcus aureus skin infection so developing or manifesting itself in those cases shall be presumed to arise out of and in the course of the employment or service. This presumption is disputable and may be controverted by other evidence, but unless so controverted, the appeals board is bound to find in accordance with it.

(2) The blood-borne infectious disease presumption shall be extended to a person covered by subdivision (a) following termination of service for a period of three calendar months for each full year of service, but not to exceed 60 months in any circumstance, commencing with the last date actually worked in the specified capacity.

(3) Notwithstanding paragraph (2), the methicillin-resistant Staphylococcus aureus skin infection presumption shall be extended to a person covered by subdivision (a) following termination of service for a period of 90 days, commencing with the last day actually worked in the specified capacity.

(c) The blood-borne infectious disease or methicillin-resistant Staphylococcus aureus skin infection so developing or manifesting itself in those cases shall in no case be attributed to any disease or skin infection existing prior to that development or manifestation.

(d) For the purposes of this section, "blood-borne infectious disease" means a disease caused by exposure to pathogenic microorganisms that are present in human blood that can cause disease in humans, including those pathogenic microorganisms defined as blood-borne pathogens by the Department of Industrial Relations.

## CHAPTER 685

An act to add Article 7.5 (commencing with Section 54750) and Article 7.7 (commencing with Section 54760) to Chapter 9 of Part 29 of Division 4 of Title 2 of the Education Code, relating to career technical education.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) Initiatives taken by the State of California and by California cities to reduce energy consumption through green building has resulted in a huge demand for a skilled workforce. For example, on December 14, 2004, Governor Schwarzenegger issued Executive Order S-20-04 with the goal of reducing energy use in state-owned buildings by 20 percent by 2015, from the 2003 baseline. The executive order also encourages the private commercial sector to set the same goal.

(b) The office of the President of the University of California; the California State University; the San Francisco, Los Angeles, and Peralta Community College Districts; the Public Employees' Retirement System; the State Teachers' Retirement System; and other public entities have passed initiatives that will reduce energy use through energy-efficient retrofitting and green building for new construction and retrofitting.

(c) Cities across the state have passed green building ordinances, from green building design and construction guidelines, including, but not

limited to, meeting Leadership in Energy and Environmental Design (LEED) standards, and construction and demolition waste recycling ordinances.

(d) The movement towards green building in California matches nationwide economic growth patterns; according to preliminary results of a McGraw-Hill Construction/National Association of Home Builders (NAHB) survey, there was a 20-percent increase in 2005 in the number of homebuilders focused on green, environmentally responsible building. This number is expected to have increased by another 30 percent in 2006.

(e) By 2010, residential green building is expected to grow to between $19,000,000,000 and $38,000,000,000 in the United States.

(f) Three-quarters of the buildings in the United States will be built through new construction or will be modernized during the next 30 years.

(g) Clean technology or "Clean Tech" has been described as "the biggest economic opportunity of the 21st century," moving to the third-highest investment category within the entire venture asset class, overtaking the semiconductor sector in terms of dollars being invested. Passage of Assembly Bill 32 in 2006 (Chapter 448 of the Statutes of 2006) will increase the need for green technology efforts to meet industry efforts to reduce greenhouse gas emissions.

(h) Green building is a recognized approach to mitigating climate change, as buildings are responsible for 40 percent of all greenhouse gas emissions annually and 76 percent of all electricity in the United States.

(i) The great demand placed upon the green building sector is making it difficult for modern energy professionals, such as energy service companies, to meet work demands due to a shortage of educated workers in fields such as heating, ventilation, and air conditioning (HVAC), lighting, refrigeration, carpentry, masonry, and roofing.

(j) Green building demands are necessitating the development of curriculum to educate young people, prepare them to serve the growing labor market, and provide access to meaningful, career-oriented jobs.

(k) Career and partnership academy programs in green building could provide graduates with a direct link to advanced community college-level certification programs in sustainability or trades apprenticeships.

SEC. 2. Article 7.5 (commencing with Section 54750) is added to Chapter 9 of Part 29 of Division 4 of Title 2 of the Education Code, to read:

## Article 7.5. Green Technology Partnership Academies

54750. (a) Commencing with the 2009–10 school year, when funds become available for additional partnership academies within the total number of grants available for all partnership academies pursuant to

Section 54691, the Superintendent shall issue grants for the establishment of partnership academies and shall give priority to the establishment of partnership academies dedicated to educating pupils in the emerging environmentally sound technologies until no less than one green technology partnership academy has been established in each of the nine economic regions established by the state. The academies may include, but are not limited to, technologies that educate pupils in the following areas:

(1) Energy audits that include a determination of energy savings.

(2) Retrofitting and weatherization activities that increase energy efficiency and conservation.

(3) Energy-efficient and water-efficient buildings.

(4) Retrofitting and installing energy-efficient household appliances, windows, doors, insulation, and lighting.

(5) Retrofitting and installing water and energy conservation technologies in existing homes, industrial buildings, and commercial and public buildings, to improve efficiency, including the use of energy and water management technologies and control systems.

(6) The design, construction, manufacture, sale, assembly, installation, and maintenance of energy-efficient technologies and renewable energy facilities, or the component parts of renewable energy technologies.

(7) Energy-efficient technologies or practices and renewable energy production, or the component parts of renewable energy plants and energy distribution, including energy storage; energy infrastructure, including transmission; transportation, including logistics; and water and wastewater, including water conservation.

(8) Performance and low-emission vehicle technology, automotive computer systems, mass transit fleet conversion, and the servicing and maintenance of those technologies.

(9) Pollution prevention and hazardous and solid waste reduction.

(10) Ocean, soil, or water conservation, or forestation strategies to mitigate climate change impacts.

(b) (1) The selection of school districts to establish the green technology partnership academies and the planning and development of the green technology partnership academies shall be conducted pursuant to the procedures and requirements established in Section 54691 for all partnership academies. The planning grants shall be made available for academies pursuant to this article from the total number of grants established pursuant to Section 54691.

(2) In the event a school district applies to convert an existing school program to a partnership academy and meets all the criteria for a partnership academy pursuant to Section 54692 and paragraph (3), the

department, in coordination with the Superintendent, may provide that academy with first-year implementation funds, as appropriate.

(3) (A) In order to be eligible for funding pursuant to this article, the coursework and internship or preapprenticeship programs of the proposed academy shall focus on the use of environmentally sound technologies and practices. The proposed academy shall demonstrate this through its efforts to obtain input from environmental industry, utilities, and professional trade organizations.

(B) Staff development opportunities also shall be included in the academy plans to ensure that teaching staff has the opportunity to be educated in the use of emerging technologies and to become familiar with new materials and current practices in the field.

(c) The priority established in this section may be satisfied when the specified number of green technology partnership academies meeting the requirements of this article are funded by any of, or a combination of, funds appropriated for the establishment of partnership academies.

SEC. 3. Article 7.7 (commencing with Section 54760) is added to Chapter 9 of Part 29 of Division 4 of Title 2 of the Education Code, to read:

Article 7.7. Goods Movement Partnership Academies

54760. (a) Commencing with the 2009–10 school year, when funds become available for additional partnership academies within the total number of grants available for all partnership academies pursuant to Section 54691, the Superintendent shall issue grants for the establishment of partnership academies and shall give priority to the establishment of partnership academies dedicated to educating pupils in goods movement occupational areas, such as port and terminal operations, pollution prevention, performance and low-emission vehicle technology, transportation computer systems, fleet conversion, and the servicing and maintenance of those technologies, shipping, logistics, trucking, rail, air, and security, until no less than one goods movement partnership academy has been established in each of the four transportation corridors established by the state.

(b) (1) The selection of school districts to establish the goods movement partnership academies and the planning and development of the goods movement partnership academies shall be conducted pursuant to the procedures and requirements established in Section 54691 for all partnership academies. The planning grants shall be made available for academies pursuant to this article from the total number of grants established pursuant to Section 54691.

(2) In the event a school district applies to convert an existing school program to a partnership academy and meets all the criteria for a partnership academy pursuant to Section 54692 and paragraph (3), the department, in coordination with the Superintendent, may provide that academy with first-year implementation funds, as appropriate.

(3) (A) In order to be eligible for funding pursuant to this article, the coursework and internship or preapprenticeship programs of the proposed academy shall focus significant time on the use of emerging technologies and state-of-the-art equipment. The proposed academy shall demonstrate this through its efforts to obtain input from industry and professional trade organizations.

(B) Staff development opportunities also shall be included in the academy plans to ensure that teaching staff has the opportunity to be educated in the use of emerging technologies and to become familiar with new equipment and current practices in the field.

(c) The priority established in this section may be satisfied when the specified number of goods movement partnership academies meeting the requirements of this article are funded by any of, or a combination of, funds appropriated for the establishment of partnership academies.

Use and development of property within the commission's jurisdiction may be subject to special regulations, restrictions, and permit requirements. You may wish to investigate and determine whether they are acceptable to you and your intended use of the property before you complete your transaction.

(17) If the property is presently located within one mile of a parcel of real property designated as "Prime Farmland," "Farmland of Statewide Importance," "Unique Farmland," "Farmland of Local Importance," or "Grazing Land" on the most current "Important Farmland Map" issued by the California Department of Conservation, Division of Land Resource Protection, utilizing solely the county-level GIS map data, if any, available on the Farmland Mapping and Monitoring Program Website. If the residential property is within one mile of a designated farmland area, the report shall contain the following notice:

NOTICE OF RIGHT TO FARM

This property is located within one mile of a farm or ranch land designated on the current county-level GIS "Important Farmland Map," issued by the California Department of Conservation, Division of Land Resource Protection. Accordingly, the property may be subject to inconveniences or discomforts resulting from agricultural operations that are a normal and necessary aspect of living in a community with a strong rural character and a healthy agricultural sector. Customary agricultural practices in farm operations may include, but are not limited to, noise, odors, dust, light, insects, the operation of pumps and machinery, the storage and disposal of manure, bee pollination, and the ground or aerial application of fertilizers, pesticides, and herbicides. These agricultural practices may occur at any time during the 24-hour day. Individual sensitivities to those practices can vary from person to person. You may wish to consider the impacts of such agricultural practices before you complete your purchase. Please be advised that you may be barred from obtaining legal remedies against agricultural practices conducted in a manner consistent with proper and accepted customs and standards pursuant to Section 3482.5 of the Civil Code or any pertinent local ordinance.

(18) Any other information that the owner, his or her agent, or the subdivider may desire to present.

SEC. 2. The heading of Article 1.7 (commencing with Section 1103) of Chapter 2 of Title 4 of Part 4 of Division 2 of the Civil Code is amended to read:

Article 1.7. Disclosure of Natural and Environmental Hazards, Right-to-Farm, and Other Disclosures Upon Transfer of Residential Property

SEC. 3. Section 1103.4 of the Civil Code is amended to read:

1103.4. (a) Neither the transferor nor any listing or selling agent shall be liable for any error, inaccuracy, or omission of any information delivered pursuant to this article if the error, inaccuracy, or omission was not within the personal knowledge of the transferor or the listing or selling agent, and was based on information timely provided by public agencies or by other persons providing information as specified in subdivision (c) that is required to be disclosed pursuant to this article, and ordinary care was exercised in obtaining and transmitting the information.

(b) The delivery of any information required to be disclosed by this article to a prospective transferee by a public agency or other person providing information required to be disclosed pursuant to this article shall be deemed to comply with the requirements of this article and shall relieve the transferor or any listing or selling agent of any further duty under this article with respect to that item of information.

(c) The delivery of a report or opinion prepared by a licensed engineer, land surveyor, geologist, or expert in natural hazard discovery dealing with matters within the scope of the professional's license or expertise, shall be sufficient compliance for application of the exemption provided by subdivision (a) if the information is provided to the prospective transferee pursuant to a request therefor, whether written or oral. In responding to that request, an expert may indicate, in writing, an understanding that the information provided will be used in fulfilling the requirements of Section 1103.2 and, if so, shall indicate the required disclosures, or parts thereof, to which the information being furnished

is applicable. Where that statement is furnished, the expert shall not be responsible for any items of information, or parts thereof, other than those expressly set forth in the statement.

(1) In responding to the request, the expert shall determine whether the property is within an airport influence area as defined in subdivision (b) of Section 11010 of the Business and Professions Code. If the property is within an airport influence area, the report shall contain the following statement:

NOTICE OF AIRPORT IN VICINITY

This property is presently located in the vicinity of an airport, within what is known as an airport influence area. For that reason, the property may be subject to some of the annoyances or inconveniences associated with proximity to airport operations (for example: noise, vibration, or odors). Individual sensitivities to those annoyances can vary from person to person. You may wish to consider what airport annoyances, if any, are associated with the property before you complete your purchase and determine whether they are acceptable to you.

(2) In responding to the request, the expert shall determine whether the property is within the jurisdiction of the San Francisco Bay Conservation and Development Commission, as defined in Section 66620 of the Government Code. If the property is within the commission's jurisdiction, the report shall contain the following notice:

NOTICE OF SAN FRANCISCO BAY CONSERVATION AND DEVELOPMENT COMMISSION JURISDICTION

This property is located within the jurisdiction of the San Francisco Bay Conservation and Development Commission. CHAPTER 687

An act to amend Sections 43013 and 43016 of the Health and Safety Code, relating to air pollution.

[Approved by Governor September 30, 2008. Filed with
Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 43013 of the Health and Safety Code is amended to read:

43013. (a) The state board shall adopt and implement motor vehicle emission standards, in-use performance standards, and motor vehicle fuel specifications for the control of air contaminants and sources of air pollution which the state board has found to be necessary, cost effective, and technologically feasible, to carry out the purposes of this division, unless preempted by federal law.

(b) The state board shall, consistent with subdivision (a), adopt standards and regulations for light-duty and heavy-duty motor vehicles, medium-duty motor vehicles, as determined and specified by the state board, portable fuel containers and spouts, and off-road or nonvehicle engine categories, including, but not limited to, off-highway motorcycles, off-highway vehicles, construction equipment, farm equipment, utility engines, locomotives, and, to the extent permitted by federal law, marine vessels.

(c) Prior to adopting standards and regulations for farm equipment, the state board shall hold a public hearing and find and determine that the standards and regulations are necessary, cost effective, and technologically feasible. The state board shall also consider the technological effects of emission control standards on the cost, fuel consumption, and performance characteristics of mobile farm equipment.

(d) Notwithstanding subdivision (b), the state board shall not adopt any standard or regulation affecting locomotives until the final study required under Section 5 of Chapter 1326 of the Statutes of 1987 has been completed and submitted to the Governor and Legislature.

(e) Prior to adopting or amending any standard or regulation relating to motor vehicle fuel specifications pursuant to this section, the state board shall, after consultation with public or private entities that would be significantly impacted as described in paragraph (2) of subdivision (f), do both of the following:

(1) Determine the cost-effectiveness of the adoption or amendment of the standard or regulation. The cost-effectiveness shall be compared on an incremental basis with other mobile source control methods and options.

(2) Based on a preponderance of scientific and engineering data in the record, determine the technological feasibility of the adoption or amendment of the standard or regulation. That determination shall

include, but is not limited to, the availability, effectiveness, reliability, and safety expected of the proposed technology in an application that is representative of the proposed use.

(f) Prior to adopting or amending any motor vehicle fuel specification pursuant to this section, the state board shall do both of the following:

(1) To the extent feasible, quantitatively document the significant impacts of the proposed standard or specification on affected segments of the state's economy. The economic analysis shall include, but is not limited to, the significant impacts of any change on motor vehicle fuel efficiency, the existing motor vehicle fuel distribution system, the competitive position of the affected segment relative to border states, and the cost to consumers.

(2) Consult with public or private entities that would be significantly impacted to identify those investigative or preventive actions that may be necessary to ensure consumer acceptance, product availability, acceptable performance, and equipment reliability. The significantly impacted parties shall include, but are not limited to, fuel manufacturers, fuel distributors, independent marketers, vehicle manufacturers, and fuel users.

(g) To the extent that there is any conflict between the information required to be prepared by the state board pursuant to subdivision (f) and information required to be prepared by the state board pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the requirements established under subdivision (f) shall prevail.

(h) It is the intent of the Legislature that the state board act as expeditiously as is feasible to reduce nitrogen oxide emissions from diesel vehicles, marine vessels, and other categories of vehicular and mobile sources which significantly contribute to air pollution problems.

SEC. 2. Section 43016 of the Health and Safety Code is amended to read:

43016. Any person who violates any provision of this part, or any order, rule, or regulation of the state board adopted pursuant to this part, and for which violation there is not provided in this part any other specific civil penalty or fine, shall be subject to a civil penalty not to exceed five hundred dollars ($500) per vehicle, portable fuel container, spout, engine, or other unit subject to regulation under this part, as these terms are defined in this division or state board regulations. Any penalty collected pursuant to this section shall be payable to the State Treasurer for deposit in the Air Pollution Control Fund.

SEC. 3. The amendment of Section 43013 of the Health and Safety Code made by this act does not constitute a change in, but is declaratory of, existing law.

*The people of the State of California do enact as follows:*

SECTION 1. Section 5.1 of the Castaic Lake Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

SEC. 5.1. (a) (1) Notwithstanding any other provision of the Castaic Lake Water Agency Law, the number of directors on the board shall be as follows:

(2) One nominee for the office of appointed director shall be nominated by each purveyor and submitted in writing to the board of directors. The board of directors shall appoint each nominee within 30 days after the nomination is submitted, or may within the same time period by resolution reject any nominee for cause which is documented in the resolution by a detailed statement of reasons. If the board of directors rejects a nominee of any purveyor, the affected purveyor shall promptly submit a second and different nominee to the board of directors. The board of directors shall appoint the second nominee within 30 days after the second nomination is submitted, or may within the same time period likewise by resolution reject that second nominee for cause which is documented in the resolution by a detailed statement of reasons. If the board of directors rejects any second nominee of any purveyor, the affected purveyor shall select a third and still different nominee, which nominee shall be entitled without further board action to take an oath of office as required by law and to thereafter serve as an appointed director of the agency.

(3) A nominee of a purveyor may be a shareholder, director, officer, agent, or employee of the nominating purveyor, and shall be a registered voter within Los Angeles County or Ventura County. Any nominee of a purveyor who is the chief executive officer, chief operating officer, or

(4) The term of office of an appointed director is four years.

(5) Upon expiration of an initial term of office of an appointed director, the office of that appointed director shall be filled pursuant to Section 5.2. If a vacancy occurs in the office of an appointed director, it shall be filled in the same manner as is provided in subdivisions (a) and (b) of Section 5.2 for the appointment of a successor appointed director, except that the purveyor or its successor in interest to which the vacancy relates shall within not more than 60 days of the occurrence of the vacancy nominate a person for appointment to the vacant office, and the vacant office shall be filled by the board of directors not later than 30 days after that nomination.

(6) An incumbent in the office of appointed director shall be subject to recall by the voters of the entire agency in accordance with Division 11 (commencing with Section 11000) of the Elections Code, except that any vacancy created by a successful recall shall be filled in accordance with the procedure provided by this section for a vacancy created other than by a recall election.

(b) (1) Notwithstanding any other provision of the Castaic Lake Water Agency Law, if the agency acquires a private water purveyor, the term of office of the director appointed by the private purveyor shall terminate at 12 o'clock noon on the first Monday after January 1 of the year following the acquisition.

(2) The successor to the director described in paragraph (1) shall be elected at-large by agency voters at the statewide general election held in November of the even-numbered year following the acquisition, and shall take office at 12 o'clock noon on the first Monday after January 1 of the year following the election. The successor and each elected director thereafter to hold the office described in this subdivision shall hold office for the term of four years from the date of taking office and until the election and qualification of the next director to hold that office.

(3) The elected office described in paragraph (2) shall cease to exist upon the abolishment of the offices of appointed directors pursuant to subdivision (c) of Section 5.2.

(4) Paragraph (1) shall not be effective with respect to the director appointed by the Santa Clarita Water Company until a court of competent jurisdiction issues a final decision holding that the agency acquired the company.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5093.32 of the Public Resources Code is amended to read:

5093.32. As used in this chapter:

(a) "Minimum management requirements" means the minimum wilderness management actions that are necessary to administer a wilderness area for the purpose of this chapter.

(b) "Minimum tool" means the least intrusive tool, equipment, device, regulation, action, or practice that will achieve the minimum management requirements.

(c) "Roadless area" means a reasonably compact area of undeveloped land that possesses the general characteristics of a wilderness, as described in subdivision (c) of Section 5093.33, and within which there is no improved road that is suitable for public travel by motorized vehicles intended primarily for highway use.

(d) "Secretary" means the Secretary of the Resources Agency.

(e) "System" means the California wilderness preservation system.

(f) "Wilderness areas" means component areas of the system as described in Section 5093.33, 5093.34, or 5093.345.

SEC. 2. Section 5093.345 is added to the Public Resources Code, immediately preceding Section 5093.35, to read:

5093.345. (a) Limekiln State Wilderness, comprised of approximately 413 acres of Limekiln State Park as generally depicted on a map entitled "Limekiln State Park Wilderness" dated August 29, 2008, and filed with the Secretary of State and transmitted to the secretary, is hereby designated as a component of the system. The department may take measures to control fire, diseases, and insects as provided in subdivision (c) of Section 5093.36.

(b) Notwithstanding any other provision of this chapter, the California Coastal Trail, as specified in Section 31408, may be located, designed, constructed, or operated within the Limekiln State Wilderness.

SEC. 3. Section 5093.36 of the Public Resources Code is amended to read:

5093.36. (a) Except as otherwise provided in this chapter, a state agency with jurisdiction over an area designated as a wilderness area shall be responsible for preserving the wilderness character of the wilderness area and shall administer the area for the purposes for which it has been established and to preserve its wilderness character. Except as otherwise provided in this chapter, wilderness areas shall be devoted to the public purposes of recreational, scenic, scientific, educational, conservation, and historical use.

(b) Except as specifically provided in this chapter, and subject to private rights existing as of January 1, 1975, there shall be no commercial enterprise and no permanent road within any wilderness area. There shall be no temporary road, no use of motor vehicles, motorized equipment, or motorboats, no landing or hovering of aircraft, no flying of aircraft lower than 2,000 feet above the ground, no other form of mechanical transport, and no structure or installation within any wilderness area, except under either of the following circumstances:

(1) It is necessary in an emergency involving the health and safety of persons within the wilderness area.

(2) It is the minimum tool necessary to meet the minimum management requirements.

(c) The following special provisions are hereby made:

(1) Within a wilderness area, measures may be taken as may be necessary for the control of fire, insects, and diseases, subject to conditions that the state agency with jurisdiction over the wilderness area may deem desirable.

(2) Nothing in this chapter shall prevent any activity by any public agency within a wilderness area, including prospecting, for the purpose of gathering information about mineral or other resources that the state agency with jurisdiction over the wilderness area has determined will be carried on in a manner compatible with the preservation of the wilderness environment.

(3) A state agency with jurisdiction over a wilderness area may authorize the collection of hydrometeorological data and the conduct of weather modification activities, including both atmospheric and surface activities and environmental research, which are within, over, or may affect wilderness areas and for those purposes may permit access, installation, and use of equipment which is specifically justified and unobtrusively located. Maximum practical application of miniaturization, telemetry, and camouflage shall be employed in conducting weather modification activities. In granting permission for the conduct of data collection and weather modification activities, the appropriate state

agency may prescribe operating and monitoring conditions that it deems necessary to minimize or avoid long-term and intensive local impact on the wilderness character of the wilderness areas affected.

(4) Within a wilderness area, the grazing of livestock, where established prior to January 1, 1975, may be permitted to be continued by the present lessee or permittee subject to limitation by the terms and regulations that are deemed necessary by the state agency with jurisdiction over the wilderness areas.

(5) This chapter does not apply to the aerial stocking of fish or to the conduct of aerial surveys of wildlife species.

(6) A state agency with jurisdiction over a wilderness area may authorize measures that address environmental damage or degradation affecting wilderness character and resources if those measures are consistent with the minimum management requirements and only the minimum tools are used.

(7) Guidelines for the determination of the minimum management requirements and the minimum tool shall be adopted by regulation.

## CHAPTER 690

An act to add and repeal Title 7.25 (commencing with Section 66700) of the Government Code, relating to the San Francisco Bay Restoration Authority.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Title 7.25 (commencing with Section 66700) is added to the Government Code, to read:

# TITLE 7.25. SAN FRANCISCO BAY RESTORATION AUTHORITY ACT

## Chapter 1. Findings and Declarations

66700. This title shall be known and may be cited as the San Francisco Bay Restoration Authority Act.

66700.5. The Legislature hereby finds and declares all of the following:

(a) The nine counties surrounding the San Francisco Bay constitute a region with unique natural resource and outdoor recreational needs. The San Francisco Bay is the region's greatest natural resource and its central feature and contributes greatly to California's economic health and vitality. The bay is a hub of an interconnected open-space system of watersheds, natural habitats, scenic areas, agricultural lands, and regional trails.

(b) As the largest estuary on the West Coast of the United States, the San Francisco Bay is home to hundreds of fish and wildlife species and provides many outdoor recreational opportunities. The San Francisco Bay is home to 105 threatened species and 23 endangered species of wildlife. The San Francisco Bay and its tidal and seasonal wetlands and other natural shoreline habitats are a significant part of the state's coastal resources and a healthy bay is necessary to support the state's human and wildlife populations.

(c) The Legislature has declared, in the California Ocean Protection Act, that California's coastal and ocean resources are critical to the state's environmental and economic security and integral to the state's quality of life.

(d) A healthy San Francisco Bay is essential to a healthy ocean ecosystem. Forty percent of the land in the state drains to the San Francisco Bay. Pollution from cars, homes, and neighborhoods around the bay, as well as from communities as far away as Fresno, Redding, and Sacramento, drains into creeks, streams, and rivers that flow to the bay before entering the Pacific Ocean.

(e) The San Francisco Bay is an estuary that is a critical nursery for many ocean species, and the bay's wetlands, which are sheltered from high winds, big waves, and fast-moving water, provide plentiful food and protection from ocean predators. The bay's fertile mixing zone of fresh and salty water also generates the ocean's food chain base.

(f) The restoration, preservation, and maintenance of vital wetlands and San Francisco Bay habitat, improvement of bay water quality, provision of public access to the bay shoreline, and enhancement of shoreline recreational amenities for the growing population of the San

Francisco Bay Area are immediate state and regional priorities that are necessary to address continuing serious threats posed by pollution and sprawl and to improve the region's quality of life.

(g) Wetland restoration in the San Francisco Bay is necessary to address the growing danger that global warming and rises in sea level pose to the economic well-being, public health, natural resources, and environment of California. Tidal wetlands can both assist with tidal and fluvial flood management and adapt to rises in sea level by accreting additional sediment and rising in elevation. Leading scientists from the Intergovernmental Panel on Climate Change and the United States government have found that the restoration of lost wetlands represents an immediate and large opportunity for enhancing terrestrial carbon sequestration.

(h) The importance of protecting and restoring the San Francisco Bay's tidal wetlands and other natural habitat was underscored by the 2007 Cosco Busan oil spill, and the critical importance of restoration projects and the long-term health of the bay are well-documented in regional plans and reports, including the San Francisco Estuary Project's Comprehensive Conservation and Management Plan, the San Francisco Bay Conservation and Development Commission's San Francisco Bay Plan, the Baylands Ecosystem Habitat Goals Report, the San Francisco Bay Joint Venture's "Restoring the Estuary" Implementation Strategy, the Resources Agency report, "California's Ocean Economy," and the Save The Bay's "Greening the Bay" report.

(i) The protection and restoration of the San Francisco Bay require efficient and effective use of public funds, leveraging of local funds with state and federal resources, and investment of significant resources over a sustained period for habitat restoration on shoreline parcels, parks, and recreational facilities, and public access to natural areas.

(j) The protection and restoration of the San Francisco Bay and the enhancement of its shoreline confer special benefits on property proximate to the bay. Properties proximate to the bay receive special benefits from the contribution of a healthy and vibrant bay to the region's economy and quality of life, including improved access to the bay's shoreline, enhanced recreational amenities in the area, and protection from flooding.

(k) The San Francisco Bay Area needs to develop regional mechanisms to generate and allocate additional resources to address threats to the San Francisco Bay and to secure opportunities for the improvement of the bay and its shoreline, natural areas, and recreational facilities.

(*l*) It is in the public interest to create the San Francisco Bay Restoration Authority as a regional entity to generate and allocate

resources for the protection and enhancement of tidal wetlands and other wildlife habitat in and surrounding the San Francisco Bay.

## Chapter 2. Definitions

## CHAPTER 692

An act to amend Section 65460.1 of, and to add, repeal, and add Section 66005.1 of, the Government Code, relating to community development.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 65460.1 of the Government Code is amended to read:

65460.1. (a) The Legislature hereby finds and declares all of the following:

(1) Federal, state, and local governments in California are investing in new and expanded transit systems in areas throughout the state, including Los Angeles County, the San Francisco Bay area, San Diego County, Santa Clara County, and Sacramento County.

(2) This public investment in transit is unrivaled in the state's history and represents well over ten billion dollars ($10,000,000,000) in planned investment alone.

(3) Recent studies of transit ridership in California indicate that persons who live within a quarter-mile radius of transit stations utilize the transit system in far greater numbers than does the general public living elsewhere.

(4) The use of transit by persons living near transit stations is particularly important given the decline of transit ridership in California between 1980 and 1990. Transit's share of commute trips dropped in all California metropolitan areas—greater Los Angeles: 5.4 percent to 4.8

percent; San Francisco Bay area: 11.9 percent to 10.0 percent; San Diego: 3.7 percent to 3.6 percent; Sacramento: 3.7 percent to 2.5 percent.

(5) Only a few transit stations in California have any concentration of housing proximate to the station.

(6) Interest in clustering housing and commercial development around transit stations, called transit villages, has gained momentum in recent years.

(b) For purposes of this article, the following definitions shall apply:

(1) "Bus hub" means an intersection of three or more bus routes, with a minimum route headway of 10 minutes during peak hours.

(2) "Bus transfer station" means an arrival, departure, or transfer point for the area's intercity, intraregional, or interregional bus service having permanent investment in multiple bus docking facilities, ticketing services, and passenger shelters.

(3) "District" means a transit village development district as defined in Section 65460.4.

(4) "Peak hours" means the time between 7 a.m. to 10 a.m., inclusive, and 3 p.m. to 7 p.m., inclusive, Monday through Friday.

(5) "Transit station" means a rail or light-rail station, ferry terminal, bus hub, or bus transfer station.

SEC. 1.5. Section 65460.1 of the Government Code is amended to read:

65460.1. (a) The Legislature hereby finds and declares all of the following:

(1) Federal, state, and local governments in California are investing in new and expanded transit systems in areas throughout the state, including Los Angeles County, the San Francisco Bay area, San Diego County, Santa Clara County, and Sacramento County.

(2) This public investment in transit is unrivaled in the state's history and represents well over ten billion dollars ($10,000,000,000) in planned investment alone.

(3) Recent studies of transit ridership in California indicate that persons who live within one-half mile radius of transit stations utilize the transit system in far greater numbers than does the general public living elsewhere.

(4) The use of transit by persons living near transit stations is particularly important given the decline of transit ridership in California between 1980 and 1990. Transit's share of commute trips dropped in all California metropolitan areas—greater Los Angeles: 5.4 percent to 4.8 percent; San Francisco Bay area: 11.9 percent to 10.0 percent; San Diego: 3.7 percent to 3.6 percent; Sacramento: 3.7 percent to 2.5 percent.

(5) Only a few transit stations in California have any concentration of housing proximate to the station.

(6) Interest in clustering housing and commercial development around transit stations, called transit villages, has gained momentum in recent years.

(b) For purposes of this article, the following definitions shall apply:

(1) "Bus transfer station" means an arrival, departure, or transfer point for the area's intercity, intraregional, or interregional bus service having permanent investment in multiple bus docking facilities, ticketing services, and passenger shelters.

(2) "County" includes a city and county.

(3) "Bus hub" means an intersection of three or more bus routes, with a minimum route headway of 10 minutes during peak hours.

(4) "District" means a transit village development district as defined in Section 65460.4.

(5) "Peak hours" means the time between 7 a.m. to 10 a.m., inclusive, and 3 p.m. to 7 p.m., inclusive, Monday through Friday.

(6) "Transit station" means a rail or light-rail station, ferry terminal, bus hub, or bus transfer station.

SEC. 2. Section 66005.1 is added to the Government Code, to read:

66005.1. (a) (1) When a local agency imposes a fee on a housing development pursuant to Section 66001 for the purpose of mitigating vehicular traffic impacts, if that housing development satisfies all of the following characteristics, the fee, or the portion thereof relating to vehicular traffic impacts, shall be set at a rate that reflects a lower rate of automobile trip generation associated with such housing developments in comparison with housing developments without these characteristics, unless the local agency adopts findings after a public hearing establishing that the housing development, even with these characteristics, would not generate fewer automobile trips than a housing development without those characteristics:

(A) The housing development is located within one-half mile of a transit station and there is direct access between the housing development and the transit station along a barrier-free walkable pathway not exceeding one-half mile in length.

(B) Convenience retail uses, including a store that sells food, are located within one-half mile of the housing development.

(C) The housing development provides either the minimum number of parking spaces required by the local ordinance, or no more than one onsite parking space for zero to two bedroom units, and two onsite parking spaces for three or more bedroom units, whichever is less.

(2) The provisions of paragraph (1) shall not apply to a housing development that satisfies the characteristics in subparagraphs (A) to (C), inclusive, of paragraph (1) that is located within an area covered by a capital improvement plan for traffic facilities that was adopted on or

before January 1, 2009, and for which fees are collected to mitigate the impacts of traffic.

(b) If a housing development does not satisfy the characteristics in subdivision (a), the local agency may charge a fee that is proportional to the estimated rate of automobile trip generation associated with the housing development.

(c) As used in this section, "housing development" means a development project with common ownership and financing consisting of residential use or mixed use where not less than 50 percent of the floorspace is for residential use.

(d) For the purposes of this section, "transit station" has the meaning set forth in paragraph (4) of subdivision (b) of Section 65460.1. "Transit station" includes planned transit stations otherwise meeting this definition whose construction is programmed to be completed prior to the scheduled completion and occupancy of the housing development.

(e) This section shall remain in effect only until January 1, 2011, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2011, deletes or extends that date.

SEC. 3. Section 66005.1 is added to the Government Code, to read:

66005.1. (a) When a local agency imposes a fee on a housing development pursuant to Section 66001 for the purpose of mitigating vehicular traffic impacts, if that housing development satisfies all of the following characteristics, the fee, or the portion thereof relating to vehicular traffic impacts, shall be set at a rate that reflects a lower rate of automobile trip generation associated with such housing developments in comparison with housing developments without these characteristics, unless the local agency adopts findings after a public hearing establishing that the housing development, even with these characteristics, would not generate fewer automobile trips than a housing development without those characteristics:

(1) The housing development is located within one-half mile of a transit station and there is direct access between the housing development and the transit station along a barrier-free walkable pathway not exceeding one-half mile in length.

(2) Convenience retail uses, including a store that sells food, are located within one-half mile of the housing development.

(3) The housing development provides either the minimum number of parking spaces required by the local ordinance, or no more than one onsite parking space for zero to two bedroom units, and two onsite parking spaces for three or more bedroom units, whichever is less.

(b) If a housing development does not satisfy the characteristics in subdivision (a), the local agency may charge a fee that is proportional

to the estimated rate of automobile trip generation associated with the housing development.

(c) As used in this section, "housing development" means a development project with common ownership and financing consisting of residential use or mixed use where not less than 50 percent of the floorspace is for residential use.

(d) For the purposes of this section, "transit station" has the meaning set forth in paragraph (4) of subdivision (b) of Section 65460.1. "Transit station" includes planned transit stations otherwise meeting this definition whose construction is programmed to be completed prior to the scheduled completion and occupancy of the housing development.

(e) This section shall become operative on January 1, 2011.

SEC. 4. Section 1.5 of this bill incorporates amendments to Section 65460.1 of the Government Code proposed by both this bill and AB 1221. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2009, (2) each bill amends Section 65460.1 of the Government Code, and (3) this bill is enacted after AB 1221, in which case Section 1 of this bill shall not become operative.

Prior to the execution of any modification of any contract for the purchase of power by the department pursuant to this division, on or after the effective date of this section, the department or the commission, as applicable, shall do the following:

(A) The department shall notify the public of its intent to modify a contract and the opportunity to comment on the proposed modification.

(B) At least 21 days after providing public notice, the department shall make a determination as to whether the proposed modifications are just and reasonable. The determination shall include responses to any public comments.

(C) No later than 70 days before the date of execution of the contract modification, the department shall provide a written report to the commission setting forth the justification for the determination that the proposed modification is just and reasonable, including documents, analysis, response to public comments, and other information relating to the determination.

(D) Within 60 days of the date of receipt of the department's written report, the commission shall review the report and make public its comments. If the commission in its comments recommends against the proposed modification, the department shall not execute the proposed contract modification.

(2) This subdivision does not apply to the modification of a contract modified to settle litigation to which the commission is a party.

(4) This subdivision does not apply to the modification of a contract to address issues relating to billing, scheduling, delivery of electricity, and related contract matters arising out of the implementation by the Independent System Operator of its market redesign and technology upgrade program.

(5) (A) For purposes of this subdivision, the department proposes to "modify" a contract if there is any material change proposed in the terms of the contract.

(B) A change to a contract is not material if it is only administrative in nature or the change in ratepayer value results in ratepayer savings, not to exceed twenty-five million dollars ($25,000,000) per year. For the purpose of making a determination that a change is only

administrative in nature or results in ratepayer savings of twenty-five million dollars ($25,000,000) or less per year, the executive director of the commission shall concur in writing with each of those determinations by the department.

(d) The commission may enter into an agreement with the department with respect to charges under Section 451 for purposes of this division, and that agreement shall have the force and effect of a financing order adopted in accordance with Article 5.5 (commencing with Section 840) of Chapter 4 of Part 1 of Division 1 of the Public Utilities Code, as determined by the commission.

(e) In no case shall the commission increase the electricity charges in effect on the date that the act that adds this section becomes effective for residential customers for existing baseline quantities or usage by those customers of up to 130 percent of existing baseline quantities, until such time as the department has recovered the costs of power it has procured for the electrical corporation's retail end-use customers as provided in this division.

(f) After the passage of a period of time after February 1, 2001, as shall be determined by the commission, the right of retail end-use customers pursuant to Article 6 (commencing with Section 360) of Chapter 2.3 of Part 1 of Division 1 of the Public Utilities Code to acquire service from other providers shall be suspended until the department no longer supplies power hereunder. The department shall have the same rights with respect to the payment by retail end-use customers for power sold by the department as do providers of power to the customers.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to allow the Public Utilities Commission to conduct a review of the just and reasonable review for modifications of contracts entered into under Section 80110 of the Water Code as soon as possible, it is necessary that this act take immediate effect.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 14501 of the Public Resources Code is amended to read:

14501. The Legislature finds and declares as follows:

(a) Experience in this state and others demonstrates that financial incentives and convenient return systems ensure the efficient and large-scale recycling of beverage containers. Accordingly, it is the intent of the Legislature to encourage increased, and more convenient, beverage container redemption opportunities for all consumers. These redemption

opportunities shall consist of dealer and other shopping center locations, independent and industry operated recycling centers, curbside programs, and other recycling systems that assure all consumers, in every region of the state, the opportunity to return beverage containers conveniently, efficiently, and economically.

(b) California grocery, beer, soft drink, container manufacturing, labor, agricultural, consumer, environmental, government, citizen, recreational, taxpayer, and recycling groups have joined together in calling for an innovative program to generate large-scale redemption and recycling of beverage containers.

(c) This division establishes a beverage container recycling goal of 80 percent.

(d) It is the intent of the Legislature to ensure that every container type proves its own recyclability.

(e) It is the intent of the Legislature to make redemption and recycling convenient to consumers, and the Legislature hereby urges cities and counties, when exercising their zoning authority, to act favorably on the siting of multimaterial recycling centers, reverse vending machines, mobile recycling units, or other types of recycling opportunities, as necessary for consumer convenience, and the overall success of litter abatement and beverage container recycling in the state.

(f) The purpose of this division is to create and maintain a marketplace where it is profitable to establish sufficient recycling centers and locations to provide consumers with convenient recycling opportunities through the establishment of minimum refund values and processing fees and, through the proper application of these elements, to enhance the profitability of recycling centers, recycling locations, and other beverage container recycling programs.

(g) The responsibility to provide convenient, efficient, and economical redemption opportunities rests jointly with manufacturers, distributors, dealers, recyclers, processors, and the Department of Conservation.

(h) It is the intent of the Legislature, in enacting this division, that all empty beverage containers redeemed shall be recycled, and that the responsibilities and regulations of the department shall be determined and implemented in a manner that favors the recycling of redeemed containers, as opposed to their disposal.

(i) Nothing in this division shall be interpreted as affecting the current business practices of scrap dealers or recycling centers, except that, to the extent they function as a recycling center or processor, they shall do so in accordance with this division.

(j) The program established by this division will contribute significantly to the reduction of the beverage container component of litter in this state.

14549.6. (a) The department, consistent with Section 14581 and subject to the availability of funds, shall annually pay a total of fifteen million dollars ($15,000,000) per fiscal year to operators of curbside programs and neighborhood dropoff programs that accept all types of empty beverage containers for recycling. The payments shall be for each container collected by the curbside or neighborhood dropoff programs and properly reported to the department by processors, based upon all of the following:

(f) Only one payment shall be made for each eligible empty beverage container collected by an eligible recycling center or dropoff or collection program.

(g) The operator of an eligible recycling center and dropoff or collection program shall make available for inspection and review any

relevant record that the department determines is necessary to verify compliance with this section.

(h) This section shall remain in effect only until January 1, 2010, and as of that date is repealed, unless a later enacted statute that is enacted before January 1, 2010, deletes or extends that date.

SEC. 9. Section 14552 of the Public Resources Code is amended to read:

14552. (a) The department shall establish and implement an auditing system to ensure that the information collected, and refund values and redemption payments paid pursuant to this division, comply with the purposes of this division. Notwithstanding Sections 14573 and 14573.5, the auditing system adopted by the department may include prepayment or postpayment controls.

(b) (1) On or after January 1 of each year, the department may audit or investigate any action taken up to three years before the onset of the audit or investigation and may determine if there was compliance with this division and the regulations adopted pursuant to this division, during that period.

(2) Notwithstanding any other provision of law establishing a shorter statute of limitation, the department may take an enforcement action, including, but not limited to, an action for restitution or to impose penalties, at any time within two years after the department discovers, or with reasonable diligence, should have discovered, a violation of this division or the regulations adopted pursuant to this division.

(c) During the conduct of any inspection, including, but not limited to, an inspection conducted as part of an audit or investigation, the entity that is the subject of the inspection shall, during its normal business hours, provide the department with immediate access to its facilities, operations, and any relevant record, that, in the department's judgment, the department determines are necessary to carry out this section to verify compliance with this division and the regulations adopted pursuant to this division.

(1) The department may take disciplinary action pursuant to Section 14591.2 against any person who fails to provide the department with access pursuant to this subdivision including, but not limited to, imposing penalties and the immediate suspension or termination of any certificate or registration held by the operator.

(2) The department shall protect any information obtained pursuant to this section in accordance with Section 14554, except that this section does not prohibit the department from releasing any information that the department determines to be necessary in the course of an enforcement action.

(d) The auditing system adopted by the department shall allow for reasonable shrinkage in material due to moisture, dirt, and foreign material. The department, after an audit by a qualified auditing firm and a hearing, shall adopt a standard to be used to account for shrinkage and shall incorporate this standard in the audit process.

(e) If the department prevails against any entity in any civil or administrative action brought pursuant to this division, and money is owed to the department as a result of the action, the department may offset the amount against amounts claimed by the entity to be due to it from the department. The department may take this offset by withholding payments from the entity or by authorizing all processors to withhold payment to a certified recycling center.

(f) If the department determines, pursuant to an audit or investigation, that a distributor or beverage manufacturer has overpaid the redemption payment or processing fee, the department may do either of the following:

(1) Offset the overpayment against future payments.

(2) Refund the payment pursuant to Article 3 (commencing with Section 13140) of Chapter 2 of Part 3 of Division 3 of Title 2 of the Government Code.

SEC. 10. Section 14555 of the Public Resources Code is repealed.

SEC. 11. Section 14560.5 of the Public Resources Code is amended to read:

14560.5. (a) (1) Except as provided in paragraph (2), the invoice or other form of accounting of the transaction submitted by a beverage distributor of beverages to a dealer shall separately identify the amount of any redemption payment imposed on beverage containers pursuant to Section 14560 and the separate identification of the invoice or other form of accounting of the transaction shall not combine or include the gross wholesale price with the redemption payment but shall separately state the gross amount of the redemption payment for each type of container included in each delivery.

(2) The invoice or other form of accounting of the transaction submitted by any distributor of beer and malt beverages or wine or distilled spirit coolers to a dealer may separately identify the portion of the gross wholesale price attributable to any redemption payment imposed on beverage containers pursuant to Section 14560 and the separate identification of the invoice or other form of accounting of the transaction may separately state the gross amount of the redemption payment for each type of container included in each delivery. The invoice or other form of accounting of this transaction may separately identify the portion of the gross wholesale price attributable to the redemption payment.

(3) Notwithstanding Section 14541, the department shall randomly inspect beverage distributor invoices or other forms of accounting to

ensure compliance with this subdivision. However, an unintentional error in addition or subtraction on an invoice or other form of accounting by a route driver of a distributor shall not be deemed a violation of this subdivision.

(4) For the purposes of this subdivision, the term "type of container" includes the amount of the redemption payment on containers under 24 ounces and on containers 24 ounces or more.

(b) To the extent technically and economically feasible, a dealer may separately identify the amount of any redemption payment on the customer cash register receipt provided to the consumer, by the dealer, that is applied to the purchase of a beverage container.

(c) (1) A dealer shall separately identify the amount of any redemption payment imposed on a beverage container in all advertising of beverage products and on the shelf labels of the dealer's establishment. The separate identification shall be accomplished by stating one of the following:

(A) The price of the beverage product plus a descriptive term, as described in paragraph (2).

(B) The price of the beverage product plus the amount of the applicable redemption payment and a descriptive term, as described in paragraph (2).

(C) The price of the beverage product plus the amount of the applicable redemption payment, a descriptive term, as described in paragraph (2), and the total of these two amounts.

(2) For purposes of paragraph (1), the redemption payment shall be identified by one of the following descriptive terms: "California Redemption Value," "CA Redemption Value," "CRV," "California Cash Refund," "CA Cash Refund," or any other message specified in Section 14561.

(3) A dealer shall not include the redemption payment in the total price of a beverage container in any advertising or on the shelf of the dealer's establishment.

(4) This subdivision applies only to a dealer at a dealer location with a sales and storage area totaling more than 4,000 square feet.

(5) The penalties specified in Sections 14591 and 14591.1 shall not be applied to a person who violates this subdivision.

(d) With regard to the sale of beer and other malt beverages or wine and distilled spirits cooler beverages, any amount of redemption payment imposed by this division is subject to Section 25509 of the Business and Professions Code.

SEC. 12. Section 14561 of the Public Resources Code is amended to read:

14561. (a) A beverage manufacturer shall clearly indicate on all beverage containers sold or offered for sale by that beverage manufacturer in this state the message "CA Redemption Value," "California Redemption Value," "CA Cash Refund," "California Cash Refund," or "CA CRV," by either printing or embossing the beverage container or by securely affixing a clear and prominent stamp, label, or other device to the beverage container.

(b) Any refillable beverage container sold or offered for sale is exempt from this section. However, any beverage manufacturer or container manufacturer may place upon, or affix to, a refillable beverage container, any message that the manufacturer determines to be appropriate relating to the refund value of the beverage container.

(c) A person shall not offer to sell, or sell to a consumer a beverage container subject to subdivision (a) that has not been labeled pursuant to this section, except for a refillable beverage container that is exempt from labeling pursuant to subdivision (b).

(d) The department may require that a beverage container intended for sale in this state be printed, embossed, stamped, labeled, or otherwise marked with a universal product code or similar machine-readable indicia.

(e) A beverage container labeled with the message specified in subdivision (a) shall have the minimum redemption payment established pursuant to Section 14560, which shall be paid by the distributor to the department pursuant to Section 14574.

SEC. 13. Section 14571 of the Public Resources Code is amended to read:

14571. (a) Except as otherwise provided in this chapter, there shall be at least one certified recycling center or location within every convenience zone that accepts and pays the refund value, if any, at one location for all types of empty beverage containers and is open for business during at least 30 hours per week with a minimum of five hours of operation occurring during periods other than from Monday to Friday, from 9 a.m. to 5 p.m.

(b) (1) Notwithstanding subdivision (a), the department may require a certified recycling center to operate 15 of its 30 hours of operation other than during 9 a.m. to 5 p.m.

(2) Notwithstanding subdivision (a) and paragraph (1), the department may certify a recycling center that will operate less than 30 hours per week, if all of the following conditions are met:

(A) The recycling center is in a rural region. For purposes of this subparagraph, "rural region" means a nonurban area identified by the department on an annual basis using the loan eligibility criteria of the Rural Housing Service of the United States Department of Agriculture, Rural Development Administration, or its successor agency. Those

criteria include, but are not limited to, places, open country, cities, towns, or census designated places with populations that are less than 10,000 persons. The department may designate an area with a population of between 10,000 and 50,000 persons as a rural region, unless the area is identified as part of, or associated with, an urban area, as determined by the department on an individual basis.

(B) The recycling center agrees to post a sign indicating the location of the nearest recycling center that is open at least 30 hours per week and that will accept all material types.

(C) The needs of the community and the goals of this division will be best served by certification of the operation as a recycling center.

(c) Before establishing operating hours for a certified recycling center pursuant to subdivision (b), the department shall make a determination that this action is necessary to further the goals of this division and that the proposed operating hours will not significantly decrease the ability of consumers to conveniently return beverage containers for the refund value to a certified recycling center redeeming all material types.

(d) For purposes of this section, if the recycling center is staffed and is not a reverse vending machine, a center is "open for business" if all of the following requirements are met:

(1) An employee of the certified recycling center or location is present during the hours of operation and available to the public to accept containers and to pay the refund values.

(2) In addition to the sign specified in subdivision (h), a sign having a minimum size of two feet by two feet is posted at the certified recycling center or location indicating that the center or location is open. Where allowed by local zoning requirements or where zoning restrictions apply, the sign shall be of the maximum allowable size.

(3) The prices paid, by weight or per container, are posted at the location.

(e) Except as provided in subdivision (f), for the purpose of this section, if the recycling center consists of reverse vending machines or other unmanned automated equipment, the center is "open for business" if the equipment is properly functioning, accepting all types of empty beverage containers at the recycling location, and paying posted refund values no less than the minimums required by this division.

(f) If a recycling center consists of reverse vending machines or other automated equipment, the recycling center is "open for business" if the equipment is properly functioning, and accepting all types of empty beverage containers at one physical recycling location within the recycling location.

(g) Whenever a recycling center that is a reverse vending machine is not "open for business" during the 30 hours of operation required and

posted pursuant to this section and Section 14570, the dealer that is hosting the reverse vending machine at its place of business shall redeem all empty beverage container types at all open cash registers or one designated location in the store, as specified on the sign required pursuant to subdivision (h).

(h) In addition to the sign specified in paragraph (2) of subdivision (d), each reverse vending machine shall be posted with a clear and conspicuous sign on or near the reverse vending machine which states that beverage containers may be redeemed by the host dealer if the machine is nonoperational at any time during the required 30 hours of operation, pursuant to subdivision (g). The department shall determine the size and location of the sign and the message required to be printed on the sign.

SEC. 14. Section 14571.1 of the Public Resources Code is amended to read:

14571.1. On or before January 1 of each year, the department shall, on a statewide basis, designate all convenience zones as of that date, including convenience zones in underserved areas, and shall prepare a map or maps showing these convenience zones.

SEC. 15. Section 14571.7 of the Public Resources Code is amended to read:

14571.7. (a) Except as provided in subdivision (b), in any convenience zone where a recycling location or locations were initially established, but where the location or locations cease to operate in accordance with Section 14571, the department shall notify all dealers within that convenience zone that a recycling location is required to be established within 60 days. If, within 30 days of the notification, a recycling location that satisfies the requirements of Section 14571 has not been established, the department shall notify all dealers within that zone, and one or more dealers within that zone shall establish, or cause to be established, a recycling location.

(b) In any convenience zone where a recycling location or locations were initially established, but where the location or locations cease to operate in accordance with Section 14571, the department shall determine, pursuant to Section 14571.8, if the convenience zone is eligible for an exemption. If the convenience zone meets all of the requirements for an exemption pursuant to Section 14571.8, the department shall grant one exemption. If the department determines that a convenience zone is not eligible for an exemption pursuant to subdivision (a) and Section 14571.8, the department shall notify all dealers within that convenience zone that a recycling location is required to be established within 60 days. If, within 30 days of the notification, a recycling location that satisfies the requirements of Section 14571 has

not been established, the department shall notify all dealers within that zone, and one or more dealers within that zone shall establish, or cause to be established, a recycling location.

SEC. 16. Section 14575 of the Public Resources Code is amended to read:

14575. (a) If any type of empty beverage container with a refund value established pursuant to Section 14560 has a scrap value less than the cost of recycling, the department shall, on January 1, 2000, and on or before January 1 annually thereafter, establish a processing fee and a processing payment for the container by the type of the material of the container.

(b) The processing payment shall be at least equal to the difference between the scrap value offered to a statistically significant sample of recyclers by willing purchasers, and except for the initial calculation made pursuant to subdivision (d), the sum of both of the following:

(1) The actual cost for certified recycling centers, excluding centers receiving a handling fee, of receiving, handling, storing, transporting, and maintaining equipment for each container sold for recycling or, only if the container is not recyclable, the actual cost of disposal, calculated pursuant to subdivision (c). The department shall determine the statewide weighted average cost to recycle each beverage container type, which shall serve as the actual recycling costs for purposes of paragraphs (2) and (3) of subdivision (c), by conducting a survey of the costs of a statistically significant sample of certified recycling centers, excluding those recycling centers receiving a handling fee, for receiving, handling, storing, transporting, and maintaining equipment.

(2) A reasonable financial return for recycling centers.

(c) The department shall base the processing payment pursuant to this section upon all of the following:

(1) The department shall use the average scrap values paid to recyclers between October 1, 2001, and September 30, 2002, for the 2003 calculation and the same 12-month period directly preceding the year in which the processing fee is calculated for any subsequent calculation.

(2) To calculate the 2003 processing payments, the department shall use the recycling costs for certified recycling centers used to calculate the January 1, 2002, processing payments.

(3) For calculating processing payments that will be in effect on and after January 1, 2004, the department shall determine the actual costs for certified recycling centers, every second year, pursuant to paragraph (1) of subdivision (b). The department shall adjust the recycling costs annually to reflect changes in the cost of living, as measured by the Bureau of Labor Statistics of the United States Department of Labor or a successor agency of the United States government.

(d) Notwithstanding paragraph (1) of subdivision (b) and subdivision (c), for the purpose of setting the cost for recycling non polyethylene terephthalate (non-PET) plastic containers by certified recycling centers to determine the processing payment for those containers, the department shall use a recycling cost of six hundred forty-two dollars and sixty-nine cents ($642.69) per ton for the January 1, 2002, calculation of the processing payment.

(e) Except as specified in subdivision (f), the actual processing fee paid by a beverage manufacturer shall equal 65 percent of the processing payment calculated pursuant to subdivision (b).

(f) The department, consistent with Section 14581 and subject to the availability of funds, shall reduce the processing fee paid by beverage manufacturers by expending funds in each material processing fee account, in the following manner:

(1) On January 1, 2005, and annually thereafter, the processing fee shall equal the following amounts:

(A) Ten percent of the processing payment for a container type with a recycling rate equal to or greater than 75 percent.

(B) Eleven percent of the processing payment for a container type with a recycling rate equal to or greater than 65 percent, but less than 75 percent.

(C) Twelve percent of the processing payment for a container type with a recycling rate equal to or greater than 60 percent, but less than 65 percent.

(D) Thirteen percent of the processing payment for a container type with a recycling rate equal to or greater than 55 percent, but less than 60 percent.

(E) Fourteen percent of the processing payment for a container type with a recycling rate equal to or greater than 50 percent, but less than 55 percent.

(F) Fifteen percent of the processing payment for a container type with a recycling rate equal to or greater than 45 percent, but less than 50 percent.

(G) Eighteen percent of the processing payment for a container type with a recycling rate equal to or greater than 40 percent, but less than 45 percent.

(H) Twenty percent of the processing payment for a container type with a recycling rate equal to or greater than 30 percent, but less than 40 percent.

(I) Sixty-five percent of the processing payment for a container type with a recycling rate less than 30 percent.

(2) Notwithstanding this section, for calendar year 2007 only, the department shall reduce to zero the processing fee paid for any container type with a recycling rate equal to, or greater than 40 percent.

(3) The department shall calculate the recycling rate for purposes of paragraphs (1) and (2) based on the 12-month period ending on June 30 that directly precedes the date of the January 1 processing fee determination.

(g) Not more than once every three months, the department may make an adjustment in the amount of the processing payment established pursuant to this section notwithstanding any change in the amount of the processing fee established pursuant to this section, for any beverage container, if the department makes the following determinations:

(1) The statewide scrap value paid by processors for the material type for the most recent available 12-month period directly preceding the quarter in which the processing payment is to be adjusted is 5 percent more or 5 percent less than the average scrap value used as the basis for the processing payment currently in effect.

(2) Funds are available in the processing fee account for the material type.

(3) Adjusting the processing payment is necessary to further the objectives of this division.

(h) (1) Except as provided in paragraphs (2) and (3), a beverage manufacturer shall pay to the department the applicable processing fee for each container sold or transferred to a distributor or dealer within 40 days of the sale in the form and in the manner that the department may prescribe.

(2) (A) Notwithstanding Section 14506, with respect to the payment of processing fees for beer and other malt beverages manufactured outside the state, the beverage manufacturer shall be deemed to be the person or entity named on the certificate of compliance issued pursuant to Section 23671 of the Business and Professions Code. If the department is unable to collect the processing fee from the person or entity named on the certificate of compliance, the department shall give written notice by certified mail, return receipt requested, to that person or entity. The notice shall state that the processing fee shall be remitted in full within 30 days of issuance of the notice or the person or entity shall not be permitted to offer that beverage brand for sale within the state. If the person or entity fails to remit the processing fee within 30 days of issuance of the notice, the department shall notify the Department of Alcoholic Beverage Control that the certificate holder has failed to comply, and the Department of Alcoholic Beverage Control shall prohibit the offering for sale of that beverage brand within the state.

(B) The department shall enter into a contract with the Department of Alcoholic Beverage Control, pursuant to Section 14536.5, concerning the implementation of this paragraph, which shall include a provision reimbursing the Department of Alcoholic Beverage Control for its costs incurred in implementing this paragraph.

(3) (A) Notwithstanding paragraph (1), if a beverage manufacturer displays a pattern of operation in compliance with this division and the regulations adopted pursuant to this division, to the satisfaction of the department, the beverage manufacturer may make a single annual payment of processing fees, if the beverage manufacturer meets either of the following conditions:

(i) If the redemption payment and refund value is not increased pursuant to paragraph (3) of subdivision (a) of Section 14560, the beverage manufacturer's projected processing fees for a calendar year total less than ten thousand dollars ($10,000).

(ii) If the redemption payment and refund value is increased pursuant to paragraph (3) of subdivision (a) of Section 14560, the beverage manufacturer's projected processing fees for a calendar year total less than fifteen thousand dollars ($15,000).

(B) An annual processing fee payment made pursuant to this paragraph is due and payable on or before February 1 for every beverage container sold or transferred by the beverage manufacturer to a distributor or dealer in the previous calendar year.

(C) A beverage manufacturer shall notify the department of its intent to make an annual processing fee payment pursuant to this paragraph on or before January 31 of the calendar year for which the payment will be due.

(4) The department shall pay the processing payments on redeemed containers to processors, in the same manner as it pays refund values pursuant to Sections 14573 and 14573.5. The processor shall pay the recycling center the entire processing payment representing the actual costs and financial return incurred by the recycling center, as specified in subdivision (b).

(i) When assessing processing fees pursuant to subdivision (a), the department shall assess the processing fee on each container sold, as provided in subdivisions (e) and (f), by the type of material of the container, assuming that every container sold will be redeemed for recycling, whether or not the container is actually recycled.

(j) The container manufacturer, or a designated agent, shall pay to, or credit, the account of the beverage manufacturer in an amount equal to the processing fee.

(k) If, at the end of any calendar year for which glass recycling rates equal or exceed 45 percent and sufficient surplus funds remain in the

glass processing fee account to make the reduction pursuant to this subdivision or if, at the end of any calendar year for which PET recycling rates equal or exceed 45 percent and sufficient surplus funds remain in the PET processing fee account to make the reduction pursuant to this subdivision, the department shall use these surplus funds in the respective processing fee accounts in the following calendar year to reduce the amount of the processing fee that would otherwise be due from glass or PET beverage manufacturers pursuant to this subdivision.

(1) The department shall reduce the glass or PET processing fee amount pursuant to this subdivision in addition to any reduction for which the glass or PET beverage container qualifies under subdivision (f).

(2) The department shall determine the processing fee reduction by dividing two million dollars ($2,000,000) from each processing fee account by an estimate of the number of containers sold or transferred to a distributor during the previous calendar year, based upon the latest available data.

SEC. 17. Section 14575.2 of the Public Resources Code is repealed.

SEC. 18. Section 14575.5 of the Public Resources Code is repealed.

SEC. 19. Section 14580 of the Public Resources Code is amended to read:

14580. (a) Except as provided in subdivision (d), the department shall deposit all amounts paid as redemption payments by distributors pursuant to Section 14574 and all other revenues received into the California Beverage Container Recycling Fund, which is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, the money in the fund is hereby continuously appropriated to the department for expenditure without regard to fiscal year for the following purposes:

(1) The payment of refund values and administrative fees to processors pursuant to Section 14573.

(2) For a reserve for contingencies, which shall not be greater than an amount equal to 5 percent of the total amount paid to processors pursuant to Section 14573 during the preceding calendar year, plus the interest earned on that amount.

(b) The money in the fund may be expended by the department for the administration of this division only upon appropriation by the Legislature in the annual Budget Act.

(c) After setting aside funds estimated to be needed for expenditures authorized pursuant to this section, the department shall set aside funds on a quarterly basis for the purposes specified in Section 14581. Notwithstanding Section 13340 of the Government Code, that money

is hereby continuously appropriated to the department, without regard to fiscal year, for the purposes specified in Section 14581.

(d) The department shall deposit all civil penalties or fines collected pursuant to this division into the Penalty Account, which is hereby created in the fund. The money in the Penalty Account may be expended by the department only upon appropriation by the Legislature, for purposes of this division.

SEC. 20. Section 14580.5 of the Public Resources Code is repealed.

SEC. 21. Section 14581 of the Public Resources Code is amended to read:

14581. (a) Subject to the availability of funds, and pursuant to subdivision (c), the department shall expend the moneys set aside in the fund, pursuant to subdivision (c) of Section 14580, for the purposes of this section:

(1) (A) On and after July 1, 2005, to June 30, 2006, inclusive, up to thirty-one million dollars ($31,000,000) may be expended for that fiscal year for the payment of handling fees pursuant to Section 14585.

(D) For each fiscal year commencing July 1, 2008, the department may expend the amount necessary to make the required handling fee payment pursuant to Section 14585.

(2) Fifteen million dollars ($15,000,000) shall be expended annually for payments for curbside programs and neighborhood dropoff programs pursuant to Section 14549.6.

(3) (A) Fifteen million dollars ($15,000,000), plus the proportional share of the cost-of-living adjustment, as provided in subdivision (b), shall be expended annually in the form of grants for beverage container litter reduction programs and recycling programs issued to either of the following:

(i) Certified community conservation corps that were in existence on September 30, 1999, or that are formed subsequent to that date, that are designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the most recent census, of more than 250,000 persons.

(ii) Community conservation corps that are designated by a county to perform litter abatement, recycling, and related activities, and are certified by the California Conservation Corps as having operated for a

minimum of two years and as meeting all other criteria of Section 14507.5.

(B) Grants provided pursuant to this paragraph shall not comprise more than 75 percent of the annual budget of a community conservation corps.

(4) (A) On or after July 1, 2007, until June 30, 2008, for only that fiscal year, up to twenty million dollars ($20,000,000) may be expended in the form of competitive grants issued to community conservation corps that are designated by a city or county, and that meet all of the following criteria:

(B) The department shall prepare and adopt criteria and procedures for evaluating grant applications on a competitive basis. Eligible activities for the use of these funds shall include developing new projects, or enhancing or assisting existing projects, to increase beverage container recycling and increasing the quality of recycled material at the following locations:

(i) Multifamily dwellings.

(ii) Schools.

(iii) Commercial, state, and local government buildings.

(B) Eligible activities for the use of these funds may include, but are not necessarily limited to, support for new or existing curbside recycling

programs, neighborhood dropoff recycling programs, public education-promoting beverage container recycling, litter prevention, and cleanup, cooperative regional efforts among two or more cities or counties, or both, or other beverage container recycling programs.

(D) To receive these funds, a city, county, or city and county shall fill out and return a funding request form to the Department of Conservation. The form shall specify the beverage container recycling or litter reduction activities for which the funds will be used.

(E) The Department of Conservation shall annually prepare and distribute a funding request form to each city, county, or city and county. The form shall specify the amount of beverage container recycling and litter cleanup funds for which the jurisdiction is eligible. The form shall not exceed one double-sided page in length, and may be submitted electronically. If a city, county, or city and county does not return the funding request form within 90 days of receipt of the form from the department, the city, county, or city and county is not eligible to receive the funds for that funding cycle.

(F) For the purposes of this paragraph, per capita population shall be based on the population of the incorporated area of a city or city and county and the unincorporated area of a county. All of the following shall be deposited into each account:

(i) All amounts paid as processing fees for each beverage container material type pursuant to Section 14575.

(ii) Funds equal to the difference between the amount in clause (i) and the amount of the processing payments established in subdivision (b) of Section 14575, and adjusted pursuant to paragraphs (2) and (3) of subdivision (c) of, and subdivision (f) of, Section 14575, to reduce the

processing fee to the level provided in subdivision (f) of Section 14575, or to reflect the agreement by a willing purchaser to pay a voluntary artificial scrap value pursuant to Section 14575.1.

(B) Notwithstanding Section 13340 of the Government Code, the moneys in each processing fee account are hereby continuously appropriated to the department for expenditure without regard to fiscal years, for purposes of making processing payments, and reducing processing fees, pursuant to Section 14575.

(8) Up to five million dollars ($5,000,000) may be annually expended by the department for the purposes of undertaking a statewide public education and information campaign aimed at promoting increased recycling of beverage containers.

(9) Until January 1, 2008, the department may expend up to five million dollars ($5,000,000) for the purposes of undertaking a statewide public education and information campaign aimed at promoting increased recycling of beverage containers that meets both of the following requirements:

(A) The public education and information campaign is multimedia and includes print, radio, and television.

(B) The public education and information campaign is multilingual.

(10) Up to fifteen million dollars ($15,000,000) may be expended annually by the department for quality incentive payments for empty beverage containers pursuant to Section 14549.1.

(11) Up to twenty million dollars ($20,000,000) may be expended annually by the department, until January 1, 2012, to issue grants for recycling market development and expansion-related activities aimed at increasing the recycling of beverage containers, including, but not limited to, the following:

(A) Research and development of collecting, sorting, processing, cleaning, or otherwise upgrading the market value of recycled beverage containers.

(B) Identification, development, and expansion of markets for recycled beverage containers.

(C) Research and development for products manufactured using recycled beverage containers.

(D) Research and development to provide high-quality materials that are substantially free of contamination.

(E) Payments to California manufacturers who recycle beverage containers that are marked by resin type identification code “3,” “4,” “5,” “6,” or “7,” pursuant to Section 18015.

(12) Up to ten million dollars ($10,000,000) may be transferred on a one-time basis by the department to the Recycling Infrastructure Loan Guarantee Account, for expenditure pursuant to Section 14582.

(13) Up to ten million dollars ($10,000,000) may be expended annually by the department for the payment of recycling incentive payments pursuant to Section 14549.7 until payments for eligible beverage containers redeemed or collected for recycling on or before December 31, 2009, have been paid.

(14) Up to five million dollars ($5,000,000) may be expended annually by the department for market development payments for empty plastic beverage containers pursuant to Section 14549.2, until January 1, 2012.

(15) Up to five million dollars ($5,000,000) may be expended, by the department, on a one-time basis beginning on January 1, 2007, in coordination with the Department of Parks and Recreation for the purposes of installing source separated beverage container recycling receptacles at each of the state parks, starting with those parks that have the highest day use.

(16) Up to five million dollars ($5,000,000) may be expended, from January 1, 2007, to January 1, 2008, to provide grants to local governments or nonprofit agencies to place multifamily housing source separated beverage container recycling receptacles in low-income communities.

(17) (A) Up to fifteen million dollars ($15,000,000) may be expended from January 1, 2008, to January 1, 2009, to provide grants to place source separated beverage container recycling receptacles in multifamily housing.

(B) Notwithstanding subdivision (b) of Section 14580, the amount of one hundred ninety-eight thousand dollars ($198,000) may be expended by the department from the fund, on a one-time basis, for the administrative costs of implementing the grant program established by subparagraph (A).

(b) The fifteen million dollars ($15,000,000) that is set aside pursuant to paragraph (3) of subdivision (a) is a base amount that the department shall adjust annually to reflect any increases or decreases in the cost of living, as measured by the Department of Labor, or a successor agency, of the federal government.

(c) (1) The department shall review all funds on a quarterly basis to ensure that there are adequate funds to make the payments specified in this section and the processing fee reductions required pursuant to Section 14575.

(2) If the department determines, pursuant to a review made pursuant to paragraph (1), that there may be inadequate funds to pay the payments required by this section and the processing fee reductions required pursuant to Section 14575, the department shall immediately notify the appropriate policy and fiscal committees of the Legislature regarding the inadequacy.

(3) On or before 180 days after the notice is sent pursuant to paragraph (2), the department may reduce or eliminate expenditures, or both, from the funds as necessary, according to the procedure set forth in subdivision (d).

(d) If the department determines that there are insufficient funds to make the payments specified pursuant to this section and Section 14575, the department shall reduce all payments proportionally.

(e) Prior to making an expenditure pursuant to paragraph (7) of subdivision (a), the department shall convene an advisory committee consisting of representatives of the beverage industry, beverage container manufacturers, environmental organizations, the recycling industry, nonprofit organizations, and retailers, to advise the department on the most cost-effective and efficient method of the expenditure of the funds for that education and information campaign.

(f) After setting aside money for the expenditures required pursuant to subdivisions (a) and (b) and Section 14580, the department may, on and after January 1, 2007, but not after July 1, 2007, expend remaining moneys in the fund to pay a refund value in an amount greater than the refund value established pursuant to subdivision (b) of Section 14560.

SEC. 22. Section 14588.1 of the Public Resources Code is amended to read:

14588.1. (a) As used in this chapter, "unfair and predatory pricing" means the payment to consumers by a supermarket site, that receives handling fees for the redemption of beverage containers, in an amount that exceeds the sum of both of the following:

(1) The California refund value for that container.

(2) (A) If the supermarket site is not located in a rural region, the average scrap value paid per pound for that container type by specified certified recycling centers located within a five-mile radius of the supermarket site on the date of the alleged occurrence, the day before the alleged occurrence, and the day after the alleged occurrence.

(B) If the supermarket site is located in a rural region, the average scrap value paid per pound for that container type by specified certified recycling centers located within a 10-mile radius of the supermarket site on the date of the alleged occurrence, the day before the alleged occurrence, and the day after the alleged occurrence.

(b) In calculating the three-day average price paid by recyclers within the specified distance of a recycler alleged to have engaged in predatory pricing, as required by subdivision (a), the department shall only survey those recyclers who did not receive handling fees in three or more of the 12 whole months immediately preceding the date of the allegation of predatory pricing.

(c) For purposes of this chapter, "rural region" means a nonurban area identified by the department on an annual basis using the loan eligibility criteria of the Rural Housing Service of the United States Department of Agriculture, Rural Development Administration, or its successor agency. Those criteria include, but are not limited to, places, open country, cities, towns, or census designated places with populations that are less than 10,000 persons. The department may designate an area with population of between 10,000 and 50,000 persons as a rural region, unless the area is identified as part of, or associated with, an urban area, as determined by the department on an individual basis.

SEC. 23. Section 14588.2 of the Public Resources Code is amended to read:

14588.2. (a) To ensure that handling fees paid to a supermarket site are not used for the purpose of engaging in unfair and predatory pricing, and to otherwise further the intent of this chapter, the department shall follow all of the requirements of this section upon the complaint of either of the following:

(1) Any certified recycler located within five miles of the supermarket site alleged to have engaged in unfair and predatory pricing if not located in a rural region.

(2) Any certified recycler located within 10 miles of the supermarket site alleged to have engaged in unfair and predatory pricing if located in a rural region.

(b) (1) Within 50 days of receiving the complaint, the department shall complete an audit of the payments for the redemption of beverage containers being paid by the supermarket site, and by all other certified recycling centers as specified in Section 14588.1, for the purpose of determining whether the supermarket site is engaged in unfair and predatory pricing.

(2) The department shall withhold from public disclosure any proprietary information collected by the department in the course of the audit mandated by paragraph (1). The department shall exercise its discretion in determining what information is proprietary.

(c) (1) If the director determines there is probable cause that a supermarket site, against which a complaint has been made, has engaged in unfair and predatory pricing, the director shall, within 60 days of receiving the complaint, convene an informal hearing before the director, or the director's designee.

(2) At least 10 days before the hearing, the director shall forward the results of the audit to the complainant and respondent.

(3) At the hearing, the director, or the director's designee, shall review the audit conducted pursuant to subdivision (b) and any evidence presented by the complainant that a supermarket site has engaged in

unfair and predatory pricing. The director, or the director's designee, shall also review any evidence presented by the respondent that the respondent has not engaged in unfair and predatory pricing.

(4) The respondent shall be given the opportunity to rebut the presumption of unfair and predatory pricing imposed by Section 14588.1 by demonstrating to the satisfaction of the director, or the director's designee, that the respondent did both of the following:

(A) The respondent made a good faith effort to determine the average scrap value paid per pound for that container type by certified recycling centers located within a five-mile or 10-mile radius of the supermarket site, pursuant to subdivision (a) of Section 14588.1, within 30 days before the date of the alleged violation.

(B) The three-day average scrap value the respondent paid per pound for that container type was within 2.5 percent of the three-day average scrap value paid per pound determined by the department pursuant to subdivision (a).

(5) The director, or the director's designee, may dismiss a complaint made pursuant to subdivision (a) upon determining either of the following:

(A) The complaint is without basis.

(B) The complaint is repetitious of prior similar complaints against the same supermarket site for which the director or the director's designee has determined that no unfair and predatory pricing occurred.

(d) Within 20 days of the completion of the hearing, the director, or the director's designee, shall determine whether the supermarket site has engaged in unfair and predatory pricing. This determination shall be based upon the audit conducted pursuant to subdivision (b), and upon any clear and convincing evidence of unfair and predatory pricing presented at the hearing.

(e) During the time period from the date of the receipt of a complaint pursuant to subdivision (a), until the date the director makes a determination pursuant to subdivision (d), the supermarket site against which the allegation of unfair and predatory pricing is made shall not receive handling fees that were earned during the period commencing with the date of the alleged unfair and predatory pricing. However, nothing in this subdivision shall affect the payment of handling fees to a supermarket site that is found not to have engaged in unfair and predatory pricing pursuant to this section, or to the activities of a supermarket site prior to the date of the alleged unfair and predatory pricing.

(f) If, after complying with the procedure established pursuant to this section, the director, or the director's designee, determines that a

supermarket site has engaged in unfair and predatory pricing, the site is ineligible to receive handling fees as specified by this section.

(1) If the determination of unfair and predatory pricing is the first for the site, the site is ineligible to receive handling fees for six months from the date that the respondent is found to have engaged in unfair and predatory pricing.

(2) If the determination of unfair and predatory pricing is the second for the site, the site is ineligible to receive handling fees for one year from the date that the respondent is found to have engaged in unfair and predatory pricing.

(3) If the determination of unfair and predatory pricing is the third or more for the site, the site is ineligible to receive handling fees for five years after the date that the respondent is found to have engaged in unfair and predatory pricing.

(g) The complainant or respondent may obtain a review of the determination made pursuant to this section by filing in the superior court a petition for a writ of mandate within 30 days following the issuance of the determination. Section 1094.5 of the Code of Civil Procedure shall govern judicial proceedings pursuant to this subdivision, except that the court shall exercise its independent judgment. If a petition for a writ of mandate is not filed within the time limits set forth in this subdivision, the determination made pursuant to this subdivision is not subject to review by any court or agency.

(h) If either party appeals the determination of the director, or the director's designee, pursuant to subdivision (g), and the department prevails, the department may recover any costs associated with its defense of the complaint.

SEC. 24. Section 14593 of the Public Resources Code is amended to read:

14593. Notwithstanding subdivisions (b) and (c) of Section 14591.1, the department may assess a civil penalty of up to 15 percent of the amount due for payment, and interest at the rate earned by the Pooled Money Investment Account, on distributors and beverage manufacturers for underpayment or late payment of the redemption payments for containers to the fund. The department may examine the accounts and records of distributors and beverage manufacturers that pay or should pay a redemption payment. No penalty shall be assessed until 30 days after the department has notified the distributor or manufacturer of the penalty assessment, and the amount due for payment and interest has not been paid.

SEC. 25. Section 14594 of the Public Resources Code is amended to read:

14594. (a) Notwithstanding subdivisions (b) and (c) of Section 14591.1, the department may assess a civil penalty of up to 15 percent of the amount due for payment, and interest at the rate earned by the Pooled Money Investment Account, on a beverage manufacturer that fails to pay a processing fee required pursuant to Section 14575. The department may examine the accounts and records of a beverage manufacturer that pays or should pay a processing fee. No penalty shall be assessed until 30 days after the department has notified the manufacturer of the penalty assessment, and the amount due for payment and interest has not been paid.

(b) If the department determines that an audit of a beverage manufacturer shows that there has been an underpayment of a processing fee, the department may examine the records concerning beverage container sales of a container manufacturer that supplied the beverage containers to the beverage manufacturer.

SEC. 26. Section 42889 of the Public Resources Code, as amended by Section 56 of Chapter 77 of the Statutes of 2006, is amended to read:

42889. (a) Commencing January 1, 2005, of the moneys collected pursuant to Section 42885, an amount equal to seventy-five cents ($0.75) per tire on which the fee is imposed shall be transferred by the State Board of Equalization to the Air Pollution Control Fund. The state board shall expend those moneys, or allocate those moneys to the districts for expenditure, to fund programs and projects that mitigate or remediate air pollution caused by tires in the state, to the extent that the state board or the applicable district determines that the program or project remediates air pollution harms created by tires upon which the fee described in Section 42885 is imposed.

(b) The remaining moneys collected pursuant to Section 42885 shall be used to fund the waste tire program, and shall be appropriated to the board in the annual Budget Act in a manner consistent with the five-year plan adopted and updated by the board. These moneys shall be expended for the payment of refunds under this chapter and for the following purposes:

(1) To pay the administrative overhead cost of this chapter, not to exceed 6 percent of the total revenue deposited in the fund annually, or an amount otherwise specified in the annual Budget Act.

(2) To pay the costs of administration associated with collection, making refunds, and auditing revenues in the fund, not to exceed 3 percent of the total revenue deposited in the fund, as provided in subdivision (c) of Section 42885.

(3) To pay the costs associated with operating the tire recycling program specified in Article 3 (commencing with Section 42870).

(4) To pay the costs associated with the development and enforcement of regulations relating to the storage of waste tires and used tires. The board shall consider designating a city, county, or city and county as the enforcement authority of regulations relating to the storage of waste tires and used tires, as provided in subdivision (c) of Section 42850, and regulations relating to the hauling of waste and used tires, as provided in subdivision (b) of Section 42963. If the board designates a local entity for that purpose, the board shall provide sufficient, stable, and noncompetitive funding to that entity for that purpose, based on available resources, as provided in the five-year plan adopted and updated as provided in subdivision (a) of Section 42885.5. The board may consider and create, as appropriate, financial incentives for citizens who report the illegal hauling or disposal of waste tires as a means of enhancing local and statewide waste tire and used tire enforcement programs.

(5) To pay the costs of cleanup, abatement, removal, or other remedial action related to waste tire stockpiles throughout the state, including all approved costs incurred by other public agencies involved in these activities by contract with the board. Not less than six million five hundred thousand dollars ($6,500,000) shall be expended by the board during each of the following fiscal years for this purpose: 2001–02 to 2006–07, inclusive.

(6) To make studies and conduct research directed at promoting and developing alternatives to the landfill disposal of waste tires.

(7) To assist in developing markets and new technologies for used tires and waste tires. The board's expenditure of funds for purposes of this subdivision shall reflect the priorities for waste management practices specified in subdivision (a) of Section 40051.

(8) To pay the costs associated with implementing and operating a waste tire and used tire hauler program and manifest system pursuant to Chapter 19 (commencing with Section 42950).

(9) To pay the costs to create and maintain an emergency reserve, which shall not exceed one million dollars ($1,000,000).

(10) To pay the costs of cleanup, abatement, or other remedial action related to the disposal of waste tires in implementing and operating the Farm and Ranch Solid Waste Cleanup and Abatement Grant Program established pursuant to Chapter 2.5 (commencing with Section 48100) of Part 7.

(c) This section shall remain in effect only until January 1, 2015, and as of that date is repealed, unless a later enacted statute that is enacted before January 1, 2015, deletes or extends that date.

SEC. 27. Section 42889 of the Public Resources Code, as added by Section 14.5 of Chapter 707 of the Statutes of 2004, is amended to read:

42889. Funding for the waste tire program shall be appropriated to the board in the annual Budget Act. The moneys in the fund shall be expended for the payment of refunds under this chapter and for the following purposes:

(a) To pay the administrative overhead cost of this chapter, not to exceed 5 percent of the total revenue deposited in the fund annually, or an amount otherwise specified in the annual Budget Act.

(b) To pay the costs of administration associated with collection, making refunds, and auditing revenues in the fund, not to exceed 3 percent of the total revenue deposited in the fund, as provided in subdivision (b) of Section 42885.

(c) To pay the costs associated with operating the tire recycling program specified in Article 3 (commencing with Section 42870).

(d) To pay the costs associated with the development and enforcement of regulations relating to the storage of waste tires and used tires. The board shall consider designating a city, county, or city and county as the enforcement authority of regulations relating to the storage of waste tires and used tires, as provided in subdivision (c) of Section 42850, and regulations relating to the hauling of waste and used tires, as provided in subdivision (b) of Section 42963. If the board designates a local entity for that purpose, the board shall provide sufficient, stable, and noncompetitive funding to that entity for that purpose, based on available resources, as provided in the five-year plan adopted and updated as provided in subdivision (a) of Section 42855.5. The board may consider and create, as appropriate, financial incentives for citizens who report the illegal hauling or disposal of waste tires as a means of enhancing local and statewide waste tire and used tire enforcement programs.

(e) To pay the costs of cleanup, abatement, removal, or other remedial action related to waste tire stockpiles throughout the state, including all approved costs incurred by other public agencies involved in these activities by contract with the board. Not less than six million five hundred thousand dollars ($6,500,000) shall be expended by the board during each of the following fiscal years for this purpose: 2001–02 to 2006–07, inclusive.

(f) This section shall become operative on January 1, 2015.

SEC. 28. Section 42963 of the Public Resources Code is amended to read:

42963. (a) This chapter, or any regulations adopted pursuant to Section 42966, is not a limitation on the power of a city, county, or district to impose and enforce reasonable land use conditions or restrictions on facilities that handle waste or used tires in order to protect the public health and safety or the environment, including preventing or mitigating potential nuisances, if the conditions or restrictions do not

conflict with, or impose less stringent requirements than, this chapter or those regulations. However, this chapter, including any regulations that are adopted pursuant to Section 42966, is intended to establish a uniform statewide program for the regulation of waste and used tire haulers that will prevent the illegal disposal of tires, but which will not subject waste and used tire haulers to multiple registration or manifest requirements. Therefore, any local laws regulating the transportation of waste or used tires are preempted by this chapter.

(b) Upon request of a city, county, or city and county, the board may designate, in writing, that city, county, or city and county to exercise the enforcement authority granted to the board under this chapter. A city, county, or city and county designated by the board pursuant to this subdivision shall follow the same procedures set forth for the board under this article. This designation shall not limit the authority of the board to take action it deems necessary or proper to ensure the enforcement of this chapter.

SEC. 29. Section 45014 of the Public Resources Code is amended to read:

45014. (a) Upon the failure of a person to comply with a final order issued by a local enforcement agency or the board, the Attorney General, upon request of the board, shall petition the superior court for the issuance of a preliminary or permanent injunction, or both, as may be appropriate, restraining the person or persons from continuing to violate the order or complaint.

(b) An attorney authorized to act on behalf of the local enforcement agency or the board may petition the superior court for injunctive relief to enforce this part, a term or condition in a solid waste facilities permit, or a standard adopted by the board or the local enforcement agency.

(c) In addition to the administrative imposition of civil penalties pursuant to this part, Article 6 (commencing with Section 42850) of Chapter 16 of Part 3, and Article 4 (commencing with Section 42962) of Chapter 19 of Part 3, an attorney authorized to act on behalf of the local enforcement agency or the board may apply, to the clerk of the appropriate court in the county in which the civil penalty was imposed, for a judgment to collect the penalty. The application, which shall include a certified copy of the decision or order in the civil penalty action, constitutes a sufficient showing to warrant issuance of the judgment. The court clerk shall enter the judgment immediately in conformity with the application. The judgment so entered shall include the amount of the court filing fee that would have been due from an applicant who is not a public agency, and has the same force and effect as, and is subject to all the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court

in which it is entered. The amount of the unpaid court filing fee shall be paid to the court prior to satisfying any of the civil penalty amount. Thereafter, any civil penalty or judgment recovered shall be paid, to the maximum extent allowed by law, to the board or to the local enforcement agency, whichever is represented by the attorney who brought the action.

SEC. 30. Section 71205.3 of the Public Resources Code is amended to read:

71205.3. (a) On or before January 1, 2008, the commission shall adopt regulations that do all of the following:

(1) Except as provided otherwise in Section 71204.7, require an owner or operator of a vessel carrying, or capable of carrying, ballast water that operates in the waters of the state to implement the interim performance standards for the discharge of ballast water recommended in accordance with Table x-1 of the California State Lands Commission Report on Performance Standards for Ballast Water Discharges in California Waters, as approved by the commission on January 26, 2006.

(2) Except as provided otherwise in Section 71204.7, require an owner or operator of a vessel carrying, or capable of carrying, ballast water that operates in the waters of the state to comply with the following implementation schedule:

| Ballast water capacity of vessel | Standards apply to new vessels in this size class constructed on or after: | Standards apply to all other vessels in this size class beginning in: |
|---|---|---|
| <1500 metric tons | January 1, 2010 | January 1, 2016 |
| 1500-5000 metric tons | January 1, 2010 | January 1, 2014 |
| >5000 metric tons | January 1, 2012 | January 1, 2016 |

(3) Notwithstanding Section 71204.7, require an owner or operator of a vessel carrying, or capable of carrying, ballast water that operates in the waters of the state to meet the final performance standard for the discharge of ballast water of zero detectable for all organism size classes by 2020, as approved by the commission on January 26, 2006.

(b) On or before January 1, 2009, for the interim performance standards specified in paragraph (1) of subdivision (a) that have to be complied with in 2010, as specified in paragraph (2) of subdivision (a), and not less than 18 months prior to the scheduled compliance date specified in paragraph (2) of subdivision (a) for each subsequent class and the date for implementation of the final performance standard, as specified in paragraph (3) of subdivision (a), the commission, in consultation with the State Water Resources Control Board, the United States Coast Guard, and the advisory panel described in subdivision (b) of Section 71204.9, shall prepare, or update, and submit to the Legislature

a review of the efficacy, availability, and environmental impacts, including the effect on water quality, of currently available technologies for ballast water treatment systems. If technologies to meet the performance standards are determined in a review to be unavailable, the commission shall include in that review an assessment of why the technologies are unavailable.

SEC. 31. Section 31560 of the Vehicle Code is amended to read:

31560. (a) A person operating a vehicle, or combination of vehicles, in the transportation of 10 or more used tires or waste tires, or a combination of used tires and waste tires totaling 10 or more, as defined in Section 42950 of the Public Resources Code, shall be registered with the California Integrated Waste Management Board, unless specifically exempted, as provided in Chapter 19 (commencing with Section 42950) of Part 3 of Division 30 of the Public Resources Code and in regulations adopted by the board to implement that chapter.

(b) It is unlawful and constitutes an infraction for a person engaged in the transportation of 10 or more used tires or waste tires, or a combination of used tires and waste tires totaling 10 or more, to violate a provision of this article or Section 42951 of the Public Resources Code.

SEC. 32. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

SEC. 33. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

## CHAPTER 697

An act to amend Sections 14575 and 14581 of the Public Resources Code, relating to beverage containers, and making an appropriation therefor.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 14575 of the Public Resources Code is amended to read:

14575. (a) If any type of empty beverage container with a refund value established pursuant to Section 14560 has a scrap value less than the cost of recycling, the department shall, on January 1, 2000, and on or before January 1 annually thereafter, establish a processing fee and a processing payment for the container by the type of the material of the container.

(b) The processing payment shall be at least equal to the difference between the scrap value offered to a statistically significant sample of recyclers by willing purchasers, and except for the initial calculation made pursuant to subdivision (d), the sum of both of the following:

(1) The actual cost for certified recycling centers, excluding centers receiving a handling fee, of receiving, handling, storing, transporting, and maintaining equipment for each container sold for recycling or, only if the container is not recyclable, the actual cost of disposal, calculated pursuant to subdivision (c). The department shall determine the statewide weighted average cost to recycle each beverage container type, which shall serve as the actual recycling costs for purposes of paragraph (2) of subdivision (c), by conducting a survey of the costs of a statistically significant sample of certified recycling centers, excluding those recycling centers receiving a handling fee, for receiving, handling, storing, transporting, and maintaining equipment.

(2) A reasonable financial return for recycling centers.

(c) The department shall base the processing payment pursuant to this section upon all of the following:

(1) Except as provided in paragraph (2), for calculating processing payments that will be in effect on and after January 1, 2004, the department shall determine the actual costs for certified recycling centers, every second year, pursuant to paragraph (1) of subdivision (b). The department shall adjust the recycling costs annually to reflect changes in the cost of living, as measured by the Bureau of Labor Statistics of the United States Department of Labor or a successor agency of the United States government.

(2) On and after January 1, 2010, the department shall use the most recently published, measured actual costs of recycling for a specific beverage material type if the department determines the number of beverage containers for that material type that is returned for recycling pursuant to Section 14551, based on the most recently published calendar year number of beverage containers returned for recycling, is less than 5 percent of the total number of beverage containers returned for

recycling for all material types. The department shall determine the actual recycling cost to be used for calculating processing payments for those beverage containers in the following manner:

(A) The department shall adjust the costs of recycling that material type every second year by the percentage change in the most recently measured cost of recycling HDPE plastic beverage containers, as determined by the department. The department shall use the percentage change in costs of recycling HDPE plastic beverage containers for this purpose, even if HDPE plastic beverage containers are less than 5 percent of the total volume of returned beverage containers.

(B) The department shall adjust the recycling costs annually for that material type to reflect changes in the cost of living, as measured by the Bureau of Labor Statistics of the United States Department of Labor or a successor agency of the United States government.

(d) Except as specified in subdivision (e), the actual processing fee paid by a beverage manufacturer shall equal 65 percent of the processing payment calculated pursuant to subdivision (b).

(e) The department, consistent with Section 14581 and subject to the availability of funds, shall reduce the processing fee paid by beverage manufacturers by expending funds in each material processing fee account, in the following manner:

(1) On January 1, 2005, and annually thereafter, the processing fee shall equal the following amounts:

(A) Ten percent of the processing payment for a container type with a recycling rate equal to or greater than 75 percent.

(B) Eleven percent of the processing payment for a container type with a recycling rate equal to or greater than 65 percent, but less than 75 percent.

(C) Twelve percent of the processing payment for a container type with a recycling rate equal to or greater than 60 percent, but less than 65 percent.

(D) Thirteen percent of the processing payment for a container type with a recycling rate equal to or greater than 55 percent, but less than 60 percent.

(E) Fourteen percent of the processing payment for a container type with a recycling rate equal to or greater than 50 percent, but less than 55 percent.

(H) Twenty percent of the processing payment for a container type with a recycling rate equal to or greater than 30 percent, but less than 40 percent.

(I) Sixty-five percent of the processing payment for a container type with a recycling rate less than 30 percent.

(2) The department shall calculate the recycling rate for purposes of paragraph (1) based on the 12-month period ending on June 30 that directly precedes the date of the January 1 processing fee determination.

(f) Not more than once every three months, the department may make an adjustment in the amount of the processing payment established pursuant to this section notwithstanding any change in the amount of the processing fee established pursuant to this section, for any beverage container, if the department makes the following determinations:

(1) The statewide scrap value paid by processors for the material type for the most recent available 12-month period directly preceding the quarter in which the processing payment is to be adjusted is 5 percent more or 5 percent less than the average scrap value used as the basis for the processing payment currently in effect.

(2) Funds are available in the processing fee account for the material type.

(3) Adjusting the processing payment is necessary to further the objectives of this division.

(g) (1) Except as provided in paragraphs (2) and (3), every beverage manufacturer shall pay to the department the applicable processing fee for each container sold or transferred to a distributor or dealer within 40 days of the sale in the form and in the manner which the department may prescribe.

(2) (A) Notwithstanding Section 14506, with respect to the payment of processing fees for beer and other malt beverages manufactured outside the state, the beverage manufacturer shall be deemed to be the person or entity named on the certificate of compliance issued pursuant to Section 23671 of the Business and Professions Code. If the department is unable to collect the processing fee from the person or entity named on the certificate of compliance, the department shall give written notice by certified mail, return receipt requested, to that person or entity. The notice shall state that the processing fee shall be remitted in full within 30 days of issuance of the notice or the person or entity shall not be permitted to offer that beverage brand for sale within the state. If the person or entity fails to remit the processing fee within 30 days of issuance of the notice, the department shall notify the Department of Alcoholic Beverage Control that the certificate holder has failed to comply, and the Department of Alcoholic Beverage Control shall prohibit the offering for sale of that beverage brand within the state.

(B) The department shall enter into a contract with the Department of Alcoholic Beverage Control, pursuant to Section 14536.5, concerning the implementation of this paragraph, which shall include a provision reimbursing the Department of Alcoholic Beverage Control for its costs incurred in implementing this paragraph.

(3) (A) Notwithstanding paragraph (1), if a beverage manufacturer displays a pattern of operation in compliance with this division and the regulations adopted pursuant to this division, to the satisfaction of the department, the beverage manufacturer may make a single annual payment of processing fees, if the beverage manufacturer meets either of the following conditions:

(i) If the redemption payment and refund value is not increased pursuant to paragraph (3) of subdivision (a) of Section 14560, the beverage manufacturer's projected processing fees for a calendar year total less than ten thousand dollars ($10,000).

(ii) If the redemption payment and refund value is increased pursuant to paragraph (3) of subdivision (a) of Section 14560, the beverage manufacturer's projected processing fees for a calendar year total less than fifteen thousand dollars ($15,000).

(B) An annual processing fee payment made pursuant to this paragraph is due and payable on or before February 1 for every beverage container sold or transferred by the beverage manufacturer to a distributor or dealer in the previous calendar year.

(C) A beverage manufacturer shall notify the department of its intent to make an annual processing fee payment pursuant to this paragraph on or before January 31 of the calendar year for which the payment will be due.

(4) The department shall pay the processing payments on redeemed containers to processors, in the same manner as it pays refund values pursuant to Sections 14573 and 14573.5. The processor shall pay the recycling center the entire processing payment representing the actual costs and financial return incurred by the recycling center, as specified in subdivision (b).

(h) When assessing processing fees pursuant to subdivision (a), the department shall assess the processing fee on each container sold, as provided in subdivisions (d) and (e), by the type of material of the container, assuming that every container sold will be redeemed for recycling, whether or not the container is actually recycled.

(i) The container manufacturer, or a designated agent, shall pay to, or credit, the account of the beverage manufacturer in an amount equal to the processing fee.

(j) If, at the end of any calendar year for which glass recycling rates equal or exceed 45 percent and sufficient surplus funds remain in the

glass processing fee account to make the reduction pursuant to this subdivision or if, at the end of any calendar year for which PET recycling rates equal or exceed 45 percent and sufficient surplus funds remain in the PET processing fee account to make the reduction pursuant to this subdivision, the department shall use these surplus funds in the respective processing fee accounts in the following calendar year to reduce the amount of the processing fee that would otherwise be due from glass or PET beverage manufacturers pursuant to this subdivision.

(1) The department shall reduce the glass or PET processing fee amount pursuant to this subdivision in addition to any reduction for which the glass or PET beverage container qualifies under subdivision (e).

(2) The department shall determine the processing fee reduction by dividing two million dollars ($2,000,000) from each processing fee account by an estimate of the number of containers sold or transferred to a distributor during the previous calendar year, based upon the latest available data.

SEC. 2. Section 14581 of the Public Resources Code is amended to read:

(i) Certified community conservation corps that were in existence on September 30, 1999, or that are formed subsequent to that date, that are designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the most recent census, of more than 250,000 persons.

(ii) Community conservation corps that are designated by a county to perform litter abatement, recycling, and related activities, and are certified by the California Conservation Corps as having operated for a minimum of two years and as meeting all other criteria of Section 14507.5.

(i) All amounts paid as processing fees for each beverage container material type pursuant to Section 14575.

(ii) Funds equal to the difference between the amount in clause (i) and the amount of the processing payments established in subdivision (b) of Section 14575, and adjusted pursuant to paragraph (2) of subdivision (c) of, and subdivision (f) of, Section 14575, to reduce the processing fee to the level provided in subdivision (f) of Section 14575, or to reflect the agreement by a willing purchaser to pay a voluntary artificial scrap value pursuant to Section 14575.1.

(2) If the person holding a valid permit for the use or storage of explosives desires to purchase or receive explosives in a jurisdiction other than that of intended use or storage, the person shall first present the permit to the issuing authority in the jurisdiction of purchase or receipt for endorsement. The issuing authority may include any reasonable restrictions or conditions which the authority finds necessary for the prevention of fire and explosion, the preservation of life, safety, or the control and security of explosives within the authority's jurisdiction. (f) A permit shall remain valid only until the time when the act or acts authorized by the permit are performed, but in no event shall the permit remain valid for a period longer than one year from the date of issuance of the permit.

(g) Any valid permit which authorizes the performance of any act shall not constitute authorization for the performance of any act not stipulated in the permit.

(h) An issuing authority shall not issue a permit authorizing the transportation of explosives pursuant to this section if the display of placards for that transportation is required by Section 27903 of the Vehicle Code, unless the driver possesses a license for the transportation of hazardous materials issued pursuant to Division 14.1 (commencing with Section 32000) of the Vehicle Code, or the explosives are a hazardous waste or extremely hazardous waste, as defined in Sections 25117 and 25115 of the Health and Safety Code, and the transporter is currently registered as a hazardous waste hauler pursuant to Section 25163 of the Health and Safety Code.

(i) An issuing authority shall not issue a permit pursuant to this section authorizing the handling or storage of division 1.1, 1.2, or 1.3 explosives

in a building, unless the building has caution placards which meet the standards established pursuant to subdivision (g) of Section 12081.

(C) He or she is in a class prohibited by state or federal law from possessing, receiving, owning, or purchasing a firearm.

(2) For purposes of determining whether a person meets any of the criteria set forth in this subdivision, the issuing authority shall obtain two sets of fingerprints on prescribed cards from all persons applying for a permit under this section and shall submit these cards to the Department of Justice. The Department of Justice shall utilize the fingerprint cards to make inquiries both within this state and to the Federal Bureau of Investigation regarding the criminal history of the applicant identified on the fingerprint card.

This paragraph does not apply to any person possessing a current certificate of eligibility issued pursuant to paragraph (4) of subdivision (a) of Section 12071 or to any holder of a dangerous weapons permit or license issued pursuant to Section 12095, 12230, 12250, 12286, or 12305 of the Penal Code.

(k) An issuing authority shall inquire with the Department of Justice for the purposes of determining whether a person who is applying for a permit meets any of the criteria specified in subdivision (j). The Department of Justice shall determine whether a person who is applying for a permit meets any of the criteria specified in subdivision (j) and shall either grant or deny clearance for a permit to be issued pursuant to the determination. The Department of Justice shall not disclose the contents of a person's records to any person who is not authorized to receive the information in order to ensure confidentiality.

Any application to renew or extend the validity of, or reissue, the license may be granted only upon the concurrence of the licensing authority that originally issued the license and the licensing authority of the city, county, or city and county in which the licensee resides.

(B) A license issued pursuant to subparagraph (C) of paragraph (1) to a peace officer appointed pursuant to Section 830.6 is valid for any period of time not to exceed four years from the date of the license, except that the license shall be invalid upon the conclusion of the person's appointment pursuant to Section 830.6 if the four-year period has not otherwise expired or any other condition imposed pursuant to this section does not limit the validity of the license to a shorter time period.

(b) A license may include any reasonable restrictions or conditions which the issuing authority deems warranted, including restrictions as to the time, place, manner, and circumstances under which the person may carry a pistol, revolver, or other firearm capable of being concealed upon the person.

(c) Any restrictions imposed pursuant to subdivision (b) shall be indicated on any license issued.

(d) A license shall not be issued if the Department of Justice determines that the person is prohibited by state or federal law from possessing, receiving, owning, or purchasing a firearm.

(e) (1) The license shall be revoked by the local licensing authority if at any time either the local licensing authority is notified by the Department of Justice that a licensee is prohibited by state or federal law from owning or purchasing firearms, or the local licensing authority determines that the person is prohibited by state or federal law from possessing, receiving, owning, or purchasing a firearm.

(2) If at any time the Department of Justice determines that a licensee is prohibited by state or federal law from possessing, receiving, owning, or purchasing a firearm, the department shall immediately notify the local licensing authority of the determination.

(3) If the local licensing authority revokes the license, the Department of Justice shall be notified of the revocation pursuant to Section 12053. The licensee shall also be immediately notified of the revocation in writing.

(f) (1) A person issued a license pursuant to this section may apply to the licensing authority for an amendment to the license to do one or more of the following:

(B) Authorize the licensee to carry concealed a pistol, revolver, or other firearm capable of being concealed upon the person.

(C) If the population of the county is less than 200,000 persons according to the most recent federal decennial census, authorize the licensee to carry loaded and exposed in that county a pistol, revolver, or other firearm capable of being concealed upon the person.

(D) Change any restrictions or conditions on the license, including restrictions as to the time, place, manner, and circumstances under which the person may carry a pistol, revolver, or other firearm capable of being concealed upon the person.

(2) When the licensee changes his or her address, the license shall be amended to reflect the new address and a new license shall be issued pursuant to paragraph (3).

(3) If the licensing authority amends the license, a new license shall be issued to the licensee reflecting the amendments.

(4) (A) The licensee shall notify the licensing authority in writing within 10 days of any change in the licensee's place of residence.

(B) If the license is one to carry concealed a pistol, revolver, or other firearm capable of being concealed upon the person, then it may not be revoked solely because the licensee changes his or her place of residence to another county if the licensee has not breached any conditions or restrictions set forth in the license and has not become prohibited by state or federal law from possessing, receiving, owning, or purchasing a firearm. However, any license issued pursuant to subparagraph (A) or (B) of paragraph (1) of subdivision (a) shall expire 90 days after the licensee moves from the county of issuance if the licensee's place of residence was the basis for issuance of the license.

(C) If the license is one to carry loaded and exposed a pistol, revolver, or other firearm capable of being concealed upon the person, the license shall be revoked immediately if the licensee changes his or her place of residence to another county.

(5) An amendment to the license does not extend the original expiration date of the license and the license shall be subject to renewal at the same time as if the license had not been amended.

(6) An application to amend a license does not constitute an application for renewal of the license.

(g) Nothing in this article shall preclude the chief or other head of a municipal police department of any city from entering an agreement with the sheriff of the county in which the city is located for the sheriff to process all applications for licenses, renewals of licenses, and amendments to licenses, pursuant to this article.

(b) For purposes of this section, health care services and medical treatment includes one or more providers of health care providing, coordinating, or managing health care and related services, including, but not limited to, a provider of health care coordinating health care with a third party, consultation between providers of health care and medical treatment relating to a minor, or a provider of health care referring a minor for health care services to another provider of health care.

(c) For purposes of this section, a county social worker, a probation officer, or any other person who is legally authorized to have custody or care of a minor shall be considered a third party who may receive any of the following:

Medical information disclosed pursuant to this section may not be admitted into evidence in any criminal or delinquency proceeding against the minor. Nothing in this subdivision shall prohibit identical evidence from being admissible in a criminal proceeding if that evidence is derived solely from lawful means other than this section and is permitted by law.

(e) (1) Notwithstanding Section 56.104, if a provider of health care determines that the disclosure of medical information concerning the diagnosis and treatment of a mental health condition of a minor is reasonably necessary for the purpose of assisting in coordinating the treatment and care of the minor, that information may be disclosed to a county social worker, probation officer, or any other person who is legally authorized to have custody or care of the minor. The information shall not be further disclosed by the recipient unless the disclosure is for the purpose of coordinating mental health services and treatment of the minor and the disclosure is authorized by law.

(2) As used in this subdivision, "medical information" does not include psychotherapy notes as defined in Section 164.501 of Title 45 of the Code of Federal Regulations.

(f) The disclosure of information pursuant to this section is not intended to limit the disclosure of information when that disclosure is otherwise required by law.

(g) For purposes of this section, "minor" means a minor taken into temporary custody or as to who a petition has been filed with the court, or who has been adjudged to be a dependent child or ward of the juvenile court pursuant to Section 300 or 602 of the Welfare and Institutions Code.

(h) (1) Except as described in paragraph (1) of subdivision (e), nothing in this section shall be construed to limit or otherwise affect existing privacy protections provided for in state or federal law.

(b) This part does not govern the enforceability of a child custody determination made without notice or an opportunity to be heard.

The hearing must be held on the next judicial day after service of the order unless that date is impossible. In that event, the court shall hold the hearing on the first judicial day possible. The court may extend the date of hearing at the request of the petitioner.

(d) An order issued under subdivision (c) must state the time and place of the hearing and advise the respondent that, at the hearing, the court will order that the petitioner may take immediate physical custody of the child and the payment of fees, costs, and expenses under Section 3452, and may schedule a hearing to determine whether further relief is appropriate, unless the respondent appears and establishes either of the following:

The seller or transferor or the person loaning the firearm shall deliver the firearm to the dealer who shall retain possession of that firearm. The dealer shall then deliver the firearm to the purchaser or transferee or the person being loaned the firearm, if it is not prohibited, in accordance with subdivision (c) of Section 12072. or, if available in the county of the person's residence or employment, a 30-month driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety Code. Unless good cause is shown, the court shall order the referral.

(F) The person pays all applicable reinstatement or reissue fees and any restriction fee required by the department.

(G) The restriction shall remain in effect for the period required in subdivision (f) of Section 23575.

(8) Upon a conviction or finding of a violation of Section 23109.1 or subdivision (a) of Section 23109 that is punishable under subdivision (e) of that section, the privilege shall be suspended for a period of 90 days to six months, if ordered by the court. (c) A judge of a juvenile court, juvenile hearing officer, or referee of a juvenile court shall immediately report the findings specified in subdivision (a) to the department.

(d) A conviction of an offense in a state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or Canada that, if committed in this state, would be a violation of Section 23152, is a conviction of Section 23152 for the purposes of this section, and a conviction of an offense that, if committed in this state, would be a violation of Section 23153, is a conviction of Section 23153 for the purposes of this section. The department shall suspend or revoke the privilege to operate a motor vehicle pursuant to this section upon receiving notice of that conviction.

(e) For the purposes of the restriction conditions specified in paragraphs (3) to (7), inclusive, of subdivision (a), the department shall terminate the restriction imposed pursuant to this section and shall suspend or revoke the person's driving privilege upon receipt of notification from the driving-under-the-influence program that the person has failed to comply with the program requirements. The person's driving privilege shall remain suspended or revoked for the remaining period of

SEC. 26. Section 40002 of the Vehicle Code is amended to read:

40002. (a) (1) When there is a violation of Section 40001, an owner or any other person subject to Section 40001, who was not driving the vehicle involved in the violation, may be mailed a written notice to appear. An exact and legible duplicate copy of that notice when filed with the court, in lieu of a verified complaint, is a complaint to which the defendant may plead "guilty."

(2) If, however, the defendant fails to appear in court or does not deposit lawful bail, or pleads other than "guilty" of the offense charged, a verified complaint shall be filed which shall be deemed to be an original complaint, and thereafter proceedings shall be had as provided by law, except that a defendant may, by an agreement in writing, subscribed by the defendant and filed with the court, waive the filing of a verified complaint and elect that the prosecution may proceed upon a written notice to appear.

(3) A verified complaint pursuant to paragraph (2) shall include a paragraph that informs the person that unless he or she appears in the court designated in the complaint within 21 days after being given the complaint and answers the charge, renewal of registration of the vehicle involved in the offense may be precluded by the department, or a warrant of arrest may be issued against him or her.

(b) (1) If a person mailed a notice to appear pursuant to paragraph (1) of subdivision (a) fails to appear in court or deposit bail, a warrant of arrest shall not be issued based on the notice to appear, even if that notice is verified. An arrest warrant may only be issued after a verified complaint pursuant to paragraph (2) of subdivision (a) is given the person and the person fails to appear in court to answer that complaint.

(2) If a person mailed a notice to appear pursuant to paragraph (1) of subdivision (a) fails to appear in court or deposit bail, the court may give by mail to the person a notice of noncompliance. A notice of noncompliance shall include a paragraph that informs the person that unless he or she appears in the court designated in the notice to appear within 21 days after being given by mail the notice of noncompliance and answers the charge on the notice to appear, or pays the applicable fine and penalties if an appearance is not required, renewal of registration of the vehicle involved in the offense may be precluded by the department.

(c) A verified complaint filed pursuant to this section shall conform to Chapter 2 (commencing with Section 948) of Title 5 of Part 2 of the Penal Code.

(d) (1) The giving by mail of a notice to appear pursuant to paragraph (1) of subdivision (a) or a notice of noncompliance pursuant to paragraph (2) of subdivision (b) shall be done in a manner prescribed by Section 22.

(2) The verified complaint pursuant to paragraph (2) of subdivision (a) shall be given in a manner prescribed by Section 22.

SEC. 27. Section 731.1 of the Welfare and Institutions Code is amended to read:

731.1. Notwithstanding any other law, the court committing a ward to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, upon the recommendation of the chief probation officer of the county, may recall that commitment in the case of any ward whose commitment offense was not an offense listed in subdivision (b) of Section 707, unless the offense was a sex offense set forth in subdivision (c) of Section 290.008 of the Penal Code, and who remains confined in an institution operated by the division on or after September 1, 2007. Upon recall of the ward, the court shall set and convene a recall disposition hearing for the purpose of ordering an alternative disposition for the ward that is appropriate under all of the circumstances prevailing in the case. The court shall provide to the division no less than 15 days advance notice of the recall hearing date, and the division shall transport and deliver the ward to the custody of the probation department of the committing county no less than five days prior to the scheduled date of the recall hearing. Pending the recall disposition hearing, the ward shall be detained or housed in the manner and place, consistent with the requirements of law, as may be directed by the court in its order of recall. The timing and procedure of the recall disposition hearing shall be consistent with the rules, rights, and procedures applicable to delinquency disposition hearings, as described in Article 17 (commencing with Section 675).

SEC. 28. Section 733 of the Welfare and Institutions Code is amended to read:

733. A ward of the juvenile court who meets any condition described below shall not be committed to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities:

(a) The ward is under 11 years of age.

(b) The ward is suffering from any contagious, infectious, or other disease that would probably endanger the lives or health of the other inmates of any facility.

(c) The ward has been or is adjudged a ward of the court pursuant to Section 602, and the most recent offense alleged in any petition and admitted or found to be true by the court is not described in subdivision (b) of Section 707, unless the offense is a sex offense set forth in subdivision (c) of Section 290.008 of the Penal Code. This subdivision shall be effective on and after September 1, 2007.

SEC. 29. Section 1731.5 of the Welfare and Institutions Code is amended to read:

1731.5. (a) After certification to the Governor as provided in this article, a court may commit to the Division of Juvenile Facilities any person who meets all of the following:

(1) Is convicted of an offense described in subdivision (b) of Section 707 or subdivision (c) of Section 290.008 of the Penal Code.

(2) Is found to be less than 21 years of age at the time of apprehension.

(3) Is not sentenced to death, imprisonment for life, with or without the possibility of parole, whether or not pursuant to Section 190 of the Penal Code, imprisonment for 90 days or less, or the payment of a fine, or after having been directed to pay a fine, defaults in the payment thereof, and is subject to imprisonment for more than 90 days under the judgment.

(4) Is not granted probation, or was granted probation and that probation is revoked and terminated.

(b) The Division of Juvenile Facilities shall accept a person committed to it pursuant to this article if it believes that the person can be materially benefitted by its reformatory and educational discipline, and if it has adequate facilities to provide that care.

(c) Any person under 18 years of age who is not committed to the division pursuant to this section may be transferred to the authority by the Secretary of the Department of Corrections and Rehabilitation with the approval of the Chief Deputy Secretary for the Division of Juvenile Justice. In sentencing a person under 18 years of age, the court may order that the person shall be transferred to the custody of the Division of Juvenile Facilities pursuant to this subdivision. If the court makes this order and the division fails to accept custody of the person, the person

shall be returned to court for resentencing. The transfer shall be solely for the purposes of housing the inmate, allowing participation in the programs available at the institution by the inmate, and allowing division parole supervision of the inmate, who, in all other aspects shall be deemed to be committed to the Department of Corrections and Rehabilitation and shall remain subject to the jurisdiction of the Secretary of the Department of Corrections and Rehabilitation and the Board of Parole Hearings. Notwithstanding subdivision (b) of Section 2900 of the Penal Code, the secretary, with the concurrence of the chief deputy secretary, may designate a facility under the jurisdiction of the chief deputy secretary as a place of reception for any person described in this subdivision.

The chief deputy secretary shall have the same powers with respect to an inmate transferred pursuant to this subdivision as if the inmate had been committed or transferred to the Division of Juvenile Facilities either under the Arnold-Kennick Juvenile Court Law or subdivision (a).

The duration of the transfer shall extend until any of the following occurs:

(1) The chief deputy secretary orders the inmate returned to the Department of Corrections and Rehabilitation.

(2) The inmate is ordered discharged by the Board of Parole Hearings.

(3) The inmate reaches 18 years of age. However, if the inmate's period of incarceration would be completed on or before the inmate's 21st birthday, the chief deputy secretary may continue to house the inmate until the period of incarceration is completed.

SEC. 30. Section 1766 of the Welfare and Institutions Code is amended to read:

1766. (a) Subject to Sections 733 and 1767.35, and subdivision (b) of this section, if a person has been committed to the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, the Board of Parole Hearings, according to standardized review and appeal procedures established by the board in policy and regulation and subject to the powers and duties enumerated in subdivision (a) of Section 1719, may do any of the following:

(1) Permit the ward his or her liberty under supervision and upon conditions it believes are best designed for the protection of the public.

(2) Order his or her confinement under conditions it believes best designed for the protection of the public pursuant to the purposes set forth in Section 1700, except that a person committed to the division pursuant to Sections 731 or 1731.5 may not be held in physical confinement for a total period of time in excess of the maximum periods of time set forth in Section 731. Nothing in this subdivision limits the

power of the board to retain the minor or the young adult on parole status for the period permitted by Sections 1769, 1770, and 1771.

(3) Order reconfinement or renewed release under supervision as often as conditions indicate to be desirable.

(4) Revoke or modify any parole or disciplinary appeal order.

(5) Modify an order of discharge if conditions indicate that such modification is desirable and when that modification is to the benefit of the person committed to the division.

(6) Discharge him or her from its control when it is satisfied that discharge is consistent with the protection of the public.

(b) The following provisions shall apply to any ward eligible for release on parole on or after September 1, 2007, who was committed to the custody of the Division of Juvenile Facilities for an offense other than one described in subdivision (b) of Section 707 or paragraph (3) of subdivision (d) of Section 290 of the Penal Code:

(1) The county of commitment shall supervise the reentry of any ward released on parole on or after September 1, 2007, who was committed to the custody of the division for committing an offense other than those described in subdivision (b) of Section 707 or subdivision (c) of Section 290.008 of the Penal Code.

(2) Not less than 60 days prior to the scheduled parole consideration hearing of a ward described in this subdivision, the division shall provide to the probation department and the court of the committing county, and the ward's counsel, if known, the most recent written review prepared pursuant to Section 1720, along with notice of the parole consideration hearing date.

(3) Not less than 30 days prior to the scheduled parole consideration hearing of a ward described in this subdivision, the probation department of the committing county may provide the division with its written plan for the reentry supervision of the ward. At the parole consideration hearing, the Board of Parole Hearings shall, in determining whether the ward is to be released, consider a reentry supervision plan submitted by the county.

(4) Any ward described in this subdivision who is granted parole shall be placed on parole jurisdiction for up to 15 court days following his or her release. The board shall notify the probation department and the court of the committing county within 48 hours of a decision to release a ward.

(5) Within 15 court days of the release by the division of a ward described in this subdivision, the committing court shall convene a reentry disposition hearing for the ward. The purpose of the hearing shall be for the court to identify those conditions of probation that are appropriate under all the circumstances of the case. The court shall, to

the extent it deems appropriate, incorporate a reentry plan submitted by the county probation department and reviewed by the board into its disposition order. At the hearing the ward shall be fully informed of the terms and conditions of any order entered by the court, including the consequences for any violation thereof. The procedure of the reentry disposition hearing shall otherwise be consistent with the rules, rights, and procedures applicable to delinquency disposition hearings as described in Article 17 (commencing with Section 675) of Chapter 2 of Part 1 of Division 2.

(6) The division shall have no further jurisdiction over a ward described in this subdivision who is released on parole by the board upon the ward's court appearance pursuant to paragraph (5).

(c) Within 60 days of intake, the division shall provide the court and the probation department with a treatment plan for the ward.

(d) A ward shall be entitled to an appearance hearing before a panel of board commissioners for any action that would result in the extension of a parole consideration date pursuant to subdivision (d) of Section 5076.1 of the Penal Code.

(e) The department shall promulgate policies and regulations to implement this section.

(f) Commencing on July 1, 2004, and annually thereafter, for the preceding fiscal year, the department shall collect and make available to the public the following information:

(1) The total number of ward case reviews conducted by the division and the board, categorized by guideline category.

(2) The number of parole consideration dates for each category set at guideline, above guideline, and below guideline.

(3) The number of ward case reviews resulting in a change to a parole consideration date, including the category assigned to the ward, the amount of time added to or subtracted from the parole consideration date, and the specific reason for the change.

(4) The percentage of wards who have had a parole consideration date changed to a later date, the percentage of wards who have had a parole consideration date changed to an earlier date, and the average annual time added or subtracted per case.

(5) The number and percentage of wards who, while confined or on parole, are charged with a new misdemeanor or felony criminal offense.

(6) Any additional data or information identified by the department as relevant.

(g) As used in subdivision (f), the term "ward case review" means any review of a ward that changes, maintains, or appreciably affects the programs, treatment, or placement of a ward.

SEC. 31. Section 1767.35 of the Welfare and Institutions Code is amended to read:

1767.35. Commencing on September 1, 2007, any parolee under the jurisdiction of the Division of Juvenile Parole Operations shall be returned to custody upon the suspension, cancellation, or revocation of parole as follows:

(a) To the custody of the Division of Juvenile Facilities if the parolee is under the jurisdiction of the division for the commission of an offense described in subdivision (b) of Section 707 or an offense described in subdivision (c) of Section 290.008 of the Penal Code.

(b) To the county of commitment if the parolee is under the jurisdiction of the division for the commission of an offense not described in subdivision (b) of Section 707 or paragraph (3) of subdivision (d) of Section 290 of the Penal Code. If a ward subject to this subdivision is detained by the Division of Juvenile Parole Operations for the purpose of initiating proceedings to suspend, cancel, or revoke the ward's parole, the division shall notify the court and probation department of the committing county within 48 hours of the ward's detention that the ward is subject to parole violation proceedings. Within 15 days of a parole violation notice from the division, the committing court shall conduct a reentry disposition hearing for the ward. Pending the hearing, the ward may be detained by the division, provided that the division shall deliver the ward to the custody of the probation department in the county of commitment not more than three judicial days nor less than two judicial days prior to the reentry disposition hearing. At the hearing, at which the ward shall be entitled to representation by counsel, the court shall consider the alleged violation of parole, the risks and needs presented by the ward, and the reentry disposition programs and sanctions that are available for the ward, and enter a disposition order consistent with these considerations and the protection of the public. The ward shall be fully informed by the court of the terms, conditions, responsibilities, and sanctions that are relevant to the reentry plan that is adopted by the court. Upon delivery to the custody of the probation department for local proceedings under this subdivision, the Division of Juvenile Facilities and the Board of Parole Hearings shall have no further jurisdiction or parole supervision responsibility for a ward subject to this subdivision. The procedure of the reentry disposition hearing, including the detention status of the ward in the event continuances are ordered by the court, shall be consistent with the rules, rights, and procedures applicable to delinquency disposition hearings, as described in Article 17 (commencing with Section 675) of Chapter 2 of Part 1 of Division 2.

SEC. 32. It is the intent of the Legislature, in enacting the amendments to Section 227 of the Labor Code, that these changes are

for the sole purpose of correcting an obsolete penalty provision, and no other consequence is intended.

SEC. 33. Any section of any act, other than Senate Bill 1498, enacted by the Legislature during the 2008 calendar year that takes effect on or before January 1, 2009, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more of the sections affected by this act shall prevail over this act, whether this act is enacted prior to, or subsequent to, the enactment of that act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act, other than Senate Bill 1498, that is enacted by the Legislature during the 2008 calendar year and takes effect on or before January 1, 2009, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 56.103 of the Civil Code is amended to read:

56.103. (a) A provider of health care may disclose medical information to a county social worker, a probation officer, or any other person who is legally authorized to have custody or care of a minor for the purpose of coordinating health care services and medical treatment provided to the minor.

(b) For purposes of this section, health care services and medical treatment includes one or more providers of health care providing, coordinating, or managing health care and related services, including, but not limited to, a provider of health care coordinating health care with a third party, consultation between providers of health care and medical treatment relating to a minor, or a provider of health care referring a minor for health care services to another provider of health care.

(c) For purposes of this section, a county social worker, a probation officer, or any other person who is legally authorized to have custody

or care of a minor shall be considered a third party who may receive any of the following:

(1) Medical information described in Sections 56.05 and 56.10.

(2) Protected health information described in Section 160.103 of Title 45 of the Code of Federal Regulations.

(d) Medical information disclosed to a county social worker, probation officer, or any other person who is legally authorized to have custody or care of a minor shall not be further disclosed by the recipient unless the disclosure is for the purpose of coordinating health care services and medical treatment of the minor and the disclosure is authorized by law. Medical information disclosed pursuant to this section may not be admitted into evidence in any criminal or delinquency proceeding against the minor. Nothing in this subdivision shall prohibit identical evidence from being admissible in a criminal proceeding if that evidence is derived solely from lawful means other than this section and is permitted by law.

(e) (1) Notwithstanding Section 56.104, if a provider of health care determines that the disclosure of medical information concerning the diagnosis and treatment of a mental health condition of a minor is reasonably necessary for the purpose of assisting in coordinating the treatment and care of the minor, that information may be disclosed to a county social worker, probation officer, or any other person who is legally authorized to have custody or care of the minor. The information shall not be further disclosed by the recipient unless the disclosure is for the purpose of coordinating mental health services and treatment of the minor and the disclosure is authorized by law.

(2) As used in this subdivision, "medical information" does not include psychotherapy notes as defined in Section 164.501 of Title 45 of the Code of Federal Regulations.

(f) The disclosure of information pursuant to this section is not intended to limit the disclosure of information when that disclosure is otherwise required by law.

(g) For purposes of this section, "minor" means a minor taken into temporary custody or as to who a petition has been filed with the court, or who has been adjudged to be a dependent child or ward of the juvenile court pursuant to Section 300 or 601 of the Welfare and Institutions Code.

(h) (1) Except as described in paragraph (1) of subdivision (e), nothing in this section shall be construed to limit or otherwise affect existing privacy protections provided for in state or federal law.

(2) Nothing in this section shall be construed to expand the authority of a social worker, probation officer, or custodial caregiver beyond the authority provided under existing law to a parent or a patient representative regarding access to medical information.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 8712 of the Family Code is amended to read:

8712. (a) The department or licensed adoption agency shall require each person filing an application for adoption to be fingerprinted and shall secure from an appropriate law enforcement agency any criminal record of that person to determine whether the person has ever been convicted of a crime other than a minor traffic violation. The department or a licensed adoption agency may also secure the person's full criminal record, if any. Any federal-level criminal offender record requests to the Department of Justice shall be submitted with fingerprint images and related information required by the Department of Justice for the purposes of obtaining information as to the existence and content of a record of an out-of-state or federal conviction or arrest of a person or information regarding any out-of-state or federal crimes or arrests for which the Department of Justice establishes that the person is free on bail, or on his or her own recognizance pending trial or appeal. The Department of Justice shall forward to the Federal Bureau of Investigation any requests for federal summary criminal history information received pursuant to this section. The Department of Justice shall review the information returned from the Federal Bureau of Investigation and shall compile and disseminate a response to the department or a licensed adoption agency.

(b) Notwithstanding subdivision (c), the criminal record, if any, shall be taken into consideration when evaluating the prospective adoptive parent, and an assessment of the effects of any criminal history on the ability of the prospective adoptive parent to provide adequate and proper care and guidance to the child shall be included in the report to the court.

(c) (1) Under no circumstances shall the department or a licensed adoption agency give final approval for an adoptive placement in any home where the prospective adoptive parent or any adult living in the prospective adoptive home has either of the following:

(A) A felony conviction for child abuse or neglect, spousal abuse, crimes against a child, including child pornography, or for a crime involving violence, including rape, sexual assault, or homicide, but not including other physical assault and battery. For purposes of this subdivision, crimes involving violence means those violent crimes contained in clause (i) of subparagraph (A), and subparagraph (B), of paragraph (1) of subdivision (g) of Section 1522 of the Health and Safety Code.

(B) A felony conviction that occurred within the last five years for physical assault, battery, or a drug- or alcohol-related offense.

(2) This subdivision shall become operative on October 1, 2008, and shall remain operative only to the extent that compliance with its provisions is required by federal law as a condition of receiving funding under Title IV-E of the federal Social Security Act (42 U.S.C. 670 and following).

(d) Any fee charged by a law enforcement agency for fingerprinting or for checking or obtaining the criminal record of the applicant shall be paid by the applicant. The department or licensed adoption agency may defer, waive, or reduce the fee when its payment would cause economic hardship to prospective adoptive parents detrimental to the welfare of the adopted child, when the child has been in the foster care of the prospective adoptive parents for at least one year, or if necessary for the placement of a special-needs child.

SEC. 2. Section 8811 of the Family Code is amended to read:

8811. (a) The department or delegated county adoption agency shall require each person filing an adoption petition to be fingerprinted and shall secure from an appropriate law enforcement agency any criminal record of that person to determine whether the person has ever been convicted of a crime other than a minor traffic violation. The department or delegated county adoption agency may also secure the person's full criminal record, if any. Any federal-level criminal offender record requests to the Department of Justice shall be submitted with fingerprint images and related information required by the Department of Justice for the purposes of obtaining information as to the existence and content of a record of an out-of-state or federal conviction or arrest of a person or information regarding any out-of-state or federal crimes or arrests for which the Department of Justice establishes that the person is free on bail, or on his or her own recognizance pending trial or appeal. The Department of Justice shall forward to the Federal Bureau of Investigation any requests for federal summary criminal history information received pursuant to this section. The Department of Justice shall review the information returned from the Federal Bureau of Investigation and shall

compile and disseminate a response to the department or delegated county adoption agency.

(b) Notwithstanding subdivision (c), the criminal record, if any, shall be taken into consideration when evaluating the prospective adoptive parent, and an assessment of the effects of any criminal history on the ability of the prospective adoptive parent to provide adequate and proper care and guidance to the child shall be included in the report to the court.

(c) (1) Under no circumstances shall the department or a delegated county adoption agency give final approval for an adoptive placement in any home where the prospective adoptive parent or any adult living in the prospective adoptive home has either of the following:

(A) A felony conviction for child abuse or neglect, spousal abuse, crimes against a child, including child pornography, or for a crime involving violence, including rape, sexual assault, or homicide, but not including other physical assault and battery. For purposes of this subdivision, crimes involving violence means those violent crimes contained in clause (i) of subparagraph (A), and subparagraph (B), of paragraph (1) of subdivision (g) of Section 1522 of the Health and Safety Code.

(B) A felony conviction that occurred within the last five years for physical assault, battery, or a drug- or alcohol-related offense.

(2) This subdivision shall become operative on October 1, 2008, and shall remain operative only to the extent that compliance with its provisions is required by federal law as a condition of receiving funding under Title IV-E of the federal Social Security Act (42 U.S.C. 670 and following).

(d) Any fee charged by a law enforcement agency for fingerprinting or for checking or obtaining the criminal record of the petitioner shall be paid by the petitioner. The department or delegated county adoption agency may defer, waive, or reduce the fee when its payment would cause economic hardship to the prospective adoptive parents detrimental to the welfare of the adopted child, when the child has been in the foster care of the prospective adoptive parents for at least one year, or if necessary for the placement of a special-needs child.

SEC. 3. Section 8908 of the Family Code is amended to read:

8908. (a) A licensed adoption agency shall require each person filing an application for adoption to be fingerprinted and shall secure from an appropriate law enforcement agency any criminal record of that person to determine whether the person has ever been convicted of a crime other than a minor traffic violation. The licensed adoption agency may also secure the person's full criminal record, if any. Any federal-level criminal offender record requests to the Department of Justice shall be submitted with fingerprint images and related information required by the

Department of Justice for the purposes of obtaining information as to the existence and content of a record of an out-of-state or federal conviction or arrest of a person or information regarding any out-of-state or federal crimes or arrests for which the Department of Justice establishes that the person is free on bail, or on his or her own recognizance pending trial or appeal. The Department of Justice shall forward to the Federal Bureau of Investigation any requests for federal summary criminal history information received pursuant to this section. The Department of Justice shall review the information returned from the Federal Bureau of Investigation and shall compile and disseminate a fitness determination to the licensed adoption agency.

(b) Notwithstanding subdivision (c), the criminal record, if any, shall be taken into consideration when evaluating the prospective adoptive parent, and an assessment of the effects of any criminal history on the ability of the prospective adoptive parent to provide adequate and proper care and guidance to the child shall be included in the report to the court.

(c) (1) Under no circumstances shall a licensed adoption agency give final approval for an adoptive placement in any home where the prospective adoptive parent or any adult living in the prospective adoptive home, has a felony conviction for either of the following:

(A) Any felony conviction for child abuse or neglect, spousal abuse, crimes against a child, including child pornography, or for a crime involving violence, including rape, sexual assault, or homicide, but not including other physical assault and battery. For purposes of this subdivision, crimes involving violence means those violent crimes contained in clause (i) of subparagraph (A), and subparagraph (B), of paragraph (1) of subdivision (g) of Section 1522 of the Health and Safety Code.

(B) A felony conviction that occurred within the last five years for physical assault, battery, or a drug- or alcohol-related offense.

(2) This subdivision shall become operative on October 1, 2008, and shall remain operative only to the extent that compliance with its provisions is required by federal law as a condition of receiving funding under Title IV-E of the federal Social Security Act (42 U.S.C. 670 and following).

(d) Any fee charged by a law enforcement agency for fingerprinting or for checking or obtaining the criminal record of the applicant shall be paid by the applicant. The licensed adoption agency may defer, waive, or reduce the fee when its payment would cause economic hardship to the prospective adoptive parents detrimental to the welfare of the adopted child.

SEC. 4. Section 1522 of the Health and Safety Code is amended to read:

1522. The Legislature recognizes the need to generate timely and accurate positive fingerprint identification of applicants as a condition of issuing licenses, permits, or certificates of approval for persons to operate or provide direct care services in a community care facility, foster family home, or a certified family home of a licensed foster family agency. Therefore, the Legislature supports the use of the fingerprint live-scan technology, as identified in the long-range plan of the Department of Justice for fully automating the processing of fingerprints and other data by the year 1999, otherwise known as the California Crime Information Intelligence System (CAL-CII), to be used for applicant fingerprints. It is the intent of the Legislature in enacting this section to require the fingerprints of those individuals whose contact with community care clients may pose a risk to the clients' health and safety. An individual shall be required to obtain either a criminal record clearance or a criminal record exemption from the State Department of Social Services before his or her initial presence in a community care facility.

(a) (1) Before issuing a license or special permit to any person or persons to operate or manage a community care facility, the State Department of Social Services shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of a crime other than a minor traffic violation or arrested for any crime specified in Section 290 of the Penal Code, for violating Section 245 or 273.5, of the Penal Code, subdivision (b) of Section 273a of the Penal Code, or, prior to January 1, 1994, paragraph (2) of Section 273a of the Penal Code, or for any crime for which the department cannot grant an exemption if the person was convicted and the person has not been exonerated.

(2) The criminal history information shall include the full criminal record, if any, of those persons, and subsequent arrest information pursuant to Section 11105.2 of the Penal Code.

(3) Except during the 2003–04, 2004–05, 2005–06, 2006–07, and 2007–08 fiscal years, neither the Department of Justice nor the State Department of Social Services may charge a fee for the fingerprinting of an applicant for a license or special permit to operate a facility providing nonmedical board, room, and care for six or less children or for obtaining a criminal record of the applicant pursuant to this section.

(4) The following shall apply to the criminal record information:

(A) If the State Department of Social Services finds that the applicant, or any other person specified in subdivision (b), has been convicted of a crime other than a minor traffic violation, the application shall be

denied, unless the director grants an exemption pursuant to subdivision (g).

(B) If the State Department of Social Services finds that the applicant, or any other person specified in subdivision (b) is awaiting trial for a crime other than a minor traffic violation, the State Department of Social Services may cease processing the application until the conclusion of the trial.

(C) If no criminal record information has been recorded, the Department of Justice shall provide the applicant and the State Department of Social Services with a statement of that fact.

(D) If the State Department of Social Services finds after licensure that the licensee, or any other person specified in paragraph (1) of subdivision (b), has been convicted of a crime other than a minor traffic violation, the license may be revoked, unless the director grants an exemption pursuant to subdivision (g).

(E) An applicant and any other person specified in subdivision (b) shall submit fingerprint images and related information to the Department of Justice for the purpose of searching the criminal records of the Federal Bureau of Investigation, in addition to the criminal records search required by this subdivision. If an applicant and all other persons described in subdivision (b) meet all of the conditions for licensure, except receipt of the Federal Bureau of Investigation's criminal offender record information search response for the applicant or any of the persons described in subdivision (b), the department may issue a license if the applicant and each person described in subdivision (b) has signed and submitted a statement that he or she has never been convicted of a crime in the United States, other than a traffic infraction, as defined in paragraph (1) of subdivision (a) of Section 42001 of the Vehicle Code. If, after licensure, the department determines that the licensee or any other person specified in subdivision (b) has a criminal record, the license may be revoked pursuant to Section 1550. The department may also suspend the license pending an administrative hearing pursuant to Section 1550.5.

(F) The State Department of Social Services shall develop procedures to provide the individual's state and federal criminal history information with the written notification of his or her exemption denial or revocation based on the criminal record. Receipt of the criminal history information shall be optional on the part of the individual, as set forth in the agency's procedures. The procedure shall protect the confidentiality and privacy of the individual's record, and the criminal history information shall not be made available to the employer.

(G) Notwithstanding any other provision of law, the department is authorized to provide an individual with a copy of his or her state- or federal-level criminal offender record information search response as

provided to that department by the Department of Justice if the department has denied a criminal background clearance based on this information and the individual makes a written request to the department for a copy specifying an address to which it is to be sent. The state- or federal-level criminal offender record information search response shall not be modified or altered from its form or content as provided by the Department of Justice and shall be provided to the address specified by the individual in his or her written request. The department shall retain a copy of the individual's written request and the response and date provided.

(b) (1) In addition to the applicant, this section shall be applicable to criminal convictions of the following persons:

(A) Adults responsible for administration or direct supervision of staff.

(B) Any person, other than a client, residing in the facility.

(C) Any person who provides client assistance in dressing, grooming, bathing, or personal hygiene. Any nurse assistant or home health aide meeting the requirements of Section 1338.5 or 1736.6, respectively, who is not employed, retained, or contracted by the licensee, and who has been certified or recertified on or after July 1, 1998, shall be deemed to meet the criminal record clearance requirements of this section. A certified nurse assistant and certified home health aide who will be providing client assistance and who falls under this exemption shall provide one copy of his or her current certification, prior to providing care, to the community care facility. The facility shall maintain the copy of the certification on file as long as care is being provided by the certified nurse assistant or certified home health aide at the facility. Nothing in this paragraph restricts the right of the department to exclude a certified nurse assistant or certified home health aide from a licensed community care facility pursuant to Section 1558.

(D) Any staff person, volunteer, or employee who has contact with the clients.

(E) If the applicant is a firm, partnership, association, or corporation, the chief executive officer or other person serving in like capacity.

(F) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(2) The following persons are exempt from the requirements applicable under paragraph (1):

(A) A medical professional as defined in department regulations who holds a valid license or certification from the person's governing

California medical care regulatory entity and who is not employed, retained, or contracted by the licensee if all of the following apply:

(i) The criminal record of the person has been cleared as a condition of licensure or certification by the person's governing California medical care regulatory entity.

(ii) The person is providing time-limited specialized clinical care or services.

(iii) The person is providing care or services within the person's scope of practice.

(iv) The person is not a community care facility licensee or an employee of the facility.

(B) A third-party repair person or similar retained contractor if all of the following apply:

(i) The person is hired for a defined, time-limited job.

(ii) The person is not left alone with clients.

(iii) When clients are present in the room in which the repair person or contractor is working, a staff person who has a criminal record clearance or exemption is also present.

(C) Employees of a licensed home health agency and other members of licensed hospice interdisciplinary teams who have a contract with a client or resident of the facility and are in the facility at the request of that client or resident's legal decisionmaker. The exemption does not apply to a person who is a community care facility licensee or an employee of the facility.

(D) Clergy and other spiritual caregivers who are performing services in common areas of the community care facility or who are advising an individual client at the request of, or with the permission of, the client or legal decisionmaker, are exempt from fingerprint and criminal background check requirements imposed by community care licensing. This exemption does not apply to a person who is a community care licensee or employee of the facility.

(E) Members of fraternal, service, or similar organizations who conduct group activities for clients if all of the following apply:

(i) Members are not left alone with clients.

(ii) Members do not transport clients off the facility premises.

(iii) The same organization does not conduct group activities for clients more often than defined by the department's regulations.

(3) In addition to the exemptions in paragraph (2), the following persons in foster family homes, certified family homes, and small family homes are exempt from the requirements applicable under paragraph (1):

(A) Adult friends and family of the licensed or certified foster parent, who come into the home to visit for a length of time no longer than

defined by the department in regulations, provided that the adult friends and family of the licensee are not left alone with the foster children. However, the licensee, acting as a reasonable and prudent parent, as defined in paragraph (2) of subdivision (a) of Section 362.04 of the Welfare and Institutions Code, may allow his or her adult friends and family to provide short-term care to the foster child and act as an appropriate occasional short-term babysitter for the child.

(B) Parents of a foster child's friend when the foster child is visiting the friend's home and the friend, licensed or certified foster parent, or both are also present. However, the licensee, acting as a reasonable and prudent parent, may allow the parent of the foster child's friend to act as an appropriate short-term babysitter for the child without the friend being present.

(C) Individuals who are engaged by any licensed or certified foster parent to provide short-term care to the child for periods not to exceed 24 hours. Caregivers shall use a reasonable and prudent parent standard in selecting appropriate individuals to act as appropriate occasional short-term babysitters.

(4) In addition to the exemptions specified in paragraph (2), the following persons in adult day care and adult day support centers are exempt from the requirements applicable under paragraph (1):

(A) Unless contraindicated by the client's individualized program plan (IPP) or needs and service plan, a spouse, significant other, relative, or close friend of a client, or an attendant or a facilitator for a client with a developmental disability if the attendant or facilitator is not employed, retained, or contracted by the licensee. This exemption applies only if the person is visiting the client or providing direct care and supervision to the client.

(B) A volunteer if all of the following applies:

(i) The volunteer is supervised by the licensee or a facility employee with a criminal record clearance or exemption.

(ii) The volunteer is never left alone with clients.

(iii) The volunteer does not provide any client assistance with dressing, grooming, bathing, or personal hygiene other than washing of hands.

(5) (A) In addition to the exemptions specified in paragraph (2), the following persons in adult residential and social rehabilitation facilities, unless contraindicated by the client's individualized program plan (IPP) or needs and services plan, are exempt from the requirements applicable under paragraph (1): a spouse, significant other, relative, or close friend of a client, or an attendant or a facilitator for a client with a developmental disability if the attendant or facilitator is not employed, retained, or contracted by the licensee. This exemption applies only if

the person is visiting the client or providing direct care and supervision to that client.

(B) Nothing in this subdivision shall prevent a licensee from requiring a criminal record clearance of any individual exempt from the requirements of this section, provided that the individual has client contact.

(6) Any person similar to those described in this subdivision, as defined by the department in regulations.

(c) (1) Subsequent to initial licensure, any person specified in subdivision (b) who is not exempted from fingerprinting shall obtain either a criminal record clearance or an exemption from disqualification pursuant to subdivision (g) from the State Department of Social Services prior to employment, residence, or initial presence in the facility. Any person specified in subdivision (b) who is not exempt from fingerprinting shall be fingerprinted and shall sign a declaration under penalty of perjury regarding any prior criminal convictions. The licensee shall submit fingerprint images and related information to the Department of Justice and the Federal Bureau of Investigation, through the Department of Justice, for a state- and federal-level criminal offender record information search, or comply with paragraph (1) of subdivision (h). These fingerprint images and related information shall be sent by electronic transmission in a manner approved by the State Department of Social Services and the Department of Justice for the purpose of obtaining a permanent set of fingerprints, and shall be submitted to the Department of Justice by the licensee. A licensee's failure to prohibit the employment, residence, or initial presence of any person specified in subdivision (b) who is not exempt from fingerprinting and who has not received either a criminal record clearance or an exemption from disqualification pursuant to subdivision (g) or to comply with paragraph (1) of subdivision (h), as required in this section, shall result in the citation of a deficiency and the immediate assessment of civil penalties in the amount of one hundred dollars ($100) per violation per day for a maximum of five days, unless the violation is a second or subsequent violation within a 12-month period in which case the civil penalties shall be in the amount of one hundred dollars ($100) per violation for a maximum of 30 days, and shall be grounds for disciplining the licensee pursuant to Section 1550. The department may assess civil penalties for continued violations as permitted by Section 1548. The fingerprint images and related information shall then be submitted to the Department of Justice for processing. Upon request of the licensee, who shall enclose a self-addressed stamped postcard for this purpose, the Department of Justice shall verify receipt of the fingerprints.

(2) Within 14 calendar days of the receipt of the fingerprint images, the Department of Justice shall notify the State Department of Social Services of the criminal record information, as provided for in subdivision (a). If no criminal record information has been recorded, the Department of Justice shall provide the licensee and the State Department of Social Services with a statement of that fact within 14 calendar days of receipt of the fingerprint images. Documentation of the individual's clearance or exemption from disqualification shall be maintained by the licensee and be available for inspection. If new fingerprint images are required for processing, the Department of Justice shall, within 14 calendar days from the date of receipt of the fingerprints, notify the licensee that the fingerprints were illegible, the Department of Justice shall notify the State Department of Social Services, as required by Section 1522.04, and shall also notify the licensee by mail, within 14 days of electronic transmission of the fingerprints to the Department of Justice, if the person has no criminal history recorded. A violation of the regulations adopted pursuant to Section 1522.04 shall result in the citation of a deficiency and an immediate assessment of civil penalties in the amount of one hundred dollars ($100) per violation per day for a maximum of five days, unless the violation is a second or subsequent violation within a 12-month period in which case the civil penalties shall be in the amount of one hundred dollars ($100) per violation for a maximum of 30 days, and shall be grounds for disciplining the licensee pursuant to Section 1550. The department may assess civil penalties for continued violations as permitted by Section 1548.

(3) Except for persons specified in subdivision (b) who are exempt from fingerprinting, the licensee shall endeavor to ascertain the previous employment history of persons required to be fingerprinted. If it is determined by the State Department of Social Services, on the basis of the fingerprint images and related information submitted to the Department of Justice, that subsequent to obtaining a criminal record clearance or exemption from disqualification pursuant to subdivision (g), the person has been convicted of, or is awaiting trial for, a sex offense against a minor, or has been convicted for an offense specified in Section 243.4, 273a, 273d, 273g, or 368 of the Penal Code, or a felony, the State Department of Social Services shall notify the licensee to act immediately to terminate the person's employment, remove the person from the community care facility, or bar the person from entering the community care facility. The State Department of Social Services may subsequently grant an exemption from disqualification pursuant to subdivision (g). If the conviction or arrest was for another crime, except a minor traffic violation, the licensee shall, upon notification by the State Department of Social Services, act immediately to either (A) terminate the person's

employment, remove the person from the community care facility, or bar the person from entering the community care facility; or (B) seek an exemption from disqualification pursuant to subdivision (g). The State Department of Social Services shall determine if the person shall be allowed to remain in the facility until a decision on the exemption from disqualification is rendered. A licensee's failure to comply with the department's prohibition of employment, contact with clients, or presence in the facility as required by this paragraph shall result in a citation of a deficiency and an immediate assessment of civil penalties in the amount of one hundred dollars ($100) per violation per day and shall be grounds for disciplining the licensee pursuant to Section 1550.

(4) The department may issue an exemption from disqualification on its own motion pursuant to subdivision (g) if the person's criminal history indicates that the person is of good character based on the age, seriousness, and frequency of the conviction or convictions. The department, in consultation with interested parties, shall develop regulations to establish the criteria to grant an exemption from disqualification pursuant to this paragraph.

(5) Concurrently with notifying the licensee pursuant to paragraph (3), the department shall notify the affected individual of his or her right to seek an exemption from disqualification pursuant to subdivision (g). The individual may seek an exemption from disqualification only if the licensee terminates the person's employment or removes the person from the facility after receiving notice from the department pursuant to paragraph (3).

(d) (1) Before issuing a license or certificate of approval to any person or persons to operate a foster family home or certified family home as described in Section 1506, the State Department of Social Services or other approving authority shall secure California and Federal Bureau of Investigation criminal history information to determine whether the applicant or any person specified in subdivision (b) who is not exempt from fingerprinting has ever been convicted of a crime other than a minor traffic violation or arrested for any crime specified in subdivision (c) of Section 290 of the Penal Code, for violating Section 245 or 273.5, subdivision (b) of Section 273a or, prior to January 1, 1994, paragraph (2) of Section 273a of the Penal Code, or for any crime for which the department cannot grant an exemption if the person was convicted and the person has not been exonerated. The State Department of Social Services or other approving authority shall not issue a license or certificate of approval to any foster family home or certified family home applicant who has not obtained both a California and Federal Bureau of Investigation criminal record clearance or exemption from disqualification pursuant to subdivision (g).

(2) The criminal history information shall include the full criminal record, if any, of those persons.

(3) Neither the Department of Justice nor the State Department of Social Services may charge a fee for the fingerprinting of an applicant for a license, special permit, or certificate of approval described in this subdivision. The record, if any, shall be taken into consideration when evaluating a prospective applicant.

(4) The following shall apply to the criminal record information:

(A) If the applicant or other persons specified in subdivision (b) who are not exempt from fingerprinting have convictions that would make the applicant's home unfit as a foster family home or a certified family home, the license, special permit, or certificate of approval shall be denied.

(B) If the State Department of Social Services finds that the applicant, or any person specified in subdivision (b) who is not exempt from fingerprinting is awaiting trial for a crime other than a minor traffic violation, the State Department of Social Services or other approving authority may cease processing the application until the conclusion of the trial.

(C) For the purposes of this subdivision, a criminal record clearance provided under Section 8712 of the Family Code may be used by the department or other approving agency.

(D) To the same extent required for federal funding, an applicant for a foster family home license or for certification as a family home, and any other person specified in subdivision (b) who is not exempted from fingerprinting shall submit a set of fingerprint images and related information to the Department of Justice and the Federal Bureau of Investigation, through the Department of Justice, for a state- and federal-level criminal offender record information search, in addition to the criminal records search required by subdivision (a).

(5) Any person specified in this subdivision shall, as a part of the application, be fingerprinted and sign a declaration under penalty of perjury regarding any prior criminal convictions or arrests for any crime against a child, spousal or cohabitant abuse or, any crime for which the department cannot grant an exemption if the person was convicted and shall submit these fingerprints to the licensing agency or other approving authority.

(6) (A) Subsequent to initial licensure or certification, any person specified in subdivision (b) who is not exempt from fingerprinting shall obtain both a California and Federal Bureau of Investigation criminal record clearance, or an exemption from disqualification pursuant to subdivision (g), prior to employment, residence, or initial presence in the foster family or certified family home. A foster family home licensee

or foster family agency shall submit fingerprint images and related information of persons specified in subdivision (b) who are not exempt from fingerprinting to the Department of Justice and the Federal Bureau of Investigation, through the Department of Justice, for a state- and federal-level criminal offender record information search, or to comply with paragraph (1) of subdivision (h). A foster family home licensee's or a foster family agency's failure to either prohibit the employment, residence, or initial presence of any person specified in subdivision (b) who is not exempt from fingerprinting and who has not received either a criminal record clearance or an exemption from disqualification pursuant to subdivision (g), or comply with paragraph (1) of subdivision (h), as required in this section, shall result in a citation of a deficiency, and the immediate civil penalties of one hundred dollars ($100) per violation per day for a maximum of five days, unless the violation is a second or subsequent violation within a 12-month period in which case the civil penalties shall be in the amount of one hundred dollars ($100) per violation for a maximum of 30 days, and shall be grounds for disciplining the licensee pursuant to Section 1550. A violation of the regulation adopted pursuant to Section 1522.04 shall result in the citation of a deficiency and an immediate assessment of civil penalties in the amount of one hundred dollars ($100) per violation per day for a maximum of five days, unless the violation is a second or subsequent violation within a 12-month period in which case the civil penalties shall be in the amount of one hundred dollars ($100) per violation for a maximum of 30 days, and shall be grounds for disciplining the foster family home licensee or foster family agency pursuant to Section 1550. The State Department of Social Services may assess penalties for continued violations, as permitted by Section 1548. The fingerprint images shall then be submitted to the Department of Justice for processing.

(B) Upon request of the licensee, who shall enclose a self-addressed envelope for this purpose, the Department of Justice shall verify receipt of the fingerprints. Within five working days of the receipt of the criminal record or information regarding criminal convictions from the Department of Justice, the department shall notify the applicant of any criminal arrests or convictions. If no arrests or convictions are recorded, the Department of Justice shall provide the foster family home licensee or the foster family agency with a statement of that fact concurrent with providing the information to the State Department of Social Services.

(7) If the State Department of Social Services finds that the applicant, or any other person specified in subdivision (b) who is not exempt from fingerprinting, has been convicted of a crime other than a minor traffic

violation, the application shall be denied, unless the director grants an exemption from disqualification pursuant to subdivision (g).

(8) If the State Department of Social Services finds after licensure or the granting of the certificate of approval that the licensee, certified foster parent, or any other person specified in subdivision (b) who is not exempt from fingerprinting, has been convicted of a crime other than a minor traffic violation, the license or certificate of approval may be revoked by the department or the foster family agency, whichever is applicable, unless the director grants an exemption from disqualification pursuant to subdivision (g). A licensee's failure to comply with the department's prohibition of employment, contact with clients, or presence in the facility as required by paragraph (3) of subdivision (c) shall be grounds for disciplining the licensee pursuant to Section 1550.

(e) The State Department of Social Services may not use a record of arrest to deny, revoke, or terminate any application, license, employment, or residence unless the department investigates the incident and secures evidence, whether or not related to the incident of arrest, that is admissible in an administrative hearing to establish conduct by the person that may pose a risk to the health and safety of any person who is or may become a client. The State Department of Social Services is authorized to obtain any arrest or conviction records or reports from any law enforcement agency as necessary to the performance of its duties to inspect, license, and investigate community care facilities and individuals associated with a community care facility.

(f) (1) For purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action that the State Department of Social Services is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, when the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to Sections 1203.4 and 1203.4a of the Penal Code permitting the person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For purposes of this section or any other provision of this chapter, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction. For purposes of this section or any other provision of this chapter, the arrest disposition report certified by the Department of Justice, or documents admissible in a criminal action pursuant to Section 969b of the Penal Code, shall be prima facie evidence of the conviction, notwithstanding any other provision of law

prohibiting the admission of these documents in a civil or administrative action.

(2) For purposes of this section or any other provision of this chapter, the department shall consider criminal convictions from another state or federal court as if the criminal offense was committed in this state.

(g) (1) After review of the record, the director may grant an exemption from disqualification for a license or special permit as specified in paragraph (4) of subdivision (a), or for a license, special permit, or certificate of approval as specified in paragraphs (4), (7), and (8) of subdivision (d), or for employment, residence, or presence in a community care facility as specified in paragraphs (3), (4), and (5) of subdivision (c), if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the crime, if other than the applicant, are of good character as to justify issuance of the license or special permit or granting an exemption for purposes of subdivision (c). Except as otherwise provided in this subdivision, an exemption shall not be granted pursuant to this subdivision if the conviction was for any of the following offenses:

(A) (i) An offense specified in Section 220, 243.4, or 264.1, subdivision (a) of Section 273a or, prior to January 1, 1994, paragraph (1) of Section 273a, Section 273d, 288, or 289, subdivision (c) of Section 290, or Section 368 of the Penal Code, or was a conviction of another crime against an individual specified in subdivision (c) of Section 667.5 of the Penal Code.

(ii) Notwithstanding clause (i), the director may grant an exemption regarding the conviction for an offense described in paragraph (1), (2), (7), or (8) of subdivision (c) of Section 667.5 of the Penal Code, if the employee or prospective employee has been rehabilitated as provided in Section 4852.03 of the Penal Code, has maintained the conduct required in Section 4852.05 of the Penal Code for at least 10 years, and has the recommendation of the district attorney representing the employee's county of residence, or if the employee or prospective employee has received a certificate of rehabilitation pursuant to Chapter 3.5 (commencing with Section 4852.01) of Title 6 of Part 3 of the Penal Code. This clause shall not apply to foster care providers, including relative caregivers, nonrelated extended family members, or any other person specified in subdivision (b), in those homes where the individual has been convicted of an offense described in paragraph (1) of subdivision (c) of Section 667.5 of the Penal Code.

(B) A felony offense specified in Section 729 of the Business and Professions Code or Section 206 or 215, subdivision (a) of Section 347, subdivision (b) of Section 417, or subdivision (a) of Section 451, of the Penal Code.

(C) Under no circumstances shall an exemption be granted pursuant to this subdivision to any foster care provider applicant if that applicant or any other person specified in subdivision (b) in those homes, has a felony conviction for either of the following offenses:

(i) A felony conviction for child abuse or neglect, spousal abuse, crimes against a child, including child pornography, or for a crime involving violence, including rape, sexual assault, or homicide, but not including other physical assault and battery. For purposes of this subparagraph, a crime involving violence means any violent crime specified in clause (i) of subparagraph (A), or subparagraph (B).

(ii) A felony conviction, within the last five years, for physical assault, battery, or a drug-or alcohol-related offense.

(iii) This subparagraph shall not apply to licenses or approvals wherein a caregiver was granted an exemption to a criminal conviction described in clause (i) or (ii) before October 1, 2008.

(iv) This subparagraph shall become operative on October 1, 2008, and shall remain operative only to the extent that compliance with its provisions is required by federal law as a condition of receiving funding under Title IV-E of the federal Social Security Act (42 U.S.C. 670 and following).

(2) The department may not prohibit a person from being employed or having contact with clients in a facility on the basis of a denied criminal record exemption request or arrest information unless the department complies with the requirements of Section 1558.

(h) (1) For purposes of compliance with this section, the department may permit an individual to transfer a current criminal record clearance, as defined in subdivision (a), from one facility to another, as long as the criminal record clearance has been processed through a state licensing district office, and is being transferred to another facility licensed by a state licensing district office. The request shall be in writing to the State Department of Social Services, and shall include a copy of the person's driver's license or valid identification card issued by the Department of Motor Vehicles, or a valid photo identification issued by another state or the United States government if the person is not a California resident. Upon request of the licensee, who shall enclose a self-addressed envelope for this purpose, the State Department of Social Services shall verify whether the individual has a clearance that can be transferred.

(2) The State Department of Social Services shall hold criminal record clearances in its active files for a minimum of three years after an employee is no longer employed at a licensed facility in order for the criminal record clearance to be transferred.

(3) The following shall apply to a criminal record clearance or exemption from the department or a county office with department-delegated licensing authority:

(A) A county office with department-delegated licensing authority may accept a clearance or exemption from the department.

(B) The department may accept a clearance or exemption from any county office with department-delegated licensing authority.

(C) A county office with department-delegated licensing authority may accept a clearance or exemption from any other county office with department-delegated licensing authority.

(4) With respect to notifications issued by the Department of Justice pursuant to Section 11105.2 of the Penal Code concerning an individual whose criminal record clearance was originally processed by the department or a county office with department-delegated licensing authority, all of the following shall apply:

(A) The Department of Justice shall process a request from the department or a county office with department-delegated licensing authority to receive the notice only if all of the following conditions are met:

(i) The request shall be submitted to the Department of Justice by the agency to be substituted to receive the notification.

(ii) The request shall be for the same applicant type as the type for which the original clearance was obtained.

(iii) The request shall contain all prescribed data elements and format protocols pursuant to a written agreement between the department and the Department of Justice.

(B) (i) On or before January 7, 2005, the department shall notify the Department of Justice of all county offices that have department-delegated licensing authority.

(ii) The department shall notify the Department of Justice within 15 calendar days of the date on which a new county office receives department-delegated licensing authority or a county's delegated licensing authority is rescinded.

(C) The Department of Justice shall charge the department, a county office with department-delegated licensing authority, or a county child welfare agency with criminal record clearance and exemption authority, a fee for each time a request to substitute the recipient agency is received for purposes of this paragraph. This fee shall not exceed the cost of providing the service.

(5) (A) A county child welfare agency with authority to secure clearances pursuant to Section 16504.5 of the Welfare and Institutions Code and to grant exemptions pursuant to Section 361.4 of the Welfare and Institutions Code may accept a clearance or exemption from another

county with criminal record and exemption authority pursuant to these sections.

(B) With respect to notifications issued by the Department of Justice pursuant to Section 11105.2 of the Penal Code concerning an individual whose criminal record clearance was originally processed by a county child welfare agency with criminal record clearance and exemption authority, the Department of Justice shall process a request from a county child welfare agency with criminal record and exemption authority to receive the notice only if all of the following conditions are met:

(i) The request shall be submitted to the Department of Justice by the agency to be substituted to receive the notification.

(ii) The request shall be for the same applicant type as the type for which the original clearance was obtained.

(iii) The request shall contain all prescribed data elements and format protocols pursuant to a written agreement between the State Department of Social Services and the Department of Justice.

(i) The full criminal record obtained for purposes of this section may be used by the department or by a licensed adoption agency as a clearance required for adoption purposes.

(j) If a licensee or facility is required by law to deny employment or to terminate employment of any employee based on written notification from the state department that the employee has a prior criminal conviction or is determined unsuitable for employment under Section 1558, the licensee or facility shall not incur civil liability or unemployment insurance liability as a result of that denial or termination.

(k) The State Department of Social Services may charge a fee for the costs of processing electronic fingerprint images and related information.

(*l*) Amendments to this section made in the 1999 portion of the 1999–2000 Regular Session shall be implemented commencing 60 days after the effective date of the act amending this section in the 1999 portion of the 1999–2000 Regular Session, except that those provisions for the submission of fingerprints for searching the records of the Federal Bureau of Investigation shall be implemented 90 days after the effective date of that act.

(a) Prior to granting a license to, or otherwise approving, any individual to care for or reside with children, the department shall check the Child Abuse Central Index pursuant to paragraph (4) of subdivision (b) of Section 11170 of the Penal Code. The Department of Justice shall maintain and continually update an index of reports of child abuse by providers and shall inform the department of subsequent reports received from the Child Abuse Central Index pursuant to Section 11170

of the Penal Code and the criminal history. The department shall investigate any reports received from the Child Abuse Central Index. The investigation shall include, but not be limited to, the review of the investigation report and file prepared by the child protective agency which investigated the child abuse report. The department shall not deny a license based upon a report from the Child Abuse Central Index unless child abuse or severe neglect is substantiated.

(b) For any application received on or after January 1, 2008, if any prospective licensed or certified foster parent, or adoptive parent, or any person 18 years of age or older residing in their household, has lived in another state in the preceding five years, the licensing agency or licensed adoption agency shall check that state's child abuse and neglect registry, in addition to checking the Child Abuse Central Index as provided for in subdivision (a). The department, in consultation with the County Welfare Directors Association, shall develop and promulgate the process and criteria to be used to review and consider other states' findings of child abuse or neglect.

(c) If any person in the household is 18 years of age or older and has lived in another state in the preceding five years, the department or its designated representative shall check the other state's child abuse and neglect registry to the same extent required for federal funding, in addition to checking the Child Abuse Central Index as provided for in subdivision (a), prior to granting a license to, or otherwise approving, any foster family home, certified family home, or person for whom an adoption home study is conducted or who has filed to adopt.

SEC. 6. Section 1524 of the Health and Safety Code is amended to read:

1524. A license shall be forfeited by operation of law when one of the following occurs:

(b) The licensee surrenders the license to the department.

(c) (1) The licensee moves a facility from one location to another. The department shall develop regulations to ensure that the facilities are not charged a full licensing fee and do not have to complete the entire application process when applying for a license for the new location.

(2) This subdivision shall not apply to a licensed foster family home, a home certified by a licensed foster family agency, or a home approved pursuant to Sections 309, 361.4, and 361.45 of the Welfare and Institutions Code. When a foster family home licensee, certified home parent, or a person approved to care for children pursuant to Sections

309, 361.4, and 361.45 of the Welfare and Institutions Code moves to a new location, the existing license, certification, or approval may be transferred to the new location. All caregivers to whom this paragraph applies shall be required to meet all applicable licensing laws and regulations at the new location.

(d) The licensee is convicted of an offense specified in Section 220, 243.4, or 264.1, or paragraph (1) of Section 273a, Section 273d, 288, or 289 of the Penal Code, or is convicted of another crime specified in subdivision (c) of Section 667.5 of the Penal Code.

(e) The licensee dies. If an adult relative notifies the department of his or her desire to continue operation of the facility and submits an application, the department shall expedite the application. The department shall promulgate regulations for expediting applications submitted pursuant to this subdivision.

(f) The licensee abandons the facility.

(g) When the certification issued by the State Department of Developmental Services to a licensee of an Adult Residential Facility for Persons with Special Health Care Needs, licensed pursuant to Article 9 (commencing with Section 1567.50), is rescinded.

(a) Proceedings for the suspension, revocation, or denial of a license, registration, special permit, or any administrator certificate under this chapter, or denial of transfer of a license pursuant to paragraph (2) of subdivision (c) of Section 1524, shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted by those provisions. In the event of conflict between this chapter and the Government Code, the Government Code shall prevail.

(b) In all proceedings conducted in accordance with this section, the standard of proof to be applied shall be by the preponderance of the evidence.

(c) If the license is not temporarily suspended pursuant to Section 1550, the hearing shall be held within 90 calendar days after receipt of the notice of defense, unless a continuance of the hearing is granted by the department or the administrative law judge. When the matter has been set for hearing only the administrative law judge may grant a continuance of the hearing. The administrative law judge may, but need not, grant a continuance of the hearing only upon finding the existence of one or more of the following:

(1) The death or incapacitating illness of a party, a representative or attorney of a party, a witness to an essential fact, or of the parent, child, or member of the household of such person, when it is not feasible to substitute another representative, attorney, or witness because of the proximity of the hearing date.

(2) Lack of notice of hearing as provided in Section 11509 of the Government Code.

(3) A material change in the status of the case where a change in the parties or pleadings requires postponement, or an executed settlement or stipulated findings of fact obviate the need for hearing. A partial amendment of the pleadings shall not be good cause for continuance to the extent that the unamended portion of the pleadings is ready to be heard.

(4) A stipulation for continuance signed by all parties or their authorized representatives, including, but not limited to, a representative, which is communicated with the request for continuance to the administrative law judge no later than 25 business days before the hearing.

(5) The substitution of the representative or attorney of a party upon showing that the substitution is required.

(6) The unavailability of a party, representative, or attorney of a party, or witness to an essential fact due to a conflicting and required appearance in a judicial matter if when the hearing date was set, the person did not know and could neither anticipate nor at any time avoid the conflict, and the conflict with request for continuance is immediately communicated to the administrative law judge.

(7) The unavailability of a party, a representative or attorney of a party, or a material witness due to an unavoidable emergency.

(8) Failure by a party to comply with a timely discovery request if the continuance request is made by the party who requested the discovery.

(7) Hospital scan teams. As used in this paragraph, "hospital scan team" means a team of three or more persons established by a hospital, or two or more hospitals in the same county, consisting of health care

professionals and representatives of law enforcement and child protective services, the members of which are engaged in the identification of child abuse or neglect. The disclosure authorized by this section includes disclosure among all hospital scan teams.

(8) Coroners and medical examiners when conducting a post mortem examination of a child.

(9) The Board of Parole Hearings, which may subpoena an employee of a county welfare department who can provide relevant evidence and reports that both (A) are not unfounded, pursuant to Section 11165.12, and (B) concern only the current incidents upon which parole revocation proceedings are pending against a parolee charged with child abuse or neglect. The reports and information shall be confidential pursuant to subdivision (d) of Section 11167.

The request shall be signed by the department supervisor of the requesting law enforcement agency. The written request shall cite the out-of-state statute or interstate compact provision that requires that the information contained within these reports is to be disclosed only to law enforcement, prosecutorial entities, or multidisciplinary investigative teams, and shall cite the safeguards in place to prevent unlawful disclosure provided by the requesting state or the applicable interstate compact provision.

(13) Out-of-state agencies responsible for approving prospective foster or adoptive parents for placement of a child only when the agency

Any information received pursuant to this subdivision is protected by subdivision (e).

(d) Nothing in this section requires the Department of Justice to disclose information contained in records maintained under Section 11170 or under the regulations promulgated pursuant to Section 11174, except as otherwise provided in this article.

(e) This section shall not be interpreted to allow disclosure of any reports or records relevant to the reports of child abuse or neglect if the disclosure would be prohibited by any other provisions of state or federal law applicable to the reports or records relevant to the reports of child abuse or neglect.

SEC. 10. Section 11170 of the Penal Code is amended to read:

11170. (a) (1) The Department of Justice shall maintain an index of all reports of child abuse and severe neglect submitted pursuant to Section 11169. The index shall be continually updated by the department and shall not contain any reports that are determined to be unfounded. The department may adopt rules governing recordkeeping and reporting pursuant to this article.

(2) The department shall act only as a repository of reports of suspected child abuse and severe neglect to be maintained in the Child Abuse Central Index pursuant to paragraph (1). The submitting agencies are responsible for the accuracy, completeness, and retention of the reports described in this section. The department shall be responsible for ensuring that the Child Abuse Central Index accurately reflects the report it receives from the submitting agency.

(3) Information from an inconclusive or unsubstantiated report filed pursuant to subdivision (a) of Section 11169 shall be deleted from the Child Abuse Central Index after 10 years if no subsequent report concerning the same suspected child abuser is received within that time period. If a subsequent report is received within that 10-year period, information from any prior report, as well as any subsequently filed report, shall be maintained on the Child Abuse Central Index for a period of 10 years from the time the most recent report is received by the department.

(b) (1) The Department of Justice shall immediately notify an agency that submits a report pursuant to Section 11169, or a prosecutor who requests notification, of any information maintained pursuant to subdivision (a) that is relevant to the known or suspected instance of child abuse or severe neglect reported by the agency. The agency shall make that information available to the reporting medical practitioner, child custodian, guardian ad litem appointed under Section 326, or counsel appointed under Section 317 or 318 of the Welfare and Institutions Code, or the appropriate licensing agency, if he or she is treating or investigating a case of known or suspected child abuse or severe neglect.

(3) The Department of Justice shall make available to a law enforcement agency, county welfare department, or county probation department that is conducting a child abuse investigation, relevant information contained in the index.

(4) The department shall make available to the State Department of Social Services, or to any county licensing agency that has contracted with the state for the performance of licensing duties, or to a tribal court or tribal child welfare agency of a tribe or consortium of tribes that has entered into an agreement with the state pursuant to Section 10553.1 of the Welfare and Institutions Code, information regarding a known or

suspected child abuser maintained pursuant to this section and subdivision (a) of Section 11169 concerning any person who is an applicant for licensure or any adult who resides or is employed in the home of an applicant for licensure or who is an applicant for employment in a position having supervisorial or disciplinary power over a child or children, or who will provide 24-hour care for a child or children in a residential home or facility, pursuant to Section 1522.1 or 1596.877 of the Health and Safety Code, or Section 8714, 8802, 8912, or 9000 of the Family Code.

SEC. 11. Section 309 of the Welfare and Institutions Code is amended to read:

309. (a) Upon delivery to the social worker of a child who has been taken into temporary custody under this article, the social worker shall immediately investigate the circumstances of the child and the facts surrounding the child's being taken into custody and attempt to maintain the child with the child's family through the provision of services. The social worker shall immediately release the child to the custody of the child's parent, guardian, or responsible relative unless one or more of the following conditions exist:

(1) The child has no parent, guardian, or responsible relative; or the child's parent, guardian, or responsible relative is not willing to provide care for the child.

(2) Continued detention of the child is a matter of immediate and urgent necessity for the protection of the child and there are no reasonable means by which the child can be protected in his or her home or the home of a responsible relative.

(3) There is substantial evidence that a parent, guardian, or custodian of the child is likely to flee the jurisdiction of the court.

(4) The child has left a placement in which he or she was placed by the juvenile court.

(5) The parent or other person having lawful custody of the child voluntarily surrendered physical custody of the child pursuant to Section 1255.7 of the Health and Safety Code and did not reclaim the child within the 14-day period specified in subdivision (e) of that section.

(b) In any case in which there is reasonable cause for believing that a child who is under the care of a physician or surgeon or a hospital, clinic, or other medical facility and cannot be immediately moved and is a person described in Section 300, the child shall be deemed to have been taken into temporary custody and delivered to the social worker for the purposes of this chapter while the child is at the office of the physician or surgeon or the medical facility.

(c) If the child is not released to his or her parent or guardian, the child shall be deemed detained for purposes of this chapter.

(d) (1) If an able and willing relative, as defined in Section 319, or an able and willing nonrelative extended family member, as defined in Section 362.7, is available and requests temporary placement of the child pending the detention hearing, the county welfare department shall initiate an assessment of the relative's or nonrelative extended family member's suitability, which shall include an in-home inspection to assess the safety of the home and the ability of the relative or nonrelative extended family member to care for the child's needs, and a consideration of the results of a criminal records check conducted pursuant to subdivision (a) of Section 16504.5 and a check of allegations of prior child abuse or neglect concerning the relative or nonrelative extended

family member and other adults in the home. Upon completion of this assessment, the child may be placed in the assessed home. For purposes of this paragraph, and except for the criminal records check conducted pursuant to subdivision (a) of Section 16504.5, the standards used to determine suitability shall be the same standards set forth in the regulations for the licensing of foster family homes.

(2) Immediately following the placement of a child in the home of a relative or a nonrelative extended family member, the county welfare department shall evaluate and approve or deny the home for purposes of AFDC-FC eligibility pursuant to Section 11402. The standards used to evaluate and grant or deny approval of the home of the relative and of the home of a nonrelative extended family member, as described in Section 362.7, shall be the same standards set forth in regulations for the licensing of foster family homes which prescribe standards of safety and sanitation for the physical plant and standards for basic personal care, supervision, and services provided by the caregiver.

(3) To the extent allowed by federal law, as a condition of receiving funding under Title IV-E of the federal Social Security Act (42 U.S.C. Sec. 670 et seq.), if a relative or nonrelative extended family member meets all other conditions for approval, except for the receipt of the Federal Bureau of Investigation's criminal history information for the relative or nonrelative extended family member, and other adults in the home, as indicated, the county welfare department may approve the home and document that approval, if the relative or nonrelative extended family member, and each adult in the home, has signed and submitted a statement that he or she has never been convicted of a crime in the United States, other than a traffic infraction as defined in paragraph (1) of subdivision (a) of Section 42001 of the Vehicle Code. If, after the approval has been granted, the department determines that the relative or nonrelative extended family member or other adult in the home has a criminal record, the approval may be terminated.

(4) If the criminal records check indicates that the person has been convicted of a crime for which the Director of Social Services cannot grant an exemption under Section 1522 of the Health and Safety Code, the child shall not be placed in the home. If the criminal records check indicates that the person has been convicted of a crime for which the Director of Social Services may grant an exemption under Section 1522 of the Health and Safety Code, the child shall not be placed in the home unless a criminal records exemption has been granted by the county based on substantial and convincing evidence to support a reasonable belief that the person with the criminal conviction is of such good character as to justify the placement and not present a risk of harm to the child.

SEC. 12. Section 361.4 of the Welfare and Institutions Code is amended to read:

361.4. (a) Prior to placing a child in the home of a relative, or the home of any prospective guardian or other person who is not a licensed or certified foster parent, the county social worker shall visit the home to ascertain the appropriateness of the placement.

(b) Whenever a child may be placed in the home of a relative, or the home of any prospective guardian or other person who is not a licensed or certified foster parent, the court or county social worker placing the child shall cause a state-level criminal records check to be conducted by an appropriate government agency through the California Law Enforcement Telecommunications System (CLETS) pursuant to Section 16504.5. The criminal records check shall be conducted with regard to all persons over 18 years of age living in the home, and on any other person over 18 years of age, other than professionals providing professional services to the child, known to the placing entity who may have significant contact with the child, including any person who has a familial or intimate relationship with any person living in the home. A criminal records check may be conducted pursuant to this section on any person over 14 years of age living in the home who the county social worker believes may have a criminal record. Within 10 calendar days following the criminal records check conducted through the California Law Enforcement Telecommunications System, the social worker shall ensure that a fingerprint clearance check of the relative and any other person whose criminal record was obtained pursuant to this subdivision is initiated through the Department of Justice to ensure the accuracy of the criminal records check conducted through the California Law Enforcement Telecommunications System and shall review the results of any criminal records check to assess the safety of the home. The Department of Justice shall forward fingerprint requests for federal-level criminal history information to the Federal Bureau of Investigation pursuant to this section.

(c) Whenever a child may be placed in the home of a relative, or a prospective guardian or other person who is not a licensed or certified foster parent, the county social worker shall cause a check of the Child Abuse Central Index pursuant to subdivision (a) of Section 11170 of the Penal Code to be requested from the Department of Justice. The Child Abuse Central Index check shall be conducted on all persons over 18 years of age living in the home. For any application received on or after January 1, 2008, if any person in the household is 18 years of age or older and has lived in another state in the preceding five years, the county social worker shall check the other state's child abuse and neglect registry to the extent required by federal law.

(d) (1) If the results of the California and federal criminal records check indicates that the person has no criminal record, the county social worker and court may consider the home of the relative, prospective guardian, or other person who is not a licensed or certified foster parent for placement of a child.

(2) If the criminal records check indicates that the person has been convicted of a crime that the Director of Social Services cannot grant an exemption for under Section 1522 of the Health and Safety Code, the child may not be placed in the home. If the criminal records check indicates that the person has been convicted of a crime that the Director of Social Services may grant an exemption for under Section 1522 of the Health and Safety Code, the child may not be placed in the home unless a criminal records exemption has been granted by the county, based on substantial and convincing evidence to support a reasonable belief that the person with the criminal conviction is of such good character as to justify the placement and not present a risk of harm to the child pursuant to paragraph (3).

(3) (A) A county may issue a criminal records exemption only if that county has been granted permission by the Director of Social Services to issue criminal records exemptions. The county may file a request with the Director of Social Services seeking permission for the county to establish a procedure to evaluate and grant appropriate individual criminal records exemptions for persons described in subdivision (b). The director shall grant or deny the county's request within 14 days of receipt. The county shall evaluate individual criminal records in accordance with the standards and limitations set forth in paragraph (1) of subdivision (g) of Section 1522 of the Health and Safety Code, and in no event shall the county place a child in the home of a person who is ineligible for an exemption under that provision.

(B) The department shall monitor county implementation of the authority to grant an exemption under this paragraph to ensure that the county evaluates individual criminal records and allows or disallows placements according to the standards set forth in paragraph (1) of subdivision (g) of Section 1522 of the Health and Safety Code.

(4) The department shall conduct an evaluation of the implementation of paragraph (3) through random sampling of county exemption decisions.

(5) The State Department of Social Services shall not evaluate or grant criminal records exemption requests for persons described in subdivision (b), unless the exemption request is made by an Indian tribe pursuant to subdivision (f).

(6) If a county has not requested, or has not been granted, permission by the State Department of Social Services to establish a procedure to

evaluate and grant criminal records exemptions, the county may not place a child into the home of a person described in subdivision (b) if any person residing in the home has been convicted of a crime other than a minor traffic violation, except as provided in subdivision (f).

(e) Nothing in this section shall preclude a county from conducting a criminal background check that the county is otherwise authorized to conduct using fingerprints.

(f) Upon request from an Indian tribe, the State Department of Social Services shall evaluate an exemption request, if needed, to allow placement into an Indian home that the tribe has designated for placement under the Indian Child Welfare Act (25 U.S.C. Sec. 1901 et seq.) that would otherwise be barred under this section. However, if the county with jurisdiction over the child that is the subject of the tribe's request has established an approved procedure pursuant to paragraph (3) of subdivision (d), the tribe may request that the county evaluate the exemption request. Once a tribe has elected to have the exemption request reviewed by either the State Department of Social Services or the county, the exemption decision may only be made by that entity. Nothing in this subdivision limits the duty of a county social worker to evaluate the home for placement or to gather information needed to evaluate an exemption request.

(g) This section shall remain in effect only until January 1, 2010, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2010, deletes or extends that date.

SEC. 13. Section 16501.1 of the Welfare and Institutions Code is amended to read:

16501.1. (a) (1) The Legislature finds and declares that the foundation and central unifying tool in child welfare services is the case plan.

(2) The Legislature further finds and declares that a case plan ensures that the child receives protection and safe and proper care and case management, and that services are provided to the child and parents or other caretakers, as appropriate, in order to improve conditions in the parent's home, to facilitate the safe return of the child to a safe home or the permanent placement of the child, and to address the needs of the child while in foster care.

(b) (1) A case plan shall be based upon the principles of this section and shall document that a preplacement assessment of the service needs of the child and family, and preplacement preventive services, have been provided, and that reasonable efforts to prevent out-of-home placement have been made.

(2) In determining the reasonable services to be offered or provided, the child's health and safety shall be the paramount concerns.

(3) Reasonable services shall be offered or provided to make it possible for a child to return to a safe home environment, unless, pursuant to subdivisions (b) and (e) of Section 361.5, the court determines that reunification services shall not be provided.

(4) If reasonable services are not ordered, or are terminated, reasonable efforts shall be made to place the child in a timely manner in accordance with the permanent plan and to complete all steps necessary to finalize the permanent placement of the child.

(c) (1) If out-of-home placement is used to attain case plan goals, the decision regarding choice of placement shall be based upon selection of a safe setting that is the least restrictive or most familylike and the most appropriate setting that is available and in close proximity to the parent's home, proximity to the child's school, consistent with the selection of the environment best suited to meet the child's special needs and best interests, or both. The selection shall consider, in order of priority, placement with relatives, tribal members, and foster family, group care, and residential treatment pursuant to Section 7950 of the Family Code.

(2) In addition to the requirements of paragraph (1), and taking into account other statutory considerations regarding placement, the selection of the most appropriate home that will meet the child's special needs and best interests shall also promote educational stability by taking into consideration proximity to the child's school attendance area.

(d) A written case plan shall be completed within a maximum of 60 days of the initial removal of the child or of the in-person response required under subdivision (f) of Section 16501 if the child has not been removed from his or her home, or by the date of the dispositional hearing pursuant to Section 358, whichever occurs first. The case plan shall be updated, as the service needs of the child and family dictate. At a minimum, the case plan shall be updated in conjunction with each status review hearing conducted pursuant to Section 366.21, and the hearing conducted pursuant to Section 366.26, but no less frequently than once every six months. Each updated case plan shall include a description of the services that have been provided to the child under the plan and an evaluation of the appropriateness and effectiveness of those services.

(1) It is the intent of the Legislature that extending the maximum time available for preparing a written case plan from 30 to 60 days will afford caseworkers time to actively engage families, and to solicit and integrate into the case plan the input of the child and the child's family, as well as the input of relatives and other interested parties.

(2) The extension of the maximum time available for preparing a written case plan from the 30 to 60 days shall be effective 90 days after the date that the department gives counties written notice that necessary

changes have been made to the Child Welfare Services Case Management System to account for the 60-day timeframe for preparing a written case plan.

(e) The child welfare services case plan shall be comprehensive enough to meet the juvenile court dependency proceedings requirements pursuant to Article 6 (commencing with Section 300) of Chapter 2 of Part 1 of Division 2.

(f) The case plan shall be developed as follows:

(1) The case plan shall be based upon an assessment of the circumstances that required child welfare services intervention. The child shall be involved in developing the case plan as age and developmentally appropriate.

(2) The case plan shall identify specific goals and the appropriateness of the planned services in meeting those goals.

(3) The case plan shall identify the original allegations of abuse or neglect, as defined in Article 2.5 (commencing with Section 11164) of Chapter 2 of Title 1 of Part 4 of the Penal Code, or the conditions cited as the basis for declaring the child a dependent of the court pursuant to Section 300, or all of these, and the other precipitating incidents that led to child welfare services intervention.

(4) The case plan shall include a description of the schedule of the social worker contacts with the child and the family or other caretakers. The frequency of these contacts shall be in accordance with regulations adopted by the State Department of Social Services. If the child has been placed in foster care out of state, the county social worker or a social worker on the staff of the social services agency in the state in which the child has been placed shall visit the child in a foster family home or the home of a relative, consistent with federal law and in accordance with the department's approved state plan. For children in out-of-state group home facilities, visits shall be conducted at least monthly, pursuant to Section 16516.5. At least once every six months, at the time of a regularly scheduled social worker contact with the foster child, the child's social worker shall inform the child of his or her rights as a foster child, as specified in Section 16001.9. The social worker shall provide the information to the child in a manner appropriate to the age or developmental level of the child.

(5) (A) When out-of-home services are used, the frequency of contact between the natural parents or legal guardians and the child shall be specified in the case plan. The frequency of those contacts shall reflect overall case goals, and consider other principles outlined in this section.

(B) Information regarding any court-ordered visitation between the child and the natural parents or legal guardians, and the terms and conditions needed to facilitate the visits while protecting the safety of

the child, shall be provided to the child's out-of-home caregiver as soon as possible after the court order is made.

(6) When out-of-home placement is made, the case plan shall include provisions for the development and maintenance of sibling relationships as specified in subdivisions (b), (c), and (d) of Section 16002. If appropriate, when siblings who are dependents of the juvenile court are not placed together, the social worker for each child, if different, shall communicate with each of the other social workers and ensure that the child's siblings are informed of significant life events that occur within their extended family. Unless it has been determined that it is inappropriate in a particular case to keep siblings informed of significant life events that occur within the extended family, the social worker shall determine the appropriate means and setting for disclosure of this information to the child commensurate with the child's age and emotional well-being. These significant life events shall include, but shall not be limited to, the following:

(A) The death of an immediate relative.

(B) The birth of a sibling.

(C) Significant changes regarding a dependent child, unless the child objects to the sharing of the information with his or her siblings, including changes in placement, major medical or mental health diagnoses, treatments, or hospitalizations, arrests, and changes in the permanent plan.

(7) If out-of-home placement is made in a foster family home, group home, or other child care institution that is either a substantial distance from the home of the child's parent or out of state, the case plan shall specify the reasons why that placement is in the best interest of the child. When an out-of-state group home placement is recommended or made, the case plan shall, in addition, specify compliance with Section 7911.1 of the Family Code.

(8) (A) If out-of-home services are used, or if parental rights have been terminated and the case plan is placement for adoption, the case plan shall include a recommendation regarding the appropriateness of unsupervised visitation between the child and any of the child's siblings. This recommendation shall include a statement regarding the child's and the siblings' willingness to participate in unsupervised visitation. If the case plan includes a recommendation for unsupervised sibling visitation, the plan shall also note that information necessary to accomplish this visitation has been provided to the child or to the child's siblings.

(B) Information regarding the schedule and frequency of the visits between the child and siblings, as well as any court-ordered terms and conditions needed to facilitate the visits while protecting the safety of

the child, shall be provided to the child's out-of-home caregiver as soon as possible after the court order is made.

(9) If out-of-home services are used and the goal is reunification, the case plan shall describe the services to be provided to assist in reunification and the services to be provided concurrently to achieve legal permanency if efforts to reunify fail. The plan shall also consider in-state and out-of-state placements, the importance of developing and maintaining sibling relationships pursuant to Section 16002, and the desire and willingness of the caregiver to provide legal permanency for the child if reunification is unsuccessful.

(10) If out-of-home services are used, the child has been in care for at least 12 months, and the goal is not adoptive placement, the case plan shall include documentation of the compelling reason or reasons why termination of parental rights is not in the child's best interest. A determination completed or updated within the past 12 months by the department when it is acting as an adoption agency or by a licensed adoption agency that it is unlikely that the child will be adopted, or that one of the conditions described in paragraph (1) of subdivision (c) of Section 366.26 applies, shall be deemed a compelling reason.

(11) (A) Parents and legal guardians shall have an opportunity to review the case plan, and to sign it whenever possible, and then shall receive a copy of the plan. In any voluntary service or placement agreement, the parents or legal guardians shall be required to review and sign the case plan. Whenever possible, parents and legal guardians shall participate in the development of the case plan.

(B) Parents and legal guardians shall be advised that, pursuant to Section 1228.1 of the Evidence Code, neither their signature on the child welfare services case plan nor their acceptance of any services prescribed in the child welfare services case plan shall constitute an admission of guilt or be used as evidence against the parent or legal guardian in a court of law. However, they shall also be advised that the parent's or guardian's failure to cooperate, except for good cause, in the provision of services specified in the child welfare services case plan may be used in any hearing held pursuant to Section 366.21 or 366.22 as evidence.

(12) A child shall be given a meaningful opportunity to participate in the development of the case plan and state his or her preference for foster care placement. A child who is 12 years of age or older and in a permanent placement shall also be given the opportunity to review the case plan, sign the case plan, and receive a copy of the case plan.

(13) The case plan shall be included in the court report and shall be considered by the court at the initial hearing and each review hearing. Modifications to the case plan made during the period between review hearings need not be approved by the court if the casework supervisor

for that case determines that the modifications further the goals of the plan. If out-of-home services are used with the goal of family reunification, the case plan shall consider and describe the application of subdivision (b) of Section 11203.

(14) If the case plan has as its goal for the child a permanent plan of adoption or placement in another permanent home, it shall include a statement of the child's wishes regarding their permanent placement plan and an assessment of those stated wishes. The agency shall also include documentation of the steps the agency is taking to find an adoptive family or other permanent living arrangements for the child; to place the child with an adoptive family, an appropriate and willing relative, a legal guardian, or in another planned permanent living arrangement; and to finalize the adoption or legal guardianship. At a minimum, the documentation shall include child-specific recruitment efforts, such as the use of state, regional, and national adoption exchanges, including electronic exchange systems, when the child has been freed for adoption.

(15) When appropriate, for a child who is 16 years of age or older, the case plan shall include a written description of the programs and services that will help the child, consistent with the child's best interests, prepare for the transition from foster care to independent living. The case plan shall be developed with the child and individuals identified as important to the child, and shall include steps the agency is taking to ensure that the child has a connection to a caring adult.

(g) If the court finds, after considering the case plan, that unsupervised sibling visitation is appropriate and has been consented to, the court shall order that the child or the child's siblings, the child's current caregiver, and the child's prospective adoptive parents, if applicable, be provided with information necessary to accomplish this visitation. This section does not require or prohibit the social worker's facilitation, transportation, or supervision of visits between the child and his or her siblings.

(h) The case plan documentation on sibling placements required under this section shall not require modification of existing case plan forms until the Child Welfare Services Case Management System is implemented on a statewide basis.

(i) When a child who is 10 years of age or older and who has been in out-of-home placement for six months or longer, the case plan shall include an identification of individuals, other than the child's siblings, who are important to the child and actions necessary to maintain the child's relationship with those individuals, provided that those relationships are in the best interest of the child. The social worker shall ask every child who is 10 years of age or older and who has been in out-of-home placement for six months or longer to identify individuals

other than the child's siblings who are important to the child, and may ask any other child to provide that information, as appropriate. The social worker shall make efforts to identify other individuals who are important to the child, consistent with the child's best interests.

(j) The child's caregiver shall be provided a copy of a plan outlining the child's needs and services.

(k) On or before June 30, 2008, the department, in consultation with the County Welfare Directors Association and other advocates, shall develop a comprehensive plan to ensure that 90 percent of foster children are visited by their caseworkers on a monthly basis by October 1, 2011, and that the majority of the visits occur in the residence of the child. The plan shall include any data reporting requirements necessary to comply with the provisions of the federal Child and Family Services Improvement Act of 2006 (Public Law 109-288).

(*l*) The implementation and operation of the amendments to subdivision (i) enacted at the 2005–06 Regular Session shall be subject to appropriation through the budget process and by phase, as provided in Section 366.35.

SEC. 10.5. Section 53601 of the Government Code is amended to read:

53601. This section shall apply to a local agency that is a city, a district, or other local agency that does not pool money in deposits or investments with other local agencies, other than local agencies that have the same governing body. However, Section 53635 shall apply to all local agencies that pool money in deposits or investments with other local agencies that have separate governing bodies. The legislative body of a local agency having money in a sinking fund or money in its treasury not required for the immediate needs of the local agency may invest any portion of the money that it deems wise or expedient in those investments set forth below. A local agency purchasing or obtaining any securities prescribed in this section, in a negotiable, bearer, registered, or nonregistered format, shall require delivery of the securities to the local agency, including those purchased for the agency by financial advisers, consultants, or managers using the agency's funds, by book entry, physical delivery, or by third-party custodial agreement. The transfer of securities to the counterparty bank's customer book entry account may be used for book entry delivery.

For purposes of this section, "counterparty" means the other party to the transaction. A counterparty bank's trust department or separate safekeeping department may be used for the physical delivery of the security if the security is held in the name of the local agency. Where this section specifies a percentage limitation for a particular category of investment, that percentage is applicable only at the date of purchase. Where this section does not specify a limitation on the term or remaining maturity at the time of the investment, no investment shall be made in any security, other than a security underlying a repurchase or reverse repurchase agreement or securities lending agreement authorized by this section, that at the time of the investment has a term remaining to maturity in excess of five years, unless the legislative body has granted express authority to make that investment either specifically or as a part of an investment program approved by the legislative body no less than three months prior to the investment:

(a) Bonds issued by the local agency, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled,

or operated by the local agency or by a department, board, agency, or authority of the local agency.

(b) United States Treasury notes, bonds, bills, or certificates of indebtedness, or those for which the faith and credit of the United States are pledged for the payment of principal and interest.

(e) Bonds, notes, warrants, or other evidences of indebtedness of any local agency within this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency, or by a department, board, agency, or authority of the local agency.

(g) Bankers' acceptances otherwise known as bills of exchange or time drafts that are drawn on and accepted by a commercial bank. Purchases of bankers' acceptances may not exceed 180 days' maturity or 40 percent of the agency's money that may be invested pursuant to this section. However, no more than 30 percent of the agency's money may be invested in the bankers' acceptances of any one commercial bank pursuant to this section.

This subdivision does not preclude a municipal utility district from investing any money in its treasury in any manner authorized by the Municipal Utility District Act (Division 6 (commencing with Section 11501) of the Public Utilities Code).

(h) Commercial paper of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by a nationally recognized statistical-rating organization (NRSRO). (A) Is organized and operating in the United States as a general corporation.

(B) Has total assets in excess of five hundred million dollars ($500,000,000).

(C) Has debt other than commercial paper, if any, that is rated "A" or higher by a nationally recognized statistical-rating organization (NRSRO).

(2) The entity meets the following criteria:

(A) Is organized within the United States as a special purpose corporation, trust, or limited liability company.

(B) Has programwide credit enhancements including, but not limited to, overcollateralization, letters of credit, or surety bond.

(C) Has commercial paper that is rated "A-1" or higher, or the equivalent, by a nationally recognized statistical-rating organization (NRSRO).

Eligible commercial paper shall have a maximum maturity of 270 days or less. Local agencies, other than counties or a city and county, may invest no more than 25 percent of their money in eligible commercial paper. Local agencies, other than counties or a city and county, may purchase no more than 10 percent of the outstanding commercial paper of any single issuer. Counties or a city and county may invest in commercial paper pursuant to the concentration limits in subdivision (a) of Section 53635.

(i) Negotiable certificates of deposit issued by a nationally or state-chartered bank, a savings association or a federal association (as defined by Section 5102 of the Financial Code), a state or federal credit union, or by a state-licensed branch of a foreign bank. Purchases of negotiable certificates of deposit may not exceed 30 percent of the agency's money which may be invested pursuant to this section. For purposes of this section, negotiable certificates of deposit do not come within Article 2 (commencing with Section 53630), except that the amount so invested shall be subject to the limitations of Section 53638. The legislative body of a local agency and the treasurer or other official of the local agency having legal custody of the money are prohibited from investing local agency funds, or funds in the custody of the local agency, in negotiable certificates of deposit issued by a state or federal credit union if a member of the legislative body of the local agency, or any person with investment decisionmaking authority in the administrative office manager's office, budget office, auditor-controller's office, or treasurer's office of the local agency also serves on the board of directors, or any committee appointed by the board of directors, or the credit committee or the supervisory committee of the state or federal credit union issuing the negotiable certificates of deposit.

(j) (1) Investments in repurchase agreements or reverse repurchase agreements or securities lending agreements of any securities authorized

by this section, as long as the agreements are subject to this subdivision, including the delivery requirements specified in this section.

(2) Investments in repurchase agreements may be made, on any investment authorized in this section, when the term of the agreement does not exceed one year. The market value of securities that underlay a repurchase agreement shall be valued at 102 percent or greater of the funds borrowed against those securities and the value shall be adjusted no less than quarterly. Since the market value of the underlying securities is subject to daily market fluctuations, the investments in repurchase agreements shall be in compliance if the value of the underlying securities is brought back up to 102 percent no later than the next business day.

(3) Reverse repurchase agreements or securities lending agreements may be utilized only when all of the following conditions are met:

(A) The security to be sold on reverse repurchase agreement or securities lending agreement has been owned and fully paid for by the local agency for a minimum of 30 days prior to sale.

(B) The total of all reverse repurchase agreements and securities lending agreements on investments owned by the local agency does not exceed 20 percent of the base value of the portfolio.

(C) The agreement does not exceed a term of 92 days, unless the agreement includes a written codicil guaranteeing a minimum earning or spread for the entire period between the sale of a security using a reverse repurchase agreement or securities lending agreement and the final maturity date of the same security.

(D) Funds obtained or funds within the pool of an equivalent amount to that obtained from selling a security to a counterparty by way of a reverse repurchase agreement or securities lending agreement shall not be used to purchase another security with a maturity longer than 92 days from the initial settlement date of the reverse repurchase agreement or securities lending agreement, unless the reverse repurchase agreement or securities lending agreement includes a written codicil guaranteeing a minimum earning or spread for the entire period between the sale of a security using a reverse repurchase agreement or securities lending agreement and the final maturity date of the same security.

(4) (A) Investments in reverse repurchase agreements, securities lending agreements, or similar investments in which the local agency sells securities prior to purchase with a simultaneous agreement to repurchase the security may only be made upon prior approval of the governing body of the local agency and shall only be made with primary dealers of the Federal Reserve Bank of New York or with a nationally or state-chartered bank that has or has had a significant banking relationship with a local agency.

(B) For purposes of this chapter, "significant banking relationship" means any of the following activities of a bank:

(i) Involvement in the creation, sale, purchase, or retirement of a local agency's bonds, warrants, notes, or other evidence of indebtedness.

(ii) Financing of a local agency's activities.

(iii) Acceptance of a local agency's securities or funds as deposits.

(5) (A) "Repurchase agreement" means a purchase of securities by the local agency pursuant to an agreement by which the counterparty seller will repurchase the securities on or before a specified date and for a specified amount and the counterparty will deliver the underlying securities to the local agency by book entry, physical delivery, or by third-party custodial agreement. The transfer of underlying securities to the counterparty bank's customer book-entry account may be used for book-entry delivery.

(B) "Securities," for purpose of repurchase under this subdivision, means securities of the same issuer, description, issue date, and maturity.

(C) "Reverse repurchase agreement" means a sale of securities by the local agency pursuant to an agreement by which the local agency will repurchase the securities on or before a specified date and includes other comparable agreements.

(D) "Securities lending agreement" means an agreement under which a local agency agrees to transfer securities to a borrower who, in turn, agrees to provide collateral to the local agency. During the term of the agreement, both the securities and the collateral are held by a third party. At the conclusion of the agreement, the securities are transferred back to the local agency in return for the collateral.

(E) For purposes of this section, the base value of the local agency's pool portfolio shall be that dollar amount obtained by totaling all cash balances placed in the pool by all pool participants, excluding any amounts obtained through selling securities by way of reverse repurchase agreements, securities lending agreements, or other similar borrowing methods.

(F) For purposes of this section, the spread is the difference between the cost of funds obtained using the reverse repurchase agreement and the earnings obtained on the reinvestment of the funds.

(k) Medium-term notes, defined as all corporate and depository institution debt securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States. Notes eligible for investment under this subdivision shall be rated "A" or better by a nationally recognized rating service. Purchases of medium-term notes shall not include other instruments authorized by this section and may

not exceed 30 percent of the agency's money that may be invested pursuant to this section.

(*l*) (1) Shares of beneficial interest issued by diversified management companies that invest in the securities and obligations as authorized by subdivisions (a) to (k), inclusive, and subdivisions (m) to (o), inclusive, and that comply with the investment restrictions of this article and Article 2 (commencing with Section 53630). However, notwithstanding these restrictions, a counterparty to a reverse repurchase agreement or securities lending agreement is not required to be a primary dealer of the Federal Reserve Bank of New York if the company's board of directors finds that the counterparty presents a minimal risk of default, and the value of the securities underlying a repurchase agreement or securities lending agreement may be 100 percent of the sales price if the securities are marked to market daily.

(2) Shares of beneficial interest issued by diversified management companies that are money market funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (15 U.S.C. Sec. 80a-1 et seq.).

(A) Attained the highest ranking or the highest letter and numerical rating provided by not less than two nationally recognized statistical rating organizations.

(B) Retained an investment adviser registered or exempt from registration with the Securities and Exchange Commission with not less than five years' experience investing in the securities and obligations authorized by subdivisions (a) to (k), inclusive, and subdivisions (m) to (o), inclusive, and with assets under management in excess of five hundred million dollars ($500,000,000).

(4) If investment is in shares issued pursuant to paragraph (2), the company shall have met either of the following criteria:

(A) Attained the highest ranking or the highest letter and numerical rating provided by not less than two nationally recognized statistical rating organizations.

(B) Retained an investment adviser registered or exempt from registration with the Securities and Exchange Commission with not less than five years' experience managing money market mutual funds with assets under management in excess of five hundred million dollars ($500,000,000).

(5) The purchase price of shares of beneficial interest purchased pursuant to this subdivision shall not include any commission that the companies may charge and shall not exceed 20 percent of the agency's money that may be invested pursuant to this section. However, no more

than 10 percent of the agency's funds may be invested in shares of beneficial interest of any one mutual fund pursuant to paragraph (1).

(m) Moneys held by a trustee or fiscal agent and pledged to the payment or security of bonds or other indebtedness, or obligations under a lease, installment sale, or other agreement of a local agency, or certificates of participation in those bonds, indebtedness, or lease installment sale, or other agreements, may be invested in accordance with the statutory provisions governing the issuance of those bonds, indebtedness, or lease installment sale, or other agreement, or to the extent not inconsistent therewith or if there are no specific statutory provisions, in accordance with the ordinance, resolution, indenture, or agreement of the local agency providing for the issuance.

(n) Notes, bonds, or other obligations that are at all times secured by a valid first priority security interest in securities of the types listed by Section 53651 as eligible securities for the purpose of securing local agency deposits having a market value at least equal to that required by Section 53652 for the purpose of securing local agency deposits. The securities serving as collateral shall be placed by delivery or book entry into the custody of a trust company or the trust department of a bank that is not affiliated with the issuer of the secured obligation, and the security interest shall be perfected in accordance with the requirements of the Uniform Commercial Code or federal regulations applicable to the types of securities in which the security interest is granted.

Securities eligible for investment under this subdivision shall be issued by an issuer having an "A" or higher rating for the issuer's debt as provided by a nationally recognized rating service and rated in a rating category of "AA" or its equivalent or better by a nationally recognized rating service. Purchase of securities authorized by this subdivision may not exceed 20 percent of the agency's surplus money that may be invested pursuant to this section.

(p) Shares of beneficial interest issued by a joint powers authority organized pursuant to Section 6509.7 that invests in the securities and obligations authorized in subdivisions (a) to (o), inclusive. Each share shall represent an equal proportional interest in the underlying pool of securities owned by the joint powers authority. To be eligible under this section, the joint powers authority issuing the shares shall have retained an investment adviser that meets all of the following criteria:

(1) The adviser is registered or exempt from registration with the Securities and Exchange Commission.

However, Section 53601 shall apply to all local agencies that pool money in deposits or investments exclusively with local agencies that have the same governing body.

This section shall be interpreted in a manner that recognizes the distinct characteristics of investment pools and the distinct administrative burdens on managing and investing funds on a pooled basis pursuant to Article 6 (commencing with Section 27130) of Chapter 5 of Division 2 of Title 3.

A local agency that is a county, a city and county, or other local agency that pools money in deposits or investments with other agencies may invest in commercial paper pursuant to subdivision (h) of Section 53601, except that the local agency shall be subject to the following concentration limits:

(1) No more than 40 percent of the local agency's money may be invested in eligible commercial paper.

(2) No more than 10 percent of the total assets of the investments held by a local agency may be invested in any one issuer's commercial paper.

(b) Notwithstanding Section 53601, the City of Los Angeles shall be subject to the concentration limits of this section for counties and for cities and counties with regard to the investment of money in eligible commercial paper.

SEC. 10.9. Section 53635.8 of the Government Code is amended to read:

53635.8. Notwithstanding Section 53601 or any other provision of this code, a local agency, at its discretion, may invest a portion of its surplus funds in certificates of deposit at a commercial bank, savings bank, savings and loan association, or credit union that uses a private sector entity that assists in the placement of certificates of deposit, provided that the purchases of certificates of deposit pursuant to this section, Section 53601.8, and subdivision (i) of Section 53601 do not, in total, exceed 30 percent of the agency's funds that may be invested for this purpose. The following conditions shall apply:

(a) The local agency shall choose a nationally or state-chartered commercial bank, savings bank, savings and loan association, or credit union in this state to invest the funds, which shall be known as the "selected" depository institution.

(b) The selected depository institution may submit the funds to a private sector entity that assists in the placement of certificates of deposit with one or more commercial banks, savings banks, savings and loan associations, or credit unions that are located in the United States, for the local agency's account.

(c) The full amount of the principal and the interest that may be accrued during the maximum term of each certificate of deposit shall at all times be insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

(d) The selected depository institution shall serve as a custodian for each certificate of deposit that is issued with the placement service for the local agency's account.

(e) At the same time the local agency's funds are deposited and the certificates of deposit are issued, the selected depository institution shall receive an amount of deposits from other commercial banks, savings banks, savings and loan associations, or credit unions that, in total, are equal to, or greater than, the full amount of the principal that the local agency initially deposited through the selected depository institution for investment.

(f) A local agency may not invest surplus funds with a selected depository institution for placement as certificates of deposit pursuant to this section on or after January 1, 2012. A local agency's surplus funds, invested pursuant to this section before January 1, 2012, may remain invested in certificates of deposit issued through a private sector entity for the full term of each certificate of deposit.

(g) Notwithstanding subdivisions (a) to (f), inclusive, no credit union may act as a selected depository institution under this section or Section 53601.8 unless both of the following conditions are satisfied:

(1) The credit union offers federal depository insurance through the National Credit Union Administration.

(2) The credit union is in possession of written guidance or other written communication from the National Credit Union Administration authorizing participation of federally insured credit unions in one or more certificate of deposit placement services and affirming that the moneys held by those credit unions while participating in a deposit placement service will at all times be insured by the federal government.

(h) It is the intent of the Legislature that nothing in this section shall restrict competition among private sector entities that provide placement services pursuant to this section.

With respect to all securities held by the local agency, and under management of any outside party that is not also a local agency or the State of California Local Agency Investment Fund, the report shall also include a current market value as of the date of the report, and shall include the source of this same valuation.

(2) The quarterly report shall state compliance of the portfolio to the statement of investment policy, or manner in which the portfolio is not in compliance.

(3) The quarterly report shall include a statement denoting the ability of the local agency to meet its pool's expenditure requirements for the next six months, or provide an explanation as to why sufficient money shall, or may, not be available.

(4) In the quarterly report, a subsidiary ledger of investments may be used in accordance with accepted accounting practices.

(c) Pursuant to subdivision (b), the treasurer or chief fiscal officer shall report whatever additional information or data may be required by the legislative body of the local agency.

(f) The treasurer or chief fiscal officer shall not be required to render a quarterly report, as required by subdivision (b), to a legislative body or any oversight committee of a school district or county office of education for securities, investments, or moneys held by the school district or county office of education in individual accounts that are less than twenty-five thousand dollars ($25,000).

(g) The city, county, or city and county investor of any public funds, no later than 60 days after the close of the second quarter of each calendar year and 60 days after the subsequent amendments thereto, shall provide the statement of investment policy required pursuant to this section, to the California Debt and Investment Advisory Commission.

(h) In recognition of the state and local interests served by the actions made optional in subdivisions (a) and (b), the Legislature encourages the local agency officials to continue taking the actions formerly mandated by this section. However, nothing in this subdivision may be construed to impose any liability on a local agency that does not continue to take the formerly mandated action.

SEC. 12. Section 53839 of the Government Code is amended to read:

53839. A special district shall not issue any securitized limited obligation notes after December 31, 2014, unless a later enacted statute that is enacted before December 31, 2014, deletes or extends that date.

SEC. 12.3. Section 56425.5 of the Government Code is amended to read:

56425.5. (a) A determination of a city's sphere of influence, in any case where that sphere of influence includes any portion of the redevelopment project area referenced in subdivision (e) of Section 33492.41 of the Health and Safety Code, shall not preclude any other local agency, as defined in Section 54951, including the redevelopment agency referenced in Section 33492.41 of the Health and Safety Code, in addition to that city, from providing facilities or services related to

development to or in that portion of the redevelopment project area that, as of January 1, 2000, meets all of the following requirements:

(1) Is unincorporated territory.

(2) Contains at least 100 acres.

(3) Is surrounded or substantially surrounded by incorporated territory.

(4) Contains at least 100 acres zoned for commercial or industrial uses or is designated on the applicable county general plan for commercial or industrial uses.

(b) Facilities or services related to development may be provided by other local agencies to all or any portion of the area defined in paragraphs (1) to (4), inclusive, of subdivision (a). Subdivision (a) shall apply regardless of whether the determination of the sphere of influence is made before or after January 1, 2000.

SEC. 12.5. Section 65863 of the Government Code is amended to read:

65863. (a) Each city, county, or city and county shall ensure that its housing element inventory described in paragraph (3) of subdivision (a) of Section 65583 or its housing element program to make sites available pursuant to paragraph (1) of subdivision (c) of Section 65583 can accommodate its share of the regional housing need pursuant to Section 65584, throughout the planning period.

(b) No city, county, or city and county shall, by administrative, quasi-judicial, legislative, or other action, reduce, or require or permit the reduction of, the residential density for any parcel to, or allow development of any parcel at, a lower residential density, as defined in paragraphs (1) and (2) of subdivision (g), unless the city, county, or city and county makes written findings supported by substantial evidence of both of the following:

(1) The reduction is consistent with the adopted general plan, including the housing element.

(2) The remaining sites identified in the housing element are adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584.

(c) If a reduction in residential density for any parcel would result in the remaining sites in the housing element not being adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584, the jurisdiction may reduce the density on that parcel if it identifies sufficient additional, adequate, and available sites with an equal or greater residential density in the jurisdiction so that there is no net loss of residential unit capacity.

(d) The requirements of this section shall be in addition to any other law that may restrict or limit the reduction of residential density.

(e) This section requires that a city, county, or city and county be solely responsible for compliance with this section, unless a project applicant requests in his or her initial application, as submitted, a density that would result in the remaining sites in the housing element not being adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584. In that case, the city, county, or city and county may require the project applicant to comply with this section. The submission of an application for purposes of this subdivision does not depend on the application being deemed complete or being accepted by the city, county, or city and county.

(f) This section shall not be construed to apply to parcels that, prior to January 1, 2003, were either (1) subject to a development agreement, or (2) parcels for which an application for a subdivision map had been submitted.

(g) (1) If the local jurisdiction has adopted a housing element for the current planning period that is in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3, for purposes of this section, "lower residential density" means the following:

(A) For sites zoned for residential use and identified in the local jurisdiction's housing element inventory described in paragraph (3) of subdivision (a) of Section 65583, a density below the density used in the inventory to determine the total housing unit capacity.

(B) For sites that have been or will be rezoned pursuant to the local jurisdiction's housing element program described in paragraph (1) of subdivision (c) of Section 65583, a density below the density used to determine the housing unit capacity of the rezoned site.

(2) If the local jurisdiction has not adopted a housing element for the current planning period within 90 days of the deadline established by Section 65588 for purposes of this section, or the adopted housing element is not in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3 within 180 days of the deadline established by Section 65588, "lower residential density" means a density that is lower than 80 percent of the maximum allowable residential density for that parcel. For the purposes of this paragraph, if the council of governments fails to complete a final housing need allocation pursuant to the deadlines established by Section 65584.05, the deadline for adoption of the housing element and determining substantial compliance shall be extended by a time period equal to the delay incurred by the council of governments in completing the final housing need allocation.

SEC. 12.7. Section 65863 of the Government Code is amended to read:

65863. (a) Each city, county, or city and county shall ensure that its housing element inventory described in paragraph (3) of subdivision (a)

of Section 65583 or its housing element program to make sites available pursuant to paragraph (1) of subdivision (c) of Section 65583 can accommodate its share of the regional housing need pursuant to Section 65584, throughout the planning period.

(b) No city, county, or city and county shall, by administrative, quasi-judicial, legislative, or other action, reduce, or require or permit the reduction of, the residential density for any parcel to, or allow development of any parcel at, a lower residential density, as defined in paragraphs (1) and (2) of subdivision (g), unless the city, county, or city and county makes written findings supported by substantial evidence of both of the following:

(1) The reduction is consistent with the adopted general plan, including the housing element.

(2) The remaining sites identified in the housing element are adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584.

(c) If a reduction in residential density for any parcel would result in the remaining sites in the housing element not being adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584, the jurisdiction may reduce the density on that parcel if it identifies sufficient additional, adequate, and available sites with an equal or greater residential density in the jurisdiction so that there is no net loss of residential unit capacity.

(d) The requirements of this section shall be in addition to any other law that may restrict or limit the reduction of residential density.

(e) This section requires that a city, county, or city and county be solely responsible for compliance with this section, unless a project applicant requests in his or her initial application, as submitted, a density that would result in the remaining sites in the housing element not being adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584. In that case, the city, county, or city and county may require the project applicant to comply with this section. The submission of an application for purposes of this subdivision does not depend on the application being deemed complete or being accepted by the city, county, or city and county.

(f) This section shall not be construed to apply to parcels that, prior to January 1, 2003, were either (1) subject to a development agreement, or (2) parcels for which an application for a subdivision map had been submitted.

(g) (1) If the local jurisdiction has adopted a housing element for the current planning period that is in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3, for purposes of this section, "lower residential density" means the following:

(A) For sites on which the zoning designation permits residential use and that are identified in the local jurisdiction's housing element inventory described in paragraph (3) of subdivision (a) of Section 65583, fewer units on the site than were projected by the jurisdiction to be accommodated on the site pursuant to subdivision (c) of Section 65583.2.

(B) For sites that have been or will be rezoned pursuant to the local jurisdiction's housing element program described in paragraph (1) of subdivision (c) of Section 65583, fewer units for the site than were projected to be developed on the site in the housing element program.

(2) (A) If the local jurisdiction has not adopted a housing element for the current planning period within 90 days of the deadline established by Section 65588 or the adopted housing element is not in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3 within 180 days of the deadline established by Section 65588, "lower residential density" means any of the following:

(i) For residentially zoned sites, a density that is lower than 80 percent of the maximum allowable residential density for that parcel.

(ii) For sites on which residential and nonresidential uses are permitted, a use that would result in the development of fewer than 80 percent of the number of residential units that would be allowed under the maximum residential density for the site.

(B) If the council of governments fails to complete a final housing need allocation pursuant to the deadlines established by Section 65584.05, then for purposes of this paragraph, the deadline pursuant to Section 65588 shall be extended by a time period equal to the number of days of delay incurred by the council of governments in completing the final housing need allocation.

SEC. 13. Section 66412 of the Government Code is amended to read:

66412. This division shall be inapplicable to any of the following:

(a) The financing or leasing of apartments, offices, stores, or similar space within apartment buildings, industrial buildings, commercial buildings, mobilehome parks, or trailer parks.

(b) Mineral, oil, or gas leases.

(c) Land dedicated for cemetery purposes under the Health and Safety Code.

(d) A lot line adjustment between four or fewer existing adjoining parcels, where the land taken from one parcel is added to an adjoining parcel, and where a greater number of parcels than originally existed is not thereby created, if the lot line adjustment is approved by the local agency, or advisory agency. A local agency or advisory agency shall limit its review and approval to a determination of whether or not the parcels resulting from the lot line adjustment will conform to the local general plan, any applicable specific plan, any applicable coastal plan,

and zoning and building ordinances. An advisory agency or local agency shall not impose conditions or exactions on its approval of a lot line adjustment except to conform to the local general plan, any applicable specific plan, any applicable coastal plan, and zoning and building ordinances, to require the prepayment of real property taxes prior to the approval of the lot line adjustment, or to facilitate the relocation of existing utilities, infrastructure, or easements. No tentative map, parcel map, or final map shall be required as a condition to the approval of a lot line adjustment. The lot line adjustment shall be reflected in a deed, which shall be recorded. No record of survey shall be required for a lot line adjustment unless required by Section 8762 of the Business and Professions Code.

(e) Boundary line or exchange agreements to which the State Lands Commission or a local agency holding a trust grant of tide and submerged lands is a party.

(f) Any separate assessment under Section 2188.7 of the Revenue and Taxation Code.

(g) Unless a parcel or final map was approved by the legislative body of a local agency, the conversion of a community apartment project, as defined in Section 1351 of the Civil Code, to a condominium, as defined in Section 783 of the Civil Code, but only if all of the following requirements are met:

(1) At least 75 percent of the units in the project were occupied by record owners of the project on March 31, 1982.

(2) A final or parcel map of the project was properly recorded, if the property was subdivided, as defined in Section 66424, after January 1, 1964, with all of the conditions of that map remaining in effect after the conversion.

(3) The local agency certifies that the above requirements were satisfied if the local agency, by ordinance, provides for that certification.

(4) Subject to compliance with subdivision (e) of Section 1351 of the Civil Code, all conveyances and other documents necessary to effectuate the conversion shall be executed by the required number of owners in the project as specified in the bylaws or other organizational documents. If the bylaws or other organizational documents do not expressly specify the number of owners necessary to execute the conveyances and other documents, a majority of owners in the project shall be required to execute the conveyances or other documents. Conveyances and other documents executed under the foregoing provisions shall be binding upon and affect the interests of all parties in the project.

(h) Unless a parcel or final map was approved by the legislative body of a local agency, the conversion of a stock cooperative, as defined in Section 1351 of the Civil Code, to a condominium, as defined in Section

783 of the Civil Code, but only if all of the following requirements are met:

(1) At least 51 percent of the units in the cooperative were occupied by stockholders of the cooperative on January 1, 1981, or individually owned by stockholders of the cooperative on January 1, 1981. As used in this paragraph, a cooperative unit is "individually owned" if and only if the stockholder of that unit owns or partially owns an interest in no more than one unit in the cooperative.

(2) No more than 25 percent of the shares of the cooperative were owned by any one person, as defined in Section 17, including an incorporator or director of the cooperative, on January 1, 1981.

(3) A person renting a unit in a cooperative shall be entitled at the time of conversion to all tenant rights in state or local law, including, but not limited to, rights respecting first refusal, notice, and displacement and relocation benefits.

(4) The local agency certifies that the above requirements were satisfied if the local agency, by ordinance, provides for that certification.

(5) Subject to compliance with subdivision (e) of Section 1351 of the Civil Code, all conveyances and other documents necessary to effectuate the conversion shall be executed by the required number of owners in the cooperative as specified in the bylaws or other organizational documents. If the bylaws or other organizational documents do not expressly specify the number of owners necessary to execute the conveyances and other documents, a majority of owners in the cooperative shall be required to execute the conveyances or other documents. Conveyances and other documents executed under the foregoing provisions shall be binding upon and affect the interests of all parties in the cooperative.

(i) The leasing of, or the granting of an easement to, a parcel of land, or any portion or portions thereof, in conjunction with the financing, erection, and sale or lease of a windpowered electrical generation device on the land, if the project is subject to discretionary action by the advisory agency or legislative body.

(j) The leasing or licensing of a portion of a parcel, or the granting of an easement, use permit, or similar right on a portion of a parcel, to a telephone corporation as defined in Section 234 of the Public Utilities Code, exclusively for the placement and operation of cellular radio transmission facilities, including, but not limited to, antennae support structures, microwave dishes, structures to house cellular communications transmission equipment, power sources, and other equipment incidental to the transmission of cellular communications, if the project is subject to discretionary action by the advisory agency or legislative body.

(k) Leases of agricultural land for agricultural purposes. As used in this subdivision, "agricultural purposes" means the cultivation of food or fiber, or the grazing or pasturing of livestock.

(*l*) The leasing of, or the granting of an easement to, a parcel of land, or any portion or portions thereof, in conjunction with the financing, erection, and sale or lease of a solar electrical generation device on the land, if the project is subject to review under other local agency ordinances regulating design and improvement or, if the project is subject to other discretionary action by the advisory agency or legislative body.

SEC. 14. Section 4730.11 of the Health and Safety Code is amended to read:

4730.11. (a) Notwithstanding any other provision of this article, the governing body of the Sacramento Area Sewer District, formerly known as the Sacramento County Sanitation District No. 1, shall be a board of directors composed of not less than five members.

(b) If the district includes no territory that is within a city, the Sacramento County Board of Supervisors shall be the board of directors of the district. If the district includes territory that is within a city, the board of directors shall be composed of the Sacramento County Board of Supervisors and a member of the governing body of each included city, appointed by that city's governing body.

(c) The governing body of each city located within the district may appoint one of its members to serve as an alternate to act in the absence, inability, or refusal to act, of its appointed member.

(d) (1) Each member or alternate member of the board of directors shall have one vote.

(2) Notwithstanding paragraph (1), if the members of the board of directors constitute an even number and if the vote is tied, the chairperson of the board of directors shall have an additional vote.

SEC. 15. Section 5474 of the Health and Safety Code is amended to read:

5474. An entity shall have the power by ordinance approved by two-thirds vote of the members of the legislative body thereof to fix fees or charges for the privilege of connecting to its sanitation or sewerage facilities and improvements constructed by the entity pursuant to Sections 5463 and 5464, to fix the time or times at which the fees or charges shall become due, to provide for the payment of the fees or charges prior to connection or in installments over a period of not to exceed 30 years, to provide the rate of interest, not to exceed 12 percent per annum, to be charged on the unpaid balance of the fees or charges, and to provide that the amount of the fees or charges and the interest thereon shall constitute a lien against the respective lots or parcels of land to which the facilities are connected at the time and in the manner specified in Sections 5473.5

and 5473.8. Prior to making the fees or charges a lien against the land, the legislative body shall give notice to the owners of the lots or parcels of land affected, and the notice shall set forth all of the following:

(a) The schedule of fees or charges to be imposed by the entity.

(b) A description of the property subject to the fees or charges, which description may be by reference to a plat or diagram on file in the office of the clerk of the legislative body, or to maps prepared in accordance with Section 327 of the Revenue and Taxation Code, and on file in the office of the county assessor.

(c) The time or times at which the fees or charges shall become due.

(d) The number of installments in which the fees or charges shall be payable.

(e) The rate of interest, not to exceed 12 percent per annum, to be charged on the unpaid balance of the fees or charges.

(f) That it is proposed that the fees or charges and interest thereon shall constitute a lien against the lots or parcels of land to which the facilities are furnished.

(g) The time and place at which the legislative body will hold a hearing at which persons may appear and present any and all objections they may have to the imposition of the fees or charges as a lien against the land.

SEC. 16. Section 33492.42 of the Health and Safety Code is amended to read:

33492.42. (a) The redevelopment agency referenced in Section 33492.41 may locate, construct, and maintain facilities and infrastructure for sewer and water pipelines or other facilities for sewer transmission and water supply or distribution systems along and across any street or public highway and on any lands that are now or hereafter owned by the state, for the purpose of providing facilities or services related to development to, or in that portion of, the redevelopment project area referenced in subdivision (e) of Section 33492.41 that, as of January 1, 2000, meets all of the following requirements:

(1) Is unincorporated territory.

(2) Contains at least 100 acres.

(3) Is surrounded or substantially surrounded by incorporated territory.

(4) Contains at least 100 acres zoned for commercial or industrial uses or is designated on the applicable county general plan for commercial or industrial uses.

(b) Facilities or services related to development may be provided by the redevelopment agency referenced in Section 33492.41 to all or any portion of the area defined in paragraphs (1) to (4), inclusive, of subdivision (a). Notwithstanding any other provision of the Government Code, building ordinances, zoning ordinances, and any other local

ordinances, rules, and regulations of a city or other political subdivision of the state shall not apply to the location, construction, or maintenance of facilities or services related to development pursuant to this section.

SEC. 16.5. Section 116183 of the Health and Safety Code is amended to read:

116183. (a) The Legislature finds and declares that cooperative agreements between the State Department of Public Health and local vector control districts help to ensure that all state and federal requirements regarding the use of pesticides are met and provide participating agencies with the flexibility to perform their legally mandated role to control mosquito and other public health vectors.

(b) To ensure public health and safety, any state or local agency responding to an outbreak of West Nile virus or other mosquito-borne disease with an abatement and surveillance program shall, and any federal agency so responding is encouraged to, contract with a local mosquito and vector control agency that is party to a cooperative agreement with the State Department of Public Health or shall consult directly with the State Department of Public Health to ensure that outbreak response is supervised appropriately and conducted by licensed personnel using sound integrated mosquito management techniques.

(c) For the purposes of this section, "outbreak" means the occurrence of cases of a disease or illness above the expected or baseline level, usually over a given period of time, in a geographic area or facility, or in a specific population group. The number of cases indicating the presence of an outbreak will vary according to the disease agent, size and type of population exposed, previous exposure to the agent, and the time and place of exposure.

(d) This section shall remain in effect only until January 1, 2011, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2011, deletes or extends that date.

SEC. 17. Section 36623 of the Streets and Highways Code is amended to read:

(b) If a city council proposes to levy a new or increased business assessment, the notice and protest and hearing procedure shall comply with Section 54954.6 of the Government Code, except that notice shall be mailed to the owners of the businesses proposed to be assessed. A protest may be made orally or in writing by any interested person. Every written protest shall be filed with the clerk at or before the time fixed for the public hearing. The city council may waive any irregularity in the form or content of any written protest. A written protest may be

withdrawn in writing at any time before the conclusion of the public hearing. Each written protest shall contain a description of the business in which the person subscribing the protest is interested sufficient to identify the business and, if a person subscribing is not shown on the official records of the city as the owner of the business, the protest shall contain or be accompanied by written evidence that the person subscribing is the owner of the business. A written protest which does not comply with this section shall not be counted in determining a majority protest. If written protests are received from the owners of businesses in the proposed district which will pay 50 percent or more of the assessments proposed to be levied and protests are not withdrawn so as to reduce the protests to less than 50 percent, no further proceedings to levy the proposed assessment against such businesses, as contained in the resolution of intention, shall be taken for a period of one year from the date of the finding of a majority protest by the city council.

SEC. 18. In enacting this act to repeal subdivision (e) of Section 65863 of the Government Code, the Legislature finds and declares that it is aware that a successful party may request a court to award attorney's fees pursuant to Section 1021.5 of the Code of Civil Procedure.

SEC. 19. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SEC. 20. Section 12.7 of this bill incorporates amendments to Section 65863 of the Government Code proposed by both this bill and AB 2069. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2009, (2) each bill amends Section 65863 of the Government Code, and (3) this bill is enacted after AB 2069, in which case Section 12.5 of this bill shall not become operative.

## CHAPTER 710

An act to amend Section 52052 of the Education Code, relating to school accountability.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 52052 of the Education Code is amended to read:

52052. (a) (1) The Superintendent, with approval of the state board, shall develop an Academic Performance Index (API) to measure the performance of schools, especially the academic performance of pupils.

(2) A school shall demonstrate comparable improvement in academic achievement as measured by the API by all numerically significant pupil subgroups at the school, including:

(A) Ethnic subgroups.

(B) Socioeconomically disadvantaged pupils.

(C) English language learners.

(D) Pupils with disabilities.

(3) (A) For purposes of this section, a numerically significant pupil subgroup is one that meets both of the following criteria:

(i) The subgroup consists of at least 50 pupils, each of whom has a valid test score.

(ii) The subgroup constitutes at least 15 percent of the total population of pupils at a school who have valid test scores.

(B) If a subgroup does not constitute 15 percent of the total population of pupils at a school who have valid test scores, the subgroup may constitute a numerically significant pupil subgroup if it has at least 100 valid test scores.

(C) For a school with an API score that is based on no fewer than 11 and no more than 99 pupils with valid test scores, numerically significant subgroups shall be defined by the Superintendent, with approval by the state board.

(4) The API shall consist of a variety of indicators currently reported to the department, including, but not limited to, the results of the achievement test administered pursuant to Section 60640, attendance rates for pupils in elementary schools, middle schools, and secondary schools, and the four-, five-, and six-year graduation rates for pupils in secondary schools.

(A) Graduation rates for pupils in secondary schools shall be calculated for the API as follows:

(i) Four-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be three school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (ii).

(ii) The number of pupils entering grade 9 for the first time in the school year three school years prior to the current school year, plus the

number of pupils who transferred into the class graduating at the end of the current school year between the school year that was three school years prior to the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was three school years prior to the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(iii) Five-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be four school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (iv).

(iv) The number of pupils entering grade 9 for the first time in the school year four years prior to the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was four school years prior to the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was four years prior to the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(v) Six-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be five school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (vi).

(vi) The number of pupils entering grade 9 for the first time in the school year five years prior to the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was five school years prior to the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was five years prior to the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(B) The inclusion of five- and six-year graduation rates for pupils in secondary schools shall meet the following requirements:

(i) Schools shall be granted one-half the credit in their API scores for graduating pupils in five years that they are granted for graduating pupils in four years.

(ii) Schools shall be granted one-quarter the credit in their API scores for graduating pupils in six years that they are granted for graduating pupils in four years.

(iii) Notwithstanding clauses (i) and (ii), schools shall be granted full credit in their API scores for graduating in five or six years a pupil with disabilities who graduates in accordance with his or her individualized education program (IEP).

(C) The pupil data collected for the API that comes from the achievement test administered pursuant to Sections 60640 and 60644 and the high school exit examination administered pursuant to Section 60851, when fully implemented, shall be disaggregated by special education status, English language learners, socioeconomic status, gender, and ethnic group. Only the test scores of pupils who were counted as part of the enrollment in the annual data collection of the California Basic Educational Data System for the current fiscal year and who continuously were enrolled during that year may be included in the test result reports in the API score of the school. Results of the achievement test and other tests specified in subdivision (b) shall constitute at least 60 percent of the value of the index.

(D) Before including high school graduation rates and attendance rates in the API, the Superintendent shall determine the extent to which the data are currently reported to the state and the accuracy of the data. Notwithstanding any other provision of law, graduation rates for pupils in dropout recovery high schools shall not be included in the API. For purposes of this subparagraph, "dropout recovery high school" means a high school in which 50 percent or more of its pupils have been designated as dropouts pursuant to the exit/withdrawal codes developed by the department.

(E) The Superintendent shall provide an annual report to the Legislature on the graduation and dropout rates in California and shall make the same report available to the public. The report shall be accompanied by the release of publicly accessible data for each school district and school in a manner that provides for disaggregation based upon socioeconomically disadvantaged pupils and numerically significant subgroups scoring below average on statewide standards-aligned assessments. In addition, the data shall be made available in a manner that provides for comparisons of a minimum of three years of data.

(b) Pupil scores from the following tests, when available and when found to be valid and reliable for this purpose, shall be incorporated into the API:

(1) The assessment of the applied academic skills matrix test developed pursuant to Section 60604.

(2) The nationally normed test designated pursuant to Section 60642.

(3) The standards-based achievement tests provided for in Section 60642.5.

(4) The high school exit examination.

(c) Based on the API, the Superintendent shall develop, and the state board shall adopt, expected annual percentage growth targets for all schools based on their API baseline score from the previous year. Schools are expected to meet these growth targets through effective allocation of available resources. For schools below the statewide API performance target adopted by the state board pursuant to subdivision (d), the minimum annual percentage growth target shall be 5 percent of the difference between the actual API score of a school and the statewide API performance target, or one API point, whichever is greater. Schools at or above the statewide API performance target shall have, as their growth target, maintenance of their API score above the statewide API performance target. However, the state board may set differential growth targets based on grade level of instruction and may set higher growth targets for the lowest performing schools because they have the greatest room for improvement. To meet its growth target, a school shall demonstrate that the annual growth in its API is equal to or more than its schoolwide annual percentage growth target and that all numerically significant pupil subgroups, as defined in subdivision (a), are making comparable improvement.

(d) Upon adoption of state performance standards by the state board, the Superintendent shall recommend, and the state board shall adopt, a statewide API performance target that includes consideration of performance standards and represents the proficiency level required to meet the state performance target. When the API is fully developed, schools, at a minimum, shall meet their annual API growth targets to be eligible for the Governor's Performance Award Program as set forth in Section 52057. The state board may establish additional criteria that schools must meet to be eligible for the Governor's Performance Award Program.

(e) The API shall be used for both of the following:

(1) Measuring the progress of schools selected for participation in the Immediate Intervention/Underperforming Schools Program pursuant to Section 52053.

(2) Ranking all public schools in the state for the purpose of the High Achieving/Improving Schools Program pursuant to Section 52056.

(f) (1) A school with 11 to 99 pupils with valid test scores shall receive an API score with an asterisk that indicates less statistical certainty than API scores based on 100 or more test scores.

(2) A school annually shall receive an API score, unless the Superintendent determines that an API score would be an invalid measure of the performance of the school for one or more of the following reasons:

(A) Irregularities in testing procedures occurred.

(B) The data used to calculate the API score of the school are not representative of the pupil population at the school.

(C) Significant demographic changes in the pupil population render year-to-year comparisons of pupil performance invalid.

(D) The department discovers or receives information indicating that the integrity of the API score has been compromised.

(E) Insufficient pupil participation in the assessments included in the API.

(3) If a school has fewer than 100 pupils with valid test scores, the calculation of the API or adequate yearly progress pursuant to the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.) and federal regulations may be calculated over more than one annual administration of the tests administered pursuant to Sections 60640 and 60644 and the high school exit examination administered pursuant to Section 60851, consistent with regulations adopted by the state board.

(g) Only schools with 100 or more test scores contributing to the API may be included in the API rankings.

(h) The Superintendent, with the approval of the state board, shall develop an alternative accountability system for schools under the jurisdiction of a county board of education or a county superintendent of schools, community day schools, nonpublic, nonsectarian schools pursuant to Section 56366, and alternative schools serving high-risk pupils, including continuation high schools and opportunity schools. Schools in the alternative accountability system may receive an API score, but shall not be included in the API rankings.

## CHAPTER 711

An act to amend Section 5096.501 of, and to add Sections 5096.517 and 5096.518 to, the Public Resources Code, relating to state lands.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5096.501 of the Public Resources Code is amended to read:

5096.501. For purposes of this chapter, the following terms have the following meanings:

(a) "Acquisition agency" means the Wildlife Conservation Board, the Department of Parks and Recreation, or a state conservancy.

(b) "Conservation lands" means any land or interest therein to be acquired by an acquisition agency, or that is owned by the state.

(c) "Major acquisition" means an acquisition where an agency proposes to spend more than twenty-five million dollars ($25,000,000) of state funds.

SEC. 2. Section 5096.517 is added to the Public Resources Code, to read:

5096.517. (a) The Department of General Services shall convene a workgroup to develop and adopt standards, subject to the approval of the Resources Agency, with respect to the acquisition of conservation lands. The workgroup shall not exceed six members and shall include, but not be limited to, representatives from all of the following:

(1) The Department of Parks and Recreation.

(2) The Wildlife Conservation Board.

(3) The State Coastal Conservancy and one or more other state conservancies with land acquisition responsibilities.

(b) The workgroup shall hold a public hearing to solicit public comments prior to the adoption of standards pursuant to subdivision (a).

(c) In developing standards for the appraisal of resource conservation acquisitions, including both direct and state-funded grant acquisitions, the Department of General Services and the workgroup shall consider, by January 1, 2010, all of the following:

(1) Qualifications of the appraiser, including, but not limited to, all of the following:

(A) The appraiser shall not engage in any appraisal activity in connection with the purchase, sale, transfer, financing, or development of real property if his or her compensation is dependent on or affected by the value determined by the appraisal.

(B) The appraiser shall be appropriately licensed by the Office of Real Estate Appraisers pursuant to Part 3 (commencing with Section 11300) of Division 4 of the Business and Professions Code.

(C) The appraisal shall be performed pursuant to the Uniform Standards of Professional Appraisal Practice.

(D) Any additional qualifications regarding education, certification, and years of experience deemed to be necessary by the Department of General Services and the workgroup.

(E) This paragraph does not limit the ability of a public agency to award a contract based on appraiser qualifications, including designations, experience, and other factors deemed necessary to perform an appraisal on a specific assignment, that exceed the qualifications of this paragraph.

(2) Appraisal methodology to be used.

(3) Scope of the analysis and level of information provided in the appraisal report, including, but not limited to, both of the following:

(A) Verifiable data on the development potential of the land, such as what would be required for a development project to proceed.

(B) Reports documenting suspected environmental contamination.

(4) Reference to comparable government and conservation transactions when available.

(5) Age of the appraisal or appraisal update to be reviewed by the department to keep an appraisal from being over one and one-half years old.

(6) Appraisal of conservation easements, using the information from the "Valuation of Conservation Easements Certificate Program" created by members of the Appraisal Foundation and the Land Trust Alliance as guidelines.

(7) Standards for the release of the appraisal review, including, but not limited to, both of the following:

(A) Guidelines to state resource agencies for public disclosure requirements.

(B) Improvement of the legislative notification process for better oversight, including, when requested by the Legislature, provision of a copy of the appraisal review for a major acquisition before the close of escrow.

SEC. 3. Section 5096.518 is added to the Public Resources Code, to read:

5096.518. For a charitable contribution claimed by a seller that is over five thousand dollars ($5,000) on conservation lands acquired using state funds, in order to substantiate the amount of the charitable contribution deduction claimed by the seller pursuant to Part 10 (commencing with Section 17001) or Part 11 (commencing with Section 23001) of Division 2 of the Revenue and Taxation Code, both of the following requirements shall apply:

(a) The seller shall attach to his or her California personal income tax return a copy of an appraisal of the charitable contribution, in accordance with subdivision (b).

(b) The appraisal attached to the return shall be prepared by an appraiser licensed by the Office of Real Estate Appraisers pursuant to Part 3 (commencing with Section 11300) of Division 4 of the Business and Professions Code and shall comply with the applicable requirements of the Revenue and Taxation Code and the Internal Revenue Code for purposes of substantiating the amount of the contribution for California income and franchise tax purposes and federal income tax purposes.

# CHAPTER 712

An act to amend Section 3509 of the Government Code, relating to the Public Employment Relations Board.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) In 2001, the Public Employment Relations Board (PERB) assumed jurisdiction over the resolution of unfair labor practice charges and representation disputes under the Meyers-Milias-Brown Act (MMBA) that may be filed by public employers or employees, excluding law enforcement officers and the City and County of Los Angeles.

(b) When transferring jurisdiction, the Legislature expressly recognized that such a transfer was not to supersede existing local ordinances or rules that provide for other methods of administering employer-employee relations.

(c) In recent years, the dispute resolution process under PERB has been used as a tool by some employers to impede or eliminate altogether the otherwise appropriate review of issues in an alternative forum adopted by voters.

(d) The valuable administrative remedies afforded by PERB are meant to amplify and not abrogate a party's right to settle bargaining or representation disputes. The MMBA itself is intended to strengthen the administration of employer-employee relations.

(e) While the Legislature provided for a remedy under PERB, the courts retain the role in determining the limits of PERB's jurisdiction.

(f) Although existing law permits PERB to rule on unfair labor practices, nowhere does existing law suggest that those rulings are to supersede voter-approved or other statutory remedies and, where PERB's jurisdiction over unfair labor practice charges may overlap with the statutory authority granted to other entities, the overlap should not remove the jurisdiction of other forums.

(g) In contrast to firefighter organizations, law enforcement organizations have been exempted from PERB's jurisdiction. Unlike law enforcement organizations, firefighter organizations have recently been prevented from employing other voter-adopted dispute resolution processes, which in effect changes the clear statutory language detailing PERB's jurisdiction. This disparity has resulted in the preservation of

procedural rights for law enforcement officers and the derailment of and eventual elimination of procedural rights for firefighters.

(h) The Legislature never intended, by exempting law enforcement organizations from the provisions of Senate Bill 739, enacted as Chapter 901 of the Statutes of 2000, to, by implication, eliminate for firefighters the locally enacted procedural protections enjoyed by both law enforcement and firefighters under those provisions.

SEC. 2. Section 3509 of the Government Code is amended to read:

3509. (a) The powers and duties of the board described in Section 3541.3 shall also apply, as appropriate, to this chapter and shall include the authority as set forth in subdivisions (b) and (c). Included among the appropriate powers of the board are the power to order elections, to conduct any election the board orders, and to adopt rules to apply in areas where a public agency has no rule.

(b) A complaint alleging any violation of this chapter or of any rules and regulations adopted by a public agency pursuant to Section 3507 or 3507.5 shall be processed as an unfair practice charge by the board. The initial determination as to whether the charge of unfair practice is justified and, if so, the appropriate remedy necessary to effectuate the purposes of this chapter, shall be a matter within the exclusive jurisdiction of the board. The board shall apply and interpret unfair labor practices consistent with existing judicial interpretations of this chapter.

(c) The board shall enforce and apply rules adopted by a public agency concerning unit determinations, representation, recognition, and elections.

(d) Notwithstanding subdivisions (a) to (c), inclusive, the employee relations commissions established by, and in effect for, the County of Los Angeles and the City of Los Angeles pursuant to Section 3507 shall have the power and responsibility to take actions on recognition, unit determinations, elections, and all unfair practices, and to issue determinations and orders as the employee relations commissions deem necessary, consistent with and pursuant to the policies of this chapter.

(e) Notwithstanding subdivisions (a) to (c), inclusive, consistent with, and pursuant to, the provisions of Sections 3500 and 3505.4, superior courts shall have exclusive jurisdiction over actions involving interest arbitration, as governed by Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure, when the action involves an employee organization that represents firefighters, as defined in Section 3251.

(f) This section shall not apply to employees designated as management employees under Section 3507.5.

(g) The board shall not find it an unfair practice for an employee organization to violate a rule or regulation adopted by a public agency if that rule or regulation is itself in violation of this chapter. This

subdivision shall not be construed to restrict or expand the board's jurisdiction or authority as set forth in subdivisions (a) to (c), inclusive.

## CHAPTER 713

An act to amend Sections 4033, 4034, 4162, 4162.5, and 4163 of, to add Sections 4034.1, 4044, 4045, 4163.1, 4163.2, 4163.3, and 4163.4 to, and to repeal and add Section 4163.5 of, the Business and Professions Code, relating to pharmacy.

[Approved by Governor September 30, 2008. Filed with Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 4033 of the Business and Professions Code is amended to read:

4033. (a) (1) "Manufacturer" means and includes every person who prepares, derives, produces, compounds, or repackages any drug or device except a pharmacy that manufactures on the immediate premises where the drug or device is sold to the ultimate consumer.

(2) Notwithstanding paragraph (1), "manufacturer" shall not mean a pharmacy compounding a drug for parenteral therapy, pursuant to a prescription, for delivery to another pharmacy for the purpose of delivering or administering the drug to the patient or patients named in the prescription, provided that neither the components for the drug nor the drug are compounded, fabricated, packaged, or otherwise prepared prior to receipt of the prescription.

(3) Notwithstanding paragraph (1), "manufacturer" shall not mean a pharmacy that, at a patient's request, repackages a drug previously dispensed to the patient, or to the patient's agent, pursuant to a prescription.

(b) Notwithstanding subdivision (a), as used in Sections 4034, 4163, 4163.1, 4163.2, 4163.3, 4163.4, and 4163.5, "manufacturer" means a person who prepares, derives, manufactures, produces, or repackages a dangerous drug, as defined in Section 4022, device, or cosmetic. Manufacturer also means the holder or holders of a New Drug Application (NDA), an Abbreviated New Drug Application (ANDA), or a Biologics License Application (BLA), provided that such application has been approved; a manufacturer's third party logistics provider; a private label distributor (including colicensed partners) for whom the private label distributor's prescription drugs are originally manufactured

and labeled for the distributor and have not been repackaged; or the distributor agent for the manufacturer, contract manufacturer, or private label distributor, whether the establishment is a member of the manufacturer's affiliated group (regardless of whether the member takes title to the drug) or is a contract distributor site.

SEC. 2. Section 4034 of the Business and Professions Code is amended to read:

4034. (a) "Pedigree" means a record, in electronic form, containing information regarding each transaction resulting in a change of ownership of a given dangerous drug, from sale by a manufacturer, through acquisition and sale by one or more wholesalers, manufacturers, repackagers, or pharmacies, until final sale to a pharmacy or other person furnishing, administering, or dispensing the dangerous drug. The pedigree shall be created and maintained in an interoperable electronic system, ensuring compatibility throughout all stages of distribution.

(b) A pedigree shall include all of the following information:

(1) The source of the dangerous drug, including the name, the federal manufacturer's registration number or a state license number as determined by the board, and principal address of the source.

(2) The trade or generic name of the dangerous drug, the quantity of the dangerous drug, its dosage form and strength, the date of the transaction, the sales invoice number or, if not immediately available, a customer-specific shipping reference number linked to the sales invoice number, the container size, the number of containers, the expiration dates, and the lot numbers.

(3) The business name, address, and the federal manufacturer's registration number or a state license number as determined by the board, of each owner of the dangerous drug, and the dangerous drug shipping information, including the name and address of each person certifying delivery or receipt of the dangerous drug.

(4) A certification under penalty of perjury from a responsible party of the source of the dangerous drug that the information contained in the pedigree is true and accurate.

(5) The unique identification number described in subdivision (i).

(c) A single pedigree shall include every change of ownership of a given dangerous drug from its initial manufacture through to its final transaction to a pharmacy or other person for furnishing, administering, or dispensing the drug, regardless of repackaging or assignment of another National Drug Code (NDC) Directory number. Dangerous drugs that are repackaged shall be serialized by the repackager and a pedigree shall be provided that references the pedigree of the original package or packages provided by the manufacturer.

(d) A pedigree shall track each dangerous drug at the smallest package or immediate container distributed by the manufacturer, received and distributed by the wholesaler or repackager, and received by the pharmacy or another person furnishing, administering, or dispensing the dangerous drug. For purposes of this section, the "smallest package or immediate container" of a dangerous drug shall include any dangerous drug package or container made available to a repackager, wholesaler, pharmacy, or other entity for repackaging or redistribution, as well as the smallest unit made by the manufacturer for sale to the pharmacy or other person furnishing, administering, or dispensing the drug.

(e) Any return of a dangerous drug to a wholesaler or manufacturer shall be documented on the same pedigree as the transaction that resulted in the receipt of the drug by the party returning it.

(f) If a licensed health care service plan, hospital organization, and one or more physician organizations have exclusive contractual relationships to provide health care services, drugs distributed between these persons shall be deemed not to have changed ownership.

(g) The following transactions are exempt from the pedigree requirement created by this section:

(1) An intracompany sale or transfer of a dangerous drug. For purposes of this section, "intracompany sale or transfer" means any transaction for any valid business purpose between a division, subsidiary, parent, or affiliated or related company under the common ownership and control of the same corporate or legal entity.

(2) Dangerous drugs received by the state or a local government entity from a department or agency of the federal government or an agent of the federal government specifically authorized to deliver dangerous drugs to the state or local government entity.

(3) The provision of samples of dangerous drugs by a manufacturer's employee to an authorized prescriber, provided the samples are dispensed to a patient of the prescriber without charge.

(4) (A) A sale, trade, or transfer of a radioactive drug, as defined in Section 1708.3 of Title 16 of the California Code of Regulations, between any two entities licensed by the Radiologic Health Branch of the State Department of Public Health, the federal Nuclear Regulatory Commission, or an Agreement state.

(B) The exemption in this paragraph shall remain in effect unless the board, no earlier than the date that is two years after the compliance date for manufacturers set forth in subdivision (k) of Section 4034 or Section 4163.5, determines after consultation with the Radiologic Health Branch of the State Department of Public Health that the risk of counterfeiting or diversion of a radioactive drug is sufficient to require a pedigree. Two

years following the date of any such determination, this paragraph shall become inoperative.

(5) The sale, trade, or transfer of a dangerous drug that is labeled by the manufacturer as "for veterinary use only."

(6) The sale, trade, or transfer of compressed medical gas. For purposes of this section, "compressed medical gas" means any substance in its gaseous or cryogenic liquid form that meets medical purity standards and has application in a medical or homecare environment, including, but not limited to, oxygen and nitrous oxide.

(7) The sale, trade, or transfer of solutions. For purposes of this section, "solutions" means any of the following:

(A) Those intravenous products that, by their formulation, are intended for the replenishment of fluids and electrolytes, such as sodium, chloride, and potassium, calories, such as dextrose and amino acids, or both.

(B) Those intravenous products used to maintain the equilibrium of water and minerals in the body, such as dialysis solutions.

(C) Products that are intended for irrigation or reconstitution, as well as sterile water, whether intended for those purposes or for injection.

(8) Dangerous drugs that are placed in a sealed package with a medical device or medical supplies at the point of first shipment into commerce by the manufacturer and the package remains sealed until the drug and device are used, provided that the package is only used for surgical purposes.

(9) A product that meets either of the following criteria:

(A) A product comprised of two or more regulated components, such as a drug/device, biologic/device, or drug/device/biologic, that are physically, chemically, or otherwise combined or mixed and produced as a single entity.

(B) Two or more separate products packaged together in a single package or as a unit and comprised of drug and device products or device and biological products.

(h) If a manufacturer, wholesaler, or pharmacy has reasonable cause to believe that a dangerous drug in, or having been in, its possession is counterfeit or the subject of a fraudulent transaction, the manufacturer, wholesaler, or pharmacy shall notify the board within 72 hours of obtaining that knowledge. This subdivision shall apply to any dangerous drug that has been sold or distributed in or through this state.

(i) "Interoperable electronic system" as used in this chapter means an electronic track and trace system for dangerous drugs that uses a unique identification number, established at the point of manufacture and supplemented by a linked unique identification number in the event that drug is repackaged, contained within a standardized nonproprietary data format and architecture, that is uniformly used by manufacturers,

wholesalers, repackagers, and pharmacies for the pedigree of a dangerous drug. No particular data carrier or other technology is mandated to accomplish the attachment of the unique identification number described in this subdivision.

(j) The application of the pedigree requirement shall be subject to review during the board's evaluation pursuant to Section 473.4.

(k) This section shall become operative on January 1, 2015.

SEC. 3. Section 4034.1 is added to the Business and Professions Code, to read:

4034.1. (a) (1) Upon the effective date of federal legislation or adoption of a federal regulation addressing pedigree or serialization measures for dangerous drugs, Sections 4034, 4163, 4163.1, 4163.2, 4163.4, and 4163.5 shall become inoperative.

(2) Within 90 days of the enactment of federal legislation or adoption of a regulation addressing pedigree or serialization measures for dangerous drugs, the board shall publish a notice that Sections 4034, 4163, 4163.1, 4163.2, 4163.4, and 4163.5 are inoperative.

(3) Within 90 days of the enactment of federal legislation or adoption of a regulation that is inconsistent with any provision of California law governing the application of any pedigree or serialization requirement or standard, the board shall adopt emergency regulations necessary to reflect the inoperation of state law.

(b) (1) If the Food and Drug Administration (FDA) enacts any rule, standard, or takes any other action that is inconsistent with any provision of California law governing application of a pedigree to a dangerous drug, that provision of California law shall be inoperative.

(2) Within 90 days of the FDA enacting any rule, standard, or taking any other action that is inconsistent with any provision of California law governing application of a pedigree to a dangerous drug, the board shall publish a notice that the provision is inoperative.

(3) Within 90 days of the FDA enacting any rule, standard, or taking any other action that is inconsistent with any provision of California law governing application of a pedigree to a dangerous drug, the board shall adopt emergency regulations necessary to reflect the inoperation of state law.
